

# UFO Headline News | Tuesday October 24th, 2017

Listen on

[inceptionradionetwork.com](http://inceptionradionetwork.com)

1  
00:00:08,299 --> 00:00:05,660  
hello it's Tuesday October 24th 2017 you

2  
00:00:11,000 --> 00:00:08,309  
are the CEO inception radio network

3  
00:00:17,210 --> 00:00:11,010  
voice of the fringe majority this is

4  
00:00:19,880 --> 00:00:17,220  
Carol Karl well it's a pudgy night for

5  
00:00:22,310 --> 00:00:19,890  
the moon apogee but the moon is still

6  
00:00:25,099 --> 00:00:22,320  
near Saturn let's see what Earth's sky

7  
00:00:28,370 --> 00:00:25,109  
says about this it is indeed the months

8  
00:00:31,220 --> 00:00:28,380  
Apogee moon that is a moon at its most

9  
00:00:34,010 --> 00:00:31,230  
distant from Earth for the entire month

10  
00:00:36,979 --> 00:00:34,020  
depending on where you reside worldwide

11  
00:00:39,889 --> 00:00:36,989  
the waxing crescent moon swings out to

12  
00:00:43,190 --> 00:00:39,899  
Apogee tonight October 24th or perhaps

13  
00:00:46,779 --> 00:00:43,200

it will be the 25th the exact time of

14

00:00:50,720 --> 00:00:46,789

this month's Apogee is October 25th at

15

00:00:53,240 --> 00:00:50,730

2:25 UTC at united states time zones

16

00:00:55,939 --> 00:00:53,250

this means the moon reaches Apogee on

17

00:01:00,020 --> 00:00:55,949

this night at that time for instance

18

00:01:02,900 --> 00:01:00,030

10:25 p.m. Eastern Daylight Time 7:25

19

00:01:05,810 --> 00:01:02,910

p.m. Pacific Daylight Time at this

20

00:01:13,060 --> 00:01:05,820

months lunar Apogee the centres of the

21

00:01:17,600 --> 00:01:13,070

Moon and Earth are 250 1751 miles or

22

00:01:20,080 --> 00:01:17,610

405,000 154 kilometers apart orbit

23

00:01:24,380 --> 00:01:20,090

around Earth isn't perfectly circular

24

00:01:27,289 --> 00:01:24,390

nope indeed it's instead an orbit called

25

00:01:29,899 --> 00:01:27,299

an ellipse a squashed circle that's the

26  
00:01:32,149 --> 00:01:29,909  
shape of our moon's orbit so here comes

27  
00:01:34,969 --> 00:01:32,159  
the bottom line watch the moon this

28  
00:01:37,280 --> 00:01:34,979  
evening October 24th as the evening

29  
00:01:40,310 --> 00:01:37,290  
Crescent pairs up with the planet Saturn

30  
00:01:42,950 --> 00:01:40,320  
on the stellar sphere depending on where

31  
00:01:45,020 --> 00:01:42,960  
you live worldwide the moon sweeps to

32  
00:01:47,469 --> 00:01:45,030  
its most distant point from Earth for

33  
00:01:50,510 --> 00:01:47,479  
the month tonight October 24th hour

34  
00:01:54,679 --> 00:01:50,520  
depending on your time zone the 25th

35  
00:01:56,420 --> 00:01:54,689  
happy sky watching we could watch a long

36  
00:01:59,600 --> 00:01:56,430  
while with many instruments but we

37  
00:02:02,950 --> 00:01:59,610  
couldn't see this headline NASA just

38  
00:02:06,649 --> 00:02:02,960

discovered that Mars has a tail and it's

39

00:02:10,940 --> 00:02:06,659

incredibly unusual mic Waner writes this

40

00:02:13,460 --> 00:02:10,950

for BGR calm jupiter has a bunch of

41

00:02:15,320 --> 00:02:13,470

moons saturn has rings and

42

00:02:20,240 --> 00:02:15,330

Earth has life and that's pretty cool

43

00:02:23,930 --> 00:02:20,250

but what about Mars well as it turns out

44

00:02:26,240 --> 00:02:23,940

the red planet has a tail yep NASA's

45

00:02:28,250 --> 00:02:26,250

MAVEN that stands for the Mars

46

00:02:31,640 --> 00:02:28,260

atmosphere and volatile evolution

47

00:02:33,830 --> 00:02:31,650

mission spacecraft has just revealed

48

00:02:36,740 --> 00:02:33,840

that Mars has a tail

49

00:02:38,780 --> 00:02:36,750

only you can't actually see it the

50

00:02:42,410 --> 00:02:38,790

planets tail which is made up of

51  
00:02:45,500 --> 00:02:42,420  
invisible magnetic forces is unlike

52  
00:02:47,870 --> 00:02:45,510  
anything we know of in the solar system

53  
00:02:50,630 --> 00:02:47,880  
and it differs from both the magnetic

54  
00:02:53,240 --> 00:02:50,640  
fields of Earth those are self generated

55  
00:02:55,490 --> 00:02:53,250  
barriers and the magnetic tail of

56  
00:02:58,550 --> 00:02:55,500  
planets like Venus which have no

57  
00:03:02,000 --> 00:02:58,560  
magnetic fields of their own Mars tail

58  
00:03:04,880 --> 00:03:02,010  
is actually a cross between the two

59  
00:03:06,980 --> 00:03:04,890  
here's a quote from Gina de Braccio of

60  
00:03:10,100 --> 00:03:06,990  
NASA's Goddard Space Flight Center in

61  
00:03:14,540 --> 00:03:10,110  
Maryland quote we found that Mars

62  
00:03:17,449 --> 00:03:14,550  
magnetic tail or magnetotail is unique

63  
00:03:20,180 --> 00:03:17,459

in the solar system it's not like the

64

00:03:23,210 --> 00:03:20,190

magnetotail found at Venus a planet with

65

00:03:25,340 --> 00:03:23,220

no magnetic field of its own nor is it

66

00:03:28,270 --> 00:03:25,350

like Earth's which is surrounded by its

67

00:03:32,330 --> 00:03:28,280

own internally generated magnetic field

68

00:03:35,660 --> 00:03:32,340

instead this is a hybrid between the two

69

00:03:38,750 --> 00:03:35,670

and quotes at one point in the very

70

00:03:40,820 --> 00:03:38,760

distant past Mars likely had a magnetic

71

00:03:43,850 --> 00:03:40,830

field a lot like Earth's but it was

72

00:03:46,789 --> 00:03:43,860

largely lost what remains is just a

73

00:03:48,949 --> 00:03:46,799

ghost of its former self but it's enough

74

00:03:51,530 --> 00:03:48,959

to play a role in the planets odd tale

75

00:03:53,590 --> 00:03:51,540

the researchers believe that magnetic

76

00:03:56,390 --> 00:03:53,600

fields carried along by the solar wind

77

00:03:59,090 --> 00:03:56,400

tangle with the sparse magnetic field

78

00:04:01,940 --> 00:03:59,100

still detectable on certain places in

79

00:04:05,570 --> 00:04:01,950

that Martian surface and forms a

80

00:04:07,910 --> 00:04:05,580

peculiar twisted tale the MAVEN

81

00:04:10,490 --> 00:04:07,920

spacecraft just completed its first year

82

00:04:12,770 --> 00:04:10,500

of orbital research around Mars but it's

83

00:04:15,380 --> 00:04:12,780

extended mission is expected to last a

84

00:04:17,750 --> 00:04:15,390

further six years as it continues to

85

00:04:21,259 --> 00:04:17,760

serve as a relay point for both current

86

00:04:24,640 --> 00:04:21,269

and future Mars exploratory craft and

87

00:04:27,320 --> 00:04:24,650

Rovers oh good work carry on maven

88

00:04:30,230 --> 00:04:27,330

here's something we must move back

89

00:04:33,920 --> 00:04:30,240

slightly in time to pick up we missed it

90

00:04:36,680 --> 00:04:33,930

entirely headline NASA astronaut comes

91

00:04:40,330 --> 00:04:36,690

closer to accidentally drifting off into

92

00:04:43,070 --> 00:04:40,340

space than anyone should ever have to

93

00:04:48,350 --> 00:04:43,080

mike Waner who wrote the previous story

94

00:04:50,659 --> 00:04:48,360

also writes this also for BGR calm space

95

00:04:53,330 --> 00:04:50,669

walks outside the International Space

96

00:04:56,029 --> 00:04:53,340

Station are no joke when an astronaut

97

00:04:58,580 --> 00:04:56,039

straps on their suits and ventures out

98

00:05:01,339 --> 00:04:58,590

into space the work being done is often

99

00:05:04,580 --> 00:05:01,349

a crucial repair or maintenance that

100

00:05:06,890 --> 00:05:04,590

simply cannot go undone there are of

101  
00:05:08,899 --> 00:05:06,900  
course some very important safety

102  
00:05:11,510 --> 00:05:08,909  
features in place to prevent these brave

103  
00:05:15,350 --> 00:05:11,520  
men and women from drifting out into the

104  
00:05:17,240 --> 00:05:15,360  
nothingness of space on Friday NASA

105  
00:05:19,219 --> 00:05:17,250  
astronaut Joe acaba

106  
00:05:22,430 --> 00:05:19,229  
completed his spacewalk and returned

107  
00:05:24,469 --> 00:05:22,440  
safely to the craft but he did so with

108  
00:05:27,640 --> 00:05:24,479  
one of those vital safety features

109  
00:05:30,709 --> 00:05:27,650  
broken and the other in need of repair

110  
00:05:32,779 --> 00:05:30,719  
two of the most important safety

111  
00:05:36,019 --> 00:05:32,789  
measures for a spacewalking astronaut

112  
00:05:38,059 --> 00:05:36,029  
the tether holding them in place and the

113  
00:05:39,730 --> 00:05:38,069

jetpack that would allow them to get

114

00:05:42,559 --> 00:05:39,740

back to safety if they were to

115

00:05:44,180 --> 00:05:42,569

accidentally fall off had to be

116

00:05:47,330 --> 00:05:44,190

addressed during the course of his

117

00:05:48,469 --> 00:05:47,340

excursion while NASA says Joe acaba was

118

00:05:52,129 --> 00:05:48,479

never in danger

119

00:05:53,450 --> 00:05:52,139

failed safety features are absolutely a

120

00:05:57,409 --> 00:05:53,460

cause for concern

121

00:05:59,360 --> 00:05:57,419

not to mention sweaty palms the trouble

122

00:06:01,730 --> 00:05:59,370

started when Joe acaba safety tether

123

00:06:04,339 --> 00:06:01,740

appeared damaged after he had left the

124

00:06:06,830 --> 00:06:04,349

airlock hanging out in space for hours

125

00:06:09,559 --> 00:06:06,840

on end with a frayed safety tether is

126  
00:06:12,230 --> 00:06:09,569  
obviously not something anyone wants to

127  
00:06:15,589 --> 00:06:12,240  
do so he returned to the ship to have it

128  
00:06:18,589 --> 00:06:15,599  
replaced then after resuming his duties

129  
00:06:21,499 --> 00:06:18,599  
again outside the space station Mission

130  
00:06:24,709 --> 00:06:21,509  
Control spotted a problem with a kaaba's

131  
00:06:27,980 --> 00:06:24,719  
jetpack with a handle that just wouldn't

132  
00:06:30,320 --> 00:06:27,990  
stay in position after some consulting

133  
00:06:32,529 --> 00:06:30,330  
amongst themselves NASA's flight

134  
00:06:35,240 --> 00:06:32,539  
controllers decided that the jetpack was

135  
00:06:39,409 --> 00:06:35,250  
unreliable and forced acaba to head

136  
00:06:41,119 --> 00:06:39,419  
again back into the ship acaba managed

137  
00:06:43,309 --> 00:06:41,129  
to finish most of the maintenance that

138  
00:06:46,609 --> 00:06:43,319

planned for the spacewalk but a number

139

00:06:49,879 --> 00:06:46,619

of things had to be left for later in

140

00:06:53,149 --> 00:06:49,889

this case the walk was safe insofar as

141

00:06:55,939 --> 00:06:53,159

no unforeseen events forced acaba to

142

00:06:58,219 --> 00:06:55,949

rely on his backup safety features but

143

00:07:00,019 --> 00:06:58,229

since both of them were broken at a

144

00:07:02,719 --> 00:07:00,029

different point during the spacewalk

145

00:07:06,169 --> 00:07:02,729

it's a bit frightening to wonder how

146

00:07:10,429 --> 00:07:06,179

things might have gone if he had been in

147

00:07:14,089 --> 00:07:10,439

those unforeseen events space safety

148

00:07:16,279 --> 00:07:14,099

it's going to be bigger here's something

149

00:07:19,549 --> 00:07:16,289

definitely big it's not going to go away

150

00:07:23,059 --> 00:07:19,559

anytime soon in fact you might say it's

151  
00:07:25,609 --> 00:07:23,069  
back from the past we waited until the

152  
00:07:28,879 --> 00:07:25,619  
dust settled until there was a readable

153  
00:07:31,999 --> 00:07:28,889  
on the air story that contained the

154  
00:07:34,339 --> 00:07:32,009  
nutshell of all of this oh here's the

155  
00:07:38,239 --> 00:07:34,349  
headline alien bombshell

156  
00:07:42,769 --> 00:07:38,249  
United States Navy filmed UFO that

157  
00:07:46,279 --> 00:07:42,779  
defied physics former area 51 insider

158  
00:07:48,829 --> 00:07:46,289  
claims in this particular article John

159  
00:07:51,649 --> 00:07:48,839  
Austin gets the byline he writes it for

160  
00:07:54,759 --> 00:07:51,659  
the Daily Express out of the United

161  
00:07:59,449 --> 00:07:54,769  
Kingdom United States Navy personnel

162  
00:08:02,059 --> 00:07:59,459  
aboard the USS Nimitz filmed a UFO

163  
00:08:05,629 --> 00:08:02,069

during an encounter that lasted several

164

00:08:08,749 --> 00:08:05,639

hours this information that comes by way

165

00:08:11,569 --> 00:08:08,759

of Chris melon and yes a familiar name

166

00:08:14,629 --> 00:08:11,579

recently he's part of Tom DeLonge and

167

00:08:17,329 --> 00:08:14,639

the to the Stars Academy we'll get to

168

00:08:19,369 --> 00:08:17,339

that in a second Chris Mellon served for

169

00:08:21,589 --> 00:08:19,379

almost 20 years in the United States

170

00:08:24,169 --> 00:08:21,599

federal government in a series of

171

00:08:26,809 --> 00:08:24,179

national security position roles under

172

00:08:30,529 --> 00:08:26,819

presidents Bill Clinton and George W

173

00:08:32,870 --> 00:08:30,539

Bush the ex national security chief who

174

00:08:35,139 --> 00:08:32,880

had high-level clearance was on a

175

00:08:38,120 --> 00:08:35,149

committee with oversight of all

176

00:08:41,089 --> 00:08:38,130

Department of Defense special access

177

00:08:43,850 --> 00:08:41,099

programs he spent a decade on the Senate

178

00:08:46,280 --> 00:08:43,860

Intelligence Committee and yes Chris

179

00:08:48,620 --> 00:08:46,290

Mellon is one of a number of former

180

00:08:52,249 --> 00:08:48,630

senior government insiders who have gone

181

00:08:55,040 --> 00:08:52,259

on the record about UFOs after joining

182

00:08:57,860 --> 00:08:55,050

that truth-seeking organization two

183

00:09:01,550 --> 00:08:57,870

the stars Academy of Arts and Science

184

00:09:04,610 --> 00:09:01,560

set up by former blink-182 frontman Tom

185

00:09:07,160 --> 00:09:04,620

DeLonge Chris melon who also worked on

186

00:09:09,949 --> 00:09:07,170

classified projects at area 51 in Nevada

187

00:09:12,110 --> 00:09:09,959

detailed the astonishing incident that

188

00:09:14,329 --> 00:09:12,120

reportedly happened off the coast of San

189

00:09:17,560 --> 00:09:14,339

Diego in broad daylight

190

00:09:20,660 --> 00:09:17,570

he said the Nimitz a five billion dollar

191

00:09:23,090 --> 00:09:20,670

warship with a crew of thousands was

192

00:09:26,990 --> 00:09:23,100

operating there escorted by the USS

193

00:09:29,960 --> 00:09:27,000

Princeton an Aegis class cruiser mr.

194

00:09:32,240 --> 00:09:29,970

melon said quote imagine these ships

195

00:09:35,240 --> 00:09:32,250

engaging in a routine training exercise

196

00:09:38,810 --> 00:09:35,250

when an unidentified aircraft with a

197

00:09:41,150 --> 00:09:38,820

small radar cross-section appears on the

198

00:09:43,310 --> 00:09:41,160

radar heading directly towards the

199

00:09:46,130 --> 00:09:43,320

battle group the aircraft has no

200

00:09:50,360 --> 00:09:46,140

transponder does not respond to radio

201  
00:09:53,540 --> 00:09:50,370  
calls the Princeton contacts two f-18s

202  
00:09:56,870 --> 00:09:53,550  
already aloft to intercept the target as

203  
00:09:59,389 --> 00:09:56,880  
the two f-18s approached the four

204  
00:10:03,860 --> 00:09:59,399  
aviators see the object has no wings no

205  
00:10:07,550 --> 00:10:03,870  
exhaust it is white oblong some 40 feet

206  
00:10:10,160 --> 00:10:07,560  
long and perhaps twelve feet thick the

207  
00:10:12,319 --> 00:10:10,170  
pilots are astonished to see the object

208  
00:10:16,040 --> 00:10:12,329  
suddenly reorient itself toward the

209  
00:10:18,079 --> 00:10:16,050  
approaching f-18 one pilot pursued the

210  
00:10:21,380 --> 00:10:18,089  
craft while his wingman stayed high in

211  
00:10:24,410 --> 00:10:21,390  
the air in a series of discrete tumbling

212  
00:10:26,569 --> 00:10:24,420  
maneuvers that seemed to defy the law of

213  
00:10:30,829 --> 00:10:26,579

physics the object takes a position

214

00:10:33,550 --> 00:10:30,839

directly behind the approaching f-18 the

215

00:10:36,650 --> 00:10:33,560

pilot captures gun camera footage and

216

00:10:39,500 --> 00:10:36,660

infrared imagery of this object

217

00:10:43,189 --> 00:10:39,510

they are outmatched by a technology

218

00:10:45,260 --> 00:10:43,199

they've never seen and quotes the pilots

219

00:10:48,110 --> 00:10:45,270

returned to the Nimitz but the object

220

00:10:50,360 --> 00:10:48,120

remained in the area for several hours

221

00:10:53,870 --> 00:10:50,370

according to Chris Mellon he said quote

222

00:10:57,079 --> 00:10:53,880

at one point the object soars to 80,000

223

00:10:59,870 --> 00:10:57,089

feet hovers then drops at supersonic

224

00:11:02,630 --> 00:10:59,880

speeds coming to a full stop at a mere

225

00:11:06,380 --> 00:11:02,640

fifty feet above the ocean where it

226  
00:11:08,370 --> 00:11:06,390  
resumes hovering more f-18s quote are

227  
00:11:10,860 --> 00:11:08,380  
dispatched but with similar

228  
00:11:14,070 --> 00:11:10,870  
results as before the engagement occurs

229  
00:11:18,780 --> 00:11:14,080  
in broad daylight in the secret machine

230  
00:11:21,540 --> 00:11:18,790  
as it easily evades the f-18s Chris

231  
00:11:23,580 --> 00:11:21,550  
Mullin continues the quote dozens of

232  
00:11:26,160 --> 00:11:23,590  
military personnel aboard the various

233  
00:11:29,480 --> 00:11:26,170  
planes and ships involved are privy to

234  
00:11:32,610 --> 00:11:29,490  
these interactions clearly this is not

235  
00:11:35,430 --> 00:11:32,620  
experimental United States aircraft but

236  
00:11:38,370 --> 00:11:35,440  
whose is it how did it accomplish these

237  
00:11:40,500 --> 00:11:38,380  
feats and quotes Chris Mellon has

238  
00:11:43,530 --> 00:11:40,510

suggested that Congress should

239

00:11:45,330 --> 00:11:43,540

investigate this event he said quote the

240

00:11:47,670 --> 00:11:45,340

chairman of the Armed Services Committee

241

00:11:49,860 --> 00:11:47,680

and his counterparts and other

242

00:11:52,560 --> 00:11:49,870

congressional oversight committees can

243

00:11:54,960 --> 00:11:52,570

easily request a briefing to confirm the

244

00:11:57,350 --> 00:11:54,970

veracity of this story and the existence

245

00:11:59,880 --> 00:11:57,360

of other events of similar nature

246

00:12:02,100 --> 00:11:59,890

Congress has every right to review the

247

00:12:04,470 --> 00:12:02,110

documents generated by this event and

248

00:12:07,110 --> 00:12:04,480

request briefings by the military

249

00:12:09,690 --> 00:12:07,120

personnel involved if the Oversight

250

00:12:12,240 --> 00:12:09,700

Committee have not already been briefed

251

00:12:15,510 --> 00:12:12,250

on this event and others like it they

252

00:12:17,760 --> 00:12:15,520

clearly should be how else ends Chris

253

00:12:20,870 --> 00:12:17,770

Mullin can they adequately assess

254

00:12:23,130 --> 00:12:20,880

threats to our forces and our military

255

00:12:27,660 --> 00:12:23,140

requirements end quotes

256

00:12:31,800 --> 00:12:27,670

end of story but we see a huge to be

257

00:12:34,320 --> 00:12:31,810

continued looming from Cheryl Costa who

258

00:12:37,410 --> 00:12:34,330

writes for the Syracuse New Times her

259

00:12:41,850 --> 00:12:37,420

excellent blog New York Skies headline

260

00:12:44,820 --> 00:12:41,860

top 25 cities for UFO sightings in the

261

00:12:48,000 --> 00:12:44,830

United States no we're not gonna read

262

00:12:50,850 --> 00:12:48,010

all 25 you can find them later at UFO

263

00:12:53,580 --> 00:12:50,860

headline news calm with just the click

264

00:12:57,030 --> 00:12:53,590

of your mouse here's what Cheryl says

265

00:13:00,420 --> 00:12:57,040

people are fascinated with rankings and

266

00:13:03,810 --> 00:13:00,430

UFOs are no different people want to

267

00:13:07,050 --> 00:13:03,820

know where the top UFO hot spots are so

268

00:13:11,010 --> 00:13:07,060

here we go the top 25 cities in the

269

00:13:12,720 --> 00:13:11,020

United States for UFO sightings she

270

00:13:15,870 --> 00:13:12,730

notes that when she published her book

271

00:13:18,900 --> 00:13:15,880

she and her spouse Linda UFO sightings

272

00:13:21,960 --> 00:13:18,910

desk reference United States of America

273

00:13:23,999 --> 00:13:21,970

2001 to 2015

274

00:13:27,090 --> 00:13:24,009

back in March they only took the data

275

00:13:28,769 --> 00:13:27,100

resolution down to a county level as

276

00:13:30,720 --> 00:13:28,779

they formatted the book they then

277

00:13:32,939 --> 00:13:30,730

realized that adding a listing of UFO

278

00:13:35,670 --> 00:13:32,949

sightings down to a city level would

279

00:13:37,980 --> 00:13:35,680

double the size of the book the

280

00:13:41,519 --> 00:13:37,990

incredible amount of misspellings in the

281

00:13:43,949 --> 00:13:41,529

cities also posed a problem so there

282

00:13:45,809 --> 00:13:43,959

wasn't any easy solution to the problem

283

00:13:49,199 --> 00:13:45,819

she says trust her when she says

284

00:13:53,460 --> 00:13:49,209

spellcheck was only going to add to the

285

00:13:58,800 --> 00:13:53,470

problem the answer an old-school manual

286

00:14:00,809 --> 00:13:58,810

editing of over 120,000 records the

287

00:14:02,900 --> 00:14:00,819

database is looking good now she says

288

00:14:05,400 --> 00:14:02,910

but it still needs a bit of tweaking

289

00:14:07,829 --> 00:14:05,410

here's what she writes in first person I

290

00:14:10,319 --> 00:14:07,839

do feel comfortable sharing the top

291

00:14:13,259 --> 00:14:10,329

United States 25 cities with the most

292

00:14:16,079 --> 00:14:13,269

UFO sighting reports but before we start

293

00:14:17,879 --> 00:14:16,089

I must point out that some of you will

294

00:14:21,840 --> 00:14:17,889

simply comment that each of these cities

295

00:14:24,900 --> 00:14:21,850

are major population centers do this I

296

00:14:28,170 --> 00:14:24,910

say to have reports you need observers

297

00:14:30,660 --> 00:14:28,180

and larger metropolitan areas have lots

298

00:14:33,299 --> 00:14:30,670

of potential observers but keep in mind

299

00:14:35,999 --> 00:14:33,309

that big cities have serious light

300

00:14:37,829 --> 00:14:36,009

pollution issues being able to report

301  
00:14:40,920 --> 00:14:37,839  
sightings at all under these conditions

302  
00:14:44,189 --> 00:14:40,930  
to even see them is a very telling

303  
00:14:48,269 --> 00:14:44,199  
consideration so here we go with just a

304  
00:14:51,990 --> 00:14:48,279  
few of the top of the top 25 Phoenix

305  
00:14:54,030 --> 00:14:52,000  
Arizona tops the list as number 1 the

306  
00:14:56,549 --> 00:14:54,040  
state of Arizona ranks number 7 in the

307  
00:15:00,150 --> 00:14:56,559  
country as far as UFO sightings go

308  
00:15:03,179 --> 00:15:00,160  
why Phoenix you might ask well ever

309  
00:15:05,879 --> 00:15:03,189  
since the Phoenix lights event in 1997

310  
00:15:08,160 --> 00:15:05,889  
residents of Phoenix and Maricopa County

311  
00:15:11,309 --> 00:15:08,170  
in general have been diligent in

312  
00:15:14,910 --> 00:15:11,319  
reporting what they see second on the

313  
00:15:17,639 --> 00:15:14,920

list Las Vegas Nevada and that seemed to

314

00:15:21,389 --> 00:15:17,649

surprise Cheryl Costa for two reasons a

315

00:15:24,749 --> 00:15:21,399

one Nevada only ranks 26th in the

316

00:15:26,970 --> 00:15:24,759

country for sightings that said she gets

317

00:15:29,910 --> 00:15:26,980

a lot of social media traffic from there

318

00:15:32,490 --> 00:15:29,920

about sightings and of course some of

319

00:15:35,820 --> 00:15:32,500

this social media the folks report to

320

00:15:38,580 --> 00:15:35,830

not reporting it also

321

00:15:40,440 --> 00:15:38,590

Las Vegas is constantly lit up day and

322

00:15:41,160 --> 00:15:40,450

night so the light pollution there is

323

00:15:43,290 --> 00:15:41,170

terrible

324

00:15:47,720 --> 00:15:43,300

perhaps it's because Las Vegas is a

325

00:15:51,030 --> 00:15:47,730

stone's throw from area 51 and I've said

326

00:15:53,460 --> 00:15:51,040

third on the list is Seattle Washington

327

00:15:55,770 --> 00:15:53,470

Washington ranks number three in the

328

00:15:57,810 --> 00:15:55,780

country Cheryl Costa thought it was a

329

00:16:00,990 --> 00:15:57,820

toss-up between Seattle Washington and

330

00:16:04,170 --> 00:16:01,000

Portland Oregon as both of those regions

331

00:16:06,660 --> 00:16:04,180

of the Northwest host heavy UFO traffic

332

00:16:10,440 --> 00:16:06,670

trees and all Portland Oregon ranks

333

00:16:13,800 --> 00:16:10,450

fifth Oregon as a state ranks 13 in the

334

00:16:17,460 --> 00:16:13,810

nation not to be forgotten a Chicago

335

00:16:19,500 --> 00:16:17,470

Illinois coming in as number four state

336

00:16:22,440 --> 00:16:19,510

of Illinois ranks number eight in the

337

00:16:25,050 --> 00:16:22,450

country and finally Cheryl Costa says I

338

00:16:28,410 --> 00:16:25,060

must take a moment and discuss the city

339

00:16:30,870 --> 00:16:28,420

in sixth place last spring when the book

340

00:16:34,140 --> 00:16:30,880

came out it was noted in the West Coast

341

00:16:36,480 --> 00:16:34,150

media that California was number one for

342

00:16:39,150 --> 00:16:36,490

UFO sightings they were also quick to

343

00:16:42,180 --> 00:16:39,160

point out Los Angeles County was the

344

00:16:45,300 --> 00:16:42,190

number one County for UFO sightings in

345

00:16:48,090 --> 00:16:45,310

the country and apparently many people

346

00:16:49,320 --> 00:16:48,100

mistakenly equated that with the city of

347

00:16:52,170 --> 00:16:49,330

Los Angeles

348

00:16:55,230 --> 00:16:52,180

so she's setting the record straight

349

00:16:58,740 --> 00:16:55,240

hang on Los Angeles folks we're number

350

00:17:00,870 --> 00:16:58,750

six in the country for cities and she

351  
00:17:06,090 --> 00:17:00,880  
notes we've got to remember Los Angeles

352  
00:17:07,800 --> 00:17:06,100  
County covers an area of 4751 square

353  
00:17:11,820 --> 00:17:07,810  
miles while the city of Los Angeles

354  
00:17:16,050 --> 00:17:11,830  
itself that's a mere 503 square miles

355  
00:17:17,939 --> 00:17:16,060  
and she adds sorry la there's a list of

356  
00:17:20,820 --> 00:17:17,949  
the rest of the cities in those other

357  
00:17:24,060 --> 00:17:20,830  
places you can find it later at UFO

358  
00:17:26,670 --> 00:17:24,070  
headline news calm not sure where the

359  
00:17:29,330 --> 00:17:26,680  
state of Wisconsin ranks here's a

360  
00:17:32,670 --> 00:17:29,340  
smaller town undoubtedly it's called

361  
00:17:35,870 --> 00:17:32,680  
Germantown probably safe to say some of

362  
00:17:38,160 --> 00:17:35,880  
its residents are enjoying Oktoberfest

363  
00:17:40,380 --> 00:17:38,170

Germantown Wisconsin provides the

364

00:17:43,590 --> 00:17:40,390

setting for Moe Fonz sighting number

365

00:17:46,860 --> 00:17:43,600

87530 nine the date of this sighting is

366

00:17:49,320 --> 00:17:46,870

October 21st 2017 it wasn't reported

367

00:17:51,979 --> 00:17:49,330

till October 23rd

368

00:17:56,759 --> 00:17:51,989

here's the summary speeding object

369

00:17:59,039 --> 00:17:56,769

becomes stationary citing specifics tell

370

00:18:02,489 --> 00:17:59,049

us the viewing distance here it was over

371

00:18:05,460 --> 00:18:02,499

1 mile the altitude was over 500 feet

372

00:18:07,889 --> 00:18:05,470

and there wasn't any cloud cover the

373

00:18:11,340 --> 00:18:07,899

sighting duration was 5 minutes object

374

00:18:14,340 --> 00:18:11,350

features none object flight path path

375

00:18:17,190 --> 00:18:14,350

then a hovering and according to our

376

00:18:20,149 --> 00:18:17,200

witness this object was shaped star like

377

00:18:22,799 --> 00:18:20,159

it seemed to be a fairly balmy evening

378

00:18:25,649 --> 00:18:22,809

maximum temperature 75 degrees

379

00:18:29,249 --> 00:18:25,659

Fahrenheit 23 degrees Celsius with a

380

00:18:31,769 --> 00:18:29,259

minimum of 59 degrees Fahrenheit 15

381

00:18:33,599 --> 00:18:31,779

degrees Celsius the visibility factors

382

00:18:36,299 --> 00:18:33,609

pretty ordinary

383

00:18:38,999 --> 00:18:36,309

the maximum the standard 10 miles 16

384

00:18:42,690 --> 00:18:39,009

kilometers which held true for the mean

385

00:18:45,109 --> 00:18:42,700

visibility and the minimum as well the

386

00:18:48,090 --> 00:18:45,119

conditions indicate nothing abnormal

387

00:18:50,779 --> 00:18:48,100

weather-wise here's the account first

388

00:18:53,879 --> 00:18:50,789

person in the words of our witness

389

00:18:57,419 --> 00:18:53,889

sitting in my backyard watching for the

390

00:19:00,060 --> 00:18:57,429

orion 'it's i spotted what appeared to

391

00:19:02,489 --> 00:19:00,070

be in the aircraft or a brightly

392

00:19:05,310 --> 00:19:02,499

illuminated satellite it was coming out

393

00:19:09,210 --> 00:19:05,320

of zero three six degrees on a heading

394

00:19:12,109 --> 00:19:09,220

of about 250 degrees no position lights

395

00:19:15,210 --> 00:19:12,119

no rotating beacon lights visible

396

00:19:17,789 --> 00:19:15,220

although i assumed perhaps there were

397

00:19:19,859 --> 00:19:17,799

navigational lights becoming visible I

398

00:19:24,210 --> 00:19:19,869

would see them before this thing passed

399

00:19:28,560 --> 00:19:24,220

overhead except it didn't pass overhead

400

00:19:31,349 --> 00:19:28,570

as I watched this object approach they

401  
00:19:35,070 --> 00:19:31,359  
came to an abrupt stop in the northeast

402  
00:19:38,220 --> 00:19:35,080  
sky I watched for a few minutes but the

403  
00:19:41,849 --> 00:19:38,230  
object remained stationary it simply

404  
00:19:44,009 --> 00:19:41,859  
looked like a bright star I looked down

405  
00:19:45,749 --> 00:19:44,019  
at my iPhone where I was trying to get a

406  
00:19:49,489 --> 00:19:45,759  
shot of this and when I looked back

407  
00:19:53,009 --> 00:19:49,499  
again the object was gone

408  
00:19:56,220 --> 00:19:53,019  
yep wait for it wait for it but it

409  
00:19:58,680 --> 00:19:56,230  
doesn't appear instead it does the

410  
00:20:02,070 --> 00:19:58,690  
opposite we believe the word to proof

411  
00:20:02,970 --> 00:20:02,080  
would be appropriate here from Wisconsin

412  
00:20:05,480 --> 00:20:02,980  
to the state

413  
00:20:08,580 --> 00:20:05,490

## Washington in the Pacific Northwest

414

00:20:10,919 --> 00:20:08,590

ranking high on those UFO sightings

415

00:20:12,960 --> 00:20:10,929

here's a sighting from the area of

416

00:20:15,419 --> 00:20:12,970

Shelton Washington

417

00:20:18,330 --> 00:20:15,429

it's MUFON case number eight seven five

418

00:20:21,450 --> 00:20:18,340

four zero date of the sighting ten

419

00:20:24,900 --> 00:20:21,460

twenty three twenty seventeen and it got

420

00:20:29,430 --> 00:20:24,910

a same-day report here's the summary in

421

00:20:33,299 --> 00:20:29,440

woods quiet environment silent object at

422

00:20:37,620 --> 00:20:33,309

dusk thought it was satellite until it

423

00:20:41,070 --> 00:20:37,630

bore left word no flashing moved faster

424

00:20:44,010 --> 00:20:41,080

than Earth aircraft and that's just the

425

00:20:45,840 --> 00:20:44,020

summary sighting specifics provide us

426  
00:20:48,360 --> 00:20:45,850  
with a viewing distance that was over

427  
00:20:51,480 --> 00:20:48,370  
one mile an altitude over five hundred

428  
00:20:53,549 --> 00:20:51,490  
feet without any perceptible cloud cover

429  
00:20:56,159 --> 00:20:53,559  
the sighting duration was two minutes

430  
00:20:59,730 --> 00:20:56,169  
but the object features are listed as

431  
00:21:02,070 --> 00:20:59,740  
unknown the flight path was a path at

432  
00:21:05,909 --> 00:21:02,080  
some point including directional change

433  
00:21:08,419 --> 00:21:05,919  
and this object second one in a week now

434  
00:21:11,880 --> 00:21:08,429  
is reported to have been egg-shaped

435  
00:21:15,720 --> 00:21:11,890  
here's what happened at about 7:00 p.m.

436  
00:21:18,360 --> 00:21:15,730  
October 23rd on the far side of Twilight

437  
00:21:21,600 --> 00:21:18,370  
I was standing in the street in front of

438  
00:21:25,159 --> 00:21:21,610

my home stargazing when I noticed at

439

00:21:29,280 --> 00:21:25,169

treetop level about 55 degrees up a

440

00:21:31,950 --> 00:21:29,290

silvery glowing object it was about the

441

00:21:35,310 --> 00:21:31,960

size of a BB held at arm's length

442

00:21:39,180 --> 00:21:35,320

this object emerged from the North sky

443

00:21:41,190 --> 00:21:39,190

obscured by the trees it then flew out

444

00:21:44,250 --> 00:21:41,200

from behind the tree line but it

445

00:21:48,360 --> 00:21:44,260

maintained a high altitude this thing

446

00:21:51,299 --> 00:21:48,370

sailed in front of a star and then it

447

00:21:54,720 --> 00:21:51,309

haltingly began to change directions it

448

00:21:57,630 --> 00:21:54,730

was itself left and right a few degrees

449

00:22:00,510 --> 00:21:57,640

each direction it crossed the sky above

450

00:22:04,350 --> 00:22:00,520

me at about eighty degrees its bearing

451  
00:22:07,799 --> 00:22:04,360  
was eastward with then that same weaving

452  
00:22:10,020 --> 00:22:07,809  
movement this object crossed paths with

453  
00:22:12,149 --> 00:22:10,030  
a satellite Midway a satellite that

454  
00:22:16,140 --> 00:22:12,159  
seemed to be about 85 degrees up and

455  
00:22:16,799 --> 00:22:16,150  
headed Northwest finally the object

456  
00:22:19,430 --> 00:22:16,809  
disappeared

457  
00:22:22,049 --> 00:22:19,440  
behind the tree line to my East I

458  
00:22:25,049 --> 00:22:22,059  
figured it was not a terrestrial

459  
00:22:27,480 --> 00:22:25,059  
aircraft there was no noise there were

460  
00:22:29,489 --> 00:22:27,490  
no flight lights flashing and this

461  
00:22:33,119 --> 00:22:29,499  
object seemed to be moving faster than

462  
00:22:36,210 --> 00:22:33,129  
normal nor do I think it was a satellite

463  
00:22:39,779 --> 00:22:36,220

it changed directions it had different

464

00:22:41,519 --> 00:22:39,789

colors and it did not fade this thing

465

00:22:43,499 --> 00:22:41,529

was a different color than these stars

466

00:22:47,759 --> 00:22:43,509

and the planets in the night sky as well

467

00:22:51,149 --> 00:22:47,769

it had a distinct silvery chrome II kind

468

00:22:55,289 --> 00:22:51,159

of glow this entire episode took roughly

469

00:22:58,350 --> 00:22:55,299

two minutes two minutes great

470

00:23:01,169 --> 00:22:58,360

description don't we wish we had video a

471

00:23:04,139 --> 00:23:01,179

picture probably too far away to get

472

00:23:07,980 --> 00:23:04,149

much let's take a sweet ride now to

473

00:23:11,009 --> 00:23:07,990

Sugar Land in the state of Texas the

474

00:23:12,720 --> 00:23:11,019

Lone Star State its MUFON Case number

475

00:23:17,100 --> 00:23:12,730

eight seven five four three

476

00:23:20,279 --> 00:23:17,110

this report carries a date of 10 23 2017

477

00:23:24,169 --> 00:23:20,289

as the sighting and it got submitted the

478

00:23:28,109 --> 00:23:24,179

very same day here's the summary saw

479

00:23:31,289 --> 00:23:28,119

Firefly like pulsing lights around 5:15

480

00:23:34,369 --> 00:23:31,299

watched for 20 minutes they were

481

00:23:38,519 --> 00:23:34,379

hovering in the sky in Sugar Land Texas

482

00:23:40,799 --> 00:23:38,529

took videos and yep those videos will be

483

00:23:44,519 --> 00:23:40,809

available later at UFO headline news

484

00:23:47,220 --> 00:23:44,529

calm we saw the object in a couple of

485

00:23:49,680 --> 00:23:47,230

them in the others not so much but

486

00:23:52,859 --> 00:23:49,690

that's for you to view and decide gentle

487

00:23:55,289 --> 00:23:52,869

listeners do your own home analysis here

488

00:23:58,159 --> 00:23:55,299

come these citing specifics the viewing

489

00:24:01,859 --> 00:23:58,169

distance over one mile altitude unknown

490

00:24:04,350 --> 00:24:01,869

sighting duration 20 minutes object

491

00:24:07,710 --> 00:24:04,360

features unknown object flight path

492

00:24:12,180 --> 00:24:07,720

hovering and then path the shape of this

493

00:24:16,980 --> 00:24:12,190

object sphere here is the account around

494

00:24:18,629 --> 00:24:16,990

5:15 p.m. in Sugar Land I saw something

495

00:24:21,960 --> 00:24:18,639

that I thought at first was an

496

00:24:25,350 --> 00:24:21,970

approaching plane but as I watched it I

497

00:24:27,749 --> 00:24:25,360

noticed pulsing very bright white lights

498

00:24:30,240 --> 00:24:27,759

they didn't come overhead like most

499

00:24:33,960 --> 00:24:30,250

planes it hovered off in the distance

500

00:24:37,170 --> 00:24:33,970

all the while and all the while pulsing

501  
00:24:41,010 --> 00:24:37,180  
these white lights almost like fireflies

502  
00:24:44,220 --> 00:24:41,020  
a plane will reflect the Sun back and

503  
00:24:46,680 --> 00:24:44,230  
stay consistent with the same hue these

504  
00:24:49,680 --> 00:24:46,690  
lights would pulse and they would

505  
00:24:52,710 --> 00:24:49,690  
sometimes split into two lights and then

506  
00:24:56,460 --> 00:24:52,720  
go back together I compared other planes

507  
00:24:59,310 --> 00:24:56,470  
other helicopters all of those have red

508  
00:25:02,400 --> 00:24:59,320  
lights these lights were very bright and

509  
00:25:04,830 --> 00:25:02,410  
white I've got four or five videos of

510  
00:25:07,380 --> 00:25:04,840  
the sighting the object made no sound

511  
00:25:10,290 --> 00:25:07,390  
there is some background noise in my

512  
00:25:13,080 --> 00:25:10,300  
videos not connected to the light I'm

513  
00:25:15,870 --> 00:25:13,090

not sure that this wasn't some kind of

514

00:25:18,450 --> 00:25:15,880

drone but that kind of pulsing light

515

00:25:21,690 --> 00:25:18,460

would have to have been very bright not

516

00:25:24,000 --> 00:25:21,700

at all street-legal I eventually lost

517

00:25:26,940 --> 00:25:24,010

sight just over the top of a neighbor's

518

00:25:31,140 --> 00:25:26,950

house as this thing hovered and post

519

00:25:34,110 --> 00:25:31,150

away the pulsing light and if this

520

00:25:36,600 --> 00:25:34,120

object doesn't want to be seen why the

521

00:25:37,320 --> 00:25:36,610

light why the pulsing a propulsion

522

00:25:41,160 --> 00:25:37,330

system

523

00:25:44,580 --> 00:25:41,170

oh we just don't know and time does not

524

00:25:47,940 --> 00:25:44,590

allow the further talk of such we've got

525

00:25:50,340 --> 00:25:47,950

to fly out of here because that's a wrap

526

00:25:52,770 --> 00:25:50,350

thank you for listening to inception

527

00:25:55,890 --> 00:25:52,780

radio network follow this broadcast at

528

00:25:57,870 --> 00:25:55,900

UFO headline news or I Heart Radio take

529

00:26:00,030 --> 00:25:57,880

care of each other we're all in this

530

00:26:00,370 --> 00:26:00,040

together this is Carol Carl see you

531

00:26:04,820 --> 00:26:00,380

tomorrow

532

00:26:11,160 --> 00:26:08,280

only AT&T offers unlimited data with HBO

533

00:26:13,470 --> 00:26:11,170

included and you never pay overages plus

534

00:26:16,890 --> 00:26:13,480

get to wreck TV now for only \$10 a month

535

00:26:18,660 --> 00:26:16,900

it's entertainment your way after 22

536

00:26:20,040 --> 00:26:18,670

gigabytes of data usage ATM a slow

537

00:26:21,210 --> 00:26:20,050

speeds plan include stream saver and

538

00:26:22,560 --> 00:26:21,220

videos will stream a standard definition

539

00:26:24,330 --> 00:26:22,570

unless you turn it off credits start

540

00:26:26,580 --> 00:26:24,340

within free bill cycles \$10 price based

541

00:26:27,930 --> 00:26:26,590

on \$35 live a little package - \$25

542

00:26:29,250 --> 00:26:27,940

credit service price is subject to

543

00:26:30,480 --> 00:26:29,260

change other usage speed and

544

00:26:31,830 --> 00:26:30,490

restrictions apply visit your nearest
