

UFO Headline News | Monday November 13th, 2017

Listen on

inceptionradionetwork.com

1
00:00:06,470 --> 00:00:03,030
blue dot org app

2
00:00:09,589 --> 00:00:06,480
welcome to ufo headline news with me

3
00:00:11,030 --> 00:00:09,599
heidi hollis today is monday november 13

4
00:00:13,030 --> 00:00:11,040
2017.

5
00:00:16,470 --> 00:00:13,040
you are listening to inception radio

6
00:00:19,510 --> 00:00:16,480
network the voice of the fringe majority

7
00:00:21,750 --> 00:00:19,520
today is my first day taking on ufo

8
00:00:23,590 --> 00:00:21,760
headline news and i am absolutely

9
00:00:27,589 --> 00:00:23,600
honored

10
00:00:29,669 --> 00:00:27,599
here is your ufo headline news

11
00:00:33,350 --> 00:00:29,679
a recent report

12
00:00:37,110 --> 00:00:33,360
a ufo sighting in sleepy eye minnesota

13
00:00:38,869 --> 00:00:37,120

on october 31st 2017.

14

00:00:41,350 --> 00:00:38,879

the witness states

15

00:00:43,510 --> 00:00:41,360

i was working three miles south of town

16

00:00:45,910 --> 00:00:43,520

i stopped working for a moment

17

00:00:49,029 --> 00:00:45,920

walked to my pickup to grab a water

18

00:00:51,270 --> 00:00:49,039

while walking i looked up at the sky

19

00:00:53,990 --> 00:00:51,280

because there was a large contrail from

20

00:00:56,310 --> 00:00:54,000

a jet engine plane

21

00:00:59,189 --> 00:00:56,320

while looking at that i noticed a shiny

22

00:01:02,069 --> 00:00:59,199

object flying just above the contrail at

23

00:01:04,630 --> 00:01:02,079

first i believed it was just another jet

24

00:01:07,830 --> 00:01:04,640

at a higher altitude it wasn't moving at

25

00:01:09,510 --> 00:01:07,840

a speed that would suggest otherwise

26
00:01:12,390 --> 00:01:09,520
after watching the object for a few

27
00:01:14,469 --> 00:01:12,400
minutes i noticed it was a sphere

28
00:01:17,350 --> 00:01:14,479
and it was much brighter than a plane

29
00:01:20,710 --> 00:01:17,360
reflecting sunlight the object stopped

30
00:01:22,950 --> 00:01:20,720
flying east to west hovered just above

31
00:01:23,910 --> 00:01:22,960
the contrail for approximately five

32
00:01:27,109 --> 00:01:23,920
minutes

33
00:01:28,950 --> 00:01:27,119
then suddenly went straight vertical for

34
00:01:32,710 --> 00:01:28,960
what i can only assume

35
00:01:34,469 --> 00:01:32,720
to be two to three thousand feet

36
00:01:36,069 --> 00:01:34,479
after reaching that altitude the object

37
00:01:38,390 --> 00:01:36,079
hovered for a minute

38
00:01:39,749 --> 00:01:38,400

around ten more minutes and then seemed

39

00:01:41,990 --> 00:01:39,759

to vanish

40

00:01:45,109 --> 00:01:42,000

i did take a few photos hoping to

41

00:01:46,950 --> 00:01:45,119

capture an image which i did but it is a

42

00:01:49,670 --> 00:01:46,960

cell phone quality

43

00:01:51,910 --> 00:01:49,680

so the quality isn't that great

44

00:01:53,670 --> 00:01:51,920

i did contact a friend during the event

45

00:01:55,270 --> 00:01:53,680

to see if he could see the object from

46

00:01:56,870 --> 00:01:55,280

where he was

47

00:01:59,109 --> 00:01:56,880

and he could not

48

00:02:02,389 --> 00:01:59,119

after that i checked my

49

00:02:04,469 --> 00:02:02,399

my photos and to my relief i captured

50

00:02:06,789 --> 00:02:04,479

one decent picture

51
00:02:09,669 --> 00:02:06,799
to see that picture go to inception

52
00:02:11,430 --> 00:02:09,679
radio network and look up ufo headline

53
00:02:13,830 --> 00:02:11,440
news

54
00:02:16,869 --> 00:02:13,840
in another case

55
00:02:21,190 --> 00:02:16,879
a ufo sighting in cape coral

56
00:02:24,470 --> 00:02:21,200
florida on november 2nd 2017.

57
00:02:27,030 --> 00:02:24,480
the witness explains i am an ex-military

58
00:02:29,910 --> 00:02:27,040
pilot and know what an aircraft at high

59
00:02:32,070 --> 00:02:29,920
altitude on a clear night looks like

60
00:02:33,830 --> 00:02:32,080
i also know what flares look like when

61
00:02:36,229 --> 00:02:33,840
viewed from a distance

62
00:02:39,430 --> 00:02:36,239
what i saw when going out on the

63
00:02:41,350 --> 00:02:39,440

driveway of my house at approximately 8

64

00:02:44,869 --> 00:02:41,360

pm central time

65

00:02:48,150 --> 00:02:44,879

dark and cloudless sky with a full moon

66

00:02:50,470 --> 00:02:48,160

look like two very bright stars next to

67

00:02:52,229 --> 00:02:50,480

each other and stationary

68

00:02:54,790 --> 00:02:52,239

in the sky

69

00:02:57,030 --> 00:02:54,800

these star-like objects were a good bit

70

00:02:59,910 --> 00:02:57,040

brighter than venus

71

00:03:02,309 --> 00:02:59,920

i obviously have never seen two stars

72

00:03:04,470 --> 00:03:02,319

that were this bright and positioned

73

00:03:06,869 --> 00:03:04,480

right next to each other

74

00:03:08,309 --> 00:03:06,879

these objects were not blinking or

75

00:03:12,229 --> 00:03:08,319

changing color

76

00:03:15,750 --> 00:03:12,239

from their white star-like appearance

77

00:03:17,589 --> 00:03:15,760

i viewed them for about one minute

78

00:03:19,030 --> 00:03:17,599

after one full minute

79

00:03:20,710 --> 00:03:19,040

both stars

80

00:03:21,910 --> 00:03:20,720

started to dim

81

00:03:25,270 --> 00:03:21,920

slowly

82

00:03:26,710 --> 00:03:25,280

until i could not see them anymore

83

00:03:29,190 --> 00:03:26,720

from the time they were at full

84

00:03:32,390 --> 00:03:29,200

brightness until they could not be seen

85

00:03:34,550 --> 00:03:32,400

anymore took about 30 seconds

86

00:03:37,110 --> 00:03:34,560

while they were dimming they remained in

87

00:03:39,910 --> 00:03:37,120

their position in the sky

88

00:03:41,670 --> 00:03:39,920

i have never in my life seen anything

89

00:03:44,390 --> 00:03:41,680

like this before

90

00:03:45,430 --> 00:03:44,400

these two objects look to be in outer

91

00:03:49,190 --> 00:03:45,440

space

92

00:03:50,550 --> 00:03:49,200

such as you would see a star or venus

93

00:03:52,070 --> 00:03:50,560

in my opinion

94

00:03:55,509 --> 00:03:52,080

they were not

95

00:03:56,630 --> 00:03:55,519

at a lower altitude where any aircraft

96

00:03:58,789 --> 00:03:56,640

would be

97

00:04:02,470 --> 00:03:58,799

i feel so lucky that for the first time

98

00:04:05,750 --> 00:04:02,480

in my life i am now 69 years old that i

99

00:04:08,390 --> 00:04:05,760

have seen something that i am convinced

100

00:04:11,509 --> 00:04:08,400

is not anything from that can be

101
00:04:13,750 --> 00:04:11,519
explained as natural or man-made

102
00:04:15,110 --> 00:04:13,760
i did not have a camera or a cell phone

103
00:04:17,590 --> 00:04:15,120
on my person

104
00:04:18,870 --> 00:04:17,600
so unfortunately i have no photos or

105
00:04:20,229 --> 00:04:18,880
video

106
00:04:22,390 --> 00:04:20,239
ron

107
00:04:23,510 --> 00:04:22,400
absolutely fascinating

108
00:04:24,469 --> 00:04:23,520
all right

109
00:04:27,510 --> 00:04:24,479
next

110
00:04:31,350 --> 00:04:27,520
we have a blast from the pass as far as

111
00:04:35,590 --> 00:04:31,360
a ufo sighting is concerned i found this

112
00:04:37,590 --> 00:04:35,600
as well as the others on ufostalker.com

113
00:04:41,430 --> 00:04:37,600

you could go to inception radio network

114

00:04:44,390 --> 00:04:41,440

once again to find these listed

115

00:04:47,749 --> 00:04:44,400

the witness states

116

00:04:50,390 --> 00:04:47,759

the object flying from the west for east

117

00:04:52,390 --> 00:04:50,400

through the zenith the field of view of

118

00:04:55,350 --> 00:04:52,400

about 15 degrees

119

00:04:57,430 --> 00:04:55,360

25 millimeter lens the height of the sky

120

00:04:59,749 --> 00:04:57,440

about 75 degrees

121

00:05:00,950 --> 00:04:59,759

this ufo sighting comes to us from

122

00:05:02,550 --> 00:05:00,960

canberra

123

00:05:06,150 --> 00:05:02,560

australia

124

00:05:09,350 --> 00:05:06,160

and this took place on december 31st

125

00:05:14,790 --> 00:05:11,670

the witness states my wife and i were

126
00:05:15,590 --> 00:05:14,800
traveling by car from sydney to canberra

127
00:05:18,310 --> 00:05:15,600
on

128
00:05:20,710 --> 00:05:18,320
the 31st of december 92

129
00:05:23,990 --> 00:05:20,720
intending to spend new year's eve with

130
00:05:26,070 --> 00:05:24,000
relatives in canberra

131
00:05:29,350 --> 00:05:26,080
it was a clear sunny day and

132
00:05:32,950 --> 00:05:29,360
approximately 1 30 pm we were

133
00:05:35,350 --> 00:05:32,960
approximately 45 kilometers from there

134
00:05:37,029 --> 00:05:35,360
and close to a vineyard called lake

135
00:05:40,230 --> 00:05:37,039
george winery

136
00:05:43,749 --> 00:05:40,240
i negotiated a bend in the road

137
00:05:45,670 --> 00:05:43,759
and immediately saw an object in the sky

138
00:05:49,029 --> 00:05:45,680

some distance ahead

139

00:05:51,189 --> 00:05:49,039

at a low altitude

140

00:05:55,990 --> 00:05:51,199

my first thoughts were that it was

141

00:05:57,909 --> 00:05:56,000

observing a head-on view of a boeing 747

142

00:06:00,310 --> 00:05:57,919

this aroused some

143

00:06:03,510 --> 00:06:00,320

concern as i knew

144

00:06:07,270 --> 00:06:03,520

that the airport did not have a runway

145

00:06:09,670 --> 00:06:07,280

capable of handling a 747

146

00:06:13,670 --> 00:06:09,680

and i could not understand

147

00:06:15,590 --> 00:06:13,680

why a 747 would be at such a low

148

00:06:18,469 --> 00:06:15,600

altitude

149

00:06:21,189 --> 00:06:18,479

the road lapsed into several bends with

150

00:06:22,390 --> 00:06:21,199

some trees and i lost sight of the

151
00:06:24,629 --> 00:06:22,400
object

152
00:06:26,629 --> 00:06:24,639
after negotiating the bends

153
00:06:29,189 --> 00:06:26,639
the road was then straight for a couple

154
00:06:31,909 --> 00:06:29,199
of kilometers

155
00:06:35,189 --> 00:06:31,919
as soon as i came through the bends we

156
00:06:36,790 --> 00:06:35,199
both regained our view of the object

157
00:06:39,990 --> 00:06:36,800
only then

158
00:06:43,510 --> 00:06:40,000
it was a full side view

159
00:06:46,390 --> 00:06:43,520
and we both were astonished to see

160
00:06:50,390 --> 00:06:46,400
a rocket-shaped craft

161
00:06:53,189 --> 00:06:50,400
hovering at approximately 100 meters

162
00:06:55,350 --> 00:06:53,199
above some low hills to the north

163
00:06:59,589 --> 00:06:55,360

with these hills in turn

164

00:07:01,350 --> 00:06:59,599

approximately 190 meters above the road

165

00:07:03,350 --> 00:07:01,360

we were on

166

00:07:05,510 --> 00:07:03,360

i have calculated these measurements

167

00:07:07,110 --> 00:07:05,520

using google earth

168

00:07:09,670 --> 00:07:07,120

that's pretty cool

169

00:07:12,390 --> 00:07:09,680

i stopped the car and we got out and

170

00:07:15,510 --> 00:07:12,400

further observed the object

171

00:07:16,710 --> 00:07:15,520

we were approximately 800 meters from

172

00:07:20,629 --> 00:07:16,720

the object

173

00:07:24,309 --> 00:07:20,639

rocket shape

174

00:07:25,749 --> 00:07:24,319

approximately 45 meters in length

175

00:07:28,070 --> 00:07:25,759

approximately

176

00:07:30,950 --> 00:07:28,080

6 meters in diameter

177

00:07:33,110 --> 00:07:30,960

slightly tapering towards the rear

178

00:07:36,309 --> 00:07:33,120

it was a gray color

179

00:07:38,710 --> 00:07:36,319

and there was a single row of windows

180

00:07:41,029 --> 00:07:38,720

for nearly the full length

181

00:07:44,309 --> 00:07:41,039

i do not recall the exact shape of the

182

00:07:46,790 --> 00:07:44,319

windows only that they were there there

183

00:07:49,909 --> 00:07:46,800

were no protrusions whatsoever on the

184

00:07:52,550 --> 00:07:49,919

outside of this object there was a cloud

185

00:07:55,430 --> 00:07:52,560

of steam like vapor

186

00:07:58,869 --> 00:07:55,440

around the tail end of this object

187

00:08:01,110 --> 00:07:58,879

no sign of pressure more like steam from

188

00:08:03,189 --> 00:08:01,120

a parked steam locomotive

189

00:08:04,629 --> 00:08:03,199

i had a cam recorder in the car and i

190

00:08:08,070 --> 00:08:04,639

retrieved it

191

00:08:09,029 --> 00:08:08,080

every attempted to take a movie of the

192

00:08:13,110 --> 00:08:09,039

object

193

00:08:15,430 --> 00:08:13,120

and my camera would not switch on yet i

194

00:08:16,790 --> 00:08:15,440

used it later in canberra without a

195

00:08:19,909 --> 00:08:16,800

problem

196

00:08:21,430 --> 00:08:19,919

suddenly the object just disappeared

197

00:08:22,869 --> 00:08:21,440

one minute was there and then it

198

00:08:25,589 --> 00:08:22,879

disappeared

199

00:08:28,950 --> 00:08:25,599

the cloud of steam like vapor stayed in

200

00:08:30,710 --> 00:08:28,960

the sky for a few more seconds before

201
00:08:32,070 --> 00:08:30,720
disappearing

202
00:08:34,070 --> 00:08:32,080
wow

203
00:08:36,709 --> 00:08:34,080
that was fantastic

204
00:08:39,110 --> 00:08:36,719
i've heard of these rocket shaped craft

205
00:08:41,430 --> 00:08:39,120
before in the past but it's not

206
00:08:44,630 --> 00:08:41,440
something that you hear about as often

207
00:08:46,550 --> 00:08:44,640
these days so i find that to be

208
00:08:49,110 --> 00:08:46,560
totally totally

209
00:08:53,590 --> 00:08:52,470
our next topic we are going

210
00:08:54,389 --> 00:08:53,600
to

211
00:08:55,430 --> 00:08:54,399
earth

212
00:08:56,949 --> 00:08:55,440
sky

213
00:09:00,389 --> 00:08:56,959

news

214

00:09:02,550 --> 00:09:00,399

that's is coming to us from earthsky.org

215

00:09:05,509 --> 00:09:02,560

and you can go to

216

00:09:08,389 --> 00:09:05,519

our site once again to gather

217

00:09:11,110 --> 00:09:08,399

these images and the stories

218

00:09:14,470 --> 00:09:11,120

nasa's juno spacecraft

219

00:09:16,550 --> 00:09:14,480

has successfully completed its eighth

220

00:09:18,070 --> 00:09:16,560

science flyby

221

00:09:20,150 --> 00:09:18,080

of jupiter

222

00:09:23,670 --> 00:09:20,160

passing over the gas giant swirling

223

00:09:26,070 --> 00:09:23,680

cloud tops once again as it continues to

224

00:09:27,190 --> 00:09:26,080

unravel the mysteries of the largest

225

00:09:29,269 --> 00:09:27,200

planet

226

00:09:32,070 --> 00:09:29,279

in the solar system

227

00:09:34,710 --> 00:09:32,080

the mission itself also now has a new

228

00:09:37,350 --> 00:09:34,720

project manager who will oversee

229

00:09:40,389 --> 00:09:37,360

the continuing flow of information being

230

00:09:43,910 --> 00:09:40,399

sent back which has already greatly

231

00:09:46,070 --> 00:09:43,920

expanded our knowledge of jupiter

232

00:09:49,190 --> 00:09:46,080

which upends some theories

233

00:09:52,070 --> 00:09:49,200

and presenting new questions

234

00:09:54,630 --> 00:09:52,080

the new juno project manager is ed hurst

235

00:09:56,630 --> 00:09:54,640

of nasa's jet propulsion laboratory in

236

00:10:00,310 --> 00:09:56,640

pasadena california

237

00:10:02,389 --> 00:10:00,320

he said on november 2nd 2017

238

00:10:05,750 --> 00:10:02,399

all the science collected during the

239

00:10:07,030 --> 00:10:05,760

flyby was carried in juno's memory until

240

00:10:09,110 --> 00:10:07,040

yesterday

241

00:10:10,310 --> 00:10:09,120

when jupiter came out of solar

242

00:10:13,190 --> 00:10:10,320

conjunction

243

00:10:14,550 --> 00:10:13,200

when the planet is behind the sun from

244

00:10:16,630 --> 00:10:14,560

earth

245

00:10:20,069 --> 00:10:16,640

all science instruments and the

246

00:10:23,110 --> 00:10:20,079

spacecraft's junocam were operating and

247

00:10:25,509 --> 00:10:23,120

the new data are now being transmitted

248

00:10:28,310 --> 00:10:25,519

to earth and being delivered into the

249

00:10:31,670 --> 00:10:28,320

hands of our science team

250

00:10:34,069 --> 00:10:31,680

the flyby occurred on october 24th

251
00:10:37,829 --> 00:10:34,079
but the confirmation of its success was

252
00:10:38,870 --> 00:10:37,839
delayed until october 31st halloween of

253
00:10:40,949 --> 00:10:38,880
course

254
00:10:43,269 --> 00:10:40,959
by the solar conjunction which

255
00:10:46,870 --> 00:10:43,279
interrupts communications

256
00:10:49,670 --> 00:10:46,880
between the spacecraft and earth

257
00:10:52,870 --> 00:10:49,680
you have got to see these breathtaking

258
00:10:56,150 --> 00:10:52,880
images let me tell you unbelievable just

259
00:10:58,150 --> 00:10:56,160
looks like a masterpiece of art

260
00:11:01,110 --> 00:10:58,160
juno has been

261
00:11:03,670 --> 00:11:01,120
busy orbiting jupiter since july 4th of

262
00:11:05,509 --> 00:11:03,680
2016

263
00:11:07,269 --> 00:11:05,519

using its instruments to study the

264

00:11:08,389 --> 00:11:07,279

planet's atmosphere

265

00:11:10,069 --> 00:11:08,399

clouds

266

00:11:12,949 --> 00:11:10,079

and auroras

267

00:11:16,550 --> 00:11:12,959

at its closest the spacecraft passes

268

00:11:19,350 --> 00:11:16,560

within 2100 miles

269

00:11:22,150 --> 00:11:19,360

of jupiter's cloud tops providing

270

00:11:24,949 --> 00:11:22,160

unprecedented views of the turbulent

271

00:11:28,389 --> 00:11:24,959

atmosphere which often looks like it was

272

00:11:29,990 --> 00:11:28,399

painted by a cosmic watercolor artist

273

00:11:32,069 --> 00:11:30,000

that's just what i said

274

00:11:34,790 --> 00:11:32,079

hearst commented

275

00:11:37,350 --> 00:11:34,800

there is no more exciting place to be

276

00:11:40,230 --> 00:11:37,360

than an orbit around jupiter

277

00:11:41,590 --> 00:11:40,240

and no team i'd rather be with than the

278

00:11:44,710 --> 00:11:41,600

juno team

279

00:11:47,110 --> 00:11:44,720

our spacecraft is in great shape and the

280

00:11:49,590 --> 00:11:47,120

team is looking forward to many more

281

00:11:50,790 --> 00:11:49,600

flybys of the solar system's largest

282

00:11:53,350 --> 00:11:50,800

planet

283

00:11:56,550 --> 00:11:53,360

juno previously found that jupiter's

284

00:11:59,190 --> 00:11:56,560

auroras seem to defy earthly laws of

285

00:12:01,590 --> 00:11:59,200

physics and are much more powerful than

286

00:12:03,829 --> 00:12:01,600

any earth

287

00:12:07,829 --> 00:12:03,839

the auroras have also been studied more

288

00:12:09,190 --> 00:12:07,839

recently by nasa's chandra x-ray

289

00:12:11,990 --> 00:12:09,200

observatory

290

00:12:15,110 --> 00:12:12,000

the data from juno has also shown that

291

00:12:17,509 --> 00:12:15,120

jupiter is more complex internally

292

00:12:20,629 --> 00:12:17,519

than previously thought with current

293

00:12:22,870 --> 00:12:20,639

theories being turned on their heads

294

00:12:27,430 --> 00:12:22,880

juno's principal investigator scott

295

00:12:30,550 --> 00:12:27,440

bolton earlier told wired quote almost

296

00:12:33,110 --> 00:12:30,560

nothing is as we anticipated but it's

297

00:12:35,350 --> 00:12:33,120

exciting that jupiter is so different

298

00:12:38,710 --> 00:12:35,360

than we assumed

299

00:12:39,990 --> 00:12:38,720

juno was first launched on october 5th

300

00:12:41,990 --> 00:12:40,000

2011

301
00:12:44,389 --> 00:12:42,000
and is the first spacecraft to visit

302
00:12:46,389 --> 00:12:44,399
jupiter since galileo

303
00:12:48,870 --> 00:12:46,399
which ended its mission on september

304
00:12:51,030 --> 00:12:48,880
21st 2003

305
00:12:53,910 --> 00:12:51,040
by intentionally plummeting into

306
00:12:56,790 --> 00:12:53,920
jupiter's atmosphere much like the

307
00:12:58,069 --> 00:12:56,800
cassini probe did at saturn last

308
00:13:01,190 --> 00:12:58,079
september

309
00:13:02,710 --> 00:13:01,200
ed hurst juno's new project manager has

310
00:13:05,829 --> 00:13:02,720
worked on the mission since the

311
00:13:08,470 --> 00:13:05,839
beginning and also worked on the galileo

312
00:13:09,990 --> 00:13:08,480
stardust and genesis missions

313
00:13:10,790 --> 00:13:10,000

he replaces

314

00:13:13,509 --> 00:13:10,800

nick

315

00:13:16,470 --> 00:13:13,519

nybakken who was recently appointed

316

00:13:20,629 --> 00:13:16,480

deputy director at jpl's office for

317

00:13:22,550 --> 00:13:20,639

safety and mission success

318

00:13:25,269 --> 00:13:22,560

next flyby

319

00:13:27,509 --> 00:13:25,279

of jupiter will be on december 16th of

320

00:13:30,629 --> 00:13:27,519

this year 2017.

321

00:13:33,430 --> 00:13:30,639

bottom line the new images and info from

322

00:13:34,790 --> 00:13:33,440

the juno mission eighth science flyby of

323

00:13:36,230 --> 00:13:34,800

jupiter

324

00:13:37,750 --> 00:13:36,240

are simply

325

00:13:40,710 --> 00:13:37,760

absolutely

326

00:13:45,509 --> 00:13:43,190

another story coming to us from

327

00:13:50,870 --> 00:13:45,519

earthsky.org

328

00:13:54,949 --> 00:13:53,910

the ninth brightest star in all of the

329

00:13:55,750 --> 00:13:54,959

heavens

330

00:14:03,750 --> 00:13:55,760

is

331

00:14:04,470 --> 00:14:03,760

known only by name to the great majority

332

00:14:07,509 --> 00:14:04,480

of

333

00:14:10,710 --> 00:14:07,519

observers in the northern hemisphere

334

00:14:12,710 --> 00:14:10,720

it shines brightly with the magnitude of

335

00:14:15,030 --> 00:14:12,720

0.45

336

00:14:16,949 --> 00:14:15,040

in other words as brightly

337

00:14:19,590 --> 00:14:16,959

as the brightest stars

338

00:14:21,750 --> 00:14:19,600

but it is so far south on the dome of

339

00:14:23,910 --> 00:14:21,760

stars surrounding earth that it never

340

00:14:27,590 --> 00:14:23,920

rises above the horizon

341

00:14:30,870 --> 00:14:27,600

from any location north of about 33

342

00:14:33,509 --> 00:14:30,880

degrees north latitude follow the links

343

00:14:36,150 --> 00:14:33,519

below on the page that we will have

344

00:14:39,750 --> 00:14:36,160

highlighted on inception to learn more

345

00:14:42,230 --> 00:14:39,760

about akanar sometimes called the end of

346

00:14:45,189 --> 00:14:42,240

the river that's fascinating

347

00:14:47,829 --> 00:14:45,199

how to see akanar for all practical

348

00:14:49,829 --> 00:14:47,839

purposes you must be even further south

349

00:14:52,790 --> 00:14:49,839

around 25 degrees

350

00:14:54,069 --> 00:14:52,800

north latitude to see eckanar

351
00:14:56,629 --> 00:14:54,079
well

352
00:14:58,710 --> 00:14:56,639
that is a line drawn around the entire

353
00:15:01,750 --> 00:14:58,720
globe passing through

354
00:15:03,269 --> 00:15:01,760
miami in the u.s state of florida and

355
00:15:05,110 --> 00:15:03,279
type hey where you going jim the

356
00:15:06,790 --> 00:15:05,120
elevator's over here taking the stairs

357
00:15:08,230 --> 00:15:06,800
but our meeting's up on eight yeah i

358
00:15:10,069 --> 00:15:08,240
know but that's eight floors up that's

359
00:15:12,389 --> 00:15:10,079
like eight times

360
00:15:13,910 --> 00:15:12,399
i don't a lot of stairs that's the point

361
00:15:16,230 --> 00:15:13,920
i've already lost a few pounds and

362
00:15:18,310 --> 00:15:16,240
earned almost 100 in wellness incentives

363
00:15:20,389 --> 00:15:18,320

whoa you're getting rewarded for working

364

00:15:22,230 --> 00:15:20,399

out yeah i know i'm just as surprised as

365

00:15:24,069 --> 00:15:22,240

you are bob fearless is full of

366

00:15:25,750 --> 00:15:24,079

surprises that's the power of the blue

367

00:15:27,430 --> 00:15:25,760

cross and blue shield federal employee

368

00:15:30,230 --> 00:15:27,440

program learn more about our healthy

369

00:15:32,790 --> 00:15:30,240

benefits and sign up at fep blue dot org

370

00:15:34,150 --> 00:15:32,800

choose blue by december 11th hey in

371

00:15:37,750 --> 00:15:34,160

china

372

00:15:40,389 --> 00:15:37,760

nowhere in north america has it easy

373

00:15:41,990 --> 00:15:40,399

seeing this star for example

374

00:15:44,310 --> 00:15:42,000

from key west

375

00:15:46,790 --> 00:15:44,320

akanar rises only about

376
00:15:48,949 --> 00:15:46,800
eight degrees above the southern horizon

377
00:15:51,030 --> 00:15:48,959
even farther south from the southern tip

378
00:15:53,990 --> 00:15:51,040
of hawaii's big island

379
00:15:56,389 --> 00:15:54,000
eckanar never quite makes it to 14

380
00:15:58,470 --> 00:15:56,399
degrees and yet

381
00:16:00,470 --> 00:15:58,480
if you are far enough south you will see

382
00:16:04,389 --> 00:16:00,480
akanar easily

383
00:16:05,749 --> 00:16:04,399
after all this star is very bright

384
00:16:08,870 --> 00:16:05,759
just as

385
00:16:12,150 --> 00:16:08,880
idranus marks the end of the river so

386
00:16:13,110 --> 00:16:12,160
the river has a beginning the star

387
00:16:16,949 --> 00:16:13,120
beta

388
00:16:18,870 --> 00:16:16,959

ira danny or cursa which itself is

389

00:16:20,310 --> 00:16:18,880

easily visible from the northern

390

00:16:24,629 --> 00:16:20,320

hemisphere

391

00:16:27,590 --> 00:16:24,639

very near orion's brightest star rigel

392

00:16:30,790 --> 00:16:27,600

on most nights of the year akanar cannot

393

00:16:33,030 --> 00:16:30,800

be seen from anywhere in north america

394

00:16:35,670 --> 00:16:33,040

but around october 20th

395

00:16:36,870 --> 00:16:35,680

it skirts the southern horizon around

396

00:16:38,790 --> 00:16:36,880

midnight

397

00:16:40,949 --> 00:16:38,800

never getting very high

398

00:16:43,749 --> 00:16:40,959

then as the months pass it is seen

399

00:16:45,110 --> 00:16:43,759

earlier at night around 10 pm

400

00:16:46,389 --> 00:16:45,120

in november

401
00:16:50,949 --> 00:16:46,399
at 8 pm

402
00:16:53,430 --> 00:16:50,959
in december just after sunset in january

403
00:16:55,030 --> 00:16:53,440
being far to the south with no bright

404
00:16:59,030 --> 00:16:55,040
stars around it

405
00:17:01,749 --> 00:16:59,040
eckanar stands out in its isolation

406
00:17:04,069 --> 00:17:01,759
if you have a dark sky and are

407
00:17:07,750 --> 00:17:04,079
far enough south you'll easily see

408
00:17:09,829 --> 00:17:07,760
akanar's constellation iridanus swelling

409
00:17:11,990 --> 00:17:09,839
up in a great loop under the

410
00:17:15,029 --> 00:17:12,000
constellation orion

411
00:17:15,909 --> 00:17:15,039
eckanar's history and mythology this i

412
00:17:18,630 --> 00:17:15,919
love

413
00:17:21,429 --> 00:17:18,640

the very name akanar derives from the

414

00:17:25,189 --> 00:17:21,439

arabic phrase meaning the end of the

415

00:17:27,829 --> 00:17:25,199

river didn't we just mention that we did

416

00:17:30,230 --> 00:17:27,839

interestingly in early classical times

417

00:17:32,710 --> 00:17:30,240

the name eckanar was given to the star

418

00:17:34,070 --> 00:17:32,720

we now know as theta

419

00:17:36,710 --> 00:17:34,080

iridani

420

00:17:38,950 --> 00:17:36,720

or akmar

421

00:17:41,430 --> 00:17:38,960

at that time akmar was the brightest

422

00:17:42,390 --> 00:17:41,440

star in the constellation visible from

423

00:17:46,070 --> 00:17:42,400

greece

424

00:17:48,470 --> 00:17:46,080

and thus was considered the river's end

425

00:17:51,110 --> 00:17:48,480

when voyagers discovered the brighter

426
00:17:52,310 --> 00:17:51,120
star farther to the south it became

427
00:17:59,270 --> 00:17:52,320
eckanar

428
00:18:03,430 --> 00:17:59,280
apparently both names derive from the

429
00:18:08,710 --> 00:18:06,230
according to richard hinckley allen

430
00:18:12,230 --> 00:18:08,720
and mean the same thing

431
00:18:15,750 --> 00:18:12,240
the science of achenar

432
00:18:18,549 --> 00:18:15,760
data from the hippocarus mission puts

433
00:18:20,630 --> 00:18:18,559
echinar at about 144

434
00:18:23,029 --> 00:18:20,640
light years away

435
00:18:24,070 --> 00:18:23,039
it is a b3v

436
00:18:26,789 --> 00:18:24,080
star

437
00:18:30,230 --> 00:18:26,799
meaning it belongs to the ranks of

438
00:18:32,789 --> 00:18:30,240

normal stars known as the main sequence

439

00:18:34,150 --> 00:18:32,799

but it is much hotter and brighter than

440

00:18:36,870 --> 00:18:34,160

the sun

441

00:18:39,750 --> 00:18:36,880

in fact it is nearly

442

00:18:42,789 --> 00:18:39,760

1100 times as bright

443

00:18:45,990 --> 00:18:42,799

visually as our neighborhood star

444

00:18:48,710 --> 00:18:46,000

brighter hotter and bluer than the sun

445

00:18:51,830 --> 00:18:48,720

akin to produces more energy in the

446

00:18:53,750 --> 00:18:51,840

non-visible ultraviolet wavelengths

447

00:18:56,470 --> 00:18:53,760

when you take this into consideration it

448

00:18:59,510 --> 00:18:56,480

pumps out some 3000

449

00:19:00,870 --> 00:18:59,520

to as much as 5 000 times the solar

450

00:19:03,750 --> 00:19:00,880

energy level

451
00:19:06,070 --> 00:19:03,760
the discrepancy is due to an uncertainty

452
00:19:07,270 --> 00:19:06,080
in the amount of uv radiation it

453
00:19:11,430 --> 00:19:07,280
produces

454
00:19:13,990 --> 00:19:11,440
eckanar's mass is also six to eight

455
00:19:17,990 --> 00:19:14,000
times that of our sun

456
00:19:21,110 --> 00:19:18,000
and it averages diameter is nearly eight

457
00:19:24,470 --> 00:19:21,120
to times ten times that of the sun

458
00:19:26,230 --> 00:19:24,480
but while our sun spins on its axis once

459
00:19:29,190 --> 00:19:26,240
every 25 days

460
00:19:32,390 --> 00:19:29,200
akanar completes one rotation

461
00:19:35,990 --> 00:19:32,400
in slightly more than two days or nearly

462
00:19:38,710 --> 00:19:36,000
15 times faster than our sun

463
00:19:41,270 --> 00:19:38,720

this fast rotation produces an odd

464

00:19:43,990 --> 00:19:41,280

flattened shape first discovered by the

465

00:19:47,190 --> 00:19:44,000

european southern observatory's

466

00:19:49,430 --> 00:19:47,200

very large telescope

467

00:19:51,110 --> 00:19:49,440

stands for vlt

468

00:19:54,150 --> 00:19:51,120

in 2003.

469

00:19:55,990 --> 00:19:54,160

up close akanar would look more like a

470

00:19:58,390 --> 00:19:56,000

blue m m

471

00:19:59,990 --> 00:19:58,400

while our sun would look more like an

472

00:20:01,830 --> 00:20:00,000

orange one

473

00:20:05,669 --> 00:20:01,840

read more about

474

00:20:08,710 --> 00:20:05,679

akinar's flattened shape from eso

475

00:20:11,110 --> 00:20:08,720

this flattening of akanar makes an exact

476
00:20:12,310 --> 00:20:11,120
surface temperature for this star hard

477
00:20:13,830 --> 00:20:12,320
to determine

478
00:20:16,789 --> 00:20:13,840
because the flattening

479
00:20:20,230 --> 00:20:16,799
actually causes the stars poles to be

480
00:20:23,190 --> 00:20:20,240
hotter than the equator and they have

481
00:20:25,750 --> 00:20:23,200
essentially a blue m m looking photo

482
00:20:29,510 --> 00:20:25,760
attached to this article absolutely mind

483
00:20:35,430 --> 00:20:32,630
then finally a look into the paranormal

484
00:20:38,669 --> 00:20:35,440
because that's what i love to do

485
00:20:40,230 --> 00:20:38,679
these stories come to us from

486
00:20:43,270 --> 00:20:40,240
thoughtco.com

487
00:20:45,830 --> 00:20:43,280
once again we will have links to this on

488
00:20:49,110 --> 00:20:45,840

ufo headline news

489

00:20:51,029 --> 00:20:49,120

and this is the night of the mannequin

490

00:20:53,029 --> 00:20:51,039

driver

491

00:20:55,350 --> 00:20:53,039

and this person reports while

492

00:20:58,470 --> 00:20:55,360

hitchhiking one stormy night

493

00:21:01,430 --> 00:20:58,480

david is offered a ride by a couple

494

00:21:03,350 --> 00:21:01,440

who look like department store

495

00:21:06,710 --> 00:21:03,360

dummies

496

00:21:08,390 --> 00:21:06,720

the year was 1999 he states

497

00:21:11,430 --> 00:21:08,400

i don't remember the month

498

00:21:12,470 --> 00:21:11,440

but it was the beginning of cold stormy

499

00:21:14,549 --> 00:21:12,480

weather

500

00:21:17,350 --> 00:21:14,559

i was living with my parents in

501
00:21:19,190 --> 00:21:17,360
tranquility california at the time

502
00:21:21,990 --> 00:21:19,200
i was partying with some friends in the

503
00:21:23,750 --> 00:21:22,000
town of san joaquin

504
00:21:25,510 --> 00:21:23,760
which is eight miles away from

505
00:21:27,990 --> 00:21:25,520
tranquility

506
00:21:30,470 --> 00:21:28,000
we're having a good time and as the

507
00:21:32,549 --> 00:21:30,480
party went past midnight i got into a

508
00:21:34,230 --> 00:21:32,559
fight with a guy that was drunk and

509
00:21:36,149 --> 00:21:34,240
causing trouble

510
00:21:37,909 --> 00:21:36,159
i had too much to drink as well and

511
00:21:41,750 --> 00:21:37,919
after they broke us up

512
00:21:43,350 --> 00:21:41,760
i decided it was time for me to go home

513
00:21:45,990 --> 00:21:43,360

i'd come to the party with a friend of

514

00:21:47,430 --> 00:21:46,000

mine we came in his car and when i went

515

00:21:49,590 --> 00:21:47,440

looking for him

516

00:21:51,590 --> 00:21:49,600

i was told he took off earlier with

517

00:21:54,230 --> 00:21:51,600

someone and he didn't tell anyone where

518

00:21:55,909 --> 00:21:54,240

he was going or when he was coming back

519

00:21:58,149 --> 00:21:55,919

well i didn't want to stick around

520

00:21:59,430 --> 00:21:58,159

anymore so i started getting ready to

521

00:22:01,430 --> 00:21:59,440

walk home

522

00:22:03,110 --> 00:22:01,440

using the main highway that connected

523

00:22:05,510 --> 00:22:03,120

the two towns

524

00:22:07,750 --> 00:22:05,520

others tried to persuade me to stay and

525

00:22:11,350 --> 00:22:07,760

wait for my friend to return

526

00:22:15,270 --> 00:22:11,360

but in my state my mind was made up

527

00:22:17,029 --> 00:22:15,280

i remember it was a cold and windy night

528

00:22:20,950 --> 00:22:17,039

and it wasn't the best decision for me

529

00:22:22,549 --> 00:22:20,960

to walk the eight miles home alone holy

530

00:22:25,350 --> 00:22:22,559

smokes

531

00:22:27,430 --> 00:22:25,360

when i figured i would hitchhike

532

00:22:28,630 --> 00:22:27,440

and hopefully someone would give me a

533

00:22:30,470 --> 00:22:28,640

ride

534

00:22:33,270 --> 00:22:30,480

i just wanted to get home and go to

535

00:22:35,830 --> 00:22:33,280

sleep so i said my goodbyes and just

536

00:22:38,710 --> 00:22:35,840

started walking

537

00:22:42,149 --> 00:22:38,720

it was around one third of the way when

538

00:22:44,149 --> 00:22:42,159

i realized i made a mistake

539

00:22:46,070 --> 00:22:44,159

i should have stayed and waited for my

540

00:22:48,630 --> 00:22:46,080

lame friend

541

00:22:50,470 --> 00:22:48,640

that's when i saw some headlights coming

542

00:22:51,830 --> 00:22:50,480

towards me in the same direction i was

543

00:22:53,830 --> 00:22:51,840

walking

544

00:22:56,390 --> 00:22:53,840

so i stuck my thumb out and the car

545

00:22:59,029 --> 00:22:56,400

drove past me and kept going

546

00:23:00,470 --> 00:22:59,039

then another car came down the road and

547

00:23:02,070 --> 00:23:00,480

did the same

548

00:23:04,390 --> 00:23:02,080

thing

549

00:23:07,590 --> 00:23:04,400

it was beginning to get very cold and

550

00:23:09,510 --> 00:23:07,600

there was some flashing lightning

551
00:23:11,669 --> 00:23:09,520
i was getting ready to turn back and go

552
00:23:15,350 --> 00:23:11,679
back when i saw another car coming down

553
00:23:19,270 --> 00:23:15,360
the road so i stuck my thumb out

554
00:23:21,510 --> 00:23:19,280
and it too drove past me

555
00:23:22,470 --> 00:23:21,520
but as soon as it did the brake lights

556
00:23:23,990 --> 00:23:22,480
came on

557
00:23:26,789 --> 00:23:24,000
and it pulled over

558
00:23:29,029 --> 00:23:26,799
i started running up to the car relieved

559
00:23:31,190 --> 00:23:29,039
i was finally going to get a ride and

560
00:23:33,430 --> 00:23:31,200
get out of the cold

561
00:23:35,110 --> 00:23:33,440
as i approached the car the driver's

562
00:23:38,230 --> 00:23:35,120
door opened

563
00:23:39,750 --> 00:23:38,240

and the driver got out

564

00:23:42,549 --> 00:23:39,760

there was something

565

00:23:43,909 --> 00:23:42,559

totally wrong with the way he exited the

566

00:23:47,110 --> 00:23:43,919

vehicle

567

00:23:48,310 --> 00:23:47,120

i mean his body movements were sort of

568

00:23:51,669 --> 00:23:48,320

stiff

569

00:23:54,549 --> 00:23:51,679

and awkward when i got closer i started

570

00:23:57,510 --> 00:23:54,559

to say something when suddenly

571

00:23:59,190 --> 00:23:57,520

a bright lightning bolt flashed across

572

00:24:02,230 --> 00:23:59,200

the sky

573

00:24:05,270 --> 00:24:02,240

it lit up everything and i got a good

574

00:24:07,750 --> 00:24:05,280

glimpse of the driver

575

00:24:11,269 --> 00:24:07,760

he looked like one of those mannequins

576
00:24:12,470 --> 00:24:11,279
you see in those big department stores

577
00:24:15,669 --> 00:24:12,480
yuck

578
00:24:17,110 --> 00:24:15,679
a blank facial expression with a slight

579
00:24:20,870 --> 00:24:17,120
smile

580
00:24:22,870 --> 00:24:20,880
and the way it was walking man i became

581
00:24:26,310 --> 00:24:22,880
so frightened

582
00:24:28,710 --> 00:24:26,320
and then the passenger door opened and

583
00:24:32,870 --> 00:24:28,720
another occupant stepped out

584
00:24:35,190 --> 00:24:32,880
in the same awful manner

585
00:24:38,070 --> 00:24:35,200
i could tell by its silhouette against

586
00:24:40,549 --> 00:24:38,080
the headlights shining down the road

587
00:24:43,110 --> 00:24:40,559
that it was a female

588
00:24:44,830 --> 00:24:43,120

another lightning bolt flashed revealing

589

00:24:47,750 --> 00:24:44,840

she too was a

590

00:24:49,830 --> 00:24:47,760

dummy i think i screamed

591

00:24:51,669 --> 00:24:49,840

then i ran into the cornfield that was

592

00:24:54,710 --> 00:24:51,679

next to the road

593

00:24:57,029 --> 00:24:54,720

the corn was almost six feet tall

594

00:24:59,830 --> 00:24:57,039

and had recently been irrigated because

595

00:25:01,110 --> 00:24:59,840

i was running in mud that was up to my

596

00:25:03,909 --> 00:25:01,120

ankles

597

00:25:06,549 --> 00:25:03,919

i just kept going not stopping

598

00:25:09,510 --> 00:25:06,559

i was tiring running through that mud

599

00:25:11,430 --> 00:25:09,520

and just for a few minutes i did stop to

600

00:25:13,510 --> 00:25:11,440

catch my breath

601
00:25:18,230 --> 00:25:13,520
in that moment i could hear somewhere

602
00:25:19,909 --> 00:25:18,240
behind me the corn stalks being rustled

603
00:25:22,789 --> 00:25:19,919
i was beginning to feel light-headed and

604
00:25:25,909 --> 00:25:22,799
dizzy like i was gonna pass out

605
00:25:28,950 --> 00:25:25,919
then i heard car door slamming shut

606
00:25:31,990 --> 00:25:28,960
and the sound of the car driving away

607
00:25:34,870 --> 00:25:32,000
i didn't go back to the highway oh no

608
00:25:37,430 --> 00:25:34,880
way i was way too scared

609
00:25:40,070 --> 00:25:37,440
i kept plodding through the cornfield

610
00:25:42,870 --> 00:25:40,080
until i came out the other side

611
00:25:44,870 --> 00:25:42,880
that's when i sort of collapsed

612
00:25:46,870 --> 00:25:44,880
i was shaking all over

613
00:25:49,990 --> 00:25:46,880

i stayed there for at least an hour

614

00:25:53,029 --> 00:25:50,000

before i headed back to san joaquin

615

00:25:54,870 --> 00:25:53,039

to this day when i think back

616

00:25:58,149 --> 00:25:54,880

it could have been someone playing a

617

00:26:00,149 --> 00:25:58,159

joke just to scare people i don't know

618

00:26:01,590 --> 00:26:00,159

but they looked real to me

619

00:26:05,190 --> 00:26:01,600

it was truly

620

00:26:07,269 --> 00:26:05,200

like a real nightmare

621

00:26:08,549 --> 00:26:07,279

can't imagine

622

00:26:11,510 --> 00:26:08,559

next one

623

00:26:13,830 --> 00:26:11,520

i am not kidding random looking for

624

00:26:17,029 --> 00:26:13,840

ghost stories here everybody

625

00:26:17,039 --> 00:26:23,590

shadow hat man seemed to slow down time

626
00:26:26,710 --> 00:26:25,510
shadow people and the hatman are my

627
00:26:28,710 --> 00:26:26,720
specialty

628
00:26:31,590 --> 00:26:28,720
what can i say

629
00:26:34,230 --> 00:26:31,600
bob has been seeing the shadow man in

630
00:26:37,190 --> 00:26:34,240
his apartment but something weird

631
00:26:39,110 --> 00:26:37,200
happened when it passed by him

632
00:26:40,710 --> 00:26:39,120
he states i've been learning so much

633
00:26:42,870 --> 00:26:40,720
about shadow people

634
00:26:46,070 --> 00:26:42,880
i never knew others have seen the same

635
00:26:48,310 --> 00:26:46,080
thing i live in coffeyville kansas i

636
00:26:49,909 --> 00:26:48,320
moved to an apartment building built in

637
00:26:52,310 --> 00:26:49,919
the 1920s

638
00:26:55,990 --> 00:26:52,320

it along with the midland theater next

639

00:26:59,029 --> 00:26:56,000

door are known for paranormal activity

640

00:27:00,710 --> 00:26:59,039

i've lived here 12 years and met the

641

00:27:02,870 --> 00:27:00,720

shadow man

642

00:27:04,070 --> 00:27:02,880

soon after i moved in

643

00:27:07,590 --> 00:27:04,080

at first

644

00:27:09,669 --> 00:27:07,600

i'd see movement but really never looked

645

00:27:11,909 --> 00:27:09,679

as i started looking when i first

646

00:27:15,029 --> 00:27:11,919

realized something was there

647

00:27:16,149 --> 00:27:15,039

a dark shadow of a man would walk across

648

00:27:18,789 --> 00:27:16,159

the room

649

00:27:20,950 --> 00:27:18,799

along the east wall

650

00:27:23,590 --> 00:27:20,960

i told friends about what i called the

651
00:27:25,590 --> 00:27:23,600
shadow man not knowing that it was so

652
00:27:28,950 --> 00:27:25,600
widely known

653
00:27:29,990 --> 00:27:28,960
it wears what i call a dick tracy type

654
00:27:32,789 --> 00:27:30,000
of hat

655
00:27:35,510 --> 00:27:32,799
it's called a fedora

656
00:27:36,950 --> 00:27:35,520
he wears a trench coat with a collar

657
00:27:39,590 --> 00:27:36,960
turned up

658
00:27:41,110 --> 00:27:39,600
there are no details just the definite

659
00:27:43,909 --> 00:27:41,120
dark shape

660
00:27:46,390 --> 00:27:43,919
one time i sensed the shadow coming from

661
00:27:48,390 --> 00:27:46,400
behind me and on my left

662
00:27:50,630 --> 00:27:48,400
as i turned in my chair

663
00:27:54,149 --> 00:27:50,640

my head and shoulders

664

00:27:58,470 --> 00:27:54,159

passed through the shadow

665

00:28:02,470 --> 00:27:58,480

time seemed to go in slow motion

666

00:28:04,870 --> 00:28:02,480

what was one second seemed like 60

667

00:28:08,389 --> 00:28:04,880

the shadow passed

668

00:28:10,630 --> 00:28:08,399

and on into the wall

669

00:28:11,909 --> 00:28:10,640

i've never seen it again in that area of

670

00:28:14,470 --> 00:28:11,919

my apartment

671

00:28:16,789 --> 00:28:14,480

i've never felt any fear

672

00:28:18,630 --> 00:28:16,799

i had one experience that at first i

673

00:28:21,350 --> 00:28:18,640

didn't know what to think

674

00:28:23,190 --> 00:28:21,360

the shadow man is always the same

675

00:28:25,430 --> 00:28:23,200

never moves anything

676

00:28:27,750 --> 00:28:25,440

just walks by

677

00:28:30,389 --> 00:28:27,760

well i got up one morning and all my

678

00:28:31,750 --> 00:28:30,399

shoes and boots have been taken out of

679

00:28:33,909 --> 00:28:31,760

the closet

680

00:28:35,830 --> 00:28:33,919

and placed in a line

681

00:28:37,830 --> 00:28:35,840

as if someone was stepping out of my

682

00:28:40,470 --> 00:28:37,840

bedroom

683

00:28:42,950 --> 00:28:40,480

the shadow man or a ghost

684

00:28:45,430 --> 00:28:42,960

had to be playing tricks

685

00:28:47,669 --> 00:28:45,440

i've been sad the last couple of years a

686

00:28:50,230 --> 00:28:47,679

new company bought the building

687

00:28:51,190 --> 00:28:50,240

and did a big remodel and for whatever

688

00:28:53,190 --> 00:28:51,200

reason

689

00:28:54,710 --> 00:28:53,200

i don't see the shadow nearly as often

690

00:28:56,950 --> 00:28:54,720

as i used to

691

00:28:58,630 --> 00:28:56,960

it's an amazing experience to witness

692

00:29:00,389 --> 00:28:58,640

and not be afraid

693

00:29:03,029 --> 00:29:00,399

but thrilled

694

00:29:05,669 --> 00:29:03,039

i've never tried to say one word

695

00:29:07,909 --> 00:29:05,679

and have never heard a sound

696

00:29:09,190 --> 00:29:07,919

i can't tell you how happy i am to share

697

00:29:11,590 --> 00:29:09,200

my experience

698

00:29:14,630 --> 00:29:11,600

because the people who read it

699

00:29:16,710 --> 00:29:14,640

can relate

700

00:29:19,430 --> 00:29:16,720

wow okay

701
00:29:21,190 --> 00:29:19,440
um i have to make a comment to that

702
00:29:23,750 --> 00:29:21,200
some people don't have fear with this

703
00:29:26,789 --> 00:29:23,760
guy as long as he doesn't hurt them

704
00:29:28,710 --> 00:29:26,799
and i find that to be interesting how

705
00:29:30,870 --> 00:29:28,720
some are so absolutely

706
00:29:33,990 --> 00:29:30,880
fascinated by

707
00:29:35,669 --> 00:29:34,000
this dark man that i now distinguish to

708
00:29:38,630 --> 00:29:35,679
be called the hat man

709
00:29:40,789 --> 00:29:38,640
he is not a shadow person

710
00:29:42,070 --> 00:29:40,799
but very different

711
00:29:44,710 --> 00:29:42,080
well

712
00:29:47,830 --> 00:29:44,720
you guys this is the conclusion of my

713
00:29:49,430 --> 00:29:47,840

very first ufo headline news with me

714

00:29:51,110 --> 00:29:49,440

heidi hollis

715

00:29:54,149 --> 00:29:51,120

and remember go to

716

00:29:58,789 --> 00:29:56,470

find ufo headline news and you will be

717

00:30:01,430 --> 00:29:58,799

able to get all the links to everything

718

00:30:05,640 --> 00:30:01,440

that we discussed here today

719

00:30:18,710 --> 00:30:05,650

have a wonderful rest of the day

720

00:30:22,389 --> 00:30:20,470

thanks for coming in mr mahoney do you

721

00:30:24,710 --> 00:30:22,399

have your member id card yep i have it

722

00:30:26,389 --> 00:30:24,720

right here in the fep blue app see great

723

00:30:28,070 --> 00:30:26,399

it's awesome the app can also help me

724

00:30:29,909 --> 00:30:28,080

find a provider and keep tabs on my

725

00:30:31,830 --> 00:30:29,919

deductibles okay can i oh yeah and my

726

00:30:33,430 --> 00:30:31,840

out of pocket spending and visit limits

727

00:30:35,350 --> 00:30:33,440

and i can call the nurse line i'm really

728

00:30:37,430 --> 00:30:35,360

glad it does all that but i only need to

729

00:30:39,510 --> 00:30:37,440

see your member id card well that's it

730

00:30:41,909 --> 00:30:39,520

why didn't you say so fearless is just

731

00:30:43,590 --> 00:30:41,919

one tap away with the new fap blue app

732

00:30:45,430 --> 00:30:43,600

from blue cross and blue shield you can
