1  
00:00:06,789 --> 00:00:03,909  
tuesday july 25th 2017 you are listening

2  
00:00:09,669 --> 00:00:06,799  
to inception radio network voice of the

3  
00:00:13,509 --> 00:00:09,679  
fringe majority this is carol carl with

4  
00:00:19,750 --> 00:00:16,790  
we can find mercury and regulus tonight

5  
00:00:21,910 --> 00:00:19,760  
a rendezvous at dusk here's the scoop

6  
00:00:24,109 --> 00:00:21,920  
from earthsky.org

7  
00:00:27,349 --> 00:00:24,119  
if you've got a clear sky and that

8  
00:00:29,349 --> 00:00:27,359  
unobstructed western horizon you might

9  
00:00:32,389 --> 00:00:29,359  
catch the furtive rendezvous of the

10  
00:00:35,110 --> 00:00:32,399  
planet mercury and star regulus tonight

11  
00:00:36,870 --> 00:00:35,120  
at dusk it's not going to be easy

12  
00:00:39,990 --> 00:00:36,880  
especially if you're in northerly

13  
00:00:41,750 --> 00:00:40,000

latitudes at mid-northern latitudes like

14

00:00:44,229 --> 00:00:41,760

those in the united states and europe

15

00:00:47,110 --> 00:00:44,239

this twosome will follow the sun beneath

16

00:00:48,549 --> 00:00:47,120

the horizon somewhat more than an hour

17

00:00:51,190 --> 00:00:48,559

after sunset

18

00:00:52,709 --> 00:00:51,200

start your search an hour to 45 minutes

19

00:00:55,110 --> 00:00:52,719

after sunset

20

00:00:57,990 --> 00:00:55,120

undoubtedly binoculars will come in

21

00:00:59,029 --> 00:00:58,000

handy for this challenging observation

22

00:01:00,950 --> 00:00:59,039

if you're living in the southern

23

00:01:03,349 --> 00:01:00,960

hemisphere you're going to have a much

24

00:01:05,590 --> 00:01:03,359

easier time catching mercury in regulus

25

00:01:07,910 --> 00:01:05,600

they stay out later and closer to

26

00:01:10,149 --> 00:01:07,920

darkness in your part of the world

27

00:01:12,630 --> 00:01:10,159

for instance at the equator which is

28

00:01:14,550 --> 00:01:12,640

zero degrees latitude mercury and

29

00:01:17,109 --> 00:01:14,560

regolith set about one and three

30

00:01:18,550 --> 00:01:17,119

quarters hours after the sun does in the

31

00:01:20,950 --> 00:01:18,560

temperate regions of the southern

32

00:01:23,670 --> 00:01:20,960

hemisphere mercury and regulus set

33

00:01:26,469 --> 00:01:23,680

better than two hours after the sun and

34

00:01:28,710 --> 00:01:26,479

here comes that old imaginary line

35

00:01:31,830 --> 00:01:28,720

method once again there's a chart you

36

00:01:34,149 --> 00:01:31,840

can find later at [ufoheadlinenews.com](http://ufoheadlinenews.com)

37

00:01:36,630 --> 00:01:34,159

and if you look at that chart and draw

38

00:01:39,590 --> 00:01:36,640

an imaginary line from the very bright

39

00:01:40,390 --> 00:01:39,600

planet jupiter through the 25th of july

40

00:01:42,390 --> 00:01:40,400

moon

41

00:01:44,390 --> 00:01:42,400

that points you in exactly the right

42

00:01:45,590 --> 00:01:44,400

direction to see the planet mercury and

43

00:01:47,990 --> 00:01:45,600

reckless

44

00:01:50,310 --> 00:01:48,000

jupiter and the waxing crescent moon

45

00:01:52,789 --> 00:01:50,320

will be the first two celestial bodies

46

00:01:55,190 --> 00:01:52,799

to pop into view right after sunset

47

00:01:59,030 --> 00:01:55,200

bruce mcclure who puts this together for

48

00:02:01,190 --> 00:01:59,040

the folks at earthsky.org also adds this

49

00:02:04,550 --> 00:02:01,200

if you do have a clear sky after sunset

50

00:02:07,429 --> 00:02:04,560

july 25th and you look and you see

51  
00:02:10,309 --> 00:02:07,439  
something but that something you see is

52  
00:02:12,710 --> 00:02:10,319  
so near the sunset glare it appears as a

53  
00:02:14,949 --> 00:02:12,720  
single star-like point of light that

54  
00:02:16,630 --> 00:02:14,959  
point of light is probably going to be

55  
00:02:18,710 --> 00:02:16,640  
planet mercury

56  
00:02:20,949 --> 00:02:18,720  
this world shines over two times

57  
00:02:23,910 --> 00:02:20,959  
brighter than star regulus which is

58  
00:02:26,070 --> 00:02:23,920  
nonetheless a first magnitude star

59  
00:02:28,869 --> 00:02:26,080  
just know that the luster of both

60  
00:02:31,670 --> 00:02:28,879  
mercury and regulus will be subdued by

61  
00:02:33,270 --> 00:02:31,680  
the glare of that evening twilight

62  
00:02:36,390 --> 00:02:33,280  
should you miss the fleeting appearance

63  
00:02:39,750 --> 00:02:36,400

of mercury and regulus at dusk well

64

00:02:42,390 --> 00:02:39,760

there are two consolation prizes jupiter

65

00:02:46,630 --> 00:02:42,400

and saturn ready for the bottom line

66

00:02:48,630 --> 00:02:46,640

well here it is tonight july 25th 2017

67

00:02:51,030 --> 00:02:48,640

if you have a clear sky and an

68

00:02:53,110 --> 00:02:51,040

unobstructed western view you might

69

00:02:55,830 --> 00:02:53,120

catch the furtive rendezvous of the

70

00:02:59,030 --> 00:02:55,840

planet mercury and the star regulus at

71

00:03:01,830 --> 00:02:59,040

dusk at evening if all goes well you can

72

00:03:05,509 --> 00:03:01,840

see three planets by nightfall mercury

73

00:03:07,589 --> 00:03:05,519

jupiter and saturn so get out look up

74

00:03:10,790 --> 00:03:07,599

see what you can spy with your little

75

00:03:13,190 --> 00:03:10,800

eye speaking of things to spy in the sky

76  
00:03:15,589 --> 00:03:13,200  
well as promised yesterday here's some

77  
00:03:18,309 --> 00:03:15,599  
stuff about the delta aquarid meteor

78  
00:03:21,750 --> 00:03:18,319  
shower going on right now along with the

79  
00:03:23,430 --> 00:03:21,760  
perseid interesting lots to see up there

80  
00:03:25,830 --> 00:03:23,440  
if you want to know when and how to

81  
00:03:29,110 --> 00:03:25,840  
watch the delta aquarium meteor shower

82  
00:03:31,430 --> 00:03:29,120  
well bruce mcclure earthsky.org he's a

83  
00:03:33,670 --> 00:03:31,440  
busy guy brings us this

84  
00:03:36,229 --> 00:03:33,680  
it's in the form of a question when and

85  
00:03:38,789 --> 00:03:36,239  
how should i watch the delta aquarid

86  
00:03:41,589 --> 00:03:38,799  
meteor shower does this shower have a

87  
00:03:45,910 --> 00:03:41,599  
peak two questions it does have a normal

88  
00:03:48,630 --> 00:03:45,920

peak yes late july in 2017 it seems the

89

00:03:50,309 --> 00:03:48,640

rather wide waxing crescent moon doesn't

90

00:03:53,350 --> 00:03:50,319

intrude on the peak

91

00:03:56,229 --> 00:03:53,360

those dates are july 27th and 28th the

92

00:03:58,710 --> 00:03:56,239

moon will set before midnight and as all

93

00:04:01,030 --> 00:03:58,720

true meteor watchers know the best

94

00:04:02,550 --> 00:04:01,040

meteor viewing hours are after midnight

95

00:04:04,630 --> 00:04:02,560

and before dawn

96

00:04:06,869 --> 00:04:04,640

for the delta aquarids the best time is

97

00:04:09,509 --> 00:04:06,879

centered around 2 a.m which would

98

00:04:12,149 --> 00:04:09,519

translate to 3 a.m daylight saving time

99

00:04:13,910 --> 00:04:12,159

for all time zones around the world

100

00:04:16,310 --> 00:04:13,920

the delta aquarium meteors tend to

101  
00:04:19,189 --> 00:04:16,320  
appear a bit fainter than the perseids

102  
00:04:21,670 --> 00:04:19,199  
and meteors seen in other major showers

103  
00:04:23,830 --> 00:04:21,680  
that makes a dark sky free of moonlight

104  
00:04:25,430 --> 00:04:23,840  
even more imperative for watching the

105  
00:04:27,189 --> 00:04:25,440  
delta aquarids

106  
00:04:29,430 --> 00:04:27,199  
the delta aquarid shower is said to

107  
00:04:31,430 --> 00:04:29,440  
favor the southern hemisphere but

108  
00:04:34,070 --> 00:04:31,440  
viewers at mid-northern latitudes will

109  
00:04:35,749 --> 00:04:34,080  
see plenty of these meteors in years

110  
00:04:38,230 --> 00:04:35,759  
when the moon is out of the way the

111  
00:04:41,030 --> 00:04:38,240  
broad maximum of this shower can be

112  
00:04:44,390 --> 00:04:41,040  
expected to produce 10 to 20 meteors per

113  
00:04:45,749 --> 00:04:44,400

hour under a dark country sky devoutly

114

00:04:47,670 --> 00:04:45,759

to be sought

115

00:04:50,310 --> 00:04:47,680

about five to ten percent of the delta

116

00:04:51,350 --> 00:04:50,320

aquarid meteors have persistent meteor

117

00:04:53,990 --> 00:04:51,360

trains

118

00:04:55,909 --> 00:04:54,000

those glowing ionized gas trails that

119

00:04:56,950 --> 00:04:55,919

last a second or two after the meteor

120

00:04:58,390 --> 00:04:56,960

has passed

121

00:05:01,430 --> 00:04:58,400

the meteors burn up in the upper

122

00:05:03,189 --> 00:05:01,440

atmosphere about 60 miles 100 kilometers

123

00:05:06,150 --> 00:05:03,199

above the earth's surface

124

00:05:08,070 --> 00:05:06,160

watch for those lingering trains and

125

00:05:10,710 --> 00:05:08,080

we'd like to toss in that if you catch a

126

00:05:13,189 --> 00:05:10,720

great shot of one of those lingering

127

00:05:16,070 --> 00:05:13,199

locomotives in the heavens you can send

128

00:05:18,310 --> 00:05:16,080

that shot to the guys at earthsky.org

129

00:05:20,310 --> 00:05:18,320

you might even end up in their gallery

130

00:05:22,029 --> 00:05:20,320

cool you can find a link to do that

131

00:05:23,830 --> 00:05:22,039

later at

132

00:05:26,150 --> 00:05:23,840

ufoheadlinenews.com you could help

133

00:05:28,310 --> 00:05:26,160

everybody out and speaking of helping

134

00:05:31,749 --> 00:05:28,320

out here's our next headline from

135

00:05:34,070 --> 00:05:31,759

mashable with a byline for marta tessima

136

00:05:36,230 --> 00:05:34,080

you can help nasa out during this

137

00:05:38,310 --> 00:05:36,240

summer's solar eclipse

138

00:05:41,350 --> 00:05:38,320

yup that major solar eclipse will be

139

00:05:43,510 --> 00:05:41,360

taking place august 21st and nasa needs

140

00:05:44,550 --> 00:05:43,520

your help when it comes to collecting

141

00:05:46,950 --> 00:05:44,560

data

142

00:05:48,550 --> 00:05:46,960

it's something called the globe program

143

00:05:50,790 --> 00:05:48,560

g-l-o-b-e

144

00:05:53,110 --> 00:05:50,800

and that stands for the global learning

145

00:05:55,830 --> 00:05:53,120

and observation to benefit the

146

00:05:57,909 --> 00:05:55,840

environment program it's an educational

147

00:06:00,390 --> 00:05:57,919

initiative supported by nasa it's

148

00:06:02,390 --> 00:06:00,400

launched an app to encourage those along

149

00:06:05,029 --> 00:06:02,400

the path of the solar eclipse to help

150

00:06:07,029 --> 00:06:05,039

contribute their findings with just a

151

00:06:09,909 --> 00:06:07,039

little bit of effort you can participate

152

00:06:11,590 --> 00:06:09,919

in an actual scientific study

153

00:06:14,070 --> 00:06:11,600

the solar eclipse will be seen across

154

00:06:16,469 --> 00:06:14,080

the continental united states and during

155

00:06:18,390 --> 00:06:16,479

august's eclipse nasa is intent on

156

00:06:20,710 --> 00:06:18,400

gathering information from folks across

157

00:06:22,710 --> 00:06:20,720

the country regarding how drastically

158

00:06:25,350 --> 00:06:22,720

temperatures will shift

159

00:06:28,070 --> 00:06:25,360

you can register as a citizen scientist

160

00:06:29,830 --> 00:06:28,080

by downloading the free globe observer

161

00:06:31,749 --> 00:06:29,840

app there will be links later at

162

00:06:34,150 --> 00:06:31,759

ufoheadlinenews.com

163

00:06:36,790 --> 00:06:34,160

and grabbing a thermometer as suggested

164

00:06:39,029 --> 00:06:36,800

by the info on that app there will be

165

00:06:41,590 --> 00:06:39,039

instructions everything you need to know

166

00:06:43,350 --> 00:06:41,600

laying out how to record and submit that

167

00:06:45,029 --> 00:06:43,360

information you gather

168

00:06:46,790 --> 00:06:45,039

and that's cool stuff

169

00:06:48,390 --> 00:06:46,800

we're figuring gentle listeners if

170

00:06:51,270 --> 00:06:48,400

you're listening to this broadcast

171

00:06:52,790 --> 00:06:51,280

you've got the right stuff so jump on in

172

00:06:54,950 --> 00:06:52,800

go for it

173

00:06:57,990 --> 00:06:54,960

speaking of heavenly things seen in the

174

00:07:00,309 --> 00:06:58,000

sky this time in argentina they knew

175

00:07:02,469 --> 00:07:00,319

what it was but it was mysterious

176

00:07:05,990 --> 00:07:02,479

nonetheless here's the headline

177

00:07:09,270 --> 00:07:06,000

argentina spectacular bolide stuns

178

00:07:11,670 --> 00:07:09,280

onlookers we get this from inexplicata

179

00:07:13,670 --> 00:07:11,680

that lovely website the journal of

180

00:07:16,390 --> 00:07:13,680

hispanic ufology

181

00:07:17,990 --> 00:07:16,400

the intensely bright light was seen in

182

00:07:20,629 --> 00:07:18,000

the heavens over many parts of the

183

00:07:24,070 --> 00:07:20,639

country theories emerged and they now

184

00:07:26,710 --> 00:07:24,080

have the answer to what was it it was a

185

00:07:29,189 --> 00:07:26,720

bolide the skies over argentina were

186

00:07:30,790 --> 00:07:29,199

illuminated for a few seconds startling

187

00:07:32,629 --> 00:07:30,800

people who were able to see this from

188

00:07:35,510 --> 00:07:32,639

various parts of the country

189

00:07:38,150 --> 00:07:35,520

they were thinking what is this a ufo a

190

00:07:40,550 --> 00:07:38,160

shooting star people wondered but there

191

00:07:43,350 --> 00:07:40,560

was that other solution

192

00:07:45,430 --> 00:07:43,360

quote it was a space rock a bolide these

193

00:07:48,070 --> 00:07:45,440

are rocks larger than the palm of one's

194

00:07:50,710 --> 00:07:48,080

hand which disintegrate at high altitude

195

00:07:52,309 --> 00:07:50,720

as they enter our atmosphere end quotes

196

00:07:54,469 --> 00:07:52,319

that's an explanation from jorge

197

00:07:58,390 --> 00:07:54,479

coughlin he's astronomer and board

198

00:08:00,950 --> 00:07:58,400

member at the centro de abzovadores

199

00:08:01,830 --> 00:08:00,960

the space watch center he continues a

200

00:08:04,150 --> 00:08:01,840

quote

201

00:08:06,629 --> 00:08:04,160

given that it was a large rock it can

202

00:08:08,550 --> 00:08:06,639

even light up the earth as it enters the

203

00:08:10,629 --> 00:08:08,560

atmosphere end quotes

204

00:08:14,790 --> 00:08:10,639

this is the translation from guillermo

205

00:08:17,110 --> 00:08:14,800

jimenez and buenos aires muchas gracias

206

00:08:19,909 --> 00:08:17,120

a shift in trajectory now let's go to

207

00:08:23,029 --> 00:08:19,919

australia where we find this headline

208

00:08:24,309 --> 00:08:23,039

aviation experts at loss over a parent

209

00:08:26,390 --> 00:08:24,319

ufo

210

00:08:29,029 --> 00:08:26,400

this is written by bryn kay

211

00:08:31,189 --> 00:08:29,039

out of the manly daily

212

00:08:33,029 --> 00:08:31,199

mystery surrounds a possible ufo

213

00:08:35,190 --> 00:08:33,039

sighting photographed by people in the

214

00:08:37,990 --> 00:08:35,200

northern beaches this month

215

00:08:40,630 --> 00:08:38,000

from narabine gus madero captured a

216

00:08:42,870 --> 00:08:40,640

close-up shot of the bizarre object and

217

00:08:45,990 --> 00:08:42,880

he was one of several witnesses at a

218

00:08:48,230 --> 00:08:46,000

loss to explain it the civil aviation

219

00:08:51,590 --> 00:08:48,240

safety authority has also described this

220

00:08:54,230 --> 00:08:51,600

object as a quote mystery end quotes

221

00:08:57,509 --> 00:08:54,240

mr madero was taking sunrise photos at

222

00:09:00,470 --> 00:08:57,519

avalon's bangley head on july 5th about

223

00:09:04,470 --> 00:09:00,480

7 am when his camera also captured a

224

00:09:06,389 --> 00:09:04,480

large white dot in the sky above the sun

225

00:09:09,430 --> 00:09:06,399

madero said the unidentified object

226

00:09:11,590 --> 00:09:09,440

looked to have quote four jet streams

227

00:09:13,509 --> 00:09:11,600

coming out end quotes

228

00:09:15,990 --> 00:09:13,519

he continued quote i've never seen

229

00:09:18,630 --> 00:09:16,000

anything like it i can't really give you

230

00:09:21,110 --> 00:09:18,640

a definitive answer on what it was in

231

00:09:23,750 --> 00:09:21,120

quotes gus madero said the object which

232

00:09:26,949 --> 00:09:23,760

was moving upwards was most likely a

233

00:09:29,269 --> 00:09:26,959

satellite if he was pressed for a guess

234

00:09:31,190 --> 00:09:29,279

from cromer blake hurst also took

235

00:09:35,590 --> 00:09:31,200

photographs of this object at a place

236

00:09:37,910 --> 00:09:35,600

called d-y beach let's spell that d-e-e

237

00:09:38,790 --> 00:09:37,920

second word w-h-y

238

00:09:43,269 --> 00:09:38,800

beach

239

00:09:45,670 --> 00:09:43,279

that time said he noticed an object move

240

00:09:48,389 --> 00:09:45,680

from one side of the rising sun to the

241

00:09:50,870 --> 00:09:48,399

other before it disappeared upwards into

242

00:09:53,269 --> 00:09:50,880

the atmosphere he said quote it's the

243

00:09:55,829 --> 00:09:53,279

strangest thing i've ever seen i'm not

244

00:09:57,829 --> 00:09:55,839

one to believe in ufos or ghosts or

245

00:09:59,990 --> 00:09:57,839

anything like that but this makes you

246

00:10:02,310 --> 00:10:00,000

wonder some guy made a joke that it was

247

00:10:03,430 --> 00:10:02,320

the north koreans sending a missile end

248

00:10:04,949 --> 00:10:03,440

quotes

249

00:10:07,990 --> 00:10:04,959

asked if he thought it could have been a

250

00:10:09,829 --> 00:10:08,000

drone or a plane blake hurst replied

251

00:10:11,030 --> 00:10:09,839

quote the way it took off and shot up

252

00:10:13,190 --> 00:10:11,040

into space

253

00:10:15,509 --> 00:10:13,200

it could have been a drone but i don't

254

00:10:17,910 --> 00:10:15,519

know it seemed it was going way too fast

255

00:10:20,150 --> 00:10:17,920

to be a drone this was going faster than

256

00:10:21,910 --> 00:10:20,160

an airplane end quotes

257

00:10:25,110 --> 00:10:21,920

hearst said it looked like lights were

258

00:10:27,590 --> 00:10:25,120

flashing on and off from this object

259

00:10:30,150 --> 00:10:27,600

and in bellrose a woman named bernice

260

00:10:32,790 --> 00:10:30,160

kampf also saw this object from her home

261

00:10:34,470 --> 00:10:32,800

she believed it to be space junk

262

00:10:36,550 --> 00:10:34,480

a spokesman for the civil aviation

263

00:10:39,110 --> 00:10:36,560

safety authority viewed photos of this

264

00:10:40,310 --> 00:10:39,120

object and said it was a mystery as to

265

00:10:42,150 --> 00:10:40,320

what it was

266

00:10:44,069 --> 00:10:42,160

quote at that time of the morning the

267

00:10:47,110 --> 00:10:44,079

light often makes things look different

268

00:10:49,350 --> 00:10:47,120

than they are these suspicious sightings

269

00:10:51,670 --> 00:10:49,360

come after someone else photographed a

270

00:10:55,829 --> 00:10:51,680

similar looking strange light hovering

271

00:10:59,030 --> 00:10:55,839

above that morning sunrise back in 2014.

272

00:11:02,230 --> 00:10:59,040

so there's lots going on in the skies

273

00:11:04,389 --> 00:11:02,240

down under let's go up over over

274

00:11:06,790 --> 00:11:04,399

watlington in the united kingdom where

275

00:11:09,750 --> 00:11:06,800

we find this headline bright white

276

00:11:12,310 --> 00:11:09,760

lights over wattlington kingsland on

277

00:11:14,630 --> 00:11:12,320

july 21st 2017.

278

00:11:15,870 --> 00:11:14,640

we picked this up from the website uk

279

00:11:18,550 --> 00:11:15,880

hyphen

280

00:11:20,310 --> 00:11:18,560

ufo.com dot uk

281

00:11:22,389 --> 00:11:20,320

location of the sighting well over

282

00:11:24,949 --> 00:11:22,399

wattlington kingslin

283

00:11:27,829 --> 00:11:24,959

the time was 2 43 am

284

00:11:30,550 --> 00:11:27,839

the witness has a name here daniel b

285

00:11:32,710 --> 00:11:30,560

and here's what daniel b saw

286

00:11:35,829 --> 00:11:32,720

looking up into the clear night sky i'm

287

00:11:38,470 --> 00:11:35,839

viewing stars and i see a flash and

288

00:11:40,069 --> 00:11:38,480

notice a bright white light start moving

289

00:11:42,550 --> 00:11:40,079

across the sky

290

00:11:44,949 --> 00:11:42,560

it moved like a star moves but it would

291

00:11:47,910 --> 00:11:44,959

periodically disappear and alter

292

00:11:50,310 --> 00:11:47,920

direction by 90 degrees

293

00:11:52,310 --> 00:11:50,320

it looks like it's just at atmospheric

294

00:11:55,350 --> 00:11:52,320

height and then it goes off out of the

295

00:11:57,509 --> 00:11:55,360

atmosphere and i see another one the

296

00:11:59,350 --> 00:11:57,519

same traveling in totally different

297

00:12:01,030 --> 00:11:59,360

areas of the night sky

298

00:12:03,350 --> 00:12:01,040

when i observe this for a few minutes

299

00:12:05,269 --> 00:12:03,360

then i can't see it anymore

300

00:12:07,430 --> 00:12:05,279

and then in one case out of the east

301  
00:12:10,069 --> 00:12:07,440  
comes a very bright white light it

302  
00:12:12,790 --> 00:12:10,079  
begins to move across the sky at a lower

303  
00:12:15,509 --> 00:12:12,800  
height probably one thousand feet

304  
00:12:17,750 --> 00:12:15,519  
i watched this then go across from left

305  
00:12:19,350 --> 00:12:17,760  
to the right of me about three minutes

306  
00:12:21,509 --> 00:12:19,360  
totally silent

307  
00:12:23,509 --> 00:12:21,519  
it wasn't a chinese lantern and it

308  
00:12:25,269 --> 00:12:23,519  
wasn't a helicopter

309  
00:12:27,590 --> 00:12:25,279  
i've witnessed plenty of planes flying

310  
00:12:29,750 --> 00:12:27,600  
at usual plane altitudes and with

311  
00:12:32,230 --> 00:12:29,760  
numerous flashing lights anybody

312  
00:12:35,190 --> 00:12:32,240  
witnessing this would clearly have been

313  
00:12:37,350 --> 00:12:35,200

able to differentiate between them

314

00:12:39,430 --> 00:12:37,360

a uk mystery

315

00:12:41,430 --> 00:12:39,440

go back in time in your mind just a few

316

00:12:43,829 --> 00:12:41,440

days to the stories coming out of

317

00:12:46,389 --> 00:12:43,839

cornwall mysterious object seen in

318

00:12:49,590 --> 00:12:46,399

various parts of that area and over the

319

00:12:51,990 --> 00:12:49,600

a-30 a much traveled road

320

00:12:54,949 --> 00:12:52,000

here's why we shouldn't be worried at

321

00:12:56,829 --> 00:12:54,959

all about that morphing ufo that's the

322

00:12:59,190 --> 00:12:56,839

headline it's from

323

00:13:01,190 --> 00:12:59,200

sciencealert.com with a byline for

324

00:13:02,870 --> 00:13:01,200

hacinta bowler

325

00:13:04,389 --> 00:13:02,880

if you've been keeping up with the news

326

00:13:07,430 --> 00:13:04,399

in the united kingdom you might have

327

00:13:09,509 --> 00:13:07,440

heard about a morphing ufo appearing at

328

00:13:10,629 --> 00:13:09,519

a number of locations across cornwall

329

00:13:12,790 --> 00:13:10,639

last week

330

00:13:15,670 --> 00:13:12,800

and here's what she writes we're telling

331

00:13:18,389 --> 00:13:15,680

you guys straight up this is not aliens

332

00:13:19,829 --> 00:13:18,399

despite some hashtags on the footage

333

00:13:22,470 --> 00:13:19,839

while it's a little annoying that we're

334

00:13:25,190 --> 00:13:22,480

not any closer to actual aliens the

335

00:13:27,269 --> 00:13:25,200

footage itself she says is pretty damn

336

00:13:30,949 --> 00:13:27,279

cool and you can check out that footage

337

00:13:34,629 --> 00:13:32,949

so we already know it's not aliens but

338

00:13:36,629 --> 00:13:34,639

what was it

339

00:13:39,590 --> 00:13:36,639

was it something called a bird

340

00:13:43,030 --> 00:13:39,600

murmuration done by a special type of

341

00:13:44,710 --> 00:13:43,040

flock of starlings a really really big

342

00:13:46,550 --> 00:13:44,720

insect swarm

343

00:13:48,550 --> 00:13:46,560

neither of those things makes sense over

344

00:13:51,110 --> 00:13:48,560

the time frame which had footage being

345

00:13:53,430 --> 00:13:51,120

uploaded over a number of days

346

00:13:55,829 --> 00:13:53,440

well as both twitter and instagram

347

00:13:57,829 --> 00:13:55,839

commenters pointed out unfortunately

348

00:14:00,389 --> 00:13:57,839

it's nothing that cool

349

00:14:03,110 --> 00:14:00,399

instead it appears that now it is a

350

00:14:05,269 --> 00:14:03,120

likely giant publicity stunt for

351

00:14:08,069 --> 00:14:05,279

something called the eden project a

352

00:14:10,230 --> 00:14:08,079

botanical garden in cornwall

353

00:14:12,310 --> 00:14:10,240

speaking to the sun online a

354

00:14:14,470 --> 00:14:12,320

spokesperson for that project said it's

355

00:14:16,870 --> 00:14:14,480

true we have a galaxy of ways to tell

356

00:14:19,110 --> 00:14:16,880

the story of space at eden this summer

357

00:14:22,310 --> 00:14:19,120

end quotes and then they said to coin a

358

00:14:24,870 --> 00:14:22,320

phrase the truth is out there end quotes

359

00:14:27,430 --> 00:14:24,880

if that spokesperson's words for the

360

00:14:29,750 --> 00:14:27,440

space at eden project this summer sounds

361

00:14:32,150 --> 00:14:29,760

familiar we refer to it last week when

362

00:14:33,750 --> 00:14:32,160

we initially covered this story

363

00:14:36,230 --> 00:14:33,760

although we don't have much information

364

00:14:38,310 --> 00:14:36,240

to go on at this stage it's now assumed

365

00:14:40,710 --> 00:14:38,320

that these videos have been doctored

366

to even see a mention of the bird

396

00:15:44,470 --> 00:15:41,199

murmuration something we had discovered

397

00:15:46,870 --> 00:15:44,480

online years ago bookmarks now in some

398

00:15:48,949 --> 00:15:46,880

place unknown but at the time we were

399

00:15:51,430 --> 00:15:48,959

stricken by the fact that these groups

400

00:15:53,350 --> 00:15:51,440

of birds could morph and twist and

401  
00:15:57,110 --> 00:15:53,360  
easily be mistaken for something much

402  
00:16:00,470 --> 00:15:57,120  
more mysterious and yep alien

403  
00:16:02,629 --> 00:16:00,480  
let's jump across a lot of water now and

404  
00:16:05,189 --> 00:16:02,639  
hover over surrey british columbia

405  
00:16:07,749 --> 00:16:05,199  
canada that's the setting for mufon

406  
00:16:11,350 --> 00:16:07,759  
sighting number 85328

407  
00:16:15,189 --> 00:16:11,360  
the date of this sighting is 7 16 2017

408  
00:16:16,629 --> 00:16:15,199  
submitted 7 24 2017.

409  
00:16:19,990 --> 00:16:16,639  
here's the summary

410  
00:16:21,829 --> 00:16:20,000  
ufo south over surrey heading towards

411  
00:16:23,910 --> 00:16:21,839  
washington state

412  
00:16:26,550 --> 00:16:23,920  
citing specifics offer a viewing

413  
00:16:29,509 --> 00:16:26,560

distance over one mile the altitude was

414

00:16:31,110 --> 00:16:29,519

over 500 feet without cloud cover

415

00:16:33,590 --> 00:16:31,120

the sighting duration in this incident

416

00:16:34,870 --> 00:16:33,600

was two minutes the object features

417

00:16:37,990 --> 00:16:34,880

unknown

418

00:16:40,069 --> 00:16:38,000

object flight path hovering then path

419

00:16:42,150 --> 00:16:40,079

and this object is said to have been

420

00:16:44,550 --> 00:16:42,160

star-like in shape

421

00:16:47,670 --> 00:16:44,560

here's what happened my wife and i went

422

00:16:50,710 --> 00:16:47,680

outside our home on 169th street in

423

00:16:52,629 --> 00:16:50,720

surrey it was july 16th at 12 p.m we

424

00:16:54,069 --> 00:16:52,639

were going to watch the aurora that was

425

00:16:56,550 --> 00:16:54,079

supposed to be visible in the

426

00:16:59,269 --> 00:16:56,560

metropolitan vancouver area

427

00:17:02,550 --> 00:16:59,279

at that point we both spotted a glowing

428

00:17:04,470 --> 00:17:02,560

circular starlight craft this craft was

429

00:17:06,870 --> 00:17:04,480

at a high altitude

430

00:17:09,829 --> 00:17:06,880

the light was high to the east of us and

431

00:17:12,949 --> 00:17:09,839

it appeared to be star-like this craft

432

00:17:15,350 --> 00:17:12,959

however was moving at significant speed

433

00:17:17,270 --> 00:17:15,360

and it was a solid glow there were no

434

00:17:20,630 --> 00:17:17,280

blinking lights and this thing was

435

00:17:23,829 --> 00:17:20,640

moving far too quickly to be a plane

436

00:17:27,270 --> 00:17:23,839

the ufo made a swift move in what i can

437

00:17:30,789 --> 00:17:27,280

only describe as a sine wave formation

438

00:17:33,270 --> 00:17:30,799

once it went up and down with incredible

439

00:17:35,430 --> 00:17:33,280  
speed and then it carried on its

440

00:17:37,190 --> 00:17:35,440  
straight flight path before it vanished

441

00:17:37,990 --> 00:17:37,200  
completely

442

00:17:40,390 --> 00:17:38,000  
hmm

443

00:17:43,830 --> 00:17:40,400  
extraterrestrials wanting to watch the

444

00:17:46,470 --> 00:17:43,840  
aurora as well just guessing

445

00:17:49,190 --> 00:17:46,480  
with a shift in trajectory once again

446

00:17:52,070 --> 00:17:49,200  
we're now in florida where a sighting

447

00:17:55,350 --> 00:17:52,080  
happened over an unidentified city

448

00:17:59,190 --> 00:17:55,360  
it's mufon case number 85329

449

00:18:00,710 --> 00:17:59,200  
the date of this sighting is 7 5 2016

450

00:18:03,590 --> 00:18:00,720  
but for some reason the witness didn't

451  
00:18:04,710 --> 00:18:03,600  
report it till this year on the 24th of

452  
00:18:05,909 --> 00:18:04,720  
july

453  
00:18:08,630 --> 00:18:05,919  
the summary

454  
00:18:10,789 --> 00:18:08,640  
noticed a cylinder reflecting light

455  
00:18:14,070 --> 00:18:10,799  
too large to be a balloon

456  
00:18:17,750 --> 00:18:14,080  
descending through clouds against wind

457  
00:18:19,510 --> 00:18:17,760  
straight down slowly or hovering

458  
00:18:22,710 --> 00:18:19,520  
there is video that accompanies this

459  
00:18:24,070 --> 00:18:22,720  
report and it's very cool footage we

460  
00:18:27,590 --> 00:18:24,080  
would have thought this was just a

461  
00:18:29,190 --> 00:18:27,600  
planet perhaps venus but then it moves

462  
00:18:32,470 --> 00:18:29,200  
sighting specifics include a viewing

463  
00:18:35,029 --> 00:18:32,480

distance of 501 feet to a mile the

464

00:18:37,510 --> 00:18:35,039

altitude was 500 feet or less

465

00:18:39,590 --> 00:18:37,520

the sighting duration 15 minutes

466

00:18:42,230 --> 00:18:39,600

object features none

467

00:18:44,070 --> 00:18:42,240

the flight path unknown and this object

468

00:18:45,270 --> 00:18:44,080

is said to have been shaped like a

469

00:18:47,909 --> 00:18:45,280

cylinder

470

00:18:50,870 --> 00:18:47,919

this unidentified city in florida that

471

00:18:53,669 --> 00:18:50,880

night had a maximum temperature of 93

472

00:18:56,150 --> 00:18:53,679

degrees fahrenheit 34 degrees celsius

473

00:18:59,029 --> 00:18:56,160

down to a minimum of 73 degrees

474

00:19:00,950 --> 00:18:59,039

fahrenheit 23 degrees celsius

475

00:19:03,669 --> 00:19:00,960

nothing striking in the visibility

476

00:19:06,789 --> 00:19:03,679

factors they were all the same 10 miles

477

00:19:08,789 --> 00:19:06,799

16 kilometers and there were no abnormal

478

00:19:11,909 --> 00:19:08,799

weather conditions at the time of the

479

00:19:13,430 --> 00:19:11,919

event here is the event

480

00:19:15,830 --> 00:19:13,440

while in the car

481

00:19:18,390 --> 00:19:15,840

i noticed a reflective silver cylinder

482

00:19:21,190 --> 00:19:18,400

to the west slowly descending through

483

00:19:23,430 --> 00:19:21,200

the clouds not moving with them in other

484

00:19:26,070 --> 00:19:23,440

words it was traveling against the upper

485

00:19:27,830 --> 00:19:26,080

winds heading straight down into the

486

00:19:30,390 --> 00:19:27,840

gulf of mexico

487

00:19:32,150 --> 00:19:30,400

it moved so slowly i was able to turn

488

00:19:34,150 --> 00:19:32,160

around to go to the end of the street

489

00:19:37,350 --> 00:19:34,160

facing the gulf so my young daughter

490

00:19:40,310 --> 00:19:37,360

could film it with my ig-10 phone

491

00:19:42,630 --> 00:19:40,320

i have the video and you can see the ufo

492

00:19:45,350 --> 00:19:42,640

clearly when she zooms in

493

00:19:48,150 --> 00:19:45,360

oh yes you can gentle listeners it was a

494

00:19:49,190 --> 00:19:48,160

cylinder too far away and too big to be

495

00:19:54,310 --> 00:19:49,200

a balloon

496

00:19:55,430 --> 00:19:54,320

the wind not against it to maintain its

497

00:19:57,990 --> 00:19:55,440

path

498

00:20:00,310 --> 00:19:58,000

we do get black helicopters flying in

499

00:20:03,750 --> 00:20:00,320

this area in fact i originally posted

500

00:20:07,029 --> 00:20:03,760

this to my facebook page back on july 13

501  
00:20:08,549 --> 00:20:07,039  
2016 and i tagged it ufo

502  
00:20:10,950 --> 00:20:08,559  
but i just found out about

503  
00:20:13,510 --> 00:20:10,960  
ufostalker.com

504  
00:20:15,750 --> 00:20:13,520  
or i would have submitted this sooner

505  
00:20:17,990 --> 00:20:15,760  
we're kind of down with that idea of

506  
00:20:20,150 --> 00:20:18,000  
submitting it posting it logging it

507  
00:20:22,470 --> 00:20:20,160  
somewhere you never know who else in

508  
00:20:24,870 --> 00:20:22,480  
your area might have seen the same thing

509  
00:20:26,230 --> 00:20:24,880  
and you can put your heads together and

510  
00:20:29,909 --> 00:20:26,240  
figure it out

511  
00:20:32,350 --> 00:20:29,919  
let's figure our way up to salem oregon

512  
00:20:34,390 --> 00:20:32,360  
where move on case number

513  
00:20:36,390 --> 00:20:34,400

85315 took place

514

00:20:39,110 --> 00:20:36,400

the date of this sighting is the 23rd of

515

00:20:40,310 --> 00:20:39,120

july this year and it got a next day

516

00:20:41,750 --> 00:20:40,320

report

517

00:20:45,590 --> 00:20:41,760

in summary

518

00:20:47,110 --> 00:20:45,600

fast moving orb at around 3 000 feet in

519

00:20:48,950 --> 00:20:47,120

the sky

520

00:20:51,990 --> 00:20:48,960

viewing distance unknown

521

00:20:52,950 --> 00:20:52,000

altitude over 500 feet without cloud

522

00:20:54,950 --> 00:20:52,960

cover

523

00:20:56,230 --> 00:20:54,960

the sighting duration was one minute and

524

00:20:58,390 --> 00:20:56,240

two seconds

525

00:21:00,710 --> 00:20:58,400

this object has features that are

526  
00:21:03,350 --> 00:21:00,720  
vaguely described as unknown

527  
00:21:06,549 --> 00:21:03,360  
the flight path was a straight line path

528  
00:21:08,149 --> 00:21:06,559  
and the shape of this object was sphere

529  
00:21:10,310 --> 00:21:08,159  
there isn't any meteorology that

530  
00:21:12,710 --> 00:21:10,320  
accompanies this event so let's just

531  
00:21:14,549 --> 00:21:12,720  
jump right into the sighting

532  
00:21:17,029 --> 00:21:14,559  
i was sitting in my office on the second

533  
00:21:19,029 --> 00:21:17,039  
floor in my home i have a window in

534  
00:21:22,149 --> 00:21:19,039  
front of my computer screen

535  
00:21:24,230 --> 00:21:22,159  
and i saw a fast moving orb it was

536  
00:21:27,270 --> 00:21:24,240  
moving towards the south east

537  
00:21:29,909 --> 00:21:27,280  
there was no streak no comet tail and

538  
00:21:32,630 --> 00:21:29,919

this object definitely wasn't a plane it

539

00:21:34,710 --> 00:21:32,640  
was moving way too fast for that

540

00:21:38,070 --> 00:21:34,720  
i did notice an airplane flying at

541

00:21:39,909 --> 00:21:38,080  
roughly 32 000 feet further to the south

542

00:21:41,750 --> 00:21:39,919  
and i know this object wasn't anywhere

543

00:21:44,230 --> 00:21:41,760  
near that high up

544

00:21:46,630 --> 00:21:44,240  
it had to be roughly around 3 000 feet

545

00:21:51,110 --> 00:21:46,640  
up to be as small as it was but it

546

00:21:53,110 --> 00:21:51,120  
shined brighter than any star in the sky

547

00:21:55,830 --> 00:21:53,120  
when i was in my early 20s living in

548

00:21:58,149 --> 00:21:55,840  
michigan i witnessed another orb and

549

00:21:59,029 --> 00:21:58,159  
that one dropped out of the sky straight

550

00:22:01,110 --> 00:21:59,039  
down

551  
00:22:04,310 --> 00:22:01,120  
that orb at that time was at least 20

552  
00:22:06,789 --> 00:22:04,320  
miles out and it dropped light it looked

553  
00:22:09,510 --> 00:22:06,799  
like someone dropping a flashlight

554  
00:22:12,070 --> 00:22:09,520  
this orb wasn't that far out but it did

555  
00:22:13,510 --> 00:22:12,080  
remind me of the initial ore i witnessed

556  
00:22:15,669 --> 00:22:13,520  
back then

557  
00:22:17,990 --> 00:22:15,679  
it's only been 20 minutes or so since i

558  
00:22:20,710 --> 00:22:18,000  
saw the one i'm reporting now there

559  
00:22:21,750 --> 00:22:20,720  
might be more witnesses coming forward

560  
00:22:23,750 --> 00:22:21,760  
soon

561  
00:22:25,430 --> 00:22:23,760  
yep that's a cool feature about

565

00:22:36,149 --> 00:22:33,200

here's another mysterious unidentified

566

00:22:39,430 --> 00:22:36,159

city this time in the state of montana

567

00:22:43,110 --> 00:22:39,440

july 23 2017 is the date of the sighting

569

00:22:49,350 --> 00:22:46,640

and it was reported july 24th

570

00:22:52,950 --> 00:22:49,360

there's a summary insane amounts of

571

00:22:55,350 --> 00:22:52,960

activity and one gigantic over a mile

572

00:22:57,909 --> 00:22:55,360

long mothership

573

00:22:59,990 --> 00:22:57,919

wow there's video here but don't be

574

00:23:03,590 --> 00:23:00,000

looking for that mothership in fact it's

575

00:23:05,909 --> 00:23:03,600

lots of dark black video about 33

576

00:23:08,149 --> 00:23:05,919

seconds in there'll be a flash that will

577

00:23:11,110 --> 00:23:08,159

come from the bottom of your screen

578

00:23:14,390 --> 00:23:11,120

about a third of the way over and go up

579

00:23:15,909 --> 00:23:14,400

in such uh well if you blink you miss it

580

00:23:18,470 --> 00:23:15,919

that's all we can say

581

00:23:21,830 --> 00:23:18,480

sighting specifics viewing distance over

582

00:23:25,029 --> 00:23:21,840

one mile altitude 500 feet or less and

583

00:23:28,230 --> 00:23:25,039

then over 500 feet underneath a cloud

584

00:23:29,430 --> 00:23:28,240

cover and then over 500 feet without

585

00:23:31,909 --> 00:23:29,440

cloud cover

586

00:23:34,230 --> 00:23:31,919

the siding duration was one hour

587

00:23:37,270 --> 00:23:34,240

the object features unknown

588

00:23:39,990 --> 00:23:37,280

flight path hovering then path and this

589

00:23:43,750 --> 00:23:40,000

object well our witness says shaped like

590

00:23:46,549 --> 00:23:43,760

a boomerang better eyes than we have the

591

00:23:49,270 --> 00:23:46,559

maximum temperature was 96 degrees

592

00:23:52,070 --> 00:23:49,280

fahrenheit 36 degrees celsius dropping

593

00:23:54,870 --> 00:23:52,080

down to a minimum in that mysterious

594

00:23:58,390 --> 00:23:54,880

undisclosed city in montana of 58

595

00:24:01,029 --> 00:23:58,400

degrees fahrenheit 14 degrees celsius

596

00:24:03,990 --> 00:24:01,039

maximum mean minimum visibility

597

00:24:07,029 --> 00:24:04,000

standards all the same 10 miles 16

598

00:24:08,390 --> 00:24:07,039

kilometers and at the time of this event

599

00:24:10,950 --> 00:24:08,400

there didn't seem to be anything

600

00:24:13,190 --> 00:24:10,960

abnormal weather-wise

601  
00:24:15,110 --> 00:24:13,200  
here is the event it's written more or

602  
00:24:18,390 --> 00:24:15,120  
less in phrases

603  
00:24:20,630 --> 00:24:18,400  
standing outside old farmhouse just

604  
00:24:21,669 --> 00:24:20,640  
looking at the stars noticed lots of

605  
00:24:24,710 --> 00:24:21,679  
lights

606  
00:24:27,830 --> 00:24:24,720  
a ufo for sure

607  
00:24:31,350 --> 00:24:27,840  
multiple orbs darting through the sky

608  
00:24:34,390 --> 00:24:31,360  
then one giant mothership moving almost

609  
00:24:37,590 --> 00:24:34,400  
landing then moving off to the west

610  
00:24:40,230 --> 00:24:37,600  
here's what i felt headache nausea and

611  
00:24:43,029 --> 00:24:40,240  
then just utter shh

612  
00:24:46,390 --> 00:24:43,039  
spelled s-h-h-h

613  
00:24:48,950 --> 00:24:46,400

just headed west and dissipated

614

00:24:51,590 --> 00:24:48,960

and that's all the witness wrote which

615

00:24:54,070 --> 00:24:51,600

is a good thing because

616

00:24:56,470 --> 00:24:54,080
