

UFO Headline News | Monday October 9th, 2017

Listen on

inceptionradionetwork.com

1
00:00:07,340 --> 00:00:04,519
hello it's Monday October 9th 2017 you

2
00:00:10,009 --> 00:00:07,350
are listening to inception Radio Network

3
00:00:15,320 --> 00:00:10,019
voice of the fringe majority this is

4
00:00:17,029 --> 00:00:15,330
Carol Karl with UFO headline news here's

5
00:00:19,580 --> 00:00:17,039
what we can look forward to seeing in

6
00:00:20,750 --> 00:00:19,590
tonight's sky after the Sun Goes Down

7
00:00:24,849 --> 00:00:20,760
tonight

8
00:00:27,439 --> 00:00:24,859
a is for Andromeda the Andromeda galaxy

9
00:00:29,870 --> 00:00:27,449
specifically coming soon to a sky near

10
00:00:32,240 --> 00:00:29,880
you now that the moon is in a waning

11
00:00:34,190 --> 00:00:32,250
gibbous phase and gone from the sky in

12
00:00:37,040 --> 00:00:34,200
early evening we won't have to fight

13
00:00:39,799 --> 00:00:37,050

that pesky moon glow anymore and we can

14

00:00:42,170 --> 00:00:39,809

find the Andromeda galaxy perhaps that

15

00:00:44,630 --> 00:00:42,180

great spiral galaxy right next door to

16

00:00:46,250 --> 00:00:44,640

our Milky Way it's the most distant

17

00:00:48,740 --> 00:00:46,260

thing you can see with your eye alone

18

00:00:50,360 --> 00:00:48,750

it's best in the evening this time of

19

00:00:53,420 --> 00:00:50,370

year that's assuming you're in the

20

00:00:55,340 --> 00:00:53,430

northern hemisphere most people find the

21

00:00:57,860 --> 00:00:55,350

galaxy by star hopping from the

22

00:01:01,069 --> 00:00:57,870

constellation Cassiopeia which is that

23

00:01:03,889 --> 00:01:01,079

very noticeable M or W shaped pattern

24

00:01:05,899 --> 00:01:03,899

the Queen patterned on the sky's dome as

25

00:01:08,539 --> 00:01:05,909

a matter of fact Deborah bird who writes

26

00:01:10,640 --> 00:01:08,549

this article for earth sky org said she

27

00:01:14,149 --> 00:01:10,650

herself learned to find the Andromeda

28

00:01:16,550 --> 00:01:14,159

galaxy by doing that star hop dance from

29

00:01:18,950 --> 00:01:16,560

the great square of Pegasus to those two

30

00:01:21,469 --> 00:01:18,960

graceful streams of stars that make up

31

00:01:23,300 --> 00:01:21,479

the constellation Andromeda there's a

32

00:01:25,039 --> 00:01:23,310

church you can find later at UFO

33

00:01:27,679 --> 00:01:25,049

headline news it'll show you both

34

00:01:30,140 --> 00:01:27,689

constellations Cassiopeia and Andromeda

35

00:01:32,810 --> 00:01:30,150

you can see the galaxy's location with

36

00:01:34,609 --> 00:01:32,820

respect to both now let's take a closer

37

00:01:37,340 --> 00:01:34,619

look at the other way to find this

38

00:01:39,200 --> 00:01:37,350

galaxy there's a large square pattern

39

00:01:41,149 --> 00:01:39,210

that's right above the great square in

40

00:01:43,520 --> 00:01:41,159

the constellation Pegasus the

41

00:01:46,850 --> 00:01:43,530

constellation Andromeda can be seen as

42

00:01:49,100 --> 00:01:46,860

two streams of stars those stars extend

43

00:01:51,800 --> 00:01:49,110

from one side of that square beginning

44

00:01:55,789 --> 00:01:51,810

at the star alpheratz that spelled al

45

00:01:59,300 --> 00:01:55,799

phe are eight easy you can see me rock

46

00:02:01,940 --> 00:01:59,310

and Moo Andromeda an imaginary line

47

00:02:02,990 --> 00:02:01,950

drawn between these two star points and

48

00:02:05,899 --> 00:02:03,000

there you are

49

00:02:08,419 --> 00:02:05,909

it's the Andromeda galaxy just be aware

50

00:02:10,609 --> 00:02:08,429

bright moonlight or city lights can

51

00:02:13,040 --> 00:02:10,619

overwhelm the glow it's faint

52

00:02:13,890 --> 00:02:13,050

the single most important thing you need

53

00:02:17,460 --> 00:02:13,900

to see this

54

00:02:19,979 --> 00:02:17,470

Galaxy is a very dark sky what does the

55

00:02:22,319 --> 00:02:19,989

galaxy look like to the eye well

56

00:02:24,390 --> 00:02:22,329

assuming you have that dark sky it's

57

00:02:27,000 --> 00:02:24,400

going to appear as a large fuzzy patch

58

00:02:29,369 --> 00:02:27,010

bigger than a full moon in the sky but

59

00:02:32,339 --> 00:02:29,379

vastly fainter much more subtle and

60

00:02:35,190 --> 00:02:32,349

here's a tip for binocular astronomers

61

00:02:37,229 --> 00:02:35,200

binoculars as always enhance the view

62

00:02:39,270 --> 00:02:37,239

and they're excellent for beginners to

63

00:02:41,940 --> 00:02:39,280

observe the Andromeda galaxy because you

64

00:02:45,059 --> 00:02:41,950

can point them so easily as you stand

65

00:02:47,849 --> 00:02:45,069

beneath that dark sky locate the galaxy

66

00:02:50,640 --> 00:02:47,859

with your eye first and then slowly

67

00:02:52,619 --> 00:02:50,650

bring up those binoculars to your eyes

68

00:02:55,080 --> 00:02:52,629

so that that galaxy will come into

69

00:02:57,420 --> 00:02:55,090

binocular view if that doesn't work for

70

00:03:00,000 --> 00:02:57,430

you try sweeping the area with your

71

00:03:02,729 --> 00:03:00,010

binoculars go slowly make sure your eyes

72

00:03:05,610 --> 00:03:02,739

are dark adapted we've heard that can

73

00:03:07,710 --> 00:03:05,620

take 15 to 20 minutes the galaxy will

74

00:03:10,289 --> 00:03:07,720

look like a fuzzy patch to your eye

75

00:03:12,449 --> 00:03:10,299

it'll be brighter through binoculars can

76

00:03:14,879 --> 00:03:12,459

you see its central region that more

77

00:03:17,129 --> 00:03:14,889

concentrated region ah that's something

78

00:03:19,319 --> 00:03:17,139

to look for with the eye or with

79

00:03:21,599 --> 00:03:19,329

binoculars or even if you happen to have

80

00:03:24,180 --> 00:03:21,609

a backyard telescope the Andromeda

81

00:03:27,030 --> 00:03:24,190

galaxy won't look like most photographic

82

00:03:29,729 --> 00:03:27,040

images but it will be beautiful it will

83

00:03:32,309 --> 00:03:29,739

take your breath away so here's the

84

00:03:35,909 --> 00:03:32,319

bottom line the Andromeda galaxy also

85

00:03:38,520 --> 00:03:35,919

known as m31 or Messier 31 will be

86

00:03:41,280 --> 00:03:38,530

visible on dark moonless evenings now

87

00:03:43,379 --> 00:03:41,290

till the beginning of spring we just

88

00:03:46,649 --> 00:03:43,389

have to figure out where that dark sky

89

00:03:49,680 --> 00:03:46,659

is here's another mystery well the

90

00:03:52,469 --> 00:03:49,690

continuation of a mystery headline new

91

00:03:55,949 --> 00:03:52,479

Clues emerge for the existence of Planet

92

00:03:59,059 --> 00:03:55,959

9 we get this from universe today.com

93

00:04:02,580 --> 00:03:59,069

it carries a byline for Matt Williams

94

00:04:04,259 --> 00:04:02,590

planet 9 cannot hide forever a new

95

00:04:07,349 --> 00:04:04,269

research has narrowed the range of

96

00:04:10,069 --> 00:04:07,359

possible locations further in January of

97

00:04:12,839 --> 00:04:10,079

2016 a few gentlest neurs remember

98

00:04:15,030 --> 00:04:12,849

astronomers mike brown and konstantin

99

00:04:16,830 --> 00:04:15,040

batygin published the first evidence

100

00:04:19,770 --> 00:04:16,840

that there might be another planet in

101
00:04:23,159 --> 00:04:19,780
our solar system known as planet 9 or

102
00:04:25,830 --> 00:04:23,169
Planet X to sum this hypothetical body

103
00:04:27,310 --> 00:04:25,840
was believed to orbit at an extreme

104
00:04:29,290 --> 00:04:27,320
distance from our Sun

105
00:04:32,710 --> 00:04:29,300
as evidenced by the orbits of certain

106
00:04:35,650 --> 00:04:32,720
extreme Kuiper belt objects or ek BOS

107
00:04:38,200 --> 00:04:35,660
the e by the way is lowercase since that

108
00:04:39,880 --> 00:04:38,210
time multiple studies have been produced

109
00:04:43,030 --> 00:04:39,890
that have attempted to place constraints

110
00:04:44,770 --> 00:04:43,040
on Planet nines location the latest

111
00:04:47,110 --> 00:04:44,780
study once again comes from brown and

112
00:04:49,510 --> 00:04:47,120
batygin who conducted an analytical

113
00:04:51,280 --> 00:04:49,520

assessment of all the processes those

114

00:04:53,950 --> 00:04:51,290

processes which have indicated the

115

00:04:56,320 --> 00:04:53,960

presence of Planet nine so far taken

116

00:04:58,630 --> 00:04:56,330

together these indications show that the

117

00:05:01,690 --> 00:04:58,640

existence of this body is not only

118

00:05:04,120 --> 00:05:01,700

likely but it's also essential to the

119

00:05:07,090 --> 00:05:04,130

solar system as we know it

120

00:05:10,360 --> 00:05:07,100

this study titled dynamical evolution

121

00:05:12,790 --> 00:05:10,370

induced by Planet 9 recently appeared

122

00:05:15,460 --> 00:05:12,800

online and it's been accepted for

123

00:05:17,830 --> 00:05:15,470

publication in the esteemed astronomical

124

00:05:19,510 --> 00:05:17,840

journal whereas previous studies have

125

00:05:21,790 --> 00:05:19,520

pointed to the behavior of various

126

00:05:24,880 --> 00:05:21,800

populations of Kuiper belt objects as

127

00:05:26,950 --> 00:05:24,890

proof of Planet 9 Brown and batygin

128

00:05:29,710 --> 00:05:26,960

sought to provide a coherent theoretical

129

00:05:32,020 --> 00:05:29,720

description of the dynamical mechanisms

130

00:05:35,320 --> 00:05:32,030

which are responsible for these effects

131

00:05:37,360 --> 00:05:35,330

in the end they concluded that it would

132

00:05:41,050 --> 00:05:37,370

be more difficult to imagine a solar

133

00:05:43,720 --> 00:05:41,060

system without a planet 9 than with one

134

00:05:46,450 --> 00:05:43,730

as constant in batygin explained in a

135

00:05:48,580 --> 00:05:46,460

recent NASA press statement quote there

136

00:05:50,860 --> 00:05:48,590

are now five different lines of

137

00:05:53,530 --> 00:05:50,870

observational evidence pointing to the

138

00:05:56,020 --> 00:05:53,540

existence of Planet 9 if you were to

139

00:05:58,000 --> 00:05:56,030

remove this explanation and imagine

140

00:06:00,310 --> 00:05:58,010

Planet 9 does not exist then you

141

00:06:02,830 --> 00:06:00,320

generate more problems than you solve

142

00:06:05,050 --> 00:06:02,840

all of a sudden you have five different

143

00:06:07,270 --> 00:06:05,060

puzzles and you must come up with five

144

00:06:10,990 --> 00:06:07,280

different theories to explain them and

145

00:06:13,030 --> 00:06:11,000

quotes back in 2016 Brown and batygin

146

00:06:14,770 --> 00:06:13,040

described the first three lines of

147

00:06:18,100 --> 00:06:14,780

observational evidence for planet nine

148

00:06:20,950 --> 00:06:18,110

those include six extreme Kuiper belt

149

00:06:23,650 --> 00:06:20,960

objects these objects follow highly

150

00:06:26,230 --> 00:06:23,660

elliptical paths around the Sun which is

151
00:06:28,960 --> 00:06:26,240
indicative of an unseen mechanism which

152
00:06:30,820 --> 00:06:28,970
affects their orbit the second is the

153
00:06:33,610 --> 00:06:30,830
fact that these orbits in these bodies

154
00:06:34,060 --> 00:06:33,620
they're all tilted the same way about 30

155
00:06:37,090 --> 00:06:34,070
degrees

156
00:06:39,580 --> 00:06:37,100
downward to the plane of the Kuiper belt

157
00:06:40,730 --> 00:06:39,590
the third hint came from the form of a

158
00:06:43,730 --> 00:06:40,740
computer simulation

159
00:06:46,220 --> 00:06:43,740
a simulation that included planet 9 as

160
00:06:48,500 --> 00:06:46,230
part of the solar system based on these

161
00:06:50,900 --> 00:06:48,510
simulations it was apparent that more

162
00:06:53,210 --> 00:06:50,910
object should be tilted with respect to

163
00:06:53,840 --> 00:06:53,220

the solar plane on the order of about 90

164

00:06:55,970 --> 00:06:53,850

degrees

165

00:06:58,430 --> 00:06:55,980

thanks to their research Brown and

166

00:07:00,680 --> 00:06:58,440

batygin found five such objects that

167

00:07:03,590 --> 00:07:00,690

happened to fit this orbital pattern and

168

00:07:05,690 --> 00:07:03,600

they suspect that more exists since the

169

00:07:07,730 --> 00:07:05,700

publication of their original paper two

170

00:07:10,130 --> 00:07:07,740

more indications have emerged for the

171

00:07:12,200 --> 00:07:10,140

existence of Planet 9 there's another

172

00:07:14,270 --> 00:07:12,210

that involved the unexplained orbits of

173

00:07:16,310 --> 00:07:14,280

more Kuiper belt objects which were

174

00:07:18,650 --> 00:07:16,320

found to be orbiting in the opposite

175

00:07:20,720 --> 00:07:18,660

direction from everything else in the

176

00:07:22,970 --> 00:07:20,730

solar system this was a telltale

177

00:07:25,850 --> 00:07:22,980

indication that a relatively closed body

178

00:07:28,940 --> 00:07:25,860

a body with a powerful gravitation force

179

00:07:30,710 --> 00:07:28,950

was affecting their orbits and then

180

00:07:32,960 --> 00:07:30,720

there was the argument presented in the

181

00:07:34,640 --> 00:07:32,970

second paper by the team that team was

182

00:07:36,890 --> 00:07:34,650

led by elizabeth bailey who was bad

183

00:07:39,410 --> 00:07:36,900

against graduate student this study

184

00:07:42,470 --> 00:07:39,420

argued planet 9 was responsible for

185

00:07:46,730 --> 00:07:42,480

tilting the orbits of the solar planets

186

00:07:48,500 --> 00:07:46,740

over the past 4.5 billion years this not

187

00:07:50,870 --> 00:07:48,510

only provided additional evidence for

188

00:07:53,360 --> 00:07:50,880

planet 9 but also answered a

189

00:07:56,120 --> 00:07:53,370

long-standing mystery in astrophysics

190

00:07:59,660 --> 00:07:56,130

why the planets are tilted 6 degrees

191

00:08:02,570 --> 00:07:59,670

relative to the sun's equator as vatican

192

00:08:05,030 --> 00:08:02,580

indicated all of this adds up to a solid

193

00:08:07,400 --> 00:08:05,040

case for the existence of a yet to be

194

00:08:10,880 --> 00:08:07,410

discovered massive planet in the outer

195

00:08:13,670 --> 00:08:10,890

solar system here's bad against quote no

196

00:08:16,520 --> 00:08:13,680

other model can explain the weirdness of

197

00:08:18,400 --> 00:08:16,530

these high inclination orbits it turns

198

00:08:21,560 --> 00:08:18,410

out that Planet 9 provides a natural

199

00:08:23,330 --> 00:08:21,570

Avenue for their generation these things

200

00:08:25,670 --> 00:08:23,340

have been twisted out of the solar

201
00:08:29,180 --> 00:08:25,680
system plane with help from Planet nine

202
00:08:29,920 --> 00:08:29,190
and then scattered inward by Neptune end

203
00:08:32,420 --> 00:08:29,930
quotes

204
00:08:35,330 --> 00:08:32,430
recent studies have also shed some light

205
00:08:37,670 --> 00:08:35,340
on how and where Planet 9 originated

206
00:08:39,680 --> 00:08:37,680
whereas some suggested that the planet

207
00:08:42,380 --> 00:08:39,690
moved to the edge of the solar system

208
00:08:44,390 --> 00:08:42,390
after forming closer to the Sun others

209
00:08:47,240 --> 00:08:44,400
have suggested that it might be an

210
00:08:50,090 --> 00:08:47,250
exoplanet that was captured early in the

211
00:08:51,890 --> 00:08:50,100
solar system's history at present the

212
00:08:54,440 --> 00:08:51,900
favored theory appears to be that it

213
00:08:54,769 --> 00:08:54,450

formed closer to the Sun and migrated

214

00:08:58,189 --> 00:08:54,779

out

215

00:09:00,650 --> 00:08:58,199

word over time granted there is not yet

216

00:09:03,110 --> 00:09:00,660

a scientific consensus when it comes to

217

00:09:05,239 --> 00:09:03,120

planet 9 and other astronomers have

218

00:09:07,429 --> 00:09:05,249

offered other possible explanations for

219

00:09:10,340 --> 00:09:07,439

the evidence cited by Vatican and Brown

220

00:09:11,929 --> 00:09:10,350

for instance a recent analysis based on

221

00:09:14,210 --> 00:09:11,939

the outer solar system

222

00:09:17,860 --> 00:09:14,220

origins survey which discovered more

223

00:09:20,269 --> 00:09:17,870

than 800 new trans-neptunian objects

224

00:09:23,090 --> 00:09:20,279

suggests that the evidence could also be

225

00:09:26,509 --> 00:09:23,100

consistent with random distribution of

226

00:09:28,819 --> 00:09:26,519

such objects in the meantime all that

227

00:09:31,220 --> 00:09:28,829

remains is to find direct evidence of

228

00:09:33,110 --> 00:09:31,230

the planet at present batygin and brown

229

00:09:34,720 --> 00:09:33,120

are attempting to do just that

230

00:09:37,519 --> 00:09:34,730

they're using the Subaru telescope

231

00:09:40,160 --> 00:09:37,529

located at the Mauna Kea Observatory in

232

00:09:42,319 --> 00:09:40,170

Hawaii this detection of this planet

233

00:09:45,019 --> 00:09:42,329

will not only settle the matter of

234

00:09:47,090 --> 00:09:45,029

whether or not it even exists it will

235

00:09:49,160 --> 00:09:47,100

also help resolve a mystery that emerged

236

00:09:53,360 --> 00:09:49,170

in recent years thanks to the discovery

237

00:09:57,489 --> 00:09:53,370

of thousands of extrasolar planets in

238

00:10:02,960 --> 00:09:57,499

short thanks to the discovery of 3529

239

00:10:05,569 --> 00:10:02,970

confirmed exoplanets in the 2633 solar

240

00:10:08,449 --> 00:10:05,579

systems astronomers have noticed that

241

00:10:10,639 --> 00:10:08,459

statistically the most likely types of

242

00:10:13,249 --> 00:10:10,649

planets are super-earths and mini

243

00:10:15,860 --> 00:10:13,259

Neptune's in other words planets that

244

00:10:17,869 --> 00:10:15,870

are more massive than Earth but not more

245

00:10:21,499 --> 00:10:17,879

than about 10 Earth masses

246

00:10:24,019 --> 00:10:21,509

if planet 9 is confirmed to exist which

247

00:10:26,600 --> 00:10:24,029

is estimated to have 10 times the mass

248

00:10:29,420 --> 00:10:26,610

of Earth then that could explain this

249

00:10:31,790 --> 00:10:29,430

discrepancy and Matt Williams ends by

250

00:10:34,519 --> 00:10:31,800

saying planet 9 we know you're out there

251

00:10:37,480 --> 00:10:34,529

and we will find you unless you're not

252

00:10:40,280 --> 00:10:37,490

in which case disregard this message

253

00:10:43,669 --> 00:10:40,290

here is the most natural segue from

254

00:10:46,160 --> 00:10:43,679

planet 9 - well Canada where we wish

255

00:10:48,530 --> 00:10:46,170

everybody up there a happy Canadian

256

00:10:51,499 --> 00:10:48,540

Thanksgiving we understand there be

257

00:10:54,710 --> 00:10:51,509

bonfires here's a story a UFO sighting

258

00:10:57,710 --> 00:10:54,720

from Ottawa Canada courtesy of UFO

259

00:11:01,090 --> 00:10:57,720

stalker calm it's MUFON case number 87

260

00:11:05,030 --> 00:11:01,100

163 the date of this sighting is 10 6

261

00:11:08,360 --> 00:11:05,040

2017 and it got a same-day report here's

262

00:11:10,910 --> 00:11:08,370

the summary saw lights that look like

263

00:11:13,910 --> 00:11:10,920

someone had two dozen giant torch lights

264

00:11:16,730 --> 00:11:13,920

beaming into the sky moving them in

265

00:11:20,030 --> 00:11:16,740

different directions while making shapes

266

00:11:22,550 --> 00:11:20,040

with them we don't think that's bonfire

267

00:11:24,920 --> 00:11:22,560

sightings the sighting specifics include

268

00:11:27,320 --> 00:11:24,930

an unknown viewing distance an unknown

269

00:11:30,019 --> 00:11:27,330

altitude the sighting duration was five

270

00:11:32,930 --> 00:11:30,029

minutes object features well they're

271

00:11:35,210 --> 00:11:32,940

also unknown the flight path was a path

272

00:11:37,880 --> 00:11:35,220

with directional change and this object

273

00:11:40,280 --> 00:11:37,890

is said to have been shaped oval there

274

00:11:42,710 --> 00:11:40,290

isn't any mention of meteorology here's

275

00:11:46,390 --> 00:11:42,720

the account on the morning of October

276

00:11:49,670 --> 00:11:46,400

6th 2017 I left my house at 4:50 a.m.

277

00:11:52,280 --> 00:11:49,680

for my morning walk I noticed there

278

00:11:55,730 --> 00:11:52,290

wasn't a cloud in the sky no stars and

279

00:11:57,980 --> 00:11:55,740

the moon itself was hidden - this felt

280

00:11:59,780 --> 00:11:57,990

strange as I was expecting to see the

281

00:12:01,790 --> 00:11:59,790

full moon which had peaked the previous

282

00:12:04,490 --> 00:12:01,800

day and there wasn't any rain in the

283

00:12:06,680 --> 00:12:04,500

weather forecast for that morning after

284

00:12:08,630 --> 00:12:06,690

approximately 15 minutes of walking I

285

00:12:11,720 --> 00:12:08,640

got to the park just before Stephen

286

00:12:15,890 --> 00:12:11,730

McLean school and there I saw white

287

00:12:18,110 --> 00:12:15,900

beams of light dancing in the sky these

288

00:12:20,140 --> 00:12:18,120

lights felt so close I looked around to

289

00:12:22,240 --> 00:12:20,150

find what was beaming light into the sky

290

00:12:24,890 --> 00:12:22,250

but I was completely alone

291

00:12:27,050 --> 00:12:24,900

these lights looked like someone had

292

00:12:30,230 --> 00:12:27,060

taken two dozen giant torch lights and

293

00:12:32,120 --> 00:12:30,240

beamed them into the sky and moved them

294

00:12:35,600 --> 00:12:32,130

then in different directions all the

295

00:12:37,280 --> 00:12:35,610

while making shapes with them the lights

296

00:12:39,610 --> 00:12:37,290

came from the east and went toward the

297

00:12:41,960 --> 00:12:39,620

West in a straight line and then

298

00:12:44,269 --> 00:12:41,970

triangular shapes and then they were

299

00:12:47,900 --> 00:12:44,279

going back and forth fizzing out and

300

00:12:50,300 --> 00:12:47,910

reappearing I kept on walking and after

301
00:12:52,610 --> 00:12:50,310
that initial display another set of

302
00:12:55,370 --> 00:12:52,620
lights in an arc like formation appeared

303
00:12:58,310 --> 00:12:55,380
and then that final set of lights there

304
00:13:00,500 --> 00:12:58,320
were five oval shapes numbers which

305
00:13:04,040 --> 00:13:00,510
appeared in pairs in the first flight

306
00:13:07,010 --> 00:13:04,050
itself was just so low as these lights

307
00:13:09,680 --> 00:13:07,020
moved away the pair's integrated

308
00:13:11,930 --> 00:13:09,690
together they look like wings but the

309
00:13:15,079 --> 00:13:11,940
standalone object stood by itself and

310
00:13:18,079 --> 00:13:15,089
then all of them simply fizzled away

311
00:13:20,900 --> 00:13:18,089
together altogether this happened for

312
00:13:22,120 --> 00:13:20,910
about five minutes in total Oh perhaps

313
00:13:24,880 --> 00:13:22,130

just Canadians

314

00:13:27,010 --> 00:13:24,890

womp gasps but wait there's more from

315

00:13:31,420 --> 00:13:27,020

Canada here's a sighting from Blackstock

316

00:13:33,700 --> 00:13:31,430

Ontario Canada MUFON case number 8 7201

317

00:13:36,550 --> 00:13:33,710

this sighting took place October 5th

318

00:13:40,240 --> 00:13:36,560

this year and was reported October 8th

319

00:13:43,690 --> 00:13:40,250

in summary red lights hovering near

320

00:13:46,870 --> 00:13:43,700

hydro towers that's an interesting fact

321

00:13:49,540 --> 00:13:46,880

there are photos all we can say is hikes

322

00:13:51,340 --> 00:13:49,550

wander over later to UFO headline news

323

00:13:54,730 --> 00:13:51,350

dot-com and check them out for

324

00:13:58,330 --> 00:13:54,740

yourselves the viewing distance here 101

325

00:14:00,370 --> 00:13:58,340

to 500 feet later 501 feet and

326

00:14:02,980 --> 00:14:00,380

eventually a viewing distance of one

327

00:14:05,440 --> 00:14:02,990

mile the altitude is described as

328

00:14:08,320 --> 00:14:05,450

treetop the sighting duration was 5

329

00:14:11,560 --> 00:14:08,330

minutes and this object seems to have

330

00:14:13,810 --> 00:14:11,570

featured a patterned surface the flight

331

00:14:16,090 --> 00:14:13,820

path was stationary hovering and then

332

00:14:18,430 --> 00:14:16,100

path and then a path with directional

333

00:14:21,190 --> 00:14:18,440

change the shape of this object

334

00:14:23,080 --> 00:14:21,200

boomerang maximum temperature at the

335

00:14:26,020 --> 00:14:23,090

time of this event was 82 degrees

336

00:14:29,230 --> 00:14:26,030

Fahrenheit 28 degrees Celsius a mean

337

00:14:32,200 --> 00:14:29,240

temperature of 66 degrees Fahrenheit 19

338

00:14:34,810 --> 00:14:32,210

degrees Celsius and the minimum was 51

339

00:14:37,690 --> 00:14:34,820

degrees Fahrenheit 11 degrees Celsius

340

00:14:39,460 --> 00:14:37,700

nothing remarkable about the conditions

341

00:14:41,290 --> 00:14:39,470

of the weather it does note there were

342

00:14:43,870 --> 00:14:41,300

two other sightings in or near

343

00:14:46,030 --> 00:14:43,880

Blackstock in this month we'll have to

344

00:14:48,040 --> 00:14:46,040

see if we can run those down but for

345

00:14:50,460 --> 00:14:48,050

right now let's just stick with the one

346

00:14:55,210 --> 00:14:50,470

in hand which goes something like this

347

00:14:58,240 --> 00:14:55,220

October 5th 2017 11:00 p.m. I was riding

348

00:15:01,630 --> 00:14:58,250

my motorcycle south on highway 57 at the

349

00:15:02,980 --> 00:15:01,640

9th concession hey girl

350

00:15:06,280 --> 00:15:02,990

have you done something new with your

351

00:15:09,660 --> 00:15:06,290

scales using new moisturizer nice it

352

00:15:13,420 --> 00:15:09,670

really brings out the haze in your eyes

353

00:15:16,870 --> 00:15:13,430

are using lightning strips to your fangs

354

00:15:19,450 --> 00:15:16,880

look good go really good a really

355

00:15:21,100 --> 00:15:19,460

charming snake charmer surprising what's

356

00:15:25,210 --> 00:15:21,110

not surprising how much you could save

357

00:15:27,940 --> 00:15:25,220

by switching to Geico have you been

358

00:15:30,910 --> 00:15:27,950

doing Pilates to Geico 15 minutes could

359

00:15:34,300 --> 00:15:30,920

save you 15% or more I spotted a red

360

00:15:35,890 --> 00:15:34,310

light flashing randomly hovering near

361

00:15:38,470 --> 00:15:35,900

the hydro towers

362

00:15:40,720 --> 00:15:38,480

in a field I also spotted another car

363

00:15:42,610 --> 00:15:40,730

that was pulled over I pulled over

364

00:15:45,790 --> 00:15:42,620

immediately and pulled out my camera

365

00:15:48,520 --> 00:15:45,800

that I always carry now due to the

366

00:15:52,000 --> 00:15:48,530

multiple sightings I've had upwards to

367

00:15:54,400 --> 00:15:52,010

50 and other people with at least 25 of

368

00:15:57,640 --> 00:15:54,410

them that I know of and this has been in

369

00:15:59,830 --> 00:15:57,650

the last three months I could only see

370

00:16:01,750 --> 00:15:59,840

one with my eyes it wasn't until I

371

00:16:04,980 --> 00:16:01,760

looked at the pictures that I realized

372

00:16:07,420 --> 00:16:04,990

there were up to five of these objects

373

00:16:09,520 --> 00:16:07,430

unfortunately I have to use screenshots

374

00:16:12,370 --> 00:16:09,530

from my phone for technical reasons as

375

00:16:15,820 --> 00:16:12,380

my broadband is horrible at the best of

376

00:16:18,400 --> 00:16:15,830

times I do have all the originals in one

377

00:16:20,290 --> 00:16:18,410

picture it's zoomed in it's off my

378

00:16:22,000 --> 00:16:20,300

computer using my cell phone just to get

379

00:16:24,880 --> 00:16:22,010

the image and there's another shot

380

00:16:26,500 --> 00:16:24,890

that's the daytime location take a look

381

00:16:29,100 --> 00:16:26,510

at those shots gentle listeners make

382

00:16:31,690 --> 00:16:29,110

your own decisions they're stunning

383

00:16:34,120 --> 00:16:31,700

drifting gently southward will hover

384

00:16:36,190 --> 00:16:34,130

over Washington the District of Columbia

385

00:16:39,580 --> 00:16:36,200

now we're back in the United States

386

00:16:42,810 --> 00:16:39,590

this is MUFON case number 87 1-3-1

387

00:16:47,590 --> 00:16:42,820

slightly older sighting the date is 9:30

388

00:16:50,200 --> 00:16:47,600

2017 nobody reported it till 10 for 2017

389

00:16:52,840 --> 00:16:50,210

here's the summary I was taking pictures

390

00:16:56,290 --> 00:16:52,850

of a jet when I noticed it wasn't alone

391

00:16:58,300 --> 00:16:56,300

in the frame yes there is a photo check

392

00:17:00,930 --> 00:16:58,310

it out later at UFO headline news

393

00:17:04,480 --> 00:17:00,940

dot-com viewing distance unknown

394

00:17:08,290 --> 00:17:04,490

altitude also unknown sighting duration

395

00:17:12,100 --> 00:17:08,300

five seconds object features none flight

396

00:17:13,690 --> 00:17:12,110

path unknown object shape circle just a

397

00:17:15,760 --> 00:17:13,700

thumbnail sketch of the District of

398

00:17:18,490 --> 00:17:15,770

Columbia weather at the time of this

399

00:17:21,490 --> 00:17:18,500

event maximum temperature or 70 degrees

400

00:17:24,340 --> 00:17:21,500

Fahrenheit 21 degrees Celsius minimum

401
00:17:27,430 --> 00:17:24,350
temperature 57 degrees Fahrenheit 14

402
00:17:29,620 --> 00:17:27,440
degrees Celsius nothing abnormal or

403
00:17:32,530 --> 00:17:29,630
unusual as far as weather conditions

404
00:17:35,500 --> 00:17:32,540
were concerned so here's how this went I

405
00:17:40,180 --> 00:17:35,510
was taking pictures last weekend with a

406
00:17:43,210 --> 00:17:40,190
Canon t1 I using a 55 to 250 millimeter

407
00:17:46,900 --> 00:17:43,220
zoom lens when I noticed a passenger jet

408
00:17:48,730 --> 00:17:46,910
flying by the sky was blue the jet was

409
00:17:49,750 --> 00:17:48,740
the only thing in the sky so I snapped

410
00:17:52,120 --> 00:17:49,760
two pictures

411
00:17:54,580 --> 00:17:52,130
it was too far away to see any sort of

412
00:17:56,500 --> 00:17:54,590
detail but I took two pictures mainly

413
00:17:58,630 --> 00:17:56,510

because I use my camera in manual mode

414

00:18:02,140 --> 00:17:58,640

and I like to work out settings such as

415

00:18:04,810 --> 00:18:02,150

ISO aperture shutter speed etc on my own

416

00:18:07,230 --> 00:18:04,820

I also tend to take pictures in RAW

417

00:18:11,350 --> 00:18:07,240

format which possesses more unusual

418

00:18:13,480 --> 00:18:11,360

information than a jpg in any case when

419

00:18:16,600 --> 00:18:13,490

I zoomed into the photo to get a better

420

00:18:18,880 --> 00:18:16,610

look at the jet I noticed an object that

421

00:18:21,760 --> 00:18:18,890

appears to be metallic in close

422

00:18:23,740 --> 00:18:21,770

proximity to the plane I should mention

423

00:18:26,140 --> 00:18:23,750

I have no way to tell their approximate

424

00:18:28,690 --> 00:18:26,150

positions relative to each other but

425

00:18:31,000 --> 00:18:28,700

this object clearly looks metallic in

426

00:18:34,150 --> 00:18:31,010

fact it looks more metallic than the

427

00:18:36,640 --> 00:18:34,160

airplane does I have no idea what it is

428

00:18:38,620 --> 00:18:36,650

although I do know it isn't a smudge on

429

00:18:40,810 --> 00:18:38,630

the lens I've been using this camera

430

00:18:43,600 --> 00:18:40,820

regularly for a week or two and I

431

00:18:46,330 --> 00:18:43,610

occasionally clean it and unlikely to be

432

00:18:49,120 --> 00:18:46,340

some sort of photographic artifact then

433

00:18:51,640 --> 00:18:49,130

again it's very small relatively

434

00:18:53,560 --> 00:18:51,650

speaking and we so get this gentle

435

00:18:55,060 --> 00:18:53,570

listeners don't you if this photo is

436

00:18:58,090 --> 00:18:55,070

used for any purpose I would appreciate

437

00:18:59,380 --> 00:18:58,100

being credited for it ah yes credit

438

00:19:02,350 --> 00:18:59,390

where credit is due

439

00:19:04,060 --> 00:19:02,360

here's an amusing sighting from Colfax

440

00:19:06,580 --> 00:19:04,070

in the state of Washington

441

00:19:10,420 --> 00:19:06,590

it carries them MUFON identification

442

00:19:14,050 --> 00:19:10,430

tracking number of 87 to 1/8 the date of

443

00:19:17,470 --> 00:19:14,060

the sighting 10 8 2017 same day report

444

00:19:20,380 --> 00:19:17,480

here's the summary bright Orbis lights

445

00:19:23,980 --> 00:19:20,390

very vivid in broad daylight no clouds

446

00:19:27,760 --> 00:19:23,990

they disappeared sighting specifics

447

00:19:31,000 --> 00:19:27,770

viewing distance 501 feet to 1 mile and

448

00:19:33,930 --> 00:19:31,010

then eventually over 1 mile the altitude

449

00:19:37,450 --> 00:19:33,940

over 500 feet nope no cloud cover

450

00:19:40,150 --> 00:19:37,460

sighting duration 15 minutes but the

451
00:19:42,640 --> 00:19:40,160
object features alas are simply reported

452
00:19:45,130 --> 00:19:42,650
as none the flight path path with

453
00:19:47,680 --> 00:19:45,140
directional change and this object is

454
00:19:49,900 --> 00:19:47,690
said to have been shaped like a blimp no

455
00:19:52,660 --> 00:19:49,910
clues about the weather no notation

456
00:19:55,360 --> 00:19:52,670
whatsoever here we go with the account

457
00:19:57,970 --> 00:19:55,370
me and my bandmates were driving home to

458
00:20:02,080 --> 00:19:57,980
Spokane from Moscow Idaho we were on

459
00:20:03,700 --> 00:20:02,090
highway US 195 the whole drives lots of

460
00:20:06,610 --> 00:20:03,710
farmland fields

461
00:20:08,799 --> 00:20:06,620
there was no cloud cover just a very low

462
00:20:12,070 --> 00:20:08,809
bunch of clouds on the horizon and that

463
00:20:14,830 --> 00:20:12,080

was very small my bandmate and cousin in

464

00:20:16,870 --> 00:20:14,840

the front seat noticed a light that was

465

00:20:19,600 --> 00:20:16,880

very bright because it was daytime

466

00:20:22,060 --> 00:20:19,610

my cousin well she thought this was a

467

00:20:25,419 --> 00:20:22,070

plane when she pointed it out but I

468

00:20:28,210 --> 00:20:25,429

assured her it wasn't I've had UFO

469

00:20:30,490 --> 00:20:28,220

encounters a few times and I'm always

470

00:20:33,399 --> 00:20:30,500

extremely frightened now when I see one

471

00:20:36,090 --> 00:20:33,409

today was no different after noticing

472

00:20:39,250 --> 00:20:36,100

the first object we noticed the second

473

00:20:42,039 --> 00:20:39,260

this second one shot straight up into

474

00:20:44,260 --> 00:20:42,049

the air and then the first one vanished

475

00:20:47,380 --> 00:20:44,270

for a while but reappeared this time

476
00:20:50,260 --> 00:20:47,390
lower on the horizon these objects moved

477
00:20:52,180 --> 00:20:50,270
very fast in fact my cousin tried taking

478
00:20:55,090 --> 00:20:52,190
a picture but it was too bright outside

479
00:20:58,480 --> 00:20:55,100
to capture it the light then disappeared

480
00:21:01,539 --> 00:20:58,490
again both lights moments later we

481
00:21:05,019 --> 00:21:01,549
watched as a black military helicopter

482
00:21:07,600 --> 00:21:05,029
began combing the sky the sky area that

483
00:21:12,279 --> 00:21:07,610
the object had been in it's been quite

484
00:21:15,610 --> 00:21:12,289
the wild roadtrip Oh indeed band road

485
00:21:18,549 --> 00:21:15,620
trip things in the sky so cinematic but

486
00:21:20,080 --> 00:21:18,559
we can't stay to watch that movie we've

487
00:21:23,529 --> 00:21:20,090
looked at the clocks on the wall they

488
00:21:25,450 --> 00:21:23,539

all indicate we gotta go because that's

489

00:21:27,850 --> 00:21:25,460

a wrap thank you for listening to

490

00:21:30,789 --> 00:21:27,860

inception Radio Network hello today's

491

00:21:33,250 --> 00:21:30,799

broadcast at UFO headline news calm or I

492

00:21:35,769 --> 00:21:33,260

Heart Radio take care of each other

493

00:21:37,360 --> 00:21:35,779

we're all in this together this is

494

00:21:41,710 --> 00:21:37,370

Carole Cara see you tomorrow

495

00:21:44,049 --> 00:21:41,720

I just saved hundreds of dollars by

496

00:21:46,659 --> 00:21:44,059

switching to Geico I've never felt more

497

00:21:48,279 --> 00:21:46,669

alive disclaimer Geico cannot guarantee

498

00:21:49,539 --> 00:21:48,289

you will feel more alive you I too

499

00:21:51,430 --> 00:21:49,549

possess functioning respiratory and

500

00:21:52,870 --> 00:21:51,440

circulatory systems or you do not or you

501
00:21:54,190 --> 00:21:52,880
are a zombie if you are indeed a brain

502
00:21:55,120 --> 00:21:54,200
starves on me and you would like to save

503
00:21:56,350 --> 00:21:55,130
money on car insurance

504
00:21:57,789 --> 00:21:56,360
the Geico legal team applaud your

505
00:21:59,350 --> 00:21:57,799
excellent life choices even in your

506
00:22:00,970 --> 00:21:59,360
shambling afterlife but we strongly

507
00:22:02,289 --> 00:22:00,980
encourage you to visit Geico calm or

508
00:22:03,760 --> 00:22:02,299
download the Geico app please stay a

509
00:22:05,409 --> 00:22:03,770
minimum of 500 feet away from our large

510
00:22:08,049 --> 00:22:05,419
and presumably delicious delicious
