Listen on

inceptionradionetwork.com

1
00:00:05,590 --> 00:00:02,790
you are listening to inception radio

2
00:00:08,230 --> 00:00:05,600
network voice of the fringe majority

3
00:00:10,870 --> 00:00:08,240
this is carol carl with ufo headline

4
00:00:17,189 --> 00:00:13,430
tonight you might be able to find the

5
00:00:20,230 --> 00:00:17,199
constellation cepheus cepheus we'll just

6
00:00:22,630 --> 00:00:20,240
stick with what we usually hear cepheus

7
00:00:24,870 --> 00:00:22,640
that represents a king

8
00:00:26,630 --> 00:00:24,880
the constellation is faint but its

9
00:00:29,109 --> 00:00:26,640
distinctive shape makes it easy to

10
00:00:31,109 --> 00:00:29,119
locate if you're looking to the north on

11
00:00:33,270 --> 00:00:31,119
august and september evenings

12
00:00:36,069 --> 00:00:33,280
at nightfall cepheus appears to the

13
00:00:38,869 --> 00:00:36,079

upper right of polaris the north star

14

00:00:41,350 --> 00:00:38,879

then this constellation rotates around

15

00:00:42,630 --> 00:00:41,360

polaris in a counterclockwise direction

16

00:00:44,950 --> 00:00:42,640

during the night

17

00:00:47,190 --> 00:00:44,960

it swirls high over polaris after

18

00:00:49,029 --> 00:00:47,200

midnight and then sweeps to the left

19

00:00:51,670 --> 00:00:49,039

side around dawn

20

00:00:53,910 --> 00:00:51,680

cepheus resembles a stick house that

21

00:00:56,310 --> 00:00:53,920

house we all drew as children and

22

00:00:58,790 --> 00:00:56,320

children today are still drawing the

23

00:00:59,670 --> 00:00:58,800

square for the base triangle for the

24

00:01:01,990 --> 00:00:59,680

roof

25

00:01:05,590 --> 00:01:02,000

in the case of cepheus the tip of the

26
00:01:08,710 --> 00:01:05,600
roof is a star known as gamma cepheii or

27
00:01:11,030 --> 00:01:08,720
area that's spelled e-r-r-a-i

28
00:01:13,750 --> 00:01:11,040
and it points generally northward

29
00:01:16,870 --> 00:01:13,760
oh in the sky though northward well that

30
00:01:18,550 --> 00:01:16,880
always means toward the sky's north pole

31
00:01:21,510 --> 00:01:18,560
or toward polaris

32
00:01:24,149 --> 00:01:21,520
thus the roof of the house in cepheus is

33
00:01:26,469 --> 00:01:24,159
pointing mostly north even though as

34
00:01:29,749 --> 00:01:26,479
darkness falls that means it's pointing

35
00:01:30,469 --> 00:01:29,759
sideways and downward oh are we dizzy

36
00:01:32,390 --> 00:01:30,479
yet

37
00:01:34,710 --> 00:01:32,400
when things come back to normal we can

38
00:01:36,950 --> 00:01:34,720

later consult a sky chart the

39

00:01:38,950 --> 00:01:36,960

constellation cepheus the king will be

40

00:01:41,030 --> 00:01:38,960

right there find your way to

41

00:01:43,510 --> 00:01:41,040

ufoheadlinenews.com

42

00:01:45,749 --> 00:01:43,520

for all kinds of sky charts that show

43

00:01:48,069 --> 00:01:45,759

you the constellation of cepheus the

44

00:01:50,550 --> 00:01:48,079

king in greek mythology cepheus

45

00:01:53,350 --> 00:01:50,560

represents a king of ethiopia

46

00:01:55,109 --> 00:01:53,360

to find cepheus you might want to locate

47

00:01:57,590 --> 00:01:55,119

that more prominent constellation

48

00:02:00,550 --> 00:01:57,600

cassiopeia the queen she'll also help

49

00:02:03,749 --> 00:02:00,560

you steer your cyber sky ship in that

50

00:02:06,389 --> 00:02:03,759

direction so here's the bottom line let

51
00:02:09,029 --> 00:02:06,399
queen cassiopeia show you the way to the

52
00:02:11,510 --> 00:02:09,039
house of cepheus the king

53
00:02:14,470 --> 00:02:11,520
and you can chalk up another success for

54
00:02:17,190 --> 00:02:14,480
spacex here's the headline spacex

55
00:02:21,670 --> 00:02:17,200
successfully launches and recovers

56
00:02:25,589 --> 00:02:21,680
falcon 9 for crs 12. daryl etherington

57
00:02:28,390 --> 00:02:25,599
gets the byline here for techcrunch.com

58
00:02:30,470 --> 00:02:28,400
spacex has successfully launched yet

59
00:02:33,910 --> 00:02:30,480
another rocket this one carrying a

60
00:02:36,150 --> 00:02:33,920
dragon capsule loaded with over 6 400

61
00:02:38,470 --> 00:02:36,160
pounds of cargo destined for the

62
00:02:41,670 --> 00:02:38,480
international space station that makes

63
00:02:44,070 --> 00:02:41,680

an even dozen for iss resupply missions

64

00:02:46,949 --> 00:02:44,080

launched by spacex under the contract to

65

00:02:48,869 --> 00:02:46,959

nasa and this is the most significant

66

00:02:50,470 --> 00:02:48,879

thus far in terms of potential

67

00:02:54,630 --> 00:02:50,480

scientific impact

68

00:02:56,710 --> 00:02:54,640

crs 12's payload was over 75 committed

69

00:02:59,430 --> 00:02:56,720

to hauling equipment and material for

70

00:03:01,750 --> 00:02:59,440

astronauts on board iss but this was

71

00:03:03,750 --> 00:03:01,760

intended more to set the stage for a

72

00:03:06,470 --> 00:03:03,760

range of experiments to be conducted by

73

00:03:08,790 --> 00:03:06,480

researchers on board the iss during this

74

00:03:10,630 --> 00:03:08,800

year and in 2018

75

00:03:12,630 --> 00:03:10,640

there's even something called an ar

76

00:03:14,710 --> 00:03:12,640

system on board designed to help

77

00:03:15,990 --> 00:03:14,720

astronauts improve their general

78

00:03:18,070 --> 00:03:16,000

efficiency

79

00:03:21,030 --> 00:03:18,080

the rocket successfully launched from

80

00:03:23,830 --> 00:03:21,040

nasa's kennedy space center at 12 31 pm

81

00:03:25,830 --> 00:03:23,840

eastern daylight time and dragon

82

00:03:26,949 --> 00:03:25,840

deployed from the second stage as

83

00:03:29,430 --> 00:03:26,959

planned

84

00:03:32,949 --> 00:03:29,440

dragon will rendezvous with the iss on

85

00:03:36,149 --> 00:03:32,959

august 16th for capture by the station's

86

00:03:38,710 --> 00:03:36,159

canadarm ii robotic appendage after

87

00:03:40,869 --> 00:03:38,720

which it will be attached to the rocket

88

00:03:42,550 --> 00:03:40,879

after roughly a month it will return to

89

00:03:44,550 --> 00:03:42,560

earth after leaving the international

90

00:03:47,750 --> 00:03:44,560

space station with about three thousand

91

00:03:49,990 --> 00:03:47,760

pounds of returned cargo on board and

92

00:03:52,149 --> 00:03:50,000

splashed down in the pacific ocean for

93

00:03:53,990 --> 00:03:52,159

recovery there's another reason this

94

00:03:56,390 --> 00:03:54,000

launch was significant aside from the

95

00:03:58,710 --> 00:03:56,400

experimental payload which included a

96

00:04:02,070 --> 00:03:58,720

supercomputer designed to help humans

97

00:04:05,030 --> 00:04:02,080

travel to mars spacex will only use

98

00:04:07,990 --> 00:04:05,040

reused dragon capsules for all future

99

00:04:10,229 --> 00:04:08,000

crs missions the company is announced

100

00:04:12,550 --> 00:04:10,239

and that means this is the last time a

101
00:04:15,270 --> 00:04:12,560
brand new dragon will be used to

102
00:04:16,629 --> 00:04:15,280
resupply the iss if all goes according

103
00:04:18,229 --> 00:04:16,639
to plan

104
00:04:20,629 --> 00:04:18,239
the launch included an attempt to

105
00:04:24,310 --> 00:04:20,639
recover the falcon 9 first stage for

106
00:04:25,270 --> 00:04:24,320
reuse at spacex's land-based lz1 landing

107
00:04:27,510 --> 00:04:25,280
pad

108
00:04:29,270 --> 00:04:27,520
the falcon 9 first returned to earth as

109
00:04:31,990 --> 00:04:29,280
planned and touched down at cape

110
00:04:35,110 --> 00:04:32,000
canaveral roughly nine minutes after

111
00:04:37,749 --> 00:04:35,120
launch here's a delicious segue

112
00:04:40,469 --> 00:04:37,759
a very tasty treat is on its way to

113
00:04:43,189 --> 00:04:40,479

astronauts aboard the space station

114

00:04:44,469 --> 00:04:43,199

trevor mogg gets the byline for digital

115

00:04:45,990 --> 00:04:44,479

trends

116

00:04:48,070 --> 00:04:46,000

astronauts aboard the international

117

00:04:49,749 --> 00:04:48,080

space station are about to take delivery

118

00:04:52,550 --> 00:04:49,759

well they have at the time you're

119

00:04:54,469 --> 00:04:52,560

hearing this delivery of goods from a

120

00:04:56,790 --> 00:04:54,479

dragon capsule following another

121

00:04:59,590 --> 00:04:56,800

successful rocket launched by spacex at

122

00:05:02,950 --> 00:04:59,600

the kennedy space center this particular

123

00:05:04,870 --> 00:05:02,960

6400 pound delivery contains a bundle of

124

00:05:06,950 --> 00:05:04,880

science experiments that include a

125

00:05:08,550 --> 00:05:06,960

number of live mice

126
00:05:10,469 --> 00:05:08,560
but the astronauts probably have their

127
00:05:13,590 --> 00:05:10,479
mind on something else that's been

128
00:05:16,629 --> 00:05:13,600
packed inside the capsule something cold

129
00:05:18,870 --> 00:05:16,639
sweet and really rather tasty something

130
00:05:22,070 --> 00:05:18,880
they don't get much of in space

131
00:05:25,350 --> 00:05:22,080
we're talking ice cream who wants ice

132
00:05:28,390 --> 00:05:25,360
cream oh the unmanned dragon cargo ship

133
00:05:31,029 --> 00:05:28,400
is currently on its way to the iss and

134
00:05:33,350 --> 00:05:31,039
it has arrived of course by now it's

135
00:05:35,749 --> 00:05:33,360
then says trevor mogg who writes this

136
00:05:37,909 --> 00:05:35,759
that all hell could break loose on the

137
00:05:39,990 --> 00:05:37,919
space station as the crew scrambles to

138
00:05:40,870 --> 00:05:40,000

get at the freezer containing this icy

139

00:05:44,150 --> 00:05:40,880

treat

140

00:05:47,029 --> 00:05:44,160

packed into 30 small cups the ice cream

141

00:05:49,590 --> 00:05:47,039

flavors include chocolate vanilla and

142

00:05:51,270 --> 00:05:49,600

birthday cake presumably that particular

143

00:05:54,550 --> 00:05:51,280

one is for newly arrived american

144

00:05:56,790 --> 00:05:54,560

astronaut randolph bresnik randy bresnik

145

00:05:59,110 --> 00:05:56,800

who turns 50 in september

146

00:06:01,670 --> 00:05:59,120

deliveries to the iss of regular ice

147

00:06:04,309 --> 00:06:01,680

cream not that nasty freeze-dried

148

00:06:07,110 --> 00:06:04,319

astronaut ice cream don't happen every

149

00:06:09,510 --> 00:06:07,120

day and so the current space station

150

00:06:11,430 --> 00:06:09,520

crew is in for a real treat as long as

151

00:06:14,150 --> 00:06:11,440

they like ice cream that is

152

00:06:15,830 --> 00:06:14,160

by coincidence or design there's also

153

00:06:17,830 --> 00:06:15,840

another kind of ice cream heading to the

154

00:06:20,469 --> 00:06:17,840

space station aboard the dragon

155

00:06:22,790 --> 00:06:20,479

it's actually a scientific experiment

156

00:06:25,350 --> 00:06:22,800

which is called the cosmic ray

157

00:06:27,749 --> 00:06:25,360

energetics and mass

158

00:06:29,350 --> 00:06:27,759

which nasa is calling

159

00:06:30,390 --> 00:06:29,360

iss

160

00:06:32,070 --> 00:06:30,400

cream

161

00:06:33,909 --> 00:06:32,080

see what they did there

162

00:06:36,469 --> 00:06:33,919

the three-year experiment will measure

163

00:06:38,390 --> 00:06:36,479

the charges of cosmic rays with

164

00:06:41,350 --> 00:06:38,400

collected data helping researchers with

165

00:06:43,909 --> 00:06:41,360

the quote fundamental questions about

166

00:06:45,830 --> 00:06:43,919

origins and histories of cosmic rays

167

00:06:48,230 --> 00:06:45,840

building a stronger understanding of the

168

00:06:50,309 --> 00:06:48,240

basic structure of the universe end

169

00:06:52,469 --> 00:06:50,319

quotes and that's nasa

170

00:06:55,110 --> 00:06:52,479

the last time we heard of iss astronauts

171

00:06:57,510 --> 00:06:55,120

getting excited about food was when they

172

00:06:59,830 --> 00:06:57,520

tried some lettuce that they grew on

173

00:07:01,990 --> 00:06:59,840

board back in 2015.

174

00:07:04,469 --> 00:07:02,000

no the excitement didn't come from their

175

00:07:07,510 --> 00:07:04,479

overriding love for the leafy green

176
00:07:09,749 --> 00:07:07,520
vegetable but instead because it was the

177
00:07:11,670 --> 00:07:09,759
first food grown and harvested right

178
00:07:13,510 --> 00:07:11,680
there on the space station the

179
00:07:15,510 --> 00:07:13,520
lettuce-based meal was part of an

180
00:07:17,749 --> 00:07:15,520
ongoing research to find ways for

181
00:07:19,270 --> 00:07:17,759
astronauts to grow food in space so they

182
00:07:21,430 --> 00:07:19,280
can sustain themselves on future

183
00:07:23,589 --> 00:07:21,440
missions into deep space

184
00:07:26,950 --> 00:07:23,599
it's not clear if nasa is working on an

185
00:07:30,150 --> 00:07:26,960
ice cream maker oh we're just picturing

186
00:07:33,749 --> 00:07:30,160
the good humor man in space all suited

187
00:07:35,510 --> 00:07:33,759
up handing out those eclair bars yum

188
00:07:38,390 --> 00:07:35,520

it's way back wednesday and we'll

189

00:07:41,270 --> 00:07:38,400

continue with our saga of cosmonauts

190

00:07:43,589 --> 00:07:41,280

generals and aliens but first in order

191

00:07:45,510 --> 00:07:43,599

to test the efficacy of our time machine

192

00:07:48,390 --> 00:07:45,520

for today we're going to wander back and

193

00:07:51,110 --> 00:07:48,400

forth our story about the aliens and the

194

00:07:55,189 --> 00:07:51,120

cosmonauts that takes place in 80 and

195

00:07:58,950 --> 00:07:55,199

81. let's go back to 1930 shall we

196

00:08:01,990 --> 00:07:58,960

here's a headline ufo 1930

197

00:08:04,629 --> 00:08:02,000

an alabama family account

198

00:08:05,749 --> 00:08:04,639

well this is cheryl costa so settle back

199

00:08:07,589 --> 00:08:05,759

and enjoy

200

00:08:10,469 --> 00:08:07,599

she writes this for her column new york

201
00:08:13,270 --> 00:08:10,479
skies ufo blog which appears in the

202
00:08:16,629 --> 00:08:13,280
syracuse new times and cheryl writes

203
00:08:18,150 --> 00:08:16,639
this in the first person so here we go

204
00:08:21,110 --> 00:08:18,160
during the four years i've been writing

205
00:08:23,510 --> 00:08:21,120
this blog i've noticed that some ufo

206
00:08:26,230 --> 00:08:23,520
accounts citing accounts seem to be

207
00:08:27,589 --> 00:08:26,240
handed down within families like family

208
00:08:30,150 --> 00:08:27,599
heirlooms

209
00:08:33,029 --> 00:08:30,160
a particular 1930 account caught my eye

210
00:08:34,870 --> 00:08:33,039
because of its heritage aspect the ufo

211
00:08:38,070 --> 00:08:34,880
sighting account happened in the town of

212
00:08:40,389 --> 00:08:38,080
waterloo alabama in lauderdale county in

213
00:08:42,230 --> 00:08:40,399

the late fall of 1930.

214

00:08:44,389 --> 00:08:42,240

first some background

215

00:08:47,030 --> 00:08:44,399

lauderdale county was named in honor of

216

00:08:48,790 --> 00:08:47,040

colonel james lauderdale of tennessee

217

00:08:51,110 --> 00:08:48,800

lauderdale county is located in the

218

00:08:53,190 --> 00:08:51,120

northwestern corner of alabama which

219

00:08:55,269 --> 00:08:53,200

borders tennessee to the north and

220

00:08:57,030 --> 00:08:55,279

mississippi to the west

221

00:08:59,509 --> 00:08:57,040

according to the census the county has

222

00:09:01,509 --> 00:08:59,519

an ancestral mix mostly rooted from all

223

00:09:02,790 --> 00:09:01,519

over the british isles and of course

224

00:09:05,030 --> 00:09:02,800

africa

225

00:09:08,070 --> 00:09:05,040

during the cotton boom of the early and

226
00:09:10,310 --> 00:09:08,080
mid 19th century lauderdale county was

227
00:09:11,269 --> 00:09:10,320
known principally for cotton and textile

228
00:09:13,190 --> 00:09:11,279
mills

229
00:09:15,670 --> 00:09:13,200
in the late 19th century there was

230
00:09:17,190 --> 00:09:15,680
industrialization in the form of an iron

231
00:09:20,070 --> 00:09:17,200
industry

232
00:09:22,310 --> 00:09:20,080
in 1930 the construction activity of the

233
00:09:24,790 --> 00:09:22,320
tennessee valley authority to provide

234
00:09:26,949 --> 00:09:24,800
electrical power to rural areas made

235
00:09:29,509 --> 00:09:26,959
lauderdale county and small towns like

236
00:09:31,590 --> 00:09:29,519
waterloo grow substantially

237
00:09:34,630 --> 00:09:31,600
the population of waterloo was in the

238
00:09:36,870 --> 00:09:34,640

1930s about 497.

239

00:09:38,630 --> 00:09:36,880

during world war ii it peaked to about

240

00:09:42,230 --> 00:09:38,640

524

241

00:09:44,790 --> 00:09:42,240

and presently is only around 200.

242

00:09:48,150 --> 00:09:44,800

enter jesse a present-day adult

243

00:09:49,990 --> 00:09:48,160

grandchild of his ancestral observer he

244

00:09:53,269 --> 00:09:50,000

tells us that his now deceased

245

00:09:56,310 --> 00:09:53,279

grandmother was a teenager in 1930.

246

00:09:58,230 --> 00:09:56,320

jesse quote it was after dark perhaps

247

00:09:59,750 --> 00:09:58,240

around 6 30 p.m

248

00:10:01,910 --> 00:09:59,760

and my grandmother and three other

249

00:10:03,829 --> 00:10:01,920

schoolmates were waiting in a car before

250

00:10:06,070 --> 00:10:03,839

an evening play or musical type

251

00:10:07,829 --> 00:10:06,080

performance at her school

252

00:10:09,829 --> 00:10:07,839

they were a bit early so they waited for

253

00:10:11,509 --> 00:10:09,839

someone to come unlock the school's door

254

00:10:13,430 --> 00:10:11,519

end quotes

255

00:10:15,509 --> 00:10:13,440

it's important to understand

256

00:10:17,430 --> 00:10:15,519

that at the time in rural alabama there

257

00:10:20,150 --> 00:10:17,440

was no such thing as street lights in

258

00:10:22,870 --> 00:10:20,160

remote areas where schools were located

259

00:10:24,790 --> 00:10:22,880

jesse continues quote shortly after

260

00:10:27,509 --> 00:10:24,800

pulling up by the school the occupants

261

00:10:29,350 --> 00:10:27,519

of the car saw a bright light that

262

00:10:31,269 --> 00:10:29,360

looked like a ball of fire

263

00:10:32,389 --> 00:10:31,279

my grandmother was in the back driver's

264

00:10:33,910 --> 00:10:32,399

side of the car

265

00:10:36,949 --> 00:10:33,920

and she said the light was approaching

266

00:10:38,949 --> 00:10:36,959

the car from the rear passenger side

267

00:10:41,110 --> 00:10:38,959

they all assumed it was a flashlight or

268

00:10:43,110 --> 00:10:41,120

a car headlight of someone to come and

269

00:10:46,150 --> 00:10:43,120

open the door to the school

270

00:10:49,110 --> 00:10:46,160

the light got brighter and it filled the

271

00:10:50,790 --> 00:10:49,120

car interior with light it was so bright

272

00:10:53,269 --> 00:10:50,800

my grandmother said it was as bright as

273

00:10:54,949 --> 00:10:53,279

daylight end quotes

274

00:10:56,870 --> 00:10:54,959

over the years the woman shared her

275

00:10:58,310 --> 00:10:56,880

consistent description with her children

276

00:11:01,190 --> 00:10:58,320

and grandchildren

277

00:11:04,389 --> 00:11:01,200

quote it was a bright glowing ball about

278

00:11:07,269 --> 00:11:04,399

the size of a basketball it floated by

279

00:11:09,750 --> 00:11:07,279

our car about two or three feet away

280

00:11:12,710 --> 00:11:09,760

jesse said and she recounted how quote

281

00:11:15,110 --> 00:11:12,720

it moved forward on the rear passenger

282

00:11:16,150 --> 00:11:15,120

side from about four feet above the

283

00:11:19,110 --> 00:11:16,160

ground

284

00:11:22,710 --> 00:11:19,120

it moved at the speed of a slow walk and

285

00:11:24,230 --> 00:11:22,720

it was completely silent end quotes

286

00:11:25,990 --> 00:11:24,240

jesse said his grandmother and her

287

00:11:28,710 --> 00:11:26,000

friend were so terrified that neither of

288

00:11:31,269 --> 00:11:28,720

them would get out of the car but as the

289

00:11:33,590 --> 00:11:31,279

story goes she related that the two boys

290

00:11:35,829 --> 00:11:33,600

in the car got out and followed the

291

00:11:37,110 --> 00:11:35,839

glowing ball of fire as it meandered

292

00:11:39,030 --> 00:11:37,120

into the woods

293

00:11:41,430 --> 00:11:39,040

the boys came back after a few minutes

294

00:11:44,230 --> 00:11:41,440

and said it had disappeared

295

00:11:44,949 --> 00:11:44,240

quote the sighting perplexed all who saw

296

00:11:46,870 --> 00:11:44,959

it

297

00:11:48,949 --> 00:11:46,880

later as adults her friends recalled the

298

00:11:51,750 --> 00:11:48,959

citing event many times over the

299

00:11:55,910 --> 00:11:51,760

following years end quote said jesse

300

00:11:59,670 --> 00:11:55,920

from 2001 to 2015 lauderdale county

301
00:12:03,269 --> 00:11:59,680
alabama reported a total of 28 ufo

302
00:12:05,430 --> 00:12:03,279
sightings mind you reported sightings

303
00:12:07,990 --> 00:12:05,440
23 of them were reported in the regional

304
00:12:10,870 --> 00:12:08,000
area of florence waterloo is part of the

305
00:12:13,990 --> 00:12:10,880
florence muscle shoals metropolitan area

306
00:12:14,710 --> 00:12:14,000
also known as the shoals

307
00:12:17,590 --> 00:12:14,720
so

308
00:12:20,629 --> 00:12:17,600
following cheryl we'll keep our eyes on

309
00:12:23,350 --> 00:12:20,639
that area small population lots of

310
00:12:25,910 --> 00:12:23,360
reports and that generational siding

311
00:12:27,829 --> 00:12:25,920
factor always interesting there are

312
00:12:29,350 --> 00:12:27,839
those who guess it's something in the

313
00:12:32,389 --> 00:12:29,360

dna

314

00:12:35,750 --> 00:12:32,399

here's a sighting from erie pennsylvania

315

00:12:38,389 --> 00:12:35,760

well they only spell it with one e e r i

316

00:12:39,710 --> 00:12:38,399

e but it still sounds like eerie the

317

00:12:42,870 --> 00:12:39,720

date of this sighting

318

00:12:45,190 --> 00:12:42,880

319

00:12:49,829 --> 00:12:45,200

it wasn't reported until august 11th

320

00:12:52,230 --> 00:12:49,839

321

00:12:56,310 --> 00:12:52,240

here's the summary and it is what they

322

00:12:58,069 --> 00:12:56,320

call a memory flogger folks tv and

323

00:12:59,750 --> 00:12:58,079

cultural reference wise

324

00:13:03,190 --> 00:12:59,760

here's what the witness says

325

00:13:05,670 --> 00:13:03,200

settle down to watch barney miller on tv

326
00:13:06,629 --> 00:13:05,680
noticed lights through windows got up to

327
00:13:09,750 --> 00:13:06,639
sea

328
00:13:11,590 --> 00:13:09,760
and vehicle turned southwest and hovered

329
00:13:13,829 --> 00:13:11,600
for a half an hour

330
00:13:16,949 --> 00:13:13,839
went back to watch barney miller show

331
00:13:18,870 --> 00:13:16,959
was over i know what i saw

332
00:13:21,509 --> 00:13:18,880
and we're thinking he's referencing the

333
00:13:23,269 --> 00:13:21,519
sky not the tv show

334
00:13:26,949 --> 00:13:23,279
citing specifics give us a viewing

335
00:13:29,430 --> 00:13:26,959
distance of 101 feet to 500 feet the

336
00:13:32,470 --> 00:13:29,440
altitude 500 feet or less

337
00:13:35,590 --> 00:13:32,480
the sighting duration 31 minutes

338
00:13:38,629 --> 00:13:35,600

this object seemed to feature windows

339

00:13:41,750 --> 00:13:38,639

the flight path was hovering then path

340

00:13:44,790 --> 00:13:41,760

a path then hovering and this object was

341

00:13:47,110 --> 00:13:44,800

shaped like a disk meteorology wasn't an

342

00:13:49,110 --> 00:13:47,120

impact at all there's none reported here

343

00:13:51,350 --> 00:13:49,120

but here's the sighting

344

00:13:53,990 --> 00:13:51,360

it was in 1975

345

00:13:56,150 --> 00:13:54,000

november a thursday night a school night

346

00:13:59,189 --> 00:13:56,160

i was settling down to watch barney

347

00:14:01,670 --> 00:13:59,199

miller that sitcom yep a detective show

348

00:14:02,550 --> 00:14:01,680

we had a large bay window in our front

349

00:14:05,509 --> 00:14:02,560

room

350

00:14:07,269 --> 00:14:05,519

i was distracted by what looked to me

351
00:14:08,230 --> 00:14:07,279
like headlights shining through the bay

352
00:14:10,389 --> 00:14:08,240
window

353
00:14:13,430 --> 00:14:10,399
and i thought to myself who would be on

354
00:14:15,269 --> 00:14:13,440
the gas line trail this time of night

355
00:14:17,750 --> 00:14:15,279
that trail was a popular four-wheeler

356
00:14:20,310 --> 00:14:17,760
trail snowmobile trail however there

357
00:14:22,710 --> 00:14:20,320
wasn't any snow on the ground

358
00:14:24,310 --> 00:14:22,720
i got up to see what was going on

359
00:14:27,590 --> 00:14:24,320
i was watching this coming from the

360
00:14:29,509 --> 00:14:27,600
northeast it turned toward the southwest

361
00:14:33,590 --> 00:14:29,519
that's when it turned that i could see

362
00:14:35,750 --> 00:14:33,600
the broad side of a red glowing object

363
00:14:38,629 --> 00:14:35,760

i went onto the front porch and observed

364

00:14:40,550 --> 00:14:38,639

this craft floating across our fields

365

00:14:43,269 --> 00:14:40,560

the fields of our farm

366

00:14:45,750 --> 00:14:43,279

it was red glowing and i could see a

367

00:14:49,990 --> 00:14:45,760

craft through that glow

368

00:14:51,750 --> 00:14:50,000

it had windows and beings on board three

369

00:14:53,030 --> 00:14:51,760

i watched the object until it floated

370

00:14:55,750 --> 00:14:53,040

out of sight

371

00:14:58,150 --> 00:14:55,760

i was pretty distraught i was shaken

372

00:14:59,990 --> 00:14:58,160

the summer's biggest duo are feeling the

373

00:15:02,069 --> 00:15:00,000

love give up that wheel have you ever

374

00:15:04,550 --> 00:15:02,079

said please please why are we always

375

00:15:06,629 --> 00:15:04,560

yelling ryan reynolds raves sam jackson

376

00:15:08,550 --> 00:15:06,639

as obnoxious in every way

377

00:15:10,069 --> 00:15:08,560

can't someone just taser them samuel l

378

00:15:12,470 --> 00:15:10,079

jackson calls ryan reynolds

379

00:15:13,910 --> 00:15:12,480

extraordinarily annoying not a fan how

380

00:15:16,310 --> 00:15:13,920

about we never speak at this again and

381

00:15:18,230 --> 00:15:16,320

selma hayek proclaims there is one thing

382

00:15:20,230 --> 00:15:18,240

you should know sam and ryan need to

383

00:15:22,550 --> 00:15:20,240

stop flirting and get a room already

384

00:15:24,470 --> 00:15:22,560

what really the hitman's bodyguard rated

385

00:15:26,949 --> 00:15:24,480

r under 17 not admitted without parent

386

00:15:28,790 --> 00:15:26,959

now playing however the chill from the

387

00:15:30,629 --> 00:15:28,800

crisp november night finally made me

388

00:15:31,990 --> 00:15:30,639

realize i was cold and i'd better go

389

00:15:34,550 --> 00:15:32,000

back inside

390

00:15:37,750 --> 00:15:34,560

i was completely mesmerized i couldn't

391

00:15:39,910 --> 00:15:37,760

seem to take my eyes off this object

392

00:15:42,710 --> 00:15:39,920

but i went back inside the house and

393

00:15:45,350 --> 00:15:42,720

barney miller was over so i had watched

394

00:15:47,269 --> 00:15:45,360

this object for half an hour

395

00:15:49,430 --> 00:15:47,279

i know what i saw and nothing can

396

00:15:51,910 --> 00:15:49,440

convince me it was anything but a craft

397

00:15:54,710 --> 00:15:51,920

that originated somewhere else off

398

00:15:56,790 --> 00:15:54,720

planet thank you for your time

399

00:15:58,629 --> 00:15:56,800

i've only told this story to very close

400

00:16:01,110 --> 00:15:58,639

friends and that was when i realized

401
00:16:03,910 --> 00:16:01,120
that i was losing a lot by telling the

402
00:16:07,030 --> 00:16:03,920
story but i'm too old to care what other

403
00:16:08,790 --> 00:16:07,040
people think take it for what it was

404
00:16:11,430 --> 00:16:08,800
oh well said

405
00:16:13,590 --> 00:16:11,440
and losing a lot by telling the story we

406
00:16:15,749 --> 00:16:13,600
have to get rid of that attitude this

407
00:16:17,189 --> 00:16:15,759
witness came forward finally after all

408
00:16:19,030 --> 00:16:17,199
these years what a good feeling that

409
00:16:20,870 --> 00:16:19,040
must be

410
00:16:22,949 --> 00:16:20,880
and what a fascinating feeling it must

411
00:16:26,629 --> 00:16:22,959
have been for the russian cosmonauts to

412
00:16:29,269 --> 00:16:26,639
relate their strange happenings in space

413
00:16:32,069 --> 00:16:29,279

it's way back wednesday part two

414

444

00:17:48,470 --> 00:17:45,840

so we're back in picture this if you

445

00:17:50,870 --> 00:17:48,480

will gentle listeners a lecture at the

international ufo congress in laughlin

447

00:17:56,789 --> 00:17:54,559

nevada march 6 2002. michael hessman is

448

00:17:59,590 --> 00:17:56,799

presenting filmed interviews with four

449

00:18:02,630 --> 00:17:59,600

soviet cosmonauts and four high-ranking

450

00:18:05,510 --> 00:18:02,640

soviet generals we'll hear from a couple

451
00:18:07,750 --> 00:18:05,520
of said generals and cosmonauts

452
00:18:11,270 --> 00:18:07,760
a brief recap

453
00:18:13,750 --> 00:18:11,280
between may 14th and may 18 1981

454
00:18:17,110 --> 00:18:13,760
cosmonauts vladimir kavlianik and viktor

455
00:18:20,549 --> 00:18:17,120
savinki supposedly established contact

456
00:18:21,669 --> 00:18:20,559
with an object of unknown origin and its

457
00:18:23,350 --> 00:18:21,679
occupants

458
00:18:26,310 --> 00:18:23,360
at the time the cosmonauts were working

459
00:18:28,470 --> 00:18:26,320
on board the solute 6 orbital station

460
00:18:30,390 --> 00:18:28,480
this object seemed to be half the size

461
00:18:32,230 --> 00:18:30,400
of the solute six which was about eight

462
00:18:35,029 --> 00:18:32,240
meters in size

463
00:18:37,270 --> 00:18:35,039

that ufo remained in position for the

464

00:18:40,070 --> 00:18:37,280

rest of the day and the next day was

465

00:18:42,070 --> 00:18:40,080

only a hundred meters away at that

466

00:18:44,150 --> 00:18:42,080

distance the cosmonauts were able to get

467

00:18:47,029 --> 00:18:44,160

a better look they couldn't see anything

468

00:18:48,950 --> 00:18:47,039

that indicated some source of propulsion

469

00:18:51,909 --> 00:18:48,960

nothing they could detect would have

470

00:18:56,070 --> 00:18:51,919

given the ship an impulse to get closer

471

00:18:58,789 --> 00:18:56,080

this ship had 24 windows on three levels

472

00:19:01,190 --> 00:18:58,799

and the cosmonauts could also see three

473

00:19:03,669 --> 00:19:01,200

humanoid creatures inside creatures

474

00:19:07,029 --> 00:19:03,679

wearing helmets but they could still see

475

00:19:09,430 --> 00:19:07,039

their faces big eyebrows straight noses

476

00:19:11,909 --> 00:19:09,440

and big blue eyes eyes that didn't

477

00:19:14,789 --> 00:19:11,919

express any emotion in fact according to

478

00:19:17,270 --> 00:19:14,799

the cosmonauts none of the muscles of

479

00:19:19,669 --> 00:19:17,280

the faces of these creatures was moving

480

00:19:22,470 --> 00:19:19,679

all their movements seemed normal but

481

00:19:25,909 --> 00:19:22,480

somewhat mechanical artificial

482

00:19:27,750 --> 00:19:25,919

so contacting their version of houston

483

00:19:29,830 --> 00:19:27,760

the cosmonauts requested permission from

484

00:19:30,950 --> 00:19:29,840

earth to try some visual and physical

485

00:19:40,710 --> 00:19:30,960

contact

486

00:19:43,029 --> 00:19:40,720

cosmonaut cavaliana grabbed and opened a

487

00:19:44,230 --> 00:19:43,039

map of the universe and held it toward

488

00:19:46,470 --> 00:19:44,240

the beings

489

00:19:48,150 --> 00:19:46,480

they answered by opening their map which

490

00:19:49,430 --> 00:19:48,160

seemed to be much more precise more

491

00:19:51,750 --> 00:19:49,440

complete

492

00:19:55,029 --> 00:19:51,760

the occupants of the other craft pointed

493

00:19:57,350 --> 00:19:55,039

to the solar system inside the milky way

494

00:20:00,150 --> 00:19:57,360

and then kovalyanik made a positive sign

495

00:20:02,070 --> 00:20:00,160

with his hands the beings answered with

496

00:20:04,310 --> 00:20:02,080

the same gesture

497

00:20:06,789 --> 00:20:04,320

and then the spaceship went away very

498

00:20:09,110 --> 00:20:06,799

fast but soon came back

499

00:20:12,150 --> 00:20:09,120

the ship repeated this action six times

500

00:20:14,390 --> 00:20:12,160

in all with no clear reason and then at

501
00:20:16,630 --> 00:20:14,400
that point using a powerful flashlight

502
00:20:19,270 --> 00:20:16,640
kovalyanik tried to communicate via

503
00:20:21,750 --> 00:20:19,280
morse code he signaled quote soviet

504
00:20:23,430 --> 00:20:21,760
cosmonauts salute earth visitors and

505
00:20:26,150 --> 00:20:23,440
quotes in russian

506
00:20:28,789 --> 00:20:26,160
no understanding there so he tried the

507
00:20:30,149 --> 00:20:28,799
signal in english saying are you

508
00:20:32,310 --> 00:20:30,159
receiving us

509
00:20:35,590 --> 00:20:32,320
no answer again

510
00:20:39,270 --> 00:20:35,600
and then he tried to use binary language

511
00:20:41,750 --> 00:20:39,280
he signaled one zero one one zero one

512
00:20:44,149 --> 00:20:41,760
with his flashlight and astonishing the

513
00:20:47,270 --> 00:20:44,159

message in return wasn't a simple answer

514

00:20:49,590 --> 00:20:47,280

it used a logarithm to the base used by

515

00:20:52,710 --> 00:20:49,600

kovalianik the next day the beings were

516

00:20:55,110 --> 00:20:52,720

flying outside the ship again upon

517

00:20:57,350 --> 00:20:55,120

requesting permission to disembark that

518

00:21:00,230 --> 00:20:57,360

permission was denied by the fourth day

519

00:21:02,470 --> 00:21:00,240

the ship simply vanished the upshot of

520

00:21:07,190 --> 00:21:02,480

this extraordinary contact was that on

521

00:21:09,909 --> 00:21:07,200

june 18th 1981 the gaz plan the economic

522

00:21:12,870 --> 00:21:09,919

council of the then soviet union called

523

00:21:15,830 --> 00:21:12,880

an extraordinary meeting several soviet

524

00:21:18,470 --> 00:21:15,840

authorities ufologists and cosmonauts

525

00:21:21,110 --> 00:21:18,480

attended that meeting and kovaleonic

526
00:21:25,270 --> 00:21:21,120
presented the video he filmed 45 minutes

527
00:21:27,750 --> 00:21:25,280
long showing the ufo and its beings

528
00:21:29,430 --> 00:21:27,760
there were other sightings by cosmonauts

529
00:21:32,149 --> 00:21:29,440
such as things that appear to be

530
00:21:35,590 --> 00:21:32,159
beautiful christmas tree decorations

531
00:21:38,149 --> 00:21:35,600
seen over newfoundland bright shiny

532
00:21:40,390 --> 00:21:38,159
glittering there were two golden spheres

533
00:21:42,630 --> 00:21:40,400
seen by another cosmonaut let's hear

534
00:21:45,669 --> 00:21:42,640
from soviet air force cosmonaut general

535
00:21:48,390 --> 00:21:45,679
pavel romanovich popovich

536
00:21:50,310 --> 00:21:48,400
quote i had only one personal encounter

537
00:21:52,230 --> 00:21:50,320
with something unknown something we

538
00:21:54,950 --> 00:21:52,240

could not explain

539

00:21:57,510 --> 00:21:54,960

this was in 1978 on a flight from

540

00:22:01,110 --> 00:21:57,520

washington to moscow we were flying at

541

00:22:03,190 --> 00:22:01,120

an altitude of 30 600 feet and suddenly

542

00:22:06,230 --> 00:22:03,200

when i looked out through the windshield

543

00:22:08,950 --> 00:22:06,240

i noticed something flying about 4 500

544

00:22:12,310 --> 00:22:08,960

feet above us on a parallel course

545

00:22:14,390 --> 00:22:12,320

a glowing white equilateral triangle

546

00:22:16,870 --> 00:22:14,400

resembling a sail

547

00:22:18,870 --> 00:22:16,880

since our speed was 600 miles per hour

548

00:22:21,669 --> 00:22:18,880

that triangle must have had a speed of

549

00:22:22,950 --> 00:22:21,679

at least 900 miles per hour since it

550

00:22:24,870 --> 00:22:22,960

overtook us

551
00:22:27,270 --> 00:22:24,880
i called the attention of all passengers

552
00:22:29,830 --> 00:22:27,280
and crew members about this object

553
00:22:31,909 --> 00:22:29,840
we tried to find out what it was but all

554
00:22:34,549 --> 00:22:31,919
attempts to identify it as something

555
00:22:36,950 --> 00:22:34,559
known ultimately failed

556
00:22:39,110 --> 00:22:36,960
this object looked like a ufo and it

557
00:22:41,029 --> 00:22:39,120
remains unidentified

558
00:22:43,190 --> 00:22:41,039
it did not look like an airplane since

559
00:22:45,270 --> 00:22:43,200
it was a perfect triangle

560
00:22:46,470 --> 00:22:45,280
at that time no airplane had such a

561
00:22:48,950 --> 00:22:46,480
shape

562
00:22:51,190 --> 00:22:48,960
and now a quote from the head of the

563
00:22:54,149 --> 00:22:51,200

general zhukov high command academy of

564

00:22:56,710 --> 00:22:54,159

air defense in tivor russia former high

565

00:22:58,549 --> 00:22:56,720

commander of air defense for the far

566

00:23:01,590 --> 00:22:58,559

east a man by the name of colonel

567

00:23:03,909 --> 00:23:01,600

general gennady reshetnikov

568

00:23:06,149 --> 00:23:03,919

he says quote yes there were

569

00:23:08,470 --> 00:23:06,159

particularly mysterious occurrences

570

00:23:11,270 --> 00:23:08,480

during military practice

571

00:23:14,149 --> 00:23:11,280

at times targets appeared on which

572

00:23:15,669 --> 00:23:14,159

fighters in the air or radar set for

573

00:23:16,710 --> 00:23:15,679

anti-aircraft missiles trained

574

00:23:18,710 --> 00:23:16,720

themselves

575

00:23:20,950 --> 00:23:18,720

but it was difficult to determine what

576

00:23:23,510 --> 00:23:20,960

these were exactly

577

00:23:26,390 --> 00:23:23,520

there were situations when a target

578

00:23:28,710 --> 00:23:26,400

answered to the signal i'm your plane we

579

00:23:31,029 --> 00:23:28,720

have such a system of inquiry

580

00:23:32,390 --> 00:23:31,039

or the other way around it wouldn't

581

00:23:35,669 --> 00:23:32,400

answer at all

582

00:23:38,390 --> 00:23:35,679

it was considered incomprehensible

583

00:23:40,470 --> 00:23:38,400

moreover i'm aware of situations when as

584

00:23:42,549 --> 00:23:40,480

planes which had been sent into the air

585

00:23:44,310 --> 00:23:42,559

were opening their side sites they

586

00:23:46,230 --> 00:23:44,320

discovered a target

587

00:23:48,310 --> 00:23:46,240

but upon reaching the determined

588

00:23:50,149 --> 00:23:48,320

distance at which the automatic weapon

589

00:23:53,029 --> 00:23:50,159

system which dispatched the missile

590

00:23:54,549 --> 00:23:53,039

should have operated suddenly the system

591

00:23:58,070 --> 00:23:54,559

broke down

592

00:24:00,070 --> 00:23:58,080

everything disappeared even the target

593

00:24:01,990 --> 00:24:00,080

or maybe the plane warped through space

594

00:24:03,990 --> 00:24:02,000

to another position

595

00:24:06,390 --> 00:24:04,000

they would conduct another attack again

596

00:24:08,789 --> 00:24:06,400

the same result these were interesting

597

00:24:10,630 --> 00:24:08,799

and mysterious occurrences

598

00:24:12,789 --> 00:24:10,640

we try to take into account the problem

599

00:24:15,350 --> 00:24:12,799

of ufos quite a bit of interesting

600

00:24:17,750 --> 00:24:15,360

material has appeared and it's perfectly

601
00:24:19,669 --> 00:24:17,760
obvious that this needs to be studied in

602
00:24:21,750 --> 00:24:19,679
earnest and that it's necessary to

603
00:24:22,870 --> 00:24:21,760
address the question on a governmental

604
00:24:24,549 --> 00:24:22,880
level

605
00:24:27,190 --> 00:24:24,559
right now people are more and more

606
00:24:31,110 --> 00:24:27,200
inclined to believe that ufos exist

607
00:24:33,669 --> 00:24:31,120
but what stands behind this he continues

608
00:24:36,710 --> 00:24:33,679
a bit earlier at the end of the 1970s

609
00:24:38,710 --> 00:24:36,720
and the start of the 1980s i flew into

610
00:24:41,029 --> 00:24:38,720
the arctic circle to the place where

611
00:24:44,470 --> 00:24:41,039
eyewitnesses had seen some kind of

612
00:24:46,630 --> 00:24:44,480
cigar-shaped apparatus with portholes

613
00:24:48,070 --> 00:24:46,640

this was how the press in this area was

614

00:24:50,549 --> 00:24:48,080

describing it

615

00:24:52,950 --> 00:24:50,559

this happened in the region of norsk

616

00:24:55,190 --> 00:24:52,960

the object was seen several times

617

00:24:57,029 --> 00:24:55,200

traces were discovered but no one

618

00:24:57,830 --> 00:24:57,039

conducted any kind of serious research

619

00:24:59,990 --> 00:24:57,840

there

620

00:25:02,149 --> 00:25:00,000

when this became known to me i flew

621

00:25:04,230 --> 00:25:02,159

there in a helicopter in order to

622

00:25:07,029 --> 00:25:04,240

examine the place we even traveled out

623

00:25:08,789 --> 00:25:07,039

to the same place an extra time but we

624

00:25:09,909 --> 00:25:08,799

didn't succeed in noticing anything

625

00:25:12,549 --> 00:25:09,919

special

626
00:25:14,310 --> 00:25:12,559
concerning the sending of airplanes in

627
00:25:16,470 --> 00:25:14,320
particularly when we were in the

628
00:25:19,110 --> 00:25:16,480
framework of the soviet union it's

629
00:25:21,669 --> 00:25:19,120
necessary to say that battle duties were

630
00:25:24,230 --> 00:25:21,679
kept up rigidly and we sent up planes

631
00:25:26,230 --> 00:25:24,240
without all kinds of restrictions

632
00:25:28,549 --> 00:25:26,240
now we send up planes very deliberately

633
00:25:31,029 --> 00:25:28,559
on account of economic conditions

634
00:25:33,269 --> 00:25:31,039
but personally i many times ordered

635
00:25:36,230 --> 00:25:33,279
aircraft to determine if something is a

636
00:25:38,070 --> 00:25:36,240
ufo or not they were unidentified

637
00:25:39,830 --> 00:25:38,080
targets for us

638
00:25:41,830 --> 00:25:39,840

yes there have been several cases in

639

00:25:43,990 --> 00:25:41,840

which they turned out to be mysterious

640

00:25:46,710 --> 00:25:44,000

unknown targets on which the different

641

00:25:49,430 --> 00:25:46,720

detecting systems reacted including our

642

00:25:51,110 --> 00:25:49,440

land sea and airspace surveillance

643

00:25:54,390 --> 00:25:51,120

sometimes our weapon systems were

644

00:25:56,950 --> 00:25:54,400

activated because of these objects and

645

00:25:59,350 --> 00:25:56,960

then there's this testimony from major

646

00:26:02,950 --> 00:25:59,360

general vasily alexey of russian air

647

00:26:05,029 --> 00:26:02,960

force space communications center moscow

648

00:26:07,990 --> 00:26:05,039

if we are speaking about my military

649

00:26:10,149 --> 00:26:08,000

capacity it was in the 1980s when i

650

00:26:12,310 --> 00:26:10,159

happened to be serving not in a regular

651
00:26:14,070 --> 00:26:12,320
unit but in the central staff

652
00:26:16,470 --> 00:26:14,080
working in the central staff entails

653
00:26:18,630 --> 00:26:16,480
close links with the units in the field

654
00:26:20,789 --> 00:26:18,640
and a large amount of traveling there

655
00:26:23,510 --> 00:26:20,799
were many reports from unit levels

656
00:26:25,909 --> 00:26:23,520
regarding a large number of observations

657
00:26:27,750 --> 00:26:25,919
of unexplained phenomena

658
00:26:29,590 --> 00:26:27,760
you should bear in mind that at the time

659
00:26:31,590 --> 00:26:29,600
much was simply denied

660
00:26:33,110 --> 00:26:31,600
the subject was to a large extent a

661
00:26:35,750 --> 00:26:33,120
closed one

662
00:26:38,310 --> 00:26:35,760
on the ground however people wanted to

663
00:26:39,590 --> 00:26:38,320

find out what was what to separate truth

664

00:26:41,190 --> 00:26:39,600

from fiction

665

00:26:43,350 --> 00:26:41,200

in that period a lot of things were

666

00:26:46,070 --> 00:26:43,360

presented in such a way that you lost

667

00:26:48,310 --> 00:26:46,080

the desire to believe

668

00:26:50,470 --> 00:26:48,320

accordingly an attitude to the subject

669

00:26:53,750 --> 00:26:50,480

became established where not only was

670

00:26:56,710 --> 00:26:53,760

there no desire to believe it was even

671

00:26:58,390 --> 00:26:56,720

undesirable to believe

672

00:27:01,029 --> 00:26:58,400

nevertheless the information coming in

673

00:27:03,110 --> 00:27:01,039

from the bases was of interest if only

674

00:27:05,350 --> 00:27:03,120

because it was not merely talk and

675

00:27:07,430 --> 00:27:05,360

rumors there were eyewitnesses to

676

00:27:09,669 --> 00:27:07,440

phenomena and that was reflected in

677

00:27:10,789 --> 00:27:09,679

specific documents and in reports from

678

00:27:12,870 --> 00:27:10,799

officials

679

00:27:14,950 --> 00:27:12,880

at times this information was of such a

680

00:27:17,750 --> 00:27:14,960

fascinating nature that it was

681

00:27:19,430 --> 00:27:17,760

impossible not to believe it

682

00:27:20,470 --> 00:27:19,440

later the question no longer seemed so

683

00:27:22,950 --> 00:27:20,480

fantastic

684

00:27:25,510 --> 00:27:22,960

and began to be examined at the level

685

00:27:27,830 --> 00:27:25,520

not only of the defense ministry but

686

00:27:29,990 --> 00:27:27,840

other government departments as well

687

00:27:32,630 --> 00:27:30,000

this interest specifically expressed

688

00:27:34,789 --> 00:27:32,640

itself in certain experts being sent to

689

00:27:38,149 --> 00:27:34,799

investigate especially to those places

690

00:27:40,870 --> 00:27:38,159

where ufos let's call them that appeared

691

00:27:43,350 --> 00:27:40,880

quite frequently i know a whole number

692

00:27:45,669 --> 00:27:43,360

of military bases in that category as a

693

00:27:47,830 --> 00:27:45,679

rule they are of strategic significance

694

00:27:50,390 --> 00:27:47,840

rocket complexes scientific test

695

00:27:52,390 --> 00:27:50,400

establishments in other words the places

696

00:27:55,110 --> 00:27:52,400

where there is a high concentration of

697

00:27:56,389 --> 00:27:55,120

advanced science and to some degree

698

00:27:58,710 --> 00:27:56,399

danger

699

00:28:00,389 --> 00:27:58,720

because every nuclear rocket every air

700

00:28:02,389 --> 00:28:00,399

force installation represents a

701

00:28:05,590 --> 00:28:02,399

breakthrough both in science and in

702

00:28:08,870 --> 00:28:05,600

military terms it is first and foremost

703

00:28:12,070 --> 00:28:08,880

a peak the summit of human achievement

704

00:28:13,510 --> 00:28:12,080

and that is where ufos here appeared

705

00:28:15,269 --> 00:28:13,520

fairly often

706

00:28:17,510 --> 00:28:15,279

moreover individual officers and

707

00:28:19,350 --> 00:28:17,520

commanders on the spot who knew about

708

00:28:21,430 --> 00:28:19,360

the phenomenon and had no official

709

00:28:24,710 --> 00:28:21,440

instructions on the matter acted on

710

00:28:27,190 --> 00:28:24,720

their own initiative to investigate ufos

711

00:28:29,110 --> 00:28:27,200

recording data and so on

712

00:28:31,669 --> 00:28:29,120

i know that in some places they even

713

00:28:33,669 --> 00:28:31,679

learned to create a situation which

714

00:28:36,070 --> 00:28:33,679

would deliberately provoke the

715

00:28:38,389 --> 00:28:36,080

appearance of a ufo

716

00:28:40,710 --> 00:28:38,399

a ufo would appear where there was

717

00:28:43,909 --> 00:28:40,720

increased military activity connected

718

00:28:45,029 --> 00:28:43,919

say with the transportation of special

719

00:28:47,350 --> 00:28:45,039

loads

720

00:28:50,070 --> 00:28:47,360

it was enough to artificially stimulate

721

00:28:52,230 --> 00:28:50,080

or schedule such a move for a ufo to

722

00:28:55,190 --> 00:28:52,240

appear in other words

723

00:28:57,750 --> 00:28:55,200

some kind of conditional relationship

724

00:28:59,669 --> 00:28:57,760

emerged and they detected it

725

00:29:00,870 --> 00:28:59,679

we're an intelligent nation nothing

726

00:29:03,350 --> 00:29:00,880

escapes us

727

00:29:05,190 --> 00:29:03,360

i know that at certain testing ranges i

728

00:29:06,230 --> 00:29:05,200

won't name them although it's no longer

729

00:29:09,110 --> 00:29:06,240

a secret

730

00:29:12,230 --> 00:29:09,120

they even learned to make contact of a

731

00:29:14,549 --> 00:29:12,240

kind what did that consist of first the

732

00:29:16,710 --> 00:29:14,559

ufo appeared in most instances as a

733

00:29:19,029 --> 00:29:16,720

sphere but there were other kinds

734

00:29:21,350 --> 00:29:19,039

contact was achieved with the help of

735

00:29:23,590 --> 00:29:21,360

physical indications of behavior

736

00:29:26,310 --> 00:29:23,600

pointing your arms in various directions

737

00:29:28,470 --> 00:29:26,320

say the ufo sphere would be flattened in

738

00:29:31,430 --> 00:29:28,480

that direction raise your arms three

739

00:29:34,230 --> 00:29:31,440

times the ufo would flatten three times

740

00:29:37,110 --> 00:29:34,240

vertically in that direction as well

741

00:29:39,350 --> 00:29:37,120

amazing contact you decide gentle

742

00:29:41,669 --> 00:29:39,360

listeners thanks again to the man in the

743

00:29:43,750 --> 00:29:41,679

high castle for these wonderful links we

744

00:29:46,389 --> 00:29:43,760

hope you've enjoyed way back wednesday

745

00:29:48,549 --> 00:29:46,399

for now we gotta bounce because

746

00:29:50,789 --> 00:29:48,559

that's a wrap thank you for listening to

747
