

Kelleher

Knapp

1
00:00:07,430 --> 00:00:05,590
all right guys we have a special show

2
00:00:09,750 --> 00:00:07,440
this week

3
00:00:11,509 --> 00:00:09,760
two of my favorite books that i have

4
00:00:13,830 --> 00:00:11,519
read are

5
00:00:16,230 --> 00:00:13,840
hunt for the skinwalker and skinwalkers

6
00:00:17,830 --> 00:00:16,240
at the pentagon i'm really fortunate to

7
00:00:20,070 --> 00:00:17,840
have

8
00:00:23,670 --> 00:00:20,080
george knapp and calm kelleher joining

9
00:00:27,109 --> 00:00:23,680
me this week i'm going to bring them in

10
00:00:28,230 --> 00:00:27,119
welcome george and welcome calm great to

11
00:00:29,990 --> 00:00:28,240
see you guys i'm

12
00:00:32,630 --> 00:00:30,000
thank you so much for being part of this

13
00:00:34,709 --> 00:00:32,640

uh i'm really excited because as i said

14

00:00:37,590 --> 00:00:34,719

these are two of my favorite books

15

00:00:39,270 --> 00:00:37,600

and i tell people if there are two books

16

00:00:40,630 --> 00:00:39,280

you need to read they're at the top of

17

00:00:42,069 --> 00:00:40,640

my list and i'm not just saying that

18

00:00:43,590 --> 00:00:42,079

because

19

00:00:45,990 --> 00:00:43,600

i'm not just kissing butt there i think

20

00:00:47,590 --> 00:00:46,000

there are great books i also read brain

21

00:00:49,910 --> 00:00:47,600

trust part of it i have to read the rest

22

00:00:51,430 --> 00:00:49,920

of it which we can also talk about later

23

00:00:53,270 --> 00:00:51,440

but

24

00:00:55,029 --> 00:00:53,280

thank you for being here

25

00:00:55,830 --> 00:00:55,039

i'm just going to talk to you joe

26

00:00:59,510 --> 00:00:55,840

yeah

27

00:01:02,229 --> 00:00:59,520

so i want to start off with 2017 and for

28

00:01:04,070 --> 00:01:02,239

people watching we may not cover every

29

00:01:06,789 --> 00:01:04,080

detail because i'm going to i'm going to

30

00:01:09,670 --> 00:01:06,799

put all the transcripts on my blog

31

00:01:11,190 --> 00:01:09,680

so i suggest suggest you right there you

32

00:01:13,030 --> 00:01:11,200

start there there's four interviews or

33

00:01:14,950 --> 00:01:13,040

five interviews that these gentlemen

34

00:01:16,230 --> 00:01:14,960

have done and also dr lakatsky and

35

00:01:17,990 --> 00:01:16,240

that's going to be covered so read the

36

00:01:20,789 --> 00:01:18,000

blog first and then then come here and

37

00:01:22,710 --> 00:01:20,799

watch the interview so 2017 december

38

00:01:24,550 --> 00:01:22,720

16th you guys the the new york times

39

00:01:26,149 --> 00:01:24,560

article comes out

40

00:01:28,149 --> 00:01:26,159

how how do you what was your reaction

41

00:01:29,749 --> 00:01:28,159

when you saw first of all the article

42

00:01:32,390 --> 00:01:29,759

and then also that awesome was not

43

00:01:35,670 --> 00:01:34,710

colin why did you start

44

00:01:38,310 --> 00:01:35,680

well

45

00:01:43,109 --> 00:01:38,320

at the time i was um i was kind of

46

00:01:45,350 --> 00:01:43,119

immersed in the aerospace world i i was

47

00:01:47,270 --> 00:01:45,360

leading the environmental control and

48

00:01:48,550 --> 00:01:47,280

life support systems group at bigelow

49

00:01:51,429 --> 00:01:48,560

aerospace

50

00:01:53,429 --> 00:01:51,439

so i did know that obviously

51
00:01:54,469 --> 00:01:53,439
it was um

52
00:01:57,910 --> 00:01:54,479
it was

53
00:02:00,310 --> 00:01:57,920
surprising that the uh the moniker a-tip

54
00:02:04,469 --> 00:02:00,320
was sort of front and center

55
00:02:06,870 --> 00:02:04,479
um because i had uh i'd seen obviously

56
00:02:10,389 --> 00:02:06,880
senator reid's letter at that time uh

57
00:02:13,110 --> 00:02:10,399
way back in in 2009

58
00:02:16,150 --> 00:02:13,120
um but i really had not sort of focused

59
00:02:18,949 --> 00:02:16,160
at all on atip so i was really surprised

60
00:02:23,430 --> 00:02:18,959
to see the words atip right right there

61
00:02:25,910 --> 00:02:23,440
um i kept expecting i guess some sort of

62
00:02:27,990 --> 00:02:25,920
clarification as time went on

63
00:02:30,309 --> 00:02:28,000

that you know

64

00:02:33,830 --> 00:02:30,319

atip was not the name of the program

65

00:02:37,190 --> 00:02:33,840

that the 22 million dollars was tied to

66

00:02:39,509 --> 00:02:37,200

it was actually awesome and uh so

67

00:02:41,910 --> 00:02:39,519

um i kept expecting that there was some

68

00:02:43,830 --> 00:02:41,920

sort of clarification going to happen it

69

00:02:46,790 --> 00:02:43,840

never happened and then it sort of took

70

00:02:49,350 --> 00:02:46,800

a life took on a life of its own

71

00:02:51,750 --> 00:02:49,360

and so you know as i think as most

72

00:02:54,150 --> 00:02:51,760

people know who have read the book

73

00:02:57,509 --> 00:02:54,160

um atip was actually just a nickname

74

00:02:59,990 --> 00:02:57,519

that was used for security purposes

75

00:03:02,710 --> 00:03:00,000

um during that whole

76

00:03:05,430 --> 00:03:02,720

drive towards the special access program

77

00:03:07,030 --> 00:03:05,440

status that senator reid was was

78

00:03:09,190 --> 00:03:07,040

focusing on so

79

00:03:10,390 --> 00:03:09,200

yeah i mean i i was surprised to see

80

00:03:12,229 --> 00:03:10,400

that sort of

81

00:03:15,430 --> 00:03:12,239

coming up to the surface

82

00:03:17,830 --> 00:03:15,440

um as a uh as a sort of a

83

00:03:20,149 --> 00:03:17,840

a major 22 million dollar program which

84

00:03:22,630 --> 00:03:20,159

i knew it wasn't

85

00:03:25,589 --> 00:03:22,640

but um i kept i kept expecting a

86

00:03:27,110 --> 00:03:25,599

clarification and it never came

87

00:03:29,990 --> 00:03:27,120

did you make any phone calls like can

88

00:03:32,309 --> 00:03:30,000

you believe what this article is saying

89

00:03:35,270 --> 00:03:32,319

well we we we we did communicate among

90

00:03:37,430 --> 00:03:35,280

ourselves but but you know at that stage

91

00:03:38,710 --> 00:03:37,440

it was sort of we were we were

92

00:03:41,589 --> 00:03:38,720

definitely

93

00:03:43,830 --> 00:03:41,599

not interested in in sort of running out

94

00:03:46,390 --> 00:03:43,840

and sort of uh and

95

00:03:48,869 --> 00:03:46,400

being very public about it uh like like

96

00:03:51,110 --> 00:03:48,879

i mentioned at the beginning uh i had a

97

00:03:53,670 --> 00:03:51,120

lot of other priorities on my plate and

98

00:03:56,550 --> 00:03:53,680

i know that all of the other people who

99

00:03:57,750 --> 00:03:56,560

had been involved with assap remember

100

00:03:59,350 --> 00:03:57,760

this was like

101
00:04:01,910 --> 00:03:59,360
six years after

102
00:04:04,070 --> 00:04:01,920
allstop had finished and there was a lot

103
00:04:06,149 --> 00:04:04,080
of people who were scattered to the wind

104
00:04:07,270 --> 00:04:06,159
so it was not as sort of a burning

105
00:04:10,070 --> 00:04:07,280
question

106
00:04:11,990 --> 00:04:10,080
um as it as it may have

107
00:04:12,830 --> 00:04:12,000
as it could have been if it had happened

108
00:04:15,270 --> 00:04:12,840
a lot

109
00:04:17,189 --> 00:04:15,280
earlier and george we talked about it

110
00:04:18,870 --> 00:04:17,199
but i don't think i ever asked you how

111
00:04:20,069 --> 00:04:18,880
when you i mean i'm sure you heard

112
00:04:21,830 --> 00:04:20,079
behind the scenes but when you actually

113
00:04:23,990 --> 00:04:21,840

saw the article what was your reaction

114

00:04:26,950 --> 00:04:24,000

your personal reaction well i mean i was

115

00:04:28,550 --> 00:04:26,960

thrilled with the overall uh story

116

00:04:30,150 --> 00:04:28,560

because you know of where it was

117

00:04:32,390 --> 00:04:30,160

appearing you know i've talked about it

118

00:04:34,790 --> 00:04:32,400

in public before is that uh that i knew

119

00:04:36,310 --> 00:04:34,800

about uh bass and knew about they had a

120

00:04:38,390 --> 00:04:36,320

contract and they were running this

121

00:04:41,430 --> 00:04:38,400

program but i never actually saw the

122

00:04:43,590 --> 00:04:41,440

name atip i never saw the word ossap so

123

00:04:45,350 --> 00:04:43,600

it did not strike me accord with me when

124

00:04:47,350 --> 00:04:45,360

i read the new york times story i was

125

00:04:49,590 --> 00:04:47,360

just thrilled that the story was out as

126

00:04:52,070 --> 00:04:49,600

i have expressed before joe um you know

127

00:04:53,670 --> 00:04:52,080

in the weeks leading up to that article

128

00:04:55,510 --> 00:04:53,680

when i got win that the new york times

129

00:04:57,189 --> 00:04:55,520

was working on the story i was a little

130

00:05:00,550 --> 00:04:57,199

bit miffed because i was aware of the

131

00:05:02,070 --> 00:05:00,560

program aware what was a large in big

132

00:05:03,909 --> 00:05:02,080

broad strokes

133

00:05:05,510 --> 00:05:03,919

would have been going on and i wanted to

134

00:05:07,110 --> 00:05:05,520

do the story i'd sat on a lot of the

135

00:05:09,189 --> 00:05:07,120

information that i had

136

00:05:11,909 --> 00:05:09,199

based on friendships and relationships

137

00:05:14,390 --> 00:05:11,919

with robert bigelow with column uh but

138

00:05:16,230 --> 00:05:14,400

you know i had to sort of back off back

139

00:05:17,909 --> 00:05:16,240

off from the ledge and and

140

00:05:19,990 --> 00:05:17,919

allow the times to go forward because

141

00:05:22,230 --> 00:05:20,000

senator reid tom de long

142

00:05:24,070 --> 00:05:22,240

had said hey if you do the story new

143

00:05:25,350 --> 00:05:24,080

york times says they'll back off they

144

00:05:26,790 --> 00:05:25,360

won't do it

145

00:05:28,390 --> 00:05:26,800

so you know i was thrilled with the

146

00:05:30,310 --> 00:05:28,400

overall story i knew that there were

147

00:05:33,590 --> 00:05:30,320

some factual errors but i wasn't upset

148

00:05:35,670 --> 00:05:33,600

by the atep moniker until later uh when

149

00:05:37,749 --> 00:05:35,680

i talked to these guys and uh and

150

00:05:39,990 --> 00:05:37,759

eventually with jim lakatsky about what

151
00:05:42,469 --> 00:05:40,000
the real name of the program was

152
00:05:45,029 --> 00:05:42,479
and i remember in 2019 i saw you speak

153
00:05:46,469 --> 00:05:45,039
down in uh laughlin at megacon and i and

154
00:05:49,270 --> 00:05:46,479
i heard awesome and we had heard it a

155
00:05:50,870 --> 00:05:49,280
little before that and i was like calm i

156
00:05:52,150 --> 00:05:50,880
was just like calm i'm like when or when

157
00:05:53,990 --> 00:05:52,160
are they going to correct the record and

158
00:05:55,909 --> 00:05:54,000
they never corrected it still isn't

159
00:05:59,510 --> 00:05:55,919
corrected which is amazing to me and i

160
00:06:00,550 --> 00:05:59,520
don't understand that um but moving on

161
00:06:02,950 --> 00:06:00,560
so

162
00:06:05,189 --> 00:06:02,960
calm could you just briefly describe

163
00:06:07,029 --> 00:06:05,199

what ossep was what the program

164

00:06:11,189 --> 00:06:07,039

studied

165

00:06:13,990 --> 00:06:11,199

it was a program that was designed from

166

00:06:17,430 --> 00:06:14,000

the get-go to study ufos

167

00:06:18,870 --> 00:06:17,440

and the um and the the original rfp that

168

00:06:21,909 --> 00:06:18,880

came out

169

00:06:24,629 --> 00:06:21,919

focused on 12 separate um

170

00:06:27,670 --> 00:06:24,639

aspects of advanced aerospace propulsion

171

00:06:30,230 --> 00:06:27,680

the word ufo in the uh in the request

172

00:06:33,350 --> 00:06:30,240

for proposals never appeared but there

173

00:06:35,670 --> 00:06:33,360

was no doubt in anybody's mind that asap

174

00:06:37,830 --> 00:06:35,680

was focused on

175

00:06:39,430 --> 00:06:37,840

ufos and

176

00:06:42,550 --> 00:06:39,440

on all of the

177

00:06:45,909 --> 00:06:42,560

performance characteristics that

178

00:06:49,430 --> 00:06:45,919

that came with ufos everything from

179

00:06:52,710 --> 00:06:49,440

looking at propulsion systems to lift

180

00:06:56,710 --> 00:06:52,720

performance indicators

181

00:06:57,670 --> 00:06:56,720

and we also from the get-go decided to

182

00:07:01,029 --> 00:06:57,680

look at

183

00:07:04,150 --> 00:07:01,039

human effects and human effects are

184

00:07:06,790 --> 00:07:04,160

everything from physiological effects

185

00:07:08,710 --> 00:07:06,800

uh through pathological effects and

186

00:07:11,270 --> 00:07:08,720

medical injuries

187

00:07:12,390 --> 00:07:11,280

um all the way out through

188

00:07:14,230 --> 00:07:12,400

uh the

189

00:07:17,670 --> 00:07:14,240

strange

190

00:07:21,589 --> 00:07:17,680

events that occur in people's lives

191

00:07:23,749 --> 00:07:21,599

sometimes after a ufo event we were

192

00:07:25,670 --> 00:07:23,759

determined to

193

00:07:27,189 --> 00:07:25,680

to follow

194

00:07:29,909 --> 00:07:27,199

these people

195

00:07:32,309 --> 00:07:29,919

not for just a weekend or for a week we

196

00:07:34,550 --> 00:07:32,319

were determined to especially the the

197

00:07:38,150 --> 00:07:34,560

index cases that we

198

00:07:39,589 --> 00:07:38,160

actually initiated through osap

199

00:07:42,629 --> 00:07:39,599

we were determined to follow these

200

00:07:43,589 --> 00:07:42,639

people through weeks and months and even

201
00:07:46,070 --> 00:07:43,599
years

202
00:07:48,550 --> 00:07:46,080
and it was only after that kind of

203
00:07:51,749 --> 00:07:48,560
relentless sort of

204
00:07:57,909 --> 00:07:54,309
you know go going after these people

205
00:08:00,950 --> 00:07:57,919
um week after week month after month

206
00:08:03,189 --> 00:08:00,960
that the the trust level started going

207
00:08:04,790 --> 00:08:03,199
up and we started hearing about all of

208
00:08:06,710 --> 00:08:04,800
these weird events that were happening

209
00:08:07,830 --> 00:08:06,720
in people's environments

210
00:08:10,070 --> 00:08:07,840
my

211
00:08:12,550 --> 00:08:10,080
working hypothesis

212
00:08:15,749 --> 00:08:12,560
in terms of lessons learned from this

213
00:08:17,110 --> 00:08:15,759

is that many many cases of ufo close

214

00:08:20,309 --> 00:08:17,120

encounters

215

00:08:22,790 --> 00:08:20,319

have strange after effects that occur in

216

00:08:25,189 --> 00:08:22,800

the weeks and months after but the

217

00:08:28,390 --> 00:08:25,199

reason that they're not talked about or

218

00:08:31,270 --> 00:08:28,400

or uh published is that most of the

219

00:08:34,469 --> 00:08:31,280

investigations wind up much quicker than

220

00:08:35,269 --> 00:08:34,479

what we were doing at uh at awesome so

221

00:08:44,710 --> 00:08:35,279

um

222

00:08:47,030 --> 00:08:44,720

also advanced aerospace

223

00:08:50,070 --> 00:08:47,040

weapons system application program

224

00:08:53,030 --> 00:08:50,080

threat analysis in terms of technology

225

00:08:56,310 --> 00:08:53,040

but it also focused on human effects

226

00:08:58,790 --> 00:08:56,320

both both the same time

227

00:08:59,590 --> 00:08:58,800

was one of the criticisms i've heard is

228

00:09:01,190 --> 00:08:59,600

well

229

00:09:03,350 --> 00:09:01,200

and it's people speculating it was

230

00:09:06,630 --> 00:09:03,360

before the book came out they said first

231

00:09:09,110 --> 00:09:06,640

they said it wasn't a ufo program and

232

00:09:11,269 --> 00:09:09,120

katzke went rogue and now it's like

233

00:09:13,430 --> 00:09:11,279

well it was a ufo program but the people

234

00:09:15,509 --> 00:09:13,440

in the dia did not know that they were

235

00:09:17,430 --> 00:09:15,519

going to study all of the after all the

236

00:09:19,350 --> 00:09:17,440

other effects like poltergeist and that

237

00:09:21,030 --> 00:09:19,360

was not part of the original contract is

238

00:09:23,910 --> 00:09:21,040

that accurate

239

00:09:27,110 --> 00:09:23,920

all of the discussions that happened um

240

00:09:31,030 --> 00:09:27,120

at the at the beginning of the contract

241

00:09:34,310 --> 00:09:31,040

um happened on both sides both uh at the

242

00:09:37,030 --> 00:09:34,320

bass level and also at the ia level so

243

00:09:40,550 --> 00:09:37,040

lukowski had a group working with him

244

00:09:42,550 --> 00:09:40,560

and uh and bass also had a group working

245

00:09:45,430 --> 00:09:42,560

there was constant back and forth back

246

00:09:48,070 --> 00:09:45,440

and forth so there was no ambiguity at

247

00:09:50,710 --> 00:09:48,080

all on either side of the

248

00:09:54,630 --> 00:09:50,720

um of the discussion either in

249

00:09:57,350 --> 00:09:54,640

washington dc or in las vegas in in on

250

00:10:00,310 --> 00:09:57,360

both sides of that there was um

251
00:10:03,190 --> 00:10:00,320
full understanding from the get-go that

252
00:10:04,389 --> 00:10:03,200
we were going to do a very very broad

253
00:10:07,990 --> 00:10:04,399
scope

254
00:10:10,790 --> 00:10:08,000
ufo investigation threat analysis

255
00:10:12,870 --> 00:10:10,800
technology analysis and human effects

256
00:10:14,550 --> 00:10:12,880
analysis there was never any ambiguity

257
00:10:16,710 --> 00:10:14,560
about that

258
00:10:18,389 --> 00:10:16,720
and one of the effects which is the one

259
00:10:19,990 --> 00:10:18,399
people speak about most

260
00:10:22,470 --> 00:10:20,000
with close encounters is the hitchhiker

261
00:10:23,590 --> 00:10:22,480
effect which george you spoke about it

262
00:10:25,030 --> 00:10:23,600
i don't know when you first started

263
00:10:26,949 --> 00:10:25,040

talking about it but

264

00:10:28,470 --> 00:10:26,959

um can you explain and then calm you can

265

00:10:30,790 --> 00:10:28,480

follow up with more details what the

266

00:10:32,949 --> 00:10:30,800

hitchhiker effect is

267

00:10:34,790 --> 00:10:32,959

i'm trying to remember if uh column and

268

00:10:37,030 --> 00:10:34,800

i think we know the guy who came up with

269

00:10:39,430 --> 00:10:37,040

that term there are other words for it

270

00:10:40,949 --> 00:10:39,440

other terms it's popped up in ghost uh

271

00:10:43,190 --> 00:10:40,959

research over the years i think i've

272

00:10:44,310 --> 00:10:43,200

since learned but it was something that

273

00:10:46,389 --> 00:10:44,320

happened

274

00:10:47,910 --> 00:10:46,399

with increasing frequency at skinwalker

275

00:10:49,990 --> 00:10:47,920

ranch you know the nids guys were

276
00:10:50,949 --> 00:10:50,000
studying it they had some cases there

277
00:10:52,949 --> 00:10:50,959
where

278
00:10:54,710 --> 00:10:52,959
whatever it is that's at the ranch would

279
00:10:56,710 --> 00:10:54,720
attach itself to people who spent a lot

280
00:10:59,430 --> 00:10:56,720
of time on it and follow them home and

281
00:11:00,710 --> 00:10:59,440
then in their personal lives far removed

282
00:11:02,310 --> 00:11:00,720
from the ranch

283
00:11:04,470 --> 00:11:02,320
you'd have this explosion of what we

284
00:11:06,949 --> 00:11:04,480
call paranormal activity things that

285
00:11:08,790 --> 00:11:06,959
have always been on the periphery of ufo

286
00:11:10,470 --> 00:11:08,800
encounters but have never been

287
00:11:11,910 --> 00:11:10,480
investigated you know how it is joe in

288
00:11:14,550 --> 00:11:11,920

the ufo world

289

00:11:17,670 --> 00:11:14,560

no one really wants to focus on anything

290

00:11:20,389 --> 00:11:17,680

much beyond uh nuts and bolts saucers in

291

00:11:22,470 --> 00:11:20,399

the sky that's acceptable that's

292

00:11:24,949 --> 00:11:22,480

perfectly reputable kind of research to

293

00:11:27,190 --> 00:11:24,959

do when you start investigating little

294

00:11:29,030 --> 00:11:27,200

green men and and

295

00:11:30,310 --> 00:11:29,040

close encounters and abductions it gets

296

00:11:33,190 --> 00:11:30,320

a little weirder

297

00:11:35,269 --> 00:11:33,200

or uh experiments with our genetics of

298

00:11:37,430 --> 00:11:35,279

family genetics over a long period of

299

00:11:39,829 --> 00:11:37,440

time or and then you get into like

300

00:11:42,230 --> 00:11:39,839

bigfoot showing up in proximity to ufos

301
00:11:44,550 --> 00:11:42,240
that are on the ground or a poltergeist

302
00:11:46,230 --> 00:11:44,560
activity breaking out in people's homes

303
00:11:48,710 --> 00:11:46,240
as happened at skinwalker ranch where

304
00:11:51,750 --> 00:11:48,720
people kind of get uneasy in pursuing

305
00:11:53,990 --> 00:11:51,760
that line of inquiry suddenly ufos which

306
00:11:56,389 --> 00:11:54,000
are weird enough in in many circles to

307
00:11:57,829 --> 00:11:56,399
to investigate are no longer respectable

308
00:12:00,389 --> 00:11:57,839
when you mix all the rest of that stuff

309
00:12:02,470 --> 00:12:00,399
it in there the fact is that asap and

310
00:12:04,150 --> 00:12:02,480
the program that bass carried out

311
00:12:06,470 --> 00:12:04,160
was willing to follow the evidence where

312
00:12:07,829 --> 00:12:06,480
it leads you're never going to accept or

313
00:12:10,310 --> 00:12:07,839

understand

314

00:12:12,069 --> 00:12:10,320

ufos the larger mysteries associated

315

00:12:13,750 --> 00:12:12,079

with ufos unless you look at the whole

316

00:12:16,629 --> 00:12:13,760

picture you can't just limit it to one

317

00:12:18,629 --> 00:12:16,639

little um sliver of the evidence of

318

00:12:20,310 --> 00:12:18,639

things that people see in the skies you

319

00:12:22,230 --> 00:12:20,320

have to look at the whole thing that's

320

00:12:24,550 --> 00:12:22,240

what they had the courage to do that was

321

00:12:26,069 --> 00:12:24,560

the the brilliance of this program is to

322

00:12:27,990 --> 00:12:26,079

look at the big picture follow the

323

00:12:29,430 --> 00:12:28,000

evidence where it leads no matter how

324

00:12:32,389 --> 00:12:29,440

weird know how

325

00:12:33,990 --> 00:12:32,399

inexplicable and strange it might get so

326

00:12:36,230 --> 00:12:34,000

the hitchhiker effects started at the

327

00:12:38,870 --> 00:12:36,240

ranch i think they really got got well

328

00:12:41,509 --> 00:12:38,880

documented uh during the bass period

329

00:12:43,110 --> 00:12:41,519

during the asap program where

330

00:12:44,710 --> 00:12:43,120

a column can tell you better than i did

331

00:12:47,269 --> 00:12:44,720

but but they had

332

00:12:49,509 --> 00:12:47,279

a number of agents we'll call them

333

00:12:51,590 --> 00:12:49,519

intelligence operatives who went to the

334

00:12:52,710 --> 00:12:51,600

ranch i don't know what the specific

335

00:12:54,470 --> 00:12:52,720

plan was

336

00:12:56,310 --> 00:12:54,480

basically is to see how they reacted to

337

00:12:57,990 --> 00:12:56,320

what the phenomena was much as what

338

00:12:59,590 --> 00:12:58,000

column did to me long time ago when i

339

00:13:01,670 --> 00:12:59,600

first went there to see if something

340

00:13:03,350 --> 00:13:01,680

came and grabbed me but all of these

341

00:13:05,269 --> 00:13:03,360

people all of them there were five in

342

00:13:07,430 --> 00:13:05,279

particular that went to the property

343

00:13:09,590 --> 00:13:07,440

they encountered something strange and

344

00:13:11,670 --> 00:13:09,600

when they left it followed them and for

345

00:13:13,910 --> 00:13:11,680

a couple of these people it's still with

346

00:13:16,069 --> 00:13:13,920

them more than 10 years later messing

347

00:13:18,550 --> 00:13:16,079

with their homes um

348

00:13:20,150 --> 00:13:18,560

showing up in really strange ways inside

349

00:13:22,310 --> 00:13:20,160

their homes uh

350

00:13:24,710 --> 00:13:22,320

scaring the bejesus out of their family

351

00:13:25,990 --> 00:13:24,720

members and then spreading almost like a

352

00:13:29,590 --> 00:13:26,000

virus to

353

00:13:32,150 --> 00:13:29,600

their neighbors to their kids friends to

354

00:13:33,990 --> 00:13:32,160

others they've associated with and uh

355

00:13:36,310 --> 00:13:34,000

you know as i said in some cases it's

356

00:13:38,550 --> 00:13:36,320

still going on i think it's part of the

357

00:13:40,230 --> 00:13:38,560

reason that uh mr bigelow

358

00:13:42,870 --> 00:13:40,240

wanted to sell the ranch to get it off

359

00:13:44,790 --> 00:13:42,880

his get it off his plate because he some

360

00:13:46,470 --> 00:13:44,800

of these things followed him home some

361

00:13:48,389 --> 00:13:46,480

followed column they followed dr

362

00:13:49,829 --> 00:13:48,399

lekatsky they followed me

363

00:13:51,910 --> 00:13:49,839

and you know

364

00:13:53,910 --> 00:13:51,920

as i've said before joe publicly i mean

365

00:13:56,150 --> 00:13:53,920

i i tried to get it to follow me for a

366

00:13:57,110 --> 00:13:56,160

long time i would bring things home from

367

00:13:59,189 --> 00:13:57,120

the ranch

368

00:14:01,670 --> 00:13:59,199

bits of rock and and

369

00:14:03,509 --> 00:14:01,680

garbage and things like that and hope

370

00:14:05,269 --> 00:14:03,519

that it would engage me at home because

371

00:14:07,269 --> 00:14:05,279

it never engaged me there

372

00:14:09,910 --> 00:14:07,279

and uh finally it did

373

00:14:12,550 --> 00:14:09,920

but not me it was seen by my wife at our

374

00:14:14,550 --> 00:14:12,560

home on a couple of occasions and i you

375

00:14:16,790 --> 00:14:14,560

know the real question might be what's

376

00:14:19,829 --> 00:14:16,800

the physics of that how does that work

377

00:14:21,509 --> 00:14:19,839

um when you have a ufo encounter does it

378

00:14:24,230 --> 00:14:21,519

mean you're you have all these other

379

00:14:25,910 --> 00:14:24,240

phenomena that come attached to it and

380

00:14:28,710 --> 00:14:25,920

why does it attach to some people and

381

00:14:31,590 --> 00:14:28,720

not others don't know

382

00:14:33,509 --> 00:14:31,600

yeah and you you've spoken about

383

00:14:35,189 --> 00:14:33,519

your experience your wife's experiences

384

00:14:36,550 --> 00:14:35,199

and it's you said mister and first of

385

00:14:38,310 --> 00:14:36,560

all that's the first time i heard

386

00:14:40,629 --> 00:14:38,320

anybody say that

387

00:14:42,710 --> 00:14:40,639

jim lackowski had his own

388

00:14:44,389 --> 00:14:42,720

hitchhiker-like effects do you know any

389

00:14:45,990 --> 00:14:44,399

details or you can can you share any of

390

00:14:47,750 --> 00:14:46,000

that

391

00:14:48,710 --> 00:14:47,760

um i don't think i should maybe column

392

00:14:51,269 --> 00:14:48,720

can

393

00:14:53,910 --> 00:14:51,279

well i i'd prefer not to go into the

394

00:14:56,710 --> 00:14:53,920

details but uh um

395

00:14:59,670 --> 00:14:56,720

i do know that um

396

00:15:02,870 --> 00:14:59,680

uh dr lakotsky had some

397

00:15:04,150 --> 00:15:02,880

really sort of intense experiences in

398

00:15:07,269 --> 00:15:04,160

his own home

399

00:15:09,829 --> 00:15:07,279

um just exactly like everybody else who

400

00:15:12,150 --> 00:15:09,839

had been on the skidmarker property but

401
00:15:13,350 --> 00:15:12,160
one thing i might add to this whole

402
00:15:16,550 --> 00:15:13,360
thing is

403
00:15:18,790 --> 00:15:16,560
that i think there's a tendency to

404
00:15:21,590 --> 00:15:18,800
associate

405
00:15:24,069 --> 00:15:21,600
this quote-unquote hitchhiker effect

406
00:15:27,110 --> 00:15:24,079
with skinwalker ranch it just happens

407
00:15:29,910 --> 00:15:27,120
that there was a very intense focus

408
00:15:32,389 --> 00:15:29,920
on skinwalker ranch with five five

409
00:15:33,670 --> 00:15:32,399
separate military intelligence people

410
00:15:36,710 --> 00:15:33,680
from different

411
00:15:39,030 --> 00:15:36,720
uh armed services that were on the ranch

412
00:15:42,150 --> 00:15:39,040
um scoping it out for

413
00:15:45,350 --> 00:15:42,160

sensor placement and uh and and

414

00:15:46,389 --> 00:15:45,360

investigative capacity but

415

00:15:51,829 --> 00:15:46,399

not

416

00:15:55,670 --> 00:15:51,839

subject to this uh quote-unquote uh

417

00:15:58,310 --> 00:15:55,680

hitchhiker's effect but also

418

00:15:59,590 --> 00:15:58,320

some of the cases that we investigated

419

00:16:02,629 --> 00:15:59,600

in depth

420

00:16:05,590 --> 00:16:02,639

um that had nothing whatever to do with

421

00:16:08,230 --> 00:16:05,600

skinwalker ranch also had evidence of

422

00:16:10,870 --> 00:16:08,240

this effect for example

423

00:16:13,670 --> 00:16:10,880

in the book we talk about um

424

00:16:16,949 --> 00:16:13,680

these three

425

00:16:19,189 --> 00:16:16,959

column ufos that were in a field uh this

426
00:16:20,710 --> 00:16:19,199
biotechnologist was driving on the way

427
00:16:23,110 --> 00:16:20,720
to bend oregon

428
00:16:25,030 --> 00:16:23,120
and um out of the window with his

429
00:16:27,670 --> 00:16:25,040
daughter and out of the window of the

430
00:16:29,910 --> 00:16:27,680
car they see these uh ufos

431
00:16:32,790 --> 00:16:29,920
moving erratically around the feet

432
00:16:36,230 --> 00:16:32,800
in a nearby field probably 20 feet off

433
00:16:37,030 --> 00:16:36,240
the ground and they came towards the car

434
00:16:39,430 --> 00:16:37,040
um

435
00:16:40,790 --> 00:16:39,440
two of them went into the car

436
00:16:43,110 --> 00:16:40,800
one of them went in front of the

437
00:16:45,590 --> 00:16:43,120
windshield one of them went through the

438
00:16:47,110 --> 00:16:45,600

guy's shoulder actually left shoulder to

439

00:16:51,749 --> 00:16:47,120

right shoulder

440

00:16:53,990 --> 00:16:51,759

the windshield but the daughter and

441

00:16:57,350 --> 00:16:54,000

again this was a case of

442

00:16:58,470 --> 00:16:57,360

incessant relentless follow-up follow-up

443

00:17:00,550 --> 00:16:58,480

follow-up

444

00:17:01,430 --> 00:17:00,560

you know week after week month after

445

00:17:03,509 --> 00:17:01,440

month

446

00:17:04,390 --> 00:17:03,519

and so it turned out actually that the

447

00:17:07,270 --> 00:17:04,400

daughter

448

00:17:09,590 --> 00:17:07,280

once she sort of um went back to

449

00:17:12,789 --> 00:17:09,600

university on the east coast

450

00:17:14,949 --> 00:17:12,799

there was a plethora of all a lot of

451
00:17:17,110 --> 00:17:14,959
strange effects that started erupting in

452
00:17:18,549 --> 00:17:17,120
her her household

453
00:17:20,230 --> 00:17:18,559
she had nothing whatever to do with

454
00:17:22,789 --> 00:17:20,240
skinwalker wrench

455
00:17:25,110 --> 00:17:22,799
but the same kind of thing that

456
00:17:27,350 --> 00:17:25,120
her roommates were waking up with sort

457
00:17:30,070 --> 00:17:27,360
of black shadows looking at them from

458
00:17:32,150 --> 00:17:30,080
the end of the bed there was um

459
00:17:34,470 --> 00:17:32,160
strange creatures there was balls of

460
00:17:36,630 --> 00:17:34,480
light in the house

461
00:17:38,630 --> 00:17:36,640
kind of classic uh stuff that was

462
00:17:41,350 --> 00:17:38,640
happening to people that had been on

463
00:17:43,750 --> 00:17:41,360

skinwalker ranch but she had nothing

464

00:17:46,310 --> 00:17:43,760

whatever to do with skinwalker ranch we

465

00:17:49,270 --> 00:17:46,320

talk in the in the book also about this

466

00:17:52,950 --> 00:17:49,280

gentleman in georgia who got radiated

467

00:17:55,270 --> 00:17:52,960

from uh from a a large silent black

468

00:17:57,190 --> 00:17:55,280

triangle that was over his property in

469

00:18:01,590 --> 00:17:57,200

georgia

470

00:18:03,669 --> 00:18:01,600

after that event we had medical people

471

00:18:06,630 --> 00:18:03,679

you know interviewing him and taking

472

00:18:09,430 --> 00:18:06,640

blood samples and hospital work-ups for

473

00:18:13,350 --> 00:18:09,440

months and years after that

474

00:18:16,070 --> 00:18:13,360

he also endured a lot of anomalies um in

475

00:18:18,710 --> 00:18:16,080

his surroundings including sort of

476
00:18:19,750 --> 00:18:18,720
psychological effects paranormal effects

477
00:18:22,470 --> 00:18:19,760
so

478
00:18:25,110 --> 00:18:22,480
when when we talk about the hitchhiker

479
00:18:27,669 --> 00:18:25,120
effect there's a ten a tendency to

480
00:18:28,870 --> 00:18:27,679
pigeonhole that oh yeah this this stuff

481
00:18:30,950 --> 00:18:28,880
is only

482
00:18:33,510 --> 00:18:30,960
weird stuff that happens on skinwalker

483
00:18:34,950 --> 00:18:33,520
ranch but that is not the case

484
00:18:38,070 --> 00:18:34,960
um you know

485
00:18:40,070 --> 00:18:38,080
i i think the bottom line is people

486
00:18:43,430 --> 00:18:40,080
really need to

487
00:18:46,310 --> 00:18:43,440
pour resources into extensive

488
00:18:48,950 --> 00:18:46,320

investigation of these cases not just

489

00:18:51,669 --> 00:18:48,960

what happens in the you know during the

490

00:18:54,470 --> 00:18:51,679

event but what happens after the event

491

00:18:58,549 --> 00:18:54,480

to the actual human beings were involved

492

00:19:02,310 --> 00:18:58,559

i mean to my knowledge um i've never

493

00:19:03,110 --> 00:19:02,320

heard any of the um the f-18 pilots that

494

00:19:08,470 --> 00:19:03,120

have

495

00:19:10,789 --> 00:19:08,480

interactions with ufos both on east and

496

00:19:12,710 --> 00:19:10,799

west coast i don't know if these people

497

00:19:15,350 --> 00:19:12,720

have been followed for

498

00:19:17,909 --> 00:19:15,360

months or years to see if they've had

499

00:19:19,990 --> 00:19:17,919

any unusual effects in their homes

500

00:19:21,909 --> 00:19:20,000

afterwards but i can go

501
00:19:24,390 --> 00:19:21,919
you know i can go all the way back to

502
00:19:25,710 --> 00:19:24,400
kenneth arnold you know kenneth arnold

503
00:19:29,190 --> 00:19:25,720
in june of

504
00:19:32,630 --> 00:19:29,200
1947 had this sort of really dramatic

505
00:19:35,350 --> 00:19:32,640
very famous encounter and years decades

506
00:19:36,789 --> 00:19:35,360
later his daughter began to speak about

507
00:19:39,750 --> 00:19:36,799
what was happening

508
00:19:41,990 --> 00:19:39,760
to him afterwards and it turns out yes

509
00:19:44,630 --> 00:19:42,000
he had a lot of unusual effects on his

510
00:19:47,029 --> 00:19:44,640
own including balls of light that would

511
00:19:50,150 --> 00:19:47,039
meander through the house and a lot of

512
00:19:52,549 --> 00:19:50,160
other unusual effects so i mean can we

513
00:19:55,110 --> 00:19:52,559

ascribe those unusual effects to what

514

00:19:57,270 --> 00:19:55,120

we're talking about in terms of the

515

00:19:59,909 --> 00:19:57,280

so-called hitchhiker effect i don't know

516

00:20:02,470 --> 00:19:59,919

the answer to that because nobody really

517

00:20:05,110 --> 00:20:02,480

sort of went down went and drilled down

518

00:20:06,549 --> 00:20:05,120

on kenneth arnold and interviewed him

519

00:20:09,990 --> 00:20:06,559

from that perspective

520

00:20:12,310 --> 00:20:10,000

but you know my point is that

521

00:20:14,630 --> 00:20:12,320

the reason that maybe this hitchhiker

522

00:20:16,870 --> 00:20:14,640

effect has not been

523

00:20:20,230 --> 00:20:16,880

really sort of integrated in the into

524

00:20:23,430 --> 00:20:20,240

the so-called ufo field is that the the

525

00:20:25,190 --> 00:20:23,440

average investigation may last one week

526

00:20:27,270 --> 00:20:25,200

where you know boots on the ground

527

00:20:29,990 --> 00:20:27,280

investigators go out to the

528

00:20:31,830 --> 00:20:30,000

property interview all of the witnesses

529

00:20:33,909 --> 00:20:31,840

and then they get on a plane and they go

530

00:20:35,270 --> 00:20:33,919

back and they do an analysis and they

531

00:20:37,350 --> 00:20:35,280

database it

532

00:20:40,630 --> 00:20:37,360

the point is that you know there needs

533

00:20:43,190 --> 00:20:40,640

to be resources focused on this where

534

00:20:45,669 --> 00:20:43,200

these people are followed for weeks if

535

00:20:48,230 --> 00:20:45,679

not months the other part of this when i

536

00:20:50,870 --> 00:20:48,240

alluded to the f-18 pilots says there's

537

00:20:53,990 --> 00:20:50,880

no way in hell that an f-18 pilot with a

538

00:20:54,870 --> 00:20:54,000

security clearance and a lot of training

539

00:20:56,549 --> 00:20:54,880

you know

540

00:20:58,789 --> 00:20:56,559

hundreds of thousands of dollars that

541

00:21:02,070 --> 00:20:58,799

have gone into years of training is

542

00:21:04,470 --> 00:21:02,080

going to say or do anything that will

543

00:21:06,789 --> 00:21:04,480

risk his or her

544

00:21:09,110 --> 00:21:06,799

ability to fly in the future and may

545

00:21:10,950 --> 00:21:09,120

even risk their security clearances so

546

00:21:12,789 --> 00:21:10,960

there is really no permissive

547

00:21:14,950 --> 00:21:12,799

environment

548

00:21:17,669 --> 00:21:14,960

currently where these people can

549

00:21:20,630 --> 00:21:17,679

actually talk about this stuff um in a

550

00:21:22,390 --> 00:21:20,640

in in some in some relative safety

551
00:21:24,950 --> 00:21:22,400
there's really no permissive environment

552
00:21:26,549 --> 00:21:24,960
whatsoever so why on earth would they

553
00:21:27,350 --> 00:21:26,559
ever um

554
00:21:29,750 --> 00:21:27,360
you know

555
00:21:31,990 --> 00:21:29,760
vouch that that anything has happened to

556
00:21:33,590 --> 00:21:32,000
them if it has happened to them

557
00:21:35,270 --> 00:21:33,600
it just goes back to what i was the

558
00:21:37,110 --> 00:21:35,280
point i was trying to make before joe is

559
00:21:39,110 --> 00:21:37,120
that this has been around forever you

560
00:21:40,870 --> 00:21:39,120
know everyone in ufology knows the name

561
00:21:43,909 --> 00:21:40,880
of kenneth arnold and what he saw over

562
00:21:45,669 --> 00:21:43,919
washington state in in june of 1947. how

563
00:21:47,270 --> 00:21:45,679

many people know that he had weird stuff

564

00:21:49,590 --> 00:21:47,280

happening in his home what we call

565

00:21:51,270 --> 00:21:49,600

poltergeist type activity uh different

566

00:21:53,590 --> 00:21:51,280

kinds of phenomena that erupted and went

567

00:21:55,830 --> 00:21:53,600

on for a long time very few i mean

568

00:21:58,870 --> 00:21:55,840

ufologists find it respectable to study

569

00:22:00,870 --> 00:21:58,880

ufos nuts and bolts craft in the sky you

570

00:22:02,549 --> 00:22:00,880

get outside that parameter when it gets

571

00:22:04,149 --> 00:22:02,559

weird they're not comfortable doing it

572

00:22:06,549 --> 00:22:04,159

so they don't look at it

573

00:22:08,390 --> 00:22:06,559

the the skinwalker ranch study the bass

574

00:22:09,430 --> 00:22:08,400

period during that study

575

00:22:11,110 --> 00:22:09,440

gave you a

576

00:22:13,190 --> 00:22:11,120

unique opportunity to go ahead and take

577

00:22:15,190 --> 00:22:13,200

a look at it the five agents that came

578

00:22:16,950 --> 00:22:15,200

there didn't have this in their lives

579

00:22:18,549 --> 00:22:16,960

until they came to the ranch after

580

00:22:19,830 --> 00:22:18,559

they're exposed to something there they

581

00:22:21,669 --> 00:22:19,840

took it home and they did have it in

582

00:22:23,750 --> 00:22:21,679

their lives and some of them still have

583

00:22:25,190 --> 00:22:23,760

it so you know it's always been around

584

00:22:27,029 --> 00:22:25,200

nobody's paid any attention to it

585

00:22:28,789 --> 00:22:27,039

because it's somehow not respectable we

586

00:22:30,470 --> 00:22:28,799

didn't make it up the ranch didn't make

587

00:22:32,549 --> 00:22:30,480

it up it didn't start there it's been

588

00:22:34,630 --> 00:22:32,559

going a long time it's just something

589

00:22:36,149 --> 00:22:34,640

that needs to be looked at that's that's

590

00:22:38,310 --> 00:22:36,159

why those books those two books are my

591

00:22:41,029 --> 00:22:38,320

favorite books because between knapp

592

00:22:42,470 --> 00:22:41,039

kelleher like you guys will look at

593

00:22:45,190 --> 00:22:42,480

wherever the data takes you and that's

594

00:22:47,190 --> 00:22:45,200

how i am i'm like i don't one of my

595

00:22:48,230 --> 00:22:47,200

credos in the past has been don't judge

596

00:22:49,830 --> 00:22:48,240

something just because it sounds

597

00:22:51,990 --> 00:22:49,840

ridiculous and which what's a perfect

598

00:22:53,590 --> 00:22:52,000

example is you know the bipedal wolf

599

00:22:55,590 --> 00:22:53,600

that was seen by the woman and then her

600

00:22:58,070 --> 00:22:55,600

kids and then the kids friends it's like

601
00:22:59,669 --> 00:22:58,080
yeah i understand how ridiculous some of

602
00:23:01,830 --> 00:22:59,679
this sounds and i've said that to you

603
00:23:03,110 --> 00:23:01,840
too it's like i don't want it to be that

604
00:23:04,789 --> 00:23:03,120
i don't want it to be bigfoot i don't

605
00:23:06,149 --> 00:23:04,799
want to be any of that stuff i really i

606
00:23:07,590 --> 00:23:06,159
mean i don't really have any wishes but

607
00:23:09,190 --> 00:23:07,600
when i see that i'm like all right here

608
00:23:11,110 --> 00:23:09,200
we go because there are people out there

609
00:23:14,230 --> 00:23:11,120
that cannot accept anything but nuts and

610
00:23:16,230 --> 00:23:14,240
bolts but one of the criticisms

611
00:23:18,310 --> 00:23:16,240
you guys have gotten and the book and

612
00:23:20,149 --> 00:23:18,320
the program is and either one of you can

613
00:23:22,149 --> 00:23:20,159

answer this well they're just it's an

614

00:23:24,070 --> 00:23:22,159

it's an agenda to make all this negative

615

00:23:25,909 --> 00:23:24,080

because there are orb cases out there

616

00:23:27,510 --> 00:23:25,919

where they're curing cancer where

617

00:23:29,830 --> 00:23:27,520

they're helping people and they're

618

00:23:31,990 --> 00:23:29,840

totally ignoring it so i don't know if

619

00:23:33,590 --> 00:23:32,000

you want to address that calm because i

620

00:23:35,990 --> 00:23:33,600

tell them well the program awesome

621

00:23:37,669 --> 00:23:36,000

wasn't really intended to you know look

622

00:23:39,190 --> 00:23:37,679

at the entire phenomenon you guys were

623

00:23:40,710 --> 00:23:39,200

just reacting to

624

00:23:42,230 --> 00:23:40,720

i don't know you could you could explain

625

00:23:43,830 --> 00:23:42,240

it to me but

626
00:23:45,750 --> 00:23:43,840
the accusation is you focused on the

627
00:23:48,310 --> 00:23:45,760
negative

628
00:23:51,669 --> 00:23:48,320
um there were cases there were certainly

629
00:23:55,029 --> 00:23:51,679
cases that we investigated that that you

630
00:23:56,710 --> 00:23:55,039
know people had positive outcomes from

631
00:23:59,029 --> 00:23:56,720
uh from you

632
00:24:01,190 --> 00:23:59,039
interactions with ufos

633
00:24:02,870 --> 00:24:01,200
but they were the minority of cases that

634
00:24:05,029 --> 00:24:02,880
we ran into

635
00:24:07,430 --> 00:24:05,039
even the data streams that we were

636
00:24:09,350 --> 00:24:07,440
getting in that were independent from

637
00:24:11,590 --> 00:24:09,360
the boots of the ground uh

638
00:24:13,510 --> 00:24:11,600

investigations we were doing the data

639

00:24:16,230 --> 00:24:13,520

streams that were coming through

640

00:24:17,830 --> 00:24:16,240

um you know various databases that we

641

00:24:21,269 --> 00:24:17,840

have access to

642

00:24:22,870 --> 00:24:21,279

we were doing analysis in terms of what

643

00:24:26,549 --> 00:24:22,880

physiological effects what were the

644

00:24:28,789 --> 00:24:26,559

pathological effects and there was a um

645

00:24:30,789 --> 00:24:28,799

a distinct

646

00:24:32,390 --> 00:24:30,799

grouping of

647

00:24:34,630 --> 00:24:32,400

some positive effects but there were

648

00:24:36,149 --> 00:24:34,640

technically minority

649

00:24:39,029 --> 00:24:36,159

you know there are famous

650

00:24:41,590 --> 00:24:39,039

so-called healing effects

651
00:24:44,549 --> 00:24:41,600
other countries

652
00:24:47,269 --> 00:24:44,559
as a result of interactions with ufos we

653
00:24:48,950 --> 00:24:47,279
databased all of that kind of stuff but

654
00:24:51,909 --> 00:24:48,960
the fact is when

655
00:24:54,789 --> 00:24:51,919
all of the analysis uh occurred on

656
00:24:56,470 --> 00:24:54,799
thousands and thousands of cases

657
00:24:59,110 --> 00:24:56,480
the fact was that the

658
00:25:02,310 --> 00:24:59,120
um the healing and the

659
00:25:04,230 --> 00:25:02,320
euphoric sort of life transformation and

660
00:25:06,390 --> 00:25:04,240
all of that um

661
00:25:08,390 --> 00:25:06,400
you know we're in the minority

662
00:25:10,310 --> 00:25:08,400
and the sort of

663
00:25:11,430 --> 00:25:10,320

physiological effects

664

00:25:13,190 --> 00:25:11,440

um

665

00:25:15,350 --> 00:25:13,200

you know let's face it

666

00:25:19,269 --> 00:25:15,360

nobody wants to go into an emergency

667

00:25:21,990 --> 00:25:19,279

room after an encounter so you know

668

00:25:24,789 --> 00:25:22,000

you can sort of you can interpret that

669

00:25:26,789 --> 00:25:24,799

encounter and the after effects in terms

670

00:25:28,870 --> 00:25:26,799

of medical effects i mean if you're

671

00:25:31,990 --> 00:25:28,880

really sort of a glass half full type

672

00:25:33,590 --> 00:25:32,000

person you might actually spin it into

673

00:25:36,390 --> 00:25:33,600

well it actually had a really good

674

00:25:38,950 --> 00:25:36,400

effect on me because now i look at life

675

00:25:41,590 --> 00:25:38,960

in a completely different way i've gone

676

00:25:44,390 --> 00:25:41,600

through the ontological shock process

677

00:25:46,870 --> 00:25:44,400

and now i'm i have expanded vision uh

678

00:25:49,269 --> 00:25:46,880

but it was a tough ride while i laughed

679

00:25:51,510 --> 00:25:49,279

while other people would interpret that

680

00:25:52,549 --> 00:25:51,520

as yeah i think caused medical

681

00:25:56,230 --> 00:25:52,559

appointments

682

00:25:57,430 --> 00:25:56,240

in the emergency room so

683

00:25:59,430 --> 00:25:57,440

therefore

684

00:26:01,909 --> 00:25:59,440

you know it wasn't a particularly good

685

00:26:06,870 --> 00:26:01,919

effect but you know it all comes down to

686

00:26:10,310 --> 00:26:08,470

i would add this joe it's sort of like

687

00:26:13,510 --> 00:26:10,320

news the news business people always

688

00:26:16,070 --> 00:26:13,520

accuse us you only report bad stuff well

689

00:26:17,830 --> 00:26:16,080

yeah i mean a plane didn't crash today

690

00:26:19,750 --> 00:26:17,840

that's not going to make our newscast

691

00:26:21,990 --> 00:26:19,760

when a plane crashes that does make a

692

00:26:24,230 --> 00:26:22,000

newscast in this case there's a lot of

693

00:26:26,789 --> 00:26:24,240

stuff at skinwalker for example that was

694

00:26:28,390 --> 00:26:26,799

completely benign as if whatever was

695

00:26:30,310 --> 00:26:28,400

going on there didn't care whether

696

00:26:31,990 --> 00:26:30,320

people are around there to see it or not

697

00:26:33,430 --> 00:26:32,000

the things that sort of made news that

698

00:26:35,350 --> 00:26:33,440

got the attention of the guys who are

699

00:26:37,750 --> 00:26:35,360

investigating it were things that stood

700

00:26:39,510 --> 00:26:37,760

out that were often kind of negative

701
00:26:40,789 --> 00:26:39,520
i'm going to go knock this gardener out

702
00:26:43,750 --> 00:26:40,799
by the way let's make it oh is that what

703
00:26:45,190 --> 00:26:43,760
that is i'll be right back yeah okay

704
00:26:47,190 --> 00:26:45,200
okay so

705
00:26:48,390 --> 00:26:47,200
calm how did you guys determine if a

706
00:26:50,149 --> 00:26:48,400
case was

707
00:26:52,230 --> 00:26:50,159
credible take me through the steps and

708
00:26:53,350 --> 00:26:52,240
then afterwards your round tables that

709
00:26:54,870 --> 00:26:53,360
you spoke about in the book when you

710
00:26:57,909 --> 00:26:54,880
were talking about different levels of

711
00:26:59,590 --> 00:26:57,919
credibility um and also whether or not

712
00:27:00,950 --> 00:26:59,600
you thought maybe this was intentional

713
00:27:02,149 --> 00:27:00,960

or not

714

00:27:05,110 --> 00:27:02,159

well

715

00:27:07,590 --> 00:27:05,120

the the process was we we went out and

716

00:27:08,390 --> 00:27:07,600

and hired um

717

00:27:41,190 --> 00:27:08,400

a

718

00:27:43,350 --> 00:27:41,200

occurred first

719

00:27:46,389 --> 00:27:43,360

we had we had

720

00:27:50,230 --> 00:27:46,399

brazilian cases translated we had french

721

00:27:51,750 --> 00:27:50,240

cases translated so so um

722

00:27:57,350 --> 00:27:51,760

the

723

00:27:59,830 --> 00:27:57,360

um we assigned a numerical index of

724

00:28:02,230 --> 00:27:59,840

credibility and all of this is published

725

00:28:04,549 --> 00:28:02,240

in jacques valley's book for example

726

00:28:06,389 --> 00:28:04,559

confrontations

727

00:28:08,950 --> 00:28:06,399

goes through the sort of

728

00:28:11,990 --> 00:28:08,960

whether or not a a case has had a site

729

00:28:14,230 --> 00:28:12,000

visit whether or not there's um you know

730

00:28:17,190 --> 00:28:14,240

different aspects of credibility you can

731

00:28:19,510 --> 00:28:17,200

assign a numerical index well every

732

00:28:22,070 --> 00:28:19,520

single case that we

733

00:28:23,750 --> 00:28:22,080

that we had on our plate

734

00:28:26,230 --> 00:28:23,760

there was a number of people sitting

735

00:28:28,149 --> 00:28:26,240

around the table arguing back and forth

736

00:28:31,269 --> 00:28:28,159

about what numerical

737

00:28:34,070 --> 00:28:31,279

index of credibility well site visit

738

00:28:36,310 --> 00:28:34,080

plus or minus was was pretty easy but

739

00:28:39,269 --> 00:28:36,320

then then there were you know questions

740

00:28:42,389 --> 00:28:39,279

about okay so how many different

741

00:28:45,350 --> 00:28:42,399

explanations need to come in before you

742

00:28:46,310 --> 00:28:45,360

can essentially write this off as a

743

00:28:50,070 --> 00:28:46,320

you know

744

00:28:52,230 --> 00:28:50,080

a sort of a swamp a swamp gas effect or

745

00:28:54,070 --> 00:28:52,240

you know what was it sort of venus low

746

00:28:56,070 --> 00:28:54,080

in the sky this kind of thing

747

00:28:58,630 --> 00:28:56,080

so there was a lot of arguments back and

748

00:29:01,990 --> 00:28:58,640

forth and the end result of that process

749

00:29:04,149 --> 00:29:02,000

was the data entry process and you know

750

00:29:07,990 --> 00:29:04,159

behind this whole thing

751
00:29:10,870 --> 00:29:08,000
was the absolute driving urgency that

752
00:29:14,870 --> 00:29:10,880
garbage in garbage out a database is

753
00:29:17,909 --> 00:29:14,880
only as good as its weakest cases

754
00:29:20,389 --> 00:29:17,919
so you know when you're inputting dozens

755
00:29:22,149 --> 00:29:20,399
if not hundreds of separate cases and

756
00:29:24,549 --> 00:29:22,159
you're looking at them from multiple

757
00:29:26,470 --> 00:29:24,559
different levels you've gotta and once

758
00:29:29,510 --> 00:29:26,480
you go through that whole process

759
00:29:32,149 --> 00:29:29,520
of deciding whether or not a an index of

760
00:29:35,350 --> 00:29:32,159
credibility or particular case meets

761
00:29:38,230 --> 00:29:35,360
that threshold um you do become

762
00:29:40,389 --> 00:29:38,240
extremely familiar with these cases and

763
00:29:42,950 --> 00:29:40,399

this happened not only with cases that

764

00:29:44,870 --> 00:29:42,960

we were um working with boots on the

765

00:29:48,389 --> 00:29:44,880

ground we had a

766

00:29:51,990 --> 00:29:48,399

we had a very very fruitful relationship

767

00:29:54,710 --> 00:29:52,000

with mufam that lasted quite a long time

768

00:29:56,789 --> 00:29:54,720

and we had weekly telecons with uh

769

00:29:59,669 --> 00:29:56,799

richard lang who was the program manager

770

00:30:02,470 --> 00:29:59,679

for mufon and we had a couple of program

771

00:30:05,909 --> 00:30:02,480

managers at ossap and we went back and

772

00:30:08,789 --> 00:30:05,919

forth and so mufon were were

773

00:30:11,990 --> 00:30:08,799

basically a fire hose of cases

774

00:30:14,070 --> 00:30:12,000

that that we eventually ended up putting

775

00:30:17,510 --> 00:30:14,080

people on the on the ground in different

776

00:30:20,230 --> 00:30:17,520

areas of the country but that process

777

00:30:24,070 --> 00:30:20,240

that analytical process that occurred

778

00:30:26,549 --> 00:30:24,080

with the 10-person team at asap was a

779

00:30:29,990 --> 00:30:26,559

very intensive process but

780

00:30:32,389 --> 00:30:30,000

um the intent was not to contaminate the

781

00:30:33,669 --> 00:30:32,399

databases and ultimately the data

782

00:30:37,909 --> 00:30:33,679

warehouse

783

00:30:40,310 --> 00:30:37,919

with um cases that were flimsy or cases

784

00:30:43,590 --> 00:30:40,320

that had no credibility because like i

785

00:30:45,909 --> 00:30:43,600

said garbage in garbage out and that is

786

00:30:49,269 --> 00:30:45,919

probably the best rule of thumb

787

00:30:52,549 --> 00:30:49,279

that you can ever apply to a database

788

00:30:56,950 --> 00:30:54,710

the database what are the chances that

789

00:30:58,870 --> 00:30:56,960

we'll ever see that database because to

790

00:31:00,470 --> 00:30:58,880

me if you take the names out is there

791

00:31:02,149 --> 00:31:00,480

anything in there really that's that

792

00:31:03,590 --> 00:31:02,159

should be classified in either of your

793

00:31:05,190 --> 00:31:03,600

you know georgia or opinion or columns

794

00:31:08,710 --> 00:31:05,200

your opinion do you think it should be

795

00:31:12,470 --> 00:31:10,230

i'm not aware of anything that's in

796

00:31:14,070 --> 00:31:12,480

there that's top secret or classified or

797

00:31:15,990 --> 00:31:14,080

should be there was one of the durds

798

00:31:17,830 --> 00:31:16,000

that was uh classified for probably

799

00:31:19,830 --> 00:31:17,840

pretty good reasons but there is

800

00:31:22,470 --> 00:31:19,840

sensitive information in the in the

801
00:31:25,430 --> 00:31:22,480
database what i know about it uh

802
00:31:27,590 --> 00:31:25,440
particularly the names health health uh

803
00:31:29,909 --> 00:31:27,600
information that's very personal

804
00:31:31,990 --> 00:31:29,919
a lot of these people gave their stories

805
00:31:33,750 --> 00:31:32,000
uh and shared their accounts on the

806
00:31:36,389 --> 00:31:33,760
specific condition that it not be

807
00:31:38,789 --> 00:31:36,399
revealed that it not be made public now

808
00:31:40,149 --> 00:31:38,799
do you violate that promise um you

809
00:31:42,310 --> 00:31:40,159
expect to ever work with those folks

810
00:31:44,070 --> 00:31:42,320
again or to earn the trust of other

811
00:31:46,149 --> 00:31:44,080
witnesses in the future if there's ever

812
00:31:48,230 --> 00:31:46,159
a future program where you make the same

813
00:31:49,830 --> 00:31:48,240

kind of promises don't worry it'll stay

814

00:31:51,990 --> 00:31:49,840

private your name will never be

815

00:31:53,590 --> 00:31:52,000

mentioned your story will never be told

816

00:31:55,269 --> 00:31:53,600

can you do that in the future if you go

817

00:31:56,870 --> 00:31:55,279

ahead and just release all this uh you

818

00:31:59,590 --> 00:31:56,880

know colin has seen a lot more of it

819

00:32:01,190 --> 00:31:59,600

than i have obviously so maybe he can

820

00:32:02,470 --> 00:32:01,200

address whether there's sensitive stuff

821

00:32:04,230 --> 00:32:02,480

in there that never should be made

822

00:32:05,350 --> 00:32:04,240

public and from a national security

823

00:32:07,909 --> 00:32:05,360

standpoint i don't think there's

824

00:32:10,070 --> 00:32:07,919

anything in there that would be

825

00:32:12,310 --> 00:32:10,080

there's there's a lot of testimony that

826

00:32:14,950 --> 00:32:12,320

people gave on the understanding that

827

00:32:18,389 --> 00:32:14,960

they would be uh kept quiet there's

828

00:32:20,389 --> 00:32:18,399

person personal uh identification

829

00:32:21,430 --> 00:32:20,399

um in there there's

830

00:32:24,389 --> 00:32:21,440

um

831

00:32:26,149 --> 00:32:24,399

health health information in there

832

00:32:29,269 --> 00:32:26,159

releasing all of that stuff would be a

833

00:32:31,909 --> 00:32:29,279

violation of the hipaa rules

834

00:32:36,389 --> 00:32:31,919

um that you know that that govern

835

00:32:38,470 --> 00:32:36,399

um the the acquisition and discussion of

836

00:32:40,310 --> 00:32:38,480

of medical information there's a lot of

837

00:32:44,070 --> 00:32:40,320

sensitive medical information in there

838

00:32:45,509 --> 00:32:44,080

so um there would have to be a very

839

00:32:47,830 --> 00:32:45,519

intensive

840

00:32:50,389 --> 00:32:47,840

uh reduction process

841

00:32:53,029 --> 00:32:50,399

um that would have to go case by case

842

00:32:55,669 --> 00:32:53,039

line by line and remember this this

843

00:32:58,950 --> 00:32:55,679

database is not just a sort of a one or

844

00:33:01,909 --> 00:32:58,960

two columns it is vast because it has

845

00:33:03,990 --> 00:33:01,919

multiple multiple levels uh right across

846

00:33:06,630 --> 00:33:04,000

that it is has

847

00:33:09,350 --> 00:33:06,640

you know hot links to video it has hot

848

00:33:12,149 --> 00:33:09,360

links to photos it has hot links to

849

00:33:14,789 --> 00:33:12,159

materials analysis dna analysis

850

00:33:17,430 --> 00:33:14,799

elemental analysis all of that is linked

851
00:33:19,190 --> 00:33:17,440
in there and you know that the question

852
00:33:21,190 --> 00:33:19,200
really is

853
00:33:22,630 --> 00:33:21,200
is somebody sufficient

854
00:33:24,470 --> 00:33:22,640
sufficiently

855
00:33:27,110 --> 00:33:24,480
attention to detail

856
00:33:27,990 --> 00:33:27,120
that you they could be trusted in order

857
00:33:30,549 --> 00:33:28,000
to

858
00:33:32,549 --> 00:33:30,559
um basically

859
00:33:34,549 --> 00:33:32,559
clean up that database

860
00:33:36,950 --> 00:33:34,559
uh before it would be released to the

861
00:33:38,389 --> 00:33:36,960
public i i don't know the answer to that

862
00:33:40,950 --> 00:33:38,399
question because i know

863
00:33:43,830 --> 00:33:40,960

the enormous thousands of hours that

864

00:33:46,230 --> 00:33:43,840

went into building the database and we

865

00:33:49,509 --> 00:33:46,240

are actually getting straws in the wind

866

00:33:51,350 --> 00:33:49,519

that the this database is being utilized

867

00:33:54,149 --> 00:33:51,360

by various people in the united states

868

00:33:57,110 --> 00:33:54,159

government um and and that's a source of

869

00:33:59,750 --> 00:33:57,120

uh actually uh very positive news in my

870

00:34:02,470 --> 00:33:59,760

opinion because to have it lying

871

00:34:04,230 --> 00:34:02,480

gathering dust um in some kind of

872

00:34:07,269 --> 00:34:04,240

archive at the defense intelligence

873

00:34:08,710 --> 00:34:07,279

agency as opposed to being actually

874

00:34:12,710 --> 00:34:08,720

utilized

875

00:34:15,909 --> 00:34:12,720

because as as a as a baseline a template

876

00:34:18,230 --> 00:34:15,919

for working with in this area

877

00:34:21,109 --> 00:34:18,240

that database is a very very valuable

878

00:34:24,710 --> 00:34:21,119

asset and it was specifically engineered

879

00:34:27,750 --> 00:34:24,720

and constructed in order for it to be

880

00:34:30,470 --> 00:34:27,760

very very easy to superimpose an

881

00:34:34,230 --> 00:34:30,480

analytical layer on top of all of the

882

00:34:37,190 --> 00:34:34,240

data so that it could be very easily

883

00:34:39,510 --> 00:34:37,200

upgraded to be interrogated and again

884

00:34:42,710 --> 00:34:39,520

we're getting straws on the wind from

885

00:34:45,030 --> 00:34:42,720

friends that are working in in this area

886

00:34:46,149 --> 00:34:45,040

that you know that that is the case that

887

00:34:51,510 --> 00:34:46,159

this

888

00:34:54,069 --> 00:34:51,520

upgraded so um we think that's really

889

00:34:56,790 --> 00:34:54,079

positive news because in the end you

890

00:35:00,550 --> 00:34:56,800

know um the enormous amount of work that

891

00:35:04,470 --> 00:35:00,560

went in between 2008 and 2010 is

892

00:35:09,190 --> 00:35:06,470

on i think it was when

893

00:35:11,030 --> 00:35:09,200

uh dr lukaszki was on i think it was on

894

00:35:13,829 --> 00:35:11,040

coast to coast he said that

895

00:35:16,310 --> 00:35:13,839

at bass there's an an entire room of

896

00:35:17,910 --> 00:35:16,320

analysts raw data pictures recordings

897

00:35:20,230 --> 00:35:17,920

and he wants it put in the national

898

00:35:21,270 --> 00:35:20,240

archives is any of that stuff i don't

899

00:35:22,870 --> 00:35:21,280

how does it work with with the

900

00:35:26,790 --> 00:35:22,880

proprietary

901
00:35:30,390 --> 00:35:26,800
if robert billow wanted to make all that

902
00:35:32,230 --> 00:35:30,400
public tomorrow could he do that

903
00:35:34,230 --> 00:35:32,240
um well there are two sides to that

904
00:35:38,310 --> 00:35:34,240
equation um

905
00:35:41,589 --> 00:35:38,320
the um the defense intelligence agency

906
00:35:42,630 --> 00:35:41,599
uh contracted a private contractor

907
00:35:43,510 --> 00:35:42,640
to

908
00:35:46,390 --> 00:35:43,520
um

909
00:35:47,910 --> 00:35:46,400
to go out and to gather enormous amounts

910
00:35:51,430 --> 00:35:47,920
of information

911
00:35:53,109 --> 00:35:51,440
and uh year number one it was um i

912
00:35:56,230 --> 00:35:53,119
believe it was 10 million year number

913
00:35:58,829 --> 00:35:56,240

two was 12 million so that information

914

00:36:02,710 --> 00:35:58,839

was delivered as a set of

915

00:36:04,710 --> 00:36:02,720

104 i think 105 separate reports that

916

00:36:06,550 --> 00:36:04,720

ended up at the defense intelligence

917

00:36:09,190 --> 00:36:06,560

agency um

918

00:36:11,910 --> 00:36:09,200

all of that was bought and paid for

919

00:36:14,790 --> 00:36:11,920

under under contract now whether or not

920

00:36:17,109 --> 00:36:14,800

it could be um could ever be released

921

00:36:19,430 --> 00:36:17,119

from a contractor point of view i don't

922

00:36:21,510 --> 00:36:19,440

know the answer to that in terms of of

923

00:36:24,470 --> 00:36:21,520

giving you a sort of a short

924

00:36:26,790 --> 00:36:24,480

um sort of you know sound bite that

925

00:36:29,990 --> 00:36:26,800

would have to be enormous amounts of

926
00:36:31,349 --> 00:36:30,000
scoping out on both sides of uh of this

927
00:36:33,349 --> 00:36:31,359
in order for something like that to

928
00:36:35,910 --> 00:36:33,359
happen i honestly

929
00:36:37,910 --> 00:36:35,920
um think that the main

930
00:36:40,310 --> 00:36:37,920
the three main impediments to releasing

931
00:36:42,310 --> 00:36:40,320
this information are as you said the

932
00:36:45,670 --> 00:36:42,320
contractor

933
00:36:46,550 --> 00:36:45,680
privacy issue

934
00:36:54,630 --> 00:36:46,560
the

935
00:36:57,829 --> 00:36:54,640
release of this would violate hipaa

936
00:37:00,950 --> 00:36:57,839
guidelines and and the third part is the

937
00:37:02,790 --> 00:37:00,960
personally protected information um that

938
00:37:04,150 --> 00:37:02,800

you know especially for people who are

939

00:37:08,630 --> 00:37:04,160

active duty

940

00:37:11,510 --> 00:37:08,640

with the united states government part

941

00:37:15,030 --> 00:37:11,520

of the review process that our book went

942

00:37:17,109 --> 00:37:15,040

through at via doctor uh one of the

943

00:37:20,950 --> 00:37:17,119

questions on one of the

944

00:37:23,990 --> 00:37:20,960

strongly worded guidance that we got

945

00:37:26,310 --> 00:37:24,000

was that that all of the medic sensitive

946

00:37:29,109 --> 00:37:26,320

sensitive medical information had to be

947

00:37:31,510 --> 00:37:29,119

protected all of the person private

948

00:37:34,829 --> 00:37:31,520

personal information uh had to be

949

00:37:38,390 --> 00:37:34,839

protected so um we're under the

950

00:37:40,550 --> 00:37:38,400

obligation um in in publishing this book

951
00:37:43,430 --> 00:37:40,560
to protect that information

952
00:37:45,670 --> 00:37:43,440
as per the pentagon guidelines and joe

953
00:37:47,750 --> 00:37:45,680
that that process for our book the book

954
00:37:50,069 --> 00:37:47,760
is pretty straightforward

955
00:37:52,790 --> 00:37:50,079
it took 14 months to get the approval

956
00:37:55,750 --> 00:37:52,800
for that much stuff compared to this

957
00:37:57,990 --> 00:37:55,760
much stuff that is in the database

958
00:38:00,230 --> 00:37:58,000
it'd take a take an awful long time to

959
00:38:02,550 --> 00:38:00,240
get that approved i'm not opposed to it

960
00:38:05,030 --> 00:38:02,560
i think it probably should be public but

961
00:38:07,270 --> 00:38:05,040
the how how and when that can happen

962
00:38:09,190 --> 00:38:07,280
i don't think anybody knows

963
00:38:12,470 --> 00:38:09,200

so out of the blue

964

00:38:15,589 --> 00:38:12,480

recently senator kirsten gillibrand her

965

00:38:16,950 --> 00:38:15,599

proposal the amendment

966

00:38:19,349 --> 00:38:16,960

related to the national defense

967

00:38:21,910 --> 00:38:19,359

authorization act is talking about

968

00:38:24,150 --> 00:38:21,920

creating a uap slash ufo office called

969

00:38:26,630 --> 00:38:24,160

the anomaly surveillance and resolution

970

00:38:28,150 --> 00:38:26,640

office which would develop procedures

971

00:38:30,069 --> 00:38:28,160

to synchronize and standardize

972

00:38:32,790 --> 00:38:30,079

standardize the collection reporting and

973

00:38:35,750 --> 00:38:32,800

analysis of incidents including

974

00:38:38,470 --> 00:38:35,760

adverse physiological effects

975

00:38:40,150 --> 00:38:38,480

regarding uap across the department and

976

00:38:41,990 --> 00:38:40,160

intelligence community

977

00:38:44,150 --> 00:38:42,000

it also talks about stuff related to

978

00:38:46,470 --> 00:38:44,160

crash retrievals not using those exact

979

00:38:49,109 --> 00:38:46,480

words but both of your thoughts on that

980

00:38:50,390 --> 00:38:49,119

because i was not expecting that

981

00:38:54,150 --> 00:38:50,400

well i i

982

00:38:54,950 --> 00:38:54,160

my own opinion of that is that um

983

00:38:55,829 --> 00:38:54,960

that

984

00:38:58,630 --> 00:38:55,839

this

985

00:39:01,109 --> 00:38:58,640

gillibrand amendment goes much much

986

00:39:03,430 --> 00:39:01,119

further than i've ever seen it certainly

987

00:39:06,310 --> 00:39:03,440

goes way further than anything that has

988

00:39:08,710 --> 00:39:06,320

been been released publicly in terms of

989

00:39:11,270 --> 00:39:08,720

intent from either the department of

990

00:39:15,430 --> 00:39:11,280

defense or anybody else

991

00:39:16,790 --> 00:39:15,440

the uap task force report of june 25th

992

00:39:19,109 --> 00:39:16,800

of this year

993

00:39:21,270 --> 00:39:19,119

um obviously just sort of scrapes the

994

00:39:23,750 --> 00:39:21,280

surface but you know i was looking at

995

00:39:26,470 --> 00:39:23,760

the uh the actual

996

00:39:27,510 --> 00:39:26,480

wording uh in the gila brand um

997

00:39:30,470 --> 00:39:27,520

amendment

998

00:39:32,950 --> 00:39:30,480

uh and and it talks about specifically

999

00:39:36,069 --> 00:39:32,960

that you know

1000

00:39:39,510 --> 00:39:36,079

designate existing line organizations to

1001
00:39:42,069 --> 00:39:39,520
conduct field investigations of uap

1002
00:39:42,950 --> 00:39:42,079
and then there's a whole section that

1003
00:39:47,270 --> 00:39:42,960
reads

1004
00:39:51,510 --> 00:39:47,280
analysis of propulsion aerodynamic

1005
00:39:54,390 --> 00:39:51,520
control signatures structures materials

1006
00:39:56,710 --> 00:39:54,400
sensors countermeasures weapons

1007
00:39:59,910 --> 00:39:56,720
electronics and power generation i mean

1008
00:40:03,710 --> 00:39:59,920
it's almost like the rfp

1009
00:40:06,630 --> 00:40:03,720
that generated whatsapp is being exactly

1010
00:40:09,030 --> 00:40:06,640
recapitulated you know in this they also

1011
00:40:11,990 --> 00:40:09,040
as you mentioned go into you know we

1012
00:40:15,109 --> 00:40:12,000
really need to analyze uh adverse

1013
00:40:17,510 --> 00:40:15,119

physiological effects medical effects

1014

00:40:20,950 --> 00:40:17,520

health effects i mean this is almost

1015

00:40:23,670 --> 00:40:20,960

like a staffer from um

1016

00:40:27,030 --> 00:40:23,680

kirsten gillibrand's office went ahead

1017

00:40:28,870 --> 00:40:27,040

and read appendix 2 in the uh in the

1018

00:40:32,069 --> 00:40:28,880

book you know skin walkers at the

1019

00:40:35,190 --> 00:40:32,079

pentagon because appendix 2 lays out

1020

00:40:38,589 --> 00:40:35,200

verbatim what uh what that amendment

1021

00:40:41,670 --> 00:40:38,599

talks about i think it's by far the most

1022

00:40:43,349 --> 00:40:41,680

sophisticated look that i've seen

1023

00:40:44,390 --> 00:40:43,359

um from within the united states

1024

00:40:46,069 --> 00:40:44,400

government

1025

00:40:48,630 --> 00:40:46,079

you know with the exception of

1026
00:40:51,349 --> 00:40:48,640
skinwalkers of the pentagon but i think

1027
00:40:52,390 --> 00:40:51,359
it's by far the most sophisticated look

1028
00:40:53,990 --> 00:40:52,400
at this

1029
00:41:00,309 --> 00:40:54,000
whole

1030
00:41:02,870 --> 00:41:00,319
analysis of ufos it goes far beyond the

1031
00:41:03,910 --> 00:41:02,880
uapt task force

1032
00:41:06,710 --> 00:41:03,920
report

1033
00:41:09,990 --> 00:41:06,720
and i personally am extremely encouraged

1034
00:41:10,710 --> 00:41:10,000
by it i i have to speculate that you

1035
00:41:11,910 --> 00:41:10,720
know

1036
00:41:14,550 --> 00:41:11,920
somebody

1037
00:41:17,589 --> 00:41:14,560
in senator gillibrand's office may have

1038
00:41:18,230 --> 00:41:17,599

read appendix 2 in

1039

00:41:25,109 --> 00:41:18,240

in

1040

00:41:26,630 --> 00:41:25,119

but it's exactly what's needed if you're

1041

00:41:28,950 --> 00:41:26,640

going to solve this mystery you can't

1042

00:41:31,430 --> 00:41:28,960

just look at nuts and bolts craft in the

1043

00:41:33,589 --> 00:41:31,440

sky and you know column is being modest

1044

00:41:34,550 --> 00:41:33,599

but he and dr lykotsky wrote a pretty

1045

00:41:36,790 --> 00:41:34,560

ambitious

1046

00:41:39,510 --> 00:41:36,800

uh description of what a good program

1047

00:41:41,430 --> 00:41:39,520

would be and laid it out in the book and

1048

00:41:43,510 --> 00:41:41,440

this legislation somehow picked up on it

1049

00:41:45,589 --> 00:41:43,520

i would point out that that what uh

1050

00:41:47,910 --> 00:41:45,599

gillibrand senator gillibrand proposed

1051
00:41:49,829 --> 00:41:47,920
this past week or so is far different

1052
00:41:51,750 --> 00:41:49,839
from the proposed legislation and

1053
00:41:53,349 --> 00:41:51,760
language that we've seen leading up to

1054
00:41:54,309 --> 00:41:53,359
this point where they want to create

1055
00:41:56,870 --> 00:41:54,319
something

1056
00:41:59,270 --> 00:41:56,880
as a successor to the uap task force

1057
00:42:01,109 --> 00:41:59,280
whether it's going to go in nasa or in

1058
00:42:03,109 --> 00:42:01,119
the space command or wherever it's going

1059
00:42:05,109 --> 00:42:03,119
to go now those programs we're looking

1060
00:42:07,510 --> 00:42:05,119
at stuff that's flying around in the sky

1061
00:42:09,030 --> 00:42:07,520
national security implications is it a

1062
00:42:10,870 --> 00:42:09,040
threat that kind of stuff but none of

1063
00:42:12,790 --> 00:42:10,880

the weirdness none of the human effects

1064

00:42:14,870 --> 00:42:12,800

none of that stuff is mentioned now

1065

00:42:16,630 --> 00:42:14,880

they're talking about it that's great um

1066

00:42:19,030 --> 00:42:16,640

i'll believe it when i see it if it gets

1067

00:42:21,670 --> 00:42:19,040

past because there's a lot of aversion

1068

00:42:23,349 --> 00:42:21,680

to anything construed as woo there in

1069

00:42:24,230 --> 00:42:23,359

washington but it's exactly what's

1070

00:42:25,990 --> 00:42:24,240

needed

1071

00:42:28,230 --> 00:42:26,000

yeah and i know people

1072

00:42:30,550 --> 00:42:28,240

go ahead sorry once you get into

1073

00:42:33,109 --> 00:42:30,560

studying physiological effects

1074

00:42:35,589 --> 00:42:33,119

and once you start looking at adverse

1075

00:42:38,230 --> 00:42:35,599

medical and health effects

1076

00:42:41,030 --> 00:42:38,240

that means that by definition you're

1077

00:42:42,710 --> 00:42:41,040

following these people over time you're

1078

00:42:46,550 --> 00:42:42,720

following these people for more than a

1079

00:42:49,750 --> 00:42:46,560

weekend or a week and so therefore it

1080

00:42:52,470 --> 00:42:49,760

opens the door for uh for these people

1081

00:42:56,230 --> 00:42:52,480

uh who have had close encounters with

1082

00:42:59,349 --> 00:42:56,240

uaps ufos to start reporting unusual

1083

00:43:01,829 --> 00:42:59,359

effects i mean it's kind of like um

1084

00:43:05,030 --> 00:43:01,839

a chicken and egg thing um if you're

1085

00:43:06,069 --> 00:43:05,040

only looking at sensor driven

1086

00:43:08,069 --> 00:43:06,079

effects

1087

00:43:10,150 --> 00:43:08,079

um you know it's kind of like if you're

1088

00:43:13,430 --> 00:43:10,160

only using a hammer everything you see

1089

00:43:15,990 --> 00:43:13,440

is a nail so if you're only using sensor

1090

00:43:18,230 --> 00:43:16,000

sensor-based effects and sensor-based

1091

00:43:19,109 --> 00:43:18,240

analysis um of course you're not going

1092

00:43:23,589 --> 00:43:19,119

to have

1093

00:43:26,150 --> 00:43:23,599

any sort of information whatsoever on

1094

00:43:29,190 --> 00:43:26,160

physiological effects or psychological

1095

00:43:30,470 --> 00:43:29,200

effects or adverse health effects

1096

00:43:33,589 --> 00:43:30,480

you're just not going to have anything

1097

00:43:35,750 --> 00:43:33,599

like that so um you know it's a case of

1098

00:43:38,710 --> 00:43:35,760

what you what you how you ask the

1099

00:43:40,870 --> 00:43:38,720

questions and how you ask the questions

1100

00:43:43,750 --> 00:43:40,880

really really determines the answers you

1101

00:43:47,990 --> 00:43:43,760

get now you know just as a sort of a

1102

00:43:49,349 --> 00:43:48,000

a a sort of an off off uh off route

1103

00:43:52,309 --> 00:43:49,359

um

1104

00:43:55,589 --> 00:43:52,319

way back in the needs days we had a we

1105

00:43:58,550 --> 00:43:55,599

had visit from um the engineers behind

1106

00:44:00,790 --> 00:43:58,560

uh project hestalin in norway you know

1107

00:44:03,430 --> 00:44:00,800

as you know project hustling was one of

1108

00:44:04,470 --> 00:44:03,440

the one of the longest running sensor

1109

00:44:05,750 --> 00:44:04,480

driven

1110

00:44:07,750 --> 00:44:05,760

programs

1111

00:44:09,190 --> 00:44:07,760

it's still i believe going and it has

1112

00:44:11,030 --> 00:44:09,200

given rise to

1113

00:44:14,390 --> 00:44:11,040

international collaborations between

1114

00:44:16,710 --> 00:44:14,400

norwegians and italians and it has led

1115

00:44:18,710 --> 00:44:16,720

to the publication of a lot of papers

1116

00:44:20,790 --> 00:44:18,720

but the fact is you know they installed

1117

00:44:23,030 --> 00:44:20,800

autonomous surveillance

1118

00:44:25,109 --> 00:44:23,040

um in the hesterlin valley and you know

1119

00:44:27,190 --> 00:44:25,119

one of these fjords in norway and they

1120

00:44:29,670 --> 00:44:27,200

picked up a lot of data over the years

1121

00:44:31,430 --> 00:44:29,680

they got a lot of data so we

1122

00:44:34,069 --> 00:44:31,440

the national institute for discovery

1123

00:44:36,550 --> 00:44:34,079

science hosted a visit from some of the

1124

00:44:38,230 --> 00:44:36,560

engineers involved in that program way

1125

00:44:39,910 --> 00:44:38,240

back when

1126
00:44:42,230 --> 00:44:39,920
and it was really interesting at the end

1127
00:44:45,190 --> 00:44:42,240
of all of the technical briefings about

1128
00:44:47,510 --> 00:44:45,200
the sensor data we were kind of uh

1129
00:44:49,750 --> 00:44:47,520
casually discussing you know some of

1130
00:44:52,150 --> 00:44:49,760
what was happening on the ranch and a

1131
00:44:54,710 --> 00:44:52,160
couple of the engineers basically said

1132
00:44:57,270 --> 00:44:54,720
look you know all of the people on the

1133
00:44:59,030 --> 00:44:57,280
ground that we've talked to in that area

1134
00:45:01,349 --> 00:44:59,040
they're all reporting weird effects

1135
00:45:03,510 --> 00:45:01,359
they're they're reporting paranormal

1136
00:45:05,829 --> 00:45:03,520
stuff in their homes they're reporting

1137
00:45:07,750 --> 00:45:05,839
abduction effects but they said you know

1138
00:45:09,510 --> 00:45:07,760

as engineers there's no way we're going

1139

00:45:12,309 --> 00:45:09,520

to touch any of that stuff we're

1140

00:45:14,390 --> 00:45:12,319

engineers we're not psychiatrists so i

1141

00:45:16,470 --> 00:45:14,400

mean you know it was kind of amusing

1142

00:45:18,630 --> 00:45:16,480

from our perspective you know we were

1143

00:45:20,790 --> 00:45:18,640

kind of knee-deep in sort of some of the

1144

00:45:23,190 --> 00:45:20,800

weird effects on skin walker ranch and

1145

00:45:24,309 --> 00:45:23,200

here were these sort of really sort of

1146

00:45:27,030 --> 00:45:24,319

um

1147

00:45:28,230 --> 00:45:27,040

talented engineers talking about the

1148

00:45:29,670 --> 00:45:28,240

stuff

1149

00:45:31,589 --> 00:45:29,680

that was happening to people on the

1150

00:45:33,109 --> 00:45:31,599

ground in the hesterlin valley but there

1151

00:45:35,910 --> 00:45:33,119

was no way they were going to touch this

1152

00:45:38,150 --> 00:45:35,920

stuff because they're engineers you know

1153

00:45:39,829 --> 00:45:38,160

it's kind of outside the scope of

1154

00:45:41,589 --> 00:45:39,839

the way they think

1155

00:45:43,430 --> 00:45:41,599

i i had never heard that about hessdalen

1156

00:45:45,190 --> 00:45:43,440

i actually went to norway i did not go

1157

00:45:47,109 --> 00:45:45,200

to i did not get to go to hessdalen

1158

00:45:48,630 --> 00:45:47,119

unfortunately uh but there are people

1159

00:45:50,230 --> 00:45:48,640

right now that are talking and saying

1160

00:45:52,230 --> 00:45:50,240

when your book came out they were upset

1161

00:45:53,829 --> 00:45:52,240

they go this is gonna ruin everything

1162

00:45:55,910 --> 00:45:53,839

they're talking too much woo and i'm

1163

00:45:57,670 --> 00:45:55,920

like we can't bring this to a senator

1164

00:46:00,069 --> 00:45:57,680

i'm like you don't necessarily need to

1165

00:46:01,990 --> 00:46:00,079

bring it to a senator although it's now

1166

00:46:05,030 --> 00:46:02,000

making its way into the language which

1167

00:46:07,670 --> 00:46:05,040

which is great um so yeah i mean when i

1168

00:46:09,750 --> 00:46:07,680

talk to people i can judge pretty

1169

00:46:12,470 --> 00:46:09,760

quickly not always right whether or not

1170

00:46:14,309 --> 00:46:12,480

i can go from ufos into the next you

1171

00:46:15,750 --> 00:46:14,319

know subject related to poltergeists and

1172

00:46:18,069 --> 00:46:15,760

usually if there's silence i know i

1173

00:46:19,430 --> 00:46:18,079

gotta back off a little bit um

1174

00:46:22,069 --> 00:46:19,440

one thing we talked about before we went

1175

00:46:23,829 --> 00:46:22,079

on how did you guys determine if

1176
00:46:25,109 --> 00:46:23,839
something was a threat whether whether

1177
00:46:27,270 --> 00:46:25,119
it was intentional because the

1178
00:46:29,270 --> 00:46:27,280
biotechnologist in bend oregon the

1179
00:46:32,470 --> 00:46:29,280
daughter's looking at these three orbs

1180
00:46:34,069 --> 00:46:32,480
or uap they come into the car the uap

1181
00:46:36,069 --> 00:46:34,079
goes into a shoulder he winds up getting

1182
00:46:37,670 --> 00:46:36,079
cancer and i'm thinking

1183
00:46:39,270 --> 00:46:37,680
if this is something advanced say it's

1184
00:46:41,190 --> 00:46:39,280
another intelligence wouldn't they know

1185
00:46:43,109 --> 00:46:41,200
by now that going into a human would

1186
00:46:45,190 --> 00:46:43,119
cause something bad for us did you guys

1187
00:46:47,430 --> 00:46:45,200
have those kind of discussions

1188
00:46:49,510 --> 00:46:47,440

yeah we did i mean we went we went back

1189

00:46:52,069 --> 00:46:49,520

and forth um

1190

00:46:55,349 --> 00:46:52,079

around we again round table we discussed

1191

00:46:57,349 --> 00:46:55,359

that case at length and you know it

1192

00:46:59,829 --> 00:46:57,359

when push comes to shove

1193

00:47:01,990 --> 00:46:59,839

um what got entered into the database

1194

00:47:05,430 --> 00:47:02,000

obviously was just the details of the

1195

00:47:08,230 --> 00:47:05,440

case but um there was there were two

1196

00:47:11,670 --> 00:47:08,240

sides to this one was that this was

1197

00:47:14,150 --> 00:47:11,680

some kind of a deliberate attack on

1198

00:47:16,470 --> 00:47:14,160

these innocent people that were driving

1199

00:47:18,470 --> 00:47:16,480

on the way to bend oregon and the second

1200

00:47:19,990 --> 00:47:18,480

alternative was just you know these

1201
00:47:22,630 --> 00:47:20,000
people happen to be in the wrong place

1202
00:47:25,270 --> 00:47:22,640
at the wrong time for whatever whatever

1203
00:47:26,549 --> 00:47:25,280
happened here that you know maybe

1204
00:47:30,069 --> 00:47:26,559
maybe these

1205
00:47:31,750 --> 00:47:30,079
um objects were flying in the direction

1206
00:47:35,190 --> 00:47:31,760
uh they were they were passing through

1207
00:47:36,549 --> 00:47:35,200
the road and they passed uh by accident

1208
00:47:38,630 --> 00:47:36,559
through the car

1209
00:47:41,430 --> 00:47:38,640
they passed by accident through this

1210
00:47:44,470 --> 00:47:41,440
guy's body who ended up getting a rare

1211
00:47:47,910 --> 00:47:44,480
form of ductal cancer that thankfully

1212
00:47:51,190 --> 00:47:47,920
did not go metastatic but um in the end

1213
00:47:54,549 --> 00:47:51,200

you know the the um the discussion

1214

00:47:57,670 --> 00:47:54,559

ended up that was uh we never resolved

1215

00:48:00,230 --> 00:47:57,680

whether or not this was a deliberate

1216

00:48:01,589 --> 00:48:00,240

attack or if it was that these people

1217

00:48:05,750 --> 00:48:01,599

were in the wrong place at the wrong

1218

00:48:08,710 --> 00:48:05,760

time um and it's very difficult uh to

1219

00:48:11,030 --> 00:48:08,720

make that call but you know we we were

1220

00:48:13,109 --> 00:48:11,040

very careful in the book and we were

1221

00:48:16,549 --> 00:48:13,119

very careful when we were

1222

00:48:19,430 --> 00:48:16,559

uh writing up reports on threat analysis

1223

00:48:21,750 --> 00:48:19,440

for for the defense intelligence agency

1224

00:48:25,430 --> 00:48:21,760

we were very very careful

1225

00:48:28,069 --> 00:48:25,440

never to draw the line and say that this

1226

00:48:31,190 --> 00:48:28,079

phenomenon is a threat to national

1227

00:48:34,790 --> 00:48:31,200

security or this phenomenon is a threat

1228

00:48:37,510 --> 00:48:34,800

to humans the most we could say is that

1229

00:48:38,790 --> 00:48:37,520

this was a this phenomenon was a threat

1230

00:48:40,150 --> 00:48:38,800

to human

1231

00:48:42,069 --> 00:48:40,160

uh health

1232

00:48:44,630 --> 00:48:42,079

uh it was a phenomenon

1233

00:48:47,109 --> 00:48:44,640

or it was a threat to human well-being

1234

00:48:49,349 --> 00:48:47,119

but you know going beyond that um you

1235

00:48:50,950 --> 00:48:49,359

know as as i've said before in in

1236

00:48:52,309 --> 00:48:50,960

previous interviews

1237

00:48:55,589 --> 00:48:52,319

you know

1238

00:48:58,950 --> 00:48:55,599

going going and describing a threat to

1239

00:49:01,750 --> 00:48:58,960

national security means that you have to

1240

00:49:03,990 --> 00:49:01,760

have both components of threat analysis

1241

00:49:06,390 --> 00:49:04,000

you have to have capability and you have

1242

00:49:07,589 --> 00:49:06,400

to have intent and there is really no

1243

00:49:10,230 --> 00:49:07,599

way

1244

00:49:12,470 --> 00:49:10,240

when push comes to shove of finally

1245

00:49:15,670 --> 00:49:12,480

analyzing what the intent

1246

00:49:18,309 --> 00:49:15,680

of this phenomenon is um there's just

1247

00:49:20,870 --> 00:49:18,319

not enough data we have a lot of data on

1248

00:49:25,109 --> 00:49:20,880

capability i mean the tic tac case

1249

00:49:27,990 --> 00:49:25,119

was uh extensively analyzed um

1250

00:49:31,030 --> 00:49:28,000

and you know a lot of capability a lot

1251
00:49:33,670 --> 00:49:31,040
of data on acceleration a lot of data on

1252
00:49:35,510 --> 00:49:33,680
performance but what is the intent i

1253
00:49:38,630 --> 00:49:35,520
mean the bottom line is we don't have

1254
00:49:42,069 --> 00:49:38,640
data on intent and until you have data

1255
00:49:44,790 --> 00:49:42,079
on intent um there's no way you can draw

1256
00:49:47,750 --> 00:49:44,800
the line on and make a uh

1257
00:49:49,990 --> 00:49:47,760
a definitive statement on threat to

1258
00:49:52,230 --> 00:49:50,000
national security but the only way to

1259
00:49:54,230 --> 00:49:52,240
get uh to figure out the intent is to

1260
00:49:55,829 --> 00:49:54,240
look at it to study it you know we have

1261
00:49:57,750 --> 00:49:55,839
friends and colleagues

1262
00:49:59,829 --> 00:49:57,760
who are working with congress trying to

1263
00:50:01,829 --> 00:49:59,839

get some kind of a program enacted so

1264

00:50:04,069 --> 00:50:01,839

that there's you know a way to move the

1265

00:50:05,910 --> 00:50:04,079

topic forward and they are definitely

1266

00:50:07,910 --> 00:50:05,920

concerned about the woo factor oh my

1267

00:50:09,990 --> 00:50:07,920

gosh you guys putting this book out it's

1268

00:50:12,309 --> 00:50:10,000

terrible for us to mix in poltergeists

1269

00:50:14,630 --> 00:50:12,319

and bigfoot and all this weird stuff uh

1270

00:50:16,150 --> 00:50:14,640

hitchhikers all that oh it's terrible

1271

00:50:18,390 --> 00:50:16,160

it's going to make it so much harder for

1272

00:50:20,150 --> 00:50:18,400

us to sell this to congress well you

1273

00:50:22,470 --> 00:50:20,160

know what are we supposed to do be quiet

1274

00:50:24,630 --> 00:50:22,480

about it keep it secret the fact is this

1275

00:50:26,870 --> 00:50:24,640

happened it was investigated by this

1276

00:50:28,150 --> 00:50:26,880

program with tax dollars

1277

00:50:31,030 --> 00:50:28,160

and they came up with some pretty

1278

00:50:33,750 --> 00:50:31,040

amazing case cases in case information

1279

00:50:35,750 --> 00:50:33,760

any incident reports a gigantic database

1280

00:50:37,670 --> 00:50:35,760

you can't just look at

1281

00:50:40,069 --> 00:50:37,680

objects in the sky and figure out what

1282

00:50:41,990 --> 00:50:40,079

their intent are unless you see how they

1283

00:50:44,150 --> 00:50:42,000

interact with humans which is what these

1284

00:50:45,910 --> 00:50:44,160

guys did and you can't just pretend the

1285

00:50:48,710 --> 00:50:45,920

study didn't happen because it might

1286

00:50:50,790 --> 00:50:48,720

upset somebody or or make it harder for

1287

00:50:53,270 --> 00:50:50,800

them to sell something to congress this

1288

00:50:55,430 --> 00:50:53,280

stuff happened the program was real they

1289

00:50:57,589 --> 00:50:55,440

really did investigate this the facts

1290

00:50:58,950 --> 00:50:57,599

are in that database you can't pretend

1291

00:51:00,549 --> 00:50:58,960

it didn't exist and you also can't

1292

00:51:02,710 --> 00:51:00,559

pretend that you're going to pass a

1293

00:51:04,549 --> 00:51:02,720

program that only looks at sensor data

1294

00:51:06,309 --> 00:51:04,559

and things in the sky and be able to

1295

00:51:07,750 --> 00:51:06,319

figure out the big picture tens of

1296

00:51:10,069 --> 00:51:07,760

millions of people around the world are

1297

00:51:11,589 --> 00:51:10,079

interested in ufos maybe some of them

1298

00:51:14,630 --> 00:51:11,599

are just interested from a purely

1299

00:51:16,390 --> 00:51:14,640

scientific point of view are we alone is

1300

00:51:18,230 --> 00:51:16,400

there somebody else out there the real

1301
00:51:19,910 --> 00:51:18,240
question is is there somebody else out

1302
00:51:22,230 --> 00:51:19,920
there and what do they think about us

1303
00:51:24,390 --> 00:51:22,240
what's their intent regarding us how do

1304
00:51:26,390 --> 00:51:24,400
they interact with us why are they here

1305
00:51:28,390 --> 00:51:26,400
those are the big questions you can't

1306
00:51:29,750 --> 00:51:28,400
just do that and get an answer to it by

1307
00:51:31,190 --> 00:51:29,760
studying the craft that they're flying

1308
00:51:34,309 --> 00:51:31,200
around in you've got to look at the big

1309
00:51:36,069 --> 00:51:34,319
picture so i understand that politically

1310
00:51:37,670 --> 00:51:36,079
it might create problems for people who

1311
00:51:40,150 --> 00:51:37,680
are trying to convince congress to

1312
00:51:41,829 --> 00:51:40,160
approve a program but you have to look

1313
00:51:43,750 --> 00:51:41,839

at the the truth and you have to follow

1314

00:51:46,150 --> 00:51:43,760

where it is where it leads you know the

1315

00:51:47,910 --> 00:51:46,160

the dia or some of these intel guys that

1316

00:51:50,150 --> 00:51:47,920

killed assaf

1317

00:51:52,470 --> 00:51:50,160

had that kind of a narrow view the dia

1318

00:51:53,750 --> 00:51:52,480

initially approved the program they knew

1319

00:51:55,270 --> 00:51:53,760

it was going to do they knew it was

1320

00:51:56,870 --> 00:51:55,280

going to look at the big picture no

1321

00:51:58,790 --> 00:51:56,880

matter how weird it got and then

1322

00:52:00,390 --> 00:51:58,800

leadership changed and the new guys came

1323

00:52:01,990 --> 00:52:00,400

in and they knew about the flying saucer

1324

00:52:04,549 --> 00:52:02,000

part of it and then they saw this other

1325

00:52:06,390 --> 00:52:04,559

stuff and oh my god poltergeist this has

1326

00:52:08,309 --> 00:52:06,400

got to be satanic we got to put it into

1327

00:52:10,549 --> 00:52:08,319

this because it's invoking the devil

1328

00:52:12,549 --> 00:52:10,559

it's bringing uh demonic forces into our

1329

00:52:14,630 --> 00:52:12,559

world that's preposterous they're

1330

00:52:16,790 --> 00:52:14,640

already here assuming they are demonic

1331

00:52:18,549 --> 00:52:16,800

they're already here so by not studying

1332

00:52:20,150 --> 00:52:18,559

them you don't make them go away you

1333

00:52:21,990 --> 00:52:20,160

don't by pretending they're not there

1334

00:52:24,309 --> 00:52:22,000

you don't solve this problem you have to

1335

00:52:26,150 --> 00:52:24,319

look at the evidence where it leads

1336

00:52:28,549 --> 00:52:26,160

and if you know people will say well

1337

00:52:31,589 --> 00:52:28,559

skinwalker skinwalker ranch has all that

1338

00:52:33,109 --> 00:52:31,599

weird stuff ufos are separate but has as

1339

00:52:35,109 --> 00:52:33,119

column has pointed out in interviews

1340

00:52:37,670 --> 00:52:35,119

there are nuts and bolts crap sightings

1341

00:52:39,670 --> 00:52:37,680

metallic craft at skinwalker which me

1342

00:52:41,990 --> 00:52:39,680

which makes me think it's either all

1343

00:52:43,510 --> 00:52:42,000

connected or whatever is that the ranch

1344

00:52:46,309 --> 00:52:43,520

is trying to mimic what else is going on

1345

00:52:48,710 --> 00:52:46,319

in the world to distract us or to uh

1346

00:52:50,150 --> 00:52:48,720

trick us whatever um but

1347

00:52:52,230 --> 00:52:50,160

colin you spoke about your sighting can

1348

00:52:54,309 --> 00:52:52,240

you tell us specifically what kind of

1349

00:52:56,870 --> 00:52:54,319

sighting like how close the craft was to

1350

00:52:57,589 --> 00:52:56,880

you at skinwalker

1351

00:53:01,829 --> 00:52:57,599

well

1352

00:53:03,829 --> 00:53:01,839

i i had several uh several different uh

1353

00:53:05,829 --> 00:53:03,839

sightings um

1354

00:53:07,589 --> 00:53:05,839

but i think the one you're referring to

1355

00:53:10,150 --> 00:53:07,599

is when when

1356

00:53:11,910 --> 00:53:10,160

this was very shortly within two months

1357

00:53:16,630 --> 00:53:11,920

after robert bigelow had purchased

1358

00:53:19,589 --> 00:53:16,640

skinwalker ranch it was november of 1996

1359

00:53:21,990 --> 00:53:19,599

and i was standing uh outside the what

1360

00:53:25,190 --> 00:53:22,000

had just been sort of designated the

1361

00:53:26,630 --> 00:53:25,200

command and control trailer uh which was

1362

00:53:29,910 --> 00:53:26,640

close to

1363

00:53:32,150 --> 00:53:29,920

homestead one on skinwalker ranch

1364

00:53:35,270 --> 00:53:32,160

and um

1365

00:53:38,069 --> 00:53:35,280

right out of nowhere um that came right

1366

00:53:40,870 --> 00:53:38,079

over uh skinwalker ridge which was a

1367

00:53:43,829 --> 00:53:40,880

ridge the sort of the defining ridge on

1368

00:53:46,630 --> 00:53:43,839

the north end of the of the property uh

1369

00:53:47,829 --> 00:53:46,640

this object came came over that was

1370

00:53:51,990 --> 00:53:47,839

traveling

1371

00:53:55,670 --> 00:53:52,000

um probably as fast as uh you know

1372

00:53:58,069 --> 00:53:55,680

i see i see a lot of f-18s and f-16s

1373

00:54:00,390 --> 00:53:58,079

traveling around around the nellis air

1374

00:54:02,870 --> 00:54:00,400

force base here in las vegas it was

1375

00:54:05,109 --> 00:54:02,880

traveling as fast as a fighter jet it

1376
00:54:07,349 --> 00:54:05,119
was completely silent

1377
00:54:08,549 --> 00:54:07,359
it was nighttime so it was impossible to

1378
00:54:11,270 --> 00:54:08,559
tell

1379
00:54:13,910 --> 00:54:11,280
how low it was but it what it seemed

1380
00:54:16,309 --> 00:54:13,920
from my perspective it seemed low i

1381
00:54:18,950 --> 00:54:16,319
could see a structure behind the light

1382
00:54:20,470 --> 00:54:18,960
it came right over me uh and i was

1383
00:54:22,870 --> 00:54:20,480
standing you know right beside this

1384
00:54:25,750 --> 00:54:22,880
other person who also saw it it came

1385
00:54:27,349 --> 00:54:25,760
over and per and made a perfect really

1386
00:54:30,309 --> 00:54:27,359
tight u-turn

1387
00:54:32,870 --> 00:54:30,319
right over me um and again completely

1388
00:54:35,109 --> 00:54:32,880

silent and then went right back over

1389

00:54:36,950 --> 00:54:35,119

skinwalker ridge headed north over

1390

00:54:39,670 --> 00:54:36,960

skinwalker ridge disappeared behind the

1391

00:54:42,870 --> 00:54:39,680

ridge it happened um you know

1392

00:54:44,710 --> 00:54:42,880

very very quickly but it was um it was

1393

00:54:47,190 --> 00:54:44,720

sort of a dramatic

1394

00:54:49,990 --> 00:54:47,200

silence you know that there was no

1395

00:54:52,470 --> 00:54:50,000

absolutely no sound associated with the

1396

00:54:54,789 --> 00:54:52,480

object that was kind of the most spooky

1397

00:54:56,390 --> 00:54:54,799

part of it um and you know like i said

1398

00:54:57,270 --> 00:54:56,400

it disappeared right over skin walker

1399

00:54:59,109 --> 00:54:57,280

ridge

1400

00:55:01,589 --> 00:54:59,119

but you know just going back to the sort

1401
00:55:04,870 --> 00:55:01,599
of uh the strange

1402
00:55:06,870 --> 00:55:04,880
sort of uh accretion of unusual

1403
00:55:08,630 --> 00:55:06,880
phenomena

1404
00:55:11,190 --> 00:55:08,640
while we are at minutes we had the good

1405
00:55:14,309 --> 00:55:11,200
fortune of interacting with captain

1406
00:55:16,950 --> 00:55:14,319
keith wolverton who did enormous amounts

1407
00:55:20,390 --> 00:55:16,960
of leg work up around maelstrom air

1408
00:55:23,670 --> 00:55:20,400
force base in the late 1970s muslim air

1409
00:55:27,270 --> 00:55:23,680
force base was getting besieged by

1410
00:55:29,430 --> 00:55:27,280
nuts and bolts ufos that were appearing

1411
00:55:32,150 --> 00:55:29,440
over the base fighters were being

1412
00:55:34,950 --> 00:55:32,160
launched to intercept them um captain

1413
00:55:36,950 --> 00:55:34,960

wolverton actually got so well known in

1414

00:55:38,069 --> 00:55:36,960

the area that the air force base would

1415

00:55:42,549 --> 00:55:38,079

call him

1416

00:55:45,270 --> 00:55:42,559

to um to report sightings so his he

1417

00:55:47,109 --> 00:55:45,280

his police officers were in the area all

1418

00:55:50,069 --> 00:55:47,119

the time

1419

00:55:52,950 --> 00:55:50,079

long story short um all of the

1420

00:55:54,150 --> 00:55:52,960

interviews that uh captain wolverton had

1421

00:55:57,510 --> 00:55:54,160

conducted

1422

00:56:01,270 --> 00:55:57,520

nids luckily uh got got copies even that

1423

00:56:02,870 --> 00:56:01,280

that the blotters from the police

1424

00:56:04,150 --> 00:56:02,880

initial reports

1425

00:56:07,430 --> 00:56:04,160

but

1426
00:56:10,630 --> 00:56:07,440
there was an enormous amount of unusual

1427
00:56:11,750 --> 00:56:10,640
activity in the homes of people who were

1428
00:56:13,910 --> 00:56:11,760
looking

1429
00:56:16,789 --> 00:56:13,920
seeing these these

1430
00:56:20,390 --> 00:56:16,799
objects that were interacting around the

1431
00:56:21,349 --> 00:56:20,400
air force base there was a an absolute

1432
00:56:22,549 --> 00:56:21,359
um

1433
00:56:25,589 --> 00:56:22,559
i would say

1434
00:56:27,030 --> 00:56:25,599
epidemic of unusual activity unusual

1435
00:56:29,670 --> 00:56:27,040
creatures

1436
00:56:31,990 --> 00:56:29,680
it was almost like skinwalker ranch had

1437
00:56:34,309 --> 00:56:32,000
been transported up to

1438
00:56:36,390 --> 00:56:34,319

uh around um

1439

00:56:39,430 --> 00:56:36,400

milestone air force base for a

1440

00:56:41,510 --> 00:56:39,440

four-month period in the late 1970s and

1441

00:56:43,829 --> 00:56:41,520

they were absolutely besieged by all

1442

00:56:47,349 --> 00:56:43,839

this activity and then it died down and

1443

00:56:49,829 --> 00:56:47,359

went away but um we got access to

1444

00:56:52,549 --> 00:56:49,839

literally hundreds of these reports from

1445

00:56:55,589 --> 00:56:52,559

captain wolverton so again you have the

1446

00:56:58,789 --> 00:56:55,599

juxtaposition of these quote-unquote

1447

00:56:59,589 --> 00:56:58,799

metallic objects that are being see seen

1448

00:57:02,230 --> 00:56:59,599

by

1449

00:57:04,630 --> 00:57:02,240

personnel on the air force base fighters

1450

00:57:06,789 --> 00:57:04,640

are being launched to intercept and then

1451
00:57:09,109 --> 00:57:06,799
around the air force base in a 20 mile

1452
00:57:12,069 --> 00:57:09,119
radius around the air force base people

1453
00:57:14,630 --> 00:57:12,079
are being besieged by these unusual

1454
00:57:17,829 --> 00:57:14,640
activity and again i it comes back to my

1455
00:57:20,950 --> 00:57:17,839
main point this is not an effect just

1456
00:57:23,670 --> 00:57:20,960
primarily of skinwalker ranch it is not

1457
00:57:25,990 --> 00:57:23,680
some sort of minor sort of aberration

1458
00:57:29,270 --> 00:57:26,000
that can be put in the box and forgotten

1459
00:57:31,910 --> 00:57:29,280
about it actually happens an awful lot

1460
00:57:34,069 --> 00:57:31,920
um and it happens particularly

1461
00:57:37,670 --> 00:57:34,079
when people take the time and the

1462
00:57:41,109 --> 00:57:37,680
resources to investigate these cases for

1463
00:57:43,670 --> 00:57:41,119

long periods of time

1464

00:57:45,750 --> 00:57:43,680

do either of you

1465

00:57:47,750 --> 00:57:45,760

have any information

1466

00:57:49,349 --> 00:57:47,760

related to the tic tac case that people

1467

00:57:50,549 --> 00:57:49,359

don't know about that would be

1468

00:57:52,150 --> 00:57:50,559

surprising

1469

00:57:53,990 --> 00:57:52,160

because i know asap which i did not know

1470

00:57:55,670 --> 00:57:54,000

asap i always thought it was a tip until

1471

00:57:56,950 --> 00:57:55,680

the book came out is there anything

1472

00:57:59,030 --> 00:57:56,960

about that case

1473

00:58:00,470 --> 00:57:59,040

that is just surprising that the general

1474

00:58:02,309 --> 00:58:00,480

public doesn't know about either one of

1475

00:58:05,990 --> 00:58:02,319

you

1476

00:58:08,150 --> 00:58:06,000

touched on is that that was the tic tac

1477

00:58:10,470 --> 00:58:08,160

case was an awesome case that started

1478

00:58:12,630 --> 00:58:10,480

with those guys and it just uh column 10

1479

00:58:14,870 --> 00:58:12,640

tell the story about how he first heard

1480

00:58:17,270 --> 00:58:14,880

it during a job interview the

1481

00:58:19,430 --> 00:58:17,280

a key job interview he did for bass i

1482

00:58:21,510 --> 00:58:19,440

think one of the first if not the first

1483

00:58:23,510 --> 00:58:21,520

and it was just sort of an aside mention

1484

00:58:26,549 --> 00:58:23,520

at the end of the conversation

1485

00:58:29,670 --> 00:58:26,559

and that set off uh inquiries from the

1486

00:58:31,190 --> 00:58:29,680

las vegas side of asap to the pentagon

1487

00:58:33,349 --> 00:58:31,200

side of asap and it began an

1488

00:58:36,230 --> 00:58:33,359

investigation that eventually came back

1489

00:58:37,910 --> 00:58:36,240

it's the 13-page report that that i was

1490

00:58:40,390 --> 00:58:37,920

able to make public a couple years ago

1491

00:58:41,990 --> 00:58:40,400

joe that you're familiar with and then i

1492

00:58:44,870 --> 00:58:42,000

think a lot of that information formed

1493

00:58:47,430 --> 00:58:44,880

the basis of what atep leader did with

1494

00:58:50,309 --> 00:58:47,440

that that they presented to

1495

00:58:51,750 --> 00:58:50,319

the new york times so the genesis of uh

1496

00:58:54,150 --> 00:58:51,760

that whole story maybe the most

1497

00:58:56,309 --> 00:58:54,160

important ufo case of all time in the

1498

00:58:58,870 --> 00:58:56,319

sense of the effects that it had began

1499

00:59:00,950 --> 00:58:58,880

with asap it began with bass not with

1500

00:59:03,270 --> 00:59:00,960

atip not with the new york times but

1501
00:59:04,710 --> 00:59:03,280
these guys but did they have are there

1502
00:59:06,950 --> 00:59:04,720
any other encounters that we don't know

1503
00:59:08,630 --> 00:59:06,960
about i know the douglas curse story

1504
00:59:10,789 --> 00:59:08,640
curse story is an amazing story because

1505
00:59:12,309 --> 00:59:10,799
it's just synchronicity that kurth winds

1506
00:59:14,470 --> 00:59:12,319
up on your doorstep column the first

1507
00:59:16,230 --> 00:59:14,480
person you interview right

1508
00:59:17,990 --> 00:59:16,240
one that tells basically tells you about

1509
00:59:19,030 --> 00:59:18,000
tic tac did you think anything of that

1510
00:59:20,710 --> 00:59:19,040
at the time where you're like all right

1511
00:59:22,150 --> 00:59:20,720
it's an interesting case did you know

1512
00:59:24,549 --> 00:59:22,160
when he told you the details of the tic

1513
00:59:26,710 --> 00:59:24,559

tac case well remember you know this was

1514

00:59:28,950 --> 00:59:26,720

at the very beginning of the asap

1515

00:59:30,789 --> 00:59:28,960

contract it was like i i think i'd

1516

00:59:32,390 --> 00:59:30,799

started interviewing people

1517

00:59:34,870 --> 00:59:32,400

only a couple of weeks

1518

00:59:37,990 --> 00:59:34,880

prior to that and he was the first guy

1519

00:59:40,150 --> 00:59:38,000

in the door so it it certainly seemed

1520

00:59:43,430 --> 00:59:40,160

from his description in the interview

1521

00:59:45,670 --> 00:59:43,440

that this was a case of very very much a

1522

00:59:48,150 --> 00:59:45,680

case to be followed up on but we were

1523

00:59:50,630 --> 00:59:48,160

right at the start of the asap contract

1524

00:59:53,030 --> 00:59:50,640

so we didn't really know how this whole

1525

00:59:55,990 --> 00:59:53,040

thing was going to unfold and naturally

1526

01:00:00,230 --> 00:59:56,000

we did jump on the uh on the tic tac

1527

01:00:02,710 --> 01:00:00,240

case um as george said we we uh we

1528

01:00:06,230 --> 01:00:02,720

communicated with lukowski immediately

1529

01:00:09,510 --> 01:00:06,240

the catski called up axelrod and axelrod

1530

01:00:11,750 --> 01:00:09,520

assembled a team of people um and and

1531

01:00:16,309 --> 01:00:11,760

went out and sort of investigated this

1532

01:00:18,789 --> 01:00:16,319

case and submitted a um a summary report

1533

01:00:20,710 --> 01:00:18,799

to the defense intelligence agency that

1534

01:00:23,270 --> 01:00:20,720

report was sitting in the intelli

1535

01:00:25,510 --> 01:00:23,280

defense intelligence agency for many

1536

01:00:29,270 --> 01:00:25,520

years before the new york times broke

1537

01:00:32,710 --> 01:00:29,280

this whole story and it's kind of ironic

1538

01:00:35,190 --> 01:00:32,720

that the ossop case uh was being briefed

1539

01:00:37,190 --> 01:00:35,200

to the senate armed services committee

1540

01:00:41,109 --> 01:00:37,200

and the various senate intelligence

1541

01:00:43,670 --> 01:00:41,119

committees and the the asap tic-tac case

1542

01:00:45,910 --> 01:00:43,680

was being used to bolster the

1543

01:00:48,470 --> 01:00:45,920

credibility of the entire you know

1544

01:00:50,309 --> 01:00:48,480

phenomenon and it went a long way to

1545

01:00:52,789 --> 01:00:50,319

bolstering the credibility of the entire

1546

01:00:55,349 --> 01:00:52,799

phenomenon because you know these were

1547

01:00:58,230 --> 01:00:55,359

these were you know

1548

01:01:00,150 --> 01:00:58,240

pilots that were beyond reproach and

1549

01:01:02,150 --> 01:01:00,160

they interviewed with the senate armed

1550

01:01:04,150 --> 01:01:02,160

services committee and the senate

1551
01:01:07,510 --> 01:01:04,160
intelligence committee committee

1552
01:01:10,549 --> 01:01:07,520
but you know the tic tac case one was

1553
01:01:12,470 --> 01:01:10,559
one of over a hundred reports on

1554
01:01:14,630 --> 01:01:12,480
different cases different aspects of

1555
01:01:17,750 --> 01:01:14,640
technology different aspects of human

1556
01:01:20,549 --> 01:01:17,760
effects that ossops submitted to defense

1557
01:01:24,150 --> 01:01:20,559
intelligence agency but the tic tac case

1558
01:01:27,990 --> 01:01:24,160
itself an asap case was actually what

1559
01:01:30,470 --> 01:01:28,000
sort of um really got atip on the radar

1560
01:01:32,870 --> 01:01:30,480
and really got momentum going in terms

1561
01:01:35,430 --> 01:01:32,880
of um the the

1562
01:01:37,190 --> 01:01:35,440
index of credibility so to speak with

1563
01:01:39,510 --> 01:01:37,200

the senate armed services committee and

1564

01:01:42,789 --> 01:01:39,520

the senate intelligence committee so um

1565

01:01:44,549 --> 01:01:42,799

it was an index case undeservedly so

1566

01:01:46,390 --> 01:01:44,559

let me ask i'll answer it this way joe

1567

01:01:49,030 --> 01:01:46,400

you're asking are there other cases like

1568

01:01:52,870 --> 01:01:49,040

tech tack or similar military encounters

1569

01:01:53,829 --> 01:01:52,880

that osap investigated the answer is yes

1570

01:01:56,950 --> 01:01:53,839

okay

1571

01:01:58,470 --> 01:01:56,960

thank you thanks to both of you um

1572

01:01:59,990 --> 01:01:58,480

so

1573

01:02:02,549 --> 01:02:00,000

in the book

1574

01:02:04,069 --> 01:02:02,559

one of my favorite parts and i want to

1575

01:02:07,910 --> 01:02:04,079

share this

1576

01:02:10,390 --> 01:02:07,920

so people can read along it's about

1577

01:02:11,910 --> 01:02:10,400

doctor kat lakatsky's

1578

01:02:14,470 --> 01:02:11,920

briefing

1579

01:02:16,309 --> 01:02:14,480

at dhs and i know colin you had your own

1580

01:02:18,069 --> 01:02:16,319

briefing that you gave in a skiff and

1581

01:02:19,510 --> 01:02:18,079

then he had his i'll just read quickly

1582

01:02:20,870 --> 01:02:19,520

and if you guys can expand upon what

1583

01:02:22,390 --> 01:02:20,880

else you can add

1584

01:02:23,829 --> 01:02:22,400

an hour into the briefing technically

1585

01:02:25,910 --> 01:02:23,839

when the meeting should have ended

1586

01:02:28,069 --> 01:02:25,920

lickatsky abandoned all caution and the

1587

01:02:30,150 --> 01:02:28,079

floodgates opened what followed was

1588

01:02:32,630 --> 01:02:30,160

arguably one of the most astounding and

1589

01:02:35,190 --> 01:02:32,640

riveting briefings of nuts and bolts

1590

01:02:37,829 --> 01:02:35,200

uaps paranormal phenomena poltergeist

1591

01:02:39,589 --> 01:02:37,839

activity and more ever heard in a united

1592

01:02:41,109 --> 01:02:39,599

states government skiff the bizarre

1593

01:02:43,349 --> 01:02:41,119

creatures that were encountered on and

1594

01:02:45,430 --> 01:02:43,359

around skinwalker ranch were described

1595

01:02:47,589 --> 01:02:45,440

in a screw excruciating detail and

1596

01:02:49,750 --> 01:02:47,599

lethcatsky recounted cases involving

1597

01:02:51,430 --> 01:02:49,760

multiple encounters with blue orbs as

1598

01:02:53,750 --> 01:02:51,440

well as other details of uap

1599

01:02:55,750 --> 01:02:53,760

investigations that were extracted from

1600

01:02:57,829 --> 01:02:55,760

the detailed monthly reports that bass

1601
01:02:59,430 --> 01:02:57,839
had submitted to dia

1602
01:03:01,109 --> 01:02:59,440
what else can you guys add because that

1603
01:03:02,870 --> 01:03:01,119
when i read that i'm like oh my that's

1604
01:03:05,190 --> 01:03:02,880
amazing that that took place and he had

1605
01:03:07,349 --> 01:03:05,200
the guts to do that because

1606
01:03:12,549 --> 01:03:07,359
i would think those people

1607
01:03:30,150 --> 01:03:13,589
i

1608
01:03:33,910 --> 01:03:30,160
and they both told me that they were

1609
01:03:36,789 --> 01:03:33,920
absolutely shell-shocked by the level of

1610
01:03:37,829 --> 01:03:36,799
detail and the level of sort of it was

1611
01:03:41,670 --> 01:03:37,839
like a

1612
01:03:44,390 --> 01:03:41,680
a rolling series of uh of cyclones that

1613
01:03:47,029 --> 01:03:44,400

were hitting them um because you know

1614

01:03:50,470 --> 01:03:47,039

they were expecting a sort of a short

1615

01:03:52,549 --> 01:03:50,480

um standard briefing from uh you know

1616

01:03:54,789 --> 01:03:52,559

defense intelligence

1617

01:03:57,349 --> 01:03:54,799

official i mean everybody knows what

1618

01:03:59,270 --> 01:03:57,359

they usually comprise of they're very

1619

01:04:01,910 --> 01:03:59,280

short sort of uh

1620

01:04:03,750 --> 01:04:01,920

powerpoint presentations that have a

1621

01:04:06,150 --> 01:04:03,760

beginning a middle and an end it's very

1622

01:04:08,789 --> 01:04:06,160

it's all very predictable um your

1623

01:04:11,190 --> 01:04:08,799

standard briefing but this went so far

1624

01:04:12,630 --> 01:04:11,200

beyond the briefing that and it went you

1625

01:04:14,789 --> 01:04:12,640

know a couple of hours beyond the

1626
01:04:18,150 --> 01:04:14,799
briefing that both of these people who

1627
01:04:21,029 --> 01:04:18,160
were incidentally very very high level

1628
01:04:23,670 --> 01:04:21,039
uh people who were very associated with

1629
01:04:26,789 --> 01:04:23,680
the special access programs

1630
01:04:30,150 --> 01:04:26,799
um and they were very shocked by what

1631
01:04:33,109 --> 01:04:32,150
anything to add to that george we can

1632
01:04:35,910 --> 01:04:33,119
move on

1633
01:04:37,270 --> 01:04:35,920
no you can that's good um so i want to

1634
01:04:38,710 --> 01:04:37,280
get your takes and i know you've spoken

1635
01:04:39,910 --> 01:04:38,720
about it before but

1636
01:04:41,349 --> 01:04:39,920
what do you think you know thinking

1637
01:04:42,710 --> 01:04:41,359
about when you first got into this and

1638
01:04:44,470 --> 01:04:42,720

calm i never heard how you first got

1639

01:04:45,510 --> 01:04:44,480

into this if you can add that in what

1640

01:04:47,510 --> 01:04:45,520

are we dealing with how does

1641

01:04:48,470 --> 01:04:47,520

consciousness play consciousness play a

1642

01:04:50,309 --> 01:04:48,480

role

1643

01:04:52,230 --> 01:04:50,319

have we been manipulated over the years

1644

01:04:54,230 --> 01:04:52,240

for good for bad just your opinions and

1645

01:04:56,950 --> 01:04:54,240

speculation on that both of you can

1646

01:05:00,549 --> 01:04:58,470

i'd like to hear colin tell you the

1647

01:05:02,549 --> 01:05:00,559

story about how he got started

1648

01:05:05,349 --> 01:05:02,559

okay well

1649

01:05:07,510 --> 01:05:05,359

well i mean i got started in on two

1650

01:05:08,789 --> 01:05:07,520

different levels i guess one the first

1651
01:05:11,349 --> 01:05:08,799
one was

1652
01:05:14,230 --> 01:05:11,359
i was working at the national jewish

1653
01:05:15,349 --> 01:05:14,240
center for immunology in denver which is

1654
01:05:17,510 --> 01:05:15,359
a very

1655
01:05:19,670 --> 01:05:17,520
um august

1656
01:05:22,710 --> 01:05:19,680
immunology research institute one of the

1657
01:05:26,390 --> 01:05:22,720
top institutes in the country um

1658
01:05:27,510 --> 01:05:26,400
and um i happened to see a

1659
01:05:30,470 --> 01:05:27,520
um

1660
01:05:31,670 --> 01:05:30,480
you know a full-page ad in science

1661
01:05:34,470 --> 01:05:31,680
magazine

1662
01:05:37,510 --> 01:05:34,480
that was looking for people

1663
01:05:40,150 --> 01:05:37,520

to research the origin and evolution of

1664

01:05:41,990 --> 01:05:40,160

human consciousness in the universe and

1665

01:05:43,430 --> 01:05:42,000

i don't know how often you read science

1666

01:05:46,390 --> 01:05:43,440

magazine but

1667

01:05:48,789 --> 01:05:46,400

seeing that in in in one of the top

1668

01:05:51,190 --> 01:05:48,799

scientific publications in the world

1669

01:05:53,349 --> 01:05:51,200

kind of took me aback so the first thing

1670

01:05:54,789 --> 01:05:53,359

i did was picked up the telephone and i

1671

01:05:56,470 --> 01:05:54,799

you know i said

1672

01:05:59,270 --> 01:05:56,480

uh i i sort of

1673

01:06:01,510 --> 01:05:59,280

um put in an application just to see how

1674

01:06:03,190 --> 01:06:01,520

this whole thing went

1675

01:06:05,190 --> 01:06:03,200

turned out that um

1676

01:06:07,829 --> 01:06:05,200

two weeks later i was on a plane to las

1677

01:06:11,910 --> 01:06:07,839

vegas i sat down with robert bigelow in

1678

01:06:12,360 --> 01:06:11,920

an interview and this was july of 1996.

1679

01:06:13,589 --> 01:06:12,370

um

1680

01:06:15,750 --> 01:06:13,599

[Music]

1681

01:06:17,430 --> 01:06:15,760

and he went through the whole uh what

1682

01:06:18,870 --> 01:06:17,440

the scope of what national institute for

1683

01:06:20,309 --> 01:06:18,880

discovery science

1684

01:06:23,109 --> 01:06:20,319

was going to do

1685

01:06:25,829 --> 01:06:23,119

and uh you know i was so fascinated by

1686

01:06:28,309 --> 01:06:25,839

that the whole prospect of

1687

01:06:30,950 --> 01:06:28,319

the study of anomalies

1688

01:06:32,710 --> 01:06:30,960

as being a driver for the discovery

1689

01:06:35,029 --> 01:06:32,720

process in science

1690

01:06:37,190 --> 01:06:35,039

you know i mean thomas kuhn is it makes

1691

01:06:39,190 --> 01:06:37,200

it makes a a huge

1692

01:06:41,910 --> 01:06:39,200

uh deal of this in his book book

1693

01:06:44,150 --> 01:06:41,920

structure of scientific revolutions you

1694

01:06:46,870 --> 01:06:44,160

know it the study of anomalies is

1695

01:06:48,870 --> 01:06:46,880

fundamental to the discovery process and

1696

01:06:50,630 --> 01:06:48,880

science so national institute for

1697

01:06:53,190 --> 01:06:50,640

discovery science

1698

01:06:56,390 --> 01:06:53,200

attracted me for that purpose because

1699

01:06:57,990 --> 01:06:56,400

um you know as part of um

1700

01:07:01,430 --> 01:06:58,000

as part of

1701

01:07:04,710 --> 01:07:01,440

creation of new scientific avenues or

1702

01:07:06,789 --> 01:07:04,720

even scientific areas of study studying

1703

01:07:09,029 --> 01:07:06,799

anomalies is fundamental that that

1704

01:07:12,069 --> 01:07:09,039

process so that's how i got started in

1705

01:07:13,750 --> 01:07:12,079

this whole process but i had i had left

1706

01:07:16,950 --> 01:07:13,760

national institute for discovery science

1707

01:07:19,990 --> 01:07:16,960

in 2004 to take a position in the

1708

01:07:22,789 --> 01:07:20,000

biotechnol technology institute

1709

01:07:25,510 --> 01:07:22,799

of uh in uh in

1710

01:07:27,990 --> 01:07:25,520

san francisco as a biotech company and

1711

01:07:30,150 --> 01:07:28,000

uh we were studying

1712

01:07:33,190 --> 01:07:30,160

we were doing drug discovery

1713

01:07:35,910 --> 01:07:33,200

for viruses that the

1714

01:07:38,150 --> 01:07:35,920

department of defense was interested in

1715

01:07:41,670 --> 01:07:38,160

so i was in the middle of molecular

1716

01:07:44,230 --> 01:07:41,680

biology studies on multiple different

1717

01:07:46,870 --> 01:07:44,240

viruses that were of interest to the

1718

01:07:49,270 --> 01:07:46,880

department of defense when out of this

1719

01:07:51,109 --> 01:07:49,280

the blue i got a a phone call from

1720

01:07:52,789 --> 01:07:51,119

robert bigelow saying

1721

01:07:55,349 --> 01:07:52,799

you know there's a

1722

01:07:56,870 --> 01:07:55,359

potential for a united states government

1723

01:07:58,789 --> 01:07:56,880

program

1724

01:08:01,829 --> 01:07:58,799

that has to do with

1725

01:08:04,150 --> 01:08:01,839

really getting in deep into

1726

01:08:08,150 --> 01:08:04,160

the nuts and bolts and also human

1727

01:08:11,029 --> 01:08:08,160

effects of of ufos so

1728

01:08:14,630 --> 01:08:11,039

long story short second time i left the

1729

01:08:17,189 --> 01:08:14,640

mainstream science career um to go

1730

01:08:20,390 --> 01:08:17,199

look at the um

1731

01:08:23,030 --> 01:08:20,400

at the sort of uh the ufo topic but this

1732

01:08:26,070 --> 01:08:23,040

time as a result of a

1733

01:08:28,789 --> 01:08:26,080

um a defense intelligence

1734

01:08:31,590 --> 01:08:28,799

agency program that was going to study

1735

01:08:33,669 --> 01:08:31,600

this in-depth so it was kind of like a

1736

01:08:35,669 --> 01:08:33,679

an offer i could not refuse

1737

01:08:38,309 --> 01:08:35,679

because the needs experience had been

1738

01:08:39,669 --> 01:08:38,319

extremely enlightening

1739

01:08:41,430 --> 01:08:39,679

and um

1740

01:08:43,349 --> 01:08:41,440

in hindsight the

1741

01:08:46,630 --> 01:08:43,359

ossop experience was even more

1742

01:08:49,430 --> 01:08:46,640

enlightening i think i've learned over

1743

01:08:50,550 --> 01:08:49,440

i've been looking at this for 25 years

1744

01:08:53,510 --> 01:08:50,560

now

1745

01:08:56,550 --> 01:08:53,520

that the so-called uap phenomena ufo

1746

01:08:57,990 --> 01:08:56,560

phenomenon that um the more i get into

1747

01:09:01,590 --> 01:08:58,000

this whole thing

1748

01:09:02,470 --> 01:09:01,600

the more complex the more sophisticated

1749

01:09:04,870 --> 01:09:02,480

um

1750

01:09:07,910 --> 01:09:04,880

and the more challenging it becomes

1751

01:09:10,630 --> 01:09:07,920

because i don't think anybody has the

1752

01:09:13,349 --> 01:09:10,640

capability of um

1753

01:09:16,390 --> 01:09:13,359

of staying what the agenda of this

1754

01:09:18,309 --> 01:09:16,400

phenomenon might be or or you know what

1755

01:09:21,510 --> 01:09:18,319

what the or the intent of this

1756

01:09:22,550 --> 01:09:21,520

phenomenon it's all speculation because

1757

01:09:25,110 --> 01:09:22,560

um

1758

01:09:28,149 --> 01:09:25,120

you know the only way of getting

1759

01:09:30,950 --> 01:09:28,159

information on at this level is to

1760

01:09:33,430 --> 01:09:30,960

continue studying it so that's why

1761

01:09:36,470 --> 01:09:33,440

things like the the gila brand amendment

1762

01:09:38,950 --> 01:09:36,480

that came out what seven days ago um is

1763

01:09:42,309 --> 01:09:38,960

extremely heartening to me because

1764

01:09:44,630 --> 01:09:42,319

um if it turns out that you know a

1765

01:09:48,309 --> 01:09:44,640

program with that level of

1766

01:09:51,510 --> 01:09:48,319

sophistication is initiated in with the

1767

01:09:53,349 --> 01:09:51,520

united states government i think it does

1768

01:09:57,590 --> 01:09:53,359

you know have the capability of getting

1769

01:09:59,830 --> 01:09:57,600

answers um but you know um we'll see i i

1770

01:10:03,030 --> 01:09:59,840

don't know what the the whole process of

1771

01:10:04,870 --> 01:10:03,040

the national defense authorization act

1772

01:10:07,110 --> 01:10:04,880

is a very very

1773

01:10:09,669 --> 01:10:07,120

sort of lengthy process

1774

01:10:12,229 --> 01:10:09,679

where there's a lot of negotiation and

1775

01:10:15,110 --> 01:10:12,239

amendments and sort of insertions are

1776

01:10:17,750 --> 01:10:15,120

deleted etc so i don't know what the

1777

01:10:20,550 --> 01:10:17,760

endgame of this is but i do know that

1778

01:10:21,510 --> 01:10:20,560

behind the scenes the uh the task force

1779

01:10:26,870 --> 01:10:21,520

people

1780

01:10:29,669 --> 01:10:26,880

sophisticated thinkers they're not just

1781

01:10:32,470 --> 01:10:29,679

focused on you know the sensor driven

1782

01:10:34,390 --> 01:10:32,480

sort of uh you know meme they are

1783

01:10:36,709 --> 01:10:34,400

focused on an awful lot more than that

1784

01:10:39,350 --> 01:10:36,719

so they're easily capable of

1785

01:10:41,510 --> 01:10:39,360

assimilating a much more sophisticated

1786

01:10:43,830 --> 01:10:41,520

program

1787

01:10:45,590 --> 01:10:43,840

you know my origin story joe is you know

1788

01:10:48,709 --> 01:10:45,600

i'm looking back on it from the vantage

1789

01:10:51,110 --> 01:10:48,719

point of 32 or almost 33 years later

1790

01:10:53,030 --> 01:10:51,120

it's astonishing to me um all the things

1791

01:10:55,669 --> 01:10:53,040

that have happened and fell into place

1792

01:10:57,510 --> 01:10:55,679

and how any one little change along the

1793

01:10:59,590 --> 01:10:57,520

way would have changed so much you know

1794

01:11:01,910 --> 01:10:59,600

i've been privileged to be a fly on the

1795

01:11:04,470 --> 01:11:01,920

wall and get to know colin and dr

1796

01:11:07,189 --> 01:11:04,480

lakotsky and robert bigelow uh along the

1797

01:11:08,790 --> 01:11:07,199

way and and have had uh you know to be

1798

01:11:10,870 --> 01:11:08,800

able to listen to them and learn from

1799

01:11:14,709 --> 01:11:10,880

them but also to contribute along the

1800

01:11:17,030 --> 01:11:14,719

way you know and my beginning was 1989

1801

01:11:18,950 --> 01:11:17,040

it starts with an interest in lazar

1802

01:11:20,470 --> 01:11:18,960

and his story but to report that

1803

01:11:23,030 --> 01:11:20,480

correctly i had to learn the bigger

1804

01:11:24,790 --> 01:11:23,040

picture about ufos so for a period of

1805

01:11:26,470 --> 01:11:24,800

seven eight nine months i read

1806

01:11:28,950 --> 01:11:26,480

everything i interviewed people i went

1807

01:11:31,430 --> 01:11:28,960

to ufo conferences i met and in

1808

01:11:33,030 --> 01:11:31,440

interrogated ufo experts i was out in

1809

01:11:34,790 --> 01:11:33,040

the desert for

1810

01:11:37,430 --> 01:11:34,800

dozens and dozens of nights looking for

1811

01:11:39,030 --> 01:11:37,440

ufos i chased cattle mutilation cases

1812

01:11:40,950 --> 01:11:39,040

learned as much as i could in a short

1813

01:11:42,470 --> 01:11:40,960

period and along the way

1814

01:11:44,070 --> 01:11:42,480

i just couldn't help but want to tell

1815

01:11:46,229 --> 01:11:44,080

somebody about it the first person i

1816

01:11:48,149 --> 01:11:46,239

told outside of our newsroom was harry

1817

01:11:50,070 --> 01:11:48,159

reid and little did i know what that

1818

01:11:51,830 --> 01:11:50,080

would lead to later but i told him i was

1819

01:11:55,189 --> 01:11:51,840

working on this there was some secrets

1820

01:11:57,030 --> 01:11:55,199

about area 51 i had covered his 82 84

1821

01:11:59,189 --> 01:11:57,040

and 86 campaigns and i thought he'd want

1822

01:12:01,430 --> 01:11:59,199

to know and he did and little did i know

1823

01:12:02,550 --> 01:12:01,440

where that would lead you know 30 years

1824

01:12:06,870 --> 01:12:02,560

later

1825

01:12:09,189 --> 01:12:06,880

project on the air i get a call out of

1826

01:12:10,790 --> 01:12:09,199

the blue after it's been broadcast from

1827

01:12:12,470 --> 01:12:10,800

a guy named robert bigelow who said i

1828

01:12:14,149 --> 01:12:12,480

really found that interesting i'd like

1829

01:12:16,470 --> 01:12:14,159

to help you moving forward and then a

1830

01:12:18,390 --> 01:12:16,480

few weeks later we met and struck up a

1831

01:12:20,790 --> 01:12:18,400

friendship that has led to so much in

1832

01:12:22,709 --> 01:12:20,800

the years since then meeting with reed

1833

01:12:24,470 --> 01:12:22,719

and getting him interested in ufos and

1834

01:12:26,709 --> 01:12:24,480

then meeting with bigelow

1835

01:12:28,870 --> 01:12:26,719

later led to those two getting together

1836

01:12:30,630 --> 01:12:28,880

when when nids was first up and running

1837

01:12:32,550 --> 01:12:30,640

and the science advisory board was

1838

01:12:34,550 --> 01:12:32,560

meeting and reid went to those meetings

1839

01:12:36,870 --> 01:12:34,560

i had told him about it he went he got

1840

01:12:37,830 --> 01:12:36,880

it invest invested in the topic and

1841

01:12:41,350 --> 01:12:37,840

interested

1842

01:12:43,910 --> 01:12:41,360

that paid off a decade later when he was

1843

01:12:46,630 --> 01:12:43,920

primary co-sponsor of what became the uh

1844

01:12:48,790 --> 01:12:46,640

asap program so you know any change

1845

01:12:50,950 --> 01:12:48,800

along those way along the way and any of

1846

01:12:52,229 --> 01:12:50,960

that stuff i wouldn't be here i wouldn't

1847

01:12:54,229 --> 01:12:52,239

be talking to you about it i wouldn't

1848

01:12:56,070 --> 01:12:54,239

know column uh who knows if those

1849

01:12:57,750 --> 01:12:56,080

programs would have got underway anyway

1850

01:12:59,990 --> 01:12:57,760

but and it's so

1851
01:13:01,910 --> 01:13:00,000
cool to have moved here to las vegas to

1852
01:13:03,590 --> 01:13:01,920
begin with have no idea about the

1853
01:13:04,950 --> 01:13:03,600
direction my career and my life would

1854
01:13:07,270 --> 01:13:04,960
take take

1855
01:13:09,350 --> 01:13:07,280
in being able to know this stuff but i i

1856
01:13:10,470 --> 01:13:09,360
feel privileged every day to to be able

1857
01:13:12,070 --> 01:13:10,480
to call a

1858
01:13:14,070 --> 01:13:12,080
column on the phone and bend his ear a

1859
01:13:16,390 --> 01:13:14,080
little bit

1860
01:13:18,630 --> 01:13:16,400
you guys i assume both of you

1861
01:13:19,910 --> 01:13:18,640
have fun doing this investigating this

1862
01:13:22,630 --> 01:13:19,920
because if i didn't have fun i wouldn't

1863
01:13:24,790 --> 01:13:22,640

do it spend so much time on it and

1864

01:13:26,310 --> 01:13:24,800

connection not really connection but do

1865

01:13:31,189 --> 01:13:26,320

you both agree that

1866

01:13:34,709 --> 01:13:33,030

that's the direction where column and

1867

01:13:37,270 --> 01:13:34,719

robert bigelow are heading you know it's

1868

01:13:38,790 --> 01:13:37,280

not an uh an accident that bix has been

1869

01:13:40,870 --> 01:13:38,800

created the bigelow institute for

1870

01:13:42,870 --> 01:13:40,880

consciousness studies people remember

1871

01:13:45,510 --> 01:13:42,880

nids and they remember it for its

1872

01:13:47,350 --> 01:13:45,520

interest in ufos and forget that that

1873

01:13:49,350 --> 01:13:47,360

organization the national institute for

1874

01:13:51,189 --> 01:13:49,360

discovery science really had two

1875

01:13:51,990 --> 01:13:51,199

two goals when it was created uh you

1876

01:13:53,669 --> 01:13:52,000

know

1877

01:13:56,550 --> 01:13:53,679

are we alone in the universe what's the

1878

01:13:58,550 --> 01:13:56,560

evidence for ufos and does uh does our

1879

01:14:00,390 --> 01:13:58,560

consciousness survive physical death

1880

01:14:03,030 --> 01:14:00,400

eventually the ufo side sort of

1881

01:14:05,669 --> 01:14:03,040

dominated you of the mids process and

1882

01:14:07,350 --> 01:14:05,679

took over but that that goal of

1883

01:14:09,030 --> 01:14:07,360

investigating consciousness and what it

1884

01:14:11,270 --> 01:14:09,040

means was always in the back of

1885

01:14:13,189 --> 01:14:11,280

bigelow's mind and it's where he's

1886

01:14:15,430 --> 01:14:13,199

returned to now sort of returning to his

1887

01:14:17,750 --> 01:14:15,440

roots with this organization called bix

1888

01:14:19,669 --> 01:14:17,760

that column is directly involved with as

1889

01:14:21,990 --> 01:14:19,679

you probably heard they just had this

1890

01:14:24,149 --> 01:14:22,000

big contest where they're about to award

1891

01:14:26,790 --> 01:14:24,159

1.8 million dollars in prizes for

1892

01:14:29,189 --> 01:14:26,800

writing essays the best evidence for

1893

01:14:30,630 --> 01:14:29,199

proof that life exists after physical

1894

01:14:32,950 --> 01:14:30,640

death and um

1895

01:14:35,350 --> 01:14:32,960

if you ask me as a non-scientist to

1896

01:14:37,750 --> 01:14:35,360

explain how consciousness ties together

1897

01:14:39,350 --> 01:14:37,760

not only physical death but ufos

1898

01:14:40,950 --> 01:14:39,360

poltergeists things of that sort i

1899

01:14:42,820 --> 01:14:40,960

probably couldn't do it but i'll bet

1900

01:14:44,310 --> 01:14:42,830

column can

1901

01:14:45,750 --> 01:14:44,320

[Laughter]

1902

01:14:48,950 --> 01:14:45,760

well um

1903

01:14:51,430 --> 01:14:48,960

i know that you know a few years ago i

1904

01:14:53,910 --> 01:14:51,440

stumbled on um

1905

01:14:55,189 --> 01:14:53,920

a um

1906

01:15:12,390 --> 01:14:55,199

a

1907

01:15:14,390 --> 01:15:12,400

um

1908

01:15:15,830 --> 01:15:14,400

essay contest but

1909

01:15:21,750 --> 01:15:15,840

um

1910

01:15:24,630 --> 01:15:21,760

really interesting in terms of

1911

01:15:27,910 --> 01:15:24,640

turning the whole paradigm of

1912

01:15:29,510 --> 01:15:27,920

consciousness on its head and basically

1913

01:15:31,830 --> 01:15:29,520

he's not the only one he's there's a

1914

01:15:33,910 --> 01:15:31,840

number of other people but bernardo

1915

01:15:35,189 --> 01:15:33,920

castro has been very vocal in the last

1916

01:15:39,430 --> 01:15:35,199

five years

1917

01:15:42,470 --> 01:15:39,440

um and the idea is is that consciousness

1918

01:15:45,110 --> 01:15:42,480

is not an emergent property of

1919

01:15:48,229 --> 01:15:45,120

neurochemical trafficking in the brain

1920

01:15:50,550 --> 01:15:48,239

it actually exists beyond the brain and

1921

01:15:53,270 --> 01:15:50,560

in other words the the

1922

01:15:55,590 --> 01:15:53,280

the body inhabits consciousness as

1923

01:15:57,990 --> 01:15:55,600

opposed to consciousness inhabits the

1924

01:16:00,550 --> 01:15:58,000

body and so there are other people like

1925

01:16:02,790 --> 01:16:00,560

the inventor of microprocessors

1926

01:16:05,750 --> 01:16:02,800

federico faheen

1927

01:16:07,990 --> 01:16:05,760

is a really big player in this uh edward

1928

01:16:11,110 --> 01:16:08,000

kelly at the at the university of

1929

01:16:13,270 --> 01:16:11,120

virginia is a big player on in this

1930

01:16:14,709 --> 01:16:13,280

jeffrey cripel who is a one of the

1931

01:16:17,990 --> 01:16:14,719

judges

1932

01:16:20,709 --> 01:16:18,000

at the biggs essay competition is also

1933

01:16:23,189 --> 01:16:20,719

sort of very much involved in this way

1934

01:16:24,790 --> 01:16:23,199

of thinking and the bottom line is that

1935

01:16:27,669 --> 01:16:24,800

that

1936

01:16:30,870 --> 01:16:27,679

this way of thinking about consciousness

1937

01:16:35,430 --> 01:16:30,880

may actually open up different avenues

1938

01:16:38,630 --> 01:16:35,440

of for future research in in ufos and

1939

01:16:41,110 --> 01:16:38,640

the the essence of this uh intent would

1940

01:16:43,350 --> 01:16:41,120

be to to look at

1941

01:16:46,870 --> 01:16:43,360

um for example look at survival of

1942

01:16:49,910 --> 01:16:46,880

consciousness as being one part of the

1943

01:16:52,470 --> 01:16:49,920

overall study of consciousness but how

1944

01:16:55,590 --> 01:16:52,480

does the survival of consciousness

1945

01:16:58,709 --> 01:16:55,600

maybe uh overlap with the overall field

1946

01:17:01,270 --> 01:16:58,719

of of ufos and and the so-called

1947

01:17:02,550 --> 01:17:01,280

phenomenon and how does how does human

1948

01:17:04,709 --> 01:17:02,560

consciousness

1949

01:17:06,870 --> 01:17:04,719

if looked at from a completely different

1950

01:17:11,189 --> 01:17:06,880

perspective how does that actually

1951

01:17:13,669 --> 01:17:11,199

overlap with the field of ufo uh and ufo

1952

01:17:15,189 --> 01:17:13,679

affects ufo human effects

1953

01:17:17,030 --> 01:17:15,199

um you know

1954

01:17:19,590 --> 01:17:17,040

at bigelow institute for consciousness

1955

01:17:20,790 --> 01:17:19,600

studies we think that there's a lot of

1956

01:17:23,750 --> 01:17:20,800

fruitful

1957

01:17:26,630 --> 01:17:23,760

avenues that might be able to go forward

1958

01:17:31,270 --> 01:17:26,640

in this whole sort of generic

1959

01:17:32,950 --> 01:17:31,280

um new way of looking at consciousness

1960

01:17:35,030 --> 01:17:32,960

is there anything

1961

01:17:36,790 --> 01:17:35,040

in the book either one of you can think

1962

01:17:38,950 --> 01:17:36,800

of that you wanted to put in but for

1963

01:17:42,149 --> 01:17:38,960

whatever reason whether it was space

1964

01:17:45,590 --> 01:17:43,910

yeah there's a ton of stuff i mean just

1965

01:17:48,550 --> 01:17:45,600

had to cut it off at some point column

1966

01:17:50,630 --> 01:17:48,560

had to had to slap my wrists a few times

1967

01:17:52,149 --> 01:17:50,640

for somebody late that didn't make it

1968

01:17:53,430 --> 01:17:52,159

but yeah there's a there's a whole bunch

1969

01:17:55,830 --> 01:17:53,440

of stuff it could have been probably

1970

01:17:57,189 --> 01:17:55,840

twice as big as it is right now um i

1971

01:17:59,430 --> 01:17:57,199

don't know if we want to say what those

1972

01:18:02,149 --> 01:17:59,440

things are column it's up to you

1973

01:18:04,390 --> 01:18:02,159

no i i think there is a lot of material

1974

01:18:06,950 --> 01:18:04,400

i mean if you look at appendix one in

1975

01:18:08,870 --> 01:18:06,960

the book you can see an enormous number

1976

01:18:10,709 --> 01:18:08,880

of uh of

1977

01:18:13,590 --> 01:18:10,719

reports that went in

1978

01:18:16,070 --> 01:18:13,600

those reports are extremely detailed so

1979

01:18:20,390 --> 01:18:16,080

the book really is only a very small

1980

01:18:22,390 --> 01:18:20,400

snapshot of uh you know the the immense

1981

01:18:25,030 --> 01:18:22,400

number of reports you know i tell the

1982

01:18:27,110 --> 01:18:25,040

story i think i tell it in the book of

1983

01:18:30,390 --> 01:18:27,120

you know when all of the

1984

01:18:33,350 --> 01:18:30,400

um the three-ring binder reports the

1985

01:18:35,590 --> 01:18:33,360

actual paper reports were collated

1986

01:18:37,669 --> 01:18:35,600

together as part of one of the

1987

01:18:39,910 --> 01:18:37,679

deliverables to the defense intelligence

1988

01:18:42,550 --> 01:18:39,920

agency they wanted both electronic

1989

01:18:46,310 --> 01:18:42,560

copies and paper copies well the paper

1990

01:18:48,790 --> 01:18:46,320

copies um actually stood six feet high

1991

01:18:50,709 --> 01:18:48,800

in my office before they were all sort

1992

01:18:51,750 --> 01:18:50,719

of sent off to defense intelligence

1993

01:18:54,790 --> 01:18:51,760

agency

1994

01:18:56,149 --> 01:18:54,800

so that the book only sort of takes a

1995

01:18:57,750 --> 01:18:56,159

couple of

1996

01:19:00,870 --> 01:18:57,760

snapshots

1997

01:19:03,669 --> 01:19:00,880

to try to give as complete a summary of

1998

01:19:06,149 --> 01:19:03,679

the program the asap program as possible

1999

01:19:08,950 --> 01:19:06,159

but there's an immense amount of detail

2000

01:19:11,430 --> 01:19:08,960

that is not in the book and you know uh

2001

01:19:12,310 --> 01:19:11,440

you know those those reports

2002

01:19:19,110 --> 01:19:12,320

are

2003

01:19:21,750 --> 01:19:19,120

very good reasons um right now but um

2004

01:19:25,430 --> 01:19:21,760

we think that the the book is the most

2005

01:19:27,830 --> 01:19:25,440

complete summary of the asap program i

2006

01:19:30,870 --> 01:19:27,840

think that we could possibly

2007

01:19:33,910 --> 01:19:30,880

have come up with especially that we

2008

01:19:37,270 --> 01:19:33,920

we've line item after line item all of

2009

01:19:39,750 --> 01:19:37,280

the 100 plus reports are itemized in

2010

01:19:42,149 --> 01:19:39,760

appendix one of that book so that's not

2011

01:19:42,950 --> 01:19:42,159

an accident that's basically

2012

01:19:44,310 --> 01:19:42,960

to

2013

01:19:45,510 --> 01:19:44,320

show

2014

01:19:48,310 --> 01:19:45,520

the immense

2015

01:19:50,310 --> 01:19:48,320

scope of the asap program

2016

01:19:52,229 --> 01:19:50,320

let me add to this uh joe too something

2017

01:19:54,390 --> 01:19:52,239

that's really not in the book that i

2018

01:19:56,950 --> 01:19:54,400

think we could address here is that is

2019

01:19:59,350 --> 01:19:56,960

about ata you know we do mention about

2020

01:20:01,830 --> 01:19:59,360

atip and how it grew out of ossap there

2021

01:20:04,390 --> 01:20:01,840

was awesome and atep came later it was a

2022

01:20:06,709 --> 01:20:04,400

real program in the ufo world people

2023

01:20:08,950 --> 01:20:06,719

always trying to stir the pot and cause

2024

01:20:10,950 --> 01:20:08,960

divisions drive a wedge between the

2025

01:20:13,110 --> 01:20:10,960

story that we tell here and the story

2026

01:20:14,709 --> 01:20:13,120

that's been told by lou elizondo

2027

01:20:16,310 --> 01:20:14,719

those two are pretty much seamless i

2028

01:20:18,390 --> 01:20:16,320

know in the beginning when lou came

2029

01:20:20,870 --> 01:20:18,400

forward he had to do a little bit bit of

2030

01:20:23,030 --> 01:20:20,880

dancing when it came to awesome

2031

01:20:24,790 --> 01:20:23,040

and you know in terms of how quick he

2032

01:20:26,550 --> 01:20:24,800

couldn't talk about it it wasn't his

2033

01:20:28,149 --> 01:20:26,560

program he didn't want to spill any

2034

01:20:29,990 --> 01:20:28,159

beans that he wasn't supposed to be and

2035

01:20:32,229 --> 01:20:30,000

so he danced around a little bit but

2036

01:20:35,189 --> 01:20:32,239

this is this book is supportive of lou

2037

01:20:37,189 --> 01:20:35,199

elizondo it is not derogatory in any way

2038

01:20:39,669 --> 01:20:37,199

it supports his role in it he was a very

2039

01:20:41,510 --> 01:20:39,679

key player and we're we're proud to know

2040

01:20:43,830 --> 01:20:41,520

him and proud of how he's taken the ball

2041

01:20:46,709 --> 01:20:43,840

and ran with it done some amazing things

2042

01:20:48,629 --> 01:20:46,719

after with tsa and then afterward this

2043

01:20:50,709 --> 01:20:48,639

is not contrary to louis elizondo's

2044

01:20:53,110 --> 01:20:50,719

story it is supportive of blue's story

2045

01:20:55,910 --> 01:20:53,120

and we wish him nothing but success in

2046

01:20:57,910 --> 01:20:55,920

his ventures going forward

2047

01:20:59,110 --> 01:20:57,920

all right i need i need to cover one

2048

01:21:01,669 --> 01:20:59,120

more thing

2049

01:21:03,430 --> 01:21:01,679

as we're reading uh last 10 minutes i

2050

01:21:04,870 --> 01:21:03,440

want to read from the book george will

2051
01:21:05,990 --> 01:21:04,880
see where i'm going quickly because it's

2052
01:21:07,140 --> 01:21:06,000
something i've been interested in a

2053
01:21:08,310 --> 01:21:07,150
while

2054
01:21:10,550 --> 01:21:08,320
[Music]

2055
01:21:12,790 --> 01:21:10,560
it talks about

2056
01:21:15,590 --> 01:21:12,800
shortly after the successful meeting

2057
01:21:17,910 --> 01:21:15,600
with o'toole at dhs sasha mover and jim

2058
01:21:19,430 --> 01:21:17,920
bell began knocking on doors beyond dhs

2059
01:21:21,830 --> 01:21:19,440
to connect with the keepers of the

2060
01:21:23,830 --> 01:21:21,840
secrets and basically

2061
01:21:27,430 --> 01:21:23,840
they came to the conclusion after being

2062
01:21:29,430 --> 01:21:27,440
rejected and told no in hell no that

2063
01:21:31,189 --> 01:21:29,440

advanced technology was sequestered

2064

01:21:33,830 --> 01:21:31,199

under government supervision at

2065

01:21:35,910 --> 01:21:33,840

aerospace contractors facilities as a

2066

01:21:37,669 --> 01:21:35,920

result dhs officials became very

2067

01:21:40,629 --> 01:21:37,679

hesitant and even fearful of moving

2068

01:21:42,550 --> 01:21:40,639

forward then we go back to 2004

2069

01:21:43,590 --> 01:21:42,560

column was on coast to coast with art

2070

01:21:45,110 --> 01:21:43,600

bell

2071

01:21:47,270 --> 01:21:45,120

and he said we have information over the

2072

01:21:49,750 --> 01:21:47,280

past few years that indicates that

2073

01:21:51,669 --> 01:21:49,760

pieces of technology have been recovered

2074

01:21:53,270 --> 01:21:51,679

um and then you say

2075

01:21:54,070 --> 01:21:53,280

there's a lot of lines of evidence we're

2076

01:21:57,830 --> 01:21:54,080

really

2077

01:21:59,750 --> 01:21:57,840

conversations kind of thing that

2078

01:22:01,910 --> 01:21:59,760

suggests there is technology that's been

2079

01:22:03,350 --> 01:22:01,920

recovered it's definitely not a smoking

2080

01:22:05,189 --> 01:22:03,360

gun so for me

2081

01:22:06,709 --> 01:22:05,199

i'm really close with eric davis and

2082

01:22:08,709 --> 01:22:06,719

i've done a lot of work on the wilson

2083

01:22:11,669 --> 01:22:08,719

davis documents calm what can you tell

2084

01:22:13,669 --> 01:22:11,679

us were you there in october 2002 do you

2085

01:22:15,270 --> 01:22:13,679

know anything you can share as far as

2086

01:22:17,350 --> 01:22:15,280

your opinion i mean i've spoken to many

2087

01:22:19,270 --> 01:22:17,360

sources i'm convinced eric interviewed

2088

01:22:20,790 --> 01:22:19,280

admiral davis back in 2002 it's not a

2089

01:22:21,990 --> 01:22:20,800

question the only question for me is

2090

01:22:23,830 --> 01:22:22,000

whether or not

2091

01:22:25,910 --> 01:22:23,840

admiral wilson you know told him the

2092

01:22:28,229 --> 01:22:25,920

truth or admiral wilson was told the

2093

01:22:29,750 --> 01:22:28,239

truth from the program manager so you're

2094

01:22:31,750 --> 01:22:29,760

one of the people who was in nids at the

2095

01:22:34,709 --> 01:22:31,760

time so if anything you can add to that

2096

01:22:36,870 --> 01:22:34,719

well this actually um happened after

2097

01:22:41,669 --> 01:22:36,880

earth davis left niz

2098

01:22:43,750 --> 01:22:41,679

um so um i i mean i know the the um that

2099

01:22:46,870 --> 01:22:43,760

that section that you read out in the in

2100

01:22:48,149 --> 01:22:46,880

the book was was um

2101
01:22:50,870 --> 01:22:48,159
essentially

2102
01:22:53,430 --> 01:22:50,880
the absolute max that we were allowed to

2103
01:22:56,950 --> 01:22:53,440
put in and that that section was

2104
01:23:00,070 --> 01:22:56,960
reviewed by four separate agencies

2105
01:23:01,750 --> 01:23:00,080
uh and departments and um going beyond

2106
01:23:04,229 --> 01:23:01,760
that section i'm not allowed to go

2107
01:23:05,110 --> 01:23:04,239
beyond that section because i still am

2108
01:23:06,390 --> 01:23:05,120
under

2109
01:23:07,350 --> 01:23:06,400
um two

2110
01:23:09,669 --> 01:23:07,360
plus

2111
01:23:11,830 --> 01:23:09,679
separate non-disclosure agreements so i

2112
01:23:14,709 --> 01:23:11,840
can't talk about anything beyond what's

2113
01:23:17,430 --> 01:23:14,719

in the book on on that score but you

2114

01:23:21,669 --> 01:23:17,440

know the what what it says in those two

2115

01:23:22,629 --> 01:23:21,679

paragraphs i think are self-explanatory

2116

01:23:24,790 --> 01:23:22,639

well i

2117

01:23:26,709 --> 01:23:24,800

i i would explain it this way as i mean

2118

01:23:28,870 --> 01:23:26,719

here's how i read that section joe is

2119

01:23:29,669 --> 01:23:28,880

that these guys went and knocked on the

2120

01:23:31,990 --> 01:23:29,679

door

2121

01:23:33,990 --> 01:23:32,000

and asked about seeing the goodies and

2122

01:23:35,910 --> 01:23:34,000

the door was slammed in their face not

2123

01:23:37,990 --> 01:23:35,920

just sort of closed and gently told to

2124

01:23:39,750 --> 01:23:38,000

go away but slammed and you can read

2125

01:23:41,669 --> 01:23:39,760

into that what you want i told you my

2126

01:23:44,470 --> 01:23:41,679

opinion about the wilson davis documents

2127

01:23:45,830 --> 01:23:44,480

uh you know i was i didn't work for nids

2128

01:23:48,070 --> 01:23:45,840

at that point

2129

01:23:49,669 --> 01:23:48,080

and uh but i did hear about it from

2130

01:23:52,310 --> 01:23:49,679

these guys and although eric had left

2131

01:23:55,030 --> 01:23:52,320

nids those ties between he and the

2132

01:23:56,550 --> 01:23:55,040

people like hal and and and mr bigelow

2133

01:23:59,189 --> 01:23:56,560

are pretty strong and remain strong to

2134

01:24:01,110 --> 01:23:59,199

this day and i think those uh i think

2135

01:24:03,430 --> 01:24:01,120

those notes are legit and that you

2136

01:24:05,189 --> 01:24:03,440

really did have that meeting

2137

01:24:07,590 --> 01:24:05,199

yeah and the reason i'm so interested in

2138

01:24:09,270 --> 01:24:07,600

it i think you guys would agree if if we

2139

01:24:10,790 --> 01:24:09,280

have an intact craft and not just a

2140

01:24:13,189 --> 01:24:10,800

piece that can be analyzed it would be a

2141

01:24:15,110 --> 01:24:13,199

game changer it would be game over if we

2142

01:24:17,110 --> 01:24:15,120

actually were able to see that that's

2143

01:24:18,870 --> 01:24:17,120

why i really have not focused on crash

2144

01:24:20,709 --> 01:24:18,880

retrievals before that i was not i mean

2145

01:24:21,990 --> 01:24:20,719

roswell yes but it's like we'll never

2146

01:24:23,830 --> 01:24:22,000

see it and then this came out and i was

2147

01:24:25,510 --> 01:24:23,840

like all right maybe and now it's made

2148

01:24:26,870 --> 01:24:25,520

it into the language with

2149

01:24:27,990 --> 01:24:26,880

i don't know if gallego was the first

2150

01:24:29,510 --> 01:24:28,000

one who brought it up and then

2151

01:24:31,110 --> 01:24:29,520

gillibrand but it's still there and i'm

2152

01:24:32,470 --> 01:24:31,120

crossing my fingers it makes it into the

2153

01:24:34,550 --> 01:24:32,480

final version of course i'm not under

2154

01:24:36,390 --> 01:24:34,560

the i'm not naive enough to think that

2155

01:24:38,390 --> 01:24:36,400

next year we're going to see the craft

2156

01:24:40,070 --> 01:24:38,400

roll out into congress for a live

2157

01:24:43,350 --> 01:24:40,080

hearing but at least we're making

2158

01:24:45,270 --> 01:24:43,360

progress and it's being talked about

2159

01:24:46,550 --> 01:24:45,280

i'd say if if somebody does in fact have

2160

01:24:48,550 --> 01:24:46,560

the goodies

2161

01:24:50,470 --> 01:24:48,560

if i were them i'd fight like hell to

2162

01:24:52,470 --> 01:24:50,480

not give them up and i'd say the closer

2163

01:24:53,910 --> 01:24:52,480

people get to them the harder that the

2164

01:24:55,910 --> 01:24:53,920

keepers of the secrets will fight to

2165

01:24:57,830 --> 01:24:55,920

hang on to them

2166

01:25:00,629 --> 01:24:57,840

my last question and this is total

2167

01:25:03,270 --> 01:25:00,639

speculation but when i saw it

2168

01:25:05,669 --> 01:25:03,280

i read 2007 jim lakatsky goes to the

2169

01:25:07,910 --> 01:25:05,679

ranch has an experience and

2170

01:25:09,510 --> 01:25:07,920

i know george you've speculated that

2171

01:25:11,510 --> 01:25:09,520

maybe this thing was wanting to be

2172

01:25:12,950 --> 01:25:11,520

studied have you got have you guys ever

2173

01:25:15,030 --> 01:25:12,960

thought about maybe it wanted to be

2174

01:25:16,790 --> 01:25:15,040

studied because it knows when people

2175

01:25:18,149 --> 01:25:16,800

visit the ranch it attaches and it can

2176
01:25:20,470 --> 01:25:18,159
spread out through the world have you

2177
01:25:21,990 --> 01:25:20,480
guys just thought about that idea

2178
01:25:24,550 --> 01:25:22,000
for for good or for bad we still don't

2179
01:25:26,149 --> 01:25:24,560
know i mean people get sick um but maybe

2180
01:25:28,709 --> 01:25:26,159
it's something more than that that we're

2181
01:25:30,470 --> 01:25:28,719
not seeing at this point

2182
01:25:32,149 --> 01:25:30,480
it could only be guesswork on our part

2183
01:25:33,910 --> 01:25:32,159
you know not everybody who goes to the

2184
01:25:35,510 --> 01:25:33,920
ranch sees something i'm an example of

2185
01:25:37,030 --> 01:25:35,520
that all the dozens of times i've been

2186
01:25:39,510 --> 01:25:37,040
there i've never seen anything i'd call

2187
01:25:40,470 --> 01:25:39,520
truly anomalous and until

2188
01:25:43,510 --> 01:25:40,480

uh a

2189

01:25:45,030 --> 01:25:43,520

a a decade or so into my visits there i

2190

01:25:47,189 --> 01:25:45,040

never brought anything home so it

2191

01:25:49,189 --> 01:25:47,199

doesn't attack everyone doesn't attach

2192

01:25:50,790 --> 01:25:49,199

itself to everyone and it doesn't show

2193

01:25:53,030 --> 01:25:50,800

its reveal itself to everyone but it

2194

01:25:55,030 --> 01:25:53,040

definitely revealed itself to jim

2195

01:25:56,950 --> 01:25:55,040

and it is uh momentous the effects have

2196

01:25:58,709 --> 01:25:56,960

been momentous there were five of those

2197

01:26:00,629 --> 01:25:58,719

intelligence agents that that column

2198

01:26:02,790 --> 01:26:00,639

talked about who visited the property

2199

01:26:04,629 --> 01:26:02,800

specifically assigned there to be there

2200

01:26:06,709 --> 01:26:04,639

as part of the program and all of them

2201
01:26:08,709 --> 01:26:06,719
had an experience and all of them took

2202
01:26:10,709 --> 01:26:08,719
something home whatever it is whatever

2203
01:26:12,070 --> 01:26:10,719
intelligence is at the ranch it seems to

2204
01:26:14,149 --> 01:26:12,080
be able to differentiate it

2205
01:26:16,709 --> 01:26:14,159
differentiates between people and

2206
01:26:19,110 --> 01:26:16,719
animals it differentiates between people

2207
01:26:21,350 --> 01:26:19,120
who are aggressive and uh and not

2208
01:26:22,950 --> 01:26:21,360
friendly and don't have good intentions

2209
01:26:24,870 --> 01:26:22,960
and those who are there to learn at

2210
01:26:27,350 --> 01:26:24,880
least that is my impression can't prove

2211
01:26:29,189 --> 01:26:27,360
it but that's my impression after 20

2212
01:26:30,870 --> 01:26:29,199
plus years of of going there and talking

2213
01:26:32,950 --> 01:26:30,880

to the people who spent a lot of time

2214

01:26:34,790 --> 01:26:32,960

did it pick jim lescatsky out for a

2215

01:26:38,149 --> 01:26:34,800

mission maybe

2216

01:26:41,189 --> 01:26:38,870

just

2217

01:26:42,550 --> 01:26:41,199

to look at the n is small i mean there

2218

01:26:44,470 --> 01:26:42,560

were five

2219

01:26:47,270 --> 01:26:44,480

five people from different intelligence

2220

01:26:50,390 --> 01:26:47,280

agencies and different uh parts of the

2221

01:26:52,229 --> 01:26:50,400

armed services uh went on the ranch as

2222

01:26:53,350 --> 01:26:52,239

part of the osap program as georgians

2223

01:26:55,750 --> 01:26:53,360

just said

2224

01:26:58,310 --> 01:26:55,760

and the fact that five out of five 100

2225

01:27:00,070 --> 01:26:58,320

percent there were no exceptions

2226

01:27:03,830 --> 01:27:00,080

um to this

2227

01:27:06,310 --> 01:27:03,840

all five uh actually did did

2228

01:27:09,350 --> 01:27:06,320

encounter something and also brought

2229

01:27:11,830 --> 01:27:09,360

something home with them now that's goes

2230

01:27:14,870 --> 01:27:11,840

way beyond what the what the

2231

01:27:17,030 --> 01:27:14,880

statistical norm is on on skinwalker

2232

01:27:18,870 --> 01:27:17,040

ranch there's a lot of people have gone

2233

01:27:20,629 --> 01:27:18,880

through that property

2234

01:27:22,629 --> 01:27:20,639

you know people have investigated for a

2235

01:27:24,870 --> 01:27:22,639

couple of weeks kind of thing

2236

01:27:28,310 --> 01:27:24,880

people have been on the property

2237

01:27:31,270 --> 01:27:28,320

five out of five 100 no exceptions is

2238

01:27:34,470 --> 01:27:31,280

a statistical blip now the question is

2239

01:27:35,830 --> 01:27:34,480

is that meaningful and and you know

2240

01:27:38,149 --> 01:27:35,840

um

2241

01:27:40,950 --> 01:27:38,159

the way to test that is to put another

2242

01:27:42,709 --> 01:27:40,960

five or ten people from various

2243

01:27:45,430 --> 01:27:42,719

intelligence services

2244

01:27:46,390 --> 01:27:45,440

maybe people from the uap task force can

2245

01:27:49,189 --> 01:27:46,400

volunteer

2246

01:27:52,310 --> 01:27:49,199

to go up on skinwalker ranch and part of

2247

01:27:52,950 --> 01:27:52,320

the you know the public good and uh and

2248

01:27:57,669 --> 01:27:52,960

and

2249

01:28:00,390 --> 01:27:57,679

of joking but i mean um

2250

01:28:04,629 --> 01:28:00,400

to me five and out of five 100 no

2251

01:28:07,110 --> 01:28:04,639

exceptions was very very stunning and um

2252

01:28:08,550 --> 01:28:07,120

i would like to see that number sort of

2253

01:28:11,030 --> 01:28:08,560

tested

2254

01:28:13,990 --> 01:28:11,040

to see if it was if 20 people went on

2255

01:28:15,990 --> 01:28:14,000

the ranch would it be 5 out of 20 or

2256

01:28:17,830 --> 01:28:16,000

would it be 10 out of 20 would it be 20

2257

01:28:20,149 --> 01:28:17,840

out of 20. um

2258

01:28:21,910 --> 01:28:20,159

that experiment remains to be done and

2259

01:28:23,350 --> 01:28:21,920

the other thing is people and i george

2260

01:28:25,350 --> 01:28:23,360

mentioned that the attitude of the

2261

01:28:26,390 --> 01:28:25,360

person going in affects their experience

2262

01:28:28,390 --> 01:28:26,400

although

2263

01:28:29,990 --> 01:28:28,400

thomas winterton didn't have a combative

2264

01:28:31,750 --> 01:28:30,000

experience and i don't know if you have

2265

01:28:33,430 --> 01:28:31,760

any data on that but

2266

01:28:35,189 --> 01:28:33,440

is there data as far as related to

2267

01:28:36,790 --> 01:28:35,199

somebody's attitude when they went in

2268

01:28:37,830 --> 01:28:36,800

saying oh this is nothing nothing's

2269

01:28:39,990 --> 01:28:37,840

going to happen and then they get

2270

01:28:40,830 --> 01:28:40,000

slammed to the really life-changing

2271

01:28:43,510 --> 01:28:40,840

changing

2272

01:28:45,830 --> 01:28:43,520

event well probably not data just

2273

01:28:47,910 --> 01:28:45,840

observations uh from me being around her

2274

01:28:49,910 --> 01:28:47,920

for so long you know i know that when i

2275

01:28:51,350 --> 01:28:49,920

go there i get in the mental framework

2276

01:28:53,430 --> 01:28:51,360

that i'm going to be ready for whatever

2277

01:28:56,229 --> 01:28:53,440

happens and i'm respectful and i think

2278

01:28:58,229 --> 01:28:56,239

column does the same thing

2279

01:29:00,149 --> 01:28:58,239

absolutely yeah

2280

01:29:01,430 --> 01:29:00,159

but again you know that the thomas

2281

01:29:02,629 --> 01:29:01,440

winterton

2282

01:29:04,870 --> 01:29:02,639

um

2283

01:29:07,669 --> 01:29:04,880

incident goes back to and obviously

2284

01:29:09,910 --> 01:29:07,679

there's a lot a lot of data we we i i

2285

01:29:11,830 --> 01:29:09,920

personally don't know but it does go

2286

01:29:14,629 --> 01:29:11,840

back to the necessity and i know they

2287

01:29:16,950 --> 01:29:14,639

have already done this of you know

2288

01:29:19,910 --> 01:29:16,960

intensive investigation over long

2289

01:29:22,550 --> 01:29:19,920

periods of time and and again and again

2290

01:29:25,590 --> 01:29:22,560

i mean i can't say this too often that

2291

01:29:28,709 --> 01:29:25,600

the these kinds of programs

2292

01:29:31,669 --> 01:29:28,719

have ushered in a way of approaching

2293

01:29:34,550 --> 01:29:31,679

this phenomenon that does extend into

2294

01:29:37,030 --> 01:29:34,560

months and years of following people and

2295

01:29:39,750 --> 01:29:37,040

that is frankly uh

2296

01:29:43,270 --> 01:29:39,760

resource intensive so what whatever

2297

01:29:44,790 --> 01:29:43,280

follows on from uh what the us the uap

2298

01:29:47,830 --> 01:29:44,800

task force has done

2299

01:29:49,510 --> 01:29:47,840

will need to be very resource intensive

2300

01:29:51,270 --> 01:29:49,520

and uh in order to be able to get

2301
01:29:53,910 --> 01:29:51,280
answers because

2302
01:29:55,590 --> 01:29:53,920
the years and years that i spent with

2303
01:29:58,070 --> 01:29:55,600
the national institute for discovery

2304
01:29:59,750 --> 01:29:58,080
science the years that i've spent with

2305
01:30:02,390 --> 01:29:59,760
uh with asap

2306
01:30:05,350 --> 01:30:02,400
have convinced me that

2307
01:30:07,030 --> 01:30:05,360
you know what we've done has only

2308
01:30:09,590 --> 01:30:07,040
scratch the surface

2309
01:30:12,390 --> 01:30:09,600
we really need to focus on

2310
01:30:15,910 --> 01:30:12,400
deploying a lot of resources to answer

2311
01:30:19,830 --> 01:30:17,830
just real quick

2312
01:30:21,669 --> 01:30:19,840
go ahead george no i was gonna say bye

2313
01:30:23,830 --> 01:30:21,679

but go ahead no just really quick did

2314

01:30:25,430 --> 01:30:23,840

you guys purposely just keep it

2315

01:30:28,470 --> 01:30:25,440

to the story and not talk to people like

2316

01:30:29,910 --> 01:30:28,480

valet or davis or put off or green who

2317

01:30:34,950 --> 01:30:29,920

actually worked in the program was there

2318

01:30:38,390 --> 01:30:37,030

from what perspective just like not

2319

01:30:39,750 --> 01:30:38,400

getting

2320

01:30:41,270 --> 01:30:39,760

direct quotes from the people who were

2321

01:30:42,950 --> 01:30:41,280

involved in the program

2322

01:30:44,709 --> 01:30:42,960

we wanted to keep it pretty quiet what

2323

01:30:45,990 --> 01:30:44,719

we were doing because we're afraid that

2324

01:30:48,390 --> 01:30:46,000

there was you know there would be an

2325

01:30:50,550 --> 01:30:48,400

attempt to sabotage it along the way

2326

01:30:52,950 --> 01:30:50,560

and so they didn't find out until pretty

2327

01:30:55,030 --> 01:30:52,960

close to the end but uh but i think

2328

01:30:56,709 --> 01:30:55,040

column shared it with uh several of his

2329

01:30:58,310 --> 01:30:56,719

colleagues and they were all pretty much

2330

01:31:00,629 --> 01:30:58,320

supported

2331

01:31:03,030 --> 01:31:00,639

yeah i mean a number of people did know

2332

01:31:04,149 --> 01:31:03,040

exactly what was what were the contents

2333

01:31:07,590 --> 01:31:04,159

of the book

2334

01:31:09,990 --> 01:31:07,600

um prior to publication so it was not a

2335

01:31:13,110 --> 01:31:10,000

a complete secret but we did want to

2336

01:31:14,790 --> 01:31:13,120

keep it close to the the chest but uh

2337

01:31:17,189 --> 01:31:14,800

you know

2338

01:31:19,830 --> 01:31:17,199

people who were part of the program did

2339

01:31:22,070 --> 01:31:19,840

take a look at the at the book um in

2340

01:31:24,310 --> 01:31:22,080

fact several several people who were

2341

01:31:28,470 --> 01:31:24,320

part of the program looked at the book

2342

01:31:31,910 --> 01:31:28,480

both uh very early on and um and later

2343

01:31:35,590 --> 01:31:31,920

stages too so um it there were a lot of

2344

01:31:37,830 --> 01:31:35,600

a lot of people who were cognizant of it

2345

01:31:39,430 --> 01:31:37,840

so you two guys if you weren't born if

2346

01:31:41,430 --> 01:31:39,440

you didn't write humphrey the skinwalker

2347

01:31:42,950 --> 01:31:41,440

and skinwalkers at the pentagon we

2348

01:31:45,350 --> 01:31:42,960

wouldn't have had ostap we wouldn't have

2349

01:31:47,510 --> 01:31:45,360

had the language in the gila brand

2350

01:31:49,030 --> 01:31:47,520

amendment and and i know that's people

2351

01:31:50,629 --> 01:31:49,040

are making fun of that but it's true

2352

01:31:51,990 --> 01:31:50,639

likkatsky doesn't have his experience if

2353

01:31:53,350 --> 01:31:52,000

you guys don't write that book hunt for

2354

01:31:55,189 --> 01:31:53,360

the skinwalker and we wouldn't be where

2355

01:31:56,629 --> 01:31:55,199

we are right now so thank you for being

2356

01:31:58,470 --> 01:31:56,639

open-minded enough to look at the

2357

01:31:59,910 --> 01:31:58,480

evidence and go wherever it leads you

2358

01:32:02,149 --> 01:31:59,920

and i appreciate you guys taking so much

2359

01:32:03,350 --> 01:32:02,159

time with me today it's been great

2360

01:32:04,790 --> 01:32:03,360

thanks joe

2361

01:32:06,629 --> 01:32:04,800

yeah thanks it was really good to be

2362

01:32:10,830 --> 01:32:06,639

here appreciate you thank you guys talk

2363

01:32:17,669 --> 01:32:13,990

george so that was great uh

2364

01:32:20,070 --> 01:32:17,679

if you guys want to support the channel

2365

01:32:21,270 --> 01:32:20,080

that's my paypal

2366

01:32:23,830 --> 01:32:21,280

and

2367

01:32:28,310 --> 01:32:23,840

patreon

2368

01:32:28,320 --> 01:32:32,790

that is my website and twitter

2369

01:32:37,110 --> 01:32:35,669

and venmo and uh yeah that that book is

2370

01:32:38,629 --> 01:32:37,120

those two books are my favorite i mean i

2371

01:32:40,470 --> 01:32:38,639

don't just say that i've read i will

2372

01:32:41,990 --> 01:32:40,480

read skin workers at the pentagon over

2373

01:32:44,229 --> 01:32:42,000

and over there's so much stuff in there

2374

01:32:45,910 --> 01:32:44,239

i still have not

2375

01:32:47,030 --> 01:32:45,920

it has not all soaked in and i need to

2376

01:32:48,709 --> 01:32:47,040

go back and look at hunter the

2377

01:32:50,629 --> 01:32:48,719

skinwalker because the latter part of

2378

01:32:52,310 --> 01:32:50,639

hunt for the skinwalker is probably one

2379

01:32:54,790 --> 01:32:52,320

of my favorite ufo books because it's

2380

01:32:55,830 --> 01:32:54,800

not just about skinwalker ranch it talks

2381

01:32:57,910 --> 01:32:55,840

about

2382

01:32:59,750 --> 01:32:57,920

all the theories all of the evidence why

2383

01:33:02,870 --> 01:32:59,760

some people are willing to accept some

2384

01:33:04,070 --> 01:33:02,880

theories and not other theories and

2385

01:33:06,070 --> 01:33:04,080

so

2386

01:33:08,790 --> 01:33:06,080

i can't recommend those two books highly

2387

01:33:10,629 --> 01:33:08,800

enough and i'll talk to you guys soon

2388

01:33:12,390 --> 01:33:10,639

do another live stream soon probably
