

UFO Headline News Thursday September 7th, 2017

Listen on

inceptionradionetwork.com

1
00:00:07,249 --> 00:00:04,519
hello it's Thursday September 7 2017 you

2
00:00:09,919 --> 00:00:07,259
are listening to inception Radio Network

3
00:00:14,320 --> 00:00:09,929
voice of the fringe majority this is

4
00:00:18,349 --> 00:00:14,330
Carol Carl with UFO headline news

5
00:00:20,660 --> 00:00:18,359
here we are at earth sky org looking for

6
00:00:22,509 --> 00:00:20,670
the sky tonight for this first week of

7
00:00:26,410 --> 00:00:22,519
September and here's the headline

8
00:00:28,670 --> 00:00:26,420
date/time Moon West after sunrise

9
00:00:31,310 --> 00:00:28,680
actually this is going to be an event

10
00:00:34,040 --> 00:00:31,320
that begins tomorrow morning September 8

11
00:00:36,799 --> 00:00:34,050
and for a few morning's after that you

12
00:00:40,400 --> 00:00:36,809
can look west after sunrise and see the

13
00:00:42,920 --> 00:00:40,410

daytime moon the September 2017 full

14

00:00:45,069 --> 00:00:42,930

moon has passed and now the moon is

15

00:00:47,840 --> 00:00:45,079

technically in that waning gibbous phase

16

00:00:51,260 --> 00:00:47,850

which means it rises in the east later

17

00:00:53,119 --> 00:00:51,270

and later every evening so looking east

18

00:00:55,069 --> 00:00:53,129

before going to bed tonight you can

19

00:00:57,529 --> 00:00:55,079

catch the moon over the eastern horizon

20

00:00:59,660 --> 00:00:57,539

and then you'd look in the West after

21

00:01:02,569 --> 00:00:59,670

sunrise tomorrow or the next few

22

00:01:05,509 --> 00:01:02,579

mornings see that daytime moon over the

23

00:01:07,550 --> 00:01:05,519

western horizon someone wrote to earth

24

00:01:10,280 --> 00:01:07,560

sky dot-org and asked this question when

25

00:01:12,350 --> 00:01:10,290

is the best time to see the moon in the

26

00:01:15,620 --> 00:01:12,360

sky during daylight hours

27

00:01:17,660 --> 00:01:15,630

and the answer is that a daytime moon is

28

00:01:20,390 --> 00:01:17,670

up there much of the time but because

29

00:01:22,760 --> 00:01:20,400

it's pale against that blue sky it isn't

30

00:01:25,340 --> 00:01:22,770

as noticeable as the moon at night the

31

00:01:28,010 --> 00:01:25,350

most noticeable moon at night is the one

32

00:01:29,749 --> 00:01:28,020

that stays out all night long that would

33

00:01:32,749 --> 00:01:29,759

be around the time of full moon every

34

00:01:35,480 --> 00:01:32,759

month when the moon is 180 degrees from

35

00:01:38,270 --> 00:01:35,490

the Sun or opposite the Sun in our sky a

36

00:01:39,289 --> 00:01:38,280

full moon rises around sunset and sets

37

00:01:42,109 --> 00:01:39,299

around sunrise

38

00:01:45,020 --> 00:01:42,119

but now the moon is in a waning gibbous

39

00:01:47,120 --> 00:01:45,030

phase as we said it rises later every

40

00:01:49,819 --> 00:01:47,130

night and sets in the west later each

41

00:01:52,910 --> 00:01:49,829

day after sunrise so for the next

42

00:01:54,499 --> 00:01:52,920

several mornings after sunrise look for

43

00:01:57,109 --> 00:01:54,509

the waning gibbous moon in the West

44

00:01:59,270 --> 00:01:57,119

during the morning hours at mid northern

45

00:02:01,399 --> 00:01:59,280

latitudes in North America the moon will

46

00:02:04,370 --> 00:02:01,409

set better than one hour after sunrise

47

00:02:07,310 --> 00:02:04,380

September 8th and we'll set a solid hour

48

00:02:09,469 --> 00:02:07,320

later each day thereafter and by the way

49

00:02:12,830 --> 00:02:09,479

Debra bird who writes this for Earth Sky

50

00:02:13,460 --> 00:02:12,840

org adds that the moon is up during the

51
00:02:16,490 --> 00:02:13,470
day

52
00:02:18,830 --> 00:02:16,500
the time it has to be since it orbits

53
00:02:20,600 --> 00:02:18,840
around the whole earth once a month the

54
00:02:23,150 --> 00:02:20,610
crescent moon is hard to see because

55
00:02:25,280 --> 00:02:23,160
it's so near the Sun in the sky at the

56
00:02:27,440 --> 00:02:25,290
vicinity of last quarter moon about a

57
00:02:29,810 --> 00:02:27,450
week from now you might have to Crane

58
00:02:32,930 --> 00:02:29,820
your neck looking up to notice the moon

59
00:02:34,610 --> 00:02:32,940
after sunrise ordinarily we don't look

60
00:02:36,440 --> 00:02:34,620
up to see the waning last quarter moon

61
00:02:39,530 --> 00:02:36,450
and the waning crescent after sunrise

62
00:02:42,500 --> 00:02:39,540
and that's one reason that people so

63
00:02:45,200 --> 00:02:42,510

often miss that moon during the day day

64

00:02:47,180 --> 00:02:45,210

by day the lighted portion of the waning

65

00:02:48,830 --> 00:02:47,190

gibbous moon will shrink and the

66

00:02:52,280 --> 00:02:48,840

half-lit last quarter moon will come

67

00:02:54,740 --> 00:02:52,290

September 13th so watch for the daytime

68

00:02:57,800 --> 00:02:54,750

moon to climb higher and higher into

69

00:03:00,710 --> 00:02:57,810

your western sky after sunrise all this

70

00:03:04,070 --> 00:03:00,720

coming week bottom line starting around

71

00:03:07,100 --> 00:03:04,080

the morning of September 8 2017 watch

72

00:03:10,190 --> 00:03:07,110

for the daytime moon to appear in your

73

00:03:13,130 --> 00:03:10,200

West after sunrise so again we can all

74

00:03:16,040 --> 00:03:13,140

say good morning moon we found an

75

00:03:18,470 --> 00:03:16,050

excellent sight it's space weather calm

76

00:03:22,009 --> 00:03:18,480

news and information about meteor

77

00:03:24,380 --> 00:03:22,019

showers solar flares Aurora's and much

78

00:03:27,710 --> 00:03:24,390

much more and here's why we went there

79

00:03:28,100 --> 00:03:27,720

the Aurora's the solar flares here's the

80

00:03:31,340 --> 00:03:28,110

story

81

00:03:36,410 --> 00:03:31,350

major x-class solar flare it's an update

82

00:03:41,780 --> 00:03:36,420

on September 6th at 12:02 UT sunspot 8

83

00:03:44,780 --> 00:03:41,790

r2 673 unleashed a major x 9.3 class

84

00:03:47,300 --> 00:03:44,790

solar flare the strongest solar flare in

85

00:03:49,940 --> 00:03:47,310

more than a decade x-rays and UV

86

00:03:52,310 --> 00:03:49,950

radiation from the blast ionized the top

87

00:03:54,320 --> 00:03:52,320

of Earth's atmosphere which caused a

88

00:03:56,690 --> 00:03:54,330

strong shortwave radio blackout over

89

00:03:59,810 --> 00:03:56,700

Europe Africa and the Atlantic Ocean

90

00:04:01,940 --> 00:03:59,820

there's a blackout map included with

91

00:04:03,770 --> 00:04:01,950

this article you can link to it later at

92

00:04:06,140 --> 00:04:03,780

UFO headline news calm

93

00:04:07,820 --> 00:04:06,150

it shows the affected areas it's a great

94

00:04:10,190 --> 00:04:07,830

visual and while you're there you can

95

00:04:12,280 --> 00:04:10,200

check out the newly arriving images from

96

00:04:14,930 --> 00:04:12,290

the Solar and Heliospheric Observatory

97

00:04:18,310 --> 00:04:14,940

they confirm that that explosion also

98

00:04:22,310 --> 00:04:18,320

produced a coronal mass ejection a CME

99

00:04:24,860 --> 00:04:22,320

with an earth directed component there

100

00:04:26,930 --> 00:04:24,870

isn't any credit no byline no individual

101
00:04:27,300 --> 00:04:26,940
connected with this article but they

102
00:04:29,310 --> 00:04:27,310
meant

103
00:04:32,310 --> 00:04:29,320
that many people are asking about the

104
00:04:35,400 --> 00:04:32,320
historic context of this solar event how

105
00:04:38,190 --> 00:04:35,410
epic is it here's the answer this is a

106
00:04:40,430 --> 00:04:38,200
decade glass flare a list of the most

107
00:04:44,700 --> 00:04:40,440
powerful solar flares recorded since

108
00:04:47,960 --> 00:04:44,710
1976 ranks this flare at number 14 tied

109
00:04:50,940 --> 00:04:47,970
with a similar explosion in 1990 however

110
00:04:54,420 --> 00:04:50,950
compared to that iconic Carrington event

111
00:04:56,760 --> 00:04:54,430
of 1859 where the telegraph operators

112
00:04:58,950 --> 00:04:56,770
were literally not from their stools or

113
00:05:01,850 --> 00:04:58,960

even the more recent Halloween storms of

114

00:05:04,620 --> 00:05:01,860

2003 this event is relatively mild

115

00:05:06,960 --> 00:05:04,630

modern power grids telecommunications

116

00:05:08,700 --> 00:05:06,970

and other sun sensitive technologies

117

00:05:11,790 --> 00:05:08,710

should weather this storm with little

118

00:05:13,740 --> 00:05:11,800

difficulty on the other hand sky

119

00:05:16,680 --> 00:05:13,750

watchers could see some fantastic

120

00:05:19,230 --> 00:05:16,690

Aurora's before the week is over and ham

121

00:05:22,050 --> 00:05:19,240

radio operators will surely be noticing

122

00:05:24,090 --> 00:05:22,060

strange propagation effects as the Sun

123

00:05:28,230 --> 00:05:24,100

exerts its influence on our planets

124

00:05:31,440 --> 00:05:28,240

ionosphere stay tuned for updates here's

125

00:05:32,820 --> 00:05:31,450

an update of a sorts it's from hurricane

126

00:05:35,580 --> 00:05:32,830

Harvey territory

127

00:05:38,790 --> 00:05:35,590

yep Corpus Christi Texas and in this

128

00:05:40,800 --> 00:05:38,800

case it's a UFO sighting we were

129

00:05:43,260 --> 00:05:40,810

wondering if something like this would

130

00:05:46,469 --> 00:05:43,270

occur and here it is we picked it up

131

00:05:49,500 --> 00:05:46,479

from UFO stalker calm it's MUFON case

132

00:05:54,210 --> 00:05:49,510

number 8 6 5 3 9 the date of this

133

00:05:58,350 --> 00:05:54,220

sighting 8:25 2017 it was reported after

134

00:06:02,010 --> 00:05:58,360

the fact understandably on 9 6 2017

135

00:06:04,920 --> 00:06:02,020

here's the summary landed in street in

136

00:06:07,950 --> 00:06:04,930

front of husband and I during height of

137

00:06:10,560 --> 00:06:07,960

hurricane Harvey our witness lists

138

00:06:15,150 --> 00:06:10,570

sighting specifics viewing distance 20

139

00:06:18,659 --> 00:06:15,160

feet or less altitude landed sighting

140

00:06:21,510 --> 00:06:18,669

duration 1 minute object features dome

141

00:06:23,760 --> 00:06:21,520

and other the description of the

142

00:06:26,520 --> 00:06:23,770

object's flight path is also other and

143

00:06:30,330 --> 00:06:26,530

this object is reported to have been

144

00:06:33,540 --> 00:06:30,340

shaped Saturn like so we got the ring

145

00:06:35,610 --> 00:06:33,550

things going on the weather wise will it

146

00:06:38,790 --> 00:06:35,620

was a hurricane the maximum temperature

147

00:06:40,950 --> 00:06:38,800

was 82 degrees Fahrenheit to 28 degrees

148

00:06:43,400 --> 00:06:40,960

Celsius the mean temperature aid

149

00:06:46,850 --> 00:06:43,410

degrees Fahrenheit 27 degrees Celsius

150

00:06:50,430 --> 00:06:46,860

down to a minimum 77 degrees Fahrenheit

151
00:06:53,070 --> 00:06:50,440
25 degrees Celsius the maximum

152
00:06:56,490 --> 00:06:53,080
visibility for this event was 10 miles

153
00:06:58,620 --> 00:06:56,500
16 kilometers mean visibility 3 miles

154
00:07:01,860 --> 00:06:58,630
4 kilometers after that there's no

155
00:07:02,879 --> 00:07:01,870
listing the conditions were raining you

156
00:07:07,080 --> 00:07:02,889
can say that again

157
00:07:09,020 --> 00:07:07,090
here is the account hurricane Harvey was

158
00:07:12,809 --> 00:07:09,030
occurring the evening of August 25th

159
00:07:14,610 --> 00:07:12,819
2017 the power was off the winds were

160
00:07:18,120 --> 00:07:14,620
hitting the west side of our house we

161
00:07:19,680 --> 00:07:18,130
were hot due to no air-conditioning so

162
00:07:21,540 --> 00:07:19,690
he opened our living room windows and

163
00:07:24,420 --> 00:07:21,550

our front door on the east side of our

164

00:07:27,510 --> 00:07:24,430

house there was no rain or high wind

165

00:07:29,850 --> 00:07:27,520

coming inside from this east side all we

166

00:07:32,909 --> 00:07:29,860

could do was sit and ride out the

167

00:07:34,830 --> 00:07:32,919

hurricane we sat and watched the

168

00:07:36,830 --> 00:07:34,840

neighbors pecan tree bending and

169

00:07:41,070 --> 00:07:36,840

whipping in the high winds and gusts

170

00:07:42,930 --> 00:07:41,080

around 1:30 a.m. or so as we sat in the

171

00:07:45,659 --> 00:07:42,940

dark of our living room watching the

172

00:07:49,439 --> 00:07:45,669

storm increase in intensity all of a

173

00:07:51,540 --> 00:07:49,449

sudden I heard a very deep hum I started

174

00:07:55,170 --> 00:07:51,550

to say what is that deep humming noise

175

00:07:58,439 --> 00:07:55,180

and at that same moment appearing before

176

00:08:00,779 --> 00:07:58,449

my eyes was an object descending down to

177

00:08:03,270 --> 00:08:00,789

the middle of our vacant Street it

178

00:08:05,070 --> 00:08:03,280

appeared almost as wide as the street as

179

00:08:08,070 --> 00:08:05,080

the best I could tell it was dark

180

00:08:10,080 --> 00:08:08,080

storming outside in spite of the

181

00:08:14,249 --> 00:08:10,090

tremendous winds and rain roaring

182

00:08:15,839 --> 00:08:14,259

outside I heard this hum I thought at

183

00:08:18,659 --> 00:08:15,849

first I was seeing a tow truck or

184

00:08:20,730 --> 00:08:18,669

something but that made no sense for it

185

00:08:23,330 --> 00:08:20,740

was the wrong shape the lighting was

186

00:08:26,550 --> 00:08:23,340

wrong this object appeared round

187

00:08:30,420 --> 00:08:26,560

flattish one red light on top which

188

00:08:32,490 --> 00:08:30,430

turned into multiple red lights an LED

189

00:08:34,529 --> 00:08:32,500

kind of glowing white type light that

190

00:08:36,959 --> 00:08:34,539

encircled the entire circumference of

191

00:08:39,899 --> 00:08:36,969

this craft as well as the craft

192

00:08:42,360 --> 00:08:39,909

descended to ground level that then

193

00:08:45,150 --> 00:08:42,370

encircled the entire circumference of

194

00:08:46,079 --> 00:08:45,160

the craft as it moved to all right

195

00:08:48,420 --> 00:08:46,089

slowly

196

00:08:51,810 --> 00:08:48,430

that white circumference light appeared

197

00:08:54,420 --> 00:08:51,820

to starburst it sort of glowed into a

198

00:08:57,360 --> 00:08:54,430

flash it's a bit hard to describe

199

00:08:59,220 --> 00:08:57,370

a brilliant flash I immediately began

200

00:09:02,430 --> 00:08:59,230

looking through our front door expecting

201
00:09:04,710 --> 00:09:02,440
to see something and I saw the leading

202
00:09:06,990 --> 00:09:04,720
edge of this thing as it flashed a

203
00:09:09,690 --> 00:09:07,000
brilliant white light and then I saw

204
00:09:11,550 --> 00:09:09,700
what looked like sparklers set off it

205
00:09:15,210 --> 00:09:11,560
was a roman candle kind of fireworks

206
00:09:17,220 --> 00:09:15,220
type display i guess as this thing was

207
00:09:20,329 --> 00:09:17,230
disappearing in the manner it left it

208
00:09:23,490 --> 00:09:20,339
shot out sparks these sparks were

209
00:09:26,090 --> 00:09:23,500
rectangular brilliant white edged in

210
00:09:28,560 --> 00:09:26,100
brilliant gold and sort of curly cued

211
00:09:31,680 --> 00:09:28,570
all i could think of at this point was

212
00:09:34,710 --> 00:09:31,690
those sparks are on the far side and the

213
00:09:37,380 --> 00:09:34,720

near side of that utility pole I hope it

214

00:09:40,079 --> 00:09:37,390

doesn't catch fire funny since it was

215

00:09:42,269 --> 00:09:40,089

storming outside these sparks appeared

216

00:09:44,579 --> 00:09:42,279

to shoot up and away from the brilliant

217

00:09:47,370 --> 00:09:44,589

white light then and they gently fell

218

00:09:48,930 --> 00:09:47,380

twisting as they fell I can only

219

00:09:51,960 --> 00:09:48,940

describe them as looking like very

220

00:09:55,530 --> 00:09:51,970

delicate confetti it was quite beautiful

221

00:09:57,900 --> 00:09:55,540

I truly believe this was an emission of

222

00:10:01,380 --> 00:09:57,910

some type as this thing disappeared then

223

00:10:04,199 --> 00:10:01,390

this craft simply disappeared before our

224

00:10:06,690 --> 00:10:04,209

eyes almost as quickly as it appeared

225

00:10:09,540 --> 00:10:06,700

the craft did not appear to be affected

226

00:10:11,820 --> 00:10:09,550

in any way by these high hurricane-force

227

00:10:14,160 --> 00:10:11,830

winds and the high gusts of winds that

228

00:10:16,769 --> 00:10:14,170

were occurring I've seen several

229

00:10:20,190 --> 00:10:16,779

unexplained things during my 60 years of

230

00:10:24,000 --> 00:10:20,200

life in my own backyard - about 22 years

231

00:10:25,949 --> 00:10:24,010

ago my husband saw this as well I have

232

00:10:27,960 --> 00:10:25,959

always been skeptical of people saying

233

00:10:30,360 --> 00:10:27,970

they see multicolored lights on these

234

00:10:33,510 --> 00:10:30,370

things although being a believer myself

235

00:10:37,079 --> 00:10:33,520

I now believe in the multi light theory

236

00:10:39,630 --> 00:10:37,089

- because this thing had what appeared

237

00:10:42,870 --> 00:10:39,640

to be one red light on top and then it

238

00:10:44,730 --> 00:10:42,880

multiplied into several red lights there

239

00:10:47,900 --> 00:10:44,740

was nothing in the street after the

240

00:10:52,199 --> 00:10:47,910

intense flash no vehicle of any kind i

241

00:10:54,180 --> 00:10:52,209

sat bewildered as was my husband my

242

00:10:56,220 --> 00:10:54,190

brain was desperately trying to grab

243

00:10:58,290 --> 00:10:56,230

what I was seeing and make sense of it

244

00:11:00,120 --> 00:10:58,300

but I couldn't because it's not

245

00:11:02,519 --> 00:11:00,130

something I recognized

246

00:11:05,550 --> 00:11:02,529

we have no trees in our front yard our

247

00:11:07,290 --> 00:11:05,560

view was unobstructed as fearful as I

248

00:11:08,040 --> 00:11:07,300

was sitting through this horrible

249

00:11:10,829 --> 00:11:08,050

hurricane

250

00:11:13,560 --> 00:11:10,839

I remained more intrigued by what we had

251
00:11:16,110 --> 00:11:13,570
just witnessed my husband missed seeing

252
00:11:17,670 --> 00:11:16,120
any of the detail that I did he wasn't

253
00:11:20,610 --> 00:11:17,680
looking in that direction at that moment

254
00:11:23,550 --> 00:11:20,620
and this didn't last very long but he

255
00:11:25,800 --> 00:11:23,560
did indeed see that flash the flash of

256
00:11:30,630 --> 00:11:25,810
the circular light thank you for reading

257
00:11:34,199 --> 00:11:30,640
this it is true somehow we get a true

258
00:11:35,579 --> 00:11:34,209
read from this indeed all we can say is

259
00:11:38,910 --> 00:11:35,589
just wow

260
00:11:41,940 --> 00:11:38,920
here's another Wow headline fireball

261
00:11:45,500 --> 00:11:41,950
scene in the sky over Great Falls this

262
00:11:48,240 --> 00:11:45,510
is from krtv news in Great Falls Montana

263
00:11:51,090 --> 00:11:48,250

it gets a byline for David Sherman

264

00:11:53,610 --> 00:11:51,100

here's the story something in the sky

265

00:11:56,220 --> 00:11:53,620

caught the eye of some Great Falls

266

00:11:58,980 --> 00:11:56,230

residents Monday night the incident

267

00:12:01,639 --> 00:11:58,990

happened about 11:00 p.m. on Monday the

268

00:12:05,250 --> 00:12:01,649

American meteor Society says it received

269

00:12:07,769 --> 00:12:05,260

99 reports about a fireball seen over

270

00:12:10,130 --> 00:12:07,779

parts of Montana Idaho Washington and

271

00:12:12,510 --> 00:12:10,140

also in Alberta and British Columbia

272

00:12:15,120 --> 00:12:12,520

there have not been any reports of

273

00:12:18,269 --> 00:12:15,130

damage or injuries here's what some

274

00:12:22,170 --> 00:12:18,279

people posted on krtv Great Falls

275

00:12:24,870 --> 00:12:22,180

Facebook page Brian Suge said anything

276

00:12:27,300 --> 00:12:24,880

about a red meteor or a type of object

277

00:12:30,269 --> 00:12:27,310

crashing down behind the hills in the 57

278

00:12:32,430 --> 00:12:30,279

area I watched the whole thing it lit up

279

00:12:35,160 --> 00:12:32,440

the sky for a few seconds then went dark

280

00:12:38,550 --> 00:12:35,170

had to have been a few miles from town

281

00:12:40,199 --> 00:12:38,560

if that Kristin Taylor wrote please tell

282

00:12:42,660 --> 00:12:40,209

me someone else just saw the huge

283

00:12:45,900 --> 00:12:42,670

fireball fall out of the sky

284

00:12:48,329 --> 00:12:45,910

Terry Bartlett adds tonight when I was

285

00:12:50,460 --> 00:12:48,339

driving home from work I saw an object

286

00:12:52,949 --> 00:12:50,470

in the sky that looked like a meteor it

287

00:12:56,189 --> 00:12:52,959

was heading downwards towards the ground

288

00:12:58,350 --> 00:12:56,199

it had a fiery tail it almost looked

289

00:13:01,410 --> 00:12:58,360

like fireworks but it was different it

290

00:13:03,870 --> 00:13:01,420

was too large to be fireworks I was

291

00:13:06,480 --> 00:13:03,880

turning onto 10th Avenue off 23rd Street

292

00:13:08,550 --> 00:13:06,490

by the Albertsons grocery store this

293

00:13:11,069 --> 00:13:08,560

direction is approximate 9th Street and

294

00:13:13,680 --> 00:13:11,079

maybe central possibly even where the

295

00:13:15,480 --> 00:13:13,690

river runs through just curious have

296

00:13:19,139 --> 00:13:15,490

there been any reports that the quote

297

00:13:21,550 --> 00:13:19,149

sky is falling end quotes and last but

298

00:13:25,050 --> 00:13:21,560

not least Sarah's Nagurski adds

299

00:13:26,200 --> 00:13:25,060

I saw it from start to finish it was

300

00:13:28,330 --> 00:13:26,210

phenomenal

301
00:13:31,180 --> 00:13:28,340
never seen something like that in life I

302
00:13:32,740 --> 00:13:31,190
had to pull my car over I had to pinch

303
00:13:34,840 --> 00:13:32,750
myself and ask the person in the car

304
00:13:38,050 --> 00:13:34,850
with me if I was really seeing what I

305
00:13:40,510 --> 00:13:38,060
saw ha ha it was huge

306
00:13:42,730 --> 00:13:40,520
according to the American meteor Society

307
00:13:45,190 --> 00:13:42,740
this object entered the atmosphere near

308
00:13:47,920 --> 00:13:45,200
the small city of boswell and it quote

309
00:13:50,290 --> 00:13:47,930
terminated and quotes a technical term

310
00:13:53,019 --> 00:13:50,300
for crash and burn perhaps near

311
00:13:54,880 --> 00:13:53,029
Meadowcreek british columbia there are

312
00:13:57,550 --> 00:13:54,890
other people who caught this object on

313
00:14:01,090 --> 00:13:57,560

video and they posted for all the social

314

00:14:04,269 --> 00:14:01,100

media usual suspects so maybe a meteor

315

00:14:07,360 --> 00:14:04,279

maybe not we'll just keep a to be

316

00:14:09,550 --> 00:14:07,370

continued on this story here's a pretty

317

00:14:12,550 --> 00:14:09,560

direct trajectory from Montana to

318

00:14:16,120 --> 00:14:12,560

Michigan to the city of Lapeer they

319

00:14:19,120 --> 00:14:16,130

spell that la PE e are it's MUFON Case

320

00:14:22,329 --> 00:14:19,130

eight six five three seven the date of

321

00:14:25,120 --> 00:14:22,339

the sighting is nine six 2017 it got a

322

00:14:27,430 --> 00:14:25,130

same-day report under the categories of

323

00:14:29,650 --> 00:14:27,440

sighting specifics our witness begins

324

00:14:32,290 --> 00:14:29,660

with a viewing distance of over one mile

325

00:14:34,360 --> 00:14:32,300

the altitude over a five hundred feet

326

00:14:37,329 --> 00:14:34,370

and that night there was cloud cover

327

00:14:40,360 --> 00:14:37,339

over Lapeer sighting duration five

328

00:14:42,640 --> 00:14:40,370

seconds object features unknown the

329

00:14:45,150 --> 00:14:42,650

object's flight path straight line path

330

00:14:49,060 --> 00:14:45,160

and this object was shaped like a sphere

331

00:14:51,700 --> 00:14:49,070

so let's read and see what appeared over

332

00:14:54,100 --> 00:14:51,710

I'll appear I was sitting at the kitchen

333

00:14:56,860 --> 00:14:54,110

table and I happen to look out the

334

00:15:00,160 --> 00:14:56,870

window in the southeast direction when

335

00:15:01,870 --> 00:15:00,170

my eye caught the bright object at first

336

00:15:03,970 --> 00:15:01,880

I thought these bright objects were

337

00:15:06,550 --> 00:15:03,980

reflections from Lights that I had on

338

00:15:09,420 --> 00:15:06,560

inside the house but then I saw they

339

00:15:12,010 --> 00:15:09,430

were moving moving from left to right

340

00:15:13,780 --> 00:15:12,020

the first group were at different

341

00:15:16,360 --> 00:15:13,790

heights and they didn't seem to be in

342

00:15:19,300 --> 00:15:16,370

any particular formation they were

343

00:15:22,329 --> 00:15:19,310

followed closely then by two or three

344

00:15:24,130 --> 00:15:22,339

lights in the same manner all of these

345

00:15:27,190 --> 00:15:24,140

bright lights were traveling at a very

346

00:15:30,370 --> 00:15:27,200

high speed and within a few seconds they

347

00:15:32,110 --> 00:15:30,380

were gone gone out of my view so much so

348

00:15:34,090 --> 00:15:32,120

that my wife didn't have time to get to

349

00:15:34,940 --> 00:15:34,100

the window and she was only a few steps

350

00:15:38,710 --> 00:15:34,950

away

351

00:15:41,569 --> 00:15:38,720

oh so near and yet so far

352

00:15:44,150 --> 00:15:41,579

let's go not too far we'll go to New

353

00:15:46,850 --> 00:15:44,160

York the city of Cold Spring for this

354

00:15:49,639 --> 00:15:46,860

report MUFON gave it a case number it's

355

00:15:51,400 --> 00:15:49,649

eight six five three one and they'll use

356

00:15:54,230 --> 00:15:51,410

that number to track and hopefully

357

00:15:56,840 --> 00:15:54,240

identify this sighting it took place on

358

00:15:59,090 --> 00:15:56,850

January 14th this year it wasn't

359

00:16:02,210 --> 00:15:59,100

reported till September 5th of this year

360

00:16:04,759 --> 00:16:02,220

here's what the summary says didn't see

361

00:16:08,769 --> 00:16:04,769

lights in person lights showed up later

362

00:16:11,750 --> 00:16:08,779

in photo not appearing in other photo

363

00:16:13,939 --> 00:16:11,760

yep there are photos with this account

364

00:16:17,329 --> 00:16:13,949

and you can check them out later do your

365

00:16:20,350 --> 00:16:17,339

own home analysis head on over to UFO

366

00:16:24,079 --> 00:16:20,360

headline news dot-com they will be there

367

00:16:26,509 --> 00:16:24,089

citing specifics viewing distance 501

368

00:16:28,699 --> 00:16:26,519

feet to one mile all of the other

369

00:16:31,340 --> 00:16:28,709

specifics altitude object features

370

00:16:34,699 --> 00:16:31,350

flight path and shape they're all listed

371

00:16:37,670 --> 00:16:34,709

as unknown back in January the

372

00:16:40,850 --> 00:16:37,680

temperature over Cold Spring was well

373

00:16:43,009 --> 00:16:40,860

cold the maximum temperature 28 degrees

374

00:16:46,370 --> 00:16:43,019

Fahrenheit minus two degrees Celsius

375

00:16:49,579 --> 00:16:46,380

mean temperature 24 degrees Fahrenheit

376

00:16:53,030 --> 00:16:49,589

minus 4 degrees Celsius and the minimum

377

00:16:55,840 --> 00:16:53,040

down to 19 degrees Fahrenheit minus 7

378

00:16:59,720 --> 00:16:55,850

degrees Celsius the visibility factors

379

00:17:02,960 --> 00:16:59,730

maximum was 20 miles 32 kilometers the

380

00:17:05,270 --> 00:17:02,970

mean visibility 11 miles 18 kilometers

381

00:17:09,140 --> 00:17:05,280

the minimum down to 2 miles to

382

00:17:11,990 --> 00:17:09,150

kilometers because it was snowing here's

383

00:17:14,659 --> 00:17:12,000

the account my fiancée was working in

384

00:17:17,150 --> 00:17:14,669

upstate New York and when he travels he

385

00:17:19,610 --> 00:17:17,160

always takes pictures we were looking

386

00:17:22,159 --> 00:17:19,620

actually for photos to enter in a

387

00:17:25,669 --> 00:17:22,169

contest so we clicked on these old

388

00:17:27,679 --> 00:17:25,679

photos and noticed the bizarre lights

389

00:17:29,510 --> 00:17:27,689

he doesn't remember seeing them in

390

00:17:32,720 --> 00:17:29,520

person I think he would have remembered

391

00:17:34,310 --> 00:17:32,730

seeing these clusters and the lights do

392

00:17:37,370 --> 00:17:34,320

not appear in a photo taken a few

393

00:17:41,960 --> 00:17:37,380

minutes afterwards this appears to be

394

00:17:44,810 --> 00:17:41,970

three distinct clusters in the sky two

395

00:17:47,870 --> 00:17:44,820

lights flying together just under the

396

00:17:48,740 --> 00:17:47,880

mountain ridge as well he was outside so

397

00:17:50,690 --> 00:17:48,750

they're not

398

00:17:53,180 --> 00:17:50,700

actions in a window and we couldn't find

399

00:17:54,830 --> 00:17:53,190

any sources of light on the ground which

400

00:17:57,860 --> 00:17:54,840

might have caused some weird reaction

401
00:17:59,660 --> 00:17:57,870
the camera lens flare etc wish I had

402
00:18:01,640 --> 00:17:59,670
more information to give but I'm

403
00:18:04,340 --> 00:18:01,650
reporting this on behalf of my fiancé

404
00:18:07,070 --> 00:18:04,350
months after the event which took place

405
00:18:09,020 --> 00:18:07,080
in January the second photo is from a

406
00:18:11,540 --> 00:18:09,030
little later he didn't take more photos

407
00:18:14,530 --> 00:18:11,550
because he didn't even notice the lights

408
00:18:18,010 --> 00:18:14,540
until we looked at the pictures today

409
00:18:20,840 --> 00:18:18,020
yep they're striking we studied them for

410
00:18:22,820 --> 00:18:20,850
quite a bit of time actually they're

411
00:18:25,010 --> 00:18:22,830
unique we're wondering whether or not

412
00:18:28,910 --> 00:18:25,020
they could be entered in a photo contest

413
00:18:31,760 --> 00:18:28,920

a UFO photo contest say there's a

414

00:18:34,850 --> 00:18:31,770

thought let's think about shag harbour

415

00:18:37,100 --> 00:18:34,860

in Shelburne County Nova Scotia shall we

416

00:18:39,920 --> 00:18:37,110

well it's the setting for that famous

417

00:18:42,350 --> 00:18:39,930

shag harbour UFO sighting and the

418

00:18:44,690 --> 00:18:42,360

festival they had some issues last year

419

00:18:46,310 --> 00:18:44,700

and at the last minute as they were

420

00:18:49,160 --> 00:18:46,320

going to have to scale back their

421

00:18:51,590 --> 00:18:49,170

expectations some wonderful anonymous

422

00:18:54,440 --> 00:18:51,600

benefactor stepped in and saved the day

423

00:18:57,050 --> 00:18:54,450

well fast forward it's a year later

424

00:19:00,650 --> 00:18:57,060

here's the story from the coast guard

425

00:19:04,040 --> 00:19:00,660

dot CA shag harbour there will be

426

00:19:06,350 --> 00:19:04,050

promises of many surprises in store for

427

00:19:08,090 --> 00:19:06,360

this year's shag harbour UFO festival as

428

00:19:13,370 --> 00:19:08,100

they celebrate the fiftieth anniversary

429

00:19:15,590 --> 00:19:13,380

of that October 4th 1967 UFO incident an

430

00:19:17,960 --> 00:19:15,600

incident world-renowned

431

00:19:20,690 --> 00:19:17,970

keynote speaker for the festival which

432

00:19:23,240 --> 00:19:20,700

runs September 29th to October 1st is

433

00:19:24,950 --> 00:19:23,250

Chris Stiles he's been investigating the

434

00:19:27,500 --> 00:19:24,960

shag harbour incident for several

435

00:19:30,080 --> 00:19:27,510

decades he's co-authored two books on

436

00:19:33,440 --> 00:19:30,090

the subject dark object he wrote with

437

00:19:35,780 --> 00:19:33,450

Dawn ledger and impact to contact he

438

00:19:37,070 --> 00:19:35,790

wrote that one with Graham Simms here's

439

00:19:38,990 --> 00:19:37,080

a quote from Brock Zink

440

00:19:42,230 --> 00:19:39,000

he's vice president of the shag harbour

441

00:19:44,210 --> 00:19:42,240

UFO incident society quote there's been

442

00:19:47,240 --> 00:19:44,220

a lot of updates to the story more

443

00:19:49,460 --> 00:19:47,250

information is now available since he

444

00:19:51,770 --> 00:19:49,470

wrote these two books I'm really looking

445

00:19:53,720 --> 00:19:51,780

forward to the presentation I don't want

446

00:19:56,350 --> 00:19:53,730

to give away anything but I think people

447

00:20:00,140 --> 00:19:56,360

are going to be surprised by what it is

448

00:20:02,630 --> 00:20:00,150

that Chris Stiles has to say organizers

449

00:20:04,340 --> 00:20:02,640

have an impressive lineup for the UFO in

450

00:20:06,590 --> 00:20:04,350

witness panel there'll be a

451
00:20:09,350 --> 00:20:06,600
question-and-answer session said Brock

452
00:20:12,410 --> 00:20:09,360
sink on that panel will be Ralph Lowe

453
00:20:15,050 --> 00:20:12,420
injure he was a commercial pilot in 1967

454
00:20:17,930 --> 00:20:15,060
flying that night in the skies over

455
00:20:20,320 --> 00:20:17,940
southwestern Nova Scotia quote there was

456
00:20:23,390 --> 00:20:20,330
a lot going on in the sky that night in

457
00:20:25,940 --> 00:20:23,400
1967 said Brock Zink and then there's

458
00:20:28,640 --> 00:20:25,950
bill pally he was an RCA F radar

459
00:20:30,830 --> 00:20:28,650
operator in Barrington captain Ronnie

460
00:20:33,080 --> 00:20:30,840
Newell skipper of the Canadian Coast

461
00:20:35,840 --> 00:20:33,090
Guard Cutter 101 that was on duty that

462
00:20:38,300 --> 00:20:35,850
night and eyewitnesses Laurie Wickens

463
00:20:41,210 --> 00:20:38,310

Peter Gorham Norman Smith Michael

464

00:20:43,760 --> 00:20:41,220

Crowell and Bill Boudreau will also sit

465

00:20:46,370 --> 00:20:43,770

on that panel also joining the festival

466

00:20:49,010 --> 00:20:46,380

this year is Quinn on astronomer Tim

467

00:20:51,230 --> 00:20:49,020

Doucet from the dark skies observatory

468

00:20:53,630 --> 00:20:51,240

he'll be holding a stargazing session at

469

00:20:56,420 --> 00:20:53,640

the impact site there will also be live

470

00:20:59,090 --> 00:20:56,430

podcast recordings with Jordan Bonaparte

471

00:21:03,050 --> 00:20:59,100

from nighttime podcast and Martin Willis

472

00:21:06,260 --> 00:21:03,060

from podcast UFO back on October 4th

473

00:21:09,590 --> 00:21:06,270

1967 witnesses say they saw lights in

474

00:21:12,260 --> 00:21:09,600

the sky coming on in sequence those

475

00:21:14,300 --> 00:21:12,270

lights eventually took a rapid 45-degree

476
00:21:16,670 --> 00:21:14,310
turns towards the surface of the water

477
00:21:19,610 --> 00:21:16,680
causing those who saw this to think

478
00:21:21,830 --> 00:21:19,620
they'd witnessed a plane crash no plane

479
00:21:24,650 --> 00:21:21,840
crash debris was ever found but there

480
00:21:27,110 --> 00:21:24,660
was a strange yellow foam floating on

481
00:21:29,360 --> 00:21:27,120
the surface of that water this year

482
00:21:31,460 --> 00:21:29,370
there'll be that much acclaimed guided

483
00:21:33,800 --> 00:21:31,470
bus tour again with eyewitness Laurie

484
00:21:36,530 --> 00:21:33,810
Wiggins in which he describes what he

485
00:21:38,810 --> 00:21:36,540
and others saw they're going to stage

486
00:21:41,510 --> 00:21:38,820
this again this year said zinc complete

487
00:21:43,190 --> 00:21:41,520
with a reenactment at the impact site

488
00:21:45,350 --> 00:21:43,200

with the help of the Canadian Coast

489

00:21:48,740 --> 00:21:45,360

Guard and none other than the Royal

490

00:21:50,960 --> 00:21:48,750

Canadian Mounted Police taking part said

491

00:21:52,940 --> 00:21:50,970

Brock Zink quote people from all over

492

00:21:55,340 --> 00:21:52,950

who bought tickets already people are

493

00:21:57,950 --> 00:21:55,350

really excited for this event end quotes

494

00:22:00,800 --> 00:21:57,960

if you want more information if you're

495

00:22:03,200 --> 00:22:00,810

in the area or you can get there further

496

00:22:05,900 --> 00:22:03,210

information on the festival as well as

497

00:22:09,170 --> 00:22:05,910

ticket info you can find at a link you

498

00:22:12,110 --> 00:22:09,180

can find later at UFO headline news calm

499

00:22:15,400 --> 00:22:12,120

well that's all there is there isn't any

500

00:22:17,350 --> 00:22:15,410

more we've got a fly because

501

00:22:19,780 --> 00:22:17,360

so wrap thank you for listening to

502

00:22:22,810 --> 00:22:19,790

inception radio network follow today's

503

00:22:24,670 --> 00:22:22,820

broadcast at iHeartRadio or YouTube we

504

00:22:26,800 --> 00:22:24,680

take care of each other we're all in

505

00:22:28,080 --> 00:22:26,810

this together this is Carol column see
