

UFO Headline News Friday June 30th, 2017

Listen on

inceptionradionetwork.com

1
00:00:06,710 --> 00:00:03,830
friday june 30th 2017 you are listening

2
00:00:09,430 --> 00:00:06,720
to inception radio network voice of the

3
00:00:13,030 --> 00:00:09,440
fringe majority this is carol carl with

4
00:00:18,150 --> 00:00:15,669
we'll jump into the night sky in just a

5
00:00:21,029 --> 00:00:18,160
sec but first it seems appropriate to

6
00:00:23,830 --> 00:00:21,039
send our heartfelt thanks and supports

7
00:00:25,990 --> 00:00:23,840
and prayers to everybody temporarily we

8
00:00:28,550 --> 00:00:26,000
hope tossed out of their homes all the

9
00:00:30,630 --> 00:00:28,560
people connected with storm damage with

10
00:00:33,590 --> 00:00:30,640
the wildfires raging throughout this

11
00:00:36,069 --> 00:00:33,600
country and also kudos to all the

12
00:00:38,470 --> 00:00:36,079
firefighters and the extensive support

13
00:00:39,670 --> 00:00:38,480

staff that we must imagine goes along

14

00:00:41,990 --> 00:00:39,680

with such

15

00:00:44,389 --> 00:00:42,000

let's just hope the weather turns and

16

00:00:47,190 --> 00:00:44,399

everybody has a safe and sane fourth of

17

00:00:49,910 --> 00:00:47,200

july which is coming up

18

00:00:52,229 --> 00:00:49,920

coming up tonight in the sky we can look

19

00:00:54,790 --> 00:00:52,239

forward to the first quarter moon with

20

00:00:57,590 --> 00:00:54,800

planet jupiter be sure and watch that

21

00:00:59,510 --> 00:00:57,600

magnificent pairing it's the moon and

22

00:01:00,950 --> 00:00:59,520

jupiter and you can see them as soon as

23

00:01:03,110 --> 00:01:00,960

darkness falls

24

00:01:05,429 --> 00:01:03,120

the moon and jupiter rank as the

25

00:01:08,149 --> 00:01:05,439

brightest and third brightest heavenly

26
00:01:10,870 --> 00:01:08,159
bodies of nighttime what's the second

27
00:01:13,750 --> 00:01:10,880
brightest well that would be the planet

28
00:01:15,670 --> 00:01:13,760
venus that blazing glory which resides

29
00:01:17,910 --> 00:01:15,680
exclusively in the morning sky for the

30
00:01:19,670 --> 00:01:17,920
rest of 2017.

31
00:01:22,550 --> 00:01:19,680
also look for the bright star near

32
00:01:24,469 --> 00:01:22,560
jupiter and the moon that's spika and

33
00:01:27,030 --> 00:01:24,479
it's going to be near jupiter throughout

34
00:01:29,510 --> 00:01:27,040
2017. the brightest light in the

35
00:01:31,350 --> 00:01:29,520
constellation virgo the maiden

36
00:01:36,950 --> 00:01:31,360
the moon reaches its first quarter phase

37
00:01:39,030 --> 00:01:36,960
july 1 2017 at 0 51 utc

38
00:01:41,590 --> 00:01:39,040

converting universal time to clock time

39

00:01:43,670 --> 00:01:41,600

in north american time zones well that's

40

00:01:46,230 --> 00:01:43,680

extensive and you can find a link later

41

00:01:48,630 --> 00:01:46,240

at ufoheadlinenews.com

42

00:01:51,429 --> 00:01:48,640

there will be charts and here's a fun

43

00:01:54,069 --> 00:01:51,439

thing to ponder the earth and moon are

44

00:01:56,310 --> 00:01:54,079

like mirrors to each other if you were

45

00:01:57,749 --> 00:01:56,320

on the moon tonight you'd see a last

46

00:01:59,910 --> 00:01:57,759

quarter earth

47

00:02:02,550 --> 00:01:59,920

the folks at earth sky provide a cool

48

00:02:05,990 --> 00:02:02,560

graphic simulation of such and you can

49

00:02:08,790 --> 00:02:06,000

find that later by those usual links

50

00:02:10,949 --> 00:02:08,800

at quarter moon the moon's disk is half

51
00:02:14,070 --> 00:02:10,959
illuminated by sunlight and half

52
00:02:17,190 --> 00:02:14,080
immersed in the moon's own shadow enter

53
00:02:19,430 --> 00:02:17,200
the lunar terminator that shadow line

54
00:02:21,750 --> 00:02:19,440
crossing between moons day and night

55
00:02:24,150 --> 00:02:21,760
sides it shows you where it's sunrise on

56
00:02:26,470 --> 00:02:24,160
the waxing first quarter moon the moon

57
00:02:29,270 --> 00:02:26,480
is said to be at first quarter because

58
00:02:32,070 --> 00:02:29,280
in its cycle of phases the moon is one

59
00:02:35,110 --> 00:02:32,080
quarter the way from one new moon to the

60
00:02:37,030 --> 00:02:35,120
next as it does always the moon moves

61
00:02:38,390 --> 00:02:37,040
eastward in front of the constellations

62
00:02:40,309 --> 00:02:38,400
of the zodiac

63
00:02:42,630 --> 00:02:40,319

watch for the moon over the next several

64

00:02:45,030 --> 00:02:42,640

nights as its distance from jupiter on

65

00:02:47,589 --> 00:02:45,040

our sky's dome increases

66

00:02:50,390 --> 00:02:47,599

what you're really watching the moon's

67

00:02:52,550 --> 00:02:50,400

own motion in orbit around earth

68

00:02:55,430 --> 00:02:52,560

and where king planet jupiter is

69

00:02:58,150 --> 00:02:55,440

concerned it ended its retrograde motion

70

00:03:00,790 --> 00:02:58,160

earlier this month june 10th to be exact

71

00:03:03,589 --> 00:03:00,800

which means the best time of 2017 for

72

00:03:06,309 --> 00:03:03,599

viewing this dazzling planet has ended

73

00:03:07,830 --> 00:03:06,319

but it dazzles nonetheless we can speak

74

00:03:10,229 --> 00:03:07,840

to that personally

75

00:03:12,949 --> 00:03:10,239

thus jupiter is now moving eastward

76

00:03:15,270 --> 00:03:12,959

along its elliptic path again it's

77

00:03:18,149 --> 00:03:15,280

heading toward the star spika virgo's

78

00:03:20,470 --> 00:03:18,159

brightest star keep watching as jupiter

79

00:03:22,550 --> 00:03:20,480

moves towards spika it's going to pass

80

00:03:25,270 --> 00:03:22,560

three degrees north of this star on

81

00:03:27,030 --> 00:03:25,280

september 5th 2017

82

00:03:29,030 --> 00:03:27,040

mark your calendars

83

00:03:31,750 --> 00:03:29,040

because jupiter is roughly in the same

84

00:03:33,750 --> 00:03:31,760

area of sky as the moon tonight you

85

00:03:36,869 --> 00:03:33,760

might expect this world to exhibit a

86

00:03:39,190 --> 00:03:36,879

similar phase to tonight's moon not so

87

00:03:41,910 --> 00:03:39,200

says bruce mcclure who writes this

88

00:03:45,350 --> 00:03:41,920

jupiter in fact is so far distant from

89

00:03:48,070 --> 00:03:45,360

earth that it always appears nearly 100

90

00:03:50,710 --> 00:03:48,080

illuminated from our earthly perspective

91

00:03:53,110 --> 00:03:50,720

so here's the bottom line the dazzling

92

00:03:56,229 --> 00:03:53,120

planet jupiter is near the first quarter

93

00:03:59,270 --> 00:03:56,239

moon on june 30th tonight enjoy the

94

00:04:02,550 --> 00:03:59,280

waxing moon and jupiter on july 1st as

95

00:04:05,350 --> 00:04:02,560

well on behalf of everybody at inception

96

00:04:08,710 --> 00:04:05,360

radio network and the ufo headline news

97

00:04:13,350 --> 00:04:08,720

here's what we say today happy asteroid

98

00:04:15,150 --> 00:04:13,360

day yup that's today june 30th 2017.

99

00:04:17,909 --> 00:04:15,160

here's a cool story we found at

100

00:04:20,870 --> 00:04:17,919

earthsky.org in their human world

101
00:04:24,790 --> 00:04:20,880
section eleanor imster writes this

102
00:04:27,430 --> 00:04:24,800
hundreds of events films concerts panels

103
00:04:29,909 --> 00:04:27,440
with engineers scientists and astronauts

104
00:04:32,710 --> 00:04:29,919
about asteroids and how to protect our

105
00:04:34,790 --> 00:04:32,720
planet from asteroid impacts are

106
00:04:36,870 --> 00:04:34,800
featured at the third annual

107
00:04:38,629 --> 00:04:36,880
international asteroid day it's

108
00:04:40,950 --> 00:04:38,639
happening today

109
00:04:42,870 --> 00:04:40,960
asteroid day is a global awareness

110
00:04:44,790 --> 00:04:42,880
campaign to help people learn about

111
00:04:47,030 --> 00:04:44,800
asteroids and what we can do to

112
00:04:48,070 --> 00:04:47,040
ultimately protect our planet from their

113
00:04:51,030 --> 00:04:48,080

impacts

114

00:04:53,350 --> 00:04:51,040

asteroid day is held on the anniversary

115

00:04:55,510 --> 00:04:53,360

of the largest asteroid impact in

116

00:04:58,310 --> 00:04:55,520

earth's recent history an event that

117

00:05:02,310 --> 00:04:58,320

took place in siberia on this date june

118

00:05:05,590 --> 00:05:02,320

30th in 1908 known as the tangaska

119

00:05:08,950 --> 00:05:05,600

explosion a small asteroid apparently

120

00:05:10,790 --> 00:05:08,960

exploded over tunguska although as one

121

00:05:13,110 --> 00:05:10,800

can imagine there is controversy over

122

00:05:15,110 --> 00:05:13,120

the nature of this explosion

123

00:05:19,189 --> 00:05:15,120

it released the equivalent whatever it

124

00:05:22,390 --> 00:05:19,199

was of 100 tons of tnt devastating an

125

00:05:25,590 --> 00:05:22,400

area of about 800 square miles that's

126

00:05:27,350 --> 00:05:25,600

the size of a major metropolitan city

127

00:05:29,830 --> 00:05:27,360

there's a link to a chart that will show

128

00:05:32,710 --> 00:05:29,840

you where you can celebrate asteroid day

129

00:05:33,590 --> 00:05:32,720

today in an event near you it's not too

130

00:05:37,510 --> 00:05:33,600

late

131

00:05:40,950 --> 00:05:37,520

nasa will mark asteroid day 2017 at noon

132

00:05:42,710 --> 00:05:40,960

today with a program airing on nasa tv

133

00:05:45,029 --> 00:05:42,720

we're pretty sure that will be also

134

00:05:47,430 --> 00:05:45,039

preserved in archives it's something

135

00:05:51,350 --> 00:05:47,440

about how researchers find track and

136

00:05:53,749 --> 00:05:51,360

characterize neos near-earth objects

137

00:05:56,310 --> 00:05:53,759

asteroids and comets that come within

138

00:05:58,790 --> 00:05:56,320

the vicinity of earth's orbit and could

139

00:06:01,110 --> 00:05:58,800

theoretically pose an impact hazard to

140

00:06:03,430 --> 00:06:01,120

earth and how nasa is working to get our

141

00:06:05,590 --> 00:06:03,440

nation prepared to respond to any

142

00:06:07,990 --> 00:06:05,600

potential impact threat

143

00:06:10,629 --> 00:06:08,000

nasa planetary defense officer lindley

144

00:06:14,469 --> 00:06:10,639

johnson made a statement about this here

145

00:06:17,110 --> 00:06:14,479

we go at nasa every day is an asteroid

146

00:06:19,909 --> 00:06:17,120

day but we value the international

147

00:06:21,510 --> 00:06:19,919

collaboration for a designated day to

148

00:06:23,590 --> 00:06:21,520

call attention to the importance of

149

00:06:26,309 --> 00:06:23,600

detecting and tracking hazardous

150

00:06:29,510 --> 00:06:26,319

asteroids the nasa broadcasts will be

151
00:06:31,909 --> 00:06:29,520
part of a 24-hour asteroid day program

152
00:06:35,430 --> 00:06:31,919
from broadcasting center europe

153
00:06:38,230 --> 00:06:35,440
beginning on june 29th actually at 1am

154
00:06:39,909 --> 00:06:38,240
june 30th utc there are charts that

155
00:06:42,790 --> 00:06:39,919
translate it to your individual time

156
00:06:45,029 --> 00:06:42,800
zones and there's a link for streaming

157
00:06:47,590 --> 00:06:45,039
online have fun

158
00:06:50,150 --> 00:06:47,600
here's some fun sleuthing perhaps on the

159
00:06:53,270 --> 00:06:50,160
internet for your weekend we picked this

160
00:06:55,990 --> 00:06:53,280
story up from the dailymercury.com

161
00:06:58,230 --> 00:06:56,000
that's a publication out of australia

162
00:07:01,270 --> 00:06:58,240
but it is making the rounds online and

163
00:07:04,469 --> 00:07:01,280

we just couldn't ignore it any longer

164

00:07:07,270 --> 00:07:04,479

the mckay daily mercury is the subset

165

00:07:10,790 --> 00:07:07,280

publication here and here's the headline

166

00:07:14,309 --> 00:07:10,800

mars photo of metallic object has

167

00:07:17,830 --> 00:07:14,319

internet in a ufo frenzy

168

00:07:20,390 --> 00:07:17,840

it's shiny it's sharp it's on mars

169

00:07:22,950 --> 00:07:20,400

it must be aliens

170

00:07:25,350 --> 00:07:22,960

what appears to be a chunk of metal

171

00:07:28,390 --> 00:07:25,360

photographed by the opportunity rover

172

00:07:31,749 --> 00:07:28,400

has ufo buffs in a spin

173

00:07:34,150 --> 00:07:31,759

it shows an unusually shiny and jagged

174

00:07:37,749 --> 00:07:34,160

object sitting neatly on top of the

175

00:07:39,830 --> 00:07:37,759

grainy surface of mars meridiani planum

176

00:07:42,710 --> 00:07:39,840

as example it has the internet chat

177

00:07:44,390 --> 00:07:42,720

forum reddit in rapture says this

178

00:07:45,670 --> 00:07:44,400

uncredited writer

179

00:07:49,990 --> 00:07:45,680

here's a quote

180

00:07:51,430 --> 00:07:50,000

uh nasa ufo caught on mars rover mission

181

00:07:52,950 --> 00:07:51,440

is this real

182

00:07:55,670 --> 00:07:52,960

that's posted by someone calling

183

00:07:58,150 --> 00:07:55,680

themselves prosaic origin

184

00:08:00,790 --> 00:07:58,160

if it looks odd of course it must be

185

00:08:04,150 --> 00:08:00,800

aliens but in this case the resolution

186

00:08:06,790 --> 00:08:04,160

is reasonably crisp not a blurry morass

187

00:08:09,029 --> 00:08:06,800

like most ufo evidence

188

00:08:11,350 --> 00:08:09,039

said one commentator quote looks like

189

00:08:14,230 --> 00:08:11,360

light glimmering off of a genuine

190

00:08:17,430 --> 00:08:14,240

spaceship on an alien planet in outer

191

00:08:20,550 --> 00:08:17,440

space end quotes but for that to be true

192

00:08:22,629 --> 00:08:20,560

there's that small matter of scale

193

00:08:25,110 --> 00:08:22,639

at that distance from the opportunity

194

00:08:27,830 --> 00:08:25,120

rover any inhabitants would probably

195

00:08:30,390 --> 00:08:27,840

have to be no larger than ants

196

00:08:32,389 --> 00:08:30,400

a more down to earth although admittedly

197

00:08:33,750 --> 00:08:32,399

this is mars we're talking about here

198

00:08:35,750 --> 00:08:33,760

suggestion

199

00:08:37,990 --> 00:08:35,760

was that it could be a piece of debris

200

00:08:39,829 --> 00:08:38,000

from the rover itself or a heat shield

201
00:08:42,709 --> 00:08:39,839
from the craft that delivered it

202
00:08:43,990 --> 00:08:42,719
satellites have gone awry landers have

203
00:08:46,230 --> 00:08:44,000
crashed

204
00:08:48,310 --> 00:08:46,240
even successful projects litter the

205
00:08:50,070 --> 00:08:48,320
landscape with debris as they plow

206
00:08:52,070 --> 00:08:50,080
through the thin atmosphere

207
00:08:55,110 --> 00:08:52,080
and opportunity has been traveling back

208
00:08:56,949 --> 00:08:55,120
along the line of its landers approach

209
00:08:59,269 --> 00:08:56,959
it's photographed discarded bits and

210
00:09:00,790 --> 00:08:59,279
pieces before and that's how this

211
00:09:02,790 --> 00:09:00,800
article ends

212
00:09:05,110 --> 00:09:02,800
there is no punch line here it's a

213
00:09:06,590 --> 00:09:05,120

curious shot if you haven't seen it head

214

00:09:08,470 --> 00:09:06,600

on over to

215

00:09:10,630 --> 00:09:08,480

ufoheadlinenews.com later

216

00:09:13,910 --> 00:09:10,640

take a look it's bright and shiny it

217

00:09:16,389 --> 00:09:13,920

looks very much nasa-like to these eyes

218

00:09:20,829 --> 00:09:16,399

but speaking of aliens here is a

219

00:09:24,470 --> 00:09:20,839

headline roswell invaded as ufo festival

220

00:09:27,750 --> 00:09:24,480

begins we grab this from kob.com

221

00:09:30,630 --> 00:09:27,760

channel 4 out of roswell new mexico it

222

00:09:33,030 --> 00:09:30,640

gets a byline for leonard tapia

223

00:09:35,829 --> 00:09:33,040

people around the world are making their

224

00:09:38,630 --> 00:09:35,839

way to new mexico this weekend for what

225

00:09:40,070 --> 00:09:38,640

organizers call the biggest ufo festival

226

00:09:43,190 --> 00:09:40,080

in the world

227

00:09:45,829 --> 00:09:43,200

people pets aliens and everyone in

228

00:09:48,710 --> 00:09:45,839

between invaded the streets of downtown

229

00:09:50,949 --> 00:09:48,720

roswell to kick off the 22nd annual

230

00:09:54,150 --> 00:09:50,959

event some of the highlights of this

231

00:09:56,790 --> 00:09:54,160

year's event include two extreme water

232

00:09:58,949 --> 00:09:56,800

slides to help people stay cool in the

233

00:10:02,150 --> 00:09:58,959

dead of the heat during the 70th

234

00:10:04,710 --> 00:10:02,160

anniversary of the much discussed 1947

235

00:10:06,630 --> 00:10:04,720

roswell event here's a quote from

236

00:10:09,509 --> 00:10:06,640

stephen diaz he's visiting the event

237

00:10:11,670 --> 00:10:09,519

from texas quote a lot of my family

238

00:10:14,550 --> 00:10:11,680

doesn't believe and they came because we

239

00:10:16,389 --> 00:10:14,560

do so maybe they will believe after

240

00:10:19,030 --> 00:10:16,399

today end quotes

241

00:10:21,670 --> 00:10:19,040

others tell station kob all the alien

242

00:10:24,949 --> 00:10:21,680

hype is a bit overwhelming but at the

243

00:10:27,190 --> 00:10:24,959

same time still exciting quote i've

244

00:10:29,590 --> 00:10:27,200

never seen a town like this before

245

00:10:32,389 --> 00:10:29,600

obsessed with aliens and quotes said

246

00:10:34,790 --> 00:10:32,399

brandon allen visiting from vermont he

247

00:10:37,590 --> 00:10:34,800

continues quote i mean i've always

248

00:10:40,230 --> 00:10:37,600

believed in aliens but this is kind of

249

00:10:42,630 --> 00:10:40,240

over the top end quotes

250

00:10:45,269 --> 00:10:42,640

even if you're not into the whole alien

251
00:10:47,750 --> 00:10:45,279
craze you can enjoy some fun and games

252
00:10:49,750 --> 00:10:47,760
good eats and great shopping and this

253
00:10:52,470 --> 00:10:49,760
broadcaster understands that there's

254
00:10:56,069 --> 00:10:52,480
music involved as well and also jesse

255
00:10:58,550 --> 00:10:56,079
marcel the third the grandson of the

256
00:11:00,870 --> 00:10:58,560
original colonel jesse marcel involved

257
00:11:02,949 --> 00:11:00,880
in the roswell beginnings he'll be

258
00:11:03,990 --> 00:11:02,959
attending the event and perhaps speaking

259
00:11:06,230 --> 00:11:04,000
as well

260
00:11:08,870 --> 00:11:06,240
said april genesee visiting from utah

261
00:11:11,670 --> 00:11:08,880
quote it's amazing the smells of the

262
00:11:15,190 --> 00:11:11,680
food are awesome and everybody here is

263
00:11:17,829 --> 00:11:15,200

so nice end quotes speaking of food the

264

00:11:20,550 --> 00:11:17,839

food network along with snapchat the

265

00:11:22,470 --> 00:11:20,560

travel channel and comet tv are among

266

00:11:25,430 --> 00:11:22,480

some of the familiar names making a

267

00:11:28,069 --> 00:11:25,440

crash landing at this year's fest

268

00:11:30,550 --> 00:11:28,079

said joby fesha quote i'm having a blast

269

00:11:32,790 --> 00:11:30,560

it's a lot of fun we're you know buying

270

00:11:34,949 --> 00:11:32,800

the t-shirts buying hats we're visiting

271

00:11:36,630 --> 00:11:34,959

places just having a good time and

272

00:11:38,710 --> 00:11:36,640

quotes she said

273

00:11:41,110 --> 00:11:38,720

the ufo fest officially kicked off

274

00:11:43,269 --> 00:11:41,120

thursday afternoon there will be tons of

275

00:11:45,990 --> 00:11:43,279

events taking place in the next few days

276

00:11:49,110 --> 00:11:46,000

there in downtown roswell laser shows

277

00:11:52,870 --> 00:11:49,120

movies and even commentary from ufo

278

00:11:54,069 --> 00:11:52,880

experts indeed thank you kob for that

279

00:11:57,590 --> 00:11:54,079

story

280

00:11:59,590 --> 00:11:57,600

here comes more stuff to do with ufos

281

00:12:02,710 --> 00:11:59,600

we're going to change our trajectory and

282

00:12:05,590 --> 00:12:02,720

go from the great american southwest

283

00:12:07,990 --> 00:12:05,600

roswell new mexico slightly east and

284

00:12:11,030 --> 00:12:08,000

very much south we won't stop till we

285

00:12:13,069 --> 00:12:11,040

come to argentina the setting for this

286

00:12:15,750 --> 00:12:13,079

sighting we picked this up from

287

00:12:18,629 --> 00:12:15,760

inexplicata the journal of hispanic

288

00:12:23,750 --> 00:12:18,639

ufology they picked it up from a source

289

00:12:26,870 --> 00:12:23,760

la caseta salta and planeta ufo thanks

290

00:12:30,150 --> 00:12:26,880

for translation to s corrales and

291

00:12:33,190 --> 00:12:30,160

guillermo jimenez here we go

292

00:12:34,550 --> 00:12:33,200

unknown flashing object astonishes

293

00:12:36,790 --> 00:12:34,560

onlookers

294

00:12:39,430 --> 00:12:36,800

something out of the ordinary startled

295

00:12:42,310 --> 00:12:39,440

residents of barrio el carmen on the

296

00:12:45,269 --> 00:12:42,320

24th of june this year

297

00:12:47,430 --> 00:12:45,279

whatever it was it sparkled and moved

298

00:12:48,389 --> 00:12:47,440

but it was unknown to those looking at

299

00:12:50,069 --> 00:12:48,399

it

300

00:12:51,990 --> 00:12:50,079

local residents were astounded by the

301
00:12:54,069 --> 00:12:52,000
object that appeared in the skies of

302
00:12:57,030 --> 00:12:54,079
salta at noon

303
00:12:59,430 --> 00:12:57,040
in barrio el carmen anyone looking up at

304
00:13:02,870 --> 00:12:59,440
that time would have been surprised to

305
00:13:04,710 --> 00:13:02,880
see an unusual shiny object

306
00:13:06,629 --> 00:13:04,720
some locals who beheld the circular

307
00:13:09,030 --> 00:13:06,639
shining object spoke with the

308
00:13:11,670 --> 00:13:09,040
publication at la gaceta about the

309
00:13:12,790 --> 00:13:11,680
unanswered riddle what could it have

310
00:13:15,269 --> 00:13:12,800
been

311
00:13:17,910 --> 00:13:15,279
says one local in a video quote we were

312
00:13:20,870 --> 00:13:17,920
unable to identify this object it was

313
00:13:24,470 --> 00:13:20,880

silvery and flashing and it led us to

314

00:13:25,829 --> 00:13:24,480

believe it was a ufo reflecting sunlight

315

00:13:27,590 --> 00:13:25,839

end quotes

316

00:13:30,069 --> 00:13:27,600

says another quote it was like a

317

00:13:31,430 --> 00:13:30,079

spinning sphere giving off a light an

318

00:13:33,670 --> 00:13:31,440

incandescence

319

00:13:35,750 --> 00:13:33,680

my brother phoned me to tell me about it

320

00:13:38,389 --> 00:13:35,760

but i didn't see it until he told me

321

00:13:41,269 --> 00:13:38,399

exactly where to look in the sky

322

00:13:42,470 --> 00:13:41,279

then i was able to locate it and see it

323

00:13:44,310 --> 00:13:42,480

end quote

324

00:13:46,829 --> 00:13:44,320

gentle listeners if you'd like to see it

325

00:13:48,550 --> 00:13:46,839

you can locate a link later at

326

00:13:50,150 --> 00:13:48,560

ufoheadlinenews.com

327

00:13:53,750 --> 00:13:50,160

hang on to something we're going to take

328

00:13:57,110 --> 00:13:53,760

another huge geo shift for our cyber ufo

329

00:13:59,509 --> 00:13:57,120

stalker.com ufo sightings report we're

330

00:14:02,790 --> 00:13:59,519

going to go back now to the state of

331

00:14:04,550 --> 00:14:02,800

arizona in the great american southwest

332

00:14:07,990 --> 00:14:04,560

city of phoenix

333

00:14:11,590 --> 00:14:08,000

this is mufon case number 84712

334

00:14:14,069 --> 00:14:11,600

it took place on the 29th of june 2017

335

00:14:15,590 --> 00:14:14,079

and was reported that same day

336

00:14:18,069 --> 00:14:15,600

here's the summary

337

00:14:21,189 --> 00:14:18,079

saw a large swarm

338

00:14:23,110 --> 00:14:21,199

hundreds twinkling red lights over

339

00:14:27,670 --> 00:14:23,120

downtown phoenix

340

00:14:30,550 --> 00:14:27,680

over buildings not attached to object

341

00:14:33,590 --> 00:14:30,560

the viewing distance here began at 501

342

00:14:36,470 --> 00:14:33,600

feet and eventually extended to one mile

343

00:14:39,590 --> 00:14:36,480

the altitude was over 500 feet and there

344

00:14:41,910 --> 00:14:39,600

was cloud cover over phoenix that night

345

00:14:44,949 --> 00:14:41,920

the sighting duration 10 minutes

346

00:14:47,750 --> 00:14:44,959

object features unknown the flight path

347

00:14:50,150 --> 00:14:47,760

was stationary and this object's shape

348

00:14:52,310 --> 00:14:50,160

is simply reported as other

349

00:14:54,550 --> 00:14:52,320

there isn't any meteorology but the

350

00:14:55,750 --> 00:14:54,560

sighting seemed to go something like

351

00:14:59,110 --> 00:14:55,760

this

352

00:15:00,790 --> 00:14:59,120

the night of june 29th 2017. lowe's has

353

00:15:02,389 --> 00:15:00,800

you covered for all those projects on

354

00:15:04,470 --> 00:15:02,399

your summer to-do list and will even

355

00:15:06,150 --> 00:15:04,480

help you save give your home a whole new

356

00:15:08,069 --> 00:15:06,160

look inside and out with ten to forty

357

00:15:10,150 --> 00:15:08,079

dollars off paint exterior stains and

358

00:15:11,670 --> 00:15:10,160

resurfacers via rebate and add a pop of

359

00:15:13,750 --> 00:15:11,680

color to your porch or patio with

360

00:15:15,350 --> 00:15:13,760

flowers get your choice two for ten

361

00:15:17,350 --> 00:15:15,360

dollar basic one and a half gallon

362

00:15:19,430 --> 00:15:17,360

hanging baskets all projects have a

363

00:15:20,870 --> 00:15:19,440

starting point start with lows paint

364

00:15:22,550 --> 00:15:20,880

offer valid six twenty one three seven

365

00:15:23,750 --> 00:15:22,560

five exclusions apply plant offer valid

366

00:15:25,269 --> 00:15:23,760

six twenty eight through seven five

367

00:15:27,460 --> 00:15:25,279

color and selection vary by location

368

00:15:28,710 --> 00:15:27,470

while supplies last u.s only

369

00:15:31,910 --> 00:15:28,720

[Music]

370

00:15:33,910 --> 00:15:31,920

at roughly around 9 30 p.m my grandma

371

00:15:35,590 --> 00:15:33,920

and i were driving out of downtown

372

00:15:38,069 --> 00:15:35,600

phoenix arizona

373

00:15:39,590 --> 00:15:38,079

we were heading down highway 202 and

374

00:15:42,550 --> 00:15:39,600

rural road

375

00:15:46,150 --> 00:15:42,560

i looked out the window and saw a very

376

00:15:47,269 --> 00:15:46,160

large swarm of hovering twinkling red

377

00:15:49,189 --> 00:15:47,279

lights

378

00:15:51,990 --> 00:15:49,199

it looked like there were hundreds of

379

00:15:54,150 --> 00:15:52,000

these lights in a shapeless swarm

380

00:15:55,990 --> 00:15:54,160

they were packed closely enough that we

381

00:15:57,990 --> 00:15:56,000

could tell they weren't attached on the

382

00:16:00,710 --> 00:15:58,000

surface of any object

383

00:16:03,189 --> 00:16:00,720

this swarm was high in the air and it

384

00:16:05,670 --> 00:16:03,199

could be seen for several miles away

385

00:16:08,710 --> 00:16:05,680

it was not close to any tall buildings

386

00:16:11,030 --> 00:16:08,720

it was larger than a blimp we could not

387

00:16:13,430 --> 00:16:11,040

believe our eyes and we couldn't find

388

00:16:17,350 --> 00:16:13,440

any explanation for the swarm of lights

389

00:16:19,590 --> 00:16:17,360

later online or on the local news

390

00:16:21,829 --> 00:16:19,600

we lost sight of this swarm as we turned

391

00:16:23,509 --> 00:16:21,839

onto highway 101.

392

00:16:25,910 --> 00:16:23,519

we're not sure if the lights on the

393

00:16:27,910 --> 00:16:25,920

swarm moved at all but they seemed to

394

00:16:29,509 --> 00:16:27,920

twinkle slowly

395

00:16:32,629 --> 00:16:29,519

this event happened over a major

396

00:16:34,790 --> 00:16:32,639

metropolitan area near a major highway

397

00:16:38,470 --> 00:16:34,800

so there must be other witnesses out

398

00:16:40,470 --> 00:16:38,480

there oh there must indeed we'll be

399

00:16:43,509 --> 00:16:40,480

watching ufostalker.com

400

00:16:45,670 --> 00:16:43,519

and the comments section available to

401
00:16:47,590 --> 00:16:45,680
any and everybody if you've got a

402
00:16:50,230 --> 00:16:47,600
comment or a question you can discuss it

403
00:16:52,550 --> 00:16:50,240
right below any particular sighting

404
00:16:54,550 --> 00:16:52,560
let's head to the pacific northwest now

405
00:16:55,670 --> 00:16:54,560
the city of tacoma in the state of

406
00:16:57,430 --> 00:16:55,680
washington

407
00:17:00,389 --> 00:16:57,440
that's the setting for mufon sighting

408
00:17:02,710 --> 00:17:00,399
number 84710

409
00:17:05,270 --> 00:17:02,720
this sighting took place on the 26th of

410
00:17:07,429 --> 00:17:05,280
this month wasn't reported till the 29th

411
00:17:09,029 --> 00:17:07,439
of june 2017

412
00:17:11,750 --> 00:17:09,039
here's the summary

413
00:17:14,470 --> 00:17:11,760

diamond-shaped object with lights

414

00:17:16,949 --> 00:17:14,480

flying end over end

415

00:17:19,189 --> 00:17:16,959

in the categories provided under citing

416

00:17:22,630 --> 00:17:19,199

specifics our witness lists a viewing

417

00:17:25,750 --> 00:17:22,640

distance of 101 to 500 feet

418

00:17:27,110 --> 00:17:25,760

a treetop altitude the sighting duration

419

00:17:29,750 --> 00:17:27,120

seven minutes

420

00:17:31,990 --> 00:17:29,760

object features unknown the object

421

00:17:34,710 --> 00:17:32,000

flight path is described as having been

422

00:17:36,950 --> 00:17:34,720

a straight line path and as we heard

423

00:17:39,430 --> 00:17:36,960

earlier in the summary this object was

424

00:17:41,510 --> 00:17:39,440

shaped like a diamond here's what the

425

00:17:43,830 --> 00:17:41,520

weather was doing right about that time

426
00:17:47,110 --> 00:17:43,840
over tacoma washington a maximum

427
00:17:49,430 --> 00:17:47,120
temperature of 71 degrees fahrenheit 22

428
00:17:52,390 --> 00:17:49,440
degrees celsius down to a minimum

429
00:17:55,430 --> 00:17:52,400
temperature of 54 degrees fahrenheit 12

430
00:17:58,710 --> 00:17:55,440
degrees celsius the maximum visibility

431
00:18:02,310 --> 00:17:58,720
mean visibility and minimum visibility

432
00:18:05,669 --> 00:18:02,320
all the same 10 miles 16 kilometers and

433
00:18:07,590 --> 00:18:05,679
weather conditions were nothing abnormal

434
00:18:09,830 --> 00:18:07,600
here's what happened

435
00:18:11,350 --> 00:18:09,840
i was in my backyard talking on my cell

436
00:18:13,990 --> 00:18:11,360
phone with a friend

437
00:18:16,230 --> 00:18:14,000
when i noticed a diamond-shaped object

438
00:18:18,870 --> 00:18:16,240

above my neighbor's house

439

00:18:21,190 --> 00:18:18,880

the object was silver shiny

440

00:18:23,590 --> 00:18:21,200

it was reflecting light

441

00:18:26,789 --> 00:18:23,600

this thing had sparkling blinking white

442

00:18:29,750 --> 00:18:26,799

lights and it was tumbling end over end

443

00:18:31,510 --> 00:18:29,760

as it flew over my backyard

444

00:18:32,390 --> 00:18:31,520

although the object was silver when it

445

00:18:34,870 --> 00:18:32,400

flew

446

00:18:36,710 --> 00:18:34,880

it also seemed sometimes to change to a

447

00:18:39,350 --> 00:18:36,720

darker silver

448

00:18:40,470 --> 00:18:39,360

there was no sound associated with this

449

00:18:42,549 --> 00:18:40,480

object

450

00:18:46,230 --> 00:18:42,559

it was flying from the southwest to the

451
00:18:48,789 --> 00:18:46,240
northeast in a perfect straight line

452
00:18:51,029 --> 00:18:48,799
i watched it fly off into the distance i

453
00:18:53,430 --> 00:18:51,039
watched it for approximately seven

454
00:18:55,430 --> 00:18:53,440
minutes from start to finish

455
00:18:58,230 --> 00:18:55,440
i live on one of the flight paths for

456
00:19:00,310 --> 00:18:58,240
seatac seattle tacoma airport and there

457
00:19:02,470 --> 00:19:00,320
were jets flying north to south while

458
00:19:05,110 --> 00:19:02,480
this object was flying by

459
00:19:06,630 --> 00:19:05,120
the sky was clear blue just a few clouds

460
00:19:09,430 --> 00:19:06,640
off in the distance

461
00:19:12,870 --> 00:19:09,440
i did take pictures but the object only

462
00:19:16,470 --> 00:19:12,880
showed as a dot on my phone

463
00:19:19,110 --> 00:19:16,480

476
00:19:52,630 --> 00:19:50,080
states mail carrier the video ends with

477
00:19:55,190 --> 00:19:52,640
him climbing back in his truck

478
00:19:58,150 --> 00:19:55,200
there's interesting audio not too much

479
00:20:01,909 --> 00:19:58,160
in the visual citing specifics include a

480
00:20:04,710 --> 00:20:01,919
viewing distance of 501 feet to 1 mile

481
00:20:07,909 --> 00:20:04,720
the altitude was over 500 feet under

482
00:20:10,789 --> 00:20:07,919
cloud cover the siding duration was 58

483
00:20:13,190 --> 00:20:10,799
seconds listed here but as we said it's

484
00:20:14,549 --> 00:20:13,200
the audio that's long there isn't much

485
00:20:16,470 --> 00:20:14,559
to be seen

486
00:20:19,110 --> 00:20:16,480
the object features in fact are listed

487
00:20:21,750 --> 00:20:19,120
as unknown the flight path was a

488
00:20:22,630 --> 00:20:21,760

501
00:20:54,310 --> 00:20:51,600
to five fighter jets in the sky

502
00:20:56,710 --> 00:20:54,320
i only actually witnessed one

503
00:20:58,870 --> 00:20:56,720
but there seemed to be something i

504
00:21:01,510 --> 00:20:58,880
couldn't quite see something in front of

505
00:21:04,470 --> 00:21:01,520
it that it was chasing

506
00:21:08,470 --> 00:21:04,480
it caused him to do a loop the loop in

507
00:21:10,470 --> 00:21:08,480
the sky chasing this perhaps object

508
00:21:11,510 --> 00:21:10,480
my feelings were of a little bit of

509
00:21:14,470 --> 00:21:11,520
excitement

510
00:21:17,750 --> 00:21:14,480
i was amazed and concerned

511
00:21:20,870 --> 00:21:17,760
they all flew off out of the sight line

512
00:21:22,390 --> 00:21:20,880
uh out of sight perhaps but we think not

513
00:21:24,070 --> 00:21:22,400

551
00:23:00,390 --> 00:22:59,280
i thought it would go out but it kept

552
00:23:02,230 --> 00:23:00,400
going

553
00:23:03,830 --> 00:23:02,240
it was very bright it looked like

554
00:23:05,190 --> 00:23:03,840
something was burning up in the

555
00:23:06,950 --> 00:23:05,200
atmosphere

556
00:23:08,950 --> 00:23:06,960
it must have been far away as well

557
00:23:10,310 --> 00:23:08,960
because it did not cover much space in

558
00:23:13,750 --> 00:23:10,320
the sky

559
00:23:16,070 --> 00:23:13,760
at one point this object split into five

560
00:23:17,270 --> 00:23:16,080
separate fireballs and continued

561
00:23:19,510 --> 00:23:17,280
downward

562
00:23:21,510 --> 00:23:19,520
they separated a little and then they

563
00:23:24,230 --> 00:23:21,520

576
00:23:52,470 --> 00:23:49,360
least by eight people at that one

577
00:23:54,310 --> 00:23:52,480
particular site one more dizzying shift

578
00:23:56,710 --> 00:23:54,320
now will go from the state of missouri

579
00:23:59,750 --> 00:23:56,720
to the state of maryland city of

580
00:24:00,710 --> 00:23:59,760
aberdeen case number eight four six five

581
00:24:04,870 --> 00:24:00,720
eight

582
00:24:08,070 --> 00:24:04,880
dative sighting 6 4 2017 date submitted

583
00:24:11,430 --> 00:24:08,080
6 27 2017

584
00:24:15,110 --> 00:24:11,440
summary orange glowing object hovering

585
00:24:17,590 --> 00:24:15,120
above trees above bonfire

586
00:24:21,909 --> 00:24:17,600
the sighting distance indicates it began

587
00:24:24,950 --> 00:24:21,919
relatively close 21 to 100 feet

588
00:24:27,029 --> 00:24:24,960

601
00:24:58,470 --> 00:24:55,200
kilometers the minimum a little bit less

602
00:25:01,269 --> 00:24:58,480
8 miles 13 kilometers because it was

603
00:25:03,909 --> 00:25:01,279
raining first person account witnesses

604
00:25:06,789 --> 00:25:03,919
own words let's read

605
00:25:08,470 --> 00:25:06,799
i was driving home and saw an orange

606
00:25:10,789 --> 00:25:08,480
glowing light

607
00:25:13,029 --> 00:25:10,799
this light was above the trees along the

608
00:25:15,990 --> 00:25:13,039
side of the road i was traveling on

609
00:25:18,950 --> 00:25:16,000
it was drifting towards the northeast i

610
00:25:21,110 --> 00:25:18,960
have seen objects like this in the past

611
00:25:22,950 --> 00:25:21,120
so i pulled over to the side of the road

612
00:25:25,110 --> 00:25:22,960
and took pictures

613
00:25:27,590 --> 00:25:25,120
