Mack Maloney's mill tracks I'll show

17

00:00:37,549 --> 00:00:34,410

here on the distant Thunder radio

18

00:00:39,520 --> 00:00:37,559

network this is Mack Maloney we have a

19

00:00:43,610 --> 00:00:39,530

very big shoe for you tonight but let me

20

00:00:45,979 --> 00:00:43,620

introduce the posse okay sorry girls no

21

00:00:48,319 --> 00:00:45,989

Juan Juan again tonight he's out on a

22

00:00:50,900 --> 00:00:48,329

secret mission I can hear the size and

23

00:00:53,600 --> 00:00:50,910

then cries all over the state if not the

24

00:00:54,740 --> 00:00:53,610

entire country no one won tonight but

25

00:00:57,069 --> 00:00:54,750

we'll try to make up for it though

26
00:01:01,189 --> 00:00:57,079
they're big shoes to fill let's say

27
00:01:02,840 --> 00:01:01,199
sitting in for him however in the studio

28
00:01:03,429 --> 00:01:02,850
a brand new studio up here in Exeter New

29
00:01:06,590 --> 00:01:03,439
Hampshire

30
00:01:11,830 --> 00:01:06,600
Alwyn Aldo UFO mechanic Alwyn now though

31
00:01:14,570 --> 00:01:11,840
is here good evening wreck and also on

32
00:01:17,929 --> 00:01:14,580
the phone line from his undisclosed

33
00:01:20,149 --> 00:01:17,939
location I believe the very famous KOCO

34
00:01:23,719 --> 00:01:20,159
is here commander Cobra in the howdini

35
00:01:25,820 --> 00:01:23,729
gentlemen okay okay everything okay with

36
00:01:27,380 --> 00:01:25,830
you there Co up and I should explain

37
00:01:29,210 --> 00:01:27,390
that Juan Juan is still visit on his own

38
00:01:31,249 --> 00:01:29,220

secret mission so secretly you won't

39

00:01:33,950 --> 00:01:31,259

even tell us what it does that's correct

40

00:01:35,810 --> 00:01:33,960

so I'm a little scary yeah very scary

41

00:01:38,539 --> 00:01:35,820

actually but you know when he comes back

42

00:01:40,160 --> 00:01:38,549

I'm sure I know why he's been gone the

43

00:01:42,440 --> 00:01:40,170

Patriots have been doing all not that I

44

00:01:45,950 --> 00:01:42,450

follow the sport but his absence says

45

00:01:48,679 --> 00:01:45,960

maybe he's supporting that that effort

46

00:01:50,210 --> 00:01:48,689

with mr. Brady his I don't well tis I

47

00:01:52,850 --> 00:01:50,220

don't wanna think isn't quit you know

48

00:01:55,910 --> 00:01:52,860

his settle is about 10% ago what should

49

00:02:01,609 --> 00:01:55,920

we call him is maybe that's another show

50

00:02:04,310 --> 00:02:01,619

but he his his I'd always precious its

51
00:02:06,980 --> 00:02:04,320
his precious he's kind of like Gollum

52
00:02:08,660 --> 00:02:06,990
when you start talking about Brady his

53
00:02:11,270 --> 00:02:08,670
precious that's the word I was going for

54
00:02:12,290 --> 00:02:11,280
alright thank you anyway yeah when he

55
00:02:13,309 --> 00:02:12,300
comes back I'm sure he'll have a

56
00:02:15,440 --> 00:02:13,319
detailed account

57
00:02:18,199 --> 00:02:15,450
of his secret mission and where he was

58
00:02:20,420 --> 00:02:18,209
all this time but anyway we plow on so

59
00:02:24,649 --> 00:02:20,430
the interesting show tonight we're going

60
00:02:27,860 --> 00:02:24,659
to be talking to mock Dan Antonio who we

61
00:02:29,660 --> 00:02:27,870
caught up with at the Leominster UFO

62
00:02:31,849 --> 00:02:29,670
conference in the fall

63
00:02:34,759 --> 00:02:31,859

that's correction there sir that is the

64

00:02:39,229 --> 00:02:34,769

Greater New England UFO conference all

65

00:02:42,190 --> 00:02:39,239

right okay in Leominster okay it's very

66

00:02:44,929 --> 00:02:42,200

important we get that right that's right

67

00:02:47,690 --> 00:02:44,939

really just I guess I missed the memo on

68

00:02:49,250 --> 00:02:47,700

that or I forgot I read it anyway so we

69

00:02:50,750 --> 00:02:49,260

met him there and he did this fast and

70

00:02:52,759 --> 00:02:50,760

he's an interesting guy he does a whole

71

00:02:53,839 --> 00:02:52,769

bunch of things as bio was great in fact

72

00:02:56,209 --> 00:02:53,849

that code were you could probably tell

73

00:02:58,459 --> 00:02:56,219

people his bio better than me but he did

74

00:03:00,949 --> 00:02:58,469

this presentation where he's like a

75

00:03:02,390 --> 00:03:00,959

professor I'm college professor and he

76

00:03:03,860 --> 00:03:02,400

took what looked like a roll of toilet

77

00:03:06,800 --> 00:03:03,870

paper but it wasn't it was just a roll

78

00:03:10,339 --> 00:03:06,810

of paper and he started at one end of

79

00:03:12,849 --> 00:03:10,349

this sizeable auditorium and he walked

80

00:03:16,000 --> 00:03:12,859

his way around the entire auditorium and

81

00:03:18,860 --> 00:03:16,010

stopping at places in this roll of paper

82

00:03:22,580 --> 00:03:18,870

very important points and let's say

83

00:03:25,249 --> 00:03:22,590

evolution okay so and and he went all

84

00:03:26,300 --> 00:03:25,259

the way around the auditorium all the

85

00:03:29,149 --> 00:03:26,310

way around and then when he got to the

86

00:03:31,099 --> 00:03:29,159

end he said and this little piece is how

87

00:03:31,429 --> 00:03:31,109

long humans have been around yeah thank

88

00:03:36,770 --> 00:03:31,439

you

89

00:03:39,289 --> 00:03:36,780

had a visualization of how we have not

90

00:03:41,360 --> 00:03:39,299

been on this planet more than like a few

91

00:03:42,770 --> 00:03:41,370

milliseconds compared everything else

92

00:03:45,499 --> 00:03:42,780

you know how much destruction we've

93

00:03:48,229 --> 00:03:45,509

caused yeah right it's a very little

94

00:03:50,270 --> 00:03:48,239

time to really screw it up but very good

95

00:03:55,280 --> 00:03:50,280

presentation good guy how did you meet

96

00:03:58,280 --> 00:03:55,290

him cope he heard on my on my show he he

97

00:04:01,159 --> 00:03:58,290

popped into my show what's the name of

98

00:04:03,530 --> 00:04:01,169

the show go ahead uh it's a task force

99

00:04:04,939 --> 00:04:03,540

Griffin with commander Cobra and he

100

00:04:06,979 --> 00:04:04,949

popped in on that show when we started

101
00:04:09,439 --> 00:04:06,989
to chit chat and then he has a YouTube

102
00:04:11,569 --> 00:04:09,449
channel where he does kind of I would

103
00:04:14,089 --> 00:04:11,579
knock I say deep space but where some

104
00:04:17,539 --> 00:04:14,099
folks will look at just like the evening

105
00:04:19,370 --> 00:04:17,549
sky and look for the the aerial

106
00:04:20,420 --> 00:04:19,380
phenomenon right whatever that is then

107
00:04:23,570 --> 00:04:20,430
you have other folks that look like at

108
00:04:25,580 --> 00:04:23,580
near items sort of the the moon and some

109
00:04:26,909 --> 00:04:25,590
of the the things that are close by he

110
00:04:30,749 --> 00:04:26,919
actually is an astronomer

111
00:04:32,339 --> 00:04:30,759
by trade and he has an observatory and

112
00:04:34,040 --> 00:04:32,349
then he'll go on and I'll have a show

113
00:04:36,390 --> 00:04:34,050

where they'll discuss what's happening

114

00:04:37,920 --> 00:04:36,400

in the sky and they'll look at things

115

00:04:39,420 --> 00:04:37,930

like crab nebulas and things like that

116

00:04:40,920 --> 00:04:39,430

that he can see that night no it's

117

00:04:42,869 --> 00:04:40,930

beautiful the imagery that comes up on

118

00:04:44,519 --> 00:04:42,879

his YouTube channel and then folks can

119

00:04:46,200 --> 00:04:44,529

talk in the chatroom well he's had me on

120

00:04:48,749 --> 00:04:46,210

it's kind of like a side commentary

121

00:04:50,820 --> 00:04:48,759

guest where he does this with folks and

122

00:04:53,010 --> 00:04:50,830

you're kind of just chit-chatting and

123

00:04:57,089 --> 00:04:53,020

you're looking at the the the stars and

124

00:04:59,990 --> 00:04:57,099

the skies and and the the near heavenly

125

00:05:02,070 --> 00:05:00,000

bodies so to speak and he's he's very

126

00:05:04,740 --> 00:05:02,080

very very smart and he's also very

127

00:05:07,529 --> 00:05:04,750

entertaining he can heat a lot of

128

00:05:09,990 --> 00:05:07,539

information out in a way that you just

129

00:05:12,619 --> 00:05:10,000

you know it's easy to understand he's

130

00:05:15,390 --> 00:05:12,629

got a really fun guy he's also quite a

131

00:05:19,230 --> 00:05:15,400

quite a model maker he has a small

132

00:05:20,730 --> 00:05:19,240

business that he makes scale very

133

00:05:22,800 --> 00:05:20,740

detailed models that have been used in

134

00:05:24,209 --> 00:05:22,810

movies and they've been used for

135

00:05:25,369 --> 00:05:24,219

research he's a very interesting

136

00:05:27,450 --> 00:05:25,379

character uh-huh

137

00:05:31,890 --> 00:05:27,460

now they have a feeling that Cobras

138

00:05:32,670 --> 00:05:31,900

asking for a raise I don't there's a lot

139

00:05:39,059 --> 00:05:32,680

going on there

140

00:05:41,429 --> 00:05:39,069

or you might jump you know I have my own

141

00:05:44,579 --> 00:05:41,439

show because of Mack which got a tribute

142

00:05:48,719 --> 00:05:44,589

underneath oh really yeah from what kind

143

00:05:50,939 --> 00:05:48,729

of a tribute I was asked in this

144

00:05:53,339 --> 00:05:50,949

business guests thought I was very

145

00:05:54,749 --> 00:05:53,349

polished and then in the Swazi gets dirt

146

00:05:57,300 --> 00:05:54,759

and I said well I got stirred because of

147

00:06:00,540 --> 00:05:57,310

my writer friend and broadcaster Mack

148

00:06:03,200 --> 00:06:00,550

Maloney and I I don't think I've ever

149

00:06:06,119 --> 00:06:03,210

been called polish now never ever

150

00:06:08,760 --> 00:06:06,129

polishing but I've never called polish

151
00:06:12,779 --> 00:06:08,770
but not polished ornamental documents

152
00:06:15,659 --> 00:06:12,789
they say complexion medium now I want to

153
00:06:17,999 --> 00:06:15,669
know what that yeah definition of medium

154
00:06:20,459 --> 00:06:18,009
well you know what I'm not quite as a

155
00:06:22,709 --> 00:06:20,469
white white you know so which is fine

156
00:06:27,809 --> 00:06:22,719
you know I've been called worse

157
00:06:29,850 --> 00:06:27,819
trust me so but yeah medium really the

158
00:06:33,300 --> 00:06:29,860
blue eyes just was that on your birth

159
00:06:34,709 --> 00:06:33,310
certificate do you know weapons oh I

160
00:06:37,439 --> 00:06:34,719
can't confirm it so no I

161
00:06:38,969 --> 00:06:37,449
okay well those type of things I hate to

162
00:06:40,909 --> 00:06:38,979
say it but these days skin color is very

163
00:06:46,640 --> 00:06:40,919

important the most

164

00:06:49,230 --> 00:06:46,650

yikes what the I guess I would be a fair

165

00:06:54,990 --> 00:06:49,240

anticipate I would be Fiat - I think

166

00:06:56,460 --> 00:06:55,000

yeah I think the Sicilian yeah I've got

167

00:06:58,320 --> 00:06:56,470

a quarter Sicilian blood in me but it

168

00:07:01,050 --> 00:06:58,330

obviously didn't make it to the skin

169

00:07:02,879 --> 00:07:01,060

tone no okay Wow alright was lucky it

170

00:07:04,830 --> 00:07:02,889

did but because I had to lay in the Sun

171

00:07:06,540 --> 00:07:04,840

yeah right yeah yeah in the summer it

172

00:07:07,950 --> 00:07:06,550

did works over ice Irish guys we give me

173

00:07:09,780 --> 00:07:07,960

one we have with on Bravo's on our heads

174

00:07:15,360 --> 00:07:09,790

get you close to a light bulb yeah

175

00:07:18,120 --> 00:07:15,370

you're in trouble anyway well okay that

176

00:07:19,680 --> 00:07:18,130

was interesting so one you gave me a

177

00:07:23,190 --> 00:07:19,690

shout out of Newsies is that what you're

178

00:07:26,250 --> 00:07:23,200

saying oh yeah very well received and

179

00:07:29,400 --> 00:07:26,260

talked about Barbara with and mr.

180

00:07:31,710 --> 00:07:29,410

Stanley and mr. shrapp some of the

181

00:07:34,260 --> 00:07:31,720

guests that have been on both our shows

182

00:07:37,350 --> 00:07:34,270

in some cases so it was a it was a kind

183

00:07:38,879 --> 00:07:37,360

of a surprise show I was no I actually

184

00:07:41,550 --> 00:07:38,889

good was able to tape it during the week

185

00:07:43,620 --> 00:07:41,560

and it got thrown up and I was able to

186

00:07:45,420 --> 00:07:43,630

sit in the chat room and I guess the

187

00:07:46,710 --> 00:07:45,430

best part was mrs. Cobra got to listen

188

00:07:48,930 --> 00:07:46,720

to the show and I was sitting next to

189

00:07:50,340 --> 00:07:48,940

her and she went to bed early after 45

190

00:07:54,080 --> 00:07:50,350

minutes and said this doesn't make very

191

00:07:56,790 --> 00:07:54,090

much sense to me and all right

192

00:07:58,710 --> 00:07:56,800

everyone's a critic I guess so you know

193

00:08:06,800 --> 00:07:58,720

it's successful if the wife doesn't get

194

00:08:09,659 --> 00:08:06,810

it yeah statement like that so anyway

195

00:08:17,120 --> 00:08:09,669

okay Cobra so putting wives to sleep

196

00:08:22,950 --> 00:08:21,060

so anyway so what Mike will be on in a

197

00:08:26,969 --> 00:08:22,960

little while and then we're gonna be

198

00:08:28,620 --> 00:08:26,979

talking to switchblade and Emily em

199

00:08:31,909 --> 00:08:28,630

they're gonna do a special presentation

200

00:08:35,540 --> 00:08:31,919

tonight they went down back down to

201
00:08:38,310 --> 00:08:35,550
Mothman Point Pleasant West Virginia

202
00:08:39,719 --> 00:08:38,320
where people who have been following

203
00:08:42,300 --> 00:08:39,729
this for the past year we've talked a

204
00:08:43,680 --> 00:08:42,310
lot about Mothman and I'll have them go

205
00:08:45,060 --> 00:08:43,690
through the brief history of it but you

206
00:08:46,650 --> 00:08:45,070
know just a lot of weird events

207
00:08:48,840 --> 00:08:46,660
happening down the small town in West

208
00:08:51,750 --> 00:08:48,850
Virginia Rhett across the river from

209
00:08:53,610 --> 00:08:51,760
Ohio people seeing this huge flying

210
00:08:55,890 --> 00:08:53,620
humanoid thing

211
00:08:57,269 --> 00:08:55,900
crazy story lots of witnesses lots of

212
00:08:58,950 --> 00:08:57,279
really good solid evidence that

213
00:09:01,829 --> 00:08:58,960

something very strange is going on down

214

00:09:04,860 --> 00:09:01,839

there and then kind of at the tail end

215

00:09:06,990 --> 00:09:04,870

of this whole year or so of these weird

216

00:09:09,030 --> 00:09:07,000

things happening a bridge between West

217

00:09:10,350 --> 00:09:09,040

Virginia and Ohio collapse 43 people

218

00:09:12,030 --> 00:09:10,360

were killed okay

219

00:09:13,950 --> 00:09:12,040

and a lot of people just thought wow

220

00:09:16,230 --> 00:09:13,960

this is it's connected you know because

221

00:09:19,019 --> 00:09:16,240

everything had been so strange people

222

00:09:20,340 --> 00:09:19,029

had seen look like kind of government

223

00:09:22,650 --> 00:09:20,350

agents on the bridge the night before

224

00:09:23,579 --> 00:09:22,660

people would spot Mothman on top of it

225

00:09:25,170 --> 00:09:23,589

Richard

226

00:09:27,750 --> 00:09:25,180

what's his name did a great movie

227

00:09:29,700 --> 00:09:27,760

Richard Gere yeah I mean a really pretty

228

00:09:33,150 --> 00:09:29,710

good movie you know so anyway they've

229

00:09:35,040 --> 00:09:33,160

they read they had a ceremony to all of

230

00:09:37,650 --> 00:09:35,050

the 50 years since the bridge collapsed

231

00:09:38,910 --> 00:09:37,660

and em and switch went down to it so

232

00:09:40,350 --> 00:09:38,920

they can report on that and talk to

233

00:09:42,540 --> 00:09:40,360

people who are on the bridge and stuff

234

00:09:44,880 --> 00:09:42,550

like that so I mean switch also I mean

235

00:09:48,480 --> 00:09:44,890

they both that kind of read rose to the

236

00:09:50,850 --> 00:09:48,490

level of subject matter experts on the

237

00:09:54,090 --> 00:09:50,860

on that event and the subsequent

238

00:09:56,880 --> 00:09:54,100

research around it didn't switch give

239

00:09:58,500 --> 00:09:56,890

her presentations was in yep the last

240

00:10:01,230 --> 00:09:58,510

time they had the Mothman festival down

241

00:10:03,269 --> 00:10:01,240

there which is quickly growing into like

242

00:10:05,960 --> 00:10:03,279

the coolest festival apparently because

243

00:10:08,070 --> 00:10:05,970

they say it's it's not all these kind of

244

00:10:09,690 --> 00:10:08,080

you know lectures and stuff like this

245

00:10:11,310 --> 00:10:09,700

they have bands they have like food

246

00:10:13,230 --> 00:10:11,320

courts and all this stuff they have lots

247

00:10:15,750 --> 00:10:13,240

of stuff that you can go into and a lot

248

00:10:17,340 --> 00:10:15,760

of these businesses down there have some

249

00:10:19,320 --> 00:10:17,350

kind of Mothman connection laughs me and

250

00:10:21,150 --> 00:10:19,330

ice cream and stuff like that and they

251
00:10:23,130 --> 00:10:21,160
had like 10,000 people down there last

252
00:10:24,210 --> 00:10:23,140
time you know and we were strike to

253
00:10:26,519 --> 00:10:24,220
switch but there we couldn't like about

254
00:10:27,990 --> 00:10:26,529
three or four but people really liked it

255
00:10:32,220 --> 00:10:28,000
so we would love to do the show down

256
00:10:36,570 --> 00:10:32,230
there we get the Winnebago one to go

257
00:10:40,410 --> 00:10:36,580
down so anyway so anything new we do

258
00:10:42,690 --> 00:10:40,420
there Kobe I know just been enjoying the

259
00:10:45,630 --> 00:10:42,700
the seasonal temperatures here of the

260
00:10:49,890 --> 00:10:45,640
going on territories it's been a really

261
00:10:52,079 --> 00:10:49,900
sporty couple of weeks with that the

262
00:10:57,960 --> 00:10:52,089
baby goats are doing very well the baby

263
00:10:58,829 --> 00:10:57,970

goes okay all right they've been on the

264

00:11:01,490 --> 00:10:58,839

bottle for a while

265

00:11:04,290 --> 00:11:01,500

that's been a lot more successful okay

266

00:11:07,590 --> 00:11:04,300

okay they've been doing well they're

267

00:11:09,960 --> 00:11:07,600

doing well how many of them we have to

268

00:11:12,210 --> 00:11:09,970

that are with us all the time and I

269

00:11:14,610 --> 00:11:12,220

really think about my it's our friend

270

00:11:16,230 --> 00:11:14,620

that actually raises them so I'm gonna

271

00:11:18,780 --> 00:11:16,240

chip in and with a couple other folks

272

00:11:20,100 --> 00:11:18,790

we're gonna get these goats cable TV or

273

00:11:21,240 --> 00:11:20,110

jigsaw puzzles because you're not

274

00:11:23,519 --> 00:11:21,250

supposed to be having babies in the

275

00:11:25,259 --> 00:11:23,529

winter to get these kids on to something

276

00:11:34,410 --> 00:11:25,269

else down there no pun intended

277

00:11:35,639 --> 00:11:34,420

what's he talking about must be having

278

00:11:39,030 --> 00:11:35,649

the babies in the winter suppose we have

279

00:11:41,249 --> 00:11:39,040

the babies in the spring so we what is

280

00:11:43,230 --> 00:11:41,259

the gestation period for a baby go

281

00:11:45,329 --> 00:11:43,240

I believe it's uh police around the

282

00:11:47,879 --> 00:11:45,339

neighborhood of two to three months it's

283

00:11:49,230 --> 00:11:47,889

about a ninety two and ninety nine what

284

00:11:51,420 --> 00:11:49,240

the goats are doing three months ago

285

00:11:53,160 --> 00:11:51,430

yeah I know what they had they all say

286

00:11:54,840 --> 00:11:53,170

that's right exactly so what I'm meaning

287

00:11:57,889 --> 00:11:54,850

is we're gonna get some kind of the

288

00:12:02,009 --> 00:11:57,899

diversion going on in their lives but

289

00:12:06,199 --> 00:12:02,019

Cathy has mrs. Cobra has delivered three

290

00:12:09,420 --> 00:12:06,209

sets of babies almost every two weeks

291

00:12:12,780 --> 00:12:09,430

since November what the clothes have a

292

00:12:14,990 --> 00:12:12,790

party in September or something boy you

293

00:12:18,030 --> 00:12:15,000

better talk to the male goats here they

294

00:12:22,079 --> 00:12:18,040

they might be out of breath keeping

295

00:12:24,269 --> 00:12:22,089

awful busy maybe stir cold yeah okay

296

00:12:27,540 --> 00:12:24,279

interesting well we'll do that we would

297

00:12:30,870 --> 00:12:27,550

learn about goats having on our being

298

00:12:32,370 --> 00:12:30,880

fooled into not having sex I mean that's

299

00:12:34,710 --> 00:12:32,380

a lawsuit something else

300

00:12:36,300 --> 00:12:34,720

so Cobra okay so we should tell people

301
00:12:39,210 --> 00:12:36,310
that up here in New England during this

302
00:12:41,550 --> 00:12:39,220
time period in which were we cool in the

303
00:12:44,220 --> 00:12:41,560
show it snowed about six inches on

304
00:12:46,230 --> 00:12:44,230
Christmas Day okay and now we're early

305
00:12:49,230 --> 00:12:46,240
into January and the temperature has not

306
00:12:50,879 --> 00:12:49,240
gone I think over a 24 or something and

307
00:12:52,769 --> 00:12:50,889
it's been in the single digits for

308
00:12:55,860 --> 00:12:52,779
almost the past two weeks yeah you can

309
00:12:58,379 --> 00:12:55,870
double that night too for my my snowfall

310
00:12:59,910 --> 00:12:58,389
up here Wow last year we didn't have

311
00:13:02,009 --> 00:12:59,920
this kind of weather is kind of more of

312
00:13:04,710 --> 00:13:02,019
warm and rain and stuff like that but

313
00:13:08,939 --> 00:13:04,720

yeah we go waving on global warming yes

314

00:13:11,009 --> 00:13:08,949

right yeah I'm blaming something but and

315

00:13:13,110 --> 00:13:11,019

I had to in in the wind wasn't blowing

316

00:13:15,210 --> 00:13:13,120

very well on that Christmas Day storm

317

00:13:16,350 --> 00:13:15,220

because you know as you know al is my

318

00:13:18,449 --> 00:13:16,360

neighbor in when

319

00:13:20,490 --> 00:13:18,459

have a real storm the snow doesn't blow

320

00:13:21,990 --> 00:13:20,500

onto my driveway it just blows right

321

00:13:24,079 --> 00:13:22,000

across the street on the other Drive

322

00:13:26,880 --> 00:13:24,089

with his attends as long as it's windy

323

00:13:29,579 --> 00:13:26,890

no matter how much snow we get you can

324

00:13:31,560 --> 00:13:29,589

walk out with a brush but maybe if he

325

00:13:33,750 --> 00:13:31,570

even needs a brush yeah just clean the

326

00:13:36,600 --> 00:13:33,760

windows of his cars I have a six-foot

327

00:13:38,100 --> 00:13:36,610

drift on the end of my driveway and he's

328

00:13:43,259 --> 00:13:38,110

sitting in his window looking out at me

329

00:13:45,569 --> 00:13:43,269

wavin not weather with a fine Scotch in

330

00:13:49,110 --> 00:13:45,579

his hand right now no I mean he you know

331

00:13:51,150 --> 00:13:49,120

we have gravel driveways because they

332

00:13:53,940 --> 00:13:51,160

won't allow pavement unless the island

333

00:13:55,889 --> 00:13:53,950

that we love so you try first of all you

334

00:13:57,509 --> 00:13:55,899

take a snowblower out there good luck to

335

00:14:00,060 --> 00:13:57,519

you that's like shrapnel yeah it's like

336

00:14:01,019 --> 00:14:00,070

a machine gun and and I look out there

337

00:14:03,600 --> 00:14:01,029

and I'm out there fighting

338

00:14:06,060 --> 00:14:03,610

there's snow blower and he's got nothing

339

00:14:07,860 --> 00:14:06,070

I mean nothing but I'm not at the window

340

00:14:10,199 --> 00:14:07,870

waving at you because it pains me to see

341

00:14:17,220 --> 00:14:10,209

other people at hot labor he goes to

342

00:14:20,190 --> 00:14:17,230

another part of the house he'll be done

343

00:14:21,750 --> 00:14:20,200

soon the previous owners also leased it

344

00:14:24,120 --> 00:14:21,760

says with a noise complaint of the

345

00:14:26,069 --> 00:14:24,130

neighbor that's you know blowing rocks

346

00:14:29,009 --> 00:14:26,079

with the snow blower right in the

347

00:14:31,949 --> 00:14:29,019

barking dog yeah yeah I when we had

348

00:14:33,210 --> 00:14:31,959

we're really going off scent to here but

349

00:14:35,430 --> 00:14:33,220

when we first moved there the first

350

00:14:36,930 --> 00:14:35,440

winter we were there Louis and I we had

351

00:14:39,540 --> 00:14:36,940

the four blizzards in a row and there

352

00:14:41,639 --> 00:14:39,550

was 16 feet of snow and I have a picture

353

00:14:44,370 --> 00:14:41,649

of you coming down your driveway with

354

00:14:46,170 --> 00:14:44,380

the snow blower but the snow is like

355

00:14:48,569 --> 00:14:46,180

three or four feet over your head you

356

00:14:51,829 --> 00:14:48,579

know so I sent it to someone in the biz

357

00:14:54,960 --> 00:14:51,839

the publishing business in Wisconsin

358

00:14:56,850 --> 00:14:54,970

okay yeah just saying yeah this is like

359

00:14:58,230 --> 00:14:56,860

it became a meme out there whatever that

360

00:15:01,889 --> 00:14:58,240

is you know people right how'd it going

361

00:15:05,189 --> 00:15:01,899

on so you this is what it's like in the

362

00:15:06,720 --> 00:15:05,199

one it was so deep I couldn't use the

363

00:15:09,060 --> 00:15:06,730

snow blower to throw the snow over the

364

00:15:11,850 --> 00:15:09,070

top anymore I had to shoot it further up

365

00:15:13,139 --> 00:15:11,860

the driveway and then pack it into a

366

00:15:15,090 --> 00:15:13,149

place I used to use for a parking area

367

00:15:17,069 --> 00:15:15,100

yeah there was the machine just couldn't

368

00:15:19,650 --> 00:15:17,079

take anymore I hear you get it packing

369

00:15:24,620 --> 00:15:22,770

man that's Wow we got to talk to the

370

00:15:26,820 --> 00:15:24,630

goats about that yeah you ain't kidding

371

00:15:31,170 --> 00:15:26,830

so anyway well you know we have a new

372

00:15:32,610 --> 00:15:31,180

sound effect I shoulda used it so why

373

00:15:35,070 --> 00:15:32,620

don't we do this why don't we take a

374

00:15:37,440 --> 00:15:35,080

commercial break now and Cobra you're

375

00:15:40,590 --> 00:15:37,450

going to be with us right yes sir okay

376

00:15:43,100 --> 00:15:40,600

and then when we come back hopefully we

377

00:15:45,180 --> 00:15:43,110

can connect with Mike the Antonio

378

00:15:48,240 --> 00:15:45,190

Dantonio is that how we pronounce his

379

00:15:49,710 --> 00:15:48,250

last name d Antonio deantonio oh I see

380

00:15:52,080 --> 00:15:49,720

okay his Skype name doesn't have the

381

00:15:53,130 --> 00:15:52,090

apostrophe we have to pay extra for that

382

00:15:56,010 --> 00:15:53,140

on skype you don't wanna do that hey

383

00:15:58,530 --> 00:15:56,020

who's the goats nanny we got a nanny

384

00:16:00,120 --> 00:15:58,540

goat heroes yeah and what is that the

385

00:16:02,730 --> 00:16:00,130

mother goat either got to takes care of

386

00:16:04,860 --> 00:16:02,740

the goats the nanny go now that I guess

387

00:16:07,740 --> 00:16:04,870

I would be the nanny goat because mrs.

388

00:16:11,400 --> 00:16:07,750

Cobra is the is the mommy goat right now

389

00:16:14,280 --> 00:16:11,410

so Wow so it goes right into that whole

390

00:16:16,650 --> 00:16:14,290

sensitive profile ah yes okay yeah I

391

00:16:20,610 --> 00:16:16,660

could see he had them he's cuddling them

392

00:16:27,900 --> 00:16:20,620

like newborn babes nobody's gonna eat

393

00:16:29,340 --> 00:16:27,910

these goats right there anyway we are

394

00:16:31,230 --> 00:16:29,350

going down the Avenue that you tried to

395

00:16:35,130 --> 00:16:31,240

drive down Mac we're gonna back out of

396

00:16:37,530 --> 00:16:35,140

that alley pretty quick there's a place

397

00:16:39,150 --> 00:16:37,540

near where I lived that this these

398

00:16:42,060 --> 00:16:39,160

people had a sign out for years it said

399

00:16:43,740 --> 00:16:42,070

goat bucks and I swear to god I drove by

400

00:16:52,290 --> 00:16:43,750

there one day I'm like what kind of

401
00:16:56,430 --> 00:16:52,300
money is that I'm an idiot or a city guy

402
00:17:02,400 --> 00:16:56,440
yeah you know I bet 90% of our audience

403
00:17:05,130 --> 00:17:02,410
are going is that like Bitcoin like what

404
00:17:07,559 --> 00:17:05,140
like Bitcoin goat bucks that could be

405
00:17:11,370 --> 00:17:07,569
the next big thing yeah if you want to

406
00:17:13,500 --> 00:17:11,380
invest investing no sorry yeah so on

407
00:17:17,040 --> 00:17:13,510
that note okay we've talked about that

408
00:17:21,000 --> 00:17:17,050
it's you know goat sex and economics

409
00:17:22,949 --> 00:17:21,010
yeah tonight okay and the weather and so

410
00:17:24,929 --> 00:17:22,959
in the Patriots and the Patriots okay

411
00:17:27,810 --> 00:17:24,939
and one one secret yeah so you know we

412
00:17:29,940 --> 00:17:27,820
are precious and the pressure real quick

413
00:17:31,320 --> 00:17:29,950

the I read a thing in the Boston paper

414

00:17:32,710 --> 00:17:31,330

the other day said something to the

415

00:17:35,930 --> 00:17:32,720

effect

416

00:17:37,520 --> 00:17:35,940

they did a they do the report card on

417

00:17:40,460 --> 00:17:37,530

the Patriots for the weekend okay and

418

00:17:43,100 --> 00:17:40,470

when they said Gronkowski was absent

419

00:17:45,170 --> 00:17:43,110

absent yep so maybe one one in him were

420

00:17:46,400 --> 00:17:45,180

both absent that could be you know maybe

421

00:17:47,480 --> 00:17:46,410

he was partying with the Grunk that

422

00:17:49,190 --> 00:17:47,490

could be you know

423

00:17:51,410 --> 00:17:49,200

alright mission what they can see huh

424

00:17:52,820 --> 00:17:51,420

while they asked them really quested

425

00:17:54,950 --> 00:17:52,830

they didn't come to the stadium on

426

00:17:56,480 --> 00:17:54,960

Sunday you know on one why he has so

427

00:17:59,240 --> 00:17:56,490

many tentacles into the Patriots should

428

00:18:01,970 --> 00:17:59,250

be surprised you know but you know he's

429

00:18:03,650 --> 00:18:01,980

uh you know he's he's as you say he

430

00:18:05,660 --> 00:18:03,660

follows his idol and no matter what's

431

00:18:12,890 --> 00:18:05,670

going on he's somehow involved

432

00:18:14,690 --> 00:18:12,900

apparently thank you very much so why

433

00:18:25,850 --> 00:18:14,700

don't we take a break now and when we

434

00:18:27,890 --> 00:18:25,860

come back our friend Antonio and the

435

00:18:31,280 --> 00:18:27,900

studio with us tonight taking one ones

436

00:18:33,860 --> 00:18:31,290

chair if not his shoes your faux

437

00:18:37,220 --> 00:18:33,870

mechanic al Ronaldo good evening

438

00:18:39,290 --> 00:18:37,230

everyone in the house also from the

439

00:18:42,160 --> 00:18:39,300

undisclosed location up there in may and

440

00:18:44,570 --> 00:18:42,170

I know I some Boyd and saying this but

441

00:18:45,980 --> 00:18:44,580

you've been to the compound I've been

442

00:18:48,430 --> 00:18:45,990

through the compound several times

443

00:18:52,850 --> 00:18:48,440

Al's been to the compound yes yes right

444

00:18:55,940 --> 00:18:52,860

and we survived right we got out so he's

445

00:18:58,520 --> 00:18:55,950

up there um it's Coco they call Coco on

446

00:19:01,730 --> 00:18:58,530

the street a lot of acreage up there you

447

00:19:05,840 --> 00:19:01,740

go yes you made the Culver also in the

448

00:19:07,280 --> 00:19:05,850

virtual house thank you so um why don't

449

00:19:10,940 --> 00:19:07,290

we get I guess done right away instead

450

00:19:14,420 --> 00:19:10,950

of any pitter-patter okay because this

451

00:19:17,330 --> 00:19:14,430

guy is a very famous guy in the UFO

452

00:19:20,960 --> 00:19:17,340

community you see him on TV he's also

453

00:19:22,610 --> 00:19:20,970

big in cable diggin cable okay you don't

454

00:19:27,050 --> 00:19:22,620

want to go there just wanted to throw

455

00:19:31,670 --> 00:19:27,060

that out him Comcast have had several

456

00:19:36,310 --> 00:19:31,680

encounters let's say I should never have

457

00:19:38,840 --> 00:19:36,320

told that story Mike Dan Antonio I say

458

00:19:40,940 --> 00:19:38,850

no but that's okay you know I mean you

459

00:19:43,769 --> 00:19:40,950

get your through in the Comcast thing so

460

00:19:45,450 --> 00:19:43,779

it's fine weathers howhow do you say

461

00:19:49,729 --> 00:19:45,460

of this faith now how would you

462

00:19:53,609 --> 00:19:49,739

pronounce that Dantonio there you go

463

00:19:55,619 --> 00:19:53,619

what did I say Dan Tony Dan and Dan

464

00:19:57,779 --> 00:19:55,629

Antonio which is what the sometimes the

465

00:19:59,459 --> 00:19:57,789

telemarketers say that and I just hang

466

00:20:02,459 --> 00:19:59,469

up on them but you know I would never

467

00:20:04,409 --> 00:20:02,469

hang up on you commander vouches for you

468

00:20:10,589 --> 00:20:04,419

only been here for a minute yeah don't

469

00:20:12,810 --> 00:20:10,599

be so hasty let's cut right to the chase

470

00:20:15,930 --> 00:20:12,820

you know Mike you've been on TV you're

471

00:20:18,209 --> 00:20:15,940

someone who the TV networks go to as an

472

00:20:20,159 --> 00:20:18,219

expert like LAN you opposed and kind of

473

00:20:22,649 --> 00:20:20,169

not the really French stuff kind of more

474

00:20:24,180 --> 00:20:22,659

scientific and how did they how do they

475

00:20:32,219 --> 00:20:24,190

get into how many times you've been on

476

00:20:33,959 --> 00:20:32,229

TV do you know wow I mean and you know I

477

00:20:36,869 --> 00:20:33,969

always have trouble talking about myself

478

00:20:39,950 --> 00:20:36,879

but that's okay no thanks thank you but

479

00:20:43,320 --> 00:20:39,960

so bear with me um I've been on probably

480

00:20:44,909 --> 00:20:43,330

ten different networks and there's two

481

00:20:46,709 --> 00:20:44,919

series that I'm associated with now the

482

00:20:48,299 --> 00:20:46,719

NASA's unexplained files series I've

483

00:20:50,820 --> 00:20:48,309

been with them since season one and

484

00:20:54,209 --> 00:20:50,830

and it's not available in all states for

499

00:21:27,599 --> 00:21:22,719

now I believe in and what on earth also

500

00:21:31,489 --> 00:21:27,609

found me - how did they fire and how do

501
00:21:34,289 --> 00:21:31,499
they find you I mean the more they call

502
00:21:39,570 --> 00:21:34,299
well you know part of it is that when

503
00:21:41,879 --> 00:21:39,580
when I do these high-profile UFO cases

504
00:21:44,729 --> 00:21:41,889
I'm no-nonsense you know I I will sit

505
00:21:46,320 --> 00:21:44,739
there and say well look everyone that

506
00:21:49,560 --> 00:21:46,330
you are talking to you says these were

507
00:21:52,019 --> 00:21:49,570
UFOs but I'm analyzing the data and I'm

508
00:21:54,749 --> 00:21:52,029
really hard on this data so let me just

509
00:22:02,920 --> 00:21:54,759
you know like he'll suck all the fun

510
00:22:07,190 --> 00:22:05,390
commander knows from experience that I

511
00:22:09,920 --> 00:22:07,200
don't suck all the fun of the room I put

512
00:22:12,920 --> 00:22:09,930
a lot of fun into the room just throw me

513
00:22:15,170 --> 00:22:12,930

it's very very true yeah and and I I

514

00:22:19,210 --> 00:22:15,180

think that you know we don't have to go

515

00:22:23,840 --> 00:22:19,220

into the strange and an unbelievable

516

00:22:27,500 --> 00:22:23,850

realm to have a good logical scientific

517

00:22:29,150 --> 00:22:27,510

discussion about the reality of

518

00:22:31,340 --> 00:22:29,160

extraterrestrial visitation to this

519

00:22:33,710 --> 00:22:31,350

planet sure so don't need to go down

520

00:22:36,830 --> 00:22:33,720

that path I mean it can be here it is

521

00:22:38,780 --> 00:22:36,840

here in my view right but we don't have

522

00:22:40,790 --> 00:22:38,790

to go to the fanatical stuff but they go

523

00:22:42,320 --> 00:22:40,800

to you because you you you kind of know

524

00:22:44,870 --> 00:22:42,330

how to do it on TV if you know what I

525

00:22:46,820 --> 00:22:44,880

mean right well I'm a voice of reason I

526

00:22:48,380 --> 00:22:46,830

think I mean but you know present

527

00:22:50,480 --> 00:22:48,390

yourself very well like when we saw the

528

00:22:51,710 --> 00:22:50,490

lecture you know was like you know

529

00:22:54,320 --> 00:22:51,720

you're not just some guy off the street

530

00:22:55,580 --> 00:22:54,330

who you know daddy UFO land in his

531

00:22:56,180 --> 00:22:55,590

backyard and he's you know written a

532

00:22:59,180 --> 00:22:56,190

book about it

533

00:23:01,669 --> 00:22:59,190

you know you wish well that's true I do

534

00:23:04,520 --> 00:23:01,679

it I mean I I've been performing since I

535

00:23:06,860 --> 00:23:04,530

was 12 so I guess you know I was a

536

00:23:10,220 --> 00:23:06,870

magician for many years before I was a

537

00:23:13,190 --> 00:23:10,230

UFO investigator so you know doing a

538

00:23:15,410 --> 00:23:13,200

magic show is a little bit harder than

539

00:23:18,470 --> 00:23:15,420

doing a TV show where they can say you

540

00:23:19,850 --> 00:23:18,480

want to read it again you know if you

541

00:23:25,690 --> 00:23:19,860

know you can't say that to the audience

542

00:23:29,630 --> 00:23:27,740

very quick story about magicians

543

00:23:32,110 --> 00:23:29,640

remember rum who was the guy with the

544

00:23:35,180 --> 00:23:32,120

the long he was like the hippy magician

545

00:23:36,710 --> 00:23:35,190

Doug Henning Doug Henning okay so wait a

546

00:23:39,980 --> 00:23:36,720

long long time ago when he was hot right

547

00:23:41,780 --> 00:23:39,990

someone I knew had a had a son who you

548

00:23:43,400 --> 00:23:41,790

know was having health issues so they

549

00:23:45,710 --> 00:23:43,410

said anyway you can get us in to see

550

00:23:47,690 --> 00:23:45,720

Doug Henning right so I write that's

551

00:23:49,160 --> 00:23:47,700

quit you know I know to them and they

552

00:23:50,540 --> 00:23:49,170

come back they should sure meet us on

553

00:23:52,610 --> 00:23:50,550

the side the other something's connected

554

00:23:54,320 --> 00:23:52,620

in yeah meet us on the side the last six

555

00:23:56,000 --> 00:23:54,330

o'clock and go in right yeah and then

556

00:23:57,320 --> 00:23:56,010

you'll meet his greeter and that's the

557

00:23:59,240 --> 00:23:57,330

guy who's gonna take care you after the

558

00:24:01,460 --> 00:23:59,250

show's over so we go okay yeah so me and

559

00:24:04,520 --> 00:24:01,470

the kid go in and as we go in Doug

560

00:24:06,169 --> 00:24:04,530

Henning watch right by us walks right by

561

00:24:07,720 --> 00:24:06,179

us right and then down and then the

562

00:24:10,150 --> 00:24:07,730

handle comes up knee goes OH

563

00:24:11,800 --> 00:24:10,160

who was that you know like that and we

564

00:24:12,640 --> 00:24:11,810

really realized it wasn't like any it

565

00:24:16,600 --> 00:24:12,650

was his double

566

00:24:18,010 --> 00:24:16,610

was doing these you know you know be in

567

00:24:19,510 --> 00:24:18,020

this cage and suddenly being in this

568

00:24:21,520 --> 00:24:19,520

cage down there he's using a double and

569

00:24:23,350 --> 00:24:21,530

this guy cuz when we finally met Doug

570

00:24:24,280 --> 00:24:23,360

Henning later on in his Winnebago of the

571

00:24:25,870 --> 00:24:24,290

show he was like you know hugging

572

00:24:28,510 --> 00:24:25,880

everyone and kissing everyone he was

573

00:24:31,060 --> 00:24:28,520

very touchy-feely this guy know kind of

574

00:24:35,260 --> 00:24:31,070

blow us off yes yeah yeah that's how he

575

00:24:38,110 --> 00:24:35,270

did a lot of who is better-looking the

576

00:24:39,280 --> 00:24:38,120

double or he looked exactly like him and

577

00:24:40,930 --> 00:24:39,290

if you remember Doug Henning he was

578

00:24:42,820 --> 00:24:40,940

coming like a small guy had real long

579

00:24:44,350 --> 00:24:42,830

hair and then he had like a hippie

580

00:24:46,690 --> 00:24:44,360

mustache in a way you know when he was

581

00:24:48,340 --> 00:24:46,700

kind of a Transcendental Meditation a

582

00:24:50,770 --> 00:24:48,350

nice guy he couldn't have been better to

583

00:24:56,530 --> 00:24:50,780

the people we brought him in to see and

584

00:25:00,430 --> 00:24:56,540

stuff like that it was very gracious oh

585

00:25:07,210 --> 00:25:00,440

really yeah because it used to date him

586

00:25:09,130 --> 00:25:07,220

yeah refer to him as a Magic Man no I

587

00:25:12,340 --> 00:25:09,140

don't know those stories that would be

588

00:25:13,540 --> 00:25:12,350

too much information for me you know the

589

00:25:15,460 --> 00:25:13,550

curious thing about duck hunting is he

590

00:25:19,570 --> 00:25:15,470

actually disappeared into obscurity when

591

00:25:22,240 --> 00:25:19,580

he went and started I think it was India

592

00:25:26,380 --> 00:25:22,250

where he actually disappeared to learn

593

00:25:28,930 --> 00:25:26,390

from some Yogi's yes and he ended up in

594

00:25:30,280 --> 00:25:28,940

that world for the remainder of his time

595

00:25:32,020 --> 00:25:30,290

out you know he stole I don't know he

596

00:25:33,990 --> 00:25:32,030

died yeah it's weed he died kind of a

597

00:25:38,470 --> 00:25:34,000

young guy so he died about 20 years ago

598

00:25:39,820 --> 00:25:38,480

you know but yeah his show was you know

599

00:25:41,800 --> 00:25:39,830

just sitting there and watching it was

600

00:25:43,210 --> 00:25:41,810

like fantastic you know I mean oh yeah

601
00:25:46,210 --> 00:25:43,220
he's using doubles a chip and that he

602
00:25:48,370 --> 00:25:46,220
was doing stuff that would people you

603
00:25:53,790 --> 00:25:48,380
know would a deck of cards with someone

604
00:25:57,100 --> 00:25:53,800
from the audience it's done so anyway so

605
00:25:58,990 --> 00:25:57,110
so listen so I do ever get like stage

606
00:26:04,480 --> 00:25:59,000
fright you know when you run when the

607
00:26:07,750 --> 00:26:04,490
cameras rolling no I mean in the reason

608
00:26:10,780 --> 00:26:07,760
I know I don't think is because having a

609
00:26:13,570 --> 00:26:10,790
history of performing on stage with the

610
00:26:17,020 --> 00:26:13,580
live audience and not having the luxury

611
00:26:18,940 --> 00:26:17,030
of letting anything go wrong being on

612
00:26:20,000 --> 00:26:18,950
camera turns out to be just a piece of

613
00:26:21,920 --> 00:26:20,010

cake

614

00:26:23,930 --> 00:26:21,930

here to that the pressure is so

615

00:26:27,500 --> 00:26:23,940

different there's no worries everything

616

00:26:30,230 --> 00:26:27,510

can be done again and you know I often

617

00:26:31,280 --> 00:26:30,240

will you know say okay we got to stop

618

00:26:32,420 --> 00:26:31,290

and do that again because I didn't

619

00:26:34,760 --> 00:26:32,430

really phrase that the way I thought I

620

00:26:36,830 --> 00:26:34,770

could phrase it okay and they do and

621

00:26:38,060 --> 00:26:36,840

you're gracious about it so you know and

622

00:26:39,620 --> 00:26:38,070

what do you sit in oh like a hotel room

623

00:26:42,140 --> 00:26:39,630

somewhere they rent some kind of a

624

00:26:45,080 --> 00:26:42,150

little studio space for the day or

625

00:26:48,320 --> 00:26:45,090

something well actually you know my

626
00:26:51,710 --> 00:26:48,330
company is FX models and it's a visual

627
00:26:53,300 --> 00:26:51,720
effects studio so they come here and my

628
00:26:55,010 --> 00:26:53,310
office is made up to look like a world

629
00:27:01,370 --> 00:26:55,020
war ii battleship complete with a half

630
00:27:02,960 --> 00:27:01,380
story or rivets on the walls they got

631
00:27:05,720 --> 00:27:02,970
real portholes for windows from a

632
00:27:08,150 --> 00:27:05,730
destroyer I mean so when they come in

633
00:27:09,380 --> 00:27:08,160
you know when they finished closing

634
00:27:11,870 --> 00:27:09,390
their mouth and going you know looking

635
00:27:13,460 --> 00:27:11,880
around okay and they see it there's rust

636
00:27:15,230 --> 00:27:13,470
painted on the wall it looks like really

637
00:27:19,130 --> 00:27:15,240
rusty steel walls you know what they're

638
00:27:21,920 --> 00:27:19,140

the you know bright glossy gray paint

639

00:27:26,060 --> 00:27:21,930

mm-hmm and yeah it's all it's all in

640

00:27:28,910 --> 00:27:26,070

effect it's all a studio effect so Wow

641

00:27:30,770 --> 00:27:28,920

they see that and they just they first

642

00:27:32,930 --> 00:27:30,780

look around going oh man of course

643

00:27:36,080 --> 00:27:32,940

they're from London so I go look oh my

644

00:27:40,130 --> 00:27:36,090

god this is such a would we stop with

645

00:27:43,280 --> 00:27:40,140

something like this you know camera so

646

00:27:47,390 --> 00:27:43,290

with that battleship why a battleship I

647

00:27:50,300 --> 00:27:47,400

was gonna go with like a starship at one

648

00:27:52,730 --> 00:27:50,310

point but I I'm a I've done work for the

649

00:27:54,890 --> 00:27:52,740

Navy since 1994 is a contractor okay

650

00:27:58,160 --> 00:27:54,900

sure FX models ended up being a navy

651
00:28:00,920 --> 00:27:58,170
contractor so nice I want to make it a

652
00:28:04,820 --> 00:28:00,930
submarine office because I focus on the

653
00:28:07,600 --> 00:28:04,830
submarine Navy but I did look into

654
00:28:12,170 --> 00:28:07,610
making you know the spherical or

655
00:28:13,640 --> 00:28:12,180
cylindrical wall sections probably that

656
00:28:16,300 --> 00:28:13,650
was the space I was putting my office

657
00:28:18,800 --> 00:28:16,310
and was too small for that mm-hmm and I

658
00:28:21,050 --> 00:28:18,810
couldn't get the proper diameter at all

659
00:28:22,970 --> 00:28:21,060
and so I'd have to scale it down which

660
00:28:26,540 --> 00:28:22,980
is fine yep it's really hard to find the

661
00:28:28,220 --> 00:28:26,550
portholes for a submarine right you

662
00:28:31,660 --> 00:28:28,230
wouldn't have four goals at all exactly

663
00:28:35,590 --> 00:28:31,670

they're really hard to find

664

00:28:37,090 --> 00:28:35,600

in the front window that's the view we

665

00:28:38,530 --> 00:28:37,100

did an 8 foot we did an 8 foot see if

666

00:28:40,570 --> 00:28:38,540

you actually model of an 8 foot see you

667

00:28:42,550 --> 00:28:40,580

see from oh man that's a great show man

668

00:28:43,930 --> 00:28:42,560

that's not a that's not out there you

669

00:28:45,820 --> 00:28:43,940

know that's one of those shows that you

670

00:28:50,440 --> 00:28:45,830

know they don't do in reruns just some

671

00:28:53,050 --> 00:28:50,450

reason yeah well these streaming sites

672

00:28:54,880 --> 00:28:53,060

oh yeah right I used to watch that every

673

00:28:58,540 --> 00:28:54,890

that was like one of my top 5 shows man

674

00:29:00,190 --> 00:28:58,550

yeah movie nights if you get mark to

675

00:29:02,320 --> 00:29:00,200

come back on he'll take you through as a

676

00:29:03,490 --> 00:29:02,330

tour on it one of the funniest things

677

00:29:05,380 --> 00:29:03,500

this is what he's walking with the

678

00:29:07,060 --> 00:29:05,390

computer and he takes you through it and

679

00:29:09,760 --> 00:29:07,070

you're looking at the the ship and it's

680

00:29:11,110 --> 00:29:09,770

amazing the ship then you open the door

681

00:29:12,970 --> 00:29:11,120

and you'll pop out to the other part of

682

00:29:19,210 --> 00:29:12,980

it and then you'll come up against this

683

00:29:23,410 --> 00:29:19,220

washer and dryer yeah so it's but first

684

00:29:25,120 --> 00:29:23,420

you go through the drone fleet you see

685

00:29:29,080 --> 00:29:25,130

first and then then it's my shipping

686

00:29:31,150 --> 00:29:29,090

area there and then the shop is next you

687

00:29:32,440 --> 00:29:31,160

know so I have to keep everything

688

00:29:34,180 --> 00:29:32,450

separated because I have so many

689

00:29:35,890 --> 00:29:34,190

computers in here that I know I can't

690

00:29:38,320 --> 00:29:35,900

let the dust get to them well they do

691

00:29:40,480 --> 00:29:38,330

have a reclamation system in the office

692

00:29:42,430 --> 00:29:40,490

so they if we're doing anything and all

693

00:29:44,440 --> 00:29:42,440

the doors are open and it's nice out

694

00:29:46,210 --> 00:29:44,450

you know I turn on that dust machine and

695

00:29:47,710 --> 00:29:46,220

it's just like you know sucks everything

696

00:29:48,940 --> 00:29:47,720

out but it's a very nice one it looks

697

00:29:51,220 --> 00:29:48,950

like it's part of the day corps actually

698

00:29:54,580 --> 00:29:51,230

all right it's what you say it's a dirt

699

00:29:57,700 --> 00:29:54,590

reclamation yes definitely

700

00:29:59,110 --> 00:29:57,710

just reclaimer basically you know dust

701
00:30:00,400 --> 00:29:59,120
out of the air and cleans the entire

702
00:30:02,110 --> 00:30:00,410
office in three minutes

703
00:30:03,550 --> 00:30:02,120
well that's cool man I could see

704
00:30:06,070 --> 00:30:03,560
something like that really being nice

705
00:30:09,250 --> 00:30:06,080
you know yeah you can't have it on now

706
00:30:11,650 --> 00:30:09,260
or all your tears right you're in

707
00:30:14,350 --> 00:30:11,660
Connecticut right I am unfortunately now

708
00:30:16,060 --> 00:30:14,360
okay all right so - for this morning yep

709
00:30:19,090 --> 00:30:16,070
we're going through the same thing up in

710
00:30:20,260 --> 00:30:19,100
Boston and further up it's really warm -

711
00:30:23,170 --> 00:30:20,270
that's excellent

712
00:30:25,990 --> 00:30:23,180
yeah okay commander thank you you know

713
00:30:27,220 --> 00:30:26,000

the problem again there's like the

714

00:30:31,510 --> 00:30:27,230

walnut pods of this country they

715

00:30:32,740 --> 00:30:31,520

probably say that warm in Florida we

716

00:30:33,640 --> 00:30:32,750

were talking they were talking northern

717

00:30:35,410 --> 00:30:33,650

Florida oh really

718

00:30:39,940 --> 00:30:35,420

parties and stuff oh one of those real

719

00:30:41,800 --> 00:30:39,950

Oh Kennedy like Atlanta was ridiculously

720

00:30:43,030 --> 00:30:41,810

cold it for them oh they go nuts down

721

00:30:45,919 --> 00:30:43,040

this man

722

00:30:48,169 --> 00:30:45,929

Yeah right well I mean I have I have an

723

00:30:50,720 --> 00:30:48,179

observatory here with a very large

724

00:30:53,030 --> 00:30:50,730

telescope in it and dome and all that

725

00:30:54,890 --> 00:30:53,040

stuff and what you feel for your YouTube

726

00:30:56,630 --> 00:30:54,900

program yeah that's I'm late that's my

727

00:31:00,380 --> 00:30:56,640

skype that's called sky tour livestream

728

00:31:03,830 --> 00:31:00,390

that's actually my I guess why don't you

729

00:31:07,850 --> 00:31:03,840

call it a vice really I mean my degrees

730

00:31:09,500 --> 00:31:07,860

in astronomy so no some ideas planets

731

00:31:12,320 --> 00:31:09,510

around other stars let me ask you

732

00:31:15,320 --> 00:31:12,330

something mock um yeah if I can be so

733

00:31:17,210 --> 00:31:15,330

bold are you a married man yeah you are

734

00:31:21,530 --> 00:31:17,220

okay what does your wife think about all

735

00:31:22,909 --> 00:31:21,540

this you know or she well I I told her

736

00:31:27,190 --> 00:31:22,919

I'm moving to Arizona in a couple of

737

00:31:29,630 --> 00:31:27,200

years and she's sort of waste okay I

738

00:31:31,909 --> 00:31:29,640

sent me a post Calvin you know thank you

739

00:31:35,120 --> 00:31:31,919

so so but I mean like you know the the

740

00:31:37,310 --> 00:31:35,130

day-to-day stuff of being let's say UFO

741

00:31:39,860 --> 00:31:37,320

exports um who's on TV I mean does the

742

00:31:41,390 --> 00:31:39,870

she does she share your belief in what's

743

00:31:43,789 --> 00:31:41,400

that there's something going on up

744

00:31:46,250 --> 00:31:43,799

that's in fact what you believe I don't

745

00:31:48,730 --> 00:31:46,260

I don't believe that she nor my children

746

00:31:51,020 --> 00:31:48,740

two boys actually really think about it

747

00:31:52,850 --> 00:31:51,030

but I was on the phone today with a guy

748

00:31:54,110 --> 00:31:52,860

and I had him i speakerphone and my

749

00:31:55,299 --> 00:31:54,120

youngest son who's in film school

750

00:31:58,250 --> 00:31:55,309

actually

751

00:32:01,700 --> 00:31:58,260

he came in and overheard the

752

00:32:05,030 --> 00:32:01,710

conversation of this guy who was in the

753

00:32:07,880 --> 00:32:05,040

Wisconsin woods telling me all about the

754

00:32:11,299 --> 00:32:07,890

imagery and movies videos videos that

755

00:32:14,900 --> 00:32:11,309

he's sending me that show what he thinks

756

00:32:18,260 --> 00:32:14,910

is an entire Bigfoot family know I'm not

757

00:32:19,370 --> 00:32:18,270

a you know I there might be creatures in

758

00:32:21,560 --> 00:32:19,380

this planet that we haven't found yet

759

00:32:24,350 --> 00:32:21,570

certainly in the deep ocean we've find

760

00:32:24,710 --> 00:32:24,360

new species every year mm-hmm on the

761

00:32:26,840 --> 00:32:24,720

land

762

00:32:29,570 --> 00:32:26,850

maybe and there's a lot of square

763

00:32:33,650 --> 00:32:29,580

footage a lot of squares I'm exactly

764

00:32:35,510 --> 00:32:33,660

many acres that really we haven't been

765

00:32:38,890 --> 00:32:35,520

to yet in our in our country there's a

766

00:32:41,690 --> 00:32:38,900

few places that are really removed so

767

00:32:43,700 --> 00:32:41,700

he's gonna send me the symmetry and

768

00:32:45,470 --> 00:32:43,710

stuff I mean I get that to see I get the

769

00:32:47,630 --> 00:32:45,480

UFO stuff and then I get this stuff

770

00:32:50,480 --> 00:32:47,640

mm-hmm now I have I have a drone with a

771

00:32:51,649 --> 00:32:50,490

military-grade infrared system on it oh

772

00:32:53,720 --> 00:32:51,659

very nice one

773

00:32:56,090 --> 00:32:53,730

very nice I mean I'm gonna design that

774

00:32:57,710 --> 00:32:56,100

you can see oh yeah absolutely yeah

775

00:33:00,560 --> 00:32:57,720

with impunity I could fly with impunity

776

00:33:04,460 --> 00:33:00,570

I took it to Arizona yeah when I went up

777

00:33:06,500 --> 00:33:04,470

in the air there I was looking down and

778

00:33:09,350 --> 00:33:06,510

it was probably around 10 o'clock at

779

00:33:12,440 --> 00:33:09,360

night and I was seeing animals running

780

00:33:14,360 --> 00:33:12,450

in the desert probably coyotes hmm and I

781

00:33:16,340 --> 00:33:14,370

was also seeing these dark streaks on

782

00:33:19,190 --> 00:33:16,350

the ground okay and what I was actually

783

00:33:20,660 --> 00:33:19,200

seeing was slightly cooler ground and

784

00:33:22,040 --> 00:33:20,670

the answer to why that was slightly

785

00:33:25,670 --> 00:33:22,050

cooler was because that's where the

786

00:33:27,380 --> 00:33:25,680

water is and you could tell where the

787

00:33:29,510 --> 00:33:27,390

water is from the air with an infrared

788

00:33:31,790 --> 00:33:29,520

system especially at night because it

789

00:33:34,040 --> 00:33:31,800

cools quicker than the surrounding dirt

790

00:33:36,470 --> 00:33:34,050

that doesn't have any a lot of moisture

791

00:33:37,850 --> 00:33:36,480

yeah how far away so I could map out the

792

00:33:42,620 --> 00:33:37,860

water running under the desert out there

793

00:33:44,480 --> 00:33:42,630

which I did and water that's under the

794

00:33:46,160 --> 00:33:44,490

desert your target that's correct I mean

795

00:33:49,010 --> 00:33:46,170

this is stuff that's like in aquifers

796

00:33:50,720 --> 00:33:49,020

you can actually see the effect as it

797

00:33:51,950 --> 00:33:50,730

comes up now it they have to be shallow

798

00:33:53,630 --> 00:33:51,960

I mean if they're really deep you'd

799

00:33:54,830 --> 00:33:53,640

never see them of course right you can't

800

00:33:57,050 --> 00:33:54,840

say you can't say oh it was where you

801
00:33:59,810 --> 00:33:57,060
dig your well right but it does show you

802
00:34:02,120 --> 00:33:59,820
where the moisture content is higher and

803
00:34:03,710 --> 00:34:02,130
that's important because that's animals

804
00:34:05,840 --> 00:34:03,720
frequent those areas animals go there

805
00:34:07,730 --> 00:34:05,850
because they can you know with their

806
00:34:09,200 --> 00:34:07,740
paws scraping it and then maybe get a

807
00:34:11,000 --> 00:34:09,210
little bit of a drink but you know they

808
00:34:13,100 --> 00:34:11,010
typically would chew on a saguaro cactus

809
00:34:14,600 --> 00:34:13,110
if they wanna you know get their water

810
00:34:17,390 --> 00:34:14,610
cuz they're just big water reservoirs

811
00:34:19,970 --> 00:34:17,400
you just stick up yep you know that

812
00:34:21,620 --> 00:34:19,980
means cool stuff and so and and and when

813
00:34:24,140 --> 00:34:21,630

you're investigating UFOs you you learn

814

00:34:27,050 --> 00:34:24,150

all these ancillary Sciences that go

815

00:34:29,690 --> 00:34:27,060

along with your specialty and then you

816

00:34:32,000 --> 00:34:29,700

know then some right so and you have to

817

00:34:34,940 --> 00:34:32,010

know this and I tell people you know to

818

00:34:36,080 --> 00:34:34,950

be a UFO investigator and you know you

819

00:34:38,300 --> 00:34:36,090

don't just have to know how to use a

820

00:34:41,000 --> 00:34:38,310

camera you have to know how cameras take

821

00:34:43,220 --> 00:34:41,010

pictures good and bad you also have to

822

00:34:44,720 --> 00:34:43,230

be able to understand earth science you

823

00:34:47,180 --> 00:34:44,730

have to understand astronomy of course

824

00:34:49,310 --> 00:34:47,190

so now and it just goes on and on you

825

00:34:52,310 --> 00:34:49,320

even have to understand human anatomy

826

00:34:54,530 --> 00:34:52,320

okay you have to know why the human eyes

827

00:34:55,760 --> 00:34:54,540

are separated by just a couple inches or

828

00:34:57,680 --> 00:34:55,770

so you know two and a half inches and

829

00:34:59,240 --> 00:34:57,690

the reason is oh you know because a

830

00:35:02,330 --> 00:34:59,250

binocular vision it gives us the ability

831

00:35:05,180 --> 00:35:02,340

to discern distance doesn't it but in a

832

00:35:07,010 --> 00:35:05,190

UFO case what do you hear it was three

833

00:35:09,620 --> 00:35:07,020

hundred feet across and about a mile

834

00:35:11,329 --> 00:35:09,630

away and those are

835

00:35:13,430 --> 00:35:11,339

metrics that the person just thought

836

00:35:15,579 --> 00:35:13,440

that's what they saw right but there's

837

00:35:19,130 --> 00:35:15,589

no way to know that that's really true

838

00:35:21,470 --> 00:35:19,140

because if there's no references that

839

00:35:25,130 --> 00:35:21,480

they can use then they're subject to the

840

00:35:27,410 --> 00:35:25,140

same problems if you put 10 people at a

841

00:35:29,480 --> 00:35:27,420

same sighting and I prove this actually

842

00:35:31,099 --> 00:35:29,490

in the desert with with a 30 people okay

843

00:35:33,259 --> 00:35:31,109

if you put 10 people in this in a

844

00:35:35,210 --> 00:35:33,269

sighting and you ask them what they see

845

00:35:37,519 --> 00:35:35,220

you're gonna get maybe 8 different

846

00:35:39,170 --> 00:35:37,529

answers really I mean out of in reality

847

00:35:40,609 --> 00:35:39,180

get about 8 different answers ok a

848

00:35:43,309 --> 00:35:40,619

couple people will agree with each other

849

00:35:46,279 --> 00:35:43,319

so I had 30 people in desert we're doing

850

00:35:48,140 --> 00:35:46,289

training for them on basically UFO

851
00:35:50,089 --> 00:35:48,150
recovery actually we had a fake UFO on

852
00:35:51,410 --> 00:35:50,099
the ground courtesy of yeah you know

853
00:35:54,920 --> 00:35:51,420
Chuck and Vickie modeling who gave up

854
00:35:57,319 --> 00:35:54,930
their their their land for this for this

855
00:35:59,870 --> 00:35:57,329
training and it was a week and on the

856
00:36:02,839 --> 00:35:59,880
final night I flew a drone way out about

857
00:36:05,150 --> 00:36:02,849
about a half a mile out and I had a very

858
00:36:07,549 --> 00:36:05,160
bright light on it mm-hmm and I had it

859
00:36:10,009 --> 00:36:07,559
off and now it was dusk it was almost

860
00:36:11,269 --> 00:36:10,019
dark and then I I was using the infrared

861
00:36:13,220 --> 00:36:11,279
system so I could see and I was

862
00:36:15,529 --> 00:36:13,230
navigating around you know Saguaro

863
00:36:17,660 --> 00:36:15,539

cactuses with no problem and I turned it

864

00:36:19,269 --> 00:36:17,670

around when the light facing me and then

865

00:36:20,420 --> 00:36:19,279

went way up in the air turn the light on

866

00:36:22,249 --> 00:36:20,430

okay

867

00:36:24,380 --> 00:36:22,259

and now I started coming forward and

868

00:36:26,210 --> 00:36:24,390

people are going what's that Hey look

869

00:36:28,039 --> 00:36:26,220

look what's that this guy yeah and I'm

870

00:36:30,859 --> 00:36:28,049

listening and I was on the other side of

871

00:36:32,329 --> 00:36:30,869

the compound from where they were what

872

00:36:33,890 --> 00:36:32,339

sound travels in the desert like you

873

00:36:35,450 --> 00:36:33,900

can't believe I mean you can hear

874

00:36:36,980 --> 00:36:35,460

someone coming literally from two miles

875

00:36:40,190 --> 00:36:36,990

away you can hear them driving on the

876

00:36:41,480 --> 00:36:40,200

road the dirt road yep okay and so I'm

877

00:36:43,370 --> 00:36:41,490

listening to all these comments and

878

00:36:45,620 --> 00:36:43,380

people are saying what is that that's

879

00:36:47,990 --> 00:36:45,630

that's got to be moving like 200 miles

880

00:36:50,720 --> 00:36:48,000

an hour at least yes cuz I was I was

881

00:36:52,849 --> 00:36:50,730

racing horizontally well for them you

882

00:36:54,769 --> 00:36:52,859

know left to right across the sky yeah

883

00:36:57,079 --> 00:36:54,779

just slipping to the to the to my left

884

00:36:59,690 --> 00:36:57,089

you know if I was in the drone okay okay

885

00:37:01,220 --> 00:36:59,700

and it was looking like to them like it

886

00:37:03,440 --> 00:37:01,230

was something moving several hundred

887

00:37:05,299 --> 00:37:03,450

miles an hour and they said how far away

888

00:37:07,460 --> 00:37:05,309

is that and I one person said I think

889

00:37:08,990 --> 00:37:07,470

it's like a couple of miles at that

890

00:37:10,930 --> 00:37:09,000

point it was less than three-quarters of

891

00:37:15,019 --> 00:37:10,940

Bowness or less than half a mile and

892

00:37:17,150 --> 00:37:15,029

then I went racing way up in the air and

893

00:37:18,440 --> 00:37:17,160

they said well if that's like several

894

00:37:19,940 --> 00:37:18,450

miles away do you know that means you

895

00:37:21,920 --> 00:37:19,950

had to move at least a thousand miles an

896

00:37:23,510 --> 00:37:21,930

hour and there are all these numbers

897

00:37:25,910 --> 00:37:23,520

that they're throwing out everything

898

00:37:28,370 --> 00:37:25,920

yes is just because it's a get it's

899

00:37:31,190 --> 00:37:28,380

against a blank sky they can't tell what

900

00:37:33,200 --> 00:37:31,200

it is they can't tell how far it is and

901
00:37:34,700 --> 00:37:33,210
to put your thumb up I think you know I

902
00:37:36,740 --> 00:37:34,710
read once you put your thumb up and then

903
00:37:39,260 --> 00:37:36,750
you say ok it was you know half the

904
00:37:41,660 --> 00:37:39,270
length of my thumb my thumb held out as

905
00:37:43,130 --> 00:37:41,670
far as I can from my eyes right and that

906
00:37:45,260 --> 00:37:43,140
way they have something to kind of link

907
00:37:47,720 --> 00:37:45,270
on to that can give you the dimensions

908
00:37:48,770 --> 00:37:47,730
of whatever the hell was up there they

909
00:37:50,990 --> 00:37:48,780
could just give you the relative

910
00:37:53,150 --> 00:37:51,000
dimension it was the size of say half my

911
00:37:55,280 --> 00:37:53,160
thumb if they said that's you then that

912
00:37:58,010 --> 00:37:55,290
could be a very small thing much closer

913
00:38:00,200 --> 00:37:58,020

or a big thing farther away but boom you

914

00:38:03,500 --> 00:38:00,210

still don't have the range you know and

915

00:38:05,930 --> 00:38:03,510

that's the thing and as I got closer I

916

00:38:08,210 --> 00:38:05,940

sped up and I started racing it thing at

917

00:38:10,970 --> 00:38:08,220

high speed it goes pretty good about 35

918

00:38:12,320 --> 00:38:10,980

to 38 miles an hour and I'm racing it

919

00:38:15,590 --> 00:38:12,330

across and then I start dropping it down

920

00:38:18,560 --> 00:38:15,600

to the deck and now the mountains are

921

00:38:19,850 --> 00:38:18,570

behind it and the people are going oh I

922

00:38:21,320 --> 00:38:19,860

can see the mountains don't know what's

923

00:38:23,120 --> 00:38:21,330

going on now they're starting to panic

924

00:38:25,520 --> 00:38:23,130

but now you see they're getting some

925

00:38:28,490 --> 00:38:25,530

range data well the mounds are Chuck

926
00:38:30,920 --> 00:38:28,500
said the mountains are 15 miles away so

927
00:38:33,770 --> 00:38:30,930
that's got to be you know you know much

928
00:38:36,950 --> 00:38:33,780
much closer and then as I got closer

929
00:38:38,270 --> 00:38:36,960
they started to hear the sound okay cuz

930
00:38:41,300 --> 00:38:38,280
I was I was letting the cat out of the

931
00:38:44,930 --> 00:38:41,310
bag cuz you know yeah so anyway it got

932
00:38:46,790 --> 00:38:44,940
closer and all of a sudden everybody was

933
00:38:49,430 --> 00:38:46,800
quiet and the drone flies right over

934
00:38:51,590 --> 00:38:49,440
them Brown and then just look up and

935
00:38:59,960 --> 00:38:51,600
then one one person in the crowd goes

936
00:39:01,430 --> 00:38:59,970
mark and yells out my name and you idiot

937
00:39:03,590 --> 00:39:01,440
that was you wasn't it and then of

938
00:39:05,570 --> 00:39:03,600

course everybody's eye starts laughing

939

00:39:07,250 --> 00:39:05,580

and so forth right and but it proved the

940

00:39:12,710 --> 00:39:07,260

points eMac it proved the point that

941

00:39:14,750 --> 00:39:12,720

this was a situation where 30 people had

942

00:39:17,180 --> 00:39:14,760

quite a number of different

943

00:39:18,859 --> 00:39:17,190

approximation for the data that they

944

00:39:20,990 --> 00:39:18,869

thought they knew right and that's what

945

00:39:23,060 --> 00:39:21,000

we see right ya know do they yeah that's

946

00:39:25,550 --> 00:39:23,070

what we see the 30 people sign like

947

00:39:29,570 --> 00:39:25,560

insurance waivers before the dozens what

948

00:39:33,290 --> 00:39:29,580

you actually I think they did you know

949

00:39:35,690 --> 00:39:33,300

this was actually how the mutual UFO

950

00:39:37,230 --> 00:39:35,700

network to put on this training and I

951
00:39:40,080 --> 00:39:37,240
was one of the instructors yeah

952
00:39:42,600 --> 00:39:40,090
[h__h] you fly the drone away from you

953
00:39:43,830 --> 00:39:42,610
you know is it like a mile is it can can

954
00:39:48,570 --> 00:39:43,840
the drum be out of yours

955
00:39:51,060 --> 00:39:48,580
- I can still fly well well in a hangar

956
00:39:53,340 --> 00:39:51,070
one second I just inhaled in the wrong

957
00:39:56,130 --> 00:39:53,350
pipe that's why you need that that does

958
00:39:58,920 --> 00:39:56,140
separate or run yeah I don't have it on

959
00:40:00,330 --> 00:39:58,930
that's a problem um yeah it depends

960
00:40:02,880 --> 00:40:00,340
which one they have I have one that I

961
00:40:06,450 --> 00:40:02,890
can get about two miles away with no

962
00:40:09,300 --> 00:40:06,460
problem and of course you don't see it

963
00:40:12,120 --> 00:40:09,310

so you have to fly from what it sees and

964

00:40:13,770 --> 00:40:12,130

if you lose the signal it'll just

965

00:40:15,240 --> 00:40:13,780

automatically say oh I've lost the

966

00:40:17,790 --> 00:40:15,250

signal I'm coming home to where I took

967

00:40:19,290 --> 00:40:17,800

off from okay you know it'll come back

968

00:40:23,880 --> 00:40:19,300

by itself I have another one a

969

00:40:27,600 --> 00:40:23,890

hexacopter a six six motor system that

970

00:40:29,670 --> 00:40:27,610

one can go six miles away it's like if I

971

00:40:31,710 --> 00:40:29,680

we could we call that you know it's not

972

00:40:35,340 --> 00:40:31,720

really truly this but you know you call

973

00:40:37,620 --> 00:40:35,350

it Oh over the horizon kind of a flight

974

00:40:39,840 --> 00:40:37,630

the only as far as we're concerned yeah

975

00:40:41,760 --> 00:40:39,850

it's over our local horizon yeah not

976

00:40:44,550 --> 00:40:41,770

over our real horizon but yeah but I

977

00:40:46,680 --> 00:40:44,560

usually it's great because the software

978

00:40:48,570 --> 00:40:46,690

allows me to do grid searches so I can

979

00:40:50,099 --> 00:40:48,580

actually just you know instruct it to do

980

00:40:51,630 --> 00:40:50,109

a grid search right and it will

981

00:40:54,420 --> 00:40:51,640

automatically do a grid search by or

982

00:40:57,090 --> 00:40:54,430

whatever you know you know numbers I put

983

00:40:59,970 --> 00:40:57,100

in for the grid um really good stuff and

984

00:41:02,160 --> 00:40:59,980

I can control it from an iPad or

985

00:41:04,980 --> 00:41:02,170

progressive brings you flow a tree with

progressive casualty insurance company

997

00:41:30,599 --> 00:41:28,750

affiliates discounts not available in

998

00:41:31,800 --> 00:41:30,609

all states or situations from a

999

00:41:34,859 --> 00:41:31,810

controller like you're holding in your

1000

00:41:36,720 --> 00:41:34,869

regular radio controller right do you

1001
00:41:38,670 --> 00:41:36,730
ever there's anything um you know you go

1002
00:41:41,170 --> 00:41:38,680
back and you do tape it or you are

1003
00:41:44,530 --> 00:41:41,180
you're watching it live what you know

1004
00:41:46,990 --> 00:41:44,540
casting to both I actually if video

1005
00:41:49,270 --> 00:41:47,000
captures at 4k which is very

1006
00:41:51,339 --> 00:41:49,280
high-resolution right and it's

1007
00:41:52,299 --> 00:41:51,349
transmitting live so I get a live feed

1008
00:41:54,819 --> 00:41:52,309
on the monitor

1009
00:41:57,370 --> 00:41:54,829
okay and we see anything like really

1010
00:42:00,130 --> 00:41:57,380
kind of outrageously you know freaky

1011
00:42:01,809 --> 00:42:00,140
I saw rabbit eating some dandelion

1012
00:42:05,710 --> 00:42:01,819
shoots on my front lawn in the middle of

1013
00:42:08,559 --> 00:42:05,720

night Wow but yeah that really scared me

1014

00:42:10,990 --> 00:42:08,569

ya know I haven't yeah

1015

00:42:14,740 --> 00:42:11,000

I haven't yet because I haven't you know

1016

00:42:17,440 --> 00:42:14,750

flown the IR system to the point where

1017

00:42:19,000 --> 00:42:17,450

you know I mean I floated a lot but I

1018

00:42:21,549 --> 00:42:19,010

haven't flown it in it's a point where

1019

00:42:23,049 --> 00:42:21,559

I've actually got enough flights under

1020

00:42:25,990 --> 00:42:23,059

my belt that I can say I saw this on

1021

00:42:28,150 --> 00:42:26,000

this date that on that date mm-hmm but

1022

00:42:30,309 --> 00:42:28,160

that's coming that's not far away we do

1023

00:42:33,280 --> 00:42:30,319

have a canyon trip we plan for the Grand

1024

00:42:33,940 --> 00:42:33,290

Canyon where we're gonna fly from River

1025

00:42:37,030 --> 00:42:33,950

to Rin

1026

00:42:38,980 --> 00:42:37,040

with one with a drone okay fly off a J

1027

00:42:40,720 --> 00:42:38,990

boat going down the river and then just

1028

00:42:42,040 --> 00:42:40,730

go right up in the air and bredren going

1029

00:42:44,730 --> 00:42:42,050

and go up over the top of the rim and

1030

00:42:47,309 --> 00:42:44,740

one one continuous shot again

1031

00:42:50,920 --> 00:42:47,319

that takes a lot of battery power but

1032

00:42:54,430 --> 00:42:50,930

like my big drone you know it flies a 21

1033

00:42:56,859 --> 00:42:54,440

amp battery so I get about 25 minutes of

1034

00:42:58,299 --> 00:42:56,869

flight time on that but okay I think a

1035

00:42:59,680 --> 00:42:58,309

lot of practice has I think Ella now is

1036

00:43:03,849 --> 00:42:59,690

the only one who is understanding this

1037

00:43:06,069 --> 00:43:03,859

of the two of us okay I mean I've been

1038

00:43:09,400 --> 00:43:06,079

writing it down but I'm falling behind

1039

00:43:11,260 --> 00:43:09,410

no well it's it's a it's a pre record so

1040

00:43:12,849 --> 00:43:11,270

you can always cut that out you know

1041

00:43:14,289 --> 00:43:12,859

you're talking about your perspective

1042

00:43:16,089 --> 00:43:14,299

and what people see and what they don't

1043

00:43:17,770 --> 00:43:16,099

or what they think they see

1044

00:43:19,660 --> 00:43:17,780

and how many different people see the

1045

00:43:22,839 --> 00:43:19,670

same thing and interpret it differently

1046

00:43:26,890 --> 00:43:22,849

I have a friend who's about seven foot

1047

00:43:28,930 --> 00:43:26,900

six so he's a giant and if you took him

1048

00:43:31,030 --> 00:43:28,940

and you brought him and you stood him

1049

00:43:33,220 --> 00:43:31,040

next to a cement block wall and you took

1050

00:43:34,930 --> 00:43:33,230

people off you know a distance away and

1051
00:43:37,650 --> 00:43:34,940
said what do you see they say I see a

1052
00:43:40,770 --> 00:43:37,660
guy a gentleman standing by the wall

1053
00:43:43,510 --> 00:43:40,780
right but if you bring them closer and

1054
00:43:45,780 --> 00:43:43,520
they get a look at the guy they they

1055
00:43:48,099 --> 00:43:45,790
they go my god the guy's huge

1056
00:43:52,539 --> 00:43:48,109
but right and now the walls now the

1057
00:43:55,310 --> 00:43:52,549
walls a lot taller right but you it's so

1058
00:43:57,560 --> 00:43:55,320
funny because people don't get

1059
00:43:59,330 --> 00:43:57,570
you know everybody interprets things

1060
00:44:00,860 --> 00:43:59,340
differently so like that's why you said

1061
00:44:03,230 --> 00:44:00,870
like eight different people looking at

1062
00:44:04,760 --> 00:44:03,240
the same things and you get eight

1063
00:44:08,030 --> 00:44:04,770

different interpretations of it and it's

1064

00:44:11,480 --> 00:44:08,040

human nature because you base it on your

1065

00:44:12,710 --> 00:44:11,490

experiences to determine what you're

1066

00:44:14,870 --> 00:44:12,720

seeing you know cuz everyone's got a

1067

00:44:16,730 --> 00:44:14,880

different interpretation of it so look

1068

00:44:18,710 --> 00:44:16,740

like with the UFOs you know someone sees

1069

00:44:20,570 --> 00:44:18,720

something that predetermined to think

1070

00:44:22,760 --> 00:44:20,580

that's what it looks like because that's

1071

00:44:25,940 --> 00:44:22,770

their only reference if you will maybe

1072

00:44:28,250 --> 00:44:25,950

you said the right word reference okay

1073

00:44:30,230 --> 00:44:28,260

if you have a point of reference like an

1074

00:44:33,680 --> 00:44:30,240

aircraft people understand that aircraft

1075

00:44:35,840 --> 00:44:33,690

is a certain size oh look a 737 well I

1076

00:44:39,170 --> 00:44:35,850

know how much I know how big a 737-800

1077

00:44:41,240 --> 00:44:39,180

is I know its wingspan and I know it

1078

00:44:44,000 --> 00:44:41,250

even has Wi-Fi on board yay well the

1079

00:44:45,590 --> 00:44:44,010

fact is seeing that in the sky you can

1080

00:44:47,570 --> 00:44:45,600

if you took a photograph of it you could

1081

00:44:50,470 --> 00:44:47,580

calculate how high it is based on the

1082

00:44:53,030 --> 00:44:50,480

size of the wingspan on the image and

1083

00:44:55,280 --> 00:44:53,040

knowing the actual size of the wingspan

1084

00:44:58,250 --> 00:44:55,290

in real life you could calculate for

1085

00:44:58,910 --> 00:44:58,260

that image at that magnification how far

1086

00:45:02,210 --> 00:44:58,920

away it is

1087

00:45:03,560 --> 00:45:02,220

you know and you know generally if it's

1088

00:45:05,900 --> 00:45:03,570

leaving the country will then you know

1089

00:45:08,990 --> 00:45:05,910

what's probably and this is a rough view

1090

00:45:12,070 --> 00:45:09,000

of above 30,000 you know depending on

1091

00:45:14,840 --> 00:45:12,080

temperature - right the colder it is out

1092

00:45:17,090 --> 00:45:14,850

it all depends a lot of things you can

1093

00:45:21,080 --> 00:45:17,100

get you can get contrails a little above

1094

00:45:23,900 --> 00:45:21,090

and below that sure but you know so yeah

1095

00:45:28,280 --> 00:45:23,910

I get photos you know the speaking Jeff

1096

00:45:30,800 --> 00:45:28,290

my favorite photo that people I get that

1097

00:45:34,370 --> 00:45:30,810

people think are UFOs are the ones where

1098

00:45:37,760 --> 00:45:34,380

the Jets are in a distance and so that

1099

00:45:39,530 --> 00:45:37,770

the contrail is very foreshortened so

1100

00:45:41,930 --> 00:45:39,540

the whole length of the contrails

1101
00:45:43,910 --> 00:45:41,940
compressed in just tiny little you know

1102
00:45:45,290 --> 00:45:43,920
near distance and far distance that

1103
00:45:47,540 --> 00:45:45,300
aren't really separated from each other

1104
00:45:49,520 --> 00:45:47,550
in the sky and so it looks like this

1105
00:45:52,430 --> 00:45:49,530
little - in the sky when in fact it's a

1106
00:45:54,740 --> 00:45:52,440
lot longer than that and depending on

1107
00:45:57,440 --> 00:45:54,750
the conditions as you said the contrail

1108
00:45:59,690 --> 00:45:57,450
may vanish after only about 15 seconds

1109
00:46:02,150 --> 00:45:59,700
in the air but while the Jets still

1110
00:46:03,260 --> 00:46:02,160
flying you get a contrail behind it for

1111
00:46:06,620 --> 00:46:03,270
a certain distance and it goes away

1112
00:46:08,270 --> 00:46:06,630
right and and especially at sunset right

1113
00:46:08,900 --> 00:46:08,280

those are beautiful they look gorgeous

1114

00:46:11,750 --> 00:46:08,910

you know that

1115

00:46:14,600 --> 00:46:11,760

these beautiful orange dashes in the sky

1116

00:46:18,440 --> 00:46:14,610

yeah and I get so many people saying

1117

00:46:20,720 --> 00:46:18,450

this is not an aircraft it's like well

1118

00:46:22,700 --> 00:46:20,730

actually it is you know and I can prove

1119

00:46:25,610 --> 00:46:22,710

it you know four or five different way

1120

00:46:27,320 --> 00:46:25,620

Maes yeah chemtrails I mean you know

1121

00:46:28,610 --> 00:46:27,330

that would seem to be like the hot topic

1122

00:46:31,460 --> 00:46:28,620

maybe two or three years ago and then it

1123

00:46:33,580 --> 00:46:31,470

kind of died away I mean did you ever

1124

00:46:36,320 --> 00:46:33,590

put any kind of credence in that at all

1125

00:46:38,660 --> 00:46:36,330

no I'll see science reared its ugly head

1126
00:46:41,020 --> 00:46:38,670
and and the whole chemtrail controversy

1127
00:46:44,120 --> 00:46:41,030
you know there's still a few pockets of

1128
00:46:46,580 --> 00:46:44,130
hardcore people out there that think

1129
00:46:49,670 --> 00:46:46,590
that they're real and and they always

1130
00:46:52,490 --> 00:46:49,680
seem to draw on the the same tired old

1131
00:46:57,710 --> 00:46:52,500
imagery showing big tanks in a wide-body

1132
00:47:00,020 --> 00:46:57,720
aircraft and I when I see those I say to

1133
00:47:02,570 --> 00:47:00,030
them you know these have been shown time

1134
00:47:04,550 --> 00:47:02,580
and again to be ballast systems how do

1135
00:47:06,830 --> 00:47:04,560
you think they test new planes for

1136
00:47:08,840 --> 00:47:06,840
different weight distributions alright

1137
00:47:10,520 --> 00:47:08,850
okay they pump water into tanks at

1138
00:47:13,250 --> 00:47:10,530

various places in the plane to see how

1139

00:47:15,320 --> 00:47:13,260

the performance changes and of course

1140

00:47:16,550 --> 00:47:15,330

they don't buy that they think that the

1141

00:47:17,720 --> 00:47:16,560

government's lying and it's like when

1142

00:47:19,790 --> 00:47:17,730

you get that you just say you know what

1143

00:47:20,960 --> 00:47:19,800

I'm not gonna even bother right I said

1144

00:47:24,710 --> 00:47:20,970

but science will rear its ugly head a

1145

00:47:27,440 --> 00:47:24,720

new one once you know how the pilots of

1146

00:47:31,040 --> 00:47:27,450

these these airplanes know that they

1147

00:47:33,710 --> 00:47:31,050

weren't killing a use for it free what

1148

00:47:34,970 --> 00:47:33,720

would they use as you know criteria to

1149

00:47:36,410 --> 00:47:34,980

say okay now is the time to let the

1150

00:47:39,050 --> 00:47:36,420

stuff out right yeah to kill the most

1151
00:47:42,580 --> 00:47:39,060
people yeah and every every traffic

1152
00:47:45,590 --> 00:47:42,590
control in the world would have to be

1153
00:47:48,440 --> 00:47:45,600
round but you know we live in an area

1154
00:47:49,010 --> 00:47:48,450
where yes there are a lot of jets yes up

1155
00:47:51,670 --> 00:47:49,020
overhead

1156
00:47:56,060 --> 00:47:51,680
yeah and I've taken pictures that show

1157
00:47:58,850 --> 00:47:56,070
chemtrails from AI contrails yeah how

1158
00:48:00,020 --> 00:47:58,860
many yeah different jets at once and

1159
00:48:01,790 --> 00:48:00,030
that you know I take these pictures and

1160
00:48:02,990 --> 00:48:01,800
I toast to the people and go wow we in

1161
00:48:05,300 --> 00:48:03,000
trouble here should I be worried about

1162
00:48:10,130 --> 00:48:05,310
this year just kidding people just love

1163
00:48:12,410 --> 00:48:10,140

to think they all come together come

1164

00:48:14,630 --> 00:48:12,420

across ocean but if you notice something

1165

00:48:17,090 --> 00:48:14,640

over this guy and and Cobra can probably

1166

00:48:19,010 --> 00:48:17,100

verify this a lot and I don't know if

1167

00:48:20,600 --> 00:48:19,020

I'm just imagining it but it seems like

1168

00:48:22,320 --> 00:48:20,610

in the late spring you see a lot of

1169

00:48:25,290 --> 00:48:22,330

aircraft going

1170

00:48:27,300 --> 00:48:25,300

over our head let's say right not landed

1171

00:48:29,820 --> 00:48:27,310

Logan Airport but over flying load me up

1172

00:48:35,820 --> 00:48:29,830

you can almost see streams going almost

1173

00:48:38,160 --> 00:48:35,830

like New Yorkers often love to do with

1174

00:48:40,560 --> 00:48:38,170

the jet stream and yep your if you're

1175

00:48:43,500 --> 00:48:40,570

coming westbound you're fighting our

1176
00:48:45,570 --> 00:48:43,510
terrific headwind so yes you're yeah you

1177
00:48:49,050 --> 00:48:45,580
know areas that's gonna allow you to get

1178
00:48:50,880 --> 00:48:49,060
the best ground speed right against that

1179
00:48:52,380 --> 00:48:50,890
wind so and then everything is called

1180
00:48:54,030 --> 00:48:52,390
the Great Circle Route because you're

1181
00:48:56,520 --> 00:48:54,040
flying over a sphere so you have to aim

1182
00:48:58,470 --> 00:48:56,530
for certain points that don't look like

1183
00:49:00,180 --> 00:48:58,480
a straight line to that point that's

1184
00:49:01,410 --> 00:49:00,190
reason why you see that but it changes

1185
00:49:12,540 --> 00:49:01,420
seasonally because of the way the wind

1186
00:49:16,050 --> 00:49:12,550
is blowing okay if some jet was flying

1187
00:49:17,310 --> 00:49:16,060
over you know no point right landing in

1188
00:49:22,740 --> 00:49:17,320

New York would we still be able to see

1189

00:49:25,550 --> 00:49:22,750

his contrail Matt yeah no actually I

1190

00:49:28,350 --> 00:49:25,560

wrote a program that would allow you to

1191

00:49:30,720 --> 00:49:28,360

calculate the length of a contrail yes

1192

00:49:32,370 --> 00:49:30,730

if you knew the angle off the horizon of

1193

00:49:36,030 --> 00:49:32,380

the beginning of it from where you see

1194

00:49:39,690 --> 00:49:36,040

it to the upper terminal point or a

1195

00:49:41,850 --> 00:49:39,700

point along the route mm-hmm and I can

1196

00:49:43,800 --> 00:49:41,860

calculate the length and you know I can

1197

00:49:46,830 --> 00:49:43,810

routinely see contrails that are you

1198

00:49:49,920 --> 00:49:46,840

know 160 miles long without any problem

1199

00:49:52,830 --> 00:49:49,930

oh wow yeah because yeah and that that's

1200

00:49:54,150 --> 00:49:52,840

over your local horizon yep and you know

1201
00:49:58,200 --> 00:49:54,160
when you'd look at countries like that

1202
00:49:59,730 --> 00:49:58,210
if they're coming at you know they're

1203
00:50:01,680 --> 00:49:59,740
actually they look like they're vertical

1204
00:50:04,200 --> 00:50:01,690
near the horizon yeah yeah yeah yeah

1205
00:50:08,700 --> 00:50:04,210
that's peak but that's because they are

1206
00:50:10,110 --> 00:50:08,710
on a sphere right and so that's looking

1207
00:50:14,550 --> 00:50:10,120
at you're kind of looking at it from one

1208
00:50:15,990 --> 00:50:14,560
end let's say it's kind of looking at

1209
00:50:17,730 --> 00:50:16,000
like the one end of the worm you know

1210
00:50:19,590 --> 00:50:17,740
looking down and that's that's right

1211
00:50:21,180 --> 00:50:19,600
they look really really strange some of

1212
00:50:22,410 --> 00:50:21,190
them and also say something coming

1213
00:50:24,180 --> 00:50:22,420

toward you you know what I mean looks

1214

00:50:26,570 --> 00:50:24,190

like the Rockets and there were times we

1215

00:50:31,350 --> 00:50:26,580

see so many and they're all crossing and

1216

00:50:33,450 --> 00:50:31,360

again I've always maintained who's is

1217

00:50:36,870 --> 00:50:33,460

someone eaten like a bowl of

1218

00:50:41,910 --> 00:50:36,880

Cheerios something is that you cobra not

1219

00:50:47,970 --> 00:50:45,510

we see so many of your heels we see so

1220

00:50:49,260 --> 00:50:47,980

many of these trails coming and I've

1221

00:50:51,960 --> 00:50:49,270

always maintained that it was just

1222

00:50:53,880 --> 00:50:51,970

coming from Europe yeah and then hooking

1223

00:50:56,010 --> 00:50:53,890

up a left and going down with New

1224

00:51:00,210 --> 00:50:56,020

Yorkers whenever just over flying yes

1225

00:51:01,799 --> 00:51:00,220

and there's lots of them yeah this times

1226
00:51:03,540 --> 00:51:01,809
when there's so many you walk out and

1227
00:51:06,420 --> 00:51:03,550
you look up on this at night it's wow

1228
00:51:08,069 --> 00:51:06,430
how many of these yeah it really is well

1229
00:51:09,599 --> 00:51:08,079
and I've taken pictures of it just to be

1230
00:51:11,670 --> 00:51:09,609
you or to be funny just there with like

1231
00:51:14,130 --> 00:51:11,680
20 or 20 miles from Logan Airport

1232
00:51:16,859 --> 00:51:14,140
there's the crow flies right robro about

1233
00:51:19,559 --> 00:51:16,869
20-25 no no you're not that far you're

1234
00:51:22,620 --> 00:51:19,569
probably eight and a half nine miles

1235
00:51:24,809 --> 00:51:22,630
from Logan Airport straight straight

1236
00:51:26,099 --> 00:51:24,819
line you bet you how about that well you

1237
00:51:27,569 --> 00:51:26,109
should get a hold of that the

1238
00:51:33,270 --> 00:51:27,579

application if you have an iPhone get

1239

00:51:37,440 --> 00:51:33,280

flightradar24 we also have a house near

1240

00:51:39,720 --> 00:51:37,450

us on the underwater front that has an

1241

00:51:44,700 --> 00:51:39,730

observatory built in oh yeah right have

1242

00:51:47,099 --> 00:51:44,710

you ever seen a yeah yeah he was he was

1243

00:51:49,589 --> 00:51:47,109

some famous guy he built yeah there's an

1244

00:51:54,900 --> 00:51:49,599

oceanfront house and he put a little

1245

00:51:56,789 --> 00:51:54,910

observatory no he moved he he was at ABC

1246

00:51:58,770 --> 00:51:56,799

for a long time but you'd see him a new

1247

00:52:00,210 --> 00:51:58,780

boy walking around who's long gone

1248

00:52:01,710 --> 00:52:00,220

yeah for the area but whoever bought the

1249

00:52:10,530 --> 00:52:01,720

house I don't know if they ever use it

1250

00:52:12,630 --> 00:52:10,540

you gotta use it as a green house wow

1251
00:52:14,370 --> 00:52:12,640
that would be because you look out over

1252
00:52:17,099 --> 00:52:14,380
the ocean there's no interference of

1253
00:52:19,140 --> 00:52:17,109
light after cities or or anything it

1254
00:52:20,819 --> 00:52:19,150
must be an interesting you know you each

1255
00:52:21,960 --> 00:52:20,829
at night in certain plants of Plum

1256
00:52:23,549 --> 00:52:21,970
Island Beach you down there where

1257
00:52:25,020 --> 00:52:23,559
there's like no light pollution around

1258
00:52:27,000 --> 00:52:25,030
you you want to see if the styles look

1259
00:52:30,059 --> 00:52:27,010
like men that's what the Styles look

1260
00:52:31,200 --> 00:52:30,069
like they just yeah you look out over

1261
00:52:33,510 --> 00:52:31,210
the water and you're like wow I can't

1262
00:52:35,280 --> 00:52:33,520
get over this is it's so beautiful yeah

1263
00:52:36,809 --> 00:52:35,290

yeah you can only see weird lights out

1264

00:52:38,609 --> 00:52:36,819

on the water I can you know I can always

1265

00:52:40,140 --> 00:52:38,619

see a blinking green lights and blinking

1266

00:52:43,400 --> 00:52:40,150

red lights and moving back and forth

1267

00:52:46,039 --> 00:52:43,410

probably merchant ships whales yeah or

1268

00:52:49,380 --> 00:52:46,049

military

1269

00:52:55,079 --> 00:52:49,390

yeah they do a lot of clothes they do

1270

00:52:56,969 --> 00:52:55,089

offshore freaking pasta shot here as

1271

00:52:58,920 --> 00:52:56,979

we're kind of wine done with you here

1272

00:53:01,099 --> 00:52:58,930

just a tiny bit what is your most

1273

00:53:03,749 --> 00:53:01,109

convincing case you research with your

1274

00:53:05,579 --> 00:53:03,759

your analysis that you do for MUFON and

1275

00:53:07,890 --> 00:53:05,589

and in just your other research you done

1276

00:53:10,680 --> 00:53:07,900

do you have one that you can share that

1277

00:53:13,859 --> 00:53:10,690

it kind of sticks the most in your mind

1278

00:53:15,839 --> 00:53:13,869

actually and you know you know this

1279

00:53:21,559 --> 00:53:15,849

commander is and I don't know if you

1280

00:53:23,849 --> 00:53:21,569

know Mac but my feeling has been that

1281

00:53:26,309 --> 00:53:23,859

I'm a guy who looks at current cases

1282

00:53:29,400 --> 00:53:26,319

yeah I try not to look at history

1283

00:53:31,410 --> 00:53:29,410

historical cases because that date is in

1284

00:53:33,120 --> 00:53:31,420

that date is that's that's all there is

1285

00:53:34,859 --> 00:53:33,130

there's no further investigation that

1286

00:53:36,479 --> 00:53:34,869

can be done that's gonna turn up

1287

00:53:41,279 --> 00:53:36,489

anything of any significance I don't

1288

00:53:42,749 --> 00:53:41,289

think you know Roswell has been time and

1289

00:53:45,719 --> 00:53:42,759

time again beaten to death and talked

1290

00:53:49,579 --> 00:53:45,729

about over and over but the for the

1291

00:53:53,009 --> 00:53:49,589

bottom line for me is looking forward

1292

00:53:55,950 --> 00:53:53,019

are a truly convincing case for me and

1293

00:53:59,099 --> 00:53:55,960

so to answer your question no I don't

1294

00:54:01,469 --> 00:53:59,109

have a case that stands out but moving

1295

00:54:02,910 --> 00:54:01,479

forward you know I'm working with you

1296

00:54:06,120 --> 00:54:02,920

know as you know douglas trumbull who's

1297

00:54:07,589 --> 00:54:06,130

uh you know the screen legend the guy

1298

00:54:09,420 --> 00:54:07,599

who you know did Close Encounters of the

1299

00:54:11,609 --> 00:54:09,430

Third Kind with Steven Spielberg he did

1300

00:54:14,609 --> 00:54:11,619

the special effects for that movie Blade

1301

00:54:18,239 --> 00:54:14,619

Runner fantastic guy good friend and

1302

00:54:21,150 --> 00:54:18,249

we're doing this UFO hunting system now

1303

00:54:23,400 --> 00:54:21,160

we originally called it you photog UFO t

1304

00:54:25,769 --> 00:54:23,410

oh gee it was a combination of the word

1305

00:54:28,859 --> 00:54:25,779

UFO and photogra which is what they you

1306

00:54:34,579 --> 00:54:28,869

know a called photographers you know

1307

00:54:39,749 --> 00:54:37,410

photographer that to be our flagship

1308

00:54:42,059 --> 00:54:39,759

sensor platter they would have a bunch

1309

00:54:46,380 --> 00:54:42,069

of sensors on it okay so with that is

1310

00:54:48,989 --> 00:54:46,390

that when you ever have the name UFO in

1311

00:54:51,509 --> 00:54:48,999

the name of an object whatever you know

1312

00:54:54,740 --> 00:54:51,519

an instrumentation package you you're

1313

00:54:58,880 --> 00:54:57,560

so well apparently that's not a fully

1314

00:55:00,650 --> 00:54:58,890

true there's not good friends with

1315

00:55:04,130 --> 00:55:00,660

Senator Reid bringing the funny back

1316

00:55:06,170 --> 00:55:04,140

okay that's true that's right and it

1317

00:55:09,140 --> 00:55:06,180

took you know all kinds of crazy

1318

00:55:11,720 --> 00:55:09,150

gyrations to get that out right right if

1319

00:55:13,430 --> 00:55:11,730

you look okay at the name now the name

1320

00:55:15,980 --> 00:55:13,440

now is the aerial anomaly detection

1321

00:55:20,240 --> 00:55:15,990

system so aad is okay okay

1322

00:55:22,130 --> 00:55:20,250

and so that system now oh and it has a

1323

00:55:24,109 --> 00:55:22,140

multiple purpose you know uh effect now

1324

00:55:26,089 --> 00:55:24,119

because that can not only see any

1325

00:55:28,099 --> 00:55:26,099

anomalous activity in our skies it's

1326

00:55:30,950 --> 00:55:28,109

also something to look at for meteors

1327

00:55:33,170 --> 00:55:30,960

and log them track them perhaps even the

1328

00:55:34,790 --> 00:55:33,180

killer asteroid that may be lurking out

1329

00:55:39,650 --> 00:55:34,800

there it can log and find it and see it

1330

00:55:41,180 --> 00:55:39,660

maybe and they're also deployable units

1331

00:55:43,700 --> 00:55:41,190

that are standalone have their own

1332

00:55:46,280 --> 00:55:43,710

energy uh you know sources they can

1333

00:55:47,480 --> 00:55:46,290

actually create a right with a solar

1334

00:55:49,630 --> 00:55:47,490

panel setup they're gonna create their

1335

00:55:53,540 --> 00:55:49,640

own energy you can store it yes and um

1336

00:55:55,190 --> 00:55:53,550

you know the mutual UFO network field

1337

00:55:57,800 --> 00:55:55,200

investigators in each of these states

1338

00:55:59,270 --> 00:55:57,810

are going to be able to be our boots on

1339

00:56:02,480 --> 00:55:59,280

the ground folks that will go and

1340

00:56:05,150 --> 00:56:02,490

retrieve data from these systems in the

1341

00:56:07,180 --> 00:56:05,160

very first phase anyway and we're still

1342

00:56:10,970 --> 00:56:07,190

a ways from completion but the thing is

1343

00:56:12,829 --> 00:56:10,980

you know there's that ADF system the the

1344

00:56:16,040 --> 00:56:12,839

basically it's a UFO hun think system

1345

00:56:17,870 --> 00:56:16,050

right yes and then there's sky through

1346

00:56:19,400 --> 00:56:17,880

life you more actually talk about deep

1347

00:56:22,579 --> 00:56:19,410

sky wonders and show people these deep

1348

00:56:26,930 --> 00:56:22,589

sky wonders in seconds not minutes using

1349

00:56:28,579 --> 00:56:26,940

very similar cameras commander did he

1350

00:56:30,050 --> 00:56:28,589

committee who's on board with us one

1351

00:56:32,180 --> 00:56:30,060

night it was wonderful yeah but he was

1352

00:56:33,560 --> 00:56:32,190

some pictures that you see like that the

1353

00:56:36,170 --> 00:56:33,570

Hubble was taken and then they gonna put

1354

00:56:38,000 --> 00:56:36,180

the James Webb satellite up yes yes and

1355

00:56:39,230 --> 00:56:38,010

that's gonna be that's gonna make Hubble

1356

00:56:43,400 --> 00:56:39,240

look like the thing you buy on the

1357

00:56:45,560 --> 00:56:43,410

friggin it's good yeah it's more than

1358

00:56:48,079 --> 00:56:45,570

double the size mirror as the Hubble you

1359

00:56:49,339 --> 00:56:48,089

know but it's just about eight feet and

1360

00:56:50,960 --> 00:56:49,349

this one's gonna be like twenty one feet

1361

00:56:53,329 --> 00:56:50,970

so it's pretty good it's competitive

1362

00:56:54,680 --> 00:56:53,339

Omnitech cabin they are wine wine oxide

1363

00:56:55,790 --> 00:56:54,690

and dioxide in the atmospheres of

1364

00:56:57,290 --> 00:56:55,800

planets and they think if it's

1365

00:56:59,870 --> 00:56:57,300

concentrated you tell that's or a city

1366

00:57:01,240 --> 00:56:59,880

or something well yeah yeah let me let

1367

00:57:03,980 --> 00:57:01,250

me let me just give you one quick thing

1368

00:57:05,870 --> 00:57:03,990

okay our planet has a lot of oxygen in

1369

00:57:07,220 --> 00:57:05,880

the atmosphere and so we're just used to

1370

00:57:08,480 --> 00:57:07,230

that and think oh well you know oxygen

1371

00:57:10,280 --> 00:57:08,490

in the atmosphere and normal

1372

00:57:13,250 --> 00:57:10,290

let's find planets and have oxygen and

1373

00:57:14,630 --> 00:57:13,260

you know maybe that's a life thing but

1374

00:57:17,600 --> 00:57:14,640

you have to look at why there's oxygen

1375

00:57:20,540 --> 00:57:17,610

into the atmosphere oxygen loves to bind

1376

00:57:22,910 --> 00:57:20,550

with stuff it loves to dive into the

1377

00:57:26,350 --> 00:57:22,920

soils and bind yo you know what calcium

1378

00:57:28,850 --> 00:57:26,360

becomes calcium you know compounds

1379

00:57:31,790 --> 00:57:28,860

oxides of all kinds and it's an oxidizer

1380

00:57:33,260 --> 00:57:31,800

right so it tends to bind with things so

1381

00:57:35,690 --> 00:57:33,270

left alone if there was nothing to

1382

00:57:37,310 --> 00:57:35,700

replenish the oxygen it would be gone in

1383

00:57:39,350 --> 00:57:37,320

just a few million years or a few

1384

00:57:41,570 --> 00:57:39,360

hundred million years right so so that

1385

00:57:42,620 --> 00:57:41,580

means something's replenishing it and

1386

00:57:44,690 --> 00:57:42,630

what is that something well it could be

1387

00:57:48,200 --> 00:57:44,700

volcanic activity in which case you'd

1388

00:57:49,910 --> 00:57:48,210

have methane ammonia and other you know

1389

00:57:52,130 --> 00:57:49,920

water vapor of course in the atmosphere

1390

00:57:54,680 --> 00:57:52,140

and of course oxygen with that well yes

1391

00:57:56,210 --> 00:57:54,690

if that's the case if you can detect a

1392

00:57:58,520 --> 00:57:56,220

planet's atmosphere in exoplanets

1393

00:58:01,670 --> 00:57:58,530

atmosphere if you see oxygen and carbon

1394

00:58:04,580 --> 00:58:01,680

dioxide yes well then you know that it's

1395

00:58:08,600 --> 00:58:04,590

probably being replaced probably by life

1396

00:58:10,550 --> 00:58:08,610

oh because on our planet oxygen is being

1397

00:58:12,710 --> 00:58:10,560

replenished and many people think it's

1398

00:58:14,480 --> 00:58:12,720

in the rainforests of the give us the

1399

00:58:16,910 --> 00:58:14,490

oxygen okay that's actually only half

1400

00:58:19,280 --> 00:58:16,920

the picture it's the plankton in the

1401
00:58:21,380 --> 00:58:19,290
ocean that are the biggest well almost

1402
00:58:23,120 --> 00:58:21,390
the biggest producers of oxygen they

1403
00:58:25,520 --> 00:58:23,130
they actually sort of share they run

1404
00:58:40,220 --> 00:58:25,530
that connect with you know plants green

1405
00:58:42,770 --> 00:58:40,230
plants well if you join this guy for

1406
00:58:44,720 --> 00:58:42,780
life dream I can promise you that in

1407
00:58:47,090 --> 00:58:44,730
terms that you'll certainly understand

1408
00:58:52,910 --> 00:58:47,100
and know something more than you did

1409
00:58:57,670 --> 00:58:52,920
when you came in possibly Hey look I get

1410
00:59:00,380 --> 00:58:57,680
a lot with type 2 Mike then Antonio

1411
00:59:05,359 --> 00:59:00,390
Antonio that time okay

1412
00:59:07,280 --> 00:59:05,369
Antonio de antonio Antonio with a Dean

1413
00:59:09,050 --> 00:59:07,290

from it okay so Antonio so you've been

1414

00:59:10,580 --> 00:59:09,060

on TV just say ten years you've been

1415

00:59:12,770 --> 00:59:10,590

through a list well no no I was like

1416

00:59:15,410 --> 00:59:12,780

I've been unlike about ten different

1417

00:59:17,300 --> 00:59:15,420

networks you know here and there but I'm

1418

00:59:21,109 --> 00:59:17,310

on discovery and Learning Channel

1419

00:59:22,000 --> 00:59:21,119

now and I think history hey you know I

1420

00:59:23,530 --> 00:59:22,010

write boys

1421

00:59:26,620 --> 00:59:23,540

get confuse I'm not sure which one but

1422

00:59:28,300 --> 00:59:26,630

it's NASA's unexplained files I've been

1423

00:59:30,880 --> 00:59:28,310

in in all the seasons of that show and

1424

00:59:32,890 --> 00:59:30,890

then what on earth are you for the

1425

00:59:35,349 --> 00:59:32,900

seasons of that show too so right and

1426
00:59:40,390 --> 00:59:35,359
they're up the four seasons so pay the

1427
00:59:42,010 --> 00:59:40,400
four seasons so so so in I wanted to ask

1428
00:59:43,990 --> 00:59:42,020
two questions did they pay you

1429
00:59:45,340 --> 00:59:44,000
do they make it worth your while to to

1430
00:59:45,970 --> 00:59:45,350
be showing up all the time on these

1431
00:59:49,710 --> 00:59:45,980
shows

1432
00:59:53,320 --> 00:59:49,720
well I run a visual effects business so

1433
00:59:56,140 --> 00:59:53,330
for my business and I can't do this for

1434
01:00:00,220 --> 00:59:56,150
nothing all right okay yes yeah so I do

1435
01:00:01,720 --> 01:00:00,230
have to you know get paid for it they

1436
01:00:02,230 --> 01:00:01,730
can't pay me to say something that's not

1437
01:00:04,060 --> 01:00:02,240
true

1438
01:00:06,220 --> 01:00:04,070

all right yeah yeah and they have tried

1439

01:00:08,310 --> 01:00:06,230

not them in particular but I did a

1440

01:00:10,660 --> 01:00:08,320

another show called aliens on the moon

1441

01:00:13,510 --> 01:00:10,670

which was all over Netflix for a while

1442

01:00:14,650 --> 01:00:13,520

it's still out there okay and it was

1443

01:00:17,320 --> 01:00:14,660

done by the same guy that did alien

1444

01:00:20,920 --> 01:00:17,330

autopsy now I was supposed to have all

1445

01:00:23,040 --> 01:00:20,930

that all that moon crater footage and in

1446

01:00:25,780 --> 01:00:23,050

photos they wanted me to analyze okay

1447

01:00:28,180 --> 01:00:25,790

weeks before the show you know was being

1448

01:00:31,690 --> 01:00:28,190

filmed and they came here okay to do it

1449

01:00:33,130 --> 01:00:31,700

yep well they showed up at like 9:00 in

1450

01:00:36,040 --> 01:00:33,140

the morning and they were shooting I

1451

01:00:38,200 --> 01:00:36,050

still didn't have the footage okay they

1452

01:00:40,060 --> 01:00:38,210

set up and we started taping at 2:00 in

1453

01:00:42,580 --> 01:00:40,070

the afternoon I still didn't have the

1454

01:00:43,870 --> 01:00:42,590

footage okay I didn't get the footage

1455

01:00:46,480 --> 01:00:43,880

until 10:00 p.m. at night

1456

01:00:49,060 --> 01:00:46,490

Wow they stayed out that whole time what

1457

01:00:51,910 --> 01:00:49,070

a drag and they oh yeah they sometimes

1458

01:00:54,940 --> 01:00:51,920

go until you know 14 15 hours but that's

1459

01:00:58,300 --> 01:00:54,950

my typical awakens time cycle I mean I'm

1460

01:01:00,640 --> 01:00:58,310

14 15 hours normally Wow leading away at

1461

01:01:03,250 --> 01:01:00,650

your wake 15 hours sleep 15 hours

1462

01:01:05,020 --> 01:01:03,260

no no I'm normally awake for a long time

1463

01:01:07,930 --> 01:01:05,030

I get very little sleep and I hold is a

1464

01:01:12,250 --> 01:01:07,940

whole lot kind of how well we awake I

1465

01:01:14,109 --> 01:01:12,260

mean 24 hours a day probably see 6 6

1466

01:01:15,760 --> 01:01:14,119

hours a night most people sleep about 8

1467

01:01:18,849 --> 01:01:15,770

do they really you're supposed to get

1468

01:01:22,240 --> 01:01:18,859

great hours really really yeah you know

1469

01:01:23,920 --> 01:01:22,250

I do understand that and sometimes I'll

1470

01:01:25,300 --> 01:01:23,930

let myself sleep for that long and then

1471

01:01:30,700 --> 01:01:25,310

1489

01:02:10,420 --> 01:02:08,180

you know I had supersized be there thank

1490

01:02:12,309 --> 01:02:10,430

that guy yeah that guy yeah the guy did

1491

01:02:24,099 --> 01:02:12,319

the supersize me with McDonald's and

1492

01:02:27,970 --> 01:02:24,109

he's everything well he was here too cuz

1493

01:02:32,589 --> 01:02:27,980

he did he did yeah a show for a while it

1494

01:02:35,289 --> 01:02:32,599

was on CNN and it was trying to find get

1495

01:02:44,319 --> 01:02:35,299

to the bottom of certain Morgan Spurlock

1496

01:02:45,609 --> 01:02:44,329

I yes he had a hard drive full of data

1497

01:02:47,200 --> 01:02:45,619

that he had acquired by going all over

1498

01:02:49,989 --> 01:02:47,210

the United States and had all these

1499

01:02:52,930 --> 01:02:49,999

imagery from UFO sightings and his last

1500

01:02:55,809 --> 01:02:52,940

stop was here to have me look at it okay

1501

01:02:57,249 --> 01:02:55,819

yeah and and I looked at it and I'm very

1502

01:02:58,960 --> 01:02:57,259

objective because look I've had

1503

01:03:01,960 --> 01:02:58,970

experiences they may not explain did you

1504

01:03:04,539 --> 01:03:01,970

see any day no he didn't have any as far

1505

01:03:06,279 --> 01:03:04,549

as I could tell in fact I think he was

1506

01:03:07,359 --> 01:03:06,289

trying to I can't I don't know this for

1507

01:03:09,249 --> 01:03:07,369

sure cuz he wouldn't admit it

1508

01:03:13,660 --> 01:03:09,259

I think one of the images was actually

1509

01:03:15,400 --> 01:03:13,670

an attempt to fool me okay and not that

1510

01:03:19,390 --> 01:03:15,410

I'm you know the greatest thing since

1511

01:03:21,309 --> 01:03:19,400

sliced bread I'm not but he I think he

1512

01:03:23,890 --> 01:03:21,319

did this to try and see what my

1513

01:03:27,249 --> 01:03:23,900

capabilities were um but I think it was

1514

01:03:30,460 --> 01:03:27,259

an image taken through glass oh and you

1515

01:03:31,960 --> 01:03:30,470

know I had another show where they did

1516

01:03:33,370 --> 01:03:31,970

that they actually showed me like 10 or

1517

01:03:35,559 --> 01:03:33,380

15 images mhm

1518

01:03:38,019 --> 01:03:35,569

and they said real or fake real or fake

1519

01:03:40,539 --> 01:03:38,029

kind of thing okay and I went through

1520

01:03:42,999 --> 01:03:40,549

and I just gave an objective view and I

1521

01:03:44,529 --> 01:03:43,009

just remember the last one and by the

1522

01:03:46,750 --> 01:03:44,539

way my track record for that particular

1523

01:03:49,150 --> 01:03:46,760

show there were 10 images I had look

1524

01:03:53,440 --> 01:03:49,160

I got all 10 correct person with a real

1525

01:03:55,000 --> 01:03:53,450

erotic okay well you know unless you can

1526

01:03:57,070 --> 01:03:55,010

take a photo really really convincingly

1527

01:03:58,690 --> 01:03:57,080

right um you know it's gonna be pretty

1528

01:04:01,540 --> 01:03:58,700

easy to discern that's how I look well

1529

01:04:03,820 --> 01:04:01,550

if you have a real good photo return all

1530

01:04:05,410 --> 01:04:03,830

right yeah I don't like being you know

1531

01:04:07,030 --> 01:04:05,420

ambushed but then again I don't want to

1532

01:04:08,650 --> 01:04:07,040

hear questions ahead of time I don't

1533

01:04:10,420 --> 01:04:08,660

mind being spontaneous cuz I think

1534

01:04:12,250 --> 01:04:10,430

that's really what people want to hear

1535

01:04:13,630 --> 01:04:12,260

mm-hmm they want to hear you honestly

1536

01:04:15,400 --> 01:04:13,640

perplex than they want to hear when

1537

01:04:16,960 --> 01:04:15,410

you're you know thinking through an

1538

01:04:18,940 --> 01:04:16,970

answer they want to hear that part of it

1539

01:04:20,290 --> 01:04:18,950

cuz they're with you right yes with you

1540

01:04:21,940 --> 01:04:20,300

so you don't want to hear a rehearse the

1541

01:04:23,530 --> 01:04:21,950

answer so when you when when you know

1542

01:04:25,180 --> 01:04:23,540

the show is gonna be on you sit down do

1543

01:04:27,849 --> 01:04:25,190

you see the show before it's televised

1544

01:04:29,470 --> 01:04:27,859

at you you seen the edited version ready

1545

01:04:33,490 --> 01:04:29,480

just sitting in you home the first day

1546

01:04:37,240 --> 01:04:33,500

oh yeah actually it's very rare that I

1547

01:04:39,400 --> 01:04:37,250

get to see my own work okay so I saw a

1548

01:04:41,710 --> 01:04:39,410

couple episodes of one on earth wait a

1549

01:04:44,020 --> 01:04:41,720

minute but are you saying you don't

1550

01:04:46,570 --> 01:04:44,030

watch yourself on TV you're one of them

1551
01:04:48,370 --> 01:04:46,580
of the shows you don't I'd be I'd watch

1552
01:04:53,680 --> 01:04:48,380
the frickin thing ten times a day you

1553
01:04:57,220 --> 01:04:53,690
don't I'd keep watch it - why wouldn't

1554
01:04:58,960 --> 01:04:57,230
you watch well I think because it would

1555
01:05:00,340 --> 01:04:58,970
for me it would then be this is I

1556
01:05:03,580 --> 01:05:00,350
already did this so I wouldn't be

1557
01:05:06,400 --> 01:05:03,590
enjoying watching for information I'd be

1558
01:05:07,990 --> 01:05:06,410
watching to watch myself and I might be

1559
01:05:09,190 --> 01:05:08,000
more critical of me because I already

1560
01:05:11,890 --> 01:05:09,200
know the story I already know the

1561
01:05:13,630 --> 01:05:11,900
outcome so watching me is not

1562
01:05:16,240 --> 01:05:13,640
comfortable for me I don't I don't need

1563
01:05:18,250 --> 01:05:16,250

to do that they think it's good that's

1564

01:05:20,530 --> 01:05:18,260

in this place if you're in his place

1565

01:05:22,120 --> 01:05:20,540

right would you watch yourself on TV I

1566

01:05:23,859 --> 01:05:22,130

would promise a little bit of it than I

1567

01:05:25,690 --> 01:05:23,869

probably say you know what I don't need

1568

01:05:27,550 --> 01:05:25,700

to I don't need to do this anymore

1569

01:05:29,859 --> 01:05:27,560

it's over I know it's seniors answer is

1570

01:05:31,930 --> 01:05:29,869

go would be they're watching a 15 times

1571

01:05:33,700 --> 01:05:31,940

a day like that would be why I'm playing

1572

01:05:37,240 --> 01:05:33,710

bad boys - right now in the background

1573

01:05:39,099 --> 01:05:37,250

why we're doing this show would you just

1574

01:05:40,840 --> 01:05:39,109

wind it you're on TV when you just want

1575

01:05:44,710 --> 01:05:40,850

to know everything about you know what

1576

01:05:50,050 --> 01:05:44,720

you look like and how you listen you

1577

01:05:52,720 --> 01:05:50,060

know you know James Oberg yes James and

1578

01:05:54,849 --> 01:05:52,730

I did a show yeah separately but you

1579

01:05:56,560 --> 01:05:54,859

know together on this one episode you

1580

01:05:57,910 --> 01:05:56,570

know and I think it was aliens on the

1581

01:05:59,650 --> 01:05:57,920

moon where he was consulted I was

1582

01:06:04,270 --> 01:05:59,660

consulted we both did a part

1583

01:06:06,040 --> 01:06:04,280

uh-huh and I got I wore a red shirt the

1584

01:06:09,340 --> 01:06:06,050

day of the shooting and I was talking

1585

01:06:11,440 --> 01:06:09,350

about these craters and he noticed that

1586

01:06:12,130 --> 01:06:11,450

I always had more to say but they never

1587

01:06:14,920 --> 01:06:12,140

let me finish

1588

01:06:17,170 --> 01:06:14,930

so I was saying things like yeah this is

1589

01:06:19,510 --> 01:06:17,180

interesting looking but and then it went

1590

01:06:21,280 --> 01:06:19,520

to commercial or it changed and this guy

1591

01:06:23,470 --> 01:06:21,290

thinks it's this and they never got back

1592

01:06:25,510 --> 01:06:23,480

to me for me to finish the sentence say

1593

01:06:28,960 --> 01:06:25,520

but this is actually just a crater huh

1594

01:06:31,210 --> 01:06:28,970

okay and so basically I was basically

1595

01:06:32,590 --> 01:06:31,220

the sacrifice it seemed to him so he

1596

01:06:34,580 --> 01:06:32,600

wrote me and said haha

1597

01:06:40,560 --> 01:06:34,590

you're the redshirt guy in Star Trek

1598

01:06:57,480 --> 01:06:42,730

thanks for writing and nice to meet you

1599

01:07:02,290 --> 01:07:00,250

showing you pictures of these things

1600

01:07:05,530 --> 01:07:02,300

yeah I mean they're they're setting you

1601
01:07:08,440 --> 01:07:05,540
up because you know retouching in

1602
01:07:10,000 --> 01:07:08,450
today's world they can get they can do a

1603
01:07:12,730 --> 01:07:10,010
lot I know some really good photo

1604
01:07:14,740 --> 01:07:12,740
researchers and they can do stuff you'd

1605
01:07:16,980 --> 01:07:14,750
be pretty high pressed to tell and and

1606
01:07:19,090 --> 01:07:16,990
it's not it's not fair to hand you

1607
01:07:21,490 --> 01:07:19,100
pictures and say you know these rila

1608
01:07:23,110 --> 01:07:21,500
they are they fake when you don't know

1609
01:07:26,220 --> 01:07:23,120
how much work yeah you have a Scotty

1610
01:07:31,330 --> 01:07:26,230
always always work to react except

1611
01:07:35,020 --> 01:07:31,340
except part of my business is making

1612
01:07:38,860 --> 01:07:35,030
those very same types of imagery oh I

1613
01:07:41,410 --> 01:07:38,870

know what people do to make fake looking

1614

01:07:43,750 --> 01:07:41,420

photos I make them myself for you know

1615

01:07:45,160 --> 01:07:43,760

photorealistic things I have submarines

1616

01:07:47,350 --> 01:07:45,170

that I've made on water it looked like

1617

01:07:50,740 --> 01:07:47,360

there are water okay but they're not

1618

01:07:52,420 --> 01:07:50,750

real they're fake but I generate them I

1619

01:07:54,760 --> 01:07:52,430

have an earth that I have Genet I

1620

01:07:57,910 --> 01:07:54,770

generate on earth complete with clouds

1621

01:07:59,170 --> 01:07:57,920

even the sunset looking Sun when you add

1622

01:08:01,300 --> 01:07:59,180

looking at it on the edge through the

1623

01:08:03,490 --> 01:08:01,310

atmosphere nice it all works right

1624

01:08:05,950 --> 01:08:03,500

according to the physics and this is a

1625

01:08:08,530 --> 01:08:05,960

generated earth I did it initially for

1626

01:08:11,530 --> 01:08:08,540

the studio with the dog at Trumbull at

1627

01:08:13,569 --> 01:08:11,540

the studio to try and you know show him

1628

01:08:17,289 --> 01:08:13,579

kinda what I could do

1629

01:08:19,569 --> 01:08:17,299

right and this ended up being like

1630

01:08:21,970 --> 01:08:19,579

princess you once you get good at

1631

01:08:24,459 --> 01:08:21,980

building that type of imagery you can

1632

01:08:27,999 --> 01:08:24,469

recognize the other artists at work oh

1633

01:08:32,379 --> 01:08:28,009

wow I should right and so I had a case

1634

01:08:35,019 --> 01:08:32,389

back in 2008 actually long time ago it

1635

01:08:37,450 --> 01:08:35,029

was called the Tahoe drone from the

1636

01:08:38,709 --> 01:08:37,460

press all right and they were these

1637

01:08:41,019 --> 01:08:38,719

things that were shown photographs

1638

01:08:43,470 --> 01:08:41,029

flying over telephone poles and you know

1639

01:08:47,740 --> 01:08:43,480

all the proper things in the foreground

1640

01:08:49,930 --> 01:08:47,750

that made you think they were in the way

1641

01:08:52,359 --> 01:08:49,940

oh wow and the thing was behind them far

1642

01:08:54,870 --> 01:08:52,369

up in this guy Wow Wow but I took it

1643

01:08:57,609 --> 01:08:54,880

apart from the point of view of a

1644

01:09:00,970 --> 01:08:57,619

computer graphics guy I looked at it and

1645

01:09:02,229 --> 01:09:00,980

said hmm if I was really using a camera

1646

01:09:04,629 --> 01:09:02,239

and this is where you have to be a

1647

01:09:06,519 --> 01:09:04,639

computer graphics guy you have to be a

1648

01:09:08,589 --> 01:09:06,529

photographer you have to understand how

1649

01:09:10,450 --> 01:09:08,599

cameras work all that yes I looked at it

1650

01:09:12,279 --> 01:09:10,460

and said because I understand how light

1651
01:09:14,259 --> 01:09:12,289
meters on the camera work this thing

1652
01:09:16,899 --> 01:09:14,269
shot up in the sky you can see the

1653
01:09:20,620 --> 01:09:16,909
bottom very clearly yes yes no and it's

1654
01:09:22,359 --> 01:09:20,630
it's it's at a gray level that would be

1655
01:09:24,789 --> 01:09:22,369
what you would expect when you did a

1656
01:09:27,220 --> 01:09:24,799
normally properly exposed dark area on

1657
01:09:29,049 --> 01:09:27,230
an object like this okay however the

1658
01:09:31,329 --> 01:09:29,059
consequence of doing that is that the

1659
01:09:32,589 --> 01:09:31,339
sky would be blown out and much brighter

1660
01:09:34,689 --> 01:09:32,599
it wouldn't be blue if you're almost

1661
01:09:36,729 --> 01:09:34,699
white so you have an eye for this stuff

1662
01:09:38,859 --> 01:09:36,739
is what you're saying yes you have to

1663
01:09:40,180 --> 01:09:38,869

and I looked at that and I called it a

1664

01:09:42,160 --> 01:09:40,190

hoax right from the very start

1665

01:09:43,419 --> 01:09:42,170

mm-hmm I got all kinds of flack for that

1666

01:09:44,829 --> 01:09:43,429

oh you can't believe it but know what I

1667

01:09:47,200 --> 01:09:44,839

don't have an ego to Bruce and I don't

1668

01:09:48,789 --> 01:09:47,210

also I don't you know I don't I can't be

1669

01:09:50,859 --> 01:09:48,799

swayed if I think that the science or

1670

01:09:52,839 --> 01:09:50,869

the data doesn't stand up well hey this

1671

01:09:54,490 --> 01:09:52,849

data doesn't stand up it's like the two

1672

01:09:59,169 --> 01:09:54,500

videos the Pentagon just released right

1673

01:10:01,089 --> 01:09:59,179

okay in both of those videos I just sent

1674

01:10:03,669 --> 01:10:01,099

my report off yesterday actually yes um

1675

01:10:08,529 --> 01:10:03,679

to the mutual UFO network that the Jan

1676

01:10:10,750 --> 01:10:08,539

Harlan uh and it says basically this if

1677

01:10:12,910 --> 01:10:10,760

these are real a real event these videos

1678

01:10:14,379 --> 01:10:12,920

don't show it these videos don't show

1679

01:10:18,430 --> 01:10:14,389

anything that's acting out of the

1680

01:10:20,439 --> 01:10:18,440

ordinary and there's a one two videos

1681

01:10:22,299 --> 01:10:20,449

one's called a gimbal video right it you

1682

01:10:24,879 --> 01:10:22,309

know you hear a guy in a transit

1683

01:10:26,919 --> 01:10:24,889

transcript saying it's rotating and you

1684

01:10:27,339 --> 01:10:26,929

know showing it you know it's rotating

1685

01:10:29,260 --> 01:10:27,349

but

1686

01:10:31,959 --> 01:10:29,270

what's actually happening there I

1687

01:10:33,399 --> 01:10:31,969

believe is the same anything that

1688

01:10:35,589 --> 01:10:33,409

happens when you have a filter over the

1689

01:10:37,810 --> 01:10:35,599

end of a camera and that filters say is

1690

01:10:39,580 --> 01:10:37,820

a star filter or it's a right in a

1691

01:10:42,399 --> 01:10:39,590

prismatic filter as you rotate the

1692

01:10:44,770 --> 01:10:42,409

filter so two goes the effect but the

1693

01:10:48,040 --> 01:10:44,780

scene doesn't change right I think this

1694

01:10:50,649 --> 01:10:48,050

was an or an infrared flare okay caused

1695

01:10:53,050 --> 01:10:50,659

by too high again and there's no too

1696

01:10:57,609 --> 01:10:53,060

bright basically for the infrared camera

1697

01:10:58,720 --> 01:10:57,619

and when the the pod on this f-18 Hornet

1698

01:11:02,109 --> 01:10:58,730

if you understand that the whole

1699

01:11:04,330 --> 01:11:02,119

scenario these two videos and when the

1700

01:11:05,919 --> 01:11:04,340

pot on is it f-18 Hornet was adjusting

1701
01:11:08,709 --> 01:11:05,929
it would bump a little and you'd see the

1702
01:11:12,220 --> 01:11:08,719
bump only at that time did the thing

1703
01:11:13,810 --> 01:11:12,230
rotate that's when something on the end

1704
01:11:14,859 --> 01:11:13,820
of the lens that's in this thing which I

1705
01:11:17,109 --> 01:11:14,869
don't understand you could I don't know

1706
01:11:19,810 --> 01:11:17,119
the internal workings otters yeah that's

1707
01:11:20,979 --> 01:11:19,820
a company secret for Raytheon but that's

1708
01:11:23,709 --> 01:11:20,989
when something at the end of this thing

1709
01:11:25,060 --> 01:11:23,719
on the end of this pod rotated right

1710
01:11:28,060 --> 01:11:25,070
okay well let me ask you just win the

1711
01:11:29,709 --> 01:11:28,070
pilots the both of the pilots were

1712
01:11:31,270 --> 01:11:29,719
veteran pilots wouldn't they know that

1713
01:11:33,640 --> 01:11:31,280

when they have seen that a hundred

1714

01:11:37,060 --> 01:11:33,650

friggin times and they're all their

1715

01:11:38,979 --> 01:11:37,070

hours in flight yes if you believe the

1716

01:11:39,819 --> 01:11:38,989

transcript is actual okay all right yes

1717

01:11:42,220 --> 01:11:39,829

that's another show

1718

01:11:43,540 --> 01:11:42,230

let me I guess another sticky point and

1719

01:11:46,990 --> 01:11:43,550

run commander and I talked about it

1720

01:11:51,970 --> 01:11:47,000

another look place and we you know I

1721

01:11:54,430 --> 01:11:51,980

think we I defer to him because I'm not

1722

01:11:56,859 --> 01:11:54,440

a specialist on communications in the

1723

01:11:59,109 --> 01:11:56,869

cockpit yes and he listened to it and

1724

01:12:01,930 --> 01:11:59,119

you know he thought it was reasonable I

1725

01:12:03,459 --> 01:12:01,940

think he still think that I got two

1726

01:12:06,790 --> 01:12:03,469

questions that I have to ask you before

1727

01:12:09,160 --> 01:12:06,800

we gotta go okay okay number one I just

1728

01:12:10,899 --> 01:12:09,170

wanna go on record as saying this your

1729

01:12:13,270 --> 01:12:10,909

friend Doug Trumbo you said that he did

1730

01:12:15,819 --> 01:12:13,280

some work on Close Encounters right yeah

1731

01:12:17,770 --> 01:12:15,829

did all the visual effects yeah okay

1732

01:12:21,310 --> 01:12:17,780

Here I am spitballing to Hollywood

1733

01:12:23,530 --> 01:12:21,320

remake that film reboot that film and

1734

01:12:25,540 --> 01:12:23,540

you will you'll people go nuts if you

1735

01:12:27,310 --> 01:12:25,550

just do it right remember I mean it's a

1736

01:12:28,770 --> 01:12:27,320

great film I wrote my college

1737

01:12:31,590 --> 01:12:28,780

dissertation on

1738

01:12:33,570 --> 01:12:31,600

okay Wow all right but they replies in

1739

01:12:36,030 --> 01:12:33,580

it it's not a perfect thing these days

1740

01:12:37,350 --> 01:12:36,040

now now you you've the flowers a lot of

1741

01:12:38,970 --> 01:12:37,360

it and the special effects a lot of the

1742

01:12:41,930 --> 01:12:38,980

people at the end you can tell they just

1743

01:12:45,300 --> 01:12:41,940

said where we breathing is that you call

1744

01:12:46,890 --> 01:12:45,310

right and you could tell they were just

1745

01:12:48,090 --> 01:12:46,900

kind of he said look at the ceiling look

1746

01:12:49,470 --> 01:12:48,100

at the ceiling and then they put in

1747

01:12:51,420 --> 01:12:49,480

their backs and you know they don't have

1748

01:12:53,730 --> 01:12:51,430

them you can get around that now you can

1749

01:12:55,380 --> 01:12:53,740

just build a better story about Richard

1750

01:12:56,760 --> 01:12:55,390

Dreyfuss you know seeing the thing I

1751

01:12:58,320 --> 01:12:56,770

think it would be a great friggin movie

1752

01:13:05,220 --> 01:12:58,330

to reboot they reboot everything else

1753

01:13:07,110 --> 01:13:05,230

you remember Blade Runner yep I think

1754

01:13:10,340 --> 01:13:07,120

you could and I read once that the

1755

01:13:13,350 --> 01:13:10,350

original script Kahwa instead of

1756

01:13:15,150 --> 01:13:13,360

Dreyfuss being the you know telephone

1757

01:13:17,580 --> 01:13:15,160

lineman okay it was supposed to be like

1758

01:13:19,800 --> 01:13:17,590

a F was officer a young lieutenant

1759

01:13:21,930 --> 01:13:19,810

trying to find his almost like x-files a

1760

01:13:23,790 --> 01:13:21,940

traverse yeah he didn't believe and then

1761

01:13:26,520 --> 01:13:23,800

he gradually believed that he sees them

1762

01:13:28,410 --> 01:13:26,530

you know it was a cool move yeah I seen

1763

01:13:31,770 --> 01:13:28,420

that movie more than any other movie at

1764

01:13:34,230 --> 01:13:31,780

least 30 40 times you know it's but it's

1765

01:13:35,850 --> 01:13:34,240

but this was and I think he just the

1766

01:13:39,540 --> 01:13:35,860

second thing this is a email from the

1767

01:13:42,840 --> 01:13:39,550

audience can you can you get let's say

1768

01:13:44,850 --> 01:13:42,850

girls from being on these shows you know

1769

01:13:46,590 --> 01:13:44,860

they come on to you because you're

1770

01:13:52,230 --> 01:13:46,600

somewhat of a celebrity has that ever

1771

01:13:54,570 --> 01:13:52,240

come up in the soup yeah in a sense but

1772

01:13:56,400 --> 01:13:54,580

you know what I don't think of myself as

1773

01:14:01,680 --> 01:13:56,410

any great prize and I don't carry myself

1774

01:14:07,830 --> 01:14:01,690

as one so if people think that well you

1775

01:14:11,160 --> 01:14:07,840

know that's on them you know but there's

1776

01:14:14,580 --> 01:14:11,170

people who who are attracted to you know

1777

01:14:16,950 --> 01:14:14,590

I think intelligence in a lot of ways

1778

01:14:18,510 --> 01:14:16,960

and if there's someone who's doing this

1779

01:14:20,130 --> 01:14:18,520

and lean that come out and talk about it

1780

01:14:23,400 --> 01:14:20,140

but it's also you know semi-intelligent

1781

01:14:25,650 --> 01:14:23,410

about it and I think that is attractive

1782

01:14:27,420 --> 01:14:25,660

to many people I guess rupees for

1783

01:14:29,760 --> 01:14:27,430

everything there's a benefit in marrying

1784

01:14:34,110 --> 01:14:29,770

smart chicks right because they don't

1785

01:14:35,640 --> 01:14:34,120

have to be so smart they say there's a

1786

01:14:37,770 --> 01:14:35,650

benefit to marrying a

1787

01:14:39,899 --> 01:14:37,780

women - really yeah what could that

1788

01:14:46,520 --> 01:14:39,909

possibly be you know they think we're

1789

01:14:51,450 --> 01:14:46,530

gracious that's gonna get well listen

1790

01:14:53,340 --> 01:14:51,460

okay listen interesting cat as they used

1791

01:14:55,380 --> 01:14:53,350

to say we should have you back on and

1792

01:14:57,419 --> 01:14:55,390

just talk talk about Roswell for an hour

1793

01:14:59,850 --> 01:14:57,429

or something like that you know yeah I

1794

01:15:02,280 --> 01:14:59,860

was out there I did yeah I spoke at the

1795

01:15:04,560 --> 01:15:02,290

Rose Bowl nothing happened right

1796

01:15:06,959 --> 01:15:04,570

nothing happened oh right correct all

1797

01:15:11,180 --> 01:15:06,969

right I see that enough for me the

1798

01:15:14,070 --> 01:15:11,190

jury's still out on that okay okay I

1799

01:15:19,260 --> 01:15:14,080

believe that it was a government project

1800

01:15:21,959 --> 01:15:19,270

covering up right but all of the garbage

1801
01:15:23,669 --> 01:15:21,969
that came up after it that was thrown in

1802
01:15:24,840 --> 01:15:23,679
by someone looking to get famous or

1803
01:15:27,840 --> 01:15:24,850
thrown in by people looking to get

1804
01:15:32,780 --> 01:15:27,850
popular all that stuff in order to get

1805
01:15:38,490 --> 01:15:35,760
all that stuff is is is stuff that

1806
01:15:40,590 --> 01:15:38,500
muddies the water and and obvious gates

1807
01:15:43,560 --> 01:15:40,600
the truth and that's something that then

1808
01:15:46,080 --> 01:15:43,570
you know that's why I say when we fry

1809
01:15:47,820 --> 01:15:46,090
our aerial anomaly detection system okay

1810
01:15:49,229 --> 01:15:47,830
for that system we're gonna have

1811
01:15:51,630 --> 01:15:49,239
instrumentation that's gonna actually

1812
01:15:53,970 --> 01:15:51,640
check for entry and exit from our

1813
01:15:55,649 --> 01:15:53,980

dimensional space x y&z all moving

1814

01:15:58,740 --> 01:15:55,659

through time no yes

1815

01:16:00,149 --> 01:15:58,750

and if if we can find that then that's a

1816

01:16:01,919 --> 01:16:00,159

smoking gun so if we see a light in the

1817

01:16:03,990 --> 01:16:01,929

sky and the camera that's seeing visual

1818

01:16:05,280 --> 01:16:04,000

stuff okay and then the light winks out

1819

01:16:06,959 --> 01:16:05,290

well then anyone can say oh well that

1820

01:16:08,310 --> 01:16:06,969

was just a plane and turned away and

1821

01:16:11,010 --> 01:16:08,320

it's landing lights are on and no not

1822

01:16:15,149 --> 01:16:11,020

president anymore or you'll say I was a

1823

01:16:17,130 --> 01:16:15,159

satellite and it faded away huh or if

1824

01:16:18,750 --> 01:16:17,140

you know that that thing winked out at

1825

01:16:21,660 --> 01:16:18,760

the same exact time you got a burst of

1826

01:16:23,490 --> 01:16:21,670

gamma rays okay okay and the local

1827

01:16:25,740 --> 01:16:23,500

magnetic field changed and fluctuated

1828

01:16:28,229 --> 01:16:25,750

right at that point see it's the

1829

01:16:31,169 --> 01:16:28,239

evidence all taken together that gives

1830

01:16:32,880 --> 01:16:31,179

the case its strength el sol how did we

1831

01:16:34,200 --> 01:16:32,890

how do we get to talk about this we have

1832

01:16:35,280 --> 01:16:34,210

talked about picking up chick right

1833

01:16:37,350 --> 01:16:35,290

about two minutes ago

1834

01:16:39,270 --> 01:16:37,360

how do we get from there to there hey

1835

01:16:41,070 --> 01:16:39,280

listen we gotta go we obviously but

1836

01:16:44,399 --> 01:16:41,080

1837

01:16:47,220 --> 01:16:44,409

that's right he's suckling his goats you

1873

01:18:45,740 --> 01:18:43,770

know and believe it or not that makes

1874

01:18:48,690 --> 01:18:45,750

sense if you heard the first pilot show

1875

01:18:52,650 --> 01:18:48,700

and also

1876

01:18:53,100 --> 01:18:52,660

Oh switchblade is here with us calling

1877

01:18:59,190 --> 01:18:53,110

in

1878

01:19:00,180 --> 01:18:59,200

bowl of flakes Battle Creek Michigan how

1879

01:19:03,870 --> 01:19:00,190

are you doing that tonight they're

1880

01:19:07,730 --> 01:19:03,880

switching I am freezing my took us off

1881

01:19:11,730 --> 01:19:07,740

Wow okay you know hold on

1882

01:19:14,790 --> 01:19:11,740

it is cold it's very cold here I mean it

1883

01:19:17,610 --> 01:19:14,800

was what was the two degrees today no

1884

01:19:20,130 --> 01:19:17,620

yes it's been I mean the wind chills you

1885

01:19:23,490 --> 01:19:20,140

just we're setting records for low

1886

01:19:24,300 --> 01:19:23,500

temperature I think we're tied with 1907

1887

01:19:26,190 --> 01:19:24,310

uh-huh

1888

01:19:29,160 --> 01:19:26,200

or something to that effect so many days

1889

01:19:34,050 --> 01:19:29,170

not climbing out of yeah you know single

1890

01:19:39,600 --> 01:19:34,060

digits Christmas yes and it's it's a

1891

01:19:41,310 --> 01:19:39,610

drag man nothing good nothing except we

1892

01:19:42,870 --> 01:19:41,320

did wipe down the beach yesterday though

1893

01:19:45,900 --> 01:19:42,880

you know went down to the water

1894

01:19:47,820 --> 01:19:45,910

just real quick but it was it was so

1895

01:19:49,680 --> 01:19:47,830

cold that like little swirls of vapor

1896

01:19:52,260 --> 01:19:49,690

were coming up from the waves and stuff

1897

01:19:55,320 --> 01:19:52,270

yeah yeah that's cool man you got a

1898

01:19:57,720 --> 01:19:55,330

notice off of the propane and oil do ya

1899

01:20:00,150 --> 01:19:57,730

just everywhere concept of my house

1900

01:20:01,650 --> 01:20:00,160

stick to chewin up there eating oil in

1901

01:20:03,300 --> 01:20:01,660

there in their propane like nobody's

1902

01:20:07,920 --> 01:20:03,310

business and the wood and so on see boy

1903

01:20:12,120 --> 01:20:09,530

[Music]

1904

01:20:13,380 --> 01:20:12,130

switch so how you doing up there well do

1905

01:20:14,910 --> 01:20:13,390

you have those kind of problems up there

1906

01:20:18,030 --> 01:20:14,920

in Battle Creek or is it just fun all

1907

01:20:20,250 --> 01:20:18,040

the time well you know how they say that

1908

01:20:21,780 --> 01:20:20,260

if you're from Michigan you must be used

1909

01:20:27,720 --> 01:20:21,790

to the cold weather you can handle it

1910

01:20:30,450 --> 01:20:27,730

it's not true oh really three shirts

1911

01:20:36,180 --> 01:20:30,460

right now okay all right TMI but that's

1912

01:20:38,490 --> 01:20:36,190

okay also with you in tandem the very

1913

01:20:45,450 --> 01:20:38,500

young I have to say I'm sorry they're

1914

01:20:48,750 --> 01:20:45,460

very lovely Emily hello all right so you

1915

01:20:50,490 --> 01:20:48,760

screwed me now okay okay okay

1916

01:20:55,830 --> 01:20:50,500

hello Emily do you have three shirts on

1917

01:20:59,280 --> 01:20:55,840

or is that not I do actually you do it's

1918

01:21:01,170 --> 01:20:59,290

cold here too huh in Cincinnati yeah I

1919

01:21:02,640 --> 01:21:01,180

think it's nine degrees we have the same

1920

01:21:05,170 --> 01:21:02,650

wardrobe people

1921

01:21:09,430 --> 01:21:05,180

there you go switch your room first one

1922

01:21:11,470 --> 01:21:09,440

of the night if I'm coming switch yeah

1923

01:21:13,960 --> 01:21:11,480

huh so it's everywhere we can we go to

1924

01:21:16,330 --> 01:21:13,970

escape this you can't go to Florida wow

1925

01:21:18,520 --> 01:21:16,340

that's I've heard it's in the 40s and

1926

01:21:19,780 --> 01:21:18,530

parts of Florida imagine getting a week

1927

01:21:21,640 --> 01:21:19,790

in Florida the first week in January

1928

01:21:23,440 --> 01:21:21,650

Florida this year and it's like fill

1929

01:21:24,640 --> 01:21:23,450

those zeros yeah you gotta get your

1930

01:21:26,920 --> 01:21:24,650

money back right now if you're gonna

1931

01:21:29,890 --> 01:21:26,930

take you know this time of year you to

1932

01:21:31,270 --> 01:21:29,900

be sure you can't even trust Mexico you

1933

01:21:32,830 --> 01:21:31,280

got to go to it like a roo but you gotta

1934

01:21:36,280 --> 01:21:32,840

you got to be now near the equator I

1935

01:21:39,550 --> 01:21:36,290

went to Florida for one you know for six

1936

01:21:41,620 --> 01:21:39,560

weeks one year you know from all the

1937

01:21:44,020 --> 01:21:41,630

December into the middle of January and

1938

01:21:45,850 --> 01:21:44,030

it way and it was nice it was a fall

1939

01:21:47,830 --> 01:21:45,860

that just women and you don't I mean it

1940

01:21:49,150 --> 01:21:47,840

was just it was I'm sorry man I don't

1941

01:21:50,860 --> 01:21:49,160

like flying I don't think I didn't want

1942

01:21:54,220 --> 01:21:50,870

to live there no offense to people in

1943

01:21:55,660 --> 01:21:54,230

Florida but it is kind of cool there and

1944

01:21:57,850 --> 01:21:55,670

the one thing you don't have to put up

1945

01:21:59,860 --> 01:21:57,860

with a lot of white I'm up old people

1946

progressive casualty insurance company

and affiliates discounts not available

1960

01:22:35,260 --> 01:22:32,810

in all states or situations there are

1961

01:22:36,790 --> 01:22:35,270

literally you know intersection see

1962

01:22:39,070 --> 01:22:36,800

where there's a drugstore at every

1963

01:22:42,460 --> 01:22:39,080

corner see I have a friend who owned

1964

01:22:43,510 --> 01:22:42,470

houses on Sanibel oh yeah yeah and he

1965

01:22:46,210 --> 01:22:43,520

would say look if you're not doing

1966

01:22:47,860 --> 01:22:46,220

anything for Christmas fly down used the

1967

01:22:49,870 --> 01:22:47,870

hut with one of the houses and there's a

1968

01:22:51,940 --> 01:22:49,880

car in the garage the whole nine yards

1969

01:22:54,010 --> 01:22:51,950

and we get down get out of Santa bella

1970

01:22:57,450 --> 01:22:54,020

hang out for a week the beautiful house

1971

01:23:00,250 --> 01:22:57,460

and it still wasn't really beach weather

1972

01:23:03,790 --> 01:23:00,260

it was nice it was okay but it was

1973

01:23:05,410 --> 01:23:03,800

better than being here yes but still to

1974

01:23:08,020 --> 01:23:05,420

be able to go to the beach you need to

1975

01:23:09,880 --> 01:23:08,030

go keep going yeah keep going south you

1976

01:23:11,650 --> 01:23:09,890

ain't kidding you know once you get down

1977

01:23:13,930 --> 01:23:11,660

there like one thing was is going

1978

01:23:15,009 --> 01:23:13,940

swimming in that in a period of that I

1979

01:23:16,959 --> 01:23:15,019

was talking about why

1980

01:23:19,000 --> 01:23:16,969

is really warm it's it's weird to get in

1981

01:23:21,159 --> 01:23:19,010

the water that's almost like bathwater

1982

01:23:22,599 --> 01:23:21,169

WOM in a way you know and there's no

1983

01:23:26,559 --> 01:23:22,609

waves down there either on the East

1984

01:23:30,009 --> 01:23:26,569

Coast anyway you know so anyway yeah

1985

01:23:31,659 --> 01:23:30,019

Emily you still be a still awake I am

1986

01:23:39,039 --> 01:23:31,669

and I'm actually thinking about how I'll

1987

01:23:40,269 --> 01:23:39,049

be in Miami next week yeah it looks like

1988

01:23:45,339 --> 01:23:40,279

it'll be in the 70s

1989

01:23:47,889 --> 01:23:45,349

maybe my radio works very nicely we can

1990

01:23:48,779 --> 01:23:47,899

you do remote for us as I say in the

1991

01:23:52,509 --> 01:23:48,789

business

1992

01:23:57,369 --> 01:23:52,519

perhaps oh okay you could gloat you

1993

01:24:01,239 --> 01:23:57,379

could tell us this is all gonna be

1994

01:24:03,309 --> 01:24:01,249

evidence someday now I just get that so

1995

01:24:06,099 --> 01:24:03,319

um you guys have put your noodles

1996

01:24:10,000 --> 01:24:06,109

together and you're going to give us a

1997

01:24:11,439 --> 01:24:10,010

special presentation now on this bridge

1998

01:24:14,079 --> 01:24:11,449

this very mysterious bridge that

1999

01:24:16,299 --> 01:24:14,089

connects is it Point Pleasant I always

2000

01:24:19,119 --> 01:24:16,309

get it wrong yes Point Pleasant with

2001

01:24:21,429 --> 01:24:19,129

Gallipolis Ohio okay and it's a river

2002

01:24:23,439 --> 01:24:21,439

and a bridge that goes from you know

2003

01:24:25,719 --> 01:24:23,449

goes across they cross the Ohio River

2004

01:24:26,859 --> 01:24:25,729

right it's right near the canal where

2005

01:24:29,979 --> 01:24:26,869

they they're two rivers come together

2006

01:24:31,809 --> 01:24:29,989

right okay and how much time do we have

2007

01:24:33,399 --> 01:24:31,819

Mac just to give a rough idea because we

2008

01:24:35,559 --> 01:24:33,409

want to make sure we get everything in

2009

01:24:36,519 --> 01:24:35,569

then we leave to 30 minutes okay

2010

01:24:38,139 --> 01:24:36,529

excellent

2011

01:24:39,939 --> 01:24:38,149

I was going to start off just a little

2012

01:24:41,529 --> 01:24:39,949

bit with the a little bit with the

2013

01:24:43,449 --> 01:24:41,539

background and then the night of the

2014

01:24:46,209 --> 01:24:43,459

disaster and then Emily was going to

2015

01:24:48,879 --> 01:24:46,219

follow up with some of the the high

2016

01:24:50,469 --> 01:24:48,889

strangeness that preceded this and then

2017

01:24:54,250 --> 01:24:50,479

we're gonna kind of go back and forth a

2018

01:25:00,189 --> 01:24:54,260

little bit but this this was it when it

2019

01:25:02,289 --> 01:25:00,199

was first built 1928 it was they cut the

2020

01:25:05,019 --> 01:25:02,299

ribbon on May 30th Memorial Day

2021

01:25:07,000 --> 01:25:05,029

it was called an Aybar change change

2022

01:25:08,679 --> 01:25:07,010

suspension bridge in you know a state of

2023

01:25:10,000 --> 01:25:08,689

the art at this time they call it the

2024

01:25:13,629 --> 01:25:10,010

Silber bridge because of the aluminum

2025

01:25:16,559 --> 01:25:13,639

paint they used on it yep and it was a

2026

01:25:20,049 --> 01:25:16,569

big deal they had a crowd of 10,000 and

2027

01:25:22,479 --> 01:25:20,059

it was again it was like the state of

2028

01:25:25,539 --> 01:25:22,489

the art at the time but as time went on

2029

01:25:27,609 --> 01:25:25,549

now we're going to be leading up to 1967

2030

01:25:28,990 --> 01:25:27,619

when we had this terrible tragedy of the

2031

01:25:31,240 --> 01:25:29,000

bridge collapse

2032

01:25:36,729 --> 01:25:31,250

it started out with you had something

2033

01:25:41,259 --> 01:25:36,739

like oh maybe 1900 I'm sorry that's

2034

01:25:44,290 --> 01:25:41,269

what's wrong about 685 cars would cross

2035

01:25:47,290 --> 01:25:44,300

this thing a day okay well by 1967 it

2036

01:25:48,790 --> 01:25:47,300

was over 9,000 a day and these vehicles

2037

01:25:50,680 --> 01:25:48,800

were getting heavier the trucks are

2038

01:25:55,450 --> 01:25:50,690

getting heavier and so forth and the

2039

01:25:59,140 --> 01:25:55,460

bridge wasn't really updated and so

2040

01:26:04,870 --> 01:25:59,150

we're leading up to December 15th frigid

2041

01:26:07,959 --> 01:26:04,880

frigid December 1967 and it's extremely

2042

01:26:09,160 --> 01:26:07,969

cold it's in the 20s and you know again

2043

01:26:11,140 --> 01:26:09,170

you're thinking in a picture this we're

2044

01:26:12,609 --> 01:26:11,150

leading up to Christmas I mean people

2045

01:26:15,310 --> 01:26:12,619

are going back and forth doing the

2046

01:26:17,830 --> 01:26:15,320

Christmas shopping the lights on the

2047

01:26:20,169 --> 01:26:17,840

bridge were notorious for being really

2048

01:26:21,700 --> 01:26:20,179

slow to change and a lot of times people

2049

01:26:24,069 --> 01:26:21,710

you know if the bridge wasn't crowded

2050

01:26:29,049 --> 01:26:24,079

they would just run the light well here

2051

01:26:34,029 --> 01:26:29,059

this bridge is full of cars and at 4:58

2052

01:26:37,330 --> 01:26:34,039

December 15th 1967 the bridge went down

2053

01:26:39,399 --> 01:26:37,340

it was the 13th I bar one of these I

2054

01:26:41,799 --> 01:26:39,409

bars at the top of the bridge that Gabe

2055

01:26:44,200 --> 01:26:41,809

loose turned out to be defective and the

2056

01:26:47,009 --> 01:26:44,210

whole thing collapsed in about 40

2057

01:26:50,490 --> 01:26:47,019

seconds to a minute Wow

2058

01:26:52,979 --> 01:26:50,500

like like a deck of cards right you know

2059

01:26:57,549 --> 01:26:52,989

it was

2060

01:26:59,859 --> 01:26:57,559

let me see there were well we lost 46

2061

01:27:02,229 --> 01:26:59,869

people 9 in this tragedy

2062

01:27:04,689 --> 01:27:02,239

they only recovered 44 of the bodies -

2063

01:27:05,950 --> 01:27:04,699

they never recovered but they've you

2064

01:27:09,310 --> 01:27:05,960

know put two and two together and they

2065

01:27:10,720 --> 01:27:09,320

people you know they just disappeared so

2066

01:27:16,390 --> 01:27:10,730

they knew they had must have gone down

2067

01:27:17,859 --> 01:27:16,400

right on the fridge there were I got a

2068

01:27:19,720 --> 01:27:17,869

note here they don't see it right now

2069

01:27:21,399 --> 01:27:19,730

we're how many cars were actually on the

2070

01:27:23,379 --> 01:27:21,409

bridge right but there was some there

2071

01:27:25,180 --> 01:27:23,389

were several toward the end I wanted to

2072

01:27:27,430 --> 01:27:25,190

tell about I was able to talk to a

2073

01:27:29,500 --> 01:27:27,440

survivor but they're all kinds of

2074

01:27:30,729 --> 01:27:29,510

stories right before I before I turn

2075

01:27:33,180 --> 01:27:30,739

this over to Emily because she's got

2076

01:27:36,580 --> 01:27:33,190

some of the really interesting stuff

2077

01:27:38,799 --> 01:27:36,590

Charlene would she was pregnant with two

2078

01:27:41,350 --> 01:27:38,809

children she starts to go over across

2079

01:27:42,520 --> 01:27:41,360

the bridge she feels it vibrate now her

2080

01:27:44,290 --> 01:27:42,530

father is a

2081

01:27:45,880 --> 01:27:44,300

is a captain that runs one of these

2082

01:27:47,710 --> 01:27:45,890

barges back and forth okay

2083

01:27:49,480 --> 01:27:47,720

and he says sometimes the barges I've

2084

01:27:51,970 --> 01:27:49,490

actually hit the bridge at these please

2085

01:27:55,120 --> 01:27:51,980

the pilings that that hold it up okay

2086

01:27:58,660 --> 01:27:55,130

and so she immediately she backs up Wow

2087

01:28:01,540 --> 01:27:58,670

she's just in time the bridge separates

2088

01:28:03,760 --> 01:28:01,550

right where her car was and then the

2089

01:28:05,200 --> 01:28:03,770

powerlines fall on top of the car there

2090

01:28:07,330 --> 01:28:05,210

was a state trooper another guy that

2091

01:28:08,800 --> 01:28:07,340

helped her get out yep so she's one of

2092

01:28:11,860 --> 01:28:08,810

the lucky ones and just a few months

2093

01:28:14,830 --> 01:28:11,870

later her twins were born Wow

2094

01:28:16,870 --> 01:28:14,840

yeah another guy Jimmy Jimmy wedge his

2095

01:28:22,450 --> 01:28:16,880

he was playing basketball for Point

2096

01:28:25,090 --> 01:28:22,460

Pleasant they were let's say they were

2097

01:28:28,810 --> 01:28:25,100

playing Ripley that night and his his

2098

01:28:31,360 --> 01:28:28,820

parents were over in Ohio a restaurant

2099

01:28:33,760 --> 01:28:31,370

yes and you know they heard about the

2100

01:28:35,470 --> 01:28:33,770

something problem with the bridge and he

2101

01:28:36,760 --> 01:28:35,480

didn't he didn't dawn on him that they

2102

01:28:38,260 --> 01:28:36,770

might actually be on the bridge he

2103

01:28:38,920 --> 01:28:38,270

assumed they were just caught in traffic

2104

01:28:40,360 --> 01:28:38,930

right

2105

01:28:42,250 --> 01:28:40,370

well he never came back he played his

2106

01:28:44,140 --> 01:28:42,260

game and when it was over he was

2107

01:28:46,720 --> 01:28:44,150

informed that his parents had passed

2108

01:28:50,640 --> 01:28:46,730

yeah so there's one story after another

2109

01:28:53,560 --> 01:28:50,650

like this Wow and this is Christmas and

2110

01:28:55,720 --> 01:28:53,570

how high was the bridge switch how high

2111

01:28:59,020 --> 01:28:55,730

would you you know what I don't I don't

2112

01:29:00,160 --> 01:28:59,030

know I don't have that it was a flat

2113

01:29:02,680 --> 01:29:00,170

bridge it wasn't like something going

2114

01:29:06,280 --> 01:29:02,690

over let's say the mystic bridge in no

2115

01:29:09,250 --> 01:29:06,290

no it's it was a good sized bridge you

2116

01:29:10,540 --> 01:29:09,260

know right I think - I mean at least I'm

2117

01:29:12,940 --> 01:29:10,550

saying it from the movie and some

2118

01:29:14,980 --> 01:29:12,950

pictures I've seen but to have a bridge

2119

01:29:17,230 --> 01:29:14,990

collapse and have you followed the

2120

01:29:18,700 --> 01:29:17,240

freezing water at night I mean that's

2121

01:29:21,550 --> 01:29:18,710

like nightmare stuff it really and truly

2122

01:29:24,640 --> 01:29:21,560

yes how many people we should also

2123

01:29:28,030 --> 01:29:24,650

explain that well this bridge connected

2124

01:29:30,490 --> 01:29:28,040

Point Pleasant Virginia and in Point

2125

01:29:33,430 --> 01:29:30,500

Pleasant Virginia is actually West

2126
01:29:35,950 --> 01:29:33,440
Virginia West Virginia is weewow Mothman

2127
01:29:38,410 --> 01:29:35,960
I made his first appearance and kind of

2128
01:29:41,260 --> 01:29:38,420
haunted the place for quite a while and

2129
01:29:43,330 --> 01:29:41,270
then you know um sometime after he can

2130
01:29:46,900 --> 01:29:43,340
leave the scene was tragedy happens so

2131
01:29:48,400 --> 01:29:46,910
tell us what what's new well let's let's

2132
01:29:50,800 --> 01:29:48,410
turn over to Emily here because this is

2133
01:29:52,870 --> 01:29:50,810
this was actually the one of the first

2134
01:29:54,920 --> 01:29:52,880
big sightings a famous one where the two

2135
01:29:58,430 --> 01:29:54,930
couples were chased by this thing

2136
01:30:00,350 --> 01:29:58,440
down route 62 was 13 months to the day

2137
01:30:01,700 --> 01:30:00,360
so let me let me turn this over to Emily

2138
01:30:03,890 --> 01:30:01,710

right now because she's got a lot of the

2139

01:30:06,020 --> 01:30:03,900

information on what John keel the author

2140

01:30:13,370 --> 01:30:06,030

of the Mothman Prophecies called the

2141

01:30:16,640 --> 01:30:13,380

year of the Garuda sure yeah so like

2142

01:30:18,920 --> 01:30:16,650

Steve said exactly 13 months to the day

2143

01:30:21,680 --> 01:30:18,930

prior to the Silver Bridge collapsing

2144

01:30:23,480 --> 01:30:21,690

was the first major sighting of the

2145

01:30:26,030 --> 01:30:23,490

Mothman by the two couples that were out

2146

01:30:28,700 --> 01:30:26,040

in what's called the TNT area outside of

2147

01:30:32,300 --> 01:30:28,710

Point Pleasant which used to be a

2148

01:30:34,640 --> 01:30:32,310

storage area for munitions that were

2149

01:30:36,830 --> 01:30:34,650

manufactured during World War two and

2150

01:30:38,600 --> 01:30:36,840

it's and it's still to this day a super

2151
01:30:40,700 --> 01:30:38,610
creepy area we always go out there and

2152
01:30:42,910 --> 01:30:40,710
investigate and see stuff but anyhow

2153
01:30:47,150 --> 01:30:42,920
these two couples were out there and

2154
01:30:50,380 --> 01:30:47,160
this Mothman you know this giant winged

2155
01:30:53,240 --> 01:30:50,390
humanoid creature with glowing red eyes

2156
01:30:55,400 --> 01:30:53,250
appears on the scene and follows their

2157
01:30:57,290 --> 01:30:55,410
car and you know is keeping up with the

2158
01:31:00,170 --> 01:30:57,300
high speed that they're going down down

2159
01:31:02,750 --> 01:31:00,180
this this loadout liminal of nowhere and

2160
01:31:05,390 --> 01:31:02,760
that was really the first documented

2161
01:31:07,850 --> 01:31:05,400
sighting of the Mothman with many more

2162
01:31:10,580 --> 01:31:07,860
to continue over the course of the next

2163
01:31:14,090 --> 01:31:10,590

13 months and it seems like the the

2164

01:31:16,490 --> 01:31:14,100

sightings of the Mothman they occurred

2165

01:31:18,500 --> 01:31:16,500

during the next 13 months between that

2166

01:31:20,150 --> 01:31:18,510

initial sighting on November 15th and

2167

01:31:23,420 --> 01:31:20,160

then the bridge collapse on December

2168

01:31:24,920 --> 01:31:23,430

15th of the following year and it seems

2169

01:31:27,680 --> 01:31:24,930

that those sightings really tapered off

2170

01:31:29,720 --> 01:31:27,690

once the bridge collapsed you hear a few

2171

01:31:31,310 --> 01:31:29,730

here and there random ones you know in

2172

01:31:35,600 --> 01:31:31,320

your sense but nothing like it was

2173

01:31:38,810 --> 01:31:35,610

during those 13 months and to me oddly

2174

01:31:41,210 --> 01:31:38,820

enough it's not the Mothman so much

2175

01:31:43,820 --> 01:31:41,220

that's the weird phenomena during those

2176
01:31:46,190 --> 01:31:43,830
13 months it's everything else that came

2177
01:31:49,760 --> 01:31:46,200
with it that I I think it was probably

2178
01:31:54,020 --> 01:31:49,770
all related but you have the the men in

2179
01:31:55,940 --> 01:31:54,030
black showing up and not like the Will

2180
01:31:58,520 --> 01:31:55,950
Smith's Tommy Lee Jones men and black

2181
01:32:01,450 --> 01:31:58,530
but strange men and black who don't

2182
01:32:04,070 --> 01:32:01,460
appear quite human and don't seem to

2183
01:32:06,380 --> 01:32:04,080
they look human but there's something

2184
01:32:08,060 --> 01:32:06,390
off about them and their mannerisms are

2185
01:32:08,689 --> 01:32:08,070
weird and it's almost like they don't

2186
01:32:10,819 --> 01:32:08,699
know how

2187
01:32:11,959 --> 01:32:10,829
do you know simple tasks you know and

2188
01:32:14,029 --> 01:32:11,969

they're talking to these people and they

2189

01:32:17,180 --> 01:32:14,039

show up you know in the middle of the

2190

01:32:19,310 --> 01:32:17,190

night and are frightening people there's

2191

01:32:23,600 --> 01:32:19,320

that and then there's just a wave of

2192

01:32:25,580 --> 01:32:23,610

UFOs that are seen around that area so

2193

01:32:27,919 --> 01:32:25,590

many so to the point that you know when

2194

01:32:30,379 --> 01:32:27,929

John keel was in Point Pleasant and

2195

01:32:32,060 --> 01:32:30,389

investigating he and and Mary hyre the

2196

01:32:34,969 --> 01:32:32,070

the journalists there in point wasn't

2197

01:32:36,949 --> 01:32:34,979

would go out to and I forget exactly

2198

01:32:39,410 --> 01:32:36,959

where this is and Steve you might know

2199

01:32:40,879 --> 01:32:39,420

better I know there was a hill kind of

2200

01:32:41,989 --> 01:32:40,889

outside a couple miles outside of Point

2201

01:32:43,879 --> 01:32:41,999

Pleasant I think right

2202

01:32:47,390 --> 01:32:43,889

mmm that they would go to every night

2203

01:32:50,149 --> 01:32:47,400

and just see tons of these UFOs in the

2204

01:32:52,339 --> 01:32:50,159

sky and you know that I think thousands

2205

01:32:54,709 --> 01:32:52,349

of people would come to this hill as

2206

01:32:57,020 --> 01:32:54,719

well and just Park and watch all these

2207

01:32:59,989 --> 01:32:57,030

lights every single night that happened

2208

01:33:02,989 --> 01:32:59,999

in that 13 month span actually

2209

01:33:05,629 --> 01:33:02,999

originally kill it because there are all

2210

01:33:07,459 --> 01:33:05,639

kinds of people with loaded guns in the

2211

01:33:09,319 --> 01:33:07,469

TNT area trying to find the Mothman

2212

01:33:11,439 --> 01:33:09,329

right they originally they found that

2213

01:33:13,399 --> 01:33:11,449

this place was down south called

2214

01:33:15,259 --> 01:33:13,409

Gallipolis Ferry which was in West

2215

01:33:17,180 --> 01:33:15,269

Virginia so for a while there it was

2216

01:33:19,489 --> 01:33:17,190

very quiet and he and Mary hyre the

2217

01:33:21,350 --> 01:33:19,499

reporter that he became colleague and a

2218

01:33:23,600 --> 01:33:21,360

friend with they would go down there and

2219

01:33:24,949 --> 01:33:23,610

they would see if you read the Mothman

2220

01:33:26,600 --> 01:33:24,959

Prophecies it's fascinating

2221

01:33:30,919 --> 01:33:26,610

what's up they saw they would go ahead

2222

01:33:32,600 --> 01:33:30,929

and him yeah so I think and just the all

2223

01:33:34,430 --> 01:33:32,610

of this paranormal activity that

2224

01:33:35,930 --> 01:33:34,440

happened in and around Point Pleasant

2225

01:33:37,790 --> 01:33:35,940

between the first sighting of the

2226

01:33:41,000 --> 01:33:37,800

Mothman and the Silver Bridge collapsed

2227

01:33:43,279 --> 01:33:41,010

and the fact that it it seemed to stop

2228

01:33:46,009 --> 01:33:43,289

really with the bridge collapse loose

2229

01:33:49,279 --> 01:33:46,019

the Mothman sightings the UFO well as

2230

01:33:51,529 --> 01:33:49,289

frequent UFO sightings I guess and a men

2231

01:33:54,080 --> 01:33:51,539

in black that all just seemed to cut off

2232

01:33:56,419 --> 01:33:54,090

after the Silver Bridge collapse so it's

2233

01:33:58,910 --> 01:33:56,429

it's interesting to to try to figure out

2234

01:34:00,799 --> 01:33:58,920

how those are all interconnected but it

2235

01:34:02,390 --> 01:34:00,809

seems like surely they have to be right

2236

01:34:05,239 --> 01:34:02,400

you know anytime really when you have

2237

01:34:09,160 --> 01:34:05,249

any kind of UFO cases or you know flaps

2238

01:34:11,390 --> 01:34:09,170

as they call them you know when when

2239

01:34:12,859 --> 01:34:11,400

there's almost like a you can put a

2240

01:34:14,299 --> 01:34:12,869

period at the end of the sentence to a

2241

01:34:16,040 --> 01:34:14,309

lot of them it's almost like you know

2242

01:34:17,870 --> 01:34:16,050

the government stops paying attention it

2243

01:34:20,029 --> 01:34:17,880

says they stopped paying attention or

2244

01:34:22,850 --> 01:34:20,039

something else you know comes along it

2245

01:34:26,330 --> 01:34:22,860

takes its place whatever but you

2246

01:34:28,250 --> 01:34:26,340

the fact that you know these UFO flaps

2247

01:34:29,690 --> 01:34:28,260

actually have an ending to him kind of

2248

01:34:31,610 --> 01:34:29,700

tells you you know well something must

2249

01:34:34,760 --> 01:34:31,620

be happening there had the beginning and

2250

01:34:37,670 --> 01:34:34,770

the definite end you know so there was

2251

01:34:39,740 --> 01:34:37,680

also I mentioned Mary hyre before she

2252

01:34:41,720 --> 01:34:39,750

got a very strange report from a lady

2253

01:34:44,420 --> 01:34:41,730

that two days before the bridge

2254

01:34:46,640 --> 01:34:44,430

collapsed she said she saw some men

2255

01:34:49,070 --> 01:34:46,650

climbing around on the bridge they were

2256

01:34:52,220 --> 01:34:49,080

wearing street shoes they were these men

2257

01:34:57,620 --> 01:34:52,230

kind of fit the general category of the

2258

01:35:01,150 --> 01:34:57,630

men in black get you know phenomena but

2259

01:35:03,470 --> 01:35:01,160

they also were wearing checkered coats

2260

01:35:04,970 --> 01:35:03,480

we've talked before about the strange

2261

01:35:08,120 --> 01:35:04,980

phenomena of the man in the checkered

2262

01:35:10,070 --> 01:35:08,130

shirt which is often kind of a bedroom

2263

01:35:12,860 --> 01:35:10,080

invader kind of an apparition that shows

2264

01:35:15,530 --> 01:35:12,870

up there is something in occult lore

2265

01:35:17,300 --> 01:35:15,540

where you see this and also it's kind of

2266

01:35:18,920 --> 01:35:17,310

connected with the grinning man and

2267

01:35:22,220 --> 01:35:18,930

we've talked about that before

2268

01:35:24,350 --> 01:35:22,230

another strange paranormal tie-in but

2269

01:35:25,940 --> 01:35:24,360

awfully odd to see a couple men it may

2270

01:35:27,350 --> 01:35:25,950

have gone again this may have nothing to

2271

01:35:29,840 --> 01:35:27,360

do with anything I mean we can't be

2272

01:35:31,820 --> 01:35:29,850

definitive but two men climbing around

2273

01:35:33,800 --> 01:35:31,830

the bridge a couple days before in

2274

01:35:35,720 --> 01:35:33,810

Street shoes what the heck is that all

2275

01:35:38,090 --> 01:35:35,730

about really I mean they were an

2276

01:35:40,280 --> 01:35:38,100

inspectors or anything like that didn't

2277

01:35:42,740 --> 01:35:40,290

seem to be talking about people climbing

2278

01:35:44,720 --> 01:35:42,750

over bridges and street shoes with

2279

01:35:48,140 --> 01:35:44,730

trying to get Cobra back on the line I'm

2280

01:35:51,140 --> 01:35:48,150

sure he's done man once or twice Cobra

2281

01:35:53,810 --> 01:35:51,150

I hear the echo maybe we'll just keep on

2282

01:35:55,730 --> 01:35:53,820

calling him so um they didn't they

2283

01:35:57,350 --> 01:35:55,740

rebuilt the Silver Bridge actually down

2284

01:36:01,550 --> 01:35:57,360

a little further and it was

2285

01:36:04,220 --> 01:36:01,560

recommissioned on December 15th 1969

2286

01:36:07,820 --> 01:36:04,230

right so that I got that going again but

2287

01:36:10,340 --> 01:36:07,830

I think it was a real blow to the

2288

01:36:13,190 --> 01:36:10,350

economy and sort of the psyche of the of

2289

01:36:15,770 --> 01:36:13,200

the people there right yeah yep you can

2290

01:36:19,630 --> 01:36:15,780

see how it would be you know so did they

2291

01:36:21,800 --> 01:36:19,640

ever look into the you know the bridge

2292

01:36:23,750 --> 01:36:21,810

what is that noise do you hear there's

2293

01:36:30,740 --> 01:36:23,760

somewhat of a parrot there kind of like

2294

01:36:36,650 --> 01:36:30,750

a sizzling noise Wow you have your

2295

01:36:40,040 --> 01:36:36,660

parrot out again not no I don't do that

2296

01:36:43,780 --> 01:36:40,050

public all right just like I say when

2297

01:36:45,860 --> 01:36:43,790

the human tails off which comes through

2298

01:36:51,920 --> 01:36:45,870

injecting funny into the room

2299

01:36:53,990 --> 01:36:51,930

so anyway go ahead please okay did you

2300

01:36:56,240 --> 01:36:54,000

want to continue Emily or did you say

2301

01:36:59,390 --> 01:36:56,250

Emily told me that you do have you had

2302

01:37:01,280 --> 01:36:59,400

some strange experiences connected with

2303

01:37:05,090 --> 01:37:01,290

a bridge or in her sense something is

2304

01:37:09,080 --> 01:37:05,100

that is that correct her yeah that'd be

2305

01:37:10,610 --> 01:37:09,090

yeah that's interesting yeah well well

2306

01:37:11,660 --> 01:37:10,620

you were there for some of its teeth at

2307

01:37:14,750 --> 01:37:11,670

the yeah

2308

01:37:20,000 --> 01:37:14,760

oh you mean oh you mean when I did the

2309

01:37:23,030 --> 01:37:20,010

ghost stuff okay well she's talking

2310

01:37:25,280 --> 01:37:23,040

about where where the the original

2311

01:37:30,250 --> 01:37:25,290

silver bridge used to stand okay

2312

01:37:34,910 --> 01:37:33,440

yeah so at the original bridge site the

2313

01:37:36,290 --> 01:37:34,920

site of the collapse there's a you know

2314

01:37:39,290 --> 01:37:36,300

there's a marker there with the plaque

2315

01:37:42,320 --> 01:37:39,300

on it you know memorializing the spot

2316

01:37:44,960 --> 01:37:42,330

and so we often go down there as a group

2317

01:37:47,030 --> 01:37:44,970

and you know and a pair of respects and

2318

01:37:50,000 --> 01:37:47,040

just see if anyone is hanging around and

2319

01:37:53,780 --> 01:37:50,010

as I think you all know I I sense

2320

01:37:55,370 --> 01:37:53,790

spirits often and and that is a prime

2321

01:37:57,140 --> 01:37:55,380

location for them since there were so

2322

01:37:59,600 --> 01:37:57,150

many lives lost there and as well as

2323

01:38:01,040 --> 01:37:59,610

other people who may not have died in

2324

01:38:02,870 --> 01:38:01,050

the bridge collapse but you know had

2325

01:38:05,000 --> 01:38:02,880

family members did or were associated

2326

01:38:06,530 --> 01:38:05,010

with it and therefore they have a strong

2327

01:38:08,960 --> 01:38:06,540

attachment to the area as well

2328

01:38:11,870 --> 01:38:08,970

and so almost every time we go there I

2329

01:38:13,550 --> 01:38:11,880

sense people every once in a while I

2330

01:38:16,400 --> 01:38:13,560

will get a name

2331

01:38:19,610 --> 01:38:16,410

some people David is someone I often

2332

01:38:21,890 --> 01:38:19,620

hear that name when we're down there I

2333

01:38:24,440 --> 01:38:21,900

haven't researched enough to find out

2334

01:38:27,650 --> 01:38:24,450

who that might be another name that we

2335

01:38:30,110 --> 01:38:27,660

often get is Katherine and Katherine I

2336

01:38:33,350 --> 01:38:30,120

believe was one of the two people who

2337

01:38:36,800 --> 01:38:33,360

was not found if I'm not mistaken and

2338

01:38:38,770 --> 01:38:36,810

that name came very early on right but

2339

01:38:42,350 --> 01:38:38,780

we've definitely gotten some interesting

2340

01:38:46,070 --> 01:38:42,360

recordings down there as well as I Steve

2341

01:38:49,370 --> 01:38:46,080

you were there for this actually yeah

2342

01:38:50,240 --> 01:38:49,380

yeah you tell that okay well you said

2343

01:38:51,710 --> 01:38:50,250

the bridge

2344

01:38:52,700 --> 01:38:51,720

reason I was thinking the new bridge and

2345

01:38:54,350 --> 01:38:52,710

I thought oh I didn't know about that

2346

01:38:55,670 --> 01:38:54,360

but yeah we were down there this is a

2347

01:38:58,700 --> 01:38:55,680

few years ago I think this is probably

2348

01:39:00,800 --> 01:38:58,710

about 2010 and you know we're looking

2349

01:39:02,720 --> 01:39:00,810

like real paranormal investigators man

2350

01:39:05,060 --> 01:39:02,730

we got the recorders going and doing the

2351
01:39:06,980 --> 01:39:05,070
EVP thing well unbeknownst to us you

2352
01:39:09,500 --> 01:39:06,990
know how on the TV shows will set up a

2353
01:39:11,840 --> 01:39:09,510
flashlight just on the verge of being

2354
01:39:13,940 --> 01:39:11,850
turned on okay yeah totally okay that's

2355
01:39:14,900 --> 01:39:13,950
right well Emily had done that we didn't

2356
01:39:17,600 --> 01:39:14,910
know it and all of a sudden this

2357
01:39:20,090 --> 01:39:17,610
flashlight turns on so and then goes off

2358
01:39:21,740 --> 01:39:20,100
again and so we're you know we're

2359
01:39:24,200 --> 01:39:21,750
stamping her feet by to see if it's the

2360
01:39:25,550 --> 01:39:24,210
vibration thing or whatever and I figure

2361
01:39:28,130 --> 01:39:25,560
well heck I've seen enough of these

2362
01:39:30,740 --> 01:39:28,140
shows I know what to do right so I said

2363
01:39:33,560 --> 01:39:30,750

if there's anybody here would you please

2364

01:39:37,510 --> 01:39:33,570

turn the flashlight on on the count of

2365

01:39:39,830 --> 01:39:37,520

three and I went one two three bang

2366

01:39:43,850 --> 01:39:39,840

flashlight comes on for three beats and

2367

01:39:46,430 --> 01:39:43,860

then goes off Wow and I said can I say

2368

01:39:48,500 --> 01:39:46,440

holy expletive now everybody kind of

2369

01:39:50,420 --> 01:39:48,510

laughed and then one of our mutual

2370

01:39:52,670 --> 01:39:50,430

friends John Frick he checked the tapes

2371

01:39:56,570 --> 01:39:52,680

later and he's not sure because this

2372

01:39:58,970 --> 01:39:56,580

wasn't a class-a EVP but he thinks he

2373

01:40:06,140 --> 01:39:58,980

heard a voice say after I said can I say

2374

01:40:12,100 --> 01:40:06,150

holy now little baby like somebody

2375

01:40:12,110 --> 01:40:17,770

[Music]

2376

01:40:21,770 --> 01:40:19,880

usually try and act macho in front of

2377

01:40:29,810 --> 01:40:21,780

the chicks sounds like you're doing a

2378

01:40:32,690 --> 01:40:29,820

great job the voices from beyond just go

2379

01:40:34,760 --> 01:40:32,700

work out a plan to fitness well I can

2380

01:40:37,490 --> 01:40:34,770

I'd like to talk a little bit about a

2381

01:40:39,140 --> 01:40:37,500

gentleman I actually well Emily we

2382

01:40:41,060 --> 01:40:39,150

should be talking about the ceremony we

2383

01:40:43,640 --> 01:40:41,070

went down for yes right yes it was very

2384

01:40:46,670 --> 01:40:43,650

moving and then toward the end we can

2385

01:40:49,550 --> 01:40:46,680

talk about bill Edmondson okay but Emily

2386

01:40:51,530 --> 01:40:49,560

and I attended the this was that the

2387

01:40:54,580 --> 01:40:51,540

third year they've done this in Point

2388

01:40:58,040 --> 01:40:54,590

Pleasant there was a a memorial ceremony

2389

01:41:01,960 --> 01:40:58,050

right down on sixth Street where the

2390

01:41:05,300 --> 01:41:01,970

bridge used to empty onto and it was

2391

01:41:09,230 --> 01:41:05,310

pretty moving really what were your

2392

01:41:12,410 --> 01:41:09,240

feelings about the ceremony Emily yeah I

2393

01:41:14,540 --> 01:41:12,420

mean I thought it was great well maybe

2394

01:41:17,120 --> 01:41:14,550

greats the wrong word for the occasion

2395

01:41:20,330 --> 01:41:17,130

but I mean yeah it was very moving they

2396

01:41:21,740 --> 01:41:20,340

had some great speakers that got up and

2397

01:41:23,650 --> 01:41:21,750

you know said a few words and especially

2398

01:41:27,020 --> 01:41:23,660

this year with it being the 50th

2399

01:41:29,270 --> 01:41:27,030

anniversary of the collapse you know

2400

01:41:32,680 --> 01:41:29,280

they had the I think they had the high

2401

01:41:35,690 --> 01:41:32,690

school choir singing Christmas songs

2402

01:41:39,320 --> 01:41:35,700

they had some other people there singing

2403

01:41:42,590 --> 01:41:39,330

some some solo songs they had that the

2404

01:41:44,330 --> 01:41:42,600

somebody from the bridge Commission of

2405

01:41:47,240 --> 01:41:44,340

West Virginia I think or who's a bridge

2406

01:41:51,590 --> 01:41:47,250

inspector and he talked quite a bit

2407

01:41:55,190 --> 01:41:51,600

about the impact that the collapse had

2408

01:41:56,900 --> 01:41:55,200

on bridge safety you know in general and

2409

01:41:59,930 --> 01:41:56,910

all over the world and how the silver

2410

01:42:02,960 --> 01:41:59,940

bridge collapse actually prompted you

2411

01:42:05,390 --> 01:42:02,970

know major regulations that be put in

2412

01:42:07,040 --> 01:42:05,400

place across the country and even you

2413

01:42:09,920 --> 01:42:07,050

know in parts of the world to make sure

2414

01:42:12,080 --> 01:42:09,930

that you know bridges are safe and this

2415

01:42:13,850 --> 01:42:12,090

wouldn't happen again and so the you

2416

01:42:16,160 --> 01:42:13,860

know out of something so tragic actually

2417

01:42:18,170 --> 01:42:16,170

came some really good safety regulations

2418

01:42:20,060 --> 01:42:18,180

that that have affected all bridges

2419

01:42:21,980 --> 01:42:20,070

built since then and making sure that

2420

01:42:23,570 --> 01:42:21,990

they get inspected regularly and we

2421

01:42:25,790 --> 01:42:23,580

don't see something like this that's

2422

01:42:29,030 --> 01:42:25,800

right something very positive came out

2423

01:42:30,800 --> 01:42:29,040

of it and the lady that started this

2424

01:42:33,770 --> 01:42:30,810

discounts not available in all states or

2439

01:43:04,330 --> 01:43:01,790

situations Ellen Harris who we mentioned

2440

01:43:06,190 --> 01:43:04,340

before she passed last year she was one

2441

01:43:08,470 --> 01:43:06,200

of the cofounders of the Mothman

2442

01:43:10,390 --> 01:43:08,480

festival and she ran Harris Steakhouse

2443

01:43:13,180 --> 01:43:10,400

which was also known as the Mothman

2444

01:43:15,760 --> 01:43:13,190

diner she tragically lost her little boy

2445

01:43:18,820 --> 01:43:15,770

Timmy when he was three years old he was

2446

01:43:21,580 --> 01:43:18,830

crossing the bridge with his father who

2447

01:43:23,440 --> 01:43:21,590

was at the time Carolyn's ex-husband so

2448

01:43:24,520 --> 01:43:23,450

she wasn't there to read the names and

2449

01:43:27,940 --> 01:43:24,530

they'd read then of course they read the

2450

01:43:30,880 --> 01:43:27,950

names every year of the 46 people that

2451
01:43:37,720 --> 01:43:30,890
died on the bridge and that was a little

2452
01:43:40,360 --> 01:43:37,730
tough went down

2453
01:43:43,360 --> 01:43:40,370
there was no bridge there for a couple

2454
01:43:48,010 --> 01:43:43,370
of years right they had to waste another

2455
01:43:51,370 --> 01:43:48,020
one up a river is it Ravenwood I think

2456
01:43:54,370 --> 01:43:51,380
so yeah they had to go way way out of

2457
01:43:55,740 --> 01:43:54,380
the way if you happen to work on one

2458
01:43:58,810 --> 01:43:55,750
side of the bridge and live on the other

2459
01:44:00,520 --> 01:43:58,820
right that was tense tough right I can

2460
01:44:03,880 --> 01:44:00,530
see that making the economies around

2461
01:44:07,510 --> 01:44:03,890
their disaster I had some discrepancies

2462
01:44:12,520 --> 01:44:07,520
here some sources said it was 38 some 37

2463
01:44:15,550 --> 01:44:12,530

vehicles went down on the bridge but I

2464

01:44:16,810 --> 01:44:15,560

there's a just south of town on the

2465

01:44:20,050 --> 01:44:16,820

south side of town there's a river

2466

01:44:22,450 --> 01:44:20,060

museum which has you know reconstructed

2467

01:44:24,490 --> 01:44:22,460

models of the river boats has the

2468

01:44:27,700 --> 01:44:24,500

history of the area that the two rivers

2469

01:44:29,650 --> 01:44:27,710

to come together and has a great a lot

2470

01:44:31,840 --> 01:44:29,660

of history on the on the bridge in the

2471

01:44:34,390 --> 01:44:31,850

Silver Bridge well I met a gentleman

2472

01:44:36,310 --> 01:44:34,400

named bill Edmondson there he was one of

2473

01:44:40,780 --> 01:44:36,320

the survivors that went down that night

2474

01:44:42,940 --> 01:44:40,790

he's 88 he was 38 when this happened he

2475

01:44:45,730 --> 01:44:42,950

was there at the ceremony and this next

2476

01:44:47,500 --> 01:44:45,740

day I had you know a great deal of time

2477

01:44:49,660 --> 01:44:47,510

to talk to him so he told me his story

2478

01:44:52,660 --> 01:44:49,670

and it's an incredible story he was

2479

01:44:55,090 --> 01:44:52,670

driving a truck from the West Virginia

2480

01:44:58,480 --> 01:44:55,100

side through the Ohio side he was

2481

01:45:01,179 --> 01:44:58,490

hauling some material to Detroit for one

2482

01:45:02,830 --> 01:45:01,189

of the tire companies some some

2483

01:45:05,049 --> 01:45:02,840

material used in construction of tires

2484

01:45:08,169 --> 01:45:05,059

and he's about halfway through the

2485

01:45:10,719 --> 01:45:08,179

bridge the 13th Aybar gives away and the

2486

01:45:14,229 --> 01:45:10,729

bridge starts to tilt sideways so he's

2487

01:45:16,629 --> 01:45:14,239

his truck is sliding toward the water he

2488

01:45:18,819 --> 01:45:16,639

grabs the wheel with his left hand to

2489

01:45:21,009 --> 01:45:18,829

keep him from sliding the truck gives

2490

01:45:23,679 --> 01:45:21,019

way he hits the water with such force

2491

01:45:28,719 --> 01:45:23,689

he's thrown through the window that

2492

01:45:31,359 --> 01:45:28,729

passenger window Wow that breaks his arm

2493

01:45:32,949 --> 01:45:31,369

he showed showed us his arm how he

2494

01:45:35,169 --> 01:45:32,959

couldn't actually stretch it out he had

2495

01:45:38,020 --> 01:45:35,179

a they had to put a pin in it so he was

2496

01:45:40,029 --> 01:45:38,030

never able to so he went he went down

2497

01:45:43,119 --> 01:45:40,039

under the water and this is but you know

2498

01:45:44,770 --> 01:45:43,129

this is uh just at sunset okay and so

2499

01:45:46,810 --> 01:45:44,780

it's you know that the waters gonna be

2500

01:45:49,149 --> 01:45:46,820

dark anyway yeah he goes down he thinks

2501
01:45:51,189 --> 01:45:49,159
toward the bottom the currents start to

2502
01:45:53,830 --> 01:45:51,199
pull him up and it sounds funny at first

2503
01:45:55,719 --> 01:45:53,840
but it's not his pants had come down but

2504
01:45:58,270 --> 01:45:55,729
we're still on because of his shoes so

2505
01:46:00,699 --> 01:45:58,280
he's coming up to the surface there's

2506
01:46:03,069 --> 01:46:00,709
debris still falling into the water it

2507
01:46:06,399 --> 01:46:03,079
catches his pants and starts to pull him

2508
01:46:08,679 --> 01:46:06,409
under again fortunately the pants ripped

2509
01:46:11,229 --> 01:46:08,689
over his shoes he comes to the surface

2510
01:46:14,250 --> 01:46:11,239
and the same material that he was

2511
01:46:16,719 --> 01:46:14,260
hauling for these tires saved his life

2512
01:46:18,429 --> 01:46:16,729
because there's big roll of stuff and

2513
01:46:23,080 --> 01:46:18,439

there's a slit in there in his right arm

2514

01:46:25,270 --> 01:46:23,090

which was still fine I'm sorry his his

2515

01:46:27,219 --> 01:46:25,280

left arm that was fine he put through

2516

01:46:29,919 --> 01:46:27,229

the slit and so he was buoyant for a

2517

01:46:31,719 --> 01:46:29,929

while oh wow he he says he looks up to

2518

01:46:34,179 --> 01:46:31,729

the top of this thing and there's a

2519

01:46:36,310 --> 01:46:34,189

pigeon staring down at him I mean the

2520

01:46:39,129 --> 01:46:36,320

things you notice when you're life

2521

01:46:41,919 --> 01:46:39,139

exactly probably some poor bird that

2522

01:46:45,189 --> 01:46:41,929

lost his nest underneath the bridge so

2523

01:46:47,619 --> 01:46:45,199

at the same time a tugboat captain saw

2524

01:46:49,899 --> 01:46:47,629

him move the tugboat in such a way to

2525

01:46:52,389 --> 01:46:49,909

prevent him from from moving downriver

2526

01:46:54,609 --> 01:46:52,399

and catches him with this material and

2527

01:46:56,649 --> 01:46:54,619

they pull him out of the water just

2528

01:46:58,810 --> 01:46:56,659

moments before he would have probably

2529

01:47:05,049 --> 01:46:58,820

died from hypothermia right with no

2530

01:47:05,830 --> 01:47:05,059

pants that's right who cares Wow you

2531

01:47:07,569 --> 01:47:05,840

know I've never

2532

01:47:10,029 --> 01:47:07,579

we've all heard we've all heard and read

2533

01:47:11,979 --> 01:47:10,039

phenomenal stories about survival but I

2534

01:47:14,079 --> 01:47:11,989

don't think anyone's ever told me

2535

01:47:19,149 --> 01:47:14,089

personally a story

2536

01:47:20,799 --> 01:47:19,159

magnitude in person and you know what

2537

01:47:23,169 --> 01:47:20,809

how can you not think about that like

2538

01:47:26,589 --> 01:47:23,179

every single night that's gonna die you

2539

01:47:28,239 --> 01:47:26,599

know and he's from North Carolina now

2540

01:47:30,159 --> 01:47:28,249

and you know it hats off to him for

2541

01:47:33,489 --> 01:47:30,169

making the trip his family brought him

2542

01:47:35,709 --> 01:47:33,499

up too for this this ceremony right yeah

2543

01:47:39,369 --> 01:47:35,719

yeah man wow what a story that's

2544

01:47:41,619 --> 01:47:39,379

excellent so but you know we have the

2545

01:47:46,839 --> 01:47:41,629

ceremony is that is that kobori joining

2546

01:47:47,439 --> 01:47:46,849

us I am here Wow he's here okay we can

2547

01:47:51,040 --> 01:47:47,449

breathe easy

2548

01:47:51,899 --> 01:47:51,050

Cobras back I really think that we

2549

01:47:54,339 --> 01:47:51,909

should discuss

2550

01:47:56,109 --> 01:47:54,349

somewhere along the line bringing the

2551

01:47:58,059 --> 01:47:56,119

radio show on the road

2552

01:48:00,899 --> 01:47:58,069

and go down to Point Pleasant West

2553

01:48:05,229 --> 01:48:00,909

Virginia for the Mothman festival

2554

01:48:06,639 --> 01:48:05,239

absolutely definitely no no so we have

2555

01:48:08,379 --> 01:48:06,649

to raise now how much money would we

2556

01:48:10,540 --> 01:48:08,389

have to raise to do that to really think

2557

01:48:15,159 --> 01:48:10,550

about that now yeah of course we would

2558

01:48:16,929 --> 01:48:15,169

go one Cobra from this area okay we'd

2559

01:48:19,299 --> 01:48:16,939

have to go down there all with Jeff the

2560

01:48:22,869 --> 01:48:19,309

we'd have to bring you the sound guy you

2561

01:48:24,849 --> 01:48:22,879

know Jeff the editor you know get a win

2562

01:48:28,839 --> 01:48:24,859

a bag on something like that drive down

2563

01:48:30,219 --> 01:48:28,849

there just do a long drive overnight get

2564

01:48:32,219 --> 01:48:30,229

the West Virginia stay there for three

2565

01:48:34,569 --> 01:48:32,229

days set up the equipment and stuff

2566

01:48:39,759 --> 01:48:34,579

break it back come home so it would be

2567

01:48:42,699 --> 01:48:39,769

it would be six days six days I think

2568

01:48:44,709 --> 01:48:42,709

how do you figure sixty hey if we drove

2569

01:48:47,319 --> 01:48:44,719

down and drove back in one bit

2570

01:48:48,819 --> 01:48:47,329

it's about it's about a day drive full

2571

01:48:51,669 --> 01:48:48,829

day drive down to where they are in West

2572

01:48:59,739 --> 01:48:51,679

Virginia okay stay there three days stay

2573

01:49:04,839 --> 01:48:59,749

there three three and a half five six so

2574

01:49:06,510 --> 01:49:04,849

anyway yeah yeah that would three three

2575

01:49:09,270 --> 01:49:06,520

grand

2576

01:49:13,920 --> 01:49:09,280

I do have one more kind of an

2577

01:49:16,740 --> 01:49:13,930

interesting excuse us no condors there

2578

01:49:21,900 --> 01:49:16,750

was another bridge collapse over the Elk

2579

01:49:23,940 --> 01:49:21,910

River okay which in 1904 where the Elk

2580

01:49:27,420 --> 01:49:23,950

River is right near Charleston and it's

2581

01:49:30,900 --> 01:49:27,430

very close by and this probably is a

2582

01:49:34,890 --> 01:49:30,910

coincidence but it was the same month

2583

01:49:37,140 --> 01:49:34,900

and day 12:15 that's weird man

2584

01:49:38,520 --> 01:49:37,150

wow that's now that there was only a

2585

01:49:40,500 --> 01:49:38,530

door were a few people lost their lives

2586

01:49:42,840 --> 01:49:40,510

but that loss of life wasn't nearly as

2587

01:49:46,590 --> 01:49:42,850

bad which is a smaller bridge but still

2588

01:49:51,350 --> 01:49:46,600

to have a bridge collapse two bridges on

2589

01:49:55,260 --> 01:49:51,360

December 15th that's almost two you know

2590

01:49:57,180 --> 01:49:55,270

almost two freakin but stuff like that

2591

01:49:58,950 --> 01:49:57,190

happens you know I mean that's just a it

2592

01:50:00,930 --> 01:49:58,960

could be just the strangest weirdest

2593

01:50:04,740 --> 01:50:00,940

coincidence ever you know but still yeah

2594

01:50:06,540 --> 01:50:04,750

63 years later yeah Wow that's strange

2595

01:50:09,330 --> 01:50:06,550

but anyway getting back to that Mothman

2596

01:50:11,250 --> 01:50:09,340

festival I mean you're the ones you're

2597

01:50:12,840 --> 01:50:11,260

the ones who told us that it's really

2598

01:50:21,540 --> 01:50:12,850

groovy down there people really have a

2599

01:50:24,330 --> 01:50:21,550

good time it is beyond it's my favorite

2600

01:50:27,540 --> 01:50:24,340

weekend of the year like Christmas for

2601

01:50:29,430 --> 01:50:27,550

adults really it is holy cow

2602

01:50:31,080 --> 01:50:29,440

now you may want to put more money in

2603

01:50:34,290 --> 01:50:31,090

your budget because of all of the

2604

01:50:35,940 --> 01:50:34,300

vendors Oh Steve and I I don't even want

2605

01:50:39,750 --> 01:50:35,950

to think about how much money we spend

2606

01:50:41,720 --> 01:50:39,760

on books and t-shirts every year and the

2607

01:50:44,370 --> 01:50:41,730

Mothman museum which is well done we

2608

01:50:48,240 --> 01:50:44,380

Emily like kind of get the fever when

2609

01:50:50,880 --> 01:50:48,250

men die when we get down there t-shirts

2610

01:50:52,470 --> 01:50:50,890

like she said books this is all you know

2611

01:50:53,940 --> 01:50:52,480

anything that says much stamp Mothman

2612

01:50:56,190 --> 01:50:53,950

even it was made in China you're gonna

2613

01:50:58,380 --> 01:50:56,200

have it huh how about that

2614

01:51:00,750 --> 01:50:58,390

you know man but really it's got

2615

01:51:03,120 --> 01:51:00,760

everything it's got speakers yep from

2616

01:51:05,580 --> 01:51:03,130

not just about the Mothman but all kinds

2617

01:51:07,950 --> 01:51:05,590

of aspects of the paranormal right it's

2618

01:51:09,540 --> 01:51:07,960

got this phenomenal Museum where we were

2619

01:51:11,190 --> 01:51:09,550

people you know I know that people like

2620

01:51:12,360 --> 01:51:11,200

walk up and down the street and so and

2621

01:51:14,370 --> 01:51:12,370

it's a very kind of casual atmosphere

2622

01:51:17,820 --> 01:51:14,380

but where are people congregated most of

2623

01:51:19,899 --> 01:51:17,830

the time at the Museum I write whether

2624

01:51:22,629 --> 01:51:19,909

it's the museum and there's the old the

2625

01:51:24,520 --> 01:51:22,639

historic low hotel okay right there on

2626

01:51:26,199 --> 01:51:24,530

one of the side streets is where most of

2627

01:51:27,520 --> 01:51:26,209

the vendors are okay and a lot of those

2628

01:51:29,259 --> 01:51:27,530

the speakers have their very booth

2629

01:51:30,790 --> 01:51:29,269

stared out they've this is really

2630

01:51:32,049 --> 01:51:30,800

expanded so they have stuff up and down

2631

01:51:35,229 --> 01:51:32,059

the street you know a lot of stuff for

2632

01:51:39,299 --> 01:51:35,239

food and you know blow up aliens and

2633

01:51:47,679 --> 01:51:39,309

what else do they have Emily pancakes

2634

01:51:49,540 --> 01:51:47,689

blow up aliens I'm not going I'm walking

2635

01:51:51,520 --> 01:51:49,550

around in the Mothman suit there's

2636

01:51:54,699 --> 01:51:51,530

usually a guy in a Bigfoot suit there

2637

01:52:02,859 --> 01:51:54,709

yeah ghostbusters you got the Stay Puft

2638

01:52:04,419 --> 01:52:02,869

Marshmallow Man listen is there is there

2639

01:52:22,689 --> 01:52:04,429

a bomb room down there that is you know

2640

01:52:25,419 --> 01:52:22,699

the place to go drink a beer in a paper

2641

01:52:30,549 --> 01:52:25,429

bag hold on Steve are you saying the

2642

01:52:37,419 --> 01:52:30,559

bomb room burnt down yes okay Cobra Oh

2643

01:52:39,969 --> 01:52:37,429

baby oh maybe it did I thought what was

2644

01:52:45,759 --> 01:52:39,979

the name of that place Emily it was the

2645

01:52:48,100 --> 01:52:45,769

double D building is still there and yes

2646

01:52:51,489 --> 01:52:48,110

I I went into it once and I can tell you

2647

01:52:52,750 --> 01:52:51,499

you don't really want to go in there but

2648

01:52:56,259 --> 01:52:52,760

I think it was the building next to it

2649

01:52:58,359 --> 01:52:56,269

okay fell down or burned down or

2650

01:53:01,239 --> 01:52:58,369

something and I have to ask you a

2651
01:53:04,179 --> 01:53:01,249
question I have to Cobra you there I am

2652
01:53:07,330 --> 01:53:04,189
sir okay didn't baba whiffs bomb room

2653
01:53:09,640 --> 01:53:07,340
burned down yes yes at least you got the

2654
01:53:11,799 --> 01:53:09,650
t-shirts but they being the enterprising

2655
01:53:14,140 --> 01:53:11,809
folks they are meet in the rubble and

2656
01:53:18,580 --> 01:53:14,150
have just as good a time and the summer

2657
01:53:20,439 --> 01:53:18,590
will drink of the rubble what I mean

2658
01:53:23,909 --> 01:53:20,449
don't you think it's kind of funny that

2659
01:53:29,439 --> 01:53:23,919
we know people whose buys burnt them and

2660
01:53:30,969 --> 01:53:29,449
at mysterious places well it it's much

2661
01:53:33,009 --> 01:53:30,979
like the bridge is both going down on

2662
01:53:33,920 --> 01:53:33,019
the same day 63 years apart at the same

2663
01:53:36,940 --> 01:53:33,930

time

2664

01:53:40,670 --> 01:53:36,950

I do like to add that the double D bar

2665

if you have any questions el the UFO

2681
01:54:33,110 --> 01:54:32,340

2682
01:54:37,040 --> 01:54:33,120
wears two hats

2683
01:54:41,450 --> 01:54:37,050

thank you so anyway thank you Cobra and

2689

01:55:05,870 --> 01:55:02,850

one-one

2690

01:55:08,590 --> 01:55:05,880

you know you know we know you're here

2691

01:55:16,310 --> 01:55:08,600

that we know you're getting the message

2692

01:55:19,370 --> 01:55:16,320

yep against the wall get your decoder

2693

01:55:21,560 --> 01:55:19,380

ring yeah right right and that's a

2694

01:55:27,980 --> 01:55:21,570

reference to a movie that was very

2695

01:55:31,970 --> 01:55:27,990

popular right Don Allen Adham

2696

01:55:33,610 --> 01:55:31,980

thank you very much any time over any

2697

01:55:35,630 --> 01:55:33,620

bridges chiming huh

2698

01:55:38,840 --> 01:55:35,640

yeah the causeway you have to go home

2699

01:55:40,250 --> 01:55:38,850

over no no no that's not much of a

2700

01:55:41,630 --> 01:55:40,260

breeze okay we'll go the back way and

2701
01:55:43,220 --> 01:55:41,640
then you have the Chain Bridge if you

2702
01:55:45,470 --> 01:55:43,230
decide you're gonna it's not good

2703
01:55:46,640 --> 01:55:45,480
quality that same bridge just scare me

2704
01:55:48,530 --> 01:55:46,650
at this point I've heard

2705
01:55:51,020 --> 01:55:48,540
much about chain bridge is not making it

2706
01:55:53,780 --> 01:55:51,030
so anyway so thank you everyone for

2707
01:55:58,490 --> 01:55:53,790
being the energy to the show and until

2708
01:56:00,410 --> 01:55:58,500
next week this is Mack Maloney for um

2709
01:56:03,680 --> 01:56:00,420
for the gang saying thanks for joining
