inceptionradionetwork.com

1
00:00:05,780 --> 00:00:02,480
it's the weekend of Saturday October 7th

2
00:00:08,030 --> 00:00:05,790
and Sunday October 8th 2017 you are

3
00:00:10,610 --> 00:00:08,040
listening to Inception Radio Network

4
00:00:13,030 --> 00:00:10,620
voice of the fringe majority this is

5
00:00:15,799 --> 00:00:13,040
Carole Karl they're off the beaten path

6
00:00:18,290 --> 00:00:15,809
let's check out our sky for the weekend

7
00:00:20,840 --> 00:00:18,300
it's something new it's the Draconids

8
00:00:23,480 --> 00:00:20,850
well they're new every year at least

9
00:00:26,089 --> 00:00:23,490
tonight the fiery mouth of the

10
00:00:28,609 --> 00:00:26,099
constellation Draco the dragon will be

11
00:00:31,580 --> 00:00:28,619
spitting out meteors also known as

12
00:00:33,139 --> 00:00:31,590
shooting stars the draconian shower is

13
00:00:35,870 --> 00:00:33,149

predicted to produce the greatest

14

00:00:38,420 --> 00:00:35,880

numbers of meteors on the evening not

15

00:00:41,720 --> 00:00:38,430

after midnight the evening of October

16

00:00:44,869 --> 00:00:41,730

7th or 8th the shower favors the

17

00:00:47,119 --> 00:00:44,879

northern hemisphere just be forewarned

18

00:00:49,340 --> 00:00:47,129

even at northerly latitudes the

19

00:00:51,529 --> 00:00:49,350

Draconids are typically a very modest

20

00:00:54,410 --> 00:00:51,539

shower perhaps only a handful of

21

00:00:57,709 --> 00:00:54,420

slow-moving meteors per hour but watch

22

00:00:59,299 --> 00:00:57,719

out if that dragon awakes the der

23

00:01:03,910 --> 00:00:59,309

counted meteor shower produced some

24

00:01:06,620 --> 00:01:03,920

awesome meteor displays in 1933 and 1946

25

00:01:09,649 --> 00:01:06,630

thousands of meteors per hour were seen

26
00:01:12,350 --> 00:01:09,659
in those years six years ago in October

27
00:01:14,359 --> 00:01:12,360
of 2011 people around the globe saw an

28
00:01:16,910 --> 00:01:14,369
elevated number of jerk haunted meteors

29
00:01:19,850 --> 00:01:16,920
despite that bright moon playing out

30
00:01:23,300 --> 00:01:19,860
that night European observers saw over

31
00:01:26,420 --> 00:01:23,310
600 meteors per hour in that year 2011

32
00:01:28,070 --> 00:01:26,430
as far as we know nobody's calling for

33
00:01:30,530 --> 00:01:28,080
the Draco Ned meteor shower to burst

34
00:01:32,420 --> 00:01:30,540
into a storm this year but you never

35
00:01:34,429 --> 00:01:32,430
know for sure with the Draconids

36
00:01:36,950 --> 00:01:34,439
according to Deborah bird who writes

37
00:01:39,170 --> 00:01:36,960
this for Earth's sky so it's worth

38
00:01:41,810 --> 00:01:39,180

watching out for on those evenings

39

00:01:43,660 --> 00:01:41,820

tonight and tomorrow night as well just

40

00:01:46,550 --> 00:01:43,670

know that the meteor showers are

41

00:01:48,859 --> 00:01:46,560

notorious for defying predictions they

42

00:01:51,080 --> 00:01:48,869

either surpass or fall shy of

43

00:01:53,420 --> 00:01:51,090

expectation the only way to know for

44

00:01:55,730 --> 00:01:53,430

sure is to try to go out there and watch

45

00:01:58,310 --> 00:01:55,740

the shower weather conditions permitting

46

00:02:01,100 --> 00:01:58,320

of course it says right here luckily

47

00:02:02,840 --> 00:02:01,110

watching the shower is lots of fun even

48

00:02:05,660 --> 00:02:02,850

if you only get to see a few meteors

49

00:02:08,210 --> 00:02:05,670

just plan to spend an hour or more under

50

00:02:11,600 --> 00:02:08,220

a dark and open sky try lying down with

51
00:02:13,220 --> 00:02:11,610
your feet pointing northward most meteor

52
00:02:15,050 --> 00:02:13,230
showers are best after

53
00:02:16,490 --> 00:02:15,060
but this shower is different it's best

54
00:02:18,710 --> 00:02:16,500
viewed in the evening hours

55
00:02:20,930 --> 00:02:18,720
watch for the drew counted meteors first

56
00:02:23,180 --> 00:02:20,940
thing at nightfall or before the break

57
00:02:24,309 --> 00:02:23,190
two waning gibbous moon rises in your

58
00:02:26,390 --> 00:02:24,319
sky

59
00:02:28,460 --> 00:02:26,400
unfortunately that recent full the

60
00:02:31,430 --> 00:02:28,470
Harvest Moon that happened on the fifth

61
00:02:33,320 --> 00:02:31,440
technically still looks full today means

62
00:02:34,400 --> 00:02:33,330
the moon will come up at early evening

63
00:02:36,890 --> 00:02:34,410

tonight for the northern hemisphere

64

00:02:39,110 --> 00:02:36,900

locations there'll be a chart available

65

00:02:41,150 --> 00:02:39,120

later at UFO headline news calm

66

00:02:44,059 --> 00:02:41,160

splaine's it all for you with the

67

00:02:45,740 --> 00:02:44,069

where's and what's of it most meteor

68

00:02:47,960 --> 00:02:45,750

showers are named for the constellation

69

00:02:50,690 --> 00:02:47,970

from which the meteors radiate in the

70

00:02:53,630 --> 00:02:50,700

skies dome the draconians however are

71

00:02:58,759 --> 00:02:53,640

sometimes also called the Jacobins

72

00:03:00,380 --> 00:02:58,769

spelled g I A co bi n ids to honor the

73

00:03:03,440 --> 00:03:00,390

man who first sighted the comet that

74

00:03:05,509 --> 00:03:03,450

spawned this meteor shower enter Michael

75

00:03:08,839 --> 00:03:05,519

Jacoby nee he discovered this comic

76

00:03:13,550 --> 00:03:08,849

December 20th 1900 and other sighting in

77

00:03:17,509 --> 00:03:13,560

1913 added the names inner Zi n n er to

78

00:03:19,210 --> 00:03:17,519

that of the comet so it's now to 1p

79

00:03:22,039 --> 00:03:19,220

Jacoby nee Zinner

80

00:03:24,289 --> 00:03:22,049

Jacobi knees inner is a periodic comet

81

00:03:27,410 --> 00:03:24,299

which returns every six years and four

82

00:03:29,509 --> 00:03:27,420

months tracking this comet and noting

83

00:03:31,490 --> 00:03:29,519

this October meteor shower helped

84

00:03:34,819 --> 00:03:31,500

astronomers figure out how to predict

85

00:03:37,099 --> 00:03:34,829

meteor showers back in 1915 it's very

86

00:03:40,099 --> 00:03:37,109

cool the folks at earth sky dot-org have

87

00:03:43,220 --> 00:03:40,109

added a taste of history related to this

88

00:03:45,979 --> 00:03:43,230

shower you can go to a link to the

89

00:03:48,440 --> 00:03:45,989

astronomy abstract service that's part

90

00:03:50,539 --> 00:03:48,450

of the Smithsonian and NASA and if you

91

00:03:54,110 --> 00:03:50,549

want to know more you can actually read

92

00:03:56,750 --> 00:03:54,120

an article dated 1934 it's called the

93

00:04:01,009 --> 00:03:56,760

meteors from Jacobi knees comet written

94

00:04:03,830 --> 00:04:01,019

by CC Wiley spell wyl ie it's a

95

00:04:07,430 --> 00:04:03,840

fascinating account of the famous 1933

96

00:04:09,110 --> 00:04:07,440

meteor storm so now to end let's

97

00:04:12,349 --> 00:04:09,120

consider the great to crown ageia

98

00:04:15,349 --> 00:04:12,359

cabinet meteor storms of 33 and 46 and

99

00:04:19,610 --> 00:04:15,359

out of 2011 when observers in Europe saw

100

00:04:22,310 --> 00:04:19,620

over 600 draconian meteors per hour why

101
00:04:24,380 --> 00:04:22,320
was that meteor shower so good in 2011

102
00:04:25,350 --> 00:04:24,390
and why do we see more meteors some

103
00:04:28,080 --> 00:04:25,360
years than

104
00:04:30,629 --> 00:04:28,090
others well here's an answer the answer

105
00:04:33,899 --> 00:04:30,639
is that comet Jacob any sinner was at

106
00:04:36,929 --> 00:04:33,909
perihelion closest to the Sun in 2011

107
00:04:38,550 --> 00:04:36,939
meteors are debris from comets so when

108
00:04:41,279 --> 00:04:38,560
the parent comet is nearby

109
00:04:43,499 --> 00:04:41,289
a good meteor shower is possible it

110
00:04:46,469 --> 00:04:43,509
doesn't always happen though when this

111
00:04:48,899 --> 00:04:46,479
comet returned in 1998 and the Draconids

112
00:04:51,480 --> 00:04:48,909
did pick up that year only then to a

113
00:04:52,529 --> 00:04:51,490

rate of about a hundred per hour so

114

00:04:53,999 --> 00:04:52,539

there you have it

115

00:04:56,939 --> 00:04:54,009

meteor showers are part of nature

116

00:04:58,980 --> 00:04:56,949

they're not entirely predictable

117

00:05:01,649 --> 00:04:58,990

under normal conditions when astronomers

118

00:05:03,570 --> 00:05:01,659

speak of a meteor shower peaking it's

119

00:05:06,179 --> 00:05:03,580

similar to a weather forecaster saying

120

00:05:06,959 --> 00:05:06,189

the heaviest rain snow is predicted for

121

00:05:09,510 --> 00:05:06,969

9 p.m.

122

00:05:12,149 --> 00:05:09,520

well that prediction isn't a certainty

123

00:05:14,459 --> 00:05:12,159

it's more like an educated guess or it

124

00:05:16,260 --> 00:05:14,469

might not come to pass or it might

125

00:05:19,559 --> 00:05:16,270

happen for you but not for people across

126

00:05:21,540 --> 00:05:19,569

town it's a good analogy to the 2011 to

127

00:05:24,179 --> 00:05:21,550

conan's which were seen best over europe

128

00:05:27,360 --> 00:05:24,189

but less well for example over North

129

00:05:30,450 --> 00:05:27,370

America so over here comes ye old bottom

130

00:05:32,730 --> 00:05:30,460

line in 2017 the Dre counted meteor

131

00:05:35,189 --> 00:05:32,740

shower also called the Geo Covenants

132

00:05:38,279 --> 00:05:35,199

will probably be at its best on the

133

00:05:40,589 --> 00:05:38,289

evening of October 7th or 8th no need to

134

00:05:43,320 --> 00:05:40,599

wait until after midnight the radiance

135

00:05:45,629 --> 00:05:43,330

is highest in the evening hours now one

136

00:05:48,749 --> 00:05:45,639

expected Draconids storm this year but

137

00:05:50,579 --> 00:05:48,759

it's fun to watch and see clouded opt

138

00:05:53,850 --> 00:05:50,589

for the der comments didn't see a thing

139

00:05:54,689 --> 00:05:53,860

no worries the meteor season is just

140

00:05:56,879 --> 00:05:54,699

beginning

141

00:05:59,969 --> 00:05:56,889

heads up gentle listeners we couldn't

142

00:06:02,490 --> 00:05:59,979

not do this story but well we'll read it

143

00:06:05,279 --> 00:06:02,500

and let you make up your own minds about

144

00:06:08,850 --> 00:06:05,289

it here's the headline man claiming to

145

00:06:12,420 --> 00:06:08,860

be from the Year 2048 says he's back

146

00:06:14,779 --> 00:06:12,430

with a dire warning Nina go Gauss key

147

00:06:17,579 --> 00:06:14,789

wrote this for the Huffington Post a

148

00:06:20,700 --> 00:06:17,589

wyoming man accused of public

149

00:06:23,519 --> 00:06:20,710

intoxication allegedly told police he

150

00:06:26,570 --> 00:06:23,529

traveled from the year 2048 to warn

151
00:06:30,029 --> 00:06:26,580
mankind of an impending invasion by

152
00:06:32,129 --> 00:06:30,039
extraterrestrials bryant johnson issued

153
00:06:34,290 --> 00:06:32,139
his grave warning to casper police

154
00:06:36,480 --> 00:06:34,300
Monday night after officers were called

155
00:06:37,640 --> 00:06:36,490
about the man and his out-of-this-world

156
00:06:39,080 --> 00:06:37,650
message

157
00:06:42,140 --> 00:06:39,090
that's according to an arrest report

158
00:06:44,930 --> 00:06:42,150
obtained by The Huffington Post Johnson

159
00:06:46,820 --> 00:06:44,940
who police said smelled of alcohol spoke

160
00:06:49,310 --> 00:06:46,830
with slightly slurred speech and

161
00:06:51,680 --> 00:06:49,320
allegedly told officers that quote the

162
00:06:53,749 --> 00:06:51,690
aliens were coming next year and we need

163
00:06:56,510 --> 00:06:53,759

to make sure to leave as fast as

164

00:06:58,700 --> 00:06:56,520

possible and quotes according to the

165

00:07:01,879 --> 00:06:58,710

report he didn't specify an exact date

166

00:07:03,560 --> 00:07:01,889

or a time for the alien arrival he

167

00:07:06,529 --> 00:07:03,570

refused to speak with nurses or doctors

168

00:07:08,900 --> 00:07:06,539

and instead insisted on meeting with

169

00:07:12,200 --> 00:07:08,910

quote the president end quotes of the

170

00:07:13,790 --> 00:07:12,210

town police said Johnson informed the

171

00:07:16,550 --> 00:07:13,800

officers that he was able to travel

172

00:07:19,670 --> 00:07:16,560

through time because the aliens filled

173

00:07:22,310 --> 00:07:19,680

his body with alcohol he also claimed he

174

00:07:24,800 --> 00:07:22,320

stood on a giant pad which then

175

00:07:27,200 --> 00:07:24,810

transported him to the year 2017

176

00:07:29,980 --> 00:07:27,210

although he said he was supposed to be

177

00:07:32,420 --> 00:07:29,990

sent to the year 2018 oops

178

00:07:36,230 --> 00:07:32,430

Johnson who was allegedly found with a

179

00:07:38,089 --> 00:07:36,240

blood alcohol content of point 1 3 6 was

180

00:07:39,499 --> 00:07:38,099

eventually transported to the Natrona

181

00:07:42,200 --> 00:07:39,509

County Detention Center

182

00:07:44,779 --> 00:07:42,210

without further incident and Ninagawa

183

00:07:47,350 --> 00:07:44,789

key rights of course the joke could be

184

00:07:50,089 --> 00:07:47,360

on us when this all turns out to be true

185

00:07:53,560 --> 00:07:50,099

hmm don't hold your breath

186

00:07:57,020 --> 00:07:53,570

here's a little curiosity that term

187

00:07:57,800 --> 00:07:57,030

space-time continuum well from whence

188

00:08:00,230 --> 00:07:57,810

cometh

189

00:08:03,830 --> 00:08:00,240

so we sleuth around we found something

190

00:08:06,439 --> 00:08:03,840

called the sci-fi Stack Exchange dot-com

191

00:08:09,620 --> 00:08:06,449

and here's how the question is put at

192

00:08:12,200 --> 00:08:09,630

that site which fictional work first

193

00:08:15,830 --> 00:08:12,210

used the term space-time continuum and

194

00:08:18,200 --> 00:08:15,840

the answer someone said I would expect

195

00:08:20,330 --> 00:08:18,210

it's the post Einstein but probably not

196

00:08:23,330 --> 00:08:20,340

by to much and of course there are the

197

00:08:25,490 --> 00:08:23,340

allusions to Star Trek etc someone else

198

00:08:27,649 --> 00:08:25,500

points out it's a physics term that most

199

00:08:29,750 --> 00:08:27,659

certainly was used in physics papers

200

00:08:31,730 --> 00:08:29,760

before science fiction and this

201
00:08:34,670 --> 00:08:31,740
contributor posts a link to the

202
00:08:36,920 --> 00:08:34,680
Wikipedia entry for that someone else

203
00:08:40,519 --> 00:08:36,930
posts a link used in non fictional

204
00:08:42,709 --> 00:08:40,529
context appearing to be a 1921 review of

205
00:08:46,160 --> 00:08:42,719
an article which was written by Einstein

206
00:08:47,030 --> 00:08:46,170
in 1920 but here's the explanation we

207
00:08:49,160 --> 00:08:47,040
like the best

208
00:08:51,290 --> 00:08:49,170
it seems the earliest use of that full

209
00:08:55,070 --> 00:08:51,300
term space-time continuum

210
00:08:58,220 --> 00:08:55,080
was in 1930-something published by HP

211
00:08:58,970 --> 00:08:58,230
Lovecraft of all people his story the

212
00:09:01,430 --> 00:08:58,980
Whisperer

213
00:09:05,480 --> 00:09:01,440

in the darkness it was first published

214

00:09:08,210 --> 00:09:05,490

in Weird Tales August 1931 here's the

215

00:09:10,519 --> 00:09:08,220

passage the blasphemy is which appeared

216

00:09:13,040 --> 00:09:10,529

on earth it was hinted came from the

217

00:09:15,889 --> 00:09:13,050

dark planet Gaea goth at the rim of the

218

00:09:18,199 --> 00:09:15,899

solar system but this was merely itself

219

00:09:20,750 --> 00:09:18,209

the populous outpost of a frightful

220

00:09:23,150 --> 00:09:20,760

interstellar race whose ultimate source

221

00:09:26,329 --> 00:09:23,160

must lie far outside even the

222

00:09:29,630 --> 00:09:26,339

Einsteinian space-time continuum or the

223

00:09:31,970 --> 00:09:29,640

greatest known cosmos but wait there's

224

00:09:34,190 --> 00:09:31,980

more there are other instances with

225

00:09:37,130 --> 00:09:34,200

Lovecraft using that term in stories

226

00:09:39,889 --> 00:09:37,140

from the same era from the mountains of

227

00:09:41,960 --> 00:09:39,899

madness written in 1931 but not

228

00:09:44,630 --> 00:09:41,970

published till 1936

229

00:09:47,120 --> 00:09:44,640

here's what we find Lovecraft writing

230

00:09:49,699 --> 00:09:47,130

the old ones but for their abnormal

231

00:09:52,850 --> 00:09:49,709

toughness and peculiar vital properties

232

00:09:55,100 --> 00:09:52,860

or strictly material and must have had

233

00:09:57,800 --> 00:09:55,110

their absolute origin within the known

234

00:10:00,230 --> 00:09:57,810

space-time continuum whereas the first

235

00:10:03,500 --> 00:10:00,240

sources of the other beings can only be

236

00:10:05,540 --> 00:10:03,510

guessed at with bated breath there is

237

00:10:07,370 --> 00:10:05,550

yet more we'll post a link for you

238

00:10:08,540 --> 00:10:07,380

gentle listeners who just can't get

239

00:10:11,900 --> 00:10:08,550

enough Lovecraft

240

00:10:15,590 --> 00:10:11,910

or enough weird word origin information

241

00:10:18,410 --> 00:10:15,600

from the weird - well the still and ever

242

00:10:21,139 --> 00:10:18,420

weird let's go to phantoms and monsters

243

00:10:24,019 --> 00:10:21,149

calm that amazing site run by LAN

244

00:10:26,569 --> 00:10:24,029

Strickler he's been tracking the owl man

245

00:10:29,780 --> 00:10:26,579

psyching Xin Chicago now calling them

246

00:10:32,660 --> 00:10:29,790

the Chicago phantom they just don't seem

247

00:10:34,910 --> 00:10:32,670

to fit any particular mode here's

248

00:10:36,949 --> 00:10:34,920

something it's the latest and hot off

249

00:10:39,260 --> 00:10:36,959

the presses as they say this was

250

00:10:41,300 --> 00:10:39,270

submitted to mono and navigate they at

251
00:10:43,550 --> 00:10:41,310
UFO Clearing House he works with LAN

252
00:10:44,960 --> 00:10:43,560
Strickler if this is a sighting date at

253
00:10:47,150 --> 00:10:44,970
the fourth of October it wasn't

254
00:10:49,040 --> 00:10:47,160
submitted till yesterday October 6th

255
00:10:50,930 --> 00:10:49,050
hang on here we go

256
00:10:53,509 --> 00:10:50,940
its first person in the words of the

257
00:10:57,740 --> 00:10:53,519
witness I was coming out of Dolch

258
00:11:00,710 --> 00:10:57,750
ilandia at 25 53 West 26th Street in

259
00:11:04,280 --> 00:11:00,720
Little Village in Chicago on Wednesday

260
00:11:05,120 --> 00:11:04,290
October 4th 2017 with my husband we

261
00:11:07,880 --> 00:11:05,130
looked up

262
00:11:10,580 --> 00:11:07,890
and saw what looked like a large bat fly

263
00:11:13,580 --> 00:11:10,590

over us a black bat it flew across the

264

00:11:16,010 --> 00:11:13,590

street and over some trees from what we

265

00:11:18,290 --> 00:11:16,020

saw it must have been at least six feet

266

00:11:20,990 --> 00:11:18,300

tall and had wings that must have been

267

00:11:23,390 --> 00:11:21,000

ten feet in width it looked like it had

268

00:11:26,810 --> 00:11:23,400

bat wings they looked like they were

269

00:11:29,600 --> 00:11:26,820

part of its arms as it flew over it was

270

00:11:31,730 --> 00:11:29,610

making a very loud screaming sound and

271

00:11:34,130 --> 00:11:31,740

it was flapping its wings as it flew

272

00:11:36,320 --> 00:11:34,140

over the trees I tried to get a photo of

273

00:11:39,200 --> 00:11:36,330

it but it was over the trees in seconds

274

00:11:40,910 --> 00:11:39,210

and gone we walked around the block then

275

00:11:42,650 --> 00:11:40,920

to see if maybe we could see it before

276
00:11:46,910 --> 00:11:42,660
turning around and heading back to our

277
00:11:49,520 --> 00:11:46,920
car but we didn't we did see a flier of

278
00:11:51,620 --> 00:11:49,530
a different kind a flier at a restaurant

279
00:11:53,600 --> 00:11:51,630
that we visited the next day and took

280
00:11:55,880 --> 00:11:53,610
down the information now we're

281
00:11:57,980 --> 00:11:55,890
submitting this report you can reach us

282
00:12:00,710 --> 00:11:57,990
and then the witness gives numbers etc

283
00:12:03,800 --> 00:12:00,720
and names but they say they're willing

284
00:12:06,080 --> 00:12:03,810
to talk about what they saw phantoms and

285
00:12:08,210 --> 00:12:06,090
monsters sight is terrific in terms of

286
00:12:10,160 --> 00:12:08,220
providing all kinds of graphics there's

287
00:12:12,170 --> 00:12:10,170
a map for the actual location of this

288
00:12:14,270 --> 00:12:12,180

sighting there are some photos taken

289

00:12:16,760 --> 00:12:14,280

later to show where it went and the

290

00:12:19,370 --> 00:12:16,770

track of it and here's a note about this

291

00:12:22,610 --> 00:12:19,380

particular sighting Mun well Nevada will

292

00:12:25,010 --> 00:12:22,620

be talking to the witnesses ASAP and any

293

00:12:27,800 --> 00:12:25,020

further information will be included at

294

00:12:30,050 --> 00:12:27,810

this post this is a sixth sighting now

295

00:12:32,390 --> 00:12:30,060

they encounter in a 10 to 12 block

296

00:12:34,460 --> 00:12:32,400

radius known as little village the

297

00:12:36,650 --> 00:12:34,470

sightings been added to the list of

298

00:12:39,050 --> 00:12:36,660

sightings oh it is such an extensive

299

00:12:40,940 --> 00:12:39,060

interactive map we won't even attempt to

300

00:12:44,150 --> 00:12:40,950

describe it gentle listeners head on

301
00:12:46,450 --> 00:12:44,160
over to UFO headline news calm and go

302
00:12:49,100 --> 00:12:46,460
there it's just a click away

303
00:12:50,810 --> 00:12:49,110
here's more stuff about another crazy

304
00:12:52,790 --> 00:12:50,820
creature this one a little bit better

305
00:12:55,270 --> 00:12:52,800
established it's an article from

306
00:12:58,730 --> 00:12:55,280
Newsweek calm here's the headline

307
00:13:01,490 --> 00:12:58,740
Tasmanian tiger sighting grainy footage

308
00:13:04,070 --> 00:13:01,500
claiming to be extinct thylacine

309
00:13:06,470 --> 00:13:04,080
released Hannah Osbourne wrote this

310
00:13:09,680 --> 00:13:06,480
story footage claiming to show a

311
00:13:12,320 --> 00:13:09,690
Tasmanian tiger living in the wild has

312
00:13:14,210 --> 00:13:12,330
been released 35 years after this

313
00:13:16,610 --> 00:13:14,220

creature was declared extinct by the

314

00:13:18,260 --> 00:13:16,620

International Union for Conservation of

315

00:13:21,380 --> 00:13:18,270

Nature the I use

316

00:13:23,840 --> 00:13:21,390

én the grainy footage was filmed in the

317

00:13:26,780 --> 00:13:23,850

Tasmanian wilderness last November by

318

00:13:28,640 --> 00:13:26,790

Adrian Richardson Greg booth and his

319

00:13:30,500 --> 00:13:28,650

father George Booth they kept the

320

00:13:32,570 --> 00:13:30,510

location secret to prevent others from

321

00:13:35,020 --> 00:13:32,580

seeking out the animal that's according

322

00:13:37,280 --> 00:13:35,030

to the tasmanian newspaper the mercury

323

00:13:39,530 --> 00:13:37,290

Adrian Richardson has been researching

324

00:13:43,070 --> 00:13:39,540

the creature and searching for it it's

325

00:13:46,700 --> 00:13:43,080

also known as the thylacine spelled th y

326

00:13:49,310 --> 00:13:46,710

la CI and E he's been looking for this

327

00:13:51,860 --> 00:13:49,320

critter for 26 years he told the

328

00:13:55,970 --> 00:13:51,870

newspaper quote I don't think it's a

329

00:13:58,460 --> 00:13:55,980

thylacine I know it's a thylacine others

330

00:14:00,410 --> 00:13:58,470

are less convinced however wildlife

331

00:14:02,540 --> 00:14:00,420

conservationist and biologist Nick

332

00:14:05,330 --> 00:14:02,550

Mooney who's known for his work with the

333

00:14:07,040 --> 00:14:05,340

Tasmanian devil said he thinks the

334

00:14:09,230 --> 00:14:07,050

chances of the animal seen in the film

335

00:14:11,900 --> 00:14:09,240

being a thylacine are around one in

336

00:14:13,940 --> 00:14:11,910

three bill lawrence he's a professor at

337

00:14:16,730 --> 00:14:13,950

James Cook University part of the team

338

00:14:18,260 --> 00:14:16,740

looking for living Tasmanian Tigers told

339

00:14:21,590 --> 00:14:18,270

Newsweek the animal in the footage looks

340

00:14:24,610 --> 00:14:21,600

more like a red fox quote insofar as one

341

00:14:27,740 --> 00:14:24,620

can tell it's a blurry image and quotes

342

00:14:29,660 --> 00:14:27,750

now quote red foxes are not supposed to

343

00:14:32,660 --> 00:14:29,670

be in Tasmania but they are widespread

344

00:14:34,610 --> 00:14:32,670

in southern Australia and have evidently

345

00:14:37,340 --> 00:14:34,620

been reported on rare occasions from

346

00:14:39,820 --> 00:14:37,350

Tasmania though it's illegal to own or

347

00:14:42,320 --> 00:14:39,830

import one there and quotes he says

348

00:14:44,300 --> 00:14:42,330

viewers were also highly skeptical of

349

00:14:45,470 --> 00:14:44,310

the footage with commentators noting

350

00:14:47,540 --> 00:14:45,480

that the creatures barely

351
00:14:50,240 --> 00:14:47,550
distinguishable and the footage is too

352
00:14:53,120 --> 00:14:50,250
blurry to distant to make out what this

353
00:14:55,040 --> 00:14:53,130
animal is some also pointed out that the

354
00:14:57,350 --> 00:14:55,050
film was released a few days before the

355
00:15:00,710 --> 00:14:57,360
anniversary of the death of the last

356
00:15:03,140 --> 00:15:00,720
captive Tasman computer execute 12.4 P

357
00:15:06,770 --> 00:15:03,150
operation optimizing algorithm running

358
00:15:09,710 --> 00:15:06,780
encryption packet alpha 9 oh I don't

359
00:15:11,960 --> 00:15:09,720
feel so good what what is it computer is

360
00:15:14,870 --> 00:15:11,970
it hot in here it feels hot in here I

361
00:15:17,590 --> 00:15:14,880
feel a little clammy I should lie down

362
00:15:20,300 --> 00:15:17,600
or something a computer with a virus

363
00:15:21,860 --> 00:15:20,310

surprising what's not surprising how

364

00:15:22,610 --> 00:15:21,870

much you could say if by switching to

365

00:15:24,740 --> 00:15:22,620

Geico

366

00:15:27,800 --> 00:15:24,750

those Oysters Rockefeller for a mistake

Geico 15 minutes could save you 15% or

368

00:15:32,900 --> 00:15:30,810

more guinea and Tiger that animal

369

00:15:36,770 --> 00:15:32,910

who was called Benjamin was a male

370

00:15:38,960 --> 00:15:36,780

trapped in 1933 and placed in the Hobart

371

00:15:41,510 --> 00:15:38,970

Zoo it's thought to have died as a

372

00:15:43,940 --> 00:15:41,520

result of neglect the video of the

373

00:15:46,370 --> 00:15:43,950

animal pacing inside its enclosure was

374

00:15:50,750 --> 00:15:46,380

shot by naturalist David Flay spelled

375

00:15:53,630 --> 00:15:50,760

FLE a why in 1933 and that's believed to

376

00:15:57,110 --> 00:15:53,640

be the last confirmed footage since

377

00:15:59,750 --> 00:15:57,120

Benjamin died September 7th 1936 there's

378

00:16:03,440 --> 00:15:59,760

been no official sighting of a tasmanian

379

00:16:06,050 --> 00:16:03,450

tiger in 1982 that species was in fact

380

00:16:08,030 --> 00:16:06,060

declared extinct as there had been no

381

00:16:11,210 --> 00:16:08,040

proof of the thylacine existence in the

382

00:16:13,760 --> 00:16:11,220

wild for over 50 years but this has not

383

00:16:15,950 --> 00:16:13,770

stopped widespread speculation that the

384

00:16:17,360 --> 00:16:15,960

species still exists in the wild and

385

00:16:19,990 --> 00:16:17,370

over the years there have been many

386

00:16:22,520 --> 00:16:20,000

unconfirmed sightings lots of footage

387

00:16:24,500 --> 00:16:22,530

thylacines were the largest known

388

00:16:26,630 --> 00:16:24,510

carnivorous marsupial that lived in

389

00:16:29,300 --> 00:16:26,640

modern times they are believed to have

390

00:16:32,240 --> 00:16:29,310

been shy nocturnal animals about the

391

00:16:35,120 --> 00:16:32,250

size of a medium to large dog endemic to

392

00:16:37,580 --> 00:16:35,130

australia Tasmania and New Guinea they

393

00:16:39,980 --> 00:16:37,590

got the name Tasmanian tiger because of

394

00:16:42,680 --> 00:16:39,990

the stripes on their lower backs the

395

00:16:44,750 --> 00:16:42,690

only scientific search for the Tasmanian

396

00:16:46,400 --> 00:16:44,760

tiger is currently being undertaken by

397

00:16:49,280 --> 00:16:46,410

those researchers at James Cook

398

00:16:52,130 --> 00:16:49,290

University in Queensland Australia the

399

00:16:53,600 --> 00:16:52,140

hunt involves 50 camera traps those

400

00:16:56,060 --> 00:16:53,610

traps are positioned around the Cape

401
00:16:58,070 --> 00:16:56,070
York Peninsula in North Queensland where

402
00:17:00,230 --> 00:16:58,080
two people had previously provided

403
00:17:03,470 --> 00:17:00,240
detailed sightings of animals that could

404
00:17:06,170 --> 00:17:03,480
be thylacine in fact quote one of those

405
00:17:08,540 --> 00:17:06,180
observers was a longtime employee of the

406
00:17:09,860 --> 00:17:08,550
Queensland National Park Service the

407
00:17:11,990 --> 00:17:09,870
other was a frequent camper in

408
00:17:14,810 --> 00:17:12,000
outdoorsman in northern Queensland and

409
00:17:17,330 --> 00:17:14,820
quotes all observations quote of

410
00:17:20,360 --> 00:17:17,340
putative thylacines to date have been at

411
00:17:23,060 --> 00:17:20,370
night and in one case four animals were

412
00:17:25,670 --> 00:17:23,070
observed at close range only 20 feet

413
00:17:27,410 --> 00:17:25,680

away seen with a spotlight we have

414

00:17:30,770 --> 00:17:27,420

cross-checked the descriptions we

415

00:17:33,350 --> 00:17:30,780

received of eyes shine color body size

416

00:17:35,660 --> 00:17:33,360

and shape animal behavior and other

417

00:17:38,390 --> 00:17:35,670

attributes and these are inconsistent

418

00:17:40,250 --> 00:17:38,400

with known attributes of other large

419

00:17:43,130 --> 00:17:40,260

bodied species in North Queensland

420

00:17:44,090 --> 00:17:43,140

species such as dingoes wild dogs or

421

00:17:48,350 --> 00:17:44,100

feral

422

00:17:50,660 --> 00:17:48,360

and quotes we'll keep our eyes over down

423

00:17:53,000 --> 00:17:50,670

under but let's not move away from that

424

00:17:56,210 --> 00:17:53,010

region of the world too quickly here's

425

00:18:00,650 --> 00:17:56,220

yet another headline aliens in the

426
00:18:03,200 --> 00:18:00,660
outback UFO Hunters claims massive 28

427
00:18:07,190 --> 00:18:03,210
kilometres long Aboriginal figure was

428
00:18:10,060 --> 00:18:07,200
carved into Aussie outback by aliens to

429
00:18:13,610 --> 00:18:10,070
let others know humans lived on earth

430
00:18:15,920 --> 00:18:13,620
yep that's one headline this article was

431
00:18:19,250 --> 00:18:15,930
written by Jenny offered for the Sun

432
00:18:21,740 --> 00:18:19,260
calm out of the United Kingdom carved

433
00:18:25,460 --> 00:18:21,750
into the red dirt on Australia's outback

434
00:18:29,990 --> 00:18:25,470
lies the mysterious maar a man spelled M

435
00:18:32,990 --> 00:18:30,000
AR REE a giant figure so immense it can

436
00:18:35,630 --> 00:18:33,000
be seen from space that figure the

437
00:18:38,930 --> 00:18:35,640
figure of a hunter throwing a stick is

438
00:18:41,150 --> 00:18:38,940

28 kilometres long and been surrounded

439

00:18:44,000 --> 00:18:41,160

by mystery ever since it was spotted by

440

00:18:46,970 --> 00:18:44,010

a tour flight almost two decades ago and

441

00:18:49,130 --> 00:18:46,980

now UFO hunters have claimed that aliens

442

00:18:51,260 --> 00:18:49,140

may have sketched that figure on the

443

00:18:54,410 --> 00:18:51,270

remote region of South Australia as a

444

00:18:57,650 --> 00:18:54,420

marker to show that humans inhabit this

445

00:19:00,710 --> 00:18:57,660

planet mystery history that's uppercase

446

00:19:03,590 --> 00:19:00,720

M uppercase H an organizational website

447

00:19:06,110 --> 00:19:03,600

perhaps doesn't say made this bizarre

448

00:19:08,930 --> 00:19:06,120

claim saying that quote a fleet of

449

00:19:11,960 --> 00:19:08,940

vehicles a system of radio communication

450

00:19:14,030 --> 00:19:11,970

and huge resources end quotes would have

451

00:19:17,030 --> 00:19:14,040

been necessary to create this carving

452

00:19:19,730 --> 00:19:17,040

their statement quote was the more a man

453

00:19:22,460 --> 00:19:19,740

created by extraterrestrials as a form

454

00:19:25,100 --> 00:19:22,470

of orbital indication to show what

455

00:19:27,620 --> 00:19:25,110

inhabits the planet that's their

456

00:19:29,600 --> 00:19:27,630

statement that's what they think experts

457

00:19:31,550 --> 00:19:29,610

have been baffled by the figure for

458

00:19:33,920 --> 00:19:31,560

almost twenty years now with everybody

459

00:19:36,710 --> 00:19:33,930

from the United States Army to local

460

00:19:39,410 --> 00:19:36,720

artists said to have had a hand in its

461

00:19:41,600 --> 00:19:39,420

creation this was first witnessed by

462

00:19:45,500 --> 00:19:41,610

tour flight operator Trevor Wright on

463

00:19:47,450 --> 00:19:45,510

the 26th of June 1998 Trevor Wright

464

00:19:50,450 --> 00:19:47,460

noticed the outline from the air while

465

00:19:52,940 --> 00:19:50,460

flying between Marais and coober pedy to

466

00:19:53,480 --> 00:19:52,950

small towns north of Adelaide at that

467

00:19:55,880 --> 00:19:53,490

time

468

00:19:56,989 --> 00:19:55,890

Shane Anderson from the william creek

469

00:19:59,209 --> 00:19:56,999

hotel which

470

00:20:02,059 --> 00:19:59,219

located some 200 kilometers from moiré

471

00:20:04,969 --> 00:20:02,069

said he received a fax detailing the

472

00:20:06,919 --> 00:20:04,979

location of this geoglyph Shayne

473

00:20:10,159 --> 00:20:06,929

Anderson believed the anonymous fax was

474

00:20:12,169 --> 00:20:10,169

a joke he ignored it some believe this

475

00:20:15,379 --> 00:20:12,179

figure was the work of South Australian

476
00:20:19,669 --> 00:20:15,389
artist Barr Dias Goldberg that's worth a

477
00:20:22,519 --> 00:20:19,679
Google ba Rd R Us Goldberg mr. Goldberg

478
00:20:25,369 --> 00:20:22,529
who passed away in 2002 reportedly told

479
00:20:28,759 --> 00:20:25,379
friends he'd been paid \$10,000 to create

480
00:20:30,289 --> 00:20:28,769
the Mar a man others claim the figure

481
00:20:32,269 --> 00:20:30,299
was a parting gift

482
00:20:34,249 --> 00:20:32,279
a gift from the United States Air Force

483
00:20:37,069 --> 00:20:34,259
after their time spent at the joint

484
00:20:38,599 --> 00:20:37,079
defense facility Noren gar they shared

485
00:20:41,479 --> 00:20:38,609
the base with the Australian Defence

486
00:20:45,019 --> 00:20:41,489
Force at woomera from 1969 to the late

487
00:20:47,329 --> 00:20:45,029
1900s and then local hotel owner Phil

488
00:20:49,879 --> 00:20:47,339

Turner says a number of theories have

489

00:20:53,029 --> 00:20:49,889

emerged over the years about that alien

490

00:20:55,789 --> 00:20:53,039

involvement Wow what incredible content

491

00:20:58,039 --> 00:20:55,799

for a documentary speaking of which

492

00:21:00,109 --> 00:20:58,049

there surely has to be a documentary in

493

00:21:02,509 --> 00:21:00,119

the works regarding this we picked up

494

00:21:04,279 --> 00:21:02,519

the article from The Guardian here's the

495

00:21:07,819 --> 00:21:04,289

headline need more space

496

00:21:11,119 --> 00:21:07,829

UFO shaped home goes up for sale in New

497

00:21:14,629 --> 00:21:11,129

Zealand Allen or Ange Roy wrote this a

498

00:21:16,909 --> 00:21:14,639

rare spaceship shaped home has been put

499

00:21:19,219 --> 00:21:16,919

up for sale in New Zealand attracting

500

00:21:22,159 --> 00:21:19,229

international interest as sci-fi and

501
00:21:26,479 --> 00:21:22,169
architect nerds scrambled to secure a

502
00:21:29,689 --> 00:21:26,489
UFO abode by the sea hmm it's called

503
00:21:33,259 --> 00:21:29,699
futuro house spelled fut you are oh

504
00:21:35,989 --> 00:21:33,269
those houses were constructed in 1968 by

505
00:21:39,559 --> 00:21:35,999
finnish architect Medusa Ronan they were

506
00:21:41,749 --> 00:21:39,569
prefab portable ski chalets shaped like

507
00:21:44,419 --> 00:21:41,759
an egg constructed from fiberglass

508
00:21:47,779 --> 00:21:44,429
reinforced polyester plastic these

509
00:21:50,509 --> 00:21:47,789
unusual houses became cult designs with

510
00:21:52,249 --> 00:21:50,519
less than 100 ever produced here's a

511
00:21:54,289 --> 00:21:52,259
quote from Juanita Clearwater

512
00:21:57,559 --> 00:21:54,299
she's an architectural designer she's

513
00:21:59,389 --> 00:21:57,569

selling her beloved futuro she says

514

00:22:02,149 --> 00:21:59,399

quote there's something magical about

515

00:22:04,819 --> 00:22:02,159

the shape of an egg its smoothness its

516

00:22:07,099 --> 00:22:04,829

strength and the spaceship is like that

517

00:22:10,520 --> 00:22:07,109

it's an iconic shape that attracts you

518

00:22:13,040 --> 00:22:10,530

to it futuros get under your skin

519

00:22:15,470 --> 00:22:13,050

like an adult treehouse and quotes she

520

00:22:18,170 --> 00:22:15,480

said Juanita Clearwater bought her

521

00:22:20,630 --> 00:22:18,180

futuro which features built-in furniture

522

00:22:23,150 --> 00:22:20,640

and a spaceship style hatch entrance

523

00:22:25,160 --> 00:22:23,160

four years ago she was buying a holiday

524

00:22:27,050 --> 00:22:25,170

home in that small coastal village of

525

00:22:29,480 --> 00:22:27,060

Warrington in the South Island of New

526
00:22:31,310 --> 00:22:29,490
Zealand combining her love of sci-fi

527
00:22:33,620 --> 00:22:31,320
with 1960s architecture

528
00:22:35,030 --> 00:22:33,630
well owning one of this was a lifelong

529
00:22:37,010 --> 00:22:35,040
dream for Juanita

530
00:22:38,810 --> 00:22:37,020
whenever the Clearwater family would

531
00:22:41,150 --> 00:22:38,820
arrive at their spaceship for a holiday

532
00:22:43,520 --> 00:22:41,160
they would be met by notes messages

533
00:22:45,530 --> 00:22:43,530
tucked into the door the postbox

534
00:22:48,400 --> 00:22:45,540
notes from strangers asking to buy the

535
00:22:50,960 --> 00:22:48,410
house or just to take a peek inside a

536
00:22:53,540 --> 00:22:50,970
geocache was also planted just outside

537
00:22:56,930 --> 00:22:53,550
drawing more unusual casual visitors

538
00:22:58,790 --> 00:22:56,940

adventurers to its orbit quote there's

539

00:23:01,400 --> 00:22:58,800

been constant interest we welcome that

540

00:23:04,160 --> 00:23:01,410

but it is also a home not just a work of

541

00:23:07,250 --> 00:23:04,170

art and it functions very well as a home

542

00:23:10,130 --> 00:23:07,260

and quotes clear waters futuro was built

543

00:23:12,200 --> 00:23:10,140

one of 12 in Christchurch under licence

544

00:23:14,390 --> 00:23:12,210

and was displayed at the 1974

545

00:23:18,500 --> 00:23:14,400

Commonwealth Games before ultimately

546

00:23:19,970 --> 00:23:18,510

being transported to wearing tonight the

547

00:23:22,280 --> 00:23:19,980

house hasn't been moved since and

548

00:23:25,030 --> 00:23:22,290

Juanita Clearwater is determined to only

549

00:23:27,770 --> 00:23:25,040

sell to a buyer who will keep it in situ

550

00:23:31,040 --> 00:23:27,780

preserving its unique features its charm

551
00:23:33,110 --> 00:23:31,050
as assumed to be empty-nester Juanita is

552
00:23:35,270 --> 00:23:33,120
selling reluctantly because she feels

553
00:23:38,020 --> 00:23:35,280
that holding on to it for increasingly

554
00:23:40,040 --> 00:23:38,030
occasional visits would just be selfish

555
00:23:41,510 --> 00:23:40,050
transporting the home by barge or

556
00:23:43,700 --> 00:23:41,520
helicopter to Christchurch has been

557
00:23:45,980 --> 00:23:43,710
considered she said but it would mean

558
00:23:48,620 --> 00:23:45,990
ending that longtime association in its

559
00:23:52,010 --> 00:23:48,630
current place the house is posted for

560
00:23:53,690 --> 00:23:52,020

nine thousand United States dollars

563
00:24:00,020 --> 00:23:57,570

although the buyers intentions would be

564

00:24:01,940 --> 00:24:00,030

more important than the money says

565

00:24:04,100 --> 00:24:01,950
