

UFO Headline News Monday June 26th, 2017

Listen on

inceptionradionetwork.com

1
00:00:05,430 --> 00:00:00,950

[Music]

2
00:00:08,230 --> 00:00:05,440

hello it's monday june 26th 2017. you

3
00:00:10,629 --> 00:00:08,240

are listening to inception radio network

4
00:00:15,270 --> 00:00:10,639

voice of the fringe majority this is

5
00:00:18,150 --> 00:00:15,280

carol carl with ufo headline news

6
00:00:20,470 --> 00:00:18,160

tonight provided weather allows from

7
00:00:22,870 --> 00:00:20,480

your backyard your balcony any place you

8
00:00:24,870 --> 00:00:22,880

can get a chance to look at the sky

9
00:00:27,589 --> 00:00:24,880

you're going to see the moon in front of

10
00:00:30,550 --> 00:00:27,599

the constellation cancer the crab

11
00:00:32,709 --> 00:00:30,560

yep the waxing crescent moon will beam

12
00:00:34,950 --> 00:00:32,719

in front of that constellation it's the

13
00:00:36,069 --> 00:00:34,960

faintest constellation of the zodiac by

14

00:00:38,630 --> 00:00:36,079

the way

15

00:00:41,110 --> 00:00:38,640

it seems as though in the real sky

16

00:00:43,270 --> 00:00:41,120

unlike a chart which you can find later

17

00:00:45,110 --> 00:00:43,280

at ufoheadlinenews.com

18

00:00:47,110 --> 00:00:45,120

you're not likely going to be able to

19

00:00:49,190 --> 00:00:47,120

pick out any of the stars in the moon's

20

00:00:51,510 --> 00:00:49,200

vicinity because the constellation

21

00:00:54,549 --> 00:00:51,520

cancer the crab is faint and it's

22

00:00:56,709 --> 00:00:54,559

obscured by evening twilight but cancer

23

00:00:58,709 --> 00:00:56,719

stars will be there behind the moon's

24

00:01:01,029 --> 00:00:58,719

glare all the same

25

00:01:02,790 --> 00:01:01,039

zodiacal constellations like cancer

26

00:01:05,990 --> 00:01:02,800

distinguish themselves from other

27

00:01:08,870 --> 00:01:06,000

constellations in that the sun moon and

28

00:01:10,469 --> 00:01:08,880

planets travel within their borders

29

00:01:13,109 --> 00:01:10,479

the sun travels in front of the

30

00:01:16,149 --> 00:01:13,119

constellation cancer from about july

31

00:01:18,310 --> 00:01:16,159

21st to august 10th every year that may

32

00:01:19,749 --> 00:01:18,320

seem to be at odds with the horoscope

33

00:01:21,749 --> 00:01:19,759

page that you might find in your

34

00:01:23,910 --> 00:01:21,759

newspaper and that probably gives the

35

00:01:27,590 --> 00:01:23,920

sun's passage through cancer for the

36

00:01:30,630 --> 00:01:27,600

dates june 21st to july 21st

37

00:01:33,030 --> 00:01:30,640

why the discrepancy well that's because

38

00:01:35,910 --> 00:01:33,040

the zodiac sign is different from the

39

00:01:37,590 --> 00:01:35,920

zodiac constellation although they are

40

00:01:40,789 --> 00:01:37,600

often confused

41

00:01:44,310 --> 00:01:40,799

the definition of a tropical zodiac sign

42

00:01:46,630 --> 00:01:44,320

is this by definition the sun always is

43

00:01:49,109 --> 00:01:46,640

at the first point of the sign cancer on

44

00:01:51,510 --> 00:01:49,119

the june solstice irrespective of which

45

00:01:52,310 --> 00:01:51,520

group of stars backdrops the sun at that

46

00:01:54,389 --> 00:01:52,320

time

47

00:01:56,789 --> 00:01:54,399

if you look at the globe and you'll note

48

00:01:59,030 --> 00:01:56,799

the tropic of cancer which marks the

49

00:02:01,350 --> 00:01:59,040

northernmost extent of the sun's travels

50

00:02:04,630 --> 00:02:01,360

on june solstice so here's the

51
00:02:07,270 --> 00:02:04,640
definition of a zodiac constellation

52
00:02:09,430 --> 00:02:07,280
any constellation can be thought of as a

53
00:02:12,309 --> 00:02:09,440
section of the starry sky

54
00:02:15,510 --> 00:02:12,319
seen and wondered about for millennia by

55
00:02:17,589 --> 00:02:15,520
stargazers in our time constellations

56
00:02:19,510 --> 00:02:17,599
have official borders which were agreed

57
00:02:21,990 --> 00:02:19,520
upon by that body called the

58
00:02:24,869 --> 00:02:22,000
international astronomical union they

59
00:02:27,990 --> 00:02:24,879
started that back in the 1930s

60
00:02:29,910 --> 00:02:28,000
over 2000 years ago the sun actually

61
00:02:33,030 --> 00:02:29,920
shone in front of the constellation

62
00:02:35,589 --> 00:02:33,040
cancer on the june solstice today the

63
00:02:38,630 --> 00:02:35,599

june solstice sun shines in front of the

64

00:02:41,190 --> 00:02:38,640

constellation taurus therefore the first

65

00:02:44,150 --> 00:02:41,200

point of the sign cancer presently

66

00:02:46,309 --> 00:02:44,160

resides in the constellation taurus

67

00:02:48,070 --> 00:02:46,319

because the earth's axis continually

68

00:02:50,869 --> 00:02:48,080

changes its tilt relative to the

69

00:02:52,869 --> 00:02:50,879

backdrop of stars the june solstice sun

70

00:02:55,110 --> 00:02:52,879

swings westward through all the

71

00:02:59,990 --> 00:02:55,120

constellations of the zodiac and that

72

00:03:02,149 --> 00:03:00,000

takes a period of about oh 26 000 years

73

00:03:05,030 --> 00:03:02,159

all the while the june solstice sun

74

00:03:06,229 --> 00:03:05,040

always marks the first point of the sign

75

00:03:09,110 --> 00:03:06,239

cancer

76

00:03:11,430 --> 00:03:09,120

kind of confusing complex interesting

77

00:03:13,670 --> 00:03:11,440

and once again we promise here at

78

00:03:16,710 --> 00:03:13,680

inception radio network on the ufo

79

00:03:20,309 --> 00:03:16,720

headline news no tests no pop quizzes

80

00:03:24,309 --> 00:03:20,319

just enjoy the flow of the info

81

00:03:27,350 --> 00:03:24,319

speaking of info that flows or not well

82

00:03:30,390 --> 00:03:27,360

nasa there are those who say nasa stands

83

00:03:32,470 --> 00:03:30,400

for never a straight answer

84

00:03:35,670 --> 00:03:32,480

well they're trying but it looks like

85

00:03:38,710 --> 00:03:35,680

those colorful clouds well not so much

86

00:03:41,270 --> 00:03:38,720

here's the headline look up nasa launch

87

00:03:43,750 --> 00:03:41,280

will create colorful clouds this story

88

00:03:46,470 --> 00:03:43,760

gets a byline for tariq malik who writes

89

00:03:49,430 --> 00:03:46,480

it for space.com he's the managing

90

00:03:53,430 --> 00:03:49,440

editor and here we go update for june

91

00:03:56,390 --> 00:03:53,440

24th 1 30 p.m eastern time that was the

92

00:03:58,149 --> 00:03:56,400

last scheduled launch nasa has once

93

00:04:00,229 --> 00:03:58,159

again delayed the launch of the

94

00:04:03,030 --> 00:04:00,239

artificial cloud mission due to

95

00:04:05,670 --> 00:04:03,040

unexpected cloudiness around that

96

00:04:07,429 --> 00:04:05,680

wallops flight facility launch site

97

00:04:09,830 --> 00:04:07,439

wallops is not announced when the next

98

00:04:13,270 --> 00:04:09,840

launch window will open but nasa will

99

00:04:15,429 --> 00:04:13,280

keep us updated in case you missed it

100

00:04:19,030 --> 00:04:15,439

this is time number eight they're going

101
00:04:22,469 --> 00:04:19,040
to try the primary goal is to test a new

102
00:04:23,830 --> 00:04:22,479
canister an ampoule ejection system on a

103
00:04:26,070 --> 00:04:23,840
sounding rocket

104
00:04:28,310 --> 00:04:26,080
quote the multi-canister ampoule

105
00:04:30,070 --> 00:04:28,320
ejection system flying on this mission

106
00:04:32,390 --> 00:04:30,080
will allow scientists to gather

107
00:04:34,870 --> 00:04:32,400
information over a much larger area than

108
00:04:37,189 --> 00:04:34,880
previously during a sounding rocket

109
00:04:39,270 --> 00:04:37,199
mission canisters will deploy during the

110
00:04:41,670 --> 00:04:39,280
rocket's ascent and they will release

111
00:04:45,030 --> 00:04:41,680
blue green and red vapor to form

112
00:04:47,670 --> 00:04:45,040
artificial clouds between 4 and 5.5

113
00:04:49,990 --> 00:04:47,680

minutes after launch these clouds or

114

00:04:51,990 --> 00:04:50,000

vapor tracers allow scientists on the

115

00:04:54,550 --> 00:04:52,000

ground to visually track particle

116

00:04:57,350 --> 00:04:54,560

motions in space end quotes

117

00:04:59,990 --> 00:04:57,360

the mission is highly dependent on the

118

00:05:02,710 --> 00:05:00,000

weather as the test requires clear skies

119

00:05:06,550 --> 00:05:02,720

over ground camera sites those sites

120

00:05:09,029 --> 00:05:06,560

wallops center and duck north carolina

121

00:05:11,430 --> 00:05:09,039

in fact this is the eighth time nasa has

122

00:05:13,670 --> 00:05:11,440

tried this launch so far this month

123

00:05:16,629 --> 00:05:13,680

since june 1st the agency has been

124

00:05:19,270 --> 00:05:16,639

repeatedly thwarted by high winds cloud

125

00:05:21,670 --> 00:05:19,280

cover and even boats in an offshore

126

00:05:24,629 --> 00:05:21,680

hazard area where parts of the sounding

127

00:05:26,310 --> 00:05:24,639

rocket will fall into the atlantic ocean

128

00:05:28,150 --> 00:05:26,320

and it's noted here if you live in the

129

00:05:30,390 --> 00:05:28,160

wallops island area and you want to

130

00:05:32,230 --> 00:05:30,400

watch the launch with nasa well they

131

00:05:34,790 --> 00:05:32,240

invite you to come on over to the

132

00:05:37,270 --> 00:05:34,800

wallops flight facility and you can also

133

00:05:39,590 --> 00:05:37,280

download something called what's up but

134

00:05:41,510 --> 00:05:39,600

wallops it's an app you can find out

135

00:05:43,749 --> 00:05:41,520

where and when to look to see the launch

136

00:05:46,150 --> 00:05:43,759

from your location oh by the way the

137

00:05:48,070 --> 00:05:46,160

folks over at space.com say if you

138

00:05:50,710 --> 00:05:48,080

capture an amazing image of this

139

00:05:53,029 --> 00:05:50,720

sounding rocket launch or those colorful

140

00:05:54,870 --> 00:05:53,039

artificial clouds we hope and you want

141

00:05:56,710 --> 00:05:54,880

to share them well there's a link you

142

00:05:59,510 --> 00:05:56,720

can submit your photo and they just

143

00:06:02,390 --> 00:05:59,520

might stick it into their photo gallery

144

00:06:04,390 --> 00:06:02,400

cool so we'll try to stay awake and keep

145

00:06:07,590 --> 00:06:04,400

our eyes on the skies over wallops

146

00:06:10,390 --> 00:06:07,600

island virginia and if all goes finally

147

00:06:12,230 --> 00:06:10,400

as planned these colorful clouds should

148

00:06:14,550 --> 00:06:12,240

be seen throughout the united states

149

00:06:15,510 --> 00:06:14,560

east coast as far up as the state of new

150

00:06:17,830 --> 00:06:15,520

york

151

00:06:19,990 --> 00:06:17,840

here's a snippet of an article but the

152

00:06:21,830 --> 00:06:20,000

content is interesting it's from

153

00:06:24,469 --> 00:06:21,840

sciencemag.org

154

00:06:25,590 --> 00:06:24,479

with a byline for sid perkins here's the

155

00:06:29,830 --> 00:06:25,600

headline

156

00:06:32,629 --> 00:06:29,840

bright night glowing sky mystery solved

157

00:06:35,350 --> 00:06:32,639

well we know it wasn't the nasa clouds

158

00:06:37,189 --> 00:06:35,360

here we go on rare occasions the

159

00:06:39,830 --> 00:06:37,199

nighttime sky at earth's temperate

160

00:06:42,629 --> 00:06:39,840

latitudes becomes bright enough even on

161

00:06:43,670 --> 00:06:42,639

moonless nights for people to read a

162

00:06:46,309 --> 00:06:43,680

book

163

00:06:49,189 --> 00:06:46,319

these mysterious events termed bright

164

00:06:51,510 --> 00:06:49,199

nights and reported for centuries

165

00:06:53,990 --> 00:06:51,520

aren't related to the glows of aurora

166

00:06:56,390 --> 00:06:54,000

instead a new study suggests the

167

00:06:59,270 --> 00:06:56,400

phenomena occur when four types of

168

00:07:02,390 --> 00:06:59,280

slow-moving high-altitude atmospheric

169

00:07:05,510 --> 00:07:02,400

waves merge over a small region

170

00:07:07,749 --> 00:07:05,520

and in turn temporarily drive a tenfold

171

00:07:09,589 --> 00:07:07,759

or stronger brightening of an

172

00:07:12,950 --> 00:07:09,599

ever-present glow in the upper

173

00:07:15,589 --> 00:07:12,960

atmosphere that air glow rises when

174

00:07:18,390 --> 00:07:15,599

individual gas items previously created

175

00:07:21,749 --> 00:07:18,400

when ultraviolet light blasted those gas

176

00:07:23,990 --> 00:07:21,759

molecules apart later recombine

177

00:07:26,070 --> 00:07:24,000

that's what the researchers explain

178

00:07:29,510 --> 00:07:26,080

analyzing measurements of high altitude

179

00:07:32,309 --> 00:07:29,520

air glow gathered by a satellite in 1992

180

00:07:35,029 --> 00:07:32,319

and 1996. those were the years of

181

00:07:36,309 --> 00:07:35,039

maximum and minimum solar flare activity

182

00:07:39,029 --> 00:07:36,319

respectively

183

00:07:41,830 --> 00:07:39,039

the scientists found 11 cases where air

184

00:07:44,390 --> 00:07:41,840

glow in theory brightened enough to be

185

00:07:46,790 --> 00:07:44,400

seen by observers on the ground

186

00:07:48,070 --> 00:07:46,800

this is reported in geophysical research

187

00:07:50,070 --> 00:07:48,080

letters

188

00:07:52,309 --> 00:07:50,080

based on the team's analyses they

189

00:07:54,869 --> 00:07:52,319

estimate that a tenfold or more

190

00:07:57,350 --> 00:07:54,879

magnification of airglow occurs

191

00:08:00,150 --> 00:07:57,360

somewhere on earth on seven percent of

192

00:08:02,629 --> 00:08:00,160

nights with observers at any one spot

193

00:08:05,270 --> 00:08:02,639

able to see a bright night only once per

194

00:08:06,710 --> 00:08:05,280

year and only then if conditions are

195

00:08:08,710 --> 00:08:06,720

just right

196

00:08:11,110 --> 00:08:08,720

reports of bright nights have become

197

00:08:13,189 --> 00:08:11,120

more rare in recent times it's that

198

00:08:15,189 --> 00:08:13,199

light pollution factor

199

00:08:17,510 --> 00:08:15,199

although the team's analyses probably

200

00:08:20,070 --> 00:08:17,520

won't help regular stargazers they could

201
00:08:21,990 --> 00:08:20,080
be used to help predict when enhanced

202
00:08:23,830 --> 00:08:22,000
airglow might interfere with the

203
00:08:26,469 --> 00:08:23,840
sensitive instruments used by many

204
00:08:30,469 --> 00:08:26,479
ground-based astronomers

205
00:08:32,790 --> 00:08:30,479
high altitude airglow amazing

206
00:08:35,029 --> 00:08:32,800
here's something we find quite amazing

207
00:08:37,990 --> 00:08:35,039
it's from theverge.com

208
00:08:42,230 --> 00:08:38,000
written by rich mccormick headline

209
00:08:44,070 --> 00:08:42,240
here comes the united states space corps

210
00:08:46,389 --> 00:08:44,080
a proposed new branch of the united

211
00:08:49,269 --> 00:08:46,399
states military would protect americans

212
00:08:52,230 --> 00:08:49,279
from space threats

213
00:08:55,110 --> 00:08:52,240

star trek has starfleet star wars has

214

00:08:57,590 --> 00:08:55,120

the imperial navy and halo has the

215

00:08:59,509 --> 00:08:57,600

united nations space command

216

00:09:01,750 --> 00:08:59,519

but for the moment real-life earthlings

217

00:09:05,030 --> 00:09:01,760

of the united states don't have a cool

218

00:09:06,630 --> 00:09:05,040

sci-fi name for their space military but

219

00:09:08,949 --> 00:09:06,640

that could change soon

220

00:09:11,590 --> 00:09:08,959

legislation has been drafted by the

221

00:09:14,389 --> 00:09:11,600

house armed services committee to form

222

00:09:16,150 --> 00:09:14,399

the space corps a new branch of the

223

00:09:18,550 --> 00:09:16,160

united states military that would come

224

00:09:21,190 --> 00:09:18,560

under the command of the air force and

225

00:09:22,389 --> 00:09:21,200

deal with threats to american national

226

00:09:25,829 --> 00:09:22,399

security

227

00:09:27,750 --> 00:09:25,839

occurring outside of earth's atmosphere

228

00:09:29,590 --> 00:09:27,760

the draft legislation was worked out by

229

00:09:31,430 --> 00:09:29,600

both republican and democrat house

230

00:09:34,230 --> 00:09:31,440

representatives who said there was a

231

00:09:36,470 --> 00:09:34,240

quote bipartisan acknowledgement that

232

00:09:38,949 --> 00:09:36,480

the strategic advantages we derive from

233

00:09:41,509 --> 00:09:38,959

our national security space systems are

234

00:09:43,350 --> 00:09:41,519

eroding end quotes those are the words

235

00:09:46,150 --> 00:09:43,360

of representative jim cooper he's a

236

00:09:48,550 --> 00:09:46,160

tennessee democrat and mike rogers a

237

00:09:49,990 --> 00:09:48,560

republican from alabama in their

238

00:09:52,310 --> 00:09:50,000

statement they said they were quote

239

00:09:55,190 --> 00:09:52,320

convinced that the department of defense

240

00:09:57,190 --> 00:09:55,200

is unable to take the measures necessary

241

00:09:59,990 --> 00:09:57,200

to address these challenges effectively

242

00:10:03,910 --> 00:10:00,000

and decisively or even recognize the

243

00:10:04,790 --> 00:10:03,920

nature and scale of its problems end

244

00:10:07,269 --> 00:10:04,800

quotes

245

00:10:09,750 --> 00:10:07,279

oh we're reading between the lines here

246

00:10:12,389 --> 00:10:09,760

gentle listeners the air force currently

247

00:10:14,790 --> 00:10:12,399

has its own space command wing but

248

00:10:17,190 --> 00:10:14,800

should the new legislation become law it

249

00:10:19,829 --> 00:10:17,200

would require the creation of the space

250

00:10:22,470 --> 00:10:19,839

corps quote as a separate military

251
00:10:24,550 --> 00:10:22,480
service responsible for national

252
00:10:27,030 --> 00:10:24,560
security space programs for which the

253
00:10:28,069 --> 00:10:27,040
air force is today responsible end

254
00:10:30,389 --> 00:10:28,079
quotes

255
00:10:32,470 --> 00:10:30,399
the said space corps would no doubt

256
00:10:33,990 --> 00:10:32,480
carry on some of the secretive projects

257
00:10:36,150 --> 00:10:34,000
that the air force space command is

258
00:10:37,990 --> 00:10:36,160
currently undertaking in the upper

259
00:10:40,310 --> 00:10:38,000
reaches of our atmosphere

260
00:10:43,389 --> 00:10:40,320
but they could also theoretically be

261
00:10:46,550 --> 00:10:43,399
called upon to defend earth against

262
00:10:48,150 --> 00:10:46,560
extraterrestrial threats one day it says

263
00:10:50,389 --> 00:10:48,160

that right here

264

00:10:53,350 --> 00:10:50,399

that is if the space corps idea isn't

265

00:10:55,110 --> 00:10:53,360

shot down before it can blast off anyway

266

00:10:57,030 --> 00:10:55,120

the air force is currently against the

267

00:10:58,389 --> 00:10:57,040

formation of a new branch

268

00:11:00,949 --> 00:10:58,399

arguing that it would cause

269

00:11:02,710 --> 00:11:00,959

organizational confusion and delay

270

00:11:04,550 --> 00:11:02,720

existing projects

271

00:11:06,949 --> 00:11:04,560

here's a quote from air force chief of

272

00:11:09,030 --> 00:11:06,959

staff general david goldfein

273

00:11:11,269 --> 00:11:09,040

quote i would say that we keep that

274

00:11:13,829 --> 00:11:11,279

dialogue open but right now i think it

275

00:11:15,190 --> 00:11:13,839

would actually move us backwards end

276

00:11:17,590 --> 00:11:15,200

quotes

277

00:11:20,069 --> 00:11:17,600

we shall see here at inception radio

278

00:11:22,389 --> 00:11:20,079

network ufo headline news we will keep

279

00:11:24,949 --> 00:11:22,399

you in the loop on this one

280

00:11:27,670 --> 00:11:24,959

let's loop around to some ufo history

281

00:11:30,910 --> 00:11:27,680

shall we it's an anniversary date well

282

00:11:32,470 --> 00:11:30,920

we missed it it was actually june 24th

283

00:11:34,870 --> 00:11:32,480

1947.

284

00:11:37,110 --> 00:11:34,880

that very important date when kenneth a

285

00:11:38,310 --> 00:11:37,120

arnold the american aviator and

286

00:11:41,350 --> 00:11:38,320

businessman

287

00:11:43,829 --> 00:11:41,360

was just making an ordinary flight he

288

00:11:47,430 --> 00:11:43,839

was flying in the area of mount rainier

289

00:11:49,509 --> 00:11:47,440

and he watched nine unusual objects

290

00:11:51,509 --> 00:11:49,519

flying in tandem

291

00:11:54,630 --> 00:11:51,519

kenneth a arnold was born in sebekka

292

00:11:56,790 --> 00:11:54,640

minnesota he grew up in scobee montana

293

00:11:59,590 --> 00:11:56,800

he attended the university of iowa

294

00:12:01,670 --> 00:11:59,600

swimming etc diving he was good enough

295

00:12:04,710 --> 00:12:01,680

at the latter to actually try out for

296

00:12:06,150 --> 00:12:04,720

the united states olympic diving team

297

00:12:08,790 --> 00:12:06,160

he began something called the great

298

00:12:11,350 --> 00:12:08,800

western fire control supply in boise

299

00:12:13,269 --> 00:12:11,360

idaho in 1940. that was a company that

300

00:12:15,910 --> 00:12:13,279

sold and installed fire suppression

301
00:12:17,910 --> 00:12:15,920
systems this job took him around the

302
00:12:19,430 --> 00:12:17,920
pacific northwest

303
00:12:22,629 --> 00:12:19,440
he was regarded as a skilled and

304
00:12:24,389 --> 00:12:22,639
experienced pilot he had over 9 000

305
00:12:26,069 --> 00:12:24,399
total flying hours

306
00:12:29,190 --> 00:12:26,079
almost half of which were devoted to

307
00:12:33,190 --> 00:12:29,200
search and rescue mercy flyer efforts

308
00:12:35,829 --> 00:12:33,200
on june 24 1947 while flying near mount

309
00:12:37,990 --> 00:12:35,839
rainier in washington state kenneth a

310
00:12:40,310 --> 00:12:38,000
arnold claimed to have seen nine of

311
00:12:41,430 --> 00:12:40,320
those unusual objects flying in the

312
00:12:43,829 --> 00:12:41,440
skies

313
00:12:46,550 --> 00:12:43,839

also he had claimed to have seen ufos on

314

00:12:48,870 --> 00:12:46,560

several subsequent occasions

315

00:12:52,470 --> 00:12:48,880

arnold originally described the object's

316

00:12:53,350 --> 00:12:52,480

shape as quote flat like a pie pan end

317

00:12:59,430 --> 00:12:53,360

quote

318

00:13:02,230 --> 00:12:59,440

and half moon shaped oval in front and

319

00:13:04,949 --> 00:13:02,240

convex in the rear end quotes something

320

00:13:07,829 --> 00:13:04,959

like a pie plate cut in half with a sort

321

00:13:10,069 --> 00:13:07,839

of a convex triangle to the rear

322

00:13:12,870 --> 00:13:10,079

and then he also called it simply quote

323

00:13:15,430 --> 00:13:12,880

saucer-like end quotes or like a big

324

00:13:18,629 --> 00:13:15,440

flat disk he also described their

325

00:13:22,069 --> 00:13:18,639

erratic motion as being quote like a

326

00:13:25,269 --> 00:13:22,079

fish flipping in the sun end quotes or a

327

00:13:28,069 --> 00:13:25,279

saucer skipped across the water

328

00:13:30,629 --> 00:13:28,079

from these quotes the press quickly

329

00:13:33,190 --> 00:13:30,639

coined the new terms flying saucer and

330

00:13:35,350 --> 00:13:33,200

flying disk to describe such objects

331

00:13:38,150 --> 00:13:35,360

many of which were reported within days

332

00:13:39,829 --> 00:13:38,160

after kenneth arnold's original sighting

333

00:13:41,910 --> 00:13:39,839

later arnold would add that one of the

334

00:13:44,870 --> 00:13:41,920

objects actually seemed to resemble a

335

00:13:47,190 --> 00:13:44,880

crescent or a flying wing the united

336

00:13:50,069 --> 00:13:47,200

states air force formally listed the

337

00:13:51,910 --> 00:13:50,079

arnold case as a mirage

338

00:13:53,750 --> 00:13:51,920

this is one of many explanations that

339

00:13:55,910 --> 00:13:53,760

have been disputed by critics and

340

00:13:58,310 --> 00:13:55,920

researcher jerome clark for instance

341

00:13:59,829 --> 00:13:58,320

author of the ufo book he published in

342

00:14:02,230 --> 00:13:59,839

1998.

343

00:14:05,990 --> 00:14:02,240

there's also ronald's stories the

344

00:14:08,310 --> 00:14:06,000

encyclopedia of ufos published in 1980

345

00:14:10,230 --> 00:14:08,320

both of these books argue that there has

346

00:14:12,550 --> 00:14:10,240

never been an entirely persuasive

347

00:14:13,910 --> 00:14:12,560

conventional explanation of this

348

00:14:19,030 --> 00:14:13,920

sighting

349

00:14:21,030 --> 00:14:19,040

became a minor celebrity and for about a

350

00:14:23,350 --> 00:14:21,040

decade thereafter he was somewhat

351

00:14:25,670 --> 00:14:23,360

involved in interviewing other ufo

352

00:14:27,670 --> 00:14:25,680

witnesses and contactees

353

00:14:30,150 --> 00:14:27,680

notably he investigated the claims of

354

00:14:33,110 --> 00:14:30,160

one samuel eaton thompson one of the

355

00:14:36,230 --> 00:14:33,120

first contactees there's a google search

356

00:14:37,910 --> 00:14:36,240

gentle listeners samuel eaton thompson

357

00:14:40,550 --> 00:14:37,920

kenneth arnold wrote a book and several

358

00:14:42,790 --> 00:14:40,560

magazine articles about his ufo sighting

359

00:14:45,430 --> 00:14:42,800

and his subsequent research

360

00:14:48,150 --> 00:14:45,440

by the 1960s however arnold had little

361

00:14:49,910 --> 00:14:48,160

to do with ufos and eventually declined

362

00:14:53,430 --> 00:14:49,920

all interviews

363

00:14:55,910 --> 00:14:53,440

but on the date of june 24 1977 that

364

00:14:58,790 --> 00:14:55,920

anniversary date he attended the first

365

00:15:01,269 --> 00:14:58,800

international ufo conference in chicago

366

00:15:02,870 --> 00:15:01,279

that was curated by fate lowe's has you

367

00:15:04,870 --> 00:15:02,880

covered for all those projects on your

368

00:15:06,710 --> 00:15:04,880

summer to-do list and will even help you

369

00:15:09,110 --> 00:15:06,720

save give your home a whole new look

370

00:15:10,949 --> 00:15:09,120

inside and out with 10 to 40 off paint

371

00:15:12,710 --> 00:15:10,959

exterior stains and resurfacers via

372

00:15:14,790 --> 00:15:12,720

rebate and add a pop of color to your

373

00:15:16,710 --> 00:15:14,800

porch or patio with flowers get your

374

00:15:18,629 --> 00:15:16,720

choice two for ten dollar basic one and

375

00:15:20,389 --> 00:15:18,639

a half gallon hanging baskets all

376

00:15:22,230 --> 00:15:20,399

projects have a starting point start

377

00:15:23,910 --> 00:15:22,240

with lows paint offer valid six twenty

378

00:15:24,670 --> 00:15:23,920

one three seven five exclusions apply

379

00:15:26,870 --> 00:15:24,680

plant offer valve six twenty through

380

00:15:30,550 --> 00:15:26,880

628-75 color and selection vary by

381

00:15:33,430 --> 00:15:30,560

location while supplies last u.s only

382

00:15:37,269 --> 00:15:33,440

magazine marking that 30th anniversary

383

00:15:39,509 --> 00:15:37,279

the birth of the modern ufo age

384

00:15:43,189 --> 00:15:39,519

here is one of the comments that kenneth

385

00:15:45,509 --> 00:15:43,199

arnold made at that point quote well

386

00:15:47,910 --> 00:15:45,519

right here we've seen something

387

00:15:51,430 --> 00:15:47,920

i've seen something hundreds of pilots

388

00:15:54,629 --> 00:15:51,440

have seen something in the skies

389

00:15:56,710 --> 00:15:54,639

we dutifully reported these things and

390

00:15:58,629 --> 00:15:56,720

we have to have 15 million witnesses

391

00:16:00,949 --> 00:15:58,639

before anybody's going to look into the

392

00:16:03,749 --> 00:16:00,959

problem seriously

393

00:16:05,670 --> 00:16:03,759

well this is utterly fantastic it's more

394

00:16:07,509 --> 00:16:05,680

fantastic than flying saucers or people

395

00:16:08,389 --> 00:16:07,519

from venus or anything as far as i'm

396

00:16:09,590 --> 00:16:08,399

concerned

397

00:16:12,069 --> 00:16:09,600

end quotes

398

00:16:14,949 --> 00:16:12,079

and he meant we're seeing this but

399

00:16:17,509 --> 00:16:14,959

nobody's doing any kind of fact check

400

00:16:19,189 --> 00:16:17,519

investigation etc

401
00:16:21,910 --> 00:16:19,199
kenneth arnold and his wife doris had

402
00:16:25,749 --> 00:16:21,920
four daughters he ran unsuccessfully for

403
00:16:28,150 --> 00:16:25,759
lieutenant governor of idaho in 1962.

404
00:16:31,509 --> 00:16:28,160
kenneth a arnold transitioned as we like

405
00:16:34,230 --> 00:16:31,519
to say at age 68 in a hospital in boise

406
00:16:36,710 --> 00:16:34,240
idaho but there's even controversy about

407
00:16:40,150 --> 00:16:36,720
that there is one bio in which it says

408
00:16:42,550 --> 00:16:40,160
he succumbed in bellevue washington and

409
00:16:44,949 --> 00:16:42,560
all those descriptors that mr arnold

410
00:16:47,749 --> 00:16:44,959
used eventually morphed into what we

411
00:16:50,870 --> 00:16:47,759
know as flying saucers

412
00:16:52,870 --> 00:16:50,880
so since we're in that has washington

413
00:16:55,829 --> 00:16:52,880

let's pick up a sighting a recent one

414

00:16:59,030 --> 00:16:55,839

from auburn washington it has a mufon

415

00:17:00,870 --> 00:16:59,040

case number 84535

416

00:17:04,230 --> 00:17:00,880

the date of this sighting is the 11th of

417

00:17:05,909 --> 00:17:04,240

june 2017 but nobody reported it till

418

00:17:07,429 --> 00:17:05,919

june 22nd

419

00:17:10,949 --> 00:17:07,439

here's the summary

420

00:17:13,270 --> 00:17:10,959

chevron of lights no structure visible

421

00:17:15,110 --> 00:17:13,280

pointing toward left

422

00:17:16,789 --> 00:17:15,120

there's a bit of photographic evidence

423

00:17:18,949 --> 00:17:16,799

for you to peruse at your leisure gentle

424

00:17:21,829 --> 00:17:18,959

gentlelisteners you can find links later

425

00:17:24,549 --> 00:17:21,839

at ufoheadlinenews.com

426
00:17:27,429 --> 00:17:24,559
under sighting specifics this particular

427
00:17:28,870 --> 00:17:27,439
one had a viewing distance of 501 feet

428
00:17:31,270 --> 00:17:28,880
to 1 mile

429
00:17:34,070 --> 00:17:31,280
the altitude of the object was over 500

430
00:17:36,390 --> 00:17:34,080
feet and there wasn't any cloud cover

431
00:17:39,190 --> 00:17:36,400
the sighting duration one minute

432
00:17:42,310 --> 00:17:39,200
object features unknown object flight

433
00:17:44,549 --> 00:17:42,320
path also unknown and as we previously

434
00:17:46,950 --> 00:17:44,559
heard from the summary this object was

435
00:17:49,029 --> 00:17:46,960
shaped like a chevron

436
00:17:51,190 --> 00:17:49,039
maximum temperature at the time in

437
00:17:54,230 --> 00:17:51,200
auburn washington was 70 degrees

438
00:17:57,110 --> 00:17:54,240

fahrenheit 21 degrees celsius dropping

439

00:18:00,470 --> 00:17:57,120

down to a minimum temperature of 52

440

00:18:02,390 --> 00:18:00,480

degrees fahrenheit 11 degrees celsius

441

00:18:05,190 --> 00:18:02,400

nothing outstanding about the visibility

442

00:18:08,070 --> 00:18:05,200

factors they were all standard 10 miles

443

00:18:10,789 --> 00:18:08,080

16 kilometers and conditions

444

00:18:12,870 --> 00:18:10,799

weather-wise nothing abnormal

445

00:18:14,789 --> 00:18:12,880

here's the account

446

00:18:18,070 --> 00:18:14,799

while staying a couple of days at a

447

00:18:19,590 --> 00:18:18,080

casino in our rv we took several photos

448

00:18:21,909 --> 00:18:19,600

of the sunset

449

00:18:22,870 --> 00:18:21,919

i didn't notice anything unusual at the

450

00:18:24,789 --> 00:18:22,880

time

451
00:18:25,669 --> 00:18:24,799
but upon sifting through the photos

452
00:18:27,590 --> 00:18:25,679
later

453
00:18:30,150 --> 00:18:27,600
i came across this one

454
00:18:33,029 --> 00:18:30,160
it seems to have a small chevron of

455
00:18:35,190 --> 00:18:33,039
lights between the clouds

456
00:18:38,390 --> 00:18:35,200
the strange part these lights were not

457
00:18:40,549 --> 00:18:38,400
anywhere in the photos not visible

458
00:18:43,669 --> 00:18:40,559
they were photos taken before this one

459
00:18:45,270 --> 00:18:43,679
and just after my first instinct was

460
00:18:47,590 --> 00:18:45,280
that i had taken the photo through a

461
00:18:49,590 --> 00:18:47,600
window and it was reflection

462
00:18:52,150 --> 00:18:49,600
but that wasn't the case

463
00:18:54,310 --> 00:18:52,160

my next thought was lens flare from the

464

00:18:57,590 --> 00:18:54,320

lights on the ground directly beneath

465

00:18:59,669 --> 00:18:57,600

this object i'm not sure if this is the

466

00:19:02,390 --> 00:18:59,679

culprit though either

467

00:19:04,150 --> 00:19:02,400

i am left just as surprised as i am

468

00:19:08,310 --> 00:19:04,160

intrigued

469

00:19:10,630 --> 00:19:08,320

your way to the link and look at that

470

00:19:13,110 --> 00:19:10,640

shot there is a place for your cogent

471

00:19:16,230 --> 00:19:13,120

comments underneath the citing reports

472

00:19:18,789 --> 00:19:16,240

at ufostalker.com

473

00:19:21,029 --> 00:19:18,799

last week here at ufo headline news we

474

00:19:23,270 --> 00:19:21,039

covered a sighting out of deming new

475

00:19:26,230 --> 00:19:23,280

mexico it was accompanied by several

476
00:19:28,870 --> 00:19:26,240
photographs most curious photographs

477
00:19:31,830 --> 00:19:28,880
quite clear they showed an object a

478
00:19:35,350 --> 00:19:31,840
white lumpy object almost looking like

479
00:19:37,909 --> 00:19:35,360
an inflatable in the shot well we did

480
00:19:39,990 --> 00:19:37,919
some sleuthing around and we think we

481
00:19:42,390 --> 00:19:40,000
might have an answer to this one it was

482
00:19:43,990 --> 00:19:42,400
case number eight four five five two

483
00:19:45,750 --> 00:19:44,000
mufon wise

484
00:19:48,070 --> 00:19:45,760
in summary the witness had noticed a

485
00:19:51,029 --> 00:19:48,080
hovering object they were driving from

486
00:19:52,630 --> 00:19:51,039
las cruces to tucson they finally lost

487
00:19:55,110 --> 00:19:52,640
sight of the object because they simply

488
00:19:57,750 --> 00:19:55,120

had to continue on their way

489

00:20:01,430 --> 00:19:57,760

well someone posted a comment down in

490

00:20:03,750 --> 00:20:01,440

that little end spot at ufostalker.com

491

00:20:06,470 --> 00:20:03,760

the space below each report and what

492

00:20:08,150 --> 00:20:06,480

their contribution well it looks like

493

00:20:09,669 --> 00:20:08,160

this is the answer

494

00:20:12,789 --> 00:20:09,679

they noted

495

00:20:16,789 --> 00:20:12,799

this appears to be the tethered aerostat

496

00:20:18,390 --> 00:20:16,799

radar system as described in wikipedia

497

00:20:21,270 --> 00:20:18,400

moored balloons are used for

498

00:20:23,430 --> 00:20:21,280

surveillance near the mexican border so

499

00:20:26,549 --> 00:20:23,440

yep of course we jumped on over to

500

00:20:30,070 --> 00:20:26,559

wikipedia and lo and behold there it is

501
00:20:32,789 --> 00:20:30,080
the old tethered aerostat radar system

502
00:20:35,830 --> 00:20:32,799
just so obviously what was caught in the

503
00:20:38,549 --> 00:20:35,840
photographs by the witness and checking

504
00:20:40,870 --> 00:20:38,559
further down in the story at wikipedia

505
00:20:44,470 --> 00:20:40,880
regarding the tethered aerostat radar

506
00:20:48,390 --> 00:20:44,480
system we find out yep operational sites

507
00:20:52,310 --> 00:20:48,400
yuma and fort huachuca arizona and yep

508
00:20:55,510 --> 00:20:52,320
deming new mexico the very site reported

509
00:20:57,590 --> 00:20:55,520
in that particular ufo sighting so

510
00:21:00,070 --> 00:20:57,600
apparently we can at least in this case

511
00:21:01,909 --> 00:21:00,080
say case closed

512
00:21:04,710 --> 00:21:01,919
let's head east now to the city of

513
00:21:06,950 --> 00:21:04,720

canfield in the state of ohio

514

00:21:09,430 --> 00:21:06,960

that's the setting for mufon sighting

515

00:21:12,870 --> 00:21:09,440

number 84602

516

00:21:16,549 --> 00:21:12,880

the date of the sighting june 19 2017 it

517

00:21:17,669 --> 00:21:16,559

was reported june 25th of this month in

518

00:21:24,149 --> 00:21:17,679

summary

519

00:21:26,789 --> 00:21:24,159

june 19th 2017 picture silver orb in sky

520

00:21:28,950 --> 00:21:26,799

on western reserve road

521

00:21:31,070 --> 00:21:28,960

there are photos and you can find them

522

00:21:32,710 --> 00:21:31,080

later by links at

523

00:21:35,110 --> 00:21:32,720

ufoheadlinenews.com

524

00:21:37,909 --> 00:21:35,120

lots of unknowns here in the citing

525

00:21:40,549 --> 00:21:37,919

specifics the viewing distance altitude

526

00:21:42,710 --> 00:21:40,559

object features and flight path of the

527

00:21:45,430 --> 00:21:42,720

object they're all simply listed as

528

00:21:48,710 --> 00:21:45,440

unknown but our witness does report that

529

00:21:51,190 --> 00:21:48,720

the shape of this object was cylindrical

530

00:21:54,149 --> 00:21:51,200

here's the shape of the weather maximum

531

00:21:57,110 --> 00:21:54,159

temperature 79 degrees fahrenheit 26

532

00:22:00,390 --> 00:21:57,120

degrees celsius minimum temperature 61

533

00:22:02,950 --> 00:22:00,400

degrees fahrenheit 16 degrees celsius

534

00:22:05,750 --> 00:22:02,960

the maximum visibility the standard 10

535

00:22:08,549 --> 00:22:05,760

miles 16 kilometers dropping down to a

536

00:22:10,870 --> 00:22:08,559

minimum of five miles eight kilometers

537

00:22:12,710 --> 00:22:10,880

because it was raining

538

00:22:14,710 --> 00:22:12,720

here's the account

539

00:22:17,830 --> 00:22:14,720

we were driving in our van on western

540

00:22:20,789 --> 00:22:17,840

reserve road coming from boardman road

541

00:22:23,029 --> 00:22:20,799

towards canfield ohio my husband was

542

00:22:25,350 --> 00:22:23,039

driving and he noticed some nicely

543

00:22:26,950 --> 00:22:25,360

shaped clouds in the sky and asked me to

544

00:22:28,870 --> 00:22:26,960

take a picture

545

00:22:30,630 --> 00:22:28,880

later that week i was sending him the

546

00:22:34,230 --> 00:22:30,640

pictures from my phone

547

00:22:36,789 --> 00:22:34,240

and i saw that there was one silver orb

548

00:22:39,750 --> 00:22:36,799

thing in the picture i had taken three

549

00:22:41,510 --> 00:22:39,760

pictures and did not see this orb while

550

00:22:43,909 --> 00:22:41,520

taking the pictures

551
00:22:46,950 --> 00:22:43,919
i can't tell if this was a reflection or

552
00:22:48,950 --> 00:22:46,960
something actually in the sky i just

553
00:22:50,710 --> 00:22:48,960
thought you could take a look at it and

554
00:22:52,070 --> 00:22:50,720
let us know

555
00:22:54,630 --> 00:22:52,080
well we took a look at it

556
00:22:58,310 --> 00:22:54,640
gentlelisteners and what it seems we're

557
00:23:00,870 --> 00:22:58,320
seeing is the bottom half of a disk sort

558
00:23:05,110 --> 00:23:00,880
of a three-quarter angle shot we don't

559
00:23:07,669 --> 00:23:05,120
see orb we see well yep flying saucer

560
00:23:10,710 --> 00:23:07,679
let's just shift our trajectory a tad

561
00:23:13,350 --> 00:23:10,720
continuing east and we'll come to red

562
00:23:14,590 --> 00:23:13,360
lion pennsylvania that's where mufon

563
00:23:16,870 --> 00:23:14,600

case number

564

00:23:18,950 --> 00:23:16,880

84532 took place

565

00:23:22,390 --> 00:23:18,960

it happened on the 18th of june this

566

00:23:25,190 --> 00:23:22,400

year and wasn't reported till the 21st

567

00:23:28,390 --> 00:23:25,200

summary silver transparent sphere

568

00:23:31,990 --> 00:23:28,400

observed followed by chopper and

569

00:23:34,149 --> 00:23:32,000

airplane at same low altitude

570

00:23:35,909 --> 00:23:34,159

well that's intriguing the citing

571

00:23:39,110 --> 00:23:35,919

specifics offered by our witness here

572

00:23:40,549 --> 00:23:39,120

are a viewing distance fairly low 101 to

573

00:23:45,270 --> 00:23:40,559

500 feet

574

00:23:47,990 --> 00:23:45,280

a quick sighting duration just 12

575

00:23:51,029 --> 00:23:48,000

seconds so object features

576
00:23:54,070 --> 00:23:51,039
understandably are just listed as other

577
00:23:56,549 --> 00:23:54,080
the flight path hovering then path and

578
00:23:58,950 --> 00:23:56,559
this object was shaped like a sphere

579
00:24:01,190 --> 00:23:58,960
here's a little bit of meteorology the

580
00:24:04,310 --> 00:24:01,200
maximum temperature 89 degrees

581
00:24:07,750 --> 00:24:04,320
fahrenheit 32 degrees celsius minimum

582
00:24:09,510 --> 00:24:07,760
temperature 73 degrees fahrenheit 23

583
00:24:12,310 --> 00:24:09,520
degrees celsius

584
00:24:15,350 --> 00:24:12,320
visibility factors maximum mean and

585
00:24:16,710 --> 00:24:15,360
minimum all the same 10 miles 16

586
00:24:19,110 --> 00:24:16,720
kilometers

587
00:24:21,669 --> 00:24:19,120
and at the time of this event there's no

588
00:24:23,110 --> 00:24:21,679

notation of any abnormal weather

589

00:24:25,190 --> 00:24:23,120
conditions

590

00:24:27,269 --> 00:24:25,200
here's the sighting

591

00:24:29,990 --> 00:24:27,279
i was standing in my backyard watching

592

00:24:34,149 --> 00:24:30,000
the field for deer when i noticed a

593

00:24:37,350 --> 00:24:34,159
silver but mostly transparent sphere

594

00:24:38,710 --> 00:24:37,360
floating in the sky about 300 to 400

595

00:24:41,350 --> 00:24:38,720
feet in the air

596

00:24:43,110 --> 00:24:41,360
this object floated without sound

597

00:24:44,710 --> 00:24:43,120
without light

598

00:24:47,669 --> 00:24:44,720
i pulled my phone from my pocket and

599

00:24:51,029 --> 00:24:47,679
switched to video mode but it would not

600

00:24:53,590 --> 00:24:51,039
pick up this object it blended perfectly

601
00:24:56,870 --> 00:24:53,600
with the backdrop but clear as day in

602
00:24:59,750 --> 00:24:56,880
the night sky with just the human eye

603
00:25:01,510 --> 00:24:59,760
this object after 10 or 15 seconds shot

604
00:25:04,710 --> 00:25:01,520
off out of sight

605
00:25:08,070 --> 00:25:04,720
followed directly afterwards by both a

606
00:25:09,909 --> 00:25:08,080
helicopter and a non-commercial plane

607
00:25:12,549 --> 00:25:09,919
they were flying at the same low

608
00:25:16,070 --> 00:25:12,559
altitude flying the same course

609
00:25:17,430 --> 00:25:16,080
and a second after that a loud boom was

610
00:25:20,950 --> 00:25:17,440
heard

611
00:25:23,190 --> 00:25:20,960
oh those mysterious booms not a crash

612
00:25:25,669 --> 00:25:23,200
probably nothing flying fast enough to

613
00:25:28,070 --> 00:25:25,679

have made it a sonic boom

614

00:25:30,070 --> 00:25:28,080

well we're not gonna find it out today

615

00:25:32,149 --> 00:25:30,080

gentle listeners we've just noted all

616

00:25:34,870 --> 00:25:32,159

the clocks on the wall all the time

617

00:25:36,149 --> 00:25:34,880

zones indicate we've gotta boom out of

618

00:25:38,470 --> 00:25:36,159

here because

619

00:25:41,110 --> 00:25:38,480

that's a wrap thank you for listening to

620

00:25:43,909 --> 00:25:41,120

inception radio network follow today's

621

00:25:46,070 --> 00:25:43,919

broadcast at ufoheadlinenews.com

622

00:25:48,710 --> 00:25:46,080

and youtube take care of each other
