

UFO Headline News | Friday October 6th, 2017

Listen on

inceptionradionetwork.com

1
00:00:07,700 --> 00:00:05,300
hello it's Friday October 6 2017 you are

2
00:00:10,370 --> 00:00:07,710
listening to inception Radio Network

3
00:00:14,410 --> 00:00:10,380
voice of the fringe majority this is

4
00:00:16,880 --> 00:00:14,420
Carol Carl with UFO headline news

5
00:00:19,580 --> 00:00:16,890
well did you happen to see it yet that

6
00:00:22,609 --> 00:00:19,590
incredible daytime moon it is

7
00:00:24,560 --> 00:00:22,619
exceptional and extraordinary we watched

8
00:00:27,679 --> 00:00:24,570
it this morning the big white moon

9
00:00:29,689 --> 00:00:27,689
blazing away in a big blue sky what do

10
00:00:32,030 --> 00:00:29,699
you say we meander over to earth sky

11
00:00:34,220 --> 00:00:32,040
dot-org and see what the specialist

12
00:00:36,799 --> 00:00:34,230
Bruce McClure has to tell us about this

13
00:00:39,319 --> 00:00:36,809

moon tonight the Northern Hemisphere's

14

00:00:42,350 --> 00:00:39,329

full Harvest Moon has technically passed

15

00:00:44,779 --> 00:00:42,360

on this night the moon is in a waning

16

00:00:47,540 --> 00:00:44,789

gibbous phase that means it rises in the

17

00:00:49,490 --> 00:00:47,550

east later and later each evening and it

18

00:00:51,860 --> 00:00:49,500

means you can catch the moon over your

19

00:00:54,380 --> 00:00:51,870

western horizon after sunrise on the

20

00:00:56,029 --> 00:00:54,390

next few mornings if you do catch the

21

00:00:58,340 --> 00:00:56,039

moon in the evening tonight or in the

22

00:01:01,189 --> 00:00:58,350

next few nights notice the stars next to

23

00:01:03,590 --> 00:01:01,199

it come the date of October 17th the

24

00:01:05,539 --> 00:01:03,600

moon is sweeping past the famous dipper

25

00:01:08,570 --> 00:01:05,549

shape to play a tease star cluster also

26
00:01:10,429 --> 00:01:08,580
known as the Seven Sisters on October

27
00:01:12,469 --> 00:01:10,439
18th that's something else to look

28
00:01:15,590 --> 00:01:12,479
forward to the moon will be near the

29
00:01:17,870 --> 00:01:15,600
bright star Aldebaran and in fact the

30
00:01:20,380 --> 00:01:17,880
moon will occult or pass in front of

31
00:01:22,999 --> 00:01:20,390
Aldebaran from some parts of the world

32
00:01:25,580 --> 00:01:23,009
apparently earth sky org received a

33
00:01:27,320 --> 00:01:25,590
question the question when is the best

34
00:01:30,859 --> 00:01:27,330
time to see the moon in the sky during

35
00:01:33,260 --> 00:01:30,869
daylight hours the answer is that the

36
00:01:35,690 --> 00:01:33,270
daytime moon is up there much of the

37
00:01:38,060 --> 00:01:35,700
time but because it's pale against the

38
00:01:40,310 --> 00:01:38,070

blue sky it isn't as noticeable as the

39

00:01:42,140 --> 00:01:40,320

moon is at night but there are certain

40

00:01:44,539 --> 00:01:42,150

times of the month when the daytime moon

41

00:01:47,630 --> 00:01:44,549

is more noticeable this upcoming week is

42

00:01:49,999 --> 00:01:47,640

an example of one of those times the

43

00:01:52,730 --> 00:01:50,009

most noticeable moon at night is the one

44

00:01:54,410 --> 00:01:52,740

that stays out all night long that would

45

00:01:58,190 --> 00:01:54,420

be around the time of full moon every

46

00:02:00,789 --> 00:01:58,200

month that moon then is 180 degrees from

47

00:02:03,709 --> 00:02:00,799

the Sun or opposite the Sun in our sky

48

00:02:04,819 --> 00:02:03,719

every full moon rises around sunset and

49

00:02:07,520 --> 00:02:04,829

sets around sunrise

50

00:02:09,889 --> 00:02:07,530

but now the moon is in that waning

51
00:02:11,780 --> 00:02:09,899
gibbous phase rising later each night

52
00:02:12,710 --> 00:02:11,790
and setting in the West later each day

53
00:02:15,260 --> 00:02:12,720
after

54
00:02:18,740 --> 00:02:15,270
sunrise so in the next several mornings

55
00:02:20,570 --> 00:02:18,750
after full moon after sunrise look for

56
00:02:23,120 --> 00:02:20,580
the waning gibbous moon in the West

57
00:02:25,430 --> 00:02:23,130
during morning hours at mid northern

58
00:02:28,220 --> 00:02:25,440
latitudes in North America the moon will

59
00:02:31,700 --> 00:02:28,230
set well over one hour after sunrise on

60
00:02:34,190 --> 00:02:31,710
October 7th tomorrow 2017 and it will

61
00:02:36,710 --> 00:02:34,200
set one hour or more later every day

62
00:02:39,590 --> 00:02:36,720
thereafter and something else tossed in

63
00:02:42,620 --> 00:02:39,600

by Bruce McClure by the way the moon is

64

00:02:44,720 --> 00:02:42,630

up during the day half the time it has

65

00:02:47,510 --> 00:02:44,730

to be since it orbits around the whole

66

00:02:49,250 --> 00:02:47,520

earth once a month a crescent moon is

67

00:02:51,590 --> 00:02:49,260

hard to see because it's so near the Sun

68

00:02:53,960 --> 00:02:51,600

in the day at the vicinity of last

69

00:02:56,150 --> 00:02:53,970

quarter moon about a week from now you

70

00:02:58,360 --> 00:02:56,160

might have to Crane your neck to look up

71

00:03:00,890 --> 00:02:58,370

to notice that moon after sunrise

72

00:03:02,720 --> 00:03:00,900

ordinarily we don't look up to see the

73

00:03:05,030 --> 00:03:02,730

waning last quarter moon and the waning

74

00:03:07,400 --> 00:03:05,040

crescent after sunrise and that's one

75

00:03:11,210 --> 00:03:07,410

reason why people so often miss the moon

76
00:03:13,730 --> 00:03:11,220
during the day hmm hello daylight moon

77
00:03:15,860 --> 00:03:13,740
day by day the lighted portion of the

78
00:03:18,229 --> 00:03:15,870
waning gibbous moon will shrink and the

79
00:03:21,050 --> 00:03:18,239
half lit last quarter moon that will

80
00:03:22,759 --> 00:03:21,060
come to us on October 12th watch for the

81
00:03:25,040 --> 00:03:22,769
daytime moon to start climbing higher

82
00:03:28,880 --> 00:03:25,050
and higher into the western sky after

83
00:03:30,979 --> 00:03:28,890
sunrise all this coming week so here's

84
00:03:33,650 --> 00:03:30,989
the moon watch bottom line from Bruce

85
00:03:36,979 --> 00:03:33,660
McClure at Earth's sky org starting

86
00:03:39,970 --> 00:03:36,989
around October 7th 2017 look for the

87
00:03:42,890 --> 00:03:39,980
daytime moon in the West after sunrise

88
00:03:46,070 --> 00:03:42,900

yep yeah gotta look for it it will be

89

00:03:48,080 --> 00:03:46,080

well worth the search our next story

90

00:03:50,210 --> 00:03:48,090

comes from the New York Times somewhat

91

00:03:53,090 --> 00:03:50,220

of a feature article indeed with a

92

00:03:55,699 --> 00:03:53,100

byline for Kenneth Chang and it features

93

00:03:58,310 --> 00:03:55,709

the country of Korea and no we're not

94

00:04:01,460 --> 00:03:58,320

going all political on you here this is

95

00:04:05,000 --> 00:04:01,470

ancient information so sit back listen

96

00:04:07,910 --> 00:04:05,010

and hopefully enjoy nearly six centuries

97

00:04:09,949 --> 00:04:07,920

ago Korean astronomers scanning the

98

00:04:12,860 --> 00:04:09,959

night sky for omens of the future

99

00:04:16,610 --> 00:04:12,870

spotted a new star in the cluster of

100

00:04:18,469 --> 00:04:16,620

stars they called Y W e I and what

101
00:04:21,890 --> 00:04:18,479
today's star watchers consider the tail

102
00:04:24,219 --> 00:04:21,900
of the Scorpius constellation 14 nights

103
00:04:26,180 --> 00:04:24,229
later it vanished

104
00:04:28,340 --> 00:04:26,190
astronomers have now identified

105
00:04:31,280 --> 00:04:28,350
the source of that brief brightening a

106
00:04:33,740 --> 00:04:31,290
binary star system a couple of thousand

107
00:04:35,990 --> 00:04:33,750
light-years away michael shara an

108
00:04:38,120 --> 00:04:36,000
astrophysicist at the American Museum of

109
00:04:40,370 --> 00:04:38,130
Natural History in New York has been

110
00:04:42,530 --> 00:04:40,380
seeking to understand what happens

111
00:04:44,650 --> 00:04:42,540
following explosions in violent star

112
00:04:48,140 --> 00:04:44,660
systems explosions known as quote

113
00:04:49,730 --> 00:04:48,150

cataclysmic variables and quotes he has

114

00:04:52,760 --> 00:04:49,740

searched for the remnants of this

115

00:04:55,220 --> 00:04:52,770

particular event for a long time he says

116

00:04:57,500 --> 00:04:55,230

quote now about 25 years later we

117

00:04:59,240 --> 00:04:57,510

finally come up with it end quotes and

118

00:05:02,000 --> 00:04:59,250

the researchers have filed their

119

00:05:04,340 --> 00:05:02,010

findings in the journal Nature in these

120

00:05:06,800 --> 00:05:04,350

systems apparently one of the stars is a

121

00:05:09,680 --> 00:05:06,810

white dwarf the burned out but still a

122

00:05:11,600 --> 00:05:09,690

hot remnant of a star the powerful

123

00:05:13,880 --> 00:05:11,610

gravity of that white dwarf pulls

124

00:05:16,310 --> 00:05:13,890

hydrogen away from its companion star

125

00:05:18,680 --> 00:05:16,320

and onto its surface quote you

126
00:05:21,410 --> 00:05:18,690
accumulate about a Pacific oceans worth

127
00:05:24,740 --> 00:05:21,420
of hydrogen end quotes said dr. Michael

128
00:05:26,990 --> 00:05:24,750
Shara with more and more hydrogen the

129
00:05:29,810 --> 00:05:27,000
pressure builds until it sets off a

130
00:05:32,810 --> 00:05:29,820
thermonuclear explosion a burst of light

131
00:05:35,420 --> 00:05:32,820
known as a nova that is a million times

132
00:05:38,840 --> 00:05:35,430
as bright as the Sun quote you get a

133
00:05:41,480 --> 00:05:38,850
giant fusion bomb a hydrogen bomb going

134
00:05:44,720 --> 00:05:41,490
off on top of this white dwarf star end

135
00:05:48,610 --> 00:05:44,730
quote said dr. Shara and this is what

136
00:05:52,520 --> 00:05:48,620
the Koreans most likely saw March 11th

137
00:05:55,430 --> 00:05:52,530
14:37 as powerful as Nova explosions are

138
00:05:58,370 --> 00:05:55,440

they do not destroy either star unlike

139

00:06:00,770 --> 00:05:58,380

much larger supernovas the white dwarf

140

00:06:02,770 --> 00:06:00,780

fades and the cycle repeats until the

141

00:06:05,810 --> 00:06:02,780

next explosion which could be up to

142

00:06:08,030 --> 00:06:05,820

100,000 years later in recent decades

143

00:06:10,760 --> 00:06:08,040

astronomers have observed the fading of

144

00:06:13,070 --> 00:06:10,770

Nova's over decades they've also spotted

145

00:06:15,530 --> 00:06:13,080

similar binary star systems that appear

146

00:06:18,260 --> 00:06:15,540

quite stable calmly orbiting each other

147

00:06:20,659 --> 00:06:18,270

and others that are belching only small

148

00:06:24,409 --> 00:06:20,669

eruptions those eruptions known as dwarf

149

00:06:26,390 --> 00:06:24,419

Nova's three decades ago dr. michael

150

00:06:29,540 --> 00:06:26,400

shara proposed that all three types

151
00:06:32,330 --> 00:06:29,550
Nova's dwarf Nova's and those quiescent

152
00:06:35,270 --> 00:06:32,340
binaries were variants of the same type

153
00:06:37,790 --> 00:06:35,280
of system but at different stages this

154
00:06:39,500 --> 00:06:37,800
idea was hard to test simply because

155
00:06:40,340 --> 00:06:39,510
scientists have not been observing them

156
00:06:43,310 --> 00:06:40,350
for very long

157
00:06:44,360 --> 00:06:43,320
thus historical Nova's like the one

158
00:06:46,520 --> 00:06:44,370
observed in Korea

159
00:06:49,610 --> 00:06:46,530
click provide important clues to the

160
00:06:52,210 --> 00:06:49,620
life cycle between explosions for years

161
00:06:56,390 --> 00:06:52,220
Shara and his colleagues looked for that

162
00:06:58,700 --> 00:06:56,400
1437 Nova without success recently they

163
00:07:00,860 --> 00:06:58,710

expanded the field of search and came

164

00:07:03,800 --> 00:07:00,870

across a promising cloud of gas or

165

00:07:06,680 --> 00:07:03,810

nebula that looked like the carcass of

166

00:07:09,800 --> 00:07:06,690

innova other astronomers had noted this

167

00:07:11,860 --> 00:07:09,810

previously but puzzlingly the star at

168

00:07:14,900 --> 00:07:11,870

the center of the nebula is not a

169

00:07:16,760 --> 00:07:14,910

cataclysmic variable a point of light

170

00:07:19,190 --> 00:07:16,770

not far from the center however is

171

00:07:21,260 --> 00:07:19,200

indeed one of those cataclysmic

172

00:07:23,720 --> 00:07:21,270

variables the white dwarf and its

173

00:07:25,250 --> 00:07:23,730

companion are so close together that in

174

00:07:27,830 --> 00:07:25,260

a photograph for instance they will

175

00:07:30,140 --> 00:07:27,840

appear as a single star that the

176
00:07:33,230 --> 00:07:30,150
astronomers thought could have been the

177
00:07:35,480 --> 00:07:33,240
source of the Nova they scoured those

178
00:07:37,460 --> 00:07:35,490
astronomical archives the photographic

179
00:07:40,450 --> 00:07:37,470
plates at Harvard and discovered a

180
00:07:43,010 --> 00:07:40,460
picture of the same star taken in 1923

181
00:07:44,630 --> 00:07:43,020
that allowed them to see how far the

182
00:07:46,760 --> 00:07:44,640
off-center point of light has moved

183
00:07:50,120 --> 00:07:46,770
across the sky over the past century and

184
00:07:53,960 --> 00:07:50,130
then they traced it back to where it

185
00:07:56,450 --> 00:07:53,970
would have been in 1437 smack at the

186
00:07:58,280 --> 00:07:56,460
center of that nebula the star that

187
00:08:00,290 --> 00:07:58,290
currently appears to be at the center

188
00:08:02,830 --> 00:08:00,300

just happens to be along the line of

189

00:08:05,570 --> 00:08:02,840

sight it's not related to this explosion

190

00:08:09,530 --> 00:08:05,580

said dr. Shara quote the real novelty

191

00:08:12,050 --> 00:08:09,540

here is we have a clock we can see how

192

00:08:15,050 --> 00:08:12,060

fast it's moving across the sky end

193

00:08:17,780 --> 00:08:15,060

quotes additional Harvard images of the

194

00:08:19,970 --> 00:08:17,790

same star images taken in the 1940s

195

00:08:23,780 --> 00:08:19,980

showed a modest change in brightness

196

00:08:25,880 --> 00:08:23,790

dwarf Nova eruptions and that supports

197

00:08:28,310 --> 00:08:25,890

dr. Michael Shara Sabitha says that

198

00:08:31,790 --> 00:08:28,320

these stars of star systems go through

199

00:08:34,550 --> 00:08:31,800

all three stages in an accompanying

200

00:08:36,920 --> 00:08:34,560

commentary in the journal Nature Steven

201
00:08:39,140 --> 00:08:36,930
and Shore professor at the University of

202
00:08:41,000 --> 00:08:39,150
Pisa in Italy who was not involved with

203
00:08:43,300 --> 00:08:41,010
this research described the work as

204
00:08:46,340 --> 00:08:43,310
quote a lovely piece of historical

205
00:08:48,410 --> 00:08:46,350
scholarship and quotes dr. Shore said it

206
00:08:50,540 --> 00:08:48,420
was too early to tell whether this

207
00:08:53,510 --> 00:08:50,550
cataclysmic variable is typical or

208
00:08:55,700 --> 00:08:53,520
unusual but it provides a long series

209
00:08:58,610 --> 00:08:55,710
of data for astrophysicists to try to

210
00:09:00,230 --> 00:08:58,620
recreate with computer models doctor

211
00:09:03,410 --> 00:09:00,240
sure likened it to deciphering an

212
00:09:06,050 --> 00:09:03,420
ancient tablet but not yet placing it in

213
00:09:08,960 --> 00:09:06,060

the proper historical context he says

214

00:09:11,860 --> 00:09:08,970

quote we can read the cuneiform but we

215

00:09:14,750 --> 00:09:11,870

don't know yet what it means and quotes

216

00:09:18,680 --> 00:09:14,760

yep taking away those layers of mystery

217

00:09:22,130 --> 00:09:18,690

one by one star by star speaking of

218

00:09:24,350 --> 00:09:22,140

stars UFOs star writer Nick Redfern is

219

00:09:26,750 --> 00:09:24,360

going to do an appearance at the Leo

220

00:09:29,630 --> 00:09:26,760

Minster festivities they're having a

221

00:09:31,670 --> 00:09:29,640

paranormal UFO festival at City Hall

222

00:09:34,430 --> 00:09:31,680

here's the story leo minster

223

00:09:36,170 --> 00:09:34,440

massachusetts the aliens will be

224

00:09:37,610 --> 00:09:36,180

returning to city hall this weekend and

225

00:09:40,460 --> 00:09:37,620

they're bringing the Loch Ness monster

226

00:09:43,820 --> 00:09:40,470

with them for the city's annual Greater

227

00:09:46,550 --> 00:09:43,830

New England UFO conference drawing from

228

00:09:49,040 --> 00:09:46,560

Leo minsters storied history of UFO and

229

00:09:50,570 --> 00:09:49,050

Bigfoot encounters the conference serves

230

00:09:53,270 --> 00:09:50,580

as a gathering for paranormal

231

00:09:55,460 --> 00:09:53,280

enthusiasts and a possible introduction

232

00:09:58,300 --> 00:09:55,470

for anyone curious about the

233

00:10:01,280 --> 00:09:58,310

unexplainable now in its fifth year

234

00:10:03,590 --> 00:10:01,290

event organizer Susan McNeil speeler

235

00:10:05,810 --> 00:10:03,600

said she's excited to be continuing the

236

00:10:08,180 --> 00:10:05,820

local tradition with returning

237

00:10:10,490 --> 00:10:08,190

cryptozoology experts and new guest

238

00:10:12,470 --> 00:10:10,500

speakers quote we always make sure to

239

00:10:14,420 --> 00:10:12,480

get excellent speakers who know their

240

00:10:17,060 --> 00:10:14,430

material and aren't just putting false

241

00:10:19,160 --> 00:10:17,070

information out there if people want to

242

00:10:21,740 --> 00:10:19,170

know more about the paranormal this is a

243

00:10:24,410 --> 00:10:21,750

great opportunity to come and learn and

244

00:10:26,720 --> 00:10:24,420

quotes the conference begins 6 p.m.

245

00:10:29,720 --> 00:10:26,730

Friday tonight with a series of talks

246

00:10:32,420 --> 00:10:29,730

and lectures from paranormal experts the

247

00:10:35,090 --> 00:10:32,430

event continues from 8 a.m. to 6 p.m. on

248

00:10:37,880 --> 00:10:35,100

Saturday with appearances by more guest

249

00:10:40,610 --> 00:10:37,890

speakers and yes that obligatory costume

250

00:10:42,470 --> 00:10:40,620

contest every year the conference draw

251
00:10:44,750 --> 00:10:42,480
spectators from all over the country and

252
00:10:46,670 --> 00:10:44,760
McNeil speeler said she's expecting a

253
00:10:49,040 --> 00:10:46,680
crowd in the hundreds for this weekend

254
00:10:49,580 --> 00:10:49,050
quote I just had a guy text me about it

255
00:10:51,650 --> 00:10:49,590
this morning

256
00:10:54,050 --> 00:10:51,660
he's from New Jersey people will come

257
00:10:56,510 --> 00:10:54,060
from all over just to see this we just

258
00:10:59,780 --> 00:10:56,520
try to make it an educational fun time

259
00:11:02,270 --> 00:10:59,790
for everybody end quotes yup it's today

260
00:11:04,670 --> 00:11:02,280
and tomorrow so if you're in the area

261
00:11:07,519 --> 00:11:04,680
heads up you still have time to get in

262
00:11:10,100 --> 00:11:07,529
on the fun and the infirm

263
00:11:13,040 --> 00:11:10,110

all righty then it's the UFO headline

264

00:11:15,500 --> 00:11:13,050

news so here comes the UFO headlines

265

00:11:18,860 --> 00:11:15,510

here's a striking one we picked up from

266

00:11:20,120 --> 00:11:18,870

UFO stalker calm black triangle sighting

267

00:11:23,269 --> 00:11:20,130

in Stewie ACK

268

00:11:26,440 --> 00:11:23,279

Nova Scotia Canada Stewie ACK is spelled

269

00:11:29,360 --> 00:11:26,450

ste WI AC ke

270

00:11:30,019 --> 00:11:29,370

its case number eight seven one four

271

00:11:32,240 --> 00:11:30,029

nine

272

00:11:34,699 --> 00:11:32,250

MUFON why's they issue numbers to

273

00:11:37,960 --> 00:11:34,709

hopefully track and identify what they

274

00:11:41,030 --> 00:11:37,970

can the date of this sighting is 8:25

275

00:11:44,690 --> 00:11:41,040

2017 it wasn't reported till October

276

00:11:48,050 --> 00:11:44,700

fifth this year a summary triangles

277

00:11:51,579 --> 00:11:48,060

silhouette against sky stopping to hover

278

00:11:54,949 --> 00:11:51,589

then moving no sound except for

279

00:11:58,690 --> 00:11:54,959

electrical hum strange time between

280

00:12:01,819 --> 00:11:58,700

exiting and re-entering vehicle after

281

00:12:03,920 --> 00:12:01,829

observation that is intriguing

282

00:12:07,610 --> 00:12:03,930

here come the sightings specifics of

283

00:12:10,100 --> 00:12:07,620

viewing distance 101 to 500 feet the

284

00:12:12,699 --> 00:12:10,110

altitude was treetop and 500 feet or

285

00:12:15,680 --> 00:12:12,709

less sighting duration three minutes

286

00:12:18,170 --> 00:12:15,690

object features are simply reported as

287

00:12:21,560 --> 00:12:18,180

unknown the flight path was stationary

288

00:12:23,900 --> 00:12:21,570

hovering then path and then a path and

289

00:12:25,699 --> 00:12:23,910

then more or hovering and quite

290

00:12:28,699 --> 00:12:25,709

obviously by its initial description

291

00:12:32,030 --> 00:12:28,709

this object was shaped like a triangle a

292

00:12:33,470 --> 00:12:32,040

black triangle just a quick notation of

293

00:12:35,030 --> 00:12:33,480

the temperatures there is no other

294

00:12:36,920 --> 00:12:35,040

weather that was occurring during the

295

00:12:38,990 --> 00:12:36,930

time of this event the maximum

296

00:12:42,470 --> 00:12:39,000

temperature over Stewie act Nova Scotia

297

00:12:44,930 --> 00:12:42,480

Canada 78 degrees Fahrenheit 25 degrees

298

00:12:47,480 --> 00:12:44,940

Celsius down to a minimum nothing out of

299

00:12:51,380 --> 00:12:47,490

the ordinary we think 52 degrees

300

00:12:53,150 --> 00:12:51,390

Fahrenheit 11 degrees Celsius let's just

301

00:12:55,699 --> 00:12:53,160

jump right into this report

302

00:12:58,010 --> 00:12:55,709

my girlfriend and I first caught sight

303

00:13:00,439 --> 00:12:58,020

of the craft while driving down Veterans

304

00:13:03,259 --> 00:13:00,449

Memorial Highway we were leaving Trudeau

305

00:13:05,480 --> 00:13:03,269

headed towards Stewie ak it was about

306

00:13:08,780 --> 00:13:05,490

9:00 p.m. on a relatively cloudless

307

00:13:11,360 --> 00:13:08,790

night from the passenger seat I noticed

308

00:13:13,400 --> 00:13:11,370

a bright red light very far in the

309

00:13:16,639 --> 00:13:13,410

distance to the right of the highway I

310

00:13:19,040 --> 00:13:16,649

knew there to be some sort of tower in

311

00:13:20,970 --> 00:13:19,050

that area towers with lights on them of

312

00:13:24,420 --> 00:13:20,980

similar color so I didn't think

313

00:13:27,090 --> 00:13:24,430

chav it 20 minutes later I saw the same

314

00:13:29,519 --> 00:13:27,100

red light somewhat closer still off the

315

00:13:31,829 --> 00:13:29,529

highway we made it to my girlfriend's

316

00:13:34,410 --> 00:13:31,839

house around 9:30 we spent about 20

317

00:13:38,250 --> 00:13:34,420

minutes there and then began to leave

318

00:13:40,590 --> 00:13:38,260

for Truro from her backyard I noticed

319

00:13:43,230 --> 00:13:40,600

the same red light that I'd seen before

320

00:13:45,629 --> 00:13:43,240

but much closer now close enough to see

321

00:13:47,639 --> 00:13:45,639

that it was actually made up of several

322

00:13:50,189 --> 00:13:47,649

lights three white lights in a

323

00:13:52,230 --> 00:13:50,199

triangular formation and an orange red

324

00:13:54,240 --> 00:13:52,240

light in the center we left my

325

00:13:57,150 --> 00:13:54,250

girlfriend's home then and began down

326

00:13:59,879 --> 00:13:57,160

st. Andrews Street where the craft then

327

00:14:02,579 --> 00:13:59,889

flew almost directly above us we were

328

00:14:04,319 --> 00:14:02,589

both completely awestruck it was then my

329

00:14:07,139 --> 00:14:04,329

girlfriend pointed out that it had

330

00:14:09,389 --> 00:14:07,149

completely stopped it was hovering above

331

00:14:11,189 --> 00:14:09,399

the tree line to our left so we

332

00:14:12,750 --> 00:14:11,199

immediately pulled the car to the side

333

00:14:15,960 --> 00:14:12,760

of the road and got out to get a better

334

00:14:18,629 --> 00:14:15,970

look as we pulled over the crafts course

335

00:14:20,790 --> 00:14:18,639

then changed slightly instead of heading

336

00:14:23,160 --> 00:14:20,800

directly over us it headed more to our

337

00:14:25,290 --> 00:14:23,170

right and over the tree line where we

338

00:14:28,259 --> 00:14:25,300

later eventually lost sight of it but

339

00:14:31,139 --> 00:14:28,269

not before getting a very good look this

340

00:14:33,329 --> 00:14:31,149

craft which had stopped completely while

341

00:14:36,509 --> 00:14:33,339

going a relatively slow speed to begin

342

00:14:39,509 --> 00:14:36,519

with did not have to slow down nor build

343

00:14:42,389 --> 00:14:39,519

momentum or speed to return to that

344

00:14:44,040 --> 00:14:42,399

previous initial speed the thing was

345

00:14:46,199 --> 00:14:44,050

maybe a hundred feet above the tree line

346

00:14:48,960 --> 00:14:46,209

probably a hundred fifty to two hundred

347

00:14:52,500 --> 00:14:48,970

feet above us and it seemed to be the

348

00:14:55,199 --> 00:14:52,510

size of four maybe more lengths of our

349

00:14:58,530 --> 00:14:55,209

vehicle using a Honda Civic car as

350

00:15:00,509 --> 00:14:58,540

reference it showed a sharp triangular

351
00:15:02,189 --> 00:15:00,519
silhouette against the sky for Justin I

352
00:15:03,329 --> 00:15:02,199
just saved hundreds of dollars by

353
00:15:06,120 --> 00:15:03,339
switching to Geico

354
00:15:07,590 --> 00:15:06,130
I've never felt more alive disclaimer

355
00:15:09,059 --> 00:15:07,600
Geico cannot guarantee you will feel

356
00:15:10,230 --> 00:15:09,069
more alive you either possessed

357
00:15:12,120 --> 00:15:10,240
functioning respiratory and circulatory

358
00:15:13,710 --> 00:15:12,130
systems or you do not or you are a

359
00:15:14,819 --> 00:15:13,720
zombie if you are indeed a brain starves

360
00:15:15,629 --> 00:15:14,829
on me and you would like to save money

361
00:15:16,860 --> 00:15:15,639
on car insurance

362
00:15:18,300 --> 00:15:16,870
the Geico legal team applaud your

363
00:15:19,860 --> 00:15:18,310

excellent life choices even in your

364

00:15:21,480 --> 00:15:19,870

shambling afterlife but we strongly

365

00:15:22,800 --> 00:15:21,490

encourage you to visit Geico calm or

366

00:15:24,300 --> 00:15:22,810

download the Geico app please stay a

367

00:15:26,069 --> 00:15:24,310

minimum of 500 feet away from our large

368

00:15:28,559 --> 00:15:26,079

and presumably delicious delicious

369

00:15:30,439 --> 00:15:28,569

brains Geico 15 minutes could save you

370

00:15:33,679 --> 00:15:30,449

15% or more

371

00:15:37,579 --> 00:15:33,689

second the only noise I can associate

372

00:15:41,569 --> 00:15:37,589

with it was a low electrical hum the air

373

00:15:44,299 --> 00:15:41,579

the time felt strange there were also

374

00:15:46,699 --> 00:15:44,309

two struck like lights on either winged

375

00:15:48,949 --> 00:15:46,709

side of this craft as low as the craft

376

00:15:51,259 --> 00:15:48,959

was there was no sound that would lead

377

00:15:53,269 --> 00:15:51,269

me to believe it was either a plane or a

378

00:15:56,119 --> 00:15:53,279

helicopter as I'm familiar with the

379

00:15:59,090 --> 00:15:56,129

sounds produced by both now because of

380

00:16:01,340 --> 00:15:59,100

these strobes I later doubted that this

381

00:16:04,129 --> 00:16:01,350

was a UFO and began to do some research

382

00:16:05,809 --> 00:16:04,139

of my own on navigation lights the

383

00:16:08,179 --> 00:16:05,819

navigation lights used by planes and

384

00:16:11,059 --> 00:16:08,189

helicopters I could not find any

385

00:16:13,999 --> 00:16:11,069

formation of navigation lights I could

386

00:16:15,919 --> 00:16:14,009

connect with this that coupled with the

387

00:16:18,470 --> 00:16:15,929

strange maneuverings as well as the

388

00:16:21,079 --> 00:16:18,480

sound and the feeling it emitted

389

00:16:24,710 --> 00:16:21,089

produced a phenomenon I will not soon

390

00:16:26,239 --> 00:16:24,720

forget because of this low speed we were

391

00:16:27,799 --> 00:16:26,249

able to observe it for about a minute

392

00:16:30,699 --> 00:16:27,809

and a half maybe two minutes before

393

00:16:33,319 --> 00:16:30,709

losing sight of it it was approximately

394

00:16:36,379 --> 00:16:33,329

953 when we stopped the vehicle and got

395

00:16:39,499 --> 00:16:36,389

out it was approximately 10:30 when we

396

00:16:42,259 --> 00:16:39,509

got back in which is a time frame that

397

00:16:44,449 --> 00:16:42,269

still does not make sense to me as I'm

398

00:16:47,689 --> 00:16:44,459

certain we did not stand outside the car

399

00:16:49,729 --> 00:16:47,699

for over a half an hour this is all the

400

00:16:52,429 --> 00:16:49,739

information I can submit my memory

401
00:16:54,650 --> 00:16:52,439
serves me well and my girlfriend also

402
00:16:57,470 --> 00:16:54,660
witnessed this with me we both agreed on

403
00:17:01,099 --> 00:16:57,480
the strange feeling and what we call the

404
00:17:02,779 --> 00:17:01,109
skewed perception of time attached is a

405
00:17:04,939 --> 00:17:02,789
drawing I did several days after the

406
00:17:07,309 --> 00:17:04,949
incident as well as after my research on

407
00:17:09,379 --> 00:17:07,319
navigation lights in the drawing you can

408
00:17:11,689 --> 00:17:09,389
see the nose of the craft silhouetted

409
00:17:14,389 --> 00:17:11,699
against the moon that was for artistic

410
00:17:17,029 --> 00:17:14,399
purposes as I did not actually see that

411
00:17:19,279 --> 00:17:17,039
happen however the black craft was

412
00:17:21,169 --> 00:17:19,289
blacker than the night sky and I

413
00:17:24,350 --> 00:17:21,179

couldn't think of any other way to show

414

00:17:25,399 --> 00:17:24,360

that in my drawing and sadly gentle

415

00:17:26,840 --> 00:17:25,409

listeners you're going to be

416

00:17:29,360 --> 00:17:26,850

disappointed if you want to see that

417

00:17:31,549 --> 00:17:29,370

drawing because it never made it through

418

00:17:33,950 --> 00:17:31,559

to the post but we do have a verbal

419

00:17:37,279 --> 00:17:33,960

description an aural account shall we

420

00:17:39,019 --> 00:17:37,289

say it seems as though it's possible our

421

00:17:41,869 --> 00:17:39,029

witnesses experienced some sort of

422

00:17:43,940 --> 00:17:41,879

missing time though missing time missing

423

00:17:46,280 --> 00:17:43,950

drawing go figure

424

00:17:48,440 --> 00:17:46,290

let's head over to Vancouver British

425

00:17:50,810 --> 00:17:48,450

Columbia now staying in our northerly

426
00:17:53,660 --> 00:17:50,820
trajectory it's MUFON case number eight

427
00:17:56,510 --> 00:17:53,670
seven one five zero this is an older

428
00:17:58,730 --> 00:17:56,520
case it occurred in 2016 on March 1st

429
00:18:01,310 --> 00:17:58,740
for some reason the witness has not

430
00:18:02,840 --> 00:18:01,320
reported it till the 5th of October this

431
00:18:05,660 --> 00:18:02,850
year so here we go

432
00:18:08,890 --> 00:18:05,670
summary offers three white spheres

433
00:18:11,630 --> 00:18:08,900
moving silently across clear sky

434
00:18:14,950 --> 00:18:11,640
northwest to Southwest perfectly

435
00:18:19,880 --> 00:18:14,960
straight line kind of moseying along

436
00:18:21,410 --> 00:18:19,890
ready to land same altitude the sighting

437
00:18:24,710 --> 00:18:21,420
specifics tell us the viewing distance

438
00:18:27,620 --> 00:18:24,720

here was 501 feet to one mile the

439

00:18:29,660 --> 00:18:27,630

altitude over 500 feet without any cloud

440

00:18:33,020 --> 00:18:29,670

cover the sighting duration was two

441

00:18:35,690 --> 00:18:33,030

minutes object features none object

442

00:18:37,640 --> 00:18:35,700

flight path straight line path and this

443

00:18:40,370 --> 00:18:37,650

particular object seems to have been

444

00:18:42,350 --> 00:18:40,380

shaped like a sphere meteorology didn't

445

00:18:44,390 --> 00:18:42,360

seem to play a part in this event there

446

00:18:47,000 --> 00:18:44,400

was just a quick brief notation as to

447

00:18:49,340 --> 00:18:47,010

temperature and that temperature over

448

00:18:52,310 --> 00:18:49,350

Vancouver for this event was 51 degrees

449

00:18:55,100 --> 00:18:52,320

Fahrenheit 11 degrees Celsius minimum

450

00:18:58,850 --> 00:18:55,110

temperature 43 degrees Fahrenheit 6

451
00:19:00,770 --> 00:18:58,860
degrees Celsius here's the account my

452
00:19:02,930 --> 00:19:00,780
friend and I were standing at the top of

453
00:19:06,530 --> 00:19:02,940
the driveway at Keith's Drive near 8th

454
00:19:10,370 --> 00:19:06,540
Avenue in Vancouver it was about 3 p.m.

455
00:19:13,610 --> 00:19:10,380
it was a clear sunny day I noticed a

456
00:19:15,680 --> 00:19:13,620
white orb sauntering into the sky over

457
00:19:16,340 --> 00:19:15,690
the mountains to the north coming from

458
00:19:18,290 --> 00:19:16,350
the east

459
00:19:21,440 --> 00:19:18,300
this thing was about the size of a

460
00:19:23,390 --> 00:19:21,450
planes cockpit and moving about the same

461
00:19:25,790 --> 00:19:23,400
speed as an aircraft the one that was

462
00:19:28,700 --> 00:19:25,800
ready to land at Vancouver Airport and

463
00:19:31,190 --> 00:19:28,710

then another orb appeared behind the

464

00:19:33,740 --> 00:19:31,200

first one by about 50 feet it was

465

00:19:36,470 --> 00:19:33,750

identical in appearance and motion

466

00:19:39,350 --> 00:19:36,480

moving at the same speed of that leaders

467

00:19:42,170 --> 00:19:39,360

fear and then as my friend and I stood

468

00:19:45,380 --> 00:19:42,180

with gaping mouths another white orb

469

00:19:48,710 --> 00:19:45,390

appeared about 50 feet behind the second

470

00:19:52,040 --> 00:19:48,720

one those three orbs then moved silently

471

00:19:55,460 --> 00:19:52,050

and calmly across the sky going from

472

00:19:57,309 --> 00:19:55,470

northeast to southwest we watched until

473

00:20:01,309 --> 00:19:57,319

it all disappeared behind the tree

474

00:20:05,479 --> 00:20:01,319

these three orbs were all identical same

475

00:20:07,999 --> 00:20:05,489

size same height white no lights and at

476
00:20:11,869 --> 00:20:08,009
no time while we watched did their speed

477
00:20:15,469 --> 00:20:11,879
or course alter they just mosey quietly

478
00:20:16,309 --> 00:20:15,479
to the southwest uniformly we had no

479
00:20:20,089 --> 00:20:16,319
camera

480
00:20:22,759 --> 00:20:20,099
unfortunately they mosey to the

481
00:20:25,969 --> 00:20:22,769
southwest going down to western

482
00:20:26,899 --> 00:20:25,979
territory boy howdy Cowboys and Aliens

483
00:20:28,999 --> 00:20:26,909
anyone

484
00:20:30,799 --> 00:20:29,009
well we couldn't find a sighting from

485
00:20:33,379 --> 00:20:30,809
the American Southwest so let's stay

486
00:20:36,189 --> 00:20:33,389
northerly shall we for another black

487
00:20:40,549 --> 00:20:36,199
triangle this time seen in Salem Oregon

488
00:20:44,269 --> 00:20:40,559

its MUFON Case 8 7 0 6 1 the date of

489

00:20:47,239 --> 00:20:44,279

this sighting is 928 2017 it was

490

00:20:50,419 --> 00:20:47,249

submitted 10 1 2017

491

00:20:53,989 --> 00:20:50,429

in summary triangle-shaped object that

492

00:20:55,639 --> 00:20:53,999

disappeared sighting specifics tell us

493

00:20:58,519 --> 00:20:55,649

that the viewing distance was over 1

494

00:21:01,759 --> 00:20:58,529

mile the altitude unknown the sighting

495

00:21:05,089 --> 00:21:01,769

duration 15 mere seconds object features

496

00:21:07,849 --> 00:21:05,099

unknown the flight path straight-line

497

00:21:10,459 --> 00:21:07,859

path and of course this object was

498

00:21:13,189 --> 00:21:10,469

shaped like a triangle nothing abnormal

499

00:21:14,839 --> 00:21:13,199

weather wise maximum temperature over

500

00:21:17,689 --> 00:21:14,849

Salem Oregon at the time of this event

501
00:21:20,629 --> 00:21:17,699
was 86 degrees Fahrenheit 30 degrees

502
00:21:23,179 --> 00:21:20,639
Celsius minimum temperature was 51

503
00:21:25,659 --> 00:21:23,189
degrees Fahrenheit 11 degrees Celsius

504
00:21:28,729 --> 00:21:25,669
and our trio of visibility factors

505
00:21:32,479 --> 00:21:28,739
maximum mean and minimum were all the

506
00:21:35,539 --> 00:21:32,489
same 10 miles 16 kilometers let's join

507
00:21:38,299 --> 00:21:35,549
our witness who was walking my dog in

508
00:21:41,179 --> 00:21:38,309
the 700 block of Sandpiper Street in

509
00:21:44,989 --> 00:21:41,189
Salem Oregon when I heard a propeller

510
00:21:47,749 --> 00:21:44,999
engine noise I looked up but I didn't

511
00:21:50,689 --> 00:21:47,759
see an airplane my attention was then

512
00:21:53,929 --> 00:21:50,699
drawn to an object that was passing over

513
00:21:56,869 --> 00:21:53,939

my head it was white in color it

514

00:21:59,179 --> 00:21:56,879

appeared to be a solid object this thing

515

00:22:02,569 --> 00:21:59,189

was travelling slightly faster than I

516

00:22:05,059 --> 00:22:02,579

think an airliner would and then as I

517

00:22:09,109 --> 00:22:05,069

watched I began to realize this object

518

00:22:10,610 --> 00:22:09,119

was triangular shaped I watched this for

519

00:22:13,310 --> 00:22:10,620

maybe 15 seconds

520

00:22:15,440 --> 00:22:13,320

when it suddenly simply disappeared at

521

00:22:17,990 --> 00:22:15,450

first I thought it might have passed

522

00:22:21,140 --> 00:22:18,000

into a cloud but that's not the way it

523

00:22:23,269 --> 00:22:21,150

disappeared it just vanished I looked

524

00:22:26,330 --> 00:22:23,279

further along what its path had been to

525

00:22:30,169 --> 00:22:26,340

see whether it reappeared but it didn't

526

00:22:33,769 --> 00:22:30,179

oh it's that clear sky now you see it

527

00:22:35,799 --> 00:22:33,779

now you don't a scientific version of

528

00:22:38,450 --> 00:22:35,809

the cloak of invisibility

529

00:22:40,039 --> 00:22:38,460

speaking of invisibility this is the

530

00:22:42,950 --> 00:22:40,049

part where we remind you we're going to

531

00:22:45,169 --> 00:22:42,960

be visible in a radio kind of way once

532

00:22:47,500 --> 00:22:45,179

again this weekend when we take UFO

533

00:22:50,029 --> 00:22:47,510

headline news off the beaten path

534

00:22:52,370 --> 00:22:50,039

include some stories that don't quite

535

00:22:54,889 --> 00:22:52,380

fit into the parameters of what we do

536

00:22:58,100 --> 00:22:54,899

during the week and oh yes you can count

537

00:23:01,360 --> 00:22:58,110

on us to fill you in on the Chicago howl

538

00:23:04,490 --> 00:23:01,370

man latest sightings talk about a flap

539

00:23:07,909 --> 00:23:04,500

well we've got to wing our way out of

540

00:23:10,100 --> 00:23:07,919

here now because that's a wrap thank you

541

00:23:12,769 --> 00:23:10,110

for listening to inception radio network

542

00:23:15,289 --> 00:23:12,779

follow today's broadcast at UFO headline

543

00:23:17,210 --> 00:23:15,299

news or on my heart radio take care of

544

00:23:19,519 --> 00:23:17,220

each other we're all in this together

545

00:23:25,669 --> 00:23:19,529

this is Carol Carl's see you tomorrow

546

00:23:28,399 --> 00:23:25,679

I just saved hundreds of dollars by

547

00:23:30,889 --> 00:23:28,409

switching to Geico I'm so happy I feel

548

00:23:32,029 --> 00:23:30,899

like I can fly disclaimer you will not

549

00:23:33,710 --> 00:23:32,039

be able to fly by switching to Geico

550

00:23:34,850 --> 00:23:33,720

this is against the laws of physics and

551

00:23:36,169 --> 00:23:34,860

nature if you find yourself flying

552

00:23:37,730 --> 00:23:36,179

please seek professional and/or medical

553

00:23:39,320 --> 00:23:37,740

help immediately in the unlikely event

554

00:23:41,269 --> 00:23:39,330

you find yourself lying you might be a

555

00:23:42,889 --> 00:23:41,279

superhero or a pigeon or a superhero

556

00:23:44,330 --> 00:23:42,899

named pigs woman who was bitten by a

557

00:23:46,190 --> 00:23:44,340

radioactive pigeon if you are indeed

558

00:23:47,299 --> 00:23:46,200

woman keiko retains all licensing

559

00:23:48,799 --> 00:23:47,309

publishing rights in the event pits

560

00:23:50,899 --> 00:23:48,809

woman the movie becomes a top grossing
