00:00:05,780 --> 00:00:03,500
Wednesday September 6 2017 you are

2
00:00:08,540 --> 00:00:05,790
listening to inception Radio Network

3
00:00:13,730 --> 00:00:08,550
voice of the fringe majority this is

4
00:00:15,709 --> 00:00:13,740
Carol Charles with UFO news we're

5
00:00:17,540 --> 00:00:15,719
beginning today with a new source for

6
00:00:21,019 --> 00:00:17,550
our sky watching enjoyment

7
00:00:21,980 --> 00:00:21,029
it's the ib x comm with a writer nina

8
00:00:24,470 --> 00:00:21,990
Godlewski

9
00:00:28,220 --> 00:00:24,480
covering their sky here's the headline

10
00:00:31,580 --> 00:00:28,230
full moon September 2017 it won't be a

11
00:00:34,459 --> 00:00:31,590
Harvest Moon like usual the full corn

12
00:00:36,709 --> 00:00:34,469
moon will take to the skies this morning

13
00:00:39,319 --> 00:00:36,719

the September full moon is usually

14

00:00:40,430 --> 00:00:39,329

referred to as the Harvest Moon with the

15

00:00:43,190 --> 00:00:40,440

exception of years during which

16

00:00:46,250 --> 00:00:43,200

September's full moon is not the closest

17

00:00:47,750 --> 00:00:46,260

full moon to the autumnal equinox this

18

00:00:50,000 --> 00:00:47,760

year the full moon closest to the

19

00:00:52,310 --> 00:00:50,010

equinox will be October meaning that

20

00:00:54,410 --> 00:00:52,320

moon will be the official Harvest Moon

21

00:00:57,350 --> 00:00:54,420

that's according to the Old Farmer's

22

00:01:00,500 --> 00:00:57,360

Almanac this week's full moon is the

23

00:01:02,029 --> 00:01:00,510

corn moon or the barley moon because it

24

00:01:04,939 --> 00:01:02,039

occurs during the best time to harvest

25

00:01:07,460 --> 00:01:04,949

those particular crops after this full

26
00:01:10,010 --> 00:01:07,470
moon and October's full moon the moon

27
00:01:13,250 --> 00:01:10,020
will be rising sooner after sunset than

28
00:01:15,560 --> 00:01:13,260
usual and when it does it will hang big

29
00:01:17,510 --> 00:01:15,570
in the sky for some time before moon set

30
00:01:20,300 --> 00:01:17,520
the next day and that's also according

31
00:01:23,060 --> 00:01:20,310
to the Old Farmer's Almanac the moon

32
00:01:25,609 --> 00:01:23,070
will be at its fullest at 3:02 a.m.

33
00:01:27,649 --> 00:01:25,619
Eastern Daylight Time that was this

34
00:01:29,240 --> 00:01:27,659
morning but if you try to catch it

35
00:01:31,429 --> 00:01:29,250
before that you're probably going to

36
00:01:34,219 --> 00:01:31,439
still see a full looking moon and

37
00:01:36,710 --> 00:01:34,229
there's more going on up there Neptune

38
00:01:39,260 --> 00:01:36,720

will make an appearance as viewed from

39

00:01:41,090 --> 00:01:39,270

Earth Neptune will come within point 73

40

00:01:44,389 --> 00:01:41,100

degrees of the moon around 1:00 a.m.

41

00:01:46,550 --> 00:01:44,399

Eastern Daylight Time you can look for

42

00:01:49,160 --> 00:01:46,560

Neptune using binoculars or if you're

43

00:01:51,620 --> 00:01:49,170

lucky enough a small telescope it should

44

00:01:53,030 --> 00:01:51,630

be visible most of the night but it will

45

00:01:55,580 --> 00:01:53,040

be at its highest point in the sky

46

00:01:58,010 --> 00:01:55,590

around midnight it's currently mostly in

47

00:01:59,870 --> 00:01:58,020

the opposite position of the Sun which

48

00:02:01,940 --> 00:01:59,880

is what makes it visible for so much of

49

00:02:04,459 --> 00:02:01,950

the night if you're hoping to get a

50

00:02:06,920 --> 00:02:04,469

glimpse of Neptune now is your best bet

51
00:02:09,050 --> 00:02:06,930
for the entire year you can check out

52
00:02:12,229 --> 00:02:09,060
the time for all the planet watching

53
00:02:12,900 --> 00:02:12,239
there'll be a box later via link at UFO

54
00:02:16,020 --> 00:02:12,910
headline

55
00:02:17,880 --> 00:02:16,030
calm the Harvest Moon in October will

56
00:02:20,910 --> 00:02:17,890
happen the first week of that month on

57
00:02:23,340 --> 00:02:20,920
the 5th of October to be exact but the

58
00:02:25,800 --> 00:02:23,350
moon will become full in the middle of

59
00:02:28,140 --> 00:02:25,810
the day around 2:40 p.m. Eastern

60
00:02:30,030 --> 00:02:28,150
Daylight Time the moon will still be

61
00:02:33,240 --> 00:02:30,040
visible though once the Sun sets and

62
00:02:35,130 --> 00:02:33,250
it's dark more visible in fact and while

63
00:02:37,860 --> 00:02:35,140

that moon won't be scientifically

64

00:02:41,970 --> 00:02:37,870

completely full anymore to the naked eye

65

00:02:43,950 --> 00:02:41,980

it won't appear any less full enjoy well

66

00:02:46,830 --> 00:02:43,960

it's way back Wednesday and we're still

67

00:02:48,960 --> 00:02:46,840

covering the Hudson Valley UFOs here's

68

00:02:51,780 --> 00:02:48,970

something to segue us right into that

69

00:02:54,990 --> 00:02:51,790

way back state of mind it's a column by

70

00:02:57,750 --> 00:02:55,000

Cheryl Kosta her New York sky is blog it

71

00:03:01,170 --> 00:02:57,760

was written November 7th 2013

72

00:03:04,050 --> 00:03:01,180

let's read Dutchess County in New York's

73

00:03:08,640 --> 00:03:04,060

Hudson Valley is no stranger to highly

74

00:03:11,190 --> 00:03:08,650

unusual UFO sightings for example it was

75

00:03:14,280 --> 00:03:11,200

a summer evening in June 1983 in

76
00:03:15,990 --> 00:03:14,290
Hopewell Junction near Poughkeepsie some

77
00:03:17,130 --> 00:03:16,000
people were celebrating the fourth of

78
00:03:19,170 --> 00:03:17,140
July a week early

79
00:03:21,660 --> 00:03:19,180
they were shooting off some fireworks as

80
00:03:24,600 --> 00:03:21,670
they were setting up for a second round

81
00:03:27,780 --> 00:03:24,610
of bangers they began to hear a humming

82
00:03:30,680 --> 00:03:27,790
sound they looked up to see a collection

83
00:03:33,120 --> 00:03:30,690
of bright lights in the shape of an arc

84
00:03:34,949 --> 00:03:33,130
within moments it was clear to all of

85
00:03:38,070 --> 00:03:34,959
them that hovering above them was

86
00:03:39,810 --> 00:03:38,080
something resembling a huge disc they

87
00:03:43,380 --> 00:03:39,820
report that it was the width of perhaps

88
00:03:45,630 --> 00:03:43,390

16 or 17 houses and that it literally

89

00:03:48,690 --> 00:03:45,640

covered the entire area of Jefferson

90

00:03:50,550 --> 00:03:48,700

Park of course being dark it was

91

00:03:53,070 --> 00:03:50,560

difficult for them to discern the exact

92

00:03:55,500 --> 00:03:53,080

features the one thing that spooked all

93

00:03:58,560 --> 00:03:55,510

of them was that it was silent as a tomb

94

00:04:00,660 --> 00:03:58,570

as it hovered over them after a few

95

00:04:03,570 --> 00:04:00,670

minutes the craft then began humming

96

00:04:06,810 --> 00:04:03,580

again turned and left at incredible

97

00:04:09,600 --> 00:04:06,820

speed and then there was a sighting over

98

00:04:12,390 --> 00:04:09,610

the IBM facility located in East

99

00:04:16,110 --> 00:04:12,400

Fishkill it was a cold November evening

100

00:04:18,440 --> 00:04:16,120

in 1986 at about 9:00 p.m. the second

101
00:04:21,710 --> 00:04:18,450
shift workers were returning from lunch

102
00:04:24,960 --> 00:04:21,720
The Observer reports that a huge

103
00:04:26,550 --> 00:04:24,970
triangular craft dark in color was

104
00:04:29,100 --> 00:04:26,560
hovering over the plan

105
00:04:31,530 --> 00:04:29,110
it had four lights on it one at each

106
00:04:34,110 --> 00:04:31,540
point of the triangle and one in the

107
00:04:35,730 --> 00:04:34,120
center this object was reported to be

108
00:04:38,940 --> 00:04:35,740
perhaps a few hundred feet off the

109
00:04:41,430 --> 00:04:38,950
ground it was estimated to be 1,000 feet

110
00:04:44,010 --> 00:04:41,440
long the observer states that at one

111
00:04:46,590 --> 00:04:44,020
point he licked his finger to determine

112
00:04:48,930 --> 00:04:46,600
wind direction and noted that the craft

113
00:04:52,140 --> 00:04:48,940

was leisurely and silently moving

114

00:04:54,090 --> 00:04:52,150

against the wind he watched as the craft

115

00:04:57,180 --> 00:04:54,100

moved away from the building it flew out

116

00:04:59,580 --> 00:04:57,190

of sight when he reported this event to

117

00:05:01,980 --> 00:04:59,590

the New York State Police he was asked

118

00:05:05,310 --> 00:05:01,990

about 15 questions questions related to

119

00:05:07,740 --> 00:05:05,320

direction and speed and ultimately he

120

00:05:11,490 --> 00:05:07,750

was told it was probably a group of

121

00:05:15,150 --> 00:05:11,500

ultralight aircraft very interesting

122

00:05:17,879 --> 00:05:15,160

something hovering over the IBM facility

123

00:05:20,400 --> 00:05:17,889

well there was something hovering over

124

00:05:23,010 --> 00:05:20,410

the Indian Point nuclear facility a

125

00:05:24,560 --> 00:05:23,020

little more serious perhaps and we're

126

00:05:28,200 --> 00:05:24,570

lucky enough to have an exclusive

127

00:05:30,719 --> 00:05:28,210

first-person interview as amazing luck

128

00:05:33,600 --> 00:05:30,729

or synchronicity M you decide gentle

129

00:05:36,180 --> 00:05:33,610

listeners would have it our very own way

130

00:05:39,000 --> 00:05:36,190

back Wednesday provider of the treasure

131

00:05:41,130 --> 00:05:39,010

trove of links and inspiration our very

132

00:05:44,130 --> 00:05:41,140

own man in the high castle might

133

00:05:46,650 --> 00:05:44,140

actually have been privy to a post event

134

00:05:49,440 --> 00:05:46,660

something that occurred after the Indian

135

00:05:53,370 --> 00:05:49,450

Point nuclear event in the Hudson Valley

136

00:05:55,890 --> 00:05:53,380

UFO flap are you there man in the high

137

00:05:59,070 --> 00:05:55,900

castle I am Carol felicitations

138

00:06:02,129 --> 00:05:59,080

salutations to you UFO news listeners

139

00:06:05,279 --> 00:06:02,139

well we're glad to have you on board and

140

00:06:09,450 --> 00:06:05,289

tell us about your incredible experience

141

00:06:12,120 --> 00:06:09,460

the stage is yours well I know that

142

00:06:16,560 --> 00:06:12,130

you've spent the last week reviewing the

143

00:06:19,379 --> 00:06:16,570

Hudson Valley UFO cases and I thought

144

00:06:21,870 --> 00:06:19,389

that you and your listeners might be

145

00:06:25,110 --> 00:06:21,880

interested in a little something that

146

00:06:29,490 --> 00:06:25,120

happened to two friends of mine and

147

00:06:33,110 --> 00:06:29,500

myself that very night July 24th and

148

00:06:36,649 --> 00:06:33,120

25th of 1984

149

00:06:40,290 --> 00:06:36,659

absolutely this is a unique opportunity

150

00:06:41,939 --> 00:06:40,300

well to begin with my

151
00:06:44,700 --> 00:06:41,949
younger brother was getting married the

152
00:06:48,570 --> 00:06:44,710
next weekend which was August 4th and

153
00:06:51,749 --> 00:06:48,580
that's the only reason I remember that

154
00:06:55,290 --> 00:06:51,759
this event actually took place on the

155
00:06:57,659 --> 00:06:55,300
24th and 25th of July of 1984 but I

156
00:06:59,520 --> 00:06:57,669
hadn't put I hadn't put two and two

157
00:07:02,279 --> 00:06:59,530
together until only about four or five

158
00:07:04,469 --> 00:07:02,289
years ago when I read about when I read

159
00:07:09,240 --> 00:07:04,479
about the Indian Point nuclear facility

160
00:07:12,570 --> 00:07:09,250
UFO case and something clicked in my

161
00:07:13,350 --> 00:07:12,580
mind and I said maybe that's what we saw

162
00:07:16,830 --> 00:07:13,360
that night

163
00:07:18,480 --> 00:07:16,840

when we were out fishing amazing how

164

00:07:20,700 --> 00:07:18,490

that click happens how something will

165

00:07:23,399 --> 00:07:20,710

just kind of go dormant and then all of

166

00:07:25,709 --> 00:07:23,409

a sudden boom there it is and what a

167

00:07:28,110 --> 00:07:25,719

pivotal event the fact that he was

168

00:07:31,589 --> 00:07:28,120

getting married that next weekend that

169

00:07:34,050 --> 00:07:31,599

would mark the date in time well what we

170

00:07:37,379 --> 00:07:34,060

decided to do was to go night fishing to

171

00:07:40,589 --> 00:07:37,389

take him night fishing before his wedded

172

00:07:41,909 --> 00:07:40,599

bliss took him away right and we decided

173

00:07:43,469 --> 00:07:41,919

to do it in the middle of the week

174

00:07:46,379 --> 00:07:43,479

instead of the weekend which is what we

175

00:07:48,450 --> 00:07:46,389

used to do but on the weekend there are

176

00:07:51,390 --> 00:07:48,460

usually a lot of boats on the lake and

177

00:07:53,490 --> 00:07:51,400

you kind of share a lot of fishing space

178

00:07:55,200 --> 00:07:53,500

so we decided if we did this in the

179

00:07:57,420 --> 00:07:55,210

middle of the week we probably would be

180

00:07:59,670 --> 00:07:57,430

alone and there wouldn't be very many

181

00:08:02,129 --> 00:07:59,680

boats with us maybe one or two other

182

00:08:03,990 --> 00:08:02,139

boats and as it turns out that night

183

00:08:05,939 --> 00:08:04,000

there were no other boats on the lake we

184

00:08:08,309 --> 00:08:05,949

were the only boat on the lake we had

185

00:08:11,249 --> 00:08:08,319

the entire lake to ourselves how would

186

00:08:14,159 --> 00:08:11,259

you know size it to make we all think

187

00:08:17,430 --> 00:08:14,169

let me put this in context as to where

188

00:08:20,879 --> 00:08:17,440

this Lake happens to be in relation in

189

00:08:23,430 --> 00:08:20,889

relation to the Indian Point facilities

190

00:08:26,879 --> 00:08:23,440

it's a lake by the name of twin lakes

191

00:08:29,700 --> 00:08:26,889

east twin and west wing lake it's up in

192

00:08:32,550 --> 00:08:29,710

Salisbury Connecticut which is way up in

193

00:08:35,959 --> 00:08:32,560

the northwest corner it's actually very

194

00:08:41,639 --> 00:08:35,969

close to the border of New York and

195

00:08:45,350 --> 00:08:41,649

straight across from that by a factor of

196

00:08:50,699 --> 00:08:45,360

maybe about 25 miles is the Hudson River

197

00:08:53,900 --> 00:08:50,709

but it turns out that this Lake is 65

198

00:08:58,500 --> 00:08:53,910

miles as the crow flies

199

00:09:03,470 --> 00:08:58,510

from the indian point facility so we

200

00:09:06,390 --> 00:09:03,480

were fairly close proximity to the

201
00:09:10,650 --> 00:09:06,400
nuclear facility down there at Indian

202
00:09:16,800 --> 00:09:10,660
Point keep still and we got up to the

203
00:09:18,720 --> 00:09:16,810
lake on Tuesday the 24th of July and we

204
00:09:22,050 --> 00:09:18,730
launched the boat around 11:30 that

205
00:09:24,660 --> 00:09:22,060
night and by midnight we were in

206
00:09:27,990 --> 00:09:24,670
position on the lake where we want it to

207
00:09:32,220 --> 00:09:28,000
fish and we had anchored the boat the

208
00:09:36,030 --> 00:09:32,230
boat was facing to the west and we had

209
00:09:38,880 --> 00:09:36,040
hung the light off of the stern of the

210
00:09:41,460 --> 00:09:38,890
boat to attract the fish and drop their

211
00:09:44,220 --> 00:09:41,470
lines in the water and settled back in

212
00:09:47,610 --> 00:09:44,230
for what we figured would be a nice

213
00:09:48,000 --> 00:09:47,620

quiet evening of fishing little did you

214

00:09:54,090 --> 00:09:48,010

know

215

00:09:54,990 --> 00:09:54,100

be privy to an event that none of us had

216

00:09:58,500 --> 00:09:55,000

ever seen before

217

00:10:03,750 --> 00:09:58,510

and my friend and his brother have never

218

00:10:06,570 --> 00:10:03,760

spoken of since not unusual so as we

219

00:10:09,390 --> 00:10:06,580

fished we it was things were pretty

220

00:10:11,790 --> 00:10:09,400

quiet and just before 1 o'clock in the

221

00:10:15,150 --> 00:10:11,800

morning out of the corner of my eye from

222

00:10:19,350 --> 00:10:15,160

out of the southwest I could see a very

223

00:10:21,810 --> 00:10:19,360

bright light coming over a ridge line of

224

00:10:24,510 --> 00:10:21,820

small mountains that are to the

225

00:10:25,560 --> 00:10:24,520

southwest of the lake and this light was

226

00:10:27,870 --> 00:10:25,570

headed right at us

227

00:10:31,410 --> 00:10:27,880

and we had it at us at a very very high

228

00:10:34,260 --> 00:10:31,420

rate of speed how would you describe the

229

00:10:35,940 --> 00:10:34,270

quality of the light well it was

230

00:10:39,600 --> 00:10:35,950

interesting because when we first saw it

231

00:10:42,990 --> 00:10:39,610

it looked like a combination of yellow

232

00:10:44,930 --> 00:10:43,000

and white kind of shimmering light it

233

00:10:49,560 --> 00:10:44,940

was moving very quickly in our direction

234

00:10:53,060 --> 00:10:49,570

much faster than a jetliner at altitude

235

00:10:55,530 --> 00:10:53,070

would appear someone on the ground and I

236

00:10:58,680 --> 00:10:55,540

turned to them and I said do you guys

237

00:11:00,780 --> 00:10:58,690

see this and they said yeah what is that

238

00:11:04,710 --> 00:11:00,790

I said I don't know what it is that it's

239

00:11:07,260 --> 00:11:04,720

headed this way and very quickly this

240

00:11:09,690 --> 00:11:07,270

object as it got close

241

00:11:11,490 --> 00:11:09,700

and they've got bigger the lights that

242

00:11:14,700 --> 00:11:11,500

were on the object began to become more

243

00:11:18,540 --> 00:11:14,710

defined what we were able to see was

244

00:11:21,960 --> 00:11:18,550

that this was a triangular shaped object

245

00:11:24,270 --> 00:11:21,970

that had three yellow lights on the left

246

00:11:26,790 --> 00:11:24,280

side three yellow lights on the right

247

00:11:29,390 --> 00:11:26,800

side the white line in between in the

248

00:11:33,180 --> 00:11:29,400

center and a glowing red light

249

00:11:35,520 --> 00:11:33,190

underneath and as these became more

250

00:11:39,390 --> 00:11:35,530

defined as it got closer to us which

251
00:11:42,570 --> 00:11:39,400
happened very quickly but before it

252
00:11:46,590 --> 00:11:42,580
reached the actual lakes themselves this

253
00:11:50,220 --> 00:11:46,600
object stopped absolutely stopped and

254
00:11:53,760 --> 00:11:50,230
there was no sound the lights themselves

255
00:11:56,880 --> 00:11:53,770
the red reddish light on the bottom kind

256
00:11:59,100 --> 00:11:56,890
of pulsed a little bit but the other

257
00:12:03,090 --> 00:11:59,110
lights were very consistent the way they

258
00:12:05,220 --> 00:12:03,100
were now having been a pilot in the past

259
00:12:09,440 --> 00:12:05,230
I can tell you that it's very difficult

260
00:12:12,990 --> 00:12:09,450
to tell at night the altitude of an

261
00:12:16,440 --> 00:12:13,000
object the actual speed of the object

262
00:12:18,950 --> 00:12:16,450
but from the distance this object was

263
00:12:22,740 --> 00:12:18,960

from us which would probably have been

264

00:12:25,020 --> 00:12:22,750

maybe about 2 miles or so since it

265

00:12:26,940 --> 00:12:25,030

crested the ridge of these far far

266

00:12:32,130 --> 00:12:26,950

mountains in the background we had a

267

00:12:36,030 --> 00:12:32,140

very clear field of vision across the

268

00:12:38,610 --> 00:12:36,040

lake we were on the other lake cross

269

00:12:40,710 --> 00:12:38,620

fields to where this ridge line was I

270

00:12:43,200 --> 00:12:40,720

would say this object was probably

271

00:12:46,410 --> 00:12:43,210

somewhere around nine hundred to a

272

00:12:49,800 --> 00:12:46,420

thousand feet in altitude and here here

273

00:12:52,140 --> 00:12:49,810

it was absolutely stopped dead so none

274

00:12:56,190 --> 00:12:52,150

of us said anything we just stared this

275

00:12:58,650 --> 00:12:56,200

thing and slowly this object began to

276

00:13:01,470 --> 00:12:58,660

rotate in the clockwise manner and it

277

00:13:03,600 --> 00:13:01,480

began to pick up speed it went faster

278

00:13:06,660 --> 00:13:03,610

and faster and faster until all of the

279

00:13:09,900 --> 00:13:06,670

lights along the edges began to blend

280

00:13:12,600 --> 00:13:09,910

together the only single light that we

281

00:13:15,930 --> 00:13:12,610

could see was this British light on the

282

00:13:18,360 --> 00:13:15,940

bottom and it spun and it's fun and it's

283

00:13:21,060 --> 00:13:18,370

fun and it's sat there for probably

284

00:13:23,250 --> 00:13:21,070

close to five minutes and then so

285

00:13:25,290 --> 00:13:23,260

the spinning stopped and we could see it

286

00:13:27,900 --> 00:13:25,300

orientate itself so that we could only

287

00:13:30,930 --> 00:13:27,910

see three of the yellow lights along one

288

00:13:35,060 --> 00:13:30,940

side of the subject and the reddish glow

289

00:13:38,520 --> 00:13:35,070

on the bottom at that point this object

290

00:13:41,850 --> 00:13:38,530

shot a high rate of speed off to the

291

00:13:45,330 --> 00:13:41,860

west now off to the west there's a line

292

00:13:48,390 --> 00:13:45,340

of mountains that are basically just

293

00:13:50,940 --> 00:13:48,400

over the border into New York State this

294

00:13:54,690 --> 00:13:50,950

object went right over the top of these

295

00:13:57,060 --> 00:13:54,700

mountains and it stopped again and at

296

00:14:00,990 --> 00:13:57,070

that point it began this process of this

297

00:14:03,060 --> 00:14:01,000

flat spin clockwise spin where it's spun

298

00:14:06,960 --> 00:14:03,070

faster and faster and faster and faster

299

00:14:08,760 --> 00:14:06,970

until all of those six yellow lights and

300

00:14:12,570 --> 00:14:08,770

that white light in front of it became

301
00:14:15,440 --> 00:14:12,580
kind of a blur and it kind of repeated

302
00:14:18,210 --> 00:14:15,450
the process that it had done earlier and

303
00:14:21,690 --> 00:14:18,220
it did this for probably about two

304
00:14:26,550 --> 00:14:21,700
minutes at which point it began to slow

305
00:14:29,510 --> 00:14:26,560
down until it stopped and we could see

306
00:14:32,880 --> 00:14:29,520
that it oriented itself back towards us

307
00:14:34,890 --> 00:14:32,890
we could just make out the yellow lights

308
00:14:37,830 --> 00:14:34,900
on the side the white light in the

309
00:14:41,070 --> 00:14:37,840
center and then it began to come back in

310
00:14:44,250 --> 00:14:41,080
our direction as it came back in our

311
00:14:47,610 --> 00:14:44,260
direction this time it began to climb in

312
00:14:50,720 --> 00:14:47,620
altitude so where we had originally seen

313
00:14:53,520 --> 00:14:50,730

this thing come over that initial Ridge

314

00:14:55,470 --> 00:14:53,530

probably at about a thousand feet it was

315

00:14:57,870 --> 00:14:55,480

now probably somewhere between two and

316

00:15:01,070 --> 00:14:57,880

three thousand feet and coming almost

317

00:15:05,280 --> 00:15:01,080

directly daddy where do babies come from

318

00:15:08,100 --> 00:15:05,290

well honey mommy went to the store oh

319

00:15:09,180 --> 00:15:08,110

well you see um well there's a mommy and

320

00:15:13,710 --> 00:15:09,190

a daddy all right

321

00:15:14,970 --> 00:15:13,720

and see when they call Geico they could

322

00:15:18,570 --> 00:15:14,980

save a bunch of money on car insurance

323

00:15:21,240 --> 00:15:18,580

and that makes I'm happy yes that makes

324

00:15:22,860 --> 00:15:21,250

them very happy that's good yeah

325

00:15:26,010 --> 00:15:22,870

well I'm glad we could have this talk

326

00:15:27,900 --> 00:15:26,020

sunshine Geico because saving 15% or

327

00:15:28,530 --> 00:15:27,910

more on car insurance is always a great

328

00:15:31,950 --> 00:15:28,540

answer

329

00:15:34,470 --> 00:15:31,960

we overhead to where we were and then it

330

00:15:37,109 --> 00:15:34,480

stopped again so at this point

331

00:15:40,979 --> 00:15:37,119

being almost overhead now what we really

332

00:15:42,749 --> 00:15:40,989

could see was this you could see the

333

00:15:44,879 --> 00:15:42,759

white lay the front kind of a glow from

334

00:15:47,689 --> 00:15:44,889

these yellowish lights on the side and

335

00:15:49,949 --> 00:15:47,699

this red light that was underneath and

336

00:15:52,559 --> 00:15:49,959

within a fraction of a second of

337

00:15:56,909 --> 00:15:52,569

stopping dead in the air absolutely no

338

00:16:01,309 --> 00:15:56,919

sound to it this object shot straight up

339

00:16:05,220 --> 00:16:01,319

at an incredible rate of speed got

340

00:16:09,059 --> 00:16:05,230

smaller very quickly and then it was

341

00:16:12,119 --> 00:16:09,069

gone and three of us sat there and I

342

00:16:16,379 --> 00:16:12,129

turned to my partners and said gentlemen

343

00:16:20,099 --> 00:16:16,389

I think we just saw a UFO Wow well

344

00:16:24,059 --> 00:16:20,109

that's where we weigh in you just saw a

345

00:16:26,280 --> 00:16:24,069

UFO and in the aftermath was there

346

00:16:30,809 --> 00:16:26,290

discussion did you guys talk about this

347

00:16:35,809 --> 00:16:30,819

well his his younger brother basically

348

00:16:38,099 --> 00:16:35,819

let out the proverbial holy yeah and

349

00:16:41,519 --> 00:16:38,109

then there was no discussion whatsoever

350

00:16:45,269 --> 00:16:41,529

they both went quiet and I said you know

351
00:16:47,849 --> 00:16:45,279
like so guys what do you think and they

352
00:16:49,799 --> 00:16:47,859
required and then pretty soon his

353
00:16:51,900 --> 00:16:49,809
brother said you know what I don't want

354
00:16:53,759 --> 00:16:51,910
to talk about it I just I absolutely

355
00:16:59,629 --> 00:16:53,769
don't want to talk about this and I said

356
00:17:02,999 --> 00:16:59,639
okay just won't talk about it which is

357
00:17:06,269 --> 00:17:03,009
not uncharacteristic and a lot of these

358
00:17:09,689 --> 00:17:06,279
events it's just too much too much to

359
00:17:11,789 --> 00:17:09,699
wrap one's brain around too much to try

360
00:17:18,480 --> 00:17:11,799
to assimilate into one's normal business

361
00:17:21,149 --> 00:17:18,490
of living well I can tell you after 33

362
00:17:25,259 --> 00:17:21,159
years neither of them have discussed it

363
00:17:30,000 --> 00:17:25,269

with me since except except last year

364

00:17:34,320 --> 00:17:30,010

when my friend and I took my son my

365

00:17:36,629 --> 00:17:34,330

adult son up to the lake fishing and so

366

00:17:39,810 --> 00:17:36,639

this was during the daytime and we were

367

00:17:41,850 --> 00:17:39,820

having a great day of fishing and at one

368

00:17:43,320 --> 00:17:41,860

point we decided that well maybe it's

369

00:17:46,529 --> 00:17:43,330

time to take a little bit of lunch and

370

00:17:48,270 --> 00:17:46,539

we sat back and I turned to my friend

371

00:17:50,580 --> 00:17:48,280

and I said

372

00:17:53,040 --> 00:17:50,590

hey do you remember that UFO we saw that

373

00:17:54,830 --> 00:17:53,050

night we're up here fishing and he

374

00:17:56,280 --> 00:17:54,840

turned and he looked at me and he said

375

00:17:59,340 --> 00:17:56,290

yes I do

376

00:18:01,200 --> 00:17:59,350

and my son looked at me I looked at my

377

00:18:04,680 --> 00:18:01,210

son because my son had heard the story

378

00:18:06,270 --> 00:18:04,690

before and I said to my friend so what

379

00:18:08,250 --> 00:18:06,280

do you think about it and he says I

380

00:18:10,920 --> 00:18:08,260

think about it all the time I don't know

381

00:18:14,490 --> 00:18:10,930

what it what it was I don't know what

382

00:18:17,670 --> 00:18:14,500

its purpose was but I really don't want

383

00:18:20,610 --> 00:18:17,680

to talk about it but yes I saw it I know

384

00:18:23,100 --> 00:18:20,620

what I saw you know what you saw and I

385

00:18:27,240 --> 00:18:23,110

really still don't want to talk about it

386

00:18:29,370 --> 00:18:27,250

but yes I did see it so at least my son

387

00:18:31,830 --> 00:18:29,380

was able to hear that

388

00:18:34,530 --> 00:18:31,840

you know this was an event that happened

389

00:18:37,020 --> 00:18:34,540

but it wasn't until a few years ago that

390

00:18:42,240 --> 00:18:37,030

I happen to be reading about the events

391

00:18:46,490 --> 00:18:42,250

in the Hudson Valley and I read the

392

00:18:50,670 --> 00:18:46,500

description of the craft that the

393

00:18:53,340 --> 00:18:50,680

security people at Indian Point saw yes

394

00:18:56,190 --> 00:18:53,350

and I thought to myself you know what

395

00:18:59,220 --> 00:18:56,200

that description is an awful lot like

396

00:19:02,310 --> 00:18:59,230

that object we saw that night when we

397

00:19:04,350 --> 00:19:02,320

were up on Twin Lakes fishing so I

398

00:19:07,800 --> 00:19:04,360

started to do a little bit of digging

399

00:19:11,250 --> 00:19:07,810

and I was able to pinpoint the night

400

00:19:13,110 --> 00:19:11,260

that we were up there by the day is his

401
00:19:15,000 --> 00:19:13,120
brother was getting married yeah and

402
00:19:16,350 --> 00:19:15,010
work my way back because we wanted to

403
00:19:18,120 --> 00:19:16,360
make this a special night for his

404
00:19:20,430 --> 00:19:18,130
brother just before you know if you got

405
00:19:23,460 --> 00:19:20,440
married and went off and whatever and

406
00:19:27,720 --> 00:19:23,470
sure enough here comes the night of the

407
00:19:30,750 --> 00:19:27,730
24th and 25th of July of 1984 so it is

408
00:19:34,410 --> 00:19:30,760
quite possible that the three of us saw

409
00:19:37,170 --> 00:19:34,420
the same craft that the people at the

410
00:19:39,870 --> 00:19:37,180
Indian Point nuclear facility saw that

411
00:19:43,620 --> 00:19:39,880
evening the time is right the direction

412
00:19:45,540 --> 00:19:43,630
the object left other witnesses saw it

413
00:19:48,690 --> 00:19:45,550

leave to the Northeast

414

00:19:53,070 --> 00:19:48,700

we saw it come from the southwest this

415

00:19:57,540 --> 00:19:53,080

lake is 65 miles away to the north east

416

00:20:01,230 --> 00:19:57,550

of Indian Point and when I look at all

417

00:20:01,470 --> 00:20:01,240

of the data it's very probable that what

418

00:20:03,450 --> 00:20:01,480

we

419

00:20:04,830 --> 00:20:03,460

that night was the same object that was

420

00:20:08,120 --> 00:20:04,840

seeing the Indian point

421

00:20:11,519 --> 00:20:08,130

how extraordinary and how many

422

00:20:14,279 --> 00:20:11,529

characteristics this has the reluctance

423

00:20:16,759 --> 00:20:14,289

of the witnesses to even talk about it

424

00:20:19,860 --> 00:20:16,769

even after all that length of time and

425

00:20:22,470 --> 00:20:19,870

trajectory wise it seems like you guys

426

00:20:25,200 --> 00:20:22,480

were indeed privy to something kind of

427

00:20:28,230 --> 00:20:25,210

extraordinary what an amazing event

428

00:20:28,649 --> 00:20:28,240

thank you so much for sharing this with

429

00:20:30,269 --> 00:20:28,659

us

430

00:20:33,379 --> 00:20:30,279

oh by the way did you guys catch

431

00:20:38,970 --> 00:20:33,389

anything that night worth keeping we did

432

00:20:41,759 --> 00:20:38,980

we got three brown trout in the 20 22

433

00:20:44,370 --> 00:20:41,769

inch range and we were pretty happy when

434

00:20:47,340 --> 00:20:44,380

we got off the lake at about 5:30 that

435

00:20:50,940 --> 00:20:47,350

morning but we certainly weren't about

436

00:20:53,450 --> 00:20:50,950

ready to get in touch with the State

437

00:20:55,680 --> 00:20:53,460

Police resident State Police officer who

438

00:20:59,610 --> 00:20:55,690

lives actually just down the street from

439

00:21:01,830 --> 00:20:59,620

there to describe the event you did not

440

00:21:04,950 --> 00:21:01,840

make an official report we did not make

441

00:21:08,310 --> 00:21:04,960

an official report and at the time none

442

00:21:11,430 --> 00:21:08,320

of us had any knowledge that MUFON or

443

00:21:14,549 --> 00:21:11,440

any organizations like that existed it

444

00:21:16,350 --> 00:21:14,559

was way before the Internet so even to

445

00:21:17,759 --> 00:21:16,360

get in touch with an organization like

446

00:21:21,090 --> 00:21:17,769

that would have been a difficult thing

447

00:21:25,379 --> 00:21:21,100

to do and so we just kind of let it go

448

00:21:28,830 --> 00:21:25,389

and have for the last 33 years just

449

00:21:30,840 --> 00:21:28,840

lived with the fact that we saw this

450

00:21:33,930 --> 00:21:30,850

that evening and have been left

451
00:21:36,720 --> 00:21:33,940
wondering ever since wondering ever

452
00:21:39,480 --> 00:21:36,730
since wow that's a great way to wind

453
00:21:40,860 --> 00:21:39,490
this up thank you so much man in the

454
00:21:44,549 --> 00:21:40,870
high castle for all your contributions

455
00:21:47,460 --> 00:21:44,559
and especially this one first person the

456
00:21:50,039 --> 00:21:47,470
rest of the story regarding that strange

457
00:21:53,820 --> 00:21:50,049
craft and the Indian Point nuclear

458
00:21:55,200 --> 00:21:53,830
facility we're only left to wonder what

459
00:21:57,600 --> 00:21:55,210
treasures the man in the high castle

460
00:21:59,879 --> 00:21:57,610
would produce for next way back

461
00:22:03,090 --> 00:21:59,889
Wednesday that's a hard act to follow

462
00:22:05,759 --> 00:22:03,100
but as usual we're following the clocks

463
00:22:09,930 --> 00:22:05,769

on the wall all the time zones indicate

464

00:22:11,909 --> 00:22:09,940

to us it's time to fly because that's a

465

00:22:13,430 --> 00:22:11,919
