[Music]

2
00:00:07,990 --> 00:00:05,279

hello it's wednesday july 12 2017. you

3
00:00:10,310 --> 00:00:08,000

are listening to inception radio network

4
00:00:15,030 --> 00:00:10,320

voice of the fringe majority this is

5
00:00:20,950 --> 00:00:17,830

so who's up for a little celestial drama

6
00:00:23,990 --> 00:00:20,960

in the sky tonight well we can see draco

7
00:00:26,630 --> 00:00:24,000

the great dragon of the north that's

8
00:00:28,470 --> 00:00:26,640

pretty intense if we've got a dark sky

9
00:00:30,950 --> 00:00:28,480

we can make acquaintance with the

10
00:00:33,990 --> 00:00:30,960

constellation draco the dragon starting

11
00:00:37,110 --> 00:00:34,000

at nightfall at mid-northern latitudes

12
00:00:39,910 --> 00:00:37,120

draco is a circumpolar constellation

13
00:00:41,350 --> 00:00:39,920

meaning it's out all night long every

14

00:00:43,270 --> 00:00:41,360

night of the year

15

00:00:45,030 --> 00:00:43,280

northern hemisphere summer evenings are

16

00:00:47,590 --> 00:00:45,040

the best time to look because that's

17

00:00:49,590 --> 00:00:47,600

when dragon's flashing eyes look down

18

00:00:52,229 --> 00:00:49,600

upon you from high up in the northern

19

00:00:54,790 --> 00:00:52,239

sky but of course there will be charts

20

00:00:57,430 --> 00:00:54,800

to show you all of this later at ufo

21

00:00:59,910 --> 00:00:57,440

headline news the charts show draco

22

00:01:02,709 --> 00:00:59,920

covering a lot more sky than the charts

23

00:01:03,670 --> 00:01:02,719

usually cover that's because draco is

24

00:01:06,469 --> 00:01:03,680

big

25

00:01:08,550 --> 00:01:06,479

this serpentine star figure wanders in

26
00:01:10,950 --> 00:01:08,560
between the big and little dippers with

27
00:01:13,750 --> 00:01:10,960
its tail found between the bowl of the

28
00:01:15,510 --> 00:01:13,760
big dipper and the star polaris deborah

29
00:01:17,830 --> 00:01:15,520
bird who writes this for earth sky said

30
00:01:19,830 --> 00:01:17,840
that she always notices the two stars in

31
00:01:21,670 --> 00:01:19,840
the dragon's head while she's looking

32
00:01:24,310 --> 00:01:21,680
for the bright star vega in the

33
00:01:26,390 --> 00:01:24,320
constellation lira if you're familiar

34
00:01:29,749 --> 00:01:26,400
with that asterisk known as the summer

35
00:01:32,789 --> 00:01:29,759
triangle draw the imaginary line from

36
00:01:34,789 --> 00:01:32,799
the star altair through the star vega

37
00:01:37,429 --> 00:01:34,799
and that way you will find the dragon's

38
00:01:39,670 --> 00:01:37,439

eyes glaring at you from high overhead

39

00:01:42,870 --> 00:01:39,680

july and august evenings

40

00:01:45,670 --> 00:01:42,880

the two stars have names it's rastabon

41

00:01:47,350 --> 00:01:45,680

and eltonin lovely romantic names for

42

00:01:49,190 --> 00:01:47,360

the dragon stars

43

00:01:52,630 --> 00:01:49,200

you can watch draco tonight it's going

44

00:01:55,190 --> 00:01:52,640

to be circling that north star polaris

45

00:01:56,350 --> 00:01:55,200

another noteworthy star in draco is

46

00:01:59,030 --> 00:01:56,360

tubin

47

00:02:01,590 --> 00:01:59,040

t-h-u-b-a-n high in the sky in the

48

00:02:05,350 --> 00:02:01,600

evening this time of year tubin is an

49

00:02:08,630 --> 00:02:05,360

interesting star because around 3000 bc

50

00:02:11,910 --> 00:02:08,640

tubin used to be a pole star the pole

51
00:02:13,750 --> 00:02:11,920
star but that's a story for another time

52
00:02:15,830 --> 00:02:13,760
the constellation draco by the way has

53
00:02:18,309 --> 00:02:15,840
been associated with a dragon in many

54
00:02:21,270 --> 00:02:18,319
cultures there's a babylonian myth

55
00:02:24,229 --> 00:02:21,280
linking draco to the dragon god tiamat

56
00:02:26,790 --> 00:02:24,239
who was subdued by the god of the sun

57
00:02:30,150 --> 00:02:26,800
but here's the bottom line draco the

58
00:02:32,869 --> 00:02:30,160
dragon on july evenings go look meet

59
00:02:35,430 --> 00:02:32,879
rastabon and eltonen those lovely

60
00:02:38,070 --> 00:02:35,440
romantic names for dragon stars

61
00:02:39,350 --> 00:02:38,080
representing the eyes of draco the

62
00:02:41,750 --> 00:02:39,360
dragon

63
00:02:44,589 --> 00:02:41,760

here's a rather bleak headline coming up

64

00:02:47,589 --> 00:02:44,599

next researchers searching for signs of

65

00:02:49,110 --> 00:02:47,599

extraterrestrial life just got some very

66

00:02:52,630 --> 00:02:49,120

bad news

67

00:02:54,790 --> 00:02:52,640

mike wayner writes this for bgr news

68

00:02:57,430 --> 00:02:54,800

by using earth and our sun as a

69

00:02:59,670 --> 00:02:57,440

reference scientists have spent decades

70

00:03:01,589 --> 00:02:59,680

honing in on conditions required for a

71

00:03:03,830 --> 00:03:01,599

planet to support life

72

00:03:06,869 --> 00:03:03,840

the identification of the so-called

73

00:03:09,350 --> 00:03:06,879

goldilocks zone where things are just

74

00:03:11,430 --> 00:03:09,360

right that's the area around a star in

75

00:03:13,509 --> 00:03:11,440

which liquid water can exist on the

76

00:03:16,070 --> 00:03:13,519

surface of a planet and that's been the

77

00:03:17,869 --> 00:03:16,080

key for researchers spotting exoplanets

78

00:03:19,750 --> 00:03:17,879

which are good candidates for

79

00:03:22,869 --> 00:03:19,760

extraterrestrial life

80

00:03:25,350 --> 00:03:22,879

unfortunately new research conducted by

81

00:03:26,390 --> 00:03:25,360

astronomers at the university of hull in

82

00:03:28,550 --> 00:03:26,400

england

83

00:03:30,869 --> 00:03:28,560

now suggests that there's plenty of

84

00:03:34,470 --> 00:03:30,879

stars in our own galaxy that simply

85

00:03:37,750 --> 00:03:34,480

cannot support life whatsoever and as

86

00:03:39,509 --> 00:03:37,760

mike waner puts it it's a huge bummer

87

00:03:41,589 --> 00:03:39,519

the study was initially prompted by

88

00:03:43,670 --> 00:03:41,599

research from 2013

89

00:03:47,430 --> 00:03:43,680

that research proposed that as many as

90

00:03:50,710 --> 00:03:47,440

70 billion of the up to 400 billion

91

00:03:54,149 --> 00:03:50,720

stars in our galaxy were of the failed

92

00:03:55,990 --> 00:03:54,159

brown dwarf variety brown dwarf stars

93

00:03:58,470 --> 00:03:56,000

are too hot to support life on their

94

00:04:00,229 --> 00:03:58,480

surface but too cold to provide much

95

00:04:01,509 --> 00:04:00,239

heat to any planets that might be in

96

00:04:03,990 --> 00:04:01,519

their orbit

97

00:04:07,429 --> 00:04:04,000

this results in a star which has no

98

00:04:09,429 --> 00:04:07,439

goldilocks zone nothing is just right

99

00:04:11,990 --> 00:04:09,439

and it essentially rules out the

100

00:04:15,270 --> 00:04:12,000

possibility that life exists on the

101
00:04:17,509 --> 00:04:15,280
surface of the planets nearby

102
00:04:19,590 --> 00:04:17,519
using that earlier study as a baseline

103
00:04:22,069 --> 00:04:19,600
the team set its sights on a nearby star

104
00:04:24,390 --> 00:04:22,079
cluster attempting to estimate how many

105
00:04:26,469 --> 00:04:24,400
brown dwarf stars it contained the

106
00:04:28,790 --> 00:04:26,479
density of the failed stars in that

107
00:04:31,749 --> 00:04:28,800
cluster led the researchers to conclude

108
00:04:34,629 --> 00:04:31,759
that the 70 billion estimate reached in

109
00:04:38,629 --> 00:04:34,639
2013 for our own milky way might

110
00:04:40,390 --> 00:04:38,639
actually be much lower than reality

111
00:04:44,070 --> 00:04:40,400
the team now believes that as many as

112
00:04:47,189 --> 00:04:44,080
100 billion of the 400 billion or so

113
00:04:49,030 --> 00:04:47,199

stars in our galactic backyard might be

114

00:04:51,590 --> 00:04:49,040

brown dwarfs

115

00:04:54,150 --> 00:04:51,600

that means that potentially a full

116

00:04:55,830 --> 00:04:54,160

quarter or more of the stars nearest us

117

00:04:58,790 --> 00:04:55,840

can't even provide the conditions

118

00:04:59,830 --> 00:04:58,800

required for the formation and support

119

00:05:01,830 --> 00:04:59,840

of life

120

00:05:04,629 --> 00:05:01,840

it's not great news in the search for

121

00:05:06,870 --> 00:05:04,639

aliens but here's the bright side with

122

00:05:08,710 --> 00:05:06,880

astronomers already spotting systems

123

00:05:11,749 --> 00:05:08,720

with multiple potentially

124

00:05:14,070 --> 00:05:11,759

life-supporting planets like trappist-1

125

00:05:16,870 --> 00:05:14,080

there's no reason to completely rule out

126

00:05:18,950 --> 00:05:16,880

the possibility of someday meeting

127

00:05:22,469 --> 00:05:18,960

extraterrestrials

128

00:05:24,150 --> 00:05:22,479

indeed far too soon to stop looking at

129

00:05:26,550 --> 00:05:24,160

this point here's a headline from

130

00:05:29,510 --> 00:05:26,560

business insider we couldn't find a

131

00:05:32,950 --> 00:05:29,520

byline but here's the headline chinese

132

00:05:36,550 --> 00:05:32,960

scientists just teleported an object

133

00:05:39,189 --> 00:05:36,560

into earth's orbit for the first time

134

00:05:41,990 --> 00:05:39,199

yep you heard correctly gentle listeners

135

00:05:44,950 --> 00:05:42,000

teleported here's the story

136

00:05:46,950 --> 00:05:44,960

not long ago in the early 1990s

137

00:05:49,670 --> 00:05:46,960

scientists only speculated that

138

00:05:52,629 --> 00:05:49,680

teleportation using quantum physics

139

00:05:54,870 --> 00:05:52,639

could be possible since then the process

140

00:05:57,430 --> 00:05:54,880

has become a standard operation in

141

00:06:00,710 --> 00:05:57,440

quantum optics labs around the world in

142

00:06:02,790 --> 00:06:00,720

fact just last year two separate teams

143

00:06:06,309 --> 00:06:02,800

conducted the world's first quantum

144

00:06:09,110 --> 00:06:06,319

teleportation outside of a laboratory

145

00:06:11,909 --> 00:06:09,120

and now researchers in china have taken

146

00:06:15,029 --> 00:06:11,919

the process a few steps further they

147

00:06:17,430 --> 00:06:15,039

successfully teleported a photon from

148

00:06:21,990 --> 00:06:17,440

earth to a satellite orbiting more than

149

00:06:26,390 --> 00:06:22,000

500 kilometers 311 miles away

150

00:06:29,189 --> 00:06:26,400

this satellite called mesius m-i-c-r-u-s

151
00:06:31,510 --> 00:06:29,199
is a highly sensitive photo receiver

152
00:06:35,029 --> 00:06:31,520
capable of detecting the quantum states

153
00:06:37,510 --> 00:06:35,039
of single photons fired from the ground

154
00:06:39,909 --> 00:06:37,520
mesius was launched to allow scientists

155
00:06:42,710 --> 00:06:39,919
to test various technological building

156
00:06:45,430 --> 00:06:42,720
blocks for quantum feats including

157
00:06:47,110 --> 00:06:45,440
entanglement cryptography and

158
00:06:51,590 --> 00:06:47,120
teleportation

159
00:06:52,950 --> 00:06:51,600
one of the first results of these

160
00:06:56,070 --> 00:06:52,960
experiments

161
00:06:59,270 --> 00:06:56,080
not only did the team teleport the first

162
00:07:01,589 --> 00:06:59,280
object ever from the ground to orbit

163
00:07:04,629 --> 00:07:01,599

they also created the first satellite to

164

00:07:06,710 --> 00:07:04,639

ground quantum network smashing the

165

00:07:08,870 --> 00:07:06,720

record for the longest distance for

166

00:07:11,510 --> 00:07:08,880

which entanglement has been measured

167

00:07:13,990 --> 00:07:11,520

quote long distance teleportation has

168

00:07:16,629 --> 00:07:14,000

been recognized as a fundamental element

169

00:07:18,870 --> 00:07:16,639

in protocols such as large-scale quantum

170

00:07:22,230 --> 00:07:18,880

networks and distributed quantum

171

00:07:24,629 --> 00:07:22,240

computation end quotes says the chinese

172

00:07:27,350 --> 00:07:24,639

team to the massachusetts institute of

173

00:07:29,350 --> 00:07:27,360

technology review publication

174

00:07:31,189 --> 00:07:29,360

they continued quote previous

175

00:07:33,990 --> 00:07:31,199

teleportation experiments between

176

00:07:36,950 --> 00:07:34,000

distant locations were limited to a

177

00:07:40,390 --> 00:07:36,960

distance on the order of 100 kilometers

178

00:07:43,189 --> 00:07:40,400

due to photon loss in optical fibers or

179

00:07:45,749 --> 00:07:43,199

terrestrial free space channels end

180

00:07:46,790 --> 00:07:45,759

quotes now this article posits a

181

00:07:49,430 --> 00:07:46,800

question

182

00:07:51,270 --> 00:07:49,440

what comes to your mind when you think

183

00:07:53,110 --> 00:07:51,280

of teleportation

184

00:07:55,749 --> 00:07:53,120

your brain might conjure images of

185

00:07:58,710 --> 00:07:55,759

scotty beaming up the enterprise crew in

186

00:08:00,629 --> 00:07:58,720

star trek oh yeah but it's actually

187

00:08:03,430 --> 00:08:00,639

quite a different process than science

188

00:08:06,550 --> 00:08:03,440

fiction films present as one might

189

00:08:08,629 --> 00:08:06,560

figure quantum teleportation relies on

190

00:08:11,430 --> 00:08:08,639

quantum entanglement

191

00:08:14,710 --> 00:08:11,440

that situation where one set of quantum

192

00:08:17,029 --> 00:08:14,720

objects such as photons form at the same

193

00:08:19,589 --> 00:08:17,039

instant and point in space

194

00:08:20,950 --> 00:08:19,599

in this way they share the same

195

00:08:26,469 --> 00:08:20,960

existence

196

00:08:28,869 --> 00:08:26,479

when the photons are separated meaning a

197

00:08:31,029 --> 00:08:28,879

measurement on one immediately

198

00:08:33,990 --> 00:08:31,039

influences the state of the other

199

00:08:36,310 --> 00:08:34,000

regardless of the distance between them

200

00:08:39,430 --> 00:08:36,320

this link can be used to transmit

201
00:08:42,310 --> 00:08:39,440
quantum information by downloading the

202
00:08:45,750 --> 00:08:42,320
information associated with one photon

203
00:08:47,990 --> 00:08:45,760
over an entangled link to another

204
00:08:50,310 --> 00:08:48,000
this second photon takes on the identity

205
00:08:52,230 --> 00:08:50,320
of the first and voila

206
00:08:54,710 --> 00:08:52,240
teleportation

207
00:08:57,110 --> 00:08:54,720
in this particular instance the chinese

208
00:08:59,590 --> 00:08:57,120
team created entangled pairs of photons

209
00:09:00,870 --> 00:08:59,600
on the ground at a rate of about 4 000

210
00:09:03,509 --> 00:09:00,880
per second

211
00:09:05,829 --> 00:09:03,519
they then beamed one of those photons to

212
00:09:07,110 --> 00:09:05,839
the satellite and kept the other photon

213
00:09:09,430 --> 00:09:07,120

on the ground

214

00:09:12,389 --> 00:09:09,440

finally they measured the photons on the

215

00:09:15,829 --> 00:09:12,399

ground and in orbit and confirmed that

216

00:09:17,910 --> 00:09:15,839

entanglement was indeed taking place

217

00:09:19,590 --> 00:09:17,920

it's worth noting there are some limits

218

00:09:21,910 --> 00:09:19,600

to this technology

219

00:09:24,150 --> 00:09:21,920

transporting anything large for instance

220

00:09:26,630 --> 00:09:24,160

is a ways off

221

00:09:28,630 --> 00:09:26,640

in theory there's also no maximum

222

00:09:31,190 --> 00:09:28,640

transportation distance

223

00:09:33,829 --> 00:09:31,200

but that having been said entanglement

224

00:09:35,030 --> 00:09:33,839

is fragile and the links can easily be

225

00:09:37,430 --> 00:09:35,040

broken

226

00:09:39,670 --> 00:09:37,440

despite these limits this research paves

227

00:09:42,949 --> 00:09:39,680

the way for even more ambitious studies

228

00:09:45,190 --> 00:09:42,959

of quantum teleportation quote this work

229

00:09:48,310 --> 00:09:45,200

establishes the first ground to

230

00:09:51,030 --> 00:09:48,320

satellite uplink for faithful and ultra

231

00:09:53,590 --> 00:09:51,040

long-distance quantum teleportation an

232

00:09:57,750 --> 00:09:53,600

essential step toward global scale

233

00:10:00,870 --> 00:09:57,760

quantum internet end quotes quantum

234

00:10:03,269 --> 00:10:00,880

internet oh there's a thought

235

00:10:06,550 --> 00:10:03,279

it's way back wednesday and we're going

236

00:10:10,710 --> 00:10:06,560

to be looking at some basis for where

237

00:10:13,030 --> 00:10:10,720

this nazi alien thing ever got its roots

238

00:10:15,590 --> 00:10:13,040

fascinating story a totally new

239

00:10:18,470 --> 00:10:15,600

individual we will be historically

240

00:10:20,389 --> 00:10:18,480

introducing you to so stay tuned but

241

00:10:22,710 --> 00:10:20,399

right now here's an article we picked up

242

00:10:26,590 --> 00:10:22,720

from ufochronicles.com

243

00:10:30,389 --> 00:10:26,600

it's an oldie the date is 9 16

244

00:10:33,430 --> 00:10:30,399

1960. and here's the headline new angle

245

00:10:35,350 --> 00:10:33,440

added to flying saucers

246

00:10:37,910 --> 00:10:35,360

the date line here is los angeles

247

00:10:42,230 --> 00:10:37,920

california this story was picked up by

248

00:10:45,350 --> 00:10:42,240

the omaha world herald and here it goes

249

00:10:47,030 --> 00:10:45,360

a police officer says he saw a flying

250

00:10:49,590 --> 00:10:47,040

triangle

251
00:10:51,670 --> 00:10:49,600
officer don anderson at the west los

252
00:10:53,910 --> 00:10:51,680
angeles police station said a woman

253
00:10:56,790 --> 00:10:53,920
called at 7 30 a.m

254
00:11:00,710 --> 00:10:56,800
she reported she saw an object hovering

255
00:11:03,910 --> 00:11:00,720
about 300 to 400 feet above the douglas

256
00:11:05,990 --> 00:11:03,920
aircraft company plant in santa monica

257
00:11:07,350 --> 00:11:06,000
several other calls were also made about

258
00:11:09,990 --> 00:11:07,360
this object

259
00:11:11,269 --> 00:11:10,000
officer anderson went outside and he saw

260
00:11:13,269 --> 00:11:11,279
it too

261
00:11:15,030 --> 00:11:13,279
he estimated it might have been about 10

262
00:11:17,430 --> 00:11:15,040
feet in diameter

263
00:11:19,990 --> 00:11:17,440

a spokesman for the douglas plant said

264

00:11:23,269 --> 00:11:20,000

men in control towers on either side of

265

00:11:25,430 --> 00:11:23,279

the airport saw nothing resembling the

266

00:11:28,550 --> 00:11:25,440

reported object

267

00:11:30,870 --> 00:11:28,560

curious the douglas aircraft company but

268

00:11:32,870 --> 00:11:30,880

nope there was nothing up there well

269

00:11:37,110 --> 00:11:32,880

nothing they wanted to talk about that

270

00:11:39,829 --> 00:11:37,120

was 1960 fascinating all right warning

271

00:11:42,550 --> 00:11:39,839

one might want to don extra protective

272

00:11:45,670 --> 00:11:42,560

gear for this trip to way back wednesday

273

00:11:48,310 --> 00:11:45,680

we're going to be talking nazis here so

274

00:11:50,470 --> 00:11:48,320

buckle up we'll begin with these words

275

00:11:52,550 --> 00:11:50,480

from wikipedia

276

00:11:55,190 --> 00:11:52,560

nazi ufos

277

00:11:58,389 --> 00:11:55,200

in ufology conspiracy theory science

278

00:12:01,509 --> 00:11:58,399

fiction and comic book stories claims

279

00:12:03,670 --> 00:12:01,519

and stories of circulated linking ufos

280

00:12:05,430 --> 00:12:03,680

to nazi germany

281

00:12:07,670 --> 00:12:05,440

the german ufo theories describe

282

00:12:10,949 --> 00:12:07,680

supposedly successful attempts to

283

00:12:14,069 --> 00:12:10,959

develop advanced aircraft or spacecraft

284

00:12:16,790 --> 00:12:14,079

prior to and during world war ii and

285

00:12:19,990 --> 00:12:16,800

further asserts the post-war survival of

286

00:12:22,949 --> 00:12:20,000

these craft in secret underground bases

287

00:12:26,389 --> 00:12:22,959

in antarctica south america or the

288

00:12:27,670 --> 00:12:26,399

united states along with their creators

289

00:12:30,710 --> 00:12:27,680

according to these theories and

290

00:12:33,190 --> 00:12:30,720

fictional stories various potential code

291

00:12:36,629 --> 00:12:33,200

names or subclassifications

292

00:12:38,550 --> 00:12:36,639

of nazi ufo crafts were the following

293

00:12:40,949 --> 00:12:38,560

and apologies in advance to our

294

00:12:44,870 --> 00:12:40,959

german-speaking gentle listeners these

295

00:12:49,350 --> 00:12:44,880

crafts had names such as round floogs

296

00:12:53,190 --> 00:12:49,360

furball discus hanabu hanaberg garat

297

00:12:55,590 --> 00:12:53,200

vril v7 and kugelblitz

298

00:12:58,150 --> 00:12:55,600

kugelblitz is not related to that actual

299

00:13:00,949 --> 00:12:58,160

self-propelled anti-aircraft gun of the

300

00:13:03,670 --> 00:13:00,959

same name the names continue

301

00:13:06,069 --> 00:13:03,680

accounts appeared as early as 1950

302

00:13:08,870 --> 00:13:06,079

likely inspired by historical german

303

00:13:11,190 --> 00:13:08,880

development of specialized engines one

304

00:13:13,910 --> 00:13:11,200

of which was victor schnauberger's

305

00:13:14,870 --> 00:13:13,920

repulsive around the time of world war

306

00:13:16,389 --> 00:13:14,880

ii

307

00:13:18,870 --> 00:13:16,399

elements of these claims have been

308

00:13:21,829 --> 00:13:18,880

widely incorporated into various works

309

00:13:24,710 --> 00:13:21,839

of fictional and purportedly

310

00:13:27,350 --> 00:13:24,720

non-fictional media and of course have

311

00:13:30,710 --> 00:13:27,360

spun off these days into video games

312

00:13:34,550 --> 00:13:30,720

documentaries much merchandise mixing

313

00:13:37,350 --> 00:13:34,560

with substantial information so here's a

314

00:13:40,069 --> 00:13:37,360

very interesting story an individual we

315

00:13:42,310 --> 00:13:40,079

had never heard about before and thanks

316

00:13:45,430 --> 00:13:42,320

again to a tip from our man in the high

317

00:13:47,670 --> 00:13:45,440

castle and his copious files of content

318

00:13:50,230 --> 00:13:47,680

we have today's way back wednesday so

319

00:13:52,389 --> 00:13:50,240

let's jump right in

320

00:13:53,829 --> 00:13:52,399

renato vesco

321

00:13:56,710 --> 00:13:53,839

that's the name

322

00:13:59,670 --> 00:13:56,720

and this is information from vesco dot

323

00:14:03,189 --> 00:13:59,680

text written by al pinto from the

324

00:14:06,470 --> 00:14:03,199

website sacred texts dot

325

00:14:08,949 --> 00:14:06,480

renato vesco is a fully licensed

326

00:14:11,990 --> 00:14:08,959

aircraft engineer and a specialist in

327

00:14:14,150 --> 00:14:12,000

aerospace and ramjet developments

328

00:14:17,110 --> 00:14:14,160

he attended the university of rome and

329

00:14:19,189 --> 00:14:17,120

before the second world war renato vesco

330

00:14:20,550 --> 00:14:19,199

studied at the german institute for

331

00:14:23,350 --> 00:14:20,560

development

332

00:14:26,069 --> 00:14:23,360

during the war vesco worked with the

333

00:14:28,870 --> 00:14:26,079

fiat lake garda secret installations in

334

00:14:31,750 --> 00:14:28,880

italy in the 1960s he worked for the

335

00:14:34,949 --> 00:14:31,760

italian air ministry of defense as an

336

00:14:37,189 --> 00:14:34,959

undercover technical agent investigating

337

00:14:40,470 --> 00:14:37,199

the ufo mystery

338

00:14:45,670 --> 00:14:40,480

here is what mr renato vesco writes

339

00:14:48,069 --> 00:14:45,680

quote on november 27 1944 a b-27 of the

340

00:14:51,350 --> 00:14:48,079

united states air force returning from a

341

00:14:54,790 --> 00:14:51,360

raid on spire west germany encountered a

342

00:14:57,269 --> 00:14:54,800

huge orange colored light moving upward

343

00:15:00,150 --> 00:14:57,279

at an estimated speed of 500 miles per

344

00:15:03,350 --> 00:15:00,160

hour when the pilots reported

345

00:15:05,350 --> 00:15:03,360

i love the summer there's so much to do

346

00:15:07,910 --> 00:15:05,360

driving my new volkswagen jetta to the

347

00:15:10,470 --> 00:15:07,920

lake driving it to the beach driving it

348

00:15:11,990 --> 00:15:10,480

home after a weekend at the beach see i

349

00:15:13,990 --> 00:15:12,000

got a great deal from my local

350

00:15:16,069 --> 00:15:14,000

volkswagen dealer and with available

351

00:15:17,829 --> 00:15:16,079

features like adaptive cruise control

352

00:15:20,870 --> 00:15:17,839

blind spot monitor and rear traffic

353

00:15:21,910 --> 00:15:20,880

alert this jetta is all about confidence

354

00:15:23,829 --> 00:15:21,920

i think i'll drive it up to the

355

00:15:26,310 --> 00:15:23,839

mountains this weekend i might even go

356

00:15:27,990 --> 00:15:26,320

hiking if i have time test drive the

357

00:15:29,990 --> 00:15:28,000

volkswagen jetta this summer at your

358

00:15:32,790 --> 00:15:30,000

local volkswagen dealer

359

00:15:34,949 --> 00:15:32,800

doctor radar had reported negatively

360

00:15:37,590 --> 00:15:34,959

because nothing had registered on their

361

00:15:39,990 --> 00:15:37,600

screens but the object seen by the

362

00:15:42,230 --> 00:15:40,000

returning bomber was only the first of

363

00:15:44,710 --> 00:15:42,240

numerous others spotted by american

364

00:15:48,069 --> 00:15:44,720

pilots over wartime germany they were

365

00:15:51,030 --> 00:15:48,079

promptly baptized foo fighters fighter

366

00:15:53,509 --> 00:15:51,040

pilots from the 415th squadron reported

367

00:15:55,269 --> 00:15:53,519

such an encounter a month later and that

368

00:15:58,710 --> 00:15:55,279

forced the united states air force to

369

00:16:00,629 --> 00:15:58,720

admit that such objects might exist

370

00:16:02,550 --> 00:16:00,639

later encounters with foo fighters led

371

00:16:05,829 --> 00:16:02,560

experts to assume they were german

372

00:16:08,790 --> 00:16:05,839

inventions of a new order employed to

373

00:16:11,189 --> 00:16:08,800

baffle radar how closely they came to

374

00:16:13,910 --> 00:16:11,199

the truth they learned only when the war

375

00:16:17,189 --> 00:16:13,920

was over and allied intelligence teams

376

00:16:19,670 --> 00:16:17,199

moved into the secret nazi plants

377

00:16:21,910 --> 00:16:19,680

the foo fighters seen by american pilots

378

00:16:25,189 --> 00:16:21,920

were only a minor demonstration a

379

00:16:28,110 --> 00:16:25,199

fraction of a vast variety of methods

380

00:16:30,550 --> 00:16:28,120

used to confuse radar to interrupt

381

00:16:33,670 --> 00:16:30,560

electromagnetic currents

382

00:16:36,069 --> 00:16:33,680

work on the german anti-radar fury ball

383

00:16:38,870 --> 00:16:36,079

or fireball had been speeding up during

384

00:16:41,590 --> 00:16:38,880

the fall of 1944 at a luftwaffe

385

00:16:44,629 --> 00:16:41,600

experimental center near oberamagao

386

00:16:47,189 --> 00:16:44,639

bavaria there and at the aeronautical

387

00:16:49,430 --> 00:16:47,199

establishment at wiener neustadt the

388

00:16:51,350 --> 00:16:49,440

first fireballs were produced

389

00:16:53,430 --> 00:16:51,360

later when the russians moved closer to

390

00:16:56,470 --> 00:16:53,440

austria the workshops producing the

391

00:16:59,590 --> 00:16:56,480

fireballs were moved to the black forest

392

00:17:02,230 --> 00:16:59,600

fast and remote controlled the fireballs

393

00:17:04,949 --> 00:17:02,240

equipped with cliston tubes that's

394

00:17:07,510 --> 00:17:04,959

spelled k-l-i-s-t

395

00:17:10,549 --> 00:17:07,520

and operating on the same frequency as

396

00:17:12,549 --> 00:17:10,559

allied radar could eliminate the blips

397

00:17:15,429 --> 00:17:12,559

from radar screens and remain

398

00:17:18,789 --> 00:17:15,439

practically invisible to ground control

399

00:17:21,029 --> 00:17:18,799

and renato vesco fits into this

400

00:17:24,470 --> 00:17:21,039

interestingly enough his curriculum

401

00:17:27,669 --> 00:17:24,480

vitae his bio reads slightly differently

402

00:17:29,990 --> 00:17:27,679

depending upon whom one consults as far

403

00:17:31,350 --> 00:17:30,000

as his background and his places of

404

00:17:34,830 --> 00:17:31,360

employment

405

00:17:37,590 --> 00:17:34,840

and now we switch to nazi ufo

406

00:17:40,310 --> 00:17:37,600

mythos.gray falcon and that's the

407

00:17:44,150 --> 00:17:40,320

website that brings us this information

408

00:17:47,350 --> 00:17:44,160

the nazi ufo mythos once again here is

409

00:17:49,590 --> 00:17:47,360

renato vesco he was an italian he wrote

410

00:17:52,070 --> 00:17:49,600

three books in his own language only one

411

00:17:53,990 --> 00:17:52,080

of which was translated into english he

412

00:17:57,430 --> 00:17:54,000

also had an article published in the

413

00:18:00,870 --> 00:17:57,440

august 1969 edition of the united states

414

00:18:02,390 --> 00:18:00,880

men's magazine argosy which was probably

415

00:18:05,350 --> 00:18:02,400

little more than a hack writer's

416

00:18:07,750 --> 00:18:05,360

rendering of the material from his book

417

00:18:09,990 --> 00:18:07,760

that article was entitled aerospace

418

00:18:12,630 --> 00:18:10,000

expert claims flying saucers are

419

00:18:14,390 --> 00:18:12,640

canada's secret weapon and in the

420

00:18:16,950 --> 00:18:14,400

introduction to the piece there first

421

00:18:19,909 --> 00:18:16,960

appears the statement which lies at the

422

00:18:22,630 --> 00:18:19,919

heart of the authority renato vesco has

423

00:18:24,230 --> 00:18:22,640

come to command over the years here's

424

00:18:25,190 --> 00:18:24,240

what that quote said

425

00:18:27,190 --> 00:18:25,200

quote

426

00:18:29,430 --> 00:18:27,200

renato vesco is a fully licensed

427

00:18:32,310 --> 00:18:29,440

aircraft engineer and a specialist in

428

00:18:34,070 --> 00:18:32,320

aerospace and ramjet developments he

429

00:18:35,990 --> 00:18:34,080

attended the university of rome and

430

00:18:37,830 --> 00:18:36,000

before the second world war studied at

431

00:18:40,310 --> 00:18:37,840

the german institute for aerial

432

00:18:43,190 --> 00:18:40,320

development during the war vesca worked

433

00:18:46,230 --> 00:18:43,200

with the germans at the fiat lake garda

434

00:18:48,310 --> 00:18:46,240

secret installations in italy in the 60s

435

00:18:50,630 --> 00:18:48,320

he worked for the italian air ministry

436

00:18:54,870 --> 00:18:50,640

of defense as an undercover technical

437

00:18:57,430 --> 00:18:54,880

agent investigating the ufo mystery end

438

00:19:00,710 --> 00:18:57,440

quote and that tracks pretty much with

439

00:19:03,110 --> 00:19:00,720

the original bio it does get strange

440

00:19:04,630 --> 00:19:03,120

later things are omitted things are

441

00:19:06,630 --> 00:19:04,640

added

442

00:19:09,510 --> 00:19:06,640

in selections from the book here's what

443

00:19:13,110 --> 00:19:09,520

renato vesco says about the supposed

444

00:19:16,870 --> 00:19:13,120

furiball fireball and kugelblitz in the

445

00:19:19,430 --> 00:19:16,880

paperback version of quote intercept ufo

446

00:19:20,230 --> 00:19:19,440

end quotes the shortened title of his

447

00:19:23,510 --> 00:19:20,240

work

448

00:19:25,590 --> 00:19:23,520

quote another center run by spear and

449

00:19:28,390 --> 00:19:25,600

the ss technical general staff had

450

00:19:32,150 --> 00:19:28,400

adopted the idea of employing quote

451
00:19:34,470 --> 00:19:32,160
proximity radio interference end quotes

452
00:19:37,430 --> 00:19:34,480
on the very much more delicate and hence

453
00:19:40,230 --> 00:19:37,440
more vulnerable electronic apparatuses

454
00:19:42,470 --> 00:19:40,240
of the american knight fighters

455
00:19:46,150 --> 00:19:42,480
thus a highly original flying machine

456
00:19:48,470 --> 00:19:46,160
was born it was circular and armored

457
00:19:51,270 --> 00:19:48,480
more or less resembling the shell of a

458
00:19:53,990 --> 00:19:51,280
tortoise and was powered by a special

459
00:19:56,470 --> 00:19:54,000
jet engine which was also flat and

460
00:20:00,470 --> 00:19:56,480
circular whose principles of operation

461
00:20:03,669 --> 00:20:00,480
recalled the well-known iro pile of hero

462
00:20:06,950 --> 00:20:03,679
that legendary thing and generated a

463
00:20:09,909 --> 00:20:06,960

great halo of luminous flames hence it

464

00:20:11,909 --> 00:20:09,919

was named fuhrerball fireball it was

465

00:20:13,669 --> 00:20:11,919

unarmed and pilotless

466

00:20:16,390 --> 00:20:13,679

radio controlled at the moment of

467

00:20:18,789 --> 00:20:16,400

takeoff it then automatically followed

468

00:20:21,350 --> 00:20:18,799

enemy aircraft attracted by their

469

00:20:23,750 --> 00:20:21,360

exhaust flames and it approached close

470

00:20:25,669 --> 00:20:23,760

enough without collision and wrecked

471

00:20:27,830 --> 00:20:25,679

their radio gear

472

00:20:30,390 --> 00:20:27,840

the fiery halo around its perimeter

473

00:20:32,549 --> 00:20:30,400

caused by a very rich fuel mixture and

474

00:20:35,510 --> 00:20:32,559

the chemical additives that interrupted

475

00:20:37,590 --> 00:20:35,520

the flow of electricity they did that by

476

00:20:39,909 --> 00:20:37,600

over ionizing the atmosphere in the

477

00:20:43,270 --> 00:20:39,919

vicinity of the plane generally around

478

00:20:45,350 --> 00:20:43,280

the wing tips and this subjected the h2s

479

00:20:47,909 --> 00:20:45,360

radar on the plane to the action of

480

00:20:50,070 --> 00:20:47,919

powerful electrostatic fields and

481

00:20:52,390 --> 00:20:50,080

electromagnetic impulses

482

00:20:54,870 --> 00:20:52,400

the latter generated by the large

483

00:20:58,310 --> 00:20:54,880

clystron radio tubes protected with

484

00:21:00,390 --> 00:20:58,320

special anti-shock and anti-heat armor

485

00:21:02,310 --> 00:21:00,400

since a metal arc carrying an

486

00:21:03,750 --> 00:21:02,320

oscillating current of the proper

487

00:21:09,110 --> 00:21:03,760

frequency

488

00:21:11,510 --> 00:21:09,120

the radar station can cancel the blips

489

00:21:14,230 --> 00:21:11,520

the return signals from the target the

490

00:21:16,710 --> 00:21:14,240

fireball was almost undetectable by the

491

00:21:19,750 --> 00:21:16,720

most powerful american radar of the time

492

00:21:21,669 --> 00:21:19,760

despite its nighttime visibility in

493

00:21:23,750 --> 00:21:21,679

addition the sorry builders of the

494

00:21:26,070 --> 00:21:23,760

device hoped and their hateful hopes

495

00:21:28,870 --> 00:21:26,080

were fulfilled that when the allied

496

00:21:31,350 --> 00:21:28,880

flyers not knowing their nature or

497

00:21:33,669 --> 00:21:31,360

purpose notice that the fiery balls were

498

00:21:36,310 --> 00:21:33,679

apparently harmless they wouldn't fire

499

00:21:38,630 --> 00:21:36,320

on these enormous looking inoffensive

500

00:21:41,830 --> 00:21:38,640

devices for fear of being caught in some

501
00:21:43,669 --> 00:21:41,840
gigantic explosion more than one in fact

502
00:21:45,909 --> 00:21:43,679
as they fearfully watched those huge

503
00:21:47,590 --> 00:21:45,919
lights come in the american pilots

504
00:21:49,510 --> 00:21:47,600
thought that some german technician on

505
00:21:51,750 --> 00:21:49,520
the ground was perhaps getting ready to

506
00:21:53,830 --> 00:21:51,760
push a button and cause these foo

507
00:21:56,230 --> 00:21:53,840
fighters to explode

508
00:21:58,149 --> 00:21:56,240
project furiball was constructed first

509
00:22:00,390 --> 00:21:58,159
at the aeronautical establishment at

510
00:22:03,830 --> 00:22:00,400
wiener neustadt with the help of the

511
00:22:05,669 --> 00:22:03,840
flugfunk forshank sunsalt of

512
00:22:08,630 --> 00:22:05,679
oberfudenhofen

513
00:22:10,710 --> 00:22:08,640

ffo in so far as radio control of the

514

00:22:14,149 --> 00:22:10,720

missile was concerned but was this

515

00:22:16,710 --> 00:22:14,159

really a missile postulates this rider

516

00:22:18,630 --> 00:22:16,720

one person who saw that first short test

517

00:22:20,870 --> 00:22:18,640

flight of the device without its

518

00:22:23,750 --> 00:22:20,880

electrical gear says that quote during

519

00:22:26,149 --> 00:22:23,760

the day it looked like a shining disk

520

00:22:28,950 --> 00:22:26,159

spinning on its axis and during the

521

00:22:29,990 --> 00:22:28,960

night it looked like a burning globe end

522

00:22:32,149 --> 00:22:30,000

quotes

523

00:22:34,789 --> 00:22:32,159

herman garing inspected the progress of

524

00:22:36,789 --> 00:22:34,799

the work a number of times for he hoped

525

00:22:38,950 --> 00:22:36,799

and in fact it happened that the

526
00:22:41,510 --> 00:22:38,960
mechanical principle could also later be

527
00:22:44,149 --> 00:22:41,520
used to produce an offensive weapon

528
00:22:46,310 --> 00:22:44,159
capable of revolutionizing the entire

529
00:22:48,710 --> 00:22:46,320
field of aerial warfare

530
00:22:51,510 --> 00:22:48,720
we're going to call a halt to this talk

531
00:22:54,710 --> 00:22:51,520
of aerial warfare and foo fighters and

532
00:22:58,390 --> 00:22:54,720
fewer balls for this way back wednesday

533
00:23:00,230 --> 00:22:58,400
there's too much content to fit into one

534
00:23:03,830 --> 00:23:00,240
during our next way back wednesday we'll

535
00:23:06,710 --> 00:23:03,840
continue with the nazi ufo mythos we'll

536
00:23:10,230 --> 00:23:06,720
learn more about renato vesco and his

537
00:23:12,870 --> 00:23:10,240
true age which is something of a mystery

538
00:23:15,909 --> 00:23:12,880

we might even venture down to the ice

539

00:23:18,470 --> 00:23:15,919

under antarctica and see what's up

540

00:23:20,710 --> 00:23:18,480

underneath that time is a human

541

00:23:23,510 --> 00:23:20,720

construct but we're out of it for this

542

00:23:25,510 --> 00:23:23,520

broadcast we've gotta fly because that's

543

00:23:28,070 --> 00:23:25,520

a wrap thank you for listening to

544

00:23:31,190 --> 00:23:28,080

inception radio network follow today's

545

00:23:33,430 --> 00:23:31,200

broadcast at ufoheadlinenews.com

546

00:23:35,669 --> 00:23:33,440

take care of each other we're all in

547

00:23:36,360 --> 00:23:35,679

this together this is carol carl see you
