6
00:01:39,350 --> 00:01:32,940
thank you

7
00:01:44,810 --> 00:01:42,890
yes hello from the Great Northern

8
00:01:46,670 --> 00:01:44,820
Wilderness I bid you all good evening

9
00:01:48,289 --> 00:01:46,680
good morning good afternoon wherever you

10
00:01:50,749 --> 00:01:48,299
may be Across the Nation around the

11
00:01:52,789 --> 00:01:50,759
world my name is Leah Prime and this is

12
00:01:55,010 --> 00:01:52,799
the invisible night school super excited

13
00:01:59,210 --> 00:01:55,020

to see people joining us week over week

14

00:02:01,609 --> 00:01:59,220

hello uh to the Earth and of course

15

00:02:03,170 --> 00:02:01,619

resident ins favorite Steve long really

16

00:02:05,690 --> 00:02:03,180

great to see you here week after week

17

00:02:07,010 --> 00:02:05,700

Michael Huntington nice to see you

18

00:02:09,169 --> 00:02:07,020

friend

19

00:02:10,790 --> 00:02:09,179

um let me see it's really exciting uh

20

00:02:13,790 --> 00:02:10,800

over and over every week to see people

21

00:02:16,970 --> 00:02:13,800

coming in Duncan

22

00:02:18,710 --> 00:02:16,980

hello red panda koala nice to see you

23

00:02:20,930 --> 00:02:18,720

dude

24

00:02:25,070 --> 00:02:20,940

um so tonight super excited to welcome

25

00:02:26,930 --> 00:02:25,080

Jeff Knox uh Jeff Knox known as Mr Jeff

26

00:02:28,430 --> 00:02:26,940

Knox on Twitter one of my personal

27

00:02:30,110 --> 00:02:28,440

favorite researchers in the community

28

00:02:32,030 --> 00:02:30,120

right now

29

00:02:33,589 --> 00:02:32,040

um has kind of claim to fame is

30

00:02:35,330 --> 00:02:33,599

presenting a pretty complete

31

00:02:38,030 --> 00:02:35,340

documentation and research every single

32

00:02:39,770 --> 00:02:38,040

day on a Case pertinent to the date if

33

00:02:42,229 --> 00:02:39,780

anyone isn't following him definitely

34

00:02:44,630 --> 00:02:42,239

recommend giving him a follow his

35

00:02:47,570 --> 00:02:44,640

thoroughness and documentation that he

36

00:02:50,750 --> 00:02:47,580

presents every day every single day is

37

00:02:52,190 --> 00:02:50,760

truly uh very impressive so um we're

38

00:02:54,830 --> 00:02:52,200

going to be having him on the show this

39

00:02:57,350 --> 00:02:54,840

evening and uh we do this just some

40

00:02:59,390 --> 00:02:57,360

scheduling snafus we have pushed Sarah

41

00:03:01,430 --> 00:02:59,400

schools out a couple weeks so she'll be

42

00:03:04,009 --> 00:03:01,440

joining us in early February

43

00:03:06,890 --> 00:03:04,019

I'd like to welcome of course my

44

00:03:09,229 --> 00:03:06,900

co-hosts onto the stream so I will bring

45

00:03:11,509 --> 00:03:09,239

on the inevitable Campbell

46

00:03:14,630 --> 00:03:11,519

the brilliant Louise

47

00:03:16,009 --> 00:03:14,640

our resident dubious Layman Nick good to

48

00:03:19,970 --> 00:03:16,019

see you friend

49

00:03:22,330 --> 00:03:19,980

and then of course I'll bring on Jeff

50

00:03:26,210 --> 00:03:22,340

hey guys how are you happy Wednesday

51
00:03:28,130 --> 00:03:26,220
yeah you too very well yeah happy

52
00:03:28,990 --> 00:03:28,140
Wednesday to you too Leah how are you

53
00:03:31,250 --> 00:03:29,000
doing

54
00:03:33,949 --> 00:03:31,260
uh you know it's just another day in

55
00:03:35,750 --> 00:03:33,959
paradise in like the Leo World

56
00:03:37,070 --> 00:03:35,760
um as I'm sure some of you are noticing

57
00:03:38,930 --> 00:03:37,080
I've been a little bit of disarray

58
00:03:41,869 --> 00:03:38,940
because I now have a standing desk

59
00:03:44,030 --> 00:03:41,879
instead of working at a dining room

60
00:03:45,830 --> 00:03:44,040
table like I have been for the last few

61
00:03:48,050 --> 00:03:45,840
months and as a result have kind of

62
00:03:49,970 --> 00:03:48,060
refactored my workspace which means my

63
00:03:52,910 --> 00:03:49,980

lighting's all [\h__\h] up my banner is

64

00:03:55,369 --> 00:03:52,920

all [\h__\h] up but I'm here and I'm

65

00:03:57,110 --> 00:03:55,379

um excited to talk about UFOs with some

66

00:03:59,210 --> 00:03:57,120

of the community's best and brightest

67

00:04:00,890 --> 00:03:59,220

Minds

68

00:04:03,170 --> 00:04:00,900

Nick how are you

69

00:04:06,050 --> 00:04:03,180

oh um I'm a little under the weather but

70

00:04:08,149 --> 00:04:06,060

covered free so that's good

71

00:04:09,949 --> 00:04:08,159

um I think it's just it's just allergies

72

00:04:10,910 --> 00:04:09,959

or something but otherwise good I'm

73

00:04:12,949 --> 00:04:10,920

doing good

74

00:04:17,990 --> 00:04:12,959

good

75

00:04:20,330 --> 00:04:18,000

Mr cultano yes all right

76

00:04:24,230 --> 00:04:20,340

so mysterious always

77

00:04:27,830 --> 00:04:26,330

so where do I want to start here

78

00:04:29,810 --> 00:04:27,840

um I mean

79

00:04:32,030 --> 00:04:29,820

when I when I came to Jeff about coming

80

00:04:34,129 --> 00:04:32,040

on the show uh having been familiar with

81

00:04:35,689 --> 00:04:34,139

his research I was just like look man

82

00:04:37,610 --> 00:04:35,699

whatever you want to do with the time is

83

00:04:39,770 --> 00:04:37,620

cool like if you just want to talk about

84

00:04:41,450 --> 00:04:39,780

your research methods that's great if

85

00:04:43,310 --> 00:04:41,460

you want to talk about particular cases

86

00:04:44,990 --> 00:04:43,320

you're a fan of that would also keep us

87

00:04:47,749 --> 00:04:45,000

all very happy

88

00:04:49,310 --> 00:04:47,759

um you know it it's I think at least for

89
00:04:51,409 --> 00:04:49,320
me infrequent that I come across someone

90
00:04:53,510 --> 00:04:51,419
with such an encyclopedic knowledge and

91
00:04:55,850 --> 00:04:53,520
background in the subject

92
00:04:58,010 --> 00:04:55,860
um so we'll have him on but then this is

93
00:04:59,330 --> 00:04:58,020
also going to be an open lines show so

94
00:05:00,950 --> 00:04:59,340
we'll be sharing the stream yard link

95
00:05:02,450 --> 00:05:00,960
for people to jump on and join the

96
00:05:04,010 --> 00:05:02,460
conversation if there's either questions

97
00:05:06,350 --> 00:05:04,020
you have for us things you want to

98
00:05:08,090 --> 00:05:06,360
contribute it can either be directly

99
00:05:09,770 --> 00:05:08,100
related or pertinent to what Jeff will

100
00:05:12,170 --> 00:05:09,780
be discussing um or if there's just

101
00:05:14,210 --> 00:05:12,180
stuff you want to uh to air out to the

102
00:05:15,469 --> 00:05:14,220
community or talk to ins about we want

103
00:05:17,870 --> 00:05:15,479
to hear it

104
00:05:19,550 --> 00:05:17,880
um I just want to you know curate the

105
00:05:21,830 --> 00:05:19,560
conversation a little bit before we get

106
00:05:24,409 --> 00:05:21,840
started

107
00:05:27,110 --> 00:05:24,419
do you guys just want me to maybe kind

108
00:05:28,689 --> 00:05:27,120
of introduce how I got into UFOs and UFO

109
00:05:32,270 --> 00:05:28,699
research to begin with

110
00:05:36,529 --> 00:05:32,280
let's do the how we met story

111
00:05:38,870 --> 00:05:36,539
okay well I I got into UFOs very young I

112
00:05:40,730 --> 00:05:38,880
uh literally as a child in elementary

113
00:05:43,070 --> 00:05:40,740

school I started reading through just

114

00:05:46,070 --> 00:05:43,080

tons of UFO books watching UFO

115

00:05:47,930 --> 00:05:46,080

documentaries and I was pretty heavily

116

00:05:50,570 --> 00:05:47,940

into it throughout the

117

00:05:52,670 --> 00:05:50,580

early internet years computer bulletin

118

00:05:56,450 --> 00:05:52,680

board years old phytonet UFO

119

00:05:58,790 --> 00:05:56,460

conversation years uh I let it lacks for

120

00:06:01,550 --> 00:05:58,800

a little while during school and whatnot

121

00:06:03,950 --> 00:06:01,560

but about 15 years ago I got really

122

00:06:05,689 --> 00:06:03,960

heavily into it again

123

00:06:08,290 --> 00:06:05,699

um I mean I was always doubting the

124

00:06:11,930 --> 00:06:08,300

topic but about 15 years I just started

125

00:06:15,170 --> 00:06:11,940

doing a very deep dive reading hundreds

126

00:06:16,850 --> 00:06:15,180

if not thousand UFO books

127

00:06:20,270 --> 00:06:16,860

um collecting as much material as I can

128

00:06:21,529 --> 00:06:20,280

and about 10 years ago I was fortunate

129

00:06:24,050 --> 00:06:21,539

enough to have the resources to be able

130

00:06:25,969 --> 00:06:24,060

to do this kind of full time and so I

131

00:06:28,490 --> 00:06:25,979

started doing my UFO research full-time

132

00:06:32,090 --> 00:06:28,500

traveling around the country going to

133

00:06:33,309 --> 00:06:32,100

conferences archives libraries I started

134

00:06:35,990 --> 00:06:33,319

getting into

135

00:06:40,969 --> 00:06:36,000

preservation and scanning and digitizing

136

00:06:42,650 --> 00:06:40,979

uh about seven years ago and that's kind

137

00:06:45,230 --> 00:06:42,660

of where I was focusing mostly the last

138

00:06:47,510 --> 00:06:45,240

few years and I got on Twitter this

139

00:06:49,189 --> 00:06:47,520

summer because I wanted to help share

140

00:06:51,050 --> 00:06:49,199

historical cases to kind of help point

141

00:06:55,010 --> 00:06:51,060

out the people that you posed didn't

142

00:06:56,809 --> 00:06:55,020

just start existing in 2017 or 2004 or

143

00:06:59,029 --> 00:06:56,819

all these new cases that people only

144

00:07:00,830 --> 00:06:59,039

seem to want to talk about I wanted to

145

00:07:02,510 --> 00:07:00,840

kind of present some of the historical

146

00:07:04,370 --> 00:07:02,520

evidence in cases that go back

147

00:07:07,129 --> 00:07:04,380

throughout history so I started doing

148

00:07:10,010 --> 00:07:07,139

these daily history posts and

149

00:07:11,710 --> 00:07:10,020

kind of where I am now

150

00:07:14,450 --> 00:07:11,720

and then I met up with you guys

151
00:07:15,770 --> 00:07:14,460
obviously there you go for Twitter and

152
00:07:21,350 --> 00:07:15,780
uh

153
00:07:22,909 --> 00:07:21,360
reactions from some of you like yeah you

154
00:07:26,210 --> 00:07:22,919
can just say it Jeff you can tell the

155
00:07:29,330 --> 00:07:26,220
story yeah basically this summer

156
00:07:31,189 --> 00:07:29,340
um via misunderstanding I give myself

157
00:07:32,450 --> 00:07:31,199
Life by a lot of people I had Jeff

158
00:07:34,309 --> 00:07:32,460
blocked for about three and a half

159
00:07:36,469 --> 00:07:34,319
months before I realized that he

160
00:07:38,450 --> 00:07:36,479
actually is as Earnest and kind and

161
00:07:40,610 --> 00:07:38,460
genuine as he is I think Twitter has

162
00:07:42,290 --> 00:07:40,620
poisoned my brain to assume that

163
00:07:44,210 --> 00:07:42,300

everyone who asked me a question has

164

00:07:46,850 --> 00:07:44,220

some like stupid cynical irony

165

00:07:49,249 --> 00:07:46,860

underpinning it but actually Jeff is

166

00:07:51,589 --> 00:07:49,259

just as nice as he seems he wasn't just

167

00:07:54,230 --> 00:07:51,599

done no he's not blocked anymore no no

168

00:07:55,610 --> 00:07:54,240

he wasn't dunking on me I dude I I can

169

00:07:57,290 --> 00:07:55,620

appreciate a good dunk I don't block

170

00:07:59,890 --> 00:07:57,300

people that dunk on me

171

00:08:02,390 --> 00:07:59,900

that's why you're stopped blocked Nick

172

00:08:04,550 --> 00:08:02,400

I'm still bought by a lot of people

173

00:08:06,890 --> 00:08:04,560

Twitter people don't really like

174

00:08:09,110 --> 00:08:06,900

skeptical viewpoints and I I have some

175

00:08:11,390 --> 00:08:09,120

strong skeptical viewpoints on cases but

176
00:08:12,830 --> 00:08:11,400
that gets me blocked by a lot of people

177
00:08:15,170 --> 00:08:12,840
but uh

178
00:08:18,050 --> 00:08:15,180
you know that's fine if anybody enjoys

179
00:08:20,210 --> 00:08:18,060
my research that's a good thing so no

180
00:08:23,510 --> 00:08:20,220
people should be talking more uh to each

181
00:08:25,550 --> 00:08:23,520
other uh Jeff and you know what why do

182
00:08:27,589 --> 00:08:25,560
you think of the people coming in these

183
00:08:29,089 --> 00:08:27,599
days who are new to the field uh you

184
00:08:30,710 --> 00:08:29,099
mentioned that briefly do you think it's

185
00:08:32,449 --> 00:08:30,720
a good thing that people are taking a

186
00:08:34,370 --> 00:08:32,459
look at this subject or uh do you think

187
00:08:37,130 --> 00:08:34,380
that there's cause for concern there

188
00:08:38,329 --> 00:08:37,140

I I think there's cause for concern for

189

00:08:40,430 --> 00:08:38,339

where these people are getting their

190

00:08:42,589 --> 00:08:40,440

information from a lot of the people

191

00:08:45,590 --> 00:08:42,599

coming in this field are getting it from

192

00:08:48,110 --> 00:08:45,600

some of these mainstream sources like uh

193

00:08:50,630 --> 00:08:48,120

you know Linda Moulton Howe Jeremy

194

00:08:53,150 --> 00:08:50,640

Corbell Ross Colt hurt places that

195

00:08:54,889 --> 00:08:53,160

really just aren't that critical and are

196

00:08:57,769 --> 00:08:54,899

known for presenting a lot of bunk out

197

00:08:58,910 --> 00:08:57,779

there to the audience uh I think it's

198

00:09:01,910 --> 00:08:58,920

great that people want to be interested

199

00:09:04,730 --> 00:09:01,920

in the topic I just think there's a lot

200

00:09:07,370 --> 00:09:04,740

of UFO misinformation disinformation out

201
00:09:08,750 --> 00:09:07,380
there and just bad information and

202
00:09:10,430 --> 00:09:08,760
unfortunately too many of the new people

203
00:09:13,310 --> 00:09:10,440
in this topic are being exposed to

204
00:09:15,949 --> 00:09:13,320
nothing but bad information or just

205
00:09:18,410 --> 00:09:15,959
uncredible information which is

206
00:09:19,970 --> 00:09:18,420
unfortunate because there's a lot of

207
00:09:20,990 --> 00:09:19,980
good resources out there and I think

208
00:09:23,090 --> 00:09:21,000
that's one of the saddest things about

209
00:09:25,430 --> 00:09:23,100
ufology is that a lot of the best

210
00:09:27,050 --> 00:09:25,440
researchers are utterly unknown to the

211
00:09:29,570 --> 00:09:27,060
vast majority of people interested in

212
00:09:32,509 --> 00:09:29,580
this topic they know the people they see

213
00:09:35,269 --> 00:09:32,519

on TV on Ancient Aliens on these other

214

00:09:36,350 --> 00:09:35,279

like schlocky TV documentaries they

215

00:09:37,970 --> 00:09:36,360

don't know the people that have been

216

00:09:40,730 --> 00:09:37,980

doing the hard work for the last 70

217

00:09:42,350 --> 00:09:40,740

years and I think that's sad

218

00:09:45,230 --> 00:09:42,360

but

219

00:09:46,310 --> 00:09:45,240

yeah oh go ahead Leah I was going to say

220

00:09:48,290 --> 00:09:46,320

that's

221

00:09:50,509 --> 00:09:48,300

talked about before how much of ufology

222

00:09:52,370 --> 00:09:50,519

really does exist outside Twitter like

223

00:09:55,449 --> 00:09:52,380

UFO Twitter is definitely its own

224

00:09:57,889 --> 00:09:55,459

particular microcosm

225

00:09:59,570 --> 00:09:57,899

Community it just sound like Niche I

226

00:10:01,430 --> 00:09:59,580

don't even consider UFO Twitter part of

227

00:10:03,350 --> 00:10:01,440

ufology to be honest just like I don't

228

00:10:05,870 --> 00:10:03,360

consider the Greer side to be part of

229

00:10:07,009 --> 00:10:05,880

ufology or some of these other sites

230

00:10:09,530 --> 00:10:07,019

they're kind of like these Fringe

231

00:10:12,410 --> 00:10:09,540

offshoots of like people that try to

232

00:10:15,110 --> 00:10:12,420

take this topic seriously

233

00:10:17,570 --> 00:10:15,120

um before we get too deep in this now

234

00:10:19,310 --> 00:10:17,580

you said you said a hot button word a

235

00:10:21,710 --> 00:10:19,320

trigger word for a lot of people which

236

00:10:24,470 --> 00:10:21,720

is a skeptic right

237

00:10:25,730 --> 00:10:24,480

this term skeptic and and I bring this

238

00:10:28,430 --> 00:10:25,740

up because

239

00:10:31,370 --> 00:10:28,440

um I I love to hear your thoughts on how

240

00:10:32,990 --> 00:10:31,380

you define and relate to that term or

241

00:10:35,090 --> 00:10:33,000

that word like what does skeptic

242

00:10:37,850 --> 00:10:35,100

actually mean to you uh when we're

243

00:10:42,290 --> 00:10:37,860

talking about ufology

244

00:10:44,410 --> 00:10:42,300

um I I think uh a skeptic

245

00:10:48,170 --> 00:10:44,420

would look at the information

246

00:10:49,790 --> 00:10:48,180

openly but short of any actual evidence

247

00:10:52,310 --> 00:10:49,800

I mean you kind of have to take it all

248

00:10:55,550 --> 00:10:52,320

with a grain of salt uh

249

00:10:57,710 --> 00:10:55,560

I mean like I consider Mick West a true

250

00:10:58,910 --> 00:10:57,720

skeptic and everybody hates Mick West I

251
00:11:00,590 --> 00:10:58,920
mean a lot of you from Twitter hates

252
00:11:03,050 --> 00:11:00,600
mcwest I think he's one of the best

253
00:11:05,030 --> 00:11:03,060
people involved in this field and I wish

254
00:11:09,350 --> 00:11:05,040
we had a thousand more of him and I've

255
00:11:11,530 --> 00:11:09,360
said that many times because he he looks

256
00:11:14,569 --> 00:11:11,540
at what we have without accepting

257
00:11:16,130 --> 00:11:14,579
unknowns and things that we can't prove

258
00:11:18,410 --> 00:11:16,140
and tries to come up with reasonable

259
00:11:20,690 --> 00:11:18,420
prosaic explanations for cases and I

260
00:11:22,730 --> 00:11:20,700
think that's what people need to do and

261
00:11:25,490 --> 00:11:22,740
I think it's sad that people

262
00:11:27,650 --> 00:11:25,500
dismiss people as Skeptics or dispunkers

263
00:11:30,350 --> 00:11:27,660

just because they don't happen to like a

264

00:11:32,750 --> 00:11:30,360

case they like or because they provide a

265

00:11:34,190 --> 00:11:32,760

prosaic explanation for a case you know

266

00:11:36,350 --> 00:11:34,200

almost all cases are going to have

267

00:11:37,610 --> 00:11:36,360

project explanations that's just a fact

268

00:11:41,329 --> 00:11:37,620

so

269

00:11:43,130 --> 00:11:41,339

or you know

270

00:11:44,810 --> 00:11:43,140

dismissive of people that have a

271

00:11:46,850 --> 00:11:44,820

skeptical Viewpoint I pointed out before

272

00:11:49,370 --> 00:11:46,860

that most of the people I know that have

273

00:11:51,590 --> 00:11:49,380

been research of this topic for 50 plus

274

00:11:53,150 --> 00:11:51,600

years a lot of old kufos people the

275

00:11:54,050 --> 00:11:53,160

people I'm involved with in this history

276

00:11:55,790 --> 00:11:54,060

group

277

00:11:58,250 --> 00:11:55,800

I'd say they have more in common with

278

00:12:01,009 --> 00:11:58,260

Mick West or other Skeptics than they do

279

00:12:02,030 --> 00:12:01,019

with the vast majority of ufology and

280

00:12:03,350 --> 00:12:02,040

that's not to say they don't think

281

00:12:05,090 --> 00:12:03,360

there's anything to the topic quite the

282

00:12:06,829 --> 00:12:05,100

opposite they've devoted their lives to

283

00:12:08,930 --> 00:12:06,839

studying it I've devoted my life to

284

00:12:10,250 --> 00:12:08,940

stunned the topic but it's because I

285

00:12:12,110 --> 00:12:10,260

care about the topic I think it's

286

00:12:14,269 --> 00:12:12,120

important to dismiss a lot of the less

287

00:12:16,970 --> 00:12:14,279

credible stuff and try and stick to what

288

00:12:20,990 --> 00:12:16,980

we can actually show or demonstrate

289

00:12:25,610 --> 00:12:23,750

now you've had a a long history you said

290

00:12:27,410 --> 00:12:25,620

since you were a child uh being

291

00:12:28,910 --> 00:12:27,420

interested in UFOs did you start off

292

00:12:30,050 --> 00:12:28,920

with that skepticism or is that

293

00:12:32,630 --> 00:12:30,060

something you picked up along the way

294

00:12:36,230 --> 00:12:32,640

like while researching

295

00:12:39,949 --> 00:12:36,240

um I mean I was not always as skeptical

296

00:12:43,129 --> 00:12:39,959

as I am now when I was younger you know

297

00:12:45,110 --> 00:12:43,139

like when I was younger I I still really

298

00:12:47,990 --> 00:12:45,120

hope there is some truth the Babas are

299

00:12:49,009 --> 00:12:48,000

but uh that was just more a wish and a

300

00:12:51,230 --> 00:12:49,019

dream

301
00:12:53,090 --> 00:12:51,240
um I've been pretty skeptical for a

302
00:12:55,129 --> 00:12:53,100
large amount of time I say by the time I

303
00:12:56,750 --> 00:12:55,139
at least gotten into Middle School I was

304
00:12:59,449 --> 00:12:56,760
starting to be more skeptical about the

305
00:13:02,930 --> 00:12:59,459
topic and nowadays I kind of approach it

306
00:13:04,910 --> 00:13:02,940
not even from uh is this case factual or

307
00:13:08,449 --> 00:13:04,920
true I'm just more concerned with

308
00:13:09,829 --> 00:13:08,459
preserving the historical record and I

309
00:13:13,310 --> 00:13:09,839
like to look at the topic from other

310
00:13:16,190 --> 00:13:13,320
aspects like mythology folklore the

311
00:13:18,829 --> 00:13:16,200
sociological religious aspects the

312
00:13:20,210 --> 00:13:18,839
psychology of belief systems there's a

313
00:13:21,470 --> 00:13:20,220

lot of ways to study this topic that

314

00:13:23,210 --> 00:13:21,480

doesn't actually

315

00:13:25,970 --> 00:13:23,220

come down to whether or not something's

316

00:13:27,590 --> 00:13:25,980

like a UT or non-human intelligence I

317

00:13:29,329 --> 00:13:27,600

think this topic is fascinating it can

318

00:13:31,250 --> 00:13:29,339

be studied countless ways that don't

319

00:13:33,170 --> 00:13:31,260

come down to a belief system and that's

320

00:13:35,690 --> 00:13:33,180

kind of where I am now with things

321

00:13:37,730 --> 00:13:35,700

yeah you make a good case to uh present

322

00:13:39,230 --> 00:13:37,740

the value in studying old cases because

323

00:13:41,569 --> 00:13:39,240

I think I think a lot of people

324

00:13:43,790 --> 00:13:41,579

especially the um people more newer to

325

00:13:47,170 --> 00:13:43,800

the topic don't see the value in looking

326

00:13:50,210 --> 00:13:47,180

into Old cases necessarily

327

00:13:52,190 --> 00:13:50,220

I liked old cases like I kind of feel

328

00:13:53,690 --> 00:13:52,200

the opposite way about new cases like

329

00:13:56,629 --> 00:13:53,700

these days there's so many people

330

00:13:58,670 --> 00:13:56,639

posting random videos photos that could

331

00:14:00,410 --> 00:13:58,680

be damn near anything I kind of feel at

332

00:14:02,090 --> 00:14:00,420

least with the old cases

333

00:14:03,590 --> 00:14:02,100

if they were documented in all these

334

00:14:05,269 --> 00:14:03,600

Publications at least somebody kind of

335

00:14:07,790 --> 00:14:05,279

looked at them and did some research

336

00:14:09,590 --> 00:14:07,800

like with a lot of these new cases like

337

00:14:11,329 --> 00:14:09,600

you know there's just so many of them

338

00:14:13,250 --> 00:14:11,339

you don't know what to do with them but

339

00:14:15,769 --> 00:14:13,260

I'm just kind of I like the olden days

340

00:14:17,329 --> 00:14:15,779

that's just me I wish I was born 20 30

341

00:14:18,710 --> 00:14:17,339

years earlier than I could have been

342

00:14:21,350 --> 00:14:18,720

around back then

343

00:14:23,269 --> 00:14:21,360

what's the most um fascinating aspect to

344

00:14:25,790 --> 00:14:23,279

you of ufology like is it the

345

00:14:27,470 --> 00:14:25,800

psychosocial stuff or is it um learning

346

00:14:30,170 --> 00:14:27,480

about how video

347

00:14:35,030 --> 00:14:30,180

you know like what Mick West does

348

00:14:37,670 --> 00:14:35,040

um for for a while I was more into

349

00:14:39,650 --> 00:14:37,680

the scientific approach and looking at

350

00:14:43,129 --> 00:14:39,660

things like using instrumented

351
00:14:44,990 --> 00:14:43,139
instruments to try to uh detect UFOs and

352
00:14:48,410 --> 00:14:45,000
doing more of the like the analysis that

353
00:14:51,350 --> 00:14:48,420
Mick West does I kind of moved beyond

354
00:14:53,569 --> 00:14:51,360
that because after so so many times you

355
00:14:56,030 --> 00:14:53,579
find out that there really just isn't

356
00:14:58,370 --> 00:14:56,040
much in these cases for example the the

357
00:15:00,769 --> 00:14:58,380
Nimitz case I had High Hope for that I

358
00:15:02,389 --> 00:15:00,779
attended the the seu conference the

359
00:15:03,829 --> 00:15:02,399
first one read all the reports talked to

360
00:15:07,370 --> 00:15:03,839
the people that were involved in

361
00:15:08,750 --> 00:15:07,380
generating the reports and I thought you

362
00:15:11,449 --> 00:15:08,760
know hey maybe we have some real

363
00:15:13,310 --> 00:15:11,459

hardcore science we can do on this again

364

00:15:15,170 --> 00:15:13,320

disappointed I've been just disappointed

365

00:15:17,870 --> 00:15:15,180

so many times throughout my time in

366

00:15:20,090 --> 00:15:17,880

ufology that I've kind of given up on

367

00:15:22,189 --> 00:15:20,100

the idea that you know there's there's

368

00:15:24,590 --> 00:15:22,199

the hard evidence I'll be glad if it

369

00:15:26,810 --> 00:15:24,600

pops up at some point in time but I've

370

00:15:29,810 --> 00:15:26,820

I've given up hoping on that showing up

371

00:15:31,250 --> 00:15:29,820

and try to just uh study the topics just

372

00:15:33,949 --> 00:15:31,260

from you know that like I said

373

00:15:35,509 --> 00:15:33,959

psychosocial uh why people get involved

374

00:15:38,569 --> 00:15:35,519

with the topic why they believe what

375

00:15:40,129 --> 00:15:38,579

they do and I I'm also just a big

376

00:15:41,689 --> 00:15:40,139

history nut so I think it's important to

377

00:15:43,550 --> 00:15:41,699

preserve the history for future

378

00:15:46,129 --> 00:15:43,560

generations and future researchers to be

379

00:15:47,509 --> 00:15:46,139

able to access it and go through it and

380

00:15:49,189 --> 00:15:47,519

I think that's why it's important to get

381

00:15:51,590 --> 00:15:49,199

a lot of it online and digitize because

382

00:15:54,110 --> 00:15:51,600

not everybody has the resources to

383

00:15:56,269 --> 00:15:54,120

travel around to archives and libraries

384

00:15:59,509 --> 00:15:56,279

museums like I and other researchers

385

00:16:02,030 --> 00:15:59,519

have over the years I think it's I think

386

00:16:03,470 --> 00:16:02,040

we need to get all that data saved and

387

00:16:06,230 --> 00:16:03,480

if there's something in there that we

388

00:16:07,610 --> 00:16:06,240

can find that's great if not it's still

389

00:16:09,290 --> 00:16:07,620

fascinating like I said for so many

390

00:16:11,449 --> 00:16:09,300

different reasons

391

00:16:14,810 --> 00:16:11,459

hmm

392

00:16:16,250 --> 00:16:14,820

now we have uh I'm sorry go on Leah I

393

00:16:19,490 --> 00:16:16,260

was just going to ask if there are any

394

00:16:22,930 --> 00:16:19,500

specific researchers Jeff that you

395

00:16:26,810 --> 00:16:22,940

admire or think are doing the great work

396

00:16:29,509 --> 00:16:26,820

in uh the subject oh yeah I mean I I

397

00:16:32,030 --> 00:16:29,519

have some some favorites uh

398

00:16:33,650 --> 00:16:32,040

in fact that's uh I mentioned to people

399

00:16:37,310 --> 00:16:33,660

before I kind of got involved with this

400

00:16:40,550 --> 00:16:37,320

history group uh via Mike swords and

401
00:16:43,430 --> 00:16:40,560
Robert Powell and it's uh kind of some

402
00:16:47,269 --> 00:16:43,440
of my heroes in ufology you got people

403
00:16:48,650 --> 00:16:47,279
like Barry Greenwood Jan aldrick they'd

404
00:16:51,050 --> 00:16:48,660
been working on things like the kufo

405
00:16:53,269 --> 00:16:51,060
scanning project and they've been

406
00:16:55,550 --> 00:16:53,279
working on this topic for longer than

407
00:16:57,230 --> 00:16:55,560
I've been alive I mean they're they're

408
00:16:59,389 --> 00:16:57,240
like Top Notch features in my book Mike

409
00:17:02,030 --> 00:16:59,399
swords of course I I love that guy he's

410
00:17:05,809 --> 00:17:02,040
a top-notch researcher

411
00:17:07,730 --> 00:17:05,819
um I like uh Mark rodiger with kufros he

412
00:17:10,130 --> 00:17:07,740
has done a lot of work on the more

413
00:17:12,110 --> 00:17:10,140

technical scientific side of cases like

414

00:17:14,870 --> 00:17:12,120

his vehicle and fragrance reports that

415

00:17:15,530 --> 00:17:14,880

you guys referenced in the last show

416

00:17:19,549 --> 00:17:15,540

um

417

00:17:21,949 --> 00:17:19,559

I like uh uh Vincent the baluster almost

418

00:17:23,929 --> 00:17:21,959

uh he's he's fantastic I think he's one

419

00:17:25,909 --> 00:17:23,939

of the best ufologists in the world to

420

00:17:28,370 --> 00:17:25,919

be honest and he has been since the 70s

421

00:17:31,430 --> 00:17:28,380

what's I'm sorry what's his name uh okay

422

00:17:35,810 --> 00:17:31,440

it's like it's it's baluster almost

423

00:17:40,730 --> 00:17:36,669

ome

424

00:17:42,590 --> 00:17:40,740

yeah Vincent Wanda yeah yeah yeah Louise

425

00:17:44,630 --> 00:17:42,600

he's uh the individual that reached out

426

00:17:46,250 --> 00:17:44,640

to to reference something from our our

427

00:17:48,230 --> 00:17:46,260

website fairly recently I think right

428

00:17:51,110 --> 00:17:48,240

yeah yeah exactly yeah yeah he does that

429

00:17:54,230 --> 00:17:51,120

he does the both the photo cap project

430

00:17:56,750 --> 00:17:54,240

um and he did that catalog for coupons I

431

00:17:59,690 --> 00:17:56,760

tweeted yesterday or the day before of

432

00:18:01,970 --> 00:17:59,700

Spain and Portugal cases

433

00:18:05,029 --> 00:18:01,980

um he's he's written some really good

434

00:18:07,190 --> 00:18:05,039

papers on the evidentiary aspects of

435

00:18:09,470 --> 00:18:07,200

ufology uh he did one with Thomas

436

00:18:12,169 --> 00:18:09,480

Billard that was two views of evidence

437

00:18:14,630 --> 00:18:12,179

of UFO evidence and Ballard presented

438

00:18:16,549 --> 00:18:14,640

one View and he presented another

439

00:18:19,490 --> 00:18:16,559

um he's just done a lot of really good

440

00:18:21,289 --> 00:18:19,500

work that is at the academic level at

441

00:18:22,549 --> 00:18:21,299

the science level when it comes to

442

00:18:27,770 --> 00:18:22,559

ufology

443

00:18:32,570 --> 00:18:30,409

um besides of that I mean I also like

444

00:18:33,710 --> 00:18:32,580

people like uh like Fran Ridge with

445

00:18:37,130 --> 00:18:33,720

nightcap

446

00:18:39,470 --> 00:18:37,140

um Donald Johnson I've used a lot of his

447

00:18:41,390 --> 00:18:39,480

work in my Daily Post

448

00:18:42,950 --> 00:18:41,400

um he had written one of those vehicle

449

00:18:47,570 --> 00:18:42,960

interference papers for the original

450

00:18:49,490 --> 00:18:47,580

kufos conference in 1976 I believe

451

00:18:51,890 --> 00:18:49,500

um he's been around a long time

452

00:18:53,890 --> 00:18:51,900

uh there's a lot of these old guys that

453

00:18:56,450 --> 00:18:53,900

have been in the field forever and

454

00:18:59,150 --> 00:18:56,460

they're kind of uh they're they're the

455

00:19:01,490 --> 00:18:59,160

people I look up to in this field uh and

456

00:19:02,930 --> 00:19:01,500

of course we all know Isaac I think the

457

00:19:06,169 --> 00:19:02,940

work he's done with digital preservation

458

00:19:07,970 --> 00:19:06,179

is absolutely phenomenal like that guy's

459

00:19:09,890 --> 00:19:07,980

just amazing I love that guy

460

00:19:12,049 --> 00:19:09,900

but uh

461

00:19:13,850 --> 00:19:12,059

yeah those are just uh some other some

462

00:19:16,010 --> 00:19:13,860

of the people I like a lot of the more

463

00:19:17,870 --> 00:19:16,020

modern people

464

00:19:20,750 --> 00:19:17,880

not so much even a lot of the more

465

00:19:22,669 --> 00:19:20,760

famous people like Richard Dolan not so

466

00:19:23,690 --> 00:19:22,679

much to be honest

467

00:19:25,669 --> 00:19:23,700

um

468

00:19:26,810 --> 00:19:25,679

but do you know what happens with Ellen

469

00:19:30,529 --> 00:19:26,820

Henry

470

00:19:32,330 --> 00:19:30,539

happened to him well like he sort of

471

00:19:34,130 --> 00:19:32,340

dropped out at some point he never

472

00:19:36,110 --> 00:19:34,140

returned to ufology but I don't know if

473

00:19:39,169 --> 00:19:36,120

anyone ever spoke to him again about

474

00:19:41,450 --> 00:19:39,179

that you know I'm I'm not sure if if

475

00:19:43,250 --> 00:19:41,460

people don't know Alan Henry was with

476

00:19:45,350 --> 00:19:43,260

kufos he was kind of like their lead

477

00:19:47,510 --> 00:19:45,360

investigator if you look at old

478

00:19:48,650 --> 00:19:47,520

International UFO report magazines or

479

00:19:49,669 --> 00:19:48,660

journals or whatever you want to call

480

00:19:50,990 --> 00:19:49,679

them

481

00:19:52,789 --> 00:19:51,000

um that would have different cases in

482

00:19:54,650 --> 00:19:52,799

them he was the kind of guy that would

483

00:19:56,870 --> 00:19:54,660

head up the investigation or at least

484

00:19:58,549 --> 00:19:56,880

delegate it if you look at old kufo's

485

00:20:00,470 --> 00:19:58,559

like citing report forms like his name

486

00:20:03,950 --> 00:20:00,480

would be on the top of it and he wrote a

487

00:20:05,930 --> 00:20:03,960

really good book on myself over there on

488

00:20:07,370 --> 00:20:05,940

UFO investigations as kind of one of the

489

00:20:09,169 --> 00:20:07,380

best books out there for if you can

490

00:20:11,750 --> 00:20:09,179

investigate a UFO sighting

491

00:20:15,230 --> 00:20:11,760

but as to what ended up happening to him

492

00:20:18,770 --> 00:20:16,549

and we talked a

493

00:20:22,570 --> 00:20:18,780

I found this show about observation

494

00:20:26,029 --> 00:20:22,580

versus interpretation in the sciences

495

00:20:30,110 --> 00:20:26,039

and I'm curious for you Jeff what kind

496

00:20:33,890 --> 00:20:30,120

of observational evidence first Drew

497

00:20:37,310 --> 00:20:33,900

your attention to the subject and why

498

00:20:40,549 --> 00:20:37,320

did that kind of evidence reduce in

499

00:20:42,470 --> 00:20:40,559

value to you over time in proportion to

500

00:20:43,490 --> 00:20:42,480

your uh shift to a more skeptical

501
00:20:46,850 --> 00:20:43,500
Outlook

502
00:20:50,810 --> 00:20:46,860
well so

503
00:20:53,090 --> 00:20:50,820
when I was you know really studying this

504
00:20:54,770 --> 00:20:53,100
topic reading a lot of books and you

505
00:20:57,409 --> 00:20:54,780
would see you know all these claims

506
00:21:00,890 --> 00:20:57,419
things like radar data radar visual

507
00:21:02,390 --> 00:21:00,900
cases trace evidence cases and it seemed

508
00:21:04,070 --> 00:21:02,400
to me initially like hey there might be

509
00:21:05,930 --> 00:21:04,080
some real good hard scientific evidence

510
00:21:08,510 --> 00:21:05,940
here that we can actually dig into and

511
00:21:11,510 --> 00:21:08,520
maybe prove something with but the more

512
00:21:13,010 --> 00:21:11,520
again you dig into that that data

513
00:21:16,430 --> 00:21:13,020

um like I was talking to somebody about

514

00:21:18,230 --> 00:21:16,440

alleged UFO debris like tsa samples and

515

00:21:19,909 --> 00:21:18,240

whatnot when you actually look at the

516

00:21:21,830 --> 00:21:19,919

analysis of that data it's not really

517

00:21:24,169 --> 00:21:21,840

that unusual a lot of the samples are

518

00:21:26,270 --> 00:21:24,179

totally prosaic objects like the

519

00:21:28,070 --> 00:21:26,280

Bobwhite object is this the stalagmite

520

00:21:30,110 --> 00:21:28,080

from a metal grinding wheel I used to

521

00:21:32,990 --> 00:21:30,120

have one that looked identical

522

00:21:36,590 --> 00:21:33,000

um to that uh the the arts belt the Arts

523

00:21:39,649 --> 00:21:36,600

Parts project uh is a piece is just uh

524

00:21:42,110 --> 00:21:39,659

it's a nice Industrial Waste you know

525

00:21:45,470 --> 00:21:42,120

from the better Control process

526

00:21:47,450 --> 00:21:45,480

um and a and a piece of a radiator sheet

527

00:21:49,850 --> 00:21:47,460

um so it's like the more you actually

528

00:21:51,350 --> 00:21:49,860

dig into what's supposed to be the the

529

00:21:52,730 --> 00:21:51,360

physical evidence the hard evidence

530

00:21:54,409 --> 00:21:52,740

people talk about

531

00:21:57,049 --> 00:21:54,419

the more you realize it just doesn't

532

00:21:59,930 --> 00:21:57,059

really stand up to scrutiny it's just

533

00:22:02,870 --> 00:21:59,940

not that good of evidence and and then

534

00:22:05,330 --> 00:22:02,880

you look at things like videos and some

535

00:22:07,190 --> 00:22:05,340

of them look interesting and you know I

536

00:22:10,190 --> 00:22:07,200

spent a lot of time I imagine traveling

537

00:22:13,669 --> 00:22:10,200

around the country I mean tens of

538

00:22:16,010 --> 00:22:13,679

thousands of I do probably maybe 5 000

539

00:22:18,230 --> 00:22:16,020

miles a month like 12 months a year for

540

00:22:20,630 --> 00:22:18,240

like six years and a lot of that would

541

00:22:22,789 --> 00:22:20,640

be at night right and so I'd see a lot

542

00:22:24,649 --> 00:22:22,799

of crazy things in the sky that even

543

00:22:26,630 --> 00:22:24,659

after even a skeptical person like me

544

00:22:28,370 --> 00:22:26,640

would kind of trip me up but what I

545

00:22:31,250 --> 00:22:28,380

would do is I would stop driving and try

546

00:22:33,590 --> 00:22:31,260

and track down what I was seeing and

547

00:22:35,750 --> 00:22:33,600

through various things like low light

548

00:22:37,549 --> 00:22:35,760

like my Sony camera is really good at

549

00:22:38,990 --> 00:22:37,559

taking low-light pictures stuff that

550

00:22:41,210 --> 00:22:39,000

looks like it's floating around the sky

551
00:22:43,310 --> 00:22:41,220
sometimes it's actually on a hill that

552
00:22:46,430 --> 00:22:43,320
you can't see you know in the distance

553
00:22:48,710 --> 00:22:46,440
and it's not actually in the sky at all

554
00:22:50,390 --> 00:22:48,720
um and after years of just literally

555
00:22:52,430 --> 00:22:50,400
chasing down like once I was driving

556
00:22:53,930 --> 00:22:52,440
through this like rural area and I

557
00:22:55,190 --> 00:22:53,940
thought this this thing was following me

558
00:22:56,450 --> 00:22:55,200
through a field like I thought it was

559
00:22:58,070 --> 00:22:56,460
falling right along with me right

560
00:23:00,770 --> 00:22:58,080
standard kind of Parallax kind of

561
00:23:02,090 --> 00:23:00,780
situation I I drove around that rural

562
00:23:04,010 --> 00:23:02,100
area for three hours trying to track

563
00:23:05,810 --> 00:23:04,020

down that light only to find out it was

564

00:23:07,370 --> 00:23:05,820

like this rural branch light that was

565

00:23:09,470 --> 00:23:07,380

glitching and it would like one would

566

00:23:10,610 --> 00:23:09,480

turn on the other would turn off and

567

00:23:12,049 --> 00:23:10,620

like they would just like look like they

568

00:23:13,970 --> 00:23:12,059

were bouncing around and then following

569

00:23:16,310 --> 00:23:13,980

me around but it was just glitchy like

570

00:23:17,230 --> 00:23:16,320

rural Branch lights you know

571

00:23:20,990 --> 00:23:17,240

um

572

00:23:22,909 --> 00:23:21,000

51 I spent a lot of time at area 51.

573

00:23:25,669 --> 00:23:22,919

they've got these Ranch lights there

574

00:23:27,409 --> 00:23:25,679

that look identical to what Bob bizarre

575

00:23:30,230 --> 00:23:27,419

explains where it looks like it's a

576

00:23:31,909 --> 00:23:30,240

stepping motion uh and it's jumping in

577

00:23:34,130 --> 00:23:31,919

the sky like that it's these really

578

00:23:37,070 --> 00:23:34,140

glitchy like Ranch like they have near

579

00:23:38,990 --> 00:23:37,080

the mountain uh that's like on the the

580

00:23:41,570 --> 00:23:39,000

BLM side of the land before you get to

581

00:23:43,010 --> 00:23:41,580

like to the base and that still chips me

582

00:23:44,510 --> 00:23:43,020

up every time I drive by and I'm like

583

00:23:47,149 --> 00:23:44,520

whoa what is that I'm like oh no wait

584

00:23:48,830 --> 00:23:47,159

that's those Ranch lights again and it's

585

00:23:50,029 --> 00:23:48,840

just the more I looked into all these

586

00:23:53,630 --> 00:23:50,039

different types of avenues people

587

00:23:55,549 --> 00:23:53,640

present the more I just was unimpressed

588

00:23:57,590 --> 00:23:55,559

and uh

589

00:24:00,250 --> 00:23:57,600

yeah kind of started to doubt we'd never

590

00:24:03,289 --> 00:24:00,260

start to see real good at this

591

00:24:04,909 --> 00:24:03,299

kind of brings us into your research

592

00:24:06,590 --> 00:24:04,919

method right do you want to go through

593

00:24:09,169 --> 00:24:06,600

that with us I know you have slides I

594

00:24:10,669 --> 00:24:09,179

think we can get those to work I'll play

595

00:24:12,549 --> 00:24:10,679

I'll play Vanna White here let me get

596

00:24:16,970 --> 00:24:12,559

the slides up

597

00:24:19,010 --> 00:24:16,980

all right I'll just kind of explain uh

598

00:24:20,630 --> 00:24:19,020

what I kind of go through at least on a

599

00:24:22,730 --> 00:24:20,640

daily basis this is some of the stuff I

600

00:24:25,130 --> 00:24:22,740

use every single day when I'm working on

601
00:24:27,169 --> 00:24:25,140
my history post

602
00:24:28,970 --> 00:24:27,179
um first I kind of got to come up with

603
00:24:30,950 --> 00:24:28,980
the various cases when I first started

604
00:24:33,110 --> 00:24:30,960
getting going it was a lot more drawn

605
00:24:35,870 --> 00:24:33,120
out process I literally spent hours

606
00:24:38,510 --> 00:24:35,880
going through the the night nightcapa

607
00:24:40,250 --> 00:24:38,520
Kronos listings for to find dates that

608
00:24:41,870 --> 00:24:40,260
match today

609
00:24:44,529 --> 00:24:41,880
um I would also use things like uh

610
00:24:46,370 --> 00:24:44,539
Donald Johnson had this on

611
00:24:47,810 --> 00:24:46,380
extraterrestrials on this day or

612
00:24:50,149 --> 00:24:47,820
something site that doesn't exist

613
00:24:52,029 --> 00:24:50,159

anymore but that I used to weigh back

614

00:24:56,090 --> 00:24:52,039

try to find cases

615

00:24:57,770 --> 00:24:56,100

but more recently I started using a I

616

00:25:00,110 --> 00:24:57,780

used more than just this but George

617

00:25:02,990 --> 00:25:00,120

eberhart's UFO and intelligence timeline

618

00:25:05,750 --> 00:25:03,000

that's kind of slide four if you wanna

619

00:25:08,570 --> 00:25:05,760

and move it over to there kind of skip

620

00:25:12,169 --> 00:25:08,580

yeah yeah

621

00:25:13,610 --> 00:25:12,179

because it's uh it's a phenomenal like

622

00:25:15,409 --> 00:25:13,620

resource that George's but you got

623

00:25:19,070 --> 00:25:15,419

George is another kind of hero of mine

624

00:25:21,470 --> 00:25:19,080

he's kind of uh uh like I kind of wish

625

00:25:23,990 --> 00:25:21,480

again I could have been him he's like a

626
00:25:25,610 --> 00:25:24,000
bibliographer and a librarian and that's

627
00:25:28,010 --> 00:25:25,620
kind of what I feel like I am a lot of

628
00:25:29,690 --> 00:25:28,020
the time I this is the kind of stuff

629
00:25:32,750 --> 00:25:29,700
that makes my heart beat a little faster

630
00:25:35,029 --> 00:25:32,760
to see a big two-volume bibliography on

631
00:25:38,269 --> 00:25:35,039
This Isn't that cool that's not the only

632
00:25:40,370 --> 00:25:38,279
one either I believe in the Discord we

633
00:25:42,230 --> 00:25:40,380
dumped just a whole bunch of uh

634
00:25:44,149 --> 00:25:42,240
resources like that last week of

635
00:25:47,149 --> 00:25:44,159
different bibliographies of UFO

636
00:25:49,130 --> 00:25:47,159
Publications and material but George has

637
00:25:52,310 --> 00:25:49,140
gone through literally hundreds of books

638
00:25:55,549 --> 00:25:52,320

and resources pulling the dates of cases

639

00:25:57,529 --> 00:25:55,559

out and created this massive you know

640

00:26:00,830 --> 00:25:57,539

it's some like 900 Pages or something

641

00:26:04,549 --> 00:26:00,840

long listing of cases by year and date

642

00:26:05,930 --> 00:26:04,559

that even has links to various resources

643

00:26:07,250 --> 00:26:05,940

and that's kind of where I'll start off

644

00:26:11,750 --> 00:26:07,260

with

645

00:26:12,669 --> 00:26:11,760

then I'll go dig through some of my

646

00:26:15,409 --> 00:26:12,679

other

647

00:26:17,510 --> 00:26:15,419

places if you want to kind of go back to

648

00:26:19,010 --> 00:26:17,520

just slide one

649

00:26:22,130 --> 00:26:19,020

um

650

00:26:25,490 --> 00:26:22,140

I I regularly use the UFO encyclopedia

651
00:26:29,029 --> 00:26:25,500
for my cases the UFO evidence both

652
00:26:30,590 --> 00:26:29,039
that's volume two and volume one the

653
00:26:33,409 --> 00:26:30,600
original one that came out

654
00:26:35,330 --> 00:26:33,419
that's the UFOs and government is the

655
00:26:38,330 --> 00:26:35,340
book that is produced by the history

656
00:26:40,789 --> 00:26:38,340
group that meets up with Mike swords

657
00:26:43,549 --> 00:26:40,799
that I got involved with a few years ago

658
00:26:45,470 --> 00:26:43,559
that was their first publication and I

659
00:26:47,289 --> 00:26:45,480
use that on a fairly regular basis

660
00:26:49,430 --> 00:26:47,299
probably almost every day

661
00:26:51,890 --> 00:26:49,440
they've got a new one that's finished

662
00:26:53,269 --> 00:26:51,900
that I've been proofreading I don't know

663
00:26:55,610 --> 00:26:53,279

when that's going to come out but you

664

00:26:57,769 --> 00:26:55,620

guys all got a lot of that uh you want

665

00:27:00,169 --> 00:26:57,779

to go slide two

666

00:27:02,750 --> 00:27:00,179

again I that's the first volume of UFO

667

00:27:04,909 --> 00:27:02,760

evidence I use that again on an almost

668

00:27:07,490 --> 00:27:04,919

daily basis

669

00:27:10,070 --> 00:27:07,500

um condon's report comes up quite a bit

670

00:27:11,870 --> 00:27:10,080

and so I use that regularly

671

00:27:12,830 --> 00:27:11,880

um everyone bashes on content but the

672

00:27:15,529 --> 00:27:12,840

thing you got to understand about the

673

00:27:18,490 --> 00:27:15,539

content report is it's just just ignore

674

00:27:21,169 --> 00:27:18,500

the part Condon wrote his summary

675

00:27:24,110 --> 00:27:21,179

the rest of it is actually full of some

676

00:27:26,990 --> 00:27:24,120

pretty good case information and actual

677

00:27:28,610 --> 00:27:27,000

data like you just you can't throw out

678

00:27:31,909 --> 00:27:28,620

the whole thing just because Condon was

679

00:27:34,610 --> 00:27:31,919

an idiot uh and then I use a lot of

680

00:27:37,070 --> 00:27:34,620

nightcap special reports uh like there's

681

00:27:39,830 --> 00:27:37,080

strange effects from UFOs report uh

682

00:27:41,870 --> 00:27:39,840

their uh UFO is a new look was kind of

683

00:27:45,350 --> 00:27:41,880

like a document kind of like the UFO

684

00:27:47,330 --> 00:27:45,360

evidence book that they did beforehand

685

00:27:50,390 --> 00:27:47,340

um that that is something I'm actually

686

00:27:52,430 --> 00:27:50,400

using on a case for tomorrow I'm gonna

687

00:27:54,430 --> 00:27:52,440

go to the next page

688

00:27:57,289 --> 00:27:54,440

uh then there's some just good

689

00:28:00,409 --> 00:27:57,299

encyclopedias that I also use on top of

690

00:28:04,010 --> 00:28:00,419

Jerome Clark's UFO encyclopedia Ronald's

691

00:28:06,850 --> 00:28:04,020

story did one Margaret Sachs did one

692

00:28:09,169 --> 00:28:06,860

uh those other documents again are uh

693

00:28:11,269 --> 00:28:09,179

cases that involve electromagnetic

694

00:28:12,769 --> 00:28:11,279

interference or vehicle interference

695

00:28:15,710 --> 00:28:12,779

cases

696

00:28:18,230 --> 00:28:15,720

um come up a lot in my post and some of

697

00:28:20,450 --> 00:28:18,240

the the documents that include those is

698

00:28:23,210 --> 00:28:20,460

like a show picks a study a secondary

699

00:28:26,210 --> 00:28:23,220

effects and nightcap also did an early

700

00:28:28,370 --> 00:28:26,220

report uh on electromedic effects

701

00:28:32,570 --> 00:28:28,380

associated with UFOs

702

00:28:35,630 --> 00:28:34,070

actually you want to skip ahead to

703

00:28:37,130 --> 00:28:35,640

number five because we already did

704

00:28:39,649 --> 00:28:37,140

number four

705

00:28:41,990 --> 00:28:39,659

um and another resource I use on a daily

706

00:28:44,330 --> 00:28:42,000

basis is basically the center for UFO

707

00:28:47,269 --> 00:28:44,340

studies website it's a phenomenal

708

00:28:49,070 --> 00:28:47,279

resource it's kind of an old primitive

709

00:28:51,470 --> 00:28:49,080

looking website in fact all these UFO

710

00:28:55,029 --> 00:28:51,480

groups these old this looks very like

711

00:28:57,529 --> 00:28:55,039

1998 geocities yep we need like a

712

00:29:00,289 --> 00:28:57,539

construction.jif I'm not sure it's been

713

00:29:02,330 --> 00:29:00,299

updated on that often since then but uh

714

00:29:04,190 --> 00:29:02,340

they've got a lot of great stuff on

715

00:29:06,289 --> 00:29:04,200

there if you go like on the left side

716

00:29:08,029 --> 00:29:06,299

they've got early UFO periodic calls you

717

00:29:10,250 --> 00:29:08,039

can find things like nightcaps UFO

718

00:29:13,190 --> 00:29:10,260

investigator and a lot of other

719

00:29:15,110 --> 00:29:13,200

Publications by early UFO groups they've

720

00:29:17,330 --> 00:29:15,120

also got some by their International UFO

721

00:29:19,370 --> 00:29:17,340

reporter articles on there and you can

722

00:29:21,529 --> 00:29:19,380

find most of the the books and

723

00:29:24,289 --> 00:29:21,539

monographs that kufos has put out over

724

00:29:27,169 --> 00:29:24,299

the years on their website as well like

725

00:29:30,350 --> 00:29:27,179

we mentioned Vincent Juan Boston's uh

726

00:29:32,210 --> 00:29:30,360

catalog of Spain and Portugal cases that

727

00:29:34,610 --> 00:29:32,220

I posted a picture of my physical copy

728

00:29:37,130 --> 00:29:34,620

of yesterday you can find that PDF on

729

00:29:39,409 --> 00:29:37,140

here and I posted a link to it so I'll

730

00:29:42,409 --> 00:29:39,419

use the first website a lot if I'm

731

00:29:44,930 --> 00:29:42,419

looking for old bulletins or newsletters

732

00:29:46,490 --> 00:29:44,940

or journals that I need to pull

733

00:29:48,529 --> 00:29:46,500

references out of

734

00:29:50,289 --> 00:29:48,539

and that's the same thing goes for the

735

00:29:54,169 --> 00:29:50,299

next slide there

736

00:29:56,210 --> 00:29:54,179

the nycap website of course uh they've

737

00:29:59,510 --> 00:29:56,220

got their chronology listing up there is

738

00:30:01,850 --> 00:29:59,520

just kind of uh the 1965 one but the the

739

00:30:04,669 --> 00:30:01,860

page before that you can just select by

740

00:30:06,830 --> 00:30:04,679

year and they they list cases through

741

00:30:07,909 --> 00:30:06,840

the year if it's a blue book case a lot

742

00:30:09,710 --> 00:30:07,919

of times you can look at the Blue Book

743

00:30:12,289 --> 00:30:09,720

files there

744

00:30:14,930 --> 00:30:12,299

um and it's just a phenomenal resource

745

00:30:16,850 --> 00:30:14,940

that people should be using nightcap

746

00:30:18,590 --> 00:30:16,860

also maintains most of keho's books you

747

00:30:21,769 --> 00:30:18,600

can go and look at there for free both

748

00:30:23,690 --> 00:30:21,779

in PDF or in web formats a lot of their

749

00:30:25,970 --> 00:30:23,700

uh reports that nycaps put out you can

750

00:30:29,330 --> 00:30:25,980

get off the website

751

00:30:31,630 --> 00:30:29,340

um and again Fran Ridge has helped a lot

752

00:30:35,269 --> 00:30:31,640

with that website he believes he runs it

753

00:30:37,549 --> 00:30:35,279

and it's uh it's a great resource that I

754

00:30:40,430 --> 00:30:37,559

use and link to every single day as

755

00:30:42,590 --> 00:30:40,440

people who watch my post probably notice

756

00:30:44,389 --> 00:30:42,600

um these websites are killing me they

757

00:30:46,850 --> 00:30:44,399

remind me of like my early days on the

758

00:30:48,310 --> 00:30:46,860

internet on dialope oh I know that's

759

00:30:51,409 --> 00:30:48,320

incredible

760

00:30:55,730 --> 00:30:51,419

nycaps web page is kind of particularly

761

00:30:57,590 --> 00:30:55,740

a disaster but uh you can still find the

762

00:30:58,430 --> 00:30:57,600

stuff if you look

763

00:31:03,350 --> 00:30:58,440

um

764

00:31:05,810 --> 00:31:03,360

noticed you said that you got involved

765

00:31:08,630 --> 00:31:05,820

with uh Michael swords history project

766

00:31:12,889 --> 00:31:08,640

how did you get involved with that and

767

00:31:19,909 --> 00:31:17,029

he's awesome he's he's a great uh some

768

00:31:22,490 --> 00:31:19,919

of these guys you know I'm I'm by far

769

00:31:27,289 --> 00:31:22,500

the youngest person in this like this

770

00:31:29,269 --> 00:31:27,299

this group and uh sometimes my humor

771

00:31:32,090 --> 00:31:29,279

doesn't always match with their humor

772

00:31:37,610 --> 00:31:34,610

I misunderstand older people humor I

773

00:31:39,889 --> 00:31:37,620

don't know what it is but uh uh no my

774

00:31:42,769 --> 00:31:39,899

mic is one of the most kindest generous

775

00:31:46,310 --> 00:31:42,779

like people I think I've met in this

776

00:31:47,330 --> 00:31:46,320

field I basically I got involved uh I

777

00:31:49,250 --> 00:31:47,340

had like I'd mentioned I've been

778

00:31:51,130 --> 00:31:49,260

interested in digitizing and preserving

779

00:31:54,950 --> 00:31:51,140

And archiving information

780

00:31:57,950 --> 00:31:54,960

and I had stumbled across Mike sword's

781

00:31:59,870 --> 00:31:57,960

uh blog you know several years ago and

782

00:32:02,510 --> 00:31:59,880

it was great and he had mentioned

783

00:32:04,250 --> 00:32:02,520

something called the history group and I

784

00:32:05,930 --> 00:32:04,260

heard the history group be mentioned in

785

00:32:08,389 --> 00:32:05,940

regards to this UFOs and government's

786

00:32:09,950 --> 00:32:08,399

book and I was like what is this history

787

00:32:12,830 --> 00:32:09,960

group and how do I get part of this

788

00:32:16,549 --> 00:32:12,840

history group right and so I I got in

789

00:32:18,710 --> 00:32:16,559

contact with him and uh uh talk to him

790

00:32:19,850 --> 00:32:18,720

for a bit they kind of felt me out I

791

00:32:21,649 --> 00:32:19,860

actually had to go through these

792

00:32:24,529 --> 00:32:21,659

telephone interviews with Robert Powell

793

00:32:27,169 --> 00:32:24,539

and Mike and I just kind of got him

794

00:32:31,370 --> 00:32:27,179

invited into the group and it's just a

795

00:32:32,930 --> 00:32:31,380

group of uh veteran researchers uh that

796

00:32:35,570 --> 00:32:32,940

we have a mailing list we communicate

797

00:32:38,149 --> 00:32:35,580

throughout the year there's meetups at

798

00:32:39,769 --> 00:32:38,159

uh his house you know once or twice a

799

00:32:41,690 --> 00:32:39,779

year

800

00:32:43,730 --> 00:32:41,700

um we're discussed the various work

801

00:32:45,950 --> 00:32:43,740

we're doing the different scanning

802

00:32:52,010 --> 00:32:45,960

projects the different historical work

803

00:32:53,630 --> 00:32:52,020

uh the the new book uh it's uh uh like I

804

00:32:56,870 --> 00:32:53,640

say you got people like Robert Powell

805

00:32:59,810 --> 00:32:56,880

Jan aldrick Barry uh Greenwood Phyllis

806

00:33:01,669 --> 00:32:59,820

bubinger like was there Don Ledger Don

807

00:33:03,409 --> 00:33:01,679

Schmidt

808

00:33:05,029 --> 00:33:03,419

um Richard theme he's the guy that would

809

00:33:08,149 --> 00:33:05,039

give the UFO talks with the Defcon

810

00:33:10,549 --> 00:33:08,159

hacker conference oh cool awesome uh

811

00:33:14,930 --> 00:33:10,559

Mark O'Connell he wrote the biography on

812

00:33:18,590 --> 00:33:14,940

John heineck Mark is amazing nice guy uh

813

00:33:21,289 --> 00:33:18,600

Richard Noll he's a young Ian expert he

814

00:33:24,950 --> 00:33:21,299

wrote the book The Cult of young and as

815

00:33:27,110 --> 00:33:24,960

an expert on Shamanism and uh he

816

00:33:30,590 --> 00:33:27,120

actually wait who's who who's the

817

00:33:33,230 --> 00:33:30,600

jungian shaman guy Victor Noel

818

00:33:36,409 --> 00:33:33,240

he's at DeSales University Richard null

819

00:33:39,830 --> 00:33:36,419

uh yeah he studied uh Shamanism tribes

820

00:33:41,570 --> 00:33:39,840

in like Korea and Siberia and others in

821

00:33:43,009 --> 00:33:41,580

Asia he's got a great YouTube channel

822

00:33:44,750 --> 00:33:43,019

where you can actually watch these

823

00:33:46,850 --> 00:33:44,760

rituals and ceremonies being done that

824

00:33:50,210 --> 00:33:46,860

he's filmed uh

825

00:33:53,930 --> 00:33:50,220

but he's also an expert on uh basically

826

00:33:55,730 --> 00:33:53,940

the the history of dementia precoxia uh

827

00:33:57,710 --> 00:33:55,740

just kind of like I take it an early

828

00:34:00,110 --> 00:33:57,720

name for schizophrenia or something he

829

00:34:03,889 --> 00:34:00,120

wrote some books and papers on that

830

00:34:05,810 --> 00:34:03,899

um but he's a really great guy uh and

831

00:34:08,030 --> 00:34:05,820

there's just a lot of a lot of people

832

00:34:11,629 --> 00:34:08,040

that uh if you were involved with

833

00:34:14,389 --> 00:34:11,639

ufology back in the 60s and 70s like you

834

00:34:17,030 --> 00:34:14,399

might recognize their names but these

835

00:34:19,430 --> 00:34:17,040

days you might not but these are the

836

00:34:22,849 --> 00:34:19,440

original kind of I consider them the ogs

837

00:34:24,470 --> 00:34:22,859

of the field that I'm privileged and

838

00:34:27,649 --> 00:34:24,480

feel very privileged that I've gotten to

839

00:34:29,210 --> 00:34:27,659

know and be involved with and it's also

840

00:34:30,530 --> 00:34:29,220

given me access to quite a bit of

841

00:34:32,510 --> 00:34:30,540

material that

842

00:34:34,310 --> 00:34:32,520

other people wouldn't have access to

843

00:34:36,470 --> 00:34:34,320

that's helped a lot with the cases and

844

00:34:38,089 --> 00:34:36,480

the posts that I do sometimes if you

845

00:34:40,250 --> 00:34:38,099

notice in some of my posts they'll be

846

00:34:42,530 --> 00:34:40,260

handwriting That's Mike swords

847

00:34:44,270 --> 00:34:42,540

handwriting written on pages because

848

00:34:46,849 --> 00:34:44,280

that information came from one of his

849

00:34:48,409 --> 00:34:46,859

case files he has pretty distinct

850

00:34:49,609 --> 00:34:48,419

handwriting uh he was one of the first

851

00:34:51,109 --> 00:34:49,619

people I reached out to when I was

852

00:34:52,490 --> 00:34:51,119

looking into the Lake Michigan case

853

00:34:55,310 --> 00:34:52,500

because I knew you'd covered it on his

854

00:34:57,349 --> 00:34:55,320

blog and he is he actually was the one

855

00:35:00,170 --> 00:34:57,359

that originally Drew out a lot of the

856

00:35:03,230 --> 00:35:00,180

radar trackings and speed measures and

857

00:35:05,810 --> 00:35:03,240

whatnot on the the Michigan case yep and

858

00:35:09,109 --> 00:35:05,820

uh his house is uh

859

00:35:13,550 --> 00:35:09,119

in fact if you want to just um

860

00:35:22,310 --> 00:35:14,750

uh

861

00:35:26,990 --> 00:35:22,320

it's yeah it's I mean it's one of the

862

00:35:28,670 --> 00:35:27,000

best archives probably in the US it uh

863

00:35:31,550 --> 00:35:28,680

it's not only just stuff he's collected

864

00:35:34,069 --> 00:35:31,560

he holds Ivan sanderson's Ivan Sanderson

865

00:35:35,930 --> 00:35:34,079

had an organization called situ essay

866

00:35:37,910 --> 00:35:35,940

s-i-t-u

867

00:35:39,290 --> 00:35:37,920

um he holds the archives from Ivan

868

00:35:41,150 --> 00:35:39,300

Sanderson there

869

00:35:43,250 --> 00:35:41,160

um he used to hold a lot of kufos

870

00:35:45,530 --> 00:35:43,260

material there some of that may have

871

00:35:49,250 --> 00:35:45,540

been moved to David marlers in the last

872

00:35:51,410 --> 00:35:49,260

year or two I'm not 100 sure but if you

873

00:35:53,690 --> 00:35:51,420

watch TV shows like UFO witness of Ben

874

00:35:56,930 --> 00:35:53,700

Hansen when they show him going to the

875

00:35:59,750 --> 00:35:56,940

kufos archives that's Mike's house in

876

00:36:01,849 --> 00:35:59,760

fact he's photos I couldn't find my

877

00:36:04,130 --> 00:36:01,859

photos quickly these are screen caps

878

00:36:07,670 --> 00:36:04,140

from Ben Hansen visiting uh Mike sword's

879

00:36:09,770 --> 00:36:07,680

house so uh but I've spent quite a bit

880

00:36:11,390 --> 00:36:09,780

of time on that table there scanning

881

00:36:14,150 --> 00:36:11,400

thousands and thousands of pages of

882

00:36:16,430 --> 00:36:14,160

documents you know with my scanner uh

883

00:36:19,930 --> 00:36:16,440

because it's just it's an amazing

884

00:36:23,450 --> 00:36:19,940

resource uh it's absolutely phenomenal

885

00:36:25,490 --> 00:36:23,460

a lot of those miles those folders have

886

00:36:27,349 --> 00:36:25,500

have been scanned and digitized and like

887

00:36:30,290 --> 00:36:27,359

I have a copy of them on a solid state

888

00:36:32,990 --> 00:36:30,300

drive and we have a history group we

889

00:36:36,349 --> 00:36:33,000

have a Google Drive that we we use if

890

00:36:38,270 --> 00:36:36,359

like you go to the next slide uh

891

00:36:41,569 --> 00:36:38,280

we've I've got access to this great

892

00:36:42,950 --> 00:36:41,579

Google Drive that not only do I have a

893

00:36:44,050 --> 00:36:42,960

car dude you're just showing all the

894

00:36:47,510 --> 00:36:44,060

goods tonight

895

00:36:50,270 --> 00:36:47,520

yeah yeah you know that we've got people

896

00:36:52,609 --> 00:36:50,280

like Keith basterfield you know uh

897

00:36:54,589 --> 00:36:52,619

Robert Powell uh I got a lot of this

898

00:36:56,750 --> 00:36:54,599

stuff on a solid state but we've got

899

00:36:58,190 --> 00:36:56,760

this uploading directory we've just we

900

00:37:00,349 --> 00:36:58,200

upload the new material that we're

901
00:37:02,870 --> 00:37:00,359
working on so we can share it amongst

902
00:37:05,450 --> 00:37:02,880
the people in our group and I get a lot

903
00:37:08,329 --> 00:37:05,460
of my material through uh our little

904
00:37:10,310 --> 00:37:08,339
private drive here that again I I feel

905
00:37:13,190 --> 00:37:10,320
very honored to be able to have

906
00:37:15,290 --> 00:37:13,200
have access to uh

907
00:37:17,270 --> 00:37:15,300
but uh sometimes when I'm searching for

908
00:37:20,630 --> 00:37:17,280
a case uh when I try to find more

909
00:37:23,030 --> 00:37:20,640
references I'll just pop in a date or

910
00:37:25,970 --> 00:37:23,040
details in the search there and come up

911
00:37:29,329 --> 00:37:25,980
with stuff and it just pops up

912
00:37:31,310 --> 00:37:29,339
um but this is uh it's it's amazing to

913
00:37:32,990 --> 00:37:31,320

have digital access to a lot of the

914

00:37:35,210 --> 00:37:33,000

stuff that Mike swords has at his house

915

00:37:37,849 --> 00:37:35,220

I've actually scanned a bunch of stuff

916

00:37:39,650 --> 00:37:37,859

of his personal files that weren't done

917

00:37:42,530 --> 00:37:39,660

when this stuff was originally scanned

918

00:37:44,870 --> 00:37:42,540

back you know how many years ago

919

00:37:47,630 --> 00:37:44,880

that I'm still trying to uh

920

00:37:49,190 --> 00:37:47,640

organize and put together it's kind of

921

00:37:51,290 --> 00:37:49,200

hard going through other people's UFO

922

00:37:52,910 --> 00:37:51,300

files you know if like if you ever

923

00:37:55,250 --> 00:37:52,920

looked at Stanton Friedman's office

924

00:37:56,810 --> 00:37:55,260

before he died like some people viewed

925

00:37:59,270 --> 00:37:56,820

profiles are kind of like a disaster

926

00:38:00,890 --> 00:37:59,280

zone right and so like a lot of stuff I

927

00:38:02,870 --> 00:38:00,900

scanned when I was there was just like

928

00:38:05,510 --> 00:38:02,880

like loose sheets that weren't even in

929

00:38:07,010 --> 00:38:05,520

the folders with the cases like like you

930

00:38:08,390 --> 00:38:07,020

know this is like two and a half years

931

00:38:10,370 --> 00:38:08,400

later I'm still trying to figure out

932

00:38:13,190 --> 00:38:10,380

where to sort this stuff and like how to

933

00:38:14,690 --> 00:38:13,200

organize it into like case files and I

934

00:38:16,490 --> 00:38:14,700

still don't quite and sometimes I talked

935

00:38:19,190 --> 00:38:16,500

to Isaac about yesterday I still don't

936

00:38:22,609 --> 00:38:19,200

quite understand Mike's category system

937

00:38:24,109 --> 00:38:22,619

and how he names and does his files

938

00:38:26,690 --> 00:38:24,119

after all these years

939

00:38:28,190 --> 00:38:26,700

but but that being said it's been a

940

00:38:31,490 --> 00:38:28,200

phenomenal resource to be able to use

941

00:38:34,069 --> 00:38:31,500

this uh this drive of ours to pull files

942

00:38:36,250 --> 00:38:34,079

off of that uh a lot of people don't

943

00:38:39,710 --> 00:38:36,260

have access to if I'm sharing something

944

00:38:41,630 --> 00:38:39,720

uh on Twitter a document that people

945

00:38:43,730 --> 00:38:41,640

haven't seen there's a good chance it

946

00:38:45,290 --> 00:38:43,740

came from there and you can probably

947

00:38:46,609 --> 00:38:45,300

credit those guys more than you can

948

00:38:49,190 --> 00:38:46,619

credit me

949

00:38:51,710 --> 00:38:49,200

well Jeff the amount of information that

950

00:38:54,829 --> 00:38:51,720

you have gone over and have access to

951
00:38:56,870 --> 00:38:54,839
generally is remarkable and it's kind of

952
00:38:58,490 --> 00:38:56,880
interesting because like we all are

953
00:39:00,589 --> 00:38:58,500
interested in this subject we think

954
00:39:03,650 --> 00:39:00,599
there's something neat happening but

955
00:39:07,609 --> 00:39:03,660
it's a strange thing when the more

956
00:39:10,490 --> 00:39:07,619
information you get Hands-On the like

957
00:39:13,849 --> 00:39:10,500
less convinced you are of the underlying

958
00:39:17,030 --> 00:39:13,859
premise of the subject could could you

959
00:39:21,230 --> 00:39:17,040
speak on what if there was a moment

960
00:39:22,490 --> 00:39:21,240
where you sort of turn like became it

961
00:39:24,710 --> 00:39:22,500
sort of got to a point where you were

962
00:39:26,930 --> 00:39:24,720
like okay this is uh gonna change my

963
00:39:29,630 --> 00:39:26,940

perspective on this or it was a very

964

00:39:31,550 --> 00:39:29,640

gradual process

965

00:39:33,410 --> 00:39:31,560

um I'm not sure there's really a moment

966

00:39:36,530 --> 00:39:33,420

it

967

00:39:37,849 --> 00:39:36,540

probably kind of like more gradual

968

00:39:39,829 --> 00:39:37,859

you know I'm

969

00:39:42,650 --> 00:39:39,839

it's uh

970

00:39:44,510 --> 00:39:42,660

you can look at the same material you

971

00:39:46,490 --> 00:39:44,520

know 10 years ago look at it five years

972

00:39:48,410 --> 00:39:46,500

later and look at it now and Come Away

973

00:39:49,430 --> 00:39:48,420

with completely different opinions on it

974

00:39:51,950 --> 00:39:49,440

and

975

00:39:54,829 --> 00:39:51,960

maybe I thought differently back then

976

00:39:56,990 --> 00:39:54,839

but uh I think I've always been pretty

977

00:39:58,430 --> 00:39:57,000

skeptical but I still think there's

978

00:40:01,010 --> 00:39:58,440

something to this topic and I still

979

00:40:03,589 --> 00:40:01,020

think it's worth studying and I'm still

980

00:40:06,109 --> 00:40:03,599

completely open to the possibility that

981

00:40:09,349 --> 00:40:06,119

there's something anomalous going on

982

00:40:11,270 --> 00:40:09,359

that it's even non-human intelligence or

983

00:40:13,970 --> 00:40:11,280

alien or ET or

984

00:40:16,130 --> 00:40:13,980

Atlantean crypto terrestrial or whatever

985

00:40:19,190 --> 00:40:16,140

you want to call these various entities

986

00:40:21,470 --> 00:40:19,200

uh I'm open to that I'm just agnostic as

987

00:40:24,829 --> 00:40:21,480

to what the Ultimate Reality of what's

988

00:40:27,670 --> 00:40:24,839

going on is if there even is you know

989

00:40:30,230 --> 00:40:27,680

one or if if we even find it out ever

990

00:40:31,910 --> 00:40:30,240

and I think it's probably more likely

991

00:40:34,069 --> 00:40:31,920

just a whole bunch of different things

992

00:40:36,829 --> 00:40:34,079

that you know are getting bunched

993

00:40:39,770 --> 00:40:36,839

together in this field we call ufology

994

00:40:41,810 --> 00:40:39,780

agreed

995

00:40:43,910 --> 00:40:41,820

now what do you find most inspiring uh

996

00:40:47,089 --> 00:40:43,920

what inspires you most doing this work

997

00:40:49,130 --> 00:40:47,099

is it uh sort of the the recording of

998

00:40:50,270 --> 00:40:49,140

what you think will be one day resolved

999

00:40:52,069 --> 00:40:50,280

or do you think it will sort of

1000

00:40:56,630 --> 00:40:52,079

perpetuate in this way forever because

1001
00:40:57,710 --> 00:40:56,640
it's an elusive subject uh Focus uh the

1002
00:41:00,589 --> 00:40:57,720
thing that we're trying to observe is

1003
00:41:05,930 --> 00:41:00,599
very elusive uh what's the ultimate uh

1004
00:41:10,490 --> 00:41:08,089
because I'm a sucker for pain I don't

1005
00:41:12,410 --> 00:41:10,500
know because

1006
00:41:14,349 --> 00:41:12,420
nobody gets into this because they're

1007
00:41:17,210 --> 00:41:14,359
happy yeah

1008
00:41:19,130 --> 00:41:17,220
well I'm just uh when I get into

1009
00:41:21,530 --> 00:41:19,140
something I kind of really get into

1010
00:41:23,930 --> 00:41:21,540
something whatever it may be like I'd

1011
00:41:26,089 --> 00:41:23,940
never do anything kind of halfway and so

1012
00:41:28,670 --> 00:41:26,099
when I got into apology I really got

1013
00:41:31,849 --> 00:41:28,680

into ethology I was studying it

1014

00:41:34,250 --> 00:41:31,859

collecting everything I could I mean

1015

00:41:35,630 --> 00:41:34,260

even peripherally related I mean not

1016

00:41:38,990 --> 00:41:35,640

only do I have a massive collection of

1017

00:41:42,950 --> 00:41:39,000

old UFO related Comics documents you

1018

00:41:44,810 --> 00:41:42,960

know magazines journals books uh I have

1019

00:41:47,329 --> 00:41:44,820

a massive UFO collectible collection

1020

00:41:50,030 --> 00:41:47,339

that I've spent far more money than I'll

1021

00:41:52,270 --> 00:41:50,040

ever admit to acquiring do you have Mars

1022

00:41:56,270 --> 00:41:52,280

Attacks action figures you can tell us

1023

00:41:59,870 --> 00:41:56,280

uh no but I do have some of the original

1024

00:42:01,310 --> 00:41:59,880

Tops baseball cards of course you do can

1025

00:42:02,329 --> 00:42:01,320

you can you scan those and share those

1026

00:42:03,589 --> 00:42:02,339

please

1027

00:42:05,150 --> 00:42:03,599

um

1028

00:42:08,470 --> 00:42:05,160

I've even got the close encounter

1029

00:42:10,370 --> 00:42:08,480

baseball cards from back in the day nice

1030

00:42:13,550 --> 00:42:10,380

collected quite quite a bit of stuff

1031

00:42:15,530 --> 00:42:13,560

over the years but uh what keeps driving

1032

00:42:17,870 --> 00:42:15,540

me you know like say I don't think

1033

00:42:20,810 --> 00:42:17,880

there'll ever be one answer like

1034

00:42:22,670 --> 00:42:20,820

I I I would like one day if we ever did

1035

00:42:24,530 --> 00:42:22,680

find out that maybe there is extra

1036

00:42:27,710 --> 00:42:24,540

special vegetation like that would be

1037

00:42:31,250 --> 00:42:27,720

amazing to me uh will we ever find that

1038

00:42:33,109 --> 00:42:31,260

out I don't know I hope we do but I

1039

00:42:35,089 --> 00:42:33,119

think there will always be the mystery I

1040

00:42:37,130 --> 00:42:35,099

mean by the very nature what a UFO is

1041

00:42:38,930 --> 00:42:37,140

it's like it's unidentified like once it

1042

00:42:41,150 --> 00:42:38,940

becomes identified it's no longer UFO

1043

00:42:43,490 --> 00:42:41,160

and so hey there will always be things

1044

00:42:45,829 --> 00:42:43,500

people are seeing in this guy picking up

1045

00:42:47,510 --> 00:42:45,839

on instruments whatever that aren't

1046

00:42:49,250 --> 00:42:47,520

going to be able to be identified for

1047

00:42:50,569 --> 00:42:49,260

whatever reason whether it's in the low

1048

00:42:52,190 --> 00:42:50,579

information Zone we just don't have

1049

00:42:54,589 --> 00:42:52,200

enough data

1050

00:42:56,150 --> 00:42:54,599

um whether it's like an illusion you

1051
00:42:58,550 --> 00:42:56,160
know they'll always believe in like

1052
00:43:01,550 --> 00:42:58,560
entities yeah balloon-like entities you

1053
00:43:03,950 --> 00:43:01,560
know whatever uh they'll always be cases

1054
00:43:06,050 --> 00:43:03,960
and Mysteries I don't think you can ever

1055
00:43:08,569 --> 00:43:06,060
say there'll be an answer to everything

1056
00:43:10,250 --> 00:43:08,579
because again that kind of assumes there

1057
00:43:11,710 --> 00:43:10,260
is a one thing for there to be an answer

1058
00:43:14,870 --> 00:43:11,720
too

1059
00:43:16,730 --> 00:43:14,880
are are there any cases that you keep

1060
00:43:19,790 --> 00:43:16,740
coming back to or they're that

1061
00:43:21,770 --> 00:43:19,800
particularly captivating you

1062
00:43:25,670 --> 00:43:21,780
um you know I I get a I get asked a lot

1063
00:43:28,250 --> 00:43:25,680

like what I think are the best cases and

1064

00:43:30,589 --> 00:43:28,260

like I tell people I don't think there

1065

00:43:32,450 --> 00:43:30,599

is best cases I mean there's certainly

1066

00:43:35,210 --> 00:43:32,460

interesting cases this cases that I find

1067

00:43:37,069 --> 00:43:35,220

interesting that I keep coming back I'm

1068

00:43:39,050 --> 00:43:37,079

interested in but like I don't think

1069

00:43:41,089 --> 00:43:39,060

about best proof but I mean ones that

1070

00:43:44,329 --> 00:43:41,099

you particularly find compelling or

1071

00:43:46,790 --> 00:43:44,339

interesting well there's interesting and

1072

00:43:49,910 --> 00:43:46,800

there's compelling like I find the Bob

1073

00:43:52,550 --> 00:43:49,920

Lazar case interesting it's a bunch of

1074

00:43:54,290 --> 00:43:52,560

BS to be honest but I find it very

1075

00:43:56,390 --> 00:43:54,300

interesting and have wasted a large

1076
00:43:58,970 --> 00:43:56,400
amount of my life then I spent two years

1077
00:44:01,130 --> 00:43:58,980
almost full time studying the balbazar

1078
00:44:03,530 --> 00:44:01,140
case traveling around pulling court

1079
00:44:05,150 --> 00:44:03,540
records from the legal system talking to

1080
00:44:07,430 --> 00:44:05,160
his employees visiting his business

1081
00:44:10,190 --> 00:44:07,440
visit talking to his old co-workers from

1082
00:44:12,589 --> 00:44:10,200
like Los Alamos I I literally spent two

1083
00:44:16,069 --> 00:44:12,599
years pretty much all year long

1084
00:44:19,069 --> 00:44:16,079
investigating Lazar and uh

1085
00:44:21,470 --> 00:44:19,079
and that was even after I knew he was

1086
00:44:24,109 --> 00:44:21,480
just full of crap you know don't ask me

1087
00:44:25,730 --> 00:44:24,119
why I did it but I guess why I did it

1088
00:44:28,010 --> 00:44:25,740

was because I think

1089

00:44:29,809 --> 00:44:28,020

balboazar is an example of a case that a

1090

00:44:31,069 --> 00:44:29,819

lot of people get exposed to and that's

1091

00:44:33,589 --> 00:44:31,079

kind of what brings people into this

1092

00:44:35,150 --> 00:44:33,599

topic like I think when you have people

1093

00:44:37,309 --> 00:44:35,160

like Korbel make a documentary about

1094

00:44:39,349 --> 00:44:37,319

Lazar that brought a lot of people under

1095

00:44:41,150 --> 00:44:39,359

this topic and a lot of interest in the

1096

00:44:42,950 --> 00:44:41,160

topic and I think it's unfortunate that

1097

00:44:45,829 --> 00:44:42,960

that's the case because they're being

1098

00:44:48,770 --> 00:44:45,839

brought in with just garbage like with

1099

00:44:50,510 --> 00:44:48,780

junk and I naively assume that maybe I

1100

00:44:52,309 --> 00:44:50,520

could put an end at the Lazar case you

1101
00:44:54,109 --> 00:44:52,319
know that I could find The Smoking Gun

1102
00:44:58,190 --> 00:44:54,119
that finally puts an end of the Lazar

1103
00:44:59,569 --> 00:44:58,200
story and that was just dump because no

1104
00:45:03,050 --> 00:44:59,579
amount of evidence is going to convince

1105
00:45:05,329 --> 00:45:03,060
our balazar Believers that you know he's

1106
00:45:07,370 --> 00:45:05,339
didn't work on alien spaceships at a

1107
00:45:10,069 --> 00:45:07,380
fictional place called S4

1108
00:45:12,530 --> 00:45:10,079
but I I hope that if we collected enough

1109
00:45:14,809 --> 00:45:12,540
good data we could kind of push people

1110
00:45:16,970 --> 00:45:14,819
towards studying more credible or

1111
00:45:18,829 --> 00:45:16,980
serious cases

1112
00:45:20,990 --> 00:45:18,839
um that didn't turn out to be the case

1113
00:45:23,150 --> 00:45:21,000

as far as cases that I think are well

1114

00:45:24,470 --> 00:45:23,160

documented uh

1115

00:45:27,410 --> 00:45:24,480

there's a lot of cases that have been

1116

00:45:30,950 --> 00:45:27,420

well studied like Tom tulian covered the

1117

00:45:33,470 --> 00:45:30,960

Minot Air Force Base case of 1968 and he

1118

00:45:36,130 --> 00:45:33,480

has a phenomenal website on that I

1119

00:45:41,170 --> 00:45:36,140

believe it's my not

1120

00:45:44,329 --> 00:45:41,180

AFV 52 ufo.com the favorite of the show

1121

00:45:47,450 --> 00:45:44,339

yeah and in that case you know it's got

1122

00:45:49,849 --> 00:45:47,460

radar scope images uh you know dozens of

1123

00:45:52,670 --> 00:45:49,859

testimony just hundreds of pages of

1124

00:45:53,870 --> 00:45:52,680

documentation and those cases fascinate

1125

00:45:56,630 --> 00:45:53,880

me the most because there's something

1126

00:45:59,030 --> 00:45:56,640

you can really kind of dig into

1127

00:46:00,470 --> 00:45:59,040

um ultimately I'm not sure what that was

1128

00:46:02,930 --> 00:46:00,480

I'm not sure you will ever know what

1129

00:46:04,550 --> 00:46:02,940

that is but uh

1130

00:46:08,569 --> 00:46:04,560

yeah I don't know I kind of approached

1131

00:46:09,829 --> 00:46:08,579

the topic just from more uh abstractly

1132

00:46:13,849 --> 00:46:09,839

and

1133

00:46:16,609 --> 00:46:13,859

just the kind of the the vast amounts of

1134

00:46:18,770 --> 00:46:16,619

historical data out there I used to dig

1135

00:46:21,170 --> 00:46:18,780

dig into individual cases more often

1136

00:46:23,750 --> 00:46:21,180

when I was you know younger and getting

1137

00:46:27,170 --> 00:46:23,760

into things you know like I I spent a

1138

00:46:29,210 --> 00:46:27,180

long time studying raw as well Etc and a

1139

00:46:32,390 --> 00:46:29,220

lot of the other more famous cases but

1140

00:46:34,370 --> 00:46:32,400

uh at this point I don't think there's

1141

00:46:36,950 --> 00:46:34,380

good cases I think this interesting

1142

00:46:39,109 --> 00:46:36,960

cases but not compelling cases

1143

00:46:43,370 --> 00:46:39,119

could you give us your take your take on

1144

00:46:45,890 --> 00:46:43,380

the um Nimitz encounters so

1145

00:46:47,569 --> 00:46:45,900

so yeah Nimitz was again I mentioned I

1146

00:46:49,790 --> 00:46:47,579

thought it was something that I had a

1147

00:46:51,950 --> 00:46:49,800

lot of high hopes for because you know

1148

00:46:56,030 --> 00:46:51,960

here we had military we had a military

1149

00:46:58,370 --> 00:46:56,040

video you know we had incredible

1150

00:47:00,349 --> 00:46:58,380

Witnesses whatever that means

1151
00:47:01,910 --> 00:47:00,359
um but

1152
00:47:04,490 --> 00:47:01,920
and that's kind of one of the reasons

1153
00:47:08,170 --> 00:47:04,500
why uh like Robert invited me to the

1154
00:47:11,270 --> 00:47:08,180
first Su conference in 2019 and

1155
00:47:13,010 --> 00:47:11,280
read through their entire report I

1156
00:47:15,109 --> 00:47:13,020
talked to a lot of people that they used

1157
00:47:17,150 --> 00:47:15,119
in creating that report

1158
00:47:19,670 --> 00:47:17,160
um including a guy up in Canada who was

1159
00:47:21,050 --> 00:47:19,680
an app floor expert that they kind of

1160
00:47:22,010 --> 00:47:21,060
used to consult when they made the

1161
00:47:25,010 --> 00:47:22,020
report

1162
00:47:26,630 --> 00:47:25,020
and just the more I I looked at it the

1163
00:47:28,849 --> 00:47:26,640

more I saw that

1164

00:47:30,770 --> 00:47:28,859

like many cases It ultimately comes down

1165

00:47:33,910 --> 00:47:30,780

to witness testimony there isn't any

1166

00:47:37,930 --> 00:47:33,920

actual hard data for it we have a video

1167

00:47:41,930 --> 00:47:37,940

that could be countless different things

1168

00:47:43,430 --> 00:47:41,940

and all the fancy math and the

1169

00:47:45,470 --> 00:47:43,440

maneuverabilities and capabilities

1170

00:47:46,730 --> 00:47:45,480

people talk about the speeds the

1171

00:47:49,309 --> 00:47:46,740

g-forces

1172

00:47:52,550 --> 00:47:49,319

ultimately come down to what somebody

1173

00:47:55,809 --> 00:47:52,560

says they remember seeing on a screen

1174

00:47:59,870 --> 00:47:55,819

20 almost 20 years ago it's it's

1175

00:48:01,790 --> 00:47:59,880

it looks good initially but It

1176
00:48:04,730 --> 00:48:01,800
ultimately doesn't have any more data

1177
00:48:06,770 --> 00:48:04,740
backing it up than countless other cases

1178
00:48:10,010 --> 00:48:06,780
in fact there's historical cases I think

1179
00:48:12,050 --> 00:48:10,020
that have more data backing it up you

1180
00:48:14,030 --> 00:48:12,060
know where we actually have radar scope

1181
00:48:16,069 --> 00:48:14,040
images at least like the Minot Air Force

1182
00:48:18,770 --> 00:48:16,079
Base case we don't even have that with

1183
00:48:21,050 --> 00:48:18,780
Nimitz I think Nimitz and many of those

1184
00:48:23,809 --> 00:48:21,060
cases are at a point where

1185
00:48:25,490 --> 00:48:23,819
because they're old now they may be

1186
00:48:27,650 --> 00:48:25,500
newer than some of the ancient

1187
00:48:30,109 --> 00:48:27,660
historical cases I don't think we'll

1188
00:48:32,329 --> 00:48:30,119

ever get real answers to

1189

00:48:34,309 --> 00:48:32,339

but there's a lot of people that spend

1190

00:48:35,870 --> 00:48:34,319

every day all day digging into just the

1191

00:48:37,309 --> 00:48:35,880

nimet so the gimbal case and they've

1192

00:48:39,890 --> 00:48:37,319

been doing that for the last five years

1193

00:48:42,290 --> 00:48:39,900

hoping to find new data that helps

1194

00:48:44,390 --> 00:48:42,300

support their case and I just I don't

1195

00:48:46,130 --> 00:48:44,400

see that happening personally

1196

00:48:48,109 --> 00:48:46,140

you touched seven a second ago but

1197

00:48:50,390 --> 00:48:48,119

what's your take on um kind of that

1198

00:48:53,690 --> 00:48:50,400

concept or that narrative pushed about

1199

00:48:55,069 --> 00:48:53,700

um trained or expert observers in a case

1200

00:48:56,569 --> 00:48:55,079

uh

1201

00:49:00,710 --> 00:48:56,579

I don't

1202

00:49:03,290 --> 00:49:00,720

okay so there you can certainly be a

1203

00:49:06,050 --> 00:49:03,300

better Observer than other people but

1204

00:49:08,510 --> 00:49:06,060

we're all human and we're all subject to

1205

00:49:10,550 --> 00:49:08,520

the same kind of making the same kind of

1206

00:49:14,030 --> 00:49:10,560

mistakes whether it's like perceptual

1207

00:49:15,470 --> 00:49:14,040

errors visual Illusions even so people

1208

00:49:17,630 --> 00:49:15,480

are constantly putting up military

1209

00:49:19,550 --> 00:49:17,640

Pilots as like the top-notch best

1210

00:49:22,550 --> 00:49:19,560

witness you can get right military

1211

00:49:25,309 --> 00:49:22,560

Pilots are still just like any pilot is

1212

00:49:27,530 --> 00:49:25,319

still subject to countless you know

1213

00:49:29,270 --> 00:49:27,540

spatial temporal illusions that can

1214

00:49:31,309 --> 00:49:29,280

occur when they're flying in fact

1215

00:49:34,190 --> 00:49:31,319

fighter pilots more so than normal

1216

00:49:37,550 --> 00:49:34,200

Pilots are subjected to this kind of

1217

00:49:39,770 --> 00:49:37,560

stuff where you just you can't train it

1218

00:49:41,510 --> 00:49:39,780

away and multiple Studies have shown

1219

00:49:43,910 --> 00:49:41,520

that you can't train away some of this

1220

00:49:45,770 --> 00:49:43,920

stuff so it's not that these guys are

1221

00:49:47,270 --> 00:49:45,780

liars or being dishonest or even

1222

00:49:49,730 --> 00:49:47,280

necessarily confabulating and I believe

1223

00:49:50,809 --> 00:49:49,740

they saw what they think they saw I just

1224

00:49:53,210 --> 00:49:50,819

don't think you can take that as

1225

00:49:55,069 --> 00:49:53,220

evidence because people make mistakes no

1226

00:49:57,050 --> 00:49:55,079

matter how well trained you are yeah

1227

00:49:59,390 --> 00:49:57,060

even heinek himself pointed out out

1228

00:50:01,190 --> 00:49:59,400

Military Witnesses and Pilots are some

1229

00:50:03,470 --> 00:50:01,200

of the worst Witnesses

1230

00:50:04,550 --> 00:50:03,480

he mentions that in one of his books

1231

00:50:07,130 --> 00:50:04,560

yeah

1232

00:50:09,170 --> 00:50:07,140

um the the new UAP report that came out

1233

00:50:10,910 --> 00:50:09,180

I think uh my major I mean it was kind

1234

00:50:12,410 --> 00:50:10,920

of a dud but my major takeaway from it

1235

00:50:16,730 --> 00:50:12,420

was that there was

1236

00:50:19,190 --> 00:50:16,740

what about a 170 cases that are examples

1237

00:50:22,370 --> 00:50:19,200

of servicemen and Pilots misidentifying

1238

00:50:25,970 --> 00:50:22,380

things right we had uh numbers of like

1239

00:50:28,210 --> 00:50:25,980

you know 163 balloons right if these are

1240

00:50:31,309 --> 00:50:28,220

your expert Witnesses however we have

1241

00:50:33,050 --> 00:50:31,319

173 UFO reports of balloons or

1242

00:50:37,130 --> 00:50:33,060

balloon-like entities like Campbell said

1243

00:50:39,170 --> 00:50:37,140

yeah and and I and obviously I disagree

1244

00:50:41,089 --> 00:50:39,180

with what some people interpret the

1245

00:50:42,650 --> 00:50:41,099

report even on our own other Discord

1246

00:50:44,390 --> 00:50:42,660

that we talk about

1247

00:50:46,790 --> 00:50:44,400

I kind of interpret the New York

1248

00:50:48,290 --> 00:50:46,800

reporter saying when they had enough

1249

00:50:50,030 --> 00:50:48,300

data they were able to come to

1250

00:50:52,130 --> 00:50:50,040

conclusions like balloons drones

1251
00:50:54,410 --> 00:50:52,140
Airborne clutter and the cases that they

1252
00:50:56,450 --> 00:50:54,420
couldn't figure out is what they just

1253
00:50:58,609 --> 00:50:56,460
didn't have enough data that were kind

1254
00:51:00,650 --> 00:50:58,619
of been that low information Zone and I

1255
00:51:02,750 --> 00:51:00,660
kind of agree with Mick West on that and

1256
00:51:05,089 --> 00:51:02,760
a lot of people don't agree with that

1257
00:51:06,890 --> 00:51:05,099
but I think if they had that quality

1258
00:51:09,349 --> 00:51:06,900
data then they would have been able to

1259
00:51:10,970 --> 00:51:09,359
determine something but a lot of people

1260
00:51:13,010 --> 00:51:10,980
just holding that hope that the fact

1261
00:51:14,809 --> 00:51:13,020
that they couldn't explain half of them

1262
00:51:17,270 --> 00:51:14,819
or whatever means that there's some real

1263
00:51:19,370 --> 00:51:17,280

good stuff in there I don't think that's

1264

00:51:21,650 --> 00:51:19,380

necessarily the case that'd be nice if

1265

00:51:23,569 --> 00:51:21,660

there was but yeah I agree with that

1266

00:51:25,370 --> 00:51:23,579

sentiment

1267

00:51:28,730 --> 00:51:25,380

yeah

1268

00:51:31,490 --> 00:51:28,740

now in some of the uh old cases that we

1269

00:51:34,130 --> 00:51:31,500

do have that are uh Declassified we know

1270

00:51:36,890 --> 00:51:34,140

that blue book did come to conclusions

1271

00:51:40,010 --> 00:51:36,900

on some cases that today we probably

1272

00:51:43,190 --> 00:51:40,020

wouldn't have conclusions being uh

1273

00:51:45,530 --> 00:51:43,200

determined like set in stone on uh so

1274

00:51:47,990 --> 00:51:45,540

for example mine at uh the blue book

1275

00:51:49,849 --> 00:51:48,000

report established that the Luminous

1276

00:51:51,890 --> 00:51:49,859

object it was like hovering taking off

1277

00:51:54,230 --> 00:51:51,900

pursuing the fight thing was on the

1278

00:51:57,049 --> 00:51:54,240

radar interfering with electronics they

1279

00:51:59,630 --> 00:51:57,059

attributed to a a form of ball lightning

1280

00:52:02,510 --> 00:51:59,640

in the Air Force report

1281

00:52:04,970 --> 00:52:02,520

um you know nowadays we sort of don't

1282

00:52:06,470 --> 00:52:04,980

see that ever uh and blah blah blah

1283

00:52:08,569 --> 00:52:06,480

lightning doesn't even exist in the the

1284

00:52:11,089 --> 00:52:08,579

newest report as an option outside of a

1285

00:52:11,770 --> 00:52:11,099

more abstract natural phenomena kind of

1286

00:52:15,230 --> 00:52:11,780

thing

1287

00:52:19,010 --> 00:52:15,240

do you think that there's any value uh

1288

00:52:20,990 --> 00:52:19,020

it in trying to put uh you know label on

1289

00:52:23,270 --> 00:52:21,000

things if it's a possibility or do you

1290

00:52:26,690 --> 00:52:23,280

think it's best to leave it in an empty

1291

00:52:27,890 --> 00:52:26,700

low information Zone yeah what are your

1292

00:52:31,250 --> 00:52:27,900

thoughts on that

1293

00:52:33,049 --> 00:52:31,260

I actually think I think it should be at

1294

00:52:34,609 --> 00:52:33,059

least labeled as likely if that's a

1295

00:52:37,250 --> 00:52:34,619

possibility I think when you leave

1296

00:52:39,530 --> 00:52:37,260

things in this unclassified or you know

1297

00:52:42,230 --> 00:52:39,540

undefined Zone like they do it just

1298

00:52:44,450 --> 00:52:42,240

leaves people open to speculate that

1299

00:52:45,770 --> 00:52:44,460

it's something anomalous when I don't

1300

00:52:48,770 --> 00:52:45,780

think that's necessarily what they're

1301
00:52:51,170 --> 00:52:48,780
saying I think if a case has a likely

1302
00:52:52,849 --> 00:52:51,180
explanation it's not going to be a very

1303
00:52:55,970 --> 00:52:52,859
good data point and it's time to move on

1304
00:52:57,349 --> 00:52:55,980
and that's kind of why I've never been

1305
00:52:58,910 --> 00:52:57,359
really interested in like lights in the

1306
00:53:01,970 --> 00:52:58,920
sky cases or other things that don't

1307
00:53:03,829 --> 00:53:01,980
really add data to the story I think if

1308
00:53:05,870 --> 00:53:03,839
something can be possibly explained to

1309
00:53:08,329 --> 00:53:05,880
something then that's that's probably

1310
00:53:10,849 --> 00:53:08,339
good enough to be honest like leaving it

1311
00:53:12,890 --> 00:53:10,859
open and because technically you can

1312
00:53:15,170 --> 00:53:12,900
never 100 Define what something's going

1313
00:53:17,210 --> 00:53:15,180

to be these are transient phenomena is

1314

00:53:19,549 --> 00:53:17,220

that we can't go back and look at really

1315

00:53:21,710 --> 00:53:19,559

like we have to work with limited data

1316

00:53:24,349 --> 00:53:21,720

to come to a conclusion and even then

1317

00:53:28,190 --> 00:53:24,359

it's just a maybe even if you look at

1318

00:53:30,230 --> 00:53:28,200

the new UFO report they say a undefined

1319

00:53:32,089 --> 00:53:30,240

doesn't mean unidentified you know and

1320

00:53:33,890 --> 00:53:32,099

these definitions aren't a hundred

1321

00:53:35,150 --> 00:53:33,900

percent you know there's a possibility

1322

00:53:37,390 --> 00:53:35,160

could change

1323

00:53:41,349 --> 00:53:37,400

and yeah they have things like

1324

00:53:43,010 --> 00:53:41,359

uncharacterized unidentified objects

1325

00:53:45,530 --> 00:53:43,020

uncharacterized does not mean

1326

00:53:47,750 --> 00:53:45,540

unidentified

1327

00:53:49,730 --> 00:53:47,760

like it's it's the problem is all this

1328

00:53:52,069 --> 00:53:49,740

ambiguity in the language that they're

1329

00:53:54,109 --> 00:53:52,079

using just leaves it open for the

1330

00:53:56,930 --> 00:53:54,119

conspiracy theorists to speculate about

1331

00:53:59,270 --> 00:53:56,940

whatever they want it to mean and that's

1332

00:54:02,329 --> 00:53:59,280

unfortunate I think they could be a

1333

00:54:04,130 --> 00:54:02,339

little bit more direct and the way they

1334

00:54:05,390 --> 00:54:04,140

Define things it is interesting how so

1335

00:54:08,210 --> 00:54:05,400

many of them are balloons of

1336

00:54:09,770 --> 00:54:08,220

balloon-like entities you know I I I've

1337

00:54:11,450 --> 00:54:09,780

heard that theories that that's just the

1338

00:54:13,549 --> 00:54:11,460

catch-all that they put everything good

1339

00:54:15,349 --> 00:54:13,559

in they call it a balloon and that's the

1340

00:54:17,750 --> 00:54:15,359

good stuff there but

1341

00:54:20,630 --> 00:54:17,760

no I I don't think so

1342

00:54:22,609 --> 00:54:20,640

I think uh if if that thing in the sky

1343

00:54:24,710 --> 00:54:22,619

looks like a cloud it's probably a cloud

1344

00:54:27,530 --> 00:54:24,720

not a UFO with the cloud cloaking device

1345

00:54:30,230 --> 00:54:27,540

you know if it has a potential Passaic

1346

00:54:32,210 --> 00:54:30,240

explanation if it's not if it's just a

1347

00:54:34,790 --> 00:54:32,220

line in the sky and it's not doing

1348

00:54:37,069 --> 00:54:34,800

anything truly crazy it's probably just

1349

00:54:39,230 --> 00:54:37,079

something prosaic can we say 100 what

1350

00:54:41,930 --> 00:54:39,240

that light was whether it was a drone or

1351
00:54:45,589 --> 00:54:41,940
a balloon or a Chinese lantern or a UFO

1352
00:54:48,770 --> 00:54:45,599
no but if it could be something prosaic

1353
00:54:52,970 --> 00:54:48,780
I say toss it in the bin move on to the

1354
00:54:56,809 --> 00:54:54,650
and I think that's what a lot of old

1355
00:54:58,370 --> 00:54:56,819
researchers kind of I think heinek had

1356
00:55:01,370 --> 00:54:58,380
that same kind of opinion like if it's

1357
00:55:03,349 --> 00:55:01,380
if it has a bizaic explanation or it

1358
00:55:07,790 --> 00:55:03,359
could at least likely probably be that

1359
00:55:10,750 --> 00:55:08,930
what do you think of some of the

1360
00:55:15,950 --> 00:55:10,760
pitfalls that people make when they're

1361
00:55:17,809 --> 00:55:15,960
applying statistical analyzes to UFOs

1362
00:55:20,270 --> 00:55:17,819
well that's

1363
00:55:22,549 --> 00:55:20,280

okay I'll use an example you guys

1364

00:55:23,569 --> 00:55:22,559

familiar with aim Amy Mikhail I don't

1365

00:55:25,370 --> 00:55:23,579

know that's how you pronounce the guy's

1366

00:55:26,809 --> 00:55:25,380

name he came up with the the thought of

1367

00:55:29,329 --> 00:55:26,819

knee Theory this the straight line

1368

00:55:32,030 --> 00:55:29,339

mystery was his book where he basically

1369

00:55:33,710 --> 00:55:32,040

thought that you could map UFO sightings

1370

00:55:36,410 --> 00:55:33,720

on a straight line

1371

00:55:37,730 --> 00:55:36,420

um like by day like you know like if you

1372

00:55:39,290 --> 00:55:37,740

have like a map of the world you could

1373

00:55:41,569 --> 00:55:39,300

find like sightings along a straight

1374

00:55:43,730 --> 00:55:41,579

line on that like same time period and

1375

00:55:46,250 --> 00:55:43,740

the problem is like for example in his

1376

00:55:48,049 --> 00:55:46,260

case he cherry-picked the data to just

1377

00:55:49,849 --> 00:55:48,059

cases that would fit on the lines that

1378

00:55:51,589 --> 00:55:49,859

he was looking for and just dismissed

1379

00:55:53,990 --> 00:55:51,599

everything else and then you had the

1380

00:55:56,630 --> 00:55:54,000

issue how good is that data that you're

1381

00:55:59,210 --> 00:55:56,640

using in your statistical analysis some

1382

00:56:02,210 --> 00:55:59,220

may be good and supported by either

1383

00:56:05,750 --> 00:56:02,220

great witness testimony or additional

1384

00:56:08,150 --> 00:56:05,760

data others could be less good you know

1385

00:56:10,490 --> 00:56:08,160

if you're doing statistical analysis on

1386

00:56:13,309 --> 00:56:10,500

garbage data you're going to get garbage

1387

00:56:14,870 --> 00:56:13,319

stats outside so garbage and garbage out

1388

00:56:16,430 --> 00:56:14,880

yep

1389

00:56:18,109 --> 00:56:16,440
so so check so Jeff we've mostly

1390

00:56:20,030 --> 00:56:18,119
dedicated the conversation to this

1391

00:56:21,829 --> 00:56:20,040
historic cases and like what I would

1392

00:56:23,930 --> 00:56:21,839
characterize is like nuts and bolts

1393

00:56:26,210 --> 00:56:23,940
style cases right like sightings and

1394

00:56:29,030 --> 00:56:26,220
physical things what are your thoughts

1395

00:56:30,650 --> 00:56:29,040
or what's your perspective on

1396

00:56:32,510 --> 00:56:30,660
um I guess the convergence of this

1397

00:56:34,250 --> 00:56:32,520
subject towards Consciousness and

1398

00:56:36,049 --> 00:56:34,260
towards some of the bigger metaphysical

1399

00:56:38,150 --> 00:56:36,059
questions what are your thoughts there

1400

00:56:39,170 --> 00:56:38,160
uh

1401
00:56:43,210 --> 00:56:39,180
um

1402
00:56:45,950 --> 00:56:43,220
I I don't know I'm I'm uh

1403
00:56:48,049 --> 00:56:45,960
not uh

1404
00:56:51,410 --> 00:56:48,059
to be honest I kind of dismiss a lot of

1405
00:56:52,490 --> 00:56:51,420
that stuff as more kind of new AG like a

1406
00:56:53,809 --> 00:56:52,500
lot of these Quantum ideas of

1407
00:56:56,390 --> 00:56:53,819
Consciousness and people bringing all

1408
00:56:58,849 --> 00:56:56,400
this Consciousness stuff into UFOs I

1409
00:57:00,770 --> 00:56:58,859
just I I think that's just all new age

1410
00:57:02,809 --> 00:57:00,780
speculation without any sort of evidence

1411
00:57:04,130 --> 00:57:02,819
you can you can be honest you're not

1412
00:57:05,990 --> 00:57:04,140
gonna hurt my feelings if you're not

1413
00:57:09,109 --> 00:57:06,000

into the world

1414

00:57:13,089 --> 00:57:09,119

yeah I'm most definitely not a not a woo

1415

00:57:18,290 --> 00:57:13,099

person I'm I'm very materialist but uh

1416

00:57:20,990 --> 00:57:18,300

uh I think that people use Consciousness

1417

00:57:22,790 --> 00:57:21,000

to kind of again bring a lot of woo into

1418

00:57:25,730 --> 00:57:22,800

this field we don't even know what

1419

00:57:28,069 --> 00:57:25,740

Consciousness is like yes as opposed to

1420

00:57:29,690 --> 00:57:28,079

you know other areas like Neuroscience

1421

00:57:32,270 --> 00:57:29,700

in the brain and all this other stuff

1422

00:57:33,530 --> 00:57:32,280

like like I think it's a little too

1423

00:57:35,329 --> 00:57:33,540

early to start bringing into the topic

1424

00:57:36,710 --> 00:57:35,339

of ufology

1425

00:57:39,230 --> 00:57:36,720

but

1426
00:57:43,370 --> 00:57:41,030
have you collaborated much with Erica

1427
00:57:47,270 --> 00:57:43,380
Luke's who's also got an extensive um

1428
00:57:49,730 --> 00:57:47,280
archival collection I I haven't

1429
00:57:53,270 --> 00:57:49,740
um in fact I I don't think I've even

1430
00:57:55,730 --> 00:57:53,280
talked to Erica personally

1431
00:57:57,589 --> 00:57:55,740
um I've always been a fan I used to see

1432
00:58:00,470 --> 00:57:57,599
her at various like moves on and other

1433
00:58:03,589 --> 00:58:00,480
conferences back in the day and actually

1434
00:58:06,049 --> 00:58:03,599
it was uh Jan aldrick that really

1435
00:58:08,870 --> 00:58:06,059
started telling me a lot more about her

1436
00:58:10,849 --> 00:58:08,880
and you know because he had started kind

1437
00:58:12,410 --> 00:58:10,859
of you know him and Barry had just kind

1438
00:58:14,150 --> 00:58:12,420

of started mentioning her with her

1439

00:58:16,250 --> 00:58:14,160

historical research and stuff like that

1440

00:58:18,829 --> 00:58:16,260

and so when I got involved in the

1441

00:58:20,690 --> 00:58:18,839

history group a few years back they kind

1442

00:58:22,010 --> 00:58:20,700

of uh brought her up to me and started

1443

00:58:24,349 --> 00:58:22,020

talking about her and all the great work

1444

00:58:25,790 --> 00:58:24,359

that she was doing and started following

1445

00:58:27,950 --> 00:58:25,800

her back then but I don't think I've

1446

00:58:30,710 --> 00:58:27,960

actually uh outside of you know online

1447

00:58:33,470 --> 00:58:30,720

ever talked to her collaborated with her

1448

00:58:35,030 --> 00:58:33,480

so I'd like to I'd love to visit her

1449

00:58:36,770 --> 00:58:35,040

archives that she's got down there in

1450

00:58:39,289 --> 00:58:36,780

Utah she's got some great looking stuff

1451
00:58:41,109 --> 00:58:39,299
that I'd love to see and my mom lives in

1452
00:58:43,490 --> 00:58:41,119
the Salt Lake area so

1453
00:58:45,890 --> 00:58:43,500
next next time I go visit my mom I'd

1454
00:58:49,250 --> 00:58:45,900
love to visit you Erica

1455
00:58:50,950 --> 00:58:49,260
well what about the skinwalker Saga

1456
00:58:54,049 --> 00:58:50,960
um

1457
00:58:56,510 --> 00:58:54,059
what are like some historical precedents

1458
00:58:57,950 --> 00:58:56,520
for that type of story

1459
00:59:00,049 --> 00:58:57,960
because it sort of goes a little bit

1460
00:59:03,069 --> 00:59:00,059
beyond just UFOs there's also kind of a

1461
00:59:05,410 --> 00:59:03,079
Creature Feature aspect to it you know

1462
00:59:08,450 --> 00:59:05,420
werewolves and stuff I will just mention

1463
00:59:09,950 --> 00:59:08,460

so I've actually spent a lot of time at

1464

00:59:11,450 --> 00:59:09,960

Skinwalker Ranch

1465

00:59:14,390 --> 00:59:11,460

um I've camped out there for about three

1466

00:59:17,210 --> 00:59:14,400

weeks uh on the corner on what they call

1467

00:59:18,770 --> 00:59:17,220

the UFO watch spot to the locals it's

1468

00:59:20,329 --> 00:59:18,780

basically kind of at the corner fence of

1469

00:59:22,789 --> 00:59:20,339

the property like you can't obviously go

1470

00:59:24,589 --> 00:59:22,799

on to land but I've spent about three

1471

00:59:26,809 --> 00:59:24,599

weeks with the Knights camping out there

1472

00:59:28,690 --> 00:59:26,819

using much of the same equipment they do

1473

00:59:31,690 --> 00:59:28,700

on the show busting out all my

1474

00:59:36,349 --> 00:59:31,700

software-defined radios floor Imaging

1475

00:59:39,349 --> 00:59:36,359

you know night vision cameras and uh

1476

00:59:39,950 --> 00:59:39,359

I've never seen anything

1477

00:59:42,890 --> 00:59:39,960

um

1478

00:59:44,990 --> 00:59:42,900

you know my dog has gone crazy when

1479

00:59:47,210 --> 00:59:45,000

we're out there and people mention these

1480

00:59:49,970 --> 00:59:47,220

big black dogs I'll tell you right now

1481

00:59:52,010 --> 00:59:49,980

they've got a neighbor that's got these

1482

00:59:53,569 --> 00:59:52,020

like big black dogs that just run wild

1483

00:59:54,890 --> 00:59:53,579

over the whole neighborhood and I

1484

00:59:56,809 --> 00:59:54,900

wouldn't be surprised that's what some

1485

00:59:58,250 --> 00:59:56,819

of these people are seeing and I've

1486

01:00:00,049 --> 00:59:58,260

watched videos of people that have gone

1487

01:00:01,490 --> 01:00:00,059

out at Skinwalker Ranch and filmed a

1488

01:00:03,950 --> 01:00:01,500

kind of our own YouTube little shows

1489

01:00:05,809 --> 01:00:03,960

about it and I've seen the same things

1490

01:00:06,890 --> 01:00:05,819

that they're pointing to and they're

1491

01:00:08,569 --> 01:00:06,900

like they're pointing to like the

1492

01:00:11,569 --> 01:00:08,579

neighbor's Ranch light and saying it's a

1493

01:00:13,549 --> 01:00:11,579

UFO like so having actually spent quite

1494

01:00:15,410 --> 01:00:13,559

a bit of time out there I have yet to

1495

01:00:17,569 --> 01:00:15,420

see anything anomalous that doesn't mean

1496

01:00:20,270 --> 01:00:17,579

it isn't happening

1497

01:00:22,309 --> 01:00:20,280

the thing is the problem with hot spots

1498

01:00:24,230 --> 01:00:22,319

are the very idea hot spots is again

1499

01:00:27,170 --> 01:00:24,240

it's an issue of like selective data

1500

01:00:29,750 --> 01:00:27,180

people are just selecting cases to kind

1501

01:00:31,970 --> 01:00:29,760

of create hot spots like honestly

1502

01:00:35,870 --> 01:00:31,980

there's sightings everywhere all the

1503

01:00:37,670 --> 01:00:35,880

time like everywhere like you can make a

1504

01:00:40,670 --> 01:00:37,680

hot spot out of anywhere to be honest

1505

01:00:42,770 --> 01:00:40,680

like I'm not sure there is anything more

1506

01:00:44,450 --> 01:00:42,780

going on and you went to Valley we went

1507

01:00:46,549 --> 01:00:44,460

to Basin there then

1508

01:00:50,770 --> 01:00:46,559

is happening anywhere else in the world

1509

01:00:54,109 --> 01:00:52,730

that's actually why I first got on

1510

01:00:55,849 --> 01:00:54,119

Twitter this summer was because I was

1511

01:00:58,370 --> 01:00:55,859

being critical of the the skin marker

1512

01:01:01,130 --> 01:00:58,380

show but uh I actually ended up

1513

01:01:03,049 --> 01:01:01,140

contacting quite a few people I spoke to

1514

01:01:05,450 --> 01:01:03,059

us as Josh asked about his appearance on

1515

01:01:07,309 --> 01:01:05,460

the show um this summer asked because

1516

01:01:08,690 --> 01:01:07,319

people were going around saying oh said

1517

01:01:11,150 --> 01:01:08,700

he is going to now be investigating the

1518

01:01:13,309 --> 01:01:11,160

1.6 gigahertz signal like that cannot

1519

01:01:15,049 --> 01:01:13,319

possibly be true so I got in touch with

1520

01:01:16,609 --> 01:01:15,059

him he's like no that's no that's a

1521

01:01:18,770 --> 01:01:16,619

human signal we have no interest in that

1522

01:01:21,109 --> 01:01:18,780

whatsoever it's like we told them that

1523

01:01:23,150 --> 01:01:21,119

like yeah that's what I thought I I

1524

01:01:24,530 --> 01:01:23,160

contacted the metallurgists from the

1525

01:01:26,750 --> 01:01:24,540

University of Utah about the metal

1526

01:01:28,010 --> 01:01:26,760

sample they dug out of the ground to see

1527

01:01:30,289 --> 01:01:28,020

if there was anything truly Anonymous

1528

01:01:31,849 --> 01:01:30,299

about it unfortunately he refused to

1529

01:01:33,829 --> 01:01:31,859

speaking they said they made him sign the

1530

01:01:36,530 --> 01:01:33,839

NDA and he wasn't allowed to talk about

1531

01:01:39,109 --> 01:01:36,540

anything he did with the show which

1532

01:01:40,730 --> 01:01:39,119

again I think that's problematic when

1533

01:01:42,710 --> 01:01:40,740

you're making your supposed scientists

1534

01:01:44,329 --> 01:01:42,720

sign NDAs where they can't even talk

1535

01:01:46,130 --> 01:01:44,339

about their data while at the same time

1536

01:01:49,069 --> 01:01:46,140

you're creating a TV show making all

1537

01:01:50,329 --> 01:01:49,079

sorts of crazy claims about that data

1538

01:01:52,010 --> 01:01:50,339

but

1539

01:01:54,049 --> 01:01:52,020

Skinwalker is interesting there's a lot

1540

01:01:55,190 --> 01:01:54,059

of places that are interesting and a lot

1541

01:01:56,870 --> 01:01:55,200

of stories people tell that are

1542

01:02:00,470 --> 01:01:56,880

interesting that

1543

01:02:02,569 --> 01:02:00,480

they're hard to kind of uh

1544

01:02:05,390 --> 01:02:02,579

kind of come to a conclusion too it's

1545

01:02:06,770 --> 01:02:05,400

either that they are crazy they're lying

1546

01:02:07,730 --> 01:02:06,780

or something very strange to happen to

1547

01:02:10,370 --> 01:02:07,740

them like when you get into things like

1548

01:02:12,530 --> 01:02:10,380

human cases and things like abductions

1549

01:02:14,870 --> 01:02:12,540

which have always been in my gray area

1550

01:02:17,690 --> 01:02:14,880

some of that stuff it's like what's

1551
01:02:19,970 --> 01:02:17,700
really going on either there's something

1552
01:02:21,770 --> 01:02:19,980
Anonymous going on that I don't really

1553
01:02:24,170 --> 01:02:21,780
think is the case or there's something

1554
01:02:25,970 --> 01:02:24,180
psychological going on with those people

1555
01:02:27,410 --> 01:02:25,980
but when it's a light in the sky you can

1556
01:02:29,390 --> 01:02:27,420
see how somebody can misidentify that

1557
01:02:31,010 --> 01:02:29,400
how do you misidentify someone that

1558
01:02:33,829 --> 01:02:31,020
claims they were standing next to it

1559
01:02:35,510 --> 01:02:33,839
three foot tall alien being and it was

1560
01:02:37,609 --> 01:02:35,520
talking to them or feeding them pancakes

1561
01:02:39,069 --> 01:02:37,619
or whatever like what do you do with

1562
01:02:42,530 --> 01:02:39,079
those kind of cases

1563
01:02:43,910 --> 01:02:42,540

I'm not sure to be honest

1564

01:02:46,549 --> 01:02:43,920

um

1565

01:02:50,569 --> 01:02:46,559

the original UFO Joe and his pancakes

1566

01:02:55,970 --> 01:02:52,670

uh just take a moment here when we're

1567

01:02:57,289 --> 01:02:55,980

sort of contemplating good versus bad

1568

01:02:58,789 --> 01:02:57,299

evidence

1569

01:03:01,849 --> 01:02:58,799

um there's some comments here I'd love

1570

01:03:04,190 --> 01:03:01,859

to uh like sang beam as um saying so is

1571

01:03:05,390 --> 01:03:04,200

this a panel of Skeptics and I would

1572

01:03:08,030 --> 01:03:05,400

just say

1573

01:03:10,370 --> 01:03:08,040

in some ways yes in some ways no oh

1574

01:03:12,049 --> 01:03:10,380

skeptic right like we should all be

1575

01:03:14,569 --> 01:03:12,059

Skeptics and that's sort of what we're

1576

01:03:16,670 --> 01:03:14,579

trying to emphasize here is that it's

1577

01:03:19,010 --> 01:03:16,680

good to be skeptical somebody who's

1578

01:03:20,510 --> 01:03:19,020

skeptical of the government is you know

1579

01:03:22,910 --> 01:03:20,520

and then thinks there's stuff going on

1580

01:03:24,470 --> 01:03:22,920

takes a look their conspiracy theorists

1581

01:03:26,890 --> 01:03:24,480

until they find a conspiracy and then

1582

01:03:30,349 --> 01:03:26,900

they're historian so you know skepticism

1583

01:03:32,329 --> 01:03:30,359

is if it's good or bad depends on what

1584

01:03:34,670 --> 01:03:32,339

you're applying it towards so I think

1585

01:03:38,329 --> 01:03:34,680

that we we should be encouraging people

1586

01:03:40,670 --> 01:03:38,339

to adopt the label skeptic more because

1587

01:03:42,770 --> 01:03:40,680

it enables us if we think that this

1588

01:03:45,849 --> 01:03:42,780

subject has some value to actually get

1589

01:03:48,230 --> 01:03:45,859

at what that value is

1590

01:03:49,789 --> 01:03:48,240

yeah and I mean we see this all the time

1591

01:03:52,250 --> 01:03:49,799

on this show too that this is definitely

1592

01:03:54,410 --> 01:03:52,260

not a monolith though you will note that

1593

01:03:56,089 --> 01:03:54,420

The Tenors of the show or the tenor of

1594

01:03:58,069 --> 01:03:56,099

the show and the discussion changes

1595

01:04:00,410 --> 01:03:58,079

based on what we're discussing and who

1596

01:04:03,289 --> 01:04:00,420

the guests are and what the particular

1597

01:04:05,390 --> 01:04:03,299

methodological approaches are if you're

1598

01:04:07,549 --> 01:04:05,400

looking for some deep woo I did episode

1599

01:04:09,950 --> 01:04:07,559

number 13 and talked about conferences

1600

01:04:12,109 --> 01:04:09,960

and meditation and psychedelics and like

1601
01:04:14,809 --> 01:04:12,119
I am happy to bust out some crystals in

1602
01:04:16,789 --> 01:04:14,819
a future episode but right now the focus

1603
01:04:19,190 --> 01:04:16,799
is on a skeptical research driven

1604
01:04:21,289 --> 01:04:19,200
approach to the subject let us all be

1605
01:04:23,750 --> 01:04:21,299
intellectually spacious enough to

1606
01:04:25,970 --> 01:04:23,760
entertain discuss and engage with ideas

1607
01:04:28,309 --> 01:04:25,980
that we may not personally believe in or

1608
01:04:30,410 --> 01:04:28,319
agree with right that's what we're here

1609
01:04:32,329 --> 01:04:30,420
to do and just to underline that very

1610
01:04:35,569 --> 01:04:32,339
quickly I would love to draw attention

1611
01:04:39,349 --> 01:04:35,579
to our our great fan our friend of the

1612
01:04:40,970 --> 01:04:39,359
show kmf uh and he's saying um in quotes

1613
01:04:43,250 --> 01:04:40,980

and it could be explained to Zach and we

1614

01:04:44,870 --> 01:04:43,260

know X exists just assume it is X it's

1615

01:04:47,450 --> 01:04:44,880

nonsensical that means literally nothing

1616

01:04:50,630 --> 01:04:47,460

you can Discover it in any topic now I

1617

01:04:54,950 --> 01:04:50,640

would just say to change just assume it

1618

01:04:56,510 --> 01:04:54,960

is X to it probably is X and that

1619

01:04:57,650 --> 01:04:56,520

doesn't mean that it's impossible for it

1620

01:04:59,569 --> 01:04:57,660

to be something else it's just a pure

1621

01:05:01,910 --> 01:04:59,579

statistics and that's the exact thing

1622

01:05:03,890 --> 01:05:01,920

that happened with many uh newly

1623

01:05:06,109 --> 01:05:03,900

discovered natural phenomena rogue waves

1624

01:05:08,510 --> 01:05:06,119

uh ball lightning

1625

01:05:10,490 --> 01:05:08,520

um what else the meteors all of these

1626

01:05:12,849 --> 01:05:10,500

things yes exactly long list of

1627

01:05:16,910 --> 01:05:12,859

eyewitness reports that weren't verified

1628

01:05:19,370 --> 01:05:16,920

and we it wasn't reasonable to assume it

1629

01:05:21,230 --> 01:05:19,380

was something new until we had the

1630

01:05:24,650 --> 01:05:21,240

evidence so I think that we're all open

1631

01:05:27,049 --> 01:05:24,660

to new information here yes exactly and

1632

01:05:29,210 --> 01:05:27,059

see a lot of people they they give they

1633

01:05:30,950 --> 01:05:29,220

think skeptic is a negative thing they

1634

01:05:32,870 --> 01:05:30,960

think Sceptics

1635

01:05:34,849 --> 01:05:32,880

don't have any interest in the topic

1636

01:05:36,650 --> 01:05:34,859

they think it's all bunk it's garbage

1637

01:05:38,569 --> 01:05:36,660

and they're just trying to be negative

1638

01:05:40,609 --> 01:05:38,579

or contrarian and trying to dismiss it

1639

01:05:42,890 --> 01:05:40,619

all away I think that's not true at all

1640

01:05:45,049 --> 01:05:42,900

in fact I think it's because

1641

01:05:47,630 --> 01:05:45,059

not only do I care about the in my case

1642

01:05:49,069 --> 01:05:47,640

do I care about this topic but because I

1643

01:05:50,930 --> 01:05:49,079

want to believe there's something

1644

01:05:53,270 --> 01:05:50,940

Anonymous out there that I feel it's

1645

01:05:55,549 --> 01:05:53,280

very important to be extra critical and

1646

01:05:58,130 --> 01:05:55,559

extra skeptical about what I do believe

1647

01:06:00,530 --> 01:05:58,140

to kind of outweigh that bias that I

1648

01:06:03,170 --> 01:06:00,540

inherently have I think you've got to be

1649

01:06:05,210 --> 01:06:03,180

skeptical even if you do hope to find

1650

01:06:06,829 --> 01:06:05,220

something because otherwise you're just

1651
01:06:08,690 --> 01:06:06,839
going to start leading yourself down a

1652
01:06:10,910 --> 01:06:08,700
path of belief and that's just the wrong

1653
01:06:13,730 --> 01:06:10,920
approach to take there's nothing wrong

1654
01:06:15,470 --> 01:06:13,740
with being a skeptic like I think all

1655
01:06:20,569 --> 01:06:15,480
serious researchers should be a skeptic

1656
01:06:23,510 --> 01:06:22,069
so gentlemen how do we feel about

1657
01:06:25,849 --> 01:06:23,520
opening up the lines

1658
01:06:28,549 --> 01:06:25,859
getting some viewer participation Jeff

1659
01:06:30,109 --> 01:06:28,559
are you ready sure all right trial by

1660
01:06:32,089 --> 01:06:30,119
fire my friends yeah so we're gonna open

1661
01:06:33,950 --> 01:06:32,099
up the stream yard um I'll post the link

1662
01:06:35,329 --> 01:06:33,960
in the YouTube chat folks can jump on

1663
01:06:36,829 --> 01:06:35,339

and join us

1664

01:06:39,170 --> 01:06:36,839

um just so you know I always try to

1665

01:06:40,970 --> 01:06:39,180

remind people this is not a democracy it

1666

01:06:42,470 --> 01:06:40,980

is a benevolent dictatorship so if

1667

01:06:43,490 --> 01:06:42,480

you're a jerk I'm gonna kick you off the

1668

01:06:44,750 --> 01:06:43,500

stream

1669

01:06:46,549 --> 01:06:44,760

um we're here to have a respectful

1670

01:06:49,670 --> 01:06:46,559

thoughtful conversations with each other

1671

01:06:51,770 --> 01:06:49,680

but that said uh stream yard is now

1672

01:06:53,510 --> 01:06:51,780

posted in the YouTube chat uh feel free

1673

01:06:55,490 --> 01:06:53,520

to jump in I'll see you backstage and

1674

01:06:56,870 --> 01:06:55,500

then get you added to the stream

1675

01:06:59,029 --> 01:06:56,880

um it's also totally cool if you just

1676
01:07:03,109 --> 01:06:59,039
want to join voice only and not on video

1677
01:07:05,750 --> 01:07:03,119
yep and we're aiming for uh 100 good

1678
01:07:07,789 --> 01:07:05,760
faith discussion if somebody's heard

1679
01:07:10,250 --> 01:07:07,799
something that they don't agree with

1680
01:07:13,609 --> 01:07:10,260
that I or anybody else has said please

1681
01:07:15,589 --> 01:07:13,619
do bring it to us and correct me if I've

1682
01:07:18,170 --> 01:07:15,599
said something wrong and uh you know

1683
01:07:20,450 --> 01:07:18,180
you'll get a wholehearted uh thank you

1684
01:07:22,390 --> 01:07:20,460
from me so um if that is something that

1685
01:07:25,670 --> 01:07:22,400
you're looking for Jump Right In

1686
01:07:28,370 --> 01:07:25,680
absolutely we don't have to agree but we

1687
01:07:30,230 --> 01:07:28,380
can get along that's fine

1688
01:07:34,970 --> 01:07:30,240

oh hey we have one of our favorite

1689

01:07:40,670 --> 01:07:38,150

Sparky hello hey can you guys hear me

1690

01:07:42,230 --> 01:07:40,680

okay we're done we're delighted to have

1691

01:07:52,190 --> 01:07:42,240

you

1692

01:07:56,089 --> 01:07:52,200

also just say what a neat group this has

1693

01:07:57,470 --> 01:07:56,099

grown to become like I knew I met Leah a

1694

01:07:59,150 --> 01:07:57,480

while ago

1695

01:08:01,270 --> 01:07:59,160

um you know through another server and

1696

01:08:03,950 --> 01:08:01,280

I'm just I'm so I'm so proud of you all

1697

01:08:06,049 --> 01:08:03,960

it's just this is this is such a

1698

01:08:09,230 --> 01:08:06,059

wonderful such a wonderful conversation

1699

01:08:12,010 --> 01:08:09,240

I feel like it is so balanced it is

1700

01:08:15,650 --> 01:08:12,020

respectful to so many different

1701

01:08:18,229 --> 01:08:15,660

approaches to the topic this topic can

1702

01:08:19,910 --> 01:08:18,239

be really really tiresome I told you a

1703

01:08:21,229 --> 01:08:19,920

few you guys that I've you know went

1704

01:08:22,789 --> 01:08:21,239

through a stage where I had to step back

1705

01:08:25,189 --> 01:08:22,799

and take a break because it was really

1706

01:08:26,809 --> 01:08:25,199

just you know it was not only pushing my

1707

01:08:32,450 --> 01:08:26,819

own

1708

01:08:35,150 --> 01:08:32,460

universe but it was really trialsome on

1709

01:08:36,650 --> 01:08:35,160

my mind to just see the Discord uh not

1710

01:08:37,970 --> 01:08:36,660

that you know not Discord Discord but

1711

01:08:39,950 --> 01:08:37,980

the Discord in the community about

1712

01:08:41,570 --> 01:08:39,960

things and the you know seeming

1713

01:08:44,450 --> 01:08:41,580

unwillingness of people to try to get

1714

01:08:46,669 --> 01:08:44,460

along but what we have here in in this

1715

01:08:49,130 --> 01:08:46,679

group is so special because

1716

01:08:51,050 --> 01:08:49,140

we realized that there are experiences

1717

01:08:52,970 --> 01:08:51,060

of different kinds and we realize that

1718

01:08:55,070 --> 01:08:52,980

it is not just one explanation with

1719

01:08:57,289 --> 01:08:55,080

what's going on here it's a whole host

1720

01:08:59,150 --> 01:08:57,299

of different things and I just I'm so

1721

01:09:00,470 --> 01:08:59,160

proud to call you guys my friends I just

1722

01:09:02,570 --> 01:09:00,480

wanted to tell you that

1723

01:09:04,130 --> 01:09:02,580

yeah Sparky thank you and in many

1724

01:09:06,169 --> 01:09:04,140

respects this is kind of your fault

1725

01:09:08,930 --> 01:09:06,179

because I met all this cast of

1726

01:09:11,090 --> 01:09:08,940

characters because of you uh when I was

1727

01:09:12,110 --> 01:09:11,100

living my my lonesome dreams over the

1728

01:09:13,849 --> 01:09:12,120

summer

1729

01:09:15,829 --> 01:09:13,859

um oh man and you connected me with

1730

01:09:17,390 --> 01:09:15,839

everyone and kind of took off from there

1731

01:09:19,430 --> 01:09:17,400

we're just delighted to hear from you

1732

01:09:21,769 --> 01:09:19,440

and have you here with us yeah we miss

1733

01:09:24,590 --> 01:09:21,779

you it's wonderful yeah I do miss you I

1734

01:09:27,610 --> 01:09:24,600

know that I still owe a um a little bit

1735

01:09:31,450 --> 01:09:27,620

of a uh paper and a discussion about

1736

01:09:38,269 --> 01:09:34,749

thank you it is over Purdue man

1737

01:09:40,010 --> 01:09:38,279

so oh my gosh yeah I better get on top

1738

01:09:42,950 --> 01:09:40,020

of that but I fit it you know I finished

1739

01:09:46,010 --> 01:09:42,960

um I finished my pilot's license I got a

1740

01:09:47,510 --> 01:09:46,020

new job fully remote job that I start

1741

01:09:50,749 --> 01:09:47,520

um week after next that's going to allow

1742

01:09:52,430 --> 01:09:50,759

me a lot more mental space to just sink

1743

01:09:54,770 --> 01:09:52,440

into things again instead of be

1744

01:09:56,630 --> 01:09:54,780

constantly spun up so I'm it's almost a

1745

01:09:59,150 --> 01:09:56,640

it's like a working sabbatical in a way

1746

01:10:01,729 --> 01:09:59,160

that's awesome the remote works the life

1747

01:10:04,490 --> 01:10:01,739

yeah promote work rules I haven't worn

1748

01:10:06,290 --> 01:10:04,500

jeans since March 2020. hell yeah so

1749

01:10:09,410 --> 01:10:06,300

that's the way to go yeah no more hard

1750

01:10:11,810 --> 01:10:09,420

pants yeah in my my new boss is super

1751

01:10:13,790 --> 01:10:11,820

cool he's you know I told him like Hey I

1752

01:10:14,930 --> 01:10:13,800

plan on like like micro dosing do you

1753

01:10:16,130 --> 01:10:14,940

have an issue with that he's like no I

1754

01:10:17,450 --> 01:10:16,140

really don't care what you do as long as

1755

01:10:21,950 --> 01:10:17,460

you get your job done do whatever you

1756

01:10:24,530 --> 01:10:21,960

want like okay winning like awesome that

1757

01:10:26,570 --> 01:10:24,540

is a good boss yeah a little more time

1758

01:10:27,770 --> 01:10:26,580

to explore my own Consciousness as well

1759

01:10:29,810 --> 01:10:27,780

which I think is going to be really

1760

01:10:33,169 --> 01:10:29,820

valuable

1761

01:10:34,970 --> 01:10:33,179

so awesome yeah only time you want to

1762

01:10:37,430 --> 01:10:34,980

jump on anytime you want to join a show

1763

01:10:39,770 --> 01:10:37,440

we'd love to have you and of course yes

1764

01:10:42,370 --> 01:10:39,780

always love to back Channel with you too

1765

01:10:44,689 --> 01:10:42,380

oh yeah whenever you're available

1766

01:10:46,850 --> 01:10:44,699

absolutely definitely

1767

01:10:50,390 --> 01:10:46,860

um I think this I had a question for

1768

01:10:52,669 --> 01:10:50,400

Jeff and if he is already explored this

1769

01:10:55,189 --> 01:10:52,679

and would rather that I just listened to

1770

01:10:57,649 --> 01:10:55,199

the VOD then I will do that but Jeff I

1771

01:10:59,149 --> 01:10:57,659

want to know like is there any oh I

1772

01:11:00,950 --> 01:10:59,159

think this was asked and I think I

1773

01:11:02,570 --> 01:11:00,960

missed the answer to it

1774

01:11:04,550 --> 01:11:02,580

um what has been the most interesting

1775

01:11:06,470 --> 01:11:04,560

case to you and the most mysterious case

1776

01:11:08,990 --> 01:11:06,480

to you whether or not you think it is uh

1777

01:11:10,669 --> 01:11:09,000

truly mysterious or you know you

1778

01:11:12,169 --> 01:11:10,679

researched it and it was so weird and

1779

01:11:13,910 --> 01:11:12,179

then the explanation was super weird

1780

01:11:16,669 --> 01:11:13,920

even though it was still prosaic I'm

1781

01:11:21,350 --> 01:11:17,450

um

1782

01:11:26,570 --> 01:11:23,689

I say it's a hard it's a hard question I

1783

01:11:28,070 --> 01:11:26,580

get asked that all the time and it's

1784

01:11:30,770 --> 01:11:28,080

very hard for me to come up with any

1785

01:11:34,189 --> 01:11:30,780

case that I think is really that I found

1786

01:11:34,970 --> 01:11:34,199

really interesting or compelling

1787

01:11:38,149 --> 01:11:34,980

um

1788

01:11:40,310 --> 01:11:38,159

I I tend to uh I I do I still find the

1789

01:11:42,649 --> 01:11:40,320

Roswell case interesting after all these

1790

01:11:44,390 --> 01:11:42,659

years for many different reasons

1791

01:11:46,130 --> 01:11:44,400

um not the least witches that people are

1792

01:11:49,910 --> 01:11:46,140

still digging into it after 70 something

1793

01:11:51,530 --> 01:11:49,920

years uh yeah but I I personally don't

1794

01:11:52,610 --> 01:11:51,540

believe anything anomalously happened

1795

01:11:56,810 --> 01:11:52,620

there

1796

01:11:59,570 --> 01:11:56,820

look at this stuff that doesn't involve

1797

01:12:00,830 --> 01:11:59,580

the cases truly being anomalous or

1798

01:12:02,689 --> 01:12:00,840

really having any sort of compelling

1799

01:12:05,510 --> 01:12:02,699

evidence

1800

01:12:07,010 --> 01:12:05,520

um as far as things I find interesting I

1801
01:12:08,630 --> 01:12:07,020
do find that humanoid case is

1802
01:12:11,149 --> 01:12:08,640
interesting and like I said the really

1803
01:12:14,450 --> 01:12:11,159
Oddball the high strangeness stuff that

1804
01:12:16,130 --> 01:12:14,460
it's just what do you do with like

1805
01:12:17,450 --> 01:12:16,140
they're they're just very interesting

1806
01:12:20,330 --> 01:12:17,460
some of them are just super crazy

1807
01:12:23,630 --> 01:12:20,340
stories but

1808
01:12:26,510 --> 01:12:23,640
yeah like go on go you know beyond that

1809
01:12:31,850 --> 01:12:29,270
as far as I say cases again that are

1810
01:12:34,669 --> 01:12:31,860
heavily documented uh I mentioned the

1811
01:12:36,530 --> 01:12:34,679
Minot case uh somebody in the chat has

1812
01:12:39,290 --> 01:12:36,540
been talking about Mouse Jim that's the

1813
01:12:42,050 --> 01:12:39,300

case I've been very clear about in the

1814

01:12:43,970 --> 01:12:42,060

past again as a case that's been looked

1815

01:12:45,470 --> 01:12:43,980

at by a lot of great people over the

1816

01:12:48,350 --> 01:12:45,480

years

1817

01:12:51,169 --> 01:12:48,360

um and I've expressed my opinion that

1818

01:12:53,450 --> 01:12:51,179

I think Robert Solace's mom stream case

1819

01:12:56,270 --> 01:12:53,460

didn't exist it never happened he's

1820

01:12:59,890 --> 01:12:56,280

confabulating based on bad memories of

1821

01:13:02,689 --> 01:12:59,900

what actually happened at Echo flight

1822

01:13:05,390 --> 01:13:02,699

I think that's a case where you had

1823

01:13:07,430 --> 01:13:05,400

something that really happened some some

1824

01:13:10,370 --> 01:13:07,440

silos were shut down

1825

01:13:12,950 --> 01:13:10,380

but there's no evidence that a UFO was

1826

01:13:15,169 --> 01:13:12,960

involved in that a lot of that was added

1827

01:13:18,470 --> 01:13:15,179

you know after the fact over the years

1828

01:13:19,490 --> 01:13:18,480

oh wow and for example the solid side of

1829

01:13:22,250 --> 01:13:19,500

the story

1830

01:13:24,830 --> 01:13:22,260

he he didn't even remember it until he

1831

01:13:26,630 --> 01:13:24,840

went underwent hypnosis and then he had

1832

01:13:28,669 --> 01:13:26,640

to change his story at least two or

1833

01:13:31,250 --> 01:13:28,679

three separate times to match with the

1834

01:13:33,229 --> 01:13:31,260

known facts of the case to try and fit

1835

01:13:35,630 --> 01:13:33,239

in what he believed happened with what

1836

01:13:39,110 --> 01:13:35,640

we know actually happened there we may

1837

01:13:41,149 --> 01:13:39,120

not know 100 why those silos shut down I

1838

01:13:43,490 --> 01:13:41,159

mean they have ideas and theories that

1839

01:13:45,530 --> 01:13:43,500

of what happened but again that's

1840

01:13:47,390 --> 01:13:45,540

something that you know we're never

1841

01:13:50,090 --> 01:13:47,400

going to have a 100 answer for because

1842

01:13:51,770 --> 01:13:50,100

they didn't come to one back then and

1843

01:13:54,530 --> 01:13:51,780

that's allowed people to build these

1844

01:13:57,050 --> 01:13:54,540

modern mythologies on top of these old

1845

01:14:00,310 --> 01:13:57,060

cases and you get people like Solace

1846

01:14:04,970 --> 01:14:02,689

I'd love to add to that very briefly

1847

01:14:07,550 --> 01:14:04,980

about Malmstrom because it was at the

1848

01:14:10,790 --> 01:14:07,560

citizen uh hearings I believe was in

1849

01:14:12,649 --> 01:14:10,800

2013 that were the uh represented uh not

1850

01:14:14,510 --> 01:14:12,659

former Congressional members were

1851
01:14:15,950 --> 01:14:14,520
brought in and did a sort of fake UFO

1852
01:14:19,130 --> 01:14:15,960
hearing thing and they brought in a

1853
01:14:22,189 --> 01:14:19,140
bunch of uh ex military including uh

1854
01:14:24,770 --> 01:14:22,199
Salas and uh a captain uh from the Air

1855
01:14:27,410 --> 01:14:24,780
Force retired Bruce fenstermacher who

1856
01:14:30,709 --> 01:14:27,420
testified next to Salas about Malmstrom

1857
01:14:32,810 --> 01:14:30,719
and he talked about how salus foia

1858
01:14:35,450 --> 01:14:32,820
documents and the documents that Salas

1859
01:14:37,490 --> 01:14:35,460
FOID demonstrated that there wasn't a

1860
01:14:40,010 --> 01:14:37,500
what they call like an electromagnetic

1861
01:14:41,510 --> 01:14:40,020
event there was no reference to a UFO in

1862
01:14:42,830 --> 01:14:41,520
the internal documents and that there

1863
01:14:44,750 --> 01:14:42,840

was some kind of electromagnetic

1864

01:14:46,550 --> 01:14:44,760

feedback in the system it fried the

1865

01:14:50,870 --> 01:14:46,560

logic couplers and then they brought in

1866

01:14:52,910 --> 01:14:50,880

Boeing uh Engineers correct that because

1867

01:14:54,350 --> 01:14:52,920

it was an electrical issue and

1868

01:14:55,970 --> 01:14:54,360

apparently it was resolved so that's

1869

01:14:58,430 --> 01:14:55,980

based on Floyd's documents and we don't

1870

01:15:00,649 --> 01:14:58,440

know if you know again

1871

01:15:02,270 --> 01:15:00,659

yeah that hasn't happened since and that

1872

01:15:05,030 --> 01:15:02,280

was another thing that has been verified

1873

01:15:06,350 --> 01:15:05,040

that these uh these types of things have

1874

01:15:08,030 --> 01:15:06,360

not happened and that was something the

1875

01:15:10,070 --> 01:15:08,040

Fenster mocker actually cited is that

1876

01:15:11,510 --> 01:15:10,080

they wheeled the missiles out he was

1877

01:15:14,149 --> 01:15:11,520

there on the site and they brought them

1878

01:15:16,070 --> 01:15:14,159

over fixed them and then they proceeded

1879

01:15:17,870 --> 01:15:16,080

to do that uh you know naturally and

1880

01:15:19,370 --> 01:15:17,880

there haven't been shut down since so

1881

01:15:22,490 --> 01:15:19,380

there's some good evidence there that

1882

01:15:23,870 --> 01:15:22,500

never gets cited uh when the subject's

1883

01:15:25,310 --> 01:15:23,880

brought up and I wish it would because

1884

01:15:27,890 --> 01:15:25,320

then we could just move on to something

1885

01:15:30,229 --> 01:15:27,900

that's stronger well this is why people

1886

01:15:32,990 --> 01:15:30,239

really need to read Tim Herbert's work

1887

01:15:35,570 --> 01:15:33,000

on the Maelstrom case he he was he's a

1888

01:15:38,750 --> 01:15:35,580

skeptic but he he was actually a Sac

1889

01:15:40,910 --> 01:15:38,760

missile Commander at Malmstrom and he's

1890

01:15:43,189 --> 01:15:40,920

done some of the best work on that case

1891

01:15:46,130 --> 01:15:43,199

both the echo fight and the myth of the

1892

01:15:49,370 --> 01:15:46,140

Oscar flight on his blog and like many

1893

01:15:51,169 --> 01:15:49,380

of these cases if you go back uh there's

1894

01:15:53,570 --> 01:15:51,179

the claim that somebody saw a UFO nearby

1895

01:15:55,310 --> 01:15:53,580

and that's why it became a UFO case

1896

01:15:57,050 --> 01:15:55,320

there's no evidence anybody saw your

1897

01:15:58,850 --> 01:15:57,060

phone nearby there's so much conflicting

1898

01:16:01,070 --> 01:15:58,860

testimony by the people that were there

1899

01:16:03,890 --> 01:16:01,080

at the time that what are you supposed

1900

01:16:05,750 --> 01:16:03,900

to do with that so I have a question on

1901

01:16:06,950 --> 01:16:05,760

that sorry and I apologize Jeff I think

1902

01:16:09,830 --> 01:16:06,960

I just cut you off but when you're done

1903

01:16:13,550 --> 01:16:09,840

with your thought I do have a something

1904

01:16:15,410 --> 01:16:13,560

so my my my next question on this with

1905

01:16:18,410 --> 01:16:15,420

melmstrom and with a lot of these other

1906

01:16:21,229 --> 01:16:18,420

UFO cases is

1907

01:16:23,390 --> 01:16:21,239

you know uh Salas says that he saw

1908

01:16:26,870 --> 01:16:23,400

something and you know if it was after a

1909

01:16:29,630 --> 01:16:26,880

hypnosis or or whatever that's that is

1910

01:16:32,149 --> 01:16:29,640

what it is my my curiosity with this

1911

01:16:34,790 --> 01:16:32,159

whole topic is

1912

01:16:37,610 --> 01:16:34,800

you know what

1913

01:16:40,729 --> 01:16:37,620

what motivates someone like Salas to be

1914

01:16:43,070 --> 01:16:40,739

so passionate about what they saw to

1915

01:16:44,270 --> 01:16:43,080

then put themselves out there in

1916

01:16:45,470 --> 01:16:44,280

different press conferences and

1917

01:16:47,209 --> 01:16:45,480

different efforts that part really

1918

01:16:49,729 --> 01:16:47,219

fascinates me and it's not to say that

1919

01:16:51,830 --> 01:16:49,739

it's a proof of anything existing or not

1920

01:16:54,890 --> 01:16:51,840

existing but it's the mental

1921

01:16:56,870 --> 01:16:54,900

you know psychological power that these

1922

01:16:58,729 --> 01:16:56,880

experiences have had on people that that

1923

01:17:00,290 --> 01:16:58,739

is my fascination with the topic and

1924

01:17:02,030 --> 01:17:00,300

it's so interesting how that thread

1925

01:17:04,610 --> 01:17:02,040

interties with all the other research

1926

01:17:07,189 --> 01:17:04,620

that you guys do too

1927

01:17:08,510 --> 01:17:07,199

um it's it's it's just so fascinating to

1928

01:17:11,390 --> 01:17:08,520

me that and that was just kind of my

1929

01:17:14,149 --> 01:17:11,400

comments just it blows my mind

1930

01:17:16,610 --> 01:17:14,159

well I and I think with stylus I I don't

1931

01:17:18,830 --> 01:17:16,620

think he's lying per se I think it's a

1932

01:17:21,050 --> 01:17:18,840

case of confabulation we know he was

1933

01:17:24,590 --> 01:17:21,060

working on those Missile Command sites

1934

01:17:26,270 --> 01:17:24,600

back at that time but and in the area I

1935

01:17:29,090 --> 01:17:26,280

think what likely happened is that he he

1936

01:17:31,910 --> 01:17:29,100

remembered the echo fight shutdown and

1937

01:17:33,290 --> 01:17:31,920

later on you know just it this idea that

1938

01:17:35,630 --> 01:17:33,300

he was somehow involved with it

1939

01:17:37,310 --> 01:17:35,640

developed in his mind and his memory and

1940

01:17:39,709 --> 01:17:37,320

it's just confabulation it's not true

1941

01:17:41,689 --> 01:17:39,719

dishonesty I think he believes he was

1942

01:17:43,610 --> 01:17:41,699

part of something and that's why he went

1943

01:17:46,610 --> 01:17:43,620

through with hypnosis to try and recover

1944

01:17:48,229 --> 01:17:46,620

more details only they just didn't match

1945

01:17:50,570 --> 01:17:48,239

any facts and you just kind of had to

1946

01:17:52,310 --> 01:17:50,580

construct his story from there I truly

1947

01:17:54,110 --> 01:17:52,320

think he believes he was part of

1948

01:17:56,510 --> 01:17:54,120

something I just don't think he was I

1949

01:17:59,149 --> 01:17:56,520

think that was just confabulation false

1950

01:18:01,669 --> 01:17:59,159

memory is more common than people like

1951

01:18:03,229 --> 01:18:01,679

to admit I mean I've seen it happen in

1952

01:18:05,030 --> 01:18:03,239

my own family people come up with all

1953

01:18:06,709 --> 01:18:05,040

sorts of crazy things elsewhere happened

1954

01:18:08,570 --> 01:18:06,719

I mean I've got some of my own false

1955

01:18:10,250 --> 01:18:08,580

memories that I know are false but

1956

01:18:12,350 --> 01:18:10,260

they're just still so vivid in my mind

1957

01:18:14,030 --> 01:18:12,360

that you know I it's where they happened

1958

01:18:16,729 --> 01:18:14,040

even though I know they didn't and I'll

1959

01:18:19,610 --> 01:18:16,739

just add a couple details that um uh

1960

01:18:22,910 --> 01:18:19,620

Solace actually never uh claimed to see

1961

01:18:25,010 --> 01:18:22,920

a UFO himself at the base he presents

1962

01:18:27,410 --> 01:18:25,020

that he received a radio transmission

1963

01:18:29,990 --> 01:18:27,420

from the security team saying that they

1964

01:18:32,149 --> 01:18:30,000

saw a red glowing object

1965

01:18:34,310 --> 01:18:32,159

um so that alone is quite significant is

1966

01:18:36,590 --> 01:18:34,320

something that people don't emphasize

1967

01:18:38,510 --> 01:18:36,600

and when I first learned about it you

1968

01:18:40,310 --> 01:18:38,520

know it makes me feel disappointed when

1969

01:18:42,229 --> 01:18:40,320

somebody is saying how strong it is and

1970

01:18:44,270 --> 01:18:42,239

then like I look into it and the facts

1971

01:18:46,729 --> 01:18:44,280

aren't lining up like it's just causing

1972

01:18:48,590 --> 01:18:46,739

like to be just on the side of the true

1973

01:18:50,810 --> 01:18:48,600

Seeker for a second here I just want to

1974

01:18:53,630 --> 01:18:50,820

point out like I want to be convinced I

1975

01:18:55,070 --> 01:18:53,640

want the best evidence and like if I

1976

01:18:57,830 --> 01:18:55,080

look into it and then it's not at all

1977

01:19:00,649 --> 01:18:57,840

what I was told it it turns me off the

1978

01:19:02,689 --> 01:19:00,659

subject more generally uh so I and you

1979

01:19:04,970 --> 01:19:02,699

know so I just would suggest like uh

1980

01:19:06,709 --> 01:19:04,980

being upfront with those details well

1981

01:19:08,750 --> 01:19:06,719

and then you end up with like at the

1982

01:19:10,729 --> 01:19:08,760

here in Congress last year you got

1983

01:19:12,770 --> 01:19:10,739

people asking about the Solace case like

1984

01:19:15,350 --> 01:19:12,780

congressman asking about the Solace case

1985

01:19:18,590 --> 01:19:15,360

like right he makes you really wonder

1986

01:19:20,810 --> 01:19:18,600

what data they've actually seen if

1987

01:19:23,450 --> 01:19:20,820

they're bringing up cases that just are

1988

01:19:25,130 --> 01:19:23,460

based on stories from you know how many

1989

01:19:26,689 --> 01:19:25,140

years ago like

1990

01:19:28,550 --> 01:19:26,699

obviously they found that case

1991

01:19:30,950 --> 01:19:28,560

compelling enough to ask questions about

1992

01:19:33,770 --> 01:19:30,960

it but there's not really anything to

1993

01:19:35,209 --> 01:19:33,780

that case so it could that possibly be

1994

01:19:37,010 --> 01:19:35,219

true with some of the other claims some

1995

01:19:39,430 --> 01:19:37,020

of these politicians are making when

1996

01:19:41,570 --> 01:19:39,440

they come out and say there's data of

1997

01:19:43,209 --> 01:19:41,580

multi-sensor data of all these

1998

01:19:45,890 --> 01:19:43,219

phenomenal like

1999

01:19:48,169 --> 01:19:45,900

appearances of objects moving you know

2000

01:19:51,410 --> 01:19:48,179

with capabilities we can't explain

2001

01:19:53,149 --> 01:19:51,420

well is there really the data or is it

2002

01:19:55,490 --> 01:19:53,159

just again they've been told stories by

2003

01:19:58,880 --> 01:19:55,500

former service members and they take

2004

01:20:00,169 --> 01:19:58,890

that all to heart I don't know

2005

01:20:02,209 --> 01:20:00,179

[Music]

2006

01:20:04,130 --> 01:20:02,219

it's a fascinating discussion about it

2007

01:20:05,750 --> 01:20:04,140

and yeah so go ahead Leah I'm going to

2008

01:20:08,390 --> 01:20:05,760

jump out and let someone else pop in but

2009

01:20:11,990 --> 01:20:08,400

sure of course Sparky such a pleasure

2010

01:20:15,709 --> 01:20:13,729

um I was gonna say my contribution to

2011

01:20:17,810 --> 01:20:15,719

sell as discourse is people he used to

2012

01:20:19,430 --> 01:20:17,820

follow me on Twitter and I always he

2013

01:20:20,930 --> 01:20:19,440

used to kind of mansplain to me things

2014

01:20:22,729 --> 01:20:20,940

that I would post about math and science

2015

01:20:24,350 --> 01:20:22,739

and I used to kind of flirt back at him

2016

01:20:27,050 --> 01:20:24,360

and be like oh maybe you could tutor me

2017

01:20:28,970 --> 01:20:27,060

and then he unfollowed me and blocked me

2018

01:20:31,250 --> 01:20:28,980

because I called him daddy nukes in one

2019

01:20:33,590 --> 01:20:31,260

of my roles like so

2020

01:20:36,709 --> 01:20:33,600

um just in case anyone wants to know how

2021

01:20:39,169 --> 01:20:36,719

effectively I straddle uh

2022

01:20:41,149 --> 01:20:39,179

both sides of the conversation

2023

01:20:43,070 --> 01:20:41,159

um that's case in point okay yeah so we

2024

01:20:45,169 --> 01:20:43,080

have song Behind the Scenes I'm going to

2025

01:20:48,410 --> 01:20:45,179

bring you on to the Stream

2026

01:20:52,189 --> 01:20:48,420

hey what's going on uh hi um I just got

2027

01:20:55,189 --> 01:20:52,199

interested in this UAP UFO topic is

2028

01:20:58,669 --> 01:20:55,199

um I guess it became more pronounced in

2029

01:21:00,649 --> 01:20:58,679

like 17 2017 2018 and I served in the US

2030

01:21:02,870 --> 01:21:00,659

Air Force at Maelstrom and a bunch of

2031

01:21:05,870 --> 01:21:02,880

other bases and things uh when I was in

2032

01:21:08,990 --> 01:21:05,880

enlisted in the Air Force so one thing

2033

01:21:10,430 --> 01:21:09,000

is that it's very hard to get the

2034

01:21:13,010 --> 01:21:10,440

information because a lot of it is

2035

01:21:15,890 --> 01:21:13,020

classified and not because of uaps or

2036

01:21:17,330 --> 01:21:15,900

UFOs in general and a lot of people in

2037

01:21:19,130 --> 01:21:17,340

general public or Skeptics or

2038

01:21:20,450 --> 01:21:19,140

researchers won't understand this unless

2039

01:21:22,010 --> 01:21:20,460

they've worked in government worked in

2040

01:21:24,530 --> 01:21:22,020

clearances worked in the bureaucracy or

2041

01:21:26,689 --> 01:21:24,540

whatnot or the IC or whatever

2042

01:21:28,790 --> 01:21:26,699

they don't look for uaps and UFOs in

2043

01:21:30,169 --> 01:21:28,800

general there's no reporting procedure a

2044

01:21:31,669 --> 01:21:30,179

lot of times there's so much work to do

2045

01:21:33,890 --> 01:21:31,679

and personal life outside of the

2046

01:21:35,750 --> 01:21:33,900

military or whatever that nobody wants

2047

01:21:39,410 --> 01:21:35,760

to deal with uaps whether it's the

2048

01:21:41,390 --> 01:21:39,420

stigma or it's because of the amount of

2049

01:21:43,669 --> 01:21:41,400

freaking stress and workload everyone's

2050

01:21:46,010 --> 01:21:43,679

under so when this stuff comes around it

2051
01:21:48,709 --> 01:21:46,020
may eat up one to eight to twelve hours

2052
01:21:50,330 --> 01:21:48,719
of your time and then you're behind at 1

2053
01:21:52,970 --> 01:21:50,340
to 12 hours of work and everything else

2054
01:21:55,010 --> 01:21:52,980
you have to do so they over classify it

2055
01:21:58,430 --> 01:21:55,020
to sometimes just to make it go away

2056
01:22:01,310 --> 01:21:58,440
they don't report it or somebody an

2057
01:22:03,169 --> 01:22:01,320
admin and some CL decides to bury it so

2058
01:22:04,430 --> 01:22:03,179
then the next seal comes in he has no

2059
01:22:06,470 --> 01:22:04,440
clue what it is because it's stuffed in

2060
01:22:09,290 --> 01:22:06,480
an archive folder somewhere blacked out

2061
01:22:11,770 --> 01:22:09,300
and locked away so when people say

2062
01:22:14,810 --> 01:22:11,780
there's some sort of massive conspiracy

2063
01:22:16,490 --> 01:22:14,820

I've been in it and there really isn't

2064

01:22:18,410 --> 01:22:16,500

there are this stuff is actually more

2065

01:22:19,910 --> 01:22:18,420

common than people think but the problem

2066

01:22:21,290 --> 01:22:19,920

is we can't discuss it because it

2067

01:22:22,790 --> 01:22:21,300

relates to our job in our classified

2068

01:22:24,470 --> 01:22:22,800

areas which everyone knows that kind of

2069

01:22:26,810 --> 01:22:24,480

stuff exists whether it's nukes is

2070

01:22:28,250 --> 01:22:26,820

classified aircraft materials operations

2071

01:22:30,530 --> 01:22:28,260

it could be even Finance related

2072

01:22:32,570 --> 01:22:30,540

whatever we can't talk about it because

2073

01:22:33,890 --> 01:22:32,580

it relates directly or indirectly to it

2074

01:22:35,630 --> 01:22:33,900

thus the whole thing is already

2075

01:22:38,750 --> 01:22:35,640

classified and it's not even related to

2076

01:22:40,790 --> 01:22:38,760

UFOs so it's right that there is no

2077

01:22:43,189 --> 01:22:40,800

massive crazy conspiracy of the

2078

01:22:44,810 --> 01:22:43,199

government or military maybe very very

2079

01:22:47,209 --> 01:22:44,820

minor few might have some very small

2080

01:22:48,950 --> 01:22:47,219

clue what goes on or privy to sightings

2081

01:22:50,149 --> 01:22:48,960

and different things and yeah some of it

2082

01:22:52,189 --> 01:22:50,159

is

2083

01:22:55,130 --> 01:22:52,199

strange some of it's freaking weird and

2084

01:22:57,470 --> 01:22:55,140

we've seen some of it but the problem is

2085

01:22:59,590 --> 01:22:57,480

a lot of it's classified now the issue

2086

01:23:02,149 --> 01:22:59,600

is with maelstrom

2087

01:23:04,310 --> 01:23:02,159

without me explaining and giving too

2088

01:23:07,250 --> 01:23:04,320

much of what of how the systems work

2089

01:23:10,550 --> 01:23:07,260

there because some of it is classified

2090

01:23:13,250 --> 01:23:10,560

for one Robert Salas was a miscellier

2091

01:23:15,110 --> 01:23:13,260

the thing is is that there is no missile

2092

01:23:16,850 --> 01:23:15,120

dudes at the silos they're at missile

2093

01:23:17,990 --> 01:23:16,860

alert facilities called Mass which some

2094

01:23:20,030 --> 01:23:18,000

of you are probably familiar with if

2095

01:23:22,850 --> 01:23:20,040

you've research this and they're

2096

01:23:24,890 --> 01:23:22,860

connected to multiple sites kilo Yankee

2097

01:23:26,750 --> 01:23:24,900

whisker one two three four five six

2098

01:23:28,630 --> 01:23:26,760

whatever they're all over miles from

2099

01:23:32,510 --> 01:23:28,640

there in Kansas Oklahoma everywhere

2100

01:23:35,750 --> 01:23:32,520

Dakota's Wyoming right now we have Effie

2101

01:23:38,330 --> 01:23:35,760

Warren Minot and Maelstrom uh for the

2102

01:23:40,490 --> 01:23:38,340

most part Stateside so and then you have

2103

01:23:42,890 --> 01:23:40,500

like Barksdale and some other things and

2104

01:23:44,149 --> 01:23:42,900

but that's that's a whole other topic uh

2105

01:23:45,350 --> 01:23:44,159

that has to do with Ravens and

2106

01:23:50,510 --> 01:23:45,360

transporting other stuff and whatever

2107

01:23:52,669 --> 01:23:50,520

but the thing is is that at maelstrom

2108

01:23:54,290 --> 01:23:52,679

when that system was taken offline

2109

01:23:56,390 --> 01:23:54,300

what's very strange is that's the only

2110

01:23:58,130 --> 01:23:56,400

time it really has ever happened where

2111

01:23:59,750 --> 01:23:58,140

they've all been screwed up now is there

2112

01:24:01,430 --> 01:23:59,760

maintenance is there things that go on

2113

01:24:03,229 --> 01:24:01,440

yeah it happens is that stuff classified

2114

01:24:04,669 --> 01:24:03,239

unfortunately yeah it is no one really

2115

01:24:07,130 --> 01:24:04,679

will be able to pull those reports how

2116

01:24:08,450 --> 01:24:07,140

that run report got out I have no clue

2117

01:24:09,649 --> 01:24:08,460

because typically those are not supposed

2118

01:24:10,910 --> 01:24:09,659

to get out I don't know the whole

2119

01:24:13,790 --> 01:24:10,920

history behind it

2120

01:24:16,070 --> 01:24:13,800

but the fact is is that it's an offline

2121

01:24:17,330 --> 01:24:16,080

system it's intranet it's closed I think

2122

01:24:18,950 --> 01:24:17,340

everyone kind of knows that it's all

2123

01:24:21,470 --> 01:24:18,960

underground how these things communicate

2124

01:24:22,850 --> 01:24:21,480

and if let's say there's nuclear war and

2125

01:24:25,610 --> 01:24:22,860

the whole government's taken out these

2126
01:24:28,010 --> 01:24:25,620
missiles can launch by themselves with

2127
01:24:30,110 --> 01:24:28,020
just the the people in the missile alert

2128
01:24:31,550 --> 01:24:30,120
facilities or the mass because if a new

2129
01:24:35,149 --> 01:24:31,560
Kit's a math

2130
01:24:36,910 --> 01:24:35,159
right directly hits it uh even with like

2131
01:24:39,830 --> 01:24:36,920
let's say a hydrogen bomb or something

2132
01:24:41,450 --> 01:24:39,840
the those two missile ears in that and

2133
01:24:43,189 --> 01:24:41,460
not in The Silo but the map facility

2134
01:24:45,169 --> 01:24:43,199
they're still safe they're still fine

2135
01:24:46,790 --> 01:24:45,179
they can live for you know however long

2136
01:24:48,649 --> 01:24:46,800
how many supplies and fuel the things

2137
01:24:50,930 --> 01:24:48,659
they have down there and the thing is

2138
01:24:53,750 --> 01:24:50,940

they have backup systems too I can't

2139

01:24:55,070 --> 01:24:53,760

talk about the methodology and the

2140

01:24:57,229 --> 01:24:55,080

technology and procedures they have for

2141

01:24:59,270 --> 01:24:57,239

that but they have backup systems they

2142

01:25:01,130 --> 01:24:59,280

have backup generators they have food

2143

01:25:03,649 --> 01:25:01,140

and water they have tons of stuff down

2144

01:25:06,530 --> 01:25:03,659

there besides it [h__h] smells and down

2145

01:25:09,350 --> 01:25:06,540

in those silos not in silos but in the

2146

01:25:12,410 --> 01:25:09,360

those command centers so Silas was not

2147

01:25:14,570 --> 01:25:12,420

there so the palace was do I understand

2148

01:25:16,850 --> 01:25:14,580

correctly um that you're uh you're

2149

01:25:18,229 --> 01:25:16,860

pointing out that uh Salas uh could have

2150

01:25:21,950 --> 01:25:18,239

just been mistaken because he wouldn't

2151
01:25:24,770 --> 01:25:21,960
have been directly well here's the thing

2152
01:25:26,810 --> 01:25:24,780
I can't talk about how he knows yeah I

2153
01:25:27,770 --> 01:25:26,820
can't discuss that but I'll tell you

2154
01:25:31,729 --> 01:25:27,780
that

2155
01:25:34,010 --> 01:25:31,739
he doesn't need to be there to know I

2156
01:25:37,070 --> 01:25:34,020
can't explain why or how methodology

2157
01:25:39,770 --> 01:25:37,080
technology whatever but he doesn't need

2158
01:25:42,890 --> 01:25:39,780
to physically be there to know what the

2159
01:25:44,750 --> 01:25:42,900
heck is going on now again I can't

2160
01:25:46,850 --> 01:25:44,760
discuss it that's an NDA thing I can't

2161
01:25:49,010 --> 01:25:46,860
break that but

2162
01:25:51,350 --> 01:25:49,020
you don't need to you don't need to know

2163
01:25:53,209 --> 01:25:51,360

even back in when I was serving they

2164

01:25:55,790 --> 01:25:53,219

don't need to be there we don't need to

2165

01:25:57,290 --> 01:25:55,800

be there there's tons of sensors all

2166

01:26:00,169 --> 01:25:57,300

over there but the thing is they're all

2167

01:26:02,030 --> 01:26:00,179

classified and they're the government

2168

01:26:03,830 --> 01:26:02,040

has some pretty advanced stuff when it

2169

01:26:06,050 --> 01:26:03,840

comes to these kind of sensors and this

2170

01:26:09,290 --> 01:26:06,060

data on these missile sites

2171

01:26:11,030 --> 01:26:09,300

so that's one thing is that it doesn't

2172

01:26:14,330 --> 01:26:11,040

necessarily have to be there they get

2173

01:26:16,310 --> 01:26:14,340

sensor data and the data can be seismic

2174

01:26:18,169 --> 01:26:16,320

it can be sound it can be all sorts of

2175

01:26:19,430 --> 01:26:18,179

infrared it can be all sorts of stuff

2176
01:26:22,129 --> 01:26:19,440
they have there and they have sensors

2177
01:26:23,330 --> 01:26:22,139
they're going back to the 50s 60s 70s

2178
01:26:25,010 --> 01:26:23,340
when they started making these things

2179
01:26:28,669 --> 01:26:25,020
and they still have them and they get

2180
01:26:30,470 --> 01:26:28,679
more advanced as time goes on so yeah he

2181
01:26:31,790 --> 01:26:30,480
doesn't necessarily need to be there um

2182
01:26:32,930 --> 01:26:31,800
it doesn't have to be Vision it can be

2183
01:26:34,970 --> 01:26:32,940
all sorts of things that they can pick

2184
01:26:37,610 --> 01:26:34,980
up and they can tell the difference if

2185
01:26:39,470 --> 01:26:37,620
there's like somebody walking via some

2186
01:26:42,950 --> 01:26:39,480
rabbit via swind or whatever they can

2187
01:26:46,129 --> 01:26:42,960
pick up all that stuff now for let's say

2188
01:26:47,629 --> 01:26:46,139

the um the the security forces or

2189

01:26:50,209 --> 01:26:47,639

security police are out there so

2190

01:26:52,970 --> 01:26:50,219

Security Police generally were the ones

2191

01:26:55,070 --> 01:26:52,980

that were out near the bases security

2192

01:26:56,750 --> 01:26:55,080

forces were the ones that were out in

2193

01:26:58,310 --> 01:26:56,760

the missile Fields now they combined it

2194

01:26:59,750 --> 01:26:58,320

and now it's Security Forces I think

2195

01:27:02,030 --> 01:26:59,760

that was around the 1990s they combined

2196

01:27:03,590 --> 01:27:02,040

the afsc or called Air Force specialty

2197

01:27:06,410 --> 01:27:03,600

code uh but there used to be two

2198

01:27:08,330 --> 01:27:06,420

different career Fields so the security

2199

01:27:10,370 --> 01:27:08,340

forces guys that went out there I

2200

01:27:12,229 --> 01:27:10,380

believe I don't know if it was a fire

2201

01:27:14,629 --> 01:27:12,239

team or if it was a Sentry team that

2202

01:27:17,510 --> 01:27:14,639

went out if it was Patrol a maintenance

2203

01:27:18,709 --> 01:27:17,520

I know it was at night so I imagine it

2204

01:27:20,209 --> 01:27:18,719

was not a maintenance team because

2205

01:27:21,350 --> 01:27:20,219

there's no red horse Engineers that went

2206

01:27:23,030 --> 01:27:21,360

out there

2207

01:27:25,430 --> 01:27:23,040

um so I imagine it was a century that

2208

01:27:28,790 --> 01:27:25,440

was going out that we check station at

2209

01:27:30,290 --> 01:27:28,800

the site uh whatever so the thing is

2210

01:27:32,870 --> 01:27:30,300

that this is completely an offline

2211

01:27:34,129 --> 01:27:32,880

intranet system and they have backup

2212

01:27:35,750 --> 01:27:34,139

ways of basically how they can

2213

01:27:37,790 --> 01:27:35,760

communicate if one ends up going down

2214

01:27:39,830 --> 01:27:37,800

they don't just have one line and it

2215

01:27:42,050 --> 01:27:39,840

breaks and you can't and the thing is is

2216

01:27:45,050 --> 01:27:42,060

that you can't just run and manage all

2217

01:27:47,629 --> 01:27:45,060

the sites just from one Silo they have

2218

01:27:49,250 --> 01:27:47,639

security apparatuses around that where

2219

01:27:52,490 --> 01:27:49,260

they can't they can't [h__h] with that

2220

01:27:55,490 --> 01:27:52,500

it's impossible so the fact is that

2221

01:27:56,570 --> 01:27:55,500

it's very strange out of even if a UFO

2222

01:28:00,410 --> 01:27:56,580

was there

2223

01:28:03,590 --> 01:28:00,420

and screwed with that one specific silo

2224

01:28:06,530 --> 01:28:03,600

you can't necessarily break all the

2225

01:28:08,689 --> 01:28:06,540

others or break the missile alert

2226

01:28:10,790 --> 01:28:08,699

facility that is not a hundred yards or

2227

01:28:13,729 --> 01:28:10,800

300 yards or one or two three miles

2228

01:28:16,870 --> 01:28:13,739

you're talking about 50 to 100 miles

2229

01:28:20,270 --> 01:28:16,880

sometimes away from some of the farthest

2230

01:28:21,530 --> 01:28:20,280

uh silos from math facilities and I

2231

01:28:23,629 --> 01:28:21,540

don't know the exact distance with

2232

01:28:24,890 --> 01:28:23,639

theirs because they they've changed and

2233

01:28:26,870 --> 01:28:24,900

they've been building more and different

2234

01:28:28,729 --> 01:28:26,880

things over the years and closing them

2235

01:28:31,490 --> 01:28:28,739

down so I'm not exactly sure of like the

2236

01:28:34,250 --> 01:28:31,500

geography on them but you're talking

2237

01:28:36,229 --> 01:28:34,260

about if that is the case shutting down

2238

01:28:39,530 --> 01:28:36,239

and screwing with

2239

01:28:42,110 --> 01:28:39,540

a math facility Command Center

2240

01:28:44,930 --> 01:28:42,120

and a bunch of other silos Network to

2241

01:28:48,649 --> 01:28:44,940

that and you are anywhere from possibly

2242

01:28:50,390 --> 01:28:48,659

20 to maybe a hundred miles away and

2243

01:28:53,270 --> 01:28:50,400

these silos are all could be anywhere

2244

01:28:55,550 --> 01:28:53,280

from 10 to maybe 100 miles away from

2245

01:28:58,330 --> 01:28:55,560

each other so and they all got shut down

2246

01:29:00,950 --> 01:28:58,340

at the same time and the thing is that

2247

01:29:03,350 --> 01:29:00,960

the tech when they installed it and all

2248

01:29:05,030 --> 01:29:03,360

the stuff back in the 50s and 60s that

2249

01:29:07,490 --> 01:29:05,040

was about as Cutting Edge as you could

2250

01:29:10,189 --> 01:29:07,500

possibly freaking get the missiles have

2251
01:29:12,110 --> 01:29:10,199
been breaking like crazy and had massive

2252
01:29:14,990 --> 01:29:12,120
maintenance issues starting in like

2253
01:29:17,629 --> 01:29:15,000
later on after they were at 20 30 40

2254
01:29:20,450 --> 01:29:17,639
year shelf life so in the 80s 90s and

2255
01:29:22,550 --> 01:29:20,460
2000s they had the they were trying to

2256
01:29:24,290 --> 01:29:22,560
modernize the technology in advance that

2257
01:29:26,270 --> 01:29:24,300
like you've spent how many billions of

2258
01:29:28,850 --> 01:29:26,280
dollars recently to try to upgrade it

2259
01:29:31,729 --> 01:29:28,860
because it was too old back in the 50s

2260
01:29:33,350 --> 01:29:31,739
and 60s it was absolute Cutting Edge so

2261
01:29:35,270 --> 01:29:33,360
it was completely bizarre that this

2262
01:29:36,950 --> 01:29:35,280
whole system completely broke and failed

2263
01:29:39,110 --> 01:29:36,960

all of a sudden and that stuff was

2264

01:29:41,330 --> 01:29:39,120

literally brand new well that's again

2265

01:29:43,010 --> 01:29:41,340

even weird part about it let's dig into

2266

01:29:44,270 --> 01:29:43,020

that none of it make just none of it

2267

01:29:45,470 --> 01:29:44,280

makes sense at all it just isn't

2268

01:29:49,189 --> 01:29:45,480

something this is not supposed to happen

2269

01:29:51,830 --> 01:29:49,199

well I was uh pointing out okay so I'll

2270

01:29:54,530 --> 01:29:51,840

I would Grant uh Robert Salas something

2271

01:29:56,450 --> 01:29:54,540

happened the nukes got shut down and he

2272

01:29:58,550 --> 01:29:56,460

got the radio call from the security

2273

01:30:00,290 --> 01:29:58,560

team saying if he was crazy he would

2274

01:30:03,290 --> 01:30:00,300

have lost his clearance they don't mess

2275

01:30:06,590 --> 01:30:03,300

around with PRP and clearance tsscially

2276

01:30:08,450 --> 01:30:06,600

he would have lost his plan but let's uh

2277

01:30:11,149 --> 01:30:08,460

let's just look at the the pure

2278

01:30:13,669 --> 01:30:11,159

observations like Okay so let's say all

2279

01:30:16,070 --> 01:30:13,679

of the observations were correct and

2280

01:30:20,030 --> 01:30:16,080

I'll Grant him that fully when we move

2281

01:30:22,669 --> 01:30:20,040

into interpretation it was a UFO that's

2282

01:30:25,490 --> 01:30:22,679

quite a claim and I'm not opposed to uh

2283

01:30:27,709 --> 01:30:25,500

that possibility but because of

2284

01:30:30,470 --> 01:30:27,719

documents that stylist himself foiled

2285

01:30:33,169 --> 01:30:30,480

about the subject in addition to the son

2286

01:30:35,149 --> 01:30:33,179

of the commander he was uh reporting to

2287

01:30:36,890 --> 01:30:35,159

at the time who was very uh fixated on

2288

01:30:38,570 --> 01:30:36,900

this case because of the allegations

2289

01:30:39,890 --> 01:30:38,580

around his father in relation to it

2290

01:30:43,010 --> 01:30:39,900

James

2291

01:30:45,950 --> 01:30:43,020

look thank you yeah we have uh evidence

2292

01:30:47,990 --> 01:30:45,960

that there was taken seriously by the

2293

01:30:49,729 --> 01:30:48,000

government they did investigate it they

2294

01:30:51,649 --> 01:30:49,739

did uh identify the issues and

2295

01:30:53,990 --> 01:30:51,659

electromatic magnetic uh feedback

2296

01:30:56,209 --> 01:30:54,000

problem and then they they claim they

2297

01:30:59,090 --> 01:30:56,219

solved it uh that a particular issue and

2298

01:31:00,770 --> 01:30:59,100

now we know that uh radio uh

2299

01:31:02,870 --> 01:31:00,780

Transmissions aren't allowed in nuclear

2300

01:31:04,370 --> 01:31:02,880

missile silos anymore because they can

2301
01:31:05,810 --> 01:31:04,380
create these strange effects where

2302
01:31:08,629 --> 01:31:05,820
sometimes the signal can bounce around

2303
01:31:10,330 --> 01:31:08,639
and get all spun up and interfere with

2304
01:31:12,229 --> 01:31:10,340
things so they use infrasound

2305
01:31:14,030 --> 01:31:12,239
Transmissions so that there is an

2306
01:31:16,550 --> 01:31:14,040
electromagnetic interference possibility

2307
01:31:18,350 --> 01:31:16,560
anymore so with all of those things in

2308
01:31:20,330 --> 01:31:18,360
place so if that doesn't that that

2309
01:31:22,430 --> 01:31:20,340
doesn't make any sense because if he's

2310
01:31:24,530 --> 01:31:22,440
talking about the site the security

2311
01:31:26,750 --> 01:31:24,540
police and it wasn't just one or two it

2312
01:31:29,030 --> 01:31:26,760
was several of them we aren't making

2313
01:31:30,410 --> 01:31:29,040

sense no you're not you're not making

2314

01:31:32,990 --> 01:31:30,420

sense because you think all this

2315

01:31:35,870 --> 01:31:33,000

happened at The Silo and I'm telling you

2316

01:31:36,830 --> 01:31:35,880

that it doesn't work all right I I don't

2317

01:31:38,930 --> 01:31:36,840

like that

2318

01:31:41,390 --> 01:31:38,940

um we're just gonna pause that there I

2319

01:31:43,490 --> 01:31:41,400

think that it's important in having

2320

01:31:46,129 --> 01:31:43,500

these conversations that we approach

2321

01:31:49,790 --> 01:31:46,139

them with the perspective that we're

2322

01:31:51,890 --> 01:31:49,800

trying to engage in good faith and

2323

01:31:54,709 --> 01:31:51,900

I you know I would be very happy to

2324

01:31:58,129 --> 01:31:54,719

continue that except uh for the fact

2325

01:32:00,169 --> 01:31:58,139

that uh we don't have a mutual respect

2326

01:32:01,430 --> 01:32:00,179

right now and maybe we can return to it

2327

01:32:04,729 --> 01:32:01,440

but I don't think that that was a good

2328

01:32:06,709 --> 01:32:04,739

way to continue that that I'll just say

2329

01:32:09,890 --> 01:32:06,719

that the thing about the Maelstrom

2330

01:32:12,410 --> 01:32:09,900

incident is that it's really

2331

01:32:14,390 --> 01:32:12,420

two separate things two separate stories

2332

01:32:15,709 --> 01:32:14,400

that people kind of just like combine

2333

01:32:17,750 --> 01:32:15,719

together and think it's the same thing

2334

01:32:19,790 --> 01:32:17,760

there is no doubt there was an echo

2335

01:32:22,070 --> 01:32:19,800

fight shutdown that shut down 10 or so

2336

01:32:24,290 --> 01:32:22,080

whatever missiles like that's in the

2337

01:32:26,990 --> 01:32:24,300

records that's in the the sac Base

2338

01:32:29,510 --> 01:32:27,000

history records and

2339

01:32:31,610 --> 01:32:29,520

salus initially thought he was part of

2340

01:32:33,530 --> 01:32:31,620

that shutdown then he found out he

2341

01:32:34,910 --> 01:32:33,540

wasn't actually working that time and he

2342

01:32:36,890 --> 01:32:34,920

wasn't at that place and he had to

2343

01:32:39,229 --> 01:32:36,900

revise his story and we revised it that

2344

01:32:41,390 --> 01:32:39,239

he was at November flight instead of uh

2345

01:32:43,910 --> 01:32:41,400

Echo flight and then it became Oscar

2346

01:32:46,189 --> 01:32:43,920

flight and so there's the shutdown we

2347

01:32:48,169 --> 01:32:46,199

know happened and then there's Robert

2348

01:32:50,209 --> 01:32:48,179

salas's claimed event that allegedly it

2349

01:32:51,770 --> 01:32:50,219

happened two weeks later because he had

2350

01:32:54,110 --> 01:32:51,780

to change the date because he found out

2351

01:32:55,910 --> 01:32:54,120

he wasn't part of the echo flight which

2352

01:32:57,470 --> 01:32:55,920

is what which is what all the records

2353

01:32:59,090 --> 01:32:57,480

are from all the records are from Echo

2354

01:33:01,610 --> 01:32:59,100

fight that didn't have anything to do

2355

01:33:04,129 --> 01:33:01,620

with Solace Solace claims it happened a

2356

01:33:05,450 --> 01:33:04,139

second time like two weeks later at

2357

01:33:07,550 --> 01:33:05,460

Oscar flight

2358

01:33:08,930 --> 01:33:07,560

and so it's a completely separate story

2359

01:33:10,669 --> 01:33:08,940

I don't think anybody's debating that

2360

01:33:12,350 --> 01:33:10,679

something happened at Echo flight

2361

01:33:15,350 --> 01:33:12,360

whether that had anything to do with

2362

01:33:17,570 --> 01:33:15,360

UFOs if you look at Tim Hebert's site

2363

01:33:19,550 --> 01:33:17,580

you'll you'll see that again he was a

2364

01:33:22,490 --> 01:33:19,560

Sac missile Commander at Malmstrom in

2365

01:33:24,169 --> 01:33:22,500

the early 70s that it was actually that

2366

01:33:26,209 --> 01:33:24,179

the security people used to joke about

2367

01:33:28,430 --> 01:33:26,219

UFO sightings all the time and he said

2368

01:33:30,110 --> 01:33:28,440

particularly in the 60s that used to be

2369

01:33:33,169 --> 01:33:30,120

an ongoing joke between the security

2370

01:33:35,390 --> 01:33:33,179

personnel and whatnot on those Sac bases

2371

01:33:38,510 --> 01:33:35,400

that they would joke about UFOs flying

2372

01:33:41,890 --> 01:33:38,520

around everywhere and it was a joke and

2373

01:33:44,570 --> 01:33:41,900

again and then to make it for to make

2374

01:33:47,090 --> 01:33:44,580

solace's case a UFO case they bring up

2375

01:33:49,010 --> 01:33:47,100

things like in Belt Montana you know 50

2376

01:33:52,010 --> 01:33:49,020

or however many miles that way somebody

2377

01:33:55,189 --> 01:33:52,020

saw a UFO that week or that some other

2378

01:33:56,629 --> 01:33:55,199

guy uh you know dis and saw a UFO and

2379

01:34:01,250 --> 01:33:56,639

they try and take the fact that somebody

2380

01:34:02,689 --> 01:34:01,260

saw a UFO nearby with some shutdown that

2381

01:34:04,370 --> 01:34:02,699

must mean the UFO has something to do

2382

01:34:05,990 --> 01:34:04,380

with the shutdown and there's just no

2383

01:34:08,209 --> 01:34:06,000

evidence tie those two two things

2384

01:34:10,610 --> 01:34:08,219

together we know there's a shutdown we

2385

01:34:12,470 --> 01:34:10,620

don't know Solace had anything to do

2386

01:34:14,330 --> 01:34:12,480

with the shutdown and if they mentioned

2387

01:34:15,649 --> 01:34:14,340

an Oscar if they mentioned an echo fight

2388

01:34:17,270 --> 01:34:15,659

shut down in the records why wouldn't

2389

01:34:20,229 --> 01:34:17,280

they mention Oscar that happened two

2390

01:34:24,709 --> 01:34:23,030

so songs in the comments and yeah it was

2391

01:34:27,229 --> 01:34:24,719

it was getting a little heated

2392

01:34:29,570 --> 01:34:27,239

um a

2393

01:34:32,330 --> 01:34:29,580

I do think it's important to keep in

2394

01:34:34,070 --> 01:34:32,340

mind we all want to discuss and talk

2395

01:34:36,110 --> 01:34:34,080

about these subjects

2396

01:34:38,510 --> 01:34:36,120

um but he is saying that it didn't

2397

01:34:40,370 --> 01:34:38,520

happen at The Silo that's that's sort of

2398

01:34:42,350 --> 01:34:40,380

what the point he seems to keep harping

2399

01:34:44,629 --> 01:34:42,360

on is that basically the geography here

2400

01:34:47,030 --> 01:34:44,639

is incorrect like what's being discussed

2401

01:34:50,209 --> 01:34:47,040

around the geography is wrong

2402

01:34:51,950 --> 01:34:50,219

I'd be I like I don't I didn't uh ban

2403

01:34:53,709 --> 01:34:51,960

him he's saying oh yeah he's not banned

2404

01:34:56,270 --> 01:34:53,719

you can jump back on the stream if yeah

2405

01:34:58,669 --> 01:34:56,280

like yeah your mother doesn't rejoin

2406

01:34:59,330 --> 01:34:58,679

yeah yeah please share it

2407

01:35:01,910 --> 01:34:59,340

um

2408

01:35:02,930 --> 01:35:01,920

but yeah you just got muted because

2409

01:35:05,270 --> 01:35:02,940

um

2410

01:35:07,490 --> 01:35:05,280

we can't be just uh accusing each other

2411

01:35:09,890 --> 01:35:07,500

and not making sense not making sense or

2412

01:35:13,310 --> 01:35:09,900

whatever like this is all good faith

2413

01:35:14,570 --> 01:35:13,320

um and I think also too and this is one

2414

01:35:16,310 --> 01:35:14,580

of those things me and my brother used

2415

01:35:18,050 --> 01:35:16,320

to fight growing up I always used to so

2416

01:35:19,550 --> 01:35:18,060

he's used to piss me off it kind of

2417

01:35:21,290 --> 01:35:19,560

still does as an adult but like let's

2418

01:35:23,570 --> 01:35:21,300

also we should be able to agree to

2419

01:35:25,669 --> 01:35:23,580

disagree on some stuff right like this

2420

01:35:27,890 --> 01:35:25,679

is not the cure for cancer

2421

01:35:28,850 --> 01:35:27,900

um so yeah so let's let's bring song

2422

01:35:31,910 --> 01:35:28,860

back on

2423

01:35:34,189 --> 01:35:31,920

um dude go ahead and uh let's let's just

2424

01:35:36,050 --> 01:35:34,199

keep it up for a while yeah yeah if you

2425

01:35:37,490 --> 01:35:36,060

guys boot me off and remove me when I'm

2426

01:35:38,930 --> 01:35:37,500

trying to State actual facts and

2427

01:35:40,970 --> 01:35:38,940

information I'm not going to come back

2428

01:35:42,590 --> 01:35:40,980

on I'm trying to do some kind of

2429

01:35:43,729 --> 01:35:42,600

disclosure and information but if you

2430

01:35:45,590 --> 01:35:43,739

guys want to

2431

01:35:47,090 --> 01:35:45,600

run your little show in your bubble you

2432

01:35:48,770 --> 01:35:47,100

can do that but I'm giving you real

2433

01:35:50,570 --> 01:35:48,780

information about how some of this works

2434

01:35:52,490 --> 01:35:50,580

without breaking my NDA you can take

2435

01:35:54,050 --> 01:35:52,500

that with a grain of salt but I'm

2436

01:35:56,990 --> 01:35:54,060

telling you the geography of how you're

2437

01:35:58,370 --> 01:35:57,000

explaining it is not correct because

2438

01:35:59,510 --> 01:35:58,380

I've worked in the field and I

2439

01:36:01,729 --> 01:35:59,520

understand how this works and this is

2440

01:36:03,530 --> 01:36:01,739

not skepticism it's not UAP it's tin

2441

01:36:05,450 --> 01:36:03,540

foil hat this is just stuff that's even

2442

01:36:06,770 --> 01:36:05,460

Declassified but unless you've worked in

2443

01:36:10,450 --> 01:36:06,780

the field researched and looked on

2444

01:36:15,229 --> 01:36:13,129

how you're explaining it is not correct

2445

01:36:17,270 --> 01:36:15,239

on the geography and the locations and

2446

01:36:22,689 --> 01:36:17,280

how this stuff works and it's not

2447

01:36:27,530 --> 01:36:24,950

we also do have other people waiting to

2448

01:36:29,149 --> 01:36:27,540

get on the stream so no you did you said

2449

01:36:30,350 --> 01:36:29,159

you know how you were explaining it

2450

01:36:31,910 --> 01:36:30,360

wasn't correct and I was trying to

2451

01:36:34,010 --> 01:36:31,920

correct you guys so it's accurate

2452

01:36:36,050 --> 01:36:34,020

because you're researchers so I'm trying

2453

01:36:37,610 --> 01:36:36,060

to give the real world first first

2454

01:36:39,890 --> 01:36:37,620

person information about and you can

2455

01:36:43,910 --> 01:36:39,900

even research it but it's hard to find

2456

01:36:45,770 --> 01:36:43,920

this info if right so we

2457

01:36:48,410 --> 01:36:45,780

took it on the stream we'd love to hear

2458

01:36:50,090 --> 01:36:48,420

you basically summarize or provide some

2459

01:36:51,649 --> 01:36:50,100

scaffolding here

2460

01:36:55,070 --> 01:36:51,659

um and that's what I was trying to do

2461

01:36:56,510 --> 01:36:55,080

simply wrap up so go ahead that's what I

2462

01:36:58,790 --> 01:36:56,520

was trying to do if you don't kick me

2463

01:37:00,950 --> 01:36:58,800

off while I'm explaining so the thing is

2464

01:37:02,270 --> 01:37:00,960

is that these are closed intranet

2465

01:37:04,129 --> 01:37:02,280

systems if you'll listen without

2466

01:37:06,649 --> 01:37:04,139

smirking or laughing at me thinking I'm

2467

01:37:07,910 --> 01:37:06,659

just trying to argue I'm giving yourself

2468

01:37:09,890 --> 01:37:07,920

saying that's what you're trying to do

2469

01:37:11,209 --> 01:37:09,900

four times but you told me but tell me

2470

01:37:14,870 --> 01:37:11,219

what's going on

2471

01:37:16,669 --> 01:37:14,880

you were saying is that at the silos at

2472

01:37:18,290 --> 01:37:16,679

the missiles it was shut down and

2473

01:37:20,990 --> 01:37:18,300

because of

2474

01:37:23,450 --> 01:37:21,000

um electromagicism and the logic boards

2475

01:37:26,629 --> 01:37:23,460

got fried and all that at kilo whatever

2476

01:37:28,310 --> 01:37:26,639

at this flight and you're you're mixing

2477

01:37:32,270 --> 01:37:28,320

this you're fixing flights and you're

2478

01:37:34,310 --> 01:37:32,280

mixing uh Silo sights up you're mixing a

2479

01:37:36,770 --> 01:37:34,320

math facility sites up you're mixing

2480

01:37:38,090 --> 01:37:36,780

them up on the names and classifications

2481

01:37:39,830 --> 01:37:38,100

because a lot of people don't understand

2482

01:37:41,090 --> 01:37:39,840

intricately how this works and it's

2483

01:37:42,950 --> 01:37:41,100

really confusing unless you haven't

2484

01:37:45,410 --> 01:37:42,960

worked in the field so let me explain

2485

01:37:46,910 --> 01:37:45,420

let me explain is that their missile

2486

01:37:49,550 --> 01:37:46,920

alert facilities and the audience gets

2487

01:37:51,110 --> 01:37:49,560

it too the the missile ear dudes and

2488

01:37:54,229 --> 01:37:51,120

Robert Salas was never physically there

2489

01:37:56,209 --> 01:37:54,239

miscellir guys don't go to silos because

2490

01:37:59,870 --> 01:37:56,219

they it's all segmented called special

2491

01:38:02,209 --> 01:37:59,880

compartment enough information SCI so

2492

01:38:03,770 --> 01:38:02,219

Security Guys only know their thing red

2493

01:38:05,570 --> 01:38:03,780

horse Engineers only know theirs

2494

01:38:07,430 --> 01:38:05,580

miscelliers only know theirs and we only

2495

01:38:08,930 --> 01:38:07,440

go to specific locations to our duties

2496

01:38:10,850 --> 01:38:08,940

and nobody has a clue anybody else does

2497

01:38:13,910 --> 01:38:10,860

unless the CEO knows that's for the

2498

01:38:17,090 --> 01:38:13,920

Squadron Commander now with that known

2499

01:38:18,950 --> 01:38:17,100

he doesn't go to the silos but he has

2500

01:38:21,770 --> 01:38:18,960

abilities to know what goes on and they

2501

01:38:23,090 --> 01:38:21,780

can't discuss the methodology or the

2502

01:38:25,850 --> 01:38:23,100

technology that they use there because

2503

01:38:29,090 --> 01:38:25,860

that's classified still but the thing is

2504

01:38:31,370 --> 01:38:29,100

is that there were multiple not one or

2505

01:38:32,169 --> 01:38:31,380

two there were multiple Witnesses and

2506

01:38:34,610 --> 01:38:32,179

the thing is you have to understand

2507

01:38:36,169 --> 01:38:34,620

nobody lost their security clearance now

2508

01:38:38,689 --> 01:38:36,179

if they reported this kind of crap in

2509

01:38:40,430 --> 01:38:38,699

the 50s 60s you usually they would have

2510

01:38:42,229 --> 01:38:40,440

gone straight to a shrink straight to a

2511

01:38:44,149 --> 01:38:42,239

doctor and

2512

01:38:46,610 --> 01:38:44,159

if they had no evidence it was something

2513

01:38:47,870 --> 01:38:46,620

High strangeness anomaly I guarantee

2514

01:38:49,129 --> 01:38:47,880

they would have been kicked out they

2515

01:38:50,570 --> 01:38:49,139

would have lost their clearance and this

2516

01:38:53,510 --> 01:38:50,580

happens more than you even know it's

2517

01:38:54,950 --> 01:38:53,520

just not publicized now with the weird

2518

01:38:56,689 --> 01:38:54,960

Maelstrom incident

2519

01:38:58,729 --> 01:38:56,699

it's an intranet closed system and

2520

01:39:01,310 --> 01:38:58,739

please don't interrupt me about that you

2521

01:39:03,350 --> 01:39:01,320

can't shut off all those missiles from

2522

01:39:05,510 --> 01:39:03,360

that UFO from that location which is

2523

01:39:07,669 --> 01:39:05,520

just weird it was brand new technology

2524

01:39:09,110 --> 01:39:07,679

that was very Advanced they didn't these

2525

01:39:11,750 --> 01:39:09,120

things did not start breaking having

2526

01:39:13,430 --> 01:39:11,760

maintenance issues till about 20 30 40

2527

01:39:15,709 --> 01:39:13,440

years later after they won the ball

2528

01:39:18,770 --> 01:39:15,719

that's completely incorrect we've spent

2529

01:39:20,870 --> 01:39:18,780

almost 20 minutes on this so can you

2530

01:39:22,550 --> 01:39:20,880

please please provide a like a 30 second

2531

01:39:25,189 --> 01:39:22,560

summary for

2532

01:39:26,450 --> 01:39:25,199

me if Yvonne to joiners

2533

01:39:28,850 --> 01:39:26,460

the

2534

01:39:30,530 --> 01:39:28,860

if you want to think about an answer to

2535

01:39:31,910 --> 01:39:30,540

be skeptical to prove your guy's point

2536

01:39:34,189 --> 01:39:31,920

and that's all you want for 30 seconds

2537

01:39:35,750 --> 01:39:34,199

it doesn't work that way because most of

2538

01:39:37,729 --> 01:39:35,760

the stuff you've been discussing in

2539

01:39:40,010 --> 01:39:37,739

layman terms about how actually this

2540

01:39:41,810 --> 01:39:40,020

works at missile alert facilities the

2541

01:39:44,330 --> 01:39:41,820

silos how miscelliers work security

2542

01:39:45,950 --> 01:39:44,340

afford to squats Engineers you're not

2543

01:39:48,290 --> 01:39:45,960

correct about any of it and you're

2544

01:39:51,590 --> 01:39:48,300

mixing up kilos and flights and Sierra

2545

01:39:53,270 --> 01:39:51,600

and whiskey it doesn't work that way

2546

01:39:55,010 --> 01:39:53,280

because they have different numbers and

2547

01:39:58,390 --> 01:39:55,020

classifications and they alternate and

2548

01:40:02,750 --> 01:40:01,070

you a summary a statement that you're

2549

01:40:04,610 --> 01:40:02,760

just hit your point of contention is

2550

01:40:06,470 --> 01:40:04,620

that you don't believe that accurate

2551
01:40:08,149 --> 01:40:06,480
information is currently being discussed

2552
01:40:10,070 --> 01:40:08,159
around the Maelstrom incident is that

2553
01:40:12,110 --> 01:40:10,080
correct about half the information

2554
01:40:14,209 --> 01:40:12,120
you're discussing when it comes to this

2555
01:40:15,169 --> 01:40:14,219
the specific details of how this stuff

2556
01:40:17,750 --> 01:40:15,179
actually works that's already

2557
01:40:20,030 --> 01:40:17,760
Declassified unless you've worked in the

2558
01:40:22,490 --> 01:40:20,040
field unless you've talked to actual

2559
01:40:24,850 --> 01:40:22,500
miscelliers that are retired you talk to

2560
01:40:26,810 --> 01:40:24,860
Red Horse Engineers

2561
01:40:28,689 --> 01:40:26,820
you're not going to get the correct

2562
01:40:31,189 --> 01:40:28,699
Industries I'm

2563
01:40:32,510 --> 01:40:31,199

all right let's look dude thanks so much

2564

01:40:34,990 --> 01:40:32,520

for joining what you were explaining

2565

01:40:37,370 --> 01:40:35,000

about the silos and

2566

01:40:39,110 --> 01:40:37,380

all right all right so

2567

01:40:40,550 --> 01:40:39,120

um yeah that went about five times as

2568

01:40:43,070 --> 01:40:40,560

long as it needed to

2569

01:40:45,350 --> 01:40:43,080

um brevity is the soul of wit and uh the

2570

01:40:48,169 --> 01:40:45,360

soul of good storytelling so all that

2571

01:40:51,229 --> 01:40:48,179

said let's get to lisma on the stream

2572

01:40:53,149 --> 01:40:51,239

um I have them waiting backstage

2573

01:40:54,410 --> 01:40:53,159

hey what's going on welcome to Invisible

2574

01:40:57,350 --> 01:40:54,420

night school

2575

01:41:01,310 --> 01:40:57,360

hi can y'all hear me we can how are you

2576

01:41:04,010 --> 01:41:01,320

I'm doing well it's a wonderful show and

2577

01:41:06,470 --> 01:41:04,020

I just really wanted to say just like I

2578

01:41:09,530 --> 01:41:06,480

think this is definitely one of the best

2579

01:41:11,390 --> 01:41:09,540

episodes so far

2580

01:41:13,970 --> 01:41:11,400

but you're watching us go through our

2581

01:41:17,450 --> 01:41:13,980

Growing Pains of having to contend with

2582

01:41:19,070 --> 01:41:17,460

um Lively audience members yeah and

2583

01:41:21,110 --> 01:41:19,080

that's good because that means that it

2584

01:41:22,490 --> 01:41:21,120

it's only bound to get better my

2585

01:41:29,360 --> 01:41:22,500

favorite episode is somewhere in the

2586

01:41:33,590 --> 01:41:31,129

[Music]

2587

01:41:35,750 --> 01:41:33,600

uh I don't know if you know them but I

2588

01:41:38,629 --> 01:41:35,760

know I know that you're into John hoops

2589

01:41:40,310 --> 01:41:38,639

and Jason colabito

2590

01:41:44,390 --> 01:41:40,320

um and I was wondering if you could talk

2591

01:41:46,910 --> 01:41:44,400

about like uh race and decolonization in

2592

01:41:49,790 --> 01:41:46,920

the context of things like like ufology

2593

01:41:52,729 --> 01:41:49,800

like oh I I am [h__h] here for this

2594

01:41:55,850 --> 01:41:52,739

question come on Jeff like what just you

2595

01:42:01,430 --> 01:41:57,770

um I mean I don't know so much about

2596

01:42:03,530 --> 01:42:01,440

about ufology but particularly when you

2597

01:42:05,390 --> 01:42:03,540

get into things like Ancient Aliens

2598

01:42:08,030 --> 01:42:05,400

claims when people try and bring ufology

2599

01:42:10,990 --> 01:42:08,040

back to like the ancient days and you

2600

01:42:13,129 --> 01:42:11,000

start basically

2601
01:42:15,350 --> 01:42:13,139
dismissing the accomplishments of

2602
01:42:17,270 --> 01:42:15,360
indigenous peoples and groups and

2603
01:42:20,930 --> 01:42:17,280
pretending like it either had to be some

2604
01:42:23,510 --> 01:42:20,940
Advanced Lost Civilization or aliens or

2605
01:42:25,669 --> 01:42:23,520
I think that's extremely problematic and

2606
01:42:28,910 --> 01:42:25,679
that that comes up and the thing is is

2607
01:42:31,490 --> 01:42:28,920
there's a big mix between ufology and

2608
01:42:34,430 --> 01:42:31,500
pseudo-archeology and Ancient Aliens

2609
01:42:35,750 --> 01:42:34,440
like this stuff overlaps like big time

2610
01:42:38,149 --> 01:42:35,760
and that's why you see people like Jason

2611
01:42:39,950 --> 01:42:38,159
colavita like talking about all these

2612
01:42:42,050 --> 01:42:39,960
different kind of topics and the stuff

2613
01:42:44,209 --> 01:42:42,060

that all interests me very you know I

2614

01:42:47,090 --> 01:42:44,219

have a lot of interest as well

2615

01:42:49,729 --> 01:42:47,100

um it's it's uh

2616

01:42:51,950 --> 01:42:49,739

there are some actually good papers

2617

01:42:54,050 --> 01:42:51,960

there's a guy named Ryan Cook that's an

2618

01:42:56,810 --> 01:42:54,060

anthropologist that addresses the issue

2619

01:42:59,030 --> 01:42:56,820

of race and ufology

2620

01:43:01,550 --> 01:42:59,040

um I will try and post a link to that

2621

01:43:03,229 --> 01:43:01,560

paper after the show

2622

01:43:05,570 --> 01:43:03,239

um but

2623

01:43:09,109 --> 01:43:05,580

yeah it's it's uh

2624

01:43:12,890 --> 01:43:09,119

the problem is people want mystery they

2625

01:43:16,129 --> 01:43:12,900

want something you know truly remarkable

2626

01:43:18,290 --> 01:43:16,139

and anomalous and when sometimes you

2627

01:43:21,470 --> 01:43:18,300

know there's just explanations when it

2628

01:43:23,270 --> 01:43:21,480

comes to things like pyramids mouths you

2629

01:43:25,609 --> 01:43:23,280

don't need aliens you don't need lost

2630

01:43:28,370 --> 01:43:25,619

races or civilizations you don't need

2631

01:43:31,910 --> 01:43:28,380

any of that stuff and I think it's wrong

2632

01:43:34,729 --> 01:43:31,920

to even promote those kind of theories

2633

01:43:36,590 --> 01:43:34,739

um I think you're disenfranchising you

2634

01:43:39,590 --> 01:43:36,600

know indigenous legacies and that's

2635

01:43:42,770 --> 01:43:39,600

that's that's not right I just finished

2636

01:43:45,109 --> 01:43:42,780

reading colavito's mom build a book uh

2637

01:43:47,090 --> 01:43:45,119

yesterday I've actually listened to the

2638

01:43:49,370 --> 01:43:47,100

audiobook like three or four times uh

2639

01:43:50,930 --> 01:43:49,380

I'm a big Call of Duty fan I've got like

2640

01:43:53,209 --> 01:43:50,940

everything he's ever published like

2641

01:43:55,310 --> 01:43:53,219

going myself over there including his

2642

01:43:57,350 --> 01:43:55,320

little tiny little like pamp the

2643

01:43:59,689 --> 01:43:57,360

booklets that he's put out on things

2644

01:44:02,209 --> 01:43:59,699

like theosophy and he has one called

2645

01:44:05,330 --> 01:44:02,219

pyramidious about kind of idiotic

2646

01:44:08,629 --> 01:44:05,340

theories about the pyramids he started

2647

01:44:11,149 --> 01:44:08,639

out as uh what is it a moderator uh on a

2648

01:44:13,010 --> 01:44:11,159

forum of kind of like 40 and stuff isn't

2649

01:44:14,689 --> 01:44:13,020

that right like his backstory do we know

2650

01:44:16,250 --> 01:44:14,699

this I saw somebody just mentioned that

2651

01:44:17,689 --> 01:44:16,260

yesterday that's the first I'd heard of

2652

01:44:19,790 --> 01:44:17,699

that I didn't know that you know I think

2653

01:44:21,950 --> 01:44:19,800

that was me on the Discord so I'm gonna

2654

01:44:24,590 --> 01:44:21,960

have to fact check that but I'm sure I

2655

01:44:27,169 --> 01:44:24,600

saw that somewhere but yeah let's not uh

2656

01:44:29,810 --> 01:44:27,179

let's not repeat that then

2657

01:44:31,910 --> 01:44:29,820

anyway yeah I like really enjoy colavito

2658

01:44:34,070 --> 01:44:31,920

as well um he's a little snarky

2659

01:44:35,290 --> 01:44:34,080

sometimes but uh you know that's okay I

2660

01:44:37,550 --> 01:44:35,300

love it

2661

01:44:39,290 --> 01:44:37,560

yeah all right

2662

01:44:40,370 --> 01:44:39,300

um okay well one follow-up question well

2663

01:44:42,229 --> 01:44:40,380

it's not really a follow-up question

2664

01:44:43,310 --> 01:44:42,239

it's actually completely a disconnected

2665

01:44:46,370 --> 01:44:43,320

question

2666

01:44:48,260 --> 01:44:46,380

um uh but yeah uh we should hang out

2667

01:44:51,410 --> 01:44:48,270

sometimes it's not really a question

2668

01:44:52,090 --> 01:44:51,420

[Laughter]

2669

01:45:08,410 --> 01:44:52,100

yeah

2670

01:45:12,350 --> 01:45:08,420

both coasters Nick is Nick is Midwest I

2671

01:45:14,270 --> 01:45:12,360

exist in the [h__\h] cable uh

2672

01:45:16,910 --> 01:45:14,280

beam my thoughts out to the rest of you

2673

01:45:20,930 --> 01:45:18,649

um also uh one other thing I wanted to

2674

01:45:23,750 --> 01:45:20,940

say um is that I'm going to be hosting a

2675

01:45:25,669 --> 01:45:23,760

premiere of episode four of my podcast

2676

01:45:28,609 --> 01:45:25,679

which is called the Earth

2677

01:45:31,550 --> 01:45:28,619

um tomorrow at 6 00 p.m that uh that

2678

01:45:33,830 --> 01:45:31,560

episode which uh I uh published last

2679

01:45:35,570 --> 01:45:33,840

year last December

2680

01:45:44,649 --> 01:45:35,580

um as an interview with Campbell about

2681

01:45:49,370 --> 01:45:47,510

join everybody that wants to talk about

2682

01:45:51,169 --> 01:45:49,380

it it should be interesting I really

2683

01:45:52,669 --> 01:45:51,179

enjoyed that conversation because it

2684

01:45:54,229 --> 01:45:52,679

goes deeply into what we're talking

2685

01:45:56,689 --> 01:45:54,239

about today observation versus

2686

01:45:59,330 --> 01:45:56,699

interpretation and how some observations

2687

01:46:01,910 --> 01:45:59,340

can uh shape somebody's entire identity

2688

01:46:04,850 --> 01:46:01,920

and the same observation can have almost

2689

01:46:07,189 --> 01:46:04,860

zero impact on somebody's world view so

2690

01:46:08,689 --> 01:46:07,199

uh yeah I think it should be fun yeah

2691

01:46:11,570 --> 01:46:08,699

yeah and the reason part of the reason

2692

01:46:13,970 --> 01:46:11,580

I'm premiering it as well is because

2693

01:46:17,330 --> 01:46:13,980

um I made like a kind of a video

2694

01:46:19,910 --> 01:46:17,340

accompaniment basically for it so yeah

2695

01:46:26,350 --> 01:46:19,920

thank you and that's uh that 6 p.m

2696

01:46:31,010 --> 01:46:28,850

yeah post the link in the YouTube chat

2697

01:46:32,930 --> 01:46:31,020

so uh other viewers can check out your

2698

01:46:34,729 --> 01:46:32,940

channel and check out the video premiere

2699

01:46:37,070 --> 01:46:34,739

tomorrow night all right thank you for

2700

01:46:38,689 --> 01:46:37,080

letting me share that of course of

2701

01:46:42,169 --> 01:46:38,699

course thanks so much for dropping in

2702

01:46:44,209 --> 01:46:42,179

see ya

2703

01:46:46,970 --> 01:46:44,219

can I just answer two quick questions

2704

01:46:49,430 --> 01:46:46,980

people asked in the quiz well I'm gonna

2705

01:46:51,109 --> 01:46:49,440

say uh red panda qual asked me who I

2706

01:46:52,729 --> 01:46:51,119

could have dinner with from history you

2707

01:46:54,169 --> 01:46:52,739

have three people from UFO history I'd

2708

01:46:54,890 --> 01:46:54,179

have dinner with

2709

01:46:58,669 --> 01:46:54,900

um

2710

01:47:00,290 --> 01:46:58,679

probably heineck uh Richard Hall uh he's

2711

01:47:01,129 --> 01:47:00,300

there on nightcap

2712

01:47:03,530 --> 01:47:01,139

um

2713

01:47:06,290 --> 01:47:03,540

maybe Claude Pell here I don't know if

2714

01:47:08,270 --> 01:47:06,300

he's is he still alive uh who is that

2715

01:47:09,770 --> 01:47:08,280

I'm not familiar with that name

2716

01:47:12,850 --> 01:47:09,780

um so you know like the movie Close

2717

01:47:15,189 --> 01:47:12,860

Encounters the French scientists people

2718

01:47:18,709 --> 01:47:15,199

that everybody says

2719

01:47:21,350 --> 01:47:18,719

it's Claude Poe here and he was one of

2720

01:47:23,890 --> 01:47:21,360

like the founders of I think like deepon

2721

01:47:26,270 --> 01:47:23,900

or Japan yeah

2722

01:47:28,129 --> 01:47:26,280

it was like one of the original

2723

01:47:30,950 --> 01:47:28,139

resources back in the day he did a lot

2724

01:47:33,050 --> 01:47:30,960

of uh work on statistical analysis of

2725

01:47:35,030 --> 01:47:33,060

what times sightings happen like when

2726

01:47:37,430 --> 01:47:35,040

people actually see UFOs

2727

01:47:39,649 --> 01:47:37,440

um that early work uh interesting yeah

2728

01:47:41,689 --> 01:47:39,659

he was a great great scientist

2729

01:47:44,390 --> 01:47:41,699

um and I will also I just want to

2730

01:47:46,609 --> 01:47:44,400

comment just something that I think it

2731

01:47:49,010 --> 01:47:46,619

was yeah you guys blocked saying again

2732

01:47:51,709 --> 01:47:49,020

there's this idea that he was he was

2733

01:47:52,970 --> 01:47:51,719

writing like the War and Peace diatribe

2734

01:47:56,270 --> 01:47:52,980

about how we're just a bunch of

2735

01:47:57,890 --> 01:47:56,280

debunking Skeptics yeah I I hear you we

2736

01:47:59,330 --> 01:47:57,900

heard you the first time dude I just

2737

01:48:01,070 --> 01:47:59,340

wanted to point out there's this common

2738

01:48:03,290 --> 01:48:01,080

theme that Skeptics don't know that

2739

01:48:05,330 --> 01:48:03,300

topic like people say there's no such

2740

01:48:08,450 --> 01:48:05,340

thing as an informed skeptic I'm sorry

2741

01:48:11,270 --> 01:48:08,460

that's utter nonsense like most of the

2742

01:48:13,550 --> 01:48:11,280

Skeptics I I know have studied this

2743

01:48:16,070 --> 01:48:13,560

topic far more in depth than the average

2744

01:48:17,990 --> 01:48:16,080

ufologist has like the idea that

2745

01:48:21,229 --> 01:48:18,000

Skeptics like just haven't done the

2746

01:48:23,149 --> 01:48:21,239

research is just flat long and like

2747

01:48:25,370 --> 01:48:23,159

let's be real that response to this show

2748

01:48:27,229 --> 01:48:25,380

just Belize a complete lack of

2749

01:48:29,570 --> 01:48:27,239

familiarity with the week over week

2750

01:48:32,149 --> 01:48:29,580

tenor of this conversation like this is

2751

01:48:34,250 --> 01:48:32,159

not a deeply skeptical show it tends to

2752

01:48:36,709 --> 01:48:34,260

flex and change based on who we're

2753

01:48:37,970 --> 01:48:36,719

talking to what we're talking about

2754

01:48:39,770 --> 01:48:37,980

Etc

2755

01:48:42,709 --> 01:48:39,780

um and I certainly don't think any of us

2756

01:48:45,109 --> 01:48:42,719

supposed to have conclusory evidence on

2757

01:48:47,450 --> 01:48:45,119

any subjects involved you know

2758

01:48:49,310 --> 01:48:47,460

um the idea that like intellectual

2759

01:48:51,350 --> 01:48:49,320

discourse has to become a might makes

2760

01:48:53,030 --> 01:48:51,360

right kind of Battle of the wills is

2761

01:48:55,250 --> 01:48:53,040

something that I personally will not

2762

01:48:57,410 --> 01:48:55,260

cultivate or engage with and I certainly

2763

01:48:59,930 --> 01:48:57,420

will not cultivate a community or

2764

01:49:02,209 --> 01:48:59,940

culture around this show uh in which

2765

01:49:04,450 --> 01:49:02,219

sort of this argumentary is at the heart

2766

01:49:07,189 --> 01:49:04,460

of it absolutely not

2767

01:49:10,010 --> 01:49:07,199

I don't agree with a lot of people that

2768

01:49:12,229 --> 01:49:10,020

I love like I disagree with people in

2769

01:49:16,010 --> 01:49:12,239

the history group all the time like yeah

2770

01:49:17,810 --> 01:49:16,020

I just I but we still get along like I'm

2771

01:49:19,370 --> 01:49:17,820

not gonna argue with Don Smith about

2772

01:49:21,169 --> 01:49:19,380

Roswell doesn't mean I have to agree

2773

01:49:23,390 --> 01:49:21,179

with him on Raw as well like you know

2774

01:49:26,209 --> 01:49:23,400

like we can get along and have

2775

01:49:28,790 --> 01:49:26,219

discussions and not agree on things even

2776

01:49:29,930 --> 01:49:28,800

on our own Discord like disagree with

2777

01:49:32,750 --> 01:49:29,940

things all the time and that's

2778

01:49:35,570 --> 01:49:32,760

completely fine yeah and I think the

2779

01:49:36,530 --> 01:49:35,580

other thing too just uh a word to the

2780

01:49:39,350 --> 01:49:36,540

was

2781

01:49:41,629 --> 01:49:39,360

um there's also something to be said for

2782

01:49:43,790 --> 01:49:41,639

being able to succinctly and coherently

2783

01:49:45,530 --> 01:49:43,800

deliver a point like at a certain point

2784

01:49:47,090 --> 01:49:45,540

it's a 20 minute Shaggy Dog story and

2785

01:49:48,530 --> 01:49:47,100

we're all waiting for the punch line but

2786

01:49:52,010 --> 01:49:48,540

I'm not sure how many times we can hear

2787

01:49:54,649 --> 01:49:52,020

the same six words repeated uh before we

2788

01:49:56,270 --> 01:49:54,659

just kind of lose interest so

2789

01:49:58,189 --> 01:49:56,280

um you people are welcome to be

2790

01:50:00,169 --> 01:49:58,199

discursive but maybe endlessly

2791

01:50:01,790 --> 01:50:00,179

repetitive is perhaps not the best path

2792

01:50:03,649 --> 01:50:01,800

to take when it comes to discussing

2793

01:50:05,570 --> 01:50:03,659

things with the

2794

01:50:08,330 --> 01:50:05,580

um inimitable faculty of the invisible

2795

01:50:11,149 --> 01:50:08,340

night school well I had a genuine to

2796

01:50:14,750 --> 01:50:13,370

yeah no I did too I was like am I

2797

01:50:17,090 --> 01:50:14,760

missing a thread here like what's the

2798

01:50:18,830 --> 01:50:17,100

punchline is it that the missiles are so

2799

01:50:21,649 --> 01:50:18,840

far away from each other that it

2800

01:50:24,430 --> 01:50:21,659

couldn't have been the EMP thing uh you

2801
01:50:28,669 --> 01:50:24,440
know but and I wanted to say that I was

2802
01:50:30,709 --> 01:50:28,679
citing the foia documents that the

2803
01:50:32,090 --> 01:50:30,719
government reports did and he was saying

2804
01:50:33,890 --> 01:50:32,100
oh they don't go that you know nobody

2805
01:50:35,270 --> 01:50:33,900
went to a mental institution because

2806
01:50:37,010 --> 01:50:35,280
they reported it's like no they did

2807
01:50:39,350 --> 01:50:37,020
report it and we have the documents

2808
01:50:40,970 --> 01:50:39,360
right look dude I'm also like as someone

2809
01:50:42,770 --> 01:50:40,980
who has not actually been in the

2810
01:50:44,330 --> 01:50:42,780
military but has been part and parcel to

2811
01:50:46,370 --> 01:50:44,340
a whole lot of security clearance and

2812
01:50:49,430 --> 01:50:46,380
cute clearance style work

2813
01:50:50,870 --> 01:50:49,440

um one of my exes had Q clearance

2814

01:50:53,930 --> 01:50:50,880

um like

2815

01:50:57,050 --> 01:50:53,940

I I also don't suppose that an enlisted

2816

01:50:59,270 --> 01:50:57,060

guy who did a couple rounds also is

2817

01:51:00,770 --> 01:50:59,280

somehow privy to extraordinary amounts

2818

01:51:02,629 --> 01:51:00,780

of classified information on this

2819

01:51:06,109 --> 01:51:02,639

subject and just happens to be tripping

2820

01:51:08,570 --> 01:51:06,119

Upon Our um coming across our show and

2821

01:51:10,010 --> 01:51:08,580

suddenly is going to Avail just uh

2822

01:51:12,470 --> 01:51:10,020

extraordinary amounts of you know

2823

01:51:14,149 --> 01:51:12,480

unrealized knowledge like well maybe he

2824

01:51:15,950 --> 01:51:14,159

had that knowledge but he wasn't uh

2825

01:51:17,530 --> 01:51:15,960

conveying it effects effectively

2826

01:51:20,410 --> 01:51:17,540

unfortunately

2827

01:51:23,090 --> 01:51:20,420

I didn't see what it had to do with

2828

01:51:24,649 --> 01:51:23,100

geography or or that really the issue we

2829

01:51:26,570 --> 01:51:24,659

were talking about was the

2830

01:51:29,870 --> 01:51:26,580

technicalities between the shutdown yeah

2831

01:51:32,330 --> 01:51:29,880

the issue is more the timeline with the

2832

01:51:34,250 --> 01:51:32,340

shutdown we know happened and the then

2833

01:51:35,870 --> 01:51:34,260

that there's records for and then the

2834

01:51:38,510 --> 01:51:35,880

Solace event that allegedly happened

2835

01:51:40,669 --> 01:51:38,520

again weeks later that we have no

2836

01:51:42,890 --> 01:51:40,679

evidence for it wasn't right of

2837

01:51:44,990 --> 01:51:42,900

geography it's whether Solace is even

2838

01:51:47,330 --> 01:51:45,000

talking about the same thing or not well

2839

01:51:49,550 --> 01:51:47,340

what we can prove about that as you've

2840

01:51:52,550 --> 01:51:49,560

named appointed it several times Jeff is

2841

01:51:55,310 --> 01:51:52,560

that we know for a fact that Salas has

2842

01:51:58,010 --> 01:51:55,320

on the record changed his account three

2843

01:52:00,050 --> 01:51:58,020

times now yeah so that's what we do know

2844

01:52:01,729 --> 01:52:00,060

and that it doesn't mean that nothing

2845

01:52:03,950 --> 01:52:01,739

happened but it means that we have to

2846

01:52:07,430 --> 01:52:03,960

really look at that carefully

2847

01:52:10,250 --> 01:52:07,440

because we know Solace was not working

2848

01:52:12,590 --> 01:52:10,260

during the echo flight shutdown it was

2849

01:52:14,330 --> 01:52:12,600

two weeks later and yeah so and like I

2850

01:52:16,250 --> 01:52:14,340

said they the things get mixed together

2851
01:52:18,290 --> 01:52:16,260
people think there was a Maelstrom case

2852
01:52:20,510 --> 01:52:18,300
like no there was stuff shut down and

2853
01:52:22,189 --> 01:52:20,520
then there was a Solace case and

2854
01:52:24,229 --> 01:52:22,199
you need to be clear what you're talking

2855
01:52:25,609 --> 01:52:24,239
about and because people talk about

2856
01:52:27,109 --> 01:52:25,619
sauce and they talk about all the

2857
01:52:28,790 --> 01:52:27,119
documents the documents aren't for the

2858
01:52:30,830 --> 01:52:28,800
Solace case the documents are for Echo

2859
01:52:33,350 --> 01:52:30,840
flight that happened two weeks earlier

2860
01:52:35,270 --> 01:52:33,360
and that's it's a timeline issue not a

2861
01:52:38,390 --> 01:52:35,280
geography thing yeah in my opinion

2862
01:52:40,990 --> 01:52:39,649
yeah

2863
01:52:44,209 --> 01:52:41,000

well

2864

01:52:46,070 --> 01:52:44,219

all right go read Tim Hibbert's website

2865

01:52:49,250 --> 01:52:46,080

about about Maelstrom it's everything

2866

01:52:52,189 --> 01:52:49,260

the Jim Hibbert's website parting words

2867

01:52:53,810 --> 01:52:52,199

for Mr Jeff Knox so um it is just about

2868

01:52:56,450 --> 01:52:53,820

that timer almost at the top of the hour

2869

01:52:57,890 --> 01:52:56,460

let's do a quick Round Table uh Campbell

2870

01:53:01,310 --> 01:52:57,900

what's going on

2871

01:53:03,530 --> 01:53:01,320

oh not then on the UFO front just uh

2872

01:53:04,629 --> 01:53:03,540

just uh stuff around here so I won't go

2873

01:53:06,950 --> 01:53:04,639

into it

2874

01:53:10,669 --> 01:53:06,960

what about here Louise what do you got

2875

01:53:14,030 --> 01:53:10,679

going on the same same with you

2876

01:53:19,010 --> 01:53:17,149

let's keep this party going Nick I'm not

2877

01:53:20,629 --> 01:53:19,020

doing anything right now the most

2878

01:53:22,250 --> 01:53:20,639

interesting show in the business right

2879

01:53:24,229 --> 01:53:22,260

here yeah this guy's like they think

2880

01:53:26,270 --> 01:53:24,239

they know everything they're constantly

2881

01:53:28,250 --> 01:53:26,280

working on this we're like I don't know

2882

01:53:30,050 --> 01:53:28,260

any of that is not doing nothing

2883

01:53:32,570 --> 01:53:30,060

you know after the vehicle interference

2884

01:53:34,910 --> 01:53:32,580

uh I'm looking for another Avenue to go

2885

01:53:36,649 --> 01:53:34,920

down because that wasn't much fun but um

2886

01:53:37,490 --> 01:53:36,659

yeah that was good that was awesome I

2887

01:53:39,290 --> 01:53:37,500

just

2888

01:53:40,910 --> 01:53:39,300

yeah I need another Direction I haven't

2889

01:53:42,770 --> 01:53:40,920

found it yet so I'm just waiting until

2890

01:53:45,550 --> 01:53:42,780

something strikes my fancy

2891

01:53:51,169 --> 01:53:49,189

thing I do every day basically that's I

2892

01:53:52,430 --> 01:53:51,179

spent about eight to ten hours going

2893

01:53:55,370 --> 01:53:52,440

through stuff to put together the

2894

01:53:58,370 --> 01:53:55,380

history post I do seven days a week uh

2895

01:54:00,590 --> 01:53:58,380

however sad that may be but uh uh yeah

2896

01:54:02,750 --> 01:54:00,600

I'm basically doing this stuff full time

2897

01:54:04,729 --> 01:54:02,760

so uh that takes up all my time from

2898

01:54:07,070 --> 01:54:04,739

when I go to bed at night to when I wake

2899

01:54:08,689 --> 01:54:07,080

up in the morning I greatly appreciate

2900

01:54:10,910 --> 01:54:08,699

your Daily Posts

2901

01:54:13,430 --> 01:54:10,920

um I actually I save archives of them

2902

01:54:16,310 --> 01:54:13,440

myself uh with thread reader so keep

2903

01:54:17,750 --> 01:54:16,320

doing it please yep yeah yeah Jeff

2904

01:54:20,030 --> 01:54:17,760

delighted to have you on especially on

2905

01:54:22,729 --> 01:54:20,040

such short notice so

2906

01:54:25,370 --> 01:54:22,739

um looking down the barrel at the next

2907

01:54:28,970 --> 01:54:25,380

few weeks uh next week the 25th we are

2908

01:54:30,890 --> 01:54:28,980

joined by the illustrious Mick West uh

2909

01:54:33,109 --> 01:54:30,900

pretty excited to talk about the uh

2910

01:54:34,189 --> 01:54:33,119

Congressional report that came out

2911

01:54:37,070 --> 01:54:34,199

um I'm looking forward to asking

2912

01:54:39,470 --> 01:54:37,080

questions about psychedelics metaphysics

2913

01:54:41,570 --> 01:54:39,480

um it'll be a great conversation uh the

2914

01:54:43,970 --> 01:54:41,580

week after we have Sarah skulls uh

2915

01:54:46,250 --> 01:54:43,980

author of there already here she's a UFO

2916

01:54:49,550 --> 01:54:46,260

reporter and writer and then on the 8th

2917

01:54:50,930 --> 01:54:49,560

we're joined by Tom uh Tom orchowski I'm

2918

01:54:52,729 --> 01:54:50,940

not sure how to pronounce his last name

2919

01:54:54,649 --> 01:54:52,739

but he is the artist and creator of

2920

01:54:57,709 --> 01:54:54,659

estimate of the situation which is a

2921

01:55:00,109 --> 01:54:57,719

comic I actually he was kind enough to

2922

01:55:04,270 --> 01:55:00,119

pass on my way special edition with the

2923

01:55:07,010 --> 01:55:04,280

the hey look man awesome yeah

2924

01:55:07,970 --> 01:55:07,020

I'm the cute one man I'm owning a good

2925

01:55:08,629 --> 01:55:07,980

swag

2926

01:55:12,290 --> 01:55:08,639

um

2927

01:55:13,850 --> 01:55:12,300

then you know we have some other great

2928

01:55:15,830 --> 01:55:13,860

people just coming down the pike into

2929

01:55:18,109 --> 01:55:15,840

the spring Marco Visconti who writes on

2930

01:55:20,270 --> 01:55:18,119

occultism magic and esoteric Traditions

2931

01:55:22,430 --> 01:55:20,280

we'll have Jeff from strange Recon and

2932

01:55:24,410 --> 01:55:22,440

then we'll also be joined by Jay who

2933

01:55:26,870 --> 01:55:24,420

runs pericon to talk about crypto

2934

01:55:28,490 --> 01:55:26,880

anti-strangeness Etc so we're pretty

2935

01:55:30,290 --> 01:55:28,500

much uh I guess we have a real show

2936

01:55:32,570 --> 01:55:30,300

we're like booked out for like eight

2937

01:55:35,870 --> 01:55:32,580

weeks it's very cool

2938

01:55:39,830 --> 01:55:37,669

that's a great list of guests everybody

2939

01:55:42,790 --> 01:55:39,840

should read Sarah skull's book they're

2940

01:55:46,570 --> 01:55:42,800

already here that's a phenomenal book

2941

01:55:48,709 --> 01:55:46,580

last book Escaping The Rabbit Hole

2942

01:55:50,090 --> 01:55:48,719

I also feel like we're definitely making

2943

01:55:51,590 --> 01:55:50,100

it too because we're increasingly

2944

01:55:53,209 --> 01:55:51,600

getting people that are big mad about

2945

01:55:56,030 --> 01:55:53,219

things we say

2946

01:55:58,189 --> 01:55:56,040

um it's not just a lovely super

2947

01:56:00,050 --> 01:55:58,199

supportive group anymore it's not people

2948

01:56:01,970 --> 01:56:00,060

that have take contention with some of

2949

01:56:03,709 --> 01:56:01,980

the opinions voiced so as far as I'm

2950

01:56:05,689 --> 01:56:03,719

concerned we're fostering conversation

2951
01:56:08,450 --> 01:56:05,699
we're always aiming to elevate the

2952
01:56:10,430 --> 01:56:08,460
conversation good faith dialogue none of

2953
01:56:13,070 --> 01:56:10,440
us are coming from any particular

2954
01:56:16,189 --> 01:56:13,080
conclusory positions we all just want to

2955
01:56:17,510 --> 01:56:16,199
learn talk discuss together

2956
01:56:19,790 --> 01:56:17,520
um so

2957
01:56:21,890 --> 01:56:19,800
on that note I think I'm ready to say

2958
01:56:24,050 --> 01:56:21,900
goodnight to all of you guys it is

2959
01:56:25,930 --> 01:56:24,060
bedtime it is bedtime all right good

2960
01:56:30,740 --> 01:56:25,940
night gentlemen I will see you next week

2961
01:57:09,230 --> 01:56:46,790
[Music]

2962
01:57:30,609 --> 01:57:09,240
[Applause]
