

**FORMER DEFENSE & INTELLIGENCE CONTRACTOR
MICHAEL VIA FROM "UNIDENTIFIED"**

1
00:01:44,870 --> 00:01:43,969
we are live uh thanks everybody for

2
00:01:46,910 --> 00:01:44,880
being here

3
00:01:49,550 --> 00:01:46,920
from Michael VI who I'm going to bring

4
00:01:51,590 --> 00:01:49,560
in in two seconds

5
00:01:53,330 --> 00:01:51,600
I don't know if you guys have ever

6
00:01:55,310 --> 00:01:53,340
listen to any of my interviews with

7
00:01:57,230 --> 00:01:55,320
Michael but he is one of the more

8
00:01:59,389 --> 00:01:57,240
knowledgeable people I know

9
00:02:02,210 --> 00:01:59,399
Eric Davis is up there Michael Vai is up

10
00:02:05,149 --> 00:02:02,220
there as far as ufology and related

11
00:02:07,490 --> 00:02:05,159
topics and I'm going to bring Michael in

12
00:02:10,669 --> 00:02:07,500
here and we're going to talk about Sean

13
00:02:12,290 --> 00:02:10,679

Kirkpatrick and his testimony

14

00:02:15,650 --> 00:02:12,300

the other day

15

00:02:18,589 --> 00:02:15,660

hey Michael how you doing hey Joe doing

16

00:02:19,790 --> 00:02:18,599

well I'm not I I don't like introducing

17

00:02:22,010 --> 00:02:19,800

people I like when they introduce

18

00:02:23,750 --> 00:02:22,020

themselves so just for people who don't

19

00:02:27,410 --> 00:02:23,760

know who you are for the first time ever

20

00:02:29,030 --> 00:02:27,420

just briefly describe who you are in

21

00:02:30,350 --> 00:02:29,040

your background

22

00:02:34,250 --> 00:02:30,360

okay

23

00:02:36,050 --> 00:02:34,260

um I am a former Naval cryptologist uh

24

00:02:37,910 --> 00:02:36,060

an Iranian linguist

25

00:02:42,229 --> 00:02:37,920

a naval air crewman

26

00:02:44,390 --> 00:02:42,239

I had 350 combat flight hours in in

27

00:02:47,710 --> 00:02:44,400

Operation Desert Storm

28

00:02:49,910 --> 00:02:47,720

back in the in 1991

29

00:02:52,490 --> 00:02:49,920

I've worked for

30

00:02:54,650 --> 00:02:52,500

let's just say well over 20 years

31

00:02:55,610 --> 00:02:54,660

in the intelligence and defense

32

00:02:59,809 --> 00:02:55,620

community

33

00:03:02,089 --> 00:02:59,819

specifically my area of expertise is

34

00:03:05,690 --> 00:03:02,099

um what I call Overhead

35

00:03:08,750 --> 00:03:05,700

which is non-air breathing which means

36

00:03:10,550 --> 00:03:08,760

satellites uh intelligence collection

37

00:03:13,430 --> 00:03:10,560

systems

38

00:03:16,509 --> 00:03:13,440

predominantly signals intelligence

39

00:03:21,649 --> 00:03:19,430

I currently work now for probably the

40

00:03:24,589 --> 00:03:21,659

world's oldest I.T company

41

00:03:26,149 --> 00:03:24,599

as a cyber security consultant and I

42

00:03:28,309 --> 00:03:26,159

also still

43

00:03:30,490 --> 00:03:28,319

um I'm still clear so I still have to be

44

00:03:33,949 --> 00:03:30,500

very careful about what I say

45

00:03:36,350 --> 00:03:33,959

with this topic or anything else so

46

00:03:40,190 --> 00:03:36,360

pleasure to be here yeah glad to have

47

00:03:42,470 --> 00:03:40,200

you again always great and basically so

48

00:03:44,270 --> 00:03:42,480

just overall you watch you got to see

49

00:03:46,009 --> 00:03:44,280

Sean Kirkpatrick speak

50

00:03:48,289 --> 00:03:46,019

at the hearing

51
00:03:50,149 --> 00:03:48,299
what are your thoughts I know we we kind

52
00:03:52,550 --> 00:03:50,159
of battled a little bit over it when I

53
00:03:55,490 --> 00:03:52,560
first spoke to you about it

54
00:03:57,410 --> 00:03:55,500
um but I mean I'm more in line of what

55
00:03:59,630 --> 00:03:57,420
you have to say but I have some issues

56
00:04:02,270 --> 00:03:59,640
but my issues my issues are more with

57
00:04:04,190 --> 00:04:02,280
all not Kirkpatrick it's the whole

58
00:04:06,009 --> 00:04:04,200
system but basically so tell me what you

59
00:04:08,930 --> 00:04:06,019
thought overall and we'll get into

60
00:04:10,850 --> 00:04:08,940
specifics yeah so so we'll screen share

61
00:04:12,470 --> 00:04:10,860
it a minute and I'll have have my notes

62
00:04:16,370 --> 00:04:12,480
my bullet points

63
00:04:18,949 --> 00:04:16,380

um that the bottom line for me I was I

64

00:04:20,030 --> 00:04:18,959

was really impressed with how sober

65

00:04:24,170 --> 00:04:20,040

serious

66

00:04:26,150 --> 00:04:24,180

and attentive to detail that he was uh

67

00:04:29,390 --> 00:04:26,160

which was refreshing compared to the

68

00:04:32,030 --> 00:04:29,400

first testimony when the UAP task force

69

00:04:35,510 --> 00:04:32,040

guys and I forget their names doesn't

70

00:04:38,090 --> 00:04:35,520

matter uh mulch tree

71

00:04:40,610 --> 00:04:38,100

yeah they really I wouldn't say they

72

00:04:43,430 --> 00:04:40,620

gave it all short shrift they just were

73

00:04:46,670 --> 00:04:43,440

grossly unprepared and whenever you go

74

00:04:47,870 --> 00:04:46,680

before a leadership body whether it's

75

00:04:49,550 --> 00:04:47,880

inside

76

00:04:53,210 --> 00:04:49,560

let's say for example the national

77

00:04:55,129 --> 00:04:53,220

reconnaissance office or CIA or hey pick

78

00:04:57,650 --> 00:04:55,139

your domain

79

00:05:00,290 --> 00:04:57,660

um you need to come prepared and I

80

00:05:02,150 --> 00:05:00,300

didn't feel that they came prepared and

81

00:05:04,010 --> 00:05:02,160

clearly they were not based on the

82

00:05:05,930 --> 00:05:04,020

questions that were asked and the ones

83

00:05:08,450 --> 00:05:05,940

that they couldn't answer

84

00:05:10,909 --> 00:05:08,460

um but this guy I was roundly impressed

85

00:05:13,670 --> 00:05:10,919

with him and there are lots of reasons

86

00:05:16,670 --> 00:05:13,680

that I can cite as to why that is a lot

87

00:05:19,090 --> 00:05:16,680

of it stems from my background and

88

00:05:21,590 --> 00:05:19,100

working with some of the most

89

00:05:24,170 --> 00:05:21,600

intellectually scary people

90

00:05:24,890 --> 00:05:24,180

that I've ever met in my life by that I

91

00:05:29,390 --> 00:05:24,900

mean

92

00:05:31,490 --> 00:05:29,400

you you are challenged to in in my line

93

00:05:33,290 --> 00:05:31,500

of work to present information that is

94

00:05:35,629 --> 00:05:33,300

Meaningful to them as a decision maker

95

00:05:36,950 --> 00:05:35,639

and you best be

96

00:05:40,610 --> 00:05:36,960

prepared

97

00:05:43,249 --> 00:05:40,620

and you best be knowledgeable and on

98

00:05:46,670 --> 00:05:43,259

point and don't waste their time and so

99

00:05:48,590 --> 00:05:46,680

I I felt like Dr Kirkpatrick was spot

100

00:05:49,550 --> 00:05:48,600

off

101
00:05:52,310 --> 00:05:49,560
um

102
00:05:53,570 --> 00:05:52,320
I was impressed and we'll see where it

103
00:05:56,510 --> 00:05:53,580
goes

104
00:05:57,469 --> 00:05:56,520
I and I when I first watched it I I was

105
00:05:59,150 --> 00:05:57,479
like all right there were some things

106
00:06:00,529 --> 00:05:59,160
that I was pleasantly surprised with and

107
00:06:02,629 --> 00:06:00,539
then when I did the transcript I'm

108
00:06:04,670 --> 00:06:02,639
thinking now I know why Michael thought

109
00:06:06,950 --> 00:06:04,680
you know so highly of him because yeah

110
00:06:09,469 --> 00:06:06,960
he's obviously was prepared

111
00:06:11,270 --> 00:06:09,479
um I had no issues with you know overall

112
00:06:13,610 --> 00:06:11,280
what he's talking about what arrow is

113
00:06:15,230 --> 00:06:13,620

trying to do collect as much data as

114

00:06:17,990 --> 00:06:15,240

possible and not come to any conclusions

115

00:06:20,689 --> 00:06:18,000

unless unless they have enough data um

116

00:06:22,129 --> 00:06:20,699

but you know my issues and they're

117

00:06:23,629 --> 00:06:22,139

specific things that he said that it

118

00:06:25,370 --> 00:06:23,639

were a little annoying to me when he's

119

00:06:27,830 --> 00:06:25,380

talking about not doing science science

120

00:06:29,330 --> 00:06:27,840

by blog and Mike I understand you know I

121

00:06:31,730 --> 00:06:29,340

don't think we should be doing that

122

00:06:33,529 --> 00:06:31,740

obviously um but my problem is and I

123

00:06:35,510 --> 00:06:33,539

know you I'm I know you agree the data

124

00:06:37,909 --> 00:06:35,520

is out there we just don't have access

125

00:06:40,969 --> 00:06:37,919

to it what I don't know and I would love

126
00:06:43,249 --> 00:06:40,979
to get an answer there's data because he

127
00:06:45,170 --> 00:06:43,259
said his data is very what he talked

128
00:06:47,390 --> 00:06:45,180
about does not sound like when Lou says

129
00:06:49,370 --> 00:06:47,400
you know there's a 23 minute video out

130
00:06:51,469 --> 00:06:49,380
there that if you saw it it would be

131
00:06:53,330 --> 00:06:51,479
game over I don't think that video is

132
00:06:55,790 --> 00:06:53,340
locked up in some special access program

133
00:06:58,909 --> 00:06:55,800
very you know almost impossible to get

134
00:07:01,550 --> 00:06:58,919
at unless you're read in so there's a

135
00:07:03,290 --> 00:07:01,560
line crash retrieval you know alleged

136
00:07:07,370 --> 00:07:03,300
crash retrieval special access program

137
00:07:10,430 --> 00:07:07,380
23 minute video and then Arrow data does

138
00:07:13,189 --> 00:07:10,440

does Kirkpatrick not have the 23 minute

139

00:07:15,650 --> 00:07:13,199

video that's my big that's one of my

140

00:07:17,629 --> 00:07:15,660

questions it's it's not so think about

141

00:07:21,830 --> 00:07:17,639

the venue right there were there were

142

00:07:25,189 --> 00:07:21,840

two brief things closed door public we

143

00:07:28,370 --> 00:07:25,199

saw the public we should not have seen

144

00:07:31,870 --> 00:07:28,380

uh or heard reference to anything that

145

00:07:35,150 --> 00:07:31,880

was super sensitive that's all probably

146

00:07:37,430 --> 00:07:35,160

most assuredly something that could have

147

00:07:39,290 --> 00:07:37,440

been discussed uh in the closed ordering

148

00:07:41,689 --> 00:07:39,300

but it's not in his chart though it's

149

00:07:43,870 --> 00:07:41,699

that kind of he doesn't already

150

00:07:47,450 --> 00:07:43,880

mentioned that

151
00:07:49,070 --> 00:07:47,460
it's like they're really small objects

152
00:07:50,390 --> 00:07:49,080
and it's like all right that your data

153
00:07:52,969 --> 00:07:50,400
is not impressive

154
00:07:54,409 --> 00:07:52,979
so I don't understand if he did see a 23

155
00:07:56,689 --> 00:07:54,419
minute video why that doesn't make it

156
00:07:59,629 --> 00:07:56,699
into your chart and say we do have some

157
00:08:01,790 --> 00:07:59,639
that are just really really impressive

158
00:08:05,150 --> 00:08:01,800
and we don't know they're anomalous 100

159
00:08:08,870 --> 00:08:05,160
that's for me what's lacking

160
00:08:13,370 --> 00:08:10,969
he was being very careful he was being

161
00:08:16,610 --> 00:08:13,380
very appropriate about sharing

162
00:08:18,650 --> 00:08:16,620
information in a public public domain so

163
00:08:20,450 --> 00:08:18,660

I wasn't surprised that he didn't

164

00:08:21,770 --> 00:08:20,460

mention some of the some of the things

165

00:08:24,110 --> 00:08:21,780

that we've heard about over the last

166

00:08:26,150 --> 00:08:24,120

months or years do you think he's seen

167

00:08:28,730 --> 00:08:26,160

that stuff

168

00:08:31,189 --> 00:08:28,740

well that's under his purview so I would

169

00:08:33,889 --> 00:08:31,199

imagine so yeah but but he's not gonna

170

00:08:36,409 --> 00:08:33,899

because to talk about that in an open

171

00:08:38,870 --> 00:08:36,419

public forum is going to open up the

172

00:08:40,909 --> 00:08:38,880

proverbial can of worms there he's not

173

00:08:44,089 --> 00:08:40,919

going to put the Senators whether there

174

00:08:45,769 --> 00:08:44,099

were three there or 33 there or a

175

00:08:48,410 --> 00:08:45,779

hundred

176
00:08:49,850 --> 00:08:48,420
he's 100 100 people in the audience he's

177
00:08:51,290 --> 00:08:49,860
not going to open up that can of worms

178
00:08:53,750 --> 00:08:51,300
to the audience

179
00:08:56,090 --> 00:08:53,760
right because it's just going to cause

180
00:08:58,730 --> 00:08:56,100
threads to be pulled and questions that

181
00:09:00,590 --> 00:08:58,740
will take forever to answer lots of

182
00:09:03,290 --> 00:09:00,600
sensitivities so no I wasn't surprised

183
00:09:06,410 --> 00:09:03,300
if you didn't mention any of that

184
00:09:08,509 --> 00:09:06,420
sorry I had to be my dog is barking um

185
00:09:11,570 --> 00:09:08,519
let's let's let's bring in your screen

186
00:09:13,670 --> 00:09:11,580
share and go over your points

187
00:09:16,370 --> 00:09:13,680
um like I said I I just transcribed it

188
00:09:18,889 --> 00:09:16,380

I'll have it up probably tonight

189

00:09:20,750 --> 00:09:18,899

so people can see that

190

00:09:23,930 --> 00:09:20,760

um it was better the second time through

191

00:09:25,790 --> 00:09:23,940

I'm still a little concerned about if he

192

00:09:27,650 --> 00:09:25,800

has I know you think he has access to

193

00:09:29,570 --> 00:09:27,660

everything he should have access to

194

00:09:31,490 --> 00:09:29,580

everything as far as I mean I don't

195

00:09:32,810 --> 00:09:31,500

think he has access to a if there's a

196

00:09:35,269 --> 00:09:32,820

crash retrieval program I don't think

197

00:09:37,370 --> 00:09:35,279

he's been given need to know access for

198

00:09:39,530 --> 00:09:37,380

that but talking about the videos all

199

00:09:41,090 --> 00:09:39,540

right let me add your so there is your

200

00:09:44,449 --> 00:09:41,100

screen share

201

00:09:47,030 --> 00:09:44,459

yeah and if he has access to that

202

00:09:49,310 --> 00:09:47,040

stuff you see that because it's all your

203

00:09:51,110 --> 00:09:49,320

DMs

204

00:09:55,190 --> 00:09:51,120

no that's not what you're supposed to be

205

00:09:57,710 --> 00:09:55,200

seeing so that's that's your screen

206

00:10:01,310 --> 00:09:57,720

let me yeah let me

207

00:10:03,650 --> 00:10:01,320

let me if we can't get to it yeah we

208

00:10:12,829 --> 00:10:03,660

just did it we just did it we tested it

209

00:10:18,170 --> 00:10:15,410

and you know I know we talked about how

210

00:10:20,810 --> 00:10:18,180

only three Senators showed up with other

211

00:10:22,430 --> 00:10:20,820

staffers and a lot of it has to do a lot

212

00:10:25,850 --> 00:10:22,440

of it is Stanford there we go

213

00:10:28,730 --> 00:10:25,860

well that's us that is it there you go

214

00:10:30,650 --> 00:10:28,740

okay all right so let's get started so I

215

00:10:33,889 --> 00:10:30,660

I could have come away with like 10

216

00:10:36,170 --> 00:10:33,899

maybe 15 sort of uh hot takes on this

217

00:10:39,170 --> 00:10:36,180

but bottom line up front

218

00:10:41,810 --> 00:10:39,180

I thought he was super prepared

219

00:10:42,650 --> 00:10:41,820

he took it super seriously and he did a

220

00:10:45,829 --> 00:10:42,660

great job

221

00:10:47,930 --> 00:10:45,839

he he also was very impressive from his

222

00:10:49,670 --> 00:10:47,940

sort of now we know as a doctor a PhD

223

00:10:52,370 --> 00:10:49,680

but his

224

00:10:55,610 --> 00:10:52,380

technical Acumen the Mastery of the

225

00:10:58,250 --> 00:10:55,620

subject matter and and a keen and semi

226

00:10:59,569 --> 00:10:58,260

seemingly sincere attitude that was I

227

00:11:01,850 --> 00:10:59,579

appreciated that

228

00:11:03,949 --> 00:11:01,860

but I would it's something that I I

229

00:11:05,750 --> 00:11:03,959

would have expected from somebody of his

230

00:11:08,090 --> 00:11:05,760

caliber okay

231

00:11:09,949 --> 00:11:08,100

any one thing that I thought was

232

00:11:12,230 --> 00:11:09,959

interesting was his

233

00:11:15,050 --> 00:11:12,240

several times he mentioned these what he

234

00:11:16,970 --> 00:11:15,060

called the interagency now for folks

235

00:11:19,310 --> 00:11:16,980

that don't know if there are what 17

236

00:11:20,449 --> 00:11:19,320

intelligence agencies in the United

237

00:11:25,250 --> 00:11:20,459

States

238

00:11:27,230 --> 00:11:25,260

nro CIA Dia NSA you name it right it's

239

00:11:28,910 --> 00:11:27,240

just go Google it you can find out what

240

00:11:31,730 --> 00:11:28,920

they are who they are

241

00:11:34,610 --> 00:11:31,740

but he talked about the importance of

242

00:11:37,610 --> 00:11:34,620

the tie-ins or the connections and data

243

00:11:40,009 --> 00:11:37,620

sharing or reaching out across the

244

00:11:41,090 --> 00:11:40,019

interagency I thought that was pretty

245

00:11:44,650 --> 00:11:41,100

important

246

00:11:49,670 --> 00:11:44,660

and then he also many times

247

00:11:52,069 --> 00:11:49,680

uh a lost count in the transcript uh the

248

00:11:54,590 --> 00:11:52,079

Symmetry between the urgency to get

249

00:11:57,530 --> 00:11:54,600

answers while you know maintaining

250

00:12:00,710 --> 00:11:57,540

scientific rigor and thoroughness he's

251
00:12:03,050 --> 00:12:00,720
he's very serious uh

252
00:12:05,210 --> 00:12:03,060
as far as being attentive to doing it

253
00:12:08,389 --> 00:12:05,220
the right way right

254
00:12:09,710 --> 00:12:08,399
and then uh commitment to organizational

255
00:12:12,590 --> 00:12:09,720
success

256
00:12:14,810 --> 00:12:12,600
now the the one thing I didn't

257
00:12:16,910 --> 00:12:14,820
actually maybe he did mention it but I

258
00:12:20,389 --> 00:12:16,920
forget how he mentioned it

259
00:12:23,690 --> 00:12:20,399
Chris Mellon wrote an article last year

260
00:12:25,610 --> 00:12:23,700
you can go into Chris melon's website

261
00:12:28,430 --> 00:12:25,620
to get the details so I'm going to

262
00:12:30,530 --> 00:12:28,440
paraphrase but the bottom line is

263
00:12:32,389 --> 00:12:30,540

this takes money

264

00:12:34,550 --> 00:12:32,399

so if you go back to Lou Elizondo

265

00:12:38,569 --> 00:12:34,560

talking about this going back several

266

00:12:40,730 --> 00:12:38,579

years it's about a getting the attention

267

00:12:43,730 --> 00:12:40,740

of decision makers

268

00:12:46,190 --> 00:12:43,740

well one with one way you do that is you

269

00:12:50,210 --> 00:12:46,200

make it a threat

270

00:12:52,490 --> 00:12:50,220

indeed it is or could be a threat

271

00:12:56,990 --> 00:12:52,500

but the way you get the attention of DOD

272

00:13:00,290 --> 00:12:57,000

and the IC is to get it on a list of

273

00:13:02,930 --> 00:13:00,300

things we need to be worried about AKA a

274

00:13:04,069 --> 00:13:02,940

threat so where I'm going with this is

275

00:13:07,190 --> 00:13:04,079

that

276

00:13:10,310 --> 00:13:07,200

it takes budget it takes money it takes

277

00:13:11,810 --> 00:13:10,320

you know getting dollars allocated to

278

00:13:14,389 --> 00:13:11,820

the effort

279

00:13:16,310 --> 00:13:14,399

so I I was kind of impressed with more

280

00:13:20,030 --> 00:13:16,320

than impressed with just his lead off

281

00:13:23,389 --> 00:13:20,040

when he was in his opening statements

282

00:13:26,150 --> 00:13:23,399

so just so people know

283

00:13:27,410 --> 00:13:26,160

it's probably the way my mind works is

284

00:13:28,610 --> 00:13:27,420

different from anybody else's mind

285

00:13:29,329 --> 00:13:28,620

because we're all different we're all

286

00:13:31,970 --> 00:13:29,339

human

287

00:13:34,430 --> 00:13:31,980

but I probably overly highlight

288

00:13:36,590 --> 00:13:34,440

but everything I have agreed because we

289

00:13:39,170 --> 00:13:36,600

have time okay so everything in green

290

00:13:41,210 --> 00:13:39,180

are things that I thought what you know

291

00:13:43,670 --> 00:13:41,220

was something important and then I've

292

00:13:45,410 --> 00:13:43,680

got some red highlighted that I thought

293

00:13:47,569 --> 00:13:45,420

was you know sort of like the horse

294

00:13:49,910 --> 00:13:47,579

stomping the barn floor

295

00:13:52,670 --> 00:13:49,920

so right off the bat he's talking about

296

00:13:55,370 --> 00:13:52,680

the threat we're trying to prevent a

297

00:13:57,530 --> 00:13:55,380

technical or intelligent surprise okay

298

00:13:59,810 --> 00:13:57,540

whether that's from a foreign adversary

299

00:14:02,150 --> 00:13:59,820

country which they've pretty much ruled

300

00:14:03,889 --> 00:14:02,160

out in a lot of the cases that most of

301
00:14:06,110 --> 00:14:03,899
us know about

302
00:14:08,389 --> 00:14:06,120
um how could it possibly be and we keep

303
00:14:11,090 --> 00:14:08,399
such good tabs without going into

304
00:14:12,590 --> 00:14:11,100
details on our adversaries we kind of

305
00:14:14,870 --> 00:14:12,600
know what the technical state of the art

306
00:14:17,930 --> 00:14:14,880
is whether it's North Korea China Russia

307
00:14:20,150 --> 00:14:17,940
France you name it so we're trying to

308
00:14:21,829 --> 00:14:20,160
avoid a technical or intelligence

309
00:14:22,730 --> 00:14:21,839
surprise

310
00:14:25,310 --> 00:14:22,740
um

311
00:14:27,050 --> 00:14:25,320
and here's the thing you know the

312
00:14:30,530 --> 00:14:27,060
Congress and the Department of Defense

313
00:14:34,810 --> 00:14:30,540

which also the IC the intelligence

314

00:14:38,389 --> 00:14:34,820

Community it it's uh it cannot go

315

00:14:41,150 --> 00:14:38,399

unexamined or unaddressed any longer now

316

00:14:42,650 --> 00:14:41,160

my contention is that's part of

317

00:14:46,990 --> 00:14:42,660

my French

318

00:14:52,310 --> 00:14:50,150

well you know we've talked about it

319

00:14:55,189 --> 00:14:52,320

before I don't for one minute believe

320

00:14:57,530 --> 00:14:55,199

it's gone unaddressed okay right he's

321

00:14:59,389 --> 00:14:57,540

but he's in a public forum so just you

322

00:15:01,970 --> 00:14:59,399

got to kind of you know interpret what

323

00:15:04,250 --> 00:15:01,980

he's saying and remember when people are

324

00:15:06,170 --> 00:15:04,260

telling you something you have to it's

325

00:15:08,090 --> 00:15:06,180

important to think about what they're

326

00:15:10,550 --> 00:15:08,100

telling you and why they want you to

327

00:15:14,090 --> 00:15:10,560

believe what they're saying whether it's

328

00:15:15,530 --> 00:15:14,100

in the news or Kirkpatrick talking to to

329

00:15:18,590 --> 00:15:15,540

the Senate

330

00:15:20,030 --> 00:15:18,600

right there's a purpose and a method to

331

00:15:22,069 --> 00:15:20,040

the information that's being delivered

332

00:15:23,449 --> 00:15:22,079

so you said he's in a public forum let

333

00:15:25,550 --> 00:15:23,459

me just since it's relevant to what

334

00:15:27,350 --> 00:15:25,560

you're saying Russ is like he said

335

00:15:28,670 --> 00:15:27,360

nothing that breaks the you know they've

336

00:15:31,670 --> 00:15:28,680

seen nothing that breaks the laws of

337

00:15:34,009 --> 00:15:31,680

known physics so he has not seen truly

338

00:15:35,689 --> 00:15:34,019

anomalous craft in any video is he lying

339

00:15:38,689 --> 00:15:35,699

or do they know the physics that these

340

00:15:40,730 --> 00:15:38,699

anomalous craft operate under well okay

341

00:15:42,650 --> 00:15:40,740

so now if you want to take a tangent

342

00:15:45,530 --> 00:15:42,660

here for just a second you know about my

343

00:15:48,949 --> 00:15:45,540

my love of of the book unconventional

344

00:15:50,870 --> 00:15:48,959

flying objects by Paul Hill the NASA

345

00:15:55,189 --> 00:15:50,880

Langley aerodynamicists that studied

346

00:15:58,550 --> 00:15:55,199

this stuff for NASA with NASA uh and was

347

00:16:00,290 --> 00:15:58,560

NASA and was it part of a team I mean he

348

00:16:03,230 --> 00:16:00,300

was part of a team he wasn't doing it

349

00:16:05,810 --> 00:16:03,240

doing it in a vacuum in the 50s 60s 70s

350

00:16:07,970 --> 00:16:05,820

and he concluded that these things do

351

00:16:12,129 --> 00:16:07,980

not break the laws of physics they just

352

00:16:15,350 --> 00:16:12,139

do physics in a way that did we can't do

353

00:16:17,509 --> 00:16:15,360

yet right apparently apparently it was

354

00:16:19,310 --> 00:16:17,519

understandable back in that back in

355

00:16:23,509 --> 00:16:19,320

decades ago

356

00:16:24,949 --> 00:16:23,519

um so here the spotlight on UAP in

357

00:16:27,110 --> 00:16:24,959

recent months underscores the importance

358

00:16:29,150 --> 00:16:27,120

of its work and the need for it to be

359

00:16:31,490 --> 00:16:29,160

taken seriously as a matter of National

360

00:16:33,769 --> 00:16:31,500

Security hey that's the reason that's

361

00:16:35,930 --> 00:16:33,779

how you get funding right it's a matter

362

00:16:38,269 --> 00:16:35,940

of National Security and even if it's

363

00:16:40,009 --> 00:16:38,279

and if it is whatever it is non-human

364

00:16:41,509 --> 00:16:40,019

whatever it still could be a matter of

365

00:16:44,269 --> 00:16:41,519

National Security since we don't know

366

00:16:45,170 --> 00:16:44,279

the intent we don't know intent yeah

367

00:16:47,569 --> 00:16:45,180

yeah

368

00:16:50,030 --> 00:16:47,579

so what he's doing here in this next

369

00:16:52,910 --> 00:16:50,040

line is that he's talking about the

370

00:16:54,350 --> 00:16:52,920

tie-ins across all the relevant bodies

371

00:16:55,490 --> 00:16:54,360

right Department of Defense the

372

00:16:57,590 --> 00:16:55,500

intelligence community and I thought

373

00:16:59,689 --> 00:16:57,600

this was interesting Department of

374

00:17:02,509 --> 00:16:59,699

energy you know we know that's a black

375

00:17:05,809 --> 00:17:02,519

hole for researchers trying to go find

376

00:17:09,350 --> 00:17:05,819

out what the doe which is has cognizance

377

00:17:13,069 --> 00:17:09,360

over all of our nuclear equities right

378

00:17:15,289 --> 00:17:13,079

um and we know that these objects

379

00:17:18,949 --> 00:17:15,299

over the over the years have shown

380

00:17:21,470 --> 00:17:18,959

interest in our nuclear capabilities so

381

00:17:23,750 --> 00:17:21,480

that to me if he's got if his if his

382

00:17:27,350 --> 00:17:23,760

Department if his if arrow is is is

383

00:17:28,789 --> 00:17:27,360

cooperating with doe that is a watershed

384

00:17:31,549 --> 00:17:28,799

moment for me

385

00:17:33,830 --> 00:17:31,559

I I was surprised at that

386

00:17:37,130 --> 00:17:33,840

um and then the scientific and the and

387

00:17:39,289 --> 00:17:37,140

and the industrial communities uh that's

388

00:17:40,970 --> 00:17:39,299

kind of really broad he's just sort of

389

00:17:43,070 --> 00:17:40,980

trying to throw a net around things and

390

00:17:45,650 --> 00:17:43,080

sound thorough I think but I'm sure

391

00:17:48,010 --> 00:17:45,660

there's some reality to it all

392

00:17:51,890 --> 00:17:48,020

I thought this was interesting they get

393

00:17:54,950 --> 00:17:51,900

basically 36 people approximately three

394

00:17:58,730 --> 00:17:54,960

dozen experts

395

00:18:00,110 --> 00:17:58,740

um into four functional areas operations

396

00:18:02,510 --> 00:18:00,120

scientific

397

00:18:05,150 --> 00:18:02,520

integrated analysis and strategic

398

00:18:06,950 --> 00:18:05,160

Communications this

399

00:18:09,890 --> 00:18:06,960

is interesting

400

00:18:11,510 --> 00:18:09,900

strategic Communications so if you think

401
00:18:15,350 --> 00:18:11,520
about if you're operating on a

402
00:18:17,750 --> 00:18:15,360
battlefield that would be tactical stuff

403
00:18:20,990 --> 00:18:17,760
if you're operating at a national level

404
00:18:24,169 --> 00:18:21,000
talking about defending the nation those

405
00:18:25,549 --> 00:18:24,179
things are under a strategic

406
00:18:27,350 --> 00:18:25,559
umbrella

407
00:18:28,730 --> 00:18:27,360
the fact that he used strategic

408
00:18:30,650 --> 00:18:28,740
Communications

409
00:18:32,990 --> 00:18:30,660
I thought was interesting I don't know

410
00:18:36,529 --> 00:18:33,000
what he means by that but he used

411
00:18:38,810 --> 00:18:36,539
strategic okay pretty compelling

412
00:18:40,909 --> 00:18:38,820
um yeah and I had no I had no idea they

413
00:18:42,830 --> 00:18:40,919

had that much staff at this point so I

414

00:18:44,930 --> 00:18:42,840

was like pleasantly surprised let me

415

00:18:46,789 --> 00:18:44,940

just say up front if it wasn't for what

416

00:18:48,830 --> 00:18:46,799

we already knew and like we just came

417

00:18:51,289 --> 00:18:48,840

into this and this was two thousand

418

00:18:53,930 --> 00:18:51,299

let's just say this was 2016 or before

419

00:18:56,090 --> 00:18:53,940

the New York Times article I would be so

420

00:18:58,010 --> 00:18:56,100

excited about what I just heard from

421

00:19:00,830 --> 00:18:58,020

Kirkpatrick I'd be I cannot believe

422

00:19:03,230 --> 00:19:00,840

we're having a hearing on this with the

423

00:19:05,150 --> 00:19:03,240

charts and the shapes this is amazing so

424

00:19:06,890 --> 00:19:05,160

I'm kind of spoiled over the last couple

425

00:19:09,289 --> 00:19:06,900

of years and speaking and hearing from

426
00:19:11,570 --> 00:19:09,299
Eric Davis and other people about Crash

427
00:19:12,950 --> 00:19:11,580
retrievals so that's why when I first

428
00:19:14,750 --> 00:19:12,960
listen I'm like all right it's not

429
00:19:16,430 --> 00:19:14,760
really what I want but overall yes I

430
00:19:18,230 --> 00:19:16,440
agree there's some really good stuff

431
00:19:19,130 --> 00:19:18,240
there and potential to find out a lot of

432
00:19:21,529 --> 00:19:19,140
information

433
00:19:25,010 --> 00:19:21,539
yeah so if you take yourself back to

434
00:19:28,430 --> 00:19:25,020
2016 uh I was on I was in the summer of

435
00:19:31,430 --> 00:19:28,440
2016 I think it was I was on the way to

436
00:19:34,730 --> 00:19:31,440
a beach vacation on the Gulf Coast

437
00:19:36,890 --> 00:19:34,740
and I had one of Tom delong's books one

438
00:19:39,049 --> 00:19:36,900

of his secret machines books

439

00:19:40,549 --> 00:19:39,059

and I've watched all of his interviews

440

00:19:43,430 --> 00:19:40,559

over the years

441

00:19:45,049 --> 00:19:43,440

what we're seeing play out here is

442

00:19:48,650 --> 00:19:45,059

exactly

443

00:19:53,090 --> 00:19:48,660

what he said and Lou Elizondo has said

444

00:19:57,350 --> 00:19:53,100

and Chris Mellon has said it's exactly

445

00:19:59,810 --> 00:19:57,360

what they portended to all of us

446

00:20:02,029 --> 00:19:59,820

as far as the master plan

447

00:20:04,250 --> 00:20:02,039

so we're seeing the fruits of that

448

00:20:07,370 --> 00:20:04,260

initial effort I don't care if you like

449

00:20:10,730 --> 00:20:07,380

Tom DeLonge or or not

450

00:20:13,549 --> 00:20:10,740

but the impact that he and his entire

451
00:20:15,650 --> 00:20:13,559
group to the Stars

452
00:20:18,529 --> 00:20:15,660
the impact they've had

453
00:20:21,250 --> 00:20:18,539
we're seeing the fruits of it

454
00:20:24,470 --> 00:20:21,260
I would I would love to hear post

455
00:20:27,169 --> 00:20:24,480
hearing comments from Lua and Chris as

456
00:20:29,029 --> 00:20:27,179
far as I know that has not happened

457
00:20:31,130 --> 00:20:29,039
um yeah I don't think I have to say a

458
00:20:32,270 --> 00:20:31,140
word actually I think I think they're

459
00:20:34,669 --> 00:20:32,280
letting it just they're letting the

460
00:20:36,890 --> 00:20:34,679
snowball roll downhill

461
00:20:39,169 --> 00:20:36,900
yeah I hope so I hope that I would think

462
00:20:40,190 --> 00:20:39,179
if if they were happy about the hearing

463
00:20:42,230 --> 00:20:40,200

they would have said something I know

464

00:20:44,390 --> 00:20:42,240

Lou was a little hesitant when

465

00:20:46,010 --> 00:20:44,400

Kirkpatrick's name was announced but

466

00:20:48,770 --> 00:20:46,020

yeah I would still like to hear from

467

00:20:51,110 --> 00:20:48,780

them sorry go ahead yeah okay so so

468

00:20:53,930 --> 00:20:51,120

continuing on here other things that

469

00:20:55,310 --> 00:20:53,940

interest me here improve UAP data

470

00:20:56,029 --> 00:20:55,320

collection

471

00:20:58,850 --> 00:20:56,039

um

472

00:21:02,450 --> 00:20:58,860

and Reporting requirements

473

00:21:04,130 --> 00:21:02,460

and implementing a framework okay uh

474

00:21:07,669 --> 00:21:04,140

these are all

475

00:21:09,350 --> 00:21:07,679

words that you use when you're trying to

476

00:21:12,710 --> 00:21:09,360

prosecute a Target

477

00:21:16,010 --> 00:21:12,720

in the dod or the IC number one

478

00:21:17,870 --> 00:21:16,020

something becomes known that's a threat

479

00:21:20,690 --> 00:21:17,880

you have to have these various

480

00:21:23,150 --> 00:21:20,700

committees they have to

481

00:21:25,669 --> 00:21:23,160

prioritize what what's of Interest

482

00:21:27,650 --> 00:21:25,679

what's going on what are we seeing how

483

00:21:29,930 --> 00:21:27,660

do we deal with it how do we get more

484

00:21:34,549 --> 00:21:29,940

information how do we use our national

485

00:21:37,490 --> 00:21:34,559

systems meaning our satellites or our C

486

00:21:39,770 --> 00:21:37,500

based undersea Technologies whatever how

487

00:21:43,190 --> 00:21:39,780

do we bring all this to Bear to help us

488

00:21:44,930 --> 00:21:43,200

figure out what's going on meaning data

489

00:21:47,390 --> 00:21:44,940

collection you got to collect the data

490

00:21:49,730 --> 00:21:47,400

you need to have a standardized way and

491

00:21:52,669 --> 00:21:49,740

all this stuff is so laboriously boring

492

00:21:55,490 --> 00:21:52,679

and formalized it takes Legions of

493

00:21:57,289 --> 00:21:55,500

people to to write this stuff up and

494

00:22:00,409 --> 00:21:57,299

figure out because you just can't go hey

495

00:22:03,110 --> 00:22:00,419

Hey Joe can I use you're over at uh

496

00:22:05,090 --> 00:22:03,120

picking agency you have a satellite can

497

00:22:06,770 --> 00:22:05,100

I borrow it for 15 minutes to take a

498

00:22:08,750 --> 00:22:06,780

look at Brazil because somebody reported

499

00:22:11,690 --> 00:22:08,760

a UFO we want to take a look

500

00:22:14,710 --> 00:22:11,700

that it doesn't work that way you have

501
00:22:16,909 --> 00:22:14,720
to have it intelligently designed into

502
00:22:19,310 --> 00:22:16,919
if you want to think of like watching

503
00:22:21,890 --> 00:22:19,320
television when you pull up the guide

504
00:22:25,730 --> 00:22:21,900
these systems operate off of if you will

505
00:22:29,390 --> 00:22:25,740
a guide that's got everything listed by

506
00:22:32,149 --> 00:22:29,400
Time by priority and you've got to get

507
00:22:34,970 --> 00:22:32,159
your thing whatever your thing is so in

508
00:22:38,149 --> 00:22:34,980
this case UAP you've got to get it into

509
00:22:41,149 --> 00:22:38,159
the guide so that people can select it

510
00:22:43,610 --> 00:22:41,159
go do something with it view it watch it

511
00:22:46,850 --> 00:22:43,620
have a satellite deal with it whatever

512
00:22:48,230 --> 00:22:46,860
you've got to do that and then you have

513
00:22:50,330 --> 00:22:48,240

to have a way to get that information

514

00:22:52,190 --> 00:22:50,340

out which is what's referred to as

515

00:22:53,210 --> 00:22:52,200

reporting requirements

516

00:22:55,310 --> 00:22:53,220

who are you going to get that

517

00:22:57,230 --> 00:22:55,320

information out to is it going to go out

518

00:22:58,789 --> 00:22:57,240

broadly across the world to all the

519

00:23:01,490 --> 00:22:58,799

military people and all the intelligence

520

00:23:04,490 --> 00:23:01,500

people no because there's so much

521

00:23:08,029 --> 00:23:04,500

information you know Ukraine the China

522

00:23:10,730 --> 00:23:08,039

threat what have you Iran and then you

523

00:23:13,850 --> 00:23:10,740

got UAP stuff in there too that's

524

00:23:15,890 --> 00:23:13,860

you got to have enough uh bandwidth to

525

00:23:17,570 --> 00:23:15,900

get this stuff out there

526

00:23:19,250 --> 00:23:17,580

and so you've got to find a way to

527

00:23:20,570 --> 00:23:19,260

reasonably report it figure out who it

528

00:23:22,190 --> 00:23:20,580

needs to go to who needs that

529

00:23:24,649 --> 00:23:22,200

information so this is all pretty

530

00:23:27,470 --> 00:23:24,659

complex this this business right here in

531

00:23:29,110 --> 00:23:27,480

this paragraph is involves some

532

00:23:31,909 --> 00:23:29,120

complexity

533

00:23:34,250 --> 00:23:31,919

that our government is used to dealing

534

00:23:36,649 --> 00:23:34,260

with it's just it takes time but it's

535

00:23:37,909 --> 00:23:36,659

way more complex than people think

536

00:23:39,890 --> 00:23:37,919

um

537

00:23:41,990 --> 00:23:39,900

and then I thought you know looking at

538

00:23:44,450 --> 00:23:42,000

the government's UAP related historical

539

00:23:48,049 --> 00:23:44,460

record well that was interesting you

540

00:23:50,270 --> 00:23:48,059

know how far back does that goes they

541

00:23:53,810 --> 00:23:50,280

were told to go to 1945 which we think

542

00:23:56,630 --> 00:23:53,820

of the alleged Trinity case of valet

543

00:24:00,350 --> 00:23:56,640

has written about in research so yeah

544

00:24:02,390 --> 00:24:00,360

um I wonder if he you know there's

545

00:24:03,830 --> 00:24:02,400

like there's a alleged Legacy crash

546

00:24:05,810 --> 00:24:03,840

retrieval program and there's alleged

547

00:24:07,909 --> 00:24:05,820

Legacy

548

00:24:09,289 --> 00:24:07,919

you know historical program with

549

00:24:11,690 --> 00:24:09,299

everything going back whether or not

550

00:24:13,610 --> 00:24:11,700

they have film videos back then I don't

551
00:24:16,010 --> 00:24:13,620
know if he has access to that but yeah

552
00:24:16,789 --> 00:24:16,020
it's nice to see it mentioned

553
00:24:17,870 --> 00:24:16,799
um

554
00:24:19,549 --> 00:24:17,880
I wish there would have been a little

555
00:24:21,230 --> 00:24:19,559
better questions from the Senators but I

556
00:24:23,930 --> 00:24:21,240
know I mean I know they had limited time

557
00:24:25,730 --> 00:24:23,940
but still I don't know if you saw we

558
00:24:27,770 --> 00:24:25,740
talked about there was a hearing about

559
00:24:30,110 --> 00:24:27,780
China and Hypersonic missiles what

560
00:24:32,149 --> 00:24:30,120
Congressman Gates or gatz I'm not sure

561
00:24:33,529 --> 00:24:32,159
how to say his name but they were really

562
00:24:36,350 --> 00:24:33,539
difficult on you Admiral we did talk

563
00:24:38,090 --> 00:24:36,360

about this and the Admiral's like this

564

00:24:39,649 --> 00:24:38,100

should probably be better in closed

565

00:24:41,450 --> 00:24:39,659

classified setting and he's like nope

566

00:24:42,830 --> 00:24:41,460

let's talk about it here

567

00:24:44,930 --> 00:24:42,840

um which probably I don't think that was

568

00:24:46,909 --> 00:24:44,940

the right move but yeah I I

569

00:24:48,529 --> 00:24:46,919

I'm getting ahead of myself we we have

570

00:24:51,049 --> 00:24:48,539

another hearing supposedly coming up in

571

00:24:53,029 --> 00:24:51,059

June which could be a little better on

572

00:24:56,090 --> 00:24:53,039

the UFO front but go ahead

573

00:24:59,210 --> 00:24:56,100

sorry well yeah so so we can come back

574

00:25:02,210 --> 00:24:59,220

to the to the gets questionnaires uh I

575

00:25:04,430 --> 00:25:02,220

think uh he was pressing being a little

576

00:25:05,930 --> 00:25:04,440

bit a little bit of idiosyncrasy in that uh

577

00:25:07,250 --> 00:25:05,940

there's there are there are certain

578

00:25:09,289 --> 00:25:07,260

things you just can't talk about in

579

00:25:10,430 --> 00:25:09,299

public right uh and he was just kind of

580

00:25:13,690 --> 00:25:10,440

being an idiot because I think

581

00:25:16,610 --> 00:25:13,700

personally I think he isn't it but uh

582

00:25:17,810 --> 00:25:16,620

I'm sorry Lord I apologize I didn't say

583

00:25:19,130 --> 00:25:17,820

that

584

00:25:21,049 --> 00:25:19,140

um Okay so

585

00:25:22,490 --> 00:25:21,059

they're leading a focused effort to

586

00:25:26,210 --> 00:25:22,500

better characterize understand and

587

00:25:28,789 --> 00:25:26,220

attribute UAP with priority given to the

588

00:25:31,850 --> 00:25:28,799

reports by DOD and intelligence

589

00:25:35,330 --> 00:25:31,860

Community Personnel in or near areas of

590

00:25:38,269 --> 00:25:35,340

National Security importance well gosh

591

00:25:41,450 --> 00:25:38,279

there it's innumerable it's you can't

592

00:25:44,029 --> 00:25:41,460

count the places that are sensitive so

593

00:25:46,130 --> 00:25:44,039

the mind wanders you know what they

594

00:25:49,730 --> 00:25:46,140

really know about sensitive places like

595

00:25:53,510 --> 00:25:49,740

Oak Ridge here in Tennessee Los Alamos

596

00:25:56,210 --> 00:25:53,520

Hanford uh other places like nuclear

597

00:25:59,049 --> 00:25:56,220

missile uh weapons

598

00:26:01,970 --> 00:25:59,059

silos as we all know

599

00:26:05,390 --> 00:26:01,980

that have been violated as far as going

600

00:26:07,490 --> 00:26:05,400

back into the 60s and 70s and there's

601
00:26:09,830 --> 00:26:07,500

just so much in that

602
00:26:12,470 --> 00:26:09,840

um that I think he's just what I what I

603
00:26:14,029 --> 00:26:12,480

what it sected here he said DOD fully

604
00:26:16,130 --> 00:26:14,039

appreciates the eagerness from many

605
00:26:18,830 --> 00:26:16,140

quarters especially here in Congress and

606
00:26:22,310 --> 00:26:18,840

the American public to quickly resolve

607
00:26:24,710 --> 00:26:22,320

UAP encountered across the globe well

608
00:26:27,049 --> 00:26:24,720

that's a huge

609
00:26:30,049 --> 00:26:27,059

that's sort of an all-encompassing thing

610
00:26:34,310 --> 00:26:30,059

so he's basically saying it's not only

611
00:26:36,110 --> 00:26:34,320

just yes it's it's it's a worldwide look

612
00:26:38,210 --> 00:26:36,120

um and then you'll see a contradictory

613
00:26:40,010 --> 00:26:38,220

statement here I think I highlighted it

614

00:26:42,830 --> 00:26:40,020

where they're kind of looking like from

615

00:26:45,649 --> 00:26:42,840

1996 to current day and I'm like what

616

00:26:46,549 --> 00:26:45,659

aren't you looking around the world but

617

00:26:48,409 --> 00:26:46,559

uh

618

00:26:50,269 --> 00:26:48,419

let's go on to the interest interest of

619

00:26:51,769 --> 00:26:50,279

time here yeah I'll just uh pull up a

620

00:26:53,750 --> 00:26:51,779

question

621

00:26:55,430 --> 00:26:53,760

for Michael would Kirkpatrick have the

622

00:26:57,950 --> 00:26:55,440

requisite authorities on their title 10

623

00:26:59,990 --> 00:26:57,960

to establish this framework for day data

624

00:27:02,630 --> 00:27:00,000

collection could agencies decline to

625

00:27:04,549 --> 00:27:02,640

provide him with their data I think he

626

00:27:07,190 --> 00:27:04,559

mentioned he didn't have

627

00:27:08,990 --> 00:27:07,200

I I it was I know this title 10 and

628

00:27:10,430 --> 00:27:09,000

title 50 and I don't understand the

629

00:27:12,529 --> 00:27:10,440

difference exactly between them and he

630

00:27:14,570 --> 00:27:12,539

mentioned one that he did not have the

631

00:27:15,970 --> 00:27:14,580

exact

632

00:27:18,529 --> 00:27:15,980

um requisition

633

00:27:19,730 --> 00:27:18,539

yeah so he's working on it if you look

634

00:27:21,590 --> 00:27:19,740

down here

635

00:27:23,750 --> 00:27:21,600

he's working on we will need to

636

00:27:25,730 --> 00:27:23,760

prioritize collection

637

00:27:28,190 --> 00:27:25,740

and leverage authorities

638

00:27:30,830 --> 00:27:28,200

for monitoring all domains within the

639

00:27:35,630 --> 00:27:30,840

continental United States which I think

640

00:27:37,930 --> 00:27:35,640

is limiting but he's it's amazing to me

641

00:27:41,029 --> 00:27:37,940

that he's

642

00:27:44,330 --> 00:27:41,039

addressing all of the little warts and

643

00:27:47,330 --> 00:27:44,340

bumps and little niche areas

644

00:27:49,190 --> 00:27:47,340

um that things that have to get done to

645

00:27:50,870 --> 00:27:49,200

that question that's what he's talking

646

00:27:54,289 --> 00:27:50,880

about here he's talking about leveraging

647

00:27:57,769 --> 00:27:54,299

authorities because authorities each of

648

00:28:01,970 --> 00:27:57,779

these agencies whether it's NSA CIA nro

649

00:28:04,430 --> 00:28:01,980

whoever they have a certain legislative

650

00:28:06,890 --> 00:28:04,440

they they have a certain Charter

651
00:28:09,470 --> 00:28:06,900
that gives them Authority then there's

652
00:28:12,950 --> 00:28:09,480
the interagency perspective of all of it

653
00:28:15,370 --> 00:28:12,960
where they they collaborate and work

654
00:28:19,010 --> 00:28:15,380
together and that's another set of

655
00:28:21,590 --> 00:28:19,020
documentation and authorities and so

656
00:28:24,470 --> 00:28:21,600
forth It's Complicated because then you

657
00:28:26,630 --> 00:28:24,480
get into you know it you could say well

658
00:28:29,210 --> 00:28:26,640
it doesn't make sense if you say there

659
00:28:32,510 --> 00:28:29,220
are little fiefdoms but there really are

660
00:28:34,669 --> 00:28:32,520
I've seen it in action you know there

661
00:28:37,010 --> 00:28:34,679
are jealousies there are there is uh

662
00:28:40,010 --> 00:28:37,020
there's budgetary things there are

663
00:28:42,230 --> 00:28:40,020

budgetary things where one agency wants

664

00:28:43,370 --> 00:28:42,240

that chunk of billions but and they

665

00:28:46,010 --> 00:28:43,380

don't want it to go over to the other

666

00:28:48,110 --> 00:28:46,020

agency and there's some infighting and

667

00:28:50,630 --> 00:28:48,120

they end up working it out but

668

00:28:52,789 --> 00:28:50,640

it's ultimately very very complicated

669

00:28:55,789 --> 00:28:52,799

when you hear Lou talk about who elizado

670

00:28:58,190 --> 00:28:55,799

talk about the Pentagon is a is a huge

671

00:29:00,710 --> 00:28:58,200

organization there couldn't be a

672

00:29:02,930 --> 00:29:00,720

statement further from the truth

673

00:29:04,549 --> 00:29:02,940

there's so many left hands not even

674

00:29:07,130 --> 00:29:04,559

knowing what all these right hands are

675

00:29:10,789 --> 00:29:07,140

doing it's not like you call it 800

676

00:29:12,590 --> 00:29:10,799

number you go hey uh I need this done

677

00:29:15,529 --> 00:29:12,600

and everybody just goes and does it

678

00:29:16,549 --> 00:29:15,539

right so anyway and and for folks

679

00:29:19,250 --> 00:29:16,559

listening

680

00:29:21,649 --> 00:29:19,260

when you read my transcript with Jay

681

00:29:25,010 --> 00:29:21,659

Stratton and Travis Taylor which I will

682

00:29:27,409 --> 00:29:25,020

have out soon you'll see

683

00:29:28,970 --> 00:29:27,419

how much progress they did make in the

684

00:29:31,190 --> 00:29:28,980

UAP task force I know that's neither

685

00:29:33,710 --> 00:29:31,200

here nor there because they're gone now

686

00:29:35,510 --> 00:29:33,720

and that's now we have Arrow but he did

687

00:29:37,010 --> 00:29:35,520

have the right clearances to open the

688

00:29:38,450 --> 00:29:37,020

right door so it was very very

689

00:29:40,370 --> 00:29:38,460

impressive younger to read it and you're

690

00:29:41,330 --> 00:29:40,380

going to say this is amazing and then

691

00:29:42,889 --> 00:29:41,340

you realize well it's a little

692

00:29:44,630 --> 00:29:42,899

depressing because we're taking a slight

693

00:29:47,810 --> 00:29:44,640

step back now but

694

00:29:49,850 --> 00:29:47,820

I digress one question here just quick

695

00:29:51,590 --> 00:29:49,860

um crash retrieval Witnesses have full

696

00:29:53,990 --> 00:29:51,600

opportunity to present to Congress have

697

00:29:55,430 --> 00:29:54,000

they I know people have talked about it

698

00:29:57,470 --> 00:29:55,440

Nolan said

699

00:30:01,549 --> 00:29:57,480

topics that were discussed behind closed

700

00:30:03,529 --> 00:30:01,559

doors were crash retrieval and contact

701

00:30:05,870 --> 00:30:03,539

I don't you know I don't think Gary's

702

00:30:07,490 --> 00:30:05,880

making that up so yes things are going

703

00:30:09,649 --> 00:30:07,500

on behind the scenes but we don't have

704

00:30:10,850 --> 00:30:09,659

any testimony yet hopefully we'll get

705

00:30:12,409 --> 00:30:10,860

that in the future there's really not

706

00:30:14,029 --> 00:30:12,419

much more to say

707

00:30:15,830 --> 00:30:14,039

another thing

708

00:30:17,690 --> 00:30:15,840

the reason why a lot of people are so

709

00:30:19,430 --> 00:30:17,700

antsy and disappointed by this is

710

00:30:20,930 --> 00:30:19,440

because leading up to the hearing I know

711

00:30:24,649 --> 00:30:20,940

you're not on Twitter all the time and

712

00:30:26,510 --> 00:30:24,659

where I am on 24 7. Gary Nolan Dr Gary

713

00:30:28,490 --> 00:30:26,520

Nolan said he thought by the end of the

714

00:30:30,590 --> 00:30:28,500

summer or the end of the year

715

00:30:32,930 --> 00:30:30,600

things are going to happen uh things are

716

00:30:34,970 --> 00:30:32,940

gonna make an impact with whistleblowers

717

00:30:37,730 --> 00:30:34,980

and then you have other people like

718

00:30:39,710 --> 00:30:37,740

Steve Bassett who's been calling for a

719

00:30:42,409 --> 00:30:39,720

disclosure imminently for the past 25

720

00:30:45,169 --> 00:30:42,419

years and but there's another guy who

721

00:30:46,669 --> 00:30:45,179

was it John Ramirez former CIA said

722

00:30:49,250 --> 00:30:46,679

we're going to have disclosure in a

723

00:30:51,590 --> 00:30:49,260

matter of months not years so

724

00:30:53,570 --> 00:30:51,600

everybody's like so amped and then we

725

00:30:56,510 --> 00:30:53,580

have this which this is a letdown when

726

00:30:58,610 --> 00:30:56,520

you compare it to disclosure and crash

727

00:31:00,590 --> 00:30:58,620

retrieval and bodies but once again

728

00:31:02,930 --> 00:31:00,600

there's a lot of good stuff in here and

729

00:31:06,289 --> 00:31:02,940

continue Michael I'm sorry

730

00:31:08,149 --> 00:31:06,299

well to your point this what we're

731

00:31:11,269 --> 00:31:08,159

seeing on screen here what we saw with

732

00:31:14,269 --> 00:31:11,279

Kirkpatrick's testimony is essentially

733

00:31:17,510 --> 00:31:14,279

the establishment of a department uh

734

00:31:19,250 --> 00:31:17,520

organization right and he said and he

735

00:31:20,810 --> 00:31:19,260

said hopefully one day we won't need an

736

00:31:22,190 --> 00:31:20,820

arrow all the Departments will be able

737

00:31:25,149 --> 00:31:22,200

to do exactly what we're talking about

738

00:31:28,430 --> 00:31:25,159

here it'll just be part of their mission

739

00:31:31,130 --> 00:31:28,440

yeah he wasn't there to disclose things

740

00:31:33,470 --> 00:31:31,140

right he was there to explain about a

741

00:31:35,810 --> 00:31:33,480

department being stood up or what I

742

00:31:38,470 --> 00:31:35,820

would it's it's not a program office but

743

00:31:42,350 --> 00:31:38,480

like that's that's the world I come from

744

00:31:45,889 --> 00:31:42,360

every every unique say submarine system

745

00:31:48,409 --> 00:31:45,899

or ship type or satellite program

746

00:31:50,930 --> 00:31:48,419

whether it's it's an electro Optical

747

00:31:53,389 --> 00:31:50,940

satellite or it's a radar satellite all

748

00:31:56,690 --> 00:31:53,399

those have discrete program offices

749

00:31:59,570 --> 00:31:56,700

within some agency okay

750

00:32:03,789 --> 00:31:59,580

what I read here is it's at a department

751

00:32:06,289 --> 00:32:03,799

level in the Pentagon it's co

752

00:32:09,289 --> 00:32:06,299

gnizance if that's that's I just made up

753

00:32:11,930 --> 00:32:09,299

a word between the dod and the

754

00:32:14,450 --> 00:32:11,940

intelligence Community but it it's it's

755

00:32:17,210 --> 00:32:14,460

a bit like him explaining how we have

756

00:32:20,149 --> 00:32:17,220

set up this program office

757

00:32:22,610 --> 00:32:20,159

and this is our job we understand what

758

00:32:24,710 --> 00:32:22,620

you've asked us to do here's how we're

759

00:32:28,610 --> 00:32:24,720

going about doing it that's what he was

760

00:32:31,730 --> 00:32:28,620

saying uh throughout all of this okay

761

00:32:33,889 --> 00:32:31,740

um so I highlighted this and read that

762

00:32:35,269 --> 00:32:33,899

arrow is the combination of Decades of

763

00:32:38,090 --> 00:32:35,279

DOD intelligence community and

764

00:32:40,310 --> 00:32:38,100

congressionally directed efforts really

765

00:32:42,889 --> 00:32:40,320

what congressionally directed efforts

766

00:32:44,630 --> 00:32:42,899

over the decades are we aware of

767

00:32:47,990 --> 00:32:44,640

I can name

768

00:32:49,310 --> 00:32:48,000

on three fingers you know since the 50s

769

00:32:51,529 --> 00:32:49,320

or whatever

770

00:32:54,110 --> 00:32:51,539

some Congressional inquiries but I don't

771

00:32:55,549 --> 00:32:54,120

think they really got anywhere uh so

772

00:32:58,970 --> 00:32:55,559

that's kind of interesting that he said

773

00:33:03,049 --> 00:32:58,980

it that way to resolve UAP encountered

774

00:33:05,750 --> 00:33:03,059

first and foremost by U.S military and

775

00:33:07,010 --> 00:33:05,760

specifically Navy and Air Force Air

776

00:33:08,870 --> 00:33:07,020

Force fights what about what about

777

00:33:12,110 --> 00:33:08,880

ground guides what about the Army what

778

00:33:14,870 --> 00:33:12,120

about the Marines what about the police

779

00:33:17,210 --> 00:33:14,880

you know the mind wanders so that was

780

00:33:20,870 --> 00:33:17,220

just kind of weird interesting

781

00:33:23,389 --> 00:33:20,880

intriguing I thought uh

782

00:33:26,330 --> 00:33:23,399

and then he said uh we can't answer

783

00:33:28,370 --> 00:33:26,340

Decades of questions all at once

784

00:33:30,889 --> 00:33:28,380

I don't know what sort of historical

785

00:33:32,750 --> 00:33:30,899

research you know would they would they

786

00:33:36,409 --> 00:33:32,760

dare involve people like Dr Jacques

787

00:33:39,049 --> 00:33:36,419

valet and and his databases or the nids

788

00:33:40,850 --> 00:33:39,059

guys with Robert Bigelow would they

789

00:33:44,090 --> 00:33:40,860

would they dare bring in that data

790

00:33:47,210 --> 00:33:44,100

apparently at DIA because of Dia's

791

00:33:49,610 --> 00:33:47,220

involvement with skin walker Ranch I

792

00:33:52,669 --> 00:33:49,620

believe this data there is a database

793

00:33:54,409 --> 00:33:52,679

somewhere that exists we know it it's

794

00:33:56,029 --> 00:33:54,419

the capella database the capella

795

00:33:58,549 --> 00:33:56,039

database has all that data and

796

00:34:01,490 --> 00:33:58,559

supposedly supposedly they are using it

797

00:34:05,210 --> 00:34:01,500

in the DIA I would assume I would hope

798

00:34:10,909 --> 00:34:08,270

I would hope I don't know but but he

799

00:34:13,129 --> 00:34:10,919

didn't mention it so and probably maybe

800

00:34:15,409 --> 00:34:13,139

not in an open Forum maybe he did in the

801
00:34:17,149 --> 00:34:15,419
closed Forum but he he does he does

802
00:34:20,389 --> 00:34:17,159
point to you know things like the

803
00:34:22,550 --> 00:34:20,399
nation's most advanced sensors and talks

804
00:34:24,770 --> 00:34:22,560
about assuming that they can collect the

805
00:34:27,349 --> 00:34:24,780
data I think there's more to follow on

806
00:34:29,149 --> 00:34:27,359
that because you and I have talked a lot

807
00:34:33,070 --> 00:34:29,159
and I can't go into detail about it but

808
00:34:36,530 --> 00:34:33,080
we our technical capabilities are

809
00:34:39,050 --> 00:34:36,540
Exquisite okay and the expression I

810
00:34:40,849 --> 00:34:39,060
always say is that people that kind of

811
00:34:43,490 --> 00:34:40,859
have that don't really trust the

812
00:34:46,070 --> 00:34:43,500
government well if you it's okay it's

813
00:34:48,530 --> 00:34:46,080

okay to complain about the IRS in my in

814

00:34:50,450 --> 00:34:48,540

my view uh or any other civilian

815

00:34:52,310 --> 00:34:50,460

government agency but if people really

816

00:34:54,050 --> 00:34:52,320

knew the caliber of the people that

817

00:34:58,970 --> 00:34:54,060

worked inside the intelligence community

818

00:35:01,849 --> 00:34:58,980

at places like nro CIA NSA DIA

819

00:35:04,150 --> 00:35:01,859

Etc they would be vastly impressed with

820

00:35:07,790 --> 00:35:04,160

how their tax dollars are being spent

821

00:35:09,349 --> 00:35:07,800

it's uh it's amazing so and by the way

822

00:35:11,150 --> 00:35:09,359

folks it's hard for me to get just

823

00:35:13,490 --> 00:35:11,160

interrupt all the time with questions so

824

00:35:14,930 --> 00:35:13,500

try to save your questions for the end

825

00:35:16,190 --> 00:35:14,940

and then we'll just go through them

826

00:35:17,870 --> 00:35:16,200

rapid fire

827

00:35:19,849 --> 00:35:17,880

yeah and I'm going to speed up because

828

00:35:21,349 --> 00:35:19,859

this is already we're 35 minutes into it

829

00:35:22,609 --> 00:35:21,359

so we need we need to go a little faster

830

00:35:23,690 --> 00:35:22,619

in my view

831

00:35:25,490 --> 00:35:23,700

um

832

00:35:28,190 --> 00:35:25,500

let's see here

833

00:35:34,010 --> 00:35:28,200

um and thank you for the donations folks

834

00:35:38,270 --> 00:35:35,930

so he does recognize that this in this

835

00:35:40,849 --> 00:35:38,280

next area here that I highlighted that

836

00:35:43,730 --> 00:35:40,859

it's more than just the dod and the IC

837

00:35:45,829 --> 00:35:43,740

uh it's it's basically partnering with

838

00:35:47,569 --> 00:35:45,839

industry and what he calls the

839

00:35:49,250 --> 00:35:47,579

interagency so all the intelligence

840

00:35:52,310 --> 00:35:49,260

communities and the dod organizations

841

00:35:55,790 --> 00:35:52,320

the commands like U.S Special Operations

842

00:35:57,829 --> 00:35:55,800

Command North com European command he

843

00:36:00,589 --> 00:35:57,839

means everything by saying that and the

844

00:36:02,750 --> 00:36:00,599

scientific community and the public well

845

00:36:05,150 --> 00:36:02,760

I would like to see

846

00:36:07,310 --> 00:36:05,160

at some point when they start having

847

00:36:10,910 --> 00:36:07,320

maybe like you know you get to a website

848

00:36:13,069 --> 00:36:10,920

where you can you can drop in a a video

849

00:36:15,470 --> 00:36:13,079

that you took because you had a sighting

850

00:36:19,250 --> 00:36:15,480

or you can get on the chat and you can

851
00:36:22,370 --> 00:36:19,260
ask a question we'll see about that yeah

852
00:36:24,410 --> 00:36:22,380
but he's sort of casting a wide net and

853
00:36:26,210 --> 00:36:24,420
trying to be all-inclusive

854
00:36:29,329 --> 00:36:26,220
and he talks about the partnering here

855
00:36:31,130 --> 00:36:29,339
uh again he mentions interagency so he's

856
00:36:33,650 --> 00:36:31,140
got a broad view of how it's going to

857
00:36:37,430 --> 00:36:33,660
work any idea how this would work with

858
00:36:39,290 --> 00:36:37,440
the the Biden inner agency UAP task

859
00:36:42,829 --> 00:36:39,300
force I mean it's like competing task

860
00:36:44,870 --> 00:36:42,839
force yeah I have no idea I wasn't even

861
00:36:47,510 --> 00:36:44,880
I heard about what you're talking about

862
00:36:49,730 --> 00:36:47,520
but I'm not keeping up with that I don't

863
00:36:51,349 --> 00:36:49,740

know there's no news on it so yeah

864

00:36:53,930 --> 00:36:51,359

there's nothing to really keep up on

865

00:36:56,569 --> 00:36:53,940

yeah so

866

00:36:58,790 --> 00:36:56,579

um he again he's saying all the right

867

00:37:01,010 --> 00:36:58,800

things right he's saying all the right

868

00:37:02,510 --> 00:37:01,020

things that said it wanted he's saying

869

00:37:04,430 --> 00:37:02,520

all the right things that the public

870

00:37:06,130 --> 00:37:04,440

wanted right right here greater

871

00:37:09,349 --> 00:37:06,140

objectivity and transparency

872

00:37:10,210 --> 00:37:09,359

transparency in the study of UAP

873

00:37:14,210 --> 00:37:10,220

um

874

00:37:16,849 --> 00:37:14,220

so again excellent speaker

875

00:37:19,130 --> 00:37:16,859

very smart guy he's saying all the right

876
00:37:21,050 --> 00:37:19,140
things

877
00:37:22,609 --> 00:37:21,060
now he goes into here I don't want to

878
00:37:24,770 --> 00:37:22,619
spend much time on this about his very

879
00:37:26,810 --> 00:37:24,780
small percentage of reports uh display

880
00:37:30,290 --> 00:37:26,820
signatures that could not reasonably

881
00:37:31,849 --> 00:37:30,300
described as anomalous yeah which we

882
00:37:33,470 --> 00:37:31,859
know it's always you know depending on

883
00:37:35,810 --> 00:37:33,480
where which source you look at five to

884
00:37:39,890 --> 00:37:35,820
ten percent of UFO reports are anomalous

885
00:37:41,810 --> 00:37:39,900
the rest are you know misidentifications

886
00:37:44,870 --> 00:37:41,820
well it is then he says a large number

887
00:37:48,109 --> 00:37:44,880
of cases in our Holdings

888
00:37:51,109 --> 00:37:48,119

remain technically unresolved so I'm

889

00:37:53,329 --> 00:37:51,119

assuming that probably correlates

890

00:37:57,230 --> 00:37:53,339

pretty closely

891

00:37:59,329 --> 00:37:57,240

this is just an assumption but with the

892

00:38:01,069 --> 00:37:59,339

old Blue Book cases right there's a

893

00:38:03,109 --> 00:38:01,079

large there are a large number that they

894

00:38:06,050 --> 00:38:03,119

just don't know the answer for

895

00:38:08,270 --> 00:38:06,060

um but he says primarily due to a lack

896

00:38:10,550 --> 00:38:08,280

of data associated with these cases

897

00:38:13,010 --> 00:38:10,560

and he's a he's a scientifically

898

00:38:15,410 --> 00:38:13,020

rigorous person which was very clear

899

00:38:17,990 --> 00:38:15,420

from his testimony and he's basically

900

00:38:20,750 --> 00:38:18,000

saying they're going to go pull out all

901
00:38:24,890 --> 00:38:20,760
the stops to try to use National sensors

902
00:38:28,250 --> 00:38:24,900
ground sensors undersea sensors uh

903
00:38:32,750 --> 00:38:28,260
Academia and whatever to try to get more

904
00:38:34,910 --> 00:38:32,760
data this is a way that you explain how

905
00:38:37,310 --> 00:38:34,920
thorough you're going to be because at

906
00:38:39,710 --> 00:38:37,320
some point he's going to have or his

907
00:38:41,870 --> 00:38:39,720
office is going to have to ask for more

908
00:38:46,849 --> 00:38:41,880
money because what they're talking about

909
00:38:49,670 --> 00:38:46,859
doing is a huge task and is going to be

910
00:38:51,890 --> 00:38:49,680
really expensive budget wise that's

911
00:38:53,870 --> 00:38:51,900
that's my take on that

912
00:38:55,849 --> 00:38:53,880
and then he says I recognize that what

913
00:38:59,390 --> 00:38:55,859

I'm saying is unsatisfying

914

00:39:00,430 --> 00:38:59,400

these people with their cameras and they

915

00:39:02,750 --> 00:39:00,440

think they're seeing something

916

00:39:04,310 --> 00:39:02,760

unexplainable it even mentions radar

917

00:39:05,690 --> 00:39:04,320

basically so he's saying even some of

918

00:39:08,030 --> 00:39:05,700

the folks in the military they'll say

919

00:39:09,650 --> 00:39:08,040

they'll take video or no get radar of

920

00:39:10,910 --> 00:39:09,660

something they think is inexplicable and

921

00:39:12,410 --> 00:39:10,920

it's not

922

00:39:13,910 --> 00:39:12,420

it's interesting that he pointed that

923

00:39:19,190 --> 00:39:13,920

out

924

00:39:22,010 --> 00:39:19,200

well again he I'm so impressed with the

925

00:39:25,069 --> 00:39:22,020

thoroughness of his sort of his thought

926

00:39:28,310 --> 00:39:25,079

process now these types of people

927

00:39:30,829 --> 00:39:28,320

typically don't write their own speeches

928

00:39:33,530 --> 00:39:30,839

if you will they don't create their own

929

00:39:34,370 --> 00:39:33,540

slide decks it's done by a staff of

930

00:39:35,510 --> 00:39:34,380

people

931

00:39:38,390 --> 00:39:35,520

okay

932

00:39:40,970 --> 00:39:38,400

but the fact that a lot of this language

933

00:39:45,050 --> 00:39:40,980

that we're reading here it it runs the

934

00:39:47,230 --> 00:39:45,060

gamut it's both detailed it's expansive

935

00:39:50,150 --> 00:39:47,240

it's thorough

936

00:39:53,210 --> 00:39:50,160

they put some serious time into his

937

00:39:55,190 --> 00:39:53,220

presentation right it might be which is

938

00:39:58,010 --> 00:39:55,200

kind of impressive compared to what we

939

00:40:00,890 --> 00:39:58,020

got last time around right night and day

940

00:40:01,490 --> 00:40:00,900

yeah it is exactly

941

00:40:04,010 --> 00:40:01,500

um

942

00:40:05,750 --> 00:40:04,020

so here's just more word salad about you

943

00:40:08,210 --> 00:40:05,760

know it's

944

00:40:10,430 --> 00:40:08,220

could be readily explainable and so on

945

00:40:12,109 --> 00:40:10,440

and so forth saying all the right things

946

00:40:14,329 --> 00:40:12,119

again

947

00:40:15,770 --> 00:40:14,339

um has to pass their level of scrutiny

948

00:40:17,510 --> 00:40:15,780

well what is their level of scrutiny

949

00:40:19,490 --> 00:40:17,520

that's kind of an interesting topic to

950

00:40:22,490 --> 00:40:19,500

me uh

951
00:40:23,630 --> 00:40:22,500
what do you want it to be it depends on

952
00:40:26,150 --> 00:40:23,640
the audience

953
00:40:29,210 --> 00:40:26,160
they don't look at it that way though it

954
00:40:31,250 --> 00:40:29,220
is what is it right and how can we prove

955
00:40:33,710 --> 00:40:31,260
what it is

956
00:40:38,630 --> 00:40:33,720
what we see what we detect what we sense

957
00:40:41,390 --> 00:40:38,640
with our sensors or our eyeballs so

958
00:40:44,990 --> 00:40:41,400
his his scientific rigor or his

959
00:40:47,510 --> 00:40:45,000
scientific background uh again pretty

960
00:40:49,069 --> 00:40:47,520
much impressed me and then then he gets

961
00:40:51,530 --> 00:40:49,079
sent to this business about this high

962
00:40:52,270 --> 00:40:51,540
altitude Chinese balloon

963
00:40:55,670 --> 00:40:52,280

um

964

00:40:57,770 --> 00:40:55,680

I that's all just sort of just a bunch

965

00:41:00,650 --> 00:40:57,780

of noise you know at the time when he

966

00:41:02,450 --> 00:41:00,660

said he said I want to turn UAP into SCP

967

00:41:04,310 --> 00:41:02,460

somebody else's problem I'm like what

968

00:41:06,050 --> 00:41:04,320

and then somebody else said yo he

969

00:41:07,609 --> 00:41:06,060

doesn't want anything to do with this he

970

00:41:09,349 --> 00:41:07,619

doesn't want anything to do with uip

971

00:41:11,510 --> 00:41:09,359

this is not the right guy but then as

972

00:41:14,810 --> 00:41:11,520

you read more what he's basically saying

973

00:41:17,829 --> 00:41:14,820

is my job is not to go after Chinese

974

00:41:20,630 --> 00:41:17,839

balloons my job is to go after anomalous

975

00:41:23,750 --> 00:41:20,640

anomalous objects that's my job I don't

976

00:41:25,730 --> 00:41:23,760

want to waste time on a balloon if it's

977

00:41:27,170 --> 00:41:25,740

a balloon and Jade Strat said the same

978

00:41:29,150 --> 00:41:27,180

thing if they figured it out it was

979

00:41:30,950 --> 00:41:29,160

something that was not anomalous they

980

00:41:32,930 --> 00:41:30,960

passed it on to the right you know

981

00:41:34,430 --> 00:41:32,940

Department it that's your job that's not

982

00:41:38,750 --> 00:41:34,440

my job so it wasn't really a negative

983

00:41:41,569 --> 00:41:38,760

thing for him to say sep just no no I

984

00:41:43,910 --> 00:41:41,579

want to focus on anomalous activity what

985

00:41:47,810 --> 00:41:43,920

he's essentially doing let's just take

986

00:41:51,770 --> 00:41:47,820

an example of uh oh let's say you're

987

00:41:54,410 --> 00:41:51,780

over in Iraq uh eight years ago ten

988

00:41:56,630 --> 00:41:54,420

years ago and and something happens the

989

00:41:59,210 --> 00:41:56,640

the adversary the guys you know the

990

00:42:01,609 --> 00:41:59,220

jihadis or whatever they they blow up

991

00:42:03,410 --> 00:42:01,619

one of their vehicles and you don't know

992

00:42:05,810 --> 00:42:03,420

how they did it you didn't see it coming

993

00:42:07,670 --> 00:42:05,820

killed a couple of guys

994

00:42:08,810 --> 00:42:07,680

and you're trying to figure out what

995

00:42:12,109 --> 00:42:08,820

happened

996

00:42:13,190 --> 00:42:12,119

so you breathe you're a Marvel over

997

00:42:14,270 --> 00:42:13,200

there you're muffled when you're over

998

00:42:16,069 --> 00:42:14,280

there

999

00:42:17,390 --> 00:42:16,079

I didn't think you could see me I

1000

00:42:19,569 --> 00:42:17,400

thought you could only see the screen of

1001
00:42:21,650 --> 00:42:19,579
the uh

1002
00:42:24,410 --> 00:42:21,660
oh I'm sorry

1003
00:42:26,810 --> 00:42:24,420
you were like where is he going

1004
00:42:28,670 --> 00:42:26,820
it's like the UFO outside the window and

1005
00:42:31,130 --> 00:42:28,680
Michael is looking at it every five

1006
00:42:34,670 --> 00:42:31,140
minutes no I that's what I do when I'm

1007
00:42:37,609 --> 00:42:34,680
on my my teleconferences I could put us

1008
00:42:38,990 --> 00:42:37,619
off I don't know that's not right I

1009
00:42:40,370 --> 00:42:39,000
wasn't aware I thought only the screen

1010
00:42:43,190 --> 00:42:40,380
was showing

1011
00:42:45,170 --> 00:42:43,200
um so anyway they would naturally try to

1012
00:42:47,390 --> 00:42:45,180
find out the answers and they would they

1013
00:42:50,089 --> 00:42:47,400

would take what they know forensically

1014

00:42:51,069 --> 00:42:50,099

and they would Farm it out and try to

1015

00:42:55,430 --> 00:42:51,079

find

1016

00:42:57,050 --> 00:42:55,440

whose problem is this really right who

1017

00:42:59,030 --> 00:42:57,060

can figure this out who has the

1018

00:43:01,910 --> 00:42:59,040

expertise that's what he means by

1019

00:43:03,589 --> 00:43:01,920

somebody else's problem uh it's like

1020

00:43:05,809 --> 00:43:03,599

where do we take

1021

00:43:10,130 --> 00:43:05,819

what we've collected

1022

00:43:12,589 --> 00:43:10,140

and how do we determine to give it to

1023

00:43:15,109 --> 00:43:12,599

the right sort of cognizant group

1024

00:43:17,990 --> 00:43:15,119

you follow me yeah or any agents yeah

1025

00:43:19,250 --> 00:43:18,000

okay so that's what that basically means

1026

00:43:21,230 --> 00:43:19,260

um

1027

00:43:23,930 --> 00:43:21,240

and then he says here that we have

1028

00:43:26,809 --> 00:43:23,940

tremendous capabilities to deal with

1029

00:43:28,910 --> 00:43:26,819

those encountered objects now that's a

1030

00:43:31,069 --> 00:43:28,920

kind of a generic statement but I will

1031

00:43:32,990 --> 00:43:31,079

agree with him that the capabilities are

1032

00:43:34,490 --> 00:43:33,000

tremendous we will never know the

1033

00:43:36,530 --> 00:43:34,500

details about that and we shouldn't know

1034

00:43:39,530 --> 00:43:36,540

right but I'll just tell you I don't

1035

00:43:42,470 --> 00:43:39,540

like this expression somebody used it a

1036

00:43:44,510 --> 00:43:42,480

decade ago it was kind of in Vogue but

1037

00:43:45,890 --> 00:43:44,520

the capabilities that we have are

1038

00:43:48,170 --> 00:43:45,900

eye-watering

1039

00:43:49,670 --> 00:43:48,180

what does that really mean it means that

1040

00:43:52,490 --> 00:43:49,680

they're extraordinary

1041

00:43:54,170 --> 00:43:52,500

that's what that really means

1042

00:43:56,750 --> 00:43:54,180

um so anyway

1043

00:43:59,089 --> 00:43:56,760

he's he's admitting here that that his

1044

00:44:01,910 --> 00:43:59,099

office exists to help DOD intelligence

1045

00:44:03,829 --> 00:44:01,920

and interagency resolve all these cases

1046

00:44:05,270 --> 00:44:03,839

he's again just saying all the right

1047

00:44:07,970 --> 00:44:05,280

words

1048

00:44:10,430 --> 00:44:07,980

um validating analysis and underlying

1049

00:44:12,230 --> 00:44:10,440

theories peer reviewing things the

1050

00:44:14,809 --> 00:44:12,240

results within the government and

1051
00:44:17,150 --> 00:44:14,819
Industry Partners again he's saying all

1052
00:44:20,210 --> 00:44:17,160
the right things okay let me play let me

1053
00:44:22,550 --> 00:44:20,220
play the red part because I do have that

1054
00:44:25,550 --> 00:44:22,560
tell me if you can't if you can hear it

1055
00:44:27,109 --> 00:44:25,560
reaching any conclusions I could hear I

1056
00:44:29,750 --> 00:44:27,119
should also State clearly for the record

1057
00:44:31,609 --> 00:44:29,760
that in our research Arrow has found no

1058
00:44:33,770 --> 00:44:31,619
credible evidence thus far of

1059
00:44:36,470 --> 00:44:33,780
extraterrestrial activity off-world

1060
00:44:38,150 --> 00:44:36,480
technology or objects that defy the

1061
00:44:40,730 --> 00:44:38,160
known laws of physics

1062
00:44:43,069 --> 00:44:40,740
in the event sufficient scientific data

1063
00:44:45,109 --> 00:44:43,079

were ever attained that a UAP

1064

00:44:47,510 --> 00:44:45,119

encountered can only be explained by

1065

00:44:49,370 --> 00:44:47,520

extraterrestrial origin we are committed

1066

00:44:52,069 --> 00:44:49,380

to working with our interagency partners

1067

00:44:54,530 --> 00:44:52,079

at Nasa to appropriately inform U.S

1068

00:44:56,990 --> 00:44:54,540

government's leadership of its findings

1069

00:44:58,790 --> 00:44:57,000

for those few cases that have leaked to

1070

00:45:01,250 --> 00:44:58,800

the public previously and subsequently

1071

00:45:02,930 --> 00:45:01,260

commented on by the U.S government I

1072

00:45:05,089 --> 00:45:02,940

encourage those who hold alternative

1073

00:45:07,250 --> 00:45:05,099

theories or views to submit to research

1074

00:45:09,829 --> 00:45:07,260

to Credible peer-reviewed scientific

1075

00:45:10,910 --> 00:45:09,839

journals arrow is working very hard to

1076

00:45:13,970 --> 00:45:10,920

do the same

1077

00:45:16,190 --> 00:45:13,980

that is how science works not by blog or

1078

00:45:17,750 --> 00:45:16,200

social media

1079

00:45:19,910 --> 00:45:17,760

so

1080

00:45:23,210 --> 00:45:19,920

I don't really know

1081

00:45:25,069 --> 00:45:23,220

what evidence of extraterrestrial craft

1082

00:45:27,530 --> 00:45:25,079

would look like I don't know how you

1083

00:45:29,150 --> 00:45:27,540

would prove that but

1084

00:45:31,250 --> 00:45:29,160

um I know that upset a lot of people and

1085

00:45:33,770 --> 00:45:31,260

then the Skeptics and debunkers are like

1086

00:45:34,970 --> 00:45:33,780

see game over there's nothing to see

1087

00:45:37,370 --> 00:45:34,980

here

1088

00:45:40,190 --> 00:45:37,380

yeah but if he did have

1089

00:45:43,910 --> 00:45:40,200

evidence of extraterrestrial activity

1090

00:45:45,650 --> 00:45:43,920

and off-world Technology would he in

1091

00:45:49,130 --> 00:45:45,660

that particular venue

1092

00:45:51,470 --> 00:45:49,140

would he have stated such there's no way

1093

00:45:52,430 --> 00:45:51,480

no he probably would not state but would

1094

00:46:04,309 --> 00:45:52,440

he

1095

00:46:07,270 --> 00:46:04,319

leap

1096

00:46:10,069 --> 00:46:07,280

in uh information

1097

00:46:12,829 --> 00:46:10,079

awareness by the public

1098

00:46:14,870 --> 00:46:12,839

um why would he do that in that Forum

1099

00:46:17,690 --> 00:46:14,880

it's not his place

1100

00:46:19,010 --> 00:46:17,700

it's his place to brief Congress and the

1101
00:46:21,950 --> 00:46:19,020
Senate

1102
00:46:25,490 --> 00:46:21,960
open Forum close Forum but I don't think

1103
00:46:27,770 --> 00:46:25,500
it's his role to tell us hey ladies and

1104
00:46:29,650 --> 00:46:27,780
gentlemen my fellow Americans we have

1105
00:46:32,390 --> 00:46:29,660
evidence of off-world Technology

1106
00:46:34,250 --> 00:46:32,400
extraterrestrials are among us that's

1107
00:46:36,109 --> 00:46:34,260
not his role

1108
00:46:38,089 --> 00:46:36,119
then why even bring it up though that's

1109
00:46:39,530 --> 00:46:38,099
why I'm like why even say that then just

1110
00:46:41,270 --> 00:46:39,540
don't say it if you're gonna if you're

1111
00:46:42,589 --> 00:46:41,280
gonna say we don't have evidence when

1112
00:46:44,210 --> 00:46:42,599
they might I mean I don't know if he

1113
00:46:45,710 --> 00:46:44,220

even has that access to that evidence

1114

00:46:47,990 --> 00:46:45,720

first of all he I don't think he has

1115

00:46:49,730 --> 00:46:48,000

crash retrieval evidence and like I said

1116

00:46:51,290 --> 00:46:49,740

how would you even prove something of

1117

00:46:53,630 --> 00:46:51,300

extraterrestrial I mean you could say

1118

00:46:55,430 --> 00:46:53,640

it's coming from deep space you know

1119

00:46:56,870 --> 00:46:55,440

that's the most you could say you can't

1120

00:46:58,730 --> 00:46:56,880

say unless you're tracking it from

1121

00:47:00,470 --> 00:46:58,740

another planet you can't say it's from

1122

00:47:02,089 --> 00:47:00,480

another planet you could say they don't

1123

00:47:04,010 --> 00:47:02,099

look like humans if we have the craft

1124

00:47:05,870 --> 00:47:04,020

you could say we probably didn't build

1125

00:47:07,550 --> 00:47:05,880

this but I I'm just saying how the heck

1126

00:47:11,870 --> 00:47:07,560

would we even get to that point we're

1127

00:47:15,790 --> 00:47:11,880

saying yep it's from planet ZR2 I don't

1128

00:47:20,450 --> 00:47:17,990

we're on two different things here as

1129

00:47:23,930 --> 00:47:20,460

far as what Kirkpatrick says but

1130

00:47:27,290 --> 00:47:23,940

um I just he's sticking strictly to the

1131

00:47:29,450 --> 00:47:27,300

facts he's not doing any speculation

1132

00:47:31,190 --> 00:47:29,460

um and I wouldn't expect him to

1133

00:47:32,870 --> 00:47:31,200

to expect you think he might have said

1134

00:47:34,970 --> 00:47:32,880

differently in the closed session about

1135

00:47:37,309 --> 00:47:34,980

this

1136

00:47:38,390 --> 00:47:37,319

we can't know that yeah I would think

1137

00:47:42,410 --> 00:47:38,400

not

1138

00:47:45,109 --> 00:47:42,420

I have an idea all right continue

1139

00:47:48,230 --> 00:47:45,119

please well so this is just more of the

1140

00:47:50,329 --> 00:47:48,240

same uh then he again saying all the

1141

00:47:54,230 --> 00:47:50,339

right things committed to transparency

1142

00:47:57,829 --> 00:47:54,240

accountability and sharing as much

1143

00:47:59,030 --> 00:47:57,839

with the public as we can right that's

1144

00:48:00,890 --> 00:47:59,040

uh

1145

00:48:03,410 --> 00:48:00,900

consistent with Our obligation to

1146

00:48:07,130 --> 00:48:03,420

protect intelligent sources and methods

1147

00:48:09,109 --> 00:48:07,140

all this is is if I were you know if if

1148

00:48:11,569 --> 00:48:09,119

I had to go do this if I had to go to

1149

00:48:14,870 --> 00:48:11,579

the hill and sit down and and talk about

1150

00:48:17,030 --> 00:48:14,880

this stuff and I had a staff this is how

1151

00:48:19,670 --> 00:48:17,040

I would ask it to be written up then I'd

1152

00:48:22,069 --> 00:48:19,680

spend a day or two going over it because

1153

00:48:24,829 --> 00:48:22,079

he he was absolutely he was he was

1154

00:48:28,490 --> 00:48:24,839

bulletproof uh I never heard him one

1155

00:48:29,329 --> 00:48:28,500

time make a misstatement maybe I missed

1156

00:48:32,030 --> 00:48:29,339

it

1157

00:48:33,230 --> 00:48:32,040

um but he was absolutely polished

1158

00:48:37,309 --> 00:48:33,240

perfect

1159

00:48:38,809 --> 00:48:37,319

uh as if he wrote the entire briefing

1160

00:48:40,190 --> 00:48:38,819

but that's not the way it works because

1161

00:48:41,510 --> 00:48:40,200

those kinds of people don't have the

1162

00:48:42,530 --> 00:48:41,520

time to do it they have people do it for

1163

00:48:44,750 --> 00:48:42,540

them

1164

00:48:46,730 --> 00:48:44,760

um but I thought I was I was impressed I

1165

00:48:49,609 --> 00:48:46,740

was impressed he was very professional

1166

00:48:51,829 --> 00:48:49,619

very very professional yeah I'd never

1167

00:48:54,710 --> 00:48:51,839

seen them speak I I only heard I'd only

1168

00:48:56,270 --> 00:48:54,720

heard you know negative mostly negative

1169

00:48:59,510 --> 00:48:56,280

things about him so it was actually nice

1170

00:49:00,829 --> 00:48:59,520

to hear directly from him yeah now I'm

1171

00:49:02,870 --> 00:49:00,839

not going to go into because people

1172

00:49:04,849 --> 00:49:02,880

could go to your your site and see this

1173

00:49:07,670 --> 00:49:04,859

stuff but one thing that did kind of

1174

00:49:10,130 --> 00:49:07,680

disappoint me is when he showed this

1175

00:49:11,809 --> 00:49:10,140

chart or maybe you put these these I'm

1176

00:49:13,430 --> 00:49:11,819

just I'm just I pulled whatever was on

1177

00:49:16,849 --> 00:49:13,440

the chart I put in text so it's a little

1178

00:49:18,710 --> 00:49:16,859

easier to read so yeah you know what

1179

00:49:23,630 --> 00:49:18,720

would it say if it how would this look

1180

00:49:29,450 --> 00:49:23,640

if you were like 1945 to 2023 right

1181

00:49:30,290 --> 00:49:29,460

or from from 11 A.D to 2023 it would be

1182

00:49:31,970 --> 00:49:30,300

uh

1183

00:49:34,130 --> 00:49:31,980

you know because there's been evidence

1184

00:49:36,410 --> 00:49:34,140

of stuff going on and most of them show

1185

00:49:38,870 --> 00:49:36,420

up where we fly which makes sense sensor

1186

00:49:42,109 --> 00:49:38,880

bias same type of thing they may be

1187

00:49:43,730 --> 00:49:42,119

everywhere but you know but you know

1188

00:49:45,050 --> 00:49:43,740

that's not so so I'm not really going to

1189

00:49:46,430 --> 00:49:45,060

go through these the shapes were good it

1190

00:49:48,290 --> 00:49:46,440

was nice to see the shapes in there it's

1191

00:49:50,089 --> 00:49:48,300

like all right this is you know it's the

1192

00:49:51,950 --> 00:49:50,099

information that was shapes were blacked

1193

00:49:53,530 --> 00:49:51,960

out on some of the reports we saw

1194

00:49:57,290 --> 00:49:53,540

yeah

1195

00:49:59,450 --> 00:49:57,300

one of the things that interests me in

1196

00:50:01,910 --> 00:49:59,460

this whole discussion about well the

1197

00:50:05,030 --> 00:50:01,920

native seeing them now more often quite

1198

00:50:06,470 --> 00:50:05,040

frequently maybe some maybe daily we

1199

00:50:08,210 --> 00:50:06,480

don't know as much about what the Air

1200

00:50:11,450 --> 00:50:08,220

Force is saying but we do know their

1201

00:50:14,410 --> 00:50:11,460

interest in our nuclear assets aircraft

1202

00:50:16,910 --> 00:50:14,420

carriers nuclear power plants nuclear

1203

00:50:18,730 --> 00:50:16,920

manufacturing facilities Los Alamos you

1204

00:50:22,010 --> 00:50:18,740

name it

1205

00:50:23,210 --> 00:50:22,020

where it seems that they're harder to

1206

00:50:25,790 --> 00:50:23,220

detect

1207

00:50:28,370 --> 00:50:25,800

but you can with the right sensors but

1208

00:50:31,490 --> 00:50:28,380

if you go back if you go to Paul Hill's

1209

00:50:34,670 --> 00:50:31,500

book or just go back over the Decades of

1210

00:50:37,130 --> 00:50:34,680

reported UFO encounters experiences

1211

00:50:40,190 --> 00:50:37,140

sightings whatever you want to call it

1212

00:50:41,930 --> 00:50:40,200

you didn't have to have you know the

1213

00:50:44,990 --> 00:50:41,940

most advanced Radars back in those days

1214

00:50:48,290 --> 00:50:45,000

these things were apparently according

1215

00:50:50,990 --> 00:50:48,300

to the reports much more more overt much

1216

00:50:54,109 --> 00:50:51,000

more sort of in your face much more

1217

00:50:56,809 --> 00:50:54,119

visible you know if you talk about Paul

1218

00:50:59,210 --> 00:50:56,819

Hill he and a colleague were in Norfolk

1219

00:51:02,030 --> 00:50:59,220

Virginia one afternoon at a traffic

1220

00:51:05,030 --> 00:51:02,040

light and they looked out over Norfolk

1221

00:51:07,370 --> 00:51:05,040

Bay and there was this enormous pencil

1222

00:51:09,230 --> 00:51:07,380

green giant pencil shaped thing that was

1223

00:51:12,589 --> 00:51:09,240

like a half mile long

1224

00:51:14,870 --> 00:51:12,599

uh it sort of pointed on one end and

1225

00:51:16,370 --> 00:51:14,880

blunt on the back end and it was just

1226

00:51:18,829 --> 00:51:16,380

kind of hovering there

1227

00:51:20,089 --> 00:51:18,839

and everybody the traffic stopped

1228

00:51:23,870 --> 00:51:20,099

everybody was looking at this thing

1229

00:51:25,010 --> 00:51:23,880

again this is a NASA scientist observing

1230

00:51:28,370 --> 00:51:25,020

this

1231

00:51:31,130 --> 00:51:28,380

and and then it just suddenly shot off

1232

00:51:32,270 --> 00:51:31,140

over the bay out over the ocean and was

1233

00:51:34,370 --> 00:51:32,280

gone

1234

00:51:36,710 --> 00:51:34,380

and of course all this all the other

1235

00:51:38,569 --> 00:51:36,720

reported Encounters of the of discs and

1236

00:51:40,069 --> 00:51:38,579

whatever else triangles like the one I

1237

00:51:43,069 --> 00:51:40,079

saw

1238

00:51:45,230 --> 00:51:43,079

that just appear and they're there yet

1239

00:51:47,630 --> 00:51:45,240

these Navy and Air Force these Navy

1240

00:51:50,569 --> 00:51:47,640

accounts are things

1241

00:51:54,109 --> 00:51:50,579

much different these things are they're

1242

00:51:56,210 --> 00:51:54,119

much more uh elusive they're harder to

1243

00:51:58,790 --> 00:51:56,220

see they'll see them on their on their

1244

00:52:00,470 --> 00:51:58,800

aircraft radar they'll get they'll

1245

00:52:02,150 --> 00:52:00,480

Vector in towards it

1246

00:52:03,950 --> 00:52:02,160

and then they'll have a lot of

1247

00:52:05,690 --> 00:52:03,960

difficulty if if not even being able to

1248

00:52:07,549 --> 00:52:05,700

see it at all visually

1249

00:52:10,130 --> 00:52:07,559

but they can see it on their sensors

1250

00:52:12,890 --> 00:52:10,140

they can see it you know with radar they

1251

00:52:15,170 --> 00:52:12,900

can see it with infrared detectors

1252

00:52:17,270 --> 00:52:15,180

so it's sort of a different thing going

1253

00:52:18,710 --> 00:52:17,280

on these days it's it seems you don't

1254

00:52:23,750 --> 00:52:18,720

have

1255

00:52:25,250 --> 00:52:23,760

dramatic sightings for these these large

1256

00:52:29,210 --> 00:52:25,260

you know like the overflight of

1257

00:52:31,670 --> 00:52:29,220

Washington DC in 1952 uh two consecutive

1258

00:52:34,370 --> 00:52:31,680

weekends you don't you don't have that

1259

00:52:36,049 --> 00:52:34,380

you don't have these giant pencil shaped

1260

00:52:37,670 --> 00:52:36,059

things showing up and you know zooming

1261

00:52:39,890 --> 00:52:37,680

on it's like they're trying to be a

1262

00:52:41,990 --> 00:52:39,900

little more I mean are these

1263

00:52:43,490 --> 00:52:42,000

I I don't even go there because I don't

1264

00:52:46,250 --> 00:52:43,500

like speculating about this kind of

1265

00:52:48,290 --> 00:52:46,260

stuff uh we all wonder why certain

1266

00:52:50,930 --> 00:52:48,300

things yeah things change you have the

1267

00:52:53,930 --> 00:52:50,940

last when was the last major sighting I

1268

00:52:57,650 --> 00:52:53,940

mean Phoenix 97 I mean there was one in

1269

00:53:00,829 --> 00:52:57,660

2000 over Illinois in Missouri but

1270

00:53:03,950 --> 00:53:00,839

yeah like that since then yeah it's it's

1271

00:53:06,530 --> 00:53:03,960

mostly now these orbs and whatever from

1272

00:53:09,349 --> 00:53:06,540

what I understand but uh yeah it's just

1273

00:53:12,530 --> 00:53:09,359

an interesting change in the in the

1274

00:53:15,290 --> 00:53:12,540

dramaticism of you know how these things

1275

00:53:16,730 --> 00:53:15,300

show up uh it's like they're trying to

1276

00:53:18,710 --> 00:53:16,740

be more careful or maybe they're maybe

1277

00:53:20,569 --> 00:53:18,720

they're like okay we've been there done

1278

00:53:22,309 --> 00:53:20,579

that we'll just send our probes I have

1279

00:53:23,809 --> 00:53:22,319

no idea I'm just throwing stuff out

1280

00:53:25,250 --> 00:53:23,819

there yeah good point there was 2008

1281

00:53:26,150 --> 00:53:25,260

Stephenville which was a really good

1282

00:53:28,069 --> 00:53:26,160

case

1283

00:53:29,809 --> 00:53:28,079

um well yeah that's an epic one yeah

1284

00:53:30,530 --> 00:53:29,819

yeah

1285

00:53:32,210 --> 00:53:30,540

um

1286

00:53:34,549 --> 00:53:32,220

so here's the last thing I think I

1287

00:53:36,530 --> 00:53:34,559

highlighted here that we're

1288

00:53:39,230 --> 00:53:36,540

how are we going to get more data he

1289

00:53:40,910 --> 00:53:39,240

asks he says we're going to work with

1290

00:53:43,010 --> 00:53:40,920

the joint staff

1291

00:53:45,170 --> 00:53:43,020

to issue guidance to all the services

1292

00:53:49,730 --> 00:53:45,180

and commands now

1293

00:53:52,250 --> 00:53:49,740

that to me is enormously impressive The

1294

00:53:53,510 --> 00:53:52,260

Joint staff means The Joint Chiefs of

1295

00:53:55,790 --> 00:53:53,520

Staff

1296

00:53:58,490 --> 00:53:55,800

that is if you don't know what it is

1297

00:54:00,109 --> 00:53:58,500

folks go look it up Google it figure out

1298

00:54:02,450 --> 00:54:00,119

who they are how important they are

1299

00:54:04,670 --> 00:54:02,460

these are the highest ranking military

1300

00:54:07,569 --> 00:54:04,680

people in the land

1301
00:54:09,910 --> 00:54:07,579
they have cognizance over intelligence

1302
00:54:14,030 --> 00:54:09,920
uh Battlefield

1303
00:54:16,069 --> 00:54:14,040
matters uh industry you know how do we

1304
00:54:19,069 --> 00:54:16,079
build our battleships how do we how do

1305
00:54:22,970 --> 00:54:19,079
we create intelligence operations it's

1306
00:54:25,430 --> 00:54:22,980
their purview is enormous the fact that

1307
00:54:26,809 --> 00:54:25,440
he's talking about integrating with the

1308
00:54:29,809 --> 00:54:26,819
joint staff

1309
00:54:31,670 --> 00:54:29,819
I was I was mildly impressed with that

1310
00:54:32,990 --> 00:54:31,680
to say the least

1311
00:54:35,030 --> 00:54:33,000
um

1312
00:54:37,010 --> 00:54:35,040
so like part of his part of his

1313
00:54:38,750 --> 00:54:37,020

presentation was

1314

00:54:39,950 --> 00:54:38,760

saying all the right things that you

1315

00:54:41,990 --> 00:54:39,960

would say if you were head of an

1316

00:54:44,030 --> 00:54:42,000

organization like that and been called

1317

00:54:46,549 --> 00:54:44,040

before Senate to report

1318

00:54:49,190 --> 00:54:46,559

but the thoroughness with which they're

1319

00:54:51,770 --> 00:54:49,200

going about it kind of reflects back to

1320

00:54:53,750 --> 00:54:51,780

what Chris Mellon said when he talked

1321

00:54:56,510 --> 00:54:53,760

about on his blog site

1322

00:54:59,569 --> 00:54:56,520

as how how you would organize such an

1323

00:55:04,069 --> 00:54:59,579

agency or an organization like this

1324

00:55:05,089 --> 00:55:04,079

uh and what we're seeing in in words in

1325

00:55:07,549 --> 00:55:05,099

Words

1326

00:55:11,390 --> 00:55:07,559

is that that has actually happened

1327

00:55:13,790 --> 00:55:11,400

and it's still evolving so you know I

1328

00:55:15,470 --> 00:55:13,800

don't consider myself a naive person

1329

00:55:17,809 --> 00:55:15,480

but

1330

00:55:21,890 --> 00:55:17,819

I I do feel

1331

00:55:24,109 --> 00:55:21,900

pretty pretty confident that a he was

1332

00:55:26,089 --> 00:55:24,119

the right guy to have been leading this

1333

00:55:27,109 --> 00:55:26,099

organization up to now regardless of how

1334

00:55:28,490 --> 00:55:27,119

long he stays there because he's

1335

00:55:32,530 --> 00:55:28,500

probably going to retire as soon as I

1336

00:55:36,470 --> 00:55:34,730

he'll be gone within a year I don't know

1337

00:55:38,510 --> 00:55:36,480

if it's retirement or something else I

1338

00:55:41,089 --> 00:55:38,520

don't know well these people don't stay

1339

00:55:44,270 --> 00:55:41,099

they wherever they are wherever I've

1340

00:55:47,030 --> 00:55:44,280

been the leaders it's it's in their

1341

00:55:49,670 --> 00:55:47,040

interest to keep moving up and onward

1342

00:55:52,670 --> 00:55:49,680

right they're furthering their career or

1343

00:55:55,549 --> 00:55:52,680

in his case he may be at retirement

1344

00:55:58,790 --> 00:55:55,559

right he's undoubtedly he's he's not

1345

00:56:01,549 --> 00:55:58,800

he's not a gs-15 he's the next level up

1346

00:56:03,829 --> 00:56:01,559

which is I'm assuming which is senior

1347

00:56:05,210 --> 00:56:03,839

executive service now you can go Google

1348

00:56:07,549 --> 00:56:05,220

that and find out how much they make

1349

00:56:08,690 --> 00:56:07,559

their benefits and all that is spent are

1350

00:56:11,210 --> 00:56:08,700

fantastic

1351

00:56:14,329 --> 00:56:11,220

so he he he's he's obviously worked hard

1352

00:56:17,329 --> 00:56:14,339

to get where he is uh so the end result

1353

00:56:20,089 --> 00:56:17,339

of all of this is I was impressed with

1354

00:56:22,730 --> 00:56:20,099

Kirkpatrick and uh it'll be interesting

1355

00:56:23,809 --> 00:56:22,740

to see what they how they report out the

1356

00:56:28,130 --> 00:56:23,819

next time

1357

00:56:33,950 --> 00:56:32,270

one of the things I mean Kirk gillibrand

1358

00:56:35,450 --> 00:56:33,960

has been been one of the four in the

1359

00:56:37,490 --> 00:56:35,460

Forefront of this with Rubio and other

1360

00:56:40,130 --> 00:56:37,500

folks Gallego and

1361

00:56:41,809 --> 00:56:40,140

Gallagher and right off her right off

1362

00:56:43,490 --> 00:56:41,819

the bat she said you know because we're

1363

00:56:44,870 --> 00:56:43,500

wondering she was talking about balloons

1364

00:56:46,370 --> 00:56:44,880

in some of her interviews and seemed

1365

00:56:48,170 --> 00:56:46,380

like she was focusing on drones and

1366

00:56:49,790 --> 00:56:48,180

balloons but she said in her opening

1367

00:56:53,329 --> 00:56:49,800

statement she's like we don't know where

1368

00:56:54,890 --> 00:56:53,339

UAP come from who made them or how they

1369

00:56:58,309 --> 00:56:54,900

operate that's basically you know that's

1370

00:57:00,290 --> 00:56:58,319

it basic stuff important stuff

1371

00:57:01,549 --> 00:57:00,300

um so it's nice to see and yeah like I

1372

00:57:03,049 --> 00:57:01,559

said it was disappointing to see three

1373

00:57:04,130 --> 00:57:03,059

senators and I know they had staffers

1374

00:57:06,230 --> 00:57:04,140

but

1375

00:57:07,790 --> 00:57:06,240

I know more they said more where

1376
00:57:09,650 --> 00:57:07,800
somebody found out more were in the

1377
00:57:12,710 --> 00:57:09,660
classified briefing

1378
00:57:15,589 --> 00:57:12,720
um and Kirkpatrick said we are working

1379
00:57:18,170 --> 00:57:15,599
with industry Academia and the

1380
00:57:20,450 --> 00:57:18,180
scientific Community who why can't we

1381
00:57:22,730 --> 00:57:20,460
know that Michael it's like if they're

1382
00:57:24,470 --> 00:57:22,740
working with industry right now you know

1383
00:57:26,150 --> 00:57:24,480
in the academic world and the scientific

1384
00:57:27,589 --> 00:57:26,160
Community it's like who are you working

1385
00:57:29,030 --> 00:57:27,599
with I don't understand why that's

1386
00:57:30,410 --> 00:57:29,040
secret

1387
00:57:32,089 --> 00:57:30,420
um I know some don't want to be

1388
00:57:34,490 --> 00:57:32,099

connected to UFOs and that may be the

1389

00:57:35,990 --> 00:57:34,500

reason and if that's the case okay I

1390

00:57:37,490 --> 00:57:36,000

understand it as long as they're helping

1391

00:57:39,530 --> 00:57:37,500

and they're trying to help solve this

1392

00:57:41,390 --> 00:57:39,540

problem

1393

00:57:44,990 --> 00:57:41,400

well the only thing I can tell you about

1394

00:57:47,569 --> 00:57:45,000

that is that business relationships in

1395

00:57:51,170 --> 00:57:47,579

in this world or that world

1396

00:57:52,490 --> 00:57:51,180

are private and let me give you an

1397

00:57:54,349 --> 00:57:52,500

example

1398

00:57:56,390 --> 00:57:54,359

let's say

1399

00:57:58,069 --> 00:57:56,400

and you don't often see this

1400

00:57:59,870 --> 00:57:58,079

but let's say

1401
00:58:01,970 --> 00:57:59,880
and I can only have I have to stick to

1402
00:58:04,390 --> 00:58:01,980
my own domain so let's say that the

1403
00:58:07,130 --> 00:58:04,400
government needs a new satellite

1404
00:58:09,770 --> 00:58:07,140
and they're going to go

1405
00:58:13,210 --> 00:58:09,780
get a major defense contractor you know

1406
00:58:16,370 --> 00:58:13,220
one of the Boeing Lockheed Raytheon

1407
00:58:20,089 --> 00:58:16,380
whoever Northrop Grumman to build it

1408
00:58:23,510 --> 00:58:20,099
well no whoever you choose whoever wins

1409
00:58:25,309 --> 00:58:23,520
the award to go build that that system

1410
00:58:28,670 --> 00:58:25,319
they're not going to do it on their own

1411
00:58:31,609 --> 00:58:28,680
they're going to have dozens to hundreds

1412
00:58:34,670 --> 00:58:31,619
of smaller subcontracting companies or

1413
00:58:36,530 --> 00:58:34,680

suppliers helping them build all the

1414

00:58:38,530 --> 00:58:36,540

little parts and gadgets that end up

1415

00:58:41,569 --> 00:58:38,540

making the whole the whole thing right

1416

00:58:43,789 --> 00:58:41,579

but the prime contractor will be

1417

00:58:46,549 --> 00:58:43,799

responsible for that but there's just no

1418

00:58:47,870 --> 00:58:46,559

way in hell you're gonna know on the

1419

00:58:50,329 --> 00:58:47,880

outside

1420

00:58:53,569 --> 00:58:50,339

who all of those suppliers are who all

1421

00:58:54,710 --> 00:58:53,579

those business business partners is what

1422

00:58:56,210 --> 00:58:54,720

they call themselves sometimes in

1423

00:58:58,309 --> 00:58:56,220

contracts

1424

00:59:01,490 --> 00:58:58,319

between one another you're not going to

1425

00:59:02,990 --> 00:59:01,500

know who all those other entities are so

1426
00:59:06,410 --> 00:59:03,000
when they talk about industry and

1427
00:59:09,069 --> 00:59:06,420
Academia and sharing information uh in

1428
00:59:13,069 --> 00:59:11,569
how are we going to know that they're

1429
00:59:15,770 --> 00:59:13,079
not going to advertise that

1430
00:59:18,349 --> 00:59:15,780
so it's just a thing you just kind of

1431
00:59:20,630 --> 00:59:18,359
have to accept it question for you you

1432
00:59:23,270 --> 00:59:20,640
have any thoughts on the Alaska

1433
00:59:25,190 --> 00:59:23,280
that horse object shoot down you know on

1434
00:59:27,049 --> 00:59:25,200
the objects we shot down does anything

1435
00:59:28,970 --> 00:59:27,059
stand out to you about how odd it was

1436
00:59:30,349 --> 00:59:28,980
that that event was handled how it was

1437
00:59:32,690 --> 00:59:30,359
handled from an Intel public

1438
00:59:34,490 --> 00:59:32,700

Communications standpoint

1439

00:59:38,089 --> 00:59:34,500

my only

1440

00:59:41,150 --> 00:59:38,099

curiosity main point of curiosity is if

1441

00:59:42,710 --> 00:59:41,160

it was so benign and they and they

1442

00:59:43,970 --> 00:59:42,720

finally got tired of this stuff floating

1443

00:59:46,069 --> 00:59:43,980

over the country and they finally

1444

00:59:48,349 --> 00:59:46,079

started scrambling Fighters and finally

1445

00:59:50,270 --> 00:59:48,359

started shooting them down and they land

1446

00:59:52,130 --> 00:59:50,280

somewhere

1447

00:59:54,410 --> 00:59:52,140

if they found it and if they landed in

1448

00:59:55,789 --> 00:59:54,420

in the ocean I can understand not being

1449

00:59:57,950 --> 00:59:55,799

able to find it

1450

01:00:01,849 --> 00:59:57,960

I can even understand not being able to

1451
01:00:04,250 --> 01:00:01,859
find it across the vastness of Canada

1452
01:00:06,289 --> 01:00:04,260
um but if they did find something then

1453
01:00:07,970 --> 01:00:06,299
what's the big deal about letting us

1454
01:00:10,970 --> 01:00:07,980
know

1455
01:00:13,430 --> 01:00:10,980
um unless it was a Chinese

1456
01:00:15,170 --> 01:00:13,440
payload that you know once you pop the

1457
01:00:17,150 --> 01:00:15,180
balloon it falls to the ground and now

1458
01:00:18,589 --> 01:00:17,160
they're still studying it trying to

1459
01:00:21,109 --> 01:00:18,599
figure out what it could have collected

1460
01:00:22,970 --> 01:00:21,119
how much damage you're doing a damage

1461
01:00:26,030 --> 01:00:22,980
assessment thing like well it could have

1462
01:00:28,069 --> 01:00:26,040
collected XYZ so oh crap what were we

1463
01:00:29,569 --> 01:00:28,079

doing while it was okay so we could go

1464

01:00:32,210 --> 01:00:29,579

back and do the after action and figure

1465

01:00:33,650 --> 01:00:32,220

all that out maybe there's they're still

1466

01:00:35,750 --> 01:00:33,660

doing that

1467

01:00:39,589 --> 01:00:35,760

otherwise I don't know what the big deal

1468

01:00:41,750 --> 01:00:39,599

is but I assume it's it's based on

1469

01:00:43,549 --> 01:00:41,760

probably ongoing investigation that we

1470

01:00:45,829 --> 01:00:43,559

don't know anything further that's my

1471

01:00:47,630 --> 01:00:45,839

assumption folks if you had questions

1472

01:00:49,730 --> 01:00:47,640

earlier I missed or you have questions

1473

01:00:51,349 --> 01:00:49,740

now do it now

1474

01:00:52,430 --> 01:00:51,359

um I don't know if you saw the story in

1475

01:00:55,609 --> 01:00:52,440

the news

1476

01:00:56,990 --> 01:00:55,619

Michael all these folks from Congress

1477

01:00:59,210 --> 01:00:57,000

Intel committee they went to

1478

01:01:00,770 --> 01:00:59,220

Wright-Patterson for a briefing I know

1479

01:01:02,030 --> 01:01:00,780

everybody jumped to a conclusion that it

1480

01:01:04,190 --> 01:01:02,040

might be oh they're going to show them

1481

01:01:07,130 --> 01:01:04,200

the craft but I I don't think that's

1482

01:01:09,770 --> 01:01:07,140

what it was about it it certainly didn't

1483

01:01:12,589 --> 01:01:09,780

say anything about what it was about

1484

01:01:14,930 --> 01:01:12,599

other than what they were there for

1485

01:01:17,510 --> 01:01:14,940

but I don't recall

1486

01:01:18,890 --> 01:01:17,520

is this you've been doing this a lot

1487

01:01:22,309 --> 01:01:18,900

longer than me

1488

01:01:24,289 --> 01:01:22,319

do you ever recall this these this

1489

01:01:25,789 --> 01:01:24,299

caliber of people

1490

01:01:28,490 --> 01:01:25,799

announcing that they've gone to

1491

01:01:29,630 --> 01:01:28,500

Wright-Patterson Air Force Base for a

1492

01:01:31,910 --> 01:01:29,640

briefing

1493

01:01:34,190 --> 01:01:31,920

I I don't recall that and why is that

1494

01:01:37,130 --> 01:01:34,200

important so if you think about going

1495

01:01:39,109 --> 01:01:37,140

back to what they're telling us

1496

01:01:41,089 --> 01:01:39,119

in the in the news in the news sphere

1497

01:01:43,730 --> 01:01:41,099

the information sphere

1498

01:01:45,589 --> 01:01:43,740

and why they're telling us and what they

1499

01:01:46,970 --> 01:01:45,599

want us to believe why did they even

1500

01:01:49,010 --> 01:01:46,980

have to mention that why was that

1501

01:01:50,930 --> 01:01:49,020

important in any way

1502

01:01:52,970 --> 01:01:50,940

because I have never

1503

01:01:55,490 --> 01:01:52,980

and I don't follow that stuff that

1504

01:01:57,289 --> 01:01:55,500

closely but I mean why would they have

1505

01:01:59,690 --> 01:01:57,299

to go to write Patterson Air Force Base

1506

01:02:03,490 --> 01:01:59,700

for this discussion that they had

1507

01:02:08,030 --> 01:02:05,690

and they said ladies and gentlemen have

1508

01:02:09,890 --> 01:02:08,040

you ever heard of the Blue Room well now

1509

01:02:12,010 --> 01:02:09,900

you're gonna see it and the blue room is

1510

01:02:14,329 --> 01:02:12,020

supposedly where Curtis LeMay told

1511

01:02:17,329 --> 01:02:14,339

Congressman Mary Goldwater you know it's

1512

01:02:19,069 --> 01:02:17,339

like don't ever mention that again right

1513

01:02:22,490 --> 01:02:19,079

trying to get access trying to

1514

01:02:25,069 --> 01:02:22,500

supposedly see crashed uh saucers or

1515

01:02:27,589 --> 01:02:25,079

whatever is in there but if you know you

1516

01:02:29,930 --> 01:02:27,599

hear John Ramirez who's former CIA who

1517

01:02:31,069 --> 01:02:29,940

Jim semivan has you know he said he's a

1518

01:02:32,870 --> 01:02:31,079

really great guy you should listen to

1519

01:02:34,910 --> 01:02:32,880

him and he's saying we're gonna have

1520

01:02:36,650 --> 01:02:34,920

disclosure in a matter of months and

1521

01:02:38,510 --> 01:02:36,660

then you see that story of you can't

1522

01:02:40,370 --> 01:02:38,520

blame people for jumping to a conclusion

1523

01:02:41,930 --> 01:02:40,380

and you're like maybe there is something

1524

01:02:43,970 --> 01:02:41,940

there maybe something's going on I mean

1525

01:02:45,530 --> 01:02:43,980

I'm always skeptical of that and I'm

1526

01:02:47,210 --> 01:02:45,540

even skeptical that by the end of the

1527

01:02:48,950 --> 01:02:47,220

year there's going to be these amazing

1528

01:02:51,170 --> 01:02:48,960

Revelations but

1529

01:02:52,730 --> 01:02:51,180

I hope my fingers are crossed we'll see

1530

01:02:55,670 --> 01:02:52,740

you know

1531

01:02:56,930 --> 01:02:55,680

um let's see I'm trying to see questions

1532

01:02:58,190 --> 01:02:56,940

more

1533

01:02:59,690 --> 01:02:58,200

what do you think about the best case

1534

01:03:01,069 --> 01:02:59,700

scenario for Eric Davis to speak openly

1535

01:03:02,930 --> 01:03:01,079

to the public it's not going to happen

1536

01:03:05,329 --> 01:03:02,940

where he works they won't let him speak

1537

01:03:07,370 --> 01:03:05,339

so as far as

1538

01:03:09,470 --> 01:03:07,380

in in the past he's spoken about the

1539

01:03:11,210 --> 01:03:09,480

crash retrieval program let's say

1540

01:03:12,589 --> 01:03:11,220

he's spoken about the crash retrieval

1541

01:03:14,809 --> 01:03:12,599

program he's spoken about other world

1542

01:03:16,190 --> 01:03:14,819

powers having vehicles let's just say

1543

01:03:18,650 --> 01:03:16,200

and he wasn't quoted in the New York

1544

01:03:22,190 --> 01:03:18,660

Times saying you know we retrieved

1545

01:03:25,010 --> 01:03:22,200

vehicles from uh we retrieved from

1546

01:03:26,990 --> 01:03:25,020

off-world Vehicles not made

1547

01:03:30,530 --> 01:03:27,000

by human Android they say not made on

1548

01:03:32,270 --> 01:03:30,540

this Earth anyway they said both let's

1549

01:03:34,849 --> 01:03:32,280

just say in theory

1550

01:03:36,890 --> 01:03:34,859

where he works they said you know what

1551

01:03:39,470 --> 01:03:36,900

you can speak to the media again I don't

1552

01:03:40,910 --> 01:03:39,480

know if if there were some other thing

1553

01:03:42,289 --> 01:03:40,920

going on with all of this talking about

1554

01:03:44,150 --> 01:03:42,299

whistleblowers and I don't know if he

1555

01:03:45,589 --> 01:03:44,160

would be a whistleblower but I don't

1556

01:03:48,049 --> 01:03:45,599

know if he would still be able to be as

1557

01:03:49,609 --> 01:03:48,059

open as he was back then I mean he's on

1558

01:03:52,069 --> 01:03:49,619

Facebook and he says things every now

1559

01:03:54,530 --> 01:03:52,079

and then in a closed Facebook group but

1560

01:03:55,549 --> 01:03:54,540

he was very open back you know I don't

1561

01:03:57,410 --> 01:03:55,559

know how many years ago it was like

1562

01:03:59,569 --> 01:03:57,420

maybe five six years ago like oh this is

1563

01:04:02,390 --> 01:03:59,579

amazing what he's saying now I'm not

1564

01:04:04,910 --> 01:04:02,400

sure but like like I said he can't speak

1565

01:04:06,650 --> 01:04:04,920

because his job doesn't want him to do

1566

01:04:08,289 --> 01:04:06,660

media so it's in there's really no

1567

01:04:11,270 --> 01:04:08,299

debate there it's not going to happen

1568

01:04:14,390 --> 01:04:11,280

unless it hits the lottery to me it's

1569

01:04:17,270 --> 01:04:14,400

analogous to uh to Paul Hill

1570

01:04:19,910 --> 01:04:17,280

at Nasa Langley in the 50s 60s 70s they

1571

01:04:21,530 --> 01:04:19,920

wouldn't let him write his book about

1572

01:04:24,049 --> 01:04:21,540

his findings

1573

01:04:27,049 --> 01:04:24,059

and you and I have talked ad nauseam

1574

01:04:29,930 --> 01:04:27,059

about you know that book and how he had

1575

01:04:32,030 --> 01:04:29,940

it all figured out right they had it

1576

01:04:36,170 --> 01:04:32,040

wasn't just him right this this was NASA

1577

01:04:37,910 --> 01:04:36,180

Langley this this is not just one guy uh

1578

01:04:40,190 --> 01:04:37,920

but they would not let him publish that

1579

01:04:43,370 --> 01:04:40,200

and so that book did not get published

1580

01:04:46,010 --> 01:04:43,380

until he died and his daughter Julie

1581

01:04:48,230 --> 01:04:46,020

public published the book posthumously

1582

01:04:51,650 --> 01:04:48,240

okay and all that's that's all history

1583

01:04:55,430 --> 01:04:51,660

but um if you go through that book you

1584

01:04:56,569 --> 01:04:55,440

realize that we knew a shitload pardon

1585

01:04:58,430 --> 01:04:56,579

me

1586

01:05:02,690 --> 01:04:58,440

way back

1587

01:05:05,030 --> 01:05:02,700

and uh the the things that he leaves out

1588

01:05:07,609 --> 01:05:05,040

and so so I and so he's sort of like you

1589

01:05:09,470 --> 01:05:07,619

know constrained or Paul Hill was just

1590

01:05:11,089 --> 01:05:09,480

like Eric Davis is with Aerospace

1591

01:05:12,650 --> 01:05:11,099

Corporation

1592

01:05:14,089 --> 01:05:12,660

I don't I don't see him ever going

1593

01:05:16,190 --> 01:05:14,099

public

1594

01:05:18,710 --> 01:05:16,200

not until maybe he retires and they

1595

01:05:20,630 --> 01:05:18,720

release him from the obligations and

1596

01:05:22,370 --> 01:05:20,640

there's a lot of water to go into the

1597

01:05:23,690 --> 01:05:22,380

bridge between now and then of course uh

1598

01:05:27,170 --> 01:05:23,700

we don't know what's going to happen but

1599

01:05:29,450 --> 01:05:27,180

but if you go back to Paul Hill uh they

1600

01:05:33,170 --> 01:05:29,460

he had so much of it figured out the

1601

01:05:35,109 --> 01:05:33,180

only things he didn't know really uh was

1602

01:05:39,829 --> 01:05:35,119

sort of motive

1603

01:05:41,690 --> 01:05:39,839

intent right and original origin and the

1604

01:05:43,789 --> 01:05:41,700

exact power plant

1605

01:05:44,630 --> 01:05:43,799

the nature of the power plant or the

1606

01:05:47,690 --> 01:05:44,640

engine

1607

01:05:48,890 --> 01:05:47,700

on these things but now as I understand

1608

01:05:50,990 --> 01:05:48,900

it

1609

01:05:53,990 --> 01:05:51,000

after observing these things or I don't

1610

01:05:57,970 --> 01:05:54,000

know digging them up shooting them down

1611

01:06:02,750 --> 01:05:57,980

them crashing however we've supposedly

1612

01:06:05,569 --> 01:06:02,760

supposedly come across these vehicles

1613

01:06:07,549 --> 01:06:05,579

I guess we figured it out

1614

01:06:08,870 --> 01:06:07,559

either by watching their performance and

1615

01:06:10,190 --> 01:06:08,880

then kind of going through the physics

1616

01:06:12,890 --> 01:06:10,200

and figuring out how to do it because I

1617

01:06:14,150 --> 01:06:12,900

know what I saw was was extraordinary

1618

01:06:16,910 --> 01:06:14,160

and

1619

01:06:20,030 --> 01:06:16,920

I I think it was American made but I

1620

01:06:22,490 --> 01:06:20,040

have no way of knowing that

1621

01:06:23,990 --> 01:06:22,500

question have any of your contacts

1622

01:06:25,670 --> 01:06:24,000

indicated that something is happening in

1623

01:06:27,849 --> 01:06:25,680

the months ahead I'm pretty sure you

1624

01:06:30,170 --> 01:06:27,859

would have told me that so it's no but

1625

01:06:32,329 --> 01:06:30,180

following up on that what are the people

1626
01:06:34,670 --> 01:06:32,339
in your circles however how are things

1627
01:06:37,250 --> 01:06:34,680
are they commenting on this topic more

1628
01:06:38,329 --> 01:06:37,260
than they have in the past I've seen an

1629
01:06:40,490 --> 01:06:38,339
entire

1630
01:06:43,609 --> 01:06:40,500
there's lots of words I could use to

1631
01:06:46,430 --> 01:06:43,619
describe it I'll call it a sea change so

1632
01:06:49,130 --> 01:06:46,440
so in my community of friends former

1633
01:06:50,870 --> 01:06:49,140
bosses people that vastly outranked me

1634
01:06:55,430 --> 01:06:50,880
I'm talking about maybe captains

1635
01:06:58,190 --> 01:06:55,440
Admirals generals others uh and and

1636
01:07:00,410 --> 01:06:58,200
people that vastly outrank me

1637
01:07:02,750 --> 01:07:00,420
intellectually people that are you know

1638
01:07:06,230 --> 01:07:02,760

scientists physicists engineers

1639

01:07:08,510 --> 01:07:06,240

of the highest caliber this is number

1640

01:07:10,970 --> 01:07:08,520

one something that I sort of secretly

1641

01:07:12,890 --> 01:07:10,980

brought up back in in the

1642

01:07:14,450 --> 01:07:12,900

early 2000s

1643

01:07:16,430 --> 01:07:14,460

uh

1644

01:07:17,809 --> 01:07:16,440

privately asking them hey you know

1645

01:07:19,970 --> 01:07:17,819

here's what I saw what do you think it

1646

01:07:23,329 --> 01:07:19,980

was and that had to it was like walking

1647

01:07:24,890 --> 01:07:23,339

on eggshells but in the last two years

1648

01:07:27,829 --> 01:07:24,900

especially

1649

01:07:31,750 --> 01:07:27,839

I've seen an entire sea change where

1650

01:07:34,789 --> 01:07:31,760

we're all uh sort of broadly

1651
01:07:38,210 --> 01:07:34,799
exchanging a link from whether it's CNN

1652
01:07:39,349 --> 01:07:38,220
or Fox News or wherever it's from in

1653
01:07:42,010 --> 01:07:39,359
emails

1654
01:07:44,630 --> 01:07:42,020
like did you see this did you see that

1655
01:07:48,230 --> 01:07:44,640
and these are these are some of these

1656
01:07:51,770 --> 01:07:48,240
people are folks that I would never have

1657
01:07:55,549 --> 01:07:51,780
broached the topic of UFOs with

1658
01:07:58,010 --> 01:07:55,559
right because I I wanted to maintain my

1659
01:08:01,130 --> 01:07:58,020
air of professionalism my respect for

1660
01:08:03,410 --> 01:08:01,140
them and and vice versa knowing the

1661
01:08:04,430 --> 01:08:03,420
community we came from you just didn't

1662
01:08:06,529 --> 01:08:04,440
go there

1663
01:08:08,690 --> 01:08:06,539

but now it's there's this sort of broad

1664

01:08:11,510 --> 01:08:08,700

Exchange in email and the willingness to

1665

01:08:13,430 --> 01:08:11,520

talk about it is is much greater the

1666

01:08:16,249 --> 01:08:13,440

taboo is

1667

01:08:18,590 --> 01:08:16,259

stripped as far as I can tell if people

1668

01:08:20,510 --> 01:08:18,600

are showing interest

1669

01:08:22,189 --> 01:08:20,520

I'm part of a large group of people on

1670

01:08:23,950 --> 01:08:22,199

an email distribution that I receive

1671

01:08:26,809 --> 01:08:23,960

emails every morning

1672

01:08:29,390 --> 01:08:26,819

that are sort of you know not classified

1673

01:08:31,370 --> 01:08:29,400

things of course I'm talking about

1674

01:08:32,030 --> 01:08:31,380

my private email account

1675

01:08:34,370 --> 01:08:32,040

um

1676

01:08:36,829 --> 01:08:34,380

made up of some people that

1677

01:08:41,209 --> 01:08:36,839

would would impress almost anybody these

1678

01:08:43,910 --> 01:08:41,219

people are again retired intelligence

1679

01:08:47,329 --> 01:08:43,920

folks admirals

1680

01:08:48,590 --> 01:08:47,339

you name it in from the Intel world

1681

01:08:50,630 --> 01:08:48,600

and

1682

01:08:53,570 --> 01:08:50,640

this is popping up all the time amongst

1683

01:08:55,010 --> 01:08:53,580

us I could not have fathomed this three

1684

01:08:58,370 --> 01:08:55,020

four years ago

1685

01:09:02,570 --> 01:09:00,530

does Michael feel there's a conflict

1686

01:09:05,450 --> 01:09:02,580

arising from whistleblowers revealing

1687

01:09:08,150 --> 01:09:05,460

research programs that contradict the

1688

01:09:10,910 --> 01:09:08,160

official stance provided by the podium

1689

01:09:13,669 --> 01:09:10,920

if it leaks publicly

1690

01:09:15,110 --> 01:09:13,679

oh I think yeah that's they're you've

1691

01:09:17,990 --> 01:09:15,120

talked about this you and I have talked

1692

01:09:19,789 --> 01:09:18,000

about this this is a difficult dance

1693

01:09:22,010 --> 01:09:19,799

right you have your historical

1694

01:09:24,289 --> 01:09:22,020

precedence of always denying it now

1695

01:09:26,570 --> 01:09:24,299

you've got Congress reaching into it and

1696

01:09:28,849 --> 01:09:26,580

trying to investigate it and you've got

1697

01:09:30,950 --> 01:09:28,859

the legislation that allows these

1698

01:09:35,209 --> 01:09:30,960

whistleblowers to come forward

1699

01:09:38,209 --> 01:09:35,219

uh and and and supposedly protects them

1700

01:09:40,849 --> 01:09:38,219

but then you've got the dance of of what

1701

01:09:42,289 --> 01:09:40,859

whatever they say can that can can we be

1702

01:09:45,410 --> 01:09:42,299

told

1703

01:09:46,789 --> 01:09:45,420

because to tell all of us is telling our

1704

01:09:48,590 --> 01:09:46,799

adversaries

1705

01:09:50,090 --> 01:09:48,600

so some of this stuff is going to stay

1706

01:09:53,090 --> 01:09:50,100

locked up

1707

01:09:54,830 --> 01:09:53,100

behind closed doors uh it's it's going

1708

01:09:58,550 --> 01:09:54,840

to be interesting and I'm sure that the

1709

01:10:01,729 --> 01:09:58,560

decisions around how to reveal

1710

01:10:04,250 --> 01:10:01,739

whatever information there really is uh

1711

01:10:07,189 --> 01:10:04,260

that's a complicated process

1712

01:10:09,410 --> 01:10:07,199

you know depending on the compelling

1713

01:10:12,350 --> 01:10:09,420

nature of the information you know my

1714

01:10:14,090 --> 01:10:12,360

fellow Americans we're not alone

1715

01:10:16,010 --> 01:10:14,100

that's

1716

01:10:18,410 --> 01:10:16,020

that could be potentially I don't know

1717

01:10:20,450 --> 01:10:18,420

on one hand devastating

1718

01:10:21,890 --> 01:10:20,460

or it could be enlightening or it could

1719

01:10:24,890 --> 01:10:21,900

be somewhere in between

1720

01:10:27,590 --> 01:10:24,900

and I'm sure there if that's the case if

1721

01:10:28,850 --> 01:10:27,600

all this is truly where the data is

1722

01:10:30,590 --> 01:10:28,860

pointing that there's something there

1723

01:10:33,050 --> 01:10:30,600

and something something's been going on

1724

01:10:35,030 --> 01:10:33,060

all these years then they're having to

1725

01:10:37,910 --> 01:10:35,040

make a decision that's that's a very

1726

01:10:39,770 --> 01:10:37,920

hard one to make about how much and when

1727

01:10:43,550 --> 01:10:39,780

how quickly

1728

01:10:45,530 --> 01:10:43,560

to let us know right so

1729

01:10:47,510 --> 01:10:45,540

and and I go back and forth on that you

1730

01:10:49,790 --> 01:10:47,520

know I'm like just rip the Band-Aid off

1731

01:10:51,169 --> 01:10:49,800

and just announce it but then I see you

1732

01:10:53,330 --> 01:10:51,179

know I watched it was a Fox news

1733

01:10:55,250 --> 01:10:53,340

commentator he's like you know what I

1734

01:10:57,470 --> 01:10:55,260

don't believe in UFOs or aliens it's not

1735

01:10:59,450 --> 01:10:57,480

in the Bible God made humans and they're

1736

01:11:01,189 --> 01:10:59,460

the only ones and it's like all right

1737

01:11:02,870 --> 01:11:01,199

people like that are gonna struggle with

1738

01:11:04,970 --> 01:11:02,880

this and there's you know it's not just

1739

01:11:06,590 --> 01:11:04,980

religious certain religious folks a lot

1740

01:11:08,149 --> 01:11:06,600

of people people just don't pay

1741

01:11:10,970 --> 01:11:08,159

attention to it I think because they're

1742

01:11:12,830 --> 01:11:10,980

scared of what it could represent since

1743

01:11:15,290 --> 01:11:12,840

we don't know what it represents

1744

01:11:18,530 --> 01:11:15,300

yeah I I go back to something that Tom

1745

01:11:21,530 --> 01:11:18,540

Delong said that he learned uh for what

1746

01:11:24,290 --> 01:11:21,540

it's worth that rather than crushed

1747

01:11:26,149 --> 01:11:24,300

religion and all the pillars of our you

1748

01:11:29,050 --> 01:11:26,159

know that support our found you know the

1749

01:11:32,870 --> 01:11:29,060

foundations of our belief systems

1750

01:11:35,330 --> 01:11:32,880

regardless of society that whatever this

1751

01:11:38,270 --> 01:11:35,340

is and I'm paraphrasing I can't remember

1752

01:11:41,470 --> 01:11:38,280

his exact words and he was apparently

1753

01:11:44,870 --> 01:11:41,480

told this by his his uh

1754

01:11:48,050 --> 01:11:44,880

contacts in the government that it it

1755

01:11:50,450 --> 01:11:48,060

makes it makes the concept of the

1756

01:11:52,070 --> 01:11:50,460

concept and I don't mean to disparage

1757

01:11:54,229 --> 01:11:52,080

anybody's religion when I say the

1758

01:11:55,729 --> 01:11:54,239

concept of God

1759

01:11:58,430 --> 01:11:55,739

uh

1760

01:12:00,050 --> 01:11:58,440

the Holy Trinity you know

1761

01:12:02,990 --> 01:12:00,060

whatever

1762

01:12:05,330 --> 01:12:03,000

it makes it even grander

1763

01:12:09,709 --> 01:12:05,340

that he not only

1764

01:12:12,950 --> 01:12:09,719

created us he it whatever God is Not

1765

01:12:15,530 --> 01:12:12,960

only created us but created this

1766

01:12:17,810 --> 01:12:15,540

endless apparently universe

1767

01:12:19,550 --> 01:12:17,820

and and there are others

1768

01:12:22,610 --> 01:12:19,560

that he created

1769

01:12:25,130 --> 01:12:22,620

so he was even more omnipotent he was

1770

01:12:28,310 --> 01:12:25,140

even more creative than we're aware of

1771

01:12:31,430 --> 01:12:28,320

which makes him makes God even greater

1772

01:12:32,810 --> 01:12:31,440

or grander and he explained all that I

1773

01:12:34,370 --> 01:12:32,820

just trashed it I didn't do a very good

1774

01:12:36,410 --> 01:12:34,380

job of that but that's what he was

1775

01:12:38,530 --> 01:12:36,420

basically saying he was he's basically

1776

01:12:41,689 --> 01:12:38,540

saying no it's not the end of religion

1777

01:12:44,990 --> 01:12:41,699

it's it's the enhancement of our

1778

01:12:47,570 --> 01:12:45,000

understanding of who God is what it is

1779

01:12:50,390 --> 01:12:47,580

like God is like I think he said God is

1780

01:12:53,390 --> 01:12:50,400

really the universe it's it's this power

1781

01:12:54,470 --> 01:12:53,400

that we all can tap into

1782

01:12:56,630 --> 01:12:54,480

um

1783

01:12:58,550 --> 01:12:56,640

anyway people can go Google that and

1784

01:13:00,050 --> 01:12:58,560

find find what he said said about it but

1785

01:13:02,209 --> 01:13:00,060

I thought that was it I thought it was

1786

01:13:04,010 --> 01:13:02,219

both interesting and depending on where

1787

01:13:07,189 --> 01:13:04,020

you stand on stuff like that it was

1788

01:13:09,830 --> 01:13:07,199

interesting and Faithfully reassuring

1789

01:13:12,050 --> 01:13:09,840

rather than frightening right yeah and

1790

01:13:16,850 --> 01:13:12,060

then and then Lou comes along and he's

1791

01:13:21,709 --> 01:13:18,890

he's asked you know how did you feel

1792

01:13:23,870 --> 01:13:21,719

about that or when you found out and he

1793

01:13:26,750 --> 01:13:23,880

just kind of you know

1794

01:13:27,950 --> 01:13:26,760

somber I'm like yeah he's like like what

1795

01:13:29,390 --> 01:13:27,960

do you mean summer and he's like well

1796

01:13:31,729 --> 01:13:29,400

basically imagine learning everything

1797

01:13:32,990 --> 01:13:31,739

you learned on Sunday school and blah

1798

01:13:34,610 --> 01:13:33,000

blah blah and all I don't know if he

1799

01:13:36,290 --> 01:13:34,620

said Sunday school he's like is wrong

1800

01:13:39,830 --> 01:13:36,300

imagine everything you learned is wrong

1801

01:13:42,649 --> 01:13:39,840

and things aren't how they seem

1802

01:13:44,990 --> 01:13:42,659

I hope I I I'd love to hear that because

1803

01:13:46,610 --> 01:13:45,000

I don't for me and you I'm like we can

1804

01:13:48,830 --> 01:13:46,620

handle that but we know people are gonna

1805

01:13:51,530 --> 01:13:48,840

have struggle a big time struggle with

1806

01:13:53,030 --> 01:13:51,540

whatever it is this is a good one does

1807

01:13:55,189 --> 01:13:53,040

Michael have any thoughts and I know you

1808

01:13:58,910 --> 01:13:55,199

do regarding Stratton and Taylor's moves

1809

01:14:00,770 --> 01:13:58,920

to Radiance Technologies any ideas on

1810

01:14:03,590 --> 01:14:00,780

this from a strategic point of view what

1811

01:14:05,330 --> 01:14:03,600

they might be planning anticipating

1812

01:14:06,530 --> 01:14:05,340

well this might surprise even you

1813

01:14:08,030 --> 01:14:06,540

because we haven't talked about it but

1814

01:14:11,750 --> 01:14:08,040

I'm actually putting in an application

1815

01:14:14,570 --> 01:14:11,760

to radios technology oh exclusive really

1816

01:14:16,550 --> 01:14:14,580

well because they're south of here in uh

1817

01:14:19,010 --> 01:14:16,560

in Huntsville but has nothing to do with

1818

01:14:20,450 --> 01:14:19,020

these two guys so you would be you would

1819

01:14:23,030 --> 01:14:20,460

be in Huntsville

1820

01:14:25,010 --> 01:14:23,040

yep it's an hour about an hour south of

1821

01:14:27,050 --> 01:14:25,020

me so another reason for me to come to

1822

01:14:28,850 --> 01:14:27,060

the southeast although you already are

1823

01:14:31,610 --> 01:14:28,860

in the Southeast you could do a three in

1824

01:14:37,070 --> 01:14:33,290

um yeah I

1825

01:14:39,530 --> 01:14:37,080

Radiance interests me uh I'm at the

1826

01:14:41,750 --> 01:14:39,540

sunset of my career uh I don't really

1827

01:14:44,870 --> 01:14:41,760

plan on leading my company but

1828

01:14:48,530 --> 01:14:44,880

because I want to go to Huntsville

1829

01:14:50,750 --> 01:14:48,540

um Radiance is a big player there so I

1830

01:14:53,209 --> 01:14:50,760

probably won't you know at my age you

1831

01:14:54,350 --> 01:14:53,219

don't hire a 59 year old

1832

01:14:57,890 --> 01:14:54,360

um

1833

01:15:01,850 --> 01:14:57,900

easily right unless I'm very high value

1834

01:15:04,010 --> 01:15:01,860

for something right so but uh yeah I

1835

01:15:05,570 --> 01:15:04,020

don't see anything

1836

01:15:07,729 --> 01:15:05,580

um

1837

01:15:08,570 --> 01:15:07,739

weird about it in other words do I think

1838

01:15:10,970 --> 01:15:08,580

that

1839

01:15:13,250 --> 01:15:10,980

Radiance would be involved and I have no

1840

01:15:14,810 --> 01:15:13,260

idea if they're involved in this topic

1841

01:15:16,550 --> 01:15:14,820

but they would certainly these two

1842

01:15:17,870 --> 01:15:16,560

individuals

1843

01:15:20,450 --> 01:15:17,880

you know there's nothing they have

1844

01:15:22,430 --> 01:15:20,460

baggage but they have sort of a common

1845

01:15:23,510 --> 01:15:22,440

interest or common involvement in some

1846

01:15:25,970 --> 01:15:23,520

ways

1847

01:15:27,770 --> 01:15:25,980

I I can't answer the question I don't I

1848

01:15:29,030 --> 01:15:27,780

don't know from a strategic point of

1849

01:15:31,910 --> 01:15:29,040

view

1850

01:15:35,330 --> 01:15:31,920

if this is pointing towards maybe

1851

01:15:37,070 --> 01:15:35,340

Radiance involvement in this topic I I

1852

01:15:41,030 --> 01:15:37,080

don't know

1853

01:15:42,709 --> 01:15:41,040

most important thing in the history of

1854

01:15:44,209 --> 01:15:42,719

mankind you would think that Congress

1855

01:15:46,970 --> 01:15:44,219

would have kicked the doors open on

1856

01:15:49,070 --> 01:15:46,980

these Legacy programs by now this should

1857

01:15:50,570 --> 01:15:49,080

ring alarm Bells suggesting that there's

1858

01:15:52,490 --> 01:15:50,580

really nothing to it I think that's what

1859

01:15:55,370 --> 01:15:52,500

they're saying um what would happen if

1860

01:15:56,689 --> 01:15:55,380

the gang F6 found out that Lockheed had

1861

01:15:58,010 --> 01:15:56,699

a craft they knew what building it was

1862

01:15:59,390 --> 01:15:58,020

and they showed up there would it just

1863

01:16:01,970 --> 01:15:59,400

be would they just be met by armed

1864

01:16:03,530 --> 01:16:01,980

guards and say you don't have a need to

1865

01:16:05,630 --> 01:16:03,540

know you're not on the list sorry go

1866

01:16:09,530 --> 01:16:05,640

away like Admiral Wilson

1867

01:16:12,229 --> 01:16:09,540

did you leave two out for a purpose

1868

01:16:13,070 --> 01:16:12,239

did I leave what what out it's a gang of

1869

01:16:18,770 --> 01:16:13,080

eight

1870

01:16:20,450 --> 01:16:18,780

are they coming with a gang of six well

1871

01:16:23,570 --> 01:16:20,460

we just made we made an edit there's

1872

01:16:26,689 --> 01:16:23,580

only six now sorry yeah

1873

01:16:31,130 --> 01:16:29,570

let me think about that

1874

01:16:32,990 --> 01:16:31,140

I mean we've kind of talked about this

1875

01:16:36,950 --> 01:16:33,000

before uh

1876

01:16:43,189 --> 01:16:39,430

for decades has been the biggest problem

1877

01:16:47,870 --> 01:16:43,199

and this goes back to DeLong melon

1878

01:16:51,290 --> 01:16:47,880

Elizondo and the whole rest of the crew

1879

01:16:53,149 --> 01:16:51,300

um getting you know little low ball

1880

01:16:55,729 --> 01:16:53,159

people like me involved that had a

1881

01:16:58,610 --> 01:16:55,739

sighting because they wanted to have and

1882

01:17:01,910 --> 01:16:58,620

they did it with the unidentified series

1883

01:17:03,950 --> 01:17:01,920

um History Channel that was designed to

1884

01:17:07,010 --> 01:17:03,960

both educate America

1885

01:17:08,510 --> 01:17:07,020

and help begin to strip the taboo from

1886

01:17:09,649 --> 01:17:08,520

the topic

1887

01:17:12,290 --> 01:17:09,659

uh

1888

01:17:14,990 --> 01:17:12,300

so none of this would have occurred

1889

01:17:16,910 --> 01:17:15,000

without this what I would kind of call

1890

01:17:20,090 --> 01:17:16,920

the Herculean effort

1891

01:17:21,649 --> 01:17:20,100

from to the Stars I mean I don't care if

1892

01:17:24,110 --> 01:17:21,659

people like them or not I don't think if

1893

01:17:26,450 --> 01:17:24,120

you invested it to the stars or not but

1894

01:17:28,850 --> 01:17:26,460

what they did what Chris Mellon has done

1895

01:17:31,790 --> 01:17:28,860

what Lou Elizondo has done

1896

01:17:34,729 --> 01:17:31,800

was absolutely instrumental in getting

1897

01:17:37,790 --> 01:17:34,739

the ball rolling otherwise we would all

1898

01:17:39,590 --> 01:17:37,800

be back to about 2016.

1899

01:17:42,410 --> 01:17:39,600

and

1900

01:17:44,030 --> 01:17:42,420

going on YouTube looking for UFO videos

1901

01:17:46,669 --> 01:17:44,040

and trying to figure out what's going on

1902

01:17:47,570 --> 01:17:46,679

and with skin walker ratchet even a

1903

01:17:50,330 --> 01:17:47,580

thing

1904

01:17:52,010 --> 01:17:50,340

in our psyche back then right

1905

01:17:55,130 --> 01:17:52,020

all of this

1906

01:17:57,229 --> 01:17:55,140

the credit goes to those guys

1907

01:17:59,450 --> 01:17:57,239

and now and now we see the legend of

1908

01:18:01,010 --> 01:17:59,460

legislation

1909

01:18:03,830 --> 01:18:01,020

in Congress

1910

01:18:06,290 --> 01:18:03,840

and the Senate I wouldn't have dreamed

1911

01:18:08,870 --> 01:18:06,300

you know I can remember back in the

1912

01:18:11,930 --> 01:18:08,880

Intel community in in the early 2000s me

1913

01:18:13,910 --> 01:18:11,940

quietly asking colleagues and drawing on

1914

01:18:17,090 --> 01:18:13,920

the Whiteboard what I saw

1915

01:18:19,070 --> 01:18:17,100

and and saying hey is this like a

1916

01:18:21,470 --> 01:18:19,080

program that I don't know about and this

1917

01:18:23,090 --> 01:18:21,480

is ours or was this you know and I

1918

01:18:25,310 --> 01:18:23,100

didn't even want to say or was this a

1919

01:18:27,770 --> 01:18:25,320

UFO I didn't I didn't dare hardly say

1920

01:18:30,590 --> 01:18:27,780

that I mean because

1921

01:18:32,570 --> 01:18:30,600

you just didn't do it we've come we've

1922

01:18:35,750 --> 01:18:32,580

come a long way

1923

01:18:38,030 --> 01:18:35,760

right in a very short time

1924

01:18:39,890 --> 01:18:38,040

and I understand people are impatient

1925

01:18:41,090 --> 01:18:39,900

with it I think you know I've said this

1926

01:18:45,830 --> 01:18:41,100

before and I'm gonna have to go shortly

1927

01:18:52,430 --> 01:18:49,669

it's be careful what we ask for right

1928

01:18:54,649 --> 01:18:52,440

maybe it's so Grand and wonderful that

1929

01:18:56,930 --> 01:18:54,659

there's a gee whiz moment where they go

1930

01:18:58,910 --> 01:18:56,940

oh here's our they roll out some

1931

01:19:01,070 --> 01:18:58,920

technology and we go oh wow so we have

1932

01:19:02,390 --> 01:19:01,080

correct anti-gravity I don't think

1933

01:19:04,970 --> 01:19:02,400

that's going to happen

1934

01:19:06,950 --> 01:19:04,980

I think the other aspect of where we got

1935

01:19:09,649 --> 01:19:06,960

that technology from and what these

1936

01:19:10,550 --> 01:19:09,659

things are and who it is why they're

1937

01:19:13,790 --> 01:19:10,560

here

1938

01:19:16,850 --> 01:19:13,800

is uh really super sensitive

1939

01:19:19,430 --> 01:19:16,860

so maybe some people say they can handle

1940

01:19:22,130 --> 01:19:19,440

it maybe we can maybe it'll be shocking

1941

01:19:24,350 --> 01:19:22,140

to others uh maybe it'll be worse than

1942

01:19:26,209 --> 01:19:24,360

shocking to others and it's not just

1943

01:19:28,550 --> 01:19:26,219

others it's not just your neighbor you

1944

01:19:31,370 --> 01:19:28,560

got to think about all the world's

1945

01:19:33,169 --> 01:19:31,380

societies all the world's religions all

1946

01:19:35,630 --> 01:19:33,179

their belief systems

1947

01:19:37,310 --> 01:19:35,640

how do you roll something else something

1948

01:19:41,510 --> 01:19:37,320

out

1949

01:19:44,450 --> 01:19:41,520

to the world that is potentially

1950

01:19:47,630 --> 01:19:44,460

so if it's if it's off world or what

1951

01:19:49,610 --> 01:19:47,640

have you uh how do you do that

1952

01:19:52,970 --> 01:19:49,620

and how do people react

1953

01:19:57,410 --> 01:19:52,980

it's a really big problem

1954

01:19:58,970 --> 01:19:57,420

it's a huge huge challenge to try to

1955

01:20:00,590 --> 01:19:58,980

figure out how to do that I'm going to

1956

01:20:01,850 --> 01:20:00,600

follow up I'm going to give I'm going to

1957

01:20:04,970 --> 01:20:01,860

give you one more question but I'm going

1958

01:20:06,950 --> 01:20:04,980

to just follow up with this is somebody

1959

01:20:08,630 --> 01:20:06,960

I told I'm pretty sure I told you who

1960

01:20:10,490 --> 01:20:08,640

told me this when I I'm obviously I'm

1961

01:20:12,470 --> 01:20:10,500

not going to say very credible person

1962

01:20:14,630 --> 01:20:12,480

they said and I've said this on Twitter

1963

01:20:17,390 --> 01:20:14,640

but I have not said all of it

1964

01:20:20,330 --> 01:20:17,400

absolute bombshell Revelations should

1965

01:20:22,310 --> 01:20:20,340

will occur for the general populace once

1966

01:20:25,550 --> 01:20:22,320

certain people come forward

1967

01:20:28,250 --> 01:20:25,560

some people will be relieved some people

1968

01:20:30,229 --> 01:20:28,260

will be scared and some people will be

1969

01:20:32,870 --> 01:20:30,239

angry it will depend on your

1970

01:20:35,209 --> 01:20:32,880

perspectives so kind of what you're

1971

01:20:36,830 --> 01:20:35,219

saying uh your last question

1972

01:20:38,510 --> 01:20:36,840

for Michael after your segment on the

1973

01:20:40,490 --> 01:20:38,520

show with Lou did Lou help you

1974

01:20:44,149 --> 01:20:40,500

understand your sighting better

1975

01:20:46,189 --> 01:20:44,159

and then roll from that into why if we

1976

01:20:50,270 --> 01:20:46,199

did crack gravity we haven't been using

1977

01:20:51,590 --> 01:20:50,280

it in Wartime to defend ourselves I know

1978

01:20:53,390 --> 01:20:51,600

you've answered that before but I get

1979

01:20:54,950 --> 01:20:53,400

that question on Twitter yeah all the

1980

01:20:57,290 --> 01:20:54,960

time I I appreciate that question

1981

01:20:59,330 --> 01:20:57,300

somebody's obviously I would think it's

1982

01:21:01,850 --> 01:20:59,340

maybe it's seen us talk about this

1983

01:21:04,910 --> 01:21:01,860

before uh it's a good question last one

1984

01:21:06,229 --> 01:21:04,920

so so I'm torn between if you give me a

1985

01:21:08,870 --> 01:21:06,239

second I can go find that that

1986

01:21:11,930 --> 01:21:08,880

PowerPoint chart that I made go ahead

1987

01:21:13,669 --> 01:21:11,940

that I that I created from Lou's drawing

1988

01:21:15,770 --> 01:21:13,679

on a piece of paper or something yeah go

1989

01:21:17,390 --> 01:21:15,780

ahead go ahead put on my old man glasses

1990

01:21:19,130 --> 01:21:17,400

here by the way the person who sent ten

1991

01:21:21,050 --> 01:21:19,140

dollars and told me to look at the

1992

01:21:23,510 --> 01:21:21,060

forever conscious research Channel on

1993

01:21:25,189 --> 01:21:23,520

YouTube I I watched that uh it's a

1994

01:21:27,169 --> 01:21:25,199

really good Channel and the guy goes

1995

01:21:29,090 --> 01:21:27,179

over all the near-death experiences and

1996

01:21:30,950 --> 01:21:29,100

and focuses a lot on the outlier

1997

01:21:32,810 --> 01:21:30,960

near-death experiences that you don't

1998

01:21:34,010 --> 01:21:32,820

hear about as much

1999

01:21:36,770 --> 01:21:34,020

um basically they talk about The

2000

01:21:39,530 --> 01:21:36,780

Reincarnation trap Theory but it's a

2001
01:21:42,410 --> 01:21:39,540
really good Channel forever research

2002
01:21:44,330 --> 01:21:42,420
forever conscious research Channel

2003
01:21:45,950 --> 01:21:44,340
and thank you for anybody else who sent

2004
01:21:48,530 --> 01:21:45,960
stickers and stuff and I'm sorry if I

2005
01:21:49,550 --> 01:21:48,540
didn't get to every question

2006
01:21:51,950 --> 01:21:49,560
um let me know when you're ready Michael

2007
01:21:54,290 --> 01:21:51,960
because I can answer questions too all

2008
01:21:56,149 --> 01:21:54,300
right I'm going to share my screen

2009
01:21:58,189 --> 01:21:56,159
yeah Jimmy Carter did apparently hold

2010
01:21:59,750 --> 01:21:58,199
his head in his hands and wept after

2011
01:22:03,050 --> 01:21:59,760
being briefed and I talked to somebody

2012
01:22:06,950 --> 01:22:03,060
who knew the secret agent secret service

2013
01:22:08,570 --> 01:22:06,960

agent who apparently saw him crying

2014

01:22:09,709 --> 01:22:08,580

um who knows what he was told you know

2015

01:22:11,270 --> 01:22:09,719

then we have John Harrington who

2016

01:22:13,070 --> 01:22:11,280

supposedly cried himself to sleep for

2017

01:22:14,090 --> 01:22:13,080

six weeks every night after briefing

2018

01:22:16,370 --> 01:22:14,100

Underground

2019

01:22:17,810 --> 01:22:16,380

what did they tell him well this is the

2020

01:22:19,790 --> 01:22:17,820

world my daughters are going to live in

2021

01:22:23,090 --> 01:22:19,800

and that's what he said

2022

01:22:26,870 --> 01:22:23,100

um that was Bryce zabel's partner

2023

01:22:29,510 --> 01:22:26,880

Brett Friedman who met with Harrington

2024

01:22:30,709 --> 01:22:29,520

after he drove Harrington's car across

2025

01:22:33,590 --> 01:22:30,719

the country and Harrington apparently

2026

01:22:35,450 --> 01:22:33,600

wanted to get a get it off his chest

2027

01:22:38,330 --> 01:22:35,460

yeah

2028

01:22:40,310 --> 01:22:38,340

are you seeing me or my screen

2029

01:22:42,709 --> 01:22:40,320

right now I'm seeing you but like what's

2030

01:22:45,229 --> 01:22:42,719

the screen look oh yeah there we go so

2031

01:22:46,729 --> 01:22:45,239

now it's both of us I can put it's right

2032

01:22:50,750 --> 01:22:46,739

now it's just the screen

2033

01:22:53,570 --> 01:22:50,760

just show the screen yep just the screen

2034

01:22:56,630 --> 01:22:53,580

so in answer to the question

2035

01:22:57,649 --> 01:22:56,640

Lou so let me explain this how this

2036

01:23:00,050 --> 01:22:57,659

happened

2037

01:23:01,910 --> 01:23:00,060

so my interview with Lou is over and I

2038

01:23:04,370 --> 01:23:01,920

wasn't the only guy there your interview

2039

01:23:07,430 --> 01:23:04,380

for the show unidentified for people who

2040

01:23:08,930 --> 01:23:07,440

haven't seen it that's right and so so I

2041

01:23:10,430 --> 01:23:08,940

go back out to this thing called The

2042

01:23:12,709 --> 01:23:10,440

Green Room and I'm hanging out they've

2043

01:23:14,450 --> 01:23:12,719

got it's catered I'm hanging out and I

2044

01:23:17,510 --> 01:23:14,460

asked the producer

2045

01:23:20,149 --> 01:23:17,520

who came in and thanked me uh I said hey

2046

01:23:21,890 --> 01:23:20,159

before I the shuttle takes me back or

2047

01:23:24,050 --> 01:23:21,900

the whatever the driver takes me back to

2048

01:23:25,790 --> 01:23:24,060

the hotel

2049

01:23:27,290 --> 01:23:25,800

can you ask Lou if I can get a few

2050

01:23:30,830 --> 01:23:27,300

minutes with him alone

2051

01:23:32,630 --> 01:23:30,840

and so he did and and we did and in

2052

01:23:36,709 --> 01:23:32,640

about an hour's time Lou and I go back

2053

01:23:39,410 --> 01:23:36,719

into this it's like a pantry area at a e

2054

01:23:42,050 --> 01:23:39,420

Studios and um

2055

01:23:46,490 --> 01:23:42,060

we go even further back inside there

2056

01:23:47,390 --> 01:23:46,500

where there's a printer and a copier Bay

2057

01:23:49,790 --> 01:23:47,400

um

2058

01:23:52,490 --> 01:23:49,800

really nice facility right so we're back

2059

01:23:54,590 --> 01:23:52,500

there alone the door is closed

2060

01:23:56,330 --> 01:23:54,600

and I said to him

2061

01:23:58,610 --> 01:23:56,340

so

2062

01:24:00,830 --> 01:23:58,620

you know we're both cleared right we

2063

01:24:03,410 --> 01:24:00,840

can't we're not in a skiff we both know

2064

01:24:05,090 --> 01:24:03,420

that he set the ground rules I recognize

2065

01:24:07,310 --> 01:24:05,100

the ground rules but

2066

01:24:09,770 --> 01:24:07,320

I said what did I what did I really see

2067

01:24:12,410 --> 01:24:09,780

I said because I have some ideas

2068

01:24:15,350 --> 01:24:12,420

so he went over to the printer and he

2069

01:24:17,570 --> 01:24:15,360

opens up the printer the bay where you

2070

01:24:19,970 --> 01:24:17,580

put the paper in the big huge printer

2071

01:24:22,490 --> 01:24:19,980

machine he pulls out two or three sheets

2072

01:24:24,410 --> 01:24:22,500

he takes a ballpoint pen

2073

01:24:27,229 --> 01:24:24,420

and he asked me a question

2074

01:24:30,290 --> 01:24:27,239

so if you can see the screen

2075

01:24:33,050 --> 01:24:30,300

he asked me before he drew anything he

2076

01:24:36,350 --> 01:24:33,060

said what is the most common commonly

2077

01:24:38,990 --> 01:24:36,360

cited or reported type of UFO over the

2078

01:24:42,770 --> 01:24:39,000

decades or the Millennia whatever

2079

01:24:45,830 --> 01:24:42,780

and I said well it's a disc or a flying

2080

01:24:49,010 --> 01:24:45,840

saucer so he drew this disc

2081

01:24:51,729 --> 01:24:49,020

and then he said so

2082

01:24:54,950 --> 01:24:51,739

imagine or supposedly he used words

2083

01:24:57,830 --> 01:24:54,960

interchangeably imagine and supposedly

2084

01:25:00,410 --> 01:24:57,840

he said So based on

2085

01:25:02,689 --> 01:25:00,420

all the reports over the decades these

2086

01:25:05,209 --> 01:25:02,699

discs that are spotted they emit some

2087

01:25:09,610 --> 01:25:05,219

sort of electromagnetic field

2088

01:25:11,630 --> 01:25:09,620

or electromagnetic like field okay

2089

01:25:14,810 --> 01:25:11,640

this field

2090

01:25:17,689 --> 01:25:14,820

causes the

2091

01:25:20,030 --> 01:25:17,699

the ambient air around the vehicle so

2092

01:25:23,649 --> 01:25:20,040

I'm calling the disk a vehicle

2093

01:25:26,750 --> 01:25:23,659

it ionizes the air in much the same way

2094

01:25:29,930 --> 01:25:26,760

as the gas inside of a fluorescent light

2095

01:25:32,390 --> 01:25:29,940

bulb is ionized and glows whenever you

2096

01:25:36,890 --> 01:25:32,400

flip the switch on and turn the light on

2097

01:25:38,450 --> 01:25:36,900

okay it excites the molecules the oxygen

2098

01:25:41,090 --> 01:25:38,460

the nitrogen the carbon all the

2099

01:25:43,430 --> 01:25:41,100

molecules in the air surrounding that

2100

01:25:46,729 --> 01:25:43,440

Flying Saucer or that disc and it makes

2101
01:25:48,530 --> 01:25:46,739
it Glow and depending on the power level

2102
01:25:51,350 --> 01:25:48,540
of the engine

2103
01:25:53,810 --> 01:25:51,360
if it's at idle versus medium or full

2104
01:25:57,890 --> 01:25:53,820
power it makes the air glow a different

2105
01:26:00,530 --> 01:25:57,900
color now something else explained and

2106
01:26:03,530 --> 01:26:00,540
Paul Hill explains as well is the air

2107
01:26:06,590 --> 01:26:03,540
glows according to the cleanness the the

2108
01:26:09,890 --> 01:26:06,600
purity of the air so in a polluted

2109
01:26:12,590 --> 01:26:09,900
environment around say a steel mill or

2110
01:26:14,270 --> 01:26:12,600
some other more polluted or humid

2111
01:26:15,350 --> 01:26:14,280
environment the air is going to look

2112
01:26:18,470 --> 01:26:15,360
different because there are other

2113
01:26:21,050 --> 01:26:18,480

components in the surrounding air

2114

01:26:22,970 --> 01:26:21,060

that are being energized by this

2115

01:26:25,970 --> 01:26:22,980

electromagnetic field this very high

2116

01:26:28,430 --> 01:26:25,980

energy field surrounding this disk okay

2117

01:26:33,169 --> 01:26:28,440

Okay so

2118

01:26:34,729 --> 01:26:33,179

I saw one of these I saw exactly this I

2119

01:26:37,790 --> 01:26:34,739

saw a black

2120

01:26:39,770 --> 01:26:37,800

equilateral triangle and this is about

2121

01:26:43,070 --> 01:26:39,780

as close as I could make it

2122

01:26:47,390 --> 01:26:43,080

and I saw three really bright

2123

01:26:49,490 --> 01:26:47,400

dots that I took to be lights

2124

01:26:52,790 --> 01:26:49,500

um but they're not lights according to

2125

01:26:56,090 --> 01:26:52,800

Lou they are each

2126
01:26:59,030 --> 01:26:56,100
something using a propulsion system like

2127
01:27:01,729 --> 01:26:59,040
this and they are glowing

2128
01:27:05,990 --> 01:27:01,739
there it's the air around the vehicle

2129
01:27:08,330 --> 01:27:06,000
that's glowing and it is it is these

2130
01:27:09,830 --> 01:27:08,340
three particular power plants one in

2131
01:27:12,110 --> 01:27:09,840
each corner

2132
01:27:14,030 --> 01:27:12,120
that gives a vehicle

2133
01:27:16,250 --> 01:27:14,040
it's

2134
01:27:17,990 --> 01:27:16,260
cancels out its mass in other words

2135
01:27:20,510 --> 01:27:18,000
makes it

2136
01:27:23,810 --> 01:27:20,520
sort of gives us its anti-gravity effect

2137
01:27:26,570 --> 01:27:23,820
or whatever but that's all they do they

2138
01:27:27,470 --> 01:27:26,580

each have a field that they emit just

2139

01:27:29,990 --> 01:27:27,480

like

2140

01:27:33,470 --> 01:27:30,000

the disc has a field when it's powered

2141

01:27:35,149 --> 01:27:33,480

up and so these fields overlap like a

2142

01:27:37,490 --> 01:27:35,159

Venn diagram

2143

01:27:39,770 --> 01:27:37,500

and so they Encompass the entire vehicle

2144

01:27:42,110 --> 01:27:39,780

they make it weightless but then there's

2145

01:27:45,050 --> 01:27:42,120

another there's another engine or power

2146

01:27:47,629 --> 01:27:45,060

plant or whatever in the center and this

2147

01:27:50,090 --> 01:27:47,639

is the one that makes it go

2148

01:27:51,950 --> 01:27:50,100

up down left right whatever these three

2149

01:27:54,709 --> 01:27:51,960

give it weightlessness

2150

01:27:56,090 --> 01:27:54,719

this engine is how they get from point A

2151
01:27:56,810 --> 01:27:56,100
to point B

2152
01:27:58,610 --> 01:27:56,820
um

2153
01:28:00,590 --> 01:27:58,620
that's that's kind of what he explained

2154
01:28:03,830 --> 01:28:00,600
so then I said well what about these

2155
01:28:05,930 --> 01:28:03,840
cigar shaped things that people saw or

2156
01:28:08,750 --> 01:28:05,940
that torpedo pencil shape thing that

2157
01:28:11,810 --> 01:28:08,760
Paul Hill and his colleague saw from

2158
01:28:14,149 --> 01:28:11,820
NASA Langley back in you know in Norfolk

2159
01:28:16,850 --> 01:28:14,159
years ago decades ago

2160
01:28:19,430 --> 01:28:16,860
so he said well

2161
01:28:22,490 --> 01:28:19,440
the cigar shaped ones

2162
01:28:24,770 --> 01:28:22,500
he said imagine imagine he didn't say

2163
01:28:26,689 --> 01:28:24,780

they did he said imagine that there's

2164

01:28:28,550 --> 01:28:26,699

the same similar sort of propulsion

2165

01:28:31,070 --> 01:28:28,560

source

2166

01:28:32,930 --> 01:28:31,080

as placed here in this in this and this

2167

01:28:36,050 --> 01:28:32,940

is again I made this from his drawing

2168

01:28:39,050 --> 01:28:36,060

and the fields that give it its

2169

01:28:40,790 --> 01:28:39,060

weightlessness they overlap like a Venn

2170

01:28:43,070 --> 01:28:40,800

diagram right

2171

01:28:46,550 --> 01:28:43,080

but then there would also either they

2172

01:28:49,370 --> 01:28:46,560

are co-producing forward power to go

2173

01:28:52,250 --> 01:28:49,380

forward backwards up down left right or

2174

01:28:54,649 --> 01:28:52,260

there maybe is another engine or what

2175

01:28:57,410 --> 01:28:54,659

have you power plant reactor whatever it

2176

01:29:00,290 --> 01:28:57,420

is that gives it its go and these two

2177

01:29:02,209 --> 01:29:00,300

things give it its weightlessness so

2178

01:29:04,910 --> 01:29:02,219

that's how

2179

01:29:07,610 --> 01:29:04,920

he answered my question about

2180

01:29:09,770 --> 01:29:07,620

what I saw

2181

01:29:13,550 --> 01:29:09,780

you think he was insinuating that the

2182

01:29:18,169 --> 01:29:15,830

when I told him that based on my time in

2183

01:29:20,450 --> 01:29:18,179

the Persian Gulf

2184

01:29:24,830 --> 01:29:20,460

and

2185

01:29:28,790 --> 01:29:24,840

Following air traffic whether it's

2186

01:29:32,649 --> 01:29:28,800

military aircraft or commercial Aviation

2187

01:29:36,890 --> 01:29:32,659

I said this thing number one it it flew

2188

01:29:39,410 --> 01:29:36,900

directly overhead in the same exact

2189

01:29:40,250 --> 01:29:39,420

direction we were headed it's like it

2190

01:29:43,129 --> 01:29:40,260

was

2191

01:29:46,850 --> 01:29:43,139

if you can imagine being in a in an

2192

01:29:49,610 --> 01:29:46,860

airplane over a big lake Lake Mead or

2193

01:29:51,649 --> 01:29:49,620

any other Lake where people are in in

2194

01:29:55,129 --> 01:29:51,659

boats down below

2195

01:29:56,689 --> 01:29:55,139

and you there's a boat that's

2196

01:29:58,250 --> 01:29:56,699

way up ahead you don't see it because

2197

01:29:59,930 --> 01:29:58,260

you're looking straight down but you see

2198

01:30:01,550 --> 01:29:59,940

this wake

2199

01:30:04,370 --> 01:30:01,560

and so what you go where's that boat

2200

01:30:06,410 --> 01:30:04,380

going or where is the boat so you kind

2201

01:30:08,870 --> 01:30:06,420

of just keep following the wake

2202

01:30:11,450 --> 01:30:08,880

and then boom there's the boat right

2203

01:30:13,129 --> 01:30:11,460

you're directly overhead it was as if it

2204

01:30:15,169 --> 01:30:13,139

I'm not saying it did because it just

2205

01:30:17,689 --> 01:30:15,179

had I think it was coincidence but it

2206

01:30:21,530 --> 01:30:17,699

was headed north just like we were

2207

01:30:27,050 --> 01:30:24,830

that and it's just totally speculation

2208

01:30:31,610 --> 01:30:29,750

in that region of the world Saudi Arabia

2209

01:30:34,550 --> 01:30:31,620

Bahrain

2210

01:30:36,890 --> 01:30:34,560

the United Arab Emirates countries all

2211

01:30:38,390 --> 01:30:36,900

of those are allies of ours in some ways

2212

01:30:40,490 --> 01:30:38,400

many ways

2213

01:30:44,450 --> 01:30:40,500

and if you go back to the first Gulf War

2214

01:30:47,030 --> 01:30:44,460

nobody had ever heard of the F-117

2215

01:30:49,729 --> 01:30:47,040

and on the opening night of the war the

2216

01:30:53,149 --> 01:30:49,739

F-117 and and successive nights

2217

01:30:56,149 --> 01:30:53,159

thereafter we lost none of them but they

2218

01:30:58,070 --> 01:30:56,159

were bombing Baghdad with impunity where

2219

01:31:00,229 --> 01:30:58,080

do they come from they came from these

2220

01:31:02,810 --> 01:31:00,239

austere

2221

01:31:05,810 --> 01:31:02,820

Secret

2222

01:31:06,890 --> 01:31:05,820

Air Force bases that we had built out in

2223

01:31:11,149 --> 01:31:06,900

the desert

2224

01:31:16,370 --> 01:31:14,689

and those places are there as a

2225

01:31:20,629 --> 01:31:16,380

contingency

2226

01:31:24,169 --> 01:31:20,639

there's no one for miles around

2227

01:31:25,850 --> 01:31:24,179

such a vast open you know Countryside or

2228

01:31:28,850 --> 01:31:25,860

desert

2229

01:31:31,790 --> 01:31:28,860

and so we could conceivably have

2230

01:31:34,669 --> 01:31:31,800

something that's a reconnaissance plane

2231

01:31:36,229 --> 01:31:34,679

uh in the shape of a triangle that

2232

01:31:38,930 --> 01:31:36,239

doesn't show up on radar

2233

01:31:41,629 --> 01:31:38,940

that conceivably this thing was headed

2234

01:31:42,950 --> 01:31:41,639

north what was North of us that day

2235

01:31:44,990 --> 01:31:42,960

Iraq

2236

01:31:46,490 --> 01:31:45,000

okay Saddam was still in power this is

2237

01:31:49,490 --> 01:31:46,500

1992.

2238

01:31:53,030 --> 01:31:49,500

so this is all speculation

2239

01:31:54,110 --> 01:31:53,040

but my I told him that my sense was that

2240

01:31:55,729 --> 01:31:54,120

it was

2241

01:31:58,430 --> 01:31:55,739

that there was a pilot in that thing

2242

01:32:00,950 --> 01:31:58,440

that it was American made and it was on

2243

01:32:02,570 --> 01:32:00,960

a reconnaissance mission

2244

01:32:03,950 --> 01:32:02,580

um I can't know that

2245

01:32:05,450 --> 01:32:03,960

right

2246

01:32:08,570 --> 01:32:05,460

um

2247

01:32:10,490 --> 01:32:08,580

and we'll we'll probably never know

2248

01:32:13,550 --> 01:32:10,500

but the fact that it

2249

01:32:17,990 --> 01:32:13,560

so right next to where I was for folks

2250

01:32:19,910 --> 01:32:18,000

that don't know I was on a an Aegis

2251
01:32:21,530 --> 01:32:19,920
Cruiser

2252
01:32:23,270 --> 01:32:21,540
and I was up about as high as you can

2253
01:32:25,550 --> 01:32:23,280
get on the ship without climbing the

2254
01:32:27,770 --> 01:32:25,560
Mast up where all the flags and The

2255
01:32:29,930 --> 01:32:27,780
Radars and Things Are

2256
01:32:32,570 --> 01:32:29,940
um I was standing up there with three

2257
01:32:33,770 --> 01:32:32,580
other people that were doing doing their

2258
01:32:37,070 --> 01:32:33,780
going about their business doing their

2259
01:32:41,330 --> 01:32:37,080
jobs I was just kind of hanging out

2260
01:32:43,550 --> 01:32:41,340
to my left about 150 feet away was an

2261
01:32:45,169 --> 01:32:43,560
aircraft carrier and we were hooked up

2262
01:32:47,629 --> 01:32:45,179
to this aircraft carrier with cables

2263
01:32:49,550 --> 01:32:47,639

lines and hoses doing a thing called

2264

01:32:51,649 --> 01:32:49,560

underway replenishment at sea

2265

01:32:53,930 --> 01:32:51,659

replenishment

2266

01:32:56,629 --> 01:32:53,940

there were no flight Ops going on

2267

01:33:00,770 --> 01:32:56,639

but the point is

2268

01:33:03,770 --> 01:33:00,780

this thing over flew Us in midday broad

2269

01:33:07,129 --> 01:33:03,780

daylight and it over flew

2270

01:33:10,669 --> 01:33:07,139

a National Asset an aircraft carrier is

2271

01:33:13,550 --> 01:33:10,679

a National Asset it is Sovereign United

2272

01:33:16,310 --> 01:33:13,560

States Territory and it is protected

2273

01:33:20,209 --> 01:33:16,320

like you would not believe the airspace

2274

01:33:23,330 --> 01:33:20,219

around it is not to be violated

2275

01:33:25,610 --> 01:33:23,340

super sensitive everybody's on high

2276

01:33:28,870 --> 01:33:25,620

alert supporting that aircraft carrier

2277

01:33:32,510 --> 01:33:28,880

protecting her from possible attack

2278

01:33:34,669 --> 01:33:32,520

either from submarines or or aircraft or

2279

01:33:37,250 --> 01:33:34,679

whatever so

2280

01:33:40,189 --> 01:33:37,260

the fact that this thing

2281

01:33:42,530 --> 01:33:40,199

overflow the aircraft carrier and nobody

2282

01:33:46,330 --> 01:33:42,540

twitched

2283

01:33:52,669 --> 01:33:50,209

other people thought too right

2284

01:33:54,229 --> 01:33:52,679

at least one other guy because we both

2285

01:33:56,450 --> 01:33:54,239

looked up and said the same thing at the

2286

01:33:58,250 --> 01:33:56,460

same time WTF

2287

01:34:00,649 --> 01:33:58,260

right

2288

01:34:04,370 --> 01:34:00,659

um and the fact that

2289

01:34:06,890 --> 01:34:04,380

and you can go on uh the website fighter

2290

01:34:09,530 --> 01:34:06,900

Suite it was silent right

2291

01:34:10,790 --> 01:34:09,540

well so it wasn't silent where I was I

2292

01:34:12,530 --> 01:34:10,800

mean meaning the environment wasn't

2293

01:34:17,090 --> 01:34:12,540

silent it's pretty noisy because this

2294

01:34:19,370 --> 01:34:17,100

this Cruiser is powered by a giant now

2295

01:34:21,530 --> 01:34:19,380

the craft with the craft was silent as

2296

01:34:23,209 --> 01:34:21,540

far as you can tell I I didn't hear like

2297

01:34:24,830 --> 01:34:23,219

when a jet overflies you right and

2298

01:34:27,950 --> 01:34:24,840

you're out there I'd say you hear the

2299

01:34:30,890 --> 01:34:27,960

jet this didn't make any noise

2300

01:34:33,350 --> 01:34:30,900

whatsoever not that it wasn't making

2301

01:34:35,930 --> 01:34:33,360

noise but I didn't hear it

2302

01:34:40,490 --> 01:34:35,940

because the the ship itself that I was

2303

01:34:42,169 --> 01:34:40,500

on is powered by a a huge like a DC-10

2304

01:34:47,570 --> 01:34:42,179

jet engine

2305

01:34:49,669 --> 01:34:47,580

it's burning kerosene and it's all you

2306

01:34:51,950 --> 01:34:49,679

know down geared back down to the shaft

2307

01:34:53,990 --> 01:34:51,960

to the propellers and whatever else but

2308

01:34:55,610 --> 01:34:54,000

the sound that comes from the from the

2309

01:34:58,610 --> 01:34:55,620

Smoke Stack or whatever you want to call

2310

01:35:00,649 --> 01:34:58,620

the exhaust it's it sounds like a jet

2311

01:35:04,250 --> 01:35:00,659

engine running you hear the Whistle the

2312

01:35:06,530 --> 01:35:04,260

wine and all that so but but anytime

2313

01:35:09,169 --> 01:35:06,540

you're on one of those vessels and say

2314

01:35:11,450 --> 01:35:09,179

Navy jets fly over you like and they do

2315

01:35:12,770 --> 01:35:11,460

all the time well you hear the Navy jet

2316

01:35:14,570 --> 01:35:12,780

fly over because they're really loud

2317

01:35:17,090 --> 01:35:14,580

right this thing

2318

01:35:18,709 --> 01:35:17,100

didn't and it also didn't show up on

2319

01:35:20,390 --> 01:35:18,719

radar somebody was saying you ran down

2320

01:35:22,189 --> 01:35:20,400

and checked and it was not on radar it

2321

01:35:23,629 --> 01:35:22,199

should have been on radar you made it

2322

01:35:25,189 --> 01:35:23,639

down quickly

2323

01:35:26,810 --> 01:35:25,199

um and Michael has explained this in

2324

01:35:28,550 --> 01:35:26,820

detail in my first interview for people

2325

01:35:30,350 --> 01:35:28,560

who want to watch that I know you got to

2326

01:35:32,450 --> 01:35:30,360

go just quickly why don't we use the

2327

01:35:34,790 --> 01:35:32,460

technology if we've cracked Gravity the

2328

01:35:36,410 --> 01:35:34,800

just your brief version of why we

2329

01:35:37,910 --> 01:35:36,420

wouldn't break out this technology if we

2330

01:35:41,030 --> 01:35:37,920

had it

2331

01:35:44,930 --> 01:35:41,040

well why would you you don't need to

2332

01:35:46,850 --> 01:35:44,940

so the Russians have they're they're you

2333

01:35:50,870 --> 01:35:46,860

know fifth or sixth generation Fighters

2334

01:35:52,129 --> 01:35:50,880

we've got our F-22 and now the F-35 to

2335

01:35:54,290 --> 01:35:52,139

counter that

2336

01:35:55,790 --> 01:35:54,300

the Chinese have whatever junk they

2337

01:35:59,750 --> 01:35:55,800

create

2338

01:36:02,270 --> 01:35:59,760

um you don't need to come out with UFO

2339

01:36:07,850 --> 01:36:02,280

type technology to defeat your adversary

2340

01:36:10,310 --> 01:36:07,860

now would you be using it covertly to do

2341

01:36:11,990 --> 01:36:10,320

what's called ISR intelligence

2342

01:36:14,990 --> 01:36:12,000

surveillance and reconnaissance you know

2343

01:36:17,750 --> 01:36:15,000

spying uh floating silently and

2344

01:36:19,669 --> 01:36:17,760

invisibly over over the Kremlin and

2345

01:36:21,410 --> 01:36:19,679

sucking up data or something like that

2346

01:36:23,930 --> 01:36:21,420

you know or any anything else anywhere

2347

01:36:27,169 --> 01:36:23,940

else in the world sure I could see that

2348

01:36:29,030 --> 01:36:27,179

but you wouldn't want it

2349

01:36:31,250 --> 01:36:29,040

um a you'd have to be very careful about

2350

01:36:34,010 --> 01:36:31,260

where you deploy that thing

2351

01:36:37,129 --> 01:36:34,020

because what if it malfunctions what if

2352

01:36:38,810 --> 01:36:37,139

it has to crash land it it you know then

2353

01:36:41,390 --> 01:36:38,820

then the game is up

2354

01:36:43,430 --> 01:36:41,400

that is if we have that technology I

2355

01:36:45,290 --> 01:36:43,440

personally my speculation is that we do

2356

01:36:48,830 --> 01:36:45,300

but I don't have any proof

2357

01:36:50,570 --> 01:36:48,840

uh but um you just you don't need to

2358

01:36:53,209 --> 01:36:50,580

bring it to Bear because it's not

2359

01:36:55,729 --> 01:36:53,219

necessary and once you do like if they

2360

01:36:58,910 --> 01:36:55,739

rolled it out Monday afternoon

2361

01:37:01,129 --> 01:36:58,920

uh at Palmdale at Skunk Works or

2362

01:37:02,450 --> 01:37:01,139

whatever and had a big big television

2363

01:37:04,070 --> 01:37:02,460

event

2364

01:37:07,370 --> 01:37:04,080

here's our

2365

01:37:10,189 --> 01:37:07,380

what what is it tr3b or whatever

2366

01:37:11,689 --> 01:37:10,199

uh what's the point

2367

01:37:14,689 --> 01:37:11,699

because now everybody's going to be

2368

01:37:18,770 --> 01:37:14,699

clamoring well if you could do that oh

2369

01:37:21,830 --> 01:37:18,780

well clean energy and yeah no that's

2370

01:37:24,649 --> 01:37:21,840

they wouldn't dare they wouldn't dare it

2371

01:37:27,169 --> 01:37:24,659

would be so closely tightly held

2372

01:37:29,390 --> 01:37:27,179

it would be

2373

01:37:31,310 --> 01:37:29,400

I've said this before

2374

01:37:33,709 --> 01:37:31,320

if you have such game-changing

2375

01:37:36,110 --> 01:37:33,719

technology you would really only bring

2376

01:37:38,570 --> 01:37:36,120

it to Bear if you're

2377

01:37:40,790 --> 01:37:38,580

if if you're if your National survival

2378

01:37:43,669 --> 01:37:40,800

was at stake

2379

01:37:46,070 --> 01:37:43,679

if you had no other choice at this stage

2380

01:37:46,790 --> 01:37:46,080

now if another country suddenly cracked

2381

01:37:48,709 --> 01:37:46,800

it

2382

01:37:50,629 --> 01:37:48,719

and rolled out something like that then

2383

01:37:52,070 --> 01:37:50,639

yeah you might say hey yeah well we've

2384

01:37:55,610 --> 01:37:52,080

got one too as a matter of fact we've

2385

01:37:58,010 --> 01:37:55,620

got 15 or whatever right but no you you

2386

01:37:59,510 --> 01:37:58,020

wouldn't there's no there's no need

2387

01:38:01,729 --> 01:37:59,520

there's no need

2388

01:38:03,649 --> 01:38:01,739

it's an ace in the whole technology if

2389

01:38:05,930 --> 01:38:03,659

it exists for real

2390

01:38:09,169 --> 01:38:05,940

and and you don't you don't Reveal Your

2391

01:38:12,530 --> 01:38:09,179

you don't show your cards right so

2392

01:38:14,570 --> 01:38:12,540

that's my take but that's just that

2393

01:38:15,649 --> 01:38:14,580

I was gonna say and with that I will let

2394

01:38:16,970 --> 01:38:15,659

you go

2395

01:38:18,830 --> 01:38:16,980

um like I said folks are asking

2396

01:38:20,750 --> 01:38:18,840

questions about exciting like what he

2397

01:38:23,209 --> 01:38:20,760

did afterwards it's like I interviewed

2398

01:38:26,030 --> 01:38:23,219

him first time and that's what we

2399

01:38:28,430 --> 01:38:26,040

focused on so I will if you search on

2400

01:38:31,970 --> 01:38:28,440

YouTube in my videos you'll see it

2401

01:38:34,310 --> 01:38:31,980

um Michael thank you again yeah it's my

2402

01:38:38,770 --> 01:38:34,320

pleasure Joe well one day we will do

2403

01:38:41,629 --> 01:38:38,780

Paul Hill soon I promise yeah I promise

2404

01:38:45,229 --> 01:38:41,639

that's fine remember the the main reason

2405

01:38:46,189 --> 01:38:45,239

to do the Paul Hill uh book report if

2406

01:38:49,129 --> 01:38:46,199

you will

2407

01:38:51,590 --> 01:38:49,139

is because it just kind of shows you

2408

01:38:54,229 --> 01:38:51,600

that a lot of what we're seeing even

2409

01:38:57,770 --> 01:38:54,239

with the standing up of Arrow

2410

01:39:01,070 --> 01:38:57,780

and all this all these machinations on

2411

01:39:01,970 --> 01:39:01,080

Capitol Hill to me it's like

2412

01:39:04,910 --> 01:39:01,980

um

2413

01:39:06,590 --> 01:39:04,920

don't pretend to me like we have to go

2414

01:39:09,229 --> 01:39:06,600

out and reinvent the wheel

2415

01:39:11,330 --> 01:39:09,239

you know when Bill Nelson the head of

2416

01:39:13,669 --> 01:39:11,340

NASA is talking about you know they set

2417

01:39:16,250 --> 01:39:13,679

up this uh research group and they're

2418

01:39:18,590 --> 01:39:16,260

looking into UAP

2419

01:39:20,810 --> 01:39:18,600

my first question to him and I can't

2420

01:39:25,189 --> 01:39:20,820

believe nobody's asked him this

2421

01:39:28,010 --> 01:39:25,199

is uh what about NASA Langley in the 50s

2422

01:39:31,070 --> 01:39:28,020

60s 70s and Paul Hill who was an

2423

01:39:32,870 --> 01:39:31,080

aerodynamicist a validated employee he's

2424

01:39:33,890 --> 01:39:32,880

got all the Bona fides you can go look

2425

01:39:35,990 --> 01:39:33,900

him up

2426
01:39:38,570 --> 01:39:36,000
he's a he was a real person doing real

2427
01:39:39,649 --> 01:39:38,580
research at a real organization within

2428
01:39:43,970 --> 01:39:39,659
NASA

2429
01:39:45,169 --> 01:39:43,980
are are they even aware of this surely

2430
01:39:47,090 --> 01:39:45,179
they are

2431
01:39:50,090 --> 01:39:47,100
but but somebody needs to ask that

2432
01:39:52,490 --> 01:39:50,100
question what about Paul Hill

2433
01:39:55,790 --> 01:39:52,500
what about NASA Langley's research in

2434
01:39:58,610 --> 01:39:55,800
the 50s 60s 70s and all of these gnomes

2435
01:40:00,229 --> 01:39:58,620
and he shows the math

2436
01:40:03,050 --> 01:40:00,239
in that book

2437
01:40:05,450 --> 01:40:03,060
uh literally shows the research and how

2438
01:40:08,270 --> 01:40:05,460

they derived the answers that they got

2439

01:40:09,950 --> 01:40:08,280

again they got everything they

2440

01:40:11,510 --> 01:40:09,960

understood the Luminosity they

2441

01:40:14,629 --> 01:40:11,520

understood the movement the rapid

2442

01:40:17,450 --> 01:40:14,639

acceleration the right angle turns the

2443

01:40:20,450 --> 01:40:17,460

ground effects the ground traces

2444

01:40:22,610 --> 01:40:20,460

and he has he has exact he has

2445

01:40:25,970 --> 01:40:22,620

you know exact cases

2446

01:40:28,790 --> 01:40:25,980

where these traits were determined or

2447

01:40:30,590 --> 01:40:28,800

observed and then go and proven out

2448

01:40:34,669 --> 01:40:30,600

shows the research

2449

01:40:35,570 --> 01:40:34,679

the physics behind how they verified it

2450

01:40:38,930 --> 01:40:35,580

um

2451
01:40:41,750 --> 01:40:38,940
is NASA today are they using this

2452
01:40:43,669 --> 01:40:41,760
information as as a launching Point as a

2453
01:40:45,350 --> 01:40:43,679
departure point for their current

2454
01:40:47,149 --> 01:40:45,360
research

2455
01:40:48,410 --> 01:40:47,159
that's that's what I would want to ask

2456
01:40:50,510 --> 01:40:48,420
him

2457
01:40:51,530 --> 01:40:50,520
and I I had somebody privately I asked

2458
01:40:53,990 --> 01:40:51,540
him I said what did you think about the

2459
01:40:56,750 --> 01:40:54,000
Kirkpatrick and Avi lobe paper and I'm

2460
01:40:58,669 --> 01:40:56,760
like they called it a BS paper from the

2461
01:41:00,550 --> 01:40:58,679
aspect of when they were talking about

2462
01:41:04,430 --> 01:41:00,560
you would see a fireball you would hear

2463
01:41:05,810 --> 01:41:04,440

a sonic boom this stuff is you know we

2464

01:41:07,550 --> 01:41:05,820

have to stick with physics how we know

2465

01:41:10,070 --> 01:41:07,560

it and this person said they need to

2466

01:41:11,870 --> 01:41:10,080

read Paul Hill's book so yeah

2467

01:41:13,370 --> 01:41:11,880

you're in good company

2468

01:41:14,629 --> 01:41:13,380

um and I need to read it and we need to

2469

01:41:17,450 --> 01:41:14,639

do that show and I'm gonna let you go

2470

01:41:19,189 --> 01:41:17,460

because I'm tired too so all right uh

2471

01:41:24,110 --> 01:41:19,199

we'll talk soon thanks again all right

2472

01:41:28,970 --> 01:41:27,770

I'm glad you guys like that and I know

2473

01:41:30,890 --> 01:41:28,980

there's even more we talk about

2474

01:41:32,990 --> 01:41:30,900

Kirkpatrick he he went into a lot of

2475

01:41:35,090 --> 01:41:33,000

detail as far as uh Steve you had

2476

01:41:36,830 --> 01:41:35,100

mentioned am I getting tired of the it's

2477

01:41:38,689 --> 01:41:36,840

happening soon it's happening soon yeah

2478

01:41:41,890 --> 01:41:38,699

of course I mean that's why I'm like all

2479

01:41:45,169 --> 01:41:41,900

right we'll see this year this summer

2480

01:41:46,250 --> 01:41:45,179

people are making so many predictions

2481

01:41:48,410 --> 01:41:46,260

and

2482

01:41:50,209 --> 01:41:48,420

some of them allegedly work in

2483

01:41:51,590 --> 01:41:50,219

intelligence Like Richard butt on

2484

01:41:52,790 --> 01:41:51,600

Twitter and then you have Gary Nolan

2485

01:41:54,350 --> 01:41:52,800

saying this summer is going to bring

2486

01:41:56,330 --> 01:41:54,360

some really good stuff by the end of the

2487

01:41:57,890 --> 01:41:56,340

summer end of the year

2488

01:41:59,510 --> 01:41:57,900

um I had my own source tell me stuff was

2489

01:42:01,390 --> 01:41:59,520

coming but they did not put a time frame

2490

01:42:04,370 --> 01:42:01,400

on it which is smart I'm not really

2491

01:42:05,689 --> 01:42:04,380

anytime anybody gives a

2492

01:42:07,729 --> 01:42:05,699

uh

2493

01:42:09,830 --> 01:42:07,739

a time frame I'm always skeptical

2494

01:42:11,629 --> 01:42:09,840

because it never happens and it rarely

2495

01:42:15,050 --> 01:42:11,639

ever happens so it's never smart to give

2496

01:42:18,290 --> 01:42:15,060

a time frame but you know you had

2497

01:42:19,790 --> 01:42:18,300

John Ramirez saying in the next few

2498

01:42:21,890 --> 01:42:19,800

months we're going to have disclosure

2499

01:42:22,790 --> 01:42:21,900

and Steve Bassett saying that so we'll

2500

01:42:24,950 --> 01:42:22,800

see

2501

01:42:28,129 --> 01:42:24,960

I mean I'm not expecting that but if it

2502

01:42:30,470 --> 01:42:28,139

happens we're great great but

2503

01:42:32,689 --> 01:42:30,480

you know I'd rather I'd rather

2504

01:42:34,729 --> 01:42:32,699

be the one who says

2505

01:42:36,530 --> 01:42:34,739

don't hold your breath and if I'm wrong

2506

01:42:38,090 --> 01:42:36,540

great

2507

01:42:41,090 --> 01:42:38,100

um we'll see it's not I mean we're in

2508

01:42:42,530 --> 01:42:41,100

April mid April so April 23rd

2509

01:42:44,510 --> 01:42:42,540

we don't have that we don't have that

2510

01:42:46,070 --> 01:42:44,520

long to wait it's going to go quickly we

2511

01:42:48,169 --> 01:42:46,080

get Lou's book at the end of the year

2512

01:42:51,649 --> 01:42:48,179

could that be part of that

2513

01:42:53,570 --> 01:42:51,659

I hope so I mean Lou said when we read

2514

01:42:56,629 --> 01:42:53,580

his books we're gonna say

2515

01:42:58,550 --> 01:42:56,639

oh that was really well now that makes

2516

01:43:00,169 --> 01:42:58,560

sense something like that so I hope the

2517

01:43:02,510 --> 01:43:00,179

book is a blockbuster and I hope that's

2518

01:43:04,729 --> 01:43:02,520

part of it I mean I don't know if you

2519

01:43:07,550 --> 01:43:04,739

guys remember but Steven Greer

2520

01:43:09,890 --> 01:43:07,560

love him or hate him uh said that Danny

2521

01:43:11,810 --> 01:43:09,900

Sheehan came to him and said Lou was in

2522

01:43:14,390 --> 01:43:11,820

a government facility and he saw a craft

2523

01:43:17,330 --> 01:43:14,400

so maybe that'll be in the book I I

2524

01:43:19,609 --> 01:43:17,340

would think not you know Lou I think Lou

2525

01:43:21,770 --> 01:43:19,619

denied that and then Sean Cahill came in

2526

01:43:24,290 --> 01:43:21,780

really strong but I still think it might

2527

01:43:28,129 --> 01:43:26,149

um I'm only gonna stand for a couple

2528

01:43:31,250 --> 01:43:28,139

more minutes

2529

01:43:33,169 --> 01:43:31,260

James yeah we'll see

2530

01:43:35,030 --> 01:43:33,179

I mean we keep hearing about James about

2531

01:43:36,290 --> 01:43:35,040

James Webb in announcements I mean sure

2532

01:43:37,729 --> 01:43:36,300

they're going to have eventually they're

2533

01:43:39,410 --> 01:43:37,739

going to have a breakthrough where that

2534

01:43:40,970 --> 01:43:39,420

would make more sense than

2535

01:43:42,350 --> 01:43:40,980

you know

2536

01:43:44,750 --> 01:43:42,360

saying

2537

01:43:47,330 --> 01:43:44,760

aliens are here people can accept a

2538

01:43:51,590 --> 01:43:47,340

James Webb discovery on an exoplanet

2539

01:43:56,629 --> 01:43:54,229

yes I don't consider it BS not yet

2540

01:43:59,270 --> 01:43:56,639

because but and

2541

01:44:01,490 --> 01:43:59,280

Steve passett has been predicting

2542

01:44:02,570 --> 01:44:01,500

disclosure since the mid 90s when I got

2543

01:44:04,910 --> 01:44:02,580

into this

2544

01:44:06,169 --> 01:44:04,920

dedicated guy seems like a nice guy but

2545

01:44:10,250 --> 01:44:06,179

it's like you know

2546

01:44:12,169 --> 01:44:10,260

but it's not just him so I don't know

2547

01:44:13,790 --> 01:44:12,179

Ramirez had just answer for the next few

2548

01:44:15,590 --> 01:44:13,800

months to years no I think I thought he

2549

01:44:17,209 --> 01:44:15,600

said next year would be okay too it's

2550

01:44:18,950 --> 01:44:17,219

just we've been waiting so long it

2551

01:44:21,530 --> 01:44:18,960

wouldn't be that much of a difference

2552

01:44:24,290 --> 01:44:21,540

from a few months to next year

2553

01:44:25,790 --> 01:44:24,300

uh I'd be happy with either one I don't

2554

01:44:27,290 --> 01:44:25,800

expect either one but things are

2555

01:44:29,689 --> 01:44:27,300

happening I mean like Michael said we

2556

01:44:31,729 --> 01:44:29,699

have hearings we never expected hearings

2557

01:44:33,890 --> 01:44:31,739

like this and I and we're talking you

2558

01:44:35,750 --> 01:44:33,900

know basically

2559

01:44:37,550 --> 01:44:35,760

it's like I said if it wasn't for

2560

01:44:39,709 --> 01:44:37,560

hearing about crash retrievals and

2561

01:44:42,050 --> 01:44:39,719

whistleblowers that hearing would just

2562

01:44:44,090 --> 01:44:42,060

be spectacular uh five years ago we

2563

01:44:47,390 --> 01:44:44,100

would be like oh my God I cannot believe

2564

01:44:49,070 --> 01:44:47,400

we're having a hearing on this

2565

01:44:51,590 --> 01:44:49,080

we need to see results now been a long

2566

01:44:53,330 --> 01:44:51,600

time yeah I know I've been

2567

01:44:55,790 --> 01:44:53,340

for me it's

2568

01:44:58,850 --> 01:44:55,800

95 or so so

2569

01:45:00,709 --> 01:44:58,860

Blue's books should be good and

2570

01:45:03,830 --> 01:45:00,719

I'm really looking forward to that one

2571

01:45:06,530 --> 01:45:03,840

uh an arrow the arrow website yeah

2572

01:45:12,709 --> 01:45:08,810

the arrow website he said they submitted

2573

01:45:14,510 --> 01:45:12,719

it all that stuff by December

2574

01:45:16,609 --> 01:45:14,520

um so somebody's dragging their feet and

2575

01:45:19,250 --> 01:45:16,619

that's I think that's the the office

2576

01:45:21,350 --> 01:45:19,260

office of um under secretary of defense

2577

01:45:23,870 --> 01:45:21,360

for intelligence and security

2578

01:45:26,030 --> 01:45:23,880

I think that's the same office Lou had a

2579

01:45:27,649 --> 01:45:26,040

problem with and I think

2580

01:45:30,109 --> 01:45:27,659

gillibrand said they're only supposed to

2581

01:45:33,530 --> 01:45:30,119

be providing uh administrative support

2582

01:45:38,149 --> 01:45:36,229

we'll see I don't know I mean I don't I

2583

01:45:40,790 --> 01:45:38,159

don't really have expectations about

2584

01:45:43,550 --> 01:45:40,800

that big reveal so I listen I'm

2585

01:45:46,370 --> 01:45:43,560

interested and I hope but

2586

01:45:47,810 --> 01:45:46,380

I mean I like the topic as it is because

2587

01:45:50,109 --> 01:45:47,820

it's interesting

2588

01:45:53,270 --> 01:45:50,119

I would love to get some sort of

2589

01:45:56,149 --> 01:45:53,280

Revelation before I die in the house

2590

01:45:58,310 --> 01:45:56,159

hearings in June could be good

2591

01:45:59,930 --> 01:45:58,320

um even if it's just people we know

2592

01:46:01,910 --> 01:45:59,940

because the general public really hasn't

2593

01:46:04,129 --> 01:46:01,920

heard from Lou in a long form setting if

2594

01:46:07,129 --> 01:46:04,139

he's sitting there asking questions and

2595

01:46:10,129 --> 01:46:07,139

the Republicans are really tough as far

2596

01:46:14,030 --> 01:46:10,139

as asking questions the ones we saw

2597

01:46:15,910 --> 01:46:14,040

um that would be fantastic and even then

2598

01:46:18,050 --> 01:46:15,920

you can get some of Lou's non

2599

01:46:20,209 --> 01:46:18,060

non-answers in a hearing setting would

2600

01:46:22,370 --> 01:46:20,219

be pretty good

2601

01:46:25,310 --> 01:46:22,380

Greer is holding disclosure in June I

2602

01:46:27,470 --> 01:46:25,320

know he has an event uh we'll see hey if

2603

01:46:29,270 --> 01:46:27,480

he has good Witnesses all power to him I

2604

01:46:30,050 --> 01:46:29,280

mean

2605

01:46:32,149 --> 01:46:30,060

um

2606

01:46:34,490 --> 01:46:32,159

we'll see that's only a couple of months

2607

01:46:38,750 --> 01:46:36,709

yeah I mean

2608

01:46:40,609 --> 01:46:38,760

I don't know how he supported himself

2609

01:46:42,410 --> 01:46:40,619

from from UFOs he doesn't really sell

2610

01:46:44,270 --> 01:46:42,420

anything Bassett he has his website

2611

01:46:46,189 --> 01:46:44,280

paradigm

2612

01:46:48,109 --> 01:46:46,199

research

2613

01:46:49,910 --> 01:46:48,119

um so

2614

01:46:51,410 --> 01:46:49,920

why do so many think they are coming

2615

01:46:52,850 --> 01:46:51,420

from another planet when it could be a

2616

01:46:55,070 --> 01:46:52,860

dimension here on Earth that's what I

2617

01:46:58,129 --> 01:46:55,080

didn't like about Kirkpatrick saying you

2618

01:47:00,310 --> 01:46:58,139

know anywhere from foreign adversary to

2619

01:47:02,689 --> 01:47:00,320

extraterrestrial which was an extreme

2620

01:47:04,729 --> 01:47:02,699

theory he said it's not an extreme

2621

01:47:06,890 --> 01:47:04,739

theory if you're a scientist there is no

2622

01:47:09,709 --> 01:47:06,900

extreme Theory either the data is there

2623

01:47:11,629 --> 01:47:09,719

or the data is not as far as non-human

2624

01:47:13,490 --> 01:47:11,639

not extraterrestrial I think you should

2625

01:47:15,890 --> 01:47:13,500

have said non-human or not just

2626

01:47:17,570 --> 01:47:15,900

anomalous it's really tough like I said

2627

01:47:19,250 --> 01:47:17,580

to figure out what it is even if we have

2628

01:47:20,930 --> 01:47:19,260

a crash retrieval with bodies you can

2629

01:47:23,149 --> 01:47:20,940

say well they look like they're not

2630

01:47:24,530 --> 01:47:23,159

human and we can't make that but you

2631

01:47:25,669 --> 01:47:24,540

can't say it's from another planet you

2632

01:47:28,189 --> 01:47:25,679

can't say it's in you know

2633

01:47:29,689 --> 01:47:28,199

extraterrestrial could be based here it

2634

01:47:31,430 --> 01:47:29,699

could be future humans who the hell

2635

01:47:32,090 --> 01:47:31,440

knows you can't there's no way to prove

2636

01:47:34,310 --> 01:47:32,100

that

2637

01:47:36,830 --> 01:47:34,320

I've made a joke unless it says made on

2638

01:47:39,470 --> 01:47:36,840

Mars on the on the on the aliens butt

2639

01:47:43,609 --> 01:47:39,480

you know or the or the saucer but

2640

01:47:47,330 --> 01:47:45,590

I have not done it I haven't even read

2641

01:47:49,970 --> 01:47:47,340

it all I haven't even read it you know

2642

01:47:51,530 --> 01:47:49,980

so I need to and I know there's a lot of

2643

01:47:54,350 --> 01:47:51,540

good stuff in there

2644

01:47:58,310 --> 01:47:54,360

I could do a 10 hour forbidden signs

2645

01:48:03,109 --> 01:48:00,709

yeah we'll see we'll see that's that's

2646

01:48:05,209 --> 01:48:03,119

important if it's high level folks like

2647

01:48:07,310 --> 01:48:05,219

I said somebody if it's a name we know

2648

01:48:09,950 --> 01:48:07,320

from within the government saying I saw

2649

01:48:11,330 --> 01:48:09,960

X Y and Z that'll make a difference I

2650

01:48:13,129 --> 01:48:11,340

don't think it'll be enough it won't be

2651
01:48:16,550 --> 01:48:13,139
proof and it won't be enough evidence

2652
01:48:17,870 --> 01:48:16,560
for people if it's just anecdotal

2653
01:48:19,310 --> 01:48:17,880
um

2654
01:48:21,169 --> 01:48:19,320
Moultrie I don't know if moultry

2655
01:48:24,590 --> 01:48:21,179
stonewalling multi was probably not

2656
01:48:26,629 --> 01:48:24,600
given a lot of information on purpose

2657
01:48:29,990 --> 01:48:26,639
um

2658
01:48:32,870 --> 01:48:30,000
I don't know what this is in response to

2659
01:48:36,290 --> 01:48:32,880
but I think yeah how will people be able

2660
01:48:40,010 --> 01:48:36,300
to handle if I mean I I think ESP and

2661
01:48:43,550 --> 01:48:41,689
I don't think people are ready for a

2662
01:48:44,810 --> 01:48:43,560
world where there are no secrets Lou in

2663
01:48:46,010 --> 01:48:44,820

front of Congress would be great you

2664

01:48:48,169 --> 01:48:46,020

would think they would have already

2665

01:48:49,970 --> 01:48:48,179

since he was you would think I don't

2666

01:48:52,310 --> 01:48:49,980

understand how he hasn't

2667

01:48:53,930 --> 01:48:52,320

he hasn't been in front how is

2668

01:48:56,090 --> 01:48:53,940

gillibrand not saying you know what I

2669

01:48:58,609 --> 01:48:56,100

want luellizando here maybe there's

2670

01:48:59,570 --> 01:48:58,619

something I'm missing

2671

01:49:01,609 --> 01:48:59,580

um

2672

01:49:03,229 --> 01:49:01,619

yeah maybe not 10 hours on valet's

2673

01:49:04,910 --> 01:49:03,239

latest book but I'd put a seven hour

2674

01:49:07,850 --> 01:49:04,920

Forbidden Science I need to do it

2675

01:49:11,629 --> 01:49:07,860

there's a lot of good stuff in there

2676

01:49:13,490 --> 01:49:11,639

I will try I will try

2677

01:49:15,709 --> 01:49:13,500

um all right I'm gonna go thanks again

2678

01:49:20,810 --> 01:49:15,719

guys thanks for the money the donations

2679

01:49:22,490 --> 01:49:20,820

the questions I appreciate it and I will

2680

01:49:24,050 --> 01:49:22,500

I don't know when I'm doing it again I

2681

01:49:25,490 --> 01:49:24,060

really need I really want to do the

2682

01:49:27,950 --> 01:49:25,500

Twitter stuff where I just go through my

2683

01:49:31,010 --> 01:49:27,960

there's so much good stuff on Twitter

2684

01:49:32,870 --> 01:49:31,020

or just play videos from shows and and

2685

01:49:34,550 --> 01:49:32,880

just comment on stuff because there's a

2686

01:49:36,550 --> 01:49:34,560

lot of stuff going on even some of the

2687

01:49:39,709 --> 01:49:36,560

negative stuff is worth talking about

2688

01:49:43,430 --> 01:49:39,719

not really negative but

2689

01:49:48,709 --> 01:49:43,440

anyway all right I'm gonna go thank you

2690

01:49:53,570 --> 01:49:50,810

on some show I don't know what we're
