[Music]

5  
00:01:23,149 --> 00:01:19,969  
class is in session with the invisible

6  
00:01:25,249 --> 00:01:23,159  
night school my name is Leah Prime I am

7  
00:01:30,830 --> 00:01:25,259  
here tonight hosting with my lovely

8  
00:01:32,929 --> 00:01:30,840  
co-hosts uh Nick Campbell and Lewis

9  
00:01:34,609 --> 00:01:32,939  
um if you enjoy just joining us welcome

10  
00:01:37,130 --> 00:01:34,619  
we're glad you're here whether you're

11  
00:01:40,069 --> 00:01:37,140  
watching live or on a recorded stream

12  
00:01:41,690 --> 00:01:40,079  
later on the invisible night school for

13  
00:01:43,429 --> 00:01:41,700

anyone just joining us is a small

14

00:01:46,370 --> 00:01:43,439

Consortium of Lee researchers and

15

00:01:48,410 --> 00:01:46,380

Scholars exploring UFOs uaps High

16

00:01:49,810 --> 00:01:48,420

strangeness and the phenomena

17

00:01:51,889 --> 00:01:49,820

you can find us at the

18

00:01:53,690 --> 00:01:51,899

invisiblenightschool.com you can also

19

00:01:55,850 --> 00:01:53,700

find us linked to our various Instagram

20

00:01:58,609 --> 00:01:55,860

Twitter accounts and Lewis's dedicated

21

00:02:01,069 --> 00:01:58,619

blog ufology is corrupt in the uh show

22

00:02:03,649 --> 00:02:01,079

information notes so tonight we're going

23

00:02:05,810 --> 00:02:03,659

to be talking with Nick Nick coffin

24

00:02:07,609 --> 00:02:05,820

College to discuss the 1994 Lake

25

00:02:09,529 --> 00:02:07,619

Michigan sighting I I appreciate you

26  
00:02:11,690 --> 00:02:09,539  
nodding because I have just pronounced

27  
00:02:13,309 --> 00:02:11,700  
your last name every single time but I

28  
00:02:17,210 --> 00:02:13,319  
even wrote it out

29  
00:02:19,070 --> 00:02:17,220  
um I transliterated it so that I only

30  
00:02:22,670 --> 00:02:19,080  
stumbled but didn't totally blow it up

31  
00:02:23,330 --> 00:02:22,680  
you nailed it I liked it thank you

32  
00:02:25,610 --> 00:02:23,340  
um

33  
00:02:26,990 --> 00:02:25,620  
but you know before we get started uh we

34  
00:02:28,729 --> 00:02:27,000  
always like to start the show with a few

35  
00:02:30,050 --> 00:02:28,739  
minutes just a basic conversation about

36  
00:02:32,030 --> 00:02:30,060  
what's kind of going on in the community

37  
00:02:35,570 --> 00:02:32,040  
what we're all thinking about

38  
00:02:37,070 --> 00:02:35,580

um and also uh hello to Swayze spooky

39

00:02:41,330 --> 00:02:37,080

great to see you

40

00:02:42,949 --> 00:02:41,340

Derek hey uh Brooke always nice to see

41

00:02:45,470 --> 00:02:42,959

you seen you here a few weeks in a row

42

00:02:47,750 --> 00:02:45,480

this is awesome Steve awesome to have

43

00:02:49,250 --> 00:02:47,760

you here swink this is like a who's who

44

00:02:51,170 --> 00:02:49,260

of some of my favorite audience members

45

00:02:54,770 --> 00:02:51,180

so super excited to see everyone here

46

00:02:57,229 --> 00:02:54,780

and of course Lord Ludacris what up

47

00:03:00,290 --> 00:02:57,239

couldn't uh couldn't say hello with that

48

00:03:02,150 --> 00:03:00,300

uh greeting you too

49

00:03:04,250 --> 00:03:02,160

um so yeah so all of us have a bunch of

50

00:03:05,930 --> 00:03:04,260

stuff on that docket but um Campbell

51  
00:03:08,869 --> 00:03:05,940  
right before the show we were talking

52  
00:03:09,710 --> 00:03:08,879  
about the uh supposed report that we're

53  
00:03:12,530 --> 00:03:09,720  
going to be getting right around

54  
00:03:13,670 --> 00:03:12,540  
Halloween what are yours

55  
00:03:16,070 --> 00:03:13,680  
well

56  
00:03:19,490 --> 00:03:16,080  
um based on what I've been seeing on UFO

57  
00:03:21,649 --> 00:03:19,500  
Twitter uh it's exactly eight months uh

58  
00:03:23,509 --> 00:03:21,659  
is October 31st and that's how long they

59  
00:03:25,790 --> 00:03:23,519  
had to prepare it we don't know it could

60  
00:03:27,530 --> 00:03:25,800  
come out tomorrow it could come out on

61  
00:03:29,390 --> 00:03:27,540  
the 31st it could come out maybe a

62  
00:03:31,309 --> 00:03:29,400  
little bit after that uh the report

63  
00:03:32,690 --> 00:03:31,319

itself there's very low expectations

64

00:03:34,550 --> 00:03:32,700

especially after they set those

65

00:03:36,430 --> 00:03:34,560

expectations with the first report the

66

00:03:38,809 --> 00:03:36,440

14 pages I've seen people sort of

67

00:03:40,250 --> 00:03:38,819

limiting their expectations this time

68

00:03:41,869 --> 00:03:40,260

around although I've also seen some

69

00:03:43,670 --> 00:03:41,879

comments indicating they think there

70

00:03:45,110 --> 00:03:43,680

actually is going to be uh non-human

71

00:03:47,210 --> 00:03:45,120

intelligence disclosure in this report

72

00:03:49,369 --> 00:03:47,220

so um I'm very excited to see what

73

00:03:50,990 --> 00:03:49,379

happens I've seen those comments from a

74

00:03:53,270 --> 00:03:51,000

lot of Twitter accounts that have like

75

00:03:54,589 --> 00:03:53,280

ambiguous profile pictures and then a

76

00:03:57,050 --> 00:03:54,599

lot of numbers on the end of their

77

00:03:59,270 --> 00:03:57,060

usernames yeah what is the source of

78

00:04:00,649 --> 00:03:59,280

information where are they claiming that

79

00:04:02,809 --> 00:04:00,659

they get this idea where where's this

80

00:04:04,670 --> 00:04:02,819

expectation coming from well it's an

81

00:04:06,770 --> 00:04:04,680

interesting question uh the only thing

82

00:04:09,229 --> 00:04:06,780

that I've sort of seen are vague

83

00:04:11,449 --> 00:04:09,239

um assertions about uh you know unnamed

84

00:04:13,369 --> 00:04:11,459

sources the usual thing like I I think

85

00:04:15,170 --> 00:04:13,379

classic you know oh it's just the

86

00:04:17,870 --> 00:04:15,180

Classic stuff um I didn't dig too deep

87

00:04:20,030 --> 00:04:17,880

because you know it's like I know before

88

00:04:21,650 --> 00:04:20,040

I mean okay that sounds a little uh

89

00:04:23,930 --> 00:04:21,660

presumptuous but I'm quite confident

90

00:04:25,070 --> 00:04:23,940

that there isn't like a definitive piece

91

00:04:26,810 --> 00:04:25,080

of evidence out there that says there's

92

00:04:28,790 --> 00:04:26,820

going to be nfi disclosure in the report

93

00:04:30,530 --> 00:04:28,800

so you know it'd be interesting maybe to

94

00:04:32,210 --> 00:04:30,540

track that down but I don't you know I'm

95

00:04:33,890 --> 00:04:32,220

not too concerned about it I wonder if

96

00:04:36,230 --> 00:04:33,900

this is uh some people are interpreting

97

00:04:38,950 --> 00:04:36,240

this as uh Jeremy Corbell Silver Bullet

98

00:04:43,189 --> 00:04:40,909

yeah I was gonna say I haven't heard

99

00:04:45,590 --> 00:04:43,199

that term associated with Corbell uh it

100

00:04:47,390 --> 00:04:45,600

was a quote taken out of that uh last

101  
00:04:48,950 --> 00:04:47,400  
Liberation times piece which I think was

102  
00:04:50,450 --> 00:04:48,960  
speaking more to that

103  
00:04:52,909 --> 00:04:50,460  
um that bill that's supposed to pass

104  
00:04:54,950 --> 00:04:52,919  
about whistleblowers which is how I I

105  
00:04:56,390 --> 00:04:54,960  
took his quote about the Silver Bullet

106  
00:04:57,710 --> 00:04:56,400  
these uh these alleged whistleblowers

107  
00:05:00,350 --> 00:04:57,720  
they're gonna come out and talk about

108  
00:05:02,689 --> 00:05:00,360  
Legends their legacy projects and crash

109  
00:05:04,610 --> 00:05:02,699  
retrievals and stuff like that um though

110  
00:05:06,469 --> 00:05:04,620  
I don't really see that being a silver

111  
00:05:08,689 --> 00:05:06,479  
bullet either unless there's conclusive

112  
00:05:10,070 --> 00:05:08,699  
evidence to come with it otherwise it's

113  
00:05:12,770 --> 00:05:10,080

more stories like we've had over the

114

00:05:14,810 --> 00:05:12,780

past 70 years but um maybe that's the

115

00:05:17,030 --> 00:05:14,820

interpretation I'm not I haven't seen

116

00:05:19,010 --> 00:05:17,040

really anything else to

117

00:05:21,469 --> 00:05:19,020

um delete anyone to believe that there'd

118

00:05:23,629 --> 00:05:21,479

be any kind of nfi disclosure from this

119

00:05:26,029 --> 00:05:23,639

report or any report coming out in the

120

00:05:28,969 --> 00:05:26,039

near future so um oh the one thing that

121

00:05:31,310 --> 00:05:28,979

I saw on that was somebody uh retweeted

122

00:05:33,650 --> 00:05:31,320

or posted president former President

123

00:05:36,110 --> 00:05:33,660

Obama's uh promo video no encourage

124

00:05:37,430 --> 00:05:36,120

young people to vote oh yeah what did

125

00:05:46,390 --> 00:05:37,440

you see you said aliens and then

126  
00:05:50,930 --> 00:05:48,950  
is that a little concerning that you see

127  
00:05:52,189 --> 00:05:50,940  
people reacting that way to that uh

128  
00:05:53,570 --> 00:05:52,199  
something like very clearly

129  
00:05:55,249 --> 00:05:53,580  
tongue-in-cheek

130  
00:05:56,150 --> 00:05:55,259  
um matching the tone of the rest of the

131  
00:05:58,610 --> 00:05:56,160  
video

132  
00:06:00,469 --> 00:05:58,620  
yeah that it's something that I thought

133  
00:06:02,210 --> 00:06:00,479  
of immediately and it was along the same

134  
00:06:04,670 --> 00:06:02,220  
lines as what I thought of as a previous

135  
00:06:07,490 --> 00:06:04,680  
comments is that um like I feel like

136  
00:06:09,710 --> 00:06:07,500  
it's a little bit danger maybe

137  
00:06:11,390 --> 00:06:09,720  
potentially dangerous in some ways for a

138  
00:06:12,310 --> 00:06:11,400

president former president Obama to sort

139

00:06:15,350 --> 00:06:12,320

of like

140

00:06:17,990 --> 00:06:15,360

encourage people to think it might mean

141

00:06:20,390 --> 00:06:18,000

aliens uh and it goes against all of the

142

00:06:22,010 --> 00:06:20,400

internal National Security documents

143

00:06:23,090 --> 00:06:22,020

suggesting they don't want people to be

144

00:06:24,650 --> 00:06:23,100

encouraged to think that so it's

145

00:06:25,670 --> 00:06:24,660

confusing on those grounds what did you

146

00:06:28,730 --> 00:06:25,680

think

147

00:06:30,350 --> 00:06:28,740

I I'm assuming he doesn't really know

148

00:06:32,570 --> 00:06:30,360

that people some people take this she

149

00:06:34,670 --> 00:06:32,580

doesn't hang out on UFO Twitter right he

150

00:06:37,909 --> 00:06:34,680

has no idea what kind of epistemological

151  
00:06:40,550 --> 00:06:37,919  
firefighting goes on 24 7. that's got to

152  
00:06:43,249 --> 00:06:40,560  
be the excuse because I don't know I

153  
00:06:45,170 --> 00:06:43,259  
mean I if if uh if

154  
00:06:46,909 --> 00:06:45,180  
one of your parents saw that ad would

155  
00:06:48,350 --> 00:06:46,919  
they take away anything from it I

156  
00:06:51,430 --> 00:06:48,360  
seriously doubt it or just anyone

157  
00:06:53,990 --> 00:06:51,440  
outside of this small community I don't

158  
00:06:56,029 --> 00:06:54,000  
this is the kind of AD where like if my

159  
00:06:58,790 --> 00:06:56,039  
parents saw it they'd send it to me and

160  
00:07:00,550 --> 00:06:58,800  
be like oh look he said aliens isn't

161  
00:07:04,370 --> 00:07:00,560  
that what you're interested in

162  
00:07:05,809 --> 00:07:04,380  
that would be it yeah that is such a

163  
00:07:08,029 --> 00:07:05,819

it's so funny that's exactly like

164

00:07:09,650 --> 00:07:08,039

anytime I've mentioned to somebody in my

165

00:07:12,350 --> 00:07:09,660

like personal life that I'm sort of like

166

00:07:14,029 --> 00:07:12,360

doing UFO skepticisms type stuff the

167

00:07:16,090 --> 00:07:14,039

next time I see them inevitably it's

168

00:07:18,850 --> 00:07:16,100

always how's the alien stuff going yeah

169

00:07:21,650 --> 00:07:18,860

no thanks awesome

170

00:07:23,749 --> 00:07:21,660

what I like like when I came back from

171

00:07:25,610 --> 00:07:23,759

the New York City Symposium I like put

172

00:07:27,350 --> 00:07:25,620

my parents particularly my mother in

173

00:07:28,730 --> 00:07:27,360

crisis who totally thought that I was

174

00:07:30,469 --> 00:07:28,740

going when I talked about being into

175

00:07:32,150 --> 00:07:30,479

UFOs totally thought I was going to

176

00:07:34,670 --> 00:07:32,160

something like a comic book convention

177

00:07:36,170 --> 00:07:34,680

or like a Sci-Fi convention and then I

178

00:07:38,570 --> 00:07:36,180

come home and I'm chattering away about

179

00:07:40,730 --> 00:07:38,580

like you know not localized

180

00:07:44,029 --> 00:07:40,740

Consciousness psychedelics near-death

181

00:07:46,909 --> 00:07:44,039

experiences like and she was like what

182

00:07:48,529 --> 00:07:46,919

the [h\_\_h] where were you today like she

183

00:07:50,990 --> 00:07:48,539

thought you know it was like Mars

184

00:07:52,370 --> 00:07:51,000

Attacks figurines and Spock ears but

185

00:07:54,350 --> 00:07:52,380

it's actually way weirder than that

186

00:07:56,390 --> 00:07:54,360

actually it is interesting that the the

187

00:07:58,189 --> 00:07:56,400

public at large kind of just Associates

188

00:08:01,370 --> 00:07:58,199

those things though you know with

189

00:08:03,529 --> 00:08:01,380

something that is buying by name Unknown

190

00:08:05,930 --> 00:08:03,539

People all seem to kind of have an idea

191

00:08:07,249 --> 00:08:05,940

of what they think it is culturally I

192

00:08:10,189 --> 00:08:07,259

mean we've talked about that a million

193

00:08:12,050 --> 00:08:10,199

times just the uh the immediate like

194

00:08:14,510 --> 00:08:12,060

just culturally known connection between

195

00:08:17,089 --> 00:08:14,520

space aliens and unidentified things

196

00:08:18,710 --> 00:08:17,099

that people are seeing yes and that's

197

00:08:20,990 --> 00:08:18,720

what they run every time it's in the

198

00:08:23,629 --> 00:08:21,000

news right it's like uh the footage from

199

00:08:25,490 --> 00:08:23,639

storming Area 51 like people in like you

200

00:08:27,529 --> 00:08:25,500

know alien masks running down the street

201  
00:08:29,510 --> 00:08:27,539  
and stuff and so it you know it sort of

202  
00:08:31,850 --> 00:08:29,520  
builds that expectation and gets the

203  
00:08:33,050 --> 00:08:31,860  
laughs and I guess we saw Obama kind of

204  
00:08:35,089 --> 00:08:33,060  
leaning into that a little bit because

205  
00:08:36,709 --> 00:08:35,099  
like my parents here if they saw

206  
00:08:38,750 --> 00:08:36,719  
President Obama's little thing there

207  
00:08:40,370 --> 00:08:38,760  
they would be like report what the hexy

208  
00:08:42,469 --> 00:08:40,380  
talking aliens they wouldn't have no

209  
00:08:45,470 --> 00:08:42,479  
idea what he was talking about probably

210  
00:08:46,910 --> 00:08:45,480  
yeah my parents I know for sure but a

211  
00:08:48,050 --> 00:08:46,920  
lot of people maybe uh something it's

212  
00:08:50,810 --> 00:08:48,060  
also you know it's courting the

213  
00:08:53,449 --> 00:08:50,820

demographic right like if it's stuff

214

00:08:55,070 --> 00:08:53,459

showing up on Twitter is going for the I

215

00:08:57,650 --> 00:08:55,080

don't know Millennial geriatric

216

00:08:59,750 --> 00:08:57,660

Millennials set yeah um

217

00:09:02,509 --> 00:08:59,760

yeah I mean it it was very it was

218

00:09:04,490 --> 00:09:02,519

literally a political ad so yeah

219

00:09:06,889 --> 00:09:04,500

you can't take it too seriously yeah

220

00:09:09,230 --> 00:09:06,899

yeah and uh the other thing I thought it

221

00:09:11,630 --> 00:09:09,240

was interesting was this Monday uh just

222

00:09:13,490 --> 00:09:11,640

uh yeah a couple days ago NASA started

223

00:09:16,730 --> 00:09:13,500

there um I believe it was a night it's

224

00:09:19,370 --> 00:09:16,740

nine month period uh UAP study uh

225

00:09:21,050 --> 00:09:19,380

program with 16 members on the uh

226

00:09:22,970 --> 00:09:21,060

commission a bunch of very high level

227

00:09:25,310 --> 00:09:22,980

people in the um

228

00:09:27,889 --> 00:09:25,320

the guy in charge of the chairman uh

229

00:09:30,410 --> 00:09:27,899

gosh what's his name Professor or doctor

230

00:09:32,389 --> 00:09:30,420

uh I've got it right here I was gonna

231

00:09:33,650 --> 00:09:32,399

say the the tall white guy with the

232

00:09:37,070 --> 00:09:33,660

glasses right but that probably

233

00:09:39,110 --> 00:09:37,080

describes like the entire research panel

234

00:09:42,410 --> 00:09:39,120

yeah I'm going like through the document

235

00:09:44,150 --> 00:09:42,420

now and I can't okay David spurgle and

236

00:09:45,829 --> 00:09:44,160

uh he's got all kind of President of

237

00:09:49,009 --> 00:09:45,839

Simon's foundation Founding director

238

00:09:51,769 --> 00:09:49,019

I've asked uh computational astrophysics

239

00:09:55,670 --> 00:09:51,779

it's got Gene uh MacArthur genius fellow

240

00:09:58,070 --> 00:09:55,680

it's been excited anyone qualified more

241

00:09:59,990 --> 00:09:58,080

than a hundred thousand times cited in

242

00:10:01,790 --> 00:10:00,000

Publications

243

00:10:04,790 --> 00:10:01,800

um wasn't one of the people on the board

244

00:10:06,710 --> 00:10:04,800

a former member of Bigelow airspace

245

00:10:09,530 --> 00:10:06,720

that would be very interesting I've not

246

00:10:10,610 --> 00:10:09,540

seen I I thought I caught I thought I

247

00:10:13,130 --> 00:10:10,620

heard that

248

00:10:15,769 --> 00:10:13,140

I can't recall now something to look

249

00:10:17,690 --> 00:10:15,779

into for sure at least yeah I believe it

250

00:10:19,730 --> 00:10:17,700

was yeah I mean we we saw it right like

251  
00:10:21,829 --> 00:10:19,740  
the collective Community reaction to

252  
00:10:25,610 --> 00:10:21,839  
this was pretty predictable right like

253  
00:10:27,650 --> 00:10:25,620  
that um you know there's too many mixed

254  
00:10:28,970 --> 00:10:27,660  
allegiances on This research panel

255  
00:10:31,970 --> 00:10:28,980  
they're not going to be able to explore

256  
00:10:33,410 --> 00:10:31,980  
the subject in an unbiased fashion there

257  
00:10:35,570 --> 00:10:33,420  
was some statement I think made by

258  
00:10:37,790 --> 00:10:35,580  
spurge about how like we're looking

259  
00:10:39,769 --> 00:10:37,800  
into uaps but we don't have any reason

260  
00:10:42,230 --> 00:10:39,779  
to expect them to be extraterrestrial

261  
00:10:44,569 --> 00:10:42,240  
which immediately sent the community off

262  
00:10:46,250 --> 00:10:44,579  
and you know well they're in there

263  
00:10:48,230 --> 00:10:46,260

completely unqualified to take an

264

00:10:50,509 --> 00:10:48,240

unbiased approach

265

00:10:52,009 --> 00:10:50,519

um it's like I mean I think it's like

266

00:10:55,130 --> 00:10:52,019

the reaction to the content report all

267

00:10:56,810 --> 00:10:55,140

over again really right yeah yeah

268

00:10:59,150 --> 00:10:56,820

exactly and like

269

00:11:00,710 --> 00:10:59,160

um I I was scrolling through rather's

270

00:11:02,810 --> 00:11:00,720

Twitter account he had like some tweet

271

00:11:04,790 --> 00:11:02,820

that was basically like raise your hand

272

00:11:06,710 --> 00:11:04,800

if you're willing to accept the findings

273

00:11:09,590 --> 00:11:06,720

of like qualified scientists on this

274

00:11:11,810 --> 00:11:09,600

subject and

275

00:11:13,370 --> 00:11:11,820

um yeah watching his slow slide into

276

00:11:16,190 --> 00:11:13,380

kind of like

277

00:11:18,050 --> 00:11:16,200

cynical uh

278

00:11:19,370 --> 00:11:18,060

cynical distance from the community has

279

00:11:21,290 --> 00:11:19,380

been I don't know feels like looking

280

00:11:23,870 --> 00:11:21,300

into a crystal ball maybe in six months

281

00:11:24,650 --> 00:11:23,880

I'll be so burnt out that'll happen too

282

00:11:26,329 --> 00:11:24,660

um

283

00:11:28,370 --> 00:11:26,339

but uh you know I mean when I think

284

00:11:30,350 --> 00:11:28,380

about this NASA study um I mean it's

285

00:11:31,910 --> 00:11:30,360

it's not super well funded it seems kind

286

00:11:33,350 --> 00:11:31,920

of like a vanity project in a lot of

287

00:11:36,230 --> 00:11:33,360

ways right it helps promote public

288

00:11:37,670 --> 00:11:36,240

support it's pretty Don partisan uh it's

289

00:11:39,889 --> 00:11:37,680

not you know just creating weapons to

290

00:11:42,050 --> 00:11:39,899

kill each other which is also nice

291

00:11:44,269 --> 00:11:42,060

um you know but it when I think about

292

00:11:47,090 --> 00:11:44,279

where it could be potentially really

293

00:11:49,130 --> 00:11:47,100

helpful is basically an establishing

294

00:11:51,230 --> 00:11:49,140

like data

295

00:11:53,509 --> 00:11:51,240

um standards and governance around the

296

00:11:56,630 --> 00:11:53,519

subject like as a way to kind of be in a

297

00:11:58,370 --> 00:11:56,640

quote-unquote impartial third party to

298

00:11:59,389 --> 00:11:58,380

to create

299

00:12:01,970 --> 00:11:59,399

um

300

00:12:03,590 --> 00:12:01,980

yeah electricity data governance for the

301  
00:12:06,230 --> 00:12:03,600  
subject like what formats should be used

302  
00:12:08,750 --> 00:12:06,240  
how should things be discussed what's a

303  
00:12:10,850 --> 00:12:08,760  
proposed or potential pathway for

304  
00:12:12,769 --> 00:12:10,860  
reconciling disparate data sources from

305  
00:12:15,769 --> 00:12:12,779  
like different you know public private

306  
00:12:17,150 --> 00:12:15,779  
academic spaces um that to me feels like

307  
00:12:19,069 --> 00:12:17,160  
kind of the most interesting thing they

308  
00:12:20,870 --> 00:12:19,079  
could do with it given I think what is

309  
00:12:22,850 --> 00:12:20,880  
it like it's like a million dollars or

310  
00:12:24,350 --> 00:12:22,860  
something it's not a lot of money I

311  
00:12:27,050 --> 00:12:24,360  
don't recall exactly but yeah I remember

312  
00:12:28,910 --> 00:12:27,060  
it was uh yeah it was a scrap yeah

313  
00:12:31,250 --> 00:12:28,920

Louise uh have you looked at this at all

314

00:12:32,630 --> 00:12:31,260

uh the NASA study uh are you familiar

315

00:12:33,650 --> 00:12:32,640

with this at all I was curious what your

316

00:12:35,810 --> 00:12:33,660

thoughts are

317

00:12:38,210 --> 00:12:35,820

as an academic I haven't looked at it

318

00:12:39,670 --> 00:12:38,220

into it as such but I've heard about it

319

00:12:42,170 --> 00:12:39,680

um

320

00:12:44,509 --> 00:12:42,180

the first thing that comes to my mind is

321

00:12:47,389 --> 00:12:44,519

what would Stanton Friedman have thought

322

00:12:48,949 --> 00:12:47,399

if he was still around interesting he

323

00:12:51,590 --> 00:12:48,959

had he talked a lot of crap uh

324

00:12:54,769 --> 00:12:51,600

admittedly but yeah he did at least try

325

00:12:56,750 --> 00:12:54,779

to be kind of serious

326

00:12:59,090 --> 00:12:56,760

so I'm just wondering like if this

327

00:13:01,009 --> 00:12:59,100

disclosure the current so-called

328

00:13:02,750 --> 00:13:01,019

disclosure process was happening in the

329

00:13:04,490 --> 00:13:02,760

90s especially

330

00:13:05,260 --> 00:13:04,500

you know when you have the X-Files going

331

00:13:06,470 --> 00:13:05,270

on

332

00:13:07,310 --> 00:13:06,480

[Music]

333

00:13:09,590 --> 00:13:07,320

foreign

334

00:13:11,509 --> 00:13:09,600

Friedman now he was a he was a proponent

335

00:13:14,389 --> 00:13:11,519

to the end of the mj-12 documents wasn't

336

00:13:19,190 --> 00:13:14,399

he yes and also the Betty and Bonnie

337

00:13:25,310 --> 00:13:23,269

um you know he got mold a few like when

338

00:13:27,410 --> 00:13:25,320

it wasn't in 2013 also he was on this

339

00:13:31,930 --> 00:13:27,420

radio show with a professional

340

00:13:37,430 --> 00:13:35,569

I said that uh about the uh the star map

341

00:13:38,990 --> 00:13:37,440

discovered by Mercury fish with the

342

00:13:41,090 --> 00:13:39,000

hanging Marbles and stuff like that

343

00:13:43,850 --> 00:13:41,100

based on um yeah yeah limited

344

00:13:46,690 --> 00:13:43,860

information at the time and that like it

345

00:13:49,490 --> 00:13:46,700

was um definitively

346

00:13:51,470 --> 00:13:49,500

discredited after the hippocus

347

00:13:55,009 --> 00:13:51,480

um Mission you know brought back the

348

00:13:57,710 --> 00:13:55,019

updated star distance yeah but

349

00:14:00,350 --> 00:13:57,720

um uh Friedman just sort of um you know

350

00:14:03,410 --> 00:14:00,360

doubled down on that

351  
00:14:05,030 --> 00:14:03,420  
and we're done grade 12. as well you

352  
00:14:07,250 --> 00:14:05,040  
know I remember

353  
00:14:09,590 --> 00:14:07,260  
um even in the original Cosmos with Carl

354  
00:14:11,150 --> 00:14:09,600  
Sagan he kind of uh shot some holes in

355  
00:14:13,550 --> 00:14:11,160  
that star map idea just because yeah

356  
00:14:16,129 --> 00:14:13,560  
yeah yeah it was already kind of um

357  
00:14:18,650 --> 00:14:16,139  
questionable yeah and logical grounds

358  
00:14:20,930 --> 00:14:18,660  
but you know the Apocalypse Mission just

359  
00:14:23,210 --> 00:14:20,940  
like that was a final nail in the coffin

360  
00:14:24,889 --> 00:14:23,220  
yeah but you know you still have people

361  
00:14:26,829 --> 00:14:24,899  
today saying well maybe it was this

362  
00:14:29,030 --> 00:14:26,839  
other star system

363  
00:14:30,829 --> 00:14:29,040

it always kind of shifts when like the

364

00:14:32,569 --> 00:14:30,839

evidence you know this disconfirming

365

00:14:36,370 --> 00:14:32,579

evidence people just kind of

366

00:14:38,690 --> 00:14:36,380

well you know something else

367

00:14:40,430 --> 00:14:38,700

where am I supposed to even be I don't

368

00:14:43,069 --> 00:14:40,440

I'm still taken with this like

369

00:14:46,569 --> 00:14:43,079

professorial Smooth Move from Nick to

370

00:14:52,009 --> 00:14:49,730

I was trying to uh I was trying to see

371

00:14:54,889 --> 00:14:52,019

what year this book came out um captured

372

00:14:57,170 --> 00:14:54,899

it was uh not one of his most latest

373

00:14:59,569 --> 00:14:57,180

books before he died uh he broke it with

374

00:15:01,790 --> 00:14:59,579

like the um I believe it was like the

375

00:15:03,650 --> 00:15:01,800

niece of Betty Hill Kathleen Martin it

376

00:15:06,170 --> 00:15:03,660

looks like it was 2007 that this came

377

00:15:07,910 --> 00:15:06,180

out so I mean yeah he was pretty recent

378

00:15:10,790 --> 00:15:07,920

I mean feels like that was recent but

379

00:15:12,769 --> 00:15:10,800

that was quite a while ago

380

00:15:15,110 --> 00:15:12,779

yikes um

381

00:15:16,970 --> 00:15:15,120

but yeah I mean he was a stubborn dude I

382

00:15:20,030 --> 00:15:16,980

actually got to talk to him a couple

383

00:15:24,530 --> 00:15:20,040

times in the past like around uh 2011

384

00:15:26,689 --> 00:15:24,540

2012 and really really a stubborn person

385

00:15:30,110 --> 00:15:26,699

um coming from different perspectives

386

00:15:31,970 --> 00:15:30,120

too uh I mean he

387

00:15:34,730 --> 00:15:31,980

when asked for evidence when pressed for

388

00:15:37,189 --> 00:15:34,740

any evidence one of his main sources was

389

00:15:40,009 --> 00:15:37,199

Project Blue Book Special Report 14 I

390

00:15:41,810 --> 00:15:40,019

think is what it was yeah it was you

391

00:15:43,550 --> 00:15:41,820

know the best you could say out of some

392

00:15:45,410 --> 00:15:43,560

of those cases were they were

393

00:15:46,550 --> 00:15:45,420

inconclusive much like the case I'm

394

00:15:48,050 --> 00:15:46,560

going to present tonight it's

395

00:15:49,009 --> 00:15:48,060

inconclusive

396

00:15:51,290 --> 00:15:49,019

um

397

00:15:53,090 --> 00:15:51,300

but and it's a point I try to make when

398

00:15:54,949 --> 00:15:53,100

covering this case too

399

00:15:57,410 --> 00:15:54,959

um just because you have something

400

00:15:59,210 --> 00:15:57,420

inconclusive it's still a far leap and

401  
00:16:01,329 --> 00:15:59,220  
even an argument from ignorance to say

402  
00:16:03,290 --> 00:16:01,339  
that this unknown is

403  
00:16:05,509 --> 00:16:03,300  
extraterrestrial but he was very

404  
00:16:08,810 --> 00:16:05,519  
convinced of the Extraterrestrial origin

405  
00:16:10,250 --> 00:16:08,820  
of UFOs and I yeah I thought that was a

406  
00:16:13,129 --> 00:16:10,260  
really frustrating uh talking point

407  
00:16:15,050 --> 00:16:13,139  
speaking him the couple times I did it

408  
00:16:16,670 --> 00:16:15,060  
was quite interesting to see like uh

409  
00:16:19,009 --> 00:16:16,680  
just looking back briefly over his

410  
00:16:21,350 --> 00:16:19,019  
history uh last uh you know last time I

411  
00:16:25,389 --> 00:16:21,360  
checked like it he always stuck so

412  
00:16:29,389 --> 00:16:25,399  
firmly to the like the physical machine

413  
00:16:31,430 --> 00:16:29,399

bolts uh yeah exactly what anyone would

414

00:16:35,030 --> 00:16:31,440

picture you know Gray's in a vehicle

415

00:16:37,430 --> 00:16:35,040

like humanoid aliens in vehicles much

416

00:16:39,290 --> 00:16:37,440

like us coming down and visiting us

417

00:16:41,629 --> 00:16:39,300

um apparently abducting us and doing

418

00:16:43,970 --> 00:16:41,639

like rudimentary uh genetic and medical

419

00:16:46,550 --> 00:16:43,980

tests on us

420

00:16:48,410 --> 00:16:46,560

um yes and um and he originally what

421

00:16:51,290 --> 00:16:48,420

he's a nuclear physicist right and he

422

00:16:54,410 --> 00:16:51,300

worked on uh propulsion systems like

423

00:16:56,090 --> 00:16:54,420

nuclear reactors in aircraft uh yeah so

424

00:16:58,910 --> 00:16:56,100

I imagine that must have influenced his

425

00:17:01,550 --> 00:16:58,920

sort of in imagination when he would

426

00:17:02,689 --> 00:17:01,560

look up uh at these projects I feel like

427

00:17:04,549 --> 00:17:02,699

that gave him

428

00:17:07,370 --> 00:17:04,559

um a kind of a boost in credibility to a

429

00:17:08,809 --> 00:17:07,380

lot of average people yeah there's a

430

00:17:10,970 --> 00:17:08,819

website called the sources That Time

431

00:17:13,909 --> 00:17:10,980

Forgot do you guys know about that yes

432

00:17:15,470 --> 00:17:13,919

Kurt Collins right there's actually an

433

00:17:18,470 --> 00:17:15,480

article there

434

00:17:19,970 --> 00:17:18,480

um which um talks about Friedman he was

435

00:17:21,590 --> 00:17:19,980

part of a group that was like trying to

436

00:17:23,329 --> 00:17:21,600

replicate um

437

00:17:25,429 --> 00:17:23,339

a flying saucer like some of the

438

00:17:28,570 --> 00:17:25,439

characteristics and then trying to sort

439

00:17:30,950 --> 00:17:28,580

of put that into a machine but um

440

00:17:32,930 --> 00:17:30,960

didn't happen right

441

00:17:33,950 --> 00:17:32,940

I think it was a company which was I

442

00:17:35,870 --> 00:17:33,960

don't know it might have been like

443

00:17:36,950 --> 00:17:35,880

General Dynamics or something some

444

00:17:39,890 --> 00:17:36,960

company

445

00:17:41,810 --> 00:17:39,900

was like doing a small scale study kind

446

00:17:43,070 --> 00:17:41,820

of on what it would take to replicate

447

00:17:49,250 --> 00:17:43,080

the

448

00:17:52,010 --> 00:17:49,260

but I don't know it didn't really go

449

00:17:54,169 --> 00:17:52,020

very far but apparently Friedman was one

450

00:17:56,450 --> 00:17:54,179

of that part of that crew

451  
00:17:59,049 --> 00:17:56,460  
okay I was just thinking about the other

452  
00:18:01,730 --> 00:17:59,059  
side where are the five observable

453  
00:18:04,070 --> 00:18:01,740  
observables from is that something that

454  
00:18:05,870 --> 00:18:04,080  
uh Elizondo like came up with himself

455  
00:18:07,610 --> 00:18:05,880  
like where are these things from because

456  
00:18:10,909 --> 00:18:07,620  
they're always being cited and I

457  
00:18:12,710 --> 00:18:10,919  
realized I had no idea yeah the origin

458  
00:18:14,090 --> 00:18:12,720  
either I mean I hear Mick West mentioned

459  
00:18:16,070 --> 00:18:14,100  
them all the time too

460  
00:18:19,070 --> 00:18:16,080  
um I have a feeling that Elizondo came

461  
00:18:23,150 --> 00:18:21,230  
I don't know because they don't make any

462  
00:18:24,890 --> 00:18:23,160  
sense because most UFOs don't exhibit

463  
00:18:27,890 --> 00:18:24,900

the five observables the most convincing

464

00:18:29,330 --> 00:18:27,900

cases even right uh so uh you know

465

00:18:30,710 --> 00:18:29,340

whatever anyway that's an aside but it

466

00:18:32,210 --> 00:18:30,720

just made me think of it which is kind

467

00:18:33,770 --> 00:18:32,220

of strange I don't know the origin of

468

00:18:34,789 --> 00:18:33,780

that and then he says he's not a UFO guy

469

00:18:36,529 --> 00:18:34,799

but he's like coming up with the

470

00:18:38,510 --> 00:18:36,539

criteria with the right one I mean

471

00:18:42,169 --> 00:18:38,520

whatever anyway I don't want to bash on

472

00:18:43,370 --> 00:18:42,179

uh Elizondo too much right now but um uh

473

00:18:45,650 --> 00:18:43,380

oh okay I wanted to mention too actually

474

00:18:48,770 --> 00:18:45,660

around about the NASA study um did

475

00:18:52,370 --> 00:18:48,780

anybody here see uh John Greenwald uh

476

00:18:54,890 --> 00:18:52,380

posted a few days ago a foia internal uh

477

00:18:57,289 --> 00:18:54,900

report that the current chairman of the

478

00:18:59,450 --> 00:18:57,299

UAP study group David spurgle wrote in

479

00:19:02,150 --> 00:18:59,460

NASA uh it was like last year or

480

00:19:03,890 --> 00:19:02,160

something he circulated it internally a

481

00:19:06,409 --> 00:19:03,900

small report to explain what he thought

482

00:19:07,909 --> 00:19:06,419

was going on with UAP

483

00:19:09,770 --> 00:19:07,919

um I don't know that this is probably

484

00:19:13,430 --> 00:19:09,780

what collectively triggered the

485

00:19:15,529 --> 00:19:13,440

community the interesting okay yeah

486

00:19:17,270 --> 00:19:15,539

because uh that makes sense um because

487

00:19:18,770 --> 00:19:17,280

it was a few days ago and uh the

488

00:19:20,330 --> 00:19:18,780

document includes so he goes through

489

00:19:22,610 --> 00:19:20,340

like it's only two pages but it's like

490

00:19:24,650 --> 00:19:22,620

three paragraphs he's like so what is

491

00:19:27,049 --> 00:19:24,660

going on here number one

492

00:19:28,490 --> 00:19:27,059

um the really high speeds the shapes of

493

00:19:31,250 --> 00:19:28,500

potentially triangular objects are

494

00:19:33,650 --> 00:19:31,260

consistent with like some Advanced uh

495

00:19:34,970 --> 00:19:33,660

you know technology fighter craft and

496

00:19:36,650 --> 00:19:34,980

stuff that we're developing in the

497

00:19:39,529 --> 00:19:36,660

states and then he goes to the second

498

00:19:41,470 --> 00:19:39,539

paragraph and he says

499

00:19:44,029 --> 00:19:41,480

um there are

500

00:19:46,570 --> 00:19:44,039

atmospheric phenomena that our little

501  
00:19:48,130 --> 00:19:46,580  
understood he says that there are

502  
00:19:51,110 --> 00:19:48,140  
potentially

503  
00:19:53,870 --> 00:19:51,120  
semi-stable plasma structures that can

504  
00:19:57,230 --> 00:19:53,880  
form in the atmosphere and then he links

505  
00:19:59,390 --> 00:19:57,240  
to an a document about skirmians which

506  
00:20:02,690 --> 00:19:59,400  
are the lab reproducible by lightning

507  
00:20:04,610 --> 00:20:02,700  
equivalence yeah right so uh that's

508  
00:20:06,830 --> 00:20:04,620  
interesting that he has the second

509  
00:20:09,770 --> 00:20:06,840  
option he's like Advanced Fighters being

510  
00:20:11,750 --> 00:20:09,780  
seen some kind of atmospheric plasma

511  
00:20:14,390 --> 00:20:11,760  
phenomena semi-stable state that we

512  
00:20:16,090 --> 00:20:14,400  
aren't super uh familiar with and then

513  
00:20:18,409 --> 00:20:16,100

the third thing he says a potentially

514

00:20:19,850 --> 00:20:18,419

extraterrestrials but then he says oh

515

00:20:21,409 --> 00:20:19,860

it's quite interesting because he's like

516

00:20:23,330 --> 00:20:21,419

oh based on the technology level

517

00:20:26,029 --> 00:20:23,340

required to get here they could choose

518

00:20:28,669 --> 00:20:26,039

to not be seen so in his view what we're

519

00:20:31,070 --> 00:20:28,679

seeing as UFOs doesn't meet what he

520

00:20:33,529 --> 00:20:31,080

would expect from such a highly Advanced

521

00:20:37,310 --> 00:20:33,539

uh civilization and so he says it's very

522

00:20:39,470 --> 00:20:37,320

unlikely because of the observed uh you

523

00:20:40,610 --> 00:20:39,480

know features it's very unlikely to be

524

00:20:43,070 --> 00:20:40,620

extraterrestrial which I think is

525

00:20:44,810 --> 00:20:43,080

interesting to even addresses it

526

00:20:46,970 --> 00:20:44,820

um but yeah yeah did you guys have any

527

00:20:49,430 --> 00:20:46,980

thoughts on that rundown uh quite

528

00:20:51,710 --> 00:20:49,440

interesting I like Nick what about you

529

00:20:53,510 --> 00:20:51,720

uh the Extraterrestrial art I'm a little

530

00:20:55,549 --> 00:20:53,520

doobie stuff obviously I mean like I

531

00:20:57,350 --> 00:20:55,559

said there's never anything conclusively

532

00:20:59,029 --> 00:20:57,360

extraterrestrial about any of the

533

00:21:01,190 --> 00:20:59,039

sightings but um

534

00:21:03,230 --> 00:21:01,200

I hey I like the atmospheric plasma

535

00:21:05,630 --> 00:21:03,240

shout out that's that's kind of

536

00:21:07,430 --> 00:21:05,640

interesting I think so yeah right yeah

537

00:21:09,830 --> 00:21:07,440

it's nice that it's getting some uh some

538

00:21:11,210 --> 00:21:09,840

play Oh spooky was just asking was it

539

00:21:13,010 --> 00:21:11,220

written for us no it was a it was an

540

00:21:14,870 --> 00:21:13,020

internal report that was not supposed to

541

00:21:17,270 --> 00:21:14,880

be uh publicly released but it was

542

00:21:18,470 --> 00:21:17,280

subject to foia and Greenwald got it

543

00:21:20,210 --> 00:21:18,480

that way

544

00:21:22,430 --> 00:21:20,220

yeah and it sounds like a few of the

545

00:21:24,950 --> 00:21:22,440

audience members here I have shy Khan

546

00:21:27,470 --> 00:21:24,960

saying that the five observables here

547

00:21:30,770 --> 00:21:27,480

predates Elizondo and then we have our

548

00:21:32,510 --> 00:21:30,780

beloved simonfly saying that he thinks

549

00:21:35,029 --> 00:21:32,520

Elizondo did come up with this as his

550

00:21:40,390 --> 00:21:35,039

side hustle at eight times so not a

551  
00:21:44,930 --> 00:21:43,010  
where's that book

552  
00:21:47,630 --> 00:21:44,940  
yeah where is that it's coming out like

553  
00:21:49,370 --> 00:21:47,640  
2024 actually the book that I did Chris

554  
00:21:51,830 --> 00:21:49,380  
bledsoe's book is coming out like

555  
00:21:54,049 --> 00:21:51,840  
imminently like in the next four weeks

556  
00:21:57,070 --> 00:21:54,059  
yes UFO of God looking forward to

557  
00:22:03,169 --> 00:22:00,950  
about the um the five observables Travis

558  
00:22:07,010 --> 00:22:03,179  
Taylor hmm he might have been involved

559  
00:22:08,330 --> 00:22:07,020  
with that eh oh who knows yeah oh okay I

560  
00:22:09,830 --> 00:22:08,340  
don't know I don't know he would be an

561  
00:22:12,890 --> 00:22:09,840  
interesting figure though because of his

562  
00:22:14,570 --> 00:22:12,900  
I do have to eat that book I won't have

563  
00:22:17,210 --> 00:22:14,580

to eat them it's not coming in it's

564

00:22:18,890 --> 00:22:17,220

never gonna come out yeah how can I eat

565

00:22:21,590 --> 00:22:18,900

it if it never comes out

566

00:22:23,690 --> 00:22:21,600

we'll see I you know what if it does I

567

00:22:25,850 --> 00:22:23,700

gotta I gotta really look into how to

568

00:22:28,730 --> 00:22:25,860

actually consume a book but I'm actually

569

00:22:29,870 --> 00:22:28,740

worried I'm I'm feeling relaxed I don't

570

00:22:34,130 --> 00:22:29,880

think we're gonna be seeing that thing

571

00:22:36,770 --> 00:22:34,140

it'll be your uh fiber intake for oh for

572

00:22:38,149 --> 00:22:36,780

sure there's got to be a way to like

573

00:22:39,890 --> 00:22:38,159

physically do it I'm sure I'll be yeah

574

00:22:41,990 --> 00:22:39,900

just like shred it up and put it in like

575

00:22:44,149 --> 00:22:42,000

pasta or something I don't know like

576

00:22:45,950 --> 00:22:44,159

okay yeah I feel like I'm drawing on

577

00:22:47,270 --> 00:22:45,960

like all sorts of like drug ingesting

578

00:22:49,610 --> 00:22:47,280

modalities

579

00:22:50,690 --> 00:22:49,620

like recommend how you actually eat a

580

00:22:51,850 --> 00:22:50,700

book

581

00:22:53,870 --> 00:22:51,860

um

582

00:22:57,830 --> 00:22:53,880

across that bridge when I come to it if

583

00:23:00,289 --> 00:22:57,840

I come to it which I don't plan on

584

00:23:01,730 --> 00:23:00,299

we'll see

585

00:23:03,830 --> 00:23:01,740

um and well Leah what about you what did

586

00:23:06,590 --> 00:23:03,840

you think of the like the current

587

00:23:08,630 --> 00:23:06,600

chairman of the UAP study group at Nasa

588

00:23:10,310 --> 00:23:08,640

like his rundown of those three uh

589

00:23:14,090 --> 00:23:10,320

things like how does that comply with

590

00:23:15,950 --> 00:23:14,100

your view yeah so you know I um I mean

591

00:23:19,250 --> 00:23:15,960

this this confirms sort of my general

592

00:23:21,590 --> 00:23:19,260

view like I uh

593

00:23:24,110 --> 00:23:21,600

my

594

00:23:27,710 --> 00:23:24,120

where I sit in this kind of universe is

595

00:23:31,250 --> 00:23:27,720

generally that like I think

596

00:23:32,990 --> 00:23:31,260

I I find Notions of extraterrestrial EG

597

00:23:34,730 --> 00:23:33,000

like literal aliens coming from other

598

00:23:37,549 --> 00:23:34,740

planets visiting the United States an

599

00:23:41,289 --> 00:23:37,559

extremely long boat to draw I do think

600

00:23:44,810 --> 00:23:41,299

there are uh very compelling

601  
00:23:46,370 --> 00:23:44,820  
uh not necessarily agreeing but very

602  
00:23:48,529 --> 00:23:46,380  
compelling

603  
00:23:50,510 --> 00:23:48,539  
um Notions around non-human intelligence

604  
00:23:52,850 --> 00:23:50,520  
and engagements whether it's with like

605  
00:23:53,810 --> 00:23:52,860  
non-localized Consciousness or sort of

606  
00:23:55,850 --> 00:23:53,820  
like I think there's a lot of

607  
00:23:58,070 --> 00:23:55,860  
permutations that can take that far

608  
00:24:00,470 --> 00:23:58,080  
exceeds sort of the conventional like

609  
00:24:03,890 --> 00:24:00,480  
aliens from another planet

610  
00:24:08,270 --> 00:24:03,900  
um you know I think as a steward of this

611  
00:24:12,230 --> 00:24:08,280  
project he is under kind of a

612  
00:24:14,510 --> 00:24:12,240  
like he's under an obligation to

613  
00:24:16,730 --> 00:24:14,520

seriously interrogate this subject which

614

00:24:19,130 --> 00:24:16,740

in turn means evaluating and not

615

00:24:20,690 --> 00:24:19,140

dismissing any of the possibilities but

616

00:24:23,330 --> 00:24:20,700

also that it is

617

00:24:25,310 --> 00:24:23,340

again as a steward of this subject and

618

00:24:27,950 --> 00:24:25,320

as someone who

619

00:24:30,890 --> 00:24:27,960

um has a demonstrated track record of

620

00:24:33,110 --> 00:24:30,900

serious academic contribution like

621

00:24:34,970 --> 00:24:33,120

he has to serve as a filter and not a

622

00:24:36,770 --> 00:24:34,980

sponge otherwise the entire project is

623

00:24:39,549 --> 00:24:36,780

going to get sunk into pursuing all

624

00:24:43,370 --> 00:24:39,559

these little minutia instead of what is

625

00:24:46,970 --> 00:24:43,380

logistically speaking most likely to be

626

00:24:50,690 --> 00:24:48,710

so I mean I don't know it feels like a

627

00:24:52,610 --> 00:24:50,700

very reasonable conclusion I also agree

628

00:24:54,649 --> 00:24:52,620

with him I mean his statement about like

629

00:24:56,690 --> 00:24:54,659

if it is extraterrestrials like they're

630

00:24:58,850 --> 00:24:56,700

not going to be witnessed is like balls

631

00:24:59,630 --> 00:24:58,860

of plasma gas seems pretty reasonable to

632

00:25:01,190 --> 00:24:59,640

me

633

00:25:03,049 --> 00:25:01,200

um The Only Exception being if we're

634

00:25:04,669 --> 00:25:03,059

gonna go far afield in the Deep woo and

635

00:25:06,529 --> 00:25:04,679

be like well maybe the plasma is like

636

00:25:08,750 --> 00:25:06,539

exhibit some degree of Consciousness or

637

00:25:10,430 --> 00:25:08,760

self-organization uh those are not

638

00:25:12,710 --> 00:25:10,440

interchangeable self-organization

639

00:25:13,370 --> 00:25:12,720

doesn't mean something's conscious

640

00:25:17,570 --> 00:25:13,380

um

641

00:25:21,350 --> 00:25:17,580

but uh that seems like a maybe a bit too

642

00:25:22,970 --> 00:25:21,360

um fine grain or nuanced uh to come out

643

00:25:24,529 --> 00:25:22,980

of just like a basic memo so I don't

644

00:25:26,510 --> 00:25:24,539

know I feel stimuli like he's being a

645

00:25:27,830 --> 00:25:26,520

good Steward of the subject and I also

646

00:25:29,890 --> 00:25:27,840

feel like he certainly has the

647

00:25:32,450 --> 00:25:29,900

credentials to uh treat this subject

648

00:25:34,810 --> 00:25:32,460

seriously and with a degree of uh like

649

00:25:37,909 --> 00:25:34,820

legitimacy that it deserves

650

00:25:40,610 --> 00:25:37,919

interesting and Louise just to wrap up

651  
00:25:43,310 --> 00:25:40,620  
on this what do you think of that

652  
00:25:47,630 --> 00:25:43,320  
uh what specifically oh sorry yes the uh

653  
00:25:49,549 --> 00:25:47,640  
the the two-page uh Voyage uh report by

654  
00:25:52,549 --> 00:25:49,559  
John Greenwald would that summarized the

655  
00:25:54,769 --> 00:25:52,559  
current Chairman's uh views being number

656  
00:25:56,930 --> 00:25:54,779  
one uh

657  
00:25:58,789 --> 00:25:56,940  
technology number two atmospheric

658  
00:26:01,190 --> 00:25:58,799  
phenomena number three extraterrestrials

659  
00:26:03,529 --> 00:26:01,200  
but very unlikely

660  
00:26:04,970 --> 00:26:03,539  
yeah that sounds like a

661  
00:26:05,690 --> 00:26:04,980  
reasonable

662  
00:26:10,810 --> 00:26:05,700  
um

663  
00:26:13,669 --> 00:26:10,820

you know hierarchy yeah you approve yeah

664

00:26:16,010 --> 00:26:13,679

excellent another point for the plasma I

665

00:26:17,750 --> 00:26:16,020

guess yeah

666

00:26:19,850 --> 00:26:17,760

I mean another rate like it's super cool

667

00:26:21,169 --> 00:26:19,860

right like it's just an opportunity to

668

00:26:22,970 --> 00:26:21,179

learn more about the kind of Mysterious

669

00:26:24,769 --> 00:26:22,980

Universe we inhabit and I think that's

670

00:26:26,210 --> 00:26:24,779

really exciting you know yeah like at

671

00:26:29,630 --> 00:26:26,220

the end of the day it's super cool

672

00:26:31,310 --> 00:26:29,640

and I think it's pretty uh it could uh

673

00:26:32,750 --> 00:26:31,320

spiral into what we're going to be

674

00:26:34,970 --> 00:26:32,760

talking about with Lake Michigan because

675

00:26:38,029 --> 00:26:34,980

of the

676

00:26:40,250 --> 00:26:38,039

um observed features on radar of like uh

677

00:26:41,990 --> 00:26:40,260

forming uh some geometric shapes at

678

00:26:44,029 --> 00:26:42,000

times like apparent triangles and stuff

679

00:26:45,950 --> 00:26:44,039

which is what a feature of scorpions in

680

00:26:47,269 --> 00:26:45,960

the lab forming right needles uh and

681

00:26:49,130 --> 00:26:47,279

rectangles and things like that so

682

00:26:51,350 --> 00:26:49,140

pretty cool I drew a picture for you

683

00:26:54,590 --> 00:26:51,360

Campbell oh yeah what's the type of

684

00:26:57,169 --> 00:26:54,600

picture we'll see we'll see oh nice this

685

00:27:00,169 --> 00:26:57,179

is this was an excellent segue into uh

686

00:27:02,269 --> 00:27:00,179

the 1994 Lake Michigan case should I

687

00:27:03,409 --> 00:27:02,279

kick it off yeah take it away Nick

688

00:27:07,730 --> 00:27:03,419

that's what we're going to talk about

689

00:27:11,149 --> 00:27:07,740

yeah so okay March 8 1994.

690

00:27:12,409 --> 00:27:11,159

um it was a clear night cold

691

00:27:15,470 --> 00:27:12,419

um

692

00:27:18,110 --> 00:27:15,480

technically uh the Aurora Borealis was

693

00:27:20,029 --> 00:27:18,120

visible in uh parts of Michigan though

694

00:27:22,549 --> 00:27:20,039

growing up in Michigan they say that a

695

00:27:25,909 --> 00:27:22,559

lot and you can't quite see it but it's

696

00:27:28,010 --> 00:27:25,919

uh it's a data point right so around 9

697

00:27:30,470 --> 00:27:28,020

00 p.m in Grand Haven which is uh about

698

00:27:32,210 --> 00:27:30,480

30 miles north of Holland where the most

699

00:27:34,909 --> 00:27:32,220

of the on ground underground sightings

700

00:27:36,049 --> 00:27:34,919

happen a woman named Cindy Pravda was in

701

00:27:38,269 --> 00:27:36,059

her kitchen looking out her window

702

00:27:39,710 --> 00:27:38,279

talking on a phone to her friend and she

703

00:27:41,510 --> 00:27:39,720

witnessed and Leah can you pull up the

704

00:27:44,210 --> 00:27:41,520

first slide there

705

00:27:47,930 --> 00:27:44,220

I can I can add the slides to the stream

706

00:27:50,450 --> 00:27:47,940

but you're on your own pal sure okay

707

00:27:52,610 --> 00:27:50,460

um so what she described was uh a

708

00:27:54,590 --> 00:27:52,620

horizontal line of what she says it

709

00:27:56,990 --> 00:27:54,600

looks like four full moons uh bright

710

00:27:59,330 --> 00:27:57,000

white balls outer kitchen and the way

711

00:28:01,909 --> 00:27:59,340

she uh she was facing south outer window

712

00:28:03,769 --> 00:28:01,919

and um interestingly and I don't think

713

00:28:05,990 --> 00:28:03,779

this gets brought up very often the

714

00:28:08,090 --> 00:28:06,000

night before a trucker uh who was just

715

00:28:10,909 --> 00:28:08,100

south of Cindy's house on a highway

716

00:28:13,070 --> 00:28:10,919

there described a very similar sighting

717

00:28:15,769 --> 00:28:13,080

of a horizontal line of lights that he

718

00:28:17,630 --> 00:28:15,779

saw there that shot off but

719

00:28:19,130 --> 00:28:17,640

um back to Cindy this is um back on

720

00:28:21,890 --> 00:28:19,140

March 8th she's looking out the window

721

00:28:23,450 --> 00:28:21,900

and she sees this for uh string of four

722

00:28:25,250 --> 00:28:23,460

full moons that she calls it and the

723

00:28:26,870 --> 00:28:25,260

outward one keeps shooting away and

724

00:28:29,990 --> 00:28:26,880

coming back so kind of like a broken

725

00:28:32,269 --> 00:28:30,000

Newton's Cradle as uh as I show in this

726

00:28:34,789 --> 00:28:32,279

uh this drawing here now she watches

727

00:28:36,830 --> 00:28:34,799

this for about 25 minutes half an hour

728

00:28:40,370 --> 00:28:36,840

um before it just shoots off

729

00:28:44,029 --> 00:28:40,380

so that's we're around 9 30 P.M

730

00:28:46,970 --> 00:28:44,039

now uh like I said 30 miles South in

731

00:28:49,190 --> 00:28:46,980

Holland we start getting um the first on

732

00:28:51,049 --> 00:28:49,200

the ground Witnesses here and is this

733

00:28:53,930 --> 00:28:51,059

large enough can you guys see this well

734

00:28:56,390 --> 00:28:53,940

we've got uh points one two and three

735

00:28:59,630 --> 00:28:56,400

on the uh the kind of Infamous 9-1-1

736

00:29:01,610 --> 00:28:59,640

tape we uh we begin hearing the

737

00:29:03,649 --> 00:29:01,620

recordings of some of the witnesses the

738

00:29:05,510 --> 00:29:03,659

first voice you hear is Holly Graves

739

00:29:08,090 --> 00:29:05,520

she's at position two here

740

00:29:10,250 --> 00:29:08,100

she says what she sees and she she was

741

00:29:11,870 --> 00:29:10,260

uh this was brought to her attention by

742

00:29:14,029 --> 00:29:11,880

her children who were watching TV in the

743

00:29:15,289 --> 00:29:14,039

living room I visited this house and you

744

00:29:17,750 --> 00:29:15,299

can see right out that front window

745

00:29:18,830 --> 00:29:17,760

there used to be a farm just to If

746

00:29:21,889 --> 00:29:18,840

you're looking at the strong to the

747

00:29:23,930 --> 00:29:21,899

right there that they saw it the way she

748

00:29:26,210 --> 00:29:23,940

described it on the call was like a

749

00:29:28,850 --> 00:29:26,220

string of Christmas lights up in the sky

750

00:29:31,250 --> 00:29:28,860

so she seen colored lights kind of

751

00:29:33,169 --> 00:29:31,260

turning in a circle and moving in a

752

00:29:35,810 --> 00:29:33,179

Southern Direction here she's nearly on

753

00:29:38,090 --> 00:29:35,820

the corner of 16th and Country Club

754

00:29:39,710 --> 00:29:38,100

um the second voice you hear is

755

00:29:42,049 --> 00:29:39,720

um actually I think it's Troy Prince's

756

00:29:43,250 --> 00:29:42,059

cousin at first then Troy Prince they

757

00:29:45,430 --> 00:29:43,260

were up around the corner here in

758

00:29:49,010 --> 00:29:45,440

position one on a second floor balcony

759

00:29:51,529 --> 00:29:49,020

also looking out and what they saw

760

00:29:55,190 --> 00:29:51,539

um technically slightly before uh the

761

00:29:57,769 --> 00:29:55,200

graves is at position two he saw

762

00:29:59,750 --> 00:29:57,779

a group of Lights come together and form

763

00:30:02,090 --> 00:29:59,760

a circle and it starts spinning around

764

00:30:03,470 --> 00:30:02,100

he describes it like a wreath really

765

00:30:04,970 --> 00:30:03,480

similar to Holly's description of

766

00:30:06,889 --> 00:30:04,980

Christmas lights a string of lights up

767

00:30:10,070 --> 00:30:06,899

in the sky he says he saw these lights

768

00:30:12,470 --> 00:30:10,080

individually come together which um you

769

00:30:13,970 --> 00:30:12,480

don't hear much on the 911 call but this

770

00:30:15,769 --> 00:30:13,980

is Officer velthouse the responding

771

00:30:18,230 --> 00:30:15,779

officers uh incident report here where

772

00:30:22,310 --> 00:30:18,240

it goes into a little bit more detail of

773

00:30:24,470 --> 00:30:22,320

them coming together and uh traveling in

774

00:30:26,470 --> 00:30:24,480

the same distance so at this point you

775

00:30:29,510 --> 00:30:26,480

have people at position one and two both

776

00:30:31,070 --> 00:30:29,520

seeing this and describing it on tape in

777

00:30:33,769 --> 00:30:31,080

real time

778

00:30:35,930 --> 00:30:33,779

um the third uh the next voice you hear

779

00:30:37,850 --> 00:30:35,940

is actually Holly's husband Daryl I

780

00:30:40,310 --> 00:30:37,860

confirmed that with her personally

781

00:30:41,870 --> 00:30:40,320

um fairly recently and what he describes

782

00:30:44,090 --> 00:30:41,880

is he says he thought that maybe there

783

00:30:45,590 --> 00:30:44,100

were balloons with lights attached to

784

00:30:47,090 --> 00:30:45,600

them because by the time he's seeing

785

00:30:49,130 --> 00:30:47,100

this by the time the kids get him and

786

00:30:51,230 --> 00:30:49,140

out all out of the house to look at this

787

00:30:52,970 --> 00:30:51,240

they've split up again so they're no

788

00:30:54,710 --> 00:30:52,980

longer in that Circle formation that the

789

00:30:56,810 --> 00:30:54,720

kids originally saw and Drew pictures of

790

00:30:59,409 --> 00:30:56,820

and they're spreading apart and moving

791

00:31:02,570 --> 00:30:59,419

south down Country Club Country Club

792

00:31:04,549 --> 00:31:02,580

sorry Country Club Road

793

00:31:06,649 --> 00:31:04,559

um by this point they say that there's

794

00:31:09,169 --> 00:31:06,659

an officer on the way he's going to come

795

00:31:12,169 --> 00:31:09,179

to their house to observe this

796

00:31:16,430 --> 00:31:12,179

now Holly the the first 911 call is

797

00:31:18,710 --> 00:31:16,440

Holly it took place at 9 35 PM uh by 9

798

00:31:21,529 --> 00:31:18,720

45 officer velthouse has arrived at this

799

00:31:23,690 --> 00:31:21,539

house but just slightly before then um

800

00:31:25,250 --> 00:31:23,700

an anonymous woman and her son at

801  
00:31:27,909 --> 00:31:25,260  
position three here this is about two

802  
00:31:31,029 --> 00:31:27,919  
miles south so right down Country Club

803  
00:31:34,669 --> 00:31:31,039  
they described seeing these lights also

804  
00:31:37,490 --> 00:31:34,679  
split up now motionless hovering kind of

805  
00:31:39,649 --> 00:31:37,500  
before uh kind of in the middle of this

806  
00:31:42,289 --> 00:31:39,659  
drawing here the middle of this art

807  
00:31:44,389 --> 00:31:42,299  
they're motionless sitting there which

808  
00:31:46,310 --> 00:31:44,399  
uh Daryl Graves also describes later

809  
00:31:48,169 --> 00:31:46,320  
when the police officer shows up but

810  
00:31:51,470 --> 00:31:48,179  
then they start moving south again

811  
00:31:53,570 --> 00:31:51,480  
this is 9 45 PM now officer velt house

812  
00:31:55,909 --> 00:31:53,580  
arrives at Daryl and Holly Graves home

813  
00:31:57,889 --> 00:31:55,919

and he Witnesses these objects too

814

00:31:59,930 --> 00:31:57,899

through Daryl's binoculars and he says

815

00:32:01,789 --> 00:31:59,940

that they don't appear to be aircraft

816

00:32:05,029 --> 00:32:01,799

lights that they're kind of oscillating

817

00:32:06,649 --> 00:32:05,039

and he sees them in two clusters so he

818

00:32:08,750 --> 00:32:06,659

starts traveling south forearm Country

819

00:32:10,430 --> 00:32:08,760

Club to try to catch up with him he says

820

00:32:11,750 --> 00:32:10,440

he never does he ends up getting to a

821

00:32:13,909 --> 00:32:11,760

small airport that's south of there

822

00:32:16,370 --> 00:32:13,919

called tulip City airport but they had

823

00:32:19,130 --> 00:32:16,380

been closed since I think 8 pm

824

00:32:22,370 --> 00:32:19,140

and he loses sight of them so I want to

825

00:32:23,750 --> 00:32:22,380

like this is right before the uh the

826

00:32:25,310 --> 00:32:23,760

radar portion takes place so I'm going

827

00:32:26,690 --> 00:32:25,320

to stop here see if there's any

828

00:32:27,230 --> 00:32:26,700

questions

829

00:32:31,010 --> 00:32:27,240

um

830

00:32:33,230 --> 00:32:31,020

about the uh Simon Says military flares

831

00:32:36,470 --> 00:32:33,240

I don't know based on the based on the

832

00:32:38,630 --> 00:32:36,480

movement possibly maybe

833

00:32:40,310 --> 00:32:38,640

um but yeah any questions so far on this

834

00:32:42,889 --> 00:32:40,320

let's see yeah we have another question

835

00:32:45,289 --> 00:32:42,899

from swink McLeod here any idea how far

836

00:32:46,130 --> 00:32:45,299

up or how big these lights were now this

837

00:32:51,230 --> 00:32:46,140

was

838

00:32:53,930 --> 00:32:51,240

at this point by mufon by holding up

839

00:32:57,049 --> 00:32:53,940

objects at the end of uh oh yeah like a

840

00:32:58,970 --> 00:32:57,059

quarter or a nickel or whatever 3 000

841

00:33:01,370 --> 00:32:58,980

was what they came up with but keep in

842

00:33:04,789 --> 00:33:01,380

mind these are lights in the sky

843

00:33:06,590 --> 00:33:04,799

um so not very accurate and the radar uh

844

00:33:08,149 --> 00:33:06,600

then the next section that provides some

845

00:33:10,789 --> 00:33:08,159

more information about that right

846

00:33:12,289 --> 00:33:10,799

because uh yeah so she's saying uh from

847

00:33:14,509 --> 00:33:12,299

six to eight thousand feet I think it's

848

00:33:15,950 --> 00:33:14,519

uh mentioned on my slide

849

00:33:19,789 --> 00:33:15,960

um there's some contention to that uh

850

00:33:22,690 --> 00:33:19,799

Michael swords did the uh one of the uh

851

00:33:25,909 --> 00:33:22,700

the further investigations and he

852

00:33:28,870 --> 00:33:25,919

contend that um Jack Bouchon the radar

853

00:33:31,669 --> 00:33:28,880

operator meant kilometers not feet

854

00:33:32,990 --> 00:33:31,679

and just misspoke I don't know about the

855

00:33:34,430 --> 00:33:33,000

accuracy of that Jack has never

856

00:33:36,649 --> 00:33:34,440

corrected that I've talked to him

857

00:33:39,350 --> 00:33:36,659

multiple times and um

858

00:33:41,269 --> 00:33:39,360

he didn't seem to think so

859

00:33:44,090 --> 00:33:41,279

um I have a question this is maybe more

860

00:33:45,769 --> 00:33:44,100

of a people style question but in these

861

00:33:48,430 --> 00:33:45,779

circumstances what do you think prompts

862

00:33:51,169 --> 00:33:48,440

people to call 9-1-1

863

00:33:52,490 --> 00:33:51,179

the second question would be I haven't

864

00:33:55,310 --> 00:33:52,500

listened to these phone calls but are

865

00:33:57,710 --> 00:33:55,320

people distressed on the call no they

866

00:34:00,049 --> 00:33:57,720

seem amazed they're amused kind of

867

00:34:02,990 --> 00:34:00,059

they're chuckling they're like most of

868

00:34:05,210 --> 00:34:03,000

them uh kind of preface they're like I I

869

00:34:07,070 --> 00:34:05,220

know this isn't an emergency but I'm

870

00:34:08,329 --> 00:34:07,080

seeing something really weird can you

871

00:34:11,750 --> 00:34:08,339

come check it out

872

00:34:14,750 --> 00:34:11,760

and you can hear the operators uh kind

873

00:34:16,730 --> 00:34:14,760

of take on it change over at first he's

874

00:34:18,409 --> 00:34:16,740

like uh-huh okay yeah we're sending it

875

00:34:20,210 --> 00:34:18,419

and then more and more our people are

876  
00:34:21,710 --> 00:34:20,220  
coming he's like oh my God you can hear

877  
00:34:23,930 --> 00:34:21,720  
him getting kind of excited and a little

878  
00:34:25,849 --> 00:34:23,940  
weirded out especially when he ends up

879  
00:34:27,710 --> 00:34:25,859  
reaching out to the National Weather

880  
00:34:29,270 --> 00:34:27,720  
Service which is in Muskegon kind of

881  
00:34:31,550 --> 00:34:29,280  
close to Grand Haven where this starts

882  
00:34:32,930 --> 00:34:31,560  
so they call the weather office if if

883  
00:34:34,609 --> 00:34:32,940  
you don't mind me moving on I'll switch

884  
00:34:36,169 --> 00:34:34,619  
tomorrow I was gonna say we still have a

885  
00:34:38,270 --> 00:34:36,179  
couple questions

886  
00:34:40,129 --> 00:34:38,280  
um so we have one another one from swink

887  
00:34:42,770 --> 00:34:40,139  
didn't people see them for hours because

888  
00:34:44,329 --> 00:34:42,780

like we're already talking at least an

889

00:34:45,829 --> 00:34:44,339

hour probably right because the first

890

00:34:48,889 --> 00:34:45,839

person saw them for just about 100

891

00:34:51,649 --> 00:34:48,899

minutes it's it's kind it's kind of uh

892

00:34:54,889 --> 00:34:51,659

hard to estimate I would say that Jack

893

00:34:57,950 --> 00:34:54,899

the radar operator was called around 9

894

00:34:59,030 --> 00:34:57,960

50. that's my best guess it's uh it's

895

00:35:01,130 --> 00:34:59,040

not certain

896

00:35:03,410 --> 00:35:01,140

now technically the radar operator did

897

00:35:06,470 --> 00:35:03,420

watch them for hours uh the on the

898

00:35:08,329 --> 00:35:06,480

ground Witnesses it was more like 20 25

899

00:35:10,430 --> 00:35:08,339

minutes

900

00:35:12,890 --> 00:35:10,440

um or at least this group there were a

901  
00:35:14,990 --> 00:35:12,900  
smattering of people uh between here and

902  
00:35:18,050 --> 00:35:15,000  
the south end of the border of Michigan

903  
00:35:19,010 --> 00:35:18,060  
seeing brief sightings

904  
00:35:20,150 --> 00:35:19,020  
um I've talked to a couple other

905  
00:35:21,890 --> 00:35:20,160  
Witnesses

906  
00:35:23,990 --> 00:35:21,900  
and oh my friend Dylan's in the chat

907  
00:35:26,150 --> 00:35:24,000  
asking me a question um

908  
00:35:28,010 --> 00:35:26,160  
but you know they're a brief let's see

909  
00:35:29,450 --> 00:35:28,020  
which is Christmas you say they were

910  
00:35:30,290 --> 00:35:29,460  
colored some Christian songs are just

911  
00:35:33,109 --> 00:35:30,300  
white

912  
00:35:34,310 --> 00:35:33,119  
um she spoke to me just a few days ago

913  
00:35:35,270 --> 00:35:34,320

and she said they were also blue and

914

00:35:37,490 --> 00:35:35,280

green

915

00:35:40,490 --> 00:35:37,500

so not just white in the Unsolved

916

00:35:42,530 --> 00:35:40,500

Mysteries episode uh they also quote a

917

00:35:45,050 --> 00:35:42,540

police officer saying that they saw

918

00:35:46,310 --> 00:35:45,060

multi-colored in the same way yes that

919

00:35:49,550 --> 00:35:46,320

was officer belt house he was the

920

00:35:51,650 --> 00:35:49,560

responding here at the graves Helm okay

921

00:35:53,390 --> 00:35:51,660

um okay moving on to the radar section

922

00:35:57,290 --> 00:35:53,400

or do we have a couple more questions

923

00:35:59,450 --> 00:35:57,300

did did James oberg ever weigh in on

924

00:36:01,790 --> 00:35:59,460

this like uh maybe that it was a

925

00:36:05,329 --> 00:36:01,800

satellite re-entry or something I

926

00:36:07,310 --> 00:36:05,339

haven't heard that okay or possibly

927

00:36:09,589 --> 00:36:07,320

so we get to this point

928

00:36:12,109 --> 00:36:09,599

um Ottawa County dispatch is getting

929

00:36:13,849 --> 00:36:12,119

he makes a claim that there was a uh

930

00:36:15,770 --> 00:36:13,859

roughly 60 calls I don't know the

931

00:36:18,890 --> 00:36:15,780

accuracy of that um but that is what's

932

00:36:19,910 --> 00:36:18,900

recorded so he is advised to call the

933

00:36:21,890 --> 00:36:19,920

National Weather Service because they

934

00:36:23,450 --> 00:36:21,900

have a weather uh weather radar there up

935

00:36:25,730 --> 00:36:23,460

in Muskegon and he wants to see if they

936

00:36:27,950 --> 00:36:25,740

can show up on anything there at this

937

00:36:29,089 --> 00:36:27,960

point the uh the dispatch officer is

938

00:36:31,490 --> 00:36:29,099

suggesting that they're seeing radio

939

00:36:32,569 --> 00:36:31,500

towers uh bunking lights of radio towers

940

00:36:34,849 --> 00:36:32,579

though

941

00:36:38,270 --> 00:36:34,859

um the Sun the anonymous sun in position

942

00:36:40,790 --> 00:36:38,280

three uh denies that

943

00:36:42,170 --> 00:36:40,800

so that's his incident report they talk

944

00:36:44,150 --> 00:36:42,180

about speaking to Detroit Prince who's

945

00:36:45,890 --> 00:36:44,160

up around the corner a little bit in

946

00:36:47,630 --> 00:36:45,900

Holly Graves

947

00:36:49,670 --> 00:36:47,640

essentially seeing he saw lights they're

948

00:36:51,470 --> 00:36:49,680

oscillating they're very strange tried

949

00:36:54,470 --> 00:36:51,480

to follow them and lost them

950

00:36:57,770 --> 00:36:54,480

now we get to the radar operator who

951  
00:37:00,230 --> 00:36:57,780  
starts picking up uh returns anomalous

952  
00:37:01,849 --> 00:37:00,240  
returns at about South Haven which I

953  
00:37:03,770 --> 00:37:01,859  
think is another 30 or 40 miles miles

954  
00:37:06,290 --> 00:37:03,780  
south along the coast

955  
00:37:08,870 --> 00:37:06,300  
first he picks up one large return here

956  
00:37:11,150 --> 00:37:08,880  
he says they're very bright meaning

957  
00:37:14,510 --> 00:37:11,160  
um that they are reflecting the majority

958  
00:37:16,310 --> 00:37:14,520  
of the radar beam that it's sending out

959  
00:37:18,109 --> 00:37:16,320  
um you don't get like a shape or

960  
00:37:20,329 --> 00:37:18,119  
anything on the radar screen just kind

961  
00:37:22,130 --> 00:37:20,339  
of a hit he's what he's saying is that

962  
00:37:24,050 --> 00:37:22,140  
they're brighter than like conventional

963  
00:37:27,349 --> 00:37:24,060

aircraft or storms

964

00:37:28,550 --> 00:37:27,359

um in one of I I've spoken to jack a lot

965

00:37:30,829 --> 00:37:28,560

of times

966

00:37:32,569 --> 00:37:30,839

um in one of the conversations he said

967

00:37:35,390 --> 00:37:32,579

it crossed his mind at the time that

968

00:37:36,829 --> 00:37:35,400

they might be assisting the radar in

969

00:37:39,109 --> 00:37:36,839

some way just because of how bright they

970

00:37:42,050 --> 00:37:39,119

were kind of um shocked him he thought

971

00:37:43,609 --> 00:37:42,060

maybe they were contributing to it

972

00:37:45,950 --> 00:37:43,619

um and he said he definitely had the

973

00:37:48,109 --> 00:37:45,960

impression that they were aware of not

974

00:37:49,970 --> 00:37:48,119

only him observing them but the method

975

00:37:52,490 --> 00:37:49,980

in which he was observing them this is

976

00:37:55,670 --> 00:37:52,500

all an intuitive feeling that he had and

977

00:37:58,910 --> 00:37:55,680

this is yeah so by the method he means

978

00:38:01,550 --> 00:37:58,920

that he felt like intuitively that they

979

00:38:03,530 --> 00:38:01,560

could were reacting to being

980

00:38:05,690 --> 00:38:03,540

um like observed on radar kind of

981

00:38:07,490 --> 00:38:05,700

speculatively okay interesting yeah this

982

00:38:09,470 --> 00:38:07,500

reminds me of it reminds me of the

983

00:38:12,710 --> 00:38:09,480

Hudson Valley sightings where people

984

00:38:16,190 --> 00:38:12,720

felt like viewed with a sense of

985

00:38:17,870 --> 00:38:16,200

transcendence or inter interaction with

986

00:38:20,270 --> 00:38:17,880

what they're really saying yeah it's

987

00:38:22,490 --> 00:38:20,280

interesting so uh I drew this diagram to

988

00:38:24,710 --> 00:38:22,500

kind of describe the way he was seeing

989

00:38:27,410 --> 00:38:24,720

them so he was seeing them essentially

990

00:38:29,089 --> 00:38:27,420

cluster well first it was one contact

991

00:38:32,329 --> 00:38:29,099

and then it was three and they were kind

992

00:38:34,430 --> 00:38:32,339

of moving in a South Western Direction

993

00:38:36,109 --> 00:38:34,440

um and what he said was that they were

994

00:38:37,010 --> 00:38:36,119

uh sorry we got some questions in a

995

00:38:38,150 --> 00:38:37,020

minute

996

00:38:39,349 --> 00:38:38,160

um he said that they were in a

997

00:38:40,430 --> 00:38:39,359

triangular formation because when you're

998

00:38:43,310 --> 00:38:40,440

looking at the radar screen you're

999

00:38:46,010 --> 00:38:43,320

looking at a top-down perspective but

1000

00:38:47,630 --> 00:38:46,020

each of the each of the returns were at

1001  
00:38:50,990 --> 00:38:47,640  
different elevations and they would move

1002  
00:38:53,329 --> 00:38:51,000  
up and down in elevation but remain in a

1003  
00:38:55,790 --> 00:38:53,339  
triangular formation and they would kind

1004  
00:38:57,829 --> 00:38:55,800  
of uh one would shoot off and then the

1005  
00:39:00,370 --> 00:38:57,839  
rest would follow and meet up and

1006  
00:39:03,230 --> 00:39:00,380  
uh kind of meet in that formation again

1007  
00:39:05,150 --> 00:39:03,240  
not too unlike what Cindy Pravda

1008  
00:39:07,250 --> 00:39:05,160  
described at the beginning of the uh

1009  
00:39:09,829 --> 00:39:07,260  
sightings see a formation of the four

1010  
00:39:12,829 --> 00:39:09,839  
only horizontal and one would shoot off

1011  
00:39:13,690 --> 00:39:12,839  
and come back and then they all moved

1012  
00:39:16,250 --> 00:39:13,700  
so

1013  
00:39:17,690 --> 00:39:16,260

similar characteristics though I do want

1014

00:39:19,490 --> 00:39:17,700

to point out and this is really

1015

00:39:21,890 --> 00:39:19,500

important that we um we can't

1016

00:39:23,329 --> 00:39:21,900

conclusively connect these on the ground

1017

00:39:25,849 --> 00:39:23,339

visual sightings with the radar

1018

00:39:28,490 --> 00:39:25,859

sightings there is no point where we can

1019

00:39:30,410 --> 00:39:28,500

actually like nail down that someone was

1020

00:39:32,630 --> 00:39:30,420

looking at it and Jack was looking at it

1021

00:39:36,710 --> 00:39:32,640

at the same time I thought that was

1022

00:39:40,550 --> 00:39:36,720

so it's like at best it's like maybe

1023

00:39:42,890 --> 00:39:40,560

tightly correlated but there's no exact

1024

00:39:45,770 --> 00:39:42,900

direct line between the two it's moving

1025

00:39:47,630 --> 00:39:45,780

in the general same kind of curve that I

1026

00:39:49,970 --> 00:39:47,640

showed in um

1027

00:39:53,329 --> 00:39:49,980

in this slide here only on a larger

1028

00:39:55,550 --> 00:39:53,339

scale moving out past the coast of uh

1029

00:39:57,170 --> 00:39:55,560

uh Lake Michigan so the western coast of

1030

00:40:00,230 --> 00:39:57,180

Michigan

1031

00:40:01,970 --> 00:40:00,240

um here's a radar blank um so Jack

1032

00:40:03,829 --> 00:40:01,980

watches these from

1033

00:40:07,190 --> 00:40:03,839

you know like I said I kind of estimated

1034

00:40:08,210 --> 00:40:07,200

around 10 p.m till midnight now

1035

00:40:11,030 --> 00:40:08,220

um

1036

00:40:12,650 --> 00:40:11,040

he says by midnight they kind of swarmed

1037

00:40:15,170 --> 00:40:12,660

up here at the bottom where these red

1038

00:40:17,390 --> 00:40:15,180

dots are in Lake Michigan and he said

1039

00:40:19,010 --> 00:40:17,400

that he saw more returns coming in from

1040

00:40:20,510 --> 00:40:19,020

different directions and they all met at

1041

00:40:21,230 --> 00:40:20,520

this point and he describes it as kind

1042

00:40:23,329 --> 00:40:21,240

of like

1043

00:40:24,950 --> 00:40:23,339

a beehive or an ant hill where they were

1044

00:40:27,290 --> 00:40:24,960

just kind of moving around there and he

1045

00:40:31,970 --> 00:40:27,300

says he watched them till about midnight

1046

00:40:32,810 --> 00:40:31,980

now I wanted to address a comment I saw

1047

00:40:34,609 --> 00:40:32,820

um

1048

00:40:36,349 --> 00:40:34,619

it was about the

1049

00:40:38,990 --> 00:40:36,359

it was by hinch whether radar Jack

1050

00:40:40,310 --> 00:40:39,000

interviewed on the radar uh ended shift

1051  
00:40:42,290 --> 00:40:40,320  
at midnight and which time he said there

1052  
00:40:44,630 --> 00:40:42,300  
were does I don't know that was what I

1053  
00:40:46,970 --> 00:40:44,640  
was talking about someone mentioned the

1054  
00:40:50,870 --> 00:40:46,980  
um the waterfall UFO that was meant that

1055  
00:40:52,609 --> 00:40:50,880  
was shown in Unsolved Mysteries now the

1056  
00:40:56,270 --> 00:40:52,619  
narrative that that episode kind of

1057  
00:40:58,609 --> 00:40:56,280  
pushed was that uh

1058  
00:41:01,130 --> 00:40:58,619  
was that that sighting was taking place

1059  
00:41:02,930 --> 00:41:01,140  
at the same time he was watching them on

1060  
00:41:06,710 --> 00:41:02,940  
radar and it kind of pinpointed and

1061  
00:41:08,690 --> 00:41:06,720  
corroborated it now if you if you recall

1062  
00:41:11,630 --> 00:41:08,700  
um these things were all moving between

1063  
00:41:13,310 --> 00:41:11,640

10 and 11 down to this position and he

1064

00:41:15,890 --> 00:41:13,320

watched them you know 11 to midnight

1065

00:41:18,290 --> 00:41:15,900

Midnight was the time that those people

1066

00:41:19,849 --> 00:41:18,300

claimed that they saw it on the

1067

00:41:21,829 --> 00:41:19,859

they were sleeping on the coast of

1068

00:41:25,310 --> 00:41:21,839

Benton Harbor which is a little north

1069

00:41:26,810 --> 00:41:25,320

north and quite a bit east of this this

1070

00:41:28,370 --> 00:41:26,820

point here

1071

00:41:32,150 --> 00:41:28,380

um so the timeline doesn't really match

1072

00:41:32,930 --> 00:41:32,160

up and I'm I'm really dubious of that

1073

00:41:34,790 --> 00:41:32,940

account

1074

00:41:36,589 --> 00:41:34,800

um while it very well may be an original

1075

00:41:37,490 --> 00:41:36,599

account from the time

1076

00:41:39,530 --> 00:41:37,500

um

1077

00:41:41,690 --> 00:41:39,540

it appeared to have come from one of the

1078

00:41:43,490 --> 00:41:41,700

original Witnesses uh or I'm sorry one

1079

00:41:46,550 --> 00:41:43,500

of the original investigators from mufon

1080

00:41:49,550 --> 00:41:46,560

uh Jenny Tilly now she hadn't reported

1081

00:41:51,790 --> 00:41:49,560

on this citing in particular ever so

1082

00:41:55,609 --> 00:41:51,800

this this sighting was new to this show

1083

00:41:57,349 --> 00:41:55,619

and uh yeah when um when we're talking

1084

00:41:59,210 --> 00:41:57,359

about the event at what point in the

1085

00:42:01,370 --> 00:41:59,220

chronology of the event is mufon

1086

00:42:03,890 --> 00:42:01,380

involved like do they come out the next

1087

00:42:06,650 --> 00:42:03,900

day do they come out two weeks later

1088

00:42:08,329 --> 00:42:06,660

it's hard to pinpoint you know I've read

1089

00:42:11,089 --> 00:42:08,339

um I've read their personal reports and

1090

00:42:13,569 --> 00:42:11,099

I've read their Journal article and they

1091

00:42:16,310 --> 00:42:13,579

are very vague about that I know it's

1092

00:42:17,750 --> 00:42:16,320

fairly quickly because there is a

1093

00:42:19,010 --> 00:42:17,760

Michigan chapter they show up fairly

1094

00:42:22,730 --> 00:42:19,020

quickly I want to say what it's it's

1095

00:42:24,470 --> 00:42:22,740

within a week or so so uh I don't think

1096

00:42:26,810 --> 00:42:24,480

it's specifically known except for to

1097

00:42:28,370 --> 00:42:26,820

those people Donald K Ashley Jr and

1098

00:42:30,410 --> 00:42:28,380

Virginia Tilly were the move on

1099

00:42:31,670 --> 00:42:30,420

investigators right

1100

00:42:34,490 --> 00:42:31,680

so

1101  
00:42:36,050 --> 00:42:34,500  
um as I was saying uh clear night cold

1102  
00:42:36,890 --> 00:42:36,060  
night uh it's the middle of March in

1103  
00:42:39,710 --> 00:42:36,900  
Michigan

1104  
00:42:41,150 --> 00:42:39,720  
Jack uh and I in a bunch of our

1105  
00:42:43,010 --> 00:42:41,160  
conversations he always brings up the

1106  
00:42:44,569 --> 00:42:43,020  
fact that Lake Michigan was frozen over

1107  
00:42:47,030 --> 00:42:44,579  
that night but he believed that this

1108  
00:42:47,870 --> 00:42:47,040  
southern region here where they all met

1109  
00:42:49,550 --> 00:42:47,880  
up

1110  
00:42:51,410 --> 00:42:49,560  
um was one of the only spots on Lake

1111  
00:42:53,870 --> 00:42:51,420  
Michigan that wasn't frozen over

1112  
00:42:56,030 --> 00:42:53,880  
and he and I were having a discussion I

1113  
00:42:57,470 --> 00:42:56,040

said you know I believe the NOAA or at

1114

00:42:59,870 --> 00:42:57,480

least somebody keeps ice records of

1115

00:43:01,010 --> 00:42:59,880

those which I did find here and here

1116

00:43:03,890 --> 00:43:01,020

these are two records from actually

1117

00:43:05,390 --> 00:43:03,900

these are the the night before but if

1118

00:43:08,150 --> 00:43:05,400

you notice this section down here this

1119

00:43:10,670 --> 00:43:08,160

Lavender is uh five percent ice coverage

1120

00:43:13,790 --> 00:43:10,680

when the majority of it is about 96 here

1121

00:43:15,170 --> 00:43:13,800

that purple is about 90. so he was

1122

00:43:15,770 --> 00:43:15,180

correct

1123

00:43:17,809 --> 00:43:15,780

um

1124

00:43:20,210 --> 00:43:17,819

all right there

1125

00:43:21,650 --> 00:43:20,220

it could be a coincidence uh I I don't

1126  
00:43:22,730 --> 00:43:21,660  
see any like causal link between these

1127  
00:43:25,010 --> 00:43:22,740  
two things

1128  
00:43:26,510 --> 00:43:25,020  
um personally though it is another data

1129  
00:43:27,589 --> 00:43:26,520  
point that I want to bring up however

1130  
00:43:30,470 --> 00:43:27,599  
this is

1131  
00:43:31,970 --> 00:43:30,480  
um while doing uh kind of preliminary

1132  
00:43:34,370 --> 00:43:31,980  
research for the Unsolved Mystery

1133  
00:43:35,809 --> 00:43:34,380  
episode and during the filming um I did

1134  
00:43:37,970 --> 00:43:35,819  
notice that they put an emphasis on

1135  
00:43:40,430 --> 00:43:37,980  
asking me questions about water

1136  
00:43:41,809 --> 00:43:40,440  
sightings along Lake Michigan I believe

1137  
00:43:43,609 --> 00:43:41,819  
that was part of the story they were

1138  
00:43:45,770 --> 00:43:43,619

telling also

1139

00:43:48,589 --> 00:43:45,780

um I think that episode did a fairly

1140

00:43:50,630 --> 00:43:48,599

good job with telling the story

1141

00:43:53,109 --> 00:43:50,640

um in their limited time I know they'd

1142

00:43:55,670 --> 00:43:53,119

cut things down and stuff like that

1143

00:43:58,010 --> 00:43:55,680

but uh it's it's helpful to remember

1144

00:44:00,290 --> 00:43:58,020

that this is a story it's a TV show it's

1145

00:44:03,050 --> 00:44:00,300

for entertainment and um

1146

00:44:04,970 --> 00:44:03,060

narratives are added along with that so

1147

00:44:08,329 --> 00:44:04,980

him coming Jack coming back to Michigan

1148

00:44:10,370 --> 00:44:08,339

to solve this to to line up uh the radar

1149

00:44:11,450 --> 00:44:10,380

sightings in the visual sightings that

1150

00:44:13,970 --> 00:44:11,460

was kind of what they were going for

1151  
00:44:16,910 --> 00:44:13,980  
with the episode and they included that

1152  
00:44:19,490 --> 00:44:16,920  
waterfall UFO to kind of emphasize that

1153  
00:44:21,589 --> 00:44:19,500  
story now it's of my personal opinion

1154  
00:44:23,569 --> 00:44:21,599  
that um there may have been some

1155  
00:44:25,730 --> 00:44:23,579  
confabulation there there was another

1156  
00:44:27,890 --> 00:44:25,740  
case in 1994 in Australia I think we

1157  
00:44:29,930 --> 00:44:27,900  
talked about this a little bit last time

1158  
00:44:32,870 --> 00:44:29,940  
um Gosford Lake I believe it was that

1159  
00:44:34,970 --> 00:44:32,880  
involved sightings of UFOs sucking up

1160  
00:44:36,650 --> 00:44:34,980  
water from a reservoir or a lake or it

1161  
00:44:38,270 --> 00:44:36,660  
was a lake

1162  
00:44:40,430 --> 00:44:38,280  
um and I think that they may have

1163  
00:44:42,230 --> 00:44:40,440

confabulated those like I said this

1164

00:44:43,609 --> 00:44:42,240

could be an original account

1165

00:44:44,930 --> 00:44:43,619

um that waterfall UFO but I've

1166

00:44:47,329 --> 00:44:44,940

personally never heard it it's never

1167

00:44:49,010 --> 00:44:47,339

been reported on so and I don't really

1168

00:44:52,730 --> 00:44:49,020

think it adds any value to the story

1169

00:44:55,849 --> 00:44:52,740

it's not corroborated by um the 911

1170

00:44:56,809 --> 00:44:55,859

or um or Jack really it's just another

1171

00:44:58,069 --> 00:44:56,819

story

1172

00:45:00,589 --> 00:44:58,079

um I wouldn't put too much value into

1173

00:45:02,390 --> 00:45:00,599

that I find it very interesting that it

1174

00:45:05,030 --> 00:45:02,400

was added I think I mentioned this last

1175

00:45:07,849 --> 00:45:05,040

week too but like most of the comments I

1176  
00:45:11,089 --> 00:45:07,859  
see about that episode seem to revolve

1177  
00:45:12,109 --> 00:45:11,099  
around this uh water UFO thing isn't

1178  
00:45:13,670 --> 00:45:12,119  
that interesting

1179  
00:45:16,010 --> 00:45:13,680  
um yeah it's really capturing people's

1180  
00:45:17,870 --> 00:45:16,020  
attention it's quite intriguing and I

1181  
00:45:19,370 --> 00:45:17,880  
mean like like I said these claims you

1182  
00:45:23,089 --> 00:45:19,380  
hear about this happening I think even

1183  
00:45:24,230 --> 00:45:23,099  
the wynicue reservoir back in like 65 I

1184  
00:45:25,550 --> 00:45:24,240  
think that was in six five maybe it was

1185  
00:45:27,650 --> 00:45:25,560  
in the 50s I believe that was doing

1186  
00:45:29,809 --> 00:45:27,660  
something similar and why do you think

1187  
00:45:32,750 --> 00:45:29,819  
why is it that the the water being

1188  
00:45:35,630 --> 00:45:32,760

pulled up uh the why is that so popular

1189

00:45:37,370 --> 00:45:35,640

in the psychology do you think yeah why

1190

00:45:39,650 --> 00:45:37,380

are people like I mean I think I think

1191

00:45:44,030 --> 00:45:39,660

it's becoming popular because this is

1192

00:45:46,609 --> 00:45:44,040

sort of this has entered the community's

1193

00:45:48,470 --> 00:45:46,619

imagination because Elizondo has talked

1194

00:45:50,510 --> 00:45:48,480

about this right like chained to the Sea

1195

00:45:51,770 --> 00:45:50,520

talking about chains of the sea talking

1196

00:45:54,530 --> 00:45:51,780

about

1197

00:45:57,950 --> 00:45:54,540

um unidentified submersible objects yeah

1198

00:46:02,510 --> 00:46:00,290

um and so I think it's kind of also just

1199

00:46:05,569 --> 00:46:02,520

speaking to the community preoccupations

1200

00:46:07,550 --> 00:46:05,579

of the moment yeah I mean this is a Lake

1201

00:46:10,550 --> 00:46:07,560

Michigan UFO case maybe they wanted to

1202

00:46:12,790 --> 00:46:10,560

tie the like into it um Usos like I said

1203

00:46:15,950 --> 00:46:12,800

being in Vogue again

1204

00:46:17,870 --> 00:46:15,960

there's also the um nuclear energy issue

1205

00:46:20,030 --> 00:46:17,880

that maybe these crafts are being

1206

00:46:21,950 --> 00:46:20,040

powered by Fusion Energy so they're

1207

00:46:23,870 --> 00:46:21,960

[h\_\_\h] up water and separating the

1208

00:46:25,970 --> 00:46:23,880

they're getting the hydrogen out right

1209

00:46:27,829 --> 00:46:25,980

you know Lewis that's a great point

1210

00:46:30,710 --> 00:46:27,839

because it does kind of play into that

1211

00:46:32,750 --> 00:46:30,720

like free energy hydrogen there we go I

1212

00:46:35,450 --> 00:46:32,760

mean that's woven into the tapestry of

1213

00:46:37,609 --> 00:46:35,460

conspiracy theories absolutely um yeah

1214

00:46:39,890 --> 00:46:37,619

and the beach they've been trying to um

1215

00:46:42,349 --> 00:46:39,900

use the the what are they called the

1216

00:46:44,390 --> 00:46:42,359

Toca Mac reactors

1217

00:46:47,450 --> 00:46:44,400

um which you know about Campbell

1218

00:46:50,450 --> 00:46:47,460

um to try to get nuclear fusion but um

1219

00:46:53,210 --> 00:46:50,460

that's been like going for decades

1220

00:46:55,130 --> 00:46:53,220

yeah that's an unusual form but uh yeah

1221

00:46:57,589 --> 00:46:55,140

Soviet science somehow was better than

1222

00:46:59,690 --> 00:46:57,599

our science on the plasmas that uh

1223

00:47:02,150 --> 00:46:59,700

creating the donut shape was more stable

1224

00:47:05,690 --> 00:47:02,160

than a sphere uh it seems but uh yeah

1225

00:47:08,390 --> 00:47:05,700

still no success there but interestingly

1226

00:47:11,569 --> 00:47:08,400

um something that I just remembered uh

1227

00:47:12,890 --> 00:47:11,579

when you uh mentioned this uh Leah the

1228

00:47:15,050 --> 00:47:12,900

um

1229

00:47:16,730 --> 00:47:15,060

Dr Massimo theodorani is the

1230

00:47:20,030 --> 00:47:16,740

astrophysicist on the Galileo project

1231

00:47:21,650 --> 00:47:20,040

he's a a solar physicist I worked to

1232

00:47:23,690 --> 00:47:21,660

study at the medicina radio telescope

1233

00:47:26,870 --> 00:47:23,700

did the field studies at hezdoll and he

1234

00:47:28,849 --> 00:47:26,880

speculated uh back in 2004 that what he

1235

00:47:30,829 --> 00:47:28,859

was observing was some kind of

1236

00:47:32,630 --> 00:47:30,839

um basically exactly what the chairman

1237

00:47:35,870 --> 00:47:32,640

of NASA thing said he said some kind of

1238

00:47:37,970 --> 00:47:35,880

of plasma semi ball lightning some kind

1239

00:47:40,750 --> 00:47:37,980

of plasma phenomena occurring in these

1240

00:47:42,710 --> 00:47:40,760

various areas uh now he has speculated

1241

00:47:44,329 --> 00:47:42,720

uh that

1242

00:47:45,770 --> 00:47:44,339

they're not okay I don't necessarily

1243

00:47:48,109 --> 00:47:45,780

believe this but it's interesting

1244

00:47:49,250 --> 00:47:48,119

possibility that uh there may be some

1245

00:47:51,410 --> 00:47:49,260

kind of mechanism we don't fully

1246

00:47:54,170 --> 00:47:51,420

understand around these things and that

1247

00:47:58,010 --> 00:47:54,180

some a neutron stars then this is very

1248

00:48:00,170 --> 00:47:58,020

very highly uh speculative that UFOs

1249

00:48:02,329 --> 00:48:00,180

might actually represent a kind of

1250

00:48:04,849 --> 00:48:02,339

neutron star that is forming an Earth's

1251  
00:48:06,530 --> 00:48:04,859  
atmosphere because the features are so

1252  
00:48:09,349 --> 00:48:06,540  
similar to what you would expect from a

1253  
00:48:12,109 --> 00:48:09,359  
neutron star there's a North uh pole a

1254  
00:48:15,650 --> 00:48:12,119  
South Pole the uh neutron stars that we

1255  
00:48:17,809 --> 00:48:15,660  
observe eject material uh out of the um

1256  
00:48:19,849 --> 00:48:17,819  
the north the pole and then it

1257  
00:48:22,370 --> 00:48:19,859  
conceptually could be drawing in

1258  
00:48:24,470 --> 00:48:22,380  
material from the other pole

1259  
00:48:26,630 --> 00:48:24,480  
um the conservation of angular momentum

1260  
00:48:28,730 --> 00:48:26,640  
would cause the rotation this is

1261  
00:48:30,530 --> 00:48:28,740  
fascinating yes and this is all purely

1262  
00:48:33,589 --> 00:48:30,540  
speculative there's no evidence for this

1263  
00:48:35,390 --> 00:48:33,599

but I appreciate the Aesthetics of this

1264

00:48:39,230 --> 00:48:35,400

idea though it's very yes and if you

1265

00:48:42,650 --> 00:48:39,240

look look at uh even look at a a disc

1266

00:48:44,870 --> 00:48:42,660

Galaxy on the side it literally is a UFO

1267

00:48:47,690 --> 00:48:44,880

and uh this is what he sort of

1268

00:48:50,150 --> 00:48:47,700

speculates might be it's UFOs all the

1269

00:48:52,309 --> 00:48:50,160

way down Campbell well maybe that that's

1270

00:48:54,349 --> 00:48:52,319

sort of so interesting too Eric Davis uh

1271

00:48:56,930 --> 00:48:54,359

Ken shoulders these guys uh they think

1272

00:48:59,750 --> 00:48:56,940

that uh they think that the universe is

1273

00:49:01,790 --> 00:48:59,760

made up of uh tiny ball lightnings that

1274

00:49:04,069 --> 00:49:01,800

are interacting in these ways and uh

1275

00:49:05,870 --> 00:49:04,079

like it's an alternate cosmology for

1276

00:49:07,790 --> 00:49:05,880

which there is not uh sufficient

1277

00:49:09,410 --> 00:49:07,800

evidence right now to support but um

1278

00:49:11,450 --> 00:49:09,420

it's an interesting underlying feature

1279

00:49:13,069 --> 00:49:11,460

that a lot of these guys who have been

1280

00:49:15,730 --> 00:49:13,079

in this for so long

1281

00:49:18,650 --> 00:49:15,740

um they're committed to an alternative

1282

00:49:22,130 --> 00:49:18,660

cosmology of the entire universe that

1283

00:49:24,650 --> 00:49:22,140

replaces Dark Matter dark energy and uh

1284

00:49:26,750 --> 00:49:24,660

even gravity with pure electromagnetism

1285

00:49:28,750 --> 00:49:26,760

which is uh you know quite it's

1286

00:49:31,730 --> 00:49:28,760

fascinating

1287

00:49:35,630 --> 00:49:31,740

there was a there was a TV show

1288

00:49:40,550 --> 00:49:35,640

um going from 1993 to

1289

00:49:43,930 --> 00:49:40,560

oh [h\_\_h] well 9296 called Seaquest dsv oh

1290

00:49:46,730 --> 00:49:43,940

yeah I remember that yeah yeah

1291

00:49:50,150 --> 00:49:46,740

it's all in the talking dolphin and um

1292

00:49:53,270 --> 00:49:50,160

this giant um submarine and this um sort

1293

00:49:55,849 --> 00:49:53,280

of like a peacekeeping submarine and I

1294

00:49:58,910 --> 00:49:55,859

think it was fairly popular at the time

1295

00:50:00,710 --> 00:49:58,920

we had it in Australia um but um I don't

1296

00:50:05,890 --> 00:50:00,720

know maybe that's sort of aquatic theme

1297

00:50:10,990 --> 00:50:08,630

I wonder I wonder or it's all in the

1298

00:50:13,010 --> 00:50:11,000

mind of the director

1299

00:50:15,109 --> 00:50:13,020

there's a there's an audience comment

1300

00:50:16,970 --> 00:50:15,119

hear from Derek here I think people

1301  
00:50:18,770 --> 00:50:16,980  
correlate water with life so it Sparks

1302  
00:50:20,690 --> 00:50:18,780  
the imagination right I think actually

1303  
00:50:22,190 --> 00:50:20,700  
that's a really compelling idea or

1304  
00:50:24,109 --> 00:50:22,200  
thought right

1305  
00:50:25,910 --> 00:50:24,119  
um because we do associate water as

1306  
00:50:28,849 --> 00:50:25,920  
being I mean it is an essential part of

1307  
00:50:31,430 --> 00:50:28,859  
life so to make that connection uh make

1308  
00:50:34,550 --> 00:50:31,440  
sense to me and uh

1309  
00:50:36,470 --> 00:50:34,560  
um I'll just one last thing just uh it's

1310  
00:50:39,470 --> 00:50:36,480  
an interesting thing as well to note

1311  
00:50:41,510 --> 00:50:39,480  
that when uh like at the max blank

1312  
00:50:43,609 --> 00:50:41,520  
Institute for plasma physics in 2006

1313  
00:50:46,069 --> 00:50:43,619

when they were successfully replicating

1314

00:50:49,010 --> 00:50:46,079

old Soviet science claims of being able

1315

00:50:51,470 --> 00:50:49,020

to create uh semi

1316

00:50:54,349 --> 00:50:51,480

um you know it's a coherence plasmoids

1317

00:50:56,750 --> 00:50:54,359

in the lab they used

1318

00:51:00,950 --> 00:50:56,760

um an electric uh very high energy

1319

00:51:03,410 --> 00:51:00,960

electric discharge in a vat of water and

1320

00:51:06,109 --> 00:51:03,420

it is uh very intense

1321

00:51:08,450 --> 00:51:06,119

burst of electricity being applied to a

1322

00:51:10,309 --> 00:51:08,460

water body and you know there's dozens

1323

00:51:11,690 --> 00:51:10,319

of these videos online of the scientists

1324

00:51:15,950 --> 00:51:11,700

doing this and then out of the water

1325

00:51:17,329 --> 00:51:15,960

emerges a plasmoid that is often like I

1326  
00:51:18,890 --> 00:51:17,339  
mean has many of the features that we're

1327  
00:51:21,410 --> 00:51:18,900  
talking about so quite interesting that

1328  
00:51:23,990 --> 00:51:21,420  
it's like a high energy burst plus water

1329  
00:51:25,190 --> 00:51:24,000  
does produce plasmoids in the lab it's

1330  
00:51:27,410 --> 00:51:25,200  
definitely something to keep your mind

1331  
00:51:28,970 --> 00:51:27,420  
on when going through this yeah that's

1332  
00:51:30,230 --> 00:51:28,980  
something to think about I I saw a

1333  
00:51:32,510 --> 00:51:30,240  
question here Nick do you know if the

1334  
00:51:33,349 --> 00:51:32,520  
campsite has any sort of record

1335  
00:51:35,809 --> 00:51:33,359  
um

1336  
00:51:37,970 --> 00:51:35,819  
one I don't know if those Witnesses were

1337  
00:51:40,370 --> 00:51:37,980  
in a legitimate campsite or if they were

1338  
00:51:43,010 --> 00:51:40,380

just sleeping on the beach

1339

00:51:46,069 --> 00:51:43,020

um in Winter right in winter in Michigan

1340

00:51:50,569 --> 00:51:46,079

in Michigan on the lake shore

1341

00:51:52,250 --> 00:51:50,579

I will I will positively ball me I will

1342

00:51:53,930 --> 00:51:52,260

do the due diligence and actually look

1343

00:51:55,010 --> 00:51:53,940

into that I've already um been in

1344

00:51:57,890 --> 00:51:55,020

contact with a lot of the local

1345

00:52:00,410 --> 00:51:57,900

libraries up and down the shore about

1346

00:52:02,089 --> 00:52:00,420

um previous hot air balloon companies

1347

00:52:03,710 --> 00:52:02,099

that may have explained some of the on

1348

00:52:06,470 --> 00:52:03,720

the ground sightings they couldn't find

1349

00:52:08,870 --> 00:52:06,480

any there was none operating there um I

1350

00:52:10,309 --> 00:52:08,880

have to check out in you know further

1351  
00:52:11,750 --> 00:52:10,319  
sweeps and I'm going to add this to the

1352  
00:52:14,329 --> 00:52:11,760  
list because this case I'm still not

1353  
00:52:15,589 --> 00:52:14,339  
done with of course but um because it's

1354  
00:52:17,569 --> 00:52:15,599  
not solved yet

1355  
00:52:18,950 --> 00:52:17,579  
but uh that's that's a good point and

1356  
00:52:21,650 --> 00:52:18,960  
I'm gonna put a pin in that and check

1357  
00:52:23,089 --> 00:52:21,660  
that out that's a good idea um I you

1358  
00:52:24,829 --> 00:52:23,099  
know I'd really love to actually get in

1359  
00:52:27,650 --> 00:52:24,839  
touch with Jenny Tilly uh the

1360  
00:52:29,390 --> 00:52:27,660  
investigator I I had hoped when we went

1361  
00:52:30,829 --> 00:52:29,400  
to do the filming for this episode of

1362  
00:52:32,630 --> 00:52:30,839  
Unsolved Mysteries that I'd be able to

1363  
00:52:34,370 --> 00:52:32,640

connect with her

1364

00:52:36,049 --> 00:52:34,380

um and Troy Prince two people I haven't

1365

00:52:37,370 --> 00:52:36,059

been able to actually get a hold of one

1366

00:52:39,710 --> 00:52:37,380

when reaching out to the all the

1367

00:52:42,349 --> 00:52:39,720

original Witnesses in my investigation

1368

00:52:45,170 --> 00:52:42,359

um they kept us all separate so I didn't

1369

00:52:47,630 --> 00:52:45,180

have the opportunity I know that the

1370

00:52:49,670 --> 00:52:47,640

show got through her uh got through to

1371

00:52:50,809 --> 00:52:49,680

her through um I think a nephew or

1372

00:52:52,730 --> 00:52:50,819

something I didn't feel comfortable

1373

00:52:54,410 --> 00:52:52,740

doing that

1374

00:52:55,490 --> 00:52:54,420

um so hopefully our paths cross in the

1375

00:52:56,930 --> 00:52:55,500

future

1376  
00:53:00,530 --> 00:52:56,940  
um so we can talk about it she actually

1377  
00:53:02,569 --> 00:53:00,540  
plays uh another part of the story later

1378  
00:53:03,890 --> 00:53:02,579  
so we've we've the the sightings

1379  
00:53:05,150 --> 00:53:03,900  
concluded

1380  
00:53:06,589 --> 00:53:05,160  
um we've had the on the ground Witnesses

1381  
00:53:07,790 --> 00:53:06,599  
we've had Jack watching them on the

1382  
00:53:09,650 --> 00:53:07,800  
weather radar

1383  
00:53:11,150 --> 00:53:09,660  
um a lot of explanations for that

1384  
00:53:13,549 --> 00:53:11,160  
weather radar comes up

1385  
00:53:14,809 --> 00:53:13,559  
um ground clutter is one of them though

1386  
00:53:19,190 --> 00:53:14,819  
he can

1387  
00:53:21,170 --> 00:53:19,200  
cluttered due to the jumping elevations

1388  
00:53:23,809 --> 00:53:21,180

of these objects he would raise the beam

1389

00:53:26,089 --> 00:53:23,819

up at a high angle off the ground

1390

00:53:27,829 --> 00:53:26,099

clutter would come from the beam kind of

1391

00:53:31,250 --> 00:53:27,839

clipping the tops of buildings and trees

1392

00:53:33,349 --> 00:53:31,260

stuff like that showing an object there

1393

00:53:34,609 --> 00:53:33,359

um let alone their motion

1394

00:53:37,069 --> 00:53:34,619

um temperature inversions are another

1395

00:53:39,170 --> 00:53:37,079

suggestion I think that um

1396

00:53:41,630 --> 00:53:39,180

I think it was uh Robert Shaffer and

1397

00:53:43,190 --> 00:53:41,640

even Phil class at one point threw that

1398

00:53:46,069 --> 00:53:43,200

out there for this case and while that

1399

00:53:47,990 --> 00:53:46,079

doesn't necessarily explain the on the

1400

00:53:49,309 --> 00:53:48,000

ground eyewitness accounts

1401

00:53:51,530 --> 00:53:49,319

um I know that temperature inversions

1402

00:53:54,410 --> 00:53:51,540

were responsible or at least claimed to

1403

00:53:57,109 --> 00:53:54,420

be responsible for the uh the 1952

1404

00:53:59,210 --> 00:53:57,119

Washington DC UFO settings that were

1405

00:54:01,490 --> 00:53:59,220

also picked up on radar

1406

00:54:03,530 --> 00:54:01,500

um and it is something that would give a

1407

00:54:05,329 --> 00:54:03,540

radar return so it's another thing to

1408

00:54:08,329 --> 00:54:05,339

keep your mind on when we're going

1409

00:54:11,630 --> 00:54:08,339

through this case now as we mentioned

1410

00:54:13,670 --> 00:54:11,640

mufon was first on the scene as they

1411

00:54:16,130 --> 00:54:13,680

usually are they're the closest thing to

1412

00:54:18,650 --> 00:54:16,140

a household name for a UFO investigation

1413

00:54:20,750 --> 00:54:18,660

so of course Michigan mufon was on the

1414

00:54:23,030 --> 00:54:20,760

case now

1415

00:54:24,710 --> 00:54:23,040

um coming from the perspective of

1416

00:54:27,890 --> 00:54:24,720

Michael swords another investigator out

1417

00:54:31,250 --> 00:54:27,900

of jail and heineck's kufos in Illinois

1418

00:54:33,049 --> 00:54:31,260

um there was a reputation after uh after

1419

00:54:35,329 --> 00:54:33,059

mufan had come and gone that the kind of

1420

00:54:37,370 --> 00:54:35,339

uh harassed a lot of the witnesses and

1421

00:54:39,589 --> 00:54:37,380

put a sour taste in their mouth

1422

00:54:42,530 --> 00:54:39,599

I don't know the accuracy of that um it

1423

00:54:44,150 --> 00:54:42,540

seems to be the case but

1424

00:54:45,530 --> 00:54:44,160

not only did they mention uh they

1425

00:54:48,530 --> 00:54:45,540

interview all these witnesses that we

1426

00:54:49,370 --> 00:54:48,540

went through they also collected a lot

1427

00:54:51,710 --> 00:54:49,380

of

1428

00:54:53,630 --> 00:54:51,720

actually I believe it was um I have it

1429

00:54:54,530 --> 00:54:53,640

in it they mentioned in their Journal at

1430

00:54:58,069 --> 00:54:54,540

the time

1431

00:55:00,170 --> 00:54:58,079

that there were um sorry this one

1432

00:55:02,270 --> 00:55:00,180

10 videotapes and a dozen photographs

1433

00:55:05,270 --> 00:55:02,280

collected from this

1434

00:55:07,370 --> 00:55:05,280

sighting now this was uh in a UFO

1435

00:55:10,089 --> 00:55:07,380

Journal um this was the Michigan radar

1436

00:55:15,109 --> 00:55:10,099

case part one part two never came out

1437

00:55:17,630 --> 00:55:15,119

and uh suspicious yeah those photos or

1438

00:55:20,210 --> 00:55:17,640

videos were ever released now the the

1439

00:55:23,390 --> 00:55:20,220

article makes a specific mention twice

1440

00:55:24,950 --> 00:55:23,400

of a woman uh who lived near Decatur uh

1441

00:55:26,690 --> 00:55:24,960

she lived in a town called Marcellus

1442

00:55:30,109 --> 00:55:26,700

which is right by there but the

1443

00:55:32,930 --> 00:55:30,119

significance of that is Decatur is very

1444

00:55:34,609 --> 00:55:32,940

close to one of the radar returns that

1445

00:55:37,130 --> 00:55:34,619

Jack mentions and

1446

00:55:38,510 --> 00:55:37,140

um corroborated by the 911 tape where

1447

00:55:40,370 --> 00:55:38,520

he's calling off where he's picking up

1448

00:55:43,190 --> 00:55:40,380

these sightings one of them was over

1449

00:55:45,950 --> 00:55:43,200

Decatur it was kind of the uh the

1450

00:55:47,990 --> 00:55:45,960

easternmost object that he was tracking

1451

00:55:51,290 --> 00:55:48,000

uh hovered around there

1452

00:55:52,990 --> 00:55:51,300

this says around 9 30 I think that that

1453

00:55:56,390 --> 00:55:53,000

was probably an estimate after the fact

1454

00:55:57,770 --> 00:55:56,400

however I think that if if any of those

1455

00:56:01,069 --> 00:55:57,780

videos particularly this woman from

1456

00:56:04,069 --> 00:56:01,079

Marcellus this video had any kind of um

1457

00:56:06,829 --> 00:56:04,079

landmarks or anything or even a time

1458

00:56:08,450 --> 00:56:06,839

um we could probably close that Gap at

1459

00:56:09,710 --> 00:56:08,460

least a little bit uh between the

1460

00:56:12,170 --> 00:56:09,720

eyewitness sightings and the radar

1461

00:56:14,150 --> 00:56:12,180

sightings you know what I mean but like

1462

00:56:16,190 --> 00:56:14,160

I said these have never been released I

1463

00:56:17,450 --> 00:56:16,200

have reached out to the current chair of

1464

00:56:20,089 --> 00:56:17,460

Michigan mufon his name is Bill

1465

00:56:21,589 --> 00:56:20,099

concoleski uh he essentially ghosted me

1466

00:56:23,690 --> 00:56:21,599

and said that mufan likes to present

1467

00:56:27,349 --> 00:56:23,700

their own information on their own time

1468

00:56:29,569 --> 00:56:27,359

um 30 years later come on dude yeah and

1469

00:56:31,010 --> 00:56:29,579

see uh I when I found out I got cut from

1470

00:56:33,049 --> 00:56:31,020

this episode I was like well I think

1471

00:56:35,030 --> 00:56:33,059

concoleski is going to be in it and this

1472

00:56:37,250 --> 00:56:35,040

is a real opportunity for mufon to

1473

00:56:39,589 --> 00:56:37,260

present their evidence as they like

1474

00:56:40,609 --> 00:56:39,599

right what better possible platform

1475

00:56:43,370 --> 00:56:40,619

right because they're already

1476  
00:56:46,849 --> 00:56:43,380  
introducing new narratives right here's

1477  
00:56:48,170 --> 00:56:46,859  
mufon's chance right and I I noticed I

1478  
00:56:49,730 --> 00:56:48,180  
watched the episode the day it came out

1479  
00:56:51,410 --> 00:56:49,740  
and I noticed there was a it was

1480  
00:56:52,730 --> 00:56:51,420  
essentially a commercial for mufon right

1481  
00:56:54,410 --> 00:56:52,740  
in the middle of it flashed their logo

1482  
00:56:57,049 --> 00:56:54,420  
up talked about how much evidence they

1483  
00:56:59,210 --> 00:56:57,059  
collect how many members they have

1484  
00:57:01,130 --> 00:56:59,220  
and then they kind of failed to mention

1485  
00:57:02,750 --> 00:57:01,140  
what they do with that evidence or why

1486  
00:57:05,390 --> 00:57:02,760  
they're collecting it

1487  
00:57:06,890 --> 00:57:05,400  
um which I still did they fail to

1488  
00:57:08,450 --> 00:57:06,900

mention it or is there nothing to

1489

00:57:09,890 --> 00:57:08,460

mention and maybe there's nothing to

1490

00:57:12,049 --> 00:57:09,900

mention I mean they sell books maybe

1491

00:57:14,690 --> 00:57:12,059

there's shadowy forces behind the scenes

1492

00:57:17,270 --> 00:57:14,700

pulling the strings I mean we'll do make

1493

00:57:18,730 --> 00:57:17,280

that claim right of course they do but

1494

00:57:21,349 --> 00:57:18,740

it's UFOs

1495

00:57:23,510 --> 00:57:21,359

but uh the fact does remain that these

1496

00:57:26,390 --> 00:57:23,520

uh none of these photos or videos have

1497

00:57:27,890 --> 00:57:26,400

been released um I say why not I've been

1498

00:57:29,630 --> 00:57:27,900

told that they're not much of anything

1499

00:57:31,370 --> 00:57:29,640

you know lights in the sky but even if

1500

00:57:33,950 --> 00:57:31,380

there's any kind of identifying Landmark

1501

00:57:35,930 --> 00:57:33,960

they could be useful like let me

1502

00:57:37,790 --> 00:57:35,940

determine that let me determine if

1503

00:57:40,190 --> 00:57:37,800

you're useful or not let's see them even

1504

00:57:41,870 --> 00:57:40,200

if they're nothing right and it's

1505

00:57:43,549 --> 00:57:41,880

already you it's already UFOs that we're

1506

00:57:46,730 --> 00:57:43,559

talking about so like standards of

1507

00:57:49,910 --> 00:57:46,740

evidence and like epistemology here are

1508

00:57:51,950 --> 00:57:49,920

inconsequential I agree everything gets

1509

00:57:53,290 --> 00:57:51,960

decided in the court of public ufology

1510

00:57:56,030 --> 00:57:53,300

opinion

1511

00:57:57,410 --> 00:57:56,040

so yeah I'm not exactly sure I know

1512

00:57:59,270 --> 00:57:57,420

other people have reached out to him him

1513

00:58:00,710 --> 00:57:59,280

to try he says oh yeah let me dig those

1514

00:58:02,690 --> 00:58:00,720

up and then just kind of ghosts those

1515

00:58:05,630 --> 00:58:02,700

people too

1516

00:58:08,510 --> 00:58:05,640

um despite you know him coming on this

1517

00:58:11,390 --> 00:58:08,520

show as of last year I mean we filmed

1518

00:58:13,190 --> 00:58:11,400

last year promoting the show I mean um

1519

00:58:14,510 --> 00:58:13,200

he he agrees I mean these are the words

1520

00:58:16,430 --> 00:58:14,520

of Michael's swords but this is one of

1521

00:58:20,089 --> 00:58:16,440

the better observed cases

1522

00:58:22,130 --> 00:58:20,099

of modern times I mean we've got uh not

1523

00:58:23,690 --> 00:58:22,140

only do we have I uh independent

1524

00:58:25,069 --> 00:58:23,700

eyewitnesses that corroborate what

1525

00:58:26,690 --> 00:58:25,079

they're seeing but we have their

1526

00:58:28,970 --> 00:58:26,700

recordings of their statements in real

1527

00:58:31,910 --> 00:58:28,980

time so they haven't had the opportunity

1528

00:58:34,370 --> 00:58:31,920

to evolve in any way or be exaggerated

1529

00:58:37,309 --> 00:58:34,380

just by simple recall you can exaggerate

1530

00:58:39,710 --> 00:58:37,319

memories like this in fact if you notice

1531

00:58:41,990 --> 00:58:39,720

um in this episode that they presented

1532

00:58:43,370 --> 00:58:42,000

it's quite a bit more dramatic what

1533

00:58:45,069 --> 00:58:43,380

they're seeing than a string of

1534

00:58:47,510 --> 00:58:45,079

Christmas lights in this guy

1535

00:58:49,069 --> 00:58:47,520

but you know these things these things

1536

00:58:51,589 --> 00:58:49,079

happen this way I appreciate that 9-1-1

1537

00:58:54,289 --> 00:58:51,599

call none of the actual UFO

1538

00:58:56,750 --> 00:58:54,299

investigators on the scene be that mufon

1539

00:58:59,650 --> 00:58:56,760

nycap or kufos actually fought to get

1540

00:59:01,970 --> 00:58:59,660

that released it was a uh it was a local

1541

00:59:04,190 --> 00:59:01,980

writer from Muskegon Chronicle named

1542

00:59:05,809 --> 00:59:04,200

Mike Walsh he just went to the he he

1543

00:59:07,069 --> 00:59:05,819

called the police station said like hey

1544

00:59:08,870 --> 00:59:07,079

could I have a tape of that and they

1545

00:59:10,549 --> 00:59:08,880

just sent it right over I think that's

1546

00:59:12,410 --> 00:59:10,559

like one of the the best pieces of

1547

00:59:14,390 --> 00:59:12,420

evidence in this case so it makes it so

1548

00:59:16,970 --> 00:59:14,400

compelling is you can kind of um

1549

00:59:17,870 --> 00:59:16,980

you can cut uh sorry I'm getting ahead

1550

00:59:19,789 --> 00:59:17,880

of myself

1551  
00:59:21,710 --> 00:59:19,799  
um in that investigation Michael swords

1552  
00:59:24,289 --> 00:59:21,720  
from kufos came and met with Jack and

1553  
00:59:26,750 --> 00:59:24,299  
they made they took radar blanks and

1554  
00:59:28,430 --> 00:59:26,760  
redrew what he was seeing on the Scopes

1555  
00:59:30,589 --> 00:59:28,440  
because it was kind of an older machine

1556  
00:59:32,809 --> 00:59:30,599  
this was 1994 mind you but the machine

1557  
00:59:34,670 --> 00:59:32,819  
was a bit older than that and it didn't

1558  
00:59:37,069 --> 00:59:34,680  
create like a computer record so they

1559  
00:59:38,870 --> 00:59:37,079  
had to redo it after the fact but

1560  
00:59:40,789 --> 00:59:38,880  
luckily because of that tape we can kind

1561  
00:59:42,289 --> 00:59:40,799  
of corroborate what he's saying in real

1562  
00:59:44,270 --> 00:59:42,299  
time and match it up with some of his

1563  
00:59:45,710 --> 00:59:44,280

drawings I noticed that I think number

1564

00:59:47,270 --> 00:59:45,720

four and number five are out of order

1565

00:59:49,190 --> 00:59:47,280

because I think they're number they're

1566

00:59:51,109 --> 00:59:49,200

numbered for like 1 through 12 and he

1567

00:59:53,030 --> 00:59:51,119

does like a series of them some of them

1568

00:59:54,650 --> 00:59:53,040

are a little out of order but uh they do

1569

00:59:56,809 --> 00:59:54,660

match up with what he's saying on the

1570

00:59:57,829 --> 00:59:56,819

tape so it's the next best thing I

1571

00:59:59,690 --> 00:59:57,839

suppose

1572

01:00:01,370 --> 00:59:59,700

um and they they look like this

1573

01:00:02,569 --> 01:00:01,380

essentially I showed you an earlier one

1574

01:00:04,730 --> 01:00:02,579

too

1575

01:00:07,069 --> 01:00:04,740

were you able to say something yeah I

1576

01:00:07,670 --> 01:00:07,079

was going to say just in a high level

1577

01:00:09,770 --> 01:00:07,680

um

1578

01:00:12,370 --> 01:00:09,780

what makes this such an interesting case

1579

01:00:14,809 --> 01:00:12,380

to me is it has that cross system

1580

01:00:16,849 --> 01:00:14,819

corroboration right where you have

1581

01:00:18,950 --> 01:00:16,859

multiple systems that are generally

1582

01:00:20,030 --> 01:00:18,960

telling the same story right yeah it

1583

01:00:22,130 --> 01:00:20,040

doesn't mean they have conclusions about

1584

01:00:24,109 --> 01:00:22,140

what they're witnessing but I think the

1585

01:00:27,349 --> 01:00:24,119

most compelling cases are the ones where

1586

01:00:29,210 --> 01:00:27,359

you have both instrumentation that's

1587

01:00:31,010 --> 01:00:29,220

demonstrating some things going on in

1588

01:00:34,069 --> 01:00:31,020

addition to compelling witness testimony

1589

01:00:36,109 --> 01:00:34,079

in addition to some kind of on-the-spot

1590

01:00:38,210 --> 01:00:36,119

day Zero kind of documentation

1591

01:00:40,430 --> 01:00:38,220

associated with what the witnesses saw

1592

01:00:42,049 --> 01:00:40,440

right like right I'm with you where it

1593

01:00:44,750 --> 01:00:42,059

seems like this is like one of the

1594

01:00:46,309 --> 01:00:44,760

strongest cases full stop it's certainly

1595

01:00:49,069 --> 01:00:46,319

stronger than a lot of the kind of

1596

01:00:51,410 --> 01:00:49,079

popularly conceived of strong cases that

1597

01:00:52,730 --> 01:00:51,420

we see discussed in the community yeah I

1598

01:00:53,870 --> 01:00:52,740

agree and like I said at the beginning

1599

01:00:55,730 --> 01:00:53,880

of this

1600

01:00:58,010 --> 01:00:55,740

um nothing about any of these sightings

1601

01:01:01,609 --> 01:00:58,020

even insinuates in any way that it's

1602

01:01:04,430 --> 01:01:01,619

extraterrestrial or um even a craft of

1603

01:01:07,309 --> 01:01:04,440

any kind this is just kind of a an

1604

01:01:09,230 --> 01:01:07,319

aerial anomaly right but I feel I feel

1605

01:01:11,390 --> 01:01:09,240

convinced that at least the on the

1606

01:01:13,849 --> 01:01:11,400

ground people were looking at something

1607

01:01:15,109 --> 01:01:13,859

out of the ordinary

1608

01:01:18,230 --> 01:01:15,119

um a group of lights that comes together

1609

01:01:20,690 --> 01:01:18,240

and kind of encircles itself and moves

1610

01:01:22,910 --> 01:01:20,700

apart like that's pretty odd

1611

01:01:25,010 --> 01:01:22,920

um while it could have been orchestrated

1612

01:01:26,750 --> 01:01:25,020

as a hoax in some way that that's a

1613

01:01:28,609 --> 01:01:26,760

possibility

1614

01:01:30,410 --> 01:01:28,619

um but that in and of itself is kind of

1615

01:01:32,690 --> 01:01:30,420

out of the ordinary right you know yeah

1616

01:01:34,370 --> 01:01:32,700

and plus like after 30 odd years you

1617

01:01:36,049 --> 01:01:34,380

would generally

1618

01:01:37,549 --> 01:01:36,059

it feels like like that's not that

1619

01:01:39,170 --> 01:01:37,559

hasn't even

1620

01:01:41,089 --> 01:01:39,180

look I'm not I'm not the kind of case

1621

01:01:43,210 --> 01:01:41,099

expert you are but like the notion of it

1622

01:01:45,890 --> 01:01:43,220

being a hoax hasn't even kind of entered

1623

01:01:49,010 --> 01:01:45,900

any kind of dialogue around this case

1624

01:01:51,589 --> 01:01:49,020

not really I mean the closest one was uh

1625

01:01:53,329 --> 01:01:51,599

Holly's then husband Daryl on these the

1626

01:01:55,309 --> 01:01:53,339

the I think the third voice in the 911

1627

01:01:57,829 --> 01:01:55,319

call saying that they might be Balloons

1628

01:01:59,210 --> 01:01:57,839

with lights attached to them and he said

1629

01:02:01,430 --> 01:01:59,220

that just because

1630

01:02:03,950 --> 01:02:01,440

from what he saw he didn't see them come

1631

01:02:05,690 --> 01:02:03,960

together and from he only saw them in a

1632

01:02:07,730 --> 01:02:05,700

formation and then break apart and it

1633

01:02:09,589 --> 01:02:07,740

was kind of based on that

1634

01:02:11,150 --> 01:02:09,599

um oh and also it's verbal conjecture

1635

01:02:13,250 --> 01:02:11,160

while you're witnessing something that's

1636

01:02:14,930 --> 01:02:13,260

defying explanation like of course you

1637

01:02:17,690 --> 01:02:14,940

would say things like that because right

1638

01:02:19,910 --> 01:02:17,700

yeah verbally reasoning is uh observing

1639

01:02:21,289 --> 01:02:19,920

he he I don't know that he was even

1640

01:02:22,670 --> 01:02:21,299

convinced himself of that because you

1641

01:02:24,770 --> 01:02:22,680

can hear him chuckling about it and he

1642

01:02:26,089 --> 01:02:24,780

says they're out there man like and he

1643

01:02:28,069 --> 01:02:26,099

he seemed to be really excited that

1644

01:02:29,630 --> 01:02:28,079

other people were seeing and calling

1645

01:02:31,789 --> 01:02:29,640

them too

1646

01:02:34,670 --> 01:02:31,799

um uh it was I I was just thinking about

1647

01:02:37,309 --> 01:02:34,680

how like Louise I mentioned uh Jamesy

1648

01:02:38,930 --> 01:02:37,319

oberg the NASA scientist a former NASA I

1649

01:02:41,450 --> 01:02:38,940

guess yeah maybe still does contract

1650

01:02:43,549 --> 01:02:41,460

work but anyway he's a major uh skeptic

1651

01:02:46,670 --> 01:02:43,559

debunker of UFO stuff

1652

01:02:49,730 --> 01:02:46,680

um and it made me think it's like his uh

1653

01:02:51,650 --> 01:02:49,740

case doing the fireball

1654

01:02:54,049 --> 01:02:51,660

um satellite re-entry over Hawaii a few

1655

01:02:57,589 --> 01:02:54,059

years ago convinced me personally that

1656

01:02:59,150 --> 01:02:57,599

people can report something that uh like

1657

01:03:02,329 --> 01:02:59,160

huge numbers something that's seen Sam

1658

01:03:04,130 --> 01:03:02,339

sounds impossible to explain any normal

1659

01:03:05,690 --> 01:03:04,140

way and then it turns out that it can be

1660

01:03:08,210 --> 01:03:05,700

explained because that would event it

1661

01:03:09,530 --> 01:03:08,220

was a satellite re-entry but and I've

1662

01:03:10,670 --> 01:03:09,540

never seen one like this to like looked

1663

01:03:12,589 --> 01:03:10,680

up these videos I wouldn't have known

1664

01:03:15,170 --> 01:03:12,599

what it was if I saw it a few years ago

1665

01:03:17,690 --> 01:03:15,180

but it's like the satellite comes in and

1666

01:03:20,809 --> 01:03:17,700

it breaks up but then all the pieces are

1667

01:03:22,849 --> 01:03:20,819

traveling at the same speed right so it

1668

01:03:25,490 --> 01:03:22,859

looks and so then hundreds of people saw

1669

01:03:28,430 --> 01:03:25,500

this and then like half of them said

1670

01:03:31,370 --> 01:03:28,440

that they saw a structured craft because

1671

01:03:33,349 --> 01:03:31,380

your brain fills in the blanks with the

1672

01:03:35,630 --> 01:03:33,359

lights moving together at the same speed

1673

01:03:37,069 --> 01:03:35,640

so it is interesting to think it's like

1674

01:03:39,109 --> 01:03:37,079

if a bunch of people saw something like

1675

01:03:41,150 --> 01:03:39,119

that like that's a brief event though

1676

01:03:42,530 --> 01:03:41,160

that's like maybe 15 seconds across the

1677

01:03:44,210 --> 01:03:42,540

sky they're also strange because they

1678

01:03:46,010 --> 01:03:44,220

travel very slowly compared to what you

1679

01:03:47,569 --> 01:03:46,020

would expect from a shooting star so you

1680

01:03:50,210 --> 01:03:47,579

know it makes sense people would sort of

1681

01:03:53,450 --> 01:03:50,220

characterize them strangely but it would

1682

01:03:55,609 --> 01:03:53,460

it would almost require like multiple uh

1683

01:03:57,589 --> 01:03:55,619

fire like re-entries or something over

1684

01:03:59,349 --> 01:03:57,599

this period of time so it is intriguing

1685

01:04:02,809 --> 01:03:59,359

that there's no like

1686

01:04:04,130 --> 01:04:02,819

coherent uh like like sufficient

1687

01:04:05,630 --> 01:04:04,140

plausible sort of it's not like a

1688

01:04:07,309 --> 01:04:05,640

one-off observation of a light that

1689

01:04:09,650 --> 01:04:07,319

maybe is moving around stuff like it's

1690

01:04:11,750 --> 01:04:09,660

like multiple people you hear the tapes

1691

01:04:13,190 --> 01:04:11,760

from the police at the same time a bunch

1692

01:04:14,329 --> 01:04:13,200

of people from different places saying

1693

01:04:16,190 --> 01:04:14,339

like this line of light it's

1694

01:04:19,069 --> 01:04:16,200

multi-colored coming together circling

1695

01:04:21,109 --> 01:04:19,079

around dissipating very strange I agree

1696

01:04:22,970 --> 01:04:21,119

very interesting I mean I I think that

1697

01:04:24,890 --> 01:04:22,980

um the the satellite re-entry is even

1698

01:04:26,630 --> 01:04:24,900

similar to The Hudson Valley case which

1699

01:04:29,450 --> 01:04:26,640

I talk about all the time that it's like

1700

01:04:31,370 --> 01:04:29,460

nearly conclusively a group I mean

1701

01:04:32,990 --> 01:04:31,380

conclusively as far as I'm concerned a

1702

01:04:35,089 --> 01:04:33,000

group of small planes a group of

1703

01:04:36,230 --> 01:04:35,099

sessimists flying despite all these

1704

01:04:38,630 --> 01:04:36,240

people's

1705

01:04:40,789 --> 01:04:38,640

um extraordinary experiences they had

1706

01:04:42,950 --> 01:04:40,799

with it in fact uh even one person

1707

01:04:44,569 --> 01:04:42,960

experienced it hovering over water and

1708

01:04:47,630 --> 01:04:44,579

sending probes down

1709

01:04:49,370 --> 01:04:47,640

right well which I mean a group of

1710

01:04:51,470 --> 01:04:49,380

planes was not doing that so it's

1711

01:04:53,569 --> 01:04:51,480

interesting it's interesting but yeah I

1712

01:04:55,010 --> 01:04:53,579

think the just the fact that these

1713

01:04:57,829 --> 01:04:55,020

people were spread out independent

1714

01:04:59,930 --> 01:04:57,839

didn't know each other we're all very

1715

01:05:01,490 --> 01:04:59,940

closely describing the same thing

1716

01:05:04,370 --> 01:05:01,500

um even down to

1717

01:05:07,130 --> 01:05:04,380

when it stopped in position Daryl Graves

1718

01:05:09,170 --> 01:05:07,140

uh before officer velthouse showed up

1719

01:05:11,210 --> 01:05:09,180

was looking at his binoculars he said

1720

01:05:13,250 --> 01:05:11,220

they stopped and then that woman and her

1721

01:05:14,809 --> 01:05:13,260

son two miles south also made that same

1722

01:05:16,849 --> 01:05:14,819

claim that they hovered in position

1723

01:05:19,430 --> 01:05:16,859

after they broke up for a minute in one

1724

01:05:21,589 --> 01:05:19,440

place and then began to move again

1725

01:05:24,170 --> 01:05:21,599

it's it's odd it's compelling that it's

1726

01:05:27,289 --> 01:05:24,180

something possibly strange because as

1727

01:05:30,770 --> 01:05:27,299

far as I'm willing to take that but I am

1728

01:05:34,970 --> 01:05:32,990

this report right was anyone freaking

1729

01:05:37,010 --> 01:05:34,980

out was it traumatic

1730

01:05:39,890 --> 01:05:37,020

um I think the the other question I have

1731

01:05:43,430 --> 01:05:39,900

is what kind of conclusions do you hear

1732

01:05:44,870 --> 01:05:43,440

people draw does anybody say I mean I

1733

01:05:47,089 --> 01:05:44,880

assume people with a kind of just

1734

01:05:49,130 --> 01:05:47,099

colloquially use the term UFO because

1735

01:05:50,870 --> 01:05:49,140

that's like the you know waste basket

1736

01:05:52,910 --> 01:05:50,880

term for like anything you're gonna see

1737

01:05:56,390 --> 01:05:52,920

that you don't know what it is but does

1738

01:05:58,670 --> 01:05:56,400

anyone go like you know uh it's aliens

1739

01:06:02,089 --> 01:05:58,680

it's a spaceship it's a flying saucer

1740

01:06:04,190 --> 01:06:02,099

it's whatever or is it just kind of

1741

01:06:05,990 --> 01:06:04,200

descriptive terminology around like oh

1742

01:06:08,450 --> 01:06:06,000

it looks like Christmas lights and or

1743

01:06:10,250 --> 01:06:08,460

it's a UFO does anybody like vocalize

1744

01:06:12,049 --> 01:06:10,260

any kind of conclusions or speculation

1745

01:06:13,609 --> 01:06:12,059

yes

1746

01:06:16,490 --> 01:06:13,619

um Holly

1747

01:06:18,230 --> 01:06:16,500

isn't sure uh from when I from when I

1748

01:06:19,910 --> 01:06:18,240

talk to her I mean she thinks that she

1749

01:06:21,650 --> 01:06:19,920

thinks it's probably some type of flying

1750

01:06:23,270 --> 01:06:21,660

saucer but she doesn't know

1751

01:06:26,569 --> 01:06:23,280

um Jack feels a little more strongly

1752

01:06:27,710 --> 01:06:26,579

about that uh at least judging by when

1753

01:06:31,609 --> 01:06:27,720

I've

1754

01:06:33,410 --> 01:06:31,619

um spoken with him he sees this as uh he

1755

01:06:35,510 --> 01:06:33,420

or he interprets it as possibly them

1756

01:06:37,069 --> 01:06:35,520

communicating with him whatever this was

1757

01:06:39,289 --> 01:06:37,079

I mean he hasn't specifically said like

1758

01:06:40,609 --> 01:06:39,299

aliens from Zeta reticuli but he says

1759

01:06:42,170 --> 01:06:40,619

like

1760

01:06:43,670 --> 01:06:42,180

um in the tape one of the one of the

1761

01:06:45,109 --> 01:06:43,680

highlights of the tape and his portion

1762

01:06:47,390 --> 01:06:45,119

of the tape is when he says oh my God

1763

01:06:49,430 --> 01:06:47,400

when he screams oh my God it's shortly

1764

01:06:51,650 --> 01:06:49,440

after he was picking up a couple returns

1765

01:06:53,510 --> 01:06:51,660

he said when they formed up he thought

1766

01:06:55,789 --> 01:06:53,520

that they were forming an arrow pointing

1767

01:06:59,150 --> 01:06:55,799

directly at his weather station at first

1768

01:07:00,190 --> 01:06:59,160

at first but then when he says he he

1769

01:07:02,809 --> 01:07:00,200

felt

1770

01:07:04,490 --> 01:07:02,819

that they were aware of

1771

01:07:07,069 --> 01:07:04,500

him watching them and how they were

1772

01:07:08,930 --> 01:07:07,079

watching him he sees this as a form of

1773

01:07:10,609 --> 01:07:08,940

communication maybe as

1774

01:07:12,529 --> 01:07:10,619

a semiotic communication kind of like

1775

01:07:14,210 --> 01:07:12,539

valet says

1776

01:07:17,569 --> 01:07:14,220

um so he's I mean he feels pretty

1777

01:07:19,250 --> 01:07:17,579

convinced that it's E.T I mean he uh he

1778

01:07:21,049 --> 01:07:19,260

had as he describes kind of a connection

1779

01:07:28,370 --> 01:07:21,059

with this sighting that's quite

1780

01:07:32,329 --> 01:07:30,049

difference between Consciousness and

1781

01:07:34,970 --> 01:07:32,339

self-organizing systems right like we

1782

01:07:36,770 --> 01:07:34,980

see uh like Conway's Game of Life will

1783

01:07:38,450 --> 01:07:36,780

show you that system is self-organized

1784

01:07:39,890 --> 01:07:38,460

just algorithmically it has nothing to

1785

01:07:42,829 --> 01:07:39,900

do with whether there's actual thinking

1786

01:07:44,029 --> 01:07:42,839

or Minds behind it and um these are

1787

01:07:46,430 --> 01:07:44,039

behaviors

1788

01:07:48,470 --> 01:07:46,440

um patterns of behavior that you see

1789

01:07:51,770 --> 01:07:48,480

exhibited in all different kind of

1790

01:07:54,109 --> 01:07:51,780

states and materials whether it's the

1791

01:07:57,349 --> 01:07:54,119

way human self-organizing communities or

1792

01:07:58,549 --> 01:07:57,359

the way insects self-organize uh it's

1793

01:08:01,970 --> 01:07:58,559

it's basically just all part of

1794

01:08:04,609 --> 01:08:01,980

complexity signs yeah and when we talk

1795

01:08:08,210 --> 01:08:04,619

about uh the

1796

01:08:11,150 --> 01:08:08,220

inclination to attribute

1797

01:08:13,970 --> 01:08:11,160

um deliberate Behavior or communication

1798

01:08:16,490 --> 01:08:13,980

to these events

1799

01:08:19,789 --> 01:08:16,500

um it can very well be that you're

1800

01:08:21,470 --> 01:08:19,799

witnessing a system undergoing some

1801

01:08:23,809 --> 01:08:21,480

degree of self-organization and

1802

01:08:25,910 --> 01:08:23,819

reorganization without they're actually

1803

01:08:28,249 --> 01:08:25,920

being meaningful intelligence behind it

1804

01:08:30,590 --> 01:08:28,259

right right how do you distinguish uh

1805

01:08:33,110 --> 01:08:30,600

true intelligence from what you're

1806

01:08:35,689 --> 01:08:33,120

projecting onto something exactly yeah

1807

01:08:37,490 --> 01:08:35,699

and and like and you know you hear these

1808

01:08:38,809 --> 01:08:37,500

descriptions frequently when people talk

1809

01:08:41,990 --> 01:08:38,819

about what they've witnessed that oh

1810

01:08:43,970 --> 01:08:42,000

it's like it reminds them of like a b or

1811

01:08:46,249 --> 01:08:43,980

an insect's flight path or how they move

1812

01:08:49,370 --> 01:08:46,259

around right um

1813

01:08:51,769 --> 01:08:49,380

but my point it just is that things can

1814

01:08:55,070 --> 01:08:51,779

appear to like in in a very general

1815

01:08:57,590 --> 01:08:55,080

sense the same way a basic AI is

1816

01:08:59,630 --> 01:08:57,600

intelligent like you could say okay like

1817

01:09:03,249 --> 01:08:59,640

this behavior of self-organization is

1818

01:09:07,249 --> 01:09:03,259

also intelligent but that doesn't confer

1819

01:09:08,630 --> 01:09:07,259

Consciousness or general intelligence to

1820

01:09:10,490 --> 01:09:08,640

what you're witnessing it just means

1821

01:09:14,809 --> 01:09:10,500

that there's some sort of mechanistic

1822

01:09:16,970 --> 01:09:14,819

property to what uh the phenomena like

1823

01:09:19,970 --> 01:09:16,980

what the phenomenology of this event is

1824

01:09:21,650 --> 01:09:19,980

right that's why I I draw no conclusions

1825

01:09:23,689 --> 01:09:21,660

from this other than

1826

01:09:26,630 --> 01:09:23,699

um it's still a mystery it's something

1827

01:09:28,309 --> 01:09:26,640

to identify still and it's it's a really

1828

01:09:31,490 --> 01:09:28,319

interesting one because it doesn't seem

1829

01:09:33,950 --> 01:09:31,500

to fit into the the typical categories

1830

01:09:34,910 --> 01:09:33,960

um that was a really uh good point there

1831

01:09:37,189 --> 01:09:34,920

I think

1832

01:09:38,450 --> 01:09:37,199

um I just shared a video in our private

1833

01:09:39,890 --> 01:09:38,460

uh chat I don't know if you can play

1834

01:09:41,930 --> 01:09:39,900

that Leia just because I'm on my laptop

1835

01:09:44,570 --> 01:09:41,940

it'll uh freeze up when I tried the

1836

01:09:46,910 --> 01:09:44,580

screen share before but it shows a uh an

1837

01:09:49,309 --> 01:09:46,920

experiment on in

1838

01:09:51,970 --> 01:09:49,319

um a California University I can't

1839

01:09:54,130 --> 01:09:51,980

remember which one very high energy

1840

01:09:57,350 --> 01:09:54,140

microwave essentially

1841

01:09:59,870 --> 01:09:57,360

electromagnetic field applied to charged

1842

01:10:01,550 --> 01:09:59,880

flakes of carbon so they're behaving

1843

01:10:05,209 --> 01:10:01,560

like you would expect

1844

01:10:06,890 --> 01:10:05,219

you know plasmoids to behave and uh I I

1845

01:10:09,430 --> 01:10:06,900

would just I don't know if we can play

1846

01:10:11,930 --> 01:10:09,440

it but um

1847

01:10:13,610 --> 01:10:11,940

let me try we're gonna

1848

01:10:15,950 --> 01:10:13,620

I think based on what you were just

1849

01:10:17,450 --> 01:10:15,960

talking about it's going to be uh it's

1850

01:10:19,430 --> 01:10:17,460

good it's one of these videos that I've

1851  
01:10:21,530 --> 01:10:19,440  
sent to people uh over and over starting

1852  
01:10:24,229 --> 01:10:21,540  
last summer when they start talk about

1853  
01:10:26,090 --> 01:10:24,239  
the perception of intelligence yeah and

1854  
01:10:27,649 --> 01:10:26,100  
it is just uh when I first saw it I was

1855  
01:10:29,570 --> 01:10:27,659  
like okay well maybe none of us are

1856  
01:10:30,709 --> 01:10:29,580  
alive then this is just like pure

1857  
01:10:31,970 --> 01:10:30,719  
physics

1858  
01:10:34,250 --> 01:10:31,980  
all right I'm going to go ahead and

1859  
01:10:36,229 --> 01:10:34,260  
share this video okay you got it you

1860  
01:10:41,330 --> 01:10:36,239  
ready if you can turn up the resolution

1861  
01:10:44,870 --> 01:10:43,310  
okay there we go okay so they're yeah

1862  
01:10:47,090 --> 01:10:44,880  
they're moving the tiny little flakes of

1863  
01:10:48,250 --> 01:10:47,100

carbon moving around inside the

1864

01:10:50,270 --> 01:10:48,260

microwave

1865

01:10:52,910 --> 01:10:50,280

circling around the central energy

1866

01:10:55,370 --> 01:10:52,920

source they interact with each other

1867

01:10:57,050 --> 01:10:55,380

some of them are moving like uh the sort

1868

01:10:58,510 --> 01:10:57,060

of Falling Leaf effects some are jumping

1869

01:11:01,070 --> 01:10:58,520

forward periodically

1870

01:11:03,709 --> 01:11:01,080

some fall down from very high

1871

01:11:06,890 --> 01:11:03,719

instantaneously to surface level in

1872

01:11:08,810 --> 01:11:06,900

quotes why these look like Tic Tacs they

1873

01:11:09,950 --> 01:11:08,820

look like insects they look like living

1874

01:11:12,709 --> 01:11:09,960

things

1875

01:11:14,270 --> 01:11:12,719

um if you're using phased array radar on

1876

01:11:16,370 --> 01:11:14,280

an object like that you could move it

1877

01:11:18,470 --> 01:11:16,380

around physically with the radar beam

1878

01:11:20,870 --> 01:11:18,480

they interact with radar

1879

01:11:22,250 --> 01:11:20,880

they interact with uh all kinds of uh

1880

01:11:24,410 --> 01:11:22,260

you know any kind of thing that can be

1881

01:11:26,270 --> 01:11:24,420

charged so this video anyway very

1882

01:11:28,010 --> 01:11:26,280

interesting you can see it looks like a

1883

01:11:30,530 --> 01:11:28,020

living thing and it just breaks the

1884

01:11:32,390 --> 01:11:30,540

carpet charged I mean and it's very

1885

01:11:34,189 --> 01:11:32,400

similar to the claims of the uh kind of

1886

01:11:36,709 --> 01:11:34,199

behavior and movement of these things

1887

01:11:38,390 --> 01:11:36,719

yeah just that circling effect around

1888

01:11:39,709 --> 01:11:38,400

like it reminded me so much of what you

1889

01:11:41,750 --> 01:11:39,719

were saying coming together like that

1890

01:11:44,390 --> 01:11:41,760

yeah anyway who knows but uh intriguing

1891

01:11:46,550 --> 01:11:44,400

yeah oh so um

1892

01:11:47,689 --> 01:11:46,560

Jenny Tilly who I mentioned before I who

1893

01:11:50,870 --> 01:11:47,699

I believe is the source of that

1894

01:11:53,149 --> 01:11:50,880

waterfall UFO um she and a lot of

1895

01:11:55,729 --> 01:11:53,159

members of Michigan mufon

1896

01:11:57,950 --> 01:11:55,739

um ended up leaving because of the way

1897

01:12:01,550 --> 01:11:57,960

mufon was hand the handling of evidence

1898

01:12:04,370 --> 01:12:01,560

a lot of witnesses never got their uh

1899

01:12:06,470 --> 01:12:04,380

their provided photos or videos back

1900

01:12:09,169 --> 01:12:06,480

um and there was a big falling out and

1901

01:12:11,870 --> 01:12:09,179

she ended up creating a uh a new group

1902

01:12:13,910 --> 01:12:11,880

called beam up there b-i-m-u-p in Grand

1903

01:12:16,490 --> 01:12:13,920

Rapids uh this is a couple years later

1904

01:12:18,530 --> 01:12:16,500

and the on this is uh their publication

1905

01:12:22,189 --> 01:12:18,540

the outer connection I think this is the

1906

01:12:24,050 --> 01:12:22,199

only uh issue that exists wow and it was

1907

01:12:26,750 --> 01:12:24,060

uh it was all it was completely focused

1908

01:12:28,010 --> 01:12:26,760

on the Michigan 94 case uh did I tell

1909

01:12:32,270 --> 01:12:28,020

you you get this did you get this online

1910

01:12:33,770 --> 01:12:32,280

or uh this uh this image right here is

1911

01:12:35,030 --> 01:12:33,780

actually what started me down the road

1912

01:12:37,130 --> 01:12:35,040

for this case

1913

01:12:38,630 --> 01:12:37,140

um years ago an old friend of mine

1914

01:12:40,430 --> 01:12:38,640

showed me this he's like dude have you

1915

01:12:42,649 --> 01:12:40,440

ever seen this this was from this was

1916

01:12:44,750 --> 01:12:42,659

from in town and it just blew my mind

1917

01:12:46,610 --> 01:12:44,760

because it's it's from the mid 90s like

1918

01:12:48,470 --> 01:12:46,620

I I would have freaked out if I had

1919

01:12:50,810 --> 01:12:48,480

found this as a kid during this time I

1920

01:12:52,550 --> 01:12:50,820

was a big believer fever and UFOs in the

1921

01:12:54,950 --> 01:12:52,560

abduction phenomenon at the time I was a

1922

01:12:57,229 --> 01:12:54,960

big X-Files fan so seeing this would

1923

01:12:59,990 --> 01:12:57,239

have uh would have really freaked me out

1924

01:13:01,490 --> 01:13:00,000

so I was that's cool well this picture

1925

01:13:04,010 --> 01:13:01,500

that they showed me it was a very small

1926

01:13:06,410 --> 01:13:04,020

jpeg image of just this cover and I

1927

01:13:08,750 --> 01:13:06,420

searched for the full copy of it for a

1928

01:13:10,370 --> 01:13:08,760

really long time kind of forgot about it

1929

01:13:12,770 --> 01:13:10,380

and then during the pandemic another

1930

01:13:15,169 --> 01:13:12,780

body of mine kind of influenced me to go

1931

01:13:18,350 --> 01:13:15,179

into UFO podcasting before I realized

1932

01:13:21,770 --> 01:13:18,360

that that Market's oversaturated and uh

1933

01:13:23,450 --> 01:13:21,780

I I picked up my search for this and I

1934

01:13:26,630 --> 01:13:23,460

did find the full issue

1935

01:13:28,189 --> 01:13:26,640

um eventually yeah but this issue is

1936

01:13:30,410 --> 01:13:28,199

really interesting

1937

01:13:33,229 --> 01:13:30,420

um there was uh

1938

01:13:35,149 --> 01:13:33,239

she she did kind of a brief overview of

1939

01:13:37,010 --> 01:13:35,159

the case and about her disagreements

1940

01:13:39,290 --> 01:13:37,020

with mufan and why she left

1941

01:13:40,729 --> 01:13:39,300

um but there was another writer and I

1942

01:13:42,770 --> 01:13:40,739

can't remember his name and I can't read

1943

01:13:44,570 --> 01:13:42,780

it off of this what was his name Dave

1944

01:13:47,630 --> 01:13:44,580

Reinhardt that's what it is

1945

01:13:51,709 --> 01:13:47,640

Dave Reinhardt um another new member of

1946

01:13:53,689 --> 01:13:51,719

bema he tells this story in this issue

1947

01:13:55,970 --> 01:13:53,699

of um

1948

01:13:58,970 --> 01:13:55,980

internet chat rooms and forums this is

1949

01:13:59,750 --> 01:13:58,980

early internet we're talking 96 or so I

1950

01:14:02,030 --> 01:13:59,760

think

1951

01:14:04,310 --> 01:14:02,040

um and he meets this

1952

01:14:09,350 --> 01:14:04,320

figure with secret connection secret

1953

01:14:14,330 --> 01:14:12,350

he's going on um I he gives it like a a

1954

01:14:17,149 --> 01:14:14,340

pseudonym and they talk back and forth

1955

01:14:18,470 --> 01:14:17,159

he says he's a government Insider

1956

01:14:20,630 --> 01:14:18,480

um he says he's going he has information

1957

01:14:22,010 --> 01:14:20,640

for him secret information that he took

1958

01:14:24,830 --> 01:14:22,020

from the government is going to send it

1959

01:14:26,630 --> 01:14:24,840

to him and then allegedly this figure I

1960

01:14:28,610 --> 01:14:26,640

think he goes by the name Dave in this

1961

01:14:31,370 --> 01:14:28,620

the the pseudonym this deep throat

1962

01:14:33,410 --> 01:14:31,380

character uh allegedly dies and then

1963

01:14:36,470 --> 01:14:33,420

Dave Reinhardt receives an envelope a

1964

01:14:40,189 --> 01:14:36,480

manila envelope and it's filled with

1965

01:14:41,870 --> 01:14:40,199

these Maps now these Maps uh are not

1966

01:14:44,330 --> 01:14:41,880

secret government documents if you look

1967

01:14:47,209 --> 01:14:44,340

at them they are the maps that Michael

1968

01:14:49,070 --> 01:14:47,219

swords and Jack Bouchon Drew

1969

01:14:50,330 --> 01:14:49,080

um now Michael swords kept a copy of

1970

01:14:52,189 --> 01:14:50,340

those maps and he brought them back to

1971

01:14:54,770 --> 01:14:52,199

kufos I have their uh scans of The

1972

01:14:58,790 --> 01:14:54,780

Originals and then the other copies went

1973

01:15:01,550 --> 01:14:58,800

to the NOAA so presumably these Maps

1974

01:15:03,410 --> 01:15:01,560

were foiled by someone and sent to the

1975

01:15:05,689 --> 01:15:03,420

Steve Reinhardt guy

1976

01:15:07,310 --> 01:15:05,699

um and he was fed kind of a cloak and

1977

01:15:09,890 --> 01:15:07,320

dagger story around it and I'm not

1978

01:15:12,350 --> 01:15:09,900

exactly sure the purpose of that

1979

01:15:14,810 --> 01:15:12,360

um but this is essentially this is

1980

01:15:16,610 --> 01:15:14,820

technically how these radar blanks

1981

01:15:18,950 --> 01:15:16,620

became public because this came out

1982

01:15:22,430 --> 01:15:18,960

before the international UFO reporter

1983

01:15:23,930 --> 01:15:22,440

Journal uh issue on the topic came out

1984

01:15:25,850 --> 01:15:23,940

that would be uh the journal that

1985

01:15:27,830 --> 01:15:25,860

Michael swords wrote his piece in so I

1986

01:15:30,470 --> 01:15:27,840

mean um his piece actually mentions

1987

01:15:32,750 --> 01:15:30,480

receiving an issue of this they sent it

1988

01:15:34,070 --> 01:15:32,760

to him and he's reading the article he's

1989

01:15:35,750 --> 01:15:34,080

like this is interesting I recognize his

1990

01:15:37,970 --> 01:15:35,760

name Jenny Tilly and then he sees his

1991

01:15:40,070 --> 01:15:37,980

own maps in the back attached to this

1992

01:15:42,830 --> 01:15:40,080

book and Dagger story and he's like this

1993

01:15:44,270 --> 01:15:42,840

is really odd and he wrote her I my

1994

01:15:45,649 --> 01:15:44,280

perspective was kind of a rude letter I

1995

01:15:47,810 --> 01:15:45,659

have a copy of that too if you guys

1996

01:15:49,729 --> 01:15:47,820

privately want to see that

1997

01:15:51,649 --> 01:15:49,739

um

1998

01:15:52,850 --> 01:15:51,659

so there's a bit of animosity in between

1999

01:15:55,910 --> 01:15:52,860

these UFO groups as they were

2000

01:15:57,890 --> 01:15:55,920

investigating are kind of uh hurling

2001

01:16:00,950 --> 01:15:57,900

um judgment backing

2002

01:16:03,649 --> 01:16:00,960

that's where this case sits um mufon

2003

01:16:06,050 --> 01:16:03,659

wrote it one Journal article about it

2004

01:16:07,729 --> 01:16:06,060

Michael swords in the iur wrote One

2005

01:16:10,310 --> 01:16:07,739

Journal article about it

2006

01:16:12,649 --> 01:16:10,320

um he comes to a couple conclusions and

2007

01:16:14,930 --> 01:16:12,659

does a little bit of math that I think

2008

01:16:17,209 --> 01:16:14,940

was wrong and math is not my strong suit

2009

01:16:19,010 --> 01:16:17,219

um but I do mention all of this the the

2010

01:16:21,709 --> 01:16:19,020

subsequent investigations in the part

2011

01:16:23,570 --> 01:16:21,719

two of my videos on the original

2012

01:16:25,130 --> 01:16:23,580

invisible night school YouTube channel

2013

01:16:27,110 --> 01:16:25,140

you should probably change the name of

2014

01:16:27,830 --> 01:16:27,120

that but uh I'll go over that a little

2015

01:16:30,649 --> 01:16:27,840

bit

2016

01:16:34,430 --> 01:16:30,659

but then this this case that they tout

2017

01:16:36,709 --> 01:16:34,440

as uh the best the best uh witnessed

2018

01:16:39,290 --> 01:16:36,719

case in modern history

2019

01:16:41,570 --> 01:16:39,300

gets dropped uh no one Falls follows up

2020

01:16:43,310 --> 01:16:41,580

with Michigan mufon for these videos to

2021

01:16:45,110 --> 01:16:43,320

close that Gap and this is where we sit

2022

01:16:47,750 --> 01:16:45,120

and now

2023

01:16:50,750 --> 01:16:47,760

um you know every couple years they'll

2024

01:16:51,830 --> 01:16:50,760

do a local piece on uh on my news in

2025

01:16:54,229 --> 01:16:51,840

Michigan

2026

01:16:57,050 --> 01:16:54,239

um UFO Hunters Will that's right this is

2027

01:16:58,910 --> 01:16:57,060

in your backyard yeah I I visited the uh

2028

01:17:01,490 --> 01:16:58,920

the underground locations setting times

2029

01:17:03,950 --> 01:17:01,500

multiple times just to kind of get a

2030

01:17:06,229 --> 01:17:03,960

perspective and feel uh you know on the

2031

01:17:08,090 --> 01:17:06,239

ground actually looking seeing where

2032

01:17:11,390 --> 01:17:08,100

they're watching is I wanted to feel it

2033

01:17:13,430 --> 01:17:11,400

out how now how much of this is part of

2034

01:17:15,709 --> 01:17:13,440

like the local Zeitgeist like do people

2035

01:17:17,390 --> 01:17:15,719

know about this case does the guy at the

2036

01:17:20,390 --> 01:17:17,400

weed store know about this kiss no

2037

01:17:21,890 --> 01:17:20,400

nobody does that's why I uh agreed in

2038

01:17:23,090 --> 01:17:21,900

the first place to even participate with

2039

01:17:24,290 --> 01:17:23,100

Unsolved Mysteries while I was

2040

01:17:25,669 --> 01:17:24,300

researching

2041

01:17:27,770 --> 01:17:25,679

is that

2042

01:17:29,870 --> 01:17:27,780

more awareness of this case gets more

2043

01:17:31,970 --> 01:17:29,880

eyes and Minds on it to maybe help

2044

01:17:33,590 --> 01:17:31,980

figure it out and it's just a really

2045

01:17:36,590 --> 01:17:33,600

cool case and it really surprises me

2046

01:17:38,270 --> 01:17:36,600

that people know the Phoenix lights or

2047

01:17:40,430 --> 01:17:38,280

the aerial School case and they don't

2048

01:17:43,430 --> 01:17:40,440

know this right when this one's actually

2049

01:17:44,930 --> 01:17:43,440

I think a compelling mystery I mean I I

2050

01:17:46,189 --> 01:17:44,940

feel like this is better than a lot of

2051  
01:17:47,930 --> 01:17:46,199  
those ones that people typically know

2052  
01:17:50,110 --> 01:17:47,940  
even like things like Roswell and stuff

2053  
01:17:52,970 --> 01:17:50,120  
like that right

2054  
01:17:56,990 --> 01:17:52,980  
and like Phoenix Lights like when there

2055  
01:17:58,729 --> 01:17:57,000  
is a verification that a military plane

2056  
01:18:00,770 --> 01:17:58,739  
was dropping flares in there even if it

2057  
01:18:02,450 --> 01:18:00,780  
was ours separate or whatever it kind of

2058  
01:18:04,610 --> 01:18:02,460  
makes it like okay it's a bit of a

2059  
01:18:06,649 --> 01:18:04,620  
write-off and it's just interesting like

2060  
01:18:08,450 --> 01:18:06,659  
you know Simon fly at the start was like

2061  
01:18:10,610 --> 01:18:08,460  
oh could these have been uh military

2062  
01:18:12,709 --> 01:18:10,620  
players you know it's the famous

2063  
01:18:14,090 --> 01:18:12,719

question we should ask but absolutely uh

2064

01:18:15,950 --> 01:18:14,100

the radar operator was looking for

2065

01:18:17,810 --> 01:18:15,960

planes and stuff right and so like he

2066

01:18:19,490 --> 01:18:17,820

would have seen that so it makes it more

2067

01:18:21,590 --> 01:18:19,500

compelling in some ways for that reason

2068

01:18:23,570 --> 01:18:21,600

as well so right your point stands very

2069

01:18:26,390 --> 01:18:23,580

yeah he said he did say that the returns

2070

01:18:28,430 --> 01:18:26,400

were were much brighter than even like

2071

01:18:30,229 --> 01:18:28,440

commercial Jets so you have to

2072

01:18:32,330 --> 01:18:30,239

understand they I mean the kind of he

2073

01:18:35,270 --> 01:18:32,340

described it as a band essentially for

2074

01:18:37,850 --> 01:18:35,280

each return as a like a

2075

01:18:39,770 --> 01:18:37,860

flat band and The Wider the band is the

2076

01:18:42,350 --> 01:18:39,780

brighter or the stronger the return like

2077

01:18:44,450 --> 01:18:42,360

Radars work by firing microwaves at

2078

01:18:47,570 --> 01:18:44,460

things and what bounces back is that

2079

01:18:49,790 --> 01:18:47,580

signal and it was nearly a full return

2080

01:18:51,290 --> 01:18:49,800

and it was very bright as he called it I

2081

01:18:52,970 --> 01:18:51,300

remember yeah I remember him like on the

2082

01:18:55,729 --> 01:18:52,980

Unsolved Mysteries he said something to

2083

01:18:57,950 --> 01:18:55,739

the effect of like it uh he was

2084

01:19:00,470 --> 01:18:57,960

expecting that it would have been highly

2085

01:19:03,050 --> 01:19:00,480

polished metal based on the return

2086

01:19:06,470 --> 01:19:03,060

because like nothing else is like that

2087

01:19:08,510 --> 01:19:06,480

vibrate yeah something like extremely

2088

01:19:09,950 --> 01:19:08,520

reflective which also kind of speaks so

2089

01:19:11,390 --> 01:19:09,960

I mentioned it earlier where he said he

2090

01:19:13,790 --> 01:19:11,400

thought that maybe whatever these things

2091

01:19:16,970 --> 01:19:13,800

were were assisting the signal so like

2092

01:19:19,490 --> 01:19:16,980

firing microwaves back to yes he seen

2093

01:19:21,110 --> 01:19:19,500

which is like a common theme in UFO

2094

01:19:23,570 --> 01:19:21,120

sightings a lot of people a lot of

2095

01:19:25,430 --> 01:19:23,580

witnesses say they like they felt it

2096

01:19:28,070 --> 01:19:25,440

wanted to be seen and they also had the

2097

01:19:29,570 --> 01:19:28,080

impression that The Observers were aware

2098

01:19:32,149 --> 01:19:29,580

and there were there was kind of a dual

2099

01:19:34,610 --> 01:19:32,159

awareness there you see that in his

2100

01:19:37,310 --> 01:19:34,620

experience and his unconventional kind

2101  
01:19:39,890 --> 01:19:37,320  
of witnessing of this event and well in

2102  
01:19:41,750 --> 01:19:39,900  
the UAP in the UK ADR report that a

2103  
01:19:44,090 --> 01:19:41,760  
secret British report uh written by

2104  
01:19:46,070 --> 01:19:44,100  
their uh top radar expert and then he

2105  
01:19:48,590 --> 01:19:46,080  
just he uh you know we've gone over it

2106  
01:19:49,970 --> 01:19:48,600  
but he asserts that uh UFOs do exist and

2107  
01:19:52,010 --> 01:19:49,980  
they're probably these atmospheric

2108  
01:19:53,450 --> 01:19:52,020  
plasma phenomena ball lightning type

2109  
01:19:56,090 --> 01:19:53,460  
things now something interesting in

2110  
01:19:58,550 --> 01:19:56,100  
there it's he's talking about how the

2111  
01:20:00,709 --> 01:19:58,560  
energy level the ionization level of the

2112  
01:20:01,970 --> 01:20:00,719  
object can produce different effects so

2113  
01:20:04,610 --> 01:20:01,980

sometimes it could be visually

2114

01:20:06,290 --> 01:20:04,620

observable like uh you know luminous

2115

01:20:07,610 --> 01:20:06,300

other times it's traveling around but

2116

01:20:09,350 --> 01:20:07,620

it's fully invisible because it's just

2117

01:20:11,390 --> 01:20:09,360

not ionizing the air around it so it's

2118

01:20:13,430 --> 01:20:11,400

actually like the it's a ball of energy

2119

01:20:16,850 --> 01:20:13,440

but it depends on like the wavelength

2120

01:20:19,490 --> 01:20:16,860

and stuff and then um

2121

01:20:21,169 --> 01:20:19,500

yeah I don't know it's just the the way

2122

01:20:24,830 --> 01:20:21,179

that the report in the UK talks about it

2123

01:20:29,209 --> 01:20:24,840

it like the you would expect the objects

2124

01:20:31,370 --> 01:20:29,219

based on uh their nature uh to interact

2125

01:20:33,410 --> 01:20:31,380

with radar systems and therefore it

2126  
01:20:35,090 --> 01:20:33,420  
would appear that they are interacting

2127  
01:20:37,729 --> 01:20:35,100  
with the radar in some way like yeah

2128  
01:20:39,890 --> 01:20:37,739  
it's kind of like in the Nimitz event

2129  
01:20:41,689 --> 01:20:39,900  
um I was talking to an engineering a

2130  
01:20:44,870 --> 01:20:41,699  
German engineer guy and he was telling

2131  
01:20:48,169 --> 01:20:44,880  
me that you would actually expect that

2132  
01:20:50,770 --> 01:20:48,179  
if uh Kevin Day zoomed in on um the uh

2133  
01:20:53,450 --> 01:20:50,780  
what could have been a plasmoid and then

2134  
01:20:57,590 --> 01:20:53,460  
switched the radar over very quickly to

2135  
01:21:00,050 --> 01:20:57,600  
the um uh Rendezvous point it could have

2136  
01:21:01,669 --> 01:21:00,060  
actually physically dragged the plasmoid

2137  
01:21:03,950 --> 01:21:01,679  
and that would be what would have

2138  
01:21:05,450 --> 01:21:03,960

because because it's phased away radar

2139

01:21:07,370 --> 01:21:05,460

it is a very tight beam you control

2140

01:21:09,229 --> 01:21:07,380

exactly where it is and the Soviets were

2141

01:21:10,970 --> 01:21:09,239

using these experiments in the 90s and

2142

01:21:13,370 --> 01:21:10,980

uh I mean conceptually the Russians

2143

01:21:15,709 --> 01:21:13,380

moving forward uh to actually control

2144

01:21:17,930 --> 01:21:15,719

plasma phenomena using phase array radar

2145

01:21:20,209 --> 01:21:17,940

and stuff so it's like a known mechanism

2146

01:21:21,709 --> 01:21:20,219

and the radar gets bounced off these

2147

01:21:23,450 --> 01:21:21,719

things or depending on the entry level

2148

01:21:24,649 --> 01:21:23,460

doesn't bounce off so like all these

2149

01:21:27,410 --> 01:21:24,659

things are consistent with the

2150

01:21:29,030 --> 01:21:27,420

possibility of uh this sort of now

2151

01:21:30,950 --> 01:21:29,040

explaining it

2152

01:21:32,689 --> 01:21:30,960

um in in the episode now Jack never

2153

01:21:34,370 --> 01:21:32,699

personally claimed this to me in the

2154

01:21:35,990 --> 01:21:34,380

several conversations that we've had but

2155

01:21:37,790 --> 01:21:36,000

he did mention this in the show and it

2156

01:21:40,850 --> 01:21:37,800

does kind of track with what I do know

2157

01:21:43,669 --> 01:21:40,860

is that he did say that they seem to

2158

01:21:45,890 --> 01:21:43,679

stay in the cone of his beam as he was

2159

01:21:47,570 --> 01:21:45,900

shining it down there it appeared that

2160

01:21:50,810 --> 01:21:47,580

they kind of they were bouncing around

2161

01:21:53,149 --> 01:21:50,820

and moving but within that cone so I

2162

01:21:55,790 --> 01:21:53,159

mean similarity with day's uh accounts

2163

01:21:58,790 --> 01:21:55,800

too jumping up and down in altitude The

2164

01:22:01,430 --> 01:21:58,800

Bouncing Around very similar

2165

01:22:02,810 --> 01:22:01,440

but um aside from that I yeah like I

2166

01:22:04,490 --> 01:22:02,820

said they've they've done a couple shows

2167

01:22:06,050 --> 01:22:04,500

on it but it's it's still not a

2168

01:22:07,790 --> 01:22:06,060

well-known case

2169

01:22:09,470 --> 01:22:07,800

what I think it's an interesting one and

2170

01:22:11,810 --> 01:22:09,480

I mean that and that's where it stays we

2171

01:22:13,790 --> 01:22:11,820

still have those 10 videos and a dozen

2172

01:22:15,709 --> 01:22:13,800

photographs that known as seen except

2173

01:22:18,050 --> 01:22:15,719

for uh mufon

2174

01:22:19,550 --> 01:22:18,060

and uh and that's it and I think that

2175

01:22:22,250 --> 01:22:19,560

they could

2176  
01:22:24,530 --> 01:22:22,260  
possibly make that connection between

2177  
01:22:27,530 --> 01:22:24,540  
the um the on the ground and the radar

2178  
01:22:30,050 --> 01:22:27,540  
settings we don't know until we see them

2179  
01:22:31,970 --> 01:22:30,060  
um and I'm still always reaching out

2180  
01:22:33,350 --> 01:22:31,980  
trying to find more witnesses find more

2181  
01:22:34,910 --> 01:22:33,360  
information about this case I'm going to

2182  
01:22:37,010 --> 01:22:34,920  
look into that campsite as one of the

2183  
01:22:39,410 --> 01:22:37,020  
viewers asked me about

2184  
01:22:43,250 --> 01:22:39,420  
um and I'm I'm still investigating this

2185  
01:22:45,470 --> 01:22:43,260  
case I think I will until we can at

2186  
01:22:47,270 --> 01:22:45,480  
least come up with a fairly plausible

2187  
01:22:49,490 --> 01:22:47,280  
solution for it

2188  
01:22:52,370 --> 01:22:49,500

and what's the primary angle you're uh

2189

01:22:56,330 --> 01:22:52,380

using right now is it sort of trying to

2190

01:22:58,430 --> 01:22:56,340

get in to that uh exact Claim about the

2191

01:22:59,510 --> 01:22:58,440

observation with the video occurring at

2192

01:23:01,490 --> 01:22:59,520

the same time as the router is that sort

2193

01:23:03,530 --> 01:23:01,500

of the most promising thing I the what

2194

01:23:07,070 --> 01:23:03,540

I'm trying to do and what I've done a

2195

01:23:09,229 --> 01:23:07,080

little bit is I I'm trying to Nail Time

2196

01:23:10,910 --> 01:23:09,239

down like essentially time stamp

2197

01:23:13,669 --> 01:23:10,920

everything

2198

01:23:15,590 --> 01:23:13,679

um due to the way the the 9-1-1 tape was

2199

01:23:20,450 --> 01:23:15,600

recorded I'm not sure if I can actually

2200

01:23:22,910 --> 01:23:20,460

use that to denote time the two like I

2201

01:23:25,669 --> 01:23:22,920

know that Holly Graves made that 9-1-1

2202

01:23:27,890 --> 01:23:25,679

call at 9 35 and I know officer

2203

01:23:31,430 --> 01:23:27,900

velthouse showed up at her house at 9

2204

01:23:32,990 --> 01:23:31,440

45. those are the two known points you

2205

01:23:35,570 --> 01:23:33,000

can kind of

2206

01:23:38,510 --> 01:23:35,580

make rough estimates uh due to the

2207

01:23:40,550 --> 01:23:38,520

length of certain calls on the tape but

2208

01:23:44,090 --> 01:23:40,560

like like for instance there's no

2209

01:23:45,649 --> 01:23:44,100

specific exact time that dispatch called

2210

01:23:47,209 --> 01:23:45,659

Jack

2211

01:23:49,310 --> 01:23:47,219

um that would really help I mean we have

2212

01:23:51,350 --> 01:23:49,320

his estimates of time we have the

2213

01:23:53,149 --> 01:23:51,360

witnesses estimates of time and we have

2214

01:23:55,250 --> 01:23:53,159

those two time points

2215

01:23:56,870 --> 01:23:55,260

if I could Hammer that down with any new

2216

01:23:59,330 --> 01:23:56,880

information I could find it it might

2217

01:24:00,709 --> 01:23:59,340

make it better because like my goal and

2218

01:24:04,010 --> 01:24:00,719

this is what I explained to those

2219

01:24:05,570 --> 01:24:04,020

producers as well is um I want to I want

2220

01:24:08,209 --> 01:24:05,580

to conclusively link

2221

01:24:09,290 --> 01:24:08,219

visual sighting to the radar signing you

2222

01:24:12,350 --> 01:24:09,300

know what I mean we have the general

2223

01:24:14,750 --> 01:24:12,360

motion of the things that appears I mean

2224

01:24:17,030 --> 01:24:14,760

like it probably was the same thing but

2225

01:24:20,149 --> 01:24:17,040

we can't say that for certain and I I

2226

01:24:22,490 --> 01:24:20,159

would like to feel more comfortable

2227

01:24:24,110 --> 01:24:22,500

um gaps in the weather data I I've

2228

01:24:25,669 --> 01:24:24,120

limited weather information I know that

2229

01:24:26,790 --> 01:24:25,679

it was a clear night I know that it was

2230

01:24:27,530 --> 01:24:26,800

cold

2231

01:24:28,310 --> 01:24:27,540

[Music]

2232

01:24:30,770 --> 01:24:28,320

um

2233

01:24:32,390 --> 01:24:30,780

I know that a couple of investigators in

2234

01:24:33,590 --> 01:24:32,400

their journals wrote that they checked

2235

01:24:35,810 --> 01:24:33,600

the weather information though they

2236

01:24:37,370 --> 01:24:35,820

didn't provide any actual data I think

2237

01:24:38,570 --> 01:24:37,380

that is something that you can look up

2238

01:24:40,790 --> 01:24:38,580

though I mean like multiple

2239

01:24:42,350 --> 01:24:40,800

organizations yeah you should have Noah

2240

01:24:43,370 --> 01:24:42,360

should have historical weather data

2241

01:24:45,470 --> 01:24:43,380

available

2242

01:24:47,570 --> 01:24:45,480

I may have even looked it up before but

2243

01:24:48,649 --> 01:24:47,580

never actually done anything with it

2244

01:24:50,570 --> 01:24:48,659

because it's a little outside my

2245

01:24:52,490 --> 01:24:50,580

wheelhouse

2246

01:24:54,410 --> 01:24:52,500

um what's the list of this comment from

2247

01:24:55,970 --> 01:24:54,420

Dylan I guess I'm stuck in color tonight

2248

01:24:57,229 --> 01:24:55,980

any instance of the laboratory

2249

01:24:59,209 --> 01:24:57,239

phenomenon in Campbell's video

2250

01:25:01,010 --> 01:24:59,219

exhibiting colors like green and blue as

2251

01:25:03,229 --> 01:25:01,020

well the movement plus radar interaction

2252

01:25:04,610 --> 01:25:03,239

does seem to fit yeah that's an

2253

01:25:05,870 --> 01:25:04,620

excellent question that's something that

2254

01:25:07,910 --> 01:25:05,880

I've been thinking about a lot too

2255

01:25:10,250 --> 01:25:07,920

especially when I was watching the uh

2256

01:25:11,590 --> 01:25:10,260

first half of this on Netflix earlier

2257

01:25:14,689 --> 01:25:11,600

the the

2258

01:25:16,189 --> 01:25:14,699

multi-colored uh statements uh it clicks

2259

01:25:19,070 --> 01:25:16,199

with me because those are observations

2260

01:25:21,169 --> 01:25:19,080

that have been made in hezdalen those

2261

01:25:25,130 --> 01:25:21,179

are observations that have been reported

2262

01:25:27,890 --> 01:25:25,140

by uh Navy uh eyewitnesses uh something

2263

01:25:30,350 --> 01:25:27,900

that makes no sense like uh is bro you

2264

01:25:32,570 --> 01:25:30,360

know lights that are changing like a

2265

01:25:33,290 --> 01:25:32,580

Christmas tree like coloration

2266

01:25:34,970 --> 01:25:33,300

um

2267

01:25:37,490 --> 01:25:34,980

I mean some of that could just be like

2268

01:25:39,590 --> 01:25:37,500

atmospheric right like yeah computed a

2269

01:25:40,490 --> 01:25:39,600

distance with any kind of cloud cover or

2270

01:25:42,709 --> 01:25:40,500

especially if we're talking about like

2271

01:25:44,570 --> 01:25:42,719

electrical phenomena like I mean I just

2272

01:25:47,330 --> 01:25:44,580

think of how like it makes me think of

2273

01:25:49,189 --> 01:25:47,340

like neon signs right how different gas

2274

01:25:51,590 --> 01:25:49,199

compositions Electrify with different

2275

01:25:53,570 --> 01:25:51,600

colors this is exactly this is exactly

2276

01:25:55,850 --> 01:25:53,580

what Dr titirani has written about in

2277

01:25:57,290 --> 01:25:55,860

his paper that exact thing um like

2278

01:25:58,669 --> 01:25:57,300

different kinds of meteorites when they

2279

01:26:00,649 --> 01:25:58,679

come through the atmosphere they burn

2280

01:26:02,270 --> 01:26:00,659

different colors because it's ionization

2281

01:26:04,550 --> 01:26:02,280

of different elements

2282

01:26:06,110 --> 01:26:04,560

um the color is the element being burned

2283

01:26:08,330 --> 01:26:06,120

and um there are actually some

2284

01:26:12,229 --> 01:26:08,340

interesting photos he's got in his paper

2285

01:26:14,990 --> 01:26:12,239

of a uh trying three uh light balls

2286

01:26:17,270 --> 01:26:15,000

together over the Treetops with a red

2287

01:26:19,850 --> 01:26:17,280

and a blue uh smaller lights that seem

2288

01:26:21,410 --> 01:26:19,860

to be um he claimed he says based on the

2289

01:26:24,229 --> 01:26:21,420

observation at the time that they were

2290

01:26:25,910 --> 01:26:24,239

rotating around he's saying he thinks

2291

01:26:28,070 --> 01:26:25,920

that they are different elements being

2292

01:26:30,649 --> 01:26:28,080

ionized and the different colors could

2293

01:26:34,250 --> 01:26:30,659

be different uh aerosols that are in the

2294

01:26:36,830 --> 01:26:34,260

uh specific air in that location because

2295

01:26:40,910 --> 01:26:36,840

in the lab experiments what you do is

2296

01:26:42,830 --> 01:26:40,920

you inject a high burst of energy with a

2297

01:26:45,470 --> 01:26:42,840

variety of substances which sometimes

2298

01:26:47,750 --> 01:26:45,480

can be aerosolized particles or a fluid

2299

01:26:51,470 --> 01:26:47,760

solution so the makeup of those things

2300

01:26:53,689 --> 01:26:51,480

does produce that effect and um you can

2301

01:26:55,970 --> 01:26:53,699

produce all the different colors in a in

2302

01:26:57,709 --> 01:26:55,980

a laboratory environment and maybe I'll

2303

01:26:59,209 --> 01:26:57,719

uh I'll just send you Leah a video

2304

01:27:00,649 --> 01:26:59,219

quickly that's really cool on YouTube

2305

01:27:02,090 --> 01:27:00,659

that we could just click through really

2306

01:27:04,610 --> 01:27:02,100

fast because it shows all the different

2307

01:27:06,530 --> 01:27:04,620

colors in a plasmoid in a high energy

2308

01:27:09,490 --> 01:27:06,540

environment so I'll just grab that right

2309

01:27:12,649 --> 01:27:11,270

go ahead

2310

01:27:14,209 --> 01:27:12,659

I was gonna I was just gonna call out

2311

01:27:16,370 --> 01:27:14,219

this comment from hinch here Leah went

2312

01:27:17,330 --> 01:27:16,380

to RPI I'm from Waterford uh hinge I

2313

01:27:19,550 --> 01:27:17,340

don't know if you're saying you went to

2314

01:27:21,050 --> 01:27:19,560

RPI but I went to RPI

2315

01:27:23,390 --> 01:27:21,060

um former U.S Coast Guard writer

2316

01:27:25,610 --> 01:27:23,400

technician Raytheon 64x band radar top

2317

01:27:28,070 --> 01:27:25,620

secret clearance got some UFO data

2318

01:27:30,530 --> 01:27:28,080

that's never seen the public eye well I

2319

01:27:32,330 --> 01:27:30,540

have great news for you I have open DMS

2320

01:27:34,070 --> 01:27:32,340

on Twitter that's my name feel free to

2321

01:27:35,570 --> 01:27:34,080

shoot me a message would love to talk to

2322

01:27:37,189 --> 01:27:35,580

you about this I use all kinds of

2323

01:27:40,010 --> 01:27:37,199

end-to-end encrypted Communications

2324

01:27:42,169 --> 01:27:40,020

including signal WhatsApp protonmail Etc

2325

01:27:45,050 --> 01:27:42,179

so if you ever want to talk shop feel

2326

01:27:46,550 --> 01:27:45,060

free to hit me up uh David borer says

2327

01:27:50,270 --> 01:27:46,560

shouldn't there be way more witnesses

2328

01:27:52,910 --> 01:27:50,280

now um if you listen to the radar or the

2329

01:27:55,010 --> 01:27:52,920

uh 911 call the dispatcher mentions

2330

01:27:56,990 --> 01:27:55,020

approximately 60 calls I don't know if

2331

01:27:58,790 --> 01:27:57,000

that was an exaggeration or not since we

2332

01:28:00,229 --> 01:27:58,800

only that's a lot of calls it is an

2333

01:28:01,790 --> 01:28:00,239

event that's only 30 minutes and I mean

2334

01:28:02,689 --> 01:28:01,800

this isn't we're not talking about a

2335

01:28:06,590 --> 01:28:02,699

super

2336

01:28:08,209 --> 01:28:06,600

like it's it's City but we're not

2337

01:28:10,370 --> 01:28:08,219

talking about Midtown Manhattan right

2338

01:28:11,930 --> 01:28:10,380

you know if we're talking it's suburbs

2339

01:28:14,209 --> 01:28:11,940

um yeah it's it's suburbs it's nine

2340

01:28:15,530 --> 01:28:14,219

o'clock at night in March right so

2341

01:28:18,229 --> 01:28:15,540

people are gonna be out barbecuing or

2342

01:28:19,370 --> 01:28:18,239

walking the dog now uh mulfon makes the

2343

01:28:22,790 --> 01:28:19,380

claim that there were hundreds of

2344

01:28:24,169 --> 01:28:22,800

witnesses um however really yes in their

2345

01:28:28,010 --> 01:28:24,179

Journal

2346

01:28:30,169 --> 01:28:28,020

um however those reports aren't anywhere

2347

01:28:32,330 --> 01:28:30,179

um we the reports I personally have are

2348

01:28:36,649 --> 01:28:32,340

from one investigator Donald uh Donald

2349

01:28:38,689 --> 01:28:36,659

Ashley and he he interviewed a the truck

2350

01:28:41,750 --> 01:28:38,699

driver who saw it the night before Cindy

2351

01:28:44,209 --> 01:28:41,760

pravta um and the graves family and

2352

01:28:46,790 --> 01:28:44,219

officer velt house those are those are

2353

01:28:48,290 --> 01:28:46,800

the only um filled out you know mufon

2354

01:28:50,570 --> 01:28:48,300

their field investigators have those

2355

01:28:52,310 --> 01:28:50,580

forms that they fill out where you know

2356

01:28:54,410 --> 01:28:52,320

you check off a little boxes how far was

2357

01:28:56,570 --> 01:28:54,420

it what like how high was it they they

2358

01:28:59,030 --> 01:28:56,580

estimated Tree Top level it's like a

2359

01:29:00,950 --> 01:28:59,040

woo-woo police report exactly yes yeah

2360

01:29:02,270 --> 01:29:00,960

they draw little pictures and stuff like

2361

01:29:04,610 --> 01:29:02,280

that but like I said you know it was the

2362

01:29:06,410 --> 01:29:04,620

five or six Witnesses

2363

01:29:08,270 --> 01:29:06,420

um yet the article does claim hundreds

2364

01:29:10,729 --> 01:29:08,280

now there are scatter shot witnesses

2365

01:29:12,169 --> 01:29:10,739

that I spoken to a couple of them um if

2366

01:29:13,970 --> 01:29:12,179

you look at my personal YouTube channel

2367

01:29:16,010 --> 01:29:13,980

I have an interview with a couple of

2368

01:29:18,050 --> 01:29:16,020

them there

2369

01:29:20,330 --> 01:29:18,060

um someone flying assessment in fact

2370

01:29:22,250 --> 01:29:20,340

claimed to have he was a student at

2371

01:29:24,229 --> 01:29:22,260

Western which is where Professor swords

2372

01:29:26,149 --> 01:29:24,239

taught at the time he said he saw it

2373

01:29:27,470 --> 01:29:26,159

from the air

2374

01:29:29,330 --> 01:29:27,480

um

2375

01:29:33,050 --> 01:29:29,340

there were some commercial pilots that

2376

01:29:35,270 --> 01:29:33,060

allegedly saw it also flying into O'Hare

2377

01:29:36,050 --> 01:29:35,280

um and they apparently appeared on a TV

2378

01:29:37,850 --> 01:29:36,060

show

2379

01:29:40,610 --> 01:29:37,860

um I'd have to check the magazine uh

2380

01:29:41,270 --> 01:29:40,620

again for the exact one although

2381

01:29:43,010 --> 01:29:41,280

um

2382

01:29:45,770 --> 01:29:43,020

his bosses caught one of it and made him

2383

01:29:48,050 --> 01:29:45,780

drop it I haven't personally seen that I

2384

01:29:50,030 --> 01:29:48,060

can't find a copy I've seen more recent

2385

01:29:52,129 --> 01:29:50,040

stuff uh but there were there were more

2386

01:29:54,890 --> 01:29:52,139

witnesses well and like I said that

2387

01:29:56,870 --> 01:29:54,900

waterfall UFO uh Witness

2388

01:29:59,510 --> 01:29:56,880

that that could have been from back then

2389

01:30:01,550 --> 01:29:59,520

you know it's completely possible like I

2390

01:30:04,010 --> 01:30:01,560

said there were there were a slot a

2391

01:30:05,930 --> 01:30:04,020

Swatch of witnesses that happened that

2392

01:30:08,209 --> 01:30:05,940

night uh allegedly according to move on

2393

01:30:10,250 --> 01:30:08,219

so there's room for it

2394

01:30:12,470 --> 01:30:10,260

um but the witnesses that

2395

01:30:14,689 --> 01:30:12,480

have value in my opinion to the story

2396

01:30:16,250 --> 01:30:14,699

are the ones that are recorded so we can

2397

01:30:18,050 --> 01:30:16,260

kind of have corroboration for that

2398

01:30:20,330 --> 01:30:18,060

because anyone after the fact can kind

2399

01:30:22,790 --> 01:30:20,340

of say that they witness it in fact if

2400

01:30:24,229 --> 01:30:22,800

you are a um a member of mufon and you

2401

01:30:26,990 --> 01:30:24,239

go to their database on their website

2402

01:30:30,290 --> 01:30:27,000

you'll see under this case that there

2403

01:30:32,510 --> 01:30:30,300

was a person who after the fact reported

2404

01:30:34,610 --> 01:30:32,520

to mufon that they had a dream that this

2405

01:30:36,169 --> 01:30:34,620

sighting was going to happen and that

2406

01:30:38,510 --> 01:30:36,179

was basically the extent of the

2407

01:30:42,129 --> 01:30:38,520

information that mufan hosts on this if

2408

01:30:49,370 --> 01:30:46,850

I uh I I got that video that you shared

2409

01:30:51,410 --> 01:30:49,380

on plasma let me get this shared real

2410

01:30:53,270 --> 01:30:51,420

quick yeah it's pretty cool one yeah

2411

01:30:56,629 --> 01:30:53,280

because it's just like a standard uh

2412

01:31:00,290 --> 01:30:56,639

microwave and uh you know these uh

2413

01:31:03,350 --> 01:31:00,890

um

2414

01:31:06,410 --> 01:31:03,360

yeah it'll like uh change color and

2415

01:31:10,669 --> 01:31:08,570

and uh the video shows like there's just

2416

01:31:12,410 --> 01:31:10,679

a wide variety of different materials he

2417

01:31:14,810 --> 01:31:12,420

just keeps putting different materials

2418

01:31:16,070 --> 01:31:14,820

into the tray and then microwaving them

2419

01:31:18,169 --> 01:31:16,080

and it produces all different colors

2420

01:31:18,770 --> 01:31:18,179

based on the materials that he's doing

2421

01:31:21,530 --> 01:31:18,780

um

2422

01:31:23,629 --> 01:31:21,540

the Spectra he's uh it shows all of the

2423

01:31:25,430 --> 01:31:23,639

spectral readings it's pretty cool yeah

2424

01:31:27,050 --> 01:31:25,440

and then later in the video you see

2425

01:31:28,189 --> 01:31:27,060

there's actually like a highly stable

2426

01:31:30,169 --> 01:31:28,199

one

2427

01:31:32,570 --> 01:31:30,179

um that ends up flying around freely in

2428

01:31:34,910 --> 01:31:32,580

the microwave it's quite interesting and

2429

01:31:36,890 --> 01:31:34,920

it actually exhibits some of the Motions

2430

01:31:39,830 --> 01:31:36,900

um of the ping pong of the ping pong

2431

01:31:41,990 --> 01:31:39,840

motion that uh fraver describes uh it

2432

01:31:43,430 --> 01:31:42,000

goes to the top of the microwave and

2433

01:31:45,350 --> 01:31:43,440

just starts going back and forth like

2434

01:31:47,149 --> 01:31:45,360

actually like essentially exactly how I

2435

01:31:48,950 --> 01:31:47,159

describe because it's interacting with

2436

01:31:51,169 --> 01:31:48,960

the energy source

2437

01:31:53,930 --> 01:31:51,179

it's really fascinating well I mean

2438

01:31:56,090 --> 01:31:53,940

that's that's where I'm at with the case

2439

01:31:58,129 --> 01:31:56,100

now like I said I'm still always looking

2440

01:32:00,770 --> 01:31:58,139

for more information on it

2441

01:32:02,390 --> 01:32:00,780

um and I'm also trying to nail down that

2442

01:32:05,149 --> 01:32:02,400

timeline and also speak to new Witnesses

2443

01:32:07,669 --> 01:32:05,159

where I can yeah I was gonna say Nick if

2444

01:32:09,470 --> 01:32:07,679

uh any viewers or listeners want to get

2445

01:32:11,090 --> 01:32:09,480

in touch with you to talk about this or

2446

01:32:12,470 --> 01:32:11,100

share anything what's the best way to

2447

01:32:14,930 --> 01:32:12,480

find you

2448

01:32:16,610 --> 01:32:14,940

um you can find me on on Twitter imvs

2449

01:32:18,410 --> 01:32:16,620

night school

2450

01:32:19,250 --> 01:32:18,420

um or I do have an email address

2451

01:32:20,689 --> 01:32:19,260

associated with the

2452

01:32:22,870 --> 01:32:20,699

invisiblemyschool.com

2453

01:32:25,550 --> 01:32:22,880

no

2454

01:32:27,709 --> 01:32:25,560

we probably should we should set up a

2455

01:32:30,229 --> 01:32:27,719

dedicated proton mail so people can send

2456

01:32:32,990 --> 01:32:30,239

us Hot Tips yeah absolutely or yeah just

2457

01:32:35,390 --> 01:32:33,000

just hit me up on Twitter or um or

2458

01:32:36,830 --> 01:32:35,400

comment below I I actually uh I met a

2459

01:32:38,270 --> 01:32:36,840

witness that I didn't know about in

2460

01:32:40,370 --> 01:32:38,280

YouTube comments

2461

01:32:43,610 --> 01:32:40,380

um cool one of my uh one of the local

2462

01:32:46,310 --> 01:32:43,620

network Affiliates ran a piece on this

2463

01:32:47,390 --> 01:32:46,320

um maybe six months ago or so and in the

2464

01:32:48,649 --> 01:32:47,400

comment section is where I actually

2465

01:32:51,590 --> 01:32:48,659

hooked up with one of the witnesses

2466

01:32:52,669 --> 01:32:51,600

where she saw she was um attending high

2467

01:32:53,570 --> 01:32:52,679

school at the time she'd just come back

2468

01:32:55,729 --> 01:32:53,580

from

2469

01:32:57,470 --> 01:32:55,739

some kind of competitive thing I don't

2470

01:32:58,970 --> 01:32:57,480

remember what sport or maybe it was

2471

01:33:01,129 --> 01:32:58,980

um cheer or something like that or

2472

01:33:03,110 --> 01:33:01,139

basketball maybe she had just come home

2473

01:33:05,330 --> 01:33:03,120

with her mom and

2474

01:33:07,669 --> 01:33:05,340

felt compelled to look up outside the

2475

01:33:10,370 --> 01:33:07,679

door looked up and saw this bright white

2476

01:33:14,930 --> 01:33:13,070

I I specifically asked her I was like I

2477

01:33:17,689 --> 01:33:14,940

was like what made you look up and she

2478

01:33:19,310 --> 01:33:17,699

she's like I don't know I just did and

2479

01:33:21,290 --> 01:33:19,320

she's like it wasn't a helicopter or a

2480

01:33:22,729 --> 01:33:21,300

plane because it was white white light

2481

01:33:24,470 --> 01:33:22,739

and it shot off

2482

01:33:25,729 --> 01:33:24,480

and that was like right in the middle of

2483

01:33:28,370 --> 01:33:25,739

these on the ground

2484

01:33:30,410 --> 01:33:28,380

um sightings right in the area too so

2485

01:33:32,030 --> 01:33:30,420

people did see I mean she was like a

2486

01:33:34,129 --> 01:33:32,040

teenager at the time

2487

01:33:35,990 --> 01:33:34,139

um this was 30 years ago but yeah I mean

2488

01:33:38,030 --> 01:33:36,000

meeting new Witnesses all the time

2489

01:33:40,790 --> 01:33:38,040

always willing to talk to any of them

2490

01:33:43,610 --> 01:33:40,800

too even if it's these waterfalls all

2491

01:33:44,930 --> 01:33:43,620

witnesses that I don't believe exist

2492

01:33:46,970 --> 01:33:44,940

um I'd love to hear more about that

2493

01:33:50,870 --> 01:33:46,980

honestly but apparently it'd be very

2494

01:33:53,330 --> 01:33:50,880

popular if you found them yeah that was

2495

01:33:55,270 --> 01:33:53,340

such a strange claim these uh these

2496

01:33:57,470 --> 01:33:55,280

midnight Beach campers in in Winter

2497

01:33:59,689 --> 01:33:57,480

witnessing something so strange that

2498

01:34:01,870 --> 01:33:59,699

allegedly corroborates the timeline

2499

01:34:04,669 --> 01:34:01,880

although it contradicts it Adam

2500

01:34:06,950 --> 01:34:04,679

on the shoreline in the winter like any

2501

01:34:08,750 --> 01:34:06,960

of us us three from the Northeast uh

2502

01:34:13,370 --> 01:34:08,760

instantly are like no that doesn't make

2503

01:34:18,770 --> 01:34:16,189

the new folk ever

2504

01:34:21,890 --> 01:34:18,780

look into this

2505

01:34:24,229 --> 01:34:21,900

um there may be an entry there but uh

2506

01:34:26,810 --> 01:34:24,239

not as far as I know the the elements

2507

01:34:29,030 --> 01:34:26,820

that I know investigating were um mufon

2508

01:34:31,250 --> 01:34:29,040

of course and then uh

2509

01:34:33,290 --> 01:34:31,260

Michael swords from kufos and he came

2510

01:34:34,970 --> 01:34:33,300

down with his friend uh Dave Ford who

2511

01:34:36,229 --> 01:34:34,980

was actually a member of nightcap at the

2512

01:34:38,390 --> 01:34:36,239

time

2513

01:34:40,790 --> 01:34:38,400

um the the extent that Dave Ford

2514

01:34:43,490 --> 01:34:40,800

participated in the investigation seemed

2515

01:34:46,010 --> 01:34:43,500

to be getting Professor swords in the

2516

01:34:48,290 --> 01:34:46,020

door uh at the Weather Service he um

2517

01:34:49,610 --> 01:34:48,300

mentioned that Professor swords was a

2518

01:34:52,430 --> 01:34:49,620

science teacher from Western Michigan

2519

01:34:54,530 --> 01:34:52,440

University and that kind of made them

2520

01:34:57,350 --> 01:34:54,540

feel like okay we can let this guy in

2521

01:34:59,990 --> 01:34:57,360

especially um as Michael swords puts it

2522

01:35:01,729 --> 01:35:00,000

uh the the UFO investigators were kind

2523

01:35:04,729 --> 01:35:01,739

of leaving bad taste in everybody's

2524

01:35:07,610 --> 01:35:04,739

mouth at the time UFO people pissing

2525

01:35:09,830 --> 01:35:07,620

everyone off picking the normies mad I'm

2526  
01:35:11,750 --> 01:35:09,840  
shocked yeah yeah I can only imagine

2527  
01:35:13,550 --> 01:35:11,760  
like walking down the street just like

2528  
01:35:16,250 --> 01:35:13,560  
grabbing every person they see what did

2529  
01:35:18,970 --> 01:35:16,260  
you see what did you see now um Michael

2530  
01:35:22,010 --> 01:35:18,980  
swords is a real one too

2531  
01:35:23,990 --> 01:35:22,020  
he's amazing his blog he's amazing like

2532  
01:35:25,129 --> 01:35:24,000  
yeah Nick I was gonna say like one of

2533  
01:35:27,050 --> 01:35:25,139  
the pet projects I've been thinking

2534  
01:35:28,550 --> 01:35:27,060  
about doing is scraping his blog and

2535  
01:35:30,410 --> 01:35:28,560  
then putting it in chronological order

2536  
01:35:32,209 --> 01:35:30,420  
so you could read it like a book that

2537  
01:35:33,950 --> 01:35:32,219  
would be awesome because like his blog

2538  
01:35:36,290 --> 01:35:33,960

is incredible it's really thoughtful

2539

01:35:38,930 --> 01:35:36,300

it's really interesting and it covers

2540

01:35:40,430 --> 01:35:38,940

this like what like 15 years like some

2541

01:35:41,810 --> 01:35:40,440

crazy amount of time is extremely

2542

01:35:43,850 --> 01:35:41,820

prolific

2543

01:35:47,030 --> 01:35:43,860

um I also highly recommend his book uh

2544

01:35:49,430 --> 01:35:47,040

Grassroots UFOs or Grassroots oh yeah I

2545

01:35:52,610 --> 01:35:49,440

believe about his traveling display of

2546

01:35:55,189 --> 01:35:52,620

UFOs in malls and then um just people

2547

01:35:57,410 --> 01:35:55,199

would walk up to them and offer their

2548

01:35:58,669 --> 01:35:57,420

own unique UFO experiences it's it's not

2549

01:36:01,250 --> 01:35:58,679

for the people who are looking for hard

2550

01:36:02,570 --> 01:36:01,260

data or anything but it is a book I like

2551

01:36:05,390 --> 01:36:02,580

to revisit when I'm feeling a little

2552

01:36:07,970 --> 01:36:05,400

cynical just these average people who

2553

01:36:09,890 --> 01:36:07,980

see a UFO display a traveling UFO

2554

01:36:11,990 --> 01:36:09,900

display in a mall that compels them to

2555

01:36:14,030 --> 01:36:12,000

share their stories it's a it's a

2556

01:36:16,430 --> 01:36:14,040

collection of all those and they range

2557

01:36:18,709 --> 01:36:16,440

all over the place but it's just I don't

2558

01:36:20,750 --> 01:36:18,719

know kind of a fun read it's cool it's

2559

01:36:22,790 --> 01:36:20,760

like it's like modern day folklore right

2560

01:36:24,410 --> 01:36:22,800

these kinds of listening tours are so

2561

01:36:26,450 --> 01:36:24,420

interesting I mean that's what gets me

2562

01:36:28,610 --> 01:36:26,460

so hot to trot on doing ethnographic

2563

01:36:30,830 --> 01:36:28,620

research on uh in interviews with

2564

01:36:32,209 --> 01:36:30,840

experiencers is because so much of these

2565

01:36:34,790 --> 01:36:32,219

narratives are passed through like

2566

01:36:36,050 --> 01:36:34,800

government filters military filters just

2567

01:36:37,970 --> 01:36:36,060

having these direct one-on-one

2568

01:36:40,310 --> 01:36:37,980

conversations where people recount their

2569

01:36:41,870 --> 01:36:40,320

experiences is so fascinating and to me

2570

01:36:44,750 --> 01:36:41,880

feels like kind of the really kind of

2571

01:36:47,450 --> 01:36:44,760

the like Grassroots work that's super

2572

01:36:49,550 --> 01:36:47,460

compelling about the subjects

2573

01:36:51,709 --> 01:36:49,560

um one one little thing I didn't mention

2574

01:36:53,450 --> 01:36:51,719

um Jack bouchon's boss at the time Leo

2575

01:36:54,530 --> 01:36:53,460

Grenier I think is how you say his last

2576

01:36:56,870 --> 01:36:54,540

name

2577

01:36:58,910 --> 01:36:56,880

um he was interviewed by quite a few

2578

01:37:01,729 --> 01:36:58,920

news outlets at the time

2579

01:37:03,649 --> 01:37:01,739

um and he claimed he he claimed he was a

2580

01:37:05,090 --> 01:37:03,659

former military and that he knew exactly

2581

01:37:07,669 --> 01:37:05,100

what these things were but he couldn't

2582

01:37:10,010 --> 01:37:07,679

say it and maybe sometime in the future

2583

01:37:11,149 --> 01:37:10,020

he would uh pass on the information I

2584

01:37:13,070 --> 01:37:11,159

know unfortunately he passed away

2585

01:37:14,930 --> 01:37:13,080

without doing so

2586

01:37:16,669 --> 01:37:14,940

um but he's of course he liked to throw

2587

01:37:19,850 --> 01:37:16,679

that in in many interviews that he was

2588

01:37:21,350 --> 01:37:19,860

former I I don't know if he was Navy

2589

01:37:23,209 --> 01:37:21,360

um I'd have to look that up I don't know

2590

01:37:24,649 --> 01:37:23,219

specifics former military and he said he

2591

01:37:26,390 --> 01:37:24,659

knew exactly what these were but

2592

01:37:27,770 --> 01:37:26,400

couldn't speak on it

2593

01:37:30,530 --> 01:37:27,780

um which is fun everything everything

2594

01:37:32,689 --> 01:37:30,540

old is new again yeah yeah

2595

01:37:35,330 --> 01:37:32,699

um and uh another thing about that is

2596

01:37:37,610 --> 01:37:35,340

Jack actually did get a reputation

2597

01:37:40,550 --> 01:37:37,620

um in this town and it does it uh

2598

01:37:42,169 --> 01:37:40,560

touches on that in the show too uh the

2599

01:37:44,149 --> 01:37:42,179

stigma that you hear about um he

2600

01:37:46,010 --> 01:37:44,159

actually did face I mean his co-workers

2601  
01:37:48,050 --> 01:37:46,020  
at the time really gave him a hard time

2602  
01:37:51,050 --> 01:37:48,060  
for being the guy who saw UFOs on the

2603  
01:37:53,270 --> 01:37:51,060  
radar and he ended up moving to Georgia

2604  
01:37:55,310 --> 01:37:53,280  
I believe and working for the weather

2605  
01:37:56,930 --> 01:37:55,320  
station down there just to kind of

2606  
01:38:00,649 --> 01:37:56,940  
Escape that it never brought it up again

2607  
01:38:02,390 --> 01:38:00,659  
there which um was it was really great

2608  
01:38:04,370 --> 01:38:02,400  
because I reached out to him out of the

2609  
01:38:05,990 --> 01:38:04,380  
blue when I first started uh investing

2610  
01:38:07,910 --> 01:38:06,000  
in this case he was the first person I

2611  
01:38:10,189 --> 01:38:07,920  
reached out to one of the first steps I

2612  
01:38:12,530 --> 01:38:10,199  
did in um investigating this case

2613  
01:38:15,470 --> 01:38:12,540

outside of looking at the old uh the

2614

01:38:17,450 --> 01:38:15,480

news clippings at the AFU and he was

2615

01:38:19,010 --> 01:38:17,460

um really willing to talk about it at

2616

01:38:20,209 --> 01:38:19,020

the time he said you haven't thought

2617

01:38:22,729 --> 01:38:20,219

about it in a long time haven't talked

2618

01:38:25,250 --> 01:38:22,739

about it but yeah yeah and he was but

2619

01:38:26,750 --> 01:38:25,260

really helpful in the beginning just

2620

01:38:29,570 --> 01:38:26,760

um always being willing to talk about

2621

01:38:32,689 --> 01:38:29,580

his experience and how he personally

2622

01:38:33,890 --> 01:38:32,699

felt and how he personally experienced

2623

01:38:36,290 --> 01:38:33,900

this

2624

01:38:37,790 --> 01:38:36,300

um more so like emotionally while while

2625

01:38:39,770 --> 01:38:37,800

looking at the straight ice cream so I

2626

01:38:41,450 --> 01:38:39,780

thought that was really awesome

2627

01:38:43,790 --> 01:38:41,460

um all the witnesses that I've been able

2628

01:38:45,770 --> 01:38:43,800

to get a hold of and speak to are really

2629

01:38:47,689 --> 01:38:45,780

genuine and really open about sharing

2630

01:38:51,890 --> 01:38:47,699

their experiences with me in the super

2631

01:38:53,330 --> 01:38:51,900

helpful so uh I mean um I I don't always

2632

01:38:55,550 --> 01:38:53,340

recommend like reaching out to strangers

2633

01:38:57,050 --> 01:38:55,560

and bugging them about UFOs but the

2634

01:38:59,930 --> 01:38:57,060

people in this case were really cool

2635

01:39:01,910 --> 01:38:59,940

about it and um develop friendships with

2636

01:39:03,709 --> 01:39:01,920

them too so like we still keep in touch

2637

01:39:05,990 --> 01:39:03,719

like they were all talking to me after

2638

01:39:08,870 --> 01:39:06,000

the the episode aired and I got kind of

2639

01:39:10,310 --> 01:39:08,880

their feedback on it they all said it

2640

01:39:13,790 --> 01:39:10,320

was pretty good I mean like none of them

2641

01:39:17,930 --> 01:39:15,530

um except for Jenny Tilly apparently but

2642

01:39:19,610 --> 01:39:17,940

of course yeah but that's where I'm at

2643

01:39:23,390 --> 01:39:19,620

with it always looking for more

2644

01:39:25,370 --> 01:39:23,400

information to fill in those gaps

2645

01:39:27,530 --> 01:39:25,380

wonderful well Nick thank you so much

2646

01:39:29,149 --> 01:39:27,540

this was this was excellent

2647

01:39:31,729 --> 01:39:29,159

um and also it was really great to have

2648

01:39:33,290 --> 01:39:31,739

these visuals to the company yeah talk

2649

01:39:34,910 --> 01:39:33,300

track like that was very helpful since

2650

01:39:37,490 --> 01:39:34,920

we've only just talked about this case

2651  
01:39:39,890 --> 01:39:37,500  
but this kind of helped knit together uh

2652  
01:39:41,390 --> 01:39:39,900  
Parts The Narrative and events uh with

2653  
01:39:44,209 --> 01:39:41,400  
different eyewitness accounts so yeah

2654  
01:39:45,709 --> 01:39:44,219  
very well done I I feel like the um the

2655  
01:39:48,649 --> 01:39:45,719  
diagram of the neighborhood where the

2656  
01:39:50,090 --> 01:39:48,659  
underground people kind of helps you get

2657  
01:39:52,610 --> 01:39:50,100  
a better understanding of what's going

2658  
01:39:54,709 --> 01:39:52,620  
on and like the fact you know it's all

2659  
01:39:56,870 --> 01:39:54,719  
within a mile or two especially that the

2660  
01:39:58,970 --> 01:39:56,880  
person right up around the corner on the

2661  
01:40:00,350 --> 01:39:58,980  
second floor balcony kind of looking

2662  
01:40:02,149 --> 01:40:00,360  
over the shoulders of the other

2663  
01:40:04,430 --> 01:40:02,159

Witnesses and describing the same thing

2664

01:40:05,950 --> 01:40:04,440

on that tape I think is one of the more

2665

01:40:08,209 --> 01:40:05,960

compelling aspects of the whole case

2666

01:40:09,950 --> 01:40:08,219

great comment here from Steve Goldman

2667

01:40:11,450 --> 01:40:09,960

camping in this region after Labor Day

2668

01:40:14,450 --> 01:40:11,460

in this region crushes credibility

2669

01:40:16,550 --> 01:40:14,460

beware of fake reluctance to it yeah I

2670

01:40:18,669 --> 01:40:16,560

think that's a lot of our Impressions I

2671

01:40:22,910 --> 01:40:18,679

was born and raised in Upstate New York

2672

01:40:25,850 --> 01:40:22,920

Campbell's and Canada Nixon Michigan

2673

01:40:27,950 --> 01:40:25,860

um yeah it gets very cold on the lake

2674

01:40:30,470 --> 01:40:27,960

side it makes no sense right on the lake

2675

01:40:32,390 --> 01:40:30,480

side and and if you were camping there

2676

01:40:34,129 --> 01:40:32,400

that time of night like I've done cold

2677

01:40:35,990 --> 01:40:34,139

weather camping and winter camping

2678

01:40:38,149 --> 01:40:36,000

you're not out of your tent looking

2679

01:40:41,209 --> 01:40:38,159

around outside you were like wrapped in

2680

01:40:43,310 --> 01:40:41,219

Merino wool and your quill and your pad

2681

01:40:45,950 --> 01:40:43,320

and your rain fly and everything you're

2682

01:40:48,729 --> 01:40:45,960

not outside looking around right um from

2683

01:40:52,189 --> 01:40:48,739

Derek that was awesome thanks nice quick

2684

01:40:54,830 --> 01:40:52,199

another great show swing

2685

01:40:56,570 --> 01:40:54,840

um yeah I do want to I want to say that

2686

01:40:57,830 --> 01:40:56,580

that waterfall claim that that is

2687

01:40:59,450 --> 01:40:57,840

getting um

2688

01:41:00,950 --> 01:40:59,460

I'm taking that with a grain of salt and

2689

01:41:02,450 --> 01:41:00,960

I recommend everybody else who watches

2690

01:41:03,890 --> 01:41:02,460

that episode I definitely recommend

2691

01:41:05,330 --> 01:41:03,900

people watch that episode of Unsolved

2692

01:41:06,649 --> 01:41:05,340

Mysteries and Unsolved Mysteries in

2693

01:41:09,050 --> 01:41:06,659

general I mean I grew up on that show

2694

01:41:09,770 --> 01:41:09,060

I'm disappointed my segment got cut from

2695

01:41:16,010 --> 01:41:09,780

it

2696

01:41:18,110 --> 01:41:16,020

to

2697

01:41:19,610 --> 01:41:18,120

um insinuate that they're lying or

2698

01:41:22,250 --> 01:41:19,620

anything like that I've just never heard

2699

01:41:23,750 --> 01:41:22,260

of it and um like I said well take take

2700

01:41:25,850 --> 01:41:23,760

everything obviously with a grain of

2701

01:41:27,229 --> 01:41:25,860

salt take no one's word for it but uh

2702

01:41:29,930 --> 01:41:27,239

keep that in mind when watching that

2703

01:41:31,910 --> 01:41:29,940

episode that that waterfall or that

2704

01:41:33,470 --> 01:41:31,920

water sucking UFO was never part of the

2705

01:41:35,450 --> 01:41:33,480

original story

2706

01:41:36,950 --> 01:41:35,460

um and I personally as someone who's

2707

01:41:39,350 --> 01:41:36,960

been researching this case for a couple

2708

01:41:40,430 --> 01:41:39,360

years now I I think it's really uh

2709

01:41:41,810 --> 01:41:40,440

questionable

2710

01:41:46,129 --> 01:41:41,820

right

2711

01:41:48,649 --> 01:41:46,139

let's just do a quick Round Table about

2712

01:41:52,129 --> 01:41:48,659

what people are working on Cambo what

2713

01:41:54,169 --> 01:41:52,139

are you doing I have been working on my

2714

01:41:55,970 --> 01:41:54,179

website again I think I mentioned last

2715

01:41:59,030 --> 01:41:55,980

week I was adding a few of those extra

2716

01:42:01,310 --> 01:41:59,040

pages so just been adding more of my

2717

01:42:02,570 --> 01:42:01,320

interviews under a sub page and then

2718

01:42:05,629 --> 01:42:02,580

I've been messing around with the

2719

01:42:08,270 --> 01:42:05,639

content a bit trying to clean it up make

2720

01:42:10,010 --> 01:42:08,280

it move smoother just always trying to

2721

01:42:12,290 --> 01:42:10,020

improve it and I'm working on a final

2722

01:42:14,270 --> 01:42:12,300

sort of like conclusion um Nick you

2723

01:42:15,350 --> 01:42:14,280

inspired me uh last week to actually

2724

01:42:18,350 --> 01:42:15,360

kind of

2725

01:42:20,870 --> 01:42:18,360

try to maybe dive into a series of the

2726

01:42:21,709 --> 01:42:20,880

highest profile historic cases a little

2727

01:42:23,090 --> 01:42:21,719

bit

2728

01:42:24,709 --> 01:42:23,100

um just to sort of show what's going on

2729

01:42:27,709 --> 01:42:24,719

with that so I've started to sort of

2730

01:42:29,750 --> 01:42:27,719

create the skeleton of that so that's

2731

01:42:31,729 --> 01:42:29,760

what I've been doing including uh Mino

2732

01:42:35,149 --> 01:42:31,739

is that how you say it mean no Air Force

2733

01:42:40,490 --> 01:42:38,689

yes because I was I know I was I was Air

2734

01:42:41,689 --> 01:42:40,500

Force Roxy and Minot was where they

2735

01:42:43,550 --> 01:42:41,699

threatened to send you if you like

2736

01:42:47,410 --> 01:42:43,560

really sucked and we're at the bottom of

2737

01:42:49,550 --> 01:42:47,420

your class do they say mine mine yeah

2738

01:42:51,229 --> 01:42:49,560

it's also notable because it was like

2739

01:42:53,810 --> 01:42:51,239

the last place in the United States I

2740

01:42:56,629 --> 01:42:53,820

think where you could drink at 18.

2741

01:42:57,890 --> 01:42:56,639

um yeah okay that's really funny if

2742

01:42:59,330 --> 01:42:57,900

you're trapped up there yeah I know

2743

01:43:00,830 --> 01:42:59,340

because when I was reading it I always

2744

01:43:02,209 --> 01:43:00,840

was like saying it in my head like the

2745

01:43:04,910 --> 01:43:02,219

French way right because we're bilingual

2746

01:43:06,410 --> 01:43:04,920

up here it's like me no but I was

2747

01:43:09,649 --> 01:43:06,420

thinking like how would an American say

2748

01:43:15,950 --> 01:43:13,570

um that's not even right sorry

2749

01:43:18,350 --> 01:43:15,960

the case does have some striking

2750

01:43:21,169 --> 01:43:18,360

similarities as does the uh the 1952

2751

01:43:24,109 --> 01:43:21,179

Washington DC case right here actually

2752

01:43:25,790 --> 01:43:24,119

uh oh no I'm always looking for more

2753

01:43:28,430 --> 01:43:25,800

cases they have um

2754

01:43:30,350 --> 01:43:28,440

similar like observations behaviors and

2755

01:43:32,330 --> 01:43:30,360

stuff like that because I think

2756

01:43:34,609 --> 01:43:32,340

I think it's really interesting that we

2757

01:43:37,370 --> 01:43:34,619

classify what I described in this case

2758

01:43:38,750 --> 01:43:37,380

as a UFO but also

2759

01:43:42,109 --> 01:43:38,760

um what allegedly happened like Phoenix

2760

01:43:44,810 --> 01:43:42,119

Lights as UFO uh Lonnie zamura's

2761

01:43:46,189 --> 01:43:44,820

incident in the Tic Tac Are UFOs these

2762

01:43:48,109 --> 01:43:46,199

things are all like described

2763

01:43:49,790 --> 01:43:48,119

drastically different ways

2764

01:43:51,830 --> 01:43:49,800  
and the only thing that's kind of

2765

01:43:53,270 --> 01:43:51,840  
holding them together is the unknown

2766

01:43:56,330 --> 01:43:53,280  
nature the the fact that they are

2767

01:43:58,370 --> 01:43:56,340  
unidentified yet we kind of um have a

2768

01:44:00,770 --> 01:43:58,380  
culture around them where we're kind of

2769

01:44:03,050 --> 01:44:00,780  
uh implying that they are all the same

2770

01:44:04,310 --> 01:44:03,060  
thing it's really weird to me well

2771

01:44:06,169 --> 01:44:04,320  
that's interesting yeah that would

2772

01:44:07,250 --> 01:44:06,179  
actually be something I mean we'll uh

2773

01:44:08,570 --> 01:44:07,260  
we'll wrap it up right now but that's

2774

01:44:09,770 --> 01:44:08,580  
something I should dive into for like

2775

01:44:11,510 --> 01:44:09,780  
three hours

2776

01:44:14,149 --> 01:44:11,520

um if you look through the historic

2777

01:44:16,310 --> 01:44:14,159

documents the U.S Air Force uh

2778

01:44:18,350 --> 01:44:16,320

definition of what a UFO is the FBI's

2779

01:44:21,109 --> 01:44:18,360

definition of what a UFO is

2780

01:44:23,030 --> 01:44:21,119

um the uh Condon reports definition what

2781

01:44:24,770 --> 01:44:23,040

if it was you came Ministry of defense's

2782

01:44:26,870 --> 01:44:24,780

definition of UFO is and then what

2783

01:44:28,850 --> 01:44:26,880

Jacques valet in jail and heineck's

2784

01:44:31,490 --> 01:44:28,860

definitions of what a UFO is they are

2785

01:44:33,470 --> 01:44:31,500

all identical they describe multicolored

2786

01:44:36,169 --> 01:44:33,480

luminous objects with the features that

2787

01:44:38,510 --> 01:44:36,179

we are describing uh then then even high

2788

01:44:40,010 --> 01:44:38,520

neck and the Air Force and stuff the CIA

2789

01:44:42,709 --> 01:44:40,020

as well I forgot them of course so

2790

01:44:45,350 --> 01:44:42,719

important they talk about how daylight

2791

01:44:47,510 --> 01:44:45,360

discs and nocturnal lights they may be

2792

01:44:50,209 --> 01:44:47,520

uh the same phenomenon under different

2793

01:44:51,950 --> 01:44:50,219

conditions the the nocturnal lights are

2794

01:44:54,350 --> 01:44:51,960

always luminous various colors this and

2795

01:44:57,830 --> 01:44:54,360

that during the daytime the objects

2796

01:45:00,709 --> 01:44:57,840

exhibit the exact same behaviors but a

2797

01:45:02,149 --> 01:45:00,719

pure metallic or dull uh and so they're

2798

01:45:05,570 --> 01:45:02,159

saying and that's something that you

2799

01:45:06,950 --> 01:45:05,580

would expect from plasma so and that's a

2800

01:45:08,209 --> 01:45:06,960

feature of a lot of reports it's like oh

2801

01:45:09,890 --> 01:45:08,219

the sun was on the other side of the

2802

01:45:11,570 --> 01:45:09,900

object but it was shining off this side

2803

01:45:13,550 --> 01:45:11,580

it makes no sense tons of those and it's

2804

01:45:15,890 --> 01:45:13,560

it's because it was emitting the

2805

01:45:18,410 --> 01:45:15,900

internal light from the plasmoid so

2806

01:45:19,669 --> 01:45:18,420

anyway yes uh long story short

2807

01:45:21,590 --> 01:45:19,679

um that was something I would love to

2808

01:45:23,750 --> 01:45:21,600

dive into extensively but I think there

2809

01:45:26,570 --> 01:45:23,760

is a consistent definition that we can

2810

01:45:28,550 --> 01:45:26,580

appeal to and there are a large number

2811

01:45:30,050 --> 01:45:28,560

of the most I mean I think every most

2812

01:45:31,970 --> 01:45:30,060

prominent case actually contains those

2813

01:45:36,050 --> 01:45:31,980

features um the ones that I have a 51

2814

01:45:38,290 --> 01:45:36,060

Los Alamos 1952 Washington DC 1959 White

2815

01:45:42,830 --> 01:45:38,300

Sands 1968

2816

01:45:46,189 --> 01:45:42,840

minox Air Force Base 1976 Tehran 79

2817

01:45:48,350 --> 01:45:46,199

magnis uh 1980 Rendell show the features

2818

01:45:51,229 --> 01:45:48,360

are the same 94 like Michigan and in

2819

01:45:52,430 --> 01:45:51,239

2004 amendments interesting that's what

2820

01:45:54,709 --> 01:45:52,440

I'm working on now

2821

01:45:56,330 --> 01:45:54,719

I like it

2822

01:45:58,310 --> 01:45:56,340

that's great Lewis

2823

01:46:02,109 --> 01:45:58,320

what's going on friend

2824

01:46:06,050 --> 01:46:02,119

I'm just reading some dubious books

2825

01:46:08,209 --> 01:46:06,060

one more Nazis and UFOs huh what about

2826

01:46:11,149 --> 01:46:08,219

um uh

2827

01:46:13,310 --> 01:46:11,159

I mentioned it to you actually Leah um

2828

01:46:16,609 --> 01:46:13,320

the uh the secret ciphers of the

2829

01:46:19,250 --> 01:46:16,619

euthanas by what's his name David

2830

01:46:21,950 --> 01:46:19,260

something Greenfield

2831

01:46:24,830 --> 01:46:21,960

yeah he there were a couple of his that

2832

01:46:27,950 --> 01:46:24,840

you shared with me yeah I don't know

2833

01:46:30,470 --> 01:46:27,960

like if there's spoofs or it seems like

2834

01:46:33,169 --> 01:46:30,480

he's kind of half serious so I can't

2835

01:46:34,790 --> 01:46:33,179

oh secret rituals of the Men in Black in

2836

01:46:38,229 --> 01:46:34,800

the complete secret Cipher of the

2837

01:46:40,629 --> 01:46:38,239

euphonats by Alan Greenfield wow

2838

01:46:43,750 --> 01:46:40,639

this is like man these are like

2839

01:46:46,970 --> 01:46:43,760

algorithmically generated titles

2840

01:46:48,890 --> 01:46:46,980

and they're also exactly in the pose law

2841

01:46:51,229 --> 01:46:48,900

space where you can't quite tell if

2842

01:46:53,350 --> 01:46:51,239

they're serious or not it's like that

2843

01:46:55,010 --> 01:46:53,360

sounds really great

2844

01:46:56,870 --> 01:46:55,020

compelling

2845

01:46:58,450 --> 01:46:56,880

and the other one is about um the

2846

01:47:01,550 --> 01:46:58,460

rendition case

2847

01:47:03,770 --> 01:47:01,560

a bunch of contributors and do I have it

2848

01:47:07,729 --> 01:47:03,780

here yeah that's a weird one I should

2849

01:47:08,590 --> 01:47:07,739

last time it's just disappeared there we

2850

01:47:11,209 --> 01:47:08,600

go

2851  
01:47:14,270 --> 01:47:11,219  
weaponization of an unidentified aerial

2852  
01:47:17,229 --> 01:47:14,280  
phenomena interesting it's got on a

2853  
01:47:19,669 --> 01:47:17,239  
bunch of people in this um

2854  
01:47:21,410 --> 01:47:19,679  
American and um

2855  
01:47:23,870 --> 01:47:21,420  
British um

2856  
01:47:25,790 --> 01:47:23,880  
people in different different roles

2857  
01:47:28,609 --> 01:47:25,800  
including

2858  
01:47:31,189 --> 01:47:28,619  
um a former Aid to Senator John McCain

2859  
01:47:32,270 --> 01:47:31,199  
Cheryl Bennett

2860  
01:47:34,490 --> 01:47:32,280  
um

2861  
01:47:36,169 --> 01:47:34,500  
and some other people but I don't know

2862  
01:47:38,149 --> 01:47:36,179  
like it seems like it's got a lot of

2863  
01:47:40,629 --> 01:47:38,159

crap mixed in with some

2864

01:47:44,290 --> 01:47:40,639

more credible stuff

2865

01:47:46,910 --> 01:47:44,300

it's your first man yeah yeah

2866

01:47:49,609 --> 01:47:46,920

uh Leah what are you up to

2867

01:47:52,189 --> 01:47:49,619

yeah so um finally have a project name

2868

01:47:53,689 --> 01:47:52,199

uh for my Art Bell initiative We Own the

2869

01:47:55,250 --> 01:47:53,699

Night the legacy of Art Bell and Coast

2870

01:47:58,010 --> 01:47:55,260

to Coast AM

2871

01:47:59,930 --> 01:47:58,020

um I am on the I don't know like Don

2872

01:48:01,850 --> 01:47:59,940

Quixote tilting at windmills I'm trying

2873

01:48:04,250 --> 01:48:01,860

to amass like the most comprehensive

2874

01:48:06,229 --> 01:48:04,260

research and material repository on Art

2875

01:48:08,330 --> 01:48:06,239

Bell and Coast to Coast been going back

2876  
01:48:10,370 --> 01:48:08,340  
and forth with a couple one of the some

2877  
01:48:12,830 --> 01:48:10,380  
of the few and far between academics

2878  
01:48:14,629 --> 01:48:12,840  
that have studied kind of art and the

2879  
01:48:16,430 --> 01:48:14,639  
legacy of coast to coast and aiming to

2880  
01:48:19,250 --> 01:48:16,440  
have like the skeleton of the archive up

2881  
01:48:20,209 --> 01:48:19,260  
online for people to research and use

2882  
01:48:22,070 --> 01:48:20,219  
um and I've also starting to interview

2883  
01:48:23,930 --> 01:48:22,080  
people who are either current content

2884  
01:48:26,450 --> 01:48:23,940  
creators or were guests on his show at

2885  
01:48:28,910 --> 01:48:26,460  
some point to kind of start getting you

2886  
01:48:32,090 --> 01:48:28,920  
know thoughts ideas experiences Etc

2887  
01:48:33,890 --> 01:48:32,100  
around both their interactions with art

2888  
01:48:35,629 --> 01:48:33,900

and then also you know how they've

2889

01:48:37,609 --> 01:48:35,639

carried his legacy forward in their own

2890

01:48:39,709 --> 01:48:37,619

creative Pursuits

2891

01:48:41,870 --> 01:48:39,719

um so that's yeah that's been my

2892

01:48:43,070 --> 01:48:41,880

day-to-day I'm also doing the Fool's

2893

01:48:46,010 --> 01:48:43,080

errand of going through all the old

2894

01:48:49,250 --> 01:48:46,020

prediction shows and annotating all the

2895

01:48:50,090 --> 01:48:49,260

predictions oh yeah yeah it's kind of

2896

01:48:53,149 --> 01:48:50,100

cool

2897

01:48:54,890 --> 01:48:53,159

um lots of conspiracies around 2000 ish

2898

01:48:56,510 --> 01:48:54,900

about China creating a flu and

2899

01:48:59,990 --> 01:48:56,520

unleashing it on the world so it's it's

2900

01:49:01,490 --> 01:49:00,000

good to know that uh linear time is uh

2901

01:49:03,590 --> 01:49:01,500

just a function of the limits of human

2902

01:49:06,530 --> 01:49:03,600

consciousness and everything happens all

2903

01:49:08,570 --> 01:49:06,540

at once so what people were crying about

2904

01:49:10,550 --> 01:49:08,580

in the tinfoil hat crowd 20 years ago

2905

01:49:13,850 --> 01:49:10,560

still the exact same

2906

01:49:15,590 --> 01:49:13,860

um but um yeah Art Bell greatest of all

2907

01:49:18,229 --> 01:49:15,600

time sorry he screwed up everything for

2908

01:49:20,030 --> 01:49:18,239

the rest of us but old Coast to Coast

2909

01:49:23,510 --> 01:49:20,040

episodes are still my favorite listening

2910

01:49:25,970 --> 01:49:23,520

yeah um so yeah uh so I don't think we

2911

01:49:27,290 --> 01:49:25,980

have a theme for next week's show I

2912

01:49:29,390 --> 01:49:27,300

guess we'll back Channel about that

2913

01:49:31,490 --> 01:49:29,400

might be open lines might be oh the

2914

01:49:32,870 --> 01:49:31,500

report will be out Joe oh yeah the

2915

01:49:34,550 --> 01:49:32,880

report will be out we should do an open

2916

01:49:36,530 --> 01:49:34,560

Line episode then and talk about the

2917

01:49:38,270 --> 01:49:36,540

report and uh just kind of Round Table

2918

01:49:40,370 --> 01:49:38,280

on some stuff

2919

01:49:42,709 --> 01:49:40,380

um you can find us at our Twitter

2920

01:49:46,189 --> 01:49:42,719

handles I'm Leah Prime Campbell UAP
