different times she's a fellow cheese

19

00:01:29,830 --> 00:01:28,080

head kind of replanted herself in bear

20

00:01:31,830 --> 00:01:29,840

land but we'll talk with mary in just a

in on facebook i'm starting i'm starting

29

00:01:56,550 --> 00:01:54,720

to see you know different countries and

30

00:01:58,709 --> 00:01:56,560

i think it's really neat and we're

31

00:02:00,789 --> 00:01:58,719

seeing a lot of listenership and a lot

32

00:02:02,789 --> 00:02:00,799

of followers coming from different uh

33

00:02:04,310 --> 00:02:02,799

places on the planet because there are

34

00:02:06,069 --> 00:02:04,320

many different ways you can listen to

35

00:02:08,710 --> 00:02:06,079

inception radio network you can listen

36

00:02:10,790 --> 00:02:08,720

on iheartradio download our podcast

37

00:02:13,030 --> 00:02:10,800

itunes google play

38

00:02:14,470 --> 00:02:13,040

stitcher radio tune in radio

39
00:02:16,550 --> 00:02:14,480
we're pretty much everywhere we have our

40
00:02:18,710 --> 00:02:16,560
own app and go to the app store and then

41
00:02:21,110 --> 00:02:18,720
download inception radio network mobile

42
00:02:23,589 --> 00:02:21,120
and you can chat right from our app

43
00:02:26,229 --> 00:02:23,599
which is really neat too a lot of people

44
00:02:28,949 --> 00:02:26,239
hang out on their ipads coming to chat

45
00:02:30,949 --> 00:02:28,959
and uh ask our guests or our guest

46
00:02:32,390 --> 00:02:30,959
questions which is a pretty neat thing

47
00:02:34,390 --> 00:02:32,400
so we're very pumped about that and

48
00:02:36,150 --> 00:02:34,400
don't forget next week

49
00:02:37,830 --> 00:02:36,160
9 pm eastern we will have another

50
00:02:40,229 --> 00:02:37,840
installment of the john ford ufo

51
00:02:42,229 --> 00:02:40,239
nightmare i think we were trying to get

52
00:02:43,430 --> 00:02:42,239
somebody to talk to john

53
00:02:44,309 --> 00:02:43,440
ken and i don't know if i've heard

54
00:02:45,830 --> 00:02:44,319
anybody

55
00:02:47,910 --> 00:02:45,840
has a recording of them or not i don't

56
00:02:50,869 --> 00:02:47,920
know what the status is on that

57
00:02:52,550 --> 00:02:50,879
i have not heard anything yet uh either

58
00:02:55,430 --> 00:02:52,560
but yeah you're right they were gonna

59
00:02:57,509 --> 00:02:55,440
try to uh at least do a uh

60
00:02:59,350 --> 00:02:57,519
interview with him for 15 20 minutes or

61
00:03:01,190 --> 00:02:59,360
whatever and then we'd be able to play

62
00:03:03,110 --> 00:03:01,200
that on the show but i have not heard

63
00:03:04,470 --> 00:03:03,120

right right so we'll see what we can do

64

00:03:06,070 --> 00:03:04,480

we got a week before the show but the

65

00:03:08,550 --> 00:03:06,080

brain trust will get together next

66

00:03:10,949 --> 00:03:08,560

sunday and uh we'll see where john's at

67

00:03:13,350 --> 00:03:10,959

you know and it's i think we've had the

68

00:03:14,790 --> 00:03:13,360

show on over two years now but

69

00:03:16,949 --> 00:03:14,800

i think we're making strides towards a

70

00:03:18,229 --> 00:03:16,959

different lawyer is the rumor can so if

71

00:03:19,830 --> 00:03:18,239

we can get somebody in there that's

72

00:03:21,270 --> 00:03:19,840

actually going to fight for his human

73

00:03:22,309 --> 00:03:21,280

rights i think that would make a hell of

74

00:03:24,390 --> 00:03:22,319

a difference

75

00:03:26,229 --> 00:03:24,400

yeah he needs a different legal beagle

76

00:03:28,229 --> 00:03:26,239

that's my opinion that's for sure oh

77

00:03:31,110 --> 00:03:28,239

yeah definitely well tonight our guest

78

00:03:32,710 --> 00:03:31,120

tonight uh she's been on the show

79

00:03:34,550 --> 00:03:32,720

probably four or five times she's a

80

00:03:36,630 --> 00:03:34,560

fellow cheese head she's the former

81

00:03:38,789 --> 00:03:36,640

owner of the sci-fi cafe in burlington

82

00:03:40,550 --> 00:03:38,799

wisconsin this probably still hangs out

83

00:03:44,550 --> 00:03:40,560

in burlington quite a bit by the haunted

84

00:03:46,789 --> 00:03:44,560

woods uh mary mary sutherland is uh is a

85

00:03:49,190 --> 00:03:46,799

avid researcher wrote written books on

86

00:03:51,030 --> 00:03:49,200

giants and other other archaeological

87

00:03:53,270 --> 00:03:51,040

finds but we're going to dig in tonight

88

00:03:55,190 --> 00:03:53,280

and we have some important issues we got

89

00:03:57,429 --> 00:03:55,200

to bring to the forefront but i'm going

90

00:03:59,030 --> 00:03:57,439

to introduce mary here and let mary uh

91

00:04:00,229 --> 00:03:59,040

tell her tell our listeners a little bit

92

00:04:01,350 --> 00:04:00,239

about ourselves thank you for coming

93

00:04:04,550 --> 00:04:01,360

mary

94

00:04:06,789 --> 00:04:04,560

oh thank you for having me back m.d oh

95

00:04:09,910 --> 00:04:06,799

it's it's been great how have you been

96

00:04:13,429 --> 00:04:09,920

oh i've been doing really well thank you

97

00:04:14,550 --> 00:04:13,439

and yeah i may be in bear's country

98

00:04:18,949 --> 00:04:14,560

but

99

00:04:22,950 --> 00:04:18,959

and so is my husband

100

00:04:24,710 --> 00:04:22,960

we we stay blue we stay true and blue

101
00:04:26,950 --> 00:04:24,720
i should say green and gold green and

102
00:04:29,430 --> 00:04:26,960
gold there you go i i have a rumor last

103
00:04:32,150 --> 00:04:29,440
night that our family night had 63 000

104
00:04:33,909 --> 00:04:32,160
people and the bears had 13 000. so uh

105
00:04:35,830 --> 00:04:33,919
right there that tells you how your fan

106
00:04:37,830 --> 00:04:35,840
base is right there i don't mean to be

107
00:04:39,430 --> 00:04:37,840
mean to our chicago and illinois friends

108
00:04:41,670 --> 00:04:39,440
because our other studio is out of

109
00:04:44,950 --> 00:04:41,680
chicago but but you know we're packer

110
00:04:46,230 --> 00:04:44,960
backers and we love our team i know that

111
00:04:50,070 --> 00:04:46,240
is heidi

112
00:04:53,749 --> 00:04:50,080
heidi is a packer fan also

113
00:04:56,150 --> 00:04:53,759

all right good girl milwaukee girl yep

114

00:04:57,749 --> 00:04:56,160

well and and you know we all know that

115

00:04:59,430 --> 00:04:57,759

there's truly

116

00:05:01,220 --> 00:04:59,440

there's only one team and that's the

117

00:05:04,790 --> 00:05:01,230

orange go broncos right

118

00:05:06,310 --> 00:05:04,800

[Laughter]

119

00:05:11,350 --> 00:05:06,320

see he's in there

120

00:05:14,550 --> 00:05:12,310

yeah

121

00:05:15,990 --> 00:05:14,560

oh man well mary you want to tell our

122

00:05:17,990 --> 00:05:16,000

listeners a little bit about yourself

123

00:05:20,150 --> 00:05:18,000

and i mean you've you've written a few

124

00:05:21,749 --> 00:05:20,160

books and uh you know tell them a little

125

00:05:23,510 --> 00:05:21,759

bit about your research and what you've

126
00:05:24,950 --> 00:05:23,520
done you've came across some pretty

127
00:05:26,390 --> 00:05:24,960
awesome finds too in the state of

128
00:05:29,110 --> 00:05:26,400
wisconsin

129
00:05:31,029 --> 00:05:29,120
okay i can do that for you

130
00:05:33,510 --> 00:05:31,039
first of all let me say that

131
00:05:37,749 --> 00:05:33,520
i have seven books out

132
00:05:40,469 --> 00:05:37,759
i'm working on two more books um

133
00:05:41,350 --> 00:05:40,479
and one ebook

134
00:05:44,550 --> 00:05:41,360
and

135
00:05:47,670 --> 00:05:44,560
i'm doing my live streaming now

136
00:05:51,749 --> 00:05:47,680
and i'm taking all my old bufo radio

137
00:05:54,550 --> 00:05:51,759
shows and change them into live stream

138
00:05:55,670 --> 00:05:54,560

and putting them on facebook and uh

139

00:05:59,029 --> 00:05:55,680

youtube

140

00:06:01,990 --> 00:05:59,039

that's been a big project and let's see

141

00:06:02,950 --> 00:06:02,000

still doing my tours you know out there

142

00:06:07,110 --> 00:06:02,960

in

143

00:06:09,909 --> 00:06:07,120

the woods is just as strong as they ever

144

00:06:12,469 --> 00:06:09,919

were if not stronger

145

00:06:14,950 --> 00:06:12,479

uh let's see what else do i do i do

146

00:06:17,590 --> 00:06:14,960

tours of various sacred sites in

147

00:06:19,990 --> 00:06:17,600

illinois and wisconsin still doing my

148

00:06:21,510 --> 00:06:20,000

research on the underwater pyramids of

149

00:06:22,870 --> 00:06:21,520

rock lake

150

00:06:26,150 --> 00:06:22,880

uh

151

00:06:29,189 --> 00:06:26,160

let's see what else do i do you do a lot

152

00:06:32,469 --> 00:06:29,199

i must be doing something else i'm just

153

00:06:33,350 --> 00:06:32,479

i just can't i just can't remember right

154

00:06:35,990 --> 00:06:33,360

now

155

00:06:38,550 --> 00:06:36,000

but uh we've been um

156

00:06:42,150 --> 00:06:38,560

you know as most people know that uh

157

00:06:44,950 --> 00:06:42,160

five of my books is a series it's uh

158

00:06:47,909 --> 00:06:44,960

called uh in search of ancient man

159

00:06:51,670 --> 00:06:47,919

and the first book i put out was the red

160

00:06:54,390 --> 00:06:51,680

haired giants that really took off well

161

00:06:55,990 --> 00:06:54,400

very very popular book

162

00:07:01,189 --> 00:06:56,000

and

163

00:07:03,909 --> 00:07:01,199

the red haired giants of north america

164

00:07:05,830 --> 00:07:03,919

and then uh the other books are still

165

00:07:09,510 --> 00:07:05,840

kind of they're still focusing around

166

00:07:13,830 --> 00:07:09,520

the giants and lost races and um

167

00:07:16,870 --> 00:07:13,840

um how religion came to be and you know

168

00:07:18,790 --> 00:07:16,880

on our various different uh traditions

169

00:07:20,950 --> 00:07:18,800

around the world and

170

00:07:23,270 --> 00:07:20,960

how we came to be the people that we are

171

00:07:26,230 --> 00:07:23,280

today based off

172

00:07:28,629 --> 00:07:26,240

the traditions of ancient man

173

00:07:31,189 --> 00:07:28,639

oh and i'm also

174

00:07:34,390 --> 00:07:31,199

a cryptid researcher so i'm out there in

175

00:07:37,830 --> 00:07:34,400

the woods um hunting down bigfoot a lot

176

00:07:41,110 --> 00:07:37,840

as well as uh dog man

177

00:07:42,469 --> 00:07:41,120

i don't want to i've had encounters with

178

00:07:44,629 --> 00:07:42,479

bigfoot

179

00:07:46,550 --> 00:07:44,639

but i do not want to have an encounter

180

00:07:50,309 --> 00:07:46,560

with a dogma

181

00:07:53,350 --> 00:07:50,319

and i i am curious about them

182

00:07:55,430 --> 00:07:53,360

so mary my co-host ken actually

183

00:07:57,029 --> 00:07:55,440

stood face to face with the bigfoot how

184

00:07:59,110 --> 00:07:57,039

many feet away were you away from him

185

00:08:00,950 --> 00:07:59,120

ken uh

186

00:08:02,790 --> 00:08:00,960

we measured it was uh from where the

187

00:08:06,469 --> 00:08:02,800

footprint was to where i was standing

188

00:08:08,790 --> 00:08:06,479

was uh just shy of 12 feet

189

00:08:11,350 --> 00:08:08,800

i think the closest i've ever gotten was

190

00:08:13,270 --> 00:08:11,360

about 20 foot oh wow

191

00:08:15,029 --> 00:08:13,280

that's still close up

192

00:08:17,909 --> 00:08:15,039

right

193

00:08:20,550 --> 00:08:17,919

yeah yeah i would say so

194

00:08:22,629 --> 00:08:20,560

i mean for you too 12 foot that had been

195

00:08:24,550 --> 00:08:22,639

amazing though oh it was an all-ship

196

00:08:26,869 --> 00:08:24,560

moment let me tell you

197

00:08:28,950 --> 00:08:26,879

it was uh go ahead

198

00:08:30,790 --> 00:08:28,960

did they use empress uh the one that

199

00:08:34,709 --> 00:08:30,800

encountered you had your encounter with

200

00:08:38,389 --> 00:08:36,870

did he use what on me

201
00:08:41,029 --> 00:08:38,399
sound

202
00:08:43,990 --> 00:08:41,039
i'm not sure what that is i mean could

203
00:08:46,230 --> 00:08:44,000
you move um everything felt kind of

204
00:08:48,710 --> 00:08:46,240
normal with you or

205
00:08:52,070 --> 00:08:48,720
uh you know it was such an accidental i

206
00:08:52,710 --> 00:08:52,080
mean it was such an accidental encounter

207
00:08:59,110 --> 00:08:52,720
he

208
00:09:01,030 --> 00:08:59,120
this creature i couldn't tell if it was

209
00:09:02,470 --> 00:09:01,040
male or female

210
00:09:05,750 --> 00:09:02,480
but it

211
00:09:07,030 --> 00:09:05,760
it was a uh it was an accidental on both

212
00:09:09,670 --> 00:09:07,040
parts

213
00:09:12,070 --> 00:09:09,680

he he didn't i say he he didn't realize

214

00:09:14,550 --> 00:09:12,080

i was there and i didn't realize he was

215

00:09:15,590 --> 00:09:14,560

there until it was

216

00:09:16,949 --> 00:09:15,600

uh

217

00:09:19,030 --> 00:09:16,959

you know

218

00:09:22,310 --> 00:09:19,040

it was a

219

00:09:23,990 --> 00:09:22,320

a strange encounter in that respect but

220

00:09:26,870 --> 00:09:24,000

to answer your question

221

00:09:31,590 --> 00:09:28,550

i think he's good

222

00:09:33,670 --> 00:09:31,600

when the one that i encountered he used

223

00:09:36,949 --> 00:09:33,680

infrasound on me

224

00:09:39,350 --> 00:09:36,959

and for the people that don't know about

225

00:09:42,389 --> 00:09:39,360

infrasound what it is it's a

226

00:09:44,230 --> 00:09:42,399

it's a a very low frequency that most

227

00:09:47,829 --> 00:09:44,240

people cannot hear

228

00:09:52,070 --> 00:09:47,839

tigers use it you know

229

00:09:53,430 --> 00:09:52,080

on their uh prey uh i whales use it i

230

00:09:55,990 --> 00:09:53,440

believe

231

00:09:59,110 --> 00:09:56,000

squid use it you know bunch of different

232

00:10:02,389 --> 00:09:59,120

types of predators do use it and what it

233

00:10:06,470 --> 00:10:02,399

does is it when they give out this blast

234

00:10:09,110 --> 00:10:06,480

of infrasound it actually paralyzes you

235

00:10:12,070 --> 00:10:09,120

where you can't move well i if

236

00:10:14,949 --> 00:10:12,080

if it did happen i was not aware of it

237

00:10:17,509 --> 00:10:14,959

it it was it was eyeballed eyeball

238

00:10:19,509 --> 00:10:17,519

though that's for sure yeah he probably

239

00:10:21,430 --> 00:10:19,519

didn't because he was more in shock just

240

00:10:22,790 --> 00:10:21,440

as much in shock as you were oh

241

00:10:25,350 --> 00:10:22,800

absolutely yeah

242

00:10:28,389 --> 00:10:25,360

and uh i'm sure i had the same look on

243

00:10:32,470 --> 00:10:28,399

my face as uh it had

244

00:10:34,630 --> 00:10:32,480

on his face yeah i agree yeah what an

245

00:10:37,190 --> 00:10:34,640

amazing experience was yours a day time

246

00:10:38,389 --> 00:10:37,200

or night time it was uh it was uh

247

00:10:40,790 --> 00:10:38,399

daytime

248

00:10:44,069 --> 00:10:40,800

it was uh about uh

249

00:10:47,190 --> 00:10:44,079

oh 3 30 maybe 4 o'clock in the evening

250

00:10:49,590 --> 00:10:47,200

in early april so

251

00:10:51,829 --> 00:10:49,600

yeah it was uh it was uh it was

252

00:10:54,470 --> 00:10:51,839

interesting to say the least

253

00:10:56,949 --> 00:10:54,480

is that pennsylvania if i'm correct

254

00:10:59,110 --> 00:10:56,959

yeah western pennsylvania in clearfield

255

00:11:01,190 --> 00:10:59,120

county and uh right outside of a small

256

00:11:03,829 --> 00:11:01,200

town called dubois pennsylvania or

257

00:11:06,949 --> 00:11:03,839

dubois depending on how you pronounce it

258

00:11:08,389 --> 00:11:06,959

i talked to linda gabri on one of the

259

00:11:10,949 --> 00:11:08,399

shows and

260

00:11:14,949 --> 00:11:10,959

it could have even been yours

261

00:11:17,509 --> 00:11:14,959

mj but um we we both feel that there's

262

00:11:20,949 --> 00:11:17,519

at least 10 000 of them just here in the

263

00:11:22,870 --> 00:11:20,959

state of wisconsin i wouldn't doubt it

264

00:11:25,110 --> 00:11:22,880

i wouldn't i mean if you go out there in

265

00:11:27,110 --> 00:11:25,120

the woods and you look around

266

00:11:29,350 --> 00:11:27,120

i mean it's just like

267

00:11:32,069 --> 00:11:29,360

heck you know it's but it's not

268

00:11:34,870 --> 00:11:32,079

difficult to find um you know their

269

00:11:35,829 --> 00:11:34,880

structures and footprints and their

270

00:11:43,269 --> 00:11:35,839

little

271

00:11:44,710 --> 00:11:43,279

yeah i think as long as they're just all

272

00:11:47,030 --> 00:11:44,720

over the place i think as long as they

273

00:11:49,030 --> 00:11:47,040

have a good cover and a good water

274

00:11:50,870 --> 00:11:49,040

source nearby i think they they're

275

00:11:52,069 --> 00:11:50,880

they're pretty much everywhere i was

276

00:11:53,670 --> 00:11:52,079

checking out

277

00:11:55,670 --> 00:11:53,680

a place about

278

00:11:57,030 --> 00:11:55,680

20 miles south of superior too a

279

00:11:59,030 --> 00:11:57,040

gentleman called me and i was on on the

280

00:12:00,470 --> 00:11:59,040

property found a few different

281

00:12:02,630 --> 00:12:00,480

you know found some branches in weird

282

00:12:03,670 --> 00:12:02,640

formations but very a very good you know

283

00:12:07,590 --> 00:12:03,680

source of

284

00:12:09,829 --> 00:12:07,600

river running through there and you know

285

00:12:11,030 --> 00:12:09,839

if they have all them resources i mean

286

00:12:13,269 --> 00:12:11,040

they're gonna be they're gonna be in

287

00:12:14,550 --> 00:12:13,279

multiple places i agree

288

00:12:21,430 --> 00:12:14,560

yeah

289

00:12:23,269 --> 00:12:21,440

maybe at one point of time maybe there

290

00:12:26,949 --> 00:12:23,279

wasn't that many but you know their

291

00:12:33,110 --> 00:12:29,829

hey mary i uh you mentioned the dogma

292

00:12:34,310 --> 00:12:33,120

and um and mj i came back from oklahoma

293

00:12:36,389 --> 00:12:34,320

city

294

00:12:39,829 --> 00:12:36,399

um gave a little talk

295

00:12:42,550 --> 00:12:39,839

actually in lexington oklahoma on friday

296

00:12:44,069 --> 00:12:42,560

but uh there has apparently and i was

297

00:12:46,310 --> 00:12:44,079

not aware of this there's been like

298

00:12:49,670 --> 00:12:46,320

three sightings in the last

299

00:12:53,110 --> 00:12:49,680

a couple of months of a dog

300

00:12:56,790 --> 00:12:53,120

person or a dog man uh down in uh in

301
00:12:58,389 --> 00:12:56,800
that area of oklahoma oh wow yeah and uh

302
00:13:00,150 --> 00:12:58,399
mary what do you you said you didn't

303
00:13:01,350 --> 00:13:00,160
want to meet one and i'm curious as to

304
00:13:04,150 --> 00:13:01,360
why

305
00:13:06,550 --> 00:13:04,160
well i just think that um that they're

306
00:13:08,550 --> 00:13:06,560
more well like with the bigfoot i see

307
00:13:14,069 --> 00:13:08,560
them as more human

308
00:13:15,990 --> 00:13:14,079
and i look at the dog men as um

309
00:13:17,829 --> 00:13:16,000
animalistic

310
00:13:19,910 --> 00:13:17,839
and i think that the

311
00:13:22,069 --> 00:13:19,920
i feel that if you give them plenty of

312
00:13:23,829 --> 00:13:22,079
birth and they've ate

313
00:13:25,750 --> 00:13:23,839

that you probably would not have any

314

00:13:28,069 --> 00:13:25,760

problems with them

315

00:13:30,550 --> 00:13:28,079

but you know just like any other wild

316

00:13:32,230 --> 00:13:30,560

animal when they're out on the hunt

317

00:13:34,790 --> 00:13:32,240

you're not they're just going to be

318

00:13:36,550 --> 00:13:34,800

seeing you as just another you know type

319

00:13:38,710 --> 00:13:36,560

of a prey

320

00:13:42,150 --> 00:13:38,720

another meal yeah and i'm glad to hear

321

00:13:44,230 --> 00:13:42,160

you uh say that uh uh that you see

322

00:13:46,710 --> 00:13:44,240

bigfoot as more human because the

323

00:13:48,949 --> 00:13:46,720

creature that i didn't i encountered in

324

00:13:51,030 --> 00:13:48,959

western pennsylvania that was my

325

00:13:53,670 --> 00:13:51,040

impression that i was dealing with more

326

00:13:56,150 --> 00:13:53,680

human than ape that's for sure

327

00:13:59,030 --> 00:13:56,160

yeah they have um they have quite a lot

328

00:14:00,230 --> 00:13:59,040

of intelligence and you know and it

329

00:14:01,269 --> 00:14:00,240

seems

330

00:14:03,430 --> 00:14:01,279

i can

331

00:14:04,550 --> 00:14:03,440

with my studies i've been able to take

332

00:14:06,790 --> 00:14:04,560

uh

333

00:14:09,910 --> 00:14:06,800

i've been able to take the bigfoot all

334

00:14:12,389 --> 00:14:09,920

the way back to the days of gilgamesh

335

00:14:14,710 --> 00:14:12,399

when they called them the inky do

336

00:14:17,990 --> 00:14:14,720

and i've been able to take the dog man

337

00:14:19,990 --> 00:14:18,000

all the way back to uh nebuchadnezzar

338

00:14:22,629 --> 00:14:20,000

during the tower of babel

339

00:14:24,790 --> 00:14:22,639

so they've been around quite a long time

340

00:14:25,910 --> 00:14:24,800

this you know the stories of them have

341

00:14:27,750 --> 00:14:25,920

them

342

00:14:30,470 --> 00:14:27,760

yeah and most indian tribes also will

343

00:14:32,310 --> 00:14:30,480

have some type of you know creature

344

00:14:34,069 --> 00:14:32,320

creature in the past or they they all

345

00:14:35,670 --> 00:14:34,079

have different names for for for a

346

00:14:37,590 --> 00:14:35,680

bigfoot which is i think a very neat

347

00:14:39,829 --> 00:14:37,600

thing so they're they're encountering

348

00:14:42,069 --> 00:14:39,839

similar creatures with you know every

349

00:14:44,470 --> 00:14:42,079

every type of you know nation you know

350

00:14:47,030 --> 00:14:44,480

throughout the us in the past of course

351
00:14:50,150 --> 00:14:47,040
probably encountering no i know near

352
00:14:52,310 --> 00:14:50,160
near cloquet minnesota over 30 miles

353
00:14:54,470 --> 00:14:52,320
west of us it's one of the hotter spots

354
00:14:56,069 --> 00:14:54,480
i've read in a couple books but it's

355
00:14:58,150 --> 00:14:56,079
been on monster quests and also where

356
00:14:59,670 --> 00:14:58,160
they're walking across the road hit the

357
00:15:01,269 --> 00:14:59,680
guy hit one with the car ran in the

358
00:15:03,269 --> 00:15:01,279
woods even shot at it thought he nicked

359
00:15:05,269 --> 00:15:03,279
it but it was came up almost right on

360
00:15:07,910 --> 00:15:05,279
the porch of the house but yeah yeah

361
00:15:09,750 --> 00:15:07,920
it's crazy yeah well it's like good luck

362
00:15:11,509 --> 00:15:09,760
you know who i'll use listeners out

363
00:15:14,470 --> 00:15:11,519

there that actually thinks that you can

364

00:15:16,949 --> 00:15:14,480

now shoot a bigfoot and get away with it

365

00:15:19,189 --> 00:15:16,959

because as a forest ranger once told me

366

00:15:22,949 --> 00:15:19,199

or a guy working for the dnr

367

00:15:26,150 --> 00:15:22,959

that as far as the the united states

368

00:15:28,790 --> 00:15:26,160

government is concerned they own all the

369

00:15:31,590 --> 00:15:28,800

animals and whether they have them on an

370

00:15:33,829 --> 00:15:31,600

endangered species list or not they

371

00:15:35,509 --> 00:15:33,839

still belong to the government and if

372

00:15:38,310 --> 00:15:35,519

you kill one of them

373

00:15:41,350 --> 00:15:38,320

you're going to be going to jail and

374

00:15:43,189 --> 00:15:41,360

paying one heck of a big fine

375

00:15:45,110 --> 00:15:43,199

you know so i mean that's why we have

376

00:15:48,389 --> 00:15:45,120

hunting seasons we have to go get

377

00:15:51,110 --> 00:15:48,399

permission to hunt bear and hunt cougar

378

00:15:52,550 --> 00:15:51,120

and hunt deer and things like that well

379

00:15:54,710 --> 00:15:52,560

and i think it goes a little bit further

380

00:15:57,910 --> 00:15:54,720

than that mary if it turns out that

381

00:16:01,030 --> 00:15:57,920

there's a lot of human dna involved you

382

00:16:02,949 --> 00:16:01,040

could be charged with manslaughter

383

00:16:04,389 --> 00:16:02,959

well well of course

384

00:16:07,269 --> 00:16:04,399

and there was something that i

385

00:16:12,790 --> 00:16:07,279

discovered i did a i was doing some

386

00:16:19,269 --> 00:16:15,509

and you know there has been a lot of

387

00:16:23,189 --> 00:16:19,279

them found here in the united states

388

00:16:25,670 --> 00:16:23,199

and these feral children as the if they

389

00:16:26,949 --> 00:16:25,680

grow up in the wild like let's say for

390

00:16:28,470 --> 00:16:26,959

example

391

00:16:31,749 --> 00:16:28,480

they were a

392

00:16:33,910 --> 00:16:31,759

parent and believe it or not they did

393

00:16:35,749 --> 00:16:33,920

a long time ago parents would simply

394

00:16:37,749 --> 00:16:35,759

just drop their kids off in the woods

395

00:16:39,670 --> 00:16:37,759

and take off like they would a

396

00:16:41,990 --> 00:16:39,680

a dog or a cat

397

00:16:45,350 --> 00:16:42,000

and you know some of the kids survived

398

00:16:48,389 --> 00:16:45,360

and like for example if a wolf

399

00:16:52,310 --> 00:16:48,399

adopted one of these children

400

00:16:55,110 --> 00:16:52,320

the child would you know be brought up

401
00:16:58,949 --> 00:16:55,120
in that habitat that environment

402
00:17:00,069 --> 00:16:58,959
they would learn how to run on all fours

403
00:17:05,189 --> 00:17:00,079
and

404
00:17:07,270 --> 00:17:05,199
young bodies you know how bodies get

405
00:17:10,870 --> 00:17:07,280
molded according to you know their

406
00:17:14,230 --> 00:17:10,880
activity right so as their young growing

407
00:17:16,949 --> 00:17:14,240
up their bones would actually mold

408
00:17:19,909 --> 00:17:16,959
to the point where they'd be able to

409
00:17:22,789 --> 00:17:19,919
easily run on all fours

410
00:17:25,669 --> 00:17:22,799
and plus that because of the being

411
00:17:27,510 --> 00:17:25,679
exposed to the elements

412
00:17:30,789 --> 00:17:27,520
they have found these feral children

413
00:17:32,470 --> 00:17:30,799

with full bodies of hair

414

00:17:34,230 --> 00:17:32,480

so and they

415

00:17:36,470 --> 00:17:34,240

you know so

416

00:17:39,510 --> 00:17:36,480

you and then of course the children grow

417

00:17:41,110 --> 00:17:39,520

up into adults and people see them out

418

00:17:43,270 --> 00:17:41,120

there in the woods

419

00:17:45,190 --> 00:17:43,280

they could easily mistake one of these

420

00:17:48,230 --> 00:17:45,200

feral people

421

00:17:49,750 --> 00:17:48,240

as a small bigfoot and shoot it and find

422

00:17:51,830 --> 00:17:49,760

out it was human

423

00:17:54,150 --> 00:17:51,840

or even a dog or even a dog man type of

424

00:17:56,150 --> 00:17:54,160

creature too i i would guess

425

00:17:58,789 --> 00:17:56,160

yeah oh wow

426

00:18:00,789 --> 00:17:58,799

but you know like in uh during the days

427

00:18:02,070 --> 00:18:00,799

of depression and during the days of the

428

00:18:04,390 --> 00:18:02,080

depression

429

00:18:06,150 --> 00:18:04,400

a lot of people could not feed their

430

00:18:08,789 --> 00:18:06,160

children

431

00:18:10,710 --> 00:18:08,799

and they would actually you know take

432

00:18:12,310 --> 00:18:10,720

them out into the woods and drop them

433

00:18:14,310 --> 00:18:12,320

off

434

00:18:16,630 --> 00:18:14,320

and and then there's just cold-blooded

435

00:18:19,510 --> 00:18:16,640

people that would do the same thing but

436

00:18:21,029 --> 00:18:19,520

uh and then remember the stories of the

437

00:18:23,510 --> 00:18:21,039

orphan train

438

00:18:25,590 --> 00:18:23,520

that would pick up these uh kids on the

439

00:18:28,549 --> 00:18:25,600

streets of new york city

440

00:18:31,909 --> 00:18:28,559

and then uh bring bring these orphans to

441

00:18:34,070 --> 00:18:31,919

the midwest and then you know as this

442

00:18:37,430 --> 00:18:34,080

history states today they were given

443

00:18:43,750 --> 00:18:37,440

good homes and uh

444

00:18:45,590 --> 00:18:43,760

right but actually what was happening

445

00:18:48,710 --> 00:18:45,600

was these people were getting these

446

00:18:50,549 --> 00:18:48,720

orphans you know so that they could like

447

00:18:52,630 --> 00:18:50,559

slaves

448

00:18:55,430 --> 00:18:52,640

working these little kids

449

00:18:57,190 --> 00:18:55,440

and when they were no longer useful they

450

00:18:59,270 --> 00:18:57,200

would just kick them out and then the

451
00:19:02,710 --> 00:18:59,280
kids would have to go find

452
00:19:04,710 --> 00:19:02,720
a means of taking care of themselves so

453
00:19:07,270 --> 00:19:04,720
during that time and that would be

454
00:19:09,350 --> 00:19:07,280
still in that depression era there was a

455
00:19:13,110 --> 00:19:09,360
lot of kids that was dumped out into the

456
00:19:14,230 --> 00:19:13,120
woods thus a lot so thus became all the

457
00:19:15,190 --> 00:19:14,240
feral

458
00:19:16,310 --> 00:19:15,200
um

459
00:19:18,549 --> 00:19:16,320
sightings

460
00:19:21,110 --> 00:19:18,559
there was uh this woman that came into

461
00:19:22,789 --> 00:19:21,120
the sci-fi cafe one time and just kind

462
00:19:25,750 --> 00:19:22,799
of blew me away

463
00:19:28,470 --> 00:19:25,760

because she told me that burlington

464

00:19:31,270 --> 00:19:28,480

wisconsin actually had this

465

00:19:33,669 --> 00:19:31,280

great big center in the

466

00:19:36,310 --> 00:19:33,679

early 1900s

467

00:19:39,110 --> 00:19:36,320

where you know an institution it was

468

00:19:40,470 --> 00:19:39,120

like a a huge building two floors at

469

00:19:43,510 --> 00:19:40,480

least

470

00:19:47,110 --> 00:19:43,520

and that's what they did there is they

471

00:19:49,430 --> 00:19:47,120

took care of feral people

472

00:19:51,029 --> 00:19:49,440

that's how many there was in burlington

473

00:19:54,630 --> 00:19:51,039

at one time

474

00:19:57,669 --> 00:19:54,640

and they said she was telling me that um

475

00:19:59,510 --> 00:19:57,679

if they could get them before what was

476

00:20:00,390 --> 00:19:59,520

it three years old or something like

477

00:20:03,430 --> 00:20:00,400

that

478

00:20:06,470 --> 00:20:03,440

they could probably get them to speak

479

00:20:09,350 --> 00:20:06,480

but after a certain length of time of

480

00:20:13,029 --> 00:20:09,360

not using those vocal cords you know for

481

00:20:15,190 --> 00:20:13,039

language oh sure uh they would just um

482

00:20:17,669 --> 00:20:15,200

you never could get them to speak they

483

00:20:21,430 --> 00:20:17,679

would just um they would just answer in

484

00:20:24,230 --> 00:20:21,440

howls and grunts and things like that

485

00:20:26,230 --> 00:20:24,240

but yeah there was a lot of those uh

486

00:20:28,390 --> 00:20:26,240

those feral children that were being

487

00:20:30,630 --> 00:20:28,400

found to the point like i said they

488

00:20:34,310 --> 00:20:30,640

actually had an institution

489

00:20:37,029 --> 00:20:34,320

to get them and take care of them crazy

490

00:20:39,110 --> 00:20:37,039

huh oh wow yeah yeah i've i've heard of

491

00:20:41,270 --> 00:20:39,120

that i mean and

492

00:20:44,230 --> 00:20:41,280

how it you know so

493

00:20:46,230 --> 00:20:44,240

and then the indians also talk about a

494

00:20:48,789 --> 00:20:46,240

lot of their people

495

00:20:51,110 --> 00:20:48,799

all want to that won't go

496

00:20:54,549 --> 00:20:51,120

more of the shaman way

497

00:20:57,350 --> 00:20:54,559

and they cut and they leave the village

498

00:21:00,070 --> 00:20:57,360

without any provisions or clothing from

499

00:21:03,510 --> 00:21:00,080

what i understand and they just live a

500

00:21:05,430 --> 00:21:03,520

life out in the woods wild

501
00:21:06,630 --> 00:21:05,440
and you know to become more part of

502
00:21:08,630 --> 00:21:06,640
nature

503
00:21:11,510 --> 00:21:08,640
and of course those people too would

504
00:21:13,669 --> 00:21:11,520
have the long hair uh their body would

505
00:21:16,950 --> 00:21:13,679
be covered with hair you know to protect

506
00:21:18,710 --> 00:21:16,960
them from the elements and uh so

507
00:21:20,789 --> 00:21:18,720
there's a lot of things out there that

508
00:21:23,350 --> 00:21:20,799
look like a bigfoot

509
00:21:25,990 --> 00:21:23,360
but aren't bigfoot and if you're gonna

510
00:21:27,060 --> 00:21:26,000
shoot one of them you will definitely go

511
00:21:28,710 --> 00:21:27,070
to chris

512
00:21:31,350 --> 00:21:28,720
[Music]

513
00:21:32,149 --> 00:21:31,360

oh yeah yeah that's uh

514

00:21:34,870 --> 00:21:32,159

so

515

00:21:36,870 --> 00:21:34,880

many people right now that

516

00:21:38,789 --> 00:21:36,880

you know there's radio shows out there

517

00:21:40,710 --> 00:21:38,799

in television shows are actually

518

00:21:41,990 --> 00:21:40,720

promoting

519

00:21:44,870 --> 00:21:42,000

fear

520

00:21:46,390 --> 00:21:44,880

whereas people are wanting to go into

521

00:21:48,549 --> 00:21:46,400

the national parks and everything

522

00:21:51,669 --> 00:21:48,559

carrying guns

523

00:21:53,830 --> 00:21:51,679

and i personally would be more afraid of

524

00:21:55,909 --> 00:21:53,840

some person that is full of fear

525

00:21:58,789 --> 00:21:55,919

carrying a gun you better then i would

526

00:22:00,549 --> 00:21:58,799

be and running onto a bigfoot oh you bet

527

00:22:03,430 --> 00:22:00,559

oh you bet

528

00:22:04,870 --> 00:22:03,440

yeah so so is illinois

529

00:22:07,510 --> 00:22:04,880

more active down there in the northern

530

00:22:10,390 --> 00:22:07,520

part than wisconsin i mean you you

531

00:22:14,149 --> 00:22:10,400

from what linda godfrey told me

532

00:22:17,110 --> 00:22:14,159

uh we're right in the center of dogman

533

00:22:19,270 --> 00:22:17,120

country oh yeah that's what i figured

534

00:22:21,830 --> 00:22:19,280

do you remember that documentary i don't

535

00:22:24,549 --> 00:22:21,840

know if it was on sci-fi or the history

536

00:22:27,909 --> 00:22:24,559

channel where these young adults had

537

00:22:29,430 --> 00:22:27,919

pulled down into this area called avon

538

00:22:30,390 --> 00:22:29,440

bottoms

539

00:22:34,070 --> 00:22:30,400

and

540

00:22:37,350 --> 00:22:34,080

had seen some dogmen

541

00:22:39,110 --> 00:22:37,360

uh a family of dog men getting a a drink

542

00:22:41,909 --> 00:22:39,120

of water

543

00:22:45,029 --> 00:22:41,919

yeah i believe so yeah yeah yeah well i

544

00:22:48,230 --> 00:22:45,039

was there linda gabriel came and we we

545

00:22:49,909 --> 00:22:48,240

went there i think it was last year

546

00:22:53,190 --> 00:22:49,919

because she wanted to show me where that

547

00:22:56,390 --> 00:22:53,200

was and um anyhow we found bigfoot

548

00:22:59,029 --> 00:22:56,400

tracks down there oh wow you know they'd

549

00:23:01,750 --> 00:22:59,039

come out of the water into the mud and

550

00:23:04,710 --> 00:23:01,760

left really nice bigfoot tracks so

551
00:23:06,230 --> 00:23:04,720
apparently these dog men and bigfoot

552
00:23:07,110 --> 00:23:06,240
pretty much

553
00:23:08,549 --> 00:23:07,120
um

554
00:23:11,270 --> 00:23:08,559
i don't know if they like each other

555
00:23:12,310 --> 00:23:11,280
exist somewhat co-existing yeah yeah i

556
00:23:14,710 --> 00:23:12,320
know ken

557
00:23:16,070 --> 00:23:14,720
ken stated that i think he was he was

558
00:23:18,390 --> 00:23:16,080
your with that was the creature you

559
00:23:20,470 --> 00:23:18,400
spotted picking up crawfish out of the

560
00:23:22,470 --> 00:23:20,480
river ken is that what you thought

561
00:23:24,310 --> 00:23:22,480
yeah um

562
00:23:27,029 --> 00:23:24,320
you know standing up on a hilltop and

563
00:23:29,909 --> 00:23:27,039

looking down into nero's creek which was

564

00:23:31,029 --> 00:23:29,919

actually a river at that time um

565

00:23:33,750 --> 00:23:31,039

uh

566

00:23:35,590 --> 00:23:33,760

yeah it appeared i didn't know what a

567

00:23:37,909 --> 00:23:35,600

long story short yeah he

568

00:23:40,950 --> 00:23:37,919

he was turning over rocks getting uh

569

00:23:43,029 --> 00:23:40,960

eating crawfish and he did have a small

570

00:23:45,430 --> 00:23:43,039

deer over over his back that he was

571

00:23:46,390 --> 00:23:45,440

carrying when the encounter took place

572

00:23:54,470 --> 00:23:46,400

yeah

573

00:23:56,390 --> 00:23:54,480

think they eat anything roots berries

574

00:23:58,710 --> 00:23:56,400

deer squirrels you know whatever they

575

00:24:00,070 --> 00:23:58,720

can get their hands on yeah kind of like

576

00:24:02,149 --> 00:24:00,080

us

577

00:24:04,390 --> 00:24:02,159

yeah well i am i mean i like crawfish

578

00:24:07,029 --> 00:24:04,400

and i like deer so yeah you know i'm not

579

00:24:09,590 --> 00:24:07,039

that far removed

580

00:24:11,909 --> 00:24:09,600

well the people you know people will say

581

00:24:14,549 --> 00:24:11,919

well you know wisconsin southern

582

00:24:16,470 --> 00:24:14,559

wisconsin area doesn't have all those

583

00:24:18,470 --> 00:24:16,480

big woods

584

00:24:21,269 --> 00:24:18,480

you know like the northern woods and

585

00:24:23,110 --> 00:24:21,279

washington and that but what we've got

586

00:24:26,070 --> 00:24:23,120

is even better for them because we got

587

00:24:28,789 --> 00:24:26,080

all these swamps

588

00:24:30,710 --> 00:24:28,799

and you get into those swamp if they get

589

00:24:33,909 --> 00:24:30,720

into those swamps you're never going to

590

00:24:35,269 --> 00:24:33,919

find them because those swamps have bogs

591

00:24:38,070 --> 00:24:35,279

and if you don't know where you're

592

00:24:39,830 --> 00:24:38,080

walking those bogs are like quicksand

593

00:24:43,430 --> 00:24:39,840

oh i think they're very adaptable i

594

00:24:44,149 --> 00:24:43,440

think that that they're capable of

595

00:24:48,950 --> 00:24:44,159

of

596

00:24:50,149 --> 00:24:48,960

environment um i wouldn't be surprised

597

00:24:51,669 --> 00:24:50,159

to be honest with you that in the

598

00:24:54,070 --> 00:24:51,679

outskirts of your major cities that

599

00:24:56,230 --> 00:24:54,080

they're not dippy

600

00:24:58,549 --> 00:24:56,240

diving you know i mean i think that

601
00:25:02,310 --> 00:24:58,559
they're very capable

602
00:25:03,909 --> 00:25:02,320
of uh of uh living uh almost off of

603
00:25:06,789 --> 00:25:03,919
anything like i said they're omnivorous

604
00:25:09,029 --> 00:25:06,799
they'll lead anything anywhere anytime

605
00:25:10,470 --> 00:25:09,039
and mary being in this being in a swamp

606
00:25:12,630 --> 00:25:10,480
that wouldn't be any difficult for them

607
00:25:14,870 --> 00:25:12,640
i don't they see any difficulty

608
00:25:17,510 --> 00:25:14,880
because those swamps i mean you know

609
00:25:18,789 --> 00:25:17,520
those cattails they grow what 12 foot

610
00:25:20,789 --> 00:25:18,799
tall oh yeah

611
00:25:23,269 --> 00:25:20,799
and so they could get in there and i

612
00:25:25,350 --> 00:25:23,279
mean they got water they got you know

613
00:25:28,310 --> 00:25:25,360

frogs they got all different types of

614

00:25:31,750 --> 00:25:28,320

ducks geese i mean all kinds of

615

00:25:33,830 --> 00:25:31,760

waterfowl and uh hell deer go in and out

616

00:25:36,070 --> 00:25:33,840

of those bogs too so

617

00:25:38,549 --> 00:25:36,080

wild rice i mean they could make beds in

618

00:25:40,549 --> 00:25:38,559

there you know i mean it's to me the

619

00:25:42,789 --> 00:25:40,559

perfect place for them and then of

620

00:25:46,149 --> 00:25:42,799

course south east or southeastern

621

00:25:47,990 --> 00:25:46,159

wisconsin has a lot of cave systems too

622

00:25:49,990 --> 00:25:48,000

so they can be living in the cave

623

00:25:52,710 --> 00:25:50,000

systems as well

624

00:25:56,549 --> 00:25:52,720

but going with a dog man

625

00:25:58,710 --> 00:25:56,559

um i was talking to this lady she

626
00:26:01,190 --> 00:25:58,720
brought up a really um

627
00:26:03,029 --> 00:26:01,200
she brought up a really interesting idea

628
00:26:04,310 --> 00:26:03,039
that these dog men

629
00:26:06,470 --> 00:26:04,320
may be

630
00:26:10,390 --> 00:26:06,480
what

631
00:26:13,110 --> 00:26:10,400
may be these uh prehistoric dire wolves

632
00:26:15,510 --> 00:26:13,120
d-i-r-e

633
00:26:18,950 --> 00:26:15,520
dire wolves they supposed to became

634
00:26:20,789 --> 00:26:18,960
extinct about 10 000 years ago

635
00:26:22,950 --> 00:26:20,799
but we've known

636
00:26:23,669 --> 00:26:22,960
lately that a lot of things that you

637
00:26:26,870 --> 00:26:23,679
know

638
00:26:29,110 --> 00:26:26,880

that the dnr or scientists has claimed

639

00:26:30,390 --> 00:26:29,120

to be extinct we found them still

640

00:26:32,789 --> 00:26:30,400

existing

641

00:26:35,190 --> 00:26:32,799

so they could be some sort of a branch

642

00:26:36,310 --> 00:26:35,200

off these dire walls

643

00:26:38,710 --> 00:26:36,320

and

644

00:26:42,390 --> 00:26:38,720

because they they're starting to you

645

00:26:45,590 --> 00:26:42,400

know it's like these um these wild dogs

646

00:26:48,149 --> 00:26:45,600

you know um these feral dogs and that

647

00:26:50,149 --> 00:26:48,159

you know they've gotten so in raccoons

648

00:26:51,590 --> 00:26:50,159

and bearing that they've gotten used to

649

00:26:52,549 --> 00:26:51,600

seeing people

650

00:26:54,470 --> 00:26:52,559

so now

651
00:26:56,789 --> 00:26:54,480
you know because they're used to seeing

652
00:26:59,430 --> 00:26:56,799
people they've lost that fear and so

653
00:27:00,950 --> 00:26:59,440
they're starting to come into town these

654
00:27:02,710 --> 00:27:00,960
dog men are

655
00:27:06,870 --> 00:27:02,720
and um

656
00:27:08,710 --> 00:27:06,880
and you know raiding people's um garbage

657
00:27:10,789 --> 00:27:08,720
and things like that

658
00:27:13,669 --> 00:27:10,799
and then there's another thing i wanted

659
00:27:17,510 --> 00:27:13,679
to point out about the dog man

660
00:27:19,750 --> 00:27:17,520
to me a dog man is like a dog a canine

661
00:27:21,590 --> 00:27:19,760
and you hear people saying oh well you

662
00:27:23,510 --> 00:27:21,600
know i was going down the road i was

663
00:27:25,830 --> 00:27:23,520

only going about 20 miles an hour and

664

00:27:26,789 --> 00:27:25,840

this dog man comes running out of this

665

00:27:28,870 --> 00:27:26,799

field

666

00:27:31,830 --> 00:27:28,880

and then he starts chasing after me in

667

00:27:34,549 --> 00:27:31,840

my car i pick up speed that keeps right

668

00:27:37,750 --> 00:27:34,559

along going you know with me

669

00:27:41,029 --> 00:27:37,760

and then they'll try to bite the car

670

00:27:43,430 --> 00:27:41,039

and and somebody had said well

671

00:27:45,510 --> 00:27:43,440

that well that's not well no other

672

00:27:47,590 --> 00:27:45,520

animal does that

673

00:27:50,070 --> 00:27:47,600

and it's like yeah you've never been out

674

00:27:53,029 --> 00:27:50,080

in these farming communities apparently

675

00:27:55,669 --> 00:27:53,039

because these farmers dogs that's the

676
00:27:57,510 --> 00:27:55,679
best game that they got going is chasing

677
00:27:59,669 --> 00:27:57,520
after cars and trying to fight their

678
00:28:03,590 --> 00:27:59,679
wheels

679
00:28:06,310 --> 00:28:03,600
you know marilyn um posted in chat that

680
00:28:07,909 --> 00:28:06,320
bigfoot was seen digging in a dipstick

681
00:28:11,110 --> 00:28:07,919
dumpster

682
00:28:13,669 --> 00:28:11,120
near yukon oklahoma near

683
00:28:16,549 --> 00:28:13,679
the lucky star casino and i think they

684
00:28:17,990 --> 00:28:16,559
even had a picture of one uh taken with

685
00:28:21,350 --> 00:28:18,000
a uh

686
00:28:23,510 --> 00:28:21,360
cell phone of some kind of

687
00:28:25,269 --> 00:28:23,520
bipedal creature digging in a dumpster

688
00:28:27,750 --> 00:28:25,279

down in florida too one of the skunk

689

00:28:32,070 --> 00:28:27,760

apes or whatever they refer to it as

690

00:28:35,669 --> 00:28:32,080

so i i wouldn't see um um

691

00:28:38,630 --> 00:28:35,679

and as as population expands and as

692

00:28:40,710 --> 00:28:38,640

cities grow and and and the suburbs go

693

00:28:42,389 --> 00:28:40,720

further and further into the i think

694

00:28:43,350 --> 00:28:42,399

you're going to see more of that

695

00:28:45,430 --> 00:28:43,360

yeah

696

00:28:47,750 --> 00:28:45,440

i agree all right i wonder i often

697

00:28:49,350 --> 00:28:47,760

wonder if he's dumpster diving at burger

698

00:28:50,789 --> 00:28:49,360

king and then getting high cholesterol

699

00:28:52,590 --> 00:28:50,799

though

700

00:28:55,190 --> 00:28:52,600

just kidding

701
00:28:57,350 --> 00:28:55,200

[Laughter]

702
00:28:59,269 --> 00:28:57,360

i mean yeah hey you know what though

703
00:29:00,950 --> 00:28:59,279

what the hell i mean you know

704
00:29:02,870 --> 00:29:00,960

if you're hungry you'll eat anything

705
00:29:04,149 --> 00:29:02,880

pretty much that's right pretty much

706
00:29:06,470 --> 00:29:04,159

mcdonald's

707
00:29:08,310 --> 00:29:06,480

yeah yeah well let's let's take a break

708
00:29:09,830 --> 00:29:08,320

right now we'll be right back on paying

709
00:29:11,350 --> 00:29:09,840

radio with mary sutherland we'll get

710
00:29:13,190 --> 00:29:11,360

into some history of burlington

711
00:29:15,590 --> 00:29:13,200

wisconsin and

712
00:29:17,029 --> 00:29:15,600

an ongoing issue that we have to bring

713
00:29:21,669 --> 00:29:17,039

to the forefront for all you listeners

714

00:29:27,430 --> 00:29:23,669

welcome back to paying radio tonight we

715

00:29:29,909 --> 00:29:27,440

have on our guest and author researcher

716

00:29:31,590 --> 00:29:29,919

mary sutherland out of she's originally

717

00:29:33,430 --> 00:29:31,600

a cheesehead but she's down in illinois

718

00:29:35,990 --> 00:29:33,440

now we're talking dog man

719

00:29:39,510 --> 00:29:36,000

werewolves bigfoot and uh we're gonna

720

00:29:41,350 --> 00:29:39,520

talk about burlington wisconsin uh mary

721

00:29:44,470 --> 00:29:41,360

mary trump the grounds of burlington for

722

00:29:47,029 --> 00:29:44,480

quite a few years now mary didn't you

723

00:29:48,549 --> 00:29:47,039

i probably got close to two decades in

724

00:29:51,269 --> 00:29:48,559

there

725

00:29:52,470 --> 00:29:51,279

that's a long time actually about 16

726

00:29:54,149 --> 00:29:52,480

years

727

00:29:56,630 --> 00:29:54,159

very cool and and you're in you're the

728

00:29:59,269 --> 00:29:56,640

former owner of the sci-fi cafe which i

729

00:30:01,350 --> 00:29:59,279

never got to go to i wish i could have

730

00:30:04,710 --> 00:30:01,360

oh bummer you would have loved it oh

731

00:30:07,990 --> 00:30:04,720

yeah oh yeah it was um i had created

732

00:30:09,590 --> 00:30:08,000

space for people of like minds to be

733

00:30:13,830 --> 00:30:09,600

able to go to

734

00:30:16,630 --> 00:30:13,840

and tell their stories of ufos bigfoot

735

00:30:18,870 --> 00:30:16,640

their theories on time travel whatever

736

00:30:20,789 --> 00:30:18,880

they wanted to speak about they could go

737

00:30:23,830 --> 00:30:20,799

there know that they were safe they were

738

00:30:24,710 --> 00:30:23,840

not going to be ridiculed by others

739

00:30:26,389 --> 00:30:24,720

and

740

00:30:29,750 --> 00:30:26,399

we used to play

741

00:30:31,990 --> 00:30:29,760

sci-fi movies and we had good food we

742

00:30:35,350 --> 00:30:32,000

had down in the basement

743

00:30:38,230 --> 00:30:35,360

a haunted cellar oh my god it was

744

00:30:41,350 --> 00:30:38,240

and then we had it was very big too

745

00:30:45,990 --> 00:30:41,360

and we had one room that was um a movie

746

00:30:47,430 --> 00:30:46,000

room with um uh with a library and um

747

00:30:49,669 --> 00:30:47,440

we would

748

00:30:51,430 --> 00:30:49,679

people just be able to come in

749

00:30:54,230 --> 00:30:51,440

and the library was just set up with

750

00:30:57,590 --> 00:30:54,240

metaphysical books

751
00:30:59,269 --> 00:30:57,600
holistic books uh ufos paranormal

752
00:31:01,750 --> 00:30:59,279
whatever you know

753
00:31:04,789 --> 00:31:01,760
mystery type books and people would just

754
00:31:07,269 --> 00:31:04,799
come in and said you know on a nice cozy

755
00:31:09,190 --> 00:31:07,279
chair and grab a cup of tea or coffee

756
00:31:11,350 --> 00:31:09,200
and just kind of chill out

757
00:31:13,669 --> 00:31:11,360
you used to have it we could do um and

758
00:31:15,510 --> 00:31:13,679
then we would do haunted tours then on

759
00:31:17,590 --> 00:31:15,520
saturday nights oh wow and you used to

760
00:31:19,669 --> 00:31:17,600
have a nice little conference

761
00:31:21,350 --> 00:31:19,679
their schedule you used to have a nice a

762
00:31:22,310 --> 00:31:21,360
good conference every fall too didn't

763
00:31:23,190 --> 00:31:22,320

you

764

00:31:26,870 --> 00:31:23,200

yeah

765

00:31:29,269 --> 00:31:26,880

well you were isn't that where i first

766

00:31:31,190 --> 00:31:29,279

met you mj i think we helped you promote

767

00:31:32,870 --> 00:31:31,200

it a few times i didn't make it down we

768

00:31:34,630 --> 00:31:32,880

were trying to get down but we every

769

00:31:36,389 --> 00:31:34,640

every year we would kind of connect i

770

00:31:39,190 --> 00:31:36,399

think you had it in october normally was

771

00:31:44,310 --> 00:31:41,830

yeah we had some pretty famous people

772

00:31:47,509 --> 00:31:44,320

showing oh yeah oh yeah you did oh yeah

773

00:31:49,750 --> 00:31:47,519

you know stanton friedman and daryl sims

774

00:31:51,830 --> 00:31:49,760

um old guys

775

00:31:54,549 --> 00:31:51,840

you name it i think that they were all

776

00:31:57,110 --> 00:31:54,559

there at one point of time or another

777

00:31:59,590 --> 00:31:57,120

so so what is the cafe now is it is did

778

00:32:03,110 --> 00:31:59,600

it turn into some other business

779

00:32:05,029 --> 00:32:03,120

but it's still sitting there vacant oh

780

00:32:07,350 --> 00:32:05,039

okay okay

781

00:32:09,750 --> 00:32:07,360

so so burlington also has you know

782

00:32:12,549 --> 00:32:09,760

another thing i can add to uh when i was

783

00:32:14,870 --> 00:32:12,559

a state director of mufon for wisconsin

784

00:32:16,230 --> 00:32:14,880

that area that belt line between madison

785

00:32:18,549 --> 00:32:16,240

and milwaukee

786

00:32:20,710 --> 00:32:18,559

majority of the reports on the database

787

00:32:22,149 --> 00:32:20,720

all the time and i know you guys seen

788

00:32:25,190 --> 00:32:22,159

lights in the sky all the time in

789

00:32:30,789 --> 00:32:27,430

all the time i used to call it a

790

00:32:33,990 --> 00:32:30,799

galactic uh airport because we wouldn't

791

00:32:35,990 --> 00:32:34,000

just see one type of ufo but it was all

792

00:32:38,789 --> 00:32:36,000

different types disc

793

00:32:41,029 --> 00:32:38,799

motherships um

794

00:32:42,950 --> 00:32:41,039

light ships um

795

00:32:45,350 --> 00:32:42,960

triangles

796

00:32:52,630 --> 00:32:48,789

and i mean close encounters

797

00:32:54,789 --> 00:32:52,640

and uh we were lucky enough that uh the

798

00:32:57,909 --> 00:32:54,799

sheriff's department was actually

799

00:33:01,190 --> 00:32:57,919

you know quietly the deputies were

800

00:33:03,590 --> 00:33:01,200

sharing stories you know of their ufo

801
00:33:05,350 --> 00:33:03,600
sightings with us as well

802
00:33:08,389 --> 00:33:05,360
so i mean

803
00:33:11,590 --> 00:33:08,399
we've put it we've videoed ufos right

804
00:33:14,029 --> 00:33:11,600
over the sci-fi cafe line i've seen them

805
00:33:17,990 --> 00:33:14,039
yeah it i think it was

806
00:33:20,710 --> 00:33:18,000
2001 or 2002. i think it was 2001.

807
00:33:22,310 --> 00:33:20,720
we had them come in i bet for almost

808
00:33:25,110 --> 00:33:22,320
eight months

809
00:33:26,149 --> 00:33:25,120
every night they'd usually show up about

810
00:33:28,070 --> 00:33:26,159
um

811
00:33:29,909 --> 00:33:28,080
nine o'clock at night

812
00:33:33,110 --> 00:33:29,919
stick around until about three four

813
00:33:36,630 --> 00:33:33,120

o'clock in the morning then take off

814

00:33:39,350 --> 00:33:36,640

yeah and so we got incredible shots it

815

00:33:41,029 --> 00:33:39,360

got to the point though that i never

816

00:33:43,190 --> 00:33:41,039

thought they were ever going to leave so

817

00:33:45,190 --> 00:33:43,200

after about five months of shooting i

818

00:33:46,950 --> 00:33:45,200

just kind of like oh well i know where

819

00:33:49,750 --> 00:33:46,960

they're at

820

00:33:52,149 --> 00:33:49,760

and i quit shooting you know so and then

821

00:33:54,470 --> 00:33:52,159

after a couple months they were left and

822

00:33:56,149 --> 00:33:54,480

i thought well darn it if i'd known that

823

00:33:57,830 --> 00:33:56,159

i would have kept shooting

824

00:34:01,430 --> 00:33:57,840

but we've had

825

00:34:04,470 --> 00:34:01,440

one time at one of our ufo conferences

826

00:34:07,029 --> 00:34:04,480

we had the milwaukee magazine you know

827

00:34:09,430 --> 00:34:07,039

that's a big magazine you know that

828

00:34:12,550 --> 00:34:09,440

four-colored magazine

829

00:34:15,669 --> 00:34:12,560

anyhow they came up to uh do a story a

830

00:34:17,109 --> 00:34:15,679

halloween story on our tour for the

831

00:34:20,389 --> 00:34:17,119

conference

832

00:34:24,149 --> 00:34:20,399

and we got up into the woods and we had

833

00:34:25,030 --> 00:34:24,159

one heck of a huge ufo sighting one came

834

00:34:28,389 --> 00:34:25,040

in

835

00:34:30,149 --> 00:34:28,399

and it was just um

836

00:34:32,550 --> 00:34:30,159

maybe if you took a

837

00:34:36,069 --> 00:34:32,560

large tree then put another large tree

838

00:34:37,109 --> 00:34:36,079

on top of that as well how high up it

839

00:34:43,349 --> 00:34:37,119

was

840

00:34:45,829 --> 00:34:43,359

and the ufo came in

841

00:34:48,550 --> 00:34:45,839

hovered right over everybody and people

842

00:34:52,230 --> 00:34:48,560

were so i mean so excited they were

843

00:34:54,389 --> 00:34:52,240

praising god and praising the ufos and

844

00:34:56,230 --> 00:34:54,399

that people were down on their knees

845

00:34:58,950 --> 00:34:56,240

praying and

846

00:35:01,270 --> 00:34:58,960

the milwaukee magazine was there and

847

00:35:04,470 --> 00:35:01,280

they were like standing there in shock

848

00:35:08,230 --> 00:35:04,480

and taking pictures and videos and that

849

00:35:10,310 --> 00:35:08,240

the guy was a he was not a ufo believer

850

00:35:12,870 --> 00:35:10,320

but after that night he actually wrote a

851
00:35:14,950 --> 00:35:12,880
book on ufos

852
00:35:18,630 --> 00:35:14,960
turned him into a believer and then that

853
00:35:20,790 --> 00:35:18,640
one would disappear into this portal

854
00:35:22,550 --> 00:35:20,800
or a wormhole

855
00:35:25,270 --> 00:35:22,560
and then another one would come from the

856
00:35:26,230 --> 00:35:25,280
horizon real fast get right over top of

857
00:35:28,069 --> 00:35:26,240
us

858
00:35:30,790 --> 00:35:28,079
and then

859
00:35:33,030 --> 00:35:30,800
it went over and it threw and went

860
00:35:35,829 --> 00:35:33,040
through that wormhole and disappeared

861
00:35:38,470 --> 00:35:35,839
and the reason i know it was a wormhole

862
00:35:41,430 --> 00:35:38,480
is because i got two different people

863
00:35:44,310 --> 00:35:41,440

that photograph these ufos and you can

864

00:35:45,510 --> 00:35:44,320

see that that wormhole just as pretty as

865

00:35:49,109 --> 00:35:45,520

can be

866

00:35:51,750 --> 00:35:49,119

oh wow yeah amazing hey america yeah

867

00:35:53,510 --> 00:35:51,760

we've been we've had so our conferences

868

00:35:55,030 --> 00:35:53,520

actually became what would you say

869

00:35:57,430 --> 00:35:55,040

intergalactic

870

00:36:00,630 --> 00:35:57,440

yes

871

00:36:02,390 --> 00:36:00,640

galactic conferences

872

00:36:04,470 --> 00:36:02,400

even the aliens showed up for my

873

00:36:05,750 --> 00:36:04,480

conferences mary do you think that's the

874

00:36:07,349 --> 00:36:05,760

reason why they were coming there is

875

00:36:08,550 --> 00:36:07,359

because of the portal i mean that was

876

00:36:10,630 --> 00:36:08,560

the

877

00:36:14,390 --> 00:36:10,640

you know entrance and exit

878

00:36:16,310 --> 00:36:14,400

oh i'm sure that i'm sure that uh it was

879

00:36:18,630 --> 00:36:16,320

because of the portals that we have in

880

00:36:19,349 --> 00:36:18,640

burlington that we've got a bunch of you

881

00:36:22,150 --> 00:36:19,359

know

882

00:36:24,150 --> 00:36:22,160

there there's one big portal and it's

883

00:36:27,030 --> 00:36:24,160

huge they call it the rain we call it

884

00:36:29,510 --> 00:36:27,040

the rainbow vortex because it's uh

885

00:36:31,910 --> 00:36:29,520

it actually extends almost to milwaukee

886

00:36:35,349 --> 00:36:31,920

it's so huge but we got the

887

00:36:37,430 --> 00:36:35,359

portals was inside that vortex

888

00:36:40,150 --> 00:36:37,440

and things are coming in and out of

889

00:36:43,030 --> 00:36:40,160

there all the time

890

00:36:45,430 --> 00:36:43,040

and we get pulled into them as well

891

00:36:46,710 --> 00:36:45,440

and taken you know taken into different

892

00:36:49,270 --> 00:36:46,720

dimensions

893

00:36:52,950 --> 00:36:49,280

and that's what my tours are all about

894

00:36:54,390 --> 00:36:52,960

is i take people up to these portals

895

00:36:55,750 --> 00:36:54,400

and um

896

00:36:56,550 --> 00:36:55,760

okay marilyn

897

00:36:58,710 --> 00:36:56,560

um

898

00:37:01,030 --> 00:36:58,720

i take people up into those portals and

899

00:37:02,310 --> 00:37:01,040

let them experience shifting out of

900

00:37:04,790 --> 00:37:02,320

their bodies

901
00:37:06,630 --> 00:37:04,800
into these other dimensions and and i

902
00:37:09,829 --> 00:37:06,640
had the ability with my camera to

903
00:37:12,630 --> 00:37:09,839
actually photograph them

904
00:37:15,190 --> 00:37:12,640
in 3d

905
00:37:17,750 --> 00:37:15,200
plus the in in the dimension that

906
00:37:22,470 --> 00:37:20,710
one of the few people that can do that

907
00:37:24,710 --> 00:37:22,480
i've seen a lot of photography from the

908
00:37:26,790 --> 00:37:24,720
woods too you've uh you've shown me and

909
00:37:29,109 --> 00:37:26,800
i've seen it your post it's you've

910
00:37:30,870 --> 00:37:29,119
you've taken some pretty crazy pictures

911
00:37:31,750 --> 00:37:30,880
that i mean showing showing what's going

912
00:37:33,270 --> 00:37:31,760
on

913
00:37:35,750 --> 00:37:33,280

yeah

914

00:37:37,750 --> 00:37:35,760

and people a lot of people claim that

915

00:37:39,910 --> 00:37:37,760

those bigfoot don't cloak themselves

916

00:37:41,829 --> 00:37:39,920

well we've got pictures of them cloaking

917

00:37:42,790 --> 00:37:41,839

themselves so

918

00:37:46,550 --> 00:37:42,800

you know

919

00:37:48,630 --> 00:37:46,560

i'm so i mean to me if you can get it on

920

00:37:52,630 --> 00:37:48,640

pitch because when they cloak themselves

921

00:37:55,109 --> 00:37:52,640

it's kind of like a smoky form

922

00:37:58,550 --> 00:37:55,119

that you can't the people can't see but

923

00:38:01,990 --> 00:37:58,560

they show that smoky form shows up

924

00:38:02,829 --> 00:38:02,000

in the camera or you know in the picture

925

00:38:04,870 --> 00:38:02,839

a

926
00:38:06,790 --> 00:38:04,880
wormhole um

927
00:38:08,870 --> 00:38:06,800
you got some people in chat room asking

928
00:38:09,670 --> 00:38:08,880
what a wormhole is

929
00:38:11,190 --> 00:38:09,680
well

930
00:38:13,030 --> 00:38:11,200
wormholes

931
00:38:16,230 --> 00:38:13,040
this is where you get actually get this

932
00:38:17,670 --> 00:38:16,240
is a nice lead into burlington

933
00:38:19,109 --> 00:38:17,680
there's

934
00:38:21,990 --> 00:38:19,119
we the

935
00:38:23,829 --> 00:38:22,000
people themselves we have blood running

936
00:38:26,950 --> 00:38:23,839
through our veins

937
00:38:29,109 --> 00:38:26,960
mother earth has ele energy running

938
00:38:30,950 --> 00:38:29,119

through her veins electricity running

939

00:38:34,230 --> 00:38:30,960

through her veins

940

00:38:36,230 --> 00:38:34,240

and now with us we got our little veins

941

00:38:38,470 --> 00:38:36,240

and then we got the big veins you know

942

00:38:40,550 --> 00:38:38,480

they go into the heart map

943

00:38:42,069 --> 00:38:40,560

and so does mother

944

00:38:46,310 --> 00:38:42,079

so

945

00:38:48,069 --> 00:38:46,320

where you get the little veins you don't

946

00:38:50,230 --> 00:38:48,079

have too much activity going on the

947

00:38:51,750 --> 00:38:50,240

lauren you got those big veins and they

948

00:38:54,230 --> 00:38:51,760

cross over

949

00:38:55,829 --> 00:38:54,240

it's almost like if you took two battery

950

00:38:58,390 --> 00:38:55,839

cables that were hooked up to two

951
00:39:00,230 --> 00:38:58,400
separate cars and you take those battery

952
00:39:02,230 --> 00:39:00,240
cables and you touch them you know that

953
00:39:05,190 --> 00:39:02,240
huge spark

954
00:39:06,470 --> 00:39:05,200
um that

955
00:39:10,870 --> 00:39:06,480
and now

956
00:39:13,990 --> 00:39:10,880
magnify that like a a billion times over

957
00:39:16,630 --> 00:39:14,000
as to the energy of mother earth you

958
00:39:19,349 --> 00:39:16,640
know and those two of her large veins

959
00:39:20,390 --> 00:39:19,359
coming together and creating that big

960
00:39:23,510 --> 00:39:20,400
flash

961
00:39:26,870 --> 00:39:23,520
and it's constantly going on

962
00:39:29,190 --> 00:39:26,880
and so what that does is it tears

963
00:39:31,270 --> 00:39:29,200

it it it it

964

00:39:34,550 --> 00:39:31,280
creates the tear in the fabric of

965

00:39:37,109 --> 00:39:34,560
reality as we know it

966

00:39:39,030 --> 00:39:37,119
that's how stan friedman

967

00:39:40,069 --> 00:39:39,040
said it to me so i'm explaining it to

968

00:39:41,190 --> 00:39:40,079
you

969

00:39:44,550 --> 00:39:41,200
but

970

00:39:46,790 --> 00:39:44,560
this tears into the reality of how do i

971

00:39:48,950 --> 00:39:46,800
say that it creates a tear in the

972

00:39:50,310 --> 00:39:48,960
reality that we know

973

00:39:54,790 --> 00:39:50,320
and so

974

00:39:58,550 --> 00:39:54,800
so anyhow this creates these doorways

975

00:40:01,990 --> 00:39:58,560
all right and these doorways open up

976

00:40:05,589 --> 00:40:02,000

uh into other dimensions and if and the

977

00:40:06,390 --> 00:40:05,599

doorways are a form of a wormhole

978

00:40:08,870 --> 00:40:06,400

now

979

00:40:09,670 --> 00:40:08,880

we can't map them because we can't get

980

00:40:11,510 --> 00:40:09,680

well

981

00:40:13,430 --> 00:40:11,520

scientists can't map them because they

982

00:40:14,310 --> 00:40:13,440

can't they haven't figured out quite how

983

00:40:19,430 --> 00:40:14,320

to

984

00:40:21,030 --> 00:40:19,440

these wormholes and map out these

985

00:40:21,990 --> 00:40:21,040

dimensions

986

00:40:25,829 --> 00:40:22,000

but

987

00:40:28,790 --> 00:40:25,839

you could people can do it etherically

988

00:40:31,589 --> 00:40:28,800

science just can't do it with nuts and

989

00:40:34,230 --> 00:40:31,599

bolts but it can be done you know using

990

00:40:37,190 --> 00:40:34,240

your own energy to travel

991

00:40:38,550 --> 00:40:37,200

but so like like et and that has a

992

00:40:41,589 --> 00:40:38,560

higher

993

00:40:43,349 --> 00:40:41,599

technology than us so they've been able

994

00:40:46,390 --> 00:40:43,359

to map out

995

00:40:48,630 --> 00:40:46,400

all these different wormholes and where

996

00:40:51,750 --> 00:40:48,640

they what they lead to

997

00:40:54,710 --> 00:40:51,760

and so what happens is they know that

998

00:40:57,750 --> 00:40:54,720

there's this huge portal or wormhole

999

00:40:59,750 --> 00:40:57,760

in burlington and they you know so they

1000

00:41:02,069 --> 00:40:59,760

say ah well let's go to burlington and

1001

00:41:04,630 --> 00:41:02,079

check out see what mary's up to

1002

00:41:06,790 --> 00:41:04,640

so they just kind of go into that

1003

00:41:08,790 --> 00:41:06,800

wormhole put

1004

00:41:11,589 --> 00:41:08,800

pointed in the right direction and out

1005

00:41:13,589 --> 00:41:11,599

they pop you know yeah visitors oh yeah

1006

00:41:15,589 --> 00:41:13,599

visiting coming through that area i'm

1007

00:41:17,829 --> 00:41:15,599

simplifying it but

1008

00:41:20,950 --> 00:41:17,839

basically you know i think most people

1009

00:41:21,829 --> 00:41:20,960

would prefer a simplified answer

1010

00:41:24,630 --> 00:41:21,839

you know

1011

00:41:26,950 --> 00:41:24,640

too many people try to get too technical

1012

00:41:29,190 --> 00:41:26,960

i know when they get too technical with

1013

00:41:32,790 --> 00:41:29,200

me i was just kind of like can can you

1014

00:41:35,990 --> 00:41:32,800

say it in 10 words or less please

1015

00:41:37,430 --> 00:41:36,000

so these wormholes would be uh

1016

00:41:39,589 --> 00:41:37,440

they're they're not

1017

00:41:41,670 --> 00:41:39,599

made by e.t they're not artificially

1018

00:41:42,710 --> 00:41:41,680

they're naturally occurring is that what

1019

00:41:46,230 --> 00:41:42,720

i'm getting

1020

00:41:49,109 --> 00:41:46,240

the ancient toltecs were actually they

1021

00:41:50,870 --> 00:41:49,119

actually had the knowledge see we we

1022

00:41:53,430 --> 00:41:50,880

could do it

1023

00:41:55,510 --> 00:41:53,440

if we still had that knowledge but our

1024

00:41:56,630 --> 00:41:55,520

knowledge has been lost on how it's been

1025

00:41:59,270 --> 00:41:56,640

done

1026

00:42:02,390 --> 00:41:59,280

but the ancient toltecs

1027

00:42:04,550 --> 00:42:02,400

the precursors of the these were the

1028

00:42:05,990 --> 00:42:04,560

the mound builders the people the

1029

00:42:07,829 --> 00:42:06,000

ancient race

1030

00:42:10,470 --> 00:42:07,839

in burlington

1031

00:42:12,550 --> 00:42:10,480

they uh and the the who the indians

1032

00:42:14,550 --> 00:42:12,560

called the hokka dash but they were

1033

00:42:18,309 --> 00:42:14,560

actually toltec

1034

00:42:21,430 --> 00:42:18,319

and they still had the knowledge of how

1035

00:42:23,030 --> 00:42:21,440

to create these portals

1036

00:42:27,670 --> 00:42:23,040

and

1037

00:42:29,670 --> 00:42:27,680

is because brad was up in the woods

1038

00:42:33,430 --> 00:42:29,680

mushroom hunting one time

1039

00:42:35,109 --> 00:42:33,440

and he took a picture down the lane and

1040

00:42:38,069 --> 00:42:35,119

when he came back

1041

00:42:39,829 --> 00:42:38,079

that picture he showed me up his camera

1042

00:42:42,390 --> 00:42:39,839

and i'm looking through it and you've

1043

00:42:46,150 --> 00:42:42,400

seen this huge

1044

00:42:47,829 --> 00:42:46,160

egg like um

1045

00:42:50,309 --> 00:42:47,839

energy form

1046

00:42:53,510 --> 00:42:50,319

like right in the middle i mean i mean

1047

00:42:57,270 --> 00:42:53,520

it was huge it was like oh i don't know

1048

00:42:58,950 --> 00:42:57,280

oh probably about 15 foot high maybe 12

1049

00:43:01,589 --> 00:42:58,960

foot wide

1050

00:43:03,910 --> 00:43:01,599

but so it would and it looked like it

1051

00:43:07,190 --> 00:43:03,920

you know in the form of an egg

1052

00:43:10,069 --> 00:43:07,200

and but the strange part about it was it

1053

00:43:12,390 --> 00:43:10,079

actually had a face on it

1054

00:43:14,870 --> 00:43:12,400

i mean just as clear as it could be

1055

00:43:16,309 --> 00:43:14,880

and brad's got the picture

1056

00:43:18,390 --> 00:43:16,319

and so

1057

00:43:20,309 --> 00:43:18,400

anyhow i started checking it out and

1058

00:43:22,870 --> 00:43:20,319

found out what they're called is

1059

00:43:25,670 --> 00:43:22,880

signature face portals

1060

00:43:27,589 --> 00:43:25,680

the toltecs had the ability to create

1061

00:43:30,069 --> 00:43:27,599

these type of portals where they could

1062

00:43:33,510 --> 00:43:30,079

be able to time travel

1063

00:43:35,270 --> 00:43:33,520

and go into the various dimensions

1064

00:43:38,390 --> 00:43:35,280

and uh wouldn't you know somebody's

1065

00:43:39,670 --> 00:43:38,400

trying to call me oh hold on just let me

1066

00:43:40,390 --> 00:43:39,680

get rid of them

1067

00:43:42,870 --> 00:43:40,400

so

1068

00:43:45,589 --> 00:43:42,880

anyhow going back to the story

1069

00:43:48,630 --> 00:43:45,599

what but these were personal portals

1070

00:43:50,790 --> 00:43:48,640

designed for their own vibration so what

1071

00:43:54,790 --> 00:43:50,800

they would do is they would do an imp

1072

00:43:57,270 --> 00:43:54,800

take and do an uh an energy

1073

00:44:00,950 --> 00:43:57,280

imprint of their face

1074

00:44:03,030 --> 00:44:00,960

and imprinted onto the onto the the

1075

00:44:06,470 --> 00:44:03,040

doorway of the portal

1076
00:44:09,349 --> 00:44:06,480
so as the other wizards or shamans came

1077
00:44:12,390 --> 00:44:09,359
along they would recognize who that

1078
00:44:15,510 --> 00:44:12,400
belonged to and stay away from it

1079
00:44:17,510 --> 00:44:15,520
and i thought that i was the only one

1080
00:44:19,910 --> 00:44:17,520
that ever had a picture of one of these

1081
00:44:21,349 --> 00:44:19,920
signature-faced portals until somebody

1082
00:44:23,910 --> 00:44:21,359
came in

1083
00:44:26,870 --> 00:44:23,920
and i was bragging to them about and

1084
00:44:28,069 --> 00:44:26,880
they say so well uh there's a a monk in

1085
00:44:29,829 --> 00:44:28,079
tibet

1086
00:44:30,630 --> 00:44:29,839
in the monastery

1087
00:44:32,870 --> 00:44:30,640
that

1088
00:44:34,630 --> 00:44:32,880

has the same picture as you do but with

1089

00:44:37,030 --> 00:44:34,640

a different face

1090

00:44:38,950 --> 00:44:37,040

so the only the one i know of besides

1091

00:44:41,910 --> 00:44:38,960

myself that has one of these pictures

1092

00:44:43,670 --> 00:44:41,920

there's a a monk in tibet living in the

1093

00:44:47,270 --> 00:44:43,680

monastery

1094

00:44:50,790 --> 00:44:47,280

oh wow but that is a portal

1095

00:44:53,829 --> 00:44:50,800

and so yeah we do have we did have the

1096

00:44:56,870 --> 00:44:53,839

capability of making these portals and

1097

00:44:59,109 --> 00:44:56,880

the knowledge has pretty much been lost

1098

00:45:02,230 --> 00:44:59,119

but the knowledge is coming back now

1099

00:45:04,870 --> 00:45:02,240

myself i can create a portal

1100

00:45:06,950 --> 00:45:04,880

uh i've done it

1101

00:45:09,750 --> 00:45:06,960

several different times

1102

00:45:11,030 --> 00:45:09,760

actually the haunted cellar the scifi

1103

00:45:13,990 --> 00:45:11,040

cafe

1104

00:45:15,430 --> 00:45:14,000

i actually created a portal down in the

1105

00:45:18,390 --> 00:45:15,440

basement

1106

00:45:20,470 --> 00:45:18,400

because i cheated because

1107

00:45:23,109 --> 00:45:20,480

it was getting too cold to go out in the

1108

00:45:24,390 --> 00:45:23,119

woods and see all this fantastic stuff

1109

00:45:27,109 --> 00:45:24,400

right

1110

00:45:29,270 --> 00:45:27,119

and so i decided well since we got

1111

00:45:31,510 --> 00:45:29,280

everybody coming to the sci-fi cafe and

1112

00:45:32,950 --> 00:45:31,520

everybody's going down into the haunted

1113

00:45:35,430 --> 00:45:32,960

cellar

1114

00:45:37,750 --> 00:45:35,440

why don't i just create a portal

1115

00:45:39,030 --> 00:45:37,760

so that these entities can come in and

1116

00:45:40,470 --> 00:45:39,040

out

1117

00:45:43,430 --> 00:45:40,480

which they did

1118

00:45:44,950 --> 00:45:43,440

and it worked perfectly and as far as i

1119

00:45:47,030 --> 00:45:44,960

know the portal still there today i

1120

00:45:49,510 --> 00:45:47,040

didn't close it up

1121

00:45:51,510 --> 00:45:49,520

yikes

1122

00:45:54,630 --> 00:45:51,520

it's not that difficult to do it once

1123

00:45:56,950 --> 00:45:54,640

you learn how okay

1124

00:45:59,349 --> 00:45:56,960

by going into these portals mary you you

1125

00:46:03,109 --> 00:45:59,359

can come back i mean it's not a one-way

1126

00:46:04,390 --> 00:46:03,119

ticket is it obviously not right

1127

00:46:07,109 --> 00:46:04,400

it could be

1128

00:46:09,190 --> 00:46:07,119

yes it could easily be a one-way ticket

1129

00:46:10,710 --> 00:46:09,200

that is why

1130

00:46:15,670 --> 00:46:10,720

people

1131

00:46:18,390 --> 00:46:15,680

knowledge of how to use them

1132

00:46:19,990 --> 00:46:18,400

and we don't really share too much of

1133

00:46:22,630 --> 00:46:20,000

that knowledge of how to make them

1134

00:46:24,630 --> 00:46:22,640

because of the fact that you know

1135

00:46:26,630 --> 00:46:24,640

if they mess up they ain't coming back

1136

00:46:28,390 --> 00:46:26,640

home well and the reason and the reason

1137

00:46:30,309 --> 00:46:28,400

why i ask that i mean you know using the

1138

00:46:33,109 --> 00:46:30,319

example hey i'm out mushroom hunting and

1139

00:46:34,390 --> 00:46:33,119

i do do that and and i stumble into one

1140

00:46:36,309 --> 00:46:34,400

of these portals and i don't know what

1141

00:46:38,309 --> 00:46:36,319

the hell i'm doing that means you know

1142

00:46:40,630 --> 00:46:38,319

i'm i'm one of these missing persons

1143

00:46:43,829 --> 00:46:40,640

right i mean this is where your story

1144

00:46:45,910 --> 00:46:43,839

comes of the missing 411

1145

00:46:48,390 --> 00:46:45,920

because there's a lot of those people

1146

00:46:50,230 --> 00:46:48,400

that are going up into these areas and

1147

00:46:51,510 --> 00:46:50,240

they step in those portals and they're

1148

00:46:54,630 --> 00:46:51,520

gone

1149

00:46:56,870 --> 00:46:54,640

uh and what dimension they land in is

1150

00:47:00,390 --> 00:46:56,880

anybody's guess

1151
00:47:02,550 --> 00:47:00,400
a shaman friend told me though and uh

1152
00:47:05,510 --> 00:47:02,560
and this is how i've always this is what

1153
00:47:08,230 --> 00:47:05,520
i've always done with my people

1154
00:47:10,550 --> 00:47:08,240
i tell them to follow me stay you know

1155
00:47:13,589 --> 00:47:10,560
don't go off wandering always stay with

1156
00:47:14,790 --> 00:47:13,599
me and stay tight

1157
00:47:15,589 --> 00:47:14,800
and

1158
00:47:19,270 --> 00:47:15,599
now

1159
00:47:19,990 --> 00:47:19,280
if you go into a portal

1160
00:47:22,150 --> 00:47:20,000
you

1161
00:47:24,710 --> 00:47:22,160
always make sure because some of those

1162
00:47:27,510 --> 00:47:24,720
are like alternate realities and they're

1163
00:47:28,790 --> 00:47:27,520

they're they look exactly like where you

1164

00:47:31,430 --> 00:47:28,800

are maybe

1165

00:47:33,589 --> 00:47:31,440

maybe there's one in our world there's

1166

00:47:37,030 --> 00:47:33,599

one tree and in their world there's two

1167

00:47:39,349 --> 00:47:37,040

trees you know just very very slight

1168

00:47:41,750 --> 00:47:39,359

you know differences that you wouldn't

1169

00:47:44,069 --> 00:47:41,760

even notice

1170

00:47:46,710 --> 00:47:44,079

and so this shaman friend of mine says

1171

00:47:48,790 --> 00:47:46,720

whatever whenever you go into a place

1172

00:47:52,150 --> 00:47:48,800

you always make sure that when you come

1173

00:47:54,309 --> 00:47:52,160

out you come out the exact same way oh

1174

00:47:56,710 --> 00:47:54,319

makes sense and so because that we've

1175

00:47:58,710 --> 00:47:56,720

never had any problems but i always have

1176

00:48:01,349 --> 00:47:58,720

him on call

1177

00:48:04,069 --> 00:48:01,359

in case something like that happens

1178

00:48:06,710 --> 00:48:04,079

because he has the ability to go into

1179

00:48:10,230 --> 00:48:06,720

these type of portals

1180

00:48:12,150 --> 00:48:10,240

and find people that are missing

1181

00:48:15,030 --> 00:48:12,160

oh wow

1182

00:48:18,150 --> 00:48:15,040

i mean i got very lucky in finding him

1183

00:48:21,910 --> 00:48:18,160

but he know he knows what he's doing um

1184

00:48:24,470 --> 00:48:21,920

he he lives in uh new mexico but he's

1185

00:48:27,349 --> 00:48:24,480

only a phone call away so right right

1186

00:48:29,030 --> 00:48:27,359

and and these portals uh can appear all

1187

00:48:31,030 --> 00:48:29,040

over the planet right i mean they're not

1188

00:48:31,750 --> 00:48:31,040

just they're all over the planet

1189

00:48:33,670 --> 00:48:31,760

they're

1190

00:48:35,829 --> 00:48:33,680

you know if you

1191

00:48:38,390 --> 00:48:35,839

like a vortex if you wanted to know what

1192

00:48:40,630 --> 00:48:38,400

a vortex look like you know these um you

1193

00:48:42,470 --> 00:48:40,640

know these uh in water you'll see those

1194

00:48:43,829 --> 00:48:42,480

little swirls

1195

00:48:46,950 --> 00:48:43,839

in the water

1196

00:48:49,030 --> 00:48:46,960

you know those little round swirls

1197

00:48:50,470 --> 00:48:49,040

that's what a vortex looks like if you

1198

00:48:53,349 --> 00:48:50,480

could see it

1199

00:48:55,670 --> 00:48:53,359

okay and they can be very small or they

1200

00:48:58,549 --> 00:48:55,680

can be very big

1201

00:49:01,349 --> 00:48:58,559

and they they only appear in these

1202

00:49:03,430 --> 00:49:01,359

sacred site areas i mean they're not

1203

00:49:06,309 --> 00:49:03,440

just any place

1204

00:49:09,030 --> 00:49:06,319

um if the energies have to be right

1205

00:49:10,230 --> 00:49:09,040

these uh ley lines have to be crossing

1206

00:49:14,710 --> 00:49:10,240

you know

1207

00:49:17,430 --> 00:49:14,720

and and creating this phenomena and

1208

00:49:18,790 --> 00:49:17,440

and i learned the trick of how to find

1209

00:49:21,910 --> 00:49:18,800

these sacred

1210

00:49:25,510 --> 00:49:21,920

um sacred uh uh sites

1211

00:49:27,750 --> 00:49:25,520

um because and it was easy i cheated

1212

00:49:30,870 --> 00:49:27,760

again i always cheat right

1213

00:49:33,030 --> 00:49:30,880

why make things difficult so what i did

1214

00:49:35,910 --> 00:49:33,040

is i learned that the

1215

00:49:38,230 --> 00:49:35,920

uh the ancient ones

1216

00:49:40,150 --> 00:49:38,240

knew where these certain spot these

1217

00:49:42,390 --> 00:49:40,160

energy points were

1218

00:49:45,030 --> 00:49:42,400

so they would always build their temples

1219

00:49:46,630 --> 00:49:45,040

there their temples their pyramids and

1220

00:49:49,430 --> 00:49:46,640

things like that they

1221

00:49:52,150 --> 00:49:49,440

not only did they use them that you use

1222

00:49:54,549 --> 00:49:52,160

them to live in and do ceremony in but

1223

00:49:55,750 --> 00:49:54,559

they use them as marker points to show

1224

00:49:58,790 --> 00:49:55,760

where these

1225

00:50:01,190 --> 00:49:58,800

these uh places of power were

1226
00:50:04,390 --> 00:50:01,200
so then when the europeans came along

1227
00:50:08,549 --> 00:50:04,400
they destroyed most of of these temples

1228
00:50:09,829 --> 00:50:08,559
and that but they built churches on them

1229
00:50:12,870 --> 00:50:09,839
and

1230
00:50:15,109 --> 00:50:12,880
you know in national parks would come

1231
00:50:16,630 --> 00:50:15,119
along they would

1232
00:50:18,870 --> 00:50:16,640
they would put

1233
00:50:21,030 --> 00:50:18,880
these uh they would claim the land for

1234
00:50:24,230 --> 00:50:21,040
the government put up you know and have

1235
00:50:27,510 --> 00:50:24,240
them set up as national parks or they'll

1236
00:50:30,069 --> 00:50:27,520
take like um

1237
00:50:31,829 --> 00:50:30,079
government buildings and set on top of

1238
00:50:32,870 --> 00:50:31,839

them

1239

00:50:37,349 --> 00:50:32,880

so

1240

00:50:38,790 --> 00:50:37,359

i look for things that look like a hill

1241

00:50:41,270 --> 00:50:38,800

i look for

1242

00:50:43,589 --> 00:50:41,280

churches which catholic churches are

1243

00:50:45,910 --> 00:50:43,599

great for putting their

1244

00:50:49,109 --> 00:50:45,920

putting their cathedrals and that on

1245

00:50:51,430 --> 00:50:49,119

these um power points

1246

00:50:54,150 --> 00:50:51,440

so that's how i do it but then also i

1247

00:50:56,710 --> 00:50:54,160

can feel it you know i i'm good enough

1248

00:50:59,349 --> 00:50:56,720

well i've been doing it for so long i

1249

00:51:01,750 --> 00:50:59,359

can be walking along and i can just

1250

00:51:02,950 --> 00:51:01,760

automatically feel the change in the

1251
00:51:06,790 --> 00:51:02,960
energy

1252
00:51:08,549 --> 00:51:06,800
so oh wow and burlington well hey

1253
00:51:09,670 --> 00:51:08,559
marilyn why do you think the catholic

1254
00:51:12,710 --> 00:51:09,680
church i mean

1255
00:51:15,990 --> 00:51:12,720
did because they knew the secret ah okay

1256
00:51:18,790 --> 00:51:16,000
okay sure sure okay

1257
00:51:20,710 --> 00:51:18,800
and so i i it it's probably safe to say

1258
00:51:22,470 --> 00:51:20,720
that they still know the secret they

1259
00:51:23,910 --> 00:51:22,480
still do

1260
00:51:26,390 --> 00:51:23,920
interesting

1261
00:51:28,630 --> 00:51:26,400
so like holy hill

1262
00:51:32,230 --> 00:51:28,640
there's a reason that great big old

1263
00:51:34,309 --> 00:51:32,240

cathedral is sitting on top of that hill

1264

00:51:36,150 --> 00:51:34,319

and you've had a lot of bigfoot

1265

00:51:38,549 --> 00:51:36,160

sightings and dogman sightings around

1266

00:51:42,710 --> 00:51:38,559

that area because wherever you have

1267

00:51:47,270 --> 00:51:42,720

these power points like that you'll find

1268

00:51:51,510 --> 00:51:47,280

the these weird things like bigfoot and

1269

00:51:52,870 --> 00:51:51,520

dogman and bear man and mothman and you

1270

00:51:55,510 --> 00:51:52,880

know go

1271

00:51:58,790 --> 00:51:55,520

there and they're always haunted

1272

00:52:00,549 --> 00:51:58,800

um and you have a

1273

00:52:02,230 --> 00:52:00,559

missing time

1274

00:52:04,470 --> 00:52:02,240

um

1275

00:52:10,710 --> 00:52:04,480

strange lights uh

1276

00:52:15,190 --> 00:52:13,190

well mary let's let's take our last

1277

00:52:17,270 --> 00:52:15,200

break and when we come back with mary

1278

00:52:20,309 --> 00:52:17,280

sutherland we're gonna talk about

1279

00:52:23,270 --> 00:52:20,319

the history of burlington and

1280

00:52:25,990 --> 00:52:23,280

the issue that has been created by

1281

00:52:27,430 --> 00:52:26,000

by nature but with with man

1282

00:52:30,790 --> 00:52:27,440

not doing some cool things but we'll be

1283

00:52:35,589 --> 00:52:32,870

welcome back to pang radio tonight we

1284

00:52:38,230 --> 00:52:35,599

have on our friend and author researcher

1285

00:52:40,390 --> 00:52:38,240

mary sutherland we're talking about some

1286

00:52:41,349 --> 00:52:40,400

pretty neat stuff portals bigfoot dog

1287

00:52:44,150 --> 00:52:41,359

man

1288

00:52:45,670 --> 00:52:44,160

ufos uh and we're gonna get into another

1289

00:52:47,750 --> 00:52:45,680

another another thing tonight so

1290

00:52:50,150 --> 00:52:47,760

burlington is known for its ufo as the

1291

00:52:52,390 --> 00:52:50,160

you know the former sci-fi cafe but it's

1292

00:52:54,630 --> 00:52:52,400

also got a lot of ancient

1293

00:52:57,349 --> 00:52:54,640

burial mounds around the area too many

1294

00:52:59,270 --> 00:52:57,359

is that is that correct

1295

00:53:01,190 --> 00:52:59,280

say that one more time please you guys

1296

00:53:03,030 --> 00:53:01,200

you could have a lot of a lot of ancient

1297

00:53:04,630 --> 00:53:03,040

burial mounds around burlington too

1298

00:53:08,390 --> 00:53:04,640

correct

1299

00:53:08,400 --> 00:53:12,390

did we lose her

1300

00:53:16,150 --> 00:53:14,150

yeah i haven't got her yeah we might

1301
00:53:19,430 --> 00:53:16,160
have lost mary there one second hey

1302
00:53:23,589 --> 00:53:21,589
we got you back we got you back go ahead

1303
00:53:24,950 --> 00:53:23,599
i can i can edit everything so nothing

1304
00:53:26,309 --> 00:53:24,960
ever happened

1305
00:53:28,790 --> 00:53:26,319
for a minute there i thought you stepped

1306
00:53:30,870 --> 00:53:28,800
into a portal

1307
00:53:33,510 --> 00:53:30,880
well it's okay by me i'm just letting

1308
00:53:34,790 --> 00:53:33,520
your listeners know it's a wisconsinite

1309
00:53:36,309 --> 00:53:34,800
slang

1310
00:53:39,270 --> 00:53:36,319
but yeah

1311
00:53:43,430 --> 00:53:39,280
brad and i were sitting out on the deck

1312
00:53:45,270 --> 00:53:43,440
tonight and trying to create like a a

1313
00:53:48,549 --> 00:53:45,280

map in our mind

1314

00:53:50,630 --> 00:53:48,559

of all the things that we've worked on

1315

00:53:55,910 --> 00:53:50,640

we've discovered

1316

00:53:57,510 --> 00:53:55,920

uh such as pyramids temples a serp a

1317

00:54:00,470 --> 00:53:57,520

serpent ridge

1318

00:54:03,910 --> 00:54:00,480

which is a it's bigger than the serpent

1319

00:54:05,110 --> 00:54:03,920

mounds of ohio or you know the yeah the

1320

00:54:07,750 --> 00:54:05,120

ohio serpent mounds

1321

00:54:10,950 --> 00:54:07,760

[Music]

1322

00:54:15,510 --> 00:54:10,960

discoveries of uh

1323

00:54:18,470 --> 00:54:15,520

skeletal remains reported documented

1324

00:54:21,430 --> 00:54:18,480

and when and so we're trying to create

1325

00:54:24,950 --> 00:54:21,440

this map of where we found them what the

1326

00:54:27,910 --> 00:54:24,960

stories that we had heard about them

1327

00:54:29,190 --> 00:54:27,920

and various maps are the maps that we

1328

00:54:31,670 --> 00:54:29,200

found

1329

00:54:35,430 --> 00:54:31,680

and came to the conclusion that

1330

00:54:37,349 --> 00:54:35,440

burlington at one time it had to be it

1331

00:54:40,870 --> 00:54:37,359

had to be

1332

00:54:42,470 --> 00:54:40,880

an ancient city

1333

00:54:46,870 --> 00:54:42,480

of at least

1334

00:54:46,880 --> 00:54:50,470

wow it's huge

1335

00:54:54,390 --> 00:54:52,390

that's los angeles

1336

00:54:56,870 --> 00:54:54,400

yeah

1337

00:54:59,910 --> 00:54:56,880

because i'm talking radius north south

1338

00:55:00,910 --> 00:54:59,920

east west based on findings that we've

1339

00:55:03,349 --> 00:55:00,920

found

1340

00:55:06,950 --> 00:55:03,359

documentations of what other people have

1341

00:55:09,670 --> 00:55:06,960

found mounds everything because if

1342

00:55:11,670 --> 00:55:09,680

they're not spaced you know like a mile

1343

00:55:14,069 --> 00:55:11,680

from one place is another spot that they

1344

00:55:16,710 --> 00:55:14,079

found something it's like

1345

00:55:19,349 --> 00:55:16,720

it's all runs together

1346

00:55:21,349 --> 00:55:19,359

from like the haunted woods dead man's

1347

00:55:24,069 --> 00:55:21,359

hill to the

1348

00:55:25,670 --> 00:55:24,079

flat test the flat top step pyramids or

1349

00:55:29,910 --> 00:55:25,680

zougarat

1350

00:55:32,470 --> 00:55:29,920

all the way up to the panther mounds

1351
00:55:35,670 --> 00:55:32,480
outside of burlington

1352
00:55:39,670 --> 00:55:35,680
and all in between they have discovered

1353
00:55:43,109 --> 00:55:39,680
skeletal remains and mounds

1354
00:55:44,390 --> 00:55:43,119
so that's as big as cahokia if not

1355
00:55:47,190 --> 00:55:44,400
bigger

1356
00:55:49,910 --> 00:55:47,200
and we know that there was a documentary

1357
00:55:51,349 --> 00:55:49,920
done on television one time

1358
00:55:53,670 --> 00:55:51,359
because

1359
00:55:55,910 --> 00:55:53,680
people couldn't find any dinosaur bones

1360
00:55:57,270 --> 00:55:55,920
in chicago they couldn't figure this out

1361
00:55:58,950 --> 00:55:57,280
right

1362
00:56:01,349 --> 00:55:58,960
to find and

1363
00:56:04,870 --> 00:56:01,359

so this documentary

1364

00:56:07,750 --> 00:56:04,880

they created this map going back to that

1365

00:56:10,390 --> 00:56:07,760

time period to see that the water was

1366

00:56:12,470 --> 00:56:10,400

much higher during that the during the

1367

00:56:13,829 --> 00:56:12,480

time of the dinosaur

1368

00:56:16,470 --> 00:56:13,839

and so

1369

00:56:19,589 --> 00:56:16,480

chicago was covered by water

1370

00:56:22,230 --> 00:56:19,599

and guess who had the seaport

1371

00:56:23,190 --> 00:56:22,240

the coastline ran right up to burlington

1372

00:56:26,710 --> 00:56:23,200

ah

1373

00:56:27,990 --> 00:56:26,720

makes sense so this was a major seaport

1374

00:56:32,950 --> 00:56:28,000

wow

1375

00:56:37,190 --> 00:56:34,630

and we know

1376

00:56:41,750 --> 00:56:37,200

we know for sure it had been at least

1377

00:56:48,630 --> 00:56:45,510

and the thing is nobody

1378

00:56:56,230 --> 00:56:48,640

knows anything about burlington

1379

00:57:00,470 --> 00:56:58,549

they refuse to talk about when i first

1380

00:57:03,030 --> 00:57:00,480

came to burlington you know because i

1381

00:57:06,870 --> 00:57:03,040

was a researcher of the stuff way before

1382

00:57:09,589 --> 00:57:06,880

burlington in arizona so i recognized a

1383

00:57:12,230 --> 00:57:09,599

lot of these mounds for what they were i

1384

00:57:14,230 --> 00:57:12,240

went to all these different places the

1385

00:57:17,510 --> 00:57:14,240

historical society the chamber of

1386

00:57:19,670 --> 00:57:17,520

commerce to the police to the library i

1387

00:57:22,630 --> 00:57:19,680

says tell me about your mouth we don't

1388

00:57:27,270 --> 00:57:25,030

we don't even have we don't even i i

1389

00:57:30,069 --> 00:57:27,280

fought for years with the chamber of

1390

00:57:32,870 --> 00:57:30,079

commerce just to put on their front page

1391

00:57:35,750 --> 00:57:32,880

that there was indians in this area

1392

00:57:39,510 --> 00:57:35,760

when i first came here they even refused

1393

00:57:42,789 --> 00:57:39,520

to acknowledge that the indians lived

1394

00:57:44,710 --> 00:57:42,799

uh in the where burlington sits right

1395

00:57:46,069 --> 00:57:44,720

now wow

1396

00:57:49,190 --> 00:57:46,079

you know maryland i think uh the

1397

00:57:50,950 --> 00:57:49,200

smithsonian institute has a bunch of

1398

00:57:54,230 --> 00:57:50,960

data that they that they've got

1399

00:57:56,549 --> 00:57:54,240

squirreled away in a basement

1400

00:57:58,870 --> 00:57:56,559

concerning you said cahokia i've been to

1401

00:58:01,910 --> 00:57:58,880

cahokia illinois and there there's

1402

00:58:04,470 --> 00:58:01,920

documentation that they found large i

1403

00:58:05,670 --> 00:58:04,480

mean skeleton remains of seven to eight

1404

00:58:08,710 --> 00:58:05,680

foot

1405

00:58:10,950 --> 00:58:08,720

people or creatures and the smithsonian

1406

00:58:13,990 --> 00:58:10,960

put a clamp on it

1407

00:58:15,910 --> 00:58:14,000

yes but guess what i found straight from

1408

00:58:19,190 --> 00:58:15,920

the smithsonian

1409

00:58:21,750 --> 00:58:19,200

i have maps that they did up

1410

00:58:24,309 --> 00:58:21,760

in the eight i think was the 1800s maybe

1411

00:58:25,750 --> 00:58:24,319

it was early 1900s

1412

00:58:30,549 --> 00:58:25,760

they had

1413

00:58:32,950 --> 00:58:30,559

uh lampum uh go out and um document all

1414

00:58:37,270 --> 00:58:32,960

these mounds for them

1415

00:58:40,069 --> 00:58:37,280

and i found the maps of the smithsonian

1416

00:58:40,870 --> 00:58:40,079

showing these ancient mounds

1417

00:58:43,750 --> 00:58:40,880

uh

1418

00:58:45,990 --> 00:58:43,760

with with the with the title burlington

1419

00:58:48,870 --> 00:58:46,000

wisconsin written right on it showing

1420

00:58:51,510 --> 00:58:48,880

where the the river was how the mounds

1421

00:58:54,309 --> 00:58:51,520

were all laid out every

1422

00:58:56,230 --> 00:58:54,319

so these people you know they'll tell me

1423

00:58:59,510 --> 00:58:56,240

well you don't have any proof that these

1424

00:59:02,549 --> 00:58:59,520

ancient people live here i says

1425

00:59:06,789 --> 00:59:02,559

i think the smithsonian my map that i

1426
00:59:09,589 --> 00:59:06,799
have from the smithsonian is proof of it

1427
00:59:13,190 --> 00:59:09,599
oh yeah yeah that makes sense

1428
00:59:15,910 --> 00:59:13,200
and i have it right on my website um

1429
00:59:18,789 --> 00:59:15,920
oh gosh about eight years back

1430
00:59:22,150 --> 00:59:18,799
right where these mounds were alongside

1431
00:59:29,030 --> 00:59:25,190
the town decided to beautify

1432
00:59:32,230 --> 00:59:29,040
their town and create a riverwalk

1433
00:59:33,750 --> 00:59:32,240
and they started knocking down they came

1434
00:59:37,349 --> 00:59:33,760
in with a bulldozer and they started

1435
00:59:39,910 --> 00:59:37,359
knocking down all these these mounds

1436
00:59:43,109 --> 00:59:39,920
and i tried to stop them

1437
00:59:46,470 --> 00:59:43,119
i begged them not to and um

1438
00:59:48,789 --> 00:59:46,480

and so anyhow they did it anyhow i

1439

00:59:50,710 --> 00:59:48,799

contacted the indians on it too because

1440

00:59:52,549 --> 00:59:50,720

i thought well i can get support from

1441

00:59:54,230 --> 00:59:52,559

them and they've refused to help me

1442

00:59:56,870 --> 00:59:54,240

saying that um

1443

00:59:58,950 --> 00:59:56,880

uh since the mounds weren't on the

1444

01:00:00,470 --> 00:59:58,960

indian reservation they couldn't help me

1445

01:00:02,150 --> 01:00:00,480

at all

1446

01:00:04,390 --> 01:00:02,160

and then i contacted the state

1447

01:00:06,230 --> 01:00:04,400

archaeological department in madison and

1448

01:00:07,589 --> 01:00:06,240

tried to stop it that way and they says

1449

01:00:09,910 --> 01:00:07,599

oh no we

1450

01:00:11,750 --> 01:00:09,920

there's no evidence whatsoever that the

1451

01:00:14,630 --> 01:00:11,760

mound builders

1452

01:00:17,190 --> 01:00:14,640

was in burlington area nice i have

1453

01:00:17,829 --> 01:00:17,200

documentation and i have maps to prove

1454

01:00:22,630 --> 01:00:17,839

it

1455

01:00:24,710 --> 01:00:22,640

head of the department down in madison

1456

01:00:28,069 --> 01:00:24,720

she's well send them to me and we'll get

1457

01:00:30,309 --> 01:00:28,079

back to you on it so i spent a day or so

1458

01:00:32,390 --> 01:00:30,319

putting all of this documentation

1459

01:00:34,710 --> 01:00:32,400

together and i sent it to her and never

1460

01:00:36,230 --> 01:00:34,720

heard back from her one time

1461

01:00:38,549 --> 01:00:36,240

so you know

1462

01:00:40,230 --> 01:00:38,559

the only thing i could do at that time

1463

01:00:42,870 --> 01:00:40,240

because people really didn't know me

1464

01:00:45,589 --> 01:00:42,880

that well and you know i wasn't you know

1465

01:00:46,710 --> 01:00:45,599

known for my research as i am

1466

01:00:47,990 --> 01:00:46,720

today

1467

01:00:53,270 --> 01:00:48,000

so

1468

01:00:56,549 --> 01:00:53,280

watch this happen

1469

01:00:58,390 --> 01:00:56,559

but i did go down prior to the

1470

01:01:00,789 --> 01:00:58,400

destruction

1471

01:01:03,470 --> 01:01:00,799

and i took pictures of these mounds and

1472

01:01:06,950 --> 01:01:03,480

i took pictures of the you know the

1473

01:01:09,430 --> 01:01:06,960

bulldozers and all that you know and

1474

01:01:12,390 --> 01:01:09,440

and then i took pictures of the finished

1475

01:01:14,870 --> 01:01:12,400

product because i wanted at least if

1476

01:01:16,789 --> 01:01:14,880

nothing else is to have photo

1477

01:01:19,910 --> 01:01:16,799

documentation

1478

01:01:22,630 --> 01:01:19,920

of these ancient mounds that were in

1479

01:01:24,390 --> 01:01:22,640

burlington or some of them

1480

01:01:28,230 --> 01:01:24,400

and um

1481

01:01:32,630 --> 01:01:28,240

and so anyhow we do have that

1482

01:01:33,670 --> 01:01:32,640

uh and now they're doing it again

1483

01:01:37,109 --> 01:01:33,680

and

1484

01:01:39,630 --> 01:01:37,119

this is why i was on heidi hollis show

1485

01:01:40,870 --> 01:01:39,640

when was that friday night

1486

01:01:43,829 --> 01:01:40,880

[Music]

1487

01:01:46,309 --> 01:01:43,839

and so you asked me beyond the show

1488

01:01:48,630 --> 01:01:46,319

and inform people

1489

01:01:50,390 --> 01:01:48,640

that this is going on again in

1490

01:01:53,270 --> 01:01:50,400

burlington

1491

01:01:54,950 --> 01:01:53,280

i found out well

1492

01:01:59,030 --> 01:01:54,960

this um

1493

01:02:02,230 --> 01:01:59,040

there was a newspaper and

1494

01:02:04,470 --> 01:02:02,240

if people join my group my face the

1495

01:02:06,549 --> 01:02:04,480

easiest way to do this is if you go to

1496

01:02:08,870 --> 01:02:06,559

my group my facebook

1497

01:02:12,390 --> 01:02:08,880

group which i will put in

1498

01:02:13,430 --> 01:02:12,400

i'll put the url in your in your um chat

1499

01:02:17,910 --> 01:02:13,440

room

1500

01:02:20,789 --> 01:02:17,920

and join that uh then people can see

1501

01:02:24,950 --> 01:02:20,799

uh the newspaper

1502

01:02:26,870 --> 01:02:24,960

and they can see the laws protecting

1503

01:02:29,990 --> 01:02:26,880

these mounds

1504

01:02:33,589 --> 01:02:30,000

they can see what i'm doing and what i

1505

01:02:36,230 --> 01:02:33,599

am going to be doing and we're going to

1506

01:02:40,150 --> 01:02:36,240

try to get this stopped

1507

01:02:41,190 --> 01:02:40,160

even if i have to go to the point

1508

01:02:45,990 --> 01:02:41,200

of

1509

01:02:48,549 --> 01:02:46,000

that they put that aquatic center in

1510

01:02:50,710 --> 01:02:48,559

if i have to i'll

1511

01:02:53,510 --> 01:02:50,720

try to get it tore up

1512

01:02:55,589 --> 01:02:53,520

and get those skeletal remains out of

1513

01:02:57,910 --> 01:02:55,599

there and give them the proper burial

1514

01:02:59,589 --> 01:02:57,920

right but i'm kind of jumping ahead of

1515

01:03:02,870 --> 01:02:59,599

myself because people are saying what

1516

01:03:05,109 --> 01:03:02,880

are you talking about uh so what it had

1517

01:03:06,309 --> 01:03:05,119

just recently happened

1518

01:03:08,710 --> 01:03:06,319

is we

1519

01:03:11,270 --> 01:03:08,720

there was some construction work being

1520

01:03:12,950 --> 01:03:11,280

done on this side street in burlington

1521

01:03:14,390 --> 01:03:12,960

they were putting in they were redoing

1522

01:03:16,230 --> 01:03:14,400

the road there

1523

01:03:18,230 --> 01:03:16,240

so they had it pretty well dug up and

1524

01:03:20,630 --> 01:03:18,240

they were going to be working on sewers

1525

01:03:24,069 --> 01:03:20,640

and things like that right there

1526

01:03:26,230 --> 01:03:24,079

so then we had that 500 year flood

1527

01:03:27,270 --> 01:03:26,240

which i told brad then i says hey you

1528

01:03:31,190 --> 01:03:27,280

know what

1529

01:03:34,230 --> 01:03:31,200

you watch because as as hard as that

1530

01:03:37,270 --> 01:03:34,240

flood is flowing through here isis

1531

01:03:40,549 --> 01:03:37,280

there's going to be artifacts popping up

1532

01:03:43,589 --> 01:03:40,559

and so sure enough when the rains were

1533

01:03:46,069 --> 01:03:43,599

done and things the construction crew

1534

01:03:49,510 --> 01:03:46,079

was ready to go back to work

1535

01:03:53,670 --> 01:03:49,520

they're floating on on that street had

1536

01:03:54,950 --> 01:03:53,680

was all these skeletal remains

1537

01:04:00,390 --> 01:03:54,960

so

1538

01:04:02,630 --> 01:04:00,400

had to contact the historical the state

1539

01:04:04,789 --> 01:04:02,640

historical society

1540

01:04:08,069 --> 01:04:04,799

now the state has to according to law

1541

01:04:09,990 --> 01:04:08,079

the state historical society has 30 days

1542

01:04:12,870 --> 01:04:10,000

to determine

1543

01:04:14,470 --> 01:04:12,880

to be able to go in there

1544

01:04:15,670 --> 01:04:14,480

you study

1545

01:04:16,630 --> 01:04:15,680

collect

1546

01:04:17,910 --> 01:04:16,640

you know

1547

01:04:20,789 --> 01:04:17,920

research

1548

01:04:22,870 --> 01:04:20,799

and then determine if it's

1549

01:04:25,109 --> 01:04:22,880

a sacred site or not

1550

01:04:27,750 --> 01:04:25,119

and if they determine it that is

1551
01:04:29,990 --> 01:04:27,760
historical or prehistorical

1552
01:04:31,990 --> 01:04:30,000
they can shut it down

1553
01:04:32,789 --> 01:04:32,000
and protect it

1554
01:04:35,990 --> 01:04:32,799
so

1555
01:04:39,109 --> 01:04:36,000
they went in there

1556
01:04:41,990 --> 01:04:39,119
and they were only given

1557
01:04:43,029 --> 01:04:42,000
to normally give them 10 days

1558
01:04:44,230 --> 01:04:43,039
to

1559
01:04:46,549 --> 01:04:44,240
be there

1560
01:04:50,069 --> 01:04:46,559
and then after 10 days they told them

1561
01:04:52,710 --> 01:04:50,079
that they had to leave and not come back

1562
01:04:55,270 --> 01:04:52,720
who runs this stuff wow some reason

1563
01:04:58,150 --> 01:04:55,280

instead of having the archaeological

1564

01:04:59,910 --> 01:04:58,160

department have any guts

1565

01:05:01,750 --> 01:04:59,920

they left

1566

01:05:04,150 --> 01:05:01,760

and just signed the papers giving them

1567

01:05:07,190 --> 01:05:04,160

okay to continue yeah

1568

01:05:11,670 --> 01:05:07,200

even though in the newspaper

1569

01:05:15,470 --> 01:05:11,680

they it was written and quoted by the

1570

01:05:18,630 --> 01:05:15,480

state historical society and the uh the

1571

01:05:19,670 --> 01:05:18,640

administrator of burlington that these

1572

01:05:21,870 --> 01:05:19,680

were

1573

01:05:25,829 --> 01:05:21,880

not native american but

1574

01:05:28,950 --> 01:05:25,839

prehistoric skeletal remains wow

1575

01:05:30,950 --> 01:05:28,960

that that gives me my proof that i

1576

01:05:35,349 --> 01:05:30,960

needed to show

1577

01:05:38,950 --> 01:05:35,359

that burlington is sitting on an ancient

1578

01:05:39,750 --> 01:05:38,960

city you know of these mound builders

1579

01:05:45,109 --> 01:05:39,760

so

1580

01:05:46,069 --> 01:05:45,119

remains just sitting there

1581

01:05:47,109 --> 01:05:46,079

you know

1582

01:05:52,470 --> 01:05:47,119

and

1583

01:05:56,309 --> 01:05:52,480

because the the

1584

01:06:00,150 --> 01:05:56,319

city was also putting together um

1585

01:06:02,390 --> 01:06:00,160

uh uh aquatic center in town

1586

01:06:06,309 --> 01:06:02,400

so to save money and i think it was like

1587

01:06:07,349 --> 01:06:06,319

it was either 65 000 90 some thousand

1588

01:06:08,150 --> 01:06:07,359

dollars

1589

01:06:13,990 --> 01:06:08,160

for

1590

01:06:16,829 --> 01:06:14,000

foundation of the aquatic center

1591

01:06:19,589 --> 01:06:16,839

they just they came up this brilliant

1592

01:06:22,470 --> 01:06:19,599

idea that what they were going to do is

1593

01:06:26,230 --> 01:06:22,480

just scoop up all these uh

1594

01:06:29,430 --> 01:06:26,240

prehistoric bones skeletal remains

1595

01:06:31,910 --> 01:06:29,440

and use them as fill

1596

01:06:34,549 --> 01:06:31,920

to put in the foundation for their

1597

01:06:37,510 --> 01:06:34,559

aquatic center

1598

01:06:39,029 --> 01:06:37,520

not only is that illegal but it's

1599

01:06:43,430 --> 01:06:39,039

disrespectful

1600

01:06:46,630 --> 01:06:43,440

of our ancestors and besides that

1601

01:06:49,430 --> 01:06:46,640

this if this was done properly this

1602

01:06:52,630 --> 01:06:49,440

could be the greatest discovery

1603

01:06:53,750 --> 01:06:52,640

in in in modern times

1604

01:06:57,270 --> 01:06:53,760

of

1605

01:07:00,150 --> 01:06:57,280

uh an ancient site in north america

1606

01:07:03,829 --> 01:07:00,160

right i mean this this should be told i

1607

01:07:06,549 --> 01:07:03,839

mean instead of them covering it up

1608

01:07:09,750 --> 01:07:06,559

like for example serpent mounds they

1609

01:07:13,349 --> 01:07:09,760

make a million dollars at least

1610

01:07:15,270 --> 01:07:13,359

a year of tourism coming into to just be

1611

01:07:16,390 --> 01:07:15,280

on that site where that the serpent

1612

01:07:19,029 --> 01:07:16,400

mound is

1613

01:07:20,309 --> 01:07:19,039

now imagine if you had a prehistoric

1614

01:07:22,710 --> 01:07:20,319

city

1615

01:07:25,349 --> 01:07:22,720

and you were able to you allowed the

1616

01:07:29,510 --> 01:07:25,359

archaeologist to come in and collect the

1617

01:07:31,109 --> 01:07:29,520

artifacts and uh and and the skeletal

1618

01:07:34,069 --> 01:07:31,119

remains and

1619

01:07:36,870 --> 01:07:34,079

create like a huge museum i i know that

1620

01:07:39,029 --> 01:07:36,880

we can't the city sits on the land okay

1621

01:07:41,750 --> 01:07:39,039

so we can't undo that

1622

01:07:44,390 --> 01:07:41,760

but we can take what we found

1623

01:07:47,029 --> 01:07:44,400

and create a huge visitor center or

1624

01:07:49,990 --> 01:07:47,039

museum all right and a lot you know and

1625

01:07:52,870 --> 01:07:50,000

allow people to come in and learn about

1626

01:07:55,589 --> 01:07:52,880

these ancient people and to see on

1627

01:07:57,910 --> 01:07:55,599

display all the different artifacts that

1628

01:07:59,670 --> 01:07:57,920

have been found

1629

01:08:02,390 --> 01:07:59,680

you know and

1630

01:08:05,109 --> 01:08:02,400

the city i mean compare how much money

1631

01:08:07,589 --> 01:08:05,119

they're making in swimming lessons

1632

01:08:10,950 --> 01:08:07,599

versus how much money if they're having

1633

01:08:13,589 --> 01:08:10,960

sex right they could be making just

1634

01:08:15,190 --> 01:08:13,599

bringing allowing us to bring back the

1635

01:08:18,789 --> 01:08:15,200

real history

1636

01:08:20,070 --> 01:08:18,799

of um of burlington and these uh and

1637

01:08:21,990 --> 01:08:20,080

these uh

1638

01:08:25,110 --> 01:08:22,000

well the indians called them the whole

1639

01:08:28,229 --> 01:08:25,120

kadesh and describe them as

1640

01:08:30,870 --> 01:08:28,239

white race uh red-haired giants and

1641

01:08:33,749 --> 01:08:30,880

that's why i started my book my first

1642

01:08:35,990 --> 01:08:33,759

book came out as the red haired giants

1643

01:08:39,189 --> 01:08:36,000

and we have more

1644

01:08:41,110 --> 01:08:39,199

because i went and um because we i had

1645

01:08:44,390 --> 01:08:41,120

it for tonight but we got talking about

1646

01:08:47,829 --> 01:08:44,400

other things but i'll put it on my uh

1647

01:08:50,070 --> 01:08:47,839

i'll put it on in my facebook group so

1648

01:08:50,870 --> 01:08:50,080

people can read it

1649

01:08:54,709 --> 01:08:50,880

but

1650

01:08:56,630 --> 01:08:54,719

there was up until 1890

1651

01:09:00,229 --> 01:08:56,640

something like that

1652

01:09:02,789 --> 01:09:00,239

we had a wisconsin state um

1653

01:09:03,990 --> 01:09:02,799

archaeological society something like

1654

01:09:07,030 --> 01:09:04,000

that

1655

01:09:10,390 --> 01:09:07,040

with um

1656

01:09:12,630 --> 01:09:10,400

this uh perkins as president

1657

01:09:15,990 --> 01:09:12,640

and right up to that point of time they

1658

01:09:20,149 --> 01:09:16,000

were out there and they were collecting

1659

01:09:22,390 --> 01:09:20,159

all the remnants they could find of this

1660

01:09:26,229 --> 01:09:22,400

these ancient people that they called

1661

01:09:29,910 --> 01:09:26,239

the the copper race because they were

1662

01:09:32,229 --> 01:09:29,920

part of the people up there in michigan

1663

01:09:35,110 --> 01:09:32,239

they were bringing the the michigan

1664

01:09:37,590 --> 01:09:35,120

copper down here into burlington

1665

01:09:38,789 --> 01:09:37,600

and they had boundaries set up and they

1666

01:09:40,950 --> 01:09:38,799

were actually

1667

01:09:42,630 --> 01:09:40,960

they they actually have proof that they

1668

01:09:45,510 --> 01:09:42,640

were you casting

1669

01:09:46,950 --> 01:09:45,520

copper the indians only used copper for

1670

01:09:47,749 --> 01:09:46,960

decoration

1671

01:09:50,950 --> 01:09:47,759

but

1672

01:09:54,630 --> 01:09:50,960

what separates the copper from michigan

1673

01:09:57,030 --> 01:09:54,640

is because michigan is decorative copper

1674

01:10:00,630 --> 01:09:57,040

but here in burlington you could see it

1675

01:10:01,350 --> 01:10:00,640

was actually manufactured it was casted

1676

01:10:05,110 --> 01:10:01,360

uh

1677

01:10:06,950 --> 01:10:05,120

the the utilities were casted them axes

1678

01:10:09,990 --> 01:10:06,960

and screws

1679

01:10:11,270 --> 01:10:10,000

nails and you know different types of

1680

01:10:12,149 --> 01:10:11,280

equipment

1681

01:10:17,750 --> 01:10:12,159

and

1682

01:10:20,070 --> 01:10:17,760

any archaeologist including the

1683

01:10:22,310 --> 01:10:20,080

smithsonian even knew

1684

01:10:23,750 --> 01:10:22,320

that there was a people out there that

1685

01:10:27,189 --> 01:10:23,760

was actually

1686

01:10:29,430 --> 01:10:27,199

casting using furnaces for

1687

01:10:31,270 --> 01:10:29,440

first melting copper

1688

01:10:33,110 --> 01:10:31,280

and or

1689

01:10:34,790 --> 01:10:33,120

creating bronze

1690

01:10:38,470 --> 01:10:34,800

okay

1691

01:10:41,030 --> 01:10:38,480

so and this was all to the um

1692

01:10:42,709 --> 01:10:41,040

there was one man responsible for it his

1693

01:10:47,510 --> 01:10:42,719

name was

1694

01:10:51,030 --> 01:10:47,520

in burlington and he used to go around

1695

01:10:53,270 --> 01:10:51,040

with a a horse and wagon and he would go

1696

01:10:54,950 --> 01:10:53,280

to all these farms you know that plowed

1697

01:10:57,350 --> 01:10:54,960

up the fields and he paid them like a

1698

01:10:59,750 --> 01:10:57,360

penny or something like that for every

1699

01:11:03,430 --> 01:10:59,760

artifact that they found

1700

01:11:05,830 --> 01:11:03,440

and he had thousands upon thousands of

1701

01:11:09,669 --> 01:11:05,840

these these artifacts

1702

01:11:13,510 --> 01:11:09,679

and uh prior to his death he uh he

1703

01:11:16,790 --> 01:11:13,520

donated them to uh the smithsonian to

1704

01:11:19,750 --> 01:11:16,800

the beloit college to milwaukee uh or

1705

01:11:21,189 --> 01:11:19,760

not boy college but boyd museum to the

1706

01:11:26,630 --> 01:11:21,199

um

1707

01:11:28,709 --> 01:11:26,640

but up until that point of time the

1708

01:11:32,070 --> 01:11:28,719

milwaukee all those museums they only

1709

01:11:34,149 --> 01:11:32,080

had maybe three or four pieces so nobody

1710

01:11:36,229 --> 01:11:34,159

you know they were like ooples nobody

1711

01:11:38,070 --> 01:11:36,239

knew what they were for

1712

01:11:39,669 --> 01:11:38,080

or who did them so they didn't pay any

1713

01:11:40,950 --> 01:11:39,679

attention to them

1714

01:11:44,149 --> 01:11:40,960

until

1715

01:11:46,870 --> 01:11:44,159

perkins donated all these thousands upon

1716

01:11:50,310 --> 01:11:46,880

thousands of pieces and at that point in

1717

01:11:52,870 --> 01:11:50,320

time they realized that there was a

1718

01:11:55,830 --> 01:11:52,880

copper culture

1719

01:11:58,709 --> 01:11:55,840

here in burlington wisconsin or in

1720

01:12:01,590 --> 01:11:58,719

wisconsin up until that point of time

1721

01:12:04,630 --> 01:12:01,600

nobody even knew about this race of

1722

01:12:07,110 --> 01:12:04,640

people it was a lost race totally

1723

01:12:08,709 --> 01:12:07,120

forgotten and it was through the efforts

1724

01:12:11,990 --> 01:12:08,719

of one of the founding people of

1725

01:12:14,229 --> 01:12:12,000

burlington that the name that they

1726

01:12:17,590 --> 01:12:14,239

they regained their um

1727

01:12:19,430 --> 01:12:17,600

uh their memory of these people

1728

01:12:22,709 --> 01:12:19,440

and now

1729

01:12:26,950 --> 01:12:22,719

now here it is burlington again coming

1730

01:12:30,070 --> 01:12:26,960

into news as destroying all the work

1731

01:12:32,870 --> 01:12:30,080

that the wisconsin state has historical

1732

01:12:35,110 --> 01:12:32,880

society and perkins did

1733

01:12:36,470 --> 01:12:35,120

you know to bring back all this

1734

01:12:37,510 --> 01:12:36,480

knowledge

1735

01:12:43,270 --> 01:12:37,520

and

1736

01:12:44,790 --> 01:12:43,280

the what this bringing back the copper

1737

01:12:46,070 --> 01:12:44,800

culture

1738

01:12:47,750 --> 01:12:46,080

is like

1739

01:12:50,790 --> 01:12:47,760

bringing back uh

1740

01:12:54,630 --> 01:12:50,800

the alps in switzerland you know or the

1741

01:12:56,709 --> 01:12:54,640

great pyramids you know of egypt

1742

01:12:58,790 --> 01:12:56,719

people from around the world tourists

1743

01:13:01,750 --> 01:12:58,800

from all around the world would come to

1744

01:13:03,590 --> 01:13:01,760

north america just to see and learn

1745

01:13:05,510 --> 01:13:03,600

about this ancient race that north

1746

01:13:06,470 --> 01:13:05,520

america had

1747

01:13:11,270 --> 01:13:06,480

and

1748

01:13:13,270 --> 01:13:11,280

1890s something like that that they they

1749

01:13:16,149 --> 01:13:13,280

were even going to build these huge

1750

01:13:18,390 --> 01:13:16,159

museums storage areas that they could

1751

01:13:19,910 --> 01:13:18,400

keep all this material or all these

1752

01:13:22,149 --> 01:13:19,920

artifacts in

1753

01:13:24,550 --> 01:13:22,159

and information about this race

1754

01:13:27,669 --> 01:13:24,560

smithsonian tried contacting them and

1755

01:13:29,590 --> 01:13:27,679

asking them to take give it all to them

1756

01:13:30,830 --> 01:13:29,600

and they refused because they wanted

1757

01:13:33,669 --> 01:13:30,840

this as

1758

01:13:36,470 --> 01:13:33,679

wisconsin's treasure you know something

1759

01:13:40,229 --> 01:13:36,480

that wisconsin could be proud of

1760

01:13:41,270 --> 01:13:40,239

but something happened right after that

1761

01:13:48,390 --> 01:13:41,280

in

1762

01:13:50,790 --> 01:13:48,400

a little bit past 1890s

1763

01:13:54,709 --> 01:13:50,800

or maybe even the first part of the

1764

01:13:59,189 --> 01:13:54,719

1900s that all this information was

1765

01:14:02,790 --> 01:13:59,199

picked up gathered up and totally lost

1766

01:14:05,030 --> 01:14:02,800

and now everything that is found on this

1767

01:14:06,709 --> 01:14:05,040

copper culture

1768

01:14:13,590 --> 01:14:06,719

is

1769

01:14:17,430 --> 01:14:13,600

and we don't know why

1770

01:14:20,630 --> 01:14:17,440

but um and we even have the mormons uh

1771

01:14:21,669 --> 01:14:20,640

you know uh finding the brass plates in

1772

01:14:23,430 --> 01:14:21,679

uh

1773

01:14:25,760 --> 01:14:23,440

right outside of burlington that

1774

01:14:27,350 --> 01:14:25,770

describes these same people

1775

01:14:29,830 --> 01:14:27,360

[Music]

1776

01:14:33,430 --> 01:14:29,840

you know and they they referred to them

1777

01:14:34,390 --> 01:14:33,440

as more of a brahmana culture

1778

01:14:37,830 --> 01:14:34,400

you know

1779

01:14:41,669 --> 01:14:37,840

like like abraham from

1780

01:14:42,790 --> 01:14:41,679

so i mean this is our national treasure

1781

01:14:46,470 --> 01:14:42,800

you know

1782

01:14:48,229 --> 01:14:46,480

something that we alone stand to be

1783

01:14:50,470 --> 01:14:48,239

proud of

1784

01:14:52,390 --> 01:14:50,480

and it's uh it's being destroyed right

1785

01:14:55,669 --> 01:14:52,400

in front of our very eyes i mean can you

1786

01:14:57,990 --> 01:14:55,679

imagine these dump trucks coming in and

1787

01:14:59,110 --> 01:14:58,000

loading up skeletons

1788

01:15:01,830 --> 01:14:59,120

and then

1789

01:15:04,310 --> 01:15:01,840

dumping them as fill into a swimming

1790

01:15:11,430 --> 01:15:07,350

so this has been i learned about this

1791

01:15:13,270 --> 01:15:11,440

about four days ago and heidi hollis

1792

01:15:15,750 --> 01:15:13,280

found out about it then you found and

1793

01:15:17,750 --> 01:15:15,760

then you were co-hosting michelle and

1794

01:15:20,550 --> 01:15:17,760

you heard about the

1795

01:15:22,790 --> 01:15:20,560

dilemma yep and you've been supporting

1796

01:15:26,070 --> 01:15:22,800

me on it as well as heidi and a few

1797

01:15:27,830 --> 01:15:26,080

other people and i'm writing a cover

1798

01:15:29,990 --> 01:15:27,840

letter right now

1799

01:15:32,630 --> 01:15:30,000

and i'm going to be sending it out to

1800

01:15:34,709 --> 01:15:32,640

the press to all the media

1801

01:15:38,630 --> 01:15:34,719

i'm going to the archeology the state

1802

01:15:39,590 --> 01:15:38,640

archaeological department i'm going i'm

1803

01:15:42,390 --> 01:15:39,600

you know

1804

01:15:44,950 --> 01:15:42,400

i'm not who i was the first time they

1805

01:15:46,870 --> 01:15:44,960

decided to destroy all this stuff you

1806

01:15:50,470 --> 01:15:46,880

know i've got a little bit more power

1807

01:15:53,110 --> 01:15:50,480

under my belt and i'm going to use my my

1808

01:15:54,149 --> 01:15:53,120

name my credibility

1809

01:15:57,590 --> 01:15:54,159

and

1810

01:16:00,550 --> 01:15:57,600

whatever means possible to try

1811

01:16:03,350 --> 01:16:00,560

to bring back this history and

1812

01:16:04,470 --> 01:16:03,360

and and and save it as a national

1813

01:16:06,390 --> 01:16:04,480

treasure

1814

01:16:08,070 --> 01:16:06,400

you know you're you're a true warrior

1815

01:16:09,430 --> 01:16:08,080

for doing that yep you're a true warrior

1816

01:16:11,189 --> 01:16:09,440

for doing that now want to tell their

1817

01:16:12,630 --> 01:16:11,199

listeners the name of your facebook

1818

01:16:14,709 --> 01:16:12,640

group too they could probably put that

1819

01:16:16,470 --> 01:16:14,719

in a search bar right now there you go

1820

01:16:18,709 --> 01:16:16,480

and i'll i will put that up on our

1821

01:16:21,590 --> 01:16:18,719

inception radio network facebook page

1822

01:16:24,550 --> 01:16:21,600

too so look for mary's facebook group i

1823

01:16:26,950 --> 01:16:24,560

will post that right after the show

1824

01:16:29,430 --> 01:16:26,960

people ask there was a few people that

1825

01:16:31,350 --> 01:16:29,440

asked me they says well how much money

1826

01:16:33,110 --> 01:16:31,360

do you need to make off this in order to

1827

01:16:35,510 --> 01:16:33,120

do this project and i said i don't want

1828

01:16:36,470 --> 01:16:35,520

no money oh boy i'm not into it for the

1829

01:16:39,590 --> 01:16:36,480

money

1830

01:16:42,550 --> 01:16:39,600

you know and anybody that knows me knows

1831

01:16:45,669 --> 01:16:42,560

that i don't do anything for the money

1832

01:16:46,790 --> 01:16:45,679

i do it because it's right right so

1833

01:16:48,709 --> 01:16:46,800

correct

1834

01:16:51,590 --> 01:16:48,719

oh yeah

1835

01:16:53,350 --> 01:16:51,600

they'll throw that in chat mary and uh

1836

01:16:55,110 --> 01:16:53,360

anything else going on quick we got

1837

01:16:57,270 --> 01:16:55,120

about a minute and a half

1838

01:16:58,950 --> 01:16:57,280

a minute and a half minute and a half

1839

01:17:00,550 --> 01:16:58,960

yep

1840

01:17:02,950 --> 01:17:00,560

let's see

1841

01:17:04,390 --> 01:17:02,960

what does it the uh the guest uh in

1842

01:17:06,550 --> 01:17:04,400

chapter only has something that they

1843

01:17:07,830 --> 01:17:06,560

want to ask or

1844

01:17:11,510 --> 01:17:07,840

i think

1845

01:17:13,830 --> 01:17:11,520

covered the portals pretty darn well for

1846

01:17:16,709 --> 01:17:13,840

them no no absolutely no worries how

1847

01:17:19,750 --> 01:17:16,719

about this i still do the tours and i'll

1848

01:17:22,790 --> 01:17:19,760

put that in as well as my link

1849

01:17:24,870 --> 01:17:22,800

i still do the tours and now instead of

1850

01:17:27,189 --> 01:17:24,880

being on saturday night you schedule

1851

01:17:30,390 --> 01:17:27,199

them around your time

1852

01:17:32,390 --> 01:17:30,400

and then you contact me and we figure

1853

01:17:35,030 --> 01:17:32,400

out how many people what date you want

1854

01:17:37,270 --> 01:17:35,040

to go and then we just go with it there

1855

01:17:38,390 --> 01:17:37,280

and then also i

1856

1873

01:18:26,470 --> 01:18:25,440

support what i do out here

1874

01:18:29,189 --> 01:18:26,480

1876

01:18:34,390 --> 01:18:32,320

not um it's not books that you're going

1877

01:18:36,149 --> 01:18:34,400

to find this information on the internet

1878

01:18:39,430 --> 01:18:36,159

i use uh

1879

01:18:41,990 --> 01:18:39,440

hard to find books and lost books you

1880

01:18:44,790 --> 01:18:42,000

know written in the 1800s and even

1881

01:18:46,950 --> 01:18:44,800

before and like in local legends and

1882

01:18:49,750 --> 01:18:46,960

that things that you can't find out

1883

01:18:51,430 --> 01:18:49,760

there are you can find in my books

1884

01:18:53,590 --> 01:18:51,440
