

# UFO Headline News Wednesday July 5th, 2017

Listen on

[inceptionradionetwork.com](http://inceptionradionetwork.com)

1  
00:00:07,369 --> 00:00:04,370  
hello it's Wednesday July 5th 2017 you

2  
00:00:10,040 --> 00:00:07,379  
are listening to inception Radio Network

3  
00:00:15,860 --> 00:00:10,050  
voice of the fringe majority this is

4  
00:00:17,450 --> 00:00:15,870  
Carol Karl with UFO headline news we

5  
00:00:20,240 --> 00:00:17,460  
thought it might be fun before we bring

6  
00:00:21,710 --> 00:00:20,250  
you tonight's Skywatch forecast - here's

7  
00:00:23,660 --> 00:00:21,720  
something about one of the people who

8  
00:00:26,330 --> 00:00:23,670  
brings us this great information

9  
00:00:28,790 --> 00:00:26,340  
it's Bruce McClure he served as lead

10  
00:00:31,849 --> 00:00:28,800  
writer for Earth's skies popular tonight

11  
00:00:35,389 --> 00:00:31,859  
pages since 2004 we've been reading them

12  
00:00:37,790 --> 00:00:35,399  
here on the UFO headline news since 2014

13  
00:00:40,430 --> 00:00:37,800

roughly rose McClure is a Sun Dial

14

00:00:42,440 --> 00:00:40,440

aficionado whose love for the heavens

15

00:00:44,510 --> 00:00:42,450

has taken him to Lake Titicaca in

16

00:00:47,000 --> 00:00:44,520

Bolivia and sailing in the North

17

00:00:48,920 --> 00:00:47,010

Atlantic where he earned his celestial

18

00:00:51,350 --> 00:00:48,930

navigation certificate through the

19

00:00:53,689 --> 00:00:51,360

school of ocean sailing and navigation

20

00:00:55,970 --> 00:00:53,699

he also writes and hosts public

21

00:00:58,400 --> 00:00:55,980

astronomy programs and planetarium

22

00:01:00,709 --> 00:00:58,410

programs in and around his home in

23

00:01:03,260 --> 00:01:00,719

upstate New York so let's hear what

24

00:01:06,710 --> 00:01:03,270

Bruce McClure has to offer us tonight in

25

00:01:08,899 --> 00:01:06,720

our skies he suggests let the bright

26  
00:01:12,080 --> 00:01:08,909  
waxing gibbous moon guide you to the

27  
00:01:14,030 --> 00:01:12,090  
star and Taurus and planet Saturn he

28  
00:01:15,890 --> 00:01:14,040  
expects both Antares and Saturn to be

29  
00:01:19,070 --> 00:01:15,900  
bright enough to overcome tonight's

30  
00:01:21,200 --> 00:01:19,080  
lunar glare from that pesky moon the

31  
00:01:23,810 --> 00:01:21,210  
constellation Scorpius the Scorpion

32  
00:01:26,270 --> 00:01:23,820  
might offer a little difficulty making

33  
00:01:28,520 --> 00:01:26,280  
out that fishhook shape tonight but the

34  
00:01:30,170 --> 00:01:28,530  
moon will drop out of the evening sky by

35  
00:01:32,690 --> 00:01:30,180  
the middle of this month and then you

36  
00:01:35,690 --> 00:01:32,700  
can see Scorpius the scorpion in all its

37  
00:01:38,569 --> 00:01:35,700  
starlit glory but for now use the moon

38  
00:01:41,420 --> 00:01:38,579

to find Antares and Saturn and then let

39

00:01:43,910 --> 00:01:41,430

Antares and Saturn be your guides to the

40

00:01:46,760 --> 00:01:43,920

constellation Scorpius once that moon

41

00:01:49,670 --> 00:01:46,770

has moved onward both ant Aris and

42

00:01:51,499 --> 00:01:49,680

Saturn are first magnitude brightness so

43

00:01:53,690 --> 00:01:51,509

they're still pretty easy to see even on

44

00:01:56,870 --> 00:01:53,700

a moonlit night you can distinguish

45

00:01:59,510 --> 00:01:56,880

Saturn from Antares by color and Horus

46

00:02:01,880 --> 00:01:59,520

shines in a sparkling red issue while

47

00:02:03,830 --> 00:02:01,890

Saturn appears more golden if you have

48

00:02:05,780 --> 00:02:03,840

difficulty discerning the color try

49

00:02:08,410 --> 00:02:05,790

binoculars that should do it

50

00:02:11,510 --> 00:02:08,420

or just wait till the moon moves away

51  
00:02:13,850 --> 00:02:11,520  
because aunt Aris is a star it'll be

52  
00:02:15,950 --> 00:02:13,860  
more apt to twinkle than planets after

53  
00:02:18,770 --> 00:02:15,960  
which typically shines with a steadier

54  
00:02:21,620 --> 00:02:18,780  
light a first magnitude star like

55  
00:02:23,990 --> 00:02:21,630  
Antares tends to Sparkle most wildly

56  
00:02:26,240 --> 00:02:24,000  
when it's close to the horizon and at

57  
00:02:29,000 --> 00:02:26,250  
such times planets can twinkle a bit to

58  
00:02:31,310 --> 00:02:29,010  
Earth's atmosphere of course is what's

59  
00:02:33,170 --> 00:02:31,320  
causing this twinkling and we're looking

60  
00:02:36,470 --> 00:02:33,180  
through more atmosphere in the direction

61  
00:02:39,020 --> 00:02:36,480  
of the horizon than overhead with a

62  
00:02:41,560 --> 00:02:39,030  
telescope even the modest backyard

63  
00:02:42,740 --> 00:02:41,570

variety you can easily see the rings of

64

00:02:47,300 --> 00:02:42,750

Saturn

65

00:02:50,330 --> 00:02:47,310

you'll see why so many sky watching

66

00:02:53,630 --> 00:02:50,340

enthusiasts consider Saturn the jewel of

67

00:02:55,340 --> 00:02:53,640

the solar system because the moon moves

68

00:02:57,560 --> 00:02:55,350

eastward in front of the constellations

69

00:03:00,800 --> 00:02:57,570

of the zodiac look for the moon to pair

70

00:03:04,190 --> 00:03:00,810

up with Saturn July 6th and be east of

71

00:03:07,220 --> 00:03:04,200

Saturn on the day after July 7th so

72

00:03:11,000 --> 00:03:07,230

here's that standard bottom line as soon

73

00:03:13,400 --> 00:03:11,010

as darkness falls on July 5th 2017 watch

74

00:03:18,110 --> 00:03:13,410

for the moon the star and Taurus and

75

00:03:21,770 --> 00:03:18,120

planet Saturn splendid still in the

76

00:03:24,949 --> 00:03:21,780

cosmos science Magog brings us this with

77

00:03:28,190 --> 00:03:24,959

a byline for Daniel Clary Milky Way's

78

00:03:31,820 --> 00:03:28,200

super fast stars may have been fired out

79

00:03:34,490 --> 00:03:31,830

of a nearby galaxy a small number of

80

00:03:37,340 --> 00:03:34,500

stars moving so fast they'll eventually

81

00:03:39,740 --> 00:03:37,350

escape the Milky Way may not come from

82

00:03:42,590 --> 00:03:39,750

our galaxy at all according to a new

83

00:03:45,040 --> 00:03:42,600

study until now scientists have largely

84

00:03:48,080 --> 00:03:45,050

believed that such hypervelocity stars

85

00:03:50,720 --> 00:03:48,090

originated when binary stars get torn

86

00:03:53,030 --> 00:03:50,730

apart by the supermassive black hole at

87

00:03:55,430 --> 00:03:53,040

the center of the Milky Way which

88

00:03:59,120 --> 00:03:55,440

consumes 1 star and flings the other

89

00:04:01,460 --> 00:03:59,130

away at incredible speeds there are

90

00:04:04,190 --> 00:04:01,470

alternative scenarios of course but none

91

00:04:07,460 --> 00:04:04,200

explains why most of the 20 or so

92

00:04:10,190 --> 00:04:07,470

hypervelocity stars found so far are all

93

00:04:13,250 --> 00:04:10,200

in the same area of sky in the vicinity

94

00:04:17,930 --> 00:04:13,260

of Leo and sexton's constellations

95

00:04:21,080 --> 00:04:17,940

that's both s ext ans enter the Sloan

96

00:04:23,029 --> 00:04:21,090

Digital Sky Survey it's provided a team

97

00:04:25,580 --> 00:04:23,039

of astronomers with position and

98

00:04:27,409 --> 00:04:25,590

velocity data as well as computer

99

00:04:30,830 --> 00:04:27,419

simulations of stellar

100

00:04:32,719 --> 00:04:30,840

in the Large Magellanic Cloud that's a

101  
00:04:36,080 --> 00:04:32,729  
small satellite galaxy near the Milky

102  
00:04:38,029 --> 00:04:36,090  
Way also known as the LMC all this

103  
00:04:40,790 --> 00:04:38,039  
information shows that these speeding

104  
00:04:43,550 --> 00:04:40,800  
stars might come from their lower

105  
00:04:46,219 --> 00:04:43,560  
velocity runaway stars can be produced

106  
00:04:49,070 --> 00:04:46,229  
when one half of a binary pair explodes

107  
00:04:52,610 --> 00:04:49,080  
as a supernova blasting its partner away

108  
00:04:55,580 --> 00:04:52,620  
such an event in the LMC which has 10%

109  
00:04:58,070 --> 00:04:55,590  
of the milky way's mass could easily

110  
00:05:00,890 --> 00:04:58,080  
eject it from the satellite galaxy all

111  
00:05:02,899 --> 00:05:00,900  
together and because the Large

112  
00:05:06,499 --> 00:05:02,909  
Magellanic Cloud is orbiting the Milky

113  
00:05:09,499 --> 00:05:06,509

Way at nearly 400 kilometres per second

114

00:05:12,350 --> 00:05:09,509

a star ejected from it could be moving

115

00:05:14,240 --> 00:05:12,360

faster than the 500 kilometers per

116

00:05:17,209 --> 00:05:14,250

second that makes it a hypervelocity

117

00:05:19,909 --> 00:05:17,219

star in the Milky Way the team published

118

00:05:22,459 --> 00:05:19,919

a report today in Monthly Notices of the

119

00:05:24,200 --> 00:05:22,469

Royal Astronomical Society and at the

120

00:05:27,080 --> 00:05:24,210

United Kingdom national astronomy

121

00:05:28,879 --> 00:05:27,090

meeting in Hull England most of the

122

00:05:31,369 --> 00:05:28,889

known hypervelocity stars have

123

00:05:33,950 --> 00:05:31,379

trajectories that would indeed fit this

124

00:05:36,439 --> 00:05:33,960

scenario confirmation will hopefully

125

00:05:38,469 --> 00:05:36,449

come next year when Europe star mapping

126  
00:05:41,719 --> 00:05:38,479  
satellites and they're calling her Gaia

127  
00:05:42,860 --> 00:05:41,729  
publishes its full catalogue the team

128  
00:05:45,469 --> 00:05:42,870  
predict it should find more

129  
00:05:47,990 --> 00:05:45,479  
hypervelocity stars along the past and

130  
00:05:51,079 --> 00:05:48,000  
future orbit of the Large Magellanic

131  
00:05:54,409 --> 00:05:51,089  
Cloud if you'd like to see an image of

132  
00:05:57,320 --> 00:05:54,419  
the LMC the Large Magellanic Cloud you

133  
00:06:01,249 --> 00:05:57,330  
can find that via a link later at UFO

134  
00:06:02,899 --> 00:06:01,259  
headline news dot-com indeed spectacular

135  
00:06:04,579 --> 00:06:02,909  
here's something that definitely

136  
00:06:07,519 --> 00:06:04,589  
shouldn't fall into the category of

137  
00:06:10,159 --> 00:06:07,529  
fear-mongering it's more of an awareness

138  
00:06:13,550 --> 00:06:10,169

kind of thing we picked up this story

139

00:06:16,610 --> 00:06:13,560

from BGR dot-com it gets a byline from

140

00:06:19,159 --> 00:06:16,620

Mike Waner here's the headline NASA has

141

00:06:22,670 --> 00:06:19,169

a plan for preventing asteroid strikes

142

00:06:24,469 --> 00:06:22,680

and it's going to test it the threat of

143

00:06:26,990 --> 00:06:24,479

an asteroid striking earth is pretty

144

00:06:30,140 --> 00:06:27,000

scary but not just in all those ways

145

00:06:31,909 --> 00:06:30,150

Hollywood movies have depicted but human

146

00:06:34,309 --> 00:06:31,919

technology has reached a point where it

147

00:06:37,550 --> 00:06:34,319

might actually be possible for us to

148

00:06:40,010 --> 00:06:37,560

prevent an asteroid impact if we see one

149

00:06:41,190 --> 00:06:40,020

heading in our direction nASA has a

150

00:06:44,100 --> 00:06:41,200

concept for a

151  
00:06:47,390 --> 00:06:44,110  
tool that could do the trick it's called

152  
00:06:49,950 --> 00:06:47,400  
the dart that stands for double asteroid

153  
00:06:52,080 --> 00:06:49,960  
redirection test and the agency is

154  
00:06:54,510 --> 00:06:52,090  
finally moving forward with its plan to

155  
00:06:57,180 --> 00:06:54,520  
design and hopefully build the hardware

156  
00:07:00,540 --> 00:06:57,190  
it needs to save humanity's bacon

157  
00:07:02,690 --> 00:07:00,550  
the idea behind dart is that by spotting

158  
00:07:05,970 --> 00:07:02,700  
a troublesome asteroid well in advance a

159  
00:07:07,950 --> 00:07:05,980  
kinetic impactor could nudge the space

160  
00:07:10,410 --> 00:07:07,960  
rock off its collision course with earth

161  
00:07:13,500 --> 00:07:10,420  
the plan includes sending a spacecraft

162  
00:07:16,290 --> 00:07:13,510  
to the asteroid and impacting it in such

163  
00:07:18,480 --> 00:07:16,300

a way to alter its orbit the spacecraft

164

00:07:20,370 --> 00:07:18,490

wouldn't have to be particularly large

165

00:07:23,760 --> 00:07:20,380

just about the size of a refrigerator

166

00:07:25,500 --> 00:07:23,770

would do because even a small change in

167

00:07:28,680 --> 00:07:25,510

the asteroids trajectory would be

168

00:07:31,950 --> 00:07:28,690

amplified over time and cause it to miss

169

00:07:34,050 --> 00:07:31,960

planet Earth the dart plan is currently

170

00:07:36,090 --> 00:07:34,060

moving from the concept to design phase

171

00:07:39,180 --> 00:07:36,100

and the actual testing of the hardware

172

00:07:42,450 --> 00:07:39,190

is expected to take place in 2024 at

173

00:07:44,550 --> 00:07:42,460

that point here's the plan a dart

174

00:07:46,830 --> 00:07:44,560

spacecraft will be sent to an asteroid

175

00:07:49,620 --> 00:07:46,840

that doesn't pose a threat to earth but

176

00:07:51,870 --> 00:07:49,630

will perform that same task as it would

177

00:07:53,970 --> 00:07:51,880

on a potentially cataclysmic space rock

178

00:07:57,390 --> 00:07:53,980

in order to gauge how well it actually

179

00:07:59,610 --> 00:07:57,400

works and if it does the fear of an

180

00:08:03,050 --> 00:07:59,620

asteroid collision could become a thing

181

00:08:06,330 --> 00:08:03,060

of the past would that not be cool

182

00:08:09,150 --> 00:08:06,340

speaking of cool and past its way back

183

00:08:11,220 --> 00:08:09,160

Wednesday here at UFO headline news will

184

00:08:15,630 --> 00:08:11,230

be going way back to the evening of

185

00:08:18,350 --> 00:08:15,640

October 11th 1973 when two co-workers

186

00:08:21,600 --> 00:08:18,360

had what they called the Pascagoula

187

00:08:23,760 --> 00:08:21,610

abduction we'll go over the principle

188

00:08:27,240 --> 00:08:23,770

players the first two witnesses and

189

00:08:29,760 --> 00:08:27,250

recap that event and then add an update

190

00:08:32,370 --> 00:08:29,770

it turns out that Charlie Hickson and

191

00:08:35,310 --> 00:08:32,380

Calvin Parker weren't the only witnesses

192

00:08:37,920 --> 00:08:35,320

that night speaking of updates here's

193

00:08:40,710 --> 00:08:37,930

the latest on SpaceX attempt to launch

194

00:08:43,170 --> 00:08:40,720

that Falcon 9 rocket journalist James

195

00:08:46,230 --> 00:08:43,180

Dean gets the byline here for Florida

196

00:08:48,630 --> 00:08:46,240

today SpaceX might be ready Wednesday

197

00:08:51,450 --> 00:08:48,640

evening that's tonight for a third

198

00:08:52,800 --> 00:08:51,460

attempt to launch a falcon 9 rocket from

199

00:08:54,930 --> 00:08:52,810

the Kennedy Space Center

200

00:08:57,360 --> 00:08:54,940

it'll be carrying the Intel

201  
00:09:00,330 --> 00:08:57,370  
communication satellite the Air Force

202  
00:09:03,060 --> 00:09:00,340  
has approved a potential liftoff of 7:35

203  
00:09:05,880 --> 00:09:03,070  
p.m. Eastern Daylight Time at the

204  
00:09:09,600 --> 00:09:05,890  
opening of a nearly one hour window over

205  
00:09:11,730 --> 00:09:09,610  
at pad 39a however as of earlier this

206  
00:09:13,800 --> 00:09:11,740  
morning spacex wasn't expected to

207  
00:09:16,470 --> 00:09:13,810  
confirm the mission status and no

208  
00:09:17,490 --> 00:09:16,480  
weather forecast is available as of

209  
00:09:19,590 --> 00:09:17,500  
tuesday afternoon

210  
00:09:21,840 --> 00:09:19,600  
the company hadn't reported the cause of

211  
00:09:24,090 --> 00:09:21,850  
the computer triggered abort that

212  
00:09:26,790 --> 00:09:24,100  
scrubbed Monday's countdown with 10

213  
00:09:28,920 --> 00:09:26,800

seconds left it was a repeat of what

214

00:09:31,380 --> 00:09:28,930

happened Sunday they scrubbed that as

215

00:09:33,600 --> 00:09:31,390

well there was no guarantee launch teams

216

00:09:35,640 --> 00:09:33,610

could identify and fix the problem in

217

00:09:37,440 --> 00:09:35,650

time to proceed with the Wednesday

218

00:09:39,810 --> 00:09:37,450

countdown here's an official statement

219

00:09:41,970 --> 00:09:39,820

from their website quote out of an

220

00:09:44,100 --> 00:09:41,980

abundance of caution SpaceX will be

221

00:09:46,110 --> 00:09:44,110

spending the 4th of July doing a full

222

00:09:48,750 --> 00:09:46,120

review of the rocket and launch pad

223

00:09:52,500 --> 00:09:48,760

systems the next launch opportunity for

224

00:09:56,250 --> 00:09:52,510

Intelsat 35e is now no earlier than

225

00:09:58,020 --> 00:09:56,260

Wednesday and quotes earlier CEO Elon

226  
00:10:00,630 --> 00:09:58,030  
Musk had said the launch would not occur

227  
00:10:03,840 --> 00:10:00,640  
before Wednesday or Thursday to allow

228  
00:10:05,580 --> 00:10:03,850  
time for that necessary review he said

229  
00:10:09,180 --> 00:10:05,590  
quote only one chance to get it right

230  
00:10:10,920 --> 00:10:09,190  
end quotes in taos at the Luxembourg

231  
00:10:13,290 --> 00:10:10,930  
headquartered commercial satellite

232  
00:10:14,970 --> 00:10:13,300  
operator has invested several hundred

233  
00:10:17,640 --> 00:10:14,980  
million dollars in the launch of its

234  
00:10:20,070 --> 00:10:17,650  
fourth epic satellite and they agree

235  
00:10:21,290 --> 00:10:20,080  
with Elon Musk there's only one chance

236  
00:10:24,390 --> 00:10:21,300  
to get it right

237  
00:10:26,460 --> 00:10:24,400  
despite the consecutive scrubs SpaceX is

238  
00:10:28,560 --> 00:10:26,470

still trying to launch its third mission

239

00:10:30,960 --> 00:10:28,570

in less than two weeks which wouldn't be

240

00:10:34,380 --> 00:10:30,970

an impressive achievement because the

241

00:10:37,290 --> 00:10:34,390

rocket is lifting a heavy nearly 15,000

242

00:10:40,140 --> 00:10:37,300

pound satellite to a high orbit no

243

00:10:42,030 --> 00:10:40,150

booster landing will be attempted if the

244

00:10:44,520 --> 00:10:42,040

launch slips into Thursday it would

245

00:10:47,400 --> 00:10:44,530

coincide with another high-profile event

246

00:10:49,680 --> 00:10:47,410

at Kennedy Space Center space industry

247

00:10:52,500 --> 00:10:49,690

heavyweights are expected to descend on

248

00:10:54,600 --> 00:10:52,510

the spaceport to welcome Vice President

249

00:10:56,280 --> 00:10:54,610

Mike Pence who will deliver a speech

250

00:10:58,620 --> 00:10:56,290

inside the vehicle assembly building in

251

00:11:00,930 --> 00:10:58,630

tour the facilities Pence will chair a

252

00:11:02,880 --> 00:11:00,940

newly revived National Space Council a

253

00:11:06,180 --> 00:11:02,890

development president Trump announced

254

00:11:07,750 --> 00:11:06,190

last Friday in a White House ceremony if

255

00:11:10,600 --> 00:11:07,760

you are interested there are

256

00:11:13,150 --> 00:11:10,610

links to more on this story you can find

257

00:11:16,150 --> 00:11:13,160

them later at UFO headline news calm

258

00:11:18,580 --> 00:11:16,160

well it's here part two of three

259

00:11:21,430 --> 00:11:18,590

Cheryl Kostas fascinating series on

260

00:11:23,620 --> 00:11:21,440

Project Blue Book origins she's

261

00:11:25,390 --> 00:11:23,630

publishing this in the Syracuse New

262

00:11:28,950 --> 00:11:25,400

Times here we go

263

00:11:32,470 --> 00:11:28,960

a little after 11 a.m. September 10th

264

00:11:35,320 --> 00:11:32,480

1951 a United States Army radar

265

00:11:38,890 --> 00:11:35,330

stationed at Fort Monmouth detected an

266

00:11:41,110 --> 00:11:38,900

unknown low altitude target the Signal

267

00:11:43,480 --> 00:11:41,120

Corps operator and an Army officer in

268

00:11:46,510 --> 00:11:43,490

the radar clocked that target with an

269

00:11:49,300 --> 00:11:46,520

approximate speed of about 700 miles per

270

00:11:51,400 --> 00:11:49,310

hour the tracking station lost contact

271

00:11:54,940 --> 00:11:51,410

with the high-speed target as it neared

272

00:11:57,100 --> 00:11:54,950

New York City the radar tracking event

273

00:12:00,580 --> 00:11:57,110

resulted in a great deal of interest as

274

00:12:03,400 --> 00:12:00,590

well as somber military trepidations for

275

00:12:07,300 --> 00:12:03,410

in that era military jets didn't fly

276

00:12:09,310 --> 00:12:07,310

anywhere near 700 miles per hour while

277

00:12:10,690 --> 00:12:09,320

there were test aircrafts that had brief

278

00:12:13,000 --> 00:12:10,700

periods of that sort of speed

279

00:12:16,210 --> 00:12:13,010

performance nothing the military had

280

00:12:18,280 --> 00:12:16,220

could fly and maintain that speed this

281

00:12:20,320 --> 00:12:18,290

incident resulted in the Air Force being

282

00:12:23,230 --> 00:12:20,330

severely criticized by the other

283

00:12:25,240 --> 00:12:23,240

branches of the military at issue the

284

00:12:27,550 --> 00:12:25,250

Air Force's dismal handling of

285

00:12:29,290 --> 00:12:27,560

investigations related to a potential

286

00:12:33,970 --> 00:12:29,300

threat to national security

287

00:12:35,470 --> 00:12:33,980

namely UFOs in a knee-jerk reaction to

288

00:12:37,570 --> 00:12:35,480

that threat to national security

289

00:12:39,430 --> 00:12:37,580

criticism the air force appointed

290

00:12:42,910 --> 00:12:39,440

intelligence officer Captain Edward

291

00:12:45,640 --> 00:12:42,920

ruppelt to assume command of the UFO

292

00:12:47,440 --> 00:12:45,650

investigation project this project had

293

00:12:50,410 --> 00:12:47,450

had several names that had gone from

294

00:12:53,950 --> 00:12:50,420

project sign to project grudge and now

295

00:12:56,560 --> 00:12:53,960

enter Project Blue Book Captain Edward

296

00:12:58,990 --> 00:12:56,570

ruppelt took his new task seriously he

297

00:13:00,880 --> 00:12:59,000

put great effort into reorganizing and

298

00:13:04,600 --> 00:13:00,890

streamlining the internal reporting

299

00:13:06,330 --> 00:13:04,610

processes in the spring of 1952 under

300

00:13:09,250 --> 00:13:06,340

Captain rappels guiding hand

301  
00:13:11,620 --> 00:13:09,260  
intelligence officers at all United

302  
00:13:14,230 --> 00:13:11,630  
States air bases were given clearance to

303  
00:13:17,230 --> 00:13:14,240  
file UFO reports to Project Blue Book

304  
00:13:20,050 --> 00:13:17,240  
via normal military communication

305  
00:13:21,759 --> 00:13:20,060  
channels this improved reporting system

306  
00:13:25,660 --> 00:13:21,769  
turned out to be fortuitous

307  
00:13:30,790 --> 00:13:25,670  
in July of 1952 what occurred was the

308  
00:13:34,600 --> 00:13:30,800  
great Washington DC UFO flap from July

309  
00:13:37,809 --> 00:13:34,610  
12th through July 29th Washington DC was

310  
00:13:39,400 --> 00:13:37,819  
inundated with UFO sightings these

311  
00:13:43,239 --> 00:13:39,410  
things flew individually and

312  
00:13:45,160 --> 00:13:43,249  
informations right over the Capitol air

313  
00:13:46,840 --> 00:13:45,170

traffic radar controllers at the

314

00:13:49,869 --> 00:13:46,850

Washington National Airport tracked

315

00:13:53,139 --> 00:13:49,879

distinctive blips on their radar screens

316

00:13:55,150 --> 00:13:53,149

over several consecutive weekends the

317

00:13:57,609 --> 00:13:55,160

nearest Air Force facility was Andrews

318

00:14:00,129 --> 00:13:57,619

Air Force Base but its runways were

319

00:14:02,199 --> 00:14:00,139

under repair at the time the nearest

320

00:14:05,350 --> 00:14:02,209

airbase that could respond was a base in

321

00:14:07,359 --> 00:14:05,360

New Castle Delaware f94 jets were

322

00:14:10,479 --> 00:14:07,369

scrambled to intercept the lights in the

323

00:14:13,389 --> 00:14:10,489

sky and the blips on the radar when the

324

00:14:16,179 --> 00:14:13,399

fighters got into DC airspace the bright

325

00:14:18,489 --> 00:14:16,189

UFO lights had whipped out and the

326

00:14:21,699 --> 00:14:18,499

pilots reported they didn't see anything

327

00:14:24,850 --> 00:14:21,709

of course after the pilots left DC

328

00:14:27,009 --> 00:14:24,860

airspace the UFOs came back and again

329

00:14:30,100 --> 00:14:27,019

appeared on national airports radar

330

00:14:32,379 --> 00:14:30,110

screens on another UFO sighting occasion

331

00:14:35,079 --> 00:14:32,389

scrambled fighter jets chased the

332

00:14:37,419 --> 00:14:35,089

elusive lights Air Force pilot William

333

00:14:40,629 --> 00:14:37,429

Paterson told investigators during a

334

00:14:44,109 --> 00:14:40,639

debriefing quote I was at my maximum

335

00:14:47,319 --> 00:14:44,119

speed but I ceased chasing them because

336

00:14:49,900 --> 00:14:47,329

I saw no chance of overtaking them and

337

00:14:52,539 --> 00:14:49,910

quotes naturally the press had a field

338

00:14:56,319 --> 00:14:52,549

day with the news The Washington Post

339

00:14:59,549 --> 00:14:56,329

headline read saucer outran jet pilot

340

00:15:01,749 --> 00:14:59,559

says Air Force puts lid on inquiry

341

00:15:03,639 --> 00:15:01,759

another newspaper in the District of

342

00:15:06,460 --> 00:15:03,649

Columbia at the time the Washington

343

00:15:09,340 --> 00:15:06,470

Daily News commented on the air force's

344

00:15:12,280 --> 00:15:09,350

lame explanations for the UFO sightings

345

00:15:14,889 --> 00:15:12,290

but recent attempts to explain saucers

346

00:15:18,069 --> 00:15:14,899

as optical illusions have been shaken by

347

00:15:21,999 --> 00:15:18,079

recent radar sightings illusions don't

348

00:15:24,609 --> 00:15:22,009

show up on a radar screen and quotes and

349

00:15:27,909 --> 00:15:24,619

as they say that's all she wrote for

350

00:15:30,009 --> 00:15:27,919

this segment it's part 2 part 3 we will

351  
00:15:32,679 --> 00:15:30,019  
cover right here on UFO headline news

352  
00:15:35,439 --> 00:15:32,689  
calm on inception radio network next

353  
00:15:37,210 --> 00:15:35,449  
Wednesday Oh Cheryl cost a note

354  
00:15:39,429 --> 00:15:37,220  
if you are interested in joining a

355  
00:15:42,460 --> 00:15:39,439  
monthly UFO discussion group in the

356  
00:15:44,379 --> 00:15:42,470  
Onondaga County area of New York drop

357  
00:15:47,229 --> 00:15:44,389  
her an email there will be a link to

358  
00:15:50,259 --> 00:15:47,239  
that UFO headline news dot-com later

359  
00:15:53,409 --> 00:15:50,269  
so the entertainment industry is

360  
00:15:55,389 --> 00:15:53,419  
responding to UFOs in all new kinds of

361  
00:15:56,710 --> 00:15:55,399  
ways here's an article we grabbed from

362  
00:15:59,859 --> 00:15:56,720  
variety.com

363  
00:16:02,859 --> 00:15:59,869

one of the oldest most established trade

364

00:16:06,329 --> 00:16:02,869

paper or publications headline sony

365

00:16:10,119 --> 00:16:06,339

teases Close Encounters of a Third Kind

366

00:16:13,090 --> 00:16:10,129

re-release JD Knapp staff editor gets

367

00:16:16,210 --> 00:16:13,100

the byline here Sony released a brand

368

00:16:18,909 --> 00:16:16,220

new teaser for Close Encounters of the

369

00:16:21,689 --> 00:16:18,919

Third Kind over the long 4th of July

370

00:16:25,389 --> 00:16:21,699

weekend prompting reboot and re-released

371

00:16:28,569 --> 00:16:25,399

speculation but no not so fast a new

372

00:16:31,359 --> 00:16:28,579

website referencing the 1977 original

373

00:16:34,079 --> 00:16:31,369

has also popped up to celebrate the 40th

374

00:16:37,239 --> 00:16:34,089

anniversary of that science fiction film

375

00:16:39,909 --> 00:16:37,249

there's a video entitled this means

376

00:16:42,639 --> 00:16:39,919

something it was uploaded to the Sony

377

00:16:45,519 --> 00:16:42,649

Pictures Entertainment YouTube page on

378

00:16:48,509 --> 00:16:45,529

Monday which just so happens according

379

00:16:51,129 --> 00:16:48,519

to this article to be world UFO date oh

380

00:16:53,499 --> 00:16:51,139

such confusion gentle listeners

381

00:16:57,220 --> 00:16:53,509

apparently the original world UFO day

382

00:17:00,549 --> 00:16:57,230

date was June 24th and then along comes

383

00:17:02,949 --> 00:17:00,559

this year's date July 2nd and now we're

384

00:17:06,789 --> 00:17:02,959

reading according to Variety it was July

385

00:17:09,220 --> 00:17:06,799

1st Monday but back to the story this

386

00:17:12,610 --> 00:17:09,230

new footage features an air traffic

387

00:17:14,730 --> 00:17:12,620

control radar animation it shows it

388

00:17:18,009 --> 00:17:14,740

locating an unidentified flying object

389

00:17:19,600 --> 00:17:18,019

targeting one of its planes while many

390

00:17:21,429 --> 00:17:19,610

fans expected the clip to be an

391

00:17:24,490 --> 00:17:21,439

unofficial announcement of a Close

392

00:17:27,279 --> 00:17:24,500

Encounters reboot or a sequel the studio

393

00:17:29,980 --> 00:17:27,289

actually intends to re-release the film

394

00:17:33,549 --> 00:17:29,990

theatrically for a week this September

395

00:17:36,700 --> 00:17:33,559

the website we are still not alone

396

00:17:39,610 --> 00:17:36,710

dot-com gives believers the opportunity

397

00:17:43,029 --> 00:17:39,620

to sign up for quote updates on UFO

398

00:17:45,279 --> 00:17:43,039

sightings and quotes in actuality it

399

00:17:48,220 --> 00:17:45,289

serves as a source for sci-fi fans to

400

00:17:49,300 --> 00:17:48,230

connect with this marketing campaign the

401  
00:17:50,890 --> 00:17:49,310  
Steven Spielberg's

402  
00:17:53,320 --> 00:17:50,900  
Close Encounters of the Third Kind

403  
00:17:56,260 --> 00:17:53,330  
starred Richard Dreyfuss francois

404  
00:17:58,930 --> 00:17:56,270  
truffaut melinda dylan teri garr bob

405  
00:18:00,610 --> 00:17:58,940  
balaban and kerry Guffey it was

406  
00:18:02,800 --> 00:18:00,620  
originally distributed by Columbia

407  
00:18:05,680 --> 00:18:02,810  
Pictures it was nominated for eight

408  
00:18:08,110 --> 00:18:05,690  
Academy Awards and it won for Best

409  
00:18:09,910 --> 00:18:08,120  
Cinematography and best sound effects

410  
00:18:13,390 --> 00:18:09,920  
editing through special achievement

411  
00:18:14,860 --> 00:18:13,400  
awards the 40th anniversary of Close

412  
00:18:16,780 --> 00:18:14,870  
Encounters of the Third Kind is

413  
00:18:18,880 --> 00:18:16,790

officially November 16th

414

00:18:21,340 --> 00:18:18,890

but the re-release will hit select

415

00:18:24,250 --> 00:18:21,350

theaters for one week starting September

416

00:18:26,560 --> 00:18:24,260

1st and if you've never seen it in a

417

00:18:29,500 --> 00:18:26,570

theater with that theater sound well

418

00:18:31,890 --> 00:18:29,510

maybe you haven't seen it just saying so

419

00:18:35,740 --> 00:18:31,900

save us a seat we'll buy the popcorn

420

00:18:39,210 --> 00:18:35,750

let's pop over to my hope at New York

421

00:18:42,850 --> 00:18:39,220

shall we they spell that mah opa see

422

00:18:45,820 --> 00:18:42,860

it's a MUFON sighting courtesy of UFO

423

00:18:49,180 --> 00:18:45,830

stalker calm it's got an official number

424

00:18:51,550 --> 00:18:49,190

8 for 8 to 7 the date of this sighting

425

00:18:55,360 --> 00:18:51,560

is the 4th of July it got a same-day

426  
00:18:58,630 --> 00:18:55,370  
report here's the summary as high as a

427  
00:19:02,860 --> 00:18:58,640  
plane stationary like a helicopter but

428  
00:19:04,510 --> 00:19:02,870  
moving way too fast and we can imagine

429  
00:19:07,600 --> 00:19:04,520  
what you're thinking gentle listeners

430  
00:19:10,390 --> 00:19:07,610  
4th of July fireworks well in this case

431  
00:19:12,010 --> 00:19:10,400  
perhaps not there's a photo included

432  
00:19:14,320 --> 00:19:12,020  
with this sighting you can check it out

433  
00:19:17,800 --> 00:19:14,330  
for yourselves later at UFO headline

434  
00:19:20,140 --> 00:19:17,810  
news calm under sighting specifics our

435  
00:19:23,380 --> 00:19:20,150  
witness offers a viewing distance over

436  
00:19:25,930 --> 00:19:23,390  
one mile the altitude was over 500 feet

437  
00:19:27,970 --> 00:19:25,940  
without cloud cover this sighting

438  
00:19:30,190 --> 00:19:27,980

duration was eight minutes and the

439

00:19:33,700 --> 00:19:30,200

object features are described as unknown

440

00:19:36,010 --> 00:19:33,710

the flight path was stationary and then

441

00:19:39,070 --> 00:19:36,020

a path with directional change and then

442

00:19:41,290 --> 00:19:39,080

a path with hovering this object is

443

00:19:44,110 --> 00:19:41,300

reported to have been shaped like an egg

444

00:19:46,090 --> 00:19:44,120

there isn't any pertinent meteorology

445

00:19:48,760 --> 00:19:46,100

we'll just jump right into the sighting

446

00:19:49,750 --> 00:19:48,770

in the first-person words of our witness

447

00:19:53,620 --> 00:19:49,760

here we go

448

00:19:56,770 --> 00:19:53,630

this object was a super bright red light

449

00:19:59,590 --> 00:19:56,780

with a white flash it was stationary for

450

00:20:01,660 --> 00:19:59,600

five minutes and when I saw it it looked

451  
00:20:03,790 --> 00:20:01,670  
extremely high in the sky

452  
00:20:08,230 --> 00:20:03,800  
it seemed to be the height of a plane

453  
00:20:10,630 --> 00:20:08,240  
but this object didn't move when it did

454  
00:20:13,450 --> 00:20:10,640  
eventually move it was a perfect quick

455  
00:20:16,120 --> 00:20:13,460  
set of small movements approximately

456  
00:20:18,850 --> 00:20:16,130  
three smaller movements and then when it

457  
00:20:22,060 --> 00:20:18,860  
left it moved twice to the left once

458  
00:20:26,020 --> 00:20:22,070  
away and then gone in a flash it flew

459  
00:20:28,720 --> 00:20:26,030  
away I saw this live it was extremely

460  
00:20:30,760 --> 00:20:28,730  
bright but far away two other people saw

461  
00:20:32,560 --> 00:20:30,770  
this with me by the way the photo I

462  
00:20:36,070 --> 00:20:32,570  
submitted with this account had the

463  
00:20:38,320 --> 00:20:36,080

flash on interesting there is that photo

464

00:20:41,890 --> 00:20:38,330

you can see it later at UFO headline

465

00:20:44,590 --> 00:20:41,900

news calm and now gentle listeners way

466

00:20:47,080 --> 00:20:44,600

back Wednesday which requires both a

467

00:20:49,590 --> 00:20:47,090

shift in location we'll go from that

468

00:20:53,110 --> 00:20:49,600

sighting in mahou pack New York to

469

00:20:56,320 --> 00:20:53,120

Mississippi City of Pascagoula also a

470

00:21:01,600 --> 00:20:56,330

shift in time is required we're going

471

00:21:04,290 --> 00:21:01,610

from 2017 to 1973 hang on we're there

472

00:21:07,090 --> 00:21:04,300

here's the story the Pascagoula

473

00:21:10,090 --> 00:21:07,100

abduction went pretty much as follows

474

00:21:13,780 --> 00:21:10,100

it's a purported although that's wiki's

475

00:21:15,960 --> 00:21:13,790

words not ours UFO sighting and alien

476

00:21:19,510 --> 00:21:15,970

abduction alleged to have occurred in

477

00:21:22,270 --> 00:21:19,520

1979 when co-workers Charlie Hickson and

478

00:21:24,760 --> 00:21:22,280

Calvin Parker said they were abducted by

479

00:21:27,250 --> 00:21:24,770

aliens while they were fishing near

480

00:21:29,860 --> 00:21:27,260

Pascagoula Mississippi the incident

481

00:21:33,370 --> 00:21:29,870

earned substantial mass media attention

482

00:21:37,090 --> 00:21:33,380

and it went something like this on the

483

00:21:38,970 --> 00:21:37,100

evening of October 11th 1973 co-workers

484

00:21:41,860 --> 00:21:38,980

42 year-old Charles Hickson and a

485

00:21:44,050 --> 00:21:41,870

19-year old Calvin Parker told the

486

00:21:44,590 --> 00:21:44,060

Jackson County Mississippi Sheriff's

487

00:21:46,660 --> 00:21:44,600

Office

488

00:21:48,970 --> 00:21:46,670

they'd been fishing off a pier on the

489

00:21:51,520 --> 00:21:48,980

west bank of the Pascagoula River in

490

00:21:54,790 --> 00:21:51,530

Mississippi they heard a whirring

491

00:21:58,450 --> 00:21:54,800

whizzing sound saw two flashing blue

492

00:22:00,670 --> 00:21:58,460

lights and an oval-shaped object 30 to

493

00:22:03,340 --> 00:22:00,680

40 feet across and eight to ten feet

494

00:22:06,250 --> 00:22:03,350

high Parker and Hickson claimed they

495

00:22:08,830 --> 00:22:06,260

were conscious but paralyzed while three

496

00:22:12,070 --> 00:22:08,840

creatures took them aboard this object

497

00:22:15,070 --> 00:22:12,080

and subjected them to examination before

498

00:22:17,440 --> 00:22:15,080

releasing them within days

499

00:22:20,019 --> 00:22:17,450

Kagawa Mississippi was the center of an

500

00:22:23,200 --> 00:22:20,029

international news story with reporters

501  
00:22:26,049 --> 00:22:23,210  
swarming the town two prominent

502  
00:22:27,940 --> 00:22:26,059  
ufologists james harder of the aerial

503  
00:22:30,810 --> 00:22:27,950  
phenomena research organization also

504  
00:22:34,330 --> 00:22:30,820  
known as a pro and dr. J Allen Hynek

505  
00:22:36,159 --> 00:22:34,340  
himself interviewed these two men james

506  
00:22:38,700 --> 00:22:36,169  
harder attempted to hypnotize them and

507  
00:22:41,380 --> 00:22:38,710  
he concluded Hickson and Parker quote

508  
00:22:44,259 --> 00:22:41,390  
experienced an extraterrestrial

509  
00:22:46,450 --> 00:22:44,269  
phenomena and quotes while dr. J Allen

510  
00:22:49,860 --> 00:22:46,460  
Hynek believed they had a quote very

511  
00:22:51,850 --> 00:22:49,870  
real frightening experience end quotes

512  
00:22:55,570 --> 00:22:51,860  
Hickson later appeared on talk shows

513  
00:22:58,149 --> 00:22:55,580

gave lectures and interviews and in 1983

514

00:23:02,560 --> 00:22:58,159

he authored a self-published book that

515

00:23:04,060 --> 00:23:02,570

title UFO contact at Pascagoula Hickson

516

00:23:07,450 --> 00:23:04,070

claimed additional encounters with

517

00:23:09,430 --> 00:23:07,460

aliens in 1974 alleging that the aliens

518

00:23:12,370 --> 00:23:09,440

told him they were quote peaceful end

519

00:23:14,019 --> 00:23:12,380

quotes Parker later attended UFO

520

00:23:15,789 --> 00:23:14,029

conventions and this article

521

00:23:18,870 --> 00:23:15,799

unfortunately doesn't mention whether he

522

00:23:22,289 --> 00:23:18,880

was a speaker or just in attendance in

523

00:23:24,610 --> 00:23:22,299

1993 Parker started a company called UFO

524

00:23:27,370 --> 00:23:24,620

investigations to produce television

525

00:23:29,049 --> 00:23:27,380

stories about UFOs Charlie Higson

526

00:23:32,289 --> 00:23:29,059

transitioned at age 80

527

00:23:35,310 --> 00:23:32,299

September 9th 2011 then there was the

528

00:23:37,389 --> 00:23:35,320

parade of the usual suspects skeptics

529

00:23:39,870 --> 00:23:37,399

aviation journalists and UFO skeptic

530

00:23:42,549 --> 00:23:39,880

Philip jet class found quote

531

00:23:45,820 --> 00:23:42,559

discrepancies and quotes in Hickson's

532

00:23:48,310 --> 00:23:45,830

story when Hickson took a polygraph exam

533

00:23:51,009 --> 00:23:48,320

the examiner determined that Hickson

534

00:23:52,870 --> 00:23:51,019

believed the abduction story but Philip

535

00:23:55,090 --> 00:23:52,880

J class argued that the test was

536

00:23:57,940 --> 00:23:55,100

administered by a quote inexperienced

537

00:24:00,009 --> 00:23:57,950

and quotes operator and that Hickson

538

00:24:02,889 --> 00:24:00,019

refused to take another my more

539

00:24:05,470 --> 00:24:02,899

experienced police operators class

540

00:24:07,649 --> 00:24:05,480

concluded then the case was a hoax based

541

00:24:10,149 --> 00:24:07,659

on these and other discrepancies

542

00:24:10,659 --> 00:24:10,159

well-known skeptic investigator Joe

543

00:24:12,820 --> 00:24:10,669

Nickell

544

00:24:15,250 --> 00:24:12,830

wrote that Hickson's behavior was quote

545

00:24:17,919 --> 00:24:15,260

questionable end quote and that he

546

00:24:20,769 --> 00:24:17,929

altered or embellished his story when

547

00:24:22,509 --> 00:24:20,779

later appearing on television shows Joe

548

00:24:25,029 --> 00:24:22,519

Nickell speculated Hickson might have

549

00:24:28,870 --> 00:24:25,039

fantasized the encounter with aliens

550

00:24:30,850 --> 00:24:28,880

during a hypnagogic waking dream state

551  
00:24:32,010 --> 00:24:30,860  
adding that Parker's corroboration of

552  
00:24:34,660 --> 00:24:32,020  
the tale was likely due to

553  
00:24:37,000 --> 00:24:34,670  
suggestibility since he told police he

554  
00:24:39,150 --> 00:24:37,010  
had quote passed out at the beginning of

555  
00:24:41,830 --> 00:24:39,160  
the incident and failed to regain

556  
00:24:44,980 --> 00:24:41,840  
consciousness until it was over end

557  
00:24:47,470 --> 00:24:44,990  
quotes now let's fast forward to this

558  
00:24:50,470 --> 00:24:47,480  
breaking news regarding this story it

559  
00:24:53,710 --> 00:24:50,480  
comes to us by way of Robert barro whose

560  
00:24:58,000 --> 00:24:53,720  
tagline is who's useful idiots shall we

561  
00:25:00,610 --> 00:24:58,010  
be today well moving from that this is

562  
00:25:03,300 --> 00:25:00,620  
his column entitled as weird as it gets

563  
00:25:07,150 --> 00:25:03,310

and here's the story

564

00:25:10,330 --> 00:25:07,160

Mike Cataldo now long retired from the

565

00:25:13,360 --> 00:25:10,340

Navy served in 1973 as a chief petty

566

00:25:15,610 --> 00:25:13,370

officer in Mississippi like most of the

567

00:25:18,400 --> 00:25:15,620

country he was familiar with the Hickson

568

00:25:21,190 --> 00:25:18,410

Parker report but he never met or spoke

569

00:25:22,750 --> 00:25:21,200

with either man however for all the

570

00:25:25,900 --> 00:25:22,760

years that followed he shared with

571

00:25:28,210 --> 00:25:25,910

friends and family another side of the

572

00:25:29,980 --> 00:25:28,220

story something of vital significance

573

00:25:34,000 --> 00:25:29,990

that he finally decided to impart

574

00:25:36,550 --> 00:25:34,010

publicly late in 2006 Mike Cataldo tried

575

00:25:39,340 --> 00:25:36,560

to locate a reporter in Pascagoula the

576

00:25:40,930 --> 00:25:39,350

writer of the original UFO story he

577

00:25:43,650 --> 00:25:40,940

eventually was put in touch with writer

578

00:25:46,270 --> 00:25:43,660

Natalie chambers of The Associated Press

579

00:25:48,580 --> 00:25:46,280

Natalie chambers interview with Mike

580

00:25:51,660 --> 00:25:48,590

Cataldo appeared in the Northeast

581

00:25:54,100 --> 00:25:51,670

Mississippi Daily Journal October 21st

582

00:25:56,110 --> 00:25:54,110

2006 but it failed to make that

583

00:25:58,540 --> 00:25:56,120

coast-to-coast splash

584

00:26:01,030 --> 00:25:58,550

even though famed radio commentator Paul

585

00:26:04,420 --> 00:26:01,040

Harvey realized Mike could tell those

586

00:26:07,750 --> 00:26:04,430

importance in fact Paul Harvey dedicated

587

00:26:10,540 --> 00:26:07,760

part of his Saturday October 27 2006

588

00:26:13,390 --> 00:26:10,550

national broadcast to natalie chambers

589

00:26:14,920 --> 00:26:13,400

shocker let's pick up now with Natalie

590

00:26:17,440 --> 00:26:14,930

chambers shocker

591

00:26:20,740 --> 00:26:17,450

quote when Charles Hickson and Calvin

592

00:26:23,140 --> 00:26:20,750

Parker told the world in 1973 they were

593

00:26:25,900 --> 00:26:23,150

abducted by aliens while fishing on the

594

00:26:29,500 --> 00:26:25,910

Pascagoula River few believed them and

595

00:26:33,460 --> 00:26:29,510

quotes her article began quote now after

596

00:26:35,860 --> 00:26:33,470

28 years this is in 2006 it appears they

597

00:26:38,160 --> 00:26:35,870

weren't alone in their experience on

598

00:26:41,500 --> 00:26:38,170

that October 11th night and quotes

599

00:26:42,430 --> 00:26:41,510

indeed at about the same time and in

600

00:26:45,759 --> 00:26:42,440

these same

601  
00:26:47,919 --> 00:26:45,769  
area as that UFO incident Mike Cataldo

602  
00:26:51,129 --> 00:26:47,929  
and fellow crewmates Ted Peralta and

603  
00:26:54,090 --> 00:26:51,139  
Mack Hanna were driving on United States

604  
00:26:57,970 --> 00:26:54,100  
highway 90 heading to Ocean Springs

605  
00:27:00,759 --> 00:26:57,980  
Cataldo was in the back seat quote we

606  
00:27:03,549 --> 00:27:00,769  
saw a very strange object in the horizon

607  
00:27:06,759 --> 00:27:03,559  
going from northeast across highway 90

608  
00:27:09,279 --> 00:27:06,769  
and quotes Cataldo recalled quote it was

609  
00:27:12,249 --> 00:27:09,289  
going pretty fast it went down into a

610  
00:27:14,649 --> 00:27:12,259  
wooded area and into the marsh it

611  
00:27:17,230 --> 00:27:14,659  
hovered over the tree line maybe a

612  
00:27:20,169 --> 00:27:17,240  
minute we actually pulled off the road

613  
00:27:22,779 --> 00:27:20,179

and watched it we said my god what is

614

00:27:25,149 --> 00:27:22,789

that Cataldo said the thing looked just

615

00:27:28,389 --> 00:27:25,159

like a large tambourine with little

616

00:27:31,320 --> 00:27:28,399

lights flashing on it quote as quickly

617

00:27:33,850 --> 00:27:31,330

as we saw it it just vanished end quotes

618

00:27:36,220 --> 00:27:33,860

someday light still remained as dust

619

00:27:38,619 --> 00:27:36,230

approached so the men got a good look at

620

00:27:41,230 --> 00:27:38,629

this object but Cataldo tells of a

621

00:27:43,749 --> 00:27:41,240

second sighting minutes later this time

622

00:27:45,759 --> 00:27:43,759

in st. Andrews he was by himself in his

623

00:27:48,759 --> 00:27:45,769

car at that point and nearing his home

624

00:27:53,369 --> 00:27:48,769

quote it wasn't as high up as the first

625

00:27:55,210 --> 00:27:53,379

one we saw it was real end quotes almost

626

00:27:57,669 --> 00:27:55,220

hyperventilating as he ran inside to

627

00:28:00,249 --> 00:27:57,679

tell his wife Cataldo knew he had to

628

00:28:03,039 --> 00:28:00,259

tell Navy officials as a member of the

629

00:28:05,649 --> 00:28:03,049

pre-commissioning crew of the USS Honey

630

00:28:08,289 --> 00:28:05,659

under construction at Ingalls shipyard

631

00:28:10,570 --> 00:28:08,299

he reported for work the next morning

632

00:28:13,119 --> 00:28:10,580

and immediately contacted his executive

633

00:28:15,399 --> 00:28:13,129

officer to make a statement after the

634

00:28:17,680 --> 00:28:15,409

weekend he contacted Keesler Air Force

635

00:28:21,190 --> 00:28:17,690

Base in Biloxi and left his phone number

636

00:28:24,009 --> 00:28:21,200

however if my Cataldo expected tea and

637

00:28:25,720 --> 00:28:24,019

sympathy he was mistaken quote my

638

00:28:28,029 --> 00:28:25,730

executive officer and crew members

639

00:28:30,430 --> 00:28:28,039

thought we were just lunatics just

640

00:28:32,490 --> 00:28:30,440

whacked out and quotes he told Natalie

641

00:28:35,669 --> 00:28:32,500

chambers quote it never came up again

642

00:28:39,610 --> 00:28:35,679

nobody called me nobody did anything

643

00:28:42,310 --> 00:28:39,620

other UFO researchers Kenny young for

644

00:28:44,019 --> 00:28:42,320

one also contacted Mike Cataldo after

645

00:28:47,110 --> 00:28:44,029

Natalie chambers article appeared and

646

00:28:49,710 --> 00:28:47,120

attempted but so far unsuccessfully to

647

00:28:52,330 --> 00:28:49,720

locate those two fellow Navy witnesses

648

00:28:54,100 --> 00:28:52,340

Cataldo provided a few more details of

649

00:28:56,169 --> 00:28:54,110

the object perhaps the most intriguing

650

00:29:00,129 --> 00:28:56,179

being that it was quote less than

651  
00:29:02,980 --> 00:29:00,139  
a mile away and looked as big as any big

652  
00:29:06,850 --> 00:29:02,990  
American airliner I've ever seen and

653  
00:29:09,279 --> 00:29:06,860  
quotes importantly my Cataldo admitted

654  
00:29:12,100 --> 00:29:09,289  
quote I never knew of the Hickson Parker

655  
00:29:13,989 --> 00:29:12,110  
abduction until days later it happened

656  
00:29:15,789 --> 00:29:13,999  
on Thursday and it wasn't till Sunday

657  
00:29:17,919 --> 00:29:15,799  
that I saw the headline in the morning

658  
00:29:20,560 --> 00:29:17,929  
paper about the two men taken aboard a

659  
00:29:23,350 --> 00:29:20,570  
flying saucer I'm telling you I about

660  
00:29:25,090 --> 00:29:23,360  
died end quotes so gentle listeners

661  
00:29:27,580 --> 00:29:25,100  
connected sightings connected

662  
00:29:29,889 --> 00:29:27,590  
experiences abductions we leave it for

663  
00:29:31,830 --> 00:29:29,899

you to decide we hope you've enjoyed way

664

00:29:34,869 --> 00:29:31,840

back Wednesday we got a bounce because

665

00:29:37,359 --> 00:29:34,879

that's a wrap thank you for listening to

666

00:29:40,899 --> 00:29:37,369

inception radio network follow today's

667

00:29:42,940 --> 00:29:40,909

broadcast at UFO headline news dawn take

668

00:29:45,039 --> 00:29:42,950

care of each other loving kindness we're

669

00:29:45,760 --> 00:29:45,049

all in this together this is Carol Carl

670

00:29:49,529 --> 00:29:45,770

see you tomorrow
