do the outlandish corner and I've been

48

00:02:07,999 --> 00:02:06,180

better about that but last week I did a

49

00:02:09,050 --> 00:02:08,009

full show of the outlandish corner and

50

00:02:10,760 --> 00:02:09,060

that's where I take your comments and

51

00:02:13,240 --> 00:02:10,770

questions and things that you

52

00:02:16,030 --> 00:02:13,250

experienced personally and

53

00:02:19,000 --> 00:02:16,040

but the whole time answering those and

54

00:02:21,000 --> 00:02:19,010

so this week I was going to skip that

55

00:02:23,320 --> 00:02:21,010

but the outlandish corner is always open

56

00:02:25,390 --> 00:02:23,330

place in Cincinnati his novel

71

00:03:07,120 --> 00:03:04,489

Cincinnati begins with homestead

72

00:03:09,790 --> 00:03:07,130

Florida's coral castle and delves into

73

00:03:12,520 --> 00:03:09,800

several other historic and fascinating

74

00:03:14,949 --> 00:03:12,530

American elements including the Society

75

00:03:16,780 --> 00:03:14,959

of Cincinnati America's oldest military

76

00:03:20,440 --> 00:03:16,790

society I have a lot of family over

77

00:03:23,199 --> 00:03:20,450

School of divinity and he's here to talk

80

00:03:31,960 --> 00:03:29,150

about the subject of his fantastic book

81

00:03:34,600 --> 00:03:31,970

Coral Castle everybody give her a round

82

00:03:37,180 --> 00:03:34,610

of applause for rusty McClure they're

83

00:03:39,729 --> 00:03:37,190

going crazy rusty I'm so happy I got you

84

00:03:43,560 --> 00:03:39,739

for tonight how are you doing I'm doing

85

00:03:46,750 --> 00:03:43,570

great awesome way to be on the show

86

00:03:50,710 --> 00:03:46,760

are you kidding me this is going to be a

87

00:03:53,770 --> 00:03:50,720

fantastic show I I just totally dig the

88

00:03:56,770 --> 00:03:53,780

mystery of Coral Castle and there's so

89

00:03:59,110 --> 00:03:56,780

much to get to in regards to it I guess

90

00:04:01,090 --> 00:03:59,120

it's best to kind of begin from the

91

00:04:03,310 --> 00:04:01,100

beginning with you and how you came

92

00:04:11,020 --> 00:04:03,320

across this mystery and why you found it

93

00:04:12,610 --> 00:04:11,030

so fascinating well I was in Miami at

94

00:04:20,069 --> 00:04:12,620

one of those restaurants where they have

95

00:04:25,870 --> 00:04:22,810

tourist places you can go to a little

96

00:04:27,070 --> 00:04:25,880

you know the little pamphlets yeah so I

97

00:04:29,740 --> 00:04:27,080

grabbed him up on the way

98

00:04:32,499 --> 00:04:29,750

to the restaurant and I started reading

99

00:04:37,869 --> 00:04:32,509

him and pitching him and I find one that

100

00:04:40,390 --> 00:04:37,879

describes to Coral Castle and I was in

101
00:04:43,589 --> 00:04:40,400
Florida visiting my wife and I were

102
00:04:47,610 --> 00:04:43,599
visiting her parents are in-laws and

103
00:04:50,469 --> 00:04:47,620
Hurricane Andrew had blasted through

104
00:04:53,080 --> 00:04:50,479
Homestead and we couldn't go visit it

105
00:04:56,320 --> 00:04:53,090
because it was all closed down and the

106
00:04:58,420 --> 00:04:56,330
truth is the only place in Homestead it

107
00:05:00,820 --> 00:04:58,430
survived it was that Coral Castle but

108
00:05:03,279 --> 00:05:00,830
the national garden because of a Air

109
00:05:05,670 --> 00:05:03,289
Force Base and so forth we couldn't go

110
00:05:08,709 --> 00:05:05,680
down there and that was in the early

111
00:05:10,510 --> 00:05:08,719
1990s and I just started because I was

112
00:05:13,749 --> 00:05:10,520
denied probably going there and I read a

113
00:05:17,790 --> 00:05:13,759

lot I started paying attention to Ed

114

00:05:20,559 --> 00:05:17,800

Leedskalnin in his Coral Castle and

115

00:05:22,809 --> 00:05:20,569

that's how I got interested in it so one

116

00:05:25,029 --> 00:05:22,819

day I got to visit it Wow

117

00:05:27,879 --> 00:05:25,039

so what was that first visit like I've

118

00:05:29,790 --> 00:05:27,889

never been there I mean is it just take

119

00:05:35,800 --> 00:05:29,800

your breath away I mean what is it like

120

00:05:39,519 --> 00:05:35,810

I started as you said working backwards

121

00:05:44,050 --> 00:05:39,529

to the biography of Eden I guess the

122

00:05:48,339 --> 00:05:44,060

biography of the castle by interjecting

123

00:05:50,279 --> 00:05:48,349

it into a novel that and starting the

124

00:05:53,320 --> 00:05:50,289

novel actually with the mystery of

125

00:05:55,980 --> 00:05:53,330

whatever secret he used to build that

126
00:06:00,610 --> 00:05:55,990
castle and we took it off from there and

127
00:06:03,070 --> 00:06:00,620
we wanted to do research and as we had

128
00:06:05,050 --> 00:06:03,080
builded up in our heads so high just

129
00:06:08,140 --> 00:06:05,060
before we pulled up in the parking lot

130
00:06:12,610 --> 00:06:08,150
found it in what is now basically

131
00:06:15,249 --> 00:06:12,620
Downton homestead we were worried that

132
00:06:18,329 --> 00:06:15,259
we were going to be disappointed you

133
00:06:25,029 --> 00:06:18,339
know what happens if this was flimsy

134
00:06:28,290 --> 00:06:25,039
small and a disappointment and so as we

135
00:06:30,939 --> 00:06:28,300
rounded into the parking lot we were

136
00:06:34,839 --> 00:06:30,949
kind of scared that what it was what I

137
00:06:36,100 --> 00:06:34,849
just said and here it was and now it's

138
00:06:37,389 --> 00:06:36,110

not the biggest castle it's not a

139

00:06:40,510 --> 00:06:37,399

European castle

140

00:06:42,309 --> 00:06:40,520

it's not massive but when

141

00:06:43,960 --> 00:06:42,319

you realize this guy was 5 feet tall and

142

00:06:47,770 --> 00:06:43,970

he built it by himself this thing is

143

00:06:49,629 --> 00:06:47,780

very very large and so all of a sudden

144

00:06:52,420 --> 00:06:49,639

we're looking at it I mean the walls are

145

00:06:59,080 --> 00:06:52,430

three and four feet thick

146

00:07:03,159 --> 00:06:59,090

they're 810 feet high they are 12 to 20

147

00:07:06,809 --> 00:07:03,169

feet long and they are it is indeed a

148

00:07:09,909 --> 00:07:06,819

very large castle I mean these walls are

149

00:07:13,689 --> 00:07:09,919

big thick walls and then what you find

150

00:07:17,790 --> 00:07:13,699

inside or even bigger than the walls I

151
00:07:21,430 --> 00:07:17,800
mean there's obelisk that are taller and

152
00:07:25,240 --> 00:07:21,440
heavier than the biggest obelisk and

153
00:07:28,089 --> 00:07:25,250
Stonehenge now the tribes do it took

154
00:07:29,290 --> 00:07:28,099
tribes of Druids two and three hundred

155
00:07:33,730 --> 00:07:29,300
years the drags

156
00:07:36,909 --> 00:07:33,740
Stonehenge together this guy inside of a

157
00:07:38,050 --> 00:07:36,919
very small lifetime twenty thirty years

158
00:07:42,219 --> 00:07:38,060
of his lifetime

159
00:07:44,709 --> 00:07:42,229
built this castle all by himself total

160
00:07:48,969 --> 00:07:44,719
it is very very large castle given what

161
00:07:51,999 --> 00:07:48,979
I just told you and in comparison the

162
00:07:55,149 --> 00:07:52,009
type of stone that he uses coral what

163
00:07:58,019 --> 00:07:55,159

how does that compare with other stone

164

00:08:01,990 --> 00:07:58,029

structures in the world as far as weight

165

00:08:07,689 --> 00:08:02,000

difficulty to work with it's very heavy

166

00:08:11,769 --> 00:08:07,699

and it's very brittle so this guy had

167

00:08:15,939 --> 00:08:11,779

was able to carve these big chunks of it

168

00:08:18,490 --> 00:08:15,949

and lift them when any mistake you'd

169

00:08:20,680 --> 00:08:18,500

make probably would have shattered him

170

00:08:22,719 --> 00:08:20,690

you know would have would have dinged

171

00:08:25,689 --> 00:08:22,729

him up at least and put cracks in them

172

00:08:27,430 --> 00:08:25,699

yeah and that didn't happen I mean it

173

00:08:30,670 --> 00:08:27,440

didn't happen much because you would

174

00:08:34,389 --> 00:08:30,680

seen it all around on the floor of the

175

00:08:37,149 --> 00:08:34,399

castle I mean he cut these things in a

176

00:08:41,199 --> 00:08:37,159

way that nobody knows how he exactly did

177

00:08:43,300 --> 00:08:41,209

it so precisely and it was not easy

178

00:08:44,440 --> 00:08:43,310

there was when you look at it you know

179

00:08:47,889 --> 00:08:44,450

wasn't easy

180

00:08:51,069 --> 00:08:47,899

are there any tool markings not much

181

00:08:52,840 --> 00:08:51,079

it's very there it's there's no chips

182

00:08:54,340 --> 00:08:52,850

around they've even had a little like

183

00:08:56,980 --> 00:08:54,350

people tried to stir

184

00:08:59,320 --> 00:08:56,990

it almost like an archeological dig if

185

00:09:02,980 --> 00:08:59,330

you would yeah and what they realized

186

00:09:05,890 --> 00:09:02,990

very quickly is he cut these things once

187

00:09:08,920 --> 00:09:05,900

there's not all these chip fragments and

188

00:09:11,710 --> 00:09:08,930

and pieces all around where he messed up

189

00:09:17,140 --> 00:09:11,720

he was really good at cutting these

190

00:09:21,580 --> 00:09:17,150

things straight and he got these stones

191

00:09:24,700 --> 00:09:21,590

where was he harvesting them from he

192

00:09:26,530 --> 00:09:24,710

harvests them right from there if you go

193

00:09:29,710 --> 00:09:26,540

to South Florida and you dig down

194

00:09:32,650 --> 00:09:29,720

through the rich topsoil a foot or two

195

00:09:37,740 --> 00:09:32,660

or three depending on how deep it is you

196

00:09:40,720 --> 00:09:37,750

reach light limestone oolite

197

00:09:44,070 --> 00:09:40,730

limestone we call it coral rock and it's

198

00:09:48,250 --> 00:09:44,080

just all over there the basin of the

199

00:09:50,560 --> 00:09:48,260

Everglades and he minded it right there

200

00:09:53,260 --> 00:09:50,570

pulled right up at pulled it right up

201
00:09:56,380 --> 00:09:53,270
out of the rock after he got the top

202
00:09:57,910 --> 00:09:56,390
soil removed scraped away so that's I

203
00:09:59,500 --> 00:09:57,920
was curious about that you know it's

204
00:10:01,120 --> 00:09:59,510
like this guy went back and forth and

205
00:10:05,340 --> 00:10:01,130
brought those stones from somewhere but

206
00:10:08,440 --> 00:10:05,350
he did it right on his own land this one

207
00:10:12,790 --> 00:10:08,450
Astra's to that if that is the very

208
00:10:17,320 --> 00:10:12,800
first time he built much of the elements

209
00:10:20,920 --> 00:10:17,330
of the castle 1012 miles away in Florida

210
00:10:26,350 --> 00:10:20,930
City and halfway through the project

211
00:10:29,710 --> 00:10:26,360
let's say in the 1930s he moved it to

212
00:10:34,360 --> 00:10:29,720
South Dixie Highway what is now

213
00:10:37,390 --> 00:10:34,370

basically part of downtown homestead so

214

00:10:40,390 --> 00:10:37,400

he did take it from one place to another

215

00:10:42,570 --> 00:10:40,400

but only because he moved his castle and

216

00:10:46,500 --> 00:10:42,580

moved the elements of his castles use

217

00:10:49,480 --> 00:10:46,510

then gonna build the rest of the castle

218

00:10:52,510 --> 00:10:49,490

so that's fascinating so when when I

219

00:10:58,500 --> 00:10:52,520

think about coral I mean it's it's kind

220

00:11:03,880 --> 00:10:58,510

of a jagged looking stone yeah

221

00:11:05,950 --> 00:11:03,890

accidentally bump into it yeah it's

222

00:11:08,260 --> 00:11:05,960

jagged but I mean it's he cut it

223

00:11:09,880 --> 00:11:08,270

smoothly but it's still a jagged rock

224

00:11:13,330 --> 00:11:09,890

go to look at it and I encourage

225

00:11:14,980 --> 00:11:13,340

everybody who's listening to go and see

226

00:11:17,140 --> 00:11:14,990

this for themselves they will not be

227

00:11:19,330 --> 00:11:17,150

disappointed because you won't be

228

00:11:22,210 --> 00:11:19,340

disappointed how long does it take for

229

00:11:24,580 --> 00:11:22,220

you to go through this castle

230

00:11:28,750 --> 00:11:24,590

pretty methodically I mean as an as a

231

00:11:30,940 --> 00:11:28,760

new tourist 45 minutes hour hour and 15

232

00:11:32,350 --> 00:11:30,950

minutes if you want to go back and you

233

00:11:36,520 --> 00:11:32,360

know marvel at some of the things you've

234

00:11:38,800 --> 00:11:36,530

seen the second time it's it's large for

235

00:11:40,690 --> 00:11:38,810

a guy who is 5 feet tall weighed a

236

00:11:44,800 --> 00:11:40,700

hundred pounds to have lived there and

237

00:11:47,230 --> 00:11:44,810

build it it's not you know it's like I

238

00:11:50,020 --> 00:11:47,240

said before it's not at European castle

239

00:11:52,570 --> 00:11:50,030

where you know horses and knights and

240

00:11:55,510 --> 00:11:52,580

whole city would village would live

241

00:11:58,920 --> 00:11:55,520

inside of it it's it's it's a very large

242

00:12:03,010 --> 00:11:58,930

castle for one little hermit to have

243

00:12:05,140 --> 00:12:03,020

built and call and called own and called

244

00:12:08,370 --> 00:12:05,150

him and he lived there the entire time

245

00:12:11,170 --> 00:12:08,380

he was building this thing yes he did

246

00:12:14,410 --> 00:12:11,180

you know at the first location and then

247

00:12:17,140 --> 00:12:14,420

there's a second location wow that's

248

00:12:21,100 --> 00:12:17,150

fascinating and that he moved it that I

249

00:12:24,900 --> 00:12:21,110

don't think I heard before yeah he moved

250

00:12:27,490 --> 00:12:24,910

it and he hired a guy who was a local

251
00:12:30,820 --> 00:12:27,500
guy because he had a great big truck and

252
00:12:32,860 --> 00:12:30,830
he had big balloon tires and one of the

253
00:12:36,520 --> 00:12:32,870
things we have to always remember is

254
00:12:39,010 --> 00:12:36,530
that documented is that nobody ever saw

255
00:12:42,610 --> 00:12:39,020
him really do the work he was very

256
00:12:46,900 --> 00:12:42,620
secretive and he was very remotely at

257
00:12:50,200 --> 00:12:46,910
the time removed from the small 800 or

258
00:12:55,440 --> 00:12:50,210
so people who lived in homestead village

259
00:13:02,260 --> 00:12:55,450
let's call it not even a city and and so

260
00:13:06,000 --> 00:13:02,270
he hires a local gentleman to bring his

261
00:13:09,630 --> 00:13:06,010
big flatbed truck with balloon tires and

262
00:13:14,740 --> 00:13:09,640
then he loads these major elements on

263
00:13:18,100 --> 00:13:14,750

the flatbed truck while the guy leaves

264

00:13:20,740 --> 00:13:18,110

the truck so he can't watch him do it

265

00:13:21,990 --> 00:13:20,750

and the guy like nobody can believe that

266

00:13:24,780 --> 00:13:22,000

a guy could pick up all these

267

00:13:29,100 --> 00:13:24,790

big pieces and put them on the truck and

268

00:13:32,340 --> 00:13:29,110

then he made the loads through homestead

269

00:13:35,040 --> 00:13:32,350

and the people saw the elements come

270

00:13:37,830 --> 00:13:35,050

through on this truck and go to the new

271

00:13:41,370 --> 00:13:37,840

location but they never got to see him

272

00:13:44,700 --> 00:13:41,380

load or unload any of it he would not

273

00:13:47,160 --> 00:13:44,710

allow any of the lifting to be observed

274

00:13:48,900 --> 00:13:47,170

any more than in the building and that

275

00:13:52,800 --> 00:13:48,910

but they would be in the general

276

00:13:55,620 --> 00:13:52,810

vicinity when he was doing it he's tried

277

00:13:57,230 --> 00:13:55,630

to sneak up on him he had little he

278

00:14:00,150 --> 00:13:57,240

worked mostly at night almost

279

00:14:02,760 --> 00:14:00,160

exclusively at night okay and people

280

00:14:07,460 --> 00:14:02,770

would try to stake him out I mean one

281

00:14:10,500 --> 00:14:07,470

lady took her kids out in a car and

282

00:14:13,110 --> 00:14:10,510

quietly rolled the car are close to

283

00:14:15,750 --> 00:14:13,120

where he was working and he had these

284

00:14:18,090 --> 00:14:15,760

little view points where he could look

285

00:14:21,030 --> 00:14:18,100

through the cracks and you know kind of

286

00:14:23,520 --> 00:14:21,040

got any castle and yeah he yelled at her

287

00:14:25,860 --> 00:14:23,530

and waved at her and said how are they

288

00:14:28,380 --> 00:14:25,870

and he and immediately stopped working

289

00:14:31,170 --> 00:14:28,390

and that's what he did all the time he

290

00:14:33,480 --> 00:14:31,180

would he would not let people observe

291

00:14:36,329 --> 00:14:33,490

him working he would stop working if

292

00:14:40,260 --> 00:14:36,339

they try to sneak up at night did they

293

00:14:44,280 --> 00:14:40,270

ever say they heard something strange

294

00:14:47,640 --> 00:14:44,290

like hi hums or anything you know like

295

00:14:50,940 --> 00:14:47,650

loud humming or anything or I couldn't

296

00:14:52,440 --> 00:14:50,950

know I mean I think we have to walk

297

00:14:54,980 --> 00:14:52,450

through the different elements and and

298

00:14:59,579 --> 00:14:54,990

and how he got this going okay

299

00:15:02,460 --> 00:14:59,589

inside the castle in addition to big

300

00:15:06,110 --> 00:15:02,470

walls and I refer to it and their

301
00:15:09,720 --> 00:15:06,120
elements there's also a very large

302
00:15:14,900 --> 00:15:09,730
almost medieval like I would say

303
00:15:18,270 --> 00:15:14,910
medieval fort like two-story living

304
00:15:22,620 --> 00:15:18,280
portion of the castle huge slabs of

305
00:15:26,730 --> 00:15:22,630
these of these some of these pieces of

306
00:15:30,780 --> 00:15:26,740
carved pieces of this boolite limestone

307
00:15:35,100 --> 00:15:30,790
coral rock mark two stories high he

308
00:15:35,910 --> 00:15:35,110
built a stair steps he's built stair

309
00:15:40,639 --> 00:15:35,920
steps

310
00:15:46,500 --> 00:15:40,649
to it in one slab he carved a slab as 16

311
00:15:48,360 --> 00:15:46,510
major stairs one piece I mean I look at

312
00:15:51,710 --> 00:15:48,370
it go I would but I would have made

313
00:15:54,600 --> 00:15:51,720

pieces and jigsaw dit together well yeah

314

00:16:00,060 --> 00:15:54,610

he does this in one great big piece and

315

00:16:03,930 --> 00:16:00,070

it so he lives upstairs and walls are

316

00:16:07,530 --> 00:16:03,940

every bit of three maybe four feet

317

00:16:09,689 --> 00:16:07,540

some places thick you know hot forward a

318

00:16:13,740 --> 00:16:09,699

South Florida Sun yeah

319

00:16:18,180 --> 00:16:13,750

and below directly below on the first

320

00:16:22,639 --> 00:16:18,190

floor is this workshop now you asked

321

00:16:26,460 --> 00:16:22,649

about humming yeah he has a complete and

322

00:16:27,990 --> 00:16:26,470

not a complete at the time but not

323

00:16:30,840 --> 00:16:28,000

complete now so we don't know what all

324

00:16:32,569 --> 00:16:30,850

the elements were generator to make

325

00:16:39,720 --> 00:16:32,579

electricity

326

00:16:42,960 --> 00:16:39,730

this is 1930s late 40s rural Florida

327

00:16:46,590 --> 00:16:42,970

he's built his own generator to make

328

00:16:50,970 --> 00:16:46,600

electricity he has it's also constructed

329

00:16:54,120 --> 00:16:50,980

his own radio and strung and this is and

330

00:16:58,040 --> 00:16:54,130

made tubes out of wine bottles that he's

331

00:17:01,920 --> 00:16:58,050

taken wire and wrapped around them and

332

00:17:04,730 --> 00:17:01,930

created his own crystal radio and then

333

00:17:09,840 --> 00:17:04,740

he has built a pretty powerful

334

00:17:12,000 --> 00:17:09,850

transmitting unit to transmit radio so

335

00:17:16,460 --> 00:17:12,010

people have heard that coming

336

00:17:21,659 --> 00:17:16,470

it's a I mean so this guy is not just a

337

00:17:27,470 --> 00:17:21,669

rock mason we're a rock levitator

338

00:17:34,620 --> 00:17:27,480

whatever fulcrum lever guy he also has

339

00:17:39,180 --> 00:17:34,630

scientific electric radio mentalities

340

00:17:44,820 --> 00:17:39,190

what was his background he was third or

341

00:17:49,289 --> 00:17:44,830

fourth grade educated Latvian immigrant

342

00:17:54,659 --> 00:17:49,299

to the United States whose grandfather

343

00:17:58,529 --> 00:17:54,669

was a stonemason ah okay when he was 26

344

00:18:01,560 --> 00:17:58,539

years old he was going to marry a 16

345

00:18:05,369 --> 00:18:01,570

year old girl in Riga Latvia oh I love

346

00:18:08,310 --> 00:18:05,379

this story she's told him the night

347

00:18:10,859 --> 00:18:08,320

before they were gonna get married she

348

00:18:14,039 --> 00:18:10,869

wasn't gonna go through with it yeah he

349

00:18:20,159 --> 00:18:14,049

was strange he was something the next

350

00:18:24,029 --> 00:18:20,169

day he bolted laughs not just Riga he

351

00:18:27,029 --> 00:18:24,039

left home he left Latvia and he headed

352

00:18:35,369 --> 00:18:27,039

for him Hamburg Germany and he got on a

353

00:18:37,139 --> 00:18:35,379

ship and landed in on Ellis Island he

354

00:18:40,859 --> 00:18:37,149

lands on Ellis Island goes through

355

00:18:44,009 --> 00:18:40,869

immigration with two other Latvians ends

356

00:18:47,789 --> 00:18:44,019

up in New Jersey now we know this

357

00:18:49,169 --> 00:18:47,799

because he had to pass papers everywhere

358

00:18:51,989 --> 00:18:49,179

he went you know you don't get through

359

00:18:54,539 --> 00:18:51,999

Ellis Island without without papers and

360

00:18:57,090 --> 00:18:54,549

documentation the ultimen he ultimately

361

00:18:59,849 --> 00:18:57,100

takes those skills those skills of

362

00:19:04,820 --> 00:18:59,859

cutting rock that he some learned in his

363

00:19:08,129 --> 00:19:04,830

family and goes to Washington Oregon

364

00:19:10,609 --> 00:19:08,139

British Columbia where he's cutting logs

365

00:19:15,629 --> 00:19:10,619

and he's a lumber man with his great big

366

00:19:17,430 --> 00:19:15,639

lumber camps we came over here by

367

00:19:19,200 --> 00:19:17,440

himself right he comes over here by

368

00:19:22,680 --> 00:19:19,210

himself and joins up somehow with

369

00:19:25,440 --> 00:19:22,690

anything with two Latvians a couple and

370

00:19:27,389 --> 00:19:25,450

they have family in New Jersey and he

371

00:19:31,080 --> 00:19:27,399

spends a little bit of time in New

372

00:19:37,499 --> 00:19:31,090

Jersey before he heads west he crosses

373

00:19:39,869 --> 00:19:37,509

over as a Latvian citizen he crosses

374

00:19:44,460 --> 00:19:39,879

over the borders between Canada and the

375

00:19:46,560 --> 00:19:44,470

United States and has to pass papers and

376

00:19:49,499 --> 00:19:46,570

every time he does that it's documented

377

00:19:51,989 --> 00:19:49,509

so we kind of do a forensic and that's

378

00:19:53,879 --> 00:19:51,999

how we know where he went I mean we know

379

00:19:56,399 --> 00:19:53,889

what ship he sailed on to the United

380

00:19:58,919 --> 00:19:56,409

States we know that he went back and

381

00:20:02,980 --> 00:19:58,929

forth across it Canadian United States

382

00:20:05,320 --> 00:20:02,990

border where he changed his height from

383

00:20:08,950 --> 00:20:05,330

five-foot-one he grew up to five foot

384

00:20:10,450 --> 00:20:08,960

three even five foot five sometimes we

385

00:20:12,370 --> 00:20:10,460

interview people who knew him and

386

00:20:14,019 --> 00:20:12,380

homestead four he said if he was five

387

00:20:16,389 --> 00:20:14,029

feet tall he might have been five foot

388

00:20:18,639 --> 00:20:16,399

one but he was never he was definitely

389

00:20:26,889 --> 00:20:18,649

never higher that taller than five foot

390

00:20:28,659 --> 00:20:26,899

one yeah he's uh you know he's he's it

391

00:20:30,880 --> 00:20:28,669

feels bad about his height we can

392

00:20:34,380 --> 00:20:30,890

imagine because yeah pumping it up

393

00:20:37,840 --> 00:20:34,390

alright the next thing we know for sure

394

00:20:42,220 --> 00:20:37,850

is that he ends up on the side of the

395

00:20:46,120 --> 00:20:42,230

road Homestead Florida in the ditch I'm

396

00:20:49,000 --> 00:20:46,130

he's lying there emaciated the guy picks

397

00:20:50,320 --> 00:20:49,010

him up a local townsman picks him up and

398

00:20:53,350 --> 00:20:50,330

takes him out to the hospital

399

00:20:55,630 --> 00:20:53,360

cuz this town it only has 800 people so

400

00:20:57,820 --> 00:20:55,640

they take him to that the only doctor in

401
00:21:04,110 --> 00:20:57,830
town the doctor diagnosed the same stage

402
00:21:06,370 --> 00:21:04,120
for tuberculosis oh gosh no it's 1923

403
00:21:09,190 --> 00:21:06,380
there's no penicillin there's no

404
00:21:11,289 --> 00:21:09,200
antibiotics and that's like you don't

405
00:21:14,470 --> 00:21:11,299
want to state the word stage four in

406
00:21:18,220 --> 00:21:14,480
tuberculosis same in the same sentence

407
00:21:21,310 --> 00:21:18,230
and the same Good Samaritan guy who

408
00:21:25,029 --> 00:21:21,320
picked him up takes him home and he and

409
00:21:27,820 --> 00:21:25,039
his wife put him in a tool shed with his

410
00:21:32,669 --> 00:21:27,830
wife and he turned into a hospice type

411
00:21:35,010 --> 00:21:32,679
bed bedroom for him to die to die in

412
00:21:39,100 --> 00:21:35,020
they could have got sick from that

413
00:21:41,950 --> 00:21:39,110

exactly exactly and the doctor says the

414

00:21:44,409 --> 00:21:41,960

doctor says he has no more than six

415

00:21:50,919 --> 00:21:44,419

months to live he probably dead in 100

416

00:21:54,700 --> 00:21:50,929

days 18 months later the doctor is

417

00:21:57,510 --> 00:21:54,710

visiting him asking him how he kept

418

00:21:59,980 --> 00:21:57,520

himself alive and cured himself and

419

00:22:01,570 --> 00:21:59,990

Edward lead Scotland tells the doctor

420

00:22:02,169 --> 00:22:01,580

that he used the powers of magnet

421

00:22:06,760 --> 00:22:02,179

tricity

422

00:22:09,909 --> 00:22:06,770

to cure himself years later when he's

423

00:22:14,260 --> 00:22:09,919

giving tours of his castle

424

00:22:16,840 --> 00:22:14,270

people are asking him how he built his

425

00:22:23,160 --> 00:22:16,850

castle by himself one

426

00:22:25,540 --> 00:22:23,170

man little man heavy heavy stone and

427

00:22:27,970 --> 00:22:25,550

everywhere Leedskalnin would tell them

428

00:22:31,120 --> 00:22:27,980

he used the powers of magnet tricity to

429

00:22:35,980 --> 00:22:31,130

lift the stone same seat say the same

430

00:22:42,750 --> 00:22:35,990

thing he never really explained what

431

00:22:47,170 --> 00:22:42,760

bang knew tricity was 1951 he got ill

432

00:22:50,740 --> 00:22:47,180

got on a bus wrote to Jackson Memorial

433

00:22:54,460 --> 00:22:50,750

Hospital in Miami checked himself in and

434

00:22:59,230 --> 00:22:54,470

died we think with the city with a

435

00:23:04,300 --> 00:22:59,240

secret so that castle how old was he

436

00:23:07,840 --> 00:23:04,310

when he passed 64 years old 64 I'm 64

437

00:23:11,100 --> 00:23:07,850

years old that was not you know this is

438

00:23:14,590 --> 00:23:11,110

early 1950s now he left some pamphlets

439

00:23:18,000 --> 00:23:14,600

like paper City Britain you know little

440

00:23:21,850 --> 00:23:18,010

booklets and one of them he called

441

00:23:25,210 --> 00:23:21,860

magnetic current magnetic current and in

442

00:23:27,670 --> 00:23:25,220

that book now remember this is a third

443

00:23:29,470 --> 00:23:27,680

fourth grade educated Latvian immigrant

444

00:23:32,080 --> 00:23:29,480

who has taught himself how to read and

445

00:23:33,550 --> 00:23:32,090

write one of the ways he taught himself

446

00:23:36,310 --> 00:23:33,560

how to read and write is he went to the

447

00:23:38,230 --> 00:23:36,320

movie theater the single movie theater

448

00:23:40,450 --> 00:23:38,240

in Homestead where they didn't even have

449

00:23:43,870 --> 00:23:40,460

sound in the early days right it was

450

00:23:46,510 --> 00:23:43,880

nice dubbed in and he would watch them

451

00:23:49,150 --> 00:23:46,520

he would watch the movies in the in the

452

00:23:55,690 --> 00:23:49,160

cooler coolness of the heat of South

453

00:23:58,450 --> 00:23:55,700

Florida and teach himself English so he

454

00:24:00,640 --> 00:23:58,460

writes these pamphlets these papers and

455

00:24:05,620 --> 00:24:00,650

he calls it magnetic current in in the

456

00:24:13,710 --> 00:24:05,630

pamphlet the paper let's call it he says

457

00:24:23,020 --> 00:24:18,900

magnets are the same they are cousins

458

00:24:26,200 --> 00:24:23,030

he says that

459

00:24:29,110 --> 00:24:26,210

either gravity is a form of magnetism or

460

00:24:33,760 --> 00:24:29,120

magnetism is a form of gravity and he

461

00:24:36,370 --> 00:24:33,770

says if you can understand how magnets

462

00:24:38,320 --> 00:24:36,380

pull on each other and then you can

463

00:24:41,260 --> 00:24:38,330

understand if you flip like the magnets

464

00:24:46,360 --> 00:24:41,270

on your refrigerator / they repel each

465

00:24:48,330 --> 00:24:46,370

other he says that is the beginning of

466

00:24:52,750 --> 00:24:48,340

the secret of how he lifted those rocks

467

00:24:54,850 --> 00:24:52,760

he says is set in a sense but he doesn't

468

00:25:00,280 --> 00:24:54,860

really say exactly but he says in

469

00:25:05,680 --> 00:25:00,290

essence that if you flip the magnetism

470

00:25:10,260 --> 00:25:05,690

like you do with magnets to gravity you

471

00:25:16,350 --> 00:25:14,320

weightless and you can last them you

472

00:25:21,970 --> 00:25:16,360

know because they were repelling now

473

00:25:28,060 --> 00:25:21,980

he's on the front porch of Einstein's

474

00:25:31,390 --> 00:25:28,070

equals mc-squared the law the Royal of

475

00:25:35,140 --> 00:25:31,400

War II Alice lighting yeah because

476
00:25:37,330 --> 00:25:35,150
there's a bending of the lights mm-hmm

477
00:25:38,740 --> 00:25:37,340
and that happens in the North Pole not

478
00:25:41,290 --> 00:25:38,750
in the South Pole and that's where the

479
00:25:43,390 --> 00:25:41,300
magnets are you know the magnet forces

480
00:25:45,820 --> 00:25:43,400
are everybody knows in North Pole and

481
00:25:48,670 --> 00:25:45,830
mint and nobody knows exactly how that

482
00:25:50,830 --> 00:25:48,680
happens but he's on the front porch of

483
00:25:52,870 --> 00:25:50,840
something when he says this and of

484
00:25:53,370 --> 00:25:52,880
course that Springs all kinds of

485
00:25:55,720 --> 00:25:53,380
theories

486
00:25:59,860 --> 00:25:55,730
none of which you've really been able to

487
00:26:04,840 --> 00:25:59,870
be explained totally or duplicated or

488
00:26:09,250 --> 00:26:04,850

replicated and that begins the feeding

489

00:26:11,490 --> 00:26:09,260

frenzy of all the Kaleidoscope of all

490

00:26:16,210 --> 00:26:11,500

the people who come to Coral Castle and

491

00:26:20,440 --> 00:26:16,220

wonder in what and here's here's the

492

00:26:22,210 --> 00:26:20,450

difference that makes Coral Castle such

493

00:26:24,910 --> 00:26:22,220

an attraction you can go to Stonehenge

494

00:26:27,660 --> 00:26:24,920

I've been there you go to the pyramids

495

00:26:30,370 --> 00:26:27,670

you can go to lots of these other places

496

00:26:32,770 --> 00:26:30,380

and there's nobody who's ever seen or

497

00:26:35,170 --> 00:26:32,780

known the people that build them because

498

00:26:36,880 --> 00:26:35,180

they died you know hundreds and

499

00:26:39,340 --> 00:26:36,890

thousands of years ago

500

00:26:41,680 --> 00:26:39,350

but you go to Coral Castle and they're

501
00:26:43,870 --> 00:26:41,690
barely now but we found them

502
00:26:50,770 --> 00:26:43,880
people when we wrote the book we found

503
00:26:53,170 --> 00:26:50,780
the people who knew it you know I mean

504
00:26:55,690 --> 00:26:53,180
yes there's actually photographs that

505
00:26:57,550 --> 00:26:55,700
the guy who built the castle with the

506
00:26:59,620 --> 00:26:57,560
castle that's not true of Stonehenge or

507
00:27:02,530 --> 00:26:59,630
any of these other places for obvious

508
00:27:04,390 --> 00:27:02,540
reasons correct so this is and you can

509
00:27:07,270 --> 00:27:04,400
get your car and drive the Stonehenge I

510
00:27:08,860 --> 00:27:07,280
mean to the Coral Castle and you can't

511
00:27:12,550 --> 00:27:08,870
get in your car and drive to Stonehenge

512
00:27:15,700 --> 00:27:12,560
in the same manner did he ever express

513
00:27:22,560 --> 00:27:15,710

why he he kept this to himself I mean

514

00:27:27,780 --> 00:27:22,570

these people that knew him he was a very

515

00:27:33,600 --> 00:27:27,790

reclusive probable genius type of guy

516

00:27:38,410 --> 00:27:33,610

who had suffered a heartbreak it was

517

00:27:40,420 --> 00:27:38,420

probably disturbing like all people who

518

00:27:42,390 --> 00:27:40,430

have a heartbreak but maybe more

519

00:27:45,910 --> 00:27:42,400

disturbing because he never got over it

520

00:27:48,760 --> 00:27:45,920

he would tell people that he built the

521

00:27:50,320 --> 00:27:48,770

castle to attract his what he called

522

00:27:53,650 --> 00:27:50,330

sweet 16

523

00:27:56,980 --> 00:27:53,660

Agnes scoffs great everything he did was

524

00:27:59,310 --> 00:27:56,990

intentional he builds a slab of steps

525

00:28:03,240 --> 00:27:59,320

like I explained hmm

526

00:28:07,630 --> 00:28:03,250

May at 16 steps to him

527

00:28:13,000 --> 00:28:07,640

so he was somewhat disturbed in somewhat

528

00:28:15,490 --> 00:28:13,010

high IQ hermit genius different from the

529

00:28:18,790 --> 00:28:15,500

rest of the people and he would talk to

530

00:28:22,180 --> 00:28:18,800

them in riddles he would kindly knit in

531

00:28:25,030 --> 00:28:22,190

riddles and he went in to this day and

532

00:28:28,060 --> 00:28:25,040

the reason we wrote Coral Castle and we

533

00:28:30,820 --> 00:28:28,070

put it in our novel is because the

534

00:28:32,470 --> 00:28:30,830

mysteries unsolved we think you know I

535

00:28:34,630 --> 00:28:32,480

mean there are all kinds of people with

536

00:28:36,160 --> 00:28:34,640

all kinds of theories but none of them

537

00:28:38,500 --> 00:28:36,170

have ever gone to South Florida and

538

00:28:40,870 --> 00:28:38,510

built a castle right beside the one he

539

00:28:43,360 --> 00:28:40,880

built which is with their theory and

540

00:28:45,760 --> 00:28:43,370

practice until that happened right until

541

00:28:47,890 --> 00:28:45,770

there was no we've got to get to our

542

00:28:49,030 --> 00:28:47,900

first break here rusty yes you're

543

00:28:50,770 --> 00:28:49,040

listening to me Heidi Hollis the

544

00:28:55,990 --> 00:28:50,780

Outlander and we will be

545

00:28:57,310 --> 00:28:56,000

back welcome back everybody you're

546

00:28:59,020 --> 00:28:57,320

listening to me Heidi Hollis the

547

00:29:01,750 --> 00:28:59,030

Outlander remembering always if it's

548

00:29:03,520 --> 00:29:01,760

weird we're here we are speaking with

549

00:29:06,250 --> 00:29:03,530

rusty McClure we're talking about the

550

00:29:10,930 --> 00:29:06,260

mysterious Coral Castle right down in

551
00:29:14,050 --> 00:29:10,940
Florida just a mystery of a creation

552
00:29:15,820 --> 00:29:14,060
that it just it's mind-boggling I want

553
00:29:18,160 --> 00:29:15,830
to go see it myself now you're talking

554
00:29:22,540 --> 00:29:18,170
about the guy who built this structure

555
00:29:25,090 --> 00:29:22,550
and he went on a trip he got ill he

556
00:29:27,100 --> 00:29:25,100
passed away and during the break you're

557
00:29:29,620 --> 00:29:27,110
telling me people didn't really notice

558
00:29:32,830 --> 00:29:29,630
because he was kind of a reclusive

559
00:29:35,560 --> 00:29:32,840
person and they're like huh he's not

560
00:29:38,320 --> 00:29:35,570
back and they just passed away and and

561
00:29:40,960 --> 00:29:38,330
here's those mammoth of a castle sitting

562
00:29:42,850 --> 00:29:40,970
there what happened next I mean did the

563
00:29:45,730 --> 00:29:42,860

neighbors just go I'll clip the lawn I

564

00:29:51,430 --> 00:29:45,740

mean who's taking care of this thing now

565

00:29:54,700 --> 00:29:51,440

um before he died and we think he we say

566

00:29:56,260 --> 00:29:54,710

this in the book he might have started

567

00:30:00,760 --> 00:29:56,270

to get lonely and know that he was not

568

00:30:02,140 --> 00:30:00,770

well he had kidney failure he'd had a

569

00:30:05,620 --> 00:30:02,150

stroke and he had something wrong with

570

00:30:10,030 --> 00:30:05,630

his digestive system and he reached out

571

00:30:15,400 --> 00:30:10,040

to his family in Latvia for the first

572

00:30:17,350 --> 00:30:15,410

time in 30 years and he had brothers he

573

00:30:20,140 --> 00:30:17,360

had no obviously no children their

574

00:30:22,330 --> 00:30:20,150

spouse and he found out that one of his

575

00:30:27,340 --> 00:30:22,340

brothers had a grandson living in

576

00:30:31,480 --> 00:30:27,350

Detroit and he will therefore the castle

577

00:30:33,930 --> 00:30:31,490

to his grandson who lived in Detroit who

578

00:30:37,690 --> 00:30:33,940

had emigrated to Detroit Michigan nice

579

00:30:41,530 --> 00:30:37,700

that son grandson didn't have any money

580

00:30:46,240 --> 00:30:41,540

and lost that couldn't keep it up lost

581

00:30:50,050 --> 00:30:46,250

it because he had they were back taxes

582

00:30:51,940 --> 00:30:50,060

which weren't very much yeah a retired

583

00:30:53,950 --> 00:30:51,950

I just saved hundreds of dollars by

584

00:30:56,170 --> 00:30:53,960

switching to Geico I feel like I'm on

585

00:30:57,490 --> 00:30:56,180

top of the world disclaimer you will not

586

00:30:58,780 --> 00:30:57,500

be transported to the top of the world

587

00:31:00,070 --> 00:30:58,790

in the unlikely event you find yourself

588

00:31:01,480 --> 00:31:00,080

the Arctic Circle seek shelter from the

589

00:31:03,250 --> 00:31:01,490

elements immediately to avoid frostbite

590

00:31:04,390 --> 00:31:03,260

and/or hypothermia Geico will not be

591

00:31:04,570 --> 00:31:04,400

responsible if you find yourself in a

592

00:31:06,279 --> 00:31:04,580

que

593

00:31:07,570 --> 00:31:06,289

for Travis will only abominable snowman

594

00:31:08,980 --> 00:31:07,580

who in all likelihood will force you to

595

00:31:11,259 --> 00:31:08,990

play games including but not limited to

596

00:31:12,549 --> 00:31:11,269

go fish charades Chinese checkers or his

597

00:31:14,320 --> 00:31:12,559

personal favorite Red Rover Red Rover

598

00:31:15,610 --> 00:31:14,330

send Yeti on over Gaga was not liable

599

00:31:17,740 --> 00:31:15,620

for any damages either physical or

600

00:31:22,840 --> 00:31:17,750

emotional Geico 15 minutes could save

601
00:31:27,130 --> 00:31:22,850
you 15% or more fuel out of Chicago had

602
00:31:31,539 --> 00:31:27,140
had moved to South Florida and he bought

603
00:31:36,220 --> 00:31:31,549
it and he was just fascinated as many of

604
00:31:40,360 --> 00:31:36,230
us are and he reinstated what ed had

605
00:31:43,240 --> 00:31:40,370
started which was a a tour you know you

606
00:31:46,450 --> 00:31:43,250
could stop and pay at a quarter and he

607
00:31:50,049 --> 00:31:46,460
would give you a tour so he re-energized

608
00:31:53,710 --> 00:31:50,059
the the tourist part of the castle and

609
00:31:58,000 --> 00:31:53,720
he took care of it but has passed it

610
00:32:01,690 --> 00:31:58,010
since to his family members who have

611
00:32:04,930 --> 00:32:01,700
taken care of it and they like this they

612
00:32:08,680 --> 00:32:04,940
want me to respect their privacy so they

613
00:32:11,710 --> 00:32:08,690

asked me when they I met him and we've

614

00:32:15,129 --> 00:32:11,720

worked on you know doing the doing these

615

00:32:16,840 --> 00:32:15,139

stories to their to their happiness in

616

00:32:21,250 --> 00:32:16,850

their satisfaction it nothing not to

617

00:32:28,480 --> 00:32:21,260

bring them into the public eye it's a

618

00:32:32,049 --> 00:32:28,490

tourist attraction somewhere in the

619

00:32:35,220 --> 00:32:32,059

somewhere in that around 1980 it got on

620

00:32:40,060 --> 00:32:35,230

the National Historic Registry nice and

621

00:32:44,070 --> 00:32:40,070

and so they it's protected and it gets

622

00:32:46,509 --> 00:32:44,080

all the notifications and some of the

623

00:32:47,830 --> 00:32:46,519

upkeep money that National Historic

624

00:32:50,259 --> 00:32:47,840

Registry sites get

625

00:32:52,060 --> 00:32:50,269

doesn't this this choral rocket it kind

626
00:32:53,889 --> 00:32:52,070
of breaks down rather easily it's kind

627
00:32:59,259 --> 00:32:53,899
of brittle so this is it kind of

628
00:33:02,710 --> 00:32:59,269
depleting or is it is it no yeah I mean

629
00:33:04,690 --> 00:33:02,720
it's lasted thousands of centuries from

630
00:33:07,539 --> 00:33:04,700
when it was formed the bottom the ocean

631
00:33:10,090 --> 00:33:07,549
and more importantly it's lasted these

632
00:33:12,760 --> 00:33:10,100
hurricanes I mean it just got hammered

633
00:33:18,250 --> 00:33:12,770
by the Hurricanes that we just had this

634
00:33:21,039 --> 00:33:18,260
year and the gift shop got all torn up

635
00:33:23,710 --> 00:33:21,049
but the castle survived again the castle

636
00:33:26,289 --> 00:33:23,720
when Hurricane Andrew as I said at the

637
00:33:28,419 --> 00:33:26,299
top of the show yeah blasted through and

638
00:33:31,299 --> 00:33:28,429

took out homestead Air Force Base even

639

00:33:40,930 --> 00:33:31,309

it didn't take out the castle three to

640

00:33:42,700 --> 00:33:40,940

four feet thick fallout shelter gosh huh

641

00:33:49,780 --> 00:33:42,710

it just it doesn't look like it would be

642

00:33:52,690 --> 00:33:49,790

comfortable to walk barefoot on I mean

643

00:33:55,539 --> 00:33:52,700

he he smoothed over a lot of the

644

00:33:57,250 --> 00:33:55,549

elements in the in the inside and we can

645

00:34:01,770 --> 00:33:57,260

talk about those elements in a minute I

646

00:34:06,640 --> 00:34:01,780

did want to point out that after he died

647

00:34:08,320 --> 00:34:06,650

and this is like the mid 50s now a whole

648

00:34:10,899 --> 00:34:08,330

bunch of people obviously start moving

649

00:34:14,680 --> 00:34:10,909

into South Florida and here sits this

650

00:34:18,580 --> 00:34:14,690

castle and the new people that move in

651
00:34:22,240 --> 00:34:18,590
here pieces of the story and of course

652
00:34:25,090 --> 00:34:22,250
they think it's a local urban legend and

653
00:34:26,260 --> 00:34:25,100
there's no no but one little guy could

654
00:34:29,680 --> 00:34:26,270
build this castle

655
00:34:33,040 --> 00:34:29,690
you know these locals don't this is

656
00:34:36,700 --> 00:34:33,050
their story but the locals start hearing

657
00:34:39,310 --> 00:34:36,710
that and there's a there's a lady lives

658
00:34:41,740 --> 00:34:39,320
in Homestead Florida and she gets fired

659
00:34:44,859 --> 00:34:41,750
up about the fact that one day not only

660
00:34:47,349 --> 00:34:44,869
ed is gonna be passed away but all of us

661
00:34:53,609 --> 00:34:47,359
will be passed away and no one will know

662
00:34:59,200 --> 00:34:53,619
this story so she gets a affidavit and

663
00:35:02,590 --> 00:34:59,210

creates in the affidavit spaces for the

664

00:35:05,349 --> 00:35:02,600

local people to identify themselves you

665

00:35:07,270 --> 00:35:05,359

know I ran the post office I was the

666

00:35:11,260 --> 00:35:07,280

third grade teacher in Homestead Florida

667

00:35:15,930 --> 00:35:11,270

for 20 years I was whatever I was and I

668

00:35:19,780 --> 00:35:15,940

knew ed Leedskalnin and Ed Leedskalnin

669

00:35:22,599 --> 00:35:19,790

worked at alone and built this castle

670

00:35:25,890 --> 00:35:22,609

all by himself and then they would sign

671

00:35:30,099 --> 00:35:25,900

the affidavit and have it have it

672

00:35:32,110 --> 00:35:30,109

notarized Wow there was space in the

673

00:35:36,340 --> 00:35:32,120

affidavit for them to add

674

00:35:38,830 --> 00:35:36,350

anything they wanted to sew 250 these

675

00:35:40,900 --> 00:35:38,840

affidavits remember the town only had

676
00:35:44,730 --> 00:35:40,910
800 people in it yeah

677
00:35:49,240 --> 00:35:44,740
filed in the Dade County Courthouse

678
00:35:52,210 --> 00:35:49,250
as you know certified documentation of

679
00:35:54,550 --> 00:35:52,220
people Homestead Florida said that Ed

680
00:35:57,750 --> 00:35:54,560
Leedskalnin worked alone built this all

681
00:36:01,620 --> 00:35:57,760
by himself never had any home help and

682
00:36:04,030 --> 00:36:01,630
they lived and knew him all this time

683
00:36:05,680 --> 00:36:04,040
that's amazing that's cool it they took

684
00:36:08,380 --> 00:36:05,690
it upon themselves to do something like

685
00:36:12,370 --> 00:36:08,390
that it you know he can't he reminds me

686
00:36:15,790 --> 00:36:12,380
of Tesla this recordings of genius that

687
00:36:18,520 --> 00:36:15,800
died alone and and yeah you know there

688
00:36:21,400 --> 00:36:18,530

was like no way to really definitively

689

00:36:23,500 --> 00:36:21,410

define what how he came about his ideas

690

00:36:26,350 --> 00:36:23,510

and what he did and exactly you know I

691

00:36:30,160 --> 00:36:26,360

have to say though you know I'm very

692

00:36:33,100 --> 00:36:30,170

much about he teach others grow the

693

00:36:35,260 --> 00:36:33,110

world's mind a bit and for him to keep

694

00:36:37,960 --> 00:36:35,270

it to themselves he knew he had cracked

695

00:36:40,810 --> 00:36:37,970

the code of something miraculous and he

696

00:36:42,430 --> 00:36:40,820

kept it to himself and it's like he

697

00:36:45,670 --> 00:36:42,440

didn't want any competition it was

698

00:36:49,150 --> 00:36:45,680

selfish I you know he was hoping to gain

699

00:36:50,920 --> 00:36:49,160

the attention of his his love but it's

700

00:36:53,680 --> 00:36:50,930

like but you could have been lightened

701
00:36:56,710 --> 00:36:53,690
the world it do you see that as a

702
00:36:59,050 --> 00:36:56,720
selfish act or just that he was a weird

703
00:37:01,740 --> 00:36:59,060
person who who just didn't get other

704
00:37:10,140 --> 00:37:05,800
he was definitely an intelligent person

705
00:37:14,110 --> 00:37:10,150
yeah so he knew what he was doing I

706
00:37:16,750 --> 00:37:14,120
think he was playing with people enjoyed

707
00:37:17,620 --> 00:37:16,760
the fact that he had this mystery as I I

708
00:37:19,960 --> 00:37:17,630
enjoyed

709
00:37:23,890 --> 00:37:19,970
that's what intrigued me the fact that

710
00:37:28,140 --> 00:37:23,900
he didn't tell anybody in he may have

711
00:37:31,360 --> 00:37:28,150
very well struck upon some piece of

712
00:37:35,280 --> 00:37:31,370
futuristic or let's say maybe and we'll

713
00:37:39,820 --> 00:37:35,290

talk about that in a minute the past of

714

00:37:42,340 --> 00:37:39,830

lost understanding cuz and so he would

715

00:37:44,290 --> 00:37:42,350

tell these people this magnet tricity in

716

00:37:45,940 --> 00:37:44,300

any right disfavored he'd stopped short

717

00:37:47,829 --> 00:37:45,950

I don't think that was an accident

718

00:37:50,349 --> 00:37:47,839

he answered a question I think he did it

719

00:37:52,319 --> 00:37:50,359

on purpose he didn't want to tell people

720

00:37:55,000 --> 00:37:52,329

or he was going to tell him later and

721

00:37:58,060 --> 00:37:55,010

the grim reaper got him before he could

722

00:37:58,960 --> 00:37:58,070

tell but he knew he was sick he knew he

723

00:38:02,200 --> 00:37:58,970

was sick

724

00:38:06,160 --> 00:38:02,210

now he also told people that he had

725

00:38:12,069 --> 00:38:06,170

learned the and discovered the secrets

726

00:38:15,690 --> 00:38:12,079

it helped the Egyptians build the

727

00:38:18,250 --> 00:38:15,700

pyramids right so on the north wall

728

00:38:24,000 --> 00:38:18,260

which is the far wall the beginning of

729

00:38:29,109 --> 00:38:24,010

the of the entire castle he replicates

730

00:38:33,310 --> 00:38:29,119

it's a Tyus part he replicates the

731

00:38:40,210 --> 00:38:33,320

King's Chamber of the Great Pyramid come

732

00:38:43,980 --> 00:38:40,220

on yes Wow and so he has the same

733

00:38:48,790 --> 00:38:43,990

elements and they are the heaviest parts

734

00:38:51,520 --> 00:38:48,800

of the entire castle of the great of the

735

00:38:54,910 --> 00:38:51,530

Great Pyramid the King's Chamber the

736

00:38:56,890 --> 00:38:54,920

Great Pyramid is he living in I'm

737

00:39:00,069 --> 00:38:56,900

curious but how much how many square

738

00:39:01,990 --> 00:39:00,079

feet is that I don't know and that's a

739

00:39:03,579 --> 00:39:02,000

good question I just it's it's pretty

740

00:39:06,040 --> 00:39:03,589

big it's I mean okay

741

00:39:08,559 --> 00:39:06,050

it's pretty it's pretty I mean there's

742

00:39:11,020 --> 00:39:08,569

two answers to that question I guess one

743

00:39:13,770 --> 00:39:11,030

is his living unit which I described as

744

00:39:18,309 --> 00:39:13,780

Q story and I would say there's or maybe

745

00:39:20,890 --> 00:39:18,319

808 800 square feet at most maybe 750

746

00:39:23,589 --> 00:39:20,900

something like that yeah on top one on

747

00:39:25,630 --> 00:39:23,599

top of another so there's no more 1500

748

00:39:28,359 --> 00:39:25,640

square feet and they're stacked because

749

00:39:31,210 --> 00:39:28,369

they're two storey now the castle itself

750

00:39:34,630 --> 00:39:31,220

well the castle ourselves very large for

751

00:39:36,730 --> 00:39:34,640

compare in comparison and so at the back

752

00:39:38,730 --> 00:39:36,740

end he's got these and they are they are

753

00:39:41,950 --> 00:39:38,740

the heaviest elements of the entire

754

00:39:44,050 --> 00:39:41,960

castle which is kind of like saying look

755

00:39:48,730 --> 00:39:44,060

at me not only tell you that I

756

00:39:50,530 --> 00:39:48,740

discovered the secrets of this pyramid

757

00:39:53,200 --> 00:39:50,540

but I put the obvious element at the

758

00:39:55,990 --> 00:39:53,210

highest part how did I get it up there

759

00:39:59,350 --> 00:39:56,000

how did I get it up there and look at it

760

00:40:01,660 --> 00:39:59,360

and then go look at the King's tomb

761

00:40:07,770 --> 00:40:01,670

of the Great Pyramid and you will see

762

00:40:10,270 --> 00:40:07,780

exactly the same shape and then he dies

763

00:40:11,920 --> 00:40:10,280

I'm not gonna tell you anymore and now

764

00:40:13,960 --> 00:40:11,930

I'm dead and now now you're gonna have

765

00:40:15,370 --> 00:40:13,970

to live with this and try to figure it

766

00:40:17,440 --> 00:40:15,380

out for yourself I don't know what he

767

00:40:17,920 --> 00:40:17,450

was telling us I mean that's the mystery

768

00:40:21,130 --> 00:40:17,930

of it

769

00:40:25,810 --> 00:40:21,140

we can't go ask him I don't know I don't

770

00:40:28,660 --> 00:40:25,820

I don't know so that opens the door to

771

00:40:31,600 --> 00:40:28,670

all the theories and people are

772

00:40:34,150 --> 00:40:31,610

passionate about your theories by bad

773

00:40:36,130 --> 00:40:34,160

and people get disappointed because we

774

00:40:39,210 --> 00:40:36,140

wrote this what I would say a

775

00:40:42,940 --> 00:40:39,220

journalistic view of the of the of the

776

00:40:45,970 --> 00:40:42,950

castle and Edie and we talked about some

777

00:40:47,980 --> 00:40:45,980

of those theories and we are slightly

778

00:40:50,770 --> 00:40:47,990

dismissive maybe slightly more than

779

00:40:53,860 --> 00:40:50,780

dismissive of this series but we never

780

00:40:55,750 --> 00:40:53,870

say that any of the theories have worked

781

00:40:57,820 --> 00:40:55,760

and we do not have any of our own

782

00:40:59,920 --> 00:40:57,830

theories Jack Efrain and I do not have

783

00:41:03,010 --> 00:40:59,930

any of our own theories about this

784

00:41:04,660 --> 00:41:03,020

castle because we don't we didn't write

785

00:41:06,310 --> 00:41:04,670

we didn't set out to do it so every once

786

00:41:09,040 --> 00:41:06,320

in a while people get disappointed in us

787

00:41:11,500 --> 00:41:09,050

because we were at the mystery of Coral

788

00:41:13,930 --> 00:41:11,510

Castle but we didn't write to it solving

789

00:41:16,060 --> 00:41:13,940

of the mystery but we didn't have is

790

00:41:18,850 --> 00:41:16,070

there anything between the stones to

791

00:41:21,730 --> 00:41:18,860

help connect them any kind of material

792

00:41:25,270 --> 00:41:21,740

no ll just I mean there's a little bit

793

00:41:27,640 --> 00:41:25,280

of stuff growing in him but he's got him

794

00:41:30,700 --> 00:41:27,650

jammed right up perfectly on top of each

795

00:41:33,700 --> 00:41:30,710

other which is another I mean they're on

796

00:41:36,550 --> 00:41:33,710

their own and what what makes this so

797

00:41:38,350 --> 00:41:36,560

incredible is and we got to talk about

798

00:41:42,240 --> 00:41:38,360

these these things are straight up and

799

00:41:44,980 --> 00:41:42,250

down yeah I mean they are aimed and hung

800

00:41:48,040 --> 00:41:44,990

perfectly so let's talk about two of the

801
00:41:51,070 --> 00:41:48,050
elements that are doing worse now can

802
00:41:55,390 --> 00:41:51,080
you learn more doors and one of them is

803
00:41:59,440 --> 00:41:55,400
five thousand pounds huh it's a swinging

804
00:42:04,510 --> 00:41:59,450
wall it is five thousand pounds and it

805
00:42:06,310 --> 00:42:04,520
is perfectly balanced for forty years so

806
00:42:09,100 --> 00:42:06,320
let's say thirty five forty years it is

807
00:42:12,280 --> 00:42:09,110
perfectly balanced so there's a young

808
00:42:13,109 --> 00:42:12,290
kid twelve year old kid could put their

809
00:42:18,989 --> 00:42:13,119
hand on it

810
00:42:23,430 --> 00:42:18,999
turn this 5000 dot door at Walden and it

811
00:42:24,559 --> 00:42:23,440
turns into a door it pivots oh wow he's

812
00:42:31,609 --> 00:42:24,569
long dead

813
00:42:35,880 --> 00:42:31,619

it's decades ago that collapses that

814

00:42:37,859 --> 00:42:35,890

door collapses it's on the National

815

00:42:41,910 --> 00:42:37,869

Historic Registry the ownership of a

816

00:42:45,720 --> 00:42:41,920

place Coral Castle get a hold of the

817

00:42:48,690 --> 00:42:45,730

University of Florida engineering

818

00:42:55,049 --> 00:42:48,700

department they bring people down to

819

00:43:03,529 --> 00:42:55,059

look at it and underneath this 5,000

820

00:43:10,620 --> 00:43:03,539

pounds slab is a Ford Model A truck axle

821

00:43:13,170 --> 00:43:10,630

he said it perfectly on this axle and in

822

00:43:16,470 --> 00:43:13,180

the Florida Sun and under that weight

823

00:43:19,529 --> 00:43:16,480

thirty years later it rusted and that's

824

00:43:23,670 --> 00:43:19,539

why it collapsed oh wow so what they do

825

00:43:25,440 --> 00:43:23,680

is they pick up with a huge crane and

826

00:43:27,299 --> 00:43:25,450

lift this thing straight up in the air

827

00:43:30,599 --> 00:43:27,309

it takes six or seven people in a crane

828

00:43:34,499 --> 00:43:30,609

and that's what they find and they find

829

00:43:40,819 --> 00:43:34,509

that he has drilled a perfect hole up

830

00:43:44,130 --> 00:43:40,829

through this five thousand pound slab

831

00:43:46,910 --> 00:43:44,140

they look at it say the only way first

832

00:43:50,160 --> 00:43:46,920

of all he found the geographic center of

833

00:43:51,720 --> 00:43:50,170

this slab the perfect geographic center

834

00:43:53,370 --> 00:43:51,730

or otherwise it wouldn't a hung

835

00:43:55,710 --> 00:43:53,380

perfectly and it wouldn't a pivot it

836

00:43:58,380 --> 00:43:55,720

perfectly and he drills a hole up

837

00:44:00,839 --> 00:43:58,390

through the middle of it we would so he

838

00:44:02,039 --> 00:44:00,849

can balance it and these guys look at it

839

00:44:03,180 --> 00:44:02,049

and said the only way you could drill

840

00:44:04,829 --> 00:44:03,190

this hole that straight and that

841

00:44:07,799 --> 00:44:04,839

perfectly is you'd have to have a laser

842

00:44:09,660 --> 00:44:07,809

beam oh he didn't hit he did not have a

843

00:44:13,319 --> 00:44:09,670

laser because there was no such thing in

844

00:44:16,019 --> 00:44:13,329

the 1920s and 30s she said really they

845

00:44:19,910 --> 00:44:16,029

don't that is wow that's the best that

846

00:44:22,829 --> 00:44:19,920

they could come up that's right so now

847

00:44:24,390 --> 00:44:22,839

there are these guys do these

848

00:44:26,489 --> 00:44:24,400

engineering guys and they go wait a

849

00:44:27,089 --> 00:44:26,499

minute you've been and you may be a

850

00:44:29,549 --> 00:44:27,099

participant

851
00:44:33,930 --> 00:44:29,559
talking about how brittle and hardness

852
00:44:36,719 --> 00:44:33,940
rock is so it's so this 5,000 pound door

853
00:44:38,670 --> 00:44:36,729
has been swinging on this axis you know

854
00:44:41,339 --> 00:44:38,680
what a pastor was of course right you

855
00:44:44,430 --> 00:44:41,349
know what a pestle so if this thing

856
00:44:49,019 --> 00:44:44,440
would be spinning around it would be

857
00:44:51,660 --> 00:44:49,029
turning the rock underneath it into sand

858
00:44:53,489 --> 00:44:51,670
and gravel very quickly correct yeah

859
00:44:55,979 --> 00:44:53,499
it'd be like a pestle would be grinding

860
00:44:58,559 --> 00:44:55,989
up grinding its way so they have and

861
00:45:00,120 --> 00:44:58,569
they've gone now we got this up how come

862
00:45:03,569 --> 00:45:00,130
there's not a pile of sand underneath

863
00:45:07,200 --> 00:45:03,579

where this 5,000 pound door was swinging

864

00:45:08,999 --> 00:45:07,210

back you know Pibb and so there's a

865

00:45:15,469 --> 00:45:09,009

piece of rock and I've held it my hand

866

00:45:19,680 --> 00:45:15,479

that might be 12 14 inches long might be

867

00:45:23,549 --> 00:45:19,690

seven six inches wide and it's not very

868

00:45:28,109 --> 00:45:23,559

thick mm-hmm it's thick at most and

869

00:45:32,430 --> 00:45:28,119

that's what this 5,000 pound door has

870

00:45:34,589 --> 00:45:32,440

been spinning on they send it off to the

871

00:45:37,380 --> 00:45:34,599

University of Florida their colleagues

872

00:45:43,319 --> 00:45:37,390

in the geology department there for a

873

00:45:48,079 --> 00:45:43,329

couple weeks they send it back material

874

00:45:52,140 --> 00:45:48,089

not of this planet oh really

875

00:45:54,660 --> 00:45:52,150

in other words he either had it with him

876

00:45:58,559 --> 00:45:54,670

or he went out in South Florida and he

877

00:46:01,140 --> 00:45:58,569

found this piece of rock that is not

878

00:46:03,690 --> 00:46:01,150

elements of this planet but how would he

879

00:46:07,140 --> 00:46:03,700

know that would hold up he had to know

880

00:46:10,349 --> 00:46:07,150

something special was with that piece he

881

00:46:12,450 --> 00:46:10,359

had the title of our book has the word

882

00:46:16,200 --> 00:46:12,460

mystery right at the top of it

883

00:46:18,989 --> 00:46:16,210

the mystery of it I know these are this

884

00:46:22,829 --> 00:46:18,999

this is just like how how did I know

885

00:46:26,839 --> 00:46:22,839

that you know where did this one hold it

886

00:46:30,239 --> 00:46:26,849

so that brings up the discussion then of

887

00:46:33,900 --> 00:46:30,249

was he having alien contact did he learn

888

00:46:36,630 --> 00:46:33,910

this from some other type of entity you

889

00:46:39,870 --> 00:46:36,640

know then you know he knows I have met

890

00:46:40,529 --> 00:46:39,880

several geniuses who have invented

891

00:46:44,160 --> 00:46:40,539

things

892

00:46:47,589 --> 00:46:44,170

beyond the scope of what is normal and

893

00:46:50,529 --> 00:46:47,599

they all said something that was that

894

00:46:54,370 --> 00:46:50,539

was a similar thought they would wake up

895

00:46:56,559 --> 00:46:54,380

with these ideas and then help it come

896

00:47:01,750 --> 00:46:56,569

to life and one in particular who had

897

00:47:03,339 --> 00:47:01,760

created a anti-gravity like motor that

898

00:47:07,329 --> 00:47:03,349

the government's just weren't interested

899

00:47:09,579 --> 00:47:07,339

and he said I believe something is

900

00:47:10,000 --> 00:47:09,589

implanting it in my mind when I sleep at

901
00:47:11,710 --> 00:47:10,010
night

902
00:47:13,029 --> 00:47:11,720
to know what to do cuz I wake up with

903
00:47:16,450 --> 00:47:13,039
the answers and I just know what will

904
00:47:18,609 --> 00:47:16,460
work and and he does it and I'm like

905
00:47:21,069 --> 00:47:18,619
well you know it makes you wonder you

906
00:47:23,650 --> 00:47:21,079
know what are we open to when we go to

907
00:47:25,269 --> 00:47:23,660
bed at night and you know and some of

908
00:47:26,920 --> 00:47:25,279
these ideas that get dropped in our

909
00:47:29,140 --> 00:47:26,930
minds you know it's it's quite

910
00:47:31,390 --> 00:47:29,150
fascinating that you know there's just

911
00:47:33,670 --> 00:47:31,400
those geniuses that are part of a

912
00:47:35,890 --> 00:47:33,680
generation that know certain things that

913
00:47:38,079 --> 00:47:35,900

know how to pull something together than

914

00:47:41,289 --> 00:47:38,089

the next person doesn't and could never

915

00:47:43,960 --> 00:47:41,299

solve I mean it's it's quite fascinating

916

00:47:46,240 --> 00:47:43,970

this this guy was was the Tesla of a

917

00:47:48,730 --> 00:47:46,250

sort he really was he was um we we have

918

00:47:51,130 --> 00:47:48,740

a picture of Tesla in our book I mean we

919

00:47:54,279 --> 00:47:51,140

talk about that so you're at your your

920

00:47:56,200 --> 00:47:54,289

spot on and think about this if you ever

921

00:47:58,720 --> 00:47:56,210

of course you have tried to hang like a

922

00:48:00,730 --> 00:47:58,730

mirror or a painting and you in

923

00:48:02,769 --> 00:48:00,740

somebody's standing back while you're

924

00:48:05,140 --> 00:48:02,779

holding it and you're trying to make it

925

00:48:06,640 --> 00:48:05,150

right yes and how hard would that how

926
00:48:09,549 --> 00:48:06,650
hard all of a sudden it gets really

927
00:48:12,099 --> 00:48:09,559
heavy right and you can tell them very

928
00:48:14,950 --> 00:48:12,109
quickly you start saying to him you know

929
00:48:18,400 --> 00:48:14,960
you know make a decision well who was

930
00:48:21,579 --> 00:48:18,410
holding this thing up exactly right when

931
00:48:23,319 --> 00:48:21,589
it was 5,000 pounds I mean the these

932
00:48:25,269 --> 00:48:23,329
engineers that have looked at just said

933
00:48:28,380 --> 00:48:25,279
the only way that thing could spin and

934
00:48:32,309 --> 00:48:28,390
turned that easily is it had to be

935
00:48:37,390 --> 00:48:32,319
absolutely geographically

936
00:48:40,079 --> 00:48:37,400
gravitationally centered it's it's crazy

937
00:48:42,880 --> 00:48:40,089
it's like he found a Star Trek tricorder

938
00:48:45,010 --> 00:48:42,890

that one of the crew left behind any

939

00:48:47,829 --> 00:48:45,020

goes why don't I work this thing and and

940

00:48:49,930 --> 00:48:47,839

he just went buck wild with it right

941

00:48:53,079 --> 00:48:49,940

let's talk about another one there's an

942

00:48:54,900 --> 00:48:53,089

obelisk okay okay there's an obelisk in

943

00:49:00,700 --> 00:48:54,910

the castle

944

00:49:04,530 --> 00:49:00,710

the solderless is 30 40 tons goes

945

00:49:09,670 --> 00:49:04,540

straight up in the air like 40 feet and

946

00:49:14,230 --> 00:49:09,680

then he's drilled a circle in this

947

00:49:18,340 --> 00:49:14,240

granite obelisk at the top

948

00:49:21,850 --> 00:49:18,350

he's got a perfect round circle drilled

949

00:49:25,570 --> 00:49:21,860

in it in in between in every the the

950

00:49:27,940 --> 00:49:25,580

things he tools he has or stuff that he

951
00:49:31,690 --> 00:49:27,950
built out of the junkyard he's got like

952
00:49:36,100 --> 00:49:31,700
two coat hangers ones vertical one

953
00:49:44,950 --> 00:49:36,110
horizontal implanted in notched way up

954
00:49:47,670 --> 00:49:44,960
in this obelisk and what happens is it

955
00:49:50,220 --> 00:49:47,680
is lined up now remember you got a

956
00:49:53,620 --> 00:49:50,230
40-foot opera's obelisk

957
00:49:59,680 --> 00:49:53,630
it weighs 32 tons and he's lined it

958
00:50:00,640 --> 00:49:59,690
perfectly to the North Star oh wow oh

959
00:50:02,710 --> 00:50:00,650
that's interesting

960
00:50:07,180 --> 00:50:02,720
he's lined it perfectly to the North

961
00:50:11,610 --> 00:50:07,190
Star and he now this crosshairs comes

962
00:50:15,340 --> 00:50:11,620
down to a piece of metal in battle

963
00:50:19,660 --> 00:50:15,350

embedded in one of the coral rock walls

964

00:50:23,500 --> 00:50:19,670

inside the castle so now you look

965

00:50:26,740 --> 00:50:23,510

straight up through where the notches of

966

00:50:33,870 --> 00:50:26,750

this metal piece up to the crosshairs

967

00:50:37,210 --> 00:50:33,880

and every season the North Star moves

968

00:50:39,570 --> 00:50:37,220

from one quadrant to the next quadrant

969

00:50:44,230 --> 00:50:39,580

to the next quadrant and then repeats

970

00:50:46,180 --> 00:50:44,240

Wow and it's part of me now

971

00:50:48,190 --> 00:50:46,190

how does he get that thing up in the air

972

00:50:50,470 --> 00:50:48,200

and how does the aim it write it and how

973

00:50:55,480 --> 00:50:50,480

does he know to do it exactly so that

974

00:50:57,400 --> 00:50:55,490

you know the North Star moves inside

975

00:51:00,340 --> 00:50:57,410

these quadrants as the seasons change

976
00:51:04,930 --> 00:51:00,350
four seasons four quadrants and every

977
00:51:07,000 --> 00:51:04,940
every 90 days you have a you have a

978
00:51:09,450 --> 00:51:07,010
change of season and you have a change

979
00:51:13,000 --> 00:51:09,460
of quadrants of the north

980
00:51:15,400 --> 00:51:13,010
is fascinating

981
00:51:20,250 --> 00:51:15,410
how's he know to do that he was a little

982
00:51:25,950 --> 00:51:22,750
see now you're into theories and I have

983
00:51:29,050 --> 00:51:25,960
all I know yeah new stuff you don't know

984
00:51:31,030 --> 00:51:29,060
somebody someone mentioned here in the

985
00:51:36,460 --> 00:51:31,040
chat room if there's an obelisk then

986
00:51:38,470 --> 00:51:36,470
there may be a statue of Isis nearby all

987
00:51:39,670 --> 00:51:38,480
right well then let's just move on

988
00:51:41,110 --> 00:51:39,680

because we're gonna run out of time

989

00:51:50,920 --> 00:51:41,120

there's so many neat things to talk

990

00:51:55,840 --> 00:51:50,930

about he also has invented a solar clock

991

00:52:00,700 --> 00:51:55,850

calendar huh and you know you picture a

992

00:52:04,540 --> 00:52:00,710

solar clock right a solar yes it's

993

00:52:08,890 --> 00:52:04,550

that's not it he creates a entirelyly

994

00:52:13,330 --> 00:52:08,900

different one that he edges into the

995

00:52:17,140 --> 00:52:13,340

stone and it changes with the seasons

996

00:52:20,410 --> 00:52:17,150

and it is totally different it's a

997

00:52:25,570 --> 00:52:20,420

one-of-a-kind and he's lined it up from

998

00:52:28,480 --> 00:52:25,580

the Sun and it works and tells time it

999

00:52:32,850 --> 00:52:28,490

works Intel's time wow it works Intel's

1000

00:52:35,410 --> 00:52:32,860

time and it's it tells time differently

1001

00:52:39,030 --> 00:52:35,420

the way it works it tells time

1002

00:52:43,780 --> 00:52:39,040

differently every season every day it is

1003

00:52:49,270 --> 00:52:43,790

adjusting for the seasons at that

1004

00:52:51,190 --> 00:52:49,280

latitude goodness and it's it's not what

1005

00:52:53,740 --> 00:52:51,200

you think it's not a it's not a solar

1006

00:52:58,540 --> 00:52:53,750

clock like you see in gardens all over

1007

00:53:03,010 --> 00:52:58,550

the world he has invented his own solar

1008

00:53:05,470 --> 00:53:03,020

clock has that been attempted to be

1009

00:53:07,120 --> 00:53:05,480

replicated well I think you could but I

1010

00:53:10,690 --> 00:53:07,130

don't know how you I don't know how to

1011

00:53:12,610 --> 00:53:10,700

do it I'm I'm not that guy if it has

1012

00:53:14,080 --> 00:53:12,620

been I don't know about it but I

1013

00:53:16,030 --> 00:53:14,090

wouldn't be surprised if somebody tried

1014

00:53:20,170 --> 00:53:16,040

to do that but how did he do it how did

1015

00:53:22,089 --> 00:53:20,180

he know to put this this rock and carve

1016

00:53:27,039 --> 00:53:22,099

it just right in its aim

1017

00:53:31,359 --> 00:53:27,049

perfectly the Sun and it tells time you

1018

00:53:33,700 --> 00:53:31,369

can yeah docent a ghost it doesn't take

1019

00:53:35,769 --> 00:53:33,710

you out there middle the courtyard of

1020

00:53:38,049 --> 00:53:35,779

this castle and they show you and you

1021

00:53:40,269 --> 00:53:38,059

can read it and tomorrow it'll be a

1022

00:53:42,849 --> 00:53:40,279

little bit different but it's going to

1023

00:53:45,729 --> 00:53:42,859

adjust it's a piece of stone and it's

1024

00:53:49,690 --> 00:53:45,739

but the way it's designed it's going to

1025

00:53:54,910 --> 00:53:49,700

adjust seasonally and still be able to

1026
00:53:55,779 --> 00:53:54,920
tell time every day accurate an hour of

1027
00:53:58,299 --> 00:53:55,789
every day

1028
00:54:00,400 --> 00:53:58,309
that's amazing part it's like there's so

1029
00:54:04,210 --> 00:54:00,410
many different elements to this guy that

1030
00:54:08,529 --> 00:54:04,220
it's just not he was good at at lifting

1031
00:54:12,039 --> 00:54:08,539
up something place he's doing so many

1032
00:54:17,109 --> 00:54:12,049
different things that generator

1033
00:54:24,339 --> 00:54:17,119
I mean he's ahead of his time he's a

1034
00:54:25,960 --> 00:54:24,349
genius of another time to next break you

1035
00:54:29,819 --> 00:54:25,970
guys need to me Heidi Hollis the

1036
00:54:34,120 --> 00:54:32,109
welcome back everybody you're listening

1037
00:54:35,620 --> 00:54:34,130
to me Heidi how's the Outlander and we

1038
00:54:37,930 --> 00:54:35,630

were speaking about the Coral Castle

1039

00:54:39,849 --> 00:54:37,940

with rusty McClure rusty what's your

1040

00:54:42,989 --> 00:54:39,859

website really quick so the listeners

1041

00:54:47,349 --> 00:54:42,999

can check it out before we continue here

1042

00:54:49,989 --> 00:54:47,359

Coral Castle book.com awesome very cool

1043

00:54:53,140 --> 00:54:49,999

you know we're chatting during the break

1044

00:54:54,819 --> 00:54:53,150

and there's so much to cover yet and I

1045

00:54:57,700 --> 00:54:54,829

just want you to dive right in where

1046

00:55:00,400 --> 00:54:57,710

we're talking about it was curious if he

1047

00:55:02,049 --> 00:55:00,410

left any information to say this is my

1048

00:55:04,299 --> 00:55:02,059

favorite part of the castle or this or

1049

00:55:06,549 --> 00:55:04,309

that but you said no but there's special

1050

00:55:08,200 --> 00:55:06,559

designated areas in the castle for

1051
00:55:10,120 --> 00:55:08,210
certain things so go ahead and tell her

1052
00:55:12,579 --> 00:55:10,130
listeners what you were just talking

1053
00:55:16,989 --> 00:55:12,589
about yeah he didn't leave notes as

1054
00:55:19,809 --> 00:55:16,999
Heidi was asking me but he left he gave

1055
00:55:21,640 --> 00:55:19,819
tours and the people of Homestead would

1056
00:55:23,620 --> 00:55:21,650
come and see it and when people came to

1057
00:55:26,559 --> 00:55:23,630
visit him they would all want to go out

1058
00:55:29,140 --> 00:55:26,569
and take the tour of Homestead you know

1059
00:55:32,739 --> 00:55:29,150
Coral Castle so they met add and Ed

1060
00:55:36,010 --> 00:55:32,749
would tell them about these elements so

1061
00:55:37,930 --> 00:55:36,020
he once again was trying to

1062
00:55:39,940 --> 00:55:37,940
cracked egg no scuffs that comes from

1063
00:55:44,250 --> 00:55:39,950

Latvian marry him and have children and

1064

00:55:45,910 --> 00:55:44,260

so he built a whole wing for he built a

1065

00:55:50,910 --> 00:55:45,920

bedroom

1066

00:55:52,840 --> 00:55:50,920

he built actually stone beds and stone

1067

00:55:56,080 --> 00:55:52,850

tables

1068

00:55:58,300 --> 00:55:56,090

he built a punishment area for children

1069

00:56:01,930 --> 00:55:58,310

and that I would have been enough to

1070

00:56:05,050 --> 00:56:01,940

scare and and so yet he would explain

1071

00:56:10,060 --> 00:56:05,060

this in a dungeon is basically a timeout

1072

00:56:13,120 --> 00:56:10,070

dungeon discipline the kids to

1073

00:56:15,070 --> 00:56:13,130

discipline the kids in a in a let's call

1074

00:56:17,500 --> 00:56:15,080

it a medieval you know a lot of the

1075

00:56:20,370 --> 00:56:17,510

pieces insider kind of medieval looking

1076

00:56:24,790 --> 00:56:20,380

and so I mean he also built a bathtub

1077

00:56:28,620 --> 00:56:24,800

hmm and he took baths there people of

1078

00:56:32,710 --> 00:56:28,630

the time marveled that he was able to

1079

00:56:37,810 --> 00:56:32,720

find fresh water and he carved his way

1080

00:56:40,740 --> 00:56:37,820

down to a well step stones down to fresh

1081

00:56:43,780 --> 00:56:40,750

water and he used it that well as a

1082

00:56:46,600 --> 00:56:43,790

refrigerator for his vegetables in this

1083

00:56:48,610 --> 00:56:46,610

vegetable garden and oh and so and

1084

00:56:51,100 --> 00:56:48,620

people go how the heck did he find water

1085

00:56:53,110 --> 00:56:51,110

when we can't find water yeah right in

1086

00:56:55,510 --> 00:56:53,120

the middle of the well so he so people

1087

00:57:01,690 --> 00:56:55,520

thought that was cool the bath tub was

1088

00:57:04,090 --> 00:57:01,700

cool he had a very large table that he

1089

00:57:08,320 --> 00:57:04,100

built in the and carved in the shape of

1090

00:57:12,940 --> 00:57:08,330

the state of Florida that was complete

1091

00:57:15,570 --> 00:57:12,950

with a carved lake okeechobee in the

1092

00:57:18,850 --> 00:57:15,580

middle right where it belongs and he

1093

00:57:20,500 --> 00:57:18,860

pasted it in some concrete so that it

1094

00:57:23,890 --> 00:57:20,510

would hold water and to this day it

1095

00:57:28,120 --> 00:57:23,900

holds water then Evol a table to have

1096

00:57:30,190 --> 00:57:28,130

dinner with his agnes scoffs of course

1097

00:57:31,030 --> 00:57:30,200

she never came and he put it in the

1098

00:57:34,900 --> 00:57:31,040

shape of a heart

1099

00:57:39,100 --> 00:57:34,910

he carved a big heart table with

1100

00:57:45,430 --> 00:57:39,110

completely with chairs and Ripley's

1101
00:57:49,850 --> 00:57:45,440
Believe It or Not and they they call it

1102
00:57:52,160 --> 00:57:49,860
the largest Valentine

1103
00:57:54,230 --> 00:57:52,170
ever made because it's for five thousand

1104
00:57:56,060 --> 00:57:54,240
pounds so they I mean he and these were

1105
00:57:58,160 --> 00:57:56,070
places that he would go and show people

1106
00:58:01,010 --> 00:57:58,170
so you asked me if did he leave a

1107
00:58:05,090 --> 00:58:01,020
documentation of yeah yes in a sense it

1108
00:58:08,810 --> 00:58:05,100
was an oral war of these places and the

1109
00:58:11,870 --> 00:58:08,820
stories that he would tell them he

1110
00:58:14,000 --> 00:58:11,880
carved chairs that you can go and

1111
00:58:17,180 --> 00:58:14,010
recline and that he would read in he

1112
00:58:19,550 --> 00:58:17,190
would bring he would go up to date

1113
00:58:20,990 --> 00:58:19,560

County live or Miami library and he

1114

00:58:23,150 --> 00:58:21,000

check out books and a lot of more

1115

00:58:27,350 --> 00:58:23,160

scientific books and he had these chairs

1116

00:58:29,860 --> 00:58:27,360

that that were facing different parts of

1117

00:58:32,600 --> 00:58:29,870

where the Sun would then come over his

1118

00:58:34,940 --> 00:58:32,610

reclining chairs would come over his

1119

00:58:36,770 --> 00:58:34,950

shoulders so he could fly and read and

1120

00:58:39,050 --> 00:58:36,780

you can lie in these chairs and you

1121

00:58:42,620 --> 00:58:39,060

don't think you're on a rock chair at

1122

00:58:43,970 --> 00:58:42,630

all it's there they're contoured to feel

1123

00:58:46,010 --> 00:58:43,980

like they are soft

1124

00:58:48,260 --> 00:58:46,020

I was wondering because I I see a

1125

00:58:51,250 --> 00:58:48,270

picture of him sitting on it and and

1126

00:58:58,490 --> 00:58:51,260

others sitting on it and I'm like upset

1127

00:59:01,210 --> 00:58:58,500

but I've sat in I've said reclined in

1128

00:59:04,700 --> 00:59:01,220

him and they are just contoured they're

1129

00:59:06,800 --> 00:59:04,710

absolutely comfortable and feel almost

1130

00:59:09,590 --> 00:59:06,810

soft they're so well designed

1131

00:59:11,570 --> 00:59:09,600

that's an Easter well rounded so there's

1132

00:59:13,910 --> 00:59:11,580

all these little pieces and he would

1133

00:59:16,760 --> 00:59:13,920

tell everybody about him and he would

1134

00:59:18,470 --> 00:59:16,770

tell him why they were there and and he

1135

00:59:22,100 --> 00:59:18,480

would tell people we take his bath in

1136

00:59:27,350 --> 00:59:22,110

the bathtub that he carved I mean he and

1137

00:59:30,080 --> 00:59:27,360

so no there's no real notation of it but

1138

00:59:33,440 --> 00:59:30,090

we did all our research and we found all

1139

00:59:36,680 --> 00:59:33,450

these pictures actually we found a vault

1140

00:59:40,040 --> 00:59:36,690

in in a bank and there were pictures

1141

00:59:41,960 --> 00:59:40,050

that nobody had ever seen before and and

1142

00:59:43,670 --> 00:59:41,970

so we asked him if we could use him in

1143

00:59:46,810 --> 00:59:43,680

our book and we used them and then all

1144

00:59:50,180 --> 00:59:46,820

we had to do was just tell people that

1145

00:59:53,180 --> 00:59:50,190

that the bank had provided them because

1146

00:59:55,060 --> 00:59:53,190

they were know the guys we'd heard as we

1147

00:59:57,890 --> 00:59:55,070

did our research that there was some

1148

01:00:00,170 --> 00:59:57,900

people who had pictures they'd never

1149

01:00:03,790 --> 01:00:00,180

seen before and so some of the actual

1150

01:00:05,650 --> 01:00:03,800

owners of the of the castle had

1151

01:00:09,250 --> 01:00:05,660

got to see some pictures that they had

1152

01:00:11,200 --> 01:00:09,260

never seen before the person at the

1153

01:00:14,890 --> 01:00:11,210

First National Bank of South Florida did

1154

01:00:17,050 --> 01:00:14,900

that now in these pictures we got to

1155

01:00:19,780 --> 01:00:17,060

talk about the black box forerunners yes

1156

01:00:20,859 --> 01:00:19,790

yeah I want to hear about the black box

1157

01:00:24,640 --> 01:00:20,869

it's a mystery

1158

01:00:26,620 --> 01:00:24,650

alright so how did he left these rocks

1159

01:00:29,230 --> 01:00:26,630

I'm not going to tell you how he lifted

1160

01:00:30,970 --> 01:00:29,240

them because I don't know and lots of

1161

01:00:33,359 --> 01:00:30,980

people have theories but what we have

1162

01:00:39,870 --> 01:00:33,369

and there in the book there are pictures

1163

01:00:46,450 --> 01:00:39,880

he had three pieces big long pieces of

1164

01:00:49,180 --> 01:00:46,460

Florida pine that he made large tripods

1165

01:00:51,850 --> 01:00:49,190

out of think telephone poles I mean he

1166

01:00:56,760 --> 01:00:51,860

would get these big pieces of Florida

1167

01:01:02,440 --> 01:00:56,770

pine and he would make rounded tripods

1168

01:01:08,950 --> 01:01:02,450

he had blocked tackle and chains and in

1169

01:01:13,570 --> 01:01:08,960

these pictures at the top of the 30 40

1170

01:01:16,810 --> 01:01:13,580

foot high tripod it's that really don't

1171

01:01:21,970 --> 01:01:16,820

look like they could hold all this

1172

01:01:25,210 --> 01:01:21,980

weight of these elements I'm a robot

1173

01:01:27,670 --> 01:01:25,220

vacuum cleaner so yeah I got one gig I

1174

01:01:30,460 --> 01:01:27,680

suck up dirt so pardon my inferiority

1175

01:01:32,380 --> 01:01:30,470

complex about guy coat who does so much

1176

01:01:34,150 --> 01:01:32,390

more like not only could they save their

1177

01:01:35,920 --> 01:01:34,160

customers money on car insurance but

1178

01:01:38,410 --> 01:01:35,930

they got fast and friendly claim service

1179

01:01:41,320 --> 01:01:38,420

too and an award-winning mobile app plus

1180

01:01:43,630 --> 01:01:41,330

access to licensed agents 24/7 Who am I

1181

01:01:46,529 --> 01:01:43,640

kidding I can't even do corners Oh Oh

1182

01:01:49,150 --> 01:01:46,539

choking hazard

1183

01:01:55,029 --> 01:01:49,160

Geico expect great savings and a whole

1184

01:02:00,309 --> 01:01:55,039

lot more our black boxes black box is

1185

01:02:02,440 --> 01:02:00,319

like great big toolbox maybe sized black

1186

01:02:04,990 --> 01:02:02,450

boxes I've never I've never seen one

1187

01:02:06,460 --> 01:02:05,000

I've never touched one all I can look at

1188

01:02:09,190 --> 01:02:06,470

is in the picture if you look in the

1189

01:02:11,769 --> 01:02:09,200

picture you'll see these black boxes so

1190

01:02:14,859 --> 01:02:11,779

yes actually one there's actually one

1191

01:02:16,809 --> 01:02:14,869

picture we found that had two tripods in

1192

01:02:22,809 --> 01:02:16,819

two black boxes one on top of each of

1193

01:02:27,930 --> 01:02:22,819

the tripods when he disappeared

1194

01:02:31,809 --> 01:02:27,940

to Miami and died in 1951

1195

01:02:37,839 --> 01:02:31,819

no one could visit the cast won't find

1196

01:02:42,130 --> 01:02:37,849

even one of those black boxes I mean no

1197

01:02:44,319 --> 01:02:42,140

one who is come forward has ever said

1198

01:02:46,690 --> 01:02:44,329

they'd ever found one of those black

1199

01:02:48,760 --> 01:02:46,700

boxes no it wasn't what everybody passed

1200

01:02:51,069 --> 01:02:48,770

away either they weren't with them they

1201

01:02:53,380 --> 01:02:51,079

were gone you know when when the when

1202

01:02:55,539 --> 01:02:53,390

the subsequent people when they found

1203

01:02:59,349 --> 01:02:55,549

out he had passed away and they went to

1204

01:03:01,660 --> 01:02:59,359

the castle there's no black box no one

1205

01:03:05,370 --> 01:03:01,670

ever saw what was inside those black

1206

01:03:08,170 --> 01:03:05,380

boxes no one ever saw those black boxes

1207

01:03:10,359 --> 01:03:08,180

contribute to the lifting whatever those

1208

01:03:14,049 --> 01:03:10,369

pulleys and block and tackle tackle

1209

01:03:17,309 --> 01:03:14,059

chains did no one's been ever ever been

1210

01:03:21,099 --> 01:03:17,319

able to lift anywhere close to these

1211

01:03:23,470 --> 01:03:21,109

tonnage of these rocks without the black

1212

01:03:26,829 --> 01:03:23,480

box and nobody's ever been able to use a

1213

01:03:30,220 --> 01:03:26,839

black box we believe that those black

1214

01:03:36,039 --> 01:03:30,230

boxes contributed some way to the

1215

01:03:38,680 --> 01:03:36,049

lifting of those huge brittle pieces of

1216

01:03:42,339 --> 01:03:38,690

rock I don't see how he even propped up

1217

01:03:45,789 --> 01:03:42,349

the tripod it's huge the tripod is huge

1218

01:03:49,990 --> 01:03:45,799

but the pieces of rock yeah these are

1219

01:03:54,549 --> 01:03:50,000

bigger so when you look at they're huge

1220

01:03:56,650 --> 01:03:54,559

compared to you know telephone poles I

1221

01:03:58,900 --> 01:03:56,660

guess they're I mean compared to him

1222

01:03:59,520 --> 01:03:58,910

because he's only five foot tall but

1223

01:04:03,450 --> 01:03:59,530

when you

1224

01:04:06,050 --> 01:04:03,460

see the massive pieces of rock that he

1225

01:04:12,870 --> 01:04:06,060

got up in the air they don't look so big

1226

01:04:15,600 --> 01:04:12,880

right over 20 30 years time span so and

1227

01:04:17,340 --> 01:04:15,610

then you said he moved it and there was

1228

01:04:22,380 --> 01:04:17,350

an interesting element you told me about

1229

01:04:25,680 --> 01:04:22,390

what he moved it where it lays today yes

1230

01:04:27,300 --> 01:04:25,690

yes he he moved it once he only moved

1231

01:04:31,500 --> 01:04:27,310

part of it because the rest of it he

1232

01:04:33,900 --> 01:04:31,510

built in his in the location is that it

1233

01:04:36,300 --> 01:04:33,910

is and now many of the elements were

1234

01:04:39,660 --> 01:04:36,310

built there after he moved it so we only

1235

01:04:42,450 --> 01:04:39,670

moved pieces of it I said the first the

1236

01:04:44,940 --> 01:04:42,460

first generation of it let's call it ok

1237

01:04:47,130 --> 01:04:44,950

but these black boxes now I have one

1238

01:04:51,360 --> 01:04:47,140

story you know I got to know the dose

1239

01:04:55,290 --> 01:04:51,370

and say we we done shows there and I've

1240

01:04:57,270 --> 01:04:55,300

gone down and I've done talks and the

1241

01:04:59,250 --> 01:04:57,280

ley line just real quick that when he

1242

01:05:02,280 --> 01:04:59,260

moved it that ley line where he put it

1243

01:05:03,690 --> 01:05:02,290

it's what exactly people we were

1244

01:05:05,460 --> 01:05:03,700

listening in many of them will know what

1245

01:05:09,990 --> 01:05:05,470

a ley line is but I'll explain quickly

1246

01:05:12,870 --> 01:05:10,000

their magnetic lines cross this the the

1247

01:05:15,300 --> 01:05:12,880

core of the earth that have been just

1248

01:05:18,690 --> 01:05:15,310

discovered by a guy whose last time we

1249

01:05:22,110 --> 01:05:18,700

believe is the ley le why yeah dr. Lai

1250

01:05:24,330 --> 01:05:22,120

and in Europe there are more stone

1251

01:05:27,330 --> 01:05:24,340

hinges than just the one Stonehenge

1252

01:05:29,880 --> 01:05:27,340

there are in Denmark and other places in

1253

01:05:32,210 --> 01:05:29,890

Europe and he discovered that these ley

1254

01:05:35,220 --> 01:05:32,220

lines are part of the magnetic field and

1255

01:05:38,310 --> 01:05:35,230

they pass right through many of these

1256

01:05:43,470 --> 01:05:38,320

stone henges and these hinges they also

1257

01:05:45,870 --> 01:05:43,480

formed the Bermuda Triangle coronated

1258

01:05:49,490 --> 01:05:45,880

people who follow ley lines that's

1259

01:05:55,560 --> 01:05:49,500

amazing now when he moved the castle

1260

01:06:00,710 --> 01:05:55,570

like some 10 miles from Florida City to

1261

01:06:04,470 --> 01:06:00,720

homestead he placed the castle we find

1262

01:06:10,020 --> 01:06:04,480

where the front door is on the very edge

1263

01:06:12,520 --> 01:06:10,030

of the ley line corner that forms the

1264

01:06:14,650 --> 01:06:12,530

Bermuda Triangle

1265

01:06:16,330 --> 01:06:14,660

that's that's amazing that's that's

1266

01:06:18,390 --> 01:06:16,340

crazy that's crazy but I didn't want you

1267

01:06:21,160 --> 01:06:18,400

to get too sidetracked

1268

01:06:23,710 --> 01:06:21,170

we need we need I mean there's so many

1269

01:06:26,440 --> 01:06:23,720

of these elements yeah yeah yeah one

1270

01:06:29,650 --> 01:06:26,450

human being this is not a tribe of

1271

01:06:31,690 --> 01:06:29,660

druids this is not a nation this is not

1272

01:06:34,600 --> 01:06:31,700

a nation of Egyptians building a

1273

01:06:38,590 --> 01:06:34,610

building a pyramid this is one human

1274

01:06:41,200 --> 01:06:38,600

being with 250 after David signed by the

1275

01:06:43,180 --> 01:06:41,210

people who said he's one guy nobody ever

1276

01:06:45,400 --> 01:06:43,190

helped him nobody watched him so there's

1277

01:06:48,040 --> 01:06:45,410

not one guy and he's doing all of this

1278

01:06:52,090 --> 01:06:48,050

and in a couple three decades right

1279

01:06:56,200 --> 01:06:52,100

right so so so you know you have these

1280

01:06:58,180 --> 01:06:56,210

this rock that isn't of of the earth you

1281

01:07:02,140 --> 01:06:58,190

know that's promising up you have this

1282

01:07:05,140 --> 01:07:02,150

ley-line you have this North Star the

1283

01:07:08,470 --> 01:07:05,150

black box is that a blast fired yeah all

1284

01:07:10,510 --> 01:07:08,480

right so I'm going back to the story I

1285

01:07:12,610 --> 01:07:10,520

was story to tell that I really want to

1286

01:07:16,360 --> 01:07:12,620

tell because I always a story it's not

1287

01:07:18,370 --> 01:07:16,370

verified so I'm with the docents the

1288

01:07:22,300 --> 01:07:18,380

books have been out a couple of years

1289

01:07:24,070 --> 01:07:22,310

and I'm hanging out at Coral Castle with

1290

01:07:26,260 --> 01:07:24,080

a film crew when I go to the docents I

1291

01:07:28,870 --> 01:07:26,270

go all right you guys read book yep

1292

01:07:32,170 --> 01:07:28,880

you've read the books anything I missed

1293

01:07:34,180 --> 01:07:32,180

they well not really one guy they go

1294

01:07:38,200 --> 01:07:34,190

well there's one story because we can't

1295

01:07:41,140 --> 01:07:38,210

verify it and he said when Homestead got

1296

01:07:43,990 --> 01:07:41,150

hit by Hurricane Andrew the only place

1297

01:07:45,940 --> 01:07:44,000

the National Guard could go was the

1298

01:07:48,010 --> 01:07:45,950

castle they set up camp around the

1299

01:07:51,130 --> 01:07:48,020

castle because it's the only place you

1300

01:07:54,790 --> 01:07:51,140

know had a and they so and then they set

1301
01:07:57,730 --> 01:07:54,800
up a communication space with radio and

1302
01:07:59,620 --> 01:07:57,740
they said the story is that the

1303
01:08:02,560 --> 01:07:59,630
communication space started getting

1304
01:08:05,140 --> 01:08:02,570
interference the the you know the radio

1305
01:08:07,930 --> 01:08:05,150
was getting interference Wow and they

1306
01:08:11,500 --> 01:08:07,940
said we heard the story that they

1307
01:08:13,810 --> 01:08:11,510
realized it in the well in the middle of

1308
01:08:16,059 --> 01:08:13,820
the castle seemed to be the place where

1309
01:08:19,360 --> 01:08:16,069
the interference was they the United

1310
01:08:21,970 --> 01:08:19,370
States Army Corps of Engineers it said

1311
01:08:24,910 --> 01:08:21,980
sure they get a diver the diver goes

1312
01:08:26,499 --> 01:08:24,920
down into the water way down into this

1313
01:08:30,729 --> 01:08:26,509

well that he carved

1314

01:08:33,189 --> 01:08:30,739

and they found a black box aha and they

1315

01:08:34,629 --> 01:08:33,199

pull the black box up and the army took

1316

01:08:36,819 --> 01:08:34,639

it away and nobody's ever heard anything

1317

01:08:39,370 --> 01:08:36,829

about it since of course

1318

01:08:43,089 --> 01:08:39,380

the docents tell me that's a story you

1319

01:08:45,069 --> 01:08:43,099

know no there's no way to verify it you

1320

01:08:47,199 --> 01:08:45,079

would think he'd store it in as absolute

1321

01:08:48,729 --> 01:08:47,209

most secure location on his property so

1322

01:08:50,829 --> 01:08:48,739

it makes sense it would be somewhere

1323

01:08:52,719 --> 01:08:50,839

there well makes a great story so I

1324

01:08:54,849 --> 01:08:52,729

wanted to tell him and it was yeah and

1325

01:08:56,259 --> 01:08:54,859

we you know I haven't had it in the book

1326
01:08:58,989 --> 01:08:56,269
because I always want to have something

1327
01:09:00,849 --> 01:08:58,999
to say that nobody's been able to read

1328
01:09:03,959 --> 01:09:00,859
the book so there it is yeah and I think

1329
01:09:07,539 --> 01:09:03,969
that see and there's so many cool things

1330
01:09:09,789 --> 01:09:07,549
about this guy and what he did that I

1331
01:09:11,829 --> 01:09:09,799
love that story even if it may not be

1332
01:09:12,939 --> 01:09:11,839
true and the docent said they have no

1333
01:09:14,589 --> 01:09:12,949
way of knowing it's true but they've

1334
01:09:16,599 --> 01:09:14,599
heard the story so they shared it with

1335
01:09:19,629 --> 01:09:16,609
me and I ignored it has anybody ever

1336
01:09:23,669 --> 01:09:19,639
like gone over Pete bit by bit over the

1337
01:09:26,709 --> 01:09:23,679
property to see if there is any like oh

1338
01:09:30,009 --> 01:09:26,719

there's a mecca they come they come with

1339

01:09:33,489 --> 01:09:30,019

with every device a measure there was a

1340

01:09:37,029 --> 01:09:33,499

guy came that I was told like this was

1341

01:09:39,069 --> 01:09:37,039

probably 20 years ago from MIT and he

1342

01:09:40,749 --> 01:09:39,079

measured everything and he said he'd be

1343

01:09:42,339 --> 01:09:40,759

back in three or four weeks because he'd

1344

01:09:44,649 --> 01:09:42,349

figured it out they never saw him again

1345

01:09:48,459 --> 01:09:44,659

but he measured everything there was

1346

01:09:50,370 --> 01:09:48,469

actually a guy from Australia who was so

1347

01:09:56,439 --> 01:09:50,380

interested in the castle that he thought

1348

01:09:57,819 --> 01:09:56,449

it needed better aerial photographs so

1349

01:09:59,830 --> 01:09:57,829

he came all the way from Australia

1350

01:10:02,410 --> 01:09:59,840

people come from all over the world and

1351

01:10:04,270 --> 01:10:02,420

do all kinds of I'm guessing and

1352

01:10:06,520 --> 01:10:04,280

measuring and calculating and trying to

1353

01:10:08,770 --> 01:10:06,530

figure out their own and it's fun you

1354

01:10:09,939 --> 01:10:08,780

know to hear it but alright but but

1355

01:10:11,620 --> 01:10:09,949

again they've never built their own

1356

01:10:14,080 --> 01:10:11,630

castle and there there's a guy in

1357

01:10:15,850 --> 01:10:14,090

Indiana or maybe Michigan now who has

1358

01:10:18,310 --> 01:10:15,860

come up with a way of for crumbing with

1359

01:10:19,629 --> 01:10:18,320

all butts and and I thought that was

1360

01:10:21,790 --> 01:10:19,639

really cool I thought he might be onto

1361

01:10:23,890 --> 01:10:21,800

something he might be but the problem is

1362

01:10:26,560 --> 01:10:23,900

there's no sand around the castle where

1363

01:10:28,899 --> 01:10:26,570

you know they would have taken it I mean

1364

01:10:31,870 --> 01:10:28,909

he would had to dig big holes in sand

1365

01:10:34,299 --> 01:10:31,880

and so people come around and and so the

1366

01:10:38,560 --> 01:10:34,309

guy from Australia he came over and

1367

01:10:40,270 --> 01:10:38,570

hired a pilot and he flew over the

1368

01:10:42,160 --> 01:10:40,280

castle and they took all

1369

01:10:44,530 --> 01:10:42,170

the pictures aerial pictures take him

1370

01:10:46,990 --> 01:10:44,540

always from Australia to do that these

1371

01:10:50,020 --> 01:10:47,000

people have thought everything they

1372

01:10:51,790 --> 01:10:50,030

could do because the mist as long as the

1373

01:10:54,460 --> 01:10:51,800

mystery stays a mystery and there are

1374

01:10:56,080 --> 01:10:54,470

people who think he just where's the guy

1375

01:10:57,970 --> 01:10:56,090

who was really good with levers and

1376

01:10:59,800 --> 01:10:57,980

fulcrums and never you know he was an

1377

01:11:01,390 --> 01:10:59,810

artisan and he never wanted anybody to

1378

01:11:03,790 --> 01:11:01,400

know any more than that so he taught

1379

01:11:05,350 --> 01:11:03,800

about all these other stories in the

1380

01:11:08,820 --> 01:11:05,360

black box and everything else just

1381

01:11:12,220 --> 01:11:08,830

because ed was playing with everybody

1382

01:11:13,930 --> 01:11:12,230

artists artists can be very very

1383

01:11:16,180 --> 01:11:13,940

secretive when they have a method that

1384

01:11:18,070 --> 01:11:16,190

is being revered and they want to be

1385

01:11:19,750 --> 01:11:18,080

known for something they could be very

1386

01:11:22,420 --> 01:11:19,760

secretive on their process so that's

1387

01:11:25,600 --> 01:11:22,430

that's not surprising what surprising is

1388

01:11:27,970 --> 01:11:25,610

this the lake this guy went it's just

1389

01:11:30,040 --> 01:11:27,980

you know I I mean because he could have

1390

01:11:32,020 --> 01:11:30,050

taught and and so many people could have

1391

01:11:34,570 --> 01:11:32,030

benefited off from knowing what he knew

1392

01:11:36,850 --> 01:11:34,580

because this he knew this is a feat none

1393

01:11:40,750 --> 01:11:36,860

had accomplished before there was a

1394

01:11:42,280 --> 01:11:40,760

question in the chat room Rick is asking

1395

01:11:45,370 --> 01:11:42,290

and I'm curious about if there's been

1396

01:11:48,400 --> 01:11:45,380

any other odd phenomena in the area UFOs

1397

01:11:51,340 --> 01:11:48,410

ghostly like things are odd apparitions

1398

01:11:54,880 --> 01:11:51,350

around this castle not that I know of

1399

01:11:56,860 --> 01:11:54,890

no but I'm I'm I don't live down there

1400

01:11:58,750 --> 01:11:56,870

and I just spent all my time working off

1401

01:12:00,880 --> 01:11:58,760

of the cast or when we built the book

1402

01:12:03,640 --> 01:12:00,890

you know built a story around the book

1403

01:12:06,820 --> 01:12:03,650

and the elements but I've talked we

1404

01:12:10,390 --> 01:12:06,830

talked to a lot of people but you know

1405

01:12:13,060 --> 01:12:10,400

this there's no seances that have

1406

01:12:15,010 --> 01:12:13,070

brought edy back to life and having

1407

01:12:19,030 --> 01:12:15,020

visited or any of those things that we

1408

01:12:21,550 --> 01:12:19,040

know about I always thought I mean he's

1409

01:12:23,590 --> 01:12:21,560

basically buried in a potter's grave in

1410

01:12:25,720 --> 01:12:23,600

Miami because people didn't know him and

1411

01:12:27,730 --> 01:12:25,730

didn't claim in it took a while for him

1412

01:12:29,560 --> 01:12:27,740

to find out I think I always thought

1413

01:12:33,010 --> 01:12:29,570

they ought to move him and they're in

1414

01:12:35,410 --> 01:12:33,020

you know on the property they'd say it

1415

01:12:37,150 --> 01:12:35,420

had belonged on the property did they

1416

01:12:38,080 --> 01:12:37,160

find where he's literally at his

1417

01:12:41,620 --> 01:12:38,090

apartment

1418

01:12:44,350 --> 01:12:41,630

oh yeah he's gonna be where he is he's

1419

01:12:47,110 --> 01:12:44,360

buried in a public cemetery in Miami

1420

01:12:52,350 --> 01:12:47,120

and they know he wasn't haunting the

1421

01:12:54,300 --> 01:12:52,360

place I mean he put a lot into his place

1422

01:12:56,860 --> 01:12:54,310

topic

1423

01:12:59,440 --> 01:12:56,870

parallel to it but I least think he

1424

01:13:02,320 --> 01:12:59,450

ought to be buried I've told the people

1425

01:13:05,530 --> 01:13:02,330

that owned they they piata be buried on

1426

01:13:09,160 --> 01:13:05,540

the castle truly my in my opinion but

1427

01:13:11,950 --> 01:13:09,170

you know what what do I tell them living

1428

01:13:14,650 --> 01:13:11,960

offering tours of this castle - right he

1429

01:13:17,920 --> 01:13:14,660

yeah he charged 25 cents 10 cents

1430

01:13:20,020 --> 01:13:17,930

whatever depending and and he sold

1431

01:13:23,260 --> 01:13:20,030

vegetables traded vegetables he grew

1432

01:13:27,820 --> 01:13:23,270

vegetables if we're heating oil he he

1433

01:13:32,430 --> 01:13:27,830

raised some some a little bit of

1434

01:13:35,920 --> 01:13:32,440

livestock and he had a complete cooker

1435

01:13:39,160 --> 01:13:35,930

crook pot if you will barbecue made out

1436

01:13:41,200 --> 01:13:39,170

of pieces of engine parts and you can

1437

01:13:44,800 --> 01:13:41,210

it's all those are all still there you

1438

01:13:46,000 --> 01:13:44,810

can see where he cooked and he ate you

1439

01:13:49,810 --> 01:13:46,010

know here's a little guy didn't need a

1440

01:13:52,960 --> 01:13:49,820

whole lot he he took care of himself he

1441

01:13:56,200 --> 01:13:52,970

and he traded out some of his vegetables

1442

01:13:59,320 --> 01:13:56,210

and he got some revenue and here's

1443

01:14:01,600 --> 01:13:59,330

probably another peek into his ingenious

1444

01:14:04,750 --> 01:14:01,610

or his IQ yeah

1445

01:14:07,810 --> 01:14:04,760

over the decades he never charged

1446

01:14:10,630 --> 01:14:07,820

anybody come back to the castle a second

1447

01:14:15,070 --> 01:14:10,640

time and people swore he would always

1448

01:14:17,320 --> 01:14:15,080

remember him so somebody there was

1449

01:14:21,280 --> 01:14:17,330

somebody went to his Florida City place

1450

01:14:24,310 --> 01:14:21,290

and paid I think 10 cents and like 12

1451

01:14:28,180 --> 01:14:24,320

years later she came to the homestead

1452

01:14:29,410 --> 01:14:28,190

new one and he remembered that she had

1453

01:14:31,990 --> 01:14:29,420

been to the other one he says why I

1454

01:14:34,150 --> 01:14:32,000

never charge if you come again and

1455

01:14:36,790 --> 01:14:34,160

people would swear how the heck could he

1456

01:14:38,830 --> 01:14:36,800

remember when I was in here for 10 years

1457

01:14:41,680 --> 01:14:38,840

and then he remembered and he said I

1458

01:14:43,270 --> 01:14:41,690

never charge if you come back when you

1459

01:14:46,600 --> 01:14:43,280

come huh

1460

01:14:50,470 --> 01:14:46,610

he was really different he had a find it

1461

01:14:52,300 --> 01:14:50,480

said he had a sign that said um ring

1462

01:14:53,740 --> 01:14:52,310

twice if you didn't ring twice he

1463

01:14:58,390 --> 01:14:53,750

wouldn't answer and he wouldn't give you

1464

01:15:01,390 --> 01:14:58,400

it to her ring twice for tour you know

1465

01:15:04,240 --> 01:15:01,400

put the money in ring twice if somebody

1466

01:15:05,950 --> 01:15:04,250

rang once he would note or did he walk

1467

01:15:07,120 --> 01:15:05,960

him through or did he just let them

1468

01:15:09,399 --> 01:15:07,130

water in there

1469

01:15:11,379 --> 01:15:09,409

let'em he led them they had to follow

1470

01:15:13,600 --> 01:15:11,389

they were not allowed to ask any

1471

01:15:16,180 --> 01:15:13,610

questions they listened to every was

1472

01:15:18,010 --> 01:15:16,190

totally proud he chattered and he told

1473

01:15:19,959 --> 01:15:18,020

all about how wonderful it was we

1474

01:15:21,520 --> 01:15:19,969

interviewed people about this and they

1475

01:15:23,709 --> 01:15:21,530

wrote little things into margins on the

1476

01:15:26,950 --> 01:15:23,719

affidavits that we all that helped us

1477

01:15:30,070 --> 01:15:26,960

come compose the book and so he says he

1478

01:15:31,840 --> 01:15:30,080

says you don't in your you're not ask

1479

01:15:34,030 --> 01:15:31,850

any questions nobody ever gets ahead of

1480

01:15:36,640 --> 01:15:34,040

me and he pridefully showed all these

1481

01:15:38,740 --> 01:15:36,650

elements that we are talking about and

1482

01:15:43,390 --> 01:15:38,750

then at the end they were allowed to ask

1483

01:15:52,030 --> 01:15:43,400

questions yes if they'd behave they

1484

01:15:53,379 --> 01:15:52,040

behave if they they and if they didn't

1485

01:15:54,939 --> 01:15:53,389

ring the bell twice they weren't even

1486

01:15:59,080 --> 01:15:54,949

gonna get it to her he had a lot of

1487

01:16:02,080 --> 01:15:59,090

rules so he was a bit was the era great

1488

01:16:05,200 --> 01:16:02,090

and strange okay I question for you

1489

01:16:07,899 --> 01:16:05,210

Agnes did she ever know what he had

1490

01:16:10,000 --> 01:16:07,909

created for her yes yes what does she

1491

01:16:11,919 --> 01:16:10,010

think we establish it there is question

1492

01:16:15,250 --> 01:16:11,929

whether Agnes really exists didn't by

1493

01:16:16,959 --> 01:16:15,260

the way no but then but then we we

1494

01:16:18,459 --> 01:16:16,969

reached out and found her niece she was

1495

01:16:22,090 --> 01:16:18,469

still alive when we write in the book

1496

01:16:25,360 --> 01:16:22,100

and and so we think Agnes in one way or

1497

01:16:28,060 --> 01:16:25,370

shape or another it but and so people in

1498

01:16:30,490 --> 01:16:28,070

the community knew that he had contacted

1499

01:16:32,320 --> 01:16:30,500

Agnes and her people in Latvia who now

1500

01:16:34,300 --> 01:16:32,330

aware of this because of the internet

1501
01:16:34,780 --> 01:16:34,310
and the Iron Curtain coming down and

1502
01:16:37,870 --> 01:16:34,790
what have you

1503
01:16:41,260 --> 01:16:37,880
yeah in that the best I can tell you is

1504
01:16:43,930 --> 01:16:41,270
Agnes did yes did exist she knew about

1505
01:16:46,419 --> 01:16:43,940
it and she said that little guy is weird

1506
01:16:47,890 --> 01:16:46,429
and I don't care where she go to Castle

1507
01:16:49,330 --> 01:16:47,900
or not I'm not coming in the United

1508
01:16:52,570 --> 01:16:49,340
States to mess with him

1509
01:16:54,010 --> 01:16:52,580
see you though she knew it she knew for

1510
01:16:55,629 --> 01:16:54,020
him to have the genius that he does

1511
01:16:58,270 --> 01:16:55,639
seems like geniuses are a little awkward

1512
01:17:02,439 --> 01:16:58,280
so she calls she called it out right

1513
01:17:05,050 --> 01:17:02,449

yeah she you know she was 16 he was 26

1514

01:17:06,970 --> 01:17:05,060

and somehow she figured out he was weird

1515

01:17:08,979 --> 01:17:06,980

night I think he did a lot of great

1516

01:17:11,560 --> 01:17:08,989

things but I think he is also weird I

1517

01:17:13,300 --> 01:17:11,570

think she was yeah right yeah thank

1518

01:17:14,770 --> 01:17:13,310

goodness so a go ahead and give the

1519

01:17:16,209 --> 01:17:14,780

title of your book in your website and

1520

01:17:18,399 --> 01:17:16,219

your other book the New York Times best

1521

01:17:20,950 --> 01:17:18,409

seller I mean my goodness you can't go

1522

01:17:23,709 --> 01:17:20,960

yeah we wrote quarrel can

1523

01:17:25,959 --> 01:17:23,719

so Jack Heffron and I did it's called

1524

01:17:28,920 --> 01:17:25,969

Coral Castle the mystery of Ed

1525

01:17:31,510 --> 01:17:28,930

Leedskalnin and his American Stonehenge

1526

01:17:33,160 --> 01:17:31,520

and it's a there's a picture of Ed in

1527

01:17:36,670 --> 01:17:33,170

the castle elements some of them

1528

01:17:39,070 --> 01:17:36,680

undercover my first book was Crosley

1529

01:17:42,220 --> 01:17:39,080

it's a New York Times best seller it's

1530

01:17:44,680 --> 01:17:42,230

the story of the two brothers Crosley

1531

01:17:48,010 --> 01:17:44,690

who created consumer radio for the world

1532

01:17:51,400 --> 01:17:48,020

just like Henry Ford who didn't invent

1533

01:17:54,790 --> 01:17:51,410

the car can create created consumer cars

1534

01:17:57,670 --> 01:17:54,800

for the world that took place in Detroit

1535

01:17:59,650 --> 01:17:57,680

the Crosley's built wlv the most

1536

01:18:02,410 --> 01:17:59,660

powerful radio station in the world and

1537

01:18:04,630 --> 01:18:02,420

they built Crosley radios and then they

1538

01:18:07,810 --> 01:18:04,640

built the Crosley car and so forth in

1539

01:18:10,600 --> 01:18:07,820

between those two books that are join is

1540

01:18:12,910 --> 01:18:10,610

the book Cincinnatus which is a novel I

1541

01:18:15,630 --> 01:18:12,920

wrote with David Stern he wrote The

1542

01:18:20,229 --> 01:18:15,640

Blair Witch Project among other things

1543

01:18:22,600 --> 01:18:20,239

it is the story of ads secret not being

1544

01:18:24,990 --> 01:18:22,610

buried and lost forever but passed

1545

01:18:28,420 --> 01:18:25,000

through the Society of the Cincinnati

1546

01:18:30,990 --> 01:18:28,430

the oldest and this is true but the fact

1547

01:18:33,280 --> 01:18:31,000

that he passed it is not true the oldest

1548

01:18:34,959 --> 01:18:33,290

if you look up the Society of the

1549

01:18:37,860 --> 01:18:34,969

Cincinnati for which some say his name

1550

01:18:40,240 --> 01:18:37,870

for they're still headquartered on

1551

01:18:44,140 --> 01:18:40,250

Massachusetts Avenue in Washington DC

1552

01:18:46,000 --> 01:18:44,150

the oldest military organization on the

1553

01:18:47,650 --> 01:18:46,010

North American continent most people

1554

01:18:51,780 --> 01:18:47,660

don't know about it founded by Henry

1555

01:18:56,979 --> 01:18:51,790

Major General Henry Knox and so they

1556

01:19:06,430 --> 01:18:56,989

purportedly fix fictionally have Ed's

1557

01:19:10,209 --> 01:19:06,440

secret kind of been a Marik in da Vinci

1558

01:19:13,570 --> 01:19:10,219

Code type book we got the sequel working

1559

01:19:15,100 --> 01:19:13,580

almost done but it's but it's it so

1560

01:19:18,640 --> 01:19:15,110

there's too much that actually have

1561

01:19:21,700 --> 01:19:18,650

Coral Castle once is true as we know it

1562

01:19:24,400 --> 01:19:21,710

it to be and we didn't take sides on the

1563

01:19:26,920 --> 01:19:24,410

theories we're just fascinated by it

1564

01:19:31,630 --> 01:19:26,930

we're fascinated but we're fascinated by

1565

01:19:33,010 --> 01:19:31,640

all the theories yeah there's a lion so

1566

01:19:34,840 --> 01:19:33,020

you have to read the book you decide for

1567

01:19:37,690 --> 01:19:34,850

yourself you have to go

1568

01:19:41,050 --> 01:19:37,700

to Coral Castle and I check it out

1569

01:19:44,080 --> 01:19:41,060

everyone they do not be disappointed

1570

01:19:45,490 --> 01:19:44,090

they bear claw I gotta say thank you so
