Inception Radio Network

1
00:00:06,150 --> 00:00:01,750
a great answer

2
00:00:08,870 --> 00:00:06,160
hello it's monday july 3rd 2017. you are

3
00:00:11,270 --> 00:00:08,880
listening to inception radio network

4
00:00:14,910 --> 00:00:11,280
voice of the fringe majority this is

5
00:00:18,109 --> 00:00:14,920
carol carl with ufo headline

6
00:00:21,429 --> 00:00:18,119
news here's what's making headlines at

7
00:00:24,790 --> 00:00:21,439
earthsky.org today the earth is farthest

8
00:00:26,710 --> 00:00:24,800
from the sun on july 3rd that's tonight

9
00:00:29,750 --> 00:00:26,720
good old planet earth reaches a

10
00:00:33,110 --> 00:00:29,760
milestone today it's aphelion let's

11
00:00:36,150 --> 00:00:33,120
spell that a-p-h-e-l-i-o-n

12
00:00:40,229 --> 00:00:36,160
or its most distant point from the sun

13
00:00:42,869 --> 00:00:40,239

we reach that point today at 2011 utc

14

00:00:45,190 --> 00:00:42,879

well that's 15 11 central daylight time

15

00:00:47,510 --> 00:00:45,200

for instance in the united states

16

00:00:50,389 --> 00:00:47,520

is it hot outside for you on your part

17

00:00:52,630 --> 00:00:50,399

of earth right now or is it cold out

18

00:00:54,709 --> 00:00:52,640

earth's aphelion comes in the midst of

19

00:00:56,869 --> 00:00:54,719

northern hemisphere summer and southern

20

00:00:58,950 --> 00:00:56,879

hemisphere winter that should tell you

21

00:01:00,630 --> 00:00:58,960

that our distance from the sun doesn't

22

00:01:03,110 --> 00:01:00,640

cause the seasons

23

00:01:05,350 --> 00:01:03,120

if one considers an illustration for

24

00:01:08,469 --> 00:01:05,360

instance that shows the eccentricity the

25

00:01:11,750 --> 00:01:08,479

oblongness of earth's orbit you can get

26

00:01:14,510 --> 00:01:11,760

the idea and you can find that idea in

27

00:01:16,950 --> 00:01:14,520

actual form later at

28

00:01:18,789 --> 00:01:16,960

ufoheadlinenews.com there are charts and

29

00:01:21,350 --> 00:01:18,799

graphs etc

30

00:01:24,550 --> 00:01:21,360

the fact is the earth's orbit is almost

31

00:01:26,630 --> 00:01:24,560

but not quite circular it's that oblong

32

00:01:28,149 --> 00:01:26,640

thing so our distance from the sun

33

00:01:30,950 --> 00:01:28,159

doesn't change much

34

00:01:33,109 --> 00:01:30,960

today we're about 3 million miles 5

35

00:01:35,510 --> 00:01:33,119

million kilometers farther from the sun

36

00:01:37,270 --> 00:01:35,520

than we will be six months from now

37

00:01:40,230 --> 00:01:37,280

that's in contrast to our average

38

00:01:42,710 --> 00:01:40,240

distance from the sun 93 million miles

39

00:01:45,030 --> 00:01:42,720

150 million kilometers

40

00:01:48,310 --> 00:01:45,040

the word aphelion by the way comes from

41

00:01:51,109 --> 00:01:48,320

the greek word apo meaning away off

42

00:01:52,069 --> 00:01:51,119

apart and helios for the greek god of

43

00:01:57,670 --> 00:01:52,079

the sun

44

00:02:00,630 --> 00:01:57,680

if you're curious about earth's exact

45

00:02:04,270 --> 00:02:00,640

distance from the sun at aphelion well

46

00:02:06,109 --> 00:02:04,280

here we go it's staggering 94

47

00:02:08,430 --> 00:02:06,119

505

48

00:02:13,750 --> 00:02:08,440

901 miles or

49

00:02:17,350 --> 00:02:13,760

152 million 92 505 kilometers

50

00:02:19,830 --> 00:02:17,360

last year on july 4th 2016 the earth at

51
00:02:24,990 --> 00:02:19,840
aphelion was just a little bit farther

52
00:02:28,869 --> 00:02:25,000
than that it was calculated to be 94 512

53
00:02:31,229 --> 00:02:28,879
904 miles or 152

54
00:02:34,869 --> 00:02:31,239
103

55
00:02:37,589 --> 00:02:34,879
775 kilometers so we've got it that the

56
00:02:39,990 --> 00:02:37,599
sun doesn't cause the seasons well what

57
00:02:42,630 --> 00:02:40,000
does according to bruce mcclure who

58
00:02:45,110 --> 00:02:42,640
writes this for earthsky.org it's not a

59
00:02:47,430 --> 00:02:45,120
distance thing we're always farther from

60
00:02:49,990 --> 00:02:47,440
the sun in early july during northern

61
00:02:53,589 --> 00:02:50,000
summer and closest in january during

62
00:02:55,430 --> 00:02:53,599
northern winter it's a tilt thing

63
00:02:57,670 --> 00:02:55,440

right now it's summer in the northern

64

00:03:00,630 --> 00:02:57,680

hemisphere because the northern part of

65

00:03:03,030 --> 00:03:00,640

earth is tilted the most toward the sun

66

00:03:04,949 --> 00:03:03,040

and meanwhile it's winter down in the

67

00:03:07,509 --> 00:03:04,959

southern hemisphere because the southern

68

00:03:08,710 --> 00:03:07,519

part of earth is tilted most away from

69

00:03:12,949 --> 00:03:08,720

the sun

70

00:03:14,630 --> 00:03:12,959

does affect the length of the seasons

71

00:03:16,869 --> 00:03:14,640

though and that's because at our

72

00:03:19,910 --> 00:03:16,879

farthest from the sun like now for

73

00:03:21,350 --> 00:03:19,920

instance earth is traveling most slowly

74

00:03:24,070 --> 00:03:21,360

in its orbit

75

00:03:26,390 --> 00:03:24,080

that makes summer the longest season in

76
00:03:28,470 --> 00:03:26,400
the northern hemisphere and winter the

77
00:03:29,509 --> 00:03:28,480
longest season on the southern half of

78
00:03:32,149 --> 00:03:29,519
the globe

79
00:03:34,470 --> 00:03:32,159
conversely winter then is the shortest

80
00:03:36,070 --> 00:03:34,480
season in the northern hemisphere summer

81
00:03:38,710 --> 00:03:36,080
is the shortest in the southern

82
00:03:40,390 --> 00:03:38,720
hemisphere in each instance by nearly

83
00:03:43,270 --> 00:03:40,400
five days

84
00:03:46,710 --> 00:03:43,280
the bottom line planet earth reaches its

85
00:03:49,350 --> 00:03:46,720
most distant point from the sun for 2017

86
00:03:51,509 --> 00:03:49,360
today july 3rd astronomers call this

87
00:03:53,030 --> 00:03:51,519
yearly point in earth's orbit our

88
00:03:55,350 --> 00:03:53,040

aphelion

89

00:03:57,990 --> 00:03:55,360

and wherever you dwell on planet earth

90

00:04:00,550 --> 00:03:58,000

we hope you have a sunny day

91

00:04:03,589 --> 00:04:00,560

things seemed pretty sunny over at space

92

00:04:05,830 --> 00:04:03,599

tech today here's the headline spacex's

93

00:04:08,470 --> 00:04:05,840

first reflight dragon capsule

94

00:04:10,390 --> 00:04:08,480

successfully returns to earth

95

00:04:11,910 --> 00:04:10,400

daryl etherington writes this for

96

00:04:14,630 --> 00:04:11,920

techcrunch

97

00:04:17,909 --> 00:04:14,640

spacex has another historic achievement

98

00:04:19,670 --> 00:04:17,919

under its belt being first to re-fly a

99

00:04:22,550 --> 00:04:19,680

commercial spacecraft to the

100

00:04:25,030 --> 00:04:22,560

international space station and back the

101
00:04:27,909 --> 00:04:25,040
dragon capsule that it used on its most

102
00:04:30,150 --> 00:04:27,919
recent iss resupply mission was used

103
00:04:32,469 --> 00:04:30,160
during a previous trip to ferry supplies

104
00:04:35,350 --> 00:04:32,479
and materials for scientific experiments

105
00:04:37,670 --> 00:04:35,360
to that orbital facility this dragon

106
00:04:40,629 --> 00:04:37,680
capsule originally launched in september

107
00:04:43,350 --> 00:04:40,639
of 2014 before being refurbished and

108
00:04:44,870 --> 00:04:43,360
used again on june 3rd

109
00:04:47,270 --> 00:04:44,880
after docking with the international

110
00:04:49,510 --> 00:04:47,280
space station around 36 hours after

111
00:04:51,670 --> 00:04:49,520
launch the spacecraft spent about a

112
00:04:54,390 --> 00:04:51,680
month at the station where astronauts

113
00:04:56,629 --> 00:04:54,400

unloaded its payload gradually

114

00:04:59,350 --> 00:04:56,639

early monday the dragon capsule

115

00:05:02,070 --> 00:04:59,360

decoupled from the iss and made three

116

00:05:04,469 --> 00:05:02,080

departure burns to begin its de-orbit

117

00:05:06,790 --> 00:05:04,479

then a few hours later it completed its

118

00:05:09,189 --> 00:05:06,800

de-orbit burn re-entered earth's

119

00:05:11,590 --> 00:05:09,199

atmosphere and deployed its shoots

120

00:05:14,710 --> 00:05:11,600

splashing down as planned in the pacific

121

00:05:15,749 --> 00:05:14,720

ocean around 8 14 a.m eastern daylight

122

00:05:18,150 --> 00:05:15,759

time

123

00:05:19,990 --> 00:05:18,160

the good splashdown is another big win

124

00:05:22,390 --> 00:05:20,000

for spacex's vision of reusable

125

00:05:24,230 --> 00:05:22,400

spacecraft which will help decrease the

126
00:05:25,590 --> 00:05:24,240
costs of commercial space operations

127
00:05:27,749 --> 00:05:25,600
dramatically

128
00:05:31,749 --> 00:05:27,759
spacex had to cancel a launch attempt on

129
00:05:33,510 --> 00:05:31,759
sunday for its intel 35e mission but it

130
00:05:35,909 --> 00:05:33,520
says they're going to have another

131
00:05:39,830 --> 00:05:35,919
launch window today that will open at 7

132
00:05:41,990 --> 00:05:39,840
37 pm eastern daylight time we'll be

133
00:05:44,629 --> 00:05:42,000
watching this story for updates here at

134
00:05:47,189 --> 00:05:44,639
inception radio network on ufo headline

135
00:05:49,270 --> 00:05:47,199
news we'll keep you in the loop

136
00:05:51,430 --> 00:05:49,280
speaking of loops we're pretty sure

137
00:05:53,990 --> 00:05:51,440
you're all holding your breaths for an

138
00:05:55,270 --> 00:05:54,000

update on that chicken sandwich in the

139

00:05:57,670 --> 00:05:55,280

stratosphere

140

00:06:00,150 --> 00:05:57,680

yep we covered it for off the beaten

141

00:06:03,029 --> 00:06:00,160

path our weekend feature here at ufo

142

00:06:06,150 --> 00:06:03,039

headline news on inception radio network

143

00:06:08,710 --> 00:06:06,160

and so here goes the update this is

144

00:06:11,189 --> 00:06:08,720

written by mike wow he's the senior

145

00:06:14,309 --> 00:06:11,199

editor at space.com

146

00:06:16,710 --> 00:06:14,319

the chicken has landed a little earlier

147

00:06:19,590 --> 00:06:16,720

than planned there's a company called

148

00:06:22,950 --> 00:06:19,600

worldview enterprises they use their

149

00:06:25,510 --> 00:06:22,960

stratospheric balloon it's cargo a

150

00:06:27,909 --> 00:06:25,520

kentucky fried chicken chicken sandwich

151

00:06:31,350 --> 00:06:27,919

called the zinger it touched down

152

00:06:33,590 --> 00:06:31,360

yesterday june 30 about 17 hours after

153

00:06:35,110 --> 00:06:33,600

taking off according to world view

154

00:06:37,350 --> 00:06:35,120

representatives

155

00:06:39,510 --> 00:06:37,360

the flight the first planned long

156

00:06:41,830 --> 00:06:39,520

duration mission of world view's

157

00:06:44,309 --> 00:06:41,840

uncrewed stratelite vehicle was

158

00:06:46,629 --> 00:06:44,319

scheduled to last four days but

159

00:06:48,629 --> 00:06:46,639

controllers ended it early due to a

160

00:06:51,350 --> 00:06:48,639

small leak in one of the company's

161

00:06:53,909 --> 00:06:51,360

innovative new altitude control balloon

162

00:06:57,430 --> 00:06:53,919

systems end quotes that's from jane

163

00:07:00,070 --> 00:06:57,440

poynter she's the ceo for world view

164

00:07:02,230 --> 00:07:00,080

she said quote that said we are

165

00:07:04,309 --> 00:07:02,240

extremely pleased with the results of

166

00:07:06,390 --> 00:07:04,319

the mission many of these systems were

167

00:07:09,110 --> 00:07:06,400

flown for the very first time and tested

168

00:07:11,430 --> 00:07:09,120

together simultaneously pending an

169

00:07:13,510 --> 00:07:11,440

analysis of large amounts of flight data

170

00:07:15,430 --> 00:07:13,520

and key learnings from this mission

171

00:07:17,589 --> 00:07:15,440

worldview plans to launch additional

172

00:07:20,309 --> 00:07:17,599

satellite test missions with increasing

173

00:07:21,430 --> 00:07:20,319

flight duration in the near future end

174

00:07:23,909 --> 00:07:21,440

quotes

175

00:07:28,150 --> 00:07:23,919

the stratolite is designed to operate at

176

00:07:31,909 --> 00:07:28,160

altitudes up to 28.5 miles or 45.8

177

00:07:34,390 --> 00:07:31,919

kilometers for weeks or months at a time

178

00:07:36,629 --> 00:07:34,400

the vehicle allows researchers access to

179

00:07:38,950 --> 00:07:36,639

a hard to study region that's higher

180

00:07:40,870 --> 00:07:38,960

than most airplanes can reach but too

181

00:07:43,670 --> 00:07:40,880

low for satellites

182

00:07:46,629 --> 00:07:43,680

the balloon whose name is a portmanteau

183

00:07:49,189 --> 00:07:46,639

of stratosphere and satellite can travel

184

00:07:51,670 --> 00:07:49,199

long distances through the atmosphere or

185

00:07:54,390 --> 00:07:51,680

hover over the same spot on earth for

186

00:07:56,390 --> 00:07:54,400

extended periods customers will be able

187

00:07:58,869 --> 00:07:56,400

to use satellites for a variety of

188

00:08:01,350 --> 00:07:58,879

purposes everything from earth imaging

189

00:08:03,589 --> 00:08:01,360

sandwich kfc representatives have built

194

00:08:15,749 --> 00:08:13,360

this mission as a trip to space but

195

00:08:18,070 --> 00:08:15,759

strata lights don't get that high

196

00:08:21,510 --> 00:08:18,080

the boundary line for space is generally

197

00:08:23,830 --> 00:08:21,520

regarded to lie 62 miles 100 kilometers

198

00:08:25,909 --> 00:08:23,840

above earth's surface

199

00:08:28,469 --> 00:08:25,919

arizona-based worldview is also

200

00:08:31,749 --> 00:08:28,479

developing something it's a balloon with

201
00:08:33,990 --> 00:08:31,759
a crew a system called voyager it's

202
00:08:37,589 --> 00:08:34,000
designed to take paying customers to an

203
00:08:39,589 --> 00:08:37,599
altitude of about 20 miles 32 kilometers

204
00:08:42,230 --> 00:08:39,599
seats aboard a voyager mission which

205
00:08:44,870 --> 00:08:42,240
will give passengers a view of earth's

206
00:08:47,110 --> 00:08:44,880
curvature against the blackness of space

207
00:08:49,430 --> 00:08:47,120
without the rigors of a rocket launch

208
00:08:51,670 --> 00:08:49,440
well those tickets are currently selling

209
00:08:53,030 --> 00:08:51,680
for 75 000

210
00:08:54,630 --> 00:08:53,040
apiece

211
00:08:57,350 --> 00:08:54,640
we have a guess about what they'll be

212
00:09:00,070 --> 00:08:57,360
serving for lunch

213
00:09:02,630 --> 00:09:00,080

it's not lunch but it's very tasty it's

214

00:09:04,630 --> 00:09:02,640

an article it's part one a series of

215

00:09:07,590 --> 00:09:04,640

three and you can bet you'll hear them

00:09:10,550 --> 00:09:07,600

all right here at ufo headline news

217

00:09:14,470 --> 00:09:10,560

three the title project blue book

222

00:09:27,829 --> 00:09:24,720

origins

223

00:09:30,949 --> 00:09:27,839

back on may 25th of this year a news

224

00:09:32,870 --> 00:09:30,959

item in variety magazine announced that

225

00:09:35,350 --> 00:09:32,880

famed director robert zemeckis had

226

00:09:37,990 --> 00:09:35,360

teamed up with a and e they're going to

227

00:09:39,910 --> 00:09:38,000

produce a 10 episode drama series about

228

00:09:40,870 --> 00:09:39,920

project blue book for the history

channel

230

00:09:46,470 --> 00:09:43,440

for those unfamiliar with blue book it

231

00:09:48,070 --> 00:09:46,480

was an air force's effort from 1952 to

232

00:09:50,310 --> 00:09:48,080

1969

233

00:09:53,269 --> 00:09:50,320

charged with the responsibility to

234

00:09:55,750 --> 00:09:53,279

investigate reports of unidentified

235

00:09:58,790 --> 00:09:55,760

flying objects let's take a brief look

236

00:10:00,150 --> 00:09:58,800

at the convoluted origins of project

237

00:10:02,949 --> 00:10:00,160

blue book

238

00:10:05,030 --> 00:10:02,959

it began with project sign

239

00:10:07,509 --> 00:10:05,040

during world war ii numerous bomber

240

00:10:10,310 --> 00:10:07,519

crews reported seeing luminous balls and

241

00:10:11,829 --> 00:10:10,320

discs in the air in their airspace while

242

00:10:13,829 --> 00:10:11,839

flying missions

243

00:10:16,949 --> 00:10:13,839

these unknown high-performance flying

244

00:10:19,030 --> 00:10:16,959

objects became known as foo fighters

245

00:10:21,190 --> 00:10:19,040

the army air force's investigative

246

00:10:24,150 --> 00:10:21,200

effort into foo fighters was the very

247

00:10:26,870 --> 00:10:24,160

first by intelligence officers into the

248

00:10:30,310 --> 00:10:26,880

mysterious topic of ufos

249

00:10:33,430 --> 00:10:30,320

in 1947 the air force separated from the

250

00:10:36,750 --> 00:10:33,440

army and became a branch unto itself

251
00:10:39,430 --> 00:10:36,760
that same year air material command at

252
00:10:41,110 --> 00:10:39,440
wright-patterson airfield received

253
00:10:43,190 --> 00:10:41,120
orders to direct the technical

254
00:10:46,470 --> 00:10:43,200
intelligence division to conduct a

255
00:10:48,389 --> 00:10:46,480
classified inquiry into ufos

256
00:10:50,949 --> 00:10:48,399
the principal reason was the air force

257
00:10:52,710 --> 00:10:50,959
had taken a keen interest in ufos

258
00:10:54,949 --> 00:10:52,720
because they'd been frequently observed

259
00:10:57,269 --> 00:10:54,959
near various sensitive military

260
00:10:59,990 --> 00:10:57,279
facilities in the southwest

261
00:11:03,430 --> 00:11:00,000
in addition during june and july of that

262
00:11:05,829 --> 00:11:03,440
year ufo reports came in from over 38

263
00:11:07,110 --> 00:11:05,839

states and were widely reported in the

264

00:11:12,550 --> 00:11:07,120

press

265

00:11:15,190 --> 00:11:12,560

major general lc craigie that spell c r

266

00:11:17,269 --> 00:11:15,200

c-r-a-i-g-i-e

267

00:11:19,910 --> 00:11:17,279

director of research and development for

268

00:11:22,790 --> 00:11:19,920

the air force directed the establishment

269

00:11:23,829 --> 00:11:22,800

of a research group codenamed project

270

00:11:25,910 --> 00:11:23,839

sign

271

00:11:27,990 --> 00:11:25,920

after eight months of interviewing

272

00:11:31,030 --> 00:11:28,000

highly credible witnesses conducting

273

00:11:33,910 --> 00:11:31,040

investigations and analyzing the data it

274

00:11:35,590 --> 00:11:33,920

was time to report some findings

275

00:11:37,670 --> 00:11:35,600

the technical intelligence division at

276

00:11:40,710 --> 00:11:37,680

wright-patterson air force base in

277

00:11:43,829 --> 00:11:40,720

concert with personnel from project sign

278

00:11:46,230 --> 00:11:43,839

decided to author the estimate of the

279

00:11:48,949 --> 00:11:46,240

situation document

280

00:11:52,389 --> 00:11:48,959

that's estimate with an uppercase e and

281

00:11:54,870 --> 00:11:52,399

situation with an uppercase s

282

00:11:57,190 --> 00:11:54,880

by all accounts the top secret document

283

00:11:58,829 --> 00:11:57,200

allegedly concluded that some of the

284

00:12:01,269 --> 00:11:58,839

ufos were of

285

00:12:03,910 --> 00:12:01,279

extraterrestrial origin

286

00:12:06,389 --> 00:12:03,920

these conclusions did not sit well with

287

00:12:09,190 --> 00:12:06,399

air force chief of staff general hoyt s

288

00:12:12,389 --> 00:12:09,200

vandenberg who was reported to have

289

00:12:14,949 --> 00:12:12,399

rejected the estimate of the situation

290

00:12:16,870 --> 00:12:14,959

findings it is alleged that all copies

291

00:12:18,230 --> 00:12:16,880

of this report were subsequently

292

00:12:21,430 --> 00:12:18,240

destroyed

293

00:12:23,190 --> 00:12:21,440

and then along comes project grudge

294

00:12:25,670 --> 00:12:23,200

it's been cheryl costa's observation

295

00:12:27,750 --> 00:12:25,680

that military generals who aren't happy

296

00:12:30,310 --> 00:12:27,760

about the performance of a unit or

297

00:12:33,110 --> 00:12:30,320

perhaps the results of a project

298

00:12:35,269 --> 00:12:33,120

frequently clean house of at least key

299

00:12:38,629 --> 00:12:35,279

command personnel and sometimes there's

300

00:12:40,870 --> 00:12:38,639

a clean sweep within the ranks general

301
00:12:42,790 --> 00:12:40,880
vandenberg being less than happy or

302
00:12:45,110 --> 00:12:42,800
confident with the results of project

303
00:12:46,310 --> 00:12:45,120
sign ordered a massive change in

304
00:12:48,310 --> 00:12:46,320
personnel

305
00:12:50,949 --> 00:12:48,320
the replacement staff had a new set of

306
00:12:53,269 --> 00:12:50,959
operating principles simply that all

307
00:12:56,230 --> 00:12:53,279
these ufo reports could be explained in

308
00:12:58,710 --> 00:12:56,240
realistic and conventional terms

309
00:13:03,350 --> 00:12:58,720
the new unit was renamed in february

310
00:13:05,509 --> 00:13:03,360
1949 that new code name project grudge

311
00:13:07,750 --> 00:13:05,519
the project grudge team also put forth

312
00:13:10,590 --> 00:13:07,760
the concern that an enemy could release

313
00:13:13,110 --> 00:13:10,600

strange aerial objects augmented with

314

00:13:15,030 --> 00:13:13,120

psychological propaganda

315

00:13:17,350 --> 00:13:15,040

the effect of an enemy action like this

316

00:13:19,030 --> 00:13:17,360

they proposed could be used to generate

317

00:13:21,190 --> 00:13:19,040

mass hysteria

318

00:13:23,190 --> 00:13:21,200

the pentagon's office of psychological

319

00:13:25,590 --> 00:13:23,200

warfare confirmed this notion of

320

00:13:28,550 --> 00:13:25,600

psychological warfare to induce war

321

00:13:30,150 --> 00:13:28,560

nerves and mass fear among the civilian

322

00:13:33,269 --> 00:13:30,160

population

323

00:13:36,230 --> 00:13:33,279

as a secret ufo investigation military

324

00:13:38,550 --> 00:13:36,240

entity project grudge didn't do much

325

00:13:41,350 --> 00:13:38,560

better than project sign in getting to

326

00:13:44,069 --> 00:13:41,360

the bottom of the ufo phenomena

327

00:13:46,069 --> 00:13:44,079

the unit only lasted about eight months

328

00:13:49,030 --> 00:13:46,079

in the final report of their ufo

329

00:13:52,470 --> 00:13:49,040

investigations it listed ufo sighting

330

00:13:54,470 --> 00:13:52,480

reports totaling 273.

331

00:13:57,430 --> 00:13:54,480

despite project grudge's policy that

332

00:14:00,949 --> 00:13:57,440

ufos are just misidentified conventional

333

00:14:02,710 --> 00:14:00,959

objects hysteria war nerves hoaxes and

334

00:14:05,670 --> 00:14:02,720

deranged persons

335

00:14:10,310 --> 00:14:05,680

their final report listed 23

336

00:14:13,350 --> 00:14:10,320

or 63 cases as quote unidentified

337

00:14:15,670 --> 00:14:13,360

stay tuned this was part one of three

338

00:14:18,069 --> 00:14:15,680

374

00:15:47,509 --> 00:15:45,360

the witness observed the three

375

00:15:49,590 --> 00:15:47,519

rectangles moving

376

00:15:52,470 --> 00:15:49,600

quote the three bars of light moved

377

00:15:53,829 --> 00:15:52,480

smoothly in a horizontal fashion end

378

00:15:56,550 --> 00:15:53,839

quotes

379

00:15:58,150 --> 00:15:56,560

eventually all three lights formed a

380

00:16:00,389 --> 00:15:58,160

single light

381

00:16:03,509 --> 00:16:00,399

quote the lights on the left and right

382

00:16:05,990 --> 00:16:03,519

joined or moved and joined the center

383

00:16:07,590 --> 00:16:06,000

light and then they blinked out there

384

00:16:10,550 --> 00:16:07,600

was nothing there

385

00:16:13,670 --> 00:16:10,560

after the sky being brightly lit by big

386

00:16:15,910 --> 00:16:13,680

orange red forms end quotes

387

00:16:18,310 --> 00:16:15,920

idaho mufon assistant state director

388

00:16:20,710 --> 00:16:18,320

james millard investigated this case he

389

00:16:22,710 --> 00:16:20,720

closed it as an unknown

390

00:16:24,710 --> 00:16:22,720

the witness did include an illustration

391

00:16:26,150 --> 00:16:24,720

with that report you can check that out

392

00:16:29,030 --> 00:16:26,160

for yourselves later at

393

00:16:31,269 --> 00:16:29,040

ufoheadlinenews.com

394

00:16:33,990 --> 00:16:31,279

here's a snippet of a story from the

395

00:16:36,790 --> 00:16:34,000

yorkshire post out of the united kingdom

396

00:16:40,069 --> 00:16:36,800

it seems a ufo investigator has captured

397

00:16:43,430 --> 00:16:40,079

footage of mysterious dancing lights in

398

00:16:46,870 --> 00:16:43,440

the night sky over yorkshire headline is

399

00:16:50,629 --> 00:16:46,880

this a ufo over yorkshire footage shows

400

00:16:52,790 --> 00:16:50,639

unexplained crazy dancing lights

401
00:16:55,509 --> 00:16:52,800
the strange phenomenon appears to show a

402
00:16:58,629 --> 00:16:55,519
light moving in circular motions in the

403
00:17:00,389 --> 00:16:58,639
sky over bolton abbey north yorkshire

404
00:17:02,629 --> 00:17:00,399
but the lights are apparently visible

405
00:17:03,749 --> 00:17:02,639
across a larger section of the country

406
00:17:05,829 --> 00:17:03,759
as well

407
00:17:08,069 --> 00:17:05,839
the man who captured the footage is

408
00:17:10,870 --> 00:17:08,079
remaining anonymous and here's what he

409
00:17:12,789 --> 00:17:10,880
said quote they are very visible they're

410
00:17:14,630 --> 00:17:12,799
literally everywhere

411
00:17:17,350 --> 00:17:14,640
i'm going out again tonight to bolton

412
00:17:19,270 --> 00:17:17,360
abbey i'm only using my phone

413
00:17:21,750 --> 00:17:19,280

if you have a decent enough camera

414

00:17:24,150 --> 00:17:21,760

you'll pick up a lot more it's been

415

00:17:25,750 --> 00:17:24,160

three days in a row that i've seen these

416

00:17:27,110 --> 00:17:25,760

things it doesn't look like they're

417

00:17:29,669 --> 00:17:27,120

going away

418

00:17:33,270 --> 00:17:29,679

i understand how crazy this sounds but

419

00:17:36,630 --> 00:17:33,280

honestly check it out the story ends by

420

00:17:39,350 --> 00:17:36,640

asking so what exactly are these crazy

421

00:17:41,950 --> 00:17:39,360

dancing lights and have you seen them

422

00:17:44,230 --> 00:17:41,960

and there will be links later at

423

00:17:46,470 --> 00:17:44,240

ufoheadlinenews.com gentlelisteners if

424

00:17:47,750 --> 00:17:46,480

you've seen them and you want to comment

425

00:17:49,190 --> 00:17:47,760

about them

426

00:17:52,070 --> 00:17:49,200

crazy

427

00:17:53,909 --> 00:17:52,080

hang on now our trajectory will shift

428

00:17:56,710 --> 00:17:53,919

dramatically we're heading down to

429

00:17:59,430 --> 00:17:56,720

panama city panama for this sighting we

430

00:18:01,510 --> 00:17:59,440

picked it up from newfork the national

431

00:18:04,710 --> 00:18:01,520

ufo reporting center

432

00:18:06,870 --> 00:18:04,720

this occurred on the 18th of june 2017.

433

00:18:09,270 --> 00:18:06,880

it got a same-day report

434

00:18:11,270 --> 00:18:09,280

the shape of this object was oval and it

435

00:18:12,630 --> 00:18:11,280

was watched by the reporting witness for

436

00:18:15,350 --> 00:18:12,640

one hour

437

00:18:18,549 --> 00:18:15,360

here's the account brightly lit

438

00:18:20,390 --> 00:18:18,559

almond-shaped craft static in the sky in

439

00:18:23,190 --> 00:18:20,400

panama city

440

00:18:25,510 --> 00:18:23,200

an almond or oval-shaped craft was

441

00:18:28,150 --> 00:18:25,520

observed in a direction where no such

442

00:18:31,669 --> 00:18:28,160

object has been observed for a whole two

443

00:18:34,070 --> 00:18:31,679

years before june 18 2017

444

00:18:36,230 --> 00:18:34,080

its proximity to buildings provided

445

00:18:37,510 --> 00:18:36,240

reference points that the craft was

446

00:18:39,750 --> 00:18:37,520

static

447

00:18:42,789 --> 00:18:39,760

the object generated its own energy

448

00:18:45,029 --> 00:18:42,799

source as it was brightly lit

449

00:18:47,110 --> 00:18:45,039

its appearance recalled to me a previous

450

00:18:48,230 --> 00:18:47,120

sighting in early childhood in south

451
00:18:50,070 --> 00:18:48,240
america

452
00:18:52,230 --> 00:18:50,080
this was observed by the entire

453
00:18:55,510 --> 00:18:52,240
neighborhood and it also featured an

454
00:18:58,549 --> 00:18:55,520
object being similarly lit in that south

455
00:19:00,549 --> 00:18:58,559
america sighting the object sat up high

456
00:19:01,750 --> 00:19:00,559
in the sky slightly higher than the

457
00:19:04,789 --> 00:19:01,760
horizon

458
00:19:07,510 --> 00:19:04,799
this craft was located much higher up

459
00:19:09,510 --> 00:19:07,520
possibly in the earth's upper atmosphere

460
00:19:12,230 --> 00:19:09,520
but it was far closer than a satellite

461
00:19:13,430 --> 00:19:12,240
would have been and again it did not

462
00:19:15,270 --> 00:19:13,440
move

463
00:19:18,789 --> 00:19:15,280

stars that evening were also seen

464

00:19:20,630 --> 00:19:18,799

clearly they looked like distant dots

465

00:19:23,350 --> 00:19:20,640

this object also appeared to have a

466

00:19:25,990 --> 00:19:23,360

rod-like shaft of light sticking

467

00:19:27,590 --> 00:19:26,000

downward out of its belly it's not

468

00:19:31,110 --> 00:19:27,600

possible to tell whether this was a

469

00:19:33,430 --> 00:19:31,120

light beam or a solid part of this craft

470

00:19:36,150 --> 00:19:33,440

the general impression was similar to

471

00:19:39,110 --> 00:19:36,160

the flight of a wasp except this object

472

00:19:42,390 --> 00:19:39,120

didn't move because the craft's shape

473

00:19:45,830 --> 00:19:42,400

was elongated it was wasp-like and it

474

00:19:47,669 --> 00:19:45,840

could well have been a transport vehicle

475

00:19:51,270 --> 00:19:47,679

it was too far up in the sky to make out

476
00:19:53,270 --> 00:19:51,280
any occupants it looked rather large

477
00:19:55,430 --> 00:19:53,280
the observer does not know how long the

478
00:19:57,590 --> 00:19:55,440
object remained in place as it was only

479
00:19:59,750 --> 00:19:57,600
seen for an hour after which the

480
00:20:01,590 --> 00:19:59,760
observing person went to bed

481
00:20:04,390 --> 00:20:01,600
the observer has seen craft with the

482
00:20:07,029 --> 00:20:04,400
naked eye twice before but never in this

483
00:20:08,630 --> 00:20:07,039
area of the country this object could

484
00:20:12,390 --> 00:20:08,640
certainly be described as having the

485
00:20:14,310 --> 00:20:12,400
broad characteristics of similar ufos

486
00:20:17,029 --> 00:20:14,320
the reporting observer went out the next

487
00:20:19,430 --> 00:20:17,039
evening and ascertained that no such

488
00:20:21,190 --> 00:20:19,440

object could be seen that night in the

489

00:20:24,150 --> 00:20:21,200

clear night sky

490

00:20:26,630 --> 00:20:24,160

the object had vanished that's always

491

00:20:29,190 --> 00:20:26,640

wise check the next night the planets

492

00:20:32,630 --> 00:20:29,200

the stars ought to be in pretty much the

493

00:20:36,070 --> 00:20:32,640

same location so that thing if it's gone

494

00:20:37,590 --> 00:20:36,080

well it wasn't a planet or a star

495

00:20:40,149 --> 00:20:37,600

we're seeing a bright light in the

496

00:20:42,710 --> 00:20:40,159

distance oh that's our time signal

497

00:20:44,630 --> 00:20:42,720

signaling us we're out of time we've

498

00:20:47,029 --> 00:20:44,640

gotta fly because

499

00:20:49,750 --> 00:20:47,039

that's a wrap thank you for listening to

500

00:20:52,710 --> 00:20:49,760

inception radio network follow today's

501

00:20:54,630 --> 00:20:52,720
