00:00:07,280 --> 00:00:04,760
hello it's Monday September 25th 2017

2
00:00:09,680 --> 00:00:07,290
you are listening to inception Radio

3
00:00:14,980 --> 00:00:09,690
Network voice of the fringe majority

4
00:00:21,560 --> 00:00:18,769
September swings us into this celestial

5
00:00:24,920 --> 00:00:21,570
presentation for tonight sky from Earth

6
00:00:28,220 --> 00:00:24,930
sky org here's the headline moon swings

7
00:00:30,349 --> 00:00:28,230
by Antares and Saturn tonight at

8
00:00:33,740 --> 00:00:30,359
nightfall tonight and tomorrow

9
00:00:36,139 --> 00:00:33,750
that'll be September 25th and 26th watch

10
00:00:38,690 --> 00:00:36,149
for the waxing crescent moon to swing to

11
00:00:41,270 --> 00:00:38,700
the north of the star Antares and then

12
00:00:43,250 --> 00:00:41,280
to the north of the planet Saturn just

13
00:00:45,889 --> 00:00:43,260

go outside as soon as the Sun Goes Down

14

00:00:47,990 --> 00:00:45,899

and look for that moon the moon will be

15

00:00:49,940 --> 00:00:48,000

in the general direction of sunset to

16

00:00:52,340 --> 00:00:49,950

the left of the sunset if you're in the

17

00:00:53,720 --> 00:00:52,350

northern hemisphere and above the sunset

18

00:00:56,900 --> 00:00:53,730

if you're in the southern hemisphere

19

00:00:59,479 --> 00:00:56,910

where it's now springtime as darkness

20

00:01:02,540 --> 00:00:59,489

falls - rather bright star like lights

21

00:01:05,509 --> 00:01:02,550

pop out in the moon's vicinity and these

22

00:01:08,120 --> 00:01:05,519

stars are Antares and the planet Saturn

23

00:01:10,399 --> 00:01:08,130

you can distinguish Antares and Saturn

24

00:01:12,590 --> 00:01:10,409

by their colors and Taurus the brightest

25

00:01:15,320 --> 00:01:12,600

star in the constellation Scorpius the

26
00:01:17,929 --> 00:01:15,330
Scorpion flowers and a reddish hue while

27
00:01:19,640 --> 00:01:17,939
Saturn appears gold and check out their

28
00:01:22,130 --> 00:01:19,650
colors this evening with either the eye

29
00:01:25,340 --> 00:01:22,140
alone or if you can find that trusty

30
00:01:26,660 --> 00:01:25,350
dusty pair of binoculars also bright

31
00:01:28,880 --> 00:01:26,670
stars Sparkle

32
00:01:31,640 --> 00:01:28,890
whereas planets tend to shine with a

33
00:01:34,160 --> 00:01:31,650
steadier kind of light a first magnitude

34
00:01:36,800 --> 00:01:34,170
star such as Antares often scintillates

35
00:01:39,800 --> 00:01:36,810
our sparkles wildly when close to the

36
00:01:41,690 --> 00:01:39,810
horizon scrutinize Antares and Saturn

37
00:01:43,670 --> 00:01:41,700
this evening weather permitting of

38
00:01:45,980 --> 00:01:43,680

course see if one of these colorful

39

00:01:48,980 --> 00:01:45,990

celestial beauty sparkles more than the

40

00:01:51,080 --> 00:01:48,990

other Saturn the sixth planet outward

41

00:01:53,210 --> 00:01:51,090

from the Sun is the most distant world

42

00:01:55,880 --> 00:01:53,220

you can easily see with the unaided eye

43

00:01:58,429 --> 00:01:55,890

Saturn shines most brilliantly in our

44

00:02:01,700 --> 00:01:58,439

sky in a year when Saturn's rings are

45

00:02:04,280 --> 00:02:01,710

widest open and additionally when Saturn

46

00:02:08,150 --> 00:02:04,290

sweeps to perihelion that nearest point

47

00:02:10,339 --> 00:02:08,160

to the Sun in its 29.5 year orbit at

48

00:02:13,490 --> 00:02:10,349

perihelion Saturn is one astronomical

49

00:02:16,460 --> 00:02:13,500

unit or au closer to the

50

00:02:17,840 --> 00:02:16,470

and then when it's at aphelion that most

51
00:02:20,120 --> 00:02:17,850
distant point

52
00:02:22,100 --> 00:02:20,130
Saturn's most brilliant appearance in

53
00:02:26,090 --> 00:02:22,110
our sky last happened during the

54
00:02:28,070 --> 00:02:26,100
opposition of December 31st 2003 and it

55
00:02:32,840 --> 00:02:28,080
will happen next at the opposition of

56
00:02:34,699 --> 00:02:32,850
December 24th 2032 these very favorable

57
00:02:37,160 --> 00:02:34,709
opposition's take place in a year when

58
00:02:39,440 --> 00:02:37,170
saturn resides at perihelion that

59
00:02:41,750 --> 00:02:39,450
closest point to the Sun and when the

60
00:02:44,449 --> 00:02:41,760
Rings are widest open at such time

61
00:02:47,570 --> 00:02:44,459
Saturn is about 9 astronomical units or

62
00:02:50,990 --> 00:02:47,580
AU's Earth's Sun units from the Sun and

63
00:02:53,690 --> 00:02:51,000

8a use from the earth it seems that

64

00:02:56,180 --> 00:02:53,700

Saturn's rings can be widest open in non

65

00:02:58,970 --> 00:02:56,190

perihelion years as well and that's the

66

00:03:01,370 --> 00:02:58,980

case this year 2017 this year finds

67

00:03:04,250 --> 00:03:01,380

Saturn at the vicinity of aphelion its

68

00:03:06,770 --> 00:03:04,260

most distant point from the Sun once

69

00:03:09,290 --> 00:03:06,780

every year Earth passes more or less

70

00:03:11,420 --> 00:03:09,300

between the Sun and Saturn astronomers

71

00:03:13,940 --> 00:03:11,430

call this an opposition of Saturn

72

00:03:16,550 --> 00:03:13,950

because at that point Saturn is opposite

73

00:03:19,699 --> 00:03:16,560

the Sun at its most recent opposition

74

00:03:23,180 --> 00:03:19,709

June 15th this year Saturn was 10 AU's

75

00:03:25,550 --> 00:03:23,190

from the Sun 9 a use from the earth even

76

00:03:27,590 --> 00:03:25,560

so Saturn was brighter than a first

77

00:03:30,560 --> 00:03:27,600

magnitude star at its most recent

78

00:03:33,170 --> 00:03:30,570

opposition and it's presently shining at

79

00:03:35,420 --> 00:03:33,180

first magnitude brightness that is

80

00:03:37,820 --> 00:03:35,430

Saturn shines as brightly as the

81

00:03:39,949 --> 00:03:37,830

brightest stars that's because the

82

00:03:42,560 --> 00:03:39,959

maximum tilt of Saturn's very reflective

83

00:03:45,080 --> 00:03:42,570

rings toward Earth contributes more

84

00:03:47,539 --> 00:03:45,090

greatly to Saturn's magnitude than does

85

00:03:49,190 --> 00:03:47,549

its closeness to Earth ready for the

86

00:03:51,740 --> 00:03:49,200

bottom line here we go

87

00:03:54,170 --> 00:03:51,750

the young moon will be sweeping past the

88

00:03:58,310 --> 00:03:54,180

star Antares and the planet Saturn on

89

00:04:00,830 --> 00:03:58,320

September 25th and 26th 2017 watch for

90

00:04:04,220 --> 00:04:00,840

them to pop out in the western sky as

91

00:04:06,890 --> 00:04:04,230

darkness falls well this is the UFO

92

00:04:09,500 --> 00:04:06,900

headline news is it not so we've got

93

00:04:12,199 --> 00:04:09,510

nothing but UFO headlines from this

94

00:04:14,630 --> 00:04:12,209

point out and that's out as in outer

95

00:04:16,969 --> 00:04:14,640

space perhaps they'll begin in Great

96

00:04:19,940 --> 00:04:16,979

Britain with a black triangle sighting

97

00:04:21,710 --> 00:04:19,950

in Bridgeport this is MUFON case number

98

00:04:24,200 --> 00:04:21,720

8 6 8 3 9

99

00:04:26,480 --> 00:04:24,210

they give numbers and try to track these

100

00:04:28,490 --> 00:04:26,490

cases identify what they can

101
00:04:31,460 --> 00:04:28,500
hopefully the date of this sighting is

102
00:04:34,370 --> 00:04:31,470
the 18th of September 2017 it was

103
00:04:37,040 --> 00:04:34,380
reported September 22nd here's what the

104
00:04:39,770 --> 00:04:37,050
witness says by way of summary red

105
00:04:43,219 --> 00:04:39,780
flashing lights in a triangle shape

106
00:04:45,589 --> 00:04:43,229
no visible solid object the viewing

107
00:04:49,730 --> 00:04:45,599
distance under sighting specifics one

108
00:04:52,129 --> 00:04:49,740
mile the altitude 500 feet or less the

109
00:04:54,950 --> 00:04:52,139
sighting duration was two minutes this

110
00:04:57,890 --> 00:04:54,960
object features are merely reported as

111
00:05:00,439 --> 00:04:57,900
unknown the flight path is described as

112
00:05:02,990 --> 00:05:00,449
having been a straight-line path and the

113
00:05:06,409 --> 00:05:03,000

object shape obviously was triangular

114

00:05:08,420 --> 00:05:06,419

let's read at night time about 11:00

115

00:05:11,330 --> 00:05:08,430

p.m. when going for a cigarette at the

116

00:05:14,540 --> 00:05:11,340

back of my house I observed a triangle

117

00:05:16,760 --> 00:05:14,550

of red flashing lights these lights were

118

00:05:18,830 --> 00:05:16,770

moving in a southerly direction above a

119

00:05:21,230 --> 00:05:18,840

hill that's approximately two miles away

120

00:05:23,629 --> 00:05:21,240

from me they were moving toward the sea

121

00:05:27,050 --> 00:05:23,639

which is close by half a mile away

122

00:05:28,850 --> 00:05:27,060

the lights made a triangle shape and I

123

00:05:31,879 --> 00:05:28,860

estimate there to have been nine of

124

00:05:34,550 --> 00:05:31,889

these lights they were moving but not at

125

00:05:36,409 --> 00:05:34,560

a very fast rate I know that planes and

126

00:05:39,050 --> 00:05:36,419

helicopters of which I see quite a few

127

00:05:41,240 --> 00:05:39,060

at night have only one red and one green

128

00:05:44,089 --> 00:05:41,250

light to indicate port and starboard I

129

00:05:46,730 --> 00:05:44,099

asked to make the size of this object to

130

00:05:48,860 --> 00:05:46,740

have been approximately 100 feet along

131

00:05:51,890 --> 00:05:48,870

the base by about a hundred and thirty

132

00:05:53,300 --> 00:05:51,900

feet from top to bottom my observation

133

00:05:56,540 --> 00:05:53,310

lasted for about two minutes

134

00:05:58,820 --> 00:05:56,550

I had no camera with me did not want to

135

00:06:00,499 --> 00:05:58,830

leave to get one as this object might

136

00:06:02,600 --> 00:06:00,509

not have been there when I returned I

137

00:06:04,550 --> 00:06:02,610

heard no noise and have not heard

138

00:06:08,120 --> 00:06:04,560

locally of anyone else seeing this

139

00:06:10,760 --> 00:06:08,130

object the shape I have drawn below and

140

00:06:13,059 --> 00:06:10,770

the witness has used X probably on a

141

00:06:16,339 --> 00:06:13,069

typewriter keyboard to describe a

142

00:06:19,670 --> 00:06:16,349

triangle yes indeed four five six seven

143

00:06:21,529 --> 00:06:19,680

eight nine lights on this object it's a

144

00:06:23,540 --> 00:06:21,539

curious sighting in Great Britain

145

00:06:25,939 --> 00:06:23,550

we have to pick up a sighting that

146

00:06:28,520 --> 00:06:25,949

dropped out of our off-the-beaten-path

147

00:06:31,189 --> 00:06:28,530

over this weekend we teased it but then

148

00:06:34,629 --> 00:06:31,199

we couldn't find it but here it is now

149

00:06:37,820 --> 00:06:34,639

it's described as an alien encounter in

150

00:06:40,370 --> 00:06:37,830

Naperville Illinois this is from UFO

151

00:06:42,590 --> 00:06:40,380

stalker calm it's got a move on

152

00:06:44,960 --> 00:06:42,600

case number eight six eight one three

153

00:06:47,420 --> 00:06:44,970

the date of the sighting is the 20th of

154

00:06:50,510 --> 00:06:47,430

September 2017 they've got a same-day

155

00:06:53,480 --> 00:06:50,520

report and here's the summary terrifying

156

00:06:56,330 --> 00:06:53,490

experience woman like entity but

157

00:06:59,750 --> 00:06:56,340

definitely not a human hitting the side

158

00:07:02,690 --> 00:06:59,760

of the bus this is outrageous and

159

00:07:04,640 --> 00:07:02,700

hilarious we can't vet it of course but

160

00:07:07,790 --> 00:07:04,650

it is here and it has not been removed

161

00:07:09,500 --> 00:07:07,800

from the UFO stalker comm site at the

162

00:07:11,600 --> 00:07:09,510

time of this broadcast here are the

163

00:07:14,600 --> 00:07:11,610

sighting specifics viewing distance

164

00:07:16,880 --> 00:07:14,610

twenty feet or less altitude landed

165

00:07:20,500 --> 00:07:16,890

sighting duration twenty seven minutes

166

00:07:23,240 --> 00:07:20,510

and 14 seconds object features unknown

167

00:07:25,130 --> 00:07:23,250

object flight path does not apply nor

168

00:07:26,900 --> 00:07:25,140

does the shape of the object

169

00:07:29,180 --> 00:07:26,910

there's no notation regarding

170

00:07:32,630 --> 00:07:29,190

meteorology but here is the absolutely

171

00:07:34,430 --> 00:07:32,640

hysterical account tonight was a wild

172

00:07:37,280 --> 00:07:34,440

night one that I'll never forget

173

00:07:40,430 --> 00:07:37,290

I had my scooby-doo umbrella by my side

174

00:07:43,340 --> 00:07:40,440

and it was a good day I was just headed

175

00:07:45,470 --> 00:07:43,350

back home on a public bus a pace bus I

176
00:07:48,350 --> 00:07:45,480
think it was and I was pretty much alone

177
00:07:50,810 --> 00:07:48,360
just me in the bus driver and one or two

178
00:07:53,030 --> 00:07:50,820
other people now that in itself was

179
00:07:56,510 --> 00:07:53,040
strange but I'm not sure if that was

180
00:07:58,370 --> 00:07:56,520
related anyway i board the bus and the

181
00:08:00,530 --> 00:07:58,380
bus driver stopping off at plenty of

182
00:08:02,840 --> 00:08:00,540
locations and we arrived to one where

183
00:08:05,210 --> 00:08:02,850
there's little to no light around it no

184
00:08:08,120 --> 00:08:05,220
street lamps no houses or buildings no

185
00:08:10,310 --> 00:08:08,130
nothing the only thing illuminating this

186
00:08:12,890 --> 00:08:10,320
scene was the dim lights inside the bus

187
00:08:14,870 --> 00:08:12,900
and the headlights from the bus the bus

188
00:08:17,420 --> 00:08:14,880

driver opened the doors and nobody

189

00:08:19,910 --> 00:08:17,430

budges but as the bus driver began to

190

00:08:22,460 --> 00:08:19,920

close the doors we heard these really

191

00:08:26,480 --> 00:08:22,470

heavy footsteps come out of nowhere and

192

00:08:28,460 --> 00:08:26,490

then I heard the most god-awful sound I

193

00:08:30,980 --> 00:08:28,470

have ever heard it wasn't quite

194

00:08:33,890 --> 00:08:30,990

screaming it wasn't singing but it

195

00:08:36,230 --> 00:08:33,900

sounded angry the bus driver began to

196

00:08:38,659 --> 00:08:36,240

open the doors again for the thing to

197

00:08:42,020 --> 00:08:38,669

board but as soon as it came into

198

00:08:44,900 --> 00:08:42,030

eyesight nobody wanted that that thing

199

00:08:46,430 --> 00:08:44,910

to board this bus the driver shuts the

200

00:08:50,030 --> 00:08:46,440

doors as quickly as he could and this

201
00:08:53,660 --> 00:08:50,040
creature became infuriated it was

202
00:08:56,690 --> 00:08:53,670
wearing women's clothing an orange shirt

203
00:08:58,400 --> 00:08:56,700
and orange shorts it's been hot here but

204
00:08:59,000 --> 00:08:58,410
that thing was not like any woman I've

205
00:09:00,950 --> 00:08:59,010
ever seen

206
00:09:02,720 --> 00:09:00,960
I don't even know how to describe it

207
00:09:04,610 --> 00:09:02,730
could it have the power to shape-shift

208
00:09:08,300 --> 00:09:04,620
if that's even a thing

209
00:09:10,850 --> 00:09:08,310
this thing it was a she or at least it

210
00:09:13,760 --> 00:09:10,860
wanted to appear so and now this thing

211
00:09:16,580 --> 00:09:13,770
begins to pound on the bus doors howling

212
00:09:18,710 --> 00:09:16,590
its angry screaming song this went on

213
00:09:20,990 --> 00:09:18,720

for a long time the bus driver was

214

00:09:22,460 --> 00:09:21,000

clearly in shock confused and downright

215

00:09:25,010 --> 00:09:22,470

scared as he should be

216

00:09:27,380 --> 00:09:25,020

hell I was scared too I don't think any

217

00:09:28,910 --> 00:09:27,390

of us knew what to do and at the same

218

00:09:31,430 --> 00:09:28,920

time we weren't sure if this thing would

219

00:09:33,830 --> 00:09:31,440

follow us and if we did let the creature

220

00:09:36,620 --> 00:09:33,840

in would it harm us kill us even would

221

00:09:38,240 --> 00:09:36,630

it chase after us if we didn't and if we

222

00:09:40,880 --> 00:09:38,250

called the police and this thing left

223

00:09:43,430 --> 00:09:40,890

would they even believe us this wasn't

224

00:09:46,460 --> 00:09:43,440

any kind of crypt ID nothing like a

225

00:09:48,220 --> 00:09:46,470

Bigfoot or a chupacabra without a doubt

226

00:09:51,230 --> 00:09:48,230

I think this was an extraterrestrial

227

00:09:53,540 --> 00:09:51,240

life-form it is an experience I will not

228

00:09:55,220 --> 00:09:53,550

ever forget in my life the first thing I

229

00:09:57,380 --> 00:09:55,230

did when I arrived home it was to look

230

00:10:00,970 --> 00:09:57,390

up anything similar on the Internet but

231

00:10:04,310 --> 00:10:00,980

to no avail and so I came to report it

232

00:10:07,760 --> 00:10:04,320

attached well it's just a photo of my

233

00:10:09,980 --> 00:10:07,770

scooby doo umbrella to show off yes well

234

00:10:12,890 --> 00:10:09,990

you decide gentle listeners it's a

235

00:10:14,930 --> 00:10:12,900

fascinating tale real or not we just

236

00:10:17,540 --> 00:10:14,940

couldn't resist we're not sure of the

237

00:10:20,360 --> 00:10:17,550

exact geo proximity of Napier Ville

238

00:10:22,070 --> 00:10:20,370

Illinois to Chicago but as you know

239

00:10:24,500 --> 00:10:22,080

Chicago's got a lot of strange stuff

240

00:10:26,420 --> 00:10:24,510

flapping around in its skies at the

241

00:10:29,060 --> 00:10:26,430

moment let's go to something more

242

00:10:31,490 --> 00:10:29,070

credibly incredible shall we a UFO

243

00:10:34,100 --> 00:10:31,500

sighting over New Baltimore in the state

244

00:10:36,230 --> 00:10:34,110

of Michigan its MUFON case eight six

245

00:10:39,380 --> 00:10:36,240

eight three seven the date of this

246

00:10:41,840 --> 00:10:39,390

sighting is September 20th 2017 it was

247

00:10:45,890 --> 00:10:41,850

reported two days later here's the

248

00:10:49,220 --> 00:10:45,900

summary huge silent bright orange orbs

249

00:10:51,430 --> 00:10:49,230

the size of about two airliners at an

250

00:10:53,990 --> 00:10:51,440

altitude of four to five thousand feet

251
00:10:57,500 --> 00:10:54,000
traveling in high speeds coming from the

252
00:11:00,500 --> 00:10:57,510
South moving north one right after the

253
00:11:02,600 --> 00:11:00,510
other for ten minutes well that's the

254
00:11:04,940 --> 00:11:02,610
summary there's a photo and a video

255
00:11:06,530 --> 00:11:04,950
that's included with this event you can

256
00:11:09,290 --> 00:11:06,540
check those out later at you

257
00:11:11,900 --> 00:11:09,300
Oh headline news dot-com citing

258
00:11:14,870 --> 00:11:11,910
specifics provide a viewing distance of

259
00:11:18,650 --> 00:11:14,880
501 feet eventually becoming one mile

260
00:11:21,080 --> 00:11:18,660
the altitude was over 500 feet nope no

261
00:11:23,900 --> 00:11:21,090
cloud cover the sighting duration one

262
00:11:27,800 --> 00:11:23,910
hour and 15 minutes object features

263
00:11:29,810 --> 00:11:27,810

listed only as none however the object

264

00:11:32,810 --> 00:11:29,820

flight path was a straight-line path a

265

00:11:34,070 --> 00:11:32,820

path then hovering here's what the

266

00:11:37,520 --> 00:11:34,080

weather was doing over New Baltimore

267

00:11:40,400 --> 00:11:37,530

Michigan maximum temperature 79 degrees

268

00:11:43,430 --> 00:11:40,410

Fahrenheit 26 degrees Celsius minimum

269

00:11:46,100 --> 00:11:43,440

temperature 62 degrees Fahrenheit 17

270

00:11:48,620 --> 00:11:46,110

degrees Celsius the visibility factors

271

00:11:52,100 --> 00:11:48,630

the maximum stood at 10 miles 16

272

00:11:54,260 --> 00:11:52,110

kilometers the mean was 4 miles 7

273

00:11:57,140 --> 00:11:54,270

kilometers and the minimum visibility

274

00:12:00,830 --> 00:11:57,150

isn't listed at all the conditions note

275

00:12:02,960 --> 00:12:00,840

that it was foggy here's how this went I

276

00:12:05,150 --> 00:12:02,970

stepped outside real quick to have a

277

00:12:07,610 --> 00:12:05,160

cigarette and halfway through the

278

00:12:10,160 --> 00:12:07,620

cigarette I noticed two bright objects

279

00:12:12,620 --> 00:12:10,170

coming up over the treeline so I pulled

280

00:12:15,080 --> 00:12:12,630

out my phone and snapped a picture I

281

00:12:17,060 --> 00:12:15,090

didn't realize it was on video so I

282

00:12:20,120 --> 00:12:17,070

switched it to the video and began to

283

00:12:23,870 --> 00:12:20,130

record the video I recorded a series of

284

00:12:26,630 --> 00:12:23,880

bright big orange orbs flying silently

285

00:12:28,460 --> 00:12:26,640

from the south to the north they seem to

286

00:12:31,400 --> 00:12:28,470

be about 5000 feet in the air perhaps

287

00:12:33,860 --> 00:12:31,410

less they were moving probably three

288

00:12:36,350 --> 00:12:33,870

times faster than any aircraft I've seen

289

00:12:39,110 --> 00:12:36,360

these things were coming one right after

290

00:12:41,150 --> 00:12:39,120

the other still moving from the south to

291

00:12:43,550 --> 00:12:41,160

the north until they were eventually out

292

00:12:46,160 --> 00:12:43,560

of sight that was about 10 minutes but

293

00:12:50,540 --> 00:12:46,170

there had to have been at least 20 that

294

00:12:53,210 --> 00:12:50,550

flew by that's a lot of orbs piques the

295

00:12:56,150 --> 00:12:53,220

imagination it's not too far a jaunt

296

00:12:58,940 --> 00:12:56,160

from Michigan to Ohio so let's do it

297

00:13:00,740 --> 00:12:58,950

UFO stalker comm brings us this sighting

298

00:13:03,710 --> 00:13:00,750

from Medina Ohio

299

00:13:07,670 --> 00:13:03,720

perhaps it's Medina tomato tomahto

300

00:13:10,430 --> 00:13:07,680

Emme di n/a is the spelling this is the

301
00:13:13,490 --> 00:13:10,440
setting for a MUFON case number 8 6 8 4

302
00:13:15,970 --> 00:13:13,500
0 the date of the sighting is the 22nd

303
00:13:19,400 --> 00:13:15,980
of September it got a same-day report

304
00:13:19,980 --> 00:13:19,410
here's the summary our blong object

305
00:13:23,460 --> 00:13:19,990
bright

306
00:13:26,430 --> 00:13:23,470
as the Sun slowly drifts then

307
00:13:29,579 --> 00:13:26,440
accelerates out of sight viewing

308
00:13:32,030 --> 00:13:29,589
distance 501 feet to one mile the

309
00:13:34,920 --> 00:13:32,040
altitude over 500 feet no cloud cover

310
00:13:38,040 --> 00:13:34,930
the sighting duration two minutes and 15

311
00:13:41,100 --> 00:13:38,050
seconds object features simply reported

312
00:13:42,990 --> 00:13:41,110
as other the flight path a path that

313
00:13:45,420 --> 00:13:43,000

included at some point directional

314

00:13:48,060 --> 00:13:45,430

change and the witness notes this object

315

00:13:50,940 --> 00:13:48,070

was shaped like a cigar there's no

316

00:13:54,030 --> 00:13:50,950

weather reported but here's the event it

317

00:13:57,120 --> 00:13:54,040

seemed to go something like this sitting

318

00:14:00,210 --> 00:13:57,130

at table notice bright object against

319

00:14:03,139 --> 00:14:00,220

blue sky moving very slowly in the

320

00:14:05,940 --> 00:14:03,149

northwest it probably was moving west

321

00:14:08,670 --> 00:14:05,950

this object was the size of an aspirin

322

00:14:10,440 --> 00:14:08,680

held at arm's length I quickly got my

323

00:14:14,579 --> 00:14:10,450

seven by thirty-five binoculars and

324

00:14:16,650 --> 00:14:14,589

observed extremely bright oblong shape

325

00:14:20,730 --> 00:14:16,660

the shape was airplane-like

326
00:14:22,170 --> 00:14:20,740
with two bumps at each end I assume this

327
00:14:24,660 --> 00:14:22,180
to be a plane but the motion was

328
00:14:27,690 --> 00:14:24,670
extremely slow and there were no visible

329
00:14:30,840 --> 00:14:27,700
wings I could see no contrail I could

330
00:14:33,240 --> 00:14:30,850
hear no sound no rotors there were no

331
00:14:36,240 --> 00:14:33,250
discernible markings anywhere on this

332
00:14:36,720 --> 00:14:36,250
object no running lights no blinking

333
00:14:39,360 --> 00:14:36,730
lights

334
00:14:41,940 --> 00:14:39,370
I thought perhaps this could be an old

335
00:14:44,819 --> 00:14:41,950
Huey helicopter the ones that have the

336
00:14:46,740 --> 00:14:44,829
rotors at each end but the shape wasn't

337
00:14:48,569 --> 00:14:46,750
quite right and there was no evidence

338
00:14:50,850 --> 00:14:48,579

that rotors were at work

339

00:14:54,210 --> 00:14:50,860

this object probably was lit by the

340

00:14:56,699 --> 00:14:54,220

Rising Sun it was highly reflective this

341

00:14:58,530 --> 00:14:56,709

thing moved as slow as a helicopter but

342

00:15:01,500 --> 00:14:58,540

there was no buffeting sound there was

343

00:15:03,240 --> 00:15:01,510

no ground thumping roar we have military

344

00:15:06,150 --> 00:15:03,250

helicopters flying around here quite

345

00:15:09,380 --> 00:15:06,160

frequently and their noise footprint is

346

00:15:12,510 --> 00:15:09,390

always loud and rumbling unmistakable

347

00:15:14,940 --> 00:15:12,520

this object moved slowly then to the

348

00:15:17,610 --> 00:15:14,950

east as I observed it first in clear sky

349

00:15:20,610 --> 00:15:17,620

and then the object moved behind trees

350

00:15:23,069 --> 00:15:20,620

it turned north then heading just east

351
00:15:26,069 --> 00:15:23,079
of Madinah City and accelerated at a

352
00:15:29,750 --> 00:15:26,079
rapid pace during which the shape of

353
00:15:31,980 --> 00:15:29,760
this object changed to a flat u-shape I

354
00:15:33,780 --> 00:15:31,990
watched then as it went out of sight

355
00:15:36,030 --> 00:15:33,790
over rooftops at

356
00:15:38,700 --> 00:15:36,040
no times were there any visible wings it

357
00:15:40,650 --> 00:15:38,710
seemed to have a tail but no tail like

358
00:15:43,110 --> 00:15:40,660
I've ever seen before it seemed rather

359
00:15:44,700 --> 00:15:43,120
organic and appearance rather than being

360
00:15:47,130 --> 00:15:44,710
the angular shape of a plane's

361
00:15:49,890 --> 00:15:47,140
stabilizer the view through my

362
00:15:52,530 --> 00:15:49,900
binoculars was very clear for some

363
00:15:54,200 --> 00:15:52,540

reason I never thought to video this

364

00:15:57,930 --> 00:15:54,210

object

365

00:16:00,600 --> 00:15:57,940

yikes what's at play here that lapse of

366

00:16:02,940 --> 00:16:00,610

yeah I got to get a capture of this it's

367

00:16:05,010 --> 00:16:02,950

just the fascination the complete

368

00:16:07,560 --> 00:16:05,020

stopping of everything while one

369

00:16:11,220 --> 00:16:07,570

observes this unexpected thing in the

370

00:16:13,650 --> 00:16:11,230

sky a stunning experience let's go to

371

00:16:16,800 --> 00:16:13,660

the state of Tennessee now with a city

372

00:16:18,450 --> 00:16:16,810

called Attica a toka once again we're

373

00:16:22,590 --> 00:16:18,460

not sure how to pronounce this as

374

00:16:24,240 --> 00:16:22,600

spelled eighty okay a at any rate what

375

00:16:27,060 --> 00:16:24,250

happened there was MUFON case number

376

00:16:29,070 --> 00:16:27,070

eight six eight three six the date of

377

00:16:31,740 --> 00:16:29,080

this sighting was the 21st of September

378

00:16:35,430 --> 00:16:31,750

2017 it was reported the next day

379

00:16:39,210 --> 00:16:35,440

September 22nd in summary looks like a

380

00:16:40,890 --> 00:16:39,220

star bobbing up and down there is a

381

00:16:43,110 --> 00:16:40,900

photo of course you can't see that

382

00:16:45,180 --> 00:16:43,120

bobbing part but it's interesting you

383

00:16:48,570 --> 00:16:45,190

can check it out later at UFO headline

384

00:16:51,000 --> 00:16:48,580

news calm sighting specifics offer us a

385

00:16:53,760 --> 00:16:51,010

viewing distance over one mile the

386

00:16:56,460 --> 00:16:53,770

altitude was over 500 feet and there was

387

00:16:59,490 --> 00:16:56,470

cloud cover later the object was over

388

00:17:01,530 --> 00:16:59,500

500 feet without that cloud cover the

389

00:17:05,010 --> 00:17:01,540

features however are just described as

390

00:17:08,070 --> 00:17:05,020

none the flight path stationary object

391

00:17:09,840 --> 00:17:08,080

shape star like it's a short but vivid

392

00:17:12,420 --> 00:17:09,850

report here we go

393

00:17:15,360 --> 00:17:12,430

I was outside smoking looking at the

394

00:17:17,820 --> 00:17:15,370

planes coming into the airport and then

395

00:17:20,580 --> 00:17:17,830

I saw the lights in the northeastern sky

396

00:17:24,000 --> 00:17:20,590

I thought at first this could be a plane

397

00:17:26,670 --> 00:17:24,010

but it never came in it just bobbed up

398

00:17:29,550 --> 00:17:26,680

and down moving really fast

399

00:17:32,250 --> 00:17:29,560

yet somehow staying in the same area it

400

00:17:35,190 --> 00:17:32,260

had hard green and red flashing lights

401

00:17:37,320 --> 00:17:35,200

and one bright light this thing did

402

00:17:40,050 --> 00:17:37,330

resemble an airplane form from the

403

00:17:42,000 --> 00:17:40,060

distance I called and woke my grandma up

404

00:17:44,430 --> 00:17:42,010

to have her look at it and she saw it

405

00:17:47,790 --> 00:17:44,440

too I had to make sure this thing was

406

00:17:51,810 --> 00:17:47,800

really there it's been an hour and it

407

00:17:53,370 --> 00:17:51,820

still up there still bobbing around by

408

00:17:56,130 --> 00:17:53,380

the way this is the best photo I could

409

00:17:58,260 --> 00:17:56,140

get from my phone yep

410

00:17:59,400 --> 00:17:58,270

sometimes we do get those captures you

411

00:18:02,520 --> 00:17:59,410

gotta be quick

412

00:18:04,950 --> 00:18:02,530

this next sighting somebody was quick we

413

00:18:08,730 --> 00:18:04,960

urge you to check this out if you're a

414

00:18:12,540 --> 00:18:08,740

mind to at UFO headline news comm later

415

00:18:15,180 --> 00:18:12,550

it's wild and it's MUFON case number 867

416

00:18:17,910 --> 00:18:15,190

35 the setting for this sighting is

417

00:18:20,160 --> 00:18:17,920

Jefferson City Missouri it took place on

418

00:18:22,770 --> 00:18:20,170

the 17th of September and got a next day

419

00:18:26,210 --> 00:18:22,780

report here's what the witnesses offer

420

00:18:29,760 --> 00:18:26,220

in summary description black ring

421

00:18:32,610 --> 00:18:29,770

hovering in sky that first looked like

422

00:18:35,700 --> 00:18:32,620

smoke as we approached it looked more

423

00:18:37,440 --> 00:18:35,710

solid under sighting specifics we find a

424

00:18:40,740 --> 00:18:37,450

report of the viewing distance having

425

00:18:43,110 --> 00:18:40,750

been 501 feet to one mile the altitude

426

00:18:45,420 --> 00:18:43,120
was 500 feet or less the sighting

427

00:18:48,300 --> 00:18:45,430
duration 2 minutes object features

428

00:18:50,310 --> 00:18:48,310
reported as other the flight path was

429

00:18:52,950 --> 00:18:50,320
stationary and this object had a

430

00:18:56,130 --> 00:18:52,960
saturn-like shape there's no weather

431

00:18:58,140 --> 00:18:56,140
noted so let's just jump right in my

432

00:19:01,560 --> 00:18:58,150
wife and I were driving north on highway

433

00:19:04,320 --> 00:19:01,570
54 we were approximately 10 miles south

434

00:19:05,730 --> 00:19:04,330
of Jefferson City Missouri she brought

435

00:19:08,730 --> 00:19:05,740
this to my attention

436

00:19:11,430 --> 00:19:08,740
this black ring in the sky in front of

437

00:19:14,460 --> 00:19:11,440
us I was driving so she grabbed her

438

00:19:16,290 --> 00:19:14,470

phone to take a photo after the snapshot

439

00:19:19,410 --> 00:19:16,300

she took it upon herself to begin

440

00:19:21,870 --> 00:19:19,420

recording video good move after

441

00:19:24,900 --> 00:19:21,880

discussing this and trying to understand

442

00:19:26,960 --> 00:19:24,910

what we just saw I wish now that we

443

00:19:29,670 --> 00:19:26,970

would have stopped and studied it closer

444

00:19:31,770 --> 00:19:29,680

we did check the rearview mirrors as we

445

00:19:35,250 --> 00:19:31,780

drove out of sight and the object was

446

00:19:37,170 --> 00:19:35,260

still there as we drove away now at

447

00:19:40,620 --> 00:19:37,180

first we thought this was a smoke ring

448

00:19:43,950 --> 00:19:40,630

but as we approached it this black ring

449

00:19:46,560 --> 00:19:43,960

looked dense it definitely was not smoke

450

00:19:49,940 --> 00:19:46,570

if we had to guess it was approximately

451
00:19:53,280 --> 00:19:49,950
500 feet high 30 to 50 feet in diameter

452
00:19:56,520 --> 00:19:53,290
this object remained stationary as we

453
00:19:58,950 --> 00:19:56,530
passed by yes taking a look at these

454
00:20:01,170 --> 00:19:58,960
objects both the captured still shot and

455
00:20:02,730 --> 00:20:01,180
the video it's amazing at four

456
00:20:05,310 --> 00:20:02,740
this broadcaster thought well the

457
00:20:08,250 --> 00:20:05,320
witnesses have drawn a dark circle over

458
00:20:11,550 --> 00:20:08,260
the object they saw no it's not a circle

459
00:20:13,680 --> 00:20:11,560
they drew it is the black dense circle

460
00:20:17,640 --> 00:20:13,690
of something that they spotted in the

461
00:20:20,220 --> 00:20:17,650
sky let's go to Dupont Washington on the

462
00:20:24,600 --> 00:20:20,230
western coast of the United States this

463
00:20:26,610 --> 00:20:24,610

is case number 8 6 8 4 to MUFON wise the

464

00:20:30,090 --> 00:20:26,620

date of this sighting is September 22nd

465

00:20:33,510 --> 00:20:30,100

2017 it was reported on the very same

466

00:20:36,660 --> 00:20:33,520

day here's the summary saw a star-like

467

00:20:39,930 --> 00:20:36,670

object moving fast back and forth across

468

00:20:43,050 --> 00:20:39,940

the sky sighting specifics viewing

469

00:20:46,140 --> 00:20:43,060

distance 501 feet to one mile the

470

00:20:47,640 --> 00:20:46,150

altitude was over 500 feet and on this

471

00:20:50,220 --> 00:20:47,650

particular evening over Dupont

472

00:20:52,860 --> 00:20:50,230

Washington there was cloud cover the

473

00:20:55,830 --> 00:20:52,870

sighting duration 20 minutes object

474

00:20:58,560 --> 00:20:55,840

features unknown object flight path path

475

00:21:02,250 --> 00:20:58,570

with directional change and this object

476
00:21:06,480 --> 00:21:02,260
was shaped star like no weather here's

477
00:21:09,420 --> 00:21:06,490
the short report saw a star-like object

478
00:21:12,360 --> 00:21:09,430
this object was moving fast in a

479
00:21:14,640 --> 00:21:12,370
Northwest direction initially I thought

480
00:21:17,790 --> 00:21:14,650
this was a satellite until it changed

481
00:21:21,090 --> 00:21:17,800
direction making a very fast tight

482
00:21:23,610 --> 00:21:21,100
u-shaped turn this thing was going back

483
00:21:27,930 --> 00:21:23,620
and forth across the sky covering the

484
00:21:31,140 --> 00:21:27,940
sky 40 to 60 miles in seconds it would

485
00:21:34,260 --> 00:21:31,150
stop abruptly and sit from time to time

486
00:21:37,800 --> 00:21:34,270
and then rapidly accelerate and move

487
00:21:40,140 --> 00:21:37,810
back and forth across the sky there were

488
00:21:42,660 --> 00:21:40,150

patchy clouds in the sky illuminated by

489

00:21:44,850 --> 00:21:42,670

the city nearby and this object would

490

00:21:48,450 --> 00:21:44,860

disappear into or above those clouds

491

00:21:51,150 --> 00:21:48,460

very briefly this sighting lasted for 20

492

00:21:53,430 --> 00:21:51,160

minutes or so I had to stop watching I

493

00:21:56,070 --> 00:21:53,440

had to go to work and this thing was

494

00:21:59,040 --> 00:21:56,080

probably still up there after I went

495

00:22:01,710 --> 00:21:59,050

inside yep the business of living God I

496

00:22:04,470 --> 00:22:01,720

go to work the clock ticks it the clock

497

00:22:08,370 --> 00:22:04,480

ticks and we realize we've got to go

498

00:22:10,170 --> 00:22:08,380
