00:00:07,820 --> 00:00:04,849
hello it's Tuesday September 26 2017 you

2
00:00:10,669 --> 00:00:07,830
are listening to inception Radio Network

3
00:00:16,550 --> 00:00:10,679
voice of the fringe majority this is

4
00:00:18,769 --> 00:00:16,560
Carol Karl with UFO and what have we got

5
00:00:21,800 --> 00:00:18,779
to look forward to tonight in our sky

6
00:00:25,580 --> 00:00:21,810
after dark earth sky dot-org provides

7
00:00:27,019 --> 00:00:25,590
this headline moon next to Saturn on

8
00:00:29,330 --> 00:00:27,029
September 26th

9
00:00:31,550 --> 00:00:29,340
yep that's tonight as soon as darkness

10
00:00:34,639 --> 00:00:31,560
falls no matter where you are on earth

11
00:00:36,830 --> 00:00:34,649
look for the waxing crescent moon the

12
00:00:39,229 --> 00:00:36,840
bright golden light nearby will be the

13
00:00:41,479 --> 00:00:39,239

planet Saturn the moon and Saturn will

14

00:00:44,330 --> 00:00:41,489

sink downward toward the sunset point as

15

00:00:46,490 --> 00:00:44,340

evening deepens as seen from across the

16

00:00:49,040 --> 00:00:46,500

globe they'll set beneath your horizon

17

00:00:51,260 --> 00:00:49,050

by mid evening in other words your best

18

00:00:52,970 --> 00:00:51,270

view of the moon and Saturn together

19

00:00:55,600 --> 00:00:52,980

happens at nightfall

20

00:00:58,010 --> 00:00:55,610

while the two beam highest in the sky

21

00:01:00,560 --> 00:00:58,020

nightfall also presents the best time to

22

00:01:02,840 --> 00:01:00,570

view Saturn's gorgeous rings and if

23

00:01:04,359 --> 00:01:02,850

you've got a small telescope lurking

24

00:01:07,789 --> 00:01:04,369

somewhere in your basement or attic

25

00:01:11,359 --> 00:01:07,799

dusted off bring it out it's often said

26

00:01:12,890 --> 00:01:11,369

that Saturn would float on water that is

27

00:01:15,020 --> 00:01:12,900

if you could find an ocean of water

28

00:01:18,710 --> 00:01:15,030

that's wide enough and deep enough to

29

00:01:21,109 --> 00:01:18,720

contain it why do people say this that's

30

00:01:23,870 --> 00:01:21,119

because Saturn the sixth planet outward

31

00:01:26,240 --> 00:01:23,880

from our Sun has a very low density in

32

00:01:27,620 --> 00:01:26,250

fact the lowest density of all the

33

00:01:29,749 --> 00:01:27,630

planets in our solar system

34

00:01:32,050 --> 00:01:29,759

Saturn's the only planet in our solar

35

00:01:36,740 --> 00:01:32,060

system that is less dense than water

36

00:01:40,190 --> 00:01:36,750

having about 70% of its density so yes

37

00:01:42,710 --> 00:01:40,200

in theory Saturn would float on water on

38

00:01:44,990 --> 00:01:42,720

the other hand it's also been argued

39

00:01:46,969 --> 00:01:45,000

that Saturn would break apart and its

40

00:01:49,609 --> 00:01:46,979

core would sink in any ocean large

41

00:01:52,310 --> 00:01:49,619

enough to hold it by the way Bruce

42

00:01:54,620 --> 00:01:52,320

McClure asks do you know which planet in

43

00:01:57,649 --> 00:01:54,630

our solar system is the most dense

44

00:02:01,190 --> 00:01:57,659

Yoel it's planet Earth with over five

45

00:02:03,530 --> 00:02:01,200

times the density of water but all for

46

00:02:05,870 --> 00:02:03,540

inner terrestrial planets those rocky

47

00:02:08,660 --> 00:02:05,880

worlds orbiting the Sun inside the

48

00:02:11,690 --> 00:02:08,670

asteroid belt are quite dense Mercury

49

00:02:13,820 --> 00:02:11,700

Venus Earth and Mars those four outer

50

00:02:16,610 --> 00:02:13,830

planets the gas

51
00:02:18,560 --> 00:02:16,620
and ice giants orbiting the Sun outside

52
00:02:21,050 --> 00:02:18,570
the asteroid belt our last dance

53
00:02:23,960 --> 00:02:21,060
although much larger than those inner

54
00:02:27,380 --> 00:02:23,970
planets which are Jupiter Saturn Uranus

55
00:02:29,630 --> 00:02:27,390
and Neptune as usual earth sky dork

56
00:02:31,160 --> 00:02:29,640
provides a cool chart and a list of the

57
00:02:33,650 --> 00:02:31,170
inner planets and their various

58
00:02:35,720 --> 00:02:33,660
densities oh by the way here's a cool

59
00:02:37,490 --> 00:02:35,730
fact in case someone should ask you

60
00:02:40,220 --> 00:02:37,500
later during the day you can provide the

61
00:02:42,410 --> 00:02:40,230
answer what's the density of water

62
00:02:45,170 --> 00:02:42,420
well it's 1,000 kilograms per cubic

63
00:02:47,150 --> 00:02:45,180

metre you never know when those facts

64

00:02:47,690 --> 00:02:47,160

will come in handy so here's the bottom

65

00:02:50,900 --> 00:02:47,700

line

66

00:02:52,430 --> 00:02:50,910

moon next to Saturn tonight get out

67

00:02:56,060 --> 00:02:52,440

there and see if you can find those

68

00:02:57,949 --> 00:02:56,070

gorgeous rings of Saturn here's a story

69

00:03:01,070 --> 00:02:57,959

for all you folks listening from Down

70

00:03:04,640 --> 00:03:01,080

Under and everybody else headline after

71

00:03:07,490 --> 00:03:04,650

lengthy campaign Australia gets its own

72

00:03:12,410 --> 00:03:07,500

space agency we grab this article from

73

00:03:15,500 --> 00:03:12,420

science magazine for lead datin Sydney

74

00:03:17,840 --> 00:03:15,510

Australia Australia was the third nation

75

00:03:20,030 --> 00:03:17,850

after the United States and the USSR to

76

00:03:22,759 --> 00:03:20,040

build and launch a satellite from its

77

00:03:25,009 --> 00:03:22,769

own rocket range but after the weapons

78

00:03:29,330 --> 00:03:25,019

Research Establishment satellite called

79

00:03:33,199 --> 00:03:29,340

rests at that's wre SAT took to the

80

00:03:35,080 --> 00:03:33,209

skies the 29th of November 1967 the

81

00:03:37,340 --> 00:03:35,090

country space efforts dwindled

82

00:03:39,710 --> 00:03:37,350

Australia's last micro satellite

83

00:03:43,970 --> 00:03:39,720

launched from a Japanese facility died

84

00:03:45,920 --> 00:03:43,980

in 2007 along with Iceland Australia was

85

00:03:48,160 --> 00:03:45,930

one of the only two Organisation for

86

00:03:51,920 --> 00:03:48,170

Economic Cooperation and Development

87

00:03:54,560 --> 00:03:51,930

nations without a space agency but

88

00:03:56,650 --> 00:03:54,570

that's about to change the government

89

00:03:59,180 --> 00:03:56,660

announced yesterday at the 68th

90

00:04:01,009 --> 00:03:59,190

International Astronautical Congress in

91

00:04:04,430 --> 00:04:01,019

Adelaide Australia that it will

92

00:04:06,380 --> 00:04:04,440

establish a national space agency the

93

00:04:08,600 --> 00:04:06,390

decision caps a year-long campaign to

94

00:04:10,729 --> 00:04:08,610

boost Australia's space efforts led by

95

00:04:13,699 --> 00:04:10,739

groups from universities industry and

96

00:04:15,800 --> 00:04:13,709

government bodies quote the creation of

97

00:04:18,020 --> 00:04:15,810

an Australian Space Agency is very

98

00:04:20,120 --> 00:04:18,030

exciting news end quote says Michael

99

00:04:23,029 --> 00:04:20,130

Brown he's a Melbourne Australia based

100

00:04:24,980 --> 00:04:23,039

Monash University astronomer here's

101
00:04:26,970 --> 00:04:24,990
another quote from astro physicist and

102
00:04:29,700 --> 00:04:26,980
astronomer Lee Spitler of

103
00:04:31,590 --> 00:04:29,710
our university quote the establishment

104
00:04:34,020 --> 00:04:31,600
of an Australian Space Agency is a

105
00:04:37,500 --> 00:04:34,030
strong nod of support for the current

106
00:04:39,570 --> 00:04:37,510
space sector in Australia he adds that

107
00:04:42,150 --> 00:04:39,580
what is left of the country space

108
00:04:44,340 --> 00:04:42,160
industry operates as a quote grassroots

109
00:04:46,410 --> 00:04:44,350
movement across a small number of

110
00:04:49,590 --> 00:04:46,420
companies University groups and the

111
00:04:51,540 --> 00:04:49,600
defence sector and quotes Australia

112
00:04:53,790 --> 00:04:51,550
depends heavily upon foreign built or

113
00:04:56,360 --> 00:04:53,800

operated satellites for communications

114

00:04:59,880 --> 00:04:56,370

remote sensing and astronomical research

115

00:05:03,410 --> 00:04:59,890

its share of the 330 billion dollar

116

00:05:06,150 --> 00:05:03,420

global space economy is only 0.8%

117

00:05:08,100 --> 00:05:06,160

despite persistent calls for a national

118

00:05:11,280 --> 00:05:08,110

space agency the current government took

119

00:05:12,330 --> 00:05:11,290

no steps until last July when arthur's

120

00:05:13,650 --> 00:05:12,340

sonoda nice

121

00:05:16,590 --> 00:05:13,660

the Federal Minister for industry

122

00:05:18,810 --> 00:05:16,600

innovation and science set up an expert

123

00:05:21,630 --> 00:05:18,820

review group to study the country space

124

00:05:23,910 --> 00:05:21,640

industry capabilities to date the group

125

00:05:25,680 --> 00:05:23,920

has received nearly 200 written

126

00:05:28,410 --> 00:05:25,690

submissions and held meetings across the

127

00:05:30,510 --> 00:05:28,420

country facing calls for action last

128

00:05:32,370 --> 00:05:30,520

week from the participants at that

129

00:05:35,070 --> 00:05:32,380

Adelaide meeting acting industry

130

00:05:37,080 --> 00:05:35,080

Minister Michaela cash announced that

131

00:05:39,660 --> 00:05:37,090

the working group will develop a charter

132

00:05:41,850 --> 00:05:39,670

for the space agency a charter that will

133

00:05:45,180 --> 00:05:41,860

be included in the wider space industry

134

00:05:47,280 --> 00:05:45,190

strategy it's about time says astronomer

135

00:05:49,560 --> 00:05:47,290

Alan Duffy at Swinburne University of

136

00:05:51,210 --> 00:05:49,570

Technology in Melbourne quote these

137

00:05:54,360 --> 00:05:51,220

announcements come at a special

138

00:05:57,630 --> 00:05:54,370

anniversary it's 50 years since the

139

00:06:00,510 --> 00:05:57,640

launch of rests at that weapons research

140

00:06:03,630 --> 00:06:00,520

establishment satellite so pretty soon

141

00:06:06,360 --> 00:06:03,640

we can expect Down Under to go up over

142

00:06:08,220 --> 00:06:06,370

shall we say apparently there was

143

00:06:10,380 --> 00:06:08,230

something going on in the skies over Los

144

00:06:13,170 --> 00:06:10,390

Angeles this last Saturday night

145

00:06:15,420 --> 00:06:13,180

this broadcaster missed it entirely but

146

00:06:18,660 --> 00:06:15,430

here's a follow up story and it's the

147

00:06:21,180 --> 00:06:18,670

mystery solved part los angeles UFO

148

00:06:23,730 --> 00:06:21,190

149

00:06:26,400 --> 00:06:23,740

it's from Fox News their tech department

150

00:06:28,410 --> 00:06:26,410

here's the story the mysterious object

151
00:06:31,620 --> 00:06:28,420
in the sky above Los Angeles last

152
00:06:33,870 --> 00:06:31,630
Saturday night has been identified video

153
00:06:36,480 --> 00:06:33,880
of this object appeared on Twitter with

154
00:06:38,700 --> 00:06:36,490
tag saying a quote did anyone else in

155
00:06:39,480 --> 00:06:38,710
Los Angeles see this tonight in the sky

156
00:06:42,480 --> 00:06:39,490
around 11

157
00:06:45,420 --> 00:06:42,490
that Twitter tweeter known as real hope

158
00:06:49,650 --> 00:06:45,430
Lavelle also said Griffith Observatory

159
00:06:52,530 --> 00:06:49,660
what was it cool yet scary the object

160
00:06:55,320 --> 00:06:52,540
however was quickly explained to which

161
00:06:58,410 --> 00:06:55,330
real hope Lavelle tweeted oh okay

162
00:07:01,230 --> 00:06:58,420
mystery solved and she tells us what it

163
00:07:03,630 --> 00:07:01,240

was it was a rocket from Vandenberg Air

164

00:07:06,870 --> 00:07:03,640

Force Base the United Launch Alliance

165

00:07:09,450 --> 00:07:06,880

ula Atlas five rocket took off from

166

00:07:14,340 --> 00:07:09,460

Vandenberg Space Launch Complex 3 at

167

00:07:16,290 --> 00:07:14,350

10:40 9.47 p.m. Pacific Daylight Time it

168

00:07:19,080 --> 00:07:16,300

was carrying a payload for the National

169

00:07:22,920 --> 00:07:19,090

Reconnaissance Office quote designated

170

00:07:24,210 --> 00:07:22,930

NRO L - 42 the mission is in support of

171

00:07:26,670 --> 00:07:24,220

national security

172

00:07:28,830 --> 00:07:26,680

end quote and that's all that was

173

00:07:31,710 --> 00:07:28,840

explained by United Launch Alliance in

174

00:07:33,900 --> 00:07:31,720

their press release space.com reports

175

00:07:37,140 --> 00:07:33,910

that this rocket was carrying a secret

176

00:07:39,630 --> 00:07:37,150

spy satellite well quite obviously the

177

00:07:42,600 --> 00:07:39,640

satellite itself is no secret anymore

178

00:07:45,630 --> 00:07:42,610

what its mission is that is still a

179

00:07:48,180 --> 00:07:45,640

mystery are you in a mysterious mood

180

00:07:51,420 --> 00:07:48,190

well if you are here's a headline for

181

00:07:54,870 --> 00:07:51,430

you mysterious readings on united states

182

00:08:00,390 --> 00:07:54,880

submarine sonar leads UFO researcher to

183

00:08:03,150 --> 00:08:00,400

believe navy has secret us o program uso

184

00:08:06,600 --> 00:08:03,160

and that would be unidentified submerged

185

00:08:09,620 --> 00:08:06,610

object here's the story the mutual UFO

186

00:08:12,690 --> 00:08:09,630

network Seif photo expert Mark Dantonio

187

00:08:14,250 --> 00:08:12,700

says he was on a United States Navy

188

00:08:16,730 --> 00:08:14,260

submarine when they tracked a very

189

00:08:18,950 --> 00:08:16,740

fast-moving object in the ocean

190

00:08:22,230 --> 00:08:18,960

subsequent responses from Navy personnel

191

00:08:24,600 --> 00:08:22,240

lead Dantonio to believe that the Navy

192

00:08:28,110 --> 00:08:24,610

has a secret program regarding

193

00:08:30,980 --> 00:08:28,120

unidentified submerged objects u.s. owes

194

00:08:33,390 --> 00:08:30,990

the underwater equivalent of UFOs

195

00:08:36,660 --> 00:08:33,400

although much less popular there are

196

00:08:38,940 --> 00:08:36,670

famous use cases ufologist often the

197

00:08:42,360 --> 00:08:38,950

reference one of the most interesting

198

00:08:45,240 --> 00:08:42,370

use stories for Alejandro Rojas is that

199

00:08:47,430 --> 00:08:45,250

of his friend Mark Dantonio he's heard

200

00:08:49,320 --> 00:08:47,440

it several times in Dantonio company and

201
00:08:51,420 --> 00:08:49,330
he believes that they've talked about it

202
00:08:52,540 --> 00:08:51,430
in one of his many appearances on their

203
00:08:54,790 --> 00:08:52,550
open minds you

204
00:08:57,400 --> 00:08:54,800
phone radio podcast Mark Dantonio

205
00:08:59,470 --> 00:08:57,410
besides being an astronomer and a photo

206
00:09:02,889 --> 00:08:59,480
expert among other professional exploits

207
00:09:04,750 --> 00:09:02,899
he's also a model maker he's had several

208
00:09:06,430 --> 00:09:04,760
government contracts to build models

209
00:09:09,069 --> 00:09:06,440
many of those models require a

210
00:09:11,079 --> 00:09:09,079
top-secret clearance and among these

211
00:09:12,389 --> 00:09:11,089
contracts have been projects with the

212
00:09:14,949 --> 00:09:12,399
United States Navy

213
00:09:17,500 --> 00:09:14,959

Dantonio said he was once invited to

214

00:09:19,780 --> 00:09:17,510

take a ride on a nuclear submarine and

215

00:09:21,850 --> 00:09:19,790

at one point things got weird

216

00:09:23,710 --> 00:09:21,860

although Dantonio has told the story

217

00:09:24,970 --> 00:09:23,720

before it hasn't been featured in the

218

00:09:27,819 --> 00:09:24,980

mainstream media

219

00:09:30,670 --> 00:09:27,829

until recently Mark Dantonio and

220

00:09:33,280 --> 00:09:30,680

Alejandro Rojas were both presenters at

221

00:09:36,100 --> 00:09:33,290

the recent Devils Tower UFO rendezvous

222

00:09:38,920 --> 00:09:36,110

in Hulett Wyoming and Emma Perry from

223

00:09:40,449 --> 00:09:38,930

the United Kingdom's Sun newspaper was

224

00:09:42,610 --> 00:09:40,459

there to write about it

225

00:09:44,769 --> 00:09:42,620

a Perry has written several stories

226

00:09:47,740 --> 00:09:44,779

stemming from the event one of them on

227

00:09:50,590 --> 00:09:47,750

Don Antonio's USO encounter here is what

228

00:09:53,530 --> 00:09:50,600

she wrote on mark Antonio's recollection

229

00:09:54,670 --> 00:09:53,540

of the USO this is what he presented at

230

00:09:58,210 --> 00:09:54,680

his Devil's Tower

231

00:10:00,040 --> 00:09:58,220

lecture quote I was sitting there zoning

232

00:10:02,139 --> 00:10:00,050

out a little because I was seasick and

233

00:10:04,900 --> 00:10:02,149

all of a sudden the sonar kid shouts

234

00:10:07,389 --> 00:10:04,910

fast mover fast mover and I'm jolted

235

00:10:10,030 --> 00:10:07,399

awake thinking what's happening is it a

236

00:10:12,190 --> 00:10:10,040

torpedo the executive officer comes out

237

00:10:14,980 --> 00:10:12,200

and the operator shows him the path of

238

00:10:16,990 --> 00:10:14,990

the object and the officer says how fast

239

00:10:19,120 --> 00:10:17,000

is that going and the kid said several

240

00:10:22,210 --> 00:10:19,130

hundred knots I started to lean forward

241

00:10:24,579 --> 00:10:22,220

to listen in and the officer said can

242

00:10:27,190 --> 00:10:24,589

you confirm it so he goes to another

243

00:10:30,040 --> 00:10:27,200

sonar machine and confirms it wasn't a

244

00:10:33,460 --> 00:10:30,050

machine anomaly it was real I thought

245

00:10:35,290 --> 00:10:33,470

wow that is incredible when the sonar

246

00:10:37,769 --> 00:10:35,300

guy asked what do I do with this

247

00:10:39,310 --> 00:10:37,779

the officer said log it and Doggett in

248

00:10:43,750 --> 00:10:39,320

other words

249

00:10:45,790 --> 00:10:43,760

log it and bury it and quotes four years

250

00:10:47,560 --> 00:10:45,800

later Mark Dantonio said he was doing

251

00:10:49,930 --> 00:10:47,570

some more contract work for the Navy

252

00:10:53,079 --> 00:10:49,940

when he spoke to a senior naval figure

253

00:10:55,720 --> 00:10:53,089

about what he saw he said quote I asked

254

00:10:59,319 --> 00:10:55,730

him can you tell me about the fast mover

255

00:11:01,449 --> 00:10:59,329

program and quotes mark said he looked

256

00:11:04,660 --> 00:11:01,459

at me and said quote sorry Mack I can't

257

00:11:06,400 --> 00:11:04,670

talk about that program end quotes so he

258

00:11:08,680 --> 00:11:06,410

basically confirmed to me that the

259

00:11:11,530 --> 00:11:08,690

program exists he said everything

260

00:11:14,230 --> 00:11:11,540

without saying anything what he told me

261

00:11:16,449 --> 00:11:14,240

was that us OHS are common we even have

262

00:11:18,999 --> 00:11:16,459

a program in place to classify and log

263

00:11:22,170 --> 00:11:19,009

and determine the speed of them and that

264

00:11:25,600 --> 00:11:22,180

information goes into a vault and quotes

265

00:11:27,040 --> 00:11:25,610

so according to Alejandro Rojas that's a

266

00:11:29,550 --> 00:11:27,050

pretty odd encounter

267

00:11:32,019 --> 00:11:29,560

he's known Marcantonio for a long time

268

00:11:34,090 --> 00:11:32,029

Dantonio is a fellow who's careful about

269

00:11:36,100 --> 00:11:34,100

what he says he's known for his

270

00:11:38,829 --> 00:11:36,110

skeptical perspective as any good

271

00:11:42,300 --> 00:11:38,839

scientist should be so at least to

272

00:11:44,439 --> 00:11:42,310

Alejandro Rojas his claims go a long way

273

00:11:46,600 --> 00:11:44,449

some listeners to this story might

274

00:11:49,150 --> 00:11:46,610

respond with duh of course the Navy

275

00:11:50,730 --> 00:11:49,160

tracks us owes and others might feel

276

00:11:53,860 --> 00:11:50,740

like Don Antonio's claims are too

277

00:11:56,139 --> 00:11:53,870

sensational to be believed but here's

278

00:11:59,670 --> 00:11:56,149

what Alejandro Rojas says I trust

279

00:12:02,410 --> 00:11:59,680

Antonio for whatever that is worth if

280

00:12:04,269 --> 00:12:02,420

you want to watch Marc Dantonio and his

281

00:12:06,699 --> 00:12:04,279

friend and colleague that special

282

00:12:09,129 --> 00:12:06,709

effects guru Doug Trumbull talk about

283

00:12:10,870 --> 00:12:09,139

their UFO project you can find footage

284

00:12:13,689 --> 00:12:10,880

from their presentation at the

285

00:12:16,780 --> 00:12:13,699

International UFO Congress another event

286

00:12:20,110 --> 00:12:16,790

here there'll be a link at UFO headline

287

00:12:22,360 --> 00:12:20,120

news calm gentle listeners if you happen

288

00:12:25,480 --> 00:12:22,370

to catch yesterday's broadcast we had

289

00:12:27,939 --> 00:12:25,490

that story from Naperville Illinois the

290

00:12:30,460 --> 00:12:27,949

creature with the orange shorts the

291

00:12:32,319 --> 00:12:30,470

woman want to be extraterrestrial

292

00:12:34,629 --> 00:12:32,329

shapeshifter and the guy with the

293

00:12:36,819 --> 00:12:34,639

scooby-doo umbrella we can't promise a

294

00:12:39,129 --> 00:12:36,829

scooby-doo umbrella but it's a sighting

295

00:12:42,699 --> 00:12:39,139

from the same location Naperville

296

00:12:45,429 --> 00:12:42,709

Illinois hmm let's read its MUFON case

297

00:12:47,829 --> 00:12:45,439

number eight six nine to four the date

298

00:12:50,410 --> 00:12:47,839

of the sighting is September 11th 2017

299

00:12:52,960 --> 00:12:50,420

it wasn't reported till September 25th

300

00:12:56,439 --> 00:12:52,970

here's what the witness provides by way

301
00:13:00,069 --> 00:12:56,449
of summary loud humming sound that was

302
00:13:01,780 --> 00:13:00,079
not drone like sighting specifics give

303
00:13:04,929 --> 00:13:01,790
us a viewing distance unknown an

304
00:13:07,179 --> 00:13:04,939
altitude also unknown the sighting

305
00:13:10,059 --> 00:13:07,189
duration was five minutes the object

306
00:13:12,759 --> 00:13:10,069
features are reported as unknown the

307
00:13:15,160 --> 00:13:12,769
flight path stationary and one more

308
00:13:17,470 --> 00:13:15,170
unknown and that was the shape of the

309
00:13:19,400 --> 00:13:17,480
object at the time of this event the

310
00:13:21,710 --> 00:13:19,410
weather went something like this

311
00:13:24,710 --> 00:13:21,720
maximum temperature 74 degrees

312
00:13:27,499 --> 00:13:24,720
Fahrenheit 23 degrees Celsius minimum

313
00:13:29,960 --> 00:13:27,509

temperature 52 degrees Fahrenheit 11

314

00:13:33,019 --> 00:13:29,970

degrees Celsius the visibility factors

315

00:13:36,379 --> 00:13:33,029

standard all of them maximum mean and

316

00:13:38,780 --> 00:13:36,389

minimum read at 10 miles 16 kilometers

317

00:13:42,199 --> 00:13:38,790

there was nothing abnormal about the

318

00:13:44,210 --> 00:13:42,209

weather here's the event I got up to use

319

00:13:46,730 --> 00:13:44,220

the bathroom at about 1:00 a.m. in my

320

00:13:49,550 --> 00:13:46,740

house when I was going to the bathroom I

321

00:13:52,670 --> 00:13:49,560

heard what sounded like a loud humming

322

00:13:55,040 --> 00:13:52,680

coming from outside the house it sounded

323

00:13:57,949 --> 00:13:55,050

like it was coming from right above the

324

00:14:01,460 --> 00:13:57,959

house this sound lasted for about five

325

00:14:03,679 --> 00:14:01,470

minutes and then it faded away I didn't

326

00:14:06,470 --> 00:14:03,689

bother to look because the noise really

327

00:14:07,059 --> 00:14:06,480

creeped me out I was just happy when it

328

00:14:09,769 --> 00:14:07,069

stopped

329

00:14:12,999 --> 00:14:09,779

we have heard some creepy noises around

330

00:14:15,740 --> 00:14:13,009

here but this one was really terrifying

331

00:14:17,509 --> 00:14:15,750

the first odd noise we heard was a few

332

00:14:19,220 --> 00:14:17,519

years ago during a meteor shower

333

00:14:21,829 --> 00:14:19,230

my daughter woke us up about 2:00 or

334

00:14:24,530 --> 00:14:21,839

3:00 in the morning in the fall to see

335

00:14:26,449 --> 00:14:24,540

these meteors so we were out there for a

336

00:14:28,280 --> 00:14:26,459

while when we heard a loud screaming

337

00:14:30,710 --> 00:14:28,290

coming from the northwest

338

00:14:33,620 --> 00:14:30,720

it scared the hell out of us my daughter

339

00:14:36,319 --> 00:14:33,630

wanted to go have a look but I made the

340

00:14:39,259 --> 00:14:36,329

two of us both go back inside this

341

00:14:41,540 --> 00:14:39,269

humming though this noise this event

342

00:14:44,150 --> 00:14:41,550

from right over my house that was the

343

00:14:47,990 --> 00:14:44,160

longest bizarre noise we've heard around

344

00:14:50,300 --> 00:14:48,000

here interesting the scooby-doo umbrella

345

00:14:54,019 --> 00:14:50,310

incident talked about screaming loud

346

00:14:57,379 --> 00:14:54,029

angry singing from this creature some

347

00:15:00,710 --> 00:14:57,389

sort of sonic component we have no clue

348

00:15:02,420 --> 00:15:00,720

let's head to the Bronx here's I just

349

00:15:05,299 --> 00:15:02,430

six nine to six MUFON number-wise the

368

00:15:39,300 --> 00:15:36,640

date of this sighting is the 21st of

369

00:15:42,740 --> 00:15:39,310

September it was reported the 25th of

370

00:15:47,760 --> 00:15:42,750

September both 2017 here's the summary

371

00:15:49,920 --> 00:15:47,770

surprise this was really real it is real

372

00:15:52,710 --> 00:15:49,930

it's video footage there are several

373

00:15:54,690 --> 00:15:52,720

different video clips as we recall the

374

00:15:56,910 --> 00:15:54,700

first one begins with Frank Sinatra in

375

00:15:57,690 --> 00:15:56,920

the background singing ain't that a kick

376

00:16:00,390 --> 00:15:57,700

in the head

377

00:16:02,310 --> 00:16:00,400

it's amazing footage we have no idea

378

00:16:04,560 --> 00:16:02,320

what this fellow was photographing we

379

00:16:07,410 --> 00:16:04,570

got to give you a strong language alert

380

00:16:09,030 --> 00:16:07,420

however as he was rather excited here

381

00:16:12,510 --> 00:16:09,040

are the sighting specifics viewing

382

00:16:15,330 --> 00:16:12,520

distance 501 feet to one mile eventually

383

00:16:18,750 --> 00:16:15,340

over one mile the altitude was unknown

384

00:16:20,520 --> 00:16:18,760

the sighting duration 15 minutes the

385

00:16:24,120 --> 00:16:20,530

object features are also described as

386

00:16:26,220 --> 00:16:24,130

unknown the flight path hovering oh yes

387

00:16:28,980 --> 00:16:26,230

it hovers and then a path with a

388

00:16:31,710 --> 00:16:28,990

directional change they report the shape

389

00:16:33,600 --> 00:16:31,720

of this object as star-like check out

390

00:16:35,700 --> 00:16:33,610

the videos see what you think

391

00:16:38,940 --> 00:16:35,710

pretty standard meteorology at the time

392

00:16:41,430 --> 00:16:38,950

maximum temperature over the Bronx 79

393

00:16:44,070 --> 00:16:41,440

degrees Fahrenheit 26 degrees Celsius

394

00:16:47,190 --> 00:16:44,080

the minimum temperature 72 degrees

395

00:16:49,470 --> 00:16:47,200

Fahrenheit 22 degrees Celsius the

396

00:16:52,290 --> 00:16:49,480

maximum visibility was 10 miles 16

397

00:16:55,290 --> 00:16:52,300

kilometers as was the mean visibility

398

00:16:58,700 --> 00:16:55,300

and the minimum and again nothing

399

00:17:01,560 --> 00:16:58,710

abnormal weather-wise here's the account

400

00:17:04,140 --> 00:17:01,570

at the time I was smoking a cigarette

401
00:17:07,650 --> 00:17:04,150
looking out the window suddenly a bright

402
00:17:10,050 --> 00:17:07,660
star caught my attention it still wasn't

403
00:17:13,920 --> 00:17:10,060
dark outside so to see a very bright

404
00:17:16,680 --> 00:17:13,930
star you get curious when this object

405
00:17:20,460 --> 00:17:16,690
started moving I was like holy moly what

406
00:17:24,150 --> 00:17:20,470
is that very surprised very excited I've

407
00:17:25,530 --> 00:17:24,160
wanted to see a UFO this was scary but

408
00:17:27,930 --> 00:17:25,540
at the same time it was a good

409
00:17:29,850 --> 00:17:27,940
experience at the end I stopped

410
00:17:31,950 --> 00:17:29,860
recording because the position my neck

411
00:17:35,340 --> 00:17:31,960
was in it started hurting from looking

412
00:17:37,590 --> 00:17:35,350
up so long and then suddenly as it was

413
00:17:38,730 --> 00:17:37,600

hovering this object disappeared and

414

00:17:42,360 --> 00:17:38,740

that was it

415

00:17:44,790 --> 00:17:42,370

yep no punchline settle back gentle

416

00:17:48,000 --> 00:17:44,800

listeners here's a long saga from some

417

00:17:50,550 --> 00:17:48,010

No Florida its MUFON case number 86

418

00:17:53,040 --> 00:17:50,560

eight three two this sighting took place

419

00:17:56,000 --> 00:17:53,050

on the 21st of September and was

420

00:17:58,500 --> 00:17:56,010

reported the same day both in 2017

421

00:18:01,650 --> 00:17:58,510

here's this summary provided by our

422

00:18:05,430 --> 00:18:01,660

witness I took pictures of a circle disk

423

00:18:08,100 --> 00:18:05,440

shiny or black object it was to the

424

00:18:09,350 --> 00:18:08,110

north five to ten minutes multiple

425

00:18:12,930 --> 00:18:09,360

observers

426

00:18:15,090 --> 00:18:12,940

yup photos with this one as well and you

427

00:18:17,580 --> 00:18:15,100

can find those photos later at UFO

428

00:18:19,500 --> 00:18:17,590

headline news calm the sighting

429

00:18:22,890 --> 00:18:19,510

specifics offer a viewing distance

430

00:18:24,930 --> 00:18:22,900

unknown an altitude unknown the sighting

431

00:18:27,960 --> 00:18:24,940

duration was 10 minutes the object

432

00:18:30,150 --> 00:18:27,970

features yep unknown the flight path

433

00:18:33,740 --> 00:18:30,160

stationary and this object was shaped

434

00:18:38,730 --> 00:18:33,750

like a circle here's the event location

435

00:18:40,140 --> 00:18:38,740

Seminole Florida time 7:30 p.m. I was

436

00:18:42,390 --> 00:18:40,150

talking to the neighbor who's living to

437

00:18:43,860 --> 00:18:42,400

the north of us he was out working on

438

00:18:46,800 --> 00:18:43,870

his car replacing his brakes

439

00:18:48,270 --> 00:18:46,810

so we chatted for a while when he

440

00:18:50,400 --> 00:18:48,280

finished putting his brakes on the car

441

00:18:52,740 --> 00:18:50,410

and was lowering the jack the vehicle

442

00:18:54,600 --> 00:18:52,750

hit the ground I leaned over the hood of

443

00:18:56,460 --> 00:18:54,610

the vehicle and I was kind of trying to

444

00:18:59,580 --> 00:18:56,470

wrap up our conversation when there was

445

00:19:02,580 --> 00:18:59,590

this weird moment where we both watched

446

00:19:04,500 --> 00:19:02,590

a regular airplane fly over this

447

00:19:06,990 --> 00:19:04,510

airplane was making a noise and that's

448

00:19:11,100 --> 00:19:07,000

what got my attention and that's when I

449

00:19:13,710 --> 00:19:11,110

saw the object I said to the neighbor do

450

00:19:16,500 --> 00:19:13,720

you see that in the sky and I pointed he

451
00:19:19,050 --> 00:19:16,510
was like yes and then I made a joke it's

452
00:19:20,790 --> 00:19:19,060
that Planet X as I didn't think he would

453
00:19:23,400 --> 00:19:20,800
know what I was talking about at this

454
00:19:26,370 --> 00:19:23,410
point the object seemed like a circle

455
00:19:27,720 --> 00:19:26,380
but it was not a perfect circle it was

456
00:19:29,790 --> 00:19:27,730
really shiny and it seemed to be

457
00:19:33,810 --> 00:19:29,800
reflecting the Sun the Sun was setting

458
00:19:35,600 --> 00:19:33,820
at the time I was like what is that he

459
00:19:38,340 --> 00:19:35,610
said it might be a weather balloon I

460
00:19:40,680 --> 00:19:38,350
didn't think so and I remembered exactly

461
00:19:43,020 --> 00:19:40,690
where my camera was I just got back from

462
00:19:45,480 --> 00:19:43,030
a trip so I ran back to the house and

463
00:19:48,270 --> 00:19:45,490

got my camera by the time I got back

464

00:19:50,010 --> 00:19:48,280

outside I couldn't see the object but I

465

00:19:52,770 --> 00:19:50,020

just started to take pictures of where I

466

00:19:55,110 --> 00:19:52,780

thought I'd seen it trying to take

467

00:19:57,960 --> 00:19:55,120

pictures in relation to the ground the

468

00:19:58,740 --> 00:19:57,970

object was north but as for the degrees

469

00:20:01,470 --> 00:19:58,750

I'm not sure

470

00:20:03,480 --> 00:20:01,480

if one was really interested one could

471

00:20:06,060 --> 00:20:03,490

look at the pictures and get an exact I

472

00:20:08,220 --> 00:20:06,070

guess by the time I got the camera this

473

00:20:10,770 --> 00:20:08,230

object wasn't as bright and not as big I

474

00:20:13,350 --> 00:20:10,780

could hardly see it in fact and then I

475

00:20:15,120 --> 00:20:13,360

picked it up I had a hard time zooming

476

00:20:17,880 --> 00:20:15,130

in on this object that I got quite a few

477

00:20:19,470 --> 00:20:17,890

good pictures this event only lasted a

478

00:20:22,320 --> 00:20:19,480

few minutes I would say something like 3

479

00:20:24,600 --> 00:20:22,330

to 10 minutes but I'm not sure my

480

00:20:26,910 --> 00:20:24,610

neighbor and I kept talking I know he's

481

00:20:30,270 --> 00:20:26,920

a little religious so I didn't press on

482

00:20:33,750 --> 00:20:30,280

him too much and a few minutes later two

483

00:20:35,310 --> 00:20:33,760

helicopters came in from the south I was

484

00:20:37,440 --> 00:20:35,320

telling my neighbor that I've heard

485

00:20:39,480 --> 00:20:37,450

stories about helicopters after UFO

486

00:20:41,760 --> 00:20:39,490

sightings and thought these were

487

00:20:43,230 --> 00:20:41,770

military it was clear the first

488

00:20:45,480 --> 00:20:43,240

helicopter that came up from the south

489

00:20:47,670 --> 00:20:45,490

was small and not really a military

490

00:20:49,830 --> 00:20:47,680

helicopter it wouldn't hold any type of

491

00:20:52,410 --> 00:20:49,840

weight the neighbors said they're

492

00:20:54,390 --> 00:20:52,420

looking for someone it seemed like they

493

00:20:57,660 --> 00:20:54,400

were but they were looking for something

494

00:20:59,310 --> 00:20:57,670

on the ground and not in the air this

495

00:21:01,650 --> 00:20:59,320

helicopter passed us a was heading

496

00:21:03,720 --> 00:21:01,660

somewhat north that's where we had seen

497

00:21:05,940 --> 00:21:03,730

the object then the helicopter turned

498

00:21:08,990 --> 00:21:05,950

west and headed toward the Gulf of

499

00:21:11,700 --> 00:21:09,000

Mexico where it met a second helicopter

500

00:21:13,560 --> 00:21:11,710

this second helicopter had a light on it

501
00:21:14,070 --> 00:21:13,570
and by this time it was starting to get

502
00:21:16,410 --> 00:21:14,080
dark

503
00:21:19,590 --> 00:21:16,420
both these helicopters then started to

504
00:21:23,160 --> 00:21:19,600
travel north in a strange non-linear

505
00:21:24,810 --> 00:21:23,170
path we live near the Pinellas Trail and

506
00:21:27,120 --> 00:21:24,820
I don't think helicopters were searching

507
00:21:29,040 --> 00:21:27,130
or flying that trail as the trail itself

508
00:21:30,750 --> 00:21:29,050
is kind of straight I'd say these

509
00:21:33,930 --> 00:21:30,760
helicopters were in between the trail

510
00:21:37,110 --> 00:21:33,940
and the coast moving north in a non

511
00:21:38,700 --> 00:21:37,120
linear path I personally couldn't tell

512
00:21:41,430 --> 00:21:38,710
if the helicopters were related to this

513
00:21:43,920 --> 00:21:41,440

object in the sky it didn't seem like it

514

00:21:46,830 --> 00:21:43,930

but they were looking for something and

515

00:21:48,630 --> 00:21:46,840

the timing was strange the airplane we'd

516

00:21:51,270 --> 00:21:48,640

seen earlier at the start of this event

517

00:21:54,660 --> 00:21:51,280

was just a typical airplane like a 747

518

00:21:57,240 --> 00:21:54,670

commercial plane when everything began

519

00:21:59,400 --> 00:21:57,250

to die down I checked my camera the

520

00:22:02,130 --> 00:21:59,410

pictures I zoomed in on which I attached

521

00:22:04,860 --> 00:22:02,140

convinced me that what I saw was either

522

00:22:07,650 --> 00:22:04,870

a weather balloon or something else and

523

00:22:10,620 --> 00:22:07,660

I'm leaning more toward the something

524

00:22:12,360 --> 00:22:10,630

else later I started to zoom in on the

525

00:22:13,740 --> 00:22:12,370

pictures I took where I originally

526

00:22:17,280 --> 00:22:13,750

didn't even see the object and

527

00:22:19,590 --> 00:22:17,290

eventually I found it I personally do

528

00:22:21,930 --> 00:22:19,600

not think this object is from our planet

529

00:22:24,630 --> 00:22:21,940

but I cannot rule out the fact that it

530

00:22:27,299 --> 00:22:24,640

could be a weather balloon under some

531

00:22:30,390 --> 00:22:27,309

conditions but I just don't think so

532

00:22:33,390 --> 00:22:30,400

I know I saw something but what it is I

533

00:22:36,000 --> 00:22:33,400

do not know it was way too early to be a

534

00:22:38,100 --> 00:22:36,010

star in the sky in my opinion and the

535

00:22:41,220 --> 00:22:38,110

object only got darker and ended up

536

00:22:43,260 --> 00:22:41,230

going behind the clouds I'm a

537

00:22:46,380 --> 00:22:43,270

college-educated person I wasn't drunk

538

00:22:48,570 --> 00:22:46,390

and I'm not seeking any fame I'm just a

539

00:22:50,910 --> 00:22:48,580

guy that saw something I know there's

540

00:22:52,740 --> 00:22:50,920

been other more exciting experiences and

541

00:22:56,190 --> 00:22:52,750

close encounters that are better stories

542

00:22:58,380 --> 00:22:56,200

than mine but today I saw something in

543

00:23:01,560 --> 00:22:58,390

the sky north of me and I wasn't the

544

00:23:04,560 --> 00:23:01,570

only one and our witness actually signs

545

00:23:07,380 --> 00:23:04,570

his name it's Christy we'll just say and

546

00:23:10,200 --> 00:23:07,390

he also says I have better things to do

547

00:23:11,760 --> 00:23:10,210

with my life than this these days hell

548

00:23:14,520 --> 00:23:11,770

it's already taken me an hour to write

549

00:23:17,010 --> 00:23:14,530

this report and upload everything well

550

00:23:19,500 --> 00:23:17,020

we thank you for your time Christy and

551
00:23:20,220 --> 00:23:19,510
your report it's cool if you want to

552
00:23:23,669 --> 00:23:20,230
check it out later

553
