39

00:01:52,500 --> 00:01:48,580

call in and now for your paranormal

40

00:01:54,510 --> 00:01:52,510

words of wisdom hey guys it's Eliana so

41

00:01:56,280 --> 00:01:54,520

as a very young woman still just

42

00:01:59,310 --> 00:01:56,290

beginning to research this paranormal

43

00:02:01,770 --> 00:01:59,320

phenomena my words of wisdom would be to

44

00:02:03,060 --> 00:02:01,780

start with inner knowledge get to know

45

00:02:05,820 --> 00:02:03,070

yourself and start to hone your

46

00:02:07,669 --> 00:02:05,830

intuition so you can use it as a way to

47

00:02:10,020 --> 00:02:07,679

help you discern what is the truth

48

00:02:13,710 --> 00:02:10,030

because along your research you'll find

49

00:02:15,539 --> 00:02:13,720

disinformation or unreliable sources so

50

00:02:18,330 --> 00:02:15,549

the thinking mind is absolutely

51
00:02:20,399 --> 00:02:18,340
something to be utilized but it pales in

52
00:02:21,450 --> 00:02:20,409
comparison to the inner wisdom of your

53
00:02:24,060 --> 00:02:21,460
intuition

54
00:02:26,790 --> 00:02:24,070
enjoy this episode of paranormal now and

57
00:02:33,030 --> 00:02:31,030

58

59
00:02:39,350 --> 00:02:36,190

her interest in UFOs dates back to

90

00:03:53,550 --> 00:03:51,730

experience this led to a journey of

95

00:04:05,430 --> 00:04:03,520

exploration leaving no stone unturned to

96

00:04:08,010 --> 00:04:05,440

00:06:35,969 --> 00:06:33,349
tonight the Roswell incident and

173

00:07:10,370 --> 00:07:06,990

covered those books so I will skip this

174

00:07:12,680 --> 00:07:10,380

portion he is his book flying saucers

175

00:07:15,290 --> 00:07:12,690

177

00:07:20,360 --> 00:07:17,220

book also authored by Kathleen Martin is

178

00:07:22,280 --> 00:07:20,370

science was wrong released in June 2010

179

00:07:23,960 --> 00:07:22,290

and that is not his most recent book so

180

00:07:25,640 --> 00:07:23,970

we'll have to have a stand comment on

181

00:07:27,200 --> 00:07:25,650

that um he has provided written

185

00:07:35,870 --> 00:07:33,960

including Roswell majestic 12 the Betty

186

00:07:39,020 --> 00:07:35,880

Hill Marjorie fish star map work

that more you move funds symposia than

193

00:07:58,550 --> 00:07:54,960

anyone else Stanton T Friedman is a dual

194

00:07:58,880 --> 00:07:58,560

citizen of the USA and Canada whoo I got

195

00:08:00,760 --> 00:07:58,890

through that

196

00:08:03,370 --> 00:08:00,770

welcome to the show Stan and Kathleen

197

00:08:08,360 --> 00:08:03,380

thank you great to be back with you

198

00:08:09,530 --> 00:08:08,370

welcome back it's my pleasure so yeah if

199

00:08:10,940 --> 00:08:09,540

there's anything else that you guys feel

200

00:08:14,570 --> 00:08:10,950

like you needed to add in there please

201
00:08:18,320 --> 00:08:14,580
just jump in and fill us in that's more

202
00:08:19,400 --> 00:08:18,330
than I think you've covered at all all

203
00:08:22,580 --> 00:08:19,410
right and we've got a lot to talk about

204
00:08:24,380 --> 00:08:22,590
tonight of course so I know we've heard

205
00:08:26,510 --> 00:08:24,390
my voice more than usual at the top of

206
00:08:31,280 --> 00:08:26,520
the show however I'm gonna read

207
00:08:33,380 --> 00:08:31,290
something here for for you and this is

208
00:08:36,020 --> 00:08:33,390
something that kind of touches a very

209
00:08:36,469 --> 00:08:36,030
nostalgic place in my heart so just bear

210
00:08:38,900 --> 00:08:36,479
with me

211
00:08:42,350 --> 00:08:38,910
and then I'll ask for your uh you know

212
00:08:44,960 --> 00:08:42,360
feedback after you hear what I have to

213
00:08:48,020 --> 00:08:44,970

read here this is from an article from

214

00:08:50,270 --> 00:08:48,030

some years ago a cloud of brown dust

215

00:08:53,090 --> 00:08:50,280

sneaks behind me as I speed down the

216

00:08:55,010 --> 00:08:53,100

desolate desert road a dozen miles ago I

217

00:08:57,980 --> 00:08:55,020

passed the solitary steel mailbox that

218

00:09:00,200 --> 00:08:57,990

marks the turnoff for area 51 for a

219

00:09:02,060 --> 00:09:00,210

place that isn't supposed to exist it's

220

00:09:03,980 --> 00:09:02,070

odd that the secret airbase

221

00:09:08,090 --> 00:09:03,990

occupies whole chapters of aviation

222

00:09:11,000 --> 00:09:08,100

history it was here in 1955 that the u-2

223

00:09:13,280 --> 00:09:11,010

spy plane first took wing in the years

224

00:09:16,400 --> 00:09:13,290

that followed its successors the a12 and

225

00:09:19,160 --> 00:09:16,410

sr-71 and later the stealthy f/11 7 a

226

00:09:21,890 --> 00:09:19,170

fighter and b-2 bomber danced across the

227

00:09:24,100 --> 00:09:21,900

same blue steel in the bodice sky rumors

228

00:09:26,600 --> 00:09:24,110

persist of even more amazing aircraft

229

00:09:29,090 --> 00:09:26,610

secret hangars supposedly concealed the

230

00:09:30,680 --> 00:09:29,100

mythical Aurora and methane burning

231

00:09:33,260 --> 00:09:30,690

replacement for the high-flying

232

00:09:35,630 --> 00:09:33,270

sr-71 spy plane and if you believe that

233

00:09:38,150 --> 00:09:35,640

x-files and J edgar Hoover's dress

234

00:09:40,850 --> 00:09:38,160

collection collection exists there are

235

00:09:43,730 --> 00:09:40,860

even crashed UFOs the engineers patched

236

00:09:45,890 --> 00:09:43,740

up and somehow learned how to fly I'm

237

00:09:48,770 --> 00:09:45,900

not searching for hypersonic aircraft or

238

00:09:51,020 --> 00:09:48,780

ETS flying machine my mission is less

239

00:09:53,200 --> 00:09:51,030

lofty I'm trying to avoid getting

240

00:09:55,340 --> 00:09:53,210

arrested when Popular Mechanics

241

00:09:57,860 --> 00:09:55,350

correspondent Abe Dane traveled these

242

00:10:00,470 --> 00:09:57,870

roads to research our january 1995 cover

243

00:10:02,540 --> 00:10:00,480

story flying saucers are real camouflage

244

00:10:06,590 --> 00:10:02,550

guards driving white Jeep Cherokees

245

00:10:08,480 --> 00:10:06,600

dogged his every turn now if I had to

246

00:10:17,090 --> 00:10:08,490

ask you guys could you guess what year

247

00:10:17,990 --> 00:10:17,100

that was written I don't no idea right

248

00:10:22,130 --> 00:10:18,000

exactly

249

00:10:24,740 --> 00:10:22,140

so that was 1995 so recently my wife and

250

00:10:27,650 --> 00:10:24,750

I were moving and as we were uncovering

251

00:10:30,310 --> 00:10:27,660

things I found this old Popular

252

00:10:32,600 --> 00:10:30,320

Mechanics magazine that I had saved so

253

00:10:33,650 --> 00:10:32,610

and I read through and I thought you

254

00:10:36,650 --> 00:10:33,660

know anyone could have written this

255

00:10:37,370 --> 00:10:36,660

today and you would be telling the same

256

00:10:40,610 --> 00:10:37,380

story

257

00:10:42,950 --> 00:10:40,620

so I guess my question is in the past

258

00:10:47,930 --> 00:10:42,960

couple of decades how much how much more

259

00:10:50,720 --> 00:10:47,940

have we learned oh boy that's a toughy

260

00:10:54,680 --> 00:10:50,730

guy I'm are you saying about UFOs or

261

00:10:57,830 --> 00:10:54,690

about the life in the universe what's I

262

00:10:59,570 --> 00:10:57,840

would say more area 51 oriented since

263

00:11:03,890 --> 00:10:59,580

we're going to be talking about Corona

264

00:11:06,050 --> 00:11:03,900

and Roswell tonight well okay we've

265

00:11:09,500 --> 00:11:06,060

learned we've certainly turned up more

266

00:11:14,380 --> 00:11:09,510

witnesses to Roswell but they're dead I

267

00:11:15,800 --> 00:11:14,390

mean you know of the there is a DVD

268

00:11:18,890 --> 00:11:15,810

recollections of raw

269

00:11:21,019 --> 00:11:18,900

well which has testimony from 27

270

00:11:23,570 --> 00:11:21,029

firsthand witnesses all but one of whom

271

00:11:27,500 --> 00:11:23,580

are dead I mean it happened 70 years ago

272

00:11:29,570 --> 00:11:27,510

you know so that's not surprising what

273

00:11:31,519 --> 00:11:29,580

there have been some changes though that

274

00:11:35,720 --> 00:11:31,529

are significant one is the attitude of

275

00:11:39,560 --> 00:11:35,730

the world our attitude we Earthlings I'm

276

00:11:42,640 --> 00:11:39,570

presuming you're indirectly we

277

00:11:45,470 --> 00:11:42,650

Earthlings have come to realize that

278

00:11:49,040 --> 00:11:45,480

rather than being you know here we are

279

00:11:51,140 --> 00:11:49,050

on earth the king of the planets and the

280

00:11:53,870 --> 00:11:51,150

only planet in the solar system that's

281

00:11:57,079 --> 00:11:53,880

got water and oxygen and so forth on the

282

00:11:58,940 --> 00:11:57,089

surface and there's no other solar

283

00:12:02,810 --> 00:11:58,950

sister around that was an attitude not

284

00:12:05,150 --> 00:12:02,820

too many years ago today we know that

285

00:12:08,210 --> 00:12:05,160

the number that's given by the

286

00:12:12,110 --> 00:12:08,220

scientific community is 1.6 planets per

287

00:12:13,610 --> 00:12:12,120

star so rather than stars Frank Drake

288

00:12:16,460 --> 00:12:13,620

once said there might be as many as

289

00:12:20,630 --> 00:12:16,470

8,000 in the galaxy now the number that

290

00:12:23,120 --> 00:12:20,640

we talk about is a hundred billion so

291

00:12:24,890 --> 00:12:23,130

planets are all over the place there's

292

00:12:28,040 --> 00:12:24,900

ten thousand planets within a hundred

293

00:12:30,410 --> 00:12:28,050

light-years of here ten thousand stars

294

00:12:33,530 --> 00:12:30,420

I'm sorry and about sixteen thousand

295

00:12:36,170 --> 00:12:33,540

planets so rather than being the big

296

00:12:38,420 --> 00:12:36,180

shots the unique the special place it

297

00:12:41,720 --> 00:12:38,430

looks like we're run of the MIL as far

298

00:12:45,410 --> 00:12:41,730

as - oh I hate to say that you know we

299

00:12:46,910 --> 00:12:45,420

want to be special but so that there's a

300

00:12:49,160 --> 00:12:46,920

different attitude in other words and

301
00:12:52,160 --> 00:12:49,170
there very few people who say now that

302
00:12:55,300 --> 00:12:52,170
we're alone in the universe it is nobody

303
00:12:58,579 --> 00:12:55,310
out there we've also learned a lot about

304
00:13:02,630 --> 00:12:58,589
energy production and ways to get from

305
00:13:05,900 --> 00:13:02,640
here to there so there have been changes

306
00:13:09,740 --> 00:13:05,910
in our perception of ourselves of the

307
00:13:12,949 --> 00:13:09,750
local neighborhood now we haven't

308
00:13:15,170 --> 00:13:12,959
learned a lot about more classified

309
00:13:17,000 --> 00:13:15,180
activity that's been going on about this

310
00:13:19,790 --> 00:13:17,010
subject

311
00:13:24,620 --> 00:13:19,800
not much Declassified as far as I can

312
00:13:26,510 --> 00:13:24,630
tell not in the last umpteen years so

313
00:13:27,860 --> 00:13:26,520

that would be one area I'd like to see

314

00:13:31,480 --> 00:13:27,870

more work done on

315

00:13:35,630 --> 00:13:31,490

hey guys fess up give us the paperwork

316

00:13:37,810 --> 00:13:35,640

but that would lead to gia push for

317

00:13:41,090 --> 00:13:37,820

people on the planet to think that we're

318

00:13:43,760 --> 00:13:41,100

all earthlings and that they're aliens

319

00:13:45,340 --> 00:13:43,770

out there and I guess there's some

320

00:13:48,829 --> 00:13:45,350

people don't want us to think that way

321

00:13:52,329 --> 00:13:48,839

yeah and and I and I wonder more

322

00:13:55,640 --> 00:13:52,339

specifically to the article - as far as

323

00:13:57,560 --> 00:13:55,650

advanced technology because last time we

324

00:13:59,690 --> 00:13:57,570

spoke Sandy's and you spoke would have

325

00:14:02,390 --> 00:13:59,700

been about interstellar travel and the

326

00:14:04,910 --> 00:14:02,400

feasibility built into physics for that

327

00:14:07,579 --> 00:14:04,920

and you know in this article it you know

328

00:14:13,250 --> 00:14:07,589

talks about the Aurora you know the b2

329

00:14:14,990 --> 00:14:13,260

the sr-71 you know since then yeah have

330

00:14:17,990 --> 00:14:15,000

we heard of any other more advanced

331

00:14:22,579 --> 00:14:18,000

aircraft that that really fascinates you

332

00:14:24,350 --> 00:14:22,589

that the me know that no I don't think

333

00:14:29,180 --> 00:14:24,360

so I'm not saying there aren't any out

334

00:14:32,420 --> 00:14:29,190

there in secret but cos I but to my

335

00:14:35,480 --> 00:14:32,430

knowledge there are no those super duper

336

00:14:38,090 --> 00:14:35,490

hyper special high-performance aircraft

337

00:14:41,000 --> 00:14:38,100

out there and if there are we're not

338

00:14:42,560 --> 00:14:41,010

talking about them whether that's the

339

00:14:44,360 --> 00:14:42,570

fool the Russians and the Chinese and

340

00:14:46,400 --> 00:14:44,370

others you know I don't know who are

341

00:14:52,130 --> 00:14:46,410

working on their super duper aircraft I

342

00:14:53,660 --> 00:14:52,140

don't know but we have recognized that

343

00:14:56,329 --> 00:14:53,670

we're not the big shots in the

344

00:14:59,000 --> 00:14:56,339

neighborhood which is probably a good

345

00:15:02,360 --> 00:14:59,010

thing although you know it's interesting

346

00:15:04,960 --> 00:15:02,370

within the last two months almost two

347

00:15:07,730 --> 00:15:04,970

months ago there was a special issue of

348

00:15:10,490 --> 00:15:07,740

Scientific American devoted to life in

349

00:15:12,590 --> 00:15:10,500

the universe and just within the past

350

00:15:15,980 --> 00:15:12,600

two weeks Newsweek magazine had a

351
00:15:18,260 --> 00:15:15,990
special edition under pages long loaded

352
00:15:21,949 --> 00:15:18,270
with pictures and it's called life

353
00:15:25,100 --> 00:15:21,959
beyond Earth question mark the mission

354
00:15:28,300 --> 00:15:25,110
to find the answer small princess

355
00:15:32,870 --> 00:15:28,310
exploring the universe with researchers

356
00:15:37,100 --> 00:15:32,880
astronomers eyewitnesses and More war do

357
00:15:41,079 --> 00:15:37,110
you want so that's two major magazines

358
00:15:44,439 --> 00:15:41,089
and they both do mention UFOs and

359
00:15:46,449 --> 00:15:44,449
in a nasty stupid sort of way you know

360
00:15:48,790 --> 00:15:46,459
they don't talk about those UFO nuts or

361
00:15:53,259 --> 00:15:48,800
anything like that so we're making

362
00:15:55,420 --> 00:15:53,269
progress and both of us wish that they

363
00:15:57,549 --> 00:15:55,430

had mentioned our books but they've

364

00:16:00,069 --> 00:15:57,559

mentioned quite a few books and quite a

365

00:16:05,769 --> 00:16:00,079

few researchers so we'll have to catch

366

00:16:10,389 --> 00:16:05,779

the next special or an interesting point

367

00:16:12,670 --> 00:16:10,399

to know just-just but you know the times

368

00:16:16,030 --> 00:16:12,680

have changed when two major publications

369

00:16:18,790 --> 00:16:16,040

can take a decent attitude toward UFOs

370

00:16:20,650 --> 00:16:18,800

and life you know most of the SETI

371

00:16:22,420 --> 00:16:20,660

community the Sibley effort to

372

00:16:25,689 --> 00:16:22,430

investigate community you know when I

373

00:16:29,230 --> 00:16:25,699

talk about they ignore UFOs they don't

374

00:16:32,470 --> 00:16:29,240

want to talk about it obviously people

375

00:16:34,030 --> 00:16:32,480

say why if aliens are visiting here then

376

00:16:36,610 --> 00:16:34,040

who needs to listen with the radio

377

00:16:38,439 --> 00:16:36,620

telescope maybe you need sign language

378

00:16:42,249 --> 00:16:38,449

you know next time you happen to meet an

379

00:16:47,710 --> 00:16:42,259

alien I don't know so there have been

380

00:16:49,509 --> 00:16:47,720

changes and we're getting there and the

381

00:16:51,669 --> 00:16:49,519

interesting thing about the research

382

00:16:55,269 --> 00:16:51,679

into ufology is that there is a

383

00:16:57,040 --> 00:16:55,279

periphery of other fascinating topics

384

00:17:00,730 --> 00:16:57,050

that you know it's are associated

385

00:17:01,749 --> 00:17:00,740

directly to this study and you know so I

386

00:17:03,280 --> 00:17:01,759

wonder

387

00:17:05,649 --> 00:17:03,290

Kathleen maybe you want you want to take

388

00:17:07,500 --> 00:17:05,659

this because I know you've done a lot of

389

00:17:11,769 --> 00:17:07,510

work for MUFON and free in particular

390

00:17:15,610 --> 00:17:11,779

and you know I've I've worked with via

391

00:17:17,230 --> 00:17:15,620

the airwaves with dr. Joseph Burks with

392

00:17:20,289 --> 00:17:17,240

epic voyages radio so we've talked a lot

393

00:17:23,350 --> 00:17:20,299

about about experiencers and you know

394

00:17:25,059 --> 00:17:23,360

what people have have seen as far as you

395

00:17:27,699 --> 00:17:25,069

know the more fringe reports of

396

00:17:30,340 --> 00:17:27,709

extraterrestrial beings

397

00:17:34,000 --> 00:17:30,350

so what I'm leaving with this is you

398

00:17:36,549 --> 00:17:34,010

know what is a UFO nut I mean you know

399

00:17:39,669 --> 00:17:36,559

is there is there a place where you say

400

00:17:44,139 --> 00:17:39,679

okay this this person is is crossing a

401
00:17:46,330 --> 00:17:44,149
line is there a line I believe that

402
00:17:51,539 --> 00:17:46,340
there is and the reason I say that is

403
00:17:54,670 --> 00:17:51,549
that normally when I interview

404
00:17:57,880 --> 00:17:54,680
individuals say

405
00:18:00,310 --> 00:17:57,890
tell me the facts they might express

406
00:18:05,770 --> 00:18:00,320
their emotional reaction to the

407
00:18:09,850 --> 00:18:05,780
experience but there they don't play

408
00:18:13,800 --> 00:18:09,860
upon conspiracy theory very much but

409
00:18:17,080 --> 00:18:13,810
occasionally I find a witness who is

410
00:18:19,690 --> 00:18:17,090
completely absorbed in a conspiracy

411
00:18:23,170 --> 00:18:19,700
theories and the information that they

412
00:18:25,360 --> 00:18:23,180
are sharing with me is obviously coming

413
00:18:28,150 --> 00:18:25,370

off the internet and they'll even

414

00:18:31,450 --> 00:18:28,160

encourage me to start investigating

415

00:18:36,430 --> 00:18:31,460

these conspiracy theories so I consider

416

00:18:40,500 --> 00:18:36,440

those individuals to be UFO nuts and you

417

00:18:45,090 --> 00:18:40,510

know different from your mainstream UFO

418

00:18:50,680 --> 00:18:45,100

interested individual or your mainstream

419

00:18:55,990 --> 00:18:50,690

witness to UFOs or mainstream contacting

420

00:18:58,480 --> 00:18:56,000

your abductee and stating you you know

421

00:19:00,100 --> 00:18:58,490

did most of the work earlier on to to

422

00:19:03,280 --> 00:19:00,110

show the world like hey you know what

423

00:19:05,140 --> 00:19:03,290

there is a way to prove that something's

424

00:19:08,470 --> 00:19:05,150

going on here without physical trace

425

00:19:09,970 --> 00:19:08,480

evidence you know or eyewitness reports

426

00:19:12,970 --> 00:19:09,980

you know it's it's in the documentation

427

00:19:16,480 --> 00:19:12,980

the government has ostensibly admitted

428

00:19:19,510 --> 00:19:16,490

it and you know that opened up a whole

429

00:19:21,880 --> 00:19:19,520

wide field of research that I don't

430

00:19:23,170 --> 00:19:21,890

think was you know really there before

431

00:19:25,630 --> 00:19:23,180

other than some you know well-written

432

00:19:29,860 --> 00:19:25,640

books that just you know it hadn't quite

433

00:19:32,980 --> 00:19:29,870

caught fire yet do you yeah I'm very

434

00:19:35,580 --> 00:19:32,990

pleased that we don't do research by

435

00:19:38,560 --> 00:19:35,590

Proclamation we do research by

436

00:19:41,220 --> 00:19:38,570

investigation and there is a difference

437

00:19:43,570 --> 00:19:41,230

and the key word for us is evidence

438

00:19:47,370 --> 00:19:43,580

stories aren't good enough we need

439

00:19:51,070 --> 00:19:47,380

evidence like I've been to 20 archives

440

00:19:54,400 --> 00:19:51,080

document archives that's where you get

441

00:19:57,100 --> 00:19:54,410

solid stuff you know stories are easy to

442

00:20:01,480 --> 00:19:57,110

come by science fiction has been written

443

00:20:06,100 --> 00:20:01,490

for a very long time but what we want is

444

00:20:08,350 --> 00:20:06,110

evidence and so it's the effort we're

445

00:20:11,799 --> 00:20:08,360

trying to push for people

446

00:20:14,470 --> 00:20:11,809

to gather evidence it's not just

447

00:20:16,390 --> 00:20:14,480

testimony testimonies part of it but you

448

00:20:18,100 --> 00:20:16,400

know in the physical trace cases we'd

449

00:20:21,160 --> 00:20:18,110

like to have measurements made of the

450

00:20:23,500 --> 00:20:21,170

characteristics of the soil that's been

451
00:20:26,440 --> 00:20:23,510
affected by the saucer that came down in

452
00:20:29,320 --> 00:20:26,450
that area we want analysis of

453
00:20:32,200 --> 00:20:29,330
photographs not just isn't that a neat

454
00:20:33,970 --> 00:20:32,210
picture of a flying saucer but what can

455
00:20:37,590 --> 00:20:33,980
we say when we look at it very carefully

456
00:20:42,070 --> 00:20:37,600
from a professional viewpoint and so

457
00:20:44,980 --> 00:20:42,080
it's become fascinating to see the

458
00:20:48,010 --> 00:20:44,990
distinction and there are fewer I think

459
00:20:51,990 --> 00:20:48,020
of the people who waved their hands as

460
00:20:55,180 --> 00:20:52,000
Catholics with conspiracy stuff and

461
00:20:58,480 --> 00:20:55,190
stories that they've heard I must say I

462
00:21:00,580 --> 00:20:58,490
was rather disappointed I read the

463
00:21:03,789 --> 00:21:00,590

proceedings on the last MUFON conference

464

00:21:07,390 --> 00:21:03,799

in Las Vegas it was about the secret

465

00:21:10,289 --> 00:21:07,400

space program and I read the proceedings

466

00:21:13,840 --> 00:21:10,299

all of papers and what was missing was

467

00:21:17,590 --> 00:21:13,850

evidence there were great stories but

468

00:21:20,370 --> 00:21:17,600

evidence I mean I can prove to you for

469

00:21:23,590 --> 00:21:20,380

example that the National Security

470

00:21:26,130 --> 00:21:23,600

Agency the NSA or is properly known as

471

00:21:31,570 --> 00:21:26,140

never says anything or no such agency

472

00:21:36,190 --> 00:21:31,580

Victor picker choice but we know that

473

00:21:40,120 --> 00:21:36,200

they released 156 pages of top-secret

474

00:21:41,799 --> 00:21:40,130

umbra UFO documents and the only trouble

475

00:21:44,260 --> 00:21:41,809

was you could read one sentence per page

476
00:21:46,120 --> 00:21:44,270
and yet I get people telling me all

477
00:21:48,580 --> 00:21:46,130
there is no secret materials and there's

478
00:21:50,530 --> 00:21:48,590
not classified material left about UFOs

479
00:21:53,890 --> 00:21:50,540
you can get anything these days

480
00:21:56,080 --> 00:21:53,900
that's nonsense I worked under security

481
00:21:59,080 --> 00:21:56,090
for 14 years I will guarantee you that

482
00:22:02,260 --> 00:21:59,090
secrets can be kept there's lots of

483
00:22:06,100 --> 00:22:02,270
stuff still classified what's basically

484
00:22:10,060 --> 00:22:06,110
went after the CIA the citizens against

485
00:22:12,130 --> 00:22:10,070
UFO secrecy for their UFO documents and

486
00:22:15,130 --> 00:22:12,140
first they released a few and then a

487
00:22:21,070 --> 00:22:15,140
listing and then finally we got over 700

488
00:22:22,210 --> 00:22:21,080

pages of secret or confidential CIA UFO

489

00:22:25,029 --> 00:22:22,220

documents

490

00:22:27,430 --> 00:22:25,039

heavily redacted and it took another

491

00:22:30,520 --> 00:22:27,440

several years before it could get them

492

00:22:33,190 --> 00:22:30,530

to release a bunch of top secret UFO

493

00:22:35,680 --> 00:22:33,200

documents they're all blocked out no

494

00:22:38,320 --> 00:22:35,690

cover-up well I'll tell ya I don't know

495

00:22:40,810 --> 00:22:38,330

what's underneath that black ink but

496

00:22:46,270 --> 00:22:40,820

scrape scraping it won't do it there's

497

00:22:48,310 --> 00:22:46,280

nothing necklace why you get Xerox

498

00:22:49,810 --> 00:22:48,320

copies of the originals they don't send

499

00:22:51,640 --> 00:22:49,820

you the originals I've had people say

500

00:22:53,350 --> 00:22:51,650

well why don't you just scrape off the

501
00:22:57,340 --> 00:22:53,360
black and see what's underneath well

502
00:23:00,970 --> 00:22:57,350
there ain't nothin underneath not on

503
00:23:05,020 --> 00:23:00,980
what we get so there's some certain

504
00:23:06,730 --> 00:23:05,030
mythology about UFOs which you know

505
00:23:08,919 --> 00:23:06,740
people choose to believe what they

506
00:23:11,770 --> 00:23:08,929
choose to believe regardless of the

507
00:23:13,750 --> 00:23:11,780
evidence but there is enormous evidence

508
00:23:15,990 --> 00:23:13,760
that's led me and I think happy to

509
00:23:18,730 --> 00:23:16,000
believe that some UFOs are

510
00:23:21,730 --> 00:23:18,740
extraterrestrial spacecraft that the

511
00:23:25,480 --> 00:23:21,740
government is putting forth a cosmic

512
00:23:27,779 --> 00:23:25,490
Watergate that we're dealing with proof

513
00:23:29,080 --> 00:23:27,789

that Earth is being visited by

514

00:23:31,539 --> 00:23:29,090

intelligently controlled

515

00:23:33,070 --> 00:23:31,549

extraterrestrial vehicles and we're

516

00:23:35,289 --> 00:23:33,080

dealing with one of the biggest stories

517

00:23:37,390 --> 00:23:35,299

of the millennium I don't say two

518

00:23:38,950 --> 00:23:37,400

millennia because then people start to

519

00:23:44,890 --> 00:23:38,960

argue about religion and I don't want to

520

00:23:46,270 --> 00:23:44,900

get involved you know and then you can

521

00:23:47,950 --> 00:23:46,280

cross over into the ancient aliens

522

00:23:50,700 --> 00:23:47,960

discussion and you know that's not

523

00:23:53,919 --> 00:23:50,710

really what we'll be going tonight

524

00:23:57,100 --> 00:23:53,929

Kathleen are you very familiar with the

525

00:24:00,100 --> 00:23:57,110

the Roswell incident I know that may not

526

00:24:03,340 --> 00:24:00,110

necessarily be your main area of focus

527

00:24:05,770 --> 00:24:03,350

but you know what what is your overall

528

00:24:09,909 --> 00:24:05,780

sense of what happened there was was

529

00:24:11,470 --> 00:24:09,919

there an actual alien crash I do believe

530

00:24:14,680 --> 00:24:11,480

there was and I think that it's

531

00:24:17,919 --> 00:24:14,690

important to place what happened in

532

00:24:21,010 --> 00:24:17,929

Roswell within the time frame of what

533

00:24:25,270 --> 00:24:21,020

was going on in this country and with

534

00:24:32,289 --> 00:24:25,280

our army Air Force at that time and on

535

00:24:35,560 --> 00:24:32,299

June 27 June 24th 1947 just a couple of

536

00:24:39,160 --> 00:24:35,570

weeks before the Roswell news pay

537

00:24:42,280 --> 00:24:39,170

per reported in its headlines that a

538

00:24:47,140 --> 00:24:42,290

flying disc had been recovered near

539

00:24:50,800 --> 00:24:47,150

Roswell Kenneth Arnold up in Washington

540

00:24:55,600 --> 00:24:50,810

the Cascade Mountains was out searching

541

00:25:00,790 --> 00:24:55,610

for a downed marine c-46 transport plane

542

00:25:03,460 --> 00:25:00,800

when he saw nine crescent-shaped disks

543

00:25:06,910 --> 00:25:03,470

one of those disks actually had a double

544

00:25:09,730 --> 00:25:06,920

Crescent on the back and it was they

545

00:25:12,790 --> 00:25:09,740

were highly unusual it was reported in

546

00:25:14,890 --> 00:25:12,800

the media it was even later determined

547

00:25:17,830 --> 00:25:14,900

that they were traveling nearly three

548

00:25:20,440 --> 00:25:17,840

times as fast as any plane in that time

549

00:25:25,660 --> 00:25:20,450

frame there were witnesses on the same

550

00:25:29,110 --> 00:25:25,670

day who saw vehicles in the air with

551
00:25:32,740 --> 00:25:29,120
similar descriptions and had reported

552
00:25:37,540 --> 00:25:32,750
that as well the American public became

553
00:25:39,460 --> 00:25:37,550
fascinated with this and really showed a

554
00:25:41,740 --> 00:25:39,470
lot of interest in what was going on

555
00:25:44,860 --> 00:25:41,750
people were out looking into the sky at

556
00:25:47,890 --> 00:25:44,870
night and more reports were made but

557
00:25:51,730 --> 00:25:47,900
there was a minister who told his

558
00:25:55,780 --> 00:25:51,740
congregation that this signaled the end

559
00:26:00,700 --> 00:25:55,790
of the earth and it upset a lot of

560
00:26:03,580 --> 00:26:00,710
people and so not many days after was

561
00:26:07,900 --> 00:26:03,590
only six days later Brigadier General

562
00:26:10,470 --> 00:26:07,910
Roger Ramey who's the commanding officer

563
00:26:15,250 --> 00:26:10,480

at the 8th Air Force in Fort Worth Texas

564

00:26:19,780 --> 00:26:15,260

the same general who worked on the

565

00:26:22,000 --> 00:26:19,790

Roswell crash came had a press

566

00:26:24,670 --> 00:26:22,010

conference with his chief intelligence

567

00:26:27,760 --> 00:26:24,680

officer and told the public not to worry

568

00:26:30,790 --> 00:26:27,770

that it was not an extraterrestrial

569

00:26:33,160 --> 00:26:30,800

craft or crafts that Kenneth Arnold

570

00:26:37,510 --> 00:26:33,170

observed but it was only weather

571

00:26:42,790 --> 00:26:37,520

phenomena so it wasn't long thereafter

572

00:26:48,090 --> 00:26:42,800

that Mac Brazel heard a noise at night

573

00:26:49,490 --> 00:26:48,100

and there were a lot of thunderstorms in

574

00:26:52,270 --> 00:26:49,500

Roswell

575

00:26:56,480 --> 00:26:52,280

time of the year a lot of loud clashing

576

00:26:59,480 --> 00:26:56,490

noises but he said that this was highly

577

00:27:05,720 --> 00:26:59,490

unusual that it was not thunder that he

578

00:27:08,630 --> 00:27:05,730

heard and so the next morning he and a

579

00:27:13,100 --> 00:27:08,640

little boy who was one of his neighbor's

580

00:27:16,280 --> 00:27:13,110

sons went out on their horses to explore

581

00:27:20,450 --> 00:27:16,290

to see what that was all about see if

582

00:27:25,730 --> 00:27:20,460

they could find any evidence and what he

583

00:27:29,060 --> 00:27:25,740

saw was a lot of evidence that something

584

00:27:32,240 --> 00:27:29,070

had fallen to the ground and it was

585

00:27:35,320 --> 00:27:32,250

scattered over a wide area there was a

586

00:27:39,880 --> 00:27:35,330

gouge in the soil and there were

587

00:27:44,720 --> 00:27:39,890

fragments of this material that had

588

00:27:46,580 --> 00:27:44,730

highly unusual properties in an area

589

00:27:49,790 --> 00:27:46,590

about three-quarters of a mile long and

590

00:27:52,310 --> 00:27:49,800

several hundred feet wide and he was

591

00:27:56,090 --> 00:27:52,320

having a problem because he was tending

592

00:27:59,780 --> 00:27:56,100

the Sheep out there and the sheep would

593

00:28:04,250 --> 00:27:59,790

not cross that area so he had to move

594

00:28:09,230 --> 00:28:04,260

the sheep around that area and then he

595

00:28:14,390 --> 00:28:09,240

went into a bar it was called a Wade bar

596

00:28:17,870 --> 00:28:14,400

in nearby Corona New Mexico and he had

597

00:28:20,330 --> 00:28:17,880

some pieces of that material with him he

598

00:28:22,670 --> 00:28:20,340

had seen weather balloons before he knew

599

00:28:25,030 --> 00:28:22,680

what they looked like but this was

600

00:28:30,590 --> 00:28:25,040

highly unusual had highly unusual

601
00:28:31,730 --> 00:28:30,600
properties yes yeah first break and

602
00:28:34,010 --> 00:28:31,740
we're speaking about highly unusual

603
00:28:36,140 --> 00:28:34,020
things this is Alan B Smith on the

604
00:28:41,900 --> 00:28:36,150
inception radio network this is

your host and tonight I am speaking with

Stanton Friedman and Kathleen Martin and

609
00:28:52,640 --> 00:28:50,130
thickness of the break was bulletproof

610
00:28:54,470 --> 00:28:52,650
by room

611
00:28:56,540 --> 00:28:54,480

xanthine what website can people find

616

00:29:13,130 --> 00:29:10,080

most of your books and works at triple w

617

00:29:18,350 --> 00:29:13,140

dot Stanton Friedman dot-com very easy

618

00:29:20,870 --> 00:29:18,360

and Friedman is FR i DM aen some people

619

00:29:26,870 --> 00:29:20,880

want to reverse the inee so you got to

620

00:29:33,169 --> 00:29:26,880

get it right it's triple w kathleen with

621

00:29:36,080 --> 00:29:33,179

a k - Mardon ma r de n calm alright

622

00:29:43,370 --> 00:29:36,090

fantastic so we left it off at finding

623

00:29:44,930 --> 00:29:43,380

debris that easily identified if it were

624

00:29:49,820 --> 00:29:44,940

a weather balloon

625

00:29:53,090 --> 00:29:49,830

but yes weather balloons fell from the

626
00:29:54,919 --> 00:29:53,100
sky frequently in that area so the

627
00:29:57,830 --> 00:29:54,929
people who lived in that area and

628
00:30:01,580 --> 00:29:57,840
especially people like Mac Brazel who

629
00:30:04,549 --> 00:30:01,590
was out working on a ranch would come

630
00:30:08,720 --> 00:30:04,559
across down weather balloons all the

631
00:30:11,510 --> 00:30:08,730
time so worried about the one important

632
00:30:14,360 --> 00:30:11,520
thing to the renter's was some of the

633
00:30:16,430 --> 00:30:14,370
cattle in especially the sheep tended to

634
00:30:18,140 --> 00:30:16,440
eat anything that was around and the

635
00:30:23,169 --> 00:30:18,150
last thing they wanted was any of their

636
00:30:27,020 --> 00:30:23,179
animals eating foil-like material from

637
00:30:28,940 --> 00:30:27,030
yes it was paper backed - right and that

638
00:30:31,940 --> 00:30:28,950

you know I think you make a really good

639

00:30:34,720 --> 00:30:31,950

point there because anybody who is into

640

00:30:37,720 --> 00:30:34,730

or is a farmer Rancher

641

00:30:40,549 --> 00:30:37,730

no matter what their education may be

642

00:30:43,730 --> 00:30:40,559

they have to have a certain amount of

643

00:30:47,060 --> 00:30:43,740

keen perception in order to do what they

644

00:30:48,290 --> 00:30:47,070

do well and knowing your environment and

645

00:30:50,530 --> 00:30:48,300

knowing the things that could hurt your

646

00:30:52,970 --> 00:30:50,540

animals hurt your crops things to avoid

647

00:30:56,570 --> 00:30:52,980

you know I would think you might not get

648

00:30:59,290 --> 00:30:56,580

any keener eyes than this the you know

649

00:31:01,690 --> 00:30:59,300

the likes that we were speaking of here

650

00:31:04,840 --> 00:31:01,700

certainly more than the usual city guys

651
00:31:07,240 --> 00:31:04,850
absolutely I know people here that are

652
00:31:11,830 --> 00:31:07,250
you leave the city so the woods scared

653
00:31:16,210 --> 00:31:11,840
them let's continue on with where he

654
00:31:20,820 --> 00:31:16,220
left off there yes so somebody told him

655
00:31:24,970 --> 00:31:20,830
that if he could take that wreckage to

656
00:31:27,370 --> 00:31:24,980
the Air Force or the army actually base

657
00:31:32,410 --> 00:31:27,380
in Roswell that he would be able to

658
00:31:37,000 --> 00:31:32,420
collect a \$3,000 reward so on July 6th

659
00:31:41,440 --> 00:31:37,010
he drove that 75 miles from his place to

660
00:31:44,650 --> 00:31:41,450
Roswell and he got in touch with Jesse

661
00:31:49,200 --> 00:31:44,660
Marcel who was the base intelligence

662
00:31:53,620 --> 00:31:49,210
officer and met with him and showed him

663
00:32:02,290 --> 00:31:53,630

the wreckage that he had and then later

664

00:32:05,490 --> 00:32:02,300

that day he and Jesse Marcel and also a

665

00:32:08,710 --> 00:32:05,500

man by the name of Cavett

666

00:32:13,090 --> 00:32:08,720

who was also a counterintelligence

667

00:32:18,280 --> 00:32:13,100

officer at the base may made the trip

668

00:32:22,570 --> 00:32:18,290

back to the ranch and Jesse Marcel was

669

00:32:28,540 --> 00:32:22,580

driving his vehicle officer Cavett was

670

00:32:30,370 --> 00:32:28,550

in an army vehicle and Jesse Marcel was

671

00:32:40,060 --> 00:32:30,380

in his vehicle I believe I'm not

672

00:32:45,160 --> 00:32:40,070

positive about not Jesse Marcel boy yes

673

00:32:47,140 --> 00:32:45,170

Mac Brazel Mac Brazel yeah I believe was

674

00:32:53,200 --> 00:32:47,150

driving his vehicle but I'm not positive

675

00:32:55,570 --> 00:32:53,210

about that so they arrived okay

676

00:32:57,790 --> 00:32:55,580

thanks Stan he knows a lot more about it

677

00:33:00,610 --> 00:32:57,800

than I do he had was the original

678

00:33:03,730 --> 00:33:00,620

investigator on this and I have learned

679

00:33:06,820 --> 00:33:03,740

what I could from Stan and from reading

680

00:33:08,980 --> 00:33:06,830

several books on it but and I have

681

00:33:12,460 --> 00:33:08,990

written a little bit about it as well in

682

00:33:15,970 --> 00:33:12,470

some of our books but I am by no means

683

00:33:19,039 --> 00:33:15,980

an expert but as the story goes they

684

00:33:23,989 --> 00:33:19,049

went back out to the

685

00:33:27,289 --> 00:33:23,999

the two army men spent the night in a

686

00:33:30,259 --> 00:33:27,299

little shack or house building at the

687

00:33:32,779 --> 00:33:30,269

ranch and then the next day they went

688

00:33:36,549 --> 00:33:32,789

out to the area where the debris was

689

00:33:40,969 --> 00:33:36,559

they collected some of this to brief

690

00:33:47,139 --> 00:33:40,979

Jesse Marcel filled up his vehicle with

691

00:33:51,499 --> 00:33:47,149

it and he drove it back to buy his house

692

00:33:55,519 --> 00:33:51,509

before he went to the base and officer

693

00:34:00,949 --> 00:33:55,529

Cavett did the same but he did not stop

694

00:34:05,319 --> 00:34:00,959

at his house and then Jesse Marcel took

695

00:34:08,480 --> 00:34:05,329

some of the remnants into his kitchen

696

00:34:12,079 --> 00:34:08,490

laid it out on the floor in front of his

697

00:34:14,749 --> 00:34:12,089

wife and his 11 year old son and they

698

00:34:17,769 --> 00:34:14,759

had the opportunity to see it too

699

00:34:20,629 --> 00:34:17,779

it was metallic pajama debris with

700

00:34:24,739 --> 00:34:20,639

properties unusual properties like

701
00:34:32,419 --> 00:34:24,749
memory metal fiber optics there were I

702
00:34:33,829 --> 00:34:32,429
beam fragments and also his son Rhett

703
00:34:37,339 --> 00:34:33,839
later wrote a book about it

704
00:34:39,889 --> 00:34:37,349
he became a medical doctor a flight

705
00:34:43,220 --> 00:34:39,899
surgeon and he wrote the book called the

706
00:34:46,039 --> 00:34:43,230
Roswell legacy about his father and

707
00:34:49,399 --> 00:34:46,049
about his memories of growing up in that

708
00:34:53,389 --> 00:34:49,409
family and what he saw when he was 11 an

709
00:34:57,589 --> 00:34:53,399
11 year old boy the story ended up being

710
00:34:59,710 --> 00:34:57,599
carried to the radio station and Stan

711
00:35:02,989 --> 00:34:59,720
would you like to pick up from there

712
00:35:07,099 --> 00:35:02,999
well yeah they made the announcement at

713
00:35:10,670 --> 00:35:07,109

the radio station and press the press

714

00:35:11,960 --> 00:35:10,680

story went out from the base and it hit

715

00:35:15,950 --> 00:35:11,970

the wire service

716

00:35:19,279 --> 00:35:15,960

it went from Roswell to Albuquerque and

717

00:35:21,579 --> 00:35:19,289

then Albuquerque had access to the news

718

00:35:25,430 --> 00:35:21,589

wire and I went all over the country

719

00:35:27,620 --> 00:35:25,440

probably as much bigness as anything

720

00:35:29,749 --> 00:35:27,630

else because of Kenneth Arnold's

721

00:35:31,830 --> 00:35:29,759

sighting two weeks before there were

722

00:35:35,070 --> 00:35:31,840

hundreds of sightings in that intervene

723

00:35:37,680 --> 00:35:35,080

time pray so suddenly those are all of

724

00:35:42,390 --> 00:35:37,690

things in the sky or near the ground but

725

00:35:45,750 --> 00:35:42,400

suddenly one crashed wow we didn't know

726

00:35:48,090 --> 00:35:45,760

what it was but it didn't Jesse had seen

727

00:35:49,860 --> 00:35:48,100

crashed airplanes and there are certain

728

00:35:52,050 --> 00:35:49,870

things you expect to find in crash

729

00:35:54,120 --> 00:35:52,060

airplanes first of all he makes a big

730

00:35:57,570 --> 00:35:54,130

hole in the ground a crater if you will

731

00:36:01,320 --> 00:35:57,580

when they go in second you find standard

732

00:36:05,580 --> 00:36:01,330

stuff vacuum tubes little tag saying

733

00:36:08,700 --> 00:36:05,590

made in Oshkosh you know there's nothing

734

00:36:10,470 --> 00:36:08,710

strange about airplane wreckage pieces

735

00:36:12,720 --> 00:36:10,480

of metal from the parts of the airplane

736

00:36:15,000 --> 00:36:12,730

and the equipment that's onboard but

737

00:36:18,150 --> 00:36:15,010

there wasn't anything like that that's

738

00:36:19,560 --> 00:36:18,160

when when I talked to Jesse that was one

739

00:36:23,160 --> 00:36:19,570

of the things he stressed there wasn't

740

00:36:25,920 --> 00:36:23,170

anything conventional out there and he

741

00:36:28,320 --> 00:36:25,930

suggested that there must have been a

742

00:36:31,590 --> 00:36:28,330

mid-air explosion for two reasons the

743

00:36:34,890 --> 00:36:31,600

wreckage covered such a large area he

744

00:36:38,040 --> 00:36:34,900

had seemed crashed aircraft and second

745

00:36:41,790 --> 00:36:38,050

there was so much of it and it was so

746

00:36:43,680 --> 00:36:41,800

different so right away that this wasn't

747

00:36:44,820 --> 00:36:43,690

something conventional but a gradually

748

00:36:45,450 --> 00:36:44,830

they thought well maybe it's something

749

00:36:50,670 --> 00:36:45,460

weird

750

00:36:54,360 --> 00:36:50,680

Stan they didn't have mylar balloons

751
00:36:56,730 --> 00:36:54,370
those silver foil e-type balloons in

752
00:37:00,180 --> 00:36:56,740
that time frame did they they only had

753
00:37:04,500 --> 00:37:00,190
neoprene balloons so that couldn't

754
00:37:10,700 --> 00:37:04,510
possibly be mistaken for memory metal no

755
00:37:17,340 --> 00:37:14,210
well there were no engines I mean if

756
00:37:19,980 --> 00:37:17,350
there weren't things that you'd expected

757
00:37:24,510 --> 00:37:19,990
to find if it was an airplane certainly

758
00:37:28,050 --> 00:37:24,520
you know wings and tail and engines but

759
00:37:31,040 --> 00:37:28,060
with a balloon where's all this

760
00:37:37,980 --> 00:37:31,050
lightweight metal coming from you know

761
00:37:39,870 --> 00:37:37,990
balloons I like one of the pieces of one

762
00:37:42,210 --> 00:37:39,880
of the things that shows up is a picture

763
00:37:44,490 --> 00:37:42,220

of general Ramey and Colonel Thomas

764

00:37:47,870 --> 00:37:44,500

Jefferson DuBose

765

00:37:52,590 --> 00:37:47,880

who was Raimi's assistant if you will

766

00:37:54,720 --> 00:37:52,600

and they they were with the stuff and

767

00:37:56,580 --> 00:37:54,730

Raimi is holding a piece of paper in his

768

00:38:01,770 --> 00:37:56,590

hand because they were very good cameras

769

00:38:03,870 --> 00:38:01,780

a 4x5 press cameras you can read some of

770

00:38:07,200 --> 00:38:03,880

the words and it looks like victims of

771

00:38:09,180 --> 00:38:07,210

the wreck and anybody ever hear of a

772

00:38:11,670 --> 00:38:09,190

balloon and could be said to have

773

00:38:12,840 --> 00:38:11,680

victims of the wreck you know that makes

774

00:38:16,500 --> 00:38:12,850

no sense at all

775

00:38:18,660 --> 00:38:16,510

so there were tantalizing flings but

776

00:38:21,930 --> 00:38:18,670

remember the military took care of this

777

00:38:24,150 --> 00:38:21,940

within two days I mean the first days

778

00:38:26,940 --> 00:38:24,160

headline army captures flying saucer on

779

00:38:30,300 --> 00:38:26,950

ranch and Roswell region the next day

780

00:38:34,500 --> 00:38:30,310

general empties Roswell foster end of it

781

00:38:38,130 --> 00:38:34,510

yes and everybody forgot about it yeah

782

00:38:41,760 --> 00:38:38,140

until I got involved I hate to say how

783

00:38:46,310 --> 00:38:41,770

long later 1978 for goodness sakes this

784

00:38:48,570 --> 00:38:46,320

happened in 1947 and I stumbled across

785

00:38:50,910 --> 00:38:48,580

you know I'm not going to say I was

786

00:38:52,650 --> 00:38:50,920

looking for stories about crash saucer

787

00:38:54,570 --> 00:38:52,660

not at all

788

00:38:56,850 --> 00:38:54,580

I might as well tell you how it happened

789

00:38:58,110 --> 00:38:56,860

I was in Baton Rouge Louisiana giving a

790

00:39:02,220 --> 00:38:58,120

lecture at Louisiana State University

791

00:39:03,870 --> 00:39:02,230

and earlier in the day I was brought by

792

00:39:05,640 --> 00:39:03,880

some of the students to the big

793

00:39:07,980 --> 00:39:05,650

television station in town I was

794

00:39:10,380 --> 00:39:07,990

supposed to do three interviews and I

795

00:39:13,260 --> 00:39:10,390

done the first two and the third

796

00:39:15,360 --> 00:39:13,270

reporter was nowhere to be seen so the

797

00:39:19,140 --> 00:39:15,370

station managers give me coffee he's

798

00:39:20,430 --> 00:39:19,150

talking to me and out of the blue he

799

00:39:24,510 --> 00:39:20,440

says you know the guy you ought to talk

800

00:39:28,670 --> 00:39:24,520

to is Jesse Marcel and being the great

801
00:39:32,490 --> 00:39:28,680
researcher I am I said who is he well

802
00:39:34,710 --> 00:39:32,500
his claim to fame according to the

803
00:39:36,690 --> 00:39:34,720
television station guy was he found

804
00:39:38,190 --> 00:39:36,700
wreckage or one of those saucers you're

805
00:39:42,060 --> 00:39:38,200
interested in when he was in the

806
00:39:44,280 --> 00:39:42,070
military that got my attention because

807
00:39:45,900 --> 00:39:44,290
he was being serious there was nobody

808
00:39:47,670 --> 00:39:45,910
around he wasn't telling stories or

809
00:39:49,970 --> 00:39:47,680
anything like that and I said what do

810
00:39:52,020 --> 00:39:49,980
you know about him he lives in Houma

811
00:39:53,880 --> 00:39:52,030
that didn't tell me a darn thing I

812
00:39:56,820 --> 00:39:53,890
didn't know where home it's one of the

813
00:39:57,930 --> 00:39:56,830

major cities in Louisiana but is it

814

00:40:01,859 --> 00:39:57,940

great guy rolled

815

00:40:05,940 --> 00:40:01,869

ham-radio buddies what are you going to

816

00:40:10,950 --> 00:40:05,950

talk to him she's yeah just me being

817

00:40:13,140 --> 00:40:10,960

curious I guess and I so the next day I

818

00:40:15,059 --> 00:40:13,150

was busy that day and things went very

819

00:40:17,099 --> 00:40:15,069

well what encouraged me was things went

820

00:40:19,349 --> 00:40:17,109

very well at the lecture that I gave at

821

00:40:20,760 --> 00:40:19,359

LSU the next morning I was at the

822

00:40:23,339 --> 00:40:20,770

airport oh really I was going someplace

823

00:40:27,059 --> 00:40:23,349

else and I decide I gotta try to call

824

00:40:28,349 --> 00:40:27,069

that Jesse Marcel and you know surprised

825

00:40:30,089 --> 00:40:28,359

kids when I said I called information

826

00:40:31,620 --> 00:40:30,099

what do you mean didn't should look it

827

00:40:37,460 --> 00:40:31,630

up on your computer I didn't have a

828

00:40:39,690 --> 00:40:37,470

computer 78 you could talk to operators

829

00:40:41,160 --> 00:40:39,700

which is nice because they know

830

00:40:45,750 --> 00:40:41,170

something about the area you're talking

831

00:40:51,329 --> 00:40:45,760

about and I was looking for Jesse Marcel

832

00:40:53,040 --> 00:40:51,339

and homo wherever it was and so there

833

00:40:55,710 --> 00:40:53,050

was a number for him I called him he

834

00:40:57,390 --> 00:40:55,720

told me a story and people say why did

835

00:40:58,140 --> 00:40:57,400

he talk to you I thought that was all

836

00:41:00,030 --> 00:40:58,150

classified

837

00:41:01,950 --> 00:41:00,040

I said well his name was in the

838

00:41:05,609 --> 00:41:01,960

newspapers his picture was in many

839

00:41:08,670 --> 00:41:05,619

newspapers around the world Chinese

840

00:41:11,220 --> 00:41:08,680

newspapers even had Jesse's picture and

841

00:41:12,990 --> 00:41:11,230

so that got me intrigued I was very

842

00:41:14,430 --> 00:41:13,000

impressed with Jesse probably because

843

00:41:17,520 --> 00:41:14,440

I'm nuclear and this was the only

844

00:41:20,190 --> 00:41:17,530

nuclear that the debunkers always forget

845

00:41:23,280 --> 00:41:20,200

to tell you this was the only group in

846

00:41:27,480 --> 00:41:23,290

the world that had nuclear weapons at

847

00:41:30,050 --> 00:41:27,490

that time the first Soviet nuclear

848

00:41:34,800 --> 00:41:30,060

weapon wasn't explode until 1949 this is

849

00:41:39,599 --> 00:41:34,810

1947 and it was exploded carried by the

850

00:41:41,370 --> 00:41:39,609

guys the 509 at Roswell so this wasn't

851
00:41:44,160 --> 00:41:41,380
just a bunch of guys with nothing better

852
00:41:47,400 --> 00:41:44,170
to do but make up stories they were the

853
00:41:51,300 --> 00:41:47,410
first line of offense if you will as the

854
00:41:56,220 --> 00:41:51,310
Cold War were on that's what was our

855
00:41:58,079 --> 00:41:56,230
retaliatory place was Roswell the only

856
00:41:59,550 --> 00:41:58,089
atomic bombing group in the world they

857
00:42:02,130 --> 00:41:59,560
dropped the bombs in Hiroshima and

858
00:42:04,589 --> 00:42:02,140
Nagasaki and two more in operation

859
00:42:06,270 --> 00:42:04,599
crossroads so it's very important to

860
00:42:07,620 --> 00:42:06,280
realize we're not talking about Dinks

861
00:42:10,079 --> 00:42:07,630
with nothing better to do

862
00:42:11,650 --> 00:42:10,089
they had their fingers on the button as

863
00:42:16,510 --> 00:42:11,660

they'd like to say - hey

864

00:42:21,670 --> 00:42:16,520

and so I really got hooked by Jesse and

865

00:42:23,320 --> 00:42:21,680

his story and shared the story with bill

866

00:42:27,190 --> 00:42:23,330

mortar researcher with whom I had worked

867

00:42:30,130 --> 00:42:27,200

before within the next year we found 62

868

00:42:31,810 --> 00:42:30,140

people connected with Roswell and of

869

00:42:34,960 --> 00:42:31,820

course today the none of the original

870

00:42:39,130 --> 00:42:34,970

well although one original witnesses

871

00:42:41,980 --> 00:42:39,140

left a lot there were a lot of them but

872

00:42:46,120 --> 00:42:41,990

it's 70 years later so we had to make

873

00:42:49,060 --> 00:42:46,130

hay while was sunshine yeah it's amazing

874

00:42:52,840 --> 00:42:49,070

and I was speaking to Kevin Dee Randall

875

00:42:55,440 --> 00:42:52,850

in the last podcast and we had mentioned

876

00:42:57,430 --> 00:42:55,450

the same thing about using telephones

877

00:42:59,290 --> 00:42:57,440

because I grew up through the 80s and

878

00:43:02,680 --> 00:42:59,300

90s I remember when you actually could

879

00:43:05,170 --> 00:43:02,690

speak to an operator and sometimes that

880

00:43:06,430 --> 00:43:05,180

was actually more efficient than trying

881

00:43:09,400 --> 00:43:06,440

to use the internet because it was a

882

00:43:11,590 --> 00:43:09,410

more trusting time so you can call an

883

00:43:14,530 --> 00:43:11,600

area an operator or say oh that's Joe

884

00:43:16,540 --> 00:43:14,540

so-and-so down the street and you know

885

00:43:21,370 --> 00:43:16,550

you could you could get information that

886

00:43:23,740 --> 00:43:21,380

way so it was sometimes yeah well

887

00:43:25,510 --> 00:43:23,750

they've worked and kept me busy in the

888

00:43:28,260 --> 00:43:25,520

next year after that incidentally after

889

00:43:30,760 --> 00:43:28,270

those first 62 we found 30 more with

890

00:43:31,120 --> 00:43:30,770

people who were at the basin to time and

891

00:43:34,270 --> 00:43:31,130

sport

892

00:43:36,850 --> 00:43:34,280

remember Roswell Army Airfield which

893

00:43:38,950 --> 00:43:36,860

later became Walker Air Force Base was a

894

00:43:40,270 --> 00:43:38,960

major installation there were thousands

895

00:43:43,300 --> 00:43:40,280

of people who worked there

896

00:43:44,800 --> 00:43:43,310

they had big bombers ready to deliver

897

00:43:48,040 --> 00:43:44,810

her atomic thoughts

898

00:43:49,690 --> 00:43:48,050

everybody had a security clearance it's

899

00:43:52,390 --> 00:43:49,700

a very special place now I should say

900

00:43:56,440 --> 00:43:52,400

something about Roswell it's in the

901
00:43:59,470 --> 00:43:56,450
middle of nowhere and that's important

902
00:44:01,180 --> 00:43:59,480
because that was one of the reasons it

903
00:44:04,690 --> 00:44:01,190
was there is that there were a lot of

904
00:44:06,580 --> 00:44:04,700
people around remember New Mexico was

905
00:44:09,310 --> 00:44:06,590
where the first atomic bomb was exploded

906
00:44:12,760 --> 00:44:09,320
at Trinity site you certainly don't want

907
00:44:14,770 --> 00:44:12,770
people nearby then New Mexico was the

908
00:44:16,810 --> 00:44:14,780
place where white sands Muslim Rangers

909
00:44:18,010 --> 00:44:16,820
firing missiles all over the place again

910
00:44:21,070 --> 00:44:18,020
you don't want to have a lot of people

911
00:44:23,580 --> 00:44:21,080
around and you want to be able to keep

912
00:44:25,690 --> 00:44:23,590
your eyes open for Russian spies as well

913
00:44:27,550 --> 00:44:25,700

so

914

00:44:29,830 --> 00:44:27,560

Roswell is 200 miles from Amarillo

915

00:44:33,010 --> 00:44:29,840

totter mouth from Albuquerque Tiger

916

00:44:35,520 --> 00:44:33,020

Moths from El Paso if you're there it's

917

00:44:39,100 --> 00:44:35,530

cuz you want to be there and I must say

918

00:44:41,620 --> 00:44:39,110

and we were there at the annual

919

00:44:45,250 --> 00:44:41,630

celebration the Roswell festival this

920

00:44:47,050 --> 00:44:45,260

past year over two hundred and four

921

00:44:48,640 --> 00:44:47,060

thousand people visited the

922

00:44:52,000 --> 00:44:48,650

International UFO Museum and Research

923

00:44:54,970 --> 00:44:52,010

Center in Roswell the populations of

924

00:44:56,800 --> 00:44:54,980

cities about fifty thousand so you know

925

00:44:58,870 --> 00:44:56,810

it's the major tourist attraction in the

926

00:45:01,150 --> 00:44:58,880

whole state so and what was our

927

00:45:03,310 --> 00:45:01,160

population if do you recall you know in

928

00:45:06,670 --> 00:45:03,320

nineteen twenty five thousand twenty

929

00:45:09,790 --> 00:45:06,680

five thousand that's lost that's when

930

00:45:14,740 --> 00:45:09,800

the base was open back then it's no

931

00:45:16,210 --> 00:45:14,750

longer open it was in the military well

932

00:45:17,980 --> 00:45:16,220

you know it was closed for an

933

00:45:21,940 --> 00:45:17,990

interesting reason New Mexico didn't

934

00:45:25,270 --> 00:45:21,950

vote for Lyndon Johnson in 1964 so he

935

00:45:30,570 --> 00:45:25,280

closed the lace and moved it to of all

936

00:45:38,110 --> 00:45:34,630

airfield are you saying that was a boost

937

00:45:39,580 --> 00:45:38,120

in I was totally a political move but

938

00:45:43,330 --> 00:45:39,590

who was more political than Lyndon

939

00:45:45,160 --> 00:45:43,340

Johnson they had done it was a great

940

00:45:46,900 --> 00:45:45,170

place to have an airbase the German

941

00:45:49,840 --> 00:45:46,910

pilots used to come over and fly there

942

00:45:51,370 --> 00:45:49,850

to there no mountains close by it's at

943

00:45:56,410 --> 00:45:51,380

high altitude the thirty five hundred

944

00:45:58,030 --> 00:45:56,420

feet and clear skies you know it's and

945

00:46:01,030 --> 00:45:58,040

they've got a thirteen thousand foot

946

00:46:04,870 --> 00:46:01,040

runway there which is very large believe

947

00:46:08,170 --> 00:46:04,880

me but Lyndon closed it tilt no one in

948

00:46:12,580 --> 00:46:08,180

fact that it's a funny part of the story

949

00:46:14,560 --> 00:46:12,590

really uh and you know he was punishing

950

00:46:18,550 --> 00:46:14,570

New Mexico for not voting for him but

951
00:46:22,570 --> 00:46:18,560
that was Linden's way what you know the

952
00:46:26,050 --> 00:46:22,580
the base of the story of Roswell I had

953
00:46:28,330 --> 00:46:26,060
had a second an earlier attempt at

954
00:46:30,490 --> 00:46:28,340
finding out more I ran across a witness

955
00:46:32,800 --> 00:46:30,500
who had had a great case and he said you

956
00:46:35,500 --> 00:46:32,810
ought to talk to my mom so I did her

957
00:46:37,450 --> 00:46:35,510
name was Lydia sleppy she was based in

958
00:46:38,570 --> 00:46:37,460
Albuquerque and she did have a good

959
00:46:41,030 --> 00:46:38,580
sighting and she's the

960
00:46:43,370 --> 00:46:41,040
first one who told me about there was a

961
00:46:45,050 --> 00:46:43,380
story from their radio affiliates he

962
00:46:47,990 --> 00:46:45,060
worked at a radio station in Albuquerque

963
00:46:50,870 --> 00:46:48,000

there Roswell affiliate she took the

964

00:46:54,380 --> 00:46:50,880

call from some arroz was saying that

965

00:46:57,410 --> 00:46:54,390

there had been a crash of a saucer and

966

00:46:59,090 --> 00:46:57,420

the military was carrying it away and

967

00:47:01,910 --> 00:46:59,100

when she started to put that out on the

968

00:47:04,370 --> 00:47:01,920

wire was interrupted supposedly and the

969

00:47:06,470 --> 00:47:04,380

FBI said discontinue this story and she

970

00:47:07,160 --> 00:47:06,480

asked the guy down in ron't row what

971

00:47:11,480 --> 00:47:07,170

should I do

972

00:47:14,140 --> 00:47:11,490

discontinue it stopped it when the

973

00:47:17,300 --> 00:47:14,150

government spoke you listened back then

974

00:47:20,810 --> 00:47:17,310

yeah I mean and I guess maybe that

975

00:47:22,640 --> 00:47:20,820

explains part of the psychology of not

976

00:47:25,970 --> 00:47:22,650

following up on this because it really

977

00:47:29,750 --> 00:47:25,980

is a wonder because how many times has a

978

00:47:32,900 --> 00:47:29,760

newspaper legitimately put on the

979

00:47:35,990 --> 00:47:32,910

headline you know a UFO crash I would

980

00:47:38,180 --> 00:47:36,000

say since then maybe never

981

00:47:41,510 --> 00:47:38,190

unless it's you know tabloid well there

982

00:47:46,430 --> 00:47:41,520

are a few others there was a crash in

983

00:47:49,430 --> 00:47:46,440

Aztec New Mexico did it make headline

984

00:47:51,380 --> 00:47:49,440

news I don't think so well it there were

985

00:47:52,880 --> 00:47:51,390

stories but they weren't they didn't go

986

00:47:55,730 --> 00:47:52,890

around the country the way of the

987

00:48:04,730 --> 00:47:55,740

Roswell story did they put the kibosh on

988

00:48:06,980 --> 00:48:04,740

that very quickly since then but because

989

00:48:09,770 --> 00:48:06,990

it was a little bit sloppy in those

990

00:48:11,360 --> 00:48:09,780

earlier days you know why why weren't

991

00:48:12,890 --> 00:48:11,370

there people just you know gnawing at

992

00:48:14,870 --> 00:48:12,900

the bit and fighting at the bit you know

993

00:48:16,970 --> 00:48:14,880

just trying things wait a minute how did

994

00:48:19,900 --> 00:48:16,980

they backtrack on the story and you know

995

00:48:25,670 --> 00:48:19,910

where are the Bulldog investigators then

996

00:48:30,170 --> 00:48:25,680

well until I got involved Bronto was

997

00:48:35,810 --> 00:48:30,180

mentioned I think twice in UFO

998

00:48:38,660 --> 00:48:35,820

literature between 47 and 78 it just

999

00:48:43,280 --> 00:48:38,670

wasn't there was a one guy did a study

1000

00:48:46,910 --> 00:48:43,290

of the sightings of 1947 UFO sightings

1001

00:48:52,220 --> 00:48:46,920

and did all report on it for a nightcap

1002

00:48:57,319 --> 00:48:52,230

and there's one paragraph on Roswell and

1003

00:48:58,910 --> 00:48:57,329

dismisses it as a hoax that was it so

1004

00:49:00,980 --> 00:48:58,920

why would anybody else look for it you

1005

00:49:03,829 --> 00:49:00,990

know and besides who wants to go to rise

1006

00:49:06,020 --> 00:49:03,839

well it's not in the middle of nowhere I

1007

00:49:07,550 --> 00:49:06,030

love going to Ross I Love New Mexico

1008

00:49:11,120 --> 00:49:07,560

that's that's one of our favorite uh

1009

00:49:13,640 --> 00:49:11,130

little vacation getaway well I like it

1010

00:49:16,579 --> 00:49:13,650

too I mean I grew up in New Jersey of

1011

00:49:21,560 --> 00:49:16,589

course I'd like me to and I'm speaking

1012

00:49:24,099 --> 00:49:21,570

from New Jersey right now so yeah that

1013

00:49:27,980 --> 00:49:24,109

that wide-open space you know the the

1014

00:49:29,660 --> 00:49:27,990

sunrise is just it's so grounding at

1015

00:49:31,430 --> 00:49:29,670

least for me coming from the Northeast

1016

00:49:32,170 --> 00:49:31,440

here and then living in New York and in

1017

00:49:34,579 --> 00:49:32,180

New Jersey

1018

00:49:37,450 --> 00:49:34,589

I'll tell you one time going into

1019

00:49:39,620 --> 00:49:37,460

Albuquerque the pilot on the plane said

1020

00:49:42,730 --> 00:49:39,630

the business I'm sorry folks the

1021

00:49:49,670 --> 00:49:42,740

visibility is only a hundred miles today

1022

00:49:52,849 --> 00:49:49,680

you can't see ten miles in Jersey for

1023

00:49:56,420 --> 00:49:52,859

yourself when did you you know find out

1024

00:49:59,690 --> 00:49:56,430

about the Roswell incident and garner

1025

00:50:02,329 --> 00:49:59,700

your own interest in it I found out

1026

00:50:07,420 --> 00:50:02,339

about Roswell when I was a fan of

1027

00:50:10,940 --> 00:50:07,430

Stanton Friedman and was attending MUFON

1028

00:50:14,240 --> 00:50:10,950

symposiums and Stanton spoke at the

1029

00:50:18,980 --> 00:50:14,250

MUFON symposium about the Roswell crash

1030

00:50:22,450 --> 00:50:18,990

and his investigation and showed some of

1031

00:50:26,599 --> 00:50:22,460

his evidence and I was immediately

1032

00:50:29,599 --> 00:50:26,609

enthralled with the idea of of this

1033

00:50:34,010 --> 00:50:29,609

crash that actually happened and was

1034

00:50:37,280 --> 00:50:34,020

covered up by the government and one of

1035

00:50:41,890 --> 00:50:37,290

my favorite stories is what happened

1036

00:50:45,650 --> 00:50:41,900

when Jesse Marcel took this evidence

1037

00:50:50,210 --> 00:50:45,660

into general Rama's office at the 8th

1038

00:50:52,760 --> 00:50:50,220

Air Force Office and Fort Worth and he

1039

00:50:55,370 --> 00:50:52,770

said that what he did is he laid the

1040

00:50:59,120 --> 00:50:55,380

samples that he had taken with him out

1041

00:51:01,819 --> 00:50:59,130

on Rama's desk and then he was taken up

1042

00:51:04,819 --> 00:51:01,829

to the map room and asked to point out

1043

00:51:05,790 --> 00:51:04,829

the location of where the debris was

1044

00:51:08,370 --> 00:51:05,800

found

1045

00:51:11,790 --> 00:51:08,380

and that when he returned to Rama's

1046

00:51:14,220 --> 00:51:11,800

office the debris was missing and it had

1047

00:51:17,580 --> 00:51:14,230

been replaced by a fallen weather

1048

00:51:21,600 --> 00:51:17,590

balloon and then the photographer's came

1049

00:51:24,240 --> 00:51:21,610

in and took photographs of this weather

1050

00:51:28,230 --> 00:51:24,250

balloon that was obviously a weather

1051
00:51:31,140 --> 00:51:28,240
balloon and that is what they used in

1052
00:51:31,830 --> 00:51:31,150
the newspaper articles as part of the

1053
00:51:34,620 --> 00:51:31,840
cover-up

1054
00:51:39,150 --> 00:51:34,630
it was pretty insulting to Jesse Marcel

1055
00:51:42,300 --> 00:51:39,160
to say that a man who had such a high

1056
00:51:47,490 --> 00:51:42,310
position lieutenant in in the Army Air

1057
00:51:54,090 --> 00:51:47,500
Force I mean sorry major that's correct

1058
00:51:58,530 --> 00:51:54,100
and who was responsible for these

1059
00:52:01,830 --> 00:51:58,540
nuclear weapons was not able to identify

1060
00:52:04,020 --> 00:52:01,840
a common weather balloon that was I

1061
00:52:08,640 --> 00:52:04,030
can't imagine what he must have gone

1062
00:52:13,020 --> 00:52:08,650
through having to keep his mouth closed

1063
00:52:16,920 --> 00:52:13,030

it was ordered and ordered and looked

1064

00:52:20,640 --> 00:52:16,930

like an idiot to just look like an idiot

1065

00:52:23,250 --> 00:52:20,650

which he definitely was not but for the

1066

00:52:27,180 --> 00:52:23,260

higher cause right yes for the higher

1067

00:52:30,390 --> 00:52:27,190

cause mm-hmm and you know oftentimes

1068

00:52:33,150 --> 00:52:30,400

skeptics will use Occam's razor as an

1069

00:52:35,820 --> 00:52:33,160

argument in other two explanations for

1070

00:52:37,770 --> 00:52:35,830

something the simpler one is usually the

1071

00:52:40,170 --> 00:52:37,780

better one and you know if I could

1072

00:52:42,270 --> 00:52:40,180

extrapolate that a little bit further it

1073

00:52:46,290 --> 00:52:42,280

seems to me you know following this over

1074

00:52:48,710 --> 00:52:46,300

the past twenty something years that

1075

00:52:51,330 --> 00:52:48,720

that principle actually works and better

1076
00:52:54,450 --> 00:52:51,340
for the work stand that you've done and

1077
00:52:57,750 --> 00:52:54,460
other ufologists because the skeptics

1078
00:52:59,610 --> 00:52:57,760
are trying so hard to come up with an

1079
00:53:02,580 --> 00:52:59,620
alternative explanation I mean they're

1080
00:53:06,390 --> 00:53:02,590
really reaching often and you know

1081
00:53:08,760 --> 00:53:06,400
contradicting themselves remember rule

1082
00:53:12,770 --> 00:53:08,770
number one for debunkers is don't bother

1083
00:53:15,090 --> 00:53:12,780
me with the facts my mind's made up

1084
00:53:19,710 --> 00:53:15,100
something that the skeptics tend to do

1085
00:53:22,109 --> 00:53:19,720
is they tend to use the cover story

1086
00:53:26,099 --> 00:53:22,119
the disinformation that is given to the

1087
00:53:30,030 --> 00:53:26,109
public as the real story so for example

1088
00:53:31,950 --> 00:53:30,040

Mac Brazel changed his story between the

1089

00:53:36,559 --> 00:53:31,960

time he went in and made his first

1090

00:53:40,760 --> 00:53:36,569

report and then made a second report

1091

00:53:44,690 --> 00:53:40,770

after he had been detained by the army

1092

00:53:47,579 --> 00:53:44,700

for a period of three or four days and

1093

00:53:51,240 --> 00:53:47,589

so they would use that second report

1094

00:53:56,010 --> 00:53:51,250

which was he was told that he needed to

1095

00:53:59,220 --> 00:53:56,020

say rather than the original truthful

1096

00:54:02,670 --> 00:53:59,230

report of what happened so over and over

1097

00:54:05,040 --> 00:54:02,680

again the dis informants and you might

1098

00:54:07,200 --> 00:54:05,050

call them debunkers but I say they put

1099

00:54:12,780 --> 00:54:07,210

the debunk into the story they don't

1100

00:54:15,569 --> 00:54:12,790

take it out and so they are they tend to

1101

00:54:19,770 --> 00:54:15,579

do that sort of thing they will quote

1102

00:54:23,040 --> 00:54:19,780

the disinformation that has been put out

1103

00:54:24,599 --> 00:54:23,050

about any case well it sounds like it's

1104

00:54:25,859 --> 00:54:24,609

a scapegoat right did that way you just

1105

00:54:31,290 --> 00:54:25,869

you don't even have to make an argument

1106

00:54:32,700 --> 00:54:31,300

right yep I want to ask you this and we

1107

00:54:38,609 --> 00:54:32,710

only have a few minutes left for the the

1108

00:54:40,740 --> 00:54:38,619

next break I remember some years ago Air

1109

00:54:43,500 --> 00:54:40,750

Force lieutenant colonel Richard French

1110

00:54:45,870 --> 00:54:43,510

had come out and said hey I know what

1111

00:54:48,150 --> 00:54:45,880

happened with the with the UFOs and why

1112

00:54:50,040 --> 00:54:48,160

they crashed the first one was hit with

1113

00:54:53,160 --> 00:54:50,050

an electromagnetic pulse from an

1114

00:54:54,270 --> 00:54:53,170

experimental Air Force craft and then

1115

00:54:56,579 --> 00:54:54,280

the second one I don't know how that

1116

00:54:59,400 --> 00:54:56,589

crashed the second one was like a rescue

1117

00:55:03,390 --> 00:54:59,410

craft to go in and rescue that the one

1118

00:55:06,599 --> 00:55:03,400

that that that crashed Stan where do you

1119

00:55:07,109 --> 00:55:06,609

fall on that well I found this total

1120

00:55:08,819 --> 00:55:07,119

baloney

1121

00:55:10,410 --> 00:55:08,829

look I've talked to people who were

1122

00:55:12,930 --> 00:55:10,420

there at the time they're dead now

1123

00:55:19,290 --> 00:55:12,940

incidentally I can't tell you who to

1124

00:55:20,940 --> 00:55:19,300

talk to but it's baloney I talked to

1125

00:55:22,109 --> 00:55:20,950

people who went out there I talked to

1126

00:55:25,109 --> 00:55:22,119

Cabot

1127

00:55:27,420 --> 00:55:25,119

I talked to Jesse I talked to several

1128

00:55:30,960 --> 00:55:27,430

other people at the base remember again

1129

00:55:34,099 --> 00:55:30,970

the people at the base were at the front

1130

00:55:37,319 --> 00:55:34,109

line of military capabilities

1131

00:55:41,750 --> 00:55:37,329

Roswell was king they had atomic bombs

1132

00:55:45,720 --> 00:55:41,760

nobody else had them at that time so

1133

00:55:51,319 --> 00:55:45,730

they were very concerned about not only

1134

00:55:56,430 --> 00:55:51,329

keeping their bombs safe so to speak but

1135

00:55:58,589 --> 00:55:56,440

making sure that no spies got there

1136

00:56:00,390 --> 00:55:58,599

remember we're not talking about a big

1137

00:56:05,579 --> 00:56:00,400

city area now we're talking about a very

1138

00:56:07,319 --> 00:56:05,589

small town and they had to be very clear

1139

00:56:09,870 --> 00:56:07,329

that there were no Russian spies getting

1140

00:56:11,039 --> 00:56:09,880

through you know we're on the second

1141

00:56:13,980 --> 00:56:11,049

break stand if you can told it right

1142

00:56:15,539 --> 00:56:13,990

there this is Alan B Smith host for

1143

00:56:18,059 --> 00:56:15,549

paranormal now on the inception radio

1144

00:56:25,850 --> 00:56:18,069

network and we will be right back after

1145

00:56:31,950 --> 00:56:29,600

[Music]

1146

00:56:33,750 --> 00:56:31,960

welcome back to paranormal now this is

1147

00:56:35,760 --> 00:56:33,760

Ellen B Smith I'm the inception radio

1148

00:56:38,940 --> 00:56:35,770

network and my guests tonight are

1149

00:56:40,500 --> 00:56:38,950

Stanton Friedman and Kathleen Martin

1150

00:56:45,900 --> 00:56:40,510

this is a fascinating conversation I'm

1151
00:56:47,850 --> 00:56:45,910
absolutely loving this and I'm sure you

1152
00:56:51,480 --> 00:56:47,860
are too and we'll continue to do so over

1153
00:56:53,970 --> 00:56:51,490
the next hour here I'm taking us out of

1154
00:56:55,230 --> 00:56:53,980
the break was white flag by Dido it's

1155
00:56:56,960 --> 00:56:55,240
one of my favorite songs I don't know it

1156
00:57:00,540 --> 00:56:56,970
just puts me in a nice contemplative

1157
00:57:03,060 --> 00:57:00,550
reflective state of mind which leads me

1158
00:57:05,940 --> 00:57:03,070
into something that actually Stanton had

1159
00:57:07,530 --> 00:57:05,950
brought up between the break he wanted

1160
00:57:11,510 --> 00:57:07,540
to you know discuss about what the

1161
00:57:15,360 --> 00:57:11,520
significance of the Roswell UFO crash

1162
00:57:18,240 --> 00:57:15,370
was or is and so Stan what know what's

1163
00:57:22,170 --> 00:57:18,250

your take on that well the big thing is

1164

00:57:24,480 --> 00:57:22,180

that we suddenly had proof this wasn't

1165

00:57:26,040 --> 00:57:24,490

the first sighting Kenneth Arnold's you

1166

00:57:28,380 --> 00:57:26,050

know made noises and we found out there

1167

00:57:33,090 --> 00:57:28,390

were lots of sightings but when you've

1168

00:57:35,700 --> 00:57:33,100

got wreckage and bodies you suddenly

1169

00:57:37,950 --> 00:57:35,710

realize that you're confronted with

1170

00:57:40,170 --> 00:57:37,960

something of enormous significance these

1171

00:57:42,930 --> 00:57:40,180

guys weren't from around here the

1172

00:57:46,320 --> 00:57:42,940

vehicle certainly wasn't we didn't know

1173

00:57:51,450 --> 00:57:46,330

what they wanted they're near our

1174

00:57:53,760 --> 00:57:51,460

nuclear weapons this is scary what does

1175

00:57:56,850 --> 00:57:53,770

this mean for mankind so they had to be

1176

00:58:01,500 --> 00:57:56,860

extremely careful about what information

1177

00:58:04,980 --> 00:58:01,510

they let out because there were some

1178

00:58:07,350 --> 00:58:04,990

people who know darn well a that there

1179

00:58:09,930 --> 00:58:07,360

may be horrible stuff in store for us

1180

00:58:14,580 --> 00:58:09,940

you know this is the first mission of a

1181

00:58:19,340 --> 00:58:14,590

bunch of bad guys if you will and it

1182

00:58:24,930 --> 00:58:19,350

might we have attracted the attention of

1183

00:58:27,870 --> 00:58:24,940

somebody else from out there and this is

1184

00:58:31,950 --> 00:58:27,880

a nuclear group the nuclear groups

1185

00:58:35,010 --> 00:58:31,960

realize that if you want to get to the

1186

00:58:36,960 --> 00:58:35,020

stars nuclear is the way to go some

1187

00:58:39,390 --> 00:58:36,970

people think about chemical rockets and

1188

00:58:40,710 --> 00:58:39,400

pretty darn hard with a chemical rocket

1189

00:58:43,109 --> 00:58:40,720

to get to the stars

1190

00:58:45,060 --> 00:58:43,119

but I worked on fishing and future

1191

00:58:49,230 --> 00:58:45,070

propulsion systems a study of fusion

1192

00:58:52,080 --> 00:58:49,240

back in 1962 and certainly in 47 the

1193

00:58:56,010 --> 00:58:52,090

atomic bombing group for the 500 ninth

1194

00:58:58,109 --> 00:58:56,020

at Roswell was well aware of the

1195

00:58:59,910 --> 00:58:58,119

enormous change in the amount of energy

1196

00:59:04,140 --> 00:58:59,920

you have available when you go from

1197

00:59:09,060 --> 00:59:04,150

chemical to nuclear to illustrate that a

1198

00:59:11,609 --> 00:59:09,070

big bomb in 1944 was a 10 ton

1199

00:59:15,450 --> 00:59:11,619

blockbuster at least the energy of 10

1200

00:59:18,930 --> 00:59:15,460

tons of dynamite one bomb took a big

1201

00:59:23,940 --> 00:59:18,940

b-29 to carry it well the first atomic

1202

00:59:28,050 --> 00:59:23,950

bomb the next year in 1945 about 16,000

1203

00:59:33,900 --> 00:59:28,060

tons of dynamite and the first h-bomb

1204

00:59:37,740 --> 00:59:33,910

first fusion device 1950 to 10 million

1205

00:59:41,339 --> 00:59:37,750

tons of dynamite and later the Russians

1206

00:59:45,359 --> 00:59:41,349

set one off tsar bomba 57 million tons

1207

00:59:48,780 --> 00:59:45,369

of dynamite in one stinkin weapon so it

1208

00:59:51,540 --> 00:59:48,790

was clear to the military guys that

1209

00:59:55,230 --> 00:59:51,550

we've got a whole new ballgame here and

1210

00:59:58,829 --> 00:59:55,240

you know we got suckered in a way people

1211

01:00:04,710 --> 00:59:58,839

ask general the general who headed up

1212

01:00:07,109 --> 01:00:04,720

the atomic bombing program in 1948 how

1213

01:00:10,800 --> 01:00:07,119

long before the Russians have their

1214

01:00:12,650 --> 01:00:10,810

nuclear bomb and he hemmed and hawed and

1215

01:00:14,550 --> 01:00:12,660

said well they didn't have the the

1216

01:00:16,589 --> 01:00:14,560

industrial development that we had

1217

01:00:18,480 --> 01:00:16,599

they've been damaged by the war which we

1218

01:00:19,680 --> 01:00:18,490

hadn't been and so forth he said it

1219

01:00:21,630 --> 01:00:19,690

should take them at least eight years

1220

01:00:25,290 --> 01:00:21,640

and besides they don't have a means for

1221

01:00:27,510 --> 01:00:25,300

transporting it the first atomic bomb

1222

01:00:32,550 --> 01:00:27,520

from the Russians was the next year in

1223

01:00:37,170 --> 01:00:32,560

1949 and they had taken one of our b-29s

1224

01:00:39,300 --> 01:00:37,180

which we had left there damaged and they

1225

01:00:44,450 --> 01:00:39,310

built a whole bunch of them like Chinese

1226

01:00:47,280 --> 01:00:44,460

copies so the change in the situation

1227

01:00:49,770 --> 01:00:47,290

from you know nothing to worry about

1228

01:00:51,690 --> 01:00:49,780

folks it'll be years before and they

1229

01:00:54,950 --> 01:00:51,700

they can't match us and so forth and

1230

01:00:58,440 --> 01:00:54,960

then suddenly holy cow

1231

01:01:00,990 --> 01:00:58,450

19:49 ah we didn't even have radar

1232

01:01:02,250 --> 01:01:01,000

around the United States to let us know

1233

01:01:03,480 --> 01:01:02,260

when anybody was coming because the

1234

01:01:07,079 --> 01:01:03,490

Russians couldn't get here

1235

01:01:09,059 --> 01:01:07,089

what was it ravelin so there were things

1236

01:01:12,890 --> 01:01:09,069

going on in the background but certainly

1237

01:01:15,539 --> 01:01:12,900

with the roswall information and

1238

01:01:21,769 --> 01:01:15,549

remember there was an Aztec New Mexico

1239

01:01:25,109 --> 01:01:21,779

crashing 4748 sorry the very next year

1240

01:01:27,359 --> 01:01:25,119

suddenly there was this whole

1241

01:01:30,900 --> 01:01:27,369

compartment over here what are we doing

1242

01:01:32,640 --> 01:01:30,910

about alien visitors what do they want

1243

01:01:35,940 --> 01:01:32,650

were they from are they going to work

1244

01:01:38,730 --> 01:01:35,950

with the Russians or the Chinese so that

1245

01:01:40,589 --> 01:01:38,740

was not public discussion that was on

1246

01:01:44,339 --> 01:01:40,599

the inner circle but there were people

1247

01:01:46,529 --> 01:01:44,349

worried about it that's for sure and so

1248

01:01:48,990 --> 01:01:46,539

that was one of the reasons for keeping

1249

01:01:51,260 --> 01:01:49,000

secret we didn't want to secure the heck

1250

01:01:56,880 --> 01:01:51,270

out of people and we didn't have answers

1251
01:01:59,549 --> 01:01:56,890
so even to this day going down a rabbit

1252
01:02:01,049 --> 01:01:59,559
hole because once you even if you think

1253
01:02:02,819 --> 01:02:01,059
those are legitimate reasons once you

1254
01:02:07,260 --> 01:02:02,829
start on down the path of a cover-up

1255
01:02:09,210 --> 01:02:07,270
then how do you backtrack you don't you

1256
01:02:12,140 --> 01:02:09,220
don't who wants to admit they blow we've

1257
01:02:15,150 --> 01:02:12,150
only been lying for 70 years folks uh

1258
01:02:20,640 --> 01:02:15,160
that puts anybody in power at jeopardy

1259
01:02:24,200 --> 01:02:20,650
of being taken out of yeah and I think

1260
01:02:25,799 --> 01:02:24,210
you're right if I can say it you know

1261
01:02:29,329 --> 01:02:25,809
metaphysically speaking or

1262
01:02:31,950 --> 01:02:29,339
sociologically speaking there is a show

1263
01:02:34,200 --> 01:02:31,960

Twin Peaks and the third season came out

1264

01:02:36,750 --> 01:02:34,210

this year on Showtime I don't know if

1265

01:02:39,029 --> 01:02:36,760

you're familiar with it but one of the

1266

01:02:41,430 --> 01:02:39,039

characters on this show is this evil

1267

01:02:43,950 --> 01:02:41,440

sort of demon type of character or

1268

01:02:46,019 --> 01:02:43,960

spirit and people argue on the show

1269

01:02:49,079 --> 01:02:46,029

whether it's just all allegory or you

1270

01:02:52,019 --> 01:02:49,089

know it's fantasy or whatever it is but

1271

01:02:57,500 --> 01:02:52,029

within this past season they showed the

1272

01:03:00,390 --> 01:02:57,510

origin of this evil spirit and it was

1273

01:03:04,079 --> 01:03:00,400

the lot the explosion of the first

1274

01:03:06,370 --> 01:03:04,089

atomic bomb and this is where he was

1275

01:03:07,930 --> 01:03:06,380

born he was born out of this moment

1276

01:03:12,540 --> 01:03:07,940

and it seems to me that it was a

1277

01:03:18,880 --> 01:03:12,550

commentary on humankind's original sin

1278

01:03:20,740 --> 01:03:18,890

as a galactic species and yes right that

1279

01:03:23,170 --> 01:03:20,750

that sure we have our other religious

1280

01:03:25,240 --> 01:03:23,180

stories for original sin etc but as a as

1281

01:03:27,070 --> 01:03:25,250

a galactic species as a planetary

1282

01:03:28,840 --> 01:03:27,080

interplanetary species that was our

1283

01:03:32,230 --> 01:03:28,850

original sin and then we went out we

1284

01:03:34,240 --> 01:03:32,240

were on lockdown I don't know if that's

1285

01:03:36,160 --> 01:03:34,250

true or not but it is interesting that

1286

01:03:40,770 --> 01:03:36,170

it's right around that time when UFO

1287

01:03:44,230 --> 01:03:40,780

reports really spiked did you know that

1288

01:03:49,080 --> 01:03:44,240

when Newt the nuclear bomb was being

1289

01:03:54,400 --> 01:03:49,090

developed and there were nuclear

1290

01:03:57,100 --> 01:03:54,410

installations where UFOs were showing up

1291

01:03:59,910 --> 01:03:57,110

and the scientists were seeing the UFOs

1292

01:04:03,270 --> 01:03:59,920

around these nuclear installations and

1293

01:04:07,690 --> 01:04:03,280

originally they speculated that perhaps

1294

01:04:11,290 --> 01:04:07,700

they were a byproduct of the nuclear

1295

01:04:12,790 --> 01:04:11,300

process so that's that's was interesting

1296

01:04:20,050 --> 01:04:12,800

to me that they thought it was this

1297

01:04:21,100 --> 01:04:20,060

demon that came out yes and well you

1298

01:04:23,850 --> 01:04:21,110

know and that brings me back to a

1299

01:04:26,890 --> 01:04:23,860

question that you know I was touching on

1300

01:04:29,890 --> 01:04:26,900

before we went to the break Kathleen

1301

01:04:34,780 --> 01:04:29,900

what what do you think caused the the

1302

01:04:39,490 --> 01:04:34,790

UFO to crash and is that why that they

1303

01:04:42,070 --> 01:04:39,500

are more you know sort of looking for I

1304

01:04:46,090 --> 01:04:42,080

don't know secretive in their observance

1305

01:04:48,310 --> 01:04:46,100

of us you know more clandestine boy you

1306

01:04:53,020 --> 01:04:48,320

know I don't know I don't even have a

1307

01:04:55,480 --> 01:04:53,030

speculation on what caused it to crash I

1308

01:04:58,150 --> 01:04:55,490

don't know if it had something to do

1309

01:05:02,680 --> 01:04:58,160

with the weather if it had something to

1310

01:05:06,820 --> 01:05:02,690

do with nuclear installations I have

1311

01:05:10,360 --> 01:05:06,830

really don't have a speculation on that

1312

01:05:13,870 --> 01:05:10,370

I only know that there is considerable

1313

01:05:16,300 --> 01:05:13,880

evidence that something actually did

1314

01:05:20,249 --> 01:05:16,310

crash there that there were high

1315

01:05:24,249 --> 01:05:20,259

security measures at the foster ranch

1316

01:05:26,499 --> 01:05:24,259

where it did crash that unscheduled

1317

01:05:29,889 --> 01:05:26,509

flights were made to Roswell from

1318

01:05:33,669 --> 01:05:29,899

Washington DC from White Sands from

1319

01:05:37,599 --> 01:05:33,679

Kirtland in California and from Fort

1320

01:05:40,989 --> 01:05:37,609

Bliss so there there was a lot of

1321

01:05:43,809 --> 01:05:40,999

activity and why would all of this

1322

01:05:46,779 --> 01:05:43,819

activity be taking place in that time

1323

01:05:52,149 --> 01:05:46,789

frame if nothing had happened

1324

01:05:56,499 --> 01:05:52,159

or as the government later said that it

1325

01:05:59,649 --> 01:05:56,509

was a mogul balloon well a mogul balloon

1326

01:06:02,819 --> 01:05:59,659

was only a top-secret kind of spying

1327

01:06:06,459 --> 01:06:02,829

balloon it was made up of 23 neoprene

1328

01:06:08,709 --> 01:06:06,469

balloons to pick up sonic vibrations in

1329

01:06:14,529 --> 01:06:08,719

the atmosphere from distant nuclear

1330

01:06:17,709 --> 01:06:14,539

explosions 23 neoprene balloons landing

1331

01:06:20,799 --> 01:06:17,719

on the foster ranch would not have drawn

1332

01:06:23,999 --> 01:06:20,809

all of those officials from all of the

1333

01:06:26,799 --> 01:06:24,009

different areas that they came in from I

1334

01:06:29,589 --> 01:06:26,809

do have a speculation as to why it

1335

01:06:31,719 --> 01:06:29,599

crashed because there was another crash

1336

01:06:34,179 --> 01:06:31,729

at the same time over in the plains of

1337

01:06:36,929 --> 01:06:34,189

san agustin where the huge radio

1338

01:06:38,769 --> 01:06:36,939

telescope is these days in New Mexico I

1339

01:06:44,099 --> 01:06:38,779

think there might have been a mid-air

1340

01:06:48,269 --> 01:06:44,109

collision because one went was described

1341

01:06:51,039 --> 01:06:48,279

one that crashed on the ground with a

1342

01:06:56,439 --> 01:06:51,049

crack on the slide as if it had been

1343

01:06:59,219 --> 01:06:56,449

struck by something and if you look that

1344

01:07:02,679 --> 01:06:59,229

we know that there were a rocket tests

1345

01:07:08,579 --> 01:07:02,689

scheduled for the morning of the crash

1346

01:07:13,439 --> 01:07:08,589

and it may what means the radar was on

1347

01:07:18,939 --> 01:07:13,449

because we were tracking rockets and I

1348

01:07:22,839 --> 01:07:18,949

think we might suggest that if there

1349

01:07:24,939 --> 01:07:22,849

were two saucers flying together a pilot

1350

01:07:30,519 --> 01:07:24,949

knowing man we would call it that's the

1351
01:07:32,559 --> 01:07:30,529
way we did I if they turned the radar on

1352
01:07:33,000 --> 01:07:32,569
or they crossed the radar being misses

1353
01:07:35,820 --> 01:07:33,010
on them

1354
01:07:39,930 --> 01:07:35,830
no we're selling to civilization around

1355
01:07:41,550 --> 01:07:39,940
there for miles and miles that they

1356
01:07:43,260 --> 01:07:41,560
might have zipped through the beam of

1357
01:07:45,780 --> 01:07:43,270
the radar it was a tracking Raider

1358
01:07:48,810 --> 01:07:45,790
wasn't going around you know round and

1359
01:07:50,700 --> 01:07:48,820
round to pick up to detect something

1360
01:07:55,820 --> 01:07:50,710
going by they knew what was going on

1361
01:07:58,320 --> 01:07:55,830
there was a rocket was being fired if

1362
01:08:02,060 --> 01:07:58,330
they ran into the radar beam it might

1363
01:08:05,310 --> 01:08:02,070

have discombobulated the infected the

1364

01:08:07,130 --> 01:08:05,320

guidance system the propulsion system

1365

01:08:12,270 --> 01:08:07,140

all it would take would be a momentary

1366

01:08:15,510 --> 01:08:12,280

glitch and whammo one hits the other

1367

01:08:18,749 --> 01:08:15,520

when I asked an Air Force general if you

1368

01:08:21,180 --> 01:08:18,759

have a mid-air collision is the damage

1369

01:08:24,780 --> 01:08:21,190

usually the same to the two aircraft and

1370

01:08:28,499 --> 01:08:24,790

he said no usually one makes it and one

1371

01:08:30,090 --> 01:08:28,509

doesn't so if we have an explosion and

1372

01:08:33,090 --> 01:08:30,100

Jesse Marcel in our first conversation

1373

01:08:35,519 --> 01:08:33,100

said they had he thought there had to be

1374

01:08:37,620 --> 01:08:35,529

a mid-air explosion because there was no

1375

01:08:41,610 --> 01:08:37,630

crater and because the wreckage was

1376

01:08:45,570 --> 01:08:41,620

spread out over such a wide area so if

1377

01:08:47,550 --> 01:08:45,580

you have a mid-air explosion there and

1378

01:08:49,680 --> 01:08:47,560

the other one going the other way over

1379

01:08:53,070 --> 01:08:49,690

the plains of San Agustin and being

1380

01:08:55,380 --> 01:08:53,080

picked up that might explain it I'm not

1381

01:08:58,289 --> 01:08:55,390

guaranteeing that but it seems

1382

01:09:02,730 --> 01:08:58,299

reasonable under the circumstances there

1383

01:09:05,010 --> 01:09:02,740

well and so you know one one explanation

1384

01:09:08,990 --> 01:09:05,020

what we're talking about you know

1385

01:09:12,120 --> 01:09:09,000

something that seems magical it seems

1386

01:09:14,220 --> 01:09:12,130

otherworldly that it can you know come

1387

01:09:18,660 --> 01:09:14,230

and go from distant star systems it can

1388

01:09:21,840 --> 01:09:18,670

perform anti-gravity feats that are

1389

01:09:24,450 --> 01:09:21,850

seemingly unimaginable and yet if they

1390

01:09:27,120 --> 01:09:24,460

are able to do all these things then

1391

01:09:35,420 --> 01:09:27,130

they are relying on the physics and

1392

01:09:41,099 --> 01:09:35,430

physics a real and unreal about this

1393

01:09:44,099 --> 01:09:41,109

look my one of my things that I lived by

1394

01:09:46,209 --> 01:09:44,109

is a technological progress comes from

1395

01:09:49,789 --> 01:09:46,219

doing things differently

1396

01:09:50,299 --> 01:09:49,799

unpredictable way I mean look at our own

1397

01:09:52,249 --> 01:09:50,309

history

1398

01:09:55,220 --> 01:09:52,259

Magellan took three years to go around

1399

01:09:56,950 --> 01:09:55,230

the world three years his ship did he

1400

01:10:01,640 --> 01:09:56,960

didn't make it

1401
01:10:05,390 --> 01:10:01,650
now the space station goes around 90

1402
01:10:09,799 --> 01:10:05,400
minutes but it isn't a fast sailing boat

1403
01:10:13,250 --> 01:10:09,809
it's entirely different you know so we

1404
01:10:14,870 --> 01:10:13,260
shouldn't be surprised look at a slide

1405
01:10:18,080 --> 01:10:14,880
where I use a slide rule when I started

1406
01:10:21,819 --> 01:10:18,090
work in industry it doesn't compare with

1407
01:10:27,189 --> 01:10:25,580
no comparison whatsoever progress comes

1408
01:10:29,839 --> 01:10:27,199
from doing things differently so

1409
01:10:32,169 --> 01:10:29,849
somebody got started a little bit before

1410
01:10:35,209 --> 01:10:32,179
we did you know what's a million years

1411
01:10:36,649 --> 01:10:35,219
on their technological development we

1412
01:10:39,950 --> 01:10:36,659
would expect them to be able to do

1413
01:10:43,729 --> 01:10:39,960

things that we can't do there's no

1414

01:10:46,790 --> 01:10:43,739

surprise there we know it's I know it's

1415

01:10:49,160 --> 01:10:46,800

speculation but you know I could imagine

1416

01:10:52,549 --> 01:10:49,170

that if they were visiting and keeping

1417

01:10:55,790 --> 01:10:52,559

an eye on us you know perhaps they did

1418

01:10:59,500 --> 01:10:55,800

not know everything about us and perhaps

1419

01:11:02,839 --> 01:10:59,510

they were taken a bit by surprise by

1420

01:11:04,700 --> 01:11:02,849

undirected radio wave I don't know but

1421

01:11:06,470 --> 01:11:04,710

it's certainly not out of the realm of

1422

01:11:09,350 --> 01:11:06,480

physical possibility if you're using

1423

01:11:13,310 --> 01:11:09,360

some sort of electromagnetic propulsion

1424

01:11:15,229 --> 01:11:13,320

system well even if you're not using an

1425

01:11:17,540 --> 01:11:15,239

electromagnetic propulsion system a

1426

01:11:20,899 --> 01:11:17,550

radar was new at a time there wasn't a

1427

01:11:24,290 --> 01:11:20,909

lot of radar around so they zipped

1428

01:11:27,290 --> 01:11:24,300

around the planet earth they might not

1429

01:11:30,560 --> 01:11:27,300

have noticed any radar mm-hmm because it

1430

01:11:32,270 --> 01:11:30,570

wasn't much of it there think the

1431

01:11:33,890 --> 01:11:32,280

Roswell in other words are written that

1432

01:11:38,500 --> 01:11:33,900

Roswell but White Sands Missile Range

1433

01:11:43,010 --> 01:11:38,510

New Mexico did have radar installations

1434

01:11:45,649 --> 01:11:43,020

because we were firing missiles rockets

1435

01:11:47,810 --> 01:11:45,659

we had to keep track of them and my

1436

01:11:51,680 --> 01:11:47,820

parent one of them went to Mexico that

1437

01:11:57,950 --> 01:11:51,690

wasn't supposed to went the wrong way

1438

01:11:59,270 --> 01:11:57,960

too bad but what we have to think in

1439

01:12:02,480 --> 01:11:59,280

terms of

1440

01:12:04,910 --> 01:12:02,490

New Mexico being a hotbed of military

1441

01:12:06,740 --> 01:12:04,920

research and development activities 2 of

1442

01:12:10,070 --> 01:12:06,750

the 3 nuclear weapons labs the United

1443

01:12:13,460 --> 01:12:10,080

States for in New Mexico Los Alamos and

1444

01:12:16,520 --> 01:12:13,470

Sandia and so that's why you're worried

1445

01:12:18,620 --> 01:12:16,530

about spies there but it also means that

1446

01:12:19,970 --> 01:12:18,630

it's a place where you can test far out

1447

01:12:25,010 --> 01:12:19,980

stalkers there are many people around

1448

01:12:28,970 --> 01:12:25,020

the Mexico's the fifth least densely

1449

01:12:34,400 --> 01:12:28,980

populated states of all 50 it ranks 5th

1450

01:12:40,160 --> 01:12:34,410

of population not much in a way of

1451

01:12:43,570 --> 01:12:40,170

people might bit off topic but I am

1452

01:12:47,720 --> 01:12:43,580

curious you know Binney and Barney Hill

1453

01:12:52,010 --> 01:12:47,730

Bennie Barney Hill did they ever you

1454

01:12:54,440 --> 01:12:52,020

know comment on I don't know if they

1455

01:12:57,710 --> 01:12:54,450

were aware to the degree that people are

1456

01:13:00,680 --> 01:12:57,720

now but were they aware the the Roswell

1457

01:13:04,880 --> 01:13:00,690

incident and did they have any thoughts

1458

01:13:05,990 --> 01:13:04,890

on the matter Betty was aware of the

1459

01:13:09,710 --> 01:13:06,000

Roswell incident

1460

01:13:15,200 --> 01:13:09,720

Barney died in 1969 at the age of 46 and

1461

01:13:17,450 --> 01:13:15,210

so this was before 1978 when Stanton

1462

01:13:20,330 --> 01:13:17,460

heard about Roswell and began his

1463

01:13:23,540 --> 01:13:20,340

research so Barney was not aware of it

1464

01:13:26,860 --> 01:13:23,550

but Betty was and Betty had a great deal

1465

01:13:31,330 --> 01:13:26,870

of admiration for Stanton Friedman and

1466

01:13:39,170 --> 01:13:31,340

followed his work and did believe that

1467

01:13:41,960 --> 01:13:39,180

Roswell did have a UFO crash and I know

1468

01:13:45,710 --> 01:13:41,970

this again reaching but did she think

1469

01:13:50,750 --> 01:13:45,720

that perhaps they're the same beings

1470

01:13:53,300 --> 01:13:50,760

that you know abducted them well she

1471

01:13:56,710 --> 01:13:53,310

thought that they might have been but

1472

01:14:00,380 --> 01:13:56,720

the original sketches that were done

1473

01:14:04,610 --> 01:14:00,390

were a little bit different she didn't

1474

01:14:09,230 --> 01:14:04,620

remember like any little cups on the

1475

01:14:12,489 --> 01:14:09,240

ends of the fingers such as were drawn

1476

01:14:15,430 --> 01:14:12,499

by the alleged nurse who

1477

01:14:19,810 --> 01:14:15,440

had examined of the bodies and had drawn

1478

01:14:23,140 --> 01:14:19,820

sketches for Glenn Dennis from the

1479

01:14:24,850 --> 01:14:23,150

funeral home The Ballad funeral home so

1480

01:14:27,069 --> 01:14:24,860

they've seemed a little bit different

1481

01:14:29,830 --> 01:14:27,079

but they also had similar

1482

01:14:31,569 --> 01:14:29,840

characteristics so I think that she

1483

01:14:35,339 --> 01:14:31,579

believed they were probably from the

1484

01:14:38,399 --> 01:14:35,349

same family of non-human entities

1485

01:14:40,689 --> 01:14:38,409

Kathleen and Stan do you do you both

1486

01:14:47,799 --> 01:14:40,699

believe that there was one u.s. faux

1487

01:14:49,629 --> 01:14:47,809

crash in New Mexico well I think there

1488

01:14:54,339 --> 01:14:49,639

was one in Corona and one in the plains

1489

01:14:56,910 --> 01:14:54,349

of san agustin I think in other words

1490

01:14:59,529 --> 01:14:56,920

and then there was another one in Aztec

1491

01:15:03,209 --> 01:14:59,539

there's an excellent book the Aztec

1492

01:15:05,799 --> 01:15:03,219

incident by scott and suzanne ramsey

1493

01:15:07,739 --> 01:15:05,809

aztec is up in the northwest corner of

1494

01:15:10,450 --> 01:15:07,749

New Mexico near the Four Corners area

1495

01:15:13,029 --> 01:15:10,460

and that was just the next year but they

1496

01:15:15,069 --> 01:15:13,039

did a bang-up job on their research they

1497

01:15:18,910 --> 01:15:15,079

found witnesses and paperwork and all

1498

01:15:21,219 --> 01:15:18,920

kinds of goodies so you know where

1499

01:15:24,879 --> 01:15:21,229

there's one there's more and that's why

1500

01:15:28,330 --> 01:15:24,889

I mentioned the the mid-air collision is

1501

01:15:31,419 --> 01:15:28,340

that two went down at the same time so

1502

01:15:33,870 --> 01:15:31,429

that's one possibility especially after

1503

01:15:36,850 --> 01:15:33,880

the general told me that usually the

1504

01:15:37,930 --> 01:15:36,860

damage isn't symmetric that is one makes

1505

01:15:44,080 --> 01:15:37,940

it and one doesn't

1506

01:15:48,910 --> 01:15:44,090

well it's Roswell over that way I think

1507

01:15:51,609 --> 01:15:48,920

I have favored the speculation that one

1508

01:15:56,620 --> 01:15:51,619

sort of exploded over the foster ranch

1509

01:16:00,729 --> 01:15:56,630

and might have touched the ground and

1510

01:16:03,549 --> 01:16:00,739

then like a saucer or a stone skipping

1511

01:16:07,569 --> 01:16:03,559

across water it became airborne again

1512

01:16:13,000 --> 01:16:07,579

and then ended up crashing at the second

1513

01:16:16,209 --> 01:16:13,010

site interesting okay you know either of

1514

01:16:21,009 --> 01:16:16,219

these one or two crashes whatever they

1515

01:16:23,620 --> 01:16:21,019

are were there actual alien beings yeah

1516

01:16:29,800 --> 01:16:23,630

yes inside them okay

1517

01:16:32,860 --> 01:16:29,810

and I recently did they all died four

1518

01:16:34,810 --> 01:16:32,870

out of five were dead apparently mm-hmm

1519

01:16:36,899 --> 01:16:34,820

and those were supposed to be in just

1520

01:16:39,459 --> 01:16:36,909

one craft correct

1521

01:16:41,229 --> 01:16:39,469

well yeah whether there were ones over

1522

01:16:44,260 --> 01:16:41,239

in the plains of San Agustin where the

1523

01:16:47,229 --> 01:16:44,270

second crash who as we think so we're

1524

01:16:50,140 --> 01:16:47,239

told that there were but because I heard

1525

01:16:52,000 --> 01:16:50,150

about them the bodies out lecturing

1526

01:16:53,560 --> 01:16:52,010

again and somebody's age ever hear

1527

01:16:58,000 --> 01:16:53,570

anything about a crashed saucer in New

1528

01:17:02,560 --> 01:16:58,010

Mexico and I said well yes I have tell

1529

01:17:04,810 --> 01:17:02,570

me more and he told me about his friend

1530

01:17:09,550 --> 01:17:04,820

Barney Barnett over in the plains of san

1531

01:17:11,439 --> 01:17:09,560

agustin it was a federal officer and the

1532

01:17:17,229 --> 01:17:11,449

crash over there and there were bodies

1533

01:17:21,189 --> 01:17:17,239

there he saw them it talked about him it

1534

01:17:23,260 --> 01:17:21,199

didn't make it into the press yes and

1535

01:17:26,169 --> 01:17:23,270

and you think how many bodies do you

1536

01:17:29,320 --> 01:17:26,179

agree with with with stanza assessment

1537

01:17:32,410 --> 01:17:29,330

oh yes I think there were probably about

1538

01:17:34,899 --> 01:17:32,420

four or five bodies from from what I've

1539

01:17:37,540 --> 01:17:34,909

heard and I recently talked to a woman

1540

01:17:40,930 --> 01:17:37,550

who told me that her grandmother in law

1541

01:17:43,720 --> 01:17:40,940

had worked at the Pentagon and was

1542

01:17:48,310 --> 01:17:43,730

called to white sands after the crash

1543

01:17:52,540 --> 01:17:48,320

and went into a hangar there and saw

1544

01:17:54,970 --> 01:17:52,550

these small emaciated white bodies in

1545

01:17:58,060 --> 01:17:54,980

the hangar and she said that initially

1546

01:18:00,700 --> 01:17:58,070

they were trying to identify what they

1547

01:18:03,729 --> 01:18:00,710

actually were because they had never

1548

01:18:06,640 --> 01:18:03,739

seen anything like that before I said to

1549

01:18:09,669 --> 01:18:06,650

her I want to talk to your grandmother

1550

01:18:12,430 --> 01:18:09,679

in law and she said unfortunately she

1551

01:18:16,000 --> 01:18:12,440

had passed away so that's just another

1552

01:18:19,300 --> 01:18:16,010

story you I've heard many of people who

1553

01:18:24,280 --> 01:18:19,310

claim to have been I witnesses to not

1554

01:18:27,490 --> 01:18:24,290

only the crash but the bodies still I

1555

01:18:29,620 --> 01:18:27,500

should stress that people who had

1556

01:18:32,590 --> 01:18:29,630

security clearances and so forth at that

1557

01:18:35,080 --> 01:18:32,600

time took their security oaths very

1558

01:18:37,220 --> 01:18:35,090

seriously because they knew the penalty

1559

01:18:40,160 --> 01:18:37,230

for speaking out of turn

1560

01:18:42,620 --> 01:18:40,170

was very severe it could be death it

1561

01:18:44,420 --> 01:18:42,630

could be life imprisonment loss of all

1562

01:18:47,860 --> 01:18:44,430

future benefits and veterans worried

1563

01:18:51,410 --> 01:18:47,870

about that sort of thing people took

1564

01:18:53,840 --> 01:18:51,420

security very seriously back then and

1565

01:18:57,290 --> 01:18:53,850

they knew about the Russian spies during

1566

01:18:59,210 --> 01:18:57,300

the war and and so it wasn't an

1567

01:19:00,470 --> 01:18:59,220

unrealistic thought that somebody's

1568

01:19:03,470 --> 01:19:00,480

trying to figure out what we're doing

1569

01:19:08,330 --> 01:19:03,480

here for at the peak of technological

1570

01:19:09,740 --> 01:19:08,340

advancement so people today an average

1571

01:19:15,320 --> 01:19:09,750

Joe Blow may not think much about

1572

01:19:17,810 --> 01:19:15,330

security but back then believe me they

1573

01:19:20,390 --> 01:19:17,820

did think a great deal about security

1574

01:19:21,860 --> 01:19:20,400

and keeping your mouth shut well with

1575

01:19:23,360 --> 01:19:21,870

both of you the amount of research that

1576

01:19:28,190 --> 01:19:23,370

you've done you've certainly covered

1577

01:19:31,070 --> 01:19:28,200

your share of the spook world and I do

1578

01:19:37,300 --> 01:19:31,080

wonder in that time period because of

1579

01:19:41,810 --> 01:19:37,310

World War two were we far more refined

1580

01:19:46,970 --> 01:19:41,820

in our abilities in international spying

1581

01:19:50,600 --> 01:19:46,980

and less refined in our abilities to

1582

01:19:51,950 --> 01:19:50,610

keep our own secrets from ourselves was

1583

01:19:55,640 --> 01:19:51,960

there was there a little bit more of a

1584

01:19:58,610 --> 01:19:55,650

trust factor between you know fellow US

1585

01:19:59,270 --> 01:19:58,620

citizens and and do you get I don't

1586

01:20:02,030 --> 01:19:59,280

think so

1587

01:20:04,240 --> 01:20:02,040

okay I I think it was loose lips sink

1588

01:20:08,330 --> 01:20:04,250

ships I remember that from World War two

1589

01:20:10,820 --> 01:20:08,340

there was great stress on keeping you

1590

01:20:13,630 --> 01:20:10,830

know you couldn't talk about where your

1591

01:20:16,220 --> 01:20:13,640

relatives were who were overseas mm-hmm

1592

01:20:18,410 --> 01:20:16,230

that they didn't want the Germans to

1593

01:20:20,930 --> 01:20:18,420

know about troop movements for example

1594

01:20:22,190 --> 01:20:20,940

and they were very good you know one of

1595

01:20:24,470 --> 01:20:22,200

the things about when they dropped the

1596

01:20:26,510 --> 01:20:24,480

first atomic bomb they wanted to make

1597

01:20:28,610 --> 01:20:26,520

sure nobody knew where they were going

1598

01:20:30,050 --> 01:20:28,620

to drop it because they were fearful at

1599

01:20:32,540 --> 01:20:30,060

the Japanese would move American

1600

01:20:36,500 --> 01:20:32,550

prisoners of war to that city go ahead

1601

01:20:39,620 --> 01:20:36,510

you know if they found out where what

1602

01:20:43,090 --> 01:20:39,630

city would be targeted so I think and

1603

01:20:47,660 --> 01:20:43,100

everybody much more so than than now

1604

01:20:50,839 --> 01:20:47,670

everybody had a family relative who was

1605

01:20:53,449 --> 01:20:50,849

in the military and who

1606

01:20:55,250 --> 01:20:53,459

would read them the riot act about it

1607

01:20:59,270 --> 01:20:55,260

can't talk about this can't talk about

1608

01:21:02,509 --> 01:20:59,280

that and everywhere you turn there may

1609

01:21:05,929 --> 01:21:02,519

be spies it it was built into the system

1610

01:21:10,310 --> 01:21:05,939

at that time especially after we found

1611

01:21:12,770 --> 01:21:10,320

out that the Russians had spies in mixed

1612

01:21:16,129 --> 01:21:12,780

up with the nuclear business remember

1613

01:21:21,049 --> 01:21:16,139

there were two the Rosenbergs man and a

1614

01:21:25,699 --> 01:21:21,059

woman were executed for being spot was

1615

01:21:28,520 --> 01:21:25,709

big news oh yeah I mean that was a huge

1616

01:21:31,790 --> 01:21:28,530

part of our education I don't know about

1617

01:21:35,209 --> 01:21:31,800

now but I remember we specifically spent

1618

01:21:36,379 --> 01:21:35,219

quite a bit of time on that and you know

1619

01:21:41,659 --> 01:21:36,389

by the time you come out of that lesson

1620

01:21:44,209 --> 01:21:41,669

you know do you fear you know that

1621

01:21:50,179 --> 01:21:44,219

you're not supposed to you know break

1622

01:21:51,889 --> 01:21:50,189

that sanctity and consequences I'm sorry

1623

01:21:55,699 --> 01:21:51,899

Katherine you're gonna say something and

1624

01:21:58,189 --> 01:21:55,709

not only that but I was let me give an

1625

01:22:00,469 --> 01:21:58,199

example I was having a conversation with

1626

01:22:04,549 --> 01:22:00,479

a man who was a retired Air Force

1627

01:22:07,729 --> 01:22:04,559

officer and he gave me some information

1628

01:22:13,009 --> 01:22:07,739

about the Air Force's knowledge of UFOs

1629

01:22:15,679 --> 01:22:13,019

and I said to him would you please put

1630

01:22:19,580 --> 01:22:15,689

that in writing for me and he said no

1631

01:22:23,330 --> 01:22:19,590

and I said will you put it in writing

1632

01:22:27,979 --> 01:22:23,340

and keep it in a safe deposit box that I

1633

01:22:31,580 --> 01:22:27,989

will have access to after you pass and

1634

01:22:35,419 --> 01:22:31,590

he said no and I said why and he said

1635

01:22:39,290 --> 01:22:35,429

it's a Manor a matter of Honor and a

1636

01:22:43,310 --> 01:22:39,300

matter of loyalty to my country he said

1637

01:22:46,069 --> 01:22:43,320

not only that but to all of the men that

1638

01:22:49,909 --> 01:22:46,079

I served with and to my family

1639

01:22:53,239 --> 01:22:49,919

those were his words and that carries a

1640

01:22:57,199 --> 01:22:53,249

lot of weight and I think you did touch

1641

01:22:58,939 --> 01:22:57,209

on a point stand as well someone in my

1642

01:23:00,169 --> 01:22:58,949

family who's in the military had you

1643

01:23:01,910 --> 01:23:00,179

know posted something on Facebook about

1644

01:23:03,470 --> 01:23:01,920

this as an article and

1645

01:23:07,700 --> 01:23:03,480

and I think it was a very good point

1646

01:23:10,070 --> 01:23:07,710

that you the military that we have now

1647

01:23:12,350 --> 01:23:10,080

the people who serve it's very a large

1648

01:23:15,500 --> 01:23:12,360

portion of that it's our part of a

1649

01:23:17,479 --> 01:23:15,510

military family continuum and so you

1650

01:23:21,229 --> 01:23:17,489

have a large number of the population

1651

01:23:25,970 --> 01:23:21,239

that are not concerned as in the same

1652

01:23:30,410 --> 01:23:25,980

way when we go to war or when you know

1653

01:23:34,160 --> 01:23:30,420

we hear about someone you know spilling

1654

01:23:36,470 --> 01:23:34,170

secrets the gravity of that does not

1655

01:23:40,120 --> 01:23:36,480

weigh on on you as much on your father

1656

01:23:43,430 --> 01:23:40,130

or your brother you know or your

1657

01:23:46,610 --> 01:23:43,440

sister-in-law are involved in you know

1658

01:23:53,540 --> 01:23:46,620

in combat and action and service to the

1659

01:23:55,930 --> 01:23:53,550

country so I do wonder you know how much

1660

01:23:59,060 --> 01:23:55,940

of a clamp can they keep down on this

1661

01:24:01,340 --> 01:23:59,070

until we get another Snowden who blows

1662

01:24:02,990 --> 01:24:01,350

it open or is it impossible we'll pick

1663

01:24:04,610 --> 01:24:03,000

it up when we get back after this last

1664

01:24:06,709 --> 01:24:04,620

break this is Alan B Smith on the

1665

01:24:08,330 --> 01:24:06,719

inception of radio network I'm talking

1666

01:24:12,480 --> 01:24:08,340

with Stanton Friedman and Kathleen

1667

01:24:17,520 --> 01:24:12,490

Martin hang in there we'll be right back

1668

01:24:22,509 --> 01:24:19,839

and welcome back to paranormal now this

1669

01:24:25,449 --> 01:24:22,519

is Alan V Smith your host tonight I have

1670

01:24:28,149 --> 01:24:25,459

two amazing guests this conversation has

1671

01:24:29,859 --> 01:24:28,159

been fascinating and we've we've gone

1672

01:24:32,619 --> 01:24:29,869

down so many paths along the way

1673

01:24:33,939 --> 01:24:32,629

starting with Roswell New Mexico but

1674

01:24:37,029 --> 01:24:33,949

again like we've we've covered these

1675

01:24:38,909 --> 01:24:37,039

subjects so many times it's not just a

1676

01:24:42,009 --> 01:24:38,919

linear story with any of these topics

1677

01:24:45,089 --> 01:24:42,019

there are so many overlapping factors

1678

01:24:48,250 --> 01:24:45,099

that play a part in you know what

1679

01:24:53,409 --> 01:24:48,260

ostensibly was a cover-up of a UFO crash

1680

01:24:56,319 --> 01:24:53,419

and and I had you know left us you know

1681

01:25:02,259 --> 01:24:56,329

often the last segment with the thought

1682

01:25:06,009 --> 01:25:02,269

of our citizens not taking seriously the

1683

01:25:08,799 --> 01:25:06,019

sanctity of an oath and being in service

1684

01:25:13,330 --> 01:25:08,809

to the country because they don't have a

1685

01:25:16,719 --> 01:25:13,340

direct emotional experience to those who

1686

01:25:19,449 --> 01:25:16,729

have to put their lives on the line in

1687

01:25:21,100 --> 01:25:19,459

service of the country and what are the

1688

01:25:24,909 --> 01:25:21,110

consequences of that do we get more

1689

01:25:29,589 --> 01:25:24,919

Edward Snowden's Kathleen what do you

1690

01:25:33,810 --> 01:25:29,599

think boy

1691

01:25:40,649 --> 01:25:36,250

that's because I'm older and I was

1692

01:25:46,750 --> 01:25:44,619

now I I think that what you say is true

1693

01:25:49,089 --> 01:25:46,760

that is that there are a much smaller

1694

01:25:52,540 --> 01:25:49,099

segment of the population that's aware

1695

01:25:54,609 --> 01:25:52,550

of the necessity of keeping secrets and

1696

01:25:58,989 --> 01:25:54,619

the loose lips sink ships kind of

1697

01:26:03,939 --> 01:25:58,999

attitude and also about Russian spies

1698

01:26:06,040 --> 01:26:03,949

other spies I think that in our everyday

1699

01:26:09,879 --> 01:26:06,050

life most of us don't have to worry

1700

01:26:12,000 --> 01:26:09,889

about this and we aren't spending the

1701

01:26:15,189 --> 01:26:12,010

huge amounts of money on developing new

1702

01:26:17,409 --> 01:26:15,199

classified technology which leads to

1703

01:26:19,989 --> 01:26:17,419

keeping secrets you know all over the

1704

01:26:22,119 --> 01:26:19,999

place so I think that we pay much less

1705

01:26:24,549 --> 01:26:22,129

attention to it now I think the

1706

01:26:26,409 --> 01:26:24,559

government is very concerned because

1707

01:26:27,130 --> 01:26:26,419

they know that there are Russian spies

1708

01:26:31,480 --> 01:26:27,140

in China

1709

01:26:33,820 --> 01:26:31,490

spies and they know that if our enemies

1710

01:26:38,350 --> 01:26:33,830

get ahold of the technology we've

1711

01:26:40,210 --> 01:26:38,360

development developed they may be ahead

1712

01:26:45,160 --> 01:26:40,220

of us if they have what they have on

1713

01:26:47,950 --> 01:26:45,170

what we have so it's very important from

1714

01:26:51,970 --> 01:26:47,960

a serious viewpoint about national

1715

01:26:54,130 --> 01:26:51,980

security that we not let information out

1716

01:26:56,830 --> 01:26:54,140

about the newest the latest the best

1717

01:26:59,470 --> 01:26:56,840

development and even what we've learned

1718

01:27:02,550 --> 01:26:59,480

about what they have learned you know

1719

01:27:07,420 --> 01:27:02,560

what we've learned from Russian stuff

1720

01:27:11,290 --> 01:27:07,430

you can't put that out in the open so I

1721

01:27:13,810 --> 01:27:11,300

I think many people just don't even

1722

01:27:16,690 --> 01:27:13,820

think in terms of national security as

1723

01:27:19,390 --> 01:27:16,700

something they're concerned with but the

1724

01:27:23,830 --> 01:27:19,400

people who have to take it very very

1725

01:27:26,260 --> 01:27:23,840

seriously well I have seen in recent

1726

01:27:30,910 --> 01:27:26,270

days you know leaking is seems to be

1727

01:27:34,300 --> 01:27:30,920

common please well I don't know about

1728

01:27:36,790 --> 01:27:34,310

any hot spot military secrets that are

1729

01:27:39,550 --> 01:27:36,800

being leaked it depends upon the type of

1730

01:27:43,030 --> 01:27:39,560

information that's being leaked and as

1731

01:27:45,700 --> 01:27:43,040

I'm thinking about this back in in that

1732

01:27:50,530 --> 01:27:45,710

timeframe of the the Roswell crash in

1733

01:27:54,640 --> 01:27:50,540

the late 40s the early 50s I think that

1734

01:27:57,580 --> 01:27:54,650

people had a different attitude there

1735

01:28:00,670 --> 01:27:57,590

was a lot of loyalty toward the country

1736

01:28:04,990 --> 01:28:00,680

and it was my country right or wrong and

1737

01:28:07,210 --> 01:28:05,000

then since then we have had a lot of

1738

01:28:12,160 --> 01:28:07,220

problems in the federal government where

1739

01:28:15,850 --> 01:28:12,170

for example of Richard Nixon with with

1740

01:28:18,040 --> 01:28:15,860

Watergate and and I think that it was

1741

01:28:21,010 --> 01:28:18,050

very disappointing to the public because

1742

01:28:24,160 --> 01:28:21,020

we were beginning to perceive our

1743

01:28:28,750 --> 01:28:24,170

government in a different light we had

1744

01:28:32,230 --> 01:28:28,760

the Vietnam War and we knew about all of

1745

01:28:35,710 --> 01:28:32,240

the illegal and unethical activities

1746

01:28:37,480 --> 01:28:35,720

that our government was and and

1747

01:28:41,190 --> 01:28:37,490

particularly the President of the United

1748

01:28:43,980 --> 01:28:41,200

States was perpetrating two

1749

01:28:46,890 --> 01:28:43,990

that war going when it shouldn't have

1750

01:28:52,050 --> 01:28:46,900

been and I even learned that this that

1751

01:28:58,140 --> 01:28:52,060

Hoshi men had originally wanted to

1752

01:29:01,080 --> 01:28:58,150

establish a democracy in Vietnam and the

1753

01:29:03,870 --> 01:29:01,090

letter was given to the CIA the CIA

1754

01:29:07,590 --> 01:29:03,880

never delivered it to President

1755

01:29:10,640 --> 01:29:07,600

Eisenhower so that sort of thing took

1756

01:29:13,890 --> 01:29:10,650

place there there is a lot of

1757

01:29:16,770 --> 01:29:13,900

disappointment I think in our government

1758

01:29:19,620 --> 01:29:16,780

and unethical behavior in our government

1759

01:29:23,190 --> 01:29:19,630

and I don't know that we were aware of

1760

01:29:29,610 --> 01:29:23,200

that sort of thing back in the 1940s

1761

01:29:38,180 --> 01:29:29,620

when Stanton was what a 16 year old boy

1762

01:29:45,830 --> 01:29:41,550

well I I think what Cathy says is true

1763

01:29:53,310 --> 01:29:48,600

sociological realm so to speak at the

1764

01:29:57,330 --> 01:29:53,320

time I remember people working in war

1765

01:30:00,030 --> 01:29:57,340

industries and remember second world war

1766

01:30:03,330 --> 01:30:00,040

taught us a lot of less lessons one of

1767

01:30:06,630 --> 01:30:03,340

them was there was rationing you didn't

1768

01:30:10,950 --> 01:30:06,640

have access to butter and all kinds of

1769

01:30:13,650 --> 01:30:10,960

other things meat only certain days and

1770

01:30:15,360 --> 01:30:13,660

so forth and so on this was all but we

1771

01:30:18,060 --> 01:30:15,370

had to have an attitude that we were all

1772

01:30:19,590 --> 01:30:18,070

in this together that was the thing

1773

01:30:22,620 --> 01:30:19,600

about rationing it didn't matter who you

1774

01:30:25,830 --> 01:30:22,630

were how much money I had there were

1775

01:30:29,460 --> 01:30:25,840

certain rules things that you had to

1776

01:30:31,470 --> 01:30:29,470

keep track of and certainly on the

1777

01:30:34,800 --> 01:30:31,480

keeping secrets was a was a part of that

1778

01:30:37,640 --> 01:30:34,810

story and everybody knew that I've had

1779

01:30:39,810 --> 01:30:37,650

people tell me that surely those guys

1780

01:30:41,790 --> 01:30:39,820

Roswell or whatever would have told

1781

01:30:43,770 --> 01:30:41,800

their wives what they were doing I wrote

1782

01:30:46,880 --> 01:30:43,780

a book about operation majestic 12 you

1783

01:30:49,320 --> 01:30:46,890

know people keep incredible secrets and

1784

01:30:52,110 --> 01:30:49,330

you never I'd never told my wife

1785

01:30:54,870 --> 01:30:52,120

anything classified I wouldn't think of

1786

01:30:57,030 --> 01:30:54,880

doing that strong penalties

1787

01:30:58,290 --> 01:30:57,040

but I recognize that it would be stupid

1788

01:31:00,209 --> 01:30:58,300

to do that

1789

01:31:01,350 --> 01:31:00,219

you don't know where the spies are and

1790

01:31:03,390 --> 01:31:01,360

you don't know where your wife is gonna

1791

01:31:06,959 --> 01:31:03,400

say what to whom under what

1792

01:31:09,419 --> 01:31:06,969

circumstances so it gets pounded into

1793

01:31:11,760 --> 01:31:09,429

you hi I was made a courier to carry my

1794

01:31:13,439 --> 01:31:11,770

own classified slides because they

1795

01:31:15,450 --> 01:31:13,449

weren't ready in time for the regular

1796

01:31:19,080 --> 01:31:15,460

courier I was giving a classified

1797

01:31:23,310 --> 01:31:19,090

lecture a radiation shielding for

1798

01:31:25,080 --> 01:31:23,320

nuclear airplanes but anyway and they

1799

01:31:28,110 --> 01:31:25,090

made me a courier and they sat me down

1800

01:31:29,760 --> 01:31:28,120

and I was so glad to get rid of those

1801
01:31:32,459 --> 01:31:29,770
slides I mean they stressed if the plane

1802
01:31:34,620 --> 01:31:32,469
crashes they wanted my tin ireri if the

1803
01:31:36,840 --> 01:31:34,630
plane crashes we don't care about you we

1804
01:31:39,360 --> 01:31:36,850
want to recover this classified material

1805
01:31:41,550 --> 01:31:39,370
so we need your detailed itinerary and

1806
01:31:44,850 --> 01:31:41,560
this stuff doesn't go in the trunk of

1807
01:31:48,600 --> 01:31:44,860
your car the slides no they gotta be

1808
01:31:50,399 --> 01:31:48,610
with you on your person and I was so

1809
01:31:52,399 --> 01:31:50,409
glad to get rid of that stuff

1810
01:31:54,660 --> 01:31:52,409
because they really make it sound like

1811
01:31:57,090 --> 01:31:54,670
so I'm going to paying attention and you

1812
01:32:00,899 --> 01:31:57,100
better do the job properly or you're in

1813
01:32:02,760 --> 01:32:00,909

deep trouble look if you left something

1814

01:32:05,160 --> 01:32:02,770

classified out on your desk in a

1815

01:32:09,300 --> 01:32:05,170

classified facility guards at the door

1816

01:32:12,090 --> 01:32:09,310

no access to anybody from the outside if

1817

01:32:14,640 --> 01:32:12,100

you left a report a planned report out

1818

01:32:16,830 --> 01:32:14,650

on your desk the guards went around

1819

01:32:19,709 --> 01:32:16,840

every night and you'd get a call at

1820

01:32:21,390 --> 01:32:19,719

10:30 or 11:00 at night you left some

1821

01:32:27,450 --> 01:32:21,400

classified material you come in and

1822

01:32:30,270 --> 01:32:27,460

inventory all your documents now you

1823

01:32:32,729 --> 01:32:30,280

really didn't want that to happen more

1824

01:32:36,390 --> 01:32:32,739

than once once was too many times but

1825

01:32:41,879 --> 01:32:36,400

after that you were very very conscious

1826
01:32:44,790 --> 01:32:41,889
of keeping secrets I think we were sort

1827
01:32:47,459 --> 01:32:44,800
of leaning towards this before that the

1828
01:32:48,470 --> 01:32:47,469
military it seems to be very good at

1829
01:32:51,689 --> 01:32:48,480
keeping secrets

1830
01:32:53,810 --> 01:32:51,699
and so Kathleen I mean I guess that's

1831
01:32:57,899 --> 01:32:53,820
probably where you stand right I mean if

1832
01:32:59,610 --> 01:32:57,909
if there was any other incident a UFO

1833
01:33:03,660 --> 01:32:59,620
sighting or crash or what have you

1834
01:33:07,290 --> 01:33:03,670
even today if the military steps in and

1835
01:33:08,530 --> 01:33:07,300
takes control then I'm assuming you

1836
01:33:11,440 --> 01:33:08,540
believe that

1837
01:33:15,100 --> 01:33:11,450
you know there will be no loose lips

1838
01:33:18,160 --> 01:33:15,110

right or like the rod that is correct

1839

01:33:20,200 --> 01:33:18,170

yes I don't think that there will be you

1840

01:33:23,710 --> 01:33:20,210

know it would be classified above top

1841

01:33:28,150 --> 01:33:23,720

secret top secret code word and those

1842

01:33:32,650 --> 01:33:28,160

kinds of secrets are not released to the

1843

01:33:36,790 --> 01:33:32,660

public and you Loosli lips sink ships

1844

01:33:41,850 --> 01:33:36,800

and you're not going to talk about that

1845

01:33:45,330 --> 01:33:41,860

kind of thing the consequences on the

1846

01:33:51,850 --> 01:33:45,340

American public could be devastating

1847

01:33:55,270 --> 01:33:51,860

with a great deal of distress caused to

1848

01:33:58,930 --> 01:33:55,280

individuals without any preparation for

1849

01:34:00,730 --> 01:33:58,940

what have occurred yes that people did

1850

01:34:02,860 --> 01:34:00,740

eventually come out and speak about

1851
01:34:07,330 --> 01:34:02,870
Roswell New Mexico and the crash occur

1852
01:34:10,360 --> 01:34:07,340
on oh why do I got the story if there

1853
01:34:12,760 --> 01:34:10,370
were articles in the paper on the day

1854
01:34:18,280 --> 01:34:12,770
when the recovery was made and then a

1855
01:34:20,470 --> 01:34:18,290
day later the cover-up ensued why would

1856
01:34:27,480 --> 01:34:20,480
they come out and even later and speak

1857
01:34:35,680 --> 01:34:27,490
about it if wow look it was 40 years

1858
01:34:37,990 --> 01:34:35,690
later and people don't ask about it but

1859
01:34:39,850 --> 01:34:38,000
we were assiduous and trying to track

1860
01:34:44,290 --> 01:34:39,860
down people one of the big things was

1861
01:34:46,510 --> 01:34:44,300
for example that Walter Haut who was the

1862
01:34:49,030 --> 01:34:46,520
basic public information officer and a

1863
01:34:52,570 --> 01:34:49,040

world war two Bombardier incidentally 20

1864

01:34:56,650 --> 01:34:52,580

missions over Japan he had a base

1865

01:35:03,070 --> 01:34:56,660

yearbook so when I discovered him I was

1866

01:35:05,260 --> 01:35:03,080

lucky I called the newspaper and found

1867

01:35:07,600 --> 01:35:05,270

out that he worked there I didn't expect

1868

01:35:10,690 --> 01:35:07,610

that at all I was looking for anybody

1869

01:35:13,600 --> 01:35:10,700

who could tell me anything about he

1870

01:35:15,880 --> 01:35:13,610

works here what his wife works here he

1871

01:35:17,290 --> 01:35:15,890

didn't work there his wife did but

1872

01:35:21,970 --> 01:35:17,300

that's how I found him I was very very

1873

01:35:29,330 --> 01:35:27,020

you people were conscientious and what

1874

01:35:31,700 --> 01:35:29,340

they told me initially what I heard was

1875

01:35:34,700 --> 01:35:31,710

stuff that I found later in old

1876

01:35:37,190 --> 01:35:34,710

newspapers there were articles and some

1877

01:35:41,390 --> 01:35:37,200

reporters were assiduous and tracking

1878

01:35:44,660 --> 01:35:41,400

things down but I think they thought if

1879

01:35:46,640 --> 01:35:44,670

Joe talked I guess I can or you know

1880

01:35:49,400 --> 01:35:46,650

it's so long ago it can't possibly be

1881

01:35:51,860 --> 01:35:49,410

still secret and we don't have any

1882

01:35:54,230 --> 01:35:51,870

technological information from back then

1883

01:35:55,550 --> 01:35:54,240

that's worth anything today anyway and

1884

01:35:58,990 --> 01:35:55,560

so forth and so on

1885

01:36:01,130 --> 01:35:59,000

also there Kathy hid it before our

1886

01:36:05,240 --> 01:36:01,140

attitude toward the government had

1887

01:36:08,530 --> 01:36:05,250

changed I think back in the 1970s to

1888

01:36:13,100 --> 01:36:08,540

Stan there was a lot in the news about

1889

01:36:16,280 --> 01:36:13,110

UFOs and on television it was a time

1890

01:36:20,960 --> 01:36:16,290

when the Travis Walton case for example

1891

01:36:24,080 --> 01:36:20,970

had made big news nationwide maybe

1892

01:36:26,990 --> 01:36:24,090

worldwide we had the famous Charlie

1893

01:36:29,750 --> 01:36:27,000

Hickson and Calvin Parker case there was

1894

01:36:33,140 --> 01:36:29,760

there were some big cases of alien

1895

01:36:38,470 --> 01:36:33,150

abduction in that time frame and so

1896

01:36:41,360 --> 01:36:38,480

wasn't so important to hide this little

1897

01:36:45,260 --> 01:36:41,370

crashed saucer incident that occurred

1898

01:36:48,080 --> 01:36:45,270

many many years before that given the

1899

01:36:52,160 --> 01:36:48,090

idea that people were actually being

1900

01:36:53,920 --> 01:36:52,170

taken aboard craft yeah there hadn't

1901

01:36:58,880 --> 01:36:53,930

been any abductions that we knew about

1902

01:37:00,740 --> 01:36:58,890

back in the early days 40s and 50s you

1903

01:37:02,990 --> 01:37:00,750

know we didn't know about them there

1904

01:37:06,650 --> 01:37:03,000

were people abducted but they weren't

1905

01:37:09,230 --> 01:37:06,660

gonna freak out you're pretty cool yeah

1906

01:37:11,540 --> 01:37:09,240

it does seem to me that even in recent

1907

01:37:14,600 --> 01:37:11,550

years those have who have come out and

1908

01:37:15,080 --> 01:37:14,610

shared their stories whatever they may

1909

01:37:19,040 --> 01:37:15,090

be

1910

01:37:22,670 --> 01:37:19,050

UFO related you know it's post active

1911

01:37:25,100 --> 01:37:22,680

duty and post reserves and you know I

1912

01:37:26,450 --> 01:37:25,110

feel like as long as they're actually

1913

01:37:30,140 --> 01:37:26,460

working for the government they don't

1914

01:37:32,150 --> 01:37:30,150

come out and say anything you know it so

1915

01:37:33,750 --> 01:37:32,160

and then some sense they're still

1916

01:37:38,280 --> 01:37:33,760

honoring

1917

01:37:39,750 --> 01:37:38,290

and that oath but I think yeah you make

1918

01:37:43,320 --> 01:37:39,760

a really good point people have lost a

1919

01:37:45,540 --> 01:37:43,330

lot of trust and if they think that

1920

01:37:48,840 --> 01:37:45,550

their higher duty is to the Constitution

1921

01:37:51,830 --> 01:37:48,850

and to the Republic itself then maybe

1922

01:37:57,810 --> 01:37:51,840

they will come out and say something I

1923

01:38:01,710 --> 01:37:57,820

want to ask you a very again a nostalgic

1924

01:38:07,260 --> 01:38:01,720

question this sitings the member of the

1925

01:38:10,620 --> 01:38:07,270

show sightings a long time ago was that

1926

01:38:14,940 --> 01:38:10,630

was the 90s do you do you feel like that

1927

01:38:18,210 --> 01:38:14,950

show actually had a impact on public

1928

01:38:22,320 --> 01:38:18,220

perception of this beautiful logical

1929

01:38:26,490 --> 01:38:22,330

enterprise I think anything that was on

1930

01:38:28,320 --> 01:38:26,500

the tube did I think the wider the

1931

01:38:30,000 --> 01:38:28,330

discussion the more people who say well

1932

01:38:35,010 --> 01:38:30,010

you know I saw one of those when I was

1933

01:38:39,060 --> 01:38:35,020

in it stimulates discussion and release

1934

01:38:40,740 --> 01:38:39,070

of information personal experiences as

1935

01:38:43,290 --> 01:38:40,750

opposed to being part of a team that was

1936

01:38:46,290 --> 01:38:43,300

examining the characteristics of UFO

1937

01:38:50,190 --> 01:38:46,300

wreckage that's another story we don't

1938

01:38:53,990 --> 01:38:50,200

get many of those reports you know but

1939

01:38:56,700 --> 01:38:54,000

having seen UFOs having helped recover

1940

01:39:00,600 --> 01:38:56,710

wreckage whatever that that's a little

1941

01:39:02,820 --> 01:39:00,610

different you know you're just telling

1942

01:39:03,900 --> 01:39:02,830

about an experience you don't have the

1943

01:39:05,160 --> 01:39:03,910

pieces you don't have the

1944

01:39:06,600 --> 01:39:05,170

characteristics you don't have what

1945

01:39:08,780 --> 01:39:06,610

they're made out of what their

1946

01:39:14,790 --> 01:39:08,790

capabilities are all that sort of stuff

1947

01:39:17,580 --> 01:39:14,800

so I think even today when I check my

1948

01:39:19,110 --> 01:39:17,590

audiences at the end of a lecture I ask

1949

01:39:20,880 --> 01:39:19,120

how many people here believe they've

1950

01:39:22,980 --> 01:39:20,890

seen what I would consider to be a

1951

01:39:24,900 --> 01:39:22,990

flying saucer having defined my terms in

1952

01:39:27,240 --> 01:39:24,910

the lecture and I just want you to raise

1953

01:39:30,480 --> 01:39:27,250

your hand and I'll just I'm not asking

1954

01:39:32,130 --> 01:39:30,490

for names or anything and so how many

1955

01:39:33,570 --> 01:39:32,140

believe they've seen what I would

1956

01:39:36,090 --> 01:39:33,580

consider to be a fly's interest raise

1957

01:39:38,550 --> 01:39:36,100

your hand I go around pointing and

1958

01:39:42,110 --> 01:39:38,560

Counting at the same time one two three

1959

01:39:46,970 --> 01:39:42,120

four typically it's 10% of the audience

1960

01:39:51,740 --> 01:39:46,980

then I ask how many of you reported

1961

01:39:56,120 --> 01:39:51,750

so 90% of the hands go down I've done

1962

01:39:57,920 --> 01:39:56,130

this hundreds of times or and if there's

1963

01:40:00,260 --> 01:39:57,930

still hands when I go through that who

1964

01:40:02,000 --> 01:40:00,270

did report it I'll ask how many of you

1965

01:40:03,440 --> 01:40:02,010

were in the military at the time and if

1966

01:40:04,180 --> 01:40:03,450

there's still hands you want to tell us

1967

01:40:07,790 --> 01:40:04,190

about it

1968

01:40:09,770 --> 01:40:07,800

now I put the people on the spot one guy

1969

01:40:11,750 --> 01:40:09,780

in front of 1,300 people says I can't

1970

01:40:14,530 --> 01:40:11,760

they told me not to say anything

1971

01:40:17,900 --> 01:40:14,540

another guy said they took my pictures

1972

01:40:19,220 --> 01:40:17,910

long silence I said I'm sure the

1973

01:40:22,220 --> 01:40:19,230

audience would like to hear the rest of

1974

01:40:23,870 --> 01:40:22,230

that story well it turns out he remained

1975

01:40:28,490 --> 01:40:23,880

seated I said I'm not asking your name

1976

01:40:32,330 --> 01:40:28,500

you know give Moe microphone and he was

1977

01:40:34,070 --> 01:40:32,340

an officer of Pilate and apply the plane

1978

01:40:36,520 --> 01:40:34,080

20 miles ahead they were flying across

1979

01:40:39,530 --> 01:40:36,530

the Pacific 20 miles ahead radioed back

1980

01:40:40,880 --> 01:40:39,540

that saucer heading your way and they

1981

01:40:44,390 --> 01:40:40,890

had gun cameras and they took pictures

1982

01:40:47,240 --> 01:40:44,400

and they contacted the base intelligence

1983

01:40:51,020 --> 01:40:47,250

office and when they landed the film got

1984

01:40:55,940 --> 01:40:51,030

taken and they got debriefed and told

1985

01:40:57,290 --> 01:40:55,950

never to say anything you know and under

1986

01:40:58,820 --> 01:40:57,300

those conditions somebody tells you

1987

01:41:02,690 --> 01:40:58,830

never to say anything and you're in the

1988

01:41:06,860 --> 01:41:02,700

military you keep your mouth shut you

1989

01:41:09,230 --> 01:41:06,870

know and a little story out of Vietnam

1990

01:41:11,120 --> 01:41:09,240

guy came up to me after a luxurious I'll

1991

01:41:13,400 --> 01:41:11,130

talk to you later when I asked you know

1992

01:41:17,500 --> 01:41:13,410

he'd tell me more so he comes over and

1993

01:41:21,350 --> 01:41:17,510

he was flying a helicopter in them and

1994

01:41:25,100 --> 01:41:21,360

this leaked vehicle came out suddenly

1995

01:41:27,230 --> 01:41:25,110

showed up circled around them twice they

1996

01:41:29,330 --> 01:41:27,240

thought for sure they were gonna be that

1997

01:41:30,530 --> 01:41:29,340

it was a new Russian vehicle they were

1998

01:41:33,110 --> 01:41:30,540

gonna be splattered across the

1999

01:41:35,860 --> 01:41:33,120

countryside and it took off so when they

2000

01:41:37,730 --> 01:41:35,870

landed he dutifully reported the case

2001

01:41:39,380 --> 01:41:37,740

government wants to know about new

2002

01:41:42,170 --> 01:41:39,390

technology showing up in a battlefield

2003

01:41:44,150 --> 01:41:42,180

and the next day the commander of the

2004

01:41:45,320 --> 01:41:44,160

base comes over to a lieutenant Jones

2005

01:41:49,490 --> 01:41:45,330

you didn't see anything strange

2006

01:41:52,280 --> 01:41:49,500

yesterday did you no sir all right no I

2007

01:41:56,690 --> 01:41:52,290

did and I reported it he said first and

2008

01:41:59,450 --> 01:41:56,700

then the colonel says you didn't hear me

2009

01:42:00,830 --> 01:41:59,460

lieutenant Jones you didn't see anything

2010

01:42:06,380 --> 01:42:00,840

strange yesterday did you

2011

01:42:09,530 --> 01:42:06,390

no sir you know it was very clear what

2012

01:42:11,150 --> 01:42:09,540

he wanted him to say and if he wanted to

2013

01:42:13,490 --> 01:42:11,160

keep you like flying was another

2014

01:42:17,260 --> 01:42:13,500

question asked along the way yes sir

2015

01:42:21,050 --> 01:42:17,270

you didn't see anything did you no sir I

2016

01:42:22,550 --> 01:42:21,060

what can I say I everybody has had these

2017

01:42:25,070 --> 01:42:22,560

kind of experiences when they talk to

2018

01:42:28,130 --> 01:42:25,080

the number of former military people

2019

01:42:30,650 --> 01:42:28,140

yeah well and the reason I was starting

2020

01:42:33,890 --> 01:42:30,660

with the show you know 20-some years ago

2021

01:42:35,270 --> 01:42:33,900

is because when that show came on though

2022

01:42:36,790 --> 01:42:35,280

it was creative sometimes and it's

2023

01:42:41,750 --> 01:42:36,800

telling it it really wasn't

2024

01:42:44,150 --> 01:42:41,760

sensationalism fast forward to today and

2025

01:42:48,760 --> 01:42:44,160

there is an enormous amount of

2026

01:42:53,360 --> 01:42:48,770

sensationalism on the topic of UFOs and

2027

01:42:54,890 --> 01:42:53,370

extraterrestrials yeah morinda in the

2028

01:42:57,500 --> 01:42:54,900

wrong direction or does it does it not

2029

01:43:00,080 --> 01:42:57,510

matter well I don't think it matters

2030

01:43:02,000 --> 01:43:00,090

because I think the percentage of people

2031

01:43:03,980 --> 01:43:02,010

who think that there is a life out there

2032

01:43:05,860 --> 01:43:03,990

is very high today and it wasn't fifty

2033

01:43:08,060 --> 01:43:05,870

years ago

2034

01:43:14,450 --> 01:43:08,070

there were many people who thought we

2035

01:43:16,280 --> 01:43:14,460

were the only ones around to me well the

2036

01:43:17,780 --> 01:43:16,290

further thought that if there was any

2037

01:43:23,180 --> 01:43:17,790

way out there they can't get here anyway

2038

01:43:26,780 --> 01:43:23,190

so you know no problem to me the

2039

01:43:31,190 --> 01:43:26,790

decision is based upon how accurate the

2040

01:43:35,140 --> 01:43:31,200

reports are if it is fiction being

2041

01:43:38,900 --> 01:43:35,150

presented as fact for the purpose of

2042

01:43:44,060 --> 01:43:38,910

sensationalizing a story then I'm very

2043

01:43:46,370 --> 01:43:44,070

much opposed to that but if it is

2044

01:43:50,150 --> 01:43:46,380

presented as something that is

2045

01:43:53,990 --> 01:43:50,160

extraordinary and did actually occur and

2046

01:43:56,890 --> 01:43:54,000

it's being presented accurately that I

2047

01:44:01,250 --> 01:43:56,900

think that that's a very good thing and

2048

01:44:03,260 --> 01:44:01,260

the television media is the one media

2049

01:44:06,980 --> 01:44:03,270

where you're going to reach the largest

2050

01:44:11,960 --> 01:44:06,990

number of people there will be millions

2051

01:44:14,600 --> 01:44:11,970

of people viewing it right in front of

2052

01:44:16,610 --> 01:44:14,610

me I have the UFO investigators handbook

2053

01:44:18,680 --> 01:44:16,620

the practical guide to researching

2054

01:44:21,170 --> 01:44:18,690

identifying and documenting unexpected

2055

01:44:24,700 --> 01:44:21,180

sightings by Craig Glen day forward by

2056

01:44:30,410 --> 01:44:24,710

Stanton T Friedman this book is from 99

2057

01:44:32,510 --> 01:44:30,420

and I and I wonder if if you both will

2058

01:44:35,150 --> 01:44:32,520

have ever considered creating your own

2059

01:44:37,400 --> 01:44:35,160

version of a UFO investigators handbook

2060

01:44:39,080 --> 01:44:37,410

because I know there are a lot of people

2061

01:44:43,880 --> 01:44:39,090

out there that do want to investigate

2062

01:44:45,200 --> 01:44:43,890

and my suspicion is assuming that you

2063

01:44:48,140 --> 01:44:45,210

know people are doing the right thing

2064

01:44:52,580 --> 01:44:48,150

and they're they're grounded and in data

2065

01:44:55,610 --> 01:44:52,590

and proper research and approach that

2066

01:44:58,700 --> 01:44:55,620

the more people we have investigating

2067

01:45:00,950 --> 01:44:58,710

the better for you follow G and so would

2068

01:45:03,680 --> 01:45:00,960

you guys ever consider doing a book

2069

01:45:06,770 --> 01:45:03,690

together you know to to help bring up

2070

01:45:09,200 --> 01:45:06,780

another generation of investigators well

2071

01:45:11,660 --> 01:45:09,210

we've done three books together yes and

2072

01:45:13,990 --> 01:45:11,670

you know I I really think that we should

2073

01:45:17,210 --> 01:45:14,000

leave that to the mutual UFO network

2074

01:45:20,150 --> 01:45:17,220

they have a very very good training

2075

01:45:22,340 --> 01:45:20,160

program for field investigators they

2076

01:45:24,950 --> 01:45:22,350

have a very well written field

2077

01:45:29,390 --> 01:45:24,960

investigators manual which is a handbook

2078

01:45:33,260 --> 01:45:29,400

and in fact I wrote part of that manual

2079

01:45:36,260 --> 01:45:33,270

and I think that that is the best place

2080

01:45:39,980 --> 01:45:36,270

for anyone to go to if they want to

2081

01:45:42,620 --> 01:45:39,990

learn to become a good field

2082

01:45:46,850 --> 01:45:42,630

investigator and that's what I did way

2083

01:45:50,480 --> 01:45:46,860

back in 1991 when I wanted to

2084

01:45:53,050 --> 01:45:50,490

investigate the hill case myself is to

2085

01:45:55,010 --> 01:45:53,060

become a MUFON field investigator and

2086

01:45:57,650 --> 01:45:55,020

undergo that training

2087

01:46:00,590 --> 01:45:57,660

it was very well worth it and that's

2088

01:46:02,240 --> 01:46:00,600

what I would recommend to anybody okay

2089

01:46:08,420 --> 01:46:02,250

yeah I guess they can just go to you

2090

01:46:11,330 --> 01:46:08,430

MUFON search the site somewhere yes go

2091

01:46:12,860 --> 01:46:11,340

to my website they get me fons address

2092

01:46:15,280 --> 01:46:12,870

there's new funds address on your

2093

01:46:19,880 --> 01:46:15,290

website camping I believe that it is

2094

01:46:21,140 --> 01:46:19,890

yeah because I know mine is so go to the

2095

01:46:25,120 --> 01:46:21,150

guys have been spending a lot of time

2096

01:46:28,250 --> 01:46:25,130

formed formatting and arranging things

2097

01:46:30,320 --> 01:46:28,260

we can't do it all

2098

01:46:33,020 --> 01:46:30,330

and you've done an enormous amount which

2099

01:46:36,080 --> 01:46:33,030

which is astounding and its own right

2100

01:46:39,340 --> 01:46:36,090

and I just imagine if we had tenfold as

2101
01:46:42,830 --> 01:46:39,350
many you know how far along may we be

2102
01:46:46,340 --> 01:46:42,840
pretty far yes you know if we could get

2103
01:46:47,570 --> 01:46:46,350
more media people getting involved

2104
01:46:50,210 --> 01:46:47,580
mm-hmm

2105
01:46:53,960 --> 01:46:50,220
and incidentally there's something

2106
01:46:57,550 --> 01:46:53,970
that's happened very recently popular

2107
01:46:59,660 --> 01:46:57,560
science put out a whole issue and not

2108
01:47:02,810 --> 01:46:59,670
popular songs the Scientific American

2109
01:47:06,530 --> 01:47:02,820
sorry much higher level put out a whole

2110
01:47:09,770 --> 01:47:06,540
issue on looking for extraterrestrial

2111
01:47:13,820 --> 01:47:09,780
life and Newsweek magazine a special

2112
01:47:17,060 --> 01:47:13,830
edition I just got it a week ago all

2113
01:47:19,430 --> 01:47:17,070

about life in the universe 100 pages

2114

01:47:24,950 --> 01:47:19,440

long and it talks about UFOs in a

2115

01:47:28,160 --> 01:47:24,960

serious way and so I I'm encouraged by

2116

01:47:31,150 --> 01:47:28,170

that I mean Scientific American and

2117

01:47:35,560 --> 01:47:31,160

Newsweek are two very respectable

2118

01:47:39,050 --> 01:47:35,570

publications and they were not you know

2119

01:47:41,210 --> 01:47:39,060

laughing about the subject at all and

2120

01:47:44,900 --> 01:47:41,220

that's great that's that's exactly what

2121

01:47:49,820 --> 01:47:44,910

we need to bring us back to the original

2122

01:47:52,280 --> 01:47:49,830

topic of Roswell so the the craft that

2123

01:47:55,580 --> 01:47:52,290

was recovered what what happened to that

2124

01:47:57,890 --> 01:47:55,590

where did that go well we think the

2125

01:47:59,360 --> 01:47:57,900

wreckage went to several places one

2126
01:48:01,070 --> 01:47:59,370
would be wright-patterson Air Force Base

2127
01:48:03,020 --> 01:48:01,080
because that's where the foreign

2128
01:48:04,940 --> 01:48:03,030
technology division of the Air Force was

2129
01:48:07,210 --> 01:48:04,950
I was there many times I had a contract

2130
01:48:10,640 --> 01:48:07,220
with them looking at foreign technology

2131
01:48:13,120 --> 01:48:10,650
Russian not alien but while I was there

2132
01:48:15,740 --> 01:48:13,130
I visited Project Blue Book and so forth

2133
01:48:20,870 --> 01:48:15,750
some I'm sure some of it went to Los

2134
01:48:22,760 --> 01:48:20,880
Alamos they had a biology section there

2135
01:48:25,340 --> 01:48:22,770
they were very concerned about the

2136
01:48:30,520 --> 01:48:25,350
effects of radiation on people so if

2137
01:48:34,300 --> 01:48:30,530
you're used to handling people bodies

2138
01:48:38,480 --> 01:48:34,310

that's the place you send them and so

2139

01:48:41,030 --> 01:48:38,490

there has been plenty of opportunity for

2140

01:48:41,990 --> 01:48:41,040

very competent people to get heavily

2141

01:48:44,840 --> 01:48:42,000

involved in

2142

01:48:48,860 --> 01:48:44,850

ecology on the inside instead of from

2143

01:48:50,810 --> 01:48:48,870

the outside the way we are and some of

2144

01:48:53,120 --> 01:48:50,820

them will talk maybe if we can convince

2145

01:48:56,960 --> 01:48:53,130

enough of them that the government the

2146

01:48:59,960 --> 01:48:56,970

people are entitled to know and you know

2147

01:49:04,100 --> 01:48:59,970

it I'm very curious about two major

2148

01:49:07,760 --> 01:49:04,110

publications doing whole issues within a

2149

01:49:11,120 --> 01:49:07,770

month period that's you know who else is

2150

01:49:15,290 --> 01:49:11,130

it going to pick up when's the next one

2151

01:49:17,660 --> 01:49:15,300

coming out and I'll bet they sold well

2152

01:49:24,200 --> 01:49:17,670

too so that's always an encouragement of

2153

01:49:26,450 --> 01:49:24,210

a magazine to write and once in a while

2154

01:49:28,130 --> 01:49:26,460

I do see mainstream does put something

2155

01:49:31,760 --> 01:49:28,140

out because I think it sells papers it

2156

01:49:33,950 --> 01:49:31,770

attracts viewers on occasion kathleen so

2157

01:49:35,990 --> 01:49:33,960

you know the the crap that was recovered

2158

01:49:41,210 --> 01:49:36,000

what do you think happened with that

2159

01:49:44,390 --> 01:49:41,220

technology i do believe that we did

2160

01:49:47,150 --> 01:49:44,400

attempt to back engineer some of that

2161

01:49:51,560 --> 01:49:47,160

technology and that it took many many

2162

01:49:54,260 --> 01:49:51,570

years because and I asked Bob would dr.

2163

01:49:59,380 --> 01:49:54,270

Bob what about that who at one time was

2164

01:50:04,160 --> 01:49:59,390

Stan's boss and what he told me is that

2165

01:50:06,920 --> 01:50:04,170

we you have to be fairly close in in

2166

01:50:09,710 --> 01:50:06,930

terms of development to the point where

2167

01:50:14,450 --> 01:50:09,720

that craft was if you're going to be

2168

01:50:17,840 --> 01:50:14,460

able to back engineer it so maybe we

2169

01:50:22,400 --> 01:50:17,850

were close to the development of for

2170

01:50:24,590 --> 01:50:22,410

example night-vision goggles and that

2171

01:50:28,220 --> 01:50:24,600

might have been something that came from

2172

01:50:34,370 --> 01:50:28,230

that craft there are other things such

2173

01:50:37,400 --> 01:50:34,380

as fiber optics that perhaps might have

2174

01:50:39,200 --> 01:50:37,410

been developed as a result of that and

2175

01:50:43,550 --> 01:50:39,210

I'm speculating here I don't have

2176

01:50:47,810 --> 01:50:43,560

evidence example I can give you one

2177

01:50:49,820 --> 01:50:47,820

example I was reading in our I used to

2178

01:50:51,350 --> 01:50:49,830

do a weekly science commentary about new

2179

01:50:54,170 --> 01:50:51,360

developments read a lot of scientific

2180

01:50:55,450 --> 01:50:54,180

literature and there was one about the

2181

01:50:57,130 --> 01:50:55,460

development of new

2182

01:51:01,390 --> 01:50:57,140

better permanent magnets

2183

01:51:04,540 --> 01:51:01,400

neodymium-iron-boron and it mentioned in

2184

01:51:07,240 --> 01:51:04,550

the article about these new ones that

2185

01:51:10,450 --> 01:51:07,250

the original work on samarium-cobalt

2186

01:51:14,140 --> 01:51:10,460

which were the leading permanent magnets

2187

01:51:17,580 --> 01:51:14,150

way back in the 40s that the work was

2188

01:51:27,220 --> 01:51:17,590

done at wright-patterson Air Force Base

2189

01:51:29,770 --> 01:51:27,230

and so I think as it turns out the the

2190

01:51:31,060 --> 01:51:29,780

pieces would have been sent to labs and

2191

01:51:33,220 --> 01:51:31,070

you'd figure out what the heck is this

2192

01:51:35,229 --> 01:51:33,230

stuff and somebody would have said well

2193

01:51:38,080 --> 01:51:35,239

I don't know where this is coming from

2194

01:51:39,940 --> 01:51:38,090

or what it relates to but it's samarium

2195

01:51:42,790 --> 01:51:39,950

and cobalt why would you put those two

2196

01:51:44,560 --> 01:51:42,800

together and well that's not your

2197

01:51:47,979 --> 01:51:44,570

problem we'll go to somebody else and

2198

01:51:50,110 --> 01:51:47,989

you measure the properties and the guy

2199

01:51:52,570 --> 01:51:50,120

comes back and said at the highest

2200

01:51:54,580 --> 01:51:52,580

magnetic field from any material I've

2201

01:51:56,890 --> 01:51:54,590

ever tested make a great permanent

2202

01:51:58,510 --> 01:51:56,900

magnet okay and then you go to somebody

2203

01:52:01,000 --> 01:51:58,520

else how do you put together samarium

2204

01:52:04,120 --> 01:52:01,010

and cobalt so they make a sensible

2205

01:52:06,550 --> 01:52:04,130

material well when I was reading this

2206

01:52:10,000 --> 01:52:06,560

article the original work was done at

2207

01:52:11,500 --> 01:52:10,010

wright-patterson Air Force Base that's

2208

01:52:15,790 --> 01:52:11,510

where the wreckage would have been

2209

01:52:18,430 --> 01:52:15,800

brought so I think there's a slight

2210

01:52:20,979 --> 01:52:18,440

example of where you grab a ball and run

2211

01:52:22,870 --> 01:52:20,989

with it here's something different let's

2212

01:52:26,110 --> 01:52:22,880

see what we can do oh we can make that

2213

01:52:30,540 --> 01:52:26,120

now you can't go into your local v &

2214

01:52:32,350 --> 01:52:30,550

diamond by samarium-cobalt but at least

2215

01:52:36,370 --> 01:52:32,360

appropriate people would have been able

2216

01:52:37,930 --> 01:52:36,380

to follow up on that and I think so you

2217

01:52:40,720 --> 01:52:37,940

can call that back engineering if you

2218

01:52:43,479 --> 01:52:40,730

want us look during World War two if a

2219

01:52:45,850 --> 01:52:43,489

German airplane crashed in England we

2220

01:52:47,260 --> 01:52:45,860

looked at the wreckage to see what we

2221

01:52:49,420 --> 01:52:47,270

could learn about the materials that

2222

01:52:51,400 --> 01:52:49,430

were used stuff like that if it hadn't

2223

01:52:53,950 --> 01:52:51,410

been all destroyed by an explosion or

2224

01:52:55,870 --> 01:52:53,960

something its standard practice if I was

2225

01:52:58,150 --> 01:52:55,880

an English plane crashed in Germany

2226

01:53:00,490 --> 01:52:58,160

let's look at the pieces what are they

2227

01:53:02,590 --> 01:53:00,500

doing that we aren't doing that this has

2228

01:53:02,970 --> 01:53:02,600

been standard practice for a very long

2229

01:53:05,650 --> 01:53:02,980

time

2230

01:53:09,020 --> 01:53:05,660

make better to the spirit yeah because

2231

01:53:12,170 --> 01:53:09,030

we've got the enemy look what they did

2232

01:53:15,070 --> 01:53:12,180

so there's nothing surprising about that

2233

01:53:19,760 --> 01:53:15,080

and there are people who specialize in

2234

01:53:21,380 --> 01:53:19,770

back engineering so Kathleen you do

2235

01:53:23,930 --> 01:53:21,390

believe then that there was a UFO

2236

01:53:27,800 --> 01:53:23,940

recovered and that there were alien

2237

01:53:31,690 --> 01:53:27,810

beings recovered and Stan thenew you

2238

01:53:34,280 --> 01:53:31,700

agree correct yes yes and this all

2239

01:53:38,270 --> 01:53:34,290

originated from Roswell New Mexico the

2240

01:53:42,410 --> 01:53:38,280

corona crash yeah that was the earliest

2241

01:53:45,050 --> 01:53:42,420

one then came Aztec and then came a

2242

01:53:49,220 --> 01:53:45,060

place in Pennsylvania and then came one

2243

01:53:53,710 --> 01:53:49,230

in the northern part of Washington State

2244

01:53:56,840 --> 01:53:53,720

that there have been several crashes but

2245

01:53:59,240 --> 01:53:56,850

let's face it it's perfectly clear if

2246

01:54:02,480 --> 01:53:59,250

you can grab a hold of an advanced piece

2247

01:54:05,660 --> 01:54:02,490

of technology then maybe you can learn

2248

01:54:07,700 --> 01:54:05,670

something that we don't yet know but

2249

01:54:09,740 --> 01:54:07,710

that doesn't mean you can build another

2250

01:54:11,480 --> 01:54:09,750

one it doesn't mean you can build

2251

01:54:13,580 --> 01:54:11,490

another look you give the smartest

2252

01:54:17,740 --> 01:54:13,590

people on the planet a digital

2253

01:54:20,330 --> 01:54:17,750

wristwatch \$25 watch today back in 1934

2254

01:54:21,950 --> 01:54:20,340

they'd have known it was a watch keeps

2255

01:54:23,450 --> 01:54:21,960

time they could see there's a battery

2256

01:54:26,480 --> 01:54:23,460

there if you look carefully

2257

01:54:29,600 --> 01:54:26,490

could they have duplicated the watch no

2258

01:54:31,790 --> 01:54:29,610

chance or they even the chip not at all

2259

01:54:35,180 --> 01:54:31,800

we didn't have the capability of doing

2260

01:54:38,690 --> 01:54:35,190

it then that's somebody give me a great

2261

01:54:40,190 --> 01:54:38,700

spot what that was a good point even if

2262

01:54:42,560 --> 01:54:40,200

you knew what it was you could recognize

2263

01:54:46,130 --> 01:54:42,570

what its uses it does not mean that you

2264

01:54:48,320 --> 01:54:46,140

can grapple with its advanced

2265

01:54:52,610 --> 01:54:48,330

technologies that's that's it for the

2266

01:54:54,710 --> 01:54:52,620

show I this went by so fast thank you so

2267

01:54:57,110 --> 01:54:54,720

much Stanton and Kathleen for joining me

2268

01:54:58,130 --> 01:54:57,120

I really do appreciate it well thanks

2269

01:54:59,960 --> 01:54:58,140

for having us

2270

01:55:02,540 --> 01:54:59,970

yes that's great so if you want to find

2271

01:55:05,120 --> 01:55:02,550

out more about Stanton go to Stanton

2272

01:55:08,690 --> 01:55:05,130

Friedman and dot-com that spelled Fri

2273

01:55:13,760 --> 01:55:08,700

Edie Stanton Friedman calm and Kathleen

2274

01:55:16,560 --> 01:55:13,770

Martin is Kathleen - Martin dot come if

2275

01:55:18,540 --> 01:55:16,570

you love ufology then

2276

01:55:20,790 --> 01:55:18,550

you have to check out all of their many

2277

01:55:23,640 --> 01:55:20,800

books that they've worked on between the

2278

01:55:24,390 --> 01:55:23,650

two of them we have a great deal to be

2279

01:55:27,090 --> 01:55:24,400

thankful for

2280

01:55:28,770 --> 01:55:27,100

I know I am and I'm also grateful to be

2281

01:55:31,950 --> 01:55:28,780

part of this podcast on the inception

2282

01:55:33,930 --> 01:55:31,960

radio network and that's it thank you

2283

01:55:37,470 --> 01:55:33,940

again there's Alan B Smith I want to

2284

01:55:40,590 --> 01:55:37,480

thank Joe champion Bob tarmac and MJ
