UFO Headline News Friday June 2nd,
2017

1
00:00:07,430 --> 00:00:05,240
hello it's Friday June 2nd 2017 you are

2
00:00:10,280 --> 00:00:07,440
listening to inception Radio Network

3
00:00:14,530 --> 00:00:10,290
voice of the fringe majority this is

4
00:00:18,740 --> 00:00:14,540
Carol Carl with UFO headline news

5
00:00:21,170 --> 00:00:18,750
the folks at earth sky comm that amazing

6
00:00:24,470 --> 00:00:21,180
sight promised us a weekend that's a

7
00:00:27,679 --> 00:00:24,480
great time to see Venus there are images

8
00:00:31,310 --> 00:00:27,689
of course as usual and it shows us an

9
00:00:34,819 --> 00:00:31,320
elongation Venus is swinging 46 degrees

10
00:00:37,610 --> 00:00:34,829
west of the Sun after today Venus will

11
00:00:40,400 --> 00:00:37,620
slowly but surely fall sunward toward

12
00:00:42,590 --> 00:00:40,410
sunrise and ultimately pass behind the

13
00:00:44,740 --> 00:00:42,600

Sun that's going to happen on January

14

00:00:47,479 --> 00:00:44,750

9th it's called a superior conjunction

15

00:00:50,330 --> 00:00:47,489

that's when this world will transition

16

00:00:53,029 --> 00:00:50,340

out of the morning sky and into the

17

00:00:55,459 --> 00:00:53,039

evening sky if you look up you won't be

18

00:00:57,830 --> 00:00:55,469

able to miss Venus this weekend it's the

19

00:01:00,290 --> 00:00:57,840

brightest planet the third brightest

20

00:01:03,380 --> 00:01:00,300

object in the sky after the Sun and Moon

21

00:01:05,929 --> 00:01:03,390

on these early June mornings the planet

22

00:01:08,570 --> 00:01:05,939

Uranus snuggles up closely with Venus

23

00:01:10,520 --> 00:01:08,580

before dawn Uranus is too low in the

24

00:01:13,130 --> 00:01:10,530

morning sky to be seen by the eye alone

25

00:01:15,440 --> 00:01:13,140

but if your sky happens to be perfectly

26

00:01:17,719 --> 00:01:15,450

clear and free of city lights at night

27

00:01:20,090 --> 00:01:17,729

and if you look in those magic moments

28

00:01:22,580 --> 00:01:20,100

when Venus and Uranus are relatively

29

00:01:25,070 --> 00:01:22,590

high in the sky but free of dawn's early

30

00:01:28,460 --> 00:01:25,080

light you might even be able to glimpse

31

00:01:32,149 --> 00:01:28,470

Uranus through binoculars Uranus is some

32

00:01:33,890 --> 00:01:32,159

10,000 times fainter than Venus but you

33

00:01:36,289 --> 00:01:33,900

have to be careful not to mistake the

34

00:01:39,530 --> 00:01:36,299

star Omicron Pi cm it says right here

35

00:01:41,569 --> 00:01:39,540

for this faint planet Omicron Pi cesium

36

00:01:44,749 --> 00:01:41,579

and Uranus both share that same

37

00:01:47,450 --> 00:01:44,759

binocular field with Venus but Omicron

38

00:01:49,910 --> 00:01:47,460

Pi cesium is a fourth magnitude star yes

39

00:01:51,830 --> 00:01:49,920

you can see it with your eyes alone it's

40

00:01:55,819 --> 00:01:51,840

about four times brighter than Uranus

41

00:01:59,209 --> 00:01:55,829

yet it's 2,600 times fainter than Venus

42

00:02:01,670 --> 00:01:59,219

because Venus orbits the Sun inside of

43

00:02:03,920 --> 00:02:01,680

Earth's orbit this inferior planet

44

00:02:07,100 --> 00:02:03,930

always stays relatively close to the Sun

45

00:02:09,619 --> 00:02:07,110

in our sky Venus can never be opposite

46

00:02:11,960 --> 00:02:09,629

the Sun like a full moon in fact Venus

47

00:02:13,700 --> 00:02:11,970

can't even be 90 degrees from the Sun as

48

00:02:15,560 --> 00:02:13,710

the half-lit moon is

49

00:02:19,130 --> 00:02:15,570

during its first quarter or last quarter

50

00:02:21,710 --> 00:02:19,140

at its greatest elongation Venus is only

51
00:02:24,470 --> 00:02:21,720
about half the angular distance of a

52
00:02:27,140 --> 00:02:24,480
quarter moon from the Sun and again

53
00:02:29,540 --> 00:02:27,150
although Venus extends as far as 46

54
00:02:30,650 --> 00:02:29,550
degrees west of the Sun from every place

55
00:02:32,870 --> 00:02:30,660
worldwide

56
00:02:35,210 --> 00:02:32,880
that does not mean Venus rise as an

57
00:02:37,730 --> 00:02:35,220
equal amount of time before sunrise at

58
00:02:38,450 --> 00:02:37,740
the earth's equator zero degrees

59
00:02:41,300 --> 00:02:38,460
latitude

60
00:02:44,120 --> 00:02:41,310
Venus rises a solid three hours before

61
00:02:46,160 --> 00:02:44,130
the Sun however at those mid northern

62
00:02:48,710 --> 00:02:46,170
latitudes Venus rises some two hours

63
00:02:50,930 --> 00:02:48,720

before sunrise and at mid southern

64

00:02:53,240 --> 00:02:50,940

latitudes in the southern hemisphere you

65

00:02:55,460 --> 00:02:53,250

folks get to see Venus rise for hours

66

00:02:57,710 --> 00:02:55,470

before sunup there are two reasons

67

00:03:00,010 --> 00:02:57,720

actually why Venus rises sooner before

68

00:03:02,390 --> 00:03:00,020

sunrise in the more southerly latitudes

69

00:03:05,420 --> 00:03:02,400

first there's that thing called the

70

00:03:08,030 --> 00:03:05,430

ecliptic the pathway of the Sun Moon and

71

00:03:10,310 --> 00:03:08,040

planets Idiot's the morning horizon at a

72

00:03:12,770 --> 00:03:10,320

steep angle for folks in the southern

73

00:03:14,960 --> 00:03:12,780

hemisphere and meanwhile it hits at a

74

00:03:17,110 --> 00:03:14,970

more shallow angle in those northerly

75

00:03:18,770 --> 00:03:17,120

latitudes for the northern hemisphere

76

00:03:21,410 --> 00:03:18,780

logic yes

77

00:03:23,570 --> 00:03:21,420

moreover Venus lies somewhat south of

78

00:03:25,700 --> 00:03:23,580

the ecliptic that causes Venus to rise

79

00:03:27,320 --> 00:03:25,710

all the earlier for the southern

80

00:03:30,590 --> 00:03:27,330

hemisphere but all the later

81

00:03:32,120 --> 00:03:30,600

in the northern hemisphere at this point

82

00:03:34,370 --> 00:03:32,130

gentle listeners we should remind you

83

00:03:37,970 --> 00:03:34,380

there are no pop quizzes here nothing to

84

00:03:40,730 --> 00:03:37,980

study just listen learn and enjoy bottom

85

00:03:44,810 --> 00:03:40,740

line on the dates of June 2nd 3rd and

86

00:03:47,870 --> 00:03:44,820

4th 2017 the moon will be sweeping past

87

00:03:50,660 --> 00:03:47,880

Jupiter with Venus up well before dawn

88

00:03:53,600 --> 00:03:50,670

Jupiter is now the brightest star like

89

00:03:56,300 --> 00:03:53,610

object in the evening sky and here's a

90

00:03:58,760 --> 00:03:56,310

bonus if your sky is somewhat dark you

91

00:04:01,550 --> 00:03:58,770

can watch for the constellation Corvis

92

00:04:04,850 --> 00:04:01,560

the crow you'll be pointing right at the

93

00:04:07,430 --> 00:04:04,860

star speaker we weren't able to find any

94

00:04:10,460 --> 00:04:07,440

kind of a real hearty follow-up for that

95

00:04:12,020 --> 00:04:10,470

expedition 51 unlocking and the two crew

96

00:04:14,690 --> 00:04:12,030

members that we're going to land in

97

00:04:17,300 --> 00:04:14,700

Kazakhstan just a little bit so here's

98

00:04:22,159 --> 00:04:17,310

what we've got this was posted by Mark

99

00:04:26,910 --> 00:04:22,169

Garcia at blogs nasa.gov at 7:04 a.m.

100

00:04:28,110 --> 00:04:26,920

today after spending 194 days

101
00:04:31,200 --> 00:04:28,120
aboard the International Space Station

102
00:04:33,540 --> 00:04:31,210
expedition 51 crew members oleg

novitskiy of Roscosmos and thomas

104
00:04:38,880 --> 00:04:35,830
biskits of the european space agency

105
00:04:41,430 --> 00:04:38,890
undocked from the station at 6:47 a.m.

106
00:04:44,010 --> 00:04:41,440
Eastern Daylight Time to begin their

107
00:04:47,130 --> 00:04:44,020
voyage home the undocking marked the

108
00:04:49,320 --> 00:04:47,140
official start of expedition 52 aboard

109
00:04:52,380 --> 00:04:49,330
the space station yes there was a change

110
00:04:55,170 --> 00:04:52,390
of command ceremony NASA television

111
00:04:57,780 --> 00:04:55,180
aired live coverage of the soyuz deorbit

112
00:05:00,360 --> 00:04:57,790
burn and landing that started at 8:45

113
00:05:02,280 --> 00:05:00,370

a.m. the duo was set to land in

114

00:05:05,100 --> 00:05:02,290

kazakhstan at 10:10 a.m.

115

00:05:06,450 --> 00:05:05,110

that's 8:20 p.m. Kazakhstan time

116

00:05:09,240 --> 00:05:06,460

together

117

00:05:11,570 --> 00:05:09,250

the expedition 51 crew members pursued

118

00:05:14,610 --> 00:05:11,580

hundreds of experiments in biology

119

00:05:17,820 --> 00:05:14,620

biotechnology physical science and earth

120

00:05:20,460 --> 00:05:17,830

science aboard humanity's only orbiting

121

00:05:24,270 --> 00:05:20,470

laboratory their returns going to wrap

122

00:05:27,870 --> 00:05:24,280

up 196 days in space since their launch

123

00:05:29,760 --> 00:05:27,880

on November 17 2016 we're keeping our

124

00:05:32,490 --> 00:05:29,770

eyes open for more information about

125

00:05:35,580 --> 00:05:32,500

this meanwhile there will be a link for

126

00:05:38,100 --> 00:05:35,590

the NASA TV live deorbit burn footage

127

00:05:41,940 --> 00:05:38,110

you can find that later at UFO headline

128

00:05:44,970 --> 00:05:41,950

news calm and another follow up here's a

129

00:05:48,240 --> 00:05:44,980

headline weather scrubs first SpaceX

130

00:05:50,010 --> 00:05:48,250

attempt to reef lie a dragon this is an

131

00:05:53,640 --> 00:05:50,020

update they were going to try it

132

00:05:56,580 --> 00:05:53,650

yesterday but as of 4:30 p.m. yesterday

133

00:05:58,620 --> 00:05:56,590

bad weather prevailed due to lightning

134

00:06:00,870 --> 00:05:58,630

in the vicinity of Kennedy Space Center

135

00:06:01,770 --> 00:06:00,880

which is not permitted within 30 minutes

136

00:06:04,380 --> 00:06:01,780

of liftoff

137

00:06:06,660 --> 00:06:04,390

SpaceX scrubbed Thursday's launch

138

00:06:10,710 --> 00:06:06,670

attempt the next attempt will come at

139

00:06:12,600 --> 00:06:10,720

5:07 p.m. Eastern Time on Saturday the

140

00:06:15,420 --> 00:06:12,610

conditions weren't great as early as

141

00:06:17,640 --> 00:06:15,430

11:55 p.m. clouds scattered

142

00:06:20,250 --> 00:06:17,650

thunderstorms and that eventually led to

143

00:06:22,500 --> 00:06:20,260

the scrub the launch is significant

144

00:06:25,500 --> 00:06:22,510

because it marked SpaceX's first attempt

145

00:06:27,570 --> 00:06:25,510

to reef lie a Dragon spacecraft this

146

00:06:29,640 --> 00:06:27,580

particular dragon first flew to the

147

00:06:33,780 --> 00:06:29,650

International Space Station in September

148

00:06:36,600 --> 00:06:33,790

of 2014 it delivered nearly 2.5 tons of

149

00:06:38,940 --> 00:06:36,610

cargo that was SpaceX s fourth supply

150

00:06:40,380 --> 00:06:38,950

mission to the orbiting lab Thursday's

151

00:06:42,570 --> 00:06:40,390

well what they tried

152

00:06:45,690 --> 00:06:42,580

due on Thursday whenever they get it up

153

00:06:47,460 --> 00:06:45,700

it will be the company's 11th launch the

154

00:06:49,590 --> 00:06:47,470

spacecraft has undergone significant

155

00:06:52,710 --> 00:06:49,600

refurbishment and it's got a new heat

156

00:06:54,990 --> 00:06:52,720

shield nonetheless the flying vehicle

157

00:06:58,680 --> 00:06:55,000

again would represent a significant

158

00:07:01,080 --> 00:06:58,690

milestone for SpaceX in six decades of

159

00:07:05,070 --> 00:07:01,090

space flight only the five space

160

00:07:07,800 --> 00:07:05,080

shuttles to x-37b space planes and a

161

00:07:11,280 --> 00:07:07,810

single Soviet VA spacecraft have made

162

00:07:14,100 --> 00:07:11,290

two or more orbital flights no private

163

00:07:15,990 --> 00:07:14,110

company has ever achieved this feat we

164

00:07:20,190 --> 00:07:16,000

are following this and we will keep you

165

00:07:23,400 --> 00:07:20,200

posted how about a UFO sighting from UFO

166

00:07:27,330 --> 00:07:23,410

mg comm we're going to guess that's UFO

167

00:07:28,860 --> 00:07:27,340

mag magazine perhaps at any rate the

168

00:07:32,280 --> 00:07:28,870

sighting happened in Monterey Park

169

00:07:35,730 --> 00:07:32,290

California on the 25th of May there's a

170

00:07:36,900 --> 00:07:35,740

summary blue orb lit up one mile radius

171

00:07:40,110 --> 00:07:36,910

of land

172

00:07:43,110 --> 00:07:40,120

Orvis ended straight up and turned white

173

00:07:46,830 --> 00:07:43,120

in color let's read the first person I

174

00:07:48,780 --> 00:07:46,840

witness report I was standing outside at

175

00:07:52,110 --> 00:07:48,790

the location listed above in Monterey

176

00:07:55,140 --> 00:07:52,120

Park California and a bright blue light

177

00:07:57,960 --> 00:07:55,150

lit up the night sky causing me to see

178

00:08:01,020 --> 00:07:57,970

my own shadow on the ground as I looked

179

00:08:04,320 --> 00:08:01,030

up into the sky I observed a light blue

180

00:08:07,470 --> 00:08:04,330

orb ascending up into the sky at a high

181

00:08:10,820 --> 00:08:07,480

rate of speed as this thing ascended it

182

00:08:13,320 --> 00:08:10,830

turned into a larger bright white orb

183

00:08:16,890 --> 00:08:13,330

the orb reached an altitude where it

184

00:08:18,090 --> 00:08:16,900

became a spherical haze it dimmed out of

185

00:08:22,050 --> 00:08:18,100

sight through the heavy cloud cover

186

00:08:24,900 --> 00:08:22,060

above I'm a big believer in UFOs and I'm

187

00:08:27,330 --> 00:08:24,910

convinced we are not alone this isn't my

188

00:08:29,760 --> 00:08:27,340

first experience I didn't feel in fear

189

00:08:32,310 --> 00:08:29,770

for my safety at all I was completely

190

00:08:35,160 --> 00:08:32,320

caught off guard when this occurred my

191

00:08:38,100 --> 00:08:35,170

reaction to this was I immediately knew

192

00:08:41,820 --> 00:08:38,110

it was a UFO or something out of this

193

00:08:44,640 --> 00:08:41,830

world the speed it was so fast it was

194

00:08:47,100 --> 00:08:44,650

able to travel up into the atmosphere it

195

00:08:50,280 --> 00:08:47,110

was beyond anything that we probably can

196

00:08:52,680 --> 00:08:50,290

create as humans it took milliseconds to

197

00:08:54,390 --> 00:08:52,690

travel from approximately 500 feet above

198

00:08:57,450 --> 00:08:54,400

my head to

199

00:08:59,790 --> 00:08:57,460

miles up in the sky if you were to blink

200

00:09:01,710 --> 00:08:59,800

you would have missed it all this

201
00:09:05,250 --> 00:09:01,720
occurred within two to five seconds if

202
00:09:08,190 --> 00:09:05,260
that I found a picture later online it

203
00:09:11,850 --> 00:09:08,200
resembles what I saw it's a site called

204
00:09:13,680 --> 00:09:11,860
AI F science quote what on earth was

205
00:09:16,380 --> 00:09:13,690
this mysterious light in the sky above

206
00:09:20,100 --> 00:09:16,390
the West Coast last night end quotes is

207
00:09:21,780 --> 00:09:20,110
the title for exactly what I saw I was

208
00:09:24,750 --> 00:09:21,790
googling to see if anyone else had seen

209
00:09:25,550 --> 00:09:24,760
anything remotely close and I found

210
00:09:28,710 --> 00:09:25,560
something

211
00:09:30,330 --> 00:09:28,720
curious that's always a good idea see if

212
00:09:33,210 --> 00:09:30,340
someone saw what you saw

213
00:09:36,150 --> 00:09:33,220

where and when sometimes there's comfort

214

00:09:39,120 --> 00:09:36,160

in corroboration we've got a very

215

00:09:42,180 --> 00:09:39,130

interesting story from UFO stalker calm

216

00:09:44,760 --> 00:09:42,190

the title the headline is UFO sighting

217

00:09:46,680 --> 00:09:44,770

in Yucca Valley California but there's

218

00:09:49,470 --> 00:09:46,690

something a little extraordinary about

219

00:09:52,470 --> 00:09:49,480

who had this sighting it was none other

220

00:09:54,360 --> 00:09:52,480

than Melinda Lasley you might recognize

221

00:09:56,160 --> 00:09:54,370

that name gentle listeners Melinda

222

00:09:59,190 --> 00:09:56,170

Leslie has been a guest on various shows

223

00:10:01,470 --> 00:09:59,200

here on inception radio network and this

224

00:10:04,020 --> 00:10:01,480

last thing that she did that's made the

225

00:10:06,000 --> 00:10:04,030

news here is something that happened

226

00:10:09,240 --> 00:10:06,010

during the contact in the desert

227

00:10:11,490 --> 00:10:09,250

conference just a while back she takes

228

00:10:13,710 --> 00:10:11,500

groups out on the dark nights that are

229

00:10:16,920 --> 00:10:13,720

present there in the desert in Joshua

230

00:10:19,320 --> 00:10:16,930

Tree and has probably third generation

231

00:10:21,600 --> 00:10:19,330

or greater night-vision goggles which

232

00:10:23,850 --> 00:10:21,610

she of course allows her people on the

233

00:10:25,890 --> 00:10:23,860

tour to use and of course they come away

234

00:10:29,280 --> 00:10:25,900

with extraordinary sightings and

235

00:10:32,460 --> 00:10:29,290

experiences well Melinda Leslie had one

236

00:10:35,670 --> 00:10:32,470

herself let's hear this has a MUFON case

237

00:10:37,530 --> 00:10:35,680

number it's eight four one two three the

238

00:10:40,740 --> 00:10:37,540

date of this sighting was the 21st of

239

00:10:44,070 --> 00:10:40,750

May 2017 and it was reported the first

240

00:10:48,480 --> 00:10:44,080

of June the same year in summary melinda

241

00:10:51,960 --> 00:10:48,490

leslie says military jet - UFOs flying

242

00:10:55,590 --> 00:10:51,970

in tandem immediately following sighted

243

00:10:57,900 --> 00:10:55,600

amber diamond shaped craft yucca valley

244

00:11:00,540 --> 00:10:57,910

is the geo location of this sighting

245

00:11:03,090 --> 00:11:00,550

yucca valley california yes there are

246

00:11:04,890 --> 00:11:03,100

photos that accompany the sighting and a

247

00:11:07,770 --> 00:11:04,900

video the likes of which this

248

00:11:08,220 --> 00:11:07,780

broadcaster has never seen if you want

249

00:11:10,230 --> 00:11:08,230

to check though

250

00:11:13,950 --> 00:11:10,240

for yourselves they'll be available

251
00:11:15,720 --> 00:11:13,960
later at UFO headline news calm okay

252
00:11:18,480 --> 00:11:15,730
down to the citing specifics here

253
00:11:21,420 --> 00:11:18,490
Melinda had a viewing distance of 501

254
00:11:23,640 --> 00:11:21,430
feet to one mile the altitude was over

255
00:11:25,920 --> 00:11:23,650
500 feet and there wasn't any cloud

256
00:11:28,410 --> 00:11:25,930
cover the sighting duration was 10

257
00:11:31,290 --> 00:11:28,420
minutes the object features however just

258
00:11:33,660 --> 00:11:31,300
get that vague description of none the

259
00:11:36,800 --> 00:11:33,670
flight path was a path with directional

260
00:11:39,300 --> 00:11:36,810
change this object had a diamond shape

261
00:11:41,490 --> 00:11:39,310
let's see what the weather was doing

262
00:11:43,410 --> 00:11:41,500
over Yucca Valley California there was a

263
00:11:47,010 --> 00:11:43,420

maximum temperature of 98 degrees

264

00:11:49,740 --> 00:11:47,020

Fahrenheit 37 degrees Celsius yep it's

265

00:11:52,130 --> 00:11:49,750

the desert the mean temperature was 82

266

00:11:55,440 --> 00:11:52,140

degrees Fahrenheit 28 degrees Celsius

267

00:11:58,650 --> 00:11:55,450

dropping down to a chilly 66 degrees

268

00:12:00,150 --> 00:11:58,660

Fahrenheit 19 degrees Celsius the

269

00:12:02,760 --> 00:12:00,160

visibility factors were nothing

270

00:12:05,700 --> 00:12:02,770

remarkable the standard 10 miles 16

271

00:12:08,460 --> 00:12:05,710

kilometers was the maximum down to a

272

00:12:11,160 --> 00:12:08,470

minimum of nine miles 14 kilometers and

273

00:12:13,860 --> 00:12:11,170

there was nothing abnormal about the

274

00:12:15,660 --> 00:12:13,870

weather conditions over Yucca Valley so

275

00:12:18,350 --> 00:12:15,670

buckle up gentle listeners here is

276
00:12:22,710 --> 00:12:18,360
Melinda Leslie's incredible account and

277
00:12:25,550 --> 00:12:22,720
she begins incredible video footage of a

278
00:12:27,870 --> 00:12:25,560
military jet chasing a UFO

279
00:12:31,560 --> 00:12:27,880
parenthetically she says yeah that's

280
00:12:34,380 --> 00:12:31,570
right chasing one right over our heads

281
00:12:36,750 --> 00:12:34,390
while out at the infamous giant rock in

282
00:12:38,550 --> 00:12:36,760
Landers at this year's contact in the

283
00:12:42,180 --> 00:12:38,560
desert conference in Joshua Tree

284
00:12:45,000 --> 00:12:42,190
California i melinda leslie was leading

285
00:12:48,000 --> 00:12:45,010
my sunday night May 21st sky watch with

286
00:12:50,900 --> 00:12:48,010
night-vision goggle intensively out at

287
00:12:53,850 --> 00:12:50,910
giant rock on the third night of viewing

288
00:12:56,910 --> 00:12:53,860

luckily one of my participants Graham

289

00:12:59,610 --> 00:12:56,920

Slater caught this and many of our other

290

00:13:02,430 --> 00:12:59,620

sightings we had sightings on all three

291

00:13:03,990 --> 00:13:02,440

nights no less Graham Slater caught this

292

00:13:05,160 --> 00:13:04,000

with his black and white night vision

293

00:13:07,500 --> 00:13:05,170

video camera

294

00:13:09,480 --> 00:13:07,510

his additional footage of some of the

295

00:13:11,670 --> 00:13:09,490

other incredible sightings is going to

296

00:13:14,220 --> 00:13:11,680

be posted later at a future date once

297

00:13:16,610 --> 00:13:14,230

they are all compiled here's a

298

00:13:19,770 --> 00:13:16,620

description of the jet chase sighting

299

00:13:22,140 --> 00:13:19,780

just before 10:00 p.m. did not note the

300

00:13:25,260 --> 00:13:22,150

exact time some of my

301
00:13:28,260 --> 00:13:25,270
and I saw a large amber colored light

302
00:13:30,150 --> 00:13:28,270
low on the horizon just behind giant

303
00:13:32,700 --> 00:13:30,160
rock that's where my whole group of

304
00:13:34,350 --> 00:13:32,710
about 50 plus people were gathered we

305
00:13:37,800 --> 00:13:34,360
were using 15 pairs of night-vision

306
00:13:40,650 --> 00:13:37,810
goggles a contingency of about 20 of us

307
00:13:43,230 --> 00:13:40,660
ran to get a better view of it to the

308
00:13:46,460 --> 00:13:43,240
naked eye this thing appeared to be a

309
00:13:49,290 --> 00:13:46,470
large orangish or amber light and

310
00:13:52,290 --> 00:13:49,300
quoting some of the 20 people they said

311
00:13:54,780 --> 00:13:52,300
it quote flew like a bumblebee and

312
00:13:56,850 --> 00:13:54,790
quotes there's a guest named Tana

313
00:13:59,250 --> 00:13:56,860

Newberry who came running with a pair of

314

00:13:59,610 --> 00:13:59,260

goggles in hand and she got a good look

315

00:14:01,770 --> 00:13:59,620

at it

316

00:14:03,720 --> 00:14:01,780

she said that through the goggles this

317

00:14:06,660 --> 00:14:03,730

thing looked like a large diamond-shaped

318

00:14:09,600 --> 00:14:06,670

UFO she drew a picture there is a

319

00:14:12,000 --> 00:14:09,610

picture attached here this object and

320

00:14:14,310 --> 00:14:12,010

flew behind a small hill right behind

321

00:14:16,620 --> 00:14:14,320

the entire sky watch larger group and

322

00:14:19,740 --> 00:14:16,630

those of us who ran off then walked back

323

00:14:22,950 --> 00:14:19,750

to join the others at this point three

324

00:14:25,020 --> 00:14:22,960

military jets flew over in the direction

325

00:14:26,250 --> 00:14:25,030

of the object which was now gone from

326

00:14:29,700 --> 00:14:26,260

sight behind the hill

327

00:14:32,340 --> 00:14:29,710

some of us commented if quote they were

328

00:14:35,550 --> 00:14:32,350

following it meaning the Jets they were

329

00:14:37,710 --> 00:14:35,560

a few minutes too late just then we

330

00:14:40,380 --> 00:14:37,720

heard the sound of a low-flying jet from

331

00:14:42,630 --> 00:14:40,390

behind the hill and suddenly clearing

332

00:14:46,440 --> 00:14:42,640

the top of the hill right over our heads

333

00:14:49,940 --> 00:14:46,450

came a very fast military jet chasing a

334

00:14:52,380 --> 00:14:49,950

faster large red glowing light the

335

00:14:54,810 --> 00:14:52,390

military jet had both red and white

336

00:14:57,450 --> 00:14:54,820

blinking strobe lights and glowing

337

00:15:00,600 --> 00:14:57,460

afterburners it was very loud as it flew

338

00:15:03,660 --> 00:15:00,610

directly above our heads the large red

339

00:15:07,050 --> 00:15:03,670

light had blinking lights and no sound

340

00:15:10,140 --> 00:15:07,060

at all it became clear to all 50

341

00:15:11,850 --> 00:15:10,150

witnesses this was no jet those folks

342

00:15:13,830 --> 00:15:11,860

present who looked with the aid of the

343

00:15:16,380 --> 00:15:13,840

goggles said what they were seeing was

344

00:15:19,830 --> 00:15:16,390

either two lights or one object with two

345

00:15:21,810 --> 00:15:19,840

light sources on it after extensively

346

00:15:25,050 --> 00:15:21,820

reviewing my footage I'm nearly certain

347

00:15:28,500 --> 00:15:25,060

that this shows two UFOs fast-moving

348

00:15:31,050 --> 00:15:28,510

lights flying in perfect locked tandem

349

00:15:32,750 --> 00:15:31,060

with one another it appears you can see

350

00:15:35,550 --> 00:15:32,760

stars between them in the background

351
00:15:38,519 --> 00:15:35,560
suggesting that these are two separate

352
00:15:41,250 --> 00:15:38,529
object as is usually the case this

353
00:15:43,800 --> 00:15:41,260
footage while incredible does not do the

354
00:15:46,080 --> 00:15:43,810
sighting justice the videos in black and

355
00:15:48,390 --> 00:15:46,090
white night vision not full-color naked

356
00:15:50,910 --> 00:15:48,400
eye vision and it doesn't have any sound

357
00:15:53,640 --> 00:15:50,920
so you're not able to hear the palpable

358
00:15:58,200 --> 00:15:53,650
excitement of 50-plus witnesses

359
00:16:00,750 --> 00:15:58,210
screaming and cheering oh if there's a

360
00:16:03,990 --> 00:16:00,760
mind's eye is there a mind's ear we can

361
00:16:05,490 --> 00:16:04,000
hear that with our minds ear gentle

362
00:16:06,630 --> 00:16:05,500
listeners if you've got some time on

363
00:16:08,730 --> 00:16:06,640

your hands you might want to sleuth

364

00:16:11,820 --> 00:16:08,740

around on the internet and check out a

365

00:16:14,930 --> 00:16:11,830

giant rock George Van Tassel space

366

00:16:18,180 --> 00:16:14,940

brothers at all it's a fascinating read

367

00:16:21,510 --> 00:16:18,190

the rest of our cyber UFO sighting trip

368

00:16:24,900 --> 00:16:21,520

now takes us to Phoenix Arizona MUFON

369

00:16:27,800 --> 00:16:24,910

Case number eight for 1:07 this is an

370

00:16:31,200 --> 00:16:27,810

older sighting it's from July 29th of

371

00:16:33,980 --> 00:16:31,210

2016 nobody reported it until the 31st

372

00:16:37,140 --> 00:16:33,990

of May this year here's the summary

373

00:16:40,560 --> 00:16:37,150

friend took photo of storm while driving

374

00:16:44,670 --> 00:16:40,570

home realized after the fact he captured

375

00:16:46,620 --> 00:16:44,680

more than storm yes there are photos and

376
00:16:49,620 --> 00:16:46,630
you can check them out later do your own

377
00:16:53,010 --> 00:16:49,630
home analysis at UFO headline news

378
00:16:55,079 --> 00:16:53,020
dot-com citing specifics give us a

379
00:16:58,829 --> 00:16:55,089
viewing distance that was over one mile

380
00:17:01,110 --> 00:16:58,839
the altitude was over 500 feet nope no

381
00:17:04,500 --> 00:17:01,120
cloud cover the sighting duration was

382
00:17:07,559 --> 00:17:04,510
only 5 seconds object features other and

383
00:17:09,480 --> 00:17:07,569
unknown apparently the flight path of

384
00:17:11,550 --> 00:17:09,490
this thing did not apply according to

385
00:17:16,410 --> 00:17:11,560
our reporting witness and the object was

386
00:17:19,679 --> 00:17:16,420
shaped like a circle the weather 112

387
00:17:22,860 --> 00:17:19,689
degrees fahrenheit in Phoenix Arizona

388
00:17:25,860 --> 00:17:22,870

44 degrees Celsius the mean temperature

389

00:17:29,130 --> 00:17:25,870

was 95 degrees Fahrenheit 35 degrees

390

00:17:32,550 --> 00:17:29,140

Celsius and the maximum 77 degrees

391

00:17:33,960 --> 00:17:32,560

Fahrenheit 25 degrees Celsius the

392

00:17:36,419 --> 00:17:33,970

visibility factors were nothing

393

00:17:39,150 --> 00:17:36,429

remarkable the maximum was the standard

394

00:17:41,760 --> 00:17:39,160

10 mile 16 kilometers dropping down to a

395

00:17:44,570 --> 00:17:41,770

minimum of one mile two kilometers

396

00:17:48,720 --> 00:17:44,580

because it was raining and thundering

397

00:17:51,270 --> 00:17:48,730

very short report the interest is in the

398

00:17:54,780 --> 00:17:51,280

and to see the photos you can do that

399

00:17:57,570 --> 00:17:54,790

via link you know where here's the very

400

00:18:00,540 --> 00:17:57,580

short report a friend sent me these

401
00:18:03,300 --> 00:18:00,550
photos taken in Arizona while driving on

402
00:18:05,640 --> 00:18:03,310
the freeway he did not see the object in

403
00:18:08,130 --> 00:18:05,650
question until later as he looked at the

404
00:18:10,470 --> 00:18:08,140
photos when he got home he was initially

405
00:18:13,110 --> 00:18:10,480
just taking a picture of the storm

406
00:18:15,300 --> 00:18:13,120
clouds this is all I know and I'm

407
00:18:18,540 --> 00:18:15,310
sharing this because I believe these

408
00:18:20,970 --> 00:18:18,550
photos to be real to this broadcasters

409
00:18:23,430 --> 00:18:20,980
eyes yes they look genuine but then

410
00:18:27,060 --> 00:18:23,440
again don't the really good hoaxes come

411
00:18:29,130 --> 00:18:27,070
off that way just saying while in the

412
00:18:32,040 --> 00:18:29,140
beautiful state of Arizona be sure to

413
00:18:34,560 --> 00:18:32,050

visit El Mirage oh let's do that it's

414

00:18:37,760 --> 00:18:34,570

MUFON case number eight four zero five

415

00:18:41,100 --> 00:18:37,770

to date of the sighting five fourteen

416

00:18:44,670 --> 00:18:41,110

2017 date submitted five twenty nine

417

00:18:47,580 --> 00:18:44,680

twenty seventeen summary witnessed by

418

00:18:51,450 --> 00:18:47,590

wife and I you can hear us describe what

419

00:18:54,390 --> 00:18:51,460

we see as we see it sighting specifics

420

00:18:57,720 --> 00:18:54,400

give us a viewing distance 101 to five

421

00:19:00,180 --> 00:18:57,730

hundred feet fairly close altitude 500

422

00:19:02,790 --> 00:19:00,190

feet or less and there wasn't any cloud

423

00:19:06,210 --> 00:19:02,800

cover the sighting duration was 44

424

00:19:09,120 --> 00:19:06,220

seconds object features unknown object

425

00:19:11,550 --> 00:19:09,130

flight path hovering then path and path

426

00:19:13,980 --> 00:19:11,560

with directional change and it seems

427

00:19:17,130 --> 00:19:13,990

that this particular object had a disc

428

00:19:19,260 --> 00:19:17,140

shape another hot desert temperature the

429

00:19:22,320 --> 00:19:19,270

maximum temperature at the time in El

430

00:19:24,800 --> 00:19:22,330

Mirage Arizona was 91 degrees Fahrenheit

431

00:19:28,290 --> 00:19:24,810

which translates to 33 degrees Celsius

432

00:19:31,200 --> 00:19:28,300

down to a minimum 71 degrees Fahrenheit

433

00:19:33,930 --> 00:19:31,210

22 degrees Celsius all of those

434

00:19:36,960 --> 00:19:33,940

visibility factors stood the same 10

435

00:19:39,810 --> 00:19:36,970

miles 16 kilometers nothing abnormal

436

00:19:42,630 --> 00:19:39,820

here about the weather here's the

437

00:19:46,320 --> 00:19:42,640

account on the night of May 14th a

438

00:19:49,290 --> 00:19:46,330

Sunday at 10:08 p.m. my wife and I went

439

00:19:51,180 --> 00:19:49,300

for our usual night walk halfway through

440

00:19:54,420 --> 00:19:51,190

our walk we both looked up into a

441

00:19:57,120 --> 00:19:54,430

cloudless night sky what caught our

442

00:19:59,640 --> 00:19:57,130

attention was this red orange orb

443

00:20:02,070 --> 00:19:59,650

hovering just above us and to the right

444

00:20:05,159 --> 00:20:02,080

I immediately pulled out my phone

445

00:20:07,680 --> 00:20:05,169

to capture whatever this was being a

446

00:20:11,399 --> 00:20:07,690

former infantry marine I knew what it

447

00:20:13,590 --> 00:20:11,409

wasn't a flare this object was over a

448

00:20:16,590 --> 00:20:13,600

residential neighborhood and it was the

449

00:20:18,659 --> 00:20:16,600

only thing in the sky it hovered for a

450

00:20:22,049 --> 00:20:18,669

few seconds before flying in a straight

451
00:20:24,750 --> 00:20:22,059
path and then it started to bounce and

452
00:20:27,600 --> 00:20:24,760
fly in different directions before

453
00:20:29,430 --> 00:20:27,610
moving straight ahead again afterwards

454
00:20:32,100 --> 00:20:29,440
as this thing started to flicker on and

455
00:20:34,440 --> 00:20:32,110
off before disappearing you can hear on

456
00:20:36,720 --> 00:20:34,450
the video the exchange my wife and I are

457
00:20:39,389 --> 00:20:36,730
having as we describe what we are seeing

458
00:20:42,509 --> 00:20:39,399
and they were both seeing it that's the

459
00:20:44,909 --> 00:20:42,519
coolest part let's take our cool selves

460
00:20:48,060 --> 00:20:44,919
to Westland Michigan where MUFON Case

461
00:20:51,180 --> 00:20:48,070
number 8 for 1 to 2 happened this

462
00:20:55,379 --> 00:20:51,190
happened May 23rd 2017 it wasn't

463
00:20:59,580 --> 00:20:55,389

reported till June 1st in summary dark

464

00:21:02,519 --> 00:20:59,590

object came from the east made 180

465

00:21:05,759 --> 00:21:02,529

degree turn to the south shape-shifted

466

00:21:08,009 --> 00:21:05,769

formed bell-shape maintain southerly

467

00:21:11,970 --> 00:21:08,019

direction at cloud ceiling for 10

468

00:21:13,769 --> 00:21:11,980

minutes then out of sight line the

469

00:21:15,810 --> 00:21:13,779

sighting specifics other than that

470

00:21:18,720 --> 00:21:15,820

summary include a viewing distance of

471

00:21:22,080 --> 00:21:18,730

501 feet which eventually became a mile

472

00:21:24,690 --> 00:21:22,090

the altitude was over 500 feet yes there

473

00:21:27,060 --> 00:21:24,700

was cloud cover sighting duration 10

474

00:21:30,180 --> 00:21:27,070

minutes the object features though are

475

00:21:32,580 --> 00:21:30,190

simply described as other object flight

476
00:21:35,220 --> 00:21:32,590
paths straight line path and path with

477
00:21:37,980 --> 00:21:35,230
directional change and this object was

478
00:21:40,200 --> 00:21:37,990
shaped like a sphere here's a weather

479
00:21:43,320 --> 00:21:40,210
report at the time in Westland Michigan

480
00:21:46,470 --> 00:21:43,330
the maximum temperature was 73 degrees

481
00:21:49,649 --> 00:21:46,480
Fahrenheit 23 degrees Celsius minimum

482
00:21:51,930 --> 00:21:49,659
temperature 57 degrees Fahrenheit 14

483
00:21:53,250 --> 00:21:51,940
degrees Celsius the visibility factors

484
00:21:57,539 --> 00:21:53,260
went something like this

485
00:22:00,600 --> 00:21:57,549
maximum 10 miles 16 kilometers mean 10

486
00:22:03,659 --> 00:22:00,610
miles 16 kilometers and the minimum

487
00:22:06,659 --> 00:22:03,669
visibility was 10 miles 16 kilometers

488
00:22:08,610 --> 00:22:06,669

there was nothing abnormal about the

489

00:22:12,360 --> 00:22:08,620

weather that would impact this sighting

490

00:22:15,650 --> 00:22:12,370

here is the sighting May 23rd

491

00:22:18,680 --> 00:22:15,660

around 6:30 p.m. Eastern Standard Time

492

00:22:21,690 --> 00:22:18,690

overcast low ceilings winds

493

00:22:24,960 --> 00:22:21,700

south-southwest at 20 miles and gusting

494

00:22:27,810 --> 00:22:24,970

my sighting began as I was walking to my

495

00:22:31,020 --> 00:22:27,820

car in the parking lot of OfficeMax

496

00:22:33,419 --> 00:22:31,030

that's off Wayne Road Central City as I

497

00:22:36,840 --> 00:22:33,429

walked out of the store I saw coming

498

00:22:39,690 --> 00:22:36,850

from due east a dark colored object it

499

00:22:42,090 --> 00:22:39,700

was coming directly to me thinking this

500

00:22:44,640 --> 00:22:42,100

was a helicopter heading back to Canton

501
00:22:47,330 --> 00:22:44,650
Plymouth Airport I thought it might be a

502
00:22:50,970 --> 00:22:47,340
news chopper then or a military chopper

503
00:22:53,700 --> 00:22:50,980
because it was a dark object this object

504
00:22:56,640 --> 00:22:53,710
then closed to less than 1/2 a mile and

505
00:22:59,370 --> 00:22:56,650
changed its heading to due south that's

506
00:23:02,010 --> 00:22:59,380
when I noticed this was not a helicopter

507
00:23:05,520 --> 00:23:02,020
I then took out my Google pixel phone

508
00:23:09,120 --> 00:23:05,530
and recorded two sets of video this

509
00:23:11,910 --> 00:23:09,130
object made no sound it rotated and it

510
00:23:14,940 --> 00:23:11,920
shifted its shape this thing displayed

511
00:23:16,799 --> 00:23:14,950
no navigational lights no strobes the

512
00:23:20,070 --> 00:23:16,809
object made a direction heading due

513
00:23:23,280 --> 00:23:20,080

south just below the cloud deck at first

514

00:23:26,280 --> 00:23:23,290

I watched and I questioned I questioned

515

00:23:27,870 --> 00:23:26,290

that rotating is it balloons nah can't

516

00:23:30,120 --> 00:23:27,880

be 20 mile winds from the

517

00:23:32,160 --> 00:23:30,130

south-southwest balloons can't hold a

518

00:23:35,520 --> 00:23:32,170

direct heading into winds nor can they

519

00:23:38,850 --> 00:23:35,530

keep a direct flight path a drone no

520

00:23:41,730 --> 00:23:38,860

can't be the object was rotating and

521

00:23:45,060 --> 00:23:41,740

shape-shifting it had no navigational

522

00:23:48,270 --> 00:23:45,070

lights no strobes it was moving in small

523

00:23:50,100 --> 00:23:48,280

plane restricted space this object was

524

00:23:52,830 --> 00:23:50,110

heading due south into Detroit

525

00:23:55,350 --> 00:23:52,840

Metropolitan Airport Flyway paths

526
00:23:57,720 --> 00:23:55,360
I saw planes in the area south southeast

527
00:24:01,290 --> 00:23:57,730
of the object planes taking off I

528
00:24:04,200 --> 00:24:01,300
watched this object form then into a

529
00:24:07,190 --> 00:24:04,210
bell shape you could clearly see the

530
00:24:10,410 --> 00:24:07,200
object dispersing the air all around it

531
00:24:14,040 --> 00:24:10,420
360 degrees it looked like air off of a

532
00:24:17,040 --> 00:24:14,050
jet at sonic boom time this object moved

533
00:24:19,500 --> 00:24:17,050
in a direct manner it was going 20 to 30

534
00:24:23,070 --> 00:24:19,510
miles per hour there were no lights no

535
00:24:26,610 --> 00:24:23,080
noise this was a rotating shape-shifting

536
00:24:29,400 --> 00:24:26,620
thing estimated the object in the Bell

537
00:24:32,850 --> 00:24:29,410
form for 20 to 30 feet high in

538
00:24:34,470 --> 00:24:32,860

the air at about 20 feet wide I watched

539

00:24:36,720 --> 00:24:34,480

and recorded for two minutes

540

00:24:38,460 --> 00:24:36,730

at one point I thought about chasing

541

00:24:41,700 --> 00:24:38,470

this object but that would have been

542

00:24:44,070 --> 00:24:41,710

hazardous in traffic I've got two videos

543

00:24:46,980 --> 00:24:44,080

but I can't get them to upload off my

544

00:24:50,640 --> 00:24:46,990

phone to my email or to the MUFON site

545

00:24:52,350 --> 00:24:50,650

but you can see them on Facebook so

546

00:24:54,570 --> 00:24:52,360

there's something to do this weekend

547

00:24:57,300 --> 00:24:54,580

gentle listeners put it on your to-do

548
