

UFO Headline News Wednesday June 28th, 2017

Listen on

inceptionradionetwork.com

1
00:00:07,110 --> 00:00:04,230
hello it's wednesday june 28 2017. you

2
00:00:09,509 --> 00:00:07,120
are listening to inception radio network

3
00:00:14,070 --> 00:00:09,519
voice of the fringe majority this is

4
00:00:16,630 --> 00:00:14,080
carol carl with ufo headline news

5
00:00:19,269 --> 00:00:16,640
the folks at earthsky.org have something

6
00:00:21,590 --> 00:00:19,279
interesting today drumroll please

7
00:00:24,630 --> 00:00:21,600
they're paying tribute to the southern

8
00:00:28,950 --> 00:00:24,640
cross also known as the constellation

9
00:00:31,910 --> 00:00:28,960
crux or crooks it's crux it's called the

10
00:00:34,310 --> 00:00:31,920
southern sky signpost for our friends in

11
00:00:36,069 --> 00:00:34,320
the southern hemisphere and no matter

12
00:00:38,549 --> 00:00:36,079
where you live in the southern

13
00:00:40,630 --> 00:00:38,559

hemisphere look to your southern sky for

14

00:00:42,150 --> 00:00:40,640

the southern cross just as soon as

15

00:00:43,830 --> 00:00:42,160

darkness falls

16

00:00:45,830 --> 00:00:43,840

at temperate latitudes in the southern

17

00:00:47,590 --> 00:00:45,840

hemisphere where it's winter now

18

00:00:50,630 --> 00:00:47,600

astronomers say the southern cross

19

00:00:53,189 --> 00:00:50,640

swings to upper meridian transit in

20

00:00:56,709 --> 00:00:53,199

other words its highest point in the sky

21

00:00:58,549 --> 00:00:56,719

around nightfall or 6 pm local time

22

00:01:00,470 --> 00:00:58,559

there's an image you can find later at

23

00:01:02,470 --> 00:01:00,480

ufoheadlinenews.com

24

00:01:04,950 --> 00:01:02,480

it's the southern cross as seen from

25

00:01:07,750 --> 00:01:04,960

manila it's remarkable

26
00:01:10,149 --> 00:01:07,760
now here comes that circumpolar star

27
00:01:13,670 --> 00:01:10,159
thingy because the southern cross is

28
00:01:15,990 --> 00:01:13,680
circumpolar always above the horizon at

29
00:01:18,230 --> 00:01:16,000
all places south of 35 degrees south

30
00:01:20,310 --> 00:01:18,240
latitude people at mid-southern

31
00:01:23,109 --> 00:01:20,320
latitudes can count on seeing the

32
00:01:24,550 --> 00:01:23,119
southern cross all night long every

33
00:01:26,390 --> 00:01:24,560
night of the year

34
00:01:29,270 --> 00:01:26,400
watch for the southern cross to move

35
00:01:31,429 --> 00:01:29,280
like a great big hour hand it circles

36
00:01:33,749 --> 00:01:31,439
around the south celestial pole in a

37
00:01:35,990 --> 00:01:33,759
clockwise direction throughout the night

38
00:01:38,310 --> 00:01:36,000

the southern cross will sweep to lower

39

00:01:42,069 --> 00:01:38,320

meridian transit its lowest point in the

40

00:01:45,109 --> 00:01:42,079

sky around 6 a.m local time tomorrow

41

00:01:47,270 --> 00:01:45,119

if you're situated geo location wise so

42

00:01:49,990 --> 00:01:47,280

that the southern cross is circumpolar

43

00:01:52,230 --> 00:01:50,000

in your sky then the big dipper never

44

00:01:54,710 --> 00:01:52,240

climbs above your horizon

45

00:01:57,030 --> 00:01:54,720

conversely if the big dipper is

46

00:01:59,270 --> 00:01:57,040

circumpolar in your sky then the

47

00:02:01,670 --> 00:01:59,280

southern cross never climbs above your

48

00:02:04,870 --> 00:02:01,680

horizon quite an arrangement

49

00:02:06,469 --> 00:02:04,880

additionally that w or m shaped

50

00:02:09,029 --> 00:02:06,479

depending on your point of view

51
00:02:11,430 --> 00:02:09,039
cassiopeia is also circumpolar at

52
00:02:13,030 --> 00:02:11,440
northerly latitudes you can check out

53
00:02:16,710 --> 00:02:13,040
charts and graphs to your heart's

54
00:02:18,790 --> 00:02:16,720
content later at ufoheadlinenews.com

55
00:02:20,630 --> 00:02:18,800
it says here you have a better chance of

56
00:02:23,110 --> 00:02:20,640
seeing the southern cross and the big

57
00:02:25,270 --> 00:02:23,120
dipper in the same sky right now if

58
00:02:26,869 --> 00:02:25,280
you're in the southern tropics that's

59
00:02:29,589 --> 00:02:26,879
because the winter season in the

60
00:02:32,150 --> 00:02:29,599
southern hemisphere ushers in an earlier

61
00:02:34,229 --> 00:02:32,160
sunset time than at comparable latitudes

62
00:02:35,190 --> 00:02:34,239
in the northern tropics where it's now

63
00:02:37,830 --> 00:02:35,200

summer

64

00:02:39,990 --> 00:02:37,840

bottom line here a tribute to the

65

00:02:42,070 --> 00:02:40,000

southern cross also known as the

66

00:02:44,710 --> 00:02:42,080

constellation crux

67

00:02:45,750 --> 00:02:44,720

the crux of the matter for tonight's sky

68

00:02:48,229 --> 00:02:45,760

at least

69

00:02:52,630 --> 00:02:48,239

speaking of skies well not tonight but

70

00:02:55,030 --> 00:02:52,640

it's that long story arc space wise from

71

00:02:57,190 --> 00:02:55,040

nasa they're continuing with that

72

00:02:59,589 --> 00:02:57,200

canister launch attempt here's the

73

00:03:00,790 --> 00:02:59,599

headline from deborah bird dated june

74

00:03:03,190 --> 00:03:00,800

27th

75

00:03:06,070 --> 00:03:03,200

expect colorful clouds from rocket

76

00:03:09,350 --> 00:03:06,080

launch yes well we've been doing

77

00:03:11,589 --> 00:03:09,360

precisely that expecting those clouds so

78

00:03:14,470 --> 00:03:11,599

is nasa and they're going to give it yet

79

00:03:17,190 --> 00:03:14,480

another try here's the story nasa's

80

00:03:20,390 --> 00:03:17,200

sounding rocket to form blue green and

81

00:03:23,830 --> 00:03:20,400

red clouds in space thursday morning

82

00:03:25,190 --> 00:03:23,840

launch window opens 4 25 a.m eastern

83

00:03:28,790 --> 00:03:25,200

daylight time

84

00:03:30,550 --> 00:03:28,800

that backup launch date is now june 30th

85

00:03:33,110 --> 00:03:30,560

well at least there's a backup for the

86

00:03:35,350 --> 00:03:33,120

backup for the backup we think this is

87

00:03:39,670 --> 00:03:35,360

going to be time number nine for this

88

00:03:42,149 --> 00:03:39,680

attempt nasa said on june 27th 2017 that

89

00:03:44,390 --> 00:03:42,159

the launch of its terrier improved

90

00:03:47,110 --> 00:03:44,400

malamute sounding rocket that's an

91

00:03:51,910 --> 00:03:47,120

ironic name is scheduled for between 4

92

00:03:55,030 --> 00:03:51,920

25 and 4 48 am eastern daylight time

93

00:03:56,710 --> 00:03:55,040

it's thursday june 29th now

94

00:03:59,030 --> 00:03:56,720

it said the launch window is determined

95

00:04:01,830 --> 00:03:59,040

by sun angles and the location of the

96

00:04:04,309 --> 00:04:01,840

moon the rocket's going to test a new

97

00:04:07,190 --> 00:04:04,319

multi-canister ejection system for

98

00:04:09,350 --> 00:04:07,200

deploying vapors in rocket missions so

99

00:04:11,750 --> 00:04:09,360

earth's upper atmosphere and ionosphere

100

00:04:14,869 --> 00:04:11,760

can be further studied in other words

101
00:04:17,430 --> 00:04:14,879
aurora soundings upon launch of the

102
00:04:20,789 --> 00:04:17,440
rocket the vapors will form luminescent

103
00:04:22,390 --> 00:04:20,799
blue green and red artificial clouds and

104
00:04:25,270 --> 00:04:22,400
those clouds are expected to be seen

105
00:04:27,430 --> 00:04:25,280
from new york to north carolina the

106
00:04:29,830 --> 00:04:27,440
visitor center at the wallops flight

107
00:04:33,030 --> 00:04:29,840
facility on wallops island the eastern

108
00:04:35,189 --> 00:04:33,040
shore of virginia will open at 3 30 a.m

109
00:04:37,590 --> 00:04:35,199
on launch day and you can go on down

110
00:04:38,629 --> 00:04:37,600
there view it live we're assuming it's

111
00:04:40,629 --> 00:04:38,639
free

112
00:04:44,070 --> 00:04:40,639
live coverage online begins on the

113
00:04:47,030 --> 00:04:44,080

wallops ustream site at 3 45 a.m on

114

00:04:49,189 --> 00:04:47,040

launch day and of course wallops is a

115

00:04:51,590 --> 00:04:49,199

presence on all the social media

116

00:04:53,430 --> 00:04:51,600

facebook twitter etc

117

00:04:55,830 --> 00:04:53,440

the launch was originally scheduled for

118

00:04:58,710 --> 00:04:55,840

early june and has been postponed

119

00:05:00,950 --> 00:04:58,720

several times here's the official nasa

120

00:05:02,070 --> 00:05:00,960

explanation of what this project is

121

00:05:04,870 --> 00:05:02,080

about

122

00:05:06,870 --> 00:05:04,880

quote these clouds or vapor tracers

123

00:05:10,150 --> 00:05:06,880

allow scientists on the ground to

124

00:05:12,230 --> 00:05:10,160

visually track particle motions in space

125

00:05:14,469 --> 00:05:12,240

the development of this multi-canister

126

00:05:16,870 --> 00:05:14,479

ampoule ejection system will allow

127

00:05:19,510 --> 00:05:16,880

scientists to gather information over a

128

00:05:21,510 --> 00:05:19,520

much larger area than previously allowed

129

00:05:23,110 --> 00:05:21,520

when deploying the tracers just from the

130

00:05:25,510 --> 00:05:23,120

main payload

131

00:05:28,469 --> 00:05:25,520

these vapor tracers are formed through

132

00:05:30,950 --> 00:05:28,479

the interaction of barium strontium and

133

00:05:34,390 --> 00:05:30,960

cupric oxide the tracers will be

134

00:05:37,590 --> 00:05:34,400

released at altitudes of 96 to 124 miles

135

00:05:40,230 --> 00:05:37,600

high and pose absolutely no hazard to

136

00:05:43,430 --> 00:05:40,240

residents along the mid-atlantic coast

137

00:05:46,790 --> 00:05:43,440

so being earthsky.org here's the bottom

138

00:05:49,110 --> 00:05:46,800

line a launch of nasa's terrier-improved

139

00:05:51,430 --> 00:05:49,120

malamute sounding rocket expected to

140

00:05:54,310 --> 00:05:51,440

form colorful clouds in space visible

141

00:05:57,990 --> 00:05:54,320

from new york to north carolina launch

142

00:06:01,749 --> 00:05:58,000

window opens at 4 25 a.m eastern

143

00:06:03,670 --> 00:06:01,759

daylight time thursday june 29th oh

144

00:06:07,029 --> 00:06:03,680

they've got a backup launch day just in

145

00:06:08,629 --> 00:06:07,039

case and that's june 30th

146

00:06:09,909 --> 00:06:08,639

here comes a story that we really

147

00:06:12,550 --> 00:06:09,919

weren't going to touch with that

148

00:06:14,870 --> 00:06:12,560

proverbial 10-foot pole well we're going

149

00:06:16,870 --> 00:06:14,880

to do that not once but twice two

150

00:06:19,189 --> 00:06:16,880

versions of this

151
00:06:22,070 --> 00:06:19,199
let's start with mike wahl who writes it

152
00:06:24,469 --> 00:06:22,080
for space.com he's their senior writer

153
00:06:28,309 --> 00:06:24,479
and here's his headline no

154
00:06:31,110 --> 00:06:28,319
nasa hasn't found alien life

155
00:06:33,350 --> 00:06:31,120
nasa is not preparing to drop an alien

156
00:06:36,309 --> 00:06:33,360
life bombshell despite what you may have

157
00:06:39,590 --> 00:06:36,319
heard last week the hacking group

158
00:06:41,830 --> 00:06:39,600
anonymous posted a video on youtube

159
00:06:43,830 --> 00:06:41,840
suggesting that the space agency is

160
00:06:45,270 --> 00:06:43,840
about to announce the discovery of life

161
00:06:47,909 --> 00:06:45,280
beyond earth

162
00:06:50,790 --> 00:06:47,919
the video has made a big splash online

163
00:06:53,670 --> 00:06:50,800

so big in fact that nasa science chief

164

00:06:56,870 --> 00:06:53,680

thomas zurbruchen addressed the rumor on

165

00:06:59,589 --> 00:06:56,880

june 26th he said quote contrary to some

166

00:07:02,150 --> 00:06:59,599

reports there's no pending announcement

167

00:07:05,350 --> 00:07:02,160

from nasa regarding extraterrestrial

168

00:07:09,749 --> 00:07:05,360

life end quotes that's via twitter he

169

00:07:10,629 --> 00:07:09,759

posts there as at dr underscore thomas z

170

00:07:13,430 --> 00:07:10,639

dot

171

00:07:16,150 --> 00:07:13,440

he continues quote are we alone in the

172

00:07:18,230 --> 00:07:16,160

universe while we do not know yet we

173

00:07:20,790 --> 00:07:18,240

have missions moving forward that may

174

00:07:22,070 --> 00:07:20,800

help answer that fundamental question

175

00:07:25,510 --> 00:07:22,080

end quotes

176

00:07:28,390 --> 00:07:25,520

the video from anonymous focuses not on

177

00:07:30,950 --> 00:07:28,400

hacked documents but rather on testimony

178

00:07:32,710 --> 00:07:30,960

zerbutin gave back in april during a

179

00:07:34,469 --> 00:07:32,720

hearing of the house of representatives

180

00:07:37,350 --> 00:07:34,479

committee on science space and

181

00:07:38,550 --> 00:07:37,360

technology it's a 12-minute video you

182

00:07:40,629 --> 00:07:38,560

can link to it later at

183

00:07:42,870 --> 00:07:40,639

ufoheadlinenews.com

184

00:07:44,870 --> 00:07:42,880

it touches on some other topics

185

00:07:47,670 --> 00:07:44,880

including those seven earth-sized

186

00:07:51,830 --> 00:07:47,680

planets the trappist-1 system and it

187

00:07:54,629 --> 00:07:51,840

includes several supposed ufo sightings

188

00:07:56,950 --> 00:07:54,639

anyway during the april 26 hearing which

189

00:08:00,070 --> 00:07:56,960

was called quote advances in the search

190

00:08:02,230 --> 00:08:00,080

for life end quotes zerbuchin laid out

191

00:08:04,950 --> 00:08:02,240

the progress nasa has been making in the

192

00:08:07,270 --> 00:08:04,960

hunt for life in the cosmos he cited

193

00:08:09,670 --> 00:08:07,280

among other things the thousands of

194

00:08:12,070 --> 00:08:09,680

exoplanets spotted by the agency's

195

00:08:14,469 --> 00:08:12,080

kepler space telescope that recent

196

00:08:16,550 --> 00:08:14,479

discovery of hydrogen in the geysers

197

00:08:18,869 --> 00:08:16,560

blasting from the south pole of saturn's

198

00:08:21,189 --> 00:08:18,879

moon enceladus and the possible

199

00:08:23,350 --> 00:08:21,199

detection of water vapor plumes

200

00:08:24,790 --> 00:08:23,360

emanating from the jovian satellite

201
00:08:26,550 --> 00:08:24,800
europa

202
00:08:28,950 --> 00:08:26,560
zuburchen added during that hearing

203
00:08:31,189 --> 00:08:28,960
quote taking into account all of the

204
00:08:33,029 --> 00:08:31,199
different activities and missions that

205
00:08:36,230 --> 00:08:33,039
are specifically searching for evidence

206
00:08:38,469 --> 00:08:36,240
of alien life we are on the verge of

207
00:08:41,589 --> 00:08:38,479
making one of the most profound

208
00:08:42,790 --> 00:08:41,599
unprecedented discoveries in history and

209
00:08:45,350 --> 00:08:42,800
quotes

210
00:08:48,150 --> 00:08:45,360
in the recent video anonymous takes that

211
00:08:51,509 --> 00:08:48,160
second half of this sentence and runs

212
00:08:53,269 --> 00:08:51,519
with it they spin it into quote nasa

213
00:08:55,150 --> 00:08:53,279

colon space space

214

00:08:57,670 --> 00:08:55,160

mankind is about to discover

215

00:08:59,190 --> 00:08:57,680

extraterrestrial life end quotes and

216

00:09:01,670 --> 00:08:59,200

those words are from an anonymous

217

00:09:03,350 --> 00:09:01,680

spokesman wearing the group's famous gee

218

00:09:05,269 --> 00:09:03,360

fox mask

219

00:09:07,829 --> 00:09:05,279

and whether or not it's for purposes of

220

00:09:11,110 --> 00:09:07,839

escaping identification or just dramatic

221

00:09:12,949 --> 00:09:11,120

effect the voice is digitally altered

222

00:09:15,190 --> 00:09:12,959

at the beginning of the video

223

00:09:18,310 --> 00:09:15,200

the interpretation isn't strictly wrong

224

00:09:21,590 --> 00:09:18,320

says mike wall but quote on the verge

225

00:09:24,310 --> 00:09:21,600

end quotes is a far cry from quote has

226

00:09:26,470 --> 00:09:24,320

found evidence end quotes

227

00:09:28,310 --> 00:09:26,480

and anyone expecting an earth-shattering

228

00:09:30,470 --> 00:09:28,320

announcement from nasa in the next few

229

00:09:31,670 --> 00:09:30,480

weeks or months is bound to be

230

00:09:33,509 --> 00:09:31,680

disappointed

231

00:09:35,910 --> 00:09:33,519

there's a link you can watch that entire

232

00:09:38,710 --> 00:09:35,920

april 26 hearing you can read thomas

233

00:09:42,070 --> 00:09:38,720

zuberton's submitted testimony find it

234

00:09:43,910 --> 00:09:42,080

later at ufoheadlinenews.com

235

00:09:46,310 --> 00:09:43,920

and we can't leave without that

236

00:09:50,070 --> 00:09:46,320

follow-up story another mainstream

237

00:09:52,470 --> 00:09:50,080

source even more so newsweek.com

238

00:09:55,750 --> 00:09:52,480

with a byline for connor gaffey who

239

00:09:58,870 --> 00:09:55,760

chooses this headline nasa to anonymous

240

00:10:01,269 --> 00:09:58,880

colon space space no we don't have

241

00:10:04,070 --> 00:10:01,279

evidence of aliens

242

00:10:06,470 --> 00:10:04,080

are we alone in the universe maybe not

243

00:10:09,990 --> 00:10:06,480

do we have any evidence of aliens

244

00:10:12,310 --> 00:10:10,000

definitely not at least not yet

245

00:10:15,030 --> 00:10:12,320

and this story gentlelisteners obviously

246

00:10:17,509 --> 00:10:15,040

tracks right alongside of the previous

247

00:10:20,630 --> 00:10:17,519

the space.com coverage

248

00:10:23,509 --> 00:10:20,640

conor gaffey continues that was nasa's

249

00:10:25,670 --> 00:10:23,519

response the at least not yet

250

00:10:27,509 --> 00:10:25,680

after the hacking collective anonymous

251
00:10:29,910 --> 00:10:27,519
released a video claiming that the

252
00:10:32,990 --> 00:10:29,920
american organization was on the brink

253
00:10:35,509 --> 00:10:33,000
of revealing as yet undiscovered

254
00:10:38,069 --> 00:10:35,519
extraterrestrial life forms thomas

255
00:10:40,389 --> 00:10:38,079
suburcen the associate administrator of

256
00:10:42,470 --> 00:10:40,399
nasa's science mission directorate he

257
00:10:44,790 --> 00:10:42,480
was heavily quoted in the anonymous

258
00:10:47,430 --> 00:10:44,800
video and he spoke out on monday to

259
00:10:50,710 --> 00:10:47,440
confirm nasa isn't sitting on what is

260
00:10:52,150 --> 00:10:50,720
potentially the biggest space discovery

261
00:10:54,710 --> 00:10:52,160
ever

262
00:10:57,190 --> 00:10:54,720
so end of story and of course there were

263
00:11:00,630 --> 00:10:57,200

rumblings that this was the run-up to

264

00:11:03,590 --> 00:11:00,640

the big event a false flag event

265

00:11:06,069 --> 00:11:03,600

just theories conspiracy theories or not

266

00:11:08,630 --> 00:11:06,079

it's up to you to decide

267

00:11:11,990 --> 00:11:08,640

it's way back wednesday here at ufo

268

00:11:15,030 --> 00:11:12,000

headline news so let's go back way back

269

00:11:18,710 --> 00:11:15,040

to last wednesday we can do that it's a

270

00:11:21,750 --> 00:11:18,720

story entitled the mother of all ufos

271

00:11:23,829 --> 00:11:21,760

question mark this is part two we picked

272

00:11:25,910 --> 00:11:23,839

up both parts of the story at

273

00:11:28,069 --> 00:11:25,920

mysteriousuniverse.org

274

00:11:29,030 --> 00:11:28,079

thanks to a tip from the man in the high

275

00:11:31,590 --> 00:11:29,040

castle

276

00:11:34,710 --> 00:11:31,600

part one of this article introduced you

277

00:11:38,790 --> 00:11:34,720

to the incredible story of the late j.r

278

00:11:41,269 --> 00:11:38,800

oliver he was a man who in 1949 was

279

00:11:43,430 --> 00:11:41,279

involved in a sensational ufo encounter

280

00:11:46,230 --> 00:11:43,440

at the height of a united kingdom

281

00:11:49,430 --> 00:11:46,240

military exercise the code name for this

282

00:11:52,310 --> 00:11:49,440

exercise operation bulldog

283

00:11:54,790 --> 00:11:52,320

in a letter sent to ufo researcher tim

284

00:11:57,670 --> 00:11:54,800

goode in 1991

285

00:11:59,910 --> 00:11:57,680

and then copied and sent to nick redfern

286

00:12:03,110 --> 00:11:59,920

it was revealed that at the height of

287

00:12:05,990 --> 00:12:03,120

this operation a definitive ufo was

288

00:12:08,069 --> 00:12:06,000

tracked on radar by the staff of

289

00:12:09,430 --> 00:12:08,079

multiple military installations in the

290

00:12:11,590 --> 00:12:09,440

united kingdom

291

00:12:15,110 --> 00:12:11,600

it was a ufo that was estimated to have

292

00:12:17,829 --> 00:12:15,120

been flying close to 3 000 miles per

293

00:12:20,150 --> 00:12:17,839

hour in 1949.

294

00:12:23,030 --> 00:12:20,160

with that said let's now continue with

295

00:12:25,829 --> 00:12:23,040

what else j.r oliver had to say about

296

00:12:27,190 --> 00:12:25,839

this ufo encounter and about the ufo

297

00:12:28,069 --> 00:12:27,200

itself

298

00:12:30,870 --> 00:12:28,079

quote

299

00:12:32,629 --> 00:12:30,880

the general consensus regarding its size

300

00:12:35,350 --> 00:12:32,639

among the very experienced radar

301
00:12:38,150 --> 00:12:35,360
personnel engaged in the operations was

302
00:12:40,389 --> 00:12:38,160
that the object offered an echo similar

303
00:12:42,710 --> 00:12:40,399
to that of a large passenger or

304
00:12:45,190 --> 00:12:42,720
freighter surface vessel something in

305
00:12:47,110 --> 00:12:45,200
the region of fifteen thousand or twenty

306
00:12:49,590 --> 00:12:47,120
thousand tons

307
00:12:52,949 --> 00:12:49,600
word filtered down that on approaching

308
00:12:54,870 --> 00:12:52,959
benton radar in yorkshire this object

309
00:12:56,790 --> 00:12:54,880
suddenly increased speed and headed

310
00:12:59,910 --> 00:12:56,800
directly upwards

311
00:13:01,750 --> 00:12:59,920
vanishing off screen at about 100 000

312
00:13:03,990 --> 00:13:01,760
feet end quotes

313
00:13:06,710 --> 00:13:04,000

that was hardly the end of the story

314

00:13:08,150 --> 00:13:06,720

however in fact there was more to come

315

00:13:11,190 --> 00:13:08,160

much more

316

00:13:13,269 --> 00:13:11,200

j.r oliver continues quote naturally

317

00:13:15,829 --> 00:13:13,279

there was quite a bit of buzz about this

318

00:13:17,829 --> 00:13:15,839

especially as at that time speeds in

319

00:13:19,110 --> 00:13:17,839

excess of the speed of sound were just

320

00:13:21,990 --> 00:13:19,120

not on

321

00:13:24,629 --> 00:13:22,000

neither were aircraft the size of liners

322

00:13:27,350 --> 00:13:24,639

the airspeed records at that time stood

323

00:13:30,150 --> 00:13:27,360

at 606.36

324

00:13:32,949 --> 00:13:30,160

miles per hour and the largest aircraft

325

00:13:35,590 --> 00:13:32,959

in general use was probably the united

326

00:13:38,550 --> 00:13:35,600

states air force super fortress which

327

00:13:39,670 --> 00:13:38,560

lumbered along at about 350 miles per

328

00:13:42,150 --> 00:13:39,680

hour

329

00:13:44,870 --> 00:13:42,160

at our usual relief time bee watch stood

330

00:13:48,069 --> 00:13:44,880

down and went to breakfast and bed at

331

00:13:50,230 --> 00:13:48,079

the domestic site at stoner house we

332

00:13:52,310 --> 00:13:50,240

were awakened from our watch slumbers by

333

00:13:54,150 --> 00:13:52,320

sergeant platt we were assembled in

334

00:13:57,030 --> 00:13:54,160

front of stone our house with our

335

00:14:00,389 --> 00:13:57,040

sergeant belcher sergeant hatter and

336

00:14:04,150 --> 00:14:00,399

various minor ncos in attendance for an

337

00:14:06,310 --> 00:14:04,160

address by squadron leader mundy that's

338

00:14:07,670 --> 00:14:06,320

spelled m-u-n-d-y

339

00:14:10,389 --> 00:14:07,680

end quotes

340

00:14:12,629 --> 00:14:10,399

oliver went on to reveal what exactly

341

00:14:14,870 --> 00:14:12,639

squadron leader mundy had to say about

342

00:14:18,470 --> 00:14:14,880

this extraordinary situation

343

00:14:21,030 --> 00:14:18,480

a quote he reminded us of our duties as

344

00:14:23,670 --> 00:14:21,040

serving members of the royal air force

345

00:14:26,310 --> 00:14:23,680

and the requirements of the osa the

346

00:14:29,110 --> 00:14:26,320

official secrets act

347

00:14:32,069 --> 00:14:29,120

to forget especially the odd

348

00:14:35,670 --> 00:14:32,079

circumstances of this past night and not

349

00:14:38,069 --> 00:14:35,680

to mention same to anyone not connected

350

00:14:40,150 --> 00:14:38,079

with the royal air force

351
00:14:42,949 --> 00:14:40,160
going on watch that evening we found

352
00:14:45,269 --> 00:14:42,959
that the duty watchbook normally only

353
00:14:47,829 --> 00:14:45,279
replaced when completely full

354
00:14:51,110 --> 00:14:47,839
which recorded every air engagement

355
00:14:53,670 --> 00:14:51,120
every pbx message every official order

356
00:14:56,389 --> 00:14:53,680
by the watch keeping officer made during

357
00:14:59,910 --> 00:14:56,399
every official part of previous watches

358
00:15:01,829 --> 00:14:59,920
including the previous night's activity

359
00:15:03,829 --> 00:15:01,839
celebrate the holiday with great savings

360
00:15:05,990 --> 00:15:03,839
during lowe's go forth event make your

361
00:15:08,550 --> 00:15:06,000
patio a happen in hangout for family and

362
00:15:10,629 --> 00:15:08,560
friends with up to 25 off select patio

363
00:15:12,550 --> 00:15:10,639

furniture and outdoor decor and your

364

00:15:14,310 --> 00:15:12,560

guests are gonna be hungry so be

365

00:15:17,189 --> 00:15:14,320

prepared to grill with a two-pack of

366

00:15:19,030 --> 00:15:17,199

kingsford charcoal now for just 9.88 all

367

00:15:21,110 --> 00:15:19,040

projects have a starting point start

368

00:15:22,790 --> 00:15:21,120

with lows patio and charcoal offers

369

00:15:24,470 --> 00:15:22,800

valid while supplies last in u.s only

370

00:15:28,220 --> 00:15:24,480

charcoal offer limited to two bags per

371

00:15:32,870 --> 00:15:29,590

[Music]

372

00:15:36,629 --> 00:15:32,880

well that official watchbook required to

373

00:15:39,430 --> 00:15:36,639

record all these things had gone missing

374

00:15:42,550 --> 00:15:39,440

it was replaced by a brand new shining

375

00:15:44,470 --> 00:15:42,560

duty watchbook i wonder why

376

00:15:46,470 --> 00:15:44,480

removing a half-empty watchbook was

377

00:15:50,230 --> 00:15:46,480

unheard of during exercises such as

378

00:15:52,150 --> 00:15:50,240

bulldog especially end quotes

379

00:15:54,790 --> 00:15:52,160

j.r oliver continues now with his

380

00:15:56,629 --> 00:15:54,800

account quote the rest of the exercise

381

00:15:59,350 --> 00:15:56,639

took its natural course and about a

382

00:16:00,310 --> 00:15:59,360

month later my service with the raf

383

00:16:01,509 --> 00:16:00,320

ended

384

00:16:03,509 --> 00:16:01,519

whether there were any further

385

00:16:04,710 --> 00:16:03,519

developments regarding this incident i

386

00:16:07,110 --> 00:16:04,720

do not know

387

00:16:09,749 --> 00:16:07,120

but it seems likely that evidence of its

388

00:16:11,829 --> 00:16:09,759

happening must be on file somewhere

389

00:16:14,389 --> 00:16:11,839

this incident was observed by such a

390

00:16:16,710 --> 00:16:14,399

large and highly trained audience its

391

00:16:19,829 --> 00:16:16,720

progress so well documented and

392

00:16:22,470 --> 00:16:19,839

meticulously recorded and no doubt the

393

00:16:24,470 --> 00:16:22,480

technical aspect so well scrutinized by

394

00:16:27,430 --> 00:16:24,480

top ranking members that the official

395

00:16:30,629 --> 00:16:27,440

documentation of its occurrence would

396

00:16:32,310 --> 00:16:30,639

settle the ufo controversy permanently

397

00:16:35,110 --> 00:16:32,320

end quotes

398

00:16:37,189 --> 00:16:35,120

oliver's final words quote all aspects

399

00:16:39,350 --> 00:16:37,199

of operation bulldog were due to be

400

00:16:41,189 --> 00:16:39,360

analyzed in great length in order to

401
00:16:43,509 --> 00:16:41,199
bring our defense against possible

402
00:16:45,430 --> 00:16:43,519
nuclear attack to the highest level

403
00:16:47,829 --> 00:16:45,440
there is no doubt that the incident i

404
00:16:49,350 --> 00:16:47,839
have described totally beyond the

405
00:16:51,590 --> 00:16:49,360
expectations of the organizing

406
00:16:54,230 --> 00:16:51,600
authorities as it must have been

407
00:16:56,230 --> 00:16:54,240
would receive the closest scrutiny and

408
00:16:57,670 --> 00:16:56,240
that many opinions must have been placed

409
00:16:59,670 --> 00:16:57,680
on record

410
00:17:01,829 --> 00:16:59,680
in addition to the personnel directly

411
00:17:03,990 --> 00:17:01,839
involved in the tracking of the object

412
00:17:06,069 --> 00:17:04,000
it is highly likely that a good many

413
00:17:08,549 --> 00:17:06,079

people must have gained knowledge of

414

00:17:11,270 --> 00:17:08,559

this occurrence and therefore proof of

415

00:17:13,510 --> 00:17:11,280

it happening may not be too far in

416

00:17:14,309 --> 00:17:13,520

hiding end quotes

417

00:17:16,630 --> 00:17:14,319

and

418

00:17:18,870 --> 00:17:16,640

sadly despite mr oliver's hope that

419

00:17:21,350 --> 00:17:18,880

records on this affair were preserved

420

00:17:23,429 --> 00:17:21,360

and might one day surface such a thing

421

00:17:26,549 --> 00:17:23,439

has not happened

422

00:17:30,230 --> 00:17:26,559

at least not yet it hasn't according to

423

00:17:32,390 --> 00:17:30,240

nick redfern back in 1995 he spent a few

424

00:17:34,950 --> 00:17:32,400

days at the united kingdom's national

425

00:17:38,470 --> 00:17:34,960

archives he did find some records on

426
00:17:41,029 --> 00:17:38,480
operation bulldog some declassified and

427
00:17:43,270 --> 00:17:41,039
others still withheld the records on

428
00:17:45,830 --> 00:17:43,280
that massive craft that penetrated

429
00:17:48,630 --> 00:17:45,840
british airspace and prompted a hasty

430
00:17:50,230 --> 00:17:48,640
cover-up of the evidence were nowhere to

431
00:17:53,270 --> 00:17:50,240
be found

432
00:17:55,430 --> 00:17:53,280
perhaps now in light of all the data

433
00:17:57,990 --> 00:17:55,440
that nick redfern has provided in parts

434
00:17:59,990 --> 00:17:58,000
one and two of this article it's time

435
00:18:02,950 --> 00:18:00,000
for someone else to try and dig out the

436
00:18:07,110 --> 00:18:02,960
truth and the files of the operation

437
00:18:10,470 --> 00:18:07,120
bulldog ufo affair of 1949

438
00:18:12,470 --> 00:18:10,480

just maybe they'll finally surface and

439

00:18:15,990 --> 00:18:12,480

we might gain more insight into the

440

00:18:19,669 --> 00:18:16,000

early years of the ufo phenomenon

441

00:18:22,549 --> 00:18:19,679

oh so say we all and with the

442

00:18:25,990 --> 00:18:22,559

interesting occurrences of release of

443

00:18:27,750 --> 00:18:26,000

classified files in the united kingdom

444

00:18:28,870 --> 00:18:27,760

maybe just

445

00:18:31,110 --> 00:18:28,880

maybe

446

00:18:32,950 --> 00:18:31,120

but that's it for this way back

447

00:18:35,270 --> 00:18:32,960

wednesday we hope you've enjoyed it we

448

00:18:37,029 --> 00:18:35,280

hope we piqued your imagination we hope

449

00:18:39,990 --> 00:18:37,039

you'll go out and sleuth around on your

450

00:18:42,789 --> 00:18:40,000

own even maybe a local library but right

451

00:18:44,789 --> 00:18:42,799

now we've got a flea because that's a

452

00:18:47,350 --> 00:18:44,799

wrap thank you for listening to

453

00:18:50,390 --> 00:18:47,360

inception radio network follow today's

454

00:18:52,789 --> 00:18:50,400

broadcast at ufoheadlinenews.com

455

00:18:55,029 --> 00:18:52,799

or youtube take care of each other we're

456

00:18:55,890 --> 00:18:55,039

all in this together this is carol carl
