1
00:00:06,200 --> 00:00:02,330
hello it's the weekend of Saturday July

2
00:00:08,270 --> 00:00:06,210
15th and Sunday July 16th 2017 you are

3
00:00:10,759 --> 00:00:08,280
listening to inception Radio Network

4
00:00:13,009 --> 00:00:10,769
voice of the fringe majority this is

5
00:00:15,919 --> 00:00:13,019
Carole Karl with off the beaten path for

6
00:00:18,769 --> 00:00:15,929
the UFO heavenly news it's a weekend

7
00:00:21,500 --> 00:00:18,779
with skies to watch and so here's what

8
00:00:24,080 --> 00:00:21,510
earth sky dot-org promises tonight and

9
00:00:26,509 --> 00:00:24,090
probably tomorrow night too but just a

10
00:00:29,240 --> 00:00:26,519
slightly different version we get to

11
00:00:32,450 --> 00:00:29,250
talk about o fiocchis the 13th

12
00:00:34,120 --> 00:00:32,460
constellation of the zodiac tonight look

13
00:00:37,610 --> 00:00:34,130

for the faint constellation Ophiuchus

14

00:00:40,220 --> 00:00:37,620

the serpent bearer from the northern

15

00:00:42,860 --> 00:00:40,230

hemisphere looks southward at mid to

16

00:00:44,720 --> 00:00:42,870

late evening all the month of July from

17

00:00:47,119 --> 00:00:44,730

the southern hemisphere look about that

18

00:00:49,790 --> 00:00:47,129

same time but look directly over your

19

00:00:50,540 --> 00:00:49,800

heads from all parts of Earth in the

20

00:00:54,350 --> 00:00:50,550

month of July

21

00:00:58,010 --> 00:00:54,360

Ophiuchus oh let's spell that it's OPH I

22

00:01:00,860 --> 00:00:58,020

you see H us it's sometimes called the

23

00:01:03,500 --> 00:01:00,870

13th or the Forgotten constellation of

24

00:01:05,960 --> 00:01:03,510

the zodiac the Sun passes in front of

25

00:01:09,109 --> 00:01:05,970

Ophiuchus from about November 29th to

26
00:01:11,230 --> 00:01:09,119
December 17th and yet no one ever says

27
00:01:14,090 --> 00:01:11,240
they're born when the Sun is in

28
00:01:15,880 --> 00:01:14,100
Ophiuchus astrologically speaking and

29
00:01:18,950 --> 00:01:15,890
that's because Ophiuchus is a

30
00:01:22,190 --> 00:01:18,960
constellation but not a sign of the

31
00:01:24,289 --> 00:01:22,200
zodiac so what's the difference well

32
00:01:27,950 --> 00:01:24,299
according to this article from earth sky

33
00:01:30,200 --> 00:01:27,960
org put together by Bruce McClure the 12

34
00:01:33,649 --> 00:01:30,210
signs of the tropical zodiac represent

35
00:01:36,260 --> 00:01:33,659
equal 30-degree divisions of sky while

36
00:01:39,170 --> 00:01:36,270
the 13 constellations of the zodiac are

37
00:01:41,749 --> 00:01:39,180
of various sizes that's why for example

38
00:01:44,840 --> 00:01:41,759

the Sun resides in front of each zodiac

39

00:01:47,270 --> 00:01:44,850

assign for a precise interval of about a

40

00:01:49,340 --> 00:01:47,280

month meanwhile the Sun is in front of

41

00:01:51,770 --> 00:01:49,350

the constellations for varying amounts

42

00:01:54,080 --> 00:01:51,780

of time for example in front of the

43

00:01:56,480 --> 00:01:54,090

constellation Virgo it's there for about

44

00:01:58,969 --> 00:01:56,490

1 and 1/2 months and in front of

45

00:02:01,639 --> 00:01:58,979

Scorpius that constellation for about a

46

00:02:04,190 --> 00:02:01,649

week the planet Saturn and the bright

47

00:02:06,830 --> 00:02:04,200

red star Antares in the constellation

48

00:02:09,109 --> 00:02:06,840

Scorpius the scorpion can help you find

49

00:02:11,740 --> 00:02:09,119

Ophiuchus in your night sky

50

00:02:13,490 --> 00:02:11,750

Saturn actually shines in front of

51

00:02:16,340 --> 00:02:13,500

Ophiuchus this year

52

00:02:20,000 --> 00:02:16,350

meanwhile Ophiuchus is to the north of

53

00:02:22,760 --> 00:02:20,010

that star antares Ophiuchus the serpent

54

00:02:25,370 --> 00:02:22,770

bearer on sky maps it's depicted as

55

00:02:27,170 --> 00:02:25,380

holding serpens the serpent which is

56

00:02:29,810 --> 00:02:27,180

considered a separate constellation

57

00:02:33,440 --> 00:02:29,820

altogether according to ancient Greek

58

00:02:38,060 --> 00:02:33,450

star lore Ophiuchus is Asclepius and

59

00:02:40,340 --> 00:02:38,070

that's both ASC le p I us the physician

60

00:02:42,530 --> 00:02:40,350

who concocted a healing potion from the

61

00:02:45,920 --> 00:02:42,540

Serpent's venom mixing it with the

62

00:02:48,800 --> 00:02:45,930

Gorgons blood and some unknown herb this

63

00:02:50,900 --> 00:02:48,810

potion gave humans access to immortality

64

00:02:53,810 --> 00:02:50,910

until the god of the underworld appealed

65

00:02:56,630 --> 00:02:53,820

to Zeus to reconsider the ramifications

66

00:02:59,630 --> 00:02:56,640

of the death of death and here's an

67

00:03:02,180 --> 00:02:59,640

interesting fact even today that staff

68

00:03:05,000 --> 00:03:02,190

of Asclepius the symbol of the world

69

00:03:07,250 --> 00:03:05,010

health organization pays tribute to the

70

00:03:10,160 --> 00:03:07,260

constellation Ophiuchus the serpent

71

00:03:12,290 --> 00:03:10,170

bearer so here's that old bottom line in

72

00:03:15,170 --> 00:03:12,300

the form of a question will you see

73

00:03:17,900 --> 00:03:15,180

faint Ophiuchus that overlooked zodiacal

74

00:03:19,280 --> 00:03:17,910

constellation tonight well go out there

75

00:03:21,920 --> 00:03:19,290

and give it a try

76

00:03:24,650 --> 00:03:21,930

and of course later here at UFO headline

77

00:03:26,870 --> 00:03:24,660

news calm you can head on over and check

78

00:03:29,000 --> 00:03:26,880

out the wonderful charts and graphs that

79

00:03:32,840 --> 00:03:29,010

always accompany the earth sky dot org

80

00:03:34,850 --> 00:03:32,850

articles they are glorious trying to

81

00:03:38,000 --> 00:03:34,860

find some glory in this but we can only

82

00:03:41,150 --> 00:03:38,010

find the drama and some suspense here's

83

00:03:44,509 --> 00:03:41,160

the headline massive iceberg breaks off

84

00:03:47,150 --> 00:03:44,519

Antarctica well we can't say we didn't

85

00:03:49,370 --> 00:03:47,160

see this coming in fact I guess NASA saw

86

00:03:51,710 --> 00:03:49,380

it initially and here's this article

87

00:03:55,250 --> 00:03:51,720

from earth sky org with a byline for

88

00:03:57,800 --> 00:03:55,260

Deborah bird an iceberg about the size

89

00:04:01,160 --> 00:03:57,810

of the United States state of Delaware

90

00:04:03,830 --> 00:04:01,170

split off from Antarctica's Larsen sea

91

00:04:06,500 --> 00:04:03,840

ice shelf sometime between July 10th and

92

00:04:08,750 --> 00:04:06,510

July 12th in recent days several

93

00:04:11,390 --> 00:04:08,760

satellites in Earth orbit and a British

94

00:04:14,240 --> 00:04:11,400

Antarctic Research project all have

95

00:04:16,789 --> 00:04:14,250

witnessed the birth of a huge iceberg

96

00:04:19,039 --> 00:04:16,799

again about the size of the state of

97

00:04:21,199 --> 00:04:19,049

Delaware project Midas

98

00:04:23,480 --> 00:04:21,209

that's an Antarctic research project

99

00:04:26,270 --> 00:04:23,490

based out of the United Kingdom was the

100

00:04:27,350 --> 00:04:26,280

first to report the breakage NASA's Aqua

101
00:04:29,510 --> 00:04:27,360
satellite

102
00:04:32,149 --> 00:04:29,520
captured the images and there are plenty

103
00:04:34,879 --> 00:04:32,159
of images for you to peruse later gentle

104
00:04:37,360 --> 00:04:34,889
listeners at UFO headline news dot-com

105
00:04:39,350 --> 00:04:37,370
the new iceberg is no surprise

106
00:04:42,350 --> 00:04:39,360
scientists had been aware of and

107
00:04:45,529 --> 00:04:42,360
monitoring a growing crack in the Larsen

108
00:04:48,350 --> 00:04:45,539
Sea ice sheet for many years Larsen C is

109
00:04:50,080 --> 00:04:48,360
a floating platform of glacial ice on

110
00:04:52,850 --> 00:04:50,090
the east side of the Antarctic Peninsula

111
00:04:54,770 --> 00:04:52,860
it's the fourth largest ice shelf

112
00:04:58,969 --> 00:04:54,780
ringing Earth's southernmost continent

113
00:05:01,490 --> 00:04:58,979

for decades until 2014 a crack had been

114

00:05:04,159 --> 00:05:01,500

slowly growing into the ice shelf and

115

00:05:07,159 --> 00:05:04,169

then suddenly it started to spread more

116

00:05:10,129 --> 00:05:07,169

rapidly northwards and the result is

117

00:05:12,230 --> 00:05:10,139

that new iceberg and here's the size of

118

00:05:15,559 --> 00:05:12,240

that new iceberg it's twenty two hundred

119

00:05:18,050 --> 00:05:15,569

and forty square miles 5,800 square

120

00:05:21,439 --> 00:05:18,060

kilometers it's a chunk of ice that

121

00:05:23,450 --> 00:05:21,449

simply broken away and so the Larsen sea

122

00:05:26,629 --> 00:05:23,460

shelf area has shrunk by approximately

123

00:05:29,029 --> 00:05:26,639

10 percent Kelley brunt a glaciologist

124

00:05:31,219 --> 00:05:29,039

with NASA's Goddard Space Flight Center

125

00:05:33,980 --> 00:05:31,229

in Greenbelt Maryland said in a

126

00:05:36,649 --> 00:05:33,990

statement from NASA quote the

127

00:05:39,230 --> 00:05:36,659

interesting thing is what happens next

128

00:05:42,019 --> 00:05:39,240

how will the remaining ice shelf respond

129

00:05:45,019 --> 00:05:42,029

will the ice shelf weaken or possibly

130

00:05:47,990 --> 00:05:45,029

collapse like its neighbors Larsen a and

131

00:05:49,749 --> 00:05:48,000

Larsen B will the glaciers behind the

132

00:05:53,180 --> 00:05:49,759

ice shelf accelerate and have a direct

133

00:05:56,300 --> 00:05:53,190

contribution to sea-level rise or is

134

00:05:59,540 --> 00:05:56,310

this just a normal calving event and

135

00:06:02,899 --> 00:05:59,550

quotes the calving as in a cow giving

136

00:06:05,659 --> 00:06:02,909

birth spelled C alv ing it's that

137

00:06:08,689 --> 00:06:05,669

geological term when breakage like this

138

00:06:11,649 --> 00:06:08,699

happens so we'll just have to wait and

139

00:06:14,779 --> 00:06:11,659

see maybe have your boots at the ready

140

00:06:18,469 --> 00:06:14,789

here's something we can really dig into

141

00:06:22,279 --> 00:06:18,479

headline incredible burial mound near

142

00:06:25,760 --> 00:06:22,289

Stonehenge to be excavated we grab this

143

00:06:28,369 --> 00:06:25,770

story from the BBC dot-com curiously we

144

00:06:31,249 --> 00:06:28,379

didn't find a byline here but here's the

145

00:06:33,769 --> 00:06:31,259

article a Neolithic burial mound near

146

00:06:36,499 --> 00:06:33,779

Stonehenge could contain human remains

147

00:06:39,350 --> 00:06:36,509

more than 5,000 years old

148

00:06:40,610 --> 00:06:39,360

experts say the monument in a place

149

00:06:45,260 --> 00:06:40,620

known as cat's brain

150

00:06:47,540 --> 00:06:45,270

in Pusey Vale that spelled PE w sey Vale

151
00:06:50,690 --> 00:06:47,550
halfway between Avebury and Stonehenge

152
00:06:53,480 --> 00:06:50,700
and wiltjer was identified in aerial

153
00:06:55,430 --> 00:06:53,490
photographs archaeologists and students

154
00:06:57,920 --> 00:06:55,440
from the University of Reading are due

155
00:06:59,840 --> 00:06:57,930
to excavate this site it's the first

156
00:07:02,530 --> 00:06:59,850
time such an archaeological site in the

157
00:07:04,970 --> 00:07:02,540
county has been excavated for 50 years

158
00:07:07,580 --> 00:07:04,980
the site itself is made up of two

159
00:07:09,680 --> 00:07:07,590
ditches and an apparent central building

160
00:07:12,590 --> 00:07:09,690
which may have been covered by a mound

161
00:07:15,290 --> 00:07:12,600
that mound now flattened due to

162
00:07:16,790 --> 00:07:15,300
centuries of plowing the site is in the

163
00:07:19,550 --> 00:07:16,800

middle of a farmer's field

164

00:07:21,890 --> 00:07:19,560

it was assessed via geophysical survey

165

00:07:24,410 --> 00:07:21,900

it is believed that this site could

166

00:07:28,640 --> 00:07:24,420

contain human remains buried there about

167

00:07:30,710 --> 00:07:28,650

3600 BC dr. Jim Leary director of the

168

00:07:34,070 --> 00:07:30,720

university's archaeological field school

169

00:07:36,950 --> 00:07:34,080

said this quote opportunities to fully

170

00:07:39,290 --> 00:07:36,960

investigate long barrows are virtually

171

00:07:41,390 --> 00:07:39,300

unknown in recent times and this

172

00:07:43,730 --> 00:07:41,400

represents a fantastic chance to

173

00:07:45,680 --> 00:07:43,740

carefully excavate one using the very

174

00:07:48,200 --> 00:07:45,690

latest techniques and technology

175

00:07:50,900 --> 00:07:48,210

discovering the Buried remains of what

176
00:07:53,300 --> 00:07:50,910
could be the ancestors of those who

177
00:07:55,880 --> 00:07:53,310
built Stonehenge would be the cherry on

178
00:07:58,460 --> 00:07:55,890
the cake of an amazing project end

179
00:08:01,520 --> 00:07:58,470
quotes dr. Jim Leary's co-director

180
00:08:03,350 --> 00:08:01,530
Amanda Clarke said this quote this

181
00:08:06,230 --> 00:08:03,360
incredible discovery of one of the

182
00:08:07,910 --> 00:08:06,240
United Kingdom's first monuments offers

183
00:08:10,580 --> 00:08:07,920
a rare glimpse into this important

184
00:08:12,680 --> 00:08:10,590
period in history we are setting foot

185
00:08:15,800 --> 00:08:12,690
inside a significant building that has

186
00:08:18,110 --> 00:08:15,810
lain forgotten and hidden for thousands

187
00:08:19,820 --> 00:08:18,120
of years and quotes members of the

188
00:08:22,460 --> 00:08:19,830

public will be able to visit that site

189

00:08:24,280 --> 00:08:22,470

and watch those archaeologists at work

190

00:08:27,230 --> 00:08:24,290

they're going to have an opening day

191

00:08:31,010 --> 00:08:27,240

Saturday well I guess that's today oh

192

00:08:33,560 --> 00:08:31,020

don't we wish we could be there let's be

193

00:08:36,380 --> 00:08:33,570

in North Carolina now shall we in

194

00:08:38,540 --> 00:08:36,390

Mecklenburg County sort of near the town

195

00:08:40,990 --> 00:08:38,550

of Charlotte where the Charlotte

196

00:08:44,060 --> 00:08:41,000

Observer picks up this headline a

197

00:08:47,780 --> 00:08:44,070

dinosaur like creature is reported on

198

00:08:50,510 --> 00:08:47,790

Lake Norman over the weekend by line

199

00:08:52,970 --> 00:08:50,520

here for Mark Price the latest in a

200

00:08:53,970 --> 00:08:52,980

sporadic series of monster sightings on

201
00:08:56,030 --> 00:08:53,980
Lake Norman

202
00:08:59,129 --> 00:08:56,040
has appeared on a website called

203
00:09:01,430 --> 00:08:59,139
cryptozoology calm a 35 year old

204
00:09:03,269 --> 00:09:01,440
Mecklenburg County man told

205
00:09:05,610 --> 00:09:03,279
cryptozoology he spotted the

206
00:09:07,710 --> 00:09:05,620
dinosaur-like creature Saturday morning

207
00:09:10,050 --> 00:09:07,720
while traveling on a boat with friends

208
00:09:12,750 --> 00:09:10,060
the man described the creature as quote

209
00:09:15,360 --> 00:09:12,760
splashing around in the water end quotes

210
00:09:18,389 --> 00:09:15,370
10 feet long reminiscent of that

211
00:09:19,920 --> 00:09:18,399
mythical Loch Ness monster it was

212
00:09:21,900 --> 00:09:19,930
visible for about a minute before

213
00:09:25,470 --> 00:09:21,910

dropping below the surface he told that

214

00:09:27,720 --> 00:09:25,480

website no photos were included with the

215

00:09:30,199 --> 00:09:27,730

July 10th article it identified the

216

00:09:32,819 --> 00:09:30,209

source only as a local salesman

217

00:09:35,250 --> 00:09:32,829

cryptozoology calm reports sightings of

218

00:09:38,189 --> 00:09:35,260

Krypton's fabled animals and strange

219

00:09:40,530 --> 00:09:38,199

occurrences that's what they do it's

220

00:09:43,199 --> 00:09:40,540

just the latest in an ongoing series of

221

00:09:45,870 --> 00:09:43,209

monster sightings on this man-made lake

222

00:09:48,449 --> 00:09:45,880

Lake Norman in fact there's even a web

223

00:09:50,310 --> 00:09:48,459

site called Lake Norman monster calm

224

00:09:52,680 --> 00:09:50,320

that allows people to post their

225

00:09:55,889 --> 00:09:52,690

sightings most describe the creature

226

00:09:58,110 --> 00:09:55,899

who's called Normie as looking like the

227

00:10:00,000 --> 00:09:58,120

famed Loch Ness monster that allegedly

228

00:10:02,220 --> 00:10:00,010

inhabits Loch Ness in the Scottish

229

00:10:05,610 --> 00:10:02,230

Highlands and it looks here as though

230

00:10:08,129 --> 00:10:05,620

Normie is getting lots of PR there's a

231

00:10:11,100 --> 00:10:08,139

page devoted to Normie on the website

232

00:10:13,319 --> 00:10:11,110

unknown explorers calm it notes there's

233

00:10:15,840 --> 00:10:13,329

no physical evidence to support the

234

00:10:18,840 --> 00:10:15,850

existence of a monster living in Lake

235

00:10:21,120 --> 00:10:18,850

Norman that site unknown explorers calm

236

00:10:23,759 --> 00:10:21,130

speculates the sightings could involve a

237

00:10:27,389 --> 00:10:23,769

giant catfish or something called an

238

00:10:29,400 --> 00:10:27,399

alligator gar fish quote descriptions of

239

00:10:31,889 --> 00:10:29,410

Normie vary from sighting deciding and

240

00:10:34,410 --> 00:10:31,899

range from a crocodilian light creature

241

00:10:36,240 --> 00:10:34,420

to the more classic three humped serpent

242

00:10:39,480 --> 00:10:36,250

that's what they say it unknown

243

00:10:41,430 --> 00:10:39,490

explorers calm they continue most that

244

00:10:42,930 --> 00:10:41,440

have seen the Lake Norman monster seemed

245

00:10:45,780 --> 00:10:42,940

to agree that the Beast is more

246

00:10:49,230 --> 00:10:45,790

fish-like with a slender body think

247

00:10:51,750 --> 00:10:49,240

whisker like appendages flippers and a

248

00:10:54,000 --> 00:10:51,760

raggedy looking dorsal fin and quotes

249

00:10:56,519 --> 00:10:54,010

the Charlotte Observer has covered these

250

00:10:58,079 --> 00:10:56,529

ongoing Lake Norman sightings which date

251

00:11:00,480 --> 00:10:58,089

back nearly 50 years

252

00:11:02,579 --> 00:11:00,490

a few dozen witnesses of posted

253

00:11:04,579 --> 00:11:02,589

sightings on Lake Norman monster comm

254

00:11:07,259 --> 00:11:04,589

including some from last year

255

00:11:07,830 --> 00:11:07,269

descriptions range from a dinosaur like

256

00:11:11,130 --> 00:11:07,840

monster

257

00:11:13,980 --> 00:11:11,140

to a giant snake with fins and thick

258

00:11:16,380 --> 00:11:13,990

whiskers here's a quote from John Ed's

259

00:11:19,170 --> 00:11:16,390

of Huntersville quote I was on a boat

260

00:11:21,870 --> 00:11:19,180

when a huge force from below knocked me

261

00:11:24,720 --> 00:11:21,880

overboard I got back onto my boat and

262

00:11:27,330 --> 00:11:24,730

then I saw a Nessie like sea monster

263

00:11:31,200 --> 00:11:27,340

swimming away from me this thing looked

264

00:11:32,910 --> 00:11:31,210

to be 15 feet long and quotes oh that

265

00:11:35,610 --> 00:11:32,920

would be exciting the key phrase here

266

00:11:37,170 --> 00:11:35,620

the monster was swimming away from me

267

00:11:39,870 --> 00:11:37,180

that's a good thing

268

00:11:42,240 --> 00:11:39,880

eyewitness identified as Nate from

269

00:11:43,980 --> 00:11:42,250

Denver North Carolina posted that he and

270

00:11:47,820 --> 00:11:43,990

his girlfriend saw the creature while

271

00:11:50,820 --> 00:11:47,830

they were on a jet ski in 2014 he says

272

00:11:52,860 --> 00:11:50,830

quote we both saw a large body come to

273

00:11:55,800 --> 00:11:52,870

the surface this thing was dark and

274

00:11:58,050 --> 00:11:55,810

shiny in some spots but it was at least

275

00:11:58,440 --> 00:11:58,060

14 feet long we were both scared to

276

00:12:01,260 --> 00:11:58,450

death

277

00:12:05,040 --> 00:12:01,270

she's now scared to swim there but I'm

278

00:12:07,860 --> 00:12:05,050

really curious and quotes oh we're all

279

00:12:10,380 --> 00:12:07,870

curious we'll keep checking the area of

280

00:12:12,690 --> 00:12:10,390

Lake Norman Mecklenburg County North

281

00:12:14,820 --> 00:12:12,700

Carolina see what else comes to the

282

00:12:17,880 --> 00:12:14,830

surface since we're talking about

283

00:12:20,940 --> 00:12:17,890

critters of unknown origin this fits in

284

00:12:26,130 --> 00:12:20,950

right about here the oldest account of

285

00:12:29,250 --> 00:12:26,140

Bigfoot was recorded in 986 AD this is

286

00:12:31,920 --> 00:12:29,260

from the Sasquatch Chronicles and here's

287

00:12:34,820 --> 00:12:31,930

what it says the oldest account was

288

00:12:38,820 --> 00:12:34,830

recorded by Leif Ericson and his man in

289

00:12:41,280 --> 00:12:38,830

986 ad during their first landing in the

290

00:12:43,860 --> 00:12:41,290

new world the Norseman wrote about

291

00:12:47,370 --> 00:12:43,870

man-like beasts that were quote horribly

292

00:12:51,090 --> 00:12:47,380

ugly hairy swarthy and with great black

293

00:12:53,610 --> 00:12:51,100

eyes and quotes among his accounts Leif

294

00:12:56,580 --> 00:12:53,620

Ericson told of seeing huge hairy men

295

00:12:58,920 --> 00:12:56,590

who towered over him and his men the

296

00:13:01,830 --> 00:12:58,930

quote huge hairy men and quotes

297

00:13:04,640 --> 00:13:01,840

according to Leif lived in the woods had

298

00:13:07,290 --> 00:13:04,650

a rank odor and a deafening shriek

299

00:13:10,200 --> 00:13:07,300

according to this article from Sasquatch

300

00:13:12,240 --> 00:13:10,210

chronicles which is uncredited it should

301
00:13:15,000 --> 00:13:12,250
be noticed that Leif Ericson and his men

302
00:13:18,270 --> 00:13:15,010
described these man-like beasts loud

303
00:13:21,390 --> 00:13:18,280
foul-smelling as clearly distinct from

304
00:13:21,700 --> 00:13:21,400
native peoples apparently Leif Ericson

305
00:13:24,190 --> 00:13:21,710
had

306
00:13:26,110 --> 00:13:24,200
sightings of these huge hairy men before

307
00:13:26,590 --> 00:13:26,120
departing the island they called this

308
00:13:31,950 --> 00:13:26,600
creature

309
00:13:34,480 --> 00:13:31,960
skell ring that spelled s ke ll r ing

310
00:13:37,630 --> 00:13:34,490
people believe that the creature scale

311
00:13:40,150 --> 00:13:37,640
ring is what we know today as Bigfoot

312
00:13:43,270 --> 00:13:40,160
this is the earliest recorded encounter

313
00:13:45,880 --> 00:13:43,280

with Bigfoot or Sasquatch that Norse

314

00:13:49,600 --> 00:13:45,890

word scale ring it's a term of contempt

315

00:13:51,340 --> 00:13:49,610

it means roughly a barbarian what is

316

00:13:53,530 --> 00:13:51,350

interesting is the word hairy

317

00:13:56,680 --> 00:13:53,540

the Norse were a hairy people themselves

318

00:13:58,630 --> 00:13:56,690

big men with matted hair and beards why

319

00:14:01,270 --> 00:13:58,640

did they remark on the scale ring being

320

00:14:04,360 --> 00:14:01,280

hairy or was it because they were that

321

00:14:06,190 --> 00:14:04,370

much hairier than the Norseman well we

322

00:14:08,080 --> 00:14:06,200

have to leave that part because we're

323

00:14:09,970 --> 00:14:08,090

going to track down now the first

324

00:14:12,250 --> 00:14:09,980

recorded sighting of Bigfoot in the

325

00:14:14,200 --> 00:14:12,260

United States it's nearly as difficult

326

00:14:17,100 --> 00:14:14,210

according to this article as tracking

327

00:14:19,480 --> 00:14:17,110

down that mythical hairy creature itself

328

00:14:21,700 --> 00:14:19,490

while most sources seem to agree that

329

00:14:24,160 --> 00:14:21,710

the first credible evidence of Bigfoot

330

00:14:26,500 --> 00:14:24,170

in North America was discovered in 1811

331

00:14:29,770 --> 00:14:26,510

it happened near the town of Jasper

332

00:14:31,810 --> 00:14:29,780

Alberta Canada but nearly every serious

333

00:14:34,350 --> 00:14:31,820

Bigfoot researcher has his own or her

334

00:14:36,490 --> 00:14:34,360

own opinion as to when and where

335

00:14:39,130 --> 00:14:36,500

America's first documented Bigfoot

336

00:14:42,010 --> 00:14:39,140

sighting ever took place and even good

337

00:14:45,040 --> 00:14:42,020

old Wikipedia isn't 100% clear on this

338

00:14:47,590 --> 00:14:45,050

matter according to wiki Bigfoot stories

339

00:14:50,350 --> 00:14:47,600

in America date back to 1840 when a

340

00:14:52,480 --> 00:14:50,360

missionary named Elkanah Walker recorded

341

00:14:55,110 --> 00:14:52,490

stories of giants among the Native

342

00:14:58,810 --> 00:14:55,120

Americans living in Washington State in

343

00:15:02,260 --> 00:14:58,820

1847 Paul Kane recorded similar stories

344

00:15:05,200 --> 00:15:02,270

about Skookum supernatural cannibalistic

345

00:15:08,230 --> 00:15:05,210

wild men living on Mount st. Helens

346

00:15:10,420 --> 00:15:08,240

of course since Walker and Kane only

347

00:15:13,030 --> 00:15:10,430

recorded oral legends these cannot be

348

00:15:15,970 --> 00:15:13,040

cited as actual Bigfoot sightings in

349

00:15:19,480 --> 00:15:15,980

fact even that well-known sighting in

350

00:15:21,700 --> 00:15:19,490

1811 in Jasper Alberta cannot truly be

351

00:15:24,160 --> 00:15:21,710

called a legitimate Bigfoot sighting a

352

00:15:27,220 --> 00:15:24,170

traitor named David Thompson merely

353

00:15:29,890 --> 00:15:27,230

found some strange 4-toed footprints in

354

00:15:31,920 --> 00:15:29,900

the snow these prints measured 14 inches

355

00:15:34,930 --> 00:15:31,930

in length and eight inches in width

356

00:15:37,360 --> 00:15:34,940

however David Thompson did not actually

357

00:15:40,120 --> 00:15:37,370

see the creature which left those prints

358

00:15:43,150 --> 00:15:40,130

other early well publicized Bigfoot

359

00:15:46,120 --> 00:15:43,160

sightings such as the 1884 capture of

360

00:15:48,760 --> 00:15:46,130

Sasquatch in British Columbia later

361

00:15:50,380 --> 00:15:48,770

turned out to be hoaxes according to

362

00:15:52,360 --> 00:15:50,390

some researchers the first documented

363

00:15:56,260 --> 00:15:52,370

incredible Bigfoot sighting in North

364

00:15:58,120 --> 00:15:56,270

America didn't occur until 1924 when a

365

00:16:00,730 --> 00:15:58,130

Canadian lumberjack Albert Ostman

366

00:16:03,460 --> 00:16:00,740

claimed to have been captured and held

367

00:16:06,580 --> 00:16:03,470

captive by a family of Bigfoots near

368

00:16:08,260 --> 00:16:06,590

British Columbia's Toba Inlet although

369

00:16:11,320 --> 00:16:08,270

hundreds of Bigfoot sightings took place

370

00:16:12,820 --> 00:16:11,330

before 1924 Albert Ostman had the

371

00:16:14,830 --> 00:16:12,830

foresight to sign an official

372

00:16:17,560 --> 00:16:14,840

declaration indicating that his story

373

00:16:20,920 --> 00:16:17,570

was true under oath and by virtue of the

374

00:16:24,520 --> 00:16:20,930

Canadian Evidence Act thereby cementing

375

00:16:27,340 --> 00:16:24,530

his legacy as one might imagine today's

376

00:16:29,770 --> 00:16:27,350

Internet has changed things up just a

377

00:16:32,590 --> 00:16:29,780

tad many sightings many accounts

378

00:16:35,170 --> 00:16:32,600

sometimes footage how to vet that how to

379

00:16:37,240 --> 00:16:35,180

discern the real from the hoax that's

380

00:16:38,980 --> 00:16:37,250

hard but you don't have to worry about

381

00:16:42,430 --> 00:16:38,990

that too much there's an organization

382

00:16:46,210 --> 00:16:42,440

that sort of does that for you it's the

383

00:16:48,040 --> 00:16:46,220

BFRO the Bigfoot research organization

384

00:16:50,710 --> 00:16:48,050

they've got history they have a

385

00:16:53,020 --> 00:16:50,720

geographical database of sightings and

386

00:16:55,210 --> 00:16:53,030

reports in fact here's what they say

387

00:16:57,550 --> 00:16:55,220

about themselves this comprehensive

388

00:17:00,160 --> 00:16:57,560

database of credible sightings and

389

00:17:02,230 --> 00:17:00,170

related reports is maintained by an

390

00:17:05,069 --> 00:17:02,240

all-volunteer network of Bigfoot

391

00:17:07,480 --> 00:17:05,079

Sasquatch researchers archivists and

392

00:17:10,000 --> 00:17:07,490

investigators in the United States and

393

00:17:11,949 --> 00:17:10,010

Canada if you have had a sighting in the

394

00:17:13,990 --> 00:17:11,959

United States Canada or any other

395

00:17:16,090 --> 00:17:14,000

country they ask you to please take a

396

00:17:19,300 --> 00:17:16,100

moment report it to their team of

397

00:17:20,590 --> 00:17:19,310

scientists so while we're here gentle

398

00:17:24,429 --> 00:17:20,600

listeners why don't we pick up a

399

00:17:29,500 --> 00:17:24,439

sighting reported to the F ro the year

400

00:17:34,450 --> 00:17:29,510

2017 season summer month June date 25

401
00:17:36,640 --> 00:17:34,460
state Ohio the County Hocking County the

402
00:17:39,010 --> 00:17:36,650
location details this was in the

403
00:17:41,290 --> 00:17:39,020
vicinity of Rock Bridge State Nature

404
00:17:43,510 --> 00:17:41,300
Preserve the nearest town was Rock

405
00:17:48,270 --> 00:17:43,520
Bridge and the nearest road was number

406
00:17:50,790 --> 00:17:48,280
33 observed I stopped at an

407
00:17:53,190 --> 00:17:50,800
nature preserve to hike on my way and I

408
00:17:56,040 --> 00:17:53,200
had passed at least 14 people in various

409
00:17:58,740 --> 00:17:56,050
ways on their way out I'd walk down

410
00:18:01,920 --> 00:17:58,750
across the bridge and I was looping back

411
00:18:05,460 --> 00:18:01,930
it was about 4:00 p.m. as I was rounding

412
00:18:08,190 --> 00:18:05,470
a bend I heard something big run away in

413
00:18:11,280 --> 00:18:08,200

the woods I thought I'd scared a deer so

414

00:18:14,190 --> 00:18:11,290

I continued on this is when I rounded

415

00:18:16,500 --> 00:18:14,200

the bend and saw a print on the trail

416

00:18:19,500 --> 00:18:16,510

going in the opposite direction of what

417

00:18:21,300 --> 00:18:19,510

ever I heard scamper away the ground was

418

00:18:24,000 --> 00:18:21,310

hard the print was only about a

419

00:18:26,220 --> 00:18:24,010

quarter-inch into the dirt there were no

420

00:18:29,310 --> 00:18:26,230

other people prints there was nothing on

421

00:18:31,710 --> 00:18:29,320

that trail so as I'm taking pictures

422

00:18:33,840 --> 00:18:31,720

something crashes in the trees above me

423

00:18:36,210 --> 00:18:33,850

I covered my head waiting for a big

424

00:18:37,890 --> 00:18:36,220

branch to fall on me after that I

425

00:18:40,110 --> 00:18:37,900

hightailed it out of there

426

00:18:42,570 --> 00:18:40,120

I left passing another half a dozen

427

00:18:46,200 --> 00:18:42,580

people on their way in as I made my way

428

00:18:49,020 --> 00:18:46,210

out I never expected nor was I looking

429

00:18:51,030 --> 00:18:49,030

for anything on such a populated path if

430

00:18:53,700 --> 00:18:51,040

it wasn't for the fact that I had heard

431

00:18:56,550 --> 00:18:53,710

something right before and right after I

432

00:18:59,880 --> 00:18:56,560

found that print I would have seriously

433

00:19:02,730 --> 00:18:59,890

leaned toward fake the time and

434

00:19:05,370 --> 00:19:02,740

conditions it was sunny cooler 4 p.m.

435

00:19:07,950 --> 00:19:05,380

the park is situated along the Hocking

436

00:19:11,310 --> 00:19:07,960

River which is notable for its natural

437

00:19:15,530 --> 00:19:11,320

rock bridge oh what a perfect setting

438

00:19:19,410 --> 00:19:15,540

for a sighting and an update on July 1st

439

00:19:21,840 --> 00:19:19,420

investigator for BFRO mark D worth and

440

00:19:24,440 --> 00:19:21,850

the writer of this who is uncredited

441

00:19:27,090 --> 00:19:24,450

went into the location for an on-site

442

00:19:29,310 --> 00:19:27,100

investigation that track was still

443

00:19:32,460 --> 00:19:29,320

visible and congruent with the witnesses

444

00:19:34,440 --> 00:19:32,470

recount and submitted photos photos were

445

00:19:37,440 --> 00:19:34,450

taken for documentation purposes and

446

00:19:40,290 --> 00:19:37,450

then there's a chart of the measurements

447

00:19:45,630 --> 00:19:40,300

oh the length eighteen point five inches

448

00:19:50,160 --> 00:19:45,640

the toe width was - 7.75 inches the heel

449

00:19:53,700 --> 00:19:50,170

width was - 6.5 inches the track was not

450

00:19:56,210 --> 00:19:53,710

cast due to normal erosion time elapsed

451
00:19:58,620 --> 00:19:56,220
and recently there had been heavy rains

452
00:20:00,710 --> 00:19:58,630
the witness felt like there were two

453
00:20:03,020 --> 00:20:00,720
separate individuals around him

454
00:20:05,600 --> 00:20:03,030
as he could hear heavy movement on both

455
00:20:07,130 --> 00:20:05,610
sides of him he was truly terrified

456
00:20:10,610 --> 00:20:07,140
during this event which caused him to

457
00:20:12,440 --> 00:20:10,620
panic and flee the area having vast

458
00:20:14,750 --> 00:20:12,450
experience in this part of Fairfield

459
00:20:17,390 --> 00:20:14,760
County and a vast knowledge of all close

460
00:20:20,539 --> 00:20:17,400
by nature preserves the person who

461
00:20:22,789 --> 00:20:20,549
writes this for BFRO said that he wasn't

462
00:20:25,070 --> 00:20:22,799
surprised about that possibility

463
00:20:28,250 --> 00:20:25,080

there's a nice convergence of creeks

464

00:20:30,860 --> 00:20:28,260

buck run a few miles down to this area

465

00:20:34,399 --> 00:20:30,870

leading eventually to the Hocking river

466

00:20:38,029 --> 00:20:34,409

and down into Wayne National Forest oh

467

00:20:41,180 --> 00:20:38,039

by the way we were so wrong yikes the

468

00:20:43,580 --> 00:20:41,190

investigator here not a guy a gal a gal

469

00:20:46,580 --> 00:20:43,590

by the name of B Mills she's a native

470

00:20:50,919 --> 00:20:46,590

Ohio employed as a registered nurse in

471

00:20:53,890 --> 00:20:50,929

Columbus Ohio all right cue the skulls

472

00:20:56,600 --> 00:20:53,900

grisly music but exciting

473

00:20:59,500 --> 00:20:56,610

archaeologically grizzly from the

474

00:21:02,570 --> 00:20:59,510

Atlantic calm here's a headline

475

00:21:05,930 --> 00:21:02,580

archeologists in Mexico find an Aztec

476

00:21:08,029 --> 00:21:05,940

tower of skulls sub-headline

477

00:21:10,310 --> 00:21:08,039

existence of the edifice has been

478

00:21:13,250 --> 00:21:10,320

rumored since the conquest of headin on

479

00:21:15,770 --> 00:21:13,260

Cortes this story isn't brand new

480

00:21:17,230 --> 00:21:15,780

breaking news it's about a week old but

481

00:21:19,850 --> 00:21:17,240

here we go

482

00:21:22,299 --> 00:21:19,860

archeologists in Mexico City say they've

483

00:21:26,539 --> 00:21:22,309

discovered part of the long rumored ua

484

00:21:32,930 --> 00:21:26,549

tzompantli let's spell that h u ey

485

00:21:35,120 --> 00:21:32,940

second word t z om PA and tli a rack of

486

00:21:39,590 --> 00:21:35,130

human skulls believed to measure some

487

00:21:42,470 --> 00:21:39,600

200 feet in diameter the tower sat on

488

00:21:45,260 --> 00:21:42,480

the edge of the templo mayor a temple

489

00:21:48,919 --> 00:21:45,270

devoted to the Aztec god of sun war and

490

00:21:50,600 --> 00:21:48,929

human sacrifice while its existence has

491

00:21:52,940 --> 00:21:50,610

been talked about since the conquest of

492

00:21:55,100 --> 00:21:52,950

had a man Cortez now that researchers

493

00:21:57,770 --> 00:21:55,110

have uncovered these skulls they've

494

00:22:00,980 --> 00:21:57,780

raised more questions about Aztec

495

00:22:02,930 --> 00:22:00,990

practices quote something is happening

496

00:22:05,299 --> 00:22:02,940

that we have no record of and this is

497

00:22:08,029 --> 00:22:05,309

really new the first in weights and

498

00:22:09,620 --> 00:22:08,039

partly end quotes that's from Rodrigo

499

00:22:12,560 --> 00:22:09,630

bull honest he's a biological

500

00:22:14,480 --> 00:22:12,570

anthropologist working on that dig two

501
00:22:16,460 --> 00:22:14,490
years ago researchers from the

502
00:22:19,190 --> 00:22:16,470
Institute of anthropology and history

503
00:22:22,100 --> 00:22:19,200
started their dig at the edge of Mexico

504
00:22:24,400 --> 00:22:22,110
City's Metropolitan Cathedral which now

505
00:22:26,630 --> 00:22:24,410
covers that ancient site of templo mayor

506
00:22:29,150 --> 00:22:26,640
the discovery is one of the most

507
00:22:32,840 --> 00:22:29,160
important related to Aztec ceremonial

508
00:22:35,300 --> 00:22:32,850
practice these racks of skulls as well

509
00:22:38,000 --> 00:22:35,310
as acts of human sacrifice were common

510
00:22:39,860 --> 00:22:38,010
among Mesoamerican cultures it's

511
00:22:41,990 --> 00:22:39,870
believed to be one of the largest such

512
00:22:44,750 --> 00:22:42,000
towers and it was written about by

513
00:22:46,430 --> 00:22:44,760

hombres de Tapia a Spanish soldier who

514

00:22:50,480 --> 00:22:46,440

followed caught a case on his conquest

515

00:22:53,300 --> 00:22:50,490

of Mexico in 1521 in his account de

516

00:22:56,180 --> 00:22:53,310

Tapia said the rack included tens of

517

00:22:58,970 --> 00:22:56,190

thousands of skulls quote placed on a

518

00:23:01,790 --> 00:22:58,980

very large theater made of lime and

519

00:23:04,730 --> 00:23:01,800

stone and on the steps of it were many

520

00:23:08,140 --> 00:23:04,740

heads of the dead stuck in the lime with

521

00:23:11,780 --> 00:23:08,150

their teeth facing upward end quotes

522

00:23:13,970 --> 00:23:11,790

mmm the you eat some partly a display of

523

00:23:16,820 --> 00:23:13,980

heads of those sacrificed was meant to

524

00:23:18,890 --> 00:23:16,830

showcase Aztec power other cultures like

525

00:23:21,110 --> 00:23:18,900

the Maya and the Toltec he had similar

526
00:23:24,040 --> 00:23:21,120
customs and oftentimes they were built

527
00:23:26,210 --> 00:23:24,050
from the heads of captured enemies

528
00:23:28,430 --> 00:23:26,220
researchers didn't expect to find so

529
00:23:30,230 --> 00:23:28,440
many skulls from women and children

530
00:23:32,840 --> 00:23:30,240
because it was believed that mainly

531
00:23:35,480 --> 00:23:32,850
young men fought and were sacrificed for

532
00:23:37,160 --> 00:23:35,490
these ceremonies here's a Rodrigo bottle

533
00:23:39,890 --> 00:23:37,170
honest again he says quote we were

534
00:23:41,840 --> 00:23:39,900
expecting just men the thing about the

535
00:23:45,520 --> 00:23:41,850
women and children is that you'd think

536
00:23:47,540 --> 00:23:45,530
they wouldn't be going to war and quotes

537
00:23:51,410 --> 00:23:47,550
archeologists on the site have uncovered

538
00:23:54,080 --> 00:23:51,420

more than 650 skulls so far many covered

539

00:23:56,240 --> 00:23:54,090

with lime to bond them together the

540

00:23:59,210 --> 00:23:56,250

edifice forms a large inner circle that

541

00:24:01,640 --> 00:23:59,220

raises and widens in a succession of

542

00:24:03,260 --> 00:24:01,650

rings these skulls in the weights on

543

00:24:05,270 --> 00:24:03,270

palm play would have been set after

544

00:24:08,510 --> 00:24:05,280

they'd been displayed publicly in other

545

00:24:11,420 --> 00:24:08,520

smaller racks around the ancient city of

546

00:24:14,960 --> 00:24:11,430

Tenochtitlan which served as the Aztec

547

00:24:17,120 --> 00:24:14,970

capital and later became Mexico City the

548

00:24:19,130 --> 00:24:17,130

base of the weights on Pont Lee has yet

549

00:24:21,890 --> 00:24:19,140

to be uncovered and archaeologists

550

00:24:24,620 --> 00:24:21,900

expect to find many more skulls the

551
00:24:26,390 --> 00:24:24,630
publication el economies third reported

552
