1  
00:00:19,910 --> 00:00:16,390  
all right we should be live i'm going to

2  
00:00:19,920 --> 00:00:36,069  
and put my light on

3  
00:00:50,950 --> 00:00:44,310  
let's see

4  
00:00:55,590 --> 00:00:52,709  
i do have the report thanks to chris

5  
00:01:09,030 --> 00:00:58,470  
maybe a little clunky clunky to read it

6  
00:01:09,040 --> 00:01:23,830  
make sure i send the link out

7  
00:01:30,069 --> 00:01:27,030  
nine pages so

8  
00:01:31,109 --> 00:01:30,079  
more than we expected rubio's saying

9  
00:01:33,190 --> 00:01:31,119  
we still don't know if these are a

10  
00:01:35,590 --> 00:01:33,200  
threat so

11  
00:02:12,229 --> 00:01:35,600  
obviously china and russia are not

12  
00:02:17,670 --> 00:02:15,750  
i just linked to it so i'll link it in

13  
00:02:18,630 --> 00:02:17,680

the comments too it doesn't always load

14

00:02:24,309 --> 00:02:18,640

up though

15

00:02:28,949 --> 00:02:27,670

link to it in the chat thank you to

16

00:02:31,030 --> 00:02:28,959

chris wilford for

17

00:02:34,309 --> 00:02:31,040

getting me a link that worked i think it

18

00:02:39,589 --> 00:02:36,470

i have not read it yet but i'm going to

19

00:02:47,910 --> 00:02:42,630

and then once i read it you guys can

20

00:02:53,350 --> 00:02:49,830

if you want to ask questions or comments

21

00:02:56,150 --> 00:02:53,360

or whatever you want to do all right so

22

00:02:58,470 --> 00:02:56,160

nine pages going to take a while this

23

00:03:00,630 --> 00:02:58,480

preliminary report is provided by the

24

00:03:02,630 --> 00:03:00,640

office of the director of national

25

00:03:05,910 --> 00:03:02,640

intelligence

26

00:03:09,270 --> 00:03:05,920

odni in response to the provision

27

00:03:10,869 --> 00:03:09,280

in senate report 16 233 accompanying the

28

00:03:13,430 --> 00:03:10,879

intelligence authorization

29

00:03:14,470 --> 00:03:13,440

authorization act i'm going to skip all

30

00:03:18,229 --> 00:03:14,480

this stuff

31

00:03:20,149 --> 00:03:18,239

it's just background

32

00:03:22,869 --> 00:03:20,159

the report provides an overview for

33

00:03:24,470 --> 00:03:22,879

policy made policymakers

34

00:03:26,070 --> 00:03:24,480

of the challenges associated with

35

00:03:27,350 --> 00:03:26,080

characterizing the potential threat

36

00:03:30,229 --> 00:03:27,360

posed by uap

37

00:03:31,589 --> 00:03:30,239

while also providing a means to develop

38

00:03:33,589 --> 00:03:31,599

relevant processes

39

00:03:35,830 --> 00:03:33,599

policies technologies and training for

40

00:03:36,550 --> 00:03:35,840

the us military and other us government

41

00:03:39,990 --> 00:03:36,560

personnel

42

00:03:41,589 --> 00:03:40,000

if and when they encounter uap so as to

43

00:03:42,949 --> 00:03:41,599

enhance the intelligence community's

44

00:03:46,949 --> 00:03:42,959

ability to understand

45

00:03:49,030 --> 00:03:46,959

the threat the director uap task force

46

00:03:50,390 --> 00:03:49,040

is the accountable official for ensuring

47

00:03:53,830 --> 00:03:50,400

the timely collection of

48

00:03:55,750 --> 00:03:53,840

consolidation of data of uap the

49

00:03:56,869 --> 00:03:55,760

data set described in this report is

50

00:03:59,030 --> 00:03:56,879

currently limited

51  
00:03:59,990 --> 00:03:59,040  
primarily to u.s government reporting of

52  
00:04:03,830 --> 00:04:00,000  
incidents occurring

53  
00:04:06,869 --> 00:04:03,840  
from november 2004 tic tac

54  
00:04:08,630 --> 00:04:06,879  
to march 2021

55  
00:04:11,350 --> 00:04:08,640  
data continues to be collected and

56  
00:04:14,229 --> 00:04:12,789  
o and i prepared the report for the

57  
00:04:16,629 --> 00:04:14,239  
congressional intelligence and armed

58  
00:04:19,110 --> 00:04:16,639  
services committees uap task force

59  
00:04:19,830 --> 00:04:19,120  
and the odni national intelligence

60  
00:04:22,469 --> 00:04:19,840  
manager

61  
00:04:24,629 --> 00:04:22,479  
for aviation drafted this report that

62  
00:04:25,909 --> 00:04:24,639  
doesn't sound right but

63  
00:04:29,270 --> 00:04:25,919

and it goes through all the different

64

00:04:32,629 --> 00:04:29,280

agencies where they had input used

65

00:04:36,790 --> 00:04:32,639

dai fbi nro mga

66

00:04:40,830 --> 00:04:36,800

nsa air force army navy darpa

67

00:04:42,469 --> 00:04:40,840

a lot of three letter in four letter

68

00:04:45,189 --> 00:04:42,479

agencies

69

00:04:48,230 --> 00:04:45,199

very here we go assumptions various

70

00:04:50,390 --> 00:04:48,240

forms of sensors that register uap

71

00:04:52,150 --> 00:04:50,400

generally operate correctly and capture

72

00:04:53,749 --> 00:04:52,160

enough real data

73

00:04:56,950 --> 00:04:53,759

in other words this is not about

74

00:04:59,189 --> 00:04:56,960

glitches that's showstock

75

00:05:00,070 --> 00:04:59,199

capture another real enough real data to

76

00:05:02,749 --> 00:05:00,080

allow initial

77

00:05:05,189 --> 00:05:02,759

assessments but some uap may be

78

00:05:06,870 --> 00:05:05,199

attributable to sensor anomalies okay

79

00:05:10,790 --> 00:05:06,880

now set showstack is back in the the

80

00:05:13,430 --> 00:05:10,800

equation come on if

81

00:05:13,909 --> 00:05:13,440

all right well even when i even bring

82

00:05:15,430 --> 00:05:13,919

that up

83

00:05:17,189 --> 00:05:15,440

if it's making it into this into this

84

00:05:18,710 --> 00:05:17,199

report i would think you would have

85

00:05:23,510 --> 00:05:18,720

ruled out

86

00:05:23,520 --> 00:05:31,189

executive summary we are all executives

87

00:05:36,150 --> 00:05:34,390

so yeah i saw one comment about it being

88

00:05:37,350 --> 00:05:36,160

released after the markets closed but i

89

00:05:43,670 --> 00:05:37,360

don't i don't think this is going to be

90

00:05:43,680 --> 00:05:50,830

okay the limited amount of high quality

91

00:05:55,270 --> 00:05:52,230

reporting

92

00:05:58,550 --> 00:05:55,280

on unidentified aerial phenomena

93

00:06:00,870 --> 00:05:58,560

uap hampers our ability to draw firm

94

00:06:02,550 --> 00:06:00,880

conclusions about the nature or intent

95

00:06:04,469 --> 00:06:02,560

of uap

96

00:06:07,029 --> 00:06:04,479

yeah for these people maybe but for the

97

00:06:07,830 --> 00:06:07,039

people who have analyzed data for 70

98

00:06:09,909 --> 00:06:07,840

years that's

99

00:06:12,309 --> 00:06:09,919

[h\_\_\h] i think they have a grasp of

100

00:06:14,790 --> 00:06:12,319

what's going on

101  
00:06:15,990 --> 00:06:14,800  
the uap task force considered a range of

102  
00:06:18,070 --> 00:06:16,000  
information on uap

103  
00:06:19,749 --> 00:06:18,080  
described in the u.s military and

104  
00:06:21,670 --> 00:06:19,759  
intelligence community reporting but

105  
00:06:23,189 --> 00:06:21,680  
because the reporting lacked sufficient

106  
00:06:25,590 --> 00:06:23,199  
specificity

107  
00:06:27,749 --> 00:06:25,600  
ultimately recognized that a unique

108  
00:06:28,390 --> 00:06:27,759  
tailored reporting process was required

109  
00:06:32,309 --> 00:06:28,400  
to provide

110  
00:06:37,350 --> 00:06:35,350  
analysis of uap events as a result the

111  
00:06:39,749 --> 00:06:37,360  
uap task force concentrated its review

112  
00:06:43,029 --> 00:06:39,759  
on reports that occurred between 2004

113  
00:06:46,469 --> 00:06:43,039

and 2021 the majority of which are re

114

00:06:48,390 --> 00:06:46,479

are the majority of which are a result

115

00:06:50,550 --> 00:06:48,400

of this new tailored process to better

116

00:06:53,189 --> 00:06:50,560

capture uap events through formalized

117

00:06:56,870 --> 00:06:55,830

in other words allowing pilots to speak

118

00:06:59,909 --> 00:06:56,880

about their exciting

119

00:07:03,189 --> 00:06:59,919

without fear of retribution and

120

00:07:03,830 --> 00:07:03,199

getting grounded most of the uap

121

00:07:06,070 --> 00:07:03,840

reported

122

00:07:07,909 --> 00:07:06,080

probably do represent physical objects

123

00:07:10,309 --> 00:07:07,919

given that a majority of u of p

124

00:07:11,670 --> 00:07:10,319

were registered across multiple sensors

125

00:07:15,029 --> 00:07:11,680

to include radar

126

00:07:18,950 --> 00:07:15,039

infrared electro electro optical

127

00:07:21,350 --> 00:07:18,960

weapon seekers and visual observation

128

00:07:23,110 --> 00:07:21,360

in a limited number of incidents uap

129

00:07:25,749 --> 00:07:23,120

reportedly appeared

130

00:07:29,270 --> 00:07:25,759

to exhibit unusual flight character

131

00:07:33,189 --> 00:07:31,270

these observations could be the result

132

00:07:36,469 --> 00:07:33,199

of sensor errors

133

00:07:38,950 --> 00:07:36,479

spoofing or observer misperception and

134

00:07:42,870 --> 00:07:38,960

require additional rigorous analysis

135

00:07:45,589 --> 00:07:42,880

really so when rubio was told

136

00:07:47,189 --> 00:07:45,599

by eric davis that the o i and uap task

137

00:07:49,029 --> 00:07:47,199

force believe some of these are off

138

00:07:50,629 --> 00:07:49,039

world

139

00:07:52,710 --> 00:07:50,639

you're saying that oh these are sent

140

00:07:54,469 --> 00:07:52,720

possibly sensor errors it's like

141

00:07:55,830 --> 00:07:54,479

at this point they should be able to

142

00:07:58,150 --> 00:07:55,840

only include

143

00:07:59,990 --> 00:07:58,160

sightings and encounters that have ruled

144

00:08:03,110 --> 00:08:00,000

out all of that stuff so

145

00:08:05,589 --> 00:08:03,120

not a good start for me there are

146

00:08:08,230 --> 00:08:05,599

probably multiple types of uap

147

00:08:08,950 --> 00:08:08,240

requiring different explanations agree

148

00:08:10,710 --> 00:08:08,960

with that

149

00:08:12,469 --> 00:08:10,720

based on the range of appearances and

150

00:08:13,189 --> 00:08:12,479

behaviors described in the available

151  
00:08:15,749 --> 00:08:13,199  
reporting

152  
00:08:18,070 --> 00:08:15,759  
no problem with that our analysis of the

153  
00:08:18,390 --> 00:08:18,080  
data supports the construct that if and

154  
00:08:21,670 --> 00:08:18,400  
when

155  
00:08:23,029 --> 00:08:21,680  
individual uap incidents are resolved

156  
00:08:25,670 --> 00:08:23,039  
they'll fall into one of five

157  
00:08:28,790 --> 00:08:25,680  
potentially explanatory categories

158  
00:08:32,149 --> 00:08:28,800  
one airborne clutter

159  
00:08:35,829 --> 00:08:32,159  
two natural atmospheric phenomena

160  
00:08:39,589 --> 00:08:35,839  
three usg or us industry development

161  
00:08:43,670 --> 00:08:39,599  
programs see they have not ruled out 100

162  
00:08:44,790 --> 00:08:43,680  
that it's us tech foreign adversary

163  
00:08:49,269 --> 00:08:44,800

systems

164

00:08:53,269 --> 00:08:49,279

and a catch-all other bin

165

00:08:54,949 --> 00:08:53,279

which we are all interested in that bin

166

00:08:56,870 --> 00:08:54,959

and if people are commenting i can't see

167

00:09:03,509 --> 00:08:56,880

right now because i have the page up so

168

00:09:07,350 --> 00:09:05,269

yeah so far it's not good but like i

169

00:09:10,310 --> 00:09:07,360

said my expectations were so low

170

00:09:11,990 --> 00:09:10,320

waking up this morning so just take it

171

00:09:16,710 --> 00:09:12,000

as a whole what's been going on

172

00:09:21,190 --> 00:09:19,430

uap clearly pose the safety of flight

173

00:09:23,030 --> 00:09:21,200

and may pose a challenge to united

174

00:09:25,110 --> 00:09:23,040

states national security

175

00:09:27,350 --> 00:09:25,120

safety concerns primarily center on

176

00:09:29,350 --> 00:09:27,360

aviators aviators contending

177

00:09:31,829 --> 00:09:29,360

with an increasingly cluttered air

178

00:09:33,509 --> 00:09:31,839

domain uap would also represent a

179

00:09:34,790 --> 00:09:33,519

national security challenge if they a

180

00:09:38,470 --> 00:09:34,800

foreign adversary

181

00:09:40,230 --> 00:09:38,480

collection platforms tyler rogue away

182

00:09:41,670 --> 00:09:40,240

or provide evidence a potential

183

00:09:43,509 --> 00:09:41,680

adversary has developed either a

184

00:09:45,590 --> 00:09:43,519

breakthrough or disruptive technology

185

00:09:46,949 --> 00:09:45,600

which i do not think has happened

186

00:09:48,790 --> 00:09:46,959

the first part where they they're

187

00:09:51,269 --> 00:09:48,800

soaking up our data

188

00:09:52,150 --> 00:09:51,279

with drones okay maybe some of it is

189

00:09:54,710 --> 00:09:52,160

that

190

00:09:56,310 --> 00:09:54,720

but like i said if i said in some of my

191

00:09:58,310 --> 00:09:56,320

twitter audio

192

00:09:59,590 --> 00:09:58,320

if what congress is seeing is making

193

00:10:02,310 --> 00:09:59,600

them leave saying

194

00:10:04,389 --> 00:10:02,320

that ain't ours then that's the stuff we

195

00:10:06,790 --> 00:10:04,399

want to focus on

196

00:10:08,550 --> 00:10:06,800

consistent consolidation of reports from

197

00:10:10,550 --> 00:10:08,560

across the federal government

198

00:10:12,069 --> 00:10:10,560

standardized reporting increased

199

00:10:14,069 --> 00:10:12,079

collection and analysis and a

200

00:10:16,230 --> 00:10:14,079

streamlined process for screening all

201  
00:10:18,790 --> 00:10:16,240  
such reports against a broad range of

202  
00:10:20,389 --> 00:10:18,800  
relevant usg data will allow for a more

203  
00:10:22,790 --> 00:10:20,399  
sophisticated analysis

204  
00:10:24,230 --> 00:10:22,800  
analysis of uap that is likely to deepen

205  
00:10:26,790 --> 00:10:24,240  
our understanding

206  
00:10:27,829 --> 00:10:26,800  
so as lou said this is the first report

207  
00:10:29,750 --> 00:10:27,839  
more to come

208  
00:10:31,110 --> 00:10:29,760  
this is this really it seems like it's

209  
00:10:32,550 --> 00:10:31,120  
going to be a nothing burger but

210  
00:10:33,990 --> 00:10:32,560  
you know who knows what the classified

211  
00:10:35,509 --> 00:10:34,000  
version will see and hopefully that as

212  
00:10:37,750 --> 00:10:35,519  
rubio said that will leak out like

213  
00:10:39,269 --> 00:10:37,760

everything leaks in washington

214

00:10:41,110 --> 00:10:39,279

some of these steps are resource

215

00:10:44,150 --> 00:10:41,120

intensive and would require

216

00:10:44,550 --> 00:10:44,160

require additional investment that's

217

00:10:46,310 --> 00:10:44,560

good

218

00:10:47,910 --> 00:10:46,320

we need more money we need money

219

00:10:51,190 --> 00:10:47,920

dedicated to a permanent uap

220

00:10:53,190 --> 00:10:51,200

task don't want to say uh

221

00:10:56,870 --> 00:10:53,200

forest task force more like a uap

222

00:11:03,750 --> 00:11:00,230

all right limited data

223

00:11:07,750 --> 00:11:03,760

i'll take a look at comments but uh yeah

224

00:11:11,190 --> 00:11:07,760

it's it's good you know more to come so

225

00:11:15,350 --> 00:11:11,200

we have that but we need more

226

00:11:17,910 --> 00:11:15,360

but let me keep reading

227

00:11:18,550 --> 00:11:17,920

the most important comment will be from

228

00:11:21,590 --> 00:11:18,560

lou and

229

00:11:25,030 --> 00:11:24,230

limited data and inconsistency in

230

00:11:28,630 --> 00:11:25,040

reporting

231

00:11:30,949 --> 00:11:28,640

are key challenges to evaluating uap

232

00:11:32,710 --> 00:11:30,959

no standardized reporting mechanism

233

00:11:36,389 --> 00:11:32,720

existed until the navy

234

00:11:37,990 --> 00:11:36,399

established one in 2019

235

00:11:39,829 --> 00:11:38,000

i want to make sure i send the link out

236

00:11:42,310 --> 00:11:39,839

to twitter if you guys can send the link

237

00:11:46,389 --> 00:11:42,320

out that would help to

238

00:11:47,350 --> 00:11:46,399

um i'm i'm not disappointed because like

239

00:11:50,230 --> 00:11:47,360

i said

240

00:11:51,670 --> 00:11:50,240

uh something i heard something i heard a

241

00:11:55,509 --> 00:11:51,680

few months ago that there would

242

00:11:57,910 --> 00:11:55,519

not be a public version

243

00:11:59,670 --> 00:11:57,920

of this report that was what i received

244

00:12:01,509 --> 00:11:59,680

information and

245

00:12:02,870 --> 00:12:01,519

that was amended probably like a few

246

00:12:05,110 --> 00:12:02,880

weeks ago saying

247

00:12:05,990 --> 00:12:05,120

that information is not accurate it was

248

00:12:08,629 --> 00:12:06,000

not accurate

249

00:12:10,710 --> 00:12:08,639

it was the people who i heard it from

250

00:12:12,790 --> 00:12:10,720

very good sources but

251  
00:12:14,069 --> 00:12:12,800  
one of the sources got it wrong or they

252  
00:12:15,990 --> 00:12:14,079  
heard it wrong from wherever they heard

253  
00:12:19,590 --> 00:12:16,000  
it anyway so i had my expectations

254  
00:12:21,269 --> 00:12:19,600  
low from that point so

255  
00:12:22,710 --> 00:12:21,279  
i'm not disappointed with this because

256  
00:12:33,509 --> 00:12:22,720  
of those lowered expectations let me

257  
00:12:39,670 --> 00:12:37,030  
and pin it and good

258  
00:12:43,190 --> 00:12:39,680  
let me keep reading hopefully if some

259  
00:12:50,069 --> 00:12:45,430  
if you cannot read the report this is a

260  
00:12:53,670 --> 00:12:52,069  
limited data and inconsistency in

261  
00:12:55,190 --> 00:12:53,680  
reporting are key challenges to

262  
00:12:57,110 --> 00:12:55,200  
evaluating uap

263  
00:12:59,110 --> 00:12:57,120

no standardized reporting mechanism

264

00:13:00,870 --> 00:12:59,120

existed until the navy established one

265

00:13:03,269 --> 00:13:00,880

in march 2019.

266

00:13:04,069 --> 00:13:03,279

the air force oh the air force has

267

00:13:06,389 --> 00:13:04,079

mentioned

268

00:13:08,550 --> 00:13:06,399

subsequently adopted that mechanism of

269

00:13:11,509 --> 00:13:08,560

november 2020

270

00:13:12,230 --> 00:13:11,519

that's news to me but it remains limited

271

00:13:15,110 --> 00:13:12,240

to u.s

272

00:13:17,269 --> 00:13:15,120

government reporting i'm not really sure

273

00:13:19,430 --> 00:13:17,279

what that means

274

00:13:20,790 --> 00:13:19,440

if the government is only the one that's

275

00:13:23,829 --> 00:13:20,800

weird the uap

276  
00:13:25,829 --> 00:13:23,839  
task force regularly heard anecdotally

277  
00:13:27,829 --> 00:13:25,839  
during its research and other

278  
00:13:30,310 --> 00:13:27,839  
observations that occurred

279  
00:13:31,509 --> 00:13:30,320  
but were but which were never captured

280  
00:13:32,629 --> 00:13:31,519  
in

281  
00:13:35,190 --> 00:13:32,639  
that doesn't it seems like they're

282  
00:13:38,389 --> 00:13:35,200  
leaving commas out the uap task force

283  
00:13:38,949 --> 00:13:38,399  
regularly regularly heard anecdotally

284  
00:13:41,269 --> 00:13:38,959  
during this

285  
00:13:42,310 --> 00:13:41,279  
its research about other observations

286  
00:13:45,030 --> 00:13:42,320  
that occurred

287  
00:13:45,350 --> 00:13:45,040  
but which were never captured in formal

288  
00:13:49,269 --> 00:13:45,360

or

289

00:13:52,470 --> 00:13:49,279

so it's anecdotes basically

290

00:13:54,150 --> 00:13:52,480

just oh yeah i saw this but they weren't

291

00:13:57,590 --> 00:13:54,160

able to capture it i guess

292

00:13:59,030 --> 00:13:57,600

whatever sensors they were using

293

00:14:01,910 --> 00:13:59,040

after carefully considering this

294

00:14:03,750 --> 00:14:01,920

information the uap task force focused

295

00:14:14,870 --> 00:14:03,760

on reports that involved

296

00:14:16,870 --> 00:14:14,880

largely witnessed firsthand by military

297

00:14:19,750 --> 00:14:16,880

aviators and that were collected from

298

00:14:21,750 --> 00:14:19,760

systems we considered to be reliable

299

00:14:24,470 --> 00:14:21,760

these reports describe incidents that

300

00:14:25,829 --> 00:14:24,480

occurred between 2004 and 2021 with the

301  
00:14:28,150 --> 00:14:25,839  
majority coming

302  
00:14:30,150 --> 00:14:28,160  
in the last two years as the new

303  
00:14:32,389 --> 00:14:30,160  
reporting mechanism became better known

304  
00:14:34,710 --> 00:14:32,399  
to the military aviation community

305  
00:14:35,509 --> 00:14:34,720  
we were able to identify one reported

306  
00:14:39,030 --> 00:14:35,519  
uap

307  
00:14:41,430 --> 00:14:39,040  
with high confidence what

308  
00:14:43,990 --> 00:14:41,440  
we were able to identify one reported

309  
00:14:46,629 --> 00:14:44,000  
uap with high confidence one

310  
00:14:49,990 --> 00:14:46,639  
in that case we identified the object oh

311  
00:14:51,750 --> 00:14:50,000  
as a large deflating balloon

312  
00:14:53,910 --> 00:14:51,760  
and it just happened to look like batman

313  
00:14:55,269 --> 00:14:53,920

no i'm just kidding the others remain

314

00:14:58,310 --> 00:14:55,279

unexplained so only

315

00:15:01,590 --> 00:14:58,320

one was explained so that's

316

00:15:05,509 --> 00:15:01,600

that's good if you're looking for true

317

00:15:08,389 --> 00:15:05,519

unknowns 144 reports originated from

318

00:15:09,110 --> 00:15:08,399

united states government sources okay

319

00:15:12,310 --> 00:15:09,120

now i know

320

00:15:14,150 --> 00:15:12,320

the air force part was

321

00:15:16,069 --> 00:15:14,160

there may have been i'll get back to

322

00:15:18,389 --> 00:15:16,079

that

323

00:15:20,550 --> 00:15:18,399

144 reports originated from u.s

324

00:15:21,750 --> 00:15:20,560

government sources of these 80 reports

325

00:15:26,310 --> 00:15:21,760

involved

326

00:15:27,350 --> 00:15:26,320

observation with multiple sensors so of

327

00:15:30,310 --> 00:15:27,360

the 144

328

00:15:30,949 --> 00:15:30,320

80 involved multiple sensors which you

329

00:15:33,350 --> 00:15:30,959

want

330

00:15:35,030 --> 00:15:33,360

the more sensors the better most reports

331

00:15:37,110 --> 00:15:35,040

described uap as objects that

332

00:15:39,110 --> 00:15:37,120

interrupted pre-planning training or

333

00:15:41,110 --> 00:15:39,120

other military activity so right there i

334

00:15:44,310 --> 00:15:41,120

would think that's a threat

335

00:15:45,189 --> 00:15:44,320

to their training you know an

336

00:15:48,629 --> 00:15:45,199

interruption

337

00:15:48,949 --> 00:15:48,639

slash nuisance if threat is too much of

338

00:15:53,350 --> 00:15:48,959

a

339

00:15:54,710 --> 00:15:53,360

dire but you know

340

00:15:56,389 --> 00:15:54,720

highly sensitive areas where you're

341

00:15:59,430 --> 00:15:56,399

doing training

342

00:16:03,030 --> 00:15:59,440

all right uap collection collection

343

00:16:05,430 --> 00:16:03,040

challenges socio culture socio

344

00:16:07,749 --> 00:16:05,440

cultural stigmas and sensor limitations

345

00:16:09,430 --> 00:16:07,759

remain obstacles to collecting data on

346

00:16:10,870 --> 00:16:09,440

uap in other words people don't want to

347

00:16:12,790 --> 00:16:10,880

talk about it and

348

00:16:14,790 --> 00:16:12,800

i guess our sensors are not that great

349

00:16:18,310 --> 00:16:14,800

according to that

350

00:16:20,230 --> 00:16:18,320

when lou talks about low observability

351  
00:16:21,990 --> 00:16:20,240  
although some technical challenges such

352  
00:16:24,310 --> 00:16:22,000  
as how to appropriately filter

353  
00:16:25,829 --> 00:16:24,320  
out radar clutter to ensure safety of

354  
00:16:26,710 --> 00:16:25,839  
flight for military and civilian

355  
00:16:29,910 --> 00:16:26,720  
aircraft

356  
00:16:31,990 --> 00:16:29,920  
aviation community

357  
00:16:34,470 --> 00:16:32,000  
while others are unique to the to the

358  
00:16:36,870 --> 00:16:34,480  
uap problem set

359  
00:16:38,790 --> 00:16:36,880  
narratives narratives from aviators in

360  
00:16:40,550 --> 00:16:38,800  
the operational community and

361  
00:16:42,629 --> 00:16:40,560  
analysts from the military and

362  
00:16:45,910 --> 00:16:42,639  
intelligence community describe

363  
00:16:48,870 --> 00:16:45,920

disparagement associated with observing

364

00:16:50,069 --> 00:16:48,880

uap reporting it or attempting to

365

00:16:52,790 --> 00:16:50,079

discuss it with collie

366

00:16:54,069 --> 00:16:52,800

colleagues so yeah they don't want to

367

00:16:55,350 --> 00:16:54,079

talk about it because people are making

368

00:16:56,790 --> 00:16:55,360

fun of them after they have these

369

00:16:58,150 --> 00:16:56,800

sightings and talk and come back and

370

00:17:00,230 --> 00:16:58,160

talk about it

371

00:17:01,910 --> 00:17:00,240

so they're hesitant to even bring it up

372

00:17:04,150 --> 00:17:01,920

although the effects of

373

00:17:05,590 --> 00:17:04,160

these stigmas have lessened as senior

374

00:17:07,350 --> 00:17:05,600

members of the scientific

375

00:17:08,949 --> 00:17:07,360

policy military and intelligence

376

00:17:10,549 --> 00:17:08,959

communities engage on the topic

377

00:17:12,549 --> 00:17:10,559

seriously in public

378

00:17:14,390 --> 00:17:12,559

reputational risk may keep many

379

00:17:17,270 --> 00:17:14,400

observers silent

380

00:17:19,510 --> 00:17:17,280

complicating scientific pursuit of this

381

00:17:22,069 --> 00:17:19,520

of the topic

382

00:17:24,309 --> 00:17:22,079

the sensors mounted on u s military

383

00:17:27,029 --> 00:17:24,319

platforms are typically designed

384

00:17:28,150 --> 00:17:27,039

to fulfill specific missions as a result

385

00:17:31,590 --> 00:17:28,160

those sensors are not

386

00:17:33,750 --> 00:17:31,600

generally suited for identifying uap

387

00:17:35,029 --> 00:17:33,760

sensor vantage points and the numbers of

388

00:17:37,909 --> 00:17:35,039

sensors concurrently

389

00:17:40,150 --> 00:17:37,919

observing an object play substantial

390

00:17:40,789 --> 00:17:40,160

roles in distinguishing uap from known

391

00:17:42,470 --> 00:17:40,799

objects

392

00:17:44,830 --> 00:17:42,480

and determining whether a uap

393

00:17:46,870 --> 00:17:44,840

demonstrates breakthrough aerospace

394

00:17:48,549 --> 00:17:46,880

capabilities

395

00:17:50,310 --> 00:17:48,559

optical sensors have the benefit of

396

00:17:50,870 --> 00:17:50,320

providing some insight into the relative

397

00:17:53,270 --> 00:17:50,880

size

398

00:17:55,430 --> 00:17:53,280

shape and structure radio frequency

399

00:17:59,669 --> 00:17:55,440

sensors provide more accurate velocity

400

00:17:59,679 --> 00:18:03,190

so

401  
00:18:03,200 --> 00:18:07,350  
give me one second

402  
00:18:11,270 --> 00:18:08,710  
i'm just going to send out the link to

403  
00:18:17,590 --> 00:18:14,470  
check in on on comments what you guys

404  
00:18:21,909 --> 00:18:17,600  
are thinking so far i mean it's a little

405  
00:18:23,430 --> 00:18:21,919  
wordy but i need to read through it

406  
00:18:25,350 --> 00:18:23,440  
where can we see the report i linked to

407  
00:18:26,150 --> 00:18:25,360  
it already in the comments if you scroll

408  
00:18:29,430 --> 00:18:26,160  
up

409  
00:18:32,789 --> 00:18:29,440  
i also tweeted it um

410  
00:18:36,390 --> 00:18:32,799  
chris wolford had the link

411  
00:18:36,870 --> 00:18:36,400  
um i i really i should just go through

412  
00:18:39,669 --> 00:18:36,880  
this so

413  
00:18:41,029 --> 00:18:39,679

so far it's very not technical but it's

414

00:18:42,549 --> 00:18:41,039

a little boring talking about how they

415

00:18:48,630 --> 00:18:42,559

collected and

416

00:18:53,430 --> 00:18:51,510

although there was wide variability in

417

00:18:56,710 --> 00:18:53,440

the reports and the data say

418

00:18:57,669 --> 00:18:56,720

set although there was wide variability

419

00:18:59,350 --> 00:18:57,679

in the reports

420

00:19:00,870 --> 00:18:59,360

and the data set is currently too

421

00:19:03,909 --> 00:19:00,880

limited to allow for

422

00:19:05,510 --> 00:19:03,919

detailed trend or pattern analysis

423

00:19:07,990 --> 00:19:05,520

well listen to little he said there were

424

00:19:08,470 --> 00:19:08,000

patterns there was some clustering of

425

00:19:10,950 --> 00:19:08,480

uap

426  
00:19:12,230 --> 00:19:10,960  
observations regarding shape size and

427  
00:19:15,750 --> 00:19:12,240  
particularly

428  
00:19:17,750 --> 00:19:15,760  
propulsion interesting

429  
00:19:20,070 --> 00:19:17,760  
uap sightings also tended to cluster

430  
00:19:22,310 --> 00:19:20,080  
around u.s training and testing grounds

431  
00:19:24,230 --> 00:19:22,320  
but we assess that this may result from

432  
00:19:27,830 --> 00:19:24,240  
a collection bias in other words

433  
00:19:29,430 --> 00:19:27,840  
yeah we're picking up these objects

434  
00:19:30,870 --> 00:19:29,440  
in training grounds because that's where

435  
00:19:32,310 --> 00:19:30,880  
we have our sensors they may be

436  
00:19:33,909 --> 00:19:32,320  
everywhere else but we don't have that

437  
00:19:34,789 --> 00:19:33,919  
kind of collection ability in the middle

438  
00:19:37,029 --> 00:19:34,799

of nowhere

439

00:19:41,669 --> 00:19:37,039

where they may be you know so that makes

440

00:19:44,789 --> 00:19:43,029

we assess this may result from a

441

00:19:46,470 --> 00:19:44,799

collection bias as a result of focused

442

00:19:48,549 --> 00:19:46,480

attention greater numbers of latest

443

00:19:49,830 --> 00:19:48,559

generation sensors operating in those

444

00:19:52,310 --> 00:19:49,840

areas

445

00:19:53,350 --> 00:19:52,320

unit expectations and guidance to report

446

00:19:57,350 --> 00:19:53,360

anomalies

447

00:20:01,669 --> 00:19:59,750

as richard dolan said in a recent video

448

00:20:02,789 --> 00:20:01,679

they may be everywhere over our houses

449

00:20:04,549 --> 00:20:02,799

at night

450

00:20:06,070 --> 00:20:04,559

we don't have sensors operating

451  
00:20:08,549 --> 00:20:06,080  
everywhere although you know we have

452  
00:20:09,990 --> 00:20:08,559  
more video cameras than ever

453  
00:20:11,590 --> 00:20:10,000  
not pointing directly up in the sky

454  
00:20:14,310 --> 00:20:11,600  
though

455  
00:20:16,230 --> 00:20:14,320  
a handful of uap or uap appear to

456  
00:20:18,070 --> 00:20:16,240  
demonstrate advanced technology that's

457  
00:20:23,190 --> 00:20:18,080  
the ones we want

458  
00:20:26,070 --> 00:20:23,200  
in 18 incidents described in 21 reports

459  
00:20:28,710 --> 00:20:26,080  
observers reported unusual uap movement

460  
00:20:31,590 --> 00:20:28,720  
patterns or flight characteristics

461  
00:20:33,190 --> 00:20:31,600  
some uap appeared to remain stationary

462  
00:20:36,710 --> 00:20:33,200  
in winds aloft

463  
00:20:39,590 --> 00:20:36,720

move against the wind maneuver abruptly

464

00:20:41,830 --> 00:20:39,600

instantaneous acceleration or move at

465

00:20:43,990 --> 00:20:41,840

considerable speed without discern

466

00:20:46,070 --> 00:20:44,000

discernible means of propulsion in a

467

00:20:47,190 --> 00:20:46,080

small number of cases military aircraft

468

00:20:50,310 --> 00:20:47,200

systems

469

00:20:54,070 --> 00:20:50,320

processed radio frequency energy

470

00:20:57,270 --> 00:20:54,080

associated with uap sightings so

471

00:21:00,549 --> 00:20:57,280

they're picking up rf from these objects

472

00:21:03,350 --> 00:21:00,559

radio frequency energy

473

00:21:05,669 --> 00:21:03,360

trying to communicate is that a

474

00:21:07,430 --> 00:21:05,679

something related to the propulsion

475

00:21:09,669 --> 00:21:07,440

and it's only a small number of cases

476  
00:21:10,789 --> 00:21:09,679  
the uap task force and we're up we're on

477  
00:21:12,710 --> 00:21:10,799  
page five of nine

478  
00:21:14,310 --> 00:21:12,720  
the uap test force holds a small amount

479  
00:21:16,070 --> 00:21:14,320  
of data that appear to show uap

480  
00:21:19,669 --> 00:21:16,080  
demonstrating acceleration

481  
00:21:21,029 --> 00:21:19,679  
or a degree of signature management

482  
00:21:22,950 --> 00:21:21,039  
i'm not really sure what signature

483  
00:21:24,789 --> 00:21:22,960  
management is if it's changing if it has

484  
00:21:28,470 --> 00:21:24,799  
some sort of electronic output is it

485  
00:21:31,430 --> 00:21:28,480  
is it changing that for whatever reason

486  
00:21:32,310 --> 00:21:31,440  
reason additional rigorous analysis are

487  
00:21:35,350 --> 00:21:32,320  
necessary by

488  
00:21:37,270 --> 00:21:35,360

multiple term teams or groups of

489

00:21:38,950 --> 00:21:37,280

technical experts

490

00:21:40,390 --> 00:21:38,960

in other words we need to fund a

491

00:21:42,390 --> 00:21:40,400

permanent group

492

00:21:44,950 --> 00:21:42,400

to determine the nature and validities

493

00:21:46,710 --> 00:21:44,960

validity of these data we are conducting

494

00:21:48,149 --> 00:21:46,720

further analysis to determine if

495

00:21:49,750 --> 00:21:48,159

breakthrough technologies were

496

00:21:51,909 --> 00:21:49,760

demonstrated

497

00:21:53,430 --> 00:21:51,919

yeah well i've heard from a very very

498

00:21:55,350 --> 00:21:53,440

good source but breakth

499

00:21:56,630 --> 00:21:55,360

breakthrough technologies were 100

500

00:21:58,549 --> 00:21:56,640

demonstrated that's why

501  
00:22:00,149 --> 00:21:58,559  
that's why the o and i and uap task

502  
00:22:01,669 --> 00:22:00,159  
force believe these are off-world

503  
00:22:04,470 --> 00:22:01,679  
vehicles so

504  
00:22:05,110 --> 00:22:04,480  
yeah definitely a bit of a whitewash

505  
00:22:09,190 --> 00:22:05,120  
here

506  
00:22:12,149 --> 00:22:09,200  
um but we're still on page five

507  
00:22:13,190 --> 00:22:12,159  
the uap probably lack a single

508  
00:22:15,990 --> 00:22:13,200  
explanation

509  
00:22:17,669 --> 00:22:16,000  
yeah probably don't know that though um

510  
00:22:18,310 --> 00:22:17,679  
i'm still open to it all being one as

511  
00:22:21,430 --> 00:22:18,320  
far as the

512  
00:22:23,830 --> 00:22:21,440  
other bin being one phenomenon or

513  
00:22:25,510 --> 00:22:23,840

multiple groups multiple intelligences

514

00:22:27,350 --> 00:22:25,520

but here they're talking maybe maybe we

515

00:22:30,390 --> 00:22:27,360

have some russia and china you know

516

00:22:33,029 --> 00:22:30,400

and maybe something from the other bin

517

00:22:33,669 --> 00:22:33,039

the uap documented in this limited data

518

00:22:35,990 --> 00:22:33,679

set

519

00:22:38,230 --> 00:22:36,000

said demonstrate an array of aerial

520

00:22:40,230 --> 00:22:38,240

behaviors reinforcing the possibility

521

00:22:42,070 --> 00:22:40,240

there are multiple types of uap

522

00:22:44,549 --> 00:22:42,080

requiring different explanations

523

00:22:46,230 --> 00:22:44,559

our analysis of the data supports the

524

00:22:49,029 --> 00:22:46,240

construct that if and when

525

00:22:50,789 --> 00:22:49,039

individual uap incidents are resolved

526

00:22:51,430 --> 00:22:50,799

they will fall into one of five

527

00:22:55,830 --> 00:22:51,440

potential

528

00:22:59,029 --> 00:22:55,840

explanatory airborne clutter

529

00:23:02,070 --> 00:22:59,039

natural atmospheric phenomena

530

00:23:05,830 --> 00:23:02,080

remember this is our analysis

531

00:23:08,149 --> 00:23:05,840

so airborne clutter is one

532

00:23:09,909 --> 00:23:08,159

natural atmospheric phenomena as to

533

00:23:11,110 --> 00:23:09,919

united states government or industry

534

00:23:14,070 --> 00:23:11,120

developmental

535

00:23:15,669 --> 00:23:14,080

programs in other words our tech foreign

536

00:23:23,750 --> 00:23:15,679

adversary systems

537

00:23:25,909 --> 00:23:23,760

and a catch-all like they said other bin

538

00:23:28,390 --> 00:23:25,919

so in other words yeah they're basically

539

00:23:29,669 --> 00:23:28,400

saying they their analysis shows that

540

00:23:33,110 --> 00:23:29,679

there

541

00:23:36,470 --> 00:23:33,120

the other bin

542

00:23:39,990 --> 00:23:36,480

so it's a very slight thing but

543

00:23:43,510 --> 00:23:40,000

obviously not ruling out other

544

00:23:46,310 --> 00:23:43,520

the others with the exception of the one

545

00:23:47,750 --> 00:23:46,320

instance with the exception of the one

546

00:23:49,350 --> 00:23:47,760

instance where we determined

547

00:23:50,789 --> 00:23:49,360

with high confidence that the reported

548

00:23:53,590 --> 00:23:50,799

uap was an airborne

549

00:23:55,190 --> 00:23:53,600

was was airborne clutter specifically a

550

00:23:57,269 --> 00:23:55,200

deflating balloon

551  
00:23:58,390 --> 00:23:57,279  
we currently lack sufficient information

552  
00:24:01,350 --> 00:23:58,400  
in our data

553  
00:24:02,310 --> 00:24:01,360  
set to attribute incidents to specific

554  
00:24:04,470 --> 00:24:02,320  
explanations

555  
00:24:05,990 --> 00:24:04,480  
meanwhile we know who's inside the

556  
00:24:07,269 --> 00:24:06,000  
saucers we know who's inside the

557  
00:24:08,870 --> 00:24:07,279  
triangles and i know people don't

558  
00:24:13,110 --> 00:24:08,880  
believe that but

559  
00:24:16,470 --> 00:24:13,120  
i trust my source 100 percent on that

560  
00:24:18,149 --> 00:24:16,480  
um and it's not it's not the person who

561  
00:24:20,870 --> 00:24:18,159  
originally shared it

562  
00:24:21,430 --> 00:24:20,880  
in that group airborne clutter these

563  
00:24:24,390 --> 00:24:21,440

objects

564

00:24:26,230 --> 00:24:24,400

include birds balloons recreational

565

00:24:29,269 --> 00:24:26,240

unmanned aerial vehicles

566

00:24:31,269 --> 00:24:29,279

uav or airborne debris

567

00:24:32,710 --> 00:24:31,279

like plastic bags that muddle a scene in

568

00:24:34,390 --> 00:24:32,720

effect and operate his ability to

569

00:24:38,230 --> 00:24:34,400

identify true targets such as

570

00:24:39,430 --> 00:24:38,240

enemy aircraft natural atmospheric

571

00:24:42,710 --> 00:24:39,440

phenomena

572

00:24:45,269 --> 00:24:42,720

ice crystals

573

00:24:47,990 --> 00:24:45,279

by the way that's what they're um on the

574

00:24:50,310 --> 00:24:48,000

on the nimitz you talked to gary and

575

00:24:51,350 --> 00:24:50,320

gary voorhees and some of the folks like

576

00:24:53,029 --> 00:24:51,360

kevin day and

577

00:24:55,190 --> 00:24:53,039

their commanding officer tried to

578

00:24:57,110 --> 00:24:55,200

explain the tic tac

579

00:24:58,870 --> 00:24:57,120

events as ice crystals and they just

580

00:25:00,630 --> 00:24:58,880

laughed at them

581

00:25:02,789 --> 00:25:00,640

so natural atmospheric phenomena

582

00:25:04,789 --> 00:25:02,799

includes ice crystals moisture and

583

00:25:05,269 --> 00:25:04,799

thermal fluctuations that may register

584

00:25:08,470 --> 00:25:05,279

on some

585

00:25:11,110 --> 00:25:08,480

infrared and radar systems the next one

586

00:25:14,310 --> 00:25:11,120

is usg or industry developmental

587

00:25:16,310 --> 00:25:14,320

programs in other words our technology

588

00:25:18,070 --> 00:25:16,320

some uap observations could be

589

00:25:19,430 --> 00:25:18,080  
attributable to developments and

590

00:25:22,310 --> 00:25:19,440  
classified programs

591

00:25:23,430 --> 00:25:22,320  
by united states entities see that's why

592

00:25:26,470 --> 00:25:23,440  
i tried to point out

593

00:25:28,390 --> 00:25:26,480  
in several audio things that i did that

594

00:25:30,230 --> 00:25:28,400  
the sources in the new york times did

595

00:25:32,149 --> 00:25:30,240  
not rule out that some of this was our

596

00:25:33,830 --> 00:25:32,159  
technology and i'm not even saying

597

00:25:35,110 --> 00:25:33,840  
that any of these reports include our

598

00:25:35,590 --> 00:25:35,120  
technology i know they're saying that

599

00:25:37,269 --> 00:25:35,600  
but

600

00:25:38,950 --> 00:25:37,279  
in my opinion if we have some of this

601  
00:25:40,870 --> 00:25:38,960  
technology it may

602  
00:25:42,230 --> 00:25:40,880  
it may not be captured it may be smart

603  
00:25:45,430 --> 00:25:42,240  
enough to not be captured on

604  
00:25:46,870 --> 00:25:45,440  
you know navy and air force sensors but

605  
00:25:48,789 --> 00:25:46,880  
they have not ruled out that some of

606  
00:25:50,310 --> 00:25:48,799  
this is our tech

607  
00:25:52,789 --> 00:25:50,320  
um and i know people don't like that and

608  
00:25:55,350 --> 00:25:52,799  
i don't i don't you know if that's true

609  
00:25:55,830 --> 00:25:55,360  
i think it would be such a small amount

610  
00:25:59,029 --> 00:25:55,840  
that was

611  
00:26:00,549 --> 00:25:59,039  
ours or human tech we were and then they

612  
00:26:01,750 --> 00:26:00,559  
finished they go we were unable to

613  
00:26:03,909 --> 00:26:01,760

confirm however

614

00:26:05,350 --> 00:26:03,919

that those that these systems accounted

615

00:26:08,070 --> 00:26:05,360

for any of the uap

616

00:26:09,510 --> 00:26:08,080

reports we collected so they couldn't

617

00:26:12,870 --> 00:26:09,520

prove that any of these

618

00:26:14,630 --> 00:26:12,880

were our tech so the door is open a tiny

619

00:26:17,269 --> 00:26:14,640

bit to some of this being our tech but

620

00:26:18,870 --> 00:26:17,279

like i said if if we have some of us

621

00:26:21,750 --> 00:26:18,880

some of this tech

622

00:26:23,510 --> 00:26:21,760

it may not be seen by our guys maybe the

623

00:26:26,950 --> 00:26:23,520

people who run that tech if it's

624

00:26:29,029 --> 00:26:26,960

you know it's an extremely hidden

625

00:26:30,149 --> 00:26:29,039

unacknowledged special access program

626

00:26:33,269 --> 00:26:30,159

you know they're smart enough

627

00:26:34,789 --> 00:26:33,279

not to be caught on our sensors but

628

00:26:37,269 --> 00:26:34,799

no proof of that just comments from

629

00:26:39,510 --> 00:26:37,279

people like will miller and other people

630

00:26:41,510 --> 00:26:39,520

then they go foreign adversary adversary

631

00:26:43,990 --> 00:26:41,520

systems some uap may be

632

00:26:46,149 --> 00:26:44,000

technologies deployed by china russia

633

00:26:49,269 --> 00:26:46,159

another nation or a non-governmental

634

00:26:50,549 --> 00:26:49,279

entity non-governmental entity what is

635

00:26:53,750 --> 00:26:50,559

that i mean

636

00:26:54,870 --> 00:26:53,760

just some civilians i mean just i mean

637

00:26:56,230 --> 00:26:54,880

yeah i guess it could be like a

638

00:26:57,909 --> 00:26:56,240

terrorist group that has

639

00:26:59,669 --> 00:26:57,919

you know rogue away has spoken about

640

00:27:02,950 --> 00:26:59,679

some of the drones

641

00:27:03,669 --> 00:27:02,960

um so then they go other which we care

642

00:27:05,669 --> 00:27:03,679

about

643

00:27:07,590 --> 00:27:05,679

although most of the of the uap

644

00:27:09,830 --> 00:27:07,600

described in our data set

645

00:27:11,510 --> 00:27:09,840

probably remain unidentified due to

646

00:27:14,070 --> 00:27:11,520

limited data

647

00:27:15,510 --> 00:27:14,080

or challenges to collection processing

648

00:27:18,070 --> 00:27:15,520

or analysis

649

00:27:20,389 --> 00:27:18,080

we may require additional scientific

650

00:27:23,029 --> 00:27:20,399

knowledge to successfully collect on

651  
00:27:23,909 --> 00:27:23,039  
analyze and characterize some of them we

652  
00:27:25,990 --> 00:27:23,919  
would group such

653  
00:27:28,470 --> 00:27:26,000  
objects in this character category

654  
00:27:30,630 --> 00:27:28,480  
pending scientific advances that allowed

655  
00:27:32,789 --> 00:27:30,640  
us to better understand them

656  
00:27:33,750 --> 00:27:32,799  
the uap task force intends to focus

657  
00:27:36,070 --> 00:27:33,760  
additional

658  
00:27:38,389 --> 00:27:36,080  
analysis on the small number of cases

659  
00:27:39,750 --> 00:27:38,399  
where a uap appeared to display unusual

660  
00:27:43,110 --> 00:27:39,760  
flight characteristics

661  
00:27:46,470 --> 00:27:43,120  
or signature management

662  
00:27:50,389 --> 00:27:46,480  
uap threatened flight safety

663  
00:27:53,909 --> 00:27:50,399

uap threaten flight safety and possibly

664

00:27:56,789 --> 00:27:53,919

national security uap pose a hazard and

665

00:27:59,350 --> 00:27:56,799

we're on page six now of nine

666

00:28:01,269 --> 00:27:59,360

uap pose a hazard to safety of flight

667

00:28:02,310 --> 00:28:01,279

and could pose a broader danger if some

668

00:28:03,990 --> 00:28:02,320

instances

669

00:28:05,909 --> 00:28:04,000

represent sophisticated collection

670

00:28:06,870 --> 00:28:05,919

against us military activities by a

671

00:28:08,710 --> 00:28:06,880

foreign government

672

00:28:11,350 --> 00:28:08,720

or demonstrate a breakthrough aerospace

673

00:28:13,750 --> 00:28:11,360

technology by a potential adversary

674

00:28:16,070 --> 00:28:13,760

yeah i think the first possibility which

675

00:28:18,149 --> 00:28:16,080

tyler rogoway has written about a lot

676

00:28:19,110 --> 00:28:18,159

it's possible with some of these objects

677

00:28:20,870 --> 00:28:19,120

but

678

00:28:22,230 --> 00:28:20,880

i don't think russia or china has had

679

00:28:23,269 --> 00:28:22,240

any breakthroughs like this if we're

680

00:28:24,870 --> 00:28:23,279

talking about

681

00:28:26,549 --> 00:28:24,880

you know the ones that are taking off

682

00:28:29,590 --> 00:28:26,559

instantaneously

683

00:28:32,789 --> 00:28:29,600

five five observable territory

684

00:28:34,789 --> 00:28:32,799

ongoing aerospace concerns let's go

685

00:28:35,830 --> 00:28:34,799

check in on the chat just to make sure

686

00:28:41,590 --> 00:28:35,840

you guys are still

687

00:28:47,430 --> 00:28:44,870

still hear me okay

688

00:28:52,149 --> 00:28:47,440

and i will add in callers as soon as i'm

689

00:28:56,830 --> 00:28:53,350

all right i'll assume that you can still

690

00:29:03,269 --> 00:29:00,230

hopefully ongoing

691

00:29:05,110 --> 00:29:03,279

airspace concerns when aviators

692

00:29:06,789 --> 00:29:05,120

encounter safety hazards and i realize

693

00:29:07,110 --> 00:29:06,799

this is boring reading but i mean i want

694

00:29:08,870 --> 00:29:07,120

to

695

00:29:10,230 --> 00:29:08,880

get it on the record i'll read it

696

00:29:10,710 --> 00:29:10,240

especially people who are still having

697

00:29:13,269 --> 00:29:10,720

problems

698

00:29:15,190 --> 00:29:13,279

accessing the site when aviators

699

00:29:17,110 --> 00:29:15,200

encounter safety hazards they are

700

00:29:18,870 --> 00:29:17,120

required to report these concerns

701  
00:29:20,389 --> 00:29:18,880  
depending on the location volume and

702  
00:29:23,510 --> 00:29:20,399  
behavior of hazards during

703  
00:29:25,830 --> 00:29:23,520  
incursions on ranges pilots may

704  
00:29:27,029 --> 00:29:25,840  
cease their tests and or training to

705  
00:29:28,549 --> 00:29:27,039  
land their aircraft

706  
00:29:31,590 --> 00:29:28,559  
which has a deterrent effect on

707  
00:29:34,389 --> 00:29:31,600  
reporting the uap task force has 11

708  
00:29:36,389 --> 00:29:34,399  
reports of documented instant instances

709  
00:29:37,750 --> 00:29:36,399  
in which pilots reported near misses

710  
00:29:39,029 --> 00:29:37,760  
with a uap

711  
00:29:40,870 --> 00:29:39,039  
that alone you would think they would

712  
00:29:42,470 --> 00:29:40,880  
make this a priority

713  
00:29:44,389 --> 00:29:42,480

shouldn't have taken this long to even

714

00:29:47,590 --> 00:29:44,399

to get to this point

715

00:29:49,029 --> 00:29:47,600

potential national security challenges

716

00:29:51,669 --> 00:29:49,039

how much you want to make it bet they

717

00:29:55,269 --> 00:29:51,679

don't discuss slide nine

718

00:29:57,830 --> 00:29:55,279

i'm being sarcastic we currently lack

719

00:29:59,669 --> 00:29:57,840

data to indicate any uap are part of a

720

00:30:01,029 --> 00:29:59,679

foreign collection program

721

00:30:02,789 --> 00:30:01,039

i mean that's a pretty big deal right

722

00:30:05,909 --> 00:30:02,799

here we currently lack

723

00:30:08,230 --> 00:30:05,919

data to indicate any uap

724

00:30:09,350 --> 00:30:08,240

are part of a foreign collection program

725

00:30:11,830 --> 00:30:09,360

or indeed

726  
00:30:13,990 --> 00:30:11,840  
indicative of a major technological

727  
00:30:16,950 --> 00:30:14,000  
advancement by a potential adversary

728  
00:30:17,510 --> 00:30:16,960  
in other words we don't have any data

729  
00:30:20,630 --> 00:30:17,520  
that to

730  
00:30:21,430 --> 00:30:20,640  
indicate that this is russia or china or

731  
00:30:24,389 --> 00:30:21,440  
whoever

732  
00:30:26,710 --> 00:30:24,399  
as far as foreign adversary we continue

733  
00:30:28,230 --> 00:30:26,720  
to monitor for evidence of such programs

734  
00:30:31,190 --> 00:30:28,240  
given the counter intelligence

735  
00:30:33,350 --> 00:30:31,200  
challenge they would pose particularly

736  
00:30:35,909 --> 00:30:33,360  
as some uap have been detected near

737  
00:30:36,710 --> 00:30:35,919  
military facilities or by aircraft

738  
00:30:38,310 --> 00:30:36,720

carrying

739

00:30:40,149 --> 00:30:38,320

the united states government's most

740

00:30:42,070 --> 00:30:40,159

advanced sensor systems so in other

741

00:30:44,230 --> 00:30:42,080

words tyler rogoway's idea that this is

742

00:30:48,950 --> 00:30:44,240

russia and china soaking up our data

743

00:30:52,070 --> 00:30:48,960

they found no data to indicate that so

744

00:30:55,350 --> 00:30:52,080

that's important explaining uap

745

00:30:55,750 --> 00:30:55,360

will will require analytic collection

746

00:31:05,190 --> 00:30:55,760

and

747

00:31:07,269 --> 00:31:05,200

in line with the provisions of senate

748

00:31:11,269 --> 00:31:07,279

report blah blah blah accompanying the

749

00:31:13,350 --> 00:31:11,279

da da for fy 2021 the uap task force

750

00:31:15,430 --> 00:31:13,360

long-term goal is to widen the scope

751  
00:31:16,950 --> 00:31:15,440  
of its work to include additional uap

752  
00:31:18,950 --> 00:31:16,960  
events documented

753  
00:31:20,389 --> 00:31:18,960  
by a broader swath of united states

754  
00:31:22,070 --> 00:31:20,399  
government personnel and technical

755  
00:31:24,870 --> 00:31:22,080  
systems in its analysis

756  
00:31:27,350 --> 00:31:24,880  
as the data set increases the uap task

757  
00:31:28,710 --> 00:31:27,360  
force ability to employ data analytics

758  
00:31:32,950 --> 00:31:28,720  
to detect trends

759  
00:31:35,269 --> 00:31:32,960  
will also improve the initial focus will

760  
00:31:38,870 --> 00:31:35,279  
be to employ artificial intelligence

761  
00:31:41,750 --> 00:31:38,880  
machine learning algorithms to cluster

762  
00:31:43,669 --> 00:31:41,760  
and recognize similarities and patterns

763  
00:31:45,350 --> 00:31:43,679

in features of the data points and

764

00:31:46,630 --> 00:31:45,360

that's the scout i think that's what the

765

00:31:47,590 --> 00:31:46,640

long is talking about with the scout

766

00:31:51,190 --> 00:31:47,600

program using

767

00:31:54,549 --> 00:31:51,200

ai to just focus on the important

768

00:31:55,830 --> 00:31:54,559

encounters and sightings as the date and

769

00:31:57,190 --> 00:31:55,840

i'm not saying they're using that same

770

00:31:59,269 --> 00:31:57,200

thing but that's something

771

00:32:00,310 --> 00:31:59,279

connected to ttsa which is not dead by

772

00:32:02,470 --> 00:32:00,320

the way or

773

00:32:04,389 --> 00:32:02,480

maybe on maybe on their final legs but i

774

00:32:05,590 --> 00:32:04,399

think their entertainment may save them

775

00:32:08,230 --> 00:32:05,600

financially

776  
00:32:09,750 --> 00:32:08,240  
as the database accumulates information

777  
00:32:10,630 --> 00:32:09,760  
from known aerial objects such as

778  
00:32:13,669 --> 00:32:10,640  
weather balloons

779  
00:32:17,029 --> 00:32:13,679  
high altitude or super pressure balloons

780  
00:32:19,990 --> 00:32:17,039  
and wildlife mick west

781  
00:32:21,110 --> 00:32:20,000  
seagulls machine learning can add

782  
00:32:23,590 --> 00:32:21,120  
efficiency

783  
00:32:24,950 --> 00:32:23,600  
by pre-assessing uap reports to see if

784  
00:32:28,310 --> 00:32:24,960  
those records match

785  
00:32:30,230 --> 00:32:28,320  
similar events already in the database

786  
00:32:32,630 --> 00:32:30,240  
the uap task force has begun to develop

787  
00:32:34,470 --> 00:32:32,640  
interagency analytical and processing

788  
00:32:35,269 --> 00:32:34,480

workflows to ensure both collection and

789

00:32:38,710 --> 00:32:35,279

analysis

790

00:32:40,830 --> 00:32:38,720

will be well informed and coordinated

791

00:32:41,990 --> 00:32:40,840

the majority and we're on page seven of

792

00:32:44,149 --> 00:32:42,000

nine

793

00:32:46,149 --> 00:32:44,159

the majority of uap data is from united

794

00:32:46,789 --> 00:32:46,159

states navy reporting but efforts are

795

00:32:49,350 --> 00:32:46,799

underway

796

00:32:51,590 --> 00:32:49,360

to standardize incident reporting across

797

00:32:54,310 --> 00:32:51,600

united states military services

798

00:32:56,630 --> 00:32:54,320

very good thing and other government

799

00:32:57,269 --> 00:32:56,640

agencies to ensure all relevant data is

800

00:32:58,470 --> 00:32:57,279

captured

801  
00:32:59,909 --> 00:32:58,480  
of course that should have been going on

802  
00:33:01,350 --> 00:32:59,919  
now and it probably was we just don't

803  
00:33:03,830 --> 00:33:01,360  
know about that data

804  
00:33:05,909 --> 00:33:03,840  
with respect to particular incidents and

805  
00:33:06,950 --> 00:33:05,919  
any united states activities that might

806  
00:33:09,029 --> 00:33:06,960  
be relevant

807  
00:33:10,950 --> 00:33:09,039  
the uap task force is currently working

808  
00:33:12,789 --> 00:33:10,960  
to acquire additional reporting

809  
00:33:14,470 --> 00:33:12,799  
including from the united states air

810  
00:33:17,350 --> 00:33:14,480  
force and has begun receiving

811  
00:33:18,389 --> 00:33:17,360  
begun receiving data from the faa

812  
00:33:23,110 --> 00:33:18,399  
federal aviation

813  
00:33:26,870 --> 00:33:24,950

this is all good but this you know this

814

00:33:28,310 --> 00:33:26,880

has been going on for the last 70 years

815

00:33:30,230 --> 00:33:28,320

so

816

00:33:32,230 --> 00:33:30,240

and they have data already stored in

817

00:33:35,190 --> 00:33:32,240

warehouses according to jeremy corbell

818

00:33:35,990 --> 00:33:35,200

and dr eric davis so we need to get that

819

00:33:37,590 --> 00:33:36,000

stuff

820

00:33:39,430 --> 00:33:37,600

although united states air force data

821

00:33:39,750 --> 00:33:39,440

collection has been limited historically

822

00:33:44,710 --> 00:33:39,760

by

823

00:33:46,149 --> 00:33:44,720

let me start again although united

824

00:33:48,789 --> 00:33:46,159

states air force data collection has

825

00:33:51,269 --> 00:33:48,799

been limited historically by

826  
00:33:52,549 --> 00:33:51,279  
limited historically the u.s air force

827  
00:33:55,190 --> 00:33:52,559  
began a six-month

828  
00:33:56,789 --> 00:33:55,200  
pilot program this is brand new the

829  
00:34:00,389 --> 00:33:56,799  
united states air force began a

830  
00:34:03,029 --> 00:34:00,399  
six-month pilot program in november 2020

831  
00:34:04,710 --> 00:34:03,039  
to collect in the most likely areas to

832  
00:34:06,630 --> 00:34:04,720  
encounter uap

833  
00:34:08,310 --> 00:34:06,640  
and is evaluating how to normalize

834  
00:34:11,589 --> 00:34:08,320  
future collection reporting

835  
00:34:14,629 --> 00:34:11,599  
and analysis across the entire air force

836  
00:34:15,669 --> 00:34:14,639  
that's you know the air force has been

837  
00:34:17,990 --> 00:34:15,679  
so quiet i know

838  
00:34:20,310 --> 00:34:18,000

behind the scenes pilots have been

839

00:34:23,270 --> 00:34:20,320

sharing some of their experiences

840

00:34:25,030 --> 00:34:23,280

um but that's that's new information

841

00:34:27,109 --> 00:34:25,040

that they have a pilot program and

842

00:34:28,310 --> 00:34:27,119

let's see what they come up with you

843

00:34:29,909 --> 00:34:28,320

know because they're everywhere it's not

844

00:34:32,790 --> 00:34:29,919

just out over the ocean

845

00:34:34,230 --> 00:34:32,800

um we'd love to see what kind of data

846

00:34:35,990 --> 00:34:34,240

they've collected so far you know that

847

00:34:38,470 --> 00:34:36,000

started november of 2020

848

00:34:40,069 --> 00:34:38,480

the faa captures data related to uap

849

00:34:41,589 --> 00:34:40,079

during the normal courses of managing

850

00:34:45,270 --> 00:34:41,599

air traffic operations

851  
00:34:47,430 --> 00:34:45,280  
the faa faa generally ingests this data

852  
00:34:49,030 --> 00:34:47,440  
when pilots and other airspace users

853  
00:34:52,069 --> 00:34:49,040  
report unusual or expect

854  
00:34:52,869 --> 00:34:52,079  
unexpected events to the faa air traffic

855  
00:34:55,109 --> 00:34:52,879  
organization

856  
00:34:56,550 --> 00:34:55,119  
and tyler rogoway has done fantastic

857  
00:34:58,230 --> 00:34:56,560  
work on that

858  
00:35:00,550 --> 00:34:58,240  
getting some of the audios from some of

859  
00:35:01,670 --> 00:35:00,560  
those ufo reports from i think the last

860  
00:35:04,230 --> 00:35:01,680  
one was united

861  
00:35:05,430 --> 00:35:04,240  
airlines in addition the faa

862  
00:35:07,990 --> 00:35:05,440  
continuously monitors

863  
00:35:09,910 --> 00:35:08,000

monitors its systems for anomalies

864

00:35:11,349 --> 00:35:09,920

generating additional information that

865

00:35:14,950 --> 00:35:11,359

may be of use to the uap

866

00:35:17,109 --> 00:35:14,960

task force the more data the better

867

00:35:19,030 --> 00:35:17,119

the faa is able to isolate data of

868

00:35:19,910 --> 00:35:19,040

interest to the uap task force and make

869

00:35:22,069 --> 00:35:19,920

it available

870

00:35:23,670 --> 00:35:22,079

the faa has a robust and effective

871

00:35:26,069 --> 00:35:23,680

outreach program that can help

872

00:35:27,829 --> 00:35:26,079

the uap task force reach members of the

873

00:35:29,670 --> 00:35:27,839

aviation community to highlight the

874

00:35:33,670 --> 00:35:29,680

importance of reporting

875

00:35:35,910 --> 00:35:33,680

uap so

876  
00:35:37,670 --> 00:35:35,920  
still page seven but we're ending coming

877  
00:35:39,990 --> 00:35:37,680  
to the end of page seven

878  
00:35:44,710 --> 00:35:40,000  
ignore the background noise because

879  
00:35:46,630 --> 00:35:44,720  
that's fine

880  
00:35:48,790 --> 00:35:46,640  
the uap task force i need to put my dog

881  
00:35:51,109 --> 00:35:48,800  
on camera like linda molten howe

882  
00:35:52,710 --> 00:35:51,119  
and then i could i won't share that

883  
00:35:53,190 --> 00:35:52,720  
story i don't think you guys know that

884  
00:35:54,550 --> 00:35:53,200  
story but

885  
00:35:55,910 --> 00:35:54,560  
maybe you do when linda moulton how has

886  
00:35:57,990 --> 00:35:55,920  
talked about how she got her cat in a

887  
00:36:00,390 --> 00:35:58,000  
portal he showed up after he died

888  
00:36:02,150 --> 00:36:00,400

died and she's on the bed explaining

889

00:36:03,349 --> 00:36:02,160

it's very odd in a hotel room with grant

890

00:36:05,750 --> 00:36:03,359

cameron

891

00:36:07,030 --> 00:36:05,760

um i saw that when i was in laughlin i

892

00:36:09,349 --> 00:36:07,040

may have seen it originally when it was

893

00:36:11,670 --> 00:36:09,359

first posted but anyway i'm off track

894

00:36:13,510 --> 00:36:11,680

the uap task force is looking for novel

895

00:36:15,589 --> 00:36:13,520

ways to increase collection of uap

896

00:36:16,630 --> 00:36:15,599

cluster areas when united states forces

897

00:36:19,430 --> 00:36:16,640

are not present

898

00:36:20,230 --> 00:36:19,440

or a way to baseline standard uap tech

899

00:36:22,310 --> 00:36:20,240

activity

900

00:36:24,150 --> 00:36:22,320

and mitigate the collection bias in the

901  
00:36:26,390 --> 00:36:24,160  
data set

902  
00:36:27,190 --> 00:36:26,400  
one proposal is to use advanced

903  
00:36:31,750 --> 00:36:27,200  
algorithm

904  
00:36:32,950 --> 00:36:31,760  
captured and stored by radars here we go

905  
00:36:35,349 --> 00:36:32,960  
that's what we need

906  
00:36:36,950 --> 00:36:35,359  
historical data that's where we have a

907  
00:36:38,950 --> 00:36:36,960  
ton of data

908  
00:36:40,870 --> 00:36:38,960  
and use algorithms to search that

909  
00:36:43,190 --> 00:36:40,880  
historical data

910  
00:36:45,030 --> 00:36:43,200  
captured and stored by radars that's a

911  
00:36:46,630 --> 00:36:45,040  
big deal and that could be done

912  
00:36:49,190 --> 00:36:46,640  
that could be done get those programs

913  
00:36:51,030 --> 00:36:49,200

going show us what they collected

914

00:36:52,950 --> 00:36:51,040

of course if it's in a special access

915

00:36:55,430 --> 00:36:52,960

program that's another story

916

00:36:57,190 --> 00:36:55,440

the uap task force also plans to update

917

00:36:59,510 --> 00:36:57,200

its current interagency uap

918

00:37:01,510 --> 00:36:59,520

collection strategy to in order to bring

919

00:37:02,950 --> 00:37:01,520

to bear relevant collection platforms

920

00:37:07,349 --> 00:37:02,960

and methods from the dod

921

00:37:11,349 --> 00:37:09,270

increase investment in research and

922

00:37:13,510 --> 00:37:11,359

development finally make it permanent

923

00:37:15,349 --> 00:37:13,520

the uap task force has indicated that

924

00:37:17,750 --> 00:37:15,359

additional funding

925

00:37:18,390 --> 00:37:17,760

yes for research and development could

926  
00:37:22,790 --> 00:37:18,400  
further

927  
00:37:25,430 --> 00:37:22,800  
the topics laid out in this report

928  
00:37:26,069 --> 00:37:25,440  
such investments should be guided by a

929  
00:37:36,390 --> 00:37:26,079  
uap

930  
00:37:38,550 --> 00:37:36,400  
program plan

931  
00:37:40,630 --> 00:37:38,560  
we are in i think that's it we're in

932  
00:37:43,030 --> 00:37:40,640  
page eight it's appendix a definition of

933  
00:37:48,630 --> 00:37:43,040  
terms uap we know uap event

934  
00:37:54,950 --> 00:37:52,950  
appendix b goes through the report how

935  
00:37:58,790 --> 00:37:54,960  
it was

936  
00:38:00,310 --> 00:37:58,800  
asked for which we've seen before

937  
00:38:02,829 --> 00:38:00,320  
geospatial intelligence signals

938  
00:38:05,990 --> 00:38:02,839

intelligence human intelligence

939

00:38:06,630 --> 00:38:06,000

um yeah i don't need to read that it's

940

00:38:09,510 --> 00:38:06,640

just

941

00:38:12,069 --> 00:38:09,520

so that's it it it is a nothing burger

942

00:38:14,069 --> 00:38:12,079

for the most part i mean

943

00:38:16,230 --> 00:38:14,079

but like i said i'm not disappointed but

944

00:38:17,670 --> 00:38:16,240

the air force information is new

945

00:38:21,589 --> 00:38:17,680

and i'm going to send out the link so

946

00:38:33,990 --> 00:38:25,750

you guys can join in and express your

947

00:38:38,710 --> 00:38:37,430

disappointing to most report so there's

948

00:38:43,990 --> 00:38:38,720

the

949

00:38:44,000 --> 00:38:48,630

i'll put it out on twitter too

950

00:38:52,150 --> 00:38:50,069

i know that was boring but i wanted to

951  
00:38:53,990 --> 00:38:52,160  
get that done and i was

952  
00:38:58,829 --> 00:38:54,000  
i was reading it as you guys learned

953  
00:38:58,839 --> 00:39:13,190  
twitter

954  
00:39:13,200 --> 00:39:17,190  
give me a second

955  
00:39:29,030 --> 00:39:21,030  
and or this appointment with

956  
00:39:33,750 --> 00:39:29,040  
the report

957  
00:39:33,760 --> 00:39:38,390  
really curious to see what lou

958  
00:39:42,150 --> 00:39:40,150  
has to say about this i would think he

959  
00:39:44,150 --> 00:39:42,160  
would comment pretty soon if he hasn't

960  
00:39:45,589 --> 00:39:44,160  
already if anybody sees that let me know

961  
00:39:54,829 --> 00:39:45,599  
and call in and let me know

962  
00:39:54,839 --> 00:39:59,670  
this

963  
00:39:59,680 --> 00:40:09,109

just give me a second and that is there

964

00:40:13,270 --> 00:40:10,150

all right let me add some of the

965

00:40:16,790 --> 00:40:13,280

hopefully there's chris i will add chris

966

00:40:19,990 --> 00:40:16,800

and omega and

967

00:40:22,710 --> 00:40:20,000

bad you guys are both there

968

00:40:23,109 --> 00:40:22,720

thanks for coming on omega and chris no

969

00:40:25,670 --> 00:40:23,119

problem

970

00:40:26,470 --> 00:40:25,680

oh let me put my audio up not going to

971

00:40:29,990 --> 00:40:26,480

hear me

972

00:40:31,190 --> 00:40:30,000

do you think i can hear you

973

00:40:33,589 --> 00:40:31,200

what do you think about the nothing

974

00:40:35,349 --> 00:40:33,599

burger it wasn't that bad

975

00:40:37,270 --> 00:40:35,359

no it wasn't it wasn't that bad i mean

976  
00:40:39,030 --> 00:40:37,280  
like i said i'm not disappointed

977  
00:40:40,870 --> 00:40:39,040  
because i had my expectations and i'm

978  
00:40:41,750 --> 00:40:40,880  
not i'm not one to normally lower my

979  
00:40:43,829 --> 00:40:41,760  
expectations

980  
00:40:45,349 --> 00:40:43,839  
because last you know last year i was

981  
00:40:46,630 --> 00:40:45,359  
the opposite i hyped the hell out of the

982  
00:40:47,270 --> 00:40:46,640  
new york times and when it came out and

983  
00:40:49,190 --> 00:40:47,280  
i read

984  
00:40:50,710 --> 00:40:49,200  
the article i was like no really where's

985  
00:40:52,950 --> 00:40:50,720  
the real article this is not the real

986  
00:40:54,470 --> 00:40:52,960  
article so yeah but like i said a couple

987  
00:40:56,069 --> 00:40:54,480  
of months ago i was told

988  
00:40:57,190 --> 00:40:56,079

the plan was not even to have a public

989

00:40:57,670 --> 00:40:57,200

report there were certain people that

990

00:40:58,950 --> 00:40:57,680

didn't

991

00:41:00,710 --> 00:40:58,960

not want it to come out i don't want to

992

00:41:01,270 --> 00:41:00,720

say who those people were but i was like

993

00:41:04,150 --> 00:41:01,280

really

994

00:41:06,390 --> 00:41:04,160

they said you know what that was

995

00:41:07,030 --> 00:41:06,400

inaccurate information but some people

996

00:41:09,750 --> 00:41:07,040

are going to say

997

00:41:10,630 --> 00:41:09,760

what we saw was really nothing you know

998

00:41:14,870 --> 00:41:10,640

substantive

999

00:41:16,550 --> 00:41:14,880

because i've shared with you privately

1000

00:41:20,230 --> 00:41:16,560

and i've shared with omega too that

1001  
00:41:23,190 --> 00:41:20,240  
i'm aware that the homeland security was

1002  
00:41:25,109 --> 00:41:23,200  
had to give up their goods so i'm i'm

1003  
00:41:26,550 --> 00:41:25,119  
bummed that it was not included but i

1004  
00:41:27,589 --> 00:41:26,560  
understand obviously for future

1005  
00:41:29,750 --> 00:41:27,599  
reporting

1006  
00:41:31,589 --> 00:41:29,760  
that that is a possibility so we're

1007  
00:41:33,270 --> 00:41:31,599  
going to have

1008  
00:41:34,630 --> 00:41:33,280  
if anybody's going to collect a lot of

1009  
00:41:37,910 --> 00:41:34,640  
data that would be them

1010  
00:41:39,910 --> 00:41:37,920  
in my opinion right and then it was

1011  
00:41:41,990 --> 00:41:39,920  
it was one another one that lou had

1012  
00:41:43,349 --> 00:41:42,000  
mentioned uh border customs and

1013  
00:41:45,109 --> 00:41:43,359

border control which i didn't really i'm

1014

00:41:47,030 --> 00:41:45,119

like really border but then i'm thinking

1015

00:41:49,829 --> 00:41:47,040

aguadilla because

1016

00:41:50,309 --> 00:41:49,839

well they fall under ghs so yeah i mean

1017

00:41:57,990 --> 00:41:50,319

they

1018

00:42:01,349 --> 00:41:58,000

are you there omega you're there now

1019

00:42:04,390 --> 00:42:01,359

yep i'm here what do you think um

1020

00:42:06,950 --> 00:42:04,400

so at first when i was reading it i

1021

00:42:08,230 --> 00:42:06,960

felt like it was i hate that word but

1022

00:42:10,870 --> 00:42:08,240

the nothing burger

1023

00:42:12,390 --> 00:42:10,880

but now i see it as an attempted nothing

1024

00:42:14,230 --> 00:42:12,400

burger but there's definitely

1025

00:42:15,589 --> 00:42:14,240

some some nuggets that are in there i

1026  
00:42:16,470 --> 00:42:15,599  
mean i think the thing that popped out

1027  
00:42:18,309 --> 00:42:16,480  
to me

1028  
00:42:19,510 --> 00:42:18,319  
first and foremost was on the other

1029  
00:42:21,190 --> 00:42:19,520  
category

1030  
00:42:23,589 --> 00:42:21,200  
when it goes into the the second

1031  
00:42:25,349 --> 00:42:23,599  
description the more detailed the other

1032  
00:42:26,710 --> 00:42:25,359  
uh the more detailed description of the

1033  
00:42:28,950 --> 00:42:26,720  
other category

1034  
00:42:30,470 --> 00:42:28,960  
it says that they put things in there

1035  
00:42:34,950 --> 00:42:30,480  
that they may need

1036  
00:42:38,150 --> 00:42:34,960  
advances in science to understand

1037  
00:42:39,910 --> 00:42:38,160  
um which seems very different from

1038  
00:42:42,550 --> 00:42:39,920

what they characterized it as in the

1039

00:42:44,069 --> 00:42:42,560

beginning as a catch-all bin

1040

00:42:45,589 --> 00:42:44,079

if it's a catch-all bin it seems like

1041

00:42:46,870 --> 00:42:45,599

everything belongs in the catch-all bin

1042

00:42:48,309 --> 00:42:46,880

right now because they only have one

1043

00:42:50,230 --> 00:42:48,319

thing that

1044

00:42:52,230 --> 00:42:50,240

they were able to identify with high

1045

00:42:53,510 --> 00:42:52,240

confidence and it was a deflated balloon

1046

00:42:55,829 --> 00:42:53,520

so it seems like

1047

00:42:57,510 --> 00:42:55,839

uh from that perspective they've left

1048

00:42:59,190 --> 00:42:57,520

everything on the table

1049

00:43:01,430 --> 00:42:59,200

but that other category seems really

1050

00:43:03,430 --> 00:43:01,440

interesting especially the bit about

1051  
00:43:04,470 --> 00:43:03,440  
needing advances in in science to

1052  
00:43:06,309 --> 00:43:04,480  
understand

1053  
00:43:08,069 --> 00:43:06,319  
that's huge and then also the other

1054  
00:43:09,910 --> 00:43:08,079  
thing that really stuck out to me

1055  
00:43:11,349 --> 00:43:09,920  
was saying that they had no data to

1056  
00:43:12,790 --> 00:43:11,359  
support and i know that you pointed this

1057  
00:43:14,710 --> 00:43:12,800  
out as well as you were reading

1058  
00:43:16,150 --> 00:43:14,720  
they had no data at this point to

1059  
00:43:18,150 --> 00:43:16,160  
support

1060  
00:43:19,349 --> 00:43:18,160  
that any of this technology was

1061  
00:43:22,710 --> 00:43:19,359  
adversarial

1062  
00:43:24,790 --> 00:43:22,720  
um so that that's really interesting and

1063  
00:43:26,550 --> 00:43:24,800

uh obviously that getting the faa

1064

00:43:27,430 --> 00:43:26,560

involved is huge and that's something

1065

00:43:29,910 --> 00:43:27,440

we've been

1066

00:43:31,109 --> 00:43:29,920

clamoring for um finding out about the

1067

00:43:34,470 --> 00:43:31,119

air force

1068

00:43:36,630 --> 00:43:34,480

pilot program is great yeah

1069

00:43:38,870 --> 00:43:36,640

so i'm i'm excited by this i think it's

1070

00:43:41,030 --> 00:43:38,880

just a first step

1071

00:43:42,790 --> 00:43:41,040

and and i think that there's lots more

1072

00:43:45,270 --> 00:43:42,800

to come it seems like

1073

00:43:46,230 --> 00:43:45,280

you know it's it's it's funny because oh

1074

00:43:49,510 --> 00:43:46,240

i am

1075

00:43:50,790 --> 00:43:49,520

usually i will i will my first response

1076

00:43:53,109 --> 00:43:50,800

is always like

1077

00:43:54,630 --> 00:43:53,119

tempered but then as time goes on

1078

00:43:55,990 --> 00:43:54,640

sometimes i'll get like i was mad at the

1079

00:43:56,950 --> 00:43:56,000

the new york times report but then as

1080

00:43:58,230 --> 00:43:56,960

time went on i'm like there's some

1081

00:43:58,790 --> 00:43:58,240

really good stuff in here and what you

1082

00:44:00,630 --> 00:43:58,800

just said

1083

00:44:02,150 --> 00:44:00,640

yeah and i just read it they basically

1084

00:44:03,430 --> 00:44:02,160

said there's no data this is this is

1085

00:44:05,430 --> 00:44:03,440

foreign adversarial

1086

00:44:06,710 --> 00:44:05,440

and there are there are people that will

1087

00:44:08,710 --> 00:44:06,720

say that's because they're not they

1088

00:44:11,349 --> 00:44:08,720

don't know about advanced drones yeah

1089

00:44:12,710 --> 00:44:11,359

our government the most advanced

1090

00:44:13,670 --> 00:44:12,720

military on the work in the world

1091

00:44:15,109 --> 00:44:13,680

doesn't doesn't know

1092

00:44:17,030 --> 00:44:15,119

all the advanced technology that

1093

00:44:18,790 --> 00:44:17,040

technology is out there they need to

1094

00:44:20,390 --> 00:44:18,800

they need to ask tyler rogoway

1095

00:44:22,230 --> 00:44:20,400

so they can be educated about it you

1096

00:44:25,190 --> 00:44:22,240

know it's like so that was a great

1097

00:44:26,470 --> 00:44:25,200

yeah that was a great part and i just

1098

00:44:30,150 --> 00:44:26,480

added in

1099

00:44:30,160 --> 00:44:35,589

jump in guys you guys are unmuted as of

1100

00:44:41,750 --> 00:44:38,710

now

1101

00:44:46,790 --> 00:44:41,760

think you have to unmute your

1102

00:44:53,270 --> 00:44:50,870

sorry um

1103

00:44:56,069 --> 00:44:53,280

yeah you guys are unmuted now omega is

1104

00:44:57,349 --> 00:44:56,079

muted back right now

1105

00:44:59,430 --> 00:44:57,359

just tuning in to hear what you're

1106

00:45:00,710 --> 00:44:59,440

saying yeah feel free to what do you

1107

00:45:01,750 --> 00:45:00,720

think did you get to see that you get to

1108

00:45:02,950 --> 00:45:01,760

read it or did you get to hear what i

1109

00:45:05,190 --> 00:45:02,960

had this you know i read it

1110

00:45:07,030 --> 00:45:05,200

all i was walking the dog when i was

1111

00:45:10,069 --> 00:45:07,040

reading it but yeah they uh

1112

00:45:11,190 --> 00:45:10,079

it seemed like uh it seemed like it was

1113

00:45:13,109 --> 00:45:11,200

an obligatory

1114

00:45:14,870 --> 00:45:13,119

thing that they they had to publish

1115

00:45:19,510 --> 00:45:14,880

without really giving any

1116

00:45:22,630 --> 00:45:19,520

real information that nothing new

1117

00:45:23,670 --> 00:45:22,640

nothing new except it is a good as omega

1118

00:45:25,270 --> 00:45:23,680

brought up

1119

00:45:27,430 --> 00:45:25,280

they said they had no data that it was

1120

00:45:28,150 --> 00:45:27,440

foreign adversarial and i did i did not

1121

00:45:32,309 --> 00:45:28,160

expect that

1122

00:45:33,910 --> 00:45:32,319

would say we suspect some of this may be

1123

00:45:36,069 --> 00:45:33,920

foreign adversarial

1124

00:45:37,670 --> 00:45:36,079

and then they also said they couldn't

1125

00:45:39,030 --> 00:45:37,680

they haven't totally ruled out that some

1126

00:45:42,230 --> 00:45:39,040

of this is our technology

1127

00:45:45,349 --> 00:45:42,240

um but none of the 100

1128

00:45:46,950 --> 00:45:45,359

whatever it was you know incidents

1129

00:45:48,790 --> 00:45:46,960

they they don't feel that any of those

1130

00:45:49,910 --> 00:45:48,800

are there's no data to connect it to our

1131

00:45:51,430 --> 00:45:49,920

technology so

1132

00:45:53,430 --> 00:45:51,440

there's some good things in there in the

1133

00:45:56,550 --> 00:45:53,440

in the air force report too

1134

00:45:57,589 --> 00:45:56,560

the air force report their pilot program

1135

00:46:00,710 --> 00:45:57,599

that started in

1136

00:46:02,150 --> 00:46:00,720

late 220 late 2020 is something i had no

1137

00:46:03,109 --> 00:46:02,160

none of us knew as far as i know i've

1138

00:46:04,950 --> 00:46:03,119

never heard that

1139

00:46:06,470 --> 00:46:04,960

i knew behind the scenes air force guys

1140

00:46:09,589 --> 00:46:06,480

were talking

1141

00:46:11,670 --> 00:46:09,599

but you know i did not

1142

00:46:14,069 --> 00:46:11,680

know it was good to see them acknowledge

1143

00:46:17,430 --> 00:46:14,079

that there was multiple

1144

00:46:21,109 --> 00:46:17,440

forms of data and eyewitness data

1145

00:46:23,349 --> 00:46:21,119

uh correlating to some of the uh

1146

00:46:24,230 --> 00:46:23,359

reports so i think that was important

1147

00:46:27,270 --> 00:46:24,240

for them to say

1148

00:46:29,670 --> 00:46:27,280

because folks like the

1149

00:46:30,390 --> 00:46:29,680

that television science guy has been

1150

00:46:33,829 --> 00:46:30,400

coming out

1151

00:46:35,750 --> 00:46:33,839

and saying that uh that court

1152

00:46:37,589 --> 00:46:35,760

kind of correlation didn't seem to exist

1153

00:46:38,390 --> 00:46:37,599

and this report is saying that it does

1154

00:46:39,750 --> 00:46:38,400

exist

1155

00:46:41,589 --> 00:46:39,760

which science guy do you know you

1156

00:46:42,550 --> 00:46:41,599

remember who you're talking uh he was

1157

00:46:45,990 --> 00:46:42,560

just on uh

1158

00:46:50,150 --> 00:46:46,000

bill maher a week ago uh

1159

00:46:54,390 --> 00:46:50,160

i can't remember his name it's uh tyson

1160

00:46:57,190 --> 00:46:54,400

oh tyson of course his name is good

1161

00:46:58,470 --> 00:46:57,200

last last name is tyson neil degrasse

1162

00:47:01,829 --> 00:46:58,480

tyson yeah yeah

1163

00:47:05,430 --> 00:47:01,839

what do you think pegasus well joe

1164

00:47:08,870 --> 00:47:05,440

excuse me uh certainly uh interesting

1165

00:47:15,589 --> 00:47:12,390

how are you we're good uh yeah

1166

00:47:15,910 --> 00:47:15,599

now in our background um i can confident

1167

00:47:19,430 --> 00:47:15,920

with

1168

00:47:21,910 --> 00:47:19,440

we're actually looking

1169

00:47:23,829 --> 00:47:21,920

at two separate things here one yeah

1170

00:47:26,230 --> 00:47:23,839

ultra terrestrial

1171

00:47:27,270 --> 00:47:26,240

the second is the extraterrestrial

1172

00:47:30,150 --> 00:47:27,280

aspect

1173

00:47:32,549 --> 00:47:30,160

now they can bury it underneath this uh

1174

00:47:35,589 --> 00:47:32,559

alien reproduction vehicle stuff

1175

00:47:37,829 --> 00:47:35,599

but um you know us

1176

00:47:39,670 --> 00:47:37,839

personally we have a completely

1177

00:47:42,950 --> 00:47:39,680

different opinion about

1178

00:47:44,309 --> 00:47:42,960

um what's going on out there and

1179

00:47:46,950 --> 00:47:44,319

do you mind do you mind if i tell people

1180

00:47:49,109 --> 00:47:46,960

who you are they're listening to

1181

00:47:50,309 --> 00:47:49,119

so this is mike this is michael so i

1182

00:47:50,790 --> 00:47:50,319

haven't heard from michael in a while

1183

00:47:52,549 --> 00:47:50,800

and

1184

00:47:53,910 --> 00:47:52,559

i kind of owed you texts or a phone call

1185

00:47:55,589 --> 00:47:53,920

but i haven't heard from in a while this

1186

00:47:58,309 --> 00:47:55,599

is michael and cindy

1187

00:48:00,150 --> 00:47:58,319

um and michael was on twitter for a

1188

00:48:02,630 --> 00:48:00,160

while a lot of you guys know him

1189

00:48:04,230 --> 00:48:02,640

and um really one of the most

1190

00:48:06,390 --> 00:48:04,240

interesting people i've ever

1191

00:48:08,069 --> 00:48:06,400

encountered basically interesting

1192

00:48:09,190 --> 00:48:08,079

background oh yeah thank you for that

1193

00:48:11,990 --> 00:48:09,200

joe we uh

1194

00:48:12,390 --> 00:48:12,000

we uh caught a lot of heat here a while

1195

00:48:15,510 --> 00:48:12,400

back

1196

00:48:17,750 --> 00:48:15,520

and uh we decided to uh

1197

00:48:19,270 --> 00:48:17,760

step away for a while uh cindy and i are

1198

00:48:20,470 --> 00:48:19,280

heading to long island tomorrow by the

1199

00:48:22,790 --> 00:48:20,480

way

1200

00:48:23,589 --> 00:48:22,800

we're going to pay a visit to some old

1201  
00:48:26,710 --> 00:48:23,599  
friends

1202  
00:48:28,069 --> 00:48:26,720  
and take a walk down memory lane if you

1203  
00:48:31,190 --> 00:48:28,079  
will

1204  
00:48:34,549 --> 00:48:31,200  
and maybe look back and reassess

1205  
00:48:36,790 --> 00:48:34,559  
our position with regard to

1206  
00:48:39,030 --> 00:48:36,800  
speaking out more vocally about some of

1207  
00:48:42,470 --> 00:48:39,040  
the things that we've experienced

1208  
00:48:42,790 --> 00:48:42,480  
so there's cindy pointed out i want to

1209  
00:48:46,230 --> 00:48:42,800  
point

1210  
00:48:47,750 --> 00:48:46,240  
out this report is just the beginning

1211  
00:48:50,470 --> 00:48:47,760  
there is a ton of stuff

1212  
00:48:51,750 --> 00:48:50,480  
in the pipeline and it all has to start

1213  
00:48:54,710 --> 00:48:51,760

somewhere

1214

00:48:56,870 --> 00:48:54,720

and this is as good a place as any i i

1215

00:48:58,390 --> 00:48:56,880

take my hat off the guys like uh luis

1216

00:49:01,510 --> 00:48:58,400

elizondo

1217

00:49:03,270 --> 00:49:01,520

uh tpsa who kind of got the ball rolling

1218

00:49:06,390 --> 00:49:03,280

a few mishaps along the way

1219

00:49:08,150 --> 00:49:06,400

but um the

1220

00:49:10,390 --> 00:49:08,160

the dimensions of the dialogue are

1221

00:49:14,309 --> 00:49:10,400

changing in a good way

1222

00:49:17,589 --> 00:49:14,319

they need to um from a

1223

00:49:18,150 --> 00:49:17,599

a human standpoint um our experience has

1224

00:49:21,109 --> 00:49:18,160

taught us

1225

00:49:24,309 --> 00:49:21,119

that um this planet is very important to

1226

00:49:27,109 --> 00:49:24,319

some of the agencies that are involved

1227

00:49:29,030 --> 00:49:27,119

and i'm not talking human agencies and

1228

00:49:29,670 --> 00:49:29,040

it's always been our contention cindy

1229

00:49:31,750 --> 00:49:29,680

and my

1230

00:49:33,510 --> 00:49:31,760

intention that disclosure as we

1231

00:49:36,470 --> 00:49:33,520

understand the term

1232

00:49:37,349 --> 00:49:36,480

is out of human hands now we may be able

1233

00:49:38,950 --> 00:49:37,359

to guide it

1234

00:49:40,790 --> 00:49:38,960

but we are not going to be the authors

1235

00:49:43,349 --> 00:49:40,800

of it and

1236

00:49:45,030 --> 00:49:43,359

i am you know my history and you know

1237

00:49:46,870 --> 00:49:45,040

what happened to us

1238

00:49:48,230 --> 00:49:46,880

yeah and i really want hopefully i get

1239

00:49:49,589 --> 00:49:48,240

people to hear your history

1240

00:49:51,510 --> 00:49:49,599

now that i could do now i feel more

1241

00:49:53,750 --> 00:49:51,520

comfortable doing live shows which i was

1242

00:49:54,549 --> 00:49:53,760

afraid i was chicken and [h\_\_h] to do in

1243

00:49:56,069 --> 00:49:54,559

the past

1244

00:49:57,430 --> 00:49:56,079

and i delayed so many times we could

1245

00:49:58,790 --> 00:49:57,440

definitely want to hear your story in

1246

00:50:00,950 --> 00:49:58,800

the future

1247

00:50:03,109 --> 00:50:00,960

cindy and i are not public speakers but

1248

00:50:05,030 --> 00:50:03,119

we do have backgrounds that i think can

1249

00:50:07,349 --> 00:50:05,040

add to the conversation

1250

00:50:08,390 --> 00:50:07,359

we've had experiences but i think first

1251  
00:50:11,510 --> 00:50:08,400  
off you know that

1252  
00:50:13,349 --> 00:50:11,520  
they are authentic um

1253  
00:50:14,710 --> 00:50:13,359  
i think that they'll have some value if

1254  
00:50:18,950 --> 00:50:14,720  
nothing else then

1255  
00:50:20,790 --> 00:50:18,960  
to add to the dialogue and um

1256  
00:50:22,870 --> 00:50:20,800  
you know we're concerned about our our

1257  
00:50:26,390 --> 00:50:22,880  
identities about being exposed because

1258  
00:50:27,910 --> 00:50:26,400  
we've lived very human lives and um

1259  
00:50:29,829 --> 00:50:27,920  
we've done some sketchy [h\_\_h] in our

1260  
00:50:32,549 --> 00:50:29,839  
world so

1261  
00:50:34,710 --> 00:50:32,559  
uh there's a element of risk involved we

1262  
00:50:36,309 --> 00:50:34,720  
like our anonymity we like

1263  
00:50:37,829 --> 00:50:36,319

people not knowing where we live

1264

00:50:39,510 --> 00:50:37,839

although there's a handful of people out

1265

00:50:41,270 --> 00:50:39,520

there who do

1266

00:50:43,109 --> 00:50:41,280

and we've discussed some of these

1267

00:50:44,790 --> 00:50:43,119

elements before and

1268

00:50:46,470 --> 00:50:44,800

uh cindy and i have both expressed our

1269

00:50:48,790 --> 00:50:46,480

concerns about them

1270

00:50:50,150 --> 00:50:48,800

but i think this report really is it's a

1271

00:50:51,750 --> 00:50:50,160

lot bigger than it

1272

00:50:53,430 --> 00:50:51,760

you can call it a nothing burger i'm not

1273

00:50:57,990 --> 00:50:53,440

sure what a nothing burger is

1274

00:51:01,670 --> 00:50:58,000

probably a roll with no hamburger in it

1275

00:51:06,069 --> 00:51:03,349

i got to tell you just we live in

1276

00:51:07,670 --> 00:51:06,079

exciting times and

1277

00:51:09,829 --> 00:51:07,680

this like i said it's just the beginning

1278

00:51:11,190 --> 00:51:09,839

wait till you see what lewis elizondo

1279

00:51:13,750 --> 00:51:11,200

has to say

1280

00:51:14,549 --> 00:51:13,760

and there i want you to know this too

1281

00:51:16,710 --> 00:51:14,559

that there are

1282

00:51:17,589 --> 00:51:16,720

people in the background waiting to

1283

00:51:20,549 --> 00:51:17,599

stand up

1284

00:51:21,990 --> 00:51:20,559

and step forward at the right time and

1285

00:51:23,510 --> 00:51:22,000

just let people know who who

1286

00:51:25,670 --> 00:51:23,520

are some of the friends that you have

1287

00:51:27,270 --> 00:51:25,680

you know well

1288

00:51:29,030 --> 00:51:27,280

um we live in a community where there's

1289

00:51:32,069 --> 00:51:29,040

a lot of retired military

1290

00:51:37,349 --> 00:51:32,079

a lot of active duty federal uh

1291

00:51:42,870 --> 00:51:41,109

and one guy

1292

00:51:45,349 --> 00:51:42,880

strategic air command another guy

1293

00:51:47,510 --> 00:51:45,359

retired army ranger

1294

00:51:49,670 --> 00:51:47,520

you know my background right military

1295

00:51:53,589 --> 00:51:49,680

service army and marines

1296

00:51:54,870 --> 00:51:53,599

and um and what's the word from some of

1297

00:51:57,430 --> 00:51:54,880

these folks

1298

00:51:58,150 --> 00:51:57,440

well first off uh it's a it's not a

1299

00:52:02,230 --> 00:51:58,160

phenomena

1300

00:52:04,230 --> 00:52:02,240

as much as it is of a reality

1301

00:52:06,790 --> 00:52:04,240

we are being visited by both

1302

00:52:11,190 --> 00:52:06,800

extraterrestrial and ultraterrestrial

1303

00:52:13,190 --> 00:52:11,200

um agencies intelligences and

1304

00:52:15,109 --> 00:52:13,200

some of them have a vested interest in

1305

00:52:16,950 --> 00:52:15,119

the survival of this planet and right

1306

00:52:18,390 --> 00:52:16,960

now we're doing a really crappy job of

1307

00:52:20,069 --> 00:52:18,400

taking care of it i think

1308

00:52:21,750 --> 00:52:20,079

everybody gets that particularly you in

1309

00:52:22,630 --> 00:52:21,760

vegas i mean how hot is it today out

1310

00:52:24,630 --> 00:52:22,640

there

1311

00:52:25,990 --> 00:52:24,640

um yeah today actually we've had a

1312

00:52:29,109 --> 00:52:26,000

reprieve but yeah

1313

00:52:31,030 --> 00:52:29,119

um i was gonna say

1314

00:52:32,390 --> 00:52:31,040

we uh i think you've you've said before

1315

00:52:34,710 --> 00:52:32,400

that

1316

00:52:36,150 --> 00:52:34,720

they really do care about the planet as

1317

00:52:39,510 --> 00:52:36,160

far as as far as us

1318

00:52:42,870 --> 00:52:39,520

maybe not so much yeah you know

1319

00:52:44,870 --> 00:52:42,880

the five paradigms that we're addressing

1320

00:52:48,150 --> 00:52:44,880

uh the first one greed is good

1321

00:52:49,109 --> 00:52:48,160

hunger is acceptable war is normal peace

1322

00:52:51,190 --> 00:52:49,119

is impossible

1323

00:52:52,710 --> 00:52:51,200

and one life matters less than another

1324

00:52:54,390 --> 00:52:52,720

and

1325

00:52:55,910 --> 00:52:54,400

the intelligences that we're familiar

1326

00:53:00,390 --> 00:52:55,920

with don't

1327

00:53:02,230 --> 00:53:00,400

see things quite that way um

1328

00:53:03,430 --> 00:53:02,240

the gain of material wealth isn't the

1329

00:53:06,390 --> 00:53:03,440

driving force in their

1330

00:53:08,150 --> 00:53:06,400

in their culture now i can i can speak

1331

00:53:10,230 --> 00:53:08,160

with some authority on this because of

1332

00:53:12,870 --> 00:53:10,240

my personal experiences

1333

00:53:15,270 --> 00:53:12,880

but we've got other people who have

1334

00:53:18,069 --> 00:53:15,280

joined our effort if you will

1335

00:53:18,309 --> 00:53:18,079

um who have other personal experiences

1336

00:53:20,790 --> 00:53:18,319

that

1337

00:53:21,750 --> 00:53:20,800

kind of make mine look like a day at

1338

00:53:24,950 --> 00:53:21,760

coney island

1339

00:53:27,349 --> 00:53:24,960

so um it it's

1340

00:53:28,150 --> 00:53:27,359

i hate to say be patient but there's an

1341

00:53:31,589 --> 00:53:28,160

element of

1342

00:53:32,069 --> 00:53:31,599

time that needs to i mean these actions

1343

00:53:34,710 --> 00:53:32,079

have to

1344

00:53:37,030 --> 00:53:34,720

take place in some sort of book in time

1345

00:53:38,790 --> 00:53:37,040

they have to take place

1346

00:53:40,870 --> 00:53:38,800

this is a great opening gambit right

1347

00:53:42,870 --> 00:53:40,880

here if you look at it as a chess game

1348

00:53:44,630 --> 00:53:42,880

think of this as the beginning of it

1349

00:53:45,190 --> 00:53:44,640

there's a middle and there will be an

1350

00:53:47,829 --> 00:53:45,200

end

1351

00:53:49,270 --> 00:53:47,839

most chess games last about 30 30 moves

1352

00:53:51,670 --> 00:53:49,280

32 moves

1353

00:53:53,910 --> 00:53:51,680

and this is the opening this is the

1354

00:53:56,549 --> 00:53:53,920

opening gambit that's

1355

00:53:57,349 --> 00:53:56,559

my gut feeling on it it's a great way to

1356

00:54:01,109 --> 00:53:57,359

look at it

1357

00:54:02,790 --> 00:54:01,119

thank you for calling in and

1358

00:54:04,150 --> 00:54:02,800

for folks who don't know michael was

1359

00:54:05,829 --> 00:54:04,160

look up on twitter

1360

00:54:07,349 --> 00:54:05,839

um i know a lot of people are like where

1361

00:54:08,870 --> 00:54:07,359

is he we miss him

1362

00:54:12,069 --> 00:54:08,880

so it's really did not expect to see you

1363

00:54:14,950 --> 00:54:13,589

we're just finished packing like i said

1364

00:54:16,870 --> 00:54:14,960

we're heading out for long island at

1365

00:54:18,230 --> 00:54:16,880

daybreak and uh we've got some business

1366

00:54:21,349 --> 00:54:18,240

to take care of on the way

1367

00:54:23,349 --> 00:54:21,359

and while we're down there and um a side

1368

00:54:24,470 --> 00:54:23,359

trip to camp hiro and montauk

1369

00:54:27,430 --> 00:54:24,480

we're going to meet with some people

1370

00:54:29,109 --> 00:54:27,440

that have experiences there and

1371

00:54:30,630 --> 00:54:29,119

they're going to have a good time and

1372

00:54:32,870 --> 00:54:30,640

when we get back here

1373

00:54:34,309 --> 00:54:32,880

you know i'm going to let someone else

1374

00:54:35,510 --> 00:54:34,319

but when we get back you and i are going

1375

00:54:38,710 --> 00:54:35,520

to reconnect uh we

1376

00:54:40,549 --> 00:54:38,720

definitely so glad you contacted me

1377

00:54:41,910 --> 00:54:40,559

they're rearranging themselves in

1378

00:54:45,589 --> 00:54:41,920

interesting ways for us

1379

00:54:45,910 --> 00:54:45,599

and we'd like to share some of that with

1380

00:54:49,270 --> 00:54:45,920

you

1381

00:54:50,950 --> 00:54:49,280

yeah i would really welcome it

1382

00:54:52,069 --> 00:54:50,960

and by the way the priest is now in new

1383

00:54:53,270 --> 00:54:52,079

hampshire he's not shooting new

1384

00:54:53,829 --> 00:54:53,280

hampshire i just wanted to share that

1385

00:54:55,589 --> 00:54:53,839

with you

1386

00:54:56,950 --> 00:54:55,599

and people by the way his story involves

1387

00:54:58,789 --> 00:54:56,960

a priest and a healing it's

1388

00:55:00,230 --> 00:54:58,799

it's an amazing story and i had time to

1389

00:55:01,510 --> 00:55:00,240

Speak with the priest and it's a real

1390

00:55:02,309 --> 00:55:01,520

story and people are going to be blown

1391

00:55:03,430 --> 00:55:02,319

away

1392

00:55:04,789 --> 00:55:03,440

when they finally get to hear what

1393

00:55:05,430 --> 00:55:04,799

happened and i'm going to leave you with

1394

00:55:08,069 --> 00:55:05,440

this

1395

00:55:09,030 --> 00:55:08,079

we have it's b we've been here seven

1396

00:55:11,190 --> 00:55:09,040

years now

1397

00:55:12,870 --> 00:55:11,200

we retreated back here uh right after

1398

00:55:15,670 --> 00:55:12,880

Cindy's mom died

1399

00:55:16,069 --> 00:55:15,680

and um there's something magical about

1400

00:55:18,390 --> 00:55:16,079

the

1401  
00:55:20,950 --> 00:55:18,400  
seven year point cindy and i we live our

1402  
00:55:23,349 --> 00:55:20,960  
lives by five-year plans

1403  
00:55:25,270 --> 00:55:23,359  
but i have to say this that we still

1404  
00:55:27,829 --> 00:55:25,280  
argue and i just spoke to the free

1405  
00:55:29,750 --> 00:55:27,839  
priest recently we still argue about

1406  
00:55:31,829 --> 00:55:29,760  
what the nature of that experience was

1407  
00:55:34,870 --> 00:55:31,839  
was it extraterrestrial

1408  
00:55:36,150 --> 00:55:34,880  
um in nature origin or the

1409  
00:55:38,549 --> 00:55:36,160  
ultra-terrestrial

1410  
00:55:39,430 --> 00:55:38,559  
in origin it was something we just don't

1411  
00:55:40,789 --> 00:55:39,440  
know what

1412  
00:55:43,109 --> 00:55:40,799  
and we don't that's what i love about

1413  
00:55:45,349 --> 00:55:43,119

you you did not put it in a definitive

1414

00:55:47,510 --> 00:55:45,359

category of i know what happened to me

1415

00:55:49,190 --> 00:55:47,520

i can't do it you know and and this is

1416

00:55:51,750 --> 00:55:49,200

going to be part of the discussion that

1417

00:55:53,589 --> 00:55:51,760

that is about to open that there will be

1418

00:55:55,990 --> 00:55:53,599

people who assert that that

1419

00:55:57,670 --> 00:55:56,000

we're dealing with demonic forces or

1420

00:56:00,829 --> 00:55:57,680

angelic forces

1421

00:56:01,990 --> 00:56:00,839

uh extraterrestrial interdimensional

1422

00:56:03,270 --> 00:56:02,000

ultra-terrestrial uh

1423

00:56:05,510 --> 00:56:03,280

it's gonna be an interesting

1424

00:56:06,309 --> 00:56:05,520

conversation to be sure and like i said

1425

00:56:08,710 --> 00:56:06,319

i think cindy

1426

00:56:11,270 --> 00:56:08,720

and in my experience can add to the

1427

00:56:14,309 --> 00:56:11,280

conversation in a positive way

1428

00:56:15,670 --> 00:56:14,319

and um this is where we need to stick

1429

00:56:17,589 --> 00:56:15,680

our neck out we're not

1430

00:56:19,829 --> 00:56:17,599

really comfortable doing it because we

1431

00:56:23,030 --> 00:56:19,839

live really comfortably now

1432

00:56:26,870 --> 00:56:23,040

and we have a lot to lose

1433

00:56:29,510 --> 00:56:26,880

and you know you know some of the

1434

00:56:30,390 --> 00:56:29,520

the crap that we uh we had to deal with

1435

00:56:35,109 --> 00:56:30,400

so

1436

00:56:37,030 --> 00:56:35,119

come and grab the microphone away from

1437

00:56:39,349 --> 00:56:37,040

me yeah

1438

00:56:40,630 --> 00:56:39,359

i just wanna i just wanted to address as

1439

00:56:43,270 --> 00:56:40,640

a as a casual

1440

00:56:44,950 --> 00:56:43,280

observer i'm from south korea i'm

1441

00:56:47,270 --> 00:56:44,960

studying engineering at

1442

00:56:47,990 --> 00:56:47,280

uh university in california right now

1443

00:56:51,190 --> 00:56:48,000

and

1444

00:56:53,510 --> 00:56:51,200

i'm actually a very recent um

1445

00:56:55,750 --> 00:56:53,520

entrance to ufo topic through george

1446

00:56:59,510 --> 00:56:55,760

knapp and jeremy corbell recently

1447

00:57:03,030 --> 00:56:59,520

i'm actually surprised by kind of the

1448

00:57:05,670 --> 00:57:03,040

negative opinions in the ufo communities

1449

00:57:08,789 --> 00:57:05,680

about this new ufo report because

1450

00:57:11,510 --> 00:57:08,799

to me it seems absolutely

1451  
00:57:12,069 --> 00:57:11,520  
insane that united states government

1452  
00:57:15,589 --> 00:57:12,079  
like

1453  
00:57:19,030 --> 00:57:15,599  
the dia the defense intelligence agency

1454  
00:57:19,510 --> 00:57:19,040  
is basically saying yeah we have these

1455  
00:57:21,510 --> 00:57:19,520  
things

1456  
00:57:22,950 --> 00:57:21,520  
like they're flying around we detected

1457  
00:57:23,589 --> 00:57:22,960  
them we don't know what the [h\_\_\h] they're

1458  
00:57:26,390 --> 00:57:23,599  
doing

1459  
00:57:27,190 --> 00:57:26,400  
and they're just out there and and and

1460  
00:57:31,990 --> 00:57:27,200  
just

1461  
00:57:32,950 --> 00:57:32,000  
telling the public about it and that's

1462  
00:57:35,670 --> 00:57:32,960  
just

1463  
00:57:37,910 --> 00:57:35,680

surprising to me especially to a person

1464

00:57:39,109 --> 00:57:37,920

who studies engineering especially to

1465

00:57:41,430 --> 00:57:39,119

hear those like

1466

00:57:42,230 --> 00:57:41,440

instantaneous acceleration that's just

1467

00:57:44,309 --> 00:57:42,240

some

1468

00:57:46,230 --> 00:57:44,319

kind of crazy and it would help us a lot

1469

00:57:47,910 --> 00:57:46,240

in scientific community

1470

00:57:49,510 --> 00:57:47,920

you know it's for me it's like and i

1471

00:57:51,910 --> 00:57:49,520

need people like you and michael

1472

00:57:54,150 --> 00:57:51,920

and i i was i wasn't disappointed but i

1473

00:57:55,510 --> 00:57:54,160

didn't see anything

1474

00:57:57,270 --> 00:57:55,520

that stood out in that report that made

1475

00:57:57,829 --> 00:57:57,280

me say oh my god but yeah this is

1476

00:57:59,670 --> 00:57:57,839

amazing

1477

00:58:01,349 --> 00:57:59,680

i'm spoiled i'm spoiled over the last

1478

00:58:02,870 --> 00:58:01,359

three and a half years you know and i

1479

00:58:04,630 --> 00:58:02,880

got back into this i was in this in the

1480

00:58:05,190 --> 00:58:04,640

early 90s michael was into this before

1481

00:58:07,349 --> 00:58:05,200

that

1482

00:58:08,470 --> 00:58:07,359

so yeah looking at it did i ever think

1483

00:58:10,390 --> 00:58:08,480

we would get to this point

1484

00:58:11,829 --> 00:58:10,400

early on i did but as the years went on

1485

00:58:13,030 --> 00:58:11,839

i was like we're never gonna get make

1486

00:58:15,030 --> 00:58:13,040

progress and then

1487

00:58:16,069 --> 00:58:15,040

2017 happened with the new york times

1488

00:58:18,069 --> 00:58:16,079

and now

1489

00:58:19,510 --> 00:58:18,079

we're here you know there and i do know

1490

00:58:21,750 --> 00:58:19,520

like i said i know

1491

00:58:23,510 --> 00:58:21,760

zero doubt that rubio and the senate

1492

00:58:25,750 --> 00:58:23,520

intelligence committee were told

1493

00:58:27,589 --> 00:58:25,760

that o and i and uap task force believe

1494

00:58:29,270 --> 00:58:27,599

some of these are off-world vehicles

1495

00:58:30,870 --> 00:58:29,280

whatever reason why they're not telling

1496

00:58:32,950 --> 00:58:30,880

us that yet eventually

1497

00:58:34,069 --> 00:58:32,960

i think that information will come out

1498

00:58:35,589 --> 00:58:34,079

um

1499

00:58:37,190 --> 00:58:35,599

but yeah as michael said and as lou said

1500

00:58:39,190 --> 00:58:37,200

it's the beginning of the beginning

1501  
00:58:43,030 --> 00:58:39,200  
so yeah i like having a positive

1502  
00:58:44,390 --> 00:58:43,040  
attitude get me get me more excited

1503  
00:58:46,150 --> 00:58:44,400  
by the end of the day i'll be happy

1504  
00:58:49,270 --> 00:58:46,160  
again well

1505  
00:58:52,230 --> 00:58:49,280  
hey i just want to throw this out there

1506  
00:58:53,270 --> 00:58:52,240  
there there's a huge there's enormous

1507  
00:58:56,390 --> 00:58:53,280  
social

1508  
00:59:00,230 --> 00:58:56,400  
cultural and religious ramifications

1509  
00:59:02,069 --> 00:59:00,240  
related to again the word disclosure

1510  
00:59:03,990 --> 00:59:02,079  
it will it's not it's it's like the

1511  
00:59:06,470 --> 00:59:04,000  
pandemic it's going to affect the whole

1512  
00:59:09,190 --> 00:59:06,480  
world okay once this genie is out of the

1513  
00:59:11,349 --> 00:59:09,200

bottle there's no putting it back in

1514

00:59:12,309 --> 00:59:11,359

and it's really going to be a testament

1515

00:59:15,190 --> 00:59:12,319

to what

1516

00:59:17,270 --> 00:59:15,200

we as a species want for our future for

1517

00:59:20,150 --> 00:59:17,280

our grandkids

1518

00:59:21,349 --> 00:59:20,160

because quite honestly i you know what

1519

00:59:23,270 --> 00:59:21,359

um

1520

00:59:24,950 --> 00:59:23,280

cindy has a degree in animal science and

1521

00:59:27,670 --> 00:59:24,960

part of my career i work for the federal

1522

00:59:30,870 --> 00:59:27,680

emergency management agency and i've had

1523

00:59:34,230 --> 00:59:30,880

uh some we both had some

1524

00:59:36,549 --> 00:59:34,240

unpleasant experiences with regard to

1525

00:59:40,789 --> 00:59:36,559

what our potential features are

1526

00:59:43,430 --> 00:59:40,799

and if if they paint extraterrestrials

1527

00:59:44,069 --> 00:59:43,440

or ultra terrestrials as enemies from

1528

00:59:47,270 --> 00:59:44,079

the

1529

00:59:48,549 --> 00:59:47,280

have a lot of problems

1530

00:59:49,910 --> 00:59:48,559

you know you gotta shoot them mailing

1531

00:59:50,710 --> 00:59:49,920

let's shoot a few down see if they're

1532

00:59:53,990 --> 00:59:50,720

friendly

1533

00:59:56,150 --> 00:59:54,000

kind of thing and um

1534

00:59:57,190 --> 00:59:56,160

if you sit back for five minutes and you

1535

01:00:00,470 --> 00:59:57,200

think about

1536

01:00:03,910 --> 01:00:00,480

how the world could change in a good way

1537

01:00:06,950 --> 01:00:03,920

we're divided by color by race by age

1538

01:00:09,030 --> 01:00:06,960

by gender by like culture we're a

1539

01:00:12,150 --> 01:00:09,040

divided species

1540

01:00:13,270 --> 01:00:12,160

and you know what can what can divide us

1541

01:00:15,109 --> 01:00:13,280

can also unite us

1542

01:00:17,510 --> 01:00:15,119

you know what can unite us like air

1543

01:00:20,549 --> 01:00:17,520

clean air clean water clean food

1544

01:00:22,390 --> 01:00:20,559

can also divide us so

1545

01:00:24,710 --> 01:00:22,400

there's a lot of considerations to think

1546

01:00:26,630 --> 01:00:24,720

about when you read that report

1547

01:00:28,549 --> 01:00:26,640

especially when you think of it as being

1548

01:00:30,230 --> 01:00:28,559

the opening

1549

01:00:32,069 --> 01:00:30,240

you know here we go let's start the

1550

01:00:33,270 --> 01:00:32,079

dialogue more and more people are ready

1551

01:00:36,710 --> 01:00:33,280

to jump in

1552

01:00:38,069 --> 01:00:36,720

once certain points are reached

1553

01:00:39,829 --> 01:00:38,079

and i don't know where all of them are i

1554

01:00:42,870 --> 01:00:39,839

only know where mine are and we're

1555

01:00:44,789 --> 01:00:42,880

we'll be approaching that one um

1556

01:00:46,309 --> 01:00:44,799

when we get back from long island yeah

1557

01:00:47,990 --> 01:00:46,319

we'll enjoy the trip

1558

01:00:50,630 --> 01:00:48,000

yeah great to see you it's such a nice

1559

01:00:52,150 --> 01:00:50,640

surprise and so we're excited to go

1560

01:00:53,750 --> 01:00:52,160

and have it have a great time and say

1561

01:00:57,589 --> 01:00:53,760

hello to cindy for me

1562

01:00:59,270 --> 01:00:57,599

jimmy's in the background hi cindy

1563

01:01:01,190 --> 01:00:59,280

he's in the background like i said yeah

1564

01:01:02,390 --> 01:01:01,200

people you got people standing shoulder

1565

01:01:06,309 --> 01:01:02,400

to shoulder

1566

01:01:08,870 --> 01:01:06,319

waiting for enough momentum enough

1567

01:01:10,150 --> 01:01:08,880

um where they can't get us all kind of

1568

01:01:12,549 --> 01:01:10,160

thing you know

1569

01:01:13,190 --> 01:01:12,559

they can't pick us all off at one time

1570

01:01:15,589 --> 01:01:13,200

and there's

1571

01:01:17,030 --> 01:01:15,599

they're people that know they care about

1572

01:01:18,470 --> 01:01:17,040

their futures they care about their

1573

01:01:19,270 --> 01:01:18,480

grandchildren's futures and they're

1574

01:01:22,309 --> 01:01:19,280

willing to risk

1575

01:01:24,789 --> 01:01:22,319

a lot if not everything to

1576

01:01:25,589 --> 01:01:24,799

make this a reality to bring it to

1577

01:01:28,789 --> 01:01:25,599

fruition

1578

01:01:31,589 --> 01:01:28,799

so it's going to be an interesting time

1579

01:01:33,670 --> 01:01:31,599

i know that and um i'm just going to say

1580

01:01:37,030 --> 01:01:33,680

one last thing that but

1581

01:01:40,470 --> 01:01:37,040

um you know

1582

01:01:43,270 --> 01:01:40,480

when we go back to montauk we um

1583

01:01:44,630 --> 01:01:43,280

we say a prayer we pray for peace that's

1584

01:01:47,109 --> 01:01:44,640

really the only the only thing

1585

01:01:47,910 --> 01:01:47,119

that is going to help us change the

1586

01:01:49,430 --> 01:01:47,920

world

1587

01:01:51,510 --> 01:01:49,440

the way it is right now peace that's the

1588

01:01:52,630 --> 01:01:51,520

only thing and and

1589

01:01:53,910 --> 01:01:52,640

a lot of people don't want to give up

1590

01:01:54,950 --> 01:01:53,920

their guns a lot of people don't want to

1591

01:01:58,230 --> 01:01:54,960

give up

1592

01:01:59,510 --> 01:01:58,240

the money they make from selling war and

1593

01:02:02,950 --> 01:01:59,520

um

1594

01:02:07,829 --> 01:02:05,430

it's time to change it's time for us to

1595

01:02:09,589 --> 01:02:07,839

unless we as a species evolve

1596

01:02:11,190 --> 01:02:09,599

we're in serious trouble in the future

1597

01:02:12,230 --> 01:02:11,200

and i'm not being a doomsayer i've never

1598

01:02:14,230 --> 01:02:12,240

been no

1599

01:02:16,390 --> 01:02:14,240

i don't know the world kind of guy i'm

1600

01:02:18,309 --> 01:02:16,400

i'm where does the new one begin

1601  
01:02:20,069 --> 01:02:18,319  
you know to say that some of the things

1602  
01:02:22,870 --> 01:02:20,079  
in the old world need to pass away

1603  
01:02:23,750 --> 01:02:22,880  
before those doors open and that's all

1604  
01:02:25,349 --> 01:02:23,760  
up there

1605  
01:02:27,109 --> 01:02:25,359  
and you're part of that conversation joe

1606  
01:02:29,750 --> 01:02:27,119  
you're an important part of it

1607  
01:02:31,349 --> 01:02:29,760  
and maybe that's our problem city and my

1608  
01:02:33,029 --> 01:02:31,359  
problem is we don't

1609  
01:02:34,470 --> 01:02:33,039  
you know we're selfish because we want

1610  
01:02:37,670 --> 01:02:34,480  
to keep what we have

1611  
01:02:39,750 --> 01:02:37,680  
yeah i get it you follow me so

1612  
01:02:40,870 --> 01:02:39,760  
i'll let you go yeah thank you again for

1613  
01:02:42,710 --> 01:02:40,880

listening

1614

01:02:43,910 --> 01:02:42,720

and uh like i said this is just the

1615

01:02:45,349 --> 01:02:43,920

beginning

1616

01:02:46,710 --> 01:02:45,359

thanks again great to see you michael

1617

01:02:48,230 --> 01:02:46,720

and yeah definitely connect when you get

1618

01:02:51,910 --> 01:02:48,240

back enjoy long island

1619

01:02:55,109 --> 01:02:51,920

i will all right see ya

1620

01:02:57,510 --> 01:02:55,119

hey joe can i say something yes please

1621

01:02:58,710 --> 01:02:57,520

hi my name is paul um hey paul thanks

1622

01:03:01,190 --> 01:02:58,720

for calling

1623

01:03:01,990 --> 01:03:01,200

yeah like listen um unfortunately that

1624

01:03:03,910 --> 01:03:02,000

mike's jumping off

1625

01:03:06,150 --> 01:03:03,920

so when you talk to me and thank him for

1626  
01:03:07,829 --> 01:03:06,160  
his service like he's great um you know

1627  
01:03:09,670 --> 01:03:07,839  
vet and everything like that so i didn't

1628  
01:03:13,109 --> 01:03:09,680  
get a chance to tell him but

1629  
01:03:15,029 --> 01:03:13,119  
into his point i am one of those people

1630  
01:03:17,510 --> 01:03:15,039  
that he was talking about like that you

1631  
01:03:19,109 --> 01:03:17,520  
know the tides turning so to speak

1632  
01:03:20,950 --> 01:03:19,119  
um i'm not you know joe you've been

1633  
01:03:22,230 --> 01:03:20,960  
around on this for a while right

1634  
01:03:24,230 --> 01:03:22,240  
and i actually knew about you a long

1635  
01:03:26,309 --> 01:03:24,240  
time ago um and

1636  
01:03:27,670 --> 01:03:26,319  
but it wasn't until like to the stars

1637  
01:03:28,710 --> 01:03:27,680  
and all that stuff started happening to

1638  
01:03:32,150 --> 01:03:28,720

where i'm like

1639

01:03:34,710 --> 01:03:32,160

wow like this is truly like a potential

1640

01:03:35,829 --> 01:03:34,720

you know reality um so i've been a

1641

01:03:38,710 --> 01:03:35,839

cautious skeptic

1642

01:03:39,349 --> 01:03:38,720

um up until recently i'm uh you know i

1643

01:03:41,109 --> 01:03:39,359

work in

1644

01:03:42,789 --> 01:03:41,119

drug development in a field called

1645

01:03:44,710 --> 01:03:42,799

competitive intelligence

1646

01:03:46,309 --> 01:03:44,720

and so i i have something to kind of say

1647

01:03:47,750 --> 01:03:46,319

that may be interesting to get you

1648

01:03:49,029 --> 01:03:47,760

excited um

1649

01:03:50,870 --> 01:03:49,039

you know i had just finished kind of

1650

01:03:53,190 --> 01:03:50,880

going through the the report all

1651  
01:03:54,150 --> 01:03:53,200  
nine horrible pages of it only nine

1652  
01:03:56,470 --> 01:03:54,160  
pages right

1653  
01:03:57,510 --> 01:03:56,480  
i'm pretty disappointed better than four

1654  
01:04:00,150 --> 01:03:57,520  
but nine pages

1655  
01:04:00,950 --> 01:04:00,160  
yeah but you know this is what we see in

1656  
01:04:03,190 --> 01:04:00,960  
what i do

1657  
01:04:04,789 --> 01:04:03,200  
um you know companies will put out a

1658  
01:04:06,150 --> 01:04:04,799  
press release about a clinical trial

1659  
01:04:08,950 --> 01:04:06,160  
failing or

1660  
01:04:09,990 --> 01:04:08,960  
and there's a way of saying things

1661  
01:04:12,069 --> 01:04:10,000  
without saying it

1662  
01:04:15,029 --> 01:04:12,079  
overtly and i feel like that's what this

1663  
01:04:18,549 --> 01:04:15,039

report definitely does like they said

1664

01:04:20,309 --> 01:04:18,559

there is like you know real sensory data

1665

01:04:22,470 --> 01:04:20,319

and that these things are real objects

1666

01:04:23,829 --> 01:04:22,480

that is a huge win so joe for you it's

1667

01:04:25,589 --> 01:04:23,839

probably like very disappointing you've

1668

01:04:28,549 --> 01:04:25,599

been on this for like 30 years

1669

01:04:29,270 --> 01:04:28,559

for me to like three years only or so

1670

01:04:33,990 --> 01:04:29,280

and

1671

01:04:35,589 --> 01:04:34,000

absolutely confirmed that you know

1672

01:04:38,470 --> 01:04:35,599

something's real right

1673

01:04:40,390 --> 01:04:38,480

it's not a admission that it's um you

1674

01:04:43,190 --> 01:04:40,400

know off world per se like you said

1675

01:04:44,390 --> 01:04:43,200

and i which i now think it is but i'll

1676

01:04:47,670 --> 01:04:44,400

say this for my

1677

01:04:51,190 --> 01:04:47,680

christian family okay self included

1678

01:04:54,390 --> 01:04:51,200

my brother me my sister my

1679

01:04:55,910 --> 01:04:54,400

my parents not yet with the three of us

1680

01:04:57,349 --> 01:04:55,920

definitely think like we definitely

1681

01:04:59,029 --> 01:04:57,359

think there's like a high high high

1682

01:05:02,230 --> 01:04:59,039

degree of probability

1683

01:05:04,309 --> 01:05:02,240

that this is off world etc so

1684

01:05:06,549 --> 01:05:04,319

what that means we still don't know but

1685

01:05:09,270 --> 01:05:06,559

to us like it's been a huge sea change i

1686

01:05:09,829 --> 01:05:09,280

and i think joe your time in the area

1687

01:05:12,870 --> 01:05:09,839

you get

1688

01:05:15,349 --> 01:05:12,880

know and

1689

01:05:16,789 --> 01:05:15,359

in patients and things like that yeah um

1690

01:05:18,069 --> 01:05:16,799

yes i'm disappointed by the report

1691

01:05:21,029 --> 01:05:18,079

simultaneously

1692

01:05:22,950 --> 01:05:21,039

through omission it's confirmation so

1693

01:05:25,109 --> 01:05:22,960

that's all i'll stop talking thanks

1694

01:05:27,190 --> 01:05:25,119

no it's great i mean the more people the

1695

01:05:28,309 --> 01:05:27,200

better and um i agree i mean yeah i've

1696

01:05:29,670 --> 01:05:28,319

been at it it's like

1697

01:05:31,750 --> 01:05:29,680

here's an analogy when i lived at the

1698

01:05:33,109 --> 01:05:31,760

beach the first time we would go to the

1699

01:05:34,630 --> 01:05:33,119

beach you know you come over the hill

1700

01:05:35,910 --> 01:05:34,640

it's like oh my god look it's so

1701

01:05:37,349 --> 01:05:35,920

beautiful and then you're there for

1702

01:05:39,829 --> 01:05:37,359

three years and it's like

1703

01:05:41,510 --> 01:05:39,839

it loses it loses some of its luster you

1704

01:05:43,589 --> 01:05:41,520

get spoiled and that's kind of that's

1705

01:05:45,990 --> 01:05:43,599

kind of how i am now i remember

1706

01:05:47,270 --> 01:05:46,000

i remember when we had um i don't

1707

01:05:48,710 --> 01:05:47,280

remember somebody came out with a

1708

01:05:50,150 --> 01:05:48,720

comment and i had something negative to

1709

01:05:51,430 --> 01:05:50,160

say and i was like and then i re

1710

01:05:53,990 --> 01:05:51,440

i thought about it i'm like i'm so

1711

01:05:55,750 --> 01:05:54,000

spoiled i mean to have to have three and

1712

01:05:56,549 --> 01:05:55,760

a half years ago to have any of this and

1713

01:05:59,990 --> 01:05:56,559

now we have

1714

01:06:01,109 --> 01:06:00,000

presidents and all the folks who have

1715

01:06:02,710 --> 01:06:01,119

spoken out you have

1716

01:06:04,230 --> 01:06:02,720

rubio who has gone out of his way to

1717

01:06:04,710 --> 01:06:04,240

talk about that when asked he hasn't

1718

01:06:07,589 --> 01:06:04,720

shied

1719

01:06:08,309 --> 01:06:07,599

and i'm i am frustrated that rubio was

1720

01:06:09,670 --> 01:06:08,319

told that

1721

01:06:11,349 --> 01:06:09,680

that they think these are off world but

1722

01:06:14,390 --> 01:06:11,359

like he's like michael said

1723

01:06:16,150 --> 01:06:14,400

once they go there if rubio just if he

1724

01:06:17,589 --> 01:06:16,160

were to say

1725

01:06:20,309 --> 01:06:17,599

we think some of these are off the world

1726

01:06:22,870 --> 01:06:20,319

i mean everything changes right away

1727

01:06:23,670 --> 01:06:22,880

so it's such a big deal so yeah we've

1728

01:06:25,190 --> 01:06:23,680

this is

1729

01:06:26,789 --> 01:06:25,200

it's progress you know and by the end of

1730

01:06:28,069 --> 01:06:26,799

the day i'll read the report again

1731

01:06:29,270 --> 01:06:28,079

and i'll be like you know what yeah

1732

01:06:30,870 --> 01:06:29,280

there's some there's some really

1733

01:06:33,430 --> 01:06:30,880

important stuff in that report

1734

01:06:34,870 --> 01:06:33,440

so yeah anybody else feel free to jump

1735

01:06:36,230 --> 01:06:34,880

in you guys are all unmuted i haven't

1736

01:06:37,589 --> 01:06:36,240

muted anybody

1737

01:06:39,990 --> 01:06:37,599

thank you for thank you for your call

1738

01:06:43,190 --> 01:06:40,000

paul yeah thanks

1739

01:06:46,069 --> 01:06:43,200

hey just chime in in here my my uh

1740

01:06:46,870 --> 01:06:46,079

austin here in buffalo uh my biggest

1741

01:06:49,430 --> 01:06:46,880

problem is

1742

01:06:51,510 --> 01:06:49,440

people like i have brother-in-law who's

1743

01:06:54,309 --> 01:06:51,520

an engineer smart guy great guy

1744

01:06:56,470 --> 01:06:54,319

and people like neil degrasse tyson that

1745

01:07:00,309 --> 01:06:56,480

are completely dismissive

1746

01:07:03,430 --> 01:07:00,319

of uh this being off-world

1747

01:07:05,190 --> 01:07:03,440

kind of situation uh because all they do

1748

01:07:06,630 --> 01:07:05,200

is think about the physics and the

1749

01:07:09,349 --> 01:07:06,640

logistics involved

1750

01:07:11,109 --> 01:07:09,359

with our present day knowledge of

1751

01:07:13,990 --> 01:07:11,119

science and physics

1752

01:07:14,870 --> 01:07:14,000

not factoring in that possibly a uh

1753

01:07:17,910 --> 01:07:14,880

advanced

1754

01:07:21,910 --> 01:07:17,920

species or race or uh

1755

01:07:24,230 --> 01:07:21,920

society perhaps thousands a year ah

1756

01:07:25,190 --> 01:07:24,240

years ahead of us have figured out some

1757

01:07:28,309 --> 01:07:25,200

different

1758

01:07:31,510 --> 01:07:28,319

methods of travel or are sending

1759

01:07:33,829 --> 01:07:31,520

robotic drones here uh and or

1760

01:07:35,349 --> 01:07:33,839

different types of technology to to

1761

01:07:36,390 --> 01:07:35,359

monitor what's going on in other

1762

01:07:40,309 --> 01:07:36,400

galaxies

1763

01:07:41,829 --> 01:07:40,319

so uh that's uh one of the things

1764

01:07:44,390 --> 01:07:41,839

not getting enough information out of

1765

01:07:47,270 --> 01:07:44,400

this new disclosure

1766

01:07:48,470 --> 01:07:47,280

it almost adds fuel till to their uh

1767

01:07:51,029 --> 01:07:48,480

argument

1768

01:07:53,510 --> 01:07:51,039

i actually completely agree with your

1769

01:07:55,829 --> 01:07:53,520

argument that a lot of scientists are

1770

01:07:57,430 --> 01:07:55,839

ignoring on this topic because i

1771

01:07:59,990 --> 01:07:57,440

understand because i'm an engineer

1772

01:08:00,710 --> 01:08:00,000

i i live in among scientists you know

1773

01:08:03,029 --> 01:08:00,720

they're all

1774

01:08:05,190 --> 01:08:03,039

college students the faculty members

1775

01:08:07,270 --> 01:08:05,200

they don't really

1776

01:08:09,029 --> 01:08:07,280

they don't want to say it's out of world

1777

01:08:11,029 --> 01:08:09,039

because there is no

1778

01:08:13,430 --> 01:08:11,039

concrete physical evidence scientists

1779

01:08:15,349 --> 01:08:13,440

are very hard to convince like they

1780

01:08:16,309 --> 01:08:15,359

can't they're not even fully convinced

1781

01:08:18,789 --> 01:08:16,319

that

1782

01:08:19,669 --> 01:08:18,799

like the evolution is actually a thing i

1783

01:08:22,550 --> 01:08:19,679

mean they are

1784

01:08:23,110 --> 01:08:22,560

pretty convinced but they're not 1 000

1785

01:08:24,870 --> 01:08:23,120

sure

1786

01:08:26,870 --> 01:08:24,880

you know what i mean this is it science

1787

01:08:29,829 --> 01:08:26,880

is always like um

1788

01:08:30,870 --> 01:08:29,839

not it needs more data that's why i hate

1789

01:08:33,829 --> 01:08:30,880

about this

1790

01:08:36,070 --> 01:08:33,839

government approach because i want to

1791

01:08:39,349 --> 01:08:36,080

study it i want to look at the data

1792

01:08:41,749 --> 01:08:39,359

i want to see what it actually did but

1793

01:08:44,789 --> 01:08:41,759

everything's not available everything's

1794

01:08:47,349 --> 01:08:44,799

just gone everything's only available to

1795

01:08:50,390 --> 01:08:47,359

select people and if they speak about it

1796

01:08:52,470 --> 01:08:50,400

it's nda you go to jail you got trouble

1797

01:08:54,070 --> 01:08:52,480

and you're not able to access it anymore

1798

01:08:56,870 --> 01:08:54,080

and that's just some

1799

01:08:58,229 --> 01:08:56,880

cruel to humanity in my opinion because

1800

01:09:01,510 --> 01:08:58,239

i mean as a scientist

1801  
01:09:04,470 --> 01:09:01,520  
if you have a thing that could go

1802  
01:09:06,070 --> 01:09:04,480  
inside of water go to outer space we

1803  
01:09:08,390 --> 01:09:06,080  
could literally

1804  
01:09:10,149 --> 01:09:08,400  
change everything about logistics how to

1805  
01:09:12,789 --> 01:09:10,159  
feed people how to move around

1806  
01:09:13,990 --> 01:09:12,799  
food everything like we can learn from

1807  
01:09:17,030 --> 01:09:14,000  
them

1808  
01:09:19,349 --> 01:09:17,040  
100 and my idea and i know lewis spoken

1809  
01:09:21,910 --> 01:09:19,359  
about it before is get the top get the

1810  
01:09:23,510 --> 01:09:21,920  
top scientists like the grass tyson

1811  
01:09:25,269 --> 01:09:23,520  
and get them briefed you know get them

1812  
01:09:27,749 --> 01:09:25,279  
briefed on the really good stuff even if

1813  
01:09:29,510 --> 01:09:27,759

yeah convince them yeah i mean because i

1814

01:09:32,070 --> 01:09:29,520

understand the skepticism because

1815

01:09:33,590 --> 01:09:32,080

i haven't i've heard lou talk about

1816

01:09:36,229 --> 01:09:33,600

everything and melon but

1817

01:09:38,070 --> 01:09:36,239

i i have not seen it with my own eyes i

1818

01:09:39,829 --> 01:09:38,080

have not seen any member of congress

1819

01:09:41,829 --> 01:09:39,839

i mean we have heard a couple of people

1820

01:09:42,789 --> 01:09:41,839

like i think it was heinrich out of new

1821

01:09:44,149 --> 01:09:42,799

mexico who said

1822

01:09:46,550 --> 01:09:44,159

you know he doesn't think that these are

1823

01:09:48,870 --> 01:09:46,560

ours um but i would like to hear what

1824

01:09:50,229 --> 01:09:48,880

they're seeing and out of the report

1825

01:09:52,390 --> 01:09:50,239

the incidents they looked at there was a

1826

01:09:55,189 --> 01:09:52,400

very small percentage that we're making

1827

01:09:55,510 --> 01:09:55,199

instantaneous acceleration just we just

1828

01:09:57,590 --> 01:09:55,520

need

1829

01:09:59,590 --> 01:09:57,600

one of those videos and one radar to go

1830

01:10:01,430 --> 01:09:59,600

along with it just to open up more minds

1831

01:10:02,630 --> 01:10:01,440

of some of the sciences but it's a first

1832

01:10:04,310 --> 01:10:02,640

step but we need

1833

01:10:06,149 --> 01:10:04,320

to get those people briefed even if it's

1834

01:10:09,350 --> 01:10:06,159

like three or four of them

1835

01:10:11,590 --> 01:10:09,360

so joe real quick my brother is a pilot

1836

01:10:13,430 --> 01:10:11,600

and i actually have an interesting photo

1837

01:10:15,350 --> 01:10:13,440

i'd like to share with you at some point

1838

01:10:16,870 --> 01:10:15,360

because uh he actually sent it to some

1839

01:10:19,910 --> 01:10:16,880

website too but

1840

01:10:20,709 --> 01:10:19,920

he's at 47 000 feet and he had some like

1841

01:10:22,709 --> 01:10:20,719

interesting

1842

01:10:24,470 --> 01:10:22,719

pictures of what seems to be potentially

1843

01:10:27,430 --> 01:10:24,480

orbs but anyways

1844

01:10:27,830 --> 01:10:27,440

um what i want to say real quick um is

1845

01:10:31,669 --> 01:10:27,840

with

1846

01:10:33,750 --> 01:10:31,679

uh rubio you know the fact

1847

01:10:35,189 --> 01:10:33,760

you know he brought up a heinrich too

1848

01:10:37,030 --> 01:10:35,199

which is interesting because that's my

1849

01:10:40,229 --> 01:10:37,040

state i'm in new mexico

1850

01:10:43,430 --> 01:10:40,239

um and it just to me

1851

01:10:45,189 --> 01:10:43,440

the fact that lou alexander kind of

1852

01:10:45,990 --> 01:10:45,199

characterized it on something last week

1853

01:10:48,709 --> 01:10:46,000

actually

1854

01:10:50,149 --> 01:10:48,719

that that somber comment joe you you saw

1855

01:10:51,350 --> 01:10:50,159

some of the discussion around that like

1856

01:10:53,750 --> 01:10:51,360

you know

1857

01:10:54,630 --> 01:10:53,760

act right i've been pondering that

1858

01:10:57,030 --> 01:10:54,640

question myself

1859

01:10:57,990 --> 01:10:57,040

all week honestly with my girlfriend and

1860

01:10:59,990 --> 01:10:58,000

it's interesting

1861

01:11:01,510 --> 01:11:00,000

the only conclusion we can come up with

1862

01:11:03,510 --> 01:11:01,520

is like the reason there's this

1863

01:11:05,350 --> 01:11:03,520

resistance to disclose

1864

01:11:07,669 --> 01:11:05,360

is it changes the whole idea of about

1865

01:11:09,910 --> 01:11:07,679

what uh our deities are maybe

1866

01:11:11,270 --> 01:11:09,920

that to me is the only thing of like our

1867

01:11:14,310 --> 01:11:11,280

origin right is

1868

01:11:14,950 --> 01:11:14,320

i of how we that to me seems like the

1869

01:11:17,590 --> 01:11:14,960

main thing

1870

01:11:17,990 --> 01:11:17,600

that would cause us to be somber and

1871

01:11:21,990 --> 01:11:18,000

that

1872

01:11:25,510 --> 01:11:22,000

christian whatever not just christian

1873

01:11:26,070 --> 01:11:25,520

muslim whatever in congress that there's

1874

01:12:24,550 --> 01:11:26,080

a

1875

01:12:26,550 --> 01:12:24,560

you know i don't i just this is the

1876  
01:12:26,870 --> 01:12:26,560  
world my my young daughter is going to

1877  
01:12:29,189 --> 01:12:26,880  
live

1878  
01:12:31,110 --> 01:12:29,199  
grow up in you know what what what is

1879  
01:12:32,390 --> 01:12:31,120  
the real story and lou said somber

1880  
01:12:34,630 --> 01:12:32,400  
and that could be interpreted so many

1881  
01:12:36,310 --> 01:12:34,640  
different ways i mean people even it's

1882  
01:12:38,630 --> 01:12:36,320  
there could be some people even if it's

1883  
01:12:40,310 --> 01:12:38,640  
just extraterrestrials here that's gonna

1884  
01:12:42,390 --> 01:12:40,320  
be a huge deal it's gonna

1885  
01:12:43,750 --> 01:12:42,400  
it's gonna you know devastate some of

1886  
01:12:45,189 --> 01:12:43,760  
their beliefs some people will be able

1887  
01:12:48,470 --> 01:12:45,199  
to handle it so yeah it's

1888  
01:12:49,990 --> 01:12:48,480

i don't know what the story is so i if

1889

01:12:51,110 --> 01:12:50,000

it's something more than just an et if

1890

01:12:52,390 --> 01:12:51,120

it's something interdimensional and

1891

01:12:53,590 --> 01:12:52,400

they're here all the time as george

1892

01:12:55,350 --> 01:12:53,600

nappa said you know they could

1893

01:12:56,630 --> 01:12:55,360

they're watching us all the time and we

1894

01:12:58,310 --> 01:12:56,640

just can't see them

1895

01:12:59,750 --> 01:12:58,320

you know was that something they would

1896

01:13:00,310 --> 01:12:59,760

never let out because people would just

1897

01:13:02,550 --> 01:13:00,320

be

1898

01:13:03,830 --> 01:13:02,560

you know i don't know i don't know how

1899

01:13:04,950 --> 01:13:03,840

people would handle some of those

1900

01:13:05,990 --> 01:13:04,960

different story lines that we've

1901

01:13:08,870 --> 01:13:06,000

discussed

1902

01:13:09,669 --> 01:13:08,880

it's true and after covid i have less

1903

01:13:11,830 --> 01:13:09,679

faith in like

1904

01:13:12,709 --> 01:13:11,840

uh society to handle things right that's

1905

01:13:14,709 --> 01:13:12,719

a great point

1906

01:13:17,030 --> 01:13:14,719

you know and i think that validates

1907

01:13:20,070 --> 01:13:17,040

honestly the government's position maybe

1908

01:13:22,550 --> 01:13:20,080

that just was kind of a crazy year and

1909

01:13:23,110 --> 01:13:22,560

people acted really like immature like

1910

01:13:24,310 --> 01:13:23,120

they just

1911

01:13:25,990 --> 01:13:24,320

they really know how to handle the

1912

01:13:26,790 --> 01:13:26,000

situation which i was surprised how

1913

01:13:28,790 --> 01:13:26,800

poorly

1914

01:13:30,830 --> 01:13:28,800

like we as a society as a world kind of

1915

01:13:33,990 --> 01:13:30,840

handled that whole situation

1916

01:13:36,149 --> 01:13:34,000

so i mean it kind of shows that

1917

01:13:37,430 --> 01:13:36,159

the people in government are just humans

1918

01:13:39,750 --> 01:13:37,440

right i mean like the

1919

01:13:40,550 --> 01:13:39,760

like lou said in many interviews there

1920

01:13:42,790 --> 01:13:40,560

he were

1921

01:13:43,750 --> 01:13:42,800

he had resistance in the department of

1922

01:13:46,310 --> 01:13:43,760

defense because

1923

01:13:47,669 --> 01:13:46,320

some high-ranking officials thought they

1924

01:13:50,870 --> 01:13:47,679

were literal demons

1925

01:13:53,030 --> 01:13:50,880

like like demons like uh

1926

01:13:54,390 --> 01:13:53,040

like i i'm not really subscribed to that

1927

01:13:57,189 --> 01:13:54,400

point but even

1928

01:13:57,990 --> 01:13:57,199

if it is a demon like it's humans are

1929

01:14:01,830 --> 01:13:58,000

just very

1930

01:14:05,030 --> 01:14:01,840

um ignorant in a way and then scared of

1931

01:14:06,950 --> 01:14:05,040

changes scared of um new ideas

1932

01:14:08,470 --> 01:14:06,960

like back in the days we were scared to

1933

01:14:11,910 --> 01:14:08,480

say earth wasn't

1934

01:14:14,550 --> 01:14:11,920

in the center of the universe i mean

1935

01:14:15,430 --> 01:14:14,560

i think the just the the resistance to

1936

01:14:17,990 --> 01:14:15,440

new idea

1937

01:14:18,950 --> 01:14:18,000

also applies to the ufo topic especially

1938

01:14:21,750 --> 01:14:18,960

in terms of

1939

01:14:22,550 --> 01:14:21,760

um theology and our ideas about where we

1940

01:14:24,550 --> 01:14:22,560

come from

1941

01:14:25,910 --> 01:14:24,560

and that and that idea of you know this

1942

01:14:27,669 --> 01:14:25,920

is demonic this is something you

1943

01:14:27,990 --> 01:14:27,679

shouldn't study goes all the way back to

1944

01:14:34,870 --> 01:14:28,000

the

1945

01:14:36,470 --> 01:14:34,880

interview with dolan he's like he got

1946

01:14:37,990 --> 01:14:36,480

really animated he's like why are those

1947

01:14:39,590 --> 01:14:38,000

people still there why haven't they

1948

01:14:40,630 --> 01:14:39,600

gotten fired it's like

1949

01:14:42,310 --> 01:14:40,640

you know they're keeping us from

1950

01:14:43,350 --> 01:14:42,320

studying this and i'm open to everything

1951

01:14:45,510 --> 01:14:43,360

maybe some of this

1952

01:14:46,870 --> 01:14:45,520

is acting like a demon whatever but we

1953

01:14:47,990 --> 01:14:46,880

need to study it and figure it out and

1954

01:14:49,590 --> 01:14:48,000

somebody said

1955

01:14:51,430 --> 01:14:49,600

wouldn't christians want to know if it's

1956

01:14:53,910 --> 01:14:51,440

demonic so we can fight it it's like

1957

01:14:56,550 --> 01:14:53,920

you know that we're powerful you know so

1958

01:14:59,270 --> 01:14:56,560

yeah it's a great point and um

1959

01:15:00,390 --> 01:14:59,280

so one impre intriguing thing about the

1960

01:15:02,950 --> 01:15:00,400

report that i think so

1961

01:15:05,030 --> 01:15:02,960

this is the next step for me i think um

1962

01:15:06,790 --> 01:15:05,040

and i operate in like biotech and pharma

1963

01:15:09,430 --> 01:15:06,800

so we're always looking thinking about

1964

01:15:10,470 --> 01:15:09,440

catalysts and next milestones to me the

1965

01:15:12,550 --> 01:15:10,480

report said

1966

01:15:14,070 --> 01:15:12,560

uh additional investment needed to be

1967

01:15:16,470 --> 01:15:14,080

able to adequately

1968

01:15:17,590 --> 01:15:16,480

accurately test and assess and you know

1969

01:15:20,709 --> 01:15:17,600

analyze

1970

01:15:22,550 --> 01:15:20,719

these phenomena and so to me the next

1971

01:15:23,990 --> 01:15:22,560

step is will they get funding for this

1972

01:15:26,310 --> 01:15:24,000

so that's like the next question

1973

01:15:28,149 --> 01:15:26,320

i think for like the community is to

1974

01:15:28,390 --> 01:15:28,159

find that out if they're going to fund

1975

01:15:30,950 --> 01:15:28,400

it

1976

01:15:31,990 --> 01:15:30,960

because if that's the case i think then

1977

01:15:33,910 --> 01:15:32,000

this is a real

1978

01:15:36,149 --> 01:15:33,920

positive and there's going to be much

1979

01:15:36,630 --> 01:15:36,159

more to come will we be briefed on it as

1980

01:15:49,990 --> 01:15:36,640

a

1981

01:15:51,990 --> 01:15:50,000

the insider of the community i don't

1982

01:15:55,030 --> 01:15:52,000

consider myself part of it really right

1983

01:15:57,910 --> 01:15:55,040

i'm watching this and and i you know

1984

01:15:58,390 --> 01:15:57,920

i'm looking for the evidence too and i

1985

01:16:00,390 --> 01:15:58,400

see

1986

01:16:02,550 --> 01:16:00,400

substantial momentum that's like

1987

01:16:05,189 --> 01:16:02,560

unstoppable at this point

1988

01:16:05,990 --> 01:16:05,199

that will it probably will take a decade

1989

01:16:08,070 --> 01:16:06,000

it'll be probably

1990

01:16:09,510 --> 01:16:08,080

taking it's enough time for all the old

1991

01:16:10,950 --> 01:16:09,520

uh

1992

01:16:12,229 --> 01:16:10,960

whatever you want to call them that it

1993

01:16:14,470 --> 01:16:12,239

you know the the people who are so

1994

01:16:17,910 --> 01:16:14,480

entrenched in dod etc

1995

01:16:20,470 --> 01:16:17,920

die retire etc it could be a whole

1996

01:16:22,870 --> 01:16:20,480

generation before it's done but to me

1997

01:16:24,950 --> 01:16:22,880

it's it's you know this is happening

1998

01:16:27,430 --> 01:16:24,960

it's just going to be a matter of time

1999

01:16:29,030 --> 01:16:27,440

and i think we just like as a as a ufo

2000

01:16:32,709 --> 01:16:29,040

community would have to do

2001

01:16:35,830 --> 01:16:32,719

keep expectations real patience is key

2002

01:16:38,149 --> 01:16:35,840

uh delayed gratification but it's uh

2003

01:16:41,189 --> 01:16:38,159

it's undeniable to me at this point

2004

01:16:44,870 --> 01:16:41,199

so yo

2005

01:16:47,750 --> 01:16:44,880

yes you know what sarah

2006

01:16:48,870 --> 01:16:47,760

yo what's up hello you know i gotta say

2007

01:16:52,630 --> 01:16:48,880

something and i'm

2008

01:16:56,390 --> 01:16:52,640

um i gotta say it straight nine pages

2009

01:17:07,830 --> 01:16:58,950

page two pages are appendix yeah so

2010

01:17:12,070 --> 01:17:10,149

we know there are other programs that

2011

01:17:14,470 --> 01:17:12,080

are suiting the ufo

2012

01:17:15,189 --> 01:17:14,480

more funding first of all why are you

2013

01:17:18,229 --> 01:17:15,199

like

2014

01:17:20,149 --> 01:17:18,239

suddenly omitting or not mentioning what

2015

01:17:22,149 --> 01:17:20,159

about all these other programs in the us

2016

01:17:24,709 --> 01:17:22,159

government why the report system saying

2017

01:17:26,790 --> 01:17:24,719

anything about that why the report is

2018

01:17:30,149 --> 01:17:26,800

saying like totally personal

2019

01:17:32,950 --> 01:17:30,159

uh there's no mention of the uh the

2020

01:17:34,790 --> 01:17:32,960

classified i guess uh eric davies

2021

01:17:37,510 --> 01:17:34,800

briefings about off-world

2022

01:17:39,189 --> 01:17:37,520

vehicles there's nothing about that like

2023

01:17:40,149 --> 01:17:39,199

honestly i know some people don't want

2024

01:17:43,189 --> 01:17:40,159

to go there but like

2025

01:17:46,550 --> 01:17:43,199

it's 2021 why there is no mention of the

2026

01:17:50,310 --> 01:17:46,560

report of the link historical link

2027

01:17:53,750 --> 01:17:50,320

between you know non-human forms

2028

01:17:56,630 --> 01:17:53,760

abductions and uaps ufos

2029

01:17:59,350 --> 01:17:56,640

when the this same report also mentions

2030

01:18:01,030 --> 01:17:59,360

you know analyzing historical data

2031

01:18:02,709 --> 01:18:01,040

the report for me is totally

2032

01:18:03,990 --> 01:18:02,719

contradictory rich thoroughly

2033

01:18:10,070 --> 01:18:04,000

schizophrenic

2034

01:18:12,470 --> 01:18:10,080

honestly i was expecting a historical

2035

01:18:13,189 --> 01:18:12,480

day i think it's already too late for us

2036

01:18:16,550 --> 01:18:13,199

to

2037

01:18:20,229 --> 01:18:16,560

like

2038

01:18:22,310 --> 01:18:20,239

usual know um

2039

01:18:23,350 --> 01:18:22,320

uh is going on in this world which is

2040

01:18:27,510 --> 01:18:23,360

like there's a lot of

2041

01:18:29,830 --> 01:18:27,520

non-human presence's presence is uh

2042

01:18:31,510 --> 01:18:29,840

living among us and denying it just kind

2043

01:18:34,630 --> 01:18:31,520

of foolish

2044

01:18:36,550 --> 01:18:34,640

well i didn't remember i didn't expect

2045

01:18:37,189 --> 01:18:36,560

them to talk about a crash retrieval

2046

01:18:40,149 --> 01:18:37,199

program

2047

01:18:41,990 --> 01:18:40,159

i did not expect that um but i did i was

2048

01:18:43,590 --> 01:18:42,000

hopeful that they would

2049

01:18:45,110 --> 01:18:43,600

you know when you're when your committee

2050

01:18:46,550 --> 01:18:45,120

is briefed by the people who are

2051  
01:18:47,430 --> 01:18:46,560  
collecting the information and they're

2052  
01:18:49,669 --> 01:18:47,440  
telling you

2053  
01:18:51,750 --> 01:18:49,679  
they believe some of these are off world

2054  
01:18:54,310 --> 01:18:51,760  
i would i would i was hopeful

2055  
01:18:55,750 --> 01:18:54,320  
that might be in the report but i i i

2056  
01:18:56,870 --> 01:18:55,760  
figured that it would not be because

2057  
01:18:58,630 --> 01:18:56,880  
they don't think

2058  
01:19:00,870 --> 01:18:58,640  
people are ready for it we're ready for

2059  
01:19:03,669 --> 01:19:00,880  
it you know for us even the most

2060  
01:19:04,149 --> 01:19:03,679  
intense scary situations to us most of

2061  
01:19:06,310 --> 01:19:04,159  
us is

2062  
01:19:07,430 --> 01:19:06,320  
is interesting you know but for the

2063  
01:19:09,189 --> 01:19:07,440

world

2064

01:19:11,030 --> 01:19:09,199

you know i'm but i don't know if i don't

2065

01:19:12,550 --> 01:19:11,040

know if somebody like rubio knows

2066

01:19:14,470 --> 01:19:12,560

you know you hear theories that there's

2067

01:19:15,350 --> 01:19:14,480

there's a group here that's in favor of

2068

01:19:16,950 --> 01:19:15,360

us you hear

2069

01:19:18,310 --> 01:19:16,960

there's a group here that hasn't doesn't

2070

01:19:19,990 --> 01:19:18,320

have our best interests at heart does

2071

01:19:21,510 --> 01:19:20,000

rupee don't know any of that i mean

2072

01:19:23,590 --> 01:19:21,520

do we have data on that from those

2073

01:19:24,630 --> 01:19:23,600

programs those special access programs

2074

01:19:26,790 --> 01:19:24,640

that have existed so

2075

01:19:29,030 --> 01:19:26,800

you do have you're you're a normal

2076

01:19:31,430 --> 01:19:29,040

citizen and you have all these data

2077

01:19:32,870 --> 01:19:31,440

even if it's completely even if it's

2078

01:19:35,830 --> 01:19:32,880

contradictory

2079

01:19:36,070 --> 01:19:35,840

by you you generate it at that rate you

2080

01:19:38,870 --> 01:19:36,080

know

2081

01:19:40,310 --> 01:19:38,880

and not mentioning any of this it's just

2082

01:19:42,149 --> 01:19:40,320

kind of like

2083

01:19:44,390 --> 01:19:42,159

kind of weird honestly because also the

2084

01:19:47,350 --> 01:19:44,400

report goes to say that this is not

2085

01:19:48,390 --> 01:19:47,360

any adverse adversarial technology you

2086

01:19:51,110 --> 01:19:48,400

know like

2087

01:19:53,510 --> 01:19:51,120

and then it generates these others uh

2088

01:19:55,430 --> 01:19:53,520

compartment but this other compartment

2089

01:19:56,950 --> 01:19:55,440

it gets nullified immediately saying

2090

01:19:59,430 --> 01:19:56,960

that there is not enough

2091

01:20:00,790 --> 01:19:59,440

scientific advancement to reach a

2092

01:20:02,470 --> 01:20:00,800

conclusion

2093

01:20:05,270 --> 01:20:02,480

what does that mean you know you know

2094

01:20:07,590 --> 01:20:05,280

what a pilot i mean face to face with a

2095

01:20:08,870 --> 01:20:07,600

an object in the middle of the ocean

2096

01:20:10,790 --> 01:20:08,880

multiplayer sensors

2097

01:20:13,189 --> 01:20:10,800

and saying like you don't know what is

2098

01:20:15,189 --> 01:20:13,199

it it's kind of weird

2099

01:20:16,310 --> 01:20:15,199

it doesn't yeah it's it is important

2100

01:20:17,590 --> 01:20:16,320

though that they're basically saying

2101  
01:20:18,709 --> 01:20:17,600  
they have no data for foreign

2102  
01:20:20,390 --> 01:20:18,719  
adversarial because

2103  
01:20:21,990 --> 01:20:20,400  
and they're basically telling you that

2104  
01:20:24,870 --> 01:20:22,000  
none of these reports

2105  
01:20:26,310 --> 01:20:24,880  
were our tech so it's like it leaves one

2106  
01:20:27,350 --> 01:20:26,320  
possibility that it's something

2107  
01:20:30,229 --> 01:20:27,360  
anomalous

2108  
01:20:32,070 --> 01:20:30,239  
and hopefully the media focuses on that

2109  
01:20:34,790 --> 01:20:32,080  
i mean it's critical to understand

2110  
01:20:35,750 --> 01:20:34,800  
in the report they did not realize the

2111  
01:20:38,790 --> 01:20:35,760  
quote-unquote

2112  
01:20:41,270 --> 01:20:38,800  
the other explanation it's kind of very

2113  
01:20:42,229 --> 01:20:41,280

very funny how they put it they they

2114

01:20:44,550 --> 01:20:42,239

wanted to

2115

01:20:45,990 --> 01:20:44,560

um ignore it put it away they want to

2116

01:20:48,470 --> 01:20:46,000

put everything else in

2117

01:20:49,270 --> 01:20:48,480

front the area phenomena ice crystals

2118

01:20:52,310 --> 01:20:49,280

whatever

2119

01:20:53,430 --> 01:20:52,320

but they knew they could not exclude the

2120

01:20:55,830 --> 01:20:53,440

other option

2121

01:20:56,709 --> 01:20:55,840

because we literally don't know what it

2122

01:20:58,229 --> 01:20:56,719

is and

2123

01:21:00,070 --> 01:20:58,239

i think it's important to understand

2124

01:21:03,350 --> 01:21:00,080

that we're dealing with government

2125

01:21:05,750 --> 01:21:03,360

here i mean back in roswell when i was

2126  
01:21:07,030 --> 01:21:05,760  
researching into this just a little bit

2127  
01:21:10,070 --> 01:21:07,040  
united states had

2128  
01:21:11,750 --> 01:21:10,080  
had reports about the roswell reports

2129  
01:21:13,350 --> 01:21:11,760  
about roswell incidents and other

2130  
01:21:16,229 --> 01:21:13,360  
incidents too and it was

2131  
01:21:17,990 --> 01:21:16,239  
very similar to this oh it might be this

2132  
01:21:19,750 --> 01:21:18,000  
but we don't know we need

2133  
01:21:21,189 --> 01:21:19,760  
we need to figure it out basically and

2134  
01:21:23,189 --> 01:21:21,199  
we just don't know what it is

2135  
01:21:25,030 --> 01:21:23,199  
and it's always like this it's always

2136  
01:21:27,110 --> 01:21:25,040  
like this obfuscation

2137  
01:21:29,189 --> 01:21:27,120  
yeah they might exist they're probably

2138  
01:21:30,310 --> 01:21:29,199

here we have data but we're not going to

2139

01:21:33,030 --> 01:21:30,320

show you the data

2140

01:21:34,870 --> 01:21:33,040

we're not going to show you what we um

2141

01:21:37,350 --> 01:21:34,880

reach this conclusion with

2142

01:21:38,709 --> 01:21:37,360

but just believe us we can we're working

2143

01:21:41,110 --> 01:21:38,719

on it basically

2144

01:21:42,229 --> 01:21:41,120

stop working on it within the government

2145

01:21:45,350 --> 01:21:42,239

release it to

2146

01:21:48,550 --> 01:21:45,360

major institutions like caltech mit

2147

01:21:50,470 --> 01:21:48,560

and other um other colleges and then

2148

01:21:52,229 --> 01:21:50,480

closely monitor it so it doesn't get to

2149

01:21:54,709 --> 01:21:52,239

our adversaries if that's

2150

01:21:55,590 --> 01:21:54,719

what they're worrying about you know

2151  
01:21:57,910 --> 01:21:55,600  
they cannot

2152  
01:21:59,270 --> 01:21:57,920  
crack this open in the government i mean

2153  
01:22:01,430 --> 01:21:59,280  
if we believe

2154  
01:22:03,110 --> 01:22:01,440  
like bob lazar's story and other

2155  
01:22:05,510 --> 01:22:03,120  
people's story about

2156  
01:22:06,709 --> 01:22:05,520  
crash retrieval and reverse engineering

2157  
01:22:08,870 --> 01:22:06,719  
let's say that's real

2158  
01:22:10,390 --> 01:22:08,880  
i don't know that's real i i believe

2159  
01:22:13,189 --> 01:22:10,400  
them but i'm not 100

2160  
01:22:14,950 --> 01:22:13,199  
sure but if that's real we clearly can't

2161  
01:22:16,470 --> 01:22:14,960  
crack it we we've been working on it for

2162  
01:22:19,350 --> 01:22:16,480  
50 got that mirrors with

2163  
01:22:19,750 --> 01:22:19,360

the best scientists that they can find

2164

01:22:23,189 --> 01:22:19,760

they

2165

01:22:25,189 --> 01:22:23,199

closed environment

2166

01:22:26,390 --> 01:22:25,199

science can happen in that way like i

2167

01:22:28,790 --> 01:22:26,400

can't make science

2168

01:22:30,950 --> 01:22:28,800

on my own i need the internet i need

2169

01:22:32,390 --> 01:22:30,960

other people talking with me i need new

2170

01:22:38,070 --> 01:22:32,400

ideas

2171

01:22:39,590 --> 01:22:38,080

doesn't come on your own you know i

2172

01:22:41,990 --> 01:22:39,600

think

2173

01:22:43,750 --> 01:22:42,000

i don't yeah i just go ahead i just

2174

01:22:45,669 --> 01:22:43,760

wanted to say the outside government

2175

01:22:48,470 --> 01:22:45,679

approach is just really needed just

2176  
01:22:49,990 --> 01:22:48,480  
enough i agree it's locked up in special

2177  
01:22:51,510 --> 01:22:50,000  
access programs where the people the

2178  
01:22:52,310 --> 01:22:51,520  
amount of people who have access to the

2179  
01:22:54,310 --> 01:22:52,320  
data is so

2180  
01:22:55,430 --> 01:22:54,320  
tiny because they're afraid of security

2181  
01:22:57,430 --> 01:22:55,440  
concerns and our

2182  
01:22:59,750 --> 01:22:57,440  
our adversary is getting a hold of it

2183  
01:23:01,270 --> 01:22:59,760  
now i don't really want to throw cold

2184  
01:23:03,830 --> 01:23:01,280  
water on some ideas and

2185  
01:23:05,669 --> 01:23:03,840  
get even more depressing but there are

2186  
01:23:05,990 --> 01:23:05,679  
people that are on our side and they

2187  
01:23:08,790 --> 01:23:06,000  
want

2188  
01:23:10,229 --> 01:23:08,800

a lot of this data out but they do not

2189

01:23:12,149 --> 01:23:10,239

think that we should just wheel out the

2190

01:23:12,870 --> 01:23:12,159

craft and say here you go science take a

2191

01:23:14,229 --> 01:23:12,880

look at it

2192

01:23:16,229 --> 01:23:14,239

you know so remember a lot of these

2193

01:23:18,149 --> 01:23:16,239

people have been embedded in the

2194

01:23:19,510 --> 01:23:18,159

military in these military jobs and

2195

01:23:20,149 --> 01:23:19,520

defense to industry and they have that

2196

01:23:22,149 --> 01:23:20,159

mentality

2197

01:23:24,310 --> 01:23:22,159

still that it's you know let's exploit

2198

01:23:25,189 --> 01:23:24,320

this technology for whatever means you

2199

01:23:26,629 --> 01:23:25,199

know it's really

2200

01:23:28,550 --> 01:23:26,639

it's disappointing but that's the

2201

01:23:29,910 --> 01:23:28,560

reality we live in i mean yeah i would

2202

01:23:31,189 --> 01:23:29,920

love for it to be where

2203

01:23:33,110 --> 01:23:31,199

we're like let's get together with

2204

01:23:34,950 --> 01:23:33,120

russia and china and lewis hinted at

2205

01:23:35,669 --> 01:23:34,960

this he's like hopefully one day we can

2206

01:23:37,030 --> 01:23:35,679

get there

2207

01:23:39,350 --> 01:23:37,040

if we can come together and that's why

2208

01:23:40,870 --> 01:23:39,360

he was saying you know maybe if people

2209

01:23:42,470 --> 01:23:40,880

know the truth we can come together like

2210

01:23:43,350 --> 01:23:42,480

reagan talked about you know to some

2211

01:23:45,030 --> 01:23:43,360

outside threat

2212

01:23:47,030 --> 01:23:45,040

even if it's not a threat it's like

2213

01:23:48,310 --> 01:23:47,040

maybe just the idea of a threat can get

2214

01:23:49,110 --> 01:23:48,320

different countries coming together and

2215

01:23:50,629 --> 01:23:49,120

say listen

2216

01:23:52,229 --> 01:23:50,639

we're all humans we need to deal with

2217

01:23:54,229 --> 01:23:52,239

this let's come together stop

2218

01:23:55,990 --> 01:23:54,239

fighting it's a pipe dream though i mean

2219

01:23:58,229 --> 01:23:56,000

look at the world

2220

01:23:59,030 --> 01:23:58,239

so but what's gonna happen what's gonna

2221

01:24:02,070 --> 01:23:59,040

happen

2222

01:24:05,110 --> 01:24:02,080

when and if this intelligence if

2223

01:24:06,310 --> 01:24:05,120

they exist decided to reveal themselves

2224

01:24:09,669 --> 01:24:06,320

and the governments

2225

01:24:12,550 --> 01:24:09,679

never and always were hiding they never

2226  
01:24:13,110 --> 01:24:12,560  
told us anything what happens if because

2227  
01:24:15,030 --> 01:24:13,120  
you know

2228  
01:24:16,470 --> 01:24:15,040  
as you said like there are many reports

2229  
01:24:18,390 --> 01:24:16,480  
of like the triangles

2230  
01:24:19,669 --> 01:24:18,400  
the shape of the triangles are they on a

2231  
01:24:22,070 --> 01:24:19,679  
scanning mission

2232  
01:24:23,910 --> 01:24:22,080  
are they on the hunt for information we

2233  
01:24:26,470 --> 01:24:23,920  
we don't know that's just a theory right

2234  
01:24:28,149 --> 01:24:26,480  
but what happens if one of these alien

2235  
01:24:30,790 --> 01:24:28,159  
are not so good theories come to

2236  
01:24:31,669 --> 01:24:30,800  
creation and one day we gotta face the

2237  
01:24:35,510 --> 01:24:31,679  
fact

2238  
01:24:37,270 --> 01:24:35,520

isn't that even this uh way of behaving

2239

01:24:39,110 --> 01:24:37,280

when i'm talking about the government

2240

01:24:43,350 --> 01:24:39,120

leading us to a mass

2241

01:24:44,629 --> 01:24:43,360

shock no i agree and it's like they're

2242

01:24:46,629 --> 01:24:44,639

it's gonna be on them they're

2243

01:24:47,830 --> 01:24:46,639

obviously they're taking a chance that

2244

01:24:50,470 --> 01:24:47,840

the phenomenon is

2245

01:24:51,750 --> 01:24:50,480

not gonna show up in a mess with a mass

2246

01:24:53,350 --> 01:24:51,760

sighting they're taking the chances

2247

01:24:55,270 --> 01:24:53,360

because if that does happen

2248

01:24:57,030 --> 01:24:55,280

say we're at some major event maybe the

2249

01:24:58,709 --> 01:24:57,040

super bowl or some you know some soccer

2250

01:24:59,910 --> 01:24:58,719

event all sudden a thousand feet over

2251

01:25:01,830 --> 01:24:59,920

the stadium

2252

01:25:03,110 --> 01:25:01,840

there it is you know they're screwed

2253

01:25:03,590 --> 01:25:03,120

because they didn't prepare the public

2254

01:25:05,590 --> 01:25:03,600

for it

2255

01:25:07,910 --> 01:25:05,600

so i don't know if i don't know whoever

2256

01:25:09,350 --> 01:25:07,920

is here whether et or ultra terrestrial

2257

01:25:10,229 --> 01:25:09,360

whoever is here i don't know if there's

2258

01:25:12,149 --> 01:25:10,239

a timeline

2259

01:25:13,590 --> 01:25:12,159

for them to say listen we've given you

2260

01:25:14,550 --> 01:25:13,600

enough chances now we're going to start

2261

01:25:18,149 --> 01:25:14,560

showing ourselves

2262

01:25:19,030 --> 01:25:18,159

joe i kind of want to push back on that

2263

01:25:22,390 --> 01:25:19,040

a little bit

2264

01:25:24,390 --> 01:25:22,400

go ahead uh listen yo i have like a

2265

01:25:25,030 --> 01:25:24,400

spanish speaking podcast and i want to

2266

01:25:27,030 --> 01:25:25,040

tell you this

2267

01:25:28,870 --> 01:25:27,040

i think that some guy reported to me

2268

01:25:29,510 --> 01:25:28,880

like five six years ago but there was

2269

01:25:32,950 --> 01:25:29,520

like a

2270

01:25:36,629 --> 01:25:32,960

massive 200 people in a football field

2271

01:25:39,270 --> 01:25:36,639

like this pyramid shaped object but

2272

01:25:41,430 --> 01:25:39,280

it's like you say what if they try to

2273

01:25:42,149 --> 01:25:41,440

well if they have like an apparition and

2274

01:25:43,910 --> 01:25:42,159

it's massive

2275

01:25:45,510 --> 01:25:43,920

maybe this has already happened but just

2276

01:25:48,310 --> 01:25:45,520

not in the united states

2277

01:25:49,110 --> 01:25:48,320

you know what i'm saying like what i'm

2278

01:25:51,510 --> 01:25:49,120

trying to say

2279

01:25:53,270 --> 01:25:51,520

by all my comments please put the stupid

2280

01:25:55,830 --> 01:25:53,280

out there if i know that comes

2281

01:25:58,070 --> 01:25:55,840

said when are we gonna accept what's

2282

01:26:00,310 --> 01:25:58,080

actually happening

2283

01:26:01,350 --> 01:26:00,320

that's what i'm saying like what is the

2284

01:26:03,830 --> 01:26:01,360

evidence like

2285

01:26:05,910 --> 01:26:03,840

i'm pretty sure you're aware of it joe

2286

01:26:06,870 --> 01:26:05,920

about this sightings in south america

2287

01:26:09,030 --> 01:26:06,880

like he was saying

2288

01:26:11,110 --> 01:26:09,040

about the crafts that large amount of

2289

01:26:11,830 --> 01:26:11,120

people saw like phoenix lighting and

2290

01:26:13,750 --> 01:26:11,840

other

2291

01:26:15,189 --> 01:26:13,760

sightings like mad sightings like we

2292

01:26:17,430 --> 01:26:15,199

were talking about and

2293

01:26:19,910 --> 01:26:17,440

literally crafts show up people see it a

2294

01:26:22,950 --> 01:26:19,920

lot of people see it around it

2295

01:26:26,070 --> 01:26:22,960

that literally happens but

2296

01:26:28,390 --> 01:26:26,080

still denies it still goes away and that

2297

01:26:30,790 --> 01:26:28,400

impresses me because

2298

01:26:31,669 --> 01:26:30,800

like we we literally saw it thousands of

2299

01:26:33,430 --> 01:26:31,679

people saw it

2300

01:26:35,270 --> 01:26:33,440

thousands of people reported it their

2301  
01:26:38,310 --> 01:26:35,280  
police report about it people were

2302  
01:26:41,590 --> 01:26:38,320  
scared about it but it went away

2303  
01:26:44,390 --> 01:26:41,600  
but what's different now i think is

2304  
01:26:45,110 --> 01:26:44,400  
the pressure from the bottom is so hard

2305  
01:26:47,270 --> 01:26:45,120  
it's

2306  
01:26:49,189 --> 01:26:47,280  
and then the people like lou elizando

2307  
01:26:51,430 --> 01:26:49,199  
and krista mellen people from inside who

2308  
01:26:53,350 --> 01:26:51,440  
actually know because we don't know how

2309  
01:26:54,950 --> 01:26:53,360  
government actually works right like we

2310  
01:26:57,590 --> 01:26:54,960  
don't know the interest group we don't

2311  
01:27:00,310 --> 01:26:57,600  
know the settingers we can't push the

2312  
01:27:01,189 --> 01:27:00,320  
you know we don't have the lobbyists but

2313  
01:27:03,110 --> 01:27:01,199

they do and

2314

01:27:05,510 --> 01:27:03,120

i think they are doing that behind the

2315

01:27:05,910 --> 01:27:05,520

scenes by pushing the lobbyists pushing

2316

01:27:09,110 --> 01:27:05,920

the

2317

01:27:11,110 --> 01:27:09,120

senators to actually um get down to it

2318

01:27:13,910 --> 01:27:11,120

and i think that's why we have

2319

01:27:14,790 --> 01:27:13,920

this this report at least saying that

2320

01:27:17,110 --> 01:27:14,800

that could be

2321

01:27:19,110 --> 01:27:17,120

other thing because back in the days

2322

01:27:20,870 --> 01:27:19,120

like phoenix lighting even when a

2323

01:27:24,070 --> 01:27:20,880

literal craft showed up

2324

01:27:25,430 --> 01:27:24,080

they always dismiss dismiss dismiss uh

2325

01:27:28,229 --> 01:27:25,440

swamp gas whatever

2326

01:27:29,350 --> 01:27:28,239

you know but now they're oh there's

2327

01:27:35,350 --> 01:27:29,360

something there

2328

01:27:36,950 --> 01:27:35,360

just chiming in here oh sorry guys i was

2329

01:27:39,910 --> 01:27:36,960

just gonna say wasn't this gonna

2330

01:27:41,990 --> 01:27:39,920

catalyze like more video release from

2331

01:27:43,990 --> 01:27:42,000

lou or jeremy i think jeremy said

2332

01:27:46,950 --> 01:27:44,000

specifically after the release

2333

01:27:48,149 --> 01:27:46,960

there's gonna be more video coming out

2334

01:27:52,149 --> 01:27:48,159

that's clear

2335

01:27:52,709 --> 01:27:52,159

like super clear so i know jeremy is not

2336

01:27:55,030 --> 01:27:52,719

done

2337

01:27:56,229 --> 01:27:55,040

um i don't know i do not know exactly

2338

01:27:59,669 --> 01:27:56,239

what he has

2339

01:28:02,390 --> 01:27:59,679

um but we need you know the slow

2340

01:28:04,229 --> 01:28:02,400

release of whatever he has over a period

2341

01:28:05,350 --> 01:28:04,239

of time i think is a smart thing because

2342

01:28:06,870 --> 01:28:05,360

to me like

2343

01:28:08,550 --> 01:28:06,880

even with sightings you know people lose

2344

01:28:10,229 --> 01:28:08,560

interest the media loses interest and we

2345

01:28:11,030 --> 01:28:10,239

need to keep it going so new sightings

2346

01:28:13,590 --> 01:28:11,040

agree that

2347

01:28:15,270 --> 01:28:13,600

are important to do it that way um one

2348

01:28:17,110 --> 01:28:15,280

important thing that rubio said

2349

01:28:18,470 --> 01:28:17,120

when the report was released he said we

2350

01:28:20,709 --> 01:28:18,480

need to figure out

2351

01:28:21,590 --> 01:28:20,719

if this is a threat that basically tells

2352

01:28:23,350 --> 01:28:21,600

you he doesn't think

2353

01:28:25,430 --> 01:28:23,360

it's russia or china because if it was

2354

01:28:25,990 --> 01:28:25,440

russia or china automatically it's a

2355

01:28:28,390 --> 01:28:26,000

threat

2356

01:28:29,270 --> 01:28:28,400

to them stealing our you know whatever

2357

01:28:30,550 --> 01:28:29,280

they're doing

2358

01:28:32,310 --> 01:28:30,560

they're getting interest they're getting

2359

01:28:33,430 --> 01:28:32,320

information on our training for you know

2360

01:28:35,350 --> 01:28:33,440

when we're doing training

2361

01:28:37,350 --> 01:28:35,360

they're soaking up all that data so he's

2362

01:28:38,709 --> 01:28:37,360

basically without saying it he's

2363

01:28:41,669 --> 01:28:38,719

basically saying

2364

01:28:43,430 --> 01:28:41,679

it's unknown he's not saying it's i

2365

01:28:43,910 --> 01:28:43,440

don't expect him to say extraterrestrial

2366

01:28:46,229 --> 01:28:43,920

because no

2367

01:28:48,229 --> 01:28:46,239

i don't think anybody any of us know if

2368

01:28:49,990 --> 01:28:48,239

it's extraterrestrial maybe what even is

2369

01:28:51,430 --> 01:28:50,000

extraterrestrial that's the question

2370

01:28:53,669 --> 01:28:51,440

it's just

2371

01:28:54,870 --> 01:28:53,679

like i'll just and i always try to i

2372

01:28:57,030 --> 01:28:54,880

always struggle to come up

2373

01:28:58,550 --> 01:28:57,040

with a word to expl like say something

2374

01:29:00,470 --> 01:28:58,560

that's here

2375

01:29:02,629 --> 01:29:00,480

it's like you know ultra-terrestrial

2376

01:29:04,550 --> 01:29:02,639

something john keel came up with um

2377

01:29:06,229 --> 01:29:04,560

like is it an animal like we could call

2378

01:29:08,709 --> 01:29:06,239

it an animal right i mean it's

2379

01:29:10,390 --> 01:29:08,719

yeah it's like yeah it's it's difficult

2380

01:29:12,470 --> 01:29:10,400

to actually define it something that's

2381

01:29:15,270 --> 01:29:12,480

not part of this society is like

2382

01:29:16,709 --> 01:29:15,280

is a different definition that you know

2383

01:29:20,470 --> 01:29:16,719

that's not that's not

2384

01:29:23,990 --> 01:29:22,149

but what if it's us from the future you

2385

01:29:25,270 --> 01:29:24,000

know what if it's an another a type of

2386

01:29:27,350 --> 01:29:25,280

human that you know

2387

01:29:28,550 --> 01:29:27,360

that's why i'm always careful and like i

2388

01:29:29,910 --> 01:29:28,560

i start saying

2389

01:29:31,350 --> 01:29:29,920

what i'm intelligent like what if it's

2390

01:29:33,030 --> 01:29:31,360

not intelligent at all like what if it

2391

01:29:33,750 --> 01:29:33,040

like i kind of bite of the theory that

2392

01:29:37,990 --> 01:29:33,760

it's

2393

01:29:40,390 --> 01:29:38,000

around us that we just can't see because

2394

01:29:41,110 --> 01:29:40,400

our our eyes can't see it so it's like

2395

01:29:45,270 --> 01:29:41,120

like

2396

01:29:46,070 --> 01:29:45,280

intelligence non-world intelligence

2397

01:29:47,590 --> 01:29:46,080

whether that be

2398

01:29:49,189 --> 01:29:47,600

us from the future whether it be

2399

01:29:50,470 --> 01:29:49,199

extraterrestrial ultra uh

2400

01:29:51,669 --> 01:29:50,480

interdimensional all those things i

2401

01:29:53,990 --> 01:29:51,679

think the easiest way to say is just

2402

01:29:56,470 --> 01:29:54,000

like not human intelligence or

2403

01:29:57,430 --> 01:29:56,480

awkward off-world intelligence and

2404

01:29:58,950 --> 01:29:57,440

that's what they're using that's what

2405

01:30:01,189 --> 01:29:58,960

they're being told this is all you know

2406

01:30:03,350 --> 01:30:01,199

some of these are off-world vehicles so

2407

01:30:04,390 --> 01:30:03,360

that's their that's the uap task force

2408

01:30:07,910 --> 01:30:04,400

term

2409

01:30:10,310 --> 01:30:07,920

um so i just wanted that one one thing

2410

01:30:11,990 --> 01:30:10,320

what was everyone's expectations going

2411

01:30:15,270 --> 01:30:12,000

into today because this actually

2412

01:30:16,550 --> 01:30:15,280

like far exceeded my expectations me too

2413

01:30:18,310 --> 01:30:16,560

yeah i was like what are your

2414

01:30:20,070 --> 01:30:18,320

expectations brother

2415

01:30:21,669 --> 01:30:20,080

i i honestly thought they were just

2416

01:30:23,669 --> 01:30:21,679

going to try to explain

2417

01:30:25,430 --> 01:30:23,679

everything as as just foreign drones

2418

01:30:26,229 --> 01:30:25,440

that that the other category that's on

2419

01:30:28,709 --> 01:30:26,239

the report

2420

01:30:29,270 --> 01:30:28,719

like blue blue expectations away the

2421

01:30:33,189 --> 01:30:29,280

other

2422

01:30:34,229 --> 01:30:33,199

like but not even just the fact that

2423

01:30:35,830 --> 01:30:34,239

they said that they said there's there's

2424

01:30:37,270 --> 01:30:35,840

some things that require more science

2425

01:30:38,629 --> 01:30:37,280

scientific advancements so it's because

2426

01:30:39,110 --> 01:30:38,639

like we just can't we can't understand

2427

01:30:40,870 --> 01:30:39,120

it yet

2428

01:30:42,550 --> 01:30:40,880

and like they're gonna spend money to

2429

01:30:44,070 --> 01:30:42,560

investigate that i think that's like

2430

01:30:45,350 --> 01:30:44,080

way more than i would have ever expected

2431

01:30:46,310 --> 01:30:45,360

i thought they're just gonna just

2432

01:30:48,870 --> 01:30:46,320

completely

2433

01:30:50,790 --> 01:30:48,880

try to kind of not like [\h\_\_\h] on you for

2434

01:30:53,270 --> 01:30:50,800

twitter but just like really really

2435

01:30:53,910 --> 01:30:53,280

concentrate project blue boost style

2436

01:30:55,510 --> 01:30:53,920

like just

2437

01:30:56,870 --> 01:30:55,520

no not even not even that but yeah

2438

01:30:57,510 --> 01:30:56,880

actually yeah similar to project blue

2439

01:30:58,950 --> 01:30:57,520

but even like

2440

01:31:00,790 --> 01:30:58,960

like more definitive because like

2441

01:31:02,149 --> 01:31:00,800

project blue but kind of left it still

2442

01:31:03,030 --> 01:31:02,159

open-ended a little bit like i thought

2443

01:31:05,189 --> 01:31:03,040

it was gonna be like

2444

01:31:06,550 --> 01:31:05,199

definitive being like this is gonna be

2445

01:31:08,310 --> 01:31:06,560

all all the ufo people

2446

01:31:10,790 --> 01:31:08,320

are gonna are gonna i guess like this is

2447

01:31:13,910 --> 01:31:10,800

china or russia

2448

01:31:16,709 --> 01:31:13,920

okay or nothing none of the above i was

2449

01:31:18,709 --> 01:31:16,719

not expecting the other category at all

2450

01:31:20,629 --> 01:31:18,719

yeah no it confirmed it meant my

2451  
01:31:22,070 --> 01:31:20,639  
expectations which were low by the way

2452  
01:31:23,510 --> 01:31:22,080  
so not like high expectations

2453  
01:31:26,870 --> 01:31:23,520  
but they confirmed that these are real

2454  
01:31:29,270 --> 01:31:26,880  
they these are real solid objects

2455  
01:31:30,629 --> 01:31:29,280  
that's important because one idea i

2456  
01:31:32,229 --> 01:31:30,639  
thought of originally with the

2457  
01:31:33,750 --> 01:31:32,239  
the triangle footage from the ship the

2458  
01:31:35,750 --> 01:31:33,760  
uss kit i think it was

2459  
01:31:37,350 --> 01:31:35,760  
um you know in theory there is

2460  
01:31:38,390 --> 01:31:37,360  
technology out there you could create a

2461  
01:31:41,189 --> 01:31:38,400  
lot of spoofing

2462  
01:31:42,709 --> 01:31:41,199  
visually you know through sensors but

2463  
01:31:44,070 --> 01:31:42,719

the fact that they confirm it and they

2464

01:31:46,310 --> 01:31:44,080

confirm that

2465

01:31:47,430 --> 01:31:46,320

they didn't try to just push away that

2466

01:31:49,590 --> 01:31:47,440

other category

2467

01:31:50,950 --> 01:31:49,600

and they acknowledged the stigmatism

2468

01:31:52,790 --> 01:31:50,960

with the ufo

2469

01:31:55,030 --> 01:31:52,800

right and be reporting these things so

2470

01:31:57,030 --> 01:31:55,040

to me it's the beginning

2471

01:31:58,790 --> 01:31:57,040

it's to me it did meet the low

2472

01:31:59,750 --> 01:31:58,800

expectations it did not do real

2473

01:32:01,590 --> 01:31:59,760

disclosure

2474

01:32:03,430 --> 01:32:01,600

but i didn't have that expectation like

2475

01:32:04,149 --> 01:32:03,440

a lot of people did so and i don't think

2476

01:32:07,990 --> 01:32:04,159

that

2477

01:32:10,149 --> 01:32:08,000

like suddenly right it's going to be a

2478

01:32:11,590 --> 01:32:10,159

process generational like i said earlier

2479

01:32:12,950 --> 01:32:11,600

i think so sorry

2480

01:32:14,790 --> 01:32:12,960

one thing i thought the report did

2481

01:32:16,629 --> 01:32:14,800

really really well is it's like there's

2482

01:32:17,830 --> 01:32:16,639

no way anyone in congress can be like no

2483

01:32:19,270 --> 01:32:17,840

we don't want to fund this anymore like

2484

01:32:21,030 --> 01:32:19,280

they address

2485

01:32:22,870 --> 01:32:21,040

their points made it very very clear

2486

01:32:25,110 --> 01:32:22,880

that we need more funding

2487

01:32:26,709 --> 01:32:25,120

we there's potential for four new uap

2488

01:32:28,870 --> 01:32:26,719

teams they say at the bottom they're

2489

01:32:31,030 --> 01:32:28,880

like i think we're definitely gonna get

2490

01:32:32,550 --> 01:32:31,040

some some this is an amazing step

2491

01:32:33,510 --> 01:32:32,560

forwards i think for the next five ten

2492

01:32:34,229 --> 01:32:33,520

years they're gonna be really really

2493

01:32:36,470 --> 01:32:34,239

good for people

2494

01:32:38,070 --> 01:32:36,480

i totally agree totally agree i think

2495

01:32:40,070 --> 01:32:38,080

the people i'm cautiously

2496

01:32:43,110 --> 01:32:40,080

i'm cautiously optimistic about this

2497

01:32:44,870 --> 01:32:43,120

because i was very enthusiastic in 2001

2498

01:32:45,830 --> 01:32:44,880

when dr greer did the press club

2499

01:32:49,270 --> 01:32:45,840

briefing

2500

01:32:52,149 --> 01:32:49,280

and all those people came out with

2501  
01:32:53,669 --> 01:32:52,159  
and these were very valid uh pilots and

2502  
01:32:53,990 --> 01:32:53,679  
military people and they were talking

2503  
01:32:55,590 --> 01:32:54,000  
about

2504  
01:32:57,669 --> 01:32:55,600  
this like this is going on we need to

2505  
01:33:00,550 --> 01:32:57,679  
address it and

2506  
01:33:02,070 --> 01:33:00,560  
not much really happened after that so

2507  
01:33:03,350 --> 01:33:02,080  
i'm i'm hopeful that things are going to

2508  
01:33:05,830 --> 01:33:03,360  
move forward and that

2509  
01:33:07,350 --> 01:33:05,840  
and serious people in government and the

2510  
01:33:09,910 --> 01:33:07,360  
military are going to

2511  
01:33:10,709 --> 01:33:09,920  
talk about this publicly with the media

2512  
01:33:13,030 --> 01:33:10,719  
and and

2513  
01:33:14,070 --> 01:33:13,040

keep the ball moving but i also

2514

01:33:16,870 --> 01:33:14,080

understand that

2515

01:33:18,070 --> 01:33:16,880

20 years have gone by since uh the press

2516

01:33:20,070 --> 01:33:18,080

club briefing

2517

01:33:22,470 --> 01:33:20,080

and uh here we are looking at a seven

2518

01:33:24,390 --> 01:33:22,480

page document that's kind of like

2519

01:33:25,669 --> 01:33:24,400

maybe something's out there maybe i

2520

01:33:28,070 --> 01:33:25,679

would say it's

2521

01:33:29,830 --> 01:33:28,080

actually it looking at kind of a

2522

01:33:31,350 --> 01:33:29,840

disappointing part of the report

2523

01:33:33,030 --> 01:33:31,360

i would say this it was extremely

2524

01:33:33,830 --> 01:33:33,040

disappointing that they didn't give us

2525

01:33:40,310 --> 01:33:33,840

any new

2526

01:33:42,870 --> 01:33:40,320

because

2527

01:33:44,790 --> 01:33:42,880

all of the data that came out regarding

2528

01:33:46,550 --> 01:33:44,800

the uap stuff

2529

01:33:48,070 --> 01:33:46,560

was not from the government that's

2530

01:33:50,709 --> 01:33:48,080

really important to realize

2531

01:33:51,430 --> 01:33:50,719

all the pictures all the sensor data all

2532

01:33:53,750 --> 01:33:51,440

all of it

2533

01:33:55,830 --> 01:33:53,760

is from the journalists who who did the

2534

01:33:58,070 --> 01:33:55,840

work and they will find whistleblowers

2535

01:33:58,950 --> 01:33:58,080

who find leakers government did not

2536

01:34:01,590 --> 01:33:58,960

release that

2537

01:34:03,430 --> 01:34:01,600

we people released that the journalists

2538

01:34:04,229 --> 01:34:03,440

released that after finding it on their

2539

01:34:07,350 --> 01:34:04,239

own

2540

01:34:08,709 --> 01:34:07,360

and then government confirmed it so the

2541

01:34:11,430 --> 01:34:08,719

government is still

2542

01:34:12,629 --> 01:34:11,440

unwilling to provide any data literally

2543

01:34:16,070 --> 01:34:12,639

any data

2544

01:34:18,470 --> 01:34:16,080

even the quote-unquote unclassified the

2545

01:34:20,470 --> 01:34:18,480

gimbal data that cuts off at the end the

2546

01:34:22,950 --> 01:34:20,480

unclassified tick tech data

2547

01:34:23,750 --> 01:34:22,960

that that's that's not fully there you

2548

01:34:25,910 --> 01:34:23,760

know they

2549

01:34:27,750 --> 01:34:25,920

they have bigger data they're not

2550

01:34:30,310 --> 01:34:27,760

they're never going to release any data

2551  
01:34:31,189 --> 01:34:30,320  
unless they're required to so people

2552  
01:34:34,070 --> 01:34:31,199  
like you joe

2553  
01:34:35,590 --> 01:34:34,080  
and other jeremy corbell and other new

2554  
01:34:37,189 --> 01:34:35,600  
people you know people who's listening

2555  
01:34:39,189 --> 01:34:37,199  
to this we have to

2556  
01:34:40,790 --> 01:34:39,199  
call our congressmen pressure them

2557  
01:34:41,510 --> 01:34:40,800  
because they're the one with real power

2558  
01:34:44,030 --> 01:34:41,520  
and then

2559  
01:34:46,390 --> 01:34:44,040  
they can actually force the

2560  
01:34:48,070 --> 01:34:46,400  
military-industrial complex to release

2561  
01:34:49,830 --> 01:34:48,080  
these documents and information because

2562  
01:34:50,790 --> 01:34:49,840  
i don't think they want to i don't think

2563  
01:34:54,790 --> 01:34:50,800

they

2564

01:34:57,030 --> 01:34:54,800

to add what you're saying

2565

01:34:58,550 --> 01:34:57,040

people say why is exactly why is the

2566

01:35:01,270 --> 01:34:58,560

government doing this now

2567

01:35:02,870 --> 01:35:01,280

the government is not doing this now it

2568

01:35:05,030 --> 01:35:02,880

all started

2569

01:35:06,709 --> 01:35:05,040

when luis elizondo had a place to go

2570

01:35:08,470 --> 01:35:06,719

when he wanted to resign he resigned and

2571

01:35:11,830 --> 01:35:08,480

him and melanie went to work

2572

01:35:13,590 --> 01:35:11,840

you know 2017. yeah mellon used his uh

2573

01:35:13,990 --> 01:35:13,600

capitol hill connections and got lou to

2574

01:35:16,229 --> 01:35:14,000

brief some

2575

01:35:17,590 --> 01:35:16,239

people and they brought up alex dietrich

2576

01:35:19,830 --> 01:35:17,600

and david fravor

2577

01:35:21,189 --> 01:35:19,840

and you know that's why now it's those

2578

01:35:22,870 --> 01:35:21,199

people did the hard work and they're

2579

01:35:25,750 --> 01:35:22,880

continuing to do the hard work

2580

01:35:28,550 --> 01:35:25,760

and you know people say this is condom

2581

01:35:30,629 --> 01:35:28,560

2.0 and then lou jumps in and says well

2582

01:35:32,390 --> 01:35:30,639

not really because now we have we didn't

2583

01:35:34,070 --> 01:35:32,400

have alex dietrich back then when condom

2584

01:35:35,990 --> 01:35:34,080

was put out we didn't have david fravor

2585

01:35:38,470 --> 01:35:36,000

we didn't have jim slate we didn't have

2586

01:35:40,390 --> 01:35:38,480

chris mellon we didn't have myself but

2587

01:35:42,149 --> 01:35:40,400

then austin brings up a great point well

2588

01:35:45,189 --> 01:35:42,159

we had all those types of people

2589

01:35:46,149 --> 01:35:45,199

back in 2001. 20 years ago i remember

2590

01:35:47,990 --> 01:35:46,159

watching it

2591

01:35:49,910 --> 01:35:48,000

trying to watch it on my crappy internet

2592

01:35:50,950 --> 01:35:49,920

connection the thing would not load up i

2593

01:35:54,070 --> 01:35:50,960

had to watch it later on

2594

01:35:55,430 --> 01:35:54,080

i'm like oh my god this is it 2001.

2595

01:35:58,070 --> 01:35:55,440

this is the breakthrough and then it's

2596

01:35:59,669 --> 01:35:58,080

like crash after a week of media

2597

01:36:02,390 --> 01:35:59,679

coverage which wasn't even that

2598

01:36:04,550 --> 01:36:02,400

thorough but now the media coverage is

2599

01:36:06,550 --> 01:36:04,560

non-stop so will it continue i mean that

2600

01:36:08,629 --> 01:36:06,560

remains to be seen so

2601  
01:36:10,390 --> 01:36:08,639  
joe do you think this pushes out lou

2602  
01:36:12,870 --> 01:36:10,400  
elizonda to run

2603  
01:36:14,149 --> 01:36:12,880  
for congress like he threatened so to

2604  
01:36:17,350 --> 01:36:14,159  
speak i hope it does

2605  
01:36:18,229 --> 01:36:17,360  
um but i mean i think it i mean i think

2606  
01:36:21,270 --> 01:36:18,239  
his expectations

2607  
01:36:23,910 --> 01:36:21,280  
definitely were much higher so i agree

2608  
01:36:25,350 --> 01:36:23,920  
i i really want to see what he has to

2609  
01:36:26,550 --> 01:36:25,360  
say about this i'm not sure i want to

2610  
01:36:28,149 --> 01:36:26,560  
see what he has to say i mean i don't

2611  
01:36:29,830 --> 01:36:28,159  
really want him to run for congress

2612  
01:36:31,830 --> 01:36:29,840  
because i love having him

2613  
01:36:33,270 --> 01:36:31,840

being able to interact with us whenever

2614

01:36:34,790 --> 01:36:33,280

he wants to but

2615

01:36:36,229 --> 01:36:34,800

if that's what it takes to get done and

2616

01:36:37,030 --> 01:36:36,239

he's willing to do it and run for

2617

01:36:39,990 --> 01:36:37,040

whatever

2618

01:36:41,350 --> 01:36:40,000

run from wyoming where he is if that's

2619

01:36:42,790 --> 01:36:41,360

what it takes then

2620

01:36:45,189 --> 01:36:42,800

you know i'd obviously support whatever

2621

01:36:47,350 --> 01:36:45,199

i could i'd support his campaign 100

2622

01:36:48,790 --> 01:36:47,360

i'm sure all of us would i think so i

2623

01:36:51,189 --> 01:36:48,800

think you know i think not just

2624

01:36:52,470 --> 01:36:51,199

i'll say this a lot of people outside of

2625

01:36:55,669 --> 01:36:52,480

the ufo community

2626

01:36:57,830 --> 01:36:55,679

and i could not myself too like

2627

01:36:59,109 --> 01:36:57,840

would because you know it's it's just

2628

01:37:01,830 --> 01:36:59,119

there's pilots

2629

01:37:02,149 --> 01:37:01,840

there's people liking government um like

2630

01:37:03,910 --> 01:37:02,159

not

2631

01:37:05,510 --> 01:37:03,920

just in government but there's really

2632

01:37:06,790 --> 01:37:05,520

like sophisticated people who are not

2633

01:37:09,350 --> 01:37:06,800

like part of this like

2634

01:37:11,350 --> 01:37:09,360

in the historical context who are now

2635

01:37:13,910 --> 01:37:11,360

part of it and supported because

2636

01:37:15,430 --> 01:37:13,920

the evidence is there like increasingly

2637

01:37:16,310 --> 01:37:15,440

and we want to get to the bottom of it

2638

01:37:17,750 --> 01:37:16,320

so i think

2639

01:37:19,990 --> 01:37:17,760

the conditions are right for someone

2640

01:37:20,390 --> 01:37:20,000

like him to to kind of go out there and

2641

01:37:22,310 --> 01:37:20,400

just

2642

01:37:24,229 --> 01:37:22,320

cause some disruption within congress

2643

01:37:26,870 --> 01:37:24,239

you know

2644

01:37:27,669 --> 01:37:26,880

yeah well hats off to you joe i gotta

2645

01:37:29,430 --> 01:37:27,679

bounce

2646

01:37:30,950 --> 01:37:29,440

yeah austin thank you so much for being

2647

01:37:32,790 --> 01:37:30,960

part of this

2648

01:37:34,870 --> 01:37:32,800

peace hey joe i'm also meeting but i

2649

01:37:36,229 --> 01:37:34,880

don't want to say thank you man this was

2650

01:37:38,629 --> 01:37:36,239

a historic day

2651  
01:37:41,109 --> 01:37:38,639  
and we got here thanks to the fourth of

2652  
01:37:43,270 --> 01:37:41,119  
many people just like you men so

2653  
01:37:44,709 --> 01:37:43,280  
let's keep up for let's keep praying for

2654  
01:37:47,430 --> 01:37:44,719  
more disclosure and

2655  
01:37:48,950 --> 01:37:47,440  
may everyone have a a nice evening see

2656  
01:37:52,390 --> 01:37:48,960  
you later yeah thank you thank you

2657  
01:37:56,629 --> 01:37:52,400  
say hello to everybody in mexico for us

2658  
01:37:58,790 --> 01:37:56,639  
adios all right i'm taking off tj

2659  
01:37:59,750 --> 01:37:58,800  
great uh keep up the good work um follow

2660  
01:38:01,669 --> 01:37:59,760  
you on twitter

2661  
01:38:04,149 --> 01:38:01,679  
appreciate the disruption you're doing

2662  
01:38:04,629 --> 01:38:04,159  
too and uh i'll catch you on uh twitter

2663  
01:38:07,510 --> 01:38:04,639

okay

2664

01:38:09,109 --> 01:38:07,520

that was people right yeah paul yep and

2665

01:38:13,430 --> 01:38:09,119

paul you're in new mexico

2666

01:38:16,550 --> 01:38:15,270

joe i'm curious what do you think of

2667

01:38:17,109 --> 01:38:16,560

what's going to happen for the rest of

2668

01:38:19,189 --> 01:38:17,119

the summer

2669

01:38:20,950 --> 01:38:19,199

in terms of development whether that be

2670

01:38:24,310 --> 01:38:20,960

through corbell and nap or

2671

01:38:25,830 --> 01:38:24,320

through the usg the whole well

2672

01:38:27,510 --> 01:38:25,840

or lou actually with the international

2673

01:38:28,709 --> 01:38:27,520

thing yeah i don't know i don't know

2674

01:38:30,149 --> 01:38:28,719

about lou i know he's mentioned

2675

01:38:31,750 --> 01:38:30,159

international and corbell has taught

2676

01:38:34,229 --> 01:38:31,760

spoken about he has more

2677

01:38:35,430 --> 01:38:34,239

um but something to look forward to at

2678

01:38:38,470 --> 01:38:35,440

the end of july is

2679

01:38:38,709 --> 01:38:38,480

ross uh ross culthart's book which i

2680

01:38:41,189 --> 01:38:38,719

think

2681

01:38:42,390 --> 01:38:41,199

underestimating you know they saw his

2682

01:38:44,149 --> 01:38:42,400

documentary but the book is

2683

01:38:46,229 --> 01:38:44,159

the book is not the documentary in book

2684

01:38:48,790 --> 01:38:46,239

form the book is a lot more thorough

2685

01:38:49,910 --> 01:38:48,800

um so there could be some surprises

2686

01:38:52,550 --> 01:38:49,920

there

2687

01:38:53,750 --> 01:38:52,560

um as far as now where where do we go as

2688

01:38:55,350 --> 01:38:53,760

far as

2689

01:38:56,870 --> 01:38:55,360

how the government's gonna react to this

2690

01:38:57,990 --> 01:38:56,880

or how the senate is gonna react if

2691

01:39:00,310 --> 01:38:58,000

they're going to you know comment

2692

01:39:02,149 --> 01:39:00,320

more thoroughly you know i would like to

2693

01:39:02,550 --> 01:39:02,159

see you know rubio and some other people

2694

01:39:04,550 --> 01:39:02,560

ask

2695

01:39:05,669 --> 01:39:04,560

tops questions first off i'd like to i'd

2696

01:39:08,149 --> 01:39:05,679

like somebody to ask

2697

01:39:08,950 --> 01:39:08,159

you know senator rubio we've heard that

2698

01:39:11,030 --> 01:39:08,960

you were told

2699

01:39:12,550 --> 01:39:11,040

some of these are off world vehicles is

2700

01:39:15,109 --> 01:39:12,560

that accurate information

2701  
01:39:16,390 --> 01:39:15,119  
you know and unfortunately that was he

2702  
01:39:17,510 --> 01:39:16,400  
could say you know all of that's

2703  
01:39:19,350 --> 01:39:17,520  
classified um

2704  
01:39:20,550 --> 01:39:19,360  
but i honestly do not know where we go

2705  
01:39:23,910 --> 01:39:20,560  
from here i think

2706  
01:39:24,390 --> 01:39:23,920  
it's gonna you know supposedly who was

2707  
01:39:25,830 --> 01:39:24,400  
it oh

2708  
01:39:27,510 --> 01:39:25,840  
danny sheehan there was a private event

2709  
01:39:29,030 --> 01:39:27,520  
somebody sent me a video and

2710  
01:39:31,189 --> 01:39:29,040  
you guys saw this on twitter you know

2711  
01:39:34,149 --> 01:39:31,199  
luella zondo is booked for two more

2712  
01:39:36,310 --> 01:39:34,159  
two more appearances on 60 minutes and

2713  
01:39:37,350 --> 01:39:36,320

60 minutes is why we're here right now a

2714

01:39:39,910 --> 01:39:37,360

big reason why

2715

01:39:41,270 --> 01:39:39,920

the past month or so that everything has

2716

01:39:42,870 --> 01:39:41,280

just skyrocketed

2717

01:39:44,149 --> 01:39:42,880

because people see 60 minutes and it's

2718

01:39:44,709 --> 01:39:44,159

like just like the new york times they

2719

01:39:47,109 --> 01:39:44,719

say

2720

01:39:48,229 --> 01:39:47,119

well now it's okay to cover this and a

2721

01:39:49,750 --> 01:39:48,239

lot of the people are covering it

2722

01:39:51,830 --> 01:39:49,760

covering it because they know it's

2723

01:39:53,109 --> 01:39:51,840

it's clicks a lot of the media a lot of

2724

01:39:54,310 --> 01:39:53,119

the online newspapers

2725

01:39:55,270 --> 01:39:54,320

i don't think they really have an

2726

01:39:56,310 --> 01:39:55,280

interest in it i mean i don't know if

2727

01:40:00,390 --> 01:39:56,320

you saw the new york times

2728

01:40:02,870 --> 01:40:00,400

article yesterday um julian barnes i

2729

01:40:05,350 --> 01:40:02,880

think his name is it was horrible i mean

2730

01:40:06,790 --> 01:40:05,360

they literally have no journalism on

2731

01:40:08,790 --> 01:40:06,800

this topic it's it's

2732

01:40:10,390 --> 01:40:08,800

you could you could google better

2733

01:40:12,310 --> 01:40:10,400

journalism than those people

2734

01:40:13,750 --> 01:40:12,320

it's it's kind of amazing there's not a

2735

01:40:15,270 --> 01:40:13,760

lot you have leslie kane you have ralph

2736

01:40:16,950 --> 01:40:15,280

blumenthal you have george knapp

2737

01:40:19,030 --> 01:40:16,960

um you have jeremy corbell doing work

2738

01:40:21,590 --> 01:40:19,040

and you have you know ross caldheart

2739

01:40:23,430 --> 01:40:21,600

um it's not a lot you would think they

2740

01:40:25,910 --> 01:40:23,440

would realize this is the story of

2741

01:40:26,870 --> 01:40:25,920

the you know of the millennium so it's

2742

01:40:30,310 --> 01:40:26,880

like there's

2743

01:40:32,310 --> 01:40:30,320

there are there are what's the award

2744

01:40:34,149 --> 01:40:32,320

there are pulitzer prize awards waiting

2745

01:40:35,109 --> 01:40:34,159

for somebody to sink their teeth into

2746

01:40:36,310 --> 01:40:35,119

this and to see

2747

01:40:38,149 --> 01:40:36,320

that article in the new york times

2748

01:40:39,830 --> 01:40:38,159

yesterday it was so dismissive

2749

01:40:41,510 --> 01:40:39,840

it's like you get the great article from

2750

01:40:42,790 --> 01:40:41,520

leslie keane and blumenthal and helene

2751

01:40:44,070 --> 01:40:42,800

cooper and then you get something

2752

01:40:45,990 --> 01:40:44,080

yesterday that was

2753

01:40:47,510 --> 01:40:46,000

it was and somebody privately told me

2754

01:40:47,910 --> 01:40:47,520

you're dead on it's it's horrible it

2755

01:40:49,430 --> 01:40:47,920

almost

2756

01:40:50,790 --> 01:40:49,440

and i didn't want to get conspiratorial

2757

01:40:51,910 --> 01:40:50,800

but it sounds it looked like it was a

2758

01:40:53,990 --> 01:40:51,920

hit piece

2759

01:40:55,590 --> 01:40:54,000

and what happens is it's not really a

2760

01:40:57,270 --> 01:40:55,600

head piece like you know people bring a

2761

01:40:59,030 --> 01:40:57,280

project mockingbird and the government's

2762

01:41:00,950 --> 01:40:59,040

working through the media it's more

2763

01:41:02,390 --> 01:41:00,960

simple where it's these people have

2764

01:41:03,830 --> 01:41:02,400

sources at the newspapers they have

2765

01:41:05,109 --> 01:41:03,840

sources within the defense industry and

2766

01:41:06,709 --> 01:41:05,119

they don't want to piss them off

2767

01:41:08,149 --> 01:41:06,719

and those folks are telling them listen

2768

01:41:09,669 --> 01:41:08,159

there's nothing to roswell

2769

01:41:12,070 --> 01:41:09,679

you know there's really nothing to this

2770

01:41:15,270 --> 01:41:12,080

and that's what they report so

2771

01:41:18,390 --> 01:41:15,280

i don't know you know it's i wanted to

2772

01:41:19,830 --> 01:41:18,400

uh get your opinion about if you if you

2773

01:41:22,709 --> 01:41:19,840

if you know anything about this

2774

01:41:23,830 --> 01:41:22,719

java lays material science stuff because

2775

01:41:25,990 --> 01:41:23,840

i'm interested in the

2776

01:41:27,669 --> 01:41:26,000

scientific community a little bit more

2777

01:41:29,750 --> 01:41:27,679

and then i i heard

2778

01:41:31,990 --> 01:41:29,760

that jacques ballet has some materials

2779

01:41:35,270 --> 01:41:32,000

that's going through peer review

2780

01:41:36,390 --> 01:41:35,280

um do you have any timeline on that any

2781

01:41:38,950 --> 01:41:36,400

information about

2782

01:41:40,629 --> 01:41:38,960

that or just just any kind of nipples

2783

01:41:41,350 --> 01:41:40,639

just just through the grapevine on

2784

01:41:44,310 --> 01:41:41,360

twitter that

2785

01:41:45,350 --> 01:41:44,320

that nolan gary nolan from stanford and

2786

01:41:48,310 --> 01:41:45,360

jacques valet have

2787

01:41:49,830 --> 01:41:48,320

their paper has i believe been approved

2788

01:41:51,189 --> 01:41:49,840

i believe it made it through all the

2789

01:41:52,070 --> 01:41:51,199

peer review and they're waiting

2790

01:41:53,510 --> 01:41:52,080

publishing and that's

2791

01:41:55,590 --> 01:41:53,520

that's going to be a big deal too oh

2792

01:41:57,669 --> 01:41:55,600

really oh really that's

2793

01:41:58,950 --> 01:41:57,679

that's impressive so you went through

2794

01:42:01,189 --> 01:41:58,960

you went through

2795

01:42:02,790 --> 01:42:01,199

allegedly it went through i know they

2796

01:42:03,590 --> 01:42:02,800

were doing final touches a few months

2797

01:42:05,590 --> 01:42:03,600

ago and

2798

01:42:07,990 --> 01:42:05,600

and making you know any changes that

2799

01:42:10,229 --> 01:42:08,000

their the peer folks were requesting

2800

01:42:11,030 --> 01:42:10,239

um but then i heard that it's now we're

2801  
01:42:13,590 --> 01:42:11,040  
just waiting

2802  
01:42:14,870 --> 01:42:13,600  
so that's a big deal yeah in my opinion

2803  
01:42:17,510 --> 01:42:14,880  
that's gonna be

2804  
01:42:19,030 --> 01:42:17,520  
literally the catalyst at least for

2805  
01:42:22,870 --> 01:42:19,040  
scientists because

2806  
01:42:25,830 --> 01:42:22,880  
when you have a peer-reviewed study

2807  
01:42:26,470 --> 01:42:25,840  
in journal nature by scientists from

2808  
01:42:28,790 --> 01:42:26,480  
harvard

2809  
01:42:30,790 --> 01:42:28,800  
that's peer reviewed by 20 different

2810  
01:42:32,790 --> 01:42:30,800  
material scientists that says

2811  
01:42:34,709 --> 01:42:32,800  
you cannot make this material on earth

2812  
01:42:37,590 --> 01:42:34,719  
and even if you did

2813  
01:42:38,550 --> 01:42:37,600

it's it's near impossible that's gonna

2814

01:42:40,310 --> 01:42:38,560

change a lot of

2815

01:42:41,990 --> 01:42:40,320

scientists mind because scientists

2816

01:42:43,510 --> 01:42:42,000

they're you know they're extremely

2817

01:42:45,510 --> 01:42:43,520

arrogant i'm just gonna say it a lot of

2818

01:42:45,830 --> 01:42:45,520

my friends they're just arrogant they're

2819

01:42:47,590 --> 01:42:45,840

just

2820

01:42:48,950 --> 01:42:47,600

you know they they believe in what they

2821

01:42:50,790 --> 01:42:48,960

believe in but

2822

01:42:52,550 --> 01:42:50,800

they can they can definitely be

2823

01:42:55,590 --> 01:42:52,560

convinced especially through

2824

01:42:59,109 --> 01:42:55,600

peer-reviewed study in nature journal

2825

01:43:03,189 --> 01:43:01,109

yeah i've wondered how much i guess it

2826

01:43:04,470 --> 01:43:03,199

depends on exactly i don't know anything

2827

01:43:06,709 --> 01:43:04,480

about the materials that

2828

01:43:08,229 --> 01:43:06,719

they had analyzed um and what the

2829

01:43:09,430 --> 01:43:08,239

conclusions gonna be you know how

2830

01:43:11,590 --> 01:43:09,440

scientists will be like you just said

2831

01:43:13,430 --> 01:43:11,600

they'll they'll find any way

2832

01:43:16,149 --> 01:43:13,440

to dismiss the finding that's why i was

2833

01:43:17,990 --> 01:43:16,159

so and i was naive about it last year i

2834

01:43:20,550 --> 01:43:18,000

i was hoping we'd somehow get

2835

01:43:21,350 --> 01:43:20,560

a look at that alleged intact craft

2836

01:43:23,590 --> 01:43:21,360

because

2837

01:43:24,870 --> 01:43:23,600

the difference between materials which

2838

01:43:27,189 --> 01:43:24,880

you know a superior

2839

01:43:29,270 --> 01:43:27,199

peer-reviewed report or peer-reviewed

2840

01:43:32,310 --> 01:43:29,280

paper in a respectable scientific

2841

01:43:34,310 --> 01:43:32,320

journal is amazing but one day

2842

01:43:36,470 --> 01:43:34,320

one day hopefully in our lifetimes maybe

2843

01:43:36,870 --> 01:43:36,480

your lifetime maybe i won't be here for

2844

01:43:40,229 --> 01:43:36,880

it

2845

01:43:42,470 --> 01:43:40,239

of the craft that we have

2846

01:43:43,910 --> 01:43:42,480

that is such an impact the impact of

2847

01:43:45,590 --> 01:43:43,920

something like that as opposed to a

2848

01:43:47,109 --> 01:43:45,600

scientific report and i'm not taking

2849

01:43:48,229 --> 01:43:47,119

anything away from a scientific report

2850

01:43:50,149 --> 01:43:48,239

but

2851  
01:43:51,590 --> 01:43:50,159  
you know i do believe we have a craft

2852  
01:43:52,390 --> 01:43:51,600  
you know that just changes everything

2853  
01:43:53,910 --> 01:43:52,400  
that goes from

2854  
01:43:55,430 --> 01:43:53,920  
lights in the sky and a craft that could

2855  
01:43:55,750 --> 01:43:55,440  
be some sort of weather phenomenon to

2856  
01:43:57,990 --> 01:43:55,760  
say

2857  
01:43:59,590 --> 01:43:58,000  
here it is and by the way we have bodies

2858  
01:44:00,390 --> 01:43:59,600  
here you know and i'm jumping the gun

2859  
01:44:01,910 --> 01:44:00,400  
but

2860  
01:44:03,350 --> 01:44:01,920  
something down the road that's that's

2861  
01:44:04,310 --> 01:44:03,360  
kind of what we need we talk about

2862  
01:44:06,390 --> 01:44:04,320  
sightings how

2863  
01:44:07,669 --> 01:44:06,400

you know south america had sightings and

2864

01:44:07,990 --> 01:44:07,679

nothing against south america but i

2865

01:44:09,910 --> 01:44:08,000

think

2866

01:44:11,030 --> 01:44:09,920

whatever it is what if there's a if it's

2867

01:44:13,750 --> 01:44:11,040

a world cup event

2868

01:44:14,149 --> 01:44:13,760

it's got to be something seen by masses

2869

01:44:18,310 --> 01:44:14,159

it's

2870

01:44:21,109 --> 01:44:18,320

time i want to see a daytime sighting

2871

01:44:21,669 --> 01:44:21,119

of something huge a 2 000 feet in the

2872

01:44:23,510 --> 01:44:21,679

air

2873

01:44:25,189 --> 01:44:23,520

over the super bowl or over some event

2874

01:44:26,870 --> 01:44:25,199

where people you know maybe people are

2875

01:44:28,070 --> 01:44:26,880

watching the academy awards a billion

2876

01:44:28,709 --> 01:44:28,080

people across the world and all of a

2877

01:44:30,790 --> 01:44:28,719

sudden

2878

01:44:32,709 --> 01:44:30,800

above above the theater people say oh my

2879

01:44:34,790 --> 01:44:32,719

god look at that something like that

2880

01:44:36,310 --> 01:44:34,800

but they may not something undisputable

2881

01:44:37,830 --> 01:44:36,320

something indisputable

2882

01:44:39,270 --> 01:44:37,840

but they may there may be some sort of

2883

01:44:41,669 --> 01:44:39,280

non-interference you know prime

2884

01:44:42,870 --> 01:44:41,679

directive going on speculation which

2885

01:44:44,950 --> 01:44:42,880

then that's not going to happen it's

2886

01:44:47,750 --> 01:44:44,960

going to be up to us us

2887

01:44:49,189 --> 01:44:47,760

you know as a species to collectively

2888

01:44:50,390 --> 01:44:49,199

get to the point where if there is

2889

01:44:52,229 --> 01:44:50,400

somebody here we can ask

2890

01:44:54,470 --> 01:44:52,239

all right you guys we accept it show

2891

01:44:57,189 --> 01:44:54,480

yourselves you know i mean

2892

01:44:58,470 --> 01:44:57,199

to go into kind of theoretical land i

2893

01:45:00,070 --> 01:44:58,480

mean that kind of

2894

01:45:02,149 --> 01:45:00,080

tells me that they're extremely

2895

01:45:04,950 --> 01:45:02,159

intelligent in a way because

2896

01:45:05,910 --> 01:45:04,960

based upon reports from george knapp and

2897

01:45:08,870 --> 01:45:05,920

if he believed

2898

01:45:10,629 --> 01:45:08,880

george nav's reporting there were uh

2899

01:45:13,430 --> 01:45:10,639

uaps floating over

2900

01:45:15,990 --> 01:45:13,440

um nuclear nuclear bases and military

2901  
01:45:17,590 --> 01:45:16,000  
bases like brazing just right there

2902  
01:45:19,350 --> 01:45:17,600  
that means they're willing to show them

2903  
01:45:21,030 --> 01:45:19,360  
to select group of people

2904  
01:45:22,470 --> 01:45:21,040  
right i mean they know we're watching

2905  
01:45:24,870 --> 01:45:22,480  
them they know

2906  
01:45:26,950 --> 01:45:24,880  
they're they're showing themselves so

2907  
01:45:28,229 --> 01:45:26,960  
they i guess they don't want to show

2908  
01:45:31,109 --> 01:45:28,239  
themselves in a

2909  
01:45:32,070 --> 01:45:31,119  
extremely massive way to everybody that

2910  
01:45:33,430 --> 01:45:32,080  
would

2911  
01:45:35,430 --> 01:45:33,440  
i don't know why whatever they're

2912  
01:45:36,470 --> 01:45:35,440  
thinking they're they have reason to not

2913  
01:45:38,149 --> 01:45:36,480

show us

2914

01:45:39,990 --> 01:45:38,159

massive like you're saying like in the

2915

01:45:41,350 --> 01:45:40,000

super bowl event or whatever because

2916

01:45:42,229 --> 01:45:41,360

they probably could do that if they

2917

01:45:44,070 --> 01:45:42,239

wanted to

2918

01:45:45,350 --> 01:45:44,080

like if they exist let's make an

2919

01:45:47,510 --> 01:45:45,360

assumption they exist

2920

01:45:48,550 --> 01:45:47,520

and they could do that then they could

2921

01:45:50,629 --> 01:45:48,560

but they are

2922

01:45:52,950 --> 01:45:50,639

doing it to the military bases so why

2923

01:45:55,910 --> 01:45:52,960

are they doing it to military bases

2924

01:45:56,950 --> 01:45:55,920

and not to the general public and that's

2925

01:45:58,950 --> 01:45:56,960

that's a real

2926

01:46:00,149 --> 01:45:58,960

just curious man and then somebody said

2927

01:46:01,669 --> 01:46:00,159

well they're just preparing the

2928

01:46:02,950 --> 01:46:01,679

battlefield for when they attack us they

2929

01:46:04,470 --> 01:46:02,960

just want to make sure that we're not

2930

01:46:06,149 --> 01:46:04,480

strong enough to overtake them and

2931

01:46:07,990 --> 01:46:06,159

you know i don't think that i don't say

2932

01:46:08,950 --> 01:46:08,000

that seriously but you can't take any

2933

01:46:10,229 --> 01:46:08,960

option off the table

2934

01:46:12,149 --> 01:46:10,239

since we don't know what we're dealing

2935

01:46:14,709 --> 01:46:12,159

with but owner

2936

01:46:15,270 --> 01:46:14,719

am i saying it right yeah jewel how are

2937

01:46:23,189 --> 01:46:15,280

you

2938

01:46:26,229 --> 01:46:23,199

well we knew that there was no

2939

01:46:29,430 --> 01:46:26,239

there was no mentioning to ets or

2940

01:46:31,750 --> 01:46:29,440

aliens or ex

2941

01:46:33,030 --> 01:46:31,760

ultra terrestrial extraterrestrial super

2942

01:46:35,830 --> 01:46:33,040

terrestrial beings

2943

01:46:38,070 --> 01:46:35,840

but um i think we need to know what's

2944

01:46:41,830 --> 01:46:38,080

going to be in the

2945

01:46:44,229 --> 01:46:41,840

classified annex so that might as

2946

01:46:46,470 --> 01:46:44,239

remember like in laughlin uh dennis

2947

01:46:49,750 --> 01:46:46,480

sheehan was pretty optimistic about

2948

01:46:50,870 --> 01:46:49,760

the uh classified annex that is going to

2949

01:46:53,270 --> 01:46:50,880

have the

2950

01:46:55,590 --> 01:46:53,280

mentioning of maybe these uaps from

2951

01:46:58,149 --> 01:46:55,600

extraterrestrial or et origins

2952

01:46:59,510 --> 01:46:58,159

or out of this world they might mention

2953

01:47:02,870 --> 01:46:59,520

over there but

2954

01:47:06,790 --> 01:47:02,880

uh i mean i just saw what i

2955

01:47:11,109 --> 01:47:09,510

the language is of course extremely

2956

01:47:14,550 --> 01:47:11,119

extremely careful

2957

01:47:17,750 --> 01:47:14,560

and um okay we don't know

2958

01:47:21,270 --> 01:47:17,760

what they are but no

2959

01:47:24,950 --> 01:47:21,280

mentioning about variables or

2960

01:47:27,270 --> 01:47:24,960

what could be the uh origins of these

2961

01:47:29,030 --> 01:47:27,280

uaps it's just saying that

2962

01:47:32,070 --> 01:47:29,040

this we don't we just don't know that

2963

01:47:34,870 --> 01:47:32,080

that's it what did you expect

2964

01:47:37,109 --> 01:47:34,880

i i was expecting something like this

2965

01:47:40,149 --> 01:47:37,119

actually i wasn't expecting any

2966

01:47:43,270 --> 01:47:40,159

e.t phenomenon in the report or

2967

01:47:45,669 --> 01:47:43,280

out of the world phenomenon or like it's

2968

01:47:48,950 --> 01:47:45,679

completely russian or

2969

01:47:52,790 --> 01:47:48,960

chinese or something i just i just got

2970

01:47:56,550 --> 01:47:55,030

i mean let's see what's going to happen

2971

01:48:02,149 --> 01:47:56,560

but like um

2972

01:48:05,750 --> 01:48:04,310

by the end of the day i will see it i

2973

01:48:06,870 --> 01:48:05,760

will go through it again and just pick

2974

01:48:08,070 --> 01:48:06,880

out the parts that

2975

01:48:09,669 --> 01:48:08,080

stuck out there's some really

2976

01:48:11,669 --> 01:48:09,679

interesting parts of that but yeah the

2977

01:48:13,510 --> 01:48:11,679

the the annex

2978

01:48:15,109 --> 01:48:13,520

rubio said as everything else in

2979

01:48:16,470 --> 01:48:15,119

washington it will leak

2980

01:48:18,950 --> 01:48:16,480

you know what was in the classified

2981

01:48:20,709 --> 01:48:18,960

portion so let's see what let's see what

2982

01:48:22,870 --> 01:48:20,719

they got to see i'm disappointed that we

2983

01:48:23,910 --> 01:48:22,880

didn't have any specifics on any cases

2984

01:48:25,270 --> 01:48:23,920

i'm like

2985

01:48:27,030 --> 01:48:25,280

they couldn't i know they didn't even

2986

01:48:27,350 --> 01:48:27,040

they didn't even mention the nimitz case

2987

01:48:29,750 --> 01:48:27,360

and

2988

01:48:31,830 --> 01:48:29,760

they could yeah they could share more

2989

01:48:33,510 --> 01:48:31,840

information about nimitz and gimbal and

2990

01:48:35,270 --> 01:48:33,520

goldfest and whatever other without

2991

01:48:36,790 --> 01:48:35,280

giving away sources and methods it's

2992

01:48:38,310 --> 01:48:36,800

written down yeah i mean it's a it's

2993

01:48:39,990 --> 01:48:38,320

literally already released and they

2994

01:48:41,669 --> 01:48:40,000

didn't even do that and that tells me

2995

01:48:42,470 --> 01:48:41,679

they're just not really to release any

2996

01:48:46,470 --> 01:48:42,480

data

2997

01:48:49,189 --> 01:48:46,480

you're not even willing to

2998

01:48:51,109 --> 01:48:49,199

re like provide a better resolution of

2999

01:48:53,350 --> 01:48:51,119

it because they definitely do have it

3000

01:48:54,870 --> 01:48:53,360

i mean it's it's just it's just

3001

01:48:56,629 --> 01:48:54,880

disingenuous to me this

3002

01:48:58,709 --> 01:48:56,639

that's all this government this

3003

01:49:00,070 --> 01:48:58,719

information not even this information

3004

01:49:02,229 --> 01:49:00,080

they're just not telling us

3005

01:49:03,430 --> 01:49:02,239

they're just we know they have it a lot

3006

01:49:05,109 --> 01:49:03,440

of people know they have it that's

3007

01:49:07,109 --> 01:49:05,119

what's so frustrating

3008

01:49:08,390 --> 01:49:07,119

in ufo communities right because a lot

3009

01:49:11,270 --> 01:49:08,400

of people have

3010

01:49:12,709 --> 01:49:11,280

actually seen it they hear people about

3011

01:49:15,750 --> 01:49:12,719

it they know people who

3012

01:49:18,790 --> 01:49:15,760

supposedly working uh

3013

01:49:20,709 --> 01:49:18,800

something about it it and we just can't

3014

01:49:22,629 --> 01:49:20,719

nobody nobody just accepts it and that

3015

01:49:24,390 --> 01:49:22,639

just makes it extremely frustrating

3016

01:49:26,070 --> 01:49:24,400

and not just lack of data they could

3017

01:49:26,950 --> 01:49:26,080

have put in they could have put

3018

01:49:28,709 --> 01:49:26,960

information

3019

01:49:31,270 --> 01:49:28,719

in the report about nimitz it didn't

3020

01:49:32,790 --> 01:49:31,280

have to be radar or video or floor

3021

01:49:34,629 --> 01:49:32,800

they could just put they could have put

3022

01:49:36,310 --> 01:49:34,639

specifics which they learned about

3023

01:49:38,629 --> 01:49:36,320

what those craft were doing during that

3024

01:49:40,629 --> 01:49:38,639

week-long event but there was nothing

3025

01:49:42,149 --> 01:49:40,639

so that's that's that's what i'm saying

3026

01:49:44,870 --> 01:49:42,159

everything is mentioned

3027

01:49:46,550 --> 01:49:44,880

in a very abstract way that we don't

3028

01:49:49,669 --> 01:49:46,560

know what they are and like

3029

01:49:50,950 --> 01:49:49,679

we have some cases air forces intervened

3030

01:49:53,270 --> 01:49:50,960

and we have military

3031

01:49:55,990 --> 01:49:53,280

counters but we don't know what they are

3032

01:49:58,229 --> 01:49:56,000

and we need further research that's what

3033

01:49:59,750 --> 01:49:58,239

everything is so abstract like nothing

3034

01:50:03,270 --> 01:49:59,760

is

3035

01:50:05,669 --> 01:50:03,280

like pronounced in the report and that's

3036

01:50:06,950 --> 01:50:05,679

but maybe danny is going to make an

3037

01:50:08,629 --> 01:50:06,960

announcement or

3038

01:50:10,070 --> 01:50:08,639

like let's see what's going to happen

3039

01:50:11,030 --> 01:50:10,080

i'm not expecting anything from

3040

01:50:15,109 --> 01:50:11,040

alexander but

3041

01:50:16,709 --> 01:50:15,119

maybe then she might give us something

3042

01:50:18,950 --> 01:50:16,719

i will tell you something that danny saw

3043

01:50:19,830 --> 01:50:18,960

which i wanted to say for my blog but

3044

01:50:22,709 --> 01:50:19,840

i'll and

3045

01:50:23,189 --> 01:50:22,719

you might have heard him say it um when

3046

01:50:25,109 --> 01:50:23,199

i was

3047

01:50:27,030 --> 01:50:25,119

talking with sheen after his lecture at

3048

01:50:30,550 --> 01:50:27,040

ufo megacon last week

3049

01:50:31,430 --> 01:50:30,560

he was taking q a and i don't know it

3050

01:50:33,109 --> 01:50:31,440

was alan

3051  
01:50:34,709 --> 01:50:33,119  
steinfeld was there and somehow danny

3052  
01:50:38,149 --> 01:50:34,719  
said i've seen

3053  
01:50:38,790 --> 01:50:38,159  
pictures from an f-18 50 feet off the

3054  
01:50:41,270 --> 01:50:38,800  
wing

3055  
01:50:43,669 --> 01:50:41,280  
of a tic tac so they have that kind of

3056  
01:50:45,270 --> 01:50:43,679  
stuff they have that kind of data

3057  
01:50:46,950 --> 01:50:45,280  
why they couldn't show us that picture

3058  
01:50:47,750 --> 01:50:46,960  
because that doesn't give away sources

3059  
01:50:49,270 --> 01:50:47,760  
and methods

3060  
01:50:51,510 --> 01:50:49,280  
somebody took a picture with their with

3061  
01:50:53,430 --> 01:50:51,520  
their iphone of a tic tac 50 feet

3062  
01:50:55,270 --> 01:50:53,440  
and he's seen the picture so so i'm like

3063  
01:50:58,070 --> 01:50:55,280

was did you see that from lou he's like

3064

01:50:58,400 --> 01:50:58,080

no i go your own sources he's like yes

3065

01:50:59,830 --> 01:50:58,410

um

3066

01:51:01,430 --> 01:50:59,840

[Music]

3067

01:51:02,950 --> 01:51:01,440

so yeah and danny's going to be on

3068

01:51:03,830 --> 01:51:02,960

another panel tonight so i don't know i

3069

01:51:06,149 --> 01:51:03,840

don't know how

3070

01:51:08,229 --> 01:51:06,159

i i'm very curious to see how he reacts

3071

01:51:11,189 --> 01:51:08,239

and i i guess i'll have another

3072

01:51:13,669 --> 01:51:11,199

interview something to transcribe my dan

3073

01:51:15,350 --> 01:51:13,679

my sheehan transcription is like

3074

01:51:16,790 --> 01:51:15,360

it's like 28 000 words and it's going to

3075

01:51:18,229 --> 01:51:16,800

be a lot more active tonight

3076

01:51:19,669 --> 01:51:18,239

because i'm really curious to hear what

3077

01:51:20,950 --> 01:51:19,679

he has to say because i don't think he's

3078

01:51:23,910 --> 01:51:20,960

going to be happy with this

3079

01:51:26,229 --> 01:51:23,920

joe but there's also like i think 70

3080

01:51:27,990 --> 01:51:26,239

something pages of this annex so

3081

01:51:29,510 --> 01:51:28,000

probably they're kind of busy to reading

3082

01:51:32,550 --> 01:51:29,520

it too and also

3083

01:51:34,870 --> 01:51:32,560

like um understanding it making a

3084

01:51:36,709 --> 01:51:34,880

summary and creating a plan based on

3085

01:51:38,070 --> 01:51:36,719

that also takes some time

3086

01:51:40,709 --> 01:51:38,080

are you going to attend to grant

3087

01:51:42,070 --> 01:51:40,719

cameron's podcast

3088

01:51:44,550 --> 01:51:42,080

tonight you're talking about tonight we

3089

01:51:48,709 --> 01:51:44,560

have 7 p.m yeah so yeah that's

3090

01:51:50,709 --> 01:51:48,719

that's where i think yeah sheen will be

3091

01:51:53,669 --> 01:51:50,719

part of that

3092

01:51:54,950 --> 01:51:53,679

so yes yes i will listen and hopefully

3093

01:51:57,510 --> 01:51:54,960

if he says something really good it's

3094

01:51:58,629 --> 01:51:57,520

not too much

3095

01:52:02,790 --> 01:51:58,639

because i have to go through i still

3096

01:52:04,709 --> 01:52:02,800

have to finish this transcript um

3097

01:52:07,189 --> 01:52:04,719

i don't think i don't think that she has

3098

01:52:09,589 --> 01:52:07,199

access to the classified report i think

3099

01:52:10,709 --> 01:52:09,599

some of the defense reporters will be

3100

01:52:13,430 --> 01:52:10,719

maybe shown it

3101

01:52:15,270 --> 01:52:13,440

or told what's inside of it like the new

3102

01:52:16,709 --> 01:52:15,280

york times article was based on sources

3103

01:52:17,990 --> 01:52:16,719

who have who had seen it

3104

01:52:19,990 --> 01:52:18,000

but the report is i don't think the

3105

01:52:21,030 --> 01:52:20,000

reporters actually had seen it they were

3106

01:52:23,189 --> 01:52:21,040

told what was in it

3107

01:52:25,030 --> 01:52:23,199

it's funny because this kind of didn't

3108

01:52:29,030 --> 01:52:25,040

match what their article said

3109

01:52:30,149 --> 01:52:29,040

the article said they

3110

01:52:31,589 --> 01:52:30,159

what was it when they were talking about

3111

01:52:33,589 --> 01:52:31,599

our technology they said the vast

3112

01:52:35,910 --> 01:52:33,599

majority of these

3113

01:52:37,669 --> 01:52:35,920

are not ours um but in this actual

3114

01:52:39,589 --> 01:52:37,679

report it basically says

3115

01:52:41,030 --> 01:52:39,599

they found no evidence that it was ours

3116

01:52:42,790 --> 01:52:41,040

you know

3117

01:52:44,149 --> 01:52:42,800

and they oh and also that was not in the

3118

01:52:46,310 --> 01:52:44,159

new york times group

3119

01:52:47,910 --> 01:52:46,320

article saying that they kind of ruled

3120

01:52:50,149 --> 01:52:47,920

out foreign adversary that's

3121

01:52:51,109 --> 01:52:50,159

for me that's the biggest takeaway we

3122

01:52:53,589 --> 01:52:51,119

can't say it enough

3123

01:52:56,149 --> 01:52:53,599

no data no data that's foreign probably

3124

01:52:59,189 --> 01:52:56,159

lack a single explanation

3125

01:53:01,350 --> 01:52:59,199

yeah and for them for us that means

3126  
01:53:02,390 --> 01:53:01,360  
maybe some of them are reptilian some of

3127  
01:53:04,310 --> 01:53:02,400  
them are greys

3128  
01:53:05,510 --> 01:53:04,320  
but for them it's like well maybe some

3129  
01:53:08,149 --> 01:53:05,520  
of them are drones

3130  
01:53:09,430 --> 01:53:08,159  
maybe some of them are other funny

3131  
01:53:11,350 --> 01:53:09,440  
different different views

3132  
01:53:12,790 --> 01:53:11,360  
i mean at least declaring that it's not

3133  
01:53:14,310 --> 01:53:12,800  
ours it's also a step

3134  
01:53:16,470 --> 01:53:14,320  
it's not our drawings it's not

3135  
01:53:18,390 --> 01:53:16,480  
technology it's a stuff

3136  
01:53:20,550 --> 01:53:18,400  
and as much as we all get excited and

3137  
01:53:21,510 --> 01:53:20,560  
luch louis hammered at home for three

3138  
01:53:23,910 --> 01:53:21,520

years he's like

3139

01:53:25,750 --> 01:53:23,920

it's gonna take a while i mean we all

3140

01:53:28,390 --> 01:53:25,760

get excited i've gotten excited i've

3141

01:53:30,709 --> 01:53:28,400

gotten oh i've gone overboard i said

3142

01:53:32,709 --> 01:53:30,719

they denied that he was cheering the uap

3143

01:53:33,350 --> 01:53:32,719

i'm here reed has to step in that he was

3144

01:53:37,270 --> 01:53:33,360

the

3145

01:53:38,790 --> 01:53:37,280

it's those people it's a small group of

3146

01:53:40,629 --> 01:53:38,800

people that have been doing it for a

3147

01:53:41,990 --> 01:53:40,639

long time they'll do anything they can

3148

01:53:43,669 --> 01:53:42,000

to kill a program

3149

01:53:45,030 --> 01:53:43,679

i spoke to somebody on the inside and

3150

01:53:46,870 --> 01:53:45,040

they're like those people will do

3151

01:53:48,629 --> 01:53:46,880

anything to kill a budget they're so

3152

01:53:50,550 --> 01:53:48,639

desperate to keep us from studying it

3153

01:53:52,229 --> 01:53:50,560

because of their religious beliefs it's

3154

01:53:53,350 --> 01:53:52,239

a big part of that i'm sorry for people

3155

01:53:54,790 --> 01:53:53,360

who are religious but

3156

01:53:56,390 --> 01:53:54,800

that's a big part of why we're not

3157

01:53:57,910 --> 01:53:56,400

getting to see a lot of this stuff and

3158

01:53:59,589 --> 01:53:57,920

why these programs die

3159

01:54:00,870 --> 01:53:59,599

you know those people i don't know how

3160

01:54:02,229 --> 01:54:00,880

much power they had over the senate

3161

01:54:03,990 --> 01:54:02,239

select intelligence committee

3162

01:54:05,830 --> 01:54:04,000

but as far as telling them you cannot do

3163

01:54:06,790 --> 01:54:05,840

this i'm not sure exactly who those

3164

01:54:09,510 --> 01:54:06,800

people are

3165

01:54:10,310 --> 01:54:09,520

lou i think lou names and i don't think

3166

01:54:12,070 --> 01:54:10,320

every one of them

3167

01:54:13,589 --> 01:54:12,080

it's based on religious grounds i think

3168

01:54:16,390 --> 01:54:13,599

but a big part of it is

3169

01:54:17,990 --> 01:54:16,400

and lou has you know he says in the in

3170

01:54:19,669 --> 01:54:18,000

inspector general

3171

01:54:21,109 --> 01:54:19,679

inquiry that they've made he does name

3172

01:54:23,589 --> 01:54:21,119

them you know

3173

01:54:25,109 --> 01:54:23,599

yeah yeah you know i do want to know who

3174

01:54:29,510 --> 01:54:25,119

those people are

3175

01:54:31,910 --> 01:54:29,520

yeah yeah i mean um

3176

01:54:32,950 --> 01:54:31,920

this is i think this is the same tactic

3177

01:54:37,589 --> 01:54:32,960

that we've seen

3178

01:54:40,229 --> 01:54:37,599

over the years leak some information

3179

01:54:41,189 --> 01:54:40,239

create a disinformation campaign the

3180

01:54:43,270 --> 01:54:41,199

information is

3181

01:54:44,550 --> 01:54:43,280

the reality is there but we don't know

3182

01:54:47,830 --> 01:54:44,560

what to believe in

3183

01:54:49,990 --> 01:54:47,840

so even the data we have is correct

3184

01:54:51,109 --> 01:54:50,000

we're in between is it correct or not

3185

01:54:52,629 --> 01:54:51,119

that this is

3186

01:54:54,629 --> 01:54:52,639

exactly what they're doing here right

3187

01:54:55,350 --> 01:54:54,639

now too then you're just staying in

3188

01:54:59,030 --> 01:54:55,360

between

3189

01:55:03,430 --> 01:54:59,040

okay and you don't know what to believe

3190

01:55:03,990 --> 01:55:03,440

or they're just denying their own head

3191

01:55:07,189 --> 01:55:04,000

of their

3192

01:55:08,709 --> 01:55:07,199

uap program program chair i mean what

3193

01:55:11,510 --> 01:55:08,719

can you expect

3194

01:55:12,229 --> 01:55:11,520

i think the government is just extremely

3195

01:55:14,950 --> 01:55:12,239

scared

3196

01:55:16,709 --> 01:55:14,960

i mean especially with this new cold war

3197

01:55:19,910 --> 01:55:16,719

rising with china

3198

01:55:21,350 --> 01:55:19,920

and um they just they because they knew

3199

01:55:23,589 --> 01:55:21,360

they haven't been

3200

01:55:26,070 --> 01:55:23,599

studying this legitimately for a while

3201

01:55:28,470 --> 01:55:26,080

so that now they're really scared that

3202

01:55:29,990 --> 01:55:28,480

china or russia might be ahead of them

3203

01:55:31,990 --> 01:55:30,000

in this technology right i mean

3204

01:55:33,109 --> 01:55:32,000

because we know that's that's why harry

3205

01:55:35,350 --> 01:55:33,119

reid started it

3206

01:55:37,510 --> 01:55:35,360

in the in that program like does not not

3207

01:55:39,830 --> 01:55:37,520

that they have this technology

3208

01:55:40,550 --> 01:55:39,840

but they're trying to study it just like

3209

01:55:42,470 --> 01:55:40,560

us you know we

3210

01:55:44,790 --> 01:55:42,480

they're trying to study it but they went

3211

01:55:46,390 --> 01:55:44,800

farther in that study of ufc

3212

01:55:47,669 --> 01:55:46,400

i think they knew that russia and china

3213

01:55:49,270 --> 01:55:47,679

they're also going through these

3214

01:55:50,149 --> 01:55:49,280

sightings and like they knew that they

3215

01:55:52,310 --> 01:55:50,159

were

3216

01:55:54,470 --> 01:55:52,320

chinese but like i understand in the 40s

3217

01:55:55,189 --> 01:55:54,480

like in 47 for example during truman

3218

01:55:58,070 --> 01:55:55,199

time

3219

01:55:59,830 --> 01:55:58,080

okay keeping it secret just after second

3220

01:56:01,350 --> 01:55:59,840

world war where like millions of people

3221

01:56:03,030 --> 01:56:01,360

now i understand that

3222

01:56:04,950 --> 01:56:03,040

i mean they killed the secretary of

3223

01:56:08,870 --> 01:56:04,960

defense for that

3224

01:56:10,790 --> 01:56:08,880

well maybe you can see these scratch

3225

01:56:12,629 --> 01:56:10,800

marks on the hospital window

3226

01:56:14,149 --> 01:56:12,639

i know i know maybe they may have killed

3227

01:56:16,470 --> 01:56:14,159

people they may have committed by i mean

3228

01:56:18,149 --> 01:56:16,480

lou has insinuate basically lou said

3229

01:56:20,390 --> 01:56:18,159

during his richard dolan interview

3230

01:56:21,910 --> 01:56:20,400

that his very close colleague

3231

01:56:23,430 --> 01:56:21,920

encountered these people

3232

01:56:24,629 --> 01:56:23,440

you know and there's rumors over the

3233

01:56:25,350 --> 01:56:24,639

years that they've you know been

3234

01:56:28,070 --> 01:56:25,360

involved in

3235

01:56:30,229 --> 01:56:28,080

you know intimidation he went as far as

3236

01:56:32,229 --> 01:56:30,239

intimidation so

3237

01:56:34,629 --> 01:56:32,239

yeah you know that may have gone on and

3238

01:56:35,510 --> 01:56:34,639

back then it was it's never acceptable

3239

01:56:37,430 --> 01:56:35,520

obviously

3240

01:56:39,189 --> 01:56:37,440

if forrest all was murdered that's not

3241

01:56:40,229 --> 01:56:39,199

except not it's never acceptable i don't

3242

01:56:43,109 --> 01:56:40,239

care what the secret is

3243

01:56:43,830 --> 01:56:43,119

you know just the last question before i

3244

01:56:47,109 --> 01:56:43,840

leave

3245

01:56:49,830 --> 01:56:47,119

what can uh people like us do to help in

3246

01:56:53,510 --> 01:56:49,840

the ufo community

3247

01:56:55,430 --> 01:56:53,520

you know a lot of i mean contact your

3248

01:56:57,589 --> 01:56:55,440

contact your representatives is great

3249

01:56:58,950 --> 01:56:57,599

but i don't think we're large enough to

3250

01:57:01,589 --> 01:56:58,960

make a difference yet

3251

01:57:02,950 --> 01:57:01,599

i mean and i i never i've never said

3252

01:57:05,669 --> 01:57:02,960

this because i know it's controversial

3253

01:57:07,669 --> 01:57:05,679

but the kind of energy we need

3254

01:57:08,950 --> 01:57:07,679

is what happened on january 6 with the

3255

01:57:10,550 --> 01:57:08,960

trump rally

3256

01:57:12,149 --> 01:57:10,560

that kind of energy not the kind of

3257

01:57:13,589 --> 01:57:12,159

violence i'm not talking about people

3258

01:57:14,950 --> 01:57:13,599

breaking into the capital but we need

3259

01:57:16,950 --> 01:57:14,960

that kind of crowd

3260

01:57:18,470 --> 01:57:16,960

that kind of energy we need people to be

3261

01:57:20,149 --> 01:57:18,480

pissed off to the point where like we

3262

01:57:21,589 --> 01:57:20,159

need this data you need to give us that

3263

01:57:23,750 --> 01:57:21,599

data and i'm not sure how

3264

01:57:25,510 --> 01:57:23,760

patient yeah we need the passion and

3265

01:57:27,510 --> 01:57:25,520

it's only passion in our community

3266

01:57:28,870 --> 01:57:27,520

it hasn't expanded there are people that

3267

01:57:29,589 --> 01:57:28,880

are interested in this you know they're

3268

01:57:32,470 --> 01:57:29,599

like

3269

01:57:33,750 --> 01:57:32,480

this is interesting you know oh that's

3270

01:57:35,109 --> 01:57:33,760

interesting but they're not passionate

3271

01:57:38,149 --> 01:57:35,119

like us like

3272

01:57:39,750 --> 01:57:38,159

we're obsessed by this and i i don't

3273

01:57:42,070 --> 01:57:39,760

know what it's going to take to get

3274

01:57:43,430 --> 01:57:42,080

a certain critical mass critical number

3275

01:57:44,310 --> 01:57:43,440

of people to get to that point where we

3276

01:57:45,109 --> 01:57:44,320

make a difference with our

3277

01:57:46,629 --> 01:57:45,119

representatives

3278

01:57:48,310 --> 01:57:46,639

i mean we see them speaking out but i'm

3279

01:57:49,669 --> 01:57:48,320

not sure if our representatives are

3280

01:57:50,310 --> 01:57:49,679

speaking out because they feel pressure

3281

01:57:52,470 --> 01:57:50,320

from us

3282

01:57:53,910 --> 01:57:52,480

or because they they realize it's a good

3283

01:57:55,830 --> 01:57:53,920

thing to talk about it makes them look

3284

01:57:58,870 --> 01:57:55,840

good right now in this climate

3285

01:58:00,149 --> 01:57:58,880

um what else can you do i mean just keep

3286

01:58:01,830 --> 01:58:00,159

i don't know share it with as many

3287

01:58:03,109 --> 01:58:01,840

people as you can i'll bring it up

3288

01:58:05,030 --> 01:58:03,119

whenever i can

3289

01:58:07,589 --> 01:58:05,040

and i'll keep it very basic for people

3290

01:58:09,109 --> 01:58:07,599

and now i can i can refer to 60 minutes

3291

01:58:10,550 --> 01:58:09,119

before it was the new york times

3292

01:58:12,149 --> 01:58:10,560

and those are two really big things that

3293

01:58:13,669 --> 01:58:12,159

i didn't have in the past i mean i would

3294

01:58:14,629 --> 01:58:13,679

still talk about it with strangers if i

3295

01:58:17,910 --> 01:58:14,639

could

3296

01:58:19,270 --> 01:58:17,920

um but we just have to get more people

3297

01:58:19,990 --> 01:58:19,280

interested and i think it's happening it

3298

01:58:21,669 --> 01:58:20,000

just it takes

3299

01:58:23,510 --> 01:58:21,679

it's going to take a while you know well

3300

01:58:26,709 --> 01:58:23,520

so we need more people like dennis

3301  
01:58:28,709 --> 01:58:26,719  
who can speak with their language yeah

3302  
01:58:29,830 --> 01:58:28,719  
thanks for the in thanks for the insight

3303  
01:58:33,189 --> 01:58:29,840  
man have a

3304  
01:58:35,910 --> 01:58:33,199  
have a nice rest of the stream thank you

3305  
01:58:36,950 --> 01:58:35,920  
yeah we're going to end this soon um but

3306  
01:58:39,750 --> 01:58:36,960  
she and also talk

3307  
01:58:41,109 --> 01:58:39,760  
she talks about one of the things what i

3308  
01:58:41,990 --> 01:58:41,119  
had never heard him talk about he talks

3309  
01:58:43,750 --> 01:58:42,000  
about

3310  
01:58:45,189 --> 01:58:43,760  
they taught when he was with john mack

3311  
01:58:46,709 --> 01:58:45,199  
they had an idea and she and said he

3312  
01:58:50,310 --> 01:58:46,719  
came up with the idea they taught

3313  
01:58:52,550 --> 01:58:50,320

they said listen these beings we react

3314

01:58:54,390 --> 01:58:52,560

we don't really react well to them if if

3315

01:58:56,870 --> 01:58:54,400

during an abduction so they

3316

01:58:58,149 --> 01:58:56,880

they wind up sedating us and they put us

3317

01:59:00,390 --> 01:58:58,159

where we can't move and

3318

01:59:02,550 --> 01:59:00,400

people panic he goes we need to teach

3319

01:59:05,189 --> 01:59:02,560

these experiencers

3320

01:59:06,470 --> 01:59:05,199

holotropic holotropic breathing which

3321

01:59:08,390 --> 01:59:06,480

was stanislav graf

3322

01:59:10,149 --> 01:59:08,400

something he came up with to keep them

3323

01:59:12,550 --> 01:59:10,159

calm so when they do have the encounter

3324

01:59:13,910 --> 01:59:12,560

they don't react crazy and he said one

3325

01:59:16,229 --> 01:59:13,920

of the persons in the group

3326

01:59:17,910 --> 01:59:16,239

did that and she was taken to see her

3327

01:59:18,310 --> 01:59:17,920

daughter you know he's insinuating that

3328

01:59:21,270 --> 01:59:18,320

it's

3329

01:59:23,270 --> 01:59:21,280

a hybrid so you know she and does talk

3330

01:59:24,790 --> 01:59:23,280

about stuff that's controversial too

3331

01:59:26,550 --> 01:59:24,800

but he knows he goes you got to know

3332

01:59:27,830 --> 01:59:26,560

your audience if you're in front of

3333

01:59:28,870 --> 01:59:27,840

somebody for the first time who's never

3334

01:59:30,470 --> 01:59:28,880

heard about this you're not going to

3335

01:59:31,750 --> 01:59:30,480

bring up the possibility of hybrids

3336

01:59:33,669 --> 01:59:31,760

you're going to talk about 60 minutes

3337

01:59:35,430 --> 01:59:33,679

passionate about the subject too and he

3338

01:59:37,109 --> 01:59:35,440

knows the literature pretty well oh he's

3339

01:59:38,390 --> 01:59:37,119

amazing he's just the best thing

3340

01:59:40,550 --> 01:59:38,400

i think he's the best thing you follow

3341

01:59:42,229 --> 01:59:40,560

and he's trying his best to unite

3342

01:59:43,750 --> 01:59:42,239

greer and elizondo and the people who

3343

01:59:46,310 --> 01:59:43,760

think this is a false flag

3344

01:59:48,390 --> 01:59:46,320

and during his interview he goes through

3345

01:59:49,990 --> 01:59:48,400

this long explanation of why he doesn't

3346

01:59:51,589 --> 01:59:50,000

believe this is a false flag

3347

01:59:53,510 --> 01:59:51,599

he says there's no evidence for that it

3348

01:59:55,589 --> 01:59:53,520

makes no sense if they want money

3349

01:59:57,750 --> 01:59:55,599

then there's so many other avenues they

3350

02:00:00,229 --> 01:59:57,760

could still use that thank you

3351

02:00:01,990 --> 02:00:00,239

and he goes but i do understand i'm

3352

02:00:03,589 --> 02:00:02,000

trying to get ahead of the possibility

3353

02:00:05,270 --> 02:00:03,599

that maybe in the future

3354

02:00:07,510 --> 02:00:05,280

there might be a false flag and that's

3355

02:00:09,589 --> 02:00:07,520

where he says so i understand that

3356

02:00:11,830 --> 02:00:09,599

good on them for at least being prepared

3357

02:00:13,109 --> 02:00:11,840

for the possibility he's doing his best

3358

02:00:15,109 --> 02:00:13,119

to try to mend

3359

02:00:17,669 --> 02:00:15,119

fences with elizondo and greer but it's

3360

02:00:18,070 --> 02:00:17,679

hard when you know greer calls elizondo

3361

02:00:34,149 --> 02:00:18,080

a

3362

02:00:35,830 --> 02:00:34,159

it come on

3363

02:00:37,669 --> 02:00:35,840

we could you've done some great stuff

3364

02:00:39,990 --> 02:00:37,679

just we also put

3365

02:00:41,270 --> 02:00:40,000

denishin under the bus too just for his

3366

02:00:43,510 --> 02:00:41,280

own sake that's not

3367

02:00:45,270 --> 02:00:43,520

that's not good i mean he's always

3368

02:00:47,589 --> 02:00:45,280

talking about oh we should always like

3369

02:00:49,750 --> 02:00:47,599

get rid of our egos for these beautiful

3370

02:00:50,229 --> 02:00:49,760

lucky beings who are visiting us and so

3371

02:00:52,870 --> 02:00:50,239

on

3372

02:00:54,229 --> 02:00:52,880

first start from yourself dream your

3373

02:00:56,629 --> 02:00:54,239

giant eagle

3374

02:00:58,070 --> 02:00:56,639

i know i know i agree maybe i don't know

3375

02:00:59,589 --> 02:00:58,080

if it'll happen but any thoughts any

3376

02:01:02,070 --> 02:00:59,599

final thoughts guys

3377

02:01:02,870 --> 02:01:02,080

final thoughts today something exciting

3378

02:01:04,790 --> 02:01:02,880

just happened

3379

02:01:06,709 --> 02:01:04,800

actually though what happened the dod

3380

02:01:08,790 --> 02:01:06,719

now requires all members

3381

02:01:10,310 --> 02:01:08,800

to report any uap activity within two

3382

02:01:11,990 --> 02:01:10,320

weeks of sighting and there's a new

3383

02:01:12,629 --> 02:01:12,000

memorandum that just came out that's

3384

02:01:15,669 --> 02:01:12,639

like

3385

02:01:17,589 --> 02:01:15,679

that's who is it the uh uh

3386

02:01:19,510 --> 02:01:17,599

i'll just i'll link it in the chat but

3387

02:01:23,189 --> 02:01:19,520

oh yeah i just saw it

3388

02:01:25,189 --> 02:01:23,199

it's from um

3389

02:01:26,390 --> 02:01:25,199

it's a memorandum from senior pentagon

3390

02:01:29,350 --> 02:01:26,400

leadership commanders

3391

02:01:30,709 --> 02:01:29,360

of the combatant commands defense agency

3392

02:01:32,629 --> 02:01:30,719

and dod field

3393

02:01:34,390 --> 02:01:32,639

activity directors and it's basically

3394

02:01:37,030 --> 02:01:34,400

from the uap task force directing it to

3395

02:01:38,709 --> 02:01:37,040

all forms of dod to to now

3396

02:01:40,070 --> 02:01:38,719

send their sightings into the uap task

3397

02:01:43,030 --> 02:01:40,080

force damn

3398

02:01:44,310 --> 02:01:43,040

that's good yeah that's a good thing

3399

02:01:44,870 --> 02:01:44,320

i'll have to find that thank you for

3400

02:01:48,149 --> 02:01:44,880

that

3401

02:01:48,870 --> 02:01:48,159

no worries final thoughts guys i'll just

3402

02:01:52,470 --> 02:01:48,880

send you the

3403

02:01:55,910 --> 02:01:52,480

memorandum's link on twitter

3404

02:01:58,149 --> 02:01:55,920

final talk it's it's a long way to go

3405

02:01:59,750 --> 02:01:58,159

that's what i can say but that's that's

3406

02:02:01,589 --> 02:01:59,760

not a bad beginning but let's

3407

02:02:02,950 --> 02:02:01,599

see we got to increase the pressure

3408

02:02:06,229 --> 02:02:02,960

that's that's what i can say

3409

02:02:07,030 --> 02:02:06,239

i agree and hints canada i don't know

3410

02:02:08,550 --> 02:02:07,040

your name

3411

02:02:10,229 --> 02:02:08,560

oh well uh my name is my name is aaron

3412

02:02:13,030 --> 02:02:10,239

but my my uh i

3413

02:02:14,950 --> 02:02:13,040

have like a ufo uap alias on twitter

3414

02:02:18,550 --> 02:02:14,960

which is canada loves uap

3415

02:02:20,390 --> 02:02:18,560

okay what are your final thoughts i i uh

3416

02:02:21,350 --> 02:02:20,400

as i said earlier i'm super happy about

3417

02:02:23,030 --> 02:02:21,360

today like it

3418

02:02:25,510 --> 02:02:23,040

blew up my patients of the water what i

3419

02:02:27,910 --> 02:02:25,520

was expecting in short was that

3420

02:02:29,270 --> 02:02:27,920

i think that the 2009 cases are like

3421

02:02:31,270 --> 02:02:29,280

mostly

3422

02:02:33,109 --> 02:02:31,280

foreign drones and i thought they were

3423

02:02:34,629 --> 02:02:33,119

just going to concentrate on just 2009

3424

02:02:37,430 --> 02:02:34,639

and kind of debunk 2009

3425

02:02:38,790 --> 02:02:37,440

and then blanket everything uap as the

3426

02:02:40,629 --> 02:02:38,800

2009 cases

3427

02:02:42,470 --> 02:02:40,639

but this was like way better than i

3428

02:02:43,109 --> 02:02:42,480

could ever expected so i'm super happy

3429

02:02:44,790 --> 02:02:43,119

and i

3430

02:02:46,470 --> 02:02:44,800

can't wait to see what uh what happens

3431

02:02:47,830 --> 02:02:46,480

next yeah i'm glad to have your input

3432

02:02:50,870 --> 02:02:47,840

and your insight and

3433
