

UFO Headline News Wednesday August 9th, 2017

Listen on

inceptionradionetwork.com

1
00:00:06,309 --> 00:00:03,669
it's wednesday august 9th 2017. you are

2
00:00:08,549 --> 00:00:06,319
listening to inception radio network

3
00:00:13,990 --> 00:00:08,559
voice of the fringe majority this is

4
00:00:19,269 --> 00:00:16,870
coming up in your sky tonight over your

5
00:00:21,750 --> 00:00:19,279
backyard off your balcony wherever you

6
00:00:25,269 --> 00:00:21,760
can get a glimpse of the dark we'll see

7
00:00:27,029 --> 00:00:25,279
the big dipper to polaris mizar and

8
00:00:29,189 --> 00:00:27,039
alcor

9
00:00:31,630 --> 00:00:29,199
tonight notice the two outer stars in

10
00:00:34,630 --> 00:00:31,640
the bowl of the big dipper

11
00:00:37,430 --> 00:00:34,640
earthsky.org tells us those are dube and

12
00:00:40,869 --> 00:00:37,440
merak they always point to polaris the

13
00:00:43,030 --> 00:00:40,879

north star and polaris is yup part of

14

00:00:45,270 --> 00:00:43,040

the little dipper you can see these two

15

00:00:47,990 --> 00:00:45,280

famous star patterns tonight

16

00:00:50,389 --> 00:00:48,000

to find the big dipper this time of year

17

00:00:52,549 --> 00:00:50,399

look toward the northwest in the evening

18

00:00:54,869 --> 00:00:52,559

the big dipper consists of seven

19

00:00:57,510 --> 00:00:54,879

moderately bright stars so it's often

20

00:00:59,430 --> 00:00:57,520

visible on a moonlit night or even in a

21

00:01:01,670 --> 00:00:59,440

light polluted city

22

00:01:03,910 --> 00:01:01,680

if you have a dark night free of

23

00:01:06,310 --> 00:01:03,920

moonlight like those coming up you can

24

00:01:08,870 --> 00:01:06,320

see the eighth star of the big dipper

25

00:01:11,510 --> 00:01:08,880

look carefully at the second star from

26
00:01:13,830 --> 00:01:11,520
the end of the dipper's handle with that

27
00:01:16,390 --> 00:01:13,840
dark sky and good eyesight you'll see

28
00:01:19,109 --> 00:01:16,400
that this star mizar has a nearby

29
00:01:21,830 --> 00:01:19,119
companion called alcor

30
00:01:24,950 --> 00:01:21,840
arabian stargazers referred to mizar and

31
00:01:26,630 --> 00:01:24,960
alcor as the horse and rider these stars

32
00:01:29,109 --> 00:01:26,640
are a good test of the night's viewing

33
00:01:31,830 --> 00:01:29,119
conditions if you can't see alcor there

34
00:01:34,390 --> 00:01:31,840
might be thin clouds up there these two

35
00:01:37,109 --> 00:01:34,400
stars are what's called the naked eye

36
00:01:39,990 --> 00:01:37,119
double star appearing double from our

37
00:01:43,590 --> 00:01:40,000
earthly vantage point but do they orbit

38
00:01:45,830 --> 00:01:43,600

each other astronomers aren't sure

39

00:01:49,190 --> 00:01:45,840

the distances to these stars as to most

40

00:01:52,389 --> 00:01:49,200

stars aren't precisely known if mizar and

41

00:01:54,469 --> 00:01:52,399

alcor do make up a true binary star it's

42

00:01:56,310 --> 00:01:54,479

a very wide one

43

00:01:59,670 --> 00:01:56,320

if they do lie at the same distance from

44

00:02:02,950 --> 00:01:59,680

earth their separation is 0.27 light

45

00:02:05,030 --> 00:02:02,960

years that's in contrast to 8 light

46

00:02:06,149 --> 00:02:05,040

minutes for earth's distance from our

47

00:02:08,550 --> 00:02:06,159

sun

48

00:02:10,710 --> 00:02:08,560

still it's possible that mizar and alcor

49

00:02:13,430 --> 00:02:10,720

could be this far apart and still be

50

00:02:15,990 --> 00:02:13,440

orbiting one another with a very long

51
00:02:17,990 --> 00:02:16,000
orbital period three-quarters of a

52
00:02:20,150 --> 00:02:18,000
million years

53
00:02:22,949 --> 00:02:20,160
that's something breathtaking to ponder

54
00:02:25,670 --> 00:02:22,959
as one gazes upwards here's the bottom

55
00:02:27,110 --> 00:02:25,680
line use the big dipper to find polaris

56
00:02:30,470 --> 00:02:27,120
the north star

57
00:02:32,390 --> 00:02:30,480
also notice the two stars mizr and alcor

58
00:02:36,070 --> 00:02:32,400
in the big dipper's handle

59
00:02:38,150 --> 00:02:36,080
alcor alcor potato potato whatever you

60
00:02:40,630 --> 00:02:38,160
call it it's cool

61
00:02:44,790 --> 00:02:40,640
to this broadcaster this is the very

62
00:02:48,470 --> 00:02:44,800
essence of cool headline slu to offer

63
00:02:51,350 --> 00:02:48,480

free live streaming of outer space

64

00:02:54,390 --> 00:02:51,360

well it's slew and just to bring you up

65

00:02:55,350 --> 00:02:54,400

to speed on what slew is in case you're

66

00:02:58,390 --> 00:02:55,360

wondering

67

00:03:00,630 --> 00:02:58,400

slu is a robotic telescope service that

68

00:03:02,550 --> 00:03:00,640

can be viewed live through a web browser

69

00:03:04,710 --> 00:03:02,560

with flash plug-in

70

00:03:06,869 --> 00:03:04,720

it wasn't the first robotic telescope

71

00:03:09,509 --> 00:03:06,879

but it was the first that offered live

72

00:03:12,149 --> 00:03:09,519

viewing through a telescope via the web

73

00:03:14,390 --> 00:03:12,159

according to wikipedia other online

74

00:03:16,470 --> 00:03:14,400

telescopes traditionally emailed a

75

00:03:18,869 --> 00:03:16,480

picture to the recipient

76

00:03:20,869 --> 00:03:18,879

this site has a patent on their live

77

00:03:24,070 --> 00:03:20,879

image processing method

78

00:03:27,750 --> 00:03:24,080

slu is an online astronomy platform with

79

00:03:30,630 --> 00:03:27,760

live views and telescope rental for a

80

00:03:32,470 --> 00:03:30,640

fee well that's what's changed gentle

81

00:03:35,110 --> 00:03:32,480

listeners observations come from a

82

00:03:37,830 --> 00:03:35,120

global network of telescopes located in

83

00:03:41,830 --> 00:03:37,840

places including spain and chile now

84

00:03:44,789 --> 00:03:41,840

about that name it's spelled s-l-o-o-h

85

00:03:45,789 --> 00:03:44,799

well it seems it's a hack of the words

86

00:03:49,509 --> 00:03:45,799

slew

87

00:03:53,030 --> 00:03:49,519

s-l-e-w which indicates that telescopic

88

00:03:56,309 --> 00:03:53,040

movement modified with o-o-h

89

00:03:59,110 --> 00:03:56,319

ooh to express pleasure and surprise so

90

00:04:02,070 --> 00:03:59,120

there we have it slough and now what slu

91

00:04:04,309 --> 00:04:02,080

has for us is anyone will be able to

92

00:04:06,869 --> 00:04:04,319

enjoy the space sites through slough's

93

00:04:08,630 --> 00:04:06,879

telescopes from the comfort of their own

94

00:04:10,630 --> 00:04:08,640

home free

95

00:04:12,630 --> 00:04:10,640

jeff bennett gets the byline here he

96

00:04:14,869 --> 00:04:12,640

writes it for the science division of

97

00:04:16,870 --> 00:04:14,879

popular popularmechanics.com

98

00:04:20,469 --> 00:04:16,880

the online streaming service that

99

00:04:22,390 --> 00:04:20,479

specializes in outer space slu has just

100

00:04:24,909 --> 00:04:22,400

announced that it will be offering free

101
00:04:27,189 --> 00:04:24,919
streaming of planetary objects and

102
00:04:29,749 --> 00:04:27,199
astronomical phenomena

103
00:04:31,670 --> 00:04:29,759
previously to view objects in the sky

104
00:04:33,909 --> 00:04:31,680
through slus telescopes and streaming

105
00:04:36,150 --> 00:04:33,919
service you had to sign up as a member

106
00:04:37,909 --> 00:04:36,160
on its website which could run you about

107
00:04:40,469 --> 00:04:37,919
five dollars per month

108
00:04:43,590 --> 00:04:40,479
slu operates a global network of

109
00:04:46,629 --> 00:04:43,600
telescopes including multiple on mount

110
00:04:49,270 --> 00:04:46,639
ta day of the canary islands three in la

111
00:04:51,270 --> 00:04:49,280
de jesus chile two locations that have

112
00:04:52,390 --> 00:04:51,280
some of the best viewing conditions in

113
00:04:53,830 --> 00:04:52,400

the world

114

00:04:56,310 --> 00:04:53,840

slu also partners with other

115

00:04:58,230 --> 00:04:56,320

observatories around the planet to live

116

00:05:00,790 --> 00:04:58,240

stream astronomy events through

117

00:05:03,430 --> 00:05:00,800

state-of-the-art telescopes to watch

118

00:05:05,270 --> 00:05:03,440

slu's live streams simply register for

119

00:05:06,870 --> 00:05:05,280

free on its website

120

00:05:09,590 --> 00:05:06,880

they'll ask you if you want to pay for a

121

00:05:12,310 --> 00:05:09,600

membership but you can just click quote

122

00:05:14,310 --> 00:05:12,320

continue exploring the community end

123

00:05:17,430 --> 00:05:14,320

quotes to gain access to the live

124

00:05:18,550 --> 00:05:17,440

streams blog posts and images featured

125

00:05:20,550 --> 00:05:18,560

on slu

126

00:05:22,469 --> 00:05:20,560

however that free registration well

127

00:05:24,629 --> 00:05:22,479

there's a limit to the number of photos

128

00:05:26,629 --> 00:05:24,639

you can have and jay bennett writes that

129

00:05:28,870 --> 00:05:26,639

there's a pretty cool reason to sign up

130

00:05:31,270 --> 00:05:28,880

as a paid member you get to pick where

131

00:05:33,430 --> 00:05:31,280

to point the telescopes if you can swing

132

00:05:35,990 --> 00:05:33,440

that five dollars a month you can get

133

00:05:39,350 --> 00:05:36,000

five reservations per month to point a

134

00:05:42,070 --> 00:05:39,360

telescope where you want a world-class

135

00:05:44,390 --> 00:05:42,080

telescope at that and if you just opt

136

00:05:46,310 --> 00:05:44,400

for that free reservation kick back

137

00:05:49,270 --> 00:05:46,320

enjoy what other folks are excited about

138

00:05:52,230 --> 00:05:49,280

in space and be sure to check slu to

139

00:05:55,350 --> 00:05:52,240

catch a live stream of major astronomy

140

00:05:57,189 --> 00:05:55,360

events for instance this month's total

141

00:05:59,029 --> 00:05:57,199

solar eclipse

142

00:06:02,310 --> 00:05:59,039

we're betting you can see last night's

143

00:06:06,029 --> 00:06:02,320

partial lunar eclipse too if you search

144

00:06:08,390 --> 00:06:06,039

and later just a simple meander over to

145

00:06:11,510 --> 00:06:08,400

ufoheadlinenews.com we'll take you to a

146

00:06:13,749 --> 00:06:11,520

link click that link and enjoy

147

00:06:15,670 --> 00:06:13,759

this broadcaster is enjoying a little

148

00:06:17,670 --> 00:06:15,680

fantasy picturing some other

149

00:06:20,950 --> 00:06:17,680

civilization some other planet with

150

00:06:23,749 --> 00:06:20,960

their version of slu telescopes watching

151

00:06:26,230 --> 00:06:23,759

us right down here on planet earth

152

00:06:28,870 --> 00:06:26,240

they could be watching munich bavaria

153

00:06:31,270 --> 00:06:28,880

germany in fact and that's the setting

154

00:06:33,350 --> 00:06:31,280

for our first sighting of the day it's

155

00:06:34,629 --> 00:06:33,360

mufon case number eight five seven five

156

00:06:37,110 --> 00:06:34,639

five

157

00:06:39,590 --> 00:06:37,120

this is an older case perfect because

158

00:06:42,550 --> 00:06:39,600

it's way back wednesday coming up but no

159

00:06:46,469 --> 00:06:42,560

this isn't our feature it's just another

160

00:06:48,790 --> 00:06:46,479

sighting the date is 2004 august 20th

161

00:06:51,270 --> 00:06:48,800

which brings to mind there's something

162

00:06:53,270 --> 00:06:51,280

of that anniversary sense is it an

163

00:06:55,749 --> 00:06:53,280

offshoot of circadian rhythm

164

00:06:59,029 --> 00:06:55,759

some sort of calendar triggered muscle

165

00:07:01,830 --> 00:06:59,039

memory because this happened in august

166

00:07:04,870 --> 00:07:01,840

on the 20th but years ago and so now

167

00:07:06,950 --> 00:07:04,880

august 8th the witness reports

168

00:07:08,870 --> 00:07:06,960

here is the report citing specifics

169

00:07:11,909 --> 00:07:08,880

include a viewing distance of over one

170

00:07:14,469 --> 00:07:11,919

mile the altitude was treetop citing

171

00:07:16,710 --> 00:07:14,479

duration three hours

172

00:07:19,110 --> 00:07:16,720

the features on the object are unknown

173

00:07:21,110 --> 00:07:19,120

the flight path was stationary and this

174

00:07:24,070 --> 00:07:21,120

object is said to have been shaped in a

175

00:07:25,830 --> 00:07:24,080

star-like manner it seemed to go

176

00:07:27,189 --> 00:07:25,840

something like this

177

00:07:31,029 --> 00:07:27,199

a friend in me looking out of the

178

00:07:34,230 --> 00:07:31,039

windows noticing four lights they looked

179

00:07:36,309 --> 00:07:34,240

in best case as airplane warning lights

180

00:07:38,469 --> 00:07:36,319

lights to warn airplanes from a big

181

00:07:39,990 --> 00:07:38,479

radio antenna which stands in the next

182

00:07:42,629 --> 00:07:40,000

nearer city

183

00:07:44,710 --> 00:07:42,639

except these lights were all white

184

00:07:47,510 --> 00:07:44,720

at the start of our sighting only the

185

00:07:49,110 --> 00:07:47,520

third light counted from above blinked

186

00:07:51,830 --> 00:07:49,120

constantly

187

00:07:54,230 --> 00:07:51,840

an hour or so later only the second

188

00:07:56,550 --> 00:07:54,240

light as counted from above still was

189

00:07:58,469 --> 00:07:56,560

blinking constantly

190

00:08:01,029 --> 00:07:58,479

we noticed no further movements or

191

00:08:04,469 --> 00:08:01,039

sounds but the situation really was

192

00:08:06,790 --> 00:08:04,479

weird and yes fascinating i'm absolutely

193

00:08:08,629 --> 00:08:06,800

sure it wasn't lights on the antenna

194

00:08:11,110 --> 00:08:08,639

because i've lived in this region since

195

00:08:14,230 --> 00:08:11,120

childhood and i know even the further

196

00:08:17,350 --> 00:08:14,240

region many kilometers away very well

197

00:08:20,390 --> 00:08:17,360

sadly no photos were made

198

00:08:21,350 --> 00:08:20,400

no no photos but a very interesting

199

00:08:23,589 --> 00:08:21,360

sighting

200

00:08:26,070 --> 00:08:23,599

hold on we're going to make a big shift

201
00:08:29,270 --> 00:08:26,080
in geolocation here we're swinging

202
00:08:32,469 --> 00:08:29,280
across to morrison colorado this is

203
00:08:34,550 --> 00:08:32,479
mufon case number 85738

204
00:08:37,589 --> 00:08:34,560
the date of this sighting is august 6th

205
00:08:38,709 --> 00:08:37,599
2017. it was reported on the 8th of

206
00:08:40,790 --> 00:08:38,719
august

207
00:08:42,870 --> 00:08:40,800
here's the summary from our witness

208
00:08:45,030 --> 00:08:42,880
i didn't see the object until i got home

209
00:08:47,350 --> 00:08:45,040
and looked at the pictures i took these

210
00:08:50,070 --> 00:08:47,360
pictures camera phone

211
00:08:53,590 --> 00:08:50,080
there is a photo find it later by

212
00:08:55,910 --> 00:08:53,600
heading on over to ufoheadlinenews.com

213
00:08:58,790 --> 00:08:55,920

citing specifics offer us a viewing

214

00:09:00,790 --> 00:08:58,800

distance in this case of over one mile

215

00:09:03,509 --> 00:09:00,800

the altitude was unknown

216

00:09:05,590 --> 00:09:03,519

so were the features on the object the

217

00:09:08,470 --> 00:09:05,600

flight path doesn't apply according to

218

00:09:09,590 --> 00:09:08,480

our witness and this object had a circle

219

00:09:11,910 --> 00:09:09,600

shape

220

00:09:14,790 --> 00:09:11,920

there's weather reported for morrison

221

00:09:17,110 --> 00:09:14,800

colorado which is known by the way to

222

00:09:20,070 --> 00:09:17,120

this broadcaster to have unseasonal

223

00:09:23,350 --> 00:09:20,080

snowfalls a long story the maximum

224

00:09:25,750 --> 00:09:23,360

temperature 73 degrees fahrenheit 23

225

00:09:29,190 --> 00:09:25,760

degrees celsius the low that night was

226

00:09:31,590 --> 00:09:29,200

53 degrees fahrenheit 12 degrees celsius

227

00:09:34,230 --> 00:09:31,600

the maximum visibility was 10 miles and

228

00:09:37,750 --> 00:09:34,240

16 kilometers but the minimum dropped

229

00:09:40,150 --> 00:09:37,760

down to 4 miles six kilometers because

230

00:09:42,389 --> 00:09:40,160

it was raining thundering

231

00:09:44,790 --> 00:09:42,399

here's the report

232

00:09:47,269 --> 00:09:44,800

we have just moved to colorado we wanted

233

00:09:49,670 --> 00:09:47,279

to visit the red rocks area

234

00:09:51,509 --> 00:09:49,680

on the way to the amphitheater i had the

235

00:09:53,990 --> 00:09:51,519

passenger side window rolled down and i

236

00:09:55,910 --> 00:09:54,000

was taking pictures from my cell phone

237

00:09:57,910 --> 00:09:55,920

i was taking random pictures of the

238

00:10:00,070 --> 00:09:57,920

mountains in the distance because i

239

00:10:02,070 --> 00:10:00,080

liked the way the clouds were hanging

240

00:10:03,829 --> 00:10:02,080

over those mountains

241

00:10:06,230 --> 00:10:03,839

it wasn't until we got home and i was

242

00:10:08,550 --> 00:10:06,240

looking through all of our pictures that

243

00:10:12,150 --> 00:10:08,560

i noticed a very bizarre looking

244

00:10:14,550 --> 00:10:12,160

circular object in one of our pictures

245

00:10:17,269 --> 00:10:14,560

i zoomed in on that picture and all i

246

00:10:19,350 --> 00:10:17,279

could say was what is that

247

00:10:21,670 --> 00:10:19,360

i sent a picture to my daughter i sent

248

00:10:24,550 --> 00:10:21,680

another to my friend who's interested in

249

00:10:26,630 --> 00:10:24,560

the unknown and they both said i need to

250

00:10:28,949 --> 00:10:26,640

inquire about this

251
00:10:29,750 --> 00:10:28,959
i am very curious about what this could

252
00:10:34,470 --> 00:10:29,760
be

253
00:10:37,030 --> 00:10:34,480
saw the object but after seeing what i

254
00:10:39,670 --> 00:10:37,040
caught on my camera i'm glad i did not

255
00:10:41,430 --> 00:10:39,680
actually witness this object

256
00:10:42,310 --> 00:10:41,440
because this site has caught me off

257
00:10:45,430 --> 00:10:42,320
guard

258
00:10:47,910 --> 00:10:45,440
the photo caused me to gasp

259
00:10:50,470 --> 00:10:47,920
you'll see why check out that photo

260
00:10:52,389 --> 00:10:50,480
gentle listeners may we have a drum roll

261
00:10:55,030 --> 00:10:52,399
please for the man in the high castle

262
00:10:56,150 --> 00:10:55,040
who has brought us this for way back

263
00:10:57,269 --> 00:10:56,160

wednesday

264

00:11:00,590 --> 00:10:57,279

headline

265

00:11:03,990 --> 00:11:00,600

russian cosmonauts and generals confirm

266

00:11:05,470 --> 00:11:04,000

ufos are real

267

00:11:08,470 --> 00:11:05,480

this is from

268

00:11:10,790 --> 00:11:08,480

ufoevidence.org however as is the case

269

00:11:13,990 --> 00:11:10,800

in almost all of our way back wednesdays

270

00:11:17,829 --> 00:11:14,000

it's a mashup an editing of information

271

00:11:22,230 --> 00:11:17,839

from various sites obscure sites and the

272

00:11:24,949 --> 00:11:22,240

less obscure such as the full wiki.org

273

00:11:26,230 --> 00:11:24,959

here's their synopsis to introduce us to

274

00:11:29,550 --> 00:11:26,240

this theme

275

00:11:32,710 --> 00:11:29,560

the strange tale of the may 18th

276

00:11:36,870 --> 00:11:32,720

1981 event during which cosmonauts

277

00:11:39,670 --> 00:11:36,880

vladimir kovalionock and victor savinki

278

00:11:43,350 --> 00:11:39,680

are approached by an alien spacecraft

279

00:11:46,069 --> 00:11:43,360

and its occupants it's known as the

280

00:11:48,949 --> 00:11:46,079

solute ufo sighting that's spelled

281

00:11:52,949 --> 00:11:48,959

s-a-l-y-u-t

282

00:11:55,430 --> 00:11:52,959

between may 14th and may 18 1981

283

00:11:58,230 --> 00:11:55,440

cosmonauts vladimir kovalionic and

284

00:12:01,990 --> 00:11:58,240

viktor savinky supposedly established a

285

00:12:04,790 --> 00:12:02,000

contact with an object of unknown origin

286

00:12:06,069 --> 00:12:04,800

while working at the solute 6 orbital

287

00:12:09,190 --> 00:12:06,079

station

288

00:12:13,350 --> 00:12:09,200

the two-man crew of the soyuz t4 docked

289

00:12:16,230 --> 00:12:13,360

with solute 6 march 12 1981 and were to

290

00:12:19,110 --> 00:12:16,240

spend 75 days in orbit

291

00:12:21,750 --> 00:12:19,120

on may 14th kovalyanik was conducting a

292

00:12:25,590 --> 00:12:21,760

scientific experiment when he noticed a

293

00:12:28,069 --> 00:12:25,600

round object appearing a kilometer away

294

00:12:29,110 --> 00:12:28,079

he alerted savinki and they observed the

295

00:12:31,430 --> 00:12:29,120

object

296

00:12:34,150 --> 00:12:31,440

kavel yanuk took a camera filmed the

297

00:12:36,310 --> 00:12:34,160

object for 45 minutes

298

00:12:39,190 --> 00:12:36,320

the object seemed to be half the size of

299

00:12:41,509 --> 00:12:39,200

the solute 6 about 8 meters

300

00:12:45,110 --> 00:12:41,519

for the rest of the day

301
00:12:48,230 --> 00:12:45,120
the ufo remained at that position

302
00:12:49,910 --> 00:12:48,240
in the next cosmic day it was only 100

303
00:12:51,750 --> 00:12:49,920
meters away

304
00:12:54,230 --> 00:12:51,760
now that it was closer the cosmonauts

305
00:12:57,030 --> 00:12:54,240
observed it more carefully there was no

306
00:12:58,389 --> 00:12:57,040
sign of a propulsor nothing similar

307
00:13:00,870 --> 00:12:58,399
which could have given the ship an

308
00:13:04,470 --> 00:13:00,880
impulse to get closer

309
00:13:08,230 --> 00:13:04,480
the ship had 24 windows divided between

310
00:13:10,470 --> 00:13:08,240
three levels they could also see three

311
00:13:12,550 --> 00:13:10,480
humanoid creatures

312
00:13:14,870 --> 00:13:12,560
the creatures were wearing helmets but

313
00:13:18,629 --> 00:13:14,880

it was still possible to see their faces

314

00:13:22,310 --> 00:13:18,639

big eyebrows straight noses and big blue

315

00:13:24,710 --> 00:13:22,320

eyes which didn't express any emotions

316

00:13:27,190 --> 00:13:24,720

according to the cosmonauts none of the

317

00:13:29,269 --> 00:13:27,200

muscles on the faces were moving

318

00:13:32,710 --> 00:13:29,279

all of the movements seemed normal

319

00:13:34,790 --> 00:13:32,720

although somewhat mechanical artificial

320

00:13:36,870 --> 00:13:34,800

as the beings appeared to be friendly

321

00:13:39,910 --> 00:13:36,880

the cosmonauts requested permission from

322

00:13:41,430 --> 00:13:39,920

earth to try some visual and physical

323

00:13:49,829 --> 00:13:41,440

contact

324

00:13:52,790 --> 00:13:49,839

denied kovaleonic grabbed and opened a

325

00:13:54,790 --> 00:13:52,800

map of the universe toward the beings

326
00:13:58,150 --> 00:13:54,800
they answered and opened theirs which

327
00:14:00,470 --> 00:13:58,160
was much more precise complex

328
00:14:02,949 --> 00:14:00,480
they pointed to the solar system inside

329
00:14:05,430 --> 00:14:02,959
the milky way quavo yannick then made a

330
00:14:08,550 --> 00:14:05,440
positive sign with his hand

331
00:14:10,389 --> 00:14:08,560
the being answered with the same gesture

332
00:14:12,870 --> 00:14:10,399
and then the spaceship went away very

333
00:14:15,030 --> 00:14:12,880
fast but soon it was back

334
00:14:16,470 --> 00:14:15,040
the spaceship repeated this action six

335
00:14:18,150 --> 00:14:16,480
times in all

336
00:14:20,949 --> 00:14:18,160
with no clear reason

337
00:14:23,269 --> 00:14:20,959
and then using a powerful flashlight

338
00:14:24,710 --> 00:14:23,279

kovaleonic tried to communicate via

339

00:14:27,509 --> 00:14:24,720

morse code

340

00:14:29,910 --> 00:14:27,519

he signaled quote soviet cosmonauts

341

00:14:31,030 --> 00:14:29,920

salute earth visitors and quotes in

342

00:14:33,110 --> 00:14:31,040

russian

343

00:14:35,990 --> 00:14:33,120

the beings didn't understand so

344

00:14:39,030 --> 00:14:36,000

kovaleonic tried to signal quote are you

345

00:14:41,189 --> 00:14:39,040

receiving us end quotes in english but

346

00:14:44,230 --> 00:14:41,199

again there was no answer

347

00:14:49,030 --> 00:14:44,240

he tried then to use binary language he

348

00:14:50,310 --> 00:14:49,040

signaled one zero one one zero one with

349

00:14:52,790 --> 00:14:50,320

a flashlight

350

00:14:54,629 --> 00:14:52,800

the message was not a simple answer to

351

00:14:55,430 --> 00:14:54,639

kovalenic's words

352

00:14:59,110 --> 00:14:55,440

but

353

00:15:01,189 --> 00:14:59,120

368

00:15:34,629 --> 00:15:32,160

the next day the beings were flying

369

00:15:36,949 --> 00:15:34,639

outside their ship the cosmonauts

370

00:15:38,949 --> 00:15:36,959

requested permission to disembark that

371

00:15:42,710 --> 00:15:38,959

permission was denied

372

00:15:45,509 --> 00:15:42,720

on day four the ship disappeared

373

00:15:49,350 --> 00:15:45,519

meanwhile back on planet earth on june

374

00:15:51,269 --> 00:15:49,360

18 1981 the gauze plan called an

375

00:15:53,269 --> 00:15:51,279

extraordinary meeting

376

00:15:55,829 --> 00:15:53,279

well god's plan didn't mean anything to

377

00:15:56,710 --> 00:15:55,839

this broadcaster we looked it up wiki

378

00:15:58,670 --> 00:15:56,720

again

379

00:16:00,389 --> 00:15:58,680

gauze plan

380

00:16:02,389 --> 00:16:00,399

g-o-s-p-l-a-n

381

00:16:04,710 --> 00:16:02,399

it's the state planning committee

382

00:16:06,710 --> 00:16:04,720

commonly known as gauze plan

383

00:16:09,350 --> 00:16:06,720

it's the agency responsible in russia

384

00:16:10,389 --> 00:16:09,360

for central economic planning the soviet

385

00:16:12,949 --> 00:16:10,399

union

386

00:16:15,350 --> 00:16:12,959

established in 1921 and remaining in

387

00:16:17,990 --> 00:16:15,360

existence until the dissolution of the

388

00:16:20,870 --> 00:16:18,000

soviet union in 1991

389

00:16:23,350 --> 00:16:20,880

god's plan had as its main task the

390

00:16:27,110 --> 00:16:23,360

creation and administration of a series

391

00:16:29,350 --> 00:16:27,120

of five-year plans governing the economy

392

00:16:31,829 --> 00:16:29,360

of the ussr

393

00:16:34,949 --> 00:16:31,839

interesting they called an extraordinary

394

00:16:37,269 --> 00:16:34,959

meeting as a result of this encounter

395

00:16:39,509 --> 00:16:37,279

several soviet authorities ufologists

396

00:16:42,150 --> 00:16:39,519

and cosmonauts attended this meeting

397

00:16:45,430 --> 00:16:42,160

kovalyonik and savinki were present and

398

00:16:48,710 --> 00:16:45,440

soyuz iii cosmonaut georgie timofevich

399

00:16:51,269 --> 00:16:48,720

beragovoy also participated kavalyanik

400

00:16:55,990 --> 00:16:51,279

presented the video he filmed with his

401
00:16:57,749 --> 00:16:56,000
camera showing the ufo and its beings

402
00:17:00,790 --> 00:16:57,759
there's an extraordinary video on

403
00:17:02,949 --> 00:17:00,800
youtube we'll post the link no we cannot

404
00:17:04,549 --> 00:17:02,959
vouch for the credibility but it's

405
00:17:06,870 --> 00:17:04,559
fascinating

406
00:17:10,069 --> 00:17:06,880
here's an insertion for this story from

407
00:17:11,270 --> 00:17:10,079
the pegasus research consortium the ufo

408
00:17:14,230 --> 00:17:11,280
files

409
00:17:17,590 --> 00:17:14,240
headline russian cosmonaut sees ufo

410
00:17:18,549 --> 00:17:17,600
while in orbit aboard salute 6 space

411
00:17:21,189 --> 00:17:18,559
station

412
00:17:23,669 --> 00:17:21,199
and there's a sketch it's complicated it

413
00:17:26,230 --> 00:17:23,679

isn't in english it's a sketch drawn by

414

00:17:30,470 --> 00:17:26,240

kovalyanik it's the object he saw in

415

00:17:32,710 --> 00:17:30,480

space may 5th 1981 aboard salute yes

416

00:17:35,029 --> 00:17:32,720

there is a slight discrepancy in the

417

00:17:38,230 --> 00:17:35,039

dates we know the dates as the 14th

418

00:17:41,110 --> 00:17:38,240

through the 18th this one tags may 5th

419

00:17:43,510 --> 00:17:41,120

interesting did it appear earlier

420

00:17:46,150 --> 00:17:43,520

the summary we've heard before cosmonaut

421

00:17:49,110 --> 00:17:46,160

major general vladimir kovalyonic had an

422

00:17:50,870 --> 00:17:49,120

encounter during the salute 6 mission in

423

00:17:52,150 --> 00:17:50,880

1981.

424

00:17:55,669 --> 00:17:52,160

here's a quote

425

00:17:57,750 --> 00:17:55,679

i just made some gymnastic exercises

426

00:18:00,150 --> 00:17:57,760

when i saw in front of me through a

427

00:18:01,350 --> 00:18:00,160

porthole an object which i could not

428

00:18:03,510 --> 00:18:01,360

explain

429

00:18:05,590 --> 00:18:03,520

i saw this object and then something

430

00:18:07,750 --> 00:18:05,600

happened i could not explain

431

00:18:11,110 --> 00:18:07,760

something impossible according to the

432

00:18:13,669 --> 00:18:11,120

laws of physics end quotes

433

00:18:14,950 --> 00:18:13,679

there's more to this quote and here it

434

00:18:17,350 --> 00:18:14,960

is

435

00:18:19,590 --> 00:18:17,360

many cosmonauts have seen phenomena

436

00:18:20,870 --> 00:18:19,600

which are far beyond the experiences of

437

00:18:23,110 --> 00:18:20,880

earth men

438

00:18:24,230 --> 00:18:23,120

for 10 years i never spoke on such

439

00:18:26,230 --> 00:18:24,240

things

440

00:18:30,310 --> 00:18:26,240

the encounter you asked me about on may

441

00:18:31,590 --> 00:18:30,320

5th 1981 at about 6 pm during the salute

442

00:18:33,430 --> 00:18:31,600

mission

443

00:18:35,909 --> 00:18:33,440

at that time we were over the area of

444

00:18:37,830 --> 00:18:35,919

south africa moving towards the area of

445

00:18:41,270 --> 00:18:37,840

the indian ocean

446

00:18:43,669 --> 00:18:41,280

a small object can appear large and far

447

00:18:45,510 --> 00:18:43,679

away in space it is impossible to

448

00:18:48,549 --> 00:18:45,520

determine distances

449

00:18:50,630 --> 00:18:48,559

sometimes it can be the other way around

450

00:18:52,549 --> 00:18:50,640

sometimes a cloud of dust appears like a

451
00:18:55,590 --> 00:18:52,559
large object

452
00:18:57,190 --> 00:18:55,600
anyway i saw this object

453
00:19:00,070 --> 00:18:57,200
and then something happened i could not

454
00:19:03,270 --> 00:19:00,080
explain something impossible

455
00:19:04,549 --> 00:19:03,280
this object had shape elliptical it flew

456
00:19:06,549 --> 00:19:04,559
with us

457
00:19:09,430 --> 00:19:06,559
from a frontal view it looked like it

458
00:19:11,590 --> 00:19:09,440
would rotate in flight direction

459
00:19:13,669 --> 00:19:11,600
it only flew straight

460
00:19:16,549 --> 00:19:13,679
but then a kind of explosion happened

461
00:19:18,150 --> 00:19:16,559
very beautiful to watch an explosion of

462
00:19:20,789 --> 00:19:18,160
golden light

463
00:19:23,029 --> 00:19:20,799

this was the first part then one or two

464

00:19:26,150 --> 00:19:23,039

seconds later a second explosion

465

00:19:29,750 --> 00:19:26,160

followed somewhere else and two spheres

466

00:19:31,830 --> 00:19:29,760

appeared golden and very beautiful

467

00:19:34,710 --> 00:19:31,840

after this explosion i just saw white

468

00:19:37,270 --> 00:19:34,720

smoke and then a cloud-like sphere

469

00:19:39,350 --> 00:19:37,280

before we entered the darkness we flew

470

00:19:41,590 --> 00:19:39,360

through the terminator that twilight

471

00:19:43,909 --> 00:19:41,600

zone between night and day

472

00:19:45,750 --> 00:19:43,919

we flew eastwards and when we entered

473

00:19:47,669 --> 00:19:45,760

the darkness of the earth's shadow i

474

00:19:51,510 --> 00:19:47,679

could not see them any longer

475

00:19:54,630 --> 00:19:51,520

the two spheres never returned

476
00:19:57,350 --> 00:19:54,640
twilight zone perfect now let's really

477
00:19:58,789 --> 00:19:57,360
dig in here is the michael hessmann

478
00:20:00,789 --> 00:19:58,799
article

479
00:20:04,310 --> 00:20:00,799
during his lecture at the international

480
00:20:05,669 --> 00:20:04,320
ufo congress in laughlin nevada march 6

481
00:20:07,669 --> 00:20:05,679
2002

482
00:20:10,789 --> 00:20:07,679
michael hessmann presented filmed

483
00:20:13,830 --> 00:20:10,799
interviews with four soviet cosmonauts

484
00:20:17,029 --> 00:20:13,840
and four high-ranking soviet generals

485
00:20:20,230 --> 00:20:17,039
this is a translation by valerie uverov

486
00:20:21,510 --> 00:20:20,240
st petersburg of the transcript at that

487
00:20:23,270 --> 00:20:21,520
lecture

488
00:20:26,549 --> 00:20:23,280

the first is a statement from cosmonaut

489

00:20:28,630 --> 00:20:26,559

major general vladimir kovalyanic by now

490

00:20:30,950 --> 00:20:28,640

a familiar name and some of this

491

00:20:33,270 --> 00:20:30,960

material will be familiar it's a

492

00:20:34,950 --> 00:20:33,280

previous quote that we just heard but

493

00:20:36,390 --> 00:20:34,960

there's more

494

00:20:38,230 --> 00:20:36,400

here we go

495

00:20:40,549 --> 00:20:38,240

many cosmonauts have seen phenomena

496

00:20:43,270 --> 00:20:40,559

which are far beyond the experiences of

497

00:20:44,710 --> 00:20:43,280

earth men and for 10 years i never spoke

498

00:20:46,549 --> 00:20:44,720

on such things

499

00:20:50,710 --> 00:20:46,559

the encounter you asked me about

500

00:20:51,669 --> 00:20:50,720

happened may 5th 1981 6 pm during the

501
00:20:54,470 --> 00:20:51,679
mission

502
00:20:56,710 --> 00:20:54,480
at that time we were over south africa

503
00:20:58,789 --> 00:20:56,720
moving towards the indian ocean

504
00:21:00,310 --> 00:20:58,799
i had just completed some gymnastic

505
00:21:02,149 --> 00:21:00,320
exercises

506
00:21:05,270 --> 00:21:02,159
when in front of me i saw through a

507
00:21:07,190 --> 00:21:05,280
porthole an object an object which i

508
00:21:09,510 --> 00:21:07,200
could not explain

509
00:21:11,830 --> 00:21:09,520
it is impossible to determine distances

510
00:21:13,909 --> 00:21:11,840
when one is in space there are small

511
00:21:16,230 --> 00:21:13,919
objects that appear to be closer and

512
00:21:18,390 --> 00:21:16,240
vice versa sometimes a cloud of dust

513
00:21:21,590 --> 00:21:18,400

will appear to be an object

514

00:21:23,909 --> 00:21:21,600

this object had shape elliptical it flew

515

00:21:25,590 --> 00:21:23,919

with us and something impossible

516

00:21:26,710 --> 00:21:25,600

according to the laws of physics

517

00:21:28,950 --> 00:21:26,720

happened

518

00:21:32,549 --> 00:21:28,960

from a frontal view this object looked

519

00:21:34,870 --> 00:21:32,559

as though it would rotate while flying

520

00:21:38,070 --> 00:21:34,880

after the beautiful explosion and the

521

00:21:40,710 --> 00:21:38,080

golden light and the golden orbs two of

522

00:21:43,270 --> 00:21:40,720

them appeared i just saw a white smoke

523

00:21:45,510 --> 00:21:43,280

and then a cloud like a sphere

524

00:21:47,750 --> 00:21:45,520

there were explosions there was a very

525

00:21:49,430 --> 00:21:47,760

beautiful golden light that was the

526
00:21:51,590 --> 00:21:49,440
first part

527
00:21:53,830 --> 00:21:51,600
before we entered the darkness we flew

528
00:21:56,789 --> 00:21:53,840
through the terminator that twilight

529
00:21:59,029 --> 00:21:56,799
zone-like area between day and night we

530
00:22:00,710 --> 00:21:59,039
flew eastwards and when we entered the

531
00:22:03,590 --> 00:22:00,720
darkness of the earth's shadow i could

532
00:22:06,149 --> 00:22:03,600
no longer see this object and the two

533
00:22:09,110 --> 00:22:06,159
spheres never returned

534
00:22:13,029 --> 00:22:09,120
here's more from cosmonaut musa manorav

535
00:22:16,230 --> 00:22:13,039
he was on the mirror in 1991 here's his

536
00:22:18,070 --> 00:22:16,240
experience not the same event

537
00:22:19,830 --> 00:22:18,080
it happened during a visit mission when

538
00:22:22,390 --> 00:22:19,840

all of our attention was focused on the

539

00:22:24,549 --> 00:22:22,400

slowly approaching space capsule i was

540

00:22:26,390 --> 00:22:24,559

close to the great porthole and from

541

00:22:27,510 --> 00:22:26,400

there i could see our approaching

542

00:22:29,830 --> 00:22:27,520

visitors

543

00:22:32,549 --> 00:22:29,840

i watched everything very carefully

544

00:22:35,190 --> 00:22:32,559

when the capsule came closer i filmed it

545

00:22:37,510 --> 00:22:35,200

with a professional beta cam camera

546

00:22:39,430 --> 00:22:37,520

suddenly i noticed something below the

547

00:22:41,270 --> 00:22:39,440

spaceship which at first looked like a

548

00:22:43,350 --> 00:22:41,280

kind of antenna

549

00:22:45,750 --> 00:22:43,360

only when i looked closer and analyzed

550

00:22:47,830 --> 00:22:45,760

the situation i realized there was no

551
00:22:49,669 --> 00:22:47,840
antenna at all

552
00:22:51,830 --> 00:22:49,679
but first i thought there was part of

553
00:22:53,190 --> 00:22:51,840
the construction that looked like an

554
00:22:56,230 --> 00:22:53,200
antenna

555
00:22:58,230 --> 00:22:56,240
but then this element started to move

556
00:23:00,630 --> 00:22:58,240
it moved away from the ship

557
00:23:03,350 --> 00:23:00,640
so i grabbed the radio and told them hey

558
00:23:05,430 --> 00:23:03,360
boys you are losing something those boys

559
00:23:07,510 --> 00:23:05,440
we figure were fellow cosmonauts doing

560
00:23:09,270 --> 00:23:07,520
work outside the ship

561
00:23:10,950 --> 00:23:09,280
this of course alarmed them

562
00:23:13,190 --> 00:23:10,960
with all my experience especially with

563
00:23:15,750 --> 00:23:13,200

docking maneuvers in space i can tell

564

00:23:18,310 --> 00:23:15,760

you that especially in this phase simply

565

00:23:19,830 --> 00:23:18,320

nothing can break off at all

566

00:23:22,310 --> 00:23:19,840

if something could have been loose it

567

00:23:24,950 --> 00:23:22,320

would have been torn off before during

568

00:23:26,710 --> 00:23:24,960

the launch the maneuvers the turns all

569

00:23:27,830 --> 00:23:26,720

of these much more energetic flight

570

00:23:29,750 --> 00:23:27,840

phases

571

00:23:31,830 --> 00:23:29,760

now we were just gliding slowly toward

572

00:23:33,350 --> 00:23:31,840

each other without any pressure on the

573

00:23:35,990 --> 00:23:33,360

capsule

574

00:23:38,549 --> 00:23:36,000

and then this something they were losing

575

00:23:40,630 --> 00:23:38,559

started to move downwards

576

00:23:41,990 --> 00:23:40,640

when it flew away it attracted all of

577

00:23:44,789 --> 00:23:42,000

our attention

578

00:23:46,149 --> 00:23:44,799

it looked like it was rotating

579

00:23:47,430 --> 00:23:46,159

it was difficult to estimate its

580

00:23:49,430 --> 00:23:47,440

dimensions

581

00:23:52,870 --> 00:23:49,440

if it was close or far away i could not

582

00:23:54,950 --> 00:23:52,880

say it was in free sight and in space

583

00:23:56,549 --> 00:23:54,960

there's that difficulty in estimating

584

00:23:58,390 --> 00:23:56,559

size and distance

585

00:24:00,950 --> 00:23:58,400

i can only say for sure that it was not

586

00:24:02,710 --> 00:24:00,960

very close since i set the camera for

587

00:24:05,190 --> 00:24:02,720

infinity

588

00:24:06,950 --> 00:24:05,200

if it had just been a screw or something

589

00:24:08,070 --> 00:24:06,960

close to us they would have been out of

590

00:24:10,470 --> 00:24:08,080

focus

591

00:24:13,029 --> 00:24:10,480

the object was quite far away in any

592

00:24:15,269 --> 00:24:13,039

case at least 300 feet since this was

593

00:24:17,350 --> 00:24:15,279

the distance of the space capsule and i

594

00:24:18,950 --> 00:24:17,360

had the impression the object was beyond

595

00:24:22,549 --> 00:24:18,960

the capsule

596

00:24:24,230 --> 00:24:22,559

it is possible that it was a kind of ufo

597

00:24:25,110 --> 00:24:24,240

we can't say with any certainty what it

598

00:24:29,590 --> 00:24:25,120

was

599

00:24:31,510 --> 00:24:29,600

space junk not a rocket part since this

600

00:24:33,350 --> 00:24:31,520

would have been located the space

601
00:24:36,070 --> 00:24:33,360
surveillance ours and the american

602
00:24:38,710 --> 00:24:36,080
locate all the bigger objects in space

603
00:24:41,269 --> 00:24:38,720
they're followed for every minute we

604
00:24:43,190 --> 00:24:41,279
know their position and flight direction

605
00:24:44,870 --> 00:24:43,200
if such an object would have come so

606
00:24:47,510 --> 00:24:44,880
close to the mirror they would have

607
00:24:49,029 --> 00:24:47,520
located it and informed us

608
00:24:51,190 --> 00:24:49,039
i don't think it was a big piece of

609
00:24:53,510 --> 00:24:51,200
space junk not debris

610
00:24:55,269 --> 00:24:53,520
there are lots of those in earth orbit

611
00:24:57,750 --> 00:24:55,279
satellite parts but our space

612
00:25:01,510 --> 00:24:57,760
surveillance locates them and according

613
00:25:04,789 --> 00:25:01,520

to them there was nothing there

614

00:25:08,070 --> 00:25:04,799

the mere mission in 1990 cosmonaut

615

00:25:10,470 --> 00:25:08,080

gennady struckelov reports this

616

00:25:13,029 --> 00:25:10,480

on the last two flights i saw something

617

00:25:15,510 --> 00:25:13,039

during the flight in 1990 i called to

618

00:25:18,149 --> 00:25:15,520

our commander come to the porthole

619

00:25:20,950 --> 00:25:18,159

unfortunately but this is typical we did

620

00:25:22,789 --> 00:25:20,960

not manage to put a film in the camera

621

00:25:25,190 --> 00:25:22,799

quickly enough to film it

622

00:25:27,669 --> 00:25:25,200

we were looking at newfoundland

623

00:25:30,870 --> 00:25:27,679

the atmosphere was completely clear

624

00:25:32,549 --> 00:25:30,880

and suddenly a kind of sphere appeared

625

00:25:35,350 --> 00:25:32,559

i want to compare it with a christmas

626
00:25:36,630 --> 00:25:35,360
tree decoration beautiful shiny

627
00:25:38,710 --> 00:25:36,640
glittering

628
00:25:40,789 --> 00:25:38,720
i saw it for 10 seconds

629
00:25:42,630 --> 00:25:40,799
the sphere appeared in the same way as

630
00:25:44,950 --> 00:25:42,640
it disappeared

631
00:25:46,950 --> 00:25:44,960
what it was what size it had i don't

632
00:25:49,669 --> 00:25:46,960
know there was nothing i could compare

633
00:25:52,470 --> 00:25:49,679
it with i was like struck by lightning

634
00:25:53,510 --> 00:25:52,480
by this phenomenon it was a perfect

635
00:25:55,510 --> 00:25:53,520
sphere

636
00:25:56,789 --> 00:25:55,520
glittering like a christmas tree

637
00:25:58,549 --> 00:25:56,799
decoration

638
00:26:00,630 --> 00:25:58,559

i reported it to the mission control

639

00:26:02,230 --> 00:26:00,640

center but i did not say that i have

640

00:26:04,630 --> 00:26:02,240

seen a ufo

641

00:26:06,789 --> 00:26:04,640

i said i saw a kind of unusual

642

00:26:09,029 --> 00:26:06,799

phenomenon i had to be careful with the

643

00:26:12,549 --> 00:26:09,039

choice of my words i don't want someone

644

00:26:14,710 --> 00:26:12,559

to speculate too much or to misquote me

645

00:26:17,350 --> 00:26:14,720

we don't want to misquote here on way

646

00:26:19,590 --> 00:26:17,360

back wednesdays on ufo headline news at

647

00:26:22,070 --> 00:26:19,600

inception radio network and there's such

648

00:26:24,710 --> 00:26:22,080

a delicious amount of information still

649

00:26:27,590 --> 00:26:24,720

to be served we're going to make this

650

00:26:29,190 --> 00:26:27,600

part two next week leave you hanging

651
00:26:31,350 --> 00:26:29,200
we'll continue with quotes from

652
00:26:34,549 --> 00:26:31,360
cosmonaut general pavel romanovich

653
00:26:36,950 --> 00:26:34,559
popovich of the soviet air force and the

654
00:26:39,430 --> 00:26:36,960
head of the general high command academy

655
00:26:42,630 --> 00:26:39,440
of air defense the former high commander

656
00:26:45,590 --> 00:26:42,640
of air defense for the far east colonel

657
00:26:48,310 --> 00:26:45,600
general gennady reshetnikov and don't

658
00:26:50,630 --> 00:26:48,320
forget the final analysis by michael

659
00:26:53,029 --> 00:26:50,640
hessmann who wrote this will get his

660
00:26:56,149 --> 00:26:53,039
keen insights next week on way back

661
00:26:58,310 --> 00:26:56,159
wednesday now we've gotta fly because

662
00:27:00,710 --> 00:26:58,320
that's a wrap thank you for listening to

663
00:27:03,269 --> 00:27:00,720

inception radio network follow today's

664

00:27:05,990 --> 00:27:03,279

broadcast at ufo headline news or

665

00:27:08,390 --> 00:27:06,000

iheartradio or youtube take care of each
