

# The Trillion Dollar Mistake | U.S. Military Builds an Airplane that Can't Fly

Listen on

[inceptionradionetwork.com](http://inceptionradionetwork.com)

1  
00:00:03,290 --> 00:00:02,119  
Hollier get to Old Navy today Cali 12 6

2  
00:00:04,340 --> 00:00:03,300  
to 12 12 excludes in-store clearance

3  
00:00:06,079 --> 00:00:04,350  
gift cards register Lena items today

4  
00:00:07,430 --> 00:00:06,089  
only in shooting only deals good evening

5  
00:00:10,009 --> 00:00:07,440  
everyone and welcome to Mack Maloney's

6  
00:00:12,200 --> 00:00:10,019  
military exile show here on the public

7  
00:00:13,640 --> 00:00:12,210  
streaming network hey this is Mike

8  
00:00:15,790 --> 00:00:13,650  
Maloney and in the studio with us

9  
00:00:18,950 --> 00:00:15,800  
tonight very special occasion tonight

10  
00:00:21,679 --> 00:00:18,960  
the very famous Juan Juan hello Mack how

11  
00:00:25,880 --> 00:00:21,689  
are you today I producer okay you don't

12  
00:00:27,320 --> 00:00:25,890  
really want to know and also in the

13  
00:00:30,339 --> 00:00:27,330

studio with us tonight is a very famous

14

00:00:32,269 --> 00:00:30,349

commander Cobra jump I'm saying Hut

15

00:00:34,700 --> 00:00:32,279

salute return gentlemen thank you very

16

00:00:37,970 --> 00:00:34,710

much Mack you may not feel well but you

17

00:00:39,530 --> 00:00:37,980

look fabulous thank you very much he's

18

00:00:42,729 --> 00:00:39,540

just here for a salute he has to come

19

00:00:45,770 --> 00:00:42,739

once a month to see it in person party

20

00:00:48,170 --> 00:00:45,780

so he's here tonight and we're very

21

00:00:52,100 --> 00:00:48,180

interesting show I'm not so sure we can

22

00:00:54,290 --> 00:00:52,110

top last week's show but we'll try first

23

00:00:57,650 --> 00:00:54,300

of all we're going to be talking to well

24

00:00:58,790 --> 00:00:57,660

one is going to present day something

25

00:01:00,549 --> 00:00:58,800

we've been talking about here off here

26

00:01:02,479 --> 00:01:00,559

for wow it's a place called hogs hat

27

00:01:05,149 --> 00:01:02,489

which is the middle of the Pine Barrens

28

00:01:07,039 --> 00:01:05,159

in New Jersey and this place is so

29

00:01:08,810 --> 00:01:07,049

isolated so creepy that a lot of people

30

00:01:11,330 --> 00:01:08,820

in New Jersey doesn't even realize is

31

00:01:14,030 --> 00:01:11,340

like a 400 square foot square mile

32

00:01:16,850 --> 00:01:14,040

forest in the middle of the state how

33

00:01:21,170 --> 00:01:16,860

big is it it's actually 1,500 square

34

00:01:23,539 --> 00:01:21,180

miles yeah and I bet Jess Lee populated

35

00:01:25,820 --> 00:01:23,549

by an average of 15 people force per

36

00:01:27,980 --> 00:01:25,830

square mile yeah there's nothing there I

37

00:01:31,609 --> 00:01:27,990

bet you half the people who know New

38

00:01:34,219 --> 00:01:31,619

Jersey have no idea what Pine Barrens is

39

00:01:36,319 --> 00:01:34,229

you know how well they've heard of it

40

00:01:37,789 --> 00:01:36,329

like that guest our guest last week

41

00:01:39,469 --> 00:01:37,799

heard of it yes that's true right it's

42

00:01:40,940 --> 00:01:39,479

written New Jersey Devil comes from all

43

00:01:43,789 --> 00:01:40,950

kinds of weird things but there was some

44

00:01:45,530 --> 00:01:43,799

very strange that happened at this

45

00:01:47,630 --> 00:01:45,540

little town in the middle of this place

46

00:01:49,639 --> 00:01:47,640

called the Hogs Hat and donjuan one's

47

00:01:50,990 --> 00:01:49,649

gonna be telling us about that and then

48

00:01:53,510 --> 00:01:51,000

coming up after that we're gonna be

49

00:01:57,709 --> 00:01:53,520

talking to switchblade Steve he's gonna

50

00:02:01,730 --> 00:01:57,719

be telling us about a British pilot RAF

51  
00:02:03,469 --> 00:02:01,740  
pilot who it was not an abductee by UFOs

52  
00:02:05,630 --> 00:02:03,479  
but he was definitely a contact II he

53  
00:02:07,499 --> 00:02:05,640  
was someone who had kind of like an open

54  
00:02:10,330 --> 00:02:07,509  
channel as they say in the booze

55  
00:02:13,230 --> 00:02:10,340  
to aliens for some reason and he was

56  
00:02:15,370 --> 00:02:13,240  
also someone who was known as a very

57  
00:02:16,480 --> 00:02:15,380  
well-qualified pilot he might have been

58  
00:02:18,730 --> 00:02:16,490  
even a test pilot

59  
00:02:21,760 --> 00:02:18,740  
so um switchblade Steve will be

60  
00:02:24,190 --> 00:02:21,770  
reporting on him and then for the second

61  
00:02:25,960 --> 00:02:24,200  
half of the show we have a special we're

62  
00:02:28,210 --> 00:02:25,970  
doing a special tonight I hope a lot of

63  
00:02:31,229 --> 00:02:28,220

people up then know what the f-35 is if

64

00:02:33,190 --> 00:02:31,239

not maybe you can look it up google it

65

00:02:34,590 --> 00:02:33,200

because later on in the show we're going

66

00:02:37,150 --> 00:02:34,600

to be talking about this controversial

67

00:02:39,940 --> 00:02:37,160

fight a plane that the US military is

68

00:02:41,470 --> 00:02:39,950

building called the f-35 and it's one of

69

00:02:43,630 --> 00:02:41,480

these things it's kind of like one line

70

00:02:47,590 --> 00:02:43,640

it's kind of like the Swiss Army knife

71

00:02:48,910 --> 00:02:47,600

of jet fighters it's supposed to shoot

72

00:02:50,949 --> 00:02:48,920

it out of the jet fighters it's supposed

73

00:02:52,570 --> 00:02:50,959

to plump you know stuff on the ground

74

00:02:54,160 --> 00:02:52,580

they're supposed people in the gun I

75

00:02:55,900 --> 00:02:54,170

think you can probably launch nuclear

76  
00:02:58,240 --> 00:02:55,910  
missiles from it and works with drones

77  
00:03:00,550 --> 00:02:58,250  
and all this stuff it one version takes

78  
00:03:04,120 --> 00:03:00,560  
off vertically it's engine actually

79  
00:03:07,120 --> 00:03:04,130  
moves I mean open up a can of sea rats

80  
00:03:08,650 --> 00:03:07,130  
in case you can do anything it can do

81  
00:03:12,100 --> 00:03:08,660  
anything it's really something else but

82  
00:03:14,289 --> 00:03:12,110  
they cost unda money they it was wants

83  
00:03:16,330 --> 00:03:14,299  
to build like 5,000 of these things

84  
00:03:19,240 --> 00:03:16,340  
they've sold them a number of them to

85  
00:03:23,020 --> 00:03:19,250  
our allies overseas and a lot of people

86  
00:03:24,970 --> 00:03:23,030  
say that it doesn't work I put a damper

87  
00:03:27,220 --> 00:03:24,980  
on the party but anyway we're gonna be

88  
00:03:28,840 --> 00:03:27,230

talking about the f-35 with Rob back

89

00:03:31,720 --> 00:03:28,850

house and of Juarez boring and the

90

00:03:34,090 --> 00:03:31,730

commander is here and it should be quite

91

00:03:36,270 --> 00:03:34,100

the discussion so anything to add the

92

00:03:39,699 --> 00:03:36,280

m11 no that's a full house right there

93

00:03:43,870 --> 00:03:39,709

last week we talked to a good friend

94

00:03:46,840 --> 00:03:43,880

Sammy in Hollywood hmm about Siphon la

95

00:03:48,270 --> 00:03:46,850

yep and I'm happy to report that they

96

00:03:51,250 --> 00:03:48,280

sold out again

97

00:03:53,470 --> 00:03:51,260

Fantastico it's a great show sigh fist

98

00:03:55,599 --> 00:03:53,480

la I'm sure there's a few more days left

99

00:03:59,470 --> 00:03:55,609

in it basically they're like 20 act

100

00:04:01,569 --> 00:03:59,480

plays on a live stage the Acme theater

101  
00:04:03,670 --> 00:04:01,579  
on La Brea in California and now I see

102  
00:04:05,560 --> 00:04:03,680  
Angeles people from Star Trek people

103  
00:04:06,759 --> 00:04:05,570  
from Star Wars people from the sci-fi

104  
00:04:09,069 --> 00:04:06,769  
channel they come on they act these

105  
00:04:09,970 --> 00:04:09,079  
little 20 minute sci-fi plays and I'm

106  
00:04:11,259 --> 00:04:09,980  
telling you they're great

107  
00:04:13,449 --> 00:04:11,269  
I meant to ask her if they were filming

108  
00:04:14,949 --> 00:04:13,459  
this and putting it out on DVD or say

109  
00:04:17,979 --> 00:04:14,959  
should they should there might be a lot

110  
00:04:19,990 --> 00:04:17,989  
of contractual things yes

111  
00:04:21,819 --> 00:04:20,000  
it's going over really well in LA and we

112  
00:04:23,500 --> 00:04:21,829  
every time we talk to the people from

113  
00:04:25,120 --> 00:04:23,510

sigh fest la we say please bring it to

114

00:04:27,490 --> 00:04:25,130

bust and where we are because we think

115

00:04:29,740 --> 00:04:27,500

it'd be big anyway so that's the show

116

00:04:31,600 --> 00:04:29,750

for the night so why don't we do this go

117

00:04:33,010 --> 00:04:31,610

to a couple commercials and after that

118

00:04:35,680 --> 00:04:33,020

we'll be back with one one and his

119

00:04:43,600 --> 00:04:35,690

report on onyx hat so please stay with

120

00:04:45,700 --> 00:04:43,610

us here on the public streaming network

121

00:04:47,320 --> 00:04:45,710

this myth and in the studio with us

122

00:04:49,689 --> 00:04:47,330

tonight once again very excited well I'm

123

00:04:51,219 --> 00:04:49,699

honest here and also community Cobra in

124

00:04:53,670 --> 00:04:51,229

the studio with us tonight for a big

125

00:04:55,780 --> 00:04:53,680

f-35 to be coming up later on but first

126

00:04:59,440 --> 00:04:55,790

one we've been talking about this for

127

00:05:01,330 --> 00:04:59,450

several weeks and I just know of this

128

00:05:05,379 --> 00:05:01,340

place but I did a chapter in a book that

129

00:05:08,620 --> 00:05:05,389

I wrote called beyond area51 still on

130

00:05:11,890 --> 00:05:08,630

sale everywhere and and I just someone

131

00:05:14,230 --> 00:05:11,900

had a DJ who I knew at a station down in

132

00:05:16,629 --> 00:05:14,240

Philadelphia actually turn me on to this

133

00:05:18,310 --> 00:05:16,639

place because their studios are actually

134

00:05:20,379 --> 00:05:18,320

in the Pine Barrens and they broadcast

135

00:05:22,690 --> 00:05:20,389

across some of the Delaware River to

136

00:05:24,100 --> 00:05:22,700

Philly awesome really yeah so they

137

00:05:25,240 --> 00:05:24,110

weren't really in Philly so this guy had

138

00:05:27,400 --> 00:05:25,250

to like drive through the Pine Barrens

139

00:05:30,610 --> 00:05:27,410

you know every night he was on midnight

140

00:05:32,140 --> 00:05:30,620

and I had a couple friends of mine who

141

00:05:34,000 --> 00:05:32,150

were in the music business who were

142

00:05:36,760 --> 00:05:34,010

guests of his so I had to give them

143

00:05:38,200 --> 00:05:36,770

directions to go when they saw UFOs and

144

00:05:43,480 --> 00:05:38,210

ghosts and everything in this place you

145

00:05:45,159 --> 00:05:43,490

know it's supposed to be the enormous

146

00:05:46,870 --> 00:05:45,169

it's the world is you know it was 1,500

147

00:05:50,469 --> 00:05:46,880

square miles of no New Jersey and it's

148

00:05:53,650 --> 00:05:50,479

and it's just it's haunting you it sound

149

00:05:56,020 --> 00:05:53,660

like it at one time or maybe maybe soon

150

00:05:58,390 --> 00:05:56,030

it might be a federal wildlife preserve

151

00:06:02,500 --> 00:05:58,400

or something that it's it's really a

152

00:06:05,050 --> 00:06:02,510

real place and it it's called the Pine

153

00:06:09,940 --> 00:06:05,060

Barrens it's in New Jersey and it's it's

154

00:06:12,460 --> 00:06:09,950

noted for for its lack of interesting

155

00:06:16,360 --> 00:06:12,470

vegetation other than me and eating

156

00:06:17,860 --> 00:06:16,370

plants like venus flytraps and things

157

00:06:18,279 --> 00:06:17,870

that they're carnivorous plants of some

158

00:06:21,820 --> 00:06:18,289

sort

159

00:06:24,219 --> 00:06:21,830

and the the st. the sand is the the

160

00:06:26,320 --> 00:06:24,229

ground is too sandy and too acidic to to

161

00:06:28,630 --> 00:06:26,330

really be hospitable for for farming

162

00:06:31,690 --> 00:06:28,640

anything anything like that but it's

163

00:06:32,920 --> 00:06:31,700

it's it's out there along the New Jersey

164

00:06:35,230 --> 00:06:32,930

by the Garden State Parkway in New

165

00:06:39,430 --> 00:06:35,240

Jersey I don't know what X is off of do

166

00:06:41,440 --> 00:06:39,440

you know what exit I know that it goes

167

00:06:43,180 --> 00:06:41,450

on for quite a while on that a lot and

168

00:06:44,350 --> 00:06:43,190

people a lot of people take that you

169

00:06:46,060 --> 00:06:44,360

know that route you know into New York

170

00:06:47,800 --> 00:06:46,070

obviously and down to Florida don't want

171

00:06:49,750 --> 00:06:47,810

and and you know really a lot of people

172

00:06:51,370 --> 00:06:49,760

don't realize it though it's on the map

173

00:06:52,840 --> 00:06:51,380

yeah it's on the map but it's you go

174

00:06:55,540 --> 00:06:52,850

right through the middle of it and we

175

00:06:59,470 --> 00:06:55,550

had I guess time last week it's all this

176

00:07:02,380 --> 00:06:59,480

I know two weeks ago her name was and

177

00:07:05,410 --> 00:07:02,390

Angeline Rose Troy right right yeah

178

00:07:06,970 --> 00:07:05,420

beautiful actress Hollywood she was from

179

00:07:08,170 --> 00:07:06,980

New Jersey she said everything she drove

180

00:07:09,520 --> 00:07:08,180

through this she got the creeps and a

181

00:07:11,020 --> 00:07:09,530

lot of people have said that as well I

182

00:07:13,300 --> 00:07:11,030

don't know and imagine doing that at

183

00:07:14,620 --> 00:07:13,310

night so anyway do you have do you have

184

00:07:17,890 --> 00:07:14,630

like a global history they were this

185

00:07:19,890 --> 00:07:17,900

place or well I I have a sort of a

186

00:07:23,950 --> 00:07:19,900

contemporary history goes back to say

187

00:07:25,150 --> 00:07:23,960

the 1700s because it's it's been such a

188

00:07:26,410 --> 00:07:25,160

weird place and they said you know

189

00:07:30,640 --> 00:07:26,420

there's all kinds of ghosts there and

190

00:07:32,820 --> 00:07:30,650

whatnot and it's it's noted and this is

191

00:07:37,060 --> 00:07:32,830

something I never knew it's noted for

192

00:07:38,650 --> 00:07:37,070

the New Jersey Devil and I was I was

193

00:07:41,020 --> 00:07:38,660

wondering was where the hockey team got

194

00:07:43,390 --> 00:07:41,030

that name but this New Jersey Devil was

195

00:07:47,560 --> 00:07:43,400

born in 1735 what was the New Jersey

196

00:07:49,210 --> 00:07:47,570

Devil you may ask this this woman named

197

00:07:51,580 --> 00:07:49,220

mrs. Leeds her mother Leeds as they

198

00:07:54,190 --> 00:07:51,590

called her she had 12 children and guess

199

00:07:57,670 --> 00:07:54,200

what she was pregnant again and bore her

200

00:08:00,130 --> 00:07:57,680

13th child it was his son but he was

201  
00:08:01,990 --> 00:08:00,140  
cursed from the very beginning and you

202  
00:08:04,270 --> 00:08:02,000  
could tell he was cursed cos had a very

203  
00:08:06,340 --> 00:08:04,280  
weird look about him he had I have a

204  
00:08:08,470 --> 00:08:06,350  
picture of him hearing on my computer

205  
00:08:11,230 --> 00:08:08,480  
but he had the body of a serpent the

206  
00:08:14,920 --> 00:08:11,240  
wings of a bat head of a horse or goat

207  
00:08:16,960 --> 00:08:14,930  
and a devil's forked tail and some

208  
00:08:19,000 --> 00:08:16,970  
cloven hooves by the looks of this

209  
00:08:22,390 --> 00:08:19,010  
illustration that I have here luckily we

210  
00:08:23,890 --> 00:08:22,400  
do this on Mother's Day know if he was

211  
00:08:29,490 --> 00:08:23,900  
he's been haunting the Pine Barrens

212  
00:08:32,800 --> 00:08:29,500  
forever and ever he was born and quickly

213  
00:08:36,070 --> 00:08:32,810

harassed the Midwife and the other nurse

214

00:08:37,719 --> 00:08:36,080

attendants that were there and a real

215

00:08:39,100 --> 00:08:37,729

statement a real statement for a rough

216

00:08:41,080 --> 00:08:39,110

breastfeeding will have been made with

217

00:08:42,610 --> 00:08:41,090

this yeah he was kind of like biting a

218

00:08:44,790 --> 00:08:42,620

lot so I don't think you'd be one

219

00:08:47,130 --> 00:08:44,800

oppressed want to breastfeed this this

220

00:08:50,009 --> 00:08:47,140

Tyco and he raised a little havoc in the

221

00:08:52,740 --> 00:08:50,019

room and then flew up the chimney so

222

00:08:56,550 --> 00:08:52,750

that was that but legend has it that he

223

00:08:57,810 --> 00:08:56,560

was a pretty bad guy and if you see him

224

00:09:00,420 --> 00:08:57,820

around you want to stay away from him

225

00:09:02,910 --> 00:09:00,430

you know that wasn't that wasn't the

226

00:09:04,889 --> 00:09:02,920

only thing was going on was Captain Kidd

227

00:09:07,290 --> 00:09:04,899

there was the wreck out there in the

228

00:09:08,699 --> 00:09:07,300

ocean Captain Kidd was headless walking

229

00:09:10,139 --> 00:09:08,709

around that's what people were saying oh

230

00:09:12,990 --> 00:09:10,149

no he saw Captain Kidd all the time

231

00:09:14,460 --> 00:09:13,000

walking around Pine Barrens and he was

232

00:09:17,340 --> 00:09:14,470

he was looking for the rest of his crew

233

00:09:20,400 --> 00:09:17,350

so he's walking around and some people

234

00:09:22,230 --> 00:09:20,410

say they saw him but that it got its

235

00:09:25,380 --> 00:09:22,240

name though by this dude named Jacob

236

00:09:28,319 --> 00:09:25,390

Once they called the place on his hat

237

00:09:31,500 --> 00:09:28,329

because it was perhaps some kind of

238

00:09:33,480 --> 00:09:31,510

incident in town where an altercation

239

00:09:35,910 --> 00:09:33,490

kind of took place and somebody might

240

00:09:38,670 --> 00:09:35,920

have stopped in his hat and he was a

241

00:09:40,440 --> 00:09:38,680

little bit upset about it and he picked

242

00:09:42,780 --> 00:09:40,450

it up and threw it up in the air landed

243

00:09:45,900 --> 00:09:42,790

in the tree forever and ever has been

244

00:09:49,380 --> 00:09:45,910

called orange songs his hat on oranges

245

00:09:51,240 --> 00:09:49,390

hat right oMG aren't orange pronouncing

246

00:09:53,610 --> 00:09:51,250

it correctly I think so yeah I don't I

247

00:09:54,420 --> 00:09:53,620

there's so much about this particular

248

00:09:55,980 --> 00:09:54,430

story

249

00:09:58,769 --> 00:09:55,990

commander Cobra stepping in the air for

250

00:10:00,329 --> 00:09:58,779

a couple seconds why Mac is attending to

251

00:10:02,760 --> 00:10:00,339

the next part of the show

252

00:10:04,470 --> 00:10:02,770

I found the young's hat thing there's a

253

00:10:06,420 --> 00:10:04,480

lot of controversy on this particular

254

00:10:08,819 --> 00:10:06,430

issue as well where they talk about it

255

00:10:11,460 --> 00:10:08,829

that it's a complete urban legend like

256

00:10:12,900 --> 00:10:11,470

it's completely been created out of out

257

00:10:14,579 --> 00:10:12,910

of it and then when you look back at the

258

00:10:16,949 --> 00:10:14,589

historical part of it there is actual

259

00:10:19,380 --> 00:10:16,959

events that tie into it as well a lot of

260

00:10:22,230 --> 00:10:19,390

real stuff that was alleged to have

261

00:10:23,610 --> 00:10:22,240

happened and one of the things that

262

00:10:26,010 --> 00:10:23,620

happened was there were these two twins

263

00:10:29,610 --> 00:10:26,020

that lived there named Frank and Althea

264

00:10:32,220 --> 00:10:29,620

Dobbs they're from Texas I spent the

265

00:10:34,769 --> 00:10:32,230

early childhood living in an UFO type of

266

00:10:37,470 --> 00:10:34,779

kombu I didn't know those UFO kommune

267

00:10:42,960 --> 00:10:37,480

but it's been pretty cool it is the land

268

00:10:45,120 --> 00:10:42,970

of opportunity this I think so so if

269

00:10:48,389 --> 00:10:45,130

you're into that and we are here that

270

00:10:50,340 --> 00:10:48,399

being in a UFO Communist it doesn't get

271

00:10:52,550 --> 00:10:50,350

better than that but they're kind of

272

00:10:54,780 --> 00:10:52,560

bright kids and they did end up at the

273

00:10:57,580 --> 00:10:54,790

University of Texas and they created the

274

00:10:59,380 --> 00:10:57,590

science they called cognitive chaos

275

00:11:03,910 --> 00:10:59,390

interesting name I don't know if that

276

00:11:05,890 --> 00:11:03,920

those courses are still offered and they

277

00:11:08,380 --> 00:11:05,900

say that with their science of cognitive

278

00:11:10,270 --> 00:11:08,390

chaos that it had some marvelous things

279

00:11:11,950 --> 00:11:10,280

they could do with it they could heal

280

00:11:13,840 --> 00:11:11,960

themselves of any affliction and the

281

00:11:15,820 --> 00:11:13,850

aging process and travelled to other

282

00:11:18,550 --> 00:11:15,830

dimensions this was the key the

283

00:11:21,850 --> 00:11:18,560

traveling to other dimensions part so

284

00:11:23,830 --> 00:11:21,860

they tried to develop that at Princeton

285

00:11:25,330 --> 00:11:23,840

University apparently a pretty smart to

286

00:11:27,460 --> 00:11:25,340

get into Princeton University I would

287

00:11:30,880 --> 00:11:27,470

think and they're working to prove that

288

00:11:34,930 --> 00:11:30,890

this cognitive chaos theory was totally

289

00:11:36,550 --> 00:11:34,940

possible but the rest of the the school

290

00:11:38,680 --> 00:11:36,560

wasn't buying it and they were expelled

291

00:11:40,900 --> 00:11:38,690

from Princeton too bad but they said

292

00:11:43,870 --> 00:11:40,910

we're gonna so what's the date that this

293

00:11:47,680 --> 00:11:43,880

is occurring at just in 1:1 just in in

294

00:11:49,540 --> 00:11:47,690

round numbers this was the mid-eighteen

295

00:11:50,770 --> 00:11:49,550

the mid eighteen hundreds was Jacobs

296

00:11:57,850 --> 00:11:50,780

orange throwing his hat up in the air

297

00:12:00,640 --> 00:11:57,860

the cognitive chaos was I think the late

298

00:12:01,960 --> 00:12:00,650

70s early 80s perhaps they worked on

299

00:12:04,390 --> 00:12:01,970

this theory but they were expelled

300

00:12:06,730 --> 00:12:04,400

because they the the rest of school

301  
00:12:08,170 --> 00:12:06,740  
thought they're idiots but they wanted

302  
00:12:11,770 --> 00:12:08,180  
to develop this theory of the morning

303  
00:12:13,600 --> 00:12:11,780  
but they did was cruising up to to a

304  
00:12:17,230 --> 00:12:13,610  
pine barrens and with them they brought

305  
00:12:18,730 --> 00:12:17,240  
a an Airstream trailer I love those

306  
00:12:21,610 --> 00:12:18,740  
Airstream trailers they're very sleek

307  
00:12:23,740 --> 00:12:21,620  
and shiny also used for the space

308  
00:12:25,030 --> 00:12:23,750  
program for the first astronauts one

309  
00:12:27,550 --> 00:12:25,040  
they really yeah when the astronauts

310  
00:12:29,470 --> 00:12:27,560  
returned they weren't sure if they had

311  
00:12:31,000 --> 00:12:29,480  
collected biological material and then

312  
00:12:32,980 --> 00:12:31,010  
went to the moon so when they were put

313  
00:12:35,260 --> 00:12:32,990

into isolation on the aircraft carrier

314

00:12:37,780 --> 00:12:35,270

it was Airstream trailers that we used

315

00:12:39,400 --> 00:12:37,790

Wow so you see those pictures of them

316

00:12:42,250 --> 00:12:39,410

that's where they were kept in in

317

00:12:44,260 --> 00:12:42,260

quarantine for I forgot how long it was

318

00:12:46,240 --> 00:12:44,270

it was a good couple weeks maybe a month

319

00:12:47,710 --> 00:12:46,250

until it was proved that they obviously

320

00:12:50,650 --> 00:12:47,720

there was nothing biological on the and

321

00:12:52,330 --> 00:12:50,660

the void of the Moon but for those of us

322

00:12:54,280 --> 00:12:52,340

that believe we did go the moon that's a

323

00:12:56,110 --> 00:12:54,290

couple return to a different story at a

324

00:12:57,730 --> 00:12:56,120

different time so they didn't get this

325

00:13:00,490 --> 00:12:57,740

Airstream trailer to live in and they

326

00:13:02,950 --> 00:13:00,500

they use this Airstream trailer to

327

00:13:05,920 --> 00:13:02,960

create like this gateway to another

328

00:13:09,550 --> 00:13:05,930

dimension on one side of the Airstream

329

00:13:10,829 --> 00:13:09,560

trailer is the Pine Barrens as we know

330

00:13:12,729 --> 00:13:10,839

it and love it

331

00:13:14,379 --> 00:13:12,739

fifteen hundred square miles of

332

00:13:17,019 --> 00:13:14,389

desolation and creatures running around

333

00:13:18,519 --> 00:13:17,029

and the other side was at the other

334

00:13:19,960 --> 00:13:18,529

dimension they call this Airstream

335

00:13:22,269 --> 00:13:19,970

trailer the the gate

336

00:13:23,710 --> 00:13:22,279

so this is the gateway to another

337

00:13:26,729 --> 00:13:23,720

dimension how they pull this off well

338

00:13:29,469 --> 00:13:26,739

they they put together this device this

339

00:13:31,449 --> 00:13:29,479

capsule this vehicle that would

340

00:13:34,119 --> 00:13:31,459

transport them to the other dimension

341

00:13:36,460 --> 00:13:34,129

how do they do that they round up a

342

00:13:39,369 --> 00:13:36,470

volunteer a couple of volunteers and

343

00:13:44,249 --> 00:13:39,379

they put him in the capsule off they

344

00:13:45,909 --> 00:13:44,259

went and they were gone for a week and

345

00:13:48,519 --> 00:13:45,919

then guess what

346

00:13:50,799 --> 00:13:48,529

they came back and the first person that

347

00:13:53,169 --> 00:13:50,809

came back says hey yeah I went to this

348

00:13:55,629 --> 00:13:53,179

other dimension and it looked just like

349

00:13:56,489 --> 00:13:55,639

the Pine Barrens except there was nobody

350

00:14:00,939 --> 00:13:56,499

there

351  
00:14:02,289 --> 00:14:00,949  
an empty Pine Barrens that word spread

352  
00:14:04,150 --> 00:14:02,299  
that this might have been a safe place

353  
00:14:05,739 --> 00:14:04,160  
to go so they had a bunch of other

354  
00:14:08,109 --> 00:14:05,749  
volunteers to go into this other

355  
00:14:11,289 --> 00:14:08,119  
dimension a number of people came back

356  
00:14:14,499 --> 00:14:11,299  
and they they populated the area kind of

357  
00:14:16,149 --> 00:14:14,509  
except they were commuters apparently

358  
00:14:19,269 --> 00:14:16,159  
the Pine Barrens didn't have you know

359  
00:14:21,249 --> 00:14:19,279  
shopping malls and you know III did a

360  
00:14:23,789 --> 00:14:21,259  
lot of statement centers I did a good

361  
00:14:27,549 --> 00:14:23,799  
bit of test flying over the Pine Barrens

362  
00:14:29,169 --> 00:14:27,559  
the early 2000s when I was working on a

363  
00:14:32,469 --> 00:14:29,179

helicopter project up in that part of

364

00:14:35,439 --> 00:14:32,479

the world and it has a definite vibe to

365

00:14:37,599 --> 00:14:35,449

it and as our guest a couple weeks ago

366

00:14:39,759 --> 00:14:37,609

was speaking about I'm not one to

367

00:14:41,289 --> 00:14:39,769

consider himself extremely sensitive to

368

00:14:44,379 --> 00:14:41,299

that kind of stuff but that area

369

00:14:46,269 --> 00:14:44,389

definitely has a feel to it so if it

370

00:14:48,669 --> 00:14:46,279

works on someone as obtuse as me it

371

00:14:51,069 --> 00:14:48,679

obviously has something going on there

372

00:14:52,629 --> 00:14:51,079

it's a very very interesting place it's

373

00:14:54,039 --> 00:14:52,639

starting from when you go back though

374

00:14:55,629 --> 00:14:54,049

the history starting with Native

375

00:14:58,179 --> 00:14:55,639

Americans what's recorded there all the

376

00:15:01,049 --> 00:14:58,189

way up I find interesting that our to

377

00:15:04,539 --> 00:15:01,059

Texas twins here come up there at

378

00:15:06,429 --> 00:15:04,549

Princeton yep a for those of us those

379

00:15:09,369 --> 00:15:06,439

that may not know the northeast and East

380

00:15:12,639 --> 00:15:09,379

real well a college of extensive

381

00:15:14,469 --> 00:15:12,649

reputation in New Jersey just a short

382

00:15:15,909 --> 00:15:14,479

distance up the road I'm wondering if

383

00:15:18,849 --> 00:15:15,919

the twins found out about the Pine

384

00:15:20,679 --> 00:15:18,859

Barrens why they were at college why

385

00:15:21,669 --> 00:15:20,689

they're at Princeton or if that was the

386

00:15:23,859 --> 00:15:21,679

reason why they wanted to go to

387

00:15:24,580 --> 00:15:23,869

Princeton well I read bet with the twins

388

00:15:26,970 --> 00:15:24,590

probably

389

00:15:29,620 --> 00:15:26,980

a little bit on the Qt so they could

390

00:15:31,870 --> 00:15:29,630

serve Tisha's Lee study their their

391

00:15:34,900 --> 00:15:31,880

craft I'd use the resources of the

392

00:15:36,880 --> 00:15:34,910

University but obviously where it got

393

00:15:40,000 --> 00:15:36,890

out and then they were subsequently

394

00:15:41,950 --> 00:15:40,010

expelled unfortunately but or really

395

00:15:44,820 --> 00:15:41,960

fortunately because then they then they

396

00:15:48,250 --> 00:15:44,830

got the impetus to develop their their

397

00:15:49,990 --> 00:15:48,260

transportation mechanism to travel

398

00:15:51,130 --> 00:15:50,000

travel back and forth I couldn't tell

399

00:15:53,380 --> 00:15:51,140

you that I've actually seen their

400

00:15:57,120 --> 00:15:53,390

transportation areas but there are spots

401  
00:15:59,920 --> 00:15:57,130  
carved out in the Pine Barrens that have

402  
00:16:03,040 --> 00:15:59,930  
runway like structures do not paved

403  
00:16:07,030 --> 00:16:03,050  
they're just dirt on the sand runways

404  
00:16:08,320 --> 00:16:07,040  
there there are the occasional what

405  
00:16:10,030 --> 00:16:08,330  
would appear anyplace else in the

406  
00:16:11,470 --> 00:16:10,040  
country to be like a hunter's camp or a

407  
00:16:13,750 --> 00:16:11,480  
fisherman's camp but there's nothing

408  
00:16:15,850 --> 00:16:13,760  
really game wised up to hunt there as

409  
00:16:18,660 --> 00:16:15,860  
far as I know they say that even the

410  
00:16:21,190 --> 00:16:18,670  
animal population in that part of it is

411  
00:16:22,240 --> 00:16:21,200  
is very low there's not a lot of deer

412  
00:16:24,220 --> 00:16:22,250  
there because there's there's not a lot

413  
00:16:28,660 --> 00:16:24,230

of vegetation it's it's a heavy pine

414

00:16:31,000 --> 00:16:28,670

forest with coniferous plants which live

415

00:16:33,970 --> 00:16:31,010

on the acidic soil that's so they they

416

00:16:35,500 --> 00:16:33,980

like to do their business and you know

417

00:16:37,240 --> 00:16:35,510

very restricted they're not very

418

00:16:39,400 --> 00:16:37,250

hospitable no it's not it's got a really

419

00:16:42,040 --> 00:16:39,410

strange like humans or animals it's just

420

00:16:43,570 --> 00:16:42,050

a place and from the air it's pretty

421

00:16:45,100 --> 00:16:43,580

interesting you know right off the bat

422

00:16:46,870 --> 00:16:45,110

when you come up to the boundary of it

423

00:16:48,400 --> 00:16:46,880

because it dramatically is different

424

00:16:50,350 --> 00:16:48,410

than the rest of the area around it this

425

00:16:53,080 --> 00:16:50,360

this this section is there any kind of a

426  
00:16:55,570 --> 00:16:53,090  
like an upstream force that you might

427  
00:16:57,250 --> 00:16:55,580  
feel or something like that I like I

428  
00:16:58,960 --> 00:16:57,260  
told you I got a strange vibe when I'm

429  
00:17:02,050 --> 00:16:58,970  
out there flying over it and it looks

430  
00:17:04,300 --> 00:17:02,060  
different and it has a feel to it but

431  
00:17:06,490 --> 00:17:04,310  
for its physical features you can tell

432  
00:17:10,810 --> 00:17:06,500  
when you get into that sandy land mast

433  
00:17:11,949 --> 00:17:10,820  
when you spot it so if I can understand

434  
00:17:13,330 --> 00:17:11,959  
why they would probably want to set up

435  
00:17:15,370 --> 00:17:13,340  
shop out there because it's the

436  
00:17:18,670 --> 00:17:15,380  
perfectly set up shop I also might add

437  
00:17:21,460 --> 00:17:18,680  
that it's reputed to be a location that

438  
00:17:23,560 --> 00:17:21,470

organized-crime would use for end

439

00:17:25,570 --> 00:17:23,570

activity very often mmm maybe like The

440

00:17:26,920 --> 00:17:25,580

Sopranos might drop off a few people

441

00:17:29,020 --> 00:17:26,930

there you know well I wouldn't really

442

00:17:32,920 --> 00:17:29,030

I'm not into the run not into naming

443

00:17:37,480 --> 00:17:32,930

names Juan Juan by the way you're

444

00:17:38,470 --> 00:17:37,490

listening to the Mack Melones military

445

00:17:40,120 --> 00:17:38,480

x-files on the

446

00:17:46,180 --> 00:17:40,130

public streaming network in the digital

447

00:17:47,770 --> 00:17:46,190

Dark Matter Network I want to be more

448

00:17:49,330 --> 00:17:47,780

dramatic instead I drop the bombs well I

449

00:17:54,310 --> 00:17:49,340

don't have to do a show on reeducation

450

00:17:55,330 --> 00:17:54,320

and one one can be one of the pupils so

451

00:17:57,010 --> 00:17:55,340

let me get back to the story real quick

452

00:17:59,169 --> 00:17:57,020

alright so to get the air stream is a

453

00:18:00,820 --> 00:17:59,179

gateway people going back and forth but

454

00:18:03,760 --> 00:18:00,830

there's nothing there other than the

455

00:18:07,870 --> 00:18:03,770

pine barrens is just desolate and they

456

00:18:09,669 --> 00:18:07,880

come back to purchase groceries beer

457

00:18:11,440 --> 00:18:09,679

coffee whatever it is that they need

458

00:18:14,020 --> 00:18:11,450

then they go back on the other side and

459

00:18:16,020 --> 00:18:14,030

go back and forth so this is like really

460

00:18:20,110 --> 00:18:16,030

fun and games for everybody out there

461

00:18:23,289 --> 00:18:20,120

but then something weird happened and up

462

00:18:25,950 --> 00:18:23,299

the road from Pine Barrens well located

463

00:18:30,659 --> 00:18:25,960

right right near Pine Barrens is a is

464

00:18:34,810 --> 00:18:30,669

Fort Dix and there was some kind of

465

00:18:38,440 --> 00:18:34,820

chemical leak in the area that the folks

466

00:18:41,770 --> 00:18:38,450

at Fort Dix thought was that they might

467

00:18:44,970 --> 00:18:41,780

be responsible for so what do they do

468

00:18:48,789 --> 00:18:44,980

when a Fort Dix being a military

469

00:18:52,980 --> 00:18:48,799

establishment they came down from

470

00:18:57,180 --> 00:18:52,990

helicopters a SWAT team from Fort Dix

471

00:19:02,110 --> 00:18:57,190

Delta Force no less and state police

472

00:19:05,830 --> 00:19:02,120

tactical squad and burnt the place down

473

00:19:10,210 --> 00:19:05,840

they blew it up they did like a a Waco

474

00:19:12,340 --> 00:19:10,220

Texas flamethrowers the whole bit burned

475

00:19:16,690 --> 00:19:12,350

the place down and killed maybe six or

476

00:19:19,840 --> 00:19:16,700

seven people so that was that but there

477

00:19:28,090 --> 00:19:19,850

was no reporting at all that this

478

00:19:32,320 --> 00:19:28,100

happened nothing so what was this all

479

00:19:33,909 --> 00:19:32,330

about did this really happen or did

480

00:19:37,510 --> 00:19:33,919

somebody make this story up Mac what do

481

00:19:39,299 --> 00:19:37,520

you think well those are the that was

482

00:19:42,070 --> 00:19:39,309

the strange thing because when we were

483

00:19:44,560 --> 00:19:42,080

researching the chapter in the book that

484

00:19:47,220 --> 00:19:44,570

we're at I'll yeah all I have to run

485

00:19:52,530 --> 00:19:47,230

sanitized

486

00:19:56,760 --> 00:19:52,540

but c'mere this headphone okay now

487

00:20:02,160 --> 00:19:56,770

that's better okay you didn't take that

488

00:20:03,330 --> 00:20:02,170

as an insult Oh makes me feel so much

489

00:20:07,590 --> 00:20:03,340

better

490

00:20:09,300 --> 00:20:07,600

no um when we would you know research in

491

00:20:10,860 --> 00:20:09,310

the chapter for this book and you know

492

00:20:13,350 --> 00:20:10,870

and heard that story that you just told

493

00:20:15,450 --> 00:20:13,360

there's so many my kind of fascinating

494

00:20:16,410 --> 00:20:15,460

aspects to it the twins and how smart

495

00:20:18,270 --> 00:20:16,420

they were rather get thrown out of

496

00:20:21,420 --> 00:20:18,280

Princeton the Airstream trailer it's

497

00:20:24,000 --> 00:20:21,430

Fort Dix Delta for us the word amazing

498

00:20:26,820 --> 00:20:24,010

and as it turned out one of the

499

00:20:31,290 --> 00:20:26,830

explanations for all this is that this

500

00:20:35,220 --> 00:20:31,300

story was the first myth started on the

501  
00:20:37,140 --> 00:20:35,230  
internet yeah the first legend right and

502  
00:20:38,870 --> 00:20:37,150  
the people there were people who were

503  
00:20:40,650 --> 00:20:38,880  
these people who were at the very

504  
00:20:42,960 --> 00:20:40,660  
beginning of the founding of the

505  
00:20:44,340 --> 00:20:42,970  
Internet some of these people you know

506  
00:20:46,020 --> 00:20:44,350  
we're kind of way out thinkers and they

507  
00:20:47,310 --> 00:20:46,030  
thought well what we look what we have

508  
00:20:49,560 --> 00:20:47,320  
here and they were right in a way

509  
00:20:52,200 --> 00:20:49,570  
and they said if we start kind of

510  
00:20:53,850 --> 00:20:52,210  
planting these stories around back then

511  
00:20:55,710 --> 00:20:53,860  
it was bulletin boards which you know I

512  
00:20:57,390 --> 00:20:55,720  
just be able to remember bulletin boards

513  
00:20:58,740 --> 00:20:57,400

but it's where people used to just write

514

00:20:59,340 --> 00:20:58,750

and leave letters and messages for each

515

00:21:02,390 --> 00:20:59,350

other right

516

00:21:05,160 --> 00:21:02,400

yeah right they started the story about

517

00:21:10,380 --> 00:21:05,170

the twins and aunt Long's hat and so on

518

00:21:11,850 --> 00:21:10,390

and and what happened was exactly what

519

00:21:13,530 --> 00:21:11,860

they wanted to happen because the only

520

00:21:17,910 --> 00:21:13,540

way that you can really explain it is

521

00:21:19,770 --> 00:21:17,920

like that kids game where I think it's

522

00:21:21,150 --> 00:21:19,780

called telephone work when kid says

523

00:21:23,100 --> 00:21:21,160

something to the other kid and then they

524

00:21:24,510 --> 00:21:23,110

pass it on my whispering by the time you

525

00:21:27,690 --> 00:21:24,520

see how accurate the story is at the

526

00:21:29,610 --> 00:21:27,700

other end at the other end exactly right

527

00:21:31,800 --> 00:21:29,620

and that's what happened in this in this

528

00:21:33,450 --> 00:21:31,810

story they blossomed and and it's

529

00:21:38,100 --> 00:21:33,460

exactly how the people who started it

530

00:21:39,780 --> 00:21:38,110

wanted it to be and even now people go

531

00:21:42,510 --> 00:21:39,790

to the Pine Barrens expecting to see

532

00:21:45,030 --> 00:21:42,520

where the yes dream trailer was a long

533

00:21:46,560 --> 00:21:45,040

time so it in a way they want you to

534

00:21:49,080 --> 00:21:46,570

believe they're kind of eggheads in a

535

00:21:52,290 --> 00:21:49,090

way you'll probably experience or see

536

00:21:54,210 --> 00:21:52,300

some of the things that took place and

537

00:21:55,680 --> 00:21:54,220

then embellish it in their own minds and

538

00:21:57,780 --> 00:21:55,690

then right yes exactly

539

00:22:00,240 --> 00:21:57,790

now this is this was in the middle of a

540

00:22:00,750 --> 00:22:00,250

place that is freaking haunted anyway so

541

00:22:01,950 --> 00:22:00,760

unique

542

00:22:03,150 --> 00:22:01,960

go there and you know something weirds

543

00:22:06,690 --> 00:22:03,160

gonna happen and you're gonna go oh my

544

00:22:08,250 --> 00:22:06,700

god this is all true you know but it was

545

00:22:09,690 --> 00:22:08,260

just interesting that what these did

546

00:22:11,070 --> 00:22:09,700

with the people way way back in there

547

00:22:12,750 --> 00:22:11,080

they're like they'd in the Stone Age of

548

00:22:14,220 --> 00:22:12,760

the internet said let's see if we can

549

00:22:15,630 --> 00:22:14,230

kind of light this fuse and let's see

550

00:22:17,940 --> 00:22:15,640

what happens and and that's what

551

00:22:20,430 --> 00:22:17,950

happened you know and to read the

552

00:22:23,940 --> 00:22:20,440

detailed story of Long's hat it's creepy

553

00:22:28,950 --> 00:22:23,950

it's it's it's believable in a lot of

554

00:22:31,400 --> 00:22:28,960

ways for some reason right yeah right

555

00:22:34,470 --> 00:22:31,410

yeah it's it's a strange story on that

556

00:22:35,790 --> 00:22:34,480

very like I would like to go there did

557

00:22:38,010 --> 00:22:35,800

you talk about you know how we got its

558

00:22:40,740 --> 00:22:38,020

name by anything yeah I did okay

559

00:22:43,410 --> 00:22:40,750

I mean I feel like I should go there you

560

00:22:44,670 --> 00:22:43,420

know I sure I'd like to talk to somebody

561

00:22:47,910 --> 00:22:44,680

at the general store I'm sure this

562

00:22:51,000 --> 00:22:47,920

there's got to be some kind of place a

563

00:22:52,650 --> 00:22:51,010

little diner you know the couple all the

564

00:22:56,810 --> 00:22:52,660

guys in there hanging out sit let me

565

00:23:00,060 --> 00:22:56,820

tell you the story about Jacob on just a

566

00:23:02,100 --> 00:23:00,070

lot of places that weirdos from Texas

567

00:23:02,970 --> 00:23:02,110

right well they probably know about them

568

00:23:05,250 --> 00:23:02,980

right

569

00:23:06,210 --> 00:23:05,260

other places that we talk about you know

570

00:23:08,130 --> 00:23:06,220

where he talked about the Wakefield

571

00:23:09,600 --> 00:23:08,140

monster last week and we and you know

572

00:23:11,070 --> 00:23:09,610

and someone said I think you said I have

573

00:23:12,810 --> 00:23:11,080

to is good answer the neighbors diner

574

00:23:14,940 --> 00:23:12,820

and you're gonna find someone who knows

575

00:23:16,650 --> 00:23:14,950

you know what really happened the time

576

00:23:18,960 --> 00:23:16,660

Behrens Vance in the weird it seems like

577

00:23:21,300 --> 00:23:18,970

this how many people like 15 people per

578

00:23:23,490 --> 00:23:21,310

square mile that's the average 15 people

579

00:23:25,710 --> 00:23:23,500

per square mile in the 1500 square mile

580

00:23:29,760 --> 00:23:25,720

area I mean that's that's nothing no

581

00:23:33,060 --> 00:23:29,770

that's deserted every strange place aunt

582

00:23:34,020 --> 00:23:33,070

at New Jersey look for it the next time

583

00:23:35,580 --> 00:23:34,030

you're heading down the Garden State

584

00:23:39,600 --> 00:23:35,590

Park yeah you you won't even know just

585

00:23:42,000 --> 00:23:39,610

ask anybody there was no sign to it

586

00:23:43,320 --> 00:23:42,010

there's no signs no no I think we should

587

00:23:44,640 --> 00:23:43,330

go there on the field trip anyway hey

588

00:23:46,860 --> 00:23:44,650

listen very interesting thank you

589

00:23:48,810 --> 00:23:46,870

commander and you a very famous Juan

590

00:23:50,400 --> 00:23:48,820

Juan and that what we're gonna do now is

591

00:23:53,150 --> 00:23:50,410

we're gonna go and are you through the

592

00:23:55,590 --> 00:23:53,160

UK you brought copious notes I did and

593

00:23:57,710 --> 00:23:55,600

and then I was thinking okay you're

594

00:23:59,610 --> 00:23:57,720

listening to the macro noise x-files and

595

00:24:07,610 --> 00:23:59,620

distributed on a public streaming

596

00:24:14,950 --> 00:24:10,560

a lot of you know I love that I love the

597

00:24:19,340 --> 00:24:14,960

story the darknet additional network and

598

00:24:20,990 --> 00:24:19,350

okay gone so radio and military channel

599

00:24:22,130 --> 00:24:21,000

so this is tap-dance and I just don't

600

00:24:24,650 --> 00:24:22,140

know what's going on you're at the

601  
00:24:26,710 --> 00:24:24,660  
bottom of your notes I'm it's like you

602  
00:24:35,840 --> 00:24:26,720  
know I just love it

603  
00:24:37,100 --> 00:24:35,850  
apparently I love it anyway so wow that

604  
00:24:37,970 --> 00:24:37,110  
was interesting thanks very much and

605  
00:24:39,770 --> 00:24:37,980  
I'll tell you what when we take a

606  
00:24:41,690 --> 00:24:39,780  
commercial break and we'll be right back

607  
00:24:43,490 --> 00:24:41,700  
after this you're listening to Mack

608  
00:24:45,020 --> 00:24:43,500  
Moniz military x-files show here on the

609  
00:24:47,960 --> 00:24:45,030  
public streaming network in the studio

610  
00:24:49,760 --> 00:24:47,970  
with us tonight one one and the

611  
00:24:54,080 --> 00:24:49,770  
commander and this is back and we'll be

612  
00:24:56,900 --> 00:24:54,090  
right back welcome back everyone to Mack

613  
00:24:58,310 --> 00:24:56,910

mommy's military exercise go here on hey

614

00:25:00,800 --> 00:24:58,320

the public streaming network this is

615

00:25:02,660 --> 00:25:00,810

Mack Maloney and in the studio with us

616

00:25:07,130 --> 00:25:02,670

tonight very special occasion Juan Juan

617

00:25:08,810 --> 00:25:07,140

is here so Mack okay cute and also the

618

00:25:11,660 --> 00:25:08,820

very famous Banco or is it video means

619

00:25:14,300 --> 00:25:11,670

tonight we have on the phone with us a

620

00:25:17,630 --> 00:25:14,310

very special feel correspondents which

621

00:25:18,920 --> 00:25:17,640

played Steve Ward up the air in Battle

622

00:25:20,210 --> 00:25:18,930

Creek Michigan how you doing tonight

623

00:25:22,910 --> 00:25:20,220

this with Shahrukh

624

00:25:26,990 --> 00:25:22,920

I am beyond awesome like beyond awesome

625

00:25:29,330 --> 00:25:27,000

a big you beyond loss you know why you

626

00:25:30,830 --> 00:25:29,340

beyond awesome I'm not abusing

627

00:25:33,260 --> 00:25:30,840

prescription drugs everything everything

628

00:25:35,090 --> 00:25:33,270

no that's what they all say okay well

629

00:25:36,770 --> 00:25:35,100

it's great day if you're high on life my

630

00:25:39,110 --> 00:25:36,780

friend then you know good for you that's

631

00:25:41,420 --> 00:25:39,120

right that's how you can ever get that's

632

00:25:43,040 --> 00:25:41,430

right somebody say those don't the

633

00:25:55,310 --> 00:25:43,050

people say that people can't score any

634

00:25:58,130 --> 00:25:55,320

weed I would say that Matt but my point

635

00:25:59,900 --> 00:25:58,140

for me exactly thank you so I switch

636

00:26:02,570 --> 00:25:59,910

late you were gonna tell us tonight

637

00:26:04,790 --> 00:26:02,580

about a RAF pilot his last name was

638

00:26:07,100 --> 00:26:04,800

hoarsely that's kind of a unfortunate

639

00:26:09,770 --> 00:26:07,110

name for two reasons but we won't go

640

00:26:13,010 --> 00:26:09,780

into that right now so um what's up with

641

00:26:14,710 --> 00:26:13,020

this guy well this is uh Air Marshal Sir

642

00:26:17,180 --> 00:26:14,720

Peter Horsley

643

00:26:18,740 --> 00:26:17,190

really really interesting guy they I'm

644

00:26:20,090 --> 00:26:18,750

gonna recommend this you know a lot of a

645

00:26:23,330 --> 00:26:20,100

listeners here that the in the military

646

00:26:25,990 --> 00:26:23,340

and so forth this is a his autobiography

647

00:26:27,769 --> 00:26:26,000

is called sounds from another room and

648

00:26:29,209 --> 00:26:27,779

it's one of these book

649

00:26:30,889 --> 00:26:29,219

might have to pay a couple extra bucks

650

00:26:33,289 --> 00:26:30,899

for because it's you know out of print

651

00:26:37,639 --> 00:26:33,299

and so forth but this guy's life is just

652

00:26:38,749 --> 00:26:37,649

absolutely fascinating it's uh he did

653

00:26:41,619 --> 00:26:38,759

everything his war hero

654

00:26:45,619 --> 00:26:41,629

it was in the beginning of World War two

655

00:26:47,869 --> 00:26:45,629

flew as a pilot and just a really really

656

00:26:49,999 --> 00:26:47,879

fascinating life and you know toward the

657

00:26:52,519 --> 00:26:50,009

it was later on that he became

658

00:26:54,259 --> 00:26:52,529

interested in the UFO mystery but let's

659

00:26:58,129 --> 00:26:54,269

go let's go back a little bit he was

660

00:27:02,799 --> 00:26:58,139

born in 1921 had a really really rough

661

00:27:05,479 --> 00:27:02,809

early life his father was a a West

662

00:27:08,389 --> 00:27:05,489

Hartlepool I guess that's the way to

663

00:27:10,159 --> 00:27:08,399

pronounce it Hartlepool merchant that

664

00:27:12,049 --> 00:27:10,169

which was a timber merchant and they

665

00:27:14,119 --> 00:27:12,059

were ship owners well they were very

666

00:27:15,560 --> 00:27:14,129

prosperous at one time but all the

667

00:27:17,089 --> 00:27:15,570

sudden the bottom fell out of the

668

00:27:22,249 --> 00:27:17,099

business and his father committed

669

00:27:24,200 --> 00:27:22,259

suicide his his mom lived for some years

670

00:27:26,450 --> 00:27:24,210

afterwards but in very ill health and

671

00:27:28,279 --> 00:27:26,460

then she died he was the youngest of

672

00:27:30,289 --> 00:27:28,289

seven children and I guess there was

673

00:27:31,879 --> 00:27:30,299

some money left where at least the

674

00:27:33,409 --> 00:27:31,889

children could get some you know he was

675

00:27:36,109 --> 00:27:33,419

in schools for a while so he did get an

676

00:27:38,180 --> 00:27:36,119

education mm-hmm but the first chance he

677

00:27:38,869 --> 00:27:38,190

got he wanted to join the Merchant

678

00:27:42,680 --> 00:27:38,879

Marine

679

00:27:46,579 --> 00:27:42,690

so in 1939 he became a deck boy for the

680

00:27:49,519 --> 00:27:46,589

t SS Cyclops it was a turbine steamship

681

00:27:51,709 --> 00:27:49,529

okay it was part of what they called the

682

00:27:54,469 --> 00:27:51,719

blue funnel a blue funnel steamer

683

00:27:55,669 --> 00:27:54,479

okay blue funnel line and they it served

684

00:27:57,379 --> 00:27:55,679

the British Empire they would you know

685

00:28:00,229 --> 00:27:57,389

transport goods back and forth across

686

00:28:02,930 --> 00:28:00,239

the vast British Empire and of course he

687

00:28:07,009 --> 00:28:02,940

was starting out low he was swabbing

688

00:28:09,560 --> 00:28:07,019

decks and shoveling coal so but there

689

00:28:13,489 --> 00:28:09,570

was uh was an interesting experience he

690

00:28:15,979 --> 00:28:13,499

had some a turning point he was uh he

691

00:28:18,589 --> 00:28:15,989

was on he was alone one time he had the

692

00:28:20,149 --> 00:28:18,599

access to the ship's radio listening

693

00:28:22,639 --> 00:28:20,159

some dance music from London and so

694

00:28:24,979 --> 00:28:22,649

forth and then he he here is an American

695

00:28:27,739 --> 00:28:24,989

voice and the American voice says

696

00:28:30,079 --> 00:28:27,749

something like terrible events have been

697

00:28:33,109 --> 00:28:30,089

happening in Europe German troops have

698

00:28:34,940 --> 00:28:33,119

just crossed the border of Poland so

699

00:28:36,200 --> 00:28:34,950

that was of course the you know one of

700

00:28:40,639 --> 00:28:36,210

the turning point for World War two

701  
00:28:41,600 --> 00:28:40,649  
where England and so he wanted to get

702  
00:28:43,880 --> 00:28:41,610  
back to England so he

703  
00:28:45,440 --> 00:28:43,890  
for the immigration officer and he

704  
00:28:49,270 --> 00:28:45,450  
wanted to get on another ship to get

705  
00:28:53,390 --> 00:28:49,280  
back to England and now they were in the

706  
00:28:55,400 --> 00:28:53,400  
on the Malay Peninsula okay

707  
00:28:56,960 --> 00:28:55,410  
and near Singapore okay this is a this

708  
00:29:00,350 --> 00:28:56,970  
is all under British control at that

709  
00:29:04,190 --> 00:29:00,360  
time temporarily but go ahead yes yes

710  
00:29:07,160 --> 00:29:04,200  
and well he much of the immigration

711  
00:29:09,230 --> 00:29:07,170  
officer he said uh sorry you're gonna

712  
00:29:12,440 --> 00:29:09,240  
have to stay aboard the ship until the

713  
00:29:14,419 --> 00:29:12,450

this emergency is over and you know God

714

00:29:16,159 --> 00:29:14,429

knows only knew how long that would be

715

00:29:20,780 --> 00:29:16,169

only the British are called worldwide to

716

00:29:22,789 --> 00:29:20,790

an emergency so anyway this guy Peter

717

00:29:24,560 --> 00:29:22,799

Horsley would not be kept down before

718

00:29:26,870 --> 00:29:24,570

anybody on it on his ship to find out

719

00:29:30,020 --> 00:29:26,880

what the deal was that he was restricted

720

00:29:33,110 --> 00:29:30,030

he requested permission to get on the t

721

00:29:34,370 --> 00:29:33,120

SS Menelaus and so he got on there and

722

00:29:36,320 --> 00:29:34,380

gotten on that ship headed back to

723

00:29:37,850 --> 00:29:36,330

England before anybody knew that he was

724

00:29:39,620 --> 00:29:37,860

supposed to be restricted to the boat so

725

00:29:41,000 --> 00:29:39,630

he was a crafty he was a craft oh yeah

726

00:29:43,610 --> 00:29:41,010

he was and that's that's just the

727

00:29:45,380 --> 00:29:43,620

beginning of it so he's on a Menelaus it

728

00:29:47,000 --> 00:29:45,390

gets back to Britain and of course it's

729

00:29:49,039 --> 00:29:47,010

uh it's lights out you know they're

730

00:29:51,230 --> 00:29:49,049

being bombed and so forth money pretty

731

00:29:53,990 --> 00:29:51,240

nerve-wracking and then he finds out

732

00:29:56,659 --> 00:29:54,000

that the Merchant Navy has become a

733

00:29:58,220 --> 00:29:56,669

restricted occupation so they've told

734

00:30:01,070 --> 00:29:58,230

him that he would have to stay there for

735

00:30:04,100 --> 00:30:01,080

the duration of the war so he said well

736

00:30:06,770 --> 00:30:04,110

hell with that so he got a request [h\_\_h]

737

00:30:09,919 --> 00:30:06,780

for leave took off and didn't come back

738

00:30:11,900 --> 00:30:09,929

he he just sorted the Merchant Navy yes

739

00:30:13,700 --> 00:30:11,910

which which I thought it would be you

740

00:30:16,370 --> 00:30:13,710

know would just end his career but

741

00:30:18,700 --> 00:30:16,380

apparently not the in reading his

742

00:30:21,590 --> 00:30:18,710

autobiography the only thing that that

743

00:30:23,480 --> 00:30:21,600

restricted him from he could not get

744

00:30:26,570 --> 00:30:23,490

into the British Navy because he'd done

745

00:30:29,570 --> 00:30:26,580

that but there was no restriction on him

746

00:30:31,820 --> 00:30:29,580

getting in the RAF so that I don't

747

00:30:34,310 --> 00:30:31,830

understand but that's the way it was RAF

748

00:30:35,510 --> 00:30:34,320

is the Royal Air Force the right so

749

00:30:38,060 --> 00:30:35,520

that's kind of what he wanted to do

750

00:30:39,770 --> 00:30:38,070

anyway so he was very very careful early

751

00:30:41,630 --> 00:30:39,780

in the Home Guard you know what that was

752

00:30:44,930 --> 00:30:41,640

oh yeah yeah yeah did you guys ever see

753

00:30:46,940 --> 00:30:44,940

dad's army there's a classic British

754

00:30:48,710 --> 00:30:46,950

sitcom were that anyway oh wait no yeah

755

00:30:51,260 --> 00:30:48,720

some of our listeners will know about it

756

00:30:53,080 --> 00:30:51,270

but anyway one one eat no no okay go

757

00:30:55,159 --> 00:30:53,090

ahead okay he became an air instructor

758

00:30:55,539 --> 00:30:55,169

he was all over the place for a while

759

00:30:57,369 --> 00:30:55,549

using

760

00:30:59,729 --> 00:30:57,379

training school Alberta Canada for a

761

00:31:03,279 --> 00:30:59,739

period of time came back to England and

762

00:31:05,320 --> 00:31:03,289

he was in 21 squadron fly flying

763

00:31:06,489 --> 00:31:05,330

mosquitos okay yeah mmmm interesting

764

00:31:09,549 --> 00:31:06,499

here playing they're made olivewood

765

00:31:12,489 --> 00:31:09,559

they're the fastest airplane in World

766

00:31:13,899 --> 00:31:12,499

War two commander yes the mosquito they

767

00:31:16,930 --> 00:31:13,909

were made of wood Wow

768

00:31:19,149 --> 00:31:16,940

and they not all but a lot of it wood

769

00:31:22,539 --> 00:31:19,159

made it lighter two big engines on it

770

00:31:25,269 --> 00:31:22,549

and the secret was the glue they they

771

00:31:27,430 --> 00:31:25,279

yeah they had a secret yeah putting it

772

00:31:28,539 --> 00:31:27,440

together Germans for the entire five

773

00:31:29,619 --> 00:31:28,549

years trying to figure out how do they

774

00:31:32,649 --> 00:31:29,629

do this okay

775

00:31:35,080 --> 00:31:32,659

they finally caught one not to step on

776

00:31:38,529 --> 00:31:35,090

your report ask me but no go ahead one

777

00:31:40,029 --> 00:31:38,539

of them crash the Germans took it apart

778

00:31:42,729 --> 00:31:40,039

and they say wow it's made of wood and

779

00:31:43,210 --> 00:31:42,739

it has this top-secret glue that's doing

780

00:31:44,830 --> 00:31:43,220

it you know

781

00:31:46,269 --> 00:31:44,840

now let's we'll make a bunch of them

782

00:31:48,310 --> 00:31:46,279

because there's more forest in Germany

783

00:31:50,320 --> 00:31:48,320

than there are in England and we'll have

784

00:31:53,169 --> 00:31:50,330

this whole enormous fleet are very fast

785

00:31:54,909 --> 00:31:53,179

flying so this one F about six months

786

00:31:58,810 --> 00:31:54,919

one night the RAF was bombing France

787

00:32:03,580 --> 00:31:58,820

bomb the round wrong town and bomb the

788

00:32:05,349 --> 00:32:03,590

glue factory fortuitous was that in its

789

00:32:06,999 --> 00:32:05,359

wisdom of you know bombing in the wrong

790

00:32:08,680 --> 00:32:07,009

places which they have a history of they

791

00:32:10,299 --> 00:32:08,690

hit so many ways

792

00:32:11,560 --> 00:32:10,309

you said mosquito and that's a brought

793

00:32:14,289 --> 00:32:11,570

about that's true but please continues

794

00:32:16,359 --> 00:32:14,299

no okay well he he was uh he would be

795

00:32:18,759 --> 00:32:16,369

sent on these night fighter intruder

796

00:32:20,289 --> 00:32:18,769

missions over Nazi Germany and the the

797

00:32:22,869 --> 00:32:20,299

purpose of the missions were to divert

798

00:32:24,759 --> 00:32:22,879

the Germans away from you know attacking

799

00:32:27,159 --> 00:32:24,769

their main bombers so they were they

800

00:32:29,019 --> 00:32:27,169

were sort of like decoys and this was

801  
00:32:31,690 --> 00:32:29,029  
pretty pretty treacherous stuff because

802  
00:32:33,609 --> 00:32:31,700  
they had to fly a low-level they had to

803  
00:32:35,799 --> 00:32:33,619  
navigate in the dark you know they had

804  
00:32:37,269 --> 00:32:35,809  
to try to visually find various

805  
00:32:39,580 --> 00:32:37,279  
landmarks and we're trying to find of

806  
00:32:41,889 --> 00:32:39,590  
course German air strips without without

807  
00:32:45,460 --> 00:32:41,899  
hardly any lighting so forth so this is

808  
00:32:48,729 --> 00:32:45,470  
pretty pretty treacherous though so one

809  
00:32:51,970 --> 00:32:48,739  
fateful night over the Cherbourg

810  
00:32:54,970 --> 00:32:51,980  
and insula Normandy mmm-hmm he gets shot

811  
00:32:58,989 --> 00:32:54,980  
down and he's on board with his

812  
00:33:01,299 --> 00:32:58,999  
navigator Frank Gunn and you know

813  
00:33:03,549 --> 00:33:01,309

they're just chaos and so he's trying to

814

00:33:05,409 --> 00:33:03,559

get it situated where he can bail out

815

00:33:09,460 --> 00:33:05,419

and he's trying to help his navigator

816

00:33:13,270 --> 00:33:09,470

and it's you know pitch dark he

817

00:33:14,710 --> 00:33:13,280

he hits the water mm-hmm it's tangled in

818

00:33:17,200 --> 00:33:14,720

the parachute the whole thing he's got a

819

00:33:21,909 --> 00:33:17,210

dinghy that's partially inflated excuse

820

00:33:25,330 --> 00:33:21,919

me what a dinghy okay my friend he says

821

00:33:28,049 --> 00:33:25,340

that's what I say pull it dig nice yeah

822

00:33:33,700 --> 00:33:28,059

we might have to bleep that up exactly

823

00:33:37,870 --> 00:33:33,710

but anyway he he's got no food no water

824

00:33:40,690 --> 00:33:37,880

no fresh water and he's just you know

825

00:33:42,039 --> 00:33:40,700

hoping for rescue so mbb know we'll be

826

00:33:45,039 --> 00:33:42,049

getting rescued by the good guys before

827

00:33:46,810 --> 00:33:45,049

the bad guys show up mm-hmm so not too

828

00:33:49,659 --> 00:33:46,820

long after that he hears the roar of

829

00:33:51,220 --> 00:33:49,669

some airplanes and he wonders you know

830

00:33:53,830 --> 00:33:51,230

messersmith's or Spitfires

831

00:33:55,630 --> 00:33:53,840

and then they were Spitfires mmm so do

832

00:33:58,930 --> 00:33:55,640

you think oh I'm home free the british

833

00:34:00,909 --> 00:33:58,940

british airplanes right right that were

834

00:34:03,370 --> 00:34:00,919

pretty instrumental in beating the

835

00:34:07,240 --> 00:34:03,380

beating back the nazis yes of course but

836

00:34:09,639 --> 00:34:07,250

anyway he nothing happened and it turned

837

00:34:11,409 --> 00:34:09,649

out if he found out later on much later

838

00:34:13,599 --> 00:34:11,419

on after he was rescued that those

839

00:34:15,310 --> 00:34:13,609

Spitfires never returned so they did

840

00:34:17,200 --> 00:34:15,320

spot him they saw his position

841

00:34:20,169 --> 00:34:17,210

apparently but they never made it back

842

00:34:21,609 --> 00:34:20,179

well so three days go by

843

00:34:23,560 --> 00:34:21,619

he's um you know he's in his dinghy out

844

00:34:25,720 --> 00:34:23,570

in the ocean

845

00:34:27,159 --> 00:34:25,730

he's in it's some really rough weather

846

00:34:28,540 --> 00:34:27,169

too I mean he gets thrown out of this

847

00:34:31,300 --> 00:34:28,550

thing several times just to climb back

848

00:34:33,250 --> 00:34:31,310

in he's exhausted well and then toward

849

00:34:35,560 --> 00:34:33,260

the end of this ordeal all of a sudden

850

00:34:38,260 --> 00:34:35,570

he it's almost like he's having an

851  
00:34:40,119 --> 00:34:38,270  
out-of-body experience he everything

852  
00:34:42,550 --> 00:34:40,129  
becomes very quiet and he's very

853  
00:34:44,919 --> 00:34:42,560  
peaceful he looks over and sees a man

854  
00:34:46,750 --> 00:34:44,929  
named Trevor wood which is fine except

855  
00:34:48,579 --> 00:34:46,760  
Trevor died six months earlier

856  
00:34:50,530 --> 00:34:48,589  
and then he looks over and he sees his

857  
00:34:53,290 --> 00:34:50,540  
navigator Frank Gunn who apparently

858  
00:34:55,540 --> 00:34:53,300  
didn't make it either hmm but shortly

859  
00:34:56,440 --> 00:34:55,550  
after that he was rescued he was barely

860  
00:35:00,000 --> 00:34:56,450  
conscious

861  
00:35:02,770 --> 00:35:00,010  
took took a while to recuperate but

862  
00:35:05,410 --> 00:35:02,780  
anyway was you know quite a quite an

863  
00:35:06,550 --> 00:35:05,420

experience right can I just remind it

864

00:35:08,920 --> 00:35:06,560

when you listening to Mike Malone he's

865

00:35:10,120 --> 00:35:08,930

motor exile show here on the public

866

00:35:13,180 --> 00:35:10,130

stream network we're talking with

867

00:35:16,030 --> 00:35:13,190

switchblade see what about wind

868

00:35:17,349 --> 00:35:16,040

commander hoarsely his name was Lee

869

00:35:20,200 --> 00:35:17,359

what's this first name is probably like

870

00:35:22,390 --> 00:35:20,210

Peter no Peter right Jesus something but

871

00:35:23,340 --> 00:35:22,400

okay please and so at some point at some

872

00:35:24,780 --> 00:35:23,350

point he's gonna meet some

873

00:35:26,490 --> 00:35:24,790

UFOs is that right well that's right

874

00:35:29,010 --> 00:35:26,500

this is where the plot thickens okay now

875

00:35:31,980 --> 00:35:29,020

he becomes a I think the word is equally

876

00:35:34,680 --> 00:35:31,990

to Prince Philip part of Prince Philip's

877

00:35:37,980 --> 00:35:34,690

entourage okay which is we know pretty

878

00:35:40,350 --> 00:35:37,990

pretty powerful position yes now this is

879

00:35:42,450 --> 00:35:40,360

about this is early 1950s so you

880

00:35:44,010 --> 00:35:42,460

survived the war and you know he did

881

00:35:46,500 --> 00:35:44,020

whatever and then he became that's the

882

00:35:52,020 --> 00:35:46,510

Prince Philip exactly who is the husband

883

00:35:55,260 --> 00:35:52,030

of the Queen is that correct okay okay

884

00:35:58,560 --> 00:35:55,270

yeah and is that right way with is that

885

00:35:59,550 --> 00:35:58,570

confirmation all right okay all right

886

00:36:00,840 --> 00:35:59,560

right exactly

887

00:36:03,380 --> 00:36:00,850

now they say about the Queen if that's

888

00:36:06,960 --> 00:36:03,390

the Queen what's the witch look like

889

00:36:08,970 --> 00:36:06,970

what okay please continue okay I'm

890

00:36:11,700 --> 00:36:08,980

looking for my snare drum and I can't

891

00:36:14,040 --> 00:36:11,710

find it our British listeners I

892

00:36:15,900 --> 00:36:14,050

apologize on behalf of one wanting man

893

00:36:17,490 --> 00:36:15,910

to Cobra yeah we had nothing don't you

894

00:36:18,420 --> 00:36:17,500

do that at the end of the show and you

895

00:36:19,890 --> 00:36:18,430

know okay

896

00:36:23,100 --> 00:36:19,900

everything will be included but they

897

00:36:26,970 --> 00:36:23,110

have please please do okay so moving

898

00:36:28,590 --> 00:36:26,980

right along he was a Peter Horsley mr.

899

00:36:30,750 --> 00:36:28,600

Peter Horsley became was fascinated by

900

00:36:32,790 --> 00:36:30,760

UFOs this is early 1950s of course

901  
00:36:35,070 --> 00:36:32,800  
Kenneth Arnold sighting 1947 and the

902  
00:36:36,960 --> 00:36:35,080  
thing is that he was finding there were

903  
00:36:39,510 --> 00:36:36,970  
a lot of credible reports that were

904  
00:36:41,490 --> 00:36:39,520  
coming from Airmen like himself you know

905  
00:36:43,050 --> 00:36:41,500  
so I mean he had that experience

906  
00:36:45,240 --> 00:36:43,060  
he knows how these people were trained

907  
00:36:47,490 --> 00:36:45,250  
and you know he knows that they're

908  
00:36:49,200 --> 00:36:47,500  
people they should be listened to

909  
00:36:52,620 --> 00:36:49,210  
there's also another Sir Frederick

910  
00:36:54,540 --> 00:36:52,630  
browning was another oh yeah it was a

911  
00:36:57,570 --> 00:36:54,550  
very famous test pilot over there and

912  
00:36:59,160 --> 00:36:57,580  
right they were they really bonded

913  
00:37:00,990 --> 00:36:59,170

because of their uh their flight

914

00:37:03,930 --> 00:37:01,000

experience and he was also very

915

00:37:05,790 --> 00:37:03,940

interested in the flying saucers Horsley

916

00:37:08,490 --> 00:37:05,800

had a very objective approach he was

917

00:37:11,550 --> 00:37:08,500

very interested very level-headed at one

918

00:37:17,040 --> 00:37:11,560

point he actually met George Adamski who

919

00:37:18,840 --> 00:37:17,050

was the famous UFO contactee supposedly

920

00:37:22,200 --> 00:37:18,850

that meta Phoenician in the California

921

00:37:24,390 --> 00:37:22,210

desert and along with Desmond Leslie who

922

00:37:26,670 --> 00:37:24,400

was a jam squeeze co-author Leslie was

923

00:37:28,050 --> 00:37:26,680

jasmine Leslie was a brick and he

924

00:37:30,120 --> 00:37:28,060

thought

925

00:37:33,060 --> 00:37:30,130

Adamski was a Charlotte and then Leslie

926  
00:37:35,640 --> 00:37:33,070  
was gullible so he was not Horsley was

927  
00:37:36,750 --> 00:37:35,650  
certainly not just open to any kind of

928  
00:37:38,370 --> 00:37:36,760  
report right Chuck

929  
00:37:42,320 --> 00:37:38,380  
but he did I guess he did investigate

930  
00:37:44,730 --> 00:37:42,330  
the gander UFO incident oh right

931  
00:37:46,380 --> 00:37:44,740  
fantastic girl radar visual yeah real

932  
00:37:48,510 --> 00:37:46,390  
quickly yeah I mean that was a bunch of

933  
00:37:49,980 --> 00:37:48,520  
a it was a military airplane returning

934  
00:37:53,700 --> 00:37:49,990  
from Europe coming to the United States

935  
00:37:55,740 --> 00:37:53,710  
off gander it was actually full of pilots

936  
00:37:59,040 --> 00:37:55,750  
this this particular airplane right way

937  
00:38:00,510 --> 00:37:59,050  
home only and this enormous UFO came

938  
00:38:02,100 --> 00:38:00,520

right up out of the sea and through

939

00:38:04,410 --> 00:38:02,110

parallel with it for about a minute and

940

00:38:06,360 --> 00:38:04,420

then took off everyone on the plane was

941

00:38:08,670 --> 00:38:06,370

debriefed and then at the very end of

942

00:38:12,300 --> 00:38:08,680

the debriefing one of the pilots was

943

00:38:13,830 --> 00:38:12,310

shown a photo album and of all different

944

00:38:15,420 --> 00:38:13,840

kinds of UFOs and he says please tell us

945

00:38:17,160 --> 00:38:15,430

which one you saw her and there it was

946

00:38:21,000 --> 00:38:17,170

and he said that one and they get up and

947

00:38:24,030 --> 00:38:21,010

they left one of the best UFO sighting

948

00:38:27,300 --> 00:38:24,040

incidents right multiple witnesses and

949

00:38:30,570 --> 00:38:27,310

radar visual confirmation on the ground

950

00:38:32,970 --> 00:38:30,580

right right so so what did was he active

951

00:38:35,070 --> 00:38:32,980

like in any UFO organization over in

952

00:38:37,710 --> 00:38:35,080

England it was you know it was kind of

953

00:38:40,320 --> 00:38:37,720

quiet Prince Philip was was all for it

954

00:38:43,800 --> 00:38:40,330

except he wanted to keep you know an

955

00:38:46,350 --> 00:38:43,810

arm's length from it sure but he well

956

00:38:48,900 --> 00:38:46,360

for example there was a Sir Arthur

957

00:38:50,970 --> 00:38:48,910

Barrett who introduced him to another

958

00:38:54,750 --> 00:38:50,980

interesting figure at General margin

959

00:38:57,210 --> 00:38:54,760

okay General Martin was very very much

960

00:38:58,260 --> 00:38:57,220

in et and so forth well this this is

961

00:39:01,170 --> 00:38:58,270

where it gets weird

962

00:39:03,060 --> 00:39:01,180

Martin arranged for Peter Horsley to

963

00:39:05,970 --> 00:39:03,070

meet a mrs. Markham at her

964

00:39:08,340 --> 00:39:05,980

Chelsea flat it had some she had some

965

00:39:09,630 --> 00:39:08,350

information on UFOs or whatever okay

966

00:39:12,090 --> 00:39:09,640

so there he goes in there he meets a

967

00:39:15,120 --> 00:39:12,100

very strange individual named mr. Janus

968

00:39:16,980 --> 00:39:15,130

hmm it's in a dark room he doesn't never

969

00:39:19,950 --> 00:39:16,990

get so he says a very good impression of

970

00:39:21,750 --> 00:39:19,960

Janus and gets a look it's a very dimly

971

00:39:25,580 --> 00:39:21,760

lit it's just kind of an odd situation

972

00:39:29,520 --> 00:39:25,590

and they're talking and this Janus is

973

00:39:33,170 --> 00:39:29,530

he's he speaks very definitively as if

974

00:39:35,400 --> 00:39:33,180

he has all this information on UFOs yes

975

00:39:39,060 --> 00:39:35,410

he says what they definitely look like

976

00:39:41,280 --> 00:39:39,070

us they're they're exploring the outer

977

00:39:43,110 --> 00:39:41,290

reaches of their galaxy most of their

978

00:39:45,240 --> 00:39:43,120

vehicles are robot control this is not

979

00:39:47,070 --> 00:39:45,250

he's not speaking as if he's speculating

980

00:39:49,080 --> 00:39:47,080

it's almost as if somehow he knows this

981

00:39:50,670 --> 00:39:49,090

okay and the thing that unnerved horsley

982

00:39:52,319 --> 00:39:50,680

a little bit is that this guy

983

00:39:54,299 --> 00:39:52,329

almost seems to be able to read his mind

984

00:39:56,519 --> 00:39:54,309

he's anticipating the things that he's

985

00:39:58,890 --> 00:39:56,529

thinking and responding to them ahead of

986

00:39:59,970 --> 00:39:58,900

time now it could be that somebody's you

987

00:40:01,380 --> 00:39:59,980

know sometimes people are just very

988

00:40:04,710 --> 00:40:01,390

skilled at reading people

989

00:40:07,499 --> 00:40:04,720

but Horsley just got a really really odd

990

00:40:09,690 --> 00:40:07,509

impression of this guy and you know

991

00:40:11,370 --> 00:40:09,700

thought maybe maybe there was something

992

00:40:13,739 --> 00:40:11,380

to it I mean he really he really had the

993

00:40:16,470 --> 00:40:13,749

impression that this this mr. Janus may

994

00:40:17,640 --> 00:40:16,480

actually be otherworldly but he didn't

995

00:40:19,109 --> 00:40:17,650

make that he didn't jump to that

996

00:40:22,319 --> 00:40:19,119

conclusion because he was you know

997

00:40:28,799 --> 00:40:22,329

pretty pretty grounded so he was a vice

998

00:40:29,730 --> 00:40:28,809

what was that Rosalie's rank being a

999

00:40:33,089 --> 00:40:29,740

Wing Commander

1000

00:40:34,859 --> 00:40:33,099

I'm not vice Aramark vice Air Vice

1001  
00:40:37,140 --> 00:40:34,869  
Marshal okay now I just have to throw

1002  
00:40:42,749 --> 00:40:37,150  
this to the commander that's very very

1003  
00:40:45,210 --> 00:40:42,759  
high up in Atlantic alright show a vice

1004  
00:40:52,039 --> 00:40:45,220  
Air Marshal in the RAF okay so this

1005  
00:40:56,309 --> 00:40:54,180  
Admirals our general so this is someone

1006  
00:40:58,589 --> 00:40:56,319  
at the lake at the Pentagon Juan Juan

1007  
00:40:59,940 --> 00:40:58,599  
who is deeply into going around and

1008  
00:41:07,999 --> 00:40:59,950  
meeting all these people who you know

1009  
00:41:13,859 --> 00:41:11,130  
okay we gonna get three microphones in

1010  
00:41:15,630 --> 00:41:13,869  
this friggin so anyway this is some guy

1011  
00:41:18,269 --> 00:41:15,640  
who is going around he's not just some

1012  
00:41:21,239 --> 00:41:18,279  
chump you know he knows his stuff and

1013  
00:41:23,220 --> 00:41:21,249

also you you have to realize too that

1014

00:41:25,140 --> 00:41:23,230

the protocol of these things is is that

1015

00:41:26,999 --> 00:41:25,150

just like it is over in this country if

1016

00:41:28,440 --> 00:41:27,009

you get caught you know talking about

1017

00:41:32,640 --> 00:41:28,450

UFOs and stuff like that it doesn't do

1018

00:41:36,720 --> 00:41:32,650

you yeah okay so please continue switch

1019

00:41:39,329 --> 00:41:36,730

okay so he he leaves us this meeting

1020

00:41:41,279 --> 00:41:39,339

very kind of a just unnerved didn't know

1021

00:41:43,370 --> 00:41:41,289

really how to process it he goes back

1022

00:41:45,509 --> 00:41:43,380

and makes a full report to his superiors

1023

00:41:47,670 --> 00:41:45,519

browning is really interested in this he

1024

00:41:48,900 --> 00:41:47,680

wants to he wants to go back and

1025

00:41:53,519 --> 00:41:48,910

interview this guy he wants to get ahold

1026  
00:41:56,940 --> 00:41:53,529  
as mr. Janus again so hoarsely tries to

1027  
00:41:59,249 --> 00:41:56,950  
get ahold of this General Martin again

1028  
00:42:00,870 --> 00:41:59,259  
but all of a sudden General Martin has

1029  
00:42:02,579 --> 00:42:00,880  
become very aloof and very hard to get a

1030  
00:42:04,580 --> 00:42:02,589  
hold of so I say well the heck with it

1031  
00:42:07,400 --> 00:42:04,590  
he'll call he'll call this woman

1032  
00:42:09,380 --> 00:42:07,410  
apartment can't get an answer no matter

1033  
00:42:11,720 --> 00:42:09,390  
what he does so finally in desperation

1034  
00:42:13,520 --> 00:42:11,730  
he goes back to her flat and it's

1035  
00:42:14,780 --> 00:42:13,530  
completely empty that's the old type

1036  
00:42:18,560 --> 00:42:14,790  
waiting everybody there yeah it's a

1037  
00:42:19,760 --> 00:42:18,570  
classic and so you know he he was very

1038  
00:42:22,000 --> 00:42:19,770

like again he was very level-headed

1039

00:42:24,410 --> 00:42:22,010

about it he thought well maybe you know

1040

00:42:26,750 --> 00:42:24,420

maybe it was staged maybe it was set up

1041

00:42:30,230 --> 00:42:26,760

somehow but then you ask why why would

1042

00:42:32,150 --> 00:42:30,240

anybody do this hmm so what what if was

1043

00:42:36,560 --> 00:42:32,160

the most important piece of information

1044

00:42:40,970 --> 00:42:36,570

that this Janus character gave just that

1045

00:42:43,220 --> 00:42:40,980

the they were you know intelligent

1046

00:42:45,650 --> 00:42:43,230

inhabitants of a planet he said that

1047

00:42:47,810 --> 00:42:45,660

they were simply exploring as he put it

1048

00:42:50,720 --> 00:42:47,820

the outer islands of their galaxy mm-hm

1049

00:42:52,790 --> 00:42:50,730

and they had most of their vehicles were

1050

00:42:56,300 --> 00:42:52,800

were actually a robot controlled not

1051  
00:42:57,770 --> 00:42:56,310  
necessarily a manned and that you know

1052  
00:42:59,840 --> 00:42:57,780  
that was pretty much it that they were

1053  
00:43:01,840 --> 00:42:59,850  
this was a real event they were

1054  
00:43:04,040 --> 00:43:01,850  
extraterrestrial and that they were

1055  
00:43:06,140 --> 00:43:04,050  
observing us and they looked like us

1056  
00:43:08,330 --> 00:43:06,150  
that's what the impression yeah he

1057  
00:43:09,650 --> 00:43:08,340  
didn't he didn't really say specifically

1058  
00:43:13,940 --> 00:43:09,660  
but that's the impression he's left with

1059  
00:43:18,170 --> 00:43:13,950  
it was they were very similar to us they

1060  
00:43:21,470 --> 00:43:18,180  
talked English apparently either that or

1061  
00:43:22,550 --> 00:43:21,480  
mr. Janus could speak their language so

1062  
00:43:23,960 --> 00:43:22,560  
what did Horsley do with this

1063  
00:43:25,490 --> 00:43:23,970

information I mean he went back and told

1064

00:43:27,470 --> 00:43:25,500

his friends but did he ever write a book

1065

00:43:28,910 --> 00:43:27,480

or anything about it the first he

1066

00:43:31,490 --> 00:43:28,920

actually didn't release it until he

1067

00:43:32,810 --> 00:43:31,500

wrote this autobiography which I came

1068

00:43:35,030 --> 00:43:32,820

out I think about originally about in

1069

00:43:36,290 --> 00:43:35,040

the 70s so he was he kept completely

1070

00:43:39,620 --> 00:43:36,300

quiet about this for decades

1071

00:43:41,360 --> 00:43:39,630

Wow so someone of his caliber it must

1072

00:43:42,830 --> 00:43:41,370

have made an impression yeah to make an

1073

00:43:46,240 --> 00:43:42,840

impression on someone his caliber I

1074

00:43:48,830 --> 00:43:46,250

should say it must been eerie or

1075

00:43:50,780 --> 00:43:48,840

striking him is that this wasn't some

1076

00:43:53,900 --> 00:43:50,790

kind of weird situation then it turns

1077

00:43:56,020 --> 00:43:53,910

out to be a weird situation yeah even if

1078

00:43:58,970 --> 00:43:56,030

this was some kind of a staged event

1079

00:44:00,710 --> 00:43:58,980

this guy really seemed to have some kind

1080

00:44:02,810 --> 00:44:00,720

of a I don't know if I want to say

1081

00:44:05,570 --> 00:44:02,820

charisma but some you know he was really

1082

00:44:07,130 --> 00:44:05,580

right on from what Horsley was thinking

1083

00:44:09,800 --> 00:44:07,140

and responding kind of ahead of time

1084

00:44:14,609 --> 00:44:09,810

before he even spoke to what he was

1085

00:44:20,519 --> 00:44:14,619

thinking yeah that's one

1086

00:44:23,339 --> 00:44:20,529

I would say yeah it's and so this guy is

1087

00:44:26,489 --> 00:44:23,349

he's long since departed the earth

1088

00:44:30,450 --> 00:44:26,499

assuming yes yes he but actually I did

1089

00:44:32,400 --> 00:44:30,460

early I think about 2001 and Prince

1090

00:44:34,289 --> 00:44:32,410

Philip the commander has told me Prince

1091

00:44:37,109 --> 00:44:34,299

Philip was individual he's still around

1092

00:44:42,150 --> 00:44:37,119

he was very interested in UFOs sure at

1093

00:44:44,819 --> 00:44:42,160

some point yes apparently he was like I

1094

00:44:47,400 --> 00:44:44,829

say he he didn't want to he didn't want

1095

00:44:50,220 --> 00:44:47,410

it known I guess because of the possibly

1096

00:44:53,309 --> 00:44:50,230

the ridicule factor but this was early

1097

00:44:56,220 --> 00:44:53,319

on in the in some of the some of these

1098

00:44:57,509 --> 00:44:56,230

reports so it wasn't it didn't I don't

1099

00:44:59,789 --> 00:44:57,519

think it had quite the giggle factor

1100

00:45:01,380 --> 00:44:59,799

that it does now right we I think we

1101

00:45:04,349 --> 00:45:01,390

talked about this last week but yeah you

1102

00:45:07,289 --> 00:45:04,359

know someone had shown Winston Churchill

1103

00:45:09,839 --> 00:45:07,299

a photograph of a UFO that was taken by

1104

00:45:11,400 --> 00:45:09,849

a plane in 1943 by a British

1105

00:45:12,630 --> 00:45:11,410

reconnaissance plane and there's

1106

00:45:15,749 --> 00:45:12,640

supposedly one of the most detailed

1107

00:45:18,450 --> 00:45:15,759

pictures of a UFO that you know was ever

1108

00:45:19,950 --> 00:45:18,460

in our possession he told the British

1109

00:45:21,779 --> 00:45:19,960

intelligence service to keep it under

1110

00:45:24,120 --> 00:45:21,789

wraps for 50 years because he thought

1111

00:45:26,749 --> 00:45:24,130

that religion would be our religion on

1112

00:45:29,039 --> 00:45:26,759

the planet would be lets say destroyed

1113

00:45:31,140 --> 00:45:29,049

because people would start asking

1114

00:45:32,759 --> 00:45:31,150

questions well you know if there were

1115

00:45:34,589 --> 00:45:32,769

people on other planets who saved them

1116

00:45:35,779 --> 00:45:34,599

you know do they have original sin do

1117

00:45:37,349 --> 00:45:35,789

they have religion stuff like that

1118

00:45:40,229 --> 00:45:37,359

instead the British intelligence

1119

00:45:42,779 --> 00:45:40,239

actually destroyed the photo so I know

1120

00:45:46,099 --> 00:45:42,789

and you can give the British credit they

1121

00:45:47,910 --> 00:45:46,109

do put out a lot of their UFO

1122

00:45:50,759 --> 00:45:47,920

documentation things that they've

1123

00:45:52,950 --> 00:45:50,769

studies that they've done sightings that

1124

00:45:54,210 --> 00:45:52,960

British military pilots have made nigh

1125

00:45:57,239 --> 00:45:54,220

States keeps all that stuff secret

1126

00:46:01,259 --> 00:45:57,249

British actually release it on you know

1127

00:46:03,839 --> 00:46:01,269

a fairly regular basis and Peter Horsley

1128

00:46:06,269 --> 00:46:03,849

was in a way he was sort of a contact II

1129

00:46:06,960 --> 00:46:06,279

you know as opposed to say a buck G yeah

1130

00:46:08,910 --> 00:46:06,970

right sure

1131

00:46:11,700 --> 00:46:08,920

yeah and it's quite a contrast to some

1132

00:46:14,009 --> 00:46:11,710

of the we won't have time tonight but

1133

00:46:15,720 --> 00:46:14,019

some of the you know early American

1134

00:46:17,489 --> 00:46:15,730

contact days of the 50s like we've

1135

00:46:21,599 --> 00:46:17,499

mentioned George Adamson right sure yeah

1136

00:46:24,269 --> 00:46:21,609

yeah situation very really there's some

1137

00:46:27,569 --> 00:46:24,279

one way up the food chain you know like

1138

00:46:29,940 --> 00:46:27,579

the RAF becomes interested in this stuff

1139

00:46:33,630 --> 00:46:29,950

Amandla well I think the most impressive

1140

00:46:36,449 --> 00:46:33,640

part of this is the body of the record

1141

00:46:39,209 --> 00:46:36,459

that he has put forward on this and once

1142

00:46:41,039 --> 00:46:39,219

again tying into some of machs previous

1143

00:46:43,589 --> 00:46:41,049

writings it always seems that this seems

1144

00:46:46,589 --> 00:46:43,599

to reach a peak when we have a major

1145

00:46:49,709 --> 00:46:46,599

conflict going on these events always

1146

00:46:50,910 --> 00:46:49,719

seem to come up Switchblade I wanted to

1147

00:46:52,949 --> 00:46:50,920

bring to your attention the night that

1148

00:46:55,410 --> 00:46:52,959

we're taping the show here this is the

1149

00:46:56,880 --> 00:46:55,420

anniversary the 54th anniversary of

1150

00:47:00,749 --> 00:46:56,890

scott Carpenter in the mercury program

1151  
00:47:02,009 --> 00:47:00,759  
on orbit and I was you know getting

1152  
00:47:06,049 --> 00:47:02,019  
ready for the show tonight and doing a

1153  
00:47:09,329 --> 00:47:06,059  
little looking around and he he saw

1154  
00:47:13,140 --> 00:47:09,339  
fireflies and claimed to have seen a

1155  
00:47:14,940 --> 00:47:13,150  
saucer type vehicle outside his capsule

1156  
00:47:16,739 --> 00:47:14,950  
at one point now they did

1157  
00:47:19,589 --> 00:47:16,749  
jettison a balloon which was later

1158  
00:47:21,499 --> 00:47:19,599  
attributed to being the device and they

1159  
00:47:24,900 --> 00:47:21,509  
said you know that the curvature of the

1160  
00:47:26,099 --> 00:47:24,910  
window on the capsule and the the it was

1161  
00:47:27,690 --> 00:47:26,109  
dirty and all that kind of stuff but

1162  
00:47:28,979 --> 00:47:27,700  
he'd got me looking into some stuff and

1163  
00:47:30,319 --> 00:47:28,989

I think it's something I'd like to get

1164

00:47:33,630 --> 00:47:30,329

your attention

1165

00:47:36,900 --> 00:47:33,640

astronauts and UFOs especially the ones

1166

00:47:39,120 --> 00:47:36,910

in orbit it seems there is a you know

1167

00:47:41,759 --> 00:47:39,130

god bless you tube there's so much stuff

1168

00:47:43,529 --> 00:47:41,769

on there of people's archives that have

1169

00:47:45,779 --> 00:47:43,539

just gone or people just go direct to it

1170

00:47:47,670 --> 00:47:45,789

as to leave a record behind but on the

1171

00:47:48,930 --> 00:47:47,680

54th anniversary of scott Carpenter

1172

00:47:50,729 --> 00:47:48,940

mercury program I thought was pretty

1173

00:47:52,859 --> 00:47:50,739

interesting to bring that up and ask you

1174

00:47:55,769 --> 00:47:52,869

to put that into your your basket you're

1175

00:47:58,319 --> 00:47:55,779

in basket of looking into things oh yeah

1176

00:48:00,420 --> 00:47:58,329

there's a lot of I do have some sources

1177

00:48:02,519 --> 00:48:00,430

I can go to where I have read over the

1178

00:48:04,199 --> 00:48:02,529

years a lot of accounts from some of the

1179

00:48:05,759 --> 00:48:04,209

astronauts that have seen some pretty

1180

00:48:08,130 --> 00:48:05,769

inexplicable things out there

1181

00:48:10,880 --> 00:48:08,140

and NASA definitely is an organization

1182

00:48:14,880 --> 00:48:10,890

that wants to lowball anything like that

1183

00:48:17,249 --> 00:48:14,890

yes now you said you told me I feel

1184

00:48:19,109 --> 00:48:17,259

you're going to a UFO conference soon

1185

00:48:20,939 --> 00:48:19,119

well actually it's they called e it's

1186

00:48:24,120 --> 00:48:20,949

the creature weekend yeah Salt Fork

1187

00:48:25,529 --> 00:48:24,130

State Park it's almost like the Bigfoot

1188

00:48:26,729 --> 00:48:25,539

conference that they have there every

1189

00:48:29,009 --> 00:48:26,739

year and again in a couple of weeks

1190

00:48:30,209 --> 00:48:29,019

there and they one of the key speakers

1191

00:48:34,589 --> 00:48:30,219

there was going to be a Ron Morehead

1192

00:48:38,249 --> 00:48:34,599

which is he's really a huge figure in

1193

00:48:40,769 --> 00:48:38,259

the Bigfoot community very interesting

1194

00:48:41,490 --> 00:48:40,779

guy and he's the one that went out with

1195

00:48:43,860 --> 00:48:41,500

a group of people

1196

00:48:45,660 --> 00:48:43,870

into the Sierra Nevadas in California

1197

00:48:48,960 --> 00:48:45,670

yes and got what they call the Sierra

1198

00:48:52,350 --> 00:48:48,970

sounds it's incredible sounds of Bigfoot

1199

00:48:54,600 --> 00:48:52,360

which seem to be authentic Wow what's

1200

00:48:56,100 --> 00:48:54,610

the name of the show that's on looking

1201

00:48:58,560 --> 00:48:56,110

for Bigfoot well there's there's a

1202

00:48:59,850 --> 00:48:58,570

Finding Bigfoot my neighbors mountain

1203

00:49:01,650 --> 00:48:59,860

monsters okay

1204

00:49:03,870 --> 00:49:01,660

finding books Bigfoot a few weeks ago

1205

00:49:06,930 --> 00:49:03,880

they left a meatball sub out for the

1206

00:49:11,580 --> 00:49:06,940

Bigfoot did you see that I I think so I

1207

00:49:12,570 --> 00:49:11,590

mean they would leave some subway you

1208

00:49:15,330 --> 00:49:12,580

know they should have probably had a

1209

00:49:17,640 --> 00:49:15,340

nice little tie-in or something but they

1210

00:49:18,780 --> 00:49:17,650

leave they steadily being oranges and

1211

00:49:21,360 --> 00:49:18,790

apples and all this kind of stuff

1212

00:49:23,520 --> 00:49:21,370

nothing and so then one of the guys said

1213

00:49:25,620 --> 00:49:23,530

well you know and nothing was taken

1214

00:49:28,440 --> 00:49:25,630

the next morning right she says why

1215

00:49:29,970 --> 00:49:28,450

don't we leave some human food some junk

1216

00:49:31,740 --> 00:49:29,980

food out this and then left the

1217

00:49:34,440 --> 00:49:31,750

meatballs sobbing I guess it was gone in

1218

00:49:37,140 --> 00:49:34,450

the morning well so you know we know

1219

00:49:39,120 --> 00:49:37,150

what Bigfoot is into Switchblade Steve

1220

00:49:40,950 --> 00:49:39,130

Ward thank you very much thanks to us

1221

00:49:42,450 --> 00:49:40,960

out there in Battle Creek Michigan thank

1222

00:49:43,740 --> 00:49:42,460

you Steve and we're gonna go for a

1223

00:49:45,260 --> 00:49:43,750

commercial break now commander do you

1224

00:49:48,690 --> 00:49:45,270

have anything to say before commercials

1225

00:49:50,010 --> 00:49:48,700

one nope okay we're gonna take martial

1226  
00:49:51,360 --> 00:49:50,020  
break now and we'll be right back after

1227  
00:49:52,830 --> 00:49:51,370  
this year listening to Mac Maloney's

1228  
00:49:56,840 --> 00:49:52,840  
military exercise show here on the

1229  
00:50:01,190 --> 00:49:59,010  
welcome back everyone to Mac Maloney's

1230  
00:50:03,900 --> 00:50:01,200  
military style show here on the public

1231  
00:50:06,630 --> 00:50:03,910  
streaming network that's made money in

1232  
00:50:08,490 --> 00:50:06,640  
the studio with us tonight is the very

1233  
00:50:12,150 --> 00:50:08,500  
famous Juan Juan and also commander

1234  
00:50:13,620 --> 00:50:12,160  
Cobra and I should say that if things go

1235  
00:50:18,090 --> 00:50:13,630  
the way that they're supposed to go this

1236  
00:50:20,040 --> 00:50:18,100  
will be our last show on PSN exclusively

1237  
00:50:21,570 --> 00:50:20,050  
well not really supposedly because of

1238  
00:50:23,370 --> 00:50:21,580

two weeks if everything goes all right

1239

00:50:26,460 --> 00:50:23,380

we're going to be broadcasting to you on

1240

00:50:29,640 --> 00:50:26,470

the distant thunder radio network very

1241

00:50:32,220 --> 00:50:29,650

excited about that and I suppose this is

1242

00:50:33,780 --> 00:50:32,230

time that I should tell everyone that we

1243

00:50:35,610 --> 00:50:33,790

a broadcast on the public streaming

1244

00:50:39,090 --> 00:50:35,620

their work but also doc Matt a digital

1245

00:50:40,680 --> 00:50:39,100

network we are syndicated by radioactive

1246

00:50:41,940 --> 00:50:40,690

broadcasting in sunny San Diego

1247

00:50:45,320 --> 00:50:41,950

California for the Military Appreciation

1248

00:50:47,930 --> 00:50:45,330

Channel and armed forces radio network I

1249

00:50:49,830 --> 00:50:47,940

hats off to everybody and I salute

1250

00:50:53,480 --> 00:50:49,840

veterans and current service members

1251  
00:50:56,000 --> 00:50:53,490  
listening in thank you for what you do

1252  
00:50:57,920 --> 00:50:56,010  
so on the phone with us tonight he has

1253  
00:51:00,740 --> 00:50:57,930  
survived at another week in the murder

1254  
00:51:02,450 --> 00:51:00,750  
capital of the u.s. Dallas it's Rob Beck

1255  
00:51:04,490 --> 00:51:02,460  
housing of Juarez boring how you doing

1256  
00:51:07,120 --> 00:51:04,500  
there tonight Rob hey I'm staying safe

1257  
00:51:09,470 --> 00:51:07,130  
how are they safe okay that's good and

1258  
00:51:11,990 --> 00:51:09,480  
have you been to the gun range since we

1259  
00:51:14,180 --> 00:51:12,000  
last time no I haven't been in a while

1260  
00:51:15,800 --> 00:51:14,190  
oh wow okay remember we're sending you

1261  
00:51:17,570 --> 00:51:15,810  
out there with a GoPro to see if you can

1262  
00:51:20,030 --> 00:51:17,580  
pick up fix at the gun range it's a very

1263  
00:51:25,010 --> 00:51:20,040

very important experiment we're gonna do

1264

00:51:26,150 --> 00:51:25,020

you say you can't I say you can well I

1265

00:51:28,550 --> 00:51:26,160

said you know they're there with their

1266

00:51:30,560 --> 00:51:28,560

boyfriend so and you have a gun so is

1267

00:51:33,109 --> 00:51:30,570

the commando do you think its head are

1268

00:51:35,990 --> 00:51:33,119

easy to pick up a girl with a gun range

1269

00:51:38,750 --> 00:51:36,000

I think it's easy I do too I do too 1:1

1270

00:51:40,940 --> 00:51:38,760

it's also giving me a nod yes yep I

1271

00:51:43,160 --> 00:51:40,950

think it's easy to rob you just need to

1272

00:51:45,380 --> 00:51:43,170

have a little faith in yourself and hit

1273

00:51:47,510 --> 00:51:45,390

the target that's all all the way better

1274

00:51:49,700 --> 00:51:47,520

shot than me nothing wrong with that

1275

00:51:51,349 --> 00:51:49,710

either it's good to be told how to

1276

00:51:52,790 --> 00:51:51,359

vector in that round that's right if

1277

00:51:55,760 --> 00:51:52,800

they're shooting at you that means that

1278

00:51:58,329 --> 00:51:55,770

they are thinking about you anyway so

1279

00:52:01,280 --> 00:51:58,339

listen tonight we have a special a

1280

00:52:02,870 --> 00:52:01,290

marrying of operations distant Thunder

1281

00:52:04,870 --> 00:52:02,880

and war is very poor

1282

00:52:09,470 --> 00:52:04,880

we're gonna talk about this airplane

1283

00:52:11,510 --> 00:52:09,480

well the f-35 and it's it's being built

1284

00:52:13,310 --> 00:52:11,520

actually it's being built now there's

1285

00:52:15,349 --> 00:52:13,320

some of them that are flying around I

1286

00:52:16,970 --> 00:52:15,359

don't think it's is it officially

1287

00:52:20,510 --> 00:52:16,980

operational yet I don't think so is it

1288

00:52:22,550 --> 00:52:20,520

Rob it varies so the Marine Corps has

1289

00:52:26,630 --> 00:52:22,560

declared initial operating capability

1290

00:52:28,460 --> 00:52:26,640

right there so it is technically but it

1291

00:52:29,930 --> 00:52:28,470

also there's a debate about that so you

1292

00:52:33,650 --> 00:52:29,940

know is it actually combat ready and

1293

00:52:35,570 --> 00:52:33,660

right not we make might need to describe

1294

00:52:38,510 --> 00:52:35,580

the f-35 okay I think a lot of our

1295

00:52:41,839 --> 00:52:38,520

listeners will be familiar with it but

1296

00:52:42,710 --> 00:52:41,849

mmm so I could give it a go okay we

1297

00:52:44,990 --> 00:52:42,720

should just say that it's a very

1298

00:52:46,280 --> 00:52:45,000

controversial airplane because first of

1299

00:52:49,609 --> 00:52:46,290

all it costs a lot of money and the

1300

00:52:52,310 --> 00:52:49,619

initial reports you know about how it

1301  
00:52:54,800 --> 00:52:52,320  
performs and things of that nature have

1302  
00:52:56,690 --> 00:52:54,810  
not been too good at least in the

1303  
00:52:57,859 --> 00:52:56,700  
mainstream media so what we're gonna do

1304  
00:52:59,630 --> 00:52:57,869  
today we just can talk about this

1305  
00:53:01,190 --> 00:52:59,640  
airplane it's it's interesting for

1306  
00:53:03,320 --> 00:53:01,200  
people nobody uh planes but also if you

1307  
00:53:05,000 --> 00:53:03,330  
don't know about you know jet fighters

1308  
00:53:06,890 --> 00:53:05,010  
and so on I mean it's an interesting

1309  
00:53:09,109 --> 00:53:06,900  
story how this airplane

1310  
00:53:11,990 --> 00:53:09,119  
came to be and the commander is also

1311  
00:53:14,059 --> 00:53:12,000  
going to weigh in on it so uh Rob yes

1312  
00:53:16,400 --> 00:53:14,069  
please just describe to the listeners

1313  
00:53:18,980 --> 00:53:16,410

what the f-35 looks like what it's

1314

00:53:20,329 --> 00:53:18,990

supposed to do right so and yeah real

1315

00:53:23,200 --> 00:53:20,339

fast on your point

1316

00:53:25,880 --> 00:53:23,210

the f-35 does has broke it into the

1317

00:53:28,309 --> 00:53:25,890

popular consciousness in a way that a

1318

00:53:32,329 --> 00:53:28,319

lot of military you know high tech

1319

00:53:39,019 --> 00:53:32,339

projects don't so but yeah so the f-35

1320

00:53:43,430 --> 00:53:39,029

is the military's attempt to replace the

1321

00:53:46,670 --> 00:53:43,440

f16 the a-10 warthog the f-18 and the

1322

00:53:50,960 --> 00:53:46,680

Harrier jets with a single hyper

1323

00:53:52,730 --> 00:53:50,970

advanced stealth fighter and it be used

1324

00:53:54,799 --> 00:53:52,740

by the Air Force the Navy and the

1325

00:53:57,349 --> 00:53:54,809

Marines and so it would have parts in

1326

00:54:00,260 --> 00:53:57,359

common with you know some modifications

1327

00:54:04,549 --> 00:54:00,270

between each branch so it's a it's a

1328

00:54:06,470 --> 00:54:04,559

it's a air combat fighter they'll be

1329

00:54:08,510 --> 00:54:06,480

able to take off and land vertically for

1330

00:54:10,279 --> 00:54:08,520

the Marines the Marine version of the

1331

00:54:13,069 --> 00:54:10,289

plane which is very important for the

1332

00:54:15,799 --> 00:54:13,079

Marine Corps I would take off and land

1333

00:54:18,260 --> 00:54:15,809

from aircraft carriers for the Navy and

1334

00:54:22,490 --> 00:54:18,270

you'd also have a conventional runway

1335

00:54:24,410 --> 00:54:22,500

version for the Air Force so now if you

1336

00:54:26,269 --> 00:54:24,420

think of the f-16 and the a-10 and the

1337

00:54:28,190 --> 00:54:26,279

f-18 you know I've don't need to

1338

00:54:30,109 --> 00:54:28,200

describe in detail all of these aircraft

1339

00:54:32,210 --> 00:54:30,119

but these are very different airplanes

1340

00:54:34,940 --> 00:54:32,220

that have generally with different

1341

00:54:38,480 --> 00:54:34,950

missions and different designs

1342

00:54:40,370 --> 00:54:38,490

the f-35 combines all of these into an

1343

00:54:42,620 --> 00:54:40,380

air superiority fighter a bomber or

1344

00:54:45,319 --> 00:54:42,630

close air support plane capable of

1345

00:54:48,279 --> 00:54:45,329

electronic warfare all of the above the

1346

00:54:50,599 --> 00:54:48,289

plan is for the f-35 to do it all and

1347

00:54:53,660 --> 00:54:50,609

have all these sophisticated bells and

1348

00:54:57,440 --> 00:54:53,670

whistles tricked-out radar to give it a

1349

00:54:58,789 --> 00:54:57,450

technological edge over everyone so

1350

00:55:02,349 --> 00:54:58,799

we're gonna build the United States will

1351  
00:55:04,910 --> 00:55:02,359  
build two and a half thousand of them

1352  
00:55:06,950 --> 00:55:04,920  
for just for the US military a bunch of

1353  
00:55:08,539 --> 00:55:06,960  
other countries are buying them they

1354  
00:55:10,519 --> 00:55:08,549  
will last through the twenty seventies

1355  
00:55:11,980 --> 00:55:10,529  
and a Lockheed Martin is making it so

1356  
00:55:15,740 --> 00:55:11,990  
that that's that's my objective

1357  
00:55:18,319 --> 00:55:15,750  
journalistic you know neutral take on it

1358  
00:55:19,910 --> 00:55:18,329  
now I write edit for website called Wars

1359  
00:55:21,319 --> 00:55:19,920  
boring and we're very critical at the

1360  
00:55:24,980 --> 00:55:21,329  
f-35

1361  
00:55:27,799 --> 00:55:24,990  
we don't think it's a very good idea we

1362  
00:55:30,200 --> 00:55:27,809  
think it actually that's under states

1363  
00:55:32,630 --> 00:55:30,210

that we think it's a it's a disaster in

1364

00:55:34,190 --> 00:55:32,640

engineering why is design-wise so robbed

1365

00:55:35,809 --> 00:55:34,200

if I can interrupt you you think the

1366

00:55:40,069 --> 00:55:35,819

name should not be lightning - for the

1367

00:55:44,210 --> 00:55:40,079

f-35 it should be Titanic - it would be

1368

00:55:47,930 --> 00:55:44,220

yeah I it's as if the Titanic you know

1369

00:55:50,930 --> 00:55:47,940

we the most engineered ship to set sail

1370

00:55:54,230 --> 00:55:50,940

that had a unbelievable disaster on its

1371

00:55:56,089 --> 00:55:54,240

maiden voyage building Titanic's and

1372

00:55:58,549 --> 00:55:56,099

kept sailing them into icebergs over and

1373

00:56:00,730 --> 00:55:58,559

over again that that might come close to

1374

00:56:05,750 --> 00:56:00,740

it so I should probably talk about why

1375

00:56:08,210 --> 00:56:05,760

why I think it's a bad idea so so the

1376  
00:56:10,700 --> 00:56:08,220  
design of the aircraft when we talk

1377  
00:56:12,349 --> 00:56:10,710  
about the the these four different

1378  
00:56:16,430 --> 00:56:12,359  
aircraft like that it's replacing the

1379  
00:56:18,140 --> 00:56:16,440  
f16 the a-10 the f-18 the Harrier these

1380  
00:56:21,380 --> 00:56:18,150  
are designed differently because they're

1381  
00:56:22,400 --> 00:56:21,390  
optimized for different missions now

1382  
00:56:25,490 --> 00:56:22,410  
when you combine these different

1383  
00:56:28,549 --> 00:56:25,500  
missions and you you know into a single

1384  
00:56:31,009 --> 00:56:28,559  
airplane you have to make trade-offs and

1385  
00:56:34,640 --> 00:56:31,019  
you have to any compromises absolutely

1386  
00:56:37,490 --> 00:56:34,650  
so for example the marine version of the

1387  
00:56:39,319 --> 00:56:37,500  
f-35 has a vertical lift fan in the

1388  
00:56:41,480 --> 00:56:39,329

middle to allow it to take off and land

1389

00:56:43,519 --> 00:56:41,490

like helicopter and it also adjusts its

1390

00:56:46,309 --> 00:56:43,529

rear nozzle on the engine to give it the

1391

00:56:48,829 --> 00:56:46,319

the jump that's right yes but the the

1392

00:56:50,299 --> 00:56:48,839

lift fan is crucial because it makes the

1393

00:56:53,120 --> 00:56:50,309

airplane very fat in the center of the

1394

00:56:54,680 --> 00:56:53,130

fuselage you also need smaller wings to

1395

00:56:57,620 --> 00:56:54,690

help it you know lift and take off

1396

00:57:00,769 --> 00:56:57,630

vertically the Air Force and maybe

1397

00:57:02,150 --> 00:57:00,779

versions do not have a lift fan but all

1398

00:57:04,069 --> 00:57:02,160

three of them have the same shape

1399

00:57:05,809 --> 00:57:04,079

they're designed to be compatible with

1400

00:57:08,359 --> 00:57:05,819

you know spare parts and that sort of

1401  
00:57:13,039 --> 00:57:08,369  
thing right coming yeah commonality is

1402  
00:57:15,109 --> 00:57:13,049  
critical here right but when you make

1403  
00:57:17,749 --> 00:57:15,119  
make it fat you give it little tiny

1404  
00:57:19,190 --> 00:57:17,759  
wings little you know little chicken

1405  
00:57:21,859 --> 00:57:19,200  
wings on an airplane

1406  
00:57:23,779 --> 00:57:21,869  
now you can't maneuver as well because

1407  
00:57:27,589 --> 00:57:23,789  
you need large wings to generate lift

1408  
00:57:29,749 --> 00:57:27,599  
right to make turns correct so you have

1409  
00:57:32,839 --> 00:57:29,759  
a plane that does not have for the Air

1410  
00:57:34,960 --> 00:57:32,849  
Force and the Navy planes that do not

1411  
00:57:37,910 --> 00:57:34,970  
have a lift fan but are

1412  
00:57:39,620 --> 00:57:37,920  
compromise in that sense they that you

1413  
00:57:41,630 --> 00:57:39,630

know they're they're less maneuverable

1414

00:57:43,370 --> 00:57:41,640

despite not having the lift fan at all

1415

00:57:45,170 --> 00:57:43,380

so you're you're saying that the marine

1416

00:57:47,240 --> 00:57:45,180

wing is the same size as the Air Force

1417

00:57:49,609 --> 00:57:47,250

and Navy variant uh that's not quite

1418

00:57:51,260 --> 00:57:49,619

this that I believe the Navy version has

1419

00:57:53,000 --> 00:57:51,270

slightly larger wing that it does not it

1420

00:57:56,329 --> 00:57:53,010

correct yeah so we were getting our

1421

00:57:58,819 --> 00:57:56,339

facts straight but as a dog fighter

1422

00:58:01,670 --> 00:57:58,829

you're in trouble because you have to be

1423

00:58:02,839 --> 00:58:01,680

highly maneuverable and in a turning

1424

00:58:04,730 --> 00:58:02,849

battle but do you have to be high

1425

00:58:08,000 --> 00:58:04,740

renewable if you have the systems that

1426

00:58:08,390 --> 00:58:08,010

the f-35 has on it that's a very good

1427

00:58:11,599 --> 00:58:08,400

question

1428

00:58:14,990 --> 00:58:11,609

so I mean you're gonna compare apples to

1429

00:58:17,300 --> 00:58:15,000

apples the f16 can highly outmaneuver an

1430

00:58:19,309 --> 00:58:17,310

f-15 but the f-15 would never allow an

1431

00:58:22,190 --> 00:58:19,319

f-16 type aircraft to get close to it

1432

00:58:26,450 --> 00:58:22,200

so I understand your your generalization

1433

00:58:28,730 --> 00:58:26,460

on that and I have similar concerns when

1434

00:58:30,890 --> 00:58:28,740

we come in with one aircraft replace all

1435

00:58:32,270 --> 00:58:30,900

the others but I think one of the things

1436

00:58:34,010 --> 00:58:32,280

that you have to throw in there in that

1437

00:58:36,849 --> 00:58:34,020

beginning description of the aircraft is

1438

00:58:40,190 --> 00:58:36,859

this aircraft is not a revolutionary

1439

00:58:42,589 --> 00:58:40,200

increment on the scale we're skipping

1440

00:58:44,420 --> 00:58:42,599

about two or three steps and we're

1441

00:58:47,359 --> 00:58:44,430

putting an evolutionary change out there

1442

00:58:50,480 --> 00:58:47,369

to fit what the Air Force primarily is

1443

00:58:54,800 --> 00:58:50,490

leading here as the future air battle

1444

00:58:58,130 --> 00:58:54,810

and air maneuver battle of order using a

1445

00:59:01,819 --> 00:58:58,140

integrated digitally networked digital

1446

00:59:03,319 --> 00:59:01,829

cast digital is are so that the ability

1447

00:59:04,910 --> 00:59:03,329

you know ultimately the way they're

1448

00:59:09,319 --> 00:59:04,920

gonna answer something like the close

1449

00:59:11,240 --> 00:59:09,329

air support is the soldier who sees the

1450

00:59:14,980 --> 00:59:11,250

target is going to be to communicate in

1451  
00:59:17,569 --> 00:59:14,990  
that system and have the f-35 targeted

1452  
00:59:20,210 --> 00:59:17,579  
literally and let that weapon system go

1453  
00:59:25,609 --> 00:59:20,220  
because it's all part of the the network

1454  
00:59:27,290 --> 00:59:25,619  
wow snap commander well okay so the the

1455  
00:59:30,170 --> 00:59:27,300  
fighting in the air and fighting from a

1456  
00:59:34,069 --> 00:59:30,180  
distance with all the digital sensors

1457  
00:59:37,849 --> 00:59:34,079  
and advanced band sensors and in close

1458  
00:59:40,210 --> 00:59:37,859  
air support or two different issues so

1459  
00:59:43,849 --> 00:59:40,220  
if I could address the the air-to-air

1460  
00:59:46,670 --> 00:59:43,859  
issue first yes the Pentagon and the Air

1461  
00:59:48,259 --> 00:59:46,680  
Force in particular has long had a

1462  
00:59:50,509 --> 00:59:48,269  
passion for by

1463  
00:59:51,979 --> 00:59:50,519

beyond visual range so the argument is

1464

00:59:55,489 --> 00:59:51,989

is that the f-35b it's not as

1465

00:59:57,289 --> 00:59:55,499

maneuverable as an f-16 but it'll be

1466

01:00:00,559 --> 00:59:57,299

able to shoot down anything from

1467

01:00:04,699 --> 01:00:00,569

long-range before it gets close so it's

1468

01:00:06,859 --> 01:00:04,709

not really an issue but I don't I doubt

1469

01:00:08,359 --> 01:00:06,869

that I doubt that quite a lot now this

1470

01:00:11,059 --> 01:00:08,369

is we're going I'm gonna come in on your

1471

01:00:13,689 --> 01:00:11,069

wing here a little bit Robin and say

1472

01:00:15,739 --> 01:00:13,699

that historically we've had bvr

1473

01:00:16,969 --> 01:00:15,749

capability for a long time but we've

1474

01:00:19,009 --> 01:00:16,979

never used it because we're always

1475

01:00:21,889 --> 01:00:19,019

afraid we're gonna take down allied or

1476

01:00:23,899 --> 01:00:21,899

friendly our own folks because we don't

1477

01:00:24,619 --> 01:00:23,909

do the visual identification beyond

1478

01:00:28,249 --> 01:00:24,629

visual range

1479

01:00:31,909 --> 01:00:28,259

you can't trust the iff identification

1480

01:00:34,639 --> 01:00:31,919

Friend or Foe and yeah but that happened

1481

01:00:36,649 --> 01:00:34,649

in Vietnam to happen even more recently

1482

01:00:38,809 --> 01:00:36,659

some places like Iraq where we took

1483

01:00:40,909 --> 01:00:38,819

Blackhawk helicopters because we were

1484

01:00:43,069 --> 01:00:40,919

convinced with the human person in the

1485

01:00:44,689 --> 01:00:43,079

element that two Blackhawks that were

1486

01:00:46,159 --> 01:00:44,699

carrying a number of American service

1487

01:00:48,559 --> 01:00:46,169

people moving from northern Iraq to

1488

01:00:51,109 --> 01:00:48,569

central Iraq were hind helicopters or

1489

01:00:53,959 --> 01:00:51,119

hips and they were shot by a BB are shot

1490

01:00:55,969 --> 01:00:53,969

by an f15 directed by an AWACS so it's

1491

01:00:57,529 --> 01:00:55,979

happened very recently hey you listening

1492

01:00:59,719 --> 01:00:57,539

to Mac Maloney's military-style show

1493

01:01:00,679 --> 01:00:59,729

here on the public streaming network

1494

01:01:03,469 --> 01:01:00,689

we're in the middle of a debate about

1495

01:01:05,089 --> 01:01:03,479

the f-35 the new airplane coming on the

1496

01:01:07,249 --> 01:01:05,099

line for the USAF us and a lot of other

1497

01:01:08,899 --> 01:01:07,259

forces around the world some people love

1498

01:01:10,729 --> 01:01:08,909

it some people really don't like it

1499

01:01:12,379 --> 01:01:10,739

we're gonna go back to the debate now

1500

01:01:15,499 --> 01:01:12,389

with commander Cobra and Rob back house

1501

01:01:17,869 --> 01:01:15,509

and of laura's roaring right so the

1502

01:01:19,339 --> 01:01:17,879

point about you know what you have an

1503

01:01:22,879 --> 01:01:19,349

enemy plane coming at you and you're in

1504

01:01:24,439 --> 01:01:22,889

an f-35 you know if you if you let have

1505

01:01:28,189 --> 01:01:24,449

to let that plane get close so you can

1506

01:01:30,769 --> 01:01:28,199

identify it you know you're within you

1507

01:01:31,969 --> 01:01:30,779

know a mile you know you're you're gonna

1508

01:01:34,459 --> 01:01:31,979

get in close you're gonna be in close

1509

01:01:37,219 --> 01:01:34,469

combat and a dogfight and it's gonna

1510

01:01:39,019 --> 01:01:37,229

start maneuver maneuverability starts to

1511

01:01:41,719 --> 01:01:39,029

matter with either the missiles of the

1512

01:01:46,399 --> 01:01:41,729

guns to maneuver the aircraft to get a

1513

01:01:48,499 --> 01:01:46,409

kill shot and the fact that the Russians

1514

01:01:50,569 --> 01:01:48,509

and the Chinese know that the f-35 said

1515

01:01:52,419 --> 01:01:50,579

it disadvantage here they will do

1516

01:01:55,279 --> 01:01:52,429

everything in their power to exploit

1517

01:01:58,399 --> 01:01:55,289

exploit it and they get as close as

1518

01:02:01,550 --> 01:01:58,409

possible in a near battle and so you

1519

01:02:03,590 --> 01:02:01,560

know you that is that's

1520

01:02:05,210 --> 01:02:03,600

that it can fight it long-range than

1521

01:02:06,560 --> 01:02:05,220

that well these technological solution

1522

01:02:09,350 --> 01:02:06,570

will solve all of our you know

1523

01:02:10,760 --> 01:02:09,360

air-to-air combat problems I just don't

1524

01:02:11,330 --> 01:02:10,770

believe it now there's a lot of close

1525

01:02:13,310 --> 01:02:11,340

air support

1526

01:02:15,650 --> 01:02:13,320

I'm gonna engage I give you tip of the

1527

01:02:16,910 --> 01:02:15,660

hat salute kudos on that because we

1528

01:02:19,220 --> 01:02:16,920

constantly have been down this road

1529

01:02:21,830 --> 01:02:19,230

before you know one of the things that

1530

01:02:23,000 --> 01:02:21,840

the f-35 has on it is it has an internal

1531

01:02:24,920 --> 01:02:23,010

gun system on it

1532

01:02:26,930 --> 01:02:24,930

it doesn't have very many rounds on it

1533

01:02:28,490 --> 01:02:26,940

but it has an internal gun system and

1534

01:02:31,760 --> 01:02:28,500

when the f4 came out and the f4 was

1535

01:02:34,610 --> 01:02:31,770

touted exactly the same way in 1960s

1536

01:02:36,620 --> 01:02:34,620

late 50s 1960 terms they didn't put a

1537

01:02:38,780 --> 01:02:36,630

gun on it because missiles were gonna

1538

01:02:40,700 --> 01:02:38,790

take care of everything and dogfighting

1539

01:02:43,190 --> 01:02:40,710

was no longer going to be an issue and

1540

01:02:45,680 --> 01:02:43,200

then what happens Russian aircraft in

1541

01:02:47,450 --> 01:02:45,690

many instances Russian pilots Chinese

1542

01:02:51,650 --> 01:02:47,460

pilots and Northey and these pilots

1543

01:02:53,240 --> 01:02:51,660

tangle in far less inferior airplanes in

1544

01:02:56,210 --> 01:02:53,250

almost every category except they were

1545

01:02:58,070 --> 01:02:56,220

almost as fast if not faster had a gun

1546

01:03:00,530 --> 01:02:58,080

had a very simple missile and they could

1547

01:03:03,140 --> 01:03:00,540

out maneuver the f4 and we had what not

1548

01:03:06,200 --> 01:03:03,150

trained for this mission so that's a

1549

01:03:08,090 --> 01:03:06,210

time that Vietnam Vietnam came along we

1550

01:03:09,740 --> 01:03:08,100

had not you're right they expected the

1551

01:03:12,140 --> 01:03:09,750

f4 phantom to be one of these airplanes

1552

01:03:14,240 --> 01:03:12,150

that would go up very high and and shoot

1553

01:03:16,370 --> 01:03:14,250

incoming bombers from miles and miles

1554

01:03:18,680 --> 01:03:16,380

and miles away and the pilots never had

1555

01:03:20,120 --> 01:03:18,690

any training and Navy pilots the same

1556

01:03:23,000 --> 01:03:20,130

thing and I think at one point in

1557

01:03:25,220 --> 01:03:23,010

Vietnam I killed ratio was two MiG's for

1558

01:03:26,570 --> 01:03:25,230

every one of our airplanes right Jim

1559

01:03:28,730 --> 01:03:26,580

wants as well at least you're winning

1560

01:03:31,130 --> 01:03:28,740

you know to everyone that's all the harm

1561

01:03:32,570 --> 01:03:31,140

it was 10 to 15 or one in Korea and we

1562

01:03:34,520 --> 01:03:32,580

were something like twenty to twenty

1563

01:03:37,580 --> 01:03:34,530

five to one in World War two right it

1564

01:03:39,020 --> 01:03:37,590

was just a horrible situation and it and

1565

01:03:41,090 --> 01:03:39,030

you're right they said the same things

1566

01:03:42,890 --> 01:03:41,100

about the F what this thing about the XO

1567

01:03:46,160 --> 01:03:42,900

to be to throw the other part of this

1568

01:03:48,640 --> 01:03:46,170

the rub the the technological change as

1569

01:03:51,470 --> 01:03:48,650

I said before not in line not a

1570

01:03:53,450 --> 01:03:51,480

generational kind of they're really

1571

01:03:56,390 --> 01:03:53,460

inking this thing up to three

1572

01:03:58,040 --> 01:03:56,400

evolutionary leaves up there I think

1573

01:03:59,960 --> 01:03:58,050

this is why they held on to the stealth

1574

01:04:02,150 --> 01:03:59,970

as much as they did to give the ability

1575

01:04:03,950 --> 01:04:02,160

that it's not going to be easily seen

1576

01:04:06,230 --> 01:04:03,960

that it's not going and it's going to be

1577

01:04:09,410 --> 01:04:06,240

linked digitally to the other aircraft

1578

01:04:11,120 --> 01:04:09,420

that are around it as they come up which

1579

01:04:13,250 --> 01:04:11,130

leads me to throw in early in this

1580

01:04:15,140 --> 01:04:13,260

discussion there is no way in heaven

1581

01:04:17,630 --> 01:04:15,150

this is going to be the only aircraft

1582

01:04:19,580 --> 01:04:17,640

that we produce of course at these at

1583

01:04:21,740 --> 01:04:19,590

this cost I don't I don't think it's

1584

01:04:23,330 --> 01:04:21,750

gonna be very easy to bring additional

1585

01:04:27,650 --> 01:04:23,340

aircraft and it's a very expensive

1586

01:04:29,960 --> 01:04:27,660

platform but it's going to bring about a

1587

01:04:31,730 --> 01:04:29,970

low cost fighter Allah we're going to

1588

01:04:34,190 --> 01:04:31,740

repeat what we've done a number of times

1589

01:04:39,050 --> 01:04:36,920

so let me Abbi step back just for a

1590

01:04:42,350 --> 01:04:39,060

moment um go back to the the close air

1591

01:04:45,440 --> 01:04:42,360

support and ground attack top angle

1592

01:04:47,060 --> 01:04:45,450

which we skipped over a bit so to your

1593

01:04:49,610 --> 01:04:47,070

arguments credit I don't think it's the

1594

01:04:52,790 --> 01:04:49,620

worst ground attacker in the world you

1595

01:04:55,100 --> 01:04:52,800

know with Chris and so one of the big

1596

01:04:56,390 --> 01:04:55,110

criticisms the f-35 is that can't carry

1597

01:04:58,310 --> 01:04:56,400

a lot of bombs that carries it

1598

01:05:01,850 --> 01:04:58,320

internally because of the stealth which

1599

01:05:03,680 --> 01:05:01,860

we talked about right but with precision

1600

01:05:06,050 --> 01:05:03,690

guided weapons that we use now I mean

1601

01:05:07,550 --> 01:05:06,060

this isn't Vietnam this isn't world war

1602

01:05:10,490 --> 01:05:07,560

two anymore so you can do a lot more

1603

01:05:13,520 --> 01:05:10,500

than you used to with less so with the

1604

01:05:16,880 --> 01:05:13,530

sensor fusion and with the ability to

1605

01:05:19,190 --> 01:05:16,890

you know to integrate with troops on the

1606

01:05:20,690 --> 01:05:19,200

ground with other aircraft if you want

1607

01:05:23,480 --> 01:05:20,700

to blow up a building or bridge you can

1608

01:05:25,610 --> 01:05:23,490

do that and you can do it with a pretty

1609

01:05:30,620 --> 01:05:25,620

big bomb you know you can fit two really

1610

01:05:32,360 --> 01:05:30,630

big bombs inside this thing as a close

1611

01:05:34,340 --> 01:05:32,370

air support aircraft I'd say it's about

1612

01:05:36,380 --> 01:05:34,350

as good as the f16 and you know we do

1613

01:05:38,170 --> 01:05:36,390

have I mean so there are some you know

1614

01:05:41,630 --> 01:05:38,180

critics like Pierre spre

1615

01:05:43,580 --> 01:05:41,640

who you know goes way back in the

1616

01:05:47,030 --> 01:05:43,590

Pentagon and had had a role in the a-10

1617

01:05:48,430 --> 01:05:47,040

the f-16 he says you know multi-role

1618

01:05:50,390 --> 01:05:48,440

aircraft you build a multi-role

1619

01:05:52,280 --> 01:05:50,400

multi-role plane you're sunk from the

1620

01:05:54,050 --> 01:05:52,290

beginning and I always thought you know

1621

01:05:56,510 --> 01:05:54,060

Hebrew always like very lightweight very

1622

01:05:57,740 --> 01:05:56,520

agile planes but I like to but I mean

1623

01:06:02,090 --> 01:05:57,750

you know we have some pretty good

1624

01:06:05,300 --> 01:06:02,100

multi-role aircraft now I don't know if

1625

01:06:09,170 --> 01:06:05,310

we need a super expensive stealth you

1626

01:06:11,450 --> 01:06:09,180

know do it all you know airplane when we

1627

01:06:13,970 --> 01:06:11,460

know you could have cheaper options it's

1628

01:06:15,170 --> 01:06:13,980

it's just there's you know well let's go

1629

01:06:17,660 --> 01:06:15,180

back to your numbers though rub you're

1630

01:06:19,720 --> 01:06:17,670

talking about 2500 of these in the

1631

01:06:22,670 --> 01:06:19,730

inventory of the United States alone

1632

01:06:24,860 --> 01:06:22,680

probably another additional 2,000 spread

1633

01:06:26,090 --> 01:06:24,870

across mostly NATO allies and probably

1634

01:06:27,920 --> 01:06:26,100

some of the other trusts that one's like

1635

01:06:30,170 --> 01:06:27,930

Japan and Korea at

1636

01:06:31,730 --> 01:06:30,180

this point in the Middle East well the

1637

01:06:32,690 --> 01:06:31,740

Middle East that's an interesting point

1638

01:06:34,460 --> 01:06:32,700

we're not going to see them in the

1639

01:06:35,780 --> 01:06:34,470

Middle East anytime soon because Israel

1640

01:06:38,630 --> 01:06:35,790

is gonna get them first and there wasn't

1641

01:06:41,150 --> 01:06:38,640

gonna happen for about 10 15 years and

1642

01:06:43,850 --> 01:06:41,160

then it's it's to keep the quantitative

1643

01:06:46,100 --> 01:06:43,860

edge for the Israelis ahead of their

1644

01:06:47,870 --> 01:06:46,110

their Arab neighbors yep but it's gonna

1645

01:06:49,460 --> 01:06:47,880

be exported to a lot of different places

1646

01:06:51,410 --> 01:06:49,470

and a lot of different a lot of

1647

01:06:53,750 --> 01:06:51,420

different countries have already kind of

1648

01:06:56,510 --> 01:06:53,760

gone in on this thing and now with all

1649

01:06:58,700 --> 01:06:56,520

this negative press I just wonder if I

1650

01:07:00,110 --> 01:06:58,710

can jump in here I just want to read

1651

01:07:02,780 --> 01:07:00,120

some a little bit of research I did

1652

01:07:04,340 --> 01:07:02,790

today listening smack mommy's mill

1653

01:07:08,120 --> 01:07:04,350

textile show you're in the middle of the

1654

01:07:09,710 --> 01:07:08,130

great f-35 debate I just looked at this

1655

01:07:11,780 --> 01:07:09,720

robbed from like a historic point of

1656

01:07:14,330 --> 01:07:11,790

view and I didn't really have to do

1657

01:07:18,130 --> 01:07:14,340

spend too much time researching it all I

1658

01:07:20,390 --> 01:07:18,140

had to do was like Google criticism of

1659

01:07:24,890 --> 01:07:20,400

historic fighter planes or something

1660

01:07:26,690 --> 01:07:24,900

like that like for instance there was

1661

01:07:28,040 --> 01:07:26,700

criticism of this one particular fighter

1662

01:07:29,660 --> 01:07:28,050

that said there was too large to be a

1663

01:07:31,880 --> 01:07:29,670

dedicated dog fighter and too expensive

1664

01:07:35,030 --> 01:07:31,890

to procure and large numbers let me

1665

01:07:36,530 --> 01:07:35,040

guess at 15 f-15 you know and at the

1666

01:07:38,780 --> 01:07:36,540

f-15 turned out to be the most

1667

01:07:42,290 --> 01:07:38,790

successful fighter in history it's never

1668

01:07:44,570 --> 01:07:42,300

been shot down it's like a 1/100 to zero

1669

01:07:46,760 --> 01:07:44,580

you know kill ratio mostly because the

1670

01:07:49,460 --> 01:07:46,770

Israelis knocking airplanes out of the

1671

01:07:52,130 --> 01:07:49,470

sky and and they built hundreds they I

1672

01:07:54,140 --> 01:07:52,140

think thousands for only quote unquote

1673

01:07:57,110 --> 01:07:54,150

forty three million dollars a piece

1674

01:08:00,380 --> 01:07:57,120

which is cheap these days parking at

1675

01:08:01,700 --> 01:08:00,390

twice the price alright his criticism of

1676

01:08:03,320 --> 01:08:01,710

another plane this plane was opposed

1677

01:08:06,080 --> 01:08:03,330

because there was too lightweight and

1678

01:08:09,440 --> 01:08:06,090

cheap relying only on a single engine

1679

01:08:10,910 --> 01:08:09,450

I'm guessing f-16 f16 is right f-16

1680

01:08:13,160 --> 01:08:10,920

turned out to be one of them I mean

1681

01:08:15,080 --> 01:08:13,170

other than the f-15 turned out to be one

1682

01:08:17,900 --> 01:08:15,090

of the best airplanes ever and what was

1683

01:08:20,300 --> 01:08:17,910

the loser airplane to the f-16 that

1684

01:08:23,600 --> 01:08:20,310

would be the f7 7/7 which came in became

1685

01:08:25,790 --> 01:08:23,610

the f-18 exactly which was aptly and

1686

01:08:28,250 --> 01:08:25,800

based it as a replacement to the a6 the

1687

01:08:29,720 --> 01:08:28,260

f-14 and trying to put one common

1688

01:08:31,820 --> 01:08:29,730

airframe on to the aircraft carrier

1689

01:08:34,250 --> 01:08:31,830

right now we're building enf models

1690

01:08:36,710 --> 01:08:34,260

which went through a significant wing

1691

01:08:38,780 --> 01:08:36,720

problem on them that's why the wing on

1692

01:08:40,340 --> 01:08:38,790

the lightning to here had to have some

1693

01:08:41,270 --> 01:08:40,350

modifications to get it on off the

1694

01:08:44,670 --> 01:08:41,280

carrier

1695

01:08:48,030 --> 01:08:44,680

in a little historical nugget I picked

1696

01:08:49,680 --> 01:08:48,040

up in right when the f8 f-16 the f-15

1697

01:08:51,900 --> 01:08:49,690

they kind of came online right at the

1698

01:08:54,060 --> 01:08:51,910

same time US News and World Report

1699

01:08:56,340 --> 01:08:54,070

characterized both as America's jinx

1700

01:08:58,770 --> 01:08:56,350

jinx warplanes because both of them were

1701

01:09:00,570 --> 01:08:58,780

having as they say teething problems so

1702

01:09:04,260 --> 01:09:00,580

I went back a little bit more and it

1703

01:09:05,460 --> 01:09:04,270

turns out that you know people dumped on

1704

01:09:07,560 --> 01:09:05,470

that we're going back into the

1705

01:09:10,020 --> 01:09:07,570

historical kind of aspect of this ok

1706

01:09:12,480 --> 01:09:10,030

people dumped on the on the Mustang

1707

01:09:13,830 --> 01:09:12,490

the p-51 Mustang it was a dog when it

1708

01:09:14,700 --> 01:09:13,840

first came out aerodynamically

1709

01:09:16,800 --> 01:09:14,710

well-designed

1710

01:09:18,540 --> 01:09:16,810

crap American engine that was put in it

1711

01:09:20,460 --> 01:09:18,550

they put a rolls-royce engine in it and

1712

01:09:23,430 --> 01:09:20,470

it becomes maybe the most popular the

1713

01:09:25,860 --> 01:09:23,440

best fighter plane ever the p-51 can

1714

01:09:28,410 --> 01:09:25,870

still fly from England go do battle in

1715

01:09:30,540 --> 01:09:28,420

the middle of Germany and come back on

1716

01:09:31,680 --> 01:09:30,550

its fuel load and we still don't have

1717

01:09:33,680 --> 01:09:31,690

fighters that could do that without

1718

01:09:35,850 --> 01:09:33,690

tanker support amazing

1719

01:09:38,670 --> 01:09:35,860

there was another plane of world war two

1720

01:09:40,530 --> 01:09:38,680

called the p38 and people criticized

1721

01:09:42,600 --> 01:09:40,540

that they had two engines right and

1722

01:09:45,210 --> 01:09:42,610

that's and had a very slow roll rate it

1723

01:09:47,070 --> 01:09:45,220

didn't it had an incredible air-to-air

1724

01:09:48,930 --> 01:09:47,080

capability and a ground attack

1725

01:09:51,120 --> 01:09:48,940

capability but it didn't maneuver very

1726

01:09:54,180 --> 01:09:51,130

well and it was a very complicated

1727

01:09:56,070 --> 01:09:54,190

airplane to fly but it is the legacy

1728

01:09:58,200 --> 01:09:56,080

name interesting you bring this up Mac

1729

01:10:00,030 --> 01:09:58,210

it is the original lightning Brite the

1730

01:10:01,530 --> 01:10:00,040

original lightning the f-35 that's its

1731

01:10:01,950 --> 01:10:01,540

nickname and just going down the list

1732

01:10:04,710 --> 01:10:01,960

real quick

1733

01:10:06,810 --> 01:10:04,720

people criticize the f-86 because it was

1734

01:10:08,760 --> 01:10:06,820

too slow and that was basically what won

1735

01:10:11,330 --> 01:10:08,770

the air war for us in Korea people

1736

01:10:14,730 --> 01:10:11,340

criticize the f-104 as being too fast

1737

01:10:17,160 --> 01:10:14,740

okay and it was used as a ground attack

1738

01:10:20,190 --> 01:10:17,170

aircraft by the Dutch and the Germans

1739

01:10:21,840 --> 01:10:20,200

they criticized the f-111 swing-wing is

1740

01:10:25,250 --> 01:10:21,850

being too complicated and it turned out

1741

01:10:27,530 --> 01:10:25,260

to be a really good fight Obama and and

1742

01:10:29,760 --> 01:10:27,540

therefore of course someone used to

1743

01:10:31,080 --> 01:10:29,770

describe it as a truck and in the

1744

01:10:34,200 --> 01:10:31,090

airplane that looks like someone close

1745

01:10:36,060 --> 01:10:34,210

the hangar doors on it so basically what

1746

01:10:38,610 --> 01:10:36,070

I'm just saying is that each one of

1747

01:10:41,400 --> 01:10:38,620

these airplanes has you know they go

1748

01:10:43,380 --> 01:10:41,410

through teething problems and they get

1749

01:10:46,320 --> 01:10:43,390

the problems straightened out and they

1750

01:10:46,950 --> 01:10:46,330

you know perform above and beyond the

1751

01:10:48,510 --> 01:10:46,960

call of duty

1752

01:10:50,100 --> 01:10:48,520

you know isn't this out we just going

1753

01:10:52,590 --> 01:10:50,110

through the same thing with the f-35

1754

01:10:53,970 --> 01:10:52,600

well you may be leaving out planes that

1755

01:10:54,840 --> 01:10:53,980

didn't work out they know they were

1756

01:10:56,910 --> 01:10:54,850

called out at the

1757

01:10:59,040 --> 01:10:56,920

time and they you know either their

1758

01:11:01,680 --> 01:10:59,050

numbers were drastically cut during

1759

01:11:03,900 --> 01:11:01,690

procurement so you know some planes that

1760

01:11:07,950 --> 01:11:03,910

were really good they were cut so I mean

1761

01:11:09,930 --> 01:11:07,960

the f-22 is a really really really hot

1762

01:11:12,270 --> 01:11:09,940

you know really nice air superiority

1763

01:11:15,270 --> 01:11:12,280

fighter but we have way we have a lot

1764

01:11:17,820 --> 01:11:15,280

fewer of them than we plan the b-2 was

1765

01:11:20,550 --> 01:11:17,830

cut from what was the original number he

1766

01:11:22,530 --> 01:11:20,560

was a guy almost up at 200 is what they

1767

01:11:25,710 --> 01:11:22,540

were expecting on the b2 but I think the

1768

01:11:28,710 --> 01:11:25,720

b2 is because they wanted a follow-on

1769

01:11:30,750 --> 01:11:28,720

capability sooner and they kept the b1

1770

01:11:33,210 --> 01:11:30,760

and the b-52 online so I think that

1771

01:11:35,640 --> 01:11:33,220

that's in the economics that you're

1772

01:11:38,160 --> 01:11:35,650

approaching here is is a critical part

1773

01:11:40,950 --> 01:11:38,170

of it because we are more involved as a

1774

01:11:42,810 --> 01:11:40,960

citizenry a nation and what's going on

1775

01:11:44,040 --> 01:11:42,820

in this controversy and of course you

1776

01:11:47,100 --> 01:11:44,050

know just add what we talk about here

1777

01:11:48,630 --> 01:11:47,110

almost every week about the governmental

1778

01:11:50,370 --> 01:11:48,640

military conspiracies the

1779

01:11:52,560 --> 01:11:50,380

military-industrial complex this thing

1780

01:11:54,000 --> 01:11:52,570

stinks from high heaven when you look at

1781

01:11:56,490 --> 01:11:54,010

this from the outside looking in right

1782

01:11:59,520 --> 01:11:56,500

one mega company doing this what the you

1783

01:12:02,310 --> 01:11:59,530

know 2070 we're talking about we're and

1784

01:12:03,900 --> 01:12:02,320

we have you can get anything you get any

1785

01:12:06,450 --> 01:12:03,910

information you want favorable or

1786

01:12:09,150 --> 01:12:06,460

negative on the f-35 in a level of of

1787

01:12:10,410 --> 01:12:09,160

depth that is unknown the previous

1788

01:12:12,930 --> 01:12:10,420

aircraft systems that we've dealt with

1789

01:12:14,730 --> 01:12:12,940

yeah it's strange hey you listen we're

1790

01:12:18,390 --> 01:12:14,740

gonna take a break now we're in half way

1791

01:12:19,830 --> 01:12:18,400

through I great f-35 debate and just one

1792

01:12:22,290 --> 01:12:19,840

tell our listeners that we'll be back

1793

01:12:24,450 --> 01:12:22,300

right after these commercials talking

1794

01:12:29,010 --> 01:12:24,460

about the f-35 about a billion trillion

1795

01:12:31,110 --> 01:12:29,020

dollar expensive thing in our defense

1796

01:12:33,930 --> 01:12:31,120

budget a lot of people say that it's not

1797

01:12:37,170 --> 01:12:33,940

worth you know anywhere near that kind

1798

01:12:38,880 --> 01:12:37,180

of price dang thank you

1799

01:12:41,010 --> 01:12:38,890

okay commander you're giving me signals

1800

01:12:43,520 --> 01:12:41,020

racing yeah I was just looking for our

1801  
01:12:45,180 --> 01:12:43,530  
break I have to use the boys frown okay

1802  
01:12:47,040 --> 01:12:45,190  
well this is it

1803  
01:12:50,010 --> 01:12:47,050  
so while you listen to the ponies

1804  
01:12:51,450 --> 01:12:50,020  
military exile show here on the public

1805  
01:12:54,430 --> 01:12:51,460  
streaming network stay tuned we'll be

1806  
01:12:58,220 --> 01:12:56,510  
welcome back everyone to Mack Melones

1807  
01:13:00,740 --> 01:12:58,230  
military exile show here on the public

1808  
01:13:02,000 --> 01:13:00,750  
streaming network this make money in the

1809  
01:13:04,550 --> 01:13:02,010  
studio with us tonight the very famous

1810  
01:13:07,010 --> 01:13:04,560  
Juan Juan is here also coming to Cobra

1811  
01:13:09,310 --> 01:13:07,020  
is in the house on the phone right now

1812  
01:13:11,540 --> 01:13:09,320  
we're talking to Juarez boring

1813  
01:13:14,690 --> 01:13:11,550

Rob back house and that sounds kind of

1814

01:13:17,840 --> 01:13:14,700

strange that I should say we're talking

1815

01:13:19,190 --> 01:13:17,850

to rob Beck housing of war is boring

1816

01:13:20,420 --> 01:13:19,200

we're not trying to indicate that you

1817

01:13:22,220 --> 01:13:20,430

are bored it's always nice when the

1818

01:13:23,300 --> 01:13:22,230

writer corrects is is grammar that's

1819

01:13:26,060 --> 01:13:23,310

beautiful

1820

01:13:28,070 --> 01:13:26,070

the editor yeah thank you very much so

1821

01:13:31,340 --> 01:13:28,080

and we're in the middle of this intense

1822

01:13:34,250 --> 01:13:31,350

debate about this new airplane that the

1823

01:13:35,840 --> 01:13:34,260

US military is building the f-35 it

1824

01:13:39,410 --> 01:13:35,850

costs like trillions of dollars they're

1825

01:13:41,480 --> 01:13:39,420

going to build a lot of them and a lot

1826

01:13:43,640 --> 01:13:41,490

of people say that it's not worth it

1827

01:13:45,320 --> 01:13:43,650

that it's just you know I've read stuff

1828

01:13:47,420 --> 01:13:45,330

Juan Juan was just showing me stuff on

1829

01:13:48,980 --> 01:13:47,430

the internet and where they just you

1830

01:13:51,980 --> 01:13:48,990

know refer to this thing is just that F

1831

01:13:53,330 --> 01:13:51,990

and you know piece of junk and so on and

1832

01:13:57,710 --> 01:13:53,340

I just want to ask you a question is

1833

01:14:00,470 --> 01:13:57,720

like how long ago you know was this

1834

01:14:03,170 --> 01:14:00,480

design when when did the first you know

1835

01:14:04,550 --> 01:14:03,180

blank sheet of paper appear where they

1836

01:14:07,580 --> 01:14:04,560

said okay we have to design something

1837

01:14:10,900 --> 01:14:07,590

you know I may be wrong about this but

1838

01:14:13,720 --> 01:14:10,910

the late 80s early 90s when the f-35

1839

01:14:16,460 --> 01:14:13,730

really started getting going okay so

1840

01:14:19,160 --> 01:14:16,470

we're talking about probably you know

1841

01:14:22,550 --> 01:14:19,170

doing drawings and stuff in the mid 90s

1842

01:14:24,800 --> 01:14:22,560

late 90s I don't have an exact date I

1843

01:14:26,660 --> 01:14:24,810

was to win you know the first prototypes

1844

01:14:28,550 --> 01:14:26,670

that would be great with late 90s early

1845

01:14:29,930 --> 01:14:28,560

nineties and the other part of it of

1846

01:14:31,580 --> 01:14:29,940

course is it was an extension of a lot

1847

01:14:34,010 --> 01:14:31,590

of the stealth research that went on and

1848

01:14:35,840 --> 01:14:34,020

things like the f-22 and and the a12

1849

01:14:37,040 --> 01:14:35,850

Avenger in those aircraft so totally so

1850

01:14:39,410 --> 01:14:37,050

it's where do you draw the line exactly

1851

01:14:42,170 --> 01:14:39,420

is you know it's very late it's your

1852

01:14:44,060 --> 01:14:42,180

your um but I'm sure you're always kind

1853

01:14:46,910 --> 01:14:44,070

of like behind because it takes so long

1854

01:14:49,040 --> 01:14:46,920

to design these things and to ramp up

1855

01:14:51,590 --> 01:14:49,050

you know the manufacturing process and

1856

01:14:54,530 --> 01:14:51,600

stuff like that so basically the f-35 is

1857

01:14:57,320 --> 01:14:54,540

flying around with early you know 21st

1858

01:14:58,820 --> 01:14:57,330

century negative I don't I don't agree

1859

01:15:00,230 --> 01:14:58,830

with that at all the the breakthrough

1860

01:15:01,910 --> 01:15:00,240

stuff that's why they're having so much

1861

01:15:04,280 --> 01:15:01,920

trouble with it because we haven't had

1862

01:15:06,440 --> 01:15:04,290

another series of aircraft in between

1863

01:15:06,740 --> 01:15:06,450

this if you can like him back the way

1864

01:15:08,270 --> 01:15:06,750

his

1865

01:15:10,820 --> 01:15:08,280

torkoal period is when we made the leap

1866

01:15:14,090 --> 01:15:10,830

the jet engines from the propeller

1867

01:15:15,950 --> 01:15:14,100

aircraft yes and at one point in the 50s

1868

01:15:17,540 --> 01:15:15,960

the Navy was considering never going to

1869

01:15:18,860 --> 01:15:17,550

jet aircraft because they couldn't get

1870

01:15:20,900 --> 01:15:18,870

him on two carriers because the

1871

01:15:23,270 --> 01:15:20,910

technology of the jet engine at its time

1872

01:15:24,500 --> 01:15:23,280

was so poor it it took so long to cycle

1873

01:15:26,480 --> 01:15:24,510

it up when you made the approach onto

1874

01:15:28,730 --> 01:15:26,490

the boat and we're still using straight

1875

01:15:31,610 --> 01:15:28,740

deck carriers it was considered it was

1876

01:15:33,020 --> 01:15:31,620

unsuitable okay you have the same thing

1877

01:15:34,910 --> 01:15:33,030

going on here you have breakthrough

1878

01:15:37,910 --> 01:15:34,920

technology we're rushing to it in some

1879

01:15:39,410 --> 01:15:37,920

instances and we live in a world where

1880

01:15:41,540 --> 01:15:39,420

every failure that we used to happen

1881

01:15:43,490 --> 01:15:41,550

before and was expected is now treated

1882

01:15:45,380 --> 01:15:43,500

as a major stopping point

1883

01:15:47,840 --> 01:15:45,390

well we've said on this show many times

1884

01:15:49,490 --> 01:15:47,850

that out of the 10 secret projects that

1885

01:15:51,440 --> 01:15:49,500

take place out at area 51

1886

01:15:53,060 --> 01:15:51,450

you know aircraft and stuff like that

1887

01:15:55,190 --> 01:15:53,070

nine of them never see the light of day

1888

01:15:56,690 --> 01:15:55,200

it's that tenth one you know that they

1889

01:15:59,990 --> 01:15:56,700

come out and they make you know hundreds

1890

01:16:02,090 --> 01:16:00,000

and so on and in most cases become a

1891

01:16:04,490 --> 01:16:02,100

very successful thing there was a time

1892

01:16:06,020 --> 01:16:04,500

back and before World War two in during

1893

01:16:07,760 --> 01:16:06,030

World War two where you had two

1894

01:16:09,530 --> 01:16:07,770

different levels of fighters you know

1895

01:16:11,540 --> 01:16:09,540

you would have kind of like lesser

1896

01:16:14,300 --> 01:16:11,550

fighters like the p39 and stuff like

1897

01:16:16,250 --> 01:16:14,310

that it doesn't really compare to a p-51

1898

01:16:18,140 --> 01:16:16,260

or something like that but these days

1899

01:16:19,910 --> 01:16:18,150

you just you got to make one and it

1900

01:16:21,740 --> 01:16:19,920

seems like this one you know the Marines

1901

01:16:23,840 --> 01:16:21,750

wanted for this to take off the Navy

1902

01:16:26,420 --> 01:16:23,850

wants it to this to defend the fleet the

1903

01:16:27,740 --> 01:16:26,430

effluence wants this you know and I can

1904

01:16:29,390 --> 01:16:27,750

see where a lot of people was we were

1905

01:16:31,910 --> 01:16:29,400

just having before it's like the Swiss

1906

01:16:33,470 --> 01:16:31,920

Army knife of aircraft and at some point

1907

01:16:35,960 --> 01:16:33,480

don't you just pile on just too much

1908

01:16:37,490 --> 01:16:35,970

crap and it takes away one little thing

1909

01:16:39,500 --> 01:16:37,500

takes away from everything else that's

1910

01:16:41,450 --> 01:16:39,510

what I mean that's my argument so but

1911

01:16:43,400 --> 01:16:41,460

we're talking about ground attack

1912

01:16:44,900 --> 01:16:43,410

earlier and I think it could evolve into

1913

01:16:46,210 --> 01:16:44,910

a you know a pretty good bomber made a

1914

01:16:47,390 --> 01:16:46,220

pretty good ground attack aircraft

1915

01:16:51,710 --> 01:16:47,400

dogfighting

1916

01:16:55,190 --> 01:16:51,720

I really really afraid for pilots flying

1917

01:16:59,510 --> 01:16:55,200

this in a dogfight but you know it's not

1918

01:17:02,950 --> 01:16:59,520

the worst ground attacker the so also

1919

01:17:07,100 --> 01:17:02,960

going back to when it when the f-35

1920

01:17:09,080 --> 01:17:07,110

originated so we can build aircraft very

1921

01:17:11,780 --> 01:17:09,090

quickly this is taken a very long time

1922

01:17:13,310 --> 01:17:11,790

and we could have a probably have a

1923

01:17:15,700 --> 01:17:13,320

better ground attack aircraft we have a

1924

01:17:20,620 --> 01:17:15,710

better air superiority fighter for less

1925

01:17:24,110 --> 01:17:20,630

but I think what happened was is that

1926

01:17:25,370 --> 01:17:24,120

so in that late 80s early 90s the United

1927

01:17:27,620 --> 01:17:25,380

States was losing its main military

1928

01:17:30,470 --> 01:17:27,630

rival which was the Soviet Union okay

1929

01:17:32,690 --> 01:17:30,480

and the United States also in 1991

1930

01:17:35,270 --> 01:17:32,700

obliterated the Iraqi army in the

1931

01:17:38,660 --> 01:17:35,280

Persian Gulf War right and that gave the

1932

01:17:40,130 --> 01:17:38,670

Pentagon this video game idea that

1933

01:17:42,920 --> 01:17:40,140

superior technology will always make you

1934

01:17:46,220 --> 01:17:42,930

invulnerable and anyone who studies

1935

01:17:48,230 --> 01:17:46,230

warfare will know that's often the case

1936

01:17:50,600 --> 01:17:48,240

well let's just look at where we've been

1937

01:17:53,330 --> 01:17:50,610

for the last 15 years we had a striking

1938

01:17:56,540 --> 01:17:53,340

blow out in 91 in Desert Storm veteran

1939

01:17:58,520 --> 01:17:56,550

of that get-together it was a lot of it

1940

01:18:00,020 --> 01:17:58,530

was delivered by stealth we don't ever

1941

01:18:01,880 --> 01:18:00,030

talk about the fact that was Apache

1942

01:18:03,890 --> 01:18:01,890

helicopters and pavol helicopters that

1943

01:18:06,800 --> 01:18:03,900

blue the original radar hole that let

1944

01:18:09,350 --> 01:18:06,810

the 117 go in let that set aside in the

1945

01:18:11,000 --> 01:18:09,360

historical dustbin because the 117 saved

1946

01:18:13,400 --> 01:18:11,010

us and now we have 15 years of

1947

01:18:15,440 --> 01:18:13,410

continuous war and we're looking for how

1948

01:18:17,240 --> 01:18:15,450

we're gonna get out of that kind of well

1949

01:18:19,220 --> 01:18:17,250

look at Vietnam I mean you know they

1950

01:18:21,290 --> 01:18:19,230

beat us with what symbols they made out

1951

01:18:23,030 --> 01:18:21,300

of the bottom of truck tires and the

1952

01:18:24,800 --> 01:18:23,040

person go for you know we had American

1953

01:18:26,810 --> 01:18:24,810

troops who were you know very well

1954

01:18:29,840 --> 01:18:26,820

trained and you know the Iraqi army was

1955

01:18:32,180 --> 01:18:29,850

very badly led you know and we had six

1956

01:18:33,980 --> 01:18:32,190

months to prepare on the doorstep get

1957

01:18:35,810 --> 01:18:33,990

ready with no contest right so I think

1958

01:18:37,850 --> 01:18:35,820

that I think that's created aside from

1959

01:18:39,980 --> 01:18:37,860

that a perfect example to base all

1960

01:18:42,410 --> 01:18:39,990

future warfare no sure right well look

1961

01:18:44,990 --> 01:18:42,420

the f-35 has not developed out of an

1962

01:18:46,850 --> 01:18:45,000

urgent need so you know there is no

1963

01:18:48,680 --> 01:18:46,860

military force on the planet that can

1964

01:18:50,420 --> 01:18:48,690

challenge the United States globally and

1965

01:18:52,190 --> 01:18:50,430

win regionally it's different Russia

1966

01:18:54,920 --> 01:18:52,200

China China in the western Pacific

1967

01:18:56,420 --> 01:18:54,930

different story right but you know the

1968

01:18:58,790 --> 01:18:56,430

United States Air Force is the largest

1969

01:19:02,780 --> 01:18:58,800

most powerful most advanced air force in

1970

01:19:05,210 --> 01:19:02,790

the world and I hate when things in the

1971

01:19:07,880 --> 01:19:05,220

military are actually needed the system

1972

01:19:10,580 --> 01:19:07,890

works better so in the Iraq war in 2003

1973

01:19:12,530 --> 01:19:10,590

we found this is very different example

1974

01:19:15,260 --> 01:19:12,540

but bear with me we found that our

1975

01:19:17,570 --> 01:19:15,270

Humvees like lightly armored Humvees

1976

01:19:19,730 --> 01:19:17,580

were getting bombed so we quickly got

1977

01:19:23,120 --> 01:19:19,740

more of these effective more heavily

1978

01:19:25,070 --> 01:19:23,130

armored vehicles the f-35 does not have

1979

01:19:26,360 --> 01:19:25,080

a realistic enemy there's no other

1980

01:19:29,360 --> 01:19:26,370

country in the world that's mass

1981

01:19:33,530 --> 01:19:29,370

producing stealth fighters and without

1982

01:19:35,870 --> 01:19:33,540

urgency the military oh that

1983

01:19:38,330 --> 01:19:35,880

branches its service branches the Air

1984

01:19:40,220 --> 01:19:38,340

Force the Navy Marines have more of an

1985

01:19:43,280 --> 01:19:40,230

incentive to add their own desired

1986

01:19:47,200 --> 01:19:43,290

features on to this pet project which

1987

01:19:50,450 --> 01:19:47,210

increases blow which increases cost so

1988

01:19:54,020 --> 01:19:50,460

there's not really any real reason the

1989

01:19:56,090 --> 01:19:54,030

f-35 needs to work so that's why

1990

01:19:59,930 --> 01:19:56,100

everyone involved you know from the

1991

01:20:02,060 --> 01:19:59,940

programmers working on the software you

1992

01:20:05,420 --> 01:20:02,070

know contractors receiving kickbacks

1993

01:20:08,930 --> 01:20:05,430

from you know with the Pentagon

1994

01:20:11,780 --> 01:20:08,940

officials you know it's it's it's we

1995

01:20:14,690 --> 01:20:11,790

don't need it now and so but I do need

1996

01:20:16,820 --> 01:20:14,700

my career in my job yeah something for

1997

01:20:18,320 --> 01:20:16,830

the next now we're driving back into the

1998

01:20:20,900 --> 01:20:18,330

area then the military industrial

1999

01:20:22,640 --> 01:20:20,910

complex which we all I think would I

2000

01:20:25,370 --> 01:20:22,650

think in this group would agree is not

2001

01:20:27,050 --> 01:20:25,380

always in the best interest of fielding

2002

01:20:28,760 --> 01:20:27,060

the best weapon system as quick as

2003

01:20:30,560 --> 01:20:28,770

possible right see that's exactly my

2004

01:20:32,540 --> 01:20:30,570

question is that I understand what you

2005

01:20:34,340 --> 01:20:32,550

mean where things are you know made

2006

01:20:36,620 --> 01:20:34,350

better you know when there's an urgent

2007

01:20:39,920 --> 01:20:36,630

need but you know this thing as you said

2008

01:20:42,520 --> 01:20:39,930

you know they've from design to actual

2009

01:20:45,140 --> 01:20:42,530

airplane as taking almost twenty years

2010

01:20:46,610 --> 01:20:45,150

how can you how can you you know the way

2011

01:20:47,960 --> 01:20:46,620

that the system is set up to build

2012

01:20:50,420 --> 01:20:47,970

airplanes that fill these you know

2013

01:20:52,190 --> 01:20:50,430

unbelievably high advanced aircraft but

2014

01:20:55,550 --> 01:20:52,200

they take so damn long to do it how can

2015

01:20:57,440 --> 01:20:55,560

you possibly thought a you know

2016

01:20:59,870 --> 01:20:57,450

something an urgent need like that well

2017

01:21:01,520 --> 01:20:59,880

if you I didn't need now the plane will

2018

01:21:04,790 --> 01:21:01,530

come out but the urgent need is being

2019

01:21:07,930 --> 01:21:04,800

handled by enf model f-18s Strike Eagle

2020

01:21:11,000 --> 01:21:07,940

versions of the f-15 it were up to what

2021

01:21:13,400 --> 01:21:11,010

gh model f-16 that's how we've been

2022

01:21:15,080 --> 01:21:13,410

covering the the the the urgent need us

2023

01:21:17,120 --> 01:21:15,090

it's come up and we're not really being

2024

01:21:19,130 --> 01:21:17,130

contested on an urgent need what is the

2025

01:21:20,630 --> 01:21:19,140

urgent need well that the questioning

2026  
01:21:23,330 --> 01:21:20,640  
that we're battling with you know we've

2027  
01:21:24,860 --> 01:21:23,340  
had this enduring perpetual war cycle

2028  
01:21:26,720 --> 01:21:24,870  
that everyone's realized we need to get

2029  
01:21:29,540 --> 01:21:26,730  
out of maybe the solution is you take

2030  
01:21:31,310 --> 01:21:29,550  
something like c-130s and c-17s you fill

2031  
01:21:33,890 --> 01:21:31,320  
them with precision weapons you have an

2032  
01:21:35,450 --> 01:21:33,900  
f-35 out for that select that the

2033  
01:21:37,490 --> 01:21:35,460  
targets and is doing the targeting and

2034  
01:21:39,830 --> 01:21:37,500  
who knows what explained we talked about

2035  
01:21:41,900 --> 01:21:39,840  
those every couple weeks is out there

2036  
01:21:44,750 --> 01:21:41,910  
and now you let these transport

2037  
01:21:47,360 --> 01:21:44,760  
airplanes drop huge amounts of of

2038  
01:21:49,760 --> 01:21:47,370

weaponry and now it's being targeted

2039

01:21:52,970 --> 01:21:49,770

where it needs to go mm-hmm so robbers

2040

01:21:55,010 --> 01:21:52,980

what you're saying is is that well you

2041

01:21:57,890 --> 01:21:55,020

know there was no urgent need at the

2042

01:22:00,680 --> 01:21:57,900

time but we are in this position where

2043

01:22:02,420 --> 01:22:00,690

we the cycle has come around again we

2044

01:22:04,520 --> 01:22:02,430

have to stop making new airplanes again

2045

01:22:07,360 --> 01:22:04,530

this is considered fourth generation I

2046

01:22:11,990 --> 01:22:07,370

see actually fifth okay yeah so you know

2047

01:22:13,490 --> 01:22:12,000

f-22 f-35 so is that what you're saying

2048

01:22:16,310 --> 01:22:13,500

is that well there's no real urgent need

2049

01:22:18,250 --> 01:22:16,320

so let's just you know everyone has this

2050

01:22:21,050 --> 01:22:18,260

say of what it carries what it does

2051  
01:22:22,610 --> 01:22:21,060  
cause keep going up they have a lot of

2052  
01:22:24,170 --> 01:22:22,620  
problems you know with testing one one

2053  
01:22:26,660 --> 01:22:24,180  
just show me something the attendant it

2054  
01:22:29,510 --> 01:22:26,670  
said that someone claimed that today if

2055  
01:22:32,540 --> 01:22:29,520  
they ordered every f-35 to take off

2056  
01:22:34,550 --> 01:22:32,550  
right now five out of six of them would

2057  
01:22:36,620 --> 01:22:34,560  
not be able to take off and that's such

2058  
01:22:37,790 --> 01:22:36,630  
a spurious figure when it's or something

2059  
01:22:39,920 --> 01:22:37,800  
like that out there because you could to

2060  
01:22:43,790 --> 01:22:39,930  
that to almost any aircraft that's out

2061  
01:22:45,710 --> 01:22:43,800  
in the world right now right so I mean

2062  
01:22:47,450 --> 01:22:45,720  
now so let's go back to this military

2063  
01:22:50,810 --> 01:22:47,460

complex thing that people are always

2064

01:22:53,690 --> 01:22:50,820

talking about was the real momentum

2065

01:22:55,820 --> 01:22:53,700

behind this just to sell 2500 of them

2066

01:22:57,920 --> 01:22:55,830

around the world and make billions of

2067

01:22:58,820 --> 01:22:57,930

dollars for was it who was it Boeing

2068

01:23:01,550 --> 01:22:58,830

Lockheed

2069

01:23:05,360 --> 01:23:01,560

clucky not I don't I don't think so

2070

01:23:06,560 --> 01:23:05,370

originally no but I it's it's it's

2071

01:23:10,130 --> 01:23:06,570

definitely an element but now would you

2072

01:23:12,080 --> 01:23:10,140

say room yes that's certainly true so it

2073

01:23:14,120 --> 01:23:12,090

is a politically unkillable project as

2074

01:23:15,710 --> 01:23:14,130

well so the debate is somewhat moot on

2075

01:23:17,120 --> 01:23:15,720

my end I could argue against it but

2076

01:23:18,110 --> 01:23:17,130

we're still gonna produce quite a lot of

2077

01:23:20,030 --> 01:23:18,120

them I don't think we're gonna produce

2078

01:23:22,460 --> 01:23:20,040

2,500 I think we're gonna cut back I'm

2079

01:23:26,330 --> 01:23:22,470

not I don't know if all of our allies of

2080

01:23:29,390 --> 01:23:26,340

Canada has been reconsidering but you

2081

01:23:31,250 --> 01:23:29,400

know it's it's there are I believe 46

2082

01:23:34,010 --> 01:23:31,260

states that are receiving you know

2083

01:23:35,960 --> 01:23:34,020

directly direct financial benefits from

2084

01:23:38,480 --> 01:23:35,970

you know being involved in the f-35

2085

01:23:42,110 --> 01:23:38,490

program whether parts or services

2086

01:23:43,910 --> 01:23:42,120

the only Alaska Hawaii Nebraska Wyoming

2087

01:23:45,860 --> 01:23:43,920

I think do not have any direct

2088

01:23:47,870 --> 01:23:45,870

connection so but you know also you

2089

01:23:51,410 --> 01:23:47,880

imagine in a major war world war to

2090

01:23:54,890 --> 01:23:51,420

which the United States was in for you

2091

01:23:57,470 --> 01:23:54,900

know four years less than that the you

2092

01:24:00,500 --> 01:23:57,480

know we produced a lot of aircraft very

2093

01:24:01,280 --> 01:24:00,510

quickly and we didn't do it with part

2094

01:24:03,560 --> 01:24:01,290

source from

2095

01:24:05,930 --> 01:24:03,570

six out of 50 states right this is a

2096

01:24:07,910 --> 01:24:05,940

this is a product of peace time the

2097

01:24:09,650 --> 01:24:07,920

effort e5 as I'm saying and so and it's

2098

01:24:11,360 --> 01:24:09,660

legacies the Cold War and the Cold War

2099

01:24:13,340 --> 01:24:11,370

went away from it so this is the last

2100

01:24:15,410 --> 01:24:13,350

propellant out of that out of that

2101  
01:24:18,050 --> 01:24:15,420  
thinking they drove us into stealth and

2102  
01:24:20,510 --> 01:24:18,060  
the advanced technology is going to save

2103  
01:24:23,060 --> 01:24:20,520  
us right but it's also as he would I

2104  
01:24:26,090 --> 01:24:23,070  
think if I am a senior right it's also a

2105  
01:24:27,920 --> 01:24:26,100  
sticky political prob problem I mean

2106  
01:24:29,720 --> 01:24:27,930  
your industry you know that you don't go

2107  
01:24:31,130 --> 01:24:29,730  
to two states to build anything you

2108  
01:24:33,020 --> 01:24:31,140  
figure out how to spread it through as

2109  
01:24:34,790 --> 01:24:33,030  
much of 50 states as you possibly can

2110  
01:24:36,950 --> 01:24:34,800  
right I mean that's just business right

2111  
01:24:39,230 --> 01:24:36,960  
it is it is business but the thing is is

2112  
01:24:40,970 --> 01:24:39,240  
that to to say okay we're only gonna

2113  
01:24:43,430 --> 01:24:40,980

make like 500 of these things now you

2114

01:24:45,290 --> 01:24:43,440

affect so many people down the line so

2115

01:24:48,590 --> 01:24:45,300

many of our citizens job-wise

2116

01:24:49,580 --> 01:24:48,600

that as he says it would be impossible

2117

01:24:51,440 --> 01:24:49,590

to kill this thing

2118

01:24:53,840 --> 01:24:51,450

certainly not completely that I can see

2119

01:24:55,940 --> 01:24:53,850

them maybe you know coming back from

2120

01:24:58,280 --> 01:24:55,950

2,500 but here's the question is okay so

2121

01:24:59,540 --> 01:24:58,290

let's say they say okay we're only gonna

2122

01:25:02,270 --> 01:24:59,550

make a thousand of these like they were

2123

01:25:03,400 --> 01:25:02,280

gonna do five hundred and fifty f-22s

2124

01:25:05,740 --> 01:25:03,410

and they want to say I think they're

2125

01:25:08,030 --> 01:25:05,750

think the original number is even higher

2126  
01:25:09,950 --> 01:25:08,040  
so let's say that they bring this number

2127  
01:25:12,260 --> 01:25:09,960  
down okay well what was the follow-on

2128  
01:25:16,220 --> 01:25:12,270  
now you it's not designing it now won't

2129  
01:25:19,490 --> 01:25:16,230  
be out for 18 years well they I think 18

2130  
01:25:21,050 --> 01:25:19,500  
years is a is that's I think one of the

2131  
01:25:23,450 --> 01:25:21,060  
big problems that we have with our

2132  
01:25:25,160 --> 01:25:23,460  
developer procurement of our military

2133  
01:25:26,750 --> 01:25:25,170  
systems aircraft being at the at the

2134  
01:25:28,280 --> 01:25:26,760  
point the end of this I think what it's

2135  
01:25:31,100 --> 01:25:28,290  
going to drive is the same thing we saw

2136  
01:25:33,110 --> 01:25:31,110  
in the last 15 years we had completely

2137  
01:25:34,730 --> 01:25:33,120  
left the the whole forward air control

2138  
01:25:37,460 --> 01:25:34,740

mission which has now morphed into what

2139

01:25:39,590 --> 01:25:37,470

we call is our rst a reconnaissance

2140

01:25:41,960 --> 01:25:39,600

surveillance tracking and targeting at

2141

01:25:45,350 --> 01:25:41,970

target acquisition and now what do you

2142

01:25:49,490 --> 01:25:45,360

have you have the rise of the unmanned

2143

01:25:50,060 --> 01:25:49,500

aircraft that capability has risen to

2144

01:25:53,180 --> 01:25:50,070

prominence

2145

01:25:55,010 --> 01:25:53,190

you now have specialized aircraft that

2146

01:25:56,570 --> 01:25:55,020

have been cobbled together that don't

2147

01:25:58,310 --> 01:25:56,580

look too impressive but what's on the

2148

01:26:00,470 --> 01:25:58,320

inside of them I flew one of them do the

2149

01:26:03,710 --> 01:26:00,480

job I do the job that go way on that and

2150

01:26:06,170 --> 01:26:03,720

now the f-35 is trying to embody a great

2151  
01:26:07,880 --> 01:26:06,180  
deal of all these current mission areas

2152  
01:26:09,320 --> 01:26:07,890  
that are on there and I think that

2153  
01:26:11,360 --> 01:26:09,330  
that's what the solution is the solution

2154  
01:26:14,210 --> 01:26:11,370  
is whatever number shows up is going to

2155  
01:26:15,139 --> 01:26:14,220  
be other aircraft or other tactics that

2156  
01:26:17,330 --> 01:26:15,149  
are going to develop

2157  
01:26:19,189 --> 01:26:17,340  
around it that allow you to do what you

2158  
01:26:21,080 --> 01:26:19,199  
want to do to punch through is this is

2159  
01:26:24,319 --> 01:26:21,090  
the f-35 gonna be the last manned

2160  
01:26:27,529 --> 01:26:24,329  
aircraft negative you don't think so

2161  
01:26:29,209 --> 01:26:27,539  
absolutely no absolutely not the last

2162  
01:26:32,839 --> 01:26:29,219  
man fighter aircraft well I completely

2163  
01:26:35,389 --> 01:26:32,849

disagree I I think it's incredibly the

2164

01:26:37,729 --> 01:26:35,399

this is such a course I'm biased because

2165

01:26:39,919 --> 01:26:37,739

as a pilot as an aviator I can't see how

2166

01:26:41,869 --> 01:26:39,929

I can't be still in the fight but that's

2167

01:26:44,299 --> 01:26:41,879

that could you have to qualify my

2168

01:26:46,129 --> 01:26:44,309

reaction but every time we go down this

2169

01:26:47,949 --> 01:26:46,139

line it's somehow it's gonna say we act

2170

01:26:51,139 --> 01:26:47,959

like we don't have the human in the loop

2171

01:26:53,239 --> 01:26:51,149

the human is in the loop and all our UAS

2172

01:26:54,529 --> 01:26:53,249

the problem I have with a lot of the us

2173

01:26:56,810 --> 01:26:54,539

this thing that's saving us from

2174

01:26:58,429 --> 01:26:56,820

ourselves supposedly is you have 42

2175

01:27:01,040 --> 01:26:58,439

people out of sight that are forward

2176

01:27:02,689 --> 01:27:01,050

deployed to let this go to get this

2177

01:27:04,489 --> 01:27:02,699

thing launched and recovered and to keep

2178

01:27:06,109 --> 01:27:04,499

the 24 Manning and then you're using a

2179

01:27:07,790 --> 01:27:06,119

satellite network that L says to

2180

01:27:09,529 --> 01:27:07,800

somebody like I don't know the Chinese

2181

01:27:12,709 --> 01:27:09,539

with their friends the North Koreans hey

2182

01:27:15,139 --> 01:27:12,719

maybe if we put to EMP pulses and we

2183

01:27:16,969 --> 01:27:15,149

knock down part just part of the

2184

01:27:18,770 --> 01:27:16,979

satellite network these guys won't be

2185

01:27:20,509 --> 01:27:18,780

able to put all their eggs there won't

2186

01:27:22,310 --> 01:27:20,519

be to drop the eggs from the proverbial

2187

01:27:24,169 --> 01:27:22,320

basket because they've signed themselves

2188

01:27:25,790 --> 01:27:24,179

up for this but okay but but on the

2189

01:27:28,549 --> 01:27:25,800

other side of that is the reason that

2190

01:27:32,179 --> 01:27:28,559

the UAVs drones that they use a lot of

2191

01:27:35,540 --> 01:27:32,189

drones especially over Afghanistan

2192

01:27:36,830 --> 01:27:35,550

Pakistan Iraq is that it completely

2193

01:27:39,319 --> 01:27:36,840

takes out of the equation that you're

2194

01:27:41,149 --> 01:27:39,329

gonna have a pilot caption well I think

2195

01:27:43,069 --> 01:27:41,159

that that's part of it I think I think

2196

01:27:45,439 --> 01:27:43,079

the real part of it if anybody really

2197

01:27:47,149 --> 01:27:45,449

believes I don't go too deep into it but

2198

01:27:48,709 --> 01:27:47,159

I don't think anybody really cares that

2199

01:27:51,169 --> 01:27:48,719

much except the only people that are in

2200

01:27:53,029 --> 01:27:51,179

uniform about that I think it's easier

2201  
01:27:54,439 --> 01:27:53,039  
for an administration to go and do

2202  
01:27:57,020 --> 01:27:54,449  
things that it wants to do and not have

2203  
01:27:58,759 --> 01:27:57,030  
that human element at the pointing and I

2204  
01:28:00,379 --> 01:27:58,769  
think that allowing to go with it but we

2205  
01:28:02,750 --> 01:28:00,389  
have fooled ourselves when it comes to

2206  
01:28:04,850 --> 01:28:02,760  
the UAS that somehow we're not actually

2207  
01:28:06,919 --> 01:28:04,860  
assassinating people or we're not doing

2208  
01:28:09,469 --> 01:28:06,929  
the kind of stuff that that's that's gone

2209  
01:28:11,839 --> 01:28:09,479  
on I say good well the good part with

2210  
01:28:13,489 --> 01:28:11,849  
standing or not when you we've we've

2211  
01:28:15,290 --> 01:28:13,499  
pulled out of that particular element of

2212  
01:28:17,419 --> 01:28:15,300  
it but the thing is you're flying around

2213  
01:28:19,790 --> 01:28:17,429

aircraft that we have not had competed

2214

01:28:22,069 --> 01:28:19,800

all it's going to take is someone with a

2215

01:28:23,569 --> 01:28:22,079

lightly armed turboprop to fly behind

2216

01:28:25,849 --> 01:28:23,579

these things that are at cruising around

2217

01:28:27,709 --> 01:28:25,859

on 120 and start bagging them left and

2218

01:28:28,910 --> 01:28:27,719

right and all of a sudden now you can't

2219

01:28:30,590 --> 01:28:28,920

do what you used to

2220

01:28:32,030 --> 01:28:30,600

yeah but then at that point and it goes

2221

01:28:34,040 --> 01:28:32,040

back to rouse point that you know our

2222

01:28:35,930 --> 01:28:34,050

military is the biggest of strong is the

2223

01:28:37,940 --> 01:28:35,940

most high-tech and at some point if

2224

01:28:39,350 --> 01:28:37,950

someone started you know flying out

2225

01:28:41,510 --> 01:28:39,360

literally playing behind one of these

2226

01:28:42,830 --> 01:28:41,520

drones and shooting it down we would

2227

01:28:45,350 --> 01:28:42,840

just come up with something that could

2228

01:28:46,730 --> 01:28:45,360

shoot down that plane right so so let's

2229

01:28:48,260 --> 01:28:46,740

talk about that for one second because

2230

01:28:50,870 --> 01:28:48,270

it goes right back to where we are at

2231

01:28:52,100 --> 01:28:50,880

the f-35 if you go down this pike you're

2232

01:28:53,930 --> 01:28:52,110

telling me now you're gonna take a

2233

01:28:55,970 --> 01:28:53,940

trillion-dollar fighter to go chase down

2234

01:28:57,680 --> 01:28:55,980

somebody in a third world or second

2235

01:28:59,480 --> 01:28:57,690

world country with a propeller or

2236

01:29:01,790 --> 01:28:59,490

turboprop airplane that's popping out

2237

01:29:03,980 --> 01:29:01,800

your UAS is and bring them down to do

2238

01:29:05,630 --> 01:29:03,990

this it's going to be difficult to do

2239

01:29:07,520 --> 01:29:05,640

this is where Rob's argument about it

2240

01:29:10,010 --> 01:29:07,530

being a dog fighter it's going to be a

2241

01:29:11,720 --> 01:29:10,020

sad day when somebody now because they

2242

01:29:12,860 --> 01:29:11,730

don't do low-level flying anymore we

2243

01:29:15,650 --> 01:29:12,870

don't do the air combat maneuvering

2244

01:29:19,040 --> 01:29:15,660

anymore it's taken down or crashes into

2245

01:29:20,690 --> 01:29:19,050

the ground themselves we don't okay

2246

01:29:22,340 --> 01:29:20,700

don't need it also as well I mean you

2247

01:29:24,770 --> 01:29:22,350

said well we let's say we cut the pie to

2248

01:29:26,660 --> 01:29:24,780

a thousand no well the f-15 is still

2249

01:29:28,640 --> 01:29:26,670

around yes sure and you know there's you

2250

01:29:32,090 --> 01:29:28,650

know these production line in the f-15

2251

01:29:34,070 --> 01:29:32,100

ends next year Wow and running out

2252

01:29:38,210 --> 01:29:34,080

well the 18 is still around me you know

2253

01:29:40,220 --> 01:29:38,220

there's a lot of and the Cobras a tough

2254

01:29:41,330 --> 01:29:40,230

debate opponent because I'm a geek who

2255

01:29:44,570 --> 01:29:41,340

writes about this on the internet he's

2256

01:29:45,890 --> 01:29:44,580

an aviator so I you know that's but you

2257

01:29:50,270 --> 01:29:45,900

know I'm more of a geek than you are

2258

01:29:51,620 --> 01:29:50,280

rough because I'm in the I'm in the room

2259

01:29:55,580 --> 01:29:51,630

with them that's right you have

2260

01:29:56,900 --> 01:29:55,590

experience with with you know low cost

2261

01:29:58,940 --> 01:29:56,910

you know see if you want to do close air

2262

01:30:00,560 --> 01:29:58,950

support there's a lot of you know pretty

2263

01:30:03,260 --> 01:30:00,570

you know you know interesting great

2264

01:30:04,910 --> 01:30:03,270

sheep close air support aircraft we you

2265

01:30:06,050 --> 01:30:04,920

know that we can use and you know

2266

01:30:08,690 --> 01:30:06,060

there's other fighters out there that

2267

01:30:10,160 --> 01:30:08,700

you know the Gripen Swedes produce a

2268

01:30:12,170 --> 01:30:10,170

very nice yeah the latest model is

2269

01:30:14,000 --> 01:30:12,180

incredible air up them yeah I just heard

2270

01:30:16,040 --> 01:30:14,010

today that Botswana wants to buy a bunch

2271

01:30:18,200 --> 01:30:16,050

of them well who is if I can just break

2272

01:30:19,670 --> 01:30:18,210

in here for saying who's the opponent

2273

01:30:21,110 --> 01:30:19,680

for the f-35 everyone's talking about

2274

01:30:23,240 --> 01:30:21,120

how its kind of losing a dog fighter

2275

01:30:24,980 --> 01:30:23,250

who's kind of fighting against and what

2276

01:30:29,210 --> 01:30:24,990

what airplane I mean it we talk about

2277

01:30:29,510 --> 01:30:29,220

Russia China so su-24 or something like

2278

01:30:31,190 --> 01:30:29,520

that

2279

01:30:34,610 --> 01:30:31,200

yeah there's a pretty maneuverable

2280

01:30:36,950 --> 01:30:34,620

Russian fighters but I mean that's

2281

01:30:38,210 --> 01:30:36,960

that's the biggest enemy I suppose maybe

2282

01:30:40,490 --> 01:30:38,220

there's no stealth fighters really that

2283

01:30:42,370 --> 01:30:40,500

what's going to go up against so so

2284

01:30:45,490 --> 01:30:42,380

doesn't it in a way it just isn't

2285

01:30:47,080 --> 01:30:45,500

like your typical fighter but it's isn't

2286

01:30:48,370 --> 01:30:47,090

it just appearing on the battlefield at

2287

01:30:49,899 --> 01:30:48,380

just the right time where it you know

2288

01:30:51,520 --> 01:30:49,909

you don't have to give it and we'll go

2289

01:30:53,020 --> 01:30:51,530

back to the old Eichmann you don't have

2290

01:30:54,459 --> 01:30:53,030

to get me in a dogfight because now we

2291

01:30:56,229 --> 01:30:54,469

have the technology to knock something

2292

01:30:59,200 --> 01:30:56,239

off before you even get close in for a

2293

01:31:00,910 --> 01:30:59,210

dogfight I mean doesn't isn't I'm gonna

2294

01:31:02,229 --> 01:31:00,920

give you guys what I think when you ask

2295

01:31:03,850 --> 01:31:02,239

me to get ready for this

2296

01:31:06,160 --> 01:31:03,860

this is the best metaphor I can give you

2297

01:31:08,770 --> 01:31:06,170

a raw image to your reaction during

2298

01:31:10,450 --> 01:31:08,780

Vietnam we pulled away from our heavy

2299

01:31:13,479 --> 01:31:10,460

rifle and we went with this thing called

2300

01:31:15,490 --> 01:31:13,489

the m16 and it had almost the equal kind

2301  
01:31:18,040 --> 01:31:15,500  
of visceral uproar that we have with the

2302  
01:31:20,500 --> 01:31:18,050  
f-35 it's a piece of crap it doesn't

2303  
01:31:22,030 --> 01:31:20,510  
shoot it jams on and on and on then you

2304  
01:31:23,439 --> 01:31:22,040  
had people stand there and saying you

2305  
01:31:25,780 --> 01:31:23,449  
can't use it when you run out of

2306  
01:31:27,879 --> 01:31:25,790  
ammunition like you can an m1 we are an

2307  
01:31:30,580 --> 01:31:27,889  
F whatever and you could run up and you

2308  
01:31:32,919 --> 01:31:30,590  
could use it as a club it's not big

2309  
01:31:34,120 --> 01:31:32,929  
enough to put a good bayonet on because

2310  
01:31:35,470 --> 01:31:34,130  
everybody's saying look this is what we

2311  
01:31:36,939 --> 01:31:35,480  
did in Korea this will have done the

2312  
01:31:38,770 --> 01:31:36,949  
beginning part of Vietnam this is what

2313  
01:31:41,140 --> 01:31:38,780

we did in World War two so we go through

2314

01:31:42,550 --> 01:31:41,150

this and what happens now you have an m4

2315

01:31:45,520 --> 01:31:42,560

version that's come out it's probably

2316

01:31:47,800 --> 01:31:45,530

the most prolific weapon system for the

2317

01:31:49,570 --> 01:31:47,810

infant's reef or in it it's it's it's

2318

01:31:51,459 --> 01:31:49,580

gone through and it still isn't

2319

01:31:54,970 --> 01:31:51,469

sufficient firepower for everybody that

2320

01:31:56,919 --> 01:31:54,980

wants to go out so we still have m-14s

2321

01:31:59,290 --> 01:31:56,929

and other types of weapon systems that

2322

01:32:02,439 --> 01:31:59,300

come out but the most prolific weapon is

2323

01:32:04,720 --> 01:32:02,449

based on the m16 variant of this time

2324

01:32:07,510 --> 01:32:04,730

this is and it was a huge leap because

2325

01:32:08,770 --> 01:32:07,520

we went to the clip and the way we did

2326

01:32:10,750 --> 01:32:08,780

it but one of the arguments that was

2327

01:32:13,209 --> 01:32:10,760

brought out is you can't give that much

2328

01:32:14,979 --> 01:32:13,219

firepower to the infantry because they

2329

01:32:17,050 --> 01:32:14,989

can't be trained not to shoot all their

2330

01:32:18,669 --> 01:32:17,060

rounds off and go do that and you had

2331

01:32:21,610 --> 01:32:18,679

other proponents on much small group

2332

01:32:22,720 --> 01:32:21,620

that said the ability to put so much

2333

01:32:24,430 --> 01:32:22,730

more firepower

2334

01:32:27,160 --> 01:32:24,440

although albeit a little bit less

2335

01:32:28,990 --> 01:32:27,170

accurate it's a huge game-changer that's

2336

01:32:31,209 --> 01:32:29,000

the same thing that's happening here I

2337

01:32:33,640 --> 01:32:31,219

think with the f-35 as an extrapolated

2338

01:32:36,340 --> 01:32:33,650

metaphor to where we are oh well okay so

2339

01:32:38,919 --> 01:32:36,350

I'll concede your point for the United

2340

01:32:42,459 --> 01:32:38,929

States that is true but that is not the

2341

01:32:44,470 --> 01:32:42,469

case for many of the countries which are

2342

01:32:48,580 --> 01:32:44,480

buying f-35 so the Netherlands for

2343

01:32:52,030 --> 01:32:48,590

example they plan to replace all of

2344

01:32:54,970 --> 01:32:52,040

their fighter aircraft with f-35s that's

2345

01:32:56,140 --> 01:32:54,980

right that's all they'll have and so

2346

01:32:57,669 --> 01:32:56,150

you're not going to have

2347

01:33:00,160 --> 01:32:57,679

it's a bit of an apples to oranges

2348

01:33:01,870 --> 01:33:00,170

comparison but they're all in the bowl

2349

01:33:04,870 --> 01:33:01,880

good good good you're going yeah are you

2350

01:33:07,120 --> 01:33:04,880

going not only that but they're gonna be

2351

01:33:08,740 --> 01:33:07,130

you know replacing their 16s there are

2352

01:33:10,870 --> 01:33:08,750

16s with these f-35s

2353

01:33:12,220 --> 01:33:10,880

but yes SEP 35 they're very very

2354

01:33:15,280 --> 01:33:12,230

complicated aircraft they're pretty

2355

01:33:19,180 --> 01:33:15,290

expensive and they're incredibly time

2356

01:33:20,709 --> 01:33:19,190

consuming to maintain so I've shown you

2357

01:33:22,840 --> 01:33:20,719

that the Dutch Air Force

2358

01:33:24,669 --> 01:33:22,850

you seen the Dutch Jeff Lewis is cheap

2359

01:33:26,770 --> 01:33:24,679

and lazy is that what you just said

2360

01:33:29,649 --> 01:33:26,780

I'm I guarantee you that the Dutch Air

2361

01:33:31,890 --> 01:33:29,659

Force is going to have to find ways to

2362

01:33:34,090 --> 01:33:31,900

cut costs to pay for these things over

2363

01:33:35,410 --> 01:33:34,100

you know decades they're gonna have them

2364

01:33:37,209 --> 01:33:35,420

and they're you know they're gonna Rob

2365

01:33:39,160 --> 01:33:37,219

you know I was there trading I was there

2366

01:33:40,959 --> 01:33:39,170

when the Dutch started to get the f-16 I

2367

01:33:43,540 --> 01:33:40,969

heard exactly the same argument in the

2368

01:33:46,120 --> 01:33:43,550

eighties that you know for the the

2369

01:33:48,220 --> 01:33:46,130

smaller NATO nations this was a huge

2370

01:33:50,320 --> 01:33:48,230

change for them and what was going to

2371

01:33:52,270 --> 01:33:50,330

happen and I can I can tell you from my

2372

01:33:54,220 --> 01:33:52,280

own personal experience of being in

2373

01:33:57,040 --> 01:33:54,230

different weapons schools with Dutch

2374

01:34:01,090 --> 01:33:57,050

chance and and and Brits and their whole

2375

01:34:03,820 --> 01:34:01,100

rest of them it has a way that it works

2376

01:34:06,490 --> 01:34:03,830

itself out now I think that there's a

2377

01:34:10,930 --> 01:34:06,500

there's a definite possibility that when

2378

01:34:12,820 --> 01:34:10,940

you get into areas like the the cost the

2379

01:34:15,160 --> 01:34:12,830

difference is is that these packages

2380

01:34:16,899 --> 01:34:15,170

have to come in with the the flight and

2381

01:34:18,820 --> 01:34:16,909

weapon simulators that go with it

2382

01:34:21,000 --> 01:34:18,830

we're gonna spend a lot of our time not

2383

01:34:23,979 --> 01:34:21,010

actually flying the aircraft but flying

2384

01:34:25,780 --> 01:34:23,989

the the simulator and you think that do

2385

01:34:28,390 --> 01:34:25,790

you wait so do you think that it makes

2386

01:34:31,000 --> 01:34:28,400

up for pilot training I mean no no I

2387

01:34:32,620 --> 01:34:31,010

don't rub I'll tell you what my biggest

2388

01:34:34,930 --> 01:34:32,630

concern and I think what the f-35 is

2389

01:34:37,540 --> 01:34:34,940

going to force us to go back to we keep

2390

01:34:38,950 --> 01:34:37,550

cutting back on hours on actual flight

2391

01:34:40,570 --> 01:34:38,960

hours and everyone's well that's how we

2392

01:34:42,189 --> 01:34:40,580

cut the cost well we're problem when you

2393

01:34:43,630 --> 01:34:42,199

cut the cost is the maintainer --zz

2394

01:34:46,180 --> 01:34:43,640

aren't maintaining as much as they used

2395

01:34:47,950 --> 01:34:46,190

to so they can't do it in a surge the

2396

01:34:49,930 --> 01:34:47,960

guys who and gals who lift the bombs

2397

01:34:51,100 --> 01:34:49,940

onto the airplane don't do it as often

2398

01:34:53,470 --> 01:34:51,110

as they used to because it's too

2399

01:34:54,970 --> 01:34:53,480

expensive the drop bombs and you keep

2400

01:34:57,760 --> 01:34:54,980

going further and further down this

2401

01:34:59,200 --> 01:34:57,770

spiral of this and that one or two

2402

01:35:01,689 --> 01:34:59,210

things happens you're gonna get your ass

2403

01:35:03,490 --> 01:35:01,699

handed to you or you're going to find a

2404

01:35:05,229 --> 01:35:03,500

cheaper alternative where you're gonna

2405

01:35:06,669 --> 01:35:05,239

have people spend maybe a couple

2406

01:35:09,700 --> 01:35:06,679

thousand hours and a less costly

2407

01:35:12,090 --> 01:35:09,710

airplane and then move into the f-35

2408

01:35:17,590 --> 01:35:12,100

probably me just ask you this okay if

2409

01:35:20,500 --> 01:35:17,600

this you know f-35 is such a you know s

2410

01:35:23,140 --> 01:35:20,510

box okay if it's like as bad as everyone

2411

01:35:25,060 --> 01:35:23,150

is saying how can all these countries

2412

01:35:26,890 --> 01:35:25,070

around the world be fooled you know I

2413

01:35:28,630 --> 01:35:26,900

mean I can imagine that you know the

2414

01:35:31,120 --> 01:35:28,640

defense minister from the Netherlands or

2415

01:35:32,830 --> 01:35:31,130

whatever you know he's you know shown a

2416

01:35:35,979 --> 01:35:32,840

good time by the Air Force or by

2417

01:35:37,390 --> 01:35:35,989

Lockheed and but you know I mean he's

2418

01:35:38,770 --> 01:35:37,400

gonna have to report to someone to say

2419

01:35:40,090 --> 01:35:38,780

this thing you know does this pretty

2420

01:35:41,620 --> 01:35:40,100

good does this pretty good does this

2421

01:35:43,390 --> 01:35:41,630

pretty good I mean it's gonna be

2422

01:35:45,010 --> 01:35:43,400

something good about it that are all

2423

01:35:47,170 --> 01:35:45,020

these people I mean are we saying all

2424

01:35:49,720 --> 01:35:47,180

these people who procure these the

2425

01:35:51,670 --> 01:35:49,730

Israelis the the Dutch the Norwegians I

2426

01:35:54,760 --> 01:35:51,680

know how could they all be stupid one

2427

01:35:57,310 --> 01:35:54,770

them well yeah I mean each country is

2428

01:35:59,140 --> 01:35:57,320

different and I mean the United States

2429

01:36:01,030 --> 01:35:59,150

made it an American plane I think that

2430

01:36:03,760 --> 01:36:01,040

alone has a lot of there's a lot of

2431

01:36:09,160 --> 01:36:03,770

political momentum absolutely

2432

01:36:10,900 --> 01:36:09,170

the and also I mean you know the there's

2433

01:36:13,450 --> 01:36:10,910

not a lot of other options because you

2434

01:36:16,390 --> 01:36:13,460

know the you can buy what the French

2435

01:36:17,740 --> 01:36:16,400

Rafal the the typhoon the your fighter

2436

01:36:20,080 --> 01:36:17,750

plane there's nothing there's nothing

2437

01:36:21,640 --> 01:36:20,090

that's coming anywhere close third or

2438

01:36:23,860 --> 01:36:21,650

fourth generation right and I mean and

2439

01:36:28,060 --> 01:36:23,870

and some individual countries have their

2440

01:36:30,330 --> 01:36:28,070

own you know they're upgrading the f-35

2441

01:36:32,290 --> 01:36:30,340

oh so Israel has a pretty interesting

2442

01:36:35,170 --> 01:36:32,300

version that they're going to get there

2443

01:36:37,330 --> 01:36:35,180

they have their own domestically

2444

01:36:40,330 --> 01:36:37,340

produced upgrades they're gonna add to

2445

01:36:42,670 --> 01:36:40,340

it so it's it's you know but I I think a

2446

01:36:43,840 --> 01:36:42,680

lot of its political though right I get

2447

01:36:47,170 --> 01:36:43,850

a feeling that we should probably copy

2448

01:36:49,600 --> 01:36:47,180

the Israeli model you guys if you're

2449

01:36:51,370 --> 01:36:49,610

fighting in close there's there's has a

2450

01:36:53,470 --> 01:36:51,380

particular part and that's one of the

2451

01:36:55,540 --> 01:36:53,480

reasons that I think that it's going to

2452

01:36:56,979 --> 01:36:55,550

have some capability air-to-air because

2453

01:36:58,360 --> 01:36:56,989

the Israelis are not going to get into a

2454

01:37:01,270 --> 01:36:58,370

situation where they can't defend

2455

01:37:03,220 --> 01:37:01,280

themselves or exploit that Rob one last

2456

01:37:04,990 --> 01:37:03,230

question is the f-35 is it you know

2457

01:37:07,180 --> 01:37:05,000

modular if you know what I mean is it is

2458

01:37:08,410 --> 01:37:07,190

it it's a design that you know five

2459

01:37:09,910 --> 01:37:08,420

years from now there might be some

2460

01:37:11,200 --> 01:37:09,920

weapons system we don't even know about

2461

01:37:15,490 --> 01:37:11,210

it'll be oh that's you know kind of

2462

01:37:17,680 --> 01:37:15,500

attach it i it's it's difficult but it's

2463

01:37:19,030 --> 01:37:17,690

possible but yeah there's a lot of

2464

01:37:21,280 --> 01:37:19,040

weight rob was robbed wouldn't you agree

2465

01:37:22,720 --> 01:37:21,290

that it can't be anything external I

2466

01:37:23,530 --> 01:37:22,730

mean obviously though they'll carry

2467

01:37:24,910 --> 01:37:23,540

externals on

2468

01:37:26,940 --> 01:37:24,920

at some point and completely ruin its

2469

01:37:30,370 --> 01:37:26,950

capability we did that with the f-16

2470

01:37:32,950 --> 01:37:30,380

there's no doubt about that but do you

2471

01:37:34,480 --> 01:37:32,960

think yeah what happens though Mac is

2472

01:37:35,950 --> 01:37:34,490

when you build an aircraft like this we

2473

01:37:38,620 --> 01:37:35,960

goes forward didn't you say okay here's

2474

01:37:40,720 --> 01:37:38,630

what we have for the the armament

2475

01:37:42,370 --> 01:37:40,730

compartment whatever you want has to fit

2476  
01:37:43,690 --> 01:37:42,380  
inside there right so I never to believe

2477  
01:37:45,460 --> 01:37:43,700  
the electronics of the signal

2478  
01:37:46,780 --> 01:37:45,470  
intelligence variant that comes out it's

2479  
01:37:48,220 --> 01:37:46,790  
going to fit inside there and then we'll

2480  
01:37:50,050 --> 01:37:48,230  
start doing things like sticking

2481  
01:37:52,930 --> 01:37:50,060  
antennas on it and say okay we're gonna

2482  
01:37:55,060 --> 01:37:52,940  
cut away some of its stealth and go but

2483  
01:37:57,220 --> 01:37:55,070  
I heart though I think that b-52 for

2484  
01:37:58,720 --> 01:37:57,230  
instance you know I mean started off the

2485  
01:38:00,610 --> 01:37:58,730  
whole idea was to drop these big nuclear

2486  
01:38:02,230 --> 01:38:00,620  
bombs and now they're things that you

2487  
01:38:03,970 --> 01:38:02,240  
know kind of rotary launches you know

2488  
01:38:05,380 --> 01:38:03,980

they can lunch a whole variation of

2489

01:38:07,090 --> 01:38:05,390

weapons and stuff like that they've

2490

01:38:09,310 --> 01:38:07,100

really adapted these things how do we

2491

01:38:11,710 --> 01:38:09,320

know the f-35 is gonna be very adaptable

2492

01:38:13,240 --> 01:38:11,720

one five or six years you're gonna wind

2493

01:38:14,470 --> 01:38:13,250

up with some externals I mean to the end

2494

01:38:16,030 --> 01:38:14,480

of the Israelis are working on some of

2495

01:38:16,480 --> 01:38:16,040

that and I mean if you what I had a

2496

01:38:18,070 --> 01:38:16,490

drange

2497

01:38:20,440 --> 01:38:18,080

range to this thing you're gonna need to

2498

01:38:21,940 --> 01:38:20,450

add drop ranks and right well let me

2499

01:38:23,410 --> 01:38:21,950

look it's tightly it's a very tightly

2500

01:38:25,300 --> 01:38:23,420

packed aircraft they tried to cut back

2501  
01:38:27,940 --> 01:38:25,310  
so it's almost a closed system in a way

2502  
01:38:30,100 --> 01:38:27,950  
hey yeah so the bottom line of this is

2503  
01:38:31,630 --> 01:38:30,110  
that you know we could argue here for

2504  
01:38:33,910 --> 01:38:31,640  
hours and days but we're stuck with

2505  
01:38:36,040 --> 01:38:33,920  
these things right pretty much well

2506  
01:38:38,290 --> 01:38:36,050  
stuck on your part may be an opportunity

2507  
01:38:39,940 --> 01:38:38,300  
a little bit for my part mm-hmm okay

2508  
01:38:42,580 --> 01:38:39,950  
that sounds filthy in a way but okay

2509  
01:38:44,470 --> 01:38:42,590  
we're gonna close the debate on that Rob

2510  
01:38:45,700 --> 01:38:44,480  
back positiv war is boring thanks very

2511  
01:38:48,010 --> 01:38:45,710  
much for joining us actually you're

2512  
01:38:49,990 --> 01:38:48,020  
gonna stick around for operation system

2513  
01:38:52,570 --> 01:38:50,000

thunder can you plug your from your

2514

01:38:54,940 --> 01:38:52,580

website and your blog yeah we're at war

2515

01:38:56,530 --> 01:38:54,950

is boring calm and we write about all

2516

01:38:59,050 --> 01:38:56,540

things military yes one of the greatest

2517

01:39:02,170 --> 01:38:59,060

sights on the unit it really is the best

2518

01:39:03,760 --> 01:39:02,180

military rabb reporting anywhere it

2519

01:39:05,650 --> 01:39:03,770

really is you learn something different

2520

01:39:07,150 --> 01:39:05,660

every day it's just fascinating we're

2521

01:39:09,400 --> 01:39:07,160

gonna take a break now and we're gonna

2522

01:39:11,380 --> 01:39:09,410

be back with Operation distant Thunder

2523

01:39:13,540 --> 01:39:11,390

so this is Mac Maloney my Mac knowledge

2524

01:39:15,280 --> 01:39:13,550

military exercise show fought WOM want

2525

01:39:18,850 --> 01:39:15,290

commander Rob back house we're all gonna

2526

01:39:22,510 --> 01:39:20,770

welcome back it went back money's

2527

01:39:24,700 --> 01:39:22,520

military exercise show here on the

2528

01:39:26,470 --> 01:39:24,710

public shaming network the spent money

2529

01:39:28,720 --> 01:39:26,480

and the studio with us tonight

2530

01:39:30,819 --> 01:39:28,730

commander cobra is here the feb

2531

01:39:33,339 --> 01:39:30,829

remembers Juan Juan is here on the phone

2532

01:39:35,290 --> 01:39:33,349

with us Rob back housing it's here an

2533

01:39:38,350 --> 01:39:35,300

word this is the operation distant

2534

01:39:40,930 --> 01:39:38,360

thunder portion of the show throw it

2535

01:39:43,149 --> 01:39:40,940

over to the commander who has all the

2536

01:39:44,830 --> 01:39:43,159

latest juice about operations distant

2537

01:39:47,350 --> 01:39:44,840

thunder commander with us thank you very

2538

01:39:49,240 --> 01:39:47,360

much Mack Rob thank you for again for

2539

01:39:51,760 --> 01:39:49,250

your participation on let me participate

2540

01:39:55,000 --> 01:39:51,770

with you on the war war is boring

2541

01:39:56,709 --> 01:39:55,010

segment yo one of the things that we

2542

01:39:59,649 --> 01:39:56,719

want to talk about operation distant

2543

01:40:02,890 --> 01:39:59,659

thunder the operation distant thunder at

2544

01:40:05,439 --> 01:40:02,900

gmail.com all one word operation just

2545

01:40:07,569 --> 01:40:05,449

another at gmail.com is our linking site

2546

01:40:11,169 --> 01:40:07,579

to people who we treat it as a day drop

2547

01:40:13,270 --> 01:40:11,179

or drop fox for things that people want

2548

01:40:15,310 --> 01:40:13,280

us to investigate conspiracy things they

2549

01:40:21,640 --> 01:40:15,320

brought up we're getting ready to talk

2550

01:40:24,700 --> 01:40:21,650

about the 1930s era possible businessman

2551  
01:40:26,830 --> 01:40:24,710  
military figure coup with the upcoming

2552  
01:40:28,359 --> 01:40:26,840  
political situation this one is pretty

2553  
01:40:30,310 --> 01:40:28,369  
amazing and I think the other part

2554  
01:40:32,859 --> 01:40:30,320  
that's amazing is when I did we're doing

2555  
01:40:35,140 --> 01:40:32,869  
the research on it now this thing is

2556  
01:40:37,149 --> 01:40:35,150  
classic conspiracy it's all over the

2557  
01:40:38,560 --> 01:40:37,159  
place you've got folks saying and how it

2558  
01:40:41,020 --> 01:40:38,570  
went one way and it's gone the other

2559  
01:40:42,220 --> 01:40:41,030  
that's coming up in the next couple of

2560  
01:40:45,669 --> 01:40:42,230  
weeks probably gonna be a part of our

2561  
01:40:48,189 --> 01:40:45,679  
opening only expand the distant thunder

2562  
01:40:50,740 --> 01:40:48,199  
radio network but I've had a lot of

2563  
01:40:53,979 --> 01:40:50,750

contact with Vietnam era vets and going

2564

01:40:56,319 --> 01:40:53,989

this is the week leading into the

2565

01:40:57,459 --> 01:40:56,329

weekend of Memorial Day and I get a

2566

01:40:58,810 --> 01:40:57,469

little bit choked up when I talk about

2567

01:41:01,030 --> 01:40:58,820

this because Memorial Day has become

2568

01:41:04,689 --> 01:41:01,040

probably one of the toughest holidays

2569

01:41:07,930 --> 01:41:04,699

for me to get through because as time

2570

01:41:09,459 --> 01:41:07,940

has gone by when it was parades and as a

2571

01:41:12,549 --> 01:41:09,469

kid and barbecues

2572

01:41:15,430 --> 01:41:12,559

I spent one of the the most critical

2573

01:41:18,069 --> 01:41:15,440

Memorial days I spent in Iraq and I had

2574

01:41:19,780 --> 01:41:18,079

landed the plane at the souther airfield

2575

01:41:22,629 --> 01:41:19,790

which was part of victory base at

2576

01:41:24,160 --> 01:41:22,639

Baghdad and why I'm running around and

2577

01:41:25,720 --> 01:41:24,170

the guy that I'm supposed to pick up and

2578

01:41:28,859 --> 01:41:25,730

do this mission with is late and it's

2579

01:41:31,689 --> 01:41:28,869

hot and it's it's a nest of nasty day to

2580

01:41:32,530 --> 01:41:31,699

medevac Black Hawks come in and they

2581

01:41:34,900 --> 01:41:32,540

land

2582

01:41:36,580 --> 01:41:34,910

and they are taking a heck of a long

2583

01:41:38,200 --> 01:41:36,590

time there on the ramp my little

2584

01:41:40,510 --> 01:41:38,210

airplanes getting bounced around on the

2585

01:41:42,940 --> 01:41:40,520

ramp and I'm getting a little bit

2586

01:41:44,440 --> 01:41:42,950

perturbed with them because of how long

2587

01:41:46,060 --> 01:41:44,450

they're running their aircraft and it

2588

01:41:47,500 --> 01:41:46,070

just seems like you know come on guys do

2589

01:41:50,020 --> 01:41:47,510

what you have to do and let's go type

2590

01:41:52,990 --> 01:41:50,030

thing and then as I come out of one of

2591

01:41:58,630 --> 01:41:53,000

the porta-johns I see it and I realize

2592

01:42:01,360 --> 01:41:58,640

how absolutely insignificant I really am

2593

01:42:02,980 --> 01:42:01,370

what had happened was as we had a

2594

01:42:04,810 --> 01:42:02,990

casualty and was someone that was killed

2595

01:42:07,000 --> 01:42:04,820

in action and they were setting it up

2596

01:42:09,370 --> 01:42:07,010

properly to cover the body on the litter

2597

01:42:11,350 --> 01:42:09,380

with the flag and the guys that worked

2598

01:42:13,000 --> 01:42:11,360

the guys and gals that worked at the the

2599

01:42:16,170 --> 01:42:13,010

medevac station they were there at the

2600

01:42:18,520 --> 01:42:16,180

hospital and they did one of the most

2601  
01:42:21,340 --> 01:42:18,530  
impressive ceremonies of taking this

2602  
01:42:22,660 --> 01:42:21,350  
person from the aircraft to the the

2603  
01:42:25,150 --> 01:42:22,670  
folks that were going to receive it and

2604  
01:42:26,770 --> 01:42:25,160  
I'm telling you I had tears my eyes and

2605  
01:42:29,590 --> 01:42:26,780  
they're coming back now as I think about

2606  
01:42:32,290 --> 01:42:29,600  
it and it really fused to me what

2607  
01:42:34,240 --> 01:42:32,300  
Memorial Day is and these Vietnam era

2608  
01:42:35,890 --> 01:42:34,250  
vets that have been contacting me good

2609  
01:42:37,480 --> 01:42:35,900  
that'll listening to the show one of

2610  
01:42:39,220 --> 01:42:37,490  
them was very funny Holly described it

2611  
01:42:41,590 --> 01:42:39,230  
you know I have an enlarged prostate I'm

2612  
01:42:43,060 --> 01:42:41,600  
up all the time now I love this internet

2613  
01:42:44,980 --> 01:42:43,070

thing I don't understand how it works I

2614

01:42:46,930 --> 01:42:44,990

found your show and you know it's it's

2615

01:42:49,600 --> 01:42:46,940

great mix of humor and stuff that's

2616

01:42:51,550 --> 01:42:49,610

going on that's and I have a great debt

2617

01:42:53,980 --> 01:42:51,560

to the Vietnam era vets because those

2618

01:42:56,410 --> 01:42:53,990

are the guys and gals who trained me

2619

01:42:58,030 --> 01:42:56,420

when I was coming up in the late 70s and

2620

01:43:00,790 --> 01:42:58,040

80s that was the era that was the

2621

01:43:04,800 --> 01:43:00,800

instructor mile it's the the NCOs and

2622

01:43:10,240 --> 01:43:04,810

the Chiefs that were shepherding so on

2623

01:43:13,150 --> 01:43:10,250

so first thing I have helped about six

2624

01:43:16,810 --> 01:43:13,160

of these Vietnam era vets with this

2625

01:43:21,610 --> 01:43:16,820

Vietnam War 50th anniversary triple W

2626

01:43:26,890 --> 01:43:21,620

Vietnam War 50th 5 0 th com that's

2627

01:43:29,620 --> 01:43:26,900

Vietnam War 5 0 th com is a website to

2628

01:43:31,810 --> 01:43:29,630

go to there is a commemorative pen and a

2629

01:43:35,680 --> 01:43:31,820

certificate for everyone that was a

2630

01:43:37,240 --> 01:43:35,690

Vietnam War era veteran and I've helped

2631

01:43:38,950 --> 01:43:37,250

a lot of them find the site I've

2632

01:43:40,630 --> 01:43:38,960

actually filled it up for a few guys who

2633

01:43:43,870 --> 01:43:40,640

seemed a little bit intimidated by the

2634

01:43:46,060 --> 01:43:43,880

site and I've signed up distant Thunder

2635

01:43:48,669 --> 01:43:46,070

as a partner

2636

01:43:50,919 --> 01:43:48,679

for this program and I want everyone

2637

01:43:52,629 --> 01:43:50,929

that that knows a Vietnam vet that's

2638

01:43:55,750 --> 01:43:52,639

that is one that listens to the show of

2639

01:43:59,050 --> 01:43:55,760

that era to to sign up and get some of

2640

01:44:01,209 --> 01:43:59,060

the rightfully owed and probably much

2641

01:44:03,819 --> 01:44:01,219

much overdue because if anybody out of

2642

01:44:05,979 --> 01:44:03,829

one group didn't get a lot of respect

2643

01:44:07,959 --> 01:44:05,989

coming back even the Korean War vets

2644

01:44:10,149 --> 01:44:07,969

were not looked upon and that was a

2645

01:44:12,550 --> 01:44:10,159

pretty messy situation as well but

2646

01:44:15,640 --> 01:44:12,560

Vietnam had a certain you got caught up

2647

01:44:17,530 --> 01:44:15,650

in a certain social political sphere

2648

01:44:19,660 --> 01:44:17,540

that definitely detracted from our

2649

01:44:24,640 --> 01:44:19,670

veterans through the website again that

2650

01:44:28,479 --> 01:44:24,650

website is triple W Vietnam War all

2651  
01:44:31,240 --> 01:44:28,489  
one-word no-spaces the numbers 5 0 th

2652  
01:44:33,129 --> 01:44:31,250  
calm and if you just put it into a

2653  
01:44:35,830 --> 01:44:33,139  
google type search engine right off the

2654  
01:44:40,720 --> 01:44:35,840  
bat and say Vietnam War 50th you'll see

2655  
01:44:43,060 --> 01:44:40,730  
this site come up ok ok so that is I

2656  
01:44:46,330 --> 01:44:43,070  
have a couple hollows one is to Jimmy ji

2657  
01:44:48,129 --> 01:44:46,340  
mi who contacted me and he helped hook

2658  
01:44:51,160 --> 01:44:48,139  
up with the site and we started

2659  
01:44:52,600 --> 01:44:51,170  
correspondence I have a great friend

2660  
01:44:55,240 --> 01:44:52,610  
that I've made who just sent me a

2661  
01:44:58,330 --> 01:44:55,250  
newsletter from his group the c7

2662  
01:44:59,800 --> 01:44:58,340  
organization the c7 was the caribou

2663  
01:45:01,060 --> 01:44:59,810

airplane that they flew on and he gave

2664

01:45:02,439 --> 01:45:01,070

us some tips and some very interesting

2665

01:45:04,300 --> 01:45:02,449

missions that they did and things that

2666

01:45:06,580 --> 01:45:04,310

he was involved in on the periphery so

2667

01:45:08,680 --> 01:45:06,590

Roger I say hello and I'd like to

2668

01:45:12,220 --> 01:45:08,690

recognize they took the time to send to

2669

01:45:15,459 --> 01:45:12,230

me mr. Harold Meyers senior who passed

2670

01:45:19,120 --> 01:45:15,469

away not too long ago he was a flight

2671

01:45:21,640 --> 01:45:19,130

engineer on the c7 and the 537 Tactical

2672

01:45:23,379 --> 01:45:21,650

Air Support Squadron which has a dear

2673

01:45:25,030 --> 01:45:23,389

part in my heart because I was a member

2674

01:45:30,550 --> 01:45:25,040

of the 60 first tactical air support

2675

01:45:34,180 --> 01:45:30,560

squadron in Germany in 66 and I think

2676

01:45:35,770 --> 01:45:34,190

it's a absolutely phenomenal thing that

2677

01:45:38,229 --> 01:45:35,780

these guys are honoring me with by you

2678

01:45:42,310 --> 01:45:38,239

mean taking the time to write me and ask

2679

01:45:44,470 --> 01:45:42,320

me and give me some some good stuff it

2680

01:45:47,439 --> 01:45:44,480

has been it's been a big part and I

2681

01:45:49,060 --> 01:45:47,449

think it's critical to link Vietnam era

2682

01:45:50,979 --> 01:45:49,070

guys with the generation that's coming

2683

01:45:53,919 --> 01:45:50,989

up now because they have about the same

2684

01:45:55,810 --> 01:45:53,929

displacement in time as I did as a young

2685

01:45:58,540 --> 01:45:55,820

guy going up with guys in World War two

2686

01:45:59,390 --> 01:45:58,550

and that's that's almost like they've

2687

01:46:02,120 --> 01:45:59,400

never heard of it

2688

01:46:04,190 --> 01:46:02,130

it's definitely is not a rebel in

2689

01:46:05,960 --> 01:46:04,200

Florida going on right so Roth no

2690

01:46:07,520 --> 01:46:05,970

nothing Rob I want to ask you one

2691

01:46:09,800 --> 01:46:07,530

question have you guys been tracking at

2692

01:46:12,980 --> 01:46:09,810

Moore's burn boring anything about the

2693

01:46:14,600 --> 01:46:12,990

the canine military guys who've been

2694

01:46:16,130 --> 01:46:14,610

trying to get their dogs when their dogs

2695

01:46:19,160 --> 01:46:16,140

are retired or when they leave the

2696

01:46:21,650 --> 01:46:19,170

military and how they are then they've

2697

01:46:24,950 --> 01:46:21,660

been overlooked and the dogs have been

2698

01:46:27,380 --> 01:46:24,960

they haven't the the the the regulation

2699

01:46:29,510 --> 01:46:27,390

or the policy is that you're supposed to

2700

01:46:32,480 --> 01:46:29,520

have the first opportunity to adopt your

2701

01:46:34,280 --> 01:46:32,490

dog and a number of guys have not been

2702

01:46:36,620 --> 01:46:34,290

able to get it and they found out their

2703

01:46:38,060 --> 01:46:36,630

dogs have been actually adopted they

2704

01:46:40,700 --> 01:46:38,070

were put up for adoption and taken by

2705

01:46:42,230 --> 01:46:40,710

other people and not that anything this

2706

01:46:43,940 --> 01:46:42,240

looks like any kind of MIS character

2707

01:46:45,830 --> 01:46:43,950

these dogs at all it's a fairly well

2708

01:46:47,840 --> 01:46:45,840

vetted program they're just angry

2709

01:46:50,090 --> 01:46:47,850

because they have a bond with the dog

2710

01:46:52,550 --> 01:46:50,100

that they served with to the point of

2711

01:46:54,230 --> 01:46:52,560

almost like serving with another human

2712

01:46:56,150 --> 01:46:54,240

and a couple canine handles explained me

2713

01:46:58,610 --> 01:46:56,160

it's even more in-depth than what

2714

01:47:01,940 --> 01:46:58,620

they've dealt with with another person

2715

01:47:03,830 --> 01:47:01,950

the bond between the the dog and the and

2716

01:47:05,480 --> 01:47:03,840

the soldier I thought was built into the

2717

01:47:08,720 --> 01:47:05,490

process that the soldier would have the

2718

01:47:10,640 --> 01:47:08,730

first it's supposed to be and this one

2719

01:47:12,380 --> 01:47:10,650

guy he's actually working pretty hard

2720

01:47:14,780 --> 01:47:12,390

trying to get his dog which is has been

2721

01:47:16,250 --> 01:47:14,790

released and adopted by as a civilian

2722

01:47:18,050 --> 01:47:16,260

family in North Carolina and he was

2723

01:47:20,360 --> 01:47:18,060

offered a therapy dog and he says I

2724

01:47:23,960 --> 01:47:20,370

can't even entertain thinking of another

2725

01:47:25,310 --> 01:47:23,970

dog his dog is there's some legislation

2726

01:47:26,870 --> 01:47:25,320

that's been introduced in the house to

2727

01:47:28,700 --> 01:47:26,880

get this corrected and straightened out

2728

01:47:30,680 --> 01:47:28,710

but I'd like to call attention to all

2729

01:47:34,100 --> 01:47:30,690

the listeners that we have on our show

2730

01:47:38,510 --> 01:47:34,110

and distant thunder that this one may

2731

01:47:42,170 --> 01:47:38,520

seem to be a not a critical thing but

2732

01:47:44,810 --> 01:47:42,180

this is the this bond with soldiers and

2733

01:47:47,900 --> 01:47:44,820

sailors and Marines and airmen with

2734

01:47:50,390 --> 01:47:47,910

their with their working dogs is is

2735

01:47:50,870 --> 01:47:50,400

probably as critical if not more in some

2736

01:47:53,150 --> 01:47:50,880

cases

2737

01:47:54,740 --> 01:47:53,160

than it was with the other soldiers and

2738

01:47:56,720 --> 01:47:54,750

sales and airline Airmen that they serve

2739

01:47:59,750 --> 01:47:56,730

with so at war was boring we did a story

2740

01:48:02,360 --> 01:47:59,760

in December about I was a specialist

2741

01:48:04,760 --> 01:48:02,370

andrew brown and rocky there was a the

2742

01:48:07,310 --> 01:48:04,770

two to twenty six military police

2743

01:48:10,700 --> 01:48:07,320

detachment and haven't haven't done a

2744

01:48:13,290 --> 01:48:10,710

story on it since i would really like to

2745

01:48:16,020 --> 01:48:13,300

so if actually our contact in from

2746

01:48:19,560 --> 01:48:16,030

we really do depend on you know our

2747

01:48:21,360 --> 01:48:19,570

sources so and our readers so if you go

2748

01:48:23,460 --> 01:48:21,370

to Wars boring calm you can actually you

2749

01:48:25,620 --> 01:48:23,470

can find contact information for us also

2750

01:48:27,870 --> 01:48:25,630

for Vietnam we do we like new Viet Nam's

2751  
01:48:30,420 --> 01:48:27,880  
articles about Vietnam so people who do

2752  
01:48:33,060 --> 01:48:30,430  
want to share their stories like to

2753  
01:48:35,040 --> 01:48:33,070  
provide a platform well we're uh what

2754  
01:48:36,420 --> 01:48:35,050  
I'd like to be they do as we and

2755  
01:48:37,980 --> 01:48:36,430  
hopefully we'll bring up our website

2756  
01:48:40,230 --> 01:48:37,990  
here in the not-too-distant future will

2757  
01:48:42,060 --> 01:48:40,240  
hook and war is borrowing on that and

2758  
01:48:45,330 --> 01:48:42,070  
have the the Dropbox and anyone that

2759  
01:48:47,880 --> 01:48:45,340  
contacts me with good contact points I

2760  
01:48:49,380 --> 01:48:47,890  
will bring to you as well as we have in

2761  
01:48:50,850 --> 01:48:49,390  
the past you know we've always kind of

2762  
01:48:52,950 --> 01:48:50,860  
scented on either aircraft or other

2763  
01:48:55,350 --> 01:48:52,960

major weapon systems and stuff like that

2764

01:48:57,420 --> 01:48:55,360

but there's a couple of the the veteran

2765

01:48:58,920 --> 01:48:57,430

type issues that are going on that I

2766

01:49:01,230 --> 01:48:58,930

think it's it's an important one to

2767

01:49:02,180 --> 01:49:01,240

bring up let's do it yeah that sounds

2768

01:49:06,150 --> 01:49:02,190

great

2769

01:49:09,390 --> 01:49:06,160

sounds good tomato so Rob thank you

2770

01:49:10,980 --> 01:49:09,400

again for our earlier discussion thanks

2771

01:49:13,920 --> 01:49:10,990

for the support with Operation distant

2772

01:49:16,080 --> 01:49:13,930

Thunder and I would like to just take

2773

01:49:18,300 --> 01:49:16,090

the moment to salute all our veterans

2774

01:49:20,460 --> 01:49:18,310

and all those folks active duty that are

2775

01:49:23,040 --> 01:49:20,470

serving now that listen to the show

2776

01:49:25,260 --> 01:49:23,050

continue up the the good info with us

2777

01:49:27,150 --> 01:49:25,270

I love the contact and I try to answer

2778

01:49:30,300 --> 01:49:27,160

every one of your emails that comes up

2779

01:49:32,760 --> 01:49:30,310

and Mac and Juan Juan and EH and ex they

2780

01:49:34,530 --> 01:49:32,770

all get a chance to look at it yeah

2781

01:49:36,600 --> 01:49:34,540

correct my English usually when I say

2782

01:49:38,340 --> 01:49:36,610

something off-color I'm very careful not

2783

01:49:39,810 --> 01:49:38,350

to because I'm under the flag of the

2784

01:49:42,060 --> 01:49:39,820

distant Thunder Network

2785

01:49:44,760 --> 01:49:42,070

I love the CAG that's get ahold of some

2786

01:49:46,860 --> 01:49:44,770

of those letters and it's an inside joke

2787

01:49:48,750 --> 01:49:46,870

folks at Rob thanks for joining us and

2788

01:49:51,210 --> 01:49:48,760

it said now time to end the show believe

2789

01:49:52,830 --> 01:49:51,220

it or not I found math is right thank

2790

01:49:54,810 --> 01:49:52,840

you for everyone listening thanks for

2791

01:49:57,350 --> 01:49:54,820

housing thanks to switchboard Steve

2792

01:50:00,540 --> 01:49:57,360

switchboard Steve switchblade Steve

2793

01:50:03,180 --> 01:50:00,550

switch placed ofwhat up in Michigan and

2794

01:50:05,430 --> 01:50:03,190

thanks my listeners and we'll be back in

2795

01:50:08,750 --> 01:50:05,440

a couple weeks and your friend is gonna

2796

01:50:11,880 --> 01:50:08,760

be on the show Rob Beck housing um

2797

01:50:13,200 --> 01:50:11,890

Benedetta ajan Terry is gonna be

2798

01:50:15,030 --> 01:50:13,210

drilling it I came back from the war

2799

01:50:17,520 --> 01:50:15,040

back from the wall literally back from

2800

01:50:20,010 --> 01:50:17,530

the wall she was in better with the with

2801  
01:50:21,240 --> 01:50:20,020  
the Kurds and she's gonna be on a show

2802  
01:50:23,400 --> 01:50:21,250  
in a couple weeks

2803  
01:50:25,890 --> 01:50:23,410  
so until then we'll have a repeat next

2804  
01:50:26,790 --> 01:50:25,900  
week but until next new show in a couple

2805  
01:50:29,160 --> 01:50:26,800  
weeks this

2806  
01:50:30,870 --> 01:50:29,170  
is back Maloney for one one see you

2807  
01:50:36,390 --> 01:50:30,880  
later Mack see you later everybody and

2808  
01:50:37,950 --> 01:50:36,400  
devic Amanda Unitas and thank you for

2809  
01:50:46,530 --> 01:50:37,960  
joining us we'll see you in two weeks

2810  
01:50:49,380 --> 01:50:46,540  
until then be safe be happy and there

2811  
01:50:51,840 --> 01:50:49,390  
are so many reasons to celebrate with

2812  
01:50:54,750 --> 01:50:51,850  
over eight thousand wines three thousand

2813  
01:50:57,600 --> 01:50:54,760

spirits and 2,500 beers to choose from

2814

01:51:00,000 --> 01:50:57,610

Total Wine and more has the perfect one

2815

01:51:01,860 --> 01:51:00,010

for you and your best friends and your

2816

01:51:04,050 --> 01:51:01,870

co-workers and your siblings and your

2817

01:51:07,170 --> 01:51:04,060

partner and your neighbors and even your

2818

01:51:10,490 --> 01:51:07,180

parents happy celebrating Cheers

2819

01:51:13,830 --> 01:51:10,500

from your friends at Total Wine and more

2820

01:51:14,580 --> 01:51:13,840

to raise a glass to make a toast to just

2821

01:51:16,890 --> 01:51:14,590

say Cheers

2822

01:51:18,480 --> 01:51:16,900
