

although DoD and the IC are replete with smart and patriotic people, it is generally difficult if not impossible for that rigid and colossal structure to reorganize itself from within.

Indeed, Congress had to carefully monitor the implementation of the Goldwater-Nichols Act and the SOCOM bill and even enact additional directive legislation the following year to ensure effective implementation. That is precisely where we are at today with regard to the UAP issue. Absent continued firm direction from Congress progress on this challenging issue will be slow or non-existent. With the bipartisan collaboration we're witnessing today in the Armed Services and Intelligence Committees, there is increasing room for optimism that we will finally unwind the UAP enigma.

1  
00:00:09,669 --> 00:00:05,749  
hope everybody's doing well i did not

2  
00:00:15,430 --> 00:00:13,110  
i had read the recent christopher mellon

3  
00:00:17,430 --> 00:00:15,440  
actually it was posted this morning i

4  
00:00:21,189 --> 00:00:17,440  
read the christopher mellon article and

5  
00:00:23,429 --> 00:00:21,199  
added some of my thoughts and opinions

6  
00:00:25,910 --> 00:00:23,439  
on twitter and something happened to the

7  
00:00:27,349 --> 00:00:25,920  
tweets and it didn't all get uploaded so

8  
00:00:30,230 --> 00:00:27,359  
i said

9  
00:00:32,069 --> 00:00:30,240  
screw this i am going to record for

10  
00:00:33,430 --> 00:00:32,079  
youtube which i should do more because i

11  
00:00:37,910 --> 00:00:33,440  
know there are people out there who do

12  
00:00:39,590 --> 00:00:37,920  
not go on twitter and they have asked me

13  
00:00:42,630 --> 00:00:39,600

to make sure i don't forget about the

14

00:00:45,110 --> 00:00:42,640

youtube audience which i have 100

15

00:00:47,350 --> 00:00:45,120

done i i am sorry about that i'm not a

16

00:00:49,830 --> 00:00:47,360

youtube guy i will force myself to do

17

00:00:52,310 --> 00:00:49,840

more youtube like this and if i get

18

00:00:54,869 --> 00:00:52,320

interrupted with the dog going crazy

19

00:00:57,430 --> 00:00:54,879

because i went live so be it

20

00:00:59,510 --> 00:00:57,440

we'll deal with it so

21

00:01:01,830 --> 00:00:59,520

everybody knows anybody who's been

22

00:01:04,070 --> 00:01:01,840

following closely senator kirsten

23

00:01:06,469 --> 00:01:04,080

gillibrand

24

00:01:08,390 --> 00:01:06,479

proposed new language an amendment to

25

00:01:10,950 --> 00:01:08,400

the national defense authorization act

26

00:01:12,710 --> 00:01:10,960

and it's really really good and most of

27

00:01:15,590 --> 00:01:12,720

us think that christopher mellon and

28

00:01:20,230 --> 00:01:15,600

luis elizondo had a hand in helping to

29

00:01:24,070 --> 00:01:22,469

so melon just posted his take on it and

30

00:01:27,270 --> 00:01:24,080

we all wanted to hear his take you know

31

00:01:28,710 --> 00:01:27,280

it looked good to us but

32

00:01:30,469 --> 00:01:28,720

and if there are people watching right

33

00:01:31,670 --> 00:01:30,479

now i'm not even looking at comments i'm

34

00:01:33,350 --> 00:01:31,680

just reading

35

00:01:34,870 --> 00:01:33,360

i went live for the hell of it to force

36

00:01:37,109 --> 00:01:34,880

me to do it and it's going to go up no

37

00:01:39,190 --> 00:01:37,119

matter what so if i mess up i mess up

38

00:01:40,550 --> 00:01:39,200

i'm going to read the article

39

00:01:42,630 --> 00:01:40,560

um

40

00:01:44,469 --> 00:01:42,640

give my opinions

41

00:01:46,469 --> 00:01:44,479

and

42

00:01:48,230 --> 00:01:46,479

like i said some people were waiting to

43

00:01:51,030 --> 00:01:48,240

hear melons take because while we

44

00:01:53,030 --> 00:01:51,040

thought the language was was great

45

00:01:56,950 --> 00:01:53,040

christopher mellon hasn't has experience

46

00:01:58,709 --> 00:01:56,960

with this so we wanted to hear and wait

47

00:02:01,670 --> 00:01:58,719

what he had to see what he had to say

48

00:02:04,389 --> 00:02:01,680

and we did so this is his article

49

00:02:06,469 --> 00:02:04,399

congress should support the gillibrand

50

00:02:09,990 --> 00:02:06,479

amendment

51  
00:02:12,630 --> 00:02:10,000  
and i will interrupt this with one piece

52  
00:02:16,710 --> 00:02:12,640  
one article that a blog that i wrote cr

53  
00:02:21,910 --> 00:02:19,270  
robert bigelow

54  
00:02:23,350 --> 00:02:21,920  
although the uap task force was a good

55  
00:02:25,990 --> 00:02:23,360  
beginning

56  
00:02:28,470 --> 00:02:26,000  
it is clearly not up to the job of

57  
00:02:32,710 --> 00:02:28,480  
undertaking a serious effort

58  
00:02:35,030 --> 00:02:32,720  
a serious effort to assess the uap issue

59  
00:02:38,390 --> 00:02:35,040  
and determine whether it entails

60  
00:02:40,630 --> 00:02:38,400  
revolutionary technology or poses a

61  
00:02:43,030 --> 00:02:40,640  
grave threat

62  
00:02:45,350 --> 00:02:43,040  
the task force has done

63  
00:02:48,229 --> 00:02:45,360

all that could be expected given its

64

00:02:49,750 --> 00:02:48,239

resource limitations and negligible

65

00:02:52,710 --> 00:02:49,760

authorities

66

00:02:55,110 --> 00:02:52,720

but it is struggling to move forward and

67

00:02:58,949 --> 00:02:55,120

the services and agencies

68

00:03:01,910 --> 00:02:58,959

can ignore them without consequence

69

00:03:03,270 --> 00:03:01,920

so i am going to flash back

70

00:03:04,390 --> 00:03:03,280

to

71

00:03:06,949 --> 00:03:04,400

i think it was

72

00:03:08,470 --> 00:03:06,959

january of this year

73

00:03:12,949 --> 00:03:08,480

and i'm going to read

74

00:03:20,390 --> 00:03:16,710

that focused some on the fate

75

00:03:25,670 --> 00:03:23,110

and i just need to find

76

00:03:29,270 --> 00:03:25,680

where it is on my computer

77

00:03:31,350 --> 00:03:29,280

so this was a report that george knapp

78

00:03:35,110 --> 00:03:31,360

put out

79

00:03:36,390 --> 00:03:35,120

i'm not sure if it was on klas or not

80

00:03:38,550 --> 00:03:36,400

but

81

00:03:41,110 --> 00:03:38,560

it was a video report i know it was on

82

00:03:43,910 --> 00:03:41,120

mr mystery wire and it's january of this

83

00:03:47,030 --> 00:03:43,920

year and i blogged about it he said

84

00:03:49,750 --> 00:03:47,040

sources familiar with the task force say

85

00:03:51,990 --> 00:03:49,760

there's been a major change at the top

86

00:03:56,149 --> 00:03:52,000

the high-ranking official who's led the

87

00:03:58,550 --> 00:03:56,159

ufo investigation for years is out

88

00:04:01,270 --> 00:03:58,560

the name has not been made public

89

00:04:04,789 --> 00:04:01,280

but we've learned it's the same official

90

00:04:06,869 --> 00:04:04,799

who's been briefing congress since 2018

91

00:04:09,110 --> 00:04:06,879

and who's been directly responsible for

92

00:04:10,710 --> 00:04:09,120

getting elected officials interested in

93

00:04:14,229 --> 00:04:10,720

the subject

94

00:04:17,110 --> 00:04:14,239

the navy assigned the official to other

95

00:04:19,189 --> 00:04:17,120

duties so basically the perfect guy for

96

00:04:21,270 --> 00:04:19,199

the job he's been doing this

97

00:04:22,310 --> 00:04:21,280

since 2018

98

00:04:24,790 --> 00:04:22,320

and they

99

00:04:26,550 --> 00:04:24,800

booted him get out of here

100

00:04:27,350 --> 00:04:26,560

and they replaced him

101  
00:04:29,430 --> 00:04:27,360  
so

102  
00:04:31,270 --> 00:04:29,440  
that's not good news and george realized

103  
00:04:33,110 --> 00:04:31,280  
that and reported on it and then during

104  
00:04:35,990 --> 00:04:33,120  
his interview i think it was in december

105  
00:04:37,030 --> 00:04:36,000  
or january he interviewed robert bigelow

106  
00:04:38,950 --> 00:04:37,040  
um

107  
00:04:41,670 --> 00:04:38,960  
so for people who don't know bigelow

108  
00:04:43,670 --> 00:04:41,680  
aerospace they were the contractor bass

109  
00:04:44,790 --> 00:04:43,680  
bigelow advanced aerospace

110  
00:04:47,270 --> 00:04:44,800  
studies

111  
00:04:49,830 --> 00:04:47,280  
they ran the awsap program

112  
00:04:51,670 --> 00:04:49,840  
advanced aerospace weapon system

113  
00:04:54,469 --> 00:04:51,680

applications program

114

00:04:57,030 --> 00:04:54,479

that studied ufos and related phenomena

115

00:04:59,430 --> 00:04:57,040

paranormal stuff and some of it was that

116

00:05:01,510 --> 00:04:59,440

some of it was at skinwalker ranch so

117

00:05:03,430 --> 00:05:01,520

bigelow says

118

00:05:06,710 --> 00:05:03,440

to george he goes a friend of yours and

119

00:05:08,830 --> 00:05:06,720

mine who up until just very recently ran

120

00:05:11,990 --> 00:05:08,840

the whole program for the united states

121

00:05:14,710 --> 00:05:12,000

right of things off the east coast and

122

00:05:17,189 --> 00:05:14,720

west coast and so forth and he just ran

123

00:05:18,950 --> 00:05:17,199

it and so he is the best qualified

124

00:05:20,310 --> 00:05:18,960

person to run this program the united

125

00:05:23,029 --> 00:05:20,320

states has

126  
00:05:25,110 --> 00:05:23,039  
and he now long and he now no longer

127  
00:05:27,590 --> 00:05:25,120  
runs it and they've got somebody that's

128  
00:05:28,870 --> 00:05:27,600  
a couple of ranks lower than him to run

129  
00:05:31,909 --> 00:05:28,880  
the program

130  
00:05:33,749 --> 00:05:31,919  
and any a per and my personal opinion is

131  
00:05:36,390 --> 00:05:33,759  
there's an effort that's going to try to

132  
00:05:39,830 --> 00:05:36,400  
eliminate this or put this back in a

133  
00:05:42,629 --> 00:05:39,840  
back draw compartment now

134  
00:05:44,230 --> 00:05:42,639  
so there's going to uh his opinion is

135  
00:05:46,150 --> 00:05:44,240  
bigelow there's an effort that's going

136  
00:05:48,310 --> 00:05:46,160  
to try to eliminate this or put this

137  
00:05:50,390 --> 00:05:48,320  
back in a backdraw compartment now

138  
00:05:53,670 --> 00:05:50,400

because they've changed the rank as to

139

00:05:55,749 --> 00:05:53,680

who's in charge and knapp says change

140

00:05:57,430 --> 00:05:55,759

the rank

141

00:05:59,990 --> 00:05:57,440

the guy who's most knowledgeable

142

00:06:02,469 --> 00:06:00,000

knowledgeable out of it giving them an

143

00:06:04,710 --> 00:06:02,479

impossible task to write the master

144

00:06:05,670 --> 00:06:04,720

report in six months with no budget

145

00:06:07,670 --> 00:06:05,680

basically

146

00:06:10,150 --> 00:06:07,680

the six month report is the 180 day

147

00:06:12,629 --> 00:06:10,160

report that we got in june and bigelow

148

00:06:15,270 --> 00:06:12,639

goes right knapp says and the guy who's

149

00:06:18,550 --> 00:06:15,280

in charge of it now by the way is doing

150

00:06:20,950 --> 00:06:18,560

it on his own dime his own time

151  
00:06:22,710 --> 00:06:20,960  
bigelow's like yeah that's right so this

152  
00:06:24,309 --> 00:06:22,720  
was january

153  
00:06:26,230 --> 00:06:24,319  
so

154  
00:06:28,390 --> 00:06:26,240  
i believe i've heard that certain

155  
00:06:30,790 --> 00:06:28,400  
members of congress

156  
00:06:32,870 --> 00:06:30,800  
heard about this report that

157  
00:06:35,749 --> 00:06:32,880  
george did

158  
00:06:38,230 --> 00:06:35,759  
and

159  
00:06:41,029 --> 00:06:38,240  
that played a role

160  
00:06:43,590 --> 00:06:41,039  
in them asking for more information when

161  
00:06:44,950 --> 00:06:43,600  
they saw that

162  
00:06:47,189 --> 00:06:44,960  
and now

163  
00:06:49,670 --> 00:06:47,199

i'm gonna go back to the

164

00:06:51,029 --> 00:06:49,680

christopher mellon article sorry bear

165

00:06:54,150 --> 00:06:51,039

with me

166

00:06:57,990 --> 00:06:54,160

i don't have my side monitor today

167

00:07:01,990 --> 00:06:59,589

melon says

168

00:07:03,670 --> 00:07:02,000

the uap task force is struggling to move

169

00:07:05,830 --> 00:07:03,680

forward and the services and agencies

170

00:07:07,189 --> 00:07:05,840

can ignore them without consequence well

171

00:07:08,870 --> 00:07:07,199

especially if you have somebody of a

172

00:07:10,710 --> 00:07:08,880

lower rank who doesn't have the proper

173

00:07:14,150 --> 00:07:10,720

security clearances

174

00:07:16,790 --> 00:07:14,160

to gain access to certain information

175

00:07:18,870 --> 00:07:16,800

melon says for example

176

00:07:20,550 --> 00:07:18,880

i recently spoke with a defense

177

00:07:24,230 --> 00:07:20,560

department official who was aware of

178

00:07:26,550 --> 00:07:24,240

some new uap incidents when i asked if

179

00:07:29,350 --> 00:07:26,560

the task force was notified

180

00:07:30,870 --> 00:07:29,360

he laughed and said

181

00:07:33,830 --> 00:07:30,880

i doubt it

182

00:07:35,029 --> 00:07:33,840

in fact he indicated that he thinks as

183

00:07:37,110 --> 00:07:35,039

do others

184

00:07:40,150 --> 00:07:37,120

that there is probably quite a bit of

185

00:07:41,189 --> 00:07:40,160

uap info with that the task force is not

186

00:07:43,830 --> 00:07:41,199

getting

187

00:07:45,589 --> 00:07:43,840

to say nothing of implementing far

188

00:07:47,990 --> 00:07:45,599

far-reaching changes

189

00:07:50,629 --> 00:07:48,000

obviously when the information doesn't

190

00:07:52,950 --> 00:07:50,639

reach the uap task force it isn't likely

191

00:07:55,110 --> 00:07:52,960

to get to congress either

192

00:07:56,950 --> 00:07:55,120

the gila brand amendment helps to

193

00:07:59,670 --> 00:07:56,960

address this problem and for folks who

194

00:08:02,390 --> 00:07:59,680

haven't read it christophermellon.net he

195

00:08:03,830 --> 00:08:02,400

has a link to the gillibrand amendment

196

00:08:06,390 --> 00:08:03,840

which i want to put the language on my

197

00:08:08,230 --> 00:08:06,400

blog i have it up there i i just need to

198

00:08:10,869 --> 00:08:08,240

finish that blog along with several

199

00:08:12,629 --> 00:08:10,879

other blogs including the elizondo

200

00:08:15,110 --> 00:08:12,639

theories of everything transcript which

201  
00:08:17,270 --> 00:08:15,120  
is a beast

202  
00:08:19,029 --> 00:08:17,280  
so if the uap task force does not get

203  
00:08:21,189 --> 00:08:19,039  
the information it's not likely to get

204  
00:08:22,869 --> 00:08:21,199  
to congress the gillibrand amendment

205  
00:08:24,950 --> 00:08:22,879  
helps to address this problem by

206  
00:08:27,189 --> 00:08:24,960  
clarifying and expanding

207  
00:08:29,510 --> 00:08:27,199  
the definition of uap and covering the

208  
00:08:34,550 --> 00:08:29,520  
scenarios where the task force is denied

209  
00:08:39,750 --> 00:08:37,509  
this is a little bit

210  
00:08:42,790 --> 00:08:39,760  
it's a little bit off target or off of

211  
00:08:44,790 --> 00:08:42,800  
what we're talking about here but

212  
00:08:46,790 --> 00:08:44,800  
the example of somebody getting denied

213  
00:08:48,389 --> 00:08:46,800

access because of classification is

214

00:08:50,230 --> 00:08:48,399

something i've been focused on the last

215

00:08:52,230 --> 00:08:50,240

two years everybody who knows me knows i

216

00:08:54,710 --> 00:08:52,240

focused on the wilson davis documents

217

00:08:57,590 --> 00:08:54,720

and i have no doubt eric davis met with

218

00:08:59,829 --> 00:08:57,600

admiral wilson in october of 2002 and

219

00:09:01,509 --> 00:08:59,839

wilson told him hey

220

00:09:05,190 --> 00:09:01,519

i was the director of intelligence i

221

00:09:07,829 --> 00:09:05,200

should know about intelligence related

222

00:09:10,070 --> 00:09:07,839

to the entire country and i found this

223

00:09:12,470 --> 00:09:10,080

ufo program i was told about and they

224

00:09:13,990 --> 00:09:12,480

denied me access basically because i

225

00:09:15,990 --> 00:09:14,000

wasn't on their bigot list i didn't meet

226

00:09:17,670 --> 00:09:16,000

the qualifications the special qual

227

00:09:20,150 --> 00:09:17,680

special qualifications they had come up

228

00:09:22,550 --> 00:09:20,160

with uh and i did not have a need to

229

00:09:24,470 --> 00:09:22,560

know so i'm not saying the gillibrand

230

00:09:26,630 --> 00:09:24,480

amendment's gonna fix that problem right

231

00:09:27,430 --> 00:09:26,640

away but we're heading in that direction

232

00:09:31,190 --> 00:09:27,440

so

233

00:09:33,110 --> 00:09:31,200

proper clearance

234

00:09:34,949 --> 00:09:33,120

we're not gonna get anywhere so

235

00:09:36,710 --> 00:09:34,959

they have to make sure whoever heads up

236

00:09:39,590 --> 00:09:36,720

this program

237

00:09:41,829 --> 00:09:39,600

it has to be somebody with a very very

238

00:09:43,509 --> 00:09:41,839

very high clearance i don't i don't know

239

00:09:44,949 --> 00:09:43,519

if we're going to get somebody who has

240

00:09:46,550 --> 00:09:44,959

you know

241

00:09:49,350 --> 00:09:46,560

obviously the person who should run it

242

00:09:51,190 --> 00:09:49,360

is luis elizondo he has spoken about how

243

00:09:53,350 --> 00:09:51,200

he had access and oversight to various

244

00:09:55,750 --> 00:09:53,360

special access programs ross coltart

245

00:09:57,990 --> 00:09:55,760

said that elizondo had you know had

246

00:10:00,389 --> 00:09:58,000

access to everything basically

247

00:10:03,110 --> 00:10:00,399

if that's true elizondo needs to run

248

00:10:05,269 --> 00:10:03,120

that program then when somebody says

249

00:10:08,310 --> 00:10:05,279

well we don't have the ufo information

250

00:10:10,710 --> 00:10:08,320

sorry lou lou could say uh i know you do

251  
00:10:11,910 --> 00:10:10,720  
and you're gonna give it up so let's see

252  
00:10:14,550 --> 00:10:11,920  
it

253  
00:10:16,550 --> 00:10:14,560  
that's my fantasy world i i hope you

254  
00:10:20,310 --> 00:10:16,560  
know we're a long we're a long way from

255  
00:10:22,790 --> 00:10:20,320  
that happening but i will continue

256  
00:10:24,949 --> 00:10:22,800  
to read what melon said he goes although

257  
00:10:26,790 --> 00:10:24,959  
accurate and timely and sorry for being

258  
00:10:29,110 --> 00:10:26,800  
off on the tangent

259  
00:10:30,550 --> 00:10:29,120  
um on my wilson davis but it's obviously

260  
00:10:32,470 --> 00:10:30,560  
connected

261  
00:10:34,230 --> 00:10:32,480  
down the road at some point

262  
00:10:36,069 --> 00:10:34,240  
so we can get access to the data

263  
00:10:37,750 --> 00:10:36,079

warehouse that jeremy corbell and eric

264

00:10:41,269 --> 00:10:37,760

davis spoke about

265

00:10:43,190 --> 00:10:41,279

that has ufo data historical data we

266

00:10:45,509 --> 00:10:43,200

need access to that plus

267

00:10:46,790 --> 00:10:45,519

going forward the ossap data

268

00:10:48,790 --> 00:10:46,800

which

269

00:10:51,990 --> 00:10:48,800

i don't know if i'll bring it up later

270

00:10:54,150 --> 00:10:52,000

but so melon continues

271

00:10:56,310 --> 00:10:54,160

although accurate and timely

272

00:10:59,110 --> 00:10:56,320

congressional notification of uap

273

00:11:00,389 --> 00:10:59,120

activity is essential it is also grossly

274

00:11:02,870 --> 00:11:00,399

inadequate

275

00:11:05,269 --> 00:11:02,880

if we want to determine uap origin

276

00:11:06,790 --> 00:11:05,279

capability or intent

277

00:11:08,710 --> 00:11:06,800

so basically

278

00:11:11,030 --> 00:11:08,720

yeah he's saying yeah it's great it's

279

00:11:12,949 --> 00:11:11,040

great to notify congress hey look

280

00:11:14,470 --> 00:11:12,959

check out this ufo look at the video

281

00:11:16,790 --> 00:11:14,480

isn't that amazing but we're not going

282

00:11:18,069 --> 00:11:16,800

to get anywhere if that's all we do

283

00:11:19,990 --> 00:11:18,079

so

284

00:11:22,310 --> 00:11:20,000

melon says aside from the gillibrand

285

00:11:23,590 --> 00:11:22,320

amendment current legislation language

286

00:11:25,829 --> 00:11:23,600

seems also

287

00:11:27,829 --> 00:11:25,839

almost exclusively focused on the issue

288

00:11:30,150 --> 00:11:27,839

of congressional reporting

289

00:11:32,870 --> 00:11:30,160

imagine if our assessment of chinese and

290

00:11:35,190 --> 00:11:32,880

russian hypersonic programs was limited

291

00:11:36,710 --> 00:11:35,200

to reporting chance encounters with

292

00:11:38,389 --> 00:11:36,720

these platforms

293

00:11:40,790 --> 00:11:38,399

i think we can all agree that would

294

00:11:43,430 --> 00:11:40,800

hardly suffice so basically yes we need

295

00:11:45,430 --> 00:11:43,440

to grab the bull by the horns and attack

296

00:11:46,310 --> 00:11:45,440

the problem not just wait for reports to

297

00:11:48,710 --> 00:11:46,320

come in

298

00:11:51,509 --> 00:11:48,720

a random sighting you know if an f-18

299

00:11:53,509 --> 00:11:51,519

encounters a ufo on the east coast

300

00:11:55,509 --> 00:11:53,519

supposedly those were happening every

301  
00:11:57,670 --> 00:11:55,519  
day but we need to

302  
00:11:59,590 --> 00:11:57,680  
be aggressive if we want to try to ha if

303  
00:12:01,910 --> 00:11:59,600  
we have if we want any chance a chance

304  
00:12:02,870 --> 00:12:01,920  
of figuring that figuring out this

305  
00:12:04,230 --> 00:12:02,880  
problem

306  
00:12:05,910 --> 00:12:04,240  
i don't know if we ever will but if we

307  
00:12:07,910 --> 00:12:05,920  
want any chance

308  
00:12:11,190 --> 00:12:07,920  
just going to congress with reports is

309  
00:12:13,590 --> 00:12:11,200  
not going to cut it melon the gillibrand

310  
00:12:14,550 --> 00:12:13,600  
amendments mandate for a collection and

311  
00:12:20,310 --> 00:12:14,560  
and

312  
00:12:24,310 --> 00:12:20,320  
therefore essential if we are going to

313  
00:12:26,870 --> 00:12:24,320

make serious headway in fiscal year 2022

314

00:12:29,509 --> 00:12:26,880

the amendment also properly properly

315

00:12:31,670 --> 00:12:29,519

requires a science plan to evaluate

316

00:12:34,230 --> 00:12:31,680

observed propulsion capabilities that

317

00:12:36,470 --> 00:12:34,240

may in some cases surpass anything

318

00:12:39,110 --> 00:12:36,480

presently available to the united states

319

00:12:41,829 --> 00:12:39,120

armed forces this is also necessary to

320

00:12:43,750 --> 00:12:41,839

help us better understand the phenomenon

321

00:12:45,910 --> 00:12:43,760

scientific investigation will also be

322

00:12:49,590 --> 00:12:45,920

necessary should we later need to adopt

323

00:12:51,590 --> 00:12:49,600

this technology ourselves

324

00:12:53,509 --> 00:12:51,600

in a perfect world

325

00:12:55,829 --> 00:12:53,519

i don't want to focus on

326

00:12:57,910 --> 00:12:55,839

exploiting the technology for a weapon

327

00:13:00,310 --> 00:12:57,920

but that's what they'll do

328

00:13:02,310 --> 00:13:00,320

hopefully in my lifetime probably not

329

00:13:03,910 --> 00:13:02,320

but in my lifetime

330

00:13:05,910 --> 00:13:03,920

the first thought is

331

00:13:07,990 --> 00:13:05,920

look at this technology we could change

332

00:13:09,430 --> 00:13:08,000

the world we could help with pollution

333

00:13:12,389 --> 00:13:09,440

maybe you know we could we could

334

00:13:14,230 --> 00:13:12,399

transform transform the world overnight

335

00:13:16,069 --> 00:13:14,240

with a new way of traveling that would

336

00:13:18,389 --> 00:13:16,079

take us across the globe

337

00:13:21,430 --> 00:13:18,399

in a mill you know an amazing amount

338

00:13:23,110 --> 00:13:21,440

short period of time so

339

00:13:24,470 --> 00:13:23,120

that's what i want to focus on but you

340

00:13:26,310 --> 00:13:24,480

know they're going to focus on weapons

341

00:13:28,230 --> 00:13:26,320

hopefully we get beyond that quickly but

342

00:13:30,230 --> 00:13:28,240

you know realistically we have

343

00:13:32,069 --> 00:13:30,240

adversaries so

344

00:13:33,910 --> 00:13:32,079

i don't let i don't let the i don't i

345

00:13:36,069 --> 00:13:33,920

can't see them letting us if we have it

346

00:13:38,310 --> 00:13:36,079

like say we have an intact craft i don't

347

00:13:40,870 --> 00:13:38,320

let i don't see them going to russia and

348

00:13:43,590 --> 00:13:40,880

china and saying let's work together and

349

00:13:46,550 --> 00:13:43,600

figure out how this works you know

350

00:13:48,629 --> 00:13:46,560

maybe sometime in the future but not now

351  
00:13:49,829 --> 00:13:48,639  
but

352  
00:13:52,470 --> 00:13:49,839  
at least they're talking about it

353  
00:13:54,150 --> 00:13:52,480  
they're talking about it it's in senator

354  
00:13:56,550 --> 00:13:54,160  
kirsten gillibrand you know from new

355  
00:13:58,310 --> 00:13:56,560  
york it's in her language most likely

356  
00:14:01,110 --> 00:13:58,320  
thanks to melon and elizondo and

357  
00:14:02,629 --> 00:14:01,120  
probably other people so i never thought

358  
00:14:05,670 --> 00:14:02,639  
i would even be talking about this at

359  
00:14:09,829 --> 00:14:07,829  
so melon continues building bridges to

360  
00:14:11,670 --> 00:14:09,839  
the civilian scientific community as the

361  
00:14:13,990 --> 00:14:11,680  
amendment proposes to do with an

362  
00:14:16,629 --> 00:14:14,000  
advisory panel is another way to foster

363  
00:14:19,670 --> 00:14:16,639

collaboration and leverage available

364

00:14:22,069 --> 00:14:19,680

scientific talent and expertise yes we

365

00:14:24,230 --> 00:14:22,079

need every scientist the brightest minds

366

00:14:26,389 --> 00:14:24,240

in the united states i would i would in

367

00:14:27,990 --> 00:14:26,399

the united states i would

368

00:14:30,470 --> 00:14:28,000

like i said i would love it for the for

369

00:14:32,710 --> 00:14:30,480

it to be the entire world but

370

00:14:34,629 --> 00:14:32,720

for the united states the best minds so

371

00:14:36,550 --> 00:14:34,639

we're not limited

372

00:14:38,150 --> 00:14:36,560

to just a handful of scientists who are

373

00:14:41,030 --> 00:14:38,160

on the bigot list

374

00:14:42,790 --> 00:14:41,040

um i will mention bob lazar only because

375

00:14:44,949 --> 00:14:42,800

and i know he's controversial and i'm

376

00:14:46,949 --> 00:14:44,959

still in the middle on lazar but

377

00:14:48,949 --> 00:14:46,959

he mentioned how he worked with a very

378

00:14:51,189 --> 00:14:48,959

small amount of scientists and that's

379

00:14:53,030 --> 00:14:51,199

not the way to figure things out

380

00:14:55,430 --> 00:14:53,040

i will i will

381

00:14:57,590 --> 00:14:55,440

then mention and i know eric davis eric

382

00:14:59,990 --> 00:14:57,600

davis would kill me for mentioning him

383

00:15:02,230 --> 00:15:00,000

even in the in the adjoining or next

384

00:15:05,110 --> 00:15:02,240

sentence related to bob lazar but eric

385

00:15:07,509 --> 00:15:05,120

davis is the one

386

00:15:10,629 --> 00:15:07,519

who said on i think it was alejandro

387

00:15:12,389 --> 00:15:10,639

rojas's show in 2018 he said there was

388

00:15:14,870 --> 00:15:12,399

like one one thousandth of the

389

00:15:16,790 --> 00:15:14,880

population knows about these programs so

390

00:15:18,470 --> 00:15:16,800

the people who work on them it's such a

391

00:15:21,509 --> 00:15:18,480

small amount it's not the brightest

392

00:15:23,110 --> 00:15:21,519

minds i mean eric davis is a bright mind

393

00:15:24,470 --> 00:15:23,120

but as far as i know he didn't even work

394

00:15:26,790 --> 00:15:24,480

on these programs he's collected

395

00:15:29,509 --> 00:15:26,800

information about the programs so when

396

00:15:31,110 --> 00:15:29,519

people say eric davis isn't in the know

397

00:15:33,430 --> 00:15:31,120

as much as he thinks he is or how much

398

00:15:34,949 --> 00:15:33,440

he claims eric davis doesn't claim he's

399

00:15:36,790 --> 00:15:34,959

in the note he doesn't claim that he's

400

00:15:38,710 --> 00:15:36,800

like at the top of the top

401  
00:15:40,389 --> 00:15:38,720  
he told you exactly how he got his

402  
00:15:42,069 --> 00:15:40,399  
information by

403  
00:15:43,749 --> 00:15:42,079  
when he was cleared for a certain

404  
00:15:47,269 --> 00:15:43,759  
program

405  
00:15:49,590 --> 00:15:47,279  
and he spoke to somebody else who was in

406  
00:15:51,430 --> 00:15:49,600  
that program and the subject of ufos

407  
00:15:54,389 --> 00:15:51,440  
came up the other person would say oh

408  
00:15:56,710 --> 00:15:54,399  
really you you worked in a ufo program

409  
00:15:58,949 --> 00:15:56,720  
and that davis would say yeah and then

410  
00:16:01,350 --> 00:15:58,959  
the guy would say well i worked in a ufo

411  
00:16:03,110 --> 00:16:01,360  
program too a different one let me tell

412  
00:16:04,230 --> 00:16:03,120  
you let's share information i can tell

413  
00:16:06,870 --> 00:16:04,240

you

414

00:16:08,310 --> 00:16:06,880

we did

415

00:16:09,350 --> 00:16:08,320

that's how eric davis collected his

416

00:16:11,829 --> 00:16:09,360

information

417

00:16:13,670 --> 00:16:11,839

uh on crash retrievals uh other sources

418

00:16:15,030 --> 00:16:13,680

and that's been over the past few

419

00:16:15,990 --> 00:16:15,040

decades

420

00:16:18,150 --> 00:16:16,000

so

421

00:16:20,069 --> 00:16:18,160

we need the brightest minds in the world

422

00:16:22,629 --> 00:16:20,079

to work on this right now it will be the

423

00:16:24,310 --> 00:16:22,639

brightest minds in the country

424

00:16:25,509 --> 00:16:24,320

and

425

00:16:26,629 --> 00:16:25,519

that would be

426

00:16:28,069 --> 00:16:26,639

i don't know if that's going to solve

427

00:16:29,509 --> 00:16:28,079

the problem but it's better than you

428

00:16:31,189 --> 00:16:29,519

know a handful of people who were you

429

00:16:35,030 --> 00:16:31,199

know read right into the program who are

430

00:16:38,710 --> 00:16:37,269

melon continues

431

00:16:40,550 --> 00:16:38,720

another critical feature of the

432

00:16:43,110 --> 00:16:40,560

gillibrand amendment is the language

433

00:16:45,110 --> 00:16:43,120

explicitly approving the use of funds

434

00:16:47,670 --> 00:16:45,120

authorized and appropriated for space

435

00:16:50,150 --> 00:16:47,680

defense and or intelligence purposes for

436

00:16:51,749 --> 00:16:50,160

uap collection and analysis

437

00:16:53,990 --> 00:16:51,759

unfortunately even though there is a

438

00:16:57,110 --> 00:16:54,000

pressing requirement to determine who is

439

00:16:58,949 --> 00:16:57,120

violating u.s military airspace

440

00:17:01,110 --> 00:16:58,959

some organizations charged with

441

00:17:04,390 --> 00:17:01,120

aerospace defense and intelligence

442

00:17:06,949 --> 00:17:04,400

missions are presently afraid to act

443

00:17:08,470 --> 00:17:06,959

for fear that a member of of a congress

444

00:17:11,909 --> 00:17:08,480

or a committee

445

00:17:13,829 --> 00:17:11,919

alleges misuse of funds if the words uap

446

00:17:16,829 --> 00:17:13,839

do not explicitly appear in the

447

00:17:19,429 --> 00:17:16,839

congressional language providing their

448

00:17:22,069 --> 00:17:19,439

funding this provision would therefore

449

00:17:24,230 --> 00:17:22,079

eliminate a serious impediment for those

450

00:17:26,230 --> 00:17:24,240

eager to engage as well as an excuse for

451  
00:17:28,230 --> 00:17:26,240  
those resisting change

452  
00:17:29,110 --> 00:17:28,240  
and the person that comes to mind as far

453  
00:17:31,270 --> 00:17:29,120  
as

454  
00:17:32,870 --> 00:17:31,280  
complaining about a misuse of funds the

455  
00:17:36,310 --> 00:17:32,880  
only one that comes to mind is senator

456  
00:17:39,430 --> 00:17:36,320  
rand paul who bitched about atip and how

457  
00:17:41,510 --> 00:17:39,440  
it was a waste of money and

458  
00:17:42,789 --> 00:17:41,520  
now that this is if this is gonna come

459  
00:17:45,270 --> 00:17:42,799  
out in the open

460  
00:17:47,669 --> 00:17:45,280  
you know atip was done

461  
00:17:49,750 --> 00:17:47,679  
when well actually asap was done when

462  
00:17:52,470 --> 00:17:49,760  
senator harry reid senator inyuay and

463  
00:17:55,270 --> 00:17:52,480

senator stevens and also like cat james

464

00:17:58,310 --> 00:17:55,280

liquosky who was the program manager uh

465

00:18:01,430 --> 00:17:58,320

he's a rocket scientist he ran awsap

466

00:18:04,150 --> 00:18:01,440

they met and they discussed the program

467

00:18:06,310 --> 00:18:04,160

and it was done secretly nobody was told

468

00:18:08,230 --> 00:18:06,320

and they used black budget funds so then

469

00:18:09,909 --> 00:18:08,240

later on when people like rand paul see

470

00:18:11,510 --> 00:18:09,919

that they're like this should not happen

471

00:18:13,110 --> 00:18:11,520

this was done secretly it's a waste of

472

00:18:15,669 --> 00:18:13,120

taxpayer dollars

473

00:18:17,110 --> 00:18:15,679

investigating ufos well now if this is

474

00:18:19,909 --> 00:18:17,120

all out in the open this could be done

475

00:18:21,270 --> 00:18:19,919

differently i would i would say senator

476  
00:18:23,270 --> 00:18:21,280  
paul would you like me to read you into

477  
00:18:25,350 --> 00:18:23,280  
the program i'm going to show you a

478  
00:18:26,630 --> 00:18:25,360  
video right now

479  
00:18:29,510 --> 00:18:26,640  
and

480  
00:18:33,430 --> 00:18:29,520  
watch this video

481  
00:18:36,710 --> 00:18:33,440  
sorry my phone is going off

482  
00:18:41,510 --> 00:18:38,870  
i will get back to the rand

483  
00:18:46,230 --> 00:18:44,070  
so yeah so this will be out in the open

484  
00:18:48,390 --> 00:18:46,240  
uh before it was using black budget

485  
00:18:51,110 --> 00:18:48,400  
funds and it was all quiet

486  
00:18:51,990 --> 00:18:51,120  
hardly anybody knew about it

487  
00:18:55,669 --> 00:18:52,000  
i think

488  
00:18:57,590 --> 00:18:55,679

a very small amount of people in his

489

00:18:59,590 --> 00:18:57,600

office even knew about it so you know

490

00:19:00,549 --> 00:18:59,600

his his superiors did but that was about

491

00:19:03,830 --> 00:19:00,559

it

492

00:19:05,430 --> 00:19:03,840

so if we if this is out in the open

493

00:19:07,590 --> 00:19:05,440

that's not a problem and then i would

494

00:19:08,950 --> 00:19:07,600

show rand paul whoever else can get

495

00:19:11,510 --> 00:19:08,960

right into the program say here you go

496

00:19:12,870 --> 00:19:11,520

here's a 20 here's the 22 minute video

497

00:19:16,230 --> 00:19:12,880

you think this is our do you think this

498

00:19:17,669 --> 00:19:16,240

is our technology mr uh senator paul

499

00:19:19,270 --> 00:19:17,679

don't you think we should study this and

500

00:19:20,710 --> 00:19:19,280

figure out what the hell is violating

501  
00:19:22,310 --> 00:19:20,720  
our airspace

502  
00:19:24,230 --> 00:19:22,320  
i would love if one of those videos

503  
00:19:27,350 --> 00:19:24,240  
could be made public then we could do it

504  
00:19:30,470 --> 00:19:27,360  
in a public forum and then if then if if

505  
00:19:31,590 --> 00:19:30,480  
uh if if rand paul or or whoever else

506  
00:19:32,950 --> 00:19:31,600  
says

507  
00:19:34,789 --> 00:19:32,960  
there's nothing here at least the

508  
00:19:37,270 --> 00:19:34,799  
american public can say

509  
00:19:39,270 --> 00:19:37,280  
listen we saw it too that needs to be

510  
00:19:41,590 --> 00:19:39,280  
studied are you insane so that's why

511  
00:19:44,710 --> 00:19:41,600  
this being out in the open is very very

512  
00:19:49,510 --> 00:19:46,789  
melon continues crucially the amendment

513  
00:19:51,669 --> 00:19:49,520

also recognizes the need to engage

514

00:19:53,590 --> 00:19:51,679

line organizations

515

00:19:55,350 --> 00:19:53,600

which are organizations that actually

516

00:19:57,270 --> 00:19:55,360

execute programs

517

00:19:59,669 --> 00:19:57,280

as opposed to trying to dump all

518

00:20:02,230 --> 00:19:59,679

responsibility to oversight and policy

519

00:20:03,669 --> 00:20:02,240

organizations

520

00:20:05,430 --> 00:20:03,679

the amendment

521

00:20:07,669 --> 00:20:05,440

also attacks the traditional united

522

00:20:09,029 --> 00:20:07,679

states government stove pipe problem as

523

00:20:11,110 --> 00:20:09,039

never before

524

00:20:13,430 --> 00:20:11,120

basically stove pipes you know different

525

00:20:15,190 --> 00:20:13,440

different programs working on

526

00:20:16,789 --> 00:20:15,200

various issues but they don't know what

527

00:20:18,870 --> 00:20:16,799

the other one is doing because it's so

528

00:20:20,070 --> 00:20:18,880

compartmentalized one group doesn't know

529

00:20:22,230 --> 00:20:20,080

what the other group is doing because

530

00:20:23,909 --> 00:20:22,240

they're not read into their program they

531

00:20:25,909 --> 00:20:23,919

could be working that's that has been a

532

00:20:27,270 --> 00:20:25,919

problem in the past

533

00:20:27,990 --> 00:20:27,280

i don't know if it's been a big problem

534

00:20:29,909 --> 00:20:28,000

but

535

00:20:32,149 --> 00:20:29,919

you could have two programs working on

536

00:20:33,909 --> 00:20:32,159

the same issue but they wouldn't know it

537

00:20:35,430 --> 00:20:33,919

because they're not allowed to know what

538

00:20:37,510 --> 00:20:35,440

the other program is working on because

539

00:20:39,830 --> 00:20:37,520

of the security clearances you know in a

540

00:20:44,310 --> 00:20:39,840

special access program especially in an

541

00:20:48,230 --> 00:20:45,750

so the amendment also attacks the

542

00:20:49,669 --> 00:20:48,240

traditional usg stovepipe problem as

543

00:20:51,270 --> 00:20:49,679

never before

544

00:20:55,590 --> 00:20:51,280

not only helping get

545

00:20:57,830 --> 00:20:55,600

intelligence community on the same page

546

00:20:59,750 --> 00:20:57,840

but also recognizing the need to

547

00:21:02,630 --> 00:20:59,760

collaborate with organizations like the

548

00:21:05,190 --> 00:21:02,640

faa and nasa that have overlapping

549

00:21:06,950 --> 00:21:05,200

responsibilities

550

00:21:09,190 --> 00:21:06,960

thinking outside the narrow box of

551  
00:21:11,270 --> 00:21:09,200  
traditional jurisdictions is valuable

552  
00:21:13,510 --> 00:21:11,280  
and all too rare

553  
00:21:16,149 --> 00:21:13,520  
reading the gillibrand amendment

554  
00:21:18,470 --> 00:21:16,159  
one might even infer that the author

555  
00:21:21,190 --> 00:21:18,480  
expects all the united states government

556  
00:21:23,990 --> 00:21:21,200  
organizations to act as though they are

557  
00:21:25,510 --> 00:21:24,000  
they are playing on the same team

558  
00:21:27,510 --> 00:21:25,520  
can you believe

559  
00:21:30,310 --> 00:21:27,520  
what a concept

560  
00:21:31,750 --> 00:21:30,320  
all of us are working on the same team

561  
00:21:34,470 --> 00:21:31,760  
we're going to try to figure out what

562  
00:21:36,310 --> 00:21:34,480  
the hell the phenomenon represents

563  
00:21:38,310 --> 00:21:36,320

what kind of data has been collected in

564

00:21:39,590 --> 00:21:38,320

the past you know

565

00:21:42,310 --> 00:21:39,600

and we're not it's not going to be

566

00:21:43,750 --> 00:21:42,320

partisan it'll be bipartisan

567

00:21:46,470 --> 00:21:43,760

and then

568

00:21:48,310 --> 00:21:46,480

this whole psyop talk may die down a bit

569

00:21:50,230 --> 00:21:48,320

although doubtful because those folks

570

00:21:51,909 --> 00:21:50,240

don't want to give that up but

571

00:21:53,270 --> 00:21:51,919

yes we should all be working on the same

572

00:21:55,190 --> 00:21:53,280

team in this country hopefully

573

00:21:58,710 --> 00:21:55,200

eventually the entire world because i'll

574

00:22:00,310 --> 00:21:58,720

be it's obviously a global phenomenon

575

00:22:02,310 --> 00:22:00,320

melon says the amendment has other

576

00:22:05,190 --> 00:22:02,320

notable benefits as well including

577

00:22:08,789 --> 00:22:05,200

clarifying the definition of uap to

578

00:22:11,070 --> 00:22:08,799

ensure underwater and trans-medium craft

579

00:22:12,630 --> 00:22:11,080

are within the uap mission

580

00:22:14,470 --> 00:22:12,640

purview

581

00:22:17,430 --> 00:22:14,480

so yes we know about

582

00:22:19,350 --> 00:22:17,440

reports of underwater craft uh will

583

00:22:20,950 --> 00:22:19,360

millar who's in the the wilson davis

584

00:22:23,110 --> 00:22:20,960

documents he got interested in the

585

00:22:26,789 --> 00:22:23,120

subject back in

586

00:22:29,029 --> 00:22:26,799

late 60s or early 70s he was on a boat a

587

00:22:30,390 --> 00:22:29,039

destroyer

588

00:22:32,390 --> 00:22:30,400

and they had

589

00:22:33,990 --> 00:22:32,400

an object in the water

590

00:22:38,149 --> 00:22:34,000

and it took off at a high speed went

591

00:22:40,870 --> 00:22:38,159

under their boat so that's a use

592

00:22:42,870 --> 00:22:40,880

underwater submerse unidentified

593

00:22:44,310 --> 00:22:42,880

submersible object

594

00:22:46,710 --> 00:22:44,320

although some people

595

00:22:50,470 --> 00:22:46,720

use use differently um basically an

596

00:22:55,909 --> 00:22:52,870

and i'm sorry folks since i'm going this

597

00:23:01,190 --> 00:22:58,310

just dealing with other stuff right now

598

00:23:05,270 --> 00:23:03,270

underwater so yeah the the video that

599

00:23:07,510 --> 00:23:05,280

was linked to jeremy corbell

600

00:23:09,669 --> 00:23:07,520

that everybody thinks

601  
00:23:10,549 --> 00:23:09,679  
is trans medium because it appears that

602  
00:23:15,830 --> 00:23:10,559  
it

603  
00:23:17,430 --> 00:23:15,840  
investigate

604  
00:23:20,070 --> 00:23:17,440  
then we have

605  
00:23:22,070 --> 00:23:20,080  
bob fish who

606  
00:23:24,149 --> 00:23:22,080  
wrote to john podesta talking about

607  
00:23:26,710 --> 00:23:24,159  
craft off the east coast of florida

608  
00:23:28,950 --> 00:23:26,720  
florida that we knew what tran what what

609  
00:23:31,750 --> 00:23:28,960  
frequency what frequency they what

610  
00:23:33,830 --> 00:23:31,760  
frequency sorry they were putting out

611  
00:23:35,430 --> 00:23:33,840  
and we knew when they were entering in

612  
00:23:37,830 --> 00:23:35,440  
and out of the water

613  
00:23:41,029 --> 00:23:37,840

uh if that's true and i think bob fish

614

00:23:42,470 --> 00:23:41,039

is a solid guy if that's true

615

00:23:43,990 --> 00:23:42,480

that's something we can investigate if

616

00:23:45,510 --> 00:23:44,000

that's still going on if there are craft

617

00:23:47,750 --> 00:23:45,520

off the east coast of florida east coast

618

00:23:49,750 --> 00:23:47,760

of florida for whatever reason if if

619

00:23:51,750 --> 00:23:49,760

they have a base underwater i don't know

620

00:23:53,190 --> 00:23:51,760

but if they're using the same area and

621

00:23:55,110 --> 00:23:53,200

we know when they're coming in and out

622

00:23:58,950 --> 00:23:55,120

of that water we need to get that data

623

00:24:02,390 --> 00:24:00,789

speaking of coordination if there are

624

00:24:03,990 --> 00:24:02,400

conflicts between the senate armed

625

00:24:05,830 --> 00:24:04,000

services committee and senate

626  
00:24:08,070 --> 00:24:05,840  
intelligence committee language by the

627  
00:24:10,549 --> 00:24:08,080  
way those are two committees that eric

628  
00:24:11,830 --> 00:24:10,559  
davis said he briefed um

629  
00:24:13,510 --> 00:24:11,840  
if they're if

630  
00:24:15,190 --> 00:24:13,520  
if there are conflicts they are not

631  
00:24:17,510 --> 00:24:15,200  
apparent to me

632  
00:24:18,950 --> 00:24:17,520  
that's good the national air and space

633  
00:24:23,990 --> 00:24:18,960  
intelligence center

634  
00:24:28,789 --> 00:24:25,430  
regardless of their position in the

635  
00:24:30,310 --> 00:24:28,799  
final uap structure so the ssci select

636  
00:24:32,870 --> 00:24:30,320  
senate select committee intelligence

637  
00:24:34,549 --> 00:24:32,880  
language on that topic is not a problem

638  
00:24:36,630 --> 00:24:34,559

you know people are like well this

639

00:24:38,230 --> 00:24:36,640

language of the senate committee and

640

00:24:39,990 --> 00:24:38,240

this and that it's going to contradict

641

00:24:43,190 --> 00:24:40,000

he mellon doesn't see a problem there so

642

00:24:45,350 --> 00:24:43,200

that's great he says rumor has it

643

00:24:48,950 --> 00:24:45,360

both committees now also support both

644

00:24:50,710 --> 00:24:48,960

classified and unclassified annual uap

645

00:24:54,230 --> 00:24:50,720

reports which means just like the

646

00:24:56,470 --> 00:24:54,240

180-day report we would see it of course

647

00:24:58,789 --> 00:24:56,480

hopefully it's not going to be just 15

648

00:25:00,630 --> 00:24:58,799

pages or whatever it was that would be

649

00:25:02,789 --> 00:25:00,640

that's not acceptable

650

00:25:05,909 --> 00:25:02,799

especially if it's a yearly report

651  
00:25:07,990 --> 00:25:05,919  
15 minutes won't cut it 15 pages

652  
00:25:09,909 --> 00:25:08,000  
so he goes a hearty congratulations to

653  
00:25:12,070 --> 00:25:09,919  
the members and staff of both committees

654  
00:25:14,950 --> 00:25:12,080  
for doing more than paying lip service

655  
00:25:17,510 --> 00:25:14,960  
to the antique idea of transparency

656  
00:25:19,990 --> 00:25:17,520  
in government and an informed and

657  
00:25:21,190 --> 00:25:20,000  
informed electorate

658  
00:25:24,630 --> 00:25:21,200  
so

659  
00:25:26,310 --> 00:25:24,640  
that's great that's great an annual

660  
00:25:28,390 --> 00:25:26,320  
report i want to i want a quarterly

661  
00:25:30,070 --> 00:25:28,400  
report four times a year is not too much

662  
00:25:32,070 --> 00:25:30,080  
to ask and if it is

663  
00:25:34,710 --> 00:25:32,080

how about twice a year because

664

00:25:36,549 --> 00:25:34,720

if it's once a year

665

00:25:38,870 --> 00:25:36,559

i know this is a marathon that lou spoke

666

00:25:39,590 --> 00:25:38,880

about but that's like a double marathon

667

00:25:43,029 --> 00:25:39,600

how

668

00:25:44,230 --> 00:25:43,039

the progress will be so slow for me um

669

00:25:45,990 --> 00:25:44,240

i'd be happy

670

00:25:48,390 --> 00:25:46,000

with two times a year but i'd be

671

00:25:50,149 --> 00:25:48,400

thrilled if it was four times a year

672

00:25:52,149 --> 00:25:50,159

depending on which you know depending on

673

00:25:53,669 --> 00:25:52,159

how much activity there is i don't know

674

00:25:56,230 --> 00:25:53,679

sometimes supposedly there's you know

675

00:25:58,390 --> 00:25:56,240

activity every day off east coast

676

00:26:00,310 --> 00:25:58,400

assuming those are uap

677

00:26:03,110 --> 00:26:00,320

that you know we can get a lot of data

678

00:26:07,510 --> 00:26:03,120

and a lot to talk about in four months

679

00:26:11,430 --> 00:26:09,669

notably although the gila amendment

680

00:26:13,590 --> 00:26:11,440

insists on the development of a

681

00:26:15,510 --> 00:26:13,600

collection and analysis program as well

682

00:26:17,750 --> 00:26:15,520

as a science plan

683

00:26:19,510 --> 00:26:17,760

it nevertheless provides the secretary

684

00:26:21,669 --> 00:26:19,520

of defense and the

685

00:26:24,710 --> 00:26:21,679

director of national intelligence the

686

00:26:27,110 --> 00:26:24,720

opportunity to determine the final uap

687

00:26:29,750 --> 00:26:27,120

organizational organizational construct

688

00:26:32,310 --> 00:26:29,760

however if the administration

689

00:26:33,750 --> 00:26:32,320

biden does not make good use of that

690

00:26:36,549 --> 00:26:33,760

opportunity

691

00:26:39,269 --> 00:26:36,559

congress should not hesitate to take

692

00:26:40,870 --> 00:26:39,279

additional steps going forward and now

693

00:26:42,549 --> 00:26:40,880

melon gets into some of his background

694

00:26:44,149 --> 00:26:42,559

and you'll see why he's so knowledgeable

695

00:26:46,870 --> 00:26:44,159

on this language and so important to

696

00:26:49,750 --> 00:26:48,230

and i don't know exactly what he's

697

00:26:53,110 --> 00:26:49,760

talking about here

698

00:26:54,549 --> 00:26:53,120

as far as these bills but he said

699

00:26:57,029 --> 00:26:54,559

i had the privilege of working on the

700

00:26:58,950 --> 00:26:57,039

goldwater nichols act many years ago as

701  
00:27:01,350 --> 00:26:58,960  
well as the cohen nun bill that

702  
00:27:02,789 --> 00:27:01,360  
established the u.s special operations

703  
00:27:05,909 --> 00:27:02,799  
command

704  
00:27:08,390 --> 00:27:05,919  
i assume that's barry goldwater

705  
00:27:09,750 --> 00:27:08,400  
on a related note barry goldwater is the

706  
00:27:11,430 --> 00:27:09,760  
senator who

707  
00:27:14,390 --> 00:27:11,440  
asked

708  
00:27:18,549 --> 00:27:16,630  
curtis lemay if he could get access to

709  
00:27:21,510 --> 00:27:18,559  
the blue room at wright-patterson air

710  
00:27:23,669 --> 00:27:21,520  
force base supposedly the blue room is

711  
00:27:26,549 --> 00:27:23,679  
the room that had all the good stuff

712  
00:27:30,149 --> 00:27:26,559  
stuff from roswell and curtis lemay said

713  
00:27:32,549 --> 00:27:30,159

hell no don't bring it up again senator

714

00:27:35,510 --> 00:27:32,559

do not bring that up again okay and then

715

00:27:37,750 --> 00:27:35,520

that was it so anyway

716

00:27:39,909 --> 00:27:37,760

and

717

00:27:41,830 --> 00:27:39,919

my roommate ex-wife is about to come

718

00:27:43,269 --> 00:27:41,840

home so the dog is gonna go crazy we're

719

00:27:44,470 --> 00:27:43,279

gonna have to fight through it it's

720

00:27:45,669 --> 00:27:44,480

gonna happen there's no way am i getting

721

00:27:47,990 --> 00:27:45,679

through all this

722

00:27:50,310 --> 00:27:48,000

um

723

00:27:53,430 --> 00:27:50,320

so anyway he worked on

724

00:27:55,830 --> 00:27:53,440

goldwater nichols act cohen none bill

725

00:27:58,310 --> 00:27:55,840

that established a special operations

726

00:28:00,149 --> 00:27:58,320

command i recall the process fondly

727

00:28:02,630 --> 00:28:00,159

because members of both sides worked

728

00:28:04,710 --> 00:28:02,640

through months of hearings and markups

729

00:28:08,549 --> 00:28:04,720

and even a weekend off site in a totally

730

00:28:12,789 --> 00:28:10,710

it was also inspiring to see the members

731

00:28:15,190 --> 00:28:12,799

investing so much time and effort not

732

00:28:17,990 --> 00:28:15,200

withstanding an almost total lack of

733

00:28:19,430 --> 00:28:18,000

press or constituent interest

734

00:28:21,029 --> 00:28:19,440

so basically

735

00:28:23,110 --> 00:28:21,039

even even though the media wasn't

736

00:28:25,830 --> 00:28:23,120

interested in the subject

737

00:28:27,430 --> 00:28:25,840

or their constituents which would be us

738

00:28:28,950 --> 00:28:27,440

they still worked on it because it was

739

00:28:31,430 --> 00:28:28,960

important and it was the right thing to

740

00:28:32,789 --> 00:28:31,440

do i think that's going on right now as

741

00:28:34,789 --> 00:28:32,799

much as you know we're pushing to

742

00:28:36,870 --> 00:28:34,799

contact our representatives and that's a

743

00:28:38,549 --> 00:28:36,880

great thing i do not think we have had

744

00:28:41,269 --> 00:28:38,559

that much of an impact

745

00:28:43,029 --> 00:28:41,279

our numbers need to be a lot larger for

746

00:28:44,549 --> 00:28:43,039

us to get their attention i think what

747

00:28:46,789 --> 00:28:44,559

got their attention

748

00:28:49,190 --> 00:28:46,799

was somebody like christopher mellon and

749

00:28:51,669 --> 00:28:49,200

the access he had and people he knew and

750

00:28:53,590 --> 00:28:51,679

then you bring in elizondo then you show

751  
00:28:56,549 --> 00:28:53,600  
them the videos

752  
00:28:58,389 --> 00:28:56,559  
in a classified setting and other people

753  
00:29:00,549 --> 00:28:58,399  
spoke with them i'm sure with pilots

754  
00:29:01,909 --> 00:29:00,559  
eric davis and that's why we got to

755  
00:29:04,310 --> 00:29:01,919  
where we are now

756  
00:29:05,909 --> 00:29:04,320  
not taking any way anything away from an

757  
00:29:07,830 --> 00:29:05,919  
effort to contact our representatives

758  
00:29:08,950 --> 00:29:07,840  
but that in my opinion is not why we're

759  
00:29:10,549 --> 00:29:08,960  
here right now

760  
00:29:12,070 --> 00:29:10,559  
going forward that's important though

761  
00:29:13,830 --> 00:29:12,080  
especially when more people catch on

762  
00:29:15,750 --> 00:29:13,840  
that this is real

763  
00:29:18,230 --> 00:29:15,760

melon says what i found

764

00:29:20,470 --> 00:29:18,240

most surprising as a naive young staffer

765

00:29:23,830 --> 00:29:20,480

was the nearly unanimous and implacable

766

00:29:26,310 --> 00:29:23,840

opposition of every element of dod

767

00:29:28,470 --> 00:29:26,320

to any change to the status quo

768

00:29:30,950 --> 00:29:28,480

regardless of the merits it was all

769

00:29:33,110 --> 00:29:30,960

about defending turf one member of the

770

00:29:35,190 --> 00:29:33,120

joint chiefs even went so far as to

771

00:29:36,789 --> 00:29:35,200

question the patriotism of the members

772

00:29:38,630 --> 00:29:36,799

of the armed services committee for

773

00:29:40,549 --> 00:29:38,640

proposing reforms

774

00:29:41,830 --> 00:29:40,559

thankfully members of congress had the

775

00:29:44,470 --> 00:29:41,840

fortitude

776

00:29:46,789 --> 00:29:44,480

to insist on to insist on badly needed

777

00:29:50,789 --> 00:29:46,799

change and dod and the nation are far

778

00:29:54,389 --> 00:29:52,630

so basically yeah they they resist

779

00:29:56,549 --> 00:29:54,399

change big time i mean we have our own

780

00:29:58,710 --> 00:29:56,559

problems with ufos

781

00:30:00,870 --> 00:29:58,720

when it comes to the collins elite type

782

00:30:02,470 --> 00:30:00,880

and people thinking it's demonic

783

00:30:05,029 --> 00:30:02,480

and other people thinking it's a waste

784

00:30:06,950 --> 00:30:05,039

of time it's unscientific and it's

785

00:30:08,470 --> 00:30:06,960

pseudoscience and people just thinking

786

00:30:10,950 --> 00:30:08,480

it's a waste of time but then you on top

787

00:30:13,110 --> 00:30:10,960

of that you have with every subject they

788

00:30:15,190 --> 00:30:13,120

resist change so

789

00:30:16,149 --> 00:30:15,200

we're battling we're battling a lot of

790

00:30:18,149 --> 00:30:16,159

uh

791

00:30:21,430 --> 00:30:18,159

quote-unquote enemies here but

792

00:30:23,350 --> 00:30:21,440

i think we will succeed eventually

793

00:30:25,590 --> 00:30:23,360

melon says it's public knowledge that i

794

00:30:26,789 --> 00:30:25,600

i worked patiently from and by the way

795

00:30:27,669 --> 00:30:26,799

thanks for listening guys i didn't

796

00:30:30,630 --> 00:30:27,679

really

797

00:30:32,389 --> 00:30:30,640

today i just wanted to get this done and

798

00:30:34,549 --> 00:30:32,399

do some other stuff and it's just my way

799

00:30:36,789 --> 00:30:34,559

of forcing myself to get this onto

800

00:30:39,269 --> 00:30:36,799

youtube because twitter crashed in the

801  
00:30:41,830 --> 00:30:39,279  
middle of my audio uploading so thanks

802  
00:30:43,909 --> 00:30:41,840  
for thanks for listening

803  
00:30:46,710 --> 00:30:43,919  
it's it's public knowledge that i worked

804  
00:30:48,870 --> 00:30:46,720  
patiently for months with lou elizondo

805  
00:30:51,269 --> 00:30:48,880  
the office of uh of the secretary of

806  
00:30:53,430 --> 00:30:51,279  
defense official responsible for the uap

807  
00:30:55,430 --> 00:30:53,440  
issue in 2017

808  
00:30:58,389 --> 00:30:55,440  
to try to get this issue taken seriously

809  
00:31:01,590 --> 00:30:58,399  
within the department it was only only

810  
00:31:03,909 --> 00:31:01,600  
when that failed that mr elizondo and i

811  
00:31:07,190 --> 00:31:03,919  
chose to stick our necks out by taking

812  
00:31:10,549 --> 00:31:07,200  
the uap videos and the uap issue to the

813  
00:31:13,350 --> 00:31:10,559

press and to congress

814

00:31:18,310 --> 00:31:13,360

i hope the senate and by the way

815

00:31:21,430 --> 00:31:18,320

the the fact that that happened in 2017

816

00:31:23,190 --> 00:31:21,440

that is the answer to the question

817

00:31:27,669 --> 00:31:23,200

why now

818

00:31:29,029 --> 00:31:27,679

why is it now i'm not saying there isn't

819

00:31:30,630 --> 00:31:29,039

folks behind the scenes that want to

820

00:31:33,269 --> 00:31:30,640

start getting this information out but

821

00:31:34,710 --> 00:31:33,279

it started happening in 2017

822

00:31:36,870 --> 00:31:34,720

and has picked up

823

00:31:39,350 --> 00:31:36,880

momentum because

824

00:31:41,269 --> 00:31:39,360

elizondo quit

825

00:31:42,789 --> 00:31:41,279

christopher mellon used his contacts and

826  
00:31:44,870 --> 00:31:42,799  
they started the effort to get these

827  
00:31:46,870 --> 00:31:44,880  
folks briefed on information they

828  
00:31:48,630 --> 00:31:46,880  
weren't getting briefed on just like

829  
00:31:50,389 --> 00:31:48,640  
general mattis they wanted to brief him

830  
00:31:52,310 --> 00:31:50,399  
but they couldn't get to him

831  
00:31:54,310 --> 00:31:52,320  
so they couldn't officially brief him

832  
00:31:57,110 --> 00:31:54,320  
you know obviously luke could have

833  
00:31:58,470 --> 00:31:57,120  
pulled him aside and said hey

834  
00:31:59,990 --> 00:31:58,480  
general mattis i got to tell you

835  
00:32:01,590 --> 00:32:00,000  
something but he wanted to respect the

836  
00:32:03,269 --> 00:32:01,600  
system and how it was done and they

837  
00:32:04,789 --> 00:32:03,279  
could not get that briefing although

838  
00:32:06,870 --> 00:32:04,799

christopher mellon tried if you listen

839

00:32:08,870 --> 00:32:06,880

to him so luke quit

840

00:32:10,710 --> 00:32:08,880

and they went to work melon other people

841

00:32:13,110 --> 00:32:10,720

behind the scenes and that's why we're

842

00:32:14,710 --> 00:32:13,120

where we are right now so melon is such

843

00:32:15,909 --> 00:32:14,720

an important figure here

844

00:32:18,950 --> 00:32:15,919

even though people think he's part of

845

00:32:20,630 --> 00:32:18,960

some conspiracy which is whatever

846

00:32:22,230 --> 00:32:20,640

um

847

00:32:24,389 --> 00:32:22,240

so he says i hope the senate armed

848

00:32:26,710 --> 00:32:24,399

services and intelligence committees

849

00:32:28,630 --> 00:32:26,720

will again assert themselves recognizing

850

00:32:30,389 --> 00:32:28,640

that although department of defense and

851

00:32:34,149 --> 00:32:30,399

intelligence community

852

00:32:36,149 --> 00:32:34,159

with smart and patriotic people it is

853

00:32:38,789 --> 00:32:36,159

generally difficult if not impossible

854

00:32:42,549 --> 00:32:38,799

for that rigid and colossal structure to

855

00:32:45,190 --> 00:32:42,559

reorganize itself from within

856

00:32:47,430 --> 00:32:45,200

so we need those committees to be strong

857

00:32:49,350 --> 00:32:47,440

hopefully they will be

858

00:32:52,310 --> 00:32:49,360

obviously i would love to have an

859

00:32:54,070 --> 00:32:52,320

unambiguous sighting over washington dc

860

00:32:55,990 --> 00:32:54,080

like in 1952

861

00:32:58,070 --> 00:32:56,000

even stronger than that to get these

862

00:32:59,909 --> 00:32:58,080

people to act but who knows

863

00:33:02,070 --> 00:32:59,919

these videos may be enough

864

00:33:05,269 --> 00:33:02,080

the videos may be enough for them to act

865

00:33:07,430 --> 00:33:05,279

and push as hard as they can let's hope

866

00:33:09,509 --> 00:33:07,440

indeed congress had to carefully monitor

867

00:33:12,630 --> 00:33:09,519

the implementation of the goldwater

868

00:33:13,830 --> 00:33:12,640

nichols act and the socom bill and even

869

00:33:15,669 --> 00:33:13,840

an act

870

00:33:18,149 --> 00:33:15,679

and even enact additional directive

871

00:33:20,789 --> 00:33:18,159

legislation the following year to ensure

872

00:33:22,950 --> 00:33:20,799

effective implementation

873

00:33:26,230 --> 00:33:22,960

that is that is precisely where we are

874

00:33:28,710 --> 00:33:26,240

today and with regard to the uap issue

875

00:33:31,590 --> 00:33:28,720

and by the way people are mad at the uap

876

00:33:32,950 --> 00:33:31,600

no it's ufo yeah i know it's ufo uap

877

00:33:34,870 --> 00:33:32,960

whatever it doesn't matter some people

878

00:33:36,470 --> 00:33:34,880

like it and it's easier when i called

879

00:33:37,430 --> 00:33:36,480

senator gillibrand's office for me to

880

00:33:39,269 --> 00:33:37,440

say

881

00:33:41,669 --> 00:33:39,279

uh i'm very interested in the uap

882

00:33:43,269 --> 00:33:41,679

identified aerial phenomenon issue right

883

00:33:44,870 --> 00:33:43,279

away you know if i say i'm interested in

884

00:33:46,710 --> 00:33:44,880

ufos

885

00:33:49,509 --> 00:33:46,720

they might not listen as closely so i'm

886

00:33:50,950 --> 00:33:49,519

fine with that but i i say ufos too

887

00:33:52,549 --> 00:33:50,960

especially when i talk to new people

888

00:33:54,789 --> 00:33:52,559

about it because they're like uap what

889

00:33:57,430 --> 00:33:54,799

is that

890

00:33:58,470 --> 00:33:57,440

absent continued firm direction from

891

00:34:00,870 --> 00:33:58,480

congress

892

00:34:03,190 --> 00:34:00,880

progress on this challenging issue

893

00:34:05,430 --> 00:34:03,200

challenging issue will be slow or

894

00:34:07,350 --> 00:34:05,440

non-existent with the bipartisan

895

00:34:09,589 --> 00:34:07,360

collaboration we're witnessing today in

896

00:34:12,550 --> 00:34:09,599

the armed services and and intelligence

897

00:34:15,669 --> 00:34:12,560

committees there is increasing room for

898

00:34:16,869 --> 00:34:15,679

optimism that we will finally finally

899

00:34:19,430 --> 00:34:16,879

unwind

900

00:34:21,990 --> 00:34:19,440

the uap enigma

901  
00:34:24,069 --> 00:34:22,000  
that is it

902  
00:34:25,909 --> 00:34:24,079  
now

903  
00:34:28,310 --> 00:34:25,919  
people are gonna say christopher mellon

904  
00:34:30,629 --> 00:34:28,320  
is part of the psyop all of this is

905  
00:34:32,950 --> 00:34:30,639  
being done

906  
00:34:35,109 --> 00:34:32,960  
to confuse the chinese and russians

907  
00:34:36,550 --> 00:34:35,119  
that's all this is they're just making

908  
00:34:39,430 --> 00:34:36,560  
all of this stuff up when it comes to

909  
00:34:42,629 --> 00:34:39,440  
eric davis how put off kid green

910  
00:34:44,470 --> 00:34:42,639  
senator senator reed christopher mellon

911  
00:34:46,950 --> 00:34:44,480  
luis elizondo

912  
00:34:48,629 --> 00:34:46,960  
jim lakatsky colin kelleher everything

913  
00:34:49,829 --> 00:34:48,639

was just designed

914

00:34:51,190 --> 00:34:49,839

as a wild

915

00:34:53,430 --> 00:34:51,200

goose chase so

916

00:34:54,710 --> 00:34:53,440

you know so russia and china could spin

917

00:34:56,550 --> 00:34:54,720

their wheels trying to figure out what

918

00:34:58,069 --> 00:34:56,560

we're doing there are people who believe

919

00:35:00,310 --> 00:34:58,079

that and they can continue to believe

920

00:35:01,829 --> 00:35:00,320

that all they want i'm gonna i will not

921

00:35:03,670 --> 00:35:01,839

focus on that i know people are like

922

00:35:05,270 --> 00:35:03,680

don't even bring it up but some of those

923

00:35:07,030 --> 00:35:05,280

folks have a large following so i do

924

00:35:08,870 --> 00:35:07,040

need to push back in my opinion i need

925

00:35:10,710 --> 00:35:08,880

to push back so

926

00:35:11,990 --> 00:35:10,720

i think this is great this is more

927

00:35:14,150 --> 00:35:12,000

progress than i've ever seen in my

928

00:35:17,270 --> 00:35:14,160

lifetime obviously and i started around

929

00:35:18,790 --> 00:35:17,280

96 97 never seen anything like this i

930

00:35:20,710 --> 00:35:18,800

know in the 50s

931

00:35:22,630 --> 00:35:20,720

and there was progress we had blue book

932

00:35:25,030 --> 00:35:22,640

and we had grudge and we had sign and we

933

00:35:27,829 --> 00:35:25,040

had whatever continued after blue book

934

00:35:28,829 --> 00:35:27,839

referenced in the bowling bone bollinger

935

00:35:31,589 --> 00:35:28,839

memo

936

00:35:34,390 --> 00:35:31,599

so but this is this is different in my

937

00:35:36,630 --> 00:35:34,400

opinion i i'm not saying this is gonna

938

00:35:38,870 --> 00:35:36,640

be an instant solution to what we're

939

00:35:40,550 --> 00:35:38,880

seeking which is total disclosure but

940

00:35:42,630 --> 00:35:40,560

it's a great first step and i didn't

941

00:35:44,710 --> 00:35:42,640

expect this language i mean the killer

942

00:35:46,230 --> 00:35:44,720

brand it came out of nowhere we weren't

943

00:35:48,470 --> 00:35:46,240

expecting this

944

00:35:49,750 --> 00:35:48,480

you know first we had exploitation and

945

00:35:51,589 --> 00:35:49,760

collection and we're like oh crash

946

00:35:54,069 --> 00:35:51,599

retrieval language now we have this

947

00:35:57,030 --> 00:35:54,079

language which is even stronger so

948

00:35:58,550 --> 00:35:57,040

uh i'll i'll stay on until the dog goes

949

00:35:59,910 --> 00:35:58,560

crazy but

950

00:36:02,870 --> 00:35:59,920

um

951  
00:36:04,150 --> 00:36:02,880  
if you guys like this stuff as usual let

952  
00:36:07,349 --> 00:36:04,160  
me get this

953  
00:36:11,990 --> 00:36:10,310  
i don't really have a background

954  
00:36:13,670 --> 00:36:12,000  
but if you like this stuff first of all
