1
00:00:07,820 --> 00:00:03,860
oh it's Tuesday October 17th 2017 you

2
00:00:15,110 --> 00:00:07,830
are listening to the voice of the fringe

3
00:00:16,820 --> 00:00:15,120
majority this is human nature in

4
00:00:19,700 --> 00:00:16,830
horrendous events

5
00:00:22,250 --> 00:00:19,710
absolutely astonishing and encouraging

6
00:00:25,310 --> 00:00:22,260
in Puerto Rico really damaged by

7
00:00:27,050 --> 00:00:25,320
Hurricane Maria we find a student a

8
00:00:29,689 --> 00:00:27,060
student from Carnegie Mellon

9
00:00:31,880 --> 00:00:29,699
her name is Rosana Guernica she's from

10
00:00:34,819 --> 00:00:31,890
the United States but her home is Puerto

11
00:00:37,459 --> 00:00:34,829
Rico and she has chartered planes to fly

12
00:00:41,360 --> 00:00:37,469
supplies into ravaged Puerto Rico and

13
00:00:43,819 --> 00:00:41,370

fly the sick out Rosanna Guernica is 22

14

00:00:46,340 --> 00:00:43,829

she's a junior majoring in decision

15

00:00:48,319 --> 00:00:46,350

sciences she heard so many stories about

16

00:00:50,840 --> 00:00:48,329

people getting off the island by

17

00:00:53,360 --> 00:00:50,850

chartering private planes she took that

18

00:00:55,660 --> 00:00:53,370

idea and used it to raise money for a

19

00:00:58,729 --> 00:00:55,670

plane to fly in medical supplies and

20

00:01:01,160 --> 00:00:58,739

evacuate the most sick her grandmother

21

00:01:03,529 --> 00:01:01,170

told her it was a crazy idea but that's

22

00:01:04,579 --> 00:01:03,539

exactly what Granick has done not once

23

00:01:07,580 --> 00:01:04,589

but twice

24

00:01:10,219 --> 00:01:07,590

only a week after Hurricane Maria was

25

00:01:12,620 --> 00:01:10,229

over Guernica set up a crowdfunding page

26
00:01:15,109 --> 00:01:12,630
she sought contributions from everybody

27
00:01:17,330 --> 00:01:15,119
on her contact list asking them to share

28
00:01:19,460 --> 00:01:17,340
that message with others she said quote

29
00:01:21,920 --> 00:01:19,470
we are desperate to help the island and

30
00:01:23,929 --> 00:01:21,930
don't seem to know how by the time

31
00:01:25,760 --> 00:01:23,939
normal distribution channels open it

32
00:01:28,850 --> 00:01:25,770
will be too late for the people who need

33
00:01:32,090 --> 00:01:28,860
it the most and quotes so up she stepped

34
00:01:34,370 --> 00:01:32,100
or rather we should say in she flew she

35
00:01:36,649 --> 00:01:34,380
raised seven thousand dollars in 24

36
00:01:38,810 --> 00:01:36,659
hours with that crowdfunding eleven

37
00:01:40,880 --> 00:01:38,820
thousand dollars by the following day by

38
00:01:43,039 --> 00:01:40,890

the middle of last week she had forty

39

00:01:44,719 --> 00:01:43,049

eight thousand dollars she spent the

40

00:01:46,819 --> 00:01:44,729

first twenty thousand in donations to

41

00:01:48,499 --> 00:01:46,829

take one thousand pounds that's four

42

00:01:51,590 --> 00:01:48,509

hundred and fifty three kilograms of

43

00:01:54,499 --> 00:01:51,600

supplies to the island including infant

44

00:01:57,410 --> 00:01:54,509

formula batteries water water filters

45

00:02:00,830 --> 00:01:57,420

medicine and medical supplies and she

46

00:02:03,620 --> 00:02:00,840

also brought back six evacuees said an

47

00:02:06,139 --> 00:02:03,630

English associate dean for finance and

48

00:02:08,150 --> 00:02:06,149

operations at the Heinz College of

49

00:02:11,720 --> 00:02:08,160

information systems in public policy

50

00:02:13,250 --> 00:02:11,730

quote I'm absolutely in awe of her the

51
00:02:13,790 --> 00:02:13,260
first time I met with her I told her I

52
00:02:16,220 --> 00:02:13,800
did

53
00:02:18,320 --> 00:02:16,230
know whether to think she was crazy or

54
00:02:20,810 --> 00:02:18,330
the most determined and passionate

55
00:02:22,190 --> 00:02:20,820
student I've ever heard of and quotes

56
00:02:25,640 --> 00:02:22,200
said at English

57
00:02:27,980 --> 00:02:25,650
kudos to miss Guernica outstanding

58
00:02:30,170 --> 00:02:27,990
let's check the heavens and see what

59
00:02:33,350 --> 00:02:30,180
they promise what we can look at tonight

60
00:02:36,770 --> 00:02:33,360
and as usual we meander over to earth

61
00:02:40,910 --> 00:02:36,780
sky org here's the headline watch for

62
00:02:42,680 --> 00:02:40,920
zodiacal light or false dawn well we've

63
00:02:43,910 --> 00:02:42,690

talked about this before it's a

64

00:02:46,520 --> 00:02:43,920

fascinating thing

65

00:02:49,670 --> 00:02:46,530

lots of legends connected but here's the

66

00:02:52,250 --> 00:02:49,680

straight stuff the autumn equinox came

67

00:02:54,170 --> 00:02:52,260

on September 22nd for those of us living

68

00:02:56,120 --> 00:02:54,180

in the northern hemisphere and that

69

00:02:58,550 --> 00:02:56,130

means these autumn mornings present a

70

00:03:01,610 --> 00:02:58,560

good time of year to see these zodiacal

71

00:03:04,670 --> 00:03:01,620

light which also carries the name false

72

00:03:06,770 --> 00:03:04,680

dawn with the moon out of the morning

73

00:03:08,990 --> 00:03:06,780

sky for the next two weeks this is your

74

00:03:12,140 --> 00:03:09,000

chance to catch that zodiacal light in

75

00:03:15,230 --> 00:03:12,150

the east before Dawn's first light Oh

76

00:03:16,880 --> 00:03:15,240

set the alarm if you're in the southern

77

00:03:19,220 --> 00:03:16,890

hemisphere where the spring equinox

78

00:03:21,100 --> 00:03:19,230

happened a few weeks ago the zodiacal

79

00:03:23,660 --> 00:03:21,110

light appears in your western sky

80

00:03:24,490 --> 00:03:23,670

beginning about an hour after the Sun

81

00:03:26,930 --> 00:03:24,500

Goes Down

82

00:03:29,300 --> 00:03:26,940

Bruce McClure who writes this article

83

00:03:31,520 --> 00:03:29,310

says the slender waning crescent moon

84

00:03:33,350 --> 00:03:31,530

shouldn't really intrude on the zodiac a

85

00:03:36,229 --> 00:03:33,360

light for instance tomorrow morning

86

00:03:39,290 --> 00:03:36,239

October 18 there's a chart you can find

87

00:03:41,600 --> 00:03:39,300

later at UFO headline news calm you can

88

00:03:44,240 --> 00:03:41,610

find out when astronomical Twilight

89

00:03:47,150 --> 00:03:44,250

begins and when the moon rises in your

90

00:03:49,670 --> 00:03:47,160

sky this light can be noticeable and

91

00:03:52,100 --> 00:03:49,680

easy to find from latitudes relatively

92

00:03:53,890 --> 00:03:52,110

close to the earth's equator for example

93

00:03:56,720 --> 00:03:53,900

like those in the southern United States

94

00:03:59,090 --> 00:03:56,730

Earth's skies own Deborah bird says

95

00:04:01,190 --> 00:03:59,100

she's seen it many times in the latitude

96

00:04:03,830 --> 00:04:01,200

of southern Texas sometimes while

97

00:04:07,070 --> 00:04:03,840

driving a lonely Highway far from city

98

00:04:09,650 --> 00:04:07,080

lights in that hour or so before true

99

00:04:11,960 --> 00:04:09,660

dawn begins to light the sky in that

100

00:04:14,900 --> 00:04:11,970

case the zodiacal light can resemble the

101
00:04:17,780 --> 00:04:14,910
lights of a city or a town just over the

102
00:04:19,250 --> 00:04:17,790
horizon meanwhile sky watchers in the

103
00:04:22,039 --> 00:04:19,260
northern united states or canada

104
00:04:24,290 --> 00:04:22,049
sometimes say wistfully that they've

105
00:04:26,029 --> 00:04:24,300
never seen it although in recent years

106
00:04:27,710 --> 00:04:26,039
there have been lots of photographs of

107
00:04:30,950 --> 00:04:27,720
that light taken from the

108
00:04:33,680 --> 00:04:30,960
exact northerly latitudes so don't give

109
00:04:36,110 --> 00:04:33,690
up yep you'll need that proverbial dark

110
00:04:38,420 --> 00:04:36,120
sky location to see it someplace where

111
00:04:41,300 --> 00:04:38,430
city lights aren't obscuring the natural

112
00:04:44,390 --> 00:04:41,310
lights in the sky the zodiacal light is

113
00:04:46,640 --> 00:04:44,400

described as pyramid-shaped a glow in

114

00:04:49,160 --> 00:04:46,650

the east before dawn or southern

115

00:04:51,890 --> 00:04:49,170

hemisphere folks the Twilight ending in

116

00:04:53,840 --> 00:04:51,900

the evening it's even milky right now in

117

00:04:57,110 --> 00:04:53,850

appearance than the starlit trail of our

118

00:04:59,180 --> 00:04:57,120

very own a summer Milky Way its most

119

00:05:01,460 --> 00:04:59,190

visible before dawn this time of year

120

00:05:04,160 --> 00:05:01,470

because as seen from the northern

121

00:05:06,650 --> 00:05:04,170

hemisphere that ecliptic thing the path

122

00:05:08,780 --> 00:05:06,660

of the Sun Moon and planets it stands

123

00:05:11,270 --> 00:05:08,790

nearly straight up with respect to the

124

00:05:13,340 --> 00:05:11,280

eastern horizon before dawn and the

125

00:05:16,250 --> 00:05:13,350

southern horizon the same is true for

126
00:05:19,610 --> 00:05:16,260
the western horizon after true darkness

127
00:05:21,980 --> 00:05:19,620
falls just the rivers the zodiacal light

128
00:05:24,890 --> 00:05:21,990
can be seen for up to an hour or so

129
00:05:27,770 --> 00:05:24,900
before true dawn begins to break try

130
00:05:30,710 --> 00:05:27,780
looking for at about 80 to 120 minutes

131
00:05:33,440 --> 00:05:30,720
before sunrise unlike true dawn though

132
00:05:35,780 --> 00:05:33,450
there's no rosy color to the zodiacal

133
00:05:38,510 --> 00:05:35,790
light the Redi skies at dawn and dusk

134
00:05:40,850 --> 00:05:38,520
are actually caused by atmosphere and

135
00:05:43,970 --> 00:05:40,860
the zodiacal light originates far

136
00:05:46,400 --> 00:05:43,980
outside our atmosphere when you see the

137
00:05:50,210 --> 00:05:46,410
zodiacal light you are actually looking

138
00:05:52,250 --> 00:05:50,220

edgewise into our own solar system the

139

00:05:54,950 --> 00:05:52,260

zodiacal light is actually sunlight

140

00:05:57,080 --> 00:05:54,960

reflecting off dust particles that move

141

00:06:00,020 --> 00:05:57,090

in the same plane as Earth and the other

142

00:06:02,900 --> 00:06:00,030

planets that orbit our Sun so here's

143

00:06:05,930 --> 00:06:02,910

that bottom line no matter where you are

144

00:06:07,880 --> 00:06:05,940

on earth your local autumn is the best

145

00:06:11,600 --> 00:06:07,890

time to see the zodiacal light before

146

00:06:13,280 --> 00:06:11,610

dawn so early to bed early to rise might

147

00:06:16,820 --> 00:06:13,290

provide you with a glimpse of that

148

00:06:19,130 --> 00:06:16,830

zodiacal light on the heels of

149

00:06:21,350 --> 00:06:19,140

yesterday's fabulous announcement the

150

00:06:23,600 --> 00:06:21,360

LIGO Virgo announcement of the first

151
00:06:26,420 --> 00:06:23,610
detection of gravitational waves

152
00:06:29,210 --> 00:06:26,430
produced by colliding neutron stars

153
00:06:31,850 --> 00:06:29,220
here's something else interesting not

154
00:06:34,970 --> 00:06:31,860
connected but in other words we're on

155
00:06:37,659 --> 00:06:34,980
our way to new discoveries daily here's

156
00:06:41,119 --> 00:06:37,669
the headline NASA hasn't confirmed

157
00:06:43,999 --> 00:06:41,129
existence of Planet 9 what we know

158
00:06:44,809 --> 00:06:44,009
about the planet at the edge of the

159
00:06:46,969 --> 00:06:44,819
solar system

160
00:06:49,219 --> 00:06:46,979
Hannah Osborn who writes this for

161
00:06:52,790 --> 00:06:49,229
Newsweek chooses to put the word planet

162
00:06:55,820 --> 00:06:52,800
in quotes well that's news week for you

163
00:06:58,369 --> 00:06:55,830

here's the article contrary to reports

164

00:07:00,919 --> 00:06:58,379

nASA has not confirmed the existence of

165

00:07:03,049 --> 00:07:00,929

Planet nine that giant hypothetical

166

00:07:06,229 --> 00:07:03,059

object believed to be lurking at the

167

00:07:08,629 --> 00:07:06,239

edges of the solar system but what the

168

00:07:10,879 --> 00:07:08,639

Space Agency has said is that evidence

169

00:07:13,879 --> 00:07:10,889

is currently pointing towards it being

170

00:07:16,820 --> 00:07:13,889

real and that scientists might be

171

00:07:19,579 --> 00:07:16,830

starting to close in on it the idea

172

00:07:21,199 --> 00:07:19,589

behind Planet nine is not new scientists

173

00:07:24,049 --> 00:07:21,209

have argued there is a ninth planet

174

00:07:26,540 --> 00:07:24,059

after Pluto was downgraded to dwarf

175

00:07:29,570 --> 00:07:26,550

planet sitting somewhere beyond Neptune

176
00:07:31,339 --> 00:07:29,580
they've been saying this since 2014 two

177
00:07:33,859 --> 00:07:31,349
years later a team from Caltech

178
00:07:35,540 --> 00:07:33,869
presented evidence to show something was

179
00:07:38,839 --> 00:07:35,550
disturbing the orbits of the Kuiper belt

180
00:07:41,779 --> 00:07:38,849
objects KBO's the Kuiper belt is that

181
00:07:44,929 --> 00:07:41,789
huge shell of icy objects that encases

182
00:07:47,509 --> 00:07:44,939
the solar system the weird orbits of

183
00:07:49,989 --> 00:07:47,519
these KBO's could only be explained if

184
00:07:52,489 --> 00:07:49,999
there was a massive object nearby

185
00:07:55,009 --> 00:07:52,499
exerting a gravitational influence on

186
00:07:57,559 --> 00:07:55,019
them and a recent press release NASA

187
00:08:01,519 --> 00:07:57,569
notes that the signs of Planet 9 are

188
00:08:04,459 --> 00:08:01,529

quote so far in direct end quotes but

189

00:08:07,819 --> 00:08:04,469

that the KBO observation added up to a

190

00:08:11,239 --> 00:08:07,829

quote compelling case end quotes for its

191

00:08:13,309 --> 00:08:11,249

existing quote there are now five

192

00:08:15,109 --> 00:08:13,319

different lines of observational

193

00:08:17,569 --> 00:08:15,119

evidence pointing to the existence of

194

00:08:19,609 --> 00:08:17,579

Planet nine and quotes those are the

195

00:08:21,949 --> 00:08:19,619

words of Konstantin batygin he's a

196

00:08:24,949 --> 00:08:21,959

planetary astrophysicist at Caltech and

197

00:08:27,259 --> 00:08:24,959

very involved in this project he

198

00:08:30,409 --> 00:08:27,269

continues quote if you were to remove

199

00:08:33,139 --> 00:08:30,419

this explanation and imagine Planet 9

200

00:08:35,659 --> 00:08:33,149

does not exist then you generate more

201
00:08:38,179 --> 00:08:35,669
problems than you solve all of a sudden

202
00:08:39,559 --> 00:08:38,189
you have five different puzzles and you

203
00:08:41,839 --> 00:08:39,569
must come up with five different

204
00:08:44,929 --> 00:08:41,849
theories to explain them and quotes as

205
00:08:47,329 --> 00:08:44,939
well as the Kuiper belt objects planet

206
00:08:48,920 --> 00:08:47,339
nines existence also helps explain why

207
00:08:52,160 --> 00:08:48,930
all the other planets in the solar

208
00:08:54,520 --> 00:08:52,170
system have that tilt a six degree tilt

209
00:08:56,350 --> 00:08:54,530
compared to the sun's equator

210
00:08:59,110 --> 00:08:56,360
computer simulations show that planet

211
00:09:02,590 --> 00:08:59,120
nine would make the whole system wobble

212
00:09:04,390 --> 00:09:02,600
creating what we see today at present

213
00:09:06,940 --> 00:09:04,400

planet nine is estimated to have a mass

214

00:09:08,410 --> 00:09:06,950

about ten times that of Earth and is

215

00:09:10,420 --> 00:09:08,420

orbiting the Sun at a distance

216

00:09:13,420 --> 00:09:10,430

twenty times farther from Earth than

217

00:09:16,090 --> 00:09:13,430

Neptune there are two prevalent

218

00:09:18,820 --> 00:09:16,100

hypotheses about how it ended up so far

219

00:09:21,280 --> 00:09:18,830

out one is that it started life in the

220

00:09:23,530 --> 00:09:21,290

inner solar system but was kicked out by

221

00:09:26,320 --> 00:09:23,540

gravitational interactions with Jupiter

222

00:09:29,140 --> 00:09:26,330

and Saturn the other explanation it's an

223

00:09:32,500 --> 00:09:29,150

exoplanet from another solar system that

224

00:09:35,170 --> 00:09:32,510

our Sun managed to commandeer without

225

00:09:37,750 --> 00:09:35,180

finding planet 9 we will not be able to

226

00:09:40,420 --> 00:09:37,760

say where it came from and the hunt is

227

00:09:42,640 --> 00:09:40,430

now on to find it citizen scientists

228

00:09:45,250 --> 00:09:42,650

project including one led by NASA are

229

00:09:47,170 --> 00:09:45,260

being run across the globe inviting

230

00:09:50,350 --> 00:09:47,180

members of the public to help track down

231

00:09:54,130 --> 00:09:50,360

this hidden world so if it exists

232

00:09:55,990 --> 00:09:54,140

when will it be found enter Dmitri verus

233

00:09:58,210 --> 00:09:56,000

from the University of Warwick in the

234

00:10:01,180 --> 00:09:58,220

United Kingdom he recently told Newsweek

235

00:10:03,400 --> 00:10:01,190

magazine that to hone in on planet 9

236

00:10:05,440 --> 00:10:03,410

location we will need to find more

237

00:10:09,130 --> 00:10:05,450

evidence of its gravitational influence

238

00:10:10,810 --> 00:10:09,140

on the outer solar system but if more

239

00:10:13,510 --> 00:10:10,820

Kuiper belt objects are discovered

240

00:10:16,120 --> 00:10:13,520

objects which have clustered orbital

241

00:10:18,540 --> 00:10:16,130

elements then the suggestion for planet

242

00:10:20,860 --> 00:10:18,550

nines existence becomes stronger and

243

00:10:23,380 --> 00:10:20,870

constraints on the location of planet 9

244

00:10:26,650 --> 00:10:23,390

would improve the mystery will be solved

245

00:10:28,780 --> 00:10:26,660

only if we find planet 9 because our

246

00:10:31,510 --> 00:10:28,790

detection capabilities for such faraway

247

00:10:33,820 --> 00:10:31,520

objects are limited if the object is

248

00:10:36,160 --> 00:10:33,830

small enough dark enough and far away

249

00:10:38,650 --> 00:10:36,170

enough then we won't find it with

250

00:10:43,120 --> 00:10:38,660

current technology and we will just have

251
00:10:45,790 --> 00:10:43,130
to wait oh the wait well we don't have

252
00:10:47,410 --> 00:10:45,800
to wait for a UFO story here's one right

253
00:10:50,410 --> 00:10:47,420
now I would have Florida

254
00:10:52,800 --> 00:10:50,420
thanks to open minds dot TV posted by

255
00:10:56,590 --> 00:10:52,810
Alejandro Rojas here's the headline

256
00:11:00,040 --> 00:10:56,600
Florida witness reports rectangular UFO

257
00:11:02,370 --> 00:11:00,050
near Tampa Bay it's an intriguing new

258
00:11:04,780 --> 00:11:02,380
shape being reported here's the story a

259
00:11:08,110 --> 00:11:04,790
witness in Tarpon Springs Florida

260
00:11:09,850 --> 00:11:08,120
observed a rectangular UFO during the

261
00:11:12,970 --> 00:11:09,860
day and that's according to a report

262
00:11:16,450 --> 00:11:12,980
submitted to mutual UFO network what we

263
00:11:18,310 --> 00:11:16,460

call MUFON same day report according to

264

00:11:20,820 --> 00:11:18,320

the witness he had gone outside to smoke

265

00:11:23,829 --> 00:11:20,830

a cigarette when he noticed a flat

266

00:11:25,930 --> 00:11:23,839

rectangular object under the clouds

267

00:11:27,640 --> 00:11:25,940

he says the area has a lot of traffic

268

00:11:30,340 --> 00:11:27,650

and at first he thought it might be a

269

00:11:33,010 --> 00:11:30,350

helicopter but he soon realized it was

270

00:11:35,920 --> 00:11:33,020

not after a few seconds of watching it

271

00:11:37,840 --> 00:11:35,930

the object zipped off the witness

272

00:11:40,360 --> 00:11:37,850

estimated this object to be about a

273

00:11:42,490 --> 00:11:40,370

hundred miles away out over the Gulf of

274

00:11:44,019 --> 00:11:42,500

Mexico he said it was headed south

275

00:11:46,360 --> 00:11:44,029

towards the coast of Tampa

276

00:11:48,730 --> 00:11:46,370

he drew a map you can find that map

277

00:11:51,390 --> 00:11:48,740

later gentle listeners at UFO headline

278

00:11:54,070 --> 00:11:51,400

news it shows the path of the object

279

00:11:56,590 --> 00:11:54,080

there's another strange aspect to his

280

00:11:59,350 --> 00:11:56,600

sighting the witness claims he saw spots

281

00:12:00,700 --> 00:11:59,360

when he closed his eyes apparently like

282

00:12:03,700 --> 00:12:00,710

those when you look at a bright object

283

00:12:06,160 --> 00:12:03,710

like the Sun or old-fashioned flash bulb

284

00:12:08,470 --> 00:12:06,170

but cameras but the witness says he was

285

00:12:12,100 --> 00:12:08,480

not looking in the sun's direction

286

00:12:13,150 --> 00:12:12,110

here's his report verbatim came outside

287

00:12:15,790 --> 00:12:13,160

for a smoke

288

00:12:16,329 --> 00:12:15,800

facing west on a clear sunny day a few

289

00:12:21,760 --> 00:12:16,339

clouds

290

00:12:23,949 --> 00:12:21,770

it was 1127 a.m. on 10 1617 we have a

291

00:12:27,519 --> 00:12:23,959

lot of air traffic in the Tampa Bay area

292

00:12:30,460 --> 00:12:27,529

I noticed a dark rectangular object at

293

00:12:32,980 --> 00:12:30,470

33 degrees to the northwest it was over

294

00:12:35,980 --> 00:12:32,990

a mile away at first I thought it was a

295

00:12:38,320 --> 00:12:35,990

bird gliding it was dark with no

296

00:12:40,180 --> 00:12:38,330

reflection from the Sun the Sun was

297

00:12:42,699 --> 00:12:40,190

still in the east and the object was in

298

00:12:45,280 --> 00:12:42,709

the West so it should have been bright

299

00:12:47,560 --> 00:12:45,290

if it were a plane we are subject to

300

00:12:50,050 --> 00:12:47,570

military aircraft such as Black Hawk

301
00:12:52,510 --> 00:12:50,060
helicopters this particular object

302
00:12:54,820 --> 00:12:52,520
appeared to be rectangular it moved

303
00:12:57,340 --> 00:12:54,830
south in front of the clouds for several

304
00:12:59,380 --> 00:12:57,350
seconds in less than a mile and

305
00:13:02,590 --> 00:12:59,390
approximately a hundred miles per hour

306
00:13:05,290 --> 00:13:02,600
it vanished in less than a mile at

307
00:13:07,780 --> 00:13:05,300
approximately 100 miles per hour it just

308
00:13:10,300 --> 00:13:07,790
vanished no cloud cover when this

309
00:13:12,550 --> 00:13:10,310
happened I visually tracked it's known

310
00:13:16,120 --> 00:13:12,560
path for a while to see whether it would

311
00:13:19,030 --> 00:13:16,130
emerge it did not and then I noticed my

312
00:13:21,910 --> 00:13:19,040
eyes were full of spots every time I

313
00:13:26,340 --> 00:13:21,920

blinked similar to a photo flash but

314

00:13:29,139 --> 00:13:26,350

a 20 by 20 grid pattern a grid of dots

315

00:13:31,240 --> 00:13:29,149

this is not unusual looking up in the

316

00:13:34,740 --> 00:13:31,250

sky in Florida but not when looking away

317

00:13:37,720 --> 00:13:34,750

from the Sun and not in a grid pattern

318

00:13:40,660 --> 00:13:37,730

not sure what I saw due to its distance

319

00:13:43,600 --> 00:13:40,670

I know I was fully awake and conscious I

320

00:13:45,670 --> 00:13:43,610

saw this event clearly the object would

321

00:13:48,579 --> 00:13:45,680

have been out over the Gulf of Mexico at

322

00:13:50,610 --> 00:13:48,589

least a mile out say we wonder if

323

00:13:53,550 --> 00:13:50,620

there's a market for UFO filter

324

00:13:55,900 --> 00:13:53,560

sunglasses screen out those pesky

325

00:13:59,530 --> 00:13:55,910

unidentified flying lights from your

326

00:14:02,439 --> 00:13:59,540

eyes oh just a thought this broadcaster

327

00:14:05,500 --> 00:14:02,449

had a very interesting evening thanks to

328

00:14:08,860 --> 00:14:05,510

a tip that was embedded in a UFO report

329

00:14:12,400 --> 00:14:08,870

from UFO stalker comm we were able to

330

00:14:17,740 --> 00:14:12,410

watch a striking documentary the title

331

00:14:20,650 --> 00:14:17,750

it's 10110 - you can find it on YouTube

332

00:14:24,069 --> 00:14:20,660

we did it's about an hour long it is the

333

00:14:26,980 --> 00:14:24,079

most credible thing very well shot and

334

00:14:28,780 --> 00:14:26,990

you can see the body language of the

335

00:14:30,280 --> 00:14:28,790

witnesses as they discuss their

336

00:14:33,370 --> 00:14:30,290

experience you get to watch the

337

00:14:36,160 --> 00:14:33,380

polygraph tests tests they voluntarily

338

00:14:38,530 --> 00:14:36,170

took and passed by the way the most

339

00:14:41,170 --> 00:14:38,540

curious thing of all to this broadcaster

340

00:14:44,620 --> 00:14:41,180

was the small number of views this has

341

00:14:46,540 --> 00:14:44,630

had on YouTube something like 350 as of

342

00:14:48,759 --> 00:14:46,550

last night check it out if you've got

343

00:14:52,420 --> 00:14:48,769

the time in fact we'll just toss a link

344

00:14:55,420 --> 00:14:52,430

in to UFO headline news com later for

345

00:14:57,699 --> 00:14:55,430

your perusal and enjoyment here's how we

346

00:15:01,060 --> 00:14:57,709

found the particular link to that

347

00:15:03,250 --> 00:15:01,070

particular hey girl have you done

snake charmer surprising what's not

354

00:15:22,740 --> 00:15:20,480

surprising how much you could save by

it's move on case number 8 7 3 7 9 the

359

00:15:38,759 --> 00:15:35,300

date of this case is 10-4

360

00:15:41,860 --> 00:15:38,769

in 2017 it was reported two days later

361

00:15:44,680 --> 00:15:41,870

here's the summary while stargazing I

362

00:15:46,780 --> 00:15:44,690

noticed a lights appear out of nowhere

363

00:15:50,230 --> 00:15:46,790

watched it fly over us till it

364

00:15:52,780 --> 00:15:50,240

disappeared Fresno California is the

365

00:15:55,930 --> 00:15:52,790

location the viewing distance over one

366

00:15:58,240 --> 00:15:55,940

mile the altitude over 500 feet without

367

00:16:00,579 --> 00:15:58,250

cloud cover the sighting duration one

368

00:16:03,970 --> 00:16:00,589

minute and 15 seconds object features

369

00:16:06,690 --> 00:16:03,980

unknown flight path straight line path

370

00:16:10,449 --> 00:16:06,700

and this object was shaped like a sphere

371

00:16:13,000 --> 00:16:10,459

here's the account after watching the

372

00:16:15,579 --> 00:16:13,010

documentary 10110

373

00:16:17,920 --> 00:16:15,589

to me and a couple of buddies were very

374

00:16:20,170 --> 00:16:17,930

intrigued and interested to say the

375

00:16:23,050 --> 00:16:20,180

least mostly because this all happened

376

00:16:26,410 --> 00:16:23,060

so close to home last year we went out

377

00:16:28,480 --> 00:16:26,420

during the day I had talked to Ken from

378

00:16:30,790 --> 00:16:28,490

the documentary about the location of

379

00:16:32,889 --> 00:16:30,800

his encounter and of course nothing

380

00:16:35,139 --> 00:16:32,899

happened but it was just neat to be in

381

00:16:36,940 --> 00:16:35,149

the area after sharing with an old

382

00:16:39,370 --> 00:16:36,950

friend of mine the documentary

383

00:16:41,620 --> 00:16:39,380

information and the location I then

384

00:16:43,920 --> 00:16:41,630

suggested we go camping

385

00:16:46,389 --> 00:16:43,930

drive out to that location at night

386

00:16:48,970 --> 00:16:46,399

immediately he was like hell yeah I'll

387

00:16:52,240 --> 00:16:48,980

go all together there were only three of

388

00:16:54,760 --> 00:16:52,250

us that ended up going we camped out it

389

00:16:57,310 --> 00:16:54,770

was a place we'd been to many times it's

390

00:17:00,130 --> 00:16:57,320

called sawmill flat we got there on a

391

00:17:03,460 --> 00:17:00,140

Friday set up camp and then drove up to

392

00:17:05,650 --> 00:17:03,470

Kortright reservoir for a little hike

393

00:17:08,380 --> 00:17:05,660

and fishing during the day the next day

394

00:17:10,689 --> 00:17:08,390

Saturday we decided let's just hang out

395

00:17:14,140 --> 00:17:10,699

and relax all day later on that

396

00:17:16,090 --> 00:17:14,150

afternoon we asked ourselves so are we

397

00:17:18,610 --> 00:17:16,100

gonna go tonight or not

398

00:17:21,370 --> 00:17:18,620

of course we decided we might as well

399

00:17:23,919 --> 00:17:21,380

that's why we came up here so after

400

00:17:26,770 --> 00:17:23,929

dinner we loaded into my buddy's Hummer

401
00:17:29,680 --> 00:17:26,780
and took the crews up got off the road

402
00:17:32,620 --> 00:17:29,690
trail about 6 p.m. it took us an hour to

403
00:17:34,780 --> 00:17:32,630
get through that 3 mile hike and when we

404
00:17:35,680 --> 00:17:34,790
got to the campsite on the eastern edge

405
00:17:38,409 --> 00:17:35,690
of the lake

406
00:17:40,840 --> 00:17:38,419
we got off the path walked down to the

407
00:17:43,390 --> 00:17:40,850
Lake Beach area by this time it was

408
00:17:46,060 --> 00:17:43,400
pretty dark for the first 30 minutes or

409
00:17:49,310 --> 00:17:46,070
so we just gazed at the Stars it was a

410
00:17:53,840 --> 00:17:49,320
clear night no moon my buddy Rob

411
00:17:55,700 --> 00:17:53,850
at best like diamonds in the sky I could

412
00:17:58,549 --> 00:17:55,710
tell we were going to leave soon so I

413
00:18:02,720 --> 00:17:58,559

turned to gaze up at the North Star area

414

00:18:04,909 --> 00:18:02,730

as it was lit like a candle when all of

415

00:18:07,490 --> 00:18:04,919

a sudden out of nowhere I noticed this

416

00:18:09,950 --> 00:18:07,500

lights appear the other two didn't

417

00:18:12,499 --> 00:18:09,960

notice I didn't say anything for the

418

00:18:14,960 --> 00:18:12,509

first five to seven seconds and after I

419

00:18:18,049 --> 00:18:14,970

ruled okay that thing has no blinking

420

00:18:20,570 --> 00:18:18,059

lights or any type of motor noise I tell

421

00:18:22,879 --> 00:18:20,580

my buddies hey check out this light that

422

00:18:25,249 --> 00:18:22,889

appears to be heading our way for the

423

00:18:28,549 --> 00:18:25,259

next 10 seconds we all stared at it

424

00:18:31,700 --> 00:18:28,559

again ruling out a possible plane or any

425

00:18:34,850 --> 00:18:31,710

normal obvious flying object what we're

426

00:18:38,060 --> 00:18:34,860

all used to seeing on the daily I could

427

00:18:40,430 --> 00:18:38,070

swear I witnessed it wiggle side to side

428

00:18:42,799 --> 00:18:40,440

but my buddy says that's your eyes

429

00:18:45,139 --> 00:18:42,809

playing tricks so I looked away for a

430

00:18:48,470 --> 00:18:45,149

second or two to refocus I look back up

431

00:18:51,080 --> 00:18:48,480

and by this time my buddy pulls out his

432

00:18:53,419 --> 00:18:51,090

phone and starts recording after a few

433

00:18:57,080 --> 00:18:53,429

seconds I know for a fact I see it

434

00:18:59,419 --> 00:18:57,090

wiggle again side to side one of my

435

00:19:02,869 --> 00:18:59,429

buddies immediately got shaken up he

436

00:19:04,580 --> 00:19:02,879

asked to leave three different times we

437

00:19:07,039 --> 00:19:04,590

watched this thing fly directly over us

438

00:19:09,740 --> 00:19:07,049

west to east and then it crossed over

439

00:19:12,379 --> 00:19:09,750

till we watched it go nearing the tree

440

00:19:16,879 --> 00:19:12,389

road the high peak behind us and then

441

00:19:18,830 --> 00:19:16,889

poof it simply disappeared I am 100%

442

00:19:23,149 --> 00:19:18,840

convinced this wasn't a normal aircraft

443

00:19:25,159 --> 00:19:23,159

I won't mention my buddy's name he works

444

00:19:27,919 --> 00:19:25,169

for an organization I'd rather not

445

00:19:30,470 --> 00:19:27,929

mention but I will say this he's an

446

00:19:32,600 --> 00:19:30,480

aircraft mechanic who is now an

447

00:19:35,659 --> 00:19:32,610

investigator of plane crashes

448

00:19:38,269 --> 00:19:35,669

if anybody can officially rule out what

449

00:19:40,360 --> 00:19:38,279

we saw as an aircraft it would be him a

450

00:19:43,039 --> 00:19:40,370

professional at hand

451
00:19:45,799 --> 00:19:43,049
we went there hoping to see something

452
00:19:47,960 --> 00:19:45,809
maybe just out for excitement but

453
00:19:50,720 --> 00:19:47,970
honestly we didn't think that we would

454
00:19:52,600 --> 00:19:50,730
get something way more than we bargained

455
00:19:55,909 --> 00:19:52,610
for something we'll never forget

456
00:19:58,460 --> 00:19:55,919
probably not the best idea but we're

457
00:20:00,590 --> 00:19:58,470
already talking about going up again for

458
00:20:03,079 --> 00:20:00,600
the night in a few weeks

459
00:20:05,930 --> 00:20:03,089
oh if they

460
00:20:09,499 --> 00:20:05,940
we hope they keep us posted what a saga

461
00:20:11,569 --> 00:20:09,509
we've come to the close of our daily UFO

462
00:20:13,519 --> 00:20:11,579
saga we hope you've enjoyed it

463
00:20:15,919 --> 00:20:13,529

yikes we see a light coming in our

464

00:20:18,409 --> 00:20:15,929

direction oh it's just that friendly

465

00:20:22,069 --> 00:20:18,419

alarm light signaling that we're out of

466

00:20:23,779 --> 00:20:22,079

time we've got to fly because that's a

467

00:20:26,209 --> 00:20:23,789
