

 UFO Headline News | Friday September 15th, 2017

Listen on

inceptionradionetwork.com

1
00:00:07,369 --> 00:00:05,300
hello it's Friday September 15 2017 you

2
00:00:09,740 --> 00:00:07,379
are listening to in section Radio

3
00:00:12,620 --> 00:00:09,750
Network voice of the fringe majority

4
00:00:17,090 --> 00:00:12,630
this is Carol Carl with UFO headline

5
00:00:19,010 --> 00:00:17,100
news let's check our sky watching for

6
00:00:21,830 --> 00:00:19,020
tonight from a new source we found a

7
00:00:24,890 --> 00:00:21,840
source at the Fairbanks Museum dot org

8
00:00:28,040 --> 00:00:24,900
there's a planetarium in Alaska at least

9
00:00:30,620 --> 00:00:28,050
one and here's what they say the summer

10
00:00:33,260 --> 00:00:30,630
skies like the weather are in transition

11
00:00:35,000 --> 00:00:33,270
through September the Scorpion lowers

12
00:00:37,850 --> 00:00:35,010
into the southwest through the month

13
00:00:40,250 --> 00:00:37,860

followed by that teapot in Sagittarius

14

00:00:42,770 --> 00:00:40,260

between them Saturn remains in view

15

00:00:45,049 --> 00:00:42,780

getting lower each evening earlier

16

00:00:47,450 --> 00:00:45,059

evenings feature the Big Dipper sinking

17

00:00:49,940 --> 00:00:47,460

lower into the northwestern skies while

18

00:00:53,209 --> 00:00:49,950

that broad faint path of our Milky Way

19

00:00:55,729 --> 00:00:53,219

arches from northeast to southwest the

20

00:00:57,920 --> 00:00:55,739

summer triangle lingers above while the

21

00:01:00,680 --> 00:00:57,930

eastern skies are relatively absent of

22

00:01:02,330 --> 00:01:00,690

bright stars you can see Jupiter but it

23

00:01:04,549 --> 00:01:02,340

will disappear into the glare of the

24

00:01:06,920 --> 00:01:04,559

Setting Sun here's what tonight

25

00:01:10,070 --> 00:01:06,930

specifically looks like Fairbanks

26

00:01:13,039 --> 00:01:10,080

planetarium writes this tonight a close

27

00:01:14,929 --> 00:01:13,049

encounter of the planetary sorts appears

28

00:01:19,190 --> 00:01:14,939

low in the eastern skies tomorrow

29

00:01:21,710 --> 00:01:19,200

morning from 5:30 to 5:45 a.m. mercury

30

00:01:24,590 --> 00:01:21,720

will give us its best morning view of

31

00:01:27,260 --> 00:01:24,600

the entire year join just below it by

32

00:01:27,800 --> 00:01:27,270

the much fainter Mars each morning this

33

00:01:30,289 --> 00:01:27,810

weekend

34

00:01:33,499 --> 00:01:30,299

Mars will climb a little higher above

35

00:01:36,770 --> 00:01:33,509

mercury watch for it and it's curtains

36

00:01:39,230 --> 00:01:36,780

for Cassini let's go to earth sky org

37

00:01:41,990 --> 00:01:39,240

for their space departments coverage of

38

00:01:45,139 --> 00:01:42,000

this and here's the headline goodbye

39

00:01:47,960 --> 00:01:45,149

Cassini exclamation mark the staff at

40

00:01:50,120 --> 00:01:47,970

earth sky wrote this mission scientists

41

00:01:53,899 --> 00:01:50,130

predict loss of contact with the Cassini

42

00:01:54,770 --> 00:01:53,909

spacecraft today at 7:55 a.m. Eastern

43

00:01:58,609 --> 00:01:54,780

Daylight Time

44

00:02:00,410 --> 00:01:58,619

that's 11:55 UTC and depending on where

45

00:02:02,840 --> 00:02:00,420

you are when you hear this broadcast it

46

00:02:05,030 --> 00:02:02,850

may already have happened there's a link

47

00:02:07,490 --> 00:02:05,040

you can click to learn how to follow the

48

00:02:09,589 --> 00:02:07,500

missions fiery end online and you can

49

00:02:12,199 --> 00:02:09,599

find that link later at UF o headline

50

00:02:13,309 --> 00:02:12,209

news comm we're sure it's all going to

51

00:02:16,190 --> 00:02:13,319

be archived

52

00:02:19,129 --> 00:02:16,200

if you miss the actual moment Cassini is

53

00:02:21,589 --> 00:02:19,139

ending its 13-year tour of the Saturn

54

00:02:23,750 --> 00:02:21,599

system with an intentional plunge into

55

00:02:26,599 --> 00:02:23,760

the planet to ensure that Saturn's moons

56

00:02:28,459 --> 00:02:26,609

in particular and salad as' with its

57

00:02:31,039 --> 00:02:28,469

subsurface ocean and signs of

58

00:02:33,879 --> 00:02:31,049

hydrothermal activity remain pristine

59

00:02:36,860 --> 00:02:33,889

that's the word for future exploration

60

00:02:39,729 --> 00:02:36,870

the spacecraft's fateful dive is the

61

00:02:42,949 --> 00:02:39,739

final beat in the missions grande finale

62

00:02:43,670 --> 00:02:42,959

twenty-two weekly dives which began in

63

00:02:47,020 --> 00:02:43,680

late April

64

00:02:50,270 --> 00:02:47,030

those dives between Saturn and its rings

65

00:02:53,000 --> 00:02:50,280

no spacecraft has ever ventured so close

66

00:02:55,459 --> 00:02:53,010

to that planet before the missions final

67

00:02:57,740 --> 00:02:55,469

calculations predict loss of contact

68

00:02:58,629 --> 00:02:57,750

with the Cassini spacecraft will take

69

00:03:02,360 --> 00:02:58,639

place today

70

00:03:04,640 --> 00:03:02,370

7:55 a.m. again a Cassini will enter

71

00:03:06,589 --> 00:03:04,650

Saturn's atmosphere approximately one

72

00:03:11,839 --> 00:03:06,599

minute earlier at an altitude of about

73

00:03:14,420 --> 00:03:11,849

1,000 190 miles that's 1915 kilometres

74

00:03:16,729 --> 00:03:14,430

above the planets estimated cloud tops

75

00:03:19,640 --> 00:03:16,739

that's the place where altitude air

76

00:03:22,219 --> 00:03:19,650

pressure is 1 bar that's equivalent to

77

00:03:24,189 --> 00:03:22,229

sea level on earth live mission

78

00:03:26,749 --> 00:03:24,199

commentary and video from Jet Propulsion

79

00:03:29,030 --> 00:03:26,759

laboratories out of Pasadena California

80

00:03:31,490 --> 00:03:29,040

that's where Mission Control is and that

81

00:03:34,460 --> 00:03:31,500

will air on NASA television from 7 to

82

00:03:36,949 --> 00:03:34,470

8:30 a.m. Eastern Daylight Time that's

83

00:03:38,050 --> 00:03:36,959

today there's a post mission news

84

00:03:40,309 --> 00:03:38,060

briefing from Jet Propulsion

85

00:03:42,679 --> 00:03:40,319

laboratories that's currently scheduled

86

00:03:47,360 --> 00:03:42,689

to take place at 9:30 a.m. Eastern

87

00:03:51,140 --> 00:03:47,370

Daylight Time or 1330 UTC and that also

88

00:03:53,569 --> 00:03:51,150

will be on NASA TV during its dive into

89

00:03:57,789 --> 00:03:53,579

the atmosphere the spacecraft speed will

90

00:04:01,039 --> 00:03:57,799

be approximately 70,000 miles per hour

91

00:04:02,839 --> 00:04:01,049

113,000 kilometers the final plunge will

92

00:04:05,569 --> 00:04:02,849

take place on the day side of Saturn

93

00:04:07,909 --> 00:04:05,579

near local noon with the spacecraft

94

00:04:11,629 --> 00:04:07,919

entering the atmosphere around 10

95

00:04:15,259 --> 00:04:11,639

degrees north latitude so it's high noon

96

00:04:16,789 --> 00:04:15,269

on Saturn for Cassini when Cassini first

97

00:04:19,370 --> 00:04:16,799

began to encounter Saturn's atmosphere

98

00:04:21,769 --> 00:04:19,380

the spacecraft's altitude control

99

00:04:24,560 --> 00:04:21,779

thrusters will begin firing in short

100

00:04:27,140 --> 00:04:24,570

bursts to work against the thin gas and

101
00:04:29,629 --> 00:04:27,150
keep Cassini saucer-shaped high gain

102
00:04:31,840 --> 00:04:29,639
antenna pointed at earth to relay the

103
00:04:34,550 --> 00:04:31,850
missions precious final data as

104
00:04:36,469 --> 00:04:34,560
atmosphere thickens the thrusters will

105
00:04:40,219 --> 00:04:36,479
be forced to ramp up their activity

106
00:04:43,010 --> 00:04:40,229
going from 10% of their capacity to 100%

107
00:04:45,080 --> 00:04:43,020
of this man in about a minute once

108
00:04:47,810 --> 00:04:45,090
they're firing at full capacity the

109
00:04:50,330 --> 00:04:47,820
thrusters can do no more to keep Cassini

110
00:04:53,810 --> 00:04:50,340
stable appointed and the spacecraft will

111
00:04:55,580 --> 00:04:53,820
begin to tumble when that antenna points

112
00:04:57,860 --> 00:04:55,590
just a few fractions of a degree away

113
00:05:00,740 --> 00:04:57,870

from Earth Communications will be

114

00:05:02,990 --> 00:05:00,750

severed permanently the predicted

115

00:05:05,090 --> 00:05:03,000

altitude for loss of signal that's about

116

00:05:07,700 --> 00:05:05,100

nine hundred and thirty miles fifteen

117

00:05:10,850 --> 00:05:07,710

hundred kilometers above Saturn's cloud

118

00:05:14,180 --> 00:05:10,860

tops from that point the spacecraft will

119

00:05:15,920 --> 00:05:14,190

begin to burn up like a meteor within

120

00:05:18,140 --> 00:05:15,930

about 30 seconds following loss of

121

00:05:20,480 --> 00:05:18,150

signal the spacecraft will begin to come

122

00:05:23,089 --> 00:05:20,490

apart within a couple of minutes all

123

00:05:25,370 --> 00:05:23,099

remnants of the spacecraft are expected

124

00:05:28,999 --> 00:05:25,380

to be completely consumed in the

125

00:05:31,640 --> 00:05:29,009

atmosphere of Saturn due to travel time

126

00:05:33,680 --> 00:05:31,650

for radio signals from Saturn which

127

00:05:36,230 --> 00:05:33,690

changes as both earth and the ringed

128

00:05:38,300 --> 00:05:36,240

planet travel around the Sun events

129

00:05:40,189 --> 00:05:38,310

currently take place there 86 minutes

130

00:05:42,950 --> 00:05:40,199

before they're observed here on earth

131

00:05:44,990 --> 00:05:42,960

this means that although the spacecraft

132

00:05:48,140 --> 00:05:45,000

will begin to tumble and go out of

133

00:05:50,990 --> 00:05:48,150

communication at 6:31 a.m. Eastern

134

00:05:52,670 --> 00:05:51,000

Daylight Time at Saturn the signal from

135

00:05:56,149 --> 00:05:52,680

that event will not be received at Earth

136

00:05:58,040 --> 00:05:56,159

until well 86 minutes later here's a

137

00:06:00,050 --> 00:05:58,050

quote from Earl Mays he's Cassini

138

00:06:03,710 --> 00:06:00,060

project manager at NASA's Jet Propulsion

139

00:06:06,649 --> 00:06:03,720

Laboratory quote the spacecraft's final

140

00:06:08,570 --> 00:06:06,659

signal will be like an echo it will

141

00:06:10,790 --> 00:06:08,580

radiate across the solar system for

142

00:06:13,939 --> 00:06:10,800

nearly an hour and a half after Cassini

143

00:06:16,760 --> 00:06:13,949

itself is gone even though we'll know

144

00:06:19,550 --> 00:06:16,770

that at Saturn Cassini has already met

145

00:06:21,740 --> 00:06:19,560

its fate its mission isn't truly over

146

00:06:24,200 --> 00:06:21,750

for us on earth as long as we're still

147

00:06:26,260 --> 00:06:24,210

receiving its signal end quote

148

00:06:29,330 --> 00:06:26,270

Cassini is set to make groundbreaking

149

00:06:32,120 --> 00:06:29,340

scientific observations of Saturn using

150

00:06:34,460 --> 00:06:32,130

eight of its 12 science instruments all

151
00:06:36,379 --> 00:06:34,470
of the missions magnetosphere and plasma

152
00:06:38,629 --> 00:06:36,389
science instruments plus the

153
00:06:40,760 --> 00:06:38,639
spacecraft's radio science system its

154
00:06:43,249 --> 00:06:40,770
infrared and ultraviolet spec

155
00:06:44,950 --> 00:06:43,259
promoters will collect data even during

156
00:06:47,960 --> 00:06:44,960
that final plunge

157
00:06:50,059 --> 00:06:47,970
Cassini's last transmissions will be

158
00:06:52,689 --> 00:06:50,069
received by antennas at NASA's Deep

159
00:06:57,140 --> 00:06:52,699
Space Network complex in Canberra

160
00:06:58,879 --> 00:06:57,150
Australia from way up above to way down

161
00:07:01,869 --> 00:06:58,889
under that's cool

162
00:07:05,659 --> 00:07:01,879
goodbye Cassini you've done a great job

163
00:07:07,730 --> 00:07:05,669

we've grabbed UFO sightings for UFO

164

00:07:09,890 --> 00:07:07,740

headline news how appropriate

165

00:07:11,899 --> 00:07:09,900

they're from various sources we'll start

166

00:07:15,980 --> 00:07:11,909

with William pucketts excellent sight

167

00:07:18,499 --> 00:07:15,990

UFOs Northwest com for this report which

168

00:07:20,839 --> 00:07:18,509

Northwest doesn't really apply this

169

00:07:25,010 --> 00:07:20,849

comes from the country of Greece city of

170

00:07:28,430 --> 00:07:25,020

Petrov spoke PA tra s the date of this

171

00:07:30,830 --> 00:07:28,440

sighting was August 31st 2017 the time

172

00:07:33,439 --> 00:07:30,840

of the sighting was 11:40 p.m. local

173

00:07:37,300 --> 00:07:33,449

time and here's the headline eight

174

00:07:40,100 --> 00:07:37,310

steering wheel shaped yellow orange orbs

175

00:07:43,640 --> 00:07:40,110

here's the description first person from

176

00:07:46,700 --> 00:07:43,650

the witness I saw eight steering wheel

177

00:07:48,709 --> 00:07:46,710

shaped yellow orange orbs which appeared

178

00:07:51,980 --> 00:07:48,719

approximately four five minutes in the

179

00:07:54,860 --> 00:07:51,990

sky fading their lights but they could

180

00:07:58,490 --> 00:07:54,870

still be seen and then those lights

181

00:08:01,700 --> 00:07:58,500

shined brightly again on and off once

182

00:08:04,399 --> 00:08:01,710

sometimes twice two of these objects had

183

00:08:07,100 --> 00:08:04,409

green and red lights as well and then

184

00:08:09,469 --> 00:08:07,110

they started to move away they hovered

185

00:08:12,230 --> 00:08:09,479

around initially together creating a

186

00:08:14,450 --> 00:08:12,240

triangle shape in the sky it reminded me

187

00:08:17,510 --> 00:08:14,460

of being similar to airplane displays

188

00:08:19,189 --> 00:08:17,520

but then these lights separated they

189

00:08:22,129 --> 00:08:19,199

disappeared behind other apartment

190

00:08:24,409 --> 00:08:22,139

buildings out of my view and others flew

191

00:08:27,589 --> 00:08:24,419

toward a faraway mountain to the right I

192

00:08:29,269 --> 00:08:27,599

may not be the only witness so I've

193

00:08:31,670 --> 00:08:29,279

decided to share this experience with

194

00:08:34,819 --> 00:08:31,680

others I took a photo with my cell phone

195

00:08:36,740 --> 00:08:34,829

but images from Mobile's do not exactly

196

00:08:40,040 --> 00:08:36,750

come out like the image as seen by the

197

00:08:42,829 --> 00:08:40,050

naked eye instead in my case this image

198

00:08:45,350 --> 00:08:42,839

comes up as a light spot but in reality

199

00:08:48,440 --> 00:08:45,360

it's much more impressive because it

200

00:08:50,500 --> 00:08:48,450

wasn't just a spot of light obviously a

201
00:08:53,510 --> 00:08:50,510
better camera would capture more detail

202
00:08:54,290 --> 00:08:53,520
unfortunately I did not have access to a

203
00:08:57,800 --> 00:08:54,300
better

204
00:09:00,620 --> 00:08:57,810
camera fascinating Greece lots of

205
00:09:02,480 --> 00:09:00,630
sightings we'll keep our eyes there how

206
00:09:05,420 --> 00:09:02,490
about a trip to Scotland that sounds

207
00:09:08,930 --> 00:09:05,430
good to me bagpipes and everything from

208
00:09:13,130 --> 00:09:08,940
the express.com dot UK here's this

209
00:09:15,380 --> 00:09:13,140
headline UFO shocker is this the bottom

210
00:09:18,710 --> 00:09:15,390
of a flying saucer hovering over the

211
00:09:21,199 --> 00:09:18,720
photographer's head hmm take a look

212
00:09:23,960 --> 00:09:21,209
later at UFO headline news calm gentle

213
00:09:25,759 --> 00:09:23,970

listeners make your own decisions we

214

00:09:27,889 --> 00:09:25,769

have to say in all the time we've been

215

00:09:31,460 --> 00:09:27,899

covering stories for UFO headline news

216

00:09:34,160 --> 00:09:31,470

we haven't seen the likes of this this

217

00:09:37,130 --> 00:09:34,170

craft was reported photographed by a man

218

00:09:39,860 --> 00:09:37,140

who had to quote bend over backwards and

219

00:09:43,100 --> 00:09:39,870

quotes to get it in sight it was above

220

00:09:44,720 --> 00:09:43,110

an oil refinery the extraordinary image

221

00:09:47,509 --> 00:09:44,730

was revealed to the audience at the

222

00:09:50,690 --> 00:09:47,519

Outer Limits magazine 70 years of the

223

00:09:53,600 --> 00:09:50,700

modern UFO era conference held in Hull

224

00:09:56,420 --> 00:09:53,610

by UFO investigator Malcom Robinson

225

00:09:59,690 --> 00:09:56,430

Malcom Robinson has investigated UFO

226

00:10:02,630 --> 00:09:59,700

since the 1980s and he says this is the

227

00:10:05,329 --> 00:10:02,640

most remarkable UFO picture he has come

228

00:10:08,350 --> 00:10:05,339

across Robinson told the audience that

229

00:10:11,720 --> 00:10:08,360

two men were photographing the BP oil

230

00:10:14,329 --> 00:10:11,730

refinery at Grangemouth central Scotland

231

00:10:17,180 --> 00:10:14,339

it was at night and they spotted a

232

00:10:19,280 --> 00:10:17,190

distant red object they then flew

233

00:10:22,040 --> 00:10:19,290

directly toward them said Robinson

234

00:10:25,010 --> 00:10:22,050

here's the rest of the quote this red

235

00:10:28,250 --> 00:10:25,020

ball of light shot across them and was

236

00:10:31,550 --> 00:10:28,260

200 to 300 feet above when he took this

237

00:10:33,889 --> 00:10:31,560

picture he literally had to bend over to

238

00:10:36,170 --> 00:10:33,899

take it we all checked with the usual

239

00:10:39,470 --> 00:10:36,180

people there was nothing in the area at

240

00:10:42,680 --> 00:10:39,480

that time it is nice we got a photo is

241

00:10:45,620 --> 00:10:42,690

that evidence I am here to tell you to

242

00:10:48,050 --> 00:10:45,630

open up your minds end quotes that's

243

00:10:50,420 --> 00:10:48,060

Malcom Robinson he runs strange

244

00:10:52,970 --> 00:10:50,430

phenomena investigations SPI

245

00:10:55,100 --> 00:10:52,980

they're based in central Scotland you

246

00:10:58,009 --> 00:10:55,110

can link to them later at UFO headline

247

00:11:01,280 --> 00:10:58,019

news and see this extraordinary photo

248

00:11:03,110 --> 00:11:01,290

we recommend from Scotland we'll take a

249

00:11:06,170 --> 00:11:03,120

wee bit of a journey over to

250

00:11:07,980 --> 00:11:06,180

Philadelphia a journey indeed across the

251

00:11:12,060 --> 00:11:07,990

pond to the United States

252

00:11:14,610 --> 00:11:12,070

it's MUFON Case number 86 for10

253

00:11:16,560 --> 00:11:14,620

Philadelphia Pennsylvania is the city

254

00:11:18,990 --> 00:11:16,570

the date of the sighting was the first

255

00:11:22,230 --> 00:11:19,000

of September this year that was reported

256

00:11:27,060 --> 00:11:22,240

on the 1st of September same day report

257

00:11:28,980 --> 00:11:27,070

in summary saw in straight line then saw

258

00:11:31,260 --> 00:11:28,990

disappear into clouds

259

00:11:33,960 --> 00:11:31,270

there's cool video that accompanies this

260

00:11:36,390 --> 00:11:33,970

sighting there's a humming sound you can

261

00:11:38,070 --> 00:11:36,400

hear from this red orange orb and then

262

00:11:40,830 --> 00:11:38,080

there's the enchanting sound of crickets

263

00:11:43,260 --> 00:11:40,840

or maybe tree frogs in the background

264

00:11:45,960 --> 00:11:43,270

here's what the sighting specifics offer

265

00:11:49,860 --> 00:11:45,970

the viewing distance was over 1 mile and

266

00:11:52,500 --> 00:11:49,870

ultimately unknown the altitude over 500

267

00:11:55,290 --> 00:11:52,510

feet underneath the cloud cover and then

268

00:11:55,800 --> 00:11:55,300

unknown the sighting duration was 5

269

00:11:58,680 --> 00:11:55,810

minutes

270

00:12:01,410 --> 00:11:58,690

but vexing ly those objects features are

271

00:12:03,510 --> 00:12:01,420

still reported as simply other the

272

00:12:06,660 --> 00:12:03,520

flight path was a straight-line path and

273

00:12:09,540 --> 00:12:06,670

this object appropriately for today and

274

00:12:13,080 --> 00:12:09,550

Cassini this object was shaped Saturn

275

00:12:16,680 --> 00:12:13,090

like here's the report I was driving

276

00:12:19,050 --> 00:12:16,690

home this wasn't a normal thing in the

277

00:12:21,120 --> 00:12:19,060

sky I thought it was a helicopter at

278

00:12:24,210 --> 00:12:21,130

first cylinder-shaped

279

00:12:28,920 --> 00:12:24,220

bright red on top bright white on the

280

00:12:31,680 --> 00:12:28,930

bottom no sound it passed by three times

281

00:12:33,900 --> 00:12:31,690

disappeared into the clouds and did it

282

00:12:36,570 --> 00:12:33,910

again but you don't see it appear the

283

00:12:39,420 --> 00:12:36,580

second time and the third time it just

284

00:12:42,180 --> 00:12:39,430

repeated that same flight pattern I was

285

00:12:44,190 --> 00:12:42,190

scared and excited at the same time I

286

00:12:46,830 --> 00:12:44,200

didn't know if I should call someone or

287

00:12:49,410 --> 00:12:46,840

stop and take a video I called a couple

288

00:12:52,650 --> 00:12:49,420

of people after the sighting and then

289

00:12:55,590 --> 00:12:52,660

this thing seemed to reappear a mile or

290

00:12:58,440 --> 00:12:55,600

two down in the sky towards another area

291

00:13:00,510 --> 00:12:58,450

I took a video but I don't know how good

292

00:13:04,170 --> 00:13:00,520

it is the camera on the phone wasn't

293

00:13:07,710 --> 00:13:04,180

that great yep better equipment needed

294

00:13:11,040 --> 00:13:07,720

all around but still this elusive nature

295

00:13:13,170 --> 00:13:11,050

hard to capture it's too long for a road

296

00:13:15,480 --> 00:13:13,180

trip we're going to Vancouver Washington

297

00:13:18,810 --> 00:13:15,490

now for the next sighting so let's just

298

00:13:21,690 --> 00:13:18,820

take a zoom we're there it's MUFON case

299

00:13:23,130 --> 00:13:21,700

number 8 6 6 0 2

300

00:13:26,580 --> 00:13:23,140

the date of this sighting is September

301
00:13:28,620 --> 00:13:26,590
10th 2017 it was reported September 11th

302
00:13:31,770 --> 00:13:28,630
the summary goes like this

303
00:13:35,400 --> 00:13:31,780
watched lights for about 45 minutes

304
00:13:38,370 --> 00:13:35,410
then quit observing citing specifics

305
00:13:41,370 --> 00:13:38,380
viewing distance over one mile altitude

306
00:13:43,830 --> 00:13:41,380
unknown this sighting duration was one

307
00:13:46,590 --> 00:13:43,840
hour we can understand why one might

308
00:13:49,200 --> 00:13:46,600
just quit observing the object features

309
00:13:52,410 --> 00:13:49,210
unknown the object flight path was

310
00:13:54,840 --> 00:13:52,420
stationary and this object is reported

311
00:13:58,590 --> 00:13:54,850
to have been shaped like a triangle a

312
00:14:01,140 --> 00:13:58,600
black triangle no meteorological

313
00:14:03,750 --> 00:14:01,150

notation whatsoever so here's the

314

00:14:06,120 --> 00:14:03,760

account we stepped outside the front

315

00:14:09,510 --> 00:14:06,130

door to smoke we were looking at the Big

316

00:14:12,300 --> 00:14:09,520

Dipper when I turned and noticed strange

317

00:14:14,580 --> 00:14:12,310

lights to the northwest I watched for a

318

00:14:17,220 --> 00:14:14,590

few moments and I realized it wasn't a

319

00:14:20,700 --> 00:14:17,230

plane my adult son was with me and I

320

00:14:22,740 --> 00:14:20,710

pointed this out to him so we stood and

321

00:14:26,250 --> 00:14:22,750

watched it he asked if I had any

322

00:14:29,850 --> 00:14:26,260

binoculars which I did not and then he

323

00:14:31,650 --> 00:14:29,860

said I'll get my phone it has zoom we

324

00:14:34,350 --> 00:14:31,660

watched this for five minutes and it

325

00:14:35,880 --> 00:14:34,360

didn't move location I told him I was

326

00:14:38,850 --> 00:14:35,890

going to the end of the street to see if

327

00:14:41,520 --> 00:14:38,860

I could get a clearer view once there I

328

00:14:44,280 --> 00:14:41,530

could see it much clearer and told him

329

00:14:46,650 --> 00:14:44,290

to come down to where I was so he began

330

00:14:49,620 --> 00:14:46,660

taking photos we stood there for another

331

00:14:51,810 --> 00:14:49,630

twenty minutes during this time I

332

00:14:55,290 --> 00:14:51,820

noticed a neighbor was up with his door

333

00:14:57,060 --> 00:14:55,300

open so I called him out to see this we

334

00:14:59,160 --> 00:14:57,070

watched it for some time and we all

335

00:15:01,740 --> 00:14:59,170

agreed this was not something normal

336

00:15:03,630 --> 00:15:01,750

I'm disabled so I couldn't stand there

337

00:15:05,700 --> 00:15:03,640

any longer and we headed back to the

338

00:15:09,240 --> 00:15:05,710

house where we watched for a few more

339

00:15:11,970 --> 00:15:09,250

minutes it's now 10:20 p.m. and it's

340

00:15:14,520 --> 00:15:11,980

still there and still in the same

341

00:15:17,550 --> 00:15:14,530

position but no just slightly higher

342

00:15:19,590 --> 00:15:17,560

this thing is very large it was

343

00:15:22,920 --> 00:15:19,600

approximately five miles away that's our

344

00:15:26,070 --> 00:15:22,930

guess and pinky nail size at arm's

345

00:15:28,530 --> 00:15:26,080

length in size not a planet that I'm

346

00:15:31,800 --> 00:15:28,540

aware of and I'm a Sky Watcher I've

347

00:15:35,040 --> 00:15:31,810

never seen in any season this before as

348

00:15:35,350 --> 00:15:35,050

I write this the object is still observe

349

00:15:42,820 --> 00:15:35,360

a

350

00:15:46,780 --> 00:15:42,830

signing off now

351

00:15:48,910 --> 00:15:46,790

it's 10:30 it's still there by the way

352

00:15:52,389 --> 00:15:48,920

we do have photos but we don't know how

353

00:15:54,730 --> 00:15:52,399

to download them Oh at the bottom of

354

00:15:57,250 --> 00:15:54,740

every sighting reported to the UFO

355

00:15:58,690 --> 00:15:57,260

stalker comm site there's a section

356

00:16:00,940 --> 00:15:58,700

where you can leave your comments and

357

00:16:03,280 --> 00:16:00,950

suggestions or questions if you have

358

00:16:05,259 --> 00:16:03,290

them it's a community of folks there

359

00:16:07,120 --> 00:16:05,269

we're guessing somebody's going to pop

360

00:16:10,600 --> 00:16:07,130

in and suggest to this witness how to

361

00:16:11,860 --> 00:16:10,610

download said photos we'll watch and

362

00:16:14,410 --> 00:16:11,870

keep you posted

363

00:16:16,750 --> 00:16:14,420

here's another road trip we've got to

364

00:16:19,660 --> 00:16:16,760

take from Philadelphia to the state of

365

00:16:22,030 --> 00:16:19,670

California the Golden State the city of

366

00:16:24,970 --> 00:16:22,040

Marysville up near the state capital of

367

00:16:27,790 --> 00:16:24,980

Sacramento it's MUFON case number eight

368

00:16:30,639 --> 00:16:27,800

six six four one the date of this

369

00:16:33,340 --> 00:16:30,649

sighting is September 11th 2017 it was

370

00:16:37,120 --> 00:16:33,350

reported September 12th and here's the

371

00:16:39,630 --> 00:16:37,130

summary driving on highway 20 noticed a

372

00:16:42,970 --> 00:16:39,640

rainbow going to take a picture of it

373

00:16:45,519 --> 00:16:42,980

noticed an orb following the rainbow

374

00:16:47,139 --> 00:16:45,529

from the bottom moving towards the

375

00:16:50,050 --> 00:16:47,149

bottom of the rainbow

376

00:16:53,889 --> 00:16:50,060

there are photos check them out later at

377

00:16:56,319 --> 00:16:53,899

UFO headline news calm our witness lists

378

00:16:59,620 --> 00:16:56,329

the sighting specifics thus viewing

379

00:17:02,920 --> 00:16:59,630

distance 501 feet to one mile they

380

00:17:06,569 --> 00:17:02,930

altitude 500 feet or less sighting

381

00:17:09,850 --> 00:17:06,579

duration 20 minutes object features dome

382

00:17:13,540 --> 00:17:09,860

object flight path path with directional

383

00:17:14,230 --> 00:17:13,550

change object shape sphere let's check

384

00:17:16,449 --> 00:17:14,240

out the weather

385

00:17:18,579 --> 00:17:16,459

yikes the maximum temperature in

386

00:17:21,460 --> 00:17:18,589

Marysville California on this date was

387

00:17:24,760 --> 00:17:21,470

100 degrees Fahrenheit 38 degrees

388

00:17:27,340 --> 00:17:24,770

Celsius dropping down to a reasonable 68

389

00:17:30,490 --> 00:17:27,350

degrees Fahrenheit 20 degrees Celsius

390

00:17:33,070 --> 00:17:30,500

the visibility factors all standard the

391

00:17:35,950 --> 00:17:33,080

maximum mean and minimum were all 10

392

00:17:37,680 --> 00:17:35,960

miles 16 kilometers and at the time of

393

00:17:41,860 --> 00:17:37,690

this account nothing abnormal

394

00:17:44,260 --> 00:17:41,870

weather-wise here we go I was driving on

395

00:17:46,600 --> 00:17:44,270

highway 20 in California near the city

396

00:17:48,730 --> 00:17:46,610

of Marysville I was heading back towards

397

00:17:52,180 --> 00:17:48,740

our burn about 7:30

398

00:17:55,480 --> 00:17:52,190

em they was September 11th it was cloudy

399

00:17:58,210 --> 00:17:55,490

very misty very humid they'd had just

400

00:18:00,570 --> 00:17:58,220

finished raining when I noticed half a

401
00:18:02,980 --> 00:18:00,580
rainbow coming out of the cloud I

402
00:18:06,370 --> 00:18:02,990
decided to take a picture of this

403
00:18:09,760 --> 00:18:06,380
rainbow and I noticed at the bottom of

404
00:18:12,430 --> 00:18:09,770
the rainbow a white orb an orb that was

405
00:18:15,430 --> 00:18:12,440
moving towards the rainbow and started

406
00:18:17,620 --> 00:18:15,440
to move closer up about from where I was

407
00:18:19,690 --> 00:18:17,630
standing it looked to be a few inches up

408
00:18:22,210 --> 00:18:19,700
the rainbow but obviously it could have

409
00:18:24,040 --> 00:18:22,220
been a few hundred feet at the time my

410
00:18:26,799 --> 00:18:24,050
girlfriend was driving the car so I was

411
00:18:28,810 --> 00:18:26,809
able to take three photos you could see

412
00:18:31,260 --> 00:18:28,820
that the orb changed two or three

413
00:18:34,290 --> 00:18:31,270

different directions within those photos

414

00:18:38,110 --> 00:18:34,300

most of this area by the way is rural

415

00:18:40,540 --> 00:18:38,120

farms and mountain ranges yep there's a

416

00:18:42,610 --> 00:18:40,550

history of UFO sightings in that region

417

00:18:44,860 --> 00:18:42,620

of California curious

418

00:18:47,799 --> 00:18:44,870

just a reminder gentle listeners

419

00:18:50,980 --> 00:18:47,809

tomorrow is off the beaten path where we

420

00:18:53,950 --> 00:18:50,990

step outside the box and wellyes off the

421

00:18:55,720 --> 00:18:53,960

beaten path for the UFO headline news we

422

00:18:57,940 --> 00:18:55,730

found a great story about a fanged

423

00:19:00,310 --> 00:18:57,950

creature that washed up on the beach

424

00:19:03,370 --> 00:19:00,320

after Hurricane Emma and we're going to

425

00:19:06,820 --> 00:19:03,380

cover that warrior princess feature so

426

00:19:10,150 --> 00:19:06,830

join us same time slots just a bit of

427

00:19:12,580 --> 00:19:10,160

other stuff tides etc and there's

428

00:19:15,040 --> 00:19:12,590

new stuff on that Chicago owl man we

429

00:19:17,080 --> 00:19:15,050

know you won't want to miss it now let's

430

00:19:20,650 --> 00:19:17,090

go to an interesting story from the

431

00:19:22,930 --> 00:19:20,660

numismatic news yep all you coin

432

00:19:27,070 --> 00:19:22,940

collectors out there there's a new coin

433

00:19:30,850 --> 00:19:27,080

it marks a UFO anniversary how cool is

434

00:19:33,400 --> 00:19:30,860

that here's the story as all UFO

435

00:19:37,210 --> 00:19:33,410

enthusiasts know the headline of the

436

00:19:41,799 --> 00:19:37,220

Roswell Daily Record for July 9 1947

437

00:19:45,760 --> 00:19:41,809

read our AAF captures flying saucer on

438

00:19:47,200 --> 00:19:45,770

ranch in Roswell region and quotes it

439

00:19:50,880 --> 00:19:47,210

was the beginning of what would become

440

00:19:53,980 --> 00:19:50,890

the most famous UFO incident of all time

441

00:19:56,950 --> 00:19:53,990

to mark the 70th anniversary of the

442

00:20:01,180 --> 00:19:56,960

discovery of the flying saucer arced

443

00:20:02,350 --> 00:20:01,190

mint has produced a 3d 40 millimeter 40

444

00:20:04,830 --> 00:20:02,360

G at point

445

00:20:08,080 --> 00:20:04,840

nine-to-five fine silver

446

00:20:12,370 --> 00:20:08,090

glow-in-the-dark two-dollar proof struck

447

00:20:15,550 --> 00:20:12,380

four knee you mintage is 700 that sounds

448

00:20:17,470 --> 00:20:15,560

like a low number to us naturally such a

449

00:20:19,690 --> 00:20:17,480

sensational headline was picked up by

450

00:20:22,390 --> 00:20:19,700

national media outlets and rapidly

451
00:20:24,640 --> 00:20:22,400
became widespread the discovery had been

452
00:20:27,850 --> 00:20:24,650
made a month earlier actually by a local

453
00:20:30,700 --> 00:20:27,860
farmer but it was only on July 7th that

454
00:20:34,300 --> 00:20:30,710
the RAAF and that stands for Roswell

455
00:20:36,850 --> 00:20:34,310
Army Airfield recovered the remains of

456
00:20:38,470 --> 00:20:36,860
the saucer by the following day the

457
00:20:40,540 --> 00:20:38,480
United States Air Force had put out a

458
00:20:43,510 --> 00:20:40,550
release describing the wreckage as that

459
00:20:46,320 --> 00:20:43,520
of a weather balloon and it's kite a

460
00:20:48,850 --> 00:20:46,330
nickname for a radar reflector kite

461
00:20:51,040 --> 00:20:48,860
while this turned off most media

462
00:20:54,220 --> 00:20:51,050
speculation it was somewhat economical

463
00:20:57,400 --> 00:20:54,230

with the truth and thus sowed the seeds

464

00:21:00,880 --> 00:20:57,410

of the Roswell incident it was 30 years

465

00:21:03,550 --> 00:21:00,890

before those seeds sprouted in 1978

466

00:21:06,910 --> 00:21:03,560

nuclear physicist and author Stanton T

467

00:21:08,230 --> 00:21:06,920

Friedman got on the case the accounts

468

00:21:09,880 --> 00:21:08,240

that Stanton Friedman and others

469

00:21:12,100 --> 00:21:09,890

presented over the following years

470

00:21:14,980 --> 00:21:12,110

elevated Roswell from a forgotten

471

00:21:18,340 --> 00:21:14,990

incident to worldwide government

472

00:21:20,830 --> 00:21:18,350

conspiracy status in the 1990s the

473

00:21:23,110 --> 00:21:20,840

United States military admitted that at

474

00:21:25,120 --> 00:21:23,120

the time of the initial recovery

475

00:21:28,780 --> 00:21:25,130

they had concealed the true purpose of

476

00:21:31,540 --> 00:21:28,790

the crashed device this broadcaster

477

00:21:33,430 --> 00:21:31,550

speculates on that a great deal what was

478

00:21:37,180 --> 00:21:33,440

the true purpose and what was the

479

00:21:39,520 --> 00:21:37,190

crashed device we want to believe but

480

00:21:42,220 --> 00:21:39,530

back to the story this thing was in fact

481

00:21:44,410 --> 00:21:42,230

a nuclear test surveillance balloon says

482

00:21:47,800 --> 00:21:44,420

the United States military and the only

483

00:21:50,350 --> 00:21:47,810

one to have survived to that date this

484

00:21:52,690 --> 00:21:50,360

satisfied some but not true Roswell

485

00:21:55,390 --> 00:21:52,700

believers who hold steadfast to the

486

00:21:58,690 --> 00:21:55,400

faith even unto the present day

487

00:22:00,820 --> 00:21:58,700

check out the coin cool photos yep it

488

00:22:03,070 --> 00:22:00,830

does look like a flying saucer you can

489

00:22:06,220 --> 00:22:03,080

find those photos later at UFO headline

490

00:22:09,070 --> 00:22:06,230

news calm well we started with a close

491

00:22:11,680 --> 00:22:09,080

encounter in the celestial sphere let's

492

00:22:15,010 --> 00:22:11,690

end with this headline day 1 of the

493

00:22:16,350 --> 00:22:15,020

first annual Devils Tower UFO rendezvous

494

00:22:21,250 --> 00:22:16,360

kicks

495

00:22:23,200 --> 00:22:21,260

hewlett wyoming KO ta TV believe it or

496

00:22:26,260 --> 00:22:23,210

not something out of this world has come

497

00:22:28,030 --> 00:22:26,270

to the town of hewlett wyoming UFO

498

00:22:31,300 --> 00:22:28,040

enthusiasts are in town for the first

499

00:22:33,490 --> 00:22:31,310

annual devils tower UFO rendezvous until

500

00:22:35,830 --> 00:22:33,500

the evening of Saturday September 16th

501
00:22:39,190 --> 00:22:35,840
so if you live locally there's still

502
00:22:41,340 --> 00:22:39,200
time some attendants have even personal

503
00:22:44,350 --> 00:22:41,350
experience with the extra-terrestrial

504
00:22:47,590 --> 00:22:44,360
bring on the alien abductee survivor

505
00:22:49,900 --> 00:22:47,600
Travis Walton quote I got out to take a

506
00:22:52,870 --> 00:22:49,910
closer look I was struck by a blast of

507
00:22:55,930 --> 00:22:52,880
energy from this craft and taken aboard

508
00:22:58,120 --> 00:22:55,940
and quotes and the Travis Walton quote

509
00:23:00,250 --> 00:22:58,130
we like best is if I had it to do over

510
00:23:01,450 --> 00:23:00,260
again I never would have gotten out of

511
00:23:03,280 --> 00:23:01,460
that truck

512
00:23:05,470 --> 00:23:03,290
here's a quote from an attendee Laurie

513
00:23:07,810 --> 00:23:05,480

Tucker she said quote seeing is

514

00:23:10,210 --> 00:23:07,820

believing and it started when I was 12

515

00:23:12,760 --> 00:23:10,220

years old I've been fascinated with the

516

00:23:16,060 --> 00:23:12,770

subject matter ever since ever since I

517

00:23:17,680 --> 00:23:16,070

saw my first UFO and quotes on Thursday

518

00:23:19,930 --> 00:23:17,690

those attending the conference had a

519

00:23:21,760 --> 00:23:19,940

chance to hear from keynote speakers on

520

00:23:24,430 --> 00:23:21,770

the topic of investigative field

521

00:23:26,920 --> 00:23:24,440

training there in Hulett celebrating the

522

00:23:29,940 --> 00:23:26,930

40th anniversary of the Steven Spielberg

523

00:23:32,320 --> 00:23:29,950

movie Close Encounters of the Third Kind

524

00:23:34,900 --> 00:23:32,330

since a great part of that film was shot

525

00:23:37,000 --> 00:23:34,910

near Devil's Tower one of the field

526

00:23:39,880 --> 00:23:37,010

investigative trainers and molecular

527

00:23:42,250 --> 00:23:39,890

biologist Richard Beckwith uses science

528

00:23:44,470 --> 00:23:42,260

to explain things he doesn't understand

529

00:23:47,620 --> 00:23:44,480

but he says sometimes there is no

530

00:23:49,630 --> 00:23:47,630

scientific reasoning quote some of those

531

00:23:52,360 --> 00:23:49,640

unidentified objects that people see in

532

00:23:55,120 --> 00:23:52,370

the sky might actually be probes from an

533

00:23:58,750 --> 00:23:55,130

alien civilization I'm not saying that

534

00:24:00,490 --> 00:23:58,760

they are but I'm saying that 5% of the

535

00:24:02,680 --> 00:24:00,500

unexplained sightings certainly leave

536

00:24:05,110 --> 00:24:02,690

open the possibility that this is in

537

00:24:07,990 --> 00:24:05,120

fact the case and quotes explains back

538

00:24:10,480 --> 00:24:08,000

with the first ever Devils Tower UFO

539

00:24:13,060 --> 00:24:10,490

rendezvous began Thursday and will go on

540

00:24:15,330 --> 00:24:13,070

until Saturday they've got a variety of

541

00:24:16,870 --> 00:24:15,340

activities for everybody in the family

542

00:24:19,570 --> 00:24:16,880

how cool

543

00:24:22,330 --> 00:24:19,580

oh don't you wish you were there but

544

00:24:24,670 --> 00:24:22,340

we've got to go from here because that's

545

00:24:26,139 --> 00:24:24,680

a wrap thank you for listening to

546

00:24:28,239 --> 00:24:26,149

inception radio net

547

00:24:31,059 --> 00:24:28,249

follow this broadcast you have how

548

00:24:33,999 --> 00:24:31,069

headline news Dom take care of each

549

00:24:35,530 --> 00:24:34,009

other we are all in this together this
