

 UFO Headline News | Tuesday October 3rd, 2017

 Listen on
inceptionradionetwork.com

1
00:00:07,130 --> 00:00:04,849
hello it's Tuesday October 3rd 2017 if

2
00:00:09,589 --> 00:00:07,140
you are listening to inception radio

3
00:00:12,530 --> 00:00:09,599
network voice of the fringe majority

4
00:00:17,029 --> 00:00:12,540
this is Carol Karl with UFO headline

5
00:00:19,640 --> 00:00:17,039
news gentle listeners as all of you

6
00:00:22,759 --> 00:00:19,650
surely know there was a horrendous event

7
00:00:24,170 --> 00:00:22,769
in Las Vegas on October 1st in order to

8
00:00:26,929 --> 00:00:24,180
get you the details and get them

9
00:00:29,570 --> 00:00:26,939
straight and more or less current we

10
00:00:32,209 --> 00:00:29,580
found that Wikipedia of all places has a

11
00:00:35,630 --> 00:00:32,219
pretty good rundown of how this went and

12
00:00:38,090 --> 00:00:35,640
here it is on October 1st 2017 a mass

13
00:00:40,760 --> 00:00:38,100

shooting occurred on the route 91

14

00:00:42,709 --> 00:00:40,770

harvest Country Music Festival on the

15

00:00:45,920 --> 00:00:42,719

Las Vegas Strip in the city of

16

00:00:47,840 --> 00:00:45,930

technically Paradise Nevada a gunman

17

00:00:50,510 --> 00:00:47,850

opened fire on the open air festival

18

00:00:53,299 --> 00:00:50,520

crowd from the 32nd floor of the

19

00:00:55,010 --> 00:00:53,309

Mandalay Bay Hotel and Casino across Las

20

00:00:57,950 --> 00:00:55,020

Vegas Boulevard during the closing

21

00:01:00,290 --> 00:00:57,960

performance by singer Jason Aldean the

22

00:01:03,080 --> 00:01:00,300

shooter was identified as 64 year old

23

00:01:05,660 --> 00:01:03,090

Steven Craig paddock of Mesquite Nevada

24

00:01:07,550 --> 00:01:05,670

he was found dead in his hotel room with

25

00:01:11,000 --> 00:01:07,560

a self-inflicted gunshot wound

26
00:01:13,700 --> 00:01:11,010
this incident surpassed the 2016 Orlando

27
00:01:15,710 --> 00:01:13,710
nightclub shooting as the deadliest mass

28
00:01:18,560 --> 00:01:15,720
shooting by a lone gunman in United

29
00:01:20,330 --> 00:01:18,570
States history with at least 60 at this

30
00:01:25,249 --> 00:01:20,340
point fatalities including the

31
00:01:27,410 --> 00:01:25,259
perpetrator 527 injuries the route 91

32
00:01:29,899 --> 00:01:27,420
harvest Country Music Festival has been

33
00:01:34,010 --> 00:01:29,909
held every year since 2014 at Las Vegas

34
00:01:37,249 --> 00:01:34,020
Village that's a 15 acre a 6.1 hectare a

35
00:01:40,819 --> 00:01:37,259
lot used for outdoor performances the

36
00:01:43,550 --> 00:01:40,829
space itself is 450 meters 490 yards

37
00:01:46,219 --> 00:01:43,560
from the Mandalay Bay Hotel which is

38
00:01:47,929 --> 00:01:46,229

located in Paradise Nevada and that's on

39

00:01:52,639 --> 00:01:47,939
the opposite side of Las Vegas Boulevard

40

00:01:54,380 --> 00:01:52,649
on October 1st 2017 Jason Aldean gave

41

00:01:56,929 --> 00:01:54,390
the closing performance of the third and

42

00:01:59,690 --> 00:01:56,939
final day of the festival the event was

43

00:02:02,660 --> 00:01:59,700
attended by approximately 22,000 people

44

00:02:04,940 --> 00:02:02,670
at this point it seems as though Patek

45

00:02:06,950 --> 00:02:04,950
fired multiple rifle rounds into the

46

00:02:09,859 --> 00:02:06,960
festival audience from two windows

47

00:02:12,350 --> 00:02:09,869
windows he had broken on the 32nd floor

48

00:02:13,790 --> 00:02:12,360
of the Mandalay Bay Hotel the attack

49

00:02:16,700 --> 00:02:13,800
began during Jason Aldean

50

00:02:19,220 --> 00:02:16,710
performance about 1008 p.m. Pacific

51
00:02:21,350 --> 00:02:19,230
Daylight Time many people in the crowd

52
00:02:23,510 --> 00:02:21,360
initially mistook the gunfire for

53
00:02:25,760 --> 00:02:23,520
fireworks or something performance

54
00:02:29,090 --> 00:02:25,770
related the gunfire continued

55
00:02:31,790 --> 00:02:29,100
intermittently for around 10 minutes by

56
00:02:33,860 --> 00:02:31,800
10:25 a group of officers had reached

57
00:02:35,780 --> 00:02:33,870
the hotel's 32nd floor and locked it

58
00:02:38,360 --> 00:02:35,790
down they announced themselves outside

59
00:02:41,120 --> 00:02:38,370
paddocks suite and he fired through the

60
00:02:43,670 --> 00:02:41,130
door wounding a hotel security guard at

61
00:02:46,220 --> 00:02:43,680
around 11:21 p.m. police breached the

62
00:02:48,590 --> 00:02:46,230
room with explosives the perpetrator was

63
00:02:50,660 --> 00:02:48,600

found dead having shot himself just

64

00:02:52,450 --> 00:02:50,670

before the police entered at least

65

00:02:55,940 --> 00:02:52,460

that's how the story is playing out now

66

00:02:58,250 --> 00:02:55,950

at 11:58 p.m. the Las Vegas metropolitan

67

00:03:01,160 --> 00:02:58,260

Police Department said that one suspect

68

00:03:05,480 --> 00:03:01,170

was down a large quantity of ammunition

69

00:03:10,340 --> 00:03:05,490

and 23 firearms were found including an

70

00:03:11,960 --> 00:03:10,350

ar-15 style and an ak-47 style rifle two

71

00:03:14,620 --> 00:03:11,970

of the rifles were mounted on tripods

72

00:03:17,000 --> 00:03:14,630

equipped with telescopic sights

73

00:03:19,479 --> 00:03:17,010

according to firearms instructor Massad

74

00:03:22,070 --> 00:03:19,489

Ayoob audio recordings of the attack

75

00:03:24,560 --> 00:03:22,080

indicated that the perpetrator probably

76
00:03:27,800 --> 00:03:24,570
used something called a bump fire device

77
00:03:30,020 --> 00:03:27,810
that bump fire stock was also found in

78
00:03:33,890 --> 00:03:30,030
the room the gunman was identified as

79
00:03:35,300 --> 00:03:33,900
Steven Craig paddock born April 9th 1953

80
00:03:38,810 --> 00:03:35,310
he'd been living in a retirement

81
00:03:41,750 --> 00:03:38,820
community in muscat Nevada police found

82
00:03:43,520 --> 00:03:41,760
23 rifles and one handgun inside the

83
00:03:45,140 --> 00:03:43,530
hotel room had occurred occupied since

84
00:03:47,449 --> 00:03:45,150
September 28th

85
00:03:50,540 --> 00:03:47,459
according to police paddock acted alone

86
00:03:51,979 --> 00:03:50,550
and his motive is unknown as of yet the

87
00:03:55,790 --> 00:03:51,989
police have refrained from describing

88
00:03:57,800 --> 00:03:55,800

paddocks specifically as a terrorist he

89

00:04:00,260 --> 00:03:57,810

was a retired accountant and reportedly

90

00:04:02,420 --> 00:04:00,270

quite affluent he owned and managed some

91

00:04:04,760 --> 00:04:02,430

apartment buildings with his mother he

92

00:04:07,370 --> 00:04:04,770

had previous residences in Reno Nevada

93

00:04:10,280 --> 00:04:07,380

California Texas and Central Florida

94

00:04:12,710 --> 00:04:10,290

he'd been a licensed private pilot since

95

00:04:14,300 --> 00:04:12,720

at least 2003 and had previously owned

96

00:04:16,220 --> 00:04:14,310

two small aircraft

97

00:04:18,920 --> 00:04:16,230

he had a fishing license from the state

98

00:04:22,099 --> 00:04:18,930

of Alaska police relatives and neighbors

99

00:04:24,170 --> 00:04:22,109

described Patek as a gambler police said

100

00:04:26,690 --> 00:04:24,180

he'd made recent casino transactions in

101
00:04:27,560 --> 00:04:26,700
the tens of thousands of dollars but he

102
00:04:29,360 --> 00:04:27,570
did not specify

103
00:04:32,750 --> 00:04:29,370
whether these transactions were losses

104
00:04:35,930 --> 00:04:32,760
or wins Stephen Craig paddocks father

105
00:04:38,690 --> 00:04:35,940
Benjamin Hoskins paddock was a bank

106
00:04:41,900 --> 00:04:38,700
robber he was on the FBI's most wanted

107
00:04:44,620 --> 00:04:41,910
list in 1969 after escaping from federal

108
00:04:47,480 --> 00:04:44,630
prison he was removed from that list in

109
00:04:50,570 --> 00:04:47,490
1977 we're not seeing it in the coverage

110
00:04:52,670 --> 00:04:50,580
by wiki of this individual but it is

111
00:04:55,160 --> 00:04:52,680
mentioned on certain other websites that

112
00:04:58,460 --> 00:04:55,170
at one point Stephen Craig paddock was

113
00:05:00,620 --> 00:04:58,470

employed by NASA previously employed by

114

00:05:03,620 --> 00:05:00,630

the company that was purchased by

115

00:05:05,870 --> 00:05:03,630

Lockheed Martin aircraft we're pretty

116

00:05:08,210 --> 00:05:05,880

sure there are many conspiracy boats

117

00:05:10,460 --> 00:05:08,220

tied to the piers at this point ready to

118

00:05:12,890 --> 00:05:10,470

set float we just aren't quite ready to

119

00:05:15,500 --> 00:05:12,900

go there ourselves yet but in the hours

120

00:05:17,630 --> 00:05:15,510

following the shooting false information

121

00:05:19,790 --> 00:05:17,640

about the shooters identity and motive

122

00:05:22,580 --> 00:05:19,800

was circulated by what's called here

123

00:05:25,390 --> 00:05:22,590

political fringe websites and internet

124

00:05:28,490 --> 00:05:25,400

forums and going viral on social media

125

00:05:30,410 --> 00:05:28,500

conspiracy theorist Alex Jones tied the

126
00:05:33,110 --> 00:05:30,420
shooting to a supposed quote communist

127
00:05:35,450 --> 00:05:33,120
takeover of the country and quotes the

128
00:05:38,000 --> 00:05:35,460
far-right website the Gateway pundit

129
00:05:40,610 --> 00:05:38,010
miss identified the shooter all together

130
00:05:42,710 --> 00:05:40,620
they said it was Geary Dan Lee is

131
00:05:45,530 --> 00:05:42,720
supposedly a Democrat Google briefly

132
00:05:47,900 --> 00:05:45,540
highlighted this false report two of

133
00:05:50,420 --> 00:05:47,910
Facebook's top trending pages were items

134
00:05:52,700 --> 00:05:50,430
from Sputnik that Russian news agency

135
00:05:54,440 --> 00:05:52,710
Google and Facebook have recently of

136
00:05:56,420 --> 00:05:54,450
course been criticized for prominently

137
00:05:59,540 --> 00:05:56,430
displaying fake news and their search

138
00:06:01,610 --> 00:05:59,550

results Facebook later admitted in fact

139

00:06:04,160 --> 00:06:01,620

that their system automatically promoted

140

00:06:06,980 --> 00:06:04,170

to fake Vegas Massacre stories they said

141

00:06:08,660 --> 00:06:06,990

they're working on it a large portion of

142

00:06:10,880 --> 00:06:08,670

Las Vegas Boulevard was shut down as

143

00:06:12,740 --> 00:06:10,890

police SWAT teams combed the venue the

144

00:06:14,690 --> 00:06:12,750

neighboring casinos hotels and

145

00:06:17,450 --> 00:06:14,700

businesses McCarran International

146

00:06:19,400 --> 00:06:17,460

Airport which was immediately south east

147

00:06:21,950 --> 00:06:19,410

of the festival site was closed for

148

00:06:24,530 --> 00:06:21,960

several hours multiple flights rerouted

149

00:06:26,270 --> 00:06:24,540

or canceled altogether some of those

150

00:06:28,370 --> 00:06:26,280

escaping the shooting in fact entered

151
00:06:30,950 --> 00:06:28,380
the airport property in large groups as

152
00:06:33,320 --> 00:06:30,960
they fled Nevada Governor Brian Sandoval

153
00:06:35,330 --> 00:06:33,330
called the shooting quote a tragic and

154
00:06:38,360 --> 00:06:35,340
highness act of violence that has shaken

155
00:06:40,310 --> 00:06:38,370
the Nevada family end quotes and all the

156
00:06:41,300 --> 00:06:40,320
usual politico's from our current

157
00:06:44,180 --> 00:06:41,310
President on down

158
00:06:45,680 --> 00:06:44,190
sent condolences Jason Aldean who was

159
00:06:47,930 --> 00:06:45,690
performing when the shooting started

160
00:06:49,910 --> 00:06:47,940
posted his condolences on Instagram

161
00:06:52,130 --> 00:06:49,920
noting that all of those working with

162
00:06:55,250 --> 00:06:52,140
him at the show had survived the attack

163
00:06:58,370 --> 00:06:55,260

and here's an interesting note stock

164

00:07:02,000 --> 00:06:58,380

prices of firearms manufacturers rose

165

00:07:03,830 --> 00:07:02,010

the day after this mass shooting somehow

166

00:07:05,990 --> 00:07:03,840

it seems as though the phrase our

167

00:07:09,200 --> 00:07:06,000

thoughts and prayers are with the

168

00:07:10,310 --> 00:07:09,210

survivors and the lost doesn't seem

169

00:07:11,990 --> 00:07:10,320

sufficient anymore

170

00:07:14,300 --> 00:07:12,000

we're gonna have to find something else

171

00:07:17,840 --> 00:07:14,310

to say or more specifically something

172

00:07:20,060 --> 00:07:17,850

else to do perhaps but for the moment

173

00:07:23,150 --> 00:07:20,070

let's look heavenwards shall we and

174

00:07:24,350 --> 00:07:23,160

watch for Mars and Venus this week yep

175

00:07:27,170 --> 00:07:24,360

of course you have to wait till after

176

00:07:28,970 --> 00:07:27,180

dark and it's always weather permitting

177

00:07:31,700 --> 00:07:28,980

but here's what the folks at Earth Sky

178

00:07:34,550 --> 00:07:31,710

dot-org promise for well for the

179

00:07:38,540 --> 00:07:34,560

upcoming days before dawn around now

180

00:07:40,940 --> 00:07:38,550

early October 2017 use the dazzling

181

00:07:44,300 --> 00:07:40,950

planet Venus to find the rather faint

182

00:07:46,850 --> 00:07:44,310

red planet Mars in the sunrise direction

183

00:07:49,280 --> 00:07:46,860

you might need binoculars to see Mars in

184

00:07:50,090 --> 00:07:49,290

the same binocular field view of Venus

185

00:07:52,430 --> 00:07:50,100

right now

186

00:07:54,740 --> 00:07:52,440

fortunately Venus and Mars will remain

187

00:07:56,660 --> 00:07:54,750

within a single binocular field for

188

00:07:59,120 --> 00:07:56,670

about a week this first week of October

189

00:08:01,460 --> 00:07:59,130

these two worlds will come closest

190

00:08:04,400 --> 00:08:01,470

together on the skies dome on or near

191

00:08:08,330 --> 00:08:04,410

October 5th at that juncture the two

192

00:08:09,890 --> 00:08:08,340

planets will only be 0.2 degrees or $\frac{2}{5}$

193

00:08:12,500 --> 00:08:09,900

of a moon width apart

194

00:08:14,660 --> 00:08:12,510

the rising time of Venus and Mars into

195

00:08:18,020 --> 00:08:14,670

the morning sky varies a bit worldwide

196

00:08:20,810 --> 00:08:18,030

just know that they rise before sunup in

197

00:08:23,660 --> 00:08:20,820

the sunrise direction there is a chart

198

00:08:25,880 --> 00:08:23,670

if you want that exact precise time you

199

00:08:29,510 --> 00:08:25,890

can find the chart later at UFO headline

200

00:08:31,850 --> 00:08:29,520

news comm given an unobstructed eastern

201
00:08:34,430 --> 00:08:31,860
horizon at mid northern latitudes the

202
00:08:37,550 --> 00:08:34,440
planetary twosome Rises about two hours

203
00:08:39,290 --> 00:08:37,560
before sunrise at temperate latitudes in

204
00:08:41,540 --> 00:08:39,300
the southern hemisphere Venus and Mars

205
00:08:44,870 --> 00:08:41,550
come up in the east and hour before the

206
00:08:47,390 --> 00:08:44,880
Sun Venus that third brightest heavenly

207
00:08:50,810 --> 00:08:47,400
body after the Sun and Moon outshines

208
00:08:53,600 --> 00:08:50,820
Mars right now by some 200 times in fact

209
00:08:54,980 --> 00:08:53,610
Wright's Bruce McClure at present Mars

210
00:08:57,680 --> 00:08:54,990
appears about as dim

211
00:08:59,600 --> 00:08:57,690
it ever gets in our sky that's because

212
00:09:01,550 --> 00:08:59,610
the Red Planet is now moving on the far

213
00:09:04,880 --> 00:09:01,560

side of the Sun as seen from Earth and

214

00:09:08,000 --> 00:09:04,890

moreover Mars is just a few days shy of

215

00:09:10,550 --> 00:09:08,010

its aphelion that farthest point from

216

00:09:12,860 --> 00:09:10,560

the Sun great distance from the Sun and

217

00:09:15,949 --> 00:09:12,870

Mars being on the far side of the Sun

218

00:09:18,470 --> 00:09:15,959

from us means Mars is just about as far

219

00:09:21,769 --> 00:09:18,480

away from Earth now as it can be and

220

00:09:23,780 --> 00:09:21,779

Mars may be faint now but watch in the

221

00:09:26,090 --> 00:09:23,790

coming months earth will be coming up

222

00:09:28,699 --> 00:09:26,100

fast on Mars and our smaller orbit

223

00:09:32,900 --> 00:09:28,709

causing Mars to reach opposition July

224

00:09:35,720 --> 00:09:32,910

27th 2018 that's a wait this world will

225

00:09:38,329 --> 00:09:35,730

be approximately 6.5 times closer to

226

00:09:40,490 --> 00:09:38,339

Earth at that point and some 70 times

227

00:09:43,670 --> 00:09:40,500

brighter in our sky than it is now in

228

00:09:46,370 --> 00:09:43,680

fact 2018 generally is going to be a

229

00:09:50,060 --> 00:09:46,380

wonderful time to look at Mars and that

230

00:09:52,519 --> 00:09:50,070

July 2018 opposition Mars will become

231

00:09:55,370 --> 00:09:52,529

the fourth brightest celestial body to

232

00:09:58,160 --> 00:09:55,380

light up our sky after the Sun Moon and

233

00:10:00,860 --> 00:09:58,170

Venus it will be brighter in fact than

234

00:10:03,920 --> 00:10:00,870

King planet Jupiter and that's because

235

00:10:06,470 --> 00:10:03,930

in that year 2018 Mars and Earth will be

236

00:10:09,710 --> 00:10:06,480

closer than they've been since 2003

237

00:10:12,230 --> 00:10:09,720

in fact as 2017 comes to a close you can

238

00:10:14,810 --> 00:10:12,240

look for Mars to climb upward each day

239

00:10:17,569 --> 00:10:14,820

in the eastern sky away from the glare

240

00:10:20,269 --> 00:10:17,579

of sunrise meanwhile you can also watch

241

00:10:23,540 --> 00:10:20,279

Venus fall closer to the Rising Sun day

242

00:10:26,120 --> 00:10:23,550

by day and this means that in the coming

243

00:10:28,880 --> 00:10:26,130

few days you can watch for Mars to climb

244

00:10:31,010 --> 00:10:28,890

higher in the East than Venus this great

245

00:10:33,470 --> 00:10:31,020

conjunction of Venus and Mars in the

246

00:10:35,269 --> 00:10:33,480

Eastern morning sky favors viewers in

247

00:10:37,100 --> 00:10:35,279

the northern hemisphere although it can

248

00:10:39,889 --> 00:10:37,110

be seen from the southern hemisphere as

249

00:10:42,440 --> 00:10:39,899

well at mid northern latitudes you've

250

00:10:45,319 --> 00:10:42,450

got to get up at least 90 minutes get

251
00:10:47,240 --> 00:10:45,329
that coffee before the Sun if you want

252
00:10:50,900 --> 00:10:47,250
to view Venus and Mars with either your

253
00:10:53,600 --> 00:10:50,910
unaided eye or an optical aid wishing

254
00:10:56,000 --> 00:10:53,610
you clear skies for the upcoming morning

255
00:10:58,310 --> 00:10:56,010
spectacle bottom line the close

256
00:11:01,160 --> 00:10:58,320
conjunction of Mars and Venus when they

257
00:11:03,860 --> 00:11:01,170
have the same right ascension equivalent

258
00:11:07,640 --> 00:11:03,870
to earthly longitude comes on October

259
00:11:08,750 --> 00:11:07,650
5th 2017 at that point these two worlds

260
00:11:11,720 --> 00:11:08,760
are 0.2

261
00:11:15,740 --> 00:11:11,730
degrees or two-fifths of the moon width

262
00:11:18,019 --> 00:11:15,750
apart and for space that's close here's

263
00:11:21,079 --> 00:11:18,029

a heads up for all you gentle listeners

264

00:11:23,720 --> 00:11:21,089

in the Arizona area you just might see

265

00:11:26,269 --> 00:11:23,730

something in the sky and not know what

266

00:11:29,509 --> 00:11:26,279

it is well here's something it could be

267

00:11:32,269 --> 00:11:29,519

headline world view successfully

268

00:11:34,670 --> 00:11:32,279

launches its first strata light from its

269

00:11:38,389 --> 00:11:34,680

Tucson headquarters Darrell Etherington

270

00:11:40,819 --> 00:11:38,399

writes this for TechCrunch stratospheric

271

00:11:43,430 --> 00:11:40,829

balloon launch startup company world

272

00:11:45,110 --> 00:11:43,440

view completed its inaugural launch from

273

00:11:46,900 --> 00:11:45,120

its new Tucson Arizona based

274

00:11:49,670 --> 00:11:46,910

headquarters the new headquarters

275

00:11:51,050 --> 00:11:49,680

officially opened back in February but

276

00:11:53,210 --> 00:11:51,060

since then it's been preparing the

277

00:11:56,629 --> 00:11:53,220

facility for regular launch operations

278

00:11:59,210 --> 00:11:56,639

culminating in today's takeoff it was a

279

00:12:01,460 --> 00:11:59,220

debut worldview is trying to carve out

280

00:12:03,620 --> 00:12:01,470

novel territory in the commercial space

281

00:12:06,620 --> 00:12:03,630

business by launching super high

282

00:12:08,720 --> 00:12:06,630

altitude balloon craft craft which can

283

00:12:11,449 --> 00:12:08,730

operate at the upper edge of Earth's

284

00:12:13,639 --> 00:12:11,459

atmosphere for scientific observational

285

00:12:16,519 --> 00:12:13,649

and other purposes while keeping costs

286

00:12:18,949 --> 00:12:16,529

well below those of low Earth orbit

287

00:12:21,379 --> 00:12:18,959

satellites world views stratosphere

288

00:12:24,019 --> 00:12:21,389

altitude would help with long-term site

289

00:12:26,870 --> 00:12:24,029

observation weather monitoring and even

290

00:12:28,250 --> 00:12:26,880

defense applications the inaugural

291

00:12:30,829 --> 00:12:28,260

Tucson launch took place Saturday

292

00:12:32,420 --> 00:12:30,839

morning after a balloon filled test

293

00:12:34,850 --> 00:12:32,430

conducted in mid-august

294

00:12:37,430 --> 00:12:34,860

this Tucson headquarters features not

295

00:12:40,610 --> 00:12:37,440

only launch facilities but also offices

296

00:12:43,189 --> 00:12:40,620

and one of the longest continuous tables

297

00:12:45,710 --> 00:12:43,199

in the world which the company uses to

298

00:12:48,350 --> 00:12:45,720

handcraft its giant stratospheric

299

00:12:50,360 --> 00:12:48,360

balloons eventually world view wants to

300

00:12:52,579 --> 00:12:50,370

be able to send balloons up that can

301
00:12:54,920 --> 00:12:52,589
even carry a passenger pod for

302
00:12:58,639 --> 00:12:54,930
stratospheric tourists and scientific

303
00:13:00,410 --> 00:12:58,649
crews world view CEO Jane Poynter said

304
00:13:02,840 --> 00:13:00,420
the first launch from Tucson was quote

305
00:13:04,850 --> 00:13:02,850
another important milestone in our

306
00:13:06,829 --> 00:13:04,860
series of strata light development and

307
00:13:09,079 --> 00:13:06,839
demonstration missions which are helping

308
00:13:11,569 --> 00:13:09,089
us perfect our overall technology and

309
00:13:14,740 --> 00:13:11,579
operations as we move closer to a

310
00:13:17,900 --> 00:13:14,750
routine long-duration station-keeping

311
00:13:22,400 --> 00:13:17,910
Strato light platform end quotes and

312
00:13:25,970 --> 00:13:22,410
that Strato light spelled uppercase str8

313
00:13:29,509 --> 00:13:25,980

Oh I like the company recently

314

00:13:31,749 --> 00:13:29,519

celebrated a milestone of a record 27

315

00:13:33,889 --> 00:13:31,759

our flight for one of those balloons

316

00:13:36,259 --> 00:13:33,899

eventually it hopes to be able to run

317

00:13:40,040 --> 00:13:36,269

commercial operations where balloons can

318

00:13:42,019 --> 00:13:40,050

remain aloft for months at a time yep

319

00:13:44,179 --> 00:13:42,029

head on over to UFO headline news

320

00:13:46,730 --> 00:13:44,189

dot-com later take a look at the shots

321

00:13:49,550 --> 00:13:46,740

of that balloon and then just sit back

322

00:13:52,129 --> 00:13:49,560

and watch as the UFO reports come in

323

00:13:54,800 --> 00:13:52,139

which is undoubtedly going to be a

324

00:13:57,519 --> 00:13:54,810

spinoff here's a story from open minds

325

00:14:01,150 --> 00:13:57,529

dot TV posted by Alejandro Rojas

326

00:14:03,860 --> 00:14:01,160

headline mysterious red blob

327

00:14:07,699 --> 00:14:03,870

photographed in the Louisiana night sky

328

00:14:10,639 --> 00:14:07,709

an open minds TV reader in BO Bridge

329

00:14:12,860 --> 00:14:10,649

Louisiana spotted something odd in the

330

00:14:15,379 --> 00:14:12,870

night sky and was fortunately able to

331

00:14:18,110 --> 00:14:15,389

photograph it the photos show a strange

332

00:14:20,480 --> 00:14:18,120

red blob in the sky he and his wife were

333

00:14:23,269 --> 00:14:20,490

able to see that blob with their naked

334

00:14:25,369 --> 00:14:23,279

eyes here's what happened Patrick Malone

335

00:14:27,290 --> 00:14:25,379

says he and his wife were leaving the

336

00:14:29,990 --> 00:14:27,300

house when they noticed quote a faint

337

00:14:32,269 --> 00:14:30,000

red blob and quotes in the night sky

338

00:14:35,240 --> 00:14:32,279

above them he decided to go back inside

339

00:14:37,730 --> 00:14:35,250

and grab a camera he then took several

340

00:14:41,150 --> 00:14:37,740

photographs with two different lenses he

341

00:14:44,300 --> 00:14:41,160

was using his Canon at t2 one DSLR

342

00:14:46,939 --> 00:14:44,310

camera they watched the object for 45

343

00:14:49,280 --> 00:14:46,949

minutes malone says he was not looking

344

00:14:51,470 --> 00:14:49,290

at it but his wife was she was trying to

345

00:14:54,170 --> 00:14:51,480

get another picture and then the object

346

00:14:56,030 --> 00:14:54,180

left by a facebook messenger Malone

347

00:15:01,189 --> 00:14:56,040

wrote that she said quote it did not

348

00:15:01,610 --> 00:15:01,199

fade it just disappeared and quotes hey

349

00:15:03,199 --> 00:15:01,620

girl

350

00:15:06,350 --> 00:15:03,209

have you done something new with your

351

00:15:08,569 --> 00:15:06,360

scales using new moisturiser nice it

352

00:15:12,439 --> 00:15:08,579

really brings out the hazel in your eyes

353

00:15:15,939 --> 00:15:12,449

oh are you using lightning strips to

354

00:15:19,100 --> 00:15:15,949

your fangs look good go really good a

355

00:15:21,139 --> 00:15:19,110

really charming snake charmer surprising

356

00:15:25,280 --> 00:15:21,149

what's not surprising how much you could

357

00:15:28,009 --> 00:15:25,290

save by switching to Geico have you been

358

00:15:31,400 --> 00:15:28,019

doing Pilates - Geico 15 minutes could

359

00:15:33,170 --> 00:15:31,410

save you 15% or more via email here's

360

00:15:36,290 --> 00:15:33,180

the report that Patrick Malone sent to

361

00:15:38,630 --> 00:15:36,300

Alejandro Rojas on the night

362

00:15:40,940 --> 00:15:38,640

of Wednesday September 13th at about

363

00:15:43,220 --> 00:15:40,950

10:00 p.m. my wife and I were about to

364

00:15:45,410 --> 00:15:43,230

leave our house in BO Bridge Louisiana

365

00:15:48,500 --> 00:15:45,420

before getting in the truck I looked up

366

00:15:51,650 --> 00:15:48,510

at the sky and noticed a faint red blob

367

00:15:54,050 --> 00:15:51,660

directly above I said to my wife what in

368

00:15:56,900 --> 00:15:54,060

the heck is that she looked up and saw

369

00:15:58,640 --> 00:15:56,910

it as well we stared at this thing for

370

00:16:00,500 --> 00:15:58,650

about ten minutes before I even thought

371

00:16:03,680 --> 00:16:00,510

about attempting to take a picture of it

372

00:16:06,170 --> 00:16:03,690

with the DSLR the entire time it was in

373

00:16:09,290 --> 00:16:06,180

the sky it did not move it did not shift

374

00:16:11,810 --> 00:16:09,300

it stayed directly above us at about 90

375

00:16:13,520 --> 00:16:11,820

degrees it was at such a sharp angle

376

00:16:16,070 --> 00:16:13,530

that all of the photographs had to be

377

00:16:19,130 --> 00:16:16,080

taken freehand I've included the best

378

00:16:21,380 --> 00:16:19,140

photos I have of this weird ISM all

379

00:16:24,500 --> 00:16:21,390

photos are directly off of the memory

380

00:16:27,860 --> 00:16:24,510

card and not edited they were all taken

381

00:16:30,230 --> 00:16:27,870

with a Canon t2i the pictures where the

382

00:16:33,230 --> 00:16:30,240

blob is zoomed out those were taken with

383

00:16:35,600 --> 00:16:33,240

a taka more 55 millimeter lens and the

384

00:16:40,150 --> 00:16:35,610

blurry zoomed in photo is with a Vivitar

385

00:16:43,160 --> 00:16:40,160

75 205 millimeter both lenses are manual

386

00:16:45,200 --> 00:16:43,170

non-electric all the photos have about a

387

00:16:47,510 --> 00:16:45,210

three quarter second shutter speed so

388

00:16:49,810 --> 00:16:47,520

the blob is brighter in the photo than

389

00:16:53,060 --> 00:16:49,820

it actually was as seen by the naked eye

390

00:16:55,550 --> 00:16:53,070

that's from mr. Malone Alejandro Rojas

391

00:16:57,860 --> 00:16:55,560

continues the pictures are fascinating

392

00:17:00,790 --> 00:16:57,870

the object does look like some sort of

393

00:17:02,930 --> 00:17:00,800

celestial object but it's awfully bright

394

00:17:04,760 --> 00:17:02,940

Malone says a friend told him that a

395

00:17:06,740 --> 00:17:04,770

missile or a spacecraft launched could

396

00:17:08,420 --> 00:17:06,750

look like this but he was not able to

397

00:17:10,790 --> 00:17:08,430

find a record of such a launch on that

398

00:17:13,430 --> 00:17:10,800

evening Patrick Malone says he does not

399

00:17:15,920 --> 00:17:13,440

know what this is and he'd like some

400

00:17:18,380 --> 00:17:15,930

help figuring it out Alejandro Rojas

401
00:17:20,720 --> 00:17:18,390
checked the website heavens above comm

402
00:17:22,880 --> 00:17:20,730
to find out if anything was in the sky

403
00:17:25,400 --> 00:17:22,890
at that time there was a part of a

404
00:17:28,040 --> 00:17:25,410
Russian rocket space junk that space

405
00:17:30,440 --> 00:17:28,050
junk circled overhead at about 9:20 4

406
00:17:32,300 --> 00:17:30,450
p.m. but it's thought that that would

407
00:17:36,110 --> 00:17:32,310
appear like a point of light crossing

408
00:17:38,120 --> 00:17:36,120
the sky not like a red blob so for now

409
00:17:40,670 --> 00:17:38,130
at least for the Malone's and for

410
00:17:43,640 --> 00:17:40,680
Alejandro Rojas the mystery continues

411
00:17:46,010 --> 00:17:43,650
and he adds if you think you know what

412
00:17:46,670 --> 00:17:46,020
it is drop us a line in the comment

413
00:17:49,760 --> 00:17:46,680

section

414

00:17:52,220 --> 00:17:49,770

under

415

00:17:53,900 --> 00:17:52,230

open minds dot TV stories where you can

416

00:17:56,840 --> 00:17:53,910

comment did you see it

417

00:17:58,340 --> 00:17:56,850

put in your two cents worth buckle up

418

00:18:01,550 --> 00:17:58,350

find something to hold on to we're

419

00:18:03,800 --> 00:18:01,560

heading over to UFOs stalker calm we're

420

00:18:07,130 --> 00:18:03,810

going to zoom way up to Quebec City

421

00:18:09,910 --> 00:18:07,140

Quebec Canada for this sighting it's

422

00:18:12,470 --> 00:18:09,920

move on number eight seven zero six zero

423

00:18:14,750 --> 00:18:12,480

this sighting happened on the 23rd of

424

00:18:19,280 --> 00:18:14,760

September it was reported October 1st

425

00:18:21,170 --> 00:18:19,290

here's the summary hovering light there

426
00:18:23,660 --> 00:18:21,180
are photos that accompany this account

427
00:18:27,320 --> 00:18:23,670
you can find those later at UFO headline

428
00:18:28,670 --> 00:18:27,330
news dot-com do your own analysis the

429
00:18:30,800 --> 00:18:28,680
viewing distance under sighting

430
00:18:34,220 --> 00:18:30,810
specifics according to our witness is

431
00:18:37,240 --> 00:18:34,230
not applicable the altitude listed as

432
00:18:40,850 --> 00:18:37,250
unknown the sighting duration one-minute

433
00:18:43,610 --> 00:18:40,860
object features unknown as is the flight

434
00:18:47,090 --> 00:18:43,620
path of this particular object and its

435
00:18:49,550 --> 00:18:47,100
shape is described as other in this case

436
00:18:51,830 --> 00:18:49,560
the witness is not reporting this in the

437
00:18:53,930 --> 00:18:51,840
first-person here's what it says quote I

438
00:18:55,970 --> 00:18:53,940

didn't witness this myself as I am

439

00:18:59,570 --> 00:18:55,980

submitting it for a friend

440

00:19:01,610 --> 00:18:59,580

let's read he and his father were

441

00:19:03,890 --> 00:19:01,620

hunting in a remote area of northern

442

00:19:06,830 --> 00:19:03,900

Canada they had a hunters camera set up

443

00:19:08,810 --> 00:19:06,840

for assessing game this camera is motion

444

00:19:11,540 --> 00:19:08,820

activated it takes three pictures a

445

00:19:12,980 --> 00:19:11,550

minute when it detects movement the

446

00:19:15,350 --> 00:19:12,990

camera that took the pictures of the

447

00:19:18,710 --> 00:19:15,360

strange lights in the night please note

448

00:19:21,380 --> 00:19:18,720

the AM and PM settings are reversed when

449

00:19:24,260 --> 00:19:21,390

the time was set however it's obvious

450

00:19:27,710 --> 00:19:24,270

that this is day or night also the

451
00:19:30,260 --> 00:19:27,720
setting date is three days behind moving

452
00:19:32,240 --> 00:19:30,270
forward the witness continues I have

453
00:19:34,880 --> 00:19:32,250
included that the images taken before

454
00:19:36,650 --> 00:19:34,890
and after the light sequence you can see

455
00:19:38,900 --> 00:19:36,660
that these lights are situated in the

456
00:19:41,060 --> 00:19:38,910
sky portion of the image and the

457
00:19:43,220 --> 00:19:41,070
landscape hasn't moved so there was no

458
00:19:45,830 --> 00:19:43,230
movement of the camera this would rule

459
00:19:48,850 --> 00:19:45,840
out traces made by the moon on a moving

460
00:19:51,470 --> 00:19:48,860
camera the camera was affixed to a post

461
00:19:53,540 --> 00:19:51,480
the light was sufficiently bright to

462
00:19:55,850 --> 00:19:53,550
illuminate trees in the landscape and we

463
00:19:58,460 --> 00:19:55,860

can see that these trees are not moving

464

00:20:00,800 --> 00:19:58,470

so there was no camera movement in these

465

00:20:02,330 --> 00:20:00,810

night sequences as well I have no

466

00:20:03,170 --> 00:20:02,340

information whether there was a full

467

00:20:05,850 --> 00:20:03,180

moon or

468

00:20:08,610 --> 00:20:05,860

although they didn't witness this object

469

00:20:10,290 --> 00:20:08,620

the father did see a bright lights in

470

00:20:12,780 --> 00:20:10,300

the night when he momentarily woke up

471

00:20:14,460 --> 00:20:12,790

during the night and another unrelated

472

00:20:17,100 --> 00:20:14,470

person at this event was in the area

473

00:20:20,070 --> 00:20:17,110

that weekend and also report seeing a

474

00:20:21,720 --> 00:20:20,080

bright light in the sky they list the

475

00:20:23,820 --> 00:20:21,730

coordinates here if you want to find

476

00:20:27,360 --> 00:20:23,830

those later they will be available at

477

00:20:30,030 --> 00:20:27,370

UFO headline news calm says the witness

478

00:20:32,100 --> 00:20:30,040

although I do believe we are not alone

479

00:20:33,840 --> 00:20:32,110

in the universe as it is a statistical

480

00:20:36,300 --> 00:20:33,850

impossibility

481

00:20:39,840 --> 00:20:36,310

I must admit personally I'm a bit

482

00:20:41,610 --> 00:20:39,850

skeptical about UFO sightings however in

483

00:20:44,340 --> 00:20:41,620

this case I failed to have any

484

00:20:46,380 --> 00:20:44,350

explanation for these light traces I

485

00:20:48,510 --> 00:20:46,390

don't believe a Firefly could have made

486

00:20:50,730 --> 00:20:48,520

these perhaps you've already seen

487

00:20:54,990 --> 00:20:50,740

similar things and have an explanation

488

00:20:56,490 --> 00:20:55,000

so what do you make of this and it's

489

00:20:59,760 --> 00:20:56,500

signed by our witness who lives in

490

00:21:01,380 --> 00:20:59,770

Quebec Canada if you think you know if

491

00:21:03,240 --> 00:21:01,390

you've seen anything like it there's

492

00:21:06,660 --> 00:21:03,250

another source for leaving your comments

493

00:21:09,210 --> 00:21:06,670

your ideas UFO stalker comm provide

494

00:21:11,850 --> 00:21:09,220

space at the end of every sighting entry

495

00:21:14,100 --> 00:21:11,860

with just a couple of maneuvers we can

496

00:21:15,030 --> 00:21:14,110

find our way south to Westbrook

497

00:21:17,460 --> 00:21:15,040

Connecticut

498

00:21:20,730 --> 00:21:17,470

it's MUFON case number eight seven zero

499

00:21:23,010 --> 00:21:20,740

five six this took place on the 29th of

500

00:21:25,470 --> 00:21:23,020

September this year and was reported

501
00:21:29,220 --> 00:21:25,480
October 1st here's what our witness

502
00:21:32,180 --> 00:21:29,230
offers by way of summary driving west on

503
00:21:35,970 --> 00:21:32,190
Route one noticed contrail light clouds

504
00:21:39,470 --> 00:21:35,980
started taking shots video then of

505
00:21:42,080 --> 00:21:39,480
rapidly moving object more photos

506
00:21:46,050 --> 00:21:42,090
gradually enlarging the photos showed a

507
00:21:49,410 --> 00:21:46,060
triangular object and short silver tube

508
00:21:52,590 --> 00:21:49,420
creating a focused exhaust trail but

509
00:21:55,440 --> 00:21:52,600
pixelated Oh yikes that's just the

510
00:21:57,150 --> 00:21:55,450
summary and there are those photos you

511
00:21:59,040 --> 00:21:57,160
know where to find them the sighting

512
00:22:01,950 --> 00:21:59,050
specifics include a viewing distance of

513
00:22:04,650 --> 00:22:01,960

over one mile an altitude that was over

514

00:22:07,290 --> 00:22:04,660

500 feet without cloud cover the

515

00:22:10,140 --> 00:22:07,300

sighting duration three minutes object

516

00:22:12,570 --> 00:22:10,150

features are listed as other the object

517

00:22:14,490 --> 00:22:12,580

flight path was a straight-line path and

518

00:22:16,740 --> 00:22:14,500

this object was shaped like a bullet or

519

00:22:19,080 --> 00:22:16,750

a missile there's weather

520

00:22:20,910 --> 00:22:19,090

sixty-eight degrees Fahrenheit was the

521

00:22:22,680 --> 00:22:20,920

temperature in Westbrook Connecticut at

522

00:22:25,830 --> 00:22:22,690

the time of this event 20 degrees

523

00:22:28,020 --> 00:22:25,840

Celsius dropping down to a minimum of 46

524

00:22:31,200 --> 00:22:28,030

degrees Fahrenheit eight degrees Celsius

525

00:22:34,830 --> 00:22:31,210

all of those usual visibility factors

526
00:22:37,440 --> 00:22:34,840
were well usual ten miles 16 kilometers

527
00:22:40,200 --> 00:22:37,450
and there was nothing abnormal about the

528
00:22:42,290 --> 00:22:40,210
weather conditions at the time it seemed

529
00:22:45,960 --> 00:22:42,300
to go something like this

530
00:22:48,630 --> 00:22:45,970
driving West exiting an old iron trestle

531
00:22:51,740 --> 00:22:48,640
bridge I noticed a series of what looked

532
00:22:54,620 --> 00:22:51,750
like contrails so I began taking photos

533
00:22:57,360 --> 00:22:54,630
rounding a curve I noticed something

534
00:22:59,970 --> 00:22:57,370
rapidly accelerating something leaving a

535
00:23:02,940 --> 00:22:59,980
long trail so I took a few more pictures

536
00:23:04,800 --> 00:23:02,950
I switched to video until this object

537
00:23:07,680 --> 00:23:04,810
disappeared and then I went back to

538
00:23:10,940 --> 00:23:07,690

taking photos of it spoofed out puffs

539

00:23:14,370 --> 00:23:10,950

that were leaving several odd clouds

540

00:23:17,340 --> 00:23:14,380

later gradually enlarging my photos I

541

00:23:19,950 --> 00:23:17,350

could see a triangular tip followed by a

542

00:23:23,550 --> 00:23:19,960

short silver cylinder section which was

543

00:23:25,770 --> 00:23:23,560

expelling creating this trail what was

544

00:23:28,230 --> 00:23:25,780

really interesting is that as I further

545

00:23:30,990 --> 00:23:28,240

enlarged the photos and videos the plume

546

00:23:33,750 --> 00:23:31,000

remained focused but the object itself

547

00:23:35,910 --> 00:23:33,760

became a pixelated square as if

548

00:23:39,630 --> 00:23:35,920

something was changing the presentation

549

00:23:40,860 --> 00:23:39,640

on my Samsung s7 cellphone camera at

550

00:23:42,990 --> 00:23:40,870

first I thought it might have been an

551
00:23:46,080 --> 00:23:43,000
aircraft but there was nothing about

552
00:23:48,120 --> 00:23:46,090
this object that could present that it

553
00:23:50,360 --> 00:23:48,130
was moving incredibly fast for something

554
00:23:53,960 --> 00:23:50,370
that could be 50 to 100 miles away

555
00:23:56,250 --> 00:23:53,970
possibly several thousand miles an hour

556
00:23:59,010 --> 00:23:56,260
fortunately the photos and videos had

557
00:24:02,430 --> 00:23:59,020
landmarks to measure transit angles over

558
00:24:05,580 --> 00:24:02,440
time so yes there we have it some

559
00:24:09,780 --> 00:24:05,590
photographic evidence a captured UFO

560
00:24:11,910 --> 00:24:09,790
kind of as the UFO flies it's not very

561
00:24:14,220 --> 00:24:11,920
far from Connecticut to Delaware

562
00:24:19,920 --> 00:24:14,230
so let's visit the city of Hakkasan

563
00:24:22,500 --> 00:24:19,930

Delaware spelled h OC ke SSI n that is

564

00:24:25,350 --> 00:24:22,510

the place where MUFON case number 87

565

00:24:28,380 --> 00:24:25,360

zero four six happened the date of this

566

00:24:30,410 --> 00:24:28,390

sighting is nine thirty 2017 it got a

567

00:24:34,940 --> 00:24:30,420

same-day report

568

00:24:38,510 --> 00:24:34,950

summary light beam very fast visible for

569

00:24:40,460 --> 00:24:38,520

a second sighting specifics include a

570

00:24:44,330 --> 00:24:40,470

viewing distance of over one mile an

571

00:24:46,760 --> 00:24:44,340

altitude over 500 feet or less the

572

00:24:48,890 --> 00:24:46,770

sighting duration was two seconds the

573

00:24:51,980 --> 00:24:48,900

object features quite understandably are

574

00:24:54,530 --> 00:24:51,990

simply reported as none the flight path

575

00:24:57,560 --> 00:24:54,540

other and the object is reported to have

576
00:25:01,280 --> 00:24:57,570
been shaped like a flash there isn't any

577
00:25:03,470 --> 00:25:01,290
weather so we'll plunge on ahead I was

578
00:25:05,600 --> 00:25:03,480
at the end of my street with my dog on

579
00:25:08,600 --> 00:25:05,610
the leash and then I went to change the

580
00:25:12,140 --> 00:25:08,610
song on my phone to something else as I

581
00:25:15,650 --> 00:25:12,150
was changing the song I looked up and as

582
00:25:18,980 --> 00:25:15,660
I was stretching I saw a huge beam of

583
00:25:22,070 --> 00:25:18,990
light shoot past me the object which I

584
00:25:25,970 --> 00:25:22,080
first saw to me was a UFO most likely

585
00:25:28,550 --> 00:25:25,980
this object was moving very fast and now

586
00:25:30,530 --> 00:25:28,560
thinking back most likely this object

587
00:25:34,310 --> 00:25:30,540
was heading in a North diagonal

588
00:25:37,130 --> 00:25:34,320

direction Northwest basically it sped

589

00:25:39,350 --> 00:25:37,140

past me very quickly like I only saw

590

00:25:42,460 --> 00:25:39,360

this for two seconds it was flying or

591

00:25:45,440 --> 00:25:42,470

moving whatever you'd call that at least

592

00:25:48,110 --> 00:25:45,450

2,000 feet but it seemed very close to

593

00:25:50,420 --> 00:25:48,120

the ground its motions are the only

594

00:25:53,000 --> 00:25:50,430

thing I can recall and it moved very

595

00:25:55,820 --> 00:25:53,010

quickly moving past me from almost the

596

00:25:58,040 --> 00:25:55,830

first second I saw it my feelings during

597

00:26:01,130 --> 00:25:58,050

this sighting well they were feelings of

598

00:26:04,100 --> 00:26:01,140

terror and paranoia and to me it was a

599

00:26:07,430 --> 00:26:04,110

UFO or a space craft moving at fast

600

00:26:09,650 --> 00:26:07,440

speeds what really set this in stone was

601
00:26:12,410 --> 00:26:09,660
when I texted a friend about it and he

602
00:26:14,750 --> 00:26:12,420
said he saw the exact same thing in

603
00:26:18,230 --> 00:26:14,760
Florida he also said this object was

604
00:26:20,690 --> 00:26:18,240
heading north after I saw this actually

605
00:26:23,720 --> 00:26:20,700
I became paranoid I ran up the street

606
00:26:26,360 --> 00:26:23,730
with my dog in my arms and locked the

607
00:26:29,270 --> 00:26:26,370
doors in my house I even got a knife to

608
00:26:30,950 --> 00:26:29,280
hold on to and I felt much safer I would

609
00:26:34,040 --> 00:26:30,960
like to note that I'm filing this report

610
00:26:38,240 --> 00:26:34,050
only 15 minutes after the event

611
00:26:41,150 --> 00:26:38,250
yikes a knife well we can only say you

612
00:26:43,010 --> 00:26:41,160
had to be there no judgement here ah

613
00:26:44,210 --> 00:26:43,020

we're cut to the quick the time

614

00:26:47,539 --> 00:26:44,220

indicates we've got

615

00:26:49,669 --> 00:26:47,549

fly because that's a wrap

616

00:26:53,390 --> 00:26:49,679

follow today's broadcast out UFO

617

00:26:55,399 --> 00:26:53,400

headline news calm loving-kindness take

618

00:26:57,950 --> 00:26:55,409

care of each other we're all in this

619

00:26:59,320 --> 00:26:57,960

together this is Carol Carl see you

620

00:27:01,570 --> 00:26:59,330

tomorrow

621

00:27:04,190 --> 00:27:01,580

[Music]

622

00:27:06,590 --> 00:27:04,200

computer execute twelve point four P

623

00:27:10,039 --> 00:27:06,600

operation optimizing algorithm running

624

00:27:12,380 --> 00:27:10,049

encryption packet alpha nine nine oh I

625

00:27:14,840 --> 00:27:12,390

don't feel so good what what is it

626

00:27:17,960 --> 00:27:14,850

computer is it hot in here it feels hot

627

00:27:20,390 --> 00:27:17,970

in here I feel a little clammy I should

628

00:27:23,270 --> 00:27:20,400

lie down or something a computer with a

629

00:27:25,310 --> 00:27:23,280

virus surprising what's not surprising

630

00:27:26,060 --> 00:27:25,320

how much you could save by switching to

631

00:27:27,590 --> 00:27:26,070

Geico

632

00:27:30,169 --> 00:27:27,600

those Oysters Rockefeller for 8:00
