

UFO Headline News Monday July 17th, 2017

Listen on

inceptionradionetwork.com

1
00:00:05,030 --> 00:00:00,550

[Music]

2
00:00:07,670 --> 00:00:05,040

hello it's monday july 17 2017. you are

3
00:00:09,990 --> 00:00:07,680

listening to inception radio network

4
00:00:15,190 --> 00:00:10,000

voice of the fringe majority this is

5
00:00:20,070 --> 00:00:17,670

so if you're speculating what you'll see

6
00:00:22,230 --> 00:00:20,080

in your sky tonight overhead at the end

7
00:00:23,230 --> 00:00:22,240

of the day well it ought to go something

8
00:00:26,550 --> 00:00:23,240

like this

9
00:00:28,630 --> 00:00:26,560

earthsky.org provides us with deneb and

10
00:00:31,109 --> 00:00:28,640

cygnus the swan

11
00:00:33,670 --> 00:00:31,119

tonight's chart has you looking eastward

12
00:00:36,389 --> 00:00:33,680

at that famous summer triangle

13
00:00:39,190 --> 00:00:36,399

tonight notice denep that star the

14

00:00:41,110 --> 00:00:39,200

northernmost star in the summer triangle

15

00:00:42,229 --> 00:00:41,120

it's in the constellation cygnus the

16

00:00:43,750 --> 00:00:42,239

swan

17

00:00:46,069 --> 00:00:43,760

if you're lucky enough to have dark

18

00:00:48,790 --> 00:00:46,079

country sky around you you can see that

19

00:00:51,670 --> 00:00:48,800

cygnus is flying along that starlet

20

00:00:53,830 --> 00:00:51,680

trail of the summer milky way

21

00:00:55,910 --> 00:00:53,840

deborah bird inserts this interesting

22

00:00:58,709 --> 00:00:55,920

anecdote here there's someone named

23

00:01:00,470 --> 00:00:58,719

annie lewis she lives in madrid spain

24

00:01:02,630 --> 00:01:00,480

and she was out taking photographs

25

00:01:05,270 --> 00:01:02,640

shortly after nightfall she was trying

26
00:01:07,670 --> 00:01:05,280
to catch the summer triangle well yep

27
00:01:10,230 --> 00:01:07,680
she did and she says the only stars

28
00:01:12,310 --> 00:01:10,240
visible to her unaided eye as she took

29
00:01:15,590 --> 00:01:12,320
the photo were those three in the

30
00:01:17,429 --> 00:01:15,600
triangle but her camera knew better

31
00:01:20,390 --> 00:01:17,439
you'll have to see that shot to fully

32
00:01:22,510 --> 00:01:20,400
understand it and you can see that shot

33
00:01:24,310 --> 00:01:22,520
later today at

34
00:01:26,550 --> 00:01:24,320
ufoheadlinenews.com

35
00:01:28,630 --> 00:01:26,560
if it's darker out you might recognize

36
00:01:31,510 --> 00:01:28,640
the summer triangle by noticing there's

37
00:01:35,030 --> 00:01:31,520
a cross within the triangle the

38
00:01:36,710 --> 00:01:35,040

constellation cygnus is that cross in

39

00:01:40,469 --> 00:01:36,720

fact the constellation cygnus is

40

00:01:42,069 --> 00:01:40,479

sometimes called the northern cross okay

41

00:01:44,789 --> 00:01:42,079

there's lots of names here summer

42

00:01:46,950 --> 00:01:44,799

triangle cygnus northern cross

43

00:01:49,590 --> 00:01:46,960

easy to remember the constellation

44

00:01:52,469 --> 00:01:49,600

cygnus the swan contains that northern

45

00:01:54,710 --> 00:01:52,479

cross the cross is more or less just

46

00:01:56,710 --> 00:01:54,720

another way to see the swan

47

00:01:58,950 --> 00:01:56,720

the northern cross well that's one of

48

00:02:01,190 --> 00:01:58,960

those things called an asterism those

49

00:02:02,550 --> 00:02:01,200

recognizable patterns within a

50

00:02:04,310 --> 00:02:02,560

constellation

51
00:02:06,310 --> 00:02:04,320
in this case the pattern is the whole

52
00:02:08,469 --> 00:02:06,320
constellation pretty much at least

53
00:02:09,990 --> 00:02:08,479
that's how deborah bird sees it

54
00:02:12,229 --> 00:02:10,000
except for one thing

55
00:02:15,270 --> 00:02:12,239
deneb is at the top of the cross but at

56
00:02:17,670 --> 00:02:15,280
the tail of the swan in fact the very

57
00:02:20,550 --> 00:02:17,680
name deneb means tail

58
00:02:23,190 --> 00:02:20,560
there's that little star albarreo also

59
00:02:26,710 --> 00:02:23,200
at the head of the swan but at the base

60
00:02:28,470 --> 00:02:26,720
of the cross whew as deborah bird writes

61
00:02:30,150 --> 00:02:28,480
well of course this is where we tell you

62
00:02:32,710 --> 00:02:30,160
we're never going to spring any kind of

63
00:02:35,910 --> 00:02:32,720

pop quizzes here at inception radio

64

00:02:38,869 --> 00:02:35,920

network ufo headline news no grades

65

00:02:41,750 --> 00:02:38,879

given just the accumulation hopefully of

66

00:02:45,430 --> 00:02:41,760

some kind of cool stuff stuff like this

67

00:02:47,750 --> 00:02:45,440

for instance from the website cnet.com

68

00:02:48,790 --> 00:02:47,760

with a byline for eric mack

69

00:02:51,589 --> 00:02:48,800

headline

70

00:02:53,910 --> 00:02:51,599

scientists investigating strange signals

71

00:02:56,309 --> 00:02:53,920

from nearby star

72

00:02:59,430 --> 00:02:56,319

sub headline unexplained radio

73

00:03:01,270 --> 00:02:59,440

transmissions from 11 light years away

74

00:03:05,190 --> 00:03:01,280

are getting a closer listen from

75

00:03:07,430 --> 00:03:05,200

humanity's biggest ear yesterday sunday

76

00:03:10,470 --> 00:03:07,440

the world's largest currently operating

77

00:03:13,190 --> 00:03:10,480

radio telescope was observing the nearby

78

00:03:15,589 --> 00:03:13,200

star ross 128.

79

00:03:18,390 --> 00:03:15,599

that star may be the origin of some very

80

00:03:21,030 --> 00:03:18,400

odd and inexplicable radio signals

81

00:03:23,350 --> 00:03:21,040

picked up last may the arecibo

82

00:03:25,750 --> 00:03:23,360

observatory in puerto rico will again

83

00:03:29,190 --> 00:03:25,760

target the red dwarf star which is the

84

00:03:31,190 --> 00:03:29,200

12th closest to our sun and 11 light

85

00:03:33,030 --> 00:03:31,200

years away they're going to gather more

86

00:03:34,390 --> 00:03:33,040

data that could eventually help solve

87

00:03:36,309 --> 00:03:34,400

this mystery

88

00:03:38,470 --> 00:03:36,319

abell mendes a professor at the

89

00:03:41,350 --> 00:03:38,480

university of puerto rico at arecibo's

90

00:03:44,830 --> 00:03:41,360

planetary habitability laboratory

91

00:03:46,430 --> 00:03:44,840

described the signals as quote broadband

92

00:03:49,670 --> 00:03:46,440

quasi-periodic

93

00:03:52,470 --> 00:03:49,680

non-polarized pulses with very strong

94

00:03:54,309 --> 00:03:52,480

dispersion-like features and quotes

95

00:03:56,229 --> 00:03:54,319

mendes said that in a blog post this

96

00:04:00,309 --> 00:03:56,239

week and he suggests they could be

97

00:04:02,470 --> 00:04:00,319

caused by solar flares from ross 128. or

98

00:04:05,429 --> 00:04:02,480

by something else in the field of view

99

00:04:07,990 --> 00:04:05,439

or perhaps even a high orbit satellite

100

00:04:09,990 --> 00:04:08,000

oh abel mendez that professor from the

101
00:04:12,550 --> 00:04:10,000
university of puerto rico makes one

102
00:04:14,710 --> 00:04:12,560
other comment here he says quote

103
00:04:18,150 --> 00:04:14,720
in case you're wondering the recurrent

104
00:04:20,469 --> 00:04:18,160
aliens hypothesis is at the bottom of

105
00:04:23,189 --> 00:04:20,479
many other better explanations and

106
00:04:25,270 --> 00:04:23,199
quotes but there are problems with each

107
00:04:27,990 --> 00:04:25,280
of the three leading explanations he

108
00:04:29,830 --> 00:04:28,000
says solar flares aren't a great match

109
00:04:32,230 --> 00:04:29,840
for the frequencies and dispersions

110
00:04:34,950 --> 00:04:32,240
observed in these signals there are few

111
00:04:37,430 --> 00:04:34,960
nearby objects in the field of view and

112
00:04:38,550 --> 00:04:37,440
satellites aren't known to emit such

113
00:04:41,510 --> 00:04:38,560

pulses

114

00:04:43,830 --> 00:04:41,520

so arecibo will be listening hard for

115

00:04:46,790 --> 00:04:43,840

these strange signals and will also turn

116

00:04:49,909 --> 00:04:46,800

its massive ear to another nearby red

117

00:04:51,990 --> 00:04:49,919

dwarf called barnard's star and

118

00:04:55,030 --> 00:04:52,000

meanwhile back at the university of

119

00:04:58,150 --> 00:04:55,040

puerto rico professor abel mendes jokes

120

00:05:00,990 --> 00:04:58,160

that he has a quote pina colada ready to

121

00:05:04,710 --> 00:05:01,000

celebrate if the signals result to be

122

00:05:07,510 --> 00:05:04,720

astronomical in nature end quotes

123

00:05:10,230 --> 00:05:07,520

meanwhile the alien hunters sci-fi fans

124

00:05:12,870 --> 00:05:10,240

and gamers can continue to revel in

125

00:05:15,749 --> 00:05:12,880

speculation that the alien hypothesis

126

00:05:19,909 --> 00:05:15,759

cannot be 100 ruled out

127

00:05:22,469 --> 00:05:19,919

after all ross 128 is known as phi

128

00:05:25,270 --> 00:05:22,479

virginis the setting of numerous works

129

00:05:27,990 --> 00:05:25,280

of science fiction and even one old

130

00:05:30,950 --> 00:05:28,000

school computer game that some kids of

131

00:05:33,189 --> 00:05:30,960

the 1990s might remember

132

00:05:35,909 --> 00:05:33,199

here's an update on that mysterious

133

00:05:38,469 --> 00:05:35,919

rogue planet floating through space it

134

00:05:41,029 --> 00:05:38,479

may be even stranger than we thought in

135

00:05:44,150 --> 00:05:41,039

fact that is the headline here it gets a

136

00:05:46,230 --> 00:05:44,160

byline for writer rob wow who hangs out

137

00:05:49,029 --> 00:05:46,240

on the other side of the pond he's in

138

00:05:51,909 --> 00:05:49,039

the united kingdom here's the story

139

00:05:54,790 --> 00:05:51,919

a rogue planet spotted wandering through

140

00:05:57,749 --> 00:05:54,800

space on its own maybe even stranger

141

00:06:02,070 --> 00:05:57,759

than scientists expected as it is not

142

00:06:04,550 --> 00:06:02,080

one but two objects this is an update we

143

00:06:07,830 --> 00:06:04,560

touched on this briefly last week on ufo

144

00:06:09,909 --> 00:06:07,840

headline news here's more info

145

00:06:13,189 --> 00:06:09,919

scientists now believe that the object

146

00:06:15,110 --> 00:06:13,199

might actually be two tiny brown dwarfs

147

00:06:17,670 --> 00:06:15,120

orbiting one another and that would make

148

00:06:18,710 --> 00:06:17,680

them the smallest binary system ever

149

00:06:21,510 --> 00:06:18,720

found

150

00:06:23,990 --> 00:06:21,520

brown dwarfs those objects too big to be

151
00:06:26,070 --> 00:06:24,000
a planet but they're not massive enough

152
00:06:28,230 --> 00:06:26,080
to sustain the nuclear fusion which

153
00:06:30,469 --> 00:06:28,240
makes stars burn

154
00:06:33,430 --> 00:06:30,479
after observing these two objects and

155
00:06:40,469 --> 00:06:33,440
this week they have names well the name

156
00:06:44,790 --> 00:06:40,479
is 2 m a s s j 1 1 1 9 3 2 5 4

157
00:06:46,790 --> 00:06:44,800
1 1 3 7 4 6 6 but not to worry if you

158
00:06:49,430 --> 00:06:46,800
want to know there will be a link later

159
00:06:51,029 --> 00:06:49,440
at ufoheadlinenews.com

160
00:06:53,510 --> 00:06:51,039
and no tests

161
00:06:55,670 --> 00:06:53,520
this has been studied out of the keck ii

162
00:06:58,230 --> 00:06:55,680
telescope in hawaii and scientists

163
00:07:00,070 --> 00:06:58,240

believe now that they are two brown

164

00:07:01,990 --> 00:07:00,080

dwarf stars

165

00:07:04,469 --> 00:07:02,000

it's thought to be the lowest mass

166

00:07:06,230 --> 00:07:04,479

binary system ever detected

167

00:07:08,950 --> 00:07:06,240

writing in the blog of the american

168

00:07:11,830 --> 00:07:08,960

astronomical society the scientists say

169

00:07:15,670 --> 00:07:11,840

quote the team found that each component

170

00:07:18,150 --> 00:07:15,680

is a mere minus 3.7 jupiter masses and

171

00:07:21,270 --> 00:07:18,160

that places them in this fuzzy region

172

00:07:25,110 --> 00:07:21,280

between planets and stars regardless of

173

00:07:28,390 --> 00:07:25,120

its definition two m a s s j one one one

174

00:07:29,670 --> 00:07:28,400

nine three two five four dash one one

175

00:07:30,469 --> 00:07:29,680

three seven

176

00:07:33,110 --> 00:07:30,479

six

177

00:07:34,950 --> 00:07:33,120

qualifies as the lowest mass binary

178

00:07:37,189 --> 00:07:34,960

discovered to date

179

00:07:39,749 --> 00:07:37,199

the individual masses of the components

180

00:07:42,710 --> 00:07:39,759

also place them among the lowest mass

181

00:07:44,550 --> 00:07:42,720

free-floating brown dwarfs known this

182

00:07:47,270 --> 00:07:44,560

system will therefore be a crucial

183

00:07:50,790 --> 00:07:47,280

benchmark for tests of evolutionary and

184

00:07:52,870 --> 00:07:50,800

atmospheric models for low mass stars in

185

00:07:55,830 --> 00:07:52,880

the future end quotes

186

00:07:57,990 --> 00:07:55,840

and we will keep our eyes on that

187

00:08:01,309 --> 00:07:58,000

this broadcaster is rather puzzled

188

00:08:04,869 --> 00:08:01,319

regarding that use of the word dwarfs

189

00:08:07,589 --> 00:08:04,879

d-w-a-r-f-s rather than dwarves with a

190

00:08:09,270 --> 00:08:07,599

d-w-a-r-v-e-s

191

00:08:12,230 --> 00:08:09,280

we'll have to sleuth around and see if

192

00:08:15,990 --> 00:08:12,240

we can find out what is up with that and

193

00:08:19,510 --> 00:08:16,000

then there's this from airspacemag.com

194

00:08:21,189 --> 00:08:19,520

headline the search for extraterrestrial

195

00:08:23,830 --> 00:08:21,199

artifacts

196

00:08:26,790 --> 00:08:23,840

seti research is picking up on the other

197

00:08:30,150 --> 00:08:26,800

side of the atlantic this article gets a

198

00:08:32,709 --> 00:08:30,160

byline for writer dirk schulz mccooh

199

00:08:35,029 --> 00:08:32,719

the first workshop of the new german

200

00:08:37,350 --> 00:08:35,039

seti initiative recently convened in the

201
00:08:39,990 --> 00:08:37,360
southern town of freiburg with experts

202
00:08:42,870 --> 00:08:40,000
in fields ranging from social science to

203
00:08:44,750 --> 00:08:42,880
satellite imaging on hand to discuss how

204
00:08:47,750 --> 00:08:44,760
to advance the search for

205
00:08:49,670 --> 00:08:47,760
extraterrestrial intelligent life

206
00:08:52,150 --> 00:08:49,680
michael schechke from the university of

207
00:08:54,150 --> 00:08:52,160
freiburg started things off with a talk

208
00:08:56,870 --> 00:08:54,160
on the possible consequences of first

209
00:08:58,710 --> 00:08:56,880
contact with an extraterrestrial species

210
00:08:59,910 --> 00:08:58,720
and how we might prepare for such an

211
00:09:02,070 --> 00:08:59,920
encounter

212
00:09:04,470 --> 00:09:02,080
the symposium held at the library of

213
00:09:06,630 --> 00:09:04,480

congress in washington dc three years

214

00:09:08,630 --> 00:09:06,640

ago had a similar theme

215

00:09:10,870 --> 00:09:08,640

but professor shetsky's talk focused

216

00:09:14,389 --> 00:09:10,880

more on contact with artificial

217

00:09:18,550 --> 00:09:14,399

intelligence or machine based life

218

00:09:20,949 --> 00:09:18,560

other talks had to do with sata s-e-t-a

219

00:09:24,470 --> 00:09:20,959

that's new to this broadcaster it is the

220

00:09:26,710 --> 00:09:24,480

search for extraterrestrial artifacts

221

00:09:27,670 --> 00:09:26,720

the name is new the concept certainly

222

00:09:29,509 --> 00:09:27,680

not

223

00:09:31,590 --> 00:09:29,519

which will be one of the subjects of

224

00:09:34,790 --> 00:09:31,600

future research by this german research

225

00:09:37,190 --> 00:09:34,800

network hakan kayal from the university

226
00:09:39,590 --> 00:09:37,200
of wurzburg outlined the technical state

227
00:09:41,670 --> 00:09:39,600
of the arts in detecting and identifying

228
00:09:44,310 --> 00:09:41,680
objects in space whether natural

229
00:09:47,509 --> 00:09:44,320
phenomena such as meteorites and sprites

230
00:09:49,430 --> 00:09:47,519
or presumed extraterrestrial probes it

231
00:09:50,389 --> 00:09:49,440
was sobering that even in earth's

232
00:09:52,509 --> 00:09:50,399
vicinity

233
00:09:55,509 --> 00:09:52,519
we could only detect very large

234
00:09:57,910 --> 00:09:55,519
kilometer-sized probes or those that had

235
00:09:59,670 --> 00:09:57,920
a huge energy output

236
00:10:01,590 --> 00:09:59,680
other experts in the research network

237
00:10:04,310 --> 00:10:01,600
are addressing questions of possible

238
00:10:07,190 --> 00:10:04,320

cultural exchange communications between

239

00:10:08,550 --> 00:10:07,200

a putative extraterrestrial civilization

240

00:10:11,030 --> 00:10:08,560

and humans

241

00:10:12,870 --> 00:10:11,040

advanced alien civilizations might use

242

00:10:15,030 --> 00:10:12,880

probes to engage in interstellar

243

00:10:17,190 --> 00:10:15,040

communications or to observe other

244

00:10:20,069 --> 00:10:17,200

planets such as earth

245

00:10:23,269 --> 00:10:20,079

this intriguing idea led robert freitas

246

00:10:25,750 --> 00:10:23,279

and francisco valdez in the 1970s to

247

00:10:28,630 --> 00:10:25,760

conduct a photographic search of the

248

00:10:30,870 --> 00:10:28,640

earth moon lagrange points those points

249

00:10:33,350 --> 00:10:30,880

where a probe could be parked without

250

00:10:36,150 --> 00:10:33,360

any expenditure of energy they didn't

251
00:10:38,870 --> 00:10:36,160
find anything down to a detection limit

252
00:10:41,350 --> 00:10:38,880
of about 14th magnitude

253
00:10:43,269 --> 00:10:41,360
but that was 40 years ago and with

254
00:10:45,110 --> 00:10:43,279
today's technology a more thorough

255
00:10:48,310 --> 00:10:45,120
search could be conducted of these

256
00:10:50,150 --> 00:10:48,320
lagrange points and other localities

257
00:10:52,310 --> 00:10:50,160
funding for this type of research is

258
00:10:54,710 --> 00:10:52,320
hard to come by however and it's more

259
00:10:56,230 --> 00:10:54,720
likely to come from private sponsors

260
00:10:58,389 --> 00:10:56,240
rather than traditional government

261
00:11:00,790 --> 00:10:58,399
sources a possibility the german

262
00:11:03,190 --> 00:11:00,800
research network is looking into

263
00:11:05,430 --> 00:11:03,200

after many years where seti was pursued

264

00:11:08,790 --> 00:11:05,440

almost solely in the united states

265

00:11:11,110 --> 00:11:08,800

primarily by the seti institute germany

266

00:11:13,190 --> 00:11:11,120

is finally stepping up to join in this

267

00:11:14,630 --> 00:11:13,200

search as are other countries in europe

268

00:11:15,990 --> 00:11:14,640

including france

269

00:11:17,829 --> 00:11:16,000

that means we can look forward to

270

00:11:20,710 --> 00:11:17,839

significant contributions from

271

00:11:22,470 --> 00:11:20,720

scientists on both sides of the atlantic

272

00:11:25,350 --> 00:11:22,480

in the near future

273

00:11:27,350 --> 00:11:25,360

oh by the way about this writer dirk

274

00:11:29,750 --> 00:11:27,360

schulz mccooch is a professor at the

275

00:11:32,150 --> 00:11:29,760

technical university berlin germany he's

276
00:11:34,550 --> 00:11:32,160
an adjunct professor at arizona state

277
00:11:36,870 --> 00:11:34,560
university and washington state

278
00:11:39,350 --> 00:11:36,880
university he's an affiliate of the seti

279
00:11:41,670 --> 00:11:39,360
institute in mountain view california

280
00:11:44,630 --> 00:11:41,680
he's got several books in fact seven

281
00:11:46,230 --> 00:11:44,640
related to astrobiology and planetary

282
00:11:49,430 --> 00:11:46,240
habitability

283
00:11:52,710 --> 00:11:49,440
dirk schultz mccooch a busy man

284
00:11:55,350 --> 00:11:52,720
here's an update on busyness in the sky

285
00:11:57,430 --> 00:11:55,360
those eerie black rings they appeared in

286
00:11:59,910 --> 00:11:57,440
mexico city and we covered that here

287
00:12:02,470 --> 00:11:59,920
last week at ufo headline news

288
00:12:03,829 --> 00:12:02,480

and now they're appearing elsewhere so

289

00:12:06,949 --> 00:12:03,839

here's the headline

290

00:12:09,750 --> 00:12:06,959

mystery as eerie black rings appear in

291

00:12:12,470 --> 00:12:09,760

the sky around the world sending ufo

292

00:12:14,389 --> 00:12:12,480

hunters into a frenzy

293

00:12:16,790 --> 00:12:14,399

well we think that might perhaps be

294

00:12:19,110 --> 00:12:16,800

somewhat of an exaggeration this is

295

00:12:21,190 --> 00:12:19,120

written by patrick knox

296

00:12:23,829 --> 00:12:21,200

mysterious black smoke rings have been

297

00:12:25,990 --> 00:12:23,839

forming in the sky across the world with

298

00:12:28,069 --> 00:12:26,000

scientists struggling to explain this

299

00:12:30,069 --> 00:12:28,079

freaky phenomenon

300

00:12:32,470 --> 00:12:30,079

mystery surrounds this epidemic of

301
00:12:35,430 --> 00:12:32,480
sinister black smoke rings they've been

302
00:12:37,670 --> 00:12:35,440
forming now for a week or so this freaky

303
00:12:40,470 --> 00:12:37,680
phenomenon has been dubbed as quote

304
00:12:42,790 --> 00:12:40,480
smoke vortexes end quotes agenda

305
00:12:44,310 --> 00:12:42,800
listeners if you haven't seen the shots

306
00:12:47,750 --> 00:12:44,320
of this phenomenon they're still

307
00:12:49,509 --> 00:12:47,760
available over at ufoheadlinenews.com

308
00:12:51,829 --> 00:12:49,519
and of course you can link to them with

309
00:12:54,310 --> 00:12:51,839
this story as well we think that's a

310
00:12:55,990 --> 00:12:54,320
pretty good description smoke vortexes

311
00:12:58,870 --> 00:12:56,000
they've been appearing in remote spots

312
00:13:00,949 --> 00:12:58,880
in russia's siberia and the american

313
00:13:03,350 --> 00:13:00,959

midwest with the latest one being

314

00:13:05,430 --> 00:13:03,360

spotted in the united kingdom

315

00:13:07,670 --> 00:13:05,440

according to some witnesses this

316

00:13:10,150 --> 00:13:07,680

particular site is straight out of the

317

00:13:12,310 --> 00:13:10,160

2016 film arrival

318

00:13:13,910 --> 00:13:12,320

where visiting aliens use the circles to

319

00:13:16,790 --> 00:13:13,920

communicate

320

00:13:19,430 --> 00:13:16,800

kimberly robinson 22 was driving down

321

00:13:21,430 --> 00:13:19,440

the m62 near birkenshaw in the united

322

00:13:24,550 --> 00:13:21,440

kingdom with her boyfriend danny cooper

323

00:13:26,550 --> 00:13:24,560

26 when they noticed this creepy black

324

00:13:28,870 --> 00:13:26,560

mark in the sky

325

00:13:30,949 --> 00:13:28,880

full-time mum miss robinson described

326

00:13:33,670 --> 00:13:30,959

the circle as quote the weirdest thing i

327

00:13:35,509 --> 00:13:33,680

have ever seen end quotes she said me

328

00:13:38,470 --> 00:13:35,519

and my boyfriend were driving today and

329

00:13:40,710 --> 00:13:38,480

noticed a black flying ring in the sky

330

00:13:43,030 --> 00:13:40,720

it looked a bit smoky but the shape was

331

00:13:44,949 --> 00:13:43,040

a solid ring we haven't ever seen

332

00:13:47,750 --> 00:13:44,959

anything like this before and we've

333

00:13:49,350 --> 00:13:47,760

looked into it and no one knows what it

334

00:13:51,110 --> 00:13:49,360

is and quotes

335

00:13:53,110 --> 00:13:51,120

west yorkshire fire service said there

336

00:13:55,190 --> 00:13:53,120

had been no reports of fire at the time

337

00:13:57,189 --> 00:13:55,200

of this sighting on sunday it was just

338

00:13:58,949 --> 00:13:57,199

after 1 30 pm

339

00:14:01,350 --> 00:13:58,959

another bizarre ring was spotted in

340

00:14:02,470 --> 00:14:01,360

missouri in the united states the day

341

00:14:03,829 --> 00:14:02,480

before

342

00:14:06,069 --> 00:14:03,839

but police believe it must have been

343

00:14:07,110 --> 00:14:06,079

caused by some sort of firework in that

344

00:14:09,189 --> 00:14:07,120

case

345

00:14:11,829 --> 00:14:09,199

others believe the strange rings are

346

00:14:12,949 --> 00:14:11,839

evidence of alien ships visiting our

347

00:14:15,189 --> 00:14:12,959

planet

348

00:14:18,470 --> 00:14:15,199

in april another sighting spooked out

349

00:14:20,550 --> 00:14:18,480

shoppers in a mall in siberia yes they

350

00:14:22,710 --> 00:14:20,560

have those with some fearful it was a

351

00:14:24,710 --> 00:14:22,720

kind of doomsday warning

352

00:14:27,350 --> 00:14:24,720

in fact one social media person said

353

00:14:30,310 --> 00:14:27,360

quote it's a kind of supernatural power

354

00:14:33,030 --> 00:14:30,320

flying across the city end quotes but

355

00:14:35,269 --> 00:14:33,040

ufo investigator nick pope has another

356

00:14:38,069 --> 00:14:35,279

more prosaic explanation

357

00:14:41,030 --> 00:14:38,079

he said quote despite exotic theories

358

00:14:43,590 --> 00:14:41,040

about ufos aliens or portals to other

359

00:14:46,069 --> 00:14:43,600

dimensions i believe there's a decidedly

360

00:14:48,710 --> 00:14:46,079

down-to-earth explanation here a

361

00:14:50,790 --> 00:14:48,720

so-called smoke vortex can arise when

362

00:14:53,350 --> 00:14:50,800

you have a blast through a circular

363

00:14:55,670 --> 00:14:53,360

structure like a smokestack so these

364

00:14:58,870 --> 00:14:55,680

weird effects can be caused by accident

365

00:15:00,550 --> 00:14:58,880

or indeed by design and on this latter

366

00:15:03,189 --> 00:15:00,560

point they can be

367

00:15:04,710 --> 00:15:03,199

your heart has a natural rhythm a beat

368

00:15:06,389 --> 00:15:04,720

that drives you forward

369

00:15:08,710 --> 00:15:06,399

so the minute something's out of sync

370

00:15:10,550 --> 00:15:08,720

turn to hackensack meridian health one

371

00:15:12,710 --> 00:15:10,560

of the nation's leading cardiovascular

372

00:15:15,189 --> 00:15:12,720

programs this is where you'll find the

373

00:15:17,110 --> 00:15:15,199

power of possible leading specialists

374

00:15:18,790 --> 00:15:17,120

bringing you breakthroughs sooner

375

00:15:19,829 --> 00:15:18,800

advanced rehab that gets you moving

376

00:15:22,069 --> 00:15:19,839

faster

377

00:15:24,550 --> 00:15:22,079

and everything's perfectly orchestrated

378

00:15:27,509 --> 00:15:24,560

so your world never misses a beat

379

00:15:29,910 --> 00:15:27,519

hackensack meridian health life years

380

00:15:33,030 --> 00:15:29,920

ahead

381

00:15:34,470 --> 00:15:33,040

created as a sort of pyrotechnic effect

382

00:15:37,030 --> 00:15:34,480

it would be interesting to know if there

383

00:15:39,430 --> 00:15:37,040

were any outdoor festivals being held in

384

00:15:43,509 --> 00:15:39,440

the area concerned end quotes

385

00:15:45,670 --> 00:15:43,519

very logical mr nick pope he is that guy

386

00:15:47,670 --> 00:15:45,680

the smoke ring filmed in mexico was said

387

00:15:50,069 --> 00:15:47,680

to have resembled the bottom of a

388

00:15:51,910 --> 00:15:50,079

whirlwind as it perhaps rose up in the

389

00:15:53,030 --> 00:15:51,920

ground and over the heads of the

390

00:15:55,269 --> 00:15:53,040

witnesses

391

00:15:57,590 --> 00:15:55,279

very curious almost to this broadcaster

392

00:16:01,110 --> 00:15:57,600

resembling that infamous hole punch

393

00:16:03,829 --> 00:16:01,120

cloud incident gate 17 chicago's o'hare

394

00:16:06,230 --> 00:16:03,839

airport yep it was a cloud move along

395

00:16:08,870 --> 00:16:06,240

folks nothing to see here

396

00:16:12,710 --> 00:16:08,880

but there seemingly was something to see

397

00:16:14,870 --> 00:16:12,720

at dingman's ferry pennsylvania july 16

398

00:16:17,189 --> 00:16:14,880

2017. we grabbed this from

399

00:16:19,910 --> 00:16:17,199

ufostalker.com

400

00:16:22,389 --> 00:16:19,920

mufon gave this case a tracking number

401
00:16:25,430 --> 00:16:22,399
for purposes of identification that

402
00:16:27,189 --> 00:16:25,440
number is eight five one four one

403
00:16:29,749 --> 00:16:27,199
the date of this sighting is the 16th of

404
00:16:31,030 --> 00:16:29,759
july as we said it wasn't reported till

405
00:16:33,350 --> 00:16:31,040
the next day

406
00:16:34,949 --> 00:16:33,360
here's what the witness says in summary

407
00:16:37,829 --> 00:16:34,959
i looked at the sky

408
00:16:41,189 --> 00:16:37,839
and saw a bigger version of a lightning

409
00:16:43,509 --> 00:16:41,199
bug falling eventually landing in the

410
00:16:46,949 --> 00:16:43,519
woods next to my house

411
00:16:49,829 --> 00:16:46,959
it looked like a star fallen

412
00:16:53,430 --> 00:16:49,839
citing specifics oh a very close viewing

413
00:16:56,870 --> 00:16:53,440

distance 21 to 100 feet initially only

414

00:16:59,110 --> 00:16:56,880
moving to 101 to 500 feet

415

00:17:01,509 --> 00:16:59,120
the altitude landed

416

00:17:03,509 --> 00:17:01,519
the citing duration 15 minutes

417

00:17:06,230 --> 00:17:03,519
object features unknown

418

00:17:07,270 --> 00:17:06,240
object flight path path with directional

419

00:17:09,110 --> 00:17:07,280
change

420

00:17:11,750 --> 00:17:09,120
and our witness reports this object to

421

00:17:16,230 --> 00:17:11,760
have been shaped star-like

422

00:17:18,630 --> 00:17:16,240
here's the account today july 16 2017 at

423

00:17:21,029 --> 00:17:18,640
11 49 p.m ish

424

00:17:23,029 --> 00:17:21,039
i was getting ready to head to bed so i

425

00:17:25,909 --> 00:17:23,039
started to close my blinds

426
00:17:28,390 --> 00:17:25,919
i looked up at the sky and saw a glowing

427
00:17:29,350 --> 00:17:28,400
green light at first i thought it was a

428
00:17:31,830 --> 00:17:29,360
plane

429
00:17:34,630 --> 00:17:31,840
but then it looked like just a huge

430
00:17:36,870 --> 00:17:34,640
version of a green lightning bug

431
00:17:39,909 --> 00:17:36,880
it began to descend to the ground

432
00:17:42,150 --> 00:17:39,919
and i realized then it wasn't a plane

433
00:17:43,909 --> 00:17:42,160
when it landed it stayed in one area for

434
00:17:47,029 --> 00:17:43,919
about 15 minutes

435
00:17:48,630 --> 00:17:47,039
it looked like an extremely green light

436
00:17:49,909 --> 00:17:48,640
was sitting in the woods next to my

437
00:17:52,549 --> 00:17:49,919
house

438
00:17:54,470 --> 00:17:52,559

i actually felt terrified i felt as if

439

00:17:55,270 --> 00:17:54,480

something really bad could happen right

440

00:17:57,430 --> 00:17:55,280

now

441

00:18:00,470 --> 00:17:57,440

i felt that if they saw me looking at

442

00:18:01,830 --> 00:18:00,480

them so i closed my blinds and i closed

443

00:18:03,590 --> 00:18:01,840

the curtains

444

00:18:05,830 --> 00:18:03,600

after the sighting i felt like i ought

445

00:18:08,470 --> 00:18:05,840

to do some research so i looked up what

446

00:18:11,909 --> 00:18:08,480

to do if you cite a ufo and that's how

447

00:18:15,029 --> 00:18:11,919

i'm filling out this report right now

448

00:18:17,669 --> 00:18:15,039

excellent idea good choice fear

449

00:18:20,230 --> 00:18:17,679

interesting fear of the unknown we're

450

00:18:22,710 --> 00:18:20,240

gonna guess so turn that fear into

451
00:18:25,590 --> 00:18:22,720
perhaps activity sleuth around on the

452
00:18:27,909 --> 00:18:25,600
internet utilize it to find similar

453
00:18:29,909 --> 00:18:27,919
sightings and like-minded individuals

454
00:18:31,830 --> 00:18:29,919
that's a cool thing

455
00:18:35,350 --> 00:18:31,840
here's something from laguna woods

456
00:18:37,470 --> 00:18:35,360
california a citing a ufo sighting in

457
00:18:41,029 --> 00:18:37,480
fact case number

458
00:18:43,909 --> 00:18:41,039
85140 the date here is the 10th of june

459
00:18:44,950 --> 00:18:43,919
it wasn't reported till july 16th so

460
00:18:47,750 --> 00:18:44,960
here we go

461
00:18:50,549 --> 00:18:47,760
the summary vertical metal object

462
00:18:52,310 --> 00:18:50,559
floating across the sky

463
00:18:55,470 --> 00:18:52,320

this is very difficult to describe you

464

00:18:57,669 --> 00:18:55,480

just have to head on over to ufo

465

00:18:59,990 --> 00:18:57,679

ufoheadlinenews.com gentlelisteners

466

00:19:02,789 --> 00:19:00,000

check out those photos for yourself we

467

00:19:05,190 --> 00:19:02,799

would not even begin to describe them at

468

00:19:08,549 --> 00:19:05,200

any rate the sighting specifics viewing

469

00:19:10,630 --> 00:19:08,559

distance over one mile altitude over 500

470

00:19:12,870 --> 00:19:10,640

feet no cloud cover the sighting

471

00:19:14,789 --> 00:19:12,880

duration was 20 minutes

472

00:19:16,390 --> 00:19:14,799

but those object features are simply

473

00:19:18,789 --> 00:19:16,400

described as other

474

00:19:21,830 --> 00:19:18,799

the flight path was a straight line path

475

00:19:23,750 --> 00:19:21,840

and this object had an unknown shape

476

00:19:26,070 --> 00:19:23,760

there is some meteorology here for

477

00:19:29,029 --> 00:19:26,080

laguna woods california maximum

478

00:19:32,710 --> 00:19:29,039

temperature 71 degrees fahrenheit 22

479

00:19:36,310 --> 00:19:32,720

degrees celsius down to a desert coastal

480

00:19:37,430 --> 00:19:36,320

low of 62 degrees fahrenheit 17 degrees

481

00:19:39,909 --> 00:19:37,440

celsius

482

00:19:43,430 --> 00:19:39,919

the maximum visibility here was 10 miles

483

00:19:46,710 --> 00:19:43,440

16 kilometers down to a minimum of three

484

00:19:49,350 --> 00:19:46,720

miles and five kilometers because lo and

485

00:19:52,310 --> 00:19:49,360

behold it was southern california but it

486

00:19:54,070 --> 00:19:52,320

was raining interestingly there seems to

487

00:19:56,630 --> 00:19:54,080

be a discrepancy here between the

488

00:19:59,669 --> 00:19:56,640

summary and the sighting details because

489

00:20:03,110 --> 00:19:59,679

this says weather-wise on friday june

490

00:20:07,350 --> 00:20:03,120

10th 2017 at 5 15 p.m it was a cool

491

00:20:09,350 --> 00:20:07,360

evening not a cloud in the blue sky

492

00:20:12,070 --> 00:20:09,360

i was sitting on my balcony in laguna

493

00:20:14,549 --> 00:20:12,080

woods talking to a friend facing east

494

00:20:17,029 --> 00:20:14,559

while gazing at saddleback mountain

495

00:20:19,270 --> 00:20:17,039

i noticed a shimmering metal object in

496

00:20:22,549 --> 00:20:19,280

the sky and i thought it was a plane at

497

00:20:24,710 --> 00:20:22,559

first as i kept my eyes on it i realized

498

00:20:27,350 --> 00:20:24,720

this was too vertical looking to be a

499

00:20:28,870 --> 00:20:27,360

plane so i grabbed my binoculars to see

500

00:20:30,950 --> 00:20:28,880

what this was

501
00:20:33,430 --> 00:20:30,960
while looking through the binoculars i

502
00:20:36,630 --> 00:20:33,440
saw a pulsating red light coming from

503
00:20:38,470 --> 00:20:36,640
within the center column of this object

504
00:20:41,470 --> 00:20:38,480
i couldn't see that red light without

505
00:20:45,990 --> 00:20:41,480
the binoculars so i decided to grab my

506
00:20:47,990 --> 00:20:46,000
dslr camera 16 to 270 millimeter lens to

507
00:20:50,390 --> 00:20:48,000
take a few shots of this and look at it

508
00:20:52,870 --> 00:20:50,400
better through my viewfinder the object

509
00:20:55,270 --> 00:20:52,880
moved out of view before i could grab my

510
00:20:57,110 --> 00:20:55,280
tripod to get better shots these

511
00:20:59,430 --> 00:20:57,120
consecutive shots show that the object

512
00:21:01,669 --> 00:20:59,440
was changing in appearance and i believe

513
00:21:04,549 --> 00:21:01,679

it was simultaneously rotating in

514

00:21:07,350 --> 00:21:04,559

circles while moving east west in a

515

00:21:08,630 --> 00:21:07,360

straight line across the sky towards the

516

00:21:09,710 --> 00:21:08,640

ocean

517

00:21:12,470 --> 00:21:09,720

yikes

518

00:21:14,470 --> 00:21:12,480

meteorological confusion or not still a

519

00:21:16,870 --> 00:21:14,480

very cool sighting check out those

520

00:21:19,190 --> 00:21:16,880

photos we've just checked out the fact

521

00:21:20,870 --> 00:21:19,200

that we've gotta fly out of here like a

522

00:21:23,190 --> 00:21:20,880

ufo because

523

00:21:25,669 --> 00:21:23,200

that's a wrap thank you for listening to

524

00:21:27,590 --> 00:21:25,679

inception radio network follow today's

525

00:21:29,029 --> 00:21:27,600

broadcast at ufoheadlinenews.com

526

00:21:30,950 --> 00:21:29,039

[Music]

527

00:21:33,350 --> 00:21:30,960

take care of each other we're all in
