

 UFO Headline News Weekend of Saturday October 14th/Sunday October 15th, 2017

 Listen on
inceptionradionetwork.com

1
00:00:05,780 --> 00:00:03,530
and Sunday October 15th 2017 you are

2
00:00:08,270 --> 00:00:05,790
listening to inception radio network

3
00:00:10,570 --> 00:00:08,280
voice of the fringe majority this is

4
00:00:14,060 --> 00:00:10,580
Carole Cara with off-the-beaten-path

5
00:00:16,430 --> 00:00:14,070
this weekend our path begins in fire

6
00:00:19,700 --> 00:00:16,440
ravaged California where we find this

7
00:00:22,730 --> 00:00:19,710
amazing headline Guy Fieri cooks

8
00:00:25,640 --> 00:00:22,740
barbecue for evacuees of California

9
00:00:27,230 --> 00:00:25,650
wildfires well in case you don't know

10
00:00:29,929 --> 00:00:27,240
this individual we didn't

11
00:00:33,080 --> 00:00:29,939
he's a Food Network Star his name is Guy

12
00:00:36,200 --> 00:00:33,090
Fieri and he teamed up on Thursday with

13
00:00:37,549 --> 00:00:36,210

the Salvation Army in fire ravaged Santa

14

00:00:39,920 --> 00:00:37,559

Rosa California they cooked for

15

00:00:42,500 --> 00:00:39,930

thousands of people people who had had

16

00:00:44,690 --> 00:00:42,510

to evacuate their homes Fieri and his

17

00:00:46,310 --> 00:00:44,700

workers assembled a mobile kitchen at

18

00:00:48,709 --> 00:00:46,320

the Santa Rosa Veterans Memorial

19

00:00:52,549 --> 00:00:48,719

buildings parking lot they set up camp

20

00:00:54,170 --> 00:00:52,559

this is according to KTVU Fieri said he

21

00:00:57,200 --> 00:00:54,180

and his team would be cooking lunch and

22

00:00:59,090 --> 00:00:57,210

dinner for evacuees until Saturday he

23

00:01:01,849 --> 00:00:59,100

said quote this is the least we can do

24

00:01:03,799 --> 00:01:01,859

we're so happy to be able to do it we're

25

00:01:05,630 --> 00:01:03,809

so sorry for friends who've lost their

26

00:01:08,510 --> 00:01:05,640

homes there's a lot of really good

27

00:01:10,370 --> 00:01:08,520

people coming together and quotes the

28

00:01:12,820 --> 00:01:10,380

meals were also being transported due to

29

00:01:15,620 --> 00:01:12,830

other evacuation shelters in Santa Rosa

30

00:01:18,260 --> 00:01:15,630

guy fieri said his wife woke him up

31

00:01:21,950 --> 00:01:18,270

Monday they live in Santa Rosa they woke

32

00:01:24,440 --> 00:01:21,960

two wildfires and smoke said Fieri quote

33

00:01:27,710 --> 00:01:24,450

the smoke was really bad this is what he

34

00:01:29,330 --> 00:01:27,720

told KQED quote we had to evacuate at

35

00:01:31,819 --> 00:01:29,340

2:00 in the morning we grabbed what we

36

00:01:34,190 --> 00:01:31,829

could taking pictures off the wall as

37

00:01:36,620 --> 00:01:34,200

fast as we could we loaded in the dogs

38

00:01:39,109 --> 00:01:36,630

jumped in the truck and away we went

39

00:01:41,330 --> 00:01:39,119

end quotes he then called the Salvation

40

00:01:44,510 --> 00:01:41,340

Army in Santa Rosa and he said quote I'm

41

00:01:47,749 --> 00:01:44,520

ready I've got an army I'm ready to help

42

00:01:50,149 --> 00:01:47,759

and they said bring it end quotes so

43

00:01:52,940 --> 00:01:50,159

that day saw Fieri whipping up pulled

44

00:01:55,249 --> 00:01:52,950

pork roasted chicken and mac and cheese

45

00:01:57,260 --> 00:01:55,259

quote fire fighters have been eating out

46

00:01:59,539 --> 00:01:57,270

of their big lunch packs they got these

47

00:02:02,690 --> 00:01:59,549

really big packaged meals they're

48

00:02:05,030 --> 00:02:02,700

awesome but nothing beats a hot meal and

49

00:02:06,800 --> 00:02:05,040

quote said the celebrity chef captain

50

00:02:08,690 --> 00:02:06,810

mark Cyr of the Salvation Army said

51
00:02:11,330 --> 00:02:08,700
Fieri's cuisine was helping bring up

52
00:02:13,370 --> 00:02:11,340
people's spirits the wildfires that have

53
00:02:15,890 --> 00:02:13,380
devastated Sonoma County have killed

54
00:02:18,500 --> 00:02:15,900
least 31 people that's the number as of

55
00:02:20,540 --> 00:02:18,510
Friday these blazes most of them in wine

56
00:02:23,180 --> 00:02:20,550
country broke out almost all at once

57
00:02:24,380 --> 00:02:23,190
last Sunday night by the way it looks as

58
00:02:26,300 --> 00:02:24,390
though the vineyards have somehow

59
00:02:28,130 --> 00:02:26,310
escaped the devastation that was

60
00:02:31,070 --> 00:02:28,140
predicted for them they seem to be

61
00:02:33,140 --> 00:02:31,080
pretty much intact that's a major part

62
00:02:36,050 --> 00:02:33,150
of the economy up there so that's a good

63
00:02:38,240 --> 00:02:36,060

thing and if the smoke clears for

64

00:02:41,480 --> 00:02:38,250

everybody up there tonight they might be

65

00:02:43,910 --> 00:02:41,490

able to look up and see well not the

66

00:02:46,130 --> 00:02:43,920

moon and that's because the moon will be

67

00:02:49,100 --> 00:02:46,140

a waning crescent visible across earth

68

00:02:51,560 --> 00:02:49,110

only in the wee morning hours no matter

69

00:02:53,390 --> 00:02:51,570

where you are if you're up early on the

70

00:02:55,490 --> 00:02:53,400

mornings of October 14th through the

71

00:02:58,490 --> 00:02:55,500

16th you can see that waning crescent

72

00:03:00,710 --> 00:02:58,500

moon and you can see it near Regulus

73

00:03:02,390 --> 00:03:00,720

Regulus is the brightest star in the

74

00:03:05,090 --> 00:03:02,400

constellation Leo the Lion

75

00:03:08,150 --> 00:03:05,100

but perhaps you won't see Regulus and

76
00:03:10,550 --> 00:03:08,160
that's because on October 15th the moon

77
00:03:12,280 --> 00:03:10,560
will account this bright star in other

78
00:03:14,720 --> 00:03:12,290
words it's going to be hidden from view

79
00:03:16,940 --> 00:03:14,730
the occultation of Regulus Sunday

80
00:03:19,010 --> 00:03:16,950
morning October 15th will be visible

81
00:03:21,320 --> 00:03:19,020
from much of the United States but not

82
00:03:23,360 --> 00:03:21,330
on the pacific west coast but you can

83
00:03:26,300 --> 00:03:23,370
see it from Mexico the Caribbean or

84
00:03:28,400 --> 00:03:26,310
southeast Canada the star will disappear

85
00:03:31,010 --> 00:03:28,410
behind the moon's illuminated side and

86
00:03:33,620 --> 00:03:31,020
then reappear on its dark side and

87
00:03:36,290 --> 00:03:33,630
there's a list of the local occupations

88
00:03:38,240 --> 00:03:36,300

time many too many to read but you can

89

00:03:41,900 --> 00:03:38,250

find them later at UFO headline news

90

00:03:44,900 --> 00:03:41,910

calm Regulus the heart of Leo the Lion

91

00:03:47,449 --> 00:03:44,910

it's only a first magnitude star that is

92

00:03:50,720 --> 00:03:47,459

the only bright star among all the skies

93

00:03:53,480 --> 00:03:50,730

brightest stars to sit almost exactly on

94

00:03:55,040 --> 00:03:53,490

the ecliptic the sun's yearly path in

95

00:03:57,680 --> 00:03:55,050

front of the constellations of the

96

00:03:59,840 --> 00:03:57,690

zodiac the moon in its monthly journey

97

00:04:02,330 --> 00:03:59,850

around Earth moves more or less along

98

00:04:04,580 --> 00:04:02,340

that ecliptic as well it can swing

99

00:04:07,310 --> 00:04:04,590

anywhere from five degrees north to five

100

00:04:09,590 --> 00:04:07,320

degrees south of the star Regulus the

101
00:04:12,170 --> 00:04:09,600
cycles they're about nine years long but

102
00:04:14,750 --> 00:04:12,180
the moon actually occults or passes

103
00:04:16,610 --> 00:04:14,760
directly in front of Regulus once a

104
00:04:19,039 --> 00:04:16,620
month for a period of about a year and a

105
00:04:19,789 --> 00:04:19,049
half in fact the last series of

106
00:04:23,690 --> 00:04:19,799
occultation x'

107
00:04:26,870 --> 00:04:23,700
stage 19 that started in 2007 and ended

108
00:04:28,790 --> 00:04:26,880
in 2008 staging a total of 19

109
00:04:31,220 --> 00:04:28,800
occultation 'he's the present

110
00:04:34,400 --> 00:04:31,230
occultation series began December 18th

111
00:04:37,610 --> 00:04:34,410
specifically 2016 and won't end until

112
00:04:41,000 --> 00:04:37,620
April 24th 2018 and once again that will

113
00:04:43,880 --> 00:04:41,010

include a total of 19 in the series but

114

00:04:46,280 --> 00:04:43,890

to see any lunar occultation of reckless

115

00:04:47,210 --> 00:04:46,290

you just have to be on that right spot

116

00:04:49,670 --> 00:04:47,220

on earth

117

00:04:52,070 --> 00:04:49,680

Bruce McClure writes this for Earth Skye

118

00:04:54,080 --> 00:04:52,080

dot-org and he tells us that exactly

119

00:04:54,710 --> 00:04:54,090

midway through that series of

120

00:04:58,430 --> 00:04:54,720

occultation

121

00:05:01,160 --> 00:04:58,440

on August 21st 2017 the moon actually

122

00:05:04,550 --> 00:05:01,170

occulted Regulus on the same date the

123

00:05:06,410 --> 00:05:04,560

moon totally eclipsed the Sun says Bruce

124

00:05:09,050 --> 00:05:06,420

McClure how's that for a great

125

00:05:11,870 --> 00:05:09,060

coincidence here's the bottom line on

126

00:05:15,230 --> 00:05:11,880

the morning of October 15 specifically

127

00:05:17,900 --> 00:05:15,240

2017 watch for the moon to shine in the

128

00:05:18,740 --> 00:05:17,910

vicinity of Regulus or to even a cult

129

00:05:20,900 --> 00:05:18,750

Regulus

130

00:05:23,270 --> 00:05:20,910

the moon is going to appear in front of

131

00:05:27,740 --> 00:05:23,280

the constellation Leo for the next few

132

00:05:29,420 --> 00:05:27,750

days what a cool weekend in the sky we

133

00:05:31,730 --> 00:05:29,430

promised to see if we could find some

134

00:05:33,320 --> 00:05:31,740

nuggets something fresh in the Tom

135

00:05:35,990 --> 00:05:33,330

DeLonge presentation

136

00:05:38,240 --> 00:05:36,000

yeah we're not so sure about that but we

137

00:05:40,940 --> 00:05:38,250

did find a great article written by

138

00:05:43,400 --> 00:05:40,950

Cheryl Costa here's what she writes for

139

00:05:47,150 --> 00:05:43,410

her column her blog called New York

140

00:05:50,390 --> 00:05:47,160

Sky's headline Tom DeLonge challenging

141

00:05:53,090 --> 00:05:50,400

boundaries of what is possible for

142

00:05:55,640 --> 00:05:53,100

decades the UFO community and Beyond has

143

00:05:58,540 --> 00:05:55,650

wanted to see a good faith and honest

144

00:06:01,520 --> 00:05:58,550

effort to research everything to do with

145

00:06:03,500 --> 00:06:01,530

unidentified flying objects we've all

146

00:06:05,870 --> 00:06:03,510

wanted to see the topic talked about in

147

00:06:08,390 --> 00:06:05,880

a factual way with that specter of

148

00:06:10,760 --> 00:06:08,400

mockery and the societal boundaries

149

00:06:12,800 --> 00:06:10,770

removed we've all wanted the scientific

150

00:06:15,470 --> 00:06:12,810

community to get past the shadow of

151

00:06:17,570 --> 00:06:15,480

ridicule receive funding and get to the

152

00:06:20,300 --> 00:06:17,580

theoretical bottom of the unknown

153

00:06:24,050 --> 00:06:20,310

physics that UFOs represented no matter

154

00:06:26,750 --> 00:06:24,060

how fantastic in 1940 if you were an

155

00:06:28,220 --> 00:06:26,760

American high technology student in some

156

00:06:31,100 --> 00:06:28,230

of the nation's best engineering schools

157

00:06:33,770 --> 00:06:31,110

and you mentioned to your professor that

158

00:06:36,020 --> 00:06:33,780

you were interested in rockets you were

159

00:06:38,719 --> 00:06:36,030

frequently made fun of and dismissed as

160

00:06:40,490 --> 00:06:38,729

a crackpot a Massachusetts Institute of

161

00:06:42,860 --> 00:06:40,500

Technology professor of the air

162

00:06:45,950 --> 00:06:42,870

said quote I don't understand how a

163

00:06:49,550 --> 00:06:45,960

serious scientist or engineer can play

164

00:06:51,020 --> 00:06:49,560

around with Rockets and quotes of course

165

00:06:53,720 --> 00:06:51,030

that wasn't the feeling and Nazi Germany

166

00:06:56,300 --> 00:06:53,730

they saw great promise in rockets for

167

00:06:58,730 --> 00:06:56,310

their own objectives a few years after

168

00:07:01,430 --> 00:06:58,740

World War 2 dr. Verner von Braun and his

169

00:07:03,410 --> 00:07:01,440

band of German rocket scientists were

170

00:07:06,170 --> 00:07:03,420

working for our government and our

171

00:07:08,360 --> 00:07:06,180

military community von Braun wanted to

172

00:07:12,250 --> 00:07:08,370

put a satellite into orbit around the

173

00:07:13,510 --> 00:07:12,260

planet his date September 1956 or early

174

00:07:16,700 --> 00:07:13,520

1957

175

00:07:18,590 --> 00:07:16,710

regrettably nobody in the United States

176

00:07:21,080 --> 00:07:18,600

government understood the potential or

177

00:07:24,800 --> 00:07:21,090

had the vision to give on Braun the

178

00:07:27,140 --> 00:07:24,810

green light to do it why well there were

179

00:07:29,960 --> 00:07:27,150

certain touchy Cold War policy

180

00:07:32,180 --> 00:07:29,970

considerations but beyond the politics

181

00:07:35,270 --> 00:07:32,190

there was still that nagging notion that

182

00:07:37,280 --> 00:07:35,280

putting mechanisms in orbit still seemed

183

00:07:41,870 --> 00:07:37,290

to be the stuff of science fiction and

184

00:07:44,659 --> 00:07:41,880

fantasy on October 4th 1957 the Russians

185

00:07:47,390 --> 00:07:44,669

showed they had the vision and political

186

00:07:50,870 --> 00:07:47,400

will to launch Earth's first artificial

187

00:07:53,420 --> 00:07:50,880

satellite Sputnik 1 into orbit this

188

00:07:55,969 --> 00:07:53,430

event woke everybody up in both the

189

00:07:58,670 --> 00:07:55,979

science and arts communities suddenly

190

00:08:00,380 --> 00:07:58,680

rocket research and outer space came out

191

00:08:03,050 --> 00:08:00,390

of the realm of science fiction and

192

00:08:05,990 --> 00:08:03,060

became very real and the possibilities

193

00:08:08,810 --> 00:08:06,000

were evident in a few short years what

194

00:08:11,719 --> 00:08:08,820

we as a society needed at that time were

195

00:08:14,270 --> 00:08:11,729

two things the arts community to dare to

196

00:08:17,060 --> 00:08:14,280

imagine the future and share the stories

197

00:08:19,430 --> 00:08:17,070

of the possible and the sciences to do

198

00:08:23,480 --> 00:08:19,440

rational inquiry and the research to

199

00:08:25,969 --> 00:08:23,490

make it all real in September of 1962

200

00:08:28,909 --> 00:08:25,979

five years after Sputnik was launched

201
00:08:31,100 --> 00:08:28,919
President John F Kennedy had the vision

202
00:08:34,459 --> 00:08:31,110
to challenge the country to go to the

203
00:08:37,760 --> 00:08:34,469
moon nine years after Sputnik desi Lou

204
00:08:40,100 --> 00:08:37,770
Studios and Gene Roddenberry launched a

205
00:08:41,870 --> 00:08:40,110
science fiction television series that

206
00:08:44,480 --> 00:08:41,880
has helped several generations to

207
00:08:48,220 --> 00:08:44,490
imagine the possibilities of exploring

208
00:08:52,420 --> 00:08:48,230
the galaxy that series was Star Trek on

209
00:08:54,410 --> 00:08:52,430
October 11th 2017 rocker Tom DeLonge

210
00:08:56,750 --> 00:08:54,420
presented as much

211
00:09:01,160 --> 00:08:56,760
anticipated long-promised disclosure

212
00:09:03,110 --> 00:09:01,170
announcement was it disclosure this

213
00:09:05,690 --> 00:09:03,120

question has caused great ambivalence

214

00:09:10,009 --> 00:09:05,700

within the UFO community many say yes

215

00:09:12,620 --> 00:09:10,019

many say no so let me quote independent

216

00:09:16,519 --> 00:09:12,630

investigative journalist Leslie Kane who

217

00:09:18,319 --> 00:09:16,529

put it most clearly quote folks I'm

218

00:09:19,100 --> 00:09:18,329

concerned that some of you are missing

219

00:09:21,769 --> 00:09:19,110

the point

220

00:09:24,290 --> 00:09:21,779

the head of a secret UFO program at the

221

00:09:26,900 --> 00:09:24,300

Department of Defense has just come

222

00:09:29,090 --> 00:09:26,910

forward to confirm the existence of that

223

00:09:31,519 --> 00:09:29,100

program based on the work of this

224

00:09:34,870 --> 00:09:31,529

official program he has stated for the

225

00:09:38,060 --> 00:09:34,880

world to hear that UFOs are

226
00:09:40,939 --> 00:09:38,070
unquestionably real he left that program

227
00:09:43,699 --> 00:09:40,949
less than two weeks ago this is as close

228
00:09:46,819 --> 00:09:43,709
to official quote disclosure and quotes

229
00:09:50,060 --> 00:09:46,829
as we have come since the close of

230
00:09:51,769 --> 00:09:50,070
Project Blue Book and quotes the former

231
00:09:55,519 --> 00:09:51,779
Department of Defense official to whom

232
00:09:57,379 --> 00:09:55,529
she is referring is Lewis Elizondo so we

233
00:09:59,930 --> 00:09:57,389
didn't get everything but we did get

234
00:10:03,019 --> 00:09:59,940
some disclosure or as some would say

235
00:10:05,269 --> 00:10:03,029
another splash of drip drip disclosure

236
00:10:07,430 --> 00:10:05,279
it certainly wasn't the drink from the

237
00:10:11,090 --> 00:10:07,440
fire hose that many in the UFO community

238
00:10:13,310 --> 00:10:11,100

really wanted the principal focus of Tom

239

00:10:15,650 --> 00:10:13,320

DeLong's presentation was his challenge

240

00:10:16,970 --> 00:10:15,660

to take the next step with a launch of

241

00:10:20,780 --> 00:10:16,980

to the stars

242

00:10:22,939 --> 00:10:20,790

Academy of Arts and Science what DeLong

243

00:10:25,460 --> 00:10:22,949

and his team of experts did was form a

244

00:10:27,860 --> 00:10:25,470

public benefit corporation with a

245

00:10:30,500 --> 00:10:27,870

charter to encourage scientific research

246

00:10:33,290 --> 00:10:30,510

efforts related to unidentified flying

247

00:10:35,630 --> 00:10:33,300

objects in addition this corporate

248

00:10:37,730 --> 00:10:35,640

charter has a strong artistic element to

249

00:10:40,430 --> 00:10:37,740

the effort intended to stimulate the

250

00:10:42,769 --> 00:10:40,440

cultural imagination to a new level a

251
00:10:45,949 --> 00:10:42,779
level of contemplation of future

252
00:10:48,829 --> 00:10:45,959
possibilities the object is to challenge

253
00:10:51,590 --> 00:10:48,839
the boundaries of our thinking by

254
00:10:54,069 --> 00:10:51,600
inspiring exploration and imagining and

255
00:10:56,480 --> 00:10:54,079
manifesting a bold and prosperous future

256
00:10:58,639 --> 00:10:56,490
Tom DeLonge and his prestigious

257
00:11:00,800 --> 00:10:58,649
colleagues are asking people to invest

258
00:11:03,800 --> 00:11:00,810
in the project with a stock offering

259
00:11:05,660 --> 00:11:03,810
this is a new and different approach to

260
00:11:07,210 --> 00:11:05,670
the issue of disclosure they are

261
00:11:09,519 --> 00:11:07,220
challenging the you

262
00:11:12,160 --> 00:11:09,529
Oh community to put their money where

263
00:11:14,619 --> 00:11:12,170

their mouths are so to speak it will be

264

00:11:15,480 --> 00:11:14,629

interesting to watch and follow their

265

00:11:18,189 --> 00:11:15,490

progress

266

00:11:20,379 --> 00:11:18,199

Cheryl Costa provides a link if you want

267

00:11:22,960 --> 00:11:20,389

to watch Tom DeLong's for minutes and

268

00:11:25,749 --> 00:11:22,970

30-second pitch you can also click to

269

00:11:28,179 --> 00:11:25,759

see the entire 39 minute presentation

270

00:11:30,759 --> 00:11:28,189

and here's a note at the bottom of her

271

00:11:33,490 --> 00:11:30,769

column neither new york skies nor

272

00:11:35,889 --> 00:11:33,500

Syracuse New Times has any connection to

273

00:11:39,189 --> 00:11:35,899

the DeLong project and this is not an

274

00:11:41,170 --> 00:11:39,199

endorsement yesterday on UFO headline

275

00:11:44,139 --> 00:11:41,180

news we covered the article that

276

00:11:46,329 --> 00:11:44,149

included the strange video video taken

277

00:11:50,470 --> 00:11:46,339

of bright flashing objects over the

278

00:11:52,720 --> 00:11:50,480

Yellowstone Volcano well that is still

279

00:11:55,480 --> 00:11:52,730

unknown whatever it is has yet to be

280

00:11:58,290 --> 00:11:55,490

determined but here's a soothing article

281

00:12:01,269 --> 00:11:58,300

from Time magazine headline no

282

00:12:04,780 --> 00:12:01,279

Yellowstone supervolcano isn't going to

283

00:12:06,670 --> 00:12:04,790

wipe out life on Earth anytime soon this

284

00:12:09,579 --> 00:12:06,680

article carries a byline for Melissa

285

00:12:11,740 --> 00:12:09,589

chan if you're worried a supervolcano

286

00:12:14,470 --> 00:12:11,750

lying beneath Yellowstone National Park

287

00:12:17,769 --> 00:12:14,480

could erupt and plunge the planet into a

288

00:12:20,319 --> 00:12:17,779

volcanic winter you shouldn't be while a

289

00:12:22,389 --> 00:12:20,329

future eruption a prospect widely

290

00:12:25,449 --> 00:12:22,399

reported this week after new research is

291

00:12:27,999 --> 00:12:25,459

possible geologists say it's incredibly

292

00:12:30,579 --> 00:12:28,009

unlikely the odds that Yellowstone

293

00:12:32,850 --> 00:12:30,589

sleeping super volcano will erupt within

294

00:12:37,210 --> 00:12:32,860

a century and caused massive devastation

295

00:12:39,309 --> 00:12:37,220

well it's 1 in 10,000 which is about as

296

00:12:40,869 --> 00:12:39,319

likely as a very large asteroid hitting

297

00:12:43,629 --> 00:12:40,879

Earth that's according to Jacob

298

00:12:46,240 --> 00:12:43,639

lowenstern a research geologist for the

299

00:12:48,549 --> 00:12:46,250

United States Geological Survey he said

300

00:12:52,030 --> 00:12:48,559

quote it's not impossible to rule out

301
00:12:54,160 --> 00:12:52,040
but it's a remote possibility and Jacob

302
00:12:55,769 --> 00:12:54,170
Lowenstein should know he used to run

303
00:12:59,619 --> 00:12:55,779
the Yellowstone Volcano Observatory

304
00:13:01,960 --> 00:12:59,629
which monitors volcanic activity super

305
00:13:04,869 --> 00:13:01,970
volcanoes have the power to spew more

306
00:13:07,540 --> 00:13:04,879
than 1,000 cubic kilometers of debris

307
00:13:09,009 --> 00:13:07,550
and hot ash into the air as they erupt

308
00:13:12,100 --> 00:13:09,019
which would have catastrophic

309
00:13:14,559 --> 00:13:12,110
consequences including changes to global

310
00:13:17,530 --> 00:13:14,569
climate and agricultural devastation

311
00:13:20,290 --> 00:13:17,540
that's according to the USGS they get

312
00:13:21,129 --> 00:13:20,300
labeled super volcanoes only after

313
00:13:24,039 --> 00:13:21,139

they've all read

314

00:13:26,139 --> 00:13:24,049

erupted to that magnitude there are

315

00:13:28,569 --> 00:13:26,149

between five and ten active super

316

00:13:30,579 --> 00:13:28,579

volcanoes in the world the most recent

317

00:13:32,729 --> 00:13:30,589

super eruption happened about twenty

318

00:13:35,319 --> 00:13:32,739

seven thousand years ago in New Zealand

319

00:13:37,419 --> 00:13:35,329

long before that there were two super

320

00:13:40,869 --> 00:13:37,429

eruptions at Yellowstone the first

321

00:13:43,809 --> 00:13:40,879

happened 2.1 million years ago and the

322

00:13:45,939 --> 00:13:43,819

second occurred 631 thousand years ago

323

00:13:48,299 --> 00:13:45,949

again these are statistics from the

324

00:13:50,859 --> 00:13:48,309

United States Geological Survey

325

00:13:53,919 --> 00:13:50,869

apparently many Americans grew concerned

326

00:13:55,869 --> 00:13:53,929

that a super eruption was looming after

327

00:13:57,489 --> 00:13:55,879

the New York Times detailed a project

328

00:13:58,419 --> 00:13:57,499

from a research team at Arizona State

329

00:14:00,460 --> 00:13:58,429

University

330

00:14:02,710 --> 00:14:00,470

that team researched the events leading

331

00:14:05,079 --> 00:14:02,720

up to the last large eruption at

332

00:14:07,659 --> 00:14:05,089

Yellowstone and they found changes in

333

00:14:10,269 --> 00:14:07,669

the supervolcano system known to help

334

00:14:12,879 --> 00:14:10,279

trigger super eruptions like magmaflow

335

00:14:15,400 --> 00:14:12,889

they can develop faster than previously

336

00:14:17,169 --> 00:14:15,410

thought according to The Times quote

337

00:14:19,569 --> 00:14:17,179

it's shocking how little time is

338

00:14:21,639 --> 00:14:19,579

required to take a volcano system from

339

00:14:24,280 --> 00:14:21,649

being quiet and sitting there to the

340

00:14:26,530 --> 00:14:24,290

edge of an eruption and quotes and

341

00:14:28,239 --> 00:14:26,540

that's from Hannah sham Lou she's an

342

00:14:31,150 --> 00:14:28,249

Arizona State University graduate

343

00:14:33,030 --> 00:14:31,160

student part of that research team many

344

00:14:36,639 --> 00:14:33,040

people mistakenly took that to mean

345

00:14:39,639 --> 00:14:36,649

Yellowstone supervolcano was overdue for

346

00:14:42,429 --> 00:14:39,649

a massive eruption enter Kristi till

347

00:14:44,669 --> 00:14:42,439

part of the research team also later

348

00:14:47,379 --> 00:14:44,679

tweeting the research team at no point

349

00:14:50,409 --> 00:14:47,389

suggested Yellowstone supervolcano was

350

00:14:52,869 --> 00:14:50,419

expected to erupt quote all signs of

351
00:14:55,269 --> 00:14:52,879
activity at Yellowstone are normal and

352
00:14:58,539 --> 00:14:55,279
quotes she wrote quote there are no

353
00:15:01,150 --> 00:14:58,549
signs of eruption computer executes 12.4

354
00:15:04,779 --> 00:15:01,160
P operation optimizing algorithm running

355
00:15:07,720 --> 00:15:04,789
encryption packet alpha nine oh I don't

356
00:15:08,650 --> 00:15:07,730
feel so good what what is it computer is

357
00:15:10,960 --> 00:15:08,660
it hot in here

358
00:15:13,960 --> 00:15:10,970
it feels hot in here I feel a little

359
00:15:17,019 --> 00:15:13,970
clammy I should lie down or something a

360
00:15:19,210 --> 00:15:17,029
computer with a virus surprising what's

361
00:15:20,619 --> 00:15:19,220
not surprising how much you could say if

362
00:15:22,150 --> 00:15:20,629
by switching to Geico

363
00:15:24,729 --> 00:15:22,160

those Oysters Rockefeller for ate

364

00:15:27,909 --> 00:15:24,739

mistake Geico 15 minutes could save you

365

00:15:30,999 --> 00:15:27,919

fifteen percent or more as some media

366

00:15:33,549 --> 00:15:31,009

outlets are reporting and quotes well

367

00:15:34,660 --> 00:15:33,559

Jacob lowenstern agreed dispelling the

368

00:15:37,480 --> 00:15:34,670

notion that there's a

369

00:15:40,060 --> 00:15:37,490

cycle-two super-eruptions he added there

370

00:15:42,790 --> 00:15:40,070

is no way to tell when or if it will

371

00:15:45,460 --> 00:15:42,800

even erupt but any kind of eruption in

372

00:15:48,460 --> 00:15:45,470

the next 100 years is very unlikely

373

00:15:50,350 --> 00:15:48,470

since that last super eruption at

374

00:15:52,210 --> 00:15:50,360

Yellowstone there have been dozens of

375

00:15:55,330 --> 00:15:52,220

other eruptions at the National Park

376

00:15:57,670 --> 00:15:55,340

minor ones said lowenstern quote there's

377

00:16:01,240 --> 00:15:57,680

no requirement that it has to have

378

00:16:04,000 --> 00:16:01,250

another large eruption and quotes there

379

00:16:06,760 --> 00:16:04,010

is that worry wiped away we hope so

380

00:16:10,870 --> 00:16:06,770

let's go from worry to mystery and a

381

00:16:12,760 --> 00:16:10,880

road trip to Easter Island buckle up we

382

00:16:15,790 --> 00:16:12,770

get this from Reuters it carries a

383

00:16:18,250 --> 00:16:15,800

byline for will Dunham the massive

384

00:16:20,650 --> 00:16:18,260

brooding stone figures peering from

385

00:16:23,530 --> 00:16:20,660

Easter islands hillsides are emblematic

386

00:16:26,020 --> 00:16:23,540

of an enigmatic people who once thrived

387

00:16:28,690 --> 00:16:26,030

on this dot of land in the middle of the

388

00:16:31,270 --> 00:16:28,700

Pacific new genetic research only

389

00:16:34,870 --> 00:16:31,280

deepens the mystery around these people

390

00:16:36,970 --> 00:16:34,880

on Thursday scientists said an analysis

391

00:16:39,730 --> 00:16:36,980

of DNA from ancient skeletal remains

392

00:16:41,830 --> 00:16:39,740

ruled out the likelihood that Easter

393

00:16:44,020 --> 00:16:41,840

islands inhabitants intermixed with

394

00:16:48,790 --> 00:16:44,030

South Americans before the arrival of

395

00:16:50,440 --> 00:16:48,800

Europeans on that island in 1722 a 2014

396

00:16:52,180 --> 00:16:50,450

genetic study had indicated

397

00:16:55,000 --> 00:16:52,190

interbreeding between the people of

398

00:16:57,400 --> 00:16:55,010

Easter Island or officially Rapa Nui and

399

00:17:01,270 --> 00:16:57,410

native people in South America occurred

400

00:17:03,970 --> 00:17:01,280

roughly between 1300 and 1500 this new

401
00:17:06,820 --> 00:17:03,980
research studying the DNA of three Rapa

402
00:17:10,960 --> 00:17:06,830
Nui people from the 1400s and 1500s and

403
00:17:13,990 --> 00:17:10,970
- from the 1800s found no such evidence

404
00:17:16,180 --> 00:17:14,000
of mingling the research underscored the

405
00:17:19,840 --> 00:17:16,190
isolation of these people who lived on

406
00:17:23,440 --> 00:17:19,850
an outpost some 2,300 miles or 3700

407
00:17:26,980 --> 00:17:23,450
kilometers west of South America 1,100

408
00:17:29,950 --> 00:17:26,990
miles 1770 kilometers from the nearest

409
00:17:32,890 --> 00:17:29,960
island quote one study shows that there

410
00:17:35,380 --> 00:17:32,900
is no simple scenario of population

411
00:17:37,990 --> 00:17:35,390
exchange and migration between Rapa Nui

412
00:17:40,600 --> 00:17:38,000
and the Americas as suggested by many

413
00:17:42,940 --> 00:17:40,610

archaeologists historians population

414

00:17:45,250 --> 00:17:42,950

geneticists and even adventurers and

415

00:17:47,410 --> 00:17:45,260

quotes and that's from archaeologist Kat

416

00:17:48,400 --> 00:17:47,420

Jarmon out of the University of Bristol

417

00:17:50,530 --> 00:17:48,410

in Britain

418

00:17:53,140 --> 00:17:50,540

Jarman said the study published in the

419

00:17:55,240 --> 00:17:53,150

journal Current Biology confirmed a

420

00:17:57,910 --> 00:17:55,250

growing body of evidence that Easter

421

00:18:01,090 --> 00:17:57,920

Island was settled by Polynesians who

422

00:18:03,070 --> 00:18:01,100

crossed the open ocean quote we were

423

00:18:05,530 --> 00:18:03,080

surprised that we didn't find any Native

424

00:18:07,950 --> 00:18:05,540

American admixture in our ancient Rapa

425

00:18:10,450 --> 00:18:07,960

Nui individuals and quotes German added

426

00:18:13,140 --> 00:18:10,460

the Rapa Nui people formed a unique

427

00:18:16,150 --> 00:18:13,150

culture best known for the 900

428

00:18:19,350 --> 00:18:16,160

monumental head and torso stone statues

429

00:18:22,420 --> 00:18:19,360

they're called moai that spelled moai

430

00:18:24,690 --> 00:18:22,430

erected all around the island the

431

00:18:27,550 --> 00:18:24,700

culture flourished starting around 1200

432

00:18:29,920 --> 00:18:27,560

this study did not rule out some type of

433

00:18:32,410 --> 00:18:29,930

cultural contact between Easter Island

434

00:18:34,720 --> 00:18:32,420

and South America quote however if it

435

00:18:37,180 --> 00:18:34,730

did take place the new evidence suggests

436

00:18:39,700 --> 00:18:37,190

that it was infrequent or at least that

437

00:18:42,450 --> 00:18:39,710

it did not leave any discernible genetic

438

00:18:44,820 --> 00:18:42,460

trace end quotes again that's cat Jarmon

439

00:18:47,740 --> 00:18:44,830

University of California Santa Cruz

440

00:18:49,510 --> 00:18:47,750

anthropologists Lars Theron Schmitz said

441

00:18:51,820 --> 00:18:49,520

evidence like the presence of sweet

442

00:18:54,670 --> 00:18:51,830

potatoes a South American staple in

443

00:18:56,470 --> 00:18:54,680

Polynesia indicates some cultural

444

00:18:58,600 --> 00:18:56,480

exchange occurred between the Americas

445

00:19:01,120 --> 00:18:58,610

and Polynesia before the impact of

446

00:19:03,700 --> 00:19:01,130

European colonization quote many

447

00:19:06,220 --> 00:19:03,710

researchers suggest Rapa Nui as kind of

448

00:19:08,950 --> 00:19:06,230

the best point of contact because it's

449

00:19:10,930 --> 00:19:08,960

closest to South America but an exchange

450

00:19:13,630 --> 00:19:10,940

could have also been initiated on other

451
00:19:14,470 --> 00:19:13,640
islands if it happened and quotes said

452
00:19:17,380 --> 00:19:14,480
Ferran Schmidt's

453
00:19:19,540 --> 00:19:17,390
well it's interesting sweet potatoes

454
00:19:23,860 --> 00:19:19,550
wonder if there's a Rapa Nui sweet

455
00:19:25,570 --> 00:19:23,870
potato pie recipe hmm let's see if we

456
00:19:26,470 --> 00:19:25,580
can segue from sweet potato pie to

457
00:19:32,200 --> 00:19:26,480
robots

458
00:19:36,430 --> 00:19:32,210
here comes the story with a byline for

459
00:19:39,910 --> 00:19:36,440
Swapna Krishna headline epic giant robot

460
00:19:42,430 --> 00:19:39,920
battle scheduled for October 17th are

461
00:19:44,740 --> 00:19:42,440
you ready for the world's first giant

462
00:19:48,370 --> 00:19:44,750
robot fight if your answer to that was

463
00:19:50,890 --> 00:19:48,380

no who even are you we've been waiting

464

00:19:54,040 --> 00:19:50,900

for a date for the megabots vs. su

465

00:19:56,140 --> 00:19:54,050

Dabashi duel and now it's finally here

466

00:20:00,910 --> 00:19:56,150

the fights will take place on October

467

00:20:02,290 --> 00:20:00,920

17th 2017 at 10 p.m. Eastern Time it

468

00:20:04,810 --> 00:20:02,300

will be streamlined

469

00:20:06,790 --> 00:20:04,820

worldwide on a twitch if you miss that

470

00:20:09,400 --> 00:20:06,800

livestream you can also catch it on

471

00:20:12,100 --> 00:20:09,410

YouTube and Facebook immediately after

472

00:20:13,630 --> 00:20:12,110

the event concludes this giant robot

473

00:20:16,420 --> 00:20:13,640

battle has been in the works for almost

474

00:20:19,570 --> 00:20:16,430

two years that was originally scheduled

475

00:20:24,250 --> 00:20:19,580

to take place last August the 16 foot

476
00:20:26,110 --> 00:20:24,260
tall 12 ton megabots eagle prime robot

477
00:20:29,010 --> 00:20:26,120
was built by a team of American

478
00:20:32,680 --> 00:20:29,020
engineers and then there's kuratas a

479
00:20:34,720 --> 00:20:32,690
13-footer that weighs 6.5 tons built by

480
00:20:38,350 --> 00:20:34,730
the japanese company sued Abbasi Heavy

481
00:20:41,500 --> 00:20:38,360
Industries and now they will do battle

482
00:20:42,910 --> 00:20:41,510
for our enjoyment the question is who

483
00:20:46,450 --> 00:20:42,920
will reign supreme

484
00:20:49,390 --> 00:20:46,460
oh we just can't wait but I guess we'll

485
00:20:51,250 --> 00:20:49,400
have to we'll also have to be patient

486
00:20:54,340 --> 00:20:51,260
when it comes to solving the Chicago

487
00:20:56,350 --> 00:20:54,350
phantom mystery from lawn strickler's

488
00:20:59,260 --> 00:20:56,360

most excellent site phantoms and

489

00:21:02,800 --> 00:20:59,270

monsters calm pulse of the paranormal

490

00:21:05,850 --> 00:21:02,810

here's this headline Chicago phantom

491

00:21:08,740 --> 00:21:05,860

seen flying through the Magnificent Mile

492

00:21:12,190 --> 00:21:08,750

this is what lawn strickler received on

493

00:21:15,820 --> 00:21:12,200

October 8th 2017 it's a first-person

494

00:21:18,400 --> 00:21:15,830

witness report quote I was writing to

495

00:21:20,770 --> 00:21:18,410

share my sighting of the Chicago Mothman

496

00:21:23,290 --> 00:21:20,780

I was walking towards the Chicago Avenue

497

00:21:25,210 --> 00:21:23,300

Red Line entrance from work when I made

498

00:21:28,270 --> 00:21:25,220

the sighting it happened to be around

499

00:21:32,230 --> 00:21:28,280

10:15 to 10:20 p.m. Central time

500

00:21:34,740 --> 00:21:32,240

Saturday October 7th I happened to look

501
00:21:38,410 --> 00:21:34,750
up to my left when I saw an object

502
00:21:40,690 --> 00:21:38,420
drifting in the sky upon closer look I

503
00:21:43,510 --> 00:21:40,700
was able to see this object was dark

504
00:21:47,500 --> 00:21:43,520
gray and color and it seemed to have a

505
00:21:50,410 --> 00:21:47,510
large wingspan it started to drift up

506
00:21:52,480 --> 00:21:50,420
but then it dive down it ducked between

507
00:21:55,060 --> 00:21:52,490
buildings but then it reappeared on the

508
00:21:57,970 --> 00:21:55,070
other side I was standing on Chicago

509
00:22:00,310 --> 00:21:57,980
Avenue and Wabash Avenue after this

510
00:22:03,100 --> 00:22:00,320
object reappeared it then passed between

511
00:22:07,350 --> 00:22:03,110
a few more buildings and then flew out

512
00:22:09,490 --> 00:22:07,360
toward Lake Michigan signed J s and

513
00:22:11,050 --> 00:22:09,500

apparently Ion Strickler was able to

514

00:22:13,330 --> 00:22:11,060

contact the witness there's some

515

00:22:15,970 --> 00:22:13,340

follow-up information that goes like

516

00:22:18,279 --> 00:22:15,980

this from my distance says

517

00:22:20,740 --> 00:22:18,289

witness it was a little hard to make out

518

00:22:21,940 --> 00:22:20,750

details of this object it kept moving

519

00:22:25,419 --> 00:22:21,950

rather quickly

520

00:22:27,460 --> 00:22:25,429

it was very fluid like in its motion the

521

00:22:30,549 --> 00:22:27,470

wings were about equal length if not a

522

00:22:33,789 --> 00:22:30,559

bit longer than the object itself these

523

00:22:35,860 --> 00:22:33,799

wings also flapped a few times but the

524

00:22:38,470 --> 00:22:35,870

object actually seems to have glided

525

00:22:40,840 --> 00:22:38,480

more than it flapped I could tell the

526

00:22:44,080 --> 00:22:40,850

object was quite large and I easily

527

00:22:46,330 --> 00:22:44,090

ruled out any bird there's an additional

528

00:22:49,330 --> 00:22:46,340

note here by mr. Strickler the winged

529

00:22:50,710 --> 00:22:49,340

being must have had significant size in

530

00:22:52,690 --> 00:22:50,720

order for the witness to make it out

531

00:22:55,899 --> 00:22:52,700

especially at night although I assume

532

00:22:58,480 --> 00:22:55,909

the area is well lit and please note

533

00:23:01,060 --> 00:22:58,490

this the witness's location was only two

534

00:23:03,820 --> 00:23:01,070

blocks south of the Sofitel Chicago

535

00:23:06,220 --> 00:23:03,830

Magnificent Mile Hotel at 20 East

536

00:23:09,310 --> 00:23:06,230

Chestnut Street this is where the gray

537

00:23:13,389 --> 00:23:09,320

humanoid was seen on the building roof

538

00:23:16,480 --> 00:23:13,399

oh yeah we went there last weekend so

539

00:23:18,310 --> 00:23:16,490

what is it here's what mr. Strickler

540

00:23:20,139 --> 00:23:18,320

puts at the end of all these reports

541

00:23:23,049 --> 00:23:20,149

have you had a sighting of a flying

542

00:23:25,000 --> 00:23:23,059

humanoid or huge bakelite creature in

543

00:23:28,480 --> 00:23:25,010

the Chicago Illinois metro area or

544

00:23:29,889 --> 00:23:28,490

nearby he wants to know he'll take your

545

00:23:32,139 --> 00:23:29,899

report there's even a phone number

546

00:23:34,560 --> 00:23:32,149

included you can find links to all of

547

00:23:37,120 --> 00:23:34,570

this including the Amazing Charts

548

00:23:39,100 --> 00:23:37,130

tracking this creature and all the

549

00:23:41,289 --> 00:23:39,110

sightings they go back a while you can

550

00:23:43,570 --> 00:23:41,299

find those links later at UFO headline

551
00:23:46,299 --> 00:23:43,580
news calm well there's definitely

552
00:23:49,210 --> 00:23:46,309
something flying around here it's that

553
00:23:52,509 --> 00:23:49,220
thing called time yes a human construct

554
00:23:54,100 --> 00:23:52,519
but nonetheless it's time for us to say

555
00:23:56,230 --> 00:23:54,110
that's a wrap

556
00:23:58,779 --> 00:23:56,240
thanks for listening to UFO headline

557
00:24:00,970 --> 00:23:58,789
news on inception radio network off the

558
00:24:03,220 --> 00:24:00,980
beaten path take care of each other

559
00:24:06,210 --> 00:24:03,230
we're all in this together this is Carol

560
00:24:08,519 --> 00:24:06,220
Carl see you tomorrow

561
00:24:11,230 --> 00:24:08,529
[Music]

562
00:24:13,090 --> 00:24:11,240
hey girl have you done something new

563
00:24:16,539 --> 00:24:13,100

with your scales using new moisturizer

564

00:24:20,529 --> 00:24:16,549

nice it really brings out the hazel in

565

00:24:22,990 --> 00:24:20,539

your eyes Oh are using lightning strips

566

00:24:24,530 --> 00:24:23,000

to your fangs look good girl

567

00:24:26,570 --> 00:24:24,540

really good

568

00:24:28,940 --> 00:24:26,580

a really charming snake charmer

569

00:24:30,590 --> 00:24:28,950

surprising what's not surprising how

570

00:24:31,310 --> 00:24:30,600

much you could save by switching to

571

00:24:34,820 --> 00:24:31,320

Geico
