1  
00:00:00,000 --> 00:00:02,800

[Music]

2  
00:00:08,210 --> 00:00:05,809

welcome everyone to the California MUFON

3  
00:00:10,430 --> 00:00:08,220

radio show I'm your host Lori in Fenton

4  
00:00:11,749 --> 00:00:10,440

we're here on inception radio network as

5  
00:00:14,150 --> 00:00:11,759

you know it is the home of the most

6  
00:00:16,070 --> 00:00:14,160

famous app on the planet where you can

7  
00:00:17,570 --> 00:00:16,080

get inception radio network any time of

8  
00:00:19,760 --> 00:00:17,580

day or night that you want you can

9  
00:00:21,560 --> 00:00:19,770

download you can upload you can just

10  
00:00:24,859 --> 00:00:21,570

have a great old time loading away so

11  
00:00:26,779 --> 00:00:24,869

there you go so get that app it's the IR

12  
00:00:29,419 --> 00:00:26,789

and app it is lovely it's got a little

13  
00:00:30,950 --> 00:00:29,429

microphone a little spaceship it's got

14

00:00:32,810 --> 00:00:30,960

you know what I was laughing the other

15

00:00:34,940 --> 00:00:32,820

day because I was looking at the logo of

16

00:00:37,280 --> 00:00:34,950

inception radio network I went wait a

17

00:00:39,979 --> 00:00:37,290

minute that's the billy meier Palladian

18

00:00:42,260 --> 00:00:39,989

ship from the 50s boy we're dating

19

00:00:45,470 --> 00:00:42,270

ourselves see this is how long space

20

00:00:47,869 --> 00:00:45,480

these patients have been around it's

21

00:00:51,410 --> 00:00:47,879

like oh my god we need a new sleeker

22

00:00:54,319 --> 00:00:51,420

like triangle craft in there MJ and Bob

23

00:00:56,720 --> 00:00:54,329

and Joe we gotta get up to date what's

24

00:00:59,420 --> 00:00:56,730

wrong with us no no I think it's really

25

00:01:01,700 --> 00:00:59,430

cool that we do the throwback spacecraft

26

00:01:03,319 --> 00:01:01,710

I really do I really love that craft

27

00:01:06,140 --> 00:01:03,329

because it's one of the first crafts I

28

00:01:08,300 --> 00:01:06,150

ever really saw when I was doing

29

00:01:10,280 --> 00:01:08,310

research on UFOs you know it's the one

30

00:01:13,399 --> 00:01:10,290

with the three balls underneath it and

31

00:01:15,170 --> 00:01:13,409

you know there's still a lot of

32

00:01:19,640 --> 00:01:15,180

controversy about whether those were

33

00:01:22,670 --> 00:01:19,650

German soldiers crafts or not but you

34

00:01:24,649 --> 00:01:22,680

know it's so bizarre someday all the

35

00:01:26,300 --> 00:01:24,659

truth will come out and I can guarantee

36

00:01:29,420 --> 00:01:26,310

you folks it ain't gonna come out with

37

00:01:31,460 --> 00:01:29,430

to the Stars Academy boy oh my god well

38

00:01:33,289 --> 00:01:31,470

that reminds me let me get the

39

00:01:36,649 --> 00:01:33,299

advertisements out of the way quickly

40

00:01:39,469 --> 00:01:36,659

here because if it wasn't for you know

41

00:01:41,810 --> 00:01:39,479

me doing some advertising I wouldn't

42

00:01:43,639 --> 00:01:41,820

survive I'm telling you guys this whole

43

00:01:47,030 --> 00:01:43,649

thing had put it putting on conferences

44

00:01:48,620 --> 00:01:47,040

uh-huh you cannot be faint of heart to

45

00:01:51,710 --> 00:01:48,630

put on a conference like I put on

46

00:01:54,170 --> 00:01:51,720

because seriously I've never been

47

00:01:56,090 --> 00:01:54,180

through so much stress in my entire life

48

00:01:59,030 --> 00:01:56,100

and every time it's over I go I'm never

49

00:02:02,060 --> 00:01:59,040

doing this again I'm never gonna do this

50

00:02:04,850 --> 00:02:02,070

again and then I do it again and

51  
00:02:10,070 --> 00:02:04,860  
stupidly I don't know what possessed me

52  
00:02:13,040 --> 00:02:10,080  
when they asked me November of godwyn

53  
00:02:16,280 --> 00:02:13,050  
was it it was November of 6

54  
00:02:18,740 --> 00:02:16,290  
tene a bunch of guys from the JFK

55  
00:02:21,550 --> 00:02:18,750  
Historical Society approached me at the

56  
00:02:24,050 --> 00:02:21,560  
November 16 Dallas conference and said

57  
00:02:30,350 --> 00:02:24,060  
you know we really need some help

58  
00:02:32,870 --> 00:02:30,360  
putting on a conference and so I went

59  
00:02:34,250 --> 00:02:32,880  
ahead and agreed to help them I didn't

60  
00:02:35,990 --> 00:02:34,260  
realize when they were gonna put the

61  
00:02:39,620 --> 00:02:36,000  
conference on I knew that was gonna be

62  
00:02:43,220 --> 00:02:39,630  
sometime in the spring of 18 but I just

63  
00:02:46,550 --> 00:02:43,230

was like well sure whatever and then in

64  
00:02:48,020 --> 00:02:46,560  
March of 17 one year ago they came to me

65  
00:02:49,850 --> 00:02:48,030  
and said okay we're really gonna do it

66  
00:02:51,200 --> 00:02:49,860  
and blah blah blah and I'm like okay

67  
00:02:53,660 --> 00:02:51,210  
great what are you gonna do it I'm

68  
00:02:56,180 --> 00:02:53,670  
thinking may or june or april you know

69  
00:02:59,840 --> 00:02:56,190  
late april they go oh no the second week

70  
00:03:02,390 --> 00:02:59,850  
of march and I'm like oh no I said I put

71  
00:03:04,400 --> 00:03:02,400  
on UFO Con the third week you know third

72  
00:03:06,710 --> 00:03:04,410  
or fourth week of March they're like oh

73  
00:03:08,630 --> 00:03:06,720  
is that gonna be a problem and I thought

74  
00:03:10,250 --> 00:03:08,640  
to myself you know I'm pretty good at

75  
00:03:12,170 --> 00:03:10,260  
doing this stuff with my hands tied

76

00:03:12,530 --> 00:03:12,180

behind my back I think I could pull it

77

00:03:14,690 --> 00:03:12,540

off

78

00:03:17,000 --> 00:03:14,700

and I I do think it would be a big deal

79

00:03:19,790 --> 00:03:17,010

and then when I started doing this I

80

00:03:21,380 --> 00:03:19,800

realized these guys are you know the

81

00:03:22,940 --> 00:03:21,390

people that work with me for UFO con

82

00:03:24,350 --> 00:03:22,950

thank God I just call them on the phone

83

00:03:25,729 --> 00:03:24,360

and I say this is what we need it's got

84

00:03:28,040 --> 00:03:25,739

to get done and blah blah blah and it's

85

00:03:30,440 --> 00:03:28,050

all taken care of I mean I takes a lot

86

00:03:31,910 --> 00:03:30,450

of organizing but they've done it with

87

00:03:33,770 --> 00:03:31,920

me enough over the last four or five

88

00:03:36,020 --> 00:03:33,780

years that we you know I have the PA

89

00:03:39,979 --> 00:03:36,030

system figured out we have this the

90

00:03:42,170 --> 00:03:39,989

sound we have the the videographers all

91

00:03:44,030 --> 00:03:42,180

figured out we have the hotel's figured

92

00:03:46,340 --> 00:03:44,040

out I mean it's pretty much you know

93

00:03:49,100 --> 00:03:46,350

it's a lot of work but it's not nearly

94

00:03:51,170 --> 00:03:49,110

the stress because I know I'm covered in

95

00:03:54,199 --> 00:03:51,180

areas that these guys never even thought

96

00:03:55,820 --> 00:03:54,209

about right oh my god and then I start

97

00:03:57,710 --> 00:03:55,830

talking to my co of you ever done yeah

98

00:03:59,630 --> 00:03:57,720

oh yeah yeah we've we did it you know

99

00:04:01,790 --> 00:03:59,640

three years ago so I'm thinking okay so

100

00:04:03,620 --> 00:04:01,800

these guys know what they're doing well

101  
00:04:05,750 --> 00:04:03,630  
then the port guys I mean they're like

102  
00:04:07,870 --> 00:04:05,760  
you know every turn what do we do now

103  
00:04:10,880 --> 00:04:07,880  
what do we do that it's like it's like

104  
00:04:14,740 --> 00:04:10,890  
hand-holding you know children it really

105  
00:04:17,390 --> 00:04:14,750  
is I swear to God but anyhow I digress I

106  
00:04:20,090 --> 00:04:17,400  
love them all dearly though that's the

107  
00:04:22,670 --> 00:04:20,100  
problem it's you know it's they're

108  
00:04:25,130 --> 00:04:22,680  
amazing researchers these guys are so

109  
00:04:25,820 --> 00:04:25,140  
amazing that you know there's like I

110  
00:04:28,429 --> 00:04:25,830  
can't

111  
00:04:30,860 --> 00:04:28,439  
help them how much stress they put me

112  
00:04:33,110 --> 00:04:30,870  
through they have no idea and they'll

113  
00:04:34,760 --> 00:04:33,120

never know and I'm never gonna tell them

114

00:04:36,770 --> 00:04:34,770

but I'll tell all you guys because they

115

00:04:39,200 --> 00:04:36,780

never listened to the UFO show why would

116

00:04:41,450 --> 00:04:39,210

they ever listen to this show oh god

117

00:04:43,219 --> 00:04:41,460

just cracks me up I I was thinking about

118

00:04:46,429 --> 00:04:43,229

today that I could tell everybody a

119

00:04:51,320 --> 00:04:46,439

moving fun world how crazy the JFK world

120

00:04:54,469 --> 00:04:51,330

is oh my god anyhow so um yeah the

121

00:04:57,439 --> 00:04:54,479

cheesecake conference DC JFK conference

122

00:04:59,540 --> 00:04:57,449

DC comm is coming up and I'm telling you

123

00:05:01,939 --> 00:04:59,550

guys this is gonna be so extraordinary

124

00:05:03,350 --> 00:05:01,949

now all the logistics are being taken

125

00:05:05,450 --> 00:05:03,360

care of I'm taking care of everything

126

00:05:07,999 --> 00:05:05,460

the websites up did you guys know the

127

00:05:10,129 --> 00:05:08,009

tickets are for sale please if you guys

128

00:05:12,409 --> 00:05:10,139

can get out there this week please try

129

00:05:14,180 --> 00:05:12,419

to be there because it is truly like

130

00:05:16,249 --> 00:05:14,190

I've been telling you for weeks now and

131

00:05:18,019 --> 00:05:16,259

I was in tears on Monday talking about

132

00:05:20,420 --> 00:05:18,029

it I have all mister crying now thinking

133

00:05:21,769 --> 00:05:20,430

about it I don't think in two or three

134

00:05:24,499 --> 00:05:21,779

years we're gonna have any more of these

135

00:05:28,129 --> 00:05:24,509

conferences it's just getting to the

136

00:05:29,959 --> 00:05:28,139

point where there's nobody seriously as

137

00:05:33,170 --> 00:05:29,969

interested as most of us that live

138

00:05:35,749 --> 00:05:33,180

through it and you have to have been

139

00:05:38,209 --> 00:05:35,759

bitten by the the there's something that

140

00:05:41,450 --> 00:05:38,219

happened to me on that day and I asked

141

00:05:43,640 --> 00:05:41,460

every one of these researchers that the

142

00:05:46,219 --> 00:05:43,650

day that Kennedy was shot what happened

143

00:05:48,320 --> 00:05:46,229

to you to make you do this the rest of

144

00:05:50,300 --> 00:05:48,330

your life you know that you found this

145

00:05:54,320 --> 00:05:50,310

path it's the same thing I asked you if

146

00:05:57,079 --> 00:05:54,330

you're for researchers most of them saw

147

00:05:59,809 --> 00:05:57,089

something heard something we're told

148

00:06:02,719 --> 00:05:59,819

something or their father was involved

149

00:06:04,640 --> 00:06:02,729

like st. John Hunt or they were the

150

00:06:07,519 --> 00:06:04,650

girlfriend of Lee Harvey Oswald like

151

00:06:09,619 --> 00:06:07,529

Judith Barry Baker or you know or

152

00:06:14,209 --> 00:06:09,629

something there's always some little

153

00:06:17,570 --> 00:06:14,219

trigger or a Hugh Clark the the Navy

154

00:06:21,950 --> 00:06:17,580

military guy that carried the casket and

155

00:06:24,980 --> 00:06:21,960

was the honor guard for JFK's you know

156

00:06:26,510 --> 00:06:24,990

burial and took the coffin and laid it

157

00:06:29,180 --> 00:06:26,520

in the grave and the whole bit but he

158

00:06:31,610 --> 00:06:29,190

also took the body to Bethesda boy his

159

00:06:34,430 --> 00:06:31,620

story something I'm telling you you know

160

00:06:35,719 --> 00:06:34,440

no one really knows this mo maybe you

161

00:06:39,110 --> 00:06:35,729

guys all do because you're pretty smart

162

00:06:39,410 --> 00:06:39,120

out there but when Hugh Clark and the

163

00:06:41,750 --> 00:06:39,420

rest

164

00:06:44,500 --> 00:06:41,760

the honor guard brought in the casket

165

00:06:47,300 --> 00:06:44,510

David Dennis David who is now deceased

166

00:06:50,090 --> 00:06:47,310

Jim Jenkins and a few other guys that

167

00:06:53,060 --> 00:06:50,100

were in there were taking a body to the

168

00:06:55,730 --> 00:06:53,070

morgue in a different casket and they

169

00:06:57,410 --> 00:06:55,740

were told that was JFK's body and so

170

00:06:59,870 --> 00:06:57,420

these guys are bringing in what they

171

00:07:02,540 --> 00:06:59,880

think is JFK's body and they got in a

172

00:07:04,910 --> 00:07:02,550

big fight there as you Clark tells it

173

00:07:07,190 --> 00:07:04,920

there was almost fisticuffs over the

174

00:07:09,530 --> 00:07:07,200

fact that they didn't have the body that

175

00:07:11,690 --> 00:07:09,540

they had the body and this was it was a

176

00:07:14,540 --> 00:07:11,700

big big argument in the hallway for

177

00:07:16,340 --> 00:07:14,550

about 10 minutes seriously and they

178

00:07:18,680 --> 00:07:16,350

weren't allowed to open the coffin see

179

00:07:20,630 --> 00:07:18,690

there's nobody there that was this is

180

00:07:22,610 --> 00:07:20,640

the part that kills me I was telling you

181

00:07:25,340 --> 00:07:22,620

seriously guys just didn't open it and

182

00:07:28,520 --> 00:07:25,350

look you know but they were all you know

183

00:07:31,580 --> 00:07:28,530

staunch military guys that would not

184

00:07:33,350 --> 00:07:31,590

break protocol and none of them were you

185

00:07:36,140 --> 00:07:33,360

know high enough and rank to open those

186

00:07:37,940 --> 00:07:36,150

coffins so it was just hysterical I mean

187

00:07:40,250 --> 00:07:37,950

I'm this I laughed at this day about

188

00:07:42,380 --> 00:07:40,260

that it's not funny bit but it's funny

189

00:07:45,080 --> 00:07:42,390

in a weird way because it's like what a

190

00:07:47,600 --> 00:07:45,090

crazy conspiracy theory we got two

191

00:07:49,940 --> 00:07:47,610

different factions of gentlemen both all

192

00:07:52,400 --> 00:07:49,950

serving in the military both say they

193

00:07:53,840 --> 00:07:52,410

have the body of JFK that you guys never

194

00:07:56,900 --> 00:07:53,850

heard that one before

195

00:07:58,760 --> 00:07:56,910

it's pretty wild so anyhow he's gonna be

196

00:08:01,040 --> 00:07:58,770

there speaking and you know these guys

197

00:08:02,570 --> 00:08:01,050

are not spring chickens I don't know how

198

00:08:05,030 --> 00:08:02,580

many more times I have to say it

199

00:08:08,170 --> 00:08:05,040

everybody if you're interested in seeing

200

00:08:11,360 --> 00:08:08,180

the people that were there Judith you

201  
00:08:13,340 --> 00:08:11,370  
st. John hunt experienced a lot with his

202  
00:08:16,010 --> 00:08:13,350  
father I mean we have a few more

203  
00:08:17,780 --> 00:08:16,020  
witnesses we have Oh God was just added

204  
00:08:20,930 --> 00:08:17,790  
this week there's a witness that none of

205  
00:08:23,660 --> 00:08:20,940  
us have ever gotten out in public before

206  
00:08:27,170 --> 00:08:23,670  
and they're gonna make an appearance at

207  
00:08:29,150 --> 00:08:27,180  
our conference so we've got another one

208  
00:08:31,400 --> 00:08:29,160  
coming out of the woodwork there's a lot

209  
00:08:33,440 --> 00:08:31,410  
of people who have never spoken and

210  
00:08:37,670 --> 00:08:33,450  
they're all in their late 80s most of

211  
00:08:40,640 --> 00:08:37,680  
them are in mid 80s now and they're

212  
00:08:42,680 --> 00:08:40,650  
dying and they're like okay I guess it's

213  
00:08:44,600 --> 00:08:42,690

time I talk cuz you know my family is

214

00:08:47,450 --> 00:08:44,610

gonna live I guess through this or

215

00:08:49,970 --> 00:08:47,460

whatever most of them were threatened a

216

00:08:52,220 --> 00:08:49,980

lot of them are dead there's just it's

217

00:08:53,269 --> 00:08:52,230

crazy I don't know where to start with

218

00:08:55,579 --> 00:08:53,279

all this but

219

00:08:57,139 --> 00:08:55,589

telling you guys there may not be any

220

00:08:59,629 --> 00:08:57,149

more of these so if you can make it

221

00:09:02,840 --> 00:08:59,639

there the price is so affordable I told

222

00:09:05,569 --> 00:09:02,850

the guys I said you're just doing this

223

00:09:07,490 --> 00:09:05,579

to break-even and you're making it

224

00:09:10,400 --> 00:09:07,500

affordable so people can get there

225

00:09:11,600 --> 00:09:10,410

because this is so important you know so

226

00:09:13,999 --> 00:09:11,610

that's what we did

227

00:09:19,189 --> 00:09:14,009

I'm not going to tell you how much we're

228

00:09:20,929 --> 00:09:19,199

not getting paid and the bad parts of

229

00:09:23,569 --> 00:09:20,939

the story but the good parts of the

230

00:09:26,780 --> 00:09:23,579

story are is this you guys can afford to

231

00:09:28,579 --> 00:09:26,790

be there and it's gonna be extraordinary

232

00:09:30,559 --> 00:09:28,589

seriously extraordinary they found some

233

00:09:32,269 --> 00:09:30,569

new stuff in the archives that were

234

00:09:34,670 --> 00:09:32,279

released on August 26 that they're gonna

235

00:09:37,220 --> 00:09:34,680

release for the first time it's gonna be

236

00:09:38,629 --> 00:09:37,230

phenomenal I don't I don't know how to

237

00:09:40,910 --> 00:09:38,639

tell you guys I've only heard a little

238

00:09:42,800 --> 00:09:40,920

bits and pieces about it because I've

239

00:09:44,569 --> 00:09:42,810

been too busy to sit on the phone with

240

00:09:45,889 --> 00:09:44,579

anybody for any length of time to find

241

00:09:47,720 --> 00:09:45,899

out what's really going on

242

00:09:54,920 --> 00:09:47,730

I just said look surprise me at the

243

00:09:57,439 --> 00:09:54,930

conference I'm too busy call me later I

244

00:09:59,929 --> 00:09:57,449

don't know how else to tell you this is

245

00:10:02,299 --> 00:09:59,939

my last show before I fly off next week

246

00:10:05,420 --> 00:10:02,309

I will be in a plane heading to to

247

00:10:08,269 --> 00:10:05,430

Washington DC and I'm telling you if you

248

00:10:12,439 --> 00:10:08,279

can get there please do it it is so

249

00:10:14,269 --> 00:10:12,449

important so important that's I can't I

250

00:10:17,030 --> 00:10:14,279

can't even put this into words how

251

00:10:18,650 --> 00:10:17,040

important this is so there you go okay

252

00:10:20,540 --> 00:10:18,660

I'm gonna leave that one at that now the

253

00:10:22,369 --> 00:10:20,550

other one that's super important if

254

00:10:26,090 --> 00:10:22,379

you're out on the west coast or anywhere

255

00:10:29,780 --> 00:10:26,100

they can get on a you know a \$99 JetBlue

256

00:10:32,150 --> 00:10:29,790

or whatever get to UFO con - because

257

00:10:33,889 --> 00:10:32,160

again this is the first conference of

258

00:10:37,369 --> 00:10:33,899

the year since disclosure

259

00:10:40,189 --> 00:10:37,379

besides UFO Congress but you did address

260

00:10:43,999 --> 00:10:40,199

it in a way and they did acknowledge it

261

00:10:47,389 --> 00:10:44,009

and they did have a set recorded piece

262

00:10:51,350 --> 00:10:47,399

with Lou Elizondo and it was very

263

00:10:56,900 --> 00:10:51,360

interesting but it's not going to be

264

00:10:59,929 --> 00:10:56,910

what we're doing what we're doing we're

265

00:11:02,120 --> 00:10:59,939

doing the history of the CIA involvement

266

00:11:03,860 --> 00:11:02,130

in you apology i I think that's

267

00:11:06,920 --> 00:11:03,870

basically what it comes down to

268

00:11:10,340 --> 00:11:06,930

it's basically exposing the spooks

269

00:11:12,290 --> 00:11:10,350

and who's running your narrative of what

270

00:11:13,910 --> 00:11:12,300

you get to learn about you apology

271

00:11:15,980 --> 00:11:13,920

through the Pentagon through the spokes

272

00:11:18,140 --> 00:11:15,990

through the men in black through the FBI

273

00:11:20,780 --> 00:11:18,150

through whoever's in charge Department

274

00:11:22,850 --> 00:11:20,790

of Defense who you know the list goes on

275

00:11:25,460 --> 00:11:22,860

and on how many contractors they have

276

00:11:28,250 --> 00:11:25,470

and my favorite spook of them all I call

277

00:11:30,050 --> 00:11:28,260

him I tell everybody I have a map that

278

00:11:33,200 --> 00:11:30,060

looks like the big you know the target

279

00:11:35,650 --> 00:11:33,210

logo and it's got all the players on it

280

00:11:39,410 --> 00:11:35,660

and they go out in circumference rings

281

00:11:42,560 --> 00:11:39,420

around the center piece which I do not

282

00:11:45,350 --> 00:11:42,570

it's not Tom DeLonge and it's not jimsim

283

00:11:47,300 --> 00:11:45,360

van and it's not any of those guys my

284

00:11:49,310 --> 00:11:47,310

centerpiece is the guy wearing a Darth

285

00:11:54,260 --> 00:11:49,320

Vader outfit and his little face is

286

00:11:56,930 --> 00:11:54,270

pasted on there is Bob Bigelow because

287

00:11:59,360 --> 00:11:56,940

he truly is the Darth Vader of it well

288

00:12:00,650 --> 00:11:59,370

you know what there's one more guy that

289

00:12:02,390 --> 00:12:00,660

could be the Darth Vader but I'm not

290

00:12:04,310 --> 00:12:02,400

gonna mention his name that's for the

291

00:12:06,530 --> 00:12:04,320

conference and you guys have to be there

292

00:12:08,690 --> 00:12:06,540

to get that one because man I'm telling

293

00:12:10,970 --> 00:12:08,700

me we're gonna blow the lid off of you f

294

00:12:12,800 --> 00:12:10,980

ology at this conference and the rest of

295

00:12:14,960 --> 00:12:12,810

the conference is all year-long

296

00:12:16,880 --> 00:12:14,970

I can guarantee you this they will

297

00:12:19,880 --> 00:12:16,890

acquiesce to whatever to the Stars

298

00:12:22,100 --> 00:12:19,890

Academy is feeding them they will have

299

00:12:24,710 --> 00:12:22,110

their spokespeople there they will do

300

00:12:26,570 --> 00:12:24,720

whatever to the Stars tells them Tom

301  
00:12:29,420 --> 00:12:26,580  
DeLonge will show up as a special guest

302  
00:12:32,270 --> 00:12:29,430  
you'll get all that you'll get oh isn't

303  
00:12:36,829 --> 00:12:32,280  
this so lovely isn't this amazing you

304  
00:12:38,750 --> 00:12:36,839  
know uh kumbaya kumbaya you fo you're

305  
00:12:41,120 --> 00:12:38,760  
gonna get all that but you're not gonna

306  
00:12:43,160 --> 00:12:41,130  
get the truth you'll get the truth of my

307  
00:12:46,579 --> 00:12:43,170  
conference so you guys better be there

308  
00:12:48,800 --> 00:12:46,589  
it's see a UFO can calm and I'm telling

309  
00:12:52,370 --> 00:12:48,810  
ya I it's just gonna blow people away

310  
00:12:56,930 --> 00:12:52,380  
and I I am NOT live-streaming my event

311  
00:12:58,730 --> 00:12:56,940  
this year I I've decided that I don't

312  
00:13:01,100 --> 00:12:58,740  
know what I'm gonna do I'm probably

313  
00:13:03,650 --> 00:13:01,110

gonna do an on-demand at the end of the

314

00:13:05,600 --> 00:13:03,660

at the end of the day it'll try B on

315

00:13:08,180 --> 00:13:05,610

demand you might be able to get it later

316

00:13:10,460 --> 00:13:08,190

I make hold on to it I may sit on it for

317

00:13:13,310 --> 00:13:10,470

a while I am not quite sure what I'm

318

00:13:15,410 --> 00:13:13,320

gonna do with this information so anyhow

319

00:13:18,920 --> 00:13:15,420

so there you go so get the see a UFO

320

00:13:19,699 --> 00:13:18,930

Conn comm check that out it is truly is

321

00:13:20,600 --> 00:13:19,709

going to be amazing

322

00:13:22,310 --> 00:13:20,610

oh and

323

00:13:26,060 --> 00:13:22,320

I have to coughs oh I'm gonna hit the

324

00:13:29,210 --> 00:13:26,070

bun for a second there we going back see

325

00:13:29,900 --> 00:13:29,220

how quick I could do that um let's see

326

00:13:32,660 --> 00:13:29,910

what

327

00:13:34,819 --> 00:13:32,670

oh yeah the other part to the conference

328

00:13:36,829 --> 00:13:34,829

that I think is beyond extraordinary Oh

329

00:13:38,600 --> 00:13:36,839

we added Barbara lay on this week she's

330

00:13:41,449 --> 00:13:38,610

not gonna be running our experience or

331

00:13:43,310 --> 00:13:41,459

groups at lunch which is just truly

332

00:13:44,780 --> 00:13:43,320

amazing you know I've got Misha Johnson

333

00:13:47,360 --> 00:13:44,790

running the experience of groups at

334

00:13:49,880 --> 00:13:47,370

night during dinner so we've got these

335

00:13:51,199 --> 00:13:49,890

little sit down you sign up for them

336

00:13:52,310 --> 00:13:51,209

we're doing a little different I'm gonna

337

00:13:54,110 --> 00:13:52,320

throw this and they were doing it a

338

00:13:57,680 --> 00:13:54,120

little different you're gonna meet in

339

00:13:59,420 --> 00:13:57,690

the the lobby of the hotel cuz I don't

340

00:14:01,250 --> 00:13:59,430

really have a room for it we may put you

341

00:14:04,009 --> 00:14:01,260

in the conference room during the lunch

342

00:14:06,949 --> 00:14:04,019

and dinner breaks but what we're asking

343

00:14:10,280 --> 00:14:06,959

people to do is you know maybe bring a

344

00:14:11,630 --> 00:14:10,290

sack lunch or a sack dinner and when you

345

00:14:14,840 --> 00:14:11,640

get to the conference know you're gonna

346

00:14:16,220 --> 00:14:14,850

be at the experienter group and we're

347

00:14:18,440 --> 00:14:16,230

gonna have a sign-up sheet where I keep

348

00:14:22,280 --> 00:14:18,450

it limited to like 12 to 15 people and

349

00:14:25,040 --> 00:14:22,290

that's it and per experience a group we

350

00:14:26,720 --> 00:14:25,050

have for during the weekend so and if we

351

00:14:28,430 --> 00:14:26,730

don't have enough signups after the

352

00:14:30,769 --> 00:14:28,440

first day then you can sign up to go to

353

00:14:32,660 --> 00:14:30,779

two of them if you want so anyhow that's

354

00:14:35,509 --> 00:14:32,670

what we're gonna do so I do hope you

355

00:14:38,360 --> 00:14:35,519

guys are prepared for that

356

00:14:40,460 --> 00:14:38,370

really amazing woman Barbara lamb I mean

357

00:14:42,439 --> 00:14:40,470

the best experience a group I've ever

358

00:14:44,150 --> 00:14:42,449

been to my entire life okay

359

00:14:46,850 --> 00:14:44,160

just had to throw that in there it truly

360

00:14:48,650 --> 00:14:46,860

was absolutely amazing she runs it in a

361

00:14:50,540 --> 00:14:48,660

way that makes you feel like you're not

362

00:14:52,850 --> 00:14:50,550

alone and that's what really matters

363

00:14:55,850 --> 00:14:52,860

when it comes to the UFO thing really

364

00:14:59,300 --> 00:14:55,860

matters so there's that then the other

365

00:15:03,380 --> 00:14:59,310

part to this is I did get Steve Coburn

366

00:15:05,389 --> 00:15:03,390

to show up which is thank God it's all I

367

00:15:07,699 --> 00:15:05,399

got to say he's our implant scanner he's

368

00:15:10,519 --> 00:15:07,709

the best there is he used to work with

369

00:15:13,280 --> 00:15:10,529

Roger Leir he truly is a good guy for

370

00:15:15,139 --> 00:15:13,290

this and he's bringing his tent he's

371

00:15:16,939 --> 00:15:15,149

bringing his black lights he's bringing

372

00:15:18,860 --> 00:15:16,949

the whole bit and we're really going to

373

00:15:21,290 --> 00:15:18,870

you know see what we can find this year

374

00:15:26,750 --> 00:15:21,300

on people's bodies and I must say last

375

00:15:28,639 --> 00:15:26,760

year people were tell you guys I don't

376

00:15:32,630 --> 00:15:28,649

think it's I think Melinda told me not

377

00:15:34,160 --> 00:15:32,640

to I may have said it but let's see if I

378

00:15:38,090 --> 00:15:34,170

can talk about it yeah my

379

00:15:40,430 --> 00:15:38,100

well she had Melinda Lesley had on she

380

00:15:42,590 --> 00:15:40,440

had green goo that was glowing on her

381

00:15:44,440 --> 00:15:42,600

lips she also had it on her hands and

382

00:15:48,440 --> 00:15:44,450

her arms and they were in the shape of

383

00:15:51,800 --> 00:15:48,450

alien handprints on her arms and I yeah

384

00:15:54,170 --> 00:15:51,810

with her arms in her hand but she had a

385

00:15:55,819 --> 00:15:54,180

ring of it around her mouth as well but

386

00:15:58,519 --> 00:15:55,829

she had been drinking orange juice and

387

00:16:01,160 --> 00:15:58,529

orange juice can do that to you but we

388

00:16:03,769 --> 00:16:01,170

were teasing her you guys could just

389

00:16:06,199 --> 00:16:03,779

imagine well we were teasing her about

390

00:16:08,870 --> 00:16:06,209

if you had alien goo around your lips

391

00:16:13,009 --> 00:16:08,880

okay leaving it at that I'm not going

392

00:16:14,900 --> 00:16:13,019

any further it was quite a wild weekend

393

00:16:16,610 --> 00:16:14,910

when she started showing that picture

394

00:16:18,019 --> 00:16:16,620

around everybody look look see the

395

00:16:20,569 --> 00:16:18,029

aliens were on my body

396

00:16:23,000 --> 00:16:20,579

another time I thought they were there

397

00:16:25,639 --> 00:16:23,010

we were cracking up because boy we

398

00:16:28,430 --> 00:16:25,649

really gave her a bad time but having

399

00:16:30,620 --> 00:16:28,440

said that you guys if you really think

400

00:16:32,600 --> 00:16:30,630

that even you know getting abducted late

401  
00:16:34,879 --> 00:16:32,610  
leave yet things going on you want to

402  
00:16:37,910 --> 00:16:34,889  
check it out he really he gives you like

403  
00:16:40,069 --> 00:16:37,920  
a 50 page report about all the different

404  
00:16:42,710 --> 00:16:40,079  
devices and uses on your body to find

405  
00:16:44,569 --> 00:16:42,720  
these implants it's absolutely stunning

406  
00:16:47,210 --> 00:16:44,579  
I do hope you can make it for that alone

407  
00:16:48,439 --> 00:16:47,220  
okay so I digressed again like anywhere

408  
00:16:50,720 --> 00:16:48,449  
what I was saying about it but I'm

409  
00:16:54,050 --> 00:16:50,730  
telling you oh yes the portals and

410  
00:16:56,090 --> 00:16:54,060  
Resendez super super important this is

411  
00:17:00,199 --> 00:16:56,100  
the next wave you know how we had the

412  
00:17:02,780 --> 00:17:00,209  
wave in the 50s with the oh dear I think

413  
00:17:05,720 --> 00:17:02,790

my guest is texting me let's see hold on

414

00:17:11,689 --> 00:17:05,730

but do my producer bid here by my side

415

00:17:16,309 --> 00:17:11,699

line producer oh yeah yes my guest will

416

00:17:19,370 --> 00:17:16,319

be calling in shortly so the whole thing

417

00:17:21,620 --> 00:17:19,380

that happened in the 50s with a damn ski

418

00:17:24,799 --> 00:17:21,630

and that crowd calling in the et

419

00:17:27,319 --> 00:17:24,809

Brothers and then the Billy Meyer flap

420

00:17:29,720 --> 00:17:27,329

and then you know I mean it just goes on

421

00:17:32,600 --> 00:17:29,730

and on we every 10 to 15 years we have a

422

00:17:35,659 --> 00:17:32,610

whole new genre the type of contact

423

00:17:38,060 --> 00:17:35,669

we're having well let me tell you the

424

00:17:40,940 --> 00:17:38,070

type of contact that people are having

425

00:17:44,780 --> 00:17:40,950

in Peru with the Zen dress we're you

426

00:17:47,120 --> 00:17:44,790

know 125 people walk into a different

427

00:17:47,960 --> 00:17:47,130

dimensional time-space and have come and

428

00:17:50,330 --> 00:17:47,970

commune with

429

00:17:52,880 --> 00:17:50,340

lenz I'm telling you folks this is the

430

00:17:54,289 --> 00:17:52,890

next wave of contact it's going to beat

431

00:17:56,600 --> 00:17:54,299

the wave of contact

432

00:17:58,970 --> 00:17:56,610

the ships are gonna be a superfluous

433

00:18:00,950 --> 00:17:58,980

item at that point they're gonna become

434

00:18:02,990 --> 00:18:00,960

kind of like I'll gather watching us who

435

00:18:05,690 --> 00:18:03,000

cares let's go talk to him you know

436

00:18:08,120 --> 00:18:05,700

that's what it's going to be and we have

437

00:18:10,130 --> 00:18:08,130

one of the best guys who's doing that

438

00:18:13,730 --> 00:18:10,140

right now and that's in Ricky Villanueva

439

00:18:16,370 --> 00:18:13,740

and also grant Cameron has been doing

440

00:18:19,730 --> 00:18:16,380

research into this within Ricky

441

00:18:21,380 --> 00:18:19,740

Sixto Paz but quite a few other people

442

00:18:22,940 --> 00:18:21,390

that are doing it and he went up to

443

00:18:24,500 --> 00:18:22,950

Mount Shasta he's gonna give a report

444

00:18:26,870 --> 00:18:24,510

about what happened last time he was up

445

00:18:28,250 --> 00:18:26,880

there so it's really I talk about

446

00:18:31,010 --> 00:18:28,260

extraordinary absolutely extraordinary

447

00:18:32,840 --> 00:18:31,020

and then one other thing that it's kind

448

00:18:36,169 --> 00:18:32,850

of like Bearden near and dear to my

449

00:18:39,110 --> 00:18:36,179

heart about the conference is Doug

450

00:18:41,570 --> 00:18:39,120

Douglas Hawes Douglas house is a

451  
00:18:44,390 --> 00:18:41,580  
complete unknown no one has a clue who

452  
00:18:46,279 --> 00:18:44,400  
this guy is he approached me about two

453  
00:18:48,680 --> 00:18:46,289  
or three years ago and said hey do you

454  
00:18:50,990 --> 00:18:48,690  
know about cannot a mountain in the UFO

455  
00:18:52,490 --> 00:18:51,000  
lore that goes on there and legends and

456  
00:18:53,600 --> 00:18:52,500  
stuff and I said no I haven't got a clue

457  
00:18:58,220 --> 00:18:53,610  
what are you talking about

458  
00:19:00,890 --> 00:18:58,230  
so he he took me up there and then I

459  
00:19:02,899 --> 00:19:00,900  
started oh my god it's just absolutely

460  
00:19:04,789 --> 00:19:02,909  
mind-boggling what this guy has done in

461  
00:19:07,610 --> 00:19:04,799  
research when it comes to what the

462  
00:19:09,980 --> 00:19:07,620  
cannot die legend is and he gave a great

463  
00:19:13,399 --> 00:19:09,990

presentation last year and he's compiled

464

00:19:16,340 --> 00:19:13,409

all these books and DVDs and letters and

465

00:19:18,470 --> 00:19:16,350

fibia and audio tapes and and it's just

466

00:19:19,880 --> 00:19:18,480

extraordinary story and I'm gonna be

467

00:19:22,730 --> 00:19:19,890

building a website where we're gonna

468

00:19:25,850 --> 00:19:22,740

house all the cannot die project Legend

469

00:19:27,500 --> 00:19:25,860

and lore on and I'm also going to help

470

00:19:30,500 --> 00:19:27,510

him with this new project he's working

471

00:19:33,529 --> 00:19:30,510

on called snake head point it's a place

472

00:19:37,279 --> 00:19:33,539

up near the High Sierras of Northern

473

00:19:41,360 --> 00:19:37,289

California on the way to Reno and there

474

00:19:43,789 --> 00:19:41,370

is supposedly a pyramid there and it's

475

00:19:45,440 --> 00:19:43,799

kind of been buried by the mountain in

476

00:19:47,779 --> 00:19:45,450

the lava and God knows what but

477

00:19:50,149 --> 00:19:47,789

apparently there is a pyramid there and

478

00:19:53,480 --> 00:19:50,159

it's weighed down in a ravine and then

479

00:19:55,430 --> 00:19:53,490

issue stepping into the area you can see

480

00:19:59,090 --> 00:19:55,440

the pyramid but you have to be down in

481

00:20:01,860 --> 00:19:59,100

this really deep ravine to see it and it

482

00:20:05,240 --> 00:20:01,870

was also the place of a big UFO

483

00:20:09,180 --> 00:20:05,250

slap and a cult a UFO cult back in the

484

00:20:11,820 --> 00:20:09,190

70s I would believe and he's got a whole

485

00:20:15,450 --> 00:20:11,830

report on it and he's been there and

486

00:20:18,540 --> 00:20:15,460

he's also been transported because what

487

00:20:21,240 --> 00:20:18,550

it does is its port 'old to the UFO

488

00:20:24,060 --> 00:20:21,250

people of that pyramid whoever built the

489

00:20:26,100 --> 00:20:24,070

pyramid and he got transported at one

490

00:20:28,380 --> 00:20:26,110

point when he was hiking and went down

491

00:20:30,450 --> 00:20:28,390

there and slept down there so he knows

492

00:20:32,160 --> 00:20:30,460

it's real that it works and that it does

493

00:20:34,770 --> 00:20:32,170

thing and he's gonna do a whole report

494

00:20:37,140 --> 00:20:34,780

on that too and he's my bugling but of

495

00:20:38,580 --> 00:20:37,150

course you know the big conferences

496

00:20:40,890 --> 00:20:38,590

aren't gonna have them because he's not

497

00:20:43,799 --> 00:20:40,900

a known quantity he hasn't written 45

498

00:20:46,200 --> 00:20:43,809

books and you know he's just not that

499

00:20:47,700 --> 00:20:46,210

guy right so but he's got more

500

00:20:49,560 --> 00:20:47,710

information about some of the most

501  
00:20:51,840 --> 00:20:49,570  
phenomenal things I've ever heard of in

502  
00:20:54,180 --> 00:20:51,850  
my entire life so there you go he's been

503  
00:20:55,860 --> 00:20:54,190  
researching for 30 years so you know I

504  
00:20:57,540 --> 00:20:55,870  
got him to speak last year he's speaking

505  
00:21:00,660 --> 00:20:57,550  
again this year and I'm just so blessed

506  
00:21:02,790 --> 00:21:00,670  
to have him and I love his work so yeah

507  
00:21:04,799 --> 00:21:02,800  
so you see things at UFO con you're not

508  
00:21:08,549 --> 00:21:04,809  
getting anywhere else so go check out

509  
00:21:10,620 --> 00:21:08,559  
see a UFO can calm that see a UFO can

510  
00:21:13,530 --> 00:21:10,630  
calm alright

511  
00:21:20,190 --> 00:21:13,540  
I think my guest has joined me Marshall

512  
00:21:23,790 --> 00:21:20,200  
Barnes are you there I can't I'm so glad

513  
00:21:26,430 --> 00:21:23,800

your voice how are you doing I'm pretty

514

00:21:29,910 --> 00:21:26,440

burned out after a very very busy I'm

515

00:21:35,660 --> 00:21:29,920

gonna be weary for a series of events in

516

00:21:35,670 --> 00:21:42,650

because I'm gonna be there too really

517

00:21:50,190 --> 00:21:46,560

next week from the 9th through the 11th

518

00:21:53,490 --> 00:21:50,200

and I'm flying on late night on the 7th

519

00:22:04,650 --> 00:21:53,500

and back out on the 12th I'll be there

520

00:22:07,880 --> 00:22:04,660

from 6 to 12 pretty much you know

521

00:22:11,040 --> 00:22:07,890

Washington DC the downtown area and the

522

00:22:15,330 --> 00:22:11,050

there's a website people can go to see

523

00:22:24,930 --> 00:22:15,340

the scheduled event it's da the coders

524

00:22:27,060 --> 00:22:24,940

or exbc co2 Co de RS dot org and the

525

00:22:29,789 --> 00:22:27,070

full schedule these answers there

526

00:22:34,710 --> 00:22:29,799

there's three things I'm doing ones on

527

00:22:37,940 --> 00:22:34,720

Wednesday night there's on Thursday I

528

00:22:42,419 --> 00:22:37,950

thinking in the laughing on Sunday

529

00:22:44,730 --> 00:22:42,429

Sunday being the 11th alright okay now

530

00:22:47,879 --> 00:22:44,740

what's this what is it all about because

531

00:22:55,169 --> 00:22:47,889

it looks like do we live in a simulation

532

00:22:57,810 --> 00:22:55,179

is what you're doing on March AIDS great

533

00:23:07,529 --> 00:22:57,820

and then is time travel possible

534

00:23:21,889 --> 00:23:07,539

that's the season premiere timeless a

535

00:23:25,529 --> 00:23:21,899

big TV screen timeless 11:00

536

00:23:27,210 --> 00:23:25,539

and we got night oh I get it so you guys

537

00:23:29,850 --> 00:23:27,220

are just gonna put it up on a big screen

538

00:23:34,080 --> 00:23:29,860

and go for it and watch it live I got it

539

00:23:36,119 --> 00:23:34,090

I have to record it see what they do

540

00:23:38,220 --> 00:23:36,129

this year now do you think they'll last

541

00:23:40,289 --> 00:23:38,230

another year let's start with timeless

542

00:23:42,930 --> 00:23:40,299

let's just get you know right out of the

543

00:23:46,649 --> 00:23:42,940

gate what do you think it time was the

544

00:23:48,769 --> 00:23:46,659

TV show I think this show had a lot of

545

00:23:50,879 --> 00:23:48,779

promise but I think this John Ryan

546

00:23:52,769 --> 00:23:50,889

doesn't know what he's doing and that's

547

00:23:55,560 --> 00:23:52,779

why it's there that can hold but then I

548

00:23:57,330 --> 00:23:55,570

got it renewed and I predicted the

549

00:23:59,460 --> 00:23:57,340

service will get canceled the fans

550

00:24:00,869 --> 00:23:59,470

wreaked out bad enough that they brought

551  
00:24:03,869 --> 00:24:00,879  
it back but he ain't bringing back for a

552  
00:24:09,019 --> 00:24:03,879  
fourth season and you know sizing

553  
00:24:12,690 --> 00:24:09,029  
basically it what it says is that if the

554  
00:24:14,759 --> 00:24:12,700  
ratings are high enough then yeah this

555  
00:24:16,769 --> 00:24:14,769  
show's over and the reason why the

556  
00:24:17,909 --> 00:24:16,779  
ratings won't be high it wouldn't behind

557  
00:24:20,029 --> 00:24:17,919  
us and reason why they weren't high

558  
00:24:23,399 --> 00:24:20,039  
enough the first time around because

559  
00:24:26,119 --> 00:24:23,409  
they have inconsistencies it was obvious

560  
00:24:29,220 --> 00:24:26,129  
in the show in relation to time travel

561  
00:24:31,650 --> 00:24:29,230  
and it doesn't work though I mean it's a

562  
00:24:34,590 --> 00:24:31,660  
people were not stupid I mean some

563  
00:24:37,470 --> 00:24:34,600

people are but I mean this is the first

564

00:24:39,450 --> 00:24:37,480

level goes a lot of people are

565

00:24:42,060 --> 00:24:39,460

understanding how this stuff is really

566

00:24:45,270 --> 00:24:42,070

going to work in terms of white paradox

567

00:24:47,159 --> 00:24:45,280

like a paradox it don't make any sense

568

00:24:49,710 --> 00:24:47,169

they all make sense mathematically or

569

00:24:56,130 --> 00:24:49,720

fine physically ranking like that so

570

00:24:58,140 --> 00:24:56,140

when you have dumb question who was the

571

00:25:04,500 --> 00:24:58,150

first person who thought of these stupid

572

00:25:05,970 --> 00:25:04,510

paradoxes because I can't three outcomes

573

00:25:09,210 --> 00:25:05,980

from science fiction but then the

574

00:25:11,490 --> 00:25:09,220

physicists didn't really rule it out

575

00:25:14,730 --> 00:25:11,500

because most of what they were looking

576

00:25:16,409 --> 00:25:14,740

at that he said well you know see the

577

00:25:19,350 --> 00:25:16,419

solution of paradoxes as parallel

578

00:25:22,260 --> 00:25:19,360

universes lot of physicists don't like

579

00:25:25,770 --> 00:25:22,270

to deal with that idea but it's the only

580

00:25:27,390 --> 00:25:25,780

way it works and now we accepted my

581

00:25:30,299 --> 00:25:27,400

presentation I'm gonna be doing and you

582

00:25:32,460 --> 00:25:30,309

see on parallel universes shows that we

583

00:25:34,230 --> 00:25:32,470

cannot prove that they're real it's not

584

00:25:37,590 --> 00:25:34,240

open to argument what we have physical

585

00:25:41,159 --> 00:25:37,600

evidence that from experiments to show

586

00:25:44,520 --> 00:25:41,169

the parallel universes are real and so

587

00:25:49,830 --> 00:25:44,530

this all the whole thing is now shifted

588

00:25:51,960 --> 00:25:49,840

I mean so in timeless Lucy we turn

589

00:25:54,150 --> 00:25:51,970

somewhere her trips you know when they

590

00:25:56,820 --> 00:25:54,160

did a time to hell thing to find that

591

00:25:58,260 --> 00:25:56,830

her mother who was ill cancer before is

592

00:26:01,710 --> 00:25:58,270

now okay

593

00:26:04,110 --> 00:26:01,720

and now her sister is missing and in an

594

00:26:06,750 --> 00:26:04,120

episode which doesn't make any sense

595

00:26:09,000 --> 00:26:06,760

because here's the thing if things

596

00:26:11,039 --> 00:26:09,010

change for her then they would have to

597

00:26:13,560 --> 00:26:11,049

change for everyone else because it's

598

00:26:15,539 --> 00:26:13,570

about the geometry of the time that way

599

00:26:19,669 --> 00:26:15,549

of that it's not what individual people

600

00:26:22,970 --> 00:26:19,679

do and and so there's all they had this

601  
00:26:26,310 --> 00:26:22,980  
this woman and her name is Gia

602  
00:26:29,940 --> 00:26:26,320  
explaining to her that on this timeline

603  
00:26:32,789 --> 00:26:29,950  
where they are why her father isn't

604  
00:26:34,380 --> 00:26:32,799  
really her father from before and I was

605  
00:26:36,810 --> 00:26:34,390  
thinking ya know what

606  
00:26:41,159 --> 00:26:36,820  
this is pretty easy to solve right now

607  
00:26:42,400 --> 00:26:41,169  
it's called a DNA test you know and so

608  
00:26:46,540 --> 00:26:42,410  
it was

609  
00:26:48,490 --> 00:26:46,550  
the DNA would not be different okay he

610  
00:26:52,210 --> 00:26:48,500  
wouldn't change and it wouldn't match up

611  
00:26:54,700 --> 00:26:52,220  
to scenario he was telling her because

612  
00:26:56,800 --> 00:26:54,710  
her father would still be if they want

613  
00:26:59,800 --> 00:26:56,810

so these wires have their head there but

614

00:27:02,470 --> 00:26:59,810

now they don't know they're doing but

615

00:27:05,110 --> 00:27:02,480

they like they do and actually get to me

616

00:27:08,500 --> 00:27:05,120

it's like she'll have a malcolm barrett

617

00:27:11,200 --> 00:27:08,510

he plays the black guy on the show he

618

00:27:13,090 --> 00:27:11,210

was on this podcast bragging about his

619

00:27:17,500 --> 00:27:13,100

only personal knowledge of time travel

620

00:27:20,710 --> 00:27:17,510

which is this horrible I mean he didn't

621

00:27:23,320 --> 00:27:20,720

have a single complete comprehensive

622

00:27:25,540 --> 00:27:23,330

sentence of time tell us something he

623

00:27:28,750 --> 00:27:25,550

talks about so I read an article about

624

00:27:31,420 --> 00:27:28,760

it for futurism dot media and then I

625

00:27:34,390 --> 00:27:31,430

told him about it on Twitter and in any

626  
00:27:36,580 --> 00:27:34,400  
sort of wine he said oh you know you got

627  
00:27:39,190 --> 00:27:36,590  
me I'm not a quantum physicist but the

628  
00:27:42,160 --> 00:27:39,200  
people on lost lost either and it wasn't

629  
00:27:45,730 --> 00:27:42,170  
about his character about she said that

630  
00:27:47,890 --> 00:27:45,740  
he he can tell was a geek and that he

631  
00:27:50,230 --> 00:27:47,900  
would run to this time tell us stuff so

632  
00:27:52,570 --> 00:27:50,240  
she knew enough about it so when fans

633  
00:27:54,640 --> 00:27:52,580  
are shaking me and they try to say well

634  
00:27:57,100 --> 00:27:54,650  
this wouldn't work did you tell them you

635  
00:28:02,920 --> 00:27:57,110  
know no you can't tell me that I'm like

636  
00:28:05,890 --> 00:28:02,930  
what so you think so he lied about his

637  
00:28:08,760 --> 00:28:05,900  
knowledge and then you lied about how I

638  
00:28:14,410 --> 00:28:08,770

caught him and walking why I caught him

639

00:28:16,060 --> 00:28:14,420

so they're back stepping every step of

640

00:28:17,710 --> 00:28:16,070

the way with that TV show and I know

641

00:28:22,090 --> 00:28:17,720

what you're talking about because I've

642

00:28:24,310 --> 00:28:22,100

watched every episode and I am truly by

643

00:28:26,170 --> 00:28:24,320

the third episode I'm going where we got

644

00:28:28,630 --> 00:28:26,180

problems already and then it just got

645

00:28:30,580 --> 00:28:28,640

worse and worse and worse and then by

646

00:28:32,040 --> 00:28:30,590

the last one I was like oh my god

647

00:28:39,730 --> 00:28:32,050

they're like we're in the right period

648

00:28:42,400 --> 00:28:39,740

costumes anymore you said that because

649

00:28:44,020 --> 00:28:42,410

I've tracked the ratings of the show and

650

00:28:46,180 --> 00:28:44,030

right about the time you were saying

651  
00:28:47,890 --> 00:28:46,190  
that it was you would be certain it was

652  
00:28:49,840 --> 00:28:47,900  
getting really bad that's when the

653  
00:28:51,970 --> 00:28:49,850  
ratings are dropping off that's why I

654  
00:28:55,990 --> 00:28:51,980  
got in trouble that won't make it worth

655  
00:28:59,230 --> 00:28:56,000  
that Sean Ryan the co-producer

656  
00:29:02,080 --> 00:28:59,240  
please out on Twitter and he was dissing

657  
00:29:05,410 --> 00:29:02,090  
count rebel fans okay you were saying

658  
00:29:07,990 --> 00:29:05,420  
well well the writers of Primus we take

659  
00:29:12,610 --> 00:29:08,000  
our time-travel rules very seriously

660  
00:29:14,620 --> 00:29:12,620  
and for science and doesn't exist do

661  
00:29:17,110 --> 00:29:14,630  
time hello fans you really know what the

662  
00:29:19,720 --> 00:29:17,120  
rules are supposed to be kinda like we

663  
00:29:20,980 --> 00:29:19,730

are science it doesn't exist I mean I'm

664

00:29:22,300 --> 00:29:20,990

just I'm saying these people their heads

665

00:29:24,520 --> 00:29:22,310

up there but I don't know what they're

666

00:29:28,510 --> 00:29:24,530

doing and that's the only reason one

667

00:29:31,810 --> 00:29:28,520

show suffers because they don't care you

668

00:29:34,030 --> 00:29:31,820

know that's just yeah yes you can really

669

00:29:36,250 --> 00:29:34,040

get there they're truly in it to make

670

00:29:38,350 --> 00:29:36,260

money and it's obvious you know by the

671

00:29:40,600 --> 00:29:38,360

fourth episode I'm going wait this is

672

00:29:42,460 --> 00:29:40,610

all about money now I thought it would

673

00:29:46,330 --> 00:29:42,470

really be about time travel but it's not

674

00:29:48,580 --> 00:29:46,340

so oh yeah we didn't marshal we didn't

675

00:29:51,070 --> 00:29:48,590

do this I forgot to tell people who you

676  
00:29:54,520 --> 00:29:51,080  
are you're an advanced concept R&D

677  
00:29:56,470 --> 00:29:54,530  
engineer and conceptual theorist and I

678  
00:30:00,190 --> 00:29:56,480  
just want people to know that because

679  
00:30:02,920 --> 00:30:00,200  
and your friend of mine and um we could

680  
00:30:04,870 --> 00:30:02,930  
go into all of the your past history but

681  
00:30:07,810 --> 00:30:04,880  
I think people have heard you enough on

682  
00:30:09,220 --> 00:30:07,820  
coast to coast year my other radio shows

683  
00:30:11,770 --> 00:30:09,230  
that they probably have a very good idea

684  
00:30:13,000 --> 00:30:11,780  
who you are but you are our only true

685  
00:30:16,000 --> 00:30:13,010  
trying cab

686  
00:30:17,860 --> 00:30:16,010  
time travel guy right now out there that

687  
00:30:19,840 --> 00:30:17,870  
I could call and say what do you think

688  
00:30:23,110 --> 00:30:19,850

of this and you will tell me you know

689

00:30:25,150 --> 00:30:23,120

and I get the straight facts instead of

690

00:30:27,610 --> 00:30:25,160

this crazy you know will we're going to

691

00:30:28,990 --> 00:30:27,620

split off into 500 million dimensions

692

00:30:32,740 --> 00:30:29,000

and you're gonna be living in you know

693

00:30:34,390 --> 00:30:32,750

three universes and so by the time I'm

694

00:30:36,730 --> 00:30:34,400

done I don't know what you know where I

695

00:30:38,860 --> 00:30:36,740

am anymore so you're the only one who's

696

00:30:40,810 --> 00:30:38,870

ever kept me you know really grounded in

697

00:30:42,220 --> 00:30:40,820

the whole time-travel concept and I

698

00:30:45,970 --> 00:30:42,230

really want to thank you for that

699

00:30:47,620 --> 00:30:45,980

so me me out that's what you do and we

700

00:30:49,120 --> 00:30:47,630

could go into all the the other stuff

701  
00:30:50,710 --> 00:30:49,130  
he's done but we got so much stuff to

702  
00:30:53,290 --> 00:30:50,720  
get to tonight I kind of want to keep

703  
00:30:55,180 --> 00:30:53,300  
going through this so at the time a

704  
00:31:02,020 --> 00:30:55,190  
timeless for just one more you know a

705  
00:31:03,520 --> 00:31:02,030  
little bit of time yeah what why do you

706  
00:31:05,430 --> 00:31:03,530  
think they even brought it back at all I

707  
00:31:10,240 --> 00:31:05,440  
mean what's the point why bring back

708  
00:31:13,490 --> 00:31:10,250  
what is that what happened with that

709  
00:31:14,720 --> 00:31:13,500  
first of all show producers maybe the

710  
00:31:16,610 --> 00:31:14,730  
one thing that they were going to make

711  
00:31:19,190 --> 00:31:16,620  
it that they were gonna get remade and

712  
00:31:20,930 --> 00:31:19,200  
then they didn't and but close to the

713  
00:31:23,120 --> 00:31:20,940

time that it came out they were not

714

00:31:26,960 --> 00:31:23,130

getting renewed I was thinking you know

715

00:31:28,190 --> 00:31:26,970

what this thing gonna work and then when

716

00:31:31,250 --> 00:31:28,200

the announcement was made they got

717

00:31:33,950 --> 00:31:31,260

canceled the fans just went had a hissy

718

00:31:37,070 --> 00:31:33,960

fit and it's not even like majority of

719

00:31:40,790 --> 00:31:37,080

people because remember the ratings had

720

00:31:43,250 --> 00:31:40,800

gone down anyway okay and so the result

721

00:31:45,230 --> 00:31:43,260

was just a small minority of people I

722

00:31:48,350 --> 00:31:45,240

can either just kind of like you know

723

00:31:51,680 --> 00:31:48,360

fanatics about the show and so they do a

724

00:31:54,260 --> 00:31:51,690

hissy fit and so the network decided

725

00:31:57,020 --> 00:31:54,270

well we're gonna go ahead and wall ran

726

00:32:00,350 --> 00:31:57,030

back next year and I'll give them 10

727

00:32:10,970 --> 00:32:00,360

episodes which is like I think half a

728

00:32:12,470 --> 00:32:10,980

season right okay pan okay but I think

729

00:32:14,900 --> 00:32:12,480

let's see this turned out I think with

730

00:32:17,570 --> 00:32:14,910

20 or something so it's like half a

731

00:32:19,880 --> 00:32:17,580

season so basically what that tells me

732

00:32:23,060 --> 00:32:19,890

is that unless those ratings are really

733

00:32:25,250 --> 00:32:23,070

high then they've just given them enough

734

00:32:30,350 --> 00:32:25,260

time to finish out the storyline of the

735

00:32:33,050 --> 00:32:30,360

show and that's it yeah and and if they

736

00:32:35,180 --> 00:32:33,060

continue wait and the same way they had

737

00:32:39,260 --> 00:32:35,190

before I don't think they're gonna do

738

00:32:43,330 --> 00:32:39,270

that third season I really do but do not

739

00:32:46,280 --> 00:32:43,340

get me wrong but I usually I'm not wrong

740

00:32:47,990 --> 00:32:46,290

well you know I love time travel shows

741

00:32:49,910 --> 00:32:48,000

they're they're my favorite shows out

742

00:32:52,960 --> 00:32:49,920

there they're the ones I watch all the

743

00:32:57,680 --> 00:32:52,970

time I watched all the sci-fi ones

744

00:32:58,310 --> 00:32:57,690

continuum as my favorite one it kind of

745

00:33:03,980 --> 00:32:58,320

money

746

00:33:05,960 --> 00:33:03,990

I love twelve Monkeys yeah the TV show I

747

00:33:09,200 --> 00:33:05,970

thought it was great it wasn't really

748

00:33:13,790 --> 00:33:09,210

true to time travel form it wasn't as

749

00:33:15,950 --> 00:33:13,800

bad as timeless timeless lost me after

750

00:33:18,290 --> 00:33:15,960

the third one it took about a season for

751

00:33:19,940 --> 00:33:18,300

me to realize that no matter what they

752

00:33:22,470 --> 00:33:19,950

were doing they're still screwing up the

753

00:33:25,049 --> 00:33:22,480

timeline the hope you know there is no

754

00:33:27,840 --> 00:33:25,059

paradox so they keep bringing that up in

755

00:33:29,370 --> 00:33:27,850

there but but what they were do is very

756

00:33:32,870 --> 00:33:29,380

interesting I like the fact that they

757

00:33:35,520 --> 00:33:32,880

kept going back and finding themselves

758

00:33:37,890 --> 00:33:35,530

at different ages and different times

759

00:33:39,690 --> 00:33:37,900

and you know it was really fun and I

760

00:33:43,289 --> 00:33:39,700

really enjoyed it now did they cancel

761

00:33:49,890 --> 00:33:43,299

that one - yeah what happened was I

762

00:33:53,010 --> 00:33:49,900

think I didn't see you got a TV verse

763

00:33:55,260 --> 00:33:53,020

and I'm like oh god you know I I liked

764

00:33:57,240 --> 00:33:55,270

the movie I was just like I just

765

00:34:01,169 --> 00:33:57,250

couldn't see it's a TV show but then

766

00:34:05,130 --> 00:34:01,179

they had this like bins weekend I think

767

00:34:07,350 --> 00:34:05,140

this is back in 2016 and I saw part of

768

00:34:10,080 --> 00:34:07,360

that I'm like whoa and that's watching

769

00:34:12,510 --> 00:34:10,090

more episodes and I was like okay this

770

00:34:15,990 --> 00:34:12,520

is pretty good I mean I don't like the

771

00:34:19,470 --> 00:34:16,000

faculty they made they personified Tong

772

00:34:20,970 --> 00:34:19,480

and maybe that person and I mean I was

773

00:34:24,270 --> 00:34:20,980

in that bus figured out what the heck

774

00:34:25,889 --> 00:34:24,280

it's kind of saying anything but along

775

00:34:28,500 --> 00:34:25,899

the other stuff I really thought it was

776

00:34:30,450 --> 00:34:28,510

really interesting I got to be hooked on

777

00:34:33,119 --> 00:34:30,460

the show and it was um

778

00:34:35,159 --> 00:34:33,129

it was I got to see the last season is

779

00:34:37,409 --> 00:34:35,169

what they did they came out and did this

780

00:34:40,500 --> 00:34:37,419

huge being watching binge watching thing

781

00:34:41,909 --> 00:34:40,510

and then they had the last season which

782

00:34:46,460 --> 00:34:41,919

I can't remember what number that was

783

00:34:49,889 --> 00:34:46,470

but they played that as well and wow

784

00:34:52,200 --> 00:34:49,899

that was really cool you know what I

785

00:34:54,450 --> 00:34:52,210

loved about it was that when I ever I

786

00:34:57,270 --> 00:34:54,460

watched the Machine that they're in and

787

00:35:00,320 --> 00:34:57,280

they disappear in that light I always

788

00:35:02,730 --> 00:35:00,330

think of you every time I watch that

789

00:35:04,440 --> 00:35:02,740

because I think you know that's pretty

790

00:35:07,680 --> 00:35:04,450

close to what Marshall keeps telling me

791

00:35:10,950 --> 00:35:07,690

about maybe that isn't so far-fetched

792

00:35:13,650 --> 00:35:10,960

you know but it was I saw that I was

793

00:35:17,430 --> 00:35:13,660

like you know there is a theoretical

794

00:35:20,820 --> 00:35:17,440

ways you could do that and then is

795

00:35:22,440 --> 00:35:20,830

untimely I know what those bands are

796

00:35:24,660 --> 00:35:22,450

supposed to be doing it spinning around

797

00:35:26,670 --> 00:35:24,670

I knew what that is but I don't know

798

00:35:28,800 --> 00:35:26,680

where they got the idea of doing it that

799

00:35:31,080 --> 00:35:28,810

way but I know what that was what

800

00:35:32,550 --> 00:35:31,090

purpose that would serve you know if he

801  
00:35:35,640 --> 00:35:32,560  
was trying to do machine like that for

802  
00:35:36,270 --> 00:35:35,650  
real so it's kind of funny when it shows

803  
00:35:40,530 --> 00:35:36,280  
that how

804  
00:35:42,120 --> 00:35:40,540  
the conceptual stuff long comes up which

805  
00:35:44,730 --> 00:35:42,130  
they still come up with ways in which

806  
00:35:48,330 --> 00:35:44,740  
the engineering and technology can be

807  
00:35:50,910 --> 00:35:48,340  
right absolutely you know and the first

808  
00:35:54,030 --> 00:35:50,920  
time we saw those the bands around the

809  
00:35:56,460 --> 00:35:54,040  
circular craft type of thing spinning it

810  
00:36:01,500 --> 00:35:56,470  
and and gyrating or whatever they're

811  
00:36:07,080 --> 00:36:01,510  
doing was in contact with Jodie Foster

812  
00:36:10,530 --> 00:36:07,090  
oh yes were those were not those were in

813  
00:36:13,790 --> 00:36:10,540

the vicinity of the craft they weren't

814

00:36:18,120 --> 00:36:13,800

actually on the craft oh that is right

815

00:36:21,359 --> 00:36:18,130

right exactly and so it's kind of a

816

00:36:24,930 --> 00:36:21,369

similar thing but not exactly saying the

817

00:36:29,460 --> 00:36:24,940

one in on the one they have in timeless

818

00:36:31,650 --> 00:36:29,470

is essentially and basically I would

819

00:36:35,370 --> 00:36:31,660

interpret it as creating a torsion

820

00:36:37,710 --> 00:36:35,380

effect whereby they can open up this you

821

00:36:41,280 --> 00:36:37,720

know wormhole thing around the ship and

822

00:36:44,430 --> 00:36:41,290

it disappears according to Malcolm if

823

00:36:46,740 --> 00:36:44,440

you can believe him the average and say

824

00:36:48,839 --> 00:36:46,750

this one before on the show they're you

825

00:36:50,670 --> 00:36:48,849

know closed timelike curves but that's

826  
00:36:53,790 --> 00:36:50,680  
probably mad because close to my curves

827  
00:36:57,359 --> 00:36:53,800  
are not real they're mathematical thing

828  
00:36:58,650 --> 00:36:57,369  
that physicists discovered and there's a

829  
00:37:01,770 --> 00:36:58,660  
disagreement about how they would

830  
00:37:04,140 --> 00:37:01,780  
operate and I could go into like you

831  
00:37:07,470 --> 00:37:04,150  
know the between man lecture on them but

832  
00:37:09,420 --> 00:37:07,480  
it's you know real time travel does not

833  
00:37:13,530 --> 00:37:09,430  
involve course I my curves on me with

834  
00:37:16,530 --> 00:37:13,540  
that right right exactly now if you were

835  
00:37:18,089 --> 00:37:16,540  
to do a TV show I've always wanted to

836  
00:37:21,630 --> 00:37:18,099  
ask you this if you were gonna do a TV

837  
00:37:24,329 --> 00:37:21,640  
show what would be your mode of taking

838  
00:37:26,940 --> 00:37:24,339

them to another time would it be light

839

00:37:28,349 --> 00:37:26,950

would it be the circumference rings or

840

00:37:31,200 --> 00:37:28,359

whatever they're doing or would it be

841

00:37:33,359 --> 00:37:31,210

capsule would it be you know water I

842

00:37:35,220 --> 00:37:33,369

mean how would you get them there would

843

00:37:41,640 --> 00:37:35,230

you build a chair like they did in 12

844

00:37:44,430 --> 00:37:41,650

monkeys no well we probably do is keep

845

00:37:45,960 --> 00:37:44,440

us close to what we believe an actual

846

00:37:50,780 --> 00:37:45,970

functioning time machine would be like

847

00:37:52,770 --> 00:37:50,790

and they would have probably some kind

848

00:37:55,020 --> 00:37:52,780

either they would make it from scratch

849

00:37:57,180 --> 00:37:55,030

or they would take a car modified this

850

00:37:59,190 --> 00:37:57,190

would they have something to sit in you

851  
00:38:02,750 --> 00:37:59,200  
know it would be a v8 a vessel or video

852  
00:38:05,520 --> 00:38:02,760  
or whatever and then they would realize

853  
00:38:08,790 --> 00:38:05,530  
the different components that you know

854  
00:38:10,050 --> 00:38:08,800  
were actually I mean building for the

855  
00:38:12,990 --> 00:38:10,060  
time machine research that we're doing

856  
00:38:16,140 --> 00:38:13,000  
and and we're going to really based on

857  
00:38:18,090 --> 00:38:16,150  
the idea of the participatory universe

858  
00:38:21,510 --> 00:38:18,100  
and calm account quantum mechanical

859  
00:38:24,440 --> 00:38:21,520  
connects to that it would have something

860  
00:38:29,720 --> 00:38:24,450  
in it that like we call a sling drive

861  
00:38:33,690 --> 00:38:29,730  
sling drive is a laser apparatus that

862  
00:38:37,140 --> 00:38:33,700  
goes through this pulse sequences that

863  
00:38:39,810 --> 00:38:37,150

then trigger the coherence of the

864

00:38:42,060 --> 00:38:39,820

universe I call mechanical level but

865

00:38:46,260 --> 00:38:42,070

this were all connected to it is that's

866

00:38:48,330 --> 00:38:46,270

a macroscopic level and and they would

867

00:38:50,460 --> 00:38:48,340

have something hooked up to it that

868

00:38:53,099 --> 00:38:50,470

would connect to the destination in the

869

00:38:55,560 --> 00:38:53,109

past they want to go through and they

870

00:38:57,840 --> 00:38:55,570

would have a camera that would be

871

00:39:00,180 --> 00:38:57,850

connected to some kind of a sensor

872

00:39:03,630 --> 00:39:00,190

device and then it would be hooked up to

873

00:39:07,470 --> 00:39:03,640

the sling drive and what you want to do

874

00:39:09,060 --> 00:39:07,480

is when all sudden you make that jump or

875

00:39:12,120 --> 00:39:09,070

that translation I shouldn't say it's a

876

00:39:14,160 --> 00:39:12,130

jump when you may get translation or

877

00:39:17,370 --> 00:39:14,170

sudden you're not in the present anymore

878

00:39:20,640 --> 00:39:17,380

you're in the past the change and the

879

00:39:23,520 --> 00:39:20,650

visual surroundings the cane would see

880

00:39:25,680 --> 00:39:23,530

would trigger the sensor just shut off

881

00:39:33,120 --> 00:39:25,690

the sling drive so you don't just keep

882

00:39:35,460 --> 00:39:33,130

doing about like an XY coordinate in in

883

00:39:37,260 --> 00:39:35,470

this field you're generating that you

884

00:39:39,540 --> 00:39:37,270

know that at a certain point you've been

885

00:39:43,590 --> 00:39:39,550

you can measure it that says this is

886

00:39:47,730 --> 00:39:43,600

1979 I mean how do you guys get to that

887

00:39:53,630 --> 00:39:47,740

how do you even get to the past in that

888

00:39:57,359 --> 00:39:53,640

day okay what you're doing is you are

889

00:40:00,630 --> 00:39:57,369

causing into existence a parallel

890

00:40:04,020 --> 00:40:00,640

universe copy of the past and when it

891

00:40:06,630 --> 00:40:04,030

happens you're in it immediately and as

892

00:40:09,150 --> 00:40:06,640

so there are no problems with you know

893

00:40:11,790 --> 00:40:09,160

any therapy or the conservation of

894

00:40:14,850 --> 00:40:11,800

energy or any asset because that new

895

00:40:15,870 --> 00:40:14,860

universe copy of the past didn't exist

896

00:40:18,630 --> 00:40:15,880

without you in it

897

00:40:20,550 --> 00:40:18,640

anyway so it's not like role of

898

00:40:23,730 --> 00:40:20,560

introducing something new the Pascal in

899

00:40:25,260 --> 00:40:23,740

there before that's not it so as a

900

00:40:29,160 --> 00:40:25,270

result that's what happens but well was

901  
00:40:32,070 --> 00:40:29,170  
hunting spying was that the camera will

902  
00:40:34,440 --> 00:40:32,080  
see that what it was looking at is

903  
00:40:36,690 --> 00:40:34,450  
different man yeah as soon as that soon

904  
00:40:39,200 --> 00:40:36,700  
as that difference happens that the

905  
00:40:42,450 --> 00:40:39,210  
sensor picks that up it triggers the

906  
00:40:45,540 --> 00:40:42,460  
shutdown of the swing drive so you're no

907  
00:40:48,990 --> 00:40:45,550  
longer you know making anything else

908  
00:40:51,330 --> 00:40:49,000  
happen it just stops me stop hiking with

909  
00:40:52,610 --> 00:40:51,340  
that idea a couple months ago because we

910  
00:40:57,060 --> 00:40:52,620  
had to figure out okay

911  
00:40:59,610 --> 00:40:57,070  
you know how do you even told us what he

912  
00:41:02,970 --> 00:40:59,620  
was how's it going to function way to

913  
00:41:06,390 --> 00:41:02,980

figure out and test it and and because

914

00:41:11,220 --> 00:41:06,400

that's the danger with this this kind of

915

00:41:17,420 --> 00:41:11,230

activity is that if you we're gonna try

916

00:41:21,060 --> 00:41:17,430

to see if it would really work okay and

917

00:41:23,730 --> 00:41:21,070

we tried to go to the Past then thing is

918

00:41:25,290 --> 00:41:23,740

it's like if it worked BAM we're there

919

00:41:27,180 --> 00:41:25,300

and if we're not ready to be there were

920

00:41:29,700 --> 00:41:27,190

in trouble particular we can get back

921

00:41:32,550 --> 00:41:29,710

and so we had it we had to figure out a

922

00:41:35,670 --> 00:41:32,560

way okay how can we test this gradually

923

00:41:38,100 --> 00:41:35,680

and work up to the point where you know

924

00:41:41,880 --> 00:41:38,110

we're we're ready we know that it should

925

00:41:44,010 --> 00:41:41,890

work and we should we can prepare for

926  
00:41:45,840 --> 00:41:44,020  
all the things we're gonna have to do if

927  
00:41:48,870 --> 00:41:45,850  
we're going to go for real so that

928  
00:41:52,530 --> 00:41:48,880  
happens for real we're ready we're there

929  
00:41:54,840 --> 00:41:52,540  
and and that's a whole nother ball wax

930  
00:41:57,480 --> 00:41:54,850  
because this isn't a curse what we're

931  
00:41:58,260 --> 00:41:57,490  
planning doing it's not a tourist trip

932  
00:42:05,130 --> 00:41:58,270  
okay

933  
00:42:06,690 --> 00:42:05,140  
right this isn't timeless you're not

934  
00:42:09,300 --> 00:42:06,700  
going back there just to hang out and

935  
00:42:12,480 --> 00:42:09,310  
come back to your time you are going

936  
00:42:14,190 --> 00:42:12,490  
there to to live and be in that time

937  
00:42:16,620 --> 00:42:14,200  
space and you have to make that decision

938  
00:42:17,309 --> 00:42:16,630

you know - reminds me of did you ever

939

00:42:22,709 --> 00:42:17,319

see the

940

00:42:24,900 --> 00:42:22,719

Dover's no okay it's amazing show that

941

00:42:26,370 --> 00:42:24,910

was I can't remember what network it was

942

00:42:28,620 --> 00:42:26,380

on I watched the whole thing because it

943

00:42:30,479 --> 00:42:28,630

just intrigued the hell out of me and it

944

00:42:32,339 --> 00:42:30,489

was about I'm not going to it was all

945

00:42:34,519 --> 00:42:32,349

about but at the end of the the series

946

00:42:38,370 --> 00:42:34,529

it was about three or four years of

947

00:42:41,759 --> 00:42:38,380

lasted at the end of the series but in

948

00:42:44,459 --> 00:42:41,769

the very first episode people just

949

00:42:46,380 --> 00:42:44,469

disappeared they've just disappeared out

950

00:42:48,509 --> 00:42:46,390

of you know out of there out of this

951  
00:42:50,969 --> 00:42:48,519  
lady's womb off the street you know

952  
00:42:53,189 --> 00:42:50,979  
whatever people just disappeared and it

953  
00:42:57,509 --> 00:42:53,199  
turned out to be like an eighth of the

954  
00:43:00,900 --> 00:42:57,519  
population or a fourth of it and finally

955  
00:43:02,910 --> 00:43:00,910  
this one woman is so upset about losing

956  
00:43:05,759 --> 00:43:02,920  
her husband and her two children she's

957  
00:43:08,699 --> 00:43:05,769  
one of the ones that lost everybody that

958  
00:43:10,709 --> 00:43:08,709  
she finally meets up with a group of

959  
00:43:13,439 --> 00:43:10,719  
people that say we can take you to your

960  
00:43:15,359 --> 00:43:13,449  
family we know how to get there they

961  
00:43:19,079 --> 00:43:15,369  
were taking taken to a different

962  
00:43:21,329 --> 00:43:19,089  
dimension basically and so she goes to

963  
00:43:24,269 --> 00:43:21,339

that dimension and finds out that in

964

00:43:26,670 --> 00:43:24,279

their reality they're the only ones left

965

00:43:28,829 --> 00:43:26,680

that they all disappeared so there's a

966

00:43:31,439 --> 00:43:28,839

very small population of people there

967

00:43:33,180 --> 00:43:31,449

and her husband has found another woman

968

00:43:35,039 --> 00:43:33,190

and what have you and then she has to go

969

00:43:37,709 --> 00:43:35,049

through this whole thing to get back to

970

00:43:39,539 --> 00:43:37,719

this timeline anyhow bottom line to it

971

00:43:42,359 --> 00:43:39,549

all was it was very intriguing how they

972

00:43:47,219 --> 00:43:42,369

did it they did it with water and her

973

00:43:50,339 --> 00:43:47,229

basically dying to get there so which

974

00:43:52,019 --> 00:43:50,349

was I found very interesting so and they

975

00:43:54,329 --> 00:43:52,029

said you know you're never coming back

976  
00:43:57,239 --> 00:43:54,339  
and she made that decision and she went

977  
00:43:59,430 --> 00:43:57,249  
for it you know but it's very

978  
00:44:03,539 --> 00:43:59,440  
interesting interesting to me that you

979  
00:44:05,819 --> 00:44:03,549  
kind of have to you know in their world

980  
00:44:07,529 --> 00:44:05,829  
and the way they did it you had to let

981  
00:44:22,799 --> 00:44:07,539  
go of everything here including your

982  
00:44:24,539 --> 00:44:22,809  
life to get to that space so and you

983  
00:44:26,130 --> 00:44:24,549  
know and the thing about it it sounds

984  
00:44:29,219 --> 00:44:26,140  
really clean there's some people but

985  
00:44:30,930 --> 00:44:29,229  
this was based on the work in part of

986  
00:44:34,349 --> 00:44:30,940  
exe raha

987  
00:44:38,819 --> 00:44:34,359  
who's like the Israeli I think he's an

988  
00:44:40,920 --> 00:44:38,829

Israeli physicist through won a National

989

00:44:44,460 --> 00:44:40,930

Medal of Science Award like a couple

990

00:44:47,130 --> 00:44:44,470

years ago and he had the idea of a

991

00:44:49,500 --> 00:44:47,140

balloon and it's kind of complicated but

992

00:44:52,859 --> 00:44:49,510

the key part is he had some kind of

993

00:44:56,040 --> 00:44:52,869

quantum quantum mechanical device and I

994

00:44:59,670 --> 00:44:56,050

was operating and I call it you know a

995

00:45:01,349 --> 00:44:59,680

quantum trigger and this balloon would

996

00:45:04,680 --> 00:45:01,359

wouldn't take you back in time or

997

00:45:08,069 --> 00:45:04,690

whatever but it was easy or making you

998

00:45:11,190 --> 00:45:08,079

younger and it was just a theoretical

999

00:45:15,150 --> 00:45:11,200

thing but it was critical because when I

1000

00:45:18,329 --> 00:45:15,160

did my experiments and lecture causality

1001  
00:45:20,490 --> 00:45:18,339  
and now since I talked to you last week

1002  
00:45:23,880 --> 00:45:20,500  
go ahead and I figure out an experiment

1003  
00:45:26,190 --> 00:45:23,890  
with the laser that would essentially

1004  
00:45:27,599 --> 00:45:26,200  
all it did was it proved the Emmett

1005  
00:45:29,849 --> 00:45:27,609  
wheeler hypothesis that parallel

1006  
00:45:32,430 --> 00:45:29,859  
universes the way that it was

1007  
00:45:33,690 --> 00:45:32,440  
interpreted and being that just you know

1008  
00:45:36,480 --> 00:45:33,700  
you have these all these different

1009  
00:45:39,000 --> 00:45:36,490  
possibilities and then when you take a

1010  
00:45:40,829 --> 00:45:39,010  
measurement what you get is what you see

1011  
00:45:42,900 --> 00:45:40,839  
here but the wrestling stone just a

1012  
00:45:46,319 --> 00:45:42,910  
parallel universe and were that's where

1013  
00:45:47,910 --> 00:45:46,329

you are as well we were able to prove

1014

00:45:51,900 --> 00:45:47,920

that one and we're going to write that

1015

00:45:55,410 --> 00:45:51,910

up in a paper but the thing I wrote yeah

1016

00:46:00,030 --> 00:45:55,420

the thing I realize is that this can be

1017

00:46:02,190 --> 00:46:00,040

used as a trigger and I can I and we

1018

00:46:04,380 --> 00:46:02,200

could use that for a time machine but

1019

00:46:06,510 --> 00:46:04,390

how do we connect with the task and all

1020

00:46:09,630 --> 00:46:06,520

that and I figured it out can't talk

1021

00:46:12,140 --> 00:46:09,640

about it because it's be weaponized

1022

00:46:16,500 --> 00:46:12,150

all right but the thing about it is that

1023

00:46:18,569 --> 00:46:16,510

you know this is based on yeah you know

1024

00:46:21,210 --> 00:46:18,579

work of like you know just what we were

1025

00:46:23,790 --> 00:46:21,220

and that's here or horn off and even

1026  
00:46:25,920 --> 00:46:23,800  
when you can concerning this cat where

1027  
00:46:28,020 --> 00:46:25,930  
you have the cat in a box the

1028  
00:46:32,099 --> 00:46:28,030  
radioactive material has a half-life of

1029  
00:46:35,609 --> 00:46:32,109  
you know 30 minutes or whatever and and

1030  
00:46:37,980 --> 00:46:35,619  
then depending on when that radioactive

1031  
00:46:41,460 --> 00:46:37,990  
material if it decays or definitely case

1032  
00:46:44,370 --> 00:46:41,470  
when I trigger this release of sleeping

1033  
00:46:47,579 --> 00:46:44,380  
gas we do this Peter person always do

1034  
00:46:50,099 --> 00:46:47,589  
and that gas is released a cat falls

1035  
00:46:52,589 --> 00:46:50,109  
asleep but until you're a boss you don't

1036  
00:46:55,559 --> 00:46:52,599  
know what you've got and it causes it

1037  
00:46:58,499 --> 00:46:55,569  
what they call a superposition and the

1038  
00:47:01,680 --> 00:46:58,509

cat with the cat being both a lot when I

1039

00:47:03,769 --> 00:47:01,690

was that sewers no one is its dad sign I

1040

00:47:08,400 --> 00:47:03,779

guess let's see you're alive or dead but

1041

00:47:11,849 --> 00:47:08,410

and the PIA verse and as I say the cat's

1042

00:47:13,739 --> 00:47:11,859

asleep and awake okay until you open a

1043

00:47:16,620 --> 00:47:13,749

box and you see it one way or the other

1044

00:47:19,920 --> 00:47:16,630

but the alternate version still exists a

1045

00:47:23,789 --> 00:47:19,930

parallel universe that is that first

1046

00:47:25,589 --> 00:47:23,799

concert essentially because it's based

1047

00:47:28,769 --> 00:47:25,599

on something happening on a quantum

1048

00:47:31,319 --> 00:47:28,779

level but it's triggering a macroscopic

1049

00:47:32,219 --> 00:47:31,329

you that and that's essentially what

1050

00:47:34,469 --> 00:47:32,229

we're talking about

1051  
00:47:38,210 --> 00:47:34,479  
we've got a quantum mechanical device

1052  
00:47:41,819 --> 00:47:38,220  
set up so that it's going to trigger a

1053  
00:47:45,059 --> 00:47:41,829  
macroscopic you that and that's what's

1054  
00:47:47,549 --> 00:47:45,069  
so cool because there's so much science

1055  
00:47:50,700 --> 00:47:47,559  
behind how that would happen the only

1056  
00:47:53,459 --> 00:47:50,710  
tricky part it's connecting it to a past

1057  
00:47:54,959 --> 00:47:53,469  
event and I'll take it to the past well

1058  
00:47:57,329 --> 00:47:54,969  
because the universe is based on

1059  
00:48:00,109 --> 00:47:57,339  
information and it's a participatory

1060  
00:48:03,959 --> 00:48:00,119  
universe which is where we're comes in

1061  
00:48:07,829 --> 00:48:03,969  
and depending on what we do we should be

1062  
00:48:08,579 --> 00:48:07,839  
able to trigger that copy it come into

1063  
00:48:11,489 --> 00:48:08,589

existence

1064

00:48:14,339 --> 00:48:11,499

now here's what come becomes fun for

1065

00:48:16,170 --> 00:48:14,349

your audience probably I'm sure most of

1066

00:48:21,209 --> 00:48:16,180

them know what synchronicity is right

1067

00:48:24,410 --> 00:48:21,219

thanks I hope so make sure that what we

1068

00:48:26,819 --> 00:48:24,420

know already from research

1069

00:48:29,099 --> 00:48:26,829

synchronicities can be created it can be

1070

00:48:29,940 --> 00:48:29,109

manipulated you can bring them into

1071

00:48:34,650 --> 00:48:29,950

existence

1072

00:48:37,410 --> 00:48:34,660

now because of that that is an example

1073

00:48:40,759 --> 00:48:37,420

of the participatory universe being

1074

00:48:43,319 --> 00:48:40,769

behind it reoccurs ran a petition said

1075

00:48:45,660 --> 00:48:43,329

that coincidences are part of a

1076

00:48:48,839 --> 00:48:45,670

first-class universe but when you have a

1077

00:48:52,170 --> 00:48:48,849

series of coincidences or

1078

00:48:54,630 --> 00:48:52,180

synchronicities in other words you can

1079

00:48:56,309 --> 00:48:54,640

see a five different coincidences but

1080

00:48:58,050 --> 00:48:56,319

they're all interrelated for all that

1081

00:49:00,450 --> 00:48:58,060

same thing then that

1082

00:49:03,660 --> 00:49:00,460

what he calls a meaningful arrangement

1083

00:49:06,300 --> 00:49:03,670

and that is when you know you've got

1084

00:49:09,230 --> 00:49:06,310

something well we did research that's in

1085

00:49:11,430 --> 00:49:09,240

the nineties into that we cared about

1086

00:49:13,410 --> 00:49:11,440

synchronicities unless it was had at

1087

00:49:16,230 --> 00:49:13,420

least three they were all interconnected

1088

00:49:19,200 --> 00:49:16,240

all interrelated didn't we pay attention

1089

00:49:22,800 --> 00:49:19,210

and then we liked high five and when

1090

00:49:25,920 --> 00:49:22,810

they got to five or whatever but my key

1091

00:49:27,870 --> 00:49:25,930

thing is we we understood that it was

1092

00:49:32,210 --> 00:49:27,880

until later long like this in the last

1093

00:49:33,960 --> 00:49:32,220

year I start to connect that to the

1094

00:49:36,600 --> 00:49:33,970

functioning of the participatory

1095

00:49:38,760 --> 00:49:36,610

universe so when these weird things

1096

00:49:42,810 --> 00:49:38,770

happen it's a participatory university

1097

00:49:46,470 --> 00:49:42,820

on it every from our model okay which is

1098

00:49:50,160 --> 00:49:46,480

pretty consistent so what we need to do

1099

00:49:53,580 --> 00:49:50,170

is raise the probability that we will be

1100

00:49:56,730 --> 00:49:53,590

able to trigger into existence a

1101

00:49:59,010 --> 00:49:56,740

parallel universe copy of the past we

1102

00:50:00,840 --> 00:49:59,020

know it should be possible because it's

1103

00:50:03,240 --> 00:50:00,850

all information right now world

1104

00:50:05,280 --> 00:50:03,250

information when the universe is foot

1105

00:50:08,160 --> 00:50:05,290

and it's there on time if I split like

1106

00:50:11,450 --> 00:50:08,170

10,000 times moving on to the phone when

1107

00:50:13,350 --> 00:50:11,460

that happens the copies which are

1108

00:50:17,130 --> 00:50:13,360

possible because it's just all

1109

00:50:20,610 --> 00:50:17,140

information on a very basic level so

1110

00:50:21,960 --> 00:50:20,620

it's only a difference between what the

1111

00:50:24,570 --> 00:50:21,970

way it normally happens where you

1112

00:50:26,190 --> 00:50:24,580

getting copies in the present and only

1113

00:50:29,280 --> 00:50:26,200

thing we're trying to do now is get a

1114

00:50:32,280 --> 00:50:29,290

copy of the past and that's it it's not

1115

00:50:36,300 --> 00:50:32,290

really that difficult particular you

1116

00:50:37,980 --> 00:50:36,310

know I I'm so interested in the way

1117

00:50:39,480 --> 00:50:37,990

you're saying this right now because the

1118

00:50:42,570 --> 00:50:39,490

first time I've heard you talk about it

1119

00:50:44,940 --> 00:50:42,580

in this manner and what blows my mind is

1120

00:50:47,400 --> 00:50:44,950

there is a guy that comes to all of our

1121

00:50:50,070 --> 00:50:47,410

like UFO and consciousness conferences

1122

00:50:54,350 --> 00:50:50,080

that says we're splitting all the time

1123

00:50:56,910 --> 00:50:54,360

and he thinks it's because of the aliens

1124

00:50:58,920 --> 00:50:56,920

no check this out Marshall you'll love

1125

00:51:01,290 --> 00:50:58,930

this he's built a device that you go sit

1126

00:51:03,330 --> 00:51:01,300

in this big old tent booth and it

1127

00:51:04,980 --> 00:51:03,340

flashes all these lights at you and it's

1128

00:51:09,090 --> 00:51:04,990

supposed to put all of your different

1129

00:51:11,460 --> 00:51:09,100

selves back together as one I don't know

1130

00:51:13,530 --> 00:51:11,470

if I'm laughing because it's so it seems

1131

00:51:15,839 --> 00:51:13,540

so preposterous but I've never done it

1132

00:51:17,880 --> 00:51:15,849

but he walked up to me once and said you

1133

00:51:20,220 --> 00:51:17,890

know how many times you just split up in

1134

00:51:22,200 --> 00:51:20,230

the last 30 seconds and I said knowing

1135

00:51:24,150 --> 00:51:22,210

those eight you just split up eight

1136

00:51:28,320 --> 00:51:24,160

times I just saw it happening I'm like

1137

00:51:41,160 --> 00:51:28,330

okay so maybe he's onto something what

1138

00:51:43,380 --> 00:51:41,170

do you think now of all the people and

1139

00:51:46,620 --> 00:51:43,390

all the things they're running around

1140

00:51:48,480 --> 00:51:46,630

doing different things right now they're

1141

00:51:50,339 --> 00:51:48,490

splitting ever so many different times

1142

00:51:54,000 --> 00:51:50,349

side is funny when he was on one

1143

00:51:57,589 --> 00:51:54,010

thousand eight thousands of times right

1144

00:52:01,170 --> 00:51:57,599

because every time here's what happened

1145

00:52:04,290 --> 00:52:01,180

over and that man or something okay

1146

00:52:06,450 --> 00:52:04,300

well somebody almost get shot the

1147

00:52:07,560 --> 00:52:06,460

neighbor splits and one he did get shot

1148

00:52:10,680 --> 00:52:07,570

maybe you didn't die

1149

00:52:13,410 --> 00:52:10,690

and then another one he did die and and

1150

00:52:16,680 --> 00:52:13,420

the other one you didn't get shot at all

1151  
00:52:20,280 --> 00:52:16,690  
okay so the thing is you each of those

1152  
00:52:21,720 --> 00:52:20,290  
ones were there as well so that split

1153  
00:52:25,550 --> 00:52:21,730  
like three or four different times

1154  
00:52:28,050 --> 00:52:25,560  
we're in each of those splits now

1155  
00:52:29,940 --> 00:52:28,060  
multiply that times all the people run

1156  
00:52:32,099 --> 00:52:29,950  
doing all kinds of stuff somebody gets

1157  
00:52:35,310 --> 00:52:32,109  
done with a near accident or in those

1158  
00:52:38,250 --> 00:52:35,320  
different splits to I mean it's the same

1159  
00:52:39,900 --> 00:52:38,260  
it's really crazy it's not like eight

1160  
00:52:43,530 --> 00:52:39,910  
different times you might split it's

1161  
00:52:46,410 --> 00:52:43,540  
like thousands of times because it works

1162  
00:52:50,520 --> 00:52:46,420  
but nearest bites that we're doing you

1163  
00:52:53,310 --> 00:52:50,530

know all right one of the things I did I

1164

00:52:55,170 --> 00:52:53,320

wrote this paper I'll call it changing

1165

00:52:57,720 --> 00:52:55,180

channel or changing worlds like TV

1166

00:53:00,690 --> 00:52:57,730

channels I did this experiment of money

1167

00:53:03,510 --> 00:53:00,700

to laser ones and I did it instead it's

1168

00:53:06,270 --> 00:53:03,520

like skiing off the laser you know and

1169

00:53:08,700 --> 00:53:06,280

different policy rates I did it to the

1170

00:53:11,670 --> 00:53:08,710

beat of scare song if I could turn that

1171

00:53:13,980 --> 00:53:11,680

time and I

1172

00:53:16,589 --> 00:53:13,990

I ran the audio while we were filming

1173

00:53:19,530 --> 00:53:16,599

it's all our experiments or film because

1174

00:53:21,780 --> 00:53:19,540

we have to analyze masane by frame in

1175

00:53:24,720 --> 00:53:21,790

order to see when we get what we call

1176

00:53:28,050 --> 00:53:24,730

the anomalous hits show up and you

1177

00:53:31,140 --> 00:53:28,060

it's in a detection area that appear

1178

00:53:33,720 --> 00:53:31,150

when there's no laser on and that that

1179

00:53:36,599 --> 00:53:33,730

indicates that we were now in a new

1180

00:53:41,400 --> 00:53:36,609

parallel universe because cause of that

1181

00:53:45,000 --> 00:53:41,410

laser hit is an original one and it's

1182

00:53:47,430 --> 00:53:45,010

what happens in what was so quit it's

1183

00:53:49,260 --> 00:53:47,440

based on these delays choice where they

1184

00:53:52,859 --> 00:53:49,270

call Vecchio causality experiments were

1185

00:53:55,530 --> 00:53:52,869

a photon goes down a certain path and

1186

00:53:58,770 --> 00:53:55,540

then they pop up a screen after a second

1187

00:54:01,079 --> 00:53:58,780

goes by and the photon says wait a

1188

00:54:03,930 --> 00:54:01,089

minute I should go the other way and it

1189

00:54:06,420 --> 00:54:03,940

ends up disappearing at this other

1190

00:54:07,710 --> 00:54:06,430

detector as if that's the way hadn't

1191

00:54:09,450 --> 00:54:07,720

gone originally but they know what it

1192

00:54:12,089 --> 00:54:09,460

didn't do that and so they say well

1193

00:54:14,400 --> 00:54:12,099

we've changed the path okay well my

1194

00:54:17,760 --> 00:54:14,410

research was okay let's see what the

1195

00:54:21,870 --> 00:54:17,770

real deal is on this and I filmed it and

1196

00:54:24,060 --> 00:54:21,880

all that and we get laser hits and now

1197

00:54:26,160 --> 00:54:24,070

in these different places when there's

1198

00:54:28,890 --> 00:54:26,170

no laser on it just appears out of

1199

00:54:32,400 --> 00:54:28,900

nowhere and it doesn't even like you'll

1200

00:54:35,190 --> 00:54:32,410

see like the laser pulse up here in a

1201

00:54:37,800 --> 00:54:35,200

certain area and hit the detector

1202

00:54:41,579 --> 00:54:37,810

it's just a beauty tester so the user

1203

00:54:44,190 --> 00:54:41,589

says okay BAM this is the result you get

1204

00:54:47,640 --> 00:54:44,200

because of what you did down here and so

1205

00:54:50,670 --> 00:54:47,650

that's really important so what I was

1206

00:54:53,160 --> 00:54:50,680

amazed about I forgot to ask you about

1207

00:54:55,980 --> 00:54:53,170

that the laser hitting are you able to

1208

00:54:59,970 --> 00:54:55,990

measure where the laser hits are coming

1209

00:55:02,280 --> 00:54:59,980

from and in time no you're not coming

1210

00:55:04,140 --> 00:55:02,290

from anywhere that's all point we said

1211

00:55:07,500 --> 00:55:04,150

we said the same where we have a mirror

1212

00:55:10,950 --> 00:55:07,510

and I had so we could see all the ways

1213

00:55:13,829 --> 00:55:10,960

or activity that was happening and we

1214

00:55:17,040 --> 00:55:13,839

had beam splitter setup and the beam

1215

00:55:20,550 --> 00:55:17,050

splitter would send the pulse you know

1216

00:55:23,180 --> 00:55:20,560

they had been split to an area below the

1217

00:55:26,309 --> 00:55:23,190

mirror right if you look at the mirror

1218

00:55:28,710 --> 00:55:26,319

you can see all the ways our activity

1219

00:55:32,690 --> 00:55:28,720

went on and in underneath it when the

1220

00:55:36,030 --> 00:55:32,700

beam when a post on a beam splitter was

1221

00:55:37,890 --> 00:55:36,040

reflected it was hit well in the area

1222

00:55:38,339 --> 00:55:37,900

below it in there please see everything

1223

00:55:45,660 --> 00:55:38,349

right

1224

00:55:48,029 --> 00:55:45,670

get laser hits below the mirror that

1225

00:55:50,789 --> 00:55:48,039

just appeared there and they didn't have

1226

00:55:53,489 --> 00:55:50,799

there's no laser activity in the mirror

1227

00:55:57,239 --> 00:55:53,499

from the other part of the room okay we

1228

00:56:01,410 --> 00:55:57,249

just got hit and we thought we could see

1229

00:56:04,289 --> 00:56:01,420

like I may be a laser thing happen and

1230

00:56:06,150 --> 00:56:04,299

you know downstream so to speak and then

1231

00:56:09,089 --> 00:56:06,160

they hit the hit the area above the

1232

00:56:11,849 --> 00:56:09,099

mirror what was it we just got hit that

1233

00:56:14,189 --> 00:56:11,859

the mirror even though you know it's

1234

00:56:16,289 --> 00:56:14,199

going on yeah they're just random hits

1235

00:56:19,219 --> 00:56:16,299

is what you're saying yeah but they were

1236

00:56:21,630 --> 00:56:19,229

hit the random hits without a cause

1237

00:56:24,299 --> 00:56:21,640

exactly was just there there was no

1238

00:56:26,969 --> 00:56:24,309

laser being fired so they do it and

1239

00:56:28,769 --> 00:56:26,979

there was no flash like also there's a

1240

00:56:32,009 --> 00:56:28,779

laser from over here and hit the wall no

1241

00:56:35,160 --> 00:56:32,019

we just got hit at the wall and we got a

1242

00:56:38,239 --> 00:56:35,170

number hit the wall yeah so what that

1243

00:56:41,370 --> 00:56:38,249

tells you is that this isn't something

1244

00:56:44,130 --> 00:56:41,380

coming under the universe

1245

00:56:50,699 --> 00:56:44,140

we're just now in it with the result of

1246

00:56:51,120 --> 00:56:50,709

what what had happened we gotta take a

1247

00:56:53,729 --> 00:56:51,130

break

1248

00:56:56,309 --> 00:56:53,739

Marsha yeah yeah that we get back

1249

00:56:58,499 --> 00:56:56,319

because I just find the laser hit things

1250

00:57:00,809 --> 00:56:58,509

so fascinating so everybody stick around

1251  
00:57:06,059 --> 00:57:00,819  
we got more time travel coming in the

1252  
00:57:08,099 --> 00:57:06,069  
next hour so we'll be right back welcome

1253  
00:57:09,959 --> 00:57:08,109  
back everyone to the California MUFON

1254  
00:57:11,759 --> 00:57:09,969  
radio show I'm your host Lori inventing

1255  
00:57:13,380 --> 00:57:11,769  
so happy you guys are with us here

1256  
00:57:16,079 --> 00:57:13,390  
tonight we're talking time travel and

1257  
00:57:17,459 --> 00:57:16,089  
all kinds of scientific things that

1258  
00:57:19,769 --> 00:57:17,469  
Laureen has a hard time comprehending

1259  
00:57:22,079 --> 00:57:19,779  
but I'm really working on it I hope you

1260  
00:57:25,170 --> 00:57:22,089  
guys are enjoying yourself

1261  
00:57:28,140 --> 00:57:25,180  
you know Marshall was just talking about

1262  
00:57:31,049 --> 00:57:28,150  
the laser hits he was getting in their

1263  
00:57:33,509 --> 00:57:31,059

experiment and I was saying I wondered

1264

00:57:35,789 --> 00:57:33,519

if he could measure them from coming

1265

00:57:38,489 --> 00:57:35,799

from a different time space or time or

1266

00:57:40,049 --> 00:57:38,499

different era in time how would you

1267

00:57:42,660 --> 00:57:40,059

measure where they're coming from and

1268

00:57:44,309 --> 00:57:42,670

then you explained that that's not how

1269

00:57:46,799 --> 00:57:44,319

it was working it's just that you were

1270

00:57:47,969 --> 00:57:46,809

getting these hits from somewhere but

1271

00:57:50,519 --> 00:57:47,979

you didn't know where they were coming

1272

00:57:52,009 --> 00:57:50,529

from is what what what time they were

1273

00:57:55,740 --> 00:57:52,019

coming from correct

1274

00:57:59,309 --> 00:57:55,750

no no we know it came from the immediate

1275

00:58:01,859 --> 00:57:59,319

you know just seconds ago was what it

1276  
00:58:04,499 --> 00:58:01,869  
came from but the thing about it they do

1277  
00:58:09,569 --> 00:58:04,509  
not yeah yeah but here's the deal

1278  
00:58:12,749 --> 00:58:09,579  
the laser pulses do not enter into where

1279  
00:58:15,150 --> 00:58:12,759  
we are and then hit the wall so we had a

1280  
00:58:18,660 --> 00:58:15,160  
mirror setup so we could see always our

1281  
00:58:21,960 --> 00:58:18,670  
activity going on right yeah anything

1282  
00:58:26,220 --> 00:58:21,970  
anything from the beam square would hit

1283  
00:58:28,470 --> 00:58:26,230  
the area lower the mirror and we got

1284  
00:58:31,259 --> 00:58:28,480  
laser hits below the mirror when there

1285  
00:58:34,289 --> 00:58:31,269  
was no laser activity visible in the

1286  
00:58:36,930 --> 00:58:34,299  
mirror seventies we weren't getting hits

1287  
00:58:39,150 --> 00:58:36,940  
we weren't getting pulses of coming

1288  
00:58:41,069 --> 00:58:39,160

there was there was no laser also in the

1289

00:58:43,650 --> 00:58:41,079

peering and flying the classroom a hit

1290

00:58:48,779 --> 00:58:43,660

in the wall it was just a hit on the

1291

00:58:51,599 --> 00:58:48,789

wall that that tells us that the the

1292

00:58:53,940 --> 00:58:51,609

participatory universe was just giving

1293

00:58:57,210 --> 00:58:53,950

us results they weren't giving us

1294

00:59:00,089 --> 00:58:57,220

process in between in other words if you

1295

00:59:02,490 --> 00:59:00,099

do tire travel there is no real travel

1296

00:59:05,759 --> 00:59:02,500

involved your we start out and then

1297

00:59:09,599 --> 00:59:05,769

suddenly you're where you end up there

1298

00:59:11,279 --> 00:59:09,609

is no that makes yeah so that's what

1299

00:59:14,759 --> 00:59:11,289

you're seeing happen with the laser it

1300

00:59:17,509 --> 00:59:14,769

was like yeah okay I'm getting there's a

1301  
00:59:20,420 --> 00:59:17,519  
name for it there's a term for is called

1302  
00:59:23,069 --> 00:59:20,430  
discontinuous which means you get

1303  
00:59:25,799 --> 00:59:23,079  
results if something happens that does

1304  
00:59:28,829 --> 00:59:25,809  
not have a pass that you can easily

1305  
00:59:31,069 --> 00:59:28,839  
track it to and that's why that's like

1306  
00:59:32,480 --> 00:59:31,079  
paradoxes and final travel are

1307  
00:59:36,269 --> 00:59:32,490  
impossible

1308  
00:59:37,829 --> 00:59:36,279  
there was no continuous loop time loops

1309  
00:59:40,980 --> 00:59:37,839  
don't happen all right

1310  
00:59:44,999 --> 00:59:40,990  
they're discontinuous events if you time

1311  
00:59:49,440 --> 00:59:45,009  
travel into 1066 what happens is you

1312  
00:59:52,799 --> 00:59:49,450  
translate yourself into a new parallel

1313  
00:59:55,079 --> 00:59:52,809

universe copy of 1056 that never existed

1314

00:59:58,470 --> 00:59:55,089

without you in it because it just now

1315

01:00:01,980 --> 00:59:58,480

existed and you're in it okay and then

1316

01:00:03,990 --> 01:00:01,990

and so nothing that you do there is

1317

01:00:06,690 --> 01:00:04,000

going to cause any changes

1318

01:00:08,940 --> 01:00:06,700

to where you came from because they're

1319

01:00:15,080 --> 01:00:08,950

not connected and that was what the

1320

01:00:24,920 --> 01:00:19,980

confuse again so the place I left I'm

1321

01:00:40,380 --> 01:00:37,020

okay you wouldn't tell me there okay I'd

1322

01:00:43,230 --> 01:00:40,390

be gone but what people remember me yeah

1323

01:00:45,930 --> 01:00:43,240

because there's no you why wouldn't any

1324

01:00:48,060 --> 01:00:45,940

remember you do all that stuff about oh

1325

01:00:51,210 --> 01:00:48,070

you're gonna change people's memories or

1326

01:00:52,290 --> 01:00:51,220

what like Atsui that's why this in

1327

01:00:54,720 --> 01:00:52,300

science they shouldn't don't know

1328

01:00:57,420 --> 01:00:54,730

anything about theirs it's coming over

1329

01:01:05,220 --> 01:00:57,430

that stuff is nonsense there's no basis

1330

01:01:08,370 --> 01:01:05,230

for okay you're not you people would say

1331

01:01:10,140 --> 01:01:08,380

for example you time-traveled okay okay

1332

01:01:11,880 --> 01:01:10,150

people that you left behind would

1333

01:01:13,500 --> 01:01:11,890

remember you just like they remember if

1334

01:01:14,750 --> 01:01:13,510

you move to different country or you

1335

01:01:17,400 --> 01:01:14,760

died or something

1336

01:01:23,460 --> 01:01:17,410

the reason what they remember they would

1337

01:01:26,550 --> 01:01:23,470

forget you okay nothing you do in a

1338

01:01:29,430 --> 01:01:26,560

pattern change nothing that you do in a

1339

01:01:31,770 --> 01:01:29,440

past is going to change their memories

1340

01:01:35,160 --> 01:01:31,780

either because all that stuff is not

1341

01:01:36,270 --> 01:01:35,170

connected discontinuous right so there's

1342

01:01:39,210 --> 01:01:36,280

no way it can happen

1343

01:01:41,370 --> 01:01:39,220

I mean I'm like Stephen Hawking you know

1344

01:01:43,890 --> 01:01:41,380

I'm betting me and I come to science

1345

01:01:45,450 --> 01:01:43,900

stuff and yeah I'll surround it by

1346

01:01:47,220 --> 01:01:45,460

dollar bets all night with people with

1347

01:01:48,390 --> 01:01:47,230

stuff like this because I know they

1348

01:01:53,910 --> 01:01:48,400

don't know what they're talking about I

1349

01:01:55,740 --> 01:01:53,920

can prove using geometry that that is

1350

01:01:57,420 --> 01:01:55,750

that he what would happen plus with

1351

01:02:01,110 --> 01:01:57,430

these physical experiments we've been

1352

01:02:03,150 --> 01:02:01,120

doing which are based on predictions and

1353

01:02:05,990 --> 01:02:03,160

assumptions of people like when a blog

1354

01:02:08,550 --> 01:02:06,000

it was a German accent businesses I mean

1355

01:02:10,800 --> 01:02:08,560

it's all settled pretty much I mean

1356

01:02:12,570 --> 01:02:10,810

knowing difference is that none of

1357

01:02:15,120 --> 01:02:12,580

people know about it but the science is

1358

01:02:17,130 --> 01:02:15,130

there and it's self consistent and

1359

01:02:17,730 --> 01:02:17,140

that's what you want that's oxides every

1360

01:02:19,470 --> 01:02:17,740

theory

1361

01:02:22,890 --> 01:02:19,480

and we have physical experiments that

1362

01:02:27,780 --> 01:02:22,900

back it up there's five factors that um

1363

01:02:30,390 --> 01:02:27,790

I wrote about that support this that

1364

01:02:32,730 --> 01:02:30,400

comes from other people's work and so in

1365

01:02:35,520 --> 01:02:32,740

order for me to be wrong you have to

1366

01:02:38,099 --> 01:02:35,530

prove they're wrong you know each of

1367

01:02:40,109 --> 01:02:38,109

those five different things and then you

1368

01:02:43,050 --> 01:02:40,119

have to come up with an explanation of

1369

01:02:45,510 --> 01:02:43,060

how we're getting the laser hits I have

1370

01:02:49,380 --> 01:02:45,520

nowhere that we're getting now it's a

1371

01:02:53,700 --> 01:02:51,870

okay well then here's the next question

1372

01:02:55,980 --> 01:02:53,710

that always comes up between you and I

1373

01:02:59,160 --> 01:02:55,990

and everybody else is now that I'm time

1374

01:03:03,060 --> 01:02:59,170

travel back to 1969 the in the summer of

1375

01:03:06,960 --> 01:03:03,070

love I'm still 70 or 60 years old and

1376

01:03:13,230 --> 01:03:06,970

I'm still I'm still there in that

1377

01:03:14,970 --> 01:03:13,240

universe at 16 or 17 yeah okay and so

1378

01:03:16,440 --> 01:03:14,980

the trick is that we don't run into each

1379

01:03:21,720 --> 01:03:16,450

other and if we did it wouldn't matter

1380

01:03:25,410 --> 01:03:21,730

right you're battling okay my younger

1381

01:03:27,120 --> 01:03:25,420

version of you if she realize that she's

1382

01:03:32,460 --> 01:03:27,130

looking older version of herself name

1383

01:03:34,380 --> 01:03:32,470

your son I gather yeah I probably run

1384

01:03:39,540 --> 01:03:34,390

into myself forty five times and not

1385

01:03:42,060 --> 01:03:39,550

cared or noticed probably in 45

1386

01:03:44,280 --> 01:03:42,070

different dimensions or times or

1387

01:03:46,470 --> 01:03:44,290

whatever but I'm just laughing because

1388

01:03:48,510 --> 01:03:46,480

how many times could I do that could i

1389

01:03:51,660 --> 01:03:48,520

if if there was a time machine in each

1390

01:03:54,349 --> 01:03:51,670

time that I jumped back could I go to

1391

01:03:57,750 --> 01:03:54,359

another time can I could I go one year

1392

01:03:59,070 --> 01:03:57,760

later and let's just say I decided I

1393

01:04:02,010 --> 01:03:59,080

want to just keep going back to when I

1394

01:04:06,660 --> 01:04:02,020

was born every couple of years can I do

1395

01:04:09,359 --> 01:04:06,670

that yeah you know you could do that Wow

1396

01:04:10,890 --> 01:04:09,369

and it went screw it would screw up any

1397

01:04:15,359 --> 01:04:10,900

timelines because they're all being

1398

01:04:19,470 --> 01:04:15,369

created as I get there right okay cool

1399

01:04:22,920 --> 01:04:19,480

well so let's say that they do have time

1400

01:04:24,540 --> 01:04:22,930

travel already how come we're so smashed

1401

01:04:26,339 --> 01:04:24,550

up the way we are you think that they

1402

01:04:28,440 --> 01:04:26,349

would go back and keep like trying to

1403

01:04:32,329 --> 01:04:28,450

fix the problems before they happen like

1404

01:04:36,059 --> 01:04:32,339

world war do you know

1405

01:04:38,579 --> 01:04:36,069

you got remember if you go you do time

1406

01:04:41,219 --> 01:04:38,589

travel to fix something you're only

1407

01:04:43,589 --> 01:04:41,229

fixing it for that copy of the universe

1408

01:04:46,859 --> 01:04:43,599

it's your aunt has nothing to do but

1409

01:04:48,509 --> 01:04:46,869

already happen where you are at yeah

1410

01:04:55,259 --> 01:04:48,519

that's what we can do about it

1411

01:04:58,739 --> 01:04:55,269

basically we're doomed well you can tell

1412

01:05:01,079 --> 01:04:58,749

what you're doing from yeah yeah I love

1413

01:05:02,939 --> 01:05:01,089

you I think my lady I think we're doomed

1414

01:05:08,039 --> 01:05:02,949

in the future which is why I wanna get

1415

01:05:10,620 --> 01:05:08,049

to the bath all right yeah I know I hear

1416

01:05:12,569 --> 01:05:10,630

ya man because I every day I wake up and

1417

01:05:16,259 --> 01:05:12,579

I go we are just getting ourselves

1418

01:05:18,029 --> 01:05:16,269

deeper and deeper and if we ever have

1419

01:05:20,939 --> 01:05:18,039

another world war it's gonna be on the

1420

01:05:23,939 --> 01:05:20,949

scale of just insanity and if we ever

1421

01:05:25,620 --> 01:05:23,949

have a CME oh we're all dead

1422

01:05:29,099 --> 01:05:25,630

ninety-three million people die within

1423

01:05:30,749 --> 01:05:29,109

the first 48 hours you know it's just

1424

01:05:32,969 --> 01:05:30,759

gonna be intense I mean people don't

1425

01:05:36,120 --> 01:05:32,979

understand the walls will explode from

1426

01:05:38,219 --> 01:05:36,130

the heat your house will just burn up

1427

01:05:40,079 --> 01:05:38,229

around you you will incinerate with it

1428

01:05:42,979 --> 01:05:40,089

you know I mean it just blows my mind

1429

01:05:45,479 --> 01:05:42,989

how how naive people are there was a

1430

01:05:48,599 --> 01:05:45,489

congresswoman from Alaska who stopped

1431

01:05:50,519 --> 01:05:48,609

the bill in Congress so that we can turn

1432

01:05:55,469 --> 01:05:50,529

off the all the grid system if we saw

1433

01:05:57,539 --> 01:05:55,479

seeing me coming and she stopped it and

1434

01:05:59,609 --> 01:05:57,549

you know she should be in prison for you

1435

01:06:02,639 --> 01:05:59,619

know terrorism or war crimes I in my

1436

01:06:04,649 --> 01:06:02,649

opinion but hey nobody understands the

1437

01:06:06,839 --> 01:06:04,659

dangers we live in until you actually

1438

01:06:09,689 --> 01:06:06,849

kind of live through it and and as 7th

1439

01:06:11,309 --> 01:06:09,699

most extinction would not be something I

1440

01:06:14,639 --> 01:06:11,319

want to live through to be honest with

1441

01:06:18,109 --> 01:06:14,649

you marshal why is that yeah I mean

1442

01:06:21,179 --> 01:06:18,119

really that's just you know no food and

1443

01:06:22,829 --> 01:06:21,189

disease dead everywhere I mean people

1444

01:06:24,389 --> 01:06:22,839

don't get it it's just mind-boggling

1445

01:06:26,759 --> 01:06:24,399

people who live through the wars

1446

01:06:31,379 --> 01:06:26,769

understand that they understand what how

1447

01:06:33,659 --> 01:06:31,389

horrific you can be and yeah I know

1448

01:06:36,779 --> 01:06:33,669

and so what year would you pick to go to

1449

01:06:39,439 --> 01:06:36,789

if you could well I'm working on going

1450

01:06:42,359 --> 01:06:39,449

right show me why

1451

01:06:45,030 --> 01:06:42,369

yeah I haven't thought about it encore

1452

01:06:49,010 --> 01:06:45,040

calm euro

1453

01:06:55,140 --> 01:06:49,020

or is forward to 1971

1454

01:06:58,140 --> 01:06:55,150

Quora which is qu o are a.com and I put

1455

01:07:00,660 --> 01:06:58,150

post up about different aspects of one

1456

01:07:03,990 --> 01:07:00,670

plant I'm doing and why and all that

1457

01:07:06,900 --> 01:07:04,000

kind of stuff okay I have about I've got

1458

01:07:08,970 --> 01:07:06,910

about seven or eight maybe more folks up

1459

01:07:13,920 --> 01:07:08,980

there now let me anymore and that's week

1460

01:07:15,270 --> 01:07:13,930

or so cool yeah but yeah 71 I know

1461

01:07:17,250 --> 01:07:15,280

exactly what I'm gonna do and every I'm

1462

01:07:19,470 --> 01:07:17,260

gonna see I got a girl all figured out

1463

01:07:23,040 --> 01:07:19,480

right now I'm going to call bunch of

1464

01:07:25,380 --> 01:07:23,050

money because the one thing I was

1465

01:07:27,480 --> 01:07:25,390

thinking okay go back to thank you so do

1466

01:07:29,790 --> 01:07:27,490

you want to get a job recording studio

1467

01:07:32,970 --> 01:07:29,800

and one day it struck me wait a minute I

1468

01:07:35,970 --> 01:07:32,980

know people I know people now who back

1469

01:07:39,360 --> 01:07:35,980

then would be a position of power in any

1470

01:07:42,210 --> 01:07:39,370

song and I'm going to use on this yeah

1471

01:07:45,480 --> 01:07:42,220

okay he's like in essence and so I

1472

01:07:48,750 --> 01:07:45,490

started tracking down history to people

1473

01:07:52,320 --> 01:07:48,760

like to see me what we're all gonna stop

1474

01:07:55,890 --> 01:07:52,330

so why wouldn't why he recognizes anyone

1475

01:08:01,260 --> 01:07:55,900

in March I believe it would be best on

1476

01:08:05,460 --> 01:08:01,270

the rise and I and I go to New York City

1477

01:08:09,000 --> 01:08:05,470

and I would kill I wouldn't want to do

1478

01:08:12,270 --> 01:08:09,010

it there's new the Fillmore East which

1479

01:08:15,780 --> 01:08:12,280

is a big rock and roll challenge New

1480

01:08:17,970 --> 01:08:15,790

York City back in a day the I can't

1481

01:08:23,000 --> 01:08:17,980

member when there were sex I know I find

1482

01:08:29,190 --> 01:08:23,010

me that but their last day my plan is to

1483

01:08:34,559 --> 01:08:29,200

bite on if I have to from Bill Graham he

1484

01:08:37,200 --> 01:08:34,569

ran it to show us like a three-minute 16

1485

01:08:39,750 --> 01:08:37,210

millimeter film which I will make here

1486

01:08:41,789 --> 01:08:39,760

before I leave all shooting I haven't

1487

01:08:44,340 --> 01:08:41,799

transferred the system only as well so I

1488

01:08:47,400 --> 01:08:44,350

can shoot it back then maybe a

1489

01:08:51,120 --> 01:08:47,410

promotional film about me as its new

1490

01:08:52,740 --> 01:08:51,130

media concept thing whatever and I would

1491

01:08:54,960 --> 01:08:52,750

run ads for in all the papers and

1492

01:08:57,210 --> 01:08:54,970

everything and then people rethought

1493

01:08:58,650 --> 01:08:57,220

like well because I have like this super

1494

01:09:02,430 --> 01:08:58,660

stereo sound track do

1495

01:09:04,560 --> 01:09:02,440

no one ever seen before and then having

1496

01:09:07,470 --> 01:09:04,570

caused that buzz I would then make an

1497

01:09:10,980 --> 01:09:07,480

appointment to see toys and that' who I

1498

01:09:12,690 --> 01:09:10,990

know now who work with pain Johan belly

1499

01:09:14,760 --> 01:09:12,700

back leg everybody first came over to

1500

01:09:18,000 --> 01:09:14,770

the states and he was doing Ziggy

1501  
01:09:20,040 --> 01:09:18,010  
Stardust everything and so I'm gonna

1502  
01:09:22,920 --> 01:09:20,050  
tell him he'll be the only person that

1503  
01:09:24,570 --> 01:09:22,930  
will probably know the truth because I

1504  
01:09:26,040 --> 01:09:24,580  
want to show up and you know I don't

1505  
01:09:29,010 --> 01:09:26,050  
know who I am because this thing I did

1506  
01:09:31,830 --> 01:09:29,020  
it to someone and I won't share him a

1507  
01:09:34,710 --> 01:09:31,840  
picture of you talking private I got a

1508  
01:09:36,510 --> 01:09:34,720  
proposal but what's the year and I would

1509  
01:09:40,730 --> 01:09:36,520  
show him this picture of he and I

1510  
01:09:44,520 --> 01:09:40,740  
together from 1988 and I go that's you

1511  
01:09:45,450 --> 01:09:44,530  
older and that's me younger and his mom

1512  
01:09:48,150 --> 01:09:45,460  
would be born

1513  
01:09:50,250 --> 01:09:48,160

looks nice I know how he is I met

1514

01:09:52,200 --> 01:09:50,260

wouldn't totally freak him out right and

1515

01:09:55,410 --> 01:09:52,210

then I was telling the truth

1516

01:09:57,330 --> 01:09:55,420

I was telling to I said look we need we

1517

01:10:00,270 --> 01:09:57,340

need you I need you to get me a try for

1518

01:10:03,330 --> 01:10:00,280

Tom Wilson Tom Wilson was the guy who

1519

01:10:06,630 --> 01:10:03,340

work Andy wolf or now any wall but go

1520

01:10:10,080 --> 01:10:06,640

underground any work of Simon Garfunkel

1521

01:10:14,370 --> 01:10:10,090

bug it was a record producer later their

1522

01:10:16,860 --> 01:10:14,380

visionary bee dies in 1978 I said

1523

01:10:19,110 --> 01:10:16,870

meaning I need you to get me in to meet

1524

01:10:22,710 --> 01:10:19,120

him because I'm gonna save his life and

1525

01:10:25,350 --> 01:10:22,720

then we're gonna change their reset and

1526

01:10:27,480 --> 01:10:25,360

what happens is that I wouldn't meet

1527

01:10:29,600 --> 01:10:27,490

this guy I'll just say hey look we need

1528

01:10:31,890 --> 01:10:29,610

to take her to the doctor right now and

1529

01:10:34,080 --> 01:10:31,900

just trust me on this I'll give you a

1530

01:10:36,480 --> 01:10:34,090

couple hundred bucks just just anywhere

1531

01:10:40,290 --> 01:10:36,490

me and we were taking Marion he would

1532

01:10:42,570 --> 01:10:40,300

turn out he has a heart condition and he

1533

01:10:45,620 --> 01:10:42,580

would end up dying in 78 if it didn't

1534

01:10:48,540 --> 01:10:45,630

get fixed okay we just know about it

1535

01:10:50,730 --> 01:10:48,550

exactly selfless someone save his life

1536

01:10:51,360 --> 01:10:50,740

which will make us past life forever

1537

01:10:57,570 --> 01:10:51,370

right

1538

01:11:00,090 --> 01:10:57,580

and then we might foresee his ideal of

1539

01:11:01,470 --> 01:11:00,100

how you visualize entertainment

1540

01:11:03,620 --> 01:11:01,480

retailing multimedia everything like

1541

01:11:06,600 --> 01:11:03,630

that back in the early seventies right

1542

01:11:09,750 --> 01:11:06,610

he means I'm gonna have to LA actually

1543

01:11:12,060 --> 01:11:09,760

has as hard as that so what ends up

1544

01:11:15,479 --> 01:11:12,070

happening is I know that Paul

1545

01:11:17,520 --> 01:11:15,489

answer from Jefferson Starship yeah at

1546

01:11:21,930 --> 01:11:17,530

same time - he was having like ideas

1547

01:11:25,470 --> 01:11:21,940

about you know SM essence music being on

1548

01:11:28,169 --> 01:11:25,480

TV wasn't a visual thing going on so

1549

01:11:30,000 --> 01:11:28,179

what's gonna happen is talking I end up

1550

01:11:33,149 --> 01:11:30,010

meeting in real life and of course he's

1551

01:11:36,419 --> 01:11:33,159

dead now but on the hand back in the 80s

1552

01:11:40,319 --> 01:11:36,429

and my son was in the early nineties but

1553

01:11:42,450 --> 01:11:40,329

I know Paul school so me and Tom Milton

1554

01:11:45,330 --> 01:11:42,460

okay we'll give it a top with Paul

1555

01:11:54,330 --> 01:11:45,340

Cannon and we'll start MTV before MTV

1556

01:11:55,109 --> 01:11:54,340

get started on its own TV no I think I'm

1557

01:11:59,490 --> 01:11:55,119

gonna call it

1558

01:12:02,069 --> 01:11:59,500

MV TV music video television and we're

1559

01:12:04,140 --> 01:12:02,079

gonna we're gonna completely you know

1560

01:12:07,379 --> 01:12:04,150

change how the whole thing pulling out

1561

01:12:12,660 --> 01:12:07,389

comes together it won't turn out into

1562

01:12:16,979 --> 01:12:12,670

the bastard a [h\_\_\h] is now you fix that

1563

01:12:19,080 --> 01:12:16,989

in another timeline we will because it

1564

01:12:22,319 --> 01:12:19,090

really got crappy when they started

1565

01:12:25,260 --> 01:12:22,329

doing this Big Brother you know whatever

1566

01:12:27,149 --> 01:12:25,270

I can't I want a music video station

1567

01:12:30,060 --> 01:12:27,159

that's just music videos like they

1568

01:12:32,790 --> 01:12:30,070

started and be so wonderful to have that

1569

01:12:36,510 --> 01:12:32,800

back in another time alright it's be

1570

01:12:39,359 --> 01:12:36,520

well it's gonna be like that I know

1571

01:12:42,209 --> 01:12:39,369

I even got figured out that want to

1572

01:12:44,189 --> 01:12:42,219

start out in the music business as a

1573

01:12:47,160 --> 01:12:44,199

producer and getting involved in video

1574

01:12:48,839 --> 01:12:47,170

and then I will after I get make much of

1575

01:12:51,959 --> 01:12:48,849

money that way I won't start moving in

1576

01:12:54,510 --> 01:12:51,969

the aerospace well having work drive in

1577

01:13:02,729 --> 01:12:54,520

this different timeline like you know

1578

01:13:05,760 --> 01:13:02,739

before the eighties happened a long time

1579

01:13:09,060 --> 01:13:05,770

ago this is ridiculous they've been

1580

01:13:11,700 --> 01:13:09,070

hiding all right well I'm not I'm not

1581

01:13:14,910 --> 01:13:11,710

saying that I know what we don't have it

1582

01:13:18,180 --> 01:13:14,920

because they're looking at looking at

1583

01:13:20,790 --> 01:13:18,190

the problem the wrong way Richard

1584

01:13:23,700 --> 01:13:20,800

Hamming the information science genius

1585

01:13:25,210 --> 01:13:23,710

said what this is what we use it for

1586

01:13:27,670 --> 01:13:25,220

real paraphrasing but

1587

01:13:31,180 --> 01:13:27,680

this is famously said he said you know

1588

01:13:33,550 --> 01:13:31,190

is it every scientists don't look at

1589

01:13:35,860 --> 01:13:33,560

important problems important problems or

1590

01:13:38,350 --> 01:13:35,870

things like any gravity teleportation

1591

01:13:40,270 --> 01:13:38,360

time travel you know and they're

1592

01:13:41,770 --> 01:13:40,280

important because you got to figure out

1593

01:13:43,960 --> 01:13:41,780

a way of attacking and when we don't

1594

01:13:46,780 --> 01:13:43,970

know how to attack those problems so the

1595

01:13:53,830 --> 01:13:46,790

average scientist this does unimportant

1596

01:13:56,980 --> 01:13:53,840

thing so that's a problem problem is we

1597

01:13:59,950 --> 01:13:56,990

haven't had enough you know really great

1598

01:14:01,810 --> 01:13:59,960

scientists to sit around and and and

1599

01:14:04,120 --> 01:14:01,820

concentrate on the way to attack those

1600

01:14:07,420 --> 01:14:04,130

problems now I've been doing it

1601

01:14:08,950 --> 01:14:07,430

I mean it's I'm not average okay but

1602

01:14:11,380 --> 01:14:08,960

these average guys all working on

1603

01:14:17,490 --> 01:14:11,390

unimportant things according to hammy is

1604

01:14:21,250 --> 01:14:17,500

true he's a perfect man

1605

01:14:26,920 --> 01:14:21,260

it's a Sherpa bell lab you can work her

1606

01:14:29,530 --> 01:14:26,930

Bell lab and yeah there's so many really

1607

01:14:31,420 --> 01:14:29,540

smart guys that were around back in the

1608

01:14:32,080 --> 01:14:31,430

day that known even knows about it I'd

1609

01:14:35,290 --> 01:14:32,090

be funny

1610

01:14:38,590 --> 01:14:35,300

well I hear ya and you know what cracked

1611

01:14:41,110 --> 01:14:38,600

me up was the fact that nobody seems to

1612

01:14:44,110 --> 01:14:41,120

want to deal with time travel except for

1613

01:14:45,610 --> 01:14:44,120

a few people out there and I know if you

1614

01:14:48,670 --> 01:14:45,620

want to go into that whole story

1615

01:14:50,710 --> 01:14:48,680

tonight but there's a guy out there

1616

01:15:02,070 --> 01:14:50,720

that's making a lot of claims and he

1617

01:15:08,200 --> 01:15:05,020

everybody that you've been kind of at

1618

01:15:19,600 --> 01:15:08,210

odds with mallet for a while now I've

1619

01:15:24,760 --> 01:15:19,610

not been a now I've been at war this is

1620

01:15:27,160 --> 01:15:24,770

a few this isn't like you know I for

1621

01:15:29,770 --> 01:15:27,170

somebody I'm at war with well now it

1622

01:15:32,560 --> 01:15:29,780

well now it I'm a hopefully with a wire

1623

01:15:35,710 --> 01:15:32,570

a con artist and a fraud and what

1624

01:15:39,100 --> 01:15:35,720

happens is we talked last is that people

1625

01:15:43,210 --> 01:15:39,110

more people are taking this stuff down

1626

01:15:45,220 --> 01:15:43,220

in fact oh good I know one teacher I got

1627

01:15:48,280 --> 01:15:45,230

a teacher who made some lessons based on

1628

01:15:50,950 --> 01:15:48,290

him now give me an idea what is what

1629

01:15:53,800 --> 01:15:50,960

happened the teacher had in these

1630

01:15:57,130 --> 01:15:53,810

lessons that Mauro Mallet and a patent

1631

01:15:59,680 --> 01:15:57,140

on time machine now I know why that she

1632

01:16:02,710 --> 01:15:59,690

forgot that because well Mallet put out

1633

01:16:06,100 --> 01:16:02,720

that he had achieved a provisional

1634

01:16:07,870 --> 01:16:06,110

patent on an astonishing idea it wasn't

1635

01:16:12,430 --> 01:16:07,880

even a real machine it was just an idea

1636

01:16:15,640 --> 01:16:12,440

okay okay what happens is is that he

1637

01:16:18,370 --> 01:16:15,650

never got the full patent he'll out its

1638

01:16:22,240 --> 01:16:18,380

expire I know this because he told me so

1639

01:16:25,240 --> 01:16:22,250

but I know something because I wrote a

1640

01:16:28,780 --> 01:16:25,250

paper that was an analysis of his patent

1641

01:16:30,610 --> 01:16:28,790

design and I call it the patent office

1642

01:16:33,550 --> 01:16:30,620

because I wanted really like you know

1643

01:16:36,730 --> 01:16:33,560

thorough and they even gave me a query

1644

01:16:38,320 --> 01:16:36,740

number but they said yeah they gave me

1645

01:16:40,780 --> 01:16:38,330

the data when he applied for this

1646

01:16:43,540 --> 01:16:40,790

position patent and he got it but a year

1647

01:16:46,900 --> 01:16:43,550

later it expired he never applied for

1648

01:16:49,840 --> 01:16:46,910

the full patty and if you look for him

1649

01:16:52,210 --> 01:16:49,850

up in the Patent Office you won't find

1650

01:16:54,760 --> 01:16:52,220

him online because unless she gave her

1651

01:16:56,530 --> 01:16:54,770

full patent they don't keep and clear on

1652

01:17:00,100 --> 01:16:56,540

lying the provisional application he

1653

01:17:04,420 --> 01:17:00,110

planned but what it did this is

1654

01:17:06,700 --> 01:17:04,430

important what it did was he went around

1655

01:17:09,400 --> 01:17:06,710

saying oh I got this provisional party

1656

01:17:13,540 --> 01:17:09,410

and he was assumed that he got the full

1657

01:17:16,960 --> 01:17:13,550

one right right is he's getting it right

1658

01:17:20,170 --> 01:17:16,970

and he didn't he didn't even though the

1659

01:17:22,270 --> 01:17:20,180

provisional patent had expired prior to

1660

01:17:26,020 --> 01:17:22,280

the time a good book about him

1661

01:17:28,690 --> 01:17:26,030

it was written by him came out it's not

1662

01:17:29,950 --> 01:17:28,700

in a book that he let it expire it's a

1663

01:17:32,680 --> 01:17:29,960

book that he apply for the provisional

1664

01:17:35,590 --> 01:17:32,690

patent and he tell us about that in

1665

01:17:37,960 --> 01:17:35,600

there but there's nothing about what

1666

01:17:41,170 --> 01:17:37,970

that chelated expired so people just

1667

01:17:43,270 --> 01:17:41,180

assume that he went ahead and we have

1668

01:17:45,040 --> 01:17:43,280

finished it out but he didn't write and

1669

01:17:47,170 --> 01:17:45,050

you were and he did it that way

1670

01:17:49,750 --> 01:17:47,180

deliberately so people were seeing

1671

01:17:52,960 --> 01:17:49,760

something that wasn't true and actually

1672

01:17:56,770 --> 01:17:52,970

this side does now here's the deal

1673

01:17:59,980 --> 01:17:56,780

I just said while el mal is a wire fraud

1674

01:18:02,470 --> 01:17:59,990

a con artist if that wasn't true he

1675

01:18:04,600 --> 01:18:02,480

could sue me for defamation but he was

1676

01:18:06,040 --> 01:18:04,610

not see me for defamation even though

1677

01:18:08,680 --> 01:18:06,050

I've been seeing that about him for over

1678

01:18:11,800 --> 01:18:08,690

a year and he knows it the reason he

1679

01:18:14,290 --> 01:18:11,810

doesn't see me if he knows being well if

1680

01:18:16,360 --> 01:18:14,300

we go to court me and my attorneys will

1681

01:18:19,990 --> 01:18:16,370

get he'll understand and he won't die

1682

01:18:25,240 --> 01:18:20,000

death of a thousand cuts because we

1683

01:18:27,580 --> 01:18:25,250

completely destroyed a thousand dollar

1684

01:18:28,420 --> 01:18:27,590

bill cuts with the lawyers fee is what

1685

01:18:31,540 --> 01:18:28,430

he'll be dying

1686

01:18:32,710 --> 01:18:31,550

well no it's worse than that because we

1687

01:18:35,770 --> 01:18:32,720

were getting on the stand

1688

01:18:38,040 --> 01:18:35,780

we know everything about this guy I know

1689

01:18:40,570 --> 01:18:38,050

how he responds the questions was done

1690

01:18:42,820 --> 01:18:40,580

we did him up there and we would have

1691

01:18:44,230 --> 01:18:42,830

him basically say the kind of stuff that

1692

01:18:47,170 --> 01:18:44,240

he would want to say to make himself

1693

01:18:48,820 --> 01:18:47,180

look good and then we would deconstruct

1694

01:18:52,450 --> 01:18:48,830

every single thing and he would have to

1695

01:18:54,310 --> 01:18:52,460

admit time after time after time well no

1696

01:18:56,680 --> 01:18:54,320

that isn't really true this isn't really

1697

01:19:00,580 --> 01:18:56,690

true you know I don't know that Bam Bam

1698

01:19:03,130 --> 01:19:00,590

it would be it'd be horrible and then

1699

01:19:05,140 --> 01:19:03,140

and then it because he would have put me

1700

01:19:07,150 --> 01:19:05,150

through that and I mean this is why he

1701

01:19:09,360 --> 01:19:07,160

doesn't see me if he did see me

1702

01:19:12,850 --> 01:19:09,370

absolutely destroy him in court on why

1703

01:19:15,250 --> 01:19:12,860

okay because especially as defamation is

1704

01:19:19,350 --> 01:19:15,260

true I have everything fully documented

1705

01:19:22,810 --> 01:19:19,360

you know all kinds of business documents

1706

01:19:25,420 --> 01:19:22,820

interviews to him stuff in his book so

1707

01:19:26,950 --> 01:19:25,430

there's all kinds of stuff it would get

1708

01:19:29,740 --> 01:19:26,960

selling out and you know it's an item

1709

01:19:32,380 --> 01:19:29,750

sue him that his style age all right and

1710

01:19:35,410 --> 01:19:32,390

the reason why I have all this animosity

1711

01:19:36,370 --> 01:19:35,420

towards so if he screwed me over in more

1712

01:19:40,540 --> 01:19:36,380

ways than one

1713

01:19:44,650 --> 01:19:40,550

and so that's why this is a war he will

1714

01:19:47,200 --> 01:19:44,660

not quit unless he is historic I mean

1715

01:19:49,870 --> 01:19:47,210

you know I'm not able to do someone that

1716

01:19:51,790 --> 01:19:49,880

no one will listen time well you know

1717

01:19:53,800 --> 01:19:51,800

what you just you really I've got to

1718

01:19:55,660 --> 01:19:53,810

give you credit for being tenacious and

1719

01:19:57,850 --> 01:19:55,670

going after him it's really important

1720

01:20:00,340 --> 01:19:57,860

that people don't get away with this

1721

01:20:02,500 --> 01:20:00,350

kind of stuff anymore because we can't

1722

01:20:04,980 --> 01:20:02,510

you know we can't be led by fools and

1723

01:20:06,850 --> 01:20:04,990

thieves anymore it's that simple

1724

01:20:08,770 --> 01:20:06,860

well yeah

1725

01:20:14,340 --> 01:20:08,780

even worse that he was calling for

1726

01:20:17,740 --> 01:20:14,350

government regulation a time travel yeah

1727

01:20:20,650 --> 01:20:17,750

are you serious you were easy for him

1728

01:20:22,630 --> 01:20:20,660

decides if he's not really doing it no

1729

01:20:25,750 --> 01:20:22,640

intention isn't attention about your

1730

01:20:30,550 --> 01:20:25,760

time do it at all so you know he was

1731

01:20:32,410 --> 01:20:30,560

saying stuff like that and he he says

1732

01:20:34,960 --> 01:20:32,420

he's you know gives researchers on a

1733

01:20:37,000 --> 01:20:34,970

real science with time travel but all of

1734

01:20:39,280 --> 01:20:37,010

this is relativity theory and there are

1735

01:20:41,740 --> 01:20:39,290

no practical applications or tackle

1736

01:20:43,870 --> 01:20:41,750

solutions from either theory of

1737

01:20:46,210 --> 01:20:43,880

relativity for time travel we just not

1738

01:20:47,980 --> 01:20:46,220

there because you need to go to the

1739

01:20:50,500 --> 01:20:47,990

speed of life or a faster speed rider

1740

01:20:53,350 --> 01:20:50,510

use a black hole or whatever we can't do

1741

01:20:58,620 --> 01:20:53,360

any access it doesn't matter as I Paul

1742

01:21:01,060 --> 01:20:58,630

Sutter did this video clip and uh any

1743

01:21:03,490 --> 01:21:01,070

article of space.com which I wrote a

1744

01:21:05,740 --> 01:21:03,500

paper on and I just obstructed

1745

01:21:08,080 --> 01:21:05,750

everything he said I said it's not using

1746

01:21:09,940 --> 01:21:08,090

black holes oh great nearest black hole

1747

01:21:17,830 --> 01:21:09,950

sixteen hundred light years away

1748

01:21:20,080 --> 01:21:17,840

how you going to get there I tell ya I

1749

01:21:21,730 --> 01:21:20,090

wake up some days and I wonder how

1750

01:21:24,460 --> 01:21:21,740

people think out you know how to get out

1751

01:21:33,700 --> 01:21:24,470

of a paper bag literally I just I really

1752

01:21:36,160 --> 01:21:33,710

can't get it you know but what bothers

1753

01:21:38,440 --> 01:21:36,170

me the most is he's you know and God

1754

01:21:40,600 --> 01:21:38,450

bless them you know I I hate thinking it

1755

01:21:42,760 --> 01:21:40,610

will of people but how does he get all

1756

01:21:49,930 --> 01:21:42,770

this publicity it just blows my mind

1757

01:21:52,840 --> 01:21:49,940

it's like you know yeah he has this

1758

01:21:54,910 --> 01:21:52,850

interesting story this personal story oh

1759

01:21:58,360 --> 01:21:54,920

when I was 10 years old my dad died I

1760

01:22:00,700 --> 01:21:58,370

was so upset and then I saw this column

1761

01:22:03,160 --> 01:22:00,710

book well AC Welles's looked at on

1762

01:22:05,440 --> 01:22:03,170

machine and I thought I maybe I could go

1763

01:22:06,940 --> 01:22:05,450

inside a scene and see my dad and I

1764

01:22:08,980 --> 01:22:06,950

started building on machine buddy I was

1765

01:22:11,710 --> 01:22:08,990

doing so what didn't work and then I'll

1766

01:22:14,920 --> 01:22:11,720

find about Einstein yeah I'm sorry I

1767

01:22:17,110 --> 01:22:14,930

just do relativity and so I thought well

1768

01:22:19,560 --> 01:22:17,120

why need to do is I need to tell us

1769

01:22:20,690 --> 01:22:19,570

scientist so I can do physics and

1770

01:22:22,700 --> 01:22:20,700

negative

1771

01:22:25,850 --> 01:22:22,710

my machine and then he goes on and talks

1772

01:22:28,970 --> 01:22:25,860

about how he didn't afford college and

1773

01:22:31,580 --> 01:22:28,980

he went to military so you could get in

1774

01:22:34,100 --> 01:22:31,590

CI bill and a lot kind of stuff and then

1775

01:22:36,980 --> 01:22:34,110

he spent time doing research on black

1776

01:22:39,800 --> 01:22:36,990

holes in keeping his interests sometimes

1777

01:22:43,640 --> 01:22:39,810

that was secret and then he claimed he

1778

01:22:45,010 --> 01:22:43,650

claims he has found a solution inside on

1779

01:22:48,950 --> 01:22:45,020

science general theory of relativity

1780

01:22:50,960 --> 01:22:48,960

based on the gravitational effects of

1781

01:22:53,930 --> 01:22:50,970

light and he doesn't make a time machine

1782

01:22:57,200 --> 01:22:53,940

a life here's a theist filled out

1783

01:22:59,180 --> 01:22:57,210

turns out number one that his

1784

01:23:02,560 --> 01:22:59,190

calculations were wrong he is

1785

01:23:06,350 --> 01:23:02,570

since admitted that it will take energy

1786

01:23:08,060 --> 01:23:06,360

filler quantities in order for him to be

1787

01:23:11,990 --> 01:23:08,070

will affect time the way he wants to try

1788

01:23:15,890 --> 01:23:12,000

to do it and number two there are all

1789

01:23:17,930 --> 01:23:15,900

kinds of engineering problems based on

1790

01:23:20,690 --> 01:23:17,940

temporal mechanics or connected to the

1791

01:23:23,510 --> 01:23:20,700

nature of town itself in his design

1792

01:23:25,970 --> 01:23:23,520

which I've I've written about

1793

01:23:28,070 --> 01:23:25,980

and part of those problems have to do

1794

01:23:28,730 --> 01:23:28,080

with the idea he what is he creating

1795

01:23:33,460 --> 01:23:28,740

closed

1796

01:23:37,400 --> 01:23:33,470

unlike curves and long story short he

1797

01:23:40,340 --> 01:23:37,410

wants to create a closed timelike curves

1798

01:23:42,680 --> 01:23:40,350

and then he thinks that will then send a

1799

01:23:45,790 --> 01:23:42,690

particle that you send down in the

1800

01:23:49,190 --> 01:23:45,800

movies back in time he's for the game

1801

01:23:50,570 --> 01:23:49,200

were describing yeah yeah yeah we're you

1802

01:23:54,860 --> 01:23:50,580

forgetting is this because it was going

1803

01:23:57,200 --> 01:23:54,870

to slinky always forgetting is this the

1804

01:23:58,910 --> 01:23:57,210

cosine that curled it works it goes back

1805

01:24:01,760 --> 01:23:58,920

inside I mean is only part of it is in

1806

01:24:05,240 --> 01:24:01,770

our up time zone or our time-space later

1807

01:24:06,440 --> 01:24:05,250

right right yeah and and if you have a

1808

01:24:09,010 --> 01:24:06,450

stack of them

1809

01:24:13,460 --> 01:24:09,020

what's your ROI looking at is a solution

1810

01:24:16,730 --> 01:24:13,470

from thermodynamics a solution some

1811

01:24:18,890 --> 01:24:16,740

fluid dynamics okay where's that is

1812

01:24:22,460 --> 01:24:18,900

curves and they're gonna be you're gonna

1813

01:24:24,260 --> 01:24:22,470

be affecting the space at their ad but

1814

01:24:26,620 --> 01:24:24,270

they're not gonna be affecting time and

1815

01:24:28,940 --> 01:24:26,630

that's what he's talking about because

1816

01:24:31,220 --> 01:24:28,950

you know they saw it's almost like he's

1817

01:24:32,540 --> 01:24:31,230

saying they're like the powers or

1818

01:24:34,580 --> 01:24:32,550

something but they're not well if the

1819

01:24:37,550 --> 01:24:34,590

tellers I'm pardon there is even

1820

01:24:40,220 --> 01:24:37,560

be here and now and the rest goes bad

1821

01:24:42,860 --> 01:24:40,230

because they sound everything right into

1822

01:24:44,210 --> 01:24:42,870

the loop and when he describes it he

1823

01:24:46,490 --> 01:24:44,220

doesn't complete the description

1824

01:24:48,050 --> 01:24:46,500

properly and see and it was something

1825

01:24:50,450 --> 01:24:48,060

that isn't what he thinks it's going to

1826

01:24:53,390 --> 01:24:50,460

be and you're finding by this in his

1827

01:24:57,050 --> 01:24:53,400

book he says that he learned early on

1828

01:24:59,990 --> 01:24:57,060

that he didn't have the aptitude just to

1829

01:25:02,960 --> 01:25:00,000

be instrumentalist okay to be fair

1830

01:25:04,730 --> 01:25:02,970

Mallett how thinking hey dude if you

1831

01:25:06,680 --> 01:25:04,740

don't have that then you're not gonna be

1832

01:25:09,770 --> 01:25:06,690

able to you know you don't understand

1833

01:25:13,100 --> 01:25:09,780

what you're doing theoretically it

1834

01:25:16,400 --> 01:25:13,110

sounds to me like his theory of the way

1835

01:25:19,130 --> 01:25:16,410

he's working might just create a loop

1836

01:25:21,260 --> 01:25:19,140

but it would come back into some other

1837

01:25:22,160 --> 01:25:21,270

time and you wouldn't know where you'd

1838

01:25:24,080 --> 01:25:22,170

end up

1839

01:25:28,490 --> 01:25:24,090

I think this would it wouldn't that be

1840

01:25:30,560 --> 01:25:28,500

the case for what now Matt well it's

1841

01:25:33,230 --> 01:25:30,570

more problematic than that number one

1842

01:25:35,120 --> 01:25:33,240

it's probably not gonna work because he

1843

01:25:37,550 --> 01:25:35,130

says that the loops are close to my

1844

01:25:41,960 --> 01:25:37,560

curves so how you doing anything in them

1845

01:25:43,820 --> 01:25:41,970

and he doesn't say he's going to get

1846

01:25:46,160 --> 01:25:43,830

anything in it he says he wants a stat

1847

01:25:49,040 --> 01:25:46,170

B's and then they're gonna set the space

1848

01:25:50,870 --> 01:25:49,050

and time that they're working yet a full

1849

01:25:53,630 --> 01:25:50,880

rotation because part of them is gonna

1850

01:25:56,090 --> 01:25:53,640

be in back any time I don't I don't

1851  
01:26:00,320 --> 01:25:56,100  
believe close to my curves even really

1852  
01:26:01,910 --> 01:26:00,330  
work okay here's why we know now if you

1853  
01:26:04,910 --> 01:26:01,920  
do anything that's going to affect the

1854  
01:26:06,770 --> 01:26:04,920  
time then you have because the

1855  
01:26:09,620 --> 01:26:06,780  
participatory universe can produce a

1856  
01:26:11,810 --> 01:26:09,630  
parallel universe so the minute that

1857  
01:26:14,690 --> 01:26:11,820  
close on the curve would start to turn

1858  
01:26:20,570 --> 01:26:14,700  
back towards the pass they are right you

1859  
01:26:22,130 --> 01:26:20,580  
know it's creating another past you got

1860  
01:26:25,880 --> 01:26:22,140  
a whole bunch of them and then that

1861  
01:26:28,190 --> 01:26:25,890  
where do you end up that's a problem

1862  
01:26:29,810 --> 01:26:28,200  
it's just it was creating at a pass and

1863  
01:26:31,520 --> 01:26:29,820

if you were on that one you would end up

1864

01:26:32,090 --> 01:26:31,530

there but that's about as far as there

1865

01:26:35,720 --> 01:26:32,100

we go

1866

01:26:38,210 --> 01:26:35,730

you know the excellent sake Lucinda

1867

01:26:40,280 --> 01:26:38,220

curves are problematic because people

1868

01:26:44,330 --> 01:26:40,290

just made assumptions about them I mean

1869

01:26:46,940 --> 01:26:44,340

my people mean this is even know and and

1870

01:26:48,970 --> 01:26:46,950

it's like you seeing oh it's gonna be

1871

01:26:51,560 --> 01:26:48,980

like this readings I'm you like

1872

01:26:53,510 --> 01:26:51,570

you go back to the past and you come

1873

01:26:56,390 --> 01:26:53,520

back for the future yeah you like sorry

1874

01:26:58,880 --> 01:26:56,400

wait a minute now and then they have a

1875

01:27:01,070 --> 01:26:58,890

problem coaching horizons which can

1876

01:27:02,540 --> 01:27:01,080

amplify energy that we do through that

1877

01:27:04,850 --> 01:27:02,550

geometry and that's what Stephen

1878

01:27:08,450 --> 01:27:04,860

Hawking's quality protection conjecture

1879

01:27:11,030 --> 01:27:08,460

comes in it's it's very column attic

1880

01:27:14,780 --> 01:27:11,040

because their arguments against

1881

01:27:17,150 --> 01:27:14,790

happening and on top of it all annulment

1882

01:27:20,860 --> 01:27:17,160

scene one there are no closed timelike

1883

01:27:24,680 --> 01:27:20,870

curves that we can look at you're all

1884

01:27:27,620 --> 01:27:24,690

okay they have insinuations but those

1885

01:27:30,350 --> 01:27:27,630

aren't real so it's like why even bother

1886

01:27:33,320 --> 01:27:30,360

on this with this Scott right right

1887

01:27:35,990 --> 01:27:33,330

because it's gonna take a lot more to

1888

01:27:36,620 --> 01:27:36,000

make it work than your concept that's

1889

01:27:40,070 --> 01:27:36,630

for sure

1890

01:27:41,810 --> 01:27:40,080

and seconds to be like it would just

1891

01:27:46,490 --> 01:27:41,820

blow me up into a million little

1892

01:27:48,320 --> 01:27:46,500

molecules what yeah I mean that's

1893

01:27:50,030 --> 01:27:48,330

basically because you're not going

1894

01:27:52,070 --> 01:27:50,040

anywhere you're just disintegrating

1895

01:28:04,040 --> 01:27:52,080

basically I mean that's what I'm picking

1896

01:28:06,830 --> 01:28:04,050

up out of this great I see his point

1897

01:28:08,930 --> 01:28:06,840

absolutely I think I don't think I

1898

01:28:12,100 --> 01:28:08,940

wanted to explode today so I think I'm

1899

01:28:15,890 --> 01:28:12,110

just gonna go with your theory okay I

1900

01:28:17,720 --> 01:28:15,900

think yours will work so you know well

1901

01:28:19,550 --> 01:28:17,730

you know what we got the exciting thing

1902

01:28:21,200 --> 01:28:19,560

we're gonna talk about in the last 27

1903

01:28:22,970 --> 01:28:21,210

minutes of the show I've been waiting

1904

01:28:24,590 --> 01:28:22,980

Italy you know like like a kid in a

1905

01:28:28,400 --> 01:28:24,600

candy store because I've got the website

1906

01:28:30,020 --> 01:28:28,410

up here Marshall is starting a new

1907

01:28:31,850 --> 01:28:30,030

company do you want to tell them how

1908

01:28:34,270 --> 01:28:31,860

this started for you I think it was

1909

01:28:37,820 --> 01:28:34,280

because I called you and told you about

1910

01:28:40,730 --> 01:28:37,830

Tom DeLonge and to the stars Academy and

1911

01:28:43,760 --> 01:28:40,740

then right yeah so tell everybody how

1912

01:28:46,970 --> 01:28:43,770

this kind of happened for you what

1913

01:28:51,700 --> 01:28:46,980

happened was that I was on another one I

1914

01:28:59,960 --> 01:28:51,710

was another serve you earth and you were

1915

01:29:01,640 --> 01:28:59,970

over yeah too long and and this sounds

1916

01:29:06,140 --> 01:29:01,650

like the porn stars name

1917

01:29:08,480 --> 01:29:06,150

I hid in this thing called to the stars

1918

01:29:09,620 --> 01:29:08,490

Academy I'm like I didn't know what

1919

01:29:11,300 --> 01:29:09,630

you're talking about but any sort of

1920

01:29:14,120 --> 01:29:11,310

slimy to me would get us and whatever

1921

01:29:16,100 --> 01:29:14,130

you doing I'm like okay why not' that is

1922

01:29:19,280 --> 01:29:16,110

you know what engineering is space

1923

01:29:21,530 --> 01:29:19,290

hunting that does not and I did and I'm

1924

01:29:24,050 --> 01:29:21,540

like well what are you doing that yeah

1925

01:29:26,060 --> 01:29:24,060

and so the bottom line was after I got

1926

01:29:27,940 --> 01:29:26,070

done to share that night that your next

1927

01:29:30,590 --> 01:29:27,950

day I looked them up on the internet and

1928

01:29:33,350 --> 01:29:30,600

I got the lowdown on the whole thing

1929

01:29:34,670 --> 01:29:33,360

well the funny thing about it is the way

1930

01:29:37,400 --> 01:29:34,680

to describe it company it's like

1931

01:29:38,990 --> 01:29:37,410

somebody looked at my resume and said

1932

01:29:40,880 --> 01:29:39,000

let's make a company based on marker

1933

01:29:43,670 --> 01:29:40,890

barn because everything is in there

1934

01:29:46,790 --> 01:29:43,680

except I already had plans for before

1935

01:29:49,430 --> 01:29:46,800

anyway including the sound stuff I mean

1936

01:29:51,770 --> 01:29:49,440

I'm gonna I want a ward for my work in

1937

01:29:53,960 --> 01:29:51,780

STEM education that's themselves with

1938

01:29:59,050 --> 01:29:53,970

science technology engineering and math

1939

01:30:02,810 --> 01:29:59,060

I was number one on the top like a stem

1940

01:30:07,370 --> 01:30:02,820

scientist for National Lab day four in

1941

01:30:08,750 --> 01:30:07,380

2009 and 2010 and I've got all kinds of

1942

01:30:10,580 --> 01:30:08,760

other recognitions as well

1943

01:30:14,000 --> 01:30:10,590

are you going to do that but you've got

1944

01:30:15,970 --> 01:30:14,010

that in there they've got their advanced

1945

01:30:18,950 --> 01:30:15,980

propulsion thing and they're you've got

1946

01:30:22,340 --> 01:30:18,960

all this other stuff consciousness is in

1947

01:30:24,080 --> 01:30:22,350

there the funny thing about it is they

1948

01:30:26,570 --> 01:30:24,090

don't really have anything for any of us

1949

01:30:29,120 --> 01:30:26,580

you know I mean they don't have but they

1950

01:30:30,650 --> 01:30:29,130

don't have any technology the time

1951

01:30:32,360 --> 01:30:30,660

building that plane that plane for the

1952

01:30:35,600 --> 01:30:32,370

cost millions and millions of dollars to

1953

01:30:38,630 --> 01:30:35,610

build they don't have a starts on their

1954

01:30:42,020 --> 01:30:38,640

entertainment division they don't have a

1955

01:30:44,390 --> 01:30:42,030

business model to make money all right

1956

01:30:48,950 --> 01:30:44,400

and they've raised about two and a half

1957

01:30:51,050 --> 01:30:48,960

million so far it's gotten to be more

1958

01:30:55,420 --> 01:30:51,060

but go ahead yeah it's up around 3

1959

01:31:00,140 --> 01:30:55,430

billions up you know Oh Roy yeah well

1960

01:31:02,990 --> 01:31:00,150

here's a deal know if I'm going way back

1961

01:31:06,320 --> 01:31:03,000

I look for years aside you have some

1962

01:31:08,240 --> 01:31:06,330

kind of uh super company so to speak I

1963

01:31:11,570 --> 01:31:08,250

mean it was influenced in a way by

1964

01:31:14,659 --> 01:31:11,580

ceasing Sputnik and their idea this by

1965

01:31:18,830 --> 01:31:14,669

that corporation they're just rock band

1966

01:31:21,250 --> 01:31:18,840

he's been any rate and then newer

1967

01:31:24,319 --> 01:31:21,260

Heights infringe this except the

1968

01:31:35,419 --> 01:31:24,329

eucalyptus story French I just got me a

1969

01:31:36,589 --> 01:31:35,429

massive dynamic so I hit I get ideas for

1970

01:31:40,339 --> 01:31:36,599

doing something like that for a long

1971

01:31:44,029 --> 01:31:40,349

time so when I saw what they were doing

1972

01:31:45,770 --> 01:31:44,039

what to serve the Caddy was doing and I

1973

01:31:49,009 --> 01:31:45,780

was also interested as we've been

1974

01:31:49,969 --> 01:31:49,019

talking about doing time travel I was

1975

01:31:53,359 --> 01:31:49,979

thinking in a lot

1976

01:31:54,889 --> 01:31:53,369

I should just because my problem is us I

1977

01:31:56,629 --> 01:31:54,899

want to make a bunch of money because

1978

01:31:58,250 --> 01:31:56,639

I'm going to need it back in time so I'm

1979

01:32:00,709 --> 01:31:58,260

not to start over yet

1980

01:32:02,120 --> 01:32:00,719

another one store off whereas working as

1981

01:32:05,479 --> 01:32:02,130

a cashier as I've already said right

1982

01:32:08,959 --> 01:32:05,489

alright so we need money and I also want

1983

01:32:10,489 --> 01:32:08,969

to pay off my investors I've got so why

1984

01:32:12,279 --> 01:32:10,499

decide to do was like okay I'm just

1985

01:32:14,830 --> 01:32:12,289

going to take everything that I've got

1986

01:32:17,509 --> 01:32:14,840

everything I do and everything that we

1987

01:32:20,350 --> 01:32:17,519

know that we can they can be developed

1988

01:32:23,569 --> 01:32:20,360

and it's turned it into this company and

1989

01:32:26,209 --> 01:32:23,579

this everything's for sale and I like

1990

01:32:29,929 --> 01:32:26,219

will do well we use the ONS company and

1991

01:32:32,359 --> 01:32:29,939

then we can sell the company and you

1992

01:32:34,040 --> 01:32:32,369

know I don't walk away and what

1993

01:32:35,000 --> 01:32:34,050

investors can stay with it they want to

1994

01:32:38,750 --> 01:32:35,010

you or whatever

1995

01:32:40,429 --> 01:32:38,760

have you figured out the perfect buyers

1996

01:32:43,850 --> 01:32:40,439

for this company up we've got an

1997

01:32:45,409 --> 01:32:43,860

established would be probably several

1998

01:32:49,669 --> 01:32:45,419

different entities when it was to be a

1999

01:32:53,120 --> 01:32:49,679

TV network but anyway what we've got is

2000

01:32:56,810 --> 01:32:53,130

a company that has 15 different

2001  
01:32:58,909 --> 01:32:56,820  
divisions all right and the the websites

2002  
01:33:02,689 --> 01:32:58,919  
up it's not the size finish which is

2003  
01:33:08,439 --> 01:33:02,699  
like a stirring page but those

2004  
01:33:11,000 --> 01:33:08,449  
provisions include aerospace science Oh

2005  
01:33:13,459 --> 01:33:11,010  
tell everybody where to go so they can

2006  
01:33:15,500 --> 01:33:13,469  
look at this as well they can see what

2007  
01:33:18,169 --> 01:33:15,510  
we're talking about so why don't you

2008  
01:33:23,109 --> 01:33:18,179  
tell them how to get there Marshall this

2009  
01:33:25,569 --> 01:33:23,119  
gave you a pack of infinity dot

2010  
01:33:27,899 --> 01:33:25,579  
wordpress.com

2011  
01:33:31,540 --> 01:33:27,909  
okay that's text

2012  
01:33:36,310 --> 01:33:31,550  
geh yeah go ahead you finished

2013  
01:33:38,260 --> 01:33:36,320

humming of insanity wordpress.com techno

2014

01:33:40,300 --> 01:33:38,270

things one whole thing

2015

01:33:43,510 --> 01:33:40,310

it's short for technologies or hey

2016

01:33:45,370 --> 01:33:43,520

what's the name of something great okay

2017

01:33:47,260 --> 01:33:45,380

and I'm on it right now and it says a

2018

01:33:49,810 --> 01:33:47,270

company from beyond the future if you

2019

01:33:53,770 --> 01:33:49,820

scroll on down and they just put this up

2020

01:33:56,040 --> 01:33:53,780

on February 22nd and there we go so what

2021

01:33:59,439 --> 01:33:56,050

we start with the first one at the top

2022

01:34:02,830 --> 01:33:59,449

all right air space especially the air

2023

01:34:04,660 --> 01:34:02,840

position is going to be developing like

2024

01:34:06,970 --> 01:34:04,670

while we have worked our technology

2025

01:34:09,850 --> 01:34:06,980

doesn't work the way the Alcubierre

2026

01:34:12,010 --> 01:34:09,860

drive works but it is war because it's

2027

01:34:15,130 --> 01:34:12,020

in fact it's a special kind of feel that

2028

01:34:19,870 --> 01:34:15,140

contract space as it moves through space

2029

01:34:22,419 --> 01:34:19,880

and so we've got you know areas of work

2030

01:34:25,450 --> 01:34:22,429

and since using that and also there's a

2031

01:34:28,209 --> 01:34:25,460

new alternative yeah I'm thinking spirit

2032

01:34:32,100 --> 01:34:28,219

of it possible that would actually get

2033

01:34:35,830 --> 01:34:32,110

you to like you know other galaxies um

2034

01:34:38,229 --> 01:34:35,840

you know fashion work work drivers I

2035

01:34:38,560 --> 01:34:38,239

believe is going to have limitations to

2036

01:34:40,630 --> 01:34:38,570

it

2037

01:34:43,959 --> 01:34:40,640

can we get you you're fast so what we

2038

01:34:48,340 --> 01:34:43,969

can do now but it's not space is huge

2039

01:34:53,860 --> 01:34:48,350

it's it's so big you span unless you

2040

01:34:57,070 --> 01:34:53,870

really sat down and look at what yeah is

2041

01:34:58,479 --> 01:34:57,080

a it's a killer of humans basically

2042

01:35:00,550 --> 01:34:58,489

you've got to figure out a way to go

2043

01:35:03,040 --> 01:35:00,560

into stasis for many thousands of years

2044

01:35:08,200 --> 01:35:03,050

to get around if you're really going

2045

01:35:10,149 --> 01:35:08,210

anywhere you know well we came up we

2046

01:35:12,729 --> 01:35:10,159

really see her I could come up with is

2047

01:35:16,419 --> 01:35:12,739

it's based on that time travel

2048

01:35:19,090 --> 01:35:16,429

technology I was talking about but what

2049

01:35:21,939 --> 01:35:19,100

you do is okay you're you're in your

2050

01:35:24,130 --> 01:35:21,949

spaceship and you have similar

2051  
01:35:26,770 --> 01:35:24,140  
technologies I was described before

2052  
01:35:30,490 --> 01:35:26,780  
but what you do is you translate

2053  
01:35:34,959 --> 01:35:30,500  
yourself to another the spot out there

2054  
01:35:39,040 --> 01:35:34,969  
in space you just you just jump yeah and

2055  
01:35:41,560 --> 01:35:39,050  
it's like you do that and Wow yeah I

2056  
01:35:48,780 --> 01:35:41,570  
mean there is no travel in between your

2057  
01:35:53,819 --> 01:35:52,030  
yeah I mean so you're an alien amongst

2058  
01:35:59,979 --> 01:35:53,829  
us

2059  
01:36:01,959 --> 01:35:59,989  
the ships the two I have seen they are

2060  
01:36:06,339 --> 01:36:01,969  
they're just not there anymore they're

2061  
01:36:08,740 --> 01:36:06,349  
in another I mean they're gone they're

2062  
01:36:12,569 --> 01:36:08,750  
folding time to get to where they're

2063  
01:36:15,700 --> 01:36:12,579

going this is how I've always put it

2064

01:36:16,149 --> 01:36:15,710

what you're doing you know what I'm

2065

01:36:20,290 --> 01:36:16,159

saying

2066

01:36:24,459 --> 01:36:20,300

right exactly what this would do is this

2067

01:36:26,770 --> 01:36:24,469

would work with the information basis of

2068

01:36:30,040 --> 01:36:26,780

the universe itself is connected Kawana

2069

01:36:31,510 --> 01:36:30,050

cannon and it would just you know go hey

2070

01:36:34,390 --> 01:36:31,520

we're here right now what we want to be

2071

01:36:37,089 --> 01:36:34,400

over there and raise the probability get

2072

01:36:38,080 --> 01:36:37,099

you Phoebe over there and and this it's

2073

01:36:41,560 --> 01:36:38,090

not zero

2074

01:36:44,830 --> 01:36:41,570

thank you saying yeah probably

2075

01:36:46,569 --> 01:36:44,840

you be there is not zero and may be

2076

01:36:49,240 --> 01:36:46,579

closer than you well but it's not zero

2077

01:36:52,359 --> 01:36:49,250

and so you just amplify that probability

2078

01:36:54,580 --> 01:36:52,369

and then ma'am you're there so you know

2079

01:36:57,160 --> 01:36:54,590

what the other thing this sounds like is

2080

01:37:00,750 --> 01:36:57,170

what happened to Ralph ring if the story

2081

01:37:10,180 --> 01:37:05,649

rothmeyer yeah he ODIs car who was

2082

01:37:11,680 --> 01:37:10,190

Tesla's assistant built for some company

2083

01:37:16,300 --> 01:37:11,690

I don't remember the whole story now a

2084

01:37:18,370 --> 01:37:16,310

small flying saucer and Otis Carr had

2085

01:37:21,760 --> 01:37:18,380

said that Tesla had figured out the

2086

01:37:25,030 --> 01:37:21,770

barrier between time and space and that

2087

01:37:27,790 --> 01:37:25,040

he could move them in that ship wherever

2088

01:37:30,609 --> 01:37:27,800

they wanted to go and so quickly that

2089

01:37:33,069 --> 01:37:30,619

they wouldn't remember it and he did and

2090

01:37:34,620 --> 01:37:33,079

what his instructions were to them is

2091

01:37:37,810 --> 01:37:34,630

when you get to where you're going to go

2092

01:37:39,430 --> 01:37:37,820

go ahead and pick up some dirt on the

2093

01:37:41,740 --> 01:37:39,440

ground and you get out of the ship put

2094

01:37:44,890 --> 01:37:41,750

it in your pockets and then when you're

2095

01:37:47,950 --> 01:37:44,900

back we'll examine it well the other

2096

01:37:50,200 --> 01:37:47,960

problem they had Marshall that Ralph

2097

01:37:53,500 --> 01:37:50,210

always wonders about is why they

2098

01:37:55,310 --> 01:37:53,510

couldn't remember it see they they did

2099

01:37:57,709 --> 01:37:55,320

do it they traveled all the

2100

01:38:00,169 --> 01:37:57,719

down Apple Valley and came back and

2101

01:38:02,839 --> 01:38:00,179

there were people that saw the ship out

2102

01:38:05,450 --> 01:38:02,849

there doing its thing but it happened so

2103

01:38:07,339 --> 01:38:05,460

quickly for them that they couldn't

2104

01:38:18,439 --> 01:38:07,349

remember it happening they thought it

2105

01:38:20,839 --> 01:38:18,449

was a failed experiment yeah he has some

2106

01:38:23,569 --> 01:38:20,849

insight into this he thinks it's more of

2107

01:38:30,830 --> 01:38:23,579

a by location but I'm a I don't know I

2108

01:38:31,910 --> 01:38:30,840

just don't know what anyway so Aris this

2109

01:38:34,100 --> 01:38:31,920

is when we do all kinds of interesting

2110

01:38:35,660 --> 01:38:34,110

things well with Sciences vision it's

2111

01:38:37,970 --> 01:38:35,670

going to be looking for new answers to

2112

01:38:39,470 --> 01:38:37,980

questions whatever the technology

2113

01:38:41,030 --> 01:38:39,480

development division was there's any

2114

01:38:43,729 --> 01:38:41,040

development technology that some of you

2115

01:38:48,560 --> 01:38:43,739

be used by aerospace and the other

2116

01:38:50,899 --> 01:38:48,570

visions that we have please build me a

2117

01:38:53,209 --> 01:38:50,909

flying car so I don't have to drive

2118

01:39:02,959 --> 01:38:53,219

anymore that flies by itself

2119

01:39:08,600 --> 01:39:02,969

please I want to buy one thirty thousand

2120

01:39:10,520 --> 01:39:08,610

I almost found a penny more Wow no we

2121

01:39:13,580 --> 01:39:10,530

don't we don't have a flying car

2122

01:39:19,040 --> 01:39:13,590

division there's all these people do

2123

01:39:22,459 --> 01:39:19,050

there's more flying cars yeah yeah he's

2124

01:39:24,350 --> 01:39:22,469

pretty cool dude docking him but he's

2125

01:39:27,709 --> 01:39:24,360

still he's working on that you know the

2126  
01:39:30,859 --> 01:39:27,719  
old you know jet engine principle of you

2127  
01:39:31,939 --> 01:39:30,869  
know I'm a helicopter really is what it

2128  
01:39:34,609 --> 01:39:31,949  
is I

2129  
01:39:36,020 --> 01:39:34,619  
I'm not into ones that got props I want

2130  
01:39:41,720 --> 01:39:36,030  
something to have some kind of warp

2131  
01:39:48,530 --> 01:39:41,730  
drive in it before I'm getting there any

2132  
01:39:53,510 --> 01:39:48,540  
gravity right I don't know any gravity I

2133  
01:39:55,760 --> 01:39:53,520  
haven't messed with that we hire people

2134  
01:39:57,410 --> 01:39:55,770  
that will do that for you though I can

2135  
01:39:59,149 --> 01:39:57,420  
tell you that right now but in that day

2136  
01:40:03,319 --> 01:39:59,159  
isn't too far off okay

2137  
01:40:05,919 --> 01:40:03,329  
so space is your next one right spaces

2138  
01:40:07,620 --> 01:40:05,929

include space exploration

2139

01:40:10,140 --> 01:40:07,630

commercialization of space

2140

01:40:12,120 --> 01:40:10,150

one of things we want to do is partner

2141

01:40:14,189 --> 01:40:12,130

with other companies because I'm

2142

01:40:17,760 --> 01:40:14,199

actually done things in the aerospace

2143

01:40:20,220 --> 01:40:17,770

community a la ila lecture that major

2144

01:40:24,959 --> 01:40:20,230

space concepts before I know people that

2145

01:40:26,790 --> 01:40:24,969

under all the space companies and one of

2146

01:40:30,209 --> 01:40:26,800

things we're looking at is doing events

2147

01:40:33,120 --> 01:40:30,219

on the moon and there they will include

2148

01:40:36,589 --> 01:40:33,130

like other races and stuff like that

2149

01:40:39,300 --> 01:40:36,599

because you can have an electric car and

2150

01:40:42,419 --> 01:40:39,310

you don't have to have a breathable

2151  
01:40:44,430 --> 01:40:42,429  
cotton else or even fuel jacket covering

2152  
01:40:46,140 --> 01:40:44,440  
a carburetor or anything guys it's not

2153  
01:40:49,560 --> 01:40:46,150  
these are engines that don't breathe air

2154  
01:40:51,810 --> 01:40:49,570  
like a regular car does okay so you can

2155  
01:40:54,390 --> 01:40:51,820  
run one a minute you can't run or you

2156  
01:40:58,200 --> 01:40:54,400  
can't take a regular larger than then so

2157  
01:41:01,470 --> 01:40:58,210  
you can you know races and each Club

2158  
01:41:03,629 --> 01:41:01,480  
could have little cameras in it and so

2159  
01:41:05,819 --> 01:41:03,639  
you could so you would get a different

2160  
01:41:07,620 --> 01:41:05,829  
perspective this as well as like you

2161  
01:41:09,600 --> 01:41:07,630  
know the cameras around the track almost

2162  
01:41:11,450 --> 01:41:09,610  
kind of stuff and it would be really

2163  
01:41:15,270 --> 01:41:11,460

cool looking there's a French company

2164

01:41:17,250 --> 01:41:15,280

that kind of distance visuals is

2165

01:41:20,970 --> 01:41:17,260

important taking that kind of thing and

2166

01:41:23,010 --> 01:41:20,980

it looks great but I have uh in the

2167

01:41:26,149 --> 01:41:23,020

actual materials for something we're

2168

01:41:30,180 --> 01:41:26,159

developing we have a full-blown

2169

01:41:32,970 --> 01:41:30,190

description of a number of space tourism

2170

01:41:37,589 --> 01:41:32,980

activities on the moon that we'll be

2171

01:41:40,760 --> 01:41:37,599

doing and so that it's we see all kinds

2172

01:41:43,490 --> 01:41:40,770

of potential everything something like

2173

01:41:46,979 --> 01:41:43,500

things happening on the surface too like

2174

01:41:47,339 --> 01:41:46,989

tours where people can fly from Earth to

2175

01:41:51,330 --> 01:41:47,349

the Moon

2176  
01:41:54,270 --> 01:41:51,340  
to steal flybys to see it and go to dark

2177  
01:41:56,370 --> 01:41:54,280  
side as well and come back and at that

2178  
01:41:59,010 --> 01:41:56,380  
kind of stuff that's our space

2179  
01:42:02,010 --> 01:41:59,020  
efficiently doing biomed we'll be

2180  
01:42:03,780 --> 01:42:02,020  
looking at different cures for like you

2181  
01:42:07,770 --> 01:42:03,790  
know I have a cure for the common cold

2182  
01:42:09,930 --> 01:42:07,780  
and I've used this as 1986 and do some

2183  
01:42:12,419 --> 01:42:09,940  
companies out there I'm kind of kind of

2184  
01:42:14,970 --> 01:42:12,429  
come close to the same thing but they

2185  
01:42:17,600 --> 01:42:14,980  
all have exactly the same thing so we

2186  
01:42:20,520 --> 01:42:17,610  
would start there we are my little

2187  
01:42:21,089 --> 01:42:20,530  
initial foray into biomed there's other

2188  
01:42:23,399 --> 01:42:21,099

things

2189

01:42:25,859 --> 01:42:23,409

we can get involved with as well but we

2190

01:42:30,209 --> 01:42:25,869

have something to start out with well

2191

01:42:31,830 --> 01:42:30,219

advanced automotive we have ideas about

2192

01:42:35,569 --> 01:42:31,840

how to make a special kind of card it

2193

01:42:38,129 --> 01:42:35,579

doesn't run on electricity or fuel and

2194

01:42:41,040 --> 01:42:38,139

the best word about that is that we

2195

01:42:45,149 --> 01:42:41,050

figured out how to develop and

2196

01:42:48,030 --> 01:42:45,159

manufacture and sell this without doing

2197

01:42:49,050 --> 01:42:48,040

any normal what doing it in Norway

2198

01:42:50,700 --> 01:42:49,060

everyone does

2199

01:42:52,229 --> 01:42:50,710

it's a completely different business

2200

01:42:53,760 --> 01:42:52,239

model it wouldn't work

2201  
01:42:57,330 --> 01:42:53,770  
and we never lose a market for the car

2202  
01:43:00,770 --> 01:42:57,340  
because the car wouldn't be made from

2203  
01:43:03,959 --> 01:43:00,780  
scratch we may be retooling and

2204  
01:43:06,330 --> 01:43:03,969  
modifying already existing cars so

2205  
01:43:08,879 --> 01:43:06,340  
she'll be flying I hope people will be

2206  
01:43:11,220 --> 01:43:08,889  
buying an older car but think about it

2207  
01:43:14,430 --> 01:43:11,230  
we have to put gas in it and we already

2208  
01:43:16,709 --> 01:43:14,440  
did origin or marketing on that or text

2209  
01:43:18,270 --> 01:43:16,719  
marking on that and people said hey I

2210  
01:43:22,200 --> 01:43:18,280  
think yes and I don't care

2211  
01:43:25,470 --> 01:43:22,210  
so bingo and so that's what advanced

2212  
01:43:28,080 --> 01:43:25,480  
automotive thing would do in this

2213  
01:43:30,720 --> 01:43:28,090

musical technology from have a musical

2214

01:43:38,669 --> 01:43:30,730

background early enough like Tom DeLonge

2215

01:43:41,040 --> 01:43:38,679

but well I better keep quiet I I bashed

2216

01:43:43,200 --> 01:43:41,050

the poor guy all the time I gotta be at

2217

01:43:53,669 --> 01:43:43,210

least nice and say his musics pretty

2218

01:43:56,100 --> 01:43:53,679

good ok blink-182 and then angel

2219

01:44:01,890 --> 01:43:56,110

something my camera would they were but

2220

01:44:04,319 --> 01:44:01,900

they were ok anyway anyway what I did

2221

01:44:06,990 --> 01:44:04,329

was I've been involved in these it

2222

01:44:09,839 --> 01:44:07,000

longer than him because he's I'm older

2223

01:44:12,839 --> 01:44:09,849

and I got started in my teens

2224

01:44:14,970 --> 01:44:12,849

and I was always interested in the

2225

01:44:18,120 --> 01:44:14,980

technology aspect of music of music

2226

01:44:20,280 --> 01:44:18,130

because most of my studio musicians were

2227

01:44:22,770 --> 01:44:20,290

also technically whirring like Todd

2228

01:44:25,740 --> 01:44:22,780

Rundgren and people like that so as a

2229

01:44:28,709 --> 01:44:25,750

result we now already have technology

2230

01:44:30,270 --> 01:44:28,719

and different areas that's more advanced

2231

01:44:32,640 --> 01:44:30,280

anything any way else is doing right now

2232

01:44:34,640 --> 01:44:32,650

that we I've been able to come up with a

2233

01:44:38,990 --> 01:44:34,650

way that we could enhance from

2234

01:44:40,850 --> 01:44:39,000

music so such a degree that we have to

2235

01:44:43,070 --> 01:44:40,860

be careful how we would market this

2236

01:44:45,470 --> 01:44:43,080

because if you hear it it's so

2237

01:44:47,120 --> 01:44:45,480

incredible that you get high from

2238

01:44:50,180 --> 01:44:47,130

hearing your brain just goes on and

2239

01:44:53,120 --> 01:44:50,190

orphan time because it's like wow you

2240

01:44:55,850 --> 01:44:53,130

know and what we're doing is we're not

2241

01:44:57,470 --> 01:44:55,860

changing the music itself but not

2242

01:44:59,720 --> 01:44:57,480

running everything's will flanger a face

2243

01:45:03,919 --> 01:44:59,730

ship there isn't like that it does not

2244

01:45:07,520 --> 01:45:03,929

affect the quality and the actual

2245

01:45:09,410 --> 01:45:07,530

dynamics of the originally Corinne you

2246

01:45:10,459 --> 01:45:09,420

just hear it completely in a different

2247

01:45:13,160 --> 01:45:10,469

way

2248

01:45:15,350 --> 01:45:13,170

no that's interesting because you know

2249

01:45:18,620 --> 01:45:15,360

they're they're now writing music for a

2250

01:45:21,140 --> 01:45:18,630

sports enhancement and running and yoga

2251  
01:45:23,720 --> 01:45:21,150  
and meditation because they take you

2252  
01:45:28,220 --> 01:45:23,730  
into different waves of theta and Delta

2253  
01:45:30,709 --> 01:45:28,230  
and what-have-you and when I found or

2254  
01:45:32,570 --> 01:45:30,719  
they release endorphins or whatever it

2255  
01:45:34,790 --> 01:45:32,580  
is whatever frequency they're adding to

2256  
01:45:37,340 --> 01:45:34,800  
this music but the music is not your you

2257  
01:45:39,140 --> 01:45:37,350  
know your common hip parade of music

2258  
01:45:41,330 --> 01:45:39,150  
it's music they've developed and it gets

2259  
01:45:49,520 --> 01:45:41,340  
repetitive and somewhat boring actually

2260  
01:45:52,729 --> 01:45:49,530  
hate to tell you yeah I can do this for

2261  
01:45:54,890 --> 01:45:52,739  
any kind of music and it was not for

2262  
01:45:56,810 --> 01:45:54,900  
example I could do this for country

2263  
01:46:01,750 --> 01:45:56,820

music album I can do this for bluegrass

2264

01:46:09,350 --> 01:46:06,290

people or whatever yeah but you wouldn't

2265

01:46:10,729 --> 01:46:09,360

you would still sound the same but you

2266

01:46:13,130 --> 01:46:10,739

would experience it in a completely

2267

01:46:14,959 --> 01:46:13,140

different way and that's what that's

2268

01:46:18,459 --> 01:46:14,969

what triggers a door for thing but it

2269

01:46:22,700 --> 01:46:18,469

would still have me go to glass is

2270

01:46:25,280 --> 01:46:22,710

performed very basic acoustical acoustic

2271

01:46:27,110 --> 01:46:25,290

instrument so one of them you make

2272

01:46:29,120 --> 01:46:27,120

yourself spaced out or anything

2273

01:46:32,090 --> 01:46:29,130

it doesn't change in your eternal

2274

01:46:35,270 --> 01:46:32,100

quality of the instruments themselves at

2275

01:46:39,320 --> 01:46:35,280

all but you just hear it differently and

2276

01:46:40,070 --> 01:46:39,330

that's a secret so we got that much much

2277

01:46:42,350 --> 01:46:40,080

other stuff

2278

01:46:45,140 --> 01:46:42,360

in other words keeping um try expresses

2279

01:46:47,050 --> 01:46:45,150

that we already have things that we can

2280

01:46:49,540 --> 01:46:47,060

do with this we're not we're

2281

01:46:58,420 --> 01:46:49,550

looking for ideas from anybody else the

2282

01:47:00,160 --> 01:46:58,430

way to start I want to talk to you if we

2283

01:47:01,450 --> 01:47:00,170

get to nothing else in the rest of the

2284

01:47:04,390 --> 01:47:01,460

show we only have about four minutes

2285

01:47:07,210 --> 01:47:04,400

left is consciousness just blows my mind

2286

01:47:09,370 --> 01:47:07,220

so what what would you guys be doing

2287

01:47:12,370 --> 01:47:09,380

with consciousness I mean how do you

2288

01:47:14,370 --> 01:47:12,380

even do something with consciousness do

2289

01:47:17,130 --> 01:47:14,380

you measure it are you gonna give us

2290

01:47:19,990 --> 01:47:17,140

expanded consciousness what's the plan

2291

01:47:22,420 --> 01:47:20,000

well essentially we're gonna be doing is

2292

01:47:24,550 --> 01:47:22,430

we're going to be doing research and

2293

01:47:28,420 --> 01:47:24,560

mine machining interfacing kind of

2294

01:47:31,960 --> 01:47:28,430

things doing things yeah good things

2295

01:47:33,660 --> 01:47:31,970

that will expand conscious was that one

2296

01:47:36,100 --> 01:47:33,670

of these will do the consciousness is

2297

01:47:39,400 --> 01:47:36,110

this is one thing I having to deal with

2298

01:47:43,150 --> 01:47:39,410

Eurasian dilation and it was something I

2299

01:47:45,940 --> 01:47:43,160

think armies existed in and we're we

2300

01:47:48,400 --> 01:47:45,950

were looking at ways and dusit so that

2301

01:47:50,680 --> 01:47:48,410

you if you get into a firefight you are

2302

01:47:53,170 --> 01:47:50,690

mapping Gillard's and duration valuation

2303

01:47:55,960 --> 01:47:53,180

and that makes you a better warfighter

2304

01:47:59,110 --> 01:47:55,970

it makes you your actions better

2305

01:48:02,050 --> 01:47:59,120

everything like that and what David

2306

01:48:04,480 --> 01:48:02,060

Eagleman had done he did a study and he

2307

01:48:07,030 --> 01:48:04,490

claimed initially wasn't one that got

2308

01:48:09,340 --> 01:48:07,040

most of publicity adoration dilation

2309

01:48:12,850 --> 01:48:09,350

where you see everything slowed down for

2310

01:48:16,120 --> 01:48:12,860

you it yeah it was actually he said it

2311

01:48:18,700 --> 01:48:16,130

was a long memory it's not why I did I

2312

01:48:20,050 --> 01:48:18,710

apply one things I can develop some

2313

01:48:23,290 --> 01:48:20,060

conscious research called tender

2314

01:48:27,880 --> 01:48:23,300

cosmetics and it's an economic analysis

2315

01:48:30,820 --> 01:48:27,890

of his research and found that it was

2316

01:48:34,630 --> 01:48:30,830

not he was wrong it's not a subject of

2317

01:48:39,600 --> 01:48:34,640

dub or a product of longing and memory

2318

01:48:41,470 --> 01:48:39,610

it actually happens for real and he is

2319

01:48:45,220 --> 01:48:41,480

testing it were wrong

2320

01:48:47,440 --> 01:48:45,230

so I mean consciousness we got a

2321

01:48:49,930 --> 01:48:47,450

military division are we doing what

2322

01:48:52,450 --> 01:48:49,940

should do all kinds of things um you

2323

01:48:55,020 --> 01:48:52,460

know technology research to actually

2324

01:48:59,370 --> 01:48:55,030

making things that can be put into the

2325

01:49:04,200 --> 01:49:01,710

gonna love you requests for proposals

2326  
01:49:14,570 --> 01:49:04,210  
for Department of Defense are going to

2327  
01:49:20,100 --> 01:49:16,800  
we'll have that and we already have

2328  
01:49:24,030 --> 01:49:20,110  
things that would apply to that already

2329  
01:49:27,540 --> 01:49:24,040  
then there's an artificial because I've

2330  
01:49:29,520 --> 01:49:27,550  
been open to business of art and we're

2331  
01:49:31,290 --> 01:49:29,530  
pretty much pretty close to being able

2332  
01:49:33,360 --> 01:49:31,300  
to break into that on a high-end level

2333  
01:49:35,790 --> 01:49:33,370  
where we can create stuff anybody else

2334  
01:49:38,460 --> 01:49:35,800  
can do we only do like one version of it

2335  
01:49:40,140 --> 01:49:38,470  
and collectors will buy it like on big

2336  
01:49:42,180 --> 01:49:40,150  
dollar amounts so that's just like

2337  
01:49:43,830 --> 01:49:42,190  
something for fun that will make money

2338  
01:49:46,890 --> 01:49:43,840

then there's a live entertainment

2339

01:49:48,840 --> 01:49:46,900

activation which will have technology

2340

01:49:50,670 --> 01:49:48,850

for a while entertainment events who was

2341

01:49:53,850 --> 01:49:50,680

unlike anything that already exists

2342

01:49:55,890 --> 01:49:53,860

forget the plans for somatic events

2343

01:49:59,490 --> 01:49:55,900

those events what we're going to be

2344

01:50:02,760 --> 01:49:59,500

doing things where it's like the movies

2345

01:50:07,670 --> 01:50:02,770

a game for example I know that was about

2346

01:50:12,230 --> 01:50:07,680

but I love that movie I am that movie

2347

01:50:16,890 --> 01:50:12,240

stuff like that but or the scale that

2348

01:50:19,410 --> 01:50:16,900

would be incredible and then we're also

2349

01:50:21,390 --> 01:50:19,420

gonna get into the license verses were

2350

01:50:25,140 --> 01:50:21,400

like for example it might take something

2351  
01:50:29,880 --> 01:50:25,150  
from a movie you know and then do it you

2352  
01:50:34,440 --> 01:50:29,890  
would say to your somewhere Star Wars

2353  
01:50:36,630 --> 01:50:34,450  
Oh roleplay but with all the

2354  
01:50:43,080 --> 01:50:36,640  
enhancements right I'd have a real

2355  
01:50:46,050 --> 01:50:43,090  
lightsaber lightsaber but it would be it

2356  
01:50:48,030 --> 01:50:46,060  
would be incredible and then like we

2357  
01:50:51,570 --> 01:50:48,040  
have there's this being education which

2358  
01:50:53,970 --> 01:50:51,580  
is nanoscience technology or math that's

2359  
01:50:56,400 --> 01:50:53,980  
in there and then blue sky R&D is

2360  
01:50:59,250 --> 01:50:56,410  
essentially the division what you to sit

2361  
01:51:02,040 --> 01:50:59,260  
around and just go what if in this place

2362  
01:51:04,980 --> 01:51:02,050  
someone with crazy ideas figure out if

2363  
01:51:11,969 --> 01:51:04,990

any of it makes sense or not and then we

2364

01:51:16,500 --> 01:51:13,680

that is really cool I would not invest

2365

01:51:19,469 --> 01:51:16,510

into the Stars I just didn't feel it man

2366

01:51:21,270 --> 01:51:19,479

I had no desire this makes me just gives

2367

01:51:23,520 --> 01:51:21,280

me goose bumps it makes me wanted and

2368

01:51:30,359 --> 01:51:23,530

we're not trying to we're not trying to

2369

01:51:33,750 --> 01:51:30,369

doing you can't really have a marshal

2370

01:51:35,640 --> 01:51:33,760

and we're running a little over time J

2371

01:51:37,529 --> 01:51:35,650

but they're not doing anything with

2372

01:51:40,290 --> 01:51:37,539

aliens either they don't even want the

2373

01:51:42,359 --> 01:51:40,300

name brought up to the the whole thing

2374

01:51:44,339 --> 01:51:42,369

they're really trying hard to do

2375

01:51:46,500 --> 01:51:44,349

disclosure without aliens which really

2376

01:51:48,629 --> 01:51:46,510

pisses me off because it's like oh yeah

2377

01:51:50,699 --> 01:51:48,639

well who's driving the damn things you

2378

01:51:53,879 --> 01:51:50,709

know they just appear out you know with

2379

01:51:56,609 --> 01:51:53,889

nobody no consciousness behind them you

2380

01:51:58,949 --> 01:51:56,619

know whether they're alive is a ship or

2381

01:52:01,770 --> 01:51:58,959

there is somebody inside of them making

2382

01:52:04,259 --> 01:52:01,780

them move got online I can't just ignore

2383

01:52:05,609 --> 01:52:04,269

it and see that makes me mad it's like

2384

01:52:08,160 --> 01:52:05,619

you know if they're gonna come out with

2385

01:52:11,580 --> 01:52:08,170

disclosure let's just do it for real you

2386

01:52:13,529 --> 01:52:11,590

know no [h\_\_h] you know whatever you

2387

01:52:15,540 --> 01:52:13,539

know I don't even care anymore I'm just

2388

01:52:22,169 --> 01:52:15,550

I just want to type travel I can care

2389

01:52:24,509 --> 01:52:22,179

less about aliens so and they haven't

2390

01:52:26,729 --> 01:52:24,519

bombed us and they haven't killed us so

2391

01:52:29,879 --> 01:52:26,739

you know obviously they're not doing a

2392

01:52:31,080 --> 01:52:29,889

whole lot to you know to us you know

2393

01:52:34,259 --> 01:52:31,090

we're all still here

2394

01:52:37,319 --> 01:52:34,269

you know examining our navels as humans

2395

01:52:39,419 --> 01:52:37,329

so all right you know yeah unless they

2396

01:52:46,080 --> 01:52:39,429

plan on a big invasion then you and I

2397

01:52:47,609 --> 01:52:46,090

better get out of here a lot of people

2398

01:52:50,279 --> 01:52:47,619

want the time travel the minute the

2399

01:52:52,589 --> 01:52:50,289

CME's coming at you know twelve hours

2400

01:52:55,469 --> 01:52:52,599

and ninety three million people are

2401  
01:52:58,319 --> 01:52:55,479  
gonna be dead in 48 hours you know oh my

2402  
01:53:00,239 --> 01:52:58,329  
god it's crazy okay well with that we

2403  
01:53:02,219 --> 01:53:00,249  
got to close out the show Marshall thank

2404  
01:53:04,709 --> 01:53:02,229  
you for being with me and is there

2405  
01:53:09,029 --> 01:53:04,719  
anything anybody could do I mean could

2406  
01:53:12,799 --> 01:53:09,039  
they come to the DC coders right yeah

2407  
01:53:19,080 --> 01:53:12,809  
I'll give that a guess this is your I DC

2408  
01:53:20,939 --> 01:53:19,090  
kudos it's bc co de RS dot org Libyan

2409  
01:53:22,799 --> 01:53:20,949  
Washington DC during events there and

2410  
01:53:25,919 --> 01:53:22,809  
the schedule for the whole things like

2411  
01:53:30,470 --> 01:53:25,929  
that site and you can always check me

2412  
01:53:36,020 --> 01:53:30,480  
Twitter on Quora calm

2413  
01:53:40,380 --> 01:53:36,030

secondly I belong at 2 or 4 to 1971

2414

01:53:42,030 --> 01:53:40,390

corridor or Duke or calm rather and also

2415

01:53:46,100 --> 01:53:42,040

again second you get more information

2416

01:53:52,020 --> 01:53:46,110

together about dot mean forward slash

2417

01:53:55,410 --> 01:53:52,030

Marshall are you know they are d ent I

2418

01:53:57,510 --> 01:53:55,420

said we couldn't do R&D but Marshall

2419

01:54:04,229 --> 01:53:57,520

it's about that may force us Marshall

2420

01:54:07,260 --> 01:54:04,239

Barnes are an art the EMG and II never I

2421

01:54:08,880 --> 01:54:07,270

can't get yeah and one of these days we

2422

01:54:10,620 --> 01:54:08,890

will actually have a website up for

2423

01:54:12,780 --> 01:54:10,630

Marshall it's just gonna take me a while

2424

01:54:14,790 --> 01:54:12,790

to get it done for him I promise and by

2425

01:54:17,669 --> 01:54:14,800

the summer of I if I can get my act

2426

01:54:20,689 --> 01:54:17,679

together here and that'll just be an

2427

01:54:23,760 --> 01:54:20,699

enhancement to his beautiful technology

2428

01:54:26,070 --> 01:54:23,770

in technologies of infinity company

2429

01:54:28,919 --> 01:54:26,080

there we go so wonderful

2430

01:54:30,689 --> 01:54:28,929

well I you know what Marshall stay on

2431

01:54:32,130 --> 01:54:30,699

the air I mean stay on the lines I want

2432

01:54:34,830 --> 01:54:32,140

to talk to you after we're over tonight

2433

01:54:37,830 --> 01:54:34,840

now next week folks I'm on my way to DC

2434

01:54:40,169 --> 01:54:37,840

and I just want to say you know pray for

2435

01:54:42,990 --> 01:54:40,179

me and pray that the JFK cut you know

2436

01:54:45,479 --> 01:54:43,000

conference goes well and that all the

2437

01:54:48,180 --> 01:54:45,489

guys make it and that's always a big

2438

01:54:50,100 --> 01:54:48,190

thing and if you guys can make it please

2439

01:54:52,320 --> 01:54:50,110

do because we really are gonna have an

2440

01:54:54,149 --> 01:54:52,330

amazing time just think Thursday night

2441

01:54:56,100 --> 01:54:54,159

you could go see Marshall and then on

2442

01:54:58,680 --> 01:54:56,110

Friday Saturday and Sunday you can go

2443

01:55:00,300 --> 01:54:58,690

hang out with me and then on Monday if

2444

01:55:03,540 --> 01:55:00,310

you want you can go to the Spy Museum

2445

01:55:05,910 --> 01:55:03,550

with me and the Cold War Museum with me

2446

01:55:07,560 --> 01:55:05,920

it's gonna be really a fun weekend so

2447

01:55:09,720 --> 01:55:07,570

there you go we've hadded Marshall into

2448

01:55:11,459 --> 01:55:09,730

the mix as well so I do hope you guys

2449

01:55:14,970 --> 01:55:11,469

can make it if you can't make me make

2450

01:55:18,689 --> 01:55:14,980

make Marshalls event in DC coders org or
