[Music]

2
00:01:02,450 --> 00:00:59,869

welcome back this is paranormal now the

3
00:01:04,880 --> 00:01:02,460

podcast on the inception radio network

4
00:01:07,370 --> 00:01:04,890

that airs every Saturday night at 11:00

5
00:01:09,350 --> 00:01:07,380

p.m. Eastern Standard Time a p.m.

6
00:01:11,600 --> 00:01:09,360

Pacific time

7
00:01:15,139 --> 00:01:11,610

and for a lot of you who listen to this

8
00:01:16,850 --> 00:01:15,149

show the format is like a radio format

9
00:01:19,040 --> 00:01:16,860

that's because we are in a time slot

10
00:01:21,830 --> 00:01:19,050

every week and we stick to that format

11
00:01:24,469 --> 00:01:21,840

so while it does sound sometimes like we

12
00:01:26,539 --> 00:01:24,479

are live show we are in fact podcast so

13
00:01:28,310 --> 00:01:26,549

that anybody listening tonight does not

14

00:01:30,800 --> 00:01:28,320

get confused about that because I've had

15

00:01:33,350 --> 00:01:30,810

some feedback about that anyway so we

16

00:01:35,779 --> 00:01:33,360

have a fantastic guest on tonight I'm

17

00:01:38,180 --> 00:01:35,789

very excited because we actually met the

18

00:01:40,279 --> 00:01:38,190

the inception radio networks other show

19

00:01:43,520 --> 00:01:40,289

epic voyages radio which I've had the

20

00:01:45,950 --> 00:01:43,530

pleasure of guest hosting for and doing

21

00:01:49,790 --> 00:01:45,960

the technical social media work for them

22

00:01:52,249 --> 00:01:49,800

as well and as usual I want to invite

23

00:01:53,870 --> 00:01:52,259

anybody who is new not only to the

24

00:01:55,609 --> 00:01:53,880

inception radio network but to the kind

25

00:02:00,290 --> 00:01:55,619

of format and the topics of discussion

26

00:02:03,169 --> 00:02:00,300

that we cover on this show we cover a

27

00:02:05,180 --> 00:02:03,179

broad variety of you know quote-unquote

28

00:02:09,710 --> 00:02:05,190

paranormal but that includes alternative

29

00:02:14,180 --> 00:02:09,720

history and not to be confused with the

30

00:02:18,170 --> 00:02:14,190

alternative right we into anything from

31

00:02:20,780 --> 00:02:18,180

aliens and ghosts to the most strange

32

00:02:24,199 --> 00:02:20,790

bizarre stories that you've ever heard

33

00:02:26,750 --> 00:02:24,209

and we always ask that you know you come

34

00:02:30,380 --> 00:02:26,760

to the come to the table and join us

35

00:02:31,670 --> 00:02:30,390

around and keep an open mind as we

36

00:02:32,990 --> 00:02:31,680

discuss these topics because sometimes

37

00:02:35,449 --> 00:02:33,000

yeah you're gonna hear something that is

38

00:02:37,970 --> 00:02:35,459

that's definitely you know gonna sound

39

00:02:41,270 --> 00:02:37,980

very bizarre it's going to sound crazy

40

00:02:42,800 --> 00:02:41,280

at first perhaps and on occasion yeah

41

00:02:44,809 --> 00:02:42,810

maybe some ideas are completely

42

00:02:47,270 --> 00:02:44,819

outrageous but here we give them a

43

00:02:51,020 --> 00:02:47,280

chance and we hope that if you're just

44

00:02:52,490 --> 00:02:51,030

getting into this format that you give

45

00:02:55,490 --> 00:02:52,500

it a chance to just keep an open mind

46

00:02:58,490 --> 00:02:55,500

because not only is it intriguing and

47

00:02:59,360 --> 00:02:58,500

educational but it's also fun at the

48

00:03:03,559 --> 00:02:59,370

same time

49

00:03:07,970 --> 00:03:03,569

so before I rattle on too long I'd like

50

00:03:09,600 --> 00:03:07,980

to introduce my guest who well let's

51

00:03:10,830 --> 00:03:09,610

just say he has

52

00:03:14,130 --> 00:03:10,840

alternative theories and I think that's

53

00:03:16,020 --> 00:03:14,140

fair to say dan hull Quist who has just

54

00:03:19,770 --> 00:03:16,030

come out with a follow-up book of his

55

00:03:22,290 --> 00:03:19,780

own called book one and I'll ask him a

56

00:03:24,120 --> 00:03:22,300

little bit more about accessibility to

57

00:03:26,610 --> 00:03:24,130

his book whether you can get that online

58

00:03:28,380 --> 00:03:26,620

soon or what's the future look like as

59

00:03:31,490 --> 00:03:28,390

far as publishing but I was fortunate

60

00:03:33,420 --> 00:03:31,500

enough to get an early copy of this book

61

00:03:36,810 --> 00:03:33,430

granted I have not read through it

62

00:03:38,520 --> 00:03:36,820

completely because we we just hooked up

63

00:03:40,290 --> 00:03:38,530

recently but I will read through it and

64

00:03:43,199 --> 00:03:40,300

I'm excited to share about that as well

65

00:03:45,570 --> 00:03:43,209

moving forward so uh Dan hocus just a

66

00:03:48,390 --> 00:03:45,580

little bit of background on Dan I became

67

00:03:51,690 --> 00:03:48,400

a seeker of truth with a capital T and

68

00:03:53,820 --> 00:03:51,700

sometimes quote finder at a very early

69

00:03:56,400 --> 00:03:53,830

age introduced to various world

70

00:03:58,979 --> 00:03:56,410

religions took the path of a true

71

00:04:01,770 --> 00:03:58,989

skeptic and walked in the moccasins

72

00:04:03,720 --> 00:04:01,780

quote of the people now seeks to share

73

00:04:06,240 --> 00:04:03,730

knowledge gained by experience and the

74

00:04:08,970 --> 00:04:06,250

wisdom of more learned in hopes that

75

00:04:11,040 --> 00:04:08,980

others will follow and by passing before

76

00:04:15,120 --> 00:04:11,050

make an easier path for others to follow

77

00:04:17,640 --> 00:04:15,130

longtime resident of San Gorgonio or

78

00:04:19,409 --> 00:04:17,650

Gorgonio Pass I would have to ask you

79

00:04:22,020 --> 00:04:19,419

about I pronounce that actually I don't

80

00:04:26,520 --> 00:04:22,030

know that's a soft G or hard G Gorgonio

81

00:04:29,250 --> 00:04:26,530

Pass California graduated banning high

82

00:04:31,530 --> 00:04:29,260

school 22 years as journeyman sheet

83

00:04:33,690 --> 00:04:31,540

metal worker and carpenter 16 years

84

00:04:35,400 --> 00:04:33,700

working with the United States Postal

85

00:04:37,340 --> 00:04:35,410

Service as a rural and City mail carrier

86

00:04:39,930 --> 00:04:37,350

clerk office and sometimes supervisor

87

00:04:43,980 --> 00:04:39,940

discovered nazca type lines and

88

00:04:46,740 --> 00:04:43,990

geoglyphs on and around the Marfa Texas

89

00:04:49,110 --> 00:04:46,750

Plateau during the summer of 2015 after

90

00:04:51,240 --> 00:04:49,120

trying in vain to gain public awareness

91

00:04:53,610 --> 00:04:51,250

through regular channels such as Texas

92

00:04:55,650 --> 00:04:53,620

Archaeological Society and even by

93

00:04:58,080 --> 00:04:55,660

speaking directly with the anthropology

94

00:05:00,540 --> 00:04:58,090

and archeology Department of Texas State

95

00:05:03,810 --> 00:05:00,550

University realized that nothing was

96

00:05:06,750 --> 00:05:03,820

going to happen if I did not get quote I

97

00:05:09,360 --> 00:05:06,760

did not get personally involved devotion

98

00:05:12,120 --> 00:05:09,370

to the truth was validated in April 2016

99

00:05:14,969 --> 00:05:12,130

by a flyover and photographic evidence

100

00:05:18,779 --> 00:05:14,979

was taken and now it is made available

101
00:05:22,170 --> 00:05:18,789
to capital ALL all dan welcome to the

102
00:05:23,370 --> 00:05:22,180
show Thank You Allen I really appreciate

103
00:05:26,760 --> 00:05:23,380
you inviting me

I wanted to directly thank you for

105
00:05:33,360 --> 00:05:30,310
inviting me and I wanted to welcome you

106
00:05:36,570 --> 00:05:33,370
personally to the inception radio family

107
00:05:39,660 --> 00:05:36,580
I'm a bit of a I'm a bit of a fan myself

108
00:05:42,270 --> 00:05:39,670
and I come here to learn and have a bit

109
00:05:45,960 --> 00:05:42,280
of fun and you know me in chat as Don

110
00:05:49,110 --> 00:05:45,970
Donnell my youtube channel is also Don

111
00:05:52,440 --> 00:05:49,120
Donnell my twitter feed is Don Donnell

112
00:05:56,220 --> 00:05:52,450
at Don Donnell and my website is Don

113
00:05:59,160 --> 00:05:56,230

Donnell calm on Facebook you can reach

114

00:06:01,560 --> 00:05:59,170

me at dan ho quest now this is this is

115

00:06:06,030 --> 00:06:01,570

actually the new book is actually called

116

00:06:08,880 --> 00:06:06,040

the Solstice connection it is a rework

117

00:06:11,810 --> 00:06:08,890

and a revision of my first book which

118

00:06:15,660 --> 00:06:11,820

was titled America's electric nazca

119

00:06:18,900 --> 00:06:15,670

megalithic Marfa Texas and the reason I

120

00:06:21,810 --> 00:06:18,910

the reason I rewrote it is because after

121

00:06:24,180 --> 00:06:21,820

speaking and communicating with a few

122

00:06:26,060 --> 00:06:24,190

publishers found that they did not like

123

00:06:29,040 --> 00:06:26,070

images and my first book is just

124

00:06:33,300 --> 00:06:29,050

jam-packed full of them because I want

125

00:06:35,430 --> 00:06:33,310

people to replicate my my work I really

126

00:06:40,320 --> 00:06:35,440

think that's the heart of science itself

127

00:06:44,360 --> 00:06:40,330

is through replication but 2015 was an

128

00:06:47,730 --> 00:06:44,370

amazing year for discovery and this

129

00:06:53,520 --> 00:06:47,740

particular discovery started with a just

130

00:06:56,430 --> 00:06:53,530

a a back backyard layout for a replica

131

00:06:58,260 --> 00:06:56,440

Stonehenge done in scale model and I

132

00:07:00,360 --> 00:06:58,270

wanted to be sure that it was done right

133

00:07:04,250 --> 00:07:00,370

so I brought up a blueprint of

134

00:07:08,220 --> 00:07:04,260

stonehenge and i started trying to

135

00:07:11,070 --> 00:07:08,230

figure out where the Solstice rose and

136

00:07:13,800 --> 00:07:11,080

rose and fell and of course I knew where

137

00:07:17,790 --> 00:07:13,810

the winter solstice was because of the

138

00:07:19,770 --> 00:07:17,800

we we happen to live between two 12,000

139

00:07:23,010 --> 00:07:19,780

foot mountains this is called the sank

140

00:07:25,950 --> 00:07:23,020

Gorgonio Pass and it's a circular kind

141

00:07:28,050 --> 00:07:25,960

of area which is kind of unusual in

142

00:07:30,510 --> 00:07:28,060

itself but it actually separates

143

00:07:33,600 --> 00:07:30,520

Southern California from the desert area

144

00:07:37,070 --> 00:07:33,610

of Palm Springs and beyond and all into

145

00:07:43,470 --> 00:07:37,080

Mexico this particular discovery

146

00:07:46,770 --> 00:07:43,480

was done through finding a notch in the

147

00:07:49,980 --> 00:07:46,780

ridge line and so I laid around with

148

00:07:53,000 --> 00:07:49,990

Google Earth and I found through the

149

00:07:56,400 --> 00:07:53,010

tool function that you can layer a

150

00:07:59,220 --> 00:07:56,410

photograph or a picture onto the the

151

00:08:03,750 --> 00:07:59,230

surface of the earth and and rework it

152

00:08:08,100 --> 00:08:03,760

and so I had to check out how Stonehenge

153

00:08:10,110 --> 00:08:08,110

The Blueprint fit over my area and come

154

00:08:13,020 --> 00:08:10,120

to find out it didn't it drew me further

155

00:08:16,080 --> 00:08:13,030

out and further out still until I

156

00:08:19,860 --> 00:08:16,090

actually left the coast of Southern

157

00:08:23,310 --> 00:08:19,870

California and joined with the Channel

158

00:08:26,850 --> 00:08:23,320

Island group that's Santa Catalina San

159

00:08:29,909 --> 00:08:26,860

Clemente Santa Rosa a few other islands

160

00:08:31,770 --> 00:08:29,919

and these are unusual they're about 22

161

00:08:35,399 --> 00:08:31,780

miles off the coast by the way that's

162

00:08:38,670 --> 00:08:35,409

Santa Catalina itself unusual itself

163

00:08:40,920 --> 00:08:38,680

because these islands don't have

164

00:08:44,130 --> 00:08:40,930

anything on them no natural water no

165

00:08:50,400 --> 00:08:44,140

vegetation no natural animals or

166

00:08:54,210 --> 00:08:50,410

anything of the sort in early well let

167

00:08:57,630 --> 00:08:54,220

me take you back to the late 1800s a

168

00:09:02,340 --> 00:08:57,640

German naturalist named dr. first and

169

00:09:07,350 --> 00:09:02,350

Stan first tan Stan was working in

170

00:09:11,130 --> 00:09:07,360

Mexico with the Aztecs and he had found

171

00:09:13,050 --> 00:09:11,140

a story of fair-haired Giants a noble

172

00:09:16,740 --> 00:09:13,060

race of fair-haired Giants living on

173

00:09:19,620 --> 00:09:16,750

Santa Catalina Island so he went there

174

00:09:21,840 --> 00:09:19,630

and discovered that the stones out

175

00:09:24,870 --> 00:09:21,850

lining the central portion of the island

176

00:09:26,090 --> 00:09:24,880

and if you can imagine as the central

177

00:09:29,520 --> 00:09:26,100

portion of the island is actually

178

00:09:32,670 --> 00:09:29,530

circular it's it's actually 22 miles

179

00:09:35,310 --> 00:09:32,680

long but it's 8 miles wide at the center

180

00:09:40,890 --> 00:09:35,320

and it's actually a circular formation

181

00:09:45,270 --> 00:09:40,900

in the center with a 2,000 foot mountain

182

00:09:48,690 --> 00:09:45,280

peak on in the center of that but along

183

00:09:50,130 --> 00:09:48,700

the outline of the island itself were

184

00:09:54,840 --> 00:09:50,140

these standing stones

185

00:09:58,500 --> 00:09:54,850

and they matched Stonehenge or the

186

00:10:02,430 --> 00:09:58,510

formation Stonehenge in UK so it began

187

00:10:05,580 --> 00:10:02,440

to be known as Stonehenge Island a man

188

00:10:08,190 --> 00:10:05,590

named Ralph Glidden took that a little

189

00:10:11,790 --> 00:10:08,200

further and started doing excavations in

190

00:10:15,440 --> 00:10:11,800

the Channel Islands on Santa Catalina he

191

00:10:17,220 --> 00:10:15,450

found over 3,700 giant skeletons and

192

00:10:20,490 --> 00:10:17,230

remember there's nothing out there

193

00:10:24,690 --> 00:10:20,500

there's no water there is nothing to

194

00:10:29,160 --> 00:10:24,700

support life 3,700 giant skeletons were

195

00:10:33,960 --> 00:10:29,170

found and taken by the Smithsonian which

196

00:10:37,980 --> 00:10:33,970

brings up another 2015 fact in 2015 the

197

00:10:42,000 --> 00:10:37,990

Smithsonian had to reveal that they in

198

00:10:44,700 --> 00:10:42,010

court that they had destroyed skeletal

199

00:10:47,100 --> 00:10:44,710

evidence of giants all throughout the

200

00:10:50,910 --> 00:10:47,110

country that they that they had actually

201
00:10:54,720 --> 00:10:50,920
been entrusted with so they basically

202
00:10:59,790 --> 00:10:54,730
had admitted to manipulation of history

203
00:11:05,700 --> 00:10:59,800
of recent history why it it it all comes

204
00:11:09,660 --> 00:11:05,710
to control and when I started when I

205
00:11:14,010 --> 00:11:09,670
started to look at Stonehenge itself I

206
00:11:16,170 --> 00:11:14,020
noticed that it only had one passage in

207
00:11:18,300 --> 00:11:16,180
and one passage out and that's the

208
00:11:20,960 --> 00:11:18,310
summer solstice and in the central

209
00:11:23,490 --> 00:11:20,970
formation there's a u formation I

210
00:11:26,550 --> 00:11:23,500
happened to be listening to zecharia

211
00:11:30,240 --> 00:11:26,560
sitchin at the time and he called the

212
00:11:35,220 --> 00:11:30,250
Annunaki children of the Sun and I made

213
00:11:37,890 --> 00:11:35,230

a leap of faith that the people who

214

00:11:42,300 --> 00:11:37,900

built this megalith called Stonehenge

215

00:11:45,060 --> 00:11:42,310

were the Anunnaki well 2015 they also

216

00:11:50,280 --> 00:11:45,070

discovered elongated skulls in the

217

00:11:53,100 --> 00:11:50,290

Stonehenge area and also in 2015

218

00:11:55,260 --> 00:11:53,110

discovered super henge and you might

219

00:12:00,600 --> 00:11:55,270

know a little bit about the super henge

220

00:12:04,020 --> 00:12:00,610

Allen this this is a formation that is

221

00:12:07,320 --> 00:12:04,030

actually underground standing stones

222

00:12:09,390 --> 00:12:07,330

it's massive it makes it makes the the

223

00:12:11,490 --> 00:12:09,400

the standing stone formation of

224

00:12:16,980 --> 00:12:11,500

Stonehenge look very small that's why

225

00:12:19,620 --> 00:12:16,990

they call it as super hinge but I don't

226

00:12:22,590 --> 00:12:19,630

know why I I decided I would follow the

227

00:12:26,580 --> 00:12:22,600

Solstice out and guess where it leads

228

00:12:29,600 --> 00:12:26,590

right to the super henge I have to I

229

00:12:33,380 --> 00:12:29,610

have to feel that this is a subterranean

230

00:12:35,280 --> 00:12:33,390

setup at the super henge because

231

00:12:40,560 --> 00:12:35,290

archaeologists think it was fully

232

00:12:44,610 --> 00:12:40,570

covered at one time and as you traveled

233

00:12:47,280 --> 00:12:44,620

further you disc you you you go across

234

00:12:51,680 --> 00:12:47,290

the ocean to Denmark where there in

235

00:12:54,690 --> 00:12:51,690

Sweden where there were at least 200,000

236

00:12:57,330 --> 00:12:54,700

megalithic subterranean dwellings most

237

00:13:01,290 --> 00:12:57,340

of which are destroyed now this is not

238

00:13:05,240 --> 00:13:01,300

Vikings or gales it was someone else

239

00:13:08,670 --> 00:13:05,250

who did this dolmens mound structures

240

00:13:13,079 --> 00:13:08,680

and but nothing like the effigy mounds

241

00:13:16,070 --> 00:13:13,089

in in Americas they were mound

242

00:13:19,230 --> 00:13:16,080

structures but this line carries on

243

00:13:22,410 --> 00:13:19,240

directly through st. Petersburg Russia

244

00:13:24,530 --> 00:13:22,420

and this is important in itself that

245

00:13:28,829 --> 00:13:24,540

will pick up a little a little bit later

246

00:13:32,460 --> 00:13:28,839

st. Petersburg has it has amazing

247

00:13:34,560 --> 00:13:32,470

artistry just incredible artistry but it

248

00:13:37,860 --> 00:13:34,570

was all supposed to be done before there

249

00:13:43,560 --> 00:13:37,870

were measuring tools which is kind of

250

00:13:46,800 --> 00:13:43,570

unusual so I decided I would take this

251
00:13:50,150 --> 00:13:46,810
back to Catalina and try to follow the

252
00:13:53,730 --> 00:13:50,160
Solstice line from Catalina

253
00:13:59,100 --> 00:13:53,740
Catalina connects exactly with the Grand

254
00:14:01,110 --> 00:13:59,110
Canyon and then it moves on over a

255
00:14:05,910 --> 00:14:01,120
mountain called Navajo Mountain which is

256
00:14:08,910 --> 00:14:05,920
about 10,000 feet and then although it's

257
00:14:12,510 --> 00:14:08,920
in North America it's been largely

258
00:14:15,270 --> 00:14:12,520
farmed through the mid Midwest there's

259
00:14:16,780 --> 00:14:15,280
nothing that really marks it until you

260
00:14:20,490 --> 00:14:16,790
get into Wisconsin

261
00:14:26,050 --> 00:14:20,500
and this is inception radios hometown

262
00:14:28,750 --> 00:14:26,060
they're home to hundreds if not

263
00:14:31,720 --> 00:14:28,760

thousands of effigy mounds that are

264

00:14:35,380 --> 00:14:31,730

mostly destroyed now through farming but

265

00:14:38,140 --> 00:14:35,390

one still exists today that was

266

00:14:42,720 --> 00:14:38,150

excavated as a stepped pyramid

267

00:14:48,970 --> 00:14:42,730

it's called fort mod stolen in Wisconsin

268

00:14:53,230 --> 00:14:48,980

moving across this area it takes you to

269

00:14:56,590 --> 00:14:53,240

O Mount Washington and then further on

270

00:14:59,800 --> 00:14:56,600

still to Nova Scotia which is the

271

00:15:05,380 --> 00:14:59,810

farthest eastern point of the North

272

00:15:07,930 --> 00:15:05,390

American continent but this line carries

273

00:15:10,300 --> 00:15:07,940

you if you're a treasure hunter you have

274

00:15:13,060 --> 00:15:10,310

to you have to realize how important

275

00:15:16,750 --> 00:15:13,070

this is it carries you directly over Oak

276

00:15:18,730 --> 00:15:16,760

Island the money pit exactly of Oak

277

00:15:22,330 --> 00:15:18,740

Island that that's intriguing yeah yeah

278

00:15:26,770 --> 00:15:22,340

yes it this is just another validation

279

00:15:28,240 --> 00:15:26,780

of you know how you can run across yeah

280

00:15:30,310 --> 00:15:28,250

before you continue I first I want to

281

00:15:32,710 --> 00:15:30,320

thank you for welcoming on to the

282

00:15:35,440 --> 00:15:32,720

inception reading Network and also I

283

00:15:37,840 --> 00:15:35,450

realized you corrected me on the book

284

00:15:40,780 --> 00:15:37,850

title because I'd read the subtitle not

285

00:15:44,500 --> 00:15:40,790

this holds this connection I just read

286

00:15:46,390 --> 00:15:44,510

book one so hopefully there's gonna be

287

00:15:49,330 --> 00:15:46,400

more books like I guess that's the plan

288

00:15:53,920 --> 00:15:49,340

right yeah that's why it's called book 1

289

00:15:56,320 --> 00:15:53,930

I already have book 2 outlined and I've

290

00:15:59,320 --> 00:15:56,330

started I started to actually actually

291

00:16:02,620 --> 00:15:59,330

you know get that material together that

292

00:16:06,510 --> 00:16:02,630

should be out next year I have plans for

293

00:16:10,060 --> 00:16:06,520

a third book that might be a little more

294

00:16:13,510 --> 00:16:10,070

science fictiony speculative fiction

295

00:16:17,560 --> 00:16:13,520

actually not really science fiction but

296

00:16:22,320 --> 00:16:17,570

speculative fiction based on fact and

297

00:16:25,270 --> 00:16:22,330

this is the fact that the Annunaki are

298

00:16:28,680 --> 00:16:25,280

connected to the megaliths and when I

299

00:16:30,639 --> 00:16:28,690

when I realize that I was connecting

300

00:16:34,840 --> 00:16:30,649

major points like

301

00:16:39,160 --> 00:16:34,850

the grand canyon for a stolen Navajo

302

00:16:42,009 --> 00:16:39,170

mountain peak itself Washington the the

303

00:16:45,329 --> 00:16:42,019

the Mount Washington and then the money

304

00:16:48,549 --> 00:16:45,339

pit these coincidences are

305

00:16:52,439 --> 00:16:48,559

mathematically impossible unless it's an

306

00:16:56,290 --> 00:16:52,449

artificial survey let's let's preface

307

00:17:00,489 --> 00:16:56,300

well two things let's start with the

308

00:17:03,160 --> 00:17:00,499

Anunnaki and let's provide a little bit

309

00:17:04,539 --> 00:17:03,170

more background on what we think or what

310

00:17:06,569 --> 00:17:04,549

some people think the animatic naki

311

00:17:10,210 --> 00:17:06,579

actually are

312

00:17:13,689 --> 00:17:10,220

okay well personally I have to think

313

00:17:17,559 --> 00:17:13,699

that they are the elongated skull race

314

00:17:20,110 --> 00:17:17,569

that has no history on apparently on the

315

00:17:21,970 --> 00:17:20,120

earth because archaeologists refused to

316

00:17:24,039 --> 00:17:21,980

deal with it they're found all over the

317

00:17:27,010 --> 00:17:24,049

place they've actually found some in

318

00:17:28,840 --> 00:17:27,020

Antarctica too which is very very

319

00:17:30,820 --> 00:17:28,850

strange because it's supposed to have

320

00:17:33,730 --> 00:17:30,830

been covered by iceberg hundreds of

321

00:17:38,260 --> 00:17:33,740

thousands of years of course the piri

322

00:17:41,980 --> 00:17:38,270

Reis map says different that that we'll

323

00:17:45,880 --> 00:17:41,990

get into a little bit later I think but

324

00:17:48,850 --> 00:17:45,890

I found a validation here in twenty

325

00:17:52,570 --> 00:17:48,860

twenty thousand seventeen early this

326

00:17:55,149 --> 00:17:52,580

year when it was raining to beat the

327

00:17:57,789 --> 00:17:55,159

California drought in January they had

328

00:18:00,250 --> 00:17:57,799

improved their Doppler radar so much

329

00:18:04,560 --> 00:18:00,260

that that the topographical maps are

330

00:18:08,649 --> 00:18:04,570

just beautiful but when they did that I

331

00:18:11,289 --> 00:18:08,659

found a corroborating geographical

332

00:18:16,470 --> 00:18:11,299

feature that's simply impossible

333

00:18:21,639 --> 00:18:16,480

this feature goes from San Clemente

334

00:18:24,340 --> 00:18:21,649

through on a solstice on a solstice line

335

00:18:28,480 --> 00:18:24,350

that directly parallels the line that i

336

00:18:31,210 --> 00:18:28,490

theorize in 20015 from Catalina to the

337

00:18:33,190 --> 00:18:31,220

Grand Canyon it goes exactly to the

338

00:18:37,630 --> 00:18:33,200

Grand Canyon you can see traces of this

339

00:18:40,930 --> 00:18:37,640

on satellite imagery hopefully a good

340

00:18:43,950 --> 00:18:40,940

satellite imagery but I found it on the

341

00:18:46,080 --> 00:18:43,960

weather on the weather report

342

00:18:47,070 --> 00:18:46,090

and this is unusual because it's an

343

00:18:50,670 --> 00:18:47,080

actual actual

344

00:18:54,840 --> 00:18:50,680

you know national weather report this

345

00:18:59,850 --> 00:18:54,850

line is impossible it crosses at least

346

00:19:04,140 --> 00:18:59,860

two mountain ranges and over two

347

00:19:07,820 --> 00:19:04,150

continental tectonic plates both the

348

00:19:11,880 --> 00:19:07,830

Pacific and the North American plates

349

00:19:16,770 --> 00:19:11,890

directly at o-line where the San Andreas

350

00:19:20,580 --> 00:19:16,780

Fault ends now I know that that

351

00:19:22,500 --> 00:19:20,590

seismologists like to think that this

352

00:19:26,430 --> 00:19:22,510

continues from the San Francisco Bay

353

00:19:30,780 --> 00:19:26,440

Area all the way through into into the

354

00:19:34,050 --> 00:19:30,790

Baja Gulf it doesn't it actually stops

355

00:19:37,560 --> 00:19:34,060

here in the San Gorgonio Pass at a point

356

00:19:39,570 --> 00:19:37,570

called Kitching Peak Kitching the this

357

00:19:44,340 --> 00:19:39,580

Soltis line by the way does not travel

358

00:19:47,490 --> 00:19:44,350

over hitching peak it travels just to

359

00:19:51,260 --> 00:19:47,500

the west of it in a trench line and this

360

00:19:55,740 --> 00:19:51,270

is how you can actually see this as as a

361

00:19:59,310 --> 00:19:55,750

trench line from the Grand Canyon to San

362

00:20:02,160 --> 00:19:59,320

Clemente over these tectonic plates over

363

00:20:07,080 --> 00:20:02,170

these mountain ridges in a perfect line

364

00:20:08,700 --> 00:20:07,090

without any variance this is absolutely

365

00:20:11,510 --> 00:20:08,710

impossible because they say that

366

00:20:15,060 --> 00:20:11,520

California has been moving north for

367

00:20:19,640 --> 00:20:15,070

several inches a year for so long it's

368

00:20:22,350 --> 00:20:19,650

not there the fact is there is no

369

00:20:27,600 --> 00:20:22,360

seismic activity after Kitching peak

370

00:20:30,150 --> 00:20:27,610

this mountain is perfectly placed where

371

00:20:33,480 --> 00:20:30,160

it takes the energy the seismic energy

372

00:20:37,220 --> 00:20:33,490

and transfers it both north and south

373

00:20:40,320 --> 00:20:37,230

around the area and does not allow any

374

00:20:43,590 --> 00:20:40,330

anything from the San Andreas Fault to

375

00:20:47,520 --> 00:20:43,600

continue to the Salton Sea that area

376

00:20:50,940 --> 00:20:47,530

between the Salton Sea and Kitching peak

377

00:20:54,180 --> 00:20:50,950

is a hundred and fifty mile area with no

378

00:20:56,850 --> 00:20:54,190

absolutely no seismic activity this was

379

00:21:00,720 --> 00:20:56,860

reported in 20,000 16

380

00:21:04,680 --> 00:21:00,730

on their seismic masses are it's not

381

00:21:07,350 --> 00:21:04,690

possible for this line to exist it

382

00:21:10,230 --> 00:21:07,360

exists on both sides of the peak and the

383

00:21:12,659 --> 00:21:10,240

funny thing is I'm personally connected

384

00:21:15,509 --> 00:21:12,669

to it I didn't know this I was actually

385

00:21:19,799 --> 00:21:15,519

shocked when I started looking very very

386

00:21:22,590 --> 00:21:19,809

closely at this line and you have to

387

00:21:24,210 --> 00:21:22,600

realize just how rural the area is you

388

00:21:28,470 --> 00:21:24,220

might think Southern California is full

389

00:21:31,440 --> 00:21:28,480

of people but it's it's not especially

390

00:21:34,560 --> 00:21:31,450

in this in this area where the Solstice

391

00:21:40,110 --> 00:21:34,570

line crosses this geological anomalous

392

00:21:42,330 --> 00:21:40,120

feature crosses exactly through the

393

00:21:44,610 --> 00:21:42,340

mountain ranges which are just now

394

00:21:47,730 --> 00:21:44,620

starting to be can have a little bit of

395

00:21:49,889 --> 00:21:47,740

construction directly through the center

396

00:21:52,529 --> 00:21:49,899

of Lake Elsinore which is a man-made

397

00:21:54,720 --> 00:21:52,539

lake by the way and didn't have a whole

398

00:21:59,850 --> 00:21:54,730

lot of community until the lake was

399

00:22:02,639 --> 00:21:59,860

formed about 30-40 years ago I grant you

400

00:22:06,360 --> 00:22:02,649

that there are possibly thousands of

401
00:22:08,430 --> 00:22:06,370
people who have been you know born and

402
00:22:12,509 --> 00:22:08,440
raised on this line but when I came

403
00:22:13,560 --> 00:22:12,519
across the line crossing into San

404
00:22:16,680 --> 00:22:13,570
Gorgonio paths

405
00:22:19,740 --> 00:22:16,690
it crosses into Old Town banning where I

406
00:22:22,379 --> 00:22:19,750
grew up and no more than about a hundred

407
00:22:25,110 --> 00:22:22,389
feet from where I grew up for 12 years

408
00:22:27,289 --> 00:22:25,120
about two hundred feet from the school

409
00:22:31,549 --> 00:22:27,299
that I went to for elementary school

410
00:22:34,799 --> 00:22:31,559
about the same for the high school and

411
00:22:38,430 --> 00:22:34,809
another impossible coincidence it

412
00:22:41,370 --> 00:22:38,440
crosses over the gym that my mother

413
00:22:43,470 --> 00:22:41,380

actually laid the cornerstone of in in

414

00:22:45,029 --> 00:22:43,480

her high school days she was a salah'

415

00:22:48,720 --> 00:22:45,039

torreón

416

00:22:54,750 --> 00:22:48,730

the coincidences are just staggering to

417

00:22:58,169 --> 00:22:54,760

me because it it tells me that I that

418

00:23:03,360 --> 00:22:58,179

something is manipulating on a long-term

419

00:23:06,120 --> 00:23:03,370

basis and the only people that involved

420

00:23:07,919 --> 00:23:06,130

have to be the anunnaki and as a skeptic

421

00:23:09,950 --> 00:23:07,929

I just want to say something about

422

00:23:12,260 --> 00:23:09,960

skeptic skepticism be

423

00:23:15,110 --> 00:23:12,270

because it's a really poorly used term

424

00:23:18,320 --> 00:23:15,120

now debunkers and denialists should

425

00:23:22,820 --> 00:23:18,330

never be included as skeptics they are

426

00:23:25,370 --> 00:23:22,830

not they're not willing to take any

427

00:23:28,010 --> 00:23:25,380

anything that they haven't already

428

00:23:32,029 --> 00:23:28,020

thought of they've already determined

429

00:23:34,399 --> 00:23:32,039

their their conclusions and therefore

430

00:23:37,460 --> 00:23:34,409

are not skeptics they're not scientists

431

00:23:39,950 --> 00:23:37,470

and are not willing to deal with you

432

00:23:43,039 --> 00:23:39,960

know is something that that is not of

433

00:23:46,490 --> 00:23:43,049

their own making well it's different

434

00:23:49,460 --> 00:23:46,500

when a skeptic will well they're the job

435

00:23:52,250 --> 00:23:49,470

of a skeptic is much like a scientist

436

00:23:55,490 --> 00:23:52,260

it's if you want to challenge a theory

437

00:23:58,130 --> 00:23:55,500

then you have to look hard at the facts

438

00:24:00,610 --> 00:23:58,140

provided and the information provided an

439

00:24:03,740 --> 00:24:00,620

alternative evidence you know it's

440

00:24:07,070 --> 00:24:03,750

especially alternative evidence this is

441

00:24:09,980 --> 00:24:07,080

why I decided that I would treat the

442

00:24:14,000 --> 00:24:09,990

Anunnaki as the realistic makers or

443

00:24:18,500 --> 00:24:14,010

builders of Stonehenge monument well

444

00:24:20,450 --> 00:24:18,510

that also ties to the Giants if you know

445

00:24:25,029 --> 00:24:20,460

if I'm accepting one I have to accept

446

00:24:28,610 --> 00:24:25,039

the other because Stonehenge Catalina is

447

00:24:30,830 --> 00:24:28,620

giants that you know almost 4000 Giants

448

00:24:32,930 --> 00:24:30,840

were dug up there there's a funny little

449

00:24:34,850 --> 00:24:32,940

thing about I just wanted to bring up I

450

00:24:37,310 --> 00:24:34,860

didn't bring up in the book because I

451
00:24:40,220 --> 00:24:37,320
couldn't find information on the plaque

452
00:24:43,159 --> 00:24:40,230
that was found but in Avalon Bay of

453
00:24:47,560 --> 00:24:43,169
Santa Catalina which is an artificial

454
00:24:50,840 --> 00:24:47,570
Bay that's dug out perfectly circular

455
00:24:53,450 --> 00:24:50,850
and of course it's been remodeled since

456
00:24:56,810 --> 00:24:53,460
we've been occupied it as modern humans

457
00:24:59,480 --> 00:24:56,820
but there was a giant an eight-foot

458
00:25:03,529 --> 00:24:59,490
giant discovered there with a plaque

459
00:25:06,409 --> 00:25:03,539
with strange hieroglyphics and if you

460
00:25:10,880 --> 00:25:06,419
don't remember Oak Island Oak Island

461
00:25:14,330 --> 00:25:10,890
also had a similar plaque and this lets

462
00:25:16,820 --> 00:25:14,340
this actually tie is it because the line

463
00:25:19,970 --> 00:25:16,830

that crosses over Oak Island ends up

464

00:25:23,100 --> 00:25:19,980

crossing the very final piece of land in

465

00:25:25,140 --> 00:25:23,110

North America it's an unnamed I

466

00:25:29,700 --> 00:25:25,150

that looks exactly like a giant

467

00:25:32,310 --> 00:25:29,710

footprint now isn't that a nice little

468

00:25:33,000 --> 00:25:32,320

validation of giants on both sides of

469

00:25:36,299 --> 00:25:33,010

the continent

470

00:25:39,299 --> 00:25:36,309

besides the dolmens that exist on the on

471

00:25:41,940 --> 00:25:39,309

the East Coast there too well I guess my

472

00:25:46,950 --> 00:25:41,950

question would be you know especially in

473

00:25:51,450 --> 00:25:46,960

in more recent days if if giant remains

474

00:25:54,240 --> 00:25:51,460

were discovered decades ago would there

475

00:25:56,580 --> 00:25:54,250

not be more remains to be found

476
00:26:00,530 --> 00:25:56,590
and if so I mean you know you could have

477
00:26:02,909 --> 00:26:00,540
crews that include university interns

478
00:26:08,100 --> 00:26:02,919
various scientists and they all have

479
00:26:12,630 --> 00:26:08,110
phones which now take pictures this is

480
00:26:14,700 --> 00:26:12,640
the archeological work most of the

481
00:26:17,669 --> 00:26:14,710
archaeological work that was done in

482
00:26:21,210 --> 00:26:17,679
North America was actually done in the

483
00:26:22,500 --> 00:26:21,220
1800's 17 and 1800's by the newer

484
00:26:24,350 --> 00:26:22,510
colonists

485
00:26:27,840 --> 00:26:24,360
they're the ones who dug up the the

486
00:26:31,520 --> 00:26:27,850
effigy mounds and they discovered giants

487
00:26:34,070 --> 00:26:31,530
there too and if you there are notable

488
00:26:36,810 --> 00:26:34,080

newspaper clippings about the Wisconsin

489

00:26:41,070 --> 00:26:36,820

Giants especially in the four days of

490

00:26:44,010 --> 00:26:41,080

land area and and their their tie is

491

00:26:48,680 --> 00:26:44,020

directly to the Gulf of Mexico where

492

00:26:51,210 --> 00:26:48,690

they found seaweed apparently draping a

493

00:26:54,150 --> 00:26:51,220

princess they called it the Seas

494

00:26:57,590 --> 00:26:54,160

seashell princess I believe she was

495

00:27:01,140 --> 00:26:57,600

found in a very ornate dress of

496

00:27:04,530 --> 00:27:01,150

seashells and this is a giant woman by

497

00:27:08,669 --> 00:27:04,540

the way this I believe you can still see

498

00:27:13,409 --> 00:27:08,679

in the Museum of fort as at lon or

499

00:27:18,980 --> 00:27:13,419

austell on Wisconsin but the seaweed

500

00:27:22,860 --> 00:27:18,990

comes from the Gulf of Mexico and that's

501
00:27:27,659 --> 00:27:22,870
that is doesn't surprise me because in

502
00:27:34,320 --> 00:27:27,669
in Texas they also found Giants - down

503
00:27:36,419 --> 00:27:34,330
down at the Gulf of Mexico and you know

504
00:27:36,720 --> 00:27:36,429
on a northern line from that you had the

505
00:27:39,960 --> 00:27:36,730
coho

506
00:27:43,070 --> 00:27:39,970
eeeh the Cahokia Mounds which are

507
00:27:46,500 --> 00:27:43,080
basically a pyramidal setup that was

508
00:27:50,400 --> 00:27:46,510
excavated and then refilled in because

509
00:27:53,490 --> 00:27:50,410
the the indigenous Indian people took

510
00:27:56,060 --> 00:27:53,500
control of the area so you do have

511
00:28:02,270 --> 00:27:56,070
megaliths in North America just

512
00:28:06,299 --> 00:28:02,280
everything has been re repackage it

513
00:28:10,169 --> 00:28:06,309

there's nothing that's really shows the

514

00:28:14,669 --> 00:28:10,179

ancient peoples of America they want you

515

00:28:17,460 --> 00:28:14,679

to believe that Indians are Mongols but

516

00:28:20,159 --> 00:28:17,470

that the the genetics just don't show

517

00:28:25,680 --> 00:28:20,169

that did I'll show that right yeah I

518

00:28:29,330 --> 00:28:25,690

guess but but my question was if now we

519

00:28:32,850 --> 00:28:29,340

find a team of archaeologists find a

520

00:28:35,880 --> 00:28:32,860

giant skeleton or remains how do they

521

00:28:40,140 --> 00:28:35,890

hide that they don't actually actually

522

00:28:42,780 --> 00:28:40,150

they have been reporting some findings

523

00:28:45,350 --> 00:28:42,790

like you know it's all it's very tall

524

00:28:49,710 --> 00:28:45,360

people right we've been very very

525

00:28:51,870 --> 00:28:49,720

fortunate in recent days just just to

526
00:28:55,080 --> 00:28:51,880
have information on the new mummies

527
00:28:56,760 --> 00:28:55,090
found in Nazca because the government

528
00:29:01,320 --> 00:28:56,770
the the Peruvian government has now

529
00:29:03,270 --> 00:29:01,330
taken over they they want to be like

530
00:29:05,090 --> 00:29:03,280
Egyptologists they want to control all

531
00:29:08,430 --> 00:29:05,100
the information that comes out of Peru

532
00:29:09,659 --> 00:29:08,440
especially the Nazca area alright well

533
00:29:11,340 --> 00:29:09,669
then let's let's hold it there we're

534
00:29:12,720 --> 00:29:11,350
going to our first break you're

535
00:29:14,580 --> 00:29:12,730
listening to paranormal now on the

536
00:29:23,850 --> 00:29:14,590
inception radio network my guest is Dan

537
00:29:23,860 --> 00:29:29,300
[Music]

538
00:29:33,870 --> 00:29:31,950

welcome back to paranormal now on the

539

00:29:34,710 --> 00:29:33,880

inception radio network your weekly

540

00:29:36,660 --> 00:29:34,720

podcast

541

00:29:40,470 --> 00:29:36,670

I'm your host Alan B Smith and tonight's

542

00:29:45,050 --> 00:29:40,480

guest is Dan focused and taking us out

543

00:29:48,510 --> 00:29:45,060

of that break is Marley Buffalo Soldier

544

00:29:51,300 --> 00:29:48,520

so Dan I want to get back before we

545

00:29:53,820 --> 00:29:51,310

continue on with the story as we have

546

00:29:56,130 --> 00:29:53,830

been going could you just take a moment

547

00:29:58,980 --> 00:29:56,140

to explain what oak island is to those

548

00:30:02,520 --> 00:29:58,990

who are new to the story of oak island

549

00:30:04,620 --> 00:30:02,530

Oak Island is is another artificially

550

00:30:06,570 --> 00:30:04,630

formed Island if you look at it from a

551
00:30:10,500 --> 00:30:06,580
satellite image it looks like an

552
00:30:14,850 --> 00:30:10,510
elephant or a possibly a mammoth but

553
00:30:15,960 --> 00:30:14,860
it's not the only artificially formed

554
00:30:19,320 --> 00:30:15,970
island

555
00:30:23,060 --> 00:30:19,330
the thing about Oak Island is its

556
00:30:26,610 --> 00:30:23,070
connection to both the Templars or

557
00:30:28,590 --> 00:30:26,620
apparent connection to the Templars I

558
00:30:32,250 --> 00:30:28,600
should I should mention because they

559
00:30:35,580 --> 00:30:32,260
haven't found anything actually linking

560
00:30:39,800 --> 00:30:35,590
them except for several oil old coins

561
00:30:44,160 --> 00:30:39,810
that date into the 1700s they found some

562
00:30:46,560 --> 00:30:44,170
weird radiation in them in the money pit

563
00:30:48,240 --> 00:30:46,570

originally when they tried to carbon

564

00:30:51,570 --> 00:30:48,250

test some of the some of the wood there

565

00:30:54,230 --> 00:30:51,580

it came up as future dates and that's

566

00:30:57,930 --> 00:30:54,240

that's a little odd

567

00:31:01,200 --> 00:30:57,940

this is not it not abnormal though

568

00:31:05,370 --> 00:31:01,210

because radiocarbon dating has this

569

00:31:08,580 --> 00:31:05,380

ability to really be bad bad for dating

570

00:31:12,330 --> 00:31:08,590

some things and it didn't like this

571

00:31:16,710 --> 00:31:12,340

would apparently but they dug down some

572

00:31:22,530 --> 00:31:16,720

some three children I believe in their

573

00:31:27,420 --> 00:31:22,540

teens had found a pulley over over a pit

574

00:31:30,060 --> 00:31:27,430

area off of off of a an oak tree and

575

00:31:32,550 --> 00:31:30,070

they decided to dig there thinking there

576
00:31:35,370 --> 00:31:32,560
was treasure and they actually found a

577
00:31:38,940 --> 00:31:35,380
few things but they they found every

578
00:31:43,259 --> 00:31:38,950
ten-foot was another level of round

579
00:31:47,549 --> 00:31:43,269
did logs and ended up but they found

580
00:31:51,149 --> 00:31:47,559
coconut and coconut is not you know

581
00:31:53,460 --> 00:31:51,159
natural to this hemisphere much less yea

582
00:31:57,409 --> 00:31:53,470
and much much less the island area of

583
00:32:01,590 --> 00:31:57,419
Nova Scotia but they've they've actually

584
00:32:04,529 --> 00:32:01,600
kept going every 10 foot they found

585
00:32:07,590 --> 00:32:04,539
these this logged off area but on one of

586
00:32:11,009 --> 00:32:07,600
them about 90 foot down they found a

587
00:32:13,139 --> 00:32:11,019
plaque with hieroglyphics and that that

588
00:32:15,960 --> 00:32:13,149

I wish I wish I could find out more

589

00:32:20,100 --> 00:32:15,970

information about the plaque found on

590

00:32:22,549 --> 00:32:20,110

the Giant in Catalina but I believe

591

00:32:27,090 --> 00:32:22,559

they're the same kind of hieroglyphs

592

00:32:31,080 --> 00:32:27,100

which kind of it kind of eliminates the

593

00:32:35,129 --> 00:32:31,090

the Templar you know connection to Oak

594

00:32:39,710 --> 00:32:35,139

Island but it's also connected to the

595

00:32:42,810 --> 00:32:39,720

earliest Christopher Columbus had had

596

00:32:45,509 --> 00:32:42,820

additional captain's with him and one of

597

00:32:49,379 --> 00:32:45,519

the boats there's a missing piece of

598

00:32:52,259 --> 00:32:49,389

time and this is according to the

599

00:32:55,639 --> 00:32:52,269

stories this is the point where this

600

00:33:01,710 --> 00:32:55,649

boat went and that was to hide certain

601
00:33:04,379 --> 00:33:01,720
artifacts and this has not been actually

602
00:33:06,240 --> 00:33:04,389
validated though although I do you

603
00:33:08,909 --> 00:33:06,250
really do you really think the matching

604
00:33:12,389 --> 00:33:08,919
glyphs between the two points

605
00:33:14,070 --> 00:33:12,399
you know disk ludes the Knights Templars

606
00:33:15,750 --> 00:33:14,080
or might the Knights Templars actually

607
00:33:18,529 --> 00:33:15,760
actually and that was passed actually

608
00:33:21,899 --> 00:33:18,539
this actually this is all passed down

609
00:33:25,710 --> 00:33:21,909
the Knights Templars are who we called

610
00:33:30,029 --> 00:33:25,720
masons now the Masons gladly take on

611
00:33:33,269 --> 00:33:30,039
that that amulet too you know they they

612
00:33:37,049 --> 00:33:33,279
consider themselves Templars they

613
00:33:39,779 --> 00:33:37,059

actually actually this this comes from

614

00:33:42,570 --> 00:33:39,789

one of the first mystery schools of

615

00:33:46,639 --> 00:33:42,580

Egypt and that's the temple of Luxor

616

00:33:49,860 --> 00:33:46,649

it's considered the actually first

617

00:33:52,860 --> 00:33:49,870

Masonic Temple and you'll notice that

618

00:33:55,740 --> 00:33:52,870

every Masonic Temple has these columns

619

00:33:58,380 --> 00:33:55,750

two columns on the entry door well

620

00:34:00,630 --> 00:33:58,390

that's supposed to emulate the obelisks

621

00:34:03,299 --> 00:34:00,640

that were in front of the temple of

622

00:34:06,480 --> 00:34:03,309

Luxor but there were other mystery

623

00:34:10,889 --> 00:34:06,490

schools too and I just want to ask you

624

00:34:14,340 --> 00:34:10,899

Alan you're you're aware that that

625

00:34:16,680 --> 00:34:14,350

latitude and longitude are a fairly new

626
00:34:20,550 --> 00:34:16,690
device how do you think people actually

627
00:34:24,780 --> 00:34:20,560
navigated for sure well a hundred

628
00:34:27,750 --> 00:34:24,790
hundred and ninety thousand years give

629
00:34:29,550 --> 00:34:27,760
or take five hundred yeah well we know

630
00:34:34,200 --> 00:34:29,560
for a fact that people sailed using the

631
00:34:37,159 --> 00:34:34,210
Stars just just by memory exactly mmm

632
00:34:42,619 --> 00:34:37,169
and this is this is actually the Greeks

633
00:34:45,000 --> 00:34:42,629
actually go they detailed this

634
00:34:48,720 --> 00:34:45,010
particular kind of navigation in the

635
00:34:52,169 --> 00:34:48,730
Odyssey Homer's Odyssey by using the

636
00:34:55,710 --> 00:34:52,179
constellations and the position of the

637
00:34:58,580 --> 00:34:55,720
Sun they were able to accurately move

638
00:35:03,360 --> 00:34:58,590

around the world there's a story of a

639

00:35:06,600 --> 00:35:03,370

great name Pythias a mariner who knew

640

00:35:09,990 --> 00:35:06,610

exactly where stonehenge was and this

641

00:35:13,830 --> 00:35:10,000

dates to at least the third century

642

00:35:16,230 --> 00:35:13,840

which is kind of unusual because the

643

00:35:19,680 --> 00:35:16,240

Arthurian legend of stone henges it

644

00:35:22,080 --> 00:35:19,690

dates to the fifth but twenty thousand

645

00:35:26,340 --> 00:35:22,090

fifteen all the discoveries they

646

00:35:31,380 --> 00:35:26,350

actually found up to fifteen lower

647

00:35:33,390 --> 00:35:31,390

structures in the stonehenge mound or in

648

00:35:36,810 --> 00:35:33,400

the circle in other words and weren't so

649

00:35:40,500 --> 00:35:36,820

many thousands of years older it's much

650

00:35:45,210 --> 00:35:40,510

thousand much older than then then they

651
00:35:48,450 --> 00:35:45,220
they they even imagine now but Pythias

652
00:35:51,180 --> 00:35:48,460
knew exactly how to find this yeah do

653
00:35:54,510 --> 00:35:51,190
you remember where they all was a stone

654
00:35:58,500 --> 00:35:54,520
or where they're not wood they're stone

655
00:36:04,380 --> 00:35:58,510
henges underneath there is there is some

656
00:36:06,289 --> 00:36:04,390
evidence of wooden posts used along the

657
00:36:10,069 --> 00:36:06,299
same lines as the super

658
00:36:13,130 --> 00:36:10,079
by the way they think that they used the

659
00:36:17,029 --> 00:36:13,140
wooden posts and then covered the whole

660
00:36:19,519 --> 00:36:17,039
super hinge on top of those those

661
00:36:22,789 --> 00:36:19,529
pillars those columns using them you

662
00:36:26,179 --> 00:36:22,799
using it as a subterranean housing I

663
00:36:29,419 --> 00:36:26,189

believe it's actually a an underground

664

00:36:33,249 --> 00:36:29,429

Stonehenge same size blue stones are

665

00:36:37,699 --> 00:36:33,259

found along the edge but they're buried

666

00:36:39,769 --> 00:36:37,709

at the Sadler henge so if you think in

667

00:36:43,400 --> 00:36:39,779

that case would it have been possible

668

00:36:47,689 --> 00:36:43,410

that they actually had ceremonies

669

00:36:52,549 --> 00:36:47,699

underground absolutely is for it's like

670

00:36:55,130 --> 00:36:52,559

s absolutely but it goes even even

671

00:36:57,799 --> 00:36:55,140

deeper than that they've found very

672

00:37:01,759 --> 00:36:57,809

recently that a lot of these standing

673

00:37:05,150 --> 00:37:01,769

stones have markings on them that are

674

00:37:07,809 --> 00:37:05,160

meant to be seen at night which means

675

00:37:10,729 --> 00:37:07,819

they glowed and now how is that possible

676

00:37:13,729 --> 00:37:10,739

well I think I found the answer to tell

677

00:37:16,099 --> 00:37:13,739

you the truth but this this I'll have to

678

00:37:18,949 --> 00:37:16,109

take you through we were talking about

679

00:37:21,979 --> 00:37:18,959

Pythias and and and how he knew where

680

00:37:26,150 --> 00:37:21,989

Stonehenge the Stonehenge monument was

681

00:37:31,029 --> 00:37:26,160

from Greece he didn't travel overland he

682

00:37:33,739 --> 00:37:31,039

used he used water navigation so these

683

00:37:36,439 --> 00:37:33,749

anthropologists thinking that men were

684

00:37:40,549 --> 00:37:36,449

too afraid or didn't have the knowledge

685

00:37:45,219 --> 00:37:40,559

to cross open open water just there

686

00:37:49,189 --> 00:37:45,229

there dismissing the actual evidence and

687

00:37:53,900 --> 00:37:49,199

this comes to the Antikythera machine by

688

00:37:57,109 --> 00:37:53,910

the way this was found in the 1960s in a

689

00:38:00,169 --> 00:37:57,119

shipwreck off of Greece and it's a about

690

00:38:03,559 --> 00:38:00,179

a six inch device made of about thirty

691

00:38:06,469 --> 00:38:03,569

or thirty or so cogs that are exactly

692

00:38:09,349 --> 00:38:06,479

machined to interact with each other and

693

00:38:12,349 --> 00:38:09,359

what it is is an analogue computer of

694

00:38:15,160 --> 00:38:12,359

the constellations or the movement of

695

00:38:17,479 --> 00:38:15,170

the constellations just like an

696

00:38:19,520 --> 00:38:17,489

astrologer would do nowadays with a

697

00:38:22,820 --> 00:38:19,530

computer program that's a

698

00:38:26,990 --> 00:38:22,830

amazing to me this this dates to at

699

00:38:29,630 --> 00:38:27,000

least a hundred BC which means that they

700

00:38:35,900 --> 00:38:29,640

were operating on even older knowledge

701

00:38:38,900 --> 00:38:35,910

and this this is all learned in the

702

00:38:41,780 --> 00:38:38,910

mystery schools of Egypt the original

703

00:38:46,570 --> 00:38:41,790

mystery school of Egypt being the temple

704

00:38:50,240 --> 00:38:46,580

of Osiris and there is a stone that

705

00:38:54,050 --> 00:38:50,250

anybody can go visit today you can look

706

00:38:55,910 --> 00:38:54,060

it up online a stone that it they they

707

00:38:59,690 --> 00:38:55,920

would like to think is etched but they

708

00:39:03,770 --> 00:38:59,700

really have no idea how this thing was

709

00:39:07,930 --> 00:39:03,780

marked it is the symbol of the Flower of

710

00:39:13,150 --> 00:39:07,940

Life the geometric sacred geometry

711

00:39:16,880 --> 00:39:13,160

symbol symbol of the Flower of Life and

712

00:39:20,200 --> 00:39:16,890

apparently this is what they used for

713

00:39:23,390 --> 00:39:20,210

navigation was the constellations and

714

00:39:26,060 --> 00:39:23,400

the position of the Sun especially on

715

00:39:28,820 --> 00:39:26,070

the Solstice that's when the day stands

716

00:39:31,910 --> 00:39:28,830

still or the Sun stand still that's the

717

00:39:35,890 --> 00:39:31,920

actual literal meaning of the solstices

718

00:39:37,910 --> 00:39:35,900

soul sister the day the sun's manzil I

719

00:39:41,930 --> 00:39:37,920

think you make a really good point with

720

00:39:47,200 --> 00:39:41,940

the Antikythera machine because we know

721

00:39:50,480 --> 00:39:47,210

that knowledge used is no matter how

722

00:39:52,910 --> 00:39:50,490

groundbreaking or advanced it is or who

723

00:39:57,050 --> 00:39:52,920

the genius is behind it is based on

724

00:39:59,900 --> 00:39:57,060

previous knowledge so exact this device

725

00:40:03,230 --> 00:39:59,910

it's surprising enough that it's as old

726

00:40:08,000 --> 00:40:03,240

as it is all that means is that there

727

00:40:10,760 --> 00:40:08,010

was a series of individuals that

728

00:40:15,040 --> 00:40:10,770

preceded this and passed knowledge down

729

00:40:19,070 --> 00:40:15,050

and built upon that knowledge so yeah I

730

00:40:22,250 --> 00:40:19,080

agree especially since we know how you

731

00:40:23,990 --> 00:40:22,260

know Samoans even today can though there

732

00:40:27,080 --> 00:40:24,000

are not many left I don't believe that

733

00:40:30,769 --> 00:40:27,090

can actually navigate using just their

734

00:40:34,309 --> 00:40:30,779

eyes but you know this idea that here

735

00:40:37,579 --> 00:40:34,319

were afraid of waters you know we're

736

00:40:39,769 --> 00:40:37,589

afraid and not clever enough

737

00:40:44,029 --> 00:40:39,779

it is pretty absurd and and if we were

738

00:40:46,249 --> 00:40:44,039

actually human beings essentially with

739

00:40:47,929 --> 00:40:46,259

the brains that we have for it let's

740

00:40:50,799 --> 00:40:47,939

just say a million years that's a pretty

741

00:40:54,409 --> 00:40:50,809

acceptable number even in mainstream

742

00:40:55,849 --> 00:40:54,419

academia so you know it's very hard to

743

00:41:00,169 --> 00:40:55,859

believe that for hundreds of thousands

744

00:41:02,269 --> 00:41:00,179

of years we didn't use that brain so to

745

00:41:05,919 --> 00:41:02,279

me it does make sense that we were out

746

00:41:10,819 --> 00:41:05,929

all over this this earth you know far

747

00:41:12,859 --> 00:41:10,829

earlier then history tells us and every

748

00:41:15,589 --> 00:41:12,869

year you know more discoveries are made

749

00:41:18,890 --> 00:41:15,599

that pushed the mainstream history back

750

00:41:20,929 --> 00:41:18,900

by a thousand years or 5,000 years and

751
00:41:23,390 --> 00:41:20,939
and it's getting bigger and bigger so I

752
00:41:25,699 --> 00:41:23,400
kind of feel like this ancient ancient

753
00:41:28,130 --> 00:41:25,709
history that may sound ridiculous to

754
00:41:32,120 --> 00:41:28,140
some people today as we speak

755
00:41:36,199 --> 00:41:32,130
won't sound outrageous in in ten years

756
00:41:38,659 --> 00:41:36,209
from now and and really academia wants

757
00:41:41,299 --> 00:41:38,669
you to believe in in one of two theories

758
00:41:44,049 --> 00:41:41,309
the Out of Africa theory or the

759
00:41:47,689 --> 00:41:44,059
multi-regional continued continuity

760
00:41:50,959 --> 00:41:47,699
theory and both of those don't explain

761
00:41:52,759 --> 00:41:50,969
the migratory patterns in the Out of

762
00:41:55,309 --> 00:41:52,769
Africa theory this is the one that most

763
00:41:57,890 --> 00:41:55,319

people referred to they would like you

764

00:42:00,979 --> 00:41:57,900

to believe that everybody is relatable

765

00:42:02,749 --> 00:42:00,989

related to an evolution that moved out

766

00:42:06,499 --> 00:42:02,759

of Africa and up through the coastlines

767

00:42:09,259 --> 00:42:06,509

and across some kind of land bridge that

768

00:42:13,909 --> 00:42:09,269

only happened during the Ice Age in into

769

00:42:16,999 --> 00:42:13,919

North America but the the problems with

770

00:42:20,029 --> 00:42:17,009

the witness are the haplogroups that

771

00:42:24,499 --> 00:42:20,039

which say they were here there is no

772

00:42:29,299 --> 00:42:24,509

genetic line passed happe lo X that

773

00:42:32,809 --> 00:42:29,309

means happe lo X is the dominant genetic

774

00:42:34,969 --> 00:42:32,819

feature of the people on this continent

775

00:42:38,539 --> 00:42:34,979

everything everybody else happened

776
00:42:42,649 --> 00:42:38,549
happened to you know interbreed with

777
00:42:44,359 --> 00:42:42,659
other races especially the Chinese on

778
00:42:47,380 --> 00:42:44,369
the on the California coast

779
00:42:49,789 --> 00:42:47,390
we found plenty of ancient Chinese

780
00:42:53,809 --> 00:42:49,799
anchors off the off the California coast

781
00:42:58,459 --> 00:42:53,819
and in the Yucatan there's actually been

782
00:43:00,620 --> 00:42:58,469
yin-yang symbols found which is really

783
00:43:04,309 --> 00:43:00,630
kind of neat it means that these people

784
00:43:10,819 --> 00:43:04,319
crossed great oceans with no problem and

785
00:43:14,180 --> 00:43:10,829
I know that they used this particular

786
00:43:17,299 --> 00:43:14,190
symbol called the Flower of Life if you

787
00:43:19,489 --> 00:43:17,309
look at the Great Pyramid this is this

788
00:43:22,099 --> 00:43:19,499

is the point where the piri Reis map is

789

00:43:24,680 --> 00:43:22,109

actually centered the Peres Reis map

790

00:43:28,099 --> 00:43:24,690

they want you to believe was made

791

00:43:30,529 --> 00:43:28,109

in the 1500s about a hundred years

792

00:43:33,049 --> 00:43:30,539

before they started with latitude and

793

00:43:35,989 --> 00:43:33,059

longitude because latitude and longitude

794

00:43:41,359 --> 00:43:35,999

are not marked on the piri Reis what is

795

00:43:45,229 --> 00:43:41,369

marked is this emanating solar pattern a

796

00:43:48,380 --> 00:43:45,239

rade pattern from the center of the

797

00:43:53,660 --> 00:43:48,390

Great Pyramid in Giza and other other

798

00:43:55,190 --> 00:43:53,670

spots and Plato the Greek actually

799

00:43:58,130 --> 00:43:55,200

thought there were there were a hundred

800

00:44:01,279 --> 00:43:58,140

and twenty of these nodes around the

801
00:44:03,559 --> 00:44:01,289
world he considered the world a living

802
00:44:06,589 --> 00:44:03,569
crystal which is kind of neat because

803
00:44:08,120 --> 00:44:06,599
now the the newest science is actually

804
00:44:11,120 --> 00:44:08,130
saying that the center of the earth is

805
00:44:14,709 --> 00:44:11,130
not this molten core of iron but

806
00:44:19,039 --> 00:44:14,719
actually linear crystal that is magnetic

807
00:44:22,910 --> 00:44:19,049
linear magnetic crystal and that matters

808
00:44:26,239 --> 00:44:22,920
more it matches more of what we were

809
00:44:28,579 --> 00:44:26,249
told by the Sumerians ten thousand years

810
00:44:31,880 --> 00:44:28,589
ago can you how do you mean the linear

811
00:44:33,890 --> 00:44:31,890
crystal linear magnetic in other words

812
00:44:36,829 --> 00:44:33,900
in other words it only has like one pole

813
00:44:41,109 --> 00:44:36,839

and they're and they're actually pulled

814

00:44:46,190 --> 00:44:41,119

along line areas like the north-south

815

00:44:49,969 --> 00:44:46,200

okay this this you know the people who

816

00:44:51,709 --> 00:44:49,979

would like to think that we had some

817

00:44:53,959 --> 00:44:51,719

kind of catastrophe that moved the

818

00:44:56,599 --> 00:44:53,969

equator of the earth or shifted the

819

00:44:57,880 --> 00:44:56,609

poles or something like that magnetic

820

00:45:00,529 --> 00:44:57,890

poles

821

00:45:03,769 --> 00:45:00,539

I don't think it would matter it

822

00:45:06,769 --> 00:45:03,779

wouldn't cause a catastrophe but if it

823

00:45:12,890 --> 00:45:06,779

ever did all of the math at Giza would

824

00:45:16,910 --> 00:45:12,900

be wrong today which isn't is not it's

825

00:45:20,779 --> 00:45:16,920

not in evidence the the math at at the

826

00:45:25,009 --> 00:45:20,789

great Herrmann works because there has

827

00:45:28,970 --> 00:45:25,019

been no movement of the earth but the

828

00:45:31,130 --> 00:45:28,980

peri Reis map also shows Antarctica free

829

00:45:34,940 --> 00:45:31,140

of ice this is supposed to come from

830

00:45:36,620 --> 00:45:34,950

very very old sources but it uses

831

00:45:39,529 --> 00:45:36,630

various methods that may interject

832

00:45:41,059 --> 00:45:39,539

really quick and the Paragon Smith for

833

00:45:44,420 --> 00:45:41,069

those who don't know is from around I

834

00:45:46,539 --> 00:45:44,430

believe 1500 right yeah they want you to

835

00:45:50,120 --> 00:45:46,549

believe that but it's from older sources

836

00:45:52,789 --> 00:45:50,130

right right so and what would the

837

00:45:55,309 --> 00:45:52,799

evidence that the map provides to

838

00:45:58,190 --> 00:45:55,319

indicate that it's from an older source

839

00:46:02,480 --> 00:45:58,200

or get or drew information from an older

840

00:46:05,599 --> 00:46:02,490

source is the the features on the map

841

00:46:09,460 --> 00:46:05,609

were essentially unidentifiable at the

842

00:46:12,670 --> 00:46:09,470

time correct yes and it also shows that

843

00:46:17,680 --> 00:46:12,680

the positions of North and South America

844

00:46:20,779 --> 00:46:17,690

it but it's it it's in a weird kind of

845

00:46:23,740 --> 00:46:20,789

orientation and this is because it's

846

00:46:28,029 --> 00:46:23,750

oriented on the Great Pyramid of Giza

847

00:46:30,589 --> 00:46:28,039

now here's a little little fun little

848

00:46:33,890 --> 00:46:30,599

evidence that you can you can do

849

00:46:36,109 --> 00:46:33,900

yourself if you if you imagine imagine

850

00:46:40,819 --> 00:46:36,119

that looking down on the Great Pyramid

851
00:46:43,160 --> 00:46:40,829
it's it's made of this square and these

852
00:46:45,859 --> 00:46:43,170
LA and you can actually draw lines

853
00:46:49,940 --> 00:46:45,869
across the the apex from corner to

854
00:46:52,839 --> 00:46:49,950
corner okay now if you draw a circle

855
00:46:57,220 --> 00:46:52,849
around the base with all of all of the

856
00:47:01,730 --> 00:46:57,230
base points in the circle touching and

857
00:47:02,329 --> 00:47:01,740
then you circle each face of the Great

858
00:47:05,089 --> 00:47:02,339
Pyramid

859
00:47:09,410 --> 00:47:05,099
you make a flower of the Flower of Life

860
00:47:11,510 --> 00:47:09,420
symbol you start it right there so this

861
00:47:13,870 --> 00:47:11,520
is why I say we were

862
00:47:20,140 --> 00:47:13,880
using the Flower of Life symbology and

863
00:47:24,460 --> 00:47:20,150

come to find out when I tried later I

864

00:47:28,220 --> 00:47:24,470

overlaid a pattern of the Flower of Life

865

00:47:31,610 --> 00:47:28,230

over the Stonehenge blueprint and they

866

00:47:35,300 --> 00:47:31,620

match precisely so all of this great

867

00:47:37,550 --> 00:47:35,310

math that we get at Stonehenge they

868

00:47:42,140 --> 00:47:37,560

didn't have to know all day they had to

869

00:47:46,280 --> 00:47:42,150

know was a circle the Flower of Life

870

00:47:51,070 --> 00:47:46,290

symbol and it's basically a perfectly

871

00:47:56,210 --> 00:47:51,080

divided circle this is the same line

872

00:47:58,730 --> 00:47:56,220

that Sir Francis Bacon drew to the new

873

00:48:01,240 --> 00:47:58,740

colonies and he apparently had

874

00:48:05,570 --> 00:48:01,250

information from the early Spanish

875

00:48:10,070 --> 00:48:05,580

conquistadors of Mexico City looking a

876

00:48:13,600 --> 00:48:10,080

lot like Atlantis it was it was a canal

877

00:48:17,780 --> 00:48:13,610

city centrally it centrally dry

878

00:48:20,830 --> 00:48:17,790

surrounded by water and a lot of people

879

00:48:25,820 --> 00:48:20,840

aren't aware how closely it resembles

880

00:48:30,800 --> 00:48:25,830

atlanta's outside of outside of Mexico

881

00:48:33,190 --> 00:48:30,810

City its proper is Tiahuanaco that's

882

00:48:35,420 --> 00:48:33,200

where the Pyramid of the Sun is and

883

00:48:38,450 --> 00:48:35,430

funny thing about the Pyramid of the Sun

884

00:48:40,370 --> 00:48:38,460

it's not a north-facing pyramid people

885

00:48:42,110 --> 00:48:40,380

have been telling researchers have been

886

00:48:45,460 --> 00:48:42,120

telling people that it's a north-facing

887

00:48:50,840 --> 00:48:45,470

pyramid it is not it is a Solstice

888

00:48:53,600 --> 00:48:50,850

facing pyramid now where the where this

889

00:48:55,730 --> 00:48:53,610

is this is what happened when I started

890

00:49:00,820 --> 00:48:55,740

drawing lines from the Great Pyramid as

891

00:49:04,730 --> 00:49:00,830

I stir I drew one line and amazingly it

892

00:49:08,420 --> 00:49:04,740

the from the northwest corner across the

893

00:49:12,490 --> 00:49:08,430

apex to the southwest corner it matches

894

00:49:16,820 --> 00:49:12,500

exactly with the altar of Stonehenge and

895

00:49:20,450 --> 00:49:16,830

then it comes into the Americas and it

896

00:49:22,460 --> 00:49:20,460

crosses over Lake Michigan where there

897

00:49:23,920 --> 00:49:22,470

have been pyramids apparently found in

898

00:49:26,769 --> 00:49:23,930

the water

899

00:49:30,039 --> 00:49:26,779

and exactly over the mound structure

900

00:49:33,190 --> 00:49:30,049

that I spoke of in in Wisconsin the the

901
00:49:37,870 --> 00:49:33,200
pyramid the stepped pyramid of Fort

902
00:49:42,130 --> 00:49:37,880
Aslan and on in through the Americas it

903
00:49:45,400 --> 00:49:42,140
leads to Texas now this particular place

904
00:49:49,299 --> 00:49:45,410
is Marfa Texas and Marfa Texas you might

905
00:49:52,510 --> 00:49:49,309
know of as the place where phantom

906
00:49:57,539 --> 00:49:52,520
lights have been seen for about close to

907
00:50:01,180 --> 00:49:57,549
200 years now and although they one

908
00:50:04,269 --> 00:50:01,190
particular piece of research was done

909
00:50:07,630 --> 00:50:04,279
out there it's it's not enough to really

910
00:50:11,200 --> 00:50:07,640
call research they had some students

911
00:50:14,380 --> 00:50:11,210
from the archaeology department of the

912
00:50:18,010 --> 00:50:14,390
Texas University go out and sit at the

913
00:50:20,559 --> 00:50:18,020

Marfa viewing center and they concluded

914

00:50:23,019 --> 00:50:20,569

I think they a heading had concluded

915

00:50:27,069 --> 00:50:23,029

before they went out there that all the

916

00:50:30,039 --> 00:50:27,079

lights work our lights on roads well at

917

00:50:33,279 --> 00:50:30,049

this discounts all of the anecdotal

918

00:50:36,339 --> 00:50:33,289

evidence there was the original the

919

00:50:40,450 --> 00:50:36,349

original person who reported this was a

920

00:50:42,910 --> 00:50:40,460

cowboy named Robert Ellis in 1883 he

921

00:50:46,269 --> 00:50:42,920

chased these lights thinking thinking

922

00:50:48,490 --> 00:50:46,279

they were Apache campfires and of course

923

00:50:51,839 --> 00:50:48,500

didn't catch him and that's where the

924

00:50:56,559 --> 00:50:51,849

original story comes from but later

925

00:51:00,970 --> 00:50:56,569

during World War two they had an Air

926
00:51:02,890 --> 00:51:00,980
Base Air an Army Air Base which later

927
00:51:06,940 --> 00:51:02,900
became the viewing center the Marfa

928
00:51:10,299 --> 00:51:06,950
viewing center this particular this

929
00:51:14,529 --> 00:51:10,309
particular base had the function of

930
00:51:18,730 --> 00:51:14,539
training these pilots who did some night

931
00:51:19,210 --> 00:51:18,740
flights etc they were almost crashing to

932
00:51:21,250 --> 00:51:19,220
the ground

933
00:51:25,000 --> 00:51:21,260
because they were chasing these lights

934
00:51:27,089 --> 00:51:25,010
the the archaeology students just didn't

935
00:51:29,769 --> 00:51:27,099
even bother with that evidence at all

936
00:51:32,589 --> 00:51:29,779
this is from our government sources by

937
00:51:34,930 --> 00:51:32,599
the way so the lights are real they are

938
00:51:37,000 --> 00:51:34,940

phenomena that I believe there are an

939

00:51:40,390 --> 00:51:37,010

electrical phenomena

940

00:51:43,360 --> 00:51:40,400

but what happened when I started really

941

00:51:46,690 --> 00:51:43,370

looking at all these lines I had been

942

00:51:50,110 --> 00:51:46,700

following like everybody has heard of

943

00:51:53,380 --> 00:51:50,120

the line that that that connects Easter

944

00:51:57,790 --> 00:51:53,390

Island with Machu Picchu with the Great

945

00:52:02,460 --> 00:51:57,800

Pyramid well yeah that also connects to

946

00:52:06,280 --> 00:52:02,470

this what archaeologists have grudgingly

947

00:52:08,710 --> 00:52:06,290

accepted as a real geological artifice

948

00:52:11,980 --> 00:52:08,720

in other words an artificial geological

949

00:52:15,190 --> 00:52:11,990

anomaly in the middle of well I should

950

00:52:19,480 --> 00:52:15,200

say the west of the Sahara it's an eye

951
00:52:22,210 --> 00:52:19,490
that's oriented on this line and this

952
00:52:25,560 --> 00:52:22,220
line crosses exactly over the pupil and

953
00:52:28,150 --> 00:52:25,570
I say pupil of the eye because

954
00:52:31,510 --> 00:52:28,160
geologists had to grudgingly accept this

955
00:52:33,490 --> 00:52:31,520
that each of these circular formations

956
00:52:36,270 --> 00:52:33,500
are made of different soil that were

957
00:52:40,960 --> 00:52:36,280
artificially brought in and formed

958
00:52:43,810 --> 00:52:40,970
circularly to make this appearance when

959
00:52:47,110 --> 00:52:43,820
you look at it from altitude it looks

960
00:52:50,560 --> 00:52:47,120
like an eye anyway that connects with

961
00:52:54,780 --> 00:52:50,570
the west wall of the Great Pyramid of

962
00:52:58,660 --> 00:52:54,790
Giza it exits on the over the apex and

963
00:53:02,920 --> 00:52:58,670

slightly off of the east side they see

964

00:53:07,420 --> 00:53:02,930

with the Flower of Life symbology it

965

00:53:10,950 --> 00:53:07,430

doesn't really take East and West is not

966

00:53:14,560 --> 00:53:10,960

that important but the angles

967

00:53:18,460 --> 00:53:14,570

automatically follow solstice lines both

968

00:53:20,650 --> 00:53:18,470

winter and summer solstice lines on on

969

00:53:24,480 --> 00:53:20,660

the Great Pyramid any north-facing

970

00:53:26,800 --> 00:53:24,490

pyramid has automatic solstice lines and

971

00:53:30,100 --> 00:53:26,810

that's all due to this Flower of Life

972

00:53:33,130 --> 00:53:30,110

effect which apparently when all over

973

00:53:38,530 --> 00:53:33,140

the all over the earth this is what they

974

00:53:41,830 --> 00:53:38,540

use for for navigation it for the the

975

00:53:43,030 --> 00:53:41,840

purposes of the book I know that you

976
00:53:45,940 --> 00:53:43,040
know you said that there are so many

977
00:53:47,770 --> 00:53:45,950
images and that if you packed all those

978
00:53:49,120 --> 00:53:47,780
images into a book then you know you

979
00:53:51,000 --> 00:53:49,130
could never get it published because it

980
00:53:53,070 --> 00:53:51,010
would just be page after page

981
00:53:54,470 --> 00:53:53,080
of images I had this I have I put on

982
00:53:57,750 --> 00:53:54,480
that out the hard way

983
00:53:59,640 --> 00:53:57,760
yeah oh someone said that to you yeah

984
00:54:01,859 --> 00:53:59,650
well actually yes the publisher said

985
00:54:05,520 --> 00:54:01,869
you're gonna have to reduce a number of

986
00:54:08,609 --> 00:54:05,530
images by about all of them so that's

987
00:54:14,310 --> 00:54:08,619
why this upcoming book doesn't have a

988
00:54:16,560 --> 00:54:14,320

point I really I really wanted people to

989

00:54:19,109 --> 00:54:16,570

be able to follow this so what I'm doing

990

00:54:21,750 --> 00:54:19,119

is I'm now transferring all of my

991

00:54:25,020 --> 00:54:21,760

research onto my facebook my website and

992

00:54:28,740 --> 00:54:25,030

of course the YouTube I've had going for

993

00:54:31,740 --> 00:54:28,750

some time now but all of my research is

994

00:54:34,290 --> 00:54:31,750

on there the flight pictures of the

995

00:54:37,050 --> 00:54:34,300

Marfa plateau if you're interested is a

996

00:54:40,560 --> 00:54:37,060

seven part series called Texas electric

997

00:54:42,740 --> 00:54:40,570

Nazca and that details all of the

998

00:54:47,340 --> 00:54:42,750

validation that I did personally on my

999

00:54:50,880 --> 00:54:47,350

flyover of the Marfa area but I wanted

1000

00:54:53,820 --> 00:54:50,890

to explain the electric part when I was

1001
00:54:55,140 --> 00:54:53,830
traveling all over the world using these

1002
00:54:58,380 --> 00:54:55,150
solstice lines

1003
00:55:01,980 --> 00:54:58,390
I started looking very closely at the

1004
00:55:05,790 --> 00:55:01,990
land under which these lines were

1005
00:55:08,040 --> 00:55:05,800
following and they especially in the

1006
00:55:12,290 --> 00:55:08,050
uninhabited areas there were these large

1007
00:55:16,530 --> 00:55:12,300
areas of land that were outlined

1008
00:55:19,800 --> 00:55:16,540
apparently purposely that looked like

1009
00:55:24,420 --> 00:55:19,810
Mayan construction and other researchers

1010
00:55:27,090 --> 00:55:24,430
call this illegal construction so when I

1011
00:55:29,400 --> 00:55:27,100
was this is a validation when I was

1012
00:55:31,200 --> 00:55:29,410
crossing these solstice lines whether or

1013
00:55:34,050 --> 00:55:31,210

not they were they were local navigation

1014

00:55:37,380 --> 00:55:34,060

or a worldwide navigation was whether

1015

00:55:40,710 --> 00:55:37,390

they crossed over these areas and I got

1016

00:55:43,710 --> 00:55:40,720

into this one area of the Gobi Desert in

1017

00:55:46,800 --> 00:55:43,720

China where there's literally nothing

1018

00:55:50,040 --> 00:55:46,810

there's nothing out there and of course

1019

00:55:54,210 --> 00:55:50,050

I found the areas of land that that were

1020

00:55:57,420 --> 00:55:54,220

outlined but there was an anomaly and I

1021

00:56:00,560 --> 00:55:57,430

zoomed in on it and it's this this water

1022

00:56:04,380 --> 00:56:00,570

plant that the Chinese have set up and

1023

00:56:11,450 --> 00:56:04,390

this water plant a zoomed in on

1024

00:56:15,569 --> 00:56:11,460

is hooked to a water plant that both was

1025

00:56:18,450 --> 00:56:15,579

pushing water into the water plant but

1026

00:56:21,720 --> 00:56:18,460

it was also pushing water into these

1027

00:56:25,349 --> 00:56:21,730

canals they had dug up alongside the

1028

00:56:28,140 --> 00:56:25,359

outline areas that I that I spoke of

1029

00:56:30,000 --> 00:56:28,150

these plague lane outline areas they

1030

00:56:34,460 --> 00:56:30,010

went for hundreds of miles

1031

00:56:37,740 --> 00:56:34,470

all of them dug up beside but they had

1032

00:56:42,319 --> 00:56:37,750

upon closer inspection they were pumping

1033

00:56:46,109 --> 00:56:42,329

water up these canals and at one point

1034

00:56:51,559 --> 00:56:46,119

they start powering up they they become

1035

00:56:54,509 --> 00:56:51,569

visibly a light and where the water ends

1036

00:56:56,069 --> 00:56:54,519

the electricity still continues up these

1037

00:56:58,890 --> 00:56:56,079

lines well

1038

00:57:02,700 --> 00:56:58,900

these lines power or power of what Kahn

1039

00:57:06,559 --> 00:57:02,710

was charging conduction this is

1040

00:57:10,099 --> 00:57:06,569

apparently a geological height

1041

00:57:14,970 --> 00:57:10,109

hydroelectric plant this is an ancient

1042

00:57:17,579 --> 00:57:14,980

form of creation of electricity and if

1043

00:57:18,990 --> 00:57:17,589

you think then this didn't have it like

1044

00:57:20,309 --> 00:57:19,000

oh sure

1045

00:57:21,539 --> 00:57:20,319

then I hate to cut you off we're gonna

1046

00:57:24,150 --> 00:57:21,549

go on a break we'll pick it up right

1047

00:57:24,660 --> 00:57:24,160

there with lines electricity and ancient

1048

00:57:26,300 --> 00:57:24,670

history

1049

00:57:32,910 --> 00:57:26,310

paranormal now we'll be right back

1050

00:57:36,850 --> 00:57:34,780

and that is at paranormal now and

1087

00:59:19,660 --> 00:59:16,790

getting back to the now dan ho Quist dan

1088

00:59:22,210 --> 00:59:19,670

we were talking about these lines in

1089

00:59:25,150 --> 00:59:22,220

China and the electricity can you just

1090

00:59:27,340 --> 00:59:25,160

pick it up and take us away yes yeah

1091

00:59:32,050 --> 00:59:27,350

well we're we're still in the Gobi

1092

00:59:35,950 --> 00:59:32,060

Desert mind you these lines are shown to

1093

00:59:39,130 --> 00:59:35,960

actually actually continue this this

1094

00:59:40,750 --> 00:59:39,140

electrical generation of power through

1095

00:59:41,770 --> 00:59:40,760

these canals they they've apparently

1096

00:59:44,440 --> 00:59:41,780

connected Lie

1097

00:59:47,580 --> 00:59:44,450

it's on the lines themselves the outline

1098

00:59:51,610 --> 00:59:47,590

themselves of this that I told you about

1099

00:59:53,320 --> 00:59:51,620

that outline the areas polygamy and just

1100

00:59:57,160 --> 00:59:53,330

like just like Mayan construction looks

1101
01:00:00,400 --> 00:59:57,170
it's very very strange thing to see from

1102
01:00:03,940 --> 01:00:00,410
from satellite imagery but these lines

1103
01:00:06,520 --> 01:00:03,950
these canals although not containing

1104
01:00:09,940 --> 01:00:06,530
water are still generating electricity

1105
01:00:11,470 --> 01:00:09,950
up the line and that can be seen with

1106
01:00:14,680 --> 01:00:11,480
these little lights that they've set up

1107
01:00:17,590 --> 01:00:14,690
along along the outlines but when I

1108
01:00:21,730 --> 01:00:17,600
pulled back when I zoomed out I noticed

1109
01:00:25,440 --> 01:00:21,740
that the land underneath was actually

1110
01:00:28,330 --> 01:00:25,450
being lit up in these in these stream

1111
01:00:30,850 --> 01:00:28,340
fashion in other words it's not not a

1112
01:00:33,160 --> 01:00:30,860
real something you could say was a light

1113
01:00:36,010 --> 01:00:33,170

bulb it looked more like like water

1114

01:00:39,100 --> 01:00:36,020

draining so I have to associate that

1115

01:00:41,580 --> 01:00:39,110

with what they were doing generating

1116

01:00:44,170 --> 01:00:41,590

this electric electricity of these

1117

01:00:48,970 --> 01:00:44,180

geological formations which I believe

1118

01:00:52,630 --> 01:00:48,980

are quartz and this is not the only time

1119

01:00:57,810 --> 01:00:52,640

that we have proof of ancient electrical

1120

01:01:03,310 --> 01:00:57,820

generation in the 70s there's a Hindu

1121

01:01:06,100 --> 01:01:03,320

chemist who happened to be reading a one

1122

01:01:09,940 --> 01:01:06,110

of the newly discovered Vedas which

1123

01:01:13,660 --> 01:01:09,950

described a king levitating his throne

1124

01:01:16,900 --> 01:01:13,670

and the more he read the more he

1125

01:01:21,250 --> 01:01:16,910

realized he was reading a chemical

1126

01:01:23,620 --> 01:01:21,260

battery the chemical battery was so

1127

01:01:25,990 --> 01:01:23,630

impressive to him that he had the Veda

1128

01:01:29,830 --> 01:01:26,000

actually read into the chemical

1129

01:01:31,570 --> 01:01:29,840

Institute there their minutes which is

1130

01:01:34,900 --> 01:01:31,580

just amazing so it sits there in

1131

01:01:38,140 --> 01:01:34,910

permanent record now but if you think of

1132

01:01:40,240 --> 01:01:38,150

the Baghdad batteries this is more

1133

01:01:43,390 --> 01:01:40,250

what's happening in the Gobi Desert to

1134

01:01:47,560 --> 01:01:43,400

me is that they were actually using an

1135

01:01:52,300 --> 01:01:47,570

acidic water and connecting it you know

1136

01:01:55,060 --> 01:01:52,310

by crystal apparently and to research

1137

01:01:55,510 --> 01:01:55,070

this I ran right into a guy named John

1138

01:02:00,040 --> 01:01:55,520

hug

1139

01:02:04,570 --> 01:02:00,050

and he's a bit of a an eccentric

1140

01:02:07,000 --> 01:02:04,580

inventor from Canada who is better known

1141

01:02:09,820 --> 01:02:07,010

for the Hutchison effect which he's

1142

01:02:14,850 --> 01:02:09,830

levitated bowling balls

1143

01:02:17,440 --> 01:02:14,860

he's a caused metal to catch on fire

1144

01:02:21,310 --> 01:02:17,450

strange things are actually on YouTube

1145

01:02:24,190 --> 01:02:21,320

right yeah absolutely but he's he

1146

01:02:27,700 --> 01:02:24,200

doesn't keep records real well the work

1147

01:02:31,450 --> 01:02:27,710

that he did with crystal shows that if

1148

01:02:36,070 --> 01:02:31,460

you attach an electrical device an

1149

01:02:39,609 --> 01:02:36,080

electrical output to quartz crystal it

1150

01:02:42,730 --> 01:02:39,619

lights up like a light bulb and this is

1151

01:02:49,470 --> 01:02:42,740

very important because there's no sign

1152

01:02:53,050 --> 01:02:49,480

of any kind of of burning torches or

1153

01:02:59,560 --> 01:02:53,060

candles in the in the pyramid Giza area

1154

01:03:03,120 --> 01:02:59,570

and that shows another connection which

1155

01:03:08,740 --> 01:03:03,130

means that that somehow that they were

1156

01:03:11,440 --> 01:03:08,750

lit up using quartz and if and if you

1157

01:03:14,140 --> 01:03:11,450

get into the actual research on Giza you

1158

01:03:17,830 --> 01:03:14,150

find out that it it has a high quartz

1159

01:03:20,320 --> 01:03:17,840

content in all of the rocks and all of

1160

01:03:23,140 --> 01:03:20,330

the rocks are somehow different like the

1161

01:03:25,720 --> 01:03:23,150

use of roads granted the obelisks

1162

01:03:28,480 --> 01:03:25,730

themselves are all different material

1163

01:03:31,270 --> 01:03:28,490

they're not the same and I believe that

1164

01:03:34,330 --> 01:03:31,280

they were they were actually something

1165

01:03:38,200 --> 01:03:34,340

like a street light they were supposed

1166

01:03:42,490 --> 01:03:38,210

to according to according to the

1167

01:03:45,060 --> 01:03:42,500

Egyptian archaeology they they say that

1168

01:03:49,359 --> 01:03:45,070

the obelisks contained the power of raw

1169

01:03:51,910 --> 01:03:49,369

this is what the Templars grasped upon

1170

01:03:54,970 --> 01:03:51,920

and they actually took these obelisks

1171

01:04:01,349 --> 01:03:54,980

from around Egypt and started setting

1172

01:04:08,730 --> 01:04:06,070

into well France and England itself

1173

01:04:14,340 --> 01:04:08,740

their oval is sitting in

1174

01:04:17,160 --> 01:04:14,350

London and Paris France and this is the

1175

01:04:20,100 --> 01:04:17,170

connection of the mason the Masonic

1176

01:04:24,530 --> 01:04:20,110

Order the line that continues from

1177

01:04:27,420 --> 01:04:24,540

Stonehenge and is documented as as the

1178

01:04:30,260 --> 01:04:27,430

the line that you can see from space

1179

01:04:34,440 --> 01:04:30,270

that is a straight line from cities of

1180

01:04:37,950 --> 01:04:34,450

Atlanta Washington DC Boston and New

1181

01:04:40,890 --> 01:04:37,960

York these are New York has one of these

1182

01:04:45,450 --> 01:04:40,900

obelisks in Central Park by the way but

1183

01:04:49,590 --> 01:04:45,460

this line passes not over the obelisk

1184

01:04:51,660 --> 01:04:49,600

but through the center of them and other

1185

01:04:54,870 --> 01:04:51,670

in other words like where London is

1186

01:04:56,400 --> 01:04:54,880

located and Paris are located the line

1187

01:04:59,310 --> 01:04:56,410

passes through the center

1188

01:05:02,400 --> 01:04:59,320

the Templars apparently wanted to make

1189

01:05:04,830 --> 01:05:02,410

their own connection to new Jerusalem's

1190

01:05:08,370 --> 01:05:04,840

that they tried to build in in France

1191

01:05:13,950 --> 01:05:08,380

and again in London and were successful

1192

01:05:17,580 --> 01:05:13,960

at Washington DC I took a layer a

1193

01:05:20,580 --> 01:05:17,590

stonehenge layer from the Capitol and

1194

01:05:24,359 --> 01:05:20,590

the reason I did this is because it's

1195

01:05:27,359 --> 01:05:24,369

actually the belt of Orion when you look

1196

01:05:32,700 --> 01:05:27,369

at the Capitol the the White House

1197

01:05:35,400 --> 01:05:32,710

itself out to to the Washington Monument

1198

01:05:39,599 --> 01:05:35,410

or the the man-made obelisk at

1199

01:05:42,810 --> 01:05:39,609

Washington DC the center and the end the

1200

01:05:45,810 --> 01:05:42,820

the the line actually deviates there are

1201

01:05:50,370 --> 01:05:45,820

three circles and it deviates towards

1202

01:05:54,240 --> 01:05:50,380

the what Orion's belt so I took this

1203

01:05:57,150 --> 01:05:54,250

layer from the center of that setup and

1204

01:06:00,690 --> 01:05:57,160

it meets exactly with the Dome of the

1205

01:06:03,870 --> 01:06:00,700

rock in Jerusalem that is the connection

1206

01:06:08,099 --> 01:06:03,880

they apparently were trying to do all

1207

01:06:11,640 --> 01:06:08,109

that time from the time that that the

1208

01:06:15,720 --> 01:06:11,650

Templars opened up Jerusalem and found

1209

01:06:18,840 --> 01:06:15,730

this knowledge and apparently they

1210

01:06:21,540 --> 01:06:18,850

thought that by putting the obelisk they

1211

01:06:22,410 --> 01:06:21,550

were bringing the power of raw but they

1212

01:06:24,630 --> 01:06:22,420

didn't realize

1213

01:06:27,210 --> 01:06:24,640

the power was actually connected

1214

01:06:30,530 --> 01:06:27,220

underneath the obelisk the Ovilus was

1215

01:06:33,900 --> 01:06:30,540

was a basically a streetlight and

1216

01:06:36,539 --> 01:06:33,910

possibly it vibrated her hummed I I

1217

01:06:39,710 --> 01:06:36,549

don't know I have to I have to imagine

1218

01:06:44,039 --> 01:06:39,720

that a clean Giza would be just

1219

01:06:48,839 --> 01:06:44,049

multi-coloured and humming especially

1220

01:06:51,059 --> 01:06:48,849

with activity but continuing into Marfa

1221

01:06:54,780 --> 01:06:51,069

Texas itself

1222

01:06:58,400 --> 01:06:54,790

I found these polygonal areas were

1223

01:07:01,829 --> 01:06:58,410

outlined and I decided I would highlight

1224

01:07:07,349 --> 01:07:01,839

them to make it easier to see it led to

1225

01:07:11,220 --> 01:07:07,359

an area where these these areas the land

1226

01:07:15,000 --> 01:07:11,230

areas connected that was set up to look

1227

01:07:18,900 --> 01:07:15,010

like a cross and not just any cross but

1228

01:07:21,450 --> 01:07:18,910

a Gaelic cross and that was used for

1229

01:07:24,289 --> 01:07:21,460

navigation purposes too if you remember

1230

01:07:27,630 --> 01:07:24,299

that sent that circular Center of the

1231

01:07:30,620 --> 01:07:27,640

Gaelic cross was actually moveable and

1232

01:07:33,960 --> 01:07:30,630

it represented the constellations and

1233

01:07:40,220 --> 01:07:33,970

when they pointed the cross itself

1234

01:07:43,020 --> 01:07:40,230

towards the the the North Star at night

1235

01:07:46,109 --> 01:07:43,030

they could match the constellations and

1236

01:07:49,289 --> 01:07:46,119

know exactly where they were this is a

1237

01:07:52,380 --> 01:07:49,299

similar device as to what the the

1238

01:07:55,319 --> 01:07:52,390

Muslims were using to cross through the

1239

01:07:58,230 --> 01:07:55,329

the vast oceans of sand in the Sahara

1240

01:08:02,819 --> 01:07:58,240

they actually owned that area as the

1241

01:08:07,609 --> 01:08:02,829

Ottoman Empire by using a simple tool

1242

01:08:11,039 --> 01:08:07,619

that's like a fan with nine strings and

1243

01:08:13,710 --> 01:08:11,049

they would actually not these these

1244

01:08:16,829 --> 01:08:13,720

strings where the constellations were at

1245

01:08:19,650 --> 01:08:16,839

night and then they would set it with

1246

01:08:23,070 --> 01:08:19,660

this with the Sun in the morning with

1247

01:08:27,059 --> 01:08:23,080

this fan spread that was a navigational

1248

01:08:30,329 --> 01:08:27,069

tool called the Kemal I believe and that

1249

01:08:35,740 --> 01:08:30,339

was in use with all the way from ancient

1250

01:08:40,900 --> 01:08:35,750

Egypt it it's it the solar religions

1251

01:08:45,640 --> 01:08:40,910

are the first religions in the world but

1252

01:08:48,160 --> 01:08:45,650

getting back to the electricity now what

1253

01:08:51,430 --> 01:08:48,170

I found was that here's this

1254

01:08:54,970 --> 01:08:51,440

cross-section but it's actually made

1255

01:08:57,809 --> 01:08:54,980

like a connector and then there was a

1256

01:09:01,240 --> 01:08:57,819

line from that area what with these

1257

01:09:03,550 --> 01:09:01,250

demerit errors huh then we were you

1258

01:09:06,130 --> 01:09:03,560

taking us back to when this

1259

01:09:10,030 --> 01:09:06,140

cross-section is this is in Marfa Texas

1260

01:09:15,870 --> 01:09:10,040

on the Marfa Plateau now Marfa Plateau I

1261

01:09:19,420 --> 01:09:15,880

believe is noted for its lights this is

1262

01:09:22,840 --> 01:09:19,430

an electrical phenomena out there it was

1263

01:09:26,740 --> 01:09:22,850

intended to be lit up just like the

1264

01:09:28,599 --> 01:09:26,750

lines were in the Gobi Desert and you

1265

01:09:31,329 --> 01:09:28,609

know to verify this I actually went out

1266

01:09:33,390 --> 01:09:31,339

to Nazca and looked around on the

1267

01:09:36,400 --> 01:09:33,400

satellite imagery which is really ops

1268

01:09:38,289 --> 01:09:36,410

obfuscated but there are sections where

1269

01:09:41,890 --> 01:09:38,299

apparently these lines are still

1270

01:09:44,110 --> 01:09:41,900

functioning that are actually exhibiting

1271

01:09:47,140 --> 01:09:44,120

the same kind of electrical output as

1272

01:09:49,539 --> 01:09:47,150

the lines and go be so I believe this is

1273

01:09:53,079 --> 01:09:49,549

all connected that Nazca itself was lit

1274

01:09:58,300 --> 01:09:53,089

up from underneath Nazca is famous for

1275

01:10:02,200 --> 01:09:58,310

its quartz it has a quartz cap and again

1276

01:10:04,720 --> 01:10:02,210

if you have an acidic aquifer and the

1277

01:10:08,530 --> 01:10:04,730

connective possibility is of quartz

1278

01:10:12,640 --> 01:10:08,540

itself which John Hutchison has shown in

1279

01:10:15,340 --> 01:10:12,650

his in his work it really simplifies

1280

01:10:19,870 --> 01:10:15,350

things as a navigational tool for the

1281

01:10:23,590 --> 01:10:19,880

Anunnaki they came to a dark world and

1282

01:10:27,240 --> 01:10:23,600

the first thing they did was they set up

1283

01:10:31,210 --> 01:10:27,250

these areas that could continue

1284

01:10:34,360 --> 01:10:31,220

producing electrical lighting without

1285

01:10:36,900 --> 01:10:34,370

their continuous monitoring in other

1286

01:10:41,830 --> 01:10:36,910

words like a closed-loop geo

1287

01:10:45,610 --> 01:10:41,840

hydroelectric system where the acidic

1288

01:10:48,400 --> 01:10:45,620

water would actually power the

1289

01:10:49,390 --> 01:10:48,410

electrical phenomena and that's a cold

1290

01:10:55,180 --> 01:10:49,400

plasma

1291

01:10:59,350 --> 01:10:55,190

this would be invisible during the day

1292

01:11:07,169 --> 01:10:59,360

but still continuing and and and this

1293

01:11:10,419 --> 01:11:07,179

also happens in in any any kind of

1294

01:11:12,700 --> 01:11:10,429

Baghdad battery the Baghdad battery is

1295

01:11:17,860 --> 01:11:12,710

all you really need is anything acidic

1296

01:11:20,439 --> 01:11:17,870

and it'll give you a 1.5 volt that's the

1297

01:11:23,860 --> 01:11:20,449

same as a little square battery no

1298

01:11:25,840 --> 01:11:23,870

that's it it just amazes me that people

1299

01:11:30,130 --> 01:11:25,850

think we didn't have we didn't have this

1300

01:11:32,530 --> 01:11:30,140

in ancient I it's it is funny to think

1301

01:11:36,610 --> 01:11:32,540

that because you know just going through

1302

01:11:40,300 --> 01:11:36,620

grade school you know we we could get

1303

01:11:42,610 --> 01:11:40,310

electricity out of a potato exactly so I

1304

01:11:47,399 --> 01:11:42,620

mean electricity I mean photons

1305

01:11:51,880 --> 01:11:47,409

electricity energy in as many forms is

1306

01:11:55,540 --> 01:11:51,890

in everything and some of those natural

1307

01:11:57,399 --> 01:11:55,550

things are it's easier to tap into that

1308

01:11:59,709 --> 01:11:57,409

energy and and if we could do that and I

1309

01:12:02,890 --> 01:11:59,719

you know with the most basic of

1310

01:12:08,260 --> 01:12:02,900

instruments yeah I I can accept that

1311

01:12:10,930 --> 01:12:08,270

you know this is a free energy this is

1312

01:12:12,970 --> 01:12:10,940

actually a free energy well that's what

1313

01:12:14,649 --> 01:12:12,980

Tesla was chasing and that was only a

1314

01:12:19,120 --> 01:12:14,659

hundred years ago and he was a genius

1315

01:12:21,280 --> 01:12:19,130

first time and I guess of course it

1316

01:12:23,080 --> 01:12:21,290

wasn't for JP Morgan pulling out his

1317

01:12:25,990 --> 01:12:23,090

funding you know we might actually live

1318

01:12:27,790 --> 01:12:26,000

in a different world exactly he was he

1319

01:12:30,310 --> 01:12:27,800

was doing exactly that he was trying to

1320

01:12:32,290 --> 01:12:30,320

tap into that the natural energy that

1321

01:12:35,200 --> 01:12:32,300

just just is and and scientists don't

1322

01:12:38,260 --> 01:12:35,210

deny that it's there because we do it in

1323

01:12:39,910 --> 01:12:38,270

science class I think they just have a

1324

01:12:43,410 --> 01:12:39,920

hard time accepting that it was done in

1325

01:12:48,160 --> 01:12:43,420

a larger scale you know with pre

1326

01:12:52,510 --> 01:12:48,170

prehistory men kind and you have to

1327

01:12:55,390 --> 01:12:52,520

wonder if the ancient alchemists the the

1328

01:12:59,470 --> 01:12:55,400

hermetics that that were using these

1329

01:13:03,189 --> 01:12:59,480

these ancient Egyptian systems actually

1330

01:13:06,629 --> 01:13:03,199

if they actually have electricity

1331

01:13:10,060 --> 01:13:06,639

we might even be a different world now -

1332

01:13:13,569 --> 01:13:10,070

this is the it boggles the mind

1333

01:13:17,259 --> 01:13:13,579

but this science was not ours this

1334

01:13:20,259 --> 01:13:17,269

science belongs to someone else who knew

1335

01:13:24,089 --> 01:13:20,269

how to use it and the crystal the the

1336

01:13:28,209 --> 01:13:24,099

quartz itself being a conductive

1337

01:13:32,679 --> 01:13:28,219

capacitor even even now they're using it

1338

01:13:38,589 --> 01:13:32,689

for a memory storage because it has

1339

01:13:41,350 --> 01:13:38,599

unlimited memory storage but going back

1340

01:13:44,799 --> 01:13:41,360

to Plato he thought the whole world was

1341

01:13:49,209 --> 01:13:44,809

a living crystal and you could you could

1342

01:13:51,759 --> 01:13:49,219

actually speak with the world's soul at

1343

01:13:56,439 --> 01:13:51,769

some of these nodal points like

1344

01:13:59,649 --> 01:13:56,449

Stonehenge Machu Picchu gives a pyramid

1345

01:14:03,100 --> 01:13:59,659

itself and this you know of course the

1346

01:14:06,609 --> 01:14:03,110

Emerald tablets of thoth say the same

1347

01:14:09,759 --> 01:14:06,619

thing exactly the same thing yeah it's

1348

01:14:12,250 --> 01:14:09,769

it's really fascinating to imagine I

1349

01:14:15,520 --> 01:14:12,260

mean Jules Verne you know journey to the

1350

01:14:17,020 --> 01:14:15,530

Sun of the earth crystals and and they

1351

01:14:19,709 --> 01:14:17,030

were generating electricity and this is

1352

01:14:24,250 --> 01:14:19,719

how they had light in this you know

1353

01:14:25,689 --> 01:14:24,260

subterranean atmosphere and you know I

1354

01:14:28,810 --> 01:14:25,699

do want to ask you that I meant to ask

1355

01:14:32,290 --> 01:14:28,820

you earlier what is the the recent

1356

01:14:35,080 --> 01:14:32,300

evidence that suggests that the Center

1357

01:14:41,350 --> 01:14:35,090

of the Earth may not really be molten

1358

01:14:45,219 --> 01:14:41,360

iron this was it very recently done done

1359

01:14:47,859 --> 01:14:45,229

by physicists who even though even

1360

01:14:53,589 --> 01:14:47,869

though we know that that gravity and

1361

01:14:56,529 --> 01:14:53,599

pressure actually create heat enormous

1362

01:15:00,040 --> 01:14:56,539

pressure enormous pressure but it also

1363

01:15:04,389 --> 01:15:00,050

it also they're they it does funny

1364

01:15:06,580 --> 01:15:04,399

things it makes rock plasticine and it

1365

01:15:10,750 --> 01:15:06,590

and if you've seen the Mayan walls you

1366

01:15:14,560 --> 01:15:10,760

see these these puckered areas this was

1367

01:15:17,050 --> 01:15:14,570

probably done by gravity and pressure to

1368

01:15:21,100 --> 01:15:17,060

actually actually mold these things

1369

01:15:24,760 --> 01:15:21,110

make him make him plasticine this this

1370

01:15:27,940 --> 01:15:24,770

was this was a evidence in a Nicola deep

1371

01:15:33,700 --> 01:15:27,950

borehole that was done from the 70s to

1372

01:15:37,600 --> 01:15:33,710

the 90s in Russia they found a few very

1373

01:15:40,930 --> 01:15:37,610

unusual things like oil is not fossil

1374

01:15:44,800 --> 01:15:40,940

fuel it's not connected no way it never

1375

01:15:47,730 --> 01:15:44,810

has been it's found at about over twice

1376

01:15:50,500 --> 01:15:47,740

the level of the oldest fossil and

1377

01:15:52,690 --> 01:15:50,510

that's another thing about fossils - the

1378

01:15:55,330 --> 01:15:52,700

oldest fossil they found in there was

1379

01:15:58,030 --> 01:15:55,340

plankton that almost looks exactly the

1380

01:16:02,190 --> 01:15:58,040

same as it does now and according to

1381

01:16:07,240 --> 01:16:02,200

Darwin we should be talking to it by now

1382

01:16:09,520 --> 01:16:07,250

it's it it did not evolve just as we

1383

01:16:14,140 --> 01:16:09,530

have not evolved for two hundred

1384

01:16:17,260 --> 01:16:14,150

thousand years no matter what notables

1385

01:16:21,600 --> 01:16:17,270

like David Wilcock or Graham Hancock

1386

01:16:25,470 --> 01:16:21,610

want to imply there has been no notable

1387

01:16:27,910 --> 01:16:25,480

improvement of the human species and

1388

01:16:30,610 --> 01:16:27,920

really if you look at if you look at the

1389

01:16:34,600 --> 01:16:30,620

evolution of the world well things don't

1390

01:16:38,350 --> 01:16:34,610

evolve they actually get smaller if if

1391

01:16:41,200 --> 01:16:38,360

the dinosaurs are birds now it you know

1392

01:16:43,300 --> 01:16:41,210

if they it just gets smaller but the

1393

01:16:47,980 --> 01:16:43,310

great creatures still exist under

1394

01:16:51,250 --> 01:16:47,990

pressure in the oceans coelacanths huge

1395

01:16:54,250 --> 01:16:51,260

whales great crocodiles are still

1396

01:16:58,300 --> 01:16:54,260

roaming the CDs and who knows what else

1397

01:17:00,520 --> 01:16:58,310

because we can't get down there this I

1398

01:17:04,270 --> 01:17:00,530

think that's a good point I mean was

1399

01:17:08,530 --> 01:17:04,280

gravity you know was stronger and and

1400

01:17:09,850 --> 01:17:08,540

that's what made things bigger so it

1401
01:17:14,770 --> 01:17:09,860
would make sense that we would would

1402
01:17:16,360 --> 01:17:14,780
shrink as gravity lessons well it it

1403
01:17:19,330 --> 01:17:16,370
actually it actually comes to the

1404
01:17:22,750 --> 01:17:19,340
Sumerian chronicles itself it tells of

1405
01:17:25,420 --> 01:17:22,760
the Anunnaki becoming adapted to this

1406
01:17:27,150 --> 01:17:25,430
gravity and not being able to return to

1407
01:17:30,669 --> 01:17:27,160
Nibiru Nibiru

1408
01:17:34,029 --> 01:17:30,679
according to zecharia sitchin is

1409
01:17:37,209 --> 01:17:34,039
to five times the mass of Earth

1410
01:17:40,739 --> 01:17:37,219
in other words bigger any people coming

1411
01:17:44,109 --> 01:17:40,749
from there would be incredibly strong

1412
01:17:46,689 --> 01:17:44,119
they would have eyes probably developed

1413
01:17:48,699 --> 01:17:46,699

for subterranean because apparently they

1414

01:17:51,339 --> 01:17:48,709

had radiation problems with the

1415

01:17:53,859 --> 01:17:51,349

atmosphere of Nibiru which is why they

1416

01:17:56,890 --> 01:17:53,869

came here for the gold and and these

1417

01:18:00,219 --> 01:17:56,900

paths especially from the Great Pyramid

1418

01:18:03,819 --> 01:18:00,229

at solstice paths from the megaliths

1419

01:18:06,520 --> 01:18:03,829

that connect one to the other this this

1420

01:18:08,729 --> 01:18:06,530

is precise by the way all the megaliths

1421

01:18:12,129 --> 01:18:08,739

are connected by a solstice lines

1422

01:18:14,529 --> 01:18:12,139

whether it be winter or summer solstice

1423

01:18:16,989 --> 01:18:14,539

they're interchangeable because at some

1424

01:18:19,779 --> 01:18:16,999

point over the earth they change into

1425

01:18:23,350 --> 01:18:19,789

their opposite in other words a winter's

1426

01:18:26,469 --> 01:18:23,360

line becomes a summer line so they're

1427

01:18:29,020 --> 01:18:26,479

equally as important but they come to

1428

01:18:32,439 --> 01:18:29,030

points like these nodes that Plato

1429

01:18:34,379 --> 01:18:32,449

talked about but it looks more like like

1430

01:18:42,239 --> 01:18:34,389

the Union Jack flag of the British

1431

01:18:46,209 --> 01:18:42,249

that's the vertex it it's amazingly

1432

01:18:51,040 --> 01:18:46,219

connected everything in this earth seems

1433

01:18:55,649 --> 01:18:51,050

to be manufactured so natural sciences

1434

01:18:58,419 --> 01:18:55,659

of course are starting with incorrect

1435

01:19:01,810 --> 01:18:58,429

data so they're going to be getting

1436

01:19:04,719 --> 01:19:01,820

wrong results you know and which is why

1437

01:19:07,479 --> 01:19:04,729

we have dating problems with all the

1438

01:19:09,370 --> 01:19:07,489

dating systems sure but as far as

1439

01:19:10,810 --> 01:19:09,380

physics go I mean the math is pretty

1440

01:19:14,439 --> 01:19:10,820

good there

1441

01:19:17,859 --> 01:19:14,449

and I mean it is all connected ISM to

1442

01:19:20,949 --> 01:19:17,869

some degree right we use but apparently

1443

01:19:25,290 --> 01:19:20,959

physics measure time apparently see see

1444

01:19:28,959 --> 01:19:25,300

iron wouldn't would not it would not

1445

01:19:31,660 --> 01:19:28,969

maintain a solid form enough it would

1446

01:19:34,629 --> 01:19:31,670

become gaseous apparently at the heats

1447

01:19:37,439 --> 01:19:34,639

of the center of the earth so now

1448

01:19:42,819 --> 01:19:37,449

physicists are actually saying that well

1449

01:19:44,590 --> 01:19:42,829

it's not a molten core of metal that the

1450

01:19:47,020 --> 01:19:44,600

earth is it's actually Chris

1451

01:19:52,510 --> 01:19:47,030

stolen and if you'll notice you know

1452

01:19:57,250 --> 01:19:52,520

quartz is the most abundant product on

1453

01:20:02,710 --> 01:19:57,260

the earth this earth is or was

1454

01:20:06,910 --> 01:20:02,720

and a very living thing or electric if

1455

01:20:11,080 --> 01:20:06,920

you will going back going back to Texas

1456

01:20:13,330 --> 01:20:11,090

though this I when I told you about the

1457

01:20:14,290 --> 01:20:13,340

the the line that I drew from the Grand

1458

01:20:17,590 --> 01:20:14,300

Canyon area

1459

01:20:21,360 --> 01:20:17,600

well the Grand Canyon I used as an as

1460

01:20:24,930 --> 01:20:21,370

the altar of Stonehenge on the layer of

1461

01:20:28,690 --> 01:20:24,940

Stonehenge and the winter solstice line

1462

01:20:31,420 --> 01:20:28,700

also meets at Marfa Texas so we have not

1463

01:20:34,690 --> 01:20:31,430

only one validation from the Great

1464

01:20:38,290 --> 01:20:34,700

Pyramid but we have a second validation

1465

01:20:40,180 --> 01:20:38,300

from the Grand Canyon itself and I

1466

01:20:42,700 --> 01:20:40,190

thought I'd just throw a couple of

1467

01:20:45,580 --> 01:20:42,710

things in there do you know about Adams

1468

01:20:48,640 --> 01:20:45,590

calendar in South Africa

1469

01:20:51,190 --> 01:20:48,650

Michael Tillinger he calls it an keys

1470

01:20:54,520 --> 01:20:51,200

and keys calendar it's perhaps the

1471

01:20:59,640 --> 01:20:54,530

oldest version I don't recall okay it's

1472

01:21:03,790 --> 01:20:59,650

it's perhaps the oldest version of a

1473

01:21:07,500 --> 01:21:03,800

Stonehenge like calendar system it's

1474

01:21:13,510 --> 01:21:07,510

done exactly the same as Stonehenge but

1475

01:21:17,370 --> 01:21:13,520

this I I connected exactly to the center

1476

01:21:22,240 --> 01:21:17,380

of this this structure in South Africa

1477

01:21:23,980 --> 01:21:22,250

to the center of the South face of the

1478

01:21:27,640 --> 01:21:23,990

Giza pyramid the Great Pyramid of Giza

1479

01:21:31,270 --> 01:21:27,650

and if you go over the north side that

1480

01:21:35,710 --> 01:21:31,280

leads you into Turkey and through

1481

01:21:39,370 --> 01:21:35,720

through Ukraine Russia's and it meets

1482

01:21:41,620 --> 01:21:39,380

with the Solstice line from Stonehenge

1483

01:21:45,490 --> 01:21:41,630

at st. Petersburg you remember me

1484

01:21:48,670 --> 01:21:45,500

telling you about that yeah okay well

1485

01:21:52,000 --> 01:21:48,680

when you take this line directly over

1486

01:21:55,240 --> 01:21:52,010

the North Pole it only it only crosses

1487

01:21:57,969 --> 01:21:55,250

one land piece of land it comes close to

1488

01:22:01,719 --> 01:21:57,979

small barred coming up over it but

1489

01:22:05,350 --> 01:22:01,729

coming back down through the Pacific it

1490

01:22:09,939 --> 01:22:05,360

crosses over Alaska in a particular area

1491

01:22:13,239 --> 01:22:09,949

about 50 miles maybe 30 miles west of

1492

01:22:18,459 --> 01:22:13,249

Mount McKinley this is important because

1493

01:22:20,439 --> 01:22:18,469

Linda Moulton Howe has has been talking

1494

01:22:24,270 --> 01:22:20,449

with a whistleblower military

1495

01:22:28,299 --> 01:22:24,280

whistleblower about finding a pyramid in

1496

01:22:30,910 --> 01:22:28,309

exactly that area and I I did not

1497

01:22:36,219 --> 01:22:30,920

include this in the book so you get it

1498

01:22:39,310 --> 01:22:36,229

first on your radio show this these

1499

01:22:43,149 --> 01:22:39,320

lines connect exactly like they do at

1500

01:22:45,669 --> 01:22:43,159

the Giza pyramid in the center of the

1501
01:22:47,799 --> 01:22:45,679
Pacific Ocean in other words you have if

1502
01:22:48,310 --> 01:22:47,809
you think of the the Great Pyramid of

1503
01:22:52,060 --> 01:22:48,320
Giza

1504
01:22:56,469 --> 01:22:52,070
being called the center of all land well

1505
01:22:59,439 --> 01:22:56,479
they are they it's opposite Nexus is the

1506
01:23:02,439 --> 01:22:59,449
center of all waters and if if you have

1507
01:23:04,540 --> 01:23:02,449
a good satellite imagery you can see

1508
01:23:08,109 --> 01:23:04,550
there's something that might be a

1509
01:23:12,270 --> 01:23:08,119
pyramid right especially in that same

1510
01:23:15,819 --> 01:23:12,280
area isn't that isn't that something

1511
01:23:20,649 --> 01:23:15,829
the connections are just impossible

1512
01:23:24,100 --> 01:23:20,659
without being artificial the the the

1513
01:23:27,250 --> 01:23:24,110

that they connect in Marfa Texas means

1514

01:23:31,449 --> 01:23:27,260

that we actually have a megalithic

1515

01:23:33,790 --> 01:23:31,459

structure that has to be though the

1516

01:23:36,910 --> 01:23:33,800

biggest archaeological find in North

1517

01:23:40,839 --> 01:23:36,920

America the square mile area of the

1518

01:23:46,270 --> 01:23:40,849

Marfa Plateau itself is about a hundred

1519

01:23:48,129 --> 01:23:46,280

maybe 150 miles square and a these lines

1520

01:23:52,419 --> 01:23:48,139

continue all the way through the Big

1521

01:23:55,479 --> 01:23:52,429

Bend area and into Mexico itself where

1522

01:24:02,469 --> 01:23:55,489

you'll recognize the zona del Silencio

1523

01:24:06,250 --> 01:24:02,479

and a a particular particular city that

1524

01:24:10,000 --> 01:24:06,260

was strangely abandoned that shows

1525

01:24:11,500 --> 01:24:10,010

modern technology plumbing etc but for

1526

01:24:15,520 --> 01:24:11,510

different kinds

1527

01:24:22,479 --> 01:24:15,530

of building techniques and and strange

1528

01:24:25,990 --> 01:24:22,489

a lopsided tee doorways they there they

1529

01:24:27,750 --> 01:24:26,000

were apparently the the the indigenous

1530

01:24:32,740 --> 01:24:27,760

people think that there's some kind of a

1531

01:24:35,259 --> 01:24:32,750

doorway to another dimension that you

1532

01:24:39,279 --> 01:24:35,269

know their gods came through and that's

1533

01:24:43,209 --> 01:24:39,289

paquimé in Chihuahua this all connects

1534

01:24:45,609 --> 01:24:43,219

with a line taken from the Pyramid of

1535

01:24:49,299 --> 01:24:45,619

the Sun remember I told you that it was

1536

01:24:52,419 --> 01:24:49,309

not a north-facing pyramid using mapping

1537

01:24:56,709 --> 01:24:52,429

from corner to corner over the apex

1538

01:24:59,830 --> 01:24:56,719

directly takes you exactly to this area

1539

01:25:02,229 --> 01:24:59,840

in Chihuahua where Paquime is and if you

1540

01:25:05,129 --> 01:25:02,239

take a solstice line from there it takes

1541

01:25:07,959 --> 01:25:05,139

you to Chaco Canyon if you take a a

1542

01:25:12,339 --> 01:25:07,969

socialist line from Chaco Canyon which

1543

01:25:15,729 --> 01:25:12,349

is a built structurally circular it

1544

01:25:20,140 --> 01:25:15,739

takes you exactly to that pyramid at

1545

01:25:24,089 --> 01:25:20,150

Fort Assad Lonnegan 4 oz : I get the

1546

01:25:28,839 --> 01:25:24,099

words mixed up because the the Aztec

1547

01:25:32,620 --> 01:25:28,849

creation myth includes Asad lon that

1548

01:25:36,040 --> 01:25:32,630

they came from this place in the north

1549

01:25:42,669 --> 01:25:36,050

which was an anion surrounded by water

1550

01:25:45,189 --> 01:25:42,679

and they called it assad lon but the

1551
01:25:47,220 --> 01:25:45,199
people of Chaco Canyon said that they

1552
01:25:50,080 --> 01:25:47,230
were told by their gods to build there

1553
01:25:53,100 --> 01:25:50,090
there's nothing there there's no local

1554
01:25:55,660 --> 01:25:53,110
water everything had to be brought in

1555
01:25:58,089 --> 01:25:55,670
this wasn't let's hold it there we're on

1556
01:26:00,339 --> 01:25:58,099
a shirt and last break

1557
01:26:02,470 --> 01:26:00,349
our guest tonight is Dan locust talking

1558
01:26:04,029 --> 01:26:02,480
about alternative ancient history or

1559
01:26:06,790 --> 01:26:04,039
maybe not so intuitive as the facts

1560
01:26:08,850 --> 01:26:06,800
begin to catch up with this story you

1561
01:26:13,710 --> 01:26:08,860
can find out more about the

1562
01:26:19,040 --> 01:26:13,720
at the o n da and L that's Don Donnell

1563
01:26:21,480 --> 01:26:19,050

calm is Alan B Smith for Pamela now lb

1564

01:26:24,270 --> 01:26:21,490

is paranoia now I'm your host

1565

01:26:27,780 --> 01:26:24,280

allenbys welcome back to the fourth and

1566

01:26:32,070 --> 01:26:27,790

final segment of this podcast again as a

1567

01:26:33,450 --> 01:26:32,080

friendly reminder because I and that

1568

01:26:36,600 --> 01:26:33,460

people have made some comments about it

1569

01:26:39,360 --> 01:26:36,610

the format of the show is in a

1570

01:26:41,220 --> 01:26:39,370

livestream format every 7 the night but

1571

01:26:44,340 --> 01:26:41,230

it is recorded as a podcast so

1572

01:26:46,500 --> 01:26:44,350

technically we are a podcast but because

1573

01:26:49,020 --> 01:26:46,510

we have our time constraints we have to

1574

01:26:51,720 --> 01:26:49,030

treat it exactly like a radio show so I

1575

01:26:53,940 --> 01:26:51,730

don't want any of y'all to be too

1576

01:26:58,320 --> 01:26:53,950

confused or think that this is a replay

1577

01:27:00,210 --> 01:26:58,330

of another show so my guest is Dan Howe

1578

01:27:03,330 --> 01:27:00,220

Quist now we are talking about a

1579

01:27:04,950 --> 01:27:03,340

fascinating topic we've covered so much

1580

01:27:08,040 --> 01:27:04,960

territory so far I think I can't even

1581

01:27:11,790 --> 01:27:08,050

recap at this point other than the fact

1582

01:27:15,840 --> 01:27:11,800

that there are connections throughout

1583

01:27:19,350 --> 01:27:15,850

ancient history that Dan has and punt is

1584

01:27:22,470 --> 01:27:19,360

intended drawn the lines for us to

1585

01:27:26,040 --> 01:27:22,480

understand the Intercontinental

1586

01:27:31,980 --> 01:27:26,050

connection that has possibly existed

1587

01:27:35,340 --> 01:27:31,990

well beyond history as we are taught or

1588

01:27:39,510 --> 01:27:35,350

as the mainstream historians believe it

1589

01:27:44,660 --> 01:27:39,520

to be but again I have to say that I

1590

01:27:49,100 --> 01:27:44,670

feel like in recent years the

1591

01:27:56,790 --> 01:27:49,110

archaeological community the history

1592

01:27:59,520 --> 01:27:56,800

that we are told by them is changing and

1593

01:28:04,080 --> 01:27:59,530

I think because some of the evidence is

1594

01:28:06,290 --> 01:28:04,090

becoming to be undeniable and they they

1595

01:28:09,450 --> 01:28:06,300

simply can't turn a blind eye

1596

01:28:12,030 --> 01:28:09,460

continuously to artifacts and

1597

01:28:15,450 --> 01:28:12,040

discoveries that are that are made so

1598

01:28:18,060 --> 01:28:15,460

begrudgingly you know science yeah

1599

01:28:19,330 --> 01:28:18,070

sometimes it does move slowly and maybe

1600

01:28:21,040 --> 01:28:19,340

that's a good thing because

1601

01:28:23,080 --> 01:28:21,050

that gives people time to really

1602

01:28:25,149 --> 01:28:23,090

thoroughly analyze the evidence but at

1603

01:28:26,919 --> 01:28:25,159

the same time you also get people who

1604

01:28:29,129 --> 01:28:26,929

are biased in their field and because

1605

01:28:32,169 --> 01:28:29,139

they believe that the work has been done

1606

01:28:34,689 --> 01:28:32,179

and then someone like Dan comes along

1607

01:28:36,370 --> 01:28:34,699

and says well no you missed this and if

1608

01:28:37,810 --> 01:28:36,380

you're an academic you don't want

1609

01:28:40,060 --> 01:28:37,820

someone coming along and telling you

1610

01:28:41,919 --> 01:28:40,070

that that you who have been studying

1611

01:28:44,379 --> 01:28:41,929

something for decades missed something

1612

01:28:47,550 --> 01:28:44,389

if you're supposed to be an expert so I

1613

01:28:49,870 --> 01:28:47,560

think that as good as many

1614

01:28:52,839 --> 01:28:49,880

archaeologists are as scientists you

1615

01:28:56,770 --> 01:28:52,849

know it it is hard to have your life's

1616

01:28:59,680 --> 01:28:56,780

work challenged so I have sympathy in

1617

01:29:03,010 --> 01:28:59,690

that regard but the fact is you have to

1618

01:29:05,800 --> 01:29:03,020

let the ego go eventually and challenge

1619

01:29:07,930 --> 01:29:05,810

yourself so I welcome Dan onto Perrineau

1620

01:29:11,470 --> 01:29:07,940

Linnell so we continue talking about his

1621

01:29:14,859 --> 01:29:11,480

story and his discoveries and you know

1622

01:29:18,700 --> 01:29:14,869

as a scientist you have to be able to

1623

01:29:23,100 --> 01:29:18,710

follow the evidence instead if you find

1624

01:29:26,320 --> 01:29:23,110

yourself denying a piece of evidence

1625

01:29:29,350 --> 01:29:26,330

then with especially without without any

1626

01:29:32,229 --> 01:29:29,360

research then you are not committing

1627

01:29:36,280 --> 01:29:32,239

science you're committing fraud you are

1628

01:29:39,660 --> 01:29:36,290

committing your own opinion but anyway I

1629

01:29:42,910 --> 01:29:39,670

wanted to get back to the why exactly

1630

01:29:45,910 --> 01:29:42,920

but they use these straight lines and

1631

01:29:48,910 --> 01:29:45,920

now this actually it actually connects

1632

01:29:54,149 --> 01:29:48,920

to the the recent phenomena of UFOs a

1633

01:29:56,740 --> 01:29:54,159

man named Amy Michelle back in the 1950s

1634

01:30:00,040 --> 01:29:56,750

determined that the UFOs were actually

1635

01:30:04,270 --> 01:30:00,050

using a straight line pattern and later

1636

01:30:07,350 --> 01:30:04,280

he teamed up with another person who ran

1637

01:30:11,109 --> 01:30:07,360

a computer program and it apparently

1638

01:30:13,570 --> 01:30:11,119

matches the knodel form of the Flower of

1639

01:30:16,839 --> 01:30:13,580

Life that I've been talking about which

1640

01:30:20,649 --> 01:30:16,849

is another validation but it comes from

1641

01:30:23,379 --> 01:30:20,659

a much more present source these UFOs

1642

01:30:27,189 --> 01:30:23,389

are apparently the Anunnaki and they

1643

01:30:30,700 --> 01:30:27,199

might be back.this this is something

1644

01:30:33,250 --> 01:30:30,710

that might be troubling except at some

1645

01:30:37,060 --> 01:30:33,260

point they

1646

01:30:38,890 --> 01:30:37,070

they got enough gold or they might have

1647

01:30:42,070 --> 01:30:38,900

even been able to make their own gold

1648

01:30:44,890 --> 01:30:42,080

because what they started calling the

1649

01:30:48,580 --> 01:30:44,900

Emerald tablets of thoth or Hermes

1650

01:30:50,440 --> 01:30:48,590

trigga discus was the Philosopher's

1651

01:30:56,020 --> 01:30:50,450

Stone and this is something the

1652

01:31:00,090 --> 01:30:56,030

alchemists had searched for to to change

1653

01:31:04,090 --> 01:31:00,100

LED into gold or other metals into gold

1654

01:31:06,730 --> 01:31:04,100

to transmute from one substance to

1655

01:31:11,410 --> 01:31:06,740

another that was the purpose of alchemy

1656

01:31:14,200 --> 01:31:11,420

and apparently the Anunnaki either got

1657

01:31:18,610 --> 01:31:14,210

enough gold or they found out how to

1658

01:31:21,780 --> 01:31:18,620

actually make it and this I think they

1659

01:31:24,690 --> 01:31:21,790

probably learned through the through the

1660

01:31:28,240 --> 01:31:24,700

electrical discharge known as plasma

1661

01:31:32,860 --> 01:31:28,250

because what what you learn in school

1662

01:31:35,890 --> 01:31:32,870

are three forms matter solid liquid and

1663

01:31:38,410 --> 01:31:35,900

frozen yeah you will

1664

01:31:41,140 --> 01:31:38,420

gaseous put it that way it's solid

1665

01:31:44,440 --> 01:31:41,150

liquid and gaseous but there's actually

1666

01:31:49,390 --> 01:31:44,450

a fourth form of matter and that's

1667

01:31:52,720 --> 01:31:49,400

plasma and any physicist will tell you

1668

01:31:58,510 --> 01:31:52,730

after after the Big Bang there was a

1669

01:32:01,570 --> 01:31:58,520

time of plasma plasma is mutable you can

1670

01:32:02,800 --> 01:32:01,580

make anything and that's what the

1671

01:32:06,250 --> 01:32:02,810

universe is made out of

1672

01:32:09,280 --> 01:32:06,260

we are the stuff of stars but what the

1673

01:32:12,220 --> 01:32:09,290

lines were for I had to think about the

1674

01:32:16,300 --> 01:32:12,230

that these straight lines that they were

1675

01:32:18,760 --> 01:32:16,310

using and apparently through they needed

1676

01:32:22,330 --> 01:32:18,770

them really when they cross over

1677

01:32:23,890 --> 01:32:22,340

mountain peaks they if you were doing a

1678

01:32:27,490 --> 01:32:23,900

survey you wouldn't know what's on the

1679

01:32:29,290 --> 01:32:27,500

other side but they didn't care they use

1680

01:32:31,570 --> 01:32:29,300

some mountain peak itself as dead

1681

01:32:33,970 --> 01:32:31,580

reckoning which is the earliest form of

1682

01:32:37,930 --> 01:32:33,980

aviation that we know of you know our

1683

01:32:38,530 --> 01:32:37,940

early our early aviators used dead

1684

01:32:44,020 --> 01:32:38,540

reckoning

1685

01:32:47,020 --> 01:32:44,030

they used visual mountain peaks etc

1686

01:32:51,089 --> 01:32:47,030

that's anything anything that

1687

01:32:53,500 --> 01:32:51,099

could be picked up from air early airily

1688

01:32:56,169 --> 01:32:53,510

there were only two things that I could

1689

01:32:57,850 --> 01:32:56,179

come up with either they they had these

1690

01:33:01,390 --> 01:32:57,860

straight line patterns for communication

1691

01:33:06,160 --> 01:33:01,400

or they had to transport and because I

1692

01:33:11,229 --> 01:33:06,170

was thinking of anunnaki I had to think

1693

01:33:14,640 --> 01:33:11,239

of gold the transport of gold for each

1694

01:33:17,229 --> 01:33:14,650

of these lines they all connect

1695

01:33:21,310 --> 01:33:17,239

megalithic temples shrines around the

1696

01:33:24,160 --> 01:33:21,320

world to at least one pyramid or a

1697

01:33:25,419 --> 01:33:24,170

pyramidal structure and I say pyramidal

1698

01:33:28,720 --> 01:33:25,429

structure because they also used

1699

01:33:32,680 --> 01:33:28,730

mountains as pyramidal structures also

1700

01:33:33,520 --> 01:33:32,690

and you can verify this by Mount Kyle

1701

01:33:36,810 --> 01:33:33,530

ash itself

1702

01:33:44,580 --> 01:33:36,820

the forbidden mountain in the Himalayas

1703

01:33:49,029 --> 01:33:44,590

apparently recent recent Chinese of

1704

01:33:51,430 --> 01:33:49,039

papyrus actually shows that this

1705

01:33:55,149 --> 01:33:51,440

mountain might be an electrical

1706

01:33:58,709 --> 01:33:55,159

generator of some sort or a weapon then

1707

01:34:03,520 --> 01:33:58,719

this mountain is 20,000 feet in

1708

01:34:06,970 --> 01:34:03,530

elevation so really you know you have

1709

01:34:10,810 --> 01:34:06,980

you have to think that they had science

1710

01:34:13,540 --> 01:34:10,820

on a much higher level but because of

1711

01:34:15,430 --> 01:34:13,550

the weight of gold when they were

1712

01:34:18,069 --> 01:34:15,440

actually going from shrine to shrine

1713

01:34:20,520 --> 01:34:18,079

they had to have a place and that's

1714

01:34:24,760 --> 01:34:20,530

where I think they they developed this

1715

01:34:28,899 --> 01:34:24,770

pyramid using a pyramid as as a vault

1716

01:34:30,430 --> 01:34:28,909

apparently or a refinery a lot of this

1717

01:34:32,379 --> 01:34:30,440

is not my theory

1718

01:34:35,490 --> 01:34:32,389

it comes from an earlier theory that

1719

01:34:37,870 --> 01:34:35,500

pyramids were used to refine gold with

1720

01:34:39,700 --> 01:34:37,880

especially like the step pyramids down

1721

01:34:44,609 --> 01:34:39,710

in South America

1722

01:34:47,950 --> 01:34:44,619

they look like wash parts there's been a

1723

01:34:51,000 --> 01:34:47,960

leak of mercury found under under the

1724

01:34:54,250 --> 01:34:51,010

Pyramid of the Sun and mercury is is

1725

01:34:59,709 --> 01:34:54,260

really it's connected directly to gold

1726

01:35:00,790 --> 01:34:59,719

refinery but that makes the the Great

1727

01:35:03,400 --> 01:35:00,800

Pyramid

1728

01:35:06,370 --> 01:35:03,410

the destination that's why all these

1729

01:35:09,430 --> 01:35:06,380

lines come from the Great Pyramid they

1730

01:35:12,670 --> 01:35:09,440

would take this refined gold I believe

1731

01:35:16,030 --> 01:35:12,680

to the Great Pyramid and there it would

1732

01:35:21,490 --> 01:35:16,040

be made into monatomic gold and if you

1733

01:35:24,970 --> 01:35:21,500

think of the the coffer at inside the

1734

01:35:28,270 --> 01:35:24,980

King's Chamber this is exactly the

1735

01:35:31,960 --> 01:35:28,280

interior sizes exactly the dimensions

1736

01:35:35,290 --> 01:35:31,970

given in the Bible of the of the Ark of

1737

01:35:41,590 --> 01:35:35,300

the Covenant the Ark of the Covenant is

1738

01:35:46,420 --> 01:35:41,600

is basically a monatomic gold apparatus

1739

01:35:49,510 --> 01:35:46,430

and and this they were apparently eating

1740

01:35:52,990 --> 01:35:49,520

it calling it mana on the exodus of the

1741

01:35:55,510 --> 01:35:53,000

Jews from from Egypt it actually could

1742

01:35:58,000 --> 01:35:55,520

have been the Hebrews actually may have

1743

01:36:00,090 --> 01:35:58,010

come from Sumeria instead but that's

1744

01:36:04,930 --> 01:36:00,100

another story

1745

01:36:08,650 --> 01:36:04,940

really it tells about Moses being so

1746

01:36:10,780 --> 01:36:08,660

angry that the people had taken their

1747

01:36:13,540 --> 01:36:10,790

gold and formed it into into a golden

1748

01:36:18,760 --> 01:36:13,550

calf which is by the way a Sun symbol

1749

01:36:23,020 --> 01:36:18,770

Sun symbol and he took that that that

1750

01:36:26,290 --> 01:36:23,030

golden calf and forced the Hebrews to

1751

01:36:27,180 --> 01:36:26,300

eat it now how do you do that unless you

1752

01:36:32,260 --> 01:36:27,190

change it gold

1753

01:36:35,140 --> 01:36:32,270

yeah well monatomic gold has some really

1754

01:36:37,780 --> 01:36:35,150

interesting qualities it's actually

1755

01:36:41,340 --> 01:36:37,790

perfect for the Anunnaki if you think

1756

01:36:46,720 --> 01:36:41,350

that they had to use a an aerosolized

1757

01:36:50,320 --> 01:36:46,730

gold to somehow protect their atmosphere

1758

01:36:52,420 --> 01:36:50,330

from radiation and this is what I

1759

01:36:56,680 --> 01:36:52,430

believe they were doing as they were

1760

01:36:59,110 --> 01:36:56,690

setting it to reflect setting this

1761

01:37:01,840 --> 01:36:59,120

monatomic gold in the atmosphere to

1762

01:37:03,850 --> 01:37:01,850

reflect radiation they did not

1763

01:37:07,120 --> 01:37:03,860

apparently have the Van Allen belts that

1764

01:37:08,890 --> 01:37:07,130

we have and and that's another thing to

1765

01:37:12,580 --> 01:37:08,900

think of when you think about the earth

1766

01:37:14,200 --> 01:37:12,590

as as an artificial or at least a

1767

01:37:18,320 --> 01:37:14,210

terraformed

1768

01:37:21,640 --> 01:37:18,330

planetary object as as the as the

1769

01:37:26,320 --> 01:37:21,650

Sumerians chronicled in the Anu mileage

1770

01:37:31,880 --> 01:37:26,330

that the Anunnaki actually set this into

1771

01:37:34,640 --> 01:37:31,890

this orbit exact orbit and when you when

1772

01:37:37,490 --> 01:37:34,650

you think about we've got enough

1773

01:37:40,910 --> 01:37:37,500

upcoming eclipse full eclipse coming in

1774

01:37:44,000 --> 01:37:40,920

North America the moon is a perfect size

1775

01:37:48,410 --> 01:37:44,010

to cover the Sun exactly for that

1776

01:37:52,520 --> 01:37:48,420

coronal corona of the Sun to show and

1777

01:37:55,340 --> 01:37:52,530

nothing else that's impossible it's it's

1778

01:37:58,250 --> 01:37:55,350

really it's really impossible and this

1779

01:38:01,820 --> 01:37:58,260

has been noted by the noted physicists

1780

01:38:04,640 --> 01:38:01,830

like Isaac Asimov in himself who's very

1781

01:38:06,530 --> 01:38:04,650

very blatantly said there are better

1782

01:38:09,650 --> 01:38:06,540

reasons to think of the moon as an

1783

01:38:13,310 --> 01:38:09,660

artifice then and then a natural product

1784

01:38:16,370 --> 01:38:13,320

and the the mass doesn't match the

1785

01:38:20,270 --> 01:38:16,380

gravity they had incredible problems

1786

01:38:25,100 --> 01:38:20,280

even targeting the moon with with the

1787

01:38:27,860 --> 01:38:25,110

early NASA because of the mass not

1788

01:38:30,890 --> 01:38:27,870

matching the gravity the gravity itself

1789

01:38:35,330 --> 01:38:30,900

is only about a sixth of the Earth's

1790

01:38:40,370 --> 01:38:35,340

gravity which makes the moon apparently

1791

01:38:43,250 --> 01:38:40,380

Hollow and they they they allowed one of

1792

01:38:46,400 --> 01:38:43,260

the command modules to impact the

1793

01:38:50,270 --> 01:38:46,410

surface of the moon and just to test

1794

01:38:52,850 --> 01:38:50,280

that and it rained for like 24 hours

1795

01:38:56,060 --> 01:38:52,860

like a bell this was a quote I think

1796

01:39:01,189 --> 01:38:56,070

wasn't the argument that um that it must

1797

01:39:03,530 --> 01:39:01,199

be made of like a porous material rock

1798

01:39:05,840 --> 01:39:03,540

like material deeper down and then that

1799

01:39:08,060 --> 01:39:05,850

was the explanation for why rang and why

1800

01:39:10,459 --> 01:39:08,070

it actually messes that the newest the

1801

01:39:15,740 --> 01:39:10,469

newest the newest one is that is that

1802

01:39:19,310 --> 01:39:15,750

it's full of water okay yeah yeah any

1803

01:39:20,870 --> 01:39:19,320

more water Nathan yeah yeah seems if you

1804

01:39:25,520 --> 01:39:20,880

think of water as being being the

1805

01:39:27,080 --> 01:39:25,530

substance of life well the the Kola deep

1806

01:39:29,600 --> 01:39:27,090

borehole all

1807

01:39:33,560 --> 01:39:29,610

showed that water is a natural product

1808

01:39:37,100 --> 01:39:33,570

of gravity and pressure any what's

1809

01:39:39,440 --> 01:39:37,110

happening at a certain depth is that

1810

01:39:43,630 --> 01:39:39,450

hydrogen molecules and oxygen molecules

1811

01:39:46,760 --> 01:39:43,640

are being forced together without any

1812

01:39:49,640 --> 01:39:46,770

explosion no explosion it just being

1813

01:39:52,970 --> 01:39:49,650

pushed together by pressure to form

1814

01:39:56,650 --> 01:39:52,980

water in other words any place any any

1815

01:40:00,260 --> 01:39:56,660

planetary object in the heavens that has

1816

01:40:04,460 --> 01:40:00,270

hydrogen and oxygen in the atmosphere

1817

01:40:07,550 --> 01:40:04,470

will have water at a certain depth and

1818

01:40:11,230 --> 01:40:07,560

form it in aquifers just like it does on

1819

01:40:14,360 --> 01:40:11,240

earth so really life can exist anywhere

1820

01:40:18,740 --> 01:40:14,370

especially because you know that gravity

1821

01:40:20,540 --> 01:40:18,750

and pressure also create warmth so

1822

01:40:25,400 --> 01:40:20,550

really there's no such thing as that

1823

01:40:28,490 --> 01:40:25,410

Goldilocks zone really space is cold we

1824

01:40:31,340 --> 01:40:28,500

found that out on the very first mercury

1825

01:40:32,960 --> 01:40:31,350

launches putting men in orbit their

1826

01:40:35,360 --> 01:40:32,970

hands were getting cold because the

1827

01:40:36,740 --> 01:40:35,370

spacesuits didn't have air circulation

1828

01:40:38,840 --> 01:40:36,750

around the fingers they thought they

1829

01:40:44,660 --> 01:40:38,850

could use something like a regular glove

1830

01:40:47,360 --> 01:40:44,670

oh no anything anything from the Sun any

1831

01:40:50,090 --> 01:40:47,370

heat from the Sun is actually bled off

1832

01:40:53,870 --> 01:40:50,100

almost immediately they found ice on

1833

01:40:59,990 --> 01:40:53,880

Mercury and it's almost in the corona of

1834

01:41:03,320 --> 01:41:00,000

the Sun this amazing isn't it that is

1835

01:41:05,900 --> 01:41:03,330

astounding yeah and and the thing about

1836

01:41:07,520 --> 01:41:05,910

the Sun it's it's kind of funny too the

1837

01:41:10,850 --> 01:41:07,530

corona is actually hotter than the

1838

01:41:14,980 --> 01:41:10,860

surface by millions of degrees right the

1839

01:41:18,890 --> 01:41:14,990

SIRT the surface is almost a bearable

1840

01:41:20,750 --> 01:41:18,900

several thousand degrees whereas as soon

1841

01:41:22,670 --> 01:41:20,760

as you get up into the so-called

1842

01:41:26,000 --> 01:41:22,680

atmosphere that the photosphere the

1843

01:41:29,990 --> 01:41:26,010

corona of the Sun it starts heating up

1844

01:41:32,570 --> 01:41:30,000

by millions of degrees but none of that

1845

01:41:36,020 --> 01:41:32,580

he actually reaches the earth none of it

1846

01:41:40,970 --> 01:41:36,030

what reaches the earth is light in the

1847

01:41:45,770 --> 01:41:40,980

form of plasma that's what the Anunnaki

1848

01:41:49,870 --> 01:41:45,780

he figured out apparently they they they

1849

01:41:53,479 --> 01:41:49,880

figured out how to use plasma to inject

1850

01:41:56,720 --> 01:41:53,489

consciousness and if you'll remember my

1851
01:41:59,540 --> 01:41:56,730
own personal connection with this with

1852
01:42:03,490 --> 01:41:59,550
these solstice lines is it's an

1853
01:42:06,950 --> 01:42:03,500
impossibility that that I would be

1854
01:42:10,340 --> 01:42:06,960
brought up raised on a Solstice line

1855
01:42:13,070 --> 01:42:10,350
that I later write about over evidence

1856
01:42:16,010 --> 01:42:13,080
I've hiked I've hiked I've even hiked as

1857
01:42:19,580 --> 01:42:16,020
a young man to Kitching peak I never

1858
01:42:22,760 --> 01:42:19,590
used this how does how does this relate

1859
01:42:25,540 --> 01:42:22,770
to the mana being animal though because

1860
01:42:28,580 --> 01:42:25,550
I understand what your topic monoatomic

1861
01:42:30,640 --> 01:42:28,590
sorry monatomic gold has different

1862
01:42:37,220 --> 01:42:30,650
properties and one of the properties is

1863
01:42:43,220 --> 01:42:37,230

it's a anti-gravity and it also is it

1864

01:42:45,080 --> 01:42:43,230

becomes a powder very easy to inject in

1865

01:42:46,880 --> 01:42:45,090

the upper atmosphere if you needed to

1866

01:42:49,850 --> 01:42:46,890

like they're doing with the chemtrails

1867

01:42:52,130 --> 01:42:49,860

now around you know or at least over the

1868

01:42:55,280 --> 01:42:52,140

over the United States I don't think

1869

01:42:59,390 --> 01:42:55,290

there's any doubt anymore what we the

1870

01:43:04,000 --> 01:42:59,400

point of actually eating it though it

1871

01:43:07,640 --> 01:43:04,010

apparently gave them longer life and

1872

01:43:12,650 --> 01:43:07,650

they they created it they used it as an

1873

01:43:15,260 --> 01:43:12,660

elixir to help them with their they

1874

01:43:18,560 --> 01:43:15,270

didn't adapt well they started they they

1875

01:43:22,340 --> 01:43:18,570

had a long life and because of their

1876

01:43:24,710 --> 01:43:22,350

higher gravity they started dying off

1877

01:43:28,760 --> 01:43:24,720

earlier when they adapted to a lower

1878

01:43:32,540 --> 01:43:28,770

gravity and that he needed this

1879

01:43:34,420 --> 01:43:32,550

monatomic gold as as if there was

1880

01:43:38,570 --> 01:43:34,430

something to allow them to live longer

1881

01:43:41,840 --> 01:43:38,580

well I wonder if it was something like a

1882

01:43:44,470 --> 01:43:41,850

super antioxidant you know something

1883

01:43:47,540 --> 01:43:44,480

that just you know blocks or reverses

1884

01:43:52,100 --> 01:43:47,550

one of my friends one of my friends and

1885

01:43:54,530 --> 01:43:52,110

an author by the name of Gerald Clark he

1886

01:43:54,800 --> 01:43:54,540

is one of the leading authorities on the

1887

01:43:57,620 --> 01:43:54,810

on

1888

01:44:02,150 --> 01:43:57,630

naki now he helped me validate the lines

1889

01:44:05,780 --> 01:44:02,160

in Marfa Texas he does work with

1890

01:44:09,710 --> 01:44:05,790

monatomic gold and he suggests the same

1891

01:44:13,070 --> 01:44:09,720

thing that you do but he has he has also

1892

01:44:16,790 --> 01:44:13,080

taken it farther in that the he regards

1893

01:44:21,380 --> 01:44:16,800

the human body as an antenna and that

1894

01:44:24,500 --> 01:44:21,390

the monatomic gold helps energize or you

1895

01:44:26,510 --> 01:44:24,510

know helps the conductivity which you

1896

01:44:30,350 --> 01:44:26,520

know I I can relate to

1897

01:44:34,040 --> 01:44:30,360

really they found recent you have quartz

1898

01:44:37,970 --> 01:44:34,050

in your brain apparently there are there

1899

01:44:41,720 --> 01:44:37,980

quartz particles in your brain itself

1900

01:44:44,060 --> 01:44:41,730

and that's just amazing that's a very

1901

01:44:47,210 --> 01:44:44,070

very new fine by the way

1902

01:44:51,110 --> 01:44:47,220

that didn't make the book neurologists

1903

01:44:53,660 --> 01:44:51,120

don't really know you know what

1904

01:44:56,560 --> 01:44:53,670

consciousness is they want to equate it

1905

01:45:00,500 --> 01:44:56,570

with intelligence but it's not

1906

01:45:04,280 --> 01:45:00,510

consciousness is it's pervasive it

1907

01:45:06,320 --> 01:45:04,290

permeates and I think I think when when

1908

01:45:10,850 --> 01:45:06,330

the Anunnaki tried to explain this to

1909

01:45:12,830 --> 01:45:10,860

the AHS Aztec in the Inca they took it

1910

01:45:16,970 --> 01:45:12,840

wrong they thought they thought that you

1911

01:45:20,750 --> 01:45:16,980

know the that blood and basically the

1912

01:45:23,000 --> 01:45:20,760

the beating of blood was you know the

1913

01:45:24,650 --> 01:45:23,010

soul where the soul was kept so they'd

1914

01:45:27,440 --> 01:45:24,660

pull the heart out while it was still

1915

01:45:31,940 --> 01:45:27,450

beating they you know they just got the

1916

01:45:34,790 --> 01:45:31,950

message wrong this has proven several

1917

01:45:37,960 --> 01:45:34,800

times there's a 44 year-old Frenchman

1918

01:45:40,670 --> 01:45:37,970

who went to the doctors with leg cramps

1919

01:45:43,220 --> 01:45:40,680

they did all kinds of tests blood tests

1920

01:45:46,430 --> 01:45:43,230

and everything else finally they did a

1921

01:45:51,200 --> 01:45:46,440

an MRI of his brain and found he had

1922

01:45:54,080 --> 01:45:51,210

none or basically 10% less than 10% of a

1923

01:45:57,530 --> 01:45:54,090

normal brain no cortex no frontal lobe

1924

01:46:01,130 --> 01:45:57,540

no nothing no pituitary no nothing

1925

01:46:04,310 --> 01:46:01,140

he was 44 years old working as a civil

1926

01:46:08,000 --> 01:46:04,320

servant in France and he ended up living

1927

01:46:08,510 --> 01:46:08,010

a full life into his 70s this is not an

1928

01:46:11,300 --> 01:46:08,520

unused

1929

01:46:14,360 --> 01:46:11,310

okay sign there well I didn't function

1930

01:46:16,130 --> 01:46:14,370

without I mean I can be doesn't

1931

01:46:20,840 --> 01:46:16,140

understand maybe you're conscious or in

1932

01:46:25,160 --> 01:46:20,850

size your consciousness takes is it

1933

01:46:27,350 --> 01:46:25,170

takes over where the physical isn't

1934

01:46:29,810 --> 01:46:27,360

necessary there are people who have had

1935

01:46:33,820 --> 01:46:29,820

brain operations and had half their

1936

01:46:35,330 --> 01:46:33,830

brains removed that function as well as

1937

01:46:37,370 --> 01:46:35,340

before

1938

01:46:39,380 --> 01:46:37,380

half of their brain was taken out right

1939

01:46:41,840 --> 01:46:39,390

but it was specifically you said the

1940

01:46:43,460 --> 01:46:41,850

pituitary gland and that I thought well

1941

01:46:46,720 --> 01:46:43,470

that seems like that just as a

1942

01:46:49,400 --> 01:46:46,730

physiological forget about intent on

1943

01:46:52,880 --> 01:46:49,410

intelligence but physiologically isn't

1944

01:46:55,910 --> 01:46:52,890

that sort of necessary to function no

1945

01:46:58,940 --> 01:46:55,920

actually actually you only need the the

1946

01:47:00,860 --> 01:46:58,950

back the back area where where the brain

1947

01:47:02,750 --> 01:47:00,870

stem is that's where all the physical

1948

01:47:04,850 --> 01:47:02,760

functions apparently take place though

1949

01:47:07,520 --> 01:47:04,860

you know like the heart heart monitoring

1950

01:47:11,480 --> 01:47:07,530

etc you you've heard about the the

1951

01:47:15,620 --> 01:47:11,490

famous chicken that PT Barnum had for

1952

01:47:19,400 --> 01:47:15,630

years without a head right it had a

1953

01:47:22,430 --> 01:47:19,410

brain stem okay yeah really that's all

1954

01:47:26,240 --> 01:47:22,440

that's all that was necessary for it for

1955

01:47:26,750 --> 01:47:26,250

it to be a functioning animal isn't that

1956

01:47:32,030 --> 01:47:26,760

amazing

1957

01:47:35,330 --> 01:47:32,040

and apparently monatomic gold helps with

1958

01:47:38,020 --> 01:47:35,340

your soul I find that I'm probably

1959

01:47:42,950 --> 01:47:38,030

allergic to gold so I don't do it myself

1960

01:47:47,270 --> 01:47:42,960

but I would tell anybody you know at

1961

01:47:50,570 --> 01:47:47,280

least try it you never know well I mean

1962

01:47:54,980 --> 01:47:50,580

is that safe to say I have no idea it

1963

01:47:56,780 --> 01:47:54,990

has it has no no dilatory as function in

1964

01:47:59,960 --> 01:47:56,790

other words it doesn't attach to your

1965

01:48:03,200 --> 01:47:59,970

kidney or your liver or anything like

1966

01:48:05,540 --> 01:48:03,210

that it just it you take it in and it

1967

01:48:09,520 --> 01:48:05,550

comes out of your system they even put

1968

01:48:09,530 --> 01:48:12,660

interesting

1969

01:48:18,990 --> 01:48:17,100

is that for the novelty or do they know

1970

01:48:19,590 --> 01:48:19,000

something apparently they don't they

1971

01:48:26,640 --> 01:48:19,600

don't

1972

01:48:28,470 --> 01:48:26,650

more than we do although you remember I

1973

01:48:31,320 --> 01:48:28,480

spoke about the the Union Jack of the

1974

01:48:35,400 --> 01:48:31,330

British British flack that I believe

1975

01:48:39,810 --> 01:48:35,410

emulates the Great Pyramid I believe it

1976

01:48:42,720 --> 01:48:39,820

that they knew of the connection of the

1977

01:48:45,050 --> 01:48:42,730

Great Pyramid to Stonehenge and that's

1978

01:48:48,900 --> 01:48:45,060

what Sir Francis Bacon was following

1979

01:48:52,470 --> 01:48:48,910

when he set up the colonization of the

1980

01:48:55,169 --> 01:48:52,480

Americans and he was trying to make a

1981

01:48:59,689 --> 01:48:55,179

new Atlantis that was a book that he

1982

01:49:04,919 --> 01:48:59,699

wrote on the colonisation they actually

1983

01:49:08,490 --> 01:49:04,929

mistook Mexico City as Atlantis but in

1984

01:49:10,890 --> 01:49:08,500

Marfa Texas there are signs of Atlantis

1985

01:49:13,110 --> 01:49:10,900

to some of the some of the solar

1986

01:49:15,390 --> 01:49:13,120

patterns that you can see from Google

1987

01:49:17,550 --> 01:49:15,400

Earth from the dark lines are basically

1988

01:49:19,169 --> 01:49:17,560

four kinds of lines out there and the

1989

01:49:23,280 --> 01:49:19,179

dark lines are the ones that you can see

1990

01:49:26,990 --> 01:49:23,290

from satellite imagery they form solar

1991

01:49:29,570 --> 01:49:27,000

patterns that are ten miles in diameter

1992

01:49:33,709 --> 01:49:29,580

obviously not used for cattle ranching

1993

01:49:37,320 --> 01:49:33,719

I've been on an on a ranch or to myself

1994

01:49:40,340 --> 01:49:37,330

there's no function for a cattle Corral

1995

01:49:43,050 --> 01:49:40,350

that looks like a solar array a solar

1996

01:49:47,189 --> 01:49:43,060

solar pattern there are seven of these

1997

01:49:50,250 --> 01:49:47,199

this is apparently the symbol for

1998

01:49:58,250 --> 01:49:50,260

Atlantis and I found other signs that

1999

01:50:01,260 --> 01:49:58,260

point to Thoth himself or Quetzalcoatl

2000

01:50:05,189 --> 01:50:01,270

he was known under several different

2001

01:50:08,060 --> 01:50:05,199

names and my friend Gerald Clark has has

2002

01:50:12,810 --> 01:50:08,070

chronicled all of these Anunnaki names

2003

01:50:16,200 --> 01:50:12,820

and his books are very very readable if

2004

01:50:20,629 --> 01:50:16,210

you want to learn about Anunnaki that's

2005

01:50:31,310 --> 01:50:25,100

so the Anunnaki do you think that these

2006

01:50:32,840 --> 01:50:31,320

were humans humanoid what what it what

2007

01:50:37,570 --> 01:50:32,850

is your take on on that part of the

2008

01:50:40,720 --> 01:50:37,580

story by the time that the Sumerians

2009

01:50:44,810 --> 01:50:40,730

started building their cities in

2010

01:50:49,040 --> 01:50:44,820

Mesopotamia it was known that that these

2011

01:50:54,790 --> 01:50:49,050

people could change their their looks

2012

01:50:57,680 --> 01:50:54,800

they they were basically shapeshifters

2013

01:51:01,520 --> 01:50:57,690

but I believe that they are the

2014

01:51:03,740 --> 01:51:01,530

elongated headed race that are that are

2015

01:51:06,790 --> 01:51:03,750

found everywhere and the reason I say

2016

01:51:08,780 --> 01:51:06,800

that is because we can't be them and

2017

01:51:11,870 --> 01:51:08,790

you've heard you've heard other

2018

01:51:15,200 --> 01:51:11,880

researchers say well oh they are the

2019

01:51:18,919 --> 01:51:15,210

greys are us from a future date well no

2020

01:51:21,379 --> 01:51:18,929

we can't evolve into them but we can

2021

01:51:24,830 --> 01:51:21,389

come from them they have dense bones and

2022

01:51:28,300 --> 01:51:24,840

that fact alone says that there's no

2023

01:51:32,479 --> 01:51:28,310

evolutionary process that will allow us

2024

01:51:35,810 --> 01:51:32,489

to develop denser bones unless we went

2025

01:51:37,850 --> 01:51:35,820

to a higher gravity or at a at a

2026

01:51:43,609 --> 01:51:37,860

pressure that our bodies wouldn't live

2027

01:51:47,149 --> 01:51:43,619

at in the heat so apparently these

2028

01:51:52,479 --> 01:51:47,159

elongated headed people are the Anunnaki

2029

01:51:56,000 --> 01:51:52,489

they they are the adapted Anunnaki

2030

01:51:59,750 --> 01:51:56,010

because the recent find of these recent

2031

01:52:03,830 --> 01:51:59,760

mummies in Nazca three fingers three

2032

01:52:06,649 --> 01:52:03,840

toes and none of the organs are in the

2033

01:52:10,340 --> 01:52:06,659

in a proper place for humanoid or

2034

01:52:14,810 --> 01:52:10,350

hominid they also have very dense bones

2035

01:52:19,660 --> 01:52:14,820

and a very dense dermis or skin all of

2036

01:52:22,820 --> 01:52:19,670

those points to heavier gravity so the

2037

01:52:27,669 --> 01:52:22,830

elongated headed people must be the

2038

01:52:31,520 --> 01:52:27,679

adapted the gravity adapted Anunnaki and

2039

01:52:34,490 --> 01:52:31,530

they they were apparent apparently to

2040

01:52:38,780 --> 01:52:34,500

genetic masters they were creating all

2041

01:52:41,810 --> 01:52:38,790

kinds of things to be useful to them out

2042

01:52:43,970 --> 01:52:41,820

of their own genetic material and I

2043

01:52:49,460 --> 01:52:43,980

believe the insecticide see the

2044

01:52:52,220 --> 01:52:49,470

reptilians etc etc these are all bipedal

2045

01:52:55,310 --> 01:52:52,230

hominids basically bipedal hominids

2046

01:52:59,150 --> 01:52:55,320

which is impossible if there is any kind

2047

01:53:00,830 --> 01:52:59,160

of concurrent evolution it's it should

2048

01:53:04,190 --> 01:53:00,840

not be possible everything should look

2049

01:53:08,750 --> 01:53:04,200

different from different planets so so

2050

01:53:11,510 --> 01:53:08,760

you know in yeah in 30 seconds you know

2051
01:53:16,040 --> 01:53:11,520
what well what conclusion can you share

2052
01:53:18,920 --> 01:53:16,050
with us I I want to share that these

2053
01:53:22,370 --> 01:53:18,930
lines are the pads of gold and if you

2054
01:53:25,070 --> 01:53:22,380
want to find gold you can use this

2055
01:53:27,830 --> 01:53:25,080
information to actually go exploring and

2056
01:53:30,550 --> 01:53:27,840
I did not include a lot of things that I

2057
01:53:34,790 --> 01:53:30,560
found it pyramidal structures etc

2058
01:53:37,340 --> 01:53:34,800
because I really want people to gain

2059
01:53:40,220 --> 01:53:37,350
their own bravery like ancient man and

2060
01:53:44,360 --> 01:53:40,230
cross the open ocean without an

2061
01:53:45,740 --> 01:53:44,370
archaeologist telling you you can't all

2062
01:53:47,450 --> 01:53:45,750
right I think we'll leave it at that dan

2063
01:53:49,700 --> 01:53:47,460

Hocus thank you so much for coming on

2064

01:53:54,020 --> 01:53:49,710

I'm glad we actually got to meet

2065

01:53:56,630 --> 01:53:54,030

virtually at least and yes so if you

2066

01:54:01,010 --> 01:53:56,640

want to find out more about Dan just go

2067

01:54:03,500 --> 01:54:01,020

to Don Donald com do NDA and Elcom and

2068

01:54:05,630 --> 01:54:03,510

2069

01:54:08,210 --> 01:54:05,640

is it Dan ho quiz for the the YouTube

2070

01:54:11,830 --> 01:54:08,220

and you'll find a new series called the

2073

01:54:21,650 --> 01:54:18,390

Solstice connection that I'm trying this

2074

01:54:25,970 --> 01:54:21,660

is my research that I'm placing up for

2075
