

UFO Headline News Thursday August 10th, 2017

Listen on

inceptionradionetwork.com

1
00:00:01,270 --> 00:00:00,810

4.

2
00:00:05,349 --> 00:00:01,280

[Music]

3
00:00:08,070 --> 00:00:05,359

hello it's thursday august 10 2017. you

4
00:00:10,470 --> 00:00:08,080

are listening to inception radio network

5
00:00:15,829 --> 00:00:10,480

voice of the fringe majority this is

6
00:00:21,590 --> 00:00:18,070

we are not through with a perseid meteor

7
00:00:24,070 --> 00:00:21,600

shower not by a long shot and earth sky

8
00:00:25,189 --> 00:00:24,080

brings us a little bit more about how to

9
00:00:27,990 --> 00:00:25,199

watch them

10
00:00:31,429 --> 00:00:28,000

tonight it's time to start watching them

11
00:00:34,229 --> 00:00:31,439

the peak is this weekend unfortunately

12
00:00:36,310 --> 00:00:34,239

that waning gibbous moon is in the way

13
00:00:38,310 --> 00:00:36,320

during the pre-dawn hours and that's

14

00:00:39,990 --> 00:00:38,320

when the meteors are normally flying

15

00:00:42,549 --> 00:00:40,000

most abundantly

16

00:00:44,470 --> 00:00:42,559

but perseid meteors tend to be bright

17

00:00:46,150 --> 00:00:44,480

the brighter ones may well overcome the

18

00:00:49,750 --> 00:00:46,160

moonlit glare

19

00:00:51,910 --> 00:00:49,760

which dates are best well earthsky.org

20

00:00:54,790 --> 00:00:51,920

is anticipating the mornings of august

21

00:00:57,510 --> 00:00:54,800

12th and 13th but try tomorrow morning

22

00:01:00,950 --> 00:00:57,520

august 11th too and there's tips you can

23

00:01:03,110 --> 00:01:00,960

find later at ufoheadlinenews.com

24

00:01:06,070 --> 00:01:03,120

by the way there's a rumor going around

25

00:01:09,750 --> 00:01:06,080

that the 2017 perseid meteor shower will

26
00:01:11,590 --> 00:01:09,760
be the best in 96 years well as we know

27
00:01:14,710 --> 00:01:11,600
bruce mcclure addressed that already

28
00:01:16,789 --> 00:01:14,720
with a nah it's not true

29
00:01:19,109 --> 00:01:16,799
there are a bunch of tips here provided

30
00:01:21,429 --> 00:01:19,119
by the folks at earthsky.org there are

31
00:01:23,910 --> 00:01:21,439
10 of them we'll pick a few highlights

32
00:01:26,390 --> 00:01:23,920
well the first is try to observe in the

33
00:01:29,749 --> 00:01:26,400
evening hours on those nights august

34
00:01:31,749 --> 00:01:29,759
10th that's tonight 11th and 12th after

35
00:01:34,149 --> 00:01:31,759
the full moon on the 7th the moon's

36
00:01:36,550 --> 00:01:34,159
going to be rising later each night so

37
00:01:39,190 --> 00:01:36,560
watch as late as you can but before

38
00:01:41,109 --> 00:01:39,200

moonrise you won't see as many meteors

39

00:01:43,990 --> 00:01:41,119

during the evening hours but you might

40

00:01:46,870 --> 00:01:44,000

catch those things called earth grazers

41

00:01:49,830 --> 00:01:46,880

the slow-moving long-lasting meteors

42

00:01:52,069 --> 00:01:49,840

they travel horizontally across the sky

43

00:01:54,230 --> 00:01:52,079

if you see even one it'll give you a

44

00:01:55,590 --> 00:01:54,240

great new appreciation for evening

45

00:01:57,429 --> 00:01:55,600

meteor watching

46

00:01:59,990 --> 00:01:57,439

here's another one it's number six

47

00:02:02,870 --> 00:02:00,000

notice the speed and colors if any of

48

00:02:04,950 --> 00:02:02,880

the meteors the perseids are known to be

49

00:02:07,190 --> 00:02:04,960

colorful although the moonlight will

50

00:02:09,910 --> 00:02:07,200

probably drown out their color this year

51
00:02:12,309 --> 00:02:09,920
but it's not going to affect the speed

52
00:02:14,949 --> 00:02:12,319
those perseids are swift moving entering

53
00:02:17,990 --> 00:02:14,959
earth's atmosphere at about 35 miles per

54
00:02:19,670 --> 00:02:18,000
second 60 kilometers per second

55
00:02:22,470 --> 00:02:19,680
and then watch for something called

56
00:02:25,910 --> 00:02:22,480
meteor trains that's tip number seven

57
00:02:28,070 --> 00:02:25,920
a meteor train that's a persistent glow

58
00:02:29,830 --> 00:02:28,080
in the air left by some meteors after

59
00:02:32,150 --> 00:02:29,840
they've faded from view

60
00:02:34,550 --> 00:02:32,160
these trains are caused by luminous

61
00:02:37,110 --> 00:02:34,560
ionized matter left in the wake of this

62
00:02:38,630 --> 00:02:37,120
incoming space debris a good percentage

63
00:02:41,270 --> 00:02:38,640

of perseids are known to leave

64

00:02:43,750 --> 00:02:41,280

persistent trains they linger for a

65

00:02:45,750 --> 00:02:43,760

moment or two after the meteor has gone

66

00:02:48,150 --> 00:02:45,760

again hard to see this year in the

67

00:02:50,949 --> 00:02:48,160

moonlight but watch for them we'll skip

68

00:02:51,990 --> 00:02:50,959

forward to point number 10 embrace the

69

00:02:53,990 --> 00:02:52,000

moon

70

00:02:56,309 --> 00:02:54,000

we hear people bubble with excitement

71

00:02:59,110 --> 00:02:56,319

about seeing the meteors in all sorts of

72

00:03:01,670 --> 00:02:59,120

conditions moon or no moon city lights

73

00:03:03,750 --> 00:03:01,680

or no city lights the perseids in

74

00:03:05,110 --> 00:03:03,760

particular tend to have a lot of

75

00:03:07,350 --> 00:03:05,120

fireballs

76
00:03:09,750 --> 00:03:07,360
and so around the nights of the shower

77
00:03:12,309 --> 00:03:09,760
try taking your lawn chair your blanket

78
00:03:15,350 --> 00:03:12,319
to some wide open location if you can

79
00:03:17,750 --> 00:03:15,360
bask in the moon's bright light you may

80
00:03:20,390 --> 00:03:17,760
see that occasional fireball streak by

81
00:03:23,030 --> 00:03:20,400
and it will be beautiful that's what

82
00:03:25,270 --> 00:03:23,040
bruce mcclure says and he as usual

83
00:03:27,589 --> 00:03:25,280
provides a bottom line

84
00:03:31,190 --> 00:03:27,599
with the moon intruding on the pre-dawn

85
00:03:33,190 --> 00:03:31,200
hours this year 2017 is not as favorable

86
00:03:35,110 --> 00:03:33,200
as it could be for watching the annual

87
00:03:37,509 --> 00:03:35,120
perseid meteor shower

88
00:03:39,830 --> 00:03:37,519

hence the tips and if you're so inclined

89

00:03:41,670 --> 00:03:39,840

you can find the rest of them later read

90

00:03:44,830 --> 00:03:41,680

them for yourselves gentle listeners

91

00:03:47,509 --> 00:03:44,840

they'll be provided via link at

92

00:03:50,070 --> 00:03:47,519

ufoheadlinenews.com our next headline is

93

00:03:52,309 --> 00:03:50,080

provided by anthony wood who writes it

94

00:03:55,110 --> 00:03:52,319

for newatlas.com

95

00:03:57,990 --> 00:03:55,120

new horizons next target is starting to

96

00:04:00,710 --> 00:03:58,000

look a little weird

97

00:04:02,949 --> 00:04:00,720

in less than 17 months new horizons

98

00:04:05,990 --> 00:04:02,959

spacecraft will make a close proximity

99

00:04:11,030 --> 00:04:06,000

pass of the ancient kuiper belt object

100

00:04:13,509 --> 00:04:11,040

kbo 2014 mu69 making what will be the

101
00:04:15,750 --> 00:04:13,519
most remote flyby in the history of

102
00:04:18,069 --> 00:04:15,760
robotic space exploration

103
00:04:20,069 --> 00:04:18,079
in preparation for the pass the team of

104
00:04:22,310 --> 00:04:20,079
scientists has completed an ambitious

105
00:04:25,909 --> 00:04:22,320
set of observations that have shed light

106
00:04:29,189 --> 00:04:25,919
on the possible shapes of this kbo

107
00:04:31,590 --> 00:04:29,199
kuiper belt object new horizons has had

108
00:04:34,870 --> 00:04:31,600
a pretty great career following its

109
00:04:37,270 --> 00:04:34,880
launch in 2006 and a subsequent gravity

110
00:04:39,749 --> 00:04:37,280
assist from king planet jupiter the

111
00:04:43,670 --> 00:04:39,759
plucky explorer flew past the dwarf

112
00:04:47,830 --> 00:04:43,680
planet pluto july 14 2015 harvesting

113
00:04:49,749 --> 00:04:47,840

over 50 gigabits of data in the process

114

00:04:51,909 --> 00:04:49,759

it took well over a year for new

115

00:04:53,990 --> 00:04:51,919

horizons to transmit that treasure trove

116

00:04:56,150 --> 00:04:54,000

of information back to earth which has

117

00:04:58,950 --> 00:04:56,160

since revolutionized our understanding

118

00:05:01,830 --> 00:04:58,960

of pluto revealing a diverse and active

119

00:05:03,990 --> 00:05:01,840

world riddled with exciting phenomena

120

00:05:06,070 --> 00:05:04,000

its work with pluto complete new

121

00:05:10,550 --> 00:05:06,080

horizons raced further into the kuiper

122

00:05:12,710 --> 00:05:10,560

belt toward its next target 2014 mu69

123

00:05:15,189 --> 00:05:12,720

a successful pass of that kuiper belt

124

00:05:17,189 --> 00:05:15,199

object will allow scientists to analyze

125

00:05:19,670 --> 00:05:17,199

data on a body that's remained largely

126
00:05:22,390 --> 00:05:19,680
unchanged since the birth of our solar

127
00:05:23,909 --> 00:05:22,400
system to prepare for the rendezvous a

128
00:05:27,749 --> 00:05:23,919
team of nasa scientists and

129
00:05:29,909 --> 00:05:27,759
collaborators have observed 2014 mu69 as

130
00:05:32,790 --> 00:05:29,919
it passed in front of three separate

131
00:05:35,830 --> 00:05:32,800
stars beginning june 3rd and again on

132
00:05:37,510 --> 00:05:35,840
the 10th of july and july 17th

133
00:05:40,070 --> 00:05:37,520
images collected during these

134
00:05:41,830 --> 00:05:40,080
occultations would allow new horizon

135
00:05:44,870 --> 00:05:41,840
handlers to better understand the shape

136
00:05:46,550 --> 00:05:44,880
of this kuiper belt object its orbit and

137
00:05:49,029 --> 00:05:46,560
its environment

138
00:05:51,590 --> 00:05:49,039

capturing an occultation event involving

139

00:05:54,710 --> 00:05:51,600

a small solar system object orbiting

140

00:05:56,150 --> 00:05:54,720

over 4 billion miles from earth is no

141

00:05:58,469 --> 00:05:56,160

small task

142

00:06:00,710 --> 00:05:58,479

unlike a lunar eclipse which blocks the

143

00:06:02,469 --> 00:06:00,720

sunlight across a vast swath of land

144

00:06:06,710 --> 00:06:02,479

for minutes at a time

145

00:06:09,270 --> 00:06:06,720

the shadow cast by 2014 mu69 falls on a

146

00:06:11,510 --> 00:06:09,280

tiny sliver of the earth for a duration

147

00:06:13,430 --> 00:06:11,520

of about two seconds

148

00:06:16,309 --> 00:06:13,440

the team used observations made by the

149

00:06:19,510 --> 00:06:16,319

nasa esa hubble space telescope and the

150

00:06:21,189 --> 00:06:19,520

esa's gaia mission to pinpoint exactly

151
00:06:23,590 --> 00:06:21,199
where the shadows cast by the kuiper

152
00:06:26,230 --> 00:06:23,600
belt object would fall they set up an

153
00:06:27,590 --> 00:06:26,240
army of mobile telescopes to image the

154
00:06:29,430 --> 00:06:27,600
transits

155
00:06:31,510 --> 00:06:29,440
an analysis of those images snapped

156
00:06:33,270 --> 00:06:31,520
during the stellar occultations has

157
00:06:36,790 --> 00:06:33,280
revealed a number of potential

158
00:06:39,029 --> 00:06:36,800
configurations for 2014 mu69

159
00:06:42,390 --> 00:06:39,039
this kuiper belt object could be shaped

160
00:06:44,870 --> 00:06:42,400
like quote an extreme prolate spheroid

161
00:06:47,909 --> 00:06:44,880
end quotes i think stretched out

162
00:06:50,309 --> 00:06:47,919
american football or even two separate

163
00:06:53,350 --> 00:06:50,319

bodies that either orbit incredibly

164

00:06:55,430 --> 00:06:53,360

close to one another or wait for it are

165

00:06:57,590 --> 00:06:55,440

actually touching

166

00:07:00,390 --> 00:06:57,600

it could also look like a single body

167

00:07:03,990 --> 00:07:00,400

with a sizeable chunk removed

168

00:07:06,790 --> 00:07:04,000

the data also suggests that 2014 mu69 is

169

00:07:10,070 --> 00:07:06,800

no longer than 20 miles 30 kilometers in

170

00:07:14,469 --> 00:07:10,080

length or two bodies each roughly 9 to

171

00:07:17,909 --> 00:07:14,479

12 miles 15 to 20 kilometers in diameter

172

00:07:21,510 --> 00:07:17,919

the discovery that 2014 mu69 is not a

173

00:07:23,350 --> 00:07:21,520

nice simple spherical kbo is reminiscent

174

00:07:25,830 --> 00:07:23,360

of the trials faced by the scientists

175

00:07:27,749 --> 00:07:25,840

with the rosetta file mission as they

176

00:07:31,589 --> 00:07:27,759

planned their interaction with the comet

177

00:07:34,150 --> 00:07:31,599

67p chiryumov jedesmienko luckily for

178

00:07:36,309 --> 00:07:34,160

the new horizons team they need only

179

00:07:39,830 --> 00:07:36,319

orchestrate a flyby rather than an

180

00:07:42,070 --> 00:07:39,840

orbital insertion paired with a landing

181

00:07:44,550 --> 00:07:42,080

quote this new finding is simply

182

00:07:46,230 --> 00:07:44,560

spectacular end quotes comments alan

183

00:07:48,309 --> 00:07:46,240

stern he's mission principal

184

00:07:50,950 --> 00:07:48,319

investigator from the southwest research

185

00:07:54,230 --> 00:07:50,960

institute out of boulder colorado

186

00:07:56,790 --> 00:07:54,240

quote the shape of mu69 is truly

187

00:07:59,670 --> 00:07:56,800

provocative and could mean another first

188

00:08:02,469 --> 00:07:59,680

for new horizons going to a binary

189

00:08:04,469 --> 00:08:02,479

object in the kuiper belt i could not be

190

00:08:07,350 --> 00:08:04,479

happier with the occultation results

191

00:08:09,990 --> 00:08:07,360

which promise a scientific bonanza for

192

00:08:13,029 --> 00:08:10,000

the flyby end quotes

193

00:08:15,510 --> 00:08:13,039

alan stern interestingly there's a comic

194

00:08:17,270 --> 00:08:15,520

strip that runs in the los angeles times

195

00:08:19,430 --> 00:08:17,280

we won't name it but they deal with

196

00:08:21,830 --> 00:08:19,440

space and the occasional ufo the

197

00:08:24,550 --> 00:08:21,840

occasional alien well they're dealing

198

00:08:27,270 --> 00:08:24,560

with alan stern now which gives us a

199

00:08:29,029 --> 00:08:27,280

giggle undoubtedly some new aspect of

200

00:08:30,950 --> 00:08:29,039

nasa outreach

201

00:08:33,509 --> 00:08:30,960

let's reach out for yet another

202

00:08:35,829 --> 00:08:33,519

wonderful column from cheryl costa she

203

00:08:37,350 --> 00:08:35,839

writes for the syracuse new times

204

00:08:41,269 --> 00:08:37,360

here's today's

205

00:08:43,190 --> 00:08:41,279

ufos belief versus knowledge

206

00:08:45,110 --> 00:08:43,200

she writes it in the first person that

207

00:08:46,949 --> 00:08:45,120

is how we read it

208

00:08:49,430 --> 00:08:46,959

over the four years of this blog's

209

00:08:51,750 --> 00:08:49,440

existence i've been asked repeatedly by

210

00:08:55,509 --> 00:08:51,760

fans and reporters whether or not i

211

00:08:57,750 --> 00:08:55,519

believe in ufos i am of the opinion that

212

00:09:00,389 --> 00:08:57,760

a person's outlook on ufos should not be

213

00:09:01,910 --> 00:09:00,399

put in the context of belief

214

00:09:04,949 --> 00:09:01,920

i think the whole thing comes down to

215

00:09:06,630 --> 00:09:04,959

belief versus knowledge

216

00:09:08,870 --> 00:09:06,640

in many societies we frequently

217

00:09:10,310 --> 00:09:08,880

associate belief with blind faith

218

00:09:11,910 --> 00:09:10,320

acceptance

219

00:09:13,829 --> 00:09:11,920

traditionally this sort of conviction

220

00:09:16,470 --> 00:09:13,839

usually falls into the category of

221

00:09:18,949 --> 00:09:16,480

dogmatic religious doctrine you either

222

00:09:19,990 --> 00:09:18,959

believe or accept the doctrine or you

223

00:09:22,310 --> 00:09:20,000

don't

224

00:09:24,310 --> 00:09:22,320

it seems that we as human beings have

225

00:09:26,230 --> 00:09:24,320

been conditioned to make character

226

00:09:28,550 --> 00:09:26,240

judgments about one religious faith or

227

00:09:30,870 --> 00:09:28,560

another follow our faith and you're a

228

00:09:33,509 --> 00:09:30,880

believer if you don't you're an outsider

229

00:09:35,829 --> 00:09:33,519

or even heretic many great wars have

230

00:09:37,829 --> 00:09:35,839

been fought over subtle interpretations

231

00:09:41,030 --> 00:09:37,839

of various doctrines

232

00:09:43,670 --> 00:09:41,040

with regard to ufos our society carries

233

00:09:45,910 --> 00:09:43,680

this same sort of view which labels or

234

00:09:47,990 --> 00:09:45,920

judges the character of those who state

235

00:09:49,350 --> 00:09:48,000

a position with respect to the existence

236

00:09:53,110 --> 00:09:49,360

of ufos

237

00:09:55,990 --> 00:09:53,120

i argue that ufos and off-worlders are

238

00:09:59,030 --> 00:09:56,000

not a matter of faith but rather a case

239

00:10:01,990 --> 00:09:59,040

of knowledge based on some criteria of

240

00:10:04,230 --> 00:10:02,000

confirmation case in point

241

00:10:05,750 --> 00:10:04,240

in four years of reading ufo reports

242

00:10:07,750 --> 00:10:05,760

i've been amazed at how many people

243

00:10:10,070 --> 00:10:07,760

state something like quote i never

244

00:10:13,269 --> 00:10:10,080

thought these things existed until what

245

00:10:15,590 --> 00:10:13,279

i saw tonight end quotes

246

00:10:18,310 --> 00:10:15,600

i assert that for the observer this is a

247

00:10:19,350 --> 00:10:18,320

knowledge-based confirmation and not

248

00:10:20,949 --> 00:10:19,360

faith

249

00:10:23,110 --> 00:10:20,959

i've known a lot of people who were on

250

00:10:25,670 --> 00:10:23,120

the fence with their skeptical view

251
00:10:29,190 --> 00:10:25,680
still others who are totally unconvinced

252
00:10:31,509 --> 00:10:29,200
and feel these ideas are total hogwash

253
00:10:33,350 --> 00:10:31,519
personally i tested my position on this

254
00:10:35,590 --> 00:10:33,360
subject many times since my first

255
00:10:37,350 --> 00:10:35,600
sighting when i was 12 years old

256
00:10:39,190 --> 00:10:37,360
i've read articles and books over the

257
00:10:41,430 --> 00:10:39,200
years that gave me knowledge of other

258
00:10:43,110 --> 00:10:41,440
people's sightings but i still had my

259
00:10:45,509 --> 00:10:43,120
own reservations

260
00:10:48,069 --> 00:10:45,519
for me it took a series of little

261
00:10:50,630 --> 00:10:48,079
validations over a period of 20 years in

262
00:10:53,030 --> 00:10:50,640
my adult life to bring about a serious

263
00:10:54,710 --> 00:10:53,040

resolve on the subject

264

00:10:56,550 --> 00:10:54,720

so what happens when something

265

00:10:58,790 --> 00:10:56,560

extraordinary occurs that defies

266

00:11:01,350 --> 00:10:58,800

rational explanation

267

00:11:04,150 --> 00:11:01,360

the result can go two ways either it

268

00:11:06,389 --> 00:11:04,160

confirms or reinforces for the observer

269

00:11:08,470 --> 00:11:06,399

that these things are real

270

00:11:11,269 --> 00:11:08,480

or depending on the intensity of the

271

00:11:14,470 --> 00:11:11,279

encounter event the observer's reality

272

00:11:16,870 --> 00:11:14,480

view is upset or even shattered

273

00:11:18,949 --> 00:11:16,880

of course the confirmation tipping point

274

00:11:21,670 --> 00:11:18,959

depends on the person and what they

275

00:11:24,150 --> 00:11:21,680

accept as personal proof for some folks

276

00:11:26,389 --> 00:11:24,160

a simple sighting works for others it

277

00:11:27,350 --> 00:11:26,399

has to be a really amazing sighting

278

00:11:30,069 --> 00:11:27,360

event

279

00:11:33,590 --> 00:11:30,079

for me it was several sets of long-term

280

00:11:35,590 --> 00:11:33,600

data and some technical observations

281

00:11:38,230 --> 00:11:35,600

then there are those who want physical

282

00:11:39,990 --> 00:11:38,240

evidence like an off-world craft landing

283

00:11:42,790 --> 00:11:40,000

on the white house lawn

284

00:11:44,790 --> 00:11:42,800

but i argue that even an off-world craft

285

00:11:47,430 --> 00:11:44,800

parked on the ellipse won't be enough

286

00:11:49,269 --> 00:11:47,440

confirmation for some and that's okay

287

00:11:51,269 --> 00:11:49,279

each person needs to measure what

288

00:11:53,110 --> 00:11:51,279

knowledge they require to make their own

289

00:11:55,190 --> 00:11:53,120

personal confirmation

290

00:11:57,030 --> 00:11:55,200

we like that point of view

291

00:11:59,910 --> 00:11:57,040

and we're going to segue something right

292

00:12:02,949 --> 00:11:59,920

about here headline new survey shows

293

00:12:04,150 --> 00:12:02,959

nearly half of americans believe in

294

00:12:06,790 --> 00:12:04,160

aliens

295

00:12:09,110 --> 00:12:06,800

this is posted by alejandro rojas at

296

00:12:11,269 --> 00:12:09,120

openminds.tv

297

00:12:14,870 --> 00:12:11,279

nearly half of americans believe in

298

00:12:17,269 --> 00:12:14,880

aliens and almost as many believe aliens

299

00:12:18,389 --> 00:12:17,279

are visiting earth according to a new

300

00:12:20,550 --> 00:12:18,399

survey

301
00:12:23,030 --> 00:12:20,560
however less than 20 percent but even

302
00:12:25,990 --> 00:12:23,040
alien abduction and a bit less than that

303
00:12:28,470 --> 00:12:26,000
claimed to have seen a ufo yes gentle

304
00:12:31,030 --> 00:12:28,480
readers it's marketing but an

305
00:12:33,990 --> 00:12:31,040
interesting kind of marketing

306
00:12:35,910 --> 00:12:34,000
the 20th century fox home entertainment

307
00:12:37,430 --> 00:12:35,920
commissioned this survey it's part of

308
00:12:40,069 --> 00:12:37,440
their promotional campaign for the

309
00:12:41,430 --> 00:12:40,079
blu-ray release of the movie phoenix

310
00:12:44,550 --> 00:12:41,440
forgotten

311
00:12:47,350 --> 00:12:44,560
they surveyed more than 1700 americans

312
00:12:50,150 --> 00:12:47,360
phoenix forgotten is a found footage

313
00:12:52,710 --> 00:12:50,160

it's a sci-fi thriller fiction yup set

314

00:12:56,710 --> 00:12:52,720

during a famous mass ufo sighting that

315

00:12:58,710 --> 00:12:56,720

phoenix arizona phoenix lights 1997

316

00:13:02,150 --> 00:12:58,720

quote the phoenix lights phenomena of

317

00:13:04,470 --> 00:13:02,160

march 13 1997 led us to introduce a

318

00:13:06,870 --> 00:13:04,480

survey to find out what americans

319

00:13:09,509 --> 00:13:06,880

believe about aliens end quotes those

320

00:13:11,430 --> 00:13:09,519

are the words of a rep from 20th century

321

00:13:13,750 --> 00:13:11,440

fox home entertainment

322

00:13:17,190 --> 00:13:13,760

he continued quote from our survey we

323

00:13:19,910 --> 00:13:17,200

found that nearly half 47 percent

324

00:13:22,150 --> 00:13:19,920

believe in aliens but less than a fifth

325

00:13:24,870 --> 00:13:22,160

think they've ever seen a ufo or an

326

00:13:26,470 --> 00:13:24,880

alien themselves end quotes

327

00:13:28,550 --> 00:13:26,480

other surveys have also found that

328

00:13:31,190 --> 00:13:28,560

around half the population believe in

329

00:13:33,750 --> 00:13:31,200

aliens but perhaps a more interesting

330

00:13:37,509 --> 00:13:33,760

finding in this survey was that slightly

331

00:13:40,949 --> 00:13:37,519

less than 39 of those surveyed quote

332

00:13:42,389 --> 00:13:40,959

believe aliens have visited earth before

333

00:13:43,829 --> 00:13:42,399

end quotes

334

00:13:46,629 --> 00:13:43,839

although many in that group believe

335

00:13:48,949 --> 00:13:46,639

aliens have visited earth less believe

336

00:13:51,350 --> 00:13:48,959

aliens are actually abducting people

337

00:13:53,509 --> 00:13:51,360

only 18 of the group said they believed

338

00:13:57,030 --> 00:13:53,519

in alien abduction

339

00:13:59,910 --> 00:13:57,040

as for ufos only 16.74

340

00:14:02,949 --> 00:13:59,920

claimed to have seen one however 27

341

00:14:04,870 --> 00:14:02,959

percent said they knew someone who had

342

00:14:07,750 --> 00:14:04,880

when it comes to the phoenix lights

343

00:14:09,590 --> 00:14:07,760

surprisingly 45.5

344

00:14:10,550 --> 00:14:09,600

of the people said they'd heard of the

345

00:14:12,790 --> 00:14:10,560

event

346

00:14:15,590 --> 00:14:12,800

alejandro rojas who writes this lives in

347

00:14:17,829 --> 00:14:15,600

arizona he says the topic is still hot

348

00:14:19,350 --> 00:14:17,839

in the news out there in fact he himself

349

00:14:21,189 --> 00:14:19,360

was part of several promotional

350

00:14:23,350 --> 00:14:21,199

interviews for phoenix forgotten in the

351
00:14:25,590 --> 00:14:23,360
local media and people still love

352
00:14:27,750 --> 00:14:25,600
talking about the incident especially

353
00:14:30,790 --> 00:14:27,760
the fact that then governor fife

354
00:14:34,150 --> 00:14:30,800
symington claims to have seen that ufo

355
00:14:36,629 --> 00:14:34,160
and believes it was an alien spacecraft

356
00:14:38,710 --> 00:14:36,639
so it wasn't too surprising to see 80 of

357
00:14:41,030 --> 00:14:38,720
the arizona survey participants had

358
00:14:43,189 --> 00:14:41,040
heard of the phoenix lights

359
00:14:47,110 --> 00:14:43,199
in fact says alejandra rojas he isn't

360
00:14:48,870 --> 00:14:47,120
sure how the other 20 have not heard

361
00:14:50,389 --> 00:14:48,880
the survey went on to ask whether people

362
00:14:52,230 --> 00:14:50,399
felt the phoenix lights could have been

363
00:14:54,790 --> 00:14:52,240

caused by aliens

364

00:14:56,949 --> 00:14:54,800

a whopping 67

365

00:14:59,269 --> 00:14:56,959

said yes

366

00:15:01,590 --> 00:14:59,279

phoenix forgotten the film portrays

367

00:15:03,910 --> 00:15:01,600

aliens as pretty scary what makes new

368

00:15:06,629 --> 00:15:03,920

simply summer z feminine wash different

369

00:15:08,470 --> 00:15:06,639

it's simple seriously that's the answer

370

00:15:10,230 --> 00:15:08,480

it's made with simple ingredients

371

00:15:12,230 --> 00:15:10,240

ingredients that help stop odor and help

372

00:15:14,310 --> 00:15:12,240

you maintain a naturally healthy ph

373

00:15:16,150 --> 00:15:14,320

gently and effectively here's what

374

00:15:19,030 --> 00:15:16,160

simply summer's eve ingredients do not

375

00:15:20,790 --> 00:15:19,040

include harsh chemicals dyes alcohol or

376

00:15:22,949 --> 00:15:20,800

parabens and it comes in light

377

00:15:25,590 --> 00:15:22,959

refreshing scents like mandarin blossom

378

00:15:27,670 --> 00:15:25,600

and coconut water new simply summer z

379

00:15:29,990 --> 00:15:27,680

gentle foaming wash and cleansing cloths

380

00:15:31,509 --> 00:15:30,000

gentle by nature click the tile to learn

381

00:15:33,670 --> 00:15:31,519

more gary

382

00:15:35,509 --> 00:15:33,680

there's another found footage movie that

383

00:15:37,750 --> 00:15:35,519

premiered at the international ufo

384

00:15:40,069 --> 00:15:37,760

congress in phoenix it's titled the

385

00:15:42,310 --> 00:15:40,079

phoenix incident also based on the

386

00:15:45,670 --> 00:15:42,320

phoenix lights event and it portrayed

387

00:15:47,829 --> 00:15:45,680

aliens also as frightening monsters

388

00:15:49,749 --> 00:15:47,839

however these portrayals don't seem to

389

00:15:51,509 --> 00:15:49,759

have influenced everyone

390

00:15:54,550 --> 00:15:51,519

when asked if they felt aliens would

391

00:15:56,310 --> 00:15:54,560

have friendly or hostile intentions only

392

00:15:59,990 --> 00:15:56,320

nine percent were sure they would be

393

00:16:01,590 --> 00:16:00,000

hostile 25 believe aliens are friendly

394

00:16:04,629 --> 00:16:01,600

while 66

395

00:16:07,269 --> 00:16:04,639

say they are just not sure alejandro

396

00:16:10,069 --> 00:16:07,279

rojas provides wonderful graphs for this

397

00:16:11,990 --> 00:16:10,079

article but they're just not good radio

398

00:16:14,470 --> 00:16:12,000

so if you want to see them later and get

399

00:16:16,790 --> 00:16:14,480

all those calculations head on over to

400

00:16:18,470 --> 00:16:16,800

ufoheadlinenews.com

401
00:16:20,069 --> 00:16:18,480
they will be there

402
00:16:22,389 --> 00:16:20,079
when you check them you'll see that some

403
00:16:24,870 --> 00:16:22,399
of the questions on this survey in the

404
00:16:27,509 --> 00:16:24,880
graphs are a bit tongue-in-cheek and

405
00:16:29,350 --> 00:16:27,519
some asked obviously for fun but the

406
00:16:31,110 --> 00:16:29,360
survey does give some interesting

407
00:16:34,069 --> 00:16:31,120
insight into the general public's

408
00:16:36,710 --> 00:16:34,079
perception of the ufo phenomenon and the

409
00:16:39,269 --> 00:16:36,720
idea that aliens are visiting earth

410
00:16:42,870 --> 00:16:39,279
more and more people seem to be opening

411
00:16:45,350 --> 00:16:42,880
up to the idea of alien visitation

412
00:16:47,110 --> 00:16:45,360
should we be afraid

413
00:16:49,509 --> 00:16:47,120

if indeed the phoenix lights ufo

414

00:16:51,509 --> 00:16:49,519

sightings were caused by aliens no one

415

00:16:53,829 --> 00:16:51,519

was actually harmed

416

00:16:55,590 --> 00:16:53,839

recently actor kurt russell claims to

417

00:16:57,670 --> 00:16:55,600

have witnessed the unidentified lights

418

00:17:00,069 --> 00:16:57,680

from his personal aircraft as he was

419

00:17:02,629 --> 00:17:00,079

flying he and his son who was also on

420

00:17:03,670 --> 00:17:02,639

board obviously lived to tell their

421

00:17:05,270 --> 00:17:03,680

story

422

00:17:08,630 --> 00:17:05,280

so at least the aliens flying over

423

00:17:10,870 --> 00:17:08,640

phoenix in 1997 were benevolent

424

00:17:13,510 --> 00:17:10,880

alejandro rojas guesses they could also

425

00:17:15,270 --> 00:17:13,520

have been testing our defenses for some

426
00:17:17,110 --> 00:17:15,280
future invasion

427
00:17:19,750 --> 00:17:17,120
or could this have been a man-made

428
00:17:21,590 --> 00:17:19,760
object simply misidentified

429
00:17:24,309 --> 00:17:21,600
a pragmatic person would assume the

430
00:17:25,990 --> 00:17:24,319
later was the case as this is the most

431
00:17:28,230 --> 00:17:26,000
logical answer

432
00:17:31,190 --> 00:17:28,240
but alejandro rojas says quote

433
00:17:34,230 --> 00:17:31,200
personally i find it fascinating that so

434
00:17:38,029 --> 00:17:34,240
many people are open to the more exotic

435
00:17:40,549 --> 00:17:38,039
possibilities let's head immediately to

436
00:17:43,669 --> 00:17:40,559
ufostalker.com for this sighting in

437
00:17:46,549 --> 00:17:43,679
newcastle upon tyne england it's mufon

438
00:17:48,470 --> 00:17:46,559

case number 85723

439

00:17:50,789 --> 00:17:48,480

this event took place on the 7th of

440

00:17:53,110 --> 00:17:50,799

august this year and got a same-day

441

00:17:54,549 --> 00:17:53,120

report here's what our witness offers by

442

00:17:58,310 --> 00:17:54,559

way of summary

443

00:18:02,070 --> 00:17:58,320

saw oval or egg-shaped black dot moving

444

00:18:04,230 --> 00:18:02,080

same speed as airplane near airport

445

00:18:05,909 --> 00:18:04,240

there are photos that accompany this if

446

00:18:09,830 --> 00:18:05,919

you'd like to check those out you can

447

00:18:11,990 --> 00:18:09,840

find them later at ufoheadlinenews.com

448

00:18:14,789 --> 00:18:12,000

citing specifics give us a viewing

449

00:18:17,669 --> 00:18:14,799

distance in this case of over one mile

450

00:18:19,350 --> 00:18:17,679

the altitude was over 500 feet and there

451
00:18:21,430 --> 00:18:19,360
was cloud cover

452
00:18:23,669 --> 00:18:21,440
the sighting duration was two minutes

453
00:18:26,470 --> 00:18:23,679
object features unknown

454
00:18:28,630 --> 00:18:26,480
object flight path straight line path

455
00:18:31,909 --> 00:18:28,640
and as we heard this object was shaped

456
00:18:34,150 --> 00:18:31,919
like an egg or an oval and we'll simply

457
00:18:36,390 --> 00:18:34,160
have to weather the weather or whatever

458
00:18:37,830 --> 00:18:36,400
because there isn't any listed here's

459
00:18:39,110 --> 00:18:37,840
the account

460
00:18:42,230 --> 00:18:39,120
i was on the phone in one of the

461
00:18:46,470 --> 00:18:42,240
bedrooms in my house when i saw a black

462
00:18:49,430 --> 00:18:46,480
egg or oval-shaped dot in the distance

463
00:18:51,669 --> 00:18:49,440

although not necessarily nearby

464

00:18:54,230 --> 00:18:51,679

there was an airplane directly below

465

00:18:56,710 --> 00:18:54,240

this object i saw this object out of the

466

00:18:58,870 --> 00:18:56,720

corner of my eye i wasn't looking for

467

00:19:01,590 --> 00:18:58,880

anything in the sky at all

468

00:19:03,830 --> 00:19:01,600

when i first noticed this object i

469

00:19:05,029 --> 00:19:03,840

assumed it was a drone because of its

470

00:19:07,430 --> 00:19:05,039

movements

471

00:19:09,909 --> 00:19:07,440

however this object was cited near the

472

00:19:11,830 --> 00:19:09,919

local airport thus making drone use

473

00:19:14,310 --> 00:19:11,840

illegal in this area

474

00:19:16,310 --> 00:19:14,320

and the object was far away but i could

475

00:19:17,750 --> 00:19:16,320

still see it clearly and drones are

476

00:19:20,549 --> 00:19:17,760

small

477

00:19:22,630 --> 00:19:20,559

the object was egg oval shaped and it

478

00:19:26,390 --> 00:19:22,640

was going as fast as an airplane during

479

00:19:29,110 --> 00:19:26,400

a landing its movements were robotic

480

00:19:31,270 --> 00:19:29,120

it didn't move diagonally at all

481

00:19:33,270 --> 00:19:31,280

during the sighting i called my brother

482

00:19:35,270 --> 00:19:33,280

and he was skeptical at first and

483

00:19:36,950 --> 00:19:35,280

dismissed it as a drone but when i

484

00:19:39,990 --> 00:19:36,960

explained to him that this was in

485

00:19:42,549 --> 00:19:40,000

restricted airspace for drones he then

486

00:19:43,669 --> 00:19:42,559

began to consider the legitimacy of this

487

00:19:49,510 --> 00:19:43,679

object

488

00:19:50,710 --> 00:19:49,520

then but just before it did that i got a

489

00:19:53,350 --> 00:19:50,720

picture

490

00:19:55,190 --> 00:19:53,360

uh photographic evidence and do you know

491

00:19:56,230 --> 00:19:55,200

where to see that evidence gentle

492

00:19:59,590 --> 00:19:56,240

listeners

493

00:20:02,710 --> 00:19:59,600

let's jet across a lot of water now and

494

00:20:05,990 --> 00:20:02,720

come to steinbach manitoba canada

495

00:20:08,710 --> 00:20:06,000

that's where mufon case number 85573

496

00:20:12,150 --> 00:20:08,720

took place the date of the sighting 8 1

497

00:20:13,590 --> 00:20:12,160

2017 it got a next day report

498

00:20:17,510 --> 00:20:13,600

here's the summary

499

00:20:19,029 --> 00:20:17,520

round hazy ball of light in clear night

500

00:20:21,029 --> 00:20:19,039

sky

501
00:20:25,029 --> 00:20:21,039
citing specifics viewing distance

502
00:20:27,190 --> 00:20:25,039
unknown altitude likewise unknown citing

503
00:20:29,350 --> 00:20:27,200
duration 5 minutes

504
00:20:32,230 --> 00:20:29,360
object features none

505
00:20:34,789 --> 00:20:32,240
the flight path straight line path and

506
00:20:37,590 --> 00:20:34,799
this object was shaped like a disk

507
00:20:39,270 --> 00:20:37,600
let's hear how our witness puts it

508
00:20:42,710 --> 00:20:39,280
walking the dogs

509
00:20:44,789 --> 00:20:42,720
was super obvious i just looked up

510
00:20:46,390 --> 00:20:44,799
i thought this object was not supposed

511
00:20:49,990 --> 00:20:46,400
to be up there

512
00:20:52,710 --> 00:20:50,000
i just looked up and saw a large round

513
00:20:54,950 --> 00:20:52,720

hazy white light going north this light

514

00:20:56,630 --> 00:20:54,960

was brighter in the middle diffused

515

00:21:00,310 --> 00:20:56,640

light near the edges

516

00:21:02,630 --> 00:21:00,320

it was perfectly round hazy but in a

517

00:21:04,470 --> 00:21:02,640

clear sky there were no clouds

518

00:21:07,750 --> 00:21:04,480

the speed was approximately the same as

519

00:21:09,990 --> 00:21:07,760

a satellite and there was no sound

520

00:21:11,350 --> 00:21:10,000

this thing didn't waver in speed or

521

00:21:14,630 --> 00:21:11,360

direction

522

00:21:18,070 --> 00:21:14,640

my reaction total surprise it didn't

523

00:21:21,430 --> 00:21:18,080

belong up there for some reason i hid

524

00:21:23,029 --> 00:21:21,440

behind a bus and an rv

525

00:21:25,830 --> 00:21:23,039

it made its way north till i couldn't

526

00:21:28,470 --> 00:21:25,840

see it anymore this took several minutes

527

00:21:30,950 --> 00:21:28,480

i could see two airliners to the west

528

00:21:33,190 --> 00:21:30,960

both totally clear i could see their

529

00:21:34,870 --> 00:21:33,200

exhaust trails strobe lights i could

530

00:21:37,990 --> 00:21:34,880

hear jet noise

531

00:21:41,190 --> 00:21:38,000

i could see all the stars clear as sharp

532

00:21:43,750 --> 00:21:41,200

pins of light the moon was bright

533

00:21:46,390 --> 00:21:43,760

the sky was clear and i also saw a

534

00:21:48,630 --> 00:21:46,400

shooting star about two minutes after in

535

00:21:49,750 --> 00:21:48,640

the same region that was clear as could

536

00:21:54,470 --> 00:21:49,760

be

537

00:21:56,390 --> 00:21:54,480

type i'm a science guy

538

00:21:59,110 --> 00:21:56,400

not sure why i'm even filling this

539

00:22:01,510 --> 00:21:59,120

report out usually i can explain

540

00:22:02,549 --> 00:22:01,520

everything i see or i can look it up on

541

00:22:05,350 --> 00:22:02,559

the web

542

00:22:06,390 --> 00:22:05,360

but i'm not sure what to look up in this

543

00:22:10,950 --> 00:22:06,400

case

544

00:22:14,549 --> 00:22:10,960

i don't recall ever being baffled before

545

00:22:16,950 --> 00:22:14,559

yikes we're hearing life-changing event

546

00:22:19,909 --> 00:22:16,960

for this witness cool

547

00:22:21,990 --> 00:22:19,919

still in the very northerly region let's

548

00:22:24,630 --> 00:22:22,000

go to yellowknife in the northwest

549

00:22:25,789 --> 00:22:24,640

territories in canada that's where mufon

550

00:22:27,990 --> 00:22:25,799

case number

551
00:22:31,029 --> 00:22:28,000
85720 took place

552
00:22:34,070 --> 00:22:31,039
this happened back in april on the 18th

553
00:22:36,789 --> 00:22:34,080
of april 2017 but for some reason the

554
00:22:38,630 --> 00:22:36,799
witness just reported it on the 7th of

555
00:22:41,990 --> 00:22:38,640
august this year

556
00:22:44,310 --> 00:22:42,000
summary two lights flying in formation

557
00:22:45,750 --> 00:22:44,320
and then in a straight line before

558
00:22:48,230 --> 00:22:45,760
disappearing

559
00:22:51,669 --> 00:22:48,240
there is a photo you can find it later

560
00:22:57,830 --> 00:22:53,830
citing specifics viewing distance

561
00:22:59,110 --> 00:22:57,840
unknown altitude over 500 feet without

562
00:23:01,190 --> 00:22:59,120
cloud cover

563
00:23:03,990 --> 00:23:01,200

this sighting duration was three minutes

564

00:23:06,390 --> 00:23:04,000

and 30 seconds but the object features

565

00:23:09,350 --> 00:23:06,400

are simply listed as unknown

566

00:23:11,830 --> 00:23:09,360

the flight path a straight line path and

567

00:23:13,430 --> 00:23:11,840

this object was shaped like a circle

568

00:23:14,870 --> 00:23:13,440

here's what happened

569

00:23:17,590 --> 00:23:14,880

i was out taking pictures of the

570

00:23:19,669 --> 00:23:17,600

northern lights when i saw two very

571

00:23:22,149 --> 00:23:19,679

bright lights over my shoulder

572

00:23:23,590 --> 00:23:22,159

i took my camera tried to get these

573

00:23:25,190 --> 00:23:23,600

lights on my camera before they

574

00:23:28,630 --> 00:23:25,200

disappeared

575

00:23:31,190 --> 00:23:28,640

both lights were flying in formation

576
00:23:33,190 --> 00:23:31,200
and then one of them speeded started to

577
00:23:35,110 --> 00:23:33,200
get ahead of the other one

578
00:23:37,430 --> 00:23:35,120
the one that was falling behind then

579
00:23:40,070 --> 00:23:37,440
started to speed up and then the first

580
00:23:42,390 --> 00:23:40,080
light went out when the second one got

581
00:23:45,990 --> 00:23:42,400
up to the first one they both went out

582
00:23:49,110 --> 00:23:46,000
then these lights and also disappeared

583
00:23:51,270 --> 00:23:49,120
yep it seems to be what they do

584
00:23:54,230 --> 00:23:51,280
dropping down to more southerly climbs

585
00:23:56,310 --> 00:23:54,240
now we're in stockton california in the

586
00:23:59,270 --> 00:23:56,320
more northern part of the state it's

587
00:24:01,510 --> 00:23:59,280
case number 85721

588
00:24:05,750 --> 00:24:01,520

the date of this sighting was august 6th

589

00:24:07,430 --> 00:24:05,760

it was reported august 7 2017 in summary

590

00:24:10,390 --> 00:24:07,440

our witness offers

591

00:24:13,750 --> 00:24:10,400

i was taking photos full moon noticed

592

00:24:17,029 --> 00:24:13,760

black object flying toward the moon no

593

00:24:20,789 --> 00:24:17,039

sound no aviation lights

594

00:24:22,549 --> 00:24:20,799

there are photos check them out hmm

595

00:24:25,750 --> 00:24:22,559

the sighting specifics include a viewing

596

00:24:28,549 --> 00:24:25,760

distance unknown an altitude unknown

597

00:24:31,510 --> 00:24:28,559

citing duration three minutes the object

598

00:24:33,430 --> 00:24:31,520

features unknown the flight path was a

599

00:24:36,230 --> 00:24:33,440

path that at some point included

600

00:24:37,990 --> 00:24:36,240

directional change and this object was

601
00:24:40,230 --> 00:24:38,000
shaped like a disk

602
00:24:42,390 --> 00:24:40,240
here's the short report

603
00:24:45,669 --> 00:24:42,400
i was taking photos of the full moon

604
00:24:48,789 --> 00:24:45,679
when i noticed a black object flying

605
00:24:52,310 --> 00:24:48,799
toward the moon and into my shot

606
00:24:55,269 --> 00:24:52,320
it made no sound it had no light

607
00:24:57,510 --> 00:24:55,279
it flew from left to right then down

608
00:24:58,870 --> 00:24:57,520
and then it hovered then it flew back to

609
00:25:00,549 --> 00:24:58,880
the left

610
00:25:02,470 --> 00:25:00,559
when i got home and dumped the photos

611
00:25:05,190 --> 00:25:02,480
into my computer i noticed there

612
00:25:07,590 --> 00:25:05,200
actually were three objects in the

613
00:25:10,310 --> 00:25:07,600

photos and sometimes two

614

00:25:12,549 --> 00:25:10,320

they were flying saucer-shaped

615

00:25:16,470 --> 00:25:12,559

i kept shooting but the objects were no

616

00:25:19,110 --> 00:25:16,480

longer visible they had just vanished

617

00:25:21,750 --> 00:25:19,120

vanishing well that's what we're about

618

00:25:22,789 --> 00:25:21,760

to do temporarily we've got to go

619

00:25:25,110 --> 00:25:22,799

because

620

00:25:27,590 --> 00:25:25,120

that's a wrap thank you for listening to

621

00:25:30,549 --> 00:25:27,600

inception radio network follow today's

622

00:25:32,230 --> 00:25:30,559

broadcast at ufo headline news i heart
