UFO Headline News Monday June 5th,  
2017

1  
00:00:07,700 --> 00:00:05,360  
hello it's Monday June 5th 2017 you are

2  
00:00:10,580 --> 00:00:07,710  
listening to inception Radio Network

3  
00:00:15,890 --> 00:00:10,590  
voice of the fringe majority this is

4  
00:00:18,380 --> 00:00:15,900  
Carol Karl with UFO headline news we

5  
00:00:20,660 --> 00:00:18,390  
can't just go blindly into this week

6  
00:00:23,540 --> 00:00:20,670  
gentle listeners there's been tragedy

7  
00:00:27,320 --> 00:00:23,550  
and a heartbreak throughout this country

8  
00:00:30,109 --> 00:00:27,330  
and abroad prayers and thoughts of

9  
00:00:33,049 --> 00:00:30,119  
humanity and loving-kindness go out from

10  
00:00:35,120 --> 00:00:33,059  
the bottoms of all of our hearts just

11  
00:00:39,049 --> 00:00:35,130  
sometime today if you can find a second

12  
00:00:42,350 --> 00:00:39,059  
to take that beat take a breath and send

13  
00:00:44,990 --> 00:00:42,360

healing thoughts to everybody but

14

00:00:49,130 --> 00:00:45,000

meanwhile here's something circumpolar

15

00:00:51,590 --> 00:00:49,140

stars don't rise or set well talk about

16

00:00:54,709 --> 00:00:51,600

a midpoint for attitude this is

17

00:00:57,229 --> 00:00:54,719

information from earth sky org we've

18

00:00:59,090 --> 00:00:57,239

spoken about circumpolar stars before

19

00:01:01,549 --> 00:00:59,100

and given them a little bit of a

20

00:01:02,119 --> 00:01:01,559

description but let's flesh it out a tad

21

00:01:05,119 --> 00:01:02,129

shall we

22

00:01:07,910 --> 00:01:05,129

they neither rise nor set they always

23

00:01:10,460 --> 00:01:07,920

remain in the sky in fact they're up

24

00:01:13,010 --> 00:01:10,470

there even in daytime when you can't see

25

00:01:15,350 --> 00:01:13,020

them for instance the stars of the

26

00:01:18,440 --> 00:01:15,360

famous Big Dipper asterism they're

27

00:01:20,749 --> 00:01:18,450

circumpolar at all latitudes north of 41

28

00:01:22,399 --> 00:01:20,759

degrees north which includes the

29

00:01:25,789 --> 00:01:22,409

northern half of the mainland United

30

00:01:28,550 --> 00:01:25,799

States and most of Europe apparently how

31

00:01:31,160 --> 00:01:28,560

many circumpolar stars one can see in

32

00:01:33,800 --> 00:01:31,170

one's own sky that depends on where you

33

00:01:37,100 --> 00:01:33,810

are at the Earth's North and South Poles

34

00:01:40,880 --> 00:01:37,110

every star is circumpolar at the earth's

35

00:01:42,830 --> 00:01:40,890

equator no star is circumpolar places

36

00:01:45,800 --> 00:01:42,840

between the equator and the poles have

37

00:01:48,160 --> 00:01:45,810

some stars that are circumpolar and some

38

00:01:50,780 --> 00:01:48,170

that rise and set daily like the Sun

39

00:01:53,359 --> 00:01:50,790

here in the northern hemisphere we're

40

00:01:56,300 --> 00:01:53,369

lucky to have a moderately bright star

41

00:01:59,749 --> 00:01:56,310

Polaris the North Star nearly coinciding

42

00:02:02,120 --> 00:01:59,759

with the North celestial Pole but of

43

00:02:04,670 --> 00:02:02,130

course that point in the sky that's at

44

00:02:08,779 --> 00:02:04,680

zenith straight overhead at the Earth's

45

00:02:11,720 --> 00:02:08,789

North Pole draw that imaginary line now

46

00:02:13,940 --> 00:02:11,730

down from Polaris the North Star to the

47

00:02:16,160 --> 00:02:13,950

horizon and presto you

48

00:02:19,460 --> 00:02:16,170

have what it takes to draw out the

49

00:02:22,940 --> 00:02:19,470

circle of circumpolar stars in your sky

50

00:02:25,460 --> 00:02:22,950

in the northern hemisphere an imaginary

51  
00:02:28,250 --> 00:02:25,470  
vertical line from the North celestial

52  
00:02:30,410 --> 00:02:28,260  
Pole to your horizon serves as a radius

53  
00:02:33,229 --> 00:02:30,420  
measure for the circle of circumpolar

54  
00:02:35,720 --> 00:02:33,239  
stars in your sky and the closer you are

55  
00:02:38,449 --> 00:02:35,730  
to the Earth's North Pole the closer the

56  
00:02:41,210 --> 00:02:38,459  
North celestial Pole is to your zenith

57  
00:02:42,140 --> 00:02:41,220  
your overhead point for people in the

58  
00:02:45,140 --> 00:02:42,150  
northern hemisphere

59  
00:02:47,180 --> 00:02:45,150  
Polaris nearly pinpoints the center of

60  
00:02:49,550 --> 00:02:47,190  
that great big circle of circumpolar

61  
00:02:52,400 --> 00:02:49,560  
stars on the sky's dome and the

62  
00:02:54,949 --> 00:02:52,410  
imaginary vertical line from Polaris to

63  
00:02:58,280 --> 00:02:54,959

the horizon that depicts the radius

64  
00:03:00,350 --> 00:02:58,290  
measure let your arms serve as something

65  
00:03:02,210 --> 00:03:00,360  
called a circle compass oh this is

66  
00:03:05,479 --> 00:03:02,220  
perfect don't leave home without it

67  
00:03:08,360 --> 00:03:05,489  
it's your arm it enables you to envision

68  
00:03:11,120 --> 00:03:08,370  
the circle of circumpolar stars with

69  
00:03:13,610 --> 00:03:11,130  
your mind's eye closer to the equator

70  
00:03:15,949 --> 00:03:13,620  
the circle of circumpolar stars will

71  
00:03:18,650 --> 00:03:15,959  
grow smaller and nearer to the north

72  
00:03:22,490 --> 00:03:18,660  
pole or South Pole the circle of

73  
00:03:24,349 --> 00:03:22,500  
circumpolar stars grows ever larger the

74  
00:03:26,809 --> 00:03:24,359  
technique for locating the circle of

75  
00:03:29,720 --> 00:03:26,819  
circumpolar stars works in the southern

76

00:03:32,420 --> 00:03:29,730

hemisphere as well but the folks at

77

00:03:36,020 --> 00:03:32,430

earth sky org tell us that's a little

78

00:03:37,849 --> 00:03:36,030

bit trickier to do the star hop that

79

00:03:40,819 --> 00:03:37,859

dance needs a little bit different

80

00:03:43,430 --> 00:03:40,829

choreography because the sky's dome at

81

00:03:45,979 --> 00:03:43,440

Zenith over the Earth's South Pole has

82

00:03:49,460 --> 00:03:45,989

caused practiced stargazers to rely on

83

00:03:52,120 --> 00:03:49,470

the Southern Cross and key stars to star

84

00:03:54,710 --> 00:03:52,130

hop to the South celestial Pole there's

85

00:03:58,069 --> 00:03:54,720

illustrations you can find them later at

86

00:04:01,129 --> 00:03:58,079

UFO headline news Guam ooh look at the

87

00:04:04,039 --> 00:04:01,139

Magellanic Clouds the Southern Cross is

88

00:04:07,129 --> 00:04:04,049

circumpolar anywhere south of 35 degrees

89

00:04:09,979 --> 00:04:07,139

south latitude and yet in the northern

90

00:04:12,740 --> 00:04:09,989

latitude well it's going to be that W or

91

00:04:14,659 --> 00:04:12,750

M shaped constellation depending on

92

00:04:15,830 --> 00:04:14,669

one's point of view the one called

93

00:04:18,650 --> 00:04:15,840

Cassiopeia

94

00:04:21,020 --> 00:04:18,660

that's circumpolar at all places north

95

00:04:23,750 --> 00:04:21,030

of 35 degrees north latitude

96

00:04:26,300 --> 00:04:23,760

there will be charts by the way

97

00:04:27,340 --> 00:04:26,310

Cassiopeia lies on the opposite side of

98

00:04:30,280 --> 00:04:27,350

Polaris

99

00:04:32,650 --> 00:04:30,290

from the Big Dipper so from mid northern

100

00:04:35,350 --> 00:04:32,660

latitudes the Big Dipper and Polaris

101  
00:04:38,410 --> 00:04:35,360  
will make it easy to locate Cassiopeia

102  
00:04:40,630 --> 00:04:38,420  
if Cassiopeia is circumpolar in your sky

103  
00:04:44,530 --> 00:04:40,640  
then the Southern Cross never climbs

104  
00:04:46,570 --> 00:04:44,540  
above your horizon and conversely if the

105  
00:04:49,390 --> 00:04:46,580  
Southern Cross is circumpolar in your

106  
00:04:51,970 --> 00:04:49,400  
sky that constellation Cassiopeia never

107  
00:04:52,860 --> 00:04:51,980  
climbs above the horizon and here's the

108  
00:04:56,440 --> 00:04:52,870  
bottom line

109  
00:04:59,260 --> 00:04:56,450  
circumpolar stars stay above the horizon

110  
00:05:01,810 --> 00:04:59,270  
all hours of the day every day of the

111  
00:05:05,680 --> 00:05:01,820  
year although you can't see them they're

112  
00:05:09,610 --> 00:05:05,690  
up there even in daytime like so many

113  
00:05:11,680 --> 00:05:09,620

other things we postulate and in case

114

00:05:15,130 --> 00:05:11,690

you missed it over the weekend here's

115

00:05:17,980 --> 00:05:15,140

the latest update and recap on SpaceX

116

00:05:20,680 --> 00:05:17,990

they launched that first recycled supply

117

00:05:21,400 --> 00:05:20,690

ship yes they did out of Cape Canaveral

118

00:05:23,880 --> 00:05:21,410

Florida

119

00:05:27,430 --> 00:05:23,890

here we go from The Associated Press

120

00:05:29,710 --> 00:05:27,440

SpaceX launched its first recycled cargo

121

00:05:33,190 --> 00:05:29,720

ship to the International Space Station

122

00:05:36,550 --> 00:05:33,200

on Saturday yet another milestone in its

123

00:05:38,440 --> 00:05:36,560

bid to drive down flight costs after a

124

00:05:41,470 --> 00:05:38,450

two-day delay caused by thunderstorms

125

00:05:44,020 --> 00:05:41,480

the unmanned Falcon rocket blasted off

126  
00:05:46,020 --> 00:05:44,030  
carrying a dragon capsule that made a

127  
00:05:49,600 --> 00:05:46,030  
station delivery nearly three years ago

128  
00:05:52,420 --> 00:05:49,610  
when this refurbished dragon reaches the

129  
00:05:55,300 --> 00:05:52,430  
orbiting lab on Monday that's today it

130  
00:05:58,270 --> 00:05:55,310  
will be the first returning craft since

131  
00:06:00,490 --> 00:05:58,280  
NASA's now retired shuttles the first

132  
00:06:03,190 --> 00:06:00,500  
stage booster flown Saturday afternoon

133  
00:06:05,650 --> 00:06:03,200  
was brand new as is now the custom

134  
00:06:08,110 --> 00:06:05,660  
returned to Cape Canaveral following

135  
00:06:10,960 --> 00:06:08,120  
liftoff for a successful vertical

136  
00:06:13,810 --> 00:06:10,970  
touchdown quote the Falcon has landed

137  
00:06:15,970 --> 00:06:13,820  
and quotes SpaceX Mission Control

138  
00:06:19,540 --> 00:06:15,980

declared from company headquarters in

139

00:06:22,690 --> 00:06:19,550

Hawthorne California and at sheer went

140

00:06:25,090 --> 00:06:22,700

up as might be expected the plan is to

141

00:06:27,460 --> 00:06:25,100

launch the booster again instead of

142

00:06:30,130 --> 00:06:27,470

junking it in the ocean as so many other

143

00:06:32,680 --> 00:06:30,140

rocket makers do just two months ago

144

00:06:35,320 --> 00:06:32,690

SpaceX launched its first recycled

145

00:06:37,300 --> 00:06:35,330

booster on a satellite mission another

146

00:06:39,940 --> 00:06:37,310

flight featuring a reused booster is

147

00:06:41,050 --> 00:06:39,950

coming up later this month and here at

148

00:06:43,390 --> 00:06:41,060

UFO headline

149

00:06:45,820 --> 00:06:43,400

news on inception radio network we will

150

00:06:49,270 --> 00:06:45,830

keep you posted this Dragon capsule

151  
00:06:51,550 --> 00:06:49,280  
meanwhile came back for take 2 following

152  
00:06:54,040 --> 00:06:51,560  
a few modifications and much testing

153  
00:06:56,740 --> 00:06:54,050  
shortly before liftoff SpaceX

154  
00:06:59,590 --> 00:06:56,750  
vice-president Hans printings Mun called

155  
00:07:02,409 --> 00:06:59,600  
the dragon reef light quote a pretty big

156  
00:07:04,810 --> 00:07:02,419  
deal and quotes it's all part of the

157  
00:07:07,020 --> 00:07:04,820  
company's quest he said to lower the

158  
00:07:11,140 --> 00:07:07,030  
cost of access to space through

159  
00:07:14,110 --> 00:07:11,150  
reusability quote overall a great day

160  
00:07:16,600 --> 00:07:14,120  
and quotes connect ceman later told

161  
00:07:19,000 --> 00:07:16,610  
reporters and quote another wonderful

162  
00:07:22,450 --> 00:07:19,010  
launch and quotes that's from NASA's

163  
00:07:23,770 --> 00:07:22,460

then find a station manager and another

164

00:07:26,530 --> 00:07:23,780

thing as expected

165

00:07:28,900 --> 00:07:26,540

SpaceX chief Elon Musk tweeted the early

166

00:07:31,420 --> 00:07:28,910

Sunday morning quote it's starting to

167

00:07:34,240 --> 00:07:31,430

feel kind of normal to reuse rockets

168

00:07:36,340 --> 00:07:34,250

good that's how it is for cars and

169

00:07:39,280 --> 00:07:36,350

airplanes and how it should be for

170

00:07:41,980 --> 00:07:39,290

Rockets end quote so say we all

171

00:07:44,409 --> 00:07:41,990

the dragon that went soaring Saturday

172

00:07:47,590 --> 00:07:44,419

has the same hull and most of the same

173

00:07:49,330 --> 00:07:47,600

parts from its 2014 flight SpaceX

174

00:07:51,580 --> 00:07:49,340

installed a new heat shield and

175

00:07:53,529 --> 00:07:51,590

parachutes among a few other things for

176

00:07:56,260 --> 00:07:53,539

that trip back to earth at the end of

177

00:07:59,290 --> 00:07:56,270

the flight the dragon is the only supply

178

00:08:01,440 --> 00:07:59,300

ship capable of surviving re-entry all

179

00:08:04,930 --> 00:08:01,450

the others burn up in the atmosphere

180

00:08:07,750 --> 00:08:04,940

NASA's other supplier orbital ATK will

181

00:08:10,210 --> 00:08:07,760

see its cargo carrier depart the 250

182

00:08:12,940 --> 00:08:10,220

mile high complex on Sunday six weeks

183

00:08:15,879 --> 00:08:12,950

after arriving besides the usual

184

00:08:18,700 --> 00:08:15,889

supplies SpaceX's latest six thousand

185

00:08:21,490 --> 00:08:18,710

pound shipment included mice and flies

186

00:08:23,980 --> 00:08:21,500

bless their hearts for research a new

187

00:08:27,430 --> 00:08:23,990

kind of roll up solar panel and a

188

00:08:30,250 --> 00:08:27,440

neutron star detector for now

189

00:08:32,230 --> 00:08:30,260

SpaceX said savings are minimal because

190

00:08:35,070 --> 00:08:32,240

all the inspections and tests performed

191

00:08:37,570 --> 00:08:35,080

on the already flown parts they added up

192

00:08:38,529 --> 00:08:37,580

NASA's Space Station program manager

193

00:08:40,570 --> 00:08:38,539

Kirk Shireman

194

00:08:42,240 --> 00:08:40,580

told reporters earlier in the week

195

00:08:45,070 --> 00:08:42,250

SpaceX did a thorough job

196

00:08:47,350 --> 00:08:45,080

recertifying the dragon the risk is not

197

00:08:49,810 --> 00:08:47,360

substantially more than if it were a

198

00:08:52,120 --> 00:08:49,820

capsule straight off the factory floor

199

00:08:54,880 --> 00:08:52,130

he said the entire industry is

200

00:08:57,670 --> 00:08:54,890

interested in this quote hole no

201  
00:08:59,560 --> 00:08:57,680  
of reuse and quotes that was first

202  
00:09:02,500 --> 00:08:59,570  
realized back with the space shuttles

203  
00:09:06,160 --> 00:09:02,510  
this was the 100th launched from NASA's

204  
00:09:08,319 --> 00:09:06,170  
hallowed launch complex 39a at Kennedy

205  
00:09:11,019 --> 00:09:08,329  
Space Center that departure point for

206  
00:09:13,090 --> 00:09:11,029  
the Apollo moon shots as well as dozens

207  
00:09:16,329 --> 00:09:13,100  
of Shuttle missions including the last

208  
00:09:18,819 --> 00:09:16,339  
one in 2011 spacex now is leasing that

209  
00:09:22,030 --> 00:09:18,829  
pad from NASA the company's first launch

210  
00:09:24,639 --> 00:09:22,040  
from there was back in February time to

211  
00:09:28,210 --> 00:09:24,649  
Don that protective gear goggles gloves

212  
00:09:31,180 --> 00:09:28,220  
boots perhaps and buckle up where we're

213  
00:09:32,829 --> 00:09:31,190

going we don't need roads actually we're

214

00:09:34,960 --> 00:09:32,839

going to a place this broadcaster has

215

00:09:37,870 --> 00:09:34,970

struggled to pronounce it's the country

216

00:09:43,180 --> 00:09:37,880

of Greece and the city is let me spell

217

00:09:46,389 --> 00:09:43,190

it first an EA a second word mich a ñ í

218

00:09:50,050 --> 00:09:46,399

o n a we're going to go for Nia

219

00:09:51,240 --> 00:09:50,060

Mackenzie onna Naomi can Jana grease and

220

00:09:54,519 --> 00:09:51,250

if there's anyone listening there

221

00:09:57,400 --> 00:09:54,529

apologies this has a MUFON case number

222

00:10:00,069 --> 00:09:57,410

that number is eight four one zero five

223

00:10:02,170 --> 00:10:00,079

the date of the sighting is the 29th of

224

00:10:07,360 --> 00:10:02,180

May this year and it wasn't reported

225

00:10:10,769 --> 00:10:07,370

till 531 2017 here's the summary from

226

00:10:11,889 --> 00:10:10,779

the witness read very big object

227

00:10:15,250 --> 00:10:11,899

disappeared

228

00:10:19,360 --> 00:10:15,260

to quote flame balls and quotes start

229

00:10:23,139 --> 00:10:19,370

descending hovering over water changing

230

00:10:26,139 --> 00:10:23,149

to horizontal tube like which emits

231

00:10:28,840 --> 00:10:26,149

enormous light well that sounds dramatic

232

00:10:31,090 --> 00:10:28,850

and what is dramatic is the sighting

233

00:10:35,410 --> 00:10:31,100

specifics listing of a viewing distance

234

00:10:39,370 --> 00:10:35,420

here 21 to 100 feet eventually extending

235

00:10:42,519 --> 00:10:39,380

to 101 feet out to 500 feet and the

236

00:10:44,980 --> 00:10:42,529

altitude it just says landed the

237

00:10:47,050 --> 00:10:44,990

sighting duration one hour but the

238

00:10:50,230 --> 00:10:47,060

object features simply are listed as

239

00:10:53,500 --> 00:10:50,240

unknown the flight path hovering then

240

00:10:55,210 --> 00:10:53,510

path and as we heard in the summary the

241

00:10:57,699 --> 00:10:55,220

object shape fireball

242

00:11:00,189 --> 00:10:57,709

there isn't any weather accompanying

243

00:11:03,370 --> 00:11:00,199

this sighting but here is the sighting

244

00:11:06,970 --> 00:11:03,380

itself this is raw basically unedited in

245

00:11:07,329 --> 00:11:06,980

the witness's first-person words here we

246

00:11:08,730 --> 00:11:07,339

go

247

00:11:12,300 --> 00:11:08,740

I was with

248

00:11:14,760 --> 00:11:12,310

another three persons at the balcony two

249

00:11:18,180 --> 00:11:14,770

to three minutes after midnight we saw a

250

00:11:21,900 --> 00:11:18,190

half moon like object with a pure red

251  
00:11:26,310 --> 00:11:21,910  
color it was not glowing it began to

252  
00:11:29,190 --> 00:11:26,320  
fade when it finished fading two bright

253  
00:11:32,220 --> 00:11:29,200  
objects appeared and began to descend

254  
00:11:33,710 --> 00:11:32,230  
straight to the sea when they reach the

255  
00:11:36,420 --> 00:11:33,720  
surface they started moving

256  
00:11:38,850 --> 00:11:36,430  
we were happy about this and we

257  
00:11:41,639 --> 00:11:38,860  
immediately took our car and drove to

258  
00:11:43,860 --> 00:11:41,649  
the port as soon as possible two minutes

259  
00:11:45,810 --> 00:11:43,870  
later when we arrived the object had

260  
00:11:49,680 --> 00:11:45,820  
changed their shape and they were like

261  
00:11:51,900 --> 00:11:49,690  
horizontal fluorescent tubes emitting

262  
00:11:52,560 --> 00:11:51,910  
the brightest golden light we had ever

263  
00:11:55,829 --> 00:11:52,570

seen

264

00:11:58,620 --> 00:11:55,839

they were steady at the same spot while

265

00:12:02,010 --> 00:11:58,630

the worm-like shape seemed to be doing a

266

00:12:03,870 --> 00:12:02,020

wave movement we moved back to the car

267

00:12:06,090 --> 00:12:03,880

and started driving we were trying to

268

00:12:09,750 --> 00:12:06,100

reach the coastline to get a closer look

269

00:12:13,170 --> 00:12:09,760

now while driving the red object in the

270

00:12:15,990 --> 00:12:13,180

sky it was over the clouds was seen once

271

00:12:18,810 --> 00:12:16,000

again we arrived at the closest beach

272

00:12:20,940 --> 00:12:18,820

and then we were observing a headlight

273

00:12:24,030 --> 00:12:20,950

which looked like it was scanning the

274

00:12:27,600 --> 00:12:24,040

area it was moving the light was moving

275

00:12:30,660 --> 00:12:27,610

towards the coast we were amazed when we

276

00:12:34,079 --> 00:12:30,670

saw the surface of the sea there were

277

00:12:36,960 --> 00:12:34,089

hundreds of red lights white lights blue

278

00:12:39,870 --> 00:12:36,970

lights like airplanes floating over the

279

00:12:42,810 --> 00:12:39,880

see those two bright objects were not

280

00:12:45,449 --> 00:12:42,820

seen there was one and a bigger one a

281

00:12:48,120 --> 00:12:45,459

double sized object in the sky moving to

282

00:12:50,610 --> 00:12:48,130

the coastline while blinking perhaps

283

00:12:53,490 --> 00:12:50,620

going north you could see this object

284

00:12:56,910 --> 00:12:53,500

emitting enormous light and then turning

285

00:13:00,750 --> 00:12:56,920

off again and again it was turning off

286

00:13:03,079 --> 00:13:00,760

and then lighting up again we lost sight

287

00:13:05,880 --> 00:13:03,089

of it while we drove to try to reach it

288

00:13:08,639 --> 00:13:05,890

one cannot suppose that these were the

289

00:13:11,280 --> 00:13:08,649

same type of objects they could change

290

00:13:14,130 --> 00:13:11,290

their form and size like controlling

291

00:13:17,000 --> 00:13:14,140

their energy these did not seem to be

292

00:13:21,360 --> 00:13:17,010

solid objects and there were no sounds

293

00:13:22,770 --> 00:13:21,370

this sites is archeological no wind the

294

00:13:26,130 --> 00:13:22,780

first hot

295

00:13:29,580 --> 00:13:26,140

day of summer well that piques our

296

00:13:31,290 --> 00:13:29,590

imagination an archaeological site we

297

00:13:36,180 --> 00:13:31,300

should do some checking on the area of

298

00:13:38,610 --> 00:13:36,190

Naya Makani ona in Greece perhaps it is

299

00:13:42,480 --> 00:13:38,620

some well we're not saying it's aliens

300

00:13:45,390 --> 00:13:42,490

but let's cross lots of different bodies

301  
00:13:48,120 --> 00:13:45,400  
of water and hover over Gaithersburg

302  
00:13:50,940 --> 00:13:48,130  
Maryland in the United States that's

303  
00:13:53,880 --> 00:13:50,950  
where MUFON Case number 8 for 137

304  
00:13:57,140 --> 00:13:53,890  
happened the date was the 31st of May

305  
00:14:01,560 --> 00:13:57,150  
this year it was reported June 2nd in

306  
00:14:04,230 --> 00:14:01,570  
summary red orb hovered approximately 5

307  
00:14:08,040 --> 00:14:04,240  
feet over the road and then descended

308  
00:14:08,960 --> 00:14:08,050  
and then rapidly accelerated up and to

309  
00:14:12,690 --> 00:14:08,970  
the right

310  
00:14:16,260 --> 00:14:12,700  
citing specifics viewing distance 101

311  
00:14:19,260 --> 00:14:16,270  
feet to 500 feet the altitude is unknown

312  
00:14:22,200 --> 00:14:19,270  
it was a brief citing duration only 8

313  
00:14:24,530 --> 00:14:22,210

seconds so most understandably the

314

00:14:27,450 --> 00:14:24,540

witness reported the features as none

315

00:14:31,500 --> 00:14:27,460

the object flight path was hovering and

316

00:14:33,950 --> 00:14:31,510

it had a sphere shape there is a tad of

317

00:14:37,710 --> 00:14:33,960

meteorology here the maximum temperature

318

00:14:39,480 --> 00:14:37,720

over and in Gaithersburg Maryland at the

319

00:14:42,510 --> 00:14:39,490

time of this sighting was 81 degrees

320

00:14:45,720 --> 00:14:42,520

Fahrenheit 27 degrees Celsius dropping

321

00:14:48,810 --> 00:14:45,730

down to a mean temperature of 61 degrees

322

00:14:51,060 --> 00:14:48,820

Fahrenheit 16 degrees Celsius the

323

00:14:54,060 --> 00:14:51,070

maximum visibility was 10 miles 16

324

00:14:56,040 --> 00:14:54,070

kilometers then down to a minimum that

325

00:14:59,160 --> 00:14:56,050

isn't even listed the conditions were

326

00:15:02,550 --> 00:14:59,170

foggy and the thundering so let's read

327

00:15:06,510 --> 00:15:02,560

what happened to our witness driving

328

00:15:09,060 --> 00:15:06,520

north on Maryland 124 at mid-morning sky

329

00:15:11,190 --> 00:15:09,070

clear it will stop right there because

330

00:15:13,710 --> 00:15:11,200

that seems to contradict the above

331

00:15:17,190 --> 00:15:13,720

report which says foggy and thundering

332

00:15:19,860 --> 00:15:17,200

yes well let's continue no other traffic

333

00:15:23,490 --> 00:15:19,870

on the road my wife and I crested a

334

00:15:26,130 --> 00:15:23,500

small hill and observed a red light this

335

00:15:27,980 --> 00:15:26,140

red light was approximately 100 feet in

336

00:15:32,490 --> 00:15:27,990

front of our car it was hovering

337

00:15:34,860 --> 00:15:32,500

approximately 5 feet above the road the

338

00:15:36,090 --> 00:15:34,870

object stayed ahead of the car and then

339

00:15:38,370 --> 00:15:36,100

it descended close

340

00:15:41,160 --> 00:15:38,380

to the road and hover there before

341

00:15:44,370 --> 00:15:41,170

rapidly accelerating to the right and up

342

00:15:44,999 --> 00:15:44,380

at about a 60 degree angle and into the

343

00:15:48,059 --> 00:15:45,009

sky

344

00:15:51,780 --> 00:15:48,069

my wife observed the orb as having very

345

00:15:53,819 --> 00:15:51,790

well-defined edges I saw red radiating

346

00:15:57,509 --> 00:15:53,829

rays of light emitting from the

347

00:15:59,009 --> 00:15:57,519

well-defined edges of a red orb the

348

00:16:01,650 --> 00:15:59,019

total time of observation was

349

00:16:03,170 --> 00:16:01,660

approximately 8 seconds we asked each

350

00:16:06,960 --> 00:16:03,180

other if we had seen the orb and

351  
00:16:08,639 --> 00:16:06,970  
confirmed we had I noted the time and

352  
00:16:11,160 --> 00:16:08,649  
location of the observation and looked

353  
00:16:13,829 --> 00:16:11,170  
for any possible reflections or any

354  
00:16:17,040 --> 00:16:13,839  
other possible sources for this red orb

355  
00:16:19,259 --> 00:16:17,050  
I noted nothing unusual about the road

356  
00:16:22,290 --> 00:16:19,269  
itself or the grass and the trees that

357  
00:16:24,769 --> 00:16:22,300  
line the sides of the road we continued

358  
00:16:27,809 --> 00:16:24,779  
to drive in silence not quite

359  
00:16:29,840 --> 00:16:27,819  
comprehending what we'd seen and later

360  
00:16:33,540 --> 00:16:29,850  
we independently recorded our

361  
00:16:35,460 --> 00:16:33,550  
observations that's always a good idea

362  
00:16:37,620 --> 00:16:35,470  
so that's terrific we have a very

363  
00:16:39,449 --> 00:16:37,630

unusual sighting and a witness

364

00:16:43,410 --> 00:16:39,459

confirmation and an independent

365

00:16:45,870 --> 00:16:43,420

recording of what they saw let's go down

366

00:16:49,319 --> 00:16:45,880

the coast from Gaithersburg Maryland and

367

00:16:50,999 --> 00:16:49,329

go to Weeki Wachee Florida who could

368

00:16:56,069 --> 00:16:51,009

resist a place with a name like that

369

00:17:00,150 --> 00:16:56,079

will spell it it's wek i second word w

370

00:17:03,809 --> 00:17:00,160

AC h ee Weeki Wachee it's MUFON case

371

00:17:07,980 --> 00:17:03,819

number 8 4 0 1 4 it's an older case in

372

00:17:11,850 --> 00:17:07,990

fact it goes way back to 1981 to the

373

00:17:14,880 --> 00:17:11,860

31st of May yet again we have another

374

00:17:17,130 --> 00:17:14,890

kind of an anniversary sighting we're

375

00:17:19,740 --> 00:17:17,140

calling them something seems to trigger

376

00:17:22,409 --> 00:17:19,750

that desire to post a sighting around

377

00:17:25,260 --> 00:17:22,419

the same time of the year some seasonal

378

00:17:28,500 --> 00:17:25,270

things some memory we don't know but

379

00:17:31,799 --> 00:17:28,510

they submitted this sighting on the 27th

380

00:17:34,860 --> 00:17:31,809

of May this year in summary the witness

381

00:17:38,880 --> 00:17:34,870

reports light in sky following me

382

00:17:42,060 --> 00:17:38,890

then hovering over my car the viewing

383

00:17:45,090 --> 00:17:42,070

distance here was 21 to 100 feet the

384

00:17:47,970 --> 00:17:45,100

altitude was 500 feet or less the entire

385

00:17:49,860 --> 00:17:47,980

sighting duration 15 minutes still

386

00:17:52,680 --> 00:17:49,870

they're only reporting the object

387

00:17:55,500 --> 00:17:52,690

features as none well it was a long time

388

00:17:58,590 --> 00:17:55,510

ago the object flight path was hovering

389

00:18:00,960 --> 00:17:58,600

and then path and this object shape was

390

00:18:03,870 --> 00:18:00,970

sphere we're guessing they went back and

391

00:18:06,750 --> 00:18:03,880

looked up the temperature etc and here

392

00:18:09,390 --> 00:18:06,760

it goes the maximum temperature was 99

393

00:18:12,660 --> 00:18:09,400

degrees Fahrenheit 37 degrees Celsius

394

00:18:15,090 --> 00:18:12,670

dropping down to a minimum of 65 degrees

395

00:18:17,580 --> 00:18:15,100

Fahrenheit 18 degrees Celsius

396

00:18:20,010 --> 00:18:17,590

no notations on the visibility factors

397

00:18:22,710 --> 00:18:20,020

but it does indicate the conditions of

398

00:18:26,220 --> 00:18:22,720

the weather nothing abnormal here's the

399

00:18:28,710 --> 00:18:26,230

sighting from 1981 Weeki Wachee Florida

400

00:18:31,320 --> 00:18:28,720

coming home from work about 11 p.m.

401  
00:18:34,560 --> 00:18:31,330  
heading east from the bay poured in

402  
00:18:36,330 --> 00:18:34,570  
there was a bright light in the sky this

403  
00:18:39,780 --> 00:18:36,340  
light seemed to be following me four or

404  
00:18:42,570 --> 00:18:39,790  
five to six miles when I stopped at the

405  
00:18:44,760 --> 00:18:42,580  
stop sign at United States highway 19 I

406  
00:18:47,430 --> 00:18:44,770  
noticed that it was getting darker and

407  
00:18:50,130 --> 00:18:47,440  
then I realized there was no more light

408  
00:18:51,180 --> 00:18:50,140  
but light from an object that was coming

409  
00:18:54,210 --> 00:18:51,190  
from behind me

410  
00:18:56,640 --> 00:18:54,220  
I watched it stop a few feet in front of

411  
00:19:00,180 --> 00:18:56,650  
my car I looked up through my windshield

412  
00:19:03,120 --> 00:19:00,190  
and this object was dark and smooth and

413  
00:19:05,160 --> 00:19:03,130

flat I looked out my rear and side

414

00:19:08,640 --> 00:19:05,170

windows and realized it was also

415

00:19:10,770 --> 00:19:08,650

perfectly round I was thinking if there

416

00:19:12,990 --> 00:19:10,780

was one car in front of me and one to

417

00:19:15,960 --> 00:19:13,000

the back and if I drew a circle around

418

00:19:18,540 --> 00:19:15,970

them well that was the size of this

419

00:19:22,260 --> 00:19:18,550

object this object that was just

420

00:19:24,780 --> 00:19:22,270

hovering over my car if I had stood on

421

00:19:26,990 --> 00:19:24,790

the roof of my car and stretched I could

422

00:19:30,000 --> 00:19:27,000

have touched the bottom of this thing I

423

00:19:31,950 --> 00:19:30,010

then saw that the dash lights in my car

424

00:19:34,530 --> 00:19:31,960

were slowly dimming my headlights were

425

00:19:37,919 --> 00:19:34,540

doing the same thing and then my car

426  
00:19:41,820 --> 00:19:37,929  
stalled I heard a whoosh and this thing

427  
00:19:45,090 --> 00:19:41,830  
took off north on us 19 and I watched it

428  
00:19:47,220 --> 00:19:45,100  
make a complete stop then it took off

429  
00:19:51,660 --> 00:19:47,230  
west towards the Gulf in a matter of

430  
00:19:53,520 --> 00:19:51,670  
seconds I had such a sense of calm even

431  
00:19:56,669 --> 00:19:53,530  
starting when the light in the sky was

432  
00:19:58,650 --> 00:19:56,679  
following me in hindsight I should have

433  
00:20:01,580 --> 00:19:58,660  
been scared to death when this thing was

434  
00:20:03,840 --> 00:20:01,590  
hovering over my car but it just seemed

435  
00:20:06,000 --> 00:20:03,850  
fascinating my

436  
00:20:08,640 --> 00:20:06,010  
old car started right up and I went home

437  
00:20:11,400 --> 00:20:08,650  
I think about this every day

438  
00:20:14,100 --> 00:20:11,410

and over the years I told anyone who

439

00:20:15,810 --> 00:20:14,110

would listen the next morning I reported

440

00:20:17,700 --> 00:20:15,820

this to the sheriff's office and they

441

00:20:21,539 --> 00:20:17,710

said it was probably the military

442

00:20:24,690 --> 00:20:21,549

testing aircraft off the coast this was

443

00:20:27,870 --> 00:20:24,700

a flying saucer that I witnessed about a

444

00:20:30,570 --> 00:20:27,880

year ago I googled flying saucer and car

445

00:20:34,320 --> 00:20:30,580

stalling and I was amazed with reports

446

00:20:37,560 --> 00:20:34,330

like mine to my amazement I came across

447

00:20:40,350 --> 00:20:37,570

the man John Reeves who is an abductee

448

00:20:43,200 --> 00:20:40,360

John Reeves experiences happened a

449

00:20:47,039 --> 00:20:43,210

couple of miles from mine back in the

450

00:20:50,190 --> 00:20:47,049

1960s well there's a googol gentle

451  
00:21:07,190 --> 00:20:50,200  
listeners John Reeves and that Reeves is

452

455  
00:21:17,760 --> 00:21:15,820  
and we mentioned giant rock so here's

456  
00:21:20,820 --> 00:21:17,770  
some stuff on giant rock quickly from

457  
00:21:23,580 --> 00:21:20,830  
wiki in case you didn't know giant rock

458  
00:21:26,070 --> 00:21:23,590  
is a large freestanding Boulder in the

459  
00:21:28,890 --> 00:21:26,080  
Mojave Desert directly adjacent to the

460  
00:21:32,460 --> 00:21:28,900  
city of Landers California this Boulder

461  
00:21:36,480 --> 00:21:32,470  
covers 5,800 square feet of ground and

462  
00:21:38,130 --> 00:21:36,490  
it's seven stories high giant rock is

463  
00:21:41,760 --> 00:21:38,140

purported to be the largest freestanding

464

00:21:44,279 --> 00:21:41,770

Boulder in the world Native Americans of

465

00:21:47,460 --> 00:21:44,289

the Joshua Tree California area consider

466

00:21:50,159 --> 00:21:47,470

this rock to be sacred a single large

467

00:21:53,340 --> 00:21:50,169

room which was subsequently filled in

468

00:21:56,549 --> 00:21:53,350

was dug beneath the rock and resided in

469

00:22:00,690 --> 00:21:56,559

goggles while I just missed seeing it I

533

00:25:07,590 --> 00:25:05,620

was racing over to the others and this

534

00:25:12,810 --> 00:25:07,600

thing disappeared to the northwest

535

00:25:15,930 --> 00:25:12,820

behind spy Mountain within minutes loud

536

00:25:19,200 --> 00:25:15,940

roaring of what sounded like jet engines

537

00:25:22,020 --> 00:25:19,210

and a military helicopter came out of

538

00:25:24,870 --> 00:25:22,030

the east-northeast followed by another a

539

00:25:27,120 --> 00:25:24,880

minute or so later these then came

540

00:25:30,360 --> 00:25:27,130

around the south side of spy Mountain

541

00:25:33,510 --> 00:25:30,370

heading south and clearly we could see

542

00:25:36,690 --> 00:25:33,520

an elongated amber light being followed

543

00:25:39,870 --> 00:25:36,700

by a military helicopter with flashing

544

00:25:42,660 --> 00:25:39,880

lights the amber light was not flashing

545

00:25:44,400 --> 00:25:42,670

and had no other lights visible the

546

00:25:47,730 --> 00:25:44,410

amber light sped off to the south and

547

00:25:50,670 --> 00:25:47,740

the helicopter could not keep up this

548

00:25:54,450 --> 00:25:50,680

was interesting we had invited them

549

00:25:57,120 --> 00:25:54,460

during our meditation to appear and the

550

00:26:01,170 --> 00:25:57,130

first thing that happens is our military

551  
00:26:04,170 --> 00:26:01,180  
chases them again we have the perfect

552  
00:26:07,440 --> 00:26:04,180  
setting we also see indications of an

553  
00:26:09,300 --> 00:26:07,450  
attempt at conscious contact ha we're

554  
00:26:11,730 --> 00:26:09,310  
getting conscious contact right here

555  
00:26:14,610 --> 00:26:11,740  
it's telling us we've got to fly because

556  
00:26:17,550 --> 00:26:14,620  
that's a wrap thank you for listening to
