

Inception Radio Network

UFO Headline News Monday June 19th,
2017

1
00:00:07,639 --> 00:00:05,240
hello it's Monday June 19th 2017 you are

2
00:00:10,520 --> 00:00:07,649
listening to inception radio network

3
00:00:15,020 --> 00:00:10,530
voice of the fringe majority this is

4
00:00:17,359 --> 00:00:15,030
Carol Karl with UFO headline news yep

5
00:00:20,300 --> 00:00:17,369
it's Monday but tonight we can look

6
00:00:21,410 --> 00:00:20,310
forward to a Treat in the sky that is if

7
00:00:23,660 --> 00:00:21,420
weather permits

8
00:00:26,720 --> 00:00:23,670
according to Deborah bird who writes

9
00:00:28,370 --> 00:00:26,730
this for earth sky org we can find a

10
00:00:31,580 --> 00:00:28,380
variety of things in the sky

11
00:00:34,490 --> 00:00:31,590
well figuratively speaking the crow the

12
00:00:37,760 --> 00:00:34,500
cup and the water snake so here's the

13
00:00:39,979 --> 00:00:37,770

how to tonight or any June evening look

14

00:00:41,660 --> 00:00:39,989

below and to the right of the star

15

00:00:44,330 --> 00:00:41,670

speaker and you'll find those

16

00:00:47,510 --> 00:00:44,340

constellations Corvis the crow crater

17

00:00:48,260 --> 00:00:47,520

the cup and Hydra the water snake easy

18

00:00:50,000 --> 00:00:48,270

peasy

19

00:00:54,319 --> 00:00:50,010

you'll be looking in the sky around

20

00:00:56,270 --> 00:00:54,329

nightfall in 2017 the first star you're

21

00:00:59,029 --> 00:00:56,280

likely to notice is really the planet

22

00:01:00,979 --> 00:00:59,039

Jupiter king Jupiter which lights up the

23

00:01:04,880 --> 00:01:00,989

sky as soon as the sun goes down

24

00:01:07,460 --> 00:01:04,890

jupiter is near the star speaka in 2017

25

00:01:10,399 --> 00:01:07,470

this broadcaster actually saw both of

26

00:01:13,190 --> 00:01:10,409

those guys last night vivid and speaka

27

00:01:17,300 --> 00:01:13,200

is your guide then to the crow cup and

28

00:01:19,219 --> 00:01:17,310

water snake okay got speaka now as

29

00:01:21,560 --> 00:01:19,229

nightfall deepens into later evening

30

00:01:25,130 --> 00:01:21,570

watch for a number of fainter stars to

31

00:01:28,280 --> 00:01:25,140

become visible and voila enter crow cup

32

00:01:29,300 --> 00:01:28,290

and water snake in greek mythology it

33

00:01:32,300 --> 00:01:29,310

went something like this

34

00:01:35,450 --> 00:01:32,310

Apollo sent the crow to fetch a cup of

35

00:01:38,870 --> 00:01:35,460

water the crow Corvis got distracted

36

00:01:41,050 --> 00:01:38,880

eating figs it was only after much delay

37

00:01:43,639 --> 00:01:41,060

that he finally remembered his mission

38

00:01:45,740 --> 00:01:43,649

rightly figuring that Apollo would be

39

00:01:48,109 --> 00:01:45,750

angry which was never a good thing

40

00:01:50,090 --> 00:01:48,119

the crow plucked a snake from the water

41

00:01:52,940 --> 00:01:50,100

and concocted a story about how it

42

00:01:55,940 --> 00:01:52,950

attacked him and delayed him Apollo

43

00:01:59,090 --> 00:01:55,950

wasn't fooled and angrily flung the crow

44

00:02:01,760 --> 00:01:59,100

Cup and snake into the sky placing the

45

00:02:04,819 --> 00:02:01,770

crowling Cup on the snakes back and then

46

00:02:07,580 --> 00:02:04,829

Apollo ordered Hydra to never let the

47

00:02:09,559 --> 00:02:07,590

crow drink from the cup and as further

48

00:02:12,199 --> 00:02:09,569

punishment he ordered that the crow

49

00:02:13,380 --> 00:02:12,209

could never sing again only screech and

50

00:02:15,900 --> 00:02:13,390

car

51
00:02:18,270 --> 00:02:15,910
so we here's the bottom line use the

52
00:02:20,670 --> 00:02:18,280
bright star speaker to help you find the

53
00:02:22,920 --> 00:02:20,680
constellations of Corvus the crow crater

54
00:02:25,290 --> 00:02:22,930
the cup and Hydra the water snake and

55
00:02:28,320 --> 00:02:25,300
that's our cautionary tale for the day

56
00:02:31,020 --> 00:02:28,330
don't anger Apollo here's more about

57
00:02:33,870 --> 00:02:31,030
Jupiter that great king planet of which

58
00:02:36,600 --> 00:02:33,880
we cannot get enough from Engadget

59
00:02:39,840 --> 00:02:36,610
written by Mary yellow moon and she

60
00:02:43,560 --> 00:02:39,850
spells that M oh oh and here's her

61
00:02:44,930 --> 00:02:43,570
headline Jupiter is the oldest planet in

62
00:02:47,490 --> 00:02:44,940
the solar system

63
00:02:49,530 --> 00:02:47,500

Jupiter's ancient name really is

64

00:02:52,530 --> 00:02:49,540

well-deserved according to a new study

65

00:02:54,930 --> 00:02:52,540

the king of the planets isn't just the

66

00:02:58,020 --> 00:02:54,940

largest in the solar system it's also

67

00:02:59,820 --> 00:02:58,030

the oldest a team of researchers from

68

00:03:02,310 --> 00:02:59,830

Lawrence Livermore National Laboratory

69

00:03:04,680 --> 00:03:02,320

in California and the University of

70

00:03:07,680 --> 00:03:04,690

Muenster in Germany have determined that

71

00:03:09,990 --> 00:03:07,690

Jupiter's core was already 20 times the

72

00:03:12,930 --> 00:03:10,000

size of Earth merely 1 million years

73

00:03:16,350 --> 00:03:12,940

after the Sun took shape 4.6 billion

74

00:03:18,660 --> 00:03:16,360

years ago since newborn stars tend to

75

00:03:21,720 --> 00:03:18,670

release energy that blows away gas and

76

00:03:23,970 --> 00:03:21,730

dust for planet formation the gas giant

77

00:03:26,610 --> 00:03:23,980

must have had to absorb materials very

78

00:03:28,080 --> 00:03:26,620

very fast the team came to the

79

00:03:30,390 --> 00:03:28,090

conclusion after testing for the

80

00:03:32,370 --> 00:03:30,400

presence and abundance of something

81

00:03:35,430 --> 00:03:32,380

called Molly B denim and tungsten

82

00:03:37,470 --> 00:03:35,440

isotopes in some iron meteorites which

83

00:03:40,020 --> 00:03:37,480

fell to earth they found that the

84

00:03:43,740 --> 00:03:40,030

meteorites contained components from two

85

00:03:45,539 --> 00:03:43,750

distinct reservoir of materials thanks

86

00:03:48,570 --> 00:03:45,549

to the data from the Molly B denim

87

00:03:51,210 --> 00:03:48,580

isotopes one reservoir has material from

88

00:03:54,000 --> 00:03:51,220

a different star than ours that didn't

89

00:03:56,190 --> 00:03:54,010

make it to the other reservoir the data

90

00:03:58,380 --> 00:03:56,200

from the tungsten isotopes on the other

91

00:04:00,720 --> 00:03:58,390

hand showed that the two pools of

92

00:04:03,600 --> 00:04:00,730

material were separated for two to three

93

00:04:05,789 --> 00:04:03,610

million years in addition they've been

94

00:04:08,460 --> 00:04:05,799

separated as early as a million years

95

00:04:11,310 --> 00:04:08,470

into the formation of the solar system

96

00:04:13,590 --> 00:04:11,320

this team explained that quote the most

97

00:04:15,810 --> 00:04:13,600

plausible mechanism to efficiently

98

00:04:18,270 --> 00:04:15,820

separate two disk reservoirs for an

99

00:04:21,030 --> 00:04:18,280

extended period is the accretion of a

100

00:04:22,230 --> 00:04:21,040

giant planet in between them and quotes

101
00:04:25,170 --> 00:04:22,240

yep

102
00:04:27,070 --> 00:04:25,180

that gas giant is Jupiter and while its

103
00:04:29,439 --> 00:04:27,080

formation slowed as the year

104
00:04:31,839 --> 00:04:29,449

went by it kept growing and growing

105
00:04:34,749 --> 00:04:31,849

enough to create a permanent barrier

106
00:04:37,029 --> 00:04:34,759

between those two pools so the

107
00:04:39,309 --> 00:04:37,039

researchers now believe that it could

108
00:04:41,950 --> 00:04:39,319

also be the reason why there are no

109
00:04:43,619 --> 00:04:41,960

super Earths near the Sun which are

110
00:04:47,409 --> 00:04:43,629

commonly found in other star systems

111
00:04:50,499 --> 00:04:47,419

that means we could owe our existence to

112
00:04:52,959 --> 00:04:50,509

Jupiter because who knows if and how

113
00:04:56,800 --> 00:04:52,969

life would flourish on earth if it's too

114

00:04:59,800 --> 00:04:56,810

near other more massive planets so a bow

115

00:05:00,700 --> 00:04:59,810

and a curtsy to king planet Jupiter so

116

00:05:03,309 --> 00:05:00,710

say we all

117

00:05:05,709 --> 00:05:03,319

this article seems to fit the end right

118

00:05:09,100 --> 00:05:05,719

about here so let's do it

119

00:05:12,760 --> 00:05:09,110

it's from space comm with a byline for

120

00:05:16,059 --> 00:05:12,770

Jessie M Spock headline more alien

121

00:05:19,390 --> 00:05:16,069

worlds exclamation mark NASA to announce

122

00:05:22,209 --> 00:05:19,400

new exoplanet finds Monday that's today

123

00:05:24,369 --> 00:05:22,219

NASA will announce the latest crop of

124

00:05:26,260 --> 00:05:24,379

planet discoveries from the Kepler space

125

00:05:30,070 --> 00:05:26,270

telescope during a briefing Monday

126
00:05:32,320 --> 00:05:30,080
morning June 19th and unfortunately we

127
00:05:33,969 --> 00:05:32,330
are doing this before that information

128
00:05:36,790 --> 00:05:33,979
comes out we'll bring you updates

129
00:05:38,980 --> 00:05:36,800
tomorrow for sure the briefing is going

130
00:05:41,980 --> 00:05:38,990
to be at 11 a.m. Eastern Daylight Time

131
00:05:44,110 --> 00:05:41,990
so you might catch it depending on when

132
00:05:45,610 --> 00:05:44,120
you're hearing this broadcast and of

133
00:05:48,519 --> 00:05:45,620
course it's always going to be someplace

134
00:05:49,839 --> 00:05:48,529
out there on ye olde Internet they're

135
00:05:52,089 --> 00:05:49,849
going to hold this briefing at the

136
00:05:55,149 --> 00:05:52,099
Kepler science conference at NASA's Ames

137
00:05:56,649 --> 00:05:55,159
Research Center in California the

138
00:05:58,990 --> 00:05:56,659

briefing is going to have a panel of

139

00:06:01,689 --> 00:05:59,000

four experts it's going to be Mario

140

00:06:03,909 --> 00:06:01,699

Perez a Kepler program scientist at the

141

00:06:06,550 --> 00:06:03,919

astrophysics division of NASA's science

142

00:06:08,800 --> 00:06:06,560

Mission Directorate in Washington Susan

143

00:06:10,839 --> 00:06:08,810

Thompson Kepler research scientist at

144

00:06:13,059 --> 00:06:10,849

SETI Institute in Mountain View

145

00:06:16,209 --> 00:06:13,069

California which we find quite

146

00:06:18,219 --> 00:06:16,219

interesting benjamin fulton doctoral

147

00:06:20,619 --> 00:06:18,229

candidate at the University of Hawaii at

148

00:06:23,740 --> 00:06:20,629

Manoa and the California Institute of

149

00:06:26,079 --> 00:06:23,750

Technology and Courtney dressing NASA

150

00:06:29,469 --> 00:06:26,089

Sagan fellow at the California Institute

151
00:06:31,930 --> 00:06:29,479
of Technology Kepler has been hunting

152
00:06:34,749 --> 00:06:31,940
for exoplanets since its launch in 2009

153
00:06:37,240 --> 00:06:34,759
this latest set of exoplanet candidates

154
00:06:39,939 --> 00:06:37,250
will use a more complete data set than

155
00:06:40,870 --> 00:06:39,949
ever before they have analysis with

156
00:06:43,300 --> 00:06:40,880
graters of

157
00:06:46,360 --> 00:06:43,310
education the spacecraft started a new

158
00:06:49,180 --> 00:06:46,370
mission and they call that k2 the first

159
00:06:51,880 --> 00:06:49,190
two reaction wheels failed the

160
00:06:54,910 --> 00:06:51,890
stabilizers on the spacecraft in 2013

161
00:06:56,980 --> 00:06:54,920
the k2 mission was a modified version of

162
00:06:59,950 --> 00:06:56,990
the original planet-hunting mandate

163
00:07:04,540 --> 00:06:59,960

seeking whirls around relatively nearby

164

00:07:07,210 --> 00:07:04,550

red dwarf stars newfound exoplanets are

165

00:07:08,950 --> 00:07:07,220

often listed as candidates because it

166

00:07:12,070 --> 00:07:08,960

can take time to verify that they're

167

00:07:13,780 --> 00:07:12,080

actually there Kepler finds planets by

168

00:07:16,150 --> 00:07:13,790

observing the light of stars over a

169

00:07:19,150 --> 00:07:16,160

period of time using a process called

170

00:07:21,850 --> 00:07:19,160

the transit method if the light dims

171

00:07:24,400 --> 00:07:21,860

then it's possible the planet has passed

172

00:07:27,100 --> 00:07:24,410

in front of it the evidence for an

173

00:07:29,410 --> 00:07:27,110

exoplanet is considered stronger if that

174

00:07:31,690 --> 00:07:29,420

light dims more than once on any

175

00:07:34,120 --> 00:07:31,700

predictable schedule that indicates

176

00:07:38,470 --> 00:07:34,130

something is in orbit around the star

177

00:07:40,900 --> 00:07:38,480

think tabbies star oh yes Kepler was the

178

00:07:43,060 --> 00:07:40,910

first mission capable of seeing planets

179

00:07:45,910 --> 00:07:43,070

the size of Earth around other stars in

180

00:07:48,040 --> 00:07:45,920

that Goldilocks zone the habitable zone

181

00:07:50,920 --> 00:07:48,050

the region at a distance from a star

182

00:07:53,820 --> 00:07:50,930

where liquid water could exist without

183

00:07:57,250 --> 00:07:53,830

freezing or boiling away immediately

184

00:08:00,070 --> 00:07:57,260

according to NASA so far Kepler has

185

00:08:03,520 --> 00:08:00,080

found four thousand four hundred ninety

186

00:08:05,140 --> 00:08:03,530

six exoplanet candidates some two

187

00:08:08,260 --> 00:08:05,150

thousand three hundred thirty-five of

188

00:08:10,930 --> 00:08:08,270

those have been confirmed and 21 are

189

00:08:14,200 --> 00:08:10,940

earth sized planets in the habitable

190

00:08:18,160 --> 00:08:14,210

zone since the mission was renamed k2

191

00:08:22,570 --> 00:08:18,170

they found an additional 520 exoplanet

192

00:08:24,520 --> 00:08:22,580

candidates confirming 148 of those so

193

00:08:26,950 --> 00:08:24,530

stay tuned for that announcement we will

194

00:08:29,440 --> 00:08:26,960

keep you posted tomorrow at the UFO

195

00:08:32,170 --> 00:08:29,450

headline news here on inception radio

196

00:08:35,800 --> 00:08:32,180

network here's an update but it's rather

197

00:08:39,310 --> 00:08:35,810

insubstantial as of this broadcast NASA

198

00:08:41,980 --> 00:08:39,320

is trying again and again and yet again

199

00:08:44,500 --> 00:08:41,990

in fact apparently the tally is up to

200

00:08:47,470 --> 00:08:44,510

six attempts now to launch those

201
00:08:49,900 --> 00:08:47,480
canisters with the gases that are going

202
00:08:53,110 --> 00:08:49,910
to color the clouds over the east coast

203
00:08:54,190 --> 00:08:53,120
of the United States we hope so far what

204
00:08:57,190 --> 00:08:54,200
we found is that

205
00:09:00,550 --> 00:08:57,200
that here's the headline update NASA's

206
00:09:04,000 --> 00:09:00,560
Father's Day rocket launch delayed yep

207
00:09:06,760 --> 00:09:04,010
they rebranded repackage that launch as

208
00:09:07,240 --> 00:09:06,770
a Father's Day launch who saw that

209
00:09:09,520 --> 00:09:07,250
coming

210
00:09:12,160 --> 00:09:09,530
here's a bit of the Twitter feed from

211
00:09:15,850 --> 00:09:12,170
NASA's Wallops Island Virginia facility

212
00:09:18,100 --> 00:09:15,860
this is as of yesterday 4:50 p.m. the

213
00:09:20,320 --> 00:09:18,110

rocket launch at NASA Wallops this

214

00:09:23,650 --> 00:09:20,330

evening has been scrubbed because of

215

00:09:26,530 --> 00:09:23,660

high winds stay tuned for info on the

216

00:09:29,290 --> 00:09:26,540

next attempt it's becoming somewhat of a

217

00:09:31,990 --> 00:09:29,300

space soap opera the original attempt

218

00:09:34,660 --> 00:09:32,000

what they want to do is test a Canada

219

00:09:37,630 --> 00:09:34,670

deployment system it's designed to eject

220

00:09:39,940 --> 00:09:37,640

ampules containing gas which can create

221

00:09:43,060 --> 00:09:39,950

glowing artificial clouds in the night

222

00:09:45,160 --> 00:09:43,070

sky clear weather as one might expect is

223

00:09:47,380 --> 00:09:45,170

vital for mission scientists in order to

224

00:09:49,720 --> 00:09:47,390

record that cloud deployment they're

225

00:09:51,970 --> 00:09:49,730

going to use ground-based cameras at the

226

00:09:53,920 --> 00:09:51,980

launch site which is NASA's Wallops

227

00:09:56,740 --> 00:09:53,930

Flight Facility on Wallops Island

228

00:09:59,950 --> 00:09:56,750

Virginia and another place duck North

229

00:10:02,950 --> 00:09:59,960

Carolina the window as we understood it

230

00:10:04,870 --> 00:10:02,960

is open only until the 19th of June so

231

00:10:07,320 --> 00:10:04,880

it's going to be interesting to see what

232

00:10:10,420 --> 00:10:07,330

develops here we will keep you posted

233

00:10:13,810 --> 00:10:10,430

here's an interesting article we found

234

00:10:15,850 --> 00:10:13,820

it over at UFO chronicles calm if you

235

00:10:19,660 --> 00:10:15,860

haven't visited that site check it out

236

00:10:21,690 --> 00:10:19,670

it's byline for denise moreno who writes

237

00:10:27,000 --> 00:10:21,700

it for the International Business Times

238

00:10:31,770 --> 00:10:27,010

headline Florida woman finds secret NASA

239

00:10:34,620 --> 00:10:31,780

documents in trash outside her home a

240

00:10:37,780 --> 00:10:34,630

Florida woman discovered NASA documents

241

00:10:40,900 --> 00:10:37,790

including photographs of classified

242

00:10:44,370 --> 00:10:40,910

aerospace projects in the trash outside

243

00:10:49,510 --> 00:10:44,380

her home this is according to mainstream

244

00:10:53,470 --> 00:10:49,520

Orlando Florida affiliate CBS WKMG News

245

00:10:56,020 --> 00:10:53,480

six effect Quinn who reportedly is a

246

00:10:58,810 --> 00:10:56,030

Navy veteran found this pile of

247

00:11:01,090 --> 00:10:58,820

documents in a neighbor's trash only a

248

00:11:04,720 --> 00:11:01,100

few weeks ago and turn them over to

249

00:11:06,640 --> 00:11:04,730

station WKMG the house is apparently up

250

00:11:08,120 --> 00:11:06,650

for sale according to the television

251

00:11:10,250 --> 00:11:08,130

stations footage

252

00:11:13,190 --> 00:11:10,260

and there will be links later at UFO

253

00:11:15,770 --> 00:11:13,200

headline news calm Evette quinn was

254

00:11:17,900 --> 00:11:15,780

concerned about what she'd found because

255

00:11:20,720 --> 00:11:17,910

the records included a list of

256

00:11:24,200 --> 00:11:20,730

scientists scientists who had secret and

257

00:11:26,990 --> 00:11:24,210

top secret clearances the documents also

258

00:11:29,690 --> 00:11:27,000

had the social security number of each

259

00:11:32,540 --> 00:11:29,700

scientist listed beside the name in

260

00:11:35,690 --> 00:11:32,550

plain view which could have obviously

261

00:11:37,910 --> 00:11:35,700

led to identity theft Quinn said it was

262

00:11:41,170 --> 00:11:37,920

scary because all the secret information

263

00:11:43,700 --> 00:11:41,180

was sitting there in the trash can

264

00:11:45,620 --> 00:11:43,710

however Quinn didn't realize at first

265

00:11:47,170 --> 00:11:45,630

that the list of names and Social

266

00:11:50,240 --> 00:11:47,180

Security numbers wasn't the only

267

00:11:52,880 --> 00:11:50,250

sensitive information she'd found these

268

00:11:56,440 --> 00:11:52,890

documents also included early test

269

00:11:59,900 --> 00:11:56,450

results of aerospace models and drones

270

00:12:02,750 --> 00:11:59,910

photos manuals from the NASA space

271

00:12:05,600 --> 00:12:02,760

program were also hidden in this pile of

272

00:12:07,400 --> 00:12:05,610

documents other records were related to

273

00:12:09,920 --> 00:12:07,410

drone tests at Martin Marietta

274

00:12:13,370 --> 00:12:09,930

corporation the company was founded in

275

00:12:16,550 --> 00:12:13,380

1961 they focus on chemicals aerospace

276

00:12:17,960 --> 00:12:16,560

and electronics Martin Marietta later

277

00:12:20,350 --> 00:12:17,970

went on to merge with Lockheed

278

00:12:23,420 --> 00:12:20,360

corporation that happened in March of

279

00:12:26,870 --> 00:12:23,430

1995 and now we know them as Lockheed

280

00:12:29,510 --> 00:12:26,880

Martin Charles Jeffery a spaceflight

281

00:12:32,240 --> 00:12:29,520

memorabilia appraiser for the American

282

00:12:34,900 --> 00:12:32,250

Space Museum in Titusville Florida told

283

00:12:37,010 --> 00:12:34,910

WKMG that Martin Marietta was quote

284

00:12:40,880 --> 00:12:37,020

designing some of the very first

285

00:12:42,890 --> 00:12:40,890

unmanned spacecraft drones and quotes he

286

00:12:45,740 --> 00:12:42,900

said the press manual for the 1960s

287

00:12:48,530 --> 00:12:45,750

launch system Gemini Titan 2 and the

288

00:12:50,780 --> 00:12:48,540

Titan manual were found in a stack of

289

00:12:54,560 --> 00:12:50,790

photos in those piles and he called them

290

00:12:57,110 --> 00:12:54,570

history the test results the black and

291

00:13:00,050 --> 00:12:57,120

white photos belong to someone named G H

292

00:13:02,600 --> 00:13:00,060

Hampton he apparently was an aerospace

293

00:13:05,930 --> 00:13:02,610

engineer at the company and seems to

294

00:13:09,140 --> 00:13:05,940

have had access to rare NASA images rare

295

00:13:11,930 --> 00:13:09,150

artists renderings in these documents

296

00:13:16,460 --> 00:13:11,940

was also a NASA causeway pass that's

297

00:13:18,410 --> 00:13:16,470

uppercase C for the STS - 96 shuttle

298

00:13:21,920 --> 00:13:18,420

launch and that carried a date of May

299

00:13:25,000 --> 00:13:21,930

27th 1999 these documents are

300

00:13:27,980 --> 00:13:25,010

handwritten and signed by gh Hampton

301
00:13:30,740 --> 00:13:27,990
also in this bunch of information there

302
00:13:33,320 --> 00:13:30,750
was a 1960s era rendering of a lunar

303
00:13:35,420 --> 00:13:33,330
excursion vehicle that was one of the

304
00:13:38,510 --> 00:13:35,430
earliest designs for a vehicle to land

305
00:13:40,940 --> 00:13:38,520
on the moon and apparently the exact

306
00:13:43,930 --> 00:13:40,950
model made from these drawings can now

307
00:13:46,699 --> 00:13:43,940
be found at the American Space Museum

308
00:13:49,850 --> 00:13:46,709
these documents found by a vet Quinn

309
00:13:54,680 --> 00:13:49,860
were donated ultimately to that American

310
00:13:56,540 --> 00:13:54,690
Space Museum by station WKMG makes the

311
00:13:58,550 --> 00:13:56,550
mind real doesn't it gentle listeners

312
00:14:01,070 --> 00:13:58,560
you can bet that we'll be following this

313
00:14:03,800 --> 00:14:01,080

story there's sure to be some sort of

314

00:14:06,889 --> 00:14:03,810

fallout it's interesting what happens to

315

00:14:09,710 --> 00:14:06,899

information to evidence let's segue into

316

00:14:12,320 --> 00:14:09,720

this from Syracuse New Times that

317

00:14:14,630 --> 00:14:12,330

wonderful column written by Cheryl Costa

318

00:14:18,170 --> 00:14:14,640

here's her headline the deafening

319

00:14:20,269 --> 00:14:18,180

silence of proof and she writes in the

320

00:14:22,970 --> 00:14:20,279

first-person so that's how you're going

321

00:14:25,880 --> 00:14:22,980

to hear it since the release of my and

322

00:14:28,460 --> 00:14:25,890

my spouse's book UFO sightings Desk

323

00:14:31,699 --> 00:14:28,470

Reference there's been significant media

324

00:14:33,260 --> 00:14:31,709

interest which has been a good thing the

325

00:14:35,240 --> 00:14:33,270

surprising thing is the change in

326

00:14:38,000 --> 00:14:35,250

attitude related to the types of

327

00:14:40,010 --> 00:14:38,010

interview questions I've received prior

328

00:14:42,710 --> 00:14:40,020

to releasing the book the questions

329

00:14:46,220 --> 00:14:42,720

asked by media hosts tended to be little

330

00:14:49,100 --> 00:14:46,230

green man queries it's a mosaic of

331

00:14:51,949 --> 00:14:49,110

questions who's driving the UFOs why are

332

00:14:54,470 --> 00:14:51,959

they here most of these questions are

333

00:14:57,710 --> 00:14:54,480

intended to discredit the expert and

334

00:14:59,900 --> 00:14:57,720

present the subject in a silly light but

335

00:15:02,329 --> 00:14:59,910

recently it has been quite different

336

00:15:05,420 --> 00:15:02,339

the refreshingly serious questions are

337

00:15:08,569 --> 00:15:05,430

focused on the cold hard facts of the

338

00:15:10,310 --> 00:15:08,579

statistical numbers we presented for

339

00:15:13,640 --> 00:15:10,320

some of the reporters there was a sense

340

00:15:15,680 --> 00:15:13,650

of fascination for others there seemed

341

00:15:18,940 --> 00:15:15,690

to be a struggle to hang on to

342

00:15:21,829 --> 00:15:18,950

preconceived ideas about the UFO topic

343

00:15:24,740 --> 00:15:21,839

indeed many of the reporters have their

344

00:15:27,710 --> 00:15:24,750

view of reality challenged and in a

345

00:15:31,400 --> 00:15:27,720

couple of cases shattered several

346

00:15:33,260 --> 00:15:31,410

muttered this stuff is real of course

347

00:15:35,199 --> 00:15:33,270

there are some news editors and news

348

00:15:37,629 --> 00:15:35,209

directors who refused to

349

00:15:40,540 --> 00:15:37,639

in front the media topicality that the

350

00:15:42,910 --> 00:15:40,550

UFO statistics caused while pitching

351

00:15:45,910 --> 00:15:42,920

phone calls I was confronted with lines

352

00:15:49,030 --> 00:15:45,920

like Oh Cheryl the issues of UFOs was

353

00:15:51,970 --> 00:15:49,040

settled years ago or Cheryl II it's too

354

00:15:53,949 --> 00:15:51,980

silly to talk about huh and of course my

355

00:15:56,859 --> 00:15:53,959

favorite come back to me when you have

356

00:15:59,739 --> 00:15:56,869

some proof regarding the comment that

357

00:16:02,679 --> 00:15:59,749

UFOs were settled long ago I can only

358

00:16:06,549 --> 00:16:02,689

offer that the government told us for

359

00:16:09,369 --> 00:16:06,559

years that UFOs were declining but our

360

00:16:12,809 --> 00:16:09,379

book proved that UFO reports have been

361

00:16:14,859 --> 00:16:12,819

increasing in waves over 15 years

362

00:16:17,829 --> 00:16:14,869

regarding the remark on the subject

363

00:16:20,079 --> 00:16:17,839

being too silly if it is too silly why

364

00:16:24,910 --> 00:16:20,089

has it been classified higher than the

365

00:16:26,799 --> 00:16:24,920

h-bomb since the 1950s finally regarding

366

00:16:29,230 --> 00:16:26,809

the statement come back to me when you

367

00:16:31,780 --> 00:16:29,240

have some proof okay there's plenty of

368

00:16:34,239 --> 00:16:31,790

proof out there if you're willing to

369

00:16:34,929 --> 00:16:34,249

look at it and not dismiss it out of

370

00:16:39,789 --> 00:16:34,939

hand

371

00:16:42,429 --> 00:16:39,799

case in point since the 1970s a humble

372

00:16:45,519 --> 00:16:42,439

one-armed gentleman in Switzerland named

373

00:16:49,179 --> 00:16:45,529

Edward Albert Meier and that spelled M e

374

00:16:52,239 --> 00:16:49,189

ie R has been having regular contact

375

00:16:54,489 --> 00:16:52,249

with off-worlders Meier has produced

376

00:16:57,160 --> 00:16:54,499

hundreds of still photographs and videos

377

00:17:00,189 --> 00:16:57,170

of offworld spacecrafts called beam

378

00:17:02,470 --> 00:17:00,199

ships these items have been labeled

379

00:17:05,500 --> 00:17:02,480

fraudulent by the world skeptics and

380

00:17:07,389 --> 00:17:05,510

debunkers yet three decades of photo

381

00:17:11,289 --> 00:17:07,399

analysis have confirmed they weren't

382

00:17:14,319 --> 00:17:11,299

faked billy meier as he's mostly known

383

00:17:16,990 --> 00:17:14,329

to all of us as presented metal alloy

384

00:17:18,850 --> 00:17:17,000

samples that renowned metallurgist have

385

00:17:20,850 --> 00:17:18,860

stated they couldn't reproduce with

386

00:17:23,649 --> 00:17:20,860

current technology here on earth

387

00:17:26,110 --> 00:17:23,659

likewise Maier has also predicted

388

00:17:28,720 --> 00:17:26,120

certain things things that offworlders

389

00:17:32,080 --> 00:17:28,730

told him were getting ready to happen in

390

00:17:36,010 --> 00:17:32,090

the past forty to fifty years all these

391

00:17:37,860 --> 00:17:36,020

things have come to pass when I first

392

00:17:40,029 --> 00:17:37,870

heard of Maier in the 1990s I was

393

00:17:42,460 --> 00:17:40,039

fascinated with his story and the

394

00:17:44,889 --> 00:17:42,470

evidence he presented I was even more

395

00:17:47,620 --> 00:17:44,899

fascinated with the lack of media

396

00:17:48,150 --> 00:17:47,630

coverage for his story and encounters

397

00:17:50,550 --> 00:17:48,160

out

398

00:17:53,670 --> 00:17:50,560

of Europe especially coverage in the

399

00:17:56,490 --> 00:17:53,680

United States in fact in most current

400

00:17:58,920 --> 00:17:56,500

UFO programs we see on mainstream cable

401
00:18:02,490 --> 00:17:58,930
television channels nobody brings up

402
00:18:05,520 --> 00:18:02,500
billy meier that's his nickname on April

403
00:18:06,870 --> 00:18:05,530
18 2016 I published an article my

404
00:18:09,690 --> 00:18:06,880
smoking gun

405
00:18:13,530 --> 00:18:09,700
UFO proof which was met with harsh

406
00:18:15,660 --> 00:18:13,540
criticism social media UFO trolls came

407
00:18:18,450 --> 00:18:15,670
out of the proverbial woodwork to

408
00:18:21,210 --> 00:18:18,460
denounce billy meier as a fraud and to

409
00:18:24,870 --> 00:18:21,220
label me a fool for accepting any of his

410
00:18:27,570 --> 00:18:24,880
material as legitimate these days there

411
00:18:30,270 --> 00:18:27,580
is a large amount of CGI fakery out in

412
00:18:32,990 --> 00:18:30,280
social media including well doctored

413
00:18:36,090 --> 00:18:33,000

photos of alleged alien craft sightings

414

00:18:38,420 --> 00:18:36,100

some of the CGI is as convincing as

415

00:18:41,430 --> 00:18:38,430

anything Hollywood could ever produce

416

00:18:43,980 --> 00:18:41,440

what's strange here is that the

417

00:18:46,830 --> 00:18:43,990

debunkers are nowhere near as loud with

418

00:18:49,230 --> 00:18:46,840

the CGI frauds as they've been with the

419

00:18:53,370 --> 00:18:49,240

billy meier material over all these

420

00:18:57,450 --> 00:18:53,380

years that old saying quote perhaps they

421

00:18:59,760 --> 00:18:57,460

do protest too much and quotes on one

422

00:19:02,370 --> 00:18:59,770

hand perhaps all the debunking is just

423

00:19:04,410 --> 00:19:02,380

loud cries of those who can't deal with

424

00:19:07,050 --> 00:19:04,420

the view of reality being challenged on

425

00:19:09,390 --> 00:19:07,060

the other hand perhaps all the

426

00:19:13,170 --> 00:19:09,400

protesting and defaming of billy meier

427

00:19:16,110 --> 00:19:13,180

is just one massive misinformation

428

00:19:19,650 --> 00:19:16,120

campaign intended to discredit evidence

429

00:19:21,750 --> 00:19:19,660

of real extraterrestrial contact after

430

00:19:24,290 --> 00:19:21,760

reviewing evidence from billy mayer and

431

00:19:27,090 --> 00:19:24,300

observing the deafening media silence

432

00:19:31,080 --> 00:19:27,100

related to his case it's clear to me

433

00:19:36,450 --> 00:19:31,090

that billy meier is that 800-pound

434

00:19:37,920 --> 00:19:36,460

gorilla in the room of ufology thank you

435

00:19:41,130 --> 00:19:37,930

for that Cheryl Costa

436

00:19:42,960 --> 00:19:41,140

she makes fascinating points time to

437

00:19:46,320 --> 00:19:42,970

dawn up with that protective headgear

438

00:19:49,410 --> 00:19:46,330

goggles gloves boots if you choose we're

439

00:19:53,100 --> 00:19:49,420

about to hop into that UFO stalker comm

440

00:19:55,740 --> 00:19:53,110

shuttle for our cyber UFO trip Oh shall

441

00:19:57,690 --> 00:19:55,750

we let's go to Butler Pennsylvania on

442

00:19:59,550 --> 00:19:57,700

the east coast of the United States and

443

00:20:01,370 --> 00:19:59,560

if those clouds go up tonight

444

00:20:03,320 --> 00:20:01,380

successfully well they

445

00:20:05,690 --> 00:20:03,330

probably will see them in Butler

446

00:20:07,970 --> 00:20:05,700

Pennsylvania but that's not what they

447

00:20:10,940 --> 00:20:07,980

saw on this night this was the 18th of

448

00:20:13,610 --> 00:20:10,950

June this year reported on the same day

449

00:20:17,330 --> 00:20:13,620

it's got a move on case number eight

450

00:20:19,400 --> 00:20:17,340

four four seven one here's the summary

451
00:20:21,230 --> 00:20:19,410
nope they weren't NASA's red and blue

452
00:20:24,470 --> 00:20:21,240
colored clouds at all in fact this was a

453
00:20:27,200 --> 00:20:24,480
black orb floating across the sky

454
00:20:29,980 --> 00:20:27,210
there's video and you can find that

455
00:20:33,080 --> 00:20:29,990
later at UFO headline news calm under

456
00:20:35,420 --> 00:20:33,090
sighting specifics so our witness offers

457
00:20:38,570 --> 00:20:35,430
a viewing distance of over one mile an

458
00:20:40,880 --> 00:20:38,580
altitude that was unknown the sighting

459
00:20:43,400 --> 00:20:40,890
duration was seven minutes the videos

460
00:20:45,800 --> 00:20:43,410
not quite that long these object

461
00:20:48,470 --> 00:20:45,810
features just get reported as unknown

462
00:20:50,390 --> 00:20:48,480
the flight path was a straight line path

463
00:20:53,960 --> 00:20:50,400

and this thing was shaped like a sphere

464

00:20:55,610 --> 00:20:53,970

or orb as you heard earlier and to note

465

00:20:57,830 --> 00:20:55,620

gentle listeners this would never make

466

00:21:00,410 --> 00:20:57,840

it as evidence in a court of law

467

00:21:02,900 --> 00:21:00,420

it is second-hand it's reported for a

468

00:21:06,230 --> 00:21:02,910

friend but it's an interesting account

469

00:21:08,420 --> 00:21:06,240

as is the video here we go I'm actually

470

00:21:11,330 --> 00:21:08,430

reporting this for a friend of mine who

471

00:21:14,300 --> 00:21:11,340

lives in Butler Pennsylvania she gave me

472

00:21:17,750 --> 00:21:14,310

permission to submit this she saw this

473

00:21:20,720 --> 00:21:17,760

object around 7:45 p.m. on Sunday she

474

00:21:23,270 --> 00:21:20,730

saw it directly above her it was

475

00:21:26,210 --> 00:21:23,280

floating near 10,000 to 15,000 feet

476
00:21:27,700 --> 00:21:26,220
there was no change in altitude at any

477
00:21:30,650 --> 00:21:27,710
time whatsoever

478
00:21:33,050 --> 00:21:30,660
she mentioned that it seemed to move

479
00:21:35,620 --> 00:21:33,060
very quickly across the sky from north

480
00:21:38,360 --> 00:21:35,630
to east going in a straight line

481
00:21:41,270 --> 00:21:38,370
her estimate was this could have

482
00:21:44,540 --> 00:21:41,280
potentially been the size of half of a

483
00:21:47,240 --> 00:21:44,550
regular commercial airline perhaps a 747

484
00:21:50,000 --> 00:21:47,250
and it seemed to be about 10,000 feet in

485
00:21:52,250 --> 00:21:50,010
the air she and I have discussed the

486
00:21:55,520 --> 00:21:52,260
possibility of this having been a drone

487
00:21:57,740 --> 00:21:55,530
or a balloon but it was hard for her to

488
00:22:00,680 --> 00:21:57,750

judge because it was so large and it was

489

00:22:04,040 --> 00:22:00,690

moving very fast it moved right to left

490

00:22:06,110 --> 00:22:04,050

this object made no sound and at that

491

00:22:09,380 --> 00:22:06,120

time she could observe no other aircraft

492

00:22:11,690 --> 00:22:09,390

in the area I searched the internet for

493

00:22:14,240 --> 00:22:11,700

related reports and found numerous

494

00:22:14,930 --> 00:22:14,250

people reporting these black orbs all

495

00:22:16,880 --> 00:22:14,940

over the world

496

00:22:20,120 --> 00:22:16,890

I have attached a video of the encounter

497

00:22:21,620 --> 00:22:20,130

she took the moment she saw it she told

498

00:22:23,720 --> 00:22:21,630

me that the object might have

499

00:22:26,200 --> 00:22:23,730

essentially just disappeared she lost

500

00:22:29,420 --> 00:22:26,210

sight of it only a few moments later and

501
00:22:32,870 --> 00:22:29,430
our witness ends with maybe someone can

502
00:22:35,120 --> 00:22:32,880
shed some light on this oh that would be

503
00:22:38,180 --> 00:22:35,130
cool put on one's high beams and

504
00:22:40,460 --> 00:22:38,190
interestingly enough there is a place if

505
00:22:42,500 --> 00:22:40,470
you want to weigh in make suggestions

506
00:22:44,780 --> 00:22:42,510
report a sighting of your own at the

507
00:22:47,240 --> 00:22:44,790
bottom of each sighting at UFO stalker

508
00:22:50,360 --> 00:22:47,250
calm there's a space where you can do

509
00:22:52,640 --> 00:22:50,370
just that okay grab hold and hang on at

510
00:22:55,220 --> 00:22:52,650
warp speed we're going to cross the

511
00:22:57,140 --> 00:22:55,230
continental United States now and we

512
00:23:00,530 --> 00:22:57,150
won't stop till we come to Redmond

513
00:23:04,460 --> 00:23:00,540

Washington way on the west coast the

514

00:23:06,350 --> 00:23:04,470

case number here is 8 4 to 8 to list a

515

00:23:09,860 --> 00:23:06,360

place on the 1st of June and was

516

00:23:13,670 --> 00:23:09,870

reported on the 9th of June in summary

517

00:23:17,360 --> 00:23:13,680

red orb alternating bright red to bright

518

00:23:20,240 --> 00:23:17,370

orange yellow 50-foot above treeline on

519

00:23:22,880 --> 00:23:20,250

hillside the category of sighting

520

00:23:26,900 --> 00:23:22,890

specifics provides this a viewing

521

00:23:30,740 --> 00:23:26,910

distance 101 to 500 feet the altitude

522

00:23:33,110 --> 00:23:30,750

treetop 500 feet or less the duration of

523

00:23:36,440 --> 00:23:33,120

this sighting was 3 minutes the object

524

00:23:39,350 --> 00:23:36,450

features are reported as none its flight

525

00:23:42,410 --> 00:23:39,360

path was stationary hovering and then

526
00:23:45,200 --> 00:23:42,420
path and then a path with more hovering

527
00:23:47,720 --> 00:23:45,210
this object was shaped like a sphere at

528
00:23:50,360 --> 00:23:47,730
the time of this event the maximum

529
00:23:52,930 --> 00:23:50,370
temperature in Redmond Washington was 69

530
00:23:57,050 --> 00:23:52,940
degrees Fahrenheit 21 degrees Celsius

531
00:24:00,350 --> 00:23:57,060
minimum 57 degrees Fahrenheit 14 degrees

532
00:24:04,040 --> 00:24:00,360
Celsius the maximum visibility 10 miles

533
00:24:07,190 --> 00:24:04,050
16 kilometers down to the minimum of 3

534
00:24:10,760 --> 00:24:07,200
miles 5 kilometers and at the time it

535
00:24:13,360 --> 00:24:10,770
was raining oh cool we can use our minds

536
00:24:16,190 --> 00:24:13,370
ear to think about the sound of

537
00:24:19,100 --> 00:24:16,200
windshield wipers because our witness

538
00:24:22,190 --> 00:24:19,110

was driving on the highway at

539

00:24:25,640 --> 00:24:22,200

approximately 2:30 a.m. it was a light

540

00:24:28,760 --> 00:24:25,650

rain cloudy sky occasional lightning no

541

00:24:32,330 --> 00:24:28,770

moon visible spherical objects

542

00:24:34,970 --> 00:24:32,340

scene above treeline on Hill parallel to

543

00:24:37,220 --> 00:24:34,980

highway initially I thought this could

544

00:24:38,000 --> 00:24:37,230

be a hot air balloon forced down because

545

00:24:40,700 --> 00:24:38,010

of the weather

546

00:24:43,280 --> 00:24:40,710

I instantly discarded this idea due to

547

00:24:46,610 --> 00:24:43,290

the fact there was no baskets below the

548

00:24:48,820 --> 00:24:46,620

sphere there was no gas flame no tether

549

00:24:53,060 --> 00:24:48,830

line it just wasn't the correct shape

550

00:24:55,790 --> 00:24:53,070

this was a perfect spherical shape not a

551
00:24:58,700 --> 00:24:55,800
hot-air balloon I estimated this thing

552
00:25:01,130 --> 00:24:58,710
to be 50 to 100 feet in diameter it was

553
00:25:04,280 --> 00:25:01,140
moving back and forth in a sweeping

554
00:25:06,820 --> 00:25:04,290
motion it was fairly bright red it would

555
00:25:10,670 --> 00:25:06,830
change then to an orange color this

556
00:25:13,430 --> 00:25:10,680
color was about the color of metal when

557
00:25:17,060 --> 00:25:13,440
it's red-hot the surface of the sphere

558
00:25:19,880 --> 00:25:17,070
was without Sheen without reflection the

559
00:25:23,000 --> 00:25:19,890
edge of the sphere went from a distinct

560
00:25:25,790 --> 00:25:23,010
edge to something blurred and this color

561
00:25:29,000 --> 00:25:25,800
varied it went from intense red-hot to

562
00:25:33,080 --> 00:25:29,010
duller red hot then orange yellow and

563
00:25:34,460 --> 00:25:33,090

then back to that intense red I was

564

00:25:36,680 --> 00:25:34,470

still driving slowly

565

00:25:39,530 --> 00:25:36,690

I lost view of this object due to the

566

00:25:41,990 --> 00:25:39,540

trees obscuring it this object seemed so

567

00:25:44,720 --> 00:25:42,000

out of place with the environment in

568

00:25:47,120 --> 00:25:44,730

this dark area there were few if any

569

00:25:48,980 --> 00:25:47,130

lights around in fact my car headlights

570

00:25:51,650 --> 00:25:48,990

were the only lights on the road at that

571

00:25:54,500 --> 00:25:51,660

hour the only other light was a small

572

00:25:56,120 --> 00:25:54,510

red aircraft warning light that I could

573

00:25:58,370 --> 00:25:56,130

see on top of a communication tower

574

00:26:01,220 --> 00:25:58,380

which was about half mile to the north

575

00:26:02,900 --> 00:26:01,230

of this object I wasn't very interested

576

00:26:06,680 --> 00:26:02,910

in getting closer and I didn't want to

577

00:26:09,140 --> 00:26:06,690

stop my car in retrospect I could easily

578

00:26:11,720 --> 00:26:09,150

have stopped and taken a picture with my

579

00:26:14,750 --> 00:26:11,730

cell phone but I was thinking more about

580

00:26:18,140 --> 00:26:14,760

being the only human in close proximity

581

00:26:21,350 --> 00:26:18,150

and I just didn't know what the agenda

582

00:26:23,990 --> 00:26:21,360

was for whatever I was seeing I have

583

00:26:24,860 --> 00:26:24,000

seen a lot of things but nothing like

584

00:26:26,990 --> 00:26:24,870

this before

585

00:26:29,900 --> 00:26:27,000

this seemed to be some type of

586

00:26:31,100 --> 00:26:29,910

intelligently controlled object because

587

00:26:34,910 --> 00:26:31,110

of the way it moved

588

00:26:39,050 --> 00:26:34,920

perhaps our military but my guess would

589

00:26:41,120 --> 00:26:39,060

be that it is not made in USA then again

590

00:26:41,810 --> 00:26:41,130

who in the general public

591

00:26:50,090 --> 00:26:41,820

really

592

00:26:53,120 --> 00:26:50,100

knows and on that note we say we know

593

00:26:55,400 --> 00:26:53,130

we've got a fly because that's a wrap

594

00:26:57,410 --> 00:26:55,410

thank you for listening to inception

595

00:27:00,650 --> 00:26:57,420

Radio Network follow today's broadcast

596

00:27:02,960 --> 00:27:00,660

at UFO headline news calm and hey you

597

00:27:04,460 --> 00:27:02,970

check us out on YouTube take care of
