00:00:05,840 --> 00:00:02,240
welcome welcome to UFO headline news

2
00:00:11,749 --> 00:00:05,850
with me lady Hollis today is Wednesday

3
00:00:16,160 --> 00:00:11,759
December 20th 2017 blasting off with

4
00:00:19,550 --> 00:00:16,170
some UFO reports a UFO sighting in Linz

5
00:00:23,870 --> 00:00:19,560
Upper Austria this is a UFO blast from

6
00:00:27,460 --> 00:00:23,880
the past that occurred August 31st 2001

7
00:00:30,349 --> 00:00:27,470
in brief they say night prayer orb

8
00:00:34,490 --> 00:00:30,359
coming out of the Eucharist bright as

9
00:00:37,069 --> 00:00:34,500
daylight orb slowly hovering through my

10
00:00:39,770 --> 00:00:37,079
body room dark again

11
00:00:42,740 --> 00:00:39,780
feels good moving out at my back room

12
00:00:46,910 --> 00:00:42,750
bright again orb slowly leaving the room

13
00:00:48,740 --> 00:00:46,920

in more detail the witness states I was

14

00:00:51,880 --> 00:00:48,750
on duty for the night watch at the

15

00:00:56,180 --> 00:00:51,890
Eucharist it was a Catholic Charismatic

16

00:00:58,700 --> 00:00:56,190
weekend meeting in my time was from 3 to

17

00:01:01,310 --> 00:00:58,710
4 in the morning the Eucharist was

18

00:01:03,860 --> 00:01:01,320
standing on the altar as usual for such

19

00:01:06,440 --> 00:01:03,870
a night prayer I was sitting before the

20

00:01:09,770 --> 00:01:06,450
altar approximately three meters in

21

00:01:12,410 --> 00:01:09,780
distance some people were sleeping in

22

00:01:15,890 --> 00:01:12,420
the room I believe I was the only one

23

00:01:19,310 --> 00:01:15,900
awake while I was playing a soft song on

24

00:01:22,160 --> 00:01:19,320
the guitar suddenly a bright light came

25

00:01:25,789 --> 00:01:22,170
out of the Eucharist very slowly moving

26

00:01:31,039 --> 00:01:25,799

towards me it looked like a tennis ball

27

00:01:33,980 --> 00:01:31,049

of light it took on and have songs on my

28

00:01:37,940 --> 00:01:33,990

guitar for the light ball to cross the

29

00:01:40,429 --> 00:01:37,950

tree meters to me chopped up chopped up

30

00:01:43,880 --> 00:01:40,439

I'm not editing this just reading it if

31

00:01:47,569 --> 00:01:43,890

possible even slower it went through my

32

00:01:51,139 --> 00:01:47,579

hand into my guitar and moved on into my

33

00:01:54,109 --> 00:01:51,149

body I didn't feel much just the room it

34

00:01:56,600 --> 00:01:54,119

was dark again about at the end of the

35

00:01:59,179 --> 00:01:56,610

second song it came out of my body again

36

00:02:01,730 --> 00:01:59,189

at my backside and kept on moving

37

00:02:04,429 --> 00:02:01,740

through the room for some minutes before

38

00:02:08,479 --> 00:02:04,439

it disappeared I probably should mention

39

00:02:12,580 --> 00:02:08,489

that I was playing Thais songs one tazed

40

00:02:14,089 --> 00:02:12,590

a song lasts normally eight minutes I

41

00:02:18,319 --> 00:02:14,099

didn't look

42

00:02:20,569 --> 00:02:18,329

on my watch but it was my feeling that I

43

00:02:23,089 --> 00:02:20,579

would say the whole experience lasted

44

00:02:26,209 --> 00:02:23,099

about 20 minutes but not less than 10

45

00:02:29,360 --> 00:02:26,219

minutes and not more than 30 I'm quite

46

00:02:31,809 --> 00:02:29,370

sure and it was bright as the Sun the

47

00:02:34,369 --> 00:02:31,819

whole room was covered in daylight

48

00:02:38,629 --> 00:02:34,379

interpretation for ten years I was sure

49

00:02:40,879 --> 00:02:38,639

I'd seen Jesus and I was just happy when

50

00:02:43,459 --> 00:02:40,889

I found out about UFOs and aliens and

51
00:02:47,659 --> 00:02:43,469
the chakra aura I came to believe I

52
00:02:50,750 --> 00:02:47,669
could be the so star of anybody we all

53
00:02:53,809 --> 00:02:50,760
have a soul star within our aura so the

54
00:02:57,170 --> 00:02:53,819
possibility of it being Jesus is one -

55
00:02:57,890 --> 00:02:57,180
what how many living beings are there in

56
00:02:59,990 --> 00:02:57,900
the universe

57
00:03:02,629 --> 00:03:00,000
who have already taken the way to

58
00:03:05,119 --> 00:03:02,639
ascension I don't know but the more I

59
00:03:07,909 --> 00:03:05,129
learn the less I know that's the only

60
00:03:12,039 --> 00:03:07,919
thing I still believe now well that was

61
00:03:15,530 --> 00:03:12,049
a different kind of report all right

62
00:03:18,110 --> 00:03:15,540
UFO sighting in Sudbury Ontario this is

63
00:03:23,990 --> 00:03:18,120

another UFO blast from the pass that

64

00:03:26,420 --> 00:03:24,000

occurred August 16 2005 green disc this

65

00:03:29,420 --> 00:03:26,430

sighting occurred about 12 years ago in

66

00:03:30,920 --> 00:03:29,430

late summer about 6:00 p.m. my wife and

67

00:03:33,439 --> 00:03:30,930

I were walking down the street outside

68

00:03:36,589 --> 00:03:33,449

her house and we both looked up to the

69

00:03:40,129 --> 00:03:36,599

sky which was overcast wondering if it

70

00:03:44,119 --> 00:03:40,139

would rain through a break in the clouds

71

00:03:48,140 --> 00:03:44,129

we saw a dull green disc with a darker

72

00:03:51,469 --> 00:03:48,150

Center flyby the cloud cover seemed to

73

00:03:54,710 --> 00:03:51,479

be fairly low the sighting lasted only a

74

00:03:58,189 --> 00:03:54,720

second there was no sound in fact the

75

00:04:00,979 --> 00:03:58,199

evening was very quiet I can't say if

76

00:04:03,559 --> 00:04:00,989

the sighting was a craft or some sort of

77

00:04:06,170 --> 00:04:03,569

meteorite with a disc shaped gaseous

78

00:04:10,009 --> 00:04:06,180

cloud around it but it moved with the

79

00:04:12,080 --> 00:04:10,019

disc shape staying intact it is one of

80

00:04:18,080 --> 00:04:12,090

the only two strange aerial sightings I

81

00:04:20,569 --> 00:04:18,090

have seen both in Sudbury Ontario the

82

00:04:21,620 --> 00:04:20,579

next UFO sighting happened in Bellmore

83

00:04:27,000 --> 00:04:21,630

New York

84

00:04:28,830 --> 00:04:27,010

this occurred November 27th 2017

85

00:04:31,440 --> 00:04:28,840

they state in brief looked out my window

86

00:04:33,300 --> 00:04:31,450

to see this ball of light traveling

87

00:04:37,050 --> 00:04:33,310

almost straight up into the atmosphere

88

00:04:39,510 --> 00:04:37,060

that had no blinking lights like an

89

00:04:43,290 --> 00:04:39,520

airplane would and was traveling way

90

00:04:47,850 --> 00:04:43,300

faster than any plane I've seen I took a

91

00:04:49,650 --> 00:04:47,860

video about 30 seconds long in more

92

00:04:52,260 --> 00:04:49,660

detail they stayed in my house the

93

00:04:56,940 --> 00:04:52,270

brightness speed in almost 90 degree

94

00:04:59,520 --> 00:04:56,950

flight path of the UFO a UFO boomerang

95

00:05:02,760 --> 00:04:59,530

shape with three separate light sources

96

00:05:05,460 --> 00:05:02,770

on the UFO I wish I ran outside to get a

97

00:05:07,260 --> 00:05:05,470

better look it was going so fast and

98

00:05:11,810 --> 00:05:07,270

high up that I couldn't see it from my

99

00:05:14,580 --> 00:05:11,820

window anymore so I gave up

100

00:05:17,280 --> 00:05:14,590

then next UFO sighting happened in

101
00:05:23,300 --> 00:05:17,290
Granger Wyoming this occurred

102
00:05:28,640 --> 00:05:23,310
August 5th 2017 multicolored star on

103
00:05:31,500 --> 00:05:28,650
August 5th 2017 at about 1:30 in

104
00:05:34,320 --> 00:05:31,510
Yellowstone National Park Mammoth Hot

105
00:05:37,110 --> 00:05:34,330
Springs Campground looking at stars

106
00:05:40,890 --> 00:05:37,120
through binoculars observed a star sized

107
00:05:43,740 --> 00:05:40,900
object at about 10 o'clock angle to the

108
00:05:47,340 --> 00:05:43,750
northwest it was changing colors and

109
00:05:50,790 --> 00:05:47,350
sometimes wobbling but like the stars

110
00:05:53,040 --> 00:05:50,800
near it - too far to focus on I went

111
00:05:56,370 --> 00:05:53,050
back and forth between the object and a

112
00:06:00,600 --> 00:05:56,380
similarly sized star nearby with my

113
00:06:03,810 --> 00:06:00,610

binoculars change colors primarily from

114

00:06:06,720 --> 00:06:03,820

red to green to yellow blue and did not

115

00:06:09,570 --> 00:06:06,730

travel I didn't think to watch for a

116

00:06:12,180 --> 00:06:09,580

pattern I fell asleep after about 30

117

00:06:16,520 --> 00:06:12,190

minutes observation tried to see it

118

00:06:19,980 --> 00:06:16,530

again the following night nothing

119

00:06:25,530 --> 00:06:19,990

this next UFO sighting occurred in

120

00:06:28,800 --> 00:06:25,540

Nashville Tennessee on November 26 2017

121

00:06:31,200 --> 00:06:28,810

in brief a state myself and my family

122

00:06:34,350 --> 00:06:31,210

and friends have been witnessing these

123

00:06:36,660 --> 00:06:34,360

for almost one year I have made a police

124

00:06:39,000 --> 00:06:36,670

report to Chatham County Sheriff's

125

00:06:40,590 --> 00:06:39,010

Department an officer came to my home

126

00:06:43,290 --> 00:06:40,600

and also saw the object

127

00:06:47,030 --> 00:06:43,300

he stated he would file as a UFO

128

00:06:51,030 --> 00:06:47,040

sighting I see these late at night in

129

00:06:53,820 --> 00:06:51,040

more detail the witness states I have

130

00:06:55,920 --> 00:06:53,830

been at my home and at work looking at

131

00:06:59,330 --> 00:06:55,930

the night sky I first witnessed these

132

00:07:02,010 --> 00:06:59,340

objects approximately one year ago I

133

00:07:05,190 --> 00:07:02,020

knew it was not a star

134

00:07:07,950 --> 00:07:05,200

the reason being I was a pathfinder in

135

00:07:11,280 --> 00:07:07,960

the 82nd Airborne Division at Fort Bragg

136

00:07:15,780 --> 00:07:11,290

North Carolina and have been trained in

137

00:07:18,960 --> 00:07:15,790

night navigation by the Stars

138

00:07:23,160 --> 00:07:18,970

the object to the untrained eye would at

139

00:07:25,920 --> 00:07:23,170

first to appear to be a star if watch

140

00:07:29,820 --> 00:07:25,930

for approximately five minutes it would

141

00:07:34,970 --> 00:07:29,830

pulsate blue and white and move

142

00:07:38,490 --> 00:07:34,980

direction up-down and lateral sometimes

143

00:07:41,100 --> 00:07:38,500

circular I called the control tower at

144

00:07:43,560 --> 00:07:41,110

Fort Campbell Kentucky which is only 30

145

00:07:46,740 --> 00:07:43,570

miles from my home and channel 4 news in

146

00:07:48,900 --> 00:07:46,750

Nashville Tennessee I did not lose sight

147

00:07:51,620 --> 00:07:48,910

of the object as the longest I ever

148

00:07:54,720 --> 00:07:51,630

stayed outside to watch the object was

149

00:07:56,520 --> 00:07:54,730

approximately 30 minutes although it

150

00:07:59,430 --> 00:07:56,530

would move numerous times and change

151
00:08:02,460 --> 00:07:59,440
colors I observed aircraft in the same

152
00:08:06,120 --> 00:08:02,470
part of the sky the pilots of these

153
00:08:08,490 --> 00:08:06,130
aircraft have to be seeing this the area

154
00:08:15,090 --> 00:08:08,500
of the sky that I see them the most is

155
00:08:18,690 --> 00:08:15,100
under the belt stars of Orion the next

156
00:08:22,860 --> 00:08:18,700
UFO sighting occurred in Ontario August

157
00:08:25,440 --> 00:08:22,870
21st 2017 in brief the witness states

158
00:08:31,080 --> 00:08:25,450
object captured during solar eclipse

159
00:08:34,620 --> 00:08:31,090
viewing at one 2500 shutter speed they

160
00:08:37,290 --> 00:08:34,630
go on to state I was photographing total

161
00:08:40,650 --> 00:08:37,300
solar eclipse in Toronto with a tobacco

162
00:08:45,810 --> 00:08:40,660
filter on the afternoon of August 21st

163
00:08:47,250 --> 00:08:45,820

2017 I was trying to capture Eclipse at

164

00:08:49,800 --> 00:08:47,260

different shutter speeds and from

165

00:08:51,890 --> 00:08:49,810

different filters and angles I took

166

00:08:54,190 --> 00:08:51,900

several photographs in quick succession

167

00:08:57,490 --> 00:08:54,200

after I was done

168

00:09:01,440 --> 00:08:57,500

I was analyzing all my photographs at my

169

00:09:04,570 --> 00:09:01,450

desktop I observed one object that was

170

00:09:06,960 --> 00:09:04,580

International Space Station I think it

171

00:09:10,150 --> 00:09:06,970

was there and almost all my photographs

172

00:09:14,530 --> 00:09:10,160

then I observed one photograph which was

173

00:09:17,110 --> 00:09:14,540

taken at shutter speed of one and 2,500

174

00:09:20,410 --> 00:09:17,120

and saw a UFO

175

00:09:23,590 --> 00:09:20,420

it had bug like wings and was only

176
00:09:25,540 --> 00:09:23,600
captured in one of my photographs I only

177
00:09:28,690 --> 00:09:25,550
took one picture at that shutter speed

178
00:09:31,810 --> 00:09:28,700
in which the object appears this object

179
00:09:35,200 --> 00:09:31,820
did not appear anywhere else in any

180
00:09:37,480 --> 00:09:35,210
other shutter speeds at all all these

181
00:09:40,510 --> 00:09:37,490
photographs were taken within seconds

182
00:09:44,890 --> 00:09:40,520
from each other I was absolutely shocked

183
00:09:47,410 --> 00:09:44,900
it is an object with two panels one of

184
00:09:50,460 --> 00:09:47,420
them is glowing with a football shaped

185
00:09:53,970 --> 00:09:50,470
body in between which is strangely dark

186
00:09:56,620 --> 00:09:53,980
despite being so close to the Sun it

187
00:10:00,130 --> 00:09:56,630
seems that the object is really close to

188
00:10:03,580 --> 00:10:00,140

the Sun in my opinion it is impossible

189

00:10:07,210 --> 00:10:03,590

for a man-made object to be able to

190

00:10:09,910 --> 00:10:07,220

travel so close to the Sun I'm attaching

191

00:10:13,120 --> 00:10:09,920

the original file to this email as well

192

00:10:15,160 --> 00:10:13,130

as my zoomed out photographs if you

193

00:10:18,310 --> 00:10:15,170

require further information please feel

194

00:10:21,250 --> 00:10:18,320

free to contact me thank you very much

195

00:10:24,400 --> 00:10:21,260

and PS I would like to clarify that this

196

00:10:27,640 --> 00:10:24,410

is not an International Space Station as

197

00:10:32,700 --> 00:10:27,650

I have captured ISS on my other

198

00:10:36,070 --> 00:10:32,710

photographs and this looks different now

199

00:10:40,600 --> 00:10:36,080

bounding into Big Foot boundaries we

200

00:10:42,600 --> 00:10:40,610

have a unique Big Foot incident blog

201
00:10:48,250 --> 00:10:42,610
let's have a look

202
00:10:52,210 --> 00:10:48,260
it begins Big Foot incidents the witness

203
00:10:54,160 --> 00:10:52,220
is telling their story I was on this

204
00:10:56,970 --> 00:10:54,170
expedition with this group of

205
00:11:00,220 --> 00:10:56,980
investigators in their Oregon Cascades

206
00:11:05,340 --> 00:11:00,230
expedition which took place on the third

207
00:11:07,689 --> 00:11:05,350
weekend in July of 2015 the location was

208
00:11:11,259 --> 00:11:07,699
13.1 miles up

209
00:11:15,340 --> 00:11:11,269
from they won't say north from they

210
00:11:18,429 --> 00:11:15,350
won't say I arrived Thursday just after

211
00:11:20,739 --> 00:11:18,439
noon time and met the expedition leaders

212
00:11:23,559 --> 00:11:20,749
as they were leaving to scout the area I

213
00:11:26,919 --> 00:11:23,569

went to the base camp area which was in

214

00:11:29,319 --> 00:11:26,929

a quarry alongside this road I decided

215

00:11:32,650 --> 00:11:29,329

that I would prefer a spot about 30

216

00:11:34,720 --> 00:11:32,660

yards farther along the road there was a

217

00:11:37,840 --> 00:11:34,730

high spot before the road went back

218

00:11:40,509 --> 00:11:37,850

downhill to the creek there was a wide

219

00:11:45,299 --> 00:11:40,519

spot on the road and it was open above

220

00:11:48,220 --> 00:11:45,309

so there would be ample stars to view

221

00:11:50,979 --> 00:11:48,230

after setting up camp I walked towards

222

00:11:54,519 --> 00:11:50,989

the creek about 25 yards from my

223

00:11:58,179 --> 00:11:54,529

personal camp there was a very wide game

224

00:12:00,069 --> 00:11:58,189

trail I explored this game trail and it

225

00:12:03,039 --> 00:12:00,079

climbed the bank on the north side of

226

00:12:05,679 --> 00:12:03,049

the road they say see the picture at the

227

00:12:08,619 --> 00:12:05,689

top there was a fork that went to the

228

00:12:11,470 --> 00:12:08,629

right which was east and that trail went

229

00:12:14,199 --> 00:12:11,480

down into a wide ditch alongside the

230

00:12:16,529 --> 00:12:14,209

road between the ditch and the road was

231

00:12:20,349 --> 00:12:16,539

a line of small Douglas fir tree

232

00:12:22,840 --> 00:12:20,359

saplings which were quite thick the

233

00:12:25,539 --> 00:12:22,850

trail went up about ten yards in the

234

00:12:28,179 --> 00:12:25,549

ditch then climbed back up and entered

235

00:12:31,359 --> 00:12:28,189

an extensive native blueberry field

236

00:12:34,689 --> 00:12:31,369

under the trees and all the blueberries

237

00:12:37,629 --> 00:12:34,699

were ripe I explored the roads during

238

00:12:40,900 --> 00:12:37,639

the day had dinner and then went to the

239

00:12:42,879 --> 00:12:40,910

evening talk in the quarry after the

240

00:12:47,499 --> 00:12:42,889

evening talk we gathered to form teams

241

00:12:51,549 --> 00:12:47,509

to do night expeditions I went with 15

242

00:12:54,220 --> 00:12:51,559

others on a night hike around a certain

243

00:12:57,189 --> 00:12:54,230

lake they won't name several times we

244

00:12:59,739 --> 00:12:57,199

thought we heard wood knocks but they

245

00:13:01,569 --> 00:12:59,749

were barely audible nothing else

246

00:13:05,079 --> 00:13:01,579

happened that night and I slept well in

247

00:13:07,449 --> 00:13:05,089

the back of my PT Cruiser I had left the

248

00:13:09,909 --> 00:13:07,459

back seats at home and through a futon

249

00:13:14,079 --> 00:13:09,919

mattress in the back which fit just

250

00:13:15,999 --> 00:13:14,089

about perfect Friday morning I woke made

251

00:13:18,879 --> 00:13:16,009

coffee and then I went to pick

252

00:13:21,309 --> 00:13:18,889

blueberries I drank a nice press of

253

00:13:21,670 --> 00:13:21,319

coffee before leaving so while going to

254

00:13:31,210 --> 00:13:21,680

the

255

00:13:34,090 --> 00:13:31,220

game trail so I relieve myself behind

256

00:13:36,130 --> 00:13:34,100

the snags and I went down the game trail

257

00:13:39,400 --> 00:13:36,140

and picked blueberries to add to my

258

00:13:41,980 --> 00:13:39,410

breakfast of yogurt and cereal later

259

00:13:44,650 --> 00:13:41,990

that morning we convened at base camp to

260

00:13:48,579 --> 00:13:44,660

talk over last night's activities and

261

00:13:53,880 --> 00:13:48,589

other unexplained occurrences Bigfoot

262

00:13:56,410 --> 00:13:53,890

related incident number one flipped log

263

00:13:58,389 --> 00:13:56,420

then I went out with a large group of

264

00:14:01,600 --> 00:13:58,399

people from the expedition to set up

265

00:14:04,269 --> 00:14:01,610

trail cameras for the afternoon we first

266

00:14:06,310 --> 00:14:04,279

went to a meadow behind base camp in

267

00:14:10,630 --> 00:14:06,320

order to get to this meadow we had to go

268

00:14:13,870 --> 00:14:10,640

to the blank Lake trailhead next to the

269

00:14:16,480 --> 00:14:13,880

creek about 50 yards up the trail splits

270

00:14:18,600 --> 00:14:16,490

off to the northwest and about a quarter

271

00:14:21,910 --> 00:14:18,610

mile farther is the edge of the meadow

272

00:14:24,820 --> 00:14:21,920

we all walked over the blueberry bushes

273

00:14:28,000 --> 00:14:24,830

at the edge and into the meadow I walked

274

00:14:31,000 --> 00:14:28,010

across the meadow and found a long old

275

00:14:35,050 --> 00:14:31,010

log that seemed to have been flipped

276

00:14:37,870 --> 00:14:35,060

over and moved out of the line I called

277

00:14:40,720 --> 00:14:37,880

out that I found something very unusual

278

00:14:42,010 --> 00:14:40,730

and everyone came over we discussed it

279

00:14:46,150 --> 00:14:42,020

for a while and some team members

280

00:14:48,880 --> 00:14:46,160

surmise that a large Bigfoot flipped it

281

00:14:51,160 --> 00:14:48,890

over like that I could tell it was

282

00:14:53,350 --> 00:14:51,170

recently moved as the outline of the

283

00:14:55,840 --> 00:14:53,360

previous log position was still in the

284

00:14:59,590 --> 00:14:55,850

reeds and it was clearly flipped over

285

00:15:01,300 --> 00:14:59,600

with one and broken off and like it's

286

00:15:03,400 --> 00:15:01,310

Jamie progressive number one number two

287

00:15:05,440 --> 00:15:03,410

employee leave a message at the hey

288

00:15:07,449 --> 00:15:05,450

Jamie it's me and Jamie this is your

289

00:15:09,069 --> 00:15:07,459

daily pep talk I know it's been rough

290

00:15:11,350 --> 00:15:09,079

going ever since people found out about

291

00:15:13,449 --> 00:15:11,360

your acapella group Matt harmony but you

292

00:15:14,980 --> 00:15:13,459

will bounce back I mean you're the guy

293

00:15:16,569 --> 00:15:14,990

always helping people find coverage

294

00:15:18,730 --> 00:15:16,579

options with the name your price tool it

295

00:15:20,740 --> 00:15:18,740

should be you giving me the pep talk now

296

00:15:22,180 --> 00:15:20,750

get out there hit that high note and

297

00:15:24,329 --> 00:15:22,190

take mad harmony all the way to

298

00:15:26,699 --> 00:15:24,339

Nationals this

299

00:15:27,900 --> 00:15:26,709

sorry with pitchy regressive casualty

300

00:15:29,129 --> 00:15:27,910

insurance company and affiliates price

301
00:15:32,460 --> 00:15:29,139
and coverage match limited by state law

302
00:15:34,499 --> 00:15:32,470
buying it close by the end the part of

303
00:15:37,499 --> 00:15:34,509
the plants that were underneath the log

304
00:15:40,499 --> 00:15:37,509
was still brown from lack of sunlight

305
00:15:43,019 --> 00:15:40,509
yet the parts of the reeds that had

306
00:15:47,340 --> 00:15:43,029
grown along the side of the log were

307
00:15:50,309 --> 00:15:47,350
green the meadow had been long dry so it

308
00:15:53,100 --> 00:15:50,319
wasn't water that moved it furthest big

309
00:15:55,799 --> 00:15:53,110
guys myself included tried to pick up

310
00:15:58,619 --> 00:15:55,809
one end of the log but it was so heavy

311
00:16:03,119 --> 00:15:58,629
we could only move it about a couple of

312
00:16:05,790 --> 00:16:03,129
inches up it was immensely heavy yep the

313
00:16:09,960 --> 00:16:05,800

log was bone-dry sitting in the sunshine

314

00:16:12,480 --> 00:16:09,970

I should have taken a picture but some

315

00:16:16,049 --> 00:16:12,490

other team members did take pictures of

316

00:16:19,049 --> 00:16:16,059

the scene I tried to find a reasonable

317

00:16:22,949 --> 00:16:19,059

explanation but could not think of any

318

00:16:25,710 --> 00:16:22,959

it certainly wasn't moved by a bear from

319

00:16:28,499 --> 00:16:25,720

my experience in the woods there was no

320

00:16:31,650 --> 00:16:28,509

claw marks or scratches in the logs nor

321

00:16:34,829 --> 00:16:31,660

were there any prints in the dirt around

322

00:16:37,379 --> 00:16:34,839

the log where bears usually just paw at

323

00:16:41,549 --> 00:16:37,389

the sides of these logs to get at the

324

00:16:46,350 --> 00:16:41,559

termites and since this log was so heavy

325

00:16:50,040 --> 00:16:46,360

even for four of us a large 350 pound

326

00:16:53,840 --> 00:16:50,050

black bear would have had trouble moving

327

00:16:57,030 --> 00:16:53,850

it it certainly would have left marks

328

00:16:59,819 --> 00:16:57,040

from my experience seeing what bears do

329

00:17:03,119 --> 00:16:59,829

to logs and personally witnessing bears

330

00:17:06,840 --> 00:17:03,129

working logs in the forest this was not

331

00:17:09,240 --> 00:17:06,850

done by a bear so my other thought was

332

00:17:12,480 --> 00:17:09,250

that maybe the water from the winter

333

00:17:15,360 --> 00:17:12,490

snowmelt could have moved the log but as

334

00:17:17,639 --> 00:17:15,370

I scanned the area more I noticed that

335

00:17:20,429 --> 00:17:17,649

the log was near the highest edge of the

336

00:17:23,850 --> 00:17:20,439

pond where the brush meets the reeds and

337

00:17:26,429 --> 00:17:23,860

grass this means that the pond level

338

00:17:28,620 --> 00:17:26,439

wouldn't be much higher since the brush

339

00:17:31,620 --> 00:17:28,630

doesn't like sitting in water for long

340

00:17:35,730 --> 00:17:31,630

and the water level would have lowered

341

00:17:38,070 --> 00:17:35,740

long before the reeds greened up even

342

00:17:38,760 --> 00:17:38,080

the lowest points in the pond were quite

343

00:17:44,280 --> 00:17:38,770

dry

344

00:17:46,830 --> 00:17:44,290

this was a recent move so it couldn't

345

00:17:49,680 --> 00:17:46,840

have been water that moved it so what

346

00:17:53,070 --> 00:17:49,690

about humans I just don't think this is

347

00:17:54,060 --> 00:17:53,080

human activity four of us could barely

348

00:17:57,060 --> 00:17:54,070

move the log

349

00:17:58,020 --> 00:17:57,070

it has also located far out of the way

350

00:18:01,620 --> 00:17:58,030

across the meadow

351

00:18:03,630 --> 00:18:01,630

I only stumbled upon it in the brush and

352

00:18:07,380 --> 00:18:03,640

couldn't see it from the trail or

353

00:18:09,480 --> 00:18:07,390

anywhere in the middle my gut just tells

354

00:18:12,540 --> 00:18:09,490

me that people wouldn't be going that

355

00:18:15,990 --> 00:18:12,550

far out into the woods just to move logs

356

00:18:18,330 --> 00:18:16,000

around but I was a skeptical scientist

357

00:18:22,710 --> 00:18:18,340

and when we left I was still quite

358

00:18:25,220 --> 00:18:22,720

puzzled by this log but the next two

359

00:18:29,100 --> 00:18:25,230

nights changed my mind

360

00:18:34,700 --> 00:18:29,110

now I attribute this log movement to

361

00:18:40,050 --> 00:18:34,710

Sasquatch Bigfoot encounters number one

362

00:18:44,100 --> 00:18:40,060

alone by the roadside on Friday evening

363

00:18:47,450 --> 00:18:44,110

July 17th at 7:00 p.m. we had gathered

364

00:18:50,250 --> 00:18:47,460

again at base camp for the evening talk

365

00:18:53,010 --> 00:18:50,260

after discussing objectives a

366

00:18:55,920 --> 00:18:53,020

veterinarian gave a talk on what he

367

00:18:59,220 --> 00:18:55,930

thinks a sasquatch I is like from his

368

00:19:02,220 --> 00:18:59,230

expertise in animals and also from his

369

00:19:06,270 --> 00:19:02,230

experiences and encounters on previous

370

00:19:09,480 --> 00:19:06,280

expeditions at 9:15 p.m. the evening

371

00:19:11,430 --> 00:19:09,490

talks finished and everyone started

372

00:19:14,820 --> 00:19:11,440

getting into their groups for the night

373

00:19:18,350 --> 00:19:14,830

expedition I decided to quickly go to my

374

00:19:20,790 --> 00:19:18,360

car and put my coffee mug in the car I

375

00:19:23,520 --> 00:19:20,800

didn't want to leave it lying around

376

00:19:28,260 --> 00:19:23,530

base camp and get broken in the dark I

377

00:19:30,300 --> 00:19:28,270

also had another motive after a big cup

378

00:19:34,130 --> 00:19:30,310

of tea and drinking water during the

379

00:19:38,730 --> 00:19:34,140

talk I had to relieve myself and quick

380

00:19:41,270 --> 00:19:38,740

so I hurried to my car in the hope that

381

00:19:44,220 --> 00:19:41,280

no one else would go down to the road

382

00:19:47,190 --> 00:19:44,230

there was plenty of Twilight left so I

383

00:19:50,970 --> 00:19:47,200

didn't need my headlamp and left it with

384

00:19:52,440 --> 00:19:50,980

my backpack in the quarry when I got to

385

00:19:54,840 --> 00:19:52,450

be near to my car

386

00:19:56,420 --> 00:19:54,850

I had this feeling that something wasn't

387

00:20:01,200 --> 00:19:56,430

right

388

00:20:05,460 --> 00:20:01,210

sound thing seemed out of place and I

389

00:20:07,950 --> 00:20:05,470

felt watched I looked around and saw the

390

00:20:11,100 --> 00:20:07,960

road was empty yet lit well from the

391

00:20:13,350 --> 00:20:11,110

Twilight so were the edges and the

392

00:20:16,620 --> 00:20:13,360

bleached snags on the embankment next to

393

00:20:20,000 --> 00:20:16,630

the game trail everything whiter pale

394

00:20:23,160 --> 00:20:20,010

color seemed to have a night glow just

395

00:20:25,980 --> 00:20:23,170

beyond the woods were black as black can

396

00:20:29,160 --> 00:20:25,990

be the direction down the road to the

397

00:20:32,250 --> 00:20:29,170

creek was eastward so the Twilight was

398

00:20:34,470 --> 00:20:32,260

coming from the west behind me I looked

399

00:20:37,560 --> 00:20:34,480

again down the road but I couldn't see

400

00:20:40,410 --> 00:20:37,570

anything wrong so I quickly put my mug

401
00:20:44,040 --> 00:20:40,420
in the car walked across the road and

402
00:20:46,470 --> 00:20:44,050
quickly relieved myself I looked into

403
00:20:50,580 --> 00:20:46,480
the darkness of the woods then down the

404
00:20:53,580 --> 00:20:50,590
road I still felt unnerved and quickly

405
00:20:55,680 --> 00:20:53,590
finished I was still looking down the

406
00:20:59,700 --> 00:20:55,690
road and something just seemed out of

407
00:21:02,940 --> 00:20:59,710
place on the bank was three dead tree

408
00:21:06,390 --> 00:21:02,950
snakes there were two tall ones both

409
00:21:08,760 --> 00:21:06,400
were 50 feet tall and one small one the

410
00:21:11,370 --> 00:21:08,770
smaller snake seemed wider than the tall

411
00:21:14,040 --> 00:21:11,380
snake behind it and also seemed whiter

412
00:21:16,530 --> 00:21:14,050
than the small pine tree in front of it

413
00:21:18,960 --> 00:21:16,540

the white area stuck out from either

414

00:21:21,690 --> 00:21:18,970

side of the small pine tree but it was

415

00:21:26,280 --> 00:21:21,700

oddly shaped with curves not straight

416

00:21:30,030 --> 00:21:26,290

like a tree as I stared at those what I

417

00:21:33,330 --> 00:21:30,040

was perceiving as the small snag took a

418

00:21:36,390 --> 00:21:33,340

huge step out from behind that scraggly

419

00:21:39,620 --> 00:21:36,400

pine tree and it's the opening between

420

00:21:44,100 --> 00:21:39,630

another group of small pine trees I

421

00:21:47,220 --> 00:21:44,110

instantly knew this quote thing was

422

00:21:50,220 --> 00:21:47,230

walking on the game trail my next

423

00:21:54,300 --> 00:21:50,230

thought was that this creature was going

424

00:21:57,810 --> 00:21:54,310

to walk right across the road as it

425

00:22:01,980 --> 00:21:57,820

stepped I could see long arms with hands

426

00:22:05,010 --> 00:22:01,990

down near the knees long hair hanging

427

00:22:05,769 --> 00:22:05,020

and flowing off the forearm and also off

428

00:22:20,469 --> 00:22:05,779

the

429

00:22:23,680 --> 00:22:20,479

hair moved much like a girl with long

430

00:22:25,839 --> 00:22:23,690

hair moving very quickly the way a

431

00:22:27,549 --> 00:22:25,849

girl's hair moves around together

432

00:22:30,219 --> 00:22:27,559

flowing in the air with the body

433

00:22:33,279 --> 00:22:30,229

movements after the first step the

434

00:22:38,109 --> 00:22:33,289

creature stopped and quickly turned with

435

00:22:41,349 --> 00:22:38,119

its back to me the width of the back was

436

00:22:44,200 --> 00:22:41,359

enormous it seemed to fill the space

437

00:22:47,200 --> 00:22:44,210

between the trees I estimate that the

438

00:22:50,680 --> 00:22:47,210

shoulders were about five to six feet

439

00:22:53,529 --> 00:22:50,690

wide I could see the split in the legs

440

00:22:56,440 --> 00:22:53,539

as was standing straight up and down

441

00:22:59,049 --> 00:22:56,450

I quickly compared the height of the

442

00:23:02,109 --> 00:22:59,059

creature to the pine tree it stood next

443

00:23:04,389 --> 00:23:02,119

to I didn't know the height but made a

444

00:23:06,940 --> 00:23:04,399

quick estimate of it being eight feet

445

00:23:10,180 --> 00:23:06,950

tall as I remembered the tree being

446

00:23:11,859 --> 00:23:10,190

taller than I was when walking past

447

00:23:15,789 --> 00:23:11,869

there earlier in the morning to pick

448

00:23:19,450 --> 00:23:15,799

blueberries I stand six four tall with

449

00:23:21,969 --> 00:23:19,460

my boots on I saw the hair coming off

450

00:23:24,190 --> 00:23:21,979

the back of the head it was long and

451
00:23:26,999 --> 00:23:24,200
hung down to about what would be the

452
00:23:30,009 --> 00:23:27,009
creatures mid shoulder blade area I

453
00:23:31,959 --> 00:23:30,019
could also see the muscular structure on

454
00:23:35,109 --> 00:23:31,969
the back of the creature bulging under

455
00:23:40,239 --> 00:23:35,119
the hair and when I perceived as big

456
00:23:42,249 --> 00:23:40,249
muscular buttocks I quickly scanned the

457
00:23:46,810 --> 00:23:42,259
creature for any other color differences

458
00:23:51,149 --> 00:23:46,820
but could not find any this creature was

459
00:23:53,680 --> 00:23:51,159
all silvery gray from head to the ground

460
00:23:57,729 --> 00:23:53,690
the creature then moved very quickly

461
00:24:00,430 --> 00:23:57,739
away from me at this point a second game

462
00:24:02,529 --> 00:24:00,440
trail goes along the road dropping

463
00:24:05,469 --> 00:24:02,539

briefly into the roadside ditch for

464

00:24:08,259 --> 00:24:05,479

about ten yards before going back up the

465

00:24:10,180 --> 00:24:08,269

forest side into the blueberry field the

466

00:24:13,119 --> 00:24:10,190

creature is stepped forward with its

467

00:24:16,389 --> 00:24:13,129

right leg and I saw the hair flowing off

468

00:24:19,220 --> 00:24:16,399

the thighs and put both of its hands out

469

00:24:22,639 --> 00:24:19,230

in front and it seemed to have made

470

00:24:25,159 --> 00:24:22,649

yes then it leaned forward as it went

471

00:24:27,799 --> 00:24:25,169

down the bank side into the roadside

472

00:24:32,480 --> 00:24:27,809

ditch it seemed to bend all the way

473

00:24:35,750 --> 00:24:32,490

forward and get down on all fours it

474

00:24:38,419 --> 00:24:35,760

looked just like what one sees in videos

475

00:24:41,180 --> 00:24:38,429

of gorillas in the wild when they move

476
00:24:45,529 --> 00:24:41,190
quickly on two legs then fall forward

477
00:24:47,779 --> 00:24:45,539
onto all fours the creature then got in

478
00:24:48,560 --> 00:24:47,789
the ditch and disappeared behind the

479
00:24:52,340 --> 00:24:48,570
trees

480
00:24:55,759 --> 00:24:52,350
I was paralyzed at first just watching

481
00:24:59,450 --> 00:24:55,769
this thing move very quickly faster than

482
00:25:04,460 --> 00:24:59,460
a bear my first thought was maybe there

483
00:25:07,250 --> 00:25:04,470
was glare in my glasses so I moved my

484
00:25:09,529 --> 00:25:07,260
head around and from side to side trying

485
00:25:12,289 --> 00:25:09,539
to see if it was any glare of my glasses

486
00:25:15,620 --> 00:25:12,299
that might have mistaken for this thing

487
00:25:18,399 --> 00:25:15,630
moving I did it several times but there

488
00:25:21,350 --> 00:25:18,409

was absolutely no glare whatsoever I

489

00:25:24,889 --> 00:25:21,360

instantly became terrified after that

490

00:25:28,909 --> 00:25:24,899

since I now realize what I saw was real

491

00:25:31,639 --> 00:25:28,919

I then took my pen light out of my pant

492

00:25:33,740 --> 00:25:31,649

pocket and shined it down the road the

493

00:25:35,930 --> 00:25:33,750

tiny light didn't make too big a

494

00:25:39,009 --> 00:25:35,940

difference lighting up the scene and the

495

00:25:42,259 --> 00:25:39,019

spot was about 25 yards away from me I

496

00:25:44,840 --> 00:25:42,269

was unnerved and needed to get two

497

00:25:46,850 --> 00:25:44,850

people to help me but I didn't want to

498

00:25:49,909 --> 00:25:46,860

turn my back on this area the creature

499

00:25:53,750 --> 00:25:49,919

was in so I back stepped down the road

500

00:25:55,850 --> 00:25:53,760

to the quarry I heard people at the

501
00:25:59,899 --> 00:25:55,860
first tent at the end of the quarry it

502
00:26:02,389 --> 00:25:59,909
turned out it was a girl named blank she

503
00:26:05,029 --> 00:26:02,399
is an expedition researcher and she was

504
00:26:07,850 --> 00:26:05,039
also recently on one of the Bigfoots

505
00:26:10,909 --> 00:26:07,860
episodes about the Bigfoot in the photo

506
00:26:13,159 --> 00:26:10,919
collecting apples in Vermont she and

507
00:26:16,129 --> 00:26:13,169
several others came out and I told her

508
00:26:19,070 --> 00:26:16,139
what I saw I took them all down there to

509
00:26:22,090 --> 00:26:19,080
the game trail and we looked around but

510
00:26:27,049 --> 00:26:22,100
the creature was gone

511
00:26:29,210 --> 00:26:27,059
Bigfoot related incident number two back

512
00:26:31,310 --> 00:26:29,220
in the camp with everyone I was pretty

513
00:26:32,820 --> 00:26:31,320

shaken up and decided to just go on the

514

00:26:35,580 --> 00:26:32,830

night expedition

515

00:26:38,580 --> 00:26:35,590

was the expedition leader and for others

516

00:26:41,190 --> 00:26:38,590

it was now getting close to 10:30 p.m.

517

00:26:43,789 --> 00:26:41,200

when we headed out and walked to the

518

00:26:46,649 --> 00:26:43,799

west down along the road

519

00:26:49,049 --> 00:26:46,659

after we went point six five miles

520

00:26:51,779 --> 00:26:49,059

according to the GPS carried by a person

521

00:26:54,750 --> 00:26:51,789

with us we walked up in a bend and skid

522

00:26:56,460 --> 00:26:54,760

road that went to the north we walked

523

00:27:00,149 --> 00:26:56,470

about a hundred yards and we stopped to

524

00:27:02,419 --> 00:27:00,159

do some cowbell knocks that means to hit

525

00:27:05,850 --> 00:27:02,429

the cowbell three times and we listened

526

00:27:09,060 --> 00:27:05,860

it was quiet until about three or four

527

00:27:14,190 --> 00:27:09,070

minutes later approximately 1124 p.m.

528

00:27:19,649 --> 00:27:14,200

there was a very loud classic sasquatch

529

00:27:21,810 --> 00:27:19,659

ah howl from the ridge above us everyone

530

00:27:25,169 --> 00:27:21,820

in the team thought it was someone from

531

00:27:27,779 --> 00:27:25,179

base camp doing a howl but I knew it was

532

00:27:30,029 --> 00:27:27,789

too close I've been in the woods long

533

00:27:33,000 --> 00:27:30,039

enough to know distance even in the dark

534

00:27:36,060 --> 00:27:33,010

it just sounded like it was up at the

535

00:27:38,669 --> 00:27:36,070

top of the ridge which I could just make

536

00:27:42,629 --> 00:27:38,679

out in the Twilight since I just saw a

537

00:27:45,779 --> 00:27:42,639

sasquatch two hours before I knew it was

538

00:27:49,769 --> 00:27:45,789

a sasquatch creature possibly the same

539

00:27:52,289 --> 00:27:49,779

creature I saw the ridge line runs back

540

00:27:55,409 --> 00:27:52,299

behind base camp into the area I was

541

00:27:58,259 --> 00:27:55,419

parked so it's possible this creature

542

00:28:01,919 --> 00:27:58,269

was following and keeping an eye on us

543

00:28:04,169 --> 00:28:01,929

or me we walked up that road and ended

544

00:28:06,570 --> 00:28:04,179

at the top of the ridge at the edge of

545

00:28:08,430 --> 00:28:06,580

the clear out we had a remarkable view

546

00:28:11,909 --> 00:28:08,440

of the mountains peak to the east the

547

00:28:14,009 --> 00:28:11,919

Milky Way to the stars the night stayed

548

00:28:17,070 --> 00:28:14,019

quiet after that with nothing more Aude

549

00:28:19,529 --> 00:28:17,080

happening so we returned and got back to

550

00:28:22,049 --> 00:28:19,539

base camp at 1:00 a.m. I quickly

551
00:28:23,580 --> 00:28:22,059
inquired if anyone had done a howl and

552
00:28:26,310 --> 00:28:23,590
no one did

553
00:28:29,009 --> 00:28:26,320
but those back at base camp said they

554
00:28:32,519 --> 00:28:29,019
heard a howl from our direction at the

555
00:28:36,779 --> 00:28:32,529
ridge and thought it was us the times

556
00:28:39,840 --> 00:28:36,789
that both teams heard the how coincided

557
00:28:43,169 --> 00:28:39,850
at the same time there were no other

558
00:28:45,510 --> 00:28:43,179
teams near us at all that night the next

559
00:28:46,710 --> 00:28:45,520
day we learned no other teams heard

560
00:28:49,380 --> 00:28:46,720
house that night

561
00:28:52,289 --> 00:28:49,390
and oddly there was a team bedded down

562
00:28:54,870 --> 00:28:52,299
in the meadow to the north only about a

563
00:29:00,240 --> 00:28:54,880

quarter mile from the base camp and they

564

00:29:01,980 --> 00:29:00,250

heard nothing super fascinating well

565

00:29:04,860 --> 00:29:01,990
