

Kevin Randle | The Lonnie Zamora UFO Landing Has More To Say!

Listen on

inceptionradionetwork.com

1
00:00:14,770 --> 00:00:26,290

[Music]

2
00:00:30,590 --> 00:00:28,700

you're listening to paranormal now on

3
00:00:32,780 --> 00:00:30,600

the inception radio network I'm Alan V

4
00:00:34,190 --> 00:00:32,790

Smith I'm your host and join us as we

5
00:00:36,170 --> 00:00:34,200

traverse the cosmic highway of

6
00:00:38,000 --> 00:00:36,180

paranormal pitstops and analyzing

7
00:00:40,729 --> 00:00:38,010

turn-offs if you're a regular listener

8
00:00:42,350 --> 00:00:40,739

to irn we have an iron smartphone app or

9
00:00:44,420 --> 00:00:42,360

you can listen live to the live stream

10
00:00:47,810 --> 00:00:44,430

from home on the road or from that

11
00:00:49,400 --> 00:00:47,820

greasy diner summer off a dusty road the

12
00:00:51,200 --> 00:00:49,410

app also allows you to chat with other

13
00:00:53,540 --> 00:00:51,210

listeners provide show lineups and other

14

00:00:56,060 --> 00:00:53,550

information and tools tonight we have a

15

00:00:57,649 --> 00:00:56,070

fantastic guest Kevin Randall we will

16

00:01:00,229 --> 00:00:57,659

get to him in just a moment as a

17

00:01:02,270 --> 00:01:00,239

friendly reminder if you're just finding

18

00:01:05,660 --> 00:01:02,280

us please like paranormal now on

19

00:01:09,710 --> 00:01:05,670

Facebook at paranormal or radio or on

20

00:01:11,390 --> 00:01:09,720

instagram at paranormal now brief

21

00:01:16,190 --> 00:01:11,400

reminder you can also listen to irons

22

00:01:19,190 --> 00:01:16,200

24/7 stream using Live 365 stitcher

23

00:01:21,590 --> 00:01:19,200

radio Novak's radio tune in iTunes radio

24

00:01:24,410 --> 00:01:21,600

streamer shoutcast Winamp Wynn Media

25

00:01:27,140 --> 00:01:24,420

Player QuickTime and later you can

26
00:01:31,100 --> 00:01:27,150
always listen to rebroadcast on the Iran

27
00:01:32,570 --> 00:01:31,110
roku channel I know Iran is smart to

28
00:01:35,000 --> 00:01:32,580
make a move to Roku because Roku is

29
00:01:36,710 --> 00:01:35,010
exploding fast and if you don't have

30
00:01:38,570 --> 00:01:36,720
access to a computer or smartphone you

31
00:01:41,510 --> 00:01:38,580
can call from your landline or cell

32
00:01:44,650 --> 00:01:41,520
phone to listen in for free at four oh

33
00:01:47,150 --> 00:01:44,660
one two eight three six seven zero zero

34
00:01:49,730 --> 00:01:47,160
again that's four oh one two eight three

35
00:01:52,490 --> 00:01:49,740
six seven zero zero and you can listen

36
00:01:55,340 --> 00:01:52,500
to the 24/7 live broadcasts on the

37
00:01:56,990 --> 00:01:55,350
Arirang station this is a podcast and as

38
00:02:00,110 --> 00:01:57,000

I remind every week even though this is

39

00:02:02,900 --> 00:02:00,120

a regularly broadcast show this is a

40

00:02:06,440 --> 00:02:02,910

podcast so we cannot take your questions

41

00:02:09,259 --> 00:02:06,450

right here and now for those who will be

42

00:02:12,649 --> 00:02:09,269

tuning in on Instagram live while I'm

43

00:02:13,910 --> 00:02:12,659

recording this podcast then they will be

44

00:02:15,320 --> 00:02:13,920

able to send in their messages so for

45

00:02:16,820 --> 00:02:15,330

future shows keep that in mind keep an

46

00:02:19,220 --> 00:02:16,830

eye on the Instagram account and

47

00:02:22,070 --> 00:02:19,230

paranoia now and and you can throw your

48

00:02:24,410 --> 00:02:22,080

messages towards us and we will get them

49

00:02:26,570 --> 00:02:24,420

to Kevin Randle or whoever the guest may

50

00:02:30,860 --> 00:02:26,580

be alright so speaking of our guest

51
00:02:32,509 --> 00:02:30,870
Kevin D Randle he is a former Army

52
00:02:34,350 --> 00:02:32,519
helicopter pilot and Air Force

53
00:02:36,390 --> 00:02:34,360
intelligence often her office

54
00:02:39,780 --> 00:02:36,400
who has been writing about the UFO

55
00:02:41,340 --> 00:02:39,790
phenomena for more than 25 years he has

56
00:02:44,160 --> 00:02:41,350
written or co-written numerous books on

57
00:02:46,980 --> 00:02:44,170
the subject including UFO crash at

58
00:02:50,370 --> 00:02:46,990
Roswell the truth about the UFO crash at

59
00:02:52,710 --> 00:02:50,380
Roswell and a history of UFO crashes I'm

60
00:02:54,780 --> 00:02:52,720
getting a theme here crashes and UFOs

61
00:02:56,520 --> 00:02:54,790
and he has made numerous appearances on

62
00:02:58,710 --> 00:02:56,530
television and radio including Good

63
00:03:00,830 --> 00:02:58,720

Morning America Sunday the Larry King

64

00:03:02,970 --> 00:03:00,840

UFO special and unsolved mysteries

65

00:03:05,010 --> 00:03:02,980

Randle currently hosts his own radio

66

00:03:07,080 --> 00:03:05,020

program the Randall report dealing with

67

00:03:09,900 --> 00:03:07,090

many kinds of mysteries mysterious

68

00:03:11,730 --> 00:03:09,910

phenomena including UFOs Randall is a

69

00:03:13,170 --> 00:03:11,740

full-time writer who has published more

70

00:03:15,540 --> 00:03:13,180

than a hundred books of fiction and

71

00:03:17,900 --> 00:03:15,550

nonfiction he is a former Army

72

00:03:21,030 --> 00:03:17,910

helicopter pilot and Air Force

73

00:03:23,310 --> 00:03:21,040

intelligence officer who has four

74

00:03:25,890 --> 00:03:23,320

college degrees including a PhD in

75

00:03:27,090 --> 00:03:25,900

psychology Randall

76

00:03:29,400 --> 00:03:27,100

is definitely considered one of the top

77

00:03:31,800 --> 00:03:29,410

UFO investigators and his research into

78

00:03:34,830 --> 00:03:31,810

the Roswell UFO crash helped bring that

79

00:03:38,030 --> 00:03:34,840

sighting into prominence he has written

80

00:03:42,000 --> 00:03:38,040

more than 15 books about the UFOs and

81

00:03:43,380 --> 00:03:42,010

other terrestrial explanations or non

82

00:03:45,360 --> 00:03:43,390

terrestrial explanations have been

83

00:03:48,600 --> 00:03:45,370

explored in those books now the book

84

00:03:49,890 --> 00:03:48,610

that I was lucky to receive and and

85

00:03:53,729 --> 00:03:49,900

Kevin I'll explain this in a minute I

86

00:03:55,860 --> 00:03:53,739

just almost finished encounter in the

87

00:03:58,620 --> 00:03:55,870

desert the case for alien contact at

88

00:03:59,790 --> 00:03:58,630

Socorro this is his new release and I'm

89

00:04:02,910 --> 00:03:59,800

really excited about that

90

00:04:04,710 --> 00:04:02,920

so Kevin welcome to paranormal now well

91

00:04:07,890 --> 00:04:04,720

thank you very much I'd like to add one

92

00:04:09,660 --> 00:04:07,900

thing if I might sure I wrote a book

93

00:04:11,340 --> 00:04:09,670

that came out last year called Roswell

94

00:04:13,259 --> 00:04:11,350

in the 21st century which was a

95

00:04:15,360 --> 00:04:13,269

dispassionate look at the Roswell case

96

00:04:18,240 --> 00:04:15,370

tried to put it in a whole different

97

00:04:20,130 --> 00:04:18,250

perspective so those of you who are

98

00:04:21,240 --> 00:04:20,140

interested in Roswell wadham might want

99

00:04:23,370 --> 00:04:21,250

to take a look at that because it

100

00:04:26,760 --> 00:04:23,380

provides I think some new information

101
00:04:28,440 --> 00:04:26,770
about the Roswell case and and kind of

102
00:04:30,030 --> 00:04:28,450
eliminates some of the nonsense that

103
00:04:31,890 --> 00:04:30,040
have grown up around that and I think

104
00:04:33,810 --> 00:04:31,900
that's an important thing to do when we

105
00:04:36,600 --> 00:04:33,820
when we're looking at the Roswell case

106
00:04:39,240 --> 00:04:36,610
because it has been so filled with all

107
00:04:41,670 --> 00:04:39,250
this other stuff that really is

108
00:04:44,940 --> 00:04:41,680
ancillary then too many people making up

109
00:04:47,159 --> 00:04:44,950
their parts of the story and things

110
00:04:48,210 --> 00:04:47,169
going off the rails so I think this was

111
00:04:52,470 --> 00:04:48,220
an attempt to

112
00:04:53,460 --> 00:04:52,480
bring it all back to clear focus yeah I

113
00:04:56,090 --> 00:04:53,470

think you're right and I think there's a

114

00:04:59,130 --> 00:04:56,100

lot of good intention behind

115

00:05:01,050 --> 00:04:59,140

particularly let's say Roswell with all

116

00:05:04,380 --> 00:05:01,060

the new younger people coming up and

117

00:05:07,470 --> 00:05:04,390

doing research or people revisiting but

118

00:05:11,400 --> 00:05:07,480

yes the the feel could be us bladdered

119

00:05:17,040 --> 00:05:11,410

and spattered with me not the best

120

00:05:20,640 --> 00:05:17,050

evidence circumstantial and I think that

121

00:05:23,660 --> 00:05:20,650

it has sort of fogged the field a bit if

122

00:05:25,770 --> 00:05:23,670

I may put it that way so we appreciate

123

00:05:27,360 --> 00:05:25,780

well when you when you begin talking

124

00:05:30,060 --> 00:05:27,370

about new people coming up and looking

125

00:05:34,230 --> 00:05:30,070

at the Roswell case the problem is I was

126
00:05:36,200 --> 00:05:34,240
fortunate my partners in the research at

127
00:05:42,150 --> 00:05:36,210
one time or another dodge met Tom Kerry

128
00:05:43,860 --> 00:05:42,160
Stan Freedman Don Berliner it's name I'm

129
00:05:45,030 --> 00:05:43,870
searching for Don Baylor we had an

130
00:05:46,560 --> 00:05:45,040
opportunity to talk to a lot of the

131
00:05:48,510 --> 00:05:46,570
people involved directly in this case

132
00:05:52,170 --> 00:05:48,520
right those people have since passed

133
00:05:54,210 --> 00:05:52,180
away exactly so the problem then the new

134
00:05:55,980 --> 00:05:54,220
researcher has is they can't interview

135
00:05:58,470 --> 00:05:55,990
the people they can't sit down and talk

136
00:06:00,210 --> 00:05:58,480
to them they must rely upon the notes we

137
00:06:02,220 --> 00:06:00,220
took and the transcripts we made the

138
00:06:04,230 --> 00:06:02,230

tapes that we made to see what the

139

00:06:06,960 --> 00:06:04,240

people said and kind of follow it that

140

00:06:09,240 --> 00:06:06,970

way so in that respect we were fortunate

141

00:06:11,159 --> 00:06:09,250

because we had an opportunity to talk to

142

00:06:12,780 --> 00:06:11,169

an awful lot of the witnesses who were

143

00:06:15,300 --> 00:06:12,790

involved or people who claimed to be

144

00:06:18,390 --> 00:06:15,310

involved we were labeled later able to

145

00:06:22,890 --> 00:06:18,400

eliminate them from the witness pool if

146

00:06:24,300 --> 00:06:22,900

you will yeah and I do think that it's

147

00:06:25,650 --> 00:06:24,310

quite possible that there are stories

148

00:06:29,720 --> 00:06:25,660

still out there yet told especially

149

00:06:32,190 --> 00:06:29,730

passed down to you know grandchildren

150

00:06:34,710 --> 00:06:32,200

but I don't know how much is actually

151
00:06:36,240 --> 00:06:34,720
you know reliable information at that

152
00:06:40,700 --> 00:06:36,250
point when it's just passed down

153
00:06:43,290 --> 00:06:40,710
generation after generation but maybe

154
00:06:46,110 --> 00:06:43,300
I'll leave it up to you the researchers

155
00:06:49,350 --> 00:06:46,120
to take care of that and then that's

156
00:06:51,480 --> 00:06:49,360
what I loved about this book I've always

157
00:06:54,360 --> 00:06:51,490
wanted myself to go out and just you

158
00:06:59,090 --> 00:06:54,370
know do research an investigation but it

159
00:07:01,470 --> 00:06:59,100
takes a lot of time and energy and

160
00:07:05,660 --> 00:07:01,480
dedication and commitment

161
00:07:08,670 --> 00:07:05,670
you to do this right and this book it

162
00:07:11,310 --> 00:07:08,680
even you know you go through example

163
00:07:14,960 --> 00:07:11,320

after example of similar cases to the

164

00:07:20,310 --> 00:07:14,970

Socorro crash through the for did crash

165

00:07:22,470 --> 00:07:20,320

landing and I it's it feels like I'm

166

00:07:24,510 --> 00:07:22,480

with you it feels like I'm sort of in

167

00:07:28,920 --> 00:07:24,520

the field with you and I enjoyed that so

168

00:07:30,690 --> 00:07:28,930

much I thought it was important to take

169

00:07:32,460 --> 00:07:30,700

a look again at this work or case as I

170

00:07:36,420 --> 00:07:32,470

did with Rosalyn 21st century I look at

171

00:07:39,210 --> 00:07:36,430

it from the perspective of 2017 Lonnie

172

00:07:41,520 --> 00:07:39,220

Zamora passed away for several years ago

173

00:07:43,410 --> 00:07:41,530

but I knew that he didn't want to talk

174

00:07:45,120 --> 00:07:43,420

to it I have a friend Bob Cornett and he

175

00:07:47,040 --> 00:07:45,130

was in Socorro to look at the Very Large

176

00:07:50,040 --> 00:07:47,050

Array which is the radio telescope out

177

00:07:51,930 --> 00:07:50,050

there near Magdalena New Mexico and

178

00:07:54,480 --> 00:07:51,940

while he was in Socorro on a lark he

179

00:07:56,250 --> 00:07:54,490

called Lonnie Zamora and Zamora said

180

00:07:57,540 --> 00:07:56,260

yeah we're happening we're having a

181

00:07:59,810 --> 00:07:57,550

barbecue come on down but we're not

182

00:08:03,360 --> 00:07:59,820

going to talk about the Flying Saucer

183

00:08:04,860 --> 00:08:03,370

so Bob went down and had dinner with

184

00:08:06,900 --> 00:08:04,870

Lonnie Zamora but they didn't talk about

185

00:08:08,280 --> 00:08:06,910

the UFO landing so he was very reticent

186

00:08:09,660 --> 00:08:08,290

to talk about it but there were other

187

00:08:11,370 --> 00:08:09,670

people who were involved at the time

188

00:08:14,580 --> 00:08:11,380

there are lots of military records that

189

00:08:18,900 --> 00:08:14,590

were available that we were able to or I

190

00:08:21,030 --> 00:08:18,910

was able to access and help bring things

191

00:08:24,300 --> 00:08:21,040

into focus about the Socorro case that

192

00:08:27,990 --> 00:08:24,310

weren't known before right well I know

193

00:08:30,240 --> 00:08:28,000

that it the name is slipping me but he

194

00:08:31,290 --> 00:08:30,250

was told by a couple of people and I

195

00:08:32,640 --> 00:08:31,300

know we're sort of jumping the gun here

196

00:08:35,460 --> 00:08:32,650

I don't so we'll get back to the

197

00:08:39,480 --> 00:08:35,470

beginning of this story as we go but

198

00:08:42,920 --> 00:08:39,490

Lonnie Zamora was told his last name

199

00:08:48,380 --> 00:08:42,930

begins with an H it's slipping me to not

200

00:08:50,700 --> 00:08:48,390

report that he saw alien beings write or

201
00:08:53,100 --> 00:08:50,710
symbols so there was a lot of editing

202
00:08:56,550 --> 00:08:53,110
going on early on that not all of it

203
00:08:58,110 --> 00:08:56,560
went well but there was and that's

204
00:08:59,460 --> 00:08:58,120
exactly right but the thing you're

205
00:09:01,290 --> 00:08:59,470
talking about Richard holder of course

206
00:09:04,140 --> 00:09:01,300
captain holder who was an Army officer

207
00:09:06,240 --> 00:09:04,150
who is involved involved almost from the

208
00:09:08,250 --> 00:09:06,250
beginning I mean with an hour hour and a

209
00:09:10,520 --> 00:09:08,260
half of the thing lifting off holder was

210
00:09:14,199 --> 00:09:10,530
involved along with an FBI agent named

211
00:09:16,960 --> 00:09:14,209
Arthur burns but burns burns

212
00:09:19,210 --> 00:09:16,970
and holder suggested to Lonnie that a he

213
00:09:21,549 --> 00:09:19,220

not talk about the symbol because they

214

00:09:23,949 --> 00:09:21,559

thought that if others reported the

215

00:09:26,710 --> 00:09:23,959

craft they could eliminate those who are

216

00:09:28,359 --> 00:09:26,720

making up their sightings or trying to

217

00:09:30,999 --> 00:09:28,369

be copycats because they couldn't draw

218

00:09:33,069 --> 00:09:31,009

the proper symbol and and they thought

219

00:09:35,049 --> 00:09:33,079

that was a good idea and Burns had

220

00:09:36,730 --> 00:09:35,059

suggested not to mention the aliens the

221

00:09:38,199 --> 00:09:36,740

beings because he thought that would

222

00:09:40,900 --> 00:09:38,209

open Lonnie's more up to a lot of

223

00:09:43,389 --> 00:09:40,910

criticism and ridicule which turned out

224

00:09:46,239 --> 00:09:43,399

to be the case so neither of these

225

00:09:49,889 --> 00:09:46,249

government officials army officer FBI

226

00:09:52,359 --> 00:09:49,899

were attempting to suppress information

227

00:09:54,850 --> 00:09:52,369

for nefarious purposes they were

228

00:09:56,949 --> 00:09:54,860

attempting to withhold some of it as you

229

00:09:59,879 --> 00:09:56,959

often do in a police investigation so

230

00:10:03,429 --> 00:09:59,889

that you can eliminate those who are

231

00:10:05,259 --> 00:10:03,439

faking things and they were suggesting

232

00:10:07,509 --> 00:10:05,269

to withhold the information about the

233

00:10:09,069 --> 00:10:07,519

alien beings simply because they they

234

00:10:10,629 --> 00:10:09,079

thought that Lonnie Zamora spreadability

235

00:10:12,369 --> 00:10:10,639

would be attacked simply because he

236

00:10:14,499 --> 00:10:12,379

claimed to have seen alien beings and

237

00:10:17,910 --> 00:10:14,509

that and as I said that turned out to be

238

00:10:20,230 --> 00:10:17,920

be the case that there was a lot of

239

00:10:21,699 --> 00:10:20,240

things directed at Lonnie's more because

240

00:10:24,400 --> 00:10:21,709

he were talking about seeing alien

241

00:10:27,189 --> 00:10:24,410

creatures although he never called them

242

00:10:29,590 --> 00:10:27,199

alien creatures he called them things he

243

00:10:31,179 --> 00:10:29,600

called them beings he called them people

244

00:10:33,369 --> 00:10:31,189

but he never talked about them being

245

00:10:35,590 --> 00:10:33,379

alien and I think that was a derivative

246

00:10:37,900 --> 00:10:35,600

of his belief that this may have been

247

00:10:40,629 --> 00:10:37,910

some kind of a black project out of

248

00:10:43,449 --> 00:10:40,639

Alamogordo at Holloman Air Force Base or

249

00:10:44,650 --> 00:10:43,459

the White Sands proving grounds and he

250

00:10:46,299 --> 00:10:44,660

was afraid to get into trouble with the

251
00:10:47,949 --> 00:10:46,309
government for talking about that so I

252
00:10:50,949 --> 00:10:47,959
think that that was part of his

253
00:10:53,259 --> 00:10:50,959
reticence as well but I mean it all

254
00:10:55,689 --> 00:10:53,269
comes into play when you take a look at

255
00:10:58,829 --> 00:10:55,699
the case as it as it exists today as

256
00:11:01,629 --> 00:10:58,839
opposed to the way it existed in 1964

257
00:11:03,910 --> 00:11:01,639
right and that was an investigative

258
00:11:06,460 --> 00:11:03,920
technique that was common for Project

259
00:11:08,949 --> 00:11:06,470
Blue Book the Air Force um like you said

260
00:11:10,239 --> 00:11:08,959
police work so there was nothing strange

261
00:11:13,629 --> 00:11:10,249
about that

262
00:11:16,929 --> 00:11:13,639
but it did sort of muddy the water later

263
00:11:18,220 --> 00:11:16,939

uh so I want to explain this now before

264

00:11:21,160 --> 00:11:18,230

we before we continue I'd mentioned it

265

00:11:24,100 --> 00:11:21,170

earlier so I had 20 pages of your book

266

00:11:26,189 --> 00:11:24,110

left to read and it was my intent to

267

00:11:29,619 --> 00:11:26,199

finish that on the commute home to

268

00:11:32,829 --> 00:11:29,629

needless to say my book is in New York

269

00:11:35,499 --> 00:11:32,839

so I didn't get to finish the last 20

270

00:11:39,369 --> 00:11:35,509

pages so unless there's a spoiler alert

271

00:11:40,899 --> 00:11:39,379

you know you can fill us in there but

272

00:11:44,499 --> 00:11:40,909

yeah I was I was I was kicking myself

273

00:11:45,609 --> 00:11:44,509

oh god before we went on the air and you

274

00:11:48,039 --> 00:11:45,619

and you would have missed all the good

275

00:11:49,599 --> 00:11:48,049

footnotes oh hey well I saw the foot

276

00:11:52,449 --> 00:11:49,609

left I flipped through some of them yes

277

00:11:54,579 --> 00:11:52,459

and that's great that's great Lee you

278

00:11:56,829 --> 00:11:54,589

did that work you know because then it's

279

00:12:01,299 --> 00:11:56,839

it's not just an opinion that's not

280

00:12:03,339 --> 00:12:01,309

conjecture I think that and UFO

281

00:12:05,049 --> 00:12:03,349

literature is evolving and you see more

282

00:12:09,219 --> 00:12:05,059

and more of the books with footnotes and

283

00:12:11,649 --> 00:12:09,229

indexes and and ancillary appendices but

284

00:12:14,049 --> 00:12:11,659

providing additional information and I

285

00:12:17,559 --> 00:12:14,059

wanted to make sure that the sources of

286

00:12:19,629 --> 00:12:17,569

the information were wood were out there

287

00:12:21,789 --> 00:12:19,639

for people to track I do a thing on my

288

00:12:24,069 --> 00:12:21,799

blog called chasing footnotes

289

00:12:26,559 --> 00:12:24,079

periodically and what that involves and

290

00:12:29,619 --> 00:12:26,569

the way it originated was I was looking

291

00:12:32,979 --> 00:12:29,629

for stories of dick shaped objects prior

292

00:12:36,339 --> 00:12:32,989

to Kenneth Arnold sighting and in June

293

00:12:39,189 --> 00:12:36,349

of 1947 because skeptical skeptics will

294

00:12:42,369 --> 00:12:39,199

say well Lonnie's sorry Kenneth Arnold

295

00:12:44,919 --> 00:12:42,379

didn't see a flying saucer he saw an

296

00:12:47,349 --> 00:12:44,929

object that was more a crescent shaped

297

00:12:49,359 --> 00:12:47,359

and people heard the description flying

298

00:12:52,029 --> 00:12:49,369

saucer and they began reporting saucers

299

00:12:55,499 --> 00:12:52,039

as opposed to these crescent shaped

300

00:12:57,909 --> 00:12:55,509

objects so I was looking for stories of

301
00:13:00,489 --> 00:12:57,919
these disc shaped objects prior to

302
00:13:05,529 --> 00:13:00,499
Arnold and I had found one that Richard

303
00:13:07,749 --> 00:13:05,539
Hall put in his UFO evidence and was

304
00:13:10,479 --> 00:13:07,759
trying to trace it back to its origin

305
00:13:12,819 --> 00:13:10,489
and there was a note that it had been

306
00:13:15,369 --> 00:13:12,829
used by Frank Edwards in one of his

307
00:13:18,099 --> 00:13:15,379
lectures in 1956 talking about this

308
00:13:19,960 --> 00:13:18,109
railroad guy in Cedar Rapids Iowa

309
00:13:23,259 --> 00:13:19,970
railroad engineer who'd seen nine

310
00:13:24,429 --> 00:13:23,269
objects in the sky and the object the

311
00:13:27,699 --> 00:13:24,439
story was reported in the Cedar Rapids

312
00:13:30,489 --> 00:13:27,709
Gazette on June 24th meaning that he

313
00:13:32,049 --> 00:13:30,499

could not have been responding to Arnold

314

00:13:33,849 --> 00:13:32,059

sighting because he was seeing the

315

00:13:35,469 --> 00:13:33,859

objects prior to Arnold it was reported

316

00:13:36,909 --> 00:13:35,479

prior to Arnold and I thought well

317

00:13:39,069 --> 00:13:36,919

that's great I want that I want that

318

00:13:39,790 --> 00:13:39,079

story so I began chasing it down trying

319

00:13:41,050 --> 00:13:39,800

to chase it down

320

00:13:43,210 --> 00:13:41,060

going through the footnotes and finally

321

00:13:44,560 --> 00:13:43,220

found the original story came from the

322

00:13:46,150 --> 00:13:44,570

Cedar Rapids Gazette and that's all it

323

00:13:48,130 --> 00:13:46,160

said Cedar Rapids Gazette didn't tell me

324

00:13:50,470 --> 00:13:48,140

the date or anything else and I went

325

00:13:53,680 --> 00:13:50,480

looking for and it turns out there was a

326

00:13:56,680 --> 00:13:53,690

guy he was a railroad engineer he did

327

00:13:59,380 --> 00:13:56,690

report seeing nine objects in the sky

328

00:14:01,960 --> 00:13:59,390

that were distinct he did not live in

329

00:14:05,139 --> 00:14:01,970

Cedar Rapids Iowa he lived in Peoria

330

00:14:07,810 --> 00:14:05,149

Illinois and the object and the story

331

00:14:10,720 --> 00:14:07,820

didn't appear in the newspapers until

332

00:14:12,610 --> 00:14:10,730

June 27th June 28th so I was three or

333

00:14:13,930 --> 00:14:12,620

four days after Arnold so it didn't do

334

00:14:17,199 --> 00:14:13,940

what I wanted it to do

335

00:14:19,300 --> 00:14:17,209

but I was able to follow the footnotes

336

00:14:21,490 --> 00:14:19,310

back and get to the original story as it

337

00:14:22,900 --> 00:14:21,500

appeared in the newspapers and learned

338

00:14:24,579 --> 00:14:22,910

what I could about that and kind of

339

00:14:26,290 --> 00:14:24,589

clear up some of those misnomers and

340

00:14:28,780 --> 00:14:26,300

that's the thing I wanted to do with

341

00:14:30,940 --> 00:14:28,790

this book is here's the original source

342

00:14:33,880 --> 00:14:30,950

of the information it came from this guy

343

00:14:36,579 --> 00:14:33,890

it came from this file at Project Blue

344

00:14:38,980 --> 00:14:36,589

Book it came from this particular work

345

00:14:41,590 --> 00:14:38,990

and let's see where where it goes

346

00:14:45,069 --> 00:14:41,600

so that the reader wants to try to

347

00:14:47,740 --> 00:14:45,079

verify the information he or she knows

348

00:14:50,050 --> 00:14:47,750

where to go to look for it so that was

349

00:14:53,290 --> 00:14:50,060

and that's the point of footnoting and I

350

00:14:55,990 --> 00:14:53,300

think that a lot of the UFO writers

351
00:14:57,250 --> 00:14:56,000
today are beginning to do the same thing

352
00:14:59,829 --> 00:14:57,260
or have been doing the same thing

353
00:15:01,090 --> 00:14:59,839
actually providing good solid footnotes

354
00:15:03,370 --> 00:15:01,100
of where the information came from

355
00:15:06,040 --> 00:15:03,380
sometimes it fails I know Richard

356
00:15:08,290 --> 00:15:06,050
Richard Dolan in his uh one of his books

357
00:15:10,780 --> 00:15:08,300
on the national security state had a

358
00:15:15,550 --> 00:15:10,790
footnote in there and it linked back to

359
00:15:18,280 --> 00:15:15,560
a Timothy Goods book which linked back

360
00:15:20,769 --> 00:15:18,290
to something is the Laurentian book that

361
00:15:22,750 --> 00:15:20,779
I was able to find in the APRA Bulletin

362
00:15:24,250 --> 00:15:22,760
the Lorenz ins being Jim and Carr

363
00:15:25,630 --> 00:15:24,260

Lorenzen who published the Opera

364

00:15:27,699 --> 00:15:25,640

Bulletin arrow phenomenal research

365

00:15:29,560 --> 00:15:27,709

organization bulletin and I was able to

366

00:15:32,439 --> 00:15:29,570

find the original story and the story

367

00:15:35,110 --> 00:15:32,449

had kind of like the the railroad

368

00:15:36,970 --> 00:15:35,120

engineers story had kind of evolved over

369

00:15:38,769 --> 00:15:36,980

the over the telling but by going back

370

00:15:41,769 --> 00:15:38,779

to the original source I was able to

371

00:15:44,170 --> 00:15:41,779

learn the details of that case which

372

00:15:46,360 --> 00:15:44,180

becomes very important and provide you

373

00:15:47,590 --> 00:15:46,370

with a possible explanation for the

374

00:15:50,079 --> 00:15:47,600

sighting rather than something that's

375

00:15:50,769 --> 00:15:50,089

just kind of left up in the air and I

376

00:15:51,620 --> 00:15:50,779

didn't mean that

377

00:15:53,389 --> 00:15:51,630

Punda Lee

378

00:15:55,009 --> 00:15:53,399

yeah I left up in the air get it flying

379

00:15:57,879 --> 00:15:55,019

saucers up in the air yeah because

380

00:16:01,280 --> 00:15:57,889

that's that's where they're left up

381

00:16:04,040 --> 00:16:01,290

chasing system yeah my goes in strange

382

00:16:08,600 --> 00:16:04,050

directions but I mean if you're in this

383

00:16:10,819 --> 00:16:08,610

field I suspect it probably would and

384

00:16:13,280 --> 00:16:10,829

the gentleman the the second witness to

385

00:16:16,189 --> 00:16:13,290

the camp Kevin Kenneth Arnold sighting

386

00:16:18,319 --> 00:16:16,199

there was something about there's

387

00:16:21,379 --> 00:16:18,329

something about the way he spoke and I

388

00:16:23,449 --> 00:16:21,389

don't know if you implied it in your

389

00:16:25,910 --> 00:16:23,459

writing or was just in the way his

390

00:16:30,050 --> 00:16:25,920

testimony spoke it sounded just English

391

00:16:34,610 --> 00:16:30,060

sounded off like very colloquial I think

392

00:16:36,199 --> 00:16:34,620

I think he was a poorly educated he was

393

00:16:37,730 --> 00:16:36,209

obviously literate because he wrote a

394

00:16:39,710 --> 00:16:37,740

letter but there were a lot of

395

00:16:42,230 --> 00:16:39,720

misspellings in the letter and things

396

00:16:43,930 --> 00:16:42,240

like that and I tried to use that stop

397

00:16:47,329 --> 00:16:43,940

because it gives you a feel for the

398

00:16:49,189 --> 00:16:47,339

individual you know very it could be a

399

00:16:53,389 --> 00:16:49,199

very bright guy but he didn't have the

400

00:16:55,340 --> 00:16:53,399

educational background to express

401
00:16:56,929 --> 00:16:55,350
himself or maybe just in inarticulate

402
00:16:59,689 --> 00:16:56,939
you know just unable to express himself

403
00:17:01,699 --> 00:16:59,699
well but I think it's important for us

404
00:17:03,079 --> 00:17:01,709
not to embellish what the people said to

405
00:17:05,809 --> 00:17:03,089
give you a real idea of who they are

406
00:17:08,179 --> 00:17:05,819
when I was serving in Iraq I was doing a

407
00:17:11,270 --> 00:17:08,189
lot of the newspaper articles for the

408
00:17:13,130 --> 00:17:11,280
public affairs office and the battalion

409
00:17:16,460 --> 00:17:13,140
commander asked me one day why I had to

410
00:17:18,890 --> 00:17:16,470
put in the ages of people in the stories

411
00:17:23,059 --> 00:17:18,900
because he was he was pushing 40 and he

412
00:17:24,679 --> 00:17:23,069
didn't want that no apparently but and I

413
00:17:27,110 --> 00:17:24,689

said to him because it gives you an idea

414

00:17:29,750 --> 00:17:27,120
of the reliability of the source if I

415

00:17:30,470 --> 00:17:29,760
tell a story and I say the person was 14

416

00:17:32,299 --> 00:17:30,480
years old

417

00:17:34,640 --> 00:17:32,309
that tells you something about the

418

00:17:36,560 --> 00:17:34,650
person if I say that person is 54 years

419

00:17:38,870 --> 00:17:36,570
old that tells you something else about

420

00:17:41,659 --> 00:17:38,880
the person doesn't mean the fourth 14

421

00:17:43,340 --> 00:17:41,669
year old is is unreliable but it tells

422

00:17:44,779 --> 00:17:43,350
you a little bit about that individual I

423

00:17:47,120 --> 00:17:44,789
think it's important for you to grasp

424

00:17:48,950 --> 00:17:47,130
the story and if he's 54 it tells you

425

00:17:50,990 --> 00:17:48,960
something about him that helps you to

426

00:17:53,690 --> 00:17:51,000

grabs the story and if you put their

427

00:17:55,370 --> 00:17:53,700

words in as they spoke them it tells you

428

00:17:57,590 --> 00:17:55,380

a little bit about them as well and

429

00:17:59,240 --> 00:17:57,600

you're not trying to embellish their

430

00:18:01,850 --> 00:17:59,250

account you're not trying to clean it up

431

00:18:04,310 --> 00:18:01,860

for whatever reason you're reporting

432

00:18:05,450 --> 00:18:04,320

accurately what this person said and I

433

00:18:06,980 --> 00:18:05,460

think that's important as

434

00:18:09,409 --> 00:18:06,990

well because it all gives you

435

00:18:11,899 --> 00:18:09,419

information that leads to the

436

00:18:13,430 --> 00:18:11,909

reliability of that particular source or

437

00:18:15,169 --> 00:18:13,440

the believability of that particular

438

00:18:19,070 --> 00:18:15,179

source depending on how you want to take

439

00:18:21,409 --> 00:18:19,080

it and so Kevin where cannot people find

440

00:18:22,639 --> 00:18:21,419

your works and what site do you prefer

441

00:18:27,200 --> 00:18:22,649

that they go to visit to find out more

442

00:18:29,810 --> 00:18:27,210

about you if they go to www.hsn.randall

443

00:18:31,370 --> 00:18:29,820

blog spot.com they'll see a lot of stuff

444

00:18:34,730 --> 00:18:31,380

on there I've been doing the blog for

445

00:18:37,940 --> 00:18:34,740

like ten years there's nearly 800 nearly

446

00:18:39,860 --> 00:18:37,950

900 articles on it and most of them deal

447

00:18:41,840 --> 00:18:39,870

with UFOs I get off into the esoteric

448

00:18:43,460 --> 00:18:41,850

like the curse of Oak Island

449

00:18:47,649 --> 00:18:43,470

periodically I'm looking at that one

450

00:18:50,419 --> 00:18:47,659

right now yeah and things like that but

451
00:18:51,950 --> 00:18:50,429
the books are all available at Amazon a

452
00:18:56,539 --> 00:18:51,960
lot of them are available in your book

453
00:18:58,310 --> 00:18:56,549
stores and or the other ear eaters have

454
00:19:01,279 --> 00:18:58,320
them available so you know they're

455
00:19:02,930 --> 00:19:01,289
they're out there to be found and I

456
00:19:05,389 --> 00:19:02,940
always say you know if you go if you if

457
00:19:07,159 --> 00:19:05,399
you get the book and you you like it put

458
00:19:09,649 --> 00:19:07,169
a review up on Amazon because that'll

459
00:19:12,350 --> 00:19:09,659
intern me an extra 10 or 15 cents and I

460
00:19:13,669 --> 00:19:12,360
can use that to you know fun to coffee

461
00:19:16,159 --> 00:19:13,679
or sell a cup a cup of coffee or

462
00:19:18,440 --> 00:19:16,169
something yeah it's well it's helpful

463
00:19:20,889 --> 00:19:18,450

also for your credibility because I

464

00:19:22,700 --> 00:19:20,899

think that you have certainly earned it

465

00:19:24,529 --> 00:19:22,710

I'll bring this up real quick

466

00:19:27,019 --> 00:19:24,539

the the curse of Oak Island it's funny I

467

00:19:30,409 --> 00:19:27,029

did a interview with his avian haze for

468

00:19:32,600 --> 00:19:30,419

last our last episode and we kind of

469

00:19:34,250 --> 00:19:32,610

discussed this briefly because we had

470

00:19:37,159 --> 00:19:34,260

technical issues so we had to reschedule

471

00:19:39,409 --> 00:19:37,169

and then I realized we were scheduled

472

00:19:43,880 --> 00:19:39,419

during the play of curse of Oak Island

473

00:19:44,240 --> 00:19:43,890

and my stomach stomach sank no I can't

474

00:19:45,769 --> 00:19:44,250

miss it

475

00:19:48,529 --> 00:19:45,779

and I joke because I say it's you know

476
00:19:50,769 --> 00:19:48,539
it's one of the best shows on TV for me

477
00:19:52,789 --> 00:19:50,779
and yet it's the show about nothing oh

478
00:19:54,649 --> 00:19:52,799
yeah it's gonna say they never do

479
00:19:58,789 --> 00:19:54,659
anything last the last episode I fell

480
00:20:01,549 --> 00:19:58,799
asleep and it was so boring yeah well

481
00:20:04,220 --> 00:20:01,559
you pee yes not like they haven't dug up

482
00:20:06,680 --> 00:20:04,230
the whole damn island right you know it

483
00:20:09,649 --> 00:20:06,690
really falls into that category of just

484
00:20:13,370 --> 00:20:09,659
watching guys do stuff that you can't do

485
00:20:15,649 --> 00:20:13,380
what you do but I'm thinking they're

486
00:20:18,500 --> 00:20:15,659
about to sink the island they drilled so

487
00:20:21,710 --> 00:20:18,510
many holes in it since the boat's

488
00:20:22,850 --> 00:20:21,720

1795 and everybody's drilling holes in

489

00:20:24,200 --> 00:20:22,860

different places and they're tunneling

490

00:20:25,940 --> 00:20:24,210

here and they're telling their and I'm

491

00:20:29,270 --> 00:20:25,950

thinking the islands about to collapse I

492

00:20:31,940 --> 00:20:29,280

just yeah when you see those aerial

493

00:20:35,840 --> 00:20:31,950

shots it really you realize that is not

494

00:20:37,850 --> 00:20:35,850

there's not much space there and there

495

00:20:39,590 --> 00:20:37,860

gets so excited when they we found we

496

00:20:42,260 --> 00:20:39,600

found this spike that looks like it came

497

00:20:44,720 --> 00:20:42,270

from a ship yeah Wow great wonderful you

498

00:20:45,950 --> 00:20:44,730

know right I think plus last last week

499

00:20:47,180 --> 00:20:45,960

they were talking about what we found

500

00:20:51,590 --> 00:20:47,190

evidence that the island has been

501
00:20:54,070 --> 00:20:51,600
inhabited for hundreds of years yeah we

502
00:20:56,270 --> 00:20:54,080
know that that's not a secret

503
00:20:58,010 --> 00:20:56,280
last year I think they found evidence of

504
00:21:02,900 --> 00:20:58,020
a British camp and there's a woman named

505
00:21:06,320 --> 00:21:02,910
Joe ste Joy Steele who did a book Oak

506
00:21:07,340 --> 00:21:06,330
Island mystery solved and she's come up

507
00:21:09,590 --> 00:21:07,350
what I think is a very plausible

508
00:21:12,410 --> 00:21:09,600
explanation and there's really not money

509
00:21:17,510 --> 00:21:12,420
buried there but what the the boys found

510
00:21:19,340 --> 00:21:17,520
back in 1795 and and I you know there's

511
00:21:20,960 --> 00:21:19,350
there's links to that on my blog as well

512
00:21:23,480 --> 00:21:20,970
so you can get there and you can see her

513
00:21:26,300 --> 00:21:23,490

book and I did a I did a show about it

514

00:21:29,330 --> 00:21:26,310

as well with her talking about Oak

515

00:21:31,250 --> 00:21:29,340

Island so I I think I think she's I

516

00:21:33,260 --> 00:21:31,260

think she's got a very plausible

517

00:21:35,570 --> 00:21:33,270

explanation and it explains that a

518

00:21:37,340 --> 00:21:35,580

debris that they keep finding there so I

519

00:21:39,590 --> 00:21:37,350

like that like the wood in case in

520

00:21:42,290 --> 00:21:39,600

concrete or something like that yeah

521

00:21:44,600 --> 00:21:42,300

well it explains everything and and I

522

00:21:46,430 --> 00:21:44,610

mean if you watch the teasers for season

523

00:21:48,080 --> 00:21:46,440

father said you know here's this pirates

524

00:21:50,510 --> 00:21:48,090

chest they've got a pirate's chest and

525

00:21:52,100 --> 00:21:50,520

you go wow great the second episode they

526
00:21:54,530 --> 00:21:52,110
say yeah belongs this guy named James

527
00:21:56,540 --> 00:21:54,540
Anderson and his relic the Senate lives

528
00:21:58,250 --> 00:21:56,550
here in Halifax and we'll go visit with

529
00:21:59,690 --> 00:21:58,260
him and they pull the chest out and of

530
00:22:01,970 --> 00:21:59,700
course there's no gold in it or anything

531
00:22:03,740 --> 00:22:01,980
it's just a lot of interesting

532
00:22:06,410 --> 00:22:03,750
memorabilia especially if you happen to

533
00:22:08,540 --> 00:22:06,420
be a member of the family but it really

534
00:22:11,720 --> 00:22:08,550
doesn't take us to the solution for the

535
00:22:13,370 --> 00:22:11,730
mystery of Oak Island so no they really

536
00:22:15,140 --> 00:22:13,380
teased it a heavy this year I think they

537
00:22:17,630 --> 00:22:15,150
knew they needed to to keep people

538
00:22:19,340 --> 00:22:17,640

tuning in I really they really made it

539

00:22:22,100 --> 00:22:19,350

sound like they had a big find this year

540

00:22:23,330 --> 00:22:22,110

I hope that they do that did um you know

541

00:22:24,620 --> 00:22:23,340

even if it's not what they think it is

542

00:22:26,930 --> 00:22:24,630

hopefully it's something exciting

543

00:22:29,000 --> 00:22:26,940

because there's treasures all over the

544

00:22:32,010 --> 00:22:29,010

place you know so Oak Island just be

545

00:22:35,040 --> 00:22:32,020

maybe one place of of many others along

546

00:22:37,830 --> 00:22:35,050

Eastern order and you know who knows

547

00:22:40,160 --> 00:22:37,840

what the fine but I guess it's the the

548

00:22:43,830 --> 00:22:40,170

journey not the destination in this case

549

00:22:45,690 --> 00:22:43,840

that's it I don't think they're gonna

550

00:22:47,880 --> 00:22:45,700

find anything I think if there was ever

551
00:22:51,090 --> 00:22:47,890
any treasure there it's long gone and I

552
00:22:54,420 --> 00:22:51,100
think and there was something that I

553
00:22:58,820 --> 00:22:54,430
dread just the other day oh the reason

554
00:23:02,730 --> 00:22:58,830
for the artificial swamp I saw something

555
00:23:05,790 --> 00:23:02,740
a paper that suggested that some of the

556
00:23:07,920 --> 00:23:05,800
the natives that inhabited the area had

557
00:23:09,780 --> 00:23:07,930
created this artificial swamp for the

558
00:23:13,200 --> 00:23:09,790
oyster beds who created oyster beds or

559
00:23:15,090 --> 00:23:13,210
in the area for a food supply and that's

560
00:23:17,490 --> 00:23:15,100
why they have this artificial swamp that

561
00:23:19,860 --> 00:23:17,500
Smith's Cove is an artificial bait Beach

562
00:23:23,700 --> 00:23:19,870
mm-hmm and it's and it was they were

563
00:23:25,980 --> 00:23:23,710

creating that for the oysters and I

564

00:23:27,630 --> 00:23:25,990

thought that was kind of interesting and

565

00:23:29,220 --> 00:23:27,640

I think I did I think I did a posting on

566

00:23:30,500 --> 00:23:29,230

my blog about that where where I made a

567

00:23:33,030 --> 00:23:30,510

pun about you know

568

00:23:35,670 --> 00:23:33,040

it's miss coves they were holding the

569

00:23:37,520 --> 00:23:35,680

ocean at bay and I said yes I said that

570

00:23:40,230 --> 00:23:37,530

on purpose

571

00:23:43,260 --> 00:23:40,240

yeah I mean the coconut fiber is that

572

00:23:45,330 --> 00:23:43,270

that's tantalizing no yeah and and they

573

00:23:47,100 --> 00:23:45,340

also talked about throwing the the die I

574

00:23:50,250 --> 00:23:47,110

didn't remember reading about Oak Island

575

00:23:52,740 --> 00:23:50,260

and long long ago for me anyway where

576

00:23:54,690 --> 00:23:52,750

they had thrown died into what was

577

00:23:57,090 --> 00:23:54,700

originally the money pit and it bubbled

578

00:23:59,640 --> 00:23:57,100

up in other places out in the ocean

579

00:24:03,000 --> 00:23:59,650

around the island and they the Louganis

580

00:24:05,580 --> 00:24:03,010

brothers tried that at Oak Island and

581

00:24:07,050 --> 00:24:05,590

their latest assault on it and the die

582

00:24:09,870 --> 00:24:07,060

never reappeared they didn't they

583

00:24:12,600 --> 00:24:09,880

couldn't find where it went it you know

584

00:24:14,580 --> 00:24:12,610

it's one of those things and borehole

585

00:24:16,170 --> 00:24:14,590

10-x which we heard about for decades

586

00:24:17,880 --> 00:24:16,180

literally decades where there was a

587

00:24:20,610 --> 00:24:17,890

possibility of a body down there and a

588

00:24:22,290 --> 00:24:20,620

chest and tools and they finally send a

589

00:24:25,740 --> 00:24:22,300

diver down there and I'm thinking oh my

590

00:24:27,750 --> 00:24:25,750

god I wouldn't do that on a you know for

591

00:24:29,790 --> 00:24:27,760

all the money that you could throw at me

592

00:24:32,160 --> 00:24:29,800

it just seems like an incredibly

593

00:24:33,870 --> 00:24:32,170

dangerous thing to have done but he goes

594

00:24:35,460 --> 00:24:33,880

down borehole 10-x he gets to the bottom

595

00:24:37,590 --> 00:24:35,470

and there's no body there's no chest

596

00:24:39,750 --> 00:24:37,600

there's no tools there's nothing down

597

00:24:42,090 --> 00:24:39,760

there it was a you know artifacts of the

598

00:24:44,790 --> 00:24:42,100

poor quality of the video camera they

599

00:24:45,840 --> 00:24:44,800

use which in the time that use it was

600

00:24:48,900 --> 00:24:45,850

probably the best

601
00:24:50,010 --> 00:24:48,910
they could get the technologists that

602
00:24:51,810 --> 00:24:50,020
involved what we're doing

603
00:24:54,600 --> 00:24:51,820
high-definition where you can see the

604
00:24:58,770 --> 00:24:54,610
all the flaws in the actors faces on

605
00:25:00,360 --> 00:24:58,780
television now but you know so yeah I

606
00:25:03,060 --> 00:25:00,370
mean it kept things alive for a long

607
00:25:05,430 --> 00:25:03,070
time but I'll think they've just pretty

608
00:25:07,440 --> 00:25:05,440
much run out of out of steam they've

609
00:25:08,070 --> 00:25:07,450
taken as far as they can go and I don't

610
00:25:11,039 --> 00:25:08,080
know

611
00:25:14,789 --> 00:25:11,049
gonna go they're not because they're not

612
00:25:16,289 --> 00:25:14,799
gonna find a treasure so yeah I guess

613
00:25:17,610 --> 00:25:16,299

them they're gonna go as long as the

614

00:25:18,750 --> 00:25:17,620

show has ratings because otherwise I

615

00:25:20,520 --> 00:25:18,760

don't think they're gonna spend money

616

00:25:22,680 --> 00:25:20,530

any more money of their own that's for

617

00:25:24,360 --> 00:25:22,690

sure under search well I don't think

618

00:25:25,470 --> 00:25:24,370

janus are spending their own money I

619

00:25:27,299 --> 00:25:25,480

don't think they've been spending their

620

00:25:29,520 --> 00:25:27,309

own money for a long time I think for a

621

00:25:31,919 --> 00:25:29,530

long time but initially History Channel

622

00:25:32,760 --> 00:25:31,929

History Channel has been financing it

623

00:25:34,490 --> 00:25:32,770

and they're probably getting well paid

624

00:25:37,980 --> 00:25:34,500

for their parts in the story and I know

625

00:25:39,779 --> 00:25:37,990

nova scotia put 1.5 million dollars into

626

00:25:41,880 --> 00:25:39,789

the project too because it's bringing

627

00:25:44,549 --> 00:25:41,890

tourists into the area oh yeah they're

628

00:25:46,409 --> 00:25:44,559

making a killing yeah and so it's a wise

629

00:25:48,210 --> 00:25:46,419

investment you'll come to Oak Island and

630

00:25:50,820 --> 00:25:48,220

I'm thinking yeah on a dare or sure I'll

631

00:25:52,409 --> 00:25:50,830

be there so I mean I my good ways to go

632

00:25:55,260 --> 00:25:52,419

camping you know just to get away for a

633

00:25:59,310 --> 00:25:55,270

while but I I lost my taste for camping

634

00:26:03,299 --> 00:25:59,320

when I was in the army and we were

635

00:26:04,590 --> 00:26:03,309

forced to go camping yeah different

636

00:26:07,970 --> 00:26:04,600

perspective I was gonna say that's a

637

00:26:11,130 --> 00:26:07,980

different kind of camping too though yes

638

00:26:14,820 --> 00:26:11,140

so okay so we're getting close to the

639

00:26:16,470 --> 00:26:14,830

end of the first quarter here so we

640

00:26:18,960 --> 00:26:16,480

covered a lot of ground but we didn't

641

00:26:23,120 --> 00:26:18,970

really start from the beginning so if

642

00:26:25,740 --> 00:26:23,130

you can let us know what this story is

643

00:26:28,669 --> 00:26:25,750

moving back to UFOs and the Lonnie

644

00:26:32,039 --> 00:26:28,679

Zamora case from Socorro New Mexico

645

00:26:34,440 --> 00:26:32,049

on April 24 1964 and I give you the

646

00:26:37,200 --> 00:26:34,450

dates just so that you get an idea of

647

00:26:38,760 --> 00:26:37,210

how old the case is Zamora was chasing a

648

00:26:40,860 --> 00:26:38,770

speeder through Socorro when he heard a

649

00:26:43,230 --> 00:26:40,870

explosion on the outskirts of town

650

00:26:45,330 --> 00:26:43,240

he thought the Dynamo dynamite shed that

651
00:26:47,130 --> 00:26:45,340
was out there had exploded they broke

652
00:26:49,169 --> 00:26:47,140
off the chase to went to look to see

653
00:26:50,940 --> 00:26:49,179
what was the damage had been done came

654
00:26:52,950 --> 00:26:50,950
up over a rise and he saw down in the

655
00:26:54,720 --> 00:26:52,960
Arroyo below him what he thought I

656
00:26:57,690 --> 00:26:54,730
thought at first was an overt or an

657
00:26:59,110 --> 00:26:57,700
overturned car and he tried to get his

658
00:27:00,790 --> 00:26:59,120
patrol car down there

659
00:27:02,230 --> 00:27:00,800
up and down a little bit finally they

660
00:27:04,420 --> 00:27:02,240
left his patrol car and walked down and

661
00:27:05,860 --> 00:27:04,430
got fairly close to to the object on

662
00:27:09,670 --> 00:27:05,870
ground and realized that it wasn't a car

663
00:27:11,670 --> 00:27:09,680

saw two beings outside the craft outside

664

00:27:13,720 --> 00:27:11,680

the object whatever it might have been

665

00:27:15,520 --> 00:27:13,730

who looked toward him and seemed

666

00:27:17,410 --> 00:27:15,530

startled to see him there they ran

667

00:27:20,020 --> 00:27:17,420

around behind and there was a clang like

668

00:27:22,600 --> 00:27:20,030

a hatch closing and the thing you know

669

00:27:27,700 --> 00:27:22,610

roar lifted off and disappeared in a

670

00:27:29,799 --> 00:27:27,710

matter of a few seconds he called one of

671

00:27:31,570 --> 00:27:29,809

his superiors sergeant Sam Chavez of the

672

00:27:33,400 --> 00:27:31,580

New Mexico State Police they were

673

00:27:35,320 --> 00:27:33,410

friends and he wanted Chavez to come out

674

00:27:38,350 --> 00:27:35,330

and Chevis would later say that you know

675

00:27:40,630 --> 00:27:38,360

so Mora looked as if he had seen a ghost

676

00:27:43,750 --> 00:27:40,640

I mean he was just the color drained

677

00:27:46,030 --> 00:27:43,760

from his face and he was quite upset

678

00:27:47,620 --> 00:27:46,040

about this thinking that he had maybe

679

00:27:48,760 --> 00:27:47,630

seen a black project something the

680

00:27:50,380 --> 00:27:48,770

government was doing and didn't want to

681

00:27:52,360 --> 00:27:50,390

talk about I think she has pretty well

682

00:27:53,590 --> 00:27:52,370

had that idea as well but chef s is

683

00:27:55,780 --> 00:27:53,600

there in like two and a half minutes so

684

00:27:58,090 --> 00:27:55,790

the object is long gone from that point

685

00:28:02,860 --> 00:27:58,100

on there were people in the area on the

686

00:28:04,540 --> 00:28:02,870

scene continuously that night eventually

687

00:28:07,870 --> 00:28:04,550

you know I say eventually and you know

688

00:28:09,790 --> 00:28:07,880

an hour and a half later Richard

689

00:28:12,100 --> 00:28:09,800

holder who was the up range commander at

690

00:28:13,840 --> 00:28:12,110

the White Sands Missile Range his duty

691

00:28:17,650 --> 00:28:13,850

station at White Sands was closer to

692

00:28:19,540 --> 00:28:17,660

Socorro than the actual base of white

693

00:28:21,610 --> 00:28:19,550

sands which is down near Alamogordo was

694

00:28:25,330 --> 00:28:21,620

so he lived in Socorro he was either

695

00:28:27,100 --> 00:28:25,340

called by his lieutenant or he was

696

00:28:28,840 --> 00:28:27,110

called by the FBI agent who was there

697

00:28:33,850 --> 00:28:28,850

Arthur burns but both of them showed up

698

00:28:35,049 --> 00:28:33,860

at the Socorro Police Station by 7:20 in

699

00:28:36,940 --> 00:28:35,059

the evening

700

00:28:40,630 --> 00:28:36,950

Zamora made the sighting around 6

701
00:28:43,299 --> 00:28:40,640
o'clock so and I say around 6 o'clock it

702
00:28:45,250 --> 00:28:43,309
was like 555 or something like that so

703
00:28:48,820 --> 00:28:45,260
they're there right after the thing and

704
00:28:51,850 --> 00:28:48,830
they pretty much interrogate some more

705
00:28:53,890 --> 00:28:51,860
about what he had seen suggested to him

706
00:28:56,560 --> 00:28:53,900
that they may not talk about the symbol

707
00:28:59,470 --> 00:28:56,570
he he saw it he drew us they drew the

708
00:29:00,760 --> 00:28:59,480
symbol quickly after the thing

709
00:29:02,680 --> 00:29:00,770
disappeared so he wouldn't forget what

710
00:29:04,630 --> 00:29:02,690
it looked like on a scrap of paper and

711
00:29:06,820 --> 00:29:04,640
then later he drew it for holder signed

712
00:29:08,440 --> 00:29:06,830
his name to both you guys know that on

713
00:29:10,990 --> 00:29:08,450

the scene when did he take it out of his

714

00:29:12,549 --> 00:29:11,000

yeah yeah but he was sitting in his

715

00:29:14,619 --> 00:29:12,559

vehicle and he had a scrap of paper

716

00:29:17,110 --> 00:29:14,629

and he drew it right there before Chevis

717

00:29:18,639 --> 00:29:17,120

showed up so it was within literally

718

00:29:20,710 --> 00:29:18,649

within a minute or two of the object

719

00:29:23,169 --> 00:29:20,720

disappearing and then he drew it later

720

00:29:24,460 --> 00:29:23,179

for a holder and signed his name to it

721

00:29:25,950 --> 00:29:24,470

signed his name to both of those so we

722

00:29:28,090 --> 00:29:25,960

have that

723

00:29:29,379 --> 00:29:28,100

okay well let's let's hold it right

724

00:29:30,850 --> 00:29:29,389

there we'll pick up guy rest of the

725

00:29:33,249 --> 00:29:30,860

story when we come back after this first

726

00:29:35,019 --> 00:29:33,259

break I'm speaking with author Kevin

727

00:29:37,330 --> 00:29:35,029

Randall encounter in the desert the case

728

00:29:39,039 --> 00:29:37,340

for alien contact at Socorro this is

729

00:29:41,499 --> 00:29:39,049

Alan B Smith for inception reading

730

00:29:42,940 --> 00:29:41,509

network on paranormal now first that

731

00:29:54,009 --> 00:29:42,950

power mode now on the inception radio

732

00:29:59,079 --> 00:29:56,299

paranormal now this is Alan B Smith your

733

00:30:01,489 --> 00:29:59,089

host and my guest tonight is Kevin Dean

734

00:30:03,319 --> 00:30:01,499

Randall author of encounter in the

735

00:30:05,959 --> 00:30:03,329

desert the case for alien contact at

736

00:30:08,779 --> 00:30:05,969

Socorro and taking us out of the break

737

00:30:09,919 --> 00:30:08,789

was something happened on the way to

738

00:30:13,399 --> 00:30:09,929

heaven by Phil Collins

739

00:30:17,509 --> 00:30:13,409

alright so Kevin we essentially we left

740

00:30:24,560 --> 00:30:17,519

off where Lonnie Zamora during the was

741

00:30:27,529 --> 00:30:24,570

April 26 1960 24 24 24 94 yep he saw

742

00:30:29,719 --> 00:30:27,539

this the crash seemingly crashed perhaps

743

00:30:32,539 --> 00:30:29,729

a landing no no no landing a landing

744

00:30:33,769 --> 00:30:32,549

landing yeah landing so there's no there

745

00:30:35,859 --> 00:30:33,779

was no there's no room to believe there

746

00:30:37,969 --> 00:30:35,869

was it was a crash landing of sorts

747

00:30:39,589 --> 00:30:37,979

meaning it was wasn't something

748

00:30:41,869 --> 00:30:39,599

problematic it was a controlled landing

749

00:30:44,989 --> 00:30:41,879

it was a controlled landing but it could

750

00:30:46,339 --> 00:30:44,999

be what we in the military used to call

751
00:30:47,479 --> 00:30:46,349
a forced landing which means something

752
00:30:50,659 --> 00:30:47,489
went wrong and you had to lay on the

753
00:30:52,849 --> 00:30:50,669
airplane the aircraft that makes more

754
00:30:55,099 --> 00:30:52,859
loosely which is not to say that you

755
00:30:58,569 --> 00:30:55,109
couldn't then fly it off and obviously

756
00:31:02,329 --> 00:30:58,579
they did but where we left off we had

757
00:31:04,009 --> 00:31:02,339
Arthur burns and Richard holder talking

758
00:31:07,639 --> 00:31:04,019
to Zamora in the police station that

759
00:31:09,319 --> 00:31:07,649
very night within 90 minutes of him

760
00:31:11,419 --> 00:31:09,329
seeing the object talking to him about

761
00:31:13,310 --> 00:31:11,429
what he'd seen getting getting the idea

762
00:31:15,139 --> 00:31:13,320
of what he'd seen suggesting he not talk

763
00:31:18,560 --> 00:31:15,149

about the symbol suggesting he not talk

764

00:31:19,849 --> 00:31:18,570

about the beings that he saw not that

765

00:31:21,079 --> 00:31:19,859

they're attempting to suppress the

766

00:31:24,589 --> 00:31:21,089

information I only want to make that

767

00:31:25,909 --> 00:31:24,599

clear because with the project Bluebook

768

00:31:26,959 --> 00:31:25,919

eventually getting involved in all that

769

00:31:28,489 --> 00:31:26,969

there's an idea that there was

770

00:31:30,889 --> 00:31:28,499

suppression of information out he didn't

771

00:31:32,359 --> 00:31:30,899

really see any of that here they were

772

00:31:35,019 --> 00:31:32,369

they were thinking more of Lonnie Zamora

773

00:31:39,499 --> 00:31:35,029

and a way of validating other sightings

774

00:31:41,839 --> 00:31:39,509

but Holder wrote a report that very

775

00:31:44,029 --> 00:31:41,849

night and sent it off it's only about a

776
00:31:45,409 --> 00:31:44,039
half page single-spaced now when I was

777
00:31:48,499 --> 00:31:45,419
doing my radio show I had two guys on

778
00:31:50,299 --> 00:31:48,509
Ben moss and Tony Angie Ola and they

779
00:31:51,859 --> 00:31:50,309
said that the motor wasn't they only say

780
00:31:53,209 --> 00:31:51,869
one to sell the object you know because

781
00:31:54,889 --> 00:31:53,219
I'd always complained that the problem

782
00:31:58,009 --> 00:31:54,899
with the sighting is a single witness we

783
00:31:59,449 --> 00:31:58,019
don't have another witness and they said

784
00:32:02,599 --> 00:31:59,459
no no three people saw the object in the

785
00:32:04,759 --> 00:32:02,609
sky before Zamora saw it landed and and

786
00:32:05,149 --> 00:32:04,769
it had called the police station about I

787
00:32:07,039 --> 00:32:05,159
said

788
00:32:08,899 --> 00:32:07,049

did you check the police logs did you

789

00:32:10,339 --> 00:32:08,909

get the police records I said no or they

790

00:32:11,930 --> 00:32:10,349

didn't say no they they never really

791

00:32:15,469 --> 00:32:11,940

answered the question to my satisfaction

792

00:32:18,259 --> 00:32:15,479

which inspired me to take a look for

793

00:32:19,820 --> 00:32:18,269

more information and in doing that I

794

00:32:21,289 --> 00:32:19,830

came across in the project blue book

795

00:32:23,509 --> 00:32:21,299

files holders report that was written

796

00:32:26,149 --> 00:32:23,519

that very night and he mentions that

797

00:32:27,710 --> 00:32:26,159

three people saw the saw a blue flame or

798

00:32:31,700 --> 00:32:27,720

an object in the sky

799

00:32:34,039 --> 00:32:31,710

prior to Zamora seeing it landed so now

800

00:32:35,659 --> 00:32:34,049

we have documented evidence that there

801
00:32:37,999 --> 00:32:35,669
were other people who saw the thing and

802
00:32:39,560 --> 00:32:38,009
called the police station the problem is

803
00:32:42,529 --> 00:32:39,570
the police dispatcher didn't take their

804
00:32:45,729 --> 00:32:42,539
names he just said it just kind of blew

805
00:32:49,430 --> 00:32:45,739
the whole thing off what annoys me now

806
00:32:51,169 --> 00:32:49,440
sitting here is Jim and Carr Lorenzen

807
00:32:54,200 --> 00:32:51,179
went to went to Socorro within 48 hours

808
00:32:56,960 --> 00:32:54,210
they're there talking to sue Mora you

809
00:32:59,149 --> 00:32:56,970
have sergeant moody who is a project

810
00:33:00,830 --> 00:32:59,159
Bluebook investigator in 1964 he's there

811
00:33:04,999 --> 00:33:00,840
within a couple of days he's there with

812
00:33:08,570 --> 00:33:05,009
Allen Hynek who was the consultant ray

813
00:33:10,700 --> 00:33:08,580

Stanford who was the night cap guy he

814

00:33:14,539 --> 00:33:10,710

was there within a couple of days of the

815

00:33:16,339 --> 00:33:14,549

sighting all of them talked to all of

816

00:33:18,859 --> 00:33:16,349

these people and Zamora and Chevy's and

817

00:33:20,239 --> 00:33:18,869

all of that nobody tried to find out who

818

00:33:20,769 --> 00:33:20,249

those people were that called the police

819

00:33:23,539 --> 00:33:20,779

station

820

00:33:25,489 --> 00:33:23,549

Sakura wasn't that big the flight path

821

00:33:27,769 --> 00:33:25,499

was pretty well known it wouldn't have

822

00:33:29,330 --> 00:33:27,779

been all that hard to go out into the

823

00:33:32,749 --> 00:33:29,340

neighborhood and knock on some doors and

824

00:33:35,749 --> 00:33:32,759

see what others might have seen but the

825

00:33:39,799 --> 00:33:35,759

important point is Holder mentions the

826

00:33:41,479 --> 00:33:39,809

phone calls too in his report to the

827

00:33:43,599 --> 00:33:41,489

Pentagon I think it would went to one of

828

00:33:46,159 --> 00:33:43,609

the command posts in the Pentagon and

829

00:33:48,859 --> 00:33:46,169

that documents that there were other

830

00:33:50,810 --> 00:33:48,869

witnesses to the sighting later on that

831

00:33:53,119 --> 00:33:50,820

evening there's a couple of other people

832

00:33:55,789 --> 00:33:53,129

who saw an object away from Socorro but

833

00:33:58,070 --> 00:33:55,799

it was still in New Mexico and we have

834

00:34:00,739 --> 00:33:58,080

some of those names there was a person

835

00:34:03,289 --> 00:34:00,749

who called a TV station in Albuquerque

836

00:34:06,139 --> 00:34:03,299

and corrals not that far south of

837

00:34:07,339 --> 00:34:06,149

Albuquerque talking about this but they

838

00:34:08,750 --> 00:34:07,349

didn't bother to write down the name

839

00:34:11,659 --> 00:34:08,760

because nobody knew what was going on

840

00:34:15,680 --> 00:34:11,669

and blew that off and then the next day

841

00:34:16,760 --> 00:34:15,690

I think it was in La Madera New Mexico

842

00:34:19,010 --> 00:34:16,770

there was another land

843

00:34:21,200 --> 00:34:19,020

and the object seems to be pretty much

844

00:34:23,899 --> 00:34:21,210

the same as the one that Zamora saw and

845

00:34:25,520 --> 00:34:23,909

when it took off it left the burned area

846

00:34:27,080 --> 00:34:25,530

like it did in Socorro and that was

847

00:34:29,659 --> 00:34:27,090

another point I'll get to in a moment

848

00:34:32,149 --> 00:34:29,669

but it took off left the burned area

849

00:34:34,669 --> 00:34:32,159

the guy who reported it reported to the

850

00:34:35,659 --> 00:34:34,679

sheriff before he'd learned before he

851
00:34:37,790 --> 00:34:35,669
and the sheriff had learned about the

852
00:34:40,810 --> 00:34:37,800
Socorro sighting so it's an interesting

853
00:34:43,190 --> 00:34:40,820
bit of corroboration there at the

854
00:34:45,649 --> 00:34:43,200
landing site in Socorro there were four

855
00:34:47,359 --> 00:34:45,659
landing pad marks and they clearly

856
00:34:49,580 --> 00:34:47,369
weren't excavations they were pressed

857
00:34:53,119 --> 00:34:49,590
into the soil and when the thing left

858
00:34:57,050 --> 00:34:53,129
off it burned part of a bush and some

859
00:34:58,820 --> 00:34:57,060
scrub grass around around that site but

860
00:35:00,920 --> 00:34:58,830
interesting Chavez said that when he

861
00:35:03,530 --> 00:35:00,930
went down and felt the bush it wasn't

862
00:35:06,500 --> 00:35:03,540
warm it was still smoking but it wasn't

863
00:35:10,250 --> 00:35:06,510

warm and chemical analysis showed no

864

00:35:12,320 --> 00:35:10,260

sort of a petrochemical reaction there

865

00:35:14,510 --> 00:35:12,330

or any kind of accelerant that might

866

00:35:16,940 --> 00:35:14,520

have been used to to burn the bore so

867

00:35:18,800 --> 00:35:16,950

that was kind of a conundrum for them so

868

00:35:23,530 --> 00:35:18,810

you have the physical evidence of the

869

00:35:26,570 --> 00:35:23,540

the landing imprints and harder and

870

00:35:27,800 --> 00:35:26,580

burns and everybody else on there's

871

00:35:29,300 --> 00:35:27,810

pictures of them there's pictures of

872

00:35:31,520 --> 00:35:29,310

them in the book that I got from the Air

873

00:35:34,640 --> 00:35:31,530

Force as a matter of fact from the Air

874

00:35:36,410 --> 00:35:34,650

Force file so it's you know there was

875

00:35:37,640 --> 00:35:36,420

physical evidence left behind it wasn't

876

00:35:39,020 --> 00:35:37,650

well I just saw this thing and it took

877

00:35:40,730 --> 00:35:39,030

off there was nothing left behind there

878

00:35:42,440 --> 00:35:40,740

was actually things left behind the

879

00:35:44,570 --> 00:35:42,450

analysis of the soil samples and all

880

00:35:47,270 --> 00:35:44,580

that didn't reveal any radiation didn't

881

00:35:50,000 --> 00:35:47,280

reveal any accelerants didn't reveal any

882

00:35:51,349 --> 00:35:50,010

petrol chemicals that would cause the

883

00:35:53,990 --> 00:35:51,359

burns anything that would cause the

884

00:35:57,980 --> 00:35:54,000

burns so that was kind of a mystery

885

00:36:00,080 --> 00:35:57,990

there as well up in la Madera there was

886

00:36:02,180 --> 00:36:00,090

a melded pop bottle associated with this

887

00:36:04,400 --> 00:36:02,190

thing and I mentioned that only because

888

00:36:07,340 --> 00:36:04,410

it's important in another aspect there

889

00:36:10,430 --> 00:36:07,350

were two guys from Dubuque Iowa and in

890

00:36:12,290 --> 00:36:10,440

this landing took place on a Friday

891

00:36:14,840 --> 00:36:12,300

evening in the Wednesday morning

892

00:36:16,820 --> 00:36:14,850

newspaper so it's less than a week after

893

00:36:19,520 --> 00:36:16,830

the landing there's a story about these

894

00:36:22,130 --> 00:36:19,530

two guys who had seen the object in

895

00:36:23,630 --> 00:36:22,140

Socorro and they described what they had

896

00:36:27,560 --> 00:36:23,640

seen it doesn't really match the

897

00:36:30,140 --> 00:36:27,570

descriptions that Zamora gave which is a

898

00:36:33,289 --> 00:36:30,150

pretty tale tale signed there but they

899

00:36:35,839 --> 00:36:33,299

mentioned the melted pop bottle and I'm

900

00:36:38,510 --> 00:36:35,849

thinking what happened they their story

901
00:36:40,970 --> 00:36:38,520
was they were driving through Socorro at

902
00:36:43,700 --> 00:36:40,980
the time the object took off and they

903
00:36:47,299 --> 00:36:43,710
saw it in the air and they they knew the

904
00:36:49,670 --> 00:36:47,309
roads but their description doesn't fit

905
00:36:52,130 --> 00:36:49,680
with what Zamora said and they described

906
00:36:54,260 --> 00:36:52,140
the melted pop bottle and that's the

907
00:36:57,500 --> 00:36:54,270
wrong sighting and I think that kind of

908
00:36:58,549 --> 00:36:57,510
negates their testimony and I think it's

909
00:36:59,779 --> 00:36:58,559
important to look at that you know you

910
00:37:02,630 --> 00:36:59,789
said well there's all these people that

911
00:37:04,220 --> 00:37:02,640
you know said they were there these two

912
00:37:06,620 --> 00:37:04,230
guys probably weren't they made up the

913
00:37:08,870 --> 00:37:06,630

story I searched for him as we were

914

00:37:10,309 --> 00:37:08,880

doing as I was doing the book I know

915

00:37:13,279 --> 00:37:10,319

some others have searched form and

916

00:37:14,870 --> 00:37:13,289

haven't found them a fellow here in Iowa

917

00:37:18,200 --> 00:37:14,880

named Ralph DeGraw talked to him about

918

00:37:21,980 --> 00:37:18,210

10 years after the sighting and the

919

00:37:23,960 --> 00:37:21,990

information from from his investigation

920

00:37:26,059 --> 00:37:23,970

is in the the MUFON Journal and I don't

921

00:37:28,099 --> 00:37:26,069

remember the the date off the top of my

922

00:37:30,829 --> 00:37:28,109

head but cleverly it's footnoted in the

923

00:37:33,769 --> 00:37:30,839

book so that you can you can look that

924

00:37:35,120 --> 00:37:33,779

up as well and see what what DeGraw

925

00:37:36,710 --> 00:37:35,130

learned from these guys and he was

926

00:37:39,559 --> 00:37:36,720

pretty well convinced that they probably

927

00:37:41,690 --> 00:37:39,569

warned they've all involved either but

928

00:37:44,180 --> 00:37:41,700

there are people who were involved there

929

00:37:47,329 --> 00:37:44,190

was a tourist and they said they were

930

00:37:48,799 --> 00:37:47,339

driving a green Cadillac and they

931

00:37:50,809 --> 00:37:48,809

stopped at the gas station and had a

932

00:37:52,660 --> 00:37:50,819

discussion with a felony Oprah grinder

933

00:37:54,980 --> 00:37:52,670

who was the manager of the gas station

934

00:37:57,470 --> 00:37:54,990

talking about how you had your aircraft

935

00:37:59,240 --> 00:37:57,480

fly pretty low around here and then they

936

00:38:02,359 --> 00:37:59,250

got in their car took off now they

937

00:38:04,220 --> 00:38:02,369

looked for those people and there was no

938

00:38:05,390 --> 00:38:04,230

credit-card receipt you know in today's

939

00:38:07,309 --> 00:38:05,400

environment everybody would have been

940

00:38:10,190 --> 00:38:07,319

paying with a credit card security

941

00:38:11,809 --> 00:38:10,200

cameras oh oh absolutely yeah they've

942

00:38:14,000 --> 00:38:11,819

been always of tracing these but but in

943

00:38:15,200 --> 00:38:14,010

1964 not so much it was a green Cadillac

944

00:38:17,510 --> 00:38:15,210

and they thought it was from Colorado

945

00:38:19,789 --> 00:38:17,520

and I'd always laughingly said you know

946

00:38:23,660 --> 00:38:19,799

I grew up in Colorado so I was living in

947

00:38:25,700 --> 00:38:23,670

Colorado in 1964 and I said but I didn't

948

00:38:27,319 --> 00:38:25,710

have a college a Cadillac I got yeah I

949

00:38:30,289 --> 00:38:27,329

did have a Cadillac when I was in high

950

00:38:33,589 --> 00:38:30,299

school it was like you know 20 years old

951
00:38:36,650 --> 00:38:33,599
but it was a Cadillac so it could have

952
00:38:38,599 --> 00:38:36,660
been me but it wasn't and my car was

953
00:38:42,079 --> 00:38:38,609
blue and not green but later the point

954
00:38:43,180 --> 00:38:42,089
is those people never came forward the

955
00:38:44,620 --> 00:38:43,190
people who

956
00:38:45,910 --> 00:38:44,630
call the police never came forward and I

957
00:38:47,260 --> 00:38:45,920
found that pretty strange especially

958
00:38:49,480 --> 00:38:47,270
after it started getting some publicity

959
00:38:51,700 --> 00:38:49,490
and I'm wondering if a tone of some of

960
00:38:53,740 --> 00:38:51,710
the newspaper articles didn't convince

961
00:38:55,780 --> 00:38:53,750
the people not to say me think about it

962
00:38:58,990 --> 00:38:55,790
you know it's astonishing that somebody

963
00:39:01,329 --> 00:38:59,000

didn't come forward and talk about what

964

00:39:04,960 --> 00:39:01,339

they had seen back in July of nineteen

965

00:39:07,300 --> 00:39:04,970

I'm sorry April of 1960 64 I I just

966

00:39:10,780 --> 00:39:07,310

don't understand that but clearly they

967

00:39:14,200 --> 00:39:10,790

haven't I was talking to Ray Stanford

968

00:39:16,780 --> 00:39:14,210

and he said that while he was in the in

969

00:39:18,640 --> 00:39:16,790

Socorro with the radio announcer who had

970

00:39:21,160 --> 00:39:18,650

interviewed a number of people this was

971

00:39:23,319 --> 00:39:21,170

not long after the event and the two

972

00:39:26,950 --> 00:39:23,329

older women came up to him talking about

973

00:39:28,870 --> 00:39:26,960

having heard that heard the roar and I

974

00:39:29,950 --> 00:39:28,880

said to Ray do you have their names and

975

00:39:31,480 --> 00:39:29,960

he said well they were old ladies are

976

00:39:35,260 --> 00:39:31,490

probably dead by now and I'm thinking

977

00:39:36,640 --> 00:39:35,270

yeah but if we had the names we might be

978

00:39:38,290 --> 00:39:36,650

able to find out where they lived and

979

00:39:41,680 --> 00:39:38,300

there might be somebody around who was

980

00:39:45,880 --> 00:39:41,690

around in 1964 that we could talk to a

981

00:39:50,260 --> 00:39:45,890

loss a long shot at best I mean you're a

982

00:39:52,599 --> 00:39:50,270

teenager in 1964 as was I do you know

983

00:39:57,460 --> 00:39:52,609

why very Stanford why he did not have

984

00:40:00,180 --> 00:39:57,470

the names available did he never had but

985

00:40:03,130 --> 00:40:00,190

his if his files are anything like mine

986

00:40:08,290 --> 00:40:03,140

you know the accumulation of 50 or 60

987

00:40:10,420 --> 00:40:08,300

years of UFO research and and you know

988

00:40:13,059 --> 00:40:10,430

we're not we're not librarians so it's

989

00:40:14,620 --> 00:40:13,069

not well catalogued from what from what

990

00:40:15,339 --> 00:40:14,630

I understand his is even worse cataloged

991

00:40:17,380 --> 00:40:15,349

than mine

992

00:40:18,849 --> 00:40:17,390

and he just didn't he had written the

993

00:40:21,640 --> 00:40:18,859

names down but he just didn't know where

994

00:40:22,930 --> 00:40:21,650

to find him and so you know I was kind

995

00:40:24,339 --> 00:40:22,940

of a lead that went nowhere but I'm

996

00:40:26,500 --> 00:40:24,349

thinking you know if we if we had the

997

00:40:28,839 --> 00:40:26,510

names and we could get ahold of a

998

00:40:32,140 --> 00:40:28,849

phonebook from 1964 which is not that

999

00:40:34,059 --> 00:40:32,150

hard of a task with libraries and

1000

00:40:35,800 --> 00:40:34,069

everything you know and for the for the

1001

00:40:37,930 --> 00:40:35,810

Millennials out there phonebook is this

1002

00:40:39,550 --> 00:40:37,940

document used to get in the MIT once a

1003

00:40:40,780 --> 00:40:39,560

year and everybody's telephone I'm ready

1004

00:40:42,420 --> 00:40:40,790

to just look it up but it was only for

1005

00:40:44,710 --> 00:40:42,430

your local town

1006

00:40:46,660 --> 00:40:44,720

unlike type somebody's name into the

1007

00:40:49,900 --> 00:40:46,670

internet and you can get nine hundred

1008

00:40:52,300 --> 00:40:49,910

people with the same name but you know

1009

00:40:54,520 --> 00:40:52,310

you you could you could find out where

1010

00:40:55,960 --> 00:40:54,530

they live the the the section of Socorro

1011

00:40:56,500 --> 00:40:55,970

they lived in and see if you couldn't

1012

00:40:59,040 --> 00:40:56,510

maybe

1013

00:41:01,180 --> 00:40:59,050

find somebody who had been there since

1014

00:41:03,640 --> 00:41:01,190

1964 that could tell you something about

1015

00:41:05,470 --> 00:41:03,650

that but that was just it's just one of

1016

00:41:07,870 --> 00:41:05,480

those things that you know we're now 50

1017

00:41:09,760 --> 00:41:07,880

more than 50 years down the road and

1018

00:41:13,030 --> 00:41:09,770

it's a really difficult task to go back

1019

00:41:15,250 --> 00:41:13,040

that far and find people who might have

1020

00:41:16,990 --> 00:41:15,260

some kind of knowledge that hadn't

1021

00:41:21,370 --> 00:41:17,000

talked to it's talked about it since

1022

00:41:22,600 --> 00:41:21,380

simply because of all the publicity you

1023

00:41:24,880 --> 00:41:22,610

would think that they would have said

1024

00:41:27,640 --> 00:41:24,890

something by now if they had any

1025

00:41:29,200 --> 00:41:27,650

information to share tell me well I mean

1026

00:41:31,270 --> 00:41:29,210

fact then the closest thing you had to

1027

00:41:34,180 --> 00:41:31,280

the Internet would be the operators who

1028

00:41:35,440 --> 00:41:34,190

kind of served as your search engine you

1029

00:41:36,160 --> 00:41:35,450

know you could you could call and say

1030

00:41:38,080 --> 00:41:36,170

I'm trying to get in touch with

1031

00:41:41,140 --> 00:41:38,090

so-and-so in a town and they would

1032

00:41:43,930 --> 00:41:41,150

actually try to find that person for you

1033

00:41:46,150 --> 00:41:43,940

if I actually got bill Brasil's

1034

00:41:49,570 --> 00:41:46,160

telephone number bill Brazel from the

1035

00:41:52,990 --> 00:41:49,580

Roswell case and I called up and I had

1036

00:41:56,410 --> 00:41:53,000

the wrong town and the operator said oh

1037

00:41:58,810 --> 00:41:56,420

there's a bill Brazel living over in and

1038

00:41:59,980 --> 00:41:58,820

I I said well that's got to be the guy

1039

00:42:03,190 --> 00:41:59,990

and I called him and it was I mean

1040

00:42:04,810 --> 00:42:03,200

somebody's she's helping me I don't even

1041

00:42:05,830 --> 00:42:04,820

have the right town and she manages to

1042

00:42:09,250 --> 00:42:05,840

find the guy for me

1043

00:42:13,800 --> 00:42:09,260

this was this was in the late 80s and I

1044

00:42:16,210 --> 00:42:13,810

sent a letter to a building in New York

1045

00:42:17,740 --> 00:42:16,220

you know a skyscraper of course but a

1046

00:42:18,850 --> 00:42:17,750

building in New York and I'd had the

1047

00:42:20,320 --> 00:42:18,860

wrong floor and they sent it back

1048

00:42:22,690 --> 00:42:20,330

because it because they couldn't find

1049

00:42:24,790 --> 00:42:22,700

out they couldn't find the person I'm

1050

00:42:27,190 --> 00:42:24,800

thinking you got it narrowed down to a

1051
00:42:29,260 --> 00:42:27,200
building you can't find it the operator

1052
00:42:33,220 --> 00:42:29,270
I've got it narrowed down to New Mexico

1053
00:42:36,310 --> 00:42:33,230
and finds the guy for me and I talked to

1054
00:42:40,450 --> 00:42:36,320
bill he was a he was again reticent to

1055
00:42:42,700 --> 00:42:40,460
talk but when - Minh I went to to me

1056
00:42:44,650 --> 00:42:42,710
with him he you know he we kind of

1057
00:42:46,420 --> 00:42:44,660
chatted for a while he finally opened up

1058
00:42:47,920 --> 00:42:46,430
to us they told us that you know he told

1059
00:42:49,510 --> 00:42:47,930
his wife Shirley that if he like this

1060
00:42:51,730 --> 00:42:49,520
he'd help us out and if he didn't he'd

1061
00:42:54,820 --> 00:42:51,740
just end the conversation so he liked us

1062
00:42:58,380 --> 00:42:54,830
and so we're back there again and I know

1063
00:43:01,000 --> 00:42:58,390

I'm off on to a rose well again but

1064

00:43:02,350 --> 00:43:01,010

because this is kind of funny so we meet

1065

00:43:03,820 --> 00:43:02,360

him at 8 o'clock in the morning to go

1066

00:43:05,380 --> 00:43:03,830

out to the debris field where he'd found

1067

00:43:08,170 --> 00:43:05,390

some bits of the pieces of the debris

1068

00:43:09,880 --> 00:43:08,180

and we're driving down the road and he

1069

00:43:12,790 --> 00:43:09,890

says you boys want a beer

1070

00:43:14,260 --> 00:43:12,800

I think it's 8 o'clock in the morning

1071

00:43:17,260 --> 00:43:14,270

and Don says no no thank you

1072

00:43:18,820 --> 00:43:17,270

and I'm thinking you know somebody ought

1073

00:43:20,590 --> 00:43:18,830

to drink a beer for this guy so I said

1074

00:43:22,360 --> 00:43:20,600

yeah I'll have a beer so I'm drinking

1075

00:43:24,990 --> 00:43:22,370

warm beer driving through Mexico New

1076

00:43:27,340 --> 00:43:25,000

Mexico at 8 o'clock in the morning so

1077

00:43:29,560 --> 00:43:27,350

but we got out to the place and looked

1078

00:43:31,660 --> 00:43:29,570

around and you know Bill was a go as a

1079

00:43:35,110 --> 00:43:31,670

great guy helped us out as much as he

1080

00:43:37,450 --> 00:43:35,120

could so yeah I mean that's a

1081

00:43:43,120 --> 00:43:37,460

fascinating story and it reminded me um

1082

00:43:47,590 --> 00:43:43,130

my father was actually uh adopted and he

1083

00:43:50,800 --> 00:43:47,600

he found out that he was adopted when he

1084

00:43:52,060 --> 00:43:50,810

was 12 or 13 he had gotten ahold of some

1085

00:43:55,390 --> 00:43:52,070

person cific original birth certificate

1086

00:43:58,690 --> 00:43:55,400

document in the attic or somewhere in

1087

00:44:01,840 --> 00:43:58,700

his house and he never told his mother

1088

00:44:03,610 --> 00:44:01,850

that he knew until she passed and she

1089

00:44:06,820 --> 00:44:03,620

was 80 something when she passed well

1090

00:44:08,350 --> 00:44:06,830

his mother or his adoptive mother he

1091

00:44:10,150 --> 00:44:08,360

found it well he never told his birth

1092

00:44:12,210 --> 00:44:10,160

mother I mean his I'm sorry he never

1093

00:44:16,630 --> 00:44:12,220

told his adopted mother that he was

1094

00:44:19,420 --> 00:44:16,640

adopted so they never told him into his

1095

00:44:21,910 --> 00:44:19,430

adulthood that he was adopted and he

1096

00:44:23,200 --> 00:44:21,920

never brought it up and so it wasn't

1097

00:44:25,210 --> 00:44:23,210

until after my grandmother passed away

1098

00:44:27,310 --> 00:44:25,220

then he told my grandfather look I've

1099

00:44:31,960 --> 00:44:27,320

known for at that point it must have

1100

00:44:33,370 --> 00:44:31,970

been 30 30 years and so he told my

1101

00:44:36,910 --> 00:44:33,380

grandfather look I I want to look for

1102

00:44:39,850 --> 00:44:36,920

for my biological parents so he did and

1103

00:44:41,890 --> 00:44:39,860

this was in the mid to late 90s this

1104

00:44:45,820 --> 00:44:41,900

started so the internet was not quite

1105

00:44:48,460 --> 00:44:45,830

robust so he had to do a lot of cold

1106

00:44:50,920 --> 00:44:48,470

calling and requesting documents you

1107

00:44:52,270 --> 00:44:50,930

know snail mail but eventually he

1108

00:44:54,430 --> 00:44:52,280

tracked them down there was just a

1109

00:44:56,140 --> 00:44:54,440

matter of making those last phone calls

1110

00:44:58,450 --> 00:44:56,150

and someone saying nope not this person

1111

00:45:00,120 --> 00:44:58,460

you got to call this person and and he

1112

00:45:03,070 --> 00:45:00,130

did you know he found that his family

1113

00:45:06,640 --> 00:45:03,080

well moving this back to Socorro mm-hmm

1114

00:45:09,190 --> 00:45:06,650

thank you because because what you were

1115

00:45:11,350 --> 00:45:09,200

telling me fits into this so I am

1116

00:45:12,550 --> 00:45:11,360

talking to Ben moss and Tony angioma and

1117

00:45:13,870 --> 00:45:12,560

they're talking about the symbol they

1118

00:45:16,600 --> 00:45:13,880

saw and there's some discrepancy about

1119

00:45:18,010 --> 00:45:16,610

the symbol that's a Mora saw and there's

1120

00:45:19,360 --> 00:45:18,020

some discrepancy about me so we have to

1121

00:45:21,520 --> 00:45:19,370

understand we have the real symbol from

1122

00:45:23,559 --> 00:45:21,530

the real files of this and I'm talking

1123

00:45:26,380 --> 00:45:23,569

to him about this they said

1124

00:45:29,170 --> 00:45:26,390

Faline Rob Mercer has them he's a UFO

1125

00:45:30,489 --> 00:45:29,180

researcher from Ohio so I called Rob

1126
00:45:33,459 --> 00:45:30,499
Mercer and I said what are you talking

1127
00:45:36,579 --> 00:45:33,469
about and he said well he periodically

1128
00:45:37,989 --> 00:45:36,589
would look at craigslist to see if there

1129
00:45:39,279 --> 00:45:37,999
was UFO material on there because

1130
00:45:42,160 --> 00:45:39,289
sometimes it pops up and he found

1131
00:45:44,259 --> 00:45:42,170
somebody offering a box of Project Blue

1132
00:45:46,120 --> 00:45:44,269
Book documents so he paid the guy \$100

1133
00:45:49,269 --> 00:45:46,130
and got the documents and what one of

1134
00:45:53,439 --> 00:45:49,279
the things in this box was a huge file

1135
00:45:58,089 --> 00:45:53,449
on the Socorro case which doesn't

1136
00:46:01,120 --> 00:45:58,099
exactly match the official file and he

1137
00:46:03,519 --> 00:46:01,130
said Mercer said so he talked to the guy

1138
00:46:06,009 --> 00:46:03,529

who'd about bought the box and the guy

1139

00:46:08,289 --> 00:46:06,019

said well he had bought a load of lumber

1140

00:46:09,969 --> 00:46:08,299

to garage sale and this box had been

1141

00:46:13,150 --> 00:46:09,979

hidden behind the lumber and he took it

1142

00:46:15,309 --> 00:46:13,160

took the box with the lumber and when he

1143

00:46:19,989 --> 00:46:15,319

looked and he knew that nobody wanted so

1144

00:46:21,400 --> 00:46:19,999

Mercer finds out who owned the house or

1145

00:46:23,469 --> 00:46:21,410

whether where the guy bought the box who

1146

00:46:26,469 --> 00:46:23,479

owns the house talked to him found the

1147

00:46:27,640 --> 00:46:26,479

owner of it beforehand tracked the guys

1148

00:46:30,849 --> 00:46:27,650

down turned out the guy's name was

1149

00:46:33,009 --> 00:46:30,859

Carmen Morano track the guy down Carmen

1150

00:46:35,019 --> 00:46:33,019

Morano and technically was the last

1151

00:46:37,599 --> 00:46:35,029

chief of project Bluebook

1152

00:46:39,789 --> 00:46:37,609

I think he took over when Hector

1153

00:46:43,299 --> 00:46:39,799

quintanilla left but the but the thing

1154

00:46:45,370 --> 00:46:43,309

is through the detective work by

1155

00:46:47,439 --> 00:46:45,380

checking tax records and all of us he

1156

00:46:49,539 --> 00:46:47,449

found out who the owner of the house was

1157

00:46:51,249 --> 00:46:49,549

managed to track down the guy who had

1158

00:46:55,239 --> 00:46:51,259

saved the box and got the whole story of

1159

00:46:56,709 --> 00:46:55,249

the box because of the tenacity he had a

1160

00:46:58,329 --> 00:46:56,719

little bit easier than your father did

1161

00:46:59,499 --> 00:46:58,339

because he's working with the internet

1162

00:47:01,329 --> 00:46:59,509

and that sort of thing in today's

1163

00:47:03,219 --> 00:47:01,339

environment but I think what an

1164

00:47:05,650 --> 00:47:03,229

incredible piece of detective work to be

1165

00:47:07,689 --> 00:47:05,660

able to get to the box and then find the

1166

00:47:09,160 --> 00:47:07,699

guy and he talked to him about said

1167

00:47:12,099 --> 00:47:09,170

what's the deal with these with these

1168

00:47:14,799 --> 00:47:12,109

records and he said well as blue book

1169

00:47:16,839 --> 00:47:14,809

was being closed down in 1969 there were

1170

00:47:18,009 --> 00:47:16,849

all these files that were not part of

1171

00:47:19,479 --> 00:47:18,019

the official files he said they were

1172

00:47:22,509 --> 00:47:19,489

created by others who had been at

1173

00:47:25,120 --> 00:47:22,519

Project Blue Book and yeah as a way of

1174

00:47:28,120 --> 00:47:25,130

providing information to people who came

1175

00:47:31,719 --> 00:47:28,130

to look at Project Blue Boar notes like

1176
00:47:35,640 --> 00:47:31,729
yeah well but what he had was like 200

1177
00:47:37,420 --> 00:47:35,650
pages for the Socorro case yeah yeah and

1178
00:47:39,160 --> 00:47:37,430
so I was able to match

1179
00:47:40,240 --> 00:47:39,170
with the official record as well so I

1180
00:47:43,750 --> 00:47:40,250
know I know what with the different

1181
00:47:47,410 --> 00:47:43,760
discrepancies were but but I mean so he

1182
00:47:51,099 --> 00:47:47,420
he had found all this information that

1183
00:47:53,559 --> 00:47:51,109
had been collected into a non classified

1184
00:47:55,349 --> 00:47:53,569
file actually he's not much in the plug

1185
00:48:01,359 --> 00:47:55,359
a blue bow files or was ever classified

1186
00:48:03,970 --> 00:48:01,369
but so he the Mercer or I'm sorry Murano

1187
00:48:05,920 --> 00:48:03,980
had said that you know there was all

1188
00:48:07,720 --> 00:48:05,930

this information that was collected for

1189

00:48:09,280 --> 00:48:07,730

easy access for reporters you know

1190

00:48:11,440 --> 00:48:09,290

they'd ask him they'd ask about specific

1191

00:48:11,980 --> 00:48:11,450

cases I mean you can imagine if you're a

1192

00:48:15,910 --> 00:48:11,990

reporter

1193

00:48:16,780 --> 00:48:15,920

in in late 1960s going to Project Blue

1194

00:48:18,880 --> 00:48:16,790

Book you're going to want to know about

1195

00:48:20,380 --> 00:48:18,890

the Socorro case so they had collected

1196

00:48:21,790 --> 00:48:20,390

all this stuff out of the official files

1197

00:48:23,380 --> 00:48:21,800

and put it in like to a loose-leaf

1198

00:48:25,089 --> 00:48:23,390

binder so that they could flip through

1199

00:48:26,819 --> 00:48:25,099

it did the same thing with photographs

1200

00:48:29,650 --> 00:48:26,829

in other cases that were well-known

1201

00:48:30,849 --> 00:48:29,660

level and sparks you know the level and

1202

00:48:33,160 --> 00:48:30,859

case would be another one that people

1203

00:48:35,500 --> 00:48:33,170

would have asked about and had been kept

1204

00:48:37,510 --> 00:48:35,510

in in a you know separate folders for

1205

00:48:40,359 --> 00:48:37,520

the ease of accessing information we had

1206

00:48:42,190 --> 00:48:40,369

a lot of that kind of information but

1207

00:48:44,740 --> 00:48:42,200

the Socorro case was was one of those

1208

00:48:48,130 --> 00:48:44,750

documents in some of the pictures in the

1209

00:48:51,010 --> 00:48:48,140

book are actually from that that file

1210

00:48:52,630 --> 00:48:51,020

that Morano found and I had to Mercer

1211

00:48:54,640 --> 00:48:52,640

found and I had a nice conversation with

1212

00:48:56,109 --> 00:48:54,650

Morano about what was going on in Blue

1213

00:48:58,960 --> 00:48:56,119

Book at the end of Project Blue Book and

1214

00:49:00,760 --> 00:48:58,970

how they conducted the operation and the

1215

00:49:02,910 --> 00:49:00,770

investigations toward the end of Project

1216

00:49:07,260 --> 00:49:02,920

Blue Book and I say I think that

1217

00:49:09,309 --> 00:49:07,270

technically Morano ended up as the last

1218

00:49:10,990 --> 00:49:09,319

it would have been the last senior

1219

00:49:12,280 --> 00:49:11,000

officer a project blue book so he

1220

00:49:14,079 --> 00:49:12,290

technically would have been the head of

1221

00:49:15,280 --> 00:49:14,089

it as they closed the thing down but it

1222

00:49:16,539 --> 00:49:15,290

had no more investigative

1223

00:49:19,030 --> 00:49:16,549

responsibilities or anything like that

1224

00:49:23,799 --> 00:49:19,040

it was mainly he was there to close out

1225

00:49:27,160 --> 00:49:23,809

the documentation now imagine I had this

1226
00:49:28,960 --> 00:49:27,170
documentation been top-secret where

1227
00:49:31,599 --> 00:49:28,970
would it be would you have ever been

1228
00:49:33,250 --> 00:49:31,609
able to find it if it had been

1229
00:49:36,339 --> 00:49:33,260
classified top-secret they would have

1230
00:49:38,680 --> 00:49:36,349
done two things with it the top-secret

1231
00:49:40,210 --> 00:49:38,690
requires a vault if you've got secret

1232
00:49:41,950 --> 00:49:40,220
material you can keep it in a safe if

1233
00:49:43,539 --> 00:49:41,960
you've got top-secret material it's got

1234
00:49:46,660 --> 00:49:43,549
to be kept in a vault so you know that's

1235
00:49:49,210 --> 00:49:46,670
it's really different I have found going

1236
00:49:50,950 --> 00:49:49,220
through the documentation I have not

1237
00:49:53,320 --> 00:49:50,960
found anything labeled top secret

1238
00:49:55,060 --> 00:49:53,330

I have found stuff labeled secret and

1239

00:49:56,830 --> 00:49:55,070

that's a whole different kettle of fish

1240

00:49:59,980 --> 00:49:56,840

and then stuff labeled confidential

1241

00:50:02,170 --> 00:49:59,990

which is an even lower classification

1242

00:50:05,290 --> 00:50:02,180

and then for official use only which

1243

00:50:07,360 --> 00:50:05,300

even just means you'd you know use it

1244

00:50:08,740 --> 00:50:07,370

for official use you don't you know

1245

00:50:10,120 --> 00:50:08,750

spread it around if you don't have to

1246

00:50:12,550 --> 00:50:10,130

but there's really no caveat against

1247

00:50:14,470 --> 00:50:12,560

talking about it but most of the stuff

1248

00:50:16,600 --> 00:50:14,480

in Project Blue Book at least toward the

1249

00:50:18,400 --> 00:50:16,610

end was unclassified there was no

1250

00:50:21,010 --> 00:50:18,410

classifications on it a lot of stuff and

1251
00:50:24,820 --> 00:50:21,020
the Murano had the stuff that Murano had

1252
00:50:27,340 --> 00:50:24,830
wasn't classified so you know it was

1253
00:50:28,990 --> 00:50:27,350
just derivatives of the of the regular

1254
00:50:33,370 --> 00:50:29,000
files but the cliff it would it been top

1255
00:50:35,470 --> 00:50:33,380
secret they most top secret requires a

1256
00:50:37,030 --> 00:50:35,480
review before it's downgraded secret

1257
00:50:38,530 --> 00:50:37,040
material can be drowned downgraded they

1258
00:50:40,600 --> 00:50:38,540
say downgraded at three-year intervals

1259
00:50:42,220 --> 00:50:40,610
which means after three years it becomes

1260
00:50:45,310 --> 00:50:42,230
confidential and three years after that

1261
00:50:47,650 --> 00:50:45,320
it becomes basically unclassified top

1262
00:50:49,480 --> 00:50:47,660
secret for the most part remains

1263
00:50:52,540 --> 00:50:49,490

classified until somebody physically

1264

00:50:55,360 --> 00:50:52,550

looks at it and downgrades it and and

1265

00:50:58,000 --> 00:50:55,370

then really incumbent upon the agency we

1266

00:51:01,270 --> 00:50:58,010

that created the document to to

1267

00:51:02,860 --> 00:51:01,280

downgrade it you there are stuff from

1268

00:51:05,950 --> 00:51:02,870

World War one that is still classified

1269

00:51:07,720 --> 00:51:05,960

top secret I don't know why but nobody's

1270

00:51:09,490 --> 00:51:07,730

bothered to review it nobody's bothered

1271

00:51:11,260 --> 00:51:09,500

to downgrade it is just you know one of

1272

00:51:13,630 --> 00:51:11,270

those things the other thing that

1273

00:51:16,750 --> 00:51:13,640

happens a lot of times with classified

1274

00:51:18,520 --> 00:51:16,760

materials is they're destroyed and I

1275

00:51:20,190 --> 00:51:18,530

know as an intelligence officer I

1276

00:51:24,360 --> 00:51:20,200

destroyed a lot of classified material

1277

00:51:27,490 --> 00:51:24,370

what you do is if it was confidential

1278

00:51:29,670 --> 00:51:27,500

you just burned it if it was secret or

1279

00:51:33,160 --> 00:51:29,680

top secret you had you had to provide

1280

00:51:35,920 --> 00:51:33,170

the names of the documents you had to

1281

00:51:37,870 --> 00:51:35,930

the date of the documents and other

1282

00:51:41,080 --> 00:51:37,880

identifying features of the document and

1283

00:51:43,680 --> 00:51:41,090

then you needed two people to certify

1284

00:51:47,790 --> 00:51:43,690

that the document had been destroyed

1285

00:51:51,040 --> 00:51:47,800

properly destroyed and what we would do

1286

00:51:52,480 --> 00:51:51,050

would destroy documents that were out of

1287

00:51:56,200 --> 00:51:52,490

date and the thing that springs to mind

1288

00:51:58,270 --> 00:51:56,210

is there was two versions of the CIA

1289

00:52:00,070 --> 00:51:58,280

Factbook for example which one was an

1290

00:52:03,390 --> 00:52:00,080

unclassified version and think of the

1291

00:52:04,780 --> 00:52:03,400

the CIA Factbook was basically just a

1292

00:52:07,930 --> 00:52:04,790

encyclopedia type

1293

00:52:10,600 --> 00:52:07,940

entry of information about countries you

1294

00:52:14,170 --> 00:52:10,610

know give you the who the leaders were

1295

00:52:15,640 --> 00:52:14,180

in that sort of thing but it was also a

1296

00:52:17,320 --> 00:52:15,650

classified version that was replaced

1297

00:52:20,350 --> 00:52:17,330

every six months so he'd have to destroy

1298

00:52:22,360 --> 00:52:20,360

the the old one and replace it with the

1299

00:52:24,190 --> 00:52:22,370

new one and you know I was just updated

1300

00:52:25,330 --> 00:52:24,200

material and I never found anything in

1301

00:52:27,250 --> 00:52:25,340

the classified version it was

1302

00:52:30,280 --> 00:52:27,260

particularly exciting or needed to be

1303

00:52:31,930 --> 00:52:30,290

classified but I'm sure if you look far

1304

00:52:33,220 --> 00:52:31,940

enough he'd find classified material in

1305

00:52:35,680 --> 00:52:33,230

there they didn't match the unclassified

1306

00:52:37,600 --> 00:52:35,690

version but the point really is if there

1307

00:52:39,460 --> 00:52:37,610

was top secret material it would have

1308

00:52:42,160 --> 00:52:39,470

had to been reviewed and they would have

1309

00:52:44,410 --> 00:52:42,170

decided whether or not the release of

1310

00:52:46,360 --> 00:52:44,420

the material would have affected

1311

00:52:48,670 --> 00:52:46,370

national security if it was obsolete

1312

00:52:51,250 --> 00:52:48,680

material they may have just destroyed it

1313

00:52:53,350 --> 00:52:51,260

and I would think that would probably be

1314

00:52:55,810 --> 00:52:53,360

what happened with with Blue Book

1315

00:52:56,890 --> 00:52:55,820

although they kept a lot of the they

1316

00:53:00,130 --> 00:52:56,900

kept all the files they sent on a

1317

00:53:01,990 --> 00:53:00,140

Maxwell Air Force Base to the Air Force

1318

00:53:04,150 --> 00:53:02,000

archives and then Jack Webb was doing

1319

00:53:08,770 --> 00:53:04,160

this program called project UFO which

1320

00:53:11,140 --> 00:53:08,780

was a a dragnet type program as its

1321

00:53:13,300 --> 00:53:11,150

searching for investigating UFOs based

1322

00:53:15,130 --> 00:53:13,310

on the Air Force files and I could never

1323

00:53:17,710 --> 00:53:15,140

figure out what case he was basing it on

1324

00:53:21,250 --> 00:53:17,720

but the point of Jack Webb in this story

1325

00:53:23,650 --> 00:53:21,260

is that he paid to have it have the

1326
00:53:25,600 --> 00:53:23,660
film's the whole Project Blue Book files

1327
00:53:29,650 --> 00:53:25,610
microfilm so he could get a copy of them

1328
00:53:31,660 --> 00:53:29,660
and that helped all of us because you

1329
00:53:33,520 --> 00:53:31,670
know then then there's microfilm was

1330
00:53:33,970 --> 00:53:33,530
available of it now of course it's all

1331
00:53:36,550 --> 00:53:33,980
online

1332
00:53:37,990 --> 00:53:36,560
once once I used to say I have a

1333
00:53:39,460 --> 00:53:38,000
complete set of the Project Blue Book

1334
00:53:41,440 --> 00:53:39,470
files there we go oh my god he's got a

1335
00:53:45,450 --> 00:53:41,450
complete set in today's environment yeah

1336
00:53:47,680 --> 00:53:45,460
so do I it's on fold three you dummy so

1337
00:53:49,000 --> 00:53:47,690
you know all that information is out

1338
00:53:50,170 --> 00:53:49,010

there but but I've noticed there are

1339

00:53:52,330 --> 00:53:50,180

things that are left out of the fold

1340

00:53:54,130 --> 00:53:52,340

three stuff that we're in the on the

1341

00:53:56,170 --> 00:53:54,140

micro films and there was and there's

1342

00:53:58,480 --> 00:53:56,180

some things that were not on the

1343

00:54:00,360 --> 00:53:58,490

microphones that that like the Socorro

1344

00:54:03,100 --> 00:54:00,370

case I found some things in there but

1345

00:54:07,870 --> 00:54:03,110

mainly unimportant stuff but there were

1346

00:54:11,080 --> 00:54:07,880

some some differences simultaneous with

1347

00:54:14,740 --> 00:54:11,090

the landing you could mention la Madera

1348

00:54:15,910 --> 00:54:14,750

la Madera is about 195 miles away do you

1349

00:54:17,230 --> 00:54:15,920

know what the time difference was

1350

00:54:18,160 --> 00:54:17,240

between those two sightings

1351

00:54:20,740 --> 00:54:18,170

approximately

1352

00:54:27,090 --> 00:54:20,750

uh without looking at my book as a

1353

00:54:30,940 --> 00:54:27,100

reference uh it was it was a few hours

1354

00:54:33,760 --> 00:54:30,950

I'm thinking it's more like 24 maybe 48

1355

00:54:36,310 --> 00:54:33,770

I think it probably 24 because because

1356

00:54:39,280 --> 00:54:36,320

neither the witness nor and the

1357

00:54:41,650 --> 00:54:39,290

witness's name is in the book and Oliver

1358

00:54:45,850 --> 00:54:41,660

something right it's it's uh it's always

1359

00:54:47,650 --> 00:54:45,860

up yeah it's always secondary case you

1360

00:54:48,760 --> 00:54:47,660

know Socorro is the big one and then

1361

00:54:50,710 --> 00:54:48,770

they say oh yeah by the way law de

1362

00:54:53,620 --> 00:54:50,720

madera which I think was important to

1363

00:54:56,380 --> 00:54:53,630

discuss that case to get a feel for it

1364

00:54:59,740 --> 00:54:56,390

but I but since he the witness didn't

1365

00:55:02,650 --> 00:54:59,750

know about the Socorro case and the

1366

00:55:05,170 --> 00:55:02,660

sheriff didn't know about it suggests to

1367

00:55:07,210 --> 00:55:05,180

me and and court the timing is in the in

1368

00:55:08,560 --> 00:55:07,220

the book so I probably should have a

1369

00:55:13,960 --> 00:55:08,570

copy of it sitting here so I could look

1370

00:55:16,540 --> 00:55:13,970

it up but but I wasn't the news they

1371

00:55:18,970 --> 00:55:16,550

they haven't heard the news and since it

1372

00:55:20,680 --> 00:55:18,980

was since it was it was news around the

1373

00:55:22,450 --> 00:55:20,690

country not long after the sighting that

1374

00:55:25,300 --> 00:55:22,460

it would have to be a very short period

1375

00:55:27,700 --> 00:55:25,310

but I'm I'm thinking it was a 24 hours

1376

00:55:29,680 --> 00:55:27,710

only was 24 hours air force wrote it off

1377

00:55:32,410 --> 00:55:29,690

wrote the limited air case off as being

1378

00:55:34,660 --> 00:55:32,420

a fire in a dump right which is a

1379

00:55:38,080 --> 00:55:34,670

certain I mean the the witness he

1380

00:55:39,850 --> 00:55:38,090

mentions blue flame and then later he

1381

00:55:44,170 --> 00:55:39,860

said he there was like a red or an

1382

00:55:47,140 --> 00:55:44,180

orange flare to it at the tips of the

1383

00:55:51,040 --> 00:55:47,150

flame yeah similar to Socorro yes

1384

00:55:52,870 --> 00:55:51,050

exactly exactly and and and it's because

1385

00:55:55,930 --> 00:55:52,880

it's important because it's close in

1386

00:55:57,880 --> 00:55:55,940

time it's close in location and it has

1387

00:56:00,220 --> 00:55:57,890

many of the elements that Zamora

1388

00:56:03,820 --> 00:56:00,230

discussed in it as well but it always

1389

00:56:05,800 --> 00:56:03,830

takes you know you read a lot of books

1390

00:56:07,450 --> 00:56:05,810

that mention the Socorro case in it and

1391

00:56:09,820 --> 00:56:07,460

they devote a few pages to it but they

1392

00:56:11,470 --> 00:56:09,830

rarely mention la Madera and it's an

1393

00:56:13,150 --> 00:56:11,480

important and important case because

1394

00:56:16,120 --> 00:56:13,160

again we have another witness so we have

1395

00:56:18,040 --> 00:56:16,130

something going on that that seems to

1396

00:56:19,480 --> 00:56:18,050

corroborate what Lonnie Zamora said so

1397

00:56:21,070 --> 00:56:19,490

when we say you know a lot of these

1398

00:56:23,110 --> 00:56:21,080

amorous cases single witness it turns

1399

00:56:24,940 --> 00:56:23,120

out well yeah not really there are other

1400

00:56:26,380 --> 00:56:24,950

witnesses and we know about there are

1401
00:56:28,390 --> 00:56:26,390
other sightings in New Mexico around

1402
00:56:30,789 --> 00:56:28,400
that timeframe that are important and

1403
00:56:33,489 --> 00:56:30,799
there are similar cases and I just

1404
00:56:35,859 --> 00:56:33,499
some of them in the book you know

1405
00:56:37,299 --> 00:56:35,869
there's I had said for a long time that

1406
00:56:38,529 --> 00:56:37,309
there's only one case in the project

1407
00:56:41,169 --> 00:56:38,539
Bluebook files in which there are

1408
00:56:42,400 --> 00:56:41,179
occupant scene and the case is labeled

1409
00:56:44,559 --> 00:56:42,410
on unidentified and that's of course

1410
00:56:46,779 --> 00:56:44,569
it's a kernel case but it turns out

1411
00:56:49,209 --> 00:56:46,789
there's actually two other cases neither

1412
00:56:53,049 --> 00:56:49,219
of them nearly as robust as the Socorro

1413
00:56:55,390 --> 00:56:53,059

case and one of them actually takes

1414

00:56:57,699 --> 00:56:55,400

place behind the Iron Curtain and and

1415

00:57:01,390 --> 00:56:57,709

the guy and his daughter eventually

1416

00:57:03,099 --> 00:57:01,400

escaped into West West Germany and told

1417

00:57:06,039 --> 00:57:03,109

the story after they escaped into West

1418

00:57:08,499 --> 00:57:06,049

Germany and it's in the blue book files

1419

00:57:10,150 --> 00:57:08,509

but it's but yeah I for the longest time

1420

00:57:12,279 --> 00:57:10,160

I said well no it's not and I was

1421

00:57:15,819 --> 00:57:12,289

looking for the case and I discovered

1422

00:57:19,029 --> 00:57:15,829

that the the date as it's given in some

1423

00:57:21,039 --> 00:57:19,039

other publications wasn't quite right

1424

00:57:22,809 --> 00:57:21,049

when I once I found them the correct

1425

00:57:24,880 --> 00:57:22,819

date I was able to find the case but

1426

00:57:27,160 --> 00:57:24,890

it's not in a case file it's just like

1427

00:57:28,599 --> 00:57:27,170

you said hey and I think you said

1428

00:57:31,449 --> 00:57:28,609

something like Alan Hynek

1429

00:57:33,939 --> 00:57:31,459

came across it via the CIA or something

1430

00:57:37,089 --> 00:57:33,949

yeah hold it right there we're coming up

1431

00:57:40,029 --> 00:57:37,099

to the second break speaking with Kevin

1432

00:57:43,479 --> 00:57:40,039

Randle and yeah we're talking UFOs and

1433

00:57:53,839 --> 00:57:43,489

mysteries in the New Mexico desert stay

1434

00:57:58,849 --> 00:57:56,820

and welcome back to paranormal now this

1435

00:58:01,830 --> 00:57:58,859

is LV Smith I'm your host tonight

1436

00:58:06,120 --> 00:58:01,840

grateful as always to be on the irn

1437

00:58:08,880 --> 00:58:06,130

airwaves and tonight my guest is Kevin

1438

00:58:11,130 --> 00:58:08,890

Randall author of encounter in the

1439

00:58:13,290 --> 00:58:11,140

desert the case for alien contact at

1440

00:58:15,780 --> 00:58:13,300

Socorro if you're listening to the

1441

00:58:17,280 --> 00:58:15,790

original broadcast driving just tuning

1442

00:58:20,880 --> 00:58:17,290

in this has been a fantastic

1443

00:58:23,640 --> 00:58:20,890

conversation so stay tuned in and and

1444

00:58:26,609 --> 00:58:23,650

hang with us because I assure you it is

1445

00:58:29,730 --> 00:58:26,619

worth to listen antics out of the break

1446

00:58:33,000 --> 00:58:29,740

was one love by Bob Marley all right so

1447

00:58:35,609 --> 00:58:33,010

let's let's bring it back again to the

1448

00:58:37,680 --> 00:58:35,619

Socorro case we have a pension tonight

1449

00:58:41,490 --> 00:58:37,690

for kind of skewing off in one direction

1450

00:58:43,740 --> 00:58:41,500

another but but it all connects so we

1451

00:58:46,109 --> 00:58:43,750

had essentially as far as the core

1452

00:58:49,170 --> 00:58:46,119

aspect of the story goes really where we

1453

00:58:51,780 --> 00:58:49,180

left it off is that Sam Chavez came and

1454

00:58:54,390 --> 00:58:51,790

later we did mention that he had

1455

00:58:55,920 --> 00:58:54,400

conversations about what to say and not

1456

00:59:01,170 --> 00:58:55,930

to say but if we can just pick it up

1457

00:59:04,620 --> 00:59:01,180

from Sam Chavez meets Lonnie Zamora at

1458

00:59:06,359 --> 00:59:04,630

the site and then what happens well the

1459

00:59:08,370 --> 00:59:06,369

first thing he does he parks his car

1460

00:59:09,570 --> 00:59:08,380

besides as a Morris car he looks and

1461

00:59:11,099 --> 00:59:09,580

decide to see if there's a shovel or

1462

00:59:13,170 --> 00:59:11,109

anything in there which strikes me as

1463

00:59:14,460 --> 00:59:13,180

kind of odd but Chavez said that's what

1464

00:59:15,839 --> 00:59:14,470

he did to see if there was anything like

1465

00:59:18,180 --> 00:59:15,849

that and then he walks down to the area

1466

00:59:20,609 --> 00:59:18,190

where where Lonnie Zamora is which is

1467

00:59:22,650 --> 00:59:20,619

the landing site and he sees the

1468

00:59:25,230 --> 00:59:22,660

impressions in the ground and he sees a

1469

00:59:26,579 --> 00:59:25,240

smoking bush and he makes his

1470

00:59:29,820 --> 00:59:26,589

observations there and he talks to

1471

00:59:31,980 --> 00:59:29,830

Lonnie about what is what is seen and

1472

00:59:33,420 --> 00:59:31,990

eventually others show up because

1473

00:59:35,220 --> 00:59:33,430

they've heard the calls go out over the

1474

00:59:36,570 --> 00:59:35,230

police radio Lonnie Zamora calling back

1475

00:59:38,640 --> 00:59:36,580

into the Sheriff's Department or their

1476
00:59:41,250 --> 00:59:38,650
PlayStation and other scenes so other

1477
00:59:45,089 --> 00:59:41,260
people show up so there are other people

1478
00:59:46,950 --> 00:59:45,099
on the site within minutes literally

1479
00:59:48,900 --> 00:59:46,960
within minutes of the thing taking off

1480
00:59:52,460 --> 00:59:48,910
so they see see it in its pristine State

1481
00:59:58,620 --> 00:59:52,470
and that includes eventually a hardier

1482
01:00:01,380 --> 00:59:58,630
holder and burns holder calls back to

1483
01:00:02,400 --> 01:00:01,390
his either the First Sergeant or one of

1484
01:00:05,190 --> 01:00:02,410
one of his lieutenant

1485
01:00:06,810 --> 01:00:05,200
and order some MPs out there to cordon

1486
01:00:08,490 --> 01:00:06,820
off the area so they kind of protect the

1487
01:00:11,010 --> 01:00:08,500
area they find the landing traces they

1488
01:00:16,200 --> 01:00:11,020

they stack rocks around that so they

1489

01:00:19,920 --> 01:00:16,210

won't they would remain intact the

1490

01:00:22,080 --> 01:00:19,930

pictures are taken of the scene one of

1491

01:00:24,600 --> 01:00:22,090

the fellows and the name escapes me it's

1492

01:00:26,250 --> 01:00:24,610

in the book took photographs in the

1493

01:00:27,870 --> 01:00:26,260

story is that when the film was

1494

01:00:29,520 --> 01:00:27,880

developed it was fog as if it had been

1495

01:00:32,160 --> 01:00:29,530

spoke exposed to radiation which is

1496

01:00:34,070 --> 01:00:32,170

interesting they did check for radiation

1497

01:00:36,900 --> 01:00:34,080

with Geiger counters and didn't find any

1498

01:00:39,870 --> 01:00:36,910

so uh it was just normal background

1499

01:00:41,460 --> 01:00:39,880

radiation type stuff so they kind of

1500

01:00:43,380 --> 01:00:41,470

cordon off the area they protect the

1501
01:00:44,850 --> 01:00:43,390
scene they take Lonnie back to the

1502
01:00:49,490 --> 01:00:44,860
police station they talked to him they

1503
01:00:51,720 --> 01:00:49,500
talked to Shabbas and as I said Holder

1504
01:00:56,190 --> 01:00:51,730
writes a short report that is

1505
01:00:59,730 --> 01:00:56,200
communicated to the Pentagon and it

1506
01:01:03,450 --> 01:00:59,740
seems that it was not quite clear in the

1507
01:01:05,100 --> 01:01:03,460
documentation whether he called first or

1508
01:01:06,690 --> 01:01:05,110
they called him to talk to him about

1509
01:01:07,770 --> 01:01:06,700
what was going on but anyhow he's in

1510
01:01:10,770 --> 01:01:07,780
communication with people at the

1511
01:01:12,240 --> 01:01:10,780
Pentagon on a secure line one that you

1512
01:01:16,080 --> 01:01:12,250
didn't talk about classified material

1513
01:01:18,300 --> 01:01:16,090

over and the line went dead it had they

1514

01:01:20,280 --> 01:01:18,310

had to reconnect in some fashion but

1515

01:01:23,930 --> 01:01:20,290

holder's report was written that night

1516

01:01:26,250 --> 01:01:23,940

which is important because now we have

1517

01:01:30,330 --> 01:01:26,260

the investigator producing a report

1518

01:01:33,150 --> 01:01:30,340

within hours of the of the landing the

1519

01:01:35,720 --> 01:01:33,160

newspapers get ahold of it they talk

1520

01:01:37,980 --> 01:01:35,730

about it the newspaper in Socorro I

1521

01:01:39,600 --> 01:01:37,990

think was published twice a week at the

1522

01:01:42,390 --> 01:01:39,610

time and the next issue was coming out

1523

01:01:44,070 --> 01:01:42,400

and two on Tuesday they didn't get the

1524

01:01:45,270 --> 01:01:44,080

story didn't publish the story until

1525

01:01:46,650 --> 01:01:45,280

Tuesday but of course they had a lot of

1526

01:01:47,100 --> 01:01:46,660

time to check it but other people know

1527

01:01:49,350 --> 01:01:47,110

about it

1528

01:01:52,500 --> 01:01:49,360

I remember seeing Walter Cronkite talk

1529

01:01:56,820 --> 01:01:52,510

about the case back in 1964 so it was

1530

01:01:58,500 --> 01:01:56,830

national news about that and then you

1531

01:02:00,480 --> 01:01:58,510

had the investigators coming in their

1532

01:02:04,080 --> 01:02:00,490

samples being taken by by various

1533

01:02:06,090 --> 01:02:04,090

individuals ray Stanford took a bunch it

1534

01:02:08,550 --> 01:02:06,100

was kind of interesting is while he was

1535

01:02:14,550 --> 01:02:08,560

out on the scene the landing site with

1536

01:02:18,010 --> 01:02:14,560

the Hynek and in in Zamora and Chavez

1537

01:02:20,950 --> 01:02:18,020

Hynek didn't have anything to collect

1538

01:02:25,120 --> 01:02:20,960

samples him and he borrowed some some

1539

01:02:28,360 --> 01:02:25,130

things from Sam Sanford to collect

1540

01:02:30,400 --> 01:02:28,370

samples but holder had taken samples the

1541

01:02:32,020 --> 01:02:30,410

night of the landing yeah I was trying

1542

01:02:34,090 --> 01:02:32,030

to what what happened to those and if

1543

01:02:35,260 --> 01:02:34,100

you read the Project Blue Book files you

1544

01:02:37,780 --> 01:02:35,270

find out that holder turned all that

1545

01:02:39,550 --> 01:02:37,790

material over to Hynek and then later on

1546

01:02:40,840 --> 01:02:39,560

you find in the project blue blue goo

1547

01:02:42,970 --> 01:02:40,850

files the analysis and they found

1548

01:02:44,560 --> 01:02:42,980

nothing spectacular they didn't find any

1549

01:02:48,280 --> 01:02:44,570

as I said you know I didn't find any

1550

01:02:50,020 --> 01:02:48,290

evidence of any chemical petrochemicals

1551

01:02:51,460 --> 01:02:50,030

or accelerants that would cause the

1552

01:02:53,680 --> 01:02:51,470

burning or anything like that there was

1553

01:02:55,360 --> 01:02:53,690

nothing extraordinary about the soil it

1554

01:02:58,450 --> 01:02:55,370

was just normal New Mexico soro

1555

01:03:01,360 --> 01:02:58,460

soil but samples were taken samples were

1556

01:03:03,460 --> 01:03:01,370

analyzed photographs were taken there's

1557

01:03:06,220 --> 01:03:03,470

good photographs of what the landing pad

1558

01:03:08,200 --> 01:03:06,230

looked like and that's what I think

1559

01:03:10,360 --> 01:03:08,210

Philip Glass you know the great debunker

1560

01:03:18,460 --> 01:03:10,370

and I remember seeing the dark figure

1561

01:03:21,750 --> 01:03:18,470

philip darth darth class he in one of

1562

01:03:24,220 --> 01:03:21,760

his books he had a picture of a

1563

01:03:27,220 --> 01:03:24,230

scrubbing pad with knitting needles

1564

01:03:28,210 --> 01:03:27,230

stuck in it in the relationship of the

1565

01:03:29,590 --> 01:03:28,220

landing gear and he said well the

1566

01:03:31,810 --> 01:03:29,600

landing gears ain't symmetrical and this

1567

01:03:33,940 --> 01:03:31,820

makes no sense I'm thinking a you don't

1568

01:03:35,320 --> 01:03:33,950

know what symmetry is for an alien

1569

01:03:37,210 --> 01:03:35,330

creature they might have been really

1570

01:03:38,470 --> 01:03:37,220

really happy with the way it looked and

1571

01:03:40,090 --> 01:03:38,480

the second thing you didn't do was

1572

01:03:44,140 --> 01:03:40,100

correct for the terrain because it

1573

01:03:45,940 --> 01:03:44,150

wasn't a flat surface there was terrain

1574

01:03:48,370 --> 01:03:45,950

features and so you could say the

1575

01:03:50,280 --> 01:03:48,380

landing gear compensated for the terrain

1576
01:03:53,080 --> 01:03:50,290
so even though the angles looked odd

1577
01:03:54,940 --> 01:03:53,090
when it's based on a flat surface

1578
01:03:56,350 --> 01:03:54,950
if you compensated for it then it would

1579
01:03:57,700 --> 01:03:56,360
be symmetrical and it looks like the

1580
01:03:59,260 --> 01:03:57,710
landing it were pretty much symmetrical

1581
01:04:01,450 --> 01:03:59,270
and the burn area was right in the

1582
01:04:04,360 --> 01:04:01,460
middle of it I cannot understand you

1583
01:04:08,890 --> 01:04:04,370
using a chemical rocket to travel

1584
01:04:11,380 --> 01:04:08,900
interstellar distances but that's just

1585
01:04:13,030 --> 01:04:11,390
me and I I don't understand you know

1586
01:04:14,860 --> 01:04:13,040
there was nothing to suggest this

1587
01:04:17,830 --> 01:04:14,870
chemical rocket that caused it to lift

1588
01:04:21,750 --> 01:04:17,840

off with Aurora left any kind of residue

1589

01:04:23,800 --> 01:04:21,760

behind which is kind of odd as well so

1590

01:04:25,780 --> 01:04:23,810

you know there was those kinds of

1591

01:04:27,130 --> 01:04:25,790

problems well yeah I have that's another

1592

01:04:28,900 --> 01:04:27,140

one of those issues

1593

01:04:31,630 --> 01:04:28,910

and it's just fresh in my mind because I

1594

01:04:35,680 --> 01:04:31,640

entered view dies avian haze last week

1595

01:04:37,420 --> 01:04:35,690

about ancient aliens in the Bible and it

1596

01:04:39,069 --> 01:04:37,430

was that same problem is why why would

1597

01:04:41,920 --> 01:04:39,079

they be descriptions of people using

1598

01:04:43,930 --> 01:04:41,930

rockets and you know why is that you

1599

01:04:46,029 --> 01:04:43,940

know a fair argument I'm not I'm not

1600

01:04:48,160 --> 01:04:46,039

ruling it out but it just seems highly

1601
01:04:52,029 --> 01:04:48,170
unlikely that another civilization came

1602
01:04:54,339 --> 01:04:52,039
here to earth using rock rocketry you

1603
01:04:56,440 --> 01:04:54,349
know we use it to get off the off planet

1604
01:04:59,220 --> 01:04:56,450
but I think if we found a better

1605
01:05:01,870 --> 01:04:59,230
propulsion system we'd be using that

1606
01:05:05,529 --> 01:05:01,880
right I couldn't rule it out but it just

1607
01:05:07,180 --> 01:05:05,539
seems unlikely very unlikely and we all

1608
01:05:08,349 --> 01:05:07,190
that's just yet and but we don't know

1609
01:05:09,549 --> 01:05:08,359
and that's like you know it's kind of a

1610
01:05:11,620 --> 01:05:09,559
question about the cemetery of the

1611
01:05:13,660 --> 01:05:11,630
landing gear and making the point well

1612
01:05:16,329 --> 01:05:13,670
the landing gear wasn't symmetrical ergo

1613
01:05:18,539 --> 01:05:16,339

it was faked because he didn't measure

1614

01:05:20,650 --> 01:05:18,549

things properly when he when he dug the

1615

01:05:22,299 --> 01:05:20,660

the landing gear impressions but of

1616

01:05:23,559 --> 01:05:22,309

course saw compression and everything

1617

01:05:24,819 --> 01:05:23,569

else suggests that these were pressed

1618

01:05:27,339 --> 01:05:24,829

into the soil as opposed to something

1619

01:05:32,710 --> 01:05:27,349

that was excavated but I mean I think

1620

01:05:34,059 --> 01:05:32,720

you know you we don't know what how an

1621

01:05:35,979 --> 01:05:34,069

alien race would think and maybe

1622

01:05:38,920 --> 01:05:35,989

symmetry isn't that important to them

1623

01:05:40,960 --> 01:05:38,930

you would think that you'd want the four

1624

01:05:42,700 --> 01:05:40,970

legs underneath the craft to support the

1625

01:05:44,229 --> 01:05:42,710

weight equally but there might be some

1626

01:05:46,479 --> 01:05:44,239

reason that they don't do that that we

1627

01:05:48,249 --> 01:05:46,489

don't know about I just saw something on

1628

01:05:50,680 --> 01:05:48,259

the Taj Mahal moving into a different

1629

01:05:52,569 --> 01:05:50,690

direction but the point is when you look

1630

01:05:54,039 --> 01:05:52,579

at the big dome at the Taj Mahal you

1631

01:05:57,519 --> 01:05:54,049

think it's symmetrical and it turns out

1632

01:05:59,920 --> 01:05:57,529

it's not it's off by like three feet one

1633

01:06:01,539 --> 01:05:59,930

side bulges and you know out further

1634

01:06:04,150 --> 01:06:01,549

than the other side does you can't see

1635

01:06:06,700 --> 01:06:04,160

it when you look at it but if you

1636

01:06:09,339 --> 01:06:06,710

measure it you find out that it it's not

1637

01:06:10,720 --> 01:06:09,349

completely symmetrical so you know

1638

01:06:12,430 --> 01:06:10,730

looking at it from that point of view

1639

01:06:13,989 --> 01:06:12,440

and saying well the the landing gear

1640

01:06:16,720 --> 01:06:13,999

wasn't symmetrical really doesn't mean

1641

01:06:18,450 --> 01:06:16,730

much there's other factors that need to

1642

01:06:21,910 --> 01:06:18,460

be taken into consideration

1643

01:06:23,970 --> 01:06:21,920

sure in math and physics is ever

1644

01:06:27,640 --> 01:06:23,980

evolving is particularly in space travel

1645

01:06:29,950 --> 01:06:27,650

and I always found it kind of odd I

1646

01:06:33,509 --> 01:06:29,960

don't know the name of the the very

1647

01:06:39,220 --> 01:06:33,519

small division that NASA has where they

1648

01:06:44,740 --> 01:06:39,230

are researching anti-gravity

1649

01:06:45,880 --> 01:06:44,750

propulsion it seems a bit bit odd right

1650

01:06:47,770 --> 01:06:45,890

that they would even have such a

1651

01:06:50,410 --> 01:06:47,780

department did that is apparently

1652

01:06:53,230 --> 01:06:50,420

speculative if it's so speculative why

1653

01:06:55,599 --> 01:06:53,240

do I have anyone looking into it well I

1654

01:06:59,339 --> 01:06:55,609

think theoretically it exists but can we

1655

01:07:02,319 --> 01:06:59,349

can we create something that that uses

1656

01:07:05,470 --> 01:07:02,329

an antigravity famiyy well I guess a

1657

01:07:07,089 --> 01:07:05,480

similar thing would be a anti-magnetic

1658

01:07:10,150 --> 01:07:07,099

you know you get the two poles together

1659

01:07:12,039 --> 01:07:10,160

and they'll repel each other and so

1660

01:07:16,720 --> 01:07:12,049

maybe gravity works in a similar fashion

1661

01:07:21,130 --> 01:07:16,730

and you can use that to to move off

1662

01:07:22,569 --> 01:07:21,140

planets to your bigger ships yeah it

1663

01:07:25,000 --> 01:07:22,579

doesn't seem possible that the craft

1664

01:07:27,130 --> 01:07:25,010

that Zamora saw would have been an

1665

01:07:29,710 --> 01:07:27,140

interstellar craft but then again we

1666

01:07:32,260 --> 01:07:29,720

don't know because we don't know the

1667

01:07:34,270 --> 01:07:32,270

dynamics of interstellar flight it may

1668

01:07:37,780 --> 01:07:34,280

be once you know the secrets it's very

1669

01:07:39,730 --> 01:07:37,790

very simple and not time-consuming where

1670

01:07:42,339 --> 01:07:39,740

we stand in the world today we don't

1671

01:07:45,039 --> 01:07:42,349

know that if we we just got our probe

1672

01:07:48,069 --> 01:07:45,049

Voyager outside the limits of the solar

1673

01:07:51,460 --> 01:07:48,079

system I think they they now claim the

1674

01:07:53,460 --> 01:07:51,470

solar system is is out about a Lightyear

1675

01:07:55,390 --> 01:07:53,470

from the Sun the Sun you know

1676
01:07:57,760 --> 01:07:55,400
gravitational influence goes out about a

1677
01:08:00,220 --> 01:07:57,770
light year in Voyager just move beyond

1678
01:08:04,720 --> 01:08:00,230
that point and it's been traveling since

1679
01:08:07,030 --> 01:08:04,730
the mid 1970s and it didn't have to

1680
01:08:08,620 --> 01:08:07,040
traverse the whole Lightyear it only had

1681
01:08:11,410 --> 01:08:08,630
to move outside the gravitational

1682
01:08:13,329 --> 01:08:11,420
influence of the of the Sun and I think

1683
01:08:17,289 --> 01:08:13,339
they talked about it being able to reach

1684
01:08:20,249 --> 01:08:17,299
the nearest star in 86,000 years that's

1685
01:08:24,099 --> 01:08:20,259
a long trip if there is no way to

1686
01:08:25,390 --> 01:08:24,109
short-circuit the distances I don't see

1687
01:08:27,430 --> 01:08:25,400
us making much in the way of

1688
01:08:29,110 --> 01:08:27,440

interstellar flight if there are ways to

1689

01:08:31,360 --> 01:08:29,120

search short circuit that we don't

1690

01:08:33,099 --> 01:08:31,370

understand and it may have to do with

1691

01:08:34,959 --> 01:08:33,109

gravity it may have to do with wormholes

1692

01:08:39,700 --> 01:08:34,969

it may have to do with being able to

1693

01:08:42,789 --> 01:08:39,710

develop faster than light drive then you

1694

01:08:45,789 --> 01:08:42,799

know those arguments kind of fly out the

1695

01:08:48,130 --> 01:08:45,799

window the thing I think of is it's

1696

01:08:50,829 --> 01:08:48,140

easier to fly from New York to Los

1697

01:08:53,030 --> 01:08:50,839

Angeles than it is from say Des Moines

1698

01:08:55,180 --> 01:08:53,040

Iowa to Los Angeles

1699

01:08:58,309 --> 01:08:55,190

New York as she end up having to go

1700

01:09:01,220 --> 01:08:58,319

bizarre directions I I took a trip from

1701

01:09:03,829 --> 01:09:01,230

Cedar Rapids Iowa to Los Angeles and to

1702

01:09:06,950 --> 01:09:03,839

get there I had to fly to Cincinnati

1703

01:09:08,720 --> 01:09:06,960

yeah and that's like you know at 90

1704

01:09:11,210 --> 01:09:08,730

minutes in the wrong direction and you

1705

01:09:13,910 --> 01:09:11,220

get on a plane and Cincinnati then you

1706

01:09:15,800 --> 01:09:13,920

start flying back West and so after an

1707

01:09:18,620 --> 01:09:15,810

hour after three hours on the airplane

1708

01:09:22,039 --> 01:09:18,630

I'm back to where I started now we can

1709

01:09:24,170 --> 01:09:22,049

go on to LA but if I'm in New York I

1710

01:09:26,750 --> 01:09:24,180

get to get the LA a lot faster because

1711

01:09:29,090 --> 01:09:26,760

there's all these direct flights there

1712

01:09:31,039 --> 01:09:29,100

may be some kind of mechanism that the

1713

01:09:34,280 --> 01:09:31,049

farther the distance the you know the

1714

01:09:37,640 --> 01:09:34,290

easier it is to get there there may be

1715

01:09:39,440 --> 01:09:37,650

ways of of short-circuiting the

1716

01:09:43,190 --> 01:09:39,450

distances that we don't understand I

1717

01:09:44,780 --> 01:09:43,200

don't know and that we see or just go

1718

01:09:46,820 --> 01:09:44,790

sad we suggest the difference in the

1719

01:09:49,849 --> 01:09:46,830

kind of craft you wouldn't have the big

1720

01:09:52,610 --> 01:09:49,859

aircraft carrier type things flying

1721

01:09:55,160 --> 01:09:52,620

around you you could get get there like

1722

01:09:57,800 --> 01:09:55,170

in your personal car I think I mean

1723

01:10:01,700 --> 01:09:57,810

something smaller than then these huge

1724

01:10:04,310 --> 01:10:01,710

huge ships right and I'm wondering gee

1725

01:10:06,950 --> 01:10:04,320

blue flames that are reported in

1726

01:10:10,100 --> 01:10:06,960

multiple cases that you reference to in

1727

01:10:12,650 --> 01:10:10,110

this book are those what are those new

1728

01:10:14,960 --> 01:10:12,660

frames are they misinterpreted lights or

1729

01:10:17,150 --> 01:10:14,970

people actually seeing flames of their

1730

01:10:18,710 --> 01:10:17,160

flames their flames their flames their

1731

01:10:21,350 --> 01:10:18,720

flames and some of them are tinged with

1732

01:10:25,370 --> 01:10:21,360

orange and some of them are not but no

1733

01:10:27,620 --> 01:10:25,380

it's actual flames and I think in

1734

01:10:30,410 --> 01:10:27,630

holders report if I remember correctly

1735

01:10:31,790 --> 01:10:30,420

he doesn't really give numbers he talks

1736

01:10:33,710 --> 01:10:31,800

about the three people who called the

1737

01:10:35,600 --> 01:10:33,720

police but he says they reported flames

1738

01:10:37,400 --> 01:10:35,610

in the sky or they reported an object

1739

01:10:39,320 --> 01:10:37,410

but he doesn't say you know three two

1740

01:10:40,520 --> 01:10:39,330

people reported flames one person

1741

01:10:42,110 --> 01:10:40,530

reported an object or anything like that

1742

01:10:45,050 --> 01:10:42,120

he just reports you know they saw flames

1743

01:10:51,050 --> 01:10:45,060

and the object so which would it be a

1744

01:10:53,240 --> 01:10:51,060

nice thing to know too but so we don't

1745

01:10:56,180 --> 01:10:53,250

really know anything about that and what

1746

01:10:57,830 --> 01:10:56,190

what the purpose of the flame was I just

1747

01:11:00,320 --> 01:10:57,840

wonder you know when they say flames was

1748

01:11:03,380 --> 01:11:00,330

it like when a rocket was the flames

1749

01:11:05,430 --> 01:11:03,390

coming out of a jet you know was it what

1750

01:11:07,980 --> 01:11:05,440

you know what kind of flames are

1751

01:11:10,740 --> 01:11:07,990

without me imagine well that's the I

1752

01:11:12,270 --> 01:11:10,750

think if you see a jet in the Twilight

1753

01:11:14,610 --> 01:11:12,280

or at night you can often see the blue

1754

01:11:16,320 --> 01:11:14,620

flames out the back of them I'm thinking

1755

01:11:18,030 --> 01:11:16,330

specifically fighter planes as opposed

1756

01:11:19,530 --> 01:11:18,040

to passenger jets but you can see the

1757

01:11:21,270 --> 01:11:19,540

flames out to the back of those things

1758

01:11:23,120 --> 01:11:21,280

that you normally can't say especially

1759

01:11:27,360 --> 01:11:23,130

if they go to afterburners you get the

1760

01:11:30,300 --> 01:11:27,370

big big flame out the back but I don't

1761

01:11:32,790 --> 01:11:30,310

know anything about the propulsion

1762

01:11:34,920 --> 01:11:32,800

system at all I can tell you is this is

1763

01:11:37,830 --> 01:11:34,930

what was reported it makes little sense

1764

01:11:40,590 --> 01:11:37,840

to me because I would think that they

1765

01:11:42,060 --> 01:11:40,600

would have something more advanced than

1766

01:11:44,130 --> 01:11:42,070

a chemical rocket to lift off the

1767

01:11:46,620 --> 01:11:44,140

surface of a planet but maybe they found

1768

01:11:48,900 --> 01:11:46,630

that's the best way to do it you know

1769

01:11:52,080 --> 01:11:48,910

maybe just just for liftoff and then

1770

01:11:56,670 --> 01:11:52,090

once there's gravity free then they have

1771

01:11:59,010 --> 01:11:56,680

a motion that they would use yeah I just

1772

01:12:01,170 --> 01:11:59,020

we don't know I mean we have we have the

1773

01:12:03,630 --> 01:12:01,180

blue flames out of our Rockets until we

1774

01:12:05,250 --> 01:12:03,640

get to get the spacecraft up into orbit

1775

01:12:07,080 --> 01:12:05,260

and then they shut it off you know and

1776

01:12:08,550 --> 01:12:07,090

they just hit it when they need to make

1777

01:12:10,680 --> 01:12:08,560

corrections and things and maybe that

1778

01:12:12,360 --> 01:12:10,690

maybe that's the best way they found to

1779

01:12:14,070 --> 01:12:12,370

get off a planet's surface and back to

1780

01:12:16,110 --> 01:12:14,080

the main ship or something I don't know

1781

01:12:17,940 --> 01:12:16,120

yeah and that would be the same with

1782

01:12:20,280 --> 01:12:17,950

solar sails right I mean it's a more

1783

01:12:23,310 --> 01:12:20,290

efficient way of traveling interstellar

1784

01:12:25,470 --> 01:12:23,320

Li and that seems to be the route a lot

1785

01:12:27,150 --> 01:12:25,480

of research is going now and it's the

1786

01:12:29,340 --> 01:12:27,160

same idea you're gonna use a secondary

1787

01:12:33,570 --> 01:12:29,350

propulsion system once you're in in

1788

01:12:35,880 --> 01:12:33,580

space and free of gravity so I I do want

1789

01:12:37,020 --> 01:12:35,890

to talk about before you know time

1790

01:12:41,220 --> 01:12:37,030

catches up with us we still have a

1791

01:12:44,220 --> 01:12:41,230

little little ways to go but the symbol

1792

01:12:47,730 --> 01:12:44,230

that Lonnie is Amara reported on the

1793

01:12:48,230 --> 01:12:47,740

craft now he was told by was a Colonel

1794

01:12:53,910 --> 01:12:48,240

holder

1795

01:12:56,520 --> 01:12:53,920

from a story for investigative purposes

1796

01:12:58,770 --> 01:12:56,530

to find out if anyone else had reported

1797

01:13:01,080 --> 01:12:58,780

the same thing without their version of

1798

01:13:05,030 --> 01:13:01,090

this story being influenced by reports

1799

01:13:08,040 --> 01:13:05,040

of his own so what did he actually see

1800

01:13:10,770 --> 01:13:08,050

well first I would say that that I think

1801

01:13:12,180 --> 01:13:10,780

holder made a suggestion as opposed to

1802

01:13:14,820 --> 01:13:12,190

making an order I think it was a

1803

01:13:16,980 --> 01:13:14,830

suggestion and I make and I make that

1804

01:13:18,209 --> 01:13:16,990

distinction simply because in the UFO

1805

01:13:20,459 --> 01:13:18,219

field as you know there's a great deal

1806

01:13:22,620 --> 01:13:20,469

paranoia and the idea that holder

1807

01:13:24,000 --> 01:13:22,630

ordered him not to mention the symbol is

1808

01:13:26,700 --> 01:13:24,010

different than suggesting don't mention

1809

01:13:28,739 --> 01:13:26,710

it and gave him the reasons and not only

1810

01:13:32,189 --> 01:13:28,749

did the Mora agree but the Lorenz ins

1811

01:13:34,680 --> 01:13:32,199

who were the great UFO researchers from

1812

01:13:37,020 --> 01:13:34,690

a pro thought it was a fine idea as well

1813

01:13:39,870 --> 01:13:37,030

but what is a Mora saw what he drew

1814

01:13:43,620 --> 01:13:39,880

within literally seconds of the craft

1815

01:13:45,719 --> 01:13:43,630

lifting off was an arc with a V

1816

01:13:48,000 --> 01:13:45,729

underneath it and aligned down so it

1817

01:13:50,759 --> 01:13:48,010

looks like a Arrowhead in a line across

1818

01:13:54,000 --> 01:13:50,769

the bottom in red that's what Liz amauro

1819

01:13:56,120 --> 01:13:54,010

drew on the scrap of paper he had and

1820

01:14:01,049 --> 01:13:56,130

then a couple of hours later drew for

1821

01:14:06,830 --> 01:14:01,059

holder and then signed it in the files

1822

01:14:09,060 --> 01:14:06,840

that Mercer found there were two cards

1823

01:14:10,200 --> 01:14:09,070

one of them one of them looks like the

1824

01:14:12,120 --> 01:14:10,210

neither version if somebody made a

1825

01:14:14,399 --> 01:14:12,130

handwritten notation and somebody put

1826
01:14:16,140 --> 01:14:14,409
made a neater version of it but what it

1827
01:14:19,319 --> 01:14:16,150
showed there was an inverted V with

1828
01:14:21,779 --> 01:14:19,329
three lines through it which is also in

1829
01:14:25,410 --> 01:14:21,789
red and that was reported in the

1830
01:14:28,919 --> 01:14:25,420
newspapers if you go through the project

1831
01:14:30,359 --> 01:14:28,929
Bluebook file cases you can see what I

1832
01:14:32,580 --> 01:14:30,369
call the umbrella symbol which is the

1833
01:14:34,649 --> 01:14:32,590
arc over the basically the arrowhead

1834
01:14:37,770 --> 01:14:34,659
with the line underneath or Azana line

1835
01:14:40,410 --> 01:14:37,780
underneath it that's reported throughout

1836
01:14:42,029 --> 01:14:40,420
the file the only place the inverted V

1837
01:14:45,839 --> 01:14:42,039
with the three line through it is in the

1838
01:14:47,310 --> 01:14:45,849

subsequent file that Mercer found but it

1839

01:14:48,839 --> 01:14:47,320

looks like it's a newspaper report and

1840

01:14:50,310 --> 01:14:48,849

if you go back to the newspapers that's

1841

01:14:53,310 --> 01:14:50,320

the symbol that's being reported in the

1842

01:14:57,029 --> 01:14:53,320

newspapers ray Stanford in a letter to

1843

01:15:00,419 --> 01:14:57,039

dick Hall in May of 1964 so it's within

1844

01:15:02,399 --> 01:15:00,429

weeks of the sighting I think was within

1845

01:15:04,950 --> 01:15:02,409

two weeks of the sighting who said that

1846

01:15:06,779 --> 01:15:04,960

if you if you've got the the arc the

1847

01:15:09,149 --> 01:15:06,789

umbrella symbol that's the correct

1848

01:15:11,100 --> 01:15:09,159

symbol and the inverted V with the three

1849

01:15:14,069 --> 01:15:11,110

lines to it is the fake symbol the the

1850

01:15:16,830 --> 01:15:14,079

hoax symbol in his book ten years later

1851

01:15:18,719 --> 01:15:16,840

he reverses that says that the the arc

1852

01:15:20,520 --> 01:15:18,729

symbol is the fake one and the inverted

1853

01:15:22,680 --> 01:15:20,530

V is there's the real one

1854

01:15:24,390 --> 01:15:22,690

I think the preponderance of the

1855

01:15:26,009 --> 01:15:24,400

evidence and this is based on the the

1856

01:15:27,959 --> 01:15:26,019

official project Bluebook files and

1857

01:15:31,980 --> 01:15:27,969

there's a number of people who reported

1858

01:15:35,540 --> 01:15:31,990

on it drew the symbol also

1859

01:15:38,430 --> 01:15:35,550

as in in the files and I think because

1860

01:15:41,910 --> 01:15:38,440

their expectation was the files wouldn't

1861

01:15:44,280 --> 01:15:41,920

be released publicly they felt confident

1862

01:15:46,110 --> 01:15:44,290

of putting that umbrella symbol in the

1863

01:15:48,180 --> 01:15:46,120

in the file this is the correct symbol

1864

01:15:50,010 --> 01:15:48,190

and that's and it seems to be all the

1865

01:15:51,540 --> 01:15:50,020

way through the files of that until you

1866

01:15:54,030 --> 01:15:51,550

get to a letter written by Hynek in

1867

01:15:56,040 --> 01:15:54,040

September there he's got an inverted V

1868

01:15:57,870 --> 01:15:56,050

but he's got a line over the point and

1869

01:15:59,580 --> 01:15:57,880

two lines between the legs which is not

1870

01:16:04,080 --> 01:15:59,590

the same symbol that everybody else is

1871

01:16:08,580 --> 01:16:04,090

talking about but in another document by

1872

01:16:10,800 --> 01:16:08,590

I think was Jenny's I'd Minh I forget I

1873

01:16:14,040 --> 01:16:10,810

forget but you know it's it's reported

1874

01:16:19,620 --> 01:16:14,050

in the book Hynek was discussing a lot

1875

01:16:20,880 --> 01:16:19,630

of these points with her and he pointed

1876

01:16:22,920 --> 01:16:20,890

out that the new what the newspaper

1877

01:16:24,630 --> 01:16:22,930

symbol was in there which was the

1878

01:16:25,260 --> 01:16:24,640

inverted fee with the three three lines

1879

01:16:26,970 --> 01:16:25,270

or so I think

1880

01:16:28,950 --> 01:16:26,980

Hynek got confused later on about

1881

01:16:30,420 --> 01:16:28,960

exactly what the symbol was but it seems

1882

01:16:33,360 --> 01:16:30,430

a preponderance of the evidence and the

1883

01:16:34,890 --> 01:16:33,370

ones that is a more assigned is the

1884

01:16:37,290 --> 01:16:34,900

umbrella symbol and I would and I think

1885

01:16:38,550 --> 01:16:37,300

given that is a more assignment that's

1886

01:16:40,710 --> 01:16:38,560

the one that's in the project Bluebook

1887

01:16:43,860 --> 01:16:40,720

files the official files I think that's

1888

01:16:46,050 --> 01:16:43,870

that's the symbol that he saw yeah I

1889

01:16:47,400 --> 01:16:46,060

think that absolutely makes sense and

1890

01:16:50,340 --> 01:16:47,410

then of course that we said the other

1891

01:16:52,160 --> 01:16:50,350

reason for not sharing certain

1892

01:16:54,630 --> 01:16:52,170

information such as the

1893

01:16:57,750 --> 01:16:54,640

extraterrestrials or beings or whatever

1894

01:17:02,310 --> 01:16:57,760

he thinks he saw was sort of detect his

1895

01:17:04,520 --> 01:17:02,320

own integrity and to prevent any public

1896

01:17:08,370 --> 01:17:04,530

shaming and to protect his reputation

1897

01:17:11,310 --> 01:17:08,380

what did he actually see look let me

1898

01:17:13,860 --> 01:17:11,320

make a comment here if we if he had seen

1899

01:17:16,620 --> 01:17:13,870

this object in today's environment the

1900

01:17:18,330 --> 01:17:16,630

Twitterverse would have exploded and

1901

01:17:21,210 --> 01:17:18,340

everybody would have an opinion no

1902

01:17:22,470 --> 01:17:21,220

matter how uninformed that opinion is

1903

01:17:24,270 --> 01:17:22,480

there everybody would have an opinion

1904

01:17:26,310 --> 01:17:24,280

but what he really saw what he was

1905

01:17:28,980 --> 01:17:26,320

really doing and it and eventually it

1906

01:17:30,180 --> 01:17:28,990

would be Trump's fault you know somebody

1907

01:17:31,800 --> 01:17:30,190

would make that comment and then

1908

01:17:33,690 --> 01:17:31,810

somebody say well it's really Hillary at

1909

01:17:40,260 --> 01:17:33,700

Bill's fault and he would just go up

1910

01:17:42,210 --> 01:17:40,270

smart Kent but I just wanted I just

1911

01:17:45,410 --> 01:17:42,220

wanted to say that because I think it

1912

01:17:47,930 --> 01:17:45,420

was you know important that

1913

01:17:50,240 --> 01:17:47,940

we discuss that we make that distinction

1914

01:17:52,310 --> 01:17:50,250

anyway what he talked about he talked

1915

01:17:53,690 --> 01:17:52,320

about if you look at the newspaper

1916

01:17:55,460 --> 01:17:53,700

reports a lot of them say he just saw

1917

01:17:57,590 --> 01:17:55,470

white coveralls he didn't really see any

1918

01:17:59,990 --> 01:17:57,600

beings he just saw white coveralls I

1919

01:18:01,820 --> 01:18:00,000

think that was a way of kind of amending

1920

01:18:03,800 --> 01:18:01,830

what he had seen because he described it

1921

01:18:06,920 --> 01:18:03,810

elsewhere he described him as as

1922

01:18:08,180 --> 01:18:06,930

humanoids there was clearly something in

1923

01:18:09,980 --> 01:18:08,190

the coveralls they weren't floating

1924

01:18:12,380 --> 01:18:09,990

around but he doesn't give an elaborate

1925

01:18:14,360 --> 01:18:12,390

descriptions of what he had seen but he

1926

01:18:15,650 --> 01:18:14,370

talks about them being beings he talks

1927

01:18:17,540 --> 01:18:15,660

about he mentions them being people

1928

01:18:20,210 --> 01:18:17,550

actually ray stanford and i got into an

1929

01:18:22,100 --> 01:18:20,220

argument this not about a big argument

1930

01:18:23,450 --> 01:18:22,110

about this that that one is immoral

1931

01:18:25,670 --> 01:18:23,460

never said people and I said I got a

1932

01:18:27,200 --> 01:18:25,680

transcript right here from the files of

1933

01:18:29,300 --> 01:18:27,210

guys talking to him and he's writing

1934

01:18:30,500 --> 01:18:29,310

down with Lonnie said he says people he

1935

01:18:32,150 --> 01:18:30,510

said well do you have a tape and I'm

1936

01:18:33,790 --> 01:18:32,160

thinking I don't need a tape for a

1937

01:18:37,730 --> 01:18:33,800

transcript if I'm talking to the guy

1938

01:18:39,290 --> 01:18:37,740

anyway so he talked about him being

1939

01:18:41,330 --> 01:18:39,300

people he said they were about the size

1940

01:18:43,850 --> 01:18:41,340

of small and that small small adult

1941

01:18:46,010 --> 01:18:43,860

small adults or children so they weren't

1942

01:18:48,440 --> 01:18:46,020

very big they were humanoid two arms two

1943

01:18:50,330 --> 01:18:48,450

legs one head that kind of thing didn't

1944

01:18:52,240 --> 01:18:50,340

see a lot of features didn't see a lot

1945

01:18:54,980 --> 01:18:52,250

that he described I think part of that

1946

01:18:58,400 --> 01:18:54,990

lack of description now comes about

1947

01:19:01,520 --> 01:18:58,410

because of what Burns had said to him

1948

01:19:05,960 --> 01:19:01,530

about not talking about it and

1949

01:19:09,230 --> 01:19:05,970

interestingly when when the lorens ins

1950

01:19:11,360 --> 01:19:09,240

talked to Zamora about it he would

1951

01:19:14,270 --> 01:19:11,370

describe the beings and and and it's in

1952

01:19:16,730 --> 01:19:14,280

the April 1960 I'm sorry May 1964 issue

1953

01:19:18,980 --> 01:19:16,740

of the APRA bulletin he there's a long

1954

01:19:20,210 --> 01:19:18,990

story about Zamora of course and when

1955

01:19:21,590 --> 01:19:20,220

they asked him about the symbol he

1956

01:19:23,090 --> 01:19:21,600

refused to talk about that but he would

1957

01:19:24,380 --> 01:19:23,100

but he didn't tell him a little bit

1958

01:19:26,660 --> 01:19:24,390

about the beings but didn't give a lot

1959

01:19:30,350 --> 01:19:26,670

of description the other interesting

1960

01:19:32,960 --> 01:19:30,360

thing about that issue is there's a

1961

01:19:35,630 --> 01:19:32,970

drawing was made by Rick Baca based on

1962

01:19:38,330 --> 01:19:35,640

what Lonnie Zamora said so Mora had gone

1963

01:19:41,240 --> 01:19:38,340

to the city attorney after the sighting

1964

01:19:42,740 --> 01:19:41,250

to make sure that he wasn't doing

1965

01:19:45,860 --> 01:19:42,750

anything that would get him get him into

1966

01:19:49,100 --> 01:19:45,870

trouble with the city and Ric bakas

1967

01:19:51,770 --> 01:19:49,110

father was like a paralegal in the

1968

01:19:56,299 --> 01:19:51,780

office so Ric Baca who was only 14 at

1969

01:19:58,969 --> 01:19:56,309

the time and something of an artist

1970

01:20:01,969 --> 01:19:58,979

draws the the object as it was seen by

1971

01:20:03,229 --> 01:20:01,979

Lonnie Zamora with the the way the

1972

01:20:05,660 --> 01:20:03,239

landing gear wearing all of this stuff

1973

01:20:07,669 --> 01:20:05,670

the drawing has shown to Zamora and he

1974

01:20:09,830 --> 01:20:07,679

said is it right and then he takes a pen

1975

01:20:12,229 --> 01:20:09,840

and he draws the symbol on it the

1976

01:20:13,549 --> 01:20:12,239

drawings that appeared in the defense

1977

01:20:15,500 --> 01:20:13,559

are chiefed and the Socorro newspaper

1978

01:20:18,410 --> 01:20:15,510

doesn't have the symbol on it the

1979

01:20:20,660 --> 01:20:18,420

drawing as it appears in the APRA

1980

01:20:21,709 --> 01:20:20,670

bulletin does have the symbol on it so I

1981

01:20:26,290 --> 01:20:21,719

thought that was kind of interesting

1982

01:20:32,180 --> 01:20:30,469

well the Lorenz ins had a habit of you

1983

01:20:34,069 --> 01:20:32,190

know the May issue of the bulletin

1984

01:20:37,580 --> 01:20:34,079

might've come out in July they were

1985

01:20:38,930 --> 01:20:37,590

always late on this sort of thing so but

1986

01:20:40,580 --> 01:20:38,940

but they had the right they had the

1987

01:20:43,520 --> 01:20:40,590

symbol on the drawing and it's the same

1988

01:20:44,330 --> 01:20:43,530

drawing that Rick Baca had made I talked

1989

01:20:46,609 --> 01:20:44,340
to Rick Baca

1990

01:20:49,520 --> 01:20:46,619
yes I wasn't asked what sort of

1991

01:20:51,739 --> 01:20:49,530
resources did Lorenz ins have to do the

1992

01:20:54,709 --> 01:20:51,749
investigations that they did time and

1993

01:20:56,600 --> 01:20:54,719
money etc oh they were investing their

1994

01:20:59,270 --> 01:20:56,610
own time and money in it at the time

1995

01:21:01,040 --> 01:20:59,280
that couldn't always be there you know

1996

01:21:03,890 --> 01:21:01,050
split-second Efrain have been happened

1997

01:21:05,359 --> 01:21:03,900
they tried when it was an event like

1998

01:21:07,040 --> 01:21:05,369
this they tried to either get there

1999

01:21:10,160 --> 01:21:07,050
later on they would dispatch field

2000

01:21:12,439 --> 01:21:10,170
investigators to the scene as quickly as

2001
01:21:15,259 --> 01:21:12,449
they could do that but the interesting

2002
01:21:17,060 --> 01:21:15,269
thing was they lived in Tucson and I

2003
01:21:19,040 --> 01:21:17,070
think that they got there Sunday

2004
01:21:20,479 --> 01:21:19,050
afternoon again the thing took place on

2005
01:21:23,479 --> 01:21:20,489
a Friday evening they were there on

2006
01:21:26,089 --> 01:21:23,489
Sunday they couldn't get there Saturday

2007
01:21:27,620 --> 01:21:26,099
because they were making arrangements

2008
01:21:31,189 --> 01:21:27,630
for things that they had to do so they

2009
01:21:33,950 --> 01:21:31,199
could get out of town and get to 2 to

2010
01:21:35,479 --> 01:21:33,960
Socorro but they were there within 48

2011
01:21:37,339 --> 01:21:35,489
hours of the sighting and talking to

2012
01:21:39,500 --> 01:21:37,349
Zamora talking to Chavez and talking to

2013
01:21:42,729 --> 01:21:39,510

the people what's the kind they tell a

2014

01:21:46,399 --> 01:21:42,739

story in in the APRA bulletin about how

2015

01:21:51,080 --> 01:21:46,409

jim Lorenzen was in a hallway and moody

2016

01:21:52,160 --> 01:21:51,090

who was the air force investigator was

2017

01:21:53,870 --> 01:21:52,170

there and he was talking to some other

2018

01:21:54,919 --> 01:21:53,880

people that Lorenson was listening in I

2019

01:21:57,709 --> 01:21:54,929

mean they were standing and listening

2020

01:22:01,520 --> 01:21:57,719

and moody says yeah we got a problem

2021

01:22:03,770 --> 01:22:01,530

this about this Lorenzen woman he's

2022

01:22:05,330 --> 01:22:03,780

she's a she's a nut with you know Jim

2023

01:22:07,040 --> 01:22:05,340

standing right there listening to that

2024

01:22:09,290 --> 01:22:07,050

so it gives you an idea of what the

2025

01:22:09,740 --> 01:22:09,300

airforce investigator thought of coral

2026

01:22:12,020 --> 01:22:09,750

resin

2027

01:22:13,940 --> 01:22:12,030

I thought I I mean I knew Kohler rensen

2028

01:22:17,360 --> 01:22:13,950

and I did visit him at their home and in

2029

01:22:20,270 --> 01:22:17,370

the Tucson and things like that they

2030

01:22:22,250 --> 01:22:20,280

believed sincerely in the

2031

01:22:25,400 --> 01:22:22,260

extraterrestrial explanation of stuff

2032

01:22:27,740 --> 01:22:25,410

they were more willing to accept cases

2033

01:22:32,450 --> 01:22:27,750

of the really bizarre than saying I cap

2034

01:22:33,650 --> 01:22:32,460

was or the Air Force with my cap in the

2035

01:22:35,270 --> 01:22:33,660

air force if you saw the thing in the

2036

01:22:36,770 --> 01:22:35,280

sky that was okay if you saw it on the

2037

01:22:38,510 --> 01:22:36,780

ground well that's you know you're

2038

01:22:40,210 --> 01:22:38,520

getting a little bizarre and if you saw

2039

01:22:43,160 --> 01:22:40,220

something from inside of it you were

2040

01:22:45,200 --> 01:22:43,170

psychologically damaged in some fashion

2041

01:22:48,230 --> 01:22:45,210

for the most part which is you know an

2042

01:22:50,840 --> 01:22:48,240

another indication of the credibility of

2043

01:22:55,520 --> 01:22:50,850

the Socorro case is that quintanilla who

2044

01:22:56,960 --> 01:22:55,530

wanted badly to solve the case

2045

01:22:59,900 --> 01:22:56,970

couldn't do it and he had to market

2046

01:23:02,720 --> 01:22:59,910

unidentified and he and he said in his

2047

01:23:04,580 --> 01:23:02,730

own memoirs you know the ub UFO hobby

2048

01:23:06,080 --> 01:23:04,590

hobbyists would have a field day with

2049

01:23:08,480 --> 01:23:06,090

this explanation but he couldn't find an

2050

01:23:10,700 --> 01:23:08,490

explanation and if there was a hint of

2051
01:23:14,660 --> 01:23:10,710
an explanation he would have jumped all

2052
01:23:16,370 --> 01:23:14,670
over it an accurate information a solid

2053
01:23:17,980 --> 01:23:16,380
explanation he would have jumped all

2054
01:23:21,860 --> 01:23:17,990
over it

2055
01:23:26,450 --> 01:23:21,870
were they quirky characters or they you

2056
01:23:28,280 --> 01:23:26,460
know no they were they were just like

2057
01:23:31,070 --> 01:23:28,290
anybody else who started an organization

2058
01:23:36,380 --> 01:23:31,080
to investigate UFOs they they were nice

2059
01:23:38,090 --> 01:23:36,390
down-to-earth people I know that Jim

2060
01:23:40,280 --> 01:23:38,100
Lorenzen called me one night to dispatch

2061
01:23:42,050 --> 01:23:40,290
me on a cattle mutilation investigation

2062
01:23:44,180 --> 01:23:42,060
in Minnesota which I wasn't delighted

2063
01:23:46,580 --> 01:23:44,190

about doing because it didn't seem that

2064

01:23:48,140 --> 01:23:46,590

it was driven by aliens but something

2065

01:23:51,680 --> 01:23:48,150

else and I didn't want to get tangled up

2066

01:23:53,000 --> 01:23:51,690

with the something else but that's what

2067

01:23:57,950 --> 01:23:53,010

they would do they would call their

2068

01:23:59,870 --> 01:23:57,960

field investigators to have them look at

2069

01:24:02,390 --> 01:23:59,880

cases if they found an explanation for a

2070

01:24:05,740 --> 01:24:02,400

case they were they would print it I had

2071

01:24:08,990 --> 01:24:05,750

done a story in saga magazine back in

2072

01:24:15,040 --> 01:24:09,000

1976 I think it was about the Dion zeal

2073

01:24:19,280 --> 01:24:15,050

Janka case who was a Argentine I think a

2074

01:24:20,880 --> 01:24:19,290

South American who had been abducted as

2075

01:24:22,320 --> 01:24:20,890

you'd and

2076

01:24:24,120 --> 01:24:22,330

[Music]

2077

01:24:25,770 --> 01:24:24,130

I had gotten the information from the

2078

01:24:28,080 --> 01:24:25,780

resins and after you know after a couple

2079

01:24:30,470 --> 01:24:28,090

of years call said to me you know you

2080

01:24:34,620 --> 01:24:30,480

know that that case is probably a hoax

2081

01:24:36,900 --> 01:24:34,630

so they weren't they didn't object to

2082

01:24:39,480 --> 01:24:36,910

labeling a case of hoax if if they found

2083

01:24:42,000 --> 01:24:39,490

the explanation but they're biased

2084

01:24:44,610 --> 01:24:42,010

tended toward the extra trust you can

2085

01:24:46,640 --> 01:24:44,620

point to a lot of people who's biased

2086

01:24:50,100 --> 01:24:46,650

lean one way or another depending on

2087

01:24:51,360 --> 01:24:50,110

their orientation so I don't I don't

2088

01:24:54,180 --> 01:24:51,370

hold that up against them they were they

2089

01:24:57,320 --> 01:24:54,190

were they devote a lot of time and

2090

01:24:59,490 --> 01:24:57,330

energy and financial resources to

2091

01:25:01,350 --> 01:24:59,500

investigating UFOs and I don't think the

2092

01:25:05,700 --> 01:25:01,360

APRA bulletin paid them all that much

2093

01:25:07,170 --> 01:25:05,710

money to to do the research I'm sure

2094

01:25:10,410 --> 01:25:07,180

that they were spending a lot of money

2095

01:25:12,480 --> 01:25:10,420

out of pocket on on their research and I

2096

01:25:14,190 --> 01:25:12,490

you know you you look at you can point

2097

01:25:15,630 --> 01:25:14,200

to any MUFON investigator well not to

2098

01:25:17,340 --> 01:25:15,640

any but you can point to a lot of the

2099

01:25:19,110 --> 01:25:17,350

MUFON investigators today are the same

2100

01:25:20,730 --> 01:25:19,120

and they're they're very good solid

2101
01:25:23,280 --> 01:25:20,740
people who are spending their their own

2102
01:25:27,000 --> 01:25:23,290
money to do research hoping to get some

2103
01:25:28,980 --> 01:25:27,010
kind of answer and proof and that's that

2104
01:25:31,110 --> 01:25:28,990
that's where the Lorenzo's work ok well

2105
01:25:33,180 --> 01:25:31,120
let's hold it there we are on the third

2106
01:25:35,100 --> 01:25:33,190
and final break of paranoia now on the

2107
01:25:37,620 --> 01:25:35,110
inception radio network and we will

2108
01:25:39,339 --> 01:25:37,630
continue the story of Socorro landing in

2109
01:25:41,260 --> 01:25:39,349
New Mexico and

2110
01:25:43,450 --> 01:25:41,270
this case is fascinating because there's

2111
01:25:45,850 --> 01:25:43,460
so many connections to it and you keep

2112
01:25:51,900 --> 01:25:45,860
going down those roads so hang in there

2113
01:25:51,910 --> 01:25:59,750

[Music]

2114

01:26:04,080 --> 01:26:02,490

and welcome back to paranormal now I'm

2115

01:26:07,080 --> 01:26:04,090

the inception of Radio Network I am your

2116

01:26:10,700 --> 01:26:07,090

host Alan B Smith and my guest tonight

2117

01:26:13,200 --> 01:26:10,710

is Kevin D Randle he's a former former

2118

01:26:16,080 --> 01:26:13,210

Army helicopter pilot and Air Force

2119

01:26:20,910 --> 01:26:16,090

intelligence officer and one of his

2120

01:26:22,800 --> 01:26:20,920

latest of many books is encounter in the

2121

01:26:26,970 --> 01:26:22,810

desert the case for alien contact at

2122

01:26:28,530 --> 01:26:26,980

Socorro so I'm not sure exactly at this

2123

01:26:32,669 --> 01:26:28,540

point where we left off because we've

2124

01:26:36,240 --> 01:26:32,679

kind of come in and out of the story so

2125

01:26:37,500 --> 01:26:36,250

let's continue with I think we left off

2126

01:26:39,859 --> 01:26:37,510

sort of with his description of the

2127

01:26:42,780 --> 01:26:39,869

symbols description of alien creatures

2128

01:26:45,090 --> 01:26:42,790

and then what was his life like after

2129

01:26:47,370 --> 01:26:45,100

that you know after he had had filled

2130

01:26:49,260 --> 01:26:47,380

out all these reports and he spoke to

2131

01:26:51,149 --> 01:26:49,270

the Rennes ins he spoke to Air Force

2132

01:26:54,750 --> 01:26:51,159

he's eventually spoke to hi Nick did we

2133

01:26:56,609 --> 01:26:54,760

even get to that really no we didn't

2134

01:26:58,560 --> 01:26:56,619

really hi Nick paid him kind of a

2135

01:27:00,419 --> 01:26:58,570

left-handed compliment which was that he

2136

01:27:02,340 --> 01:27:00,429

wasn't bright enough to hopes the thing

2137

01:27:06,479 --> 01:27:02,350

so that kind of suggests the case is

2138

01:27:08,520 --> 01:27:06,489

solid he was a solid police officer the

2139

01:27:09,810 --> 01:27:08,530

apparently a lot of the students didn't

2140

01:27:14,580 --> 01:27:09,820

like him because they gave him speeding

2141

01:27:16,229 --> 01:27:14,590

tickets and you know I mean and you

2142

01:27:19,320 --> 01:27:16,239

still see that today you know they were

2143

01:27:20,850 --> 01:27:19,330

they were probably speeding yeah how

2144

01:27:23,340 --> 01:27:20,860

dare you stop me for speeding when I'm

2145

01:27:25,800 --> 01:27:23,350

speeding and give me a ticket you big

2146

01:27:27,180 --> 01:27:25,810

mean guy one of the things they're

2147

01:27:29,040 --> 01:27:27,190

saying well you know he liked to have a

2148

01:27:31,410 --> 01:27:29,050

beer now and then I'm thinking yeah but

2149

01:27:33,479 --> 01:27:31,420

he was not a drunk and I haven't heard

2150

01:27:36,870 --> 01:27:33,489

that very much but but it it's a

2151

01:27:38,160 --> 01:27:36,880

suggestion that he drank a lot I didn't

2152

01:27:40,200 --> 01:27:38,170

really see any evidence of that when I

2153

01:27:42,229 --> 01:27:40,210

was looking at it but gee whiz I think

2154

01:27:44,820 --> 01:27:42,239

all of us have had a beer once or twice

2155

01:27:46,859 --> 01:27:44,830

yeah people have a couple a day and they

2156

01:27:54,540 --> 01:27:46,869

come home from work and you know that's

2157

01:27:57,689 --> 01:27:54,550

that's it yeah yeah and as military

2158

01:28:02,640 --> 01:27:57,699

pilots you know we periodically had

2159

01:28:04,020 --> 01:28:02,650

beers and other things as well but III

2160

01:28:06,390 --> 01:28:04,030

don't think that's you know that's not a

2161

01:28:07,320 --> 01:28:06,400

diss disqualifying factor in this

2162

01:28:08,850 --> 01:28:07,330

because I don't think it's really

2163

01:28:10,680 --> 01:28:08,860

evidence he remained a police officer

2164

01:28:13,020 --> 01:28:10,690

for a number of years after that

2165

01:28:14,910 --> 01:28:13,030

and then he took another job with the

2166

01:28:17,850 --> 01:28:14,920

city work from which he retired he spent

2167

01:28:19,650 --> 01:28:17,860

I believe and it's not clear in the

2168

01:28:22,110 --> 01:28:19,660

obituary in any other documentation I

2169

01:28:23,520 --> 01:28:22,120

can find but he was a member of the New

2170

01:28:25,350 --> 01:28:23,530

Mexico National Guard and I don't know

2171

01:28:28,229 --> 01:28:25,360

if he stayed in there for the the full

2172

01:28:31,560 --> 01:28:28,239

time to get the pension or not he was he

2173

01:28:33,870 --> 01:28:31,570

was a veteran of the Korean War so you

2174

01:28:36,930 --> 01:28:33,880

know he served he served in the Korean

2175

01:28:39,510 --> 01:28:36,940

War and had obviously had an honorable

2176
01:28:40,290 --> 01:28:39,520
discharge from active duty because I

2177
01:28:42,479 --> 01:28:40,300
don't think you'd have been in the

2178
01:28:46,140 --> 01:28:42,489
National Guard had he not had an

2179
01:28:47,459 --> 01:28:46,150
honorable discharge and he would have at

2180
01:28:51,060 --> 01:28:47,469
age sixty he would have been able to

2181
01:28:52,890 --> 01:28:51,070
draw a pension from the army and he

2182
01:28:54,740 --> 01:28:52,900
probably had a pension from the city as

2183
01:28:57,750 --> 01:28:54,750
well he seemed to be a very

2184
01:28:59,580 --> 01:28:57,760
down-to-earth fellow as they say you

2185
01:29:00,930 --> 01:28:59,590
know a friend of mine was just in town

2186
01:29:03,810 --> 01:29:00,940
and called him up he said we're having a

2187
01:29:05,220 --> 01:29:03,820
barbecue come on out you know but we're

2188
01:29:06,689 --> 01:29:05,230

gonna talk about the Flying Saucer and I

2189

01:29:08,630 --> 01:29:06,699

think I think that was kind of the big

2190

01:29:12,330 --> 01:29:08,640

Bugaboo in his life there's a guy named

2191

01:29:13,590 --> 01:29:12,340

Paul Harbor Paul Hart and Paul Hardin

2192

01:29:14,820 --> 01:29:13,600

I'm sorry holder and Hardin you know we

2193

01:29:17,400 --> 01:29:14,830

get these names mixed up

2194

01:29:19,200 --> 01:29:17,410

Paul Hardin who is in New Mexico lives

2195

01:29:21,510 --> 01:29:19,210

in Socorro and was friends with Lonnie

2196

01:29:24,540 --> 01:29:21,520

Zamora and talked to him not long before

2197

01:29:27,420 --> 01:29:24,550

his before his death but Zamora's not

2198

01:29:28,890 --> 01:29:27,430

hardens and they went out and drove

2199

01:29:30,810 --> 01:29:28,900

around and they went out to the scene

2200

01:29:34,229 --> 01:29:30,820

where the thing lad didn't talked about

2201

01:29:41,340 --> 01:29:34,239

it a little bit and Hardin got a another

2202

01:29:43,620 --> 01:29:41,350

a good he got he got the story told to

2203

01:29:44,550 --> 01:29:43,630

him by Lonnie Zamora on the scene and

2204

01:29:48,840 --> 01:29:44,560

that sort of thing but it's you know

2205

01:29:50,610 --> 01:29:48,850

like 50 years later but Hardin said that

2206

01:29:52,580 --> 01:29:50,620

you know they just sort of talked about

2207

01:29:54,240 --> 01:29:52,590

it it wasn't really a directed

2208

01:29:56,010 --> 01:29:54,250

question-and-answer session he's just

2209

01:29:57,270 --> 01:29:56,020

kind of two guys out there looking

2210

01:29:59,970 --> 01:29:57,280

around and talking about the events of

2211

01:30:01,740 --> 01:29:59,980

the past but Hardin wouldn't tell me

2212

01:30:03,090 --> 01:30:01,750

much about what Zamora said because he

2213

01:30:03,840 --> 01:30:03,100

just felt it was between him and Lonnie

2214

01:30:08,880 --> 01:30:03,850

Zamora

2215

01:30:10,590 --> 01:30:08,890

little bit to his friends I think that

2216

01:30:14,280 --> 01:30:10,600

he zomora

2217

01:30:16,470 --> 01:30:14,290

in Sam Sheva certainly thought that it

2218

01:30:17,939 --> 01:30:16,480

was a black project that he had seen

2219

01:30:19,919 --> 01:30:17,949

something that the government was doing

2220

01:30:21,450 --> 01:30:19,929

and he shouldn't have seen it and that's

2221

01:30:24,120 --> 01:30:21,460

really what frightened him was that

2222

01:30:25,080 --> 01:30:24,130

there was something about it that being

2223

01:30:28,260 --> 01:30:25,090

a black project that

2224

01:30:30,270 --> 01:30:28,270

he should not be talking about but as I

2225

01:30:35,899 --> 01:30:30,280

said it was important to kind of stress

2226

01:30:40,200 --> 01:30:38,430

authorization to see anything at

2227

01:30:44,729 --> 01:30:40,210

Holloman or White Sands that they were

2228

01:30:47,640 --> 01:30:44,739

testing had a letter of introduction and

2229

01:30:49,020 --> 01:30:47,650

orders with his satirical incest on it

2230

01:30:51,419 --> 01:30:49,030

which cleared him to see virtually

2231

01:30:54,899 --> 01:30:51,429

everything he could find nothing being

2232

01:30:59,910 --> 01:30:54,909

tested at Holloman in Alamogordo or

2233

01:31:03,240 --> 01:30:59,920

white sands that matched what Zamora saw

2234

01:31:06,120 --> 01:31:03,250

and what and that and then the count was

2235

01:31:07,680 --> 01:31:06,130

really the the points that Phillip class

2236

01:31:09,120 --> 01:31:07,690

was trying to make right that that was

2237

01:31:12,479 --> 01:31:09,130

one of his arguments for this whole

2238

01:31:16,890 --> 01:31:12,489

thing being debunked besides the the

2239

01:31:19,200 --> 01:31:16,900

hoaxing well yeah he thought it was an

2240

01:31:20,729 --> 01:31:19,210

attempt by the mayor the mayor

2241

01:31:22,620 --> 01:31:20,739

supposedly owned the land where the

2242

01:31:24,930 --> 01:31:22,630

thing landed and the land wasn't isn't

2243

01:31:26,879 --> 01:31:24,940

worth much it's worth a scrub but if the

2244

01:31:29,490 --> 01:31:26,889

land flying saucer landed there well

2245

01:31:31,379 --> 01:31:29,500

they could turn it into a tourist

2246

01:31:32,970 --> 01:31:31,389

attraction and maybe build a motel and

2247

01:31:34,919 --> 01:31:32,980

people could come and sleep on the site

2248

01:31:37,820 --> 01:31:34,929

of the first contact with alien

2249

01:31:41,760 --> 01:31:37,830

creatures or through the New Mexico

2250

01:31:43,200 --> 01:31:41,770

desert that way but and that's been

2251

01:31:44,520 --> 01:31:43,210

reported in any number of books to the

2252

01:31:46,109 --> 01:31:44,530

mayor own the land turns out that's not

2253

01:31:47,640 --> 01:31:46,119

true Mara didn't own the land when the

2254

01:31:50,010 --> 01:31:47,650

tax records were checked somebody else

2255

01:31:50,459 --> 01:31:50,020

owned it so that explanation flies out

2256

01:31:53,640 --> 01:31:50,469

the window

2257

01:31:55,439 --> 01:31:53,650

well they suggest my guess is that this

2258

01:31:57,540 --> 01:31:55,449

was supposed to be if there was a hoax

2259

01:31:58,979 --> 01:31:57,550

and the mayor isn't involved and I think

2260

01:32:01,169 --> 01:31:58,989

that would have that would have to mean

2261

01:32:04,500 --> 01:32:01,179

that Sam Chavez was involved and Lonnie

2262

01:32:05,939 --> 01:32:04,510

Zamora and and then also would that

2263

01:32:09,359 --> 01:32:05,949

involve the students of the nearby

2264

01:32:12,300 --> 01:32:09,369

university to actually pull off what

2265

01:32:13,620 --> 01:32:12,310

happened or was well I don't think I

2266

01:32:15,060 --> 01:32:13,630

don't think you can say the mayor's

2267

01:32:16,649 --> 01:32:15,070

involved because there's no evidence for

2268

01:32:19,470 --> 01:32:16,659

that the idea would be the mayor would

2269

01:32:21,780 --> 01:32:19,480

be Zamora's boss Sam Chavez was a state

2270

01:32:23,879 --> 01:32:21,790

police so he wasn't he wasn't

2271

01:32:25,830 --> 01:32:23,889

necessarily under the command of the

2272

01:32:27,750 --> 01:32:25,840

mayor of the city but lies immoral would

2273

01:32:30,629 --> 01:32:27,760

have been but there's no evidence of

2274

01:32:33,600 --> 01:32:30,639

that at all that there's any kind of and

2275

01:32:36,720 --> 01:32:33,610

I used a hard word collusion between the

2276

01:32:38,260 --> 01:32:36,730

mayor of Socorro and Lonnie Zamora the

2277

01:32:40,690 --> 01:32:38,270

mayor didn't own the

2278

01:32:42,040 --> 01:32:40,700

and the idea for the tourist attraction

2279

01:32:43,750 --> 01:32:42,050

didn't come about until a year later

2280

01:32:45,040 --> 01:32:43,760

after the sighting and somebody says you

2281

01:32:47,800 --> 01:32:45,050

know maybe we can make this into a

2282

01:32:50,200 --> 01:32:47,810

tourist attraction but clasp through

2283

01:32:55,240 --> 01:32:50,210

that idea out the secondary idea is it

2284

01:32:57,190 --> 01:32:55,250

was students at the New Mexico I'll say

2285

01:32:58,630 --> 01:32:57,200

school of mining that's not the fool of

2286

01:33:02,140 --> 01:32:58,640

mining and technology something like

2287

01:33:04,630 --> 01:33:02,150

that I mean it's that guy physics

2288

01:33:06,790 --> 01:33:04,640

students physics students and again it's

2289

01:33:09,370 --> 01:33:06,800

College it's a college a university type

2290

01:33:12,340 --> 01:33:09,380

thing not a not a high school or

2291

01:33:14,410 --> 01:33:12,350

anything like that but the evidence from

2292

01:33:16,570 --> 01:33:14,420

there is very very lacking on that as

2293

01:33:17,950 --> 01:33:16,580

well and then you have to wonder how did

2294

01:33:19,780 --> 01:33:17,960

they pull this thing off and when you

2295

01:33:22,570 --> 01:33:19,790

throw in the other witnesses it kind of

2296

01:33:24,940 --> 01:33:22,580

takes it out of the thing nobody's come

2297

01:33:28,320 --> 01:33:24,950

forward to really talk about it tell the

2298

01:33:33,190 --> 01:33:28,330

name Tony bug alia found a letter from

2299

01:33:34,540 --> 01:33:33,200

the president of that school written

2300

01:33:36,820 --> 01:33:34,550

some time after they he wasn't the

2301

01:33:38,620 --> 01:33:36,830

president in 1964 different fellow was

2302

01:33:41,410 --> 01:33:38,630

and Hynek talked to him he says no it's

2303

01:33:43,660 --> 01:33:41,420

not our students but this Colgate had

2304

01:33:45,130 --> 01:33:43,670

sent a letter to Linus Pauling saying

2305

01:33:47,110 --> 01:33:45,140

that it was a hoax pulled off by the

2306

01:33:48,550 --> 01:33:47,120

students but didn't really give much

2307

01:33:50,860 --> 01:33:48,560

detail the fact they went to Linus

2308

01:33:52,630 --> 01:33:50,870

Pauling is kind of irrelevant colgate I

2309

01:33:55,030 --> 01:33:52,640

think was a pretty important guy as well

2310

01:33:57,010 --> 01:33:55,040

Ill just I always got the impression he

2311

01:34:00,130 --> 01:33:57,020

did that because it sort of embarrassed

2312

01:34:02,490 --> 01:34:00,140

him that Socorro was a scene of a UFO

2313

01:34:10,570 --> 01:34:02,500

landing type thing but there's really

2314

01:34:12,730 --> 01:34:10,580

nothing there that suggests it's it's a

2315

01:34:14,290 --> 01:34:12,740

hoax I mean you just have to wonder how

2316

01:34:16,990 --> 01:34:14,300

they were pulling it off and that sort

2317

01:34:19,570 --> 01:34:17,000

of thing so so but there would be a

2318

01:34:23,680 --> 01:34:19,580

connection between for a collusion

2319

01:34:25,420 --> 01:34:23,690

between the students and the these two

2320

01:34:27,400 --> 01:34:25,430

these two ideas of a hoax the students

2321

01:34:28,510 --> 01:34:27,410

doing a hoax on love Zamora because I

2322

01:34:30,040 --> 01:34:28,520

didn't like him because he gave speeding

2323

01:34:31,750 --> 01:34:30,050

ticket this is one theory the other

2324

01:34:33,370 --> 01:34:31,760

theory is that they wanted tourism so

2325

01:34:35,980 --> 01:34:33,380

the mayor would have done that so these

2326

01:34:38,410 --> 01:34:35,990

are two theories that are exclusive of

2327

01:34:40,600 --> 01:34:38,420

each other there's no evidence the mayor

2328

01:34:41,800 --> 01:34:40,610

was in collusion with the students or

2329

01:34:44,920 --> 01:34:41,810

the students were in collusion with the

2330

01:34:49,900 --> 01:34:44,930

mayor there's absolutely nothing to

2331

01:34:52,030 --> 01:34:49,910

suggest that at all there's stuff coming

2332

01:34:54,010 --> 01:34:52,040

out that suggests that

2333

01:35:01,600 --> 01:34:54,020

it may have been a student hoax but the

2334

01:35:03,520 --> 01:35:01,610

problem is you have no witnesses so - -

2335

01:35:05,200 --> 01:35:03,530

that you've got some unidentified

2336

01:35:06,310 --> 01:35:05,210

sources saying yeah we we pulled this

2337

01:35:09,880 --> 01:35:06,320

off but we don't want our names

2338

01:35:12,640 --> 01:35:09,890

mentioned I know from UFO investigate

2339

01:35:15,300 --> 01:35:12,650

those are the students the students yeah

2340

01:35:20,980 --> 01:35:15,310

but I know from investigations that when

2341

01:35:21,490 --> 01:35:20,990

youngsters college-age students do these

2342

01:35:24,730 --> 01:35:21,500

sorts of things

2343

01:35:26,980 --> 01:35:24,740

eventually they cop to it and I always

2344

01:35:29,200 --> 01:35:26,990

say you know 99% of the UFO pictures

2345

01:35:31,180 --> 01:35:29,210

were taken by teenage boys and 99% of

2346

01:35:32,640 --> 01:35:31,190

them they're hoaxes and we've had some

2347

01:35:35,320 --> 01:35:32,650

wonderful pictures that have been

2348

01:35:37,740 --> 01:35:35,330

created by teenage boys and in today's

2349

01:35:41,170 --> 01:35:37,750

environment even much more impressive

2350

01:35:45,220 --> 01:35:41,180

but but the point is they invariably

2351

01:35:46,660 --> 01:35:45,230

come out and say yeah we did that and in

2352

01:35:49,090 --> 01:35:46,670

some of the some of the pictures that

2353

01:35:52,000 --> 01:35:49,100

people have held up for literally

2354

01:35:54,760 --> 01:35:52,010

decades have been proven to be hoaxes or

2355

01:35:56,110 --> 01:35:54,770

admitted to be hoaxes sure sure and and

2356

01:36:00,210 --> 01:35:56,120

I think you make a good point in the

2357

01:36:05,200 --> 01:36:00,220

book that if their endgame was to

2358

01:36:07,540 --> 01:36:05,210

embarrass blossom Zamora then then they

2359

01:36:10,560 --> 01:36:07,550

would have had to admit it so that

2360

01:36:12,790 --> 01:36:10,570

people know that amaura had been had

2361

01:36:14,650 --> 01:36:12,800

well that would that would make it even

2362

01:36:16,150 --> 01:36:14,660

better because not only is nothing is

2363

01:36:22,120 --> 01:36:16,160

reporting a flying saucer and alien

2364

01:36:24,340 --> 01:36:22,130

creatures for God's sakes that really

2365

01:36:26,710 --> 01:36:24,350

would have embarrassed him and that just

2366

01:36:29,230 --> 01:36:26,720

never happened and the people who are

2367

01:36:31,210 --> 01:36:29,240

claiming that it happened that way are

2368

01:36:33,310 --> 01:36:31,220

people who are not associated with it

2369

01:36:36,520 --> 01:36:33,320

the guy colgate was not at the

2370

01:36:39,070 --> 01:36:36,530

university I say University and the

2371

01:36:41,590 --> 01:36:39,080

college at the time the events took

2372

01:36:43,300 --> 01:36:41,600

place and he said well he talked to

2373

01:36:44,860 --> 01:36:43,310

students who told him about this but we

2374

01:36:46,540 --> 01:36:44,870

never get the names of the students who

2375

01:36:48,940 --> 01:36:46,550

were the participants and they never

2376

01:36:51,040 --> 01:36:48,950

said this is how we did it well sure

2377

01:36:53,800 --> 01:36:51,050

well anyone who's been into school knows

2378

01:36:56,980 --> 01:36:53,810

that you know stories become legend and

2379

01:36:59,860 --> 01:36:56,990

you know so you know a generation a

2380

01:37:01,150 --> 01:36:59,870

generation but years later new students

2381

01:37:03,850 --> 01:37:01,160

come into the school to hear about the

2382

01:37:05,680 --> 01:37:03,860

story and then people start claiming

2383

01:37:09,879 --> 01:37:05,690

that it was some

2384

01:37:12,970 --> 01:37:09,889

students from a previous you know years

2385

01:37:15,060 --> 01:37:12,980

ago or whatever or that or that they

2386

01:37:18,040 --> 01:37:15,070

were participants in it how many people

2387

01:37:20,050 --> 01:37:18,050

the best example I have the funniest one

2388

01:37:23,770 --> 01:37:20,060

is not the turn of the last century that

2389

01:37:25,390 --> 01:37:23,780

would be 1900 there were 15 guys at 15

2390

01:37:29,290 --> 01:37:25,400

separate carnivals saying that they were

2391

01:37:33,700 --> 01:37:29,300

the real Jesse James you know 14 of them

2392

01:37:36,160 --> 01:37:33,710

had to be lying you know that's because

2393

01:37:38,379 --> 01:37:36,170

that was their claim to fame I'm the

2394

01:37:40,570 --> 01:37:38,389

real Jesse James I don't know how many

2395

01:37:42,310 --> 01:37:40,580

people have come forward or had come

2396

01:37:43,959 --> 01:37:42,320

forward and said that they were with the

2397

01:37:45,820 --> 01:37:43,969

five companies that custard the Little

2398

01:37:50,500 --> 01:37:45,830

Bighorn and they managed to escape the

2399

01:37:52,419 --> 01:37:50,510

the final onslaught of the massacre you

2400

01:37:55,359 --> 01:37:52,429

know I got out of that that circle of

2401

01:37:57,459 --> 01:37:55,369

death somehow there no evidence that

2402

01:38:02,229 --> 01:37:57,469

that's true but there's any number of

2403

01:38:03,040 --> 01:38:02,239

people who said that was was Roswell and

2404

01:38:06,399 --> 01:38:03,050

that was one of the things that in

2405

01:38:11,379 --> 01:38:06,409

Roswell in the 21st century was pointing

2406

01:38:12,970 --> 01:38:11,389

out that here's all these people who

2407

01:38:14,530 --> 01:38:12,980

have come forward with their tales of

2408

01:38:16,660 --> 01:38:14,540

having been involved in the Roswell

2409

01:38:19,089 --> 01:38:16,670

sighting in some fashion that have blown

2410

01:38:21,310 --> 01:38:19,099

up in our faces you know it's clear that

2411

01:38:23,290 --> 01:38:21,320

they were making this stuff up and once

2412

01:38:25,089 --> 01:38:23,300

we got the proper documentation and we

2413

01:38:27,040 --> 01:38:25,099

got some other evidence we realized that

2414

01:38:29,260 --> 01:38:27,050

they were making the story up or or they

2415

01:38:30,850 --> 01:38:29,270

began to contradict themselves you know

2416

01:38:33,459 --> 01:38:30,860

in in the Socorro case Lonnie Zamora

2417

01:38:35,410 --> 01:38:33,469

never conducted contradicted himself we

2418

01:38:37,570 --> 01:38:35,420

don't have all these witnesses coming

2419

01:38:39,310 --> 01:38:37,580

forward say yeah I was there in 1964 and

2420

01:38:41,680 --> 01:38:39,320

I saw this that and the other thing we

2421

01:38:43,479 --> 01:38:41,690

have a very solid case we have a case of

2422

01:38:46,689 --> 01:38:43,489

a police officer who witnessed a thing

2423

01:38:48,189 --> 01:38:46,699

it leaves landing-gear markings on the

2424

01:38:50,919 --> 01:38:48,199

ground which is a different chain of

2425

01:38:54,129 --> 01:38:50,929

evidence from the testimony we no longer

2426

01:38:56,500 --> 01:38:54,139

say it's single witness we have three

2427

01:38:58,330 --> 01:38:56,510

witnesses who were not identified by

2428

01:39:00,490 --> 01:38:58,340

name but had called the police so we

2429

01:39:03,580 --> 01:39:00,500

have the documentation for it we have

2430

01:39:05,979 --> 01:39:03,590

the Colorado Taurus Greta that's even

2431

01:39:07,419 --> 01:39:05,989

worse testimony than our evidence then

2432

01:39:09,790 --> 01:39:07,429

the people who called the police station

2433

01:39:11,200 --> 01:39:09,800

because that secondhand from the gas

2434

01:39:13,390 --> 01:39:11,210

station management we don't know who

2435

01:39:16,209 --> 01:39:13,400

those people were we have other people

2436

01:39:18,310 --> 01:39:16,219

who are on the ground saw things in the

2437

01:39:20,500 --> 01:39:18,320

area that relate to this

2438

01:39:22,510 --> 01:39:20,510

so we have a good body of evidence it's

2439

01:39:24,940 --> 01:39:22,520

a much stronger much robust case than it

2440

01:39:26,890 --> 01:39:24,950

had been as we look at all the evidence

2441

01:39:28,750 --> 01:39:26,900

that's associated with it well had

2442

01:39:32,680 --> 01:39:28,760

anyone called in around the same time

2443

01:39:34,630 --> 01:39:32,690

that Lonny saw the UFO the three people

2444

01:39:36,940 --> 01:39:34,640

called just prior to him seeing the UFO

2445

01:39:38,380 --> 01:39:36,950

landed they called it before he called

2446

01:39:39,820 --> 01:39:38,390

the police and said you know I called

2447

01:39:42,370 --> 01:39:39,830

the station on his radio and says you

2448

01:39:44,710 --> 01:39:42,380

know I see this thing on the ground so

2449

01:39:47,170 --> 01:39:44,720

these three three people called it in

2450

01:39:48,100 --> 01:39:47,180

and reported it I think nepto Pez was

2451

01:39:50,170 --> 01:39:48,110

the guy's name

2452

01:39:52,600 --> 01:39:50,180

the police dispatcher he didn't write it

2453

01:39:55,630 --> 01:39:52,610

down because I don't know why he didn't

2454

01:39:58,690 --> 01:39:55,640

write the names down but once the story

2455

01:40:01,510 --> 01:39:58,700

came out then that information was was

2456

01:40:03,160 --> 01:40:01,520

corroborated by holders report written

2457

01:40:05,830 --> 01:40:03,170

that very night that these three food

2458

01:40:07,900 --> 01:40:05,840

people had called the police station I

2459

01:40:10,150 --> 01:40:07,910

am still astonished nobody went to find

2460

01:40:12,040 --> 01:40:10,160

those people because he shouldn't have

2461

01:40:14,290 --> 01:40:12,050

been that difficult of a task in a town

2462

01:40:16,480 --> 01:40:14,300

the size of a Socorro especially when

2463

01:40:18,640 --> 01:40:16,490

you knew the flight paths okay and even

2464

01:40:20,020 --> 01:40:18,650

if you had couldn't like those three

2465

01:40:21,780 --> 01:40:20,030

people you might have found two or three

2466

01:40:24,370 --> 01:40:21,790

others that had seen it or heard it

2467

01:40:26,530 --> 01:40:24,380

exactly and I'm wondering if I'm gonna

2468

01:40:28,560 --> 01:40:26,540

be confusing cases here but there was a

2469

01:40:31,150 --> 01:40:28,570

dispatcher that took those calls correct

2470

01:40:33,610 --> 01:40:31,160

yep Lopez was a guy who could took the

2471

01:40:36,850 --> 01:40:33,620

phone calls okay so so you had that on

2472

01:40:39,130 --> 01:40:36,860

record that was the holder's is the

2473

01:40:40,960 --> 01:40:39,140

record that we have for that yes we have

2474

01:40:42,850 --> 01:40:40,970

that we have that we have a record of

2475

01:40:47,200 --> 01:40:42,860

that documented the night the event

2476

01:40:49,300 --> 01:40:47,210

happened it's not like Holder said ten

2477

01:40:52,480 --> 01:40:49,310

years later oh by the way I remember the

2478

01:40:54,310 --> 01:40:52,490

net Lopez telling us about the the three

2479

01:40:56,140 --> 01:40:54,320

phone calls he wrote it down that very

2480

01:40:58,180 --> 01:40:56,150

night well do we know anything about

2481

01:41:01,510 --> 01:40:58,190

Lonnie Zamora that makes him a credible

2482

01:41:05,020 --> 01:41:01,520

witness it was a police officer yeah a

2483

01:41:08,170 --> 01:41:05,030

police officer training he didn't seem

2484

01:41:12,310 --> 01:41:08,180

prone to inventing tales

2485

01:41:15,040 --> 01:41:12,320

anybody can be fooled by the

2486

01:41:16,870 --> 01:41:15,050

circumstances the the skeptics like to

2487

01:41:19,150 --> 01:41:16,880

say well Lonnie Zamora lost his glasses

2488

01:41:22,690 --> 01:41:19,160

during the sighting yeah at the very end

2489

01:41:25,780 --> 01:41:22,700

after he'd been down close within 30

2490

01:41:27,400 --> 01:41:25,790

feet of the object after he ran back up

2491

01:41:30,040 --> 01:41:27,410

the hill as the thing began to roar and

2492

01:41:30,860 --> 01:41:30,050

knocked his glasses off after he'd seen

2493

01:41:33,260 --> 01:41:30,870

every

2494

01:41:36,530 --> 01:41:33,270

he lost his glasses so losing his

2495

01:41:38,300 --> 01:41:36,540

glasses is irrelevant to the story and

2496

01:41:41,660 --> 01:41:38,310

that also begs the question to me if if

2497

01:41:44,390 --> 01:41:41,670

it was a hoax he was really close yes

2498

01:41:46,970 --> 01:41:44,400

Eric as a as a police officer knowing

2499

01:41:49,510 --> 01:41:46,980

that there's kids in the area you know

2500

01:41:52,280 --> 01:41:49,520

sure he's experienced his fair share of

2501

01:41:54,680 --> 01:41:52,290

pranksters you know he would have been

2502

01:41:58,240 --> 01:41:54,690

keen enough to have heard something keep

2503

01:42:03,470 --> 01:41:58,250

his eyes out for something and yet no

2504

01:42:06,650 --> 01:42:03,480

there's just there's Quintanilla

2505

01:42:08,540 --> 01:42:06,660

the the project Bluebook chief said that

2506

01:42:10,100 --> 01:42:08,550

he always felt the answer was in

2507

01:42:11,900 --> 01:42:10,110

Lonnie's amorous head meaning that there

2508

01:42:14,030 --> 01:42:11,910

was something there that he observed and

2509

01:42:17,390 --> 01:42:14,040

that would have given him the answer if

2510

01:42:20,030 --> 01:42:17,400

the more I had processed the information

2511

01:42:21,530 --> 01:42:20,040

properly I didn't see anything like that

2512

01:42:23,630 --> 01:42:21,540

I mean Zamora seemed to be a very

2513

01:42:25,550 --> 01:42:23,640

credible source a very reliable man

2514

01:42:28,880 --> 01:42:25,560

maybe not the brightest bulb in the

2515

01:42:31,100 --> 01:42:28,890

display but that doesn't mean he was

2516

01:42:32,720 --> 01:42:31,110

easily fooled either he was an

2517

01:42:37,220 --> 01:42:32,730

experienced police officer he was

2518

01:42:39,800 --> 01:42:37,230

experienced military man and there was a

2519

01:42:42,740 --> 01:42:39,810

physic lived near Air Force bases so

2520

01:42:44,150 --> 01:42:42,750

this was not you know you know craft and

2521

01:42:47,300 --> 01:42:44,160

unconventional crafts but it would have

2522

01:42:50,900 --> 01:42:47,310

been seen in this guy I'm sure well

2523

01:42:54,170 --> 01:42:50,910

absolutely and there were the landing

2524

01:42:56,300 --> 01:42:54,180

traces to make this thing work in Lonnie

2525

01:42:57,920 --> 01:42:56,310

Zamora is down I mean the landing traces

2526

01:42:59,960 --> 01:42:57,930

showed something very heavy being

2527

01:43:02,000 --> 01:42:59,970

pressed into the ground not something

2528

01:43:03,770 --> 01:43:02,010

light like a balloon or any of the other

2529

01:43:06,940 --> 01:43:03,780

explanation but something heavy pressed

2530

01:43:09,710 --> 01:43:06,950

in the ground and there is of course the

2531

01:43:12,410 --> 01:43:09,720

evidence from the flame that burned the

2532

01:43:16,400 --> 01:43:12,420

bush and some of the surrounding air a

2533

01:43:18,440 --> 01:43:16,410

test area if it had been a chemical

2534

01:43:20,180 --> 01:43:18,450

flame of some kind it would have left

2535

01:43:22,100 --> 01:43:20,190

residue that would have been picked up

2536

01:43:26,060 --> 01:43:22,110

in the samples and they would have said

2537

01:43:28,550 --> 01:43:26,070

all we found evidence of of gasoline we

2538

01:43:32,060 --> 01:43:28,560

found evidence of diesel fuel we found

2539

01:43:34,970 --> 01:43:32,070

evidence of propane using to send the

2540

01:43:36,500 --> 01:43:34,980

balloons the hot air balloons aloft you

2541

01:43:38,930 --> 01:43:36,510

know there would have been evidenced

2542

01:43:39,980 --> 01:43:38,940

there because it burned the the bushes

2543

01:43:41,990 --> 01:43:39,990

there would have been evidence of those

2544

01:43:43,460 --> 01:43:42,000

chemicals but they're nothing like that

2545

01:43:44,180 --> 01:43:43,470

was found and there were samples taken

2546

01:43:47,540 --> 01:43:44,190

by any No

2547

01:43:51,640 --> 01:43:47,550

of people and like I said Holder gave

2548

01:43:56,180 --> 01:43:51,650

his too high neck so the Air Force Labs

2549

01:43:57,740 --> 01:43:56,190

would would examine it but the thing is

2550

01:43:59,180 --> 01:43:57,750

you know you say well yeah the Air Force

2551
01:44:00,439 --> 01:43:59,190
they would have lied about it yeah they

2552
01:44:03,020 --> 01:44:00,449
woulda lied to the public but they

2553
01:44:05,500 --> 01:44:03,030
wouldn't alight in the files because if

2554
01:44:08,450 --> 01:44:05,510
you look at the files back at that time

2555
01:44:10,130 --> 01:44:08,460
they didn't expect anybody to be pawing

2556
01:44:13,040 --> 01:44:10,140
through them the way we are today I mean

2557
01:44:14,689 --> 01:44:13,050
complete sets of the files if they had

2558
01:44:19,610 --> 01:44:14,699
found something since y'all was really

2559
01:44:22,250 --> 01:44:19,620
was really strange residue in found

2560
01:44:25,100 --> 01:44:22,260
there we would know it but the files all

2561
01:44:30,200 --> 01:44:25,110
suggest everything was mundane NICAP had

2562
01:44:33,740 --> 01:44:30,210
had samples taken by Ray Stanford that

2563
01:44:35,840 --> 01:44:33,750

were examined in the nightcap files came

2564

01:44:37,209 --> 01:44:35,850

back the same way the nycap examination

2565

01:44:40,820 --> 01:44:37,219

came back the same ways and then we

2566

01:44:42,050 --> 01:44:40,830

nothing unusual here were these um when

2567

01:44:45,470 --> 01:44:42,060

you say examined are we talking about

2568

01:44:47,390 --> 01:44:45,480

spectroscopic analysis or all sorts of

2569

01:44:48,950 --> 01:44:47,400

all sorts of examinations that they

2570

01:44:50,990 --> 01:44:48,960

could do testing to see if they could

2571

01:44:52,970 --> 01:44:51,000

determine what was show there was a

2572

01:44:56,060 --> 01:44:52,980

little flecks of the metal were taken to

2573

01:44:58,340 --> 01:44:56,070

the Goddard center in the Washington DC

2574

01:45:00,470 --> 01:44:58,350

area to be examined and found found

2575

01:45:03,050 --> 01:45:00,480

nothing spectacular there although as I

2576

01:45:04,340 --> 01:45:03,060

talked about in the book ray Stanford

2577

01:45:05,990 --> 01:45:04,350

said he talked to the scientist who

2578

01:45:07,070 --> 01:45:06,000

originally did the test that suggests

2579

01:45:08,959 --> 01:45:07,080

there was something extremely unusual

2580

01:45:10,550 --> 01:45:08,969

about it but the next time he talked to

2581

01:45:13,910 --> 01:45:10,560

the scientist he said no there was

2582

01:45:15,800 --> 01:45:13,920

nothing there but but when you put it

2583

01:45:17,360 --> 01:45:15,810

into the totality of how everything went

2584

01:45:20,479 --> 01:45:17,370

down and who had samples and who

2585

01:45:21,890 --> 01:45:20,489

wouldn't it went who did what it doesn't

2586

01:45:24,920 --> 01:45:21,900

seem that there was anything too

2587

01:45:28,000 --> 01:45:24,930

suggestive of any sorts of residue biet

2588

01:45:31,760 --> 01:45:28,010

metallic or chemical that would suggest

2589

01:45:34,790 --> 01:45:31,770

an extraterrestrial presence or suggest

2590

01:45:39,110 --> 01:45:34,800

a terrestrial explanation for the damage

2591

01:45:44,560 --> 01:45:39,120

that was seen and I want to touch on

2592

01:45:50,390 --> 01:45:44,570

this one case in in particular where a

2593

01:45:54,410 --> 01:45:50,400

family has seen armed with shotguns or

2594

01:45:56,630 --> 01:45:54,420

rifles if I recall correctly a little

2595

01:45:57,649 --> 01:45:56,640

bit of everything right they were well

2596

01:46:00,890 --> 01:45:57,659

armed

2597

01:46:04,510 --> 01:46:00,900

they had encountered creatures the

2598

01:46:09,649 --> 01:46:07,370

Sutton okay and and the creatures were

2599

01:46:11,720 --> 01:46:09,659

or this is it that night time or dusk

2600

01:46:13,879 --> 01:46:11,730

I'm not sure but they're coming towards

2601
01:46:16,760 --> 01:46:13,889
them and so tell us a little bit about

2602
01:46:18,319 --> 01:46:16,770
that well it's a very complex case

2603
01:46:19,850 --> 01:46:18,329
because there's a lot of people involved

2604
01:46:21,140 --> 01:46:19,860
and took place over several several

2605
01:46:24,919 --> 01:46:21,150
hours and there was a lot of shooting

2606
01:46:27,319 --> 01:46:24,929
involved but the story is one of the

2607
01:46:28,879 --> 01:46:27,329
guys was out in the back at the well and

2608
01:46:30,950 --> 01:46:28,889
as he was going back into the house he

2609
01:46:32,870 --> 01:46:30,960
saw something land out in the distance

2610
01:46:34,520 --> 01:46:32,880
and didn't think much of it and later

2611
01:46:36,950 --> 01:46:34,530
they saw some little creatures two and a

2612
01:46:39,800 --> 01:46:36,960
half three feet tall really bizarre

2613
01:46:42,109 --> 01:46:39,810

looking things frightened them badly and

2614

01:46:43,939 --> 01:46:42,119

they began they were using shotguns and

2615

01:46:45,500 --> 01:46:43,949

I think a 22 caliber rifle may have had

2616

01:46:47,270 --> 01:46:45,510

a pistol or two involved in that and

2617

01:46:48,950 --> 01:46:47,280

they would they would fire at it would

2618

01:46:51,979 --> 01:46:48,960

knock the creature down it would jump up

2619

01:46:54,410 --> 01:46:51,989

and run off and they kept surrounding

2620

01:46:56,330 --> 01:46:54,420

the house and they would disappear for a

2621

01:46:58,089 --> 01:46:56,340

while and come back and so around 11

2622

01:47:01,520 --> 01:46:58,099

p.m. that night I think it was 11 p.m.

2623

01:47:04,010 --> 01:47:01,530

the family jumped into two cars and

2624

01:47:08,180 --> 01:47:04,020

roared off to the local sheriff's office

2625

01:47:10,669 --> 01:47:08,190

the sheriff came back and with military

2626
01:47:11,780 --> 01:47:10,679
and they couldn't find any evidence of

2627
01:47:13,040 --> 01:47:11,790
the creatures I mean couldn't the

2628
01:47:15,560 --> 01:47:13,050
creatures were gone they couldn't find

2629
01:47:17,750 --> 01:47:15,570
the craft they did find some bizarre

2630
01:47:19,280 --> 01:47:17,760
residue on the ground and they found of

2631
01:47:22,250 --> 01:47:19,290
course some bullet holes in the screens

2632
01:47:25,959 --> 01:47:22,260
and whatnot suggesting they were firing

2633
01:47:27,950 --> 01:47:25,969
through the windows to get the creatures

2634
01:47:30,140 --> 01:47:27,960
the airforce wrote it off as

2635
01:47:31,879 --> 01:47:30,150
psychological problems they said that

2636
01:47:33,379 --> 01:47:31,889
the family had been through some kind of

2637
01:47:38,120 --> 01:47:33,389
a Pentecostal meeting and we're all

2638
01:47:39,260 --> 01:47:38,130

wound up in the revival and envisioned

2639

01:47:41,600 --> 01:47:39,270

this and they thought it may be some

2640

01:47:42,620 --> 01:47:41,610

monkeys that escaped from a local circus

2641

01:47:45,770 --> 01:47:42,630

and that was what they were saying

2642

01:47:47,240 --> 01:47:45,780

preposterous explanation Air Force said

2643

01:47:49,189 --> 01:47:47,250

originally we didn't investigate this

2644

01:47:51,020 --> 01:47:49,199

case but you go back and you look at

2645

01:47:52,520 --> 01:47:51,030

that file and you find out well yeah

2646

01:47:54,200 --> 01:47:52,530

they did they just did it in a

2647

01:47:55,850 --> 01:47:54,210

roundabout way so they could say we

2648

01:47:58,160 --> 01:47:55,860

didn't really investigate it officially

2649

01:47:59,030 --> 01:47:58,170

and if the if the case wasn't reported

2650

01:48:00,649 --> 01:47:59,040

the Air Force and they didn't

2651

01:48:03,410 --> 01:48:00,659

investigate officially it didn't exist

2652

01:48:05,030 --> 01:48:03,420

to them there be cases marked

2653

01:48:06,890 --> 01:48:05,040

information to only be a newspaper

2654

01:48:11,390 --> 01:48:06,900

clipping and something like that but

2655

01:48:13,550 --> 01:48:11,400

their explanation was that it was a

2656

01:48:15,050 --> 01:48:13,560

escaped from a circus but they could

2657

01:48:17,000 --> 01:48:15,060

find no monkeys they could find no

2658

01:48:19,640 --> 01:48:17,010

circus from which it could have escaped

2659

01:48:21,260 --> 01:48:19,650

or they could have escaped that sort of

2660

01:48:23,480 --> 01:48:21,270

thing the explanation never made sense

2661

01:48:25,310 --> 01:48:23,490

it's a bizarre case and I mean our story

2662

01:48:28,310 --> 01:48:25,320

yeah everybody everybody is thinking

2663

01:48:30,140 --> 01:48:28,320

yeah it not can't be true because of all

2664

01:48:31,130 --> 01:48:30,150

the shooting going on and the reaction

2665

01:48:32,900 --> 01:48:31,140

of the creatures and like they're

2666

01:48:35,060 --> 01:48:32,910

teasing him he says oh yeah yeah you

2667

01:48:37,130 --> 01:48:35,070

knocked us down or we fell down ha ha us

2668

01:48:38,360 --> 01:48:37,140

and and then they would show up again to

2669

01:48:39,860 --> 01:48:38,370

be shot at it's a really a bizarre

2670

01:48:42,200 --> 01:48:39,870

occasion you know when your inclination

2671

01:48:44,690 --> 01:48:42,210

to say well that's not true the family

2672

01:48:47,590 --> 01:48:44,700

was bizarre but I mean they were dirt

2673

01:48:49,490 --> 01:48:47,600

poor doesn't make them bad people

2674

01:48:50,600 --> 01:48:49,500

doesn't make them prone to

2675

01:48:52,640 --> 01:48:50,610

hallucinations

2676

01:48:54,470 --> 01:48:52,650

there had been no revival meeting that

2677

01:48:56,150 --> 01:48:54,480

they attended there was some discussion

2678

01:48:57,710 --> 01:48:56,160

of drinking but there's no evidence that

2679

01:48:59,090 --> 01:48:57,720

they had been drinking moonshine or any

2680

01:49:01,880 --> 01:48:59,100

of that stuff they seemed very level

2681

01:49:03,950 --> 01:49:01,890

when they when the the sheriff's and his

2682

01:49:07,190 --> 01:49:03,960

deputies in the military went went back

2683

01:49:09,140 --> 01:49:07,200

that night they found they found some

2684

01:49:10,640 --> 01:49:09,150

evidence that things had gone on but

2685

01:49:12,980 --> 01:49:10,650

they didn't see the craft they didn't

2686

01:49:14,390 --> 01:49:12,990

see the the alien creature so they

2687

01:49:15,830 --> 01:49:14,400

couldn't testify to that but they could

2688

01:49:18,080 --> 01:49:15,840

testify to other things they saw that

2689

01:49:19,520 --> 01:49:18,090

night which gives it a note of

2690

01:49:22,340 --> 01:49:19,530

credibility that some of the other cases

2691

01:49:24,620 --> 01:49:22,350

that we look at don't have and then of

2692

01:49:26,930 --> 01:49:24,630

course the next morning some Air Force

2693

01:49:30,670 --> 01:49:26,940

officer I think he was on his annual

2694

01:49:34,550 --> 01:49:30,680

tour stuck his nose in the case and

2695

01:49:36,320 --> 01:49:34,560

wasn't very receptive to any idea of

2696

01:49:38,120 --> 01:49:36,330

alien landing and that sort of thing so

2697

01:49:39,560 --> 01:49:38,130

his reports aren't aren't very good but

2698

01:49:41,350 --> 01:49:39,570

when you go back again through the

2699

01:49:44,750 --> 01:49:41,360

project Bluebook files on this you find

2700

01:49:46,970 --> 01:49:44,760

that they were a little bit more

2701
01:49:49,610 --> 01:49:46,980
interested in it than they portrayed and

2702
01:49:51,350 --> 01:49:49,620
some of the documentation it contradicts

2703
01:49:52,670 --> 01:49:51,360
other documentation in the in the case

2704
01:49:55,010 --> 01:49:52,680
file I think you know we got to look at

2705
01:49:56,540 --> 01:49:55,020
all of that stuff you know do you want

2706
01:49:58,820 --> 01:49:56,550
to believe that alien creatures were

2707
01:50:01,880 --> 01:49:58,830
playing around that way one night in

2708
01:50:04,130 --> 01:50:01,890
Hopkinsville of Kentucky and the answer

2709
01:50:06,020 --> 01:50:04,140
my answer is no not really I don't

2710
01:50:08,120 --> 01:50:06,030
believe that but there's enough in there

2711
01:50:11,750 --> 01:50:08,130
to just give you pause and say well

2712
01:50:12,860 --> 01:50:11,760
something went on there that was really

2713
01:50:15,320 --> 01:50:12,870

really bizarre and the fact that

2714

01:50:17,330 --> 01:50:15,330

firearms were involved suggesting that

2715

01:50:18,980 --> 01:50:17,340

had it been some kind of a prank played

2716

01:50:21,260 --> 01:50:18,990

by somebody there would have been some

2717

01:50:23,270 --> 01:50:21,270

very unhappy people when the Sun came up

2718

01:50:24,540 --> 01:50:23,280

the next day and that just doesn't seem

2719

01:50:28,549 --> 01:50:24,550

to be the case

2720

01:50:34,350 --> 01:50:28,559

Shh what we have happy people I got shot

2721

01:50:38,390 --> 01:50:34,360

yeah in your experience the Socorro case

2722

01:50:41,510 --> 01:50:38,400

do you I don't know if you if you take a

2723

01:50:46,109 --> 01:50:41,520

position on this but do you believe that

2724

01:50:51,899 --> 01:50:46,119

Lonnie Zamora did see an actual craft

2725

01:50:55,919 --> 01:50:51,909

that was not a typical military craft if

2726
01:51:02,879 --> 01:50:55,929
you had gotten the last 20 pages you'd

2727
01:51:05,010 --> 01:51:02,889
know the answer that question the I look

2728
01:51:07,080 --> 01:51:05,020
at I look at it this way

2729
01:51:09,990 --> 01:51:07,090
I know of no terrestrial explanation

2730
01:51:11,790 --> 01:51:10,000
that fits the facts that does not

2731
01:51:14,339 --> 01:51:11,800
necessarily lead us to the

2732
01:51:15,270 --> 01:51:14,349
extra-terrestrial we need something more

2733
01:51:17,430 --> 01:51:15,280
to get there

2734
01:51:19,979 --> 01:51:17,440
Lonnie's does Zamora's description of

2735
01:51:21,089 --> 01:51:19,989
the craft and the creatures the beings I

2736
01:51:24,500 --> 01:51:21,099
shouldn't say creatures I should say

2737
01:51:27,000 --> 01:51:24,510
beings or things things he used are

2738
01:51:31,140 --> 01:51:27,010

suggestive that it is not of a

2739

01:51:32,399 --> 01:51:31,150

terrestrial nature but that that doesn't

2740

01:51:35,160 --> 01:51:32,409

really get us the evidence we need

2741

01:51:37,890 --> 01:51:35,170

something a little bit more substantive

2742

01:51:39,839 --> 01:51:37,900

to get to that point that's kind of

2743

01:51:42,510 --> 01:51:39,849

where I leave it I can't find a

2744

01:51:44,790 --> 01:51:42,520

terrestrial explanation I am NOT happy

2745

01:51:47,310 --> 01:51:44,800

of making happy about making the leap to

2746

01:51:49,339 --> 01:51:47,320

the extra-terrestrial without additional

2747

01:51:51,720 --> 01:51:49,349

evidence to support that conclusion

2748

01:51:53,640 --> 01:51:51,730

which which is a dumb thing for me to

2749

01:51:54,839 --> 01:51:53,650

say on your program because now all the

2750

01:51:57,209 --> 01:51:54,849

people listening said well we don't have

2751
01:51:59,129 --> 01:51:57,219
to buy the book now but you should mind

2752
01:52:00,959 --> 01:51:59,139
the book because you get all you get it

2753
01:52:02,160 --> 01:52:00,969
all wrapped up in a nice package and

2754
01:52:04,530 --> 01:52:02,170
you'll understand exactly where I'm

2755
01:52:06,419 --> 01:52:04,540
coming from oh sure and there's tons of

2756
01:52:10,229 --> 01:52:06,429
detail that is interesting detail that

2757
01:52:13,620 --> 01:52:10,239
we haven't gotten to and you make

2758
01:52:15,990 --> 01:52:13,630
comments and comparisons of other cases

2759
01:52:20,010 --> 01:52:16,000
in the New Mexico area I mean including

2760
01:52:22,169 --> 01:52:20,020
Kansas Wichita Falls and and I like how

2761
01:52:23,700 --> 01:52:22,179
you do compare them because because like

2762
01:52:28,819 --> 01:52:23,710
I had said at the beginning of the show

2763
01:52:33,390 --> 01:52:28,829

it I think it helps one understand the

2764

01:52:34,890 --> 01:52:33,400

investigative process in ufology well

2765

01:52:36,149 --> 01:52:34,900

what's interesting I should say what I

2766

01:52:37,490 --> 01:52:36,159

don't mean interrupt but what's

2767

01:52:39,140 --> 01:52:37,500

interesting is I have been

2768

01:52:42,800 --> 01:52:39,150

criticized for padding the book by

2769

01:52:44,690 --> 01:52:42,810

putting that stuff in there oh no no and

2770

01:52:47,360 --> 01:52:44,700

I was thinking am I thinking was by

2771

01:52:49,070 --> 01:52:47,370

doing that is you know the case the case

2772

01:52:51,400 --> 01:52:49,080

is stand alone we can look at just the

2773

01:52:55,040 --> 01:52:51,410

evidence on the supports a Korell case

2774

01:52:57,860 --> 01:52:55,050

but this other these other cases this

2775

01:52:59,600 --> 01:52:57,870

other information provides a context for

2776
01:53:01,520 --> 01:52:59,610
the whole thing and I think that context

2777
01:53:03,560 --> 01:53:01,530
is what is important here when we look

2778
01:53:06,170 --> 01:53:03,570
at the Socorro case so I thought that

2779
01:53:10,070 --> 01:53:06,180
information was necessary to take a

2780
01:53:11,660 --> 01:53:10,080
look at that and give you know one of

2781
01:53:14,570 --> 01:53:11,670
the people who criticized the book was

2782
01:53:18,620 --> 01:53:14,580
somebody who's very deeply a mesh into

2783
01:53:20,750 --> 01:53:18,630
the Socorro case and into UFOs so a lot

2784
01:53:23,570 --> 01:53:20,760
of the information that I provided in

2785
01:53:25,540 --> 01:53:23,580
the book that I thought of would help

2786
01:53:28,220 --> 01:53:25,550
people understand it he already knew

2787
01:53:29,750 --> 01:53:28,230
because of his own research and the

2788
01:53:32,960 --> 01:53:29,760

years that he had conducted the research

2789

01:53:36,200 --> 01:53:32,970

but there are things in the book that

2790

01:53:39,500 --> 01:53:36,210

have not been publicized before but

2791

01:53:42,410 --> 01:53:39,510

these other cases were important to give

2792

01:53:44,030 --> 01:53:42,420

a context to the whole thing and you

2793

01:53:45,770 --> 01:53:44,040

know somebody read it wanting to read

2794

01:53:48,440 --> 01:53:45,780

about the Socorro cases someone doesn't

2795

01:53:50,420 --> 01:53:48,450

want to necessarily be dragged into the

2796

01:53:51,710 --> 01:53:50,430

Arnold sighting which I thought was

2797

01:53:52,520 --> 01:53:51,720

important for those who didn't

2798

01:53:55,460 --> 01:53:52,530

understand

2799

01:53:58,730 --> 01:53:55,470

ufology in some of the other landing

2800

01:54:00,350 --> 01:53:58,740

cases where the beings were seen I think

2801
01:54:02,120 --> 01:54:00,360
were important to give you an idea of

2802
01:54:05,030 --> 01:54:02,130
what sort of things are reported by the

2803
01:54:06,920 --> 01:54:05,040
written by reliable sources and what

2804
01:54:09,680 --> 01:54:06,930
evidence supports though there was a

2805
01:54:12,770 --> 01:54:09,690
landing in Kansas that I thought was

2806
01:54:14,600 --> 01:54:12,780
important because of the physical

2807
01:54:19,670 --> 01:54:14,610
evidence left behind in the description

2808
01:54:21,170 --> 01:54:19,680
of the the being so I I thought that

2809
01:54:25,160 --> 01:54:21,180
information was important to give you a

2810
01:54:28,370 --> 01:54:25,170
context for the entire case yes I get

2811
01:54:30,650 --> 01:54:28,380
when you first went down that road I did

2812
01:54:31,490 --> 01:54:30,660
have a moment of oh gosh we're gonna go

2813
01:54:34,430 --> 01:54:31,500

through the whole history if you

2814

01:54:36,440 --> 01:54:34,440

followed you right now but but but it

2815

01:54:39,200 --> 01:54:36,450

made sense and he didn't linger too long

2816

01:54:41,150 --> 01:54:39,210

on one thing or another and like I said

2817

01:54:44,240 --> 01:54:41,160

it was actually a refreshing read even

2818

01:54:48,680 --> 01:54:44,250

though you were recapping some of you

2819

01:54:50,240 --> 01:54:48,690

know other well-known stories but also I

2820

01:54:50,900 --> 01:54:50,250

also tried to provide you know for the

2821

01:54:52,520 --> 01:54:50,910

going

2822

01:54:54,410 --> 01:54:52,530

to these other cases and if I didn't go

2823

01:54:56,840 --> 01:54:54,420

into the depth I tried to provide the

2824

01:54:58,970 --> 01:54:56,850

sources so somebody who is interested in

2825

01:55:01,400 --> 01:54:58,980

that case could follow up on them on it

2826

01:55:03,920 --> 01:55:01,410

themselves and see if I adequately

2827

01:55:06,260 --> 01:55:03,930

addressed it or accurately addressed it

2828

01:55:08,120 --> 01:55:06,270

or if I went off on a tangent with those

2829

01:55:10,390 --> 01:55:08,130

cases so I tried to provide the

2830

01:55:14,440 --> 01:55:10,400

information so that you as the reader

2831

01:55:16,730 --> 01:55:14,450

could gather additional information

2832

01:55:19,040 --> 01:55:16,740

without having to go through all the

2833

01:55:20,540 --> 01:55:19,050

trials and tribulations I did to get to

2834

01:55:22,040 --> 01:55:20,550

those points so you know I gave you the

2835

01:55:24,110 --> 01:55:22,050

websites give you the names of the books

2836

01:55:26,150 --> 01:55:24,120

give you the names of the MUFON Journal

2837

01:55:27,680 --> 01:55:26,160

where the or the International UFO

2838

01:55:29,450 --> 01:55:27,690

reporter where that information might

2839

01:55:30,200 --> 01:55:29,460

have might have been so you can look it

2840

01:55:33,380 --> 01:55:30,210

up yourself

2841

01:55:36,290 --> 01:55:33,390

yeah and it was a fantastic read I still

2842

01:55:39,410 --> 01:55:36,300

have twenty four pages to go but but I'm

2843

01:55:41,960 --> 01:55:39,420

dead serious it really is a read a book

2844

01:55:43,220 --> 01:55:41,970

worth picking up to read my guest

2845

01:55:45,680 --> 01:55:43,230

tonight has been Kevin Randall Randall

2846

01:55:48,290 --> 01:55:45,690

thank you so much for coming onto the

2847

01:55:50,600 --> 01:55:48,300

paramon I really appreciate it I thought

2848

01:55:51,830 --> 01:55:50,610

it was more fun than getting dirty there

2849

01:55:55,460 --> 01:55:51,840

you go all right I mean there's always

2850

01:55:57,110 --> 01:55:55,470

an alternative and you're a zombie Smith

2851

01:55:59,030 --> 01:55:57,120

for paranoia now on the inception radio

2852

01:56:02,510 --> 01:55:59,040

network and I want to thank Joe champion

2853

01:56:05,000 --> 01:56:02,520

MJ Lucas and Bob tarmac from our end for

2854

01:56:08,090 --> 01:56:05,010

making this show possible and for all of
