

 UFO Headline News Weekend of Saturday August 12th/Sunday August 13th, 2017

Listen on

inceptionradionetwork.com

1
00:00:04,070 --> 00:00:02,090
what makes new simply summer's eve

2
00:00:05,900 --> 00:00:04,080
feminine wash different it's simple

3
00:00:07,540 --> 00:00:05,910
seriously that's the answer

4
00:00:09,680 --> 00:00:07,550
it's made with simple ingredients

5
00:00:11,450 --> 00:00:09,690
ingredients that help stop odour and

6
00:00:13,940 --> 00:00:11,460
help you maintain a naturally healthy pH

7
00:00:15,410 --> 00:00:13,950
gently and effectively here's what

8
00:00:18,529 --> 00:00:15,420
simply summer's eve ingredients do not

9
00:00:20,300 --> 00:00:18,539
include harsh chemicals dyes alcohol or

10
00:00:22,490 --> 00:00:20,310
parabens and it comes in light

11
00:00:24,920 --> 00:00:22,500
refreshing scents like Mandarin blossom

12
00:00:26,660 --> 00:00:24,930
and coconut water new simply summer's

13
00:00:29,029 --> 00:00:26,670

eve gentle foaming wash and cleansing

14

00:00:32,569 --> 00:00:29,039

cloths gentle by Nature click the tile

15

00:00:35,000 --> 00:00:32,579

to learn more hello it's the weekend of

16

00:00:38,720 --> 00:00:35,010

Saturday August 11 and Sunday August

17

00:00:40,760 --> 00:00:38,730

12th 2017 you are listening to inception

18

00:00:43,430 --> 00:00:40,770

Radio Network voice of the fringe

19

00:00:47,139 --> 00:00:43,440

majority this is Carol Karl off the

20

00:00:50,779 --> 00:00:47,149

beaten path but first we'll start

21

00:00:52,939 --> 00:00:50,789

operations meteor radiant just a little

22

00:00:55,310 --> 00:00:52,949

bit more before the Perseid meteor

23

00:00:58,099 --> 00:00:55,320

shower is over for this year Bruce

24

00:01:01,189 --> 00:00:58,109

McClure from Earth sky org brings us

25

00:01:03,709 --> 00:01:01,199

this the peak of the annual Perseid

26

00:01:06,109 --> 00:01:03,719

meteor shower is happening this weekend

27

00:01:08,660 --> 00:01:06,119

maybe you've already seen a Percy it or

28

00:01:11,660 --> 00:01:08,670

two streaking across the summer sky if

29

00:01:14,810 --> 00:01:11,670

not try looking late tonight August 12th

30

00:01:16,880 --> 00:01:14,820

hopefully before moonrise more meteors

31

00:01:19,310 --> 00:01:16,890

should be flying closer to dawn on

32

00:01:22,219 --> 00:01:19,320

August 13th but at that point the moon's

33

00:01:24,890 --> 00:01:22,229

light will be interfering try to

34

00:01:27,289 --> 00:01:24,900

minimize the moon to optimize the

35

00:01:29,090 --> 00:01:27,299

Perseid meteor shower all in all this

36

00:01:31,640 --> 00:01:29,100

should be a decent night to watch for

37

00:01:34,910 --> 00:01:31,650

meteors see if you can avoid those city

38

00:01:37,370 --> 00:01:34,920

lights while out there peering into dark

39

00:01:39,920 --> 00:01:37,380

skies try to look for the Perseids

40

00:01:42,140 --> 00:01:39,930

radiant point you don't need to find it

41

00:01:44,389 --> 00:01:42,150

though to enjoy the meteors but it's fun

42

00:01:47,210 --> 00:01:44,399

to find and in this case it's relatively

43

00:01:49,969 --> 00:01:47,220

easy first look for that constellation

44

00:01:52,069 --> 00:01:49,979

Cassiopeia the Queen of the W the M

45

00:01:54,440 --> 00:01:52,079

depending on your point of view which

46

00:01:58,160 --> 00:01:54,450

lords over the northeastern sky on

47

00:02:00,560 --> 00:01:58,170

August evenings then draw that imaginary

48

00:02:03,170 --> 00:02:00,570

line from the star na'vi through the

49

00:02:05,539 --> 00:02:03,180

star luke bah and there will be charts

50

00:02:07,789 --> 00:02:05,549

later at UFO headline news calm to help

51
00:02:10,820 --> 00:02:07,799
you do this and then triple the distance

52
00:02:12,950 --> 00:02:10,830
between the navy rook park and locate

53
00:02:15,530 --> 00:02:12,960
the famous double cluster

54
00:02:18,110 --> 00:02:15,540
in the constellation Perseus that double

55
00:02:20,780 --> 00:02:18,120
cluster nearly marks the Radian point of

56
00:02:24,220 --> 00:02:20,790
the Perseid meteor shower the double

57
00:02:31,090 --> 00:02:24,230
cluster is more formally known as NGC

58
00:02:33,440 --> 00:02:31,100
884 or chai Persei and NGC 869 H Persei

59
00:02:35,300 --> 00:02:33,450
although the double cluster can be seen

60
00:02:38,630 --> 00:02:35,310
with the unaided eye in a dark country

61
00:02:41,200 --> 00:02:38,640
sky the double cluster stars will burst

62
00:02:43,390 --> 00:02:41,210
into view if you use binoculars that

63
00:02:46,220 --> 00:02:43,400

double cluster is thought to be over

64

00:02:48,830 --> 00:02:46,230

7,000 light-years away from us in the

65

00:02:51,980 --> 00:02:48,840

Perseus arm of the Milky Way galaxy the

66

00:02:55,640 --> 00:02:51,990

Sun unlike the double cluster resides

67

00:02:57,410 --> 00:02:55,650

within the Orion Arm therefore when we

68

00:03:00,980 --> 00:02:57,420

view the double cluster we're gazing

69

00:03:03,680 --> 00:03:00,990

through our local spiral arm at the next

70

00:03:07,580 --> 00:03:03,690

spiral arm outward from the galactic

71

00:03:09,980 --> 00:03:07,590

center Wow once as a joke it says here

72

00:03:13,220 --> 00:03:09,990

the American astronaut whose formal name

73

00:03:16,520 --> 00:03:13,230

was Virgil Ivan Gus Grissom we know him

74

00:03:20,210 --> 00:03:16,530

as Gus Grissom nicknamed the center star

75

00:03:24,610 --> 00:03:20,220

of this w or M shaped constellation Navi

76
00:03:27,010 --> 00:03:24,620
na VI Navi is Grissom's middle name Ivan

77
00:03:29,960 --> 00:03:27,020
spelled backwards

78
00:03:32,060 --> 00:03:29,970
bottom line tonight as you watch the

79
00:03:33,920 --> 00:03:32,070
Perseid meteor shower see if you can

80
00:03:36,890 --> 00:03:33,930
star hop from the constellation

81
00:03:39,410 --> 00:03:36,900
Cassiopeia to the double cluster which

82
00:03:42,260 --> 00:03:39,420
nearly coincides with a radiant point of

83
00:03:44,780 --> 00:03:42,270
the Perseid shower that's some star

84
00:03:46,700 --> 00:03:44,790
hopping choreography give it a try

85
00:03:49,550 --> 00:03:46,710
here's a tip from an old dancer don't

86
00:03:52,550 --> 00:03:49,560
look at your feet here's a tasty little

87
00:03:55,850 --> 00:03:52,560
article from tech and science comm with

88
00:03:59,360 --> 00:03:55,860

a byline for Callum Paton it's eclipse

89

00:04:03,140 --> 00:03:59,370

related here's the headline total solar

90

00:04:06,950 --> 00:04:03,150

eclipse New Mexico Chaco Canyon rock art

91

00:04:10,010 --> 00:04:06,960

shows ancient Eclipse it turns out that

92

00:04:12,080 --> 00:04:10,020

nearly 1,000 years ago our ancestors

93

00:04:14,600 --> 00:04:12,090

were just as keen to share news about a

94

00:04:17,660 --> 00:04:14,610

solar eclipse but in the absence of

95

00:04:19,430 --> 00:04:17,670

smart phones or computers they used more

96

00:04:23,659 --> 00:04:19,440

primitive means to depict the stunning

97

00:04:25,550 --> 00:04:23,669

solar event rock art researchers believe

98

00:04:26,210 --> 00:04:25,560

they discovered a rock carving in New

99

00:04:29,330 --> 00:04:26,220

Mexico

100

00:04:31,120 --> 00:04:29,340

Kanyon that represents a total eclipse a

101
00:04:32,960 --> 00:04:31,130
total eclipse that occurred more than

102
00:04:35,360 --> 00:04:32,970
900 years ago

103
00:04:38,960 --> 00:04:35,370
the engraving known as a petroglyph

104
00:04:41,240 --> 00:04:38,970
shows a circle with curved intricate

105
00:04:43,940 --> 00:04:41,250
swirling emissions issuing from it

106
00:04:46,310 --> 00:04:43,950
around the circle believed to depict the

107
00:04:48,470 --> 00:04:46,320
Sun human figures can be seen in

108
00:04:50,990 --> 00:04:48,480
different positions and engaged in

109
00:04:53,690 --> 00:04:51,000
different activities University of

110
00:04:56,360 --> 00:04:53,700
Colorado at Boulder professor Jay McKim

111
00:04:58,460 --> 00:04:56,370
malval has said the circles shown in the

112
00:05:01,430 --> 00:04:58,470
rock art represents the sun's outer

113
00:05:04,100 --> 00:05:01,440

atmosphere known as its corona with the

114

00:05:06,230 --> 00:05:04,110

tangled looped protrusions on its edges

115

00:05:10,510 --> 00:05:06,240

dating it to a total eclipse that

116

00:05:13,010 --> 00:05:10,520

occurred in the region July 11th 1097

117

00:05:15,260 --> 00:05:13,020

Melville made that observation Wednesday

118

00:05:17,570 --> 00:05:15,270

to mark the upcoming total solar eclipse

119

00:05:20,060 --> 00:05:17,580

August 21st that's going to be visible

120

00:05:23,870 --> 00:05:20,070

across a large swath of the United

121

00:05:26,510 --> 00:05:23,880

States he said quote to me it looks like

122

00:05:29,000 --> 00:05:26,520

a circular feature with curved tangles

123

00:05:32,060 --> 00:05:29,010

and structures and quotes Melville said

124

00:05:34,040 --> 00:05:32,070

he continued quote if one looks at a

125

00:05:36,920 --> 00:05:34,050

drawing by a German astronomer of the

126

00:05:40,400 --> 00:05:36,930

1860 total solar eclipse during high

127

00:05:41,719 --> 00:05:40,410

solar activity raised and loops similar

128

00:05:45,409 --> 00:05:41,729

to those depicted in the Chaco

129

00:05:47,510 --> 00:05:45,419

petroglyph are visible and quotes malval

130

00:05:49,340 --> 00:05:47,520

who's attached to boulders Astrophysical

131

00:05:51,860 --> 00:05:49,350

and Planetary Sciences Department and

132

00:05:55,550 --> 00:05:51,870

Jose Vaquero of the University of

133

00:05:57,200 --> 00:05:55,560

Extremadura in cáceres Spain were able

134

00:05:59,350 --> 00:05:57,210

to date the carving on the basis of

135

00:06:04,010 --> 00:05:59,360

these loops that they believed to be

136

00:06:06,320 --> 00:06:04,020

coronal mass ejections CME's these CMEs

137

00:06:09,020 --> 00:06:06,330

are eruptions that can blow billions of

138

00:06:11,630 --> 00:06:09,030

tons of plasma from the Sun at several

139

00:06:13,760 --> 00:06:11,640

million miles per hour during active

140

00:06:16,850 --> 00:06:13,770

solar periods here's another quote from

141

00:06:19,010 --> 00:06:16,860

the study it turns out the Sun was quote

142

00:06:22,190 --> 00:06:19,020

in a period of very high solar activity

143

00:06:25,550 --> 00:06:22,200

at that time consistent with an active

144

00:06:27,350 --> 00:06:25,560

Corona and CME's and quotes this paper

145

00:06:29,270 --> 00:06:27,360

is published in the journal of

146

00:06:32,810 --> 00:06:29,280

Mediterranean archaeology and our

147

00:06:34,880 --> 00:06:32,820

qiyamah tree the two in this study used

148

00:06:38,029 --> 00:06:34,890

several sources to assess the activity

149

00:06:38,810 --> 00:06:38,039

of the Sun around the time of that 1097

150

00:06:40,850 --> 00:06:38,820

eclipse

151

00:06:43,610 --> 00:06:40,860

the data they gathered included

152

00:06:45,530 --> 00:06:43,620

information ancient tree rings from

153

00:06:48,950 --> 00:06:45,540

which they could detect the activity of

154

00:06:51,260 --> 00:06:48,960

cosmic rays etc they also used records

155

00:06:53,780 --> 00:06:51,270

of naked eye observations of sunspots

156

00:06:56,600 --> 00:06:53,790

which go back several thousand years in

157

00:06:58,970 --> 00:06:56,610

China a third method involved looking at

158

00:07:01,250 --> 00:06:58,980

historical data compiled by Northern

159

00:07:04,670 --> 00:07:01,260

Europeans on the annual number of

160

00:07:06,560 --> 00:07:04,680

so-called a rural nights that's when the

161

00:07:09,920 --> 00:07:06,570

northern lights were visible that's an

162

00:07:12,350 --> 00:07:09,930

indication of intense solar activity the

163

00:07:14,750 --> 00:07:12,360

freestanding rock hosting the possible

164

00:07:17,840 --> 00:07:14,760

Eclipse petroglyph it's known as Piedra

165

00:07:20,690 --> 00:07:17,850

del Sol Rock of the Sun it also has a

166

00:07:24,650 --> 00:07:20,700

large spiral petroglyph on its east side

167

00:07:27,800 --> 00:07:24,660

that marks sunrise 15 to 17 days before

168

00:07:29,930 --> 00:07:27,810

the June solstice a triangular shadow

169

00:07:32,480 --> 00:07:29,940

passed by a large rock on the horizon

170

00:07:34,880 --> 00:07:32,490

crosses the center of the spiral at that

171

00:07:37,010 --> 00:07:34,890

time it may have been used to start a

172

00:07:40,280 --> 00:07:37,020

countdown to the summer solstice and

173

00:07:42,530 --> 00:07:40,290

related festivities this rock carving

174

00:07:44,810 --> 00:07:42,540

was first discovered in 1992 by

175

00:07:47,450 --> 00:07:44,820

Professor Malval and then Fort Lewis

176

00:07:50,420 --> 00:07:47,460

professor James judge it was carved by

177

00:07:52,400 --> 00:07:50,430

early Pueblo people Chaco Canyon a

178

00:07:54,410 --> 00:07:52,410

center of Pueblo culture in the

179

00:07:56,780 --> 00:07:54,420

southwest a thousand years ago is

180

00:07:59,300 --> 00:07:56,790

believed by archeologists to have been

181

00:08:02,630 --> 00:07:59,310

populated by several thousand people and

182

00:08:05,630 --> 00:08:02,640

held political sway over an area twice

183

00:08:07,040 --> 00:08:05,640

the size of the state of Ohio we just

184

00:08:09,200 --> 00:08:07,050

can't leave Jim Marrs

185

00:08:12,020 --> 00:08:09,210

here's a headline colleagues offer

186

00:08:16,610 --> 00:08:12,030

tribute to one of a kind North Texas

187

00:08:18,800 --> 00:08:16,620

author this is from WFAA dot-com it's

188

00:08:21,620 --> 00:08:18,810

written by Kevin Reece he writes it in

189

00:08:23,150 --> 00:08:21,630

the first person when I met Jim Marrs

190

00:08:25,610 --> 00:08:23,160

for the first time he agreed to talk

191

00:08:28,400 --> 00:08:25,620

about one of his favorite subjects quote

192

00:08:30,410 --> 00:08:28,410

yeah I think it happened and quotes he

193

00:08:33,219 --> 00:08:30,420

said on the one hundred and twentieth

194

00:08:36,490 --> 00:08:33,229

anniversary of the alien incident of

195

00:08:39,320 --> 00:08:36,500

1897 in the North Texas town of Aurora

196

00:08:41,870 --> 00:08:39,330

it's the infamous tale of an alien

197

00:08:43,850 --> 00:08:41,880

spaceship that allegedly crashed in the

198

00:08:46,760 --> 00:08:43,860

town of Aurora north of Fort Worth and

199

00:08:49,760 --> 00:08:46,770

whose occupant was given quote good

200

00:08:52,370 --> 00:08:49,770

Christian burial and quotes in the town

201

00:08:54,380 --> 00:08:52,380

cemetery decades later

202

00:08:56,540 --> 00:08:54,390

Jim Marrs and a colleague took a metal

203

00:08:59,840 --> 00:08:56,550

detector to that grave and found

204

00:09:01,280 --> 00:08:59,850

readings for possible metal fragments by

205

00:09:02,210 --> 00:09:01,290

the next day the readings had

206

00:09:05,390 --> 00:09:02,220

disappeared

207

00:09:07,580 --> 00:09:05,400

Mars said with a laugh quote he said I

208

00:09:10,340 --> 00:09:07,590

think it was the government and I said I

209

00:09:11,540 --> 00:09:10,350

think you're right and quotes said

210

00:09:14,330 --> 00:09:11,550

former Fort Worth star-telegram

211

00:09:17,420 --> 00:09:14,340

colleague Don Adair ovitch quote the

212

00:09:21,200 --> 00:09:17,430

personification of a good Texas man

213

00:09:23,000 --> 00:09:21,210

honest as the day is long if you looked

214

00:09:25,370 --> 00:09:23,010

up character in the dictionary it would

215

00:09:29,150 --> 00:09:25,380

say Jim Mars he was the personification

216

00:09:30,800 --> 00:09:29,160

of a character and quotes Mars was a

217

00:09:33,290 --> 00:09:30,810

longtime reporter for the Fort Worth

218

00:09:36,260 --> 00:09:33,300

star-telegram he was also the author of

219

00:09:38,990 --> 00:09:36,270

a dozen books including alien agenda and

220

00:09:41,690 --> 00:09:39,000

that book crossfire the plot that killed

221

00:09:43,730 --> 00:09:41,700

Kennedy the conspiracy narrative became

222

00:09:47,180 --> 00:09:43,740

much of the motivation for the Hollywood

223

00:09:48,920 --> 00:09:47,190

movie by Oliver Stone quote Jim was one

224

00:09:51,260 --> 00:09:48,930

of the first people to find his niche

225

00:09:53,600 --> 00:09:51,270

and stick to it and found a great

226

00:09:55,580 --> 00:09:53,610

audience and quotes said Fort Worth

227

00:09:58,490 --> 00:09:55,590

star-telegram columnist Bud Kennedy

228

00:10:00,470 --> 00:09:58,500

Kennedy continues quote what I admire

229

00:10:02,570 --> 00:10:00,480

about Jim is that I don't really believe

230

00:10:05,630 --> 00:10:02,580

everything he wrote but I believe he

231

00:10:07,250 --> 00:10:05,640

knew how to sell books and quotes Jim

232

00:10:10,370 --> 00:10:07,260

Marrs died of a heart attack last week

233

00:10:12,080 --> 00:10:10,380

at the age of 73 tributes poured in over

234

00:10:15,080 --> 00:10:12,090

social media over the weekend from

235

00:10:17,600 --> 00:10:15,090

across the world said Linda Moulton Howe

236

00:10:19,610 --> 00:10:17,610

quote I can't think of him as not being

237

00:10:22,430 --> 00:10:19,620

vibrant and alive somewhere in the

238

00:10:25,130 --> 00:10:22,440

cosmos and quotes Linda and Jim became

239

00:10:27,440 --> 00:10:25,140

friends at various multiple conferences

240

00:10:29,180 --> 00:10:27,450

across the country she admired him for

241

00:10:30,580 --> 00:10:29,190

his dogged determination to get

242

00:10:33,590 --> 00:10:30,590

government officials to answer

243

00:10:36,080 --> 00:10:33,600

long-standing questions and conspiracies

244

00:10:38,270 --> 00:10:36,090

Jim Marrs books have helped open up

245

00:10:41,450 --> 00:10:38,280

minds to facts that were contradictory

246

00:10:44,510 --> 00:10:41,460

to United States policies of denial his

247

00:10:47,390 --> 00:10:44,520

work I think will live on and on because

248

00:10:50,240 --> 00:10:47,400

that is all that Jim Mars wanted to do

249

00:10:52,850 --> 00:10:50,250

to find out the truth and report it in

250

00:10:56,690 --> 00:10:52,860

the face of political agendas policies

251
00:10:59,480 --> 00:10:56,700
of denials and lies and quotes here's a

252
00:11:03,290 --> 00:10:59,490
quote from Jim Mars I believe in a god

253
00:11:06,260 --> 00:11:03,300
but I know there are UFOs colleague

254
00:11:08,660 --> 00:11:06,270
donna dara vich said quote a wild and

255
00:11:11,990 --> 00:11:08,670
wacky guy but a really sweet good old

256
00:11:14,900 --> 00:11:12,000
Texas boy end quotes and says this

257
00:11:17,750 --> 00:11:14,910
writer a good old Texas boy journalist

258
00:11:21,170 --> 00:11:17,760
and author who's influenced and whose

259
00:11:24,770 --> 00:11:21,180
countless questions live on to that we

260
00:11:28,190 --> 00:11:24,780
say boy howdy and to the next story we

261
00:11:31,010 --> 00:11:28,200
say Wow here's the headline meet the new

262
00:11:34,340 --> 00:11:31,020
heavyweight champion of dinosaurs

263
00:11:36,950 --> 00:11:34,350

Pat ago Titan well we hope that's how

264

00:11:39,230 --> 00:11:36,960

it's pronounced a Seth Borenstein for

265

00:11:42,740 --> 00:11:39,240

The Associated Press brings us this

266

00:11:45,260 --> 00:11:42,750

article a study proclaims a newly named

267

00:11:48,110 --> 00:11:45,270

species the heavyweight champion of all

268

00:11:51,170 --> 00:11:48,120

dinosaurs making the scary tyrannosaurus

269

00:11:53,060 --> 00:11:51,180

rex look like a munchkin well last

270

00:11:55,820 --> 00:11:53,070

weekend we talked about its munchkin

271

00:11:56,390 --> 00:11:55,830

legs how it couldn't run even if it

272

00:11:59,180 --> 00:11:56,400

wanted to

273

00:12:02,780 --> 00:11:59,190

those little leg bones would snap but

274

00:12:07,550 --> 00:12:02,790

fast-forward to now well ancient fossil

275

00:12:09,980 --> 00:12:07,560

now at 76 tons 69 metric tons the

276

00:12:12,980 --> 00:12:09,990

plant-eating behemoth was as heavy as a

277

00:12:15,680 --> 00:12:12,990

space shuttle the dinosaurs fossils were

278

00:12:18,500 --> 00:12:15,690

found in southern Argentina back in 2012

279

00:12:20,930 --> 00:12:18,510

researchers who examined and dated them

280

00:12:23,090 --> 00:12:20,940

said the long necked creature was the

281

00:12:26,750 --> 00:12:23,100

biggest of a group of large dinosaurs

282

00:12:28,820 --> 00:12:26,760

called titanosaurs quote there was one

283

00:12:31,670 --> 00:12:28,830

small part of the family that went crazy

284

00:12:35,210 --> 00:12:31,680

on size end quotes that's from Diego

285

00:12:37,670 --> 00:12:35,220

Paul of the agiel Fidelio paleontology

286

00:12:39,350 --> 00:12:37,680

museum in argentina he's co-author of

287

00:12:41,600 --> 00:12:39,360

the study published Tuesday in the

288

00:12:45,860 --> 00:12:41,610

289

00:12:49,130 --> 00:12:45,870

B the researchers named the dinosaur Pat

290

00:12:51,410 --> 00:12:49,140

ago Titan may Oram after the Patagonian

291

00:12:55,220 --> 00:12:51,420

region where it was found and the Greek

292

00:12:56,900 --> 00:12:55,230

word Titan which means large that second

293

00:12:59,530 --> 00:12:56,910

name honors a ranch family that hosted

294

00:13:02,300 --> 00:12:59,540

the researchers that would be the Maori

295

00:13:05,720 --> 00:13:02,310

six fossils of the species were studied

296

00:13:09,190 --> 00:13:05,730

and dated to about 100 million years ago

297

00:13:13,220 --> 00:13:09,200

based on ash found around them said Paul

298

00:13:17,210 --> 00:13:13,230

the dinosaur averaged 122 feet long of

299

00:13:19,700 --> 00:13:17,220

37 meters and was nearly 20 feet high 6

300

00:13:21,800 --> 00:13:19,710

meters at the shoulder

301
00:13:23,990 --> 00:13:21,810
cast of the dinosaur skeleton is already

302
00:13:27,080 --> 00:13:24,000
on display at the American Museum of

303
00:13:29,840 --> 00:13:27,090
Natural History it's so big that the

304
00:13:33,890 --> 00:13:29,850
dinosaurs head sticks out into a hallway

305
00:13:35,840 --> 00:13:33,900
at that New York Museum legendary t-rex

306
00:13:37,820 --> 00:13:35,850
and other meat-eaters quote look like

307
00:13:40,190 --> 00:13:37,830
Dwarfs when you put them against one of

308
00:13:42,860 --> 00:13:40,200
these giant titanosaurs and quote said

309
00:13:45,080 --> 00:13:42,870
Paul he continued to quote it's like

310
00:13:48,530 --> 00:13:45,090
when you put an elephant by a lion and

311
00:13:50,750 --> 00:13:48,540
quotes scientists have known titanosaurs

312
00:13:53,420 --> 00:13:50,760
for a while but this is a new species

313
00:13:56,440 --> 00:13:53,430

even a new genus which is a larger

314

00:13:58,490 --> 00:13:56,450

grouping another titanosaur called

315

00:14:01,640 --> 00:13:58,500

Argentinosaurus was previously thought

316

00:14:04,160 --> 00:14:01,650

to be the largest said Paul quote I

317

00:14:06,920 --> 00:14:04,170

don't think they were scary at all they

318

00:14:10,460 --> 00:14:06,930

were probably massive big slow-moving

319

00:14:13,400 --> 00:14:10,470

animals getting up walking around trying

320

00:14:16,010 --> 00:14:13,410

to run it's really challenging for large

321

00:14:18,680 --> 00:14:16,020

animals and quotes he said the big

322

00:14:21,770 --> 00:14:18,690

question how did these dinosaurs get so

323

00:14:24,140 --> 00:14:21,780

big Paul said and researchers are still

324

00:14:26,960 --> 00:14:24,150

studying that but they say it probably

325

00:14:30,260 --> 00:14:26,970

has to do with an explosion of flowering

326

00:14:32,030 --> 00:14:30,270

plants at the time along with a forest

327

00:14:35,330 --> 00:14:32,040

it was like an all-you-can-eat buffet

328

00:14:38,150 --> 00:14:35,340

for these dinosaurs and they just got

329

00:14:40,850 --> 00:14:38,160

bigger here's a quote from University of

330

00:14:42,920 --> 00:14:40,860

Maryland paleontologist Thomas Holtz who

331

00:14:44,990 --> 00:14:42,930

wasn't part of the study a quote it's

332

00:14:48,200 --> 00:14:45,000

hard to argue that this isn't a big deal

333

00:14:51,440 --> 00:14:48,210

when it concerns the probably largest

334

00:14:54,320 --> 00:14:51,450

land animal ever discovered end quote

335

00:14:56,630 --> 00:14:54,330

Kristi curry Rogers a paleontologist at

336

00:14:58,400 --> 00:14:56,640

Macalester College who also was not part

337

00:15:00,890 --> 00:14:58,410

of this study praised the work as

338

00:15:03,500 --> 00:15:00,900

important she said the fact that Pat ago

339

00:15:05,390 --> 00:15:03,510

tightens bones show signs that they

340

00:15:07,660 --> 00:15:05,400

haven't completed their growth quote

341

00:15:10,430 --> 00:15:07,670

means that there are even bigger

342

00:15:14,900 --> 00:15:10,440

dinosaurs out there to discover and

343

00:15:17,150 --> 00:15:14,910

quote yep a big will keep our shovels at

344

00:15:20,030 --> 00:15:17,160

the ready and keep you posted on what

345

00:15:21,860 --> 00:15:20,040

else they can dig up so here it goes

346

00:15:24,230 --> 00:15:21,870

late yesterday afternoon this

347

00:15:27,260 --> 00:15:24,240

broadcasters husband said Oh have you

348

00:15:29,750 --> 00:15:27,270

seen this headline we hadn't said

349

00:15:32,060 --> 00:15:29,760

headline read South Carolina

350

00:15:34,190 --> 00:15:32,070

what makes new simply summer

351

00:15:36,020 --> 00:15:34,200

see feminine wash different it's simple

352

00:15:37,880 --> 00:15:36,030

seriously that's the answer

353

00:15:39,770 --> 00:15:37,890

it's made with simple ingredients

354

00:15:41,540 --> 00:15:39,780

ingredients that help stop odour and

355

00:15:44,060 --> 00:15:41,550

help you maintain a naturally healthy pH

356

00:15:45,530 --> 00:15:44,070

gently and effectively here's what

357

00:15:48,650 --> 00:15:45,540

simply summer's eve ingredients do not

358

00:15:50,420 --> 00:15:48,660

include harsh chemicals dyes alcohol or

359

00:15:52,580 --> 00:15:50,430

parabens and it comes in light

360

00:15:55,040 --> 00:15:52,590

refreshing scents like Mandarin blossom

361

00:15:56,630 --> 00:15:55,050

and coconut water new simply summer's

362

00:15:59,150 --> 00:15:56,640

eve gentle foaming wash and cleansing

363

00:16:02,480 --> 00:15:59,160

cloths gentle by Nature click the tile

364

00:16:05,390 --> 00:16:02,490

to learn more citizens of lizard man

365

00:16:09,560 --> 00:16:05,400

sightings during solar eclipse

366

00:16:11,360 --> 00:16:09,570

well we recognized BGR calm as the

367

00:16:13,760 --> 00:16:11,370

source we recognized the name of

368

00:16:17,210 --> 00:16:13,770

journalist Mike Wayne err we didn't

369

00:16:19,130 --> 00:16:17,220

recognize the content but we did see

370

00:16:22,430 --> 00:16:19,140

that the South Carolina Emergency

371

00:16:25,280 --> 00:16:22,440

Management division was involved in this

372

00:16:28,120 --> 00:16:25,290

and so we found their website we gave

373

00:16:32,150 --> 00:16:28,130

them a call it went something like this

374

00:16:34,010 --> 00:16:32,160

hello I have an interesting request for

375

00:16:36,920 --> 00:16:34,020

some information it's rather a long

376

00:16:40,430 --> 00:16:36,930

story and the woman at the other end

377

00:16:43,570 --> 00:16:40,440

said yes how can I help you and we said

378

00:16:47,000 --> 00:16:43,580

well and we began to read the words

379

00:16:49,580 --> 00:16:47,010

South Carolina warned citizens of lizard

380

00:16:53,000 --> 00:16:49,590

we couldn't get the word lizard man out

381

00:16:55,340 --> 00:16:53,010

before we were met with wonderful hearty

382

00:16:57,500 --> 00:16:55,350

merry laughter from this individual

383

00:16:59,930 --> 00:16:57,510

she was already quite well familiar with

384

00:17:02,720 --> 00:16:59,940

what this has generated by way of buzz

385

00:17:04,939 --> 00:17:02,730

and I asked her if she could give me a

386

00:17:07,850 --> 00:17:04,949

quote to use for the UFO headline news

387

00:17:11,270 --> 00:17:07,860

off the beaten path she laughed again

388

00:17:14,600 --> 00:17:11,280

and deferred me to their PIO the public

389

00:17:17,240 --> 00:17:14,610

information officer so we held and that

390

00:17:21,050 --> 00:17:17,250

we were online with Derek Becker

391

00:17:24,110 --> 00:17:21,060

yep he is the PIO of the South Carolina

392

00:17:27,020 --> 00:17:24,120

emergency management division wonderful

393

00:17:29,630 --> 00:17:27,030

guy charming he laughed he clued me in

394

00:17:32,120 --> 00:17:29,640

on the thought process behind leading

395

00:17:34,610 --> 00:17:32,130

this story of the lizard man warnings

396

00:17:36,170 --> 00:17:34,620

during the solar eclipse it seems they

397

00:17:39,230 --> 00:17:36,180

were sitting around trying to figure how

398

00:17:41,840 --> 00:17:39,240

to deal with the massive numbers that

399

00:17:44,420 --> 00:17:41,850

will be coming to the area yes Derek

400

00:17:45,400 --> 00:17:44,430

Becker confirmed that this area of South

401
00:17:49,180 --> 00:17:45,410
Carolina is

402
00:17:49,810 --> 00:17:49,190
the last stop for totality in the solar

403
00:17:52,750 --> 00:17:49,820
eclipse

404
00:17:55,240 --> 00:17:52,760
they're expecting definite huge numbers

405
00:17:57,760 --> 00:17:55,250
in their area they wanted to everybody

406
00:18:01,330 --> 00:17:57,770
locals included to have some sort of

407
00:18:03,370 --> 00:18:01,340
plan a kind of family meeting type plan

408
00:18:05,680 --> 00:18:03,380
and in fact he said he did receive a

409
00:18:07,510 --> 00:18:05,690
call from a local woman who said she

410
00:18:11,290 --> 00:18:07,520
certainly wasn't afraid of lizard men

411
00:18:13,720 --> 00:18:11,300
but she had used this article to get her

412
00:18:16,360 --> 00:18:13,730
family engaged so they sat down had a

413
00:18:18,310 --> 00:18:16,370

family meeting and they have a plan and

414

00:18:21,280 --> 00:18:18,320

then he mentioned something about

415

00:18:23,890 --> 00:18:21,290

Greenville North Carolina and the

416

00:18:26,290 --> 00:18:23,900

Bigfoot sightings well it's all wrapped

417

00:18:28,600 --> 00:18:26,300

up we found a kind of comprehensive

418

00:18:29,500 --> 00:18:28,610

story that puts it together they go

419

00:18:33,070 --> 00:18:29,510

something like this

420

00:18:35,530 --> 00:18:33,080

headline agencies advised of possible

421

00:18:38,740 --> 00:18:35,540

lizard man and Bigfoot sightings in

422

00:18:41,260 --> 00:18:38,750

South Carolina during Eclipse Brooke

423

00:18:45,100 --> 00:18:41,270

Bunsen got a byline here for the post

424

00:18:47,500 --> 00:18:45,110

and courier she begins amid this solar

425

00:18:49,000 --> 00:18:47,510

eclipses hype which will bring millions

426

00:18:51,130 --> 00:18:49,010

of visitors to dozens of events

427

00:18:53,140 --> 00:18:51,140

happening across the state this month

428

00:18:56,560 --> 00:18:53,150

here's one thing you probably haven't

429

00:18:59,200 --> 00:18:56,570

prepared for a supernatural encounter

430

00:19:00,420 --> 00:18:59,210

luckily several government agencies have

431

00:19:02,800 --> 00:19:00,430

been ahead of the game already

432

00:19:05,470 --> 00:19:02,810

highlighting on social media the

433

00:19:08,620 --> 00:19:05,480

possibility of paranormal activity as

434

00:19:11,920 --> 00:19:08,630

the sky goes dark mid-afternoon August

435

00:19:14,080 --> 00:19:11,930

21st and with the Carolinas history of

436

00:19:16,120 --> 00:19:14,090

lizard man and Bigfoot sightings

437

00:19:18,340 --> 00:19:16,130

residents should be aware of the

438

00:19:20,590 --> 00:19:18,350

possibilities at least the South

439

00:19:23,440 --> 00:19:20,600

Carolina emergency management division

440

00:19:25,510 --> 00:19:23,450

thinks so the agency tweeted a graphic

441

00:19:28,030 --> 00:19:25,520

on Wednesday quote regarding possible

442

00:19:30,640 --> 00:19:28,040

paranormal activity and quotes occurring

443

00:19:33,880 --> 00:19:30,650

during the solar eclipse the agency

444

00:19:36,370 --> 00:19:33,890

explains quote the SCE MD does not know

445

00:19:39,010 --> 00:19:36,380

if lizard man becomes more active during

446

00:19:41,410 --> 00:19:39,020

a solar eclipse but we advise that

447

00:19:44,280 --> 00:19:41,420

residents of Lee and Sumter counties

448

00:19:49,270 --> 00:19:44,290

should remain ever-vigilant end quotes

449

00:19:52,030 --> 00:19:49,280

the lizard man first spotted in 1988 by

450

00:19:54,040 --> 00:19:52,040

Christopher Davis a then 17-year old Lee

451

00:19:55,750 --> 00:19:54,050

County resident that's according to

452

00:19:58,540 --> 00:19:55,760

previous articles in the post and

453

00:20:00,700 --> 00:19:58,550

courier Davis was driving around to

454

00:20:04,900 --> 00:20:00,710

I am one summer morning when he got a

455

00:20:07,090 --> 00:20:04,910

flat tire near scape ore swamp after he

456

00:20:10,150 --> 00:20:07,100

finished changing that tire he claims

457

00:20:11,020 --> 00:20:10,160

that a red eye devil appeared about 30

458

00:20:13,270 --> 00:20:11,030

yards away

459

00:20:15,520 --> 00:20:13,280

Davis was able to get into his car and

460

00:20:18,220 --> 00:20:15,530

drive away as the alleged creature

461

00:20:20,380 --> 00:20:18,230

jumped on the roof he threw the thing

462

00:20:22,900 --> 00:20:20,390

off but said it was able to keep up with

463

00:20:25,510 --> 00:20:22,910

his car at speeds of up to 40 miles per

464

00:20:27,700 --> 00:20:25,520

hour David's story gathered

465

00:20:30,160 --> 00:20:27,710

international attention and reported

466

00:20:33,250 --> 00:20:30,170

Lizardman sightings continued up to as

467

00:20:36,220 --> 00:20:33,260

recently as 2015 according to a story by

468

00:20:37,720 --> 00:20:36,230

the state newspaper even two police

469

00:20:39,940 --> 00:20:37,730

officers said they were convinced that

470

00:20:42,370 --> 00:20:39,950

quote something is out there and quotes

471

00:20:45,610 --> 00:20:42,380

after having an alleged encounter about

472

00:20:47,650 --> 00:20:45,620

a month after Davis's experience NASA

473

00:20:50,470 --> 00:20:47,660

may not be fully in the loop on South

474

00:20:53,500 --> 00:20:50,480

Carolina's Lizardman note Derrick Becker

475

00:20:56,290 --> 00:20:53,510

said to us that the NASA involvement

476
00:20:58,420 --> 00:20:56,300
it's a NASA map they're using and that's

477
00:21:01,390 --> 00:20:58,430
about it but the scientific

478
00:21:04,390 --> 00:21:01,400
visualization Center did publish some

479
00:21:06,160 --> 00:21:04,400
Squatch that's a graphic showing exactly

480
00:21:09,510 --> 00:21:06,170
where one could potentially see the

481
00:21:12,670 --> 00:21:09,520
Eclipse and Bigfoot at the same time

482
00:21:14,590 --> 00:21:12,680
with several overlaps occurring upstate

483
00:21:16,420 --> 00:21:14,600
it's no surprise that the Greenville

484
00:21:19,450 --> 00:21:16,430
Police Department right over the border

485
00:21:22,090 --> 00:21:19,460
warned quote if you see Bigfoot please

486
00:21:24,040 --> 00:21:22,100
do not shoot end quotes that's a

487
00:21:26,770 --> 00:21:24,050
Facebook post Wednesday night that

488
00:21:28,690 --> 00:21:26,780

linked to a 2015 video of an alleged

489

00:21:31,690 --> 00:21:28,700

Bigfoot running through the field of a

490

00:21:34,120 --> 00:21:31,700

nearby town here is the Greenville

491

00:21:36,700 --> 00:21:34,130

Police Department Facebook post from

492

00:21:39,220 --> 00:21:36,710

Tuesday after watching this video from

493

00:21:41,560 --> 00:21:39,230

nearby Boone North Carolina Facebook

494

00:21:43,690 --> 00:21:41,570

followers and friends I think we can say

495

00:21:46,630 --> 00:21:43,700

with some confidence that proof of

496

00:21:48,790 --> 00:21:46,640

Bigfoot still eludes us if you see

497

00:21:50,800 --> 00:21:48,800

Bigfoot please do not shoot at him her

498

00:21:53,130 --> 00:21:50,810

as you'll most likely be wounding a

499

00:21:57,040 --> 00:21:53,140

fun-loving well-intentioned person

500

00:21:59,410 --> 00:21:57,050

sweating in a gorilla costume end quote

501
00:22:02,200 --> 00:21:59,420
so what's the conclusion from all of

502
00:22:04,570 --> 00:22:02,210
this it appears none of these creatures

503
00:22:06,880 --> 00:22:04,580
has ever caused physical harm to a

504
00:22:08,350 --> 00:22:06,890
person so don't fear venturing outdoors

505
00:22:10,450 --> 00:22:08,360
during the Eclipse

506
00:22:11,860 --> 00:22:10,460
Brooke Brunson who writes this ads

507
00:22:14,860 --> 00:22:11,870
though you should follow

508
00:22:18,100 --> 00:22:14,870
safety tips Lizardman or no Lizardman

509
00:22:21,460 --> 00:22:18,110
and she ends so our advice is simply as

510
00:22:24,279 --> 00:22:21,470
the SCE MD puts it if you see something

511
00:22:26,220 --> 00:22:24,289
say something we're gonna swing across

512
00:22:29,710 --> 00:22:26,230
the country now to the city of Baker

513
00:22:34,480 --> 00:22:29,720

California here's the headline alien

514

00:22:37,840 --> 00:22:34,490

fresh Jerky's UFO hotel moves ahead with

515

00:22:41,140 --> 00:22:37,850

building plans yep this goes back a few

516

00:22:42,730 --> 00:22:41,150

years here's the follow-up and this is

517

00:22:45,669 --> 00:22:42,740

from a website we're not familiar with

518

00:22:50,769 --> 00:22:45,679

it's been Zynga comm that spelled b e

519

00:22:53,950 --> 00:22:50,779

and z ing a.com there isn't a byline but

520

00:22:55,630 --> 00:22:53,960

here's the story power up those warp

521

00:22:58,029 --> 00:22:55,640

drives and get ready

522

00:23:01,960 --> 00:22:58,039

after months of revisions and updates

523

00:23:05,049 --> 00:23:01,970

the plans for alien fresh Jerky's fully

524

00:23:08,980 --> 00:23:05,059

immersive UFO hotel designed by luis

525

00:23:10,570 --> 00:23:08,990

romeo were approved August 7th 2017 by

526
00:23:13,029 --> 00:23:10,580
the San Bernardino County Building

527
00:23:15,730 --> 00:23:13,039
Department they even have the permit

528
00:23:17,320 --> 00:23:15,740
number here the attraction is expected

529
00:23:19,630 --> 00:23:17,330
to bring new life and much-needed

530
00:23:22,180 --> 00:23:19,640
tourists to the struggling economy of

531
00:23:23,769 --> 00:23:22,190
Baker California the increased tax

532
00:23:25,810 --> 00:23:23,779
revenue base will bring money to the

533
00:23:27,970 --> 00:23:25,820
county as well as the community for

534
00:23:30,720 --> 00:23:27,980
critical services such as Fire and

535
00:23:33,279 --> 00:23:30,730
Rescue Police and Highway Patrol the

536
00:23:36,370 --> 00:23:33,289
project will also provide a major source

537
00:23:39,700 --> 00:23:36,380
of jobs for the Baker community the

538
00:23:41,350 --> 00:23:39,710

fully immersive UFO spaceship experience

539

00:23:44,590 --> 00:23:41,360

it goes something like this

540

00:23:46,930 --> 00:23:44,600

for families stopping by the UFO Hotel

541

00:23:50,500 --> 00:23:46,940

will feature a fully immersive

542

00:23:51,940 --> 00:23:50,510

experience called the UFO tour where

543

00:23:54,250 --> 00:23:51,950

guests will have the chance to peek

544

00:23:57,130 --> 00:23:54,260

inside the inner workings of a UFO

545

00:24:00,100 --> 00:23:57,140

spaceship the tour includes access to

546

00:24:02,230 --> 00:24:00,110

the warp engine a view into the immense

547

00:24:04,600 --> 00:24:02,240

cargo bay where the crew store their

548

00:24:07,360 --> 00:24:04,610

materials as well as their findings from

549

00:24:11,590 --> 00:24:07,370

Earth and other planets also an

550

00:24:13,450 --> 00:24:11,600

interactive teleportation gate hmm more

551
00:24:15,669 --> 00:24:13,460
details of course will be on the way as

552
00:24:19,720 --> 00:24:15,679
this develops if you want to sleep

553
00:24:22,750 --> 00:24:19,730
inside a UFO no problem the rooms inside

554
00:24:25,450 --> 00:24:22,760
the UFO hotel will be fully decked out

555
00:24:28,029 --> 00:24:25,460
each room is a unique one-of-a-kind

556
00:24:30,789 --> 00:24:28,039
experience unlike anything anyone's ever

557
00:24:33,100 --> 00:24:30,799
seen before visitors will even get a

558
00:24:34,899 --> 00:24:33,110
chance to sleep in the alien crews

559
00:24:37,240 --> 00:24:34,909
quarters if they wish

560
00:24:39,430 --> 00:24:37,250
apart from the rooms that the alien crew

561
00:24:41,860 --> 00:24:39,440
inhabit on a day-to-day basis for proper

562
00:24:44,139 --> 00:24:41,870
operation of the UFO itself there are

563
00:24:46,840 --> 00:24:44,149

plenty of rooms with other specific

564

00:24:48,970 --> 00:24:46,850

functions such as the cargo room the

565

00:24:51,880 --> 00:24:48,980

armory room that's our most personal

566

00:24:53,769 --> 00:24:51,890

favorite by the way the hydroponics room

567

00:24:55,570 --> 00:24:53,779

where all organic and plant life

568

00:24:58,930 --> 00:24:55,580

specimens are kept for the crews

569

00:25:01,240 --> 00:24:58,940

findings and many more a series of

570

00:25:04,060 --> 00:25:01,250

support buildings will be erected

571

00:25:05,769 --> 00:25:04,070

structures from the future some of which

572

00:25:09,659 --> 00:25:05,779

have already been completed as part of

573

00:25:12,880 --> 00:25:09,669

the overall project since May of 2015 a

574

00:25:14,830 --> 00:25:12,890

monumental space robot themed sign has

575

00:25:17,710 --> 00:25:14,840

been finished and construction has been

576

00:25:20,769 --> 00:25:17,720

underway on the new alien warehouse the

577

00:25:23,620 --> 00:25:20,779

time travel station and the alien fresh

578

00:25:25,360 --> 00:25:23,630

jerky space rover the buildings are

579

00:25:28,419 --> 00:25:25,370

expected to be completed by December of

580

00:25:30,310 --> 00:25:28,429

2017 and they'd like to take this

581

00:25:33,279 --> 00:25:30,320

opportunity in the article to thank

582

00:25:34,990 --> 00:25:33,289

everybody involved it's a long list we

583

00:25:38,289 --> 00:25:35,000

won't go there you can find all those

584

00:25:40,659 --> 00:25:38,299

players later at UFO headline news com

585

00:25:43,090 --> 00:25:40,669

should you be so in find and there's

586

00:25:45,909 --> 00:25:43,100

even a website for the hotel itself that

587

00:25:48,039 --> 00:25:45,919

will be there too by link the projects

588

00:25:50,260 --> 00:25:48,049

moving ahead full speed and they're

589

00:25:54,000 --> 00:25:50,270

looking forward to opening in the very

590

00:25:57,580 --> 00:25:54,010

near future what a stop on one's UFO

591

00:26:01,029 --> 00:25:57,590

roadtrip but speaking of trip we've got

592

00:26:02,799 --> 00:26:01,039

a trip on out of here because that's a

593

00:26:05,529 --> 00:26:02,809

wrap thank you for listening to

594

00:26:08,230 --> 00:26:05,539

inception radio network off the beaten

595

00:26:11,289 --> 00:26:08,240

path follow today's broadcast at UFO

596

00:26:13,419 --> 00:26:11,299

headline news calm I Heart Radio YouTube

597

00:26:17,740 --> 00:26:13,429

we're all in this together this is Carol

598

00:26:19,510 --> 00:26:17,750

Carl see you tomorrow what makes new

599

00:26:22,060 --> 00:26:19,520

simply summer's eve feminine wash

600

00:26:22,659 --> 00:26:22,070

different it's simple seriously that's

601
00:26:24,519 --> 00:26:22,669
the answer

602
00:26:26,620 --> 00:26:24,529
it's made with simple ingredients

603
00:26:28,180 --> 00:26:26,630
ingredients that help stop odor and help

604
00:26:30,700 --> 00:26:28,190
you maintain a naturally healthy ph

605
00:26:32,350 --> 00:26:30,710
gently and effectively here's what

606
00:26:32,860 --> 00:26:32,360
simply summer's eve ingredients do not

607
00:26:35,710 --> 00:26:32,870
include

608
00:26:38,110 --> 00:26:35,720
harsh chemicals dyes alcohol or parabens

609
00:26:39,880 --> 00:26:38,120
and it comes in light refreshing scents

610
00:26:42,520 --> 00:26:39,890
like mandarin blossom and coconut water

611
00:26:44,590 --> 00:26:42,530
new simply summer's eve gentle foaming
