3
00:00:08,629 --> 00:00:05,680
hello it's wednesday july 26 2017. you

4
00:00:11,030 --> 00:00:08,639
are listening to inception radio network

5
00:00:15,669 --> 00:00:11,040
voice of the fringe majority this is

6
00:00:22,790 --> 00:00:18,790
may we have a drum roll please the star

7
00:00:25,269 --> 00:00:22,800
of the week vega the harp star nope not

8
00:00:26,790 --> 00:00:25,279
your hollywood star not at all from

9
00:00:29,910 --> 00:00:26,800
earthsky.org

10
00:00:31,990 --> 00:00:29,920
comes this the beautiful blue white star

11
00:00:34,630 --> 00:00:32,000
vega has a special place in the heart of

12
00:00:38,069 --> 00:00:34,640
many sky watchers come to know it and

13
00:00:40,389 --> 00:00:38,079

you'll see why so here's how to see vega

14

00:00:42,709 --> 00:00:40,399

observers in the northern hemisphere can

15

00:00:45,030 --> 00:00:42,719

see the star vega come into view in the

16

00:00:46,229 --> 00:00:45,040

northeast in mid-evening starting in the

17

00:00:48,389 --> 00:00:46,239

month of may

18

00:00:51,190 --> 00:00:48,399

look for this star in the very early

19

00:00:53,350 --> 00:00:51,200

evening in june then in the autumn it'll

20

00:00:55,590 --> 00:00:53,360

be high overhead in the northwest

21

00:00:58,389 --> 00:00:55,600

quadrant of sky that's where you'll find

22

00:00:59,990 --> 00:00:58,399

it in december but it's up there yep

23

00:01:01,910 --> 00:01:00,000

right about now

24

00:01:04,149 --> 00:01:01,920

vegas easily recognizable for its

25

00:01:05,670 --> 00:01:04,159

brilliance and its blue white color you

26
00:01:08,469 --> 00:01:05,680
can also easily pick out its

27
00:01:11,510 --> 00:01:08,479
constellation lira it's small and

28
00:01:13,990 --> 00:01:11,520
compact and consists primarily of vega

29
00:01:16,550 --> 00:01:14,000
and four fainter stars in the form of a

30
00:01:18,950 --> 00:01:16,560
parallelogram that little constellation

31
00:01:22,789 --> 00:01:18,960
lyra has some interesting features

32
00:01:25,670 --> 00:01:22,799
near vega is epsilon lirai the famed

33
00:01:28,710 --> 00:01:25,680
double double star between the gamma and

34
00:01:31,030 --> 00:01:28,720
beta stars is the famous ring nebula

35
00:01:33,510 --> 00:01:31,040
visible in small telescopes

36
00:01:36,310 --> 00:01:33,520
vega is one of three stars in an

37
00:01:39,030 --> 00:01:36,320
asterism one of those noticeable star

38
00:01:41,350 --> 00:01:39,040

patterns it's called the summer triangle

39

00:01:43,429 --> 00:01:41,360

it's in the early evening sky

40

00:01:45,350 --> 00:01:43,439

the two other stars in that triangle

41

00:01:47,190 --> 00:01:45,360

deneb and altair

42

00:01:49,350 --> 00:01:47,200

you can see the summer triangle in the

43

00:01:51,429 --> 00:01:49,360

evening starting as early as june

44

00:01:54,389 --> 00:01:51,439

through the end of each year here's a

45

00:01:55,350 --> 00:01:54,399

cool tidbit about vega in history and

46

00:01:57,910 --> 00:01:55,360

myth

47

00:02:00,389 --> 00:01:57,920

in western skylore vega's constellation

48

00:02:03,270 --> 00:02:00,399

lira is said to be the harp played by

49

00:02:05,510 --> 00:02:03,280

the legendary greek musician orpheus

50

00:02:07,990 --> 00:02:05,520

it's said that when orpheus played this

51
00:02:08,869 --> 00:02:08,000
harp neither god nor mortal could turn

52
00:02:11,990 --> 00:02:08,879
away

53
00:02:13,990 --> 00:02:12,000
vega is sometimes called the harp star

54
00:02:16,229 --> 00:02:14,000
but the most beautiful story relating to

55
00:02:19,270 --> 00:02:16,239
vega comes from asia there are many

56
00:02:22,309 --> 00:02:19,280
variations in japan vega is sometimes

57
00:02:25,430 --> 00:02:22,319
called tanabata a celestial princess or

58
00:02:28,630 --> 00:02:25,440
goddess she falls in love with a mortal

59
00:02:31,030 --> 00:02:28,640
kangu represented by the star altair

60
00:02:33,670 --> 00:02:31,040
but when tanabata's father finds out he

61
00:02:35,270 --> 00:02:33,680
is enraged and forbids her to see this

62
00:02:37,190 --> 00:02:35,280
mere mortal

63
00:02:39,509 --> 00:02:37,200

thus the two lovers are placed in the

64

00:02:42,150 --> 00:02:39,519

sky where they are separated by the

65

00:02:43,190 --> 00:02:42,160

celestial river known to us as the milky

66

00:02:45,750 --> 00:02:43,200

way

67

00:02:48,229 --> 00:02:45,760

yet the sky gods are kind

68

00:02:51,509 --> 00:02:48,239

each year on the seventh night of the

69

00:02:53,830 --> 00:02:51,519

seventh moon a bridge of magpies forms

70

00:02:55,910 --> 00:02:53,840

across that celestial river and the two

71

00:02:58,390 --> 00:02:55,920

lovers are reunited

72

00:03:00,229 --> 00:02:58,400

sometimes kenyo's annual trip across

73

00:03:02,470 --> 00:03:00,239

that celestial river is treacherous

74

00:03:05,830 --> 00:03:02,480

though and he doesn't make it in that

75

00:03:07,910 --> 00:03:05,840

case tanabata's tears form raindrops

76

00:03:10,149 --> 00:03:07,920

that fall over japan

77

00:03:12,149 --> 00:03:10,159

many japanese celebrations of tanabata

78

00:03:13,509 --> 00:03:12,159

are held in july but sometimes they're

79

00:03:16,149 --> 00:03:13,519

held in august

80

00:03:18,630 --> 00:03:16,159

if it rains the raindrops are thought to

81

00:03:20,229 --> 00:03:18,640

be tanabata's tears because kang you

82

00:03:21,990 --> 00:03:20,239

could not meet her

83

00:03:24,869 --> 00:03:22,000

sometimes the meteors of the perseid

84

00:03:27,509 --> 00:03:24,879

shower are also said to be tanabata's

85

00:03:28,869 --> 00:03:27,519

tears that's the poetry part here's the

86

00:03:31,270 --> 00:03:28,879

science part

87

00:03:33,270 --> 00:03:31,280

vega is the fifth brightest star visible

88

00:03:34,949 --> 00:03:33,280

from earth and the third brightest

89

00:03:37,589 --> 00:03:34,959

easily visible from mid-northern

90

00:03:40,789 --> 00:03:37,599

latitudes after stars sirius and

91

00:03:43,350 --> 00:03:40,799

arcturus it's about 25 light years in

92

00:03:45,670 --> 00:03:43,360

distance it's the sixth closest of all

93

00:03:48,149 --> 00:03:45,680

the bright stars or the fifth if you

94

00:03:50,309 --> 00:03:48,159

exclude alpha centauri which isn't that

95

00:03:51,670 --> 00:03:50,319

visible easily from most of the northern

96

00:03:54,149 --> 00:03:51,680

hemisphere

97

00:03:56,550 --> 00:03:54,159

vegas distinctly blue color indicates a

98

00:03:58,710 --> 00:03:56,560

surface temperature of nearly seventeen

99

00:04:02,949 --> 00:03:58,720

thousand degrees fahrenheit making it

100

00:04:05,589 --> 00:04:02,959

about 7000 degrees hotter than our sun

101
00:04:08,789 --> 00:04:05,599
roughly 2.5 times the diameter of the

102
00:04:10,710 --> 00:04:08,799
sun and just less than that in its mass

103
00:04:12,949 --> 00:04:10,720
vegas internal pressures and

104
00:04:15,910 --> 00:04:12,959
temperatures are far greater than our

105
00:04:18,789 --> 00:04:15,920
sun making it burn its fuel faster

106
00:04:21,990 --> 00:04:18,799
this causes vega to produce 35 to 40

107
00:04:24,550 --> 00:04:22,000
times the energy of our sun and that in

108
00:04:27,430 --> 00:04:24,560
turn shortens its lifetime

109
00:04:30,310 --> 00:04:27,440
at about 500 million years vega is

110
00:04:32,710 --> 00:04:30,320
already middle aged currently it's only

111
00:04:34,790 --> 00:04:32,720
about a tenth the age of our sun and

112
00:04:36,550 --> 00:04:34,800
it's going to run out of fuel in another

113
00:04:39,189 --> 00:04:36,560

half billion years

114

00:04:43,510 --> 00:04:39,199

in astronomers speak vega is something

115

00:04:46,550 --> 00:04:43,520

called an aov main sequence star

116

00:04:49,270 --> 00:04:46,560

the ao signifies its temperature whereas

117

00:04:51,990 --> 00:04:49,280

the v is a measure of energy output or

118

00:04:55,510 --> 00:04:52,000

luminosity which indicates that vega is

119

00:04:57,670 --> 00:04:55,520

a normal star not a giant the main

120

00:04:59,270 --> 00:04:57,680

sequence part according to larry

121

00:05:02,390 --> 00:04:59,280

sessions who writes this story for

122

00:05:05,030 --> 00:05:02,400

earthsky.org that again testifies to the

123

00:05:07,830 --> 00:05:05,040

fact that vega belongs in the category

124

00:05:10,790 --> 00:05:07,840

of normal stars and that it produces

125

00:05:13,830 --> 00:05:10,800

energy through stable fusion of hydrogen

126
00:05:17,510 --> 00:05:13,840
into helium with a visual magnitude an

127
00:05:20,150 --> 00:05:17,520
apparent brightness of 0.03

128
00:05:23,110 --> 00:05:20,160
vega is only marginally dimmer than

129
00:05:26,710 --> 00:05:23,120
arcturus but with a distinctly different

130
00:05:29,430 --> 00:05:26,720
color it's cool blue whereas arcturus

131
00:05:32,469 --> 00:05:29,440
has that readiness thing going on in

132
00:05:36,390 --> 00:05:32,479
fact in antiquity ptolemy described it

133
00:05:39,110 --> 00:05:36,400
as sub rofa or slightly red

134
00:05:42,029 --> 00:05:39,120
and that should segue us into something

135
00:05:44,390 --> 00:05:42,039
else read the red planet from

136
00:05:46,629 --> 00:05:44,400
newatlas.com with a byline for david

137
00:05:48,469 --> 00:05:46,639
zondi here's this headline

138
00:05:51,430 --> 00:05:48,479

space agencies prepare for

139

00:05:53,189 --> 00:05:51,440

communications dropout as mars is cut

140

00:05:55,350 --> 00:05:53,199

off from earth

141

00:05:58,150 --> 00:05:55,360

nasa and other space agencies are

142

00:06:00,230 --> 00:05:58,160

preparing for some downtime this week as

143

00:06:03,990 --> 00:06:00,240

communications with the planet mars are

144

00:06:08,309 --> 00:06:04,000

cut off or seriously degraded on july

145

00:06:10,870 --> 00:06:08,319

27th at 1 17 gmt the red planet will be

146

00:06:13,110 --> 00:06:10,880

in conjunction with the sun

147

00:06:15,990 --> 00:06:13,120

this means that between july 22nd

148

00:06:18,150 --> 00:06:16,000

roughly to august 1st there will be so

149

00:06:20,790 --> 00:06:18,160

much radio interference from the solar

150

00:06:23,270 --> 00:06:20,800

corona that it will not be possible to

151
00:06:24,950 --> 00:06:23,280
safely transmit orders to any of the

152
00:06:26,710 --> 00:06:24,960
mars spacecraft

153
00:06:29,270 --> 00:06:26,720
there currently are eight missions from

154
00:06:32,230 --> 00:06:29,280
the united states europe and india

155
00:06:34,150 --> 00:06:32,240
operating in orbit or on the surface of

156
00:06:36,550 --> 00:06:34,160
mars and they keep in touch with their

157
00:06:39,029 --> 00:06:36,560
various mission controls through tightly

158
00:06:41,749 --> 00:06:39,039
beamed radio signals designed to convey

159
00:06:43,749 --> 00:06:41,759
commands and data as well as a tracking

160
00:06:45,029 --> 00:06:43,759
signal for the spacecraft's antennae to

161
00:06:47,110 --> 00:06:45,039
lock onto

162
00:06:49,830 --> 00:06:47,120
maintaining communications between earth

163
00:06:52,469 --> 00:06:49,840

and mars over distances of hundreds of

164

00:06:54,309 --> 00:06:52,479

millions of miles is hard enough but

165

00:06:56,710 --> 00:06:54,319

when the orbital positions of the two

166

00:07:00,150 --> 00:06:56,720

planets places them on opposite sides of

167

00:07:02,390 --> 00:07:00,160

the sun things get very dicey

168

00:07:04,950 --> 00:07:02,400

the sun is by far the most powerful

169

00:07:07,589 --> 00:07:04,960

radio source in the solar system as well

170

00:07:09,670 --> 00:07:07,599

as being extremely hot and bright

171

00:07:12,950 --> 00:07:09,680

this means that there's a danger that a

172

00:07:15,110 --> 00:07:12,960

spacecraft will lock onto the sun during

173

00:07:17,749 --> 00:07:15,120

that conjunction instead of the tracking

174

00:07:19,270 --> 00:07:17,759

signal causing communications to be lost

175

00:07:21,670 --> 00:07:19,280

entirely

176

00:07:23,670 --> 00:07:21,680

even if they are maintained it's a bit

177

00:07:26,070 --> 00:07:23,680

like two people on opposite sides of a

178

00:07:28,469 --> 00:07:26,080

giant arc lamp trying to talk to each

179

00:07:31,909 --> 00:07:28,479

other by flashing morse code from a

180

00:07:33,909 --> 00:07:31,919

couple of pen lights says this writer

181

00:07:36,309 --> 00:07:33,919

even though mars is only in conjunction

182

00:07:38,629 --> 00:07:36,319

for a brief time the sun's corona

183

00:07:41,189 --> 00:07:38,639

extends so far into space that its hot

184

00:07:43,909 --> 00:07:41,199

ionized plasma can still seriously

185

00:07:47,189 --> 00:07:43,919

interfere with signals for days before

186

00:07:49,189 --> 00:07:47,199

and after the event the problem for nasa

187

00:07:51,749 --> 00:07:49,199

and the other space agencies is how to

188

00:07:53,510 --> 00:07:51,759

handle this period of interference

189

00:07:56,790 --> 00:07:53,520

since this is a situation that has

190

00:08:00,469 --> 00:07:56,800

occurred every 26 months since mariner 9

191

00:08:02,790 --> 00:08:00,479

went into orbit around mars back in 1971

192

00:08:05,430 --> 00:08:02,800

the standard procedure is to partly

193

00:08:07,990 --> 00:08:05,440

suspend communications from earth during

194

00:08:10,629 --> 00:08:08,000

this time the orbiters and landers are

195

00:08:12,710 --> 00:08:10,639

put into autonomous mode carrying out

196

00:08:15,029 --> 00:08:12,720

only basic duties while sending

197

00:08:16,070 --> 00:08:15,039

telemetry data and status reports back

198

00:08:18,869 --> 00:08:16,080

to earth

199

00:08:21,189 --> 00:08:18,879

meanwhile mission control plays it very

200

00:08:22,790 --> 00:08:21,199

safe by not sending any commands that

201
00:08:25,189 --> 00:08:22,800
might be misinterpreted by the

202
00:08:27,749 --> 00:08:25,199
spacecraft's computers and caused them

203
00:08:31,110 --> 00:08:27,759
to do something stupid such as drive off

204
00:08:34,070 --> 00:08:31,120
a cliff or shut down their power systems

205
00:08:36,550 --> 00:08:34,080
here's a quote from hoppy price price is

206
00:08:38,870 --> 00:08:36,560
the mars program chief engineer out of

207
00:08:41,750 --> 00:08:38,880
jet propulsion laboratory in pasadena

208
00:08:44,230 --> 00:08:41,760
california quote the vehicles will stay

209
00:08:46,630 --> 00:08:44,240
active carrying out commands sent in

210
00:08:48,630 --> 00:08:46,640
advance orbiters will be making their

211
00:08:51,269 --> 00:08:48,640
science observations and transmitting

212
00:08:53,030 --> 00:08:51,279
data the rovers won't be driving but

213
00:08:56,630 --> 00:08:53,040

observations and measurements will

214

00:08:59,590 --> 00:08:56,640

continue end quotes so in spite of that

215

00:09:01,829 --> 00:08:59,600

outage not all is lost

216

00:09:05,509 --> 00:09:01,839

here's something interesting that was

217

00:09:07,269 --> 00:09:05,519

found it's from openminds.tv

218

00:09:11,110 --> 00:09:07,279

here's the headline witness says

219

00:09:14,870 --> 00:09:11,120

cloaking ufo had united states air force

220

00:09:17,590 --> 00:09:14,880

insignia this is posted by roger marsh

221

00:09:20,150 --> 00:09:17,600

a california witness at moore park

222

00:09:22,949 --> 00:09:20,160

reported watching an odd object with

223

00:09:26,550 --> 00:09:22,959

cloaking abilities with the words united

224

00:09:28,389 --> 00:09:26,560

states air force zero zero three on its

225

00:09:30,310 --> 00:09:28,399

tail stabilizer

226

00:09:33,030 --> 00:09:30,320

this comes according to testimony in

227

00:09:36,070 --> 00:09:33,040

case eight four six zero one from the

228

00:09:37,269 --> 00:09:36,080

mutual ufo network mufon their reporting

229

00:09:39,110 --> 00:09:37,279

database

230

00:09:42,949 --> 00:09:39,120

the witness was sitting in a restaurant

231

00:09:46,389 --> 00:09:42,959

drive-through lane at 11 24 a.m on june

232

00:09:47,190 --> 00:09:46,399

25th 2017 when the incident occurred

233

00:09:50,470 --> 00:09:47,200

quote

234

00:09:52,870 --> 00:09:50,480

looking right at it my eyes hurt to look

235

00:09:55,829 --> 00:09:52,880

at it end quotes the witness stated

236

00:09:57,269 --> 00:09:55,839

quote it was using some kind of neural

237

00:09:59,269 --> 00:09:57,279

confusion

238

00:10:01,110 --> 00:09:59,279

that was like trying to look at a needle

239

00:10:02,550 --> 00:10:01,120

coming at your eye

240

00:10:05,190 --> 00:10:02,560

this thing gave off some type of

241

00:10:07,350 --> 00:10:05,200

electrical interference and it seemed to

242

00:10:10,470 --> 00:10:07,360

rotate radially even though it was

243

00:10:13,190 --> 00:10:10,480

stationary it looked big enough to hold

244

00:10:14,710 --> 00:10:13,200

one or two people end quotes the witness

245

00:10:16,710 --> 00:10:14,720

stated that there were letters and

246

00:10:17,750 --> 00:10:16,720

numbers on that object that were

247

00:10:20,150 --> 00:10:17,760

readable

248

00:10:23,030 --> 00:10:20,160

he said quote i could very clearly see

249

00:10:27,910 --> 00:10:23,040

on that tail stabilizer united states

250

00:10:29,350 --> 00:10:27,920

air force or the initials usaf003

251
00:10:31,829 --> 00:10:29,360
in white paint

252
00:10:34,310 --> 00:10:31,839
they were bright silver fixtures and

253
00:10:35,269 --> 00:10:34,320
they had solid beacon lights which were

254
00:10:37,190 --> 00:10:35,279
white

255
00:10:38,630 --> 00:10:37,200
the tail moved independent of the

256
00:10:41,750 --> 00:10:38,640
fuselage

257
00:10:44,949 --> 00:10:41,760
there was a cockpit windscreen canopy it

258
00:10:47,910 --> 00:10:44,959
was non-reflective silver material and

259
00:10:50,550 --> 00:10:47,920
it had a very odd indentation

260
00:10:53,269 --> 00:10:50,560
it looked like a cookie sheet with a

261
00:10:56,470 --> 00:10:53,279
larger section around it to extend it

262
00:10:57,750 --> 00:10:56,480
almost like a top hat end quotes

263
00:11:00,389 --> 00:10:57,760

the witness seemed to think that the

264

00:11:03,030 --> 00:11:00,399

object was cloaking itself

265

00:11:06,389 --> 00:11:03,040

quote the electrical interference seemed

266

00:11:09,750 --> 00:11:06,399

to pick up it disturbed another one just

267

00:11:12,550 --> 00:11:09,760

like it that was in formation next to it

268

00:11:15,829 --> 00:11:12,560

and i could see an illusion effect and

269

00:11:17,990 --> 00:11:15,839

then nothing as the cloak re-engaged and

270

00:11:19,750 --> 00:11:18,000

they were both gone

271

00:11:23,350 --> 00:11:19,760

there was an audible pulse-like

272

00:11:25,590 --> 00:11:23,360

concussion as well i said holy blank and

273

00:11:28,069 --> 00:11:25,600

it went over the microphone to the

274

00:11:30,030 --> 00:11:28,079

drive-through guy and he said hold on

275

00:11:32,230 --> 00:11:30,040

and it definitely changed the

276

00:11:34,389 --> 00:11:32,240

electromagnetism around us

277

00:11:36,710 --> 00:11:34,399

something felt off

278

00:11:38,630 --> 00:11:36,720

the air was empty

279

00:11:40,870 --> 00:11:38,640

it felt like a rug had been pulled out

280

00:11:42,550 --> 00:11:40,880

from underneath the air

281

00:11:44,790 --> 00:11:42,560

it's hard to explain

282

00:11:46,949 --> 00:11:44,800

these objects were about 400 feet above

283

00:11:49,910 --> 00:11:46,959

the 118 overpass in moore park

284

00:11:51,190 --> 00:11:49,920

california i swear by this statement and

285

00:11:54,630 --> 00:11:51,200

its truth

286

00:11:56,710 --> 00:11:54,640

the metal looked old it was matte like

287

00:11:58,069 --> 00:11:56,720

it didn't pick up any light like high

288

00:12:00,069 --> 00:11:58,079

gloss paint

289

00:12:03,110 --> 00:12:00,079

since i got home i've been going through

290

00:12:05,829 --> 00:12:03,120

books it's good to know that it's us

291

00:12:08,550 --> 00:12:05,839

that has this stuff and quotes

292

00:12:10,790 --> 00:12:08,560

it's way back wednesday and boy have we

293

00:12:13,590 --> 00:12:10,800

got a story for you

294

00:12:15,990 --> 00:12:13,600

the information comes by way of our man

295

00:12:18,470 --> 00:12:16,000

in the high castle where does he find

296

00:12:20,949 --> 00:12:18,480

this stuff it was completely new to this

297

00:12:23,110 --> 00:12:20,959

broadcaster and perhaps it will be to

298

00:12:25,430 --> 00:12:23,120

you too gentle listeners we've got

299

00:12:27,670 --> 00:12:25,440

content from a couple of different sites

300

00:12:30,110 --> 00:12:27,680

the first one takes it a little bit more

301
00:12:32,310 --> 00:12:30,120
seriously it's from

302
00:12:34,710 --> 00:12:32,320
ufocasebook.com this material was

303
00:12:36,710 --> 00:12:34,720
compiled by richard hall

304
00:12:40,389 --> 00:12:36,720
it concerns two separate military

305
00:12:42,829 --> 00:12:40,399
facilities fort dix and fort mcguire now

306
00:12:46,230 --> 00:12:42,839
for clarity these installations were

307
00:12:48,710 --> 00:12:46,240
16.1 miles approximately apart both

308
00:12:51,190 --> 00:12:48,720
located outside the city of trenton new

309
00:12:53,430 --> 00:12:51,200
jersey both sites were ultimately

310
00:12:54,949 --> 00:12:53,440
combined but at this point they were

311
00:12:57,030 --> 00:12:54,959
somewhat separate

312
00:12:59,030 --> 00:12:57,040
here is the case

313
00:13:03,509 --> 00:12:59,040

during the early morning hours of

314

00:13:07,030 --> 00:13:03,519

january 18 1978 ufos were cited flying

315

00:13:09,190 --> 00:13:07,040

over fort dix and maguire air force base

316

00:13:11,910 --> 00:13:09,200

adjacent military bases

317

00:13:14,790 --> 00:13:11,920

shortly afterward an air force security

318

00:13:17,590 --> 00:13:14,800

patrol was ordered to the back gate of

319

00:13:20,150 --> 00:13:17,600

maguire air force base to allow entry to

320

00:13:22,310 --> 00:13:20,160

new jersey state police who were

321

00:13:24,389 --> 00:13:22,320

searching for something

322

00:13:27,269 --> 00:13:24,399

one of the airmen on duty was sergeant

323

00:13:29,829 --> 00:13:27,279

jeff morse that's a pseudonym

324

00:13:32,870 --> 00:13:29,839

the state trooper told morse that a fort

325

00:13:35,030 --> 00:13:32,880

dix military police member was pursuing

326

00:13:36,629 --> 00:13:35,040

a low-flying object that had hovered

327

00:13:39,670 --> 00:13:36,639

over his car

328

00:13:42,389 --> 00:13:39,680

and then a small being with a large head

329

00:13:43,590 --> 00:13:42,399

and slender body appeared in front of

330

00:13:46,550 --> 00:13:43,600

his car

331

00:13:50,550 --> 00:13:46,560

the mp had panicked and shot the alien

332

00:13:52,069 --> 00:13:50,560

several times with a 45 automatic

333

00:13:54,790 --> 00:13:52,079

the being had fled over the fence

334

00:13:57,509 --> 00:13:54,800

between the two bases before falling and

335

00:13:59,910 --> 00:13:57,519

dying on the deserted runway

336

00:14:03,350 --> 00:13:59,920

sergeant jeff morse and his colleagues

337

00:14:05,189 --> 00:14:03,360

found the body lying on the runway

338

00:14:08,389 --> 00:14:05,199

as they followed routine procedure and

339

00:14:12,069 --> 00:14:08,399

roped off the area of the crime scene

340

00:14:14,710 --> 00:14:12,079

other blue beret forces unfamiliar to

341

00:14:17,670 --> 00:14:14,720

morse and his companion took over

342

00:14:19,590 --> 00:14:17,680

morse was relegated to a backup role but

343

00:14:21,509 --> 00:14:19,600

he could see from a slight distance away

344

00:14:23,110 --> 00:14:21,519

what was happening

345

00:14:25,750 --> 00:14:23,120

later that day a team from

346

00:14:30,389 --> 00:14:25,760

wright-patterson air force base in ohio

347

00:14:33,189 --> 00:14:30,399

arrived in a c-141 cargo aircraft crated

348

00:14:34,230 --> 00:14:33,199

up the body loaded it on board and took

349

00:14:36,230 --> 00:14:34,240

off

350

00:14:38,150 --> 00:14:36,240

morris and his companion were warned not

351
00:14:40,150 --> 00:14:38,160
to talk about the incident or they would

352
00:14:43,030 --> 00:14:40,160
be court-martialed

353
00:14:45,430 --> 00:14:43,040
two days later sergeant jeff morse and

354
00:14:47,430 --> 00:14:45,440
other participants were taken to

355
00:14:49,030 --> 00:14:47,440
wright-patterson air force base where

356
00:14:51,910 --> 00:14:49,040
they underwent intimidating

357
00:14:54,629 --> 00:14:51,920
interrogation and were again warned not

358
00:14:56,310 --> 00:14:54,639
to talk about the incident

359
00:14:58,550 --> 00:14:56,320
morse supplied the names of the

360
00:15:01,189 --> 00:14:58,560
interrogation team taken from their name

361
00:15:03,189 --> 00:15:01,199
badges and apparently okay keep your

362
00:15:06,629 --> 00:15:03,199
eyes closed okay i want to show you my

363
00:15:08,629 --> 00:15:06,639

first ever painting all right okay

364

00:15:11,189 --> 00:15:08,639

open your eyes oh

365

00:15:13,670 --> 00:15:11,199

that's a lot of colors

366

00:15:16,470 --> 00:15:13,680

and shades so be honest what do you

367

00:15:17,990 --> 00:15:16,480

think well uh i like how

368

00:15:19,750 --> 00:15:18,000

if you switch to geico you could save

369

00:15:22,790 --> 00:15:19,760

hundreds of dollars on car insurance oh

370

00:15:25,030 --> 00:15:22,800

yeah that's that's true yeah here why

371

00:15:27,750 --> 00:15:25,040

don't i hold your paintbrush while you

372

00:15:29,829 --> 00:15:27,760

call them geico because saving 15 or

373

00:15:32,069 --> 00:15:29,839

more on car insurance is always a great

374

00:15:34,389 --> 00:15:32,079

answer according to this article their

375

00:15:37,350 --> 00:15:34,399

identities have been verified

376

00:15:39,990 --> 00:15:37,360

sergeant jeff morse reported quote they

377

00:15:42,150 --> 00:15:40,000

told me about my duty to keep my mouth

378

00:15:44,550 --> 00:15:42,160

shut i signed a form and it's supposed

379

00:15:46,310 --> 00:15:44,560

to bind me for life

380

00:15:48,870 --> 00:15:46,320

shortly after returning to maguire air

381

00:15:51,189 --> 00:15:48,880

force base morse was debriefed by his

382

00:15:52,790 --> 00:15:51,199

commanding officer and although that

383

00:15:54,949 --> 00:15:52,800

lieutenant colonel's name is not

384

00:15:57,749 --> 00:15:54,959

published here it is also known

385

00:16:00,389 --> 00:15:57,759

apparently and after that jeff morse

386

00:16:02,310 --> 00:16:00,399

heard no more about the incident

387

00:16:05,189 --> 00:16:02,320

shortly thereafter each of the airmen

388

00:16:07,670 --> 00:16:05,199

who'd been involved was transferred to a

389

00:16:10,150 --> 00:16:07,680

separate overseas base

390

00:16:12,310 --> 00:16:10,160

ultimately sergeant jeff morse was

391

00:16:14,710 --> 00:16:12,320

shipped to okinawa

392

00:16:17,189 --> 00:16:14,720

the author richard hall has met with

393

00:16:19,350 --> 00:16:17,199

morse face to face several times talked

394

00:16:22,310 --> 00:16:19,360

with him on the telephone numerous times

395

00:16:24,870 --> 00:16:22,320

and considers him completely credible he

396

00:16:27,110 --> 00:16:24,880

has cooperated fully answering all of

397

00:16:29,509 --> 00:16:27,120

the questions to the best of his ability

398

00:16:32,069 --> 00:16:29,519

and he's agreed to meet and talk further

399

00:16:33,590 --> 00:16:32,079

with various colleagues of richard hall

400

00:16:35,350 --> 00:16:33,600

the author here

401
00:16:37,110 --> 00:16:35,360
he's given a formal deposition on the

402
00:16:39,269 --> 00:16:37,120
incident in the presence of several

403
00:16:42,230 --> 00:16:39,279
witnesses and was subjected to

404
00:16:44,870 --> 00:16:42,240
questioning on the specific details

405
00:16:47,030 --> 00:16:44,880
as a direct consequence of innocently

406
00:16:50,069 --> 00:16:47,040
being in the wrong place at the wrong

407
00:16:52,069 --> 00:16:50,079
time sergeant jeff morse again not his

408
00:16:54,230 --> 00:16:52,079
real name has been harassed and

409
00:16:55,590 --> 00:16:54,240
threatened and his reputation has been

410
00:16:58,389 --> 00:16:55,600
defamed to the point that he had

411
00:17:00,310 --> 00:16:58,399
difficulty finding employment in the law

412
00:17:02,389 --> 00:17:00,320
enforcement field

413
00:17:05,590 --> 00:17:02,399

another witness to this extraordinary

414

00:17:07,429 --> 00:17:05,600
event is george filer major united

415

00:17:10,069 --> 00:17:07,439
states army retired

416

00:17:11,750 --> 00:17:10,079
is that a familiar name well perhaps due

417

00:17:16,630 --> 00:17:11,760
to the fact that he has an amazing

418

00:17:18,549 --> 00:17:16,640
website the filer files ufos etc he was

419

00:17:20,150 --> 00:17:18,559
stationed at maguire air force base in

420

00:17:22,789 --> 00:17:20,160
1978

421

00:17:24,390 --> 00:17:22,799
serving as an intelligence officer one

422

00:17:26,470 --> 00:17:24,400
of his duties was to brief the

423

00:17:28,390 --> 00:17:26,480
commanding general

424

00:17:30,150 --> 00:17:28,400
while george filer was not on duty at

425

00:17:33,110 --> 00:17:30,160
the time of this incident the next

426
00:17:35,510 --> 00:17:33,120
morning he heard talk about the alien

427
00:17:36,630 --> 00:17:35,520
body and he saw a lot of unusual

428
00:17:38,710 --> 00:17:36,640
activity

429
00:17:40,870 --> 00:17:38,720
he's prepared to testify on what he

430
00:17:43,270 --> 00:17:40,880
knows firsthand and what he's learned

431
00:17:46,549 --> 00:17:43,280
since about the incident

432
00:17:49,830 --> 00:17:46,559
in fact abc news caitlyn ramer in

433
00:17:53,029 --> 00:17:49,840
washington and david rupp in new york

434
00:17:56,310 --> 00:17:53,039
put this together filer's statement

435
00:17:58,070 --> 00:17:56,320
former air force major george filer iii

436
00:18:00,549 --> 00:17:58,080
has told reporters that when he was at

437
00:18:03,590 --> 00:18:00,559
mcguire air force base in new jersey

438
00:18:06,150 --> 00:18:03,600

an alien craft came down and an alien

439

00:18:09,270 --> 00:18:06,160

got out and was shot by a military

440

00:18:11,430 --> 00:18:09,280

policeman quote our security police went

441

00:18:15,029 --> 00:18:11,440

out there and found him at the end of

442

00:18:17,029 --> 00:18:15,039

the runway dead end quotes filer said

443

00:18:19,669 --> 00:18:17,039

quote they asked me to brief the general

444

00:18:21,350 --> 00:18:19,679

staff end quotes he said but later he

445

00:18:23,430 --> 00:18:21,360

was told not to

446

00:18:25,029 --> 00:18:23,440

he said he would tell the story in front

447

00:18:27,669 --> 00:18:25,039

of congress

448

00:18:30,230 --> 00:18:27,679

filer isn't new to ufo sightings this

449

00:18:33,430 --> 00:18:30,240

article mentions his own website filer's

450

00:18:35,990 --> 00:18:33,440

files where he says also that an alien

451
00:18:38,230 --> 00:18:36,000
ship was chased over england when he was

452
00:18:39,990 --> 00:18:38,240
flying for the united states air force

453
00:18:43,750 --> 00:18:40,000
he said quote i personally have

454
00:18:46,070 --> 00:18:43,760
witnessed a ufo both visually and on

455
00:18:47,830 --> 00:18:46,080
radar and i've been chasing them ever

456
00:18:50,710 --> 00:18:47,840
since end quotes

457
00:18:53,909 --> 00:18:50,720
now let's segue to an article from 1985

458
00:18:56,070 --> 00:18:53,919
written by leonard h springfield

459
00:18:59,590 --> 00:18:56,080
the headlines the fatal encounter at

460
00:19:02,470 --> 00:18:59,600
fort dix maguire a case study

461
00:19:04,310 --> 00:19:02,480
here is a description from that study of

462
00:19:06,870 --> 00:19:04,320
the humanoid

463
00:19:09,669 --> 00:19:06,880

at varying times during his patrol duty

464

00:19:12,150 --> 00:19:09,679

sergeant jeff morse was within 40 to 70

465

00:19:14,470 --> 00:19:12,160

feet from the prostrate body on the

466

00:19:16,230 --> 00:19:14,480

abandoned runway number five

467

00:19:19,190 --> 00:19:16,240

never close enough to observe details

468

00:19:21,909 --> 00:19:19,200

such as facial features or its hands and

469

00:19:24,070 --> 00:19:21,919

feet he did recall that under the glare

470

00:19:27,590 --> 00:19:24,080

of truck headlights the skin of the

471

00:19:29,110 --> 00:19:27,600

unclad hairless body was wet shiny and

472

00:19:31,270 --> 00:19:29,120

snake-like

473

00:19:33,029 --> 00:19:31,280

as reported in his initial letter the

474

00:19:36,230 --> 00:19:33,039

entity was about four feet in height

475

00:19:39,830 --> 00:19:36,240

with a large head slender torso thin

476

00:19:41,750 --> 00:19:39,840

arms and legs and overall of a grayish

477

00:19:44,950 --> 00:19:41,760

brown coloration

478

00:19:47,110 --> 00:19:44,960

unquestionably not human it was however

479

00:19:49,270 --> 00:19:47,120

of humanoid stature fitting the

480

00:19:51,510 --> 00:19:49,280

anatomical description so often heard

481

00:19:53,990 --> 00:19:51,520

from military sources who've made claims

482

00:19:56,549 --> 00:19:54,000

to having seen entities at crash sites

483

00:19:58,630 --> 00:19:56,559

and defined coincidentally by a medical

484

00:20:03,350 --> 00:19:58,640

source who allegedly performed an

485

00:20:06,390 --> 00:20:03,360

autopsy on a specimen in the early 1950s

486

00:20:09,190 --> 00:20:06,400

always pressing for details the writer

487

00:20:11,669 --> 00:20:09,200

here leonard h springfield preferred the

488

00:20:13,909 --> 00:20:11,679

notion that maguire's corpse could have

489

00:20:16,230 --> 00:20:13,919

been that of a wild animal a deer

490

00:20:19,270 --> 00:20:16,240

perhaps or an escaped ape from some

491

00:20:21,830 --> 00:20:19,280

military experimentation lab or zoo

492

00:20:24,950 --> 00:20:21,840

to this sergeant jeff morse replied

493

00:20:27,350 --> 00:20:24,960

quote no zoo nearby we did have a

494

00:20:29,750 --> 00:20:27,360

problem with deer on the runway but no

495

00:20:31,590 --> 00:20:29,760

one ever made such a big fuss over a

496

00:20:33,110 --> 00:20:31,600

deer end quotes

497

00:20:35,110 --> 00:20:33,120

the only other anomaly that morse

498

00:20:37,750 --> 00:20:35,120

attributed to the presence of the body

499

00:20:39,190 --> 00:20:37,760

was the strong smell of ammonia in the

500

00:20:41,830 --> 00:20:39,200

cold night air

501
00:20:43,270 --> 00:20:41,840
that same odor has been present at other

502
00:20:45,350 --> 00:20:43,280
crash sites

503
00:20:48,149 --> 00:20:45,360
in his article writer leonard h

504
00:20:51,270 --> 00:20:48,159
springfield includes morse's description

505
00:20:53,510 --> 00:20:51,280
of the retrieval operation it seemed to

506
00:20:56,470 --> 00:20:53,520
go something like this

507
00:20:59,830 --> 00:20:56,480
it was maximum security said sergeant

508
00:21:02,310 --> 00:20:59,840
jeff morse who alone in his patrol car

509
00:21:04,950 --> 00:21:02,320
received word by radio that a state of

510
00:21:07,669 --> 00:21:04,960
alert was in effect at maguire as a

511
00:21:09,350 --> 00:21:07,679
result of a shooting incident

512
00:21:11,029 --> 00:21:09,360
he was ordered to gate number five to

513
00:21:13,669 --> 00:21:11,039

answer the request of a state police

514

00:21:16,549 --> 00:21:13,679

officer that officer had been running

515

00:21:19,110 --> 00:21:16,559

code with the mp during his encounter at

516

00:21:20,070 --> 00:21:19,120

fort dix he wanted admission to the air

517

00:21:22,310 --> 00:21:20,080

base

518

00:21:24,149 --> 00:21:22,320

morse was ordered to comply

519

00:21:26,230 --> 00:21:24,159

but when the trooper wanted to get

520

00:21:29,190 --> 00:21:26,240

closer to the runway he wasn't allowed

521

00:21:31,590 --> 00:21:29,200

to do so and he was angry

522

00:21:34,470 --> 00:21:31,600

on orders by radio morse was told that

523

00:21:37,029 --> 00:21:34,480

all personnel including morse and other

524

00:21:39,510 --> 00:21:37,039

members of his security police unit were

525

00:21:41,190 --> 00:21:39,520

restricted from entering into that roped

526
00:21:43,909 --> 00:21:41,200
off zone

527
00:21:46,549 --> 00:21:43,919
taking command was a new and unfamiliar

528
00:21:49,029 --> 00:21:46,559
team of blue berets who had suddenly

529
00:21:51,830 --> 00:21:49,039
descended onto the scene just moments

530
00:21:53,830 --> 00:21:51,840
after the runway had been cordoned off

531
00:21:56,710 --> 00:21:53,840
with speed and efficiency quote they

532
00:21:58,950 --> 00:21:56,720
took over end quotes he said and when

533
00:22:01,590 --> 00:21:58,960
asked who they were quote we were told

534
00:22:03,510 --> 00:22:01,600
nothing and ordered to stay outside the

535
00:22:05,830 --> 00:22:03,520
ropes and quotes

536
00:22:07,669 --> 00:22:05,840
perplexed by this covert action

537
00:22:10,310 --> 00:22:07,679
sergeant jeff morse noted that all of

538
00:22:13,669 --> 00:22:10,320

them were staff sergeants and up wearing

539

00:22:16,070 --> 00:22:13,679

fatigues no patches no insignia

540

00:22:18,710 --> 00:22:16,080

and as for headgear he said quote they

541

00:22:19,990 --> 00:22:18,720

wore blue berets just like mine and

542

00:22:22,149 --> 00:22:20,000

quotes

543

00:22:24,870 --> 00:22:22,159

in one letter morse vaguely speculated

544

00:22:27,510 --> 00:22:24,880

these were undercover cops and later by

545

00:22:29,750 --> 00:22:27,520

phone he said he felt certain they were

546

00:22:31,110 --> 00:22:29,760

stationed somewhere at maguire to

547

00:22:32,470 --> 00:22:31,120

account for their quick deployment to

548

00:22:34,390 --> 00:22:32,480

the runway

549

00:22:36,870 --> 00:22:34,400

in support of this when asked if

550

00:22:40,149 --> 00:22:36,880

helicopters were seen or heard overhead

551
00:22:42,870 --> 00:22:40,159
or landed on or near the scene his reply

552
00:22:44,310 --> 00:22:42,880
was negative this it seems would rule

553
00:22:47,190 --> 00:22:44,320
out any notion that they'd been

554
00:22:49,430 --> 00:22:47,200
transported from an outside base this

555
00:22:51,350 --> 00:22:49,440
blue beard team

556
00:22:53,590 --> 00:22:51,360
it also strengthened the belief of this

557
00:22:56,070 --> 00:22:53,600
writer that a ufo had not crashed or

558
00:22:57,830 --> 00:22:56,080
been disabled nearby requiring close

559
00:23:01,190 --> 00:22:57,840
tactical air support

560
00:23:04,070 --> 00:23:01,200
but what of a landed craft perhaps one

561
00:23:06,470 --> 00:23:04,080
that touch landed earlier at fort dix

562
00:23:09,270 --> 00:23:06,480
could it have deployed one or more of

563
00:23:12,310 --> 00:23:09,280

its kind to perform a duty forever

564

00:23:14,390 --> 00:23:12,320

unknown at one or both of the adjoining

565

00:23:16,950 --> 00:23:14,400

military installations

566

00:23:19,190 --> 00:23:16,960

meanwhile at maguire once the sensitive

567

00:23:21,750 --> 00:23:19,200

area had been roped off and the entry

568

00:23:24,149 --> 00:23:21,760

control point established a generator

569

00:23:26,710 --> 00:23:24,159

unit was brought in for better lighting

570

00:23:29,830 --> 00:23:26,720

at least a dozen men said morse armed

571

00:23:32,230 --> 00:23:29,840

with m16s were assigned to guard at the

572

00:23:34,310 --> 00:23:32,240

ropes and no one was allowed to enter

573

00:23:36,390 --> 00:23:34,320

except the base commander the security

574

00:23:39,190 --> 00:23:36,400

police squadron commander first

575

00:23:42,470 --> 00:23:39,200

lieutenant ws of the security police

576

00:23:44,789 --> 00:23:42,480

squadron and a base photographer

577

00:23:47,669 --> 00:23:44,799

while on patrol morse watched the blue

578

00:23:49,909 --> 00:23:47,679

beret specialists spray the corpse from

579

00:23:51,350 --> 00:23:49,919

a portable tank and cover it with a

580

00:23:53,190 --> 00:23:51,360

white sheet

581

00:23:55,510 --> 00:23:53,200

before daybreak the body was carefully

582

00:23:57,750 --> 00:23:55,520

placed onto a platform and a wooden

583

00:23:59,830 --> 00:23:57,760

frame built around it

584

00:24:03,029 --> 00:23:59,840

this was finally placed into a large

585

00:24:05,830 --> 00:24:03,039

square silver metal container about 10

586

00:24:07,190 --> 00:24:05,840

by ten feet with undistinguishable blue

587

00:24:09,830 --> 00:24:07,200

markings

588

00:24:12,870 --> 00:24:09,840

before going off duty morse and others

589

00:24:16,310 --> 00:24:12,880

watched that silver box forklifted into

590

00:24:18,710 --> 00:24:16,320

a c-141 which arrived about seven a.m

591

00:24:21,110 --> 00:24:18,720

from wright-patterson air force base and

592

00:24:23,750 --> 00:24:21,120

later at a distance he said he watched

593

00:24:27,350 --> 00:24:23,760

the plane and its secret cargo soar

594

00:24:29,350 --> 00:24:27,360

aloft into limbo presumed destination

595

00:24:31,430 --> 00:24:29,360

dayton ohio

596

00:24:34,549 --> 00:24:31,440

for sergeant jeff morse and others of

597

00:24:38,070 --> 00:24:34,559

the blue beret regulars at maguire it

598

00:24:39,830 --> 00:24:38,080

was far from over when that c-141 with

599

00:24:42,149 --> 00:24:39,840

corpse took off

600

00:24:46,470 --> 00:24:42,159

two days later he and three others he

601
00:24:48,630 --> 00:24:46,480
named were also on another c-141

602
00:24:52,230 --> 00:24:48,640
with orders to report to wright

603
00:24:54,630 --> 00:24:52,240
patterson that base of many secrets

604
00:24:57,430 --> 00:24:54,640
the setting at wright-patterson was like

605
00:25:00,870 --> 00:24:57,440
that of a court-martial a table and

606
00:25:03,830 --> 00:25:00,880
chairs in an unadorned room

607
00:25:06,310 --> 00:25:03,840

608
00:25:08,470 --> 00:25:06,320
