

# UFO Headline News Friday September 8th, 2017

Listen on

[inceptionradionetwork.com](http://inceptionradionetwork.com)

1  
00:00:06,390 --> 00:00:03,909  
friday september 8 2017. you are

2  
00:00:08,629 --> 00:00:06,400  
listening to inception radio network

3  
00:00:13,669 --> 00:00:08,639  
voice of the fringe majority this is

4  
00:00:19,990 --> 00:00:16,790  
tonight headline earthsky.org

5  
00:00:22,390 --> 00:00:20,000  
moon and uranus in pisces

6  
00:00:24,790 --> 00:00:22,400  
the waning gibbous moon and planet

7  
00:00:27,029 --> 00:00:24,800  
uranus the seventh planet outward from

8  
00:00:28,630 --> 00:00:27,039  
the sun are near each other on the sky's

9  
00:00:31,669 --> 00:00:28,640  
dome tonight in front of the

10  
00:00:33,430 --> 00:00:31,679  
constellation pisces the fishes

11  
00:00:35,750 --> 00:00:33,440  
although uranus will remain within

12  
00:00:38,229 --> 00:00:35,760  
pisces borders for the rest of this year

13  
00:00:41,430 --> 00:00:38,239

the moon will leave pisces after a day

14

00:00:43,190 --> 00:00:41,440

or two around the world the moon and

15

00:00:45,750 --> 00:00:43,200

uranus will rise over the eastern

16

00:00:47,910 --> 00:00:45,760

horizon by about mid-evening although

17

00:00:50,790 --> 00:00:47,920

you can find out more specific times

18

00:00:53,350 --> 00:00:50,800

there's an astronomical almanac you can

19

00:00:55,350 --> 00:00:53,360

link to later simply head on over to

20

00:00:56,790 --> 00:00:55,360

ufoheadlinenews.com

21

00:00:59,349 --> 00:00:56,800

it'll be there

22

00:01:01,349 --> 00:00:59,359

with the moon so bright and so close to

23

00:01:03,430 --> 00:01:01,359

uranus on the sky's dome you're not

24

00:01:08,390 --> 00:01:03,440

likely to glimpse uranus with the

25

00:01:10,070 --> 00:01:08,400

unaided eye back on march 13th 1781

26

00:01:12,789 --> 00:01:10,080

uranus was the first planet to be

27

00:01:13,910 --> 00:01:12,799

discovered by telescope william herschel

28

00:01:16,149 --> 00:01:13,920

did that

29

00:01:18,550 --> 00:01:16,159

at a distance of about 19 astronomical

30

00:01:21,109 --> 00:01:18,560

units from earth right now this world is

31

00:01:23,830 --> 00:01:21,119

pretty easy to see through binoculars

32

00:01:26,149 --> 00:01:23,840

but you've got to know exactly where to

33

00:01:27,270 --> 00:01:26,159

look so here comes that chart you can

34

00:01:29,590 --> 00:01:27,280

check out

35

00:01:32,069 --> 00:01:29,600

it says here people with good vision and

36

00:01:35,590 --> 00:01:32,079

good charts can see uranus with the

37

00:01:38,069 --> 00:01:35,600

unaided eye on a dark moonless night in

38

00:01:40,310 --> 00:01:38,079

your quest to find uranus first make

39

00:01:41,830 --> 00:01:40,320

friends with the constellation pisces

40

00:01:44,390 --> 00:01:41,840

you can do that right after the moon

41

00:01:46,310 --> 00:01:44,400

leaves the evening sky and starting in a

42

00:01:48,230 --> 00:01:46,320

few more days from now

43

00:01:51,270 --> 00:01:48,240

and if you're familiar with the great

44

00:01:53,510 --> 00:01:51,280

square of pegasus well you can jump off

45

00:01:54,789 --> 00:01:53,520

from there to the constellation pisces

46

00:01:56,469 --> 00:01:54,799

the fishes

47

00:01:59,030 --> 00:01:56,479

and then using that sky chart and

48

00:02:01,429 --> 00:01:59,040

binoculars you just might catch uranus

49

00:02:04,550 --> 00:02:01,439

the seventh planet from the sun so

50

00:02:07,510 --> 00:02:04,560

here's ye old bottom line the moon and

51  
00:02:09,749 --> 00:02:07,520  
the planet uranus both reside right now

52  
00:02:12,550 --> 00:02:09,759  
in front of the constellation pisces the

53  
00:02:14,390 --> 00:02:12,560  
fishes that's right now as in september

54  
00:02:17,589 --> 00:02:14,400  
8 2017.

55  
00:02:19,990 --> 00:02:17,599  
go on out there have a look enjoy

56  
00:02:22,790 --> 00:02:20,000  
there's a place at earthsky.com called

57  
00:02:25,830 --> 00:02:22,800  
astronomy essentials and they bring us

58  
00:02:28,869 --> 00:02:25,840  
this headline giant sunspots and solar

59  
00:02:31,510 --> 00:02:28,879  
flares aurora alert

60  
00:02:33,350 --> 00:02:31,520  
sure we're headed towards solar minimum

61  
00:02:36,150 --> 00:02:33,360  
but that didn't keep the sun from acting

62  
00:02:39,550 --> 00:02:36,160  
up this week since last weekend two

63  
00:02:42,670 --> 00:02:39,560

giant sunspots they've got names

64

00:02:44,229 --> 00:02:42,680

ar2673 and it's pal

65

00:02:46,150 --> 00:02:44,239

ar2674

66

00:02:48,869 --> 00:02:46,160

have been seen from around the world by

67

00:02:51,430 --> 00:02:48,879

those using safe solar filters they've

68

00:02:53,910 --> 00:02:51,440

been seen even with the safely filtered

69

00:02:55,430 --> 00:02:53,920

eye alone making their way across the

70

00:02:57,910 --> 00:02:55,440

sun's face

71

00:03:01,190 --> 00:02:57,920

these active regions that's capital a

72

00:03:03,350 --> 00:03:01,200

capital r on the sun spawned multiple

73

00:03:07,509 --> 00:03:03,360

moderate m-class flares september 4th

74

00:03:08,830 --> 00:03:07,519

and 5th and then on september 6 2017

75

00:03:13,830 --> 00:03:08,840

sunspot

76  
00:03:16,710 --> 00:03:13,840  
ar2673 erupted in a powerful x 9.3 class

77  
00:03:18,670 --> 00:03:16,720  
solar flare the strongest solar flare in

78  
00:03:21,110 --> 00:03:18,680  
more than a decade

79  
00:03:23,509 --> 00:03:21,120  
spaceweather.com yep we visited their

80  
00:03:26,390 --> 00:03:23,519  
site yesterday reported the x-rays and

81  
00:03:28,869 --> 00:03:26,400  
uv radiation from the blast ionized the

82  
00:03:30,949 --> 00:03:28,879  
top of earth's atmosphere

83  
00:03:32,710 --> 00:03:30,959  
in the process of emitting these flares

84  
00:03:35,589 --> 00:03:32,720  
ar2673

85  
00:03:39,589 --> 00:03:35,599  
also blasted a coronal mass ejection or

86  
00:03:41,509 --> 00:03:39,599  
a cme into space in earth's direction

87  
00:03:43,190 --> 00:03:41,519  
it's already arrived we talked about it

88  
00:03:44,830 --> 00:03:43,200

yesterday here's the quote from

89

00:03:47,750 --> 00:03:44,840

spaceweather.com

90

00:03:50,550 --> 00:03:47,760

acme struck earth's magnetic field

91

00:03:52,550 --> 00:03:50,560

during the late hours of september 6. so

92

00:03:55,910 --> 00:03:52,560

far the impact has done little to stoke

93

00:03:58,149 --> 00:03:55,920

strong geomagnetic activity another cme

94

00:04:00,149 --> 00:03:58,159

is on the way however and it's more

95

00:04:03,190 --> 00:04:00,159

potent having been accelerated in our

96

00:04:04,869 --> 00:04:03,200

direction by the powerful x9 class solar

97

00:04:08,149 --> 00:04:04,879

flare previously

98

00:04:11,030 --> 00:04:08,159

noaa forecasters say strong g3 class

99

00:04:14,630 --> 00:04:11,040

geomagnetic storms are possible perhaps

100

00:04:18,349 --> 00:04:14,640

today september 8 when that inbound cme

101  
00:04:21,030 --> 00:04:18,359  
arrives reporting for another website

102  
00:04:23,030 --> 00:04:21,040  
skyandtelescope.com bob king wrote that

103  
00:04:25,749 --> 00:04:23,040  
there may be a good shot at seeing the

104  
00:04:28,070 --> 00:04:25,759  
aurora borealis from the northern border

105  
00:04:31,430 --> 00:04:28,080  
states as far south as illinois and

106  
00:04:34,710 --> 00:04:31,440  
oregon but he also said this quote the

107  
00:04:37,510 --> 00:04:34,720  
timing couldn't be worse it's full moon

108  
00:04:39,030 --> 00:04:37,520  
and western skies are filled with smoke

109  
00:04:41,030 --> 00:04:39,040  
from wildfires

110  
00:04:43,350 --> 00:04:41,040  
a strong storm would likely still show

111  
00:04:46,550 --> 00:04:43,360  
up as bright arcs or balletic rays

112  
00:04:47,310 --> 00:04:46,560  
dancing across the northern sky perhaps

113  
00:04:50,790 --> 00:04:47,320

if

114

00:04:52,790 --> 00:04:50,800

ar2673 continues spouting flares auroras

115

00:04:54,790 --> 00:04:52,800

could also appear later this week when

116

00:04:56,790 --> 00:04:54,800

the moon won't be so much of a problem

117

00:04:58,790 --> 00:04:56,800

end quotes and that's why bob king

118

00:05:00,110 --> 00:04:58,800

advises you to keep a lookout throughout

119

00:05:02,390 --> 00:05:00,120

the weekend

120

00:05:05,189 --> 00:05:02,400

spaceweather.com agrees about those

121

00:05:07,270 --> 00:05:05,199

aurora watches and also throws in this

122

00:05:10,390 --> 00:05:07,280

historic note that we also covered

123

00:05:13,110 --> 00:05:10,400

yesterday how epic historically is this

124

00:05:15,990 --> 00:05:13,120

event and here's the answer again

125

00:05:18,070 --> 00:05:16,000

this is a decade-class flair a list of

126  
00:05:21,590 --> 00:05:18,080  
the most powerful solar flares recorded

127  
00:05:24,390 --> 00:05:21,600  
since 1976 ranks the september 6th flare

128  
00:05:26,550 --> 00:05:24,400  
at number 14. it's tied with a similar

129  
00:05:29,189 --> 00:05:26,560  
explosion in 1990

130  
00:05:32,629 --> 00:05:29,199  
however compared to that iconic

131  
00:05:34,469 --> 00:05:32,639  
carrington event of 1859

132  
00:05:37,189 --> 00:05:34,479  
that's the one where the telegraph

133  
00:05:39,110 --> 00:05:37,199  
operators got the shock of this solar

134  
00:05:41,670 --> 00:05:39,120  
flare and were literally knocked to the

135  
00:05:43,990 --> 00:05:41,680  
ground off their telegraph operating

136  
00:05:47,430 --> 00:05:44,000  
chairs and also those more recent

137  
00:05:50,390 --> 00:05:47,440  
halloween storms 2003 so this event is

138  
00:05:52,469 --> 00:05:50,400

relatively mild modern power grids

139

00:05:54,230 --> 00:05:52,479

telecommunications and other sun

140

00:05:56,870 --> 00:05:54,240

sensitive technologies should weather

141

00:05:59,590 --> 00:05:56,880

this storm with little difficulty

142

00:06:02,150 --> 00:05:59,600

on the other hand sky watchers could see

143

00:06:04,870 --> 00:06:02,160

some fantastic auroras before this week

144

00:06:07,510 --> 00:06:04,880

is over and ham radio operators will

145

00:06:09,749 --> 00:06:07,520

surely be noticing strange propagation

146

00:06:12,790 --> 00:06:09,759

effects while the sun exerts its

147

00:06:15,510 --> 00:06:12,800

influence on the ionosphere of planet

148

00:06:18,469 --> 00:06:15,520

earth here's the bottom line it's been a

149

00:06:21,350 --> 00:06:18,479

week of giant sunspots and solar flares

150

00:06:24,710 --> 00:06:21,360

watch for auroras into this weekend

151

00:06:26,870 --> 00:06:24,720

sun spots auroras and flares oh my

152

00:06:29,430 --> 00:06:26,880

thanks to a stringer we got a tip about

153

00:06:31,830 --> 00:06:29,440

this we found the initial headline and

154

00:06:34,629 --> 00:06:31,840

then a story that accompanies it here's

155

00:06:38,230 --> 00:06:34,639

the first it's just a snippet headline

156

00:06:41,189 --> 00:06:38,240

spacex launches air force's super secret

157

00:06:43,990 --> 00:06:41,199

mini shuttle this is from ctv news

158

00:06:46,550 --> 00:06:44,000

canada with a byline for marcia dunn who

159

00:06:49,110 --> 00:06:46,560

writes it for the associated press

160

00:06:51,510 --> 00:06:49,120

cape canaveral florida spacex launched

161

00:06:54,629 --> 00:06:51,520

the air force's super secret space

162

00:06:57,590 --> 00:06:54,639

shuttle yesterday thursday a technology

163

00:06:58,469 --> 00:06:57,600

tester capable of spending years in

164

00:07:00,710 --> 00:06:58,479

orbit

165

00:07:02,950 --> 00:07:00,720

the unmanned falcon rocket blasted off

166

00:07:05,510 --> 00:07:02,960

from florida's kennedy space center as

167

00:07:08,309 --> 00:07:05,520

schools and businesses boarded up for

168

00:07:10,790 --> 00:07:08,319

hurricane irma on its way

169

00:07:13,189 --> 00:07:10,800

it's flight number five for one of these

170

00:07:15,110 --> 00:07:13,199

crewless mini shuttles known as the

171

00:07:17,430 --> 00:07:15,120

x-37b

172

00:07:19,350 --> 00:07:17,440

orbital test vehicle

173

00:07:21,270 --> 00:07:19,360

the two air force space planes have

174

00:07:24,150 --> 00:07:21,280

already logged a combined five and a

175

00:07:26,629 --> 00:07:24,160

half years in orbit but officials won't

176

00:07:29,430 --> 00:07:26,639

say what the spacecraft are doing up

177

00:07:31,589 --> 00:07:29,440

there the last mission lasted almost two

178

00:07:33,749 --> 00:07:31,599

years and ended with a touchdown last

179

00:07:37,270 --> 00:07:33,759

may at the runway formerly used by

180

00:07:40,710 --> 00:07:37,280

nasa's space shuttles the first x-37b

181

00:07:42,870 --> 00:07:40,720

launched in 2010 and as usual spacex

182

00:07:45,830 --> 00:07:42,880

landed its leftover booster back at cape

183

00:07:47,909 --> 00:07:45,840

canaveral for eventual reuse

184

00:07:50,390 --> 00:07:47,919

here's the companion headline the same

185

00:07:53,909 --> 00:07:50,400

story different source spacex

186

00:07:57,270 --> 00:07:53,919

successfully launches mysterious x-37b

187

00:07:59,990 --> 00:07:57,280

space plane and recovers first stage

188

00:08:02,309 --> 00:08:00,000

daryl effington gets the byline here he

189

00:08:05,110 --> 00:08:02,319

wrote this for tech crunch

190

00:08:07,110 --> 00:08:05,120

spacex can add another first to its ever

191

00:08:09,110 --> 00:08:07,120

increasing list on thursday it

192

00:08:12,469 --> 00:08:09,120

successfully launched the united states

193

00:08:14,950 --> 00:08:12,479

air force's x-37b experimental space

194

00:08:17,990 --> 00:08:14,960

plane for the first time the first time

195

00:08:20,390 --> 00:08:18,000

for spacex this makes it the only launch

196

00:08:22,790 --> 00:08:20,400

provider to accomplish this besides

197

00:08:25,110 --> 00:08:22,800

united launch alliance and should help

198

00:08:26,950 --> 00:08:25,120

ensure spacex gets more business from

199

00:08:28,150 --> 00:08:26,960

the united states defense contracts in

200

00:08:30,150 --> 00:08:28,160

the future

201  
00:08:32,310 --> 00:08:30,160  
the launch vehicle used was spacex's

202  
00:08:35,029 --> 00:08:32,320  
falcon 9 rocket it took off from the

203  
00:08:37,589 --> 00:08:35,039  
company's lc-39a

204  
00:08:40,790 --> 00:08:37,599  
launch facility the falcon 9 deployed

205  
00:08:43,509 --> 00:08:40,800  
the x-37b orbital test vehicle as this

206  
00:08:45,509 --> 00:08:43,519  
payload is officially called and then

207  
00:08:47,430 --> 00:08:45,519  
its first stage booster returned to

208  
00:08:49,190 --> 00:08:47,440  
earth for a planned recovery at cape

209  
00:08:52,870 --> 00:08:49,200  
canaveral air force base they're going

210  
00:08:55,910 --> 00:08:52,880  
to use spacex's lz1 landing pad for that

211  
00:08:58,630 --> 00:08:55,920  
recovery the goal to get the launch up

212  
00:09:00,150 --> 00:08:58,640  
before the arrival of hurricane irma and

213  
00:09:02,870 --> 00:09:00,160

they succeeded

214

00:09:06,070 --> 00:09:02,880

while the specifics of the x-37b's

215

00:09:08,630 --> 00:09:06,080

mission aren't available to the public

216

00:09:11,110 --> 00:09:08,640

it will be quote conducting experiments

217

00:09:13,190 --> 00:09:11,120

and quotes post-launch

218

00:09:15,750 --> 00:09:13,200

the last mission saw it in orbit of

219

00:09:17,509 --> 00:09:15,760

earth for two years before returning via

220

00:09:20,389 --> 00:09:17,519

a landing in may

221

00:09:23,750 --> 00:09:20,399

this mysterious x-37b it's built by

222

00:09:25,750 --> 00:09:23,760

boeing it's basically a crewless vehicle

223

00:09:28,550 --> 00:09:25,760

but it looks like the space shuttle on a

224

00:09:30,710 --> 00:09:28,560

smaller scale it's also designed to land

225

00:09:32,870 --> 00:09:30,720

like the shuttle using a landing strip

226

00:09:34,470 --> 00:09:32,880

like you'd use for an airliner

227

00:09:38,070 --> 00:09:34,480

we've heard this thing described as

228

00:09:41,110 --> 00:09:38,080

being only 15 feet wide wing to wing

229

00:09:43,910 --> 00:09:41,120

it weighs about 11 000 pounds we hear

230

00:09:45,990 --> 00:09:43,920

the x-37b is the first crewless space

231

00:09:49,030 --> 00:09:46,000

plane for the united states it's

232

00:09:53,670 --> 00:09:49,040

designed for reusability at a reasonable

233

00:09:55,670 --> 00:09:53,680

cost its aim to fly and test new tech

234

00:09:57,750 --> 00:09:55,680

and to return experimental results in a

235

00:10:00,949 --> 00:09:57,760

way that protects cargo and makes it

236

00:10:02,949 --> 00:10:00,959

suitable for post operation examination

237

00:10:05,269 --> 00:10:02,959

one of the goals with this launch was

238

00:10:07,269 --> 00:10:05,279

basically just to prove spacex as a

239

00:10:08,870 --> 00:10:07,279

viable launch option

240

00:10:12,150 --> 00:10:08,880

boeing says it will help ensure

241

00:10:16,310 --> 00:10:12,160

flexibility and continued viability of

242

00:10:18,949 --> 00:10:16,320

the x-37b for experimental use

243

00:10:22,550 --> 00:10:18,959

lots of talk about this particular craft

244

00:10:24,750 --> 00:10:22,560

lots of conjecture lots of conspiracy

245

00:10:27,350 --> 00:10:24,760

let's head on over to

246

00:10:29,670 --> 00:10:27,360

ufostalker.com shall we and gather up

247

00:10:33,269 --> 00:10:29,680

this story it's a sighting from pen

248

00:10:36,870 --> 00:10:33,279

argyle pennsylvania it's two words p-e-n

249

00:10:38,870 --> 00:10:36,880

second word argyle a-r-g-y-l

250

00:10:40,310 --> 00:10:38,880

it's mufon case number eight six five

251  
00:10:41,910 --> 00:10:40,320  
five zero

252  
00:10:44,829 --> 00:10:41,920  
the date of this sighting is the seventh

253  
00:10:47,990 --> 00:10:44,839  
of september this year it got a same-day

254  
00:10:51,509 --> 00:10:48,000  
report here's what the summary says

255  
00:10:53,030 --> 00:10:51,519  
fourth time object was spotted in same

256  
00:10:55,590 --> 00:10:53,040  
location

257  
00:10:57,590 --> 00:10:55,600  
yikes there are photos that accompany

258  
00:10:59,110 --> 00:10:57,600  
this they're striking check them out

259  
00:11:01,910 --> 00:10:59,120  
later they'll be posted at

260  
00:11:04,550 --> 00:11:01,920  
ufoheadlinenews.com

261  
00:11:07,030 --> 00:11:04,560  
citing specifics categories a viewing

262  
00:11:09,829 --> 00:11:07,040  
distance here over one mile

263  
00:11:13,269 --> 00:11:09,839

altitude over 500 feet without cloud

264

00:11:16,550 --> 00:11:13,279

cover the sighting duration one hour and

265

00:11:19,750 --> 00:11:16,560

18 minutes object features unknown

266

00:11:21,829 --> 00:11:19,760

object flight path hovering then path

267

00:11:23,030 --> 00:11:21,839

object shape sphere

268

00:11:26,710 --> 00:11:23,040

let's read

269

00:11:30,790 --> 00:11:26,720

on september 7th 2017 i observed an

270

00:11:32,150 --> 00:11:30,800

object in the sky from 3 45 am until 503

271

00:11:35,030 --> 00:11:32,160

am

272

00:11:37,670 --> 00:11:35,040

at that time the object slowly started

273

00:11:39,269 --> 00:11:37,680

accelerating upward and then disappeared

274

00:11:41,990 --> 00:11:39,279

all of a sudden

275

00:11:44,389 --> 00:11:42,000

this object hovered roughly around ten

276

00:11:46,550 --> 00:11:44,399

thousand feet maybe a little less

277

00:11:48,630 --> 00:11:46,560

basically it was the same altitude that

278

00:11:50,790 --> 00:11:48,640

small aircraft fly

279

00:11:52,470 --> 00:11:50,800

i did use my compass on my cell phone to

280

00:11:54,790 --> 00:11:52,480

roughly get its position from the back

281

00:11:57,269 --> 00:11:54,800

of my house where i was standing it was

282

00:11:59,590 --> 00:11:57,279

83 degrees east

283

00:12:01,670 --> 00:11:59,600

from what i would assume this object

284

00:12:04,389 --> 00:12:01,680

tried to maintain a fixed position but

285

00:12:05,990 --> 00:12:04,399

it wobbled slightly back and forth

286

00:12:07,750 --> 00:12:06,000

trying to do so

287

00:12:09,509 --> 00:12:07,760

i tried taking several photographs of

288

00:12:12,150 --> 00:12:09,519

the object with my cell phone one

289

00:12:15,110 --> 00:12:12,160

photograph when i enlarge it it almost

290

00:12:17,430 --> 00:12:15,120

looks like there are three windows on

291

00:12:18,629 --> 00:12:17,440

the craft and a slight outline of the

292

00:12:20,710 --> 00:12:18,639

craft

293

00:12:22,470 --> 00:12:20,720

this is not the first time that i

294

00:12:24,389 --> 00:12:22,480

spotted this aircraft

295

00:12:26,470 --> 00:12:24,399

there were three other occasions i

296

00:12:28,389 --> 00:12:26,480

spotted the same object over a

297

00:12:30,069 --> 00:12:28,399

three-month period of time

298

00:12:31,190 --> 00:12:30,079

the first occasion i got up in the

299

00:12:33,910 --> 00:12:31,200

middle of the night to go to the

300

00:12:35,590 --> 00:12:33,920

bathroom and i spotted this object out

301  
00:12:38,389 --> 00:12:35,600  
in the distance through my bedroom

302  
00:12:40,069 --> 00:12:38,399  
window and because it was far away

303  
00:12:42,230 --> 00:12:40,079  
at that point i just thought it was a

304  
00:12:43,590 --> 00:12:42,240  
star maybe a satellite reflecting the

305  
00:12:45,509 --> 00:12:43,600  
night sky

306  
00:12:47,910 --> 00:12:45,519  
but then a week and a half later i

307  
00:12:50,150 --> 00:12:47,920  
spotted the same object

308  
00:12:53,110 --> 00:12:50,160  
this time it was changing colors

309  
00:12:55,430 --> 00:12:53,120  
radically back and forth moving

310  
00:12:57,670 --> 00:12:55,440  
so at that time i had no idea what to

311  
00:12:59,910 --> 00:12:57,680  
make of it and ever since then when i

312  
00:13:02,069 --> 00:12:59,920  
get up at night to use the bathroom i

313  
00:13:04,550 --> 00:13:02,079

keep looking out the window to see if i

314

00:13:07,509 --> 00:13:04,560

can spot that object again and about

315

00:13:09,670 --> 00:13:07,519

three weeks later it was there again but

316

00:13:10,949 --> 00:13:09,680

it was still too far away to see exactly

317

00:13:14,710 --> 00:13:10,959

what it was

318

00:13:17,990 --> 00:13:14,720

but on september 7th 2017 early this

319

00:13:21,269 --> 00:13:18,000

morning the object was in the sky once

320

00:13:24,230 --> 00:13:21,279

again this time it was really low and

321

00:13:26,150 --> 00:13:24,240

very close so i got my shoes on and went

322

00:13:27,750 --> 00:13:26,160

outside to take some photographs of it

323

00:13:31,110 --> 00:13:27,760

to watch it

324

00:13:33,509 --> 00:13:31,120

and then at 503 am when dawn just

325

00:13:37,030 --> 00:13:33,519

started to break this object started

326  
00:13:39,829 --> 00:13:37,040  
moving away at a slow acceleration and

327  
00:13:41,350 --> 00:13:39,839  
all of a sudden it just took off

328  
00:13:43,990 --> 00:13:41,360  
there's nothing that i know of that

329  
00:13:46,470 --> 00:13:44,000  
could accelerate like this object did

330  
00:13:48,790 --> 00:13:46,480  
in that split second it reminded me of

331  
00:13:50,949 --> 00:13:48,800  
what you see in a star trek show when

332  
00:13:52,710 --> 00:13:50,959  
the enterprise takes off

333  
00:13:55,350 --> 00:13:52,720  
that's the only way i can explain the

334  
00:13:58,629 --> 00:13:55,360  
sudden acceleration of this object

335  
00:13:59,910 --> 00:13:58,639  
i'm hoping this object comes back again

336  
00:14:05,829 --> 00:13:59,920  
thank you

337  
00:14:07,030 --> 00:14:05,839  
vexing to see something so dramatic more

338  
00:14:10,710 --> 00:14:07,040

than once

339

00:14:12,710 --> 00:14:10,720

what in the world or out of the world

340

00:14:13,949 --> 00:14:12,720

here's a short report we picked up over

341

00:14:16,710 --> 00:14:13,959

at the website

342

00:14:18,710 --> 00:14:16,720

openminds.tv it's posted by alejandro

343

00:14:22,870 --> 00:14:18,720

rojas headline

344

00:14:25,430 --> 00:14:22,880

ufo witness spots large spherical object

345

00:14:28,310 --> 00:14:25,440

during hike in portugal

346

00:14:30,550 --> 00:14:28,320

here's what the witness wrote verbatim

347

00:14:32,949 --> 00:14:30,560

i was hiking on the mountain and taking

348

00:14:35,430 --> 00:14:32,959

pictures when i observed a spherical

349

00:14:38,069 --> 00:14:35,440

object the size of a helicopter

350

00:14:40,150 --> 00:14:38,079

it flew silently and too fast i

351

00:14:42,150 --> 00:14:40,160

immediately started shooting

352

00:14:44,790 --> 00:14:42,160

while doing this i lost the visual

353

00:14:46,470 --> 00:14:44,800

reference of the object when i turned to

354

00:14:49,670 --> 00:14:46,480

look at the sky in search of the first

355

00:14:52,629 --> 00:14:49,680

object a second object appeared same

356

00:14:54,629 --> 00:14:52,639

speed following the same path

357

00:14:57,269 --> 00:14:54,639

these objects traveled from south east

358

00:14:59,670 --> 00:14:57,279

to northwest at a speed of over 300

359

00:15:02,230 --> 00:14:59,680

kilometers per hour you're listening to

360

00:15:04,710 --> 00:15:02,240

love advice with leanne caller you're on

361

00:15:06,230 --> 00:15:04,720

the air uh hi leanne long time listener

362

00:15:08,150 --> 00:15:06,240

first time caller

363

00:15:10,389 --> 00:15:08,160

why in your professional opinion do you

364

00:15:11,430 --> 00:15:10,399

never take my calls off the air is this

365

00:15:16,150 --> 00:15:11,440

carl

366

00:15:17,509 --> 00:15:16,160

everything was great i thought uh well

367

00:15:19,269 --> 00:15:17,519

you know

368

00:15:21,350 --> 00:15:19,279

when you switched to geico you could

369

00:15:24,069 --> 00:15:21,360

save a lot of money on car insurance

370

00:15:26,470 --> 00:15:24,079

okay awesome you should call them i will

371

00:15:28,629 --> 00:15:26,480

geico because saving 15 or more on car

372

00:15:29,509 --> 00:15:28,639

insurance is always the great answer

373

00:15:31,910 --> 00:15:29,519

hour

374

00:15:34,389 --> 00:15:31,920

at an altitude of perhaps 100 meters to

375

00:15:36,389 --> 00:15:34,399

200 meters and at a distance of less

376

00:15:38,389 --> 00:15:36,399

than three kilometers from my

377

00:15:40,629 --> 00:15:38,399

observation point

378

00:15:42,150 --> 00:15:40,639

i know that mylar balloons can look odd

379

00:15:44,150 --> 00:15:42,160

floating around and they're often

380

00:15:45,990 --> 00:15:44,160

reported as ufos

381

00:15:48,550 --> 00:15:46,000

however these balloons are typically a

382

00:15:51,430 --> 00:15:48,560

regular shape and they're smooth

383

00:15:52,470 --> 00:15:51,440

could this be a half deflated mylar

384

00:15:54,150 --> 00:15:52,480

balloon

385

00:15:56,550 --> 00:15:54,160

if so it wouldn't have been as large as

386

00:15:59,350 --> 00:15:56,560

a helicopter and the witness describes

387

00:16:01,269 --> 00:15:59,360

it as large as a helicopter alejandro

388

00:16:03,910 --> 00:16:01,279

rojas who wrote this article says it

389

00:16:05,670 --> 00:16:03,920

looks to be rather large in the photo

390

00:16:06,310 --> 00:16:05,680

yep there's a photo you can check out

391

00:16:09,030 --> 00:16:06,320

later at ufo headline

392

00:16:11,030 --> 00:16:09,040

ufoheadlinenews.com

393

00:16:13,430 --> 00:16:11,040

and the notes at the end the vast

394

00:16:16,069 --> 00:16:13,440

majority of ufo sightings turn out to be

395

00:16:18,470 --> 00:16:16,079

mundane objects but once in a while

396

00:16:21,030 --> 00:16:18,480

there are sightings much more difficult

397

00:16:22,870 --> 00:16:21,040

to explain let's zip from portugal to

398

00:16:25,470 --> 00:16:22,880

the united kingdom where we find this

399

00:16:27,829 --> 00:16:25,480

headline from redditch bright

400

00:16:31,030 --> 00:16:27,839

horseshoe-shaped object the 2nd of

401  
00:16:34,949 --> 00:16:31,040  
august 2017. this is from the website

402  
00:16:39,670 --> 00:16:36,470  
the location reddit

403  
00:16:40,629 --> 00:16:39,680  
the time 2350 the witness's name is

404  
00:16:44,389 --> 00:16:40,639  
ellie

405  
00:16:46,629 --> 00:16:44,399  
i keep the window open every night when

406  
00:16:48,829 --> 00:16:46,639  
i go to bed i like to keep the blinds

407  
00:16:51,430 --> 00:16:48,839  
open so i can view the stars if they're

408  
00:16:54,150 --> 00:16:51,440  
showing i was watching an airplane go

409  
00:16:56,710 --> 00:16:54,160  
past i had just thought to myself

410  
00:16:57,749 --> 00:16:56,720  
i wonder if i'll ever see another ufo

411  
00:16:59,749 --> 00:16:57,759  
again

412  
00:17:01,829 --> 00:16:59,759  
i've seen two others the last one was

413  
00:17:04,150 --> 00:17:01,839

six years ago

414

00:17:07,189 --> 00:17:04,160

so as the airplane passed from right to

415

00:17:09,429 --> 00:17:07,199

left i noticed something that lit up

416

00:17:11,110 --> 00:17:09,439

extremely bright like when you burned

417

00:17:12,710 --> 00:17:11,120

magnesium

418

00:17:15,429 --> 00:17:12,720

this brightness seemed to be hanging

419

00:17:18,949 --> 00:17:15,439

over where the plane had just flown

420

00:17:21,829 --> 00:17:18,959

as if it was inspecting it it looks to

421

00:17:22,789 --> 00:17:21,839

be a horseshoe shape it was upside down

422

00:17:25,590 --> 00:17:22,799

a u

423

00:17:27,909 --> 00:17:25,600

and it moved slowly downwards getting a

424

00:17:29,990 --> 00:17:27,919

little dimmer and then it sort of turned

425

00:17:31,110 --> 00:17:30,000

as if it had been vertical facing

426  
00:17:33,029 --> 00:17:31,120  
downward

427  
00:17:35,430 --> 00:17:33,039  
now before it turned it was horizontal

428  
00:17:37,350 --> 00:17:35,440  
and facing away from me and that's the

429  
00:17:40,549 --> 00:17:37,360  
direction i was looking

430  
00:17:43,029 --> 00:17:40,559  
as it started to move again it moved

431  
00:17:45,430 --> 00:17:43,039  
slowly but then it went extremely fast

432  
00:17:47,909 --> 00:17:45,440  
until it was just a pin brick of light

433  
00:17:49,270 --> 00:17:47,919  
and then out of sight within about three

434  
00:17:52,549 --> 00:17:49,280  
seconds

435  
00:17:53,990 --> 00:17:52,559  
my partner doesn't believe me

436  
00:17:56,630 --> 00:17:54,000  
oh ellie

437  
00:17:58,870 --> 00:17:56,640  
yep that happens well maybe next time

438  
00:18:01,669 --> 00:17:58,880

partner will witness as well

439

00:18:05,029 --> 00:18:01,679  
shift in trajectory we're going to

440

00:18:06,470 --> 00:18:05,039  
trinidad casanare colombia for this

441

00:18:09,270 --> 00:18:06,480  
mufon sighting

442

00:18:11,190 --> 00:18:09,280  
it's number 86535

443

00:18:14,710 --> 00:18:11,200  
the date of this sighting is september

444

00:18:16,310 --> 00:18:14,720  
5th 2017. it was reported september 6

445

00:18:18,950 --> 00:18:16,320  
2017

446

00:18:21,270 --> 00:18:18,960  
summary a lot of lights flying in

447

00:18:23,350 --> 00:18:21,280  
different directions

448

00:18:26,310 --> 00:18:23,360  
sighting specifics offer us a viewing

449

00:18:28,950 --> 00:18:26,320  
distance in this case as unknown

450

00:18:30,310 --> 00:18:28,960  
the altitude was over 500 feet without

451  
00:18:32,630 --> 00:18:30,320  
cloud cover

452  
00:18:33,590 --> 00:18:32,640  
the entire sighting duration was two

453  
00:18:35,909 --> 00:18:33,600  
hours

454  
00:18:38,549 --> 00:18:35,919  
but the object features still get that

455  
00:18:40,870 --> 00:18:38,559  
vague description unknown

456  
00:18:44,230 --> 00:18:40,880  
the flight path path with directional

457  
00:18:46,630 --> 00:18:44,240  
change and this object was star-like in

458  
00:18:49,029 --> 00:18:46,640  
shape there isn't any description of

459  
00:18:52,150 --> 00:18:49,039  
meteorology at the time of this event

460  
00:18:54,390 --> 00:18:52,160  
but here is the detailed sighting it's

461  
00:18:56,710 --> 00:18:54,400  
written in fact in points one through

462  
00:18:57,669 --> 00:18:56,720  
six so here we go

463  
00:19:00,230 --> 00:18:57,679

one

464

00:19:01,350 --> 00:19:00,240

in my house after work

465

00:19:05,430 --> 00:19:01,360

two

466

00:19:06,710 --> 00:19:05,440

watching the sky on a clear bright night

467

00:19:10,870 --> 00:19:06,720

three

468

00:19:12,150 --> 00:19:10,880

i haven't seen that quantity of lights

469

00:19:14,549 --> 00:19:12,160

four

470

00:19:16,789 --> 00:19:14,559

a lot of lights some disappeared

471

00:19:18,230 --> 00:19:16,799

others were then flying in different

472

00:19:19,669 --> 00:19:18,240

directions

473

00:19:23,270 --> 00:19:19,679

point five

474

00:19:24,630 --> 00:19:23,280

my girlfriend was scared i was excited

475

00:19:27,350 --> 00:19:24,640

point six

476

00:19:29,590 --> 00:19:27,360

these lights were in a very long line

477

00:19:32,630 --> 00:19:29,600

and we saw them a long time we saw them

478

00:19:34,549 --> 00:19:32,640

for an hour and then we got tired

479

00:19:37,190 --> 00:19:34,559

when we stopped watching

480

00:19:40,630 --> 00:19:37,200

these lights were still there

481

00:19:41,510 --> 00:19:40,640

the lights were all still there

482

00:19:46,230 --> 00:19:41,520

wow

483

00:19:48,789 --> 00:19:46,240

from colombia hang on we're going to the

484

00:19:50,789 --> 00:19:48,799

state of wisconsin in the united states

485

00:19:52,549 --> 00:19:50,799

where we pick up a sighting courtesy of

486

00:19:55,350 --> 00:19:52,559

ufo ufostalker.com

487

00:19:57,830 --> 00:19:55,360

from the city of germantown it's move on

488

00:20:01,750 --> 00:19:57,840

case number 86411

489

00:20:02,950 --> 00:20:01,760

date of the sighting 9 1 2017 same day

490

00:20:04,230 --> 00:20:02,960

report

491

00:20:06,470 --> 00:20:04,240

summary

492

00:20:10,150 --> 00:20:06,480

a box-like object

493

00:20:13,909 --> 00:20:10,160

out of the northeast it turned over and

494

00:20:17,909 --> 00:20:13,919

became saucer-like flew off northwest

495

00:20:19,909 --> 00:20:17,919

did not shine dull appearance

496

00:20:23,190 --> 00:20:19,919

citing specifics give us a viewing

497

00:20:24,390 --> 00:20:23,200

distance this time 501 feet eventually

498

00:20:27,110 --> 00:20:24,400

one mile

499

00:20:28,630 --> 00:20:27,120

the altitude was over 500 feet without

500

00:20:31,830 --> 00:20:28,640

any cloud cover

501  
00:20:32,789 --> 00:20:31,840  
this object features are reported dome

502  
00:20:35,350 --> 00:20:32,799  
like

503  
00:20:37,430 --> 00:20:35,360  
the object flight path hovering and then

504  
00:20:39,350 --> 00:20:37,440  
path and then a path that included

505  
00:20:43,029 --> 00:20:39,360  
directional change

506  
00:20:45,590 --> 00:20:43,039  
this object shape chevron here we go

507  
00:20:48,070 --> 00:20:45,600  
my girlfriend and i were at walmart in

508  
00:20:49,669 --> 00:20:48,080  
germantown wisconsin she was inside

509  
00:20:50,710 --> 00:20:49,679  
shopping and i was in the car with our

510  
00:20:52,390 --> 00:20:50,720  
dog

511  
00:20:56,470 --> 00:20:52,400  
i happened to look up

512  
00:20:59,830 --> 00:20:56,480  
and i saw this box-like thing in the sky

513  
00:21:01,590 --> 00:20:59,840

it flew out of the north east and flew

514

00:21:03,350 --> 00:21:01,600  
to the northwest

515

00:21:05,830 --> 00:21:03,360  
as it moved along

516

00:21:08,950 --> 00:21:05,840  
this thing changed shapes

517

00:21:11,430 --> 00:21:08,960  
from initially being box-like to then a

518

00:21:14,310 --> 00:21:11,440  
more saucer-like appearance

519

00:21:16,070 --> 00:21:14,320  
there wasn't any wind to blow it along

520

00:21:18,390 --> 00:21:16,080  
at first i thought could this be some

521

00:21:20,070 --> 00:21:18,400  
sort of big balloon maybe a partially

522

00:21:21,909 --> 00:21:20,080  
deflated balloon

523

00:21:24,230 --> 00:21:21,919  
but it kept traveling to the northeast

524

00:21:25,909 --> 00:21:24,240  
as though it was being intelligently

525

00:21:28,789 --> 00:21:25,919  
piloted

526

00:21:31,029 --> 00:21:28,799

it was weird because it was changing

527

00:21:34,710 --> 00:21:31,039

shapes from first the dark box-like

528

00:21:37,430 --> 00:21:34,720

object to the more saucer-shaped object

529

00:21:39,430 --> 00:21:37,440

this thing was dull in appearance and it

530

00:21:40,710 --> 00:21:39,440

seemed not to reflect light it wasn't

531

00:21:43,110 --> 00:21:40,720

shiny

532

00:21:45,430 --> 00:21:43,120

it flew towards walmart out of the

533

00:21:49,029 --> 00:21:45,440

northeast when i first saw it but then

534

00:21:50,870 --> 00:21:49,039

it kept precisely on the same course

535

00:21:53,110 --> 00:21:50,880

at one point i actually opened the car

536

00:21:55,510 --> 00:21:53,120

door to observe this object but it

537

00:21:58,149 --> 00:21:55,520

traveled pretty quickly over the walmart

538

00:22:00,630 --> 00:21:58,159

building and i lost sight of it it

539

00:22:02,630 --> 00:22:00,640

caught my eye as i'm kind of a fan of

540

00:22:03,830 --> 00:22:02,640

airplanes and i watched the skies

541

00:22:07,110 --> 00:22:03,840

frequently

542

00:22:10,149 --> 00:22:07,120

but i've never seen anything like this

543

00:22:12,950 --> 00:22:10,159

perhaps just e.t doing a little shopping

544

00:22:14,789 --> 00:22:12,960

at walmart you never know

545

00:22:18,070 --> 00:22:14,799

we know we'll be here this weekend with

546

00:22:20,149 --> 00:22:18,080

off the beaten path where we go well off

547

00:22:23,669 --> 00:22:20,159

the beaten path pick up stories on

548

00:22:26,310 --> 00:22:23,679

cryptids archaeological finds etc and

549

00:22:29,350 --> 00:22:26,320

the usual ufos so join us

550

00:22:32,149 --> 00:22:29,360

gentlelisteners same time same station

551

00:22:34,470 --> 00:22:32,159

now we've gotta fly because

552

00:22:36,950 --> 00:22:34,480

that's a wrap thank you for listening to

553

00:22:40,149 --> 00:22:36,960

inception radio network follow this

554

00:22:42,710 --> 00:22:40,159

broadcast at [ufoheadlinenews.com](http://ufoheadlinenews.com)

555

00:22:44,950 --> 00:22:42,720

or iheartradio take care of each other
