

# UFO Headline News Wednesday July 19th, 2017

Listen on

[inceptionradionetwork.com](http://inceptionradionetwork.com)

1  
00:00:04,430 --> 00:00:02,180  
you're listening to love advice with

2  
00:00:06,289 --> 00:00:04,440  
Leanne caller you're on the air

3  
00:00:09,049 --> 00:00:06,299  
hi Leanne longtime listener first-time

4  
00:00:11,450 --> 00:00:09,059  
caller why in your professional opinion

5  
00:00:12,499 --> 00:00:11,460  
do you never take my calls off the air

6  
00:00:15,200 --> 00:00:12,509  
is this Carl

7  
00:00:17,930 --> 00:00:15,210  
yep it's Carl we had a few dates

8  
00:00:20,960 --> 00:00:17,940  
everything was great I thought well you

9  
00:00:22,300 --> 00:00:20,970  
know when you switch to Geico you could

10  
00:00:24,050 --> 00:00:22,310  
save a lot of money on car insurance

11  
00:00:26,120 --> 00:00:24,060  
okay awesome

12  
00:00:27,890 --> 00:00:26,130  
you should call them I will Geico

13  
00:00:31,070 --> 00:00:27,900

because saving 15% or more on car

14

00:00:35,060 --> 00:00:31,080

insurance is always a great answer hello

15

00:00:37,250 --> 00:00:35,070

it's Wednesday July 19th 2017 you are

16

00:00:39,889 --> 00:00:37,260

listening to inception Radio Network

17

00:00:45,529 --> 00:00:39,899

voice of the fringe majority this is

18

00:00:48,440 --> 00:00:45,539

Carol Carl with UFO headline news earth

19

00:00:50,750 --> 00:00:48,450

sky dot-org has done it again they

20

00:00:54,110 --> 00:00:50,760

promised us something wonderful to look

21

00:00:56,810 --> 00:00:54,120

at but oh boy it's time to get up early

22

00:00:58,849 --> 00:00:56,820

in fact before sunrise tomorrow July

23

00:01:01,599 --> 00:00:58,859

20th you can look for the waning

24

00:01:03,950 --> 00:01:01,609

crescent moon and the planet Venus

25

00:01:07,490 --> 00:01:03,960

spectacular in the Eastern morning sky

26

00:01:10,310 --> 00:01:07,500

or if you're up before dawn say an hour

27

00:01:12,740 --> 00:01:10,320

or two before sunrise then let the

28

00:01:15,560 --> 00:01:12,750

pre-dawn darkness also show you the star

29

00:01:18,230 --> 00:01:15,570

Aldebaran and the Pleiades star cluster

30

00:01:21,109 --> 00:01:18,240

as well although that star Aldebaran

31

00:01:23,600 --> 00:01:21,119

ranks as a first magnitude star and the

32

00:01:26,690 --> 00:01:23,610

Pleiades is highly recognizable for that

33

00:01:29,450 --> 00:01:26,700

dipper like shape both pale next to

34

00:01:31,399 --> 00:01:29,460

dazzling Venus thus the lights of the

35

00:01:34,550 --> 00:01:31,409

coming dawn can drown them from view

36

00:01:36,679 --> 00:01:34,560

Venus the most brilliant planet ranks as

37

00:01:38,990 --> 00:01:36,689

the third brightest celestial body to

38

00:01:42,350 --> 00:01:39,000

light up the heavens after the Sun and

39  
00:01:44,749 --> 00:01:42,360  
Moon Venus shines nearly 100 times more

40  
00:01:46,580 --> 00:01:44,759  
brilliantly than Aldebaran which is that

41  
00:01:49,249 --> 00:01:46,590  
bright star in the constellation Taurus

42  
00:01:53,030 --> 00:01:49,259  
the Bull and as we've come to expect

43  
00:01:55,730 --> 00:01:53,040  
from earth sky org there are amazing sky

44  
00:01:58,160 --> 00:01:55,740  
charts available via the click of a link

45  
00:02:00,620 --> 00:01:58,170  
for your consultation and perusal you

46  
00:02:03,679 --> 00:02:00,630  
can find them later at UFO headline news

47  
00:02:05,899 --> 00:02:03,689  
calm and while in this case the sky

48  
00:02:08,300 --> 00:02:05,909  
charts are designed for mid northern

49  
00:02:10,760 --> 00:02:08,310  
North American latitudes don't let that

50  
00:02:12,850 --> 00:02:10,770  
stop you from looking because no matter

51  
00:02:14,890 --> 00:02:12,860  
where you are on planet earth

52  
00:02:17,740 --> 00:02:14,900  
simply look for the moon in the eastern

53  
00:02:20,890 --> 00:02:17,750  
sky before sunrise and the two star-like

54  
00:02:23,950 --> 00:02:20,900  
objects close by July 20th those will be

55  
00:02:26,980 --> 00:02:23,960  
Venus and Aldebaran and Bruce McClure

56  
00:02:29,620 --> 00:02:26,990  
who writes this says need more precision

57  
00:02:32,520 --> 00:02:29,630  
well residents of the world's eastern

58  
00:02:35,170 --> 00:02:32,530  
hemisphere Europe Africa Asia Indonesia

59  
00:02:37,600 --> 00:02:35,180  
Australia and New Zealand will see the

60  
00:02:40,150 --> 00:02:37,610  
moon offset to the west farther away

61  
00:02:43,120 --> 00:02:40,160  
from the sunrise point relative to Venus

62  
00:02:45,250 --> 00:02:43,130  
and Aldebaran we in North America see

63  
00:02:48,730 --> 00:02:45,260

the moon to the east of Aldebaran July

64

00:02:51,250 --> 00:02:48,740

20 people in far eastern Asia Indonesia

65

00:02:54,070 --> 00:02:51,260

Australia and New Zealand will see the

66

00:02:56,320 --> 00:02:54,080

moon to the west of Aldebaran on this

67

00:02:59,350 --> 00:02:56,330

same date but if you live in India

68

00:03:01,690 --> 00:02:59,360

Pakistan or Afghanistan it's possible

69

00:03:04,300 --> 00:03:01,700

you won't see Aldebaran to the west of

70

00:03:07,120 --> 00:03:04,310

the moon or to the east of the moon in

71

00:03:10,000 --> 00:03:07,130

tomorrow's July 20th pre-dawn sky and

72

00:03:12,760 --> 00:03:10,010

that's because for those areas the moon

73

00:03:15,790 --> 00:03:12,770

will actually occult or cover over

74

00:03:18,039 --> 00:03:15,800

Aldebaran with Aldebaran slipping behind

75

00:03:20,080 --> 00:03:18,049

the moon's illuminated side and then

76

00:03:22,900 --> 00:03:20,090

reappearing from behind the moon's

77

00:03:26,380 --> 00:03:22,910

nighttime side so here's the bottom line

78

00:03:29,860 --> 00:03:26,390

get up early tomorrow morning see the

79

00:03:32,229 --> 00:03:29,870

moon and Venus and Aldebaran into the

80

00:03:34,539 --> 00:03:32,239

bargain no not to forget the Pleiades

81

00:03:37,270 --> 00:03:34,549

star cluster we don't want those Seven

82

00:03:39,850 --> 00:03:37,280

Sisters to be angry tomorrow we're going

83

00:03:40,420 --> 00:03:39,860

to be talking about the Pleiades meteor

84

00:03:43,270 --> 00:03:40,430

shower

85

00:03:45,310 --> 00:03:43,280

coming soon to a nighttime sky near you

86

00:03:47,830 --> 00:03:45,320

and in fact depending on where you are

87

00:03:51,759 --> 00:03:47,840

when you hear this broadcast they might

88

00:03:54,009 --> 00:03:51,769

be there now let's go from now to the

89

00:03:56,140 --> 00:03:54,019

future shall we here's an article by

90

00:04:00,640 --> 00:03:56,150

Elizabeth Howell written for the website

91

00:04:03,039 --> 00:04:00,650

seeker calm future space colony maybe we

92

00:04:07,090 --> 00:04:03,049

should look beyond Mars to Saturn's

93

00:04:09,580 --> 00:04:07,100

Titan moon NASA and Elon Musk's SpaceX

94

00:04:12,640 --> 00:04:09,590

are focused on getting astronauts to

95

00:04:15,340 --> 00:04:12,650

Mars and even one day establishing a

96

00:04:17,170 --> 00:04:15,350

colony on the Red Planet but what if

97

00:04:19,930 --> 00:04:17,180

their attention is better directed

98

00:04:22,029 --> 00:04:19,940

elsewhere there's a new paper in the

99

00:04:24,400 --> 00:04:22,039

journal of astrobiology and outreach

100

00:04:26,530 --> 00:04:24,410

which suggests that humans should

101

00:04:29,500 --> 00:04:26,540

instead establish a colony

102

00:04:31,420 --> 00:04:29,510

on titan that soupy orange moon of

103

00:04:33,700 --> 00:04:31,430

Saturn that's been likened to an early

104

00:04:37,140 --> 00:04:33,710

Earth and which may harbour signs of

105

00:04:40,150 --> 00:04:37,150

quote life not as we know it end quotes

106

00:04:43,030 --> 00:04:40,160

here's a quote from NASA on its website

107

00:04:45,610 --> 00:04:43,040

quote in many respects Saturn's largest

108

00:04:48,640 --> 00:04:45,620

moon Titan is one of the most earth-like

109

00:04:50,620 --> 00:04:48,650

worlds we have found to date with its

110

00:04:53,140 --> 00:04:50,630

thick atmosphere and organic rich

111

00:04:55,000 --> 00:04:53,150

chemistry Titan resembles a frozen

112

00:04:57,790 --> 00:04:55,010

version of Earth several billion years

113

00:05:00,910 --> 00:04:57,800

ago before life began pumping oxygen

114

00:05:04,390 --> 00:05:00,920

into our atmosphere and quotes to be

115

00:05:06,750 --> 00:05:04,400

clear Titan could have microbes or at

116

00:05:11,050 --> 00:05:06,760

the least chemistry that resembles

117

00:05:13,000 --> 00:05:11,060

prebiotic life but it is no earth Titan

118

00:05:15,610 --> 00:05:13,010

is perpetually covered in an orange

119

00:05:18,700 --> 00:05:15,620

cloud and its atmosphere is not human

120

00:05:21,420 --> 00:05:18,710

friendly but Titans gravity is walkable

121

00:05:23,830 --> 00:05:21,430

its 14% of what we have here on earth

122

00:05:25,780 --> 00:05:23,840

radiation on its surface is less than

123

00:05:27,970 --> 00:05:25,790

that on Mars because of those thick

124

00:05:30,310 --> 00:05:27,980

clouds and it offers various sources

125

00:05:33,130 --> 00:05:30,320

from which visitors might generate

126

00:05:35,890 --> 00:05:33,140

energy this recently published papers

127

00:05:37,240 --> 00:05:35,900

author Amanda Hendricks pointed out in a

128

00:05:40,510 --> 00:05:37,250

previous book that she co-authored

129

00:05:43,450 --> 00:05:40,520

called beyond Earth our path to a new

130

00:05:45,820 --> 00:05:43,460

home in the planet Titan has massive

131

00:05:47,950 --> 00:05:45,830

deposits of hydrocarbons compounds

132

00:05:51,280 --> 00:05:47,960

generally associated with petroleum and

133

00:05:53,380 --> 00:05:51,290

gas data from NASA's Cassini probe has

134

00:05:56,380 --> 00:05:53,390

shown that Titan has hundreds of times

135

00:05:58,870 --> 00:05:56,390

more liquid hydrocarbons than all of the

136

00:06:01,180 --> 00:05:58,880

known oil and natural gas reserves on

137

00:06:03,130 --> 00:06:01,190

planet Earth that book

138

00:06:04,990 --> 00:06:03,140

beyond Earth points out that people on

139

00:06:06,790 --> 00:06:05,000

Titan could get energy from these

140

00:06:09,340 --> 00:06:06,800

compounds if they use a separate

141

00:06:11,710 --> 00:06:09,350

combustion source that helps circumvent

142

00:06:14,050 --> 00:06:11,720

that fact that there is no oxygen in the

143

00:06:16,270 --> 00:06:14,060

moon's atmosphere but Amanda Hendricks

144

00:06:18,820 --> 00:06:16,280

new research also discusses other ways

145

00:06:21,430 --> 00:06:18,830

of generating chemical energy such as

146

00:06:24,790 --> 00:06:21,440

treating acetylene which is an abundant

147

00:06:26,710 --> 00:06:24,800

compound with hydrogen quote in this

148

00:06:28,990 --> 00:06:26,720

paper I dig into the chemical energy

149

00:06:31,210 --> 00:06:29,000

options a bit deeper and also look to

150

00:06:33,490 --> 00:06:31,220

alternative energy possibilities

151  
00:06:35,590 --> 00:06:33,500  
Hendricks is a staff scientist at the

152  
00:06:38,770 --> 00:06:35,600  
non-profit Planetary Science Institute

153  
00:06:40,330 --> 00:06:38,780  
by the way she continues quote my

154  
00:06:42,430 --> 00:06:40,340  
co-author yoo-kyung

155  
00:06:46,330 --> 00:06:42,440  
and I looked at chemical nuclear

156  
00:06:49,360 --> 00:06:46,340  
geothermal solar hydro power and wind

157  
00:06:51,370 --> 00:06:49,370  
power options on Titan this paper is

158  
00:06:54,670 --> 00:06:51,380  
designed to be a high-level first look

159  
00:06:56,680 --> 00:06:54,680  
at some of these topics and quotes while

160  
00:06:58,780 --> 00:06:56,690  
Amanda Hendricks said it's possible to

161  
00:07:01,270 --> 00:06:58,790  
generate such energy using technology

162  
00:07:03,159 --> 00:07:01,280  
that we have available today she also

163  
00:07:06,370 --> 00:07:03,169

noted there are ways we could get even

164

00:07:09,490 --> 00:07:06,380

more out of titans environment with the

165

00:07:11,469 --> 00:07:09,500

proper study for example more solar

166

00:07:13,000 --> 00:07:11,479

power would be generated if we learned

167

00:07:15,940 --> 00:07:13,010

about the capabilities of different

168

00:07:17,950 --> 00:07:15,950

photovoltaic cell materials and most

169

00:07:21,610 --> 00:07:17,960

importantly how these materials would

170

00:07:24,129 --> 00:07:21,620

behave on Titan hydropower would require

171

00:07:26,379 --> 00:07:24,139

better mapping of Titans abundant lake

172

00:07:29,020 --> 00:07:26,389

regions including their topography and

173

00:07:31,390 --> 00:07:29,030

their flow rate even wind power would

174

00:07:34,150 --> 00:07:31,400

require some research into airborne wind

175

00:07:37,480 --> 00:07:34,160

turbines but Hendricks said all of these

176

00:07:40,210 --> 00:07:37,490

options are promising quote I imagine

177

00:07:42,879 --> 00:07:40,220

that as here on earth a combination of

178

00:07:45,850 --> 00:07:42,889

energy sources would be useful on Titan

179

00:07:48,490 --> 00:07:45,860

in particular solar energy using large

180

00:07:50,860 --> 00:07:48,500

arrays and wind power using airborne

181

00:07:53,350 --> 00:07:50,870

wind turbines might be particularly

182

00:07:55,839 --> 00:07:53,360

effective end quotes delivered properly

183

00:07:58,210 --> 00:07:55,849

the energy would be more than enough for

184

00:08:00,550 --> 00:07:58,220

a small outpost instead of just sending

185

00:08:02,219 --> 00:08:00,560

humans on a one-shot mission to look for

186

00:08:04,450 --> 00:08:02,229

life on the surface for example

187

00:08:07,870 --> 00:08:04,460

hendricks envisions a future that could

188

00:08:11,560 --> 00:08:07,880

generate power for years in one scenario

189

00:08:13,779 --> 00:08:11,570

solar arrays placed over 10% of Titan's

190

00:08:16,900 --> 00:08:13,789

surface area would generate power needs

191

00:08:19,300 --> 00:08:16,910

of a population of roughly 300 million

192

00:08:22,390 --> 00:08:19,310

and that's equivalent to the population

193

00:08:24,730 --> 00:08:22,400

of the United States quote this is just

194

00:08:26,680 --> 00:08:24,740

an initial estimate of course but what

195

00:08:28,960 --> 00:08:26,690

we're talking about is something much

196

00:08:31,810 --> 00:08:28,970

larger than a short-term human science

197

00:08:34,420 --> 00:08:31,820

mission to Titan end quotes said Amanda

198

00:08:36,149 --> 00:08:34,430

Hendricks with NASA's stated goal of

199

00:08:39,670 --> 00:08:36,159

sending humans to Mars by the 2030s

200

00:08:42,519 --> 00:08:39,680

however space agencies remain focused on

201  
00:08:45,280 --> 00:08:42,529  
Mars exploration so we'll just have to

202  
00:08:48,850 --> 00:08:45,290  
stay tuned stay in the loop and see how

203  
00:08:51,490 --> 00:08:48,860  
this rolls the next headline up it's

204  
00:08:54,170 --> 00:08:51,500  
just something we never expected to set

205  
00:08:57,110 --> 00:08:54,180  
our eyes on here we are

206  
00:09:01,060 --> 00:08:57,120  
congressman asks NASA if there's an

207  
00:09:03,740 --> 00:09:01,070  
ancient civilization on Mars for real

208  
00:09:06,530 --> 00:09:03,750  
that's the headline chosen by Michelle

209  
00:09:09,980 --> 00:09:06,540  
Gorman she writes this for Newsweek

210  
00:09:10,960 --> 00:09:09,990  
yep that well-respected magazine here's

211  
00:09:14,180 --> 00:09:10,970  
the story

212  
00:09:15,680 --> 00:09:14,190  
addressing a NASA scientist testifying

213  
00:09:18,949 --> 00:09:15,690

before the House Committee on Science

214

00:09:21,290 --> 00:09:18,959

Space and Technology united states

215

00:09:24,019 --> 00:09:21,300

representative dana rohrbacher said

216

00:09:25,970 --> 00:09:24,029

quote you have indicated that mars was

217

00:09:29,090 --> 00:09:25,980

totally different thousands of years ago

218

00:09:31,790 --> 00:09:29,100

and quotes this is from a video posted

219

00:09:34,130 --> 00:09:31,800

to youtube Rohrabacher continues quote

220

00:09:37,610 --> 00:09:34,140

is it possible that there was a

221

00:09:41,930 --> 00:09:37,620

civilization on Mars thousands of years

222

00:09:44,420 --> 00:09:41,940

ago and quotes in his answer Ken Farley

223

00:09:47,180 --> 00:09:44,430

a project scientist on NASA's Mars 2020

224

00:09:49,610 --> 00:09:47,190

rover mission team corrected Rohrabacher

225

00:09:50,720 --> 00:09:49,620

by saying the evidence shows that Mars

226

00:09:53,750 --> 00:09:50,730

was different

227

00:09:55,910 --> 00:09:53,760

billions not thousands of years ago and

228

00:09:58,760 --> 00:09:55,920

he added quote there is no evidence that

229

00:10:01,850 --> 00:09:58,770

I'm aware of and quotes Dana Rohrabacher

230

00:10:03,560 --> 00:10:01,860

who is a Republican by party persuasion

231

00:10:06,620 --> 00:10:03,570

and the vice chairman of the Committee

232

00:10:08,810 --> 00:10:06,630

on Science Space and Technology and has

233

00:10:11,150 --> 00:10:08,820

also served as a member of the space and

234

00:10:13,970 --> 00:10:11,160

Aeronautics subcommittee pressed Farley

235

00:10:15,769 --> 00:10:13,980

about his inquiry asking him if he would

236

00:10:19,130 --> 00:10:15,779

quote rule that out

237

00:10:21,829 --> 00:10:19,140

end quote the Farley's response quote I

238

00:10:22,910 --> 00:10:21,839

would say that it is extremely unlikely

239

00:10:25,730 --> 00:10:22,920

end quote

240

00:10:28,370 --> 00:10:25,740

the communications director for Dana

241

00:10:30,980 --> 00:10:28,380

Rohrabacher ken Grubbs tells News week

242

00:10:33,620 --> 00:10:30,990

that the congressman was trying to reach

243

00:10:36,230 --> 00:10:33,630

a definitive answer on a question quote

244

00:10:38,240 --> 00:10:36,240

he gets from far and wide presumably

245

00:10:41,120 --> 00:10:38,250

because he sits on the Space Committee

246

00:10:43,010 --> 00:10:41,130

and quotes ken grubs added quote it's

247

00:10:46,190 --> 00:10:43,020

apparent that many of those covering it

248

00:10:50,389 --> 00:10:46,200

didn't hear the link in his voice and

249

00:10:53,990 --> 00:10:50,399

quotes okay that's the giggle factor the

250

00:10:55,430 --> 00:10:54,000

snicker factor there it is ken Farley

251  
00:10:56,690 --> 00:10:55,440  
was one of a few space experts

252  
00:11:00,110 --> 00:10:56,700  
testifying before the House Committee

253  
00:11:02,300 --> 00:11:00,120  
about missions to other planets Dana

254  
00:11:04,340 --> 00:11:02,310  
Rohrabacher inquiry came after Farley's

255  
00:11:06,890 --> 00:11:04,350  
testimony that the fourth planet from

256  
00:11:07,970 --> 00:11:06,900  
the Sun had lakes and rivers and perhaps

257  
00:11:10,970 --> 00:11:07,980  
even a huge

258  
00:11:13,820 --> 00:11:10,980  
northern ocean until about 3.6 billion

259  
00:11:16,100 --> 00:11:13,830  
years ago in a study published in June

260  
00:11:18,110 --> 00:11:16,110  
in the journal Science researchers

261  
00:11:20,360 --> 00:11:18,120  
concluded that Mars could have had the

262  
00:11:24,080 --> 00:11:20,370  
right conditions for life to survive for

263  
00:11:26,770 --> 00:11:24,090

around 700 million years between 3.8

264

00:11:29,300 --> 00:11:26,780

billion and 3.1 billion years ago

265

00:11:31,310 --> 00:11:29,310

scientists analyzed rocks from the Gale

266

00:11:33,320 --> 00:11:31,320

Crater to discover how the planet's

267

00:11:36,260 --> 00:11:33,330

climate changed from a cold one to a

268

00:11:38,690 --> 00:11:36,270

warm temperate one one in which life may

269

00:11:41,290 --> 00:11:38,700

have thrived the research shows that the

270

00:11:44,300 --> 00:11:41,300

climate underwent two major transitions

271

00:11:46,430 --> 00:11:44,310

nASA has made landing humans on Mars a

272

00:11:49,160 --> 00:11:46,440

high priority of its exploration

273

00:11:51,650 --> 00:11:49,170

programs under bipartisan legislation in

274

00:11:53,600 --> 00:11:51,660

2010 the United States space agency

275

00:11:57,170 --> 00:11:53,610

pledged to develop the capabilities to

276

00:11:59,450 --> 00:11:57,180

make that goal a reality by the 2030s

277

00:12:02,210 --> 00:11:59,460

it's way back Wednesday we're going to

278

00:12:04,640 --> 00:12:02,220

pick up where we left off last week with

279

00:12:08,990 --> 00:12:04,650

part two of the story of Renato vesco

280

00:12:12,800 --> 00:12:09,000

and the Nazi UFO mythos previously on

281

00:12:15,290 --> 00:12:12,810

way back Wednesday thanks to our man in

282

00:12:17,990 --> 00:12:15,300

the high castle for providing this info

283

00:12:20,960 --> 00:12:18,000

and tips to the Lynx we were introduced

284

00:12:25,550 --> 00:12:20,970

and introduced you to a new name a

285

00:12:26,480 --> 00:12:25,560

player in early Nazi UFO interest his

286

00:12:30,050 --> 00:12:26,490

name is Renato

287

00:12:33,470 --> 00:12:30,060

vesko and of course Hollywood took that

288

00:12:36,440 --> 00:12:33,480

theme the UFO Nazi trope and ran with it

289

00:12:39,680 --> 00:12:36,450

sometimes too very entertaining results

290

00:12:41,900 --> 00:12:39,690

the story of Renato vesco is peppered

291

00:12:45,650 --> 00:12:41,910

with lots of controversy some things

292

00:12:48,340 --> 00:12:45,660

that don't quite jibe his resume his CV

293

00:12:51,200 --> 00:12:48,350

in fact there are some discrepancies

294

00:12:54,410 --> 00:12:51,210

about his background but let's get back

295

00:12:57,460 --> 00:12:54,420

to the content the meat of the story it

296

00:13:00,850 --> 00:12:57,470

was regarding specifically Foo Fighters

297

00:13:03,800 --> 00:13:00,860

fireballs or in German fewer balls

298

00:13:06,950 --> 00:13:03,810

another Center in Germany that was run

299

00:13:09,080 --> 00:13:06,960

by Speer and the SS technical general

300

00:13:11,780 --> 00:13:09,090

staff during World War two had adopted

301

00:13:14,840 --> 00:13:11,790

the idea of employing quote proximity

302

00:13:16,940 --> 00:13:14,850

radio interference and quotes on the

303

00:13:19,550 --> 00:13:16,950

very much more delicate and hence more

304

00:13:21,680 --> 00:13:19,560

vulnerable electronic apparatus 'as of

305

00:13:23,510 --> 00:13:21,690

the american night fighters

306

00:13:26,360 --> 00:13:23,520

and thus a highly original flying

307

00:13:28,940 --> 00:13:26,370

machine was born this thing was circular

308

00:13:31,460 --> 00:13:28,950

armored more or less resembling the

309

00:13:34,040 --> 00:13:31,470

shell of a tortoise it was powered by a

310

00:13:36,740 --> 00:13:34,050

special turbojet engine which was also

311

00:13:39,290 --> 00:13:36,750

flats and circular the principles of

312

00:13:42,080 --> 00:13:39,300

operation recalled the well known ILO

313

00:13:46,190 --> 00:13:42,090

pile of hero that spelled ie

314

00:13:49,940 --> 00:13:46,200

oli PIL e it generated a great halo

315

00:13:52,070 --> 00:13:49,950

legendarily of luminous flames and hence

316

00:13:55,450 --> 00:13:52,080

this object became named fuer ball

317

00:13:57,710 --> 00:13:55,460

fireball it was armed it was pilotless

318

00:14:00,080 --> 00:13:57,720

radio controlled at the moment of

319

00:14:02,240 --> 00:14:00,090

takeoff it then automatically followed

320

00:14:04,340 --> 00:14:02,250

enemy aircraft attracted by their

321

00:14:07,100 --> 00:14:04,350

exhaust flames and approached close

322

00:14:10,250 --> 00:14:07,110

enough without collision to wreck the

323

00:14:13,010 --> 00:14:10,260

radio gear it had a fiery halo around

324

00:14:16,190 --> 00:14:13,020

its perimeter caused by a very rich fuel

325

00:14:18,020 --> 00:14:16,200

mixture the low the some builders of

326

00:14:20,450 --> 00:14:18,030

this device hoped and their hateful

327

00:14:23,150 --> 00:14:20,460

hopes were fulfilled but when the Allied

328

00:14:24,320 --> 00:14:23,160

Flyers not knowing the nature or purpose

329

00:14:26,060 --> 00:14:24,330

of this object

330

00:14:28,100 --> 00:14:26,070

notice that the fiery balls were

331

00:14:31,400 --> 00:14:28,110

apparently harmless they wouldn't fire

332

00:14:33,560 --> 00:14:31,410

on these enormous looking in offensive

333

00:14:36,770 --> 00:14:33,570

devices for fear of being caught in some

334

00:14:39,080 --> 00:14:36,780

gigantic explosion more than one in fact

335

00:14:41,480 --> 00:14:39,090

as the pilots fearfully watched these

336

00:14:43,760 --> 00:14:41,490

huge lights close in they thought that

337

00:14:45,650 --> 00:14:43,770

some German technician on the ground was

338

00:14:48,020 --> 00:14:45,660

perhaps getting ready to push a button

339

00:14:50,930 --> 00:14:48,030

which would cause the Foo Fighters to

340

00:14:52,640 --> 00:14:50,940

explode Hermann Goering inspected the

341

00:14:55,970 --> 00:14:52,650

progress of the work a number of times

342

00:14:58,310 --> 00:14:55,980

for he hoped and in fact tragically it

343

00:15:00,290 --> 00:14:58,320

happened that the mechanical principle

344

00:15:02,120 --> 00:15:00,300

could also later be used to produce an

345

00:15:04,460 --> 00:15:02,130

offensive weapon capable of

346

00:15:07,910 --> 00:15:04,470

revolutionising the whole field of

347

00:15:09,680 --> 00:15:07,920

aerial warfare expressly identifying the

348

00:15:11,540 --> 00:15:09,690

reports of area lights known in some

349

00:15:14,240 --> 00:15:11,550

parts of the United States Air Force as

350

00:15:16,520 --> 00:15:14,250

Foo Fighters as being evidence of the

351  
00:15:19,190 --> 00:15:16,530  
amazing hitherto and hereafter

352  
00:15:19,640 --> 00:15:19,200  
unheard-of secret weapon that vesco

353  
00:15:22,370 --> 00:15:19,650  
called

354  
00:15:25,180 --> 00:15:22,380  
the fury ball he sets out some more

355  
00:15:29,240 --> 00:15:25,190  
technical details and here they are in

356  
00:15:31,610 --> 00:15:29,250  
bullet points this object was circular

357  
00:15:33,199 --> 00:15:31,620  
and armored you're listening to love

358  
00:15:35,150 --> 00:15:33,209  
advice with Liane

359  
00:15:38,210 --> 00:15:35,160  
caller you're on the air hi Leanne

360  
00:15:39,949 --> 00:15:38,220  
longtime listener first-time caller why

361  
00:15:42,049 --> 00:15:39,959  
in your professional opinion do you

362  
00:15:45,139 --> 00:15:42,059  
never take my calls off the air is this

363  
00:15:46,519 --> 00:15:45,149

Carl yep it's Carl I mean we had a few

364

00:15:50,210 --> 00:15:46,529

dates everything was great I thought

365

00:15:52,189 --> 00:15:50,220

well you know when you switch to Geico

366

00:15:54,679 --> 00:15:52,199

you could save a lot of money on car

367

00:15:55,730 --> 00:15:54,689

insurance okay awesome you should call

368

00:15:58,040 --> 00:15:55,740

them I will

369

00:16:00,319 --> 00:15:58,050

Geico because saving 15% or more on car

370

00:16:01,489 --> 00:16:00,329

insurance is always a great answer

371

00:16:04,879 --> 00:16:01,499

more or less resembling that

372

00:16:07,160 --> 00:16:04,889

tortoiseshell it was enormous looking

373

00:16:09,679 --> 00:16:07,170

during the day it looked like a shining

374

00:16:12,230 --> 00:16:09,689

disc spinning on its axis and during the

375

00:16:14,210 --> 00:16:12,240

night it looked like a burning globe it

376

00:16:16,759 --> 00:16:14,220

was powered by a special turbo jet

377

00:16:19,400 --> 00:16:16,769

engine that engine was flat and circular

378

00:16:22,280 --> 00:16:19,410

and it generated a great halo of

379

00:16:25,549 --> 00:16:22,290

luminous flames around its perimeter the

380

00:16:28,639 --> 00:16:25,559

object was unarmed pilotless but the

381

00:16:30,829 --> 00:16:28,649

take away produces other questions how

382

00:16:33,290 --> 00:16:30,839

did the fewer bald distinguish an enemy

383

00:16:35,660 --> 00:16:33,300

aircraft from a friendly one how did it

384

00:16:39,410 --> 00:16:35,670

stop following those exhaust flames and

385

00:16:41,389 --> 00:16:39,420

where did it go when it stopped why when

386

00:16:43,850 --> 00:16:41,399

it was travelling laterally behind the

387

00:16:45,889 --> 00:16:43,860

engines of an enemy aircraft attracted

388

00:16:48,650 --> 00:16:45,899

by those exhaust flames did it suddenly

389

00:16:51,889 --> 00:16:48,660

depart quote generally in a vertical

390

00:16:54,470 --> 00:16:51,899

direction and quotes when hit and which

391

00:16:56,900 --> 00:16:54,480

quote chemical additives end quotes

392

00:16:59,419 --> 00:16:56,910

interrupted the flow of electricity by

393

00:17:01,730 --> 00:16:59,429

over ionizing the atmosphere in the

394

00:17:04,490 --> 00:17:01,740

vicinity of that plane just how did that

395

00:17:07,669 --> 00:17:04,500

work how did it wreck the radio gear of

396

00:17:10,429 --> 00:17:07,679

enemy aircraft which brings us to the

397

00:17:13,210 --> 00:17:10,439

original question from whence cometh

398

00:17:16,760 --> 00:17:13,220

this information well several sources

399

00:17:20,029 --> 00:17:16,770

American Legion magazine amazing stories

400

00:17:23,510 --> 00:17:20,039

and that pivotal article in men's Argosy

401  
00:17:27,260 --> 00:17:23,520  
magazine it is perhaps a conglomeration

402  
00:17:29,539 --> 00:17:27,270  
of non facts early fake news and yet

403  
00:17:32,720 --> 00:17:29,549  
Arenado Vesco continues to be highly

404  
00:17:35,149 --> 00:17:32,730  
influential out of history regarded as

405  
00:17:37,310 --> 00:17:35,159  
the leading authority of the axis on

406  
00:17:40,370 --> 00:17:37,320  
secret technological developments in

407  
00:17:42,919 --> 00:17:40,380  
aeronautics had readers looked as far as

408  
00:17:44,870 --> 00:17:42,929  
beyond the cover of that book from which

409  
00:17:46,760 --> 00:17:44,880  
these claims came they would have found

410  
00:17:50,300 --> 00:17:46,770  
a substantially different version

411  
00:17:53,870 --> 00:17:50,310  
of Vasco's authority and here's where

412  
00:17:57,410 --> 00:17:53,880  
his biography gets wonky apparently

413  
00:17:59,300 --> 00:17:57,420

there is no thing in the vesco book that

414

00:18:01,760 --> 00:17:59,310

substantiates that before world war ii

415

00:18:04,040 --> 00:18:01,770

he quote studied at the German Institute

416

00:18:06,590 --> 00:18:04,050

for aerial development and quotes or

417

00:18:09,440 --> 00:18:06,600

that during the war he had quote worked

418

00:18:11,750 --> 00:18:09,450

with the Germans at that Fiat lake garda

419

00:18:13,550 --> 00:18:11,760

secret installation in Italy and quotes

420

00:18:15,650 --> 00:18:13,560

and there doesn't seem to be any

421

00:18:18,110 --> 00:18:15,660

substantiation for his claiming that

422

00:18:20,570 --> 00:18:18,120

quote in the 1960s he worked for the

423

00:18:23,360 --> 00:18:20,580

Italian Air Ministry of Defence as an

424

00:18:27,280 --> 00:18:23,370

undercover technical agent investigating

425

00:18:30,640 --> 00:18:27,290

the UFO mystery instead it said this

426

00:18:34,550 --> 00:18:30,650

Renato vesco was born in aronia Italy in

427

00:18:36,530 --> 00:18:34,560

1924 a licensed pilot in 1944 he

428

00:18:40,910 --> 00:18:36,540

commanded the technical section of the

429

00:18:43,460 --> 00:18:40,920

Italian Air Force in 1946 to 1947 he

430

00:18:46,190 --> 00:18:43,470

served in the epital technical captcha

431

00:18:48,500 --> 00:18:46,200

mr vesco has been a senior member of the

432

00:18:51,260 --> 00:18:48,510

italian association of aero technics

433

00:18:53,210 --> 00:18:51,270

since 1943 and is a student of

434

00:18:55,640 --> 00:18:53,220

aeronautical problems particularly in

435

00:18:57,860 --> 00:18:55,650

the field of jet propulsion he's a

436

00:19:00,920 --> 00:18:57,870

contributor to various aeronautical

437

00:19:02,450 --> 00:19:00,930

publications and quotes oh I says the

438

00:19:06,320 --> 00:19:02,460

writer of this article there is clearly

439

00:19:09,320 --> 00:19:06,330

something very wrong here born in 1924

440

00:19:11,030 --> 00:19:09,330

Vaska would have been 14 or 15 years old

441

00:19:14,510 --> 00:19:11,040

when world war ii broke out

442

00:19:16,850 --> 00:19:14,520

surely by that age he had not attended

443

00:19:18,860 --> 00:19:16,860

the university of rome or studied at the

444

00:19:21,080 --> 00:19:18,870

German Institute for aerial development

445

00:19:23,300 --> 00:19:21,090

if he worked with the Germans at the

446

00:19:25,760 --> 00:19:23,310

Fiat lake garda secret installations in

447

00:19:28,880 --> 00:19:25,770

Italy why didn't those other authorities

448

00:19:30,830 --> 00:19:28,890

mention him there would he really have

449

00:19:33,020 --> 00:19:30,840

quote commanded the technical section of

450

00:19:35,480 --> 00:19:33,030

the Italian Air Force at the age of 19

451  
00:19:37,850 --> 00:19:35,490  
or 20 and to quote been a senior member

452  
00:19:41,960 --> 00:19:37,860  
of the Italian Association of aero

453  
00:19:44,390 --> 00:19:41,970  
technics at the age of 18 or 19 well

454  
00:19:46,610 --> 00:19:44,400  
that would have made him thunder kintu

455  
00:19:49,070 --> 00:19:46,620  
for sure and surely if he really were

456  
00:19:50,450 --> 00:19:49,080  
that remarkable that important his name

457  
00:19:53,000 --> 00:19:50,460  
would have appeared in the index

458  
00:19:55,880 --> 00:19:53,010  
references of at least one of the

459  
00:19:59,270 --> 00:19:55,890  
countless books about the war and yet it

460  
00:20:00,659 --> 00:19:59,280  
doesn't so who was Renato vesco and what

461  
00:20:04,409 --> 00:20:00,669  
did he really know about

462  
00:20:06,989 --> 00:20:04,419  
wartime German aircraft enter two highly

463  
00:20:10,169 --> 00:20:06,999

respected Italian researchers Mauricio

464

00:20:13,200 --> 00:20:10,179

Varga and Eduardo Russo and they gave

465

00:20:15,509 --> 00:20:13,210

clear answers to the questions regarding

466

00:20:18,960 --> 00:20:15,519

Vasco they both knew him personally

467

00:20:21,720 --> 00:20:18,970

here's what my retail Virgo says Vasco

468

00:20:25,049 --> 00:20:21,730

exists definitely he's an old man now

469

00:20:27,539 --> 00:20:25,059

born in 1924 what's written about him by

470

00:20:30,389 --> 00:20:27,549

people like el Pinto who is the author

471

00:20:33,599 --> 00:20:30,399

of a story we did last week about vesko

472

00:20:37,379 --> 00:20:33,609

on way back Wednesday the internet says

473

00:20:40,680 --> 00:20:37,389

verga is misinformation this is complete

474

00:20:42,570 --> 00:20:40,690

rubbish vasco's introduction in the 1971

475

00:20:44,519 --> 00:20:42,580

translation of his first book is quite

476  
00:20:47,220 --> 00:20:44,529  
accurate even though he was not

477  
00:20:49,499 --> 00:20:47,230  
commanding any technical section in the

478  
00:20:51,509 --> 00:20:49,509  
Italian Air Force he was an aeronautical

479  
00:20:54,299 --> 00:20:51,519  
engineer and he got an interest in

480  
00:20:55,859 --> 00:20:54,309  
flying saucers he published several

481  
00:20:58,859 --> 00:20:55,869  
articles about German secret weapons

482  
00:21:01,680 --> 00:20:58,869  
flying saucers aviation and other

483  
00:21:03,779 --> 00:21:01,690  
subjects in the very early 50s he soon

484  
00:21:08,820 --> 00:21:03,789  
became a real skeptic against this

485  
00:21:11,879 --> 00:21:08,830  
then-common idea of the ETH visits ETH

486  
00:21:13,889 --> 00:21:11,889  
that's the extra-terrestrial hypothesis

487  
00:21:16,349 --> 00:21:13,899  
he commented and explained some

488  
00:21:19,379 --> 00:21:16,359

sightings were atmospheric or just

489

00:21:22,019 --> 00:21:19,389

conventional phenomena the manuscript of

490

00:21:23,940 --> 00:21:22,029

his first book was ready in 1956 but he

491

00:21:26,190 --> 00:21:23,950

halted publication because he was about

492

00:21:29,430 --> 00:21:26,200

to go abroad for a long time due to his

493

00:21:31,529 --> 00:21:29,440

job he came back in the 1960s after

494

00:21:33,989 --> 00:21:31,539

collecting a huge quantity of additional

495

00:21:36,119 --> 00:21:33,999

material he had hundreds and hundreds of

496

00:21:39,599 --> 00:21:36,129

written pages later to be turned into

497

00:21:41,460 --> 00:21:39,609

three other books not translated Italian

498

00:21:44,159 --> 00:21:41,470

researcher Mauricio Varga who provides

499

00:21:46,379 --> 00:21:44,169

this information said that vesco told

500

00:21:48,359 --> 00:21:46,389

him that certain high-ranking important

501  
00:21:50,879 --> 00:21:48,369  
officials in the Italian Air Force and

502  
00:21:52,919 --> 00:21:50,889  
other Air Forces contributed to his

503  
00:21:54,389 --> 00:21:52,929  
research giving him information and

504  
00:21:57,060 --> 00:21:54,399  
documents when they were still

505  
00:21:59,009 --> 00:21:57,070  
classified vesko promised not to make

506  
00:22:01,680 --> 00:21:59,019  
public their names even though he says

507  
00:22:03,450 --> 00:22:01,690  
that most of them are surely dead like

508  
00:22:05,909 --> 00:22:03,460  
all too many of those involved in the

509  
00:22:07,310 --> 00:22:05,919  
world of Nazi UFOs BES Co gave an

510  
00:22:10,440 --> 00:22:07,320  
impression of authority and that

511  
00:22:12,899 --> 00:22:10,450  
authority was accepted without challenge

512  
00:22:14,220 --> 00:22:12,909  
it now appears that vesko was a man with

513  
00:22:16,710 --> 00:22:14,230

an interest in man

514

00:22:19,560 --> 00:22:16,720

made UFOs who was strongly opposed to

515

00:22:21,870 --> 00:22:19,570

the extra-terrestrial hypothesis Renata

516

00:22:23,970 --> 00:22:21,880

Vesco provides by giving us accounts of

517

00:22:26,880 --> 00:22:23,980

the fear ball and the kugelblitz

518

00:22:29,159 --> 00:22:26,890

in his book we now know that it was a

519

00:22:31,740 --> 00:22:29,169

convincing hypothesis for explaining

520

00:22:34,440 --> 00:22:31,750

away without the involvement of spaceman

521

00:22:36,539 --> 00:22:34,450

and interplanetary travel not only the

522

00:22:38,490 --> 00:22:36,549

Foo Fighter reports of which he was well

523

00:22:40,890 --> 00:22:38,500

aware but also the very physical

524

00:22:43,770 --> 00:22:40,900

sightings the photographs from the late

525

00:22:45,960 --> 00:22:43,780

40s and early 50s it is unfortunate that

526

00:22:48,240 --> 00:22:45,970

in seeking to use his knowledge of

527

00:22:50,820 --> 00:22:48,250

aeronautical engineering to popularize

528

00:22:52,890 --> 00:22:50,830

what he apparently saw as a rational

529

00:22:55,169 --> 00:22:52,900

explanation for a body of irrational

530

00:22:57,600 --> 00:22:55,179

reports and interpretations

531

00:23:01,409 --> 00:22:57,610

Renato vesco only succeeded in

532

00:23:03,750 --> 00:23:01,419

co-founding the Nazi UFO mythos a living

533

00:23:06,000 --> 00:23:03,760

and growing belief system which for

534

00:23:08,669 --> 00:23:06,010

sheer irrationality and unpleasantness

535

00:23:12,750 --> 00:23:08,679

can do far exceed anything from those

536

00:23:14,820 --> 00:23:12,760

innocent early days of ufology so there

537

00:23:17,789 --> 00:23:14,830

you have it gentle Isner's the Nazi UFO

538

00:23:21,090 --> 00:23:17,799

mythos and the part played by Renato

539

00:23:23,580 --> 00:23:21,100

vesko it's worth an engine search give

540

00:23:25,710 --> 00:23:23,590

it a try and try as we might we can't

541

00:23:28,919 --> 00:23:25,720

hold back the hands of time which tell

542

00:23:31,110 --> 00:23:28,929

us we got a go because that's a wrap

543

00:23:33,870 --> 00:23:31,120

thank you for listening to inception

544

00:23:38,100 --> 00:23:33,880

Radio Network Power today's broadcast at

545

00:23:39,840 --> 00:23:38,110

UFO Henri news.com lovingkindness take

546

00:23:41,549 --> 00:23:39,850

care of each other we're all in this

547

00:23:44,690 --> 00:23:41,559

together this is Carol Carla see you

548

00:23:50,789 --> 00:23:47,520

okay Kevin for the grand prize of 1

549

00:23:55,520 --> 00:23:50,799

million dollars what color is the White

550

00:23:59,580 --> 00:23:55,530

House I know this into this I know this

551

00:24:00,840 --> 00:23:59,590

5 seconds Oh switching to Geico could

552

00:24:02,010 --> 00:24:00,850

save you a bunch of money on car

553

00:24:06,390 --> 00:24:02,020

insurance

554

00:24:09,799 --> 00:24:06,400

okay judges that's true Kevin Dillon

555

00:24:12,750 --> 00:24:09,809

Owen congratulations you're a winner
