1
00:00:05,630 --> 00:00:03,379
Tuesday October 10 2017 you are

2
00:00:08,270 --> 00:00:05,640
listening to Inception Radio Network

3
00:00:12,879 --> 00:00:08,280
voice of the fringe majority this is

4
00:00:16,160 --> 00:00:12,889
Carol Karl with UFO headline news and

5
00:00:18,980 --> 00:00:16,170
here's the headline from Earth Sky org

6
00:00:21,529 --> 00:00:18,990
for tonight summer triangle and the

7
00:00:24,740 --> 00:00:21,539
Galactic plane yep you heard that

8
00:00:27,080 --> 00:00:24,750
correctly summer triangle we know it's

9
00:00:29,300 --> 00:00:27,090
almost Halloween but this is the name

10
00:00:31,370 --> 00:00:29,310
for that asterism that collection of

11
00:00:33,799 --> 00:00:31,380
stars that isn't quite officially

12
00:00:37,459 --> 00:00:33,809
meeting the criteria of a constellation

13
00:00:39,139 --> 00:00:37,469

it's an asterism so tonight we can use

14

00:00:42,530 --> 00:00:39,149

the summer triangle and the

15

00:00:44,990 --> 00:00:42,540

constellation Cygnus the Swan that is an

16

00:00:48,470 --> 00:00:45,000

official constellation and we can locate

17

00:00:51,500 --> 00:00:48,480

the skies Galactic equator who knew and

18

00:00:54,920 --> 00:00:51,510

then project outward to the plane or the

19

00:00:56,990 --> 00:00:54,930

flat disk of our Milky Way galaxy these

20

00:00:59,630 --> 00:00:57,000

three brilliant stars that make up the

21

00:01:02,599 --> 00:00:59,640

summer triangle shine even though it is

22

00:01:05,240 --> 00:01:02,609

autumn and you'll find them shining in

23

00:01:07,550 --> 00:01:05,250

the sky high up in the October evenings

24

00:01:09,830 --> 00:01:07,560

Bruce McClure who writes this for earth

25

00:01:12,109 --> 00:01:09,840

sky suggests viewing the scene quote

26

00:01:13,850 --> 00:01:12,119

from the comfort of a reclining lawn

27

00:01:16,940 --> 00:01:13,860

chair point your feet

28

00:01:19,520 --> 00:01:16,950

southward end quotes as seen from mid

29

00:01:22,429 --> 00:01:19,530

northern latitudes the Stars Deneb and

30

00:01:25,340 --> 00:01:22,439

Vega hang high overhead at nightfall and

31

00:01:27,859 --> 00:01:25,350

early evening Vega the brightest summer

32

00:01:30,380 --> 00:01:27,869

triangle star shines to the west or to

33

00:01:32,630 --> 00:01:30,390

the right of Deneb and then there's

34

00:01:35,120 --> 00:01:32,640

Altair the second brightest found

35

00:01:37,730 --> 00:01:35,130

roughly halfway between your southern

36

00:01:40,399 --> 00:01:37,740

horizon and straight over your heads as

37

00:01:42,980 --> 00:01:40,409

evening deepens look for a modestly

38

00:01:45,830 --> 00:01:42,990

bright star to pop out between Altair

39

00:01:48,410 --> 00:01:45,840

and Vega and that's al bouri o which

40

00:01:51,590 --> 00:01:48,420

depicts the eye of the Swan or the beak

41

00:01:54,200 --> 00:01:51,600

the line from Alba Rio to Deneb shows

42

00:01:56,929 --> 00:01:54,210

you the underside of the Swans body from

43

00:01:59,510 --> 00:01:56,939

head to tail three stars across the body

44

00:02:03,050 --> 00:01:59,520

near Deneb formed what's known as the

45

00:02:05,539 --> 00:02:03,060

northern cross the one star farther on

46

00:02:07,999 --> 00:02:05,549

each side of the northern cross and yep

47

00:02:11,930 --> 00:02:08,009

you've described the wings of Cygnus the

48

00:02:13,100 --> 00:02:11,940

Swan extend the line from albirroja

49

00:02:15,680 --> 00:02:13,110

Deneb in either

50

00:02:18,760 --> 00:02:15,690

correction and your soaring along that

51
00:02:21,740 --> 00:02:18,770
Galactic equator or Galactic plane

52
00:02:25,100 --> 00:02:21,750
through binoculars you'll see the star

53
00:02:28,250 --> 00:02:25,110
cloud star clusters nebula they abound

54
00:02:30,980 --> 00:02:28,260
on this great galactic Boulevard locate

55
00:02:31,820 --> 00:02:30,990
the summer triangle first then the star

56
00:02:33,830 --> 00:02:31,830
Albireo

57
00:02:36,290 --> 00:02:33,840
and then you've got what it takes to

58
00:02:39,650 --> 00:02:36,300
find the glowing band of stars that we

59
00:02:42,230 --> 00:02:39,660
call the Milky Way so here's the bottom

60
00:02:45,110 --> 00:02:42,240
line you can use the summer triangle and

61
00:02:48,110 --> 00:02:45,120
the constellation Cygnus the Swan to

62
00:02:51,860 --> 00:02:48,120
locate the edgewise disk of our Milky

63
00:02:53,750 --> 00:02:51,870

Way galaxy all that beauty we've got a

64

00:02:54,979 --> 00:02:53,760

lot of sadness with our beauty in

65

00:02:58,220 --> 00:02:54,989

Northern California

66

00:03:01,310 --> 00:02:58,230

lots of fires 15,000 homes lost so far

67

00:03:03,620 --> 00:03:01,320

Santa Rosa has been hit and yes that is

68

00:03:05,600 --> 00:03:03,630

the heart of the wine industry for

69

00:03:08,030 --> 00:03:05,610

California but it's more than that it's

70

00:03:11,470 --> 00:03:08,040

people's homes and meanwhile Puerto Rico

71

00:03:13,790 --> 00:03:11,480

is struggling so thoughts lots of energy

72

00:03:15,560 --> 00:03:13,800

definitely prayers we hope you're

73

00:03:18,890 --> 00:03:15,570

joining us gentle listeners we know you

74

00:03:22,370 --> 00:03:18,900

are here's something headline the moon

75

00:03:25,340 --> 00:03:22,380

may have had an atmosphere for 70

76

00:03:27,880 --> 00:03:25,350

million years we found this story in

77

00:03:32,390 --> 00:03:27,890

Newsweek written by Janice Adele's Oh

78

00:03:34,729 --> 00:03:32,400

blue sky on moon not likely but

79

00:03:36,920 --> 00:03:34,739

scientists re-examining old rocks

80

00:03:39,080 --> 00:03:36,930

brought from the Apollo missions now

81

00:03:42,229 --> 00:03:39,090

believe that our orbiting satellite may

82

00:03:43,910 --> 00:03:42,239

once have had a thick atmosphere the

83

00:03:46,850 --> 00:03:43,920

research published in the journal Earth

84

00:03:49,100 --> 00:03:46,860

and Planetary Science Letters reveals

85

00:03:51,710 --> 00:03:49,110

that ancient volcanoes from about 4

86

00:03:54,500 --> 00:03:51,720

billion years ago may have created an

87

00:03:57,080 --> 00:03:54,510

atmosphere that lasted for about 70

88

00:03:59,780 --> 00:03:57,090

million years before eventually fading

89

00:04:02,150 --> 00:03:59,790

away the scientists from the lunar and

90

00:04:04,250 --> 00:04:02,160

planetary Institute found that the

91

00:04:07,310 --> 00:04:04,260

volcanic samples quote carried gas

92

00:04:09,890 --> 00:04:07,320

components such as carbon monoxide the

93

00:04:13,280 --> 00:04:09,900

ingredients from water sulfur and other

94

00:04:15,350 --> 00:04:13,290

volatile species and cups researchers

95

00:04:17,930 --> 00:04:15,360

used calculations to figure out how much

96

00:04:20,090 --> 00:04:17,940

gas rose from the volcanoes lava in

97

00:04:22,370 --> 00:04:20,100

order to form that atmosphere they

98

00:04:24,680 --> 00:04:22,380

discovered the atmosphere was at its

99

00:04:27,110 --> 00:04:24,690

thickest somewhere between three to four

100

00:04:29,120 --> 00:04:27,120

billion years ago quote

101

00:04:31,969 --> 00:04:29,130

this work dramatically changes our view

102

00:04:34,700 --> 00:04:31,979

of the moon from an airless rocky body

103

00:04:37,250 --> 00:04:34,710

to one that used to be surrounded by an

104

00:04:39,409 --> 00:04:37,260

atmosphere an atmosphere more prevalent

105

00:04:41,629 --> 00:04:39,419

than that surrounding Mars today end

106

00:04:44,240 --> 00:04:41,639

quotes and that's from study author dr.

107

00:04:46,939 --> 00:04:44,250

David Crane he works with the lunar and

108

00:04:48,680 --> 00:04:46,949

planetary Institute Kremes findings

109

00:04:51,140 --> 00:04:48,690

which came with help from NASA research

110

00:04:53,510 --> 00:04:51,150

scientist dr. Deborah Needham may have

111

00:04:56,450 --> 00:04:53,520

important applications for future lunar

112

00:04:58,790 --> 00:04:56,460

missions the research quote quantifies a

113

00:05:01,390 --> 00:04:58,800

source of volatiles that may have been

114

00:05:03,980 --> 00:05:01,400

trapped from the atmosphere into cold

115

00:05:06,439 --> 00:05:03,990

permanently shadowed regions near the

116

00:05:09,379 --> 00:05:06,449

lunar poles and thus may provide a

117

00:05:11,629 --> 00:05:09,389

source of ice suitable for a sustained

118

00:05:13,670 --> 00:05:11,639

lunar exploration program and quotes

119

00:05:16,520 --> 00:05:13,680

that's what the statement says on

120

00:05:18,439 --> 00:05:16,530

Thursday the Trump administration spoke

121

00:05:20,779 --> 00:05:18,449

about the desire to send astronauts back

122

00:05:22,310 --> 00:05:20,789

to the moon and there's a long quote by

123

00:05:24,650 --> 00:05:22,320

mike pence if you're really interested

124

00:05:27,950 --> 00:05:24,660

you can find it later at UFO headline

125

00:05:30,650 --> 00:05:27,960

news calm there's no definitive plan of

126

00:05:32,719 --> 00:05:30,660

when this will happen but it may be

127

00:05:36,020 --> 00:05:32,729

sooner than you think at least one

128

00:05:38,960 --> 00:05:36,030

scientist believes that by 2030 some

129

00:05:40,730 --> 00:05:38,970

people will call the moon home and

130

00:05:42,890 --> 00:05:40,740

here's what may go down in this

131

00:05:46,190 --> 00:05:42,900

broadcasters opinion as somewhat of an

132

00:05:48,190 --> 00:05:46,200

historic quote by Bernard thawing he's a

133

00:05:51,740 --> 00:05:48,200

scientist at the European Space Agency

134

00:05:54,650 --> 00:05:51,750

quote there may be the possibility to

135

00:05:58,279 --> 00:05:54,660

have children born on the moon and

136

00:06:01,400 --> 00:05:58,289

quotes Oh a lunar birthday party how

137

00:06:04,370 --> 00:06:01,410

amazing would that be from the moon it's

138

00:06:07,430 --> 00:06:04,380

just a foosh and a zoom down to Florida

139

00:06:07,820 --> 00:06:07,440

the city of Panama City Beach so let's

140

00:06:10,750 --> 00:06:07,830

do it

141

00:06:13,339 --> 00:06:10,760

it's a UFO stalker calm sighting event

142

00:06:15,170 --> 00:06:13,349

MUFON has issued this event a case

143

00:06:17,900 --> 00:06:15,180

number they do that so that they can

144

00:06:20,779 --> 00:06:17,910

hopefully track down find out identify

145

00:06:22,900 --> 00:06:20,789

more about what was seen in this case

146

00:06:25,610 --> 00:06:22,910

the number is eight seven two one zero

147

00:06:29,089 --> 00:06:25,620

the date of this sighting is ten six

148

00:06:32,089 --> 00:06:29,099

2017 it was reported ten eight twenty

149

00:06:35,420 --> 00:06:32,099

seventeen in summary the witness says

150

00:06:38,690 --> 00:06:35,430

noticed object in photo noticed two days

151
00:06:40,760 --> 00:06:38,700
after image taken yep there is that

152
00:06:43,400 --> 00:06:40,770
image available by link later

153
00:06:45,980 --> 00:06:43,410
at UFO headline news comm wander over

154
00:06:48,620 --> 00:06:45,990
take a look for yourselves put your eyes

155
00:06:51,920 --> 00:06:48,630
to the test the sighting specifics

156
00:06:54,830 --> 00:06:51,930
viewing distance unknown altitude also

157
00:06:57,950 --> 00:06:54,840
unknown the object features are

158
00:07:00,740 --> 00:06:57,960
described as dome and wings the objects

159
00:07:03,379 --> 00:07:00,750
flight path is listed as unknown its

160
00:07:05,689 --> 00:07:03,389
shape is listed as saturn-like and boy

161
00:07:09,140 --> 00:07:05,699
does this broadcaster concur with that

162
00:07:11,180 --> 00:07:09,150
saturn-like indeed here's the weather at

163
00:07:13,070 --> 00:07:11,190

the time of this event maximum

164

00:07:16,219 --> 00:07:13,080

temperature over Panama City Beach

165

00:07:19,010 --> 00:07:16,229

Florida 88 degrees Fahrenheit 31 degrees

166

00:07:22,089 --> 00:07:19,020

Celsius the minimum temperature 70

167

00:07:25,159 --> 00:07:22,099

degrees Fahrenheit 21 degrees Celsius

168

00:07:27,320 --> 00:07:25,169

maximum visibility 10 miles 16

169

00:07:30,140 --> 00:07:27,330

kilometers and that was also the reading

170

00:07:33,050 --> 00:07:30,150

for the mean visibility and the minimum

171

00:07:35,480 --> 00:07:33,060

it's log that there were no abnormal

172

00:07:38,659 --> 00:07:35,490

weather conditions at the time let's

173

00:07:41,659 --> 00:07:38,669

read at the time I took this photo

174

00:07:44,300 --> 00:07:41,669

approximately 647 p.m. the times

175

00:07:46,490 --> 00:07:44,310

recorded on my cell phone I simply

176
00:07:48,589 --> 00:07:46,500
wanted to grab a photo of the full moon

177
00:07:51,649 --> 00:07:48,599
a few minutes before it set over the

178
00:07:53,570 --> 00:07:51,659
Gulf of Mexico this image was taken from

179
00:07:55,010 --> 00:07:53,580
the second-floor balcony of the hotel

180
00:07:57,740 --> 00:07:55,020
room where my sister and I were staying

181
00:08:00,740 --> 00:07:57,750
for a few days the balcony overlooks the

182
00:08:05,270 --> 00:08:00,750
beach I framed this view made the image

183
00:08:08,089 --> 00:08:05,280
at no time did I or my sister see or

184
00:08:10,850 --> 00:08:08,099
were we aware of this object or any

185
00:08:12,890 --> 00:08:10,860
other object in our field of view we

186
00:08:15,980 --> 00:08:12,900
heard no sound other than that of the

187
00:08:18,020 --> 00:08:15,990
surf and while I've checked objects in

188
00:08:20,240 --> 00:08:18,030

the reports the questionnaire over

189

00:08:23,409 --> 00:08:20,250

observed the following section I really

190

00:08:26,990 --> 00:08:23,419

didn't observe anything just the moment

191

00:08:28,459 --> 00:08:27,000

two days later after returning home I

192

00:08:30,800 --> 00:08:28,469

was reviewing the images I had made

193

00:08:33,290 --> 00:08:30,810

during my vacation using my husband's

194

00:08:36,290 --> 00:08:33,300

computer to do so when I got to this

195

00:08:37,850 --> 00:08:36,300

image I was surprised to see the dark

196

00:08:40,430 --> 00:08:37,860

object in the sky

197

00:08:43,579 --> 00:08:40,440

so I enlarge the image to view it better

198

00:08:45,319 --> 00:08:43,589

but I still couldn't identify it all of

199

00:08:47,510 --> 00:08:45,329

the items I checked on the questionnaire

200

00:08:50,180 --> 00:08:47,520

form are based on what I see in the

201
00:08:52,370 --> 00:08:50,190
image as I captured it I attest to the

202
00:08:54,130 --> 00:08:52,380
fact that this image has not been added

203
00:08:56,950 --> 00:08:54,140
to the scene not manipulated

204
00:08:59,440 --> 00:08:56,960
in any way I wish I had more information

205
00:09:01,930 --> 00:08:59,450
for you but at the time I was unaware

206
00:09:04,090 --> 00:09:01,940
that this object was present in the

207
00:09:06,610 --> 00:09:04,100
cameras field of view so I can't really

208
00:09:09,190 --> 00:09:06,620
offer any description of it other than

209
00:09:12,510 --> 00:09:09,200
the photo itself where the object came

210
00:09:15,070 --> 00:09:12,520
from or where it went is unknown to us

211
00:09:17,350 --> 00:09:15,080
hopefully someone else visiting this

212
00:09:20,560 --> 00:09:17,360
area at the time also captured that

213
00:09:22,900 --> 00:09:20,570

image all I have is the attached image

214

00:09:25,420 --> 00:09:22,910

it MUFON teams it worthy to disseminate

215

00:09:27,580 --> 00:09:25,430

I would like attribution while I agree

216

00:09:31,780 --> 00:09:27,590

you may use this image I retain all

217

00:09:34,960 --> 00:09:31,790

intellectual property rights well do we

218

00:09:37,210 --> 00:09:34,970

sense a trending now in wanting to hold

219

00:09:39,940 --> 00:09:37,220

on to one's rights of extraordinary

220

00:09:42,640 --> 00:09:39,950

photos and we totally understand

221

00:09:45,340 --> 00:09:42,650

to us this photo looks completely legit

222

00:09:48,610 --> 00:09:45,350

head on over later to UFO headline news

223

00:09:50,170 --> 00:09:48,620

calm and make your own decision from

224

00:09:53,440 --> 00:09:50,180

Florida that's head a little bit north

225

00:09:54,370 --> 00:09:53,450

now to Lost Creek West Virginia that

226

00:09:58,690 --> 00:09:54,380

sounds intriguing

227

00:10:01,660 --> 00:09:58,700

it's MUFON case number 8 7 2 3 9 date of

228

00:10:05,650 --> 00:10:01,670

this sighting was October 10th 2017 it

229

00:10:09,250 --> 00:10:05,660

was reported October 9th 2017 summary I

230

00:10:12,490 --> 00:10:09,260

saw it at a distance and as I stared at

231

00:10:15,550 --> 00:10:12,500

it it appeared to come closer more

232

00:10:18,330 --> 00:10:15,560

intrigue inciting specifics a viewing

233

00:10:21,580 --> 00:10:18,340

distance very close 20 feet or less

234

00:10:24,910 --> 00:10:21,590

altitude treetop sighting duration 8

235

00:10:28,000 --> 00:10:24,920

minutes object features though are still

236

00:10:30,820 --> 00:10:28,010

reported as none the flight path path

237

00:10:32,470 --> 00:10:30,830

then hovering and for the second time

238

00:10:35,650 --> 00:10:32,480

this week we have an object shape

239

00:10:37,510 --> 00:10:35,660

described as boomerang if you'd been

240

00:10:39,580 --> 00:10:37,520

there at the time of this event you

241

00:10:42,670 --> 00:10:39,590

would have been experiencing a maximum

242

00:10:45,100 --> 00:10:42,680

temperature of 81 degrees Fahrenheit 27

243

00:10:48,370 --> 00:10:45,110

degrees Celsius a minimum temperature of

244

00:10:50,980 --> 00:10:48,380

a rather chilly 41 degrees Fahrenheit 5

245

00:10:54,550 --> 00:10:50,990

degrees Celsius the maximum visibility

246

00:10:56,770 --> 00:10:54,560

was 10 miles 16 kilometers dropping down

247

00:10:59,190 --> 00:10:56,780

to an unlisted minimum because the

248

00:11:02,620 --> 00:10:59,200

conditions reported were foggy

249

00:11:06,070 --> 00:11:02,630

so we're foggy in lost Creek West

250

00:11:07,170 --> 00:11:06,080

Virginia where our witness says I saw it

251
00:11:09,690 --> 00:11:07,180
at a distance

252
00:11:12,570 --> 00:11:09,700
and as I stared at it it appeared to

253
00:11:15,210 --> 00:11:12,580
come closer it was mostly just a large

254
00:11:16,770 --> 00:11:15,220
light it only came to my attention

255
00:11:20,070 --> 00:11:16,780
because I was talking on my ham radio

256
00:11:22,620 --> 00:11:20,080
and I started getting some type of loud

257
00:11:24,840 --> 00:11:22,630
static now this was very upsetting

258
00:11:27,570 --> 00:11:24,850
because I had just found a female human

259
00:11:30,090 --> 00:11:27,580
on the radio to talk to so I walked

260
00:11:32,310 --> 00:11:30,100
outside to smoke a quick joint I could

261
00:11:34,200 --> 00:11:32,320
not tell much about the object because

262
00:11:36,240 --> 00:11:34,210
the lights were so bright I couldn't

263
00:11:38,970 --> 00:11:36,250

make out much of a shape till later when

264

00:11:41,790 --> 00:11:38,980

the object was leaving I noticed that my

265

00:11:44,280 --> 00:11:41,800

cat who's called snot would not look

266

00:11:46,860 --> 00:11:44,290

away from the object after the object

267

00:11:49,350 --> 00:11:46,870

left I started walking with a limp and

268

00:11:52,500 --> 00:11:49,360

my cat seems to have some serious kind

269

00:11:54,150 --> 00:11:52,510

of eye infection I only saw this for a

270

00:11:57,030 --> 00:11:54,160

couple of seconds but when I sat down on

271

00:11:58,950 --> 00:11:57,040

the couch I realized I must have fallen

272

00:12:01,020 --> 00:11:58,960

asleep because suddenly I was hearing

273

00:12:03,840 --> 00:12:01,030

the Morning News and the Sun was coming

274

00:12:06,660 --> 00:12:03,850

up I'm very confused about the timeline

275

00:12:09,500 --> 00:12:06,670

of the events I would like someone to

276

00:12:12,360 --> 00:12:09,510

contact me to discuss this further oh

277

00:12:15,060 --> 00:12:12,370

well we're holding any judgement in

278

00:12:18,240 --> 00:12:15,070

check it's just that clear-headedness in

279

00:12:20,340 --> 00:12:18,250

a foggy condition might have helped a

280

00:12:22,650 --> 00:12:20,350

little bit maybe we should just file

281

00:12:25,440 --> 00:12:22,660

this one away under the Ballad of mr.

282

00:12:28,050 --> 00:12:25,450

limp and snots the cat oh here's a

283

00:12:31,320 --> 00:12:28,060

sighting from Quaker town just in time

284

00:12:33,510 --> 00:12:31,330

Quaker town the city in Pennsylvania its

285

00:12:36,210 --> 00:12:33,520

MUFON case number eight seven two four

286

00:12:40,620 --> 00:12:36,220

five this sighting took place October 8

287

00:12:43,910 --> 00:12:40,630

2017 it was reported October 9th 2017

288

00:12:49,620 --> 00:12:43,920

and here's the summary observed three

289

00:12:51,510 --> 00:12:49,630

UFOs triangulating with orb activity the

290

00:12:55,110 --> 00:12:51,520

sighting specifics tell us the viewing

291

00:12:58,170 --> 00:12:55,120

distance here was 101 to 500 feet the

292

00:13:01,350 --> 00:12:58,180

altitude 500 feet or less this sighting

293

00:13:04,530 --> 00:13:01,360

duration was 5 hours according to this

294

00:13:06,900 --> 00:13:04,540

report the object features other the

295

00:13:09,870 --> 00:13:06,910

flight path stationary object shape

296

00:13:12,900 --> 00:13:09,880

diamund meteorology didn't seem to be an

297

00:13:15,480 --> 00:13:12,910

indicator here maximum temperature 77

298

00:13:18,450 --> 00:13:15,490

degrees Fahrenheit 25 degrees Celsius

299

00:13:20,500 --> 00:13:18,460

the visibility factors were not unusual

300

00:13:22,930 --> 00:13:20,510

10 miles 16 kilometer

301
00:13:25,270 --> 00:13:22,940
was the maximum the minimum two miles

302
00:13:28,030 --> 00:13:25,280
and three kilometers in other words

303
00:13:30,640 --> 00:13:28,040
absolutely nothing abnormal here

304
00:13:32,920 --> 00:13:30,650
weather-wise here is the sighting

305
00:13:36,700 --> 00:13:32,930
account in the first person raw unedited

306
00:13:40,390 --> 00:13:36,710
words of our witness here is my account

307
00:13:42,940 --> 00:13:40,400
of many unidentified objects myself my

308
00:13:45,700 --> 00:13:42,950
girlfriend's father and I experienced

309
00:13:49,720 --> 00:13:45,710
last night in Quakertown in the morning

310
00:13:51,970 --> 00:13:49,730
in the hours of 10 8 17 I did not keep

311
00:13:55,030 --> 00:13:51,980
an accurate track of time when it all

312
00:13:57,040 --> 00:13:55,040
started I went to bed at 7:30 a.m. when

313
00:14:00,970 --> 00:13:57,050

it started to get light and there wasn't

314

00:14:04,120 --> 00:14:00,980

anything visible imagine standing on the

315

00:14:06,160 --> 00:14:04,130

50-yard line of a football field you are

316

00:14:08,590 --> 00:14:06,170

standing with a camera in the neutral

317

00:14:11,080 --> 00:14:08,600

zone above the center you are to record

318

00:14:12,790 --> 00:14:11,090

the play as it happens around you you

319

00:14:13,780 --> 00:14:12,800

can't because you're standing in the

320

00:14:17,020 --> 00:14:13,790

middle of it

321

00:14:19,960 --> 00:14:17,030

I have great video of this event but the

322

00:14:21,850 --> 00:14:19,970

totality of how massive it was cannot be

323

00:14:24,220 --> 00:14:21,860

captured because everything was

324

00:14:27,160 --> 00:14:24,230

happening around us we were in the

325

00:14:29,080 --> 00:14:27,170

center of it all also if you've ever

326

00:14:32,350 --> 00:14:29,090

tried to record a full moon it looks

327

00:14:34,990 --> 00:14:32,360

like a very small light so realize the

328

00:14:36,790 --> 00:14:35,000

video that I have does not even begin to

329

00:14:40,330 --> 00:14:36,800

capture the colors they were much more

330

00:14:43,150 --> 00:14:40,340

clear and pure at first hand the trees

331

00:14:45,730 --> 00:14:43,160

in this campground are very tall I would

332

00:14:47,320 --> 00:14:45,740

guess 100 feet my girlfriend and her

333

00:14:49,990 --> 00:14:47,330

father and I did not figure out the

334

00:14:53,110 --> 00:14:50,000

totality of everything around until

335

00:14:55,120 --> 00:14:53,120

probably an hour into the event my

336

00:14:57,400 --> 00:14:55,130

girlfriend and her father and I were

337

00:14:58,930 --> 00:14:57,410

sitting around the campfire we were all

338

00:15:00,460 --> 00:14:58,940

facing the same door I just saved

339

00:15:04,030 --> 00:15:00,470

hundreds of dollars by switching to

340

00:15:05,680 --> 00:15:04,040

Geico I'm so happy I feel like I can fly

341

00:15:07,240 --> 00:15:05,690

disclaimer you will not be able to fly

342

00:15:08,560 --> 00:15:07,250

by switching to Geico this is against

343

00:15:09,640 --> 00:15:08,570

the laws of physics and nature if you

344

00:15:10,780 --> 00:15:09,650

find yourself flying please seek

345

00:15:12,250 --> 00:15:10,790

professional and/or medical help

346

00:15:13,630 --> 00:15:12,260

immediately in the unlikely event you

347

00:15:15,400 --> 00:15:13,640

find yourself lying you might be a

348

00:15:17,200 --> 00:15:15,410

superhero or a pigeon or a superhero

349

00:15:18,640 --> 00:15:17,210

named pigs woman who was bitten by a

350

00:15:20,500 --> 00:15:18,650

radioactive pigeon if you are indeed

351

00:15:21,610 --> 00:15:20,510

woman keiko retains all licensing

352

00:15:23,110 --> 00:15:21,620

publishing rights in the event pigs

353

00:15:25,210 --> 00:15:23,120

woman the movie becomes a top grossing

354

00:15:29,530 --> 00:15:25,220

Hollywood blockbuster Geico 15 minutes

355

00:15:31,300 --> 00:15:29,540

could save you 15% or more fraction it

356

00:15:34,480 --> 00:15:31,310

was a humid night there wasn't any wind

357

00:15:36,579 --> 00:15:34,490

at all the fire was a very clean

358

00:15:39,490 --> 00:15:36,589

on fire there was very little smoke as

359

00:15:42,160 --> 00:15:39,500

we sat there it began to get very windy

360

00:15:45,820 --> 00:15:42,170

on the treetops above us but it wasn't

361

00:15:48,910 --> 00:15:45,830

windy below at all acorns began dropping

362

00:15:50,800 --> 00:15:48,920

like flies out of these trees for what I

363

00:15:53,320 --> 00:15:50,810

would guess would be 15 to 20 minutes

364

00:15:56,380 --> 00:15:53,330

and I would guess this was around 1:30

365

00:15:58,449 --> 00:15:56,390

a.m. the acorns were landing all around

366

00:16:01,690 --> 00:15:58,459

us none of us thought anything unusual

367

00:16:03,070 --> 00:16:01,700

about it my girlfriend went to bed now

368

00:16:05,079 --> 00:16:03,080

at this point as far as I could see

369

00:16:07,930 --> 00:16:05,089

there was nobody else up at the

370

00:16:10,870 --> 00:16:07,940

campground after she went off to bed her

371

00:16:14,110 --> 00:16:10,880

father and I noticed small orange lights

372

00:16:16,510 --> 00:16:14,120

not a foot off the ground and maybe 30

373

00:16:19,090 --> 00:16:16,520

yards in front of us they'd change from

374

00:16:21,850 --> 00:16:19,100

light orange to dark orange they were

375

00:16:24,790 --> 00:16:21,860

small and there were also white lights

376

00:16:27,160 --> 00:16:24,800

with them as well again tiny tiny lights

377

00:16:29,800 --> 00:16:27,170

and then my girlfriend's father started

378

00:16:31,720 --> 00:16:29,810

to notice orbs he saw these flying

379

00:16:35,079 --> 00:16:31,730

around him he saw them with his naked

380

00:16:36,820 --> 00:16:35,089

eye I couldn't see them I grabbed my

381

00:16:40,240 --> 00:16:36,830

phone and in looking through the camera

382

00:16:42,639 --> 00:16:40,250

on my phone I could see the orbs they'd

383

00:16:46,210 --> 00:16:42,649

move no higher than 10 feet off the

384

00:16:48,010 --> 00:16:46,220

ground literally off the ground I got up

385

00:16:50,610 --> 00:16:48,020

to walk towards the small light and

386

00:16:54,190 --> 00:16:50,620

these orbs would come towards me I

387

00:16:56,980 --> 00:16:54,200

photographed a little blue orb the video

388

00:16:58,810 --> 00:16:56,990

I have of this orb is not blue by the

389

00:17:02,319 --> 00:16:58,820

way at one point my girlfriend's father

390

00:17:05,439 --> 00:17:02,329

saw eight of these orbs they were all

391

00:17:07,059 --> 00:17:05,449

around me also at my feet and only when

392

00:17:10,240 --> 00:17:07,069

I approached the tiny lights did the

393

00:17:12,370 --> 00:17:10,250

orbs themselves move closer to me at

394

00:17:14,140 --> 00:17:12,380

this point I turned around and looked in

395

00:17:17,590 --> 00:17:14,150

the complete opposite direction and

396

00:17:21,429 --> 00:17:17,600

they're at a 50 degree angle in the sky

397

00:17:24,699 --> 00:17:21,439

was a big round object it seemed to be

398

00:17:28,059 --> 00:17:24,709

pulsating in a code flashing white and

399

00:17:29,919 --> 00:17:28,069

red colors as that code there were fast

400

00:17:32,919 --> 00:17:29,929

blinking lights and slowed more

401
00:17:34,780 --> 00:17:32,929
methodically blinking lights yes there

402
00:17:36,640 --> 00:17:34,790
were other lights around us the normal

403
00:17:39,820 --> 00:17:36,650
street lights typical lights you see at

404
00:17:44,080 --> 00:17:39,830
a campground this was neither I knew

405
00:17:46,870 --> 00:17:44,090
immediately this was a UFO so I look to

406
00:17:48,070 --> 00:17:46,880
my right at a 20 degree angle from a

407
00:17:51,700 --> 00:17:48,080
horizontal line

408
00:17:55,210 --> 00:17:51,710
to my right was a very bright pure star

409
00:17:57,759 --> 00:17:55,220
light it was the purest color I have

410
00:18:00,940 --> 00:17:57,769
ever seen the only way I can describe it

411
00:18:01,659 --> 00:18:00,950
is as looking into a pure diamond in the

412
00:18:05,919 --> 00:18:01,669
daylight

413
00:18:08,860 --> 00:18:05,929

it was beautiful white perfection the

414

00:18:11,169 --> 00:18:08,870

same exact light was to my left and both

415

00:18:13,659 --> 00:18:11,179

of these lights were roughly ten feet

416

00:18:16,840 --> 00:18:13,669

off the ground and hovering roughly

417

00:18:18,519 --> 00:18:16,850

thirty yards each away from me now that

418

00:18:22,000 --> 00:18:18,529

blinking light in the sky and these two

419

00:18:24,159 --> 00:18:22,010

lights formed a perfect triangle and as

420

00:18:26,919 --> 00:18:24,169

I turned back around I could now see

421

00:18:30,340 --> 00:18:26,929

more small lights my girlfriend's father

422

00:18:33,009 --> 00:18:30,350

Don and I were directly in the center of

423

00:18:36,250 --> 00:18:33,019

this phenomenon I captured video of an

424

00:18:39,340 --> 00:18:36,260

orb bouncing around with the main UFO up

425

00:18:41,560 --> 00:18:39,350

in the air multiple videos of orbs

426
00:18:44,110 --> 00:18:41,570
lining up with this main pulsating

427
00:18:45,899 --> 00:18:44,120
object I could not capture video of all

428
00:18:48,700 --> 00:18:45,909
three at a time they were too far apart

429
00:18:51,549 --> 00:18:48,710
the starlike UFO to my right was

430
00:18:54,669 --> 00:18:51,559
blinking ever so slowly at one point

431
00:18:57,820 --> 00:18:54,679
appearing to almost signal the one on my

432
00:19:00,759 --> 00:18:57,830
left I never saw the one on my left

433
00:19:03,279 --> 00:19:00,769
blink at all the light to my right was

434
00:19:04,750 --> 00:19:03,289
just to the left of a tree as I looked

435
00:19:07,240 --> 00:19:04,760
to the right of that tree I could

436
00:19:07,649 --> 00:19:07,250
literally see as best as I can describe

437
00:19:14,440 --> 00:19:07,659
it

438
00:19:17,919 --> 00:19:14,450

objects to the right were all wavering

439

00:19:20,740 --> 00:19:17,929

in this distortion this displacement it

440

00:19:23,529 --> 00:19:20,750

was literally only about five feet this

441

00:19:26,019 --> 00:19:23,539

displacement the last thing we noticed

442

00:19:29,139 --> 00:19:26,029

was the sky above us to the right was a

443

00:19:31,930 --> 00:19:29,149

deep haunting blue color this was a

444

00:19:34,899 --> 00:19:31,940

massive color as far as you could see

445

00:19:38,769 --> 00:19:34,909

the sky was this color and then it went

446

00:19:40,990 --> 00:19:38,779

from ever-so-slightly deep blue into

447

00:19:44,139 --> 00:19:41,000

black I have never seen the sky this

448

00:19:46,899 --> 00:19:44,149

color in my life also during this

449

00:19:49,779 --> 00:19:46,909

experience we would look up and see one

450

00:19:52,990 --> 00:19:49,789

tree moving vigorously from the quote

451
00:19:54,610 --> 00:19:53,000
wind end quotes but the tree right next

452
00:19:58,029 --> 00:19:54,620
to it was not moving at all

453
00:19:59,980 --> 00:19:58,039
I cannot explain what we saw I've never

454
00:20:01,720 --> 00:19:59,990
seen anything like this in my life

455
00:20:04,600 --> 00:20:01,730
it wasn't humble

456
00:20:07,150 --> 00:20:04,610
IVA bull experienced I was in awe but I

457
00:20:09,610 --> 00:20:07,160
wasn't scared I was only scared to walk

458
00:20:14,650 --> 00:20:09,620
towards the objects to my right and left

459
00:20:16,960 --> 00:20:14,660
so I did not please note I have a lot of

460
00:20:19,420 --> 00:20:16,970
video but I will not release the rights

461
00:20:21,520 --> 00:20:19,430
to your organization a member of your

462
00:20:24,430 --> 00:20:21,530
team is welcome to meet with me to view

463
00:20:27,100 --> 00:20:24,440

these videos so why report this story

464

00:20:27,670 --> 00:20:27,110

well it's interesting it's very well put

465

00:20:29,950 --> 00:20:27,680

together

466

00:20:32,410 --> 00:20:29,960

the objects are described quite well by

467

00:20:35,530 --> 00:20:32,420

the witness it's strange and it's also

468

00:20:36,880 --> 00:20:35,540

not in that remote an area where you're

469

00:20:39,940 --> 00:20:36,890

just having the thought someone might

470

00:20:42,970 --> 00:20:39,950

happen to hear this rather than find it

471

00:20:45,040 --> 00:20:42,980

on the internet which is full of stories

472

00:20:46,870 --> 00:20:45,050

like this maybe somebody in the area of

473

00:20:48,700 --> 00:20:46,880

Quakertown Pennsylvania at this

474

00:20:51,070 --> 00:20:48,710

campground happened to witness that

475

00:20:52,630 --> 00:20:51,080

report and maybe they want to openly

476

00:20:55,120 --> 00:20:52,640

share their work

477

00:20:57,640 --> 00:20:55,130

just a reminder at the end of every

478

00:20:59,650 --> 00:20:57,650
