

 The Secrets of Ontario Triangle | Ground Zero for UFO Highstrangeness

Listen on

inceptionradionetwork.com

1
00:00:02,810 --> 00:00:01,370
calm progressive casualty insurance

2
00:00:08,620 --> 00:00:02,820
company and affiliates discounts not

3
00:00:14,480 --> 00:00:11,839
never in this is Mary Moloney

4
00:00:17,840 --> 00:00:14,490
we've question for you tonight but I'll

5
00:00:19,580 --> 00:00:17,850
tell you what girls get ready because we

6
00:00:21,859 --> 00:00:19,590
got a big surprise coming you know what

7
00:00:24,620 --> 00:00:21,869
it is the very famous one one is him in

8
00:00:27,589 --> 00:00:24,630
the studio he's back he's back and after

9
00:00:29,240 --> 00:00:27,599
a month of secret missions that he

10
00:00:29,960 --> 00:00:29,250
didn't even tell us what or those were

11
00:00:32,840 --> 00:00:29,970
tough ones too

12
00:00:34,490 --> 00:00:32,850
yeah they must have been yeah so tough I

13
00:00:37,490 --> 00:00:34,500

had Steven Spielberg with me just in

14

00:00:44,040 --> 00:00:37,500

case why in the world would you bring

15

00:00:50,660 --> 00:00:48,639

[Laughter]

16

00:00:52,729 --> 00:00:50,670

anyway one one is here

17

00:01:00,290 --> 00:00:52,739

now what's wrong with Quentin Tarantino

18

00:01:01,819 --> 00:01:00,300

oh come on he's great you know what I

19

00:01:03,260 --> 00:01:01,829

went to film school because of [h__h]

20

00:01:07,130 --> 00:01:03,270

Terrence oh really yes you went to that

21

00:01:10,570 --> 00:01:07,140

the one who's a lawyer this class up in

22

00:01:12,950 --> 00:01:10,580

Maine yes to learn how to run a

23

00:01:15,499 --> 00:01:12,960

Steadicam and learn how to write scripts

24

00:01:19,100 --> 00:01:15,509

and all that stuff yeah I know how to

25

00:01:20,810 --> 00:01:19,110

talk to actors with attitudes one one is

26

00:01:24,289 --> 00:01:20,820

you know I went to film school I know

27

00:01:27,249 --> 00:01:24,299

yes I do that every no that doesn't mean

28

00:01:29,749 --> 00:01:27,259

you know everything Big Sean just like I

29

00:01:31,969 --> 00:01:29,759

know enough to know the current thing

30

00:01:34,370 --> 00:01:31,979

whatever his name is he's one of the

31

00:01:36,560 --> 00:01:34,380

worst director is that the worst he is

32

00:01:37,819 --> 00:01:36,570

one of the worst he's got a top style

33

00:01:39,319 --> 00:01:37,829

that I find very interesting

34

00:01:40,789 --> 00:01:39,329

there's no he has no style he has

35

00:01:44,359 --> 00:01:40,799

nothing have you ever seen a movie

36

00:01:45,740 --> 00:01:44,369

called destiny hits the radio no okay

37

00:01:47,899 --> 00:01:45,750

all right how about grindhouse

38

00:01:52,850 --> 00:01:47,909

yes oh yeah oh yeah but you were

39

00:01:54,170 --> 00:01:52,860

entertained by like that series that

40

00:01:57,200 --> 00:01:54,180

there are two movies there the

41

00:01:57,980 --> 00:01:57,210

grindhouse kind of style I liked it I

42

00:02:01,959 --> 00:01:57,990

liked it

43

00:02:04,520 --> 00:02:01,969

did you see in glorious bastards oh you

44

00:02:07,490 --> 00:02:04,530

you like I like that actor that plays

45

00:02:10,130 --> 00:02:07,500

the German I like it was the dentist guy

46

00:02:11,900 --> 00:02:10,140

in Django okay you like the scenes where

47

00:02:13,490 --> 00:02:11,910

he sat and talked to the woman who

48

00:02:18,650 --> 00:02:13,500

movie theater for like three and a half

49

00:02:20,480 --> 00:02:18,660

hours about nothing but yes they may

50

00:02:23,240 --> 00:02:20,490

talk literally like for half about

51
00:02:25,250 --> 00:02:23,250
chewing domicile really it's a very it's

52
00:02:26,780 --> 00:02:25,260
a very dialogue-driven move it you ain't

53
00:02:28,550 --> 00:02:26,790
kidding baby all I'll drive me right

54
00:02:30,470 --> 00:02:28,560
over the friggin cliff and and they all

55
00:02:33,260 --> 00:02:30,480
start off with like this Montana this

56
00:02:35,690 --> 00:02:33,270
group of people sitting around either a

57
00:02:38,660 --> 00:02:35,700
lunch table or in a car

58
00:02:41,240 --> 00:02:38,670
yep-yep chatting chatting forever long

59
00:02:43,580 --> 00:02:41,250
long long long scenes of dialogue yeah

60
00:02:46,700 --> 00:02:43,590
you know and that that to me tells me

61
00:02:48,560 --> 00:02:46,710
that he didn't have money he didn't have

62
00:02:50,210 --> 00:02:48,570
a like a lot of money okay so it's

63
00:02:52,070 --> 00:02:50,220

cheaper to film just people sitting

64

00:02:53,300 --> 00:02:52,080

around the table then you know in tanks

65

00:02:58,580 --> 00:02:53,310

and airplanes of that kind like the

66

00:03:00,560 --> 00:02:58,590

opening of Pulp Fiction the opening of

67

00:03:04,040 --> 00:03:00,570

Pulp Fiction versus like the opening of

68

00:03:06,380 --> 00:03:04,050

Reservoir Dogs I didn't see either but

69

00:03:08,840 --> 00:03:06,390

it's two of those openings together and

70

00:03:11,330 --> 00:03:08,850

just you know fade them in and going

71

00:03:13,580 --> 00:03:11,340

it's perfect you get the camera going

72

00:03:15,110 --> 00:03:13,590

around and each person is taking charge

73

00:03:16,970 --> 00:03:15,120

of the conversation then there's all

74

00:03:19,100 --> 00:03:16,980

these interruptions and then it gets

75

00:03:21,080 --> 00:03:19,110

louder and there's just like you know

76

00:03:23,420 --> 00:03:21,090

Harvey Keitel and it's going too crazy

77

00:03:26,470 --> 00:03:23,430

and I know Tim Roth is everywhere he's

78

00:03:29,960 --> 00:03:26,480

in all the movies and he's good Wow and

79

00:03:32,240 --> 00:03:29,970

it's great you could I'm saying okay all

80

00:03:34,910 --> 00:03:32,250

that filming is done yeah one one set

81

00:03:37,190 --> 00:03:34,920

piece boom couple of cameras you can

82

00:03:41,810 --> 00:03:37,200

make a living off of that and it's it's

83

00:03:47,630 --> 00:03:41,820

good stuff don't give me that give you

84

00:03:50,630 --> 00:03:47,640

that noisemaker thing really increase

85

00:03:53,300 --> 00:03:50,640

anyway Kobe you're still awake I hope

86

00:03:56,210 --> 00:03:53,310

you took notes there'll be a quiz I

87

00:03:58,100 --> 00:03:56,220

didn't want to over speak my place but

88

00:03:58,520 --> 00:03:58,110

god I was jumping up the gate here so

89

00:04:00,890 --> 00:03:58,530

quickly

90

00:04:03,290 --> 00:04:00,900

grind grind house yes how can you not

91

00:04:06,410 --> 00:04:03,300

love a movie with a woman who doesn't

92

00:04:08,660 --> 00:04:06,420

have a leg device has a machine gun

93

00:04:12,320 --> 00:04:08,670

exactly why is it war dog one word or

94

00:04:20,750 --> 00:04:12,330

two words mr. pink Pulp Fiction he's

95

00:04:22,250 --> 00:04:20,760

sending the wolf the wolf man this is a

96

00:04:25,990 --> 00:04:22,260

house a clean host that house cleaning

97

00:04:30,050 --> 00:04:28,760

yeah okay all right that's that's cool

98

00:04:35,360 --> 00:04:30,060

if you guys want to like those kind of

99

00:04:38,270 --> 00:04:35,370

movies but I can tell you I agree with

100

00:04:41,390 --> 00:04:38,280

you I think that mr. Tarantino is not in

101
00:04:43,909 --> 00:04:41,400
the the great category he's not I think

102
00:04:45,559 --> 00:04:43,919
he's in the worst category okay I take

103
00:04:49,629 --> 00:04:45,569
all his movies together but he has a

104
00:04:51,649 --> 00:04:49,639
genre observation here early in the show

105
00:04:53,659 --> 00:04:51,659
indicate that you haven't seen any of

106
00:04:55,550 --> 00:04:53,669
these movies so like an unread book

107
00:04:58,369 --> 00:04:55,560
which is the most dangerous thing how

108
00:05:00,679 --> 00:04:58,379
can you make this pink line have to I'm

109
00:05:02,269 --> 00:05:00,689
like a literary this is an anti Quentin

110
00:05:03,439 --> 00:05:02,279
Tarantino there yes that's true all

111
00:05:04,939 --> 00:05:03,449
right you know but I'm like a literary

112
00:05:10,700 --> 00:05:04,949
critic I don't have to read the book to

113
00:05:13,850 --> 00:05:10,710

tell you that I'll pay another thing

114

00:05:15,769 --> 00:05:13,860

they're very famous one one you say the

115

00:05:17,990 --> 00:05:15,779

opening scenes of his movies are always

116

00:05:20,420 --> 00:05:18,000

really cool right well they're cool in

117

00:05:22,070 --> 00:05:20,430

terms of how they're set up and how you

118

00:05:23,119 --> 00:05:22,080

can introduce the characters right from

119

00:05:26,269 --> 00:05:23,129

the beginning you know how you pitch a

120

00:05:27,439 --> 00:05:26,279

movie out there in Garlin hood you film

121

00:05:29,240 --> 00:05:27,449

the beginning of the movie you get

122

00:05:30,680 --> 00:05:29,250

someone to you you get you know the

123

00:05:32,540 --> 00:05:30,690

neighbor they give you a million dollars

124

00:05:34,640 --> 00:05:32,550

or something okay and you film the

125

00:05:36,589 --> 00:05:34,650

beginning of the movie and you bring

126

00:05:38,600 --> 00:05:36,599

that in with your pitch and show it to

127

00:05:40,790 --> 00:05:38,610

him but don't bomb so if you see a lot

128

00:05:42,320 --> 00:05:40,800

of these movies they're opening shots

129

00:05:45,379 --> 00:05:42,330

are like fantastic and then the movie

130

00:05:46,850 --> 00:05:45,389

blows after that that's why yeah thank

131

00:05:49,369 --> 00:05:46,860

you very much known of the movies that I

132

00:05:52,309 --> 00:05:49,379

mentioned did that I thought they were

133

00:05:54,320 --> 00:05:52,319

they held held your interest throughout

134

00:05:57,379 --> 00:05:54,330

I think you hateful a few seen hateful

135

00:05:59,179 --> 00:05:57,389

eight dumb oh I don't have to see his

136

00:06:03,829 --> 00:05:59,189

movies to know what all it is somerville

137

00:06:09,050 --> 00:06:03,839

because their presentations like I'm

138

00:06:19,969 --> 00:06:09,060

going to get you sucker which was a you

139

00:06:21,829 --> 00:06:19,979

did like you're into the black he did go

140

00:06:24,200 --> 00:06:21,839

back and get all these at blaxploitation

141

00:06:26,089 --> 00:06:24,210

actresses and actors to be in his movies

142

00:06:30,290 --> 00:06:26,099

Fred Williams well that's why Quentin

143

00:06:34,730 --> 00:06:30,300

Tarantino did that one that goes after

144

00:06:36,179 --> 00:06:34,740

the female super black exploitation what

145

00:06:40,049 --> 00:06:36,189

was it

146

00:06:41,489 --> 00:06:40,059

I can't remember that I'll think of it

147

00:06:43,949 --> 00:06:41,499

I can't remember that hate the same but

148

00:06:46,169 --> 00:06:43,959

the only time I saw them you know I mean

149

00:06:48,989 --> 00:06:46,179

up on the mic he was in the combat zone

150

00:06:51,209 --> 00:06:48,999

we'd hook school and week of a combat

151

00:06:53,459 --> 00:06:51,219

zone and all those kind of lactation

152

00:06:58,199 --> 00:06:53,469

movies a plan endlessly something Fox

153

00:07:02,669 --> 00:06:58,209

what was it oh oh yeah yeah yeah yeah De

154

00:07:05,129 --> 00:07:02,679

Niro was in that and yeah yeah you Rana

155

00:07:07,619 --> 00:07:05,139

for Jason Leigh yeah yeah and there

156

00:07:09,659 --> 00:07:07,629

obviously you can't go without talking

157

00:07:11,850 --> 00:07:09,669

about like velvet smooth but I mean it's

158

00:07:14,279 --> 00:07:11,860

the Fox one's gonna come to me hold on

159

00:07:15,899 --> 00:07:14,289

yeah because that was the original

160

00:07:18,029 --> 00:07:15,909

actress that was in those real

161

00:07:25,889 --> 00:07:18,039

expectations wasn't like get Vicky Fox

162

00:07:28,679 --> 00:07:25,899

or something like that had some Vika Fox

163

00:07:31,259 --> 00:07:28,689

she was in Kill Bill yes right now most

164

00:07:38,239 --> 00:07:31,269

you know okay this is another Kill Bill

165

00:07:42,839 --> 00:07:41,399

Wow the what what movies what Snake

166

00:07:45,959 --> 00:07:42,849

Plissken Escape from New York escape

167

00:07:49,259 --> 00:07:45,969

from oh oh she's in that but he said

168

00:07:52,109 --> 00:07:49,269

something else do a whole show on

169

00:07:55,829 --> 00:07:52,119

Quentin Tarantino yeah who'd Wow didn't

170

00:08:02,249 --> 00:07:55,839

he write the script for I'll tell you

171

00:08:04,469 --> 00:08:02,259

here's a way better during a yes yes the

172

00:08:08,040 --> 00:08:04,479

movie with you nothing happened to

173

00:08:10,619 --> 00:08:08,050

Christian Slater oh good top star with

174

00:08:13,859 --> 00:08:10,629

Christian Slater and yeah can you hear

175

00:08:16,079 --> 00:08:13,869

me yes able to see the picture I have

176

00:08:17,609 --> 00:08:16,089

just uploaded to you on your screen

177

00:08:19,619 --> 00:08:17,619

because I think it's the perfect for

178

00:08:21,799 --> 00:08:19,629

radio show yeah I know but it's the

179

00:08:24,089 --> 00:08:21,809

perfect one for you guys to talk about

180

00:08:27,119 --> 00:08:24,099

for this segment that we're doing I miss

181

00:08:29,489 --> 00:08:27,129

opening ok can you click on Oh what does

182

00:08:31,529 --> 00:08:29,499

that what I have to do you just open up

183

00:08:33,480 --> 00:08:31,539

the conversation box and look at the

184

00:08:45,389 --> 00:08:33,490

picture I just sent you I think it's the

185

00:08:47,000 --> 00:08:45,399

perfect a black ploy patient movie

186

00:08:51,380 --> 00:08:47,010

poster called the Mack

187

00:08:55,730 --> 00:08:51,390

I'm like one one and mr. Mack Maloney

188

00:08:57,200 --> 00:08:55,740

okay I am only a student of film I never

189

00:09:00,650 --> 00:08:57,210

had the opportunity to go to higher

190

00:09:02,270 --> 00:09:00,660

education in films but I was on a ship

191

00:09:03,110 --> 00:09:02,280

and I was the movie officer for many

192

00:09:05,390 --> 00:09:03,120

many years

193

00:09:09,770 --> 00:09:05,400

so that does give me a certain you know

194

00:09:11,890 --> 00:09:09,780

what movie oh and you know that I worked

195

00:09:15,470 --> 00:09:11,900

at a motion picture projection room at

196

00:09:16,760 --> 00:09:15,480

Newport waiting for my ship to come in I

197

00:09:18,530 --> 00:09:16,770

didn't want my ship to come in I was

198

00:09:20,630 --> 00:09:18,540

just watching movies and checking

199

00:09:24,050 --> 00:09:20,640

splices all day long at the hip I'd say

200

00:09:25,610 --> 00:09:24,060

you had the most unbelievable in the

201
00:09:32,770 --> 00:09:25,620
world I would say we should you on a

202
00:09:38,450 --> 00:09:36,580
in the meantime yeah you run the film

203
00:09:39,650 --> 00:09:38,460
great in the meantime I'm going to be

204
00:09:41,480 --> 00:09:39,660
pushing a broom somewhere in some

205
00:09:43,250 --> 00:09:41,490
barracks no no no no neat in the

206
00:09:45,560 --> 00:09:43,260
meantime you're going to be in the

207
00:09:47,720 --> 00:09:45,570
motion picture projection room right

208
00:09:50,630 --> 00:09:47,730
okay oh I'm an ET I'm gonna be working

209
00:09:53,330 --> 00:09:50,640
on broken projectors no no no no to that

210
00:09:56,150 --> 00:09:53,340
either watch the movies after five

211
00:09:57,260 --> 00:09:56,160
issues to the fleet you watch it you run

212
00:09:59,570 --> 00:09:57,270
it through the Machine check it for

213
00:10:01,150 --> 00:09:59,580

splices click click click how many spice

214

00:10:03,410 --> 00:10:01,160

check each spice make sure it's intact

215

00:10:07,430 --> 00:10:03,420

log it on this little booklet that comes

216

00:10:14,270 --> 00:10:07,440

with the movie emotions to watch movies

217

00:10:19,490 --> 00:10:14,280

when you're not doing that ok to do that

218

00:10:22,310 --> 00:10:19,500

in school that's how I was serving my

219

00:10:23,960 --> 00:10:22,320

country and that was like 1970 we're we

220

00:10:24,530 --> 00:10:23,970

on is that when you're in Newport Rhode

221

00:10:26,960 --> 00:10:24,540

Island

222

00:10:28,910 --> 00:10:26,970

yeah 1% of the 1% with 9 months left to

223

00:10:31,040 --> 00:10:28,920

go in my hitch they sent me to a ship

224

00:10:34,010 --> 00:10:31,050

she's kind of unusual Yeah right but

225

00:10:35,600 --> 00:10:34,020

it's coming back to the Med so it's it's

226

00:10:38,120 --> 00:10:35,610

important uh for who knows how long I'm

227

00:10:39,830 --> 00:10:38,130

commuting from chumford Massachusetts to

228

00:10:42,590 --> 00:10:39,840

Newport every day unbelievable

229

00:10:48,020 --> 00:10:42,600

unless I had duty okay well listen thank

230

00:10:50,270 --> 00:10:48,030

you for your service that that kind of

231

00:10:51,740 --> 00:10:50,280

hectic work schedule and demand how did

232

00:10:56,210 --> 00:10:51,750

you differentiate when you are on duty

233

00:10:59,000 --> 00:10:56,220

and not on do with that gig it was kind

234

00:11:00,590 --> 00:10:59,010

of funny because when the ship comes

235

00:11:02,480 --> 00:11:00,600

back from the madding of this things to

236

00:11:06,050 --> 00:11:02,490

work on so I'm doing my et stuff here my

237

00:11:08,300 --> 00:11:06,060

9 to 5 or 9 to 3:30 whatever it was okay

238

00:11:10,970 --> 00:11:08,310

and doing that stuff in hours and then

239

00:11:11,840 --> 00:11:10,980

getting into commuting traffic like

240

00:11:14,480 --> 00:11:11,850

everybody else

241

00:11:17,290 --> 00:11:14,490

yeah Wow you know for most of our not

242

00:11:21,559 --> 00:11:17,300

our most every day that's what I did was

243

00:11:25,009 --> 00:11:21,569

commute okay one time I was home and we

244

00:11:26,059 --> 00:11:25,019

got hit with a snowstorm yes Hey yes is

245

00:11:31,009 --> 00:11:26,069

there any chance that we could get to

246

00:11:32,389 --> 00:11:31,019

the show no this isn't great help me

247

00:11:35,329 --> 00:11:32,399

finish this a snowstorm

248

00:11:37,309 --> 00:11:35,339

yes and I couldn't drive yes there was

249

00:11:40,160 --> 00:11:37,319

no way right the next morning was like

250

00:11:41,689 --> 00:11:40,170

blizzard right I called the base and my

251

00:11:43,730 --> 00:11:41,699

treat there was a chief petty officer

252

00:11:47,210 --> 00:11:43,740

was it was my hey my boss I say come to

253

00:11:49,699 --> 00:11:47,220

the war man don't worry about outputs

254

00:12:01,910 --> 00:11:49,709

I'll put you on on leave for the day

255

00:12:03,590 --> 00:12:01,920

all right I would've been bitching about

256

00:12:06,850 --> 00:12:03,600

all that swears by lunch

257

00:12:12,650 --> 00:12:06,860

Darryl Washington where's one one I

258

00:12:16,160 --> 00:12:12,660

think you called in he called them he's

259

00:12:18,499 --> 00:12:16,170

working remotely anyway so Wow well well

260

00:12:20,840 --> 00:12:18,509

okay one one thank you once again for

261

00:12:23,420 --> 00:12:20,850

bringing us down memory lane these

262

00:12:25,040 --> 00:12:23,430

videos surface okay yeah he's giving me

263

00:12:27,559 --> 00:12:25,050

all kinds of signs now that I don't

264

00:12:29,179 --> 00:12:27,569

quite understand but that wouldn't be

265

00:12:32,090 --> 00:12:29,189

the first time so I'll tell you why done

266

00:12:33,530 --> 00:12:32,100

Cobra this is what we're gonna do

267

00:12:37,460 --> 00:12:33,540

tonight we're gonna be talking to Ellie

268

00:12:39,980 --> 00:12:37,470

Maloney no relation as it turns out but

269

00:12:41,900 --> 00:12:39,990

she's a writer and they perform her and

270

00:12:43,699 --> 00:12:41,910

she's written a book that links UFOs

271

00:12:46,249 --> 00:12:43,709

with the Kennedy assassination I can't

272

00:12:48,139 --> 00:12:46,259

wait okay me neither interesting looking

273

00:12:50,059 --> 00:12:48,149

guest would you say they want to say

274

00:12:52,999 --> 00:12:50,069

yeah so we'll be talking to her and

275

00:12:55,189 --> 00:12:53,009

there it's really her we'll find out the

276

00:12:56,480 --> 00:12:55,199

in thing that you don't know it's right

277

00:12:58,790 --> 00:12:56,490

normal knows you're a dog on the

278

00:13:03,710 --> 00:12:58,800

internet right exactly or if you are a

279

00:13:09,620 --> 00:13:03,720

guy hey wait a minute done we now our

280

00:13:11,780 --> 00:13:09,630

gay apparel listen that's another \$48

281

00:13:13,460 --> 00:13:11,790

why don't we take a break now and we'll

282

00:13:14,480 --> 00:13:13,470

be back hopefully with Helen Ilana you

283

00:13:16,910 --> 00:13:14,490

listening to Mack Moniz

284

00:13:19,160 --> 00:13:16,920

no textile Show at Cobo did you have

285

00:13:21,530 --> 00:13:19,170

anything to say and closing the segment

286

00:13:23,449 --> 00:13:21,540

thought I feel like left you out I just

287

00:13:25,639 --> 00:13:23,459

wanted to say thank you for letting me

288

00:13:28,400 --> 00:13:25,649

be part of this last segment okay all

289

00:13:30,920 --> 00:13:28,410

right little gratitude there from oh

290

00:13:33,350 --> 00:13:30,930

yeah cue the background music thank you

291

00:13:37,100 --> 00:13:33,360

for being a friend and thank you for

292

00:13:39,680 --> 00:13:37,110

sending me that poster so the Mac I like

293

00:13:42,620 --> 00:13:39,690

it maybe a little bit of magic it works

294

00:13:44,600 --> 00:13:42,630

and I'll just be yeah I'll make a Tom

295

00:13:47,510 --> 00:13:44,610

Brady makes people calm Sarah I'm gonna

296

00:13:50,449 --> 00:13:47,520

make people call me the man where's

297

00:13:51,829 --> 00:13:50,459

wisdom AK okay is the back here actually

298

00:13:55,430 --> 00:13:51,839

related to Bernie Mac who's no longer

299

00:13:56,720 --> 00:13:55,440

with me did he die right a Mac it's

300

00:14:01,400 --> 00:13:56,730

ready I think so

301

00:14:04,370 --> 00:14:01,410

did he really the guy who ran for

302

00:14:07,160 --> 00:14:04,380

president Bernie no not-not-not Sanders

303

00:14:11,240 --> 00:14:07,170

oh okay oh you sir any Mac on oh that

304

00:14:18,740 --> 00:14:11,250

girl you did that for the black guy

305

00:14:20,480 --> 00:14:18,750

Bad Santa yeah alright hello listen

306

00:14:21,530 --> 00:14:20,490

let's take a break and then we'll be

307

00:14:22,970 --> 00:14:21,540

right back so you listening to Mike

308

00:14:25,190 --> 00:14:22,980

Moyes military-style show here on the

309

00:14:29,579 --> 00:14:25,200

distant Thunder radio network we will be

310

00:14:35,769 --> 00:14:33,100

everyone's show here on the distant

311

00:14:36,429 --> 00:14:35,779

Thunder radio network this is Mac

312

00:14:40,059 --> 00:14:36,439

Maloney

313

00:14:42,910 --> 00:14:40,069

in the studio with I don't say yes girls

314

00:14:45,220 --> 00:14:42,920

he's back while on his back after a

315

00:14:51,189 --> 00:14:45,230

month of drum roll please we don't have

316

00:14:54,960 --> 00:14:51,199

that oh we have this okay so you're back

317

00:15:01,119 --> 00:14:54,970

after a month of doing secret men hiatus

318

00:15:03,369 --> 00:15:01,129

hiatus things to do some personal

319

00:15:06,309 --> 00:15:03,379

matters to take care of and some secret

320

00:15:07,960 --> 00:15:06,319

missions to attend to effect okay all

321

00:15:09,730 --> 00:15:07,970

right well thank you for you sir oh so

322

00:15:11,769 --> 00:15:09,740

secret but I I should have got a GoPro

323

00:15:13,629 --> 00:15:11,779

camera for those secret missions I got

324

00:15:15,280 --> 00:15:13,639

to do that next time yeah and some more

325

00:15:17,410 --> 00:15:15,290

technology we gotta get a camera for the

326

00:15:20,610 --> 00:15:17,420

studio and the camera for my right in my

327

00:15:25,949 --> 00:15:23,650

movies by Darren themit's right on one

328

00:15:29,290 --> 00:15:25,959

by parent Tarantino needs some footage

329

00:15:31,110 --> 00:15:29,300

also on the line with us is the comic

330

00:15:33,639 --> 00:15:31,120

Coco on the street command the Cobra

331

00:15:36,999 --> 00:15:33,649

good evening gentlemen up in his uh in

332

00:15:42,309 --> 00:15:37,009

this undisclosed location up in Maine no

333

00:15:49,389 --> 00:15:42,319

video tonight there Kobe the video so

334

00:15:51,189 --> 00:15:49,399

how's the movie receipts of Coco we're

335

00:15:53,110 --> 00:15:51,199

still hopeful though they have a strong

336

00:15:56,160 --> 00:15:53,120

finished in eighteen his kind of

337

00:15:58,900 --> 00:15:56,170

checklist a net not gross that's right

338

00:16:00,850 --> 00:15:58,910

so joining us tonight

339

00:16:02,860 --> 00:16:00,860

wow what is the prize we have though

340

00:16:04,720 --> 00:16:02,870

we've been talking back and forth about

341

00:16:06,970 --> 00:16:04,730

this for a couple months but now she's

342

00:16:10,960 --> 00:16:06,980

been able to make time for us in a very

343

00:16:14,470 --> 00:16:10,970

busy schedule Ellie Maloney no relation

344

00:16:20,499 --> 00:16:14,480

to Mac Maloney this she is how you doing

345

00:16:22,449 --> 00:16:20,509

there tonight Ellie right now you know

346

00:16:25,059 --> 00:16:22,459

it's yeah we've been talking for quite a

347

00:16:26,799 --> 00:16:25,069

while but now Maloney is an Irish name

348

00:16:30,960 --> 00:16:26,809

you don't sound Irish unless you come

349

00:16:34,629 --> 00:16:30,970

from the south about what what is that

350

00:16:37,150 --> 00:16:34,639

accent we hear you know this this name

351

00:16:40,420 --> 00:16:37,160

is kind of the family that I choose

352

00:16:52,330 --> 00:16:40,430

oh really it means Hoss thief and Gaelic

353

00:16:54,550 --> 00:16:52,340

that I choose again it's their pen name

354

00:16:56,590 --> 00:16:54,560

right let's go interesting that's the

355

00:16:58,930 --> 00:16:56,600

world she lives like everything right

356

00:17:08,380 --> 00:16:58,940

yeah that's fine it's my pen name too

357

00:17:11,319 --> 00:17:08,390

when you think about it it is so if I go

358

00:17:15,090 --> 00:17:11,329

to ancestry DNA and you type in your pen

359

00:17:48,910 --> 00:17:35,770

some kind of tax thing originally I am

360

00:17:51,820 --> 00:17:48,920

not living in Ukraine anymore well you

361

00:17:53,560 --> 00:17:51,830

know I even forget how we got in touch I

362

00:17:56,080 --> 00:17:53,570

think they got a message from your um

363

00:17:58,480 --> 00:17:56,090

from your manager your publicist or

364

00:18:00,220 --> 00:17:58,490

something but I went right on your room

365

00:18:02,710 --> 00:18:00,230

website because you have the same last

366

00:18:09,010 --> 00:18:02,720

name as I you stole the same last name

367

00:18:10,660 --> 00:18:09,020

as I did okay and and and the first

368

00:18:12,400 --> 00:18:10,670

thing that struck me was this photograph

369

00:18:13,600 --> 00:18:12,410

sign I guess it's on your website or

370

00:18:14,770 --> 00:18:13,610

your Facebook page or something like

371

00:18:16,960 --> 00:18:14,780

that I was trying to send them to online

372

00:18:20,710 --> 00:18:16,970

of course you couldn't find them but you

373

00:18:22,770 --> 00:18:20,720

have some who takes don't suppose that I

374

00:18:25,450 --> 00:18:22,780

mean I'm not yeah it's pretty good yeah

375

00:18:27,670 --> 00:18:25,460

some of them are stunning pictures and

376

00:18:29,860 --> 00:18:27,680

the special effects are however you did

377

00:18:31,870 --> 00:18:29,870

it the one way you're flying you're

378

00:18:43,500 --> 00:18:31,880

floating while you're writing is just I

379

00:18:49,889 --> 00:18:48,330

it's just money okay it was good just

380

00:18:52,110 --> 00:18:49,899

have a job

381

00:18:57,000 --> 00:18:52,120

no she was talk about anti-gravity she

382

00:19:01,549 --> 00:18:57,010

said was pretty expensive I was paying

383

00:19:17,370 --> 00:19:13,340

yeah right it was a good effect later

384

00:19:19,019 --> 00:19:17,380

liven the model would be you know I've

385

00:19:23,879 --> 00:19:19,029

kind of like had my whole life backwards

386

00:19:26,310 --> 00:19:23,889

a little bit because like my since even

387

00:19:30,269 --> 00:19:26,320

before I hit 18 I was started working in

388

00:19:32,669 --> 00:19:30,279

an office work and I gave that for smell

389

00:19:35,759 --> 00:19:32,679

related stuff and they gave that seven

390

00:19:38,129 --> 00:19:35,769

almost eight years so and then I

391

00:19:40,590 --> 00:19:38,139

realized there's life outside of that

392

00:19:43,919 --> 00:19:40,600

stuff so and then learn old fun stories

393

00:19:51,720 --> 00:19:43,929

I'm sorry writing books and like why not

394

00:19:53,370 --> 00:19:51,730

do modeling sure for you it's all tied

395

00:19:53,820 --> 00:19:53,380

together it's all one big package it's

396

00:20:03,419 --> 00:19:53,830

great

397

00:20:05,700 --> 00:20:03,429

are you a musical performer too no I

398

00:20:08,340 --> 00:20:05,710

love the accent who would want to hear

399

00:20:10,919 --> 00:20:08,350

you sing something if some someday we're

400

00:20:14,220 --> 00:20:10,929

singing in the shower try it out and

401
00:20:16,649 --> 00:20:14,230
well no okay you know what's funny is

402
00:20:19,560 --> 00:20:16,659
having her end video and I hate that

403
00:20:21,149 --> 00:20:19,570
this is gonna get me a lawsuit be

404
00:20:23,190 --> 00:20:21,159
careful that yeah okay maybe I shouldn't

405
00:20:25,889 --> 00:20:23,200
say everybody wore black the other night

406
00:20:29,310 --> 00:20:25,899
it's exposing clothes progressive brings

407
00:20:32,129 --> 00:20:29,320
you flow a tree with flow and RV rolls

408
00:20:33,149 --> 00:20:32,139
into a campground kids in the back eat

409
00:20:33,840 --> 00:20:33,159
turkey jerky

410
00:20:37,140 --> 00:20:33,850
X

411
00:20:39,900 --> 00:20:37,150
dad drives like a boss with 24/7 support

412
00:20:41,610 --> 00:20:39,910
from progressive tomorrow it's off to

413
00:20:44,700 --> 00:20:41,620

see the world's largest ball of twine

414

00:20:48,450 --> 00:20:44,710

would have seen it last trip but dad mr.

415

00:20:50,700 --> 00:20:48,460

song I get 24/7 help when you insure

416

00:20:52,040 --> 00:20:50,710

your RV with progressive call 1-800

417

00:20:54,030 --> 00:20:52,050

progressive visit progressive.com

418

00:20:56,280 --> 00:20:54,040

progressive casualty insurance company

419

00:20:58,260 --> 00:20:56,290

and affiliates so don't don't walk that

420

00:21:01,380 --> 00:20:58,270

we're gonna compliment you on just your

421

00:21:02,160 --> 00:21:01,390

style but what is she like this reminds

422

00:21:08,060 --> 00:21:02,170

me of somebody

423

00:21:10,530 --> 00:21:08,070

- a cover of you know kidding it's it's

424

00:21:14,550 --> 00:21:10,540

just like just from a guy's point of

425

00:21:17,760 --> 00:21:14,560

view okay you know you know the girls

426
00:21:19,320 --> 00:21:17,770
very really attractive when she doesn't

427
00:21:22,800 --> 00:21:19,330
have to dress up to look really

428
00:21:27,750 --> 00:21:22,810
attractive natural attractiveness here

429
00:21:43,980 --> 00:21:27,760
doesn't have to be done by that's tip

430
00:21:53,940 --> 00:21:43,990
toe we're talking about radio want he

431
00:21:57,020 --> 00:21:53,950
said the word I saw in a magazine yeah

432
00:22:01,680 --> 00:21:57,030
what magazine was that just recently on

433
00:22:05,550 --> 00:22:01,690
the regular clean mag don't accuse me

434
00:22:09,420 --> 00:22:05,560
don't judge you know like Cosmo and not

435
00:22:11,880 --> 00:22:09,430
real normal go ahead but really she she

436
00:22:14,100 --> 00:22:11,890
looks like an actress or that she has a

437
00:22:15,510 --> 00:22:14,110
familiar look though yeah yeah I'll pin

438
00:22:39,810 --> 00:22:15,520

it down late I probably have two shows

439

00:22:41,640 --> 00:22:39,820

overall yeah she reminds let's talk

440

00:22:43,020 --> 00:22:41,650

about your book okay because among other

441

00:22:46,140 --> 00:22:43,030

things you're an authoring you've

442

00:22:47,060 --> 00:22:46,150

written this book that you know it

443

00:22:49,039 --> 00:22:47,070

fascinated me

444

00:22:51,590 --> 00:22:49,049

was right after we did the JFK special

445

00:22:55,279 --> 00:22:51,600

mmm and and then I saw her book actually

446

00:22:56,629 --> 00:22:55,289

links JFK assassination with UFOs you

447

00:22:58,039 --> 00:22:56,639

know we were kind of looking for we wish

448

00:22:59,299 --> 00:22:58,049

that we had met you like about a month

449

00:23:01,340 --> 00:22:59,309

before you would have been the star of

450

00:23:02,840 --> 00:23:01,350

that show oh yeah so just tell people up

451
00:23:07,879 --> 00:23:02,850
there the name of the book and what it's

452
00:23:11,330 --> 00:23:07,889
about twenty nine years

453
00:23:14,740 --> 00:23:11,340
wait and this is a science fiction

454
00:23:20,990 --> 00:23:14,750
historical fiction speculative fiction

455
00:23:24,019 --> 00:23:21,000
you name it it's kind of well this is my

456
00:23:28,850 --> 00:23:24,029
disease novel and a lot of my

457
00:23:31,129 --> 00:23:28,860
fascination extension think of what I'm

458
00:23:35,080 --> 00:23:31,139
interested in life in general its

459
00:23:38,990 --> 00:23:35,090
history of science fiction for sure it's

460
00:23:44,600 --> 00:23:39,000
science so kind of manifested itself

461
00:23:47,810 --> 00:23:44,610
into this first contact type of story

462
00:24:07,960 --> 00:23:47,820
with it right and with the Kennedy

463
00:24:10,940 --> 00:24:07,970

connection I'm sorry i unnecessarily

464

00:24:13,249 --> 00:24:10,950

humor okay i'm sorry go ahead please

465

00:24:14,690 --> 00:24:13,259

sorry it's just that's how he is

466

00:24:16,190 --> 00:24:14,700

sometimes he's a little bit high a

467

00:24:23,180 --> 00:24:16,200

little bit low tonight he's a little bit

468

00:24:26,779 --> 00:24:23,190

high go ahead please ally sorry we were

469

00:24:29,960 --> 00:24:26,789

in statistics we know what state you're

470

00:24:31,430 --> 00:24:29,970

in Washington the first ones that

471

00:24:34,399 --> 00:24:31,440

culture is making out on the East Coast

472

00:24:36,110 --> 00:24:34,409

right you know we that the night that it

473

00:24:39,430 --> 00:24:36,120

became legal in Washington State we were

474

00:24:41,899 --> 00:24:39,440

talking to those those guys in the band

475

00:24:44,180 --> 00:24:41,909

mystery flyers remember they told you

476

00:24:45,619 --> 00:24:44,190

from the book and I said some well it

477

00:24:47,119 --> 00:24:45,629

must be a big night up day you know

478

00:24:57,039 --> 00:24:47,129

everyone you know must be getting high

479

00:25:02,019 --> 00:25:00,920

totally unrelated up right so lucky guy

480

00:25:12,479 --> 00:25:02,029

[Music]

481

00:25:19,180 --> 00:25:15,519

reason because they are watching our

482

00:25:23,320 --> 00:25:19,190

every also they are guiding us to the

483

00:25:28,720 --> 00:25:23,330

evolution because humans has this gift I

484

00:25:30,700 --> 00:25:28,730

pull it oscillate and this is the based

485

00:25:34,029 --> 00:25:30,710

on the quantum consciousness theory of

486

00:25:39,450 --> 00:25:34,039

Roger Penrose basically humans have

487

00:25:44,019 --> 00:25:42,369

you know metaphysical and left or

488

00:25:52,450 --> 00:25:44,029

ependymal was explained and then it

489

00:25:56,889 --> 00:25:52,460

becomes it becomes sons so anyway one of

490

00:26:02,349 --> 00:25:56,899

them is the period of JFK from his birth

491

00:26:04,539 --> 00:26:02,359

to his death like you know that was the

492

00:26:06,489 --> 00:26:04,549

period when or the beautiful sightings

493

00:26:10,960 --> 00:26:06,499

started happening so I try it in

494

00:26:20,349 --> 00:26:10,970

together when was JFK when the battle

495

00:26:24,159 --> 00:26:20,359

for they happened the Intelligence

496

00:26:26,049 --> 00:26:24,169

Agency in the Naval Intelligence Agency

497

00:26:28,419 --> 00:26:26,059

in Charleston South Carolina

498

00:26:32,169 --> 00:26:28,429

okay so how do you feel about that what

499

00:26:35,769 --> 00:26:32,179

is the the Intelligence Agency dealing

500

00:26:39,960 --> 00:26:35,779

with with a symmetric warfare what is a

501
00:26:43,940 --> 00:26:39,970
symmetric warfare is when rain is here

502
00:26:49,470 --> 00:26:43,950
means the guerrilla warfare against yes

503
00:26:56,970 --> 00:26:53,799
like where is it where I used history

504
00:27:02,379 --> 00:26:56,980
it's hard history like real fast like

505
00:27:06,099 --> 00:27:02,389
yeah yeah you put your rest upon him let

506
00:27:09,780 --> 00:27:06,109
me ask you this do you think JFK was a

507
00:27:25,600 --> 00:27:23,170
before I got shot okay yeah

508
00:27:27,550 --> 00:27:25,610
yeah and it's hitting everything between

509
00:27:44,710 --> 00:27:27,560
meetings and stuff that's what he was

510
00:27:48,070 --> 00:27:44,720
doing just takes seven showers a day he

511
00:27:50,560 --> 00:27:48,080
was loved in this part of the country he

512
00:27:52,480 --> 00:27:50,570
was like sanctified so you know how am I

513
00:28:03,070 --> 00:27:52,490

gonna ask this question yeah I'm gonna

514

00:28:04,660 --> 00:28:03,080

guess that you 23 years old okay what

515

00:28:06,340 --> 00:28:04,670

was it like growing up in Ukraine when

516

00:28:16,870 --> 00:28:06,350

you growing up in the Ukraine what did

517

00:28:18,970 --> 00:28:16,880

you think of the United States the

518

00:28:19,930 --> 00:28:18,980

United States happen through syndicated

519

00:28:22,660 --> 00:28:19,940

feed

520

00:28:39,760 --> 00:28:22,670

the world right among the best of the

521

00:28:41,400 --> 00:28:39,770

quality I'll do an LSD do an acid when

522

00:28:44,230 --> 00:28:41,410

they were filming that show excellent

523

00:28:52,000 --> 00:28:44,240

know everything the pig is the funniest

524

00:28:55,480 --> 00:28:52,010

and the smartest person on the fresh air

525

00:28:59,230 --> 00:28:55,490

Times Square you are my wife goodbye

526

00:29:01,270 --> 00:28:59,240

city life she's funny and she's like

527

00:29:12,100 --> 00:29:01,280

dopey but she again she's doing to make

528

00:29:13,600 --> 00:29:12,110

sense yeah it's like it's kind of

529

00:29:16,750 --> 00:29:13,610

bizarre that you're asking about this

530

00:29:18,790 --> 00:29:16,760

it's dedicated to my experience with

531

00:29:20,549 --> 00:29:18,800

syndicated flicks of how I experience

532

00:29:23,669 --> 00:29:20,559

America for the letters

533

00:29:25,019 --> 00:29:23,679

okay so did you think of us as like this

534

00:29:29,659 --> 00:29:25,029

is the way I think people over there

535

00:29:52,379 --> 00:29:29,669

think of us I think we're rich spoiled

536

00:29:55,310 --> 00:29:52,389

yeah I live in a farmhouse le with an

537

00:29:58,470 --> 00:29:55,320

indoor outhouse you go it's in those yep

538

00:30:01,049 --> 00:29:58,480

yep in the barn there's a there's in the

539

00:30:02,639 --> 00:30:01,059

barn there's a section a two-seater

540

00:30:04,440 --> 00:30:02,649

section two-seater

541

00:30:05,580 --> 00:30:04,450

it's because the barn is connected to

542

00:30:08,340 --> 00:30:05,590

the house you went from the house into

543

00:30:10,680 --> 00:30:08,350

this other little room connected to the

544

00:30:12,509 --> 00:30:10,690

barn right with a two seater indoor

545

00:30:14,249 --> 00:30:12,519

outhouse so see I would go for two

546

00:30:22,049 --> 00:30:14,259

seated I don't know I think I think when

547

00:30:24,330 --> 00:30:22,059

you no lines no well yeah there's a long

548

00:30:26,700 --> 00:30:24,340

history about why they a lot of people

549

00:30:29,249 --> 00:30:26,710

lived in that house back in the 1800s as

550

00:30:32,909 --> 00:30:29,259

what we did holy cow yeah yeah big

551
00:30:34,310 --> 00:30:32,919
family Thanks no no waiting you are next

552
00:30:37,529 --> 00:30:34,320
you know

553
00:30:39,480 --> 00:30:37,539
hoopha so anyway hey listen let me I'm

554
00:30:41,460 --> 00:30:39,490
just fascinated by this telly and I have

555
00:30:42,859 --> 00:30:41,470
to ask you a question that everyone is I

556
00:31:01,769 --> 00:30:42,869
think wondering okay

557
00:31:03,180 --> 00:31:01,779
are you married no I missed that we're

558
00:31:10,379 --> 00:31:03,190
just I'm sorry I missed that

559
00:31:16,259 --> 00:31:10,389
oh yes you see from Washington is from

560
00:31:16,799 --> 00:31:16,269
local or from Ukraine it's none of our

561
00:31:19,440 --> 00:31:16,809
business

562
00:31:21,749 --> 00:31:19,450
ours really is it he's probably in the

563
00:31:24,450 --> 00:31:21,759

FBI he's an engineer he works for Boeing

564

00:31:27,560 --> 00:31:24,460

okay leave them alone yeah it's got a

565

00:31:29,450 --> 00:31:27,570

radio in the Attic that's

566

00:31:31,369 --> 00:31:29,460

he's not in Boeing he hangs out

567

00:31:32,810 --> 00:31:31,379

Starbucks off how did the two great

568

00:31:37,249 --> 00:31:32,820

Washington state companies know they

569

00:31:39,560 --> 00:31:37,259

moved to Chicago they did Chicago got a

570

00:31:47,299 --> 00:31:39,570

music there you and I agree on one thing

571

00:31:57,830 --> 00:31:47,309

you like Ben Bradley's music next

572

00:32:00,409 --> 00:31:57,840

question and your website on your

573

00:32:02,239 --> 00:32:00,419

website is you know you are friends with

574

00:32:05,060 --> 00:32:02,249

Ben Bradley he's kind of a well-known

575

00:32:07,999 --> 00:32:05,070

electronic dance band guy oh really

576

00:32:10,039 --> 00:32:08,009

yeah like the mouse guy in those guys

577

00:32:16,849 --> 00:32:10,049

you know danger Mon you don't see the

578

00:32:18,169 --> 00:32:16,859

guy comes out like a mouse anyway maybe

579

00:32:20,269 --> 00:32:18,179

it's another helming the woman who knows

580

00:32:24,169 --> 00:32:20,279

how long did it take you to write the

581

00:32:40,759 --> 00:32:24,179

book and then you just hate every word

582

00:32:50,810 --> 00:32:40,769

you typed did you do two years do you

583

00:32:52,609 --> 00:32:50,820

have to keep changing the title you know

584

00:32:57,099 --> 00:32:52,619

some like characters do some

585

00:33:04,580 --> 00:32:57,109

gender-bender a bending

586

00:33:09,769 --> 00:33:04,590

that's the sick of where the night yeah

587

00:33:11,989 --> 00:33:09,779

that happens yeah that happened but

588

00:33:13,580 --> 00:33:11,999

anyway it sounds great but but you know

589

00:33:15,680 --> 00:33:13,590

what where did you get the idea in the

590

00:33:16,759 --> 00:33:15,690

first place they just came out of the

591

00:33:20,810 --> 00:33:16,769

blue to you huh

592

00:33:25,159 --> 00:33:20,820

I don't beep Atlantic Ocean they say

593

00:33:29,389 --> 00:33:25,169

because I was living in Liberia for some

594

00:33:32,810 --> 00:33:29,399

time and like they say my husband and I

595

00:33:36,049 --> 00:33:32,820

we like travel for work and that was

596

00:33:38,450 --> 00:33:36,059

that one year where we were living in my

597

00:33:40,880 --> 00:33:38,460

area mmm so I was sitting on the

598

00:33:44,780 --> 00:33:40,890

Nigerian cold

599

00:33:48,620 --> 00:33:44,790

in the angular stress room and it was a

600

00:33:51,710 --> 00:33:48,630

little bit of an exercise and stream of

601
00:33:54,230 --> 00:33:51,720
consciousness writing and like my brains

602
00:33:56,930 --> 00:33:54,240
just regurgitated beach alien coming out

603
00:34:03,140 --> 00:33:56,940
of the ocean you know one let's go and

604
00:34:04,490 --> 00:34:03,150
I'm I'm sorry I started blogging it on

605
00:34:06,230 --> 00:34:04,500
the website then I took it all down

606
00:34:09,070 --> 00:34:06,240
because it was like for draft you know

607
00:34:13,599 --> 00:34:09,080
there are torture hmm

608
00:34:16,730 --> 00:34:13,609
but yeah I kept it initially on the blog

609
00:34:19,070 --> 00:34:16,740
I love this conversation I can't

610
00:34:25,790 --> 00:34:19,080
understand half of it but just watching

611
00:34:29,119 --> 00:34:25,800
you talk is better than Cobra go ahead

612
00:34:31,099 --> 00:34:29,129
please I'm gonna say something you I

613
00:34:33,020 --> 00:34:31,109

studied Russian and I'm terrible at it

614

00:34:35,480 --> 00:34:33,030

but I gotta say sup to you and then

615

00:34:37,430 --> 00:34:35,490

maybe you can if I you can grade me on

616

00:34:40,460 --> 00:34:37,440

it and then watch the reaction with Mac

617

00:34:41,810 --> 00:34:40,470

and one one so really when I do this so

618

00:35:06,290 --> 00:34:41,820

here we go you're ready with tied up

619

00:35:08,060 --> 00:35:06,300

monkeys on your website you have a great

620

00:35:10,609 --> 00:35:08,070

picture of you as an angel I thought

621

00:35:13,160 --> 00:35:10,619

because I like that kind of working is a

622

00:35:14,390 --> 00:35:13,170

shot of you that's done very are very

623

00:35:17,390 --> 00:35:14,400

pretty so I was trying to tell you that

624

00:35:27,880 --> 00:35:17,400

and I know why major in Russian well say

625

00:35:37,760 --> 00:35:27,890

it again yes cartina vas [h__h]

626

00:35:39,920 --> 00:35:37,770

Angela don't be the Russian oh well

627

00:35:42,440 --> 00:35:39,930

actually my Russian teacher was from the

628

00:35:44,150 --> 00:35:42,450

Ukraine so that's reason why I huh I

629

00:35:47,920 --> 00:35:44,160

should stick to the one in two words and

630

00:35:51,800 --> 00:35:50,480

you know coach the kind of guy who comes

631

00:35:54,109 --> 00:35:51,810

that to it I buy you know and you're

632

00:35:54,680 --> 00:35:54,119

sitting there typing I talk Russian -

633

00:35:59,780 --> 00:35:54,690

Russian

634

00:36:01,819 --> 00:35:59,790

rushon yeah okay he's multi-talented le

635

00:36:03,770 --> 00:36:01,829

well when I was 23 that was a pretty

636

00:36:06,050 --> 00:36:03,780

invoked thing to have have happened

637

00:36:10,309 --> 00:36:06,060

that's going back in the last century so

638

00:36:12,410 --> 00:36:10,319

you ain't given my line of work in those

639

00:36:15,349 --> 00:36:12,420

days so what's the translation of what

640

00:36:23,329 --> 00:36:15,359

you're saying great picture of you as an

641

00:36:28,910 --> 00:36:23,339

angel so who takes the pictures le do

642

00:36:31,760 --> 00:36:28,920

you take are they friends of yours or I

643

00:36:40,910 --> 00:36:31,770

mean they look very economy polishing

644

00:36:49,400 --> 00:36:40,920

this Google stuff for living yeah sure

645

00:36:50,900 --> 00:36:49,410

they do well so what are you doing

646

00:36:53,300 --> 00:36:50,910

you're not you know doing all this kind

647

00:36:56,150 --> 00:36:53,310

of autistic stuff what do you do do you

648

00:37:02,900 --> 00:36:56,160

sit around watch TV and eat potato chips

649

00:37:06,319 --> 00:37:02,910

and stuff like Green Acres perhaps

650

00:37:20,140 --> 00:37:06,329

playing Eva Gabor doesn't have a like

651
00:37:21,650 --> 00:37:20,150
the stand-up nice okay go ahead please

652
00:37:24,440 --> 00:37:21,660
you're what

653
00:37:28,540 --> 00:37:24,450
what your lawyer oh well we'll see you

654
00:37:31,030 --> 00:37:28,550
nice architect well you're a lawyer

655
00:37:41,650 --> 00:37:31,040
what do you specialize in this does not

656
00:37:47,690 --> 00:37:45,260
once upon a time criminal excited but

657
00:37:51,950 --> 00:37:47,700
then I kind of moved into human rights

658
00:37:54,140 --> 00:37:51,960
gender oh no you know hey criminal law

659
00:37:58,930 --> 00:37:54,150
there's a TV show in this man come on

660
00:38:00,440 --> 00:37:58,940
call it Ellen Oh le n li TT le

661
00:38:03,710 --> 00:38:00,450
attorney-at-law

662
00:38:06,600 --> 00:38:03,720
yeah no no she's a criminal attorney you

663
00:38:09,780 --> 00:38:09,060

yeah she chases good feel to be in and

664

00:38:11,610 --> 00:38:09,790

yes she does

665

00:38:13,590 --> 00:38:11,620

she's a criminal attorney she takes on

666

00:38:16,320 --> 00:38:13,600

all these scumbags and she proves them

667

00:38:20,430 --> 00:38:16,330

wrong right if the glove don't fit yeah

668

00:38:29,450 --> 00:38:20,440

we must acquit the greatest line of all

669

00:38:33,660 --> 00:38:31,740

so do you have feedback to the

670

00:38:35,960 --> 00:38:33,670

kardashians the kardashians he went out

671

00:38:45,800 --> 00:38:35,970

there yes that's what we get in return

672

00:38:45,810 --> 00:38:52,940

she was the prosecutors at Martha Clark

673

00:38:57,630 --> 00:38:54,690

actually I used to be in love with

674

00:39:02,220 --> 00:38:57,640

master Clark my I moved to California in

675

00:39:04,230 --> 00:39:02,230

1995 to CJ oj trial just for her well I

676

00:39:07,080 --> 00:39:04,240

it was it was on wall-to-wall coverage

677

00:39:08,640 --> 00:39:07,090

every station I kiddin when we moved

678

00:39:11,520 --> 00:39:08,650

there when we house-hunting and moved

679

00:39:14,070 --> 00:39:11,530

there was like wall-to-wall oj for what

680

00:39:17,610 --> 00:39:14,080

like months six months just you know CNN

681

00:39:20,250 --> 00:39:17,620

was like boom every every channel oh

682

00:39:21,990 --> 00:39:20,260

yeah yeah and they were stuck with it

683

00:39:25,500 --> 00:39:22,000

for a year and a half that Martha Clark

684

00:39:28,140 --> 00:39:25,510

had this Marcia Marcia Marcia Marcia

685

00:39:32,810 --> 00:39:28,150

Marcia go ahead had this pizzazz that

686

00:39:35,270 --> 00:39:32,820

kind of you know

687

00:39:37,980 --> 00:39:35,280

she was out of her League a little bit

688

00:39:42,180 --> 00:39:37,990

Darden was mediating the affair please

689

00:39:44,310 --> 00:39:42,190

Coco please go ahead Darden was an idiot

690

00:39:50,310 --> 00:39:44,320

but I thought Marcia was they were all

691

00:39:51,840 --> 00:39:50,320

editions okay Coco please she had a

692

00:39:54,210 --> 00:39:51,850

certain appeal obviously that was

693

00:39:56,550 --> 00:39:54,220

matched by her co-prosecutor they ended

694

00:39:59,190 --> 00:39:56,560

up having an affair during that that

695

00:40:04,830 --> 00:39:59,200

wonderful legal process really oh yeah

696

00:40:06,450 --> 00:40:04,840

they didn't know it actually didn't The

697

00:40:08,400 --> 00:40:06,460

O'Jays Show and I'd watch it have you

698

00:40:10,290 --> 00:40:08,410

ever seen let's say I went to the state

699

00:40:17,609 --> 00:40:10,300

knows yeah if that's possible

700

00:40:28,710 --> 00:40:25,200

no no do you believe they exist all the

701
00:40:34,730 --> 00:40:28,720
secrecy of the government's multiple

702
00:40:40,499 --> 00:40:37,200
progressive brings you flow a tree with

703
00:40:42,870 --> 00:40:40,509
flow motor cycle and car insured

704
00:40:43,620 --> 00:40:42,880
together saving money feels stress-free

705
00:40:46,559 --> 00:40:43,630
mess-free

706
00:40:49,410 --> 00:40:46,569
light as a feather however which should

707
00:40:49,799 --> 00:40:49,420
I Drive depends on the weather if it

708
00:40:51,420 --> 00:40:49,809
rains

709
00:40:54,900 --> 00:40:51,430
take the car because these pants are

710
00:40:56,579 --> 00:40:54,910
leather possibly pleather bundle your

711
00:40:58,950 --> 00:40:56,589
motorcycle and car insurance and save

712
00:41:00,809 --> 00:40:58,960
with progressive call 1-800 progressive

713
00:41:01,859 --> 00:41:00,819

visit progressive.com progressive

714

00:41:03,329 --> 00:41:01,869

casualty insurance company and

715

00:41:06,329 --> 00:41:03,339

affiliates discounts not available in

716

00:41:07,789 --> 00:41:06,339

all states or situations right yeah as

717

00:41:10,019 --> 00:41:07,799

do we all

718

00:41:11,670 --> 00:41:10,029

how do you think the folks in the

719

00:41:21,779 --> 00:41:11,680

Ukraine feel did they have that same

720

00:41:28,049 --> 00:41:21,789

kind of opinion I just grew up I happen

721

00:41:31,470 --> 00:41:28,059

to stumble into the x-files like when it

722

00:41:34,319 --> 00:41:31,480

was like it it speaking so like you know

723

00:41:36,539 --> 00:41:34,329

it's kind of it first like catches you

724

00:41:38,309 --> 00:41:36,549

as fiction but then user more you read

725

00:41:42,589 --> 00:41:38,319

the more you realize and when there is

726

00:41:45,210 --> 00:41:42,599

actual stories in here when you get like

727

00:41:49,289 --> 00:41:45,220

governments and super-sized budgets and

728

00:41:52,079 --> 00:41:49,299

secret Commission's and all that I mean

729

00:41:54,660 --> 00:41:52,089

and and I would fascinates me you know

730

00:41:55,670 --> 00:41:54,670

the people keep saying oh if we had a

731

00:42:00,269 --> 00:41:55,680

smoking gun

732

00:42:03,900 --> 00:42:00,279

supposed to be like that like an alien

733

00:42:05,789 --> 00:42:03,910

yes before your eyes that would be a

734

00:42:10,499 --> 00:42:05,799

smoking gun you know and someone here

735

00:42:12,509 --> 00:42:10,509

would tell you them right it's gonna

736

00:42:16,170 --> 00:42:12,519

take it's one of these things that um

737

00:42:17,759 --> 00:42:16,180

you know when it happens you know it's

738

00:42:20,839 --> 00:42:17,769

going to happen because everything up to

739

00:42:23,700 --> 00:42:20,849

this point always has that kind of

740

00:42:26,489 --> 00:42:23,710

doesn't have quite credibility of things

741

00:42:34,190 --> 00:42:26,499

like if it landed on if a UFO Lynda on

742

00:42:39,329 --> 00:42:37,799

you know this has been fascinating 1 1

743

00:42:40,620 --> 00:42:39,339

is actually taking pictures of the

744

00:42:44,400 --> 00:42:40,630

screen I didn't know you could do that

745

00:42:46,410 --> 00:42:44,410

is that go to JFK actually blended UFOs

746

00:42:48,630 --> 00:42:46,420

or what that's the part I want to get

747

00:42:52,680 --> 00:42:48,640

even though it's a fictionalized account

748

00:42:53,819 --> 00:42:52,690

did JFK have some concern about UFOs

749

00:43:04,829 --> 00:42:53,829

during that period of time because I

750

00:43:10,190 --> 00:43:04,839

don't recall hearing about it that was

751

00:43:15,680 --> 00:43:12,420

ok all right well don't give it away

752

00:43:18,540 --> 00:43:15,690

don't give it away don't give it away

753

00:43:21,510 --> 00:43:18,550

that's ok let's go back to this ok

754

00:43:22,829 --> 00:43:21,520

2 years to write it you wrote it

755

00:43:39,599 --> 00:43:22,839

yourself did you use a typewriter

756

00:43:45,599 --> 00:43:39,609

someone in the audience and what kind of

757

00:43:49,230 --> 00:43:47,940

besides the Traveling Wilburys they're a

758

00:43:51,960 --> 00:43:49,240

great band who's in the Traveling

759

00:43:54,690 --> 00:43:51,970

Wilburys my favorite artist is George

760

00:43:58,470 --> 00:43:54,700

Harrison and Bob Dylan Bob Dylan Tom

761

00:44:00,690 --> 00:43:58,480

Petty Tom Petty Jeff Lynn and Roy

762

00:44:02,640 --> 00:44:00,700

Orbison half the MIDI

763

00:44:03,990 --> 00:44:02,650

why did you bring that up while you're

764

00:44:08,609 --> 00:44:04,000

sucking fishing out of the room she

765

00:44:11,780 --> 00:44:08,619

mentioned Traveling Wilburys okay she

766

00:44:14,490 --> 00:44:11,790

got them early after you get to know me

767

00:44:22,859 --> 00:44:14,500

get off on a tangent sometimes if you

768

00:44:24,390 --> 00:44:22,869

mentioned a rock band sorry we're all

769

00:44:27,690 --> 00:44:24,400

about music here on this side of the

770

00:44:29,190 --> 00:44:27,700

board is it true that the guy who used

771

00:44:33,240 --> 00:44:29,200

to be the president Ukraine wasn't he

772

00:44:34,740 --> 00:44:33,250

like the candy Empire the candy king or

773

00:44:38,570 --> 00:44:34,750

something like that the guy here's to

774

00:44:44,960 --> 00:44:38,580

run Ukraine really yeah yeah

775

00:44:48,950 --> 00:44:44,970

right yeah he came to the presidency

776

00:44:52,760 --> 00:44:48,960

from the business bedroom and he his

777

00:45:11,270 --> 00:44:52,770

business actually makes phenomenal cakes

778

00:45:13,610 --> 00:45:11,280

and chocolate I don't wanna you know

779

00:45:15,140 --> 00:45:13,620

really what's the situation over there

780

00:45:17,120 --> 00:45:15,150

now is it just kind of divided between

781

00:45:19,130 --> 00:45:17,130

Ukraine and Russia I stopped watching

782

00:45:20,510 --> 00:45:19,140

the news a year and a half ago only so I

783

00:45:22,490 --> 00:45:20,520

don't know what's going on they're not

784

00:45:35,330 --> 00:45:22,500

still fighting they're rally car by

785

00:45:39,350 --> 00:45:35,340

rally oh yes depends on where united

786

00:45:42,710 --> 00:45:39,360

states states then and so lack of

787

00:45:45,590 --> 00:45:42,720

consistent foreign policy from someone

788

00:45:48,500 --> 00:45:45,600

who can you know stick up for us

789

00:45:51,170 --> 00:45:48,510

when Ukraine right it's like here we

790

00:45:53,420 --> 00:45:51,180

give you some kings and Italy pal weapon

791

00:45:57,230 --> 00:45:53,430

and then we gonna like flirt with your

792

00:46:00,980 --> 00:45:57,240

enemy to the other reason you know like

793

00:46:03,560 --> 00:46:00,990

town would be nice to know where where

794

00:46:08,750 --> 00:46:03,570

the United States stands but it seems

795

00:46:10,970 --> 00:46:08,760

like foreign policy like whoever is the

796

00:46:13,220 --> 00:46:10,980

message messenger this their message a

797

00:46:18,020 --> 00:46:13,230

little bit like recently that's what I'm

798

00:46:23,260 --> 00:46:18,030

getting you know what what why can't we

799

00:46:29,870 --> 00:46:27,440

Rodney King Ukraine ones Crimea and like

800

00:46:31,700 --> 00:46:29,880

you know there's only one cream you yes

801
00:46:38,650 --> 00:46:31,710
there's only so many ways you can build

802
00:46:41,300 --> 00:46:38,660
between east and west and south right

803
00:46:43,190 --> 00:46:41,310
well I just don't understand why

804
00:46:45,020 --> 00:46:43,200
everyone has to go around starting

805
00:46:47,930 --> 00:46:45,030
trouble all the time you know isn't it

806
00:46:50,120 --> 00:46:47,940
just a it's it's costly in lives and

807
00:46:51,470 --> 00:46:50,130
money and everything and yet some of

808
00:46:52,320 --> 00:46:51,480
these people some of these politicians

809
00:46:54,960 --> 00:46:52,330
they just

810
00:46:58,740 --> 00:46:54,970
have to fight the urge to go and you

811
00:47:00,060 --> 00:46:58,750
know giving somewhere you know yes and

812
00:47:08,060 --> 00:47:00,070
who has the big whereas the bigger

813
00:47:11,700 --> 00:47:08,070

button it's a big business so anyway so

814

00:47:14,040 --> 00:47:11,710

you are a lawyer you are a lawyer I'm

815

00:47:17,250 --> 00:47:14,050

still kind of amazing stunned yeah

816

00:47:20,330 --> 00:47:17,260

because how do I say this you know it's

817

00:47:22,440 --> 00:47:20,340

just that with all the multimedia

818

00:47:24,630 --> 00:47:22,450

persona that's going on there is just

819

00:47:27,270 --> 00:47:24,640

out of the code by the way I'm a lawyer

820

00:47:33,170 --> 00:47:27,280

right by the way yeah yeah you got snuck

821

00:47:37,290 --> 00:47:33,180

up on this thing you see how we meet

822

00:47:39,750 --> 00:47:37,300

Coco you must have a question well are

823

00:47:50,930 --> 00:47:39,760

you gonna do a follow on to this this

824

00:47:54,300 --> 00:47:50,940

book excellent

825

00:47:56,430 --> 00:47:54,310

is it gonna pick up the story the

826

00:48:05,340 --> 00:47:56,440

conclusion or are you gonna go on into

827

00:48:08,730 --> 00:48:05,350

area but like the way my book structured

828

00:48:11,130 --> 00:48:08,740

that part one of the book is like like a

829

00:48:15,810 --> 00:48:11,140

story of itself and then part two kind

830

00:48:20,220 --> 00:48:15,820

of ended on a cliffhanger so I'm gonna

831

00:48:24,560 --> 00:48:20,230

wrap up some of the Easter is gonna be a

832

00:48:27,630 --> 00:48:24,570

lot of I think it's gonna be pretty

833

00:48:29,550 --> 00:48:27,640

pretty because like right now I've heard

834

00:48:32,310 --> 00:48:29,560

everything that people think are going

835

00:48:38,160 --> 00:48:32,320

to is going to happen so I'm gonna fast

836

00:48:41,010 --> 00:48:38,170

you like sounds good

837

00:48:43,110 --> 00:48:41,020

well listen Ellie thanks for joining us

838

00:48:45,600 --> 00:48:43,120

tonight all the way across the country

839

00:48:47,910 --> 00:48:45,610

in the state of Washington where

840

00:48:51,390 --> 00:48:47,920

everyone is high on life I hear it's a

841

00:48:52,770 --> 00:48:51,400

beautiful state and um thanks for

842

00:48:58,080 --> 00:48:52,780

joining us hope well good luck with the

843

00:49:02,130 --> 00:48:58,090

book and and come on again real soon

844

00:49:03,990 --> 00:49:02,140

okay yes stay close we'll contact you

845

00:49:05,520 --> 00:49:04,000

later on we should ask you one last

846

00:49:06,990 --> 00:49:05,530

question okay so you try to get that

847

00:49:09,690 --> 00:49:07,000

Russian

848

00:49:12,390 --> 00:49:09,700

we were actually psychoanalyzed about

849

00:49:14,730 --> 00:49:12,400

six months ago the three of us okay I

850

00:49:17,390 --> 00:49:14,740

have another Ukraine by someone who's

851
00:49:20,730 --> 00:49:17,400
from the Ukraine yes as it turns out and

852
00:49:26,100 --> 00:49:20,740
she gave us all what she had a term for

853
00:49:27,690 --> 00:49:26,110
it you know you you I'll be labeled us

854
00:49:32,730 --> 00:49:27,700
she labeled us Cobra was supposed to be

855
00:49:34,320 --> 00:49:32,740
the sensitive time what can you tell who

856
00:49:37,320 --> 00:49:34,330
I was gonna thinking to tell of the

857
00:49:39,300 --> 00:49:37,330
three which one was she sorrows being

858
00:49:41,850 --> 00:49:39,310
mr. sensitive can you tell from our

859
00:49:56,850 --> 00:49:41,860
voices which one of us was labeled mr.

860
00:50:01,500 --> 00:49:56,860
sensitive thank you thanks for joining

861
00:50:03,900 --> 00:50:01,510
us okay and we'll we'll talk yeah oh

862
00:50:07,380 --> 00:50:03,910
wait before you go do you ever does she

863
00:50:08,850 --> 00:50:07,390

have a website no a link to the link to

864

00:50:13,470 --> 00:50:08,860

the book wake how can people buy the

865

00:50:23,700 --> 00:50:13,480

book okay and the name of the title once

866

00:50:25,500 --> 00:50:23,710

again 329 years awake 329 329 years

867

00:50:26,760 --> 00:50:25,510

awake I like that title yeah thanks and

868

00:50:29,520 --> 00:50:26,770

white good luck what then we'll talk to

869

00:50:31,830 --> 00:50:29,530

you soon okay we have to give her a

870

00:50:33,000 --> 00:50:31,840

round of applause come on excellent me

871

00:50:39,600 --> 00:50:33,010

thank you

872

00:50:40,830 --> 00:50:39,610

there she goes she couldn't leave why

873

00:50:43,890 --> 00:50:40,840

don't we take a commercial break now she

874

00:50:46,410 --> 00:50:43,900

knew we had to take an ad see she's good

875

00:50:48,090 --> 00:50:46,420

do you prep to run all right good why do

876
00:50:50,610 --> 00:50:48,100
we take commercial break now and we'll

877
00:50:51,960 --> 00:50:50,620
be back hopefully with switcheroo okay

878
00:50:53,460 --> 00:50:51,970
listen you to make Bloomie's mill tracks

879
00:50:56,940 --> 00:50:53,470
I'll show you on the distant Thunder

880
00:51:02,730 --> 00:50:56,950
radio network we'll be right back after

881
00:51:04,560 --> 00:51:02,740
this hey welcome back every once you

882
00:51:07,140 --> 00:51:04,570
make money no tracks our show here on

883
00:51:09,420 --> 00:51:07,150
the distant Thunder radio network this

884
00:51:12,390 --> 00:51:09,430
is Mack no honey in the studio with us

885
00:51:18,240 --> 00:51:12,400
is okay I hope you're sitting girls why

886
00:51:23,820 --> 00:51:22,020
yes you know a secret mission for months

887
00:51:26,310 --> 00:51:23,830
so on itself yeah hi

888
00:51:27,900 --> 00:51:26,320

also in not in the house in the virtual

889

00:51:29,609 --> 00:51:27,910

house with us tonight they call me Coco

890

00:51:31,800 --> 00:51:29,619

on the streets command a Kober up the

891

00:51:36,210 --> 00:51:31,810

end the undisclosed location good

892

00:51:38,099 --> 00:51:36,220

evening gentlemen and also joining us

893

00:51:40,260 --> 00:51:38,109

from the disclosed location up there in

894

00:51:42,750 --> 00:51:40,270

the bowl of flakes battle creek michigan

895

00:51:44,160 --> 00:51:42,760

with the homo Cheerios and about 40

896

00:51:47,150 --> 00:51:44,170

other different kind of cereals no I

897

00:51:50,730 --> 00:51:47,160

love this cereal switcheroo

898

00:51:52,980 --> 00:51:50,740

switchblade Steve wood how's it going

899

00:51:54,540 --> 00:51:52,990

guy there you go he sounds up tonight

900

00:51:58,650 --> 00:51:54,550

how you do battle creek become the

901
00:52:04,440 --> 00:51:58,660
serial capital of the world you know you

902
00:52:08,190 --> 00:52:04,450
go way back some kind of wellness that

903
00:52:09,540 --> 00:52:08,200
camp for late 1800s and people went

904
00:52:11,280 --> 00:52:09,550
there and you know we can cold cereal

905
00:52:12,870 --> 00:52:11,290
and got all kinds of weird enemas we

906
00:52:15,720 --> 00:52:12,880
went there we went there it's called

907
00:52:16,260 --> 00:52:15,730
Montauk know that's in New York that's

908
00:52:18,690 --> 00:52:16,270
in New York

909
00:52:21,150 --> 00:52:18,700
it's called we went it's on a mountain

910
00:52:23,820 --> 00:52:21,160
and it right near rum well sort of near

911
00:52:25,890 --> 00:52:23,830
Woodstock in the arc okay and mohawk

912
00:52:27,839 --> 00:52:25,900
Mohawk is the name of it it's an

913
00:52:29,490 --> 00:52:27,849

incredible place which is the place that

914

00:52:32,339 --> 00:52:29,500

helped you with pneumonia and stuff like

915

00:52:34,020 --> 00:52:32,349

that you know it caused a consumption

916

00:52:37,290 --> 00:52:34,030

back then yeah tuberculosis tuberculosis

917

00:52:41,130 --> 00:52:37,300

it's a fresh health retreat you know but

918

00:52:42,570 --> 00:52:41,140

now it's just it's a hotel and in it so

919

00:52:44,760 --> 00:52:42,580

it's a straight very strange place

920

00:52:46,079 --> 00:52:44,770

you're up in a month and and I guess

921

00:52:47,910 --> 00:52:46,089

there was a crater there one point

922

00:52:51,570 --> 00:52:47,920

there's a massive lake like a boat you

923

00:52:53,940 --> 00:52:51,580

know 4,000 feet outside breathing the

924

00:52:55,380 --> 00:52:53,950

air yeah Kellogg started it was his way

925

00:52:58,349 --> 00:52:55,390

of saying okay here's how you better you

926
00:52:59,700 --> 00:52:58,359
eat healthy it wasn't new he wasn't in

927
00:53:06,060 --> 00:52:59,710
the industry at the time when he did

928
00:53:08,250 --> 00:53:06,070
that yeah right yeah yeah yeah I think

929
00:53:09,450 --> 00:53:08,260
that really predated something else I

930
00:53:10,109 --> 00:53:09,460
had heard that he did I don't know if

931
00:53:12,810 --> 00:53:10,119
it's true or not

932
00:53:14,970 --> 00:53:12,820
I think it's true I don't know why but

933
00:53:15,560 --> 00:53:14,980
he imported black squirrels into this

934
00:53:19,550 --> 00:53:15,570
area

935
00:53:22,109 --> 00:53:19,560
good for him I love those black

936
00:53:23,730 --> 00:53:22,119
squirrels where you guys are they're

937
00:53:30,390 --> 00:53:23,740
great yeah but in California they're

938
00:53:31,620 --> 00:53:30,400

black yeah but out here they're black

939

00:53:33,600 --> 00:53:31,630

squirrels Wow

940

00:53:35,520 --> 00:53:33,610

and occasionally you'll run into a gray

941

00:53:36,180 --> 00:53:35,530

one and they don't they don't seem to

942

00:53:39,000 --> 00:53:36,190

get along

943

00:53:47,790 --> 00:53:39,010

see white black how coming in Olivia

944

00:53:52,320 --> 00:53:47,800

cookie I can't think alright another

945

00:53:56,600 --> 00:53:52,330

equip from the Mac well I'm glad I asked

946

00:53:59,220 --> 00:53:56,610

anyway so switch anything new up there

947

00:54:01,590 --> 00:53:59,230

uh well we've got a little bit of a

948

00:54:02,190 --> 00:54:01,600

break with the cold I think I'm getting

949

00:54:04,530 --> 00:54:02,200

a cold

950

00:54:08,250 --> 00:54:04,540

oh good we we lost a guy at work because

951
00:54:11,130 --> 00:54:08,260
he's going to go surgery for a hernia

952
00:54:12,420 --> 00:54:11,140
alright okay alright and I'm very happy

953
00:54:16,170 --> 00:54:12,430
that I don't think they're gonna replace

954
00:54:17,520 --> 00:54:16,180
it with anybody so that's gonna fun Wow

955
00:54:20,400 --> 00:54:17,530
but you know P I don't complain about

956
00:54:24,530 --> 00:54:20,410
nothing how do you say in pig latin

957
00:54:31,340 --> 00:54:27,630
anyway so you're gonna talk to us

958
00:54:33,900 --> 00:54:31,350
tonight about about a about some

959
00:54:36,930 --> 00:54:33,910
disappearing ships mysterious a

960
00:54:41,580 --> 00:54:36,940
mysterious area and we're gonna start

961
00:54:44,790 --> 00:54:41,590
out with the lumber scooter the bavaria

962
00:54:46,500 --> 00:54:44,800
now this is May 28th 1889 okay and a

963
00:54:46,800 --> 00:54:46,510

limit T's a location for just a little

964

00:54:50,780 --> 00:54:46,810

bit

965

00:54:56,630 --> 00:54:50,790

mm-hmm okay that's cool Ortiz that's not

966

00:55:02,040 --> 00:54:59,250

calm down clover go ahead please

967

00:55:05,490 --> 00:55:02,050

switching ship's crew is just a small

968

00:55:08,190 --> 00:55:05,500

barge eight men now there is some kind

969

00:55:10,290 --> 00:55:08,200

of a steam barge that is pulling that

970

00:55:12,330 --> 00:55:10,300

it's a little bit of a storm and they're

971

00:55:17,880 --> 00:55:12,340

pulling they're towing the barb area and

972

00:55:19,410 --> 00:55:17,890

two other lumber schooners okay so I

973

00:55:20,730 --> 00:55:19,420

can't really know this is this with the

974

00:55:23,370 --> 00:55:20,740

olden days so I don't really know what

975

00:55:25,980 --> 00:55:23,380

these things look like but what happened

976

00:55:28,230 --> 00:55:25,990

is that that's right I was you know just

977

00:55:29,430 --> 00:55:28,240

after the spanish-american war the

978

00:55:31,650 --> 00:55:29,440

towline snapped

979

00:55:33,870 --> 00:55:31,660

yes and this is about 6:00 a.m. in the

980

00:55:36,330 --> 00:55:33,880

morning the bar very is in them is the

981

00:55:39,750 --> 00:55:36,340

middle vessel so it was trailing behind

982

00:55:45,150 --> 00:55:39,760

the Valenti oh and behind it was the

983

00:55:48,000 --> 00:55:45,160

Norway now now the Bavaria Rams the 1b

984

00:55:50,279 --> 00:55:48,010

Hynde at the norway and it wasn't too

985

00:55:52,650 --> 00:55:50,289

bad I mean it wasn't it wasn't

986

00:55:55,349 --> 00:55:52,660

irreparable damage okay and Norway was

987

00:55:57,420 --> 00:55:55,359

able to recover and it it let you know

988

00:55:58,020 --> 00:55:57,430

gets gets off to a nearby island and

989

00:56:02,190 --> 00:55:58,030

that's fine

990

00:56:04,559 --> 00:56:02,200

and so the Bavaria was you could tell it

991

00:56:07,559 --> 00:56:04,569

was broken was taking on some water so

992

00:56:10,230 --> 00:56:07,569

the the head head ship there was kind of

993

00:56:12,059 --> 00:56:10,240

concerned but they didn't see it didn't

994

00:56:14,279 --> 00:56:12,069

seem like they were reacting I'm or the

995

00:56:15,900 --> 00:56:14,289

sale was not raised the ship was not

996

00:56:17,819 --> 00:56:15,910

turned okay and as they tried to

997

00:56:19,049 --> 00:56:17,829

approach it they were gonna try and get

998

00:56:21,089 --> 00:56:19,059

another line out there it just kind of

999

00:56:21,599 --> 00:56:21,099

disappeared off into the distance for a

1000

00:56:23,220 --> 00:56:21,609

while

1001
00:56:26,460 --> 00:56:23,230
when they finally caught up to what they

1002
00:56:30,029 --> 00:56:26,470
found it was it had gone a ground to

1003
00:56:33,779 --> 00:56:30,039
another small island okay and so when

1004
00:56:35,579 --> 00:56:33,789
they got up to it they found that there

1005
00:56:36,690 --> 00:56:35,589
were absolutely no signs of life there's

1006
00:56:39,089 --> 00:56:36,700
nobody on board

1007
00:56:40,559 --> 00:56:39,099
Wow they they they they set up a small

1008
00:56:43,170 --> 00:56:40,569
boat to investigate they climbed on

1009
00:56:46,190 --> 00:56:43,180
board everything seemed to be in good

1010
00:56:49,039 --> 00:56:46,200
condition like I say nobody's on board

1011
00:56:51,480 --> 00:56:49,049
the captain's captain Marshalls

1012
00:56:53,190 --> 00:56:51,490
clothing is all on board like he was

1013
00:56:56,579 --> 00:56:53,200

expected to stay there right it was a

1014

00:56:58,980 --> 00:56:56,589

large amount of cash oh wow okay numbers

1015

00:57:01,710 --> 00:56:58,990

papers were there and it would be pretty

1016

00:57:04,079 --> 00:57:01,720

unlikely the captain would abandon his

1017

00:57:05,930 --> 00:57:04,089

ship right which wasn't really sinking

1018

00:57:09,180 --> 00:57:05,940

anyway he was having some trouble but

1019

00:57:11,430 --> 00:57:09,190

and with but the papers were all there

1020

00:57:12,779 --> 00:57:11,440

right so how many people are born again

1021

00:57:14,010 --> 00:57:12,789

reminds us it was just so only about

1022

00:57:16,920 --> 00:57:14,020

eight I don't think about eight people

1023

00:57:20,490 --> 00:57:16,930

all right so they short distance away

1024

00:57:22,140 --> 00:57:20,500

they found the life boat capsized but

1025

00:57:24,589 --> 00:57:22,150

they only searched the area for quite

1026
00:57:28,920 --> 00:57:24,599
some time they never found any bodies

1027
00:57:31,500 --> 00:57:28,930
now one might think this was the the

1028
00:57:33,359 --> 00:57:31,510
Mary Celeste right now or something that

1029
00:57:35,940 --> 00:57:33,369
occurred in the Bermuda Triangle yes

1030
00:57:38,099 --> 00:57:35,950
right instead this area was only is less

1031
00:57:40,890 --> 00:57:38,109
than a hundred miles from Ontario from

1032
00:57:42,900 --> 00:57:40,900
Ottawa okay the capital of Canada yes

1033
00:57:46,710 --> 00:57:42,910
and it's kind of the east side of Lake

1034
00:57:49,079 --> 00:57:46,720
Ontario which some call the Ontario

1035
00:57:52,170 --> 00:57:49,089
triangle there you go it wasn't a

1036
00:57:54,269 --> 00:57:52,180
triangle one one yes go ahead another

1037
00:57:56,310 --> 00:57:54,279
yes another infamous triangle whether

1038
00:58:01,020 --> 00:57:56,320

it's a real triangle or not

1039

00:58:05,550 --> 00:58:01,030

and the the points in this imaginary

1040

00:58:08,579 --> 00:58:05,560

triangle or hypothesized triangle wolf

1041

00:58:10,170 --> 00:58:08,589

island Mexico Bay and Point Petrie for

1042

00:58:14,520 --> 00:58:10,180

those that want to get your maps out

1043

00:58:17,270 --> 00:58:14,530

it's about 875 square miles where more

1044

00:58:19,500 --> 00:58:17,280

than other ships lost in Ontario

1045

00:58:22,859 --> 00:58:19,510

two-thirds of them were lost in this

1046

00:58:24,359 --> 00:58:22,869

area okay so now of course part of the

1047

00:58:26,819 --> 00:58:24,369

reason it's it's obvious it's a very

1048

00:58:28,290 --> 00:58:26,829

high traffic area already at least it

1049

00:58:31,410 --> 00:58:28,300

was back in the old days and still is

1050

00:58:35,210 --> 00:58:31,420

apparently so some you know some of

1051
00:58:39,690 --> 00:58:35,220
these things aren't really mysteries but

1052
00:58:42,990 --> 00:58:39,700
apparently there's a this lake is as

1053
00:58:45,359 --> 00:58:43,000
deep as 800 feet but it also has a lot

1054
00:58:48,180 --> 00:58:45,369
of limestone shale rocks and so forth

1055
00:58:49,680 --> 00:58:48,190
that produce reefs unexpectedly I mean

1056
00:58:51,660 --> 00:58:49,690
though they rise all the way to the

1057
00:58:54,060 --> 00:58:51,670
surface and in areas that were very deep

1058
00:58:57,240 --> 00:58:54,070
and so a lot of ships succumb to this

1059
00:58:59,160 --> 00:58:57,250
kind of underwater terrain they said

1060
00:59:00,839 --> 00:58:59,170
they hit they hit the reef of limestone

1061
00:59:02,819 --> 00:59:00,849
yeah well just that there's a lot of

1062
00:59:05,040 --> 00:59:02,829
those a lot of areas apparently where

1063
00:59:07,650 --> 00:59:05,050

the reefs are very unexpected especially

1064

00:59:09,300 --> 00:59:07,660

in the old days right because of the the

1065

00:59:12,990 --> 00:59:09,310

limestone and the shale and so forth

1066

00:59:16,440 --> 00:59:13,000

right yeah okay now 1854

1067

00:59:21,900 --> 00:59:16,450

the SCOOTER Elinor Hamilton okay well

1068

00:59:23,300 --> 00:59:21,910

one needs to date her that's somebody

1069

00:59:26,190 --> 00:59:23,310

else okay

1070

00:59:28,260 --> 00:59:26,200

the crew had a premonition about their

1071

00:59:30,059 --> 00:59:28,270

upcoming voyage several of the crew the

1072

00:59:32,390 --> 00:59:30,069

captain said don't worry about it

1073

00:59:35,370 --> 00:59:32,400

the the Eleanor Hamilton is unsinkable

1074

00:59:38,490 --> 00:59:35,380

two days later was lost under a dark

1075

00:59:40,380 --> 00:59:38,500

moon I'm own list Knight was all hands

1076
00:59:43,290 --> 00:59:40,390
and all they found were bits and pieces

1077
00:59:45,329 --> 00:59:43,300
of the ship oh okay

1078
00:59:48,150 --> 00:59:45,339
1883 should listen to those premonitions

1079
00:59:50,460 --> 00:59:48,160
yes 1883 the Quinlin sailed out of a

1080
00:59:52,260 --> 00:59:50,470
sway go New York yes had a load of coal

1081
00:59:54,809 --> 00:59:52,270
on a route that would take them close to

1082
00:59:58,160 --> 00:59:54,819
this triangle now it's bad enough that

1083
01:00:01,319 --> 00:59:58,170
they encountered a mist and a heavy snow

1084
01:00:03,900 --> 01:00:01,329
the Hewson know there were some

1085
01:00:06,180 --> 01:00:03,910
survivors it's it's it's smashed

1086
01:00:07,800 --> 01:00:06,190
against the rocks on the shore but the

1087
01:00:09,630 --> 01:00:07,810
few survivors said something really

1088
01:00:12,839 --> 01:00:09,640

weird happened it said they

1089

01:00:15,509 --> 01:00:12,849

had been gripped by some odd attraction

1090

01:00:17,640 --> 01:00:15,519

the compass and they said was thrown off

1091

01:00:19,319 --> 01:00:17,650

that's the way they put it I don't want

1092

01:00:22,289 --> 01:00:19,329

to discuss out attraction so much but

1093

01:00:24,120 --> 01:00:22,299

anyway the compass was thrown off and

1094

01:00:26,039 --> 01:00:24,130

then they hit the rocks now this sounds

1095

01:00:28,200 --> 01:00:26,049

like a repeat of some of the weird stuff

1096

01:00:30,240 --> 01:00:28,210

that people have reported and the reader

1097

01:00:31,410 --> 01:00:30,250

in a triangle when I was these magnetic

1098

01:00:34,470 --> 01:00:31,420

anomalies and so forth

1099

01:00:36,569 --> 01:00:34,480

yeah now Hugh F Cochrane of the wrote a

1100

01:00:41,220 --> 01:00:36,579

book called gateway to oblivion

1101
01:00:44,519 --> 01:00:41,230
he claims now he talks about a project

1102
01:00:47,870 --> 01:00:44,529
magnet okay that the US Navy conducted

1103
01:00:51,059 --> 01:00:47,880
where they mapped magnetic anomalies

1104
01:00:53,640 --> 01:00:51,069
across stuff now there was also another

1105
01:00:54,539 --> 01:00:53,650
project magnet this is not we're not

1106
01:00:57,089 --> 01:00:54,549
talking about that

1107
01:00:58,710 --> 01:00:57,099
that took place in Canada to study UFOs

1108
01:01:01,109 --> 01:00:58,720
okay and I guess that was fairly

1109
01:01:02,759 --> 01:01:01,119
short-lived but now as this one I heat

1110
01:01:04,700 --> 01:01:02,769
conquering claims and I couldn't

1111
01:01:07,170 --> 01:01:04,710
couldn't verify this he said that they

1112
01:01:11,339 --> 01:01:07,180
progressive brings you flow a tree with

1113
01:01:14,039 --> 01:01:11,349

flow and RV rolls into a campground kids

1114

01:01:17,160 --> 01:01:14,049

in the back eat turkey jerky excessive

1115

01:01:19,920 --> 01:01:17,170

dad drives like a boss with 24/7 support

1116

01:01:21,630 --> 01:01:19,930

from progressive tomorrow it's off to

1117

01:01:24,720 --> 01:01:21,640

see the world's largest ball of twine

1118

01:01:28,470 --> 01:01:24,730

would have seen it last trip but dad mr.

1119

01:01:30,720 --> 01:01:28,480

song I get 24/7 help when you insure

1120

01:01:32,059 --> 01:01:30,730

your RV with progressive call 1-800

1121

01:01:34,079 --> 01:01:32,069

progressive visit progressive.com

1122

01:01:36,089 --> 01:01:34,089

progressive casualty insurance company

1123

01:01:38,249 --> 01:01:36,099

and affiliates under the study they

1124

01:01:41,279 --> 01:01:38,259

found six subterranean magnetic

1125

01:01:43,980 --> 01:01:41,289

anomalies in that area that Ontario

1126
01:01:47,430 --> 01:01:43,990
triangle which could be responsible for

1127
01:01:50,279 --> 01:01:47,440
throwing off compasses and so forth

1128
01:01:51,930 --> 01:01:50,289
right now let me just remind me Lake

1129
01:01:56,940 --> 01:01:51,940
Ontario does that board in New York

1130
01:02:01,170 --> 01:01:56,950
state that the one yeah it's got yeah go

1131
01:02:02,849 --> 01:02:01,180
over that way okay all right that's

1132
01:02:05,450 --> 01:02:02,859
where the canal yeah I thought the canal

1133
01:02:10,289 --> 01:02:05,460
gets in the okay I'm just trying to get

1134
01:02:13,589 --> 01:02:10,299
the easternmost Great Lake where was the

1135
01:02:17,789 --> 01:02:13,599
Edmund Fitzgerald my one superior well

1136
01:02:22,110 --> 01:02:17,799
Lake Superior okay alright you know is

1137
01:02:26,310 --> 01:02:22,120
this is this area so well known

1138
01:02:27,600 --> 01:02:26,320

people would actually seal around it yes

1139

01:02:29,490 --> 01:02:27,610

some people still around the Bermuda

1140

01:02:32,280 --> 01:02:29,500

Triangle someone told me once they try

1141

01:02:34,890 --> 01:02:32,290

to avoid sailing in it just because it's

1142

01:02:37,770 --> 01:02:34,900

more bad luck than anything else well I

1143

01:02:39,030 --> 01:02:37,780

haven't heard about the again the you

1144

01:02:41,040 --> 01:02:39,040

know when people start talking about

1145

01:02:42,990 --> 01:02:41,050

triangles no that's it gets to be a

1146

01:02:45,000 --> 01:02:43,000

little bit fanciful yes and if you

1147

01:02:46,890 --> 01:02:45,010

talking about the Bermuda Triangle I

1148

01:02:50,700 --> 01:02:46,900

we all have talked about Ivan Sanderson

1149

01:02:52,860 --> 01:02:50,710

before the the great British naturalist

1150

01:02:54,780 --> 01:02:52,870

and researcher into all things

1151

01:02:57,270 --> 01:02:54,790

unexplained UFOs and so forth

1152

01:02:59,820 --> 01:02:57,280

and he was for those that don't know he

1153

01:03:02,370 --> 01:02:59,830

kind of was on the map after he wrote

1154

01:03:02,940 --> 01:03:02,380

abominable snowman yes legend come to

1155

01:03:05,880 --> 01:03:02,950

life

1156

01:03:07,590 --> 01:03:05,890

yeah right well he did a great book he

1157

01:03:08,130 --> 01:03:07,600

did one called invisible residents and

1158

01:03:12,030 --> 01:03:08,140

one called

1159

01:03:13,530 --> 01:03:12,040

uninvited visitors and and there I think

1160

01:03:16,020 --> 01:03:13,540

it was invisible residents he discusses

1161

01:03:19,800 --> 01:03:16,030

the Bermuda Triangle and he plots the

1162

01:03:22,350 --> 01:03:19,810

the disappearances off the coast of

1163

01:03:25,020 --> 01:03:22,360

Florida and he found that it's more of a

1164

01:03:27,710 --> 01:03:25,030

shape of an ellipse kind of on a tilt

1165

01:03:30,030 --> 01:03:27,720

and then he found you know he did

1166

01:03:31,860 --> 01:03:30,040

plotted the disappearances in The

1167

01:03:34,560 --> 01:03:31,870

Devil's Triangle which is off the coast

1168

01:03:36,150 --> 01:03:34,570

of Japan and several other places and he

1169

01:03:38,430 --> 01:03:36,160

found that these things seem to be

1170

01:03:40,560 --> 01:03:38,440

spaced equally throughout the globe no

1171

01:03:43,140 --> 01:03:40,570

you can't really determine because

1172

01:03:45,360 --> 01:03:43,150

there's not enough air traffic to really

1173

01:03:47,220 --> 01:03:45,370

determine if there's a high level of

1174

01:03:48,900 --> 01:03:47,230

disappearances or whatever right but so

1175

01:03:52,260 --> 01:03:48,910

the triangle thing just maybe kind of

1176
01:03:53,820 --> 01:03:52,270
fanciful and you know some of the and

1177
01:03:56,430 --> 01:03:53,830
many of the things in the the so-called

1178
01:03:58,140 --> 01:03:56,440
Ontario triangle some of them sound a

1179
01:04:01,110 --> 01:03:58,150
little weird a little bit like Bermuda

1180
01:04:04,410 --> 01:04:01,120
but others are certainly you know that

1181
01:04:05,430 --> 01:04:04,420
the dangers of being at sea right is

1182
01:04:07,860 --> 01:04:05,440
nothing to take lightly

1183
01:04:09,930 --> 01:04:07,870
I mean let me just ask Coco a question

1184
01:04:11,580 --> 01:04:09,940
here have you ever thrown that yeah if

1185
01:04:20,400 --> 01:04:11,590
you have flown through the Bermuda

1186
01:04:22,560 --> 01:04:20,410
Triangle that Cobra had some pretty

1187
01:04:24,450 --> 01:04:22,570
strange occurrences up on the Great

1188
01:04:27,480 --> 01:04:24,460

Lakes in the area where this has talked

1189

01:04:28,890 --> 01:04:27,490

about rapid weather changes you know

1190

01:04:33,690 --> 01:04:28,900

classical things that are associated

1191

01:04:36,030 --> 01:04:33,700

with the Bermuda Triangle have occurred

1192

01:04:38,010 --> 01:04:36,040

up there in the great

1193

01:04:40,080 --> 01:04:38,020

lakes and lakes is a misnomer it's

1194

01:04:42,480 --> 01:04:40,090

really like an inland sea but I think

1195

01:04:44,520 --> 01:04:42,490

it's the largest freshwater deposit in

1196

01:04:46,500 --> 01:04:44,530

the world if I could Hudson Bay Hudson

1197

01:04:48,990 --> 01:04:46,510

Bay when you look at the map Hudson Bay

1198

01:04:52,470 --> 01:04:49,000

swallows those guys and we still got a

1199

01:04:53,820 --> 01:04:52,480

lot left over when you flew let's say

1200

01:04:55,380 --> 01:04:53,830

the first time you flew through the

1201
01:04:57,210 --> 01:04:55,390
Bermuda Triangle they just went out this

1202
01:04:59,790 --> 01:04:57,220
does it cross your mind that all you

1203
01:05:01,440 --> 01:04:59,800
being such a squared away guy does it

1204
01:05:04,830 --> 01:05:01,450
cross your mind at all that a man I'm

1205
01:05:07,020 --> 01:05:04,840
flying where everyone says yeah I'm the

1206
01:05:09,720 --> 01:05:07,030
skinwalker ranch and didn't realize it

1207
01:05:14,070 --> 01:05:09,730
until that night that I had gone through

1208
01:05:15,990 --> 01:05:14,080
there and I was kind of you know drunk I

1209
01:05:17,340 --> 01:05:16,000
was kind of bummed that I didn't pay

1210
01:05:19,440 --> 01:05:17,350
more attention and when I went out I

1211
01:05:21,870 --> 01:05:19,450
flew back over and kind of retraced it

1212
01:05:24,870 --> 01:05:21,880
and of course I was looking and saw a

1213
01:05:27,030 --> 01:05:24,880

lot of open territory okay but I I'm

1214

01:05:28,380 --> 01:05:27,040

convinced because I want the experience

1215

01:05:30,630 --> 01:05:28,390

or I'm open to it I'm not gonna have it

1216

01:05:33,390 --> 01:05:30,640

I'm the guy who goes and buys the snow

1217

01:05:34,980 --> 01:05:33,400

blower and it doesn't snow you can't go

1218

01:05:36,960 --> 01:05:34,990

looking for UFOs that's one thing you

1219

01:05:42,090 --> 01:05:36,970

can't go looking for that you know they

1220

01:05:44,220 --> 01:05:42,100

appear you know let's say you know well

1221

01:05:47,580 --> 01:05:44,230

switch that's a fascinating story there

1222

01:05:49,560 --> 01:05:47,590

about the Great Lakes Ontario you know I

1223

01:05:54,090 --> 01:05:49,570

was also in the Bermuda Triangle on a

1224

01:05:57,630 --> 01:05:54,100

submarine really okay in the Navy we

1225

01:06:00,120 --> 01:05:57,640

went through several times and the the

1226

01:06:01,290 --> 01:06:00,130

sonar checks told me some weird stories

1227

01:06:03,120 --> 01:06:01,300

now keep in mind

1228

01:06:12,350 --> 01:06:03,130

sailors are some of the biggest be

1229

01:06:18,990 --> 01:06:16,980

bosons mates maybe Wow watch well if

1230

01:06:21,990 --> 01:06:19,000

you're on watch maybe my tell story okay

1231

01:06:25,590 --> 01:06:22,000

when happen to the movement icebergs I

1232

01:06:27,540 --> 01:06:25,600

had well they told me that whenever they

1233

01:06:30,240 --> 01:06:27,550

that they heard would hear now of course

1234

01:06:32,520 --> 01:06:30,250

these guys are trained to hear what they

1235

01:06:35,510 --> 01:06:32,530

call you know biologics yes various

1236

01:06:40,910 --> 01:06:35,520

kinds I was trained in that so forth yep

1237

01:06:45,720 --> 01:06:42,570

torpedo dead ahead

1238

01:06:48,080 --> 01:06:45,730

yeah which way is it going just closing

1239

01:06:52,230 --> 01:06:50,370

actually they did share one once but I

1240

01:06:54,180 --> 01:06:52,240

wasn't on board at the time they thought

1241

01:06:56,550 --> 01:06:54,190

they did okay so these guys said to you

1242

01:06:58,110 --> 01:06:56,560

what that they heard penalty area

1243

01:06:59,580 --> 01:06:58,120

triangle they were here a couple things

1244

01:07:02,070 --> 01:06:59,590

that they never heard and it would not

1245

01:07:04,680 --> 01:07:02,080

hear elsewhere and one was kind of a

1246

01:07:06,330 --> 01:07:04,690

sound of like a woman screaming and one

1247

01:07:08,940 --> 01:07:06,340

might think that might be some kind of a

1248

01:07:11,100 --> 01:07:08,950

you know biologic marine animal or

1249

01:07:13,530 --> 01:07:11,110

whatever you know but have you want

1250

01:07:15,150 --> 01:07:13,540

tribes Yanis up there but again they're

1251

01:07:17,280 --> 01:07:15,160

very well versed in this stuff and they

1252

01:07:19,920 --> 01:07:17,290

couldn't really pin the other thing was

1253

01:07:24,410 --> 01:07:19,930

they would hear something like okay take

1254

01:07:30,740 --> 01:07:26,580

chimes in here with the mood lighting

1255

01:07:32,910 --> 01:07:30,750

you can have schools that are in charge

1256

01:07:35,010 --> 01:07:32,920

you know some kind of wind chime I don't

1257

01:07:36,420 --> 01:07:35,020

know but anyway hey one of the guys who

1258

01:07:38,610 --> 01:07:36,430

was a Langer Bruner who was pretty

1259

01:07:40,380 --> 01:07:38,620

pretty straight shooter he told me this

1260

01:07:41,730 --> 01:07:40,390

with a straight face so maybe they

1261

01:07:43,770 --> 01:07:41,740

really did hear some of this weird stuff

1262

01:07:45,890 --> 01:07:43,780

just in the area of their Bermuda

1263

01:07:49,170 --> 01:07:45,900

Triangle know the difference between a

1264

01:07:51,720 --> 01:07:49,180

sea story and a fairy tale right oh oh

1265

01:07:59,910 --> 01:07:51,730

what's her head what's a fairy tale

1266

01:08:02,370 --> 01:07:59,920

starts out once upon a time and a sea

1267

01:08:04,500 --> 01:08:02,380

story starts out no bad word that begins

1268

01:08:16,440 --> 01:08:04,510

with S and ends in T this really

1269

01:08:22,260 --> 01:08:16,450

happened put seats good to know

1270

01:08:23,910 --> 01:08:22,270

so um okay okay okay but when you let me

1271

01:08:26,099 --> 01:08:23,920

ask you this when you went through the

1272

01:08:31,800 --> 01:08:26,109

Bermuda Triangle in a summary we had

1273

01:08:33,570 --> 01:08:31,810

submerged sometimes things come on Cobra

1274

01:08:37,740 --> 01:08:33,580

that we submerge now sometimes they run

1275

01:08:39,750 --> 01:08:37,750

on the surface they're wise okay see and

1276

01:08:43,170 --> 01:08:39,760

once once in a while they wait

1277

01:08:45,559 --> 01:08:43,180

fundamental right pizza and spaghetti on

1278

01:08:49,579 --> 01:08:45,569

top of the sub we got have got a break

1279

01:08:51,930 --> 01:08:49,589

we're up there you know we just kind of

1280

01:08:52,950 --> 01:08:51,940

circus for a while a couple times we

1281

01:08:55,140 --> 01:08:52,960

actually out in the middle of nowhere

1282

01:08:56,730 --> 01:08:55,150

would have a swim call oh really yeah

1283

01:08:58,740 --> 01:08:56,740

yeah they come up and the songs were

1284

01:09:00,430 --> 01:08:58,750

calm enough that they wouldn't wash off

1285

01:09:02,289 --> 01:09:00,440

for the open patch

1286

01:09:03,340 --> 01:09:02,299

right so we did that a couple times so

1287

01:09:06,939 --> 01:09:03,350

when you when you went through the

1288

01:09:10,930 --> 01:09:06,949

Bermuda Triangle submerged did it cross

1289

01:09:12,610 --> 01:09:10,940

your mind at all here I go well a little

1290

01:09:15,849 --> 01:09:12,620

bit because it hadn't it wasn't too uh

1291

01:09:18,309 --> 01:09:15,859

oh well I guess back in 68

1292

01:09:20,860 --> 01:09:18,319

the Scorpion disappeared yes right yeah

1293

01:09:22,300 --> 01:09:20,870

and that was of course they made a big

1294

01:09:23,470 --> 01:09:22,310

deal about it disappearing in the

1295

01:09:25,059 --> 01:09:23,480

Bermuda Triangle until they actually

1296

01:09:28,300 --> 01:09:25,069

found the wreckage right you know that

1297

01:09:30,939 --> 01:09:28,310

the chief of my boat was on the scorpion

1298

01:09:33,459 --> 01:09:30,949

and when they when they are in Europe he

1299

01:09:35,200 --> 01:09:33,469

and two other guys he got off for

1300

01:09:37,780 --> 01:09:35,210

emergency leave because of his wife and

1301

01:09:41,019 --> 01:09:37,790

I think another guy had an emergency and

1302

01:09:42,939 --> 01:09:41,029

another guy had just some leave time so

1303

01:09:46,660 --> 01:09:42,949

he took a hit in Europe Wow

1304

01:09:48,189 --> 01:09:46,670

and so when he got back his boat I

1305

01:09:52,420 --> 01:09:48,199

shouldn't tell people I forget when

1306

01:09:55,510 --> 01:09:52,430

there was in 1989 maybe 60 60 really

1307

01:09:57,120 --> 01:09:55,520

yeah that one go I mean see that a

1308

01:09:59,880 --> 01:09:57,130

number of people believe that the

1309

01:10:02,530 --> 01:09:59,890

Russians actually picked that out as

1310

01:10:04,630 --> 01:10:02,540

payback for us taking one there's oh

1311

01:10:06,760 --> 01:10:04,640

right I mean the story basically is the

1312

01:10:09,670 --> 01:10:06,770

USS scorpion nuclear sub coming home

1313

01:10:11,260 --> 01:10:09,680

from a tour in Europe yeah somewhere

1314

01:10:13,060 --> 01:10:11,270

they would have been way out of the

1315

01:10:16,090 --> 01:10:13,070

Commuter triangle somewhere in the area

1316

01:10:19,030 --> 01:10:16,100

that we mean a triangle mid mid-atlantic

1317

01:10:20,920 --> 01:10:19,040

and it just boom was gone and there's

1318

01:10:22,870 --> 01:10:20,930

been a lot of theories or one as copper

1319

01:10:25,090 --> 01:10:22,880

said that the russians sank another one

1320

01:10:26,680 --> 01:10:25,100

said that they mistakenly fired one of

1321

01:10:28,570 --> 01:10:26,690

their torpedoes and it came around and

1322

01:10:31,840 --> 01:10:28,580

sank the ship because the homing device

1323

01:10:34,570 --> 01:10:31,850

was not right but it just disappeared

1324

01:10:36,160 --> 01:10:34,580

and there had been a Russian summering

1325

01:10:37,540 --> 01:10:36,170

that had just disappeared like two years

1326

01:10:40,810 --> 01:10:37,550

before so I think a lot of people just

1327

01:10:43,270 --> 01:10:40,820

have another one might be a little more

1328

01:10:45,340 --> 01:10:43,280

plausible that the ship that we had a

1329

01:10:47,050 --> 01:10:45,350

battery onboard as a backup you know

1330

01:10:48,939 --> 01:10:47,060

when your reactor scrambled shuts down

1331

01:10:50,709 --> 01:10:48,949

you got to have power and you're not

1332

01:10:52,720 --> 01:10:50,719

gonna you know you can't sit put the

1333

01:10:54,400 --> 01:10:52,730

diesel up when you're underwater right

1334

01:10:55,930 --> 01:10:54,410

so you used the ship's battery and these

1335

01:10:58,510 --> 01:10:55,940

things are huge it was like a hundred

1336

01:11:00,370 --> 01:10:58,520

and twenty four individual cells each

1337

01:11:03,400 --> 01:11:00,380

cell about a foot by a foot by four foot

1338

01:11:05,500 --> 01:11:03,410

feet deep okay so the I guess they were

1339

01:11:07,990 --> 01:11:05,510

having some trouble with it and when you

1340

01:11:10,930 --> 01:11:08,000

charged the battery your your biggest

1341

01:11:12,490 --> 01:11:10,940

concern is hydrogen formation okay and

1342

01:11:13,450 --> 01:11:12,500

you get you to get too much of that and

1343

01:11:17,709 --> 01:11:13,460

it's you know to be

1344

01:11:19,390 --> 01:11:17,719

blouson so that I used to be I used to

1345

01:11:22,690 --> 01:11:19,400

be the battery charging electrician

1346

01:11:23,860 --> 01:11:22,700

forward Wow was a nice siemens I wasn't

1347

01:11:25,870 --> 01:11:23,870

it wasn't the actual guy that did the

1348

01:11:28,450 --> 01:11:25,880

charge but I was the guy that went

1349

01:11:30,190 --> 01:11:28,460

around you know checking the ventilation

1350

01:11:34,990 --> 01:11:30,200

and making sure the hydrogen didn't get

1351
01:11:42,280 --> 01:11:35,000
past what was it 1.5 percent the canary

1352
01:11:43,930 --> 01:11:42,290
on ship if Steve Jobs dead but that was

1353
01:11:46,959 --> 01:11:43,940
that was could be deadly

1354
01:11:49,000 --> 01:11:46,969
so it's possible that they had a faulty

1355
01:11:52,360 --> 01:11:49,010
battery that blew and boy if that thing

1356
01:11:55,240 --> 01:11:52,370
blows up on the sub yeah but weren't

1357
01:11:56,890 --> 01:11:55,250
they nuclear-powered Sims yes but to see

1358
01:11:58,570 --> 01:11:56,900
sometimes the reactor would shut down

1359
01:12:01,060 --> 01:11:58,580
for whatever reason okay it's like we

1360
01:12:03,400 --> 01:12:01,070
had had to have a source of power and

1361
01:12:06,010 --> 01:12:03,410
you're in on batteries even then well

1362
01:12:08,890 --> 01:12:06,020
just was just for that that particular

1363
01:12:11,470 --> 01:12:08,900

instance you mean in this diesel engines

1364

01:12:13,150 --> 01:12:11,480

and these nuclear subs - there's a

1365

01:12:15,910 --> 01:12:13,160

diesel that you can you can use on the

1366

01:12:18,160 --> 01:12:15,920

surface they haul around that diesel

1367

01:12:22,120 --> 01:12:18,170

engine of those things they fill it up

1368

01:12:23,560 --> 01:12:22,130

with Sunoco oh really I just did I'm

1369

01:12:26,650 --> 01:12:23,570

just kind of amazed that you would you

1370

01:12:28,630 --> 01:12:26,660

know all somebody around them all

1371

01:12:29,830 --> 01:12:28,640

different kinds whatever you just had to

1372

01:12:32,440 --> 01:12:29,840

have a lot of different power sources

1373

01:12:36,430 --> 01:12:32,450

you had your steam from the reactor

1374

01:12:37,180 --> 01:12:36,440

would what power the the turbines right

1375

01:12:39,490 --> 01:12:37,190

right Andy

1376
01:12:41,380 --> 01:12:39,500
given your AC and then your they would

1377
01:12:42,910 --> 01:12:41,390
power your motor generator sets would

1378
01:12:45,250 --> 01:12:42,920
give you your DC and that would be

1379
01:12:47,020 --> 01:12:45,260
connected to the battery bus why won't

1380
01:12:50,950 --> 01:12:47,030
you think him all this down I am they

1381
01:12:52,780 --> 01:12:50,960
had it they had an interesting signature

1382
01:12:56,110 --> 01:12:52,790
underwater that which is what we learned

1383
01:12:59,620 --> 01:12:56,120
how to read is the various frequencies

1384
01:13:02,620 --> 01:12:59,630
that were emanated from props motors oh

1385
01:13:05,110 --> 01:13:02,630
yeah case it DS No - sounds sounds like

1386
01:13:07,950 --> 01:13:05,120
that type of thing well yeah certain

1387
01:13:10,600 --> 01:13:07,960
extent that each each boat had a

1388
01:13:12,550 --> 01:13:10,610

distinct unique signature that's why

1389

01:13:14,830 --> 01:13:12,560

even within classes within

1390

01:13:16,870 --> 01:13:14,840

models within classes and they would

1391

01:13:18,520 --> 01:13:16,880

school you guys yeah it was supposed to

1392

01:13:20,320 --> 01:13:18,530

be secret information you couldn't have

1393

01:13:23,350 --> 01:13:20,330

the booklet I mean you you learned with

1394

01:13:25,840 --> 01:13:23,360

the book but the book was locked up in a

1395

01:13:27,009 --> 01:13:25,850

safe right and you had to stand watch

1396

01:13:29,680 --> 01:13:27,019

without the book

1397

01:13:31,169 --> 01:13:29,690

and take note of every signature you saw

1398

01:13:33,879 --> 01:13:31,179

put it all together and see what kind of

1399

01:13:35,410 --> 01:13:33,889

ship it was whether it was not

1400

01:13:38,410 --> 01:13:35,420

foreigners you know why don't they just

1401

01:13:39,970 --> 01:13:38,420

give you the book well because Sakura do

1402

01:13:41,649 --> 01:13:39,980

you mean this is the closest I got to

1403

01:13:43,540 --> 01:13:41,659

real warfare was like you know you're

1404

01:13:45,489 --> 01:13:43,550

doing drills out there in the ocean at

1405

01:13:47,439 --> 01:13:45,499

least and they didn't trust you in Gitmo

1406

01:13:48,879 --> 01:13:47,449

get them over tracking subs at all times

1407

01:13:50,439 --> 01:13:48,889

okay so a plenty of experience but

1408

01:13:52,870 --> 01:13:50,449

they're mostly either NATO ships

1409

01:13:55,209 --> 01:13:52,880

American ships or a couple of Russian

1410

01:13:56,319 --> 01:13:55,219

things because I read that the yeah okay

1411

01:13:58,569 --> 01:13:56,329

this is knows awhile ago

1412

01:14:00,069 --> 01:13:58,579

yeah it was but I read you know recently

1413

01:14:04,589 --> 01:14:00,079

the past few years that the Navy has

1414

01:14:07,750 --> 01:14:04,599

chronicled individual whales they know

1415

01:14:10,600 --> 01:14:07,760

where they are and not the hit because

1416

01:14:13,390 --> 01:14:10,610

they make a city change in that Mack yes

1417

01:14:16,509 --> 01:14:13,400

AD Mack is that now they have the

1418

01:14:19,959 --> 01:14:16,519

technology to code that in a computer

1419

01:14:21,700 --> 01:14:19,969

yeah and they had the algorithm digital

1420

01:14:23,259 --> 01:14:21,710

signal they store it goes into a major

1421

01:14:25,870 --> 01:14:23,269

database it goes out to all the other

1422

01:14:27,819 --> 01:14:25,880

subs right and then a lot of times they

1423

01:14:30,459 --> 01:14:27,829

will don't back that identification up

1424

01:14:32,259 --> 01:14:30,469

with another source of Intel to to get

1425

01:14:35,069 --> 01:14:32,269

it matched up so they know that the sub

1426

01:14:37,270 --> 01:14:35,079

left on this day or something like that

1427

01:14:42,100 --> 01:14:37,280

that's the guy like me would be obsolete

1428

01:14:48,609 --> 01:14:42,110

was spreading out called ten points they

1429

01:14:50,439 --> 01:14:48,619

use a digital coding yeah yes you saw

1430

01:14:52,689 --> 01:14:50,449

lines printed on a piece of paper and

1431

01:14:54,640 --> 01:14:52,699

the separation between the lines and the

1432

01:14:57,160 --> 01:14:54,650

frequency of the lines themselves how

1433

01:14:58,830 --> 01:14:57,170

often they were in the intensity of the

1434

01:15:01,390 --> 01:14:58,840

lines and these other lines in between

1435

01:15:03,549 --> 01:15:01,400

denoted what the heck the thing was that

1436

01:15:05,529 --> 01:15:03,559

you were listening to yeah right let me

1437

01:15:07,629 --> 01:15:05,539

ask Steve because they would be the one

1438

01:15:09,009 --> 01:15:07,639

who knows this if you ever heard of this

1439

01:15:11,799 --> 01:15:09,019

thing they detected

1440

01:15:14,410 --> 01:15:11,809

I don't know when back in the eighties

1441

01:15:17,049 --> 01:15:14,420

seventies this enormous sound that they

1442

01:15:18,759 --> 01:15:17,059

detected to myself I mean really

1443

01:15:20,500 --> 01:15:18,769

southern part of the Pacific ever hear

1444

01:15:24,489 --> 01:15:20,510

that it's called the grunt or something

1445

01:15:26,950 --> 01:15:24,499

yeah they called it but yeah they never

1446

01:15:28,390 --> 01:15:26,960

I don't think they ever satisfactorily

1447

01:15:30,970 --> 01:15:28,400

explained it they came up with a couple

1448

01:15:34,089 --> 01:15:30,980

of half-baked explanations right but the

1449

01:15:36,129 --> 01:15:34,099

decibel equivalent you know was was a

1450

01:15:36,400 --> 01:15:36,139

blue chip a blue cheer was a hot you

1451

01:15:38,080 --> 01:15:36,410

know

1452

01:15:39,790 --> 01:15:38,090

the hottest rock being there 150

1453

01:15:42,790 --> 01:15:39,800

decibels something right something like

1454

01:15:44,350 --> 01:15:42,800

that then maybe the who was yeah yeah I

1455

01:15:46,180 --> 01:15:44,360

might have the numbers wrong they were

1456

01:15:48,490 --> 01:15:46,190

this thing was like in the millions of

1457

01:15:51,100 --> 01:15:48,500

decibels under the water some way down

1458

01:15:53,890 --> 01:15:51,110

off the western coast of South America

1459

01:15:55,120 --> 01:15:53,900

and know that no one is in a million

1460

01:15:57,160 --> 01:15:55,130

year in you know and all this time I

1461

01:15:59,530 --> 01:15:57,170

should say no one's come up for an

1462

01:16:01,720 --> 01:15:59,540

explanation frog it's it's not it was so

1463

01:16:03,940 --> 01:16:01,730

loud it could not be something that was

1464

01:16:05,620 --> 01:16:03,950

made man we made and it was only like

1465

01:16:07,390 --> 01:16:05,630

the signature of nuclear bomb Israel

1466

01:16:15,130 --> 01:16:07,400

like a fraction of what it was you know

1467

01:16:18,010 --> 01:16:15,140

so yeah so well okay switcher Reno so um

1468

01:16:20,710 --> 01:16:18,020

is that it from Lake Ontario well I do

1469

01:16:28,260 --> 01:16:20,720

have a few more give a monster the new

1470

01:16:33,460 --> 01:16:31,060

just about every Lake Lake Champlain has

1471

01:16:35,860 --> 01:16:33,470

one champion yes sure oh yeah champ and

1472

01:16:37,980 --> 01:16:35,870

they're they're plentiful there that's

1473

01:16:40,360 --> 01:16:37,990

you know that's the kind of thing where

1474

01:16:42,520 --> 01:16:40,370

remember we talked about FW holiday

1475

01:16:44,380 --> 01:16:42,530

before the guy that did research into

1476

01:16:46,060 --> 01:16:44,390

Loch Ness yes and he discovered that

1477

01:16:47,410 --> 01:16:46,070

these these creatures these water

1478

01:16:49,870 --> 01:16:47,420

creatures are all over the place

1479

01:16:52,720 --> 01:16:49,880

and he found that they'd be in sometimes

1480

01:16:54,580 --> 01:16:52,730

very small lakes and reliable people

1481

01:16:57,640 --> 01:16:54,590

would see them you know the same general

1482

01:16:59,710 --> 01:16:57,650

type of description with the long neck

1483

01:17:02,920 --> 01:16:59,720

and the and the you know several humps

1484

01:17:04,960 --> 01:17:02,930

on the back right and but he found that

1485

01:17:06,640 --> 01:17:04,970

a lot of these lakes were way too small

1486

01:17:08,980 --> 01:17:06,650

they didn't have much of a fish

1487

01:17:10,810 --> 01:17:08,990

population that could conceivably hold

1488

01:17:13,720 --> 01:17:10,820

you know support one of these creatures

1489

01:17:16,030 --> 01:17:13,730

right less much less a colony that

1490

01:17:17,170 --> 01:17:16,040

wouldn't you know yeah right so that's a

1491

01:17:18,640 --> 01:17:17,180

little but we talked about that before

1492

01:17:20,740 --> 01:17:18,650

but that's one of the things that led

1493

01:17:23,440 --> 01:17:20,750

him to believe that there was something

1494

01:17:25,960 --> 01:17:23,450

almost supernatural about some of these

1495

01:17:28,180 --> 01:17:25,970

events although I'm quite sure that

1496

01:17:29,230 --> 01:17:28,190

there are some aquatic creatures out

1497

01:17:30,910 --> 01:17:29,240

there that simply haven't been

1498

01:17:33,580 --> 01:17:30,920

documented right yeah well they pulled a

1499

01:17:35,110 --> 01:17:33,590

prehistoric fish before I had that one

1500

01:17:37,030 --> 01:17:35,120

that begins at a P and he can't say his

1501

01:17:39,220 --> 01:17:37,040

name you know sound caught it in like

1502

01:17:41,830 --> 01:17:39,230

1936 they thought had been gone extinct

1503

01:17:42,970 --> 01:17:41,840

to 1 million years before the coelacanth

1504

01:17:45,670 --> 01:17:42,980

yeah that's it yeah

1505

01:17:48,760 --> 01:17:45,680

there's ago the coelacanth it spelled

1506

01:17:50,060 --> 01:17:48,770

really weird it's like a PS live no but

1507

01:17:54,109 --> 01:17:50,070

but but but Co E

1508

01:17:57,109 --> 01:17:54,119

is pronounced e and yeah they they used

1509

01:17:58,910 --> 01:17:57,119

to talk about how you know can't be when

1510

01:18:00,350 --> 01:17:58,920

they first discovered it they said well

1511

01:18:01,850 --> 01:18:00,360

this is not possible this thing's been

1512

01:18:04,160 --> 01:18:01,860

extinct for 60 million years

1513

01:18:05,300 --> 01:18:04,170

and sure enough these fishermen off that

1514

01:18:10,810 --> 01:18:05,310

what was it off the coast of South

1515

01:18:12,800 --> 01:18:10,820

America Borneo was some over there yeah

1516

01:18:15,439 --> 01:18:12,810

they were catching them as a matter of

1517

01:18:17,120 --> 01:18:15,449

course yeah but they hadn't yet ham in

1518

01:18:23,060 --> 01:18:17,130

the fish markets and stuff you know and

1519

01:18:24,609 --> 01:18:23,070

some KY said yeah it's one thing I have

1520

01:18:27,350 --> 01:18:24,619

to go back to and you had mentioned that

1521

01:18:29,180 --> 01:18:27,360

gentleman had written of a book or a

1522

01:18:31,580 --> 01:18:29,190

story about the abominable snowman right

1523

01:18:34,220 --> 01:18:31,590

yeah so who's that guy you mentioned is

1524

01:18:36,109 --> 01:18:34,230

not Ivan Sanderson great author did that

1525

01:18:38,240 --> 01:18:36,119

people should check out okay and and

1526

01:18:43,939 --> 01:18:38,250

they also play for the Boston Bruins any

1527

01:18:46,310 --> 01:18:43,949

I haven't seen anyway so I go to the

1528

01:18:49,250 --> 01:18:46,320

first thing that I ever got you know

1529

01:18:49,910 --> 01:18:49,260

paranormal okay I must have been six

1530

01:18:51,709 --> 01:18:49,920

years old

1531

01:18:54,740 --> 01:18:51,719

and I've read in Reader's Digest the

1532

01:18:56,600 --> 01:18:54,750

story of the abominable snowman you know

1533

01:18:59,990 --> 01:18:56,610

and to a little kid all I could think of

1534

01:19:02,089 --> 01:19:00,000

he looked like a snowman you know frosty

1535

01:19:03,919 --> 01:19:02,099

yeah exactly for us he'd gone bad

1536

01:19:05,300 --> 01:19:03,929

all right and and that was just a

1537

01:19:11,270 --> 01:19:05,310

trustee who hasn't had a bowel movement

1538

01:19:19,399 --> 01:19:11,280

in quite some time I don't know it just

1539

01:19:22,609 --> 01:19:19,409

came to my head crazy our mouth that's

1540

01:19:24,589 --> 01:19:22,619

true I think before I speak that's what

1541

01:19:29,000 --> 01:19:24,599

I mean always tells me but for a father

1542

01:19:30,979 --> 01:19:29,010

like him to listen well as a but but the

1543

01:19:34,040 --> 01:19:30,989

it was like the strangest thing just to

1544

01:19:38,629 --> 01:19:34,050

think wow I snow me and that you know it

1545

01:19:40,609 --> 01:19:38,639

was a bondable and I guess Sir Edmund

1546

01:19:41,870 --> 01:19:40,619

Hillary who was the first one to go up

1547

01:19:44,419 --> 01:19:41,880

Mount Everest

1548

01:19:46,910 --> 01:19:44,429

you know he's famous back then the

1549

01:19:52,819 --> 01:19:46,920

person who Hillary Clinton was named

1550

01:19:54,500 --> 01:19:52,829

after he's the first one who really kind

1551

01:19:56,270 --> 01:19:54,510

of took pictures of the footprints and

1552

01:19:57,800 --> 01:19:56,280

stuff like that then later on people

1553

01:19:59,089 --> 01:19:57,810

start calling the Yeti and everything

1554

01:20:00,919 --> 01:19:59,099

but it's just funny just it was like a

1555

01:20:03,140 --> 01:20:00,929

three page story in Reader's Digest

1556

01:20:03,410 --> 01:20:03,150

had I not read it well knows where I'd

1557

01:20:05,720 --> 01:20:03,420

be

1558

01:20:09,260 --> 01:20:05,730

yeah you're in a doctor's office when

1559

01:20:12,650 --> 01:20:09,270

you read reduce digest right know who

1560

01:20:13,880 --> 01:20:12,660

reads Reader's Digest it was a great

1561

01:20:18,010 --> 01:20:13,890

magazine that's where I first read about

1562

01:20:20,300 --> 01:20:18,020

the the incident at Exeter remember that

1563

01:20:22,850 --> 01:20:20,310

the stuff on the Betty and Barney Hill

1564

01:20:26,140 --> 01:20:22,860

yeah yep you know we're weird like a

1565

01:20:29,240 --> 01:20:26,150

mile from where that happened oh cool

1566

01:20:33,140 --> 01:20:29,250

we're in Exeter not far yeah walking

1567

01:20:34,880 --> 01:20:33,150

distance walking distance door stop with

1568

01:20:38,510 --> 01:20:34,890

the rusty moose first we have a cast why

1569

01:20:40,220 --> 01:20:38,520

would we walk because it's cooler so

1570

01:20:41,720 --> 01:20:40,230

anyway I don't know well how come we're

1571

01:20:44,300 --> 01:20:41,730

not seeing eye to eye tonight you were

1572

01:20:46,690 --> 01:20:44,310

usually pretty kumbaya okay maybe I need

1573

01:20:49,010 --> 01:20:46,700

more exercise in front of the microphone

1574

01:20:50,180 --> 01:20:49,020

it's been a while I can't tell you what

1575

01:20:53,930 --> 01:20:50,190

he's doing folks sorry

1576
01:20:55,220 --> 01:20:53,940
so um Coco for some reason I just want

1577
01:20:59,030 --> 01:20:55,230
to throw it to you before we have to

1578
01:21:01,420 --> 01:20:59,040
take throw - Coco any thoughts I want

1579
01:21:03,890 --> 01:21:01,430
more information about his snow plowing

1580
01:21:05,090 --> 01:21:03,900
excursion so what's that all about

1581
01:21:07,220 --> 01:21:05,100
that's like commercial I thought you're

1582
01:21:10,580 --> 01:21:07,230
running the place Coco he is running the

1583
01:21:12,860 --> 01:21:10,590
place you're talking about us snow

1584
01:21:16,940 --> 01:21:12,870
blower and blow snow all the way up to

1585
01:21:19,700 --> 01:21:16,950
exercise seen those things amazing run

1586
01:21:23,180 --> 01:21:19,710
knows we mentioned it okay runway

1587
01:21:25,010 --> 01:21:23,190
clearing equipment okay all right well

1588
01:21:27,050 --> 01:21:25,020

if we can't put music behind it then

1589

01:21:29,690 --> 01:21:27,060

let's go what was the question that you

1590

01:21:30,830 --> 01:21:29,700

were going to ask the Mac I just wanted

1591

01:21:32,540 --> 01:21:30,840

to throw it to you because I had a

1592

01:21:36,590 --> 01:21:32,550

feeling that you wanted to offer

1593

01:21:39,860 --> 01:21:36,600

something progressive brings you flow a

1594

01:21:41,420 --> 01:21:39,870

tree with flow motor cycle and car

1595

01:21:43,640 --> 01:21:41,430

insured together

1596

01:21:46,580 --> 01:21:43,650

saving money feels stress-free mess-free

1597

01:21:48,710 --> 01:21:46,590

light as a feather however which should

1598

01:21:51,350 --> 01:21:48,720

I Drive depends on the weather

1599

01:21:52,550 --> 01:21:51,360

if it rains take the car cuz these pants

1600

01:21:55,490 --> 01:21:52,560

are leather

1601
01:21:57,050 --> 01:21:55,500
possibly pleather bundle your motorcycle

1602
01:21:59,150 --> 01:21:57,060
and car insurance and save with

1603
01:22:00,230 --> 01:21:59,160
progressive call 1-800 pressive they'll

1604
01:22:01,790 --> 01:22:00,240
visit progressive.com

1605
01:22:03,260 --> 01:22:01,800
progressive casualty insurance company

1606
01:22:06,410 --> 01:22:03,270
and affiliates discounts not available

1607
01:22:08,660 --> 01:22:06,420
in all states or situations which would

1608
01:22:12,200 --> 01:22:08,670
switch all the stuff that you've looked

1609
01:22:14,570 --> 01:22:12,210
at what's the most compelling one that

1610
01:22:17,480 --> 01:22:14,580
you've dealt with up there in the Great

1611
01:22:19,730 --> 01:22:17,490
Lakes area cuz I I have family from that

1612
01:22:22,610 --> 01:22:19,740
part of the world and there seems to be

1613
01:22:24,140 --> 01:22:22,620

a really close affinity to the lakes and

1614

01:22:27,440 --> 01:22:24,150

all the the stuff that goes on there I

1615

01:22:30,790 --> 01:22:27,450

mean the history not well recorded but

1616

01:22:35,780 --> 01:22:30,800

there's very good evidence that you had

1617

01:22:39,530 --> 01:22:35,790

coming over from the Irish coast I was

1618

01:22:42,320 --> 01:22:39,540

from Ireland yet monks that were there

1619

01:22:44,570 --> 01:22:42,330

they had mine copper many many years

1620

01:22:58,520 --> 01:22:44,580

before the official you know discovery

1621

01:23:02,720 --> 01:22:58,530

of the new world really is a really some

1622

01:23:05,120 --> 01:23:02,730

of the copper jewelry and religious

1623

01:23:07,910 --> 01:23:05,130

items that is found throughout the

1624

01:23:10,790 --> 01:23:07,920

northern part of Europe traces back to

1625

01:23:13,040 --> 01:23:10,800

these Irish monks and it's it's not

1626

01:23:14,960 --> 01:23:13,050

copper that came from Africa or the

1627

01:23:16,670 --> 01:23:14,970

Middle East it's it's copper from that

1628

01:23:20,150 --> 01:23:16,680

part of the world and it dates predates

1629

01:23:22,550 --> 01:23:20,160

Columbus never get blamed for anything

1630

01:23:27,140 --> 01:23:22,560

no it's not it's cool if they've had a

1631

01:23:33,650 --> 01:23:27,150

clean slate it really have no Irish need

1632

01:23:35,720 --> 01:23:33,660

apply history yeah but other than that

1633

01:23:37,910 --> 01:23:35,730

they don't get blamed for a whole lot no

1634

01:23:40,250 --> 01:23:37,920

all they saved civilization Western

1635

01:23:41,900 --> 01:23:40,260

civilization so there you go the Irish

1636

01:23:44,990 --> 01:23:41,910

did why buy-in something was well

1637

01:23:45,650 --> 01:23:45,000

because when as things went were going

1638

01:23:48,740 --> 01:23:45,660

crazier

1639

01:23:50,270 --> 01:23:48,750

Irish monks are the ones that maintain

1640

01:23:51,980 --> 01:23:50,280

most of the written record that was

1641

01:23:57,470 --> 01:23:51,990

destroyed there were the scribes of the

1642

01:23:58,820 --> 01:23:57,480

whole of the universe came out after the

1643

01:24:04,940 --> 01:23:58,830

you know the great battles between the

1644

01:24:06,480 --> 01:24:04,950

anglo-saxons and and the guys I've tried

1645

01:24:09,270 --> 01:24:06,490

think of the Normans and all that

1646

01:24:10,950 --> 01:24:09,280

although the conquering hordes they say

1647

01:24:13,200 --> 01:24:10,960

maintain that because they were the far

1648

01:24:16,020 --> 01:24:13,210

western reaches of the territory over

1649

01:24:17,760 --> 01:24:16,030

the keepers the record alright boy I'll

1650

01:24:20,340 --> 01:24:17,770

tell you when you have to leave the

1651

01:24:22,380 --> 01:24:20,350

world up to some Irish monks you go

1652

01:24:27,330 --> 01:24:22,390

you're in the bad state of mind believe

1653

01:24:30,900 --> 01:24:27,340

me yes tree thing what you claim to be

1654

01:24:33,510 --> 01:24:30,910

Irish now I I told you I was I just did

1655

01:24:37,620 --> 01:24:33,520

the deep ancestry DNA for Eileen and

1656

01:24:39,840 --> 01:24:37,630

myself and and you've claimed it about

1657

01:24:42,990 --> 01:24:39,850

nine nationalities I've got some in

1658

01:24:45,780 --> 01:24:43,000

there that I saw it boom I'll send you

1659

01:24:47,670 --> 01:24:45,790

the PDFs oh my god you know that they

1660

01:24:50,130 --> 01:24:47,680

sell your DNA to other companies after

1661

01:24:52,710 --> 01:24:50,140

you so they do yeah did they tell you

1662

01:25:12,690 --> 01:24:52,720

that they do okay anybody pregnant or

1663

01:25:19,740 --> 01:25:12,700

something oh wait you know be funny is

1664

01:25:22,170 --> 01:25:19,750

just to swab a dog's mouth it might be

1665

01:25:25,380 --> 01:25:22,180

funny as a monkey our squirt a black

1666

01:25:26,820 --> 01:25:25,390

squirrel then Joey gray is a boy you

1667

01:25:28,710 --> 01:25:26,830

ought to see where the lines go from one

1668

01:25:30,420 --> 01:25:28,720

country to another was like crazy wow

1669

01:25:33,420 --> 01:25:30,430

how do you know they're telling you the

1670

01:25:36,300 --> 01:25:33,430

truth I don't know but anyway why don't

1671

01:25:37,560 --> 01:25:36,310

we take a commercial break now and we'll

1672

01:25:39,210 --> 01:25:37,570

be right back after this you listening

1673

01:25:42,720 --> 01:25:39,220

to Mac mummys mill tracks out here on

1674

01:25:46,560 --> 01:25:42,730

the distant Thunder radio network right

1675

01:25:48,240 --> 01:25:46,570

back at me welcome back everyone smack

1676

01:25:49,790 --> 01:25:48,250

mummy's military sauce show here on the

1677

01:25:53,010 --> 01:25:49,800

distant Thunder I didn't know him

1678

01:25:55,590 --> 01:25:53,020

Maloney we're in our beautiful new exit

1679

01:25:58,380 --> 01:25:55,600

in New Hampshire studios and Emma said

1680

01:26:00,390 --> 01:25:58,390

studio is yes girls he's back the fairy

1681

01:26:02,330 --> 01:26:00,400

film is one was yes back and ready for

1682

01:26:05,610 --> 01:26:02,340

action

1683

01:26:10,590 --> 01:26:05,620

glad to be here I miss coming here we

1684

01:26:12,530 --> 01:26:10,600

missed you thank you also going in from

1685

01:26:15,520 --> 01:26:12,540

the disclosed location

1686

01:26:18,490 --> 01:26:15,530

Coco Zia

1687

01:26:20,380 --> 01:26:18,500

good evening gentlemen one and all all

1688

01:26:22,660 --> 01:26:20,390

right I was what you call a pregnant

1689

01:26:23,830 --> 01:26:22,670

pause in the biz mm-hmm instead of

1690

01:26:27,070 --> 01:26:23,840

jumping right on that he's just he

1691

01:26:28,900 --> 01:26:27,080

waited you know just for people to add

1692

01:26:31,390 --> 01:26:28,910

the tension but pauses are pregnant

1693

01:26:36,040 --> 01:26:31,400

right you know that you're in travels

1694

01:26:38,020 --> 01:26:36,050

quite a pause listen and also switcher

1695

01:26:39,910 --> 01:26:38,030

Reno is on the phone with us

1696

01:26:42,010 --> 01:26:39,920

switchblade Steve wound up there in the

1697

01:26:44,280 --> 01:26:42,020

battle and Battle Creek the bullet

1698

01:26:46,600 --> 01:26:44,290

flakes every time I say that one bowl of

1699

01:26:48,400 --> 01:26:46,610

good and we got some history about

1700

01:26:51,520 --> 01:26:48,410

Kellogg's - that is right yeah

1701

01:26:55,510 --> 01:26:51,530

frosted flakes rostov's likes you know I

1702

01:26:57,790 --> 01:26:55,520

mean why not just the flake period if

1703

01:27:01,710 --> 01:26:57,800

you look at the flake flake is unique

1704

01:27:04,240 --> 01:27:01,720

because it's coming size proportion

1705

01:27:08,380 --> 01:27:04,250

dipped in tree but even just the plain

1706

01:27:11,740 --> 01:27:08,390

old cornflakes yeah but I feel like I'm

1707

01:27:15,460 --> 01:27:11,750

in a farm full of corn stocks up yeah I

1708

01:27:18,070 --> 01:27:15,470

as an elephant's eye really yeah yeah

1709

01:27:19,390 --> 01:27:18,080

so yeah both conflicts but a banana oh

1710

01:27:21,550 --> 01:27:19,400

what a beautiful morning or what a

1711

01:27:23,710 --> 01:27:21,560

beautiful day that's like my childhood

1712

01:27:26,200 --> 01:27:23,720

you know I got a wonderful feeling

1713

01:27:32,230 --> 01:27:26,210

everything's going my way and then at

1714

01:27:34,480 --> 01:27:32,240

noon game Chef Boyardee oh that stuff is

1715

01:27:36,100 --> 01:27:34,490

so bad I ate it back then but I tried

1716

01:27:40,120 --> 01:27:36,110

some now just for laughs a case was

1717

01:27:42,460 --> 01:27:40,130

gonna be my go-to meals like MREs during

1718

01:27:44,020 --> 01:27:42,470

the apocalypse ahead yes I opened one up

1719

01:27:47,020 --> 01:27:44,030

and going this stuff is nasty

1720

01:27:48,760 --> 01:27:47,030

yeah oh man you have no taste how did I

1721

01:27:50,620 --> 01:27:48,770

used to like it I used to like to be

1722

01:27:53,110 --> 01:27:50,630

firown' ll did something wrong with you

1723

01:27:55,090 --> 01:27:53,120

that you why doesn't it bring back it

1724

01:27:57,370 --> 01:27:55,100

didn't it didn't do it was to taste it

1725

01:27:59,980 --> 01:27:57,380

awful maybe get a formulation is a lot

1726
01:28:00,640 --> 01:27:59,990
different than a one can I mean I don't

1727
01:28:02,860 --> 01:28:00,650
think so

1728
01:28:05,440 --> 01:28:02,870
it's maybe I'll try it again I sneaked

1729
01:28:07,480 --> 01:28:05,450
it I used to like the ravioli better it

1730
01:28:08,590 --> 01:28:07,490
had a different me - yeah diffa sauce

1731
01:28:10,780 --> 01:28:08,600
yeah exactly

1732
01:28:12,340 --> 01:28:10,790
yes the ravioli was my go-to for the

1733
01:28:12,730 --> 01:28:12,350
yeah for the chef de Ferran he was the

1734
01:28:15,850 --> 01:28:12,740
backup

1735
01:28:17,770 --> 01:28:15,860
yep yep okay all right does anyone up

1736
01:28:19,420 --> 01:28:17,780
they know what we're talking about that

1737
01:28:21,550 --> 01:28:19,430
other can't stuff it was really nasty

1738
01:28:24,010 --> 01:28:21,560

what was that Campbell's soup but didn't

1739

01:28:28,090 --> 01:28:24,020

know there's a some other brand of

1740

01:28:29,120 --> 01:28:28,100

canned spaghetti yeah franco-american

1741

01:28:32,170 --> 01:28:29,130

off

1742

01:28:34,400 --> 01:28:32,180

all SpaghettiOs SpaghettiOs Oh different

1743

01:28:37,730 --> 01:28:34,410

awful switch do you remember any of this

1744

01:28:39,440 --> 01:28:37,740

or yes but I talking about Kellogg's I

1745

01:28:41,720 --> 01:28:39,450

have a small anecdote about Kellogg

1746

01:28:43,940 --> 01:28:41,730

apparently the company I used to work at

1747

01:28:46,640 --> 01:28:43,950

a electrical wholesale place in Battle

1748

01:28:49,400 --> 01:28:46,650

Creek and we would would pack up

1749

01:28:52,040 --> 01:28:49,410

material electrical parts and so forth

1750

01:28:53,510 --> 01:28:52,050

before Kellogg and you know some of the

1751

01:28:55,970 --> 01:28:53,520

parts are fairly small and so forth so

1752

01:28:58,730 --> 01:28:55,980

you put them in boxes or bags well

1753

01:29:02,030 --> 01:28:58,740

oftentimes usually you can use staples

1754

01:29:05,060 --> 01:29:02,040

right back yet okay but a Kellogg's you

1755

01:29:07,580 --> 01:29:05,070

could not use staples if you if you

1756

01:29:09,590 --> 01:29:07,590

accidentally stapled a bag yeah and they

1757

01:29:11,840 --> 01:29:09,600

got it they would freak out and they

1758

01:29:14,270 --> 01:29:11,850

would set out a zone as just as if that

1759

01:29:16,310 --> 01:29:14,280

had some kind of radiation leak then

1760

01:29:18,080 --> 01:29:16,320

they would check the whole area out to

1761

01:29:19,820 --> 01:29:18,090

make sure there weren't any other

1762

01:29:22,340 --> 01:29:19,830

staples or little bits of metal like

1763

01:29:24,830 --> 01:29:22,350

that right to ensure quality control so

1764

01:29:26,450 --> 01:29:24,840

that was did that happen to them one

1765

01:29:28,430 --> 01:29:26,460

time or was it some other company that

1766

01:29:38,900 --> 01:29:28,440

happened to with it would some state

1767

01:29:41,030 --> 01:29:38,910

materials in a statue of I'm sure is

1768

01:29:43,730 --> 01:29:41,040

your best chance of swallowing a staple

1769

01:29:45,350 --> 01:29:43,740

ready when you go for Chinese food and

1770

01:29:47,030 --> 01:29:45,360

you ask him for the plastic bag full of

1771

01:29:48,800 --> 01:29:47,040

a crispy noodle yeah yeah they always

1772

01:29:52,430 --> 01:29:48,810

have a little staple on threads it's

1773

01:30:09,770 --> 01:29:52,440

easy to miss baby boom next myth next

1774

01:30:13,130 --> 01:30:09,780

thing you know it's in your yeah so he's

1775

01:30:17,360 --> 01:30:13,140

very with the black squirrels black

1776

01:30:19,340 --> 01:30:17,370

squirrels are pretty cool school girls

1777

01:30:20,840 --> 01:30:19,350

you know they're very good very very

1778

01:30:22,700 --> 01:30:20,850

cool see they weren't as popular as the

1779

01:30:24,380 --> 01:30:22,710

Black Panthers one one okay they might

1780

01:30:29,840 --> 01:30:24,390

have picked a better name like the black

1781

01:30:32,900 --> 01:30:29,850

lines black my boat racist and funny

1782

01:30:37,280 --> 01:30:32,910

thank you hey he's a great snake in Kill

1783

01:30:39,580 --> 01:30:37,290

Bill there's a big black we haven't find

1784

01:30:41,760 --> 01:30:39,590

Mambo snake is that what it was that

1785

01:30:43,920 --> 01:30:41,770

we're going down on that and

1786

01:30:47,010 --> 01:30:43,930

we probably don't want to go and so

1787

01:30:49,290 --> 01:30:47,020

Steve please you have another anecdote I

1788

01:30:52,560 --> 01:30:49,300

well we were gonna talk a little bit

1789

01:30:55,050 --> 01:30:52,570

about the astronauts all right yes some

1790

01:30:57,480 --> 01:30:55,060

of the strange things they've seen right

1791

01:30:58,950 --> 01:30:57,490

in the skies on their trips of course we

1792

01:31:00,600 --> 01:30:58,960

don't you know we don't have so many

1793

01:31:03,180 --> 01:31:00,610

astronauts these days and we don't have

1794

01:31:04,440 --> 01:31:03,190

you know too many missions but back in

1795

01:31:07,410 --> 01:31:04,450

the good old days when you talk about

1796

01:31:09,180 --> 01:31:07,420

Gemini and so forth right and and some

1797

01:31:12,560 --> 01:31:09,190

of the classic names like James Lovell

1798

01:31:13,860 --> 01:31:12,570

yes Buzz Aldrin four before he was a

1799

01:31:17,610 --> 01:31:13,870

litter

1800

01:31:19,710 --> 01:31:17,620

you know visitor either that or on a

1801
01:31:23,370 --> 01:31:19,720
stage and again you're all right your

1802
01:31:27,090 --> 01:31:23,380
viewpoint okay but Germany 12 November

1803
01:31:29,430 --> 01:31:27,100
1966 James Lovell Buzz Aldrin they've

1804
01:31:31,560 --> 01:31:29,440
reported seeing for UFOs and these

1805
01:31:33,870 --> 01:31:31,570
whatever these were were lined up in a

1806
01:31:35,910 --> 01:31:33,880
row and we know about a lot of these

1807
01:31:37,890 --> 01:31:35,920
things because the at the time you know

1808
01:31:41,460 --> 01:31:37,900
the transmissions were being broadcast

1809
01:31:44,250 --> 01:31:41,470
and monitored and so forth and he

1810
01:31:46,770 --> 01:31:44,260
lovell's told when he landed

1811
01:31:49,320 --> 01:31:46,780
Lovell told reporters that he was pretty

1812
01:31:51,060 --> 01:31:49,330
sure that they were not stars right but

1813
01:31:53,490 --> 01:31:51,070

that you know you sometimes you get

1814

01:31:55,380 --> 01:31:53,500

these initial reports and then that's it

1815

01:31:58,230 --> 01:31:55,390

right you know there's no if there's a

1816

01:32:00,120 --> 01:31:58,240

follow-up they get kind of kind of quiet

1817

01:32:03,770 --> 01:32:00,130

right now let's keep keep in mind I got

1818

01:32:06,740 --> 01:32:03,780

several more of these but I you know

1819

01:32:09,420 --> 01:32:06,750

just like the the story about the

1820

01:32:12,240 --> 01:32:09,430

Ontario triangle there's a lot of

1821

01:32:13,080 --> 01:32:12,250

logical explanations for a lot of these

1822

01:32:16,910 --> 01:32:13,090

things okay

1823

01:32:20,760 --> 01:32:16,920

there are thousands of abandoned

1824

01:32:23,190 --> 01:32:20,770

satellites and debris up and surrounding

1825

01:32:27,750 --> 01:32:23,200

the earth right you know satellites that

1826

01:32:32,580 --> 01:32:27,760

are well you know runs past their use

1827

01:32:34,230 --> 01:32:32,590

space track and also you know we there's

1828

01:32:36,450 --> 01:32:34,240

other other countries have put

1829

01:32:38,280 --> 01:32:36,460

satellites up yes and sometimes you know

1830

01:32:39,750 --> 01:32:38,290

we get surprised it's like what the heck

1831

01:32:41,760 --> 01:32:39,760

is this then they have to figure out

1832

01:32:46,530 --> 01:32:41,770

what where it comes from and so forth

1833

01:32:48,420 --> 01:32:46,540

right now according to John keel back in

1834

01:32:50,670 --> 01:32:48,430

now John keel course the author of the

1835

01:32:53,640 --> 01:32:50,680

Mothman Prophecies right back in 1967

1836

01:32:54,740 --> 01:32:53,650

they the government had been keeping a

1837

01:32:57,170 --> 01:32:54,750

careful eye

1838

01:32:59,210 --> 01:32:57,180

there was three unidentified satellites

1839

01:33:01,340 --> 01:32:59,220

that were supposed to be going around

1840

01:33:03,970 --> 01:33:01,350

the earth and it's not known if they

1841

01:33:07,400 --> 01:33:03,980

ever actually figured out what they were

1842

01:33:09,950 --> 01:33:07,410

they were you know also is is quoted in

1843

01:33:11,960 --> 01:33:09,960

the and the image in the pubs there that

1844

01:33:13,400 --> 01:33:11,970

in 54 he made the claim that there was

1845

01:33:15,410 --> 01:33:13,410

two right around the time that he was

1846

01:33:18,200 --> 01:33:15,420

putting out one of his first UFO books

1847

01:33:19,910 --> 01:33:18,210

well little publicity though is they

1848

01:33:22,940 --> 01:33:19,920

send the black night

1849

01:33:25,840 --> 01:33:22,950

well yeah Black Knight is black night is

1850

01:33:28,880 --> 01:33:25,850

one of the most encompassing of the

1851

01:33:30,890 --> 01:33:28,890

satellite personally in origin

1852

01:33:33,590 --> 01:33:30,900

extraterrestrial satellite stories and

1853

01:33:35,270 --> 01:33:33,600

it's been around gosh I think it goes

1854

01:33:37,640 --> 01:33:35,280

all the way back to Tesla right I mean

1855

01:33:40,250 --> 01:33:37,650

somewhere somehow someone took a picture

1856

01:33:42,680 --> 01:33:40,260

of this thing up and orbit and it's it's

1857

01:33:44,300 --> 01:33:42,690

a very unusual design black night I mean

1858

01:33:46,730 --> 01:33:44,310

I guess it looks a little bit like a

1859

01:33:48,950 --> 01:33:46,740

knight's helmet or something yeah or the

1860

01:33:50,930 --> 01:33:48,960

shape of it's got kind of a black night

1861

01:33:53,990 --> 01:33:50,940

kind of helmet kind of look to it but in

1862

01:33:56,240 --> 01:33:54,000

a plane I don't know how they determined

1863

01:33:58,640 --> 01:33:56,250

the size or mass but they claim it's

1864

01:34:00,340 --> 01:33:58,650

something like 15 tons which is a case

1865

01:34:02,540 --> 01:34:00,350

and if it is some kind of a satellite

1866

01:34:05,090 --> 01:34:02,550

nothing has been put up anywhere no

1867

01:34:07,850 --> 01:34:05,100

anyway the whole thing is what was it

1868

01:34:09,350 --> 01:34:07,860

five thousand dollars an ounce to put

1869

01:34:09,980 --> 01:34:09,360

something up in the space show you know

1870

01:34:12,560 --> 01:34:09,990

something like that

1871

01:34:14,570 --> 01:34:12,570

you know but let me ask this I mean

1872

01:34:16,100 --> 01:34:14,580

stuff you know but I can see almost you

1873

01:34:18,350 --> 01:34:16,110

know I don't know who knows you know

1874

01:34:19,850 --> 01:34:18,360

sometimes the countries you know once

1875

01:34:20,960 --> 01:34:19,860

that lease they don't tell any well and

1876

01:34:23,060 --> 01:34:20,970

I guess you know eventually they'll be

1877

01:34:26,090 --> 01:34:23,070

found out but what's interesting me to

1878

01:34:27,290 --> 01:34:26,100

would astronauts have seen is that some

1879

01:34:29,870 --> 01:34:27,300

of the astronauts who went to the moon

1880

01:34:31,220 --> 01:34:29,880

and back there was one who they said and

1881

01:34:33,950 --> 01:34:31,230

I don't know who it was they said that

1882

01:34:35,630 --> 01:34:33,960

that does this little not not a big

1883

01:34:37,760 --> 01:34:35,640

house but a little object that followed

1884

01:34:39,500 --> 01:34:37,770

them all the way to the moon might have

1885

01:34:42,080 --> 01:34:39,510

even been Apollo 11 I'm not sure the

1886

01:34:45,860 --> 01:34:42,090

first one don't land alone but anyway at

1887

01:34:49,310 --> 01:34:45,870

the time they said well what we think is

1888

01:34:51,290 --> 01:34:49,320

happening is that because you're going

1889

01:34:53,660 --> 01:34:51,300

you've left the Earth's orbit and

1890

01:34:55,910 --> 01:34:53,670

they're going into the moon's orbit you

1891

01:34:57,530 --> 01:34:55,920

have your own attraction and some kind

1892

01:35:00,560 --> 01:34:57,540

of space junk is just following you

1893

01:35:03,530 --> 01:35:00,570

because you know way your if you have a

1894

01:35:05,180 --> 01:35:03,540

gravitational pull exactly right and so

1895

01:35:05,899 --> 01:35:05,190

you know they took matches of it and so

1896

01:35:07,399 --> 01:35:05,909

on you know

1897

01:35:08,989 --> 01:35:07,409

and then when they came back you know

1898

01:35:11,449 --> 01:35:08,999

the scientists said no that's impossible

1899

01:35:13,609 --> 01:35:11,459

that did not happen so they had no idea

1900

01:35:16,459 --> 01:35:13,619

Corning followed them for three days all

1901

01:35:19,009 --> 01:35:16,469

the way to the moon so they kept its

1902

01:35:20,359 --> 01:35:19,019

distance it didn't get it looked right

1903

01:35:23,000 --> 01:35:20,369

out the window and took pictures up yeah

1904

01:35:25,339 --> 01:35:23,010

but it kept it in it always kept its

1905

01:35:26,000 --> 01:35:25,349

distance exactly right yeah we didn't

1906

01:35:27,259 --> 01:35:26,010

get too close

1907

01:35:29,479 --> 01:35:27,269

now I'm didn't circle them but I just

1908

01:35:30,649 --> 01:35:29,489

rabbit a tional pole was just enough to

1909

01:35:33,339 --> 01:35:30,659

job but they said that's impossible

1910

01:35:36,830 --> 01:35:33,349

because there's not enough mass in the

1911

01:35:38,330 --> 01:35:36,840

lunar orbiter and so auntie Annie can't

1912

01:35:40,699 --> 01:35:38,340

have enough gravitational pull for

1913

01:35:42,080 --> 01:35:40,709

something to follow it so and so then

1914

01:35:44,029 --> 01:35:42,090

they never looked into you know blah

1915

01:35:45,919 --> 01:35:44,039

blah that's what they said what was know

1916

01:35:47,959 --> 01:35:45,929

so anyway so that's the strange thing is

1917

01:35:49,879 --> 01:35:47,969

that in orbit I know it's crowded all

1918

01:35:51,080 --> 01:35:49,889

right but when you get out of war but

1919

01:35:54,739 --> 01:35:51,090

what there shouldn't be anything up

1920

01:35:56,779 --> 01:35:54,749

there and there was well just black

1921

01:35:58,549 --> 01:35:56,789

night conspiracy stuff you know some

1922

01:36:00,229 --> 01:35:58,559

claim I mean the claims are pretty wild

1923

01:36:01,939 --> 01:36:00,239

if this goes back thirteen thousand

1924

01:36:03,439 --> 01:36:01,949

years and it's some kind of you know I

1925

01:36:06,770 --> 01:36:03,449

don't know how anybody determined that

1926

01:36:09,319 --> 01:36:06,780

but Cobra mentioned in Tesla and that

1927

01:36:11,959 --> 01:36:09,329

part of the mythology if you will goes

1928

01:36:14,299 --> 01:36:11,969

back to 1899 with his radio experiments

1929

01:36:18,679 --> 01:36:14,309

and he's supposed to receive some string

1930

01:36:20,839 --> 01:36:18,689

signals like natural repeating sources

1931

01:36:23,659 --> 01:36:20,849

that there were probably there could be

1932

01:36:26,330 --> 01:36:23,669

things like pulsar or natural signals

1933

01:36:27,859 --> 01:36:26,340

that stars and the Sun gives off that

1934

01:36:30,919 --> 01:36:27,869

we're not in what they weren't aware of

1935

01:36:34,009 --> 01:36:30,929

back then also even determine pulsars

1936

01:36:35,839 --> 01:36:34,019

until like the 60s or something so and

1937

01:36:39,500 --> 01:36:35,849

also there's another guy Jorgen Hall's

1938

01:36:42,620 --> 01:36:39,510

who first heard what they call these

1939

01:36:45,620 --> 01:36:42,630

long delayed echoes he'd send out you

1940

01:36:47,060 --> 01:36:45,630

know a broadcast and then the echo would

1941

01:36:49,459 --> 01:36:47,070

come back but they that son of these

1942

01:36:51,199 --> 01:36:49,469

things they think were we're natural but

1943

01:36:55,429 --> 01:36:51,209

they this is all part goes in with this

1944

01:36:57,169 --> 01:36:55,439

black night well it's all nicely you

1945

01:37:01,729 --> 01:36:57,179

know one in there

1946

01:37:05,899 --> 01:37:01,739

Martyna red path the she's a educator at

1947

01:37:07,699 --> 01:37:05,909

the at a planetarium in Ireland Northern

1948

01:37:11,299 --> 01:37:07,709

Ireland all right and it just celebrate

1949

01:37:12,890 --> 01:37:11,309

one once newly found Herod right let me

1950

01:37:15,500 --> 01:37:12,900

quote her black night is a jumble of

1951
01:37:17,870 --> 01:37:15,510
completely unrelated stories reports of

1952
01:37:19,910 --> 01:37:17,880
unusual science observations authors

1953
01:37:21,979 --> 01:37:19,920
promoting fringe ideas class

1954
01:37:23,990 --> 01:37:21,989
I'd spy satellites and people over

1955
01:37:25,959 --> 01:37:24,000
interpreting photos these ingredients

1956
01:37:29,689 --> 01:37:25,969
have been chopped up stirred and stewed

1957
01:37:33,020 --> 01:37:29,699
into an Internet that is one rambling

1958
01:37:35,600 --> 01:37:33,030
and inconsistent dollop of myth Wow meow

1959
01:37:37,669 --> 01:37:35,610
you know what would she get up of the

1960
01:37:39,470 --> 01:37:37,679
wrong side of the bed I don't know but

1961
01:37:43,130 --> 01:37:39,480
she did manage to get stewing there and

1962
01:37:45,380 --> 01:37:43,140
I'm Darwin you know heard if a personal

1963
01:37:49,939 --> 01:37:45,390

relationship did you just know I know I

1964

01:37:52,070 --> 01:37:49,949

just I think she has a very harsh

1965

01:37:56,209 --> 01:37:52,080

critical eye to this and I think there's

1966

01:38:00,110 --> 01:37:56,219

some British baking show hey listen it

1967

01:38:06,320 --> 01:38:00,120

sounds like Cobra just kind of shat all

1968

01:38:08,270 --> 01:38:06,330

over Steve's report well that the Black

1969

01:38:11,959 --> 01:38:08,280

Knight stuff is that that's true it's

1970

01:38:14,000 --> 01:38:11,969

it's kind of a conglomeration of all

1971

01:38:15,979 --> 01:38:14,010

kinds of stuff and it's it's pretty

1972

01:38:17,450 --> 01:38:15,989

tenuous I don't you know I don't know

1973

01:38:20,510 --> 01:38:17,460

what if there are really a couple of

1974

01:38:23,209 --> 01:38:20,520

massive objects up there maybe it's just

1975

01:38:24,709 --> 01:38:23,219

some kind of a rock let me ask you this

1976

01:38:26,900 --> 01:38:24,719

though I mean wouldn't it be simple

1977

01:38:28,820 --> 01:38:26,910

nothing is simple these days why don't

1978

01:38:30,709 --> 01:38:28,830

they just put a telescope on it I mean

1979

01:38:32,600 --> 01:38:30,719

they can see if they can see into the

1980

01:38:34,700 --> 01:38:32,610

big bang they can see something in orbit

1981

01:38:39,860 --> 01:38:34,710

why don't they just train a telescope

1982

01:38:41,540 --> 01:38:39,870

and take a picture of it it's a lot more

1983

01:38:43,850 --> 01:38:41,550

difficult than then you make a scene

1984

01:38:45,950 --> 01:38:43,860

okay but but that doesn't mean it can't

1985

01:38:47,660 --> 01:38:45,960

be done I mean I could see them do

1986

01:38:50,270 --> 01:38:47,670

something like you set up the telescope

1987

01:38:52,640 --> 01:38:50,280

and then over a a series of nights you

1988

01:38:54,020 --> 01:38:52,650

take a series of pictures okay as it

1989

01:38:55,160 --> 01:38:54,030

passes over and then you put them

1990

01:38:58,040 --> 01:38:55,170

together and you see what the heck you

1991

01:39:00,200 --> 01:38:58,050

have yeah well it's the ball okay who's

1992

01:39:03,890 --> 01:39:00,210

next problem your Cobra solve that one

1993

01:39:07,090 --> 01:39:03,900

go ahead please anyway you know I just

1994

01:39:09,770 --> 01:39:07,100

think down there from one want to go go

1995

01:39:12,709 --> 01:39:09,780

you have to get your pictures at night I

1996

01:39:14,419 --> 01:39:12,719

guess so the telescope would work use an

1997

01:39:16,630 --> 01:39:14,429

optical one and that means you have to

1998

01:39:19,669 --> 01:39:16,640

be lined up and this is a polar orbit

1999

01:39:21,860 --> 01:39:19,679

via CODIS okay so that's pretty nice

2000

01:39:23,150 --> 01:39:21,870

yeah you get all those to line up okay I

2001
01:39:25,300 --> 01:39:23,160
can get the picture of something in your

2002
01:39:28,850 --> 01:39:25,310
space because we don't normally use

2003
01:39:31,729 --> 01:39:28,860
earth-based right telescopes you

2004
01:39:33,920 --> 01:39:31,739
photograph or to observe things in near

2005
01:39:35,330 --> 01:39:33,930
orbit well why when does

2006
01:39:43,550 --> 01:39:35,340
you always have to be the bucket of ice

2007
01:39:44,870 --> 01:39:43,560
water the astronauts have seen it might

2008
01:39:47,120 --> 01:39:44,880
might be legitimate but go ahead I think

2009
01:39:50,780 --> 01:39:47,130
one one we do say so yeah if he was in

2010
01:39:53,090 --> 01:39:50,790
Dayton Ohio Wilbur and Orville wouldn't

2011
01:39:54,770 --> 01:39:53,100
be making their successful flights that

2012
01:39:59,720 --> 01:39:54,780
we say ah we can't do that with a size

2013
01:40:01,670 --> 01:39:59,730

six stick the bike to freshen that up

2014

01:40:04,490 --> 01:40:01,680

just a teeny bit since I've made most of

2015

01:40:08,200 --> 01:40:04,500

my career in aviation that was a Kitty

2016

01:40:10,250 --> 01:40:08,210

Hawk that's whatever what T say like

2017

01:40:12,260 --> 01:40:10,260

well they were from Dayton weren't they

2018

01:40:14,420 --> 01:40:12,270

right yeah that's where I think I saw

2019

01:40:16,280 --> 01:40:14,430

the museum I don't know okay all right

2020

01:40:18,080 --> 01:40:16,290

well you know I was in dating at the

2021

01:40:20,150 --> 01:40:18,090

time it was close where was Kitty Hawk

2022

01:40:23,810 --> 01:40:20,160

it's in Ohio South Carolina North

2023

01:40:26,180 --> 01:40:23,820

Carolina oh it is windy place in the

2024

01:40:28,190 --> 01:40:26,190

world about Washington family it was

2025

01:40:30,080 --> 01:40:28,200

like 20 and 12 miles an hour up there

2026

01:40:30,860 --> 01:40:30,090

the other day now would someone sent me

2027

01:40:33,050 --> 01:40:30,870

in the gist

2028

01:40:34,670 --> 01:40:33,060

yeah you see it was the third coldest

2029

01:40:39,410 --> 01:40:34,680

place in the earth yeah something at

2030

01:40:41,000 --> 01:40:39,420

that moment right right so go ahead so

2031

01:40:43,910 --> 01:40:41,010

Steve I mean we don't just seem like you

2032

01:40:46,040 --> 01:40:43,920

know I mean I know there's a lot of

2033

01:40:47,840 --> 01:40:46,050

space junk up there but I think that now

2034

01:40:50,480 --> 01:40:47,850

Radisson but I don't they have every

2035

01:40:52,430 --> 01:40:50,490

piece of junk up there suppose yeah

2036

01:40:55,130 --> 01:40:52,440

these things where they've really got a

2037

01:40:56,630 --> 01:40:55,140

lot of catalog catalog I guess you could

2038

01:40:58,850 --> 01:40:56,640

even do someplace you can go online and

2039

01:41:00,020 --> 01:40:58,860

see what satellites are coming over you

2040

01:41:01,910 --> 01:41:00,030

know I've got a I've got a pair of

2041

01:41:05,090 --> 01:41:01,920

third-generation night-vision goggles

2042

01:41:08,630 --> 01:41:05,100

which are really cool and you know

2043

01:41:10,550 --> 01:41:08,640

there's always and you'll see if you go

2044

01:41:12,620 --> 01:41:10,560

out there with a nice star field yes I

2045

01:41:14,120 --> 01:41:12,630

you get out there you it's phenomenal

2046

01:41:16,160 --> 01:41:14,130

when you can see that you can't normally

2047

01:41:18,460 --> 01:41:16,170

see right and that includes satellites

2048

01:41:22,580 --> 01:41:18,470

you can't see with the naked eye and

2049

01:41:24,590 --> 01:41:22,590

that sort of thing I'm sorry I hate to

2050

01:41:26,390 --> 01:41:24,600

interrupt you but you can tell us you

2051

01:41:33,440 --> 01:41:26,400

know did you like try them out looking

2052

01:41:35,120 --> 01:41:33,450

in some neighbors window well my moral

2053

01:41:37,940 --> 01:41:35,130

code would prevent me but also you don't

2054

01:41:39,530 --> 01:41:37,950

want to look in direct sources of light

2055

01:41:41,750 --> 01:41:39,540

with this other why she could possibly

2056

01:41:43,130 --> 01:41:41,760

hurt the lens I thought I would be

2057

01:41:45,950 --> 01:41:43,140

looking in the neighbors window hurt

2058

01:41:47,930 --> 01:41:45,960

your lens right right picture I mean a

2059

01:41:50,970 --> 01:41:47,940

flash with her

2060

01:41:52,650 --> 01:41:50,980

but are you guys familiar with Mackinac

2061

01:41:54,810 --> 01:41:52,660

Island up in the straits of mackinac

2062

01:41:59,430 --> 01:41:54,820

between the upper lower peninsula it's

2063

01:42:02,130 --> 01:41:59,440

after me okay well my wife and I went up

2064

01:42:04,140 --> 01:42:02,140

there on a I forget what meteor shower

2065

01:42:06,390 --> 01:42:04,150

was but they use one of the regular

2066

01:42:09,540 --> 01:42:06,400

ferry boats safety progressive presents

2067

01:42:11,220 --> 01:42:09,550

mindflow knows who the fool oh you find

2068

01:42:13,980 --> 01:42:11,230

yourself lying on a beach

2069

01:42:15,990 --> 01:42:13,990

feeling warm sand sink between your toes

2070

01:42:18,480 --> 01:42:16,000

you ask a passing seagull how you

2071

01:42:20,370 --> 01:42:18,490

achieved this bliss saving money the

2072

01:42:22,650 --> 01:42:20,380

seagull whispers by bundling your auto

2073

01:42:25,890 --> 01:42:22,660

and motorcycle insurance you thank the

2074

01:42:28,050 --> 01:42:25,900

seagull he steals your sandwich ascend

2075

01:42:30,000 --> 01:42:28,060

to a higher plane of insurance bundle

2076
01:42:32,040 --> 01:42:30,010
your policies and save with progressive

2077
01:42:33,060 --> 01:42:32,050
visit progressive.com progressive

2078
01:42:34,410 --> 01:42:33,070
casualty insurance company and

2079
01:42:36,030 --> 01:42:34,420
affiliates discounts not available in

2080
01:42:38,970 --> 01:42:36,040
all states take you across to the island

2081
01:42:41,490 --> 01:42:38,980
and it's all all set up with chairs and

2082
01:42:44,940 --> 01:42:41,500
so forth and so we went out to see this

2083
01:42:46,320 --> 01:42:44,950
this meteor shower and it's what you

2084
01:42:47,730 --> 01:42:46,330
know it takes you right by the bridge or

2085
01:42:49,320 --> 01:42:47,740
actually go just a little bit under the

2086
01:42:51,450 --> 01:42:49,330
Mackinac Bridge and so forth

2087
01:42:53,490 --> 01:42:51,460
but we brought the night-vision goggles

2088
01:42:54,780 --> 01:42:53,500

and we could see I mean you could tell

2089

01:42:57,900 --> 01:42:54,790

when people were seeing something

2090

01:42:59,730 --> 01:42:57,910

because they go ooh right yeah but we

2091

01:43:01,980 --> 01:42:59,740

could see all kinds of stuff going on

2092

01:43:03,870 --> 01:43:01,990

all the time oh wow others couldn't see

2093

01:43:05,700 --> 01:43:03,880

it it was phenomenal especially loaded

2094

01:43:07,860 --> 01:43:05,710

their horizon these things were popping

2095

01:43:10,380 --> 01:43:07,870

off all the time yeah right it's really

2096

01:43:12,960 --> 01:43:10,390

really fascinating to use these things

2097

01:43:14,370 --> 01:43:12,970

during a meteor show right yeah like one

2098

01:43:16,110 --> 01:43:14,380

of the ones that came in August around

2099

01:43:18,450 --> 01:43:16,120

here we're gonna answer the pleadings

2100

01:43:20,610 --> 01:43:18,460

yeah right you know sometimes what is it

2101
01:43:23,700 --> 01:43:20,620
the Pleiades like the middle of August

2102
01:43:25,440 --> 01:43:23,710
and sometimes you'll see almost like how

2103
01:43:27,930 --> 01:43:25,450
he's described as I get to straight

2104
01:43:32,940 --> 01:43:27,940
straight yeah and sometimes they go over

2105
01:43:36,240 --> 01:43:32,950
in a second yeah hate to say this blew

2106
01:43:38,430 --> 01:43:36,250
up yeah so much debris yeah yeah how

2107
01:43:40,200 --> 01:43:38,440
close it appears yeah right oh say you

2108
01:43:41,610 --> 01:43:40,210
reach out and touch it it looks like it

2109
01:43:44,070 --> 01:43:41,620
hits the ground in front of you or

2110
01:43:46,560 --> 01:43:44,080
something yeah and sometimes that you

2111
01:43:48,300 --> 01:43:46,570
see these bright colors red green and so

2112
01:43:49,980 --> 01:43:48,310
forth yeah green these meteor showers

2113
01:43:52,020 --> 01:43:49,990

yeah I've seen a green meteor before I'm

2114

01:43:55,000 --> 01:43:52,030

on my honeymoon as it turned out so we

2115

01:43:58,070 --> 01:43:55,010

took that as though not a good luck

2116

01:43:59,959 --> 01:43:58,080

but anyway moving on

2117

01:44:01,939 --> 01:43:59,969

it's just a few few examples of some of

2118

01:44:06,290 --> 01:44:01,949

the things astronauts have reported yes

2119

01:44:08,780 --> 01:44:06,300

July 18 1966 astronaut John Young aboard

2120

01:44:11,180 --> 01:44:08,790

Gemini 10 he reported he said we have

2121

01:44:13,250 --> 01:44:11,190

two bright objects in our orbital path I

2122

01:44:14,629 --> 01:44:13,260

don't think they are stars that mean

2123

01:44:16,550 --> 01:44:14,639

that's the first go-to thing that

2124

01:44:18,229 --> 01:44:16,560

anybody train is going to go to a make

2125

01:44:20,959 --> 01:44:18,239

sure that they're not mistaking stars or

2126
01:44:22,790 --> 01:44:20,969
something else and they says they seem

2127
01:44:25,879 --> 01:44:22,800
to be following us and then they just

2128
01:44:27,919 --> 01:44:25,889
disappeared Gemini 7 Borman and Lovell

2129
01:44:30,410 --> 01:44:27,929
isn't it great to hear these names again

2130
01:44:34,669 --> 01:44:30,420
astronauts you know they were in there a

2131
01:44:36,709 --> 01:44:34,679
second orbit on Gemini 7 and they and

2132
01:44:37,820 --> 01:44:36,719
they reported a if you know what you

2133
01:44:40,010 --> 01:44:37,830
don't get a good description but the

2134
01:44:41,780 --> 01:44:40,020
report is an unidentified object and

2135
01:44:44,300 --> 01:44:41,790
they said are you sure it's not the

2136
01:44:46,250 --> 01:44:44,310
booster rocket and he said no we know

2137
01:44:50,600 --> 01:44:46,260
where the booster is this is an actual

2138
01:44:54,919 --> 01:44:50,610

sighting Wow yes Gordon Gordon Cooper

2139

01:44:58,339 --> 01:44:54,929

may 16 1963 a grinning object with a red

2140

01:44:59,870 --> 01:44:58,349

tail was approaching a spacecraft and it

2141

01:45:01,189 --> 01:44:59,880

was visible actually something it was

2142

01:45:05,540 --> 01:45:01,199

visible from the ground where he was

2143

01:45:07,729 --> 01:45:05,550

being tracked and and then you know you

2144

01:45:11,330 --> 01:45:07,739

hear the original transmissions and then

2145

01:45:13,160 --> 01:45:11,340

there was no comment I just want to ask

2146

01:45:15,290 --> 01:45:13,170

if I could just throw the chart off for

2147

01:45:17,810 --> 01:45:15,300

a second now you always say there

2148

01:45:20,510 --> 01:45:17,820

commander that when the live feed is

2149

01:45:23,050 --> 01:45:20,520

coming in from the ISS the International

2150

01:45:25,399 --> 01:45:23,060

Space Station which I happen to be

2151
01:45:27,140 --> 01:45:25,409
clicking on the other day on YouTube we

2152
01:45:30,800 --> 01:45:27,150
just go on and it's you know we came

2153
01:45:32,959 --> 01:45:30,810
outside that right that there have been

2154
01:45:34,430 --> 01:45:32,969
occasions where astronauts have gone out

2155
01:45:37,720 --> 01:45:34,440
and covered up the lens because

2156
01:45:39,800 --> 01:45:37,730
something is going by right okay

2157
01:45:43,010 --> 01:45:39,810
everything has been explained is all

2158
01:45:45,020 --> 01:45:43,020
these you know these convenient lineups

2159
01:45:46,850 --> 01:45:45,030
where you have the astronauts hand that

2160
01:45:49,790 --> 01:45:46,860
gloved hand that goes in front of the

2161
01:45:52,760 --> 01:45:49,800
lens of the camera on a spacewalk the

2162
01:45:56,149 --> 01:45:52,770
camera shuts down when something is seen

2163
01:45:57,950 --> 01:45:56,159

for you know X number of seconds yes on

2164

01:46:00,229 --> 01:45:57,960

the corner of screen and then the feat

2165

01:46:02,540 --> 01:46:00,239

is lost the cameras down the cable bill

2166

01:46:05,510 --> 01:46:02,550

wasn't paid maybe I maybe have you know

2167

01:46:08,000 --> 01:46:05,520

off this explanation before but maybe

2168

01:46:08,810 --> 01:46:08,010

what it is instead of because if if they

2169

01:46:11,930 --> 01:46:08,820

were you know

2170

01:46:15,320 --> 01:46:11,940

something of alien nature then you would

2171

01:46:17,060 --> 01:46:15,330

have to assume that everyone who has

2172

01:46:18,650 --> 01:46:17,070

been up to the space station is gonna

2173

01:46:20,510 --> 01:46:18,660

keep their mouths shut and there's more

2174

01:46:21,620 --> 01:46:20,520

Russians up there than we are then you

2175

01:46:23,180 --> 01:46:21,630

know somebody's gonna have to talk

2176

01:46:26,270 --> 01:46:23,190

someone would have to talk is it more

2177

01:46:28,040 --> 01:46:26,280

likely that they know let's say Russian

2178

01:46:30,200 --> 01:46:28,050

knows one of the satellites is coming

2179

01:46:33,350 --> 01:46:30,210

and it's gonna it's gonna fall within

2180

01:46:36,050 --> 01:46:33,360

the you know the the cameras range and

2181

01:46:38,270 --> 01:46:36,060

no one wants their own satellites to be

2182

01:46:40,340 --> 01:46:38,280

seen so a Russian guy goes out and he

2183

01:46:43,070 --> 01:46:40,350

covers up the lens and then if it might

2184

01:46:44,660 --> 01:46:43,080

happen a month later to an American yeah

2185

01:46:46,550 --> 01:46:44,670

comes the American spy satellite we

2186

01:46:48,050 --> 01:46:46,560

don't want it on video so you know they

2187

01:46:50,390 --> 01:46:48,060

gotta cover up the lens why don't they

2188

01:46:52,220 --> 01:46:50,400

just put a lens over the lens you don't

2189

01:46:55,550 --> 01:46:52,230

have to but you know what I mean maybe

2190

01:46:57,380 --> 01:46:55,560

we broke remote control so they think

2191

01:46:59,930 --> 01:46:57,390

you log you make a really good point

2192

01:47:01,700 --> 01:46:59,940

back art I should say vMac but my

2193

01:47:03,410 --> 01:47:01,710

problem with that is with the recent

2194

01:47:05,420 --> 01:47:03,420

disclosure of all the things have been

2195

01:47:07,520 --> 01:47:05,430

going on with the Pentagon in this

2196

01:47:08,960 --> 01:47:07,530

make-believe you know everything is

2197

01:47:11,090 --> 01:47:08,970

great with the Russians on the space

2198

01:47:13,750 --> 01:47:11,100

station stuff that's gone on and yeah I

2199

01:47:16,640 --> 01:47:13,760

I think that the complexion this

2200

01:47:19,340 --> 01:47:16,650

argument has changed post the the

2201

01:47:20,870 --> 01:47:19,350

Pentagon program release that there is a

2202

01:47:22,610 --> 01:47:20,880

lot more that's been going on and

2203

01:47:24,770 --> 01:47:22,620

everything needs to be viewed with a

2204

01:47:26,390 --> 01:47:24,780

greater amount of suspicion I think than

2205

01:47:28,610 --> 01:47:26,400

it was I agree with that I think it'd be

2206

01:47:30,530 --> 01:47:28,620

hard for us to be in any kind of

2207

01:47:33,380 --> 01:47:30,540

conspiracy right now at the rent well I

2208

01:47:35,870 --> 01:47:33,390

shouldn't even go there anyway yeah hey

2209

01:47:39,790 --> 01:47:35,880

listen the switchy thanks for joining us

2210

01:47:55,910 --> 01:47:52,250

we have 23 seconds that's a tease for

2211

01:47:58,970 --> 01:47:55,920

the next show yeah exciting cool there

2212

01:48:00,770 --> 01:47:58,980

was a rocket creating four frosted

2213

01:48:02,810 --> 01:48:00,780

flakes right now and believe me - that's

2214

01:48:04,520 --> 01:48:02,820

all I want is I haven't eaten that in a

2215

01:48:06,710 --> 01:48:04,530

long time because it's like the sugar

2216

01:48:08,090 --> 01:48:06,720

content is through the roof Tom Brady

2217

01:48:11,420 --> 01:48:08,100

would be pissed if you don't wake you up

2218

01:48:15,220 --> 01:48:11,430

frosted flakes Thank You switchy for

2219

01:48:19,130 --> 01:48:15,230

joining us and hopefully friend Emily

2220

01:48:22,280 --> 01:48:19,140

Emily M who's down in Miami at a

2221

01:48:24,050 --> 01:48:22,290

dysfunction was she's gonna carry us up

2222

01:48:25,790 --> 01:48:24,060

into the dinner or something I thought

2223

01:48:28,100 --> 01:48:25,800

she was gonna like Wii Remote a sip

2224

01:48:30,050 --> 01:48:28,110

yeah okay well she's FaceTime is it

2225

01:48:33,020 --> 01:48:30,060

she's probably busy and she needs a

2226

01:48:37,840 --> 01:48:33,030

break from us so switch thanks for doing

2227

01:48:40,010 --> 01:48:37,850

double duty tonight BB I should say a

2228

01:48:42,080 --> 01:48:40,020

lot of nice reminiscing connect those

2229

01:48:45,110 --> 01:48:42,090

segments right

2230

01:48:46,760 --> 01:48:45,120

Cobra thank you for joining us as all

2231

01:48:48,800 --> 01:48:46,770

gentleman thank you okay

2232

01:48:52,310 --> 01:48:48,810

hey thanks for keeping us on track both

2233

01:48:55,480 --> 01:48:52,320

historically and scientifically I have a

2234

01:49:10,820 --> 01:48:55,490

feeling that he's in a hurry to get off

2235

01:49:21,400 --> 01:49:10,830

Thank You Ellie Maloney catch him with a

2236

01:49:24,830 --> 01:49:23,660

that's a tease for the next show well

2237

01:49:25,300 --> 01:49:24,840

maybe we should just leave it right

2238

01:49:28,970 --> 01:49:25,310

there

2239

01:49:29,720 --> 01:49:28,980

thank you Cobra Thank You Ellie Ellie

2240

01:49:31,790 --> 01:49:29,730

Maloney

2241

01:49:37,930 --> 01:49:31,800

thank you for Pistol Pete for coming in

2242

01:49:40,430 --> 01:49:37,940

here I know and firstest for weapons

2243

01:49:42,020 --> 01:49:40,440

he's getting any complaints because we

2244

01:49:44,270 --> 01:49:42,030

did have several complaints from at the

2245

01:49:44,960 --> 01:49:44,280

last place and remember there were three

2246

01:49:47,450 --> 01:49:44,970

main ones

2247

01:49:50,440 --> 01:49:47,460

number one lights flashing runnin off

2248

01:49:53,750 --> 01:49:50,450

which I figure that we never did that

2249

01:49:55,550 --> 01:49:53,760

women leaving at all hours that's right

2250

01:49:57,680 --> 01:49:55,560

which kind of habits some strange

2251

01:50:00,770 --> 01:49:57,690

congregations out outside the door

2252

01:50:06,680 --> 01:50:00,780

too much smoke hiding behind the car so

2253

01:50:08,210 --> 01:50:06,690

mr. Peters a real person huh jelly bean

2254

01:50:09,770 --> 01:50:08,220

oh you'll hear him on the segment I

2255

01:50:13,310 --> 01:50:09,780

think he said too much smoke at the

2256

01:50:15,380 --> 01:50:13,320

front yeah jelly all reported by

2257

01:50:20,510 --> 01:50:15,390

somebody wearing binoculars across yeah

2258

01:50:22,910 --> 01:50:20,520

right yeah jelly bean yeah the dog that

2259

01:50:24,440 --> 01:50:22,920

assaulted me I should sue that bug hey

2260

01:50:27,770 --> 01:50:24,450

speaking of jelly beans I heard a rumor

2261

01:50:30,690 --> 01:50:27,780

that there's weed traces in the jelly

2262

01:50:33,660 --> 01:50:30,700

beans from that place in Maine

2263

01:50:36,030 --> 01:50:33,670

the looks like you yes please a store

2264

01:50:39,630 --> 01:50:36,040

yeah up just past Kittery that way yeah

2265

01:50:42,120 --> 01:50:39,640

yeah yeah let me just say one word you

2266

01:50:44,330 --> 01:50:42,130

know try shocked to hear something

2267

01:50:47,100 --> 01:50:44,340

what's in it well what's in them

2268

01:50:49,250 --> 01:50:47,110

cannabis is in the jellybeans right do

2269

01:50:51,840 --> 01:50:49,260

you hear that story they're all-natural

2270

01:50:53,490 --> 01:50:51,850

true but where's it getting in the

2271

01:50:55,200 --> 01:50:53,500

jellybeans those jellybeans are awesome

2272

01:50:58,440 --> 01:50:55,210

too okay I'll see you guys later they're

2273

01:50:59,820 --> 01:50:58,450

great to die for pretty close by yeah I

2274

01:51:01,200 --> 01:50:59,830

guess stop with that candy so what

2275

01:51:04,170 --> 01:51:01,210

people getting high in the jellybeans

2276

01:51:05,730 --> 01:51:04,180

yeah somebody put it out there on the

2277

01:51:10,530 --> 01:51:05,740

news or something somebody told me about

2278

01:51:15,150 --> 01:51:10,540

it Wow huh who know so you can with this

2279

01:51:17,430 --> 01:51:15,160

Cobra or what I am NOT like a good

2280

01:51:21,210 --> 01:51:17,440

conspiracy but you know the candy storm

2281

01:51:23,930 --> 01:51:21,220

talk maybe oh yes I can see it as a pink

2282

01:51:26,400 --> 01:51:23,940

outdoorsy thank you very colorful yeah I

2283

01:51:32,630 --> 01:51:26,410

could see people for me a little kid

2284

01:51:36,000 --> 01:51:34,650

this weekend okay

2285

01:51:38,400 --> 01:51:36,010

let me go around the horn again Thank

2286

01:51:41,430 --> 01:51:38,410

You Ellie Maloney for joining Pistol

2287

01:51:44,460 --> 01:51:41,440

Pete switchy hopefully we'll talk to em

2288

01:51:47,010 --> 01:51:44,470

very soon Thank You Coco they call them

2289

01:51:49,020 --> 01:51:47,020

Cobra and Thank You Juan Juan for

2290

01:51:50,550 --> 01:51:49,030

gracing us a welcome glad to be here and

2291

01:51:52,980 --> 01:51:50,560

to get all those little girls hots

2292

01:51:56,880 --> 01:51:52,990

aflutter once again which generate

2293

01:51:59,250 --> 01:51:56,890

through raving cirrhosis we'll have to

2294

01:52:01,830 --> 01:51:59,260

don't have to hear from our male

2295

01:52:04,440 --> 01:52:01,840

security guy Yeah right yeah yep Club

2296

01:52:06,030 --> 01:52:04,450

see what comes in yeah as he says or I

2297

01:52:08,010 --> 01:52:06,040

should say a security guy who checks the

2298

01:52:10,170 --> 01:52:08,020

mail that's right yes there's also mail

2299

01:52:12,360 --> 01:52:10,180

but I take rest right yeah another show

2300

01:52:13,860 --> 01:52:12,370

and thank you for joining us and until
