

UFO Headline News Friday July 14th, 2017

Listen on

inceptionradionetwork.com

1
00:00:05,590 --> 00:00:00,870

[Music]

2
00:00:08,310 --> 00:00:05,600

hello it's friday july 14 2017. you are

3
00:00:10,629 --> 00:00:08,320

listening to inception radio network

4
00:00:15,350 --> 00:00:10,639

voice of the fringe majority this is

5
00:00:17,670 --> 00:00:15,360

carol carl with ufo headline news

6
00:00:20,510 --> 00:00:17,680

let's see what's up for our friday night

7
00:00:22,870 --> 00:00:20,520

lights well the ones in the sky that is

8
00:00:25,189 --> 00:00:22,880

earthsky.org says it's going to be a lot

9
00:00:28,470 --> 00:00:25,199

like last night we've got that summer

10
00:00:31,349 --> 00:00:28,480

triangle thing in action tonight vega

11
00:00:33,110 --> 00:00:31,359

and its constellation lira tonight if

12
00:00:35,350 --> 00:00:33,120

you look eastward during the evening

13
00:00:38,389 --> 00:00:35,360

hours it's hard to miss the season's

14

00:00:40,869 --> 00:00:38,399

signature star formation that summer

15

00:00:43,350 --> 00:00:40,879

triangle and as one might expect from

16

00:00:46,869 --> 00:00:43,360

any sensible triangle it's got three

17

00:00:48,709 --> 00:00:46,879

stars vega deneb and altair they're the

18

00:00:51,190 --> 00:00:48,719

first three to light up the eastern half

19

00:00:53,270 --> 00:00:51,200

of the sky after sunset and their bright

20

00:00:55,510 --> 00:00:53,280

and sparkling radiance is even visible

21

00:00:57,670 --> 00:00:55,520

from light polluted cities or even if

22

00:01:00,150 --> 00:00:57,680

you have moonlight glare

23

00:01:02,869 --> 00:01:00,160

try looking first for the prominent star

24

00:01:05,670 --> 00:01:02,879

in the eastern sky that will be vega in

25

00:01:08,070 --> 00:01:05,680

the constellation lira the harp

26

00:01:10,469 --> 00:01:08,080

vega is a blue white star in color and

27

00:01:12,710 --> 00:01:10,479

it's sometimes called the harp star

28

00:01:15,830 --> 00:01:12,720

many people recognize the constellation

29

00:01:17,749 --> 00:01:15,840

lira as a triangle of stars connected to

30

00:01:20,710 --> 00:01:17,759

a parallelogram

31

00:01:22,630 --> 00:01:20,720

it's hard to gauge the humongous size of

32

00:01:25,749 --> 00:01:22,640

the summer triangle by looking at the

33

00:01:28,070 --> 00:01:25,759

chart provided by earthsky.org and of

34

00:01:30,429 --> 00:01:28,080

course one can consult that chart later

35

00:01:32,149 --> 00:01:30,439

by heading over to

36

00:01:34,710 --> 00:01:32,159

ufoheadlinenews.com

37

00:01:37,109 --> 00:01:34,720

if you take a 12-inch ruler at arm's

38

00:01:39,670 --> 00:01:37,119

length from your eye that will span the

39

00:01:42,950 --> 00:01:39,680

approximate distance from vega to the

40

00:01:46,069 --> 00:01:42,960

star i'll tear and an outstretched hand

41

00:01:47,270 --> 00:01:46,079

or less fills that gap between vega and

42

00:01:50,149 --> 00:01:47,280

deneb

43

00:01:52,149 --> 00:01:50,159

more than any other month july is the

44

00:01:53,910 --> 00:01:52,159

month of the summer triangle at

45

00:01:56,870 --> 00:01:53,920

mid-northern latitudes the summer

46

00:01:59,670 --> 00:01:56,880

triangle stars as if a trio of school

47

00:02:02,469 --> 00:01:59,680

kids on vacation says deborah bird they

48

00:02:05,429 --> 00:02:02,479

stay out from dusk till dawn dancing

49

00:02:08,389 --> 00:02:05,439

amid the stars of our milky way galaxy

50

00:02:10,790 --> 00:02:08,399

as our earth turns tonight vega deneb

51
00:02:13,910 --> 00:02:10,800
and altair travel westward across the

52
00:02:15,990 --> 00:02:13,920
sky the summer triangle shines high

53
00:02:18,309 --> 00:02:16,000
overhead in the middle of the night and

54
00:02:21,030 --> 00:02:18,319
sparkles in the west as the rose-colored

55
00:02:24,309 --> 00:02:21,040
dawn begins to color the sky

56
00:02:25,830 --> 00:02:24,319
oh the poetry of the stars

57
00:02:27,750 --> 00:02:25,840
here's something that doesn't have a

58
00:02:29,750 --> 00:02:27,760
very good meter to it certainly doesn't

59
00:02:32,390 --> 00:02:29,760
rhyme and it's not so nice to

60
00:02:36,390 --> 00:02:32,400
contemplate it's this headline nasa

61
00:02:38,949 --> 00:02:36,400
can't afford to put humans on mars conor

62
00:02:41,589 --> 00:02:38,959
gaffey writes this for newsweek

63
00:02:44,229 --> 00:02:41,599

colonizing mars has long captivated the

64

00:02:45,350 --> 00:02:44,239

human imagination and nasa is no

65

00:02:47,270 --> 00:02:45,360

exception

66

00:02:50,229 --> 00:02:47,280

the american space agency has made

67

00:02:52,710 --> 00:02:50,239

landing humans on mars a high priority

68

00:02:55,830 --> 00:02:52,720

of its exploration programs and under

69

00:02:58,150 --> 00:02:55,840

bipartisan 2010 legislation pledged to

70

00:03:00,869 --> 00:02:58,160

develop the capabilities to send humans

71

00:03:03,350 --> 00:03:00,879

to that planet by the 2030s

72

00:03:05,910 --> 00:03:03,360

but there remains a major problem

73

00:03:07,030 --> 00:03:05,920

standing between mankind and the red

74

00:03:08,309 --> 00:03:07,040

planet

75

00:03:10,309 --> 00:03:08,319

money

76

00:03:11,910 --> 00:03:10,319

the head of nasa's program on human

77

00:03:14,790 --> 00:03:11,920

exploration of space william

78

00:03:17,430 --> 00:03:14,800

gerstenmaier said on wednesday that with

79

00:03:19,910 --> 00:03:17,440

its current budget the agency simply

80

00:03:22,229 --> 00:03:19,920

cannot afford the cost of propelling a

81

00:03:24,149 --> 00:03:22,239

manned spacecraft to mars

82

00:03:27,110 --> 00:03:24,159

here's gerstenmaier's quote

83

00:03:30,470 --> 00:03:27,120

through this horizon through the 2030s i

84

00:03:32,630 --> 00:03:30,480

can't put a date on humans on mars end

85

00:03:35,030 --> 00:03:32,640

quotes and that was his response to a

86

00:03:37,030 --> 00:03:35,040

question at a propulsion meeting of the

87

00:03:39,509 --> 00:03:37,040

american institute for aeronautics and

88

00:03:41,270 --> 00:03:39,519

astronautics in georgia

89

00:03:43,430 --> 00:03:41,280

he continued quote

90

00:03:46,149 --> 00:03:43,440

at the budget levels we've described

91

00:03:48,309 --> 00:03:46,159

it's roughly a two percent increase we

92

00:03:51,910 --> 00:03:48,319

don't have the surface systems available

93

00:03:54,470 --> 00:03:51,920

for mars that entry descent and landing

94

00:03:55,589 --> 00:03:54,480

is a huge challenge for us for mars and

95

00:03:57,509 --> 00:03:55,599

quotes

96

00:04:00,149 --> 00:03:57,519

nasa has landed several unmanned

97

00:04:02,710 --> 00:04:00,159

exploratory vehicles on mars in the past

98

00:04:05,509 --> 00:04:02,720

the curiosity rover which landed on mars

99

00:04:07,910 --> 00:04:05,519

august 2012 and will soon be celebrating

100

00:04:12,149 --> 00:04:07,920

its five-year anniversary exploring the

101

00:04:13,910 --> 00:04:12,159

planet cost around 2.5 billion dollars

102

00:04:16,629 --> 00:04:13,920

gerstenmaier set a manned mission to

103

00:04:19,270 --> 00:04:16,639

mars would weigh around 20 times what

104

00:04:22,390 --> 00:04:19,280

previous rovers have weighed quote so

105

00:04:25,270 --> 00:04:22,400

it's a 20-fold increase in capability

106

00:04:27,030 --> 00:04:25,280

and quotes he said likely meaning also a

107

00:04:30,030 --> 00:04:27,040

higher cost

108

00:04:33,749 --> 00:04:30,040

lawmakers allocated nasa a budget of

109

00:04:36,150 --> 00:04:33,759

19.5 billion dollars for the 2017 fiscal

110

00:04:39,350 --> 00:04:36,160

year that equates to less than half a

111

00:04:41,590 --> 00:04:39,360

percent of the overall federal budget

112

00:04:43,510 --> 00:04:41,600

the agency has not produced a specific

113

00:04:46,550 --> 00:04:43,520

figure of the cost of a manned mission

114

00:04:49,430 --> 00:04:46,560

to mars and estimates vary depending on

115

00:04:51,749 --> 00:04:49,440

sources in 2012 the head of nasa's jet

116

00:04:53,909 --> 00:04:51,759

propulsion laboratory brent sherwood

117

00:04:56,950 --> 00:04:53,919

estimated that the project could cost up

118

00:04:58,870 --> 00:04:56,960

to 100 billion dollars over the course

119

00:05:01,909 --> 00:04:58,880

of 30 to 40 years

120

00:05:04,790 --> 00:05:01,919

more recently pascal lee the director of

121

00:05:07,270 --> 00:05:04,800

the mars institute it's a non-profit

122

00:05:09,270 --> 00:05:07,280

research group funded partially by nasa

123

00:05:10,550 --> 00:05:09,280

based at a nasa research center in the

124

00:05:13,270 --> 00:05:10,560

silicon valley

125

00:05:16,230 --> 00:05:13,280

said in may that a human mission to mars

126

00:05:18,390 --> 00:05:16,240

could cost up to 1 trillion

127

00:05:19,990 --> 00:05:18,400

over 25 years

128

00:05:21,990 --> 00:05:20,000

private organizations that are working

129

00:05:25,350 --> 00:05:22,000

on their own missions to mars have

130

00:05:27,670 --> 00:05:25,360

estimated lower costs mars one for

131

00:05:29,270 --> 00:05:27,680

instance a dutch swiss organization

132

00:05:31,830 --> 00:05:29,280

aiming to establish a permanent

133

00:05:34,550 --> 00:05:31,840

settlement on mars aims to bring four

134

00:05:37,749 --> 00:05:34,560

people to mars at a cost of six billion

135

00:05:39,590 --> 00:05:37,759

dollars and spacex founder elon musk who

136

00:05:42,310 --> 00:05:39,600

has said he wants to send humans to mars

137

00:05:46,629 --> 00:05:42,320

in the early 2020s has put the cost at

138

00:05:49,270 --> 00:05:46,639

10 billion per person in 2016.

139

00:05:50,790 --> 00:05:49,280

landing on mars poses numerous threats

140

00:05:53,110 --> 00:05:50,800

for a manned mission

141

00:05:55,670 --> 00:05:53,120

the spacecraft must angle its entry into

142

00:05:58,469 --> 00:05:55,680

the martian atmosphere correctly if it's

143

00:06:00,550 --> 00:05:58,479

too steep the craft may burn up if it's

144

00:06:02,469 --> 00:06:00,560

too shallow the craft may miss the

145

00:06:04,950 --> 00:06:02,479

planet altogether

146

00:06:07,270 --> 00:06:04,960

astronauts must use reverse thrusters

147

00:06:09,430 --> 00:06:07,280

and parachutes to slow the spacecraft

148

00:06:11,830 --> 00:06:09,440

down so that it is not destroyed upon

149

00:06:14,150 --> 00:06:11,840

impact with the surface the craft must

150

00:06:16,469 --> 00:06:14,160

also locate a safe landing surface on

151
00:06:19,430 --> 00:06:16,479
the rucked terrain of mars parts of

152
00:06:21,350 --> 00:06:19,440
which are peppered with gigantic craters

153
00:06:24,870 --> 00:06:21,360
and while research has shown that liquid

154
00:06:28,150 --> 00:06:24,880
water once flowed on mars a recent study

155
00:06:30,230 --> 00:06:28,160
found that the soil is toxic to bacteria

156
00:06:33,670 --> 00:06:30,240
yes we covered that here at ufo headline

157
00:06:36,710 --> 00:06:33,680
news not a good sign bacteria one of the

158
00:06:39,270 --> 00:06:36,720
simplest forms of living organisms and

159
00:06:42,469 --> 00:06:39,280
thus may also pose a problem that

160
00:06:43,749 --> 00:06:42,479
martian toxic soil for sustaining human

161
00:06:52,590 --> 00:06:43,759
life

162
00:06:56,070 --> 00:06:52,600
a mexican town this is from

163
00:06:58,950 --> 00:06:56,080

aol.com dot uk here's the headline

164

00:07:01,430 --> 00:06:58,960

flying saucer caught on camera above

165

00:07:04,230 --> 00:07:01,440

mexican town and this is a united

166

00:07:06,390 --> 00:07:04,240

kingdom travel site by the way

167

00:07:09,270 --> 00:07:06,400

bizarre footage showing what appears to

168

00:07:11,909 --> 00:07:09,280

be a flying saucer-like ufo hovering

169

00:07:15,189 --> 00:07:11,919

above a town has sparked an online

170

00:07:17,029 --> 00:07:15,199

controversy stunned eyewitnesses filmed

171

00:07:19,670 --> 00:07:17,039

the phenomenon with their smartphones in

172

00:07:21,510 --> 00:07:19,680

the small town of progreso de madero

173

00:07:24,070 --> 00:07:21,520

which is located in the ketchulek

174

00:07:25,029 --> 00:07:24,080

municipality of central mexico's puebla

175

00:07:26,710 --> 00:07:25,039

state

176
00:07:28,550 --> 00:07:26,720
the footage and you can find that

177
00:07:30,870 --> 00:07:28,560
footage later via link at ufo

178
00:07:33,909 --> 00:07:30,880
ufoheadlinenews.com

179
00:07:36,629 --> 00:07:33,919
shows a huge black ring hovering in the

180
00:07:37,670 --> 00:07:36,639
sky and it left local residents quite

181
00:07:39,350 --> 00:07:37,680
baffled

182
00:07:41,909 --> 00:07:39,360
some were convinced that it was a flying

183
00:07:44,550 --> 00:07:41,919
saucer others saw that the object was

184
00:07:46,230 --> 00:07:44,560
partially enveloped in a cloud and hence

185
00:07:48,629 --> 00:07:46,240
they thought it was a weather related

186
00:07:50,309 --> 00:07:48,639
phenomenon eyewitnesses can be heard in

187
00:07:52,469 --> 00:07:50,319
the background of the video trying to

188
00:07:55,270 --> 00:07:52,479

explain this apparition

189

00:07:57,589 --> 00:07:55,280

one woman asks what is that and a man

190

00:07:59,749 --> 00:07:57,599

replies a flying saucer

191

00:08:00,950 --> 00:07:59,759

another woman speculates it's a rain

192

00:08:04,070 --> 00:08:00,960

formation

193

00:08:05,589 --> 00:08:04,080

but a man counters no it's not it's a

194

00:08:08,469 --> 00:08:05,599

black wheel

195

00:08:10,230 --> 00:08:08,479

and a woman notes it's going up

196

00:08:12,469 --> 00:08:10,240

the black ring quickly disappeared from

197

00:08:15,909 --> 00:08:12,479

view and there still is no official

198

00:08:18,950 --> 00:08:15,919

explanation for it citizen of the net

199

00:08:20,390 --> 00:08:18,960

netizen alejandro lopez robles was

200

00:08:23,350 --> 00:08:20,400

convinced he had seen something

201
00:08:24,550 --> 00:08:23,360
otherworldly his comment it's a flying

202
00:08:26,469 --> 00:08:24,560
saucer

203
00:08:27,990 --> 00:08:26,479
but xavier burns red

204
00:08:30,710 --> 00:08:28,000
felt there was a more natural

205
00:08:32,949 --> 00:08:30,720
explanation he added quote i have never

206
00:08:35,029 --> 00:08:32,959
seen a whirlwind before

207
00:08:36,630 --> 00:08:35,039
impressive end quotes

208
00:08:39,029 --> 00:08:36,640
there have been a number of reported

209
00:08:41,589 --> 00:08:39,039
sightings of ufos above mexico in recent

210
00:08:43,829 --> 00:08:41,599
months motorist carlos arriola filmed a

211
00:08:46,389 --> 00:08:43,839
black disk in the sky above the city of

212
00:08:48,710 --> 00:08:46,399
morelia in the state of michoacan in

213
00:08:51,829 --> 00:08:48,720

central mexico last april

214

00:08:54,870 --> 00:08:51,839

fascinating stuff it really could be

215

00:08:57,190 --> 00:08:54,880

perhaps the bottom of a whirlwind

216

00:08:59,350 --> 00:08:57,200

it's fascinating to look at these shots

217

00:09:02,710 --> 00:08:59,360

this video there's almost a resemblance

218

00:09:04,790 --> 00:09:02,720

to hole punch clouds as in that famous

219

00:09:08,550 --> 00:09:04,800

hole punch cloud which appeared over

220

00:09:11,509 --> 00:09:08,560

gate 17 at chicago's o'hare field yup

221

00:09:13,590 --> 00:09:11,519

just a cloud but we digress

222

00:09:15,509 --> 00:09:13,600

let's shift our focus now to

223

00:09:19,910 --> 00:09:15,519

openminds.tv

224

00:09:22,949 --> 00:09:19,920

and this headline cloverdale uap project

225

00:09:26,389 --> 00:09:22,959

investigating these spook lights a ufo

226

00:09:28,389 --> 00:09:26,399

phenomenon in alabama well this is new

227

00:09:31,190 --> 00:09:28,399

to this broadcaster let's just jump

228

00:09:32,870 --> 00:09:31,200

right in richard hoffman writes this for

229

00:09:35,269 --> 00:09:32,880

openminds.tv

230

00:09:37,030 --> 00:09:35,279

most ufologists are keenly aware of the

231

00:09:40,790 --> 00:09:37,040

frequent reports of what people often

232

00:09:42,870 --> 00:09:40,800

refer to as orbs which lack much clarity

233

00:09:44,710 --> 00:09:42,880

the term is often used to describe

234

00:09:47,590 --> 00:09:44,720

objects that turn out to be everything

235

00:09:50,389 --> 00:09:47,600

from chinese lanterns to ball plasma and

236

00:09:52,949 --> 00:09:50,399

even navigation lights on aircraft the

237

00:09:54,949 --> 00:09:52,959

terms also used to describe lens flares

238

00:09:57,350 --> 00:09:54,959

created from pointing cameras toward a

239

00:09:59,750 --> 00:09:57,360

bright light source an out of focus

240

00:10:02,230 --> 00:09:59,760

light and is also a dust particle

241

00:10:04,310 --> 00:10:02,240

perhaps that floats in front of a camera

242

00:10:07,030 --> 00:10:04,320

with a bright light and that's seen in

243

00:10:09,110 --> 00:10:07,040

lots of ghost investigations

244

00:10:11,190 --> 00:10:09,120

there exists another class of objects

245

00:10:13,590 --> 00:10:11,200

that science has yet to fully explain

246

00:10:15,990 --> 00:10:13,600

which seem to be a naturally recurring

247

00:10:18,389 --> 00:10:16,000

phenomena seen in certain geographic

248

00:10:20,630 --> 00:10:18,399

areas with increasing frequency

249

00:10:24,150 --> 00:10:20,640

almost always at night

250

00:10:25,910 --> 00:10:24,160

and in 1973 in piedmont missouri they

251

00:10:28,389 --> 00:10:25,920

experienced a rash of sightings of

252

00:10:30,630 --> 00:10:28,399

luminous phenomena this was documented

253

00:10:32,870 --> 00:10:30,640

by dr harley rutledge in his book

254

00:10:35,430 --> 00:10:32,880

project identification

255

00:10:37,829 --> 00:10:35,440

dr rutledge had a team conduct a field

256

00:10:40,710 --> 00:10:37,839

study over a period of years capturing

257

00:10:42,870 --> 00:10:40,720

scientific data video and photographic

258

00:10:45,590 --> 00:10:42,880

evidence they were hoping to learn more

259

00:10:47,509 --> 00:10:45,600

about the nature of this thing

260

00:10:49,750 --> 00:10:47,519

dr rutledge's summary reported that

261

00:10:52,470 --> 00:10:49,760

these lights are consistent with other

262

00:10:54,550 --> 00:10:52,480

observations in other areas

263

00:10:57,509 --> 00:10:54,560

so let's head from missouri to

264

00:10:59,190 --> 00:10:57,519

cloverdale alabama it's a small town

265

00:11:01,430 --> 00:10:59,200

located in the northwestern part of

266

00:11:04,230 --> 00:11:01,440

alabama and similar lights were being

267

00:11:06,310 --> 00:11:04,240

seen almost nightly they appeared to be

268

00:11:07,509 --> 00:11:06,320

balls of luminous lights of varying

269

00:11:09,670 --> 00:11:07,519

colors

270

00:11:12,790 --> 00:11:09,680

residents saw these objects so

271

00:11:15,829 --> 00:11:12,800

frequently they just ignored them quote

272

00:11:17,750 --> 00:11:15,839

it's those dang lights again end quotes

273

00:11:21,590 --> 00:11:17,760

the coverdale phenomena continues to

274

00:11:23,670 --> 00:11:21,600

appear even today enter wyatt cox he's a

275

00:11:26,230 --> 00:11:23,680

former native of the area he now lives

276

00:11:28,790 --> 00:11:26,240

in south carolina and has documented and

277

00:11:31,269 --> 00:11:28,800

classified many hundreds of sightings

278

00:11:33,350 --> 00:11:31,279

that a friend and he observed and he's

279

00:11:35,990 --> 00:11:33,360

got this in his book the book is

280

00:11:39,350 --> 00:11:36,000

entitled spook lights the amazing

281

00:11:41,190 --> 00:11:39,360

coverdale alabama spooklight mystery

282

00:11:43,990 --> 00:11:41,200

wyatt cox has done an excellent job in

283

00:11:45,750 --> 00:11:44,000

creating a classification system for the

284

00:11:47,509 --> 00:11:45,760

variation scene

285

00:11:51,430 --> 00:11:47,519

in other words the colors that tend to

286

00:11:53,910 --> 00:11:51,440

be blue or yellow orange or white etc

287

00:11:57,030 --> 00:11:53,920

these lights vary in size speed and

288

00:11:58,949 --> 00:11:57,040

duration based on the colors noted

289

00:12:01,509 --> 00:11:58,959

white lights are generally seen during

290

00:12:03,509 --> 00:12:01,519

warmer months whereas the yellow orange

291

00:12:05,910 --> 00:12:03,519

lights tend to be seen during the cooler

292

00:12:08,389 --> 00:12:05,920

months october through april

293

00:12:11,269 --> 00:12:08,399

the spook lights now referred to as

294

00:12:13,590 --> 00:12:11,279

earth lights by wyatt cox tend to be

295

00:12:15,430 --> 00:12:13,600

eight feet in diameter the blue and

296

00:12:16,550 --> 00:12:15,440

white ones are two to four feet in

297

00:12:19,110 --> 00:12:16,560

diameter

298

00:12:21,910 --> 00:12:19,120

they travel in straight line paths east

299

00:12:24,470 --> 00:12:21,920

to west or reversed and they can be at

300

00:12:26,629 --> 00:12:24,480

ground level and rise to altitudes of

301

00:12:29,110 --> 00:12:26,639

several thousand feet

302

00:12:32,629 --> 00:12:29,120

they move at 20 miles per hour but they

303

00:12:33,829 --> 00:12:32,639

can also stop and then proceed in their

304

00:12:35,829 --> 00:12:33,839

path

305

00:12:38,389 --> 00:12:35,839

the lights can go out and then come back

306

00:12:41,910 --> 00:12:38,399

on as they proceed on this path and they

307

00:12:44,069 --> 00:12:41,920

generally disappear by just fading out

308

00:12:46,310 --> 00:12:44,079

every serious ufo researcher and field

309

00:12:48,069 --> 00:12:46,320

investigator needs to get a copy of

310

00:12:50,389 --> 00:12:48,079

these books mentioned here says richard

311

00:12:52,470 --> 00:12:50,399

hoffman along with other works for

312

00:12:54,949 --> 00:12:52,480

instance william corliss who writes on

313

00:12:56,710 --> 00:12:54,959

luminous phenomena corliss has done an

314

00:12:59,110 --> 00:12:56,720

excellent job of categorizing

315

00:13:01,910 --> 00:12:59,120

referencing and even illustrating the

316

00:13:03,590 --> 00:13:01,920

myriads and types of luminous phenomena

317

00:13:06,870 --> 00:13:03,600

observed on the earth

318

00:13:09,590 --> 00:13:06,880

both corliss and cox see these objects

319

00:13:11,509 --> 00:13:09,600

as naturally occurring phenomena not

320

00:13:13,110 --> 00:13:11,519

alien spacecraft

321

00:13:15,509 --> 00:13:13,120

they're very similar to the lights in

322

00:13:17,750 --> 00:13:15,519

hestell and norway and to the marvel

323

00:13:20,310 --> 00:13:17,760

lights the paulding lights crosset

324

00:13:23,030 --> 00:13:20,320

lights gordon lights and one could go on

325

00:13:25,430 --> 00:13:23,040

and on various other areas around the

326

00:13:28,389 --> 00:13:25,440

globe it's richard hoffman's opinion

327

00:13:30,150 --> 00:13:28,399

that it can explain a vast number of ufo

328

00:13:33,509 --> 00:13:30,160

sightings even outside of these

329

00:13:35,509 --> 00:13:33,519

geographic areas reporting the orbs

330

00:13:38,230 --> 00:13:35,519

and now similar to the field study

331

00:13:40,550 --> 00:13:38,240

conducted by dr rutledge a scientific

332

00:13:42,949 --> 00:13:40,560

field investigation is being planned for

333

00:13:44,470 --> 00:13:42,959

the coverdale area this fall

334

00:13:46,949 --> 00:13:44,480

they're seeking to secure the best

335

00:13:49,829 --> 00:13:46,959

equipment possible spectroscopes

336

00:13:51,990 --> 00:13:49,839

gravimeters magnetometers cameras

337

00:13:54,389 --> 00:13:52,000

capturing images in multiple parts of

338

00:13:56,550 --> 00:13:54,399

the electromagnetic spectrum and other

339

00:13:59,269 --> 00:13:56,560

data collection tools they're going to

340

00:14:01,590 --> 00:13:59,279

have trained users of that equipment to

341

00:14:03,350 --> 00:14:01,600

see what they can learn

342

00:14:05,430 --> 00:14:03,360

plans include the possible use of a

343

00:14:07,590 --> 00:14:05,440

drone to see if they can get close-ups

344

00:14:08,790 --> 00:14:07,600

of these lights drones equipped with

345

00:14:11,430 --> 00:14:08,800

sensors

346

00:14:13,750 --> 00:14:11,440

the outcome will be to deliver a report

347

00:14:15,269 --> 00:14:13,760

on their findings and share the data

348

00:14:17,670 --> 00:14:15,279

collected they've already begun

349

00:14:21,350 --> 00:14:17,680

collecting geological data earthquake

350

00:14:22,629 --> 00:14:21,360

zone data and weather data for the area

351
00:14:24,949 --> 00:14:22,639
if you're interested in this study

352
00:14:26,790 --> 00:14:24,959
enough to want to find out more

353
00:14:29,030 --> 00:14:26,800
there's a link you can check out later

354
00:14:31,509 --> 00:14:29,040
at ufo headline news you can contact

355
00:14:33,269 --> 00:14:31,519
richard hoffman who wrote this article

356
00:14:36,629 --> 00:14:33,279
and it sounds to us like he's going to

357
00:14:38,949 --> 00:14:36,639
be part of this field investigation cool

358
00:14:39,629 --> 00:14:38,959
we're sure he will keep everybody posted

359
00:14:44,949 --> 00:14:39,639
at

360
00:14:48,870 --> 00:14:44,959
headline news on inception radio we will

361
00:14:51,829 --> 00:14:48,880
keep you in that loop spooklights cool

362
00:14:55,230 --> 00:14:51,839
from alabama let's go not too far away

363
00:14:57,990 --> 00:14:55,240

to kansas city missouri this is a

364

00:15:01,030 --> 00:14:58,000

ufostalker.com event mufon gave it a

365

00:15:02,230 --> 00:15:01,040

case number eight five zero four oh wow

366

00:15:04,470 --> 00:15:02,240

you're actually wearing your hair down

367

00:15:06,389 --> 00:15:04,480

tonight yeah because i finally decided

368

00:15:08,629 --> 00:15:06,399

that i love my hair i figured out the

369

00:15:11,350 --> 00:15:08,639

solution for my morning frizz mid-day

370

00:15:13,269 --> 00:15:11,360

poof and even next day bed head it's

371

00:15:15,350 --> 00:15:13,279

frizz e secret weapon touch-up cream by

372

00:15:18,790 --> 00:15:15,360

john frieda well you and your hair look

373

00:15:22,550 --> 00:15:18,800

flawless flawless and touchable feel

374

00:15:24,870 --> 00:15:22,560

see it's soft smooth ends no flyaways

375

00:15:27,590 --> 00:15:24,880

shiny well i clearly need to get some

376

00:15:30,310 --> 00:15:27,600

because your hair looks amazing frizz e

377

00:15:33,189 --> 00:15:30,320

secret weapon only from john frieda four

378

00:15:36,150 --> 00:15:33,199

seven this took place and was reported

379

00:15:38,150 --> 00:15:36,160

on july 11 2017

380

00:15:39,590 --> 00:15:38,160

here's what the summary says according

381

00:15:42,949 --> 00:15:39,600

to our witness

382

00:15:45,990 --> 00:15:42,959

cylinder object in sky no sound

383

00:15:48,150 --> 00:15:46,000

flames emitting from rear

384

00:15:51,030 --> 00:15:48,160

sighting specifics go something like

385

00:15:54,389 --> 00:15:51,040

this a viewing distance unknown an

386

00:15:57,030 --> 00:15:54,399

altitude also unknown citing duration

387

00:15:59,030 --> 00:15:57,040

three minutes the object features

388

00:16:01,670 --> 00:15:59,040

unknown and the flight path was

389

00:16:03,670 --> 00:16:01,680

stationary a straight line path

390

00:16:06,470 --> 00:16:03,680

according to the witness the object

391

00:16:09,590 --> 00:16:06,480

shape category doesn't apply it's a

392

00:16:12,710 --> 00:16:09,600

short report sounds kind of cozy kansas

393

00:16:14,949 --> 00:16:12,720

city missouri here's what happened

394

00:16:17,110 --> 00:16:14,959

i was sitting on my neighbor's porch

395

00:16:18,870 --> 00:16:17,120

when she pointed and said

396

00:16:21,670 --> 00:16:18,880

what is that

397

00:16:24,870 --> 00:16:21,680

our witness then just adds these words

398

00:16:26,310 --> 00:16:24,880

cylindrical object larger possibly lower

399

00:16:29,269 --> 00:16:26,320

than a plane

400

00:16:30,230 --> 00:16:29,279

red flames seemed to emit from the tail

401
00:16:31,910 --> 00:16:30,240
end

402
00:16:33,110 --> 00:16:31,920
it seemed to move from northeast to

403
00:16:35,590 --> 00:16:33,120
southwest

404
00:16:37,670 --> 00:16:35,600
it was obscured by trees

405
00:16:40,870 --> 00:16:37,680
my neighbor claims to have seen it hover

406
00:16:42,150 --> 00:16:40,880
in one spot then it disappeared i never

407
00:16:45,110 --> 00:16:42,160
saw it again

408
00:16:47,590 --> 00:16:45,120
i got out my phone to record it but it

409
00:16:49,590 --> 00:16:47,600
disappeared before i could

410
00:16:51,670 --> 00:16:49,600
yup they do that

411
00:16:55,030 --> 00:16:51,680
let's head over to the state of

412
00:16:58,150 --> 00:16:55,040
tennessee the city of lenoir city they

413
00:17:00,310 --> 00:16:58,160

spell that l-e-n-o-i-r

414

00:17:02,790 --> 00:17:00,320

this is a report from the new fork

415

00:17:04,470 --> 00:17:02,800

database that's the national ufo

416

00:17:06,710 --> 00:17:04,480

reporting center

417

00:17:09,590 --> 00:17:06,720

this occurrence took place june 21st

418

00:17:12,549 --> 00:17:09,600

2017 it got a same-day report but

419

00:17:14,390 --> 00:17:12,559

somehow just appeared recently

420

00:17:16,150 --> 00:17:14,400

the shape of this object is simply

421

00:17:17,909 --> 00:17:16,160

described as light

422

00:17:19,189 --> 00:17:17,919

and the duration of the sighting was 30

423

00:17:22,309 --> 00:17:19,199

seconds

424

00:17:27,189 --> 00:17:22,319

two orbs traveling side by side under

425

00:17:30,070 --> 00:17:27,199

dense cloud coverage at 409 a.m

426

00:17:31,510 --> 00:17:30,080

i awoke at 4 00 am i went outside to

427

00:17:33,830 --> 00:17:31,520

smoke a cigarette

428

00:17:35,270 --> 00:17:33,840

i also looked around to see what the

429

00:17:37,029 --> 00:17:35,280

weather was like

430

00:17:37,990 --> 00:17:37,039

i noticed the clouds were thick and

431

00:17:40,710 --> 00:17:38,000

dense

432

00:17:42,470 --> 00:17:40,720

there were no stars visible no aircraft

433

00:17:44,950 --> 00:17:42,480

apparent at this time

434

00:17:47,029 --> 00:17:44,960

i live 15 miles from an airport so i

435

00:17:49,029 --> 00:17:47,039

notice aircraft daily

436

00:17:51,830 --> 00:17:49,039

there are no trees in my yard and i have

437

00:17:53,990 --> 00:17:51,840

a large open neighborhood as well

438

00:17:54,870 --> 00:17:54,000

as i stared out looking towards the

439

00:17:57,430 --> 00:17:54,880

south

440

00:17:59,590 --> 00:17:57,440

i noticed light above me

441

00:18:02,150 --> 00:17:59,600

when i looked up i saw two lights

442

00:18:03,430 --> 00:18:02,160

traveling from the north coming directly

443

00:18:05,990 --> 00:18:03,440

over me

444

00:18:07,669 --> 00:18:06,000

they appeared to be no more than 150

445

00:18:09,830 --> 00:18:07,679

feet in the air

446

00:18:11,990 --> 00:18:09,840

i watched as they traveled i could

447

00:18:14,549 --> 00:18:12,000

clearly see them below the clouds and

448

00:18:16,710 --> 00:18:14,559

they were not a part of any aircraft nor

449

00:18:17,990 --> 00:18:16,720

were they attached to any object such as

450

00:18:19,830 --> 00:18:18,000

a drone

451
00:18:22,070 --> 00:18:19,840
i watched for about seven seconds as

452
00:18:25,029 --> 00:18:22,080
they turned off

453
00:18:27,190 --> 00:18:25,039
i then felt fear come over me for i was

454
00:18:29,430 --> 00:18:27,200
aware there was no other explanation

455
00:18:30,870 --> 00:18:29,440
that i could fathom for these lights

456
00:18:33,510 --> 00:18:30,880
being there

457
00:18:35,669 --> 00:18:33,520
this was very close highly visible there

458
00:18:38,230 --> 00:18:35,679
was no mistaking this for an aircraft

459
00:18:40,310 --> 00:18:38,240
there was no noise and it wasn't

460
00:18:43,350 --> 00:18:40,320
consistent in speeds of typical

461
00:18:45,190 --> 00:18:43,360
airplanes or helicopters and the stars

462
00:18:47,430 --> 00:18:45,200
and clouds were so thick they were

463
00:18:49,590 --> 00:18:47,440

covering the entire sky

464

00:18:52,630 --> 00:18:49,600

i went back into my home to retrieve my

465

00:18:54,710 --> 00:18:52,640

phone i came back out and as i stepped

466

00:18:57,830 --> 00:18:54,720

out i could see that one of those orbs

467

00:18:59,990 --> 00:18:57,840

or lights was turned back around heading

468

00:19:02,950 --> 00:19:00,000

back in the direction on a northerly

469

00:19:05,510 --> 00:19:02,960

path the path it originally came from

470

00:19:07,909 --> 00:19:05,520

the other light wasn't visible

471

00:19:10,470 --> 00:19:07,919

the visible light then turned off or

472

00:19:11,669 --> 00:19:10,480

burned out just as the porch door closed

473

00:19:14,150 --> 00:19:11,679

behind me

474

00:19:16,310 --> 00:19:14,160

i could still see a sort of ember or an

475

00:19:18,710 --> 00:19:16,320

outline of this light but i'm not sure

476

00:19:20,630 --> 00:19:18,720

if it wasn't just my eyes adjusting to

477

00:19:23,029 --> 00:19:20,640

what they had seen

478

00:19:24,549 --> 00:19:23,039

the chirping of the morning birds was

479

00:19:27,270 --> 00:19:24,559

the only sound

480

00:19:30,630 --> 00:19:27,280

interesting the birds chirping in lots

481

00:19:33,270 --> 00:19:30,640

of citing events everything natural goes

482

00:19:35,510 --> 00:19:33,280

silent even the crickets

483

00:19:38,150 --> 00:19:35,520

let's shift our trajectory to the east

484

00:19:40,070 --> 00:19:38,160

coast of the united states and hope that

485

00:19:42,470 --> 00:19:40,080

the folks back there are having better

486

00:19:45,750 --> 00:19:42,480

weather than they did yesterday lots of

487

00:19:48,310 --> 00:19:45,760

chaos lots of thunderstorms etc we'll go

488

00:19:50,029 --> 00:19:48,320

to jefferson new hampshire that's where

489

00:19:52,950 --> 00:19:50,039

mufon case number

490

00:19:56,310 --> 00:19:52,960

85086 took place the date of this

491

00:19:59,990 --> 00:19:56,320

sighting is the 10th of july 2017 it was

492

00:20:03,430 --> 00:20:00,000

reported july 13 2017

493

00:20:07,110 --> 00:20:03,440

the summary orb appeared as fireball

494

00:20:11,029 --> 00:20:07,120

moved northward slowly then north north

495

00:20:13,350 --> 00:20:11,039

east rapidly then disappeared

496

00:20:15,029 --> 00:20:13,360

video is provided by our witness here

497

00:20:17,350 --> 00:20:15,039

and you can check that out later at

498

00:20:19,430 --> 00:20:17,360

ufoheadlinenews.com

499

00:20:21,590 --> 00:20:19,440

there's also a still shot

500

00:20:24,950 --> 00:20:21,600

the viewing distance under the sighting

501
00:20:28,149 --> 00:20:24,960
specifics categories was 501 feet

502
00:20:29,510 --> 00:20:28,159
eventually one mile the altitude was 500

503
00:20:31,110 --> 00:20:29,520
feet or less

504
00:20:33,110 --> 00:20:31,120
the duration of this sighting was three

505
00:20:35,430 --> 00:20:33,120
minutes and the object features are

506
00:20:38,310 --> 00:20:35,440
simply reported as none

507
00:20:40,710 --> 00:20:38,320
the flight path was a path including at

508
00:20:43,110 --> 00:20:40,720
some point directional change

509
00:20:45,510 --> 00:20:43,120
the object shape sphere

510
00:20:47,750 --> 00:20:45,520
there's a little bit of weather so let's

511
00:20:50,710 --> 00:20:47,760
read it the maximum temperature was 80

512
00:20:53,270 --> 00:20:50,720
degrees fahrenheit 27 degrees celsius

513
00:20:56,470 --> 00:20:53,280

dropping down to a minimum temperature

514

00:20:57,750 --> 00:20:56,480

of 55 degrees fahrenheit 13 degrees

515

00:21:00,549 --> 00:20:57,760

celsius

516

00:21:03,990 --> 00:21:00,559

the visibility factor's maximum was 10

517

00:21:06,310 --> 00:21:04,000

miles 16 kilometers as was the mean

518

00:21:09,350 --> 00:21:06,320

visibility and the minimum

519

00:21:11,990 --> 00:21:09,360

the conditions were nothing abnormal for

520

00:21:12,789 --> 00:21:12,000

jefferson new hampshire's weather

521

00:21:17,909 --> 00:21:12,799

so

522

00:21:20,549 --> 00:21:17,919

on july 10th my wife and i were camping

523

00:21:23,110 --> 00:21:20,559

at the lantern campground in jefferson

524

00:21:24,630 --> 00:21:23,120

new hampshire it was just after 9 00 pm

525

00:21:25,990 --> 00:21:24,640

and my wife and i were sitting by the

526

00:21:29,029 --> 00:21:26,000

campfire

527

00:21:30,630 --> 00:21:29,039

my wife yelled to me asking me eric what

528

00:21:32,950 --> 00:21:30,640

is that in the sky

529

00:21:33,990 --> 00:21:32,960

initially i looked and i couldn't see

530

00:21:36,070 --> 00:21:34,000

anything

531

00:21:38,070 --> 00:21:36,080

the portable canopy we set up apparently

532

00:21:39,750 --> 00:21:38,080

was blocking my view

533

00:21:42,549 --> 00:21:39,760

my wife then repeated her question

534

00:21:44,310 --> 00:21:42,559

asking what was that in the sky

535

00:21:46,070 --> 00:21:44,320

she then motioned for me to come over to

536

00:21:47,990 --> 00:21:46,080

where she was she was sitting in her

537

00:21:49,110 --> 00:21:48,000

chair she wanted me to see this for

538

00:21:51,590 --> 00:21:49,120

myself

539

00:21:53,830 --> 00:21:51,600

so i got up and walked over to her

540

00:21:56,390 --> 00:21:53,840

looking into the sky

541

00:21:59,590 --> 00:21:56,400

i could not believe my eyes

542

00:22:02,750 --> 00:21:59,600

it was a yellow orange glowing orb-like

543

00:22:04,950 --> 00:22:02,760

object moving very slowly in a

544

00:22:07,270 --> 00:22:04,960

north-northeasterly direction

545

00:22:09,669 --> 00:22:07,280

it appeared to be pulsating

546

00:22:11,750 --> 00:22:09,679

at first i wasn't sure that it wasn't a

547

00:22:13,190 --> 00:22:11,760

chinese flying lantern i've seen those

548

00:22:15,510 --> 00:22:13,200

on tv

549

00:22:17,430 --> 00:22:15,520

i thought this could possibly be the

550

00:22:19,270 --> 00:22:17,440

explanation as this object appeared to

551

00:22:21,669 --> 00:22:19,280

be on fire

552

00:22:24,149 --> 00:22:21,679

i very quickly dismissed this assumption

553

00:22:26,470 --> 00:22:24,159

as the orb appeared much more spherical

554

00:22:28,549 --> 00:22:26,480

in appearance than any lantern

555

00:22:31,029 --> 00:22:28,559

so i quickly retrieved my phone from my

556

00:22:33,029 --> 00:22:31,039

camp chair and took a photograph

557

00:22:37,430 --> 00:22:33,039

i then switched the camera to video and

558

00:22:40,470 --> 00:22:37,440

began recording the video of this orb

559

00:22:42,789 --> 00:22:40,480

i recorded 22 seconds of video

560

00:22:44,630 --> 00:22:42,799

i stopped recording then because as i

561

00:22:46,230 --> 00:22:44,640

was recording it looked to me like the

562

00:22:48,230 --> 00:22:46,240

video quality wasn't very good it

563

00:22:50,470 --> 00:22:48,240

appeared very grainy

564

00:22:52,630 --> 00:22:50,480

after i stopped the recording the orb

565

00:22:55,430 --> 00:22:52,640

continued for another minute or two in a

566

00:22:57,110 --> 00:22:55,440

north northeastern direction

567

00:22:59,590 --> 00:22:57,120

rather quickly then

568

00:23:01,830 --> 00:22:59,600

this orb changed course to head to a

569

00:23:04,149 --> 00:23:01,840

more northerly direction and it appeared

570

00:23:06,710 --> 00:23:04,159

to accelerate quickly

571

00:23:08,789 --> 00:23:06,720

the orb appeared smaller and smaller and

572

00:23:11,110 --> 00:23:08,799

disappeared from sight

573

00:23:14,390 --> 00:23:11,120

altogether this entire incident lasted

574

00:23:17,669 --> 00:23:14,400

approximately two to three minutes

575

00:23:20,149 --> 00:23:17,679

oh two two three very dramatic minutes

576

00:23:22,470 --> 00:23:20,159

thank you for your report eric

577

00:23:26,070 --> 00:23:22,480

let's swing on over to the state of

578

00:23:29,029 --> 00:23:26,080

delaware city of ocean view move on case

579

00:23:30,870 --> 00:23:29,039

number eight five zero four four

580

00:23:33,430 --> 00:23:30,880

the date of this sighting was the 11th

581

00:23:34,549 --> 00:23:33,440

of july this year it got a same-day

582

00:23:37,750 --> 00:23:34,559

report

583

00:23:39,510 --> 00:23:37,760

here's the summary removing items from

584

00:23:41,669 --> 00:23:39,520

back of truck

585

00:23:43,830 --> 00:23:41,679

notice bright light

586

00:23:46,149 --> 00:23:43,840

pulled out phone to video

587

00:23:49,029 --> 00:23:46,159

phone preset to picture

588

00:23:52,230 --> 00:23:49,039

orange fire light craft veering left

589

00:23:55,029 --> 00:23:52,240

then right in an s curve

590

00:23:56,950 --> 00:23:55,039

well that's just the summary there is a

591

00:23:59,590 --> 00:23:56,960

set of still shots captured by our

592

00:24:02,310 --> 00:23:59,600

witness and you can find those later at

593

00:24:04,630 --> 00:24:02,320

ufoheadlinenews.com

594

00:24:07,909 --> 00:24:04,640

citing specifics provide a viewing

595

00:24:11,669 --> 00:24:07,919

distance of 501 feet eventually turning

596

00:24:13,990 --> 00:24:11,679

to one mile the altitude was over 500

597

00:24:16,310 --> 00:24:14,000

feet and that night in ocean view

598

00:24:18,630 --> 00:24:16,320

delaware there was cloud cover

599

00:24:21,510 --> 00:24:18,640

the sighting duration 20 minutes

600

00:24:23,990 --> 00:24:21,520

object features unknown the flight path

601
00:24:26,630 --> 00:24:24,000
was a path with directional change and

602
00:24:28,149 --> 00:24:26,640
this object's shape is described as

603
00:24:30,789 --> 00:24:28,159
fireball

604
00:24:33,110 --> 00:24:30,799
it started out with just the ordinary

605
00:24:35,990 --> 00:24:33,120
usual things one does in the business of

606
00:24:38,470 --> 00:24:36,000
living our witness had quote just

607
00:24:41,110 --> 00:24:38,480
returned from market with items in the

608
00:24:42,630 --> 00:24:41,120
bed of my truck i was carrying the items

609
00:24:45,029 --> 00:24:42,640
into my house

610
00:24:48,070 --> 00:24:45,039
when returning to the truck i noticed an

611
00:24:49,909 --> 00:24:48,080
orange fire-like light in the clearing

612
00:24:51,750 --> 00:24:49,919
in front of my house

613
00:24:53,750 --> 00:24:51,760

at first i thought it was a strange

614

00:24:57,029 --> 00:24:53,760

colored light for a plane

615

00:24:59,590 --> 00:24:57,039

and it glowed like a fire in the sky

616

00:25:02,870 --> 00:24:59,600

so i pulled out my phone to video this

617

00:25:05,750 --> 00:25:02,880

light however my phone camera is set to

618

00:25:08,070 --> 00:25:05,760

photo so i pushed the button and i was

619

00:25:10,390 --> 00:25:08,080

able to capture a shot before the light

620

00:25:13,190 --> 00:25:10,400

disappeared behind the trees

621

00:25:15,190 --> 00:25:13,200

i witnessed this craft veer left and

622

00:25:18,230 --> 00:25:15,200

then veer right again

623

00:25:21,269 --> 00:25:18,240

as if it were going through an s curve

624

00:25:23,750 --> 00:25:21,279

the light ejected or shot a flash of

625

00:25:26,549 --> 00:25:23,760

light a beam from the bottom of the

626

00:25:29,350 --> 00:25:26,559

craft and at that moment i doubted it

627

00:25:31,510 --> 00:25:29,360

was a plane a pulse of light the same

628

00:25:34,149 --> 00:25:31,520

color as this craft was shot straight

629

00:25:35,990 --> 00:25:34,159

down from the bottom of the craft

630

00:25:37,590 --> 00:25:36,000

immediatly i ran inside the house with

631

00:25:40,070 --> 00:25:37,600

the picture and showed my wife and

632

00:25:42,630 --> 00:25:40,080

daughter we all walked outside to see if

633

00:25:45,029 --> 00:25:42,640

we could see the craft again but we did

634

00:25:47,430 --> 00:25:45,039

not that's how it rolls

635

00:25:49,669 --> 00:25:47,440

we gotta roll because

636

00:25:52,549 --> 00:25:49,679

that's a wrap thank you for listening to

637

00:25:55,590 --> 00:25:52,559

inception radio network join us for the

638

00:25:57,350 --> 00:25:55,600

weekend as we go off the beaten path

639

00:25:59,430 --> 00:25:57,360

take care of each other we're all in

640

00:26:00,590 --> 00:25:59,440

this together this is carol carl see you
